Adviser Self-Service: Student Center

The pages in View My Advisees facilitate adviser access to academic information for meetings and communication between adviser and student. AIS users may look up students on an individual basis using the pages in New/Drop-In Advisees pages. Super-users may attach their (or other users) User ID to a student’s ID. This creates a list of advisees on View Advisees Information. Student information is found on the Student Advising Summary and Student Details.

This training manual documents the process by which an adviser looks up student information in AIS.

If you have questions please email the AIS Help Desk (ais-help@ucsc.edu).
