Academic Information Systems User Information: Academic Advisement Report

The Academic Advisement Report provides degree audit information for students and advisers. The report displays university, statistics, general education, major, minor, senior comprehensive, college, and senior residency requirements. The report indicates how completed coursework applies to requirements. Within the report, students may search for classes that satisfy requirements and add classes to their enrollment shopping cart or planner.

Graduation certification and requirement satisfaction must be officially approved by the appropriate certifying agency. An Academic Advisement Report is an unofficial report and shall not, in any case, constitute approval of satisfaction or revision of requirements.

Please consult the General Catalog for additional information about requirements: <http://REG.UCSC.EDU/catalog>

Double Counting

This section of the Academic Advisement Report is displayed for double majors. It displays UCSC's Upper-division double counting policy and lists the Upper-division courses applied to each major and minor. This section of the report can help students and advisers consider which courses, if eligible, might be considered for double counting.

Double Counting

Double Counting: Beginning fall 2008, UCSC Academic Senate Regulation 10.4.7 allows overlap or double-counting of courses at the upper-division level. However, the Regulation places a limit on the amount of such overlap. For each major a student completes, there must be at least 40 upper-division credits not used to satisfy the minimum upper-division credits of any other major or minor. For each minor there must be at least 25 upper-division credits not used to satisfy the minimum upper-division credits of any other major or minor. For more information about this policy, please refer to the Academic Senate Regulation 10.4.7.

Psychology BA (Psychology BA Intensive): 56 upper-division credits
