Financial support for students includes a variety of fellowships, research assistantships, and teaching assistantships in the Education Department. Students may participate in research projects under the auspices of several interdisciplinary research centers, including the Chicano/Latino Research Center (CLRC), the Vocabulary Innovations in Education (VINE) project, The Teachers With Computers: Ward Annotations for Vocabulary Education (tecWAVE) project, Effective Science Teaching for English Language Learners (ESTELL) project, The Center for Collaborative Research for an Equitable California (CREC), and the Center for Educational Research in the Interest of Underserved Students (ERIUS).

Designated Emphasis in Education

The Designated Emphasis in Education enables doctoral students in other departments to pursue interests in education and obtain formal certification of a "minor" level of competence in the field of education. The requirements for obtaining a Designated Emphasis in Education are the following:

1. Obtain a designated graduate adviser from the faculty in education. This adviser will be in addition to the graduate adviser from the student's home department. The education adviser must serve on the student's qualifying examination committee and, as appropriate, may also serve on the student's dissertation committee.
2. Complete at least two of the following three core courses in education:
 - EDUC 261, Thinking, Learning, and Teaching
 - EDUC 262, Social and Cultural Context of Education
 - EDUC 263, Foundations of Educational Reform
3. Complete additional courses as needed to total five graduate courses in education, no more than one of which may be a directed readings course (Independent Studies). Courses must be approved by the student's graduate adviser in education. Courses in

other departments focused on education may be approved by petition to the Education Department's Doctoral Programs Committee.

4. Prepare a significant piece of writing in some area of education. This writing may take the form of a substantial position paper (seminar paper, QE paper, dissertation chapter, master's thesis) grounded in the literature of educational research, as determined by the graduate adviser in education.

Education is an institutional field in which scholars from a wide variety of disciplines—including sociology, psychology, politics, economics, mathematics and science—have scholarly interests. A Designated Emphasis in Education enables graduate students from other departments to ground their work in theory and research on important issues in education.

The Education Department's core courses, EDUC 261 and 262, are offered every year; and EDUC 263 is offered biennially. The department typically offers six doctoral courses during each year across five concentrations: language, literacy, and culture; teachers and teacher development; mathematics and science education; learning and teaching, and social and cultural contexts of education. The Education Department annually admits 7–10 Ph.D. students, leaving adequate room for doctoral students from other departments to take courses in education.

For Further Information

Contact the doctoral adviser, by sending an e-mail to edphd@ucsc.edu or view the department's home page on the web at <http://education.ucsc.edu> where potential applicants can obtain full details about the programs.

Faculty and Professional Interests

Professor

Margaret (Greta) A. Gibson, Emerita

June A. Gordon

Urban comparative education; sociology of education; schooling and society in Japan, China, the U.K., and the U.S.A.; marginalized youth and economic conditions

Judit Moschkovich

Mathematics cognition and learning; student conceptions of linear functions; discourse in mathematics and science classrooms; everyday mathematical practices; and bilingual mathematics learners

Rodney Ogawa

Educational leadership, educational reform, and the impact of social institutions on the structure of school organization

Art Pearl, Emeritus

Lucinda Pease–Alvarez

Language and literacy development, language–minority education, bilingualism, informal learning

Trish Stoddart

Teacher education, science education, educational reform

David Swanger, Emeritus

Roland G. Tharp, Emeritus

C. Gordon Wells, Emeritus

Associate Professor

Doris Ash

Informal science learning, teacher professional development, science discourse in and out of the classroom

George Bunch

Language and education in linguistically diverse settings, preparation of teachers for linguistic diversity, language policy, and bilingualism

Ron Glass
Moral and political philosophy and education, ideology and education, race and education, urban school reform

Brad Olsen
Teacher development (with emphasis on knowledge and identity), English education, and sociolinguistics

Judith Scott
Literacy and language learning; academic language; reading, writing, vocabulary development; teachers' professional development through collaboration and inquiry

Jerome Shaw
Scientific inquiry, specifically examining the science education experiences of English language learners and their teachers; includes examining ways in which assessments in English measure content knowledge versus language proficiency

Kip Téllez
Preparation of teachers for linguistic and cultural diversity, second language learning, studies of the school curriculum, educational assessment

Assistant Professor

Lora Bartlett
Educational policy and school reform, schools as workplaces for teachers, the conditions of teachers' commitment

Cynthia Cruz
Street ethnography; community-based learning and pedagogies; decolonial feminist pedagogies; Chicana studies and epistemologies; U.S. Third World Feminisms; cultural studies and education

Eduardo Mosqueda
Mathematics education of English learners; large-scale data set quantitative analysis; urban education issues

Professor

Catherine R. Cooper (Psychology)
Cultural perspectives on child and adolescent development; linkages among families, peers, schools, and work; issues of diversity, ethnicity, and gender in identity; research, practice, and policy in university outreach programs; linking qualitative and quantitative research

Bruce N. Cooperstein (Mathematics)
Algebra, algebraic number theory

Barbara Rogoff (Psychology)
Human development in sociocultural activity; informal and formal arrangements for learning; adult/child and peer communication in families and schools in diverse cultural communities; learning through observation; cognitive development, especially problem solving, planning, and attention

Lower-Division Courses

50A. CAL Teach 1: Science and Mathematics (2 credits).

Introductory seminar exploring secondary students, teaching, and schools in the context of science and/or mathematics instruction. Concurrent participation in a secondary school internship required. Course material supports and enhances students' placement experiences. Prerequisite(s): Acceptance into CAL Teach and concurrent participation in a secondary school internship in a science or math classroom. Enrollment limited to 25. (General Education Code(s): PR–S.) The Staff

50B. CAL Teach 1: Mathematics (2 credits). F,W

Introductory seminar exploring secondary students, teaching, and schools in the context of mathematics instruction. Concurrent participation in a secondary school internship required. Course material supports and enhances students' placement experiences. Prerequisite(s): Acceptance into CAL Teach and concurrent participation in a secondary school internship in a math classroom. Enrollment limited to 25. (General Education Code(s): PR–S.) The Staff

50C. CAL Teach 1: Science (2 credits). F,W

Introductory seminar exploring secondary students, teaching, and schools in the context of science instruction. Concurrent participation in a secondary school internship required. Course material supports and enhances students' placement experiences. Prerequisite(s): Acceptance into CAL Teach and concurrent participation in a secondary school internship in a science classroom. Enrollment limited to 25. (General Education Code(s): PR–S.) The Staff

60. Introduction to Education: Learning, Schooling, and Society. F,S

Explores the foundations of learning and teaching, the social and political forces within schools and school systems in the U.S., and the educational policies and practices in culturally and linguistically diverse communities. (General Education Code(s): IS, E.) L. Bartlett, D. Ash

96. Theory and Practice of Peer–Guided Learning for Tutors and Learning Assistants (2 credits). F,W

Provides first–time tutors and supplemental–instruction learning assistants with the

Upper–Division Courses

100A. Cal Teach 2: Science and Mathematics (2 credits). F
Examines students, schools, and science and/or mathematics instruction with emphasis on developing an instructional project aligned with state–mandated content standards. Concurrent participation in a secondary school internship required. Course content supports and enhances students' internship experience. (Formerly course 75A.) (General Education Code(s): W satisfied by taking this course and course 185L.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50A, 50B, or 50C; and acceptance into the Cal Teach program. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. The Staff

100B. Cal Teach 2: Mathematics (2 credits). S
Examines students, schools, and mathematics instruction with emphasis on developing an instructional project aligned with state–mandated content standards. Concurrent participation in a secondary school internship required. Course content supports and enhances students' internship experience. (Formerly course 75B.) (General Education Code(s): W satisfied by taking this course and course 185L.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50A, 50B, or 50C; and acceptance into the Cal Teach program. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. The Staff

100C. Cal Teach 2: Science (2 credits). S
Examines students, schools, and science instruction with emphasis on developing an instructional project aligned with state–mandated content standards. Student must concurrently participate in a K–12 school internship. Concurrent participation in a secondary school internship required. Course content supports and enhances students' internship experience. (Formerly course 75C.) (General Education Code(s): W satisfied by taking this course and course 185L.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50A, 50B, or 50C; and acceptance into the Cal Teach program. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. The Staff

102. Education, Media, and Society. *
Focusing on ways the media (both news and the entertainment industry) portrays schools, teachers, and students to the public, investigates the way society views education, the way education is presented in the media, and the way education is influenced by society. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): IM.) B. Olsen

104. Ethical Issues and Teaching. *
Emphasizes a philosophical exploration of the moral complexities of teaching. Students read theoretical investigations of these complexities, and examine case studies that pose difficult moral questions and illuminate the dilemmas of everyday life in classrooms. Course is grounded in a dialogical approach to learning. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. R. Glass

115. K–12 Student Assessment. F
Provides an overview of educational testing. Appropriate use and interpretation of standardized, classroom achievement and special needs assessments are examined. Issues on fair testing of diverse populations of students are discussed within each topic area. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. The Staff

120. The Arts in Schools: Aesthetic Education Theory and Practice. *
Explores the historical legacy of the arts within education; considers aesthetic education as

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>an inter-arts philosophical and practical endeavor; studies alternatives to the current situation of the arts in education; develops theory, curricula and methods necessary to teach the arts. Addresses both elementary and secondary teaching in the arts. Meets third-course requirements. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): IM.) B. Olsen</p> <p>125. Multicultural Children's Literature for Elementary Classrooms. W Offers opportunities for undergraduate and graduate students to learn about fundamental aspects of children's literature, increase their knowledge of range and quality of children's literature, enhance their understanding of multicultural children's literature, and develop ways to integrate children's literature into elementary- and middle-school curriculum areas. (Formerly Introduction to Teaching Children's Literature in Grades K-8.) Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. The Staff</p> <p>128. Immigrants and Education. F Research and theory on the education of immigrant students. Major topics include the Americanization movement and America's changing demography, identity maintenance and change, home-school relations, and educators' roles in meeting the needs of culturally and linguistically diverse student populations. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): ER, E.) The Staff</p>
Teaching and Administrative Staff	
Appendixes

Nondiscrimination Statement	
	<p>135. Gender and Education. W Addresses the changing but continuing patterns of unequal expectations, opportunities, and treatment throughout the educational system for all students, female and male, who do not match a standard model of gender performance. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. C. Cruz</p> <p>140. Language, Diversity, and Learning. S Explores the intersection between language, diversity, and education to examine the education of youth who have been historically underserved by schools. Topics include dialect and register variation; language policy; and sociocultural perspectives on learning/teaching of language. Enrollment restricted to junior and senior students. Enrollment limited to 50. (General Education Code(s): ER, E.) L. Pease-Alvarez</p> <p>141. Bilingualism and Schooling. S Introduces participants to issues related to the schooling of students who speak languages other than or in addition to English. Uses a multidisciplinary perspective to understand the circumstances these students face in schools and considers approaches and policies that best meet their needs. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): E.) G. Bunch</p> <p>160. Issues in Educational Reform. W Explores a variety of perspectives on key educational policy issues including desegregation, bilingual education, affirmative action, charter schools, national and state curriculum standards, student assessment and the assessment and certification of teachers. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. L. Bartlett</p> <p>164. Urban Education. W Focuses on urban schooling through critical readings, fieldwork, group projects, and extensive writing. Students explore how socialization, marginalization, and assimilation impede or support academic success, how class intersects with "race", and how "culture" affects one's orientation to education. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. Satisfies American History and Institutions Requirement. (General Education Code(s): E.) The Staff</p> <p>170. East Asian Schooling and Immigration. F Focuses on an historical and contemporary study of education in Japan, China, Korea, Hong Kong, and Taiwan, and the adaptation to schooling in the U.S. of immigrant families from those cultures. Topics include the effects on schooling of language acquisition, religion and cultural practices, family patterns, socioeconomic status, career aspirations, and parental expectations. (Formerly Schools and Asian Cultures.) Prerequisite(s):</p>

Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50.
(General Education Code(s): CC.) J. Gordon

171. South and Southeast Asian Schooling and Immigration. S
Historical and contemporary study of education in India, Vietnam, Cambodia, Laos, and the Philippines, and the adaptation to schooling in the U.S. of immigrant families. Topics include: effects of language acquisition; religion and cultural practices; family patterns; socioeconomic status; career aspirations; and parental expectations. Prerequisite(s): Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50.
(General Education Code(s): CC.) J. Gordon

173. Seminar in Critical Pedagogy. S
Philosophical and pedagogical exploration of relationships among oppression, power, society, education, and change. Examines how history, power, economics, and discrimination shape societal perspectives and schooling practices, and considers ways to transform education. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. May be repeated for credit. B. Olsen

177. Teaching Culturally and Linguistically Diverse Students Math and Science. S
Examines equity issues in the learning and teaching of math and science in culturally and linguistically diverse school settings. Draws on multicultural, bilingual, and math/science education perspectives. Intended for undergraduate majors considering a K-12 teaching career. Satisfies an elective requirement for the minor in education program. Prior completion of course 180 is advised. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): ER.) E. Mosqueda

180. Introduction to Teaching. F,W
Designed to encourage students to think about teaching in new ways. Assumptions about teaching and schooling are examined as well as considering what it takes to teach so that children learn and understand. Not a course in how to teach, but an opportunity to reconsider what teaching should try to accomplish and what kinds of learning teachers should foster. Practicum in the schools of 30 hours per quarter required. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 120. The Staff

181. Race, Class, and Culture in Education. F
Examines the schooling experience and educational attainment of racial/ethnic minority students in the U.S. Focuses primarily on domestic minorities. Addresses issues of variability between and within minority groups and the role of cultural, structural, and psychological factors in the educational attainment of these students. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. (General Education Code(s): ER, E.) C. Cruz

182. American Teacher. W
Examines multiple and competing images of "teachers" and, more specifically, notions of the "good teacher"; also explores social, cultural, historical, and policy context of teachers' work in the U.S. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. The Staff

183. Children's Mathematical Thinking. *
Provides an introduction to children's mathematical thinking and an overview of major themes, issues, and questions that researchers in mathematics education have studied in relation to children's mathematical thinking. Prerequisite(s): course 60. Enrollment restricted to junior and senior education minors. Enrollment limited to 50. J. Moschkovich

185B. Introduction to Teaching Mathematics. W
Provides an introduction to principles and practices for teaching mathematics in secondary classrooms; examines theoretical and practical approaches to teaching mathematics; provides an introduction to national and state standards and an overview of mathematics curricula and current issues in mathematics teaching. Enrollment restricted to majors in mathematics, physics, Earth sciences, computer science, computer engineering, and electrical engineering or to STEM minors. Enrollment limited to 50. The Staff

185C. Introduction to Teaching Science. W

An introduction to the principles and practices for teaching science in secondary classrooms. Course examines theoretical and practical approaches to teaching science, provides an introduction to national and state standards and an overview of science curricula and current issues in science teaching. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 50. The Staff

185L. Introduction to Teaching: Cal Teach 3 (3 credits). W

Supplements theoretical and practical introduction to the teaching of science or mathematics with subject-pedagogical approaches. Concurrent participation in an advanced Cal Teach internship provides context to apply theory and practical techniques. (Formerly course 180A.). (General Education Code(s): W satisfied by taking this course and one of the following: courses 100A, 100B, and 100C.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50A, 50B, or 50C; previous or concurrent enrollment in courses 100A, 100B, or 100C; 185B or 185C. Enrollment restricted to juniors and seniors or education minors. Enrollment limited to 30. The Staff

187. Cognition and Instruction. *

Addresses the question, "How do people learn?" by examining theories of learning and research on cognition, learning, and instruction. Enrollment restricted to juniors, seniors, or education minors. Enrollment limited to 60. The Staff

194. Group Projects. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194F. Group Projects (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

197A. Cal Teach Special Project (1 credit). F,W,S

Work with K-12 students on science or math projects, ideally involving inquiry-based learning. Site supervision provided by a credentialed teacher. Project-dependent reading and writing assignments negotiated with instructor. Projects will be offered as available or initiated by student. Enrollment by interview only. Pre-requisite(s): course 50A, 50B, or 50C. Enrollment restricted to majors in the physical and biological sciences and majors in the school of engineering. May be repeated for credit. The Staff

197B. Cal Teach Special Project (2 credits). F,W,S

Work with K-12 students on science or math projects, ideally involving inquiry-based learning. Site supervision provided by a credentialed teacher. Project-dependent reading and writing assignments negotiated with instructor. Projects will be offered as available or initiated by student. Enrollment by interview only. Pre-requisite(s): course 50A, 50B, or 50C. Enrollment restricted to majors in the physical and biological sciences and majors in the school of engineering. May be repeated for credit. The Staff

197C. Cal Teach Special Project (3 credits). F,W,S

Work with K-12 students on science or math projects, ideally involving inquiry-based learning. Site supervision provided by a credentialed teacher. Project-dependent reading and writing assignments negotiated with instructor. Projects will be offered as available or initiated by student. Enrollment by interview only. Pre-requisite(s): course 50A, 50B, or 50C. Enrollment restricted to majors in the physical and biological sciences and majors in the school of engineering. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200. Beginning Student Teaching. F

A required course that introduces students to the diverse cultural and linguistic settings of today's classrooms. Classroom practices, instructional strategies, and analysis are emphasized. First course in the student teaching placement series. Placements are used to examine and apply teaching methods while developing classroom management skills. Class meetings include discussion and demonstration of teaching methods. (Formerly Applied Classroom Analysis and Methods: Beginning Student Teaching.) Enrollment restricted to MA/credential students. The Staff

201. Intermediate Student Teaching. W

Designed to provide students enrolled in the UCSC teacher education program a coherent, integrated, pre-professional experience in public school classrooms. Students assume part-time student teaching responsibilities totalling 14-16 hours per week under the direct supervision of an exemplary classroom teacher. Weekly seminars and ongoing supervision by department staff are required. Prerequisite(s): course 200. Enrollment restricted to MA/credential students. The Staff

201A. Intermediate Student Teaching: Single Subject. W

Provides advanced pre-professional experience for single subject teaching candidates who progressively assume full-time responsibility for public school student teaching beginning in winter quarter. Taken concurrently with course 201. Weekly supervision and seminars with teacher supervisors are required. Prerequisite(s): course 200. Enrollment restricted to MA/credential students. The Staff

202A. Advanced Student Teaching. S

Designed for students who have extensive field and course experience in education, and who wish to qualify for the single-subject or multiple-subject teaching credential by undertaking a quarter of full-time, supervised student teaching. Prerequisite(s): course 201. Enrollment restricted to M.A./credential students. The Staff

202B. Advanced Student Teaching. S

Designed for students who have extensive field and course experience in education, and who wish to qualify for the single-subject or multiple-subject teaching credential by undertaking a quarter of full-time, supervised student teaching. Prerequisite(s): course 201. Enrollment restricted to M.A./credential students. The Staff

202C. Advanced Student Teaching. S

Designed for students who have extensive field and course experience in education, and who wish to qualify for the single-subject or multiple-subject teaching credential by undertaking a quarter of full-time, supervised student teaching. Prerequisite(s): course 201. Enrollment restricted to M.A./credential students. The Staff

203. Teaching English Language Development: Foundations, Approaches, and Strategies. W

This course will help future educators develop a practical theory for teaching English as a second language in K-5 schools. Topics include the theoretical foundation for language acquisition; current trends and research in the field; the role of culture in teaching English learners; language assessment; and the design of instructional units. Also focuses on teaching social studies to English learners. Enrollment restricted to M.A./credential students. (Formerly, Methods of English Language Development: Multiple Subject Credential) Enrollment restricted to MA/credential students. K. Tellez

204. Methods of English Language Development: Single Subject. F

Course helps future educators develop a practical theory for teaching English in the elementary and secondary schools to students who speak other languages. Topics include current trends in the field, language assessment, and the design of instructional units. Enrollment restricted to MA/credential students. G. Bunch

205. Teaching, Learning, and Schooling in a Diverse Society: Multiple Subject. **

Required for master's students in education. Three basic units comprise the subject

matter: teaching/learning, with such topics as development, learning, pedagogy, and socialization theories; second, schooling, as the context of teaching/learning both in its existent structures and its reform movements; third, the sociocultural context in which educational institutions exist, topics such as cultural and historical forces, political and economic condition, family, and community structures. Enrollment restricted to MA/credential students. C. Wells

206. Teaching, Learning, and Schooling: Single Subject. **

Required for master's students in education. Three basic units comprise the subject matter: teaching/learning, with such topics as development, learning, pedagogy, and socialization theories; schooling, as the context of teaching/learning both in its existent structures and its reform movements; and the sociocultural context in which educational institutions exist, including topics such as cultural and historical forces, political and economic conditions, family, and community structures. Enrollment restricted to MA/credential students. Enrollment limited to 30. P. Stoddart

207. Social Foundations of Education. *

A sustained inquiry into the social, political, economic, and historical foundations of schools with an emphasis on community attitudes toward education. Student narratives of engagement and resistance will provide a basis for insights and interventions useful to educators. Enrollment restricted to MA/credential students. R. Glass, C. Cruz

208. Portfolio Development (2 credits). **

Provides student and faculty adviser with time to confer over the completion of the required portfolio. Enrollment restricted to MA/credential students. The Staff

210. Health, Safety, and Community (2 credits). **

Addresses the preparation of teachers for creating a supportive, healthy environment for student learning. Covers topics related to physical, emotional, and social health. Enrollment restricted to MA/credential students. The Staff

211. Topics in Elementary Education: Teaching Special Populations (2 credits). F

Addresses the preparation of teachers for meeting needs of special populations within the general education setting. Covers basic knowledge, skills, and strategies. Enrollment restricted to MA/credential students. The Staff

212A. Bilingualism and Biliteracy: History, Politics, Theory, and Practice (2 credits). F

Taught in Spanish. Prepares future bilingual teachers to be knowledgeable about history, politics, theory, and practices related to bilingual instructional programs. Topics: second-language acquisition, bilingual-program models, equity pedagogy. Enrollment restricted to MA/credential students. The Staff

212B. Bilingualism and Biliteracy: Language, Literacy and Content Instruction (2 credits). W

Taught in Spanish. Prepares future bilingual teachers to teach language, literacy, and the content areas in ways that address the needs of culturally and linguistically diverse students. Topics: literacy in two languages; academic language; assessment. Enrollment restricted to MA/credential students. The Staff

212C. Bilingualism and Biliteracy: Community and School Partnerships (2 credits). S

Taught in Spanish. Provides opportunities for future bilingual teachers to develop culturally relevant practices that build collaboration between the school, students' families, and community. Topics: Latino culture and history, school-parent communication. Enrollment restricted to MA/credential students. The Staff

213. Child and Adolescent Development for Educators (2 credits). **

Addresses theories of child and adolescent development and how these theories apply to student success in school. Topics include: cognitive, social, emotional, and physical development, and how this knowledge influences decisions teachers make about instruction and their interaction with students. Enrollment restricted to graduate students. Enrollment limited to 25. L. Chamberland

217. Topics in Elementary Education: Physical Education (2 credits). **

Examines pedagogical understanding in teaching physical education. Introduces candidates to theoretical and research basis in physical education and content standards and frameworks. Also investigates and presents instructional practices. Enrollment restricted to MA/credential students. The Staff

218. Topics in Elementary Education: Visual Arts (2 credits). **

Examines pedagogical understanding in teaching visual arts. Introduces candidates to theoretical and research basis for teaching visual arts and content standards and frameworks. Also investigates and presents instructional practices. Enrollment restricted to MA/credential students. The Staff

219. Topics in Elementary Education: Performing Arts (2 credits). **

Examines pedagogical understanding in teaching performing arts. Introduces candidates to theoretical and research basis for teaching performing arts and content standards and frameworks. Also investigates and presents instructional practices. Enrollment restricted to MA/credential students. The Staff

220. Reading and Language Arts for Elementary Classrooms. F

This course provides both a theoretical and practical foundation for literacy instruction, emphasizing reading and language arts instruction in grades K–8. Interactive instruction and field experience will be used to examine curricula, methods, materials, and literacy evaluation. Enrollment restricted to MA/credential students. J. Scott, (F) L. Pease–Alvarez

221. Science Learning and Teaching in Elementary Classrooms. W

Examines constructivist and sociocultural approaches to the learning and teaching of science in elementary classrooms, including beliefs about the nature of science and theories of how children learn science. Provides a critical overview of curricula, instructional theories, and multiple approaches to teaching the "big ideas" in elementary science. Students are billed a materials fee. Enrollment restricted to MA/credential students. J. Shaw

222. Mathematics Learning and Teaching in Elementary Classrooms. F

This course is required for the multiple subject credential. Examines constructivist and sociocultural approaches to the learning and teaching of mathematics in elementary classrooms, including the nature of mathematics and theories of how children learn mathematics. Provides an introduction to mathematics teaching standards and a critical overview of curricula, instructional theories, and multiple approaches to teaching the "big ideas" in elementary mathematics. Enrollment restricted to MA/credential students. The Staff

225. Reading Across the Curriculum in Middle School and Secondary. *

Provides a theoretical and practical foundation for teaching reading within content area instruction in middle school and secondary classrooms. Field experiences and interactive instruction will facilitate learning about strategies, curricula, methods, materials, and observation. Intended for students pursuing a single subject credential. Enrollment restricted to MA/credential students. The Staff

226. English Teaching: Theory and Curriculum. F

Required for the single subject English credential student. Examines sociocultural approaches to the learning and teaching of English in secondary classrooms, including theories of how children learn English language, literature, and composition. Enrollment restricted to MA/credential students. B. Olsen

227. English Teaching for Secondary Classrooms. W

Prepares English single subject credential candidates for student teaching in winter and spring. Course focuses on developing curricula and strategies in the content area. Through classroom placements, students observe and apply techniques to develop curriculum units used in student teaching. Enrollment restricted to MA/credential students. L. Baker

228. Math Education: Research and Practice. F

Examines research on the learning and teaching of mathematics. Topics include the nature of mathematics cognition and learning, how children learn mathematics, mathematical

discourse, and perspectives on addressing diversity in mathematics classrooms. Course is required for M.A./credential students in secondary (single subject) mathematics and of Ph.D. students in mathematics education. Enrollment restricted to MA/credential students. The Staff

229. Teaching Mathematics in the Secondary Classroom. W

Examines constructivist and sociocultural approaches to teaching mathematics in the secondary classroom. Course will provide an introduction to mathematics teaching standards and a critical overview of curricula, instructional theories, and multiple approaches to teaching the "big ideas" in secondary mathematics. Required for mathematics secondary credential. Prerequisite(s): course 228. Enrollment restricted to MA/credential students. A. England

230. Science Education: Research and Practice. F

Examines theoretical approaches to the learning and teaching of science including the nature of scientific knowledge, theories of how children learn science, approaches to scientific discourse, and perspectives on addressing diversity in science classrooms. Course is required for single subjects science credential. Enrollment restricted to MA/credential students. D. Ash

231. Teaching Science in the Secondary Classroom. W

Examines constructivist and sociocultural approaches to teaching science in secondary classrooms. Course will provide a critical overview of curricula, instructional theories, and multiple approaches to teaching the "big ideas" in science. Students are billed a materials fee. Enrollment restricted to MA/credential students. The Staff

232. Social Science: Theory and Curriculum. F

Required for the single subject social science credential student. Tracks both the implicit and explicit connections between theory and practice, illustrating that theory suggests best practice while practice informs theory-formation and testing. Enrollment restricted to MA/credential students. The Staff

233. Social Science Teaching for Secondary Classrooms. W

Prepares social science single subject credential candidates for student teaching in winter and spring. Course focuses on developing curricula and strategies in the content area. Through classroom placements, students observe and apply techniques to develop curriculum units that are used in student teaching. Enrollment restricted to MA/credential students. E. Dyer

235. Introduction to Educational Inquiry. F

Addresses foundational knowledge needed to understand and conduct educational inquiry and research. Topics include epistemology in the human sciences, philosophical foundations of modern research strategies, and general classes of research investigations in education. Enrollment restricted to graduate students. Enrollment limited to 15. R. Ogawa

236. Quantitative Methods in Educational Research. S

Promotes intermediate-level knowledge of quantitative research methods in educational settings. Students learn the foundations of quantitative data theory, general logic behind statistical inference, and specific methods of data analysis in educational contexts. Enrollment restricted to graduate students. Enrollment limited to 15. E. Mosqueda

237. Qualitative Research Methods. W

Graduate level introduction to qualitative methods, with special attention to ethnographic research on schooling. Moves from overview of different methods, through examination of selected studies, to discussion of issues in research design, data collection, analysis, and writing. Enrollment restricted to graduate students; priority is given to graduate students in education. Enrollment limited to 12. L. Bartlett

250. Teacher Thinking, Teacher Knowledge, and Teacher Identity. *

This doctoral seminar explores recent research on teacher thinking, teacher knowledge, and teacher identity to examine interrelationships among teachers' perspectives,

preparation experience, biographies, work contexts, career shapes, professional practices, and effects on student achievement. Enrollment restricted to graduate students. Enrollment limited to 15. B. Olsen

251. Analysis of Activity and Interaction in Educational Settings. *

Analyzes topics, which vary systematically from year to year, including analysis of classroom interaction, video recording and transcription, coding and analysis of discourse data, and software programs for qualitative analysis. Prerequisite(s): course 237. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. The Staff

252. Hermeneutics of Education. *

Investigates philosophical hermeneutics to deeply interrogate education. Addresses such questions as: What is hermeneutics? How is education an hermeneutic enterprise? How does knowing hermeneutics deepen the ability to engage in education research? Enrollment restricted to graduate students. Enrollment limited to 12. B. Olsen

253. Research Design in Mathematics and Science Education. *

Examines multiple approaches to designing research studies in mathematics and science education. Introduces multiple types of research designs and principles used by education researchers examining mathematics/science learning and teaching. Enrollment restricted to graduate students. Enrollment limited to 15. J. Moschkovich

254. Critical and Alternative Paradigms in Education Research. F

Examines theoretical foundations of critical and alternative research paradigms commonly used in education, including critical ethnography, participatory research, counter-storytelling, and social-design experiments. Examines critiques of qualitative/quantitative research from feminist and critical theory; surveys how such critiques have informed the development of new paradigms in education research; and explores the benefits and limits of selected alternative paradigms. Enrollment restricted to graduate students. Enrollment limited to 15. C. Cruz

255. Intermediate Quantitative Methods. *

Focuses on the applied statistical modeling and analysis of educational data (large-scale data sets), not on the mathematical foundations of science. Students learn to address quantitative research questions using general linear model (GLM) statistical methods. GLM includes regression analysis, analysis of variance (ANOVA), and analysis of covariance (ANCOVA). Students learn statistics by doing statistics. Prerequisite(s): introductory statistics course (course 236 or equivalent). Enrollment restricted to graduate students. Enrollment limited to 15. E. Mosqueda

256. Advanced Qualitative Analysis in Education Research. S

Emphasizes the analysis of qualitative data in education research and introduces interpretive analytical approaches for its use with empirical data, the use of coding software for ethnographic analysis, and video recording and transcription. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. B. Olsen

261. Thinking, Learning, and Teaching. W

Examines multiple theoretical perspectives on thinking, learning, and teaching; the development of the whole person in a variety of cultural contexts; the roles thinking, learning, and teaching play in that development; and how researchers' and educators' conceptions shape instruction. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

262. Social and Cultural Context of Education. F

Application of anthropological and sociological theories to study of education. Examines social, cultural, and linguistic context of schooling with particular attention to role of race, class, culture, power, and language in influencing schooling outcomes. Enrollment restricted to graduate students. Enrollment limited to 15. M. Gibson

263. Foundations of Educational Reform. *

Provides students with multiple analytic perspectives from which to examine important educational issues by analyzing political, historical, and philosophical origins of educational reform in the U.S. and internationally. Enrollment restricted to graduate students. Enrollment limited to 15. R. Ogawa

264. Research on Teacher Development and Teacher Education. *

Addresses personal and professional development of teachers. Explores models of teacher education with specific attention to methods and processes by which teachers can be better prepared to work with culturally and linguistically diverse students. Enrollment restricted to graduate students. Enrollment limited to 15. K. Tellez

266. Program Evaluation and Action Research in Educational Reform. *

Overview of the purpose of and practice in program evaluations in a variety of contexts with a specific focus on educational settings. Students learn the techniques of program evaluation; the historical and theoretical context of program evaluations, including its relation to experimental research; and how action research can be used in conducting field-based evaluations. Students should be familiar with basic quantitative and qualitative methodologies. Enrollment restricted to graduate students. Enrollment limited to 15. K. Tellez

268. Schools, Communities, and Families. *

Examines the nexus of schools, communities, and families, and, in particular, how collaboration across institutional boundaries can facilitate school and community reform. Enrollment restricted to graduate students. Enrollment limited to 15. R. Glass

269A. First-Year Doctoral Proseminar (2 credits). F

This three-quarter seminar supports professional development for first-year doctoral students. Students develop essential skills for success as scholars, discuss issues in educational research and practice, and are introduced to research by Education Department faculty. Enrollment restricted to education graduate students. Enrollment limited to 15. G. Bunch

269B. First-Year Doctoral Proseminar (2 credits). W

This three-quarter seminar supports professional development for first-year doctoral students. Students develop essential skills for success as scholars, discuss issues in educational research and practice, and are introduced to research by Education Department faculty. Enrollment restricted to education graduate students. Enrollment limited to 15. G. Bunch

269C. First-Year Doctoral Proseminar (2 credits). S

This three-quarter seminar supports professional development for first-year doctoral students. Students develop essential skills for success as scholars, discuss issues in educational research and practice, and are introduced to research by Education Department faculty. Enrollment restricted to education graduate students. Enrollment limited to 15. G. Bunch

270A. Second-Year Professional Development Seminar (2 credits). F

Three-quarter seminar supports professional development for second-year doctoral students. Activities include preparation of research and conference proposals, presentation of second-year project findings, and attendance at department colloquia. Enrollment restricted to second-year Ph.D. students. Enrollment limited to 12. J. Scott

270B. Second-Year Professional Development Seminar (2 credits). W

Three-quarter seminar supports professional development for second-year doctoral students. Activities include preparation of research and conference proposals, presentation of second-year project findings, and attendance at department colloquia. Enrollment restricted to second-year Ph.D. students. Enrollment limited to 12. J. Scott

270C. Second-Year Professional Development Seminar (2 credits). S

Three-quarter seminar supports professional development for second-year doctoral students. Activities include preparation of research and conference proposals, presentation of second-year project findings, and attendance at department colloquia. Enrollment

restricted to second-year Ph.D. students. Enrollment limited to 12. J. Scott

271. Theoretical Perspectives on Learning and Using Literacy. W

Examines theoretical perspectives, educational issues, and scholarship related to use and development of literacy among diverse populations, particularly those who have not fared well in U.S. schools. Enrollment restricted to graduate students. Enrollment limited to 12. L. Pease-Alvarez

272. Sociolinguistics in Education. S

Investigates discipline of sociolinguistics and explores actual ways in which sociolinguistics has become a useful lens for better understanding teaching, learning, and schooling. Conduct own sociolinguistic analyses of data collected for culminating project. Enrollment restricted to graduate students. Enrollment limited to 15. B. Olsen

273. Language Acquisition, Bilingualism, and Education. *

Foundations of first- and second-language acquisition and bilingualism with emphasis on implications for education in linguistically diverse settings. Topics include linguistic, cognitive, sociolinguistic, and sociocultural approaches to development of languages and the nature of individual and societal bilingualism. Enrollment restricted to graduate students. Enrollment limited to 15. G. Bunch

274. Language and Power in Education. F

Examines relationships between sociopolitical struggles and language/language practices. Students study ways in which Marxism, critical theory, and post structuralism have represented links between language and power, and investigate contemporary studies of language and power in education. Enrollment restricted to graduate students. Enrollment limited to 15. B. Olsen

276. Theory and Practice of Writing. *

Explores first and second language-writing theory, research, and practice, especially relating to language minority students and others considered academically under-prepared. Focuses on educational settings from pre-school settings including families and communities. Enrollment restricted to graduate students. Enrollment limited to 15. G. Bunch, L. Pease-Alvarez

277A. Second-year Doctoral Proseminar (2 credits). *

This three-quarter seminar supports professional development for second-year doctoral students as they prepare their qualifying materials and begin dissertation work. Prerequisite(s): courses 269 A-B-C. Enrollment restricted to graduate students. Enrollment limited to 20. The Staff

277B. Second-year Doctoral Proseminar (2 credits). *

This three-quarter seminar supports professional development for second-year doctoral students as they prepare their qualifying materials and begin dissertation work. Prerequisite(s): courses 269 A-B-C. Enrollment restricted to graduate students. Enrollment limited to 20. The Staff

277C. Second-year Doctoral Proseminar (2 credits). *

This three-quarter seminar supports professional development for second-year doctoral students as they prepare their qualifying materials and begin dissertation work. Prerequisite(s): courses 269 A-B-C. Enrollment restricted to graduate students. Enrollment limited to 20. The Staff

278. Critical Exploration of Reading Theory and Practice. *

Doctoral seminar that examines historical and current research on reading processes and instructional practices. Intensive study of factors affecting the development of proficient, engaged, and reflective readers who can acquire new knowledge from text. Enrollment restricted to graduate students. Enrollment limited to 15. J. Scott

279A. Dissertation Supervision for Ed.D.. F

Supervision of Ed.D. candidate through third and fourth year of research analysis, writing, and editing of dissertation. Preparation for oral defense and assistance with bringing

dissertation to standards of publication and conference presentation. Enrollment restricted to Ed.D. graduate students. Enrollment limited to 20. The Staff

279B. Dissertation Supervision for Ed.D.. W

Supervision of Ed.D. candidate through third and fourth year of research analysis, writing, and editing of dissertation. Preparation for oral defense and assistance with bringing dissertation to standards of publication and conference presentation. Enrollment restricted to Ed.D. graduate students. Enrollment limited to 20. The Staff

279C. Dissertation Supervision for Ed.D.. S

Supervision of Ed.D. candidate through third and fourth year of research analysis, writing, and editing of dissertation. Preparation for oral defense and assistance with bringing dissertation to standards of publication and conference presentation. Enrollment restricted to Ed.D. graduate students. Enrollment limited to 20. The Staff

280. Academic Language. *

Considers and critiques conceptualizations of the language used for academic pursuits, from the early years of schooling to higher education. Focuses on implications for research and practice related to the education of students in linguistically diverse schools and societies. Enrollment restricted to graduate students. Enrollment limited to 15. J. Scott

281. Conceptual Change in Science and Mathematics. *

Examines approaches in cognitive science, mathematics education, and science education to documenting student conceptions in science and mathematics, defining conceptual change, and describing relationship between conceptual change and learning with understanding. Enrollment restricted to graduate students. Enrollment limited to 12. J. Moschkovich

282. Informal Learning in Sciences and Mathematics. *

Explores research on learning outside of school in multiple settings such as museums, after-school clubs, aquariums, workplaces, and homes. Readings draw from multiple fields and disciplines, including cognitive psychology, cognitive anthropology, cognitive science, education, museum education and evaluation, science, and mathematics education. Examine theoretical approaches to describing and understanding how people learn science and mathematics outside of school, empirical studies documenting learning in multiple non-school settings, and diversity issues in out-of-school settings. Enrollment restricted to graduate students. Enrollment limited to 15. D. Ash

283. Equity and Social Justice in Mathematics and Science Education. *

Examines the theory, research, policy and practice of social justice and equity in mathematics and science education in local, national, and international contexts. Emphasizes the promotion of equity and critical mathematics and science literacy in schools and communities. Enrollment restricted to graduate students. J. Shaw

284. Gender in Mathematics and Science Education. *

Explores basic aspects of gender in the fields of mathematics and science education. Discusses historical trends, current dilemmas, and how science and mathematics block or enable access for women. Enrollment restricted to graduate students. Enrollment limited to 15. D. Ash

285. Culture and Learning. *

Examines multiple approaches to the study of the relation between culture and learning. Readings include historical and contemporary perspectives from cognitive science, cognitive anthropology, cross-cultural psychology, cultural psychology, and socio-cultural theories as frameworks for the study of culture and learning. Enrollment restricted to graduate students. Enrollment limited to 15. J. Moschkovich

286. Special Topics in Math and Science Education. *

Focuses on particular issues of theoretical importance to research in mathematics and science education. Topics vary from year to year. Particular issues in cognition, learning, teaching, curriculum, and assessment in mathematics and science education may be covered. Enrollment restricted to graduate students. Enrollment limited to 15. May be

repeated for credit. J. Moschkovich, D. Ash, J. Shaw

287. Issues in Educational Assessment. *

Familiarizes students with the basic concepts of educational assessment and explores issues related to the design and implementation of educational assessment as well as the application of educational assessment in educational research. Enrollment restricted to graduate students. Enrollment limited to 12. J. Shaw

288. Ethnographies of Education. *

Offers opportunity to critique a range of book-length ethnographic studies of education focusing on relationship between culture, learning, and schooling in the U.S. with comparative studies from other countries. Enrollment restricted to graduate students. Enrollment limited to 12. M. Gibson

289. School Organization. W

Applies multiple perspectives drawn from organizational theory, highlighting important aspects of organization of schools, including their operational environment, instructional organization, and professional and bureaucratic dimensions. Enrollment restricted to graduate students. Enrollment limited to 12. R. Ogawa

290. CHAT and Educational Practice and Research. *

Introduction to cultural-historical activity theory (CHAT) based on work of Vygotsky, Bakhtin, and contemporary developments of their ideas. Explores the utility of CHAT as a framework for thinking about educational practice and research. Enrollment restricted to graduate students. Enrollment limited to 15. C. Wells

291. Globalization and Transnationalism in Education. *

Examines educational access and advancement in several nations affected by globalization, national policies, and localized identity and opportunity structures. Attention to language and cultural expectations relevant to research in international contexts and how this knowledge provides reflection on the American condition. (Formerly "Comparative and International Education.") Enrollment restricted to graduate students. Enrollment limited to 15. J. Gordon

292. Ideology and Education. *

Philosophical study of the theory of ideology from Marx to the present and how ideologies (racism, sexism, classism, linguisticism, abilityism) become embodied, reproduced, resisted, and transformed (and particularly the role of education therein). Enrollment restricted to graduate students. Enrollment limited to 22. R. Glass

293A. Research Apprenticeship (2 credits). F,W,S

Research apprenticeship under guidance of faculty member during first or second year of doctoral studies. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

293B. Research Apprenticeship. F,W,S

Research apprenticeship under guidance of faculty member during first or second year of doctoral studies. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

294. Second-Year Research Project. F,W,S

Doctoral students work with faculty advisors to plan, carry out, and write up small independent research project during second year of graduate studies. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

295. Critical Theories of Education. *

Investigates critical theories in education. Situates the themes against and within critical theory and philosophic foundations of Paulo Freire's theory of liberation education. Elaborates these themes within the discourses on critical race theory and education, and feminism and education. Enrollment restricted to graduate students. Enrollment limited to 15. R. Glass

296. Educational Policy and the Context of Teachers' Work. *

Focuses on both the conceptual and methodological developments in the study of policy and on the research relation to the policy context of teachers' work. Enrollment restricted to graduate students. Enrollment limited to 12. L. Bartlett

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297F. Independent Study (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

298. TA Apprenticeship (2 credits). F,W,S

Students work with a faculty member who is teaching an undergraduate or MA/Credential course. Students will not be responsible for final grades, narrative evaluations, or holding discussion section. The expected course time commitment is limited to 2–3 hours per week, plus class meeting time. Students gain perspectives and practices of teaching undergraduate and graduate courses, working with the instructor on lesson planning, class instruction, and grading some student work. Course cannot be repeated for course credit. Enrollment restricted to graduate students. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012–13

Program Description

Mission Statement

The mission of the Electrical Engineering (EE) Department is to build and sustain a teaching and research program to provide undergraduate and graduate students with inspiring and quality education in the theory and practice of hardware– and information–processing–oriented electrical engineering; serving industry, science, and government; and bringing faculty and staff a rewarding career in teaching, research, and service. The electrical engineering program is accredited by the Engineering Accreditation Committee of the Accreditation Board for Engineering and Technology (ABET).

Summary of Objectives

The educational objectives that the Electrical Engineering Department strives to provide for students are focused in five areas: fundamental prerequisites in theory, design, and basic science for a career based on electrical engineering; a scope of application that provides theory and practical knowledge as well as specialized training in hardware– and information–oriented electrical engineering; a professional approach to engineering in terms of high quality work skills in communication, teamwork, responsibility, high ethical standards, and participation in lifelong learning and the professional engineering community; encouragement and motivation based on a milieu of readily available opportunities, mentoring, and advising; and the basis for a successful transition to an engineering career, including an ability to apply research to engineering and opportunities for experience in an industry setting.

Engineering is a profession that emphasizes analysis and design, and electrical engineers apply their knowledge to an expanding array of technical, scientific, and mathematical questions. A good engineering education has three parts: a sound foundation in mathematics and science, substantial design experience to develop skills and engineering aesthetics, and a focus in the humanities and social sciences to learn how and where to apply the skills developed. Electrical engineering is a very broad discipline; the program at UCSC complements existing campus programs, emphasizing three general areas: electronics/optics (including digital and analog circuits and devices); communications (including signal and image processing and control); and VLSI design, micro–technology,

nanotechnology, and biomedical devices.

The undergraduate curriculum provides a balance of engineering science and design. For the first two years, all electrical engineering students are expected to take a basic set of lower-division mathematics, physical science, and engineering courses. After the first two years, electrical engineering students focus on topics within the discipline and specialize in one of two options: electronics/optics, including digital and analog circuits and devices, VLSI design, optoelectronics, electromagnetics, power engineering, and biomedical device engineering; or communications, signals, systems, and control, including optical, wireless communication, signal and image processing, networks signal processing, instrumentation, and control. Students interested in admission to the electrical engineering major should contact the Baskin School of Engineering Undergraduate Advising office, (831) 459-5840 or advising@soe.ucsc.edu.

Electrical Engineering Policies

Admissions Policy

Admission to the electrical engineering major is selective. First-year applicants may receive direct admission at the time they apply to UCSC based on their high school record and test scores. Students not directly admitted may still apply during their first year and their acceptance will be based upon their School of Engineering grade point average (GPA), their high school grade point average, courses completed in mathematics and sciences, and scores on standardized tests. After the first year, students can apply to declare an electrical engineering major upon successful completion of all the following foundation courses with a School of Engineering GPA of 2.8 or better: Mathematics 19A-B, Applied Mathematics and Statistics 10 and 20, Physics 5A/L, 5B/M, and 5C/N.

Students who have not met this GPA requirement are required to meet with the Electrical Engineering Undergraduate Director. Please refer to the School of Engineering section of the catalog for the full admissions policy.

Course Substitution

Please refer to the School of Engineering section of the catalog for the policy regarding course substitution.

Letter Grade Policy

The Electrical Engineering Department requires letter grading for all courses applied toward the bachelor of science (B.S.) degree, with the exception of two lower-division courses, which students may elect to take Pass/No Pass.

Honors in the Major

Electrical engineering majors are considered for “Honors in the Major” and “Highest Honors in the Major” based on the School of Engineering GPA and on results of undergraduate research and other significant contributions to the School of Engineering. Students with an SoE GPA of 3.7, in most cases, receive highest honors. Students with an SoE GPA of 3.3, in most cases, receive honors. Students with particularly significant accomplishments in undergraduate research or contributions to the School of Engineering may be considered with a lower SoE GPA. Electrical engineering juniors and seniors may also be eligible for election to the UCSC chapter of Tau Beta Pi, the national engineering honor society founded in 1885.

Transfer Students

Please refer to the School of Engineering section of the catalog for the policy regarding transfer students and admission of transfer students to the electrical engineering major.

School of Engineering Policies

Please refer to the School of Engineering section of the catalog for additional policies that apply to all School of Engineering programs.

Requirements of the Major

In addition to completing UCSC’s general education requirements, students must complete

[Nondiscrimination Statement](#)

15 lower-division science and engineering courses, plus associated laboratories; nine upper-division engineering courses, plus associated laboratories; four engineering electives; and a two-quarter comprehensive senior design project course. To plan for completion of these requirements within the normative time, students should consult with an adviser at the Baskin School of Engineering Undergraduate Advising office as early as possible.

Lower-Division Requirements

Students gain a solid foundation in calculus, engineering mathematics, physics, computer science, and computer engineering during their first two years. Majors must complete the following 15 lower-division courses (including corresponding laboratories). These courses form part of the prerequisite sequence and should be completed during the first two years at UCSC. The requirements are rigorous; students must be prepared to begin these courses early in their studies.

Computer Engineering 80E, Engineering Ethics

MATHEMATICS

19A–B, Calculus for Science, Engineering, and Mathematics

23A–B, Multivariable Calculus

APPLIED MATHEMATICS AND STATISTICS

10, Mathematical Methods for Engineers I

20, Mathematical Methods for Engineers II

PHYSICS

5A/L, 5B/M, 5C/N, Introduction to Physics/Laboratories

5D, Heat, Thermodynamics, and Kinetics

ETHICS

Students must take one of the following courses (required even for transfer students who have had their general education requirements waived):

Computer Engineering 80E, Engineering Ethics

Philosophy 22, Introduction to Ethical Theory

Philosophy 24, Introduction to Ethics: Contemporary Moral Issues

Philosophy 28, Environmental Ethics

Biomolecular Engineering 80G/Philosophy 80G, Bioethics in the 21st Century: Science, Business, and Society

Upper-Division Requirements

Fifteen upper-division courses along with associated 1- or 2-credit laboratories are required for the major. The course requirements include both depth and breadth, technical writing, and a comprehensive capstone design project.

All students are required to take the following nine upper-division courses, with associated laboratories:

ELECTRICAL ENGINEERING

101/L, Introduction to Electronic Circuits/Laboratory

103/L, Signals and Systems/Laboratory

135/L, Electromagnetic Fields and Waves/Laboratory

145/L, Properties of Materials/Laboratory

151, Communications Systems

171/L, Analog Electronics/Laboratory

COMPUTER ENGINEERING

100/L, Logic Design/Laboratory

107, Mathematical Methods of Systems Analysis: Stochastic

185, Technical Writing for Computer Engineers

Required Electives. In addition to completing the above required courses, electrical engineering majors must complete four elective courses chosen from the list below. At least three must be from one of the depth-sequence concentrations listed. Certain graduate-level courses as well as those courses taught in conjunction with graduate courses may also be used to fulfill an elective requirement as listed below. No course may be counted twice. See the electrical engineering web site for course descriptions:

www.ee.ucsc.edu/.

Electronics/Optics Concentration

ELECTRICAL ENGINEERING

115, Introduction to Micro-Electro-Mechanical-Systems Design

130/L/ 230, Introduction to Optoelectronics and Photonics and Laboratory/Optical Fiber Communication

136, Engineering Electromagnetics (strongly recommended)

154/241, Feedback Control Systems, and Introduction to Feedback Control Systems

157/L, RF Hardware Design/Laboratory

172/221, Advanced Analog Circuits/Advanced Analog Integrated Circuits

175/L, Energy Generation and Control/Laboratory

176/L, Energy Conversion and Control/Laboratory

177/L, Power Electronics/Laboratory

178, Device Electronics

211, Introduction to Nanotechnology

213, Micro/Nano-characterization of Materials

231, Optical Electronics

COMPUTER ENGINEERING

118/L, Introduction to Mechatronics/Laboratory

121/L, Microprocessor System Design/Laboratory (strongly recommended)

173/L, High Speed Digital Design/Laboratory

APPLIED MATHEMATICS AND STATISTICS

147, Computational Methods and Applications

Communications, Signals, Systems, and Controls Concentration

ELECTRICAL ENGINEERING

130/L/230, Introduction to Optoelectronics, and Photonics and Laboratory/Optical Fiber Communication

136, Engineering Electromagnetics (strongly recommended)

152/252, Introduction to Wireless Communications and Wireless Communications

153/250, Digital Signal Processing/Digital Signal Processing

154/241, Feedback Control Systems and Introduction to Feedback Control Systems

251, Principles of Digital Communications

253, Introduction to Information Theory

261, Error Control Coding

262, Statistical Signal Processing I

264, Image Processing and Reconstruction

COMPUTER ENGINEERING

118/L, Introduction to Mechatronics/Laboratory

150/L, Introduction to Computer Networks/Laboratory

251, Error Control Coding (taught in conjunction with EE 261)

APPLIED MATHEMATICS AND STATISTICS

147, Computational Methods and Applications

The senior-year curriculum enables students to pursue independent study with a faculty member. Electrical engineering students are encouraged to take advantage of the opportunity to work within a faculty member's research group as part of their educational experience. Internship programs with local industry are also available.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in electrical engineering is satisfied by completing Computer Engineering 185.

Comprehensive Requirement

The senior comprehensive requirement for electrical engineering majors is in two parts: a project course and assessment options.

Project Course

Students must complete one capstone design course that spans two quarters, Electrical Engineering 123A and 123B, or complete a senior thesis. These senior-level courses encompass an in-depth project, including analysis, design, testing, and documentation, requiring students to call upon knowledge acquired throughout their undergraduate studies. Current course choices include the following:

Electrical Engineering

123A and 123B, *Engineering Design Project I* (5 credits) and *Engineering Design Project II* (7 credits)

195, *Senior Thesis Project* (10 credits over two quarters)

Outcomes Assessment Options

The Electrical Engineering Department requires an outcomes assessment. All students are required to complete an exit survey and meet with a faculty member for an exit interview. The specifics of the outcomes assessment may change from year to year; for this catalog year, students must complete one of the following options:

1. maintenance of a 2.5 grade point average in all required and elective courses for the major; or
2. senior thesis submission; or
3. portfolio review.

Portfolios must include the following:

- project report(s);
- a one- or two-page overview of the student's contribution to the project(s);
- a two-page essay concerning the relationship of engineering to society (specific topics will be provided by the Electrical Engineering Department).

The portfolios must be submitted electronically at least seven days before the end of the instruction in the quarter of graduation. Portfolios will not be returned.

Electrical Engineering Major Planners

The following are two sample academic plans for students to complete during their first two years as preparation for the electrical engineering major.

Plan One

Year	Fall	Winter	Spring
1st (frsh)	MATH 19A	MATH 19	AMS 10
	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
	college core	EE 80T	gen ed (C2)
2nd (soph)	PHYS 5D	EE 101/L	EE 171/L
	MATH 23A	AMS 20	CMPE 13/L
	CMPE 12/L	MATH 23B	gen ed

Plan Two

Year	Fall	Winter	Spring
1st (frsh)	AMS 3	MATH 19A	MATH 19B
	CMPE 8	CMPE 12/L	CMPE 13/L
	college core	EE 80T	gen ed (C2)
2nd (soph)	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
	AMS 10	AMS 20	MATH 23A
	gen ed	CMPE 100/L	CMPE 80E

Additional information about this program can be found on the department's web site at www.ee.ucsc.edu.

Electrical Engineering Minor

The electrical engineering minor provides a solid foundation in the core areas of electronic circuits and signals and systems, as well as the prerequisite material in mathematics and physics. Concentration of upper division electives in either of the major tracks constitutes substantial and focused work in the discipline of electrical engineering. This minor is particularly suitable for students with majors in Applied Physics or any School of Engineering major.

Electrical Engineering Minor Requirements

Requirements for the minor in electrical engineering are the following:

Mathematics

Mathematics 19A–B, *Calculus for Science, Engineering, and Mathematics*

Mathematics 23A, *Multivariable Calculus*

Applied Mathematics and Statistics 10, *Mathematical Methods for Engineers I*, and 20, *Mathematical Methods for Engineers II*; or Mathematics 21, *Linear Algebra* and Mathematics 24, *Ordinary Differential Equations*

Science

Physics 5A/L or 6A/L, *Mechanics* and 5C/N or 6C/N, *Electricity and Magnetism*

Core Requirements

Electrical Engineering

Electrical Engineering 101 /L, *Introduction to Electronic Circuits/Laboratory*; and

Electrical Engineering 103, *Signals and Systems*; and

Electrical Engineering 171 /L, *Analog Electronics/Laboratory*

Upper-Division Electives

At least 15 credits of upper-division or graduate electrical engineering courses, all chosen from one of the existing electrical engineering major tracks. All of the upper-division electives must come from the same track.

Graduate Programs

The Department of Electrical Engineering (EE) at the University of California, Santa Cruz (UCSC) offers master of science (M.S.) and doctor of philosophy (Ph.D.) degree programs and conducts research in:

- Photonics and electronics focusing on VLSI, electronic and optoelectronic materials; devices, circuits and systems for information transmission; storage, processing, and display, especially for optical-fiber communications and lower-power, high-performance systems; biomedical device instrumentation and MEMS; and optofluidics;
- Signal processing and communications, including wireless communications, network information theory, digital signal processing, image and video processing;
- Remote sensing including wave propagation and scattering radar oceanography, and microwave remote sensing.
- Nanotechnology including applications to bio-medicine, integrated optics for biomedical imaging, opto-thermo-electric energy conversion, near-field scanning optical microscopy, nano-magneto-optics, micro-mechanics and micro-fluidics.

Electrical Engineering enjoys a close relationship with the Departments of Applied Mathematics and Statistics, Computer Science, Computer Engineering, Biomolecular Engineering, Chemistry, Physics, Astronomy, and Molecular, Cell and Developmental Biology faculty. The Electrical Engineering faculty are affiliated with: 1) several federally funded and nationally recognized centers such as the Center for Biomimetic MicroElectronic Systems, the Center for Adaptive Optics, and the Center for Biomolecular Science and Engineering; 2) state-funded centers such as the Institute for Quantitative Biology (QB3), the Center for Information Technology Research in the Interest of Society (CITRIS), and the Institute for Regenerative Medicine (CIRM); 3) privately funded centers such as the W.M. Keck Center for Nanoscale Optofluidics (CfNO), the W.M. Keck Center for Adaptive Optical Microscopy (CfAOM), and the Center for Sustainable Energy and Power Systems (CenSEPS). Many EE faculty participate in the University Affiliated Research Center (UARC) at NASA-Ames Research Center, which is managed by UCSC and in the Advanced Studies Laboratory, a partnership between UCSC and NASA-Ames Research Center. The

department also has ties to nearby industry, employing electrical engineering professionals as visiting and adjunct faculty and arranging for students to gain practical research experience through work in industrial labs. Indeed, the department strongly encourages students of all nationalities to seek practical training as part of their graduate education.

Students begin the program with the completion of courses in a core area of interest and then proceed to do research in their area of specialization. The M.S. degree can be completed in two years. M.S. students must complete a master's thesis. A Ph.D. degree is usually completed in four to six years. Ph.D. students are required to take a preliminary exam within their first two years of study. After completing the course requirements, students must pass an oral qualifying exam and write a dissertation. Part-time study is possible for students working in industry while attending school.

Requirements for the Master's Degree

Course Requirements

Each student is required to take 45 credits which must consist of:

- At least 15 credits in one of the four core areas of emphasis defined above.
- At least 25 of the total 45 credits must be satisfied through EE graduate courses.
- At most 10 credits of independent study (EE 297, EE 299) are counted toward the EE course requirements.

Total credits required for the M.S. degree = 45.

Note that each graduate course satisfying the above requirements typically covers 5 credits.

Thesis

Completion of a master's thesis is required for the master's degree. To fulfill this requirement, the student submits a written proposal to a faculty member, usually by the third academic quarter. By accepting the proposal, the faculty member becomes the thesis adviser. In consultation with the adviser, the student forms a master's thesis reading committee with at least two additional faculty members, each of whom is provided a copy of the proposal. Upon completion of the thesis work, the student presents an expository talk on the thesis research, and the final thesis must be accepted by the review committee before the award of the master of science degree.

M.S. students admitted to continue to the Ph.D. program must pass a preliminary exam covering fundamental undergraduate course work (see below).

Requirements for the Ph.D. Degree

Course Requirements*

Each student is required to take 50 credits which must consist of:

- At least 20 credits in one of the four core areas of emphasis defined above.
- At least 30 of the total 50 credits must be satisfied through EE graduate courses.
- At most 10 credits of independent study (EE297, EE299) will be counted toward EE course requirements.

Total credits required for the PhD. degree = 50

* For students already holding a master of science in electrical engineering (M.S.E.E.) or equivalent degree, at most 20 credits of transfer credit may be granted for equivalent coursework performed at the students' M.S. granting institution. Credit transfer is subject to approval by the adviser and the electrical engineering graduate director.

Preliminary Examination

At the end of the first year, i.e., no later than the fall quarter in the following year after their entry, students admitted to the Ph.D. program must take a written examination covering basic knowledge in electrical engineering. This examination will cover material from the following technical areas:

- Circuits at the level of Electrical Engineering 101
- Electromagnetics at the level of Electrical Engineering 135
- Systems and signals at the level of Electrical Engineering 103
- Materials at the level of Electrical Engineering 145
- Applied Mathematics and Statistics at the level of Computer Engineering 107, and Applied Mathematics and Statistics 10 and 20.

The student will choose three areas from the above list in which to be examined. If the student does not pass the preliminary examination, the electrical engineering graduate committee may allow the student to repeat the preliminary examination once. If the student is to leave the Ph.D. program, and the student wishes to obtain a master's degree prior to departure, all requirements for the master's degree must still be satisfied.

After the student passes the preliminary examination, the student begins work on a thesis prospectus in preparation for the qualifying examination. During this period the student finds an adviser willing to supervise the student's thesis research, works with the adviser to prepare for the qualifying examination, and assembles a dissertation reading committee, consisting of the student's research supervisor (chair of the committee) and three or four appropriate faculty members in electrical engineering and other relevant departments. The committee must consist of at least two ladder-rank, electrical-engineering, faculty members in addition to the student's supervisor.

Qualifying Examination

This oral examination is a defense of the student's thesis prospectus and a test of the student's knowledge in advanced technical areas of relevance to the dissertation topic. This oral examination consists of a seminar-style talk before the examining committee, where the student describes the thesis prospectus, followed by questions from the committee on the substance of the talk and the areas of presumed expertise of the student. The examination, taken typically in the third year of Ph.D. study, is administered by a Ph.D. qualifying examination committee, consisting of at least four examiners. The composition of the committee must be approved by the graduate director and the dean of graduate studies whereupon the student and the committee are notified.

If the student does not pass the qualifying examination, the student may be asked to complete additional coursework, or other research-related work, before retaking the examination. The student may be allowed to retake the qualifying examination once, and the composition of the examining committee will remain the same for the second try. Students who fail the qualifying examination twice may be dismissed from the Ph.D. program.

Ph.D. students who have not advanced to candidacy by the end of the fourth year may be recommended for academic probation.

Dissertation and Advancement to Ph.D. Degree Candidacy

Advancement to candidacy requires that the student:

- pass the preliminary examination;
- complete all course requirements prior to taking the qualifying examination;
- clear all Incompletes from the student's record;
- pass the qualifying examination; and
- have an appointed Ph.D. dissertation reading committee.

After advancement to candidacy, work on the thesis research progresses until the dissertation is completed. The Ph.D. dissertation must show the results of in-depth research, be an original contribution of significant knowledge to the student's field of study, and include material worthy of publication. The student is strongly advised to submit research work for publication in advance of completing the thesis so that the latter requirement is clearly satisfied. The Ph.D. thesis results are presented in both oral and written forms, the oral form being a dissertation defense (see below) and the written form being the Ph.D. dissertation. The student must submit his or her written Ph.D. dissertation to the dissertation reading committee at least one month before the defense.

Dissertation Defense

Each Ph.D. candidate submits the completed dissertation to a Ph.D. thesis reading committee at least one month prior to the dissertation defense. The appointment of the dissertation reading committee is made immediately after the qualifying examination and is necessary for advancing to candidacy. The candidate presents his or her research results in a public seminar sponsored by the dissertation supervisor. The seminar is followed by a defense of the dissertation to the reading committee (only), who will then decide whether the dissertation is acceptable or requires revision. Successful completion of the dissertation fulfills the final academic requirement for the Ph.D. degree.

Transfer Credit

For students already holding an M.S.E.E. or equivalent degree, at most 20 credits of transfer credit may be granted for equivalent course work performed at the student's M.S. granting institution. Credit transfer is subject to approval by the electrical engineering graduate director.

Students not already holding an M.S.E.E. degree, who are studying for the Ph.D. degree, may apply to be granted a M.S. degree when they have fulfilled all the M.S. degree requirements (including an M.S. thesis).

Review of Progress

Each year, the faculty reviews the progress of every student. Students not making adequate progress toward completion of degree requirements (see the Graduate Student Handbook for the policy on satisfactory academic progress) are subject to dismissal from the program. Students with academic deficiencies may be required to take additional courses. Full-time students with no academic deficiencies are normally expected to complete the degree course requirements at the rate of at least two courses each quarter. Full-time students must complete all course requirements within two years for the M.S. and three years for the Ph.D.

Students receiving two or more grades of U (unsatisfactory) or below B in the School of Engineering courses are not making adequate progress and will be placed on academic probation for the following three quarters of registered enrollment. Withdrawing or taking a leave of absence does not count as enrollment. Part-time enrollment is counted as a half-quarter of enrollment.

If an electrical engineering graduate student fails a School of Engineering course while on probation, the Electrical Engineering Department may request the graduate dean to dismiss that student from the graduate program. If after being removed from probation, the student again fails a School of Engineering course, he or she will return immediately to academic probation.

Graduate students experiencing circumstances or difficulties that impact their academic performance should contact their adviser and the graduate director immediately. Students may appeal their dismissal to the graduate committee.

Materials Fee

Please see the section on fees under School of Engineering.

Faculty and Professional Interests

Professor

Benjamin Friedlander

Digital communications, wireless communication system, array processing, adaptive signal processing

Claire Gu

Fiber sensors for bio–applications, optical fiber communications, volume holographic data storage, liquid crystal displays, nonlinear optics, optical information processing

Michael Isaacson

Nano– and microfabrication technology and applications to biomedical and diagnostic devices, nanocharacterization of materials with emphasis on the development of microscopy tools, novel modes of imaging, electron and light optics, renewable energy systems, STEM education

Gretchen Kalonji

Symmetry constraints on the structure and properties of crystalline defects; phase transformations and microstructural evolution; atomistic computer simulation techniques applied to materials; innovations in science and engineering education; new models for multinational collaboration in research and education

Sung–Mo (Steve) Kang

Low–power. High–speed VLSI circuit design and synthesis, RF circuits, biological circuits, mixed technology, mixed signal CAD

Peyman Milanfar

Statistical signal, image, and video processing; computational vision and photography; modeling and inverse problems in imaging; detection and estimation theory

Kenneth Pedrotti

Integrated circuit design for communications, analog electronics, radio frequency integrated circuits, low–phase–noise oscillators, frequency synthesis, VLSI clock distribution, optical communications, high–speed electronics for lightwave systems, devices for all optical networking and imaging

Arthur P. Ramirez (Divisional Dean)

Experimental materials physics encompassing a broad range of systems including

semiconductors, superconductors, magnets, thermoelectrics, and dielectrics. Research that connects materials and devices, with a focus on oxides and organics. Many-body physics that arises from geometrical frustration of low energy degrees of freedom. Techniques include ultra-low temperatures and high magnetic fields, thermodynamic and transport measurements, defect spectroscopy, and device characterization.

Hamid Sadjadpour

Wireless communication systems, network information theory and scaling laws, performance analysis of wireless and social networks, routing and MAC protocol design for wireless networks

Holger Schmidt

Optofluidics, atom photonics, hollow-core photonics for biomedicine and quantum optics, nanomagnetism, nanomagneto-optics, single-particle spectroscopy, ultrafast optics

John F. Vesecky

HF radar design and construction and observation of ocean surface winds, waves and currents with applications to coastal and deep water ocean processes; project MEDSAT

Donald Wiberg, Emeritus (UCLA)

Control systems, Kalman filtering, system parameter estimation, adaptive optics for large telescopes, and biomedical system modeling

Associate Professor

Nobuhiko P. Kobayashi

Physics and chemistry of complex functional materials; Group III–V compound semiconductor nanometer-scale structures and devices; mixed oxide nanometer-scale structures and devices; tailored nanomicrometer-scale hybrid semiconductor structures for energy conversion devices and advanced electronics, Science Director of Advanced studies Laboratories, UCSC and NASA Ames Research Center)

Joel Kubby (Department Chair)

Micro–Electro–Mechanical–Systems (MEMS), adaptive optics (AO), optical–MEMS, bio–MEMS, bio–imaging, AO microscopy, AO astronomy

Adjunct Professor

Bin Chen

Synthesis and characterizations of semiconductor and metal nanostructure materials and hybrid composites; novel materials applications and multifunctional devices for energy harvesting, conversions and storage, and ultra-sensitive imaging and detection techniques

Farid Dowla

RF communications, radar, and signal and image processing

Heinz Erzberger

Air traffic control

Ali Shakouri (Visiting Professor)

Quantum electronics; nano- and microscale heat and current transport in semiconductor devices; thermoelectric/thermionic energy conversion; renewable energy sources; thermal imaging; micro-refrigerators on a chip; and optoelectronic integrated circuits

Ephraim Suhir

Physical design, reliability and packaging of micro- and optoelectronic systems, materials engineering, applied probability, predictive modeling, nanoengineering

Kazuaki Yazawa

System optimization of thermoelectric power generation

Associate Adjunct Professor

Natalio Mingo

Thermal and electronic transport, nanomaterials, nanotechnology, surface science, computational physics

Toshishige Yamada

Modeling of micro/nanoscale electronic materials and devices emphasizing energy-band and equivalent-circuit methods; comparison of modeling and experiments: InP, InSb, ZnO, In₂O₃, and GaAs semiconducting nanowires; carbon nanotubes/nanofibers devices; Si atomic chain devices; metallic nanoislands; strained Si/Ge channels; GaAs lateral surface superlattice; Josephson devices, etc.

Assistant Adjunct Professor

Zhixi Bian

Semiconductor materials and devices for optoelectronics and thermoelectrics, thermal management of microelectronics, renewable energy

Kenneth Laws

HF radar sensing of ocean surface currents, HF radar detection of ships, other applications of radar remote sensing, development of autonomous ocean surface vehicles for coastal marine sensing, and development of renewable energy sources

Michael Oye

Nanotechnology-based materials and devices for applications involving solar, piezoelectric, graphene, lighting, and chemical sensors

Sue Carter (Physics)

Experimental condensed matter physics, polymer physics, molecular electronics, phase transitions, electronic and optical properties of materials

David W. Deamer (joint with Chemistry and Biochemistry and Biomolecular Engineering, UC Davis Emeritus)

Membrane biophysics, nanopore analysis, DNA sequencing, biomolecular self-assembly

William Dunbar (Computer Engineering)

Theory and application of feedback control, single-molecule biophysics, nanopore sensors, dynamics and control of biomolecules

Gabriel Elkaim (Computer Engineering)

Embedded systems, robust software architectures for real-time reactive systems; sensor fusion; guidance, navigation, and control (GNC) system identification; robust and advanced control schemes; feedback control systems, robotics, unmanned autonomous vehicles (UAVs); and cooperative control

J.J. Garcia-Luna-Aceves

Chair of Computer Engineering

Baskin Professor of Computer Engineering and Director of Networking Sciences Institute
Computer communication, wireless networks, Internet, network science

Matthew R. Guthaus (Computer Engineering)

VLSI, CAD, design for reliability and variability, resonant clocking, sub-threshold circuits

Ronnie D. Lipschutz (Politics)

International relations; global political economy; globalization; foreign policy; resource/environmental politics; global political networks; global civil society and social movements; popular culture and politics; technology and society; risk society

Darrell D. E. Long (Computer Science)

Storage systems, distributed computing systems, operating systems, mobile computing, performance evaluation, fault tolerance, computer security, multimedia, and video-on-demand systems

Roberto Manduchi (Computer Engineering)

Computer vision and sensor processing, with application to assistive technology for the visually impaired

Patrick E. Mantey (Computer Engineering)

(Baskin Professor of Computer Engineering)

CITRIS Campus Director

Multimedia systems, digital signal processing, sensor systems and networks, real-time

monitoring and control, image systems, image processing, visualization, geographic information systems, decision support systems

Claire Max (Astronomy and Astrophysics and UCO/Lick Observatory)
Adaptive optics, planetary science

Jerry Nelson (Astronomy and Astrophysics and UCO/Lick Observatory)
Design and construction of large telescopes; project scientist for the Keck telescope and Thirty Meter telescope

Jose Renau (Computer Engineering)
Computer architecture, including design effort metrics and models, infrared thermal measurements, thermal modeling, process variability, energy efficient data-centers, thread level speculation, and FPGA/ASIC design

B. Shastry (Physics)
Condensed matter physics, strongly correlated matter, Mott-Hubbard physics, high T_c superconductivity, quantum magnetism, exactly integrable systems, exactly solvable models of many-body systems and in statistical mechanics, quantum chaos, geometric frustration

William T. Sullivan (Biology)
Genetics, cell biology, development of the *Drosophila* embryo

Jin Z. Zhang (Chemistry)
Design, synthesis, characterization, and application of nanomaterials, including semiconductor and metal nanoparticles; femtosecond laser spectroscopy; ultrafast dynamics on surfaces and at interfaces; cancer biomarker detection; surface-enhanced Raman spectroscopy

[Program Description](#) | [Faculty](#)

Lower-Division Courses

80J. Renewable Energy Sources. S

Introduction to energy storage and conversion with special emphasis on renewable sources. Fundamental energy conversion limits based on physics and existing material properties. Various sources, such as solar, wind, hydropower, geothermal, and fuel cells described. Cost–benefit analysis of different alternative sources performed, and key roadblocks for large–scale implementation examined. Latest research on solar cells and applications of nanotechnology on energy conversion and storage introduced. Students cannot receive credit for this course and course 81J. (General Education Code(s): PE–E, T2–Natural Sciences.) M. Isaacson

80S. Sustainability Engineering and Practice. F

Topical introduction to principles and practices of sustainability engineering and ecological design with emphasis on implementation in society. Provides an understanding of basic scientific, engineering, and social principles in the design, deployment, and operation of resource–based human systems, and how they can be maintained for this and future generations. No specialized background in engineering, science, or social sciences is assumed. (General Education Code(s): PE–E, T7–Natural Sciences or Social Sciences.) K. Monsen, The Staff

80T. Modern Electronic Technology and How It Works. W

Basic knowledge of electricity and "how things work," how technology evolves, its impact on society and history, and basic technical literacy for the non–specialist. Broad overview of professional aspects of engineering and introduction and overview of basic systems and components. Topics include electrical power, radio, television, radar, computers, robots, telecommunications, and the Internet. (General Education Code(s): SI, T7–Natural Sciences or Social Sciences, Q.) K. Pedrotti

81C. Designing a Sustainable Future. S

Introduces key technological solutions to environmental problems; discusses their underlying principles; and examines their societal dimensions. Topics include: conventional and renewable energy; emerging technologies for transportation, energy efficiency clean water; planetary engineering; and lean manufacturing. (Formerly Technological Innovation and Environmental Challenges.) (Also offered as College Eight 81C. Students cannot receive credit for both courses.) (General Education Code(s): SI, T–2 Natural Sciences.) K. Pedrotti, J. Vesecky

94. Group Tutorial. F,W,S
A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

94F. Group Tutorial (2 credits). F,W,S
A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

101. Introduction to Electronic Circuits. F,W
Introduction to the physical basis and mathematical models of electrical components and circuits. Topics include circuit theorems (Thevenin and Norton Equivalents, Superposition), constant and sinusoidal inputs, natural and forced response of linear circuits. Introduction to circuit/network design, maximum power transfer, analog filters, and circuit analysis using Matlab. Topics in elementary electronics including amplifiers and feedback. Prerequisite(s): Physics 5C/N or 6C/N, and Mathematics 24 or previous or concurrent enrollment in Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 101L is required. M. Isaacson, S. Kang, J. Kubby, H. Schmidt, K. Pedrotti, J. Vesecky

101L. Introduction to Electronic Circuits Laboratory (2 credits). F,W
Illustrates topics covered in course 101. One two–hour laboratory session per week. Students are billed for a materials fee. Prerequisite(s): Physics 5C/N or 6C/N; and Mathematics 24 or previous or concurrent enrollment in Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 101 is required. M. Isaacson, S. Kang, J. Kubby, H. Schmidt, K. Pedrotti, J. Vesecky

103. Signals and Systems. F,S
The course covers the following topics: characterization and analysis of continuous–time signals and linear systems, time domain analysis using convolution, frequency domain analysis using the Fourier series and the Fourier transform, the Laplace transform, transfer functions and block diagrams, continuous–time filters, sampling of continuous time signals, examples of applications to communications and control systems. Prerequisite(s): courses 101/L and Applied Mathematics and Statistics 20 or 20A. H. Sadjadpour, P. Milanfar, B. Friedlander

103L. Signals and Systems Laboratory (2 credits). F,S
Use and operation of spectrum analyzers; advanced signal analysis using oscilloscopes; measuring impulse response, step response, frequency response, and computer analysis of real signals. MATLAB programming is taught and used as a tool for signal analysis. Students are billed a materials fee. Prerequisite(s): course 101and 101L, and Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 103 required. H. Sadjadpour, P. Milanfar, B. Friedlander

104. Bio–electronics and Bio–instrumentations. S
Focuses on the analysis, design, and measurement of components and systems of biomedical devices which interface biological systems with electronics mechanics, and optics. Topics include: abiotic/biotic interface; low–power analog/digital circuits and systems; signal integrity; energy harvesting; wireless techniques; regulatory/ethic compliance tailored for both invasive and non–invasive biomedical applications. Prerequisite(s): course 103. Enrollment restricted to juniors, seniors, and graduate students. S. Kang

115. Introduction to Micro–Electro–Mechanical–Systems (MEMS) Design.

[Nondiscrimination Statement](#)

Begins with overview of MEMS devices and processes that are used to fabricate them. The basic governing equations for MEMS devices in different energy domains (mechanical, electrical, optical, thermal, and fluidic) reviewed, and both analytical and finite element coupled-domain modeling is used to design MEMS devices. Students work in teams to design, lay out, and fabricate MEMS devices and test structures using a standard multi-user process available through a foundry service. A presentation and term paper describing the design and layout will be required. Prerequisite(s): courses 101/L, 135/L, 145/L, Mathematics 19A and 19B, Mathematics 23A and 23B, and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A, Physics 5A, 5B, 5C, and 5D. Enrollment limited to 15. J. Kubby

122. Collaborative Sustainability Project Design. F,W,S

This course is the first quarter of a year-long course, the IDEASS Program (Impact Designs: Engineering and Sustainability through Student Service), focusing on planning, implementing, and evaluating interdisciplinary projects that address sustainability in the built environment in the Monterey Bay community and at UCSC. Enrollment by interview only. Application period in Spring of prior year, with short essays and documentation of prior experience. Enrollment limited to 40. M. Isaacson, J. Barsimantov

123A. Engineering Design Project I. W

First of a two-course sequence that is the culmination of the engineering program. Students apply knowledge and skills gained in elective track to complete a major design project. Students complete research, specification, planning, and procurement for a substantial project. Includes technical discussions, design reviews, and formal presentations; engineering design cycle, engineering teams, and professional practices. Formal technical specification of the approved project is presented to faculty. Prerequisite(s): Electrical Engineering 171 and Computer Engineering 100; previous or concurrent enrollment in Computer Engineering 185 and in at least one of the following: Electrical Engineering 157, Computer Engineering 121 or Computer Engineering 118; permission of department and instructor. Students are billed a materials fee. (General Education Code(s): PR-E.) S. Petersen, J. Vesecky

123B. Engineering Design Project II (7 credits). S

Second of two-course sequence in engineering system design. Students fully implement and test system designed and specified in course 123A. Formal written report, oral presentation, and demonstration of successful project to review panel of engineering faculty required. Students are billed a materials fee. Prerequisite(s): course 123A. S. Petersen, J. Vesecky

129A. Capstone Project I (2 credits). F

First of a three-course sequence in which students apply knowledge and skills gained in elective track to complete a major design project. In this first course, students complete the specification and planning for a substantial project. Topics covered: engineering design cycle, engineering teams, and professional practices. Prerequisite(s): course 171; and Computer Engineering 100; and Computer Engineering 185; and previous or concurrent enrollment in course 157 or Computer Engineering 118 or Computer Engineering 121. Enrollment restricted to seniors. Enrollment by permission of instructor. S. Petersen, J. Vesecky

129B. Capstone Project II. W

Second of a three-course sequence in which students apply knowledge and skills gained in elective track to complete a major design project. In this second course, students complete the training, research, and procurement for a substantial project and a preliminary implementation. Prerequisite(s): courses 129A and 171; and Computer Engineering 100; and Computer Engineering 185; and previous or concurrent enrollment in course 157 or Computer Engineering 118 or Computer Engineering 121. Enrollment restricted to seniors. Enrollment by permission of instructor. (General Education Code(s): PR-E.) S. Petersen, J. Vesecky

129C. Capstone Project III. S

Third of a three-course sequence in which students apply knowledge and skills gained in this elective track to complete a major design project. In this third course, students work

in teams to complete the project specified and advance on the results of the work in the first two courses. A formal written report, oral presentation, and demonstration of the successful project to a review panel of engineering faculty is required. Prerequisite(s): courses 129B and 171; and Computer Engineering 100; and Computer Engineering 185; and previous or concurrent enrollment in course 157 or Computer Engineering 118 or Computer Engineering 121. Enrollment restricted to seniors. Enrollment by permission of instructor. S. Petersen, J. Vesecky

130. Introduction to Optoelectronics and Photonics. F

Introduction to optics, photonics and optoelectronics, fiber optic devices and communication systems: Topics include: ray optics, electromagnetic optics, resonator optics, interaction between photons and atoms, dielectric waveguides and fibers, semiconductor light sources and detectors, modulators, amplifiers, switches, and optical fiber communication systems. Taught in conjunction with course 230. Students cannot receive credit for this course and course 230. Prerequisite(s): Physics 5B and 5C, or 6B and 6C; concurrent enrollment in course 130L. C. Gu

130L. Introduction to Optoelectronics Laboratory (1 credit). F

Includes a series of projects to provide hands-on experience needed for basic concepts and laboratory techniques of optical fiber technology. Students are billed a materials fee. Prerequisite(s): Physics 5L-M-N, or 6L-M-N; concurrent enrollment in course 130. Enrollment limited to 30. C. Gu

135. Electromagnetic Fields and Waves. W

Vector analysis. Electrostatic fields. Magnetostatic fields. Time-varying fields and Maxwell's equations. Plane waves. Prerequisite(s): course 101/L; Mathematics 23B; and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A. Students must concurrently enroll in course 135. M. Isaacson

135L. Electromagnetic Fields and Waves Laboratory (2 credits). W

Laboratory sequence illustrating topics in course 135. One two-hour laboratory session per week. Students are billed a materials fee. Prerequisite(s): course 101/L; Mathematics 23B; and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A. Students must concurrently enroll in course 135. M. Isaacson

136. Engineering Electromagnetics.

Course will cover electromagnetic wave propagation, transmission lines, waveguides, and antennas. Prerequisite(s): course 135/L. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. M. Isaacson

145. Properties of Materials. F

The fundamental electrical, optical, and magnetic properties of materials, with emphasis on metals and semiconductors: chemical bonds, crystal structures, elementary quantum mechanics, energy bands. Electrical and thermal conduction. Optical and magnetic properties. Prerequisite(s): Physics 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. Students must also concurrently enroll in course 145L. H. Schmidt, N. Kobayashi, J. Kubby

145L. Properties of Materials Laboratory (2 credits). F

Laboratory sequence illustrating topics covered in course 145. One two-hour laboratory per week. Students are billed a materials fee. Prerequisite(s): Physics 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. Students must also concurrently enroll in course 145. H. Schmidt, N. Kobayashi, J. Kubby

151. Communications Systems. W

An introduction to communication systems. Analysis and design of communication systems based on radio, transmission lines, and fiber optics. Topics include fundamentals of analog and digital signal transmission in the context of baseband communications, including concepts such as modulation and demodulation techniques, multiplexing and multiple access, channel loss, distortion, bandwidth, signal-to-noise ratios and error control. Digital communication concepts include an introduction to sampling and quantization, transmission coding and error control. Prerequisite(s): courses 103, 101/L, and Computer Engineering 107 or probability theory and random variables background.

Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. H. Sadjadpour, P. Mantey, B. Friedlander

152. Introduction to Wireless Communications.

Introduction to the principles of wireless communications systems. Wireless propagation channels and their impact on digital communications. Modulation techniques for wireless systems and their performance. Multi-antenna systems and diversity. Multicarrier and spread spectrum. Multi-access methods: FDMA, TDMA, CDMA. The structure of cellular systems. Students cannot receive credit for this course and course 252. Prerequisite(s): Computer Engineering 107 and course 151, or by consent of instructor. Enrollment restricted to juniors and seniors. B. Friedlander

153. Digital Signal Processing.

Introduction to the principles of signal processing, including discrete-time signals and systems, the z-transform, sampling of continuous-time signals, transform analysis of linear time-invariant systems, structures for discrete-time systems, the discrete Fourier transform, computation of the discrete Fourier transform, and filter design techniques. Taught in conjunction with Electrical Engineering 250. Students cannot receive credit for this course and Electrical Engineering 250. (Also offered as Computer Engineering 153. Students cannot receive credit for both courses.) Prerequisite(s): course 103. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. H. Sadjadpour, P. Mantey, P. Milanfar

154. Feedback Control Systems. F

Analysis and design of continuous linear feedback control systems. Essential principles and advantages of feedback. Design by root locus, frequency response, and state space methods and comparisons of these techniques. Applications. (Also offered as Computer Engineering 141. Students cannot receive credit for both courses.) Prerequisite(s): course 103. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors, or by permission of instructor. Enrollment limited to 30. J. Rosen, G. Elkaim

157. RF Hardware Design. W

Engineering design cycle for wireless and RF systems: design, practical hardware implementation, and prototype. Prerequisite(s): courses 101/L, 103, and 171, and Computer Engineering 174; or consent of instructor. Concurrent enrollment in course 157L is required. Enrollment limited to 30. K. Pedrotti, S. Petersen

157L. RF Hardware Design Laboratory (2 credits). W

Laboratory to accompany course 157, emphasizing hardware-design practice and principles applies to RF apparatus. Students design and implement a substantial final project during the last half of the course. Students are billed a materials fee. Prerequisite(s): courses 101/L, 103, 171, and Computer Engineering 174; or consent of instructor. Concurrent enrollment in course 157 is required. Enrollment limited to 30. K. Pedrotti, S. Petersen

171. Analog Electronics. S

Introduction to (semiconductor) electronic devices. Conduction of electric currents in semiconductors, the semiconductor p-n junction, the transistor. Analysis and synthesis of linear and nonlinear electronic circuits containing diodes and transistors. Biasing, small signal models, frequency response, and feedback. Operational amplifiers and integrated circuits. Prerequisite(s): course 101/L; previous or concurrent enrollment in course 171L required. The Staff, K. Pedrotti, C. Gu

171L. Analog Electronics Laboratory (2 credits). S

Laboratory sequence illustrating topics covered in course 171. One two-hour laboratory session per week. Students are billed a materials fee. Prerequisite(s): courses 101/L; previous or concurrent enrollment in course 171 required. The Staff, K. Pedrotti, C. Gu

172. Advanced Analog Circuits. S

Analog circuit design covering the basic amplifier configurations, current mirrors, differential amplifiers, frequency response, feedback amplifiers, noise, bandgap references,

one- and two-stage operational amplifier design, feedback amplifier stability, switched capacitor circuits and optionally the fundamentals of digital-to-analog and analog-to-digital converters. Emphasis throughout will be on the development of approximate and intuitive methods for understanding and designing circuits. Cannot receive credit for this course and course 221. Prerequisite(s): course 171. K. Pedrotti

175. Energy Generation and Control. S

Introduces electrical energy generation, sensing, and control, emphasizing the emerging smart grid. Topics include 3-phase AC power systems, voltage and transient stability, fault analysis, grid protection, power-flow analysis, economic dispatch, and high voltage DC distribution (HVDC). Prerequisite(s): course 101. Concurrent enrollment in course 175L required. S. Petersen

175L. Energy Generation and Control Laboratory (2 credits). S

Computer analysis and simulation of energy generation, components, power-flow analysis, systems, and control covering topics from course 195. Weekly computer simulations reinforce the concepts introduced in course 175. Students are billed a materials fee. Prerequisite(s): course 101. Concurrent enrollment in course 175 required. S. Petersen

176. Energy Conservation and Control. F

AC/DC electric-machine drives for speed/position control. Integrated discussion of electric machines, power electronics, and control systems. Computer simulations. Applications in electric transportation, hybrid-car technology, robotics, process control, and energy conservation. Prerequisite(s): courses 103 and 171. Concurrent enrollment in course 176L is required. S. Petersen

176L. Energy Conversion and Control Laboratory (2 credits). F

Simulink-based simulations of electric machines/drives in applications such as energy conservation and motion control in robotics and electric vehicles. Students are billed a materials fee. Prerequisite(s): courses 103 and 171. Concurrent enrollment in course 176 is required. S. Petersen

177. Power Electronics. W

Switch-mode power converter design and analysis. Non-switching power supplies. Electronic power-factor correction. Soft switching. Power-semiconductor devices. Use in energy conservation, renewable energy, lighting, and power transmission. Prerequisite(s): course 103. Concurrent enrollment in course 177L is required. The Staff

177L. Power Electronics Laboratory (2 credits). W

Buck, boost, buck-boost, flyback, and forward converter design and control. Students are billed a materials fee. Prerequisite(s): course 103. Concurrent enrollment in course 177 is required. The Staff

178. Device Electronics. S

This course reviews the fundamental principles, device's materials, and design and introduces the operation of several semiconductor devices. Topics include the motion of charge carriers in solids, equilibrium statistics, the electronic structure of solids, doping, the pn junction, the junction transistor, the Schottky diode, the field-effect transistor, the light-emitting diode, and the photodiode. Prerequisite(s): courses 145/L and 171/L. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. C. Gu, N. Kobayashi, K. Pedrotti

180J. Advanced Renewable Energy Sources. S

Provides a comprehensive overview of renewable energy sources. Fundamental energy-conversion limits based on physics and existing material properties discussed. Various sources and devices, such as solar, wind, hydropower, geothermal, and fuel cells described. Solar- and wind-site assessment, as well as biofuel energy balance, also discussed. Key scientific and economic roadblocks for large-scale implementation examined. Finally, the latest research on application of nanotechnology to energy conversion and storage introduced. Taught in conjunction with course 80J. Prerequisite(s): Mathematics 3 or Applied Mathematics and Statistics 3, 5 or 7. Enrollment limited to 30. (General Education Code(s): PE-E.) M. Isaacson

183. Special Topics in Electrical Engineering.

Topics vary with instructor. Sample topics include smart grids, bioelectronics, antennas, etc. Enrollment by instructor permission. Approval of undergraduate adviser required for credit as an upper-division elective. May be repeated for credit. The Staff

193. Field Study. F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a faculty member of the electrical engineering program and a willing sponsor at the field site and using resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives by submitting a written and oral presentation. May not normally be repeated for credit. The Staff

193F. Field Study (2 credits). F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a faculty member of the electrical engineering program and a willing sponsor at the field site and using resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives by submitting a written and oral presentation. May not normally be repeated for credit. The Staff

195. Senior Thesis Research. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. If using this course to replace the capstone design requirement (courses 123A and 123B), students must take course 157 or Computer Engineering 118 to fulfill the ABET team design experience. May be repeated for credit. The Staff

195F. Senior Thesis Research (2 credits). F,W,S

Prerequisite(s): petition on file with sponsoring agency. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Individual Study or Research. F,W,S

Provides for department-sponsored individual study program off campus, for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Provides for department-sponsored individual study program off campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200. Research and Teaching in Electrical Engineering (3 credits).

Basic teaching techniques for TAs: responsibilities and rights, resource materials, computer security, leading discussion or lab sessions, presentations techniques, maintaining class records, electronic handling of homework, and grading. Examines research and professional training: use of library and online databases, technical typesetting, writing journal and conference papers, publishing, giving talks, and ethical issues. Enrollment restricted to graduate students. C. Gu

211. Introduction to Nanotechnology.

Introduction to underlying principles of nanoscience and nanotechnology. Intended for multidisciplinary audience with a variety of backgrounds. Introduces scientific principles and laws relevant on the nanoscale. Discusses applications in engineering, physics, chemistry, and biology. Prerequisite(s): course 145 or consent of instructor. Enrollment

limited to 35. H. Schmidt

212. Introduction to BioMEMS.

Oriented to general engineering and science students. Topics included are: 1) microfabrication of silicon, glass, and polymer materials; 2) microfluidics and electrokinetics; 3) sensors, actuators, and drug-delivery systems; 4) micro total-analysis systems and lab-on-a-chip devices; 5) detection and measuring systems; 6) genomics, proteomics, DNA, and protein microarrays; 7) emerging applications in medicine, research, and homeland security; 8) packaging, power systems, data communication, and RF safety; and 9) biocompatibility and standards. Recommended for advanced undergraduates and graduate students in bioengineering, electrical engineering, chemistry, and health-related fields including biochemistry, molecular and cellular biology, physiology, and genetics. Enrollment restricted to graduate students, or by permission of the instructor. J. Kubby

213. Nanocharacterization of Materials.

Covers the many characterization techniques used to characterize materials from volumes less than one cubic micrometer, including the basic physics of each method, the methodology used to get quantitative results, and the advantages and limitations of each technique. Enrollment restricted to graduate students, or to undergraduates majoring in engineering or science by permission of instructor. M. Isaacson

215. Micro-Electro-Mechanical Systems (MEMS) Design. S

Introduction to MEMS technology: covers basic microfabrication technologies, the governing physics for MEMS devices in different energy domains (mechanical, electrical, optical, thermal, and fluidic). Fabrication and design of MEMS devices illustrated using examples of existing research prototypes and commercial products. Students design, lay out, and fabricate an optical MEMS deformable mirror device for applications in adaptive optics. Students are billed a materials fee. Prerequisite(s): courses 135, 145, and 211; and Physics 5A, 5B, and 5C. Enrollment restricted to seniors and graduate students. May be repeated for credit. J. Kubby

216. Nanomaterials and Nanometer-Scale Devices. F

Materials controlled at nanometer-scale will revolutionize existing technologies. Course offers opportunities of learning materials that exhibit peculiar physical characteristics at the nanometer scales. Course also includes discussions of unique device architecture based on materials crafted at the nanometer scale. N. Kobayashi

221. Advanced Analog Integrated Circuits. S

Analog integrated circuit design with emphasis on fundamentals of designing linear circuits using CMOS. Covers MOS devices and device modeling, current mirrors, op-amp design, op-amp compensation, comparators, multipliers, voltage references, sample-and-holds, noise, and an introduction to more complicated systems using these building blocks, such as phase locked loops and analog-to-digital converters. If time permits, integrated circuit layout issues and device/circuit fabrication. Students cannot receive credit for this course and course 172. Prerequisite(s): course 171 or equivalent; course 178 or equivalent recommended. Enrollment limited to 20. K. Pedrotti

222. High-Speed Low-Power Integrated Circuit Design. W

Digital integrated circuit design covered with an emphasis on high-speed and low-power applications. Covers signaling techniques and circuits including transmitters and receivers, with emphasis on on-chip interconnect, timing fundamentals and timing circuits. Theoretical fundamentals of phase locked loops and design issues of implementation addressed. Course has a project design component. Interview to assess technical skills of student. Enrollment restricted to electrical engineering and computer engineering graduate students. Enrollment limited to 20. May be repeated for credit. S. Petersen

223. Advanced Solid-State Devices.

Solid-state devices advance rapidly by employing new materials, new architecture, and new functional principles. Class offers opportunities to learn the latest advancements in solid-state devices (e.g., electronic, optoelectronic, photonic devices, and smart sensors) viewed from various scientific, technological, and engineering aspects, such as energy conversion and computation. N. Kobayashi

224. Physical Design of Micro- and Opto-Electronic Packages.

Micro- and opto-electronic packaging and materials; mechanical properties and behavior, thermal stress in dissimilar materials, and predictive modeling. Design for reliability, dynamic response to shocks and vibrations; reliability evaluations and testing; plastic packages of IC devices; photonics packages, fiber optics structures, and new frontiers. Enrollment restricted to graduate students. The Staff

225. Basics of Electronics Reliability.

Basic concepts of reliability engineering taught in application to microelectronic and photonic materials, assemblies, and packages and systems. Emphasis on the physics and mechanics of failure physical design for reliability predictive modeling and accelerated testing, with numerous practical examples and illustrations. Prerequisite(s): basic calculus; electronic and photonic devices and systems. Enrollment restricted to graduate students. The Staff

226. CMOS Radio Frequency Integrated Circuit Design. F

Covers narrowband and high-frequency techniques, noise, distortion, nonlinearities, low-noise amplifiers, power amplifiers, mixers, receivers, and transmitters for wireless communications. Topics are presented in the context of integrated designs in CMOS, but topics are fundamental and widely applicable. Prerequisite(s): course 172 or 221 or permission of instructor. K. Pedrotti

230. Optical Fiber Communication. F

Components and system design of optical fiber communication. Topics include step-index fibers, graded-index fibers, fiber modes, single-mode fibers, multimode fibers, dispersion, loss mechanics, fiber fabrication, light-emission processes in semiconductors, light-emitting diodes, laser diodes, modulation response, source-fiber coupling, photodetectors, receivers, receiver noise and sensitivity, system design, power budget and rise-time budget, fiber-optic networks (FDDI, SONET, etc), wavelength division multiplexing (WDM). Students cannot receive credit for this course and course 130. Enrollment restricted to graduate students. May be repeated for credit. C. Gu

231. Optical Electronics.

Introduction to phenomena, devices, and applications of optoelectronics. Main emphasis is on optical properties of semiconductors and semiconductor lasers. Prerequisite(s): course 145/L. May be repeated for credit. C. Gu, H. Schmidt

232. Quantum Electronics. S

Covers basic theory of interaction of electromagnetic radiation with resonant atomic transitions and density matrix treatment; and applications including Rabi oscillations, slow light; nonlinear optics; coherent radiation, and noise in photodetectors and lasers. Prerequisite(s): course 231 or equivalent. H. Schmidt

233. Fiber Optics and Integrated Optics.

Concepts and analysis of optical wave propagation in optical fibers and waveguides. Topics include geometrical optics description and electromagnetic theory of slab waveguides; modes, dispersion, and birefringence in optical fibers; mode coupling and gratings in fibers; wavelength-division multiplexing; nonlinear optics in fibers and solitons; semiconductor optical amplifiers and Er doped fiber amplifiers. Prerequisite(s): courses 135 and 145. C. Gu

234. Liquid Crystal Displays.

Introduction to principle of operation, components and systems of liquid crystal displays (LCDs). Topics include basic LCD components, properties of liquid crystals, polarization of optical waves, optical wave propagation in anisotropic media, Jones matrix method, various display systems, active matrix addressing, and color LCDs. Prerequisite(s): course 135 and 136. Enrollment restricted to seniors and graduate students. C. Gu

235. Optical Information Storage and Processing.

Introduction to applications of optical technologies in data storage and information processing. Topics include basic principles of Fourier optics; electro-optic, acousto-optic,

and magneto-optic effects and devices; planar and volume holography; optical data storage systems; and optical information processing, interconnecting, and switching systems. Enrollment restricted to graduate students, or undergraduates having completed Physics 5B and 5C and course 103. C. Gu

236. Integrated Biophotonics. W

Covers use of integrated optics for study of biological material; fluorescence spectroscopy, single molecule detection, optical tweezers, layered dielectric media, hollow-core waveguides, photonic crystals, optofluidics, biophotonic systems, and applications.

Prerequisite(s): course 233 or equivalent. Enrollment restricted to graduate students. Enrollment limited to 20. H. Schmidt

241. Introduction to Feedback Control Systems. F

Graduate-level introduction to control of continuous linear systems using classical feedback techniques. Design of feedback controllers for command-following error, disturbance rejection, stability, and dynamic response specifications. Root locus and frequency response design techniques. Extensive use of Matlab for computer-aided controller design. Course has concurrent lectures with Electrical Engineering 154. (Also offered as Computer Engineering 241. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. G. Elkaim, J. Rosen, W. Dunbar

250. Digital Signal Processing.

In-depth study of signal processing techniques, including discrete-time signals and systems, the z-transform, sampling of continuous-time signals, transform analysis of linear time-invariant systems, structures for discrete-time systems, the discrete Fourier transform, computation of the discrete Fourier transform, filter design techniques. Students cannot receive credit for this course and course 153. H. Sadjadpour, P. Mantey, P. Milanfar, B. Friedlander

251. Principles of Digital Communications.

A core course on digital communications theory. Provides an introduction to digital communication, including source coding, characterization of communication signals and systems, modulation and demodulation for the additive Gaussian channel, digital signaling, and over bandwidth constrained linear filter channels and over fading multipath channels. Prerequisite(s): course 151 and 153 (or Computer Engineering 153) and Computer Engineering 107. B. Friedlander

252. Wireless Communications.

In-depth study of the physical layer of wireless communications. Wireless propagation channels and their impact on digital communications. Modulation techniques for wireless systems and their performance. Multi-antenna systems and diversity. Multicarrier and spread spectrum. Multi-access methods: FDMA, TDMA, CDMA. The structure of cellular systems. Students cannot receive credit for this course and course 152. Prerequisite(s): course 251. B. Friedlander

253. Introduction to Information Theory. F

An introduction to information theory including topics such as entropy, relative entropy, mutual information, asymptotic equipartition property, channel capacity, differential entropy, rate distortion theory, and universal source coding. (Also offered as Computer Science 250. Students cannot receive credit for both courses.) Prerequisite(s): Computer Engineering 107, or Applied Mathematics and Statistics 131 or equivalent course, or permission of instructor. H. Sadjadpour

254. Multi-User Information Theory.

Topics include basic information theory, multiple-access channel, broadcast channel, interference channel, relay channel, capacity with feedback, capacity of networks, and channels with state and current research. Prerequisite(s): course 253. Enrollment restricted to graduate students. The Staff

255. Multiple-Antenna Wireless Communications.

Basic theory of multiple-antenna wireless systems. Introduction to space-time propagation models, capacity of multiple-input multiple-output (MIMO) channels, space-time coding,

transmitter CSI, and multiuser space-time systems. Includes discussion of multiple antennas in emerging systems and standards. Prerequisite(s): course 252 and Computer Engineering 107, or Applied Mathematics and Statistics 131, or equivalent. The Staff

256. Introduction to Radar Systems and SAR.

Fundamentals of radar systems and radar-signaling processing, including SAR. Emphasizes real-world applications. MATLAB emphasizes algorithm development and performance analysis. Basic EM theory and a first course in signal processing are recommended. Enrollment limited to 20. F. Dowla

261. Error Control Coding.

Covers the following topics: introduction to algebra; linear block code; cyclic codes; BCH code; RS codes; spectral domain study of codes; CRC; and product codes. H. Sadjadpour

262. Statistical Signal Processing.

Covers fundamental approaches to designing optimal estimators and detectors of deterministic and random parameters and processes in noise, and includes analysis of their performance. Binary hypothesis testing: the Neyman-Pearson Theorem. Receiver operating characteristics. Deterministic versus random signals. Detection with unknown parameters. Optimal estimation of the unknown parameters: least square, maximum likelihood, Bayesian estimation. Will review the fundamental mathematical and statistical techniques employed. Many applications of the techniques are presented throughout the course. Note: While a review of probability and statistics is provided, this is not a basic course on this material. (Formerly Statistical Signal Processing I.) Prerequisite(s): course 103 and Computer Engineering 107, or permission of instructor. P. Milanfar

263. Advanced Topics in Coding Theory.

Covers convolutional codes and its principles, maximum likelihood decoding and Viterbi decoding, performance evaluation of convolutional codes, trellis coded modulation (TCM), rotationally invariant convolutional codes, turbo codes, turbo decoding principles, performance evaluation of turbo codes, interleaver design for turbo codes, topics on turbo codes, space-time codes, and LDPC. Prerequisite(s): course 261. Enrollment restricted to electrical engineering, computer engineering, and computer science graduate students. Enrollment limited to 10. H. Sadjadpour

264. Image Processing and Reconstruction.

Fundamental concepts in digital image processing and reconstruction. Continuous and discrete images; image acquisition, sampling. Linear transformations of images, convolution and superposition. Image enhancement and restoration, spatial and spectral filtering. Temporal image processing: change detection, image registration, motion estimation. Image reconstruction from incomplete data. Applications. Students that have completed Computer Engineering 261 may not take this course for credit. Prerequisite(s): course 153 or permission of instructor. P. Milanfar

265. Introduction to Inverse Problems (3 credits).

Fundamental approaches and techniques in solving inverse problems in engineering and applied sciences, particularly in imaging. Initial emphasis on fundamental mathematical, numerical, and statistical formulations and known solution methods. Sampling of applications presented from diverse set of areas (astronomical, medical and optical imaging, and geophysical exploration). Enrollment restricted to graduate students. P. Milanfar

270. Neural Implant Engineering.

Advanced studies of the basic neuroscience-engineering design requirements and technological issues associated with implantable neural prostheses, with particular emphasis on retinal and cortical function. Course is team-taught via remote web cast. A basic understanding of physics, circuit theory, and electronics is required. Enrollment restricted to graduate students; juniors and seniors may enroll by permission of instructor. The Staff

280B. Seminar on Integrated Bioelectronics (2 credits). F,W,S

Weekly seminar covering current research in integrated bioelectronics. May be repeated for

credit. The Staff

280I. Seminar on Microscopy and Nanotechnology (1 credit).

Weekly seminar series covering research topics and experimental research in microscopy and nanotechnology. Current research and literature are discussed. Students lead discussion and participate in all meetings. Enrollment restricted to graduate students. Enrollment by permission of instructor. Enrollment limited to 10. May be repeated for credit. M. Isaacson

280M. Seminar on Micro-Electro-Mechanical Systems (MEMS) (2 credits). F,W,S

Weekly seminar series covering topics of current research interest in Micro-Electro-Mechanical Systems (MEMS) design, fabrication and applications. Current research work and literature in these areas are discussed. Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. May be repeated for credit. J. Kubby

280O. Seminar on Applied Optics (2 credits). F,W,S

Weekly seminar series covering topics of current research in applied optics, including integrated, quantum, nonlinear, and nano-optics. Current research work and literature in these areas are discussed. Enrollment by permission of instructor. May be repeated for credit. H. Schmidt

280Q. Seminar on Quantum Electronics and Nanoelectronics (2 credits).

Weekly series covers current research in quantum electronics including electron and photon transport in nanostructures; nanoscale heat transport; optoelectronic integrated circuits; nanoscale devices for energy conversion; micro-refrigeration; thermal and acoustic imaging of nanostructures. Current research work and recent literature are discussed. Enrollment restricted to graduate students; undergraduates may enroll by permission of instructor. May be repeated for credit. The Staff

281. Guest Seminar Series (1 credit).

Distinguished speakers from industry, universities, and government discuss current developments in electrical engineering and related fields. Emphasis on research questions that may lead to collaborative work with faculty and graduate students. Enrollment restricted to graduate students. May be repeated for credit. N. Mingo, The Staff

283. Special Topics in Electrical Engineering (3 credits).

Graduate seminar on a research topic in electrical engineering that varies with the particular instructor. Topics may include, but are not limited to, electromagnetics, antennas, electronics biotechnology, nanotechnology, signal processing, communications, VLSI, MEMS, and radio frequency. Enrollment restricted to graduate students and consent of instructor. Enrollment limited to 25. May be repeated for credit. The Staff

290. EE Graduate Seminar (1 credit).

Research seminar at the graduate level regarding technical areas of electrical engineering activity that are of interest to the research and/or commercial communities. Enrollment restricted to computer engineering, electrical engineering, or physics graduate students, or by permission of instructor. Enrollment limited to 30. May be repeated for credit. The Staff

291. Tomorrow's Professor: Preparing for an Academic Career in Science and Engineering (3 credits).

The aim of this course is two-fold: (1) inform, motivate, and prepare graduate students for a possible career in academia; (2) expose both undergraduate and graduate students to the academic enterprise, possible career options for those who pursue advanced degrees in engineering and science. P. Milanfar

293. Advanced Topics in Electrical Engineering. S

Graduate seminar course on a research topic in electrical engineering that varies with the particular instructor. Typical topics include, but are not limited to, electromagnetics, antennas, electronics biotechnology, nanotechnology, signal processing, communications, VLSI, and MEMS. Prerequisite(s): Consent of instructor. Enrollment restricted to graduate

students. Enrollment limited to 25. May be repeated for credit. The Staff, N. Kobayashi, C. Gu

297. Independent Study or Research. F,W,S

Independent study or research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Thesis research conducted under faculty supervision. Students submit petition to sponsoring agency. The Staff

Baskin School of Engineering

The Baskin School of Engineering has a high–technology focus incorporating programs and curricula that educate students to meet the changing demands of society and a high–technology global marketplace. The school offers a stimulating academic environment that provides a foundation for professional growth as well as a lifetime of learning. The Baskin School's programs and courses prepare students for the human aspects, as well as the technical challenges, of careers in engineering, computer science, and bioinformatics. The Baskin School of Engineering includes the Department of Applied Mathematics and Statistics, the Department of Biomolecular Engineering, the Department of Computer Engineering, the Department of Computer Science, the Department of Electrical Engineering, and a multi–disciplinary Technology and Information Management Program.

Graduate Study

The Baskin School of Engineering offers 12 graduate programs designed to prepare students for advanced study and research in major areas of biomolecular, computer, and electrical engineering, as well as computer science and statistics and stochastic modeling:

- Biomolecular engineering and bioinformatics master of science (M.S.) and doctor of philosophy (Ph.D.)
- Computer engineering M.S. and Ph.D.

- Cowell College
- Crown College
- Digital Arts and New Media
- Earth and Planetary Sciences
- East Asian Studies
- Economics
- Education
- Electrical Engineering
- School of Engineering ➤
- Environmental Studies
- Ethnic Studies
- Film and Digital Media
- Feminist Studies
- French
- German
- German Studies
- Greek
- Hebrew
- History
- History of Art and Visual Culture
- History of Consciousness
- Humanities
- Italian
- Italian Studies
- Japanese
- Jewish Studies
- Kresge College
- Language Program
- Language Studies
- Latin
- Latin American and Latino Studies
- Legal Studies
- Linguistics
- Literature
- Mathematics
- Merrill College
- Microbiology and Environmental Toxicology
- Music
- Oakes College
- Ocean Sciences
- Philosophy
- Physical and Biological Sciences Division
- Physical Education
- Physics
- Politics
- Portuguese
- Porter College
- Psychology
- Queer and Sexuality Studies
- Religious Studies
- Russian
- Science Communication

- Computer science M.S. and Ph.D.
- Electrical engineering M.S. and Ph.D.
- Statistics and applied mathematics M.S. and Ph.D
- Technology and information management M.S. and Ph.D.

These programs are described in subsequent sections. The aim of these programs is to develop professionals who can address the complex scientific and technological problems of today and tomorrow.

Undergraduate Study

The School of Engineering offers 12 undergraduate degree programs in the following majors:

- Bioengineering bachelor of science (B.S.)
- Bioinformatics B.S. or combined B.S./Graduate
- Computer engineering B.S. or combined B.S./M.S.
- Computer science bachelor of arts (B.A.) and B.S.
- Computer science: computer game design B.S.
- Electrical engineering B.S.
- Network and digital technology B.A.
- Robotics engineering B.S.
- Technology and information management B.S.

Bioengineering. The bioengineering program prepares graduates for a rewarding career at the interfaces between engineering, medicine and biology. UCSC bioengineering graduates will have a thorough grounding in the principles and practices of bioengineering and the scientific and mathematical principles upon which they are built; they will be prepared for further education (both formal and informal) and for productive employment in industry. The program includes a broad range of courses in the sciences, engineering, ethics, and other topics, and is co–sponsored by the Departments of Biomolecular Engineering, Computer Engineering, Electrical Engineering, and Molecular, Cell and Developmental Biology.

Bioinformatics. The bioinformatics curriculum combines mathematics, the physical sciences, computer science, and engineering to explore and understand biological data from high–throughput experiments, such as genome sequencing and gene expression chips. The immense growth of biological information stored in computerized databases has led to a critical need for people who can understand the languages, tools, and techniques of mathematics, science, and engineering. The undergraduate bioinformatics degree program prepares students for graduate school or a career in the fast–paced pharmaceutical or biotechnology industries.

Computer Engineering. The computer engineering curriculum focuses on making digital systems that work. It overlaps with computer science on one end (software systems) and with electrical engineering on the other (digital hardware). The emphasis of our program is on design rather than analysis—on making things work, rather than on explaining the abstract theory of computation or electronics. The program’s emphasis on problem solving provides both excellent training for future engineers and a strong foundation for graduate study. The computer engineering B.S. program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). The combined B.S./M.S. program provides an opportunity for outstanding undergraduates to begin advanced study and earn both degrees in five years.

Computer Science. The computer science curriculum has options that include topics in hardware and software, giving students a solid grounding in both theoretical and practical aspects of computer technology and computer usage. The bachelor of arts focus is

- [Social Documentation](#)
- [Social Sciences](#)
- [Sociology](#)
- [Spanish and Spanish for Heritage Speakers](#)
- [Stevenson College](#)
- [Technology and Information Management](#)
- [Theater Arts](#)

[Appendixes](#)

[Archive of General Catalogs](#)

[Nondiscrimination Statement](#)

designed to give students a solid grounding in both theoretical and practical topics in computer science, computer engineering, and mathematics while leaving flexibility for a broad program of study, including many courses outside of science and engineering. The bachelor of science curriculum has a stronger concentration in the sciences, with more courses in computer science and computer engineering, as well as courses in physics or chemistry. Students become proficient in many areas, with a good academic foundation for various careers in the software industry, as well as preparation for graduate school.

Computer Science: Computer Game Design. The computer game design curriculum is a four-year interdisciplinary program that focuses on the technical, dramatic, and artistic elements of computer games. The program provides a rigorous education in computer science, in concert with a broad introduction to those aspects of art, music, narrative, digital media, and computer engineering most relevant to games. An intensive year-long game design studio sequence permits students to create substantial video games as part of a multi-student team. Students receive proficiency in many aspects of computer science, a good academic foundation for careers in the computer game industry or information technology industry, or for the pursuit of graduate studies in computer science, or computer game design.

Electrical Engineering. The electrical engineering curriculum provides a balance of engineering science and design and allows students to specialize in both the traditional topics and the latest subjects in electrical engineering. Students may concentrate their electives in the areas of electronics and optics, communications, or signals and systems. The major is designed to attract motivated students who, upon graduation, will be sought by employers in the high-tech industry. The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Network and Digital Technology. The network and digital technology B.A. program provides students with in-depth knowledge of the underlying structure and function of network and computer technology and the design processes which make these technologies function. The program, through its flexible requirements, is especially tailored to students who wish to combine technology with other fields, such as through a double major or a minor, or who, through the choice of electives, wish to concentrate on the digital design or computer networks aspects of computer engineering in preparation for future employment. The network and digital technology B.A. program is offered by the Computer Engineering Department.

Robotics Engineering. The robotics engineering program prepares graduates for rewarding careers at the interfaces between electrical, computer, and mechanical engineering. UCSC robotics engineering graduates will have a thorough grounding in the principles and practices of robotics and control, and the scientific and mathematical principles upon which they are built; graduates will be prepared for further education (both formal and informal) and for productive employment in industry.

Technology and Information Management. The technology and information management (TIM) curriculum is multidisciplinary and focuses on the fusion of information systems, technology, and business management for two purposes: the use of information systems to solve business problems and the management of technology, which includes new product development and enterprise management. Students must learn the mathematics, science, and technical fundamentals of computer science and engineering as well as understand the environment in which information technology (IT) solutions will be applied—through economics, business, and management of technology courses. It is a rigorous, challenging major for those students wanting to pursue careers in information systems management and the management of technology.

Undergraduate Minors

Undergraduate students may choose from the following seven minor options:

Applied Mathematics. The applied mathematics minor is available to students who wish to develop 1) proficiency in modeling real-life problems using mathematics and 2) knowledge of standard, practical analytical and numerical methods for the solution of these models. This minor could be combined with a major in any of the physical, biological, mathematical, or engineering sciences as preparation for a graduate degree in that field or

in applied mathematics.

Bioinformatics. The bioinformatics minor is intended primarily for bioinformatics tool users who are majoring in a biological or chemical specialty. The bioinformatics minor is also appropriate for computer science or computer engineering majors who are considering graduate work in bioinformatics.

Computer Engineering. The computer engineering minor provides a solid foundation in digital hardware, electronics, and computer software, as well as the prerequisite material in mathematics and physics. The minor is well-suited to students who wish to take part in the design of computer and embedded systems in any discipline.

Computer Science. The computer science minor is available for students whose primary interest is in another area, and are interested in the applications of computer science in other areas of study, from art and music to business and science.

Electrical Engineering. The electrical engineering minor provides a solid foundation in the core areas of electronic circuits and signals and systems, as well as the prerequisite material in mathematics and physics. Concentration of upper-division electives in either of the major tracks constitutes substantial and focused work in the discipline of electrical engineering. This minor is particularly suitable for students with majors in applied physics or any School of Engineering major.

Technology and Information Management. The technology and information management minor provides undergraduates in the School of Engineering as well in other programs and divisions in the university, such as economics and business management economics, the physical and biological sciences, and arts, the opportunity to expand the breadth of their knowledge and training to include the management of information systems and the management of technology.

Statistics. The statistics minor is available for students who wish to gain a quantitative understanding of how to a) measure uncertainty and b) make good decisions on the basis of incomplete or imperfect information and apply these skills to their interests in another field. This minor could also be combined with a major in mathematics as preparation for a graduate degree in statistics or biostatistics.

Undergraduate Advising Office

The Baskin School of Engineering undergraduate advising office offers general advising for prospective and declared undergraduates majoring in School of Engineering programs. The office handles major declarations, transfer credits, course substitutions, articulations, and degree certifications. Undergraduate students obtain and submit all paperwork requiring departmental approval to the undergraduate advising office. Students may obtain additional information and assistance on the School of Engineering web site: <http://ua.soe.ucsc.edu/>.

Admission to School of Engineering Majors

High School Preparation for Engineering Students

It is recommended that high school students intending to apply to a School of Engineering major have completed four years of mathematics (through advanced algebra and trigonometry) and three years of science in high school. Comparable college mathematics and science courses completed at other institutions also serve to properly prepare students for these majors.

College Board Advanced Placement Credit

Prospective students are encouraged to take the College Board Advanced Placement (AP) and International Baccalaureate (IBH) Examinations as acceptable scores on these examinations may satisfy both university or major degree requirements. Prospective engineering students should consider taking examinations in computer science, mathematics, economics, chemistry, or biology. Students must provide official examination scores to the UCSC Office of Admissions to be granted credit toward course prerequisites or degree requirements. The following AP and IBH scores are accepted for course credit requirements as follows:

Common Entrance Examination for Admission to Polytechnics

CEEP AP Exam	Score	UCSC Course Credit
Biology	3,4,5	Biology 20A: Cell and Molecular Biology
	5	Biology 20B: Development and Physiology
Chemistry	5	Allows enrollment in Chemistry 1B and 1M
Computer Science:		
Exam A	3	Computer Science 5J: Introduction to Programming in Java
	4,5	Computer Science 12A/L: Introduction to Programming
Computer Science:		
Exam AB	3	Computer Science 12A/L: Introduction to Programming and Lab
	4,5	Computer Science 12 A/L: Introduction to Programming and Lab and Computer Science 12B/M: Introduction to Data Structures Lab
Economics:		
Microeconomics	4 or 5	Economics 1: Introductory Microeconomics
Economics:		
Macroeconomics	4 or 5	Economics 2: Introductory Macroeconomics
Mathematics:		
Calculus AB	3	Mathematics 3 or AMS 3: Precalculus
Mathematics:		
Calculus AB	4 or 5	Mathematics 19A: Calculus for Science, Engineering and Math
Mathematics:		
Calculus BC	3	Mathematics 19A: Calculus for Science, Engineering and Math
Mathematics:		
Calculus BC	4 or 5	Mathematics 19A: Calculus for Science, Engineering and Math and Mathematics 19B: Calculus for Science, Engineering and Math

International Baccalaureate Credit

IBH Exam	Score	UCSC Course Credit
Computer Science	5	Computer Science 12A/L: Introduction to Programming and Lab
Computer Science	6 or 7	Computer Science 12A/L: Introduction to Programming and Lab and
		Computer Science 12B/M: Introduction to Data Structures and Lab

Students may check with the Office of Admissions for details about other AP and IBH examinations that also satisfy university requirements.

Admission as First-Year Students

Qualified first-year applicants to UCSC may apply for direct acceptance to a School of Engineering major by indicating the major as their first or second choice on the application. Applicants will be granted direct acceptance based on their high school grade

point average, courses completed in mathematics and sciences, scores on standardized tests, and/or their personal statement. Some majors specify criteria for sustained performance that must be maintained for directly-accepted students to remain declared in the major. Such criteria are provided in the major's program statement, where applicable.

Post First-Year Current Students Acceptance to Majors

Students interested in declaring a School of Engineering major can do so by following the major declaration policy for that major as specified in the corresponding program statement. Major declaration must be done by the sixth quarter of study at UCSC, but can be done earlier for some majors. Students are encouraged to declare as early as possible, to ensure placement into courses required for the major. Specific information about requirements and the School of Engineering major declaration process can be found at <http://ua.soe.ucsc.edu/>.

Junior Transfer Acceptance to Majors

The School of Engineering strongly encourages applications from transfer students. Due to the prerequisite structure for upper-division courses, prospective transfer students should have completed as many of the lower-division requirements for the respective majors as possible to complete the degree within a reasonable time. Students must plan carefully because many courses must be taken sequentially.

Transfer students should not follow the Intersegmental General Education Transfer Curriculum (IGETC) because it will not provide transfer students with enough mathematics and engineering courses to allow them to complete School of Engineering programs at UCSC in two years.

Students who apply as transfer students with junior status (90 quarter credits or more of transfer credit) who wish to earn a degree from the School of Engineering must indicate a School of Engineering major as their first choice on their UC application. (Students may also indicate an alternative School of Engineering major as their second choice.)

Junior transfers who do not list a School of Engineering major on their application to UCSC will not be considered for admission to such majors after the first day of their first quarter on campus.

Acceptance into the major is based on the student's academic college record and preparation for the major. Applicants are encouraged to take and excel in as many courses that are equivalent to the department's foundation courses as possible. For many School of Engineering majors, completion of a year of calculus (accepted as equivalent to Mathematics 19A-B), linear algebra, differential equations, a year of calculus-based physics courses (accepted as equivalent to Physics 5A, 5B, 5C), and two programming courses (accepted as equivalent to Computer Science 12A/L, Computer Science 12B/M, or Computer Engineering 12/L or Computer Engineering 13/L) are strongly recommended. An applicant will be approved, conditionally approved, or declined. Only students who have completed most or all of the foundation courses will be approved or conditionally approved for acceptance into the major.

Students who are approved for acceptance and who have course credit for all the foundation courses for their major must declare the major in their first term of enrollment at UCSC. The status of students who are approved for acceptance but who, upon review of their transcripts, are found not to have course credit for all the foundation courses for their major will be changed to conditionally approved.

Students who are conditionally approved must complete the remaining required foundation courses for their major in their first term at UCSC and declare the major at the beginning of the following term at UCSC. Conditionally approved students will be evaluated based upon their performance in the foundation courses attempted during their first term at UCSC. Students who are conditionally approved for the major should be prepared to declare an alternative major outside of the School of Engineering in case they are unsuccessful in their attempt to complete their remaining foundation courses.

Course Substitutions

The School of Engineering undergraduate advising office may require that a Petition for

Course Substitution be approved before credit for a course completed at another institution can be applied to any School of Engineering major requirement. The undergraduate advising staff can help determine if this petition process is necessary based on transcript information provided to them by the student. This petition is in addition to and separate from the transfer credit awarded by the university. Petition forms are available at the undergraduate advising office and online at <http://ua.soe.ucsc.edu/policies-forms>. Each petition must be accompanied by a course description, syllabus, and verification of the number of credits earned with a grade of C or better. To guarantee equivalency, departments may sometimes require a grade of B or better. It is very helpful if students can provide further evidence of course content, such as examples of programming assignments, homework, or examinations.

Appeal Process

Appeal of negative decisions concerning School of Engineering admission will be evaluated by the academic program to which the student applied. Appeal letters must be submitted in writing to the undergraduate advising office within the time frame given in the letter of denial. Late appeals will not be considered. Letters of appeal should describe any extenuating circumstances that might affect the faculty's evaluation of the record.

Students whose petitions are denied may still be admitted to UCSC, but they may not reapply for acceptance to the engineering major(s) for which they were originally considered.

Letter Grade Policy

All students admitted to a School of Engineering major, or seeking admission to a major, must take all courses required for that major for a letter grade. To earn credit for at most one lower-division course that is required for the major and that was taken pass/fail, the student must go through an appeal process.

Ethics Requirement

Graduates of the Baskin School of Engineering are expected to become professionals with the highest ethical standards. Knowledge and practice of professional ethics is a requirement for the degree. Examples of professional society codes of ethics are available at www.ieee.org/about/ethics_code/index.html and www.acm.org/serving/se/code.htm. Students of the Baskin School of Engineering are also expected to adhere to high ethical standards while pursuing their undergraduate studies.

Students found guilty of a single incident of academic dishonesty may, at the discretion of the department, be disqualified from the major. In addition, students may be subject to other possible university sanctions. A second incident of academic dishonesty will result in automatic disqualification from the major.

Courses Taken Elsewhere After Enrollment

It is the intent of the faculty of the Baskin School of Engineering that all degree requirements be completed at UCSC or prior to first enrollment at UCSC. Course substitutions, such as taking a course at another UC campus, in the Education Abroad Program (EAP), or at a community college, require approval prior to taking the class. Applications and procedures for pre-approval are obtained from and given to the School of Engineering undergraduate advising office.

California Community College articulation agreements do not apply to enrolled students. Students must get pre-approval before taking a class at a community college.

When a student declares their major, minor, or proposed major in a School of Engineering program, the decision as to whether a course taken elsewhere is accepted for this School of Engineering major or minor is made by the major department at that point. (Note: There is no guarantee that a course will be applicable toward a School of Engineering major, minor, or proposed major even if the student has completed more advanced courses in that department.)

School-Wide Information and Policies

Computing Facilities

The Baskin School of Engineering houses research facilities and teaching laboratories in the Baskin Engineering Building for courses in programming, software design, circuits, electronics, graphics, digital design, and computer and system architecture. Emphasis in these laboratories is on state-of-the-art equipment, including personal computers, engineering workstations, a 1000-processor Linux cluster, logic analyzers, microprocessor development systems, a wireless network for mobile computers, and network support at 100MB/sec.

All Unix computers and workstations and most personal computers on campus are networked together, allowing students to access the School of Engineering and the Information Technology Services (ITS) facilities from any computer account on campus. For a more complete description of the computing facilities on campus, see

<http://its.ucsc.edu/>.

Prerequisites

Because of the sequential nature of the School of Engineering curricula, most courses have prerequisites, which are listed in the course descriptions. Students should carefully review these descriptions in the catalog and the quarterly *Schedule of Classes*. Students must have passed all prerequisites of a course for which they are enrolling. Pre-enrolled students who then fail a prerequisite are no longer eligible to be enrolled in the course and will be dropped.

For example, to enroll in Computer Science 101, a prerequisite to many upper-division courses, the prerequisite courses that must be completed or in progress are Computer Science 12B, Computer Engineering 16, Mathematics 19B, and one of the following: Mathematics 21, 22, 23A, 24, or Applied Mathematics and Statistics 10.

Students who have transferable course work from another institution that appears to satisfy a UCSC course prerequisite should promptly consult with the School of Engineering's staff advisers. Students will be asked to present records from the other institution to document the course equivalency. Until such evidence has been verified by the department, students attempting to enroll in a course using a prerequisite course that was not completed at UCSC will be informed that they have not satisfied the course prerequisite. (See the Course Substitutions section under Admission to School of Engineering Majors.)

Permission Numbers

Students not meeting the regular prerequisite requirements for courses sponsored by the Baskin School of Engineering may petition the course instructor to receive a permission number to enroll. The instructor may ask a student to demonstrate the ability and/or potential to succeed in the course or may request additional information to formulate a decision. If no instructor has been assigned to the course, please contact the undergraduate advising office for direction.

Materials Fee

Students should be aware that some laboratory courses require each student to purchase miscellaneous parts or a material kit for completion of the laboratory work. Some laboratory courses may include consumable (one-time use) parts and materials that are distributed to the entire class. Some laboratory kits include parts that the student will assemble into a project and keep. Please refer to the Baskin Engineering Laboratory Support web page for specific course material fee amounts:

<https://intranet.soe.ucsc.edu/lab-support/fees>.

Miscellaneous Fees

Miscellaneous breakage or loss of equipment fees are assessed to address the cost of damaged laboratory equipment and loss of laboratory materials due to abuse or negligence. This fee is only charged if a student breaks or loses laboratory equipment or materials and is not a mandatory fee charged to all students taking the course. Please refer to the Baskin Engineering Laboratory Support web page for more information:

<https://intranet.soe.ucsc.edu/lab-support/fees>.

Environmental Studies

405 Interdisciplinary Sciences Building
(831) 459-2634
<http://envs.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

The environmental studies major prepares students for meaningful lifetime engagement with the environmental challenges that are facing society. UCSC environmental studies graduates hold leadership positions as legislative and policy analysts, environmental lawyers, environmental managers, city and state planners, educators, restoration ecologists, organic farmers and agroecological specialists, conservation biologists, environmental engineers, museum curators, business consultants, and political advocates. In addition, many graduates go on to obtain professional, master's, or doctoral degrees at the nation's finest institutions.

Students pursue an interdisciplinary curriculum that combines coursework in the natural and social sciences. Introductory courses cover the ecological, political, and economic aspects of historic, current and future environmental issues. The core course, Environmental Studies 100/L, Ecology and Society builds on the skills acquired in the lower-division classes, and encourages students to apply ecological, economical and political skills toward environmental and ecosystem management. The remaining upper-division elective courses further emphasize the integration of ecological knowledge with an understanding of social institutions and policies. The program emphasizes active, interdisciplinary learning with the overall objective of instilling the necessary skills to conserve biodiversity and integrate the principles of sustainability with respect to management of complex environmental systems. Faculty work on these issues at local, regional, and global levels providing a unique, proactive, and progressive academic environment for students wishing to pursue a degree program within the Environmental Studies Department.

In addition to the single environmental studies major, students may choose to pursue one of three combined majors with biology, Earth sciences, or economics. The combined major curricula offer the unique integration of the underlying concepts of environmental studies with a focus on the application of these concepts in a closely related field (or vice versa).

As a complement to classroom instruction and research, many courses have field components. The Environmental Studies Internship Program helps qualified students find placements with government and educational agencies, community organizations, and private firms. Furthermore, faculty-directed, independent, or field-oriented research courses allow environmental studies students the opportunity to learn more about their specific academic career or personal interests, often while earning academic credit

Environmental Studies Major Admissions Policy

A. Admissions Policy for the Environmental Studies Major

Students may petition to declare the Environmental Studies major once they have completed the following required courses: Environmental Studies 23; Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Applied Mathematics and Statistics 2 or 3 or Mathematics 3; Applied Mathematics and Statistics 7/L; Environmental Studies 100/L; Students receiving an NP, D, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, D, or F in the required courses are not eligible to declare the major.

B. Admissions Policy for the Environmental Studies/Biology Combined Major

Students may petition to declare the Environmental Studies/Biology combined major once they have completed the following courses: Environmental Studies 25; Ecology and Evolutionary Biology 20C; Molecular, Cell, and Developmental Biology 20A Chemistry 1A; Applied Mathematics and Statistics 2 or 3 or Mathematics 3; Applied Mathematics and Statistics 7/L; Environmental Studies 100/L; Students receiving an NP, D, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, D, or F in the required courses are not eligible to declare the major.

C. Admissions Policy for the Environmental Studies/Earth Sciences Combined Major

Students may petition to declare the Environmental Studies/Earth Sciences combined major once they have completed the following courses: Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Chemistry 1A; Applied Mathematics and Statistics 2 or 3 or Mathematics 3; Applied Mathematics and Statistics 7/L; Environmental Studies 100/L. Students receiving an NP, D, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, D, or F in the required courses are not eligible to declare the major.

D. Admissions Policy for the Environmental Studies/Economics Combined Major

Students may petition to declare the environmental studies/economics combined major once they have completed the following courses: Environmental Studies 23; Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Economics 1; Economics 11A; and either Applied Mathematics and Statistics 5 or 7/L ; Environmental Studies 100/L. Students receiving an NP, D, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, D, or F in the required courses are not eligible to declare the major.

Appeal Procedure

Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the department chair within 15 days from the date the notification was mailed. Within 15 days of receipt of the appeal, the department will notify the student, college, and Office of the Registrar of the decision.

Requirements for the Environmental Studies Major

Prerequisites for the Single Major

Continuing UCSC students are required to complete all six prerequisite courses before taking Environmental Studies 100/L. Five of the prerequisite courses are preset and are listed below. See the course descriptions for more specific information.

Environmental Studies 23, The Physical and Chemical Environment (offered in spring and summer quarters)

Environmental Studies 24, General Ecology (offered in fall and summer quarters). *

Environmental Studies 25, Environmental Policy and Economics. Offered in winter and summer quarters.

Applied Mathematics and Statistics 2, Pre–Statistics; or Applied Mathematics and Statistics 3, Precalculus for Science and Engineering; or Mathematics 3, Precalculus; or a score of 3 or higher on the College Board AP calculus examination, or equivalent. Check the catalog for the quarters offered.

Applied Mathematics and Statistics 7/L, Statistical Methods for the Biological and Environmental Studies. Check the catalog for the quarters offered. *

*Prerequisite for Environmental Studies 24 and Applied Mathematics and Statistics 7/L is Applied Mathematics and Statistics 2 or 3 or Mathematics 3.

In addition, students choose one introductory course in sociology, cultural anthropology, or ethics. The acceptable courses are as follows:

Anthropology 2, Introduction to Cultural Anthropology

Sociology 1, Introduction to Sociology

Sociology 10, Issues and Problems in American Society

Sociology 15, World Society

Philosophy 22, Introduction to Ethical Theory

Philosophy 24, Introduction to Ethics: Contemporary Moral Issues

Philosophy 28, Environmental Ethics

Philosophy 80G, Bioethics in the 21st Century: Science, Business, and Society

Transfer Students

Transfer students are accepted in the environmental studies major in the fall quarter only. Students transferring to UCSC should complete as much of the lower–division curriculum as possible, with a grade of C or better, at another recognized institution before transferring to UCSC. Below is an outline of acceptable substitute courses for the lower–division environmental studies single major prerequisites. Please note that all students wishing to pursue a degree within the Environmental Studies Department must complete Applied Mathematics and Statistics 7/L at UCSC to fulfill the introductory statistics requirement. It is recommended that transfer students plan to enroll in Applied Mathematics and Statistics 7/L and any other missing prerequisite during the summer or fall quarter in order to take ENVS 100/L in Winter quarter.

Completion of an introductory college chemistry course will substitute for Environmental Studies 23.

Completion of a general ecology course will substitute for Environmental Studies 24.

Two courses, one in politics, one in economics, will substitute for Environmental Studies 25.

A college-level precalculus course will substitute for Mathematics 3 or Applied Mathematics and Statistics 3 at UCSC.

Environmental Studies 23, 24 and 25 are offered during Summer Session at UCSC, and transfer students are encouraged to take them. If you are transferring, compare catalog descriptions, consult your current institution's adviser, and refer to the [ASSIST web site](#) to determine equivalency.

Plan One for students placing into MATH 3

Year	Fall	Winter	Spring
1st (frsh)	MATH 3 or AMS 2 or 3	AMS 7/L or SOC/ANTH/Ethics ENVS 25	ENVS 23
2nd (soph)*	ENVS 24 AMS 7/L or SOC/ANTH/Ethics	ENVS 100/L	
3rd (jr)			

Plan Two for students placing out of MATH 3

Year	Fall	Winter	Spring
1st (frsh)		ENVS 25 AMS 7/L or SOC/ANTH/Ethics	ENVS 23 AMS 7/L or SOC/ANTH/Ethics
2nd (soph)	ENVS 24	ENVS 100/L	

Upper-Division Requirements

In addition to lower-division coursework, students are required to complete nine upper-division courses:

Environmental Studies 100/L, Ecology and Society (environmental studies core course, offered once yearly during the winter quarter).

Seven upper-division electives (environmental studies courses numbered 101–179). One must be based in the social sciences and one course must be based in the natural sciences. List of these courses is available from the Environmental Studies Department.

See the [senior comprehensive requirement](#) below.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. A primary goal of the environmental studies major is to train students who are able to critically analyze interdisciplinary environmental problems, justify their position on an issue, and communicate that position to a range of audiences verbally and in writing. The DC Requirement in environmental studies is satisfied by completing Environmental Studies 100/L and one of the following courses: 183B, 190, 195A, 195B, or 196.

Comprehensive Requirement

The senior comprehensive may be satisfied by completing one of the options listed below.

Before enrolling in the senior thesis or senior internship option, students must formally apply to work with a particular faculty mentor very early in their thesis or project preparation. These courses require careful planning, additional independent research, and at least a two-quarter commitment.

Environmental Studies 183A & 183B, Senior Internship

Environmental Studies 190, Capstone Course: Environmental Problem Solving (offered spring quarter only)

Environmental Studies 195A or 195B, Senior Thesis

Environmental Studies 196 (one course from the series), Senior Seminar

Students with advanced skills in one of the graduate focal areas may also take a graduate seminar by invitation from the instructor.

Requirements for the Combined Majors

Environmental Studies/Biology

This course of study provides students with the basic tools of biological science and sufficient understanding of resource conservation, conservation biology, and concerns about environmental sustainability to apply these tools to environmental problems.

Lower-Division Requirements

All courses must be taken for a letter grade.

Biology and mathematics courses may require placement examinations. See course descriptions for prerequisite information.

Ecology and Evolutionary Biology 20A, 20B, and 20C

Environmental Studies 25

Anthropology 2; or Philosophy 21, 22, 24, 28, or 80G; or Sociology 1, 10 or 15

Applied Mathematics and Statistics 3, Precalculus or Applied Mathematics and Statistics 2 Pre-Statistics; Mathematics 3; or a score on the math placement examination or the College Board AP calculus examination sufficient to be placed into calculus)

Applied Mathematics and Statistics 7 and 7L

Chemistry 1A, 1B, and 1C/N

Two courses in physics, Physics 1 and 2, or Physics 6A/L and 6B or 6C.

Upper-Division Requirements

Students are required to complete nine upper-division courses and the comprehensive requirement listed below.

Environmental Studies 100/L (prerequisites are: Chemistry 1A; Ecology and Evolutionary Biology 20C; Environmental Studies 25; Applied Mathematics and Statistics 2 or 3, or Mathematics 3; Applied Mathematics and Statistics 7/L; and the cultural anthropology/sociology/philosophy option).

Biology 105, Genetics

Biology 109, Evolution

Six upper-division courses, three in biology and three in environmental studies. One of the six must be a laboratory course, and one of the three environmental studies courses must be based in the social sciences. Students wishing to pursue an advanced degree in the pure or applied sciences are strongly encouraged to complete the organic chemistry series as well. Chemistry 108A/L and 108B/M may be substituted to fulfill one of the upper-division biology elective requirements.

These upper-division elective courses should be selected in pursuit of a coherent plan of study, chosen in consultation with faculty sponsors from both the Biological Sciences and

Environmental Studies Departments. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study, or substitution course.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement for the environmental studies/biology combined major is satisfied by completing Environmental Studies 100/L and one of the following courses:

Environmental Studies 183B, 190, 195A, 195B, or 196, or Biology: Ecology and Evolutionary Biology 109.

Comprehensive Requirement

Students satisfy the senior comprehensive requirement by completing either:

one of the options for environmental studies majors (see Comprehensive Requirement above); or

one of the approved internships, independent research or field course or a thesis

Environmental Studies/Earth Sciences

This course of study provides students with the basic tools of Earth sciences and environmental studies needed to address environmental problems.

Lower-Division Requirements

Applied Mathematics and Statistics 7 and 7L

Mathematics 11A-B (or 19A-B)

Chemistry 1A, 1B/M, and 1C/N

Physics 6A/L and 6B/M (or 5A/L and 5B/M)

Earth Sciences 20/L (or 5/L or 10/L)

Environmental Studies 24 and 25

Anthropology 2 or Philosophy 21, 22, 24, 28, or 80G or
Sociology 1, 10, or 15.

Upper-Division Requirements

Earth Sciences 110A/L, 110B/M, or 110C/N

Environmental Studies 100/L (Prerequisites are: Chemistry 1A, Ecology and Evolutionary Biology 20C, Environmental Studies 25, Applied Mathematics and Statistics 2 or 3 or Mathematics 3, Applied Mathematics and Statistics 7/L, and the cultural anthropology/sociology/philosophy option)

Three additional upper-division environmental studies courses, including at least one course based in the social sciences

Three additional upper-division Earth sciences courses

The upper-division courses should be selected in pursuit of a coherent plan of study, such as water policy-hydrology, restoration ecology-geochemistry, agroecology-soil physical processes, or environmental policy-climate change, among others, in consultation with faculty from both the Environmental Studies and Earth Sciences Departments. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study or substitution course.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement for the environmental studies/Earth and planetary sciences combined major is satisfied by completing

Environmental Studies 100/L and one of the following courses: Environmental Studies 183B, 190, 195A, 195B, or 196, or Earth Sciences 195 or 188A–B.

Comprehensive Requirement

Students satisfy their senior comprehensive requirement in environmental studies or Earth sciences by completing either:

- One of the senior comprehensive options for single environmental studies majors (see [Comprehensive Requirement](#) above) or
- one of the senior comprehensive options for Earth sciences majors (see Comprehensive Requirement under Earth Sciences).

Environmental Studies/Economics

This major provides students with the basic tools of economic analysis and an understanding of the mechanics of resource production, conservation, and use, in both ecological and economic terms.

Lower-Division Requirements

Economics 1, 2, 11A, 11B, AMS 5 or AMS 7/L

Environmental Studies 23, 24, 25

Anthropology 2; or Philosophy 21, 22, 24, 28, or 80G; or Sociology 1, 10 or 15.

Upper-Division Requirements

Economics 100A(100M), Intermediate Microeconomics

Economics 113, Econometrics

Environmental Studies 100/L

Six upper division elective courses, three in economics and three in environmental studies. Economics electives must be chosen from the following list: 100B(100N), 101, 114, 115, 120, 128, 130, 131, 133, 135, 136, 138, 139A, 139B, 140, 141, 142, 150, 156, 160A, 160B, 161A, 162, 165, 169, 180, 183.

Environmental Studies electives must be chosen from those numbered 101–179, with at least one course based in the natural sciences. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study or substitution course.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement in environmental studies/economics combined major is satisfied by completing Environmental Studies 100/L and one of the following courses: Environmental Studies 183B, 190, 195A, 195B, or 196.

Comprehensive Requirement

Students satisfy the senior comprehensive requirement by completing the following: one of the options for environmental studies majors (see Comprehensive Requirement above); and pass those portions of the economics comprehensive examination administered in Economics 100A(100M) and 113.

Honors

Senior Comprehensive Honors. Only applicable is senior thesis, internship, or individual work in a senior seminar. Honors must be awarded by the student's faculty sponsor, and a second faculty member (chosen by the student's advisor) must confer.

Departmental Honors. To be considered for departmental honors, students must have a grade point average (GPA) of 3.5 in upper-division environmental studies courses.

Highest Departmental Honors. To be considered for highest departmental honors, students

must have a GPA of 3.75 in the major in upper-division environmental studies courses, and received honors on the senior comprehensive.

For combined majors, students must fulfill all requirements for honors from both departments.

Graduate Program

The doctor of philosophy (Ph.D.) program in Environmental Studies at UCSC draws from two areas of knowledge: ecology and social sciences. Our interests in ecology range from conservation biology, to agroecology, and to global change. Our interests in the social sciences bridge the dimension between environmental policy analysis and political economy of the environment. These all are historically independent fields and UCSC's program is one of the first to link them.

Graduates of the program are expected to be informed in all of these fields, to have deep intellectual strength in their area of specialty, and to have made substantial contributions toward the understanding of an environmental problem. We expect our doctoral students to be as skilled and intellectually rigorous within their research emphases as are students emerging from more traditional programs—but also to possess the knowledge needed to understand, analyze, and communicate in different but highly relevant fields of study. This expectation of intellectual breadth as well as disciplinary depth is a central goal of our doctoral program.

Given the strong interdisciplinary focus of the environmental studies Ph.D. program, study in other fields is encouraged. The environmental studies faculty have a wide range of research interests, and most are affiliated with other departments on campus. Students have the option of pursuing a “designated emphasis in environmental studies,” the equivalent of a graduate minor. These provide a framework for in-depth study in specialized fields in your area, and an opportunity for recognition of particular scholarly expertise. We currently have agreements with the Ecology and Evolutionary Biology, Latin American and Latino Studies, Sociology, and Applied Mathematics and Statistics Departments, and are pursuing agreements with others.

Requirements for the Doctorate

The typical duration of the doctoral program is five to six years.

A dissertation in environmental studies is expected to present an original contribution to the understanding of a significant environmental problem or issue. It should demonstrate a clear understanding of the relevant literature, careful and rigorous research design, and effective communication of the results within the context of the student's area of emphasis.

Also note:

Students are expected to serve as teaching assistants in undergraduate courses for two quarters, unless they can demonstrate equivalent experience.

Students have the option of pursuing a “designated emphasis,” the equivalent of a graduate minor. Designated emphases provide a framework for in-depth study in specialized fields in the area, and an opportunity for recognition of particular scholarly expertise. The Environmental Studies Department has agreements with the Sociology Department and the Latin American and Latino Studies Department, and is pursuing agreements with other departments.

The Environmental Studies Department does not offer a terminal master's degree, except for students who have been advanced to candidacy but who do not complete the Ph.D. dissertation.

Program Prerequisites

The interdisciplinary nature of the core curriculum requires rigorous preparation at the undergraduate level. Students are expected to have had at least one course in statistical analysis. Calculus is useful in many areas of the program and essential to independent work in some areas. In addition, all students should have—either from prior coursework or

independent reading—an advanced upper–division knowledge of ecology; genetics; evolutionary biology; macro– and microeconomics; politics; and political economy. However, preparation in these areas is best accomplished by coursework.

Committees

On admission to the program, each student is assigned a guidance committee of three faculty: two from the student's general research area and one from a complementary field. Thus, a student whose interests are in conservation biology has two committee members who are natural scientists and one who is a social scientist; similarly, a student whose interests are in the political economy of agriculture has a natural scientist on the guidance committee.

Through the membership of the committee may change as the student forms relationships with particular faculty and begins to define the dissertation research, subsequent committees always include one environmental studies faculty member from the other metadiscipline to ensure that the student takes fully into account the interdisciplinary implications of the student's training and research.

Under the guidance of an interdisciplinary faculty committee, a student is expected to begin to define and plan further education and research. For some students, further education and research may involve closely focused preparation and additional coursework in particular fields, (such as ecology, economics, or politics), guided by environmental studies faculty and other campus and UCSC faculty. Depending on the student's background, interests, and intentions, the student's advisers may suggest or require additional coursework, including courses from other departments.

The guidance committees work with students throughout the first two years to ensure that each student's preparation is individually designed to meet particular needs and interests. At the same time, the various research–seminar formats are intended to encourage students to work collaboratively in reading and research preparation.

Required Courses

Environmental Studies 201A, Keywords and Concepts Part 1

Environmental Studies 201B, Keywords and Concepts Part 2

Environmental Studies 201M, Interdisciplinary Research Methods

Environmental Studies 201N, Interdisciplinary Research Design

Two of the following, one each from the social and natural sciences:

Social Sciences:

- Environmental Studies 210, Political Ecological Thought and the Environment or
- Environmental Studies 240, Public Policy and Conservation

Natural Sciences:

- Environmental Studies 220, Conservation Biology, or
- Environmental Studies 230, Agroecology and Sustainable Agriculture

An upper–division or graduate course in quantitative methods, providing a basis in research design and analysis

These courses are designed to ensure that students acquire disciplinary depth in their chosen research fields; gain experience of their research communities; and refine the research skills necessary to perform successfully in their professional arena.

In addition, every quarter before advancement to candidacy, all students are required to participate in:

Environmental Studies 290, Interdisciplinary Research Seminar (2 credits)

Environmental Studies 290L, Graduate Research Seminar (2 credits)

Environmental Studies 292, Topics in Research in Environmental Studies (2 credits)

Graduate students are encouraged to participate in course Environmental Studies 291, Advanced Readings in Environmental Studies, in areas of interest.

Pre- and Qualifying Examinations

During the second year, students prepare for the pre-qualifying examination, which must be taken no later than winter quarter of the third year. The qualifying examination for advancement to candidacy normally takes place by the end of the spring quarter of the third year (UCSC requires that the qualifying examination be completed no later than the end of the fourth year).

If the venue of a student's research is in a non-English-speaking country, a language examination testing for reading and speaking competence in the language of that country must be passed before advancement to candidacy.

Application and Admission

For admission to the doctoral program, students must have completed a bachelor's degree or the equivalent in a related disciplinary field. Students with interdisciplinary degrees, such as environmental studies should have disciplinary coursework equivalent to a double major or a master's degree in an appropriate field.

Superior scholarship, capacity to carry out independent research, and commitment to disciplinary integration must be demonstrated in the statement of purpose, coursework, Graduate Record Examination (GRE) General Test, and letters of recommendation. The GRE Subject Test (in a disciplinary field of the student's choice) is strongly recommended. Prospective students must contact faculty directly to inquire about specific course requirements and sponsorship. Students are rarely accepted into the program without significant, early communications with potential faculty sponsors. See the [faculty list](#) for contact information.

Other considerations for admission include grades, evaluation, publications, professional or extramural experience, and more than one degree (second bachelor's or master's). Students are required to have completed coursework, or equivalent practical experience, in ecology, statistics, sociology/political science, and economics. Limited deficiencies in these areas can be remedied during the first year of graduate study. In addition to the application materials, students are strongly encouraged to submit a substantial written project (undergraduate or master's research project).

Admissions information and the online graduate application are at the [UCSC Division of Graduate Studies](#).

Admission is only considered for the fall quarter. Completed applications are due by December 15th of the previous academic year.

Agroecology, biodiversity, climate change, community ecology, conservation biology, ecosystem services, food sovereignty, landscape ecology, insects, tropical biology, urban ecology

S. Ravi Rajan
Environmental history and political ecology, risk and disaster studies, science and technology studies, North–South environmental conflicts, environmental social theory, environmental ethics

Christopher C. Wilmers
Wildlife ecology and conservation; food webs and climate change; movement ecology; animal behavior; predator–prey dynamics; ecological modeling

Erika Zavaleta
Ecology and evolutionary biology, biodiversity and global change, biological invasions, terrestrial plant and ecosystem ecology, ecological economics, human ecology, conservation

Assistant Professor

Adam Millard–Ball
Transportation planning and policy, environmental economics, urban sustainability, climate change policy

Zdravka Tzankova
Environmental policy and politics (United States and comparative), especially: scientific expertise and environmental decision–making; non–state market–based governance; interactions between public and private regulation (dynamics and conservation consequences); marine policy

Lecturer

Andrew Schiffrin
Environmental assessment, transportation, watershed management

Doris Ash (Education)

Informal science learning, teacher professional development, science discourse in and out of the classroom

Giacomo Bernardi (Ecology and Evolutionary Biology)

Fish biology, phylogenetics, evolution

Michael K. Brown, Emeritus (Politics)

Inequality, race and African American politics, political economy, political development of welfare states, theories and methods of historical social science

Kenneth W. Bruland (Ocean Sciences)

Chemical oceanography, biogeochemistry of trace metals and radionuclides, aquatic chemistry, geochemistry

Edmund Burke III (History)

Islamic history, modern Middle East and North African history, French history, European imperialism, world history

Melissa L. Caldwell (Anthropology)

Poverty and welfare, religious development work, food, transnationalism, socialism and postsocialism, Russia, the former Soviet Union, and Eastern Europe

Mark Cioc (History)

German history, modern European history, environmental history

Daniel P. Costa (Ecology and Evolutionary Biology)

Physiological ecology of marine mammals and birds

Donald Croll (Ecology and Evolutionary Biology)

Ecology and conservation of islands and seabirds

Ben Crow (Sociology)

International development, sociology of water and markets, global inequality, South Asia and East Africa, political economy, and green enterprise

E. Melanie DuPuis (Sociology)

Economic sociology, sociology of consumption, sociology of development, political sociology, sociology of the environment, technological change, historical sociology, social theory, food and social change

Kent Eaton (Politics)

Comparative politics, international relations, political economy, public policy, territorial conflict, federalism, decentralization, party and electoral systems, Latin America, the Philippines

James Estes (Ecology and Evolutionary Biology, and Ocean Sciences)

Marine sciences, community ecology

Andrew Fisher (Earth Sciences and Planetary Sciences)

Hydrogeology, crustal studies, heat flow, modeling

Jonathan A. Fox (Latin American and Latino Studies)

Latin American and Latino politics, including issues of democratization, social movements, social and environmental policy, immigration, and public interest groups

Laurel R. Fox (Ecology and Evolutionary Biology)

Terrestrial population and community ecology, plant–animal interactions

Diane Gifford–Gonzalez (Anthropology)

Paleolithic and Neolithic Africa and Eurasia, colonial New Mexico, origins of food production, pastoralists, zooarchaeology, history of archaeology, interpretive theory, visual anthropology

James B. Gill (Earth Sciences and Planetary Sciences)

Igneous petrology, geochemistry of island arcs

Gary B. Griggs (Earth Sciences and Planetary Sciences)

Coastal processes, hazards and engineering

Daniel Guevara (Philosophy)

Kant, moral philosophy, moral psychology, environmental ethics, history of modern philosophy

Julie H. Guthman (Social Sciences)

Sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of obesity, political ecology, race and food, critical human geography

Donna J. Haraway (History of Consciousness and Feminist Studies)

Feminist theory, cultural and historical studies of science and technology, relation of life and human sciences, human–animal relations, and animal studies

Susan Harding (Anthropology)

Culture, politics, narrative, gender, local/global studies, ethnographic writing, fundamentalism, Christianity, state–making, aging, America, and Spain

A. Marm Kilpatrick (Ecology and Evolutionary Biology)

Disease ecology, population biology, conservation

Paul L. Koch, Professor (Earth and Planetary Sciences)

Isotope biogeochemistry, vertebrate paleontology

Ronnie D. Lipschutz (Politics)

International relations; international political economy; foreign policy; resource/environmental politics; global political networks; global civil society; film, fiction, and politics; technology and society; states of terror

Flora Lu, (Latin American and Latino Studies)

Ecological anthropology, human behavioral ecology, Amazon rainforest, indigenous peoples, conservation, Ecuador, culture change, market integration, indigenous resource management, political ecology, environmental justice

Paul M. Lubeck (Sociology)

Political sociology; political economy of development, globalization, labor and work; logics of methodology; religion and social movements; Islamic society and identities; information and networks

Andrew Salvador Mathews (Anthropology)

Environmental anthropology, science and technology studies, conservation and development

Ingrid M. Parker (Ecology and Evolutionary Biology)

Plant ecology, plant–pathogen interactions, biological invasions

Manuel Pastor Jr., (Latin American and Latino Studies)

Urban poverty and regional development, Latinos in the urban U.S., environmental justice, macroeconomic stabilization in Latin America; distribution and growth in the developing world; Cuban economic reform; Mexican economic reform

Adina Paytan, IMS Research Scientist (Earth and Planetary Sciences)

Biogeochemistry, paleoceanography, environmental and aquatic chemistry

Grant H. Pogson (Ecology and Evolutionary Biology)

Molecular population genetics, ecological genetics, marine invertebrates and fishes

Donald C. Potts (Ecology and Evolutionary Biology)

Coral reef ecology, genetics, evolution, and geological history; marine biodiversity; tropical biology, global change, and remote sensing

Peter T. Raimondi (Ecology and Evolutionary Biology)

Marine ecology, evolutionary ecology, experimental design, applied ecology

Danilyn Rutherford (Anthropology)

Borders and frontiers, colonialism, nationalism, ethnicity, kinship, performance, Christianity, secularism, sovereignty, publics, affect, technology, governancy, theory and method in anthropology, West Papua, Indonesia, the U.S.

Ali Shakouri (Electrical Engineering)

Quantum electronics; nano- and microscale heat and current transport in semiconductor devices; thermoelectric/thermionic energy conversion; renewable energy sources; thermal imaging; micro-refrigerators on a chip; and optoelectronic integrated circuits

Lisa C. Sloan (Earth Sciences and Planetary Sciences)

Paleoclimatology, climate change, Earth system science, surficial processes

Donald R. Smith (Microbiology and Environmental Toxicology)

Neurotoxicity, cellular and organismal responses to environmental toxins

Dana Y. Takagi (Sociology)

Social inequality and identity, research methods, race relations, nationalism and social movements

Anna Tsing (Anthropology)

Culture and politics, feminist theory and gender in the U.S., social landscapes and tropical forest ethnoecologies, ethnicity, local power and relations to the state in Indonesia, Southeast Asia, and the U.S.

Terrie M. Williams (Ecology and Evolutionary Biology)

Vertebrate locomotor and thermoregulatory physiology; marine biodiversity; comparative vertebrate energetics, exercise physiology

Patricia Zavella (Latin American and Latino Studies)

Relationship between women's work and domestic labor, poverty, family, sexuality and social networks, feminist studies, ethnographic research methods, and transnational migration of Mexican/o workers and U.S. capital

Revised: 8/13/12

[Program Description](#) | [Faculty](#)

Lower-Division Courses

15. Natural History of the UCSC Campus (2 credits). F

Introduces students to the range of natural species and communities occurring on the UCSC campus. All class time is spent outside, and each week a different area of campus is visited. Course 24 is recommended. The Staff

23. The Physical and Chemical Environment. S

Provides an overview of the physical and chemical environment of planet Earth. Fundamental chemistry and physics is introduced in the process of learning about Earth in a holistic way. The influence of human societies on the global environment is one focus of discussion. Earth's many "spheres" are explored first: the lithosphere; the atmosphere; the hydrosphere, and the ecosphere. Then global cycles of carbon, nitrogen, and several other elements are studied in the context of basic sciences and societal issues. (General Education Code(s): IN.) The Staff

24. General Ecology. F

Covers principles of ecology including limits to species abundances, evolutionary ecology, population dynamics, community interactions and patterns, and ecosystem patterns and dynamics. Prerequisite(s): Applied Mathematics and Statistics 2 or 3, or Mathematics 3 or higher; or mathematics placement examination (MPE) score of 300 or higher; or AP Calculus AB exam score of 3 or higher; course 23 recommended as prerequisite to this course. (General Education Code(s): SI, IN.) The Staff

25. Environmental Policy and Economics. W

Introduces basic concepts from policy studies and economics that help explain environmental challenges. Provides an overview of how government, non-governmental organizations, and the private sector are dealing with major environmental challenges. (General Education Code(s): PE–E, IS.) B. Haddad

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division students under faculty supervision. (See course 192.) The Staff

65. Introduction to Fresh Water: Processes and Policy. F

Introduction to freshwater resources from multiple scientific and policy perspectives. After a review of basic concepts, water issues affecting cities, farms, open space, and multiple-use landscapes are studied. Students cannot receive credit for this course if they have

- Computer Engineering
- Computer Science

previously received credit for course 165. (General Education Code(s): PE–E.) B. Haddad

80A. The Future of Rain Forests. *

A broad overview of both ecological and social aspects related to tropical rain forests drawing on case studies worldwide. Topics include the biology and distribution of rain forests, causes and effects of their destruction, and management options to facilitate their conservation. (General Education Code(s): PE–E, T7–Natural Sciences or Social Sciences.) (S) The Staff

80B. The Ecological Forecast for Global Warming. F

A broad overview of the impacts of human activities on the global climate system. Topics include how climate affects the distribution of ecosystems, the influence of global climate change on biodiversity, ecosystem function, and consequences for the human enterprise. (General Education Code(s): PE–E, T7–Natural Sciences or Social Sciences.) M. Loik

83. Environmental Studies Internship. F,W,S

A supervised off–campus learning experience related to environmental problem solving. Focuses on initial experiences in applied work and specific skill development. Students may be placed individually or with a team in government agencies, private organizations, citizen action groups. May be repeated for credit. (General Education Code(s): PR–S.) The Staff

91F. Community and Agroecology (2 credits). F

Interdisciplinary two–credit seminar designed to introduce students to concepts of community and agroecology in the context of sustainability. Course can serve as a gateway to or as a continuing basis for participation in PICA (Program in Community and Agroecology). Specific topics and readings change each quarter. May be repeated for credit. The Staff

99. Tutorial. F,W,S

Directed reading, supervised research, and organized projects relating to environmental problems. May be repeated for credit with consent of the chairperson of Environmental Studies Department. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S

Provides for department–sponsored directed reading, supervised research, or organized project for lower–division students under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

100. Ecology and Society. W

Introduction to environmental issues in an interdisciplinary matrix. Focuses on three issues at the intersection of ecological questions and social institutions: agroecology and sustainable agriculture; population growth, economic growth, and environmental degradation; and biodiversity conservation and land management. Reviews the important roles of disciplinary abstraction and of the application of that knowledge to context–dependent explanations of environmental problems. Prerequisite(s): course 23 or CHEM 1A; course 24 or BIOE 20C; course 25; and AMS 7/L or ECON 113; and one from: ANTH 2, SOCY 1,10,15, PHIL 21,22,24,28, or 80G. Concurrent enrollment in 100L is required. Z. Tzankova, E. Zavaleta

100L. Ecology and Society Writing Laboratory (2 credits). W

Required writing lab accompanying course 100. Students are introduced to writing in different styles and for different audiences typical of the ecosystem–society interface. Course 100 writing assignments are developed, written, and revised in conjunction with the lab. W credit is granted only upon successful completion of course 100. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition requirements. Concurrent enrollment in 100 is required. (General Education Code(s): PR–E.) Z. Tzankova, E. Zavaleta

[Nondiscrimination Statement](#)

104A. Introduction to Environmental Field Methods. S

A course in the process of field research and monitoring, with emphasis on use of the scientific method; experimental design, data handling, statistical analysis and presentation; and basic field methodologies. Application of basic field skills, including habitat description; methods for sampling plants, animals, soils, water, and microclimate; and observational and manipulative techniques to address ecological, conservation, and management questions. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; concurrent enrollment in course 104L and previous or concurrent enrollment in courses 100/L required, or by permission of instructor. (General Education Code(s): W.) E. Zavaleta

104L. Field Methods Laboratory (2 credits). S

Students directly observe elements of natural history and ecological process; design and implement field studies based on lectures; deploy the methods discussed in lectures; and collect data to analyze, interpret, and report in written and oral forms. Concurrent enrollment in course 104A is required. E. Zavaleta

106A. Natural History of Birds. *

The evolution, taxonomy, physiology, behavior, ecology, and management of birds. Lecture, discussion, field format. Birds observed in habitats including bay, marsh, meadow, and forest. Evaluations based on a field journal and examinations. Students are billed a materials fee. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. Course 105 or Biology 138 are recommended. Enrollment limited to 25. The Staff

107A. Natural History Field Quarter. S

A 15–unit field course that uses California wild lands to develop skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107B and 107C required. Students are billed a materials fee. The Staff

107B. Natural History Field Quarter. S

A 15–unit field course that uses California wild lands to develop skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107A and 107C required. The Staff

107C. Natural History Field Quarter. S

A 15–unit field course that uses California wild lands to develop skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107A and 107B required. The Staff

108. General Entomology. *

Introduction to entomology including anatomy, physiology, systematics, evolution, behavior, and reproduction of the world's most diverse group of organisms. These topics are illustrated in several contexts, from the importance of insects as disease vectors to the historical and contemporary uses of insects by humans. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. Offered in alternate academic years. D. Letourneau

108L. General Entomology Laboratory (3 credits). *

Laboratory sections are devoted to the identification of insects. Individual collections representing 15 orders, sight identification of 60 families, and use of taxonomic keys for positive designations required. Concurrent enrollment in course 108 is required. Offered

in alternate academic years. D. Letourneau

109A. Ecology and Conservation in Practice Supercourse: Ecological Field Methods. *

An intensive, on-site learning experience in terrestrial field ecology and conservation, using the University of California Natural Reserves. Students study advance concepts in ecology, conservation, and field methods for four weeks, then experience total immersion in field research at the UC Natural Reserves. Lectures, field experiments, and computer exercises familiarize students with research methods, study design, statistical approaches, and analytical tools for ecological research. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151B-C-D or ENVS 109B-C-D is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 107, 107L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151A. Students cannot receive credit for both courses.) D. Croll, E. Zavaleta

109B. Ecology and Conservation in Practice Supercourse: Ecological Field Methods Laboratory. *

Field-oriented course in ecological research. Combines overview of methodologies and approaches to field research with practical field studies. Students complete field projects in ecology and also learn the natural history of the flora and fauna of California. Students are billed a materials fee. Enrollment by application. Prerequisite(s): Entry Level Writing and Composition requirements; BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151A-C-D or ENVS 109A-C-D is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151B. Students cannot receive credit for both courses.) (General Education Code(s): W.) D. Croll, E. Zavaleta

109C. Ecology and Conservation in Practice Supercourse: Functions and Processes of Terrestrial Ecosystems. *

From lectures and discussion of terrestrial community and ecosystem ecology, students work individually or in small groups to present an idea for a project, review relevant literature, develop a research question/hypothesis, design and perform an experiment, collect and analyze data, and write a report. The instructor evaluates the feasibility of each student's project before it begins. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151A-B-D or ENVS 109A-B-D is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151C. Students cannot receive credit for both courses.) D. Croll, E. Zavaleta

109D. Ecology and Conservation in Practice Supercourse: Conservation in Practice. *

Focuses on current issues in environmental and conservation biology and the emerging field methods used to address them. From field-oriented lectures about current issues in environmental and conservation biology, students pursue research project as individuals and small groups to develop hands-on experience with field skills in conservation research and resource management. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151A-B-C or ENVS 109A-B-C is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151D. Students cannot receive credit for both courses.) D. Croll, E. Zavaleta

110. Institutions, the Environment, and Economic Systems. S

Debate about environmental policy is often couched in economic terms. Environmental issues have become questions of political economy, as they influence international and domestic policy and reflect on the functioning of the market system. Examines the assumptions and implications of alternative approaches to political economy, as these

pertain to questions of environmental policy and political institutions. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. (S) M. Fitzsimmons

115A. Geographic Information Systems and Environmental Applications. F
Introduction to geographic information systems (GIS) as the technology of processing spatial data, including input, storage and retrieval; manipulation and analysis; reporting and interpretation. Emphasizes GIS as a decision support system for environmental and social problem solving, using basic model building, experimental design, and database management. Students cannot receive credit for this course and course 215A. Prerequisite(s): Previous or concurrent enrollment in course 115L, 100/L, or permission of instructor. Course in computer science, Earth science, math, or geography recommended. B. Nickel

115L. Exercises in Geographic Information Systems (2 credits). F
Exercises in Geographic Information Systems and Remote Sensing that demonstrate the development of digital geographic data. Students gain hands-on experience with developing datasets, using imagery to create GIS layers, performing spatial analysis, and utilizing GPS technology. Emphasis placed on environmental applications. Students cannot receive credit for this course and course 215L. Students are billed a materials fee. Concurrent enrollment in course 115A is required. W. Nickell

120. Conservation Biology. W
Introduces biological and anthropogenic influences on the diversity and scarcity of organisms. Explores the basic ecological models and research tools that provide the foundation for many conservation and management decisions regarding endangered and/or declining species. Topics explored in the context of various examples of conservation decision-making in the real world. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. C. Wilmers

122. Tropical Ecology and Conservation. *
An introduction to the ecological processes, principles, and players of tropical ecosystems, and to conservation issues facing tropical American forests. We will look at how tropical ecosystems work, roles of humans in shaping them, and current conservation opportunities and dilemmas. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L is required, or by permission of instructor. G. Gilbert

123. Animal Ecology and Conservation. S
Advanced course in animal ecology and conservation focusing on the ecology, behavior, biogeography, and evolution of vertebrates. Prerequisite(s): course 120. Previous or concurrent enrollment in courses 100 and 100L required; or by permission of instructor. C. Wilmers

129. Integrated Pest Management. F
Provides an extensive coverage of applied ecology, pest control technology, and the social, political, and economic factors regulating the ideologies and practice of pest management. Topics include agroecosystem design and population regulation of insects, weeds, vertebrates, and pathogens; field monitoring, chemical and biological control; economic thresholds, decision-making processes, and the role of agribusiness. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. D. Letourneau

129L. Integrated Pest Management Laboratory (2 credits). *
Field trips and field exercises that demonstrate the practice of integrated pest management techniques. Individual and group projects provide hands-on experience with field sampling techniques, pest identification, recognition of biological control agents, experimental design, interview techniques, data interpretation and field report writing. Prerequisite(s): concurrent enrollment in course 129. The Staff

130A. Agroecology and Sustainable Agriculture. F
Ecological concepts and principles are applied to the design and management of sustainable agroecosystems. Alternatives for agriculture are discussed in terms of

ecosystem structure and function. A weekly three-hour lab is required. Prerequisite(s): Concurrent enrollment in course 130L and previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. C. Shennan

130B. Principles of Sustainable Agriculture. W

Agricultural sustainability is examined as a complex set of interactions between ecological, social, and economic components of an agroecosystem. Case studies are drawn from issues facing current U.S. agriculture and a basis for formulating policy for change that ensures sustainability is developed. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. M. Fitzsimmons

130L. Agroecology and Sustainable Agriculture Laboratory (2 credits). F

Laboratory and field exercises to train in the analysis of ecological processes in agricultural systems, with a focus on the quantification of ecological sustainability. Experimental design, analysis, and data interpretation are emphasized. Concurrent enrollment in course 130A is required. C. Shennan

131. Insect Ecology. W

Advanced course in ecology featuring insect-plant interactions such as herbivory, pollination, and the effects of plants on insect population dynamics. Lectures emphasize current controversies in ecological theory and relate theory to application. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. Offered in alternate academic years. The Staff

133. Agroecology Practicum. *

Lectures and demonstrations are combined with field applications to give students direct experience and knowledge of sustainable agriculture and horticulture practices and principles. UCSC Farm and Garden are the living laboratories for testing agroecological principles. Emphasis is placed on small-farm systems. May be applied to major only once. Prerequisite(s): courses 130A and 130L and previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. Offered in alternate academic years. May be repeated for credit. The Staff

138. Field Ethnobotany. *

Lectures, laboratory, and fieldwork examine field botany from a human ecology perspective. Students have the opportunity to learn the skills of field botany and plant identification through the study of plants that are of major significance for human cultures. The emphasis of field skills is on applications to sustainable management of natural resources. Prerequisite(s): courses 130A and 130L, or by permission of instructor. Concurrent enrollment in course 138L required. Offered in alternate academic years. The Staff

138L. Ethnobotany Laboratory (2 credits). *

Laboratory and field studies allow students to learn the taxonomy of important useful plant families, carry out field studies on local plant use and management practices, and investigate in detail home garden agroecosystems and model systems. Prerequisite(s): concurrent enrollment in course 138 required. The Staff

140. National Environmental Policy. W

An overview of all major federal environmental policy domains. Analyzes political, social, economic, and other forces influencing federal (and some state) public policy responses to land use, natural resources, pollution, and conservation dilemmas. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. D. Press

140L. National Environmental Policy Field Studies Laboratory (2 credits). *

Students travel to waste-management facilities and environmental agencies around the San Francisco and Monterey Bay regions. Laboratory assignments include: facility profiles and policy-options memos related to each facility. Enrollment restricted to environmental studies majors, and environmental studies/economics, environmental studies/biology, or environmental studies/Earth sciences combined majors. Concurrent enrollment in course 140 is required. Enrollment limited to 24. D. Press

141. Ecological Economics. F

Application of economic analysis to natural resource policy and management. Topics include welfare economics, property rights and externalities, natural resource valuation, exhaustible and renewable resources, and sustainable development. Prerequisite(s): Economics 1 is strongly recommended as preparation. Previous or concurrent enrollment in courses 100 and 100L is required, or by permission of instructor. A. Millard-Ball

142. Energy Politics and Policy. W

Explores the social and environmental dimensions of energy production and consumption. Provides an overview of the tools to evaluate a new clean-energy economy and its wider political and economic implications. Students study assessment tools, such as risk assessment, material energy balances, and life-cycle assessment. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. T. Duane

142L. Energy Politics and Policy Laboratory (2 credits). *

Trains students in the concepts and skills required to make decisions about energy production. Concurrent enrollment in course 142 required. Enrollment limited to 24. T. Duane

143. Sustainable Development: Economy, Policy, and Environment. W

Considers whether and how global poverty can be alleviated without irreparably damaging the environment. Examines interactions among population, economic growth, poverty, global consumption ethos, property rights systems, global economy, state capacity, and environmental damage. Scrutinizes impact of various developmental strategies adopted during the past 50 years on poverty, governance, and the environment. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. J. Bury

145. Green Building Design. S

Promotes an ecological approach to design with an understanding of the environmental opportunities and constraints at play on the site and situation; works with the environment to maximize human comfort and energy efficiency. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

146. Water Quality: Policy, Regulation, and Management. *

Building on prior preparation, the course provides an in-depth examination of American water-quality policy, regulation and management. In addition to a detailed understanding of pollutant-discharge permitting, students learn about nonpoint source water pollution and its regulatory remedies. Prerequisite(s): course 100/L, and 140 or 149 or 150 or 165. (General Education Code(s): PE-E.) D. Press

147. Environmental Inequality/Environmental Justice. W

Reviews research on race, class, and differential exposure to environmental hazards. Shows how environmental inequality has, from the start, been an essential feature of modernity. Situates the environmental-justice movement in the history of American environmentalism. Prerequisite(s): courses 100 and 100L, or by permission of instructor. (General Education Code(s): ER.) A. Szasz

149. Environmental Law and Policy. S

Surveys a wide range of topics in environmental law, including population control, state and federal jurisdiction, land and resources control, public land management, pollution control, and private rights and remedies. Students read a large number of judicial cases and other legal documents. (Also offered as Legal Studies 149. Students cannot receive credit for both courses.) Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. T. Duane

150. Coastal and Marine Policy. S

Introduces and analyzes the history, design, implementation, and effectiveness of key legal and institutional frameworks that govern the use and stewardship of coastal and marine areas and resources. Primary focus is on the U.S., although attention is also devoted to international laws and institutions targeting major transboundary issues like marine

pollution and management of migratory fish stocks. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. Z. Tzankova

151. Environmental Assessment. S

Introduction to California land use planning law and practice, and the theory, practice, and public policy aspects of environmental assessment, using the California Environmental Quality Act (CEQA) as a model. The National Environmental Policy Act (NEPA) and other environmental and planning legislation also considered. Covers elements of State law and regulations, environmental impact assessment requirements, and practical procedures for preparing and evaluating CEQA documents, with case studies that exemplify legal, regulatory and public policy and practice aspects of the assessment process.

Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

156. Environmental Action through Writing. *

Guided practice in writing skills useful to environmental activists. Assignments emphasize thinking quickly, revising adeptly, researching resourcefully, and tempering powerful passions with careful arguments. Toward the development of effective individual voices, students read each other's drafts as well as the published work of established writers. Enrollment priority will be given to students who have not taken course 157.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. (General Education Code(s): W.) The Staff

157. Writing in the Natural Sciences. *

Guided practice in writing effectively about science and natural history for a variety of audiences. Assignments emphasize reporting first-hand observations, explaining processes and phenomena, understanding scientific papers, and writing about scientific and technical subjects for a general audience. Enrollment priority will be given to students who have not taken course 156. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and previous or concurrent enrollment in courses 100/L required, or by permission of instructor. (General Education Code(s): W.) The Staff

158. Political Ecology and Social Change. S

The object is to provide a rigorous grounding in the method of political ecology and to demonstrate how this approach has been used in environmental analysis and problem solving by environmental social movements. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L is required, or by permission of instructor. J. Bury

159. Nature Literature. *

Introduction to 19th- and 20th-century American writers who have influenced our understanding of humans' place in the natural world. Readings include original works as well as biographical and critical texts. Discussions, field trips, and writing assignments emphasize active learning. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

160. Restoration Ecology. W

A multidisciplinary overview of restoring degraded ecosystems. Among the topics addressed are linkages between ecological principles and restoration, planning and implementing restoration projects, evaluating restoration success, and case studies of restoration of specific ecosystem types. Participation in one work day is required.

Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L is required, or by permission of instructor. K. Holl

161A. Soils and Plant Nutrition. F

Provides fundamentals of soils and plant nutrition. The physical, biological, and chemical components of soils are investigated in relation to their ecological functions, fertility to plants, and sustainable management. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. W. Cheng

161L. Soils and Plant Nutrition Laboratory (2 credits). F

Practice analytical techniques for evaluation of physical, chemical, and biological properties

of soils. Grow plants to observe some typical symptoms of plant nutrient deficiencies.
Prerequisite(s): Concurrent enrollment in course 161A is required. W. Cheng

162. Plant Physiological Ecology. *

Introduces the theory of plant interactions with the physical environment. Emphasizes influence of abiotic stresses on the recruitment, survival, growth, productivity, and reproduction of plants. Prior course work in ecology and/or plant physiology is recommended. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. M. Loik

162L. Plant Physiological Ecology Laboratory (2 credits). *

Introduces techniques for the study of plant interactions with the physical environment. Examines the role of stress on energy budgets, water relations, photosynthesis, and reproductive allocation. Emphasizes experimental design, field techniques, and instrumentation during field trips to local chaparral and grassland ecosystems. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. M. Loik

163. Plant Disease Ecology. S

Introduction to ecological roles of plant diseases, including their importance in regulating plant population dynamics, community diversity, and system function in natural ecosystems; considerations of plant diseases in conservation ecology; and ecological approaches to managing diseases in agroecosystems. Students cannot receive credit for this course and course 263. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. G. Gilbert

163L. Plant Disease Ecology Lab (2 credits). S

Introduction to techniques for studying plant diseases, including detection, isolation, cultivation, and identification of important groups of plant pathogens, completing Koch's postulates; diseases assessment techniques; experimental manipulation of plant-pathogen systems; and basic epidemiological tools. One field trip required. Prerequisite(s): concurrent enrollment in course 163 required. G. Gilbert

165. Freshwater Issues and Policy. F

Concepts, vocabulary, and skills necessary to the analysis of freshwater issues are introduced from hydrology, ecology, law, economics, engineering, and other disciplines. The skills are then applied to case studies involving local, state, and international freshwater conflicts and crises. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L is required, or by permission of instructor. The Staff

166. Agroecosystem Analysis and Watershed Management. S

Explores a range of approaches to examine agroecosystem function, watershed management, and concepts of sustainability. Uses a combination of lecture, demonstration, field work, and field trips to illustrate approaches to analysis of managed ecosystems behavior and the integration of biophysical and socio-political knowledge to aid in watershed management. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor; and course 130A or 130B or 129 or 133 or 160 or 167. C. Shennan

167. Freshwater and Wetland Ecology. F

Field and lecture course teaches the physical and biological patterns and processes in freshwater and wetland systems, primarily focusing on Central Coast systems from headwaters to coastal marshes. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

167L. Freshwater and Wetland Ecology Lab (2 credits). *

Provides basic skills to assess chemical, biological, and physical characteristics of freshwater creeks, rivers, and wetlands. These skills are needed in environmental consulting, municipal agencies engaging in water management or impacts on water, and regulatory agencies. Relies on methods in geomorphology, biogeochemistry, hydrology, and field biology. Concurrent enrollment in course 167 is required. The Staff

168. Biogeochemistry and the Global Environment. W

Studies biogeochemical cycles and related environmental issues such as global environmental change, eutrophication, ecosystem degradation, and agricultural sustainability. Discusses transformation and movement of major nutrient elements in context of watershed ecology and societal implications. Students cannot receive credit for this course and course 268. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. W. Cheng

169. Climate Change Ecology. F

Advanced topics in atmospheric science and ecological theory. Topics include impacts on biodiversity, carbon sequestration, sustainable agriculture, and innovative solutions. Prerequisite(s): courses 100 and 100L. Enrollment limited to 40. M. Loik

172. Science, Policy, and the Environment. *

Introduces students to the dilemmas of science-based environmental policy and discusses their underlying philosophical underpinnings. Explores emergent alternatives, such as the precautionary principle and alternatives assessment, and examines the relationship between experts and the lay public in public controversies. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. (General Education Code(s): W.) S. Rajan

173. An Introduction to World Environmental History. F

Introduces students to some of the central issues in world environmental history such as: human attitudes toward the natural environment; the role of human societies, their institutions and technologies in changing the face of the earth; and the historical impact of environmental and developmental policies on race, class, and gender differences in a variety of human communities across the world. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. K. Worthy

175. Biotechnology: Social and Environmental Dimensions. *

Surveys the rapid development of genetic engineering science and biotechnology-based industries and examines the economic, health, environmental, legal, and social justice dimensions of new biotechnology applications: genetic screening, cloning, transgenic animals and crops, genetically engineered food, and biodiversity prospecting. Readings, lectures, World Wide Web site reviews, student presentations, and papers will address controversial choices faced now by scientists, farmers, doctors, consumers, public officials, and global governance agencies. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

177. Teaching Environmental Education. S

Designed for environmental studies majors interested in teaching environmental education in the K-12 school system. Students investigate incorporation of environmental education in the classroom; design an environmental education school project; and are placed in a school where they observe environmental education in practice. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. The Staff

179. Environmental Interpretation. W

A field course in theory and practice of environmental interpretation in parks, museums, and school programs with special attention to local natural history and children. Students will work to define their own interpretive philosophy, skills, and style. Background in natural history and/or experience working with children recommended. Prerequisite(s): courses 100 and 100L. C. Lay

183. Environmental Studies Internship. F,W,S

A supervised off-campus learning experience related to environmental problem solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. A significant, independently researched project is required. Internship intended for environmental studies majors. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L and by permission of instructor. Students submit petition to course sponsoring agency. May be repeated for credit. The Staff

183A. Senior Internship. F,W,S

First quarter of two-quarter senior internship exit requirement. Supervised off-campus learning experience related to environmental problem-solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. Students submit petition to course-sponsoring agency. Enrollment restricted to environmental studies majors and the combined majors with Earth science, biology, and economics. Enrollment by permission of instructor. The Staff

183B. Senior Internship. F,W,S

This course combines fieldwork at an off-campus agency and a comprehensive analytical paper produced for the agency. Equivalent to a thesis in terms of the depth and quality of the work expected. Prerequisite(s): course 183A. Students submit petition to course-sponsoring agency. Enrollment restricted to environmental studies majors and the combined majors with Earth sciences, biology, and economics. The Staff

184. Environmental Studies Internship (2 credits). F,W,S

Supervised learning experience related to environmental problem solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. This 2-credit internship puts students in the field and offers them the experience of practicing environmental problem solving. This internship experience focuses on specific skill development. May be repeated for credit. (General Education Code(s): PR-S.) The Staff

189. Environmental Studies Research Seminar (1 credit). F,W,S

Research seminars presented weekly throughout the year by environmental studies faculty, visiting scholars, and graduate students. Students discuss content and methodology of research presented following each seminar. Students write critiques of some seminars. May be repeated for credit. E. Zavaleta

190. Capstone Course: Environmental Problem Solving. S

A synthetic course that draws on the knowledge and skills students bring from other courses in the major. Focuses on written and oral individual and group projects in which students must take the initiative. Emphasizes developing skills critical for students in their future careers. Prerequisite(s): course 100; Entry Level Writing and Composition requirements. Enrollment restricted to senior environmental studies majors and the combined majors with Earth sciences, biology, and economics. D. Letourneau

191F. Community and Agroecology Seminar (2 credits). F

Interdisciplinary two-credit seminar designed for upper-division students who want to become involved in PICA (Program in Community and Agroecology) and to explore concepts of community and agroecology as they relate to sustainability. Also emphasizes development of leadership skills. Specific topics and readings change each quarter. Prerequisite(s): course 91F, 130A, 130B, 133, or equivalent experience. Enrollment limited to 25. May be repeated for credit. The Staff

192. Directed Student Teaching. F,W,S

Teaching a lower-division seminar. (See course 42.) Prerequisite(s): upper-division standing; permission of environmental studies faculty member and chairperson of department. The Staff

194. Teaching Environmental Studies. F,W,S

This provides an opportunity to participate in the preparation and teaching of introductory environmental studies courses. Students will have significant responsibility in leading discussion sections. Students submit petition to sponsoring agency. The Staff

195A. Senior Research. F,W,S

An individually supervised course, with emphasis on independent research that either results in a thesis or project or is done in conjunction with a senior internship. In order to receive credit, students must turn in an electronic copy of the final write-up. Satisfies the senior comprehensive requirement. Students submit petition to sponsoring agency.

Prerequisite(s): Entry Level Writing and Composition requirements. The Staff

195B. Senior Thesis Group. *

Students involved in group or individual research that results in a senior thesis or project or done in conjunction with an internship meet regularly with their faculty sponsor to discuss the progress of their work, to receive academic and technical guidance, and to critique one another's written work. To receive credit the student must submit two bound copies of the completed research and write-up. Satisfies the senior comprehensive requirement. Students must discuss details with faculty sponsor. Students submit petition to sponsoring agency. Prerequisite(s): Entry Level Writing and Composition requirements. J. Bury, K. Holl

196. Senior Seminar. F,W,S

Readings and discussions of primary literature on a current environmental studies topic. Field or literature-based research projects (individual or group) writing multiple drafts resulting in a final paper. Topics vary yearly; consult current course listings. Enrollment by application with selection based on appropriate background and academic performance and by consent of instructor. Satisfies senior comprehensive requirement. Enrollment restricted to senior environmental studies majors; senior environmental studies/biology combined majors; senior environmental studies / Earth sciences combined majors; and senior environmental studies / economics combined majors. Prerequisite(s): Entry Level Writing and Composition requirements. The Staff

199. Tutorial. F,W,S

Advanced directed reading, supervised research, and organized projects relating to environmental problems. May be repeated for credit with consent of the chair of environmental studies. Students submit petition to sponsoring agency. Prerequisite(s): prior or concurrent enrollment in courses 100 and 100L. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Provides for department-sponsored directed reading, supervised research, or organized project under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201A. Keywords and Concepts. F

Two-quarter course introduces keywords and concepts that underlie interdisciplinary work in environmental studies through lectures, directed readings, and discussion. Modules include resonant concepts in ecology and society; ecology and evolution; environment and development; the global environment and society; agroecology and conservation biology; and public policy, economics, and law. Final grade for both courses assigned at the end of the second quarter. Enrollment restricted to graduate students. G. Gilbert, M. Fitzsimmons

201B. Keywords and Concepts. W

Two-quarter course introduces keywords and concepts that underlie interdisciplinary work in environmental studies through lectures, directed readings, and discussion. Modules include resonant concepts in ecology and society; ecology and evolution; environment and development; the global environment and society; agroecology and conservation biology; and public policy, economics, and law. Final grade for both courses assigned at the end of the second quarter. Enrollment restricted to graduate students. T. Duane, M. Loik

201M. Developing Research Proposals (2 credits). F

Offers graduate students the opportunity to become familiar with the research expertise of the faculty in the Environmental Studies department. Enrollment restricted to graduate students. G. Gilbert

201N. Interdisciplinary Research Design in Environmental Studies. S

Provides students with opportunities to learn research protocols, practices, and methods used in environmental studies. Combination of lectures, reading, practical exercises, and short projects used to explore how these methods can best be incorporated into

interdisciplinary research designs. Enrollment restricted to graduate students. D. Letourneau

210. Political Ecological Thought and Environment. *

Provides an introduction to social scientific analyses of the relationships between capitalistic development and the environment in the late 20th century. It has a dual purpose: First, to develop a contemporary historical understanding and sensibility of how economic change, new institutional configurations, and world scale processes are shaping interactions with the environment. Second, to examine some recent political social theoretical perspectives on nature–society relations and radical environmental and social movements. Enrollment restricted to graduate students in environmental studies. S. Rajan

215A. Geographic Information Systems and Environmental Applications. F

Introduction to geographic information systems (GIS) as the technology of processing spatial data, including input, storage and retrieval; manipulation and analysis; reporting and interpretation. Emphasizes GIS as a decision support system for environmental and social problem solving, using basic model building, experimental design, and database management. Students cannot receive credit for this course and course 115A. Concurrent enrollment in course 215L is required. Enrollment restricted to environmental studies graduates students. B. Nickel

215L. Exercises in Geographic Information Systems (2 credits). F

Exercises in Geographic Information Systems and Remote Sensing that demonstrate the development of digital geographic data. Students gain hands–on experience with developing datasets, using imagery to create GIS layers, performing spatial analysis, and utilizing GPS technology. Emphasis placed on environmental applications. Students cannot receive credit for this course and course 115L. Students are billed a materials fee. Concurrent enrollment in course 215A is required. Enrollment restricted to environmental studies graduate students. B. Nickel

220. Conservation Biology. S

The principles of conservation biology, including a review of the core disciplines of demography, population genetics, island biogeography, and community ecology and discussion of area and edge effects, population viability, and ecosystem issues related to the maintenance of biological diversity, especially in fragmented landscapes. Enrollment restricted to environmental studies graduate students. C. Wilmers

230. Agroecology and Sustainable Agriculture. *

The application of ecological concepts and principles to the design and management of agricultural systems. The long–term goal of sustainable agroecosystems is examined in economic, social, and ecological contexts. Enrollment restricted to environmental studies graduate students. C. Shennan

235. Social Theories of Nature. *

Intensive reading and discussion seminar on the treatment of nature in social theory. Focuses on major recent works which examine nature in social theory, in themselves, and in the context of the intellectual history of development of disciplinary discourses about nature. Students write critical reviews of assigned books and a research paper situating a particular book within its intellectual tradition. Prerequisite(s): interview with instructor to determine preparedness. May be repeated for credit. M. Fitzsimmons

240. Public Policy and Conservation. W

Introduction to political and economic approaches to policy analysis, with particular reference to natural resource scarcity, property rights, and environmental conservation. Case studies apply economic and policy process concepts to the management of public lands, biodiversity, and renewable resources. Enrollment restricted to environmental studies graduate students. D. Press

247. Regional Approaches to Environmental Policy. *

A research seminar combining theoretical issues in democratic theory, political economy, and planning with emerging concepts of bioregionalism. The focus is on institutional, scientific, and political innovations in managing the environment. Students evaluate

current and historical proposals to regionalize environmental policy in the U.S. Enrollment restricted to environmental studies graduate students. The Staff

263. Plant Disease Ecology. *

Introduction to ecological roles of plant diseases, including their importance in regulating plant populations dynamics, community diversity and system function in natural ecosystems, considerations of plant diseases in conservation ecology, and ecological approaches to managing diseases in agroecosystems. Students cannot receive credit for this course and course 163. Prerequisite(s): one ecology course. Enrollment restricted to graduate students. G. Gilbert

268. Biogeochemistry and the Global Environment. *

Studies biogeochemical cycles and related environmental issues such as global environmental change, eutrophication, ecosystem degradation, and agricultural sustainability. Discusses transformation and movement of major nutrient elements in context of watershed ecology and societal implications. Students cannot receive credit for this course and course 168. Enrollment restricted to environmental studies graduate students. W. Cheng

271. Valuing the Environment. *

Intensive seminar examining the normative underpinnings of environmental values. Draws on tools from analytical, ethical, and political philosophy to develop normative arguments concerning environmental inequality and justice, environmental preservation, and risk evaluation. Involves team projects in which students develop cases on controversial contemporary issues such as biotechnology. Prerequisite(s): interview only. Enrollment restricted to graduate students. May be repeated for credit. S. Rajan

280. Advanced Topics in Environmental Studies. F

Intensive research seminar, including reading and critique of primary research literature and research in progress. Topics vary and are announced in advance; students should consult with faculty prior to enrolling. Enrollment by permission of instructor. Enrollment restricted to graduate students. May be repeated for credit. J. Bury

283. Environmental Studies Internship. F,W,S

Graduate level internship focuses on integrating interdisciplinary academic theory with practical, specialized experience in a professional setting. Course intended for environmental studies graduate students; students must complete paperwork and meet with coordinator prior to first day of instruction. The Staff

290. Interdisciplinary Research Seminar (2 credits). F,W,S

Research seminars presented weekly throughout the year by environmental studies and affiliated faculty, by visiting scholars, and by graduate students. Students discuss the content and methodology of research presented following each seminar. Enrollment restricted to graduate students. May be repeated for credit. E. Zavaleta

290L. Graduate Research Seminar (2 credits). F,W,S

Graduate student presentations of doctoral research proposals, dissertation work-in-progress, grant applications, and conference papers. This weekly laboratory meeting seeks to develop professional skills, teach constructive criticism, and foster effective discussion among peers. Enrollment restricted to graduate students. K. Holl, A. Szasz

291. Advanced Readings in Environmental Studies (3 credits). F,W,S

Focusing on a recently published volume or on a topic of current interest, this seminar requires a rigorous analysis of the principles and methods employed in the four core areas of the program: sustainable agriculture and agro-ecology; conservation biology; environmental policy analysis; and political economy. Enrollment restricted to graduate students. May be repeated for credit. The Staff

291C. Advanced Readings in Risk and Public Policy (3 credits). *

Advanced readings and research on environmental risk and public policy. Explores environmental decision making given the question of the burden of proof and scientific uncertainty and grapples, in an advanced manner, with emergent policy alternatives, such

as the precautionary principle. Also offered as course 281C for 5 credits. Prerequisite(s): course 172 or equivalent work demonstrated by an interview. Enrollment restricted to graduate students. May be repeated for credit. S. Rajan

291D. Advanced Readings in Tropical Ecology, Agriculture, and Development (3 credits). S Analyzes recent publications in ecology, conservation, agroecology, and development in tropical and subtropical regions, particularly Latin America. Discussions place special emphasis on integration across natural and social science disciplines to address issues of sustainability in tropical regions. Enrollment restricted to graduate students. G. Gilbert, K. Holl

291M. Advanced Readings in Biogeochemistry (3 credits). *
Course consists of three parts: fundamental biogeochemistry of the Earth, global cycles of nutrient elements, and societal and scientific issues of global change. Class activities include (1) presentation of summary statements based on reading assignments; (2) discussion of theories, concepts, methodologies, and applications; (3) computer simulation and modeling of elemental cycles using STELLA; and (4) integration of scientific information on global change with social issues by writing. Enrollment restricted to graduate students. W. Cheng

291P. Advanced Readings in Environmental History and Anthropology (3 credits). *
Course of readings systematically surveying the theoretical contributions of the disciplines of environmental history, historical ecology, environmental anthropology, and geography. After an overview of the evolution of 20th-century thought on the relationship between environment and culture as seen through the lenses of these disciplines, explores emerging research hybrids and new research frontiers. Enrollment restricted to graduate students. S. Rajan

292. Topics in Research in Environmental Studies (2 credits). F,W,S
Seminar in which students give critically evaluated presentations regarding current research in environmental studies and issues in research design. Students should consult with faculty prior to enrolling. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S
Independent study and research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012–13

Program Description

Ethnic studies is not a separate undergraduate program of study at UCSC, but students with an interest in ethnic studies can find an extensive array of courses on the subject in the following departments: [American Studies](#), [Anthropology](#), [Community Studies](#), [Education](#), [Feminist Studies](#), [Film and Digital Media](#), [Economics](#), [History](#), [History of Art and Visual Culture](#), [History of Consciousness](#), [Latin American and Latino Studies](#), [Literature](#), [Music](#), [Politics](#), [Psychology](#), [Sociology](#), and [Theater Arts](#). The [Community Studies Department](#) and the [Latin American and Latino Studies Department](#) offer opportunities for fieldwork that extend ethnic studies outside the traditional classroom setting. See also the campus general education requirement (codes E, CC, and ER). Faculty for whom ethnic studies are a professional specialty are listed in the individual departments' faculty and professional interests sections in the [UCSC General Catalog](#).

Program Description

The film and digital media major at UCSC offers an integrated curriculum involving theory, criticism, and cultural analysis, as well as a production program in the aesthetics and techniques of film and digital media. This bachelor of arts degree program provides students with the critical skills, theoretical concepts, and historical knowledge necessary to conduct informed analysis of cinema, television, video art, and new media, along with the up-to-date technical knowledge, practical skills, and artistic contexts needed for the production of film, video, and digital media. The major provides a course of study that develops an understanding of moving image and digital media as essential tools of communication and artistic practice.

Students in the general film and digital media major develop an understanding of major movements in world cinema and different aesthetic approaches to the medium, while studying the cultural impact of television and the rise of video and digital art in recent decades. The critical studies concentration is designed for film and digital media majors who have a special aptitude for and interest in the history and theory of film, television, video, and digital media. This rigorous program can help prepare undergraduates for graduate work in critical studies. Students in the highly selective production concentration are encouraged to demonstrate technical proficiency and creative vision in film and digital media production while also studying the histories and theories of these media. The integrated critical practice concentration will serve students currently enrolled in the major who have a special aptitude for and interest in combining work in critical studies and production. The concentration provides them with a more rigorous pathway through the major and, in their senior year, allows them to work on a senior project that integrates creative and intellectual work.

Students in all facets of the major acquire skills in media analysis while maintaining a broadly based, liberal arts perspective. The UCSC program is interdisciplinary, combining theory and practice in film, video, and digital media with study in other areas of the arts, humanities, and social sciences that help students understand the role these media play in society.

As the technologies of film and video have merged with digital computer-based moving images and interactive media, and as digital media continues to expand into everyday experience, students in the major are uniquely positioned to excel in these fields.

Graduates of the UCSC film and digital media program have enjoyed considerable success both in the professional world and in gaining admission into top graduate schools in the field.

Students enrolled in film and digital media production classes have access to audio, video, and digital production and postproduction equipment. Facilities include a digital media lab; audio recording studio; sound stage with green screen; digital nonlinear editing rooms; video format conversion rooms; a computerized sound effects library; and student equipment checkout. Additionally, computer laboratories equipped for digital image manipulation, web authoring, and interactive interface design and viewing rooms are available. The critical studies facilities include classrooms equipped for high-end film, video, and data projection. The library holdings in film and video history, theory, and literature are complemented by a large collection of films, videos, laser disks, and DVDs, including a diverse range of international feature films, experimental film and video work, animation, silent films, and documentaries.

Some courses offered by the Film and Digital Media Department are restricted in enrollment; admission is based on completion of prerequisites and other specific written application requirements. Admission to advanced production courses is generally restricted to third- and fourth-year students and is based on the submission of a portfolio of work produced in the introductory production class (Film 170B for film production pathway, Film 170A for digital media pathway) and other production workshops.

Upper-division digital media and production studio courses require coursework to be completed on computers. Instruction in and software for production courses utilizes the “Apple OX platform and primarily consists of Apple and Adobe video production software packages. Many UCSC students purchase laptop computers. Film and digital media students who are considering purchasing a laptop computer for production work are encouraged to consult with the department’s operations staff. A list of recommended computer configurations and information regarding education pricing on software packages is available at slugfilm.ucsc.edu.

Declaration of the Film and Digital Media Pre-Major

Students who have completed one lower-division course (20A, 20B or 20C) with a grade of B- or better may declare the film and digital media pre-major. Pre-majors are expected to complete the requirements to declare the major by the end of their second year. Transfer students must declare the pre-major no later than their second quarter in residence.

Declaration of the Film and Digital Media Major

Prior to declaring the film and digital media major, students must complete FILM 20A, and either 20B or 20C, with a grade of B- or better. FILM 20A, 20B, and 20C must be taken for a letter grade by students intending to major in film and digital media. Students who have met the B- grade minimum for declaration of the major may choose to take FILM 20P as the third lower-division requirement.

20A Introduction to Film Studies

20B Introduction to Television Studies

20C Introduction to Digital Media

20P Introduction to Production Technique

Students are encouraged to complete the lower-division courses early in their studies so that the petition to major status is accomplished before the first quarter of the junior year. Acceptance into the film and digital media major does not constitute acceptance into any of the concentrations (production, critical studies, or integrated critical practice). Transfer students should consult the Transfer Student section for instructions about declaring the major.

Students who feel that there were extenuating circumstances which prevented them from meeting the requirements for declaring the major may appeal their denial by submitting a letter to the Film and Digital Media Department. The appeal must be filed no later than 15

days after the denial notification was sent. For further information regarding this process, contact the Film and Digital Media Department.

Requirements of the Major

The general film and digital media major requires three lower-division and nine upper-division courses in residence and satisfaction of the senior comprehensive requirement. Students must include among these 13 courses at least one upper-division, 5-credit course that focuses on diversity (i.e., non-Western; underrepresented ethnicity, gender, or sexual orientation). A list of courses satisfying the department's diversity requirement is available at the department office. Students in the general film and digital media major may apply for admission to the critical studies concentration (see Critical Studies Concentration below), to the highly selective and competitive production concentration (see Production Concentration below), or the more rigorous integrated critical practice concentration (see Integrated Critical Practice Concentration below) within the major.

Lower-Division Requirements

Students must take the lower-division classes 20A, 20B, and 20C for a letter grade, and they must earn a B- or better in two of these three lower-division classes (20A and either 20B or 20C) to petition for the major. A third lower-division course is required to satisfy major requirements.

20A Introduction to Film Studies

and two of the following three courses are required for all majors:

20B Introduction to Television Studies

20C Introduction to Digital Media

20P Introduction to Production Technique (cannot be used to satisfy the B- grade minimum)

General Film and Digital Media Major

Students in the general major complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following four groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

132C Gender and Global Cinema

134A American Film, 1930-60

134B American Film, 1960-Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

194A Film Theory Seminar

194B Electronic Media Theory Seminar

194C New Media Theory Seminar

194D Film History Seminar

194E International Cinemas

194F Film and the Other Arts: Music and Dance

194G New(s) Media

194S Senior Seminar: Special Topics

And five upper-division elective courses are to be chosen from the following:

- up to five additional upper-division history/critical studies courses in film and digital media
- up to two upper-division courses in film and digital media production (150, 151, 170A,

170B, one from the 171 series, 172, 173, 175, 176, 177, or one from the 178 series)

- up to two upper-division courses offered by other departments or another institution; course substitutions must be pre-approved by the Film and Digital Media Department

Film and Digital Media Major Planners

The following are two recommended academic plans for students to complete during their first two years as preparation for the film and digital media major. Plan One is a guideline for students who are committed to the major early in their academic career; Plan Two is for students who are considering the major.

Students who are interested in the production concentration, the critical studies concentration, or the integrated critical practice concentration should seriously consider Plan One to be better prepared for application to production studio classes or either the critical studies concentration or the integrated critical practice concentration in their junior year.

Plan One

Year	Fall	Winter	Spring
1st (frsh)	college core	low-div FIDM* req	low-div FIDM* req

Critical Studies Concentration

The critical studies concentration provides a more rigorous pathway through the film and digital media major and offers classes specifically reserved for seniors who have exceptional abilities. Students are eligible to apply for the critical studies concentration in spring quarter of their junior year, provided they have completed FILM 120 and at least three other upper-division critical studies classes. Applicants must already be declared film and digital media majors in good standing.

Students will be asked to submit the following application materials:

- a completed application form
- a one-page statement of purpose
- a sample essay
- copies of all narrative evaluations provided by instructors of film and digital media courses

Application materials and instructions are available at the Film and Digital Media Department office. Student application materials are reviewed by a committee of film and digital media critical studies faculty. Admission to the critical studies concentration will be granted to students who have excellent grades and evaluations in film and digital media courses, an outstanding writing sample, and a clear statement of purpose. Students may reapply a second time if not accepted, but not later than the first quarter of their senior year.

Requirements for the Critical Studies Concentration

The critical studies concentration curriculum adds the following requirements to those already established for the film and digital media major. Students are required to take two upper-division electives, rather than the five electives currently required for the film and digital media major. Students complete their senior comprehensive requirement by taking Film 194A, Film Theory Seminar; Film 199, Tutorial; and either Film 192, Student-Directed Seminar or Film 195, Senior Thesis.

Students in the critical studies concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following five groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

132C Gender and Global Cinema

134A American Film, 1930-60

134B American Film, 1960-Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

165A Film, Video and Gender

165B Race on Screen

165C Lesbian, Gay and Queer Film and Video

165D Asian Americans in Media

187 Advanced Topics in Television Studies

189 Advanced Topics in Electronic and Digital Media Studies

Three courses to satisfy the senior comprehensive requirement:

194A Film Theory Seminar

199 Tutorial (supervised independent study for thesis or student-directed seminar preparation)

192 Student-Directed Seminar or

195 Senior Thesis

And two upper-division elective courses are to be chosen from the following:

- up to two additional upper-division history/critical studies courses in film and digital media
- one upper-division course in film and digital media production (150, 151, 170A, 170B, one from the 171 series, 172, 173, 175, 176, 177, or one from the 178 series)
- one upper-division course offered by other departments; course substitutions must be

Production Concentration

Admission to the production concentration is highly selective, based on promise and accomplishment shown in the student's work. After completing FILM 170A (prerequisite for most digital media production courses) or 170B (prerequisite for most film/video production courses), students may apply to the production concentration by submitting works created in FILM 170A or 170B to a portfolio review conducted at the end of each quarter. These student works are reviewed by a committee of film and digital media production faculty. Application materials and instructions for the portfolio review are available at the Film and Digital Media Department office. Students should note that production courses are in high demand and that faculty/student ratios and equipment resources limit the number of applicants accepted into the production concentration. Students may reapply a second time if not accepted. A student accepted into the production concentration who is unable to meet all the requirements for the concentration may instead be able to satisfy the graduation requirements of the general major. Application materials and instructions for all production courses are available each quarter online at slugfilm.ucsc.edu.

Requirements for the Production Concentration

Students in the production concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

170A Fundamentals of Digital Media Production (prerequisite for most digital media production courses) or

170B Fundamentals of Film and Video Production (prerequisite for most film/video production courses)

Two upper-division production courses from the following:

150 Screenwriting

151 Film Directing

170A Fundamentals of Digital Media Production

170B Fundamentals of Film and Video Production

171A Special Topics Workshop: Sound

171C Special Topics Workshop: Found Footage

171D Social Information Spaces

171F Autobiographical Film

171G Documentary Animation Workshop

172 Narrative Video Workshop

173 Narrative Digital Media Workshop

175 Documentary Video Workshop

176 Experimental Video Workshop

177 Digital Media Workshop: Computer as Medium

178A Personal Computers in Film and Video

178B Advanced Personal Computers in Film and Video

Two critical studies courses taken from two of the three following groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

132C Gender and Global Cinema

134A American Film, 1930-60

134B American Film, 1960-Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

One course from the following:

194A Film Theory Seminar
194B Electronic Media Theory Seminar
194C New Media Seminar
194D Film History Seminar
194E International Cinemas
194F Film and the Other Arts: Music and Dance
194G New(s) Media
194S Senior Seminar: Special Topics
195 Senior Thesis
196A Senior Project in Film and Video Production
196B Senior Project in Screenwriting
196C Senior Documentary Workshop
197 Senior Digital Media Workshop

and four upper-division elective courses are to be chosen from the following:

- up to two upper-division courses in film and digital media production (150, 151, one from the 171 series, 172, 173, 175, 176, 177, or one from the 178 series)
- at least two upper-division film and digital media history/critical studies courses
- up to two upper-division critical studies elective courses from another department or another institution; course substitutions must be pre-approved by the Film and Digital Media Department.

Integrated Critical Practice Concentration

The integrated critical practice concentration provides a more rigorous pathway through the film and digital media major and offers classes specifically reserved for seniors with exceptional abilities in both critical studies and production who seek to combine creative and scholarly work. Students are eligible to apply for the integrated critical practice concentration in the last quarter of their junior year, provided they have completed FILM 120 and at least three other upper-division critical studies classes. Students not already admitted to the production concentration should apply simultaneously to the production concentration. Acceptance into the production concentration is a necessary pre-condition for acceptance into the integrated critical practice concentration. Applicants must already be declared film and digital media majors in good standing.

Students will be asked to submit the following application materials:

- a completed application form
- a one-page statement of purpose
- a sample essay
- copies of all narrative evaluations provided by instructors of film and digital media courses

Application materials and instructions are available at the Film and Digital Media Department Office. Student application materials are reviewed by a committee of film and digital media faculty. Admission to the integrated critical practice concentration will be granted to students who have excellent grades and evaluations in film and digital media courses, an outstanding writing sample, and a clear statement of purpose outlining a senior project that integrates critical studies and production work. Students may reapply a second time if not accepted, but not later than the first quarter of their senior year.

Requirements for the Integrated Critical Practice Concentration

The integrated critical practice concentration curriculum adds the following requirements to those already established for the film and digital media major. Students are required to take both 20A and 20P for their required lower-division courses, in addition to selecting a third lower-division class from either 20B or 20C. The minimum grade requirement for lower-division courses will apply (see Lower-Division Requirements). Students are required to take 170B as part of their core curriculum, and to complete six elective classes, rather than five. For the senior exit requirement students are required to complete one course

(192, 195, 196A, 196B, 196C, or 197) which, combined with an independent study (Film 199, Tutorial) taken either consecutively or simultaneously, will integrate critical studies and production work.

Students in the integrated critical practice concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following four groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

132C Gender and Global Cinema

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

170A Fundamentals of Digital Media Production

170B Fundamentals of Film/Video Production

Two courses to satisfy the senior comprehensive requirement:

199 Tutorial, and one of the following:

192 Student-Directed Seminar

195 Senior Thesis

196A Senior Project in Film and Video Production

196B Senior Project in Screenwriting

196C Senior Documentary Workshop

197 Senior Project in Digital Media

And six upper-division elective courses are to be chosen from the following:

- two upper-division history/critical studies course in film and digital media
- three upper-division courses in film and digital media production (150, 151, 170A, or 170B, one of the 171 series, 172, 173, 175, 176, 177, one of the 178 series)
- one senior seminar chosen from the 194 series
- graduate seminars, taken with permission of the faculty advisor, may substitute for one of the electives
- a maximum of two electives may be taken in another department or another institution if pre-approved by the Film and Digital Media Department

Courses from the above core curriculum in excess of requirements may NOT count as electives.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement will be met by completion of FILM 120, Introduction to Film Theory and Criticism. For detailed information on this major's DC requirement, consult your major adviser.

Comprehensive Requirement

All seniors in the general film and digital media major or in the production concentration may select one of three options to satisfy the campus exit requirement.

- Senior seminar: The senior seminars (courses in the 194 series) are restricted to majors in their senior year and are writing intensive. Students in the general major are required to complete one senior seminar. Students in the production concentration may complete the senior seminar to satisfy the senior exit requirement or as an elective.

- Senior thesis: With prior faculty approval, a student may elect to do a senior thesis (FILM 195). The student must contact a faculty member at least one quarter in advance to submit a proposal and to obtain faculty approval for a senior thesis. The proposal may involve writing a screenplay; expanding on a paper from a previously completed upper-division critical studies course in film and digital media; or writing an original paper in a particular area resulting in a work of substantial research.
- Senior project: A limited number of students in the production concentration may participate in the senior project (FILM 196A, 196B, 196C, or 197) class. Admission is by application, with review of previous works and evaluation of the proposed final project by film and digital media production faculty.

Seniors in the critical studies concentration must complete the following to satisfy the campus exit requirement: Film 194A, Film 199, and either Film 192 or 195.

Seniors in the integrated critical practice concentration must complete one course (192, 195, 196A, 196B, 196C, or 197) combined with an independent study course (199).

Transfer Students

All transfer students must enroll in at least one lower-division course (20A, 20B, or 20C) during their first quarter in residence. Transfer students are strongly encouraged to enroll in 20A during the Summer Session preceding their first quarter in residence. After completion of one lower-division course (20A, 20B, or 20C) with a grade of B- or better, transfer students may declare the film and digital media pre-major.

All transfer students must earn a B- or higher in two 20-level courses, FILM 20A and either 20B or 20C (at least one must be taken at UCSC) to declare the major. Appeal procedures are the same as for non-transfer students. Three lower-division and ten upper-division courses are required for completion of the general major. With some lower-division preparation, transfer students should be able to complete the upper-division coursework and the major within two years. As preparation, prospective transfer students are encouraged to fulfill at least one lower-division film and digital media major requirement (FILM 20 series) through UCSC Summer Session prior to their transfer. Transfer students must petition the department to have equivalent lower-division courses taken at their current institution count toward their UCSC major requirements provided they have earned a B- or higher in each course.

Students who have completed none of the lower-division major requirements prior to transfer to UCSC, students who are interested in graduating with a double major, and students who must finish general education requirements may need additional time to complete their studies.

Transfer students are strongly encouraged to speak with an academic adviser at the department office prior to enrolling in classes to determine their status and to begin the declaration of major process as soon as possible.

Honors

Honors in film and digital media are awarded to graduating seniors whose academic performance in their major coursework is judged by a faculty committee to be consistently excellent to outstanding. Students must have at least a cumulative GPA of 3.5 in the major to be considered for Honors.

Minor Requirements

The minor in film and digital media offers a foundation in visual culture and contributes important scholarly techniques of value to other disciplines. Students earn a minor in film and digital media by completing eight courses: two lower-division courses as prerequisites for the minor and six upper-division courses including four from the core curriculum of the general major and two electives. There is no production component in the minor, nor is there a comprehensive requirement.

Lower-Division Requirements

Students must complete at least two lower-division courses prior to petitioning for the

minor:

20A Introduction to Film Studies

and one of the following three courses:

20B Introduction to Television Studies

20C Introduction to Digital Media

20P Introduction to Production Technique

Requirements for the Minor

Students in the minor must complete the following upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following three groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

132C Gender and Global Cinema

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

And two upper-division elective courses to be chosen from the following: any two additional upper-division film and digital media history/critical studies courses other than production studio courses (150, 151, 170A through 178B) that have not been used to satisfy the above core curriculum. One of the electives may be substituted from another department or institution. Course substitutions must be approved by the Film and Digital Media Department.

Film and Digital Media Ph.D.

The Doctor of Philosophy (Ph.D.) program in film and digital media challenges the traditionally conceived borders between creative and critical practice. The program enables potential dialogue between creative practice and theoretical knowledge as related forms of intellectual work and provides the conditions for students to realize a wide range of possible projects, including those that exist across the traditional divides of critical studies and production. Focusing on a diverse range of cultural production that includes cinema, television, video art, and Internet-based media, Ph.D. program participants interrogate the historical, aesthetic, political, ideological, and technological aspects of these media forms across a range of international contexts, investigating their points of connection and convergence as well as their relationship to broader cultural and historical change. The program thus prepares students for intellectually informed creative practice as well as theoretical and critical production in a range of environments, not limited to traditional academic contexts.

The doctoral program in film and digital media prepares students to be artists and scholars who can situate their work within a larger historical framework of cultural and technological change, looking at the interrelationships of various media. The program is not divided into paths or specific fields of emphasis. As well as educating students in the intellectual histories of their field and working with them to facilitate new theoretical and critical interventions, we also expose students to fundamental and advanced aspects of media technologies that will illuminate their understanding of media production and reception.

Requirements

Normative Time for Completion

Normative time for completion of the program is six years. The first two years of the program are primarily devoted to coursework. Preliminary exams for the master's degree occur in the spring of the second year. By the end of the third year, students should have formulated a dissertation topic and proposal deriving from their work in that year and should have nominated a Ph.D. qualifying examination committee and dissertation committee. Qualifying examinations for advancement to Ph.D. candidacy occur in the fall of the fourth year.

Coursework

A minimum of 108 units of study in coursework at UCSC will be required for the Ph.D. degree. Doctoral students will be in residence for a minimum of six quarters. When in residence, students will take a minimum of 12 credits per quarter until advancement to candidacy. Applicants who already hold an M.A. or M.F.A. degree may petition to waive up to six of their required elective courses for a maximum of 30 transfer credits; such a waiver is subject to the approval of the Graduate Committee.

In their first year, doctoral students will be required to take the three foundational courses (200A–B–C). In addition, students will take a 2–credit, colloquium–based, independent study, or another 2–5 credit course, every quarter.

They must then take two film and digital media graduate elective courses in the second year (for a total of five courses; three core and two electives).

In the third year, students arrange three independent studies 295 (Directed Reading), and two quarters of course 299 (Thesis Research). Students will continue to meet the minimum number of credits per quarter in years two and three with other 2–5 credit courses as appropriate.

A student will thus take at least eight film and digital media graduate courses over the degree. The remaining elective courses may be selected from graduate or advanced undergraduate courses in film and digital media or other departments, subject to approval from the student's graduate adviser. If a student chooses to take an undergraduate course, they will be required to seek permission to enroll from the department, if approved by the faculty adviser.

In each year, it is expected that students will carefully choose which courses to take, in consultation with their graduate adviser, so as to ensure a program of study that is intellectually rigorous and that reflects the student's eventual goals and aspirations.

Students are expected to complete at least one year of supervised teaching as part of the degree requirements.

Foreign Language Requirement

Students must demonstrate proficiency in a language other than English. This may include a computer programming language instead of a natural language when such a language is integral to the student's field of study. The language requirement may be satisfied in one of two ways:

- by passing an upper–division course in a language related to the student's research
- by passing a reading proficiency test administered by a faculty member in the relevant language department

A student must pass the language requirement before taking Ph.D. qualifying examinations. There are two exceptions:

- The “foreign” language requirement may be waived for a non–English native speaker who has passed the proficiency test in English required for admission (application must be made in writing at least two months prior to the qualifying examination).
- The requirement may be waived if a student has proof of proficiency in a language other than English in the form of a language major or minor from recent (within the last five years) undergraduate or master's level education or equivalent (accredited institution). Documentation must be received and approved by the Director of Graduate Studies at least two months before the qualifying examination.

Timeline: Course Sequence, Examinations, and Dissertation

During the first year of study in FILM 200B-C (a 2-quarter course), students will be introduced to the methodologies of developing, and the questions that surround a critical practice approach. This will occur while the student simultaneously strengthens, with the appropriate elective classes, areas of theory or practice that pertain to their focus but in which they are not fluent.

During the second year, the student will focus on selecting classes from the film and digital media elective series numbered 210-289. Of the 19 classes currently in this series, approximately one third embrace a strong mix of critical studies and media production. In these classes, students will be charged with producing and thinking about the relationship between critical studies and media production. The remainder of the classes in this series fall on either side of the equation.

At the end of the second year, students take a preliminary examination which functions as the master's examination. In the winter quarter of the second year, a "call" is made for students to submit the critical or creative work they have produced from their first two years of coursework. Students prepare for the examination by talking to their graduate adviser about the work they have done and how they might situate and respond to it. At this stage they also nominate faculty members whom they think would be suitable examiners. It is expected that these faculty would include at least one of the instructors of the courses already taken by the student. The graduate adviser and director of graduate studies will assemble the committee, taking into account the student's nominations. The written component of the examination consists of the coursework projects already submitted, which for some students will be a combination of written text and creative work; and, a statement about that work and its contexts, which will form the basis for oral examination questions by faculty members. At the oral examination, students will be questioned about their work, their relationship to it, and the way they might situate it. The goal is for students to be able to talk meaningfully about the connections and implications of their work and to place it within a wider critical, theoretical, and creative context. The graduate adviser will discuss the scope and format of the examination with the student before the examination date.

After the oral examination, the committee considers the student's performance and will recommend one of three grades: fail, pass, or pass with permission to proceed. Students who fail may retake the oral component of the examination one time. A student with a pass only may leave the program with the degree of Master of Arts (M.A.). These students must also meet the campus requirement of B or higher in their coursework and complete the units requirements of 72 credits. Students who pass with permission to proceed may enter the third year of coursework toward the Ph.D. The decision on permission to proceed will take into account the examination result and input from the faculty whose courses the student has completed.

The third year will be spent developing a dissertation topic in close consultation with faculty advisers and the FILM 290 series classes. A student's advisers over the program's duration will include both critical studies and production faculty depending on the research and the qualifying examination, and dissertation committees will reflect a balance between critical studies and production faculty appropriate to the student's research topic. In spring of the third year, students should, in consultation with their graduate adviser, suggest names of faculty to become members of the Ph.D. qualifying examination committee. This committee will be comprised of four faculty members, at least one of whom must be from another discipline at UCSC or from another campus. The committee shall have a tenured film and digital media faculty member as chair. Students should also begin assembling a dissertation committee. The 297 independent study course, taken in the spring, should result in a dissertation proposal, and the student will receive feedback on that during and at the end of quarter.

In fall of the fourth year, the student's Ph.D. qualifying examination committee will consider the work completed in 295, 297, and 299 courses, including the student's dissertation proposal (which the student may choose to revise over the summer before submitting to the committee) and will then conduct an oral qualifying examination based on the proposal and other work. The aim of the examination is to test a student's readiness for advanced research and production of the Ph.D. dissertation, and to assess the student's abilities to advance themselves in their respective fields of inquiry. Advancement to candidacy is based on successful completion of the qualifying

examination as well as completion with a B or better grade of the required coursework and assembly of a graduate division approved thesis committee. If a student fails the Ph.D. examination, he or she may be permitted to take it a second time.

Completion of the Degree

Upon successful advancement to candidacy, students must then complete the following requirements for the Ph.D.

Dissertation: The dissertation, or Ph.D. thesis, is to be an original contribution of high quality to the field of film and digital media studies. If a student's thesis contains a substantial creative component, the thesis project must also include a written component of no less than 75 pages which contextualizes the work in relation to other scholarly and creative practices, and situates the work in relation to relevant aesthetic and cultural theory. The dissertation must be approved by a committee consisting of a minimum of three faculty members, at least two of whom must be from the film and digital media faculty. If the dissertation director does not hold a Ph.D. degree, then the majority of the remaining committee members must hold Ph.D.s. When the student has submitted the dissertation and the committee has approved it, the student is ready for the oral defense.

Oral Defense: Once the dissertation is approved, the student will present an oral summary before his or her dissertation committee and invited members of the academic community. The student will then answer questions posed by the faculty.

Sample Student Program for Each Year (Years 1–4)

Year 1: three core film and digital media courses; three electives

Fall

FILM 200A, Introduction to Graduate Study
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)

Winter

FILM 200B, Theory and Praxis of Film and Digital Media, Part 1
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)

Spring

FILM 200C, Theory and Praxis of Film and Digital Media, Part 2
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)

Year 2: two film and digital media electives; four other electives from Film and Digital Media or another department

Fall

Film and digital media elective
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)

Winter

Film and digital media elective
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)
Student suggests M.A. examination committee; prepares for examination.

Spring

Elective (from Film and Digital Media or another department)
Elective (from Film and Digital Media or another department)
Foreign language/colloquium study/other elective (at least 2 credits)
Student takes M.A. examination. If successful, advances to third year.

Year 3: three required film and digital media courses, three electives from Film and Digital Media or another department

Fall

FILM 295, Directed Reading

Elective (from Film and Digital Media or another department)

Foreign language/colloquium study/other elective (at least 2 credits)

Winter

FILM 299, Thesis Research: Developing a Thesis Area

Elective (from Film and Digital Media or another department)

Foreign language/colloquium study/other elective (at least 2 credits)

Spring

FILM 299, Thesis Research (thesis proposal)

Elective (from Film and Digital Media or another department)

Foreign language/colloquium study/other elective (at least 2 credits)

Student assembles Ph.D. dissertation committee, nominates Ph.D. qualifying examination committee.

Year 4

Student takes Ph.D. qualifying examination. If successful, advances to candidacy and continues research and writing of dissertation.

Designated Emphasis

UC Santa Cruz graduate students enrolled in doctoral programs may obtain a designated emphasis in film and digital media as part of their Ph.D. degree. Students must meet the following requirements in order to obtain the designated emphasis:

- Secure approval from a member of the film and digital media core faculty to serve as the adviser for the designated emphasis.
- Submit a significant piece of writing, or a project that includes both writing and creative practice, that demonstrates competence in the field of film and digital media. A writing submission could take the form of
 - a seminar paper or dissertation chapter. A writing/creative project may be constituted from a range of possible media such as film, video, web-based or other digital media. The submitted project must meet the approval of the student's film and digital media adviser.
- Successfully complete four graduate courses (not independent studies) taught by either core or affiliated faculty of the film and digital media Ph.D. program. The courses must be pre-approved by the student's designated emphasis adviser.

Faculty and Professional Interests

Professor

Sharon Daniel

Community-based public art in information and communications environments, social and political aspects of information technology, new media documentary and database documentary, participatory culture, digital inclusion, net art, human-computer interface design

Eli E. Hollander

Film and video directing; ethnographic documentary directing, editing, cinematography, and videography; digital image generation; screenwriting

Charles L. Lord, Professor Emeritus

Margaret Morse, Emerita

B. Ruby Rich

Documentary film and video, new queer cinema, feminist film history, Latin American and Latina/o cinema, U.S. independent film and video, the essay film, film festival studies, and the making/marketing of foreign films in the U.S.

Warren Sack

Software design and media theory

Shelley Stamp

Film history, theory, and criticism; silent cinema; women's filmmaking; film censorship; histories of moviegoing; feminist approaches to cinema

Renee Tajima-Peña

Documentary film, video, and interactive web projects focusing on Asian Americans, immigrants, communities of color, women, media, and social change

Associate Professor

Lawrence Andrews

Film, video, installation and media art

Irene Gustafson

Producing across the boundaries between "theory" and "practice," non-fiction media, experimental film/video, production design, gender and queer studies

Jonathan Kahana
Documentary film and media; film and politics; American film history; essay film; cultural and social theory; media publics; arts of historical re-enactment; war and cultural memory; audio culture; disciplines of listening

L. S. Kim
Television history and theory, racial discourse, feminist criticism, Asian-American media production, industrial practices and social change in both mainstream Hollywood and alternative media

Peter Limbrick
International cinemas, especially Australasian, Middle Eastern, and Arab cinemas; film and video history and historiography; theories of globalization, transnationalism, and postcoloniality; intersections of race, gender, and sexuality; queer theory

Gustavo Vazquez
Film and video production, directing drama, documentary and experimental cross-cultural experiences in film, film curator

Assistant Professor

Jennifer Horne
Media citizenship; non-theatrical film and film exhibition; archives and technologies of information; film preservation; mass media and humanitarianism; cinema and media history and historiography; institutions, disciplinarity, and the politics of knowledge

John Jota Leños
Social documentation, social art practice, community arts, documentary animation, Chicana/o art practice and cultural studies, media and cultural studies, subaltern studies, photography, installation art, public art and intervention

Irene Lusztig
Film and video production, experimental ethnography and essayistic nonfiction; representations of historical memory; archives, propaganda and training films; feminist film practices; medical film; autobiographical filmmaking; interactive documentary; editing

Soraya Murray
New media art, theory, and criticism; visual culture including digital, film, video, and electronic games; theories of technology and globalization; representation of otherness, migration, citizenship

Yiman Wang
Film history and theory; colonial/semi-colonial/postcolonial/postsocialist modes of media production and exchange; border-crossing film remakes; silent cinema; translation theory and cinema; acting theory/practice and ethnic star studies; transnational connections and ramifications of Chinese cinema and documentary; fan culture; East Asian cinemas

Professor

Julianne Burton-Carvajal, Emerita, Literature

Teresa de Lauretis, Emerita, History of Consciousness

Rosa Linda Fregoso, Latin American and Latino Studies
Human-rights studies; intercultural and transborder feminism; cultural studies; Latina/o-Latino American film and media arts

Herman S. Gray, Sociology
Cultural studies, media and television studies, black cultural politics, social theory

Donna J. Haraway, Emerita, History of Consciousness and Feminist Studies

David S. Marriott, History of Consciousness
Literary theory, psychoanalysis, black cultural theory and philosophies of race, literary and

visual cultures of modernism

Assistant Professor

Neda Atanasoski, Feminist Studies

U.S. and Eastern European film and media; cultural studies and critical theory; war and nationalism; gender, ethnicity, and religion

[Program Description](#) | [Faculty](#)

Lower-Division Courses

10. Professional Topics in Film, Television, and Digital Media (2 credits). *

Taught by a working professional, lectures and workshop provide students with career-related information and insight into a specific profession in film, television, and digital media. Students research various aspects of a film, television, or digital media profession. Enrollment restricted to film majors and minors, and pre-film majors and minors. The Staff

20A. Introduction to Film Studies. F

An introduction to the basic elements, range, and diversity of cinematic representation and expression. Aesthetic, theoretical, and critical issues are explored in the context of class screenings and critical readings. Students are billed a course materials fee. (Formerly The Film Experience.) Enrollment restricted to first-year students, sophomores, and juniors. P. Limbrick

20B. Introduction to Television Studies. S

Introduction to the basic forms of televisual presentation, including differing narrative structure from movies and situation comedies to soap opera, plus modes of direct discourse in news, advertising, sports, music, television, and other genres. Alternative forms and modes in electronic media, such as independent video art and documentary, public television, cable, and electronic networks are explored, with their potential for expressing cultural diversity set in relation to social, cultural, and political conditions. Students are billed a course materials fee. (Formerly Introduction to Television Culture and Society.) Enrollment restricted to first-year students, sophomores, and juniors. The Staff

20C. Introduction to Digital Media. W

Introduces fundamental features of digital media and examines the immense visual, social, and psychological impact of the "digital revolution" on our culture. Topics include the concepts and forms of the digital hypertext interface, Internet, and web, and the impact of digital media on conceptions of the self, body, identity, and community. Students are billed a course materials fee. Enrollment restricted to first-year students, sophomores, and juniors. The Staff

20P. Introduction to Production Technique. W

Introduction to production process with emphasis on low–budget, independent film and video making. Explores conceptualization, planning, shooting, editing of documentary, personal essay, and feature narrative works. Emphasis on visualization and shooting style, and scriptwriting, but not hands–on editing. Open to students of varied backgrounds and goals. Students are billed a course materials fee. Enrollment restricted to pre–majors, majors, minors, frosh, sophomores, juniors, and students not currently declared in the production concentration. The Staff

42. Student–Directed Seminar. F,W,S
Seminars on selected topics taught by upper–division students under faculty supervision (see course 192). Students submit petition to sponsoring agency. The Staff

80A. The Film Experience. F
Students learn to understand how films reach the public through a collaborative, industrial, and artistic practice; how films "work" in a narrative sense; how they construct meanings for viewers; and how their formal techniques construct different possibilities for meaning and interpretation. (General Education Code(s): IM.) I. Gustafson

80S. Special Topics in Film and Digital Media. W,S
Study of selected aspects of film, television, and/or digital media. Includes weekly screenings and historical/theoretical readings. May be repeated for credit. (General Education Code(s): IM, T5–Humanities and Arts or Social Sciences, A.) The Staff

80T. Technothrillers. *
Examination of recent films classified as "thrillers" that approach technology (computers, robotics, biotech, the Internet, etc.) through suspense, anxiety, and paranoia. It will also address how technologically produced popular culture negotiates attitudes toward technological change. Students are billed a course materials fee. (Formerly course 80A.) (General Education Code(s): PE–T, T5–Humanities and Arts or Social Sciences, A.) The Staff

80V. Video Games as Visual Culture. W
Through the aesthetics and theory of electronic games, course introduces the histories, ideas, and debates that inform game studies. Topics include: games and cinema; race, class, and representation; narratology/ludology debates; interactivity; serious games; and alternative games. (General Education Code(s): PE–T.) S. Murray

80X. Sex in the Cinema. *
Examines the historical representation of sexual difference, orientation, and politics in film and video using cultural studies, political and economic historiography, and feminist and queer theory and paying special attention to intersections of U.S. political movements with filmmaking and reception. (General Education Code(s): IM, T5–Humanities and Arts or Social Sciences, A.) The Staff

Upper–Division Courses

120. Introduction to Film Theory and Criticism. W
An introduction to classical and contemporary film theory and those theoretical paradigms and methods that have illuminated the media: formalism, realism, structuralism, semiotics, psychoanalysis, Marxism, feminism, and issues of identity and difference. Students are billed a course materials fee. Prerequisite(s): course 20A, satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to film and digital media majors, pre–majors, and minors during priority enrollment; may be opened if space allows. (General Education Code(s): W.) J. Horne

130. Silent Cinema. *
Presents the development of silent film as a cultural form from the early period to the beginning of sound, addressing its historical evolution, technological development, aesthetic transformations, and varied cultural contexts. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A . (General Education Code(s): IM.) S. Stamp

132A. International Cinema to 1960. *
A survey of significant developments in narrative film outside Hollywood from the advent

of sound technology to the late '50s. Differing inter/national contexts, theoretical movements, technological innovations, and major directors are studied. Students are billed a course materials fee. Usually offered alternate academic years. Prerequisite(s): course 20A . (General Education Code(s): CC, A.) P. Limbrick

132B. International Cinema, 1960 to Present. S

A survey of significant developments in narrative film outside Hollywood from 1960 to the present. Major film movements and directors from around the world are studied. Students are billed a course materials fee. Usually offered in alternate academic years.

Prerequisite(s): course 20A . (General Education Code(s): CC, A.) The Staff

132C. Gender and Global Cinema. *

Offers students historical and critical tools to investigate global film through the framework of gender. Focused in particular on contemporary film (from 1960 to present), the class is structured both chronologically and via national industries. Students are billed a course materials fee. Prerequisite(s): course 20A. (General Education Code(s): CC, E.) Y. Wang

134A. American Film, 1930–1960. *

A survey of American narrative cinema from 1930 to 1960. Examines developments in film style, film technology, and the film industry in relation to American cultural history. Students are billed a course materials fee. Prerequisite(s): course 20A or 20B. Offered in alternate academic years. (General Education Code(s): IM.) The Staff

134B. American Film, 1960–Present. F

A survey of American narrative cinema from 1960 to the present. Examines developments in film style, film technology, and the film industry in relation to American cultural history. Students are billed a course materials fee. Prerequisite(s): course 20A or 20B. Offered in alternate academic years. (General Education Code(s): IM.) The Staff

136A. Experimental Film and Video. W

A survey of various experimental styles and practices in film and video, addressing the historical developments of these media formats. The course situates experimental film and video work within the larger contexts of artistic traditions as well as networks of production and reception. Students are billed a course materials fee. Prerequisite(s): course 20A . (General Education Code(s): IM, A.) The Staff

136B. History of Television. *

Survey of the historical development of broadcast television from its origins to the present day phenomena of cable, satellite, and electronic networks. Examination of major genres, forms, and modes of production and consumption within cultural, social, and economic contexts. Offered every other year, alternating with course 136A. Students are billed a course materials fee. Prerequisite(s): course 20B. (General Education Code(s): IM, A.) The Staff

136C. Visual Culture and Technology: History of New Media. *

Explores the relationship between technology and change and surveys the history of various technologies of visual culture from print to computer based imagery and the Internet. Students are billed a course materials fee. Prerequisite(s): course 20C. (General Education Code(s): PE–T.) M. Morse

136D. Documentary Film and Video. F

Explores the category of nonfiction through a historical and theoretical study of documentary in film and video. Addresses ethnographic film, Soviet and Griersonian documentary, cinema verité and/or other selected documentary texts and the issues of representation they raise. Students are billed a course materials fee. (Formerly course 161.) Prerequisite(s): course 20A or 20B. Offered in alternate academic years. (General Education Code(s): IM.) J. Kahana

142. Beyond Cybernetics: Advanced Topics in New Media Technologies. *

Analysis of the effects of communication and information technologies on culture and cultural production through the study of systems and networks. Assignments may include

papers, Internet presentations, development/participation in virtual communities, interactive multimedia. Emphasis on advanced critical and experimental approaches. Students are billed a course materials fee. Prerequisite(s): course 20C. Enrollment restricted to film and digital media majors. Enrollment limited to 40. L. Andrews, S. Daniel

150. Screenwriting. F

Problems in writing for film and television are explored through the writing of original material and analysis of existing works. Various film genres, conventions, and styles, both fictional and nonfictional, are examined. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Admission by application process which may begin prior to start of quarter; application materials generally available final week of preceding quarter. See enrollment conditions section in quarterly Schedule of Classes for application dates and other application instructions that may apply. May be repeated for credit. (General Education Code(s): PR-C, W.) The Staff

151. Film Directing. *

Workshop that explores the director's involvement in film and video production. Topics will include the manipulation of time and space, continuity, script planning and blocking, and working with actors and crew. Students will participate in group and individual exercises in pre-production and scene direction. Prerequisite(s): courses 20A, 20P, and/or 170B are recommended. Admission by application process which may begin prior to the start of the quarter; application materials generally available final week of preceding quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Enrollment limited to 25. (General Education Code(s): PR-E, A.) The Staff

152. Script Analysis. *

Students analyze diverse narrative techniques, dramatic structures, and genre forms to understand the craft of screenwriting and prepare for their own creative writing and filmmaking. Students read finished scripts and view films. Prerequisite(s): course 120. Enrollment restricted to film and digital media majors and film and digital media pre-majors. Enrollment limited to 25. The Staff

160. Film Genres. S

Concentrated study of films from one cinematic grouping with similar themes and narrative structures such as westerns, musicals, or science fiction, or a comparative study of different genres. History, theory, and criticism of the genre are covered. Students are billed a course materials fee. Prerequisite(s): course 130, 132A, 132B, 132C, 134A or 134B. May be repeated for credit. (General Education Code(s): A.) The Staff

161. Topics in Documentary.

Study of topics in documentary film and video. The Staff

161B. Documentary Animation. S

Examines the history, practice, and emergence of documentary animation in contemporary film, on the Web and as activist media with emphasis on the discourse central to social documentary, decolonial theory, and the politics of representation. Prerequisite(s): course 20A. Enrollment restricted to juniors and seniors. J. Leanos

162. Film Authors. W

Intensive critical study of the work of one film auteur (director, screenwriter, actor, cinematographer). Themes, style, and structure are explored using various critical modes of analysis. Students are billed a course materials fee. Prerequisite(s): course 130, 132A, 132B, 132C, 134A, or 134B.. May be repeated for credit. (General Education Code(s): IM.) The Staff

165A. Film, Video, and Gender. *

A study of texts, theories, and issues of gender in film and/or video. Changing focus on one or more topics, including production and authorship, representation, reception, theories of identification, sexual preference, and related issues. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A or 20B. (General Education Code(s): A.) I. Gustafson

165B. Race on Screen. *

Review of historical and critical tools to interpret representations of race on cinematic, television, and computer screens. Class will consider the place of race in theoretical and historical scholarship and examine the debates about race produced within and across film and digital media. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A or 20B. (General Education Code(s): ER, E.) Y. Wang

165C. Lesbian, Gay, and Queer Film and Video. F

An overview of homosexuality in American film. Explores a baseline Hollywood homophobia and the formal and historical attempts to change it. Recent independent queer film and video discussed. Topics include authorship, spectatorship, genre and genre reappropriation, historical gender constructs, the "art" film, mainstream vs. independent production, the relationship of film to popular music. Students are billed a course materials fee. Usually offered in alternate catalog years. Enrollment restricted to juniors, sophomores, and seniors. The Staff

165D. Asian Americans and Media. W

Examines media representations about, as well as by, Asian Americans. Using critical essays on film theory, racial studies, feminist criticism, and independent cinema, students develop the skills necessary to conduct critical analysis of Asian Americans in film and television. Students are billed a course materials fee. Prerequisite(s): course 20A. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 60. (General Education Code(s): ER, E.) L. Kim

165E. Chicana/o Cinema, Video. *

Examines emergence of Chicana/o cinema and video from a place of social displacement, resistance, and affirmation. Looks at Chicana/o representation and spectatorship as it pertains to ethnicity, class, gender, and the beginning of a new Chicana/o film aesthetic. Students are billed a course materials fee. (Formerly course 185E.) Prerequisite(s): course 20A. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 60. (General Education Code(s): CC, E.) The Staff

168. National Cinema and Culture. F,W,S

Study of a specific cinematic or other media tradition of a region, nation, language, diasporic collectivity or other unifying cultural entity. Not a survey, this course selects one focus or offers a comparative of cross-cultural framework. Students are billed a course materials fee. Prerequisite(s): course 130, 132A, 132B, or 132C. May be repeated for credit. (General Education Code(s): CC.) P. Limbrick, The Staff

170A. Fundamentals of Digital Media Production. F,S

Introduction to the conceptual and technical fundamentals of making digital media. Covers principles of digital image manipulation, basic web authoring, and interface design through projects that introduce production techniques and methods. Students are billed a course materials fee. Prerequisite(s): course 20C Enrollment limited to 20. (General Education Code(s): PR-C, A.) The Staff

170B. Fundamentals of Film and Video Production. F,W,S

An introduction to the art and craft of making films and videos. Covers principles of cinematography, videography, editing, production planning, and lighting involving both production techniques and methods. Students are billed a course materials fee. Prerequisite(s): course 20A or 20B and one other film/video and digital media critical studies or history course required. Completion of additional upper-division film and digital media critical studies or history courses improves students' ability to be admitted to this course. Admission by application and entrance essay. The online application process begins several weeks prior to the start of the quarter. See enrollment conditions section in quarterly Schedule of Classes for application dates and other application instructions that may apply. Enrollment limited to 24. (General Education Code(s): PR-C, A.) The Staff, I. Lusztig, I. Gustafson

171. Special Topics Workshops.

Study of selected aspects of film, video, and/or digital media production. The Staff

171A. Sound. *

The cinematic equation equals images plus sound. What are sound-specific properties? What is the relationship between sound and image? Examines these and other questions through the creation of audio and audiovisual pieces. Students are billed a course materials fee. Prerequisite(s): priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A or 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Enrollment limited to 20. L. Andrews

171C. Special Topics Workshop: Found Footage. *

Students will consider the practice of "recycling" images perhaps not intended by the original "owner" or "creator." In addition to assigned readings and technical workshops, students produce three video projects and give a presentation on a specific issue or artist/group. Prerequisite(s): course 170A or 170B; priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A or 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Enrollment limited to 20. The Staff

171D. Social Information Spaces. *

Investigates how information spaces can be designed to be inhabited, socially navigable spaces. Emphasizes the social navigation of information spaces, a set of techniques and ideas from computer-supported cooperative works, human-computer interaction, and architecture. Prerequisite(s): course 170A. Enrollment limited to 20. The Staff

171F. Special Topics Workshop: Autobiographical Film. F

Students explore autobiography as a filmmaking genre and practice, using experimental, fictionalized, documentary, and hybrid forms. Readings and screenings provide a theoretical context for production work. Topics include: strategies of (self) representation, reenactment, performance, portraiture, memoir, confession, and diaristic film. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A or 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Students are billed a course materials fee. Enrollment limited to 20. The Staff

171G. Documentary Animation Workshop. W

A project-based production seminar in documentary animation: students learn diverse animation styles and techniques, and apply them to a documentary-animation class project. Courses 161B and 170A are strongly recommended as preparation (or equivalent background). Enrollment by interview only: an online application process is available in the preceding quarter. Enrollment limited to 20. J. Leanos

172. Narrative Video Workshop. F,W,S

Intermediate workshop in film and video production concentrating on narrative production, development of critical standards, and technical methods. Topics include cinematography, sound, and non-linear digital editing techniques. Each student is responsible for the completion of short narratives from assignments. Students are billed a course materials fee. Prerequisite(s): priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See enrollment conditions section in quarterly Schedule of

Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A or 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. (Formerly Film and Video Studio.) Enrollment limited to 20. G. Vazquez, The Staff

173. Narrative Digital Media Workshop. *

Analysis of cinematic codes and narrative structure through digital video, Internet and interactive multimedia projects. Required readings address contemporary research in narratology and hyper-media, exploring the potential of digital technology to reconfigure the role of both author and audience. Students billed a materials course fee. (Formerly Narrative Workshop: Reconfiguring Narrative Within the Digital Realm.) Prerequisite(s): course 170A. Enrollment limited to 20. S. Daniel

175. Documentary Video Workshop. F,W

Workshop in documentary video production, development of critical standards, ethical issues, and technical methods. Each student is responsible for the completion of short documentaries from assignments. Students are billed a course materials fee. Prerequisite(s): priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A or 170B may apply by submitting an application and sample of production work at first class meeting; applications will be considered on a space-available basis. Enrollment limited to 20. G. Vazquez, The Staff

176. Experimental Video Workshop. F

Introductory workshop in video production (non-narrative, experimental). Topics include a survey of non-narrative experimental video from a historical/theoretical perspective and an introduction to videography, fundamentals of video editing, and sound. Students are billed a course materials fee. Students must bear the cost of all materials. Prerequisite(s): course 170B; priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Enrollment limited to 20. (General Education Code(s): A.) The Staff

177. Digital Media Workshop: Computer as Medium. W

Introduction to the computer as a medium as well as a tool. Students explore art practice within digital imaging and information and communications environments through projects, readings, and "screenings." Assignments may include designing virtual communities and /or interactive, multimedia web works. Students are billed a course materials fee. Prerequisite(s): course 170A. Enrollment limited to 20. S. Daniel

178A. Personal Computers in Film and Video. *

Introduction to the specific applications of computers for film and video. By using computer-generated, enhanced and imported graphics, animation, text, sound, and moving video, students create still and time-based works in a computer environment. Prerequisite(s): course 170A or 170B; priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See enrollment conditions section in quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170B may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Students are billed a course materials fee. Enrollment limited to 20. L. Andrews

178B. Advanced Personal Computers in Film and Video. *

Study of advanced computer tools in digital media, including exploration, creation, and manipulation of sound with the same level of complexity as required in composing the moving image. Students produce a final project that demonstrates skills learned. Prerequisite(s): course 170A; priority given to students who have been accepted into the production concentration. Admission is by an online application process which begins several weeks prior to the start of the quarter. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions that may apply. Students who are not in the production concentration and who have completed course 170A may apply by submitting an application and sample of production work at first class meeting; these applications will be considered on a space-available basis. Enrollment limited to 20. The Staff

180. Writing About Film, Television, and Digital Media. *

Improves students' ability to write and edit, and invites students to explore different kinds of writing related to film, television, and digital media including historical, theoretical, cultural criticism, popular reviews, grant proposals, online forums, and publishing. Prerequisite(s): course 20A, 20B, or 20C. Enrollment restricted to sophomore and junior film and digital media majors. Enrollment limited to 20. L. Kim

185. Special Topics in Film and Video.

Study of selected aspects of film and/or video history, theory, or criticism. Students are billed a course materials fee. The Staff

185D. Sound and Image in Theory and Criticism. F

Explores theories and critiques of sound in culture and analyzes sound in relation to media images in film, video, and other media. Voice, noise, and music are addressed. Students are billed a course materials fee. Prerequisite(s): course 120. (General Education Code(s): A.) J. Kahana

185R. The Film Remake. *

History and theory of the remake through case studies across cultural, gender, and genre boundaries. Examines changing cultural, social, stylistic, and technical values and explores notions of originality, repetition, homage, allusion, quotation, and intertextuality from Feuillade and Hitchcock to Raimi and Johnny To. Students are billed a course materials fee. Prerequisite(s): course 120, 130, 132A, 132B, 132C, 134A or 134B. The Staff

185S. Advanced Topics in Film Studies. *

Study of a selected aspect of film history, theory, or criticism. Includes weekly screenings and historical/theoretical readings. Usually offered in alternate academic years with rotating topics. Students are billed a course materials fee. Prerequisite(s): courses 120, 130, 132A, 132B, 132C, 134A, or 134B. May be repeated for credit. The Staff

185X. EyeCandy Seminar. W

Seminar and workshop on writing, producing, and publishing a journal. Students engage in assignments and exercises directly and indirectly related to the production of a web launch as well as a print copy of EyeCandy. Permission of instructor required based upon student's participation in EyeCandy in winter and spring quarters. Preference given to film and digital media majors and minors; others may apply based on qualifications and as space allows. Students are billed a course materials fee. May be repeated for credit. (General Education Code(s): PR-E.) B. Rich

187. Advanced Topics in Television Studies. S

Study of a selected aspect of television history, television criticism, or national television. Includes weekly screenings and historical/theoretical readings. Usually offered in alternate academic years, with rotating topics. Students are billed a course materials fee. Prerequisite(s): course 20B. Enrollment restricted to junior and senior film and digital media majors and minors. May be repeated for credit. L. Kim

189. Advanced Topics in Digital and Electronic Media Studies. *

Study of a selected aspect of digital and/or electronic media history and criticism. Topics can include virtual environments, electronic networks, video installations, computer games, and hyper-media. Usually offered in alternate academic years. Students are billed a

course materials fee. Prerequisite(s): course 20C. Enrollment restricted to junior and senior film and digital media majors and minors during priority enrollment; may be opened if space allows. May be repeated for credit. The Staff

190. Advanced Critical Studies Seminar. *

Intensive research and writing on a changing topic chosen to demonstrate critical mastery in a specific area of film and/or digital media studies. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors accepted into the critical studies concentration. Enrollment limited to 15. The Staff

191. Critical Studies Thesis Preparation Seminar. *

Intensive seminar prepares students for writing a critical studies thesis. Designed to be taken prior to enrolling in course 195, seminar guides students through the process of choosing a thesis topic, preparing a bibliography, and drafting a detailed outline. Prerequisite(s): course 190. Enrollment restricted to senior film and digital media majors accepted into the critical studies concentration. Enrollment limited to 15. The Staff

192. Directed Student Teaching. F,W,S

Teaching a lower-division course under faculty supervision (see course 42). Proposal supported by a faculty sponsor and department. The Staff

194A. Film Theory Seminar. F

Advanced senior seminar examining classical and contemporary film theory and those theoretical paradigms and methods that have illuminated the medium: formalism, realism, structuralism, semiology, psychoanalysis, Marxism, feminism, and phenomenology. Primary texts are read. Students are billed a course materials fee. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. The Staff

194B. Electronic Media Theory Seminar. W

Study of the major theoretical approaches to electronic media and their critical application to texts from television, independent video art and documentary, and electronic networks. Readings include a range of theoretical approaches selected from semiotic, ideological, feminist, cultural studies, reception theory, postmodernist, and other critical traditions. Students are billed a course materials fee. Prerequisite(s): courses 20B and 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. L. Kim

194C. New Media Theory Seminar. *

Study of theories of emerging genres of electronic culture, with emphasis on the discourse about computer-assisted and computer-generated forms of art and mass culture such as digital imagery, virtual environments, telematics, hyper- and multimedia, and electronic networks. Students are billed a course materials fee. Prerequisite(s): courses 20C and 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. S. Daniel

194D. Film History Seminar. S

In-depth study of film history investigating developments in cinematic style, technological innovation, and industrial practice against the broad canvas of cultural history. Students will acquire the basic tools necessary to conduct informed film historical research. Students are billed a course materials fee. Prerequisite(s): course 120 and either 130 or 134A or 134B. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. The Staff

194E. International Cinemas. S

In-depth study of the history and theory of international cinemas with changing topics such as globalism and resistance, postcolonial theory, international productions and querying race, the "national," and cinema. Students are billed a course materials fee. Prerequisite(s): course 120 and either 132A, 132B, or 132C. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. P. Limbrick

194F. Film and the Other Arts. *

Examines the use of artistic media within films and of films that thematically are about

other media. What do other art forms allow for—in terms of the story, the film's meaning, the gaze, and the spectator? Students are billed a course materials fee. (Formerly Film and the Other Arts: Music and Dance.) Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. L. Kim

194G. New(s) Media. *

Addresses the role of new media technologies in the production, distribution, and reception of the news, especially international news. Examines software and network technologies as amplifying, filtering, extending, and countering the forces of media. Students are billed a course materials fee. Prerequisite(s): courses 20C and 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. W. Sack

194S. Special Topics Seminar. F,W,S

Intensive research and writing on a changing topic chosen to demonstrate critical mastery in a specific area of film and digital media studies, for example, film adaptations and their literary sources, documentary/reality shows, or networked new media texts. Students are billed a course materials fee. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. May be repeated for credit. The Staff

195. Senior Thesis/Project. F,W,S

An individually supervised course, with emphasis on independent research, to culminate in a senior thesis/project/production. Proposals should be submitted to adviser one quarter in advance. Petition required, approved by instructor and department; thesis petitions available in the department office. The Staff

196A. Senior Project in Narrative Production. W,S

Students accomplish a range of production work focused on narrative production including script development, casting, and rehearsing to shooting and post-production work. Students are billed a course materials fee. Admission by application during the preceding quarter. Students may apply a maximum of two times. See the enrollment conditions section in the quarterly Schedule of Classes for application dates and other application instructions. (Formerly Senior Project in Film and Video Production.) Enrollment limited to 20. E. Hollander, The Staff

196B. Senior Project in Screenwriting. W

Students write a full-length (75–100 page) screenplay in this seminar while studying structural concepts and character development in selected films. Scheduling, outlining, pitching ideas, and critique are all part of the workshop format of the class. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 150 or another screenwriting course. Interview only: petition required; special application should be submitted to adviser one quarter in advance; see department office for more information. Enrollment restricted to senior film and digital media majors. Enrollment limited to 16. (General Education Code(s): W.) The Staff

196C. Senior Documentary Workshop. S

Students are responsible for producing short documentaries (up to 12 minutes). In class, students discuss each other's work as well as view and discuss other documentary films. Admission by application during the preceding quarter. Enrollment restricted to senior film and digital media majors. Students are billed a course materials fee. Enrollment limited to 20. The Staff

197. Senior Digital Media Workshop. *

Independent projects using the computer as a medium as well as a tool. Students will design and implement projects in digital imaging, information, and communications environments. Students' projects may include designing virtual communities, building collaborative networks, and/or interactive, multimedia web works. Students are billed a course materials fee. Admission by application during previous quarter. See department office for more information. Enrollment limited to 20. W. Sack

198. Independent Field Study. F,W,S

Provides for department–sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Field study may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Provides for department–sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Field study may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Tutorial may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Tutorial may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. The Staff

Graduate Courses

200A. Introduction to Graduate Study. F

Introduces graduate study in the critical practice of film and digital media. Conducted as a pro–seminar, with faculty presentations and discussion. Enrollment restricted to graduate students. Enrollment limited to 15. I. Gustafson

200B. Theory and Praxis of Film and Digital Media 1. W

Investigates methods for rhetorical production of written and visual/aural texts. Emphasizes questions about delineation between theory and practice, and provides groundwork in theories relevant to key areas in film, television, and digital media studies. (Formerly Theory and Praxis of Digital Media 1.) Enrollment restricted to graduate students. Enrollment limited to 15. P. Limbrick

200C. Theory and Praxis of Film and Digital Media 2. S

Investigates methods for rhetorical production of written and visual/aural texts. Emphasizes interwoven practices of the artist/researcher/teacher, formal and expressive possibilities of "hybridized" research, and cultural issues raised by integrated methods of inquiry. Students are billed a course materials fee. Enrollment restricted to graduate students. Enrollment limited to 15. I. Lusztig

222. Critical Methodologies in Film and Television. *

Introduces graduate students to critical methodologies in media studies and offers sustained examination of theoretical approaches to media studies. Methodologies may include (but are not limited to) contemporary theory (semiotic, psychoanalytic, ideological), cultural studies, intertextuality, feminist film, and television theory. Enrollment restricted to graduate students. Enrollment limited to 14. The Staff

223. The Film/Video Essay. *

Focuses on "essayistic" approaches to scholarship and production, emphasizing relationships between theory and praxis that this mode of production requires. Enrollment restricted to graduate students. Enrollment limited to 15. J. Kahana

224. Mediating Difference. *

Considers theoretical and strategic, situated "difference" in the era of (semi–)colonialism, post–colonialism, and globalism, examining theoretical writing alongside media works on the topic. Enrollment restricted to graduate students. Enrollment limited to 15. Y. Wang

225. Software Studies. *

Today, our lives are woven into vast software systems that facilitate our family communications, personal relations, jobs, and cultural, economic, political, and social institutions. Course examines these conditions of life and thought using insights from the arts and humanities. Enrollment restricted to graduate students. W. Sack

226. Queer Theory and Global Film and Media. *

Examines queer subjectivities, practices, and theories in relation to globalization, transnationalism, and postcoloniality, focusing on film/media produced outside the United States. The course addresses representation and also uses queer theoretical work to engage wider contexts of film/media production, distribution, and exhibition. Enrollment restricted to graduate students. P. Limbrick

227. Representing Memory. *

Studio-based hybrid practice/theory to explore problems of historical representation in film, video, and new media and engage with the production of new cinematic/visual forms that take on issues of personal, collective, and national memories. Enrollment restricted to graduate students Enrollment limited to 15. I. Lusztig

228. Moving Image Archives and the Frontiers of Information. F

Explores moving image archives in relation to social movements, technological change, and moving image use and reuse. Theories of memory, information, and technology provide a framework for discussions, site visits, and individual projects. Enrollment restricted to graduate students. Enrollment limited to 15. J. Horne

229. Topics in Documentary Studies. W

Examines the forms, discourses, and practices of documentary film, television, video, and other media in relation to cultural, social, and political history and theory. While the thematic focus varies from term to term, each edition of the course places critical thought and documentary work in conversation around issues central to forms of social knowledge and action. Enrollment restricted to graduate students. Enrollment limited to 15. J. Kahana

283. New Media Art and Digital Culture. *

A study of new media art in the context of digital culture. Electronic, digital and online technology art are set in critical relation to discourse on history, aesthetics, hypermedia, the interface, hacks, embodiment, robotics, artificial life and other topics. Students are billed a course materials fee. Enrollment restricted to graduate students. Enrollment limited to 15. M. Morse

284. Film, Culture, and Modernity. *

Traces the rise of motion picture culture from the late 19th century through the end of the 1920s, looking at film's emerging visual and narrative grammar, its changing cultural status, and its engagement with shifting registers of class, ethnicity, gender, and sexuality. Enrollment restricted to graduate students. Enrollment limited to 15. S. Stamp

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Either study related to a course being taken or a totally independent study. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. May be repeated for credit. The Staff

297F. Independent Study (2 credits). F,W,S

Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

Program Description

Feminist studies is an interdisciplinary field of analysis that investigates how relations of gender are embedded in social, political, and cultural formations. The undergraduate program in feminist studies provides students with a unique interdisciplinary and transnational perspective. The department emphasizes theories and practices derived from multiracial and multicultural contexts.

Feminist studies prepares undergraduates for a variety of careers. The bachelor of arts (B.A.) degree in feminist studies provides excellent grounding for undergraduates who have career aspirations in, for example, law, health, public administration, community organizations, and social services. Students wishing to pursue doctoral work will also find that interdisciplinary training in feminist studies equips them with theoretical and methodological strengths in most disciplines and applied research fields. Specialists in feminist studies are employed as consultants in industry, higher education, and human resources. State and federal government agencies employ people who have special training in understanding gender relations. Educational institutions need specialists to develop and administer feminist studies programs, women's centers, and other institutional structures designed specifically to study and assist women.

Requirements of the Major

Feminist studies majors must complete 10 courses and a senior comprehensive exit requirement in the feminist studies program. Students must choose one of the following concentrations within the major: Culture, Power, and Representation; Law, Politics, and Social Change; Science, Technology, and Medicine; or Sexuality Studies. Courses appropriate for each concentration are listed at <http://feministstudies.ucsc.edu>.

A proposal for an independent concentration will be approved only when a student presents a clear, coherent, and rigorous plan of study that does not fit the existing concentrations. Both the student's adviser and the Feminist Studies Department chair must approve a proposal for an independent concentration.

Required courses include Feminist Studies 1, Feminist Studies: An Introduction (must be taken at UCSC); one Feminist Studies 10–, 20–, 30–, or 40–level course; Feminist Studies 100, Feminist Theories (must be taken at UCSC); five 5–credit, upper–division courses in the concentration; two 5–credit, upper–division electives; and an upper–division exit

(comprehensive) requirement course. One independent study (course 199) may count toward the concentration or toward the elective requirements. Either course 193 or 198 (internship) may be used to count toward the elective requirements.

Feminist studies is an interdisciplinary major and lists courses taught by affiliated faculty in other departments. However, feminist studies majors must take a minimum of five courses at UCSC taught directly in the Feminist Studies Department, i.e., courses designated FMST, not including course 193, 198, or 199. Two Education Abroad Program (EAP) courses may count towards the major; three transfer courses may count towards the major; and the total combined number of EAP and transfer courses that may count towards the major is a maximum of three.

Exit requirement options include a senior seminar (course 194) taught by core faculty, senior thesis, or a senior project (course 195). Course 1, a lower-division 10-49 course, 100, and the composition (general education code C) requirement are prerequisites to course 194 and 195.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in feminist studies is satisfied by completing one course: 194A, 194D, 194E, 194F, 194G, 194I, 194J, 194M, 194N, 194O, 194P, 194Q, or 195.

Honors

Feminist studies awards honors and highest honors in the major. At the end of each quarter, a faculty committee meets to review graduating students' files. Students are considered for honors and highest honors based on their cumulative GPA, calculated from grades earned in coursework and senior exit requirement undertaken for completion of the major. For honors, students must earn a minimum GPA of 3.70 in the relevant courses, while for highest honors, the GPA must be 3.90 or higher. Writing a thesis is not a requirement for receiving honors or highest honors.

Transfer Students

Transfer students are encouraged to declare the major as soon as possible to be assured entrance into the required core courses. Feminist studies advisers or the chair determine which UC-transferrable courses from other institutions are acceptable. Course 1, one 10-49 lower-division course, and 100 must be completed in the junior year so that the exit requirement may be completed in the senior year.

Graduate Studies

Feminist Studies Ph.D.

The Department of Feminist Studies at the University of California, Santa Cruz will accept applications in fall 2012 for its inaugural class of students who will begin studies toward a Ph.D. in Feminist Studies in fall 2013. The Ph.D. in Feminist Studies at UC Santa Cruz is an interdisciplinary program that investigates how relations of gender are embedded in social, political, racial, and cultural formations. The program emphasizes feminist modes of inquiry and provides students with advanced training in feminist methods. It fosters a rethinking of the relationships between knowledge, power, and expertise. Conceived as a collaborative, cross-divisional enterprise, this graduate program draws upon the strengths of a range of feminist scholars and their departments and programs across the University.

Ph.D. students will complete most of their coursework during their first two years, including the three required courses on Feminist Theories, Feminist Methodologies, and Disciplining Knowledge (FMST 200, 201, 202). Students focus on preparing their problem-based areas of research and their dissertation prospectus during their third year. Students normally take the Ph.D. qualifying examination in their third year or early in their fourth year, when they also must demonstrate proficiency in a second language. Students write a dissertation that is approved by the Dissertation Committee to finish the program. Six years is the normative time toward completion of the Ph.D. degree.

Requirements for Ph. D. students

Ph.D. students must complete the three required courses and at least nine elective courses and three 2–unit classes. They will satisfy their language requirement by the end of the third year, and take their qualifying examination no later than their fourth year.

For Ph.D. Students by the end of the fourth year, or sooner:

- 12 courses (of five units each) and three 2–unit courses
- Language requirement satisfied
- Qualifying examination passed and dissertation prospectus approved
- After completion of qualifying examination, student takes courses in the 290 sequence until the dissertation is submitted.
- Students must teach three courses in feminist studies, or equivalent as instructor or research assistant

[See the [Feminist Studies web site](#) to learn more about the graduate program.]

Feminist Studies Designated Emphasis

Graduate students may work toward a doctor of philosophy (Ph.D.) degree that notes a designated emphasis in feminist studies on the graduation documents. Students wishing to pursue this option should consult with the chairs of their respective Ph.D. programs and are encouraged to apply in the first or second year of graduate study. The application and an annually updated list of regularly offered, approved graduate courses are available at <http://feministstudies.ucsc.edu>.

The following are required for the designated emphasis:

Committee composition. The student must have a designated graduate adviser from the feminist studies core or associate faculty who serves on the qualifying examination committee or in some other appropriate capacity.

Writing. The student must prepare a significant piece of writing in the area of feminist studies. This writing must be a master's essay or a chapter of the doctoral dissertation.

Course requirements. The student must take four graduate courses in feminist studies, two of which must be taught directly in the department. Two courses can be selected from among the graduate offerings of any UCSC department, as long as they are taught by core or affiliated feminist studies faculty.

Teaching. The student must be a teaching assistant in at least one feminist studies course or teach a feminist studies course independently (designated FMST) in the regular curriculum or in Summer Session.

Faculty and Professional Interests

Bettina Aptheker, Professor of Feminist Studies and History

Feminist oral history and memoir; feminist pedagogy; African American feminist history; queer studies; feminist Jewish studies; feminist critical race studies

Anjali Arondekar, Associate Professor of Feminist Studies

South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th–century interdisciplinary studies

Neda Atanasoski, Assistant Professor of Feminist Studies

U.S. and Eastern European film and media; cultural studies and critical theory; war and nationalism; gender, ethnicity, and religion

Karen Barad, Professor of Feminist Studies, History of Consciousness, and Philosophy Science studies, poststructuralist theory, feminist theory, queer theory, 20th–Century continental philosophy, philosophy of science, and physics

Gina Dent, Associate Professor of Feminist Studies, History of Consciousness, and Legal Studies

Africana literary and cultural studies, legal theory, popular culture

Margaret M. Downes–Baskin, Research Associate in Feminist Studies

Presidential leadership styles, elections and the media, women's political and corporate leadership style, intergenerational relations

Marge Frantz, Emerita, Lecturer in American Studies and Feminist Studies

Lisbeth Haas, Chair, Feminist Studies, and Professor of History

U.S.–Mexico borderlands and border studies; Chicano and Native American history; visual culture in the colonial Americas; California; historical memory, theory, and historical methodology

Akasha Hull, Emerita, Professor of Feminist Studies and Literature

Marcia Ochoa, Associate Professor of Feminist Studies

Gender and sexuality, race and ethnicity, Latina/o studies, media and cultural studies, ethnography of media, feminism, queer theory, geography, multimedia production, graphic design, colonialism and modernity, Latin American studies—Colombia and Venezuela

Nondiscrimination Statement

Felicity Schaeffer–Grabel, Associate Professor of Feminist Studies
 Transnational feminisms; sexuality and migration, technology, and race; intimacy and globalization; Latin American/Latino studies; border studies; Chicana/o studies; biometrics and security studies

Angela Y. Davis, Emerita, Professor of History of Consciousness and Feminist Studies
 Feminism, African American studies, critical theory, popular music culture and social consciousness, philosophy of punishment (women's jails and prisons)

Carla Freccero, Professor of Literature, Feminist Studies, and History of Consciousness
 Renaissance studies; French and Italian language and literature; early modern studies; postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

Rosa Linda Fregoso, Professor of Latin American and Latino Studies, Feminist Studies, and Film and Digital Media
 Human–rights studies; intercultural and transborder feminism; cultural studies; Latina/o and Latin Américan film and media arts

Jody Greene, Associate Professor of Literature and Feminist Studies
 Seventeenth– and 18th–century British and French literature and culture, pre– and early modern studies, early modern colonialisms, gay and lesbian cultural studies, gender studies, history of authorship, history of the book

Donna J. Haraway, Emerita, Professor of History of Consciousness and Feminist Studies
 Feminist theory, cultural and historical studies of science and technology, relation of life and human sciences, human–animal relations, and animal studies

Helene Moglen, Emerita, Professor of Literature
 The English novel; feminist, critical, cultural, and psychoanalytic theory; gender and genre in social and psychological contexts

Affiliated Faculty

Gabriela Arredondo, Associate Professor of Latin American and Latino Studies
 U.S. social and cultural history; Chicana/o history; critical race and ethnicity theories; im/migration history; Latina/os in the U.S.; Chicana feminisms; "borderlands" studies, modern Mexico history

Lora Bartlett, Assistant Professor of Education
 Educational policy and school reform, schools as workplaces for teachers, the conditions of teachers' commitment

Karen Bassi, Professor of Classics (Literature)
 Greek and Latin literatures, Greek drama, Hellenistic poetics, feminist interpretation, literary and cultural theory, pre– and early modern studies, historiography

Julie Bettie, Associate Professor of Sociology
 Cultural studies, feminist studies, race/ethnic studies, identity, popular culture, critical ethnography, visual ethnography

Heather Bullock, Professor of Psychology
 Poverty and economic inequality, welfare policy, feminist psychology, discrimination

Julianne Burton–Carvajal, Emerita, Professor of Literature
 American visual media, particularly film; melodrama as a transnational form; gender and authorship; history, cultures, and representations of California, particularly the Central Coast

Nancy N. Chen, Professor of Anthropology
 Medical anthropology, visual anthropology, urban anthropology, Asian American identity, mental health, food, China

Vilashini Cooppan, Associate Professor of Literature
 Postcolonial studies, comparative and world literature, literatures of slavery and diaspora,

globalization studies, cultural theory of race and ethnicity

E. G. Crichton, Associate Professor of Art
Intermedia, electronic arts, photography, installation

Faye J. Crosby, Professor of Psychology
Gender; social identity; and social justice, especially affirmative action

Cynthia Cruz, Assistant Professor of Education
Street ethnography; community-based learning and pedagogies; decolonial feminist pedagogies; Chicana studies and epistemologies; U.S.-Third World Feminisms; cultural studies and education

Teresa de Lauretis, Emerita, Professor of History of Consciousness
Semiotics, psychoanalysis, feminism, film theory, literary theory, queer studies

Sylvanna Falcón, Assistant Professor of Latin American and Latino Studies
Human rights, racism/antiracism, globalization, gender, transnational feminism, Latin America (Mexico, Peru), United States

Mayanthi Fernando, Assistant Professor of Anthropology
Anthropology of religion, secularism, Islam, multiculturalism/pluralism; colonial and post-colonial France, Europe

Dana Frank, Professor of History
U.S. social and economic history; women, labor, and working-class history; contemporary political economy

Pascale Gaitet, Emerita, Professor of Literature and Language Studies
Nineteenth- and 20th-century French literature, sociolinguistics, political history, Celine, Genet

Mary-Kay Gamel, Professor of Classics and Comparative Literature
Performance studies, ancient Mediterranean performance, Greek and Latin literatures, myth, reception of Greek and Roman texts and artifacts, film, feminist approaches to literature and performance

Diane Gifford-Gonzalez, Professor of Anthropology
Paleolithic and Neolithic Africa and Eurasia, colonial New Mexico, origins of food production, pastoralists, zooarchaeology, history of archaeology, interpretive theory, visual anthropology

Susan Gillman, Professor of American Literature
Nineteenth-century American literature and culture; theories of culture, race, and gender; world literature and cultural studies

Jennifer A. González, Associate Professor of History of Art and Visual Culture
Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

June Gordon, Professor of Education
Urban education of working-class and ethnic minority students in East Asia, Britain, and the U.S. and related issues in teacher education

Deborah Gould, Associate Professor of Sociology
Political emotion; social movements and contentious politics; classic and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Shelly A. Grabe, Assistant Professor of Psychology
Cultural objectification of women and women's bodies as a pervasive global phenomenon played out in different ways across different cultures; how "embodied oppression" affects women's psychological well-being and empowerment

Herman Gray, Professor of Sociology
Cultural studies, media and television studies, black cultural politics, social theory

Irene Gustafson, Associate Professor of Film and Digital Media
Producing across the boundaries between "theory" and "practice," non-fiction, gender and

queer studies, production design

Julie Guthman, Associate Professor of Community Studies

Sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of obesity, political ecology, race and food, critical human geography

Margo Hendricks, Emerita, Professor of Literature

Early modern English literature and culture; theories and discourses of race, gender, drama, and theory; women playwrights; pre- and early modern studies

Gail B. Hershatler, Professor of History

Modern Chinese social and cultural history; labor history; gender history; history of sexuality; feminist theory; history, memory, and nostalgia

Emily Honig, Professor of History

Gender, sexuality, and ethnicity in modern Chinese history; comparative labor history; Chicana history, nationalism, and sexuality in the Third World; oral history

Jocelyn Hoy, Lecturer in Philosophy

Feminist philosophy, 19th- and 20th-century continental philosophy

Donna Hunter, Associate Professor of History of Art and Visual Culture

European painting (especially French) from 1600 to the 1960s; German art and visual culture between the two world wars; art as social practice, portraiture

Aida Hurtado, Professor of Psychology

Social identity, feminist theory, social psychology of education, survey methodology

Stacy Kamehiro, Associate Professor of History of Art and Visual Culture

Visual cultures of the Pacific, 19th-century Hawai'i, (inter)nationalism, culture contact; (post)colonialism

L. S. Kim, Associate Professor of Film and Digital Media

Television history and theory, racial discourse, feminist criticism, Asian-American media production, industrial practices and social change in both mainstream Hollywood and alternative media

Norma Klahn, Professor of Literature

Latin American literary and cultural studies (specialization: Mexico), Chicano/Latino literature and culture from a cross-border perspective, modernity/postmodernity, poetics and politics, genre theory (novel, poetry, autobiography), contemporary critical theories (i.e., border, ethnic, feminist, transnational/global)

Campbell Leaper, Professor of Psychology

Social construction and socialization of gender in childhood, adolescence, and adulthood; self-concept and social identity; language and social interaction; social relationships, gender bias in the schools and academic achievement; images of gender in the media; perceptions and consequences of sexism

Peter Limbrick, Associate Professor of Film and Digital Media

International cinemas; intersections of race, gender, and sexuality; theories of globalization, transnationalism, and postcoloniality; queer theory

Jennie Lind McDade, Professor of Art

Drawing, painting

Carolyn Martin Shaw, Emerita, Professor of Anthropology

African societies, colonial discourse, social theory, anthropology of women, sexuality

Lourdes Martínez-Echazábal, Professor of Latin American Literature

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora; critical race theory

Tanya Merchant, Assistant Professor of Music

Ethnomusicology, musics of Central Asia and the former Soviet Union, music and gender, identity, nationalism, globalization, and the institutionalization of music

Leta E. Miller, Professor of Music

Renaissance and baroque music history and performance practices, 20th-century American music, modern and baroque flute, 16th-century chanson and madrigal, music and science, 18th- and 20th-century flute literature and performance styles, music of C.P.E. Bach and Lou Harrison

Megan Moodie, Assistant Professor of Anthropology

South Asian studies, feminist theory, reproductive and population politics, kinship, development, legal identities, tribal communities

Margaret Morse, Emerita, Professor of Film and Digital Media

Digital and electronic media theory and criticism, media art, media history, technology and culture, film history and theory, German cinema, documentary and science fiction

Catherine Ramirez, Associate Professor of Latin American and Latino Studies

Chicana and U.S. Latino literature, culture, and history; gender studies and feminist theory; visual culture and style politics; cultural studies; popular and urban youth cultures; speculative fiction, Afrofuturism, and Chicanafuturism; science, technology, race, and gender; theories and methods of American studies

Jennifer E. Reardon, Associate Professor of Sociology

Issues of social identity as influenced by the new sciences of genetics and genomics; intersection of the sociology of science and knowledge and the sociology of race, gender, and class

B. Ruby Rich, Professor of Social Documentation and Film and Digital Media

Documentary film and video, post-9/11 culture, new queer cinema, feminist film history, Latin American and Latin/a cinema, U.S. independent film and video, the essay film, the politics of film festival proliferation and the marketing of foreign films in the U.S.

Cecilia Rivas, Assistant Professor of Latin American and Latino Studies

Salvadoran transnationalism; media (Internet, newspapers); migration; globalization; race, ethnicity, and gender; bilingualism; consumption; El Salvador; Central America

Pamela Ann Roby, Emerita, Professor of Sociology

Sociology of learning, women and work, leadership and social change, sociology of emotions, feminist research, inequality and social policy

Lisa Rofel, Professor of Anthropology

Critical theory, anthropology of modernity, popular/public culture, gender and sexuality, cultures of capitalism, postcolonial feminist anthropology, China

Gabriela Sandoval, Assistant Professor of Sociology

Race and ethnic studies, Latina/o and Chicana/o studies, stratification, urban and political sociology, and voting behavior

Vanita Seth, Associate Professor of Politics

Early modern and modern political theory, feminist theory, cultural history, race politics, postcolonial theory

Deanna Shemek, Professor of Literature

Italian literature and cultural history, Renaissance studies, early modern popular culture, narrative (early modern to contemporary), women's studies, literary theory

Mary W. Silver, Professor of Ocean Sciences

Biological oceanography, marine plankton, midwater ecology

Shelley Stamp, Professor of Film and Digital Media

Film history, theory, and criticism; silent cinema; women's filmmaking; film censorship; histories of moviegoing; feminist approaches to cinema

Elizabeth Stephens, Professor of Art

Intermedia, electronic art, sculpture, and performance art

Nancy Stoller, Emerita, Professor of Community Studies

Race and gender aspects of health, the AIDS epidemic, community organizing, sexualities, and medicine in prisons

Renee Tajima-Peña, Professor of Social Documentation

Documentary film and video focusing on Asian American and immigrant communities, media, and social change

Avril Thorne, Professor of Psychology

Identity development through personal memory telling, development of meaning in adolescents' self-defining memory narratives, family storytelling and the development of a sense of self, narrative co-construction of identity and intimacy

Nina K. Treadwell, Associate Professor of Music

Renaissance through early baroque music history and performance practices, early plucked-string instruments (theorbo, renaissance, and baroque guitar; renaissance lute), 16th- and 17th-century Italian theatrical music, gender studies, women and music, literary and critical theory

Anna Tsing, Professor of Anthropology

Culture and politics, feminist theory and gender in the U.S., social landscapes and tropical forest ethnologies, ethnicity, local power and relations to the state in Indonesia, Southeast Asia, and the U.S.

Candace West, Professor of Sociology

Language and social interaction, sociology of gender, conversation analysis, microanalysis and medicine

Marilyn J. Westerkamp, Professor of History

Colonial and revolutionary America; the Atlantic World; early modern cultural and religious history; U.S. religious history; gender studies; history of the body

Aaronette White, Associate Professor of Psychology

Adult feminist-identity development; personality correlates of feminist activism; feminist masculinities studies; feminist perspectives on peace and violence; narrative psychology and adult personality change; black feminist political psychology in the U.S. and abroad; critical psychology

Rob Wilson, Professor of Literature

Transnational and postcolonial literatures, especially as located in Asia/Pacific emergences as posited against American empire of globalization; cultural poetics of America; the sublime, Longinus to Hiroshima; mongrel poetics of experimental writing, especially poetry

Alice Yang, Associate Professor of History

Historical memory, Asian American history, gender history, race and ethnicity, 20th-century U.S., oral history

Patricia Zavella, Professor of Latin American and Latino Studies

Relationship between women's work and domestic labor, poverty, family, sexuality and social networks, feminist studies, ethnographic research methods, and transnational migration of Mexican/o workers and U.S. capital

Eileen Zurbriggen, Associate Professor of Psychology

Connections between power and sex, sexual aggression and abuse, sexual decision making. Motivation, especially power and affiliation-intimacy motives. Information processing models of social and personality psychology

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. Feminist Studies: An Introduction. W

Introduces the core concepts underlying the interdisciplinary field-formation of feminist studies within multiple geopolitical contexts. Explores how feminist inquiry rethinks disciplinary assumptions and categories, and animates our engagement with culture, history, and society. Topics include: the social construction of gender; the gendered division of labor, production, and reproduction; intersections of gender, race, class, and ethnicity; and histories of sexuality. (Formerly Introduction to Feminisms.) (General Education Code(s): CC, IH.) G. Dent

10. Feminisms of/and the Global South. *

Explores feminist theories from domestic U.S. and global contexts in order to ask how interventions of women of color in the U.S. and of radical feminist movements in non-U.S. locations radically re-imagine feminist politics. Rather than focusing on feminist movements that represent different regions of the world, course examines feminist theory through multiple histories of colonialism, post-colonialism, and globalization. (Formerly course 80F.) (General Education Code(s): CC, T5–Humanities and Arts or Social Sciences, E.) A. Arondekar

11. War in Film and Culture. *

Explores how war films, media, and political discourses about war and violence shape and transform ideas about national identity. Focuses on how ideas about gender, sexuality, race, and class have particularly affected representations of military conflicts. (Formerly course 80P.) (General Education Code(s): IM, T5–Humanities and Arts or Social Sciences, E.) N. Atanasoski

20. Feminism and Social Justice. F

Examines, and critically analyzes, select post-World War II movements for social justice in the United States from feminist perspectives. Considers how those movements and their participants responded to issues of race, class, gender, and sexuality. A feminist, transnational, analytic framework is also developed to consider how those movements may have embraced, enhanced, or debilitated feminist formations in other parts of the world. (Formerly course 80A.) (General Education Code(s): ER, T5–Humanities and Arts or Social Sciences.) B. Aptheker

Introduces dominant discourses about Christianity and Islam in the American public sphere, with particular attention paid to race, gender, sexuality, and class in thinking about religion. Visual and textual media, political commentary, and popular ethnographies are analyzed. (Formerly course 80T.) (Also offered as Anthropology 80R. Students cannot receive credit for both courses.) (General Education Code(s): IM.) N. Atanasoski, M. Fernando

30. Feminism and Science. W
Explores questions of science and justice. Examines the nature of scientific practice, the culture of science, and the possibilities for the responsible practice of science. Rather than focusing on feminist critiques of science, the course examines how science and technology are changing our world and the workings of power. (Formerly course 80K.) Enrollment limited to 80. (General Education Code(s): PE–T, T5–Humanities and Arts or Social Sciences.) K. Barad

40. Sexuality and Globalization. W
Examines the relationship between sexuality and the contemporary term "globalization" as a dense entanglement of processes that emerges from a history of U.S. empire. Sexuality cannot be separated from power struggles over the classification of bodies, territories, and questions of temporality. Examines how sexualized contact zones produce new knowledge, commerce, inequalities, possibilities, and identities. (Formerly course 80B.) (General Education Code(s): CC, T5–Humanities and Arts or Social Sciences.) F. Schaeffer–Grabiel

41. Trans Gender Bodies. F
Draws from representations of transgender/transsexual people in popular, biomedical, and political contexts. Examines the impact of transgender lives on concepts of gender, identity, and technology. Engages with biological and sexological frameworks of sex/gender, trans experience, and social movements and theories. (Formerly course 80M.) M. Ochoa

80S. Women in Music. F
An exploration of the sociological position of women as composers and performers in Western and non–Western musics, with a focus on both ethnographic and historical sources. (Also offered as Music 80S. Students cannot receive credit for both courses.) Offered in alternate academic years. (General Education Code(s): CC, T4–Humanities and Arts, A.) T. Merchant

Upper–Division Courses

100. Feminist Theories. S
Core course for feminist studies. Serves as an introduction to thinking theoretically about issues of feminism within multiple contexts and intellectual traditions. Sustained discussion of gender and its critical connections to productions of race, class, and sexuality. Focus will change each year. Enrollment restricted to sophomores, juniors, and seniors. K. Barad

102. Feminist Critical Race Studies. *
Working from the perspective that race is a cultural invention and racism is a political, economic, and social relation, investigates how "race" is produced as a meaningful and powerful social category, examines the effects of racism as a social relation, and argues for the necessity of combining feminist and critical race studies. By considering different historical periods and places, aims to equip students with the tools necessary to critically examine the production and reproduction of race and racism in the U.S. Prerequisite(s): one course from feminist studies. Enrollment restricted to juniors and seniors. Enrollment limited to 20. (General Education Code(s): E.) The Staff

112. Women and the Law. S
Interdisciplinary approach to study of law in its relation to category "women" and production of gender. Considers various materials including critical race theory, domestic case law and international instruments, representations of law, and writings by and on behalf of women living under different forms of legal control. Examines how law

structures rights, offers protections, produces hierarchies, and sexualizes power relations in both public and intimate life. (Also offered as Politics 112. Students cannot receive credit for both courses.) Enrollment restricted to feminist studies, politics, legal studies, and Latin American and Latino studies/politics combined majors during priority enrollment only. G. Dent

115. Gender, Sexuality, and Transnational Migration Across the Americas. F
Examines migration as a mode of inquiry into transnational practices across geographic locales and temporal zones. Analyzes migration in relation to the transnational formation of gender, race, and sexuality as well as processes of neocolonialism, the state, and globalization. Prerequisite(s): course 1, 100, or 145. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER, E.) F. Schaeffer–Grabiel

116. Feminist Ethnographies. *
Examines ethnographic methods and writing in anthropology from a feminist perspective; focuses on questions of representation and representativeness, power, and knowledge production; traces theories of exchange in 20th-century anthropology including outsourcing, financialization, and microcredit. (Formerly Ethnographies of Transnational Feminisms.) Prerequisite(s): course 1. Enrollment restricted to junior and senior feminist studies majors or by permission of instructor. Enrollment limited to 20. The Staff

120. Transnational Feminisms. *
Explores the emergence of transnational feminism through U.S. women of color and postcolonial feminism. Underscores the role of globalization, nationalism, and state formation in relation to feminist theorizing, activism, and labor across the Global South. In an attempt to understand the salience of inequalities, the course interrogates the continuation of feminist critique that is attentive to the war on terror, neocolonialism, and empire. Prerequisite(s): course 1. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 40. (General Education Code(s): CC, E.) F. Schaeffer–Grabiel

123. Feminism and Cultural Production. *
Explores relationship between feminism and culture. Topics will vary and include different forms of cultural production such as film and literature. Regional/national focus will also vary. Prerequisite(s): course 1. Enrollment restricted to sophomores, juniors, and seniors. May be repeated for credit. (General Education Code(s): A, E.) B. Aptheker

124. Technology, Science, and Race Across the Americas. *
Examines new ways of understanding the body and race through the intersection of technology and science. Addresses how broader structures of power and the rise of new technological and scientific discoveries mediate power relations and alter how race, national boundaries, the body, and citizenship are normalized and contested from colonialism to the present. Course content may vary; themes may include: U.S. eugenics, I.Q. tests, patenting debates, sterilization, assisted reproduction, biometrics, and genetics across the Americas. (Formerly Technologies and Latinidad: Cyberspace and Beyond.) Enrollment restricted to sophomore, junior, and senior feminist studies majors during priority enrollment only. Enrollment limited to 25. (General Education Code(s): PE–T, E.) F. Schaeffer–Grabiel

126. Images, Power, and Politics: Methods in Visual and Textual Analysis. *
Introduces the analysis of visual images and text with particular emphasis on feminist critical methodologies. Using case studies from photography, film, TV, advertising, and new media, students learn how to read and analyze culture. Enrollment restricted to sophomore, junior, and senior feminist studies majors during priority enrollment only. Enrollment limited to 25. (General Education Code(s): IM.) N. Atanasoski

132. Gender and Postcoloniality. *
Postcolonial feminist studies. Explores how discourses of gender and sexuality shaped the policies and ideologies of the historical processes of colonialism, the civilizing mission, and anticolonial nationalism. Considers orientalism as a gendered discourse as well as colonial understandings of gender and sexuality in decolonialization. Explores Western media representations, literature, the law, and the place of gender in the current debate between cultural relativism and universalism. Provides an understanding of some key

terms in postcolonial studies and an in-depth examination of the place of gender in these processes. Prerequisite(s): courses 10 and 100 or permission of instructor. Enrollment restricted to juniors and seniors. Enrollment limited to 20. (General Education Code(s): E.) A. Arondekar

133. Science and the Body. W

Contemporary technoscientific practices, such as nano-, info-, and biotechnologies, are rapidly reworking what it means to be human. Course examines how both our understanding of the human and the very nature of the human are constituted through technoscientific practices. Prerequisite(s): courses 1 and 100. Enrollment restricted to juniors and seniors. (General Education Code(s): PE-T.) K. Barad

135. Topics in Science and Sexuality. *

Introduces the multiple debates animating the linkages between science, race, and sexuality. Interrogates the interrelated, epistemological frameworks of science and sexuality/queer studies across a range of interdisciplinary and geopolitical locations. Prerequisite(s): course 100 or 145. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. A. Arondekar

139. African American Women's History. *

Considers African American women as central to understanding of U.S. history, focusing on everyday survival, resistance, and movements for social change. Discussion of critical theories for historical research, gender, and race. Emphasis on biography, cultural history, and documentary and archival research. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER, E.) B. Aptheker

145. Racial and Gender Formations in the U.S. F

Introduces the defining issues surrounding racial and gender formations in the U.S. through an understanding of the term "women of color" as an emergent, dynamic, and socio-political phenomenon. Interrogates organizing practices around women of color across multiple sites: film and media, globalization, representation, sexuality, historiography, and war, to name a select few. (General Education Code(s): ER, E.) F. Schaeffer-Grabiel

148. Gender and Development. *

Uses the critical tools of feminist theory and cultural anthropology to look at how global development discourses and institutions mobilize, reinforce, and challenge systems of gender-based inequality. Topics include non-governmental organizations (NGOs), development practice, microcredit, and technocrat cultures. (Also offered as Anthropology 148. Students cannot receive credit for both courses.) The Staff

150. Mediating Desire. W

From a foundation in semiotics, considers the ways race and gender are constructed, understood, performed, embraced, commodified, and exploited through representations. Uses representations of, by, and for the margins to engage theories of communication, identity, and representation. Creative final projects encouraged. (Formerly Community Studies 152) Enrollment restricted to sophomore, junior, and senior feminist studies majors or by permission of instructor. (General Education Code(s): ER, E.) M. Ochoa

151A. Chicana Feminism. *

Students are introduced to the writings of Chicana feminists to identify the gender issues that produce conflict and cooperation in their communities. The course also makes linkages to gender issues in other U.S. communities of color and Latin America. (Also offered as Psychology 157. Students cannot receive credit for both courses.) Prerequisite(s): course 1 or Psychology 3 or 100. (General Education Code(s): E.) A. Hurtado

168. Topics in Feminist Philosophy. *

Topics in feminist philosophy, which may include: the nature of feminist philosophy, feminist approaches to philosophical issues, social and political philosophy, theories of knowledge, ethics, aesthetics, and science, technology, and medicine studies. Presupposes some familiarity with philosophy or feminist scholarship. (Also offered as Philosophy 147.

Students cannot receive credit for both courses.) Prerequisite(s): Philosophy 100A or 100B or 100C. J. Hoy

175. Gender and Sexualities in Latina/o America. *

Advanced topics in gender and sexuality in Latin America and Latina/o studies. Analyzes role of power, race, coloniality, national and transnational processes in the production and analysis of genders and sexualities. Materials include memoir, fiction, ethnography, social documentary and history. (Formerly, Gender and Sexuality in Latin America.) (Also offered as Community Studies 185. Students cannot receive credit for both courses.) Enrollment restricted to sophomore, junior, and senior feminist studies majors or by permission of instructor. (General Education Code(s): CC, E.) M. Ochoa

185. Psychoanalysis and Feminism. *

Introduction to Freudian and Lacanian theories of sexuality and the construction of the self as well as to feminist critiques and rewritings of those theories. An attempt is made to place psychoanalytic theory in socioeconomic, racial, and colonialist contexts. Appropriate prior work in theory is recommended as preparation. Enrollment restricted to juniors and seniors. Enrollment limited to 25. H. Moglen

189. Advanced Topics in Feminist Theory. *

Focus on a particular problem in feminist theory. Problems vary each year but might include theorizing the gendered subject, racializing gender, the meeting points of psychoanalysis and social-political analysis in theorizing gender, the relationship between queer theory and feminist theory, postcolonial feminist theory. Prerequisite(s): course 100. Enrollment restricted to juniors, seniors, and graduate students. Enrollment limited to 20. May be repeated for credit. The Staff

193. Field Study. F,W,S

Individual field study in the vicinity of the campus under the direct supervision of a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

193F. Field Study (2 credits). F,W,S

Individual field study in the vicinity of the campus under the direct supervision of a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194. Senior Seminar.

Discussion classes providing a broad overview of some general "area of concentration." Discussion of assigned readings, focus on oral presentations, and a final 20- to 25-page paper. Satisfies the senior comprehensive requirement in feminist studies. Enrollment limited to 20. The Staff

194A. Feminist Jurisprudence. *

Approaches legal reasoning from a feminist and intersectional perspective with attention to structures and jurisdiction, case materials, and emerging international frameworks for gender justice. Designed to facilitate completion of a substantial research essay based in feminist legal philosophy. Instructor permission required to enroll. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 112 or Politics 112. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. G. Dent

194D. Feminist Science Studies. *

Examines different feminist approaches to understanding the nature of scientific practices. Particular attention paid to notions of evidence, methods, cultural and material constraints, and the heterogeneous nature of laboratory practices. Considers the ways in which gender, race, and sexuality are constructed by science and how they influence both scientific practices and conceptions of science. Also examines the feminist commitment to taking social factors into account without forfeiting the notion of objectivity. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; and courses 1 and 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. K. Barad

194E. History of Sexuality. *

Explores one of the central texts of dialogue and contestation in sexuality studies today: Michel Foucault's *The History of Sexuality*. Considers the epistemic challenges outlined in Foucault's early work and engages its instantiations in the proliferating scholarship on gender, sexuality, and critical race studies. Readings challenge the marginalization of empire in Foucault's work and demonstrate that a history of 19th-century European sexuality must also be a history of race. Interview with instructor required. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; enrollment restricted to senior feminist studies majors. Enrollment limited to 20. A. Arondekar

194F. Chicana/Latina Cultural Production. *

Traces the intersection between Chicana studies and Latin American studies through transnational forms of cultural production, imaginaries, and empowerment. Analysis of theories of cultural production and discussion of the political salience of culture as a site for resistance, critique, and creativity. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100. Enrollment restricted to senior feminist study majors. Enrollment limited to 20. (General Education Code(s): E.) F. Schaeffer-Grabel

194G. Images of Africa. *

Explores questions of colonialism, empire, race, gender, and geopolitics in the proliferating images-filmic, televisual, and media-of Africa in the United States. Facilitates the completion of a substantial research essay based on the study of popular culture. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100; enrollment restricted to seniors. Enrollment by permission of instructor. Enrollment limited to 20. G. Dent

194I. Feminist Oral History and Memoir. F

Designed to train students in oral history and memoir writing. Emphasizes the specialness of transgressive voices; race, class, and sexuality, women's silence, erasure, censorship, and marginalization are addressed. The politics of memory, narratives, storytelling, and editorial judgment are considered. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. (General Education Code(s): W.) B. Aptheker

194M. Empire and Sexuality. *

Explores the production of sexualities, sexual identification, and gender differentiation within multiple contexts of colonialism, decolonization, and emerging neo-colonial global formations. (Formerly course 118.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100 or 145. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. (General Education Code(s): E.) A. Arondekar

194N. Gender, Class, and Sex in Shanghai. *

Focusing on Shanghai, course examines issues of gender, class, and sex in modern urban Chinese history. Given Shanghai's history as a treaty port, particular attention paid to ways in which its semi-colonial status inflected the articulation of gender identities, class formations and issues of sexuality (particularly sexual labor). Also looks at Shanghai during the Maoist period and in the context of more contemporary economic reforms. (Also offered as History 194A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; and History 40B, 140C, 140D, or 140E, or permission of instructor. Restricted to junior and senior feminist studies majors. Enrollment limited to 20. (General Education Code(s): W.) The Staff

194O. The Politics of Gender and Human Rights. S

Examines human rights projects and discourses with a focus on the politics of gender, sexuality, race, and rights in the international sphere. Reading important human rights documents and theoretical writings, and addressing particular case studies, emphasizes the tensions between the ideals of the universal and the particular inherent in human rights law, activism, and humanitarianism. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; courses 1 and 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. N. Atanasoski

194P. Religion, Gender, and Politics. *

Addresses the relationship between religious identities and movements, gender and sexuality, and feminism. Analyzes how media discourses, popular culture, and scholarly writing represent the role of religion and gender in shaping contemporary geopolitics. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; courses 1 and 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. N. Atanasoski

194Q. Queer Diasporas. W

Queer diaspora emerged from Third World/queer-of-color critique of queer theory and provides a framework for analyzing racializations, genders, and sexualities in colonial, developmental, and modernizing contexts. Readings from anthropology, history, literature, and feminist and cultural studies. Prerequisite(s): course 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 20. M. Ochoa

195. Senior Thesis or Project. F,W,S

The senior thesis/project which satisfies the major requirement. Course is for independent research and writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; students submit petition to sponsoring agency. May be repeated for credit. (General Education Code(s): W.) The Staff

198. Independent Field Study. F,W,S

Provides for individual study program off campus for which faculty supervision is not in person. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Provides for individual study program off campus for which faculty supervision is not in person. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201. Topics in Feminist Methodologies. W

Explores feminist theorizing across disciplinary and cultural contexts for both methodology (theories about the research process) and epistemology (theories of knowledge). Goal is to orient students toward changes in organization of knowledge and provide them with different feminist methodologies in their pursuit of both an "object" of study and an epistemology. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. G. Dent

203. Feminist Pedagogies. S

Examines feminist pedagogies as projects in transgressing traditional disciplinary boundaries. Examines historical examples of alternative pedagogies and contemporary models for creating communities dedicated to social justice. Designed to assist graduate students develop teaching strategies in multiple fields. Enrollment restricted to graduate students. Enrollment limited to 15. B. Aptheker

205. Feminism, Nationalism, and Sexuality in the Third World. *

Focus on the historical construction and articulation of feminism in the Third World. Explores the relationship of feminist and nationalist movements, considering such questions as whether Third World women's political movements are necessarily "feminist," how these political movements define feminism, and the tensions between nationalisms and feminisms. Particular attention to issues of sexuality, the effects of colonial institutions and policies on sexual identities in Third World countries, the notions of womanhood and

female sexualities articulated within nationalist ideologies and movements, the consequences of such constructions for women, and the formulation of sexual issues among feminists. Offered every two or three years. Enrollment restricted to graduate students. Enrollment limited to 15. E. Honig

206. Feminism and Psychoanalytic Theory. *

After studying essays by Freud, Lacan, and Melanie Klein which have been central to the construction of feminist theory, considers the writings of such feminist theorists as Jessica Benjamin, Judith Butler, Julia Kristeva, Juliet Mitchell, Jaqueline Rose, Carolyn Steedman, and Maria Torok. Enrollment restricted to graduate students or seniors with permission of instructor, based on narrative evaluations and sample essays. Enrollment limited to 15. H. Moglen

207. Topics in Queer/Race Studies. *

Explores the interrelated epistemological frameworks of critical race studies and queer studies. Through the study of a range of philosophical, scientific, literary, and cinematic texts, course historicizes and theorizes discourses of race and sexuality. Enrollment restricted to graduate students. Enrollment limited to 15. A. Arondekar

211. Sexuality, Race, and Migration in the Americas. W

Analyzes the ways transnational processes intersect with changing notions of gender, sexuality, and race. Examines processes such as tourism, the Internet, capitalism, and labor spanning Brazil, the Dominican Republic, and the United States. Enrollment restricted to graduate students. Enrollment limited to 15. F. Schaeffer-Grabel

212. Feminist Theory and the Law. *

Interrogation of the relationship between law and its instantiating gendered categories, supported by feminist, queer, Marxist, critical race, and postcolonial theories. Topics include hypostasization of legal categories, the contest between domestic and international human rights frameworks, overlapping civil and communal codes, cultural explanations in the law, the law as text and archive, testimony and legal subjectivity. (Also offered as History of Consciousness 212. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. Dent

214. Topics in Feminist Science Studies. S

Graduate seminar on feminist science studies. Topics will vary and may include: the joint consideration of science studies and poststructuralist theory; the relationship between discursive practices and material phenomena; and the relationship between ontology, epistemology, and ethics. Enrollment restricted to graduate students. Enrollment limited to 15. K. Barad

215. Postcolonial and Postsocialist Transactional Analytics. S

Addresses the intersection of the postcolonial and the postsocialist as theoretical ground. Considers how (neo)liberal ideologies about race, class, gender, secularism, and democracy are shaped by the intersection between postsocialist geopolitics and imperial legacies. (Formerly Postsocialism, Postcolonialism, Neoliberalism.) Enrollment restricted to graduate students. Enrollment limited to 15. N. Atanasoski

232. Topics in Postcolonial Studies. *

Variable topics that could include postcolonial approaches to questions of epistemology and knowledge production, theories of nationalism and nation-state formation, subaltern historiography, analyses of modernization and developmental theory, postcolonial approaches to globalization, and transnationalism. Significant component of feminist contributions to these literatures. Enrollment restricted to graduate students. Enrollment limited to 15. A. Arondekar

240. Culture and Politics of Human Rights. W

Examines cultural, philosophical, and political foundations for human rights and provides students with critical grounding in the major theoretical debates over conceptualizations of human rights in the Americas. Addresses the role of feminist activism and jurisprudence in the expansion of human rights since the Universal Declaration of Human Rights. Addresses challenges of accommodating gender rights, collective rights, and social and

economic rights within international human rights framework. (Also offered as Latin American and Latino Studies 240. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. R. Fregoso

251. Feminist Theory and Social Psychology. *

Course bridges feminist theory and social psychological research to explore connections between theory covered and empirical studies on various topics in social psychology. Seminar format allows students opportunity for extensive discussion. (Also offered as Psychology 251. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. A. Hurtado

260. Black Feminist Reconstruction. *

Re-visions and extends Reconstruction from 1865–1920 from a black feminist standpoint. Topics include: redefining democracy; labor; literacy and education; suffrage; re-visioning sexuality; childbirth; parenting, etc. Analyzes traditional historiography and the methodological implications of the boundaries between history and fiction, and archival and oral traditions. Enrollment restricted to graduate students Enrollment limited to 15. B. Aptheker

264. The Idea of Africa. *

Examines the position of Africa in cultural studies and the simultaneous processes of over- and under-representation of the continent that mark enunciations of the global and the local. Themes include defining diaspora, the West as philosophy, and Africa in the global economy. (Also offered as History of Consciousness 264. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. Dent

268A. Science and Justice: Experiments in Collaboration. *

Considers the practical and epistemological necessity of collaborative research in the development of new sciences and technologies that are attentive to questions of ethics and justice. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Biomolecular Engineering 268A. Students cannot receive credit for both courses.) Enrollment limited to 15. K. Barad, J. Reardon

268B. Science and Justice Research Seminar. *

Provides in-depth instruction in conducting collaborative interdisciplinary research. Students produce a final research project that explores how this training might generate research that is more responsive to the links between questions of knowledge and questions of justice. Prerequisite(s): course 268A. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Biomolecular Engineering 268B. Students cannot receive credit for both courses.) Enrollment limited to 15. J. Reardon

297. Independent Study. F,W,S

Independent study and research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297F. Independent Study (2 credits). F,W,S

Independent study and research under faculty supervision. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

* Not offered in 2012–13

Program Description

Students interested in acquiring proficiency in French can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major in language studies, a major in literature with an emphasis in French literature, or a major in global economics.

Lower-division courses 1–6 are taught entirely in French and prepare students for advanced study either on campus or abroad. They are designed to develop proficiency in aural comprehension, speaking, reading, and writing skills, and to introduce student to French and Francophone cultures.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Study Abroad

The Office of International Education (OIE) offers both semester and one-year programs in many regions of France, including Bordeaux, Lyon, Grenoble, Toulouse, and Paris. With the approval of an adviser, some French courses taken abroad may be applied to major requirements. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>.

<http://language.ucsc.edu>

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. First-Year French.

Introduction to French language and culture with practice in all four language skills: listening, speaking, reading, and writing. Intended for students with no previous study of French. (Formerly Instruction in the French Language.) The Staff

2. First-Year French.

Further development of cultural competence and basic French language skills, both written and spoken. Students learn past tenses in this course. (Formerly Instruction in the French Language.) Prerequisite(s): course 1 or placement by interview. The Staff

3. First-Year French.

Final quarter of first-year sequence. Students complete study of French language basics, including the future tense and the conditional and the subjunctive moods, while continuing to learn about French and Francophone cultures. (Formerly Instruction in the French Language.) Prerequisite(s): course 2 or placement by interview. The Staff

4. Second-Year French.

First course in intermediate sequence. Students review and expand upon their previous study of the language through short literary readings, vocabulary building, grammar study, composition, and discussions. (Formerly Intermediate French.) Prerequisite(s): course 3 or placement by interview. (General Education Code(s): CC, IH.) The Staff

5. Second-Year French.

Further development of intermediate-level oral and written skills through study of vocabulary and structures. Students also read and discuss a French or Francophone play. (Formerly Intermediate French.) Prerequisite(s): course 4 or placement by interview. (General Education Code(s): CC, IH.) The Staff

6. Second-Year French.

Final course of intermediate sequence includes grammar study, vocabulary building, extensive writing, and discussion. Reading of a French or Francophone novel is an integral part of course. (Formerly Intermediate French.) Prerequisite(s): course 5 or placement by interview. (General Education Code(s): CC, IH.) The Staff

80. French Cinema. *

Investigation of a variety of topics (historical, cultural, and linguistic) in France and the French–speaking world. Topics are explored through film. Conducted in English. Enrollment limited to 40. May be repeated for credit. (General Education Code(s): T4–Humanities and Arts.) The Staff

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

111. Stylistics. W

Intensive work in French composition with the aim of attaining grammatical correctness and excellence of expression while developing literary appreciation. May be repeated for credit with consent of instructor. Prerequisite(s): course 6. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. The Staff

114. French Phonetics. F

Introduction to the French sound system and basic phonetics. Extensive practice of French pronunciation and phonetic transcriptions of both written and spoken language samples. Prerequisite(s): course 6. Enrollment limited to 20. The Staff

125A. French Civilization: 19th Century. S

Survey of the important historical events, social changes, and artistic movements contributing to the development of French culture during the 19th century. Prerequisite(s): course 6. The Staff

125B. French Civilization: 20th Century. *

A survey of the important historical events, social changes, and artistic movements contributing to the development of French culture during the 20th century. Prerequisite(s): course 6. The Staff

136. La Francophonie. *

In–depth multidisciplinary study of one or more French–speaking regions of the world. Includes history, language, society, literature, and the arts. All course work will be done in French. Prerequisite(s): course 6. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Students interested in acquiring proficiency in German can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major or minor in language studies, a major in German studies, a major in literature with an emphasis in German literature, or a major in global economics.

The sequence of lower-division courses 1–6 is aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Another sequence of lower-division courses, equivalent to levels 1, 2, and 3, consists of courses 1A and 1B, which offer accelerated German language instruction. Courses 1A and 1B are taught sequentially, winter and spring quarters. Instruction takes place almost exclusively in German.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Study Abroad

The Office of International (OIE) offers study abroad opportunities in Berlin, Potsdam, and Göttingen. Students may spend fall or spring semesters or a full academic year in Berlin (Berlin European Studies (BEST) or regular course of study), a spring semester in Potsdam (beginning German language program or intermediate German language and culture program), or a semester or year in Göttingen (graduate study). Language requirements for admission to these programs range from little or no German required (BEST program in Berlin and beginning German program in Potsdam) to one year of college-level German required (intermediate German language and culture program in Potsdam) to two years of college-level German required (regular course of study in Berlin). The Potsdam program courses may also be used to fulfill the language requirement for the year-long program in Berlin. Selected students may continue directly from the spring semester in Potsdam to the one-year program in Berlin. Academic and professional internship opportunities are also available to all students on study abroad in Germany.

Students may apply to any of these programs at any point in their student career. For the year-long programs, students generally apply in their sophomore year for a junior year

abroad. As an exception, some students apply in their junior year for a senior year abroad; such students must sometimes spend an additional quarter at UCSC in order to satisfy all requirements for their major. Courses taken abroad can, with approval of an adviser, be applied to major requirements.

For a list of current programs and requirements, visit the OIE web site, <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

Lower-Division Courses

1. First-Year German. F

German 1, a beginning-level course, introduces the German language and culture for students with no previous knowledge of German. The course focuses on speaking, reading, writing, and listening. The first-year sequence (1–2–3) starts in fall quarter only. (An accelerated sequence, courses 1A–1B, begins in winter quarter.) (Formerly Instruction in the German Language.) The Staff

1A. Accelerated German. W

Accelerated course covers German 1 and part of German 2. It is designed for motivated beginning students. Students develop skills in speaking, reading, writing, and listening to real-life German. (Formerly Intensive Elementary German.) The Staff

1B. Accelerated German. S

Accelerated course part 2 covers part of German 2 and all of German 3. In this course, students who have successfully completed German 1A (or its equivalent) continue to develop competence in speaking, reading, writing, and understanding real-life German. (Formerly Intensive Elementary German.) Prerequisite(s): course 1A or 2 or placement by examination. For students completing course 2, course 3 is preferable. The Staff

2. First-Year German. W

German 2, a second-quarter course, is designed for students who have successfully completed German 1 (or its equivalent). Students continue to develop competence in speaking, reading, writing, and understanding in the context of real-life language use. (Formerly Instruction in the German Language.) Prerequisite(s): course 1 or 1A or placement by examination. Students interested in a course who have not taken the prerequisites should meet with the instructor prior to the first class meeting. The Staff

3. First-Year German. S

German 3 is designed for students who have successfully completed German 2 (or its equivalent; e.g., 2–3 years of high school German). Students continue to develop competence in speaking, reading, writing, and understanding real-life German. (Formerly Instruction in the German Language.) Prerequisite(s): course 2 or placement by examination. Students interested in a course who have not taken the prerequisites should meet with the instructor prior to the first class meeting. 4. Second–Year German. F

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. (Formerly Intermediate Studies in German Language.) Prerequisite(s): course 1B or 3 or placement by examination. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (General Education Code(s): CC, IH.) The Staff

5. Second–Year German. W

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. (Formerly Intermediate Studies in German Language.) Prerequisite(s): course 4 or placement by examination. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (General Education Code(s): CC, IH.) The Staff

6. Second–Year German. S

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. (Formerly Intermediate Studies in German Language.) Prerequisite(s): course 5 or placement by examination. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (General Education Code(s): CC, IH.) The Staff

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

119. German Media.

This third–year language and culture course is designed for students who are comfortable speaking and writing German at the German 5 level or above. Using a variety of German media sources, students give oral presentations and write reports on contemporary issues. Taught in German. Prerequisite(s): course 5 or placement by examination. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): CC.) Z. Abrams, W. Campbell

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Faculty

Program Description

German studies is a transnational and transdisciplinary major that deals with the various German-speaking regions of central Europe. Whether one thinks of philosophy, music, art, education, religion, or political and social history, German culture has exercised a profound and often decisive influence on Europe. Some of the most important ideological debates in Western culture have arisen in the German-speaking area, and changes in German culture and society have sometimes had devastating effects on world history. Events and political developments of recent years—such as the unification of East and West Germany and the emergence of the German-speaking region of Europe as a major player in world affairs have had important impacts.

A German studies major provides students with an intellectually diverse program covering history, history of art and visual culture, literature, and philosophy—in which students and faculty come together in exciting and demanding pursuits.

The German studies major is administered by the Department of History. For additional information on curriculum and advising, go to <http://germanstudies.ucsc.edu>.

Major Requirements

German language level 5 or the equivalent is a prerequisite for the German studies major and all upper-division courses taught in German. Students are encouraged to take German 1 through German 5 as early as possible in their academic program. All students are required to take a total of 11 courses, including the comprehensive requirement. No more than two of the 11 required courses may be lower-division. A minimum of 40 upper-division units must be completed within the German studies course requirements. In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

I. Five courses in German literature and history:

- two core courses in German literature
- one core course in German history

- Cowell College
- Crown College

- Porter College
- Psychology
- Queer and Sexuality Studies
- Religious Studies
- Russian
- Science Communication

- one core course in either German literature or German history depending upon the student's chosen area of emphasis
- one comprehensive exit requirement (see below).

II. Three additional core courses, including EAP courses

III. Three additional core courses or courses from the Germany in a European or World Context list.

Distribution requirements. A minimum of five of the 11 required courses must be taught in German or principally through German-language texts. No more than three courses may come from the Germany in a European or World Context list.

Comprehensive requirement. All students must complete an approved senior seminar in either German literature or German history. The senior seminar is one of the 11 courses required for the major. Please consult the German studies web site for a more detailed description of these courses at <http://germanstudies.ucsc.edu>.

UC Education Abroad Program. It is strongly recommended that students spend time in residence in Germany through the University of California Education Abroad Program (EAP) or one of its affiliate programs to further enrich their program of study and ensure a command of the language. Students are allowed to transfer up to five courses taken at German universities toward the requirements for the major. However, the four required core courses in German literature and history and the comprehensive requirement must be taken at UCSC.

Disciplinary Communication (DC) Requirement. Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in German Studies is fulfilled by completing History 196G, History 196P, or Modern Literary Studies (LTMO) 190Z. Please refer to updated information at [Disciplinary Communication Chart](#).

Honors in the German Studies major. All students who announce candidacy during the academic year are reviewed for honors or highest honors in the major. The German studies faculty advisers determine honors based upon courses applied towards the German studies major. Performance in courses taken elsewhere and being transferred toward the major will be considered when applicable. The minimum standard applied is excellence in most courses for honors, and excellence in all courses for highest honors. Summer graduates are reviewed for honors in fall quarter.

Program Description

The History Department offers instruction in elementary ancient Greek. It consists of a two-course sequence, Greek 1 and Greek 2, that begins in the fall quarter only. Students interested in Greek literature should see the course listings under Literature. Those interested in classical studies should see the program description for classical studies under history.

Campus Language Laboratories and Placement Exams

No placement exam is required for entry into Greek 1. Contact the History Department for more information about these topics.

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Students interested in acquiring proficiency in modern Hebrew can enroll in language courses from beginning to intermediate levels. In addition, credits from these courses may be counted toward the major or minor in Jewish studies. Lower-division courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Attention is also given to developing an understanding of the culture, history, and religion that have been expressed through the Hebrew language from antiquity until today. Some instruction takes place in Hebrew from the beginning level. Students interested in learning the basic lexicon and grammatical structures of biblical Hebrew can enroll in Hebrew 80. Hebrew 1, Hebrew 2, and Hebrew 3 (or equivalency) are required for the major in Jewish studies, and other Hebrew courses are encouraged. In addition, credits from modern or biblical Hebrew courses may be counted toward the minor in Jewish studies.

Campus Language Laboratories and Placement Exams

Lower-Division Courses

1. First-Year Hebrew.

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. The first-year sequence (1–2–3) begins in fall quarter only. (Formerly Instruction in the Hebrew Language.) The Staff

1A. Intensive Elementary Hebrew. F

Accelerated course covers Hebrew 1 and part of Hebrew 2. Designed for motivated beginning students. Students develop skills in speaking, reading, writing, and listening to real-life Hebrew. The Staff

1B. Intensive Elementary Hebrew. W

Accelerated course covers Hebrew 2 and all of Hebrew 3. In this course, students who have successfully completed course 1A (or its equivalent) continue to develop competence in speaking, reading, writing, and listening to real-life Hebrew. Prerequisite(s): course 1A, or course 2, or by consent of instructor, or placement by examination. The Staff

2. First-Year Hebrew.

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. (Formerly Instruction in the Hebrew Language.) Prerequisite(s): course 1 or by consent of instructor. The Staff

3. First-Year Hebrew.

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. (Formerly Instruction in the Hebrew Language.) Prerequisite(s): course 2 or by consent of instructor. The Staff

4. Second-Year Hebrew.

Development of the students' familiarity with the spoken and written language through grammar review, discussions, and vocabulary building. Varied readings on literary and cultural topics related to modern Israel. (Formerly Intermediate Hebrew.) Prerequisite(s):

- Computer Engineering
- Computer Science
- Cowell College
- Crown College
- Digital Arts and New Media
- Earth Sciences
- Environmental Studies
- Economics
- Education
- Electrical Engineering
- Film and Digital Media

course 3 or by consent of instructor. (General Education Code(s): IH.) The Staff

5. Second–Year Hebrew.
Development of the students' familiarity with the spoken and written language through grammar review, discussions, and vocabulary building. Varied readings on literary and cultural topics related to modern Israel. (Formerly Intermediate Hebrew.) Prerequisite(s): course 4 or by consent of instructor. (General Education Code(s): IH.) The Staff

80. Introduction to Biblical Hebrew. W
Introduces students to the basic lexicon and grammatical structures of biblical Hebrew, with an emphasis on the development of a set of useful translation strategies. Throughout the course, students will be applying their emergent skills to translating a variety of biblical texts. (General Education Code(s): T4–Humanities and Arts.) The Staff

94. Group Tutorial. F,W,S
Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

106. Israel's Struggle for Identity as Seen Through Israeli Cinema. *
Examines, through the medium of film, Israel's struggle for identity since its founding as a modern state. Taught in English with a weekly discussion section in Hebrew. Readings in English and Hebrew; writing, film analysis, cultural commentary, and other assignments in Hebrew. Students may not receive credit for this course and Languages 80F.
Prerequisite(s): course 5 (or equivalent). May be repeated for credit. (General Education Code(s): ER, E.) T. Rossman–Benjamin

194. Group Tutorial. F,W,S
Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. Enrollment limited to 10. May be repeated for credit. The Staff

199. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

History

[2012–13 General Catalog](#)[201 Humanities](#)[\(831\) 459–2982](#)<http://history.ucsc.edu/>[Faculty](#) | [Course Descriptions](#)

Program Description

History is the attempt to understand the meanings of the human lifeexperience, not generally and abstractly, but in terms of specific individuals,events, and circumstances. Consequently, of all academic pursuits, it is the one best equipped to help us locate phenomena in their specific contexts, whether we are concerned with political events, social changes, the production of art, the development of technologies, scientific discoveries, or lifestories. In this sense, the study of history can also be an invaluable complement to any other major.

The history program at UCSC is designed to bring about an understanding of the ideas, experiences, and events that have shaped this country and the world at large. The program's main emphases are in social and cultural history, with additional strengths in intellectual and political history.

A degree in history opens up a wide range of career possibilities. Some careers fall within the historical profession, including teaching at the university, college, and high school levels and working in various areas of public and applied history, such as historic preservation, archives, libraries,and museums. For careers in fields as diverse as law, business, government, foreign service, publishing, journalism, and communications, a degree in history lays the foundation in research, analytic, and writing skills upon which later professional training can be built.

Requirements for the Major

A minimum of 12 courses is required for the major. No more than four of the minimum 12 courses may be lower division. A minimum of 40 upper–division units must be completed within the history major course requirements. The history major does not require an examination for entrance and does not limit the number of students accepted into the program. It is strongly advised that students complete at least one introductory history course before declaring the major.

At UCSC, the history curriculum offers three broad, geographically defined regions of concentration:

- the Americas and Africa
- Asia and the Islamic World

- Cowell College
- Crown College
- Digital Arts and New Media
- Earth and Planetary Sciences
- East Asian Studies
- Economics
- Education
- Electrical Engineering
- School of Engineering
- Environmental Studies

- Religious Studies
- Russian
- Science Communication

■ Europe

Each history major selects one of the three regions of concentration listed above as their area of emphasis. In consultation with the history undergraduate program coordinator, the student plans a program of study that will also fulfill the following distribution of courses:

Course requirements

Region of Concentration (5 courses, plus 1 comprehensive requirement)

I. At least one lower-division survey course within their chosen region of concentration.

- Americas/Africa: History 10A, 10B, 11A, 11B, or 30
- Asia/Islamic World: History 40A, 40B, 41, or 43
- Europe: History 65A, 70A, or 70B

Transfer course work may or may not apply toward the survey course requirement; consult the history undergraduate program coordinator.

II. Four additional courses in the region of concentration, three of which must be upper-division

III. One comprehensive (exit) requirement: All students must complete either a research/readings seminar (HIS 190, 194, or 196), or a senior thesis (HIS 195A and 195B) in their area of concentration. Detailed information on the comprehensive exit requirement can be found below.

Breadth Requirements (4 courses)

IV. Two courses from each of the remaining two regions of concentration.

Electives (2 courses)

V. Two upper-division history electives from any of the three regions of concentration.

Students often choose to satisfy the history major course requirements listed above according to some general theme of special interest to them. Faculty and staff advisers will assist the students who choose this option with their course selection.

Distribution requirements. Among the 12 courses required for the major, at least three must meet chronological distribution requirements. One must be set before 600 A.D., and two must be set in periods prior to the year 1800 A.D.

Interdisciplinary course work. The History Department encourages its majors to take upper-division courses in disciplines related to history, including sociology, literature, community studies, American studies, politics, Latin American and Latino studies, and others. Students who wish to substitute one or two such appropriate upper-division courses for history electives must obtain approval from the History Department. These courses are subject to the limitations described below under the "Transfer credits and substitutions" section.

Comprehensive requirement. A comprehensive exit requirement in the student's chosen region of concentration can be fulfilled by completing an exit seminar (one quarter: 190-series, 194-series, or 196-series) or a thesis (two quarters: courses 195A and 195B). Please consult the department web site for a more detailed description of these courses.

Disciplinary Communication (DC) requirement. Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. History students fulfill the upper-division Disciplinary Communication (DC) Requirement by completing a comprehensive exit requirement in their chosen region of concentration. Students may complete an exit seminar (one quarter: 190 series, 194 series, or 196 series) or a thesis (two quarters: courses 195A and 195B). Please consult the department web site for a more detailed description of these courses and refer to updated DC information at [Disciplinary Communication Chart](#).

In addition to all course work, history majors must complete a senior check and exit survey in the first quarter of their senior year. Students who do not submit their senior

check for review may have their graduation date delayed. Please consult the department web site for a more detailed description.

Honors in the history major. Honors are awarded to the top 10–15 percent of graduating students per quarter; highest honors may be granted to approximately the top 5 percent. Honors are determined by the Undergraduate Education Committee in consultation with the History Department faculty. The department considers each student's GPA in the history major, supplemented when appropriate by an assessment of work in the senior capstone course or honors thesis preparation. The history major GPA is calculated based upon all history courses attempted at UCSC; grades from courses taken outside of the department will not be calculated into a student's history major GPA, even in cases when the student is allowed to use said courses toward their history major degree requirements. Summer, fall, and winter graduates will be reviewed at the end of each of their respective quarters. Spring graduates will be reviewed using their earned history major GPAs as of the spring announcement of candidacy deadline.

Language recommendation. Proficiency in a foreign language is strongly recommended for all history students and is essential for those who plan to pursue graduate studies in history. Many Ph.D. programs in history require applicants to read one or two languages besides English. The University of California Education Abroad Program (EAP) is appropriate for history majors as a means to both enhance language skills and take history courses elsewhere.

UC Education Abroad Program. Subject to the limitations described below under "Transfer credits and substitutions," up to three courses in history completed through EAP may be applied toward major requirements. Consult the History Department web site, and speak with the undergraduate program coordinator for further details.

Transfer credits and substitutions. A minimum of five regularly scheduled history courses plus the comprehensive requirement must be taken from members of the UCSC history faculty. Subject to the limits indicated in parentheses, courses from the following categories may also be applied to the history major:

Transfer courses taken at another institution (limit of 3)

Education Abroad Program (limit of 3)

UCDC (limit of 2)

UC in Sacramento (limit of 2)

Related upper-division courses taken in another UCSC department (limit of 2)

Independent and field studies (limit of 2)

Requirements for the Minor

Students whose major area of interest is not history may nonetheless find that a minor in history makes an invaluable contribution to their studies. For the minor in history, eight history courses, five of which must be upper division, are required. There is no senior comprehensive requirement for the minor.

Graduate Program

The Ph.D. program in history at UCSC emphasizes an interdisciplinary and cross-cultural approach to historical studies. The History Department offers a rigorous program of instruction and independent work that trains students in the techniques of original historical research and equips them to teach university-level courses in history. The department only admits those highly motivated students who are most qualified to pursue advanced studies in history. The department also only admits those applicants who can best benefit from the specific strengths of our faculty.

Just as the work of most professional historians centers around research and teaching, training in these areas constitutes the two essential poles of the graduate program in history.

Research and Teaching

In preparing graduate students for research and teaching at the university level, the department offers training in four geographically and chronologically defined fields: U.S. history, European history since 1500, East Asian history since 1600, and world history since 1500. U.S., European, and East Asian history are defined as primary teaching fields; each graduate student is required to choose one. Students of U.S. history may incorporate Latin American history in their coursework, while students of European history might include the history of European colonialism and imperialism. Every year the faculty in each field offer introductory readings seminars and, when possible, classes on more specific topics (see below for information about course offerings). Each graduate student also prepares a second teaching field different from the primary field and can choose from among U.S., European, East Asian, or world history. Students may also petition the graduate committee to prepare a secondary teaching field in African or Latin American history.

Research Centers and Clusters

The History Department has created a series of thematic research clusters to coordinate the training of graduate students in historical research. Each research cluster is composed of History Department faculty and graduate students as well as faculty outside the department who share broad scholarly interests. The clusters serve as a way to coordinate the research of faculty and graduate students whose work encompasses different geographic regions and chronological periods. Although the nature and number of the research clusters may change over time, the department currently offers two basic groupings: 1) colonialism, nationalism, and race; and 2) gender and history. These clusters are complemented by scholarly activities sponsored by various UCSC Centers. Centers that are currently directed by UCSC History faculty are: the Center for Jewish Studies, the Center for Labor Studies, the Center for Mediterranean Studies, and the Center for the Study of Pacific War Memories. For information on current research clusters, please visit the Institute for Humanities Research web site, ihr.ucsc.edu.

The faculty of each cluster provide at least one research seminar every other year in addition to readings courses. All the affiliated graduate students must take at least one research seminar during their first two years; they are encouraged to take more than one. Faculty and graduate students also participate in interdisciplinary forums outside the department.

These include programs sponsored by the Chicano/Latino Research Center, the Center for Cultural Studies, and the UCSC Institute for Humanities Research. Advanced graduate students may also have the opportunity to work in programs sponsored by the University of California Humanities Research Institute at UC Irvine. Finally, multi-campus groups in which students and faculty are involved include the Bay Area Seminar in Early American Studies, and the French Studies Group at Stanford.

Courses

Until they pass the qualifying examination and are formally advanced to candidacy for the Ph.D. degree, students must be in residence at UCSC and are expected to complete a minimum of 12 credits each quarter to maintain normal academic progress. Completion of a minimum of 12 courses of 5 credits each (in addition to History 280A, 280B, and 280C) is required for advancement to candidacy. Courses taken are graduate seminars, independent study courses, and most upper-division undergraduate courses.

Students are required to take the following before advancing to candidacy:

- History 200 (year 1, fall quarter); History 201 (year 2, winter quarter); History 280A (year 1, fall quarter) 280B (year 1 or 2), 280C (year 1 or 2);
- one research seminar during the first four quarters: History 204A, 204B, or 204C;
- second teaching field: two courses in American, European, East Asian or world history;
- outside courses: two quarters of graduate coursework outside the History Department;
- readings courses in the appropriate field: East Asia—History 230A, 230B, 230C (China) or History 242, 243, 244 (Japan); Europe—History 250A, 250B; U.S.—History 210A, 210B.

Graduate students in East Asian history specialize in either modern Chinese or modern Japanese history, but all students in the East Asian program will be prepared to teach both. The core curriculum for East Asian history consists of three China reading seminars (courses 230A, 230B, 230C) and three Japan reading seminars (courses 242, 243, 244) taught in sequence over three years, covering such topics as foundational historiographies, gender, social movements, and transnational circulation of people, commodities, and ideas. Over the course of the three years to the qualifying examination, China students will be expected to take all three China seminars and at least two of the three Japan seminars. Japan students will be expected to take all three Japan seminars and at least two of the three China seminars. Additional coursework in research methods as well as occasional independent studies will also be available, and students are encouraged to take classes that have a wide range of faculty in other departments across the campus.

Foreign Language Requirement

No prior foreign language preparation is required for admission with a primary teaching field in U.S. history. Two to three years of college work, or its equivalent, in at least one foreign language is required for admission to the European program. Students who choose East Asian history as their primary teaching field will be required to have completed at least three years of college-level Chinese or Japanese prior to admission; more years are recommended. Depending upon the student's intended field of research, Japanese language study may also be required of China specialists as part of the graduate program of study.

Students with a primary teaching field in U.S. history are expected to demonstrate a reading competency in at least one foreign language prior to taking the Ph.D. qualifying examination. Students in all other teaching fields must demonstrate a reading competency in at least two foreign languages prior to taking the Ph.D. qualifying examination; competency in one of the languages must be demonstrated by the end of the sixth quarter of enrollment. Usually, competency will be demonstrated by passing a reading examination administered by a member of the history faculty. Students who believe that they have already demonstrated competency through previous coursework or through their performance on a standardized test should petition the graduate director.

M.A. Degree

The master of arts (M.A.) degree is awarded to all Ph.D. students after two years in residence, successful completion of 12 courses of 5 credits each, demonstrated competency in one foreign language (for those in primary teaching fields other than U.S. history), removal of all Incomplete notations (I) on record, and approval of a substantial essay of 25–30 pages.

The M.A. Essay

Students are required to produce a substantial research essay grounded in original research in primary historical documents. A successful essay will reflect a general understanding of the field of inquiry along with a critical grasp of the scholarship that currently defines the field; deep knowledge of the specific subject under investigation; the application of appropriate analytical models; and a well-supported interpretation of the materials explored. This essay could (but need not) be a segment of a larger project; but it must be a complete, self-contained essay in and of itself.

Students enroll in course 201, Directed Research Colloquium, the winter quarter of their second year. While taking course 201, students work intensively with a faculty reader in the preparation, crafting, and revising of the essay. The final draft, approved by the reader, must be submitted to the graduate committee by the spring quarter deadline (usually mid-April). The deadline will be noted in the department's call for M.A. essays.

Qualifying Examination

The qualifying examination (QE) emphasizes field mastery, integration of material from different fields, and focused preparation for dissertation research. The QE is a three-hour meeting during which a student presents and discusses a dossier that has been submitted to the student's committee at least three weeks in advance. The examination is normally taken by the spring quarter of the third year, but no later than the end of the 10th quarter of residency. Prior to taking the QE, all incomplete notations (I) must be cleared from the

student's record. Additionally, the student must be registered the quarter the examination is taken.

The four examination fields are designed in consultation with the student's QE committee members. Students prepare for the examination through regularly offered courses and independent readings courses sponsored by the examiners. Students are required to take at least two courses in each of the four fields. The fields are as follows:

- Primary Field of Concentration. One of three fields: American history; European history 1500 to the present; East Asian history 1600 to the present.
- Research Field. Normally a subfield of the primary field with a focus on the student's specific area of research interests. This field is most closely connected to the student's work in a specific research cluster.
- Second Teaching Field. Chosen from the above list of primary fields, with the addition of world history, or, where appropriate, a comparative, thematic field such as gender, colonialism, etc. Students may petition to be examined in Latin American or African history.
- Outside Field. One field outside history, such as American studies, anthropology, literature, feminist studies, politics, sociology, or history of consciousness. Students select a field of topical, thematic, or methodological relevance to their dissertation. The student's faculty adviser must approve the outside field.

The four examination fields must be defined and preliminary reading lists (see below) filed with the department no later than the student's eighth quarter of residency.

A pass or fail will be given after the examination based on the student's knowledge and research preparation as demonstrated by his or her dossier. All areas must receive passing marks from all members of the committee. Immediately following the exam, the QE committee will complete and submit to the History Department the Report on Qualifying Examination form. If a student does not pass the QE the first time, they may retake only those sections not passed. No one will be permitted to take the QE more than twice.

Qualifying Examination Dossier Requirements

The QE dossier includes four parts, each of which should be prepared in consultation with the student's primary academic adviser and with the advice of the examiners. The examination will focus upon the dossier. All examiners, including the examiner from outside the department, will participate in all segments of the examination.

The dossier includes:

1. An essay (20-page limit) reviewing the state of the scholarship in the student's primary field of concentration. This essay should reflect the student's general, broad competence in his or her field as well as a mastery of the theoretical issues and historiographic debates in four to five areas that represent their primary area of expertise. The essay may reflect the thematic focus of a research cluster as well as work completed in an outside field (literature, anthropology, etc.).
2. One syllabus or, at most, two syllabi (the number to be decided in discussion with the student's primary adviser) that demonstrates the student's preparation to teach across the breadth of their primary field at the introductory level. The syllabus should be annotated to show how each class session would be prepared: principal sources for lectures, principal questions for discussion, reasons for assigning particular readings, etc.
3. A syllabus (annotated in the same fashion as described in section number 2 above) in the student's second teaching field, accompanied by a brief (three- to five-page) statement of principal issues. The exact content of these items will be decided in consultation with the examiner in the secondary teaching field.
4. A 10- to 15-page dissertation prospectus that includes an evaluative survey of the literature relevant to the student's proposed research topic, a detailed discussion of the archival resources, and a consideration of the theoretical issues to be engaged. The prospectus lays out, in reasonable detail, the direction of research the student intends to pursue for the dissertation. The prospectus includes the following information:

- three- to four-page description of the overall argument of the project, including a discussion of the research base and the appropriate methodological/theoretic models;
- a detailed discussion of the archival resources;
- two- to three-page outline, tracking the research and analysis chapter by chapter;
- substantive bibliography with complete citations.

Note:

- Although no specific segment of the dossier focuses upon the coursework completed outside the History Department, it is expected that this work will be incorporated into different sections of the portfolio, particularly the research prospectus.
- Complete bibliographies must be appended to each piece of the QE dossier.

Dissertation

The dissertation represents an extensive, book-length project grounded in research in original historical documents. A successful dissertation will reflect a broad and deep understanding of the field of inquiry, a mastery of the scholarship that currently defines the field, detailed knowledge of the subject of study growing out of dedicated research, and the incorporation (and explicit rejection of) appropriate interpretive models.

M.A. in History (Terminal)

The Department of History offers an M.A. degree in history for those individuals who are interested in postgraduate work, but who are not planning to complete a Ph.D. It is a degree program that can fulfill in-service education requirements for current teachers as well as for future teachers earning a single-subject credential in social studies. Part-time enrollment is allowed.

Each student will be required to choose one of four areas of specialization (U.S., Europe, East Asia, world) and select one of two topical research areas—colonialism, nationalism, and race, or gender and history. To complete the degree, each student must pass a total of 12 courses of 5 credits each and six courses of 2 credits each including courses 280A, 280B, and 280C. Students must also write an M.A. paper of 25–30 pages. For students specializing in Europe, U.S., and East Asia, the curriculum will be nearly identical to that taken by Ph.D. students in their first two years, except that there will be no language requirement. Those specializing in world history will take History 204A and 204C (or other seminars approved by the department) instead of the corresponding courses in other fields (courses 250A, 250B, and so on), but otherwise their curriculum will be the same as that of a typical incoming Ph.D. student.

Course Requirements

- History 200 (year 1, fall quarter); History 201 (year 2, winter quarter)
- one research seminar during the first four quarters: History 204A, 204B, or 204C
- six courses of 2 credits each including History 280 (year 1), 280B (year 1 or 2), 280C (year 1 or 2)
- seven electives of 5 credits each, two of which must be taken outside the History Department. Courses taken are graduate seminars, most upper-division undergraduate courses, and independent study courses.
- two reading seminars in the area of specialization:

U.S.: History 210A, 210B

Europe: History 250A, 250B

World: History 204A, 204C or other seminars approved by the department

East Asia: History 230A, 230B; 230C, 242

The History Department does not normally provide financial support to students pursuing the M.A. degree; however, students may apply for available teaching assistantships. Admission to the M.A. program does not constitute admission to the Ph.D. program. Students must reapply for the Ph.D. program.

Further details about the graduate program are available from the Department of History web site: <http://history.ucsc.edu>.

Lower-Division Courses

1. Theories of History/Theories of Society. *

European social thought understands society to be the product of the historical process. Readings from early-modern natural law thinkers (Hobbes, Lock, Rousseau), 19th-century theorists of the democratic and industrial revolutions (Tocqueville, Marx), and 20th-century social scientists (Weber, Braudel), explore the nature of this fertile connection. (General Education Code(s): TA, IH.) M. Traugott

2A. The World to 1500. *

Surveys the rise of complex societies: the formation of classical civilizations in Afroeurasia and the Americas, post-classical empires and cross-cultural exchange, technology and environmental change, the Mongol Empire, and oceanic voyages and the origins of the modern world. (General Education Code(s): CC, IH.) B. Catlos

2B. The World Since 1500. *

Examines major world issues over the past 500 years. Topics include European expansion and colonialism, the Muslim empires, East Asia from Ming to Qing, the Americas, Africa, the scientific-technological revolution, decolonization, and modern environmental problems. Designed primarily for first- and second-year students, it provides a time frame for understanding events within a global framework. (General Education Code(s): CC, IH.) G. O'Malley

5A. Early Muslim World. *

Surveys the history of the Muslim world from its beginnings through the Caliphal period. Islam is approached as a religious, social, political, and cultural phenomenon. Special emphasis on understanding Islam in the context of contemporary developments in the Near East, Europe, Africa, and Central Asia. (General Education Code(s): CC, IH, E.) B. Catlos

5B. Early Christianity: First to Fourth Century A.D.. *

Christianity from its origins as a Jewish messianic movement, its expansion in multiple forms in the Greco-Roman world and the East, to its transformation into the major religion of the Roman and Byzantine empires. (General Education Code(s): CC, IH.) G. Hamel

7. Archives and Public History. *

Through readings on local history topics and bi-weekly field expeditions, students discover different types of archives and historical repositories, the diversity of sources that

they contain, and the varied uses to which they can be put. Course also explores the range of career opportunities open to history majors (sometimes loosely grouped together under the rubric "public history"). Students are billed a materials fee. Enrollment limited to 35. M. Traugott

10A. United States History to 1877. *

Focuses on the building of British American colonies and the establishment, disintegration, and reconstruction of the nation with an emphasis on how class, race, ethnicity, and gender impacted colonial development and structured the nation's agenda and the definition of citizenship. Satisfies American History and Institutions Requirement. (General Education Code(s): ER, IH.) M. Westerkamp

10B. United States History, 1877 to 1977. S

Surveys the political, social, and cultural history of the United States from 1877 to 1977. Focuses on national politics with emphasis on how class, race, ethnicity, and gender changed the nation's agenda. Satisfies American History and Institutions Requirement. (General Education Code(s): ER, IH.) M. Lasar

11A. Latin America: Colonial Period. F

Introduces the social, cultural, economic, and political history of the New World through a close examination of the process of European "conquest" in the 16th century and its consequences for both native and settler peoples. Medieval and Renaissance European and African backgrounds; Inca, Maya, Aztec, plains, woodland, and tropical rainforest native American societies; processes of military and cultural conquest; epidemics and ecological changes; native resistance and the establishment of the fundamental institutions of colonial society. (General Education Code(s): CC, IH, E.) M. Diaz

11B. Latin America: National Period. *

An introduction to the study of Latin American history from the Independence Wars in the early 19th century to the present. Topics include changing economic models of development, U.S. role, rural and urban life, women, nationalisms, populism, revolution, the military in politics, and the problem of democracy. (General Education Code(s): CC, IH, E.) M. O'Hara

13. Introduction to American Religious Culture. *

Introduction to the many communities found within the American religious landscape, balancing extraordinary diversity characterizing American pluralism against the dominant religious culture. Proceeds historically, engaging major problems and developments including utopianism, the rise of evangelicalism, religion and reform, manifest destiny, secularization and modernity, and the intersection of politics and religion. (General Education Code(s): TA, IH.) M. Westerkamp

14. Race and Ethnicity in the U.S. *

An introductory course on the racial/ethnic history of the U.S. Of central concern are issues of race, ethnicity, oppression, resistance, mass migrations, city life in urban America, and power and protest in modern America. Priority enrollment to freshmen and sophomores. (General Education Code(s): ER, IH, E.) P. Castillo

20. Introduction to World Prehistory. W

Introduces the prehistory of humankind from the development of agriculture to social stratification and states. Emphasis is on the origins of civilization in ancient China, Egypt, Mesoamerica, Mesopotamia, and South America, as well as on the processes driving change. (General Education Code(s): CC.) The Staff

30. The Making of Modern Africa. W

Examines the loss and reassumption of local and state autonomy in Africa during the 19th and 20th centuries. Delineates the modalities of the colonial state and society, modes of resistance to alien occupation, and the deformation of social, class, and gender relations. (General Education Code(s): CC, IH, E.) D. Anthony

40A. Early Modern East Asia. F

Surveys the history of East Asia from 1500 to 1894. Covers political, social, economic, and

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>cultural histories of China, Japan, and Korea with the goal of perceiving a regional history that encompassed each society. (General Education Code(s): CC, IH, E.) M. Hu</p>
	<p>40B. The Making of Modern East Asia. W</p> <p>A broad introductory survey of the political, social, economic, philosophical, and religious heritage of modern China, Japan, and Korea. Emphasis on the historical foundations of modern nationalism, the colonial experience, and revolutionary movements. (Formerly course 40.) (General Education Code(s): CC, IH, E.) A. Christy</p>
	<p>41. The Making of the Modern Middle East. *</p> <p>History of the modern Middle East from 1800 to the present, with special reference to the 20th century and forces which have shaped the area. The impact of imperialism, nationalism, and revolution in the area, with particular attention to the history of four countries: Turkey, Iran, Egypt, Israel. (General Education Code(s): CC, IH, E.) E. Burke</p>
	<p>42. Student-Directed Seminar. F,W,S</p> <p>Seminars taught by upper-division students under faculty supervision. (See course 192.) The Staff</p>
	<p>43. Traditional India. W</p> <p>A survey of the early histories of Indus Valley, Vedism, the epics, Buddhism, Jainism, with an exploration among original sources: archaeological, visual, ritual, literary, and epic texts. Thematic focus on communities, social systems, elite and popular cultures, and their mutual interaction. (Formerly Histories of Traditional India) (General Education Code(s): CC, IH, E.) D. Basu</p>
	<p>45. Japanese Pop Culture. *</p> <p>Introduction to Japanese popular culture from the Tokugawa era to the present. Pursues the role of mass media on Japanese society through analyses of popular movies, animation, comic books, music, and other artifacts in historical context. (General Education Code(s): CC, E.) N. Aso</p>
	<p>61. Classical Mythology. S</p> <p>Introduces the philosophy of myth, and surveys classical Greek mythology. Students explore the mythic mode of thinking and its distinguishing characteristics as well as the repertoire of Greek myths and their cultural contexts. C. Hedrick</p>
	<p>62A. Classical World: Greece. F</p> <p>An overview of Greek history from the beginnings through the Hellenistic period, with emphasis on the Archaic and Classical periods (ca. 800 B.C. through 323 B.C.). (General Education Code(s): CC, IH.) C. Hedrick</p>
	<p>62B. Classical World: Rome. *</p> <p>A lecture course offering an overview of Roman history and civilization from the legendary founding of Rome in 753 B.C. to the collapse of the Roman Empire's central administration in the West in 476 A.D. (General Education Code(s): CC, IH.) The Staff</p>
	<p>63. Women in the Ancient World. *</p> <p>Examines the lives of women in the ancient Greco-Roman world. Most readings are from primary texts (i.e., ancient sources), literary, historical, and documentary; material and artistic evidence also is considered. (General Education Code(s): CC.) J. Lynn</p>
	<p>65A. Medieval Europe: 200-1000. S</p> <p>A survey of Europe from the third through 10th centuries. Emphasizes cultural conflict and assimilation (Roman and Germanic, pagan and Christian, East and West). Topics include the rise of Christianity, Germanic migrations, Byzantium and Islam, the cult of saints and relics, Vikings, and gender roles. (General Education Code(s): CC, IH.) C. Polecritti</p>
	<p>70A. Modern European History, 1500-1815. F</p> <p>Surveys the economic, social, cultural, and political history of Europe since the late 15th century: 1500-1815. Course 70A is not a prerequisite to course 70B. (Formerly Modern European History, 1500-1789.) (General Education Code(s): CC, IH.) M. Cioc</p>

Teaching and Administrative Staff

Archive of General Catalogs

Nondiscrimination Statement

70B. Modern European History, 1815–present. S

Surveys the political, social, and cultural history of Europe from the era of the Industrial Revolution to the beginning of the second millennium. Course 70A is not prerequisite to 70B. (Formerly Modern European History, 1789–1914.) (General Education Code(s): CC, IH.) M. Cioc

74. Introduction to Jewish History and Cultures. *

Surveys 3,000 years of Jewish history. Themes include origins of the Jews in the ancient world, formation and persistence of the Jewish diaspora, coherence and diversity of Jewish experience, Jewish narrative and textual traditions, interaction between Jews and other cultures, productive tensions between tradition and modernity in Jewish history and literature. (General Education Code(s): ER.) B. Thompson

75. Film and the Holocaust. S

Examines a series of distinguished documentary and feature films about the destruction of European Jewry. Each film is placed in its historical context, and wherever possible, the readings include the original documents on which films were based. Emphasis is placed on the strategies the filmmakers used to address the problem of representing genocide without succumbing to mere melodrama. (General Education Code(s): ER, E.) B. Thompson

80H. Class, Gender, and Community in China, 1700–Present. *

Examines gender, sexuality, and family across classes in late imperial China, and the transformation of all three by revolution (and vice versa). Concentrates throughout on gender as a category of historical analysis that has remained largely invisible in the construction of conventional Chinese history. (General Education Code(s): CC, T4–Humanities and Arts, E.) G. Hershatter

80N. Gender, Labor, and Feminist Productions. *

Examines how constructions of gender and intersecting constructions of race, class, and sexuality define the power of women differentially in the world of work. Beginning with the history of emancipation, traces the broader constructions of paid and unpaid labor in the 20th-century U.S. Traces the specific histories of transgender women workers, specific regional and industrial histories, and those marked by the meaning given to African, Asian, Euro-, indigenous, and Mexican descent in the construction of gender and work. Uses feminist methodology and contemporaneous visual and written work by women artists and filmmakers. (Formerly "Topics in U.S. Women's History: Women at Work.") (General Education Code(s): CC, T4–Humanities and Arts.) L. Haas

80W. The Holocaust: The Destruction of European Jewry. W

Focus is on the destruction of the Jews of Europe by Nazi Germany. Issues are historically grounded, and include works of literature, social sciences, philosophy, and film. (Also offered as Literature 80L. Students cannot receive credit for both courses.) (General Education Code(s): ER, T4–Humanities and Arts, E.) N. Deutsch, M. Baumgarten

80X. Civil Rights Movement: Grassroots Change and American Society. F

The civil rights movement of the 1950s–60s was one of the most important grassroots social movements in American history. Course examines this movement and its effects on American society, focusing especially on the experiences of rank-and-file participants. (Formerly Community Studies 80B) (General Education Code(s): ER, T3–Social Sciences, E.) D. Brundage

80Y. World War II Memories in the U.S. and Japan. S

Examines how the meaning of such issues as war origins, war responsibility, the atomic bomb, reparations, and racism have been subjects of contention in postwar U.S. and Japan. Students explore the relations between history, memory, and contemporary politics. (General Education Code(s): CC, T4–Humanities and Arts, E.) A. Christy, A. Yang–Murray

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

100. Historical Skills and Methods. *

Designed to train students in the fundamental skills required for advanced historical research. Students read historical theory and learn the basics of historical analysis, research, and disciplinary writing. Recommended to majors but open to all interested students. (General Education Code(s): TA.) M. O'Hara

101A. The Making of the Modern World, 1400–1750. *

Focuses on the transformation of many different societies of Asia, Africa, and the Americas from 1400 to 1750 through case histories and the comparative study of European colonial hegemony, labor systems, global economic exchange, missions, and warfare. (General Education Code(s): CC, E.) E. Burke

101B. The Making of the Modern World, 1750–1950. *

The history of the world from 1750. Focuses on the liberal project (the industrial and democratic revolutions) and its impact on the world—slavery and abolition, self-strengthening movements, race and class, imperialism, colonialism, and nationalism. (General Education Code(s): CC, E.) E. Burke

101C. Oceans in World History. F

Oceans, human communities, and the variety of relations between societies have been linked closely in world history. This course focuses on the three most well-researched and, historically, most important oceanic worlds—those that developed to link the regions bordering the Mediterranean Sea, Indian Ocean, and Atlantic Ocean. (General Education Code(s): CC.) The Staff

102A. The Crusades, 1000–1300. *

Examines history of Middle East and Latin Europe from 1000–1300, in particular, Latin Crusade and colonization and Muslim response. Format is chronological; topics such as acculturation, Holy War, and ethnicity examined through lectures and writing. (General Education Code(s): CC.) B. Catlos

102C. The Mediterranean in the Modern Era, 1730–1930. S

The cultural transformation of the Mediterranean region in comparative historical perspective from the rise of the Hapsburg and Ottoman empires to modern times. Topics include orientalism, political and economic transformations, social movements, cultural change, gender, colonialism, and imperialism. (General Education Code(s): CC.) E. Burke

103. Medieval Spain, 600–1500. *

History of the Iberian Peninsula and Northwest Africa from the Visigoths through the reign of the Catholic Monarchs. Political and economic history form the basis, with special attention paid to religious and social history, particularly the interrelation between the peninsula's ethno-confessional groups. Prerequisite(s): one history course; course 65A and/or course 65B recommended. (General Education Code(s): CC.) B. Catlos

104C. Celluloid Natives: American Indian History on Film. *

Examines how American Indian history and culture has been portrayed in Hollywood films, with an emphasis on films that represent Native Americans over the broad spectrum of Native American/white relations. (Formerly American Studies 123M.) (General Education Code(s): IM, E.) A. Lonetree

104D. Museums and the Representation of Native American History, Memory, and Culture. S

Provides an historical overview of the relationship between American Indians and museums. Current issues and practices in museums are explored, primarily those associated with ethics, collecting practices, exhibitions, education/interpretation, and administration/governance. (Formerly American Studies 136.) (General Education Code(s): ER, E.) A. Lonetree

105. Nations and Nationalism. S

Provides an historical, comparative, and theoretical exploration of the development of nations and nationalism. Emphases include the historical formation of nation-states, modernization, colonialism, decolonization, nations and globalization, and the

intersections between ethnicity, race, religions, and nationalism. (General Education Code(s): CC.) K. Silver

106A. Vietnam War Memories. *

Compares memories and interpretations of war in Southeast Asia by diverse groups in France, America, and Vietnam. Topics include war origins, military strategies, propaganda, combat, civilians, media, activism, MIAs, refugees, mixed race children, memorials, textbooks, films, music, literature, and art. (General Education Code(s): CC, E.) A. Yang-Murray

106B. Asian and Asian American History, 1941–Present. *

Analyzes immigration, race relations, war, gender ideology, family life, acculturation, political activism, interracial marriage, multiracial identity, and cultural representations between 1941 and the present. Emphasis on discussion, writing, research, and group presentations. (General Education Code(s): ER, E.) The Staff

107. Religion and Modernity. *

Explores the impact of modernity on a variety of religious traditions. Examines the rise of secularism and the phenomenon of disenchantment; the "invention" of religion; and the emergence of fundamentalism in the modern period. (General Education Code(s): CC.) N. Deutsch

108. Social Movements in Historical Perspective. *

Readings examine 18th– through 20th–century social movements and related phenomena in Europe/America: examples include Tulipomania; revolutionary action in France; U.S. Civil Rights movement; and the environmental and feminist movements. Lectures focus on social science frameworks used to explore the social base, tactics, success or failure, and inter-relationships of social movements as a distinctive mode of social change. M. Traugott

109A. Race, Gender, and Power in the Antebellum South. S

Examines how ideologies of race and gender shaped the development of slavery and empire in the American South from European colonization to the eve of the American Civil War. (General Education Code(s): ER, E.) C. Jones

110A. Colonial America, 1500–1750. *

Explores the social, economic, cultural, and political development of British North America from the first European/Amerindian contacts in the late 16th century through the establishment of a provincial British colonial society. Course 110A is not a prerequisite to course 110B. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) M. Westerkamp

110B. Revolutionary America, 1740–1815. S

Explores the political, social, economic, and cultural development of British North America from the first stirrings of resistance to the establishment of the U.S. Course 110A is not a prerequisite to course 110B. Satisfies American History and Institutions Requirement. G. O'Malley

110D. The Civil War Era. F

Social, political, and economic history of the American Civil War and Reconstruction, focusing on the war's changing nature and significance, emancipation, and the postwar struggle over the future of the South and the nation. C. Jones

110E. What Is a Nation? The U.S. from 1877 to 1914. F

History of the U.S. during what was perhaps its most socially turbulent era, the period following Reconstruction through the First World War. What did it mean to be a nation in the post-Reconstruction era? How did a country that had only recently unified itself under one system of labor now resolve the question of national identity? Was America truly a nation by 1914? M. Lasar

110F. Crossroads for American Capitalism: The U.S., 1914 to 1945. *

Between the First and Second World Wars, American society accepted the need for a

regulatory state to save capitalism from itself. Takes an in-depth look at many aspects of U.S. politics and culture during these years. M. Lasar

110G. The U.S. After the Second World War. *

From the Good War to the Cold War, the Sixties to the rise of the New Right, the post-1945 American experience has been one of extremes. This survey course looks for evidence of commonality during those times. M. Lasar

111. Popular Conceptions of Race in U.S. History, 1600–Present. *

Explores how race has been constructed and perceived, examining Americans' use of race to describe themselves and to label others. Particularly concerned with ordinary people and how and why their ideas of race have changed over time. (General Education Code(s): ER, E.) G. O'Malley

112. American Feminist Thought, 1750–1950. *

Traces history of feminist thought in the United States from the 18th century Enlightenment to the mid-20th century. Focusing on questions of social identity, gender difference, and legal/political status, examines writings of philosophers, activists, novelists, and ordinary women that challenged religious, political, and scientific beliefs underlying gender inequality. M. Westerkamp

113C. Women and American Religious Culture. *

Historical introduction to religious culture of U.S. as experienced and created by women. Explores religious ideas about women, the treatment of women by mainstream institutions and religio-social communities, and female religious leaders and followers. Takes an explicitly feminist analytical approach and uses a variety of "texts," including historical and literary scholarship, sacred texts, fiction, autobiography, material artifacts, visual art, and music. M. Westerkamp

114. Market Revolution in Antebellum U.S.. *

Examines the cultural, political, and environmental upheaval associated with antebellum market revolution. Topics include: markets and U.S. territorial expansion; reform movements that coalesced around disputes over what should, and should not be sold (e.g., antislavery activism; anti-prostitution reform movements). C. Jones

115A. U.S. Labor History to 1919. *

Explores the history of work, working-class people, and the labor movement in the U.S., with attention to race and gender dynamics as well as to the development of workers' organizations. (Formerly U.S. Labor History, Colonial Period to 1919.) Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) D. Frank

115B. U.S. Labor History, 1919 to the Present. *

Explores the history of work, working-class people, and the labor movement in the U.S. in global perspective with attention to race and gender dynamics and political-economic changes. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) D. Frank

115C. Learning from the U.S. Great Depression. *

Examines U.S. society, politics, and culture during the 1930s, with emphasis on the relationship between social movements and public policy, and dynamics of race, ethnicity, immigration, and gender, and dynamics between labor, business, and the state. D. Frank

117. Wired Nation: Broadcasting & Telecommunications in the US from the Telegraph to the Internet. *

Explores the history of telecommunications systems in the US starting with the telegraph, the telephone, wireless telegraph, radio, television and the Internet. Students learn about the development of these systems and the cultures that they foster. M. Lasar

118. The Global Cold War, 1945–1991. W

Explores the history of the Cold War from a global, multinational perspective. Begins with the opening salvos between the United States and the Soviet Union in 1945, and concludes with the collapse of the latter empire in 1991. M. Lasar

121A. African American History to 1877. F

A survey of pre-contact Africa, indigenous social structures, class relations, the encounter with Europe, forced migration, seasoning, resistance, Africa's gift to America, slavery and its opponents, industrialization, emigration vs. assimilation, stratification, Convention Movement, Black feminism, Civil War, and Reconstruction. (General Education Code(s): ER, E.) D. Anthony

121B. African American History: 1877 to the Present. W

A survey of the period from 1877 to present, highlighting Jim Crow, Militarism, Black feminism, WWI, New Negro, Garveyism, Harlem Renaissance, Black Radicalism, Pan Africanism, Depression, WWII, Desegregation Movement, Black Power, 1960s, Reaganism. Cultural and economic emphases. (General Education Code(s): ER, E.) D. Anthony

123. Immigrants and Immigration in U.S. History. W

Introduces U.S. immigration history from the colonial era to the present, with emphasis on the recent past. Particular attention given to changing immigration patterns; the character of the immigrant experience; and the range of responses to immigration, including nativism. (General Education Code(s): ER.) D. Brundage

124. American Empire. *

Examines U.S. expansion and subsequent ascent to global power. In tracing the presence of the U.S. in different areas of the world during the 20th century, course considers the ideas, politics, gender, and social relations that have influenced imperial aspirations. L. Haas

125. California History. S

California had a multi-ethnic indigenous society for centuries. Course traces the persistent multi-ethnic quality of the region as it became part of the Spanish empire, Mexico, and the United States. Considers the many diasporas that have shaped California's steady connection to the world, especially to Mexico and other nations that border the Pacific. (Formerly California History.) (General Education Code(s): ER.) L. Haas

126. From Indigenous Colonial Borderlands to the U.S.-Mexico Border. *

Examines the interactions and integration of indigenous people and settlers in the Southwest U.S. and Northern Mexico from a region defined by its indigenous colonial borderlands to national borders. Explores the connections between the U.S. and Mexico. Within the deeply cross-cultural region studied, also examines the particular histories of states, indigenous peoples, and Mexican-origin groups and regions. (Formerly History of the Southwest: Colonial Period to 1920.) (General Education Code(s): ER, E.) L. Haas

127. Race and the American City. *

History of racial and ethnic minorities in the American city in the 19th and 20th centuries. Examines the experiences of several non-white groups, with analyses of race, class, culture, gender, acculturation, and implications for social policy in the urban environment. Satisfies American History and Institutions Requirement. (General Education Code(s): ER, E.) P. Castillo

128. Chicana/Chicano History. F

A survey course on the social history of the Mexican (Chicana/o) community and people in the U.S. through the 20th century. Themes include resistance, migration, labor, urbanization, culture and politics. Satisfies American History and Institutions Requirement. (General Education Code(s): ER, E.) P. Castillo

129. History and Public Policy. S

Helps students better understand the various social/economic/political issues of public policy by providing a historical perspective analysis. Each student is required to participate in a public history/public service internship. Satisfies American History and Institutions Requirement. (General Education Code(s): PR-S.) P. Castillo

130. History of Modern Cuba. S

Covers from the Cuban sugar revolution (late 18th century) to the socialist revolution and

its aftermath (1959–present). It is intended to be not only a modern history of Cuba but also a broader history of Latin America through the case of Cuba. (General Education Code(s): E.) M. Diaz

131. Women in Colonial Latin America. W

Introduction to the social history of Latin America through a focus on the inflections of class and ethnicity on gender in this region. First six weeks focuses on the colonial period. The last three weeks covers the 19th and 20th centuries. (Formerly Women in Latin America.) M. Diaz

132. History of the Caribbean: Colonial Period. *

A study of the Caribbean from the conquest to the abolition of slavery in the 19th century. Focus on the Greater Antilles, particularly the Spanish Caribbean. Emphasis on economic and social issues such as colonialism and the role of sugar production, slavery, and race/ethnicity in these multicultural societies. (General Education Code(s): E.) M. Diaz

133. Topics in Colonial Latin American History, Early and Middle Period. *

Studies Pre–18th century colonial Latin America, with particular emphasis on Peru and Mexico. Topics include: strategies of colonization; cities and urban life; and knowledge, technology, and the professions (ethnographic projects, indigenous intellectuals, schools and universities, medicine and hospitals, the law and the courts). (General Education Code(s): E.) M. Diaz

134A. Colonial Mexico. F

Covers the social, cultural, economic, and political history of colonial Mexico (New Spain). Special attention paid to colonial identity formation, religion, and labor systems. Begins by examining indigenous societies prior to the arrival of Europeans and concludes with Mexico's independence movement in the early 19th century. (Formerly History of Mexico, 1500–1850.) (General Education Code(s): ER, E.) M. O'Hara

134B. History of Mexico, 1850 to Present. *

Social, cultural, economic, and political history from the triumph of Liberalism to the present day, focusing on four key periods: the dictatorship of Porfirio Diaz (1900–1910), the armed phase of the Revolution (1910–1920), the consolidation of revolutionary programs and a "single-party democracy" (1920–1940), and the developmentalist counter-revolution since 1940. Provides background for understanding the Mexican diaspora to the U.S. (General Education Code(s): CC, E.) M. O'Hara

137A. Africa to 1800. *

Introduction to history of Africa. Topics include states and "stateless" societies, culture, society and economy in the pre-modern era, stratification, oral traditions, long distance trade, the coming of Islam, and the evolution of the South Atlantic system and its social, political, and other consequences. Some background knowledge of Africa helpful. (General Education Code(s): CC, E.) D. Anthony

137B. Africa from 1800 to the Present. *

How Africa lost its continental, regional, and local autonomy in the era of European imperialism. The components of European hegemony, Christian proselytization, comparative colonial strategies and structures, nationalism, decolonization and independence and the disengagement from neo-colonial patterns and the colonial legacy. Case studies from northern and subsaharan Africa. Some background knowledge of Africa helpful. (General Education Code(s): CC, E.) D. Anthony

137C. African Cinema. *

Historical study of modern African cinematography from the emergence of film as a tool of social control in the imperial and colonial periods to its theoretical and practical transformation by African cineastes in the post-independence era. Films and videos from northern, eastern, western, central/equatorial, and southern Africa viewed. Prerequisite(s): course 30 or 137A or 137B, or by permission of instructor. (General Education Code(s): CC, E.) D. Anthony

140B. History of Qing China, 1644–1911. F

Introduces students to how Qing China arose, expanded, and struggled to enter the modern world. Focuses on what the Qing empire had in common with other agrarian empires across Eurasia, commercialization and communication networks, elite mobility and peasant revolts, political legitimacy of the alien rule, maintaining social order (such as merchants' control and gender segregation), massive population growth and internal migration, as well as its conflicts with the industrial West. (General Education Code(s): CC.) M. Hu

140C. Revolutionary China 1895–1960. W

Explores history of China from the late 19th century to the early years of the People's Republic, focusing on the end of imperial rule, the sources and development of revolution, and early attempts at socialist transformation. (General Education Code(s): CC, E.) E. Honig

140D. Recent Chinese History. S

Explores history of China from establishment of the People's Republic of China to the present, focusing on competing strategies of socialist transformation, urban/rural relations, and the effects of the post-Mao economic reforms. (General Education Code(s): CC, E.) G. Hershatter

142. World History of Science. W

Searches for a common ground in which historians and scientists can communicate with each other from a global perspective, first situating the modern world in a long span of human history to reveal our time as a distinct stage of global development. Science and technology, the focus of this course, play a crucial role in the formation of the modern world. (General Education Code(s): SI.) M. Hu

144A. Modern Korea: History, Literature, and Culture. W

Studies the making of modern Korea through history, literature, and culture. Beginning with the period of Korea's opening, covers topics like Japanese colonialism, national division, the Cold War, North Korea, and South Korean globalization. S. Hwang

144B. Gender in Korea. S

Studies the history of gender relations and women's writings in Korea from the Choson era to contemporary Korea. Topics include new women, women as proletarians, revolutionary womanhood, masculinity and militarism, camptown culture, and motherhood. S. Hwang

145. Gender, Colonialism, and Third-World Feminisms. *

Introduces the history of feminism in the third world, focusing on the ways in which colonialism (and post-colonialism) has shaped gender relations and on the feminist movements that have emerged in response to the impact of colonialism. (General Education Code(s): E.) E. Honig

147A. History of Premodern India. *

A study of religions (Vaisnavism, Tantrism, Islam, Sikhism), art, literature, and social movements in their historical contexts from 1000 A.D. to 1800. (General Education Code(s): CC, E.) D. Basu

147B. Political and Social History of Modern South Asia. F

Social, political, and religious movements in the colonial and postcolonial contexts of the 19th and 20th centuries in modern and contemporary South Asia. (General Education Code(s): CC, E.) D. Basu

148. Cinema and History: Film Author Satyajit Ray. W

Satyajit Ray is widely acclaimed as a master of world cinema. Course considers his work to examine "authorship" at multiple levels: the cultural, historical, social, and familial contexts and the relationship of his film to fiction, the politics and poetics of his vision, and its relationship to colonial, nationalist, and postcolonial India. Also studies the question of gender and the underclass. (General Education Code(s): E.) D. Basu

150A. Ancient Japan. F

Surveys the history of the peoples of the Japanese islands from prehistorical migrations

through the 15th century. Emphases include examination of social structures, political formations, cultural production, and religion. (General Education Code(s): CC.) N. Aso

150B. Tokugawa Japan. *

Surveys the history of the peoples of the Japanese islands from the middle of the 15th century to the middle of the 19th century. Focus is on the era of civil war, the formation of the early modern federated state, social structure, and cultural production. A. Christy

150C. Modern Japan. *

Surveys the history of the peoples of the modern Japanese nation from the Meiji Restoration to the present. Focuses on the formation of the modern state, empire, social movements, and cultural production. (General Education Code(s): CC, E.) N. Aso

150D. The Japanese Empire, 1868–1945. *

Examines the history of the Japanese colonial empire from 1868 to 1945, including the colonies of Taiwan, Korea, Micronesia, and Manchuria. Considers how the colonies were ruled and what the legacies of the empire have been. A. Christy, N. Aso

154A. Classic Islamic Civilization. *

The civilization of Islam to 1258 A.D. Origins and early florescence, an international civilization, the coming of the steppe peoples. (Formerly course 161.) Enrollment limited to 35. (General Education Code(s): E.) E. Burke

155. History of Modern Israel. S

The conflict between Israelis and Palestinians is one of the most intractable disputes in our troubled world. Course begins with a glimpse of Palestine in the late 19th and early 20th centuries, surveys the rise and fall of utopian Zionism, pays especially close attention to the events of 1948 and 1967, and concludes by analyzing the collapse of hopes for peace after Oslo and Camp David meetings. (General Education Code(s): CC, E.) B. Thompson

160A. Athenian Democracy. *

Athenian democracy from foundation to the fourth century B.C., with emphasis on its practices and ideologies. Readings from ancient sources and modern theory. Topics to include foundations and development; Athenian concepts of freedom, equality, law, citizenship. Lectures and discussion. (General Education Code(s): CC.) C. Hedrick

160C. Topics in Greek History. *

Detailed consideration of some specific topic or period in Greek history, varying from year to year. Examples include Greek religion, Alexander, the Hellenistic world, the ancient Greek economy, and Greece and India; Thucydides and the Peloponnesian War; Greek art and archaeology. Enrollment restricted to history and classical studies majors. May be repeated for credit. (General Education Code(s): CC.) C. Hedrick

161B. Topics in Roman History. *

Detailed consideration of some specific topic or period in Roman history, varying from year to year. Examples include Roman religion, Augustus and the Roman Empire, Julio-Claudian emperors and the principate, Roman slavery, and Christianity and Rome. Enrollment restricted to history and classical studies majors or minors, or by permission of instructor. May be repeated for credit. C. Hedrick

161C. Age of Augustus. *

Surveys Rome's transition from Republic to Empire, and the politics, people, and literary and material culture of the principate. Enrollment restricted to history and classical studies majors and minors, or by permission of instructor. J. Lynn

162. Canaan, Israel, and Palestine from Polytheism to Monotheism. F

This social and cultural history of Israel begins with the rise of the Israelite monarchy and ends in the early Roman period. Economy, political organization, and religious practices and beliefs such as polytheism and monotheism are compared with those of neighboring peoples. Priority given to history majors. G. Hamel

163A. A History of Sin. *

Ancient and modern conceptions of sin, and remedies offered for it. Course is not a theology of sin and redemption, but an invitation to reflect on ways sin and fault have been imagined and formulated. (Formerly course 163.) G. Hamel

163B. Genesis: A History. *

Introduction to historical, textual, source, and redaction criticism of the book of Genesis and to exegesis as science and ideology. Texts, history, and iconography of neighboring traditions (Mesopotamian, Ugaritic, Egyptian, Greek) are also studied when appropriate. Course 44, Literature 80A, or some basis in Hebrew or Greek is strongly suggested. (General Education Code(s): CC.) G. Hamel

164A. Late-Medieval Italy, c. 1200–1400. *

Italy from the birth of the commune to the early Renaissance in Florence. Topics include urban life and social conflict, gender roles, St. Francis, the Black Death, female mystics, Dante, Boccaccio, humanism, artistic developments from Giotto through Donatello. Requires viewing several films outside of class. C. Polecristi

164B. Renaissance Italy, c. 1400–1600. *

Italy from the Florentine Renaissance through the Reformation. Topics include social change and political consolidation, the rise of the papacy, court life, witch hunting, Machiavelli, artistic developments from Donatello through late Venetian Renaissance. Requires viewing several films outside of class. Course 164A recommended as preparation. C. Polecristi

165. The Power of Writing: Books and Libraries 600–1500. S

Surveys how books were made and used in Europe from 600–1500. Focuses on the relationship between book production and the development of libraries. Meets in Special Collections, McHenry Library. Exhibition as class project. Enrollment limited to 25. E. Remak-Honnef

166. Northern Ireland: Communities in Conflict. *

Introduction to the so-called "troubles" in Northern Ireland, from the 1960s to the present. Examination of the historical background to the conflict, the patterns of conflict in the 1970s and 1980s, and the emergence of a peace process in the 1990s. (Formerly Community Studies 136.) (General Education Code(s): CC.) D. Brundage

168. Rise of the Dutch Republic. *

Focuses on the origin of the Republic in the revolt against Spanish overlordship, and its political, social, and economic development in the 16th and 17th centuries. B. Sharp

170A. French History: Old Regime and Revolution. *

French history from the Middle Ages through the Revolution. Focus on the rise and fall of "absolute" monarchy, the nature of Old Regime society, the causes and significance of the French Revolution. Attention to those who endured as well as to those who made events. J. Beecher

170B. French History: The 19th Century. F

Social, political, and cultural history of France from the Revolution to WWI. Focus on the Revolutionary tradition, the Napoleonic myth, the transformation of Paris, and the integration of the peasantry into the national community. Readings may include novels by Stendhal and Balzac. J. Beecher

171. Revolutions in France. *

Examines the political/social upheaval in 1789, 1830, and 1848 in light of the sweeping changes brought to 19th-century France by those other great "revolutions" of the age, the democratic and the industrial. Students' written work focuses on the comparative analysis of revolution. Offered in alternate academic years. M. Traugott

172A. German History. *

The development of German civilization, including philosophy and literature as well as politics and diplomacy in the nineteenth and twentieth centuries. The Staff

172B. German Film, 1919–1945. F

Introduction to German films from 1919 to 1945. Through combination of movies and documentaries, gain insight into political, economic, social, and cultural conditions of Weimar and Nazi Germany. M. Cioc

174. Spies: History and Culture of Espionage. W

Analyzes the roles of espionage and intelligence in modern European history with emphasis on major conflicts from the Franco-Prussian War through the Cold War and beyond. Also examines images of spies in popular culture from the early 20th century to the present. (Formerly course 80K.) (General Education Code(s): CC.) B. Thompson

175A. Medieval Russia. F

Medieval Russia. P. Kenez

175B. Modern Russian History. *

Modern Russian history from serf liberation in 1861 to the present. (Formerly Russian History.) P. Kenez

175D. History of Soviet Film. *

Does not stress questions of aesthetics or technical aspects of film making, but the changing ideology inherent in Soviet films. The goal of examining cinema is to enrich our understanding of Soviet history. Readings include works of famous directors and theorists—Eisenstein, Vertov, Pudovkin, and Kuleshov—in addition to secondary works by Denise Youngblood, Richard Taylor, Josephine Woll, and Anna Lawton. P. Kenez

176. Eastern Europe, 1848–2000. S

Examines the political and social history of modern Eastern Europe, excluding the Balkans and Baltic States, from 1848 to the present. Focuses on the development of nationalism, war, occupation, ethnic strife, communism, and democratic reform in this region. (General Education Code(s): CC.) E. Kehler

177. Smoke, Smallpox, and the Sublime: Thinking about the Environment in the 19th Century. F

Examines ways in which Europeans and others thought about the environment and nature in the 19th century and how their concerns about issues such as climate change, pollution, and conservation were both similar to and different from environmentalist thinking today. (General Education Code(s): PE–E.) M. Peterson

178A. European Intellectual History: The Enlightenment. F

Study of European thought and literature from Hobbes and Swift to Rousseau and Goethe. Focuses on relation of ideas to their social and cultural context. Special attention to traditions of religious conflict and criticism rising from the Protestant Reformation; to the discovery of the world beyond Europe; and to the intellectual and cultural roots of the French Revolution. (Formerly European Intellectual History.) N. Deutsch

178B. European Intellectual History: The 19th Century. W

Study of European thought and literature from Blake to Nietzsche. Focuses on relation of ideas to their social and cultural context. Special attention to the rise and fall of the Romantic movement, to changing conceptions of history, and to the development of socialist and aesthetic critiques of industrial civilization. (Formerly European Intellectual History.) J. Beecher

178C. European Intellectual History, 1870–1970. *

Drawing on experiments in autobiography, the arts, and social theory, this course focuses on ideas and images of modernity in European culture. It also highlights the role of the intellectual as politically engaged or disillusioned witness in a violent century. Offered in alternate academic years. (General Education Code(s): CC.) B. Thompson

178D. Russian Intellectual History. *

Focus on the emergence in 19th-century Russia of a westernized intelligentsia; its effort both to assimilate western ideas and to define the destinies of Russia; the shaping of the Russian revolutionary movement. Readings in Dostoyevsky, Turgenev, Herzen, and

representative Russian Slavophiles, Populists, and Nihilists. J. Beecher

178E. Modern Jewish Intellectual History. *

Surveys European Jewish intellectual history from the Enlightenment to the present. Major themes include emancipation and assimilation, the flowering of Yiddish literature, the rise of Zionism, new variations on the messianic idea, and Jewish contributions to the culture of urban modernism. Offered in alternate academic years. (General Education Code(s): ER.) B. Thompson

180A. English History. *

Emphasis on the interaction between social, economic, religious, and political developments. An attempt to place these phenomena in the context of the wider European and world scene. The period from 1485 to 1689. B. Sharp

180B. English History. *

Considers how Britain became the pacemaker of modernity in the 18th and 19th centuries; how national, regional, class, and gender identities formed and altered; and how Britain coped with loss of global power in the 20th century. B. Sharp

183A. Nineteenth-Century Italy. F

Italian politics, culture, and society from the Napoleonic era through early leftist movements. Central emphasis on the Risorgimento and Unification. Other topics include: north-south conflict; banditry; urban change; growth of tourism; popular religion; family structures and gender; visual arts and opera. C. Polecchiti

183B. Fascism and Resistance in Italy. W

Examines Italian politics, society, and culture (c. 1900-1950), emphasizing the Fascist regime; interdisciplinary focus emphasizing history, literature, and film. Course 183A recommended as preparation. (Formerly course 183.) C. Polecchiti

185A. Conflict of Interest: War, Holocaust, and Industry in the Lodz Ghetto. *

Examines how Nazi war machine exploited Jewish slave labor in the Lodz ghetto industrial complex while a state apparatus systematically exterminated the workers. Includes a visit from a survivor of ghetto factories and graphics from ghetto workshops. Prerequisite(s): one upper-division history course. Enrollment restricted to juniors and seniors. (General Education Code(s): ER, E.) The Staff

185B. Rethinking the Holocaust: Bioscience, Race Theory, and Genocide. *

Traces the Nazi "Superstate" project from its origins at the conjunction of bioscientific theory and racist ideology to its conclusion in the Holocaust, providing a historical perspective for social and political dilemmas raised by contemporary biomedical advances. (General Education Code(s): ER, E.) The Staff

185D. Jewish Social Movements. S

Jewish social movements of the late 19th and 20th centuries, in Europe (Eastern and Western) and the U.S.: the confrontation between Hasidism and Haskalah, tensions between socialism and Zionism, between religiosity and secularism, the mutual influences among these tendencies. (Also offered as History of Consciousness 118. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 20. (General Education Code(s): E.) B. Epstein

185E. The Historiography of the Holocaust. *

Offers a comprehensive historiography of the Holocaust, distinct from the narrowly focused perspectives generally presented in Holocaust studies, to familiarize students with the origins, evolution, and major developments in the Nazi genocide and its historical consequences. Enrollment restricted to juniors and seniors. (General Education Code(s): ER, E.) The Staff

185F. Private Lives, Family Histories, and the Holocaust Experience. *

Holocaust historiography has surveyed the broad landscape of genocide or focused narrowly on individual experience. Course examines the middle ground of family and its role in resistance during the destruction of communal existence and survival in the

aftermath. (Formerly course 196Q.) Prerequisite(s): two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history, German studies, and classical studies majors. Enrollment limited to 20. (General Education Code(s): ER, E.) The Staff

185H. Women, Gender, and Jewish Modernity (1800–Present). S

Explores the impact of modernization upon women and the concepts of gender, both feminine and masculine, in Jewish societies across Europe, the Middle East, and India. P. Daccarett

185I. Latin American Jewish History in the Modern Period. F

Explores Jewish immigration settlement and identity negotiation in Latin America from the mid-19th Century to the present. P. Daccarett

185J. The Modern Jewish Experience. W

Historical comparative overview of the political, socio-cultural, and intellectual transformation of Jewish societies in Europe and the Middle East from the late 18th Century to the present. P. Daccarett

185K. Jewish Life in Eastern Mediterranean Port Cities. *

Overview of the Jewish experience in important cities in the age of empire. Istanbul, Beirut, Alexandria, and Salonica were home to thriving, culturally diverse Jewish populations. Course explores these urban Jewish cultures, the institutions, and intellectual production. P. Daccarett

190. Advanced Research and Reading Seminars. *

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25 pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count towards the major. The Staff

190A. Slavery and Race in Latin America. *

Covers comparative history of slavery in Latin America with questions of race in the colonial and national periods and key moments and debates in the historiography of slavery and its relation to ideologies of the past and the nations. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) M. Diaz

190B. Race and the Nation in Latin America. S

Focuses on the ways in which nation and race have been thought about in Latin America throughout the 19th and 20th centuries. These concepts were closely intertwined, albeit in differing and changing ways, since the wars of independence from Spain and Portugal (1810–1825). Compares the ways in which "black," "Indian," and "racially mixed" ("mulatto" or "mestizo") have been socially constructed, ideologized, and contended in different countries, including Brazil, the Spanish-speaking Caribbean, Mexico, Peru, and Argentina. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) M. Diaz

190C. Race, Class, and Gender in California History. *

The study of the social history of racial minorities and women in the historical development of California society. Emphasis on racial, class, and sexual conflict within the context of the history of California since 1848. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. Offered in alternate academic years. (General Education Code(s): W, E.) P. Castillo

190D. Tale of Two Cities. *

A comparative study of the social, economic, cultural, political, and geographical

development of Los Angeles and Mexico City in the 20th century. Emphasis on the diverse peoples, changing physical environment and various images/interpretations of these two world cities. (Also offered as Latin American&Latino Studies 194P. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history and Latin American and Latino studies majors. Enrollment limited to 20. (General Education Code(s): W, E.) P. Castillo

190E. Topics in Chicana/o History. *

A seminar on the history of Chicanos/Mexicans in the United States, 1848 to the present. Topics include Chicana/o labor, family, social, urban, cultural, and political history.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) P. Castillo

190F. Research Seminar in the Americas. *

Students learn how to conduct research and write history. Primary and secondary sources are extensively read. Research sources include a rich array of government documents, newspapers, memories and diaries, visual material and film. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) L. Haas

190G. History and Theory. W

Each year students study one or more theorists or schools of philosophy and history. Themes vary by year and include: Walter Benjamin, Hayden White, Agnes Heller, the Frankfurt School, and the Subaltern School. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) L. Haas

190H. History of Time. F

Writing-intensive seminar on the experience, manipulation, and representation of time in history. Students pursue advanced research using primary and secondary sources.

Prerequisite(s): two upper-division history courses and satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. O'Hara

190I. California and the Borderlands. *

Complete original research in California and borderlands history in this senior research seminar. Focus on selected problems and themes. Assignments and discussions help students frame their research and edit their writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) L. Haas

190J. Diaspora and Migration in World History. *

Diaspora studies recently have included a range of movements and people in colonial, post-colonial, and national dilemmas. Diaspora studies share historical themes with migration studies, and include the study of forced exile and situations of genocide and femicide experienced by indigenous and national minorities. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. L. Haas

190K. Wired Planet: Readings on the Global History of Broadcasting and Telecommunications. *

Locates common themes in the history of broadcasting and telecommunications throughout the world. Why do certain strategies for developing broadcasting and telecommunications systems succeed or fail? Why do some nations outstrip other nations of comparable development in the growth of their communications systems? Why do national or regional communication systems suddenly become more or less open—or

more or less centralized? Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Lasar

190L. Personal Politics in the New South. *

Examines the tensions between movements for political reform and reaction in the southern United States between Reconstruction and the second world war. Students develop a research paper grounded in primary research that addresses these questions. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) C. Jones

190M. History of Children and Culture of Childhood in the 19th Century. *

Explores the lives of children and the functions of the literary figure of the child in the cultural politics of the 19th century in the United States. Examines the historically contingent nature of childhood through historical, literary, and visual sources.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) C. Jones

190N. Topics in African History. *

Examines contemporary crises in Africa: the new South Africa, refugees, HIV/AIDS, children of war, blood or conflict diamonds, civil war, and genocide in Rwanda. Seminar format where students will be prepared to undertake studies on specific subjects and two rounds of 15-20 page papers. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) D. Anthony

190O. African American Historiography. *

Major themes in contemporary African American historiography on a topical basis. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) D. Anthony

190P. Early American Society and Culture. *

Explores subjects and themes in the political, social, and cultural history of early U.S. history from the colonial period through 1850. Includes critical reading of current scholarship and research in primary texts. The focus of this course is the production of a 25-page research paper. Recommended for senior history majors. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Westerkamp

190Q. The Novel and History. *

Explores novels and novelists in relation to the writing of historical scholarship. Breaking down the simplistic genre division between fiction and nonfiction, provides opportunities for students to read novels as historical evidence, novels as editorial commentary, and novels as analytical narrative. Students produce a series of papers that culminate in a 25-page research project. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Westerkamp

190R. Research in the History of American Religions. *

Readings and research in the history of religions in the United States. Readings focus on topics including the rise of evangelicalism; gender and religion; class, race, and religious diversity; and modernity. Students produce papers that culminate in a 25-page research project. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition

requirements and two upper division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) M. Westerkamp

190S. Women and Social Movements in the U.S. *

Examines history of women and social movements in the U.S., such as abolitionism, anti-lynching, Chinese and Jewish garment workers, Chicana farm labor activism, the American Indian Movement, the Ku Klux Klan, and the Civil Rights movement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) D. Frank

190T. Latin America in the Cold War. *

Writing-intensive seminar on Latin America during the Cold War. Particular attention given to U.S.-Latin American relations, including moments of covert or direct interventions. Students pursue advanced research using primary and secondary sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. O'Hara

190U. Power and Culture in the U.S. F

Students read historical monographs that explore, from a variety of race, class, and gender perspectives, how U.S. culture and thought have changed over time. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Lasar

190V. The Corporation and Its Critics. *

Studies transformation of the U.S. corporation from limited tool in hands of state government to the central organizational unit of capitalism and crucial focus of American politics. Readings include influential histories of the corporation from Republic's early years through 1970s. Students debate impact of the corporation from Marxist, free market, anti-colonialist, and feminist perspectives. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Lasar

190W. Topics in U.S. Civil War and Reconstruction. S

Students read historiographically significant works in the history of the U.S. Civil War and Reconstruction. Students develop research projects grounded in primary source material on a related topic of their choosing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) C. Jones

190X. History of the Atlantic World, 1492-1824. W

Explores the transatlantic societies created by Europeans' colonization of the Americas, and their exploitation of African slaves. Questions whether the cultural, economic, and political links across the ocean integrated the adjacent lands into a fundamentally "Atlantic World." Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) G. O'Malley

190Y. The Atlantic Slave Trade. *

Before 1800, far more Africans than Europeans colonized the Americas, arriving unwillingly in the slave trade. Course examines the captives' experiences; the trade's organization and significance in the Atlantic economy; and the eventual movement to abolish the traffic. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) G. O'Malley

192. Directed Student Teaching.

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. The Staff

193. Field Study.

To allow promising, well-qualified undergraduates to pursue directed programs of archival or archaeological study in the field under supervision of the UCSC history faculty, concentrating their work within a single given quarter. Students may take two or three courses concurrently. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194. Advanced Research and Reading Seminars. *

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25 pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count towards the major. The Staff

194A. Gender, Class, and Sex in Shanghai. *

Focusing on Shanghai, course examines issues of gender, class, and sex in modern urban Chinese history. Given Shanghai's history as a treaty port, particular attention paid to ways in which its semi-colonial status inflected the articulation of gender identities, class formations and issues of sexuality (particularly sexual labor). Also looks at Shanghai during the Maoist period and in the context of more contemporary economic reforms. (Also offered as Feminist Studies 194N. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and course 140C, or 140D, or 140E, or permission of instructor. Restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) E. Honig

194B. Okinawan History. *

Examines the history of Okinawa with particular attention paid to the modern era. The goal is to give students a solid foundation in the historiography of major themes in the study of Okinawan society. (Formerly course 196X.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements two upper-division history courses, or permission of instructor. Enrollment limited to 20. (General Education Code(s): W.) A. Christy

194D. Topics in Korean History. F

Overview of Korean history with emphasis on international relations from tributary links with China through colonization by Japan to postwar division between patron states, the USSR and U.S. History of women in Korea also a major theme. (Formerly course 196Q.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) The Staff

194E. Women in Japanese History. S

Examines through both primary and secondary sources such issues as work, sexuality, education, class, and ethnicity in relation to constructions of female gender in Japanese society over the past several centuries, particularly focusing on the modern era. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) N. Aso

194G. China Since the Cultural Revolution: Histories of the Present. *

Explores the rapid and often destabilizing shifts that have taken place in China since the late 1970s (the "reform era"), tracing the effects of China's earlier experiment with revolutionary socialism on the market-driven present. Examines how various meanings of reform are negotiated; changes in rural and urban environments; and class, gender, and ethnic differences. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) G. Hershatter

194H. Gender, Family, and State in China: 1600–Present. *

Explores gender, family, and state power in China from 1600 to present, examining gendered norms, education, political movements, revolutionary practice, sexuality and sex work, and state interventions in contemporary families. Responses to reading and a research paper required. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) G. Hershatter

194M. Literati, Samurai, and Yangban: Comparative History of State and Elite in East Asia, 1600–1900. W

Critically examines the formation of political elites in East Asia. Compares literati in Ming and Qing, China; samurai in Tokugawa, Japan; and yangban in Joeson, Korea. Each group occupied specific roles and functions in their state and society but differed in scale and character. Students cannot receive credit for this course and course 294M. Prerequisite(s): course 40A or 140B, and one additional upper-division history course or permission of instructor, and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Hu

194N. Comparative Studies in Modern Asian History. F

Seminar on cultural and social changes in Asia, mainly in the 19th and 20th centuries. Topics include colonial encounters, cities, narratives of ordinary persons, nationalism and identity, visual cultures, and Orientalism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) D. Basu

194R. Cairo: The City Victorious, 1750–2000. *

The modernization of a world city from 1750 to the present. Cairo's social and cultural history (literature, film, music) against the background of its changing political and economic contexts. Topics include: orientalism, nationalism, imperialism, minorities, women, migration, urbanism, popular culture, tourism. Prerequisite(s): Two upper-division history courses; and course 41 or 101A or 101B; and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) E. Burke

194S. Comparative Studies in World History. *

Explores a broad topic in world history (varies from year to year) such as settler colonial nationalism, mission, involuntary labor, pre-political resistance, or defensive modernization in comparative historical perspective. (Formerly course 196W.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): W.) The Staff

194U. The Cold War and East Asia. *

Considers through primary and secondary sources the events and aftermath of the Cold War in East Asia in terms of state formation, domestic and foreign policy, and protest movements in China, Taiwan, Korea, and Japan with reference to Vietnam. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) N. Aso

194X. The Cold War in the Mediterranean, 1942–1991. *

Writing-intensive course on the Mediterranean. Topics include: U.S. relations with the region (including direct and indirect intervention), local responses, and cultural transformations. Students pursue advanced research using primary and secondary sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) E. Burke

194Y. Memories of WWII in the U.S. and Japan. S

Research seminar comparing U.S. and Japanese memories of World War II. Topics include war origins, total war, the atomic bomb, war responsibility, reparations, memorials, museums, and monuments. Primary work devoted to research in original texts and documents. Prerequisite(s): two upper-division history courses or permission of instructor; satisfaction of the Entry Level Writing and Composition requirements; course 80Y recommended. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W, E.) A. Christy

195A. Thesis Research.

Prerequisite(s): petition on file with sponsoring agency (students should have completed two upper-division courses, preferably in their area of concentration). The Staff

195B. Thesis Writing.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; petition on file with sponsoring agency (students should have completed two upper-division courses, preferably in their area of concentration). (General Education Code(s): W.) The Staff

196. Advanced Research and Reading Seminars.

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25 pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count towards the major. The Staff

196A. Is British History Possible?. *

An examination of the possibilities and problems of producing a history that is genuinely British: one that pays due attention to the histories of the four modern peoples or nations of the British archipelago. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) B. Sharp

196B. Social Protests in Late Medieval and Early Modern England. *

Explores the social, cultural, economic, and political context of popular protest in England from 1347 through 1631. An important dimension of that exploration is an examination of official government responses to riot and rebellion. Two courses in medieval or early modern European history recommended as preparation. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) B. Sharp

196C. Modern Italian Culture. *

Developments in Italian culture and society from the postwar to the present. Topics include north-south divisions, family and gender, cinema and modernity, urbanization, mafia, and terrorism. Prerequisite(s): course 164A or 164B or 183A or 183B, or permission of instructor and one upper-division history course; and satisfaction of the Entry Level Writing Requirement. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) C. Polecritti

196D. City of Rome. W

Explores the long-term urban history of Rome from its founding through the modern tourist city. Emphasizes the cityscape and geographical centers of political power, culture, and religion, as well as the everyday life of neighborhoods. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, classical studies, and Italian studies majors. Enrollment limited to 20. (General Education Code(s): W.) C. Polecritti

196E. Modern Irish History. F

Aims to illuminate major themes and turning points of modern Irish history: the causes and consequences of the famine; the development of Irish nationalism; revolution, civil

war, and partition; and the recent economic boom. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) B. Thompson

196F. European Environmental History. *

Examines interactions between human societies and the natural world in Europe. Topics include: impact of European imperialism; changing attitudes toward the natural world; the Industrial Revolution in ecological perspective; the beginnings of preservationist and conservationist movements; the evolution of 20th-century environmentalism; and the historical context of contemporary environmental problems. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) B. Thompson

196G. Modern Germany and Europe. W

A senior reading and research seminar that explores the major historiographic debates in German history during the 19th and 20th centuries. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. (General Education Code(s): W.) M. Cioc

196H. Sex and the City--The History of Sexuality in Urban Areas Around the Globe. F

Focuses on the history of sexuality in major urban areas globally. Topics include: sexual identities and race, class, and gender; sex work, policing, and urban spaces; gay, lesbian, and transgender communities; race, gender, and sexuality within the context of colonialism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or by permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) The Staff

196I. The French Revolution. *

Students conduct original research on the French Revolution of 1789 based on mix of primary and secondary courses. Classroom discussions focus on interpreting contemporary documents and addressing historiographical issues. Seminar format with significant written requirements. Presumes familiarity with the period. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 70B and one upper-division history course; or course 170A or 171. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Traugott

196J. Autobiography and History. *

Students prepare research papers using a combination of sources, both primary (the autobiographies, diaries, or memoirs of historically relevant figures) and secondary (chronologically and thematically appropriate works of synthesis that help contextualize the lives of their subjects). Seminar format with significant written requirements. Prerequisite(s): satisfaction of the Entry Level Writing requirement; Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Traugott

196K. Studies in European Intellectual History. *

Topics in European intellectual history from the French Revolution to World War I. Readings exemplifying approaches from history of ideas and intellectual biography to recent studies of rhetoric and political culture. Preparation and presentation of research paper. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) J. Beecher

196M. Shtetl: Eastern European Jewish Life. *

For several centuries, the shtetl functioned as the center of Jewish life in Eastern Europe. Alternately mythologized and pathologized, the shtetl continues to exist as an imaginary

space that defines and distorts the historical image of Eastern European Jewish life. Students cannot receive credit for this course and course 257. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses. Enrollment restricted to junior and senior history and Jewish studies majors. Enrollment limited to 20. (General Education Code(s): W.) N. Deutsch

196N. Eastern European Jewish Social History. F

Study of 19th- and 20th-century Eastern European and Russian Jewish social history. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. (General Education Code(s): W, E.) P. Daccarett

196O. Russian Revolution, 1917-1932. *

Study of the major political, social, and intellectual conflicts and transformations of the period. Topics include February and October revolutions, Civil War, NEP, rise of Stalinism, and collectivization. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) P. Kenez

196P. Hitler and Stalin. W

A discussion of 20th-century totalitarianism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. (General Education Code(s): W.) P. Kenez

196Q. Europe and the World During the Cold War. W

Explores European history from the end of World War II through the fall of the Soviet Union. Examines how Europe evolved from a fragmented, polarized array of colonial rivals to a more economically and culturally integrated place. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Lasar

196R. Social World of Roman Palestine. *

Inquiry into the structures of Roman Palestine on the basis of parables from the synoptic Gospels, the Dead Sea Scrolls, Josephus, inscriptions, and archaeological discoveries. Physical, social, economic, and ideological conditions are researched in an ethnographic fashion. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses. Enrollment restricted to junior and senior history, classical studies, and Jewish studies majors. Enrollment limited to 20. (General Education Code(s): W.) G. Hamel

196S. Special Topics in Ancient History. S

Seminar focuses on different topics in ancient history. In addition to assigned readings, the student is expected to do additional research that culminates in a 20-page paper on a topic of the student's choice. General topics for the course will vary from year to year. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors and classical studies majors. Enrollment limited to 20. (General Education Code(s): W.) C. Hedrick

196U. Topics in Medieval History. *

Addresses contemporary and modern interpretations of the events relation to medieval history. Through critical discussion and debate, assesses the value and limitations of various historical sources, as well as developing skills in reserach, presentation-making, and writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 102A or 103, and one upper-division history course, or by permission. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): W.) B. Catlos

196W. Brave New World? Scientific & Technological Visions of Utopia and Dystopia in Russia/Soviet Union. F

Focuses on the role of scientific and technological developments in creating the kinds of social, economic, and ecological change that inspired utopian thinking--as well as utopia's counterpart, dystopia--in Russia in the late 19th and 20th centuries. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) M. Peterson

196Y. Saints and Holiness in Medieval Europe. S

Examines popular religious belief and practice, including conversion, the cult of the saints, relics, pilgrimage, miracles and visions. Emphasis on Medieval Europe, but some attention also paid to modern patterns of devotion. Prerequisite(s): two upper-division history courses; satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. (General Education Code(s): W.) C. Polecritti

198. Independent Field Study.

Student's supervision is conducted by a regularly appointed officer of instruction by means other than the usual supervision in person (e.g., by correspondence) or student is doing all or most of the course work off campus. May be repeated for credit. The Staff

199. Tutorial.

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits).

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200. Methods and Theories of History. F

An overview of theories, methods, and philosophies concerning the nature and production of history. Topics vary with instructor. Enrollment restricted to graduate history students and others by permission of instructor. Enrollment limited to 20. N. Deutsch

201. Directed Research Colloquium. W

Having already prepared a bibliography and research prospectus in a graduate research seminar, students will undertake further research on their projects, write a 25-30 page research paper, and present their work to their fellow students. Prerequisite(s): history graduate research seminar. Enrollment restricted to graduate history students. Enrollment limited to 15. A. Yang-Murray

204A. History of Gender Research Seminar. *

Introduction to theories and methods employed in gendered historical research. Readings are drawn from a range of chronological, national, and thematic fields and explore the intersection of gender analysis with such historical problems as the body and sexuality, modernity, national identity, and production/consumption. Enrollment restricted to graduate students. Enrollment limited to 15. M. Westerkamp

204B. Approaches to Social and Cultural History. *

Graduate reading course focusing on both classic and contemporary approaches to social and cultural history. Readings induce: Bakhtin, Benjamin, Foucault, Auerbach, and Berlin, and a variety of more recent studies in social, cultural, and intellectual history. Course not limited to graduate students in History.(Formerly Society and Culture Research Seminar.) Enrollment restricted to graduate students. Enrollment limited to 15. J. Beecher

204C. Colonialism, Nationalism and Race Research Seminar. S

Research seminar introducing theories and methods of the comparative histories of race, ethnicity, colonialism, and nationalism. Enrollment restricted to graduate students. Enrollment limited to 15. M. O'Hara

205. Diaspora and World History. *

Examines the histories and historiography concerning diaspora. This area of study includes

populations from Asia, Africa, Europe, and the Americas. Students study the histories of diasporic populations, and the questions, theory, and methods that scholars use to approach the subject. Enrollment restricted to graduate students. Enrollment limited to 10. L. Haas

210A. Readings in U.S. History. F

Introduction to major themes and controversies in the interpretation of U.S. history. Readings cover both chronological eras and topical subjects, often in a comparative context: colonial and early national periods. Enrollment restricted to graduate students. Enrollment limited to 15. M. Westerkamp

210B. Readings in U.S. History. *

Introduction to major themes and controversies in the interpretation of U.S. history. Readings cover both chronological eras and topical subjects, often in a comparative context: 19th century. Enrollment restricted to graduate students. Enrollment limited to 15. D. Frank

211A. Research Seminar in Early American History. F

First quarter of a two-quarter introduction to research in early American history (1550–1820). Readings include both historiographically definitive texts as well as recent scholarship reflecting the field's developments. Students complete analyses of historical sources, brief critical essays, and a significant research project. Course A is not a prerequisite to course B. Enrollment restricted to graduate students. Enrollment limited to 20. G. O'Malley, M. Westerkamp

211B. Research Seminar in Early American History. W

Second quarter of a two-quarter introduction to research in early American history (1550–1820). Readings include both historiographically definitive texts as well as recent scholarship reflecting the field's developments. Students complete analyses of historical sources, brief critical essays, and a significant research project. Course A is not a prerequisite to course B. Enrollment restricted to graduate students. Enrollment limited to 20. G. O'Malley, M. Westerkamp

215A. Topics in American History: U.S. Labor and Working Class History. *

Addresses topics in history of working people, the labor movement broadly defined, and political-economic change in the U.S. Topics include race, ethnic and gender dynamics, and U.S. labor and working-class history in global context. Enrollment limited to graduate students. Enrollment limited to 15. D. Frank

215B. Visions of Progress. *

Explores the emergence of the welfare/regulatory state in the United States from the 1870s to World War I, examining different schools of historical thought about this period. Enrollment restricted to graduate students. Enrollment limited to 15. M. Lasar

215C. U.S. Immigration and Ethnic History. S

Introduces key issues and debates in United States immigration and ethnic history. Topics include causes of immigration; constructions of race, gender and ethnicity; assimilation; transnationalism; and forces shaping immigration policy. Enrollment restricted to graduate students. Enrollment limited to 10. D. Brundage

220. The Atlantic World, 1500–1800. *

Explores the economic, social, and cultural history of early America in terms of its Atlantic connections and intersection with the cultures of early modern Europe, Africa, and Latin America. Builds upon previous work in early America and early modern Europe, challenging students both to work comparatively and to break out of traditional geographic models. (Formerly Topics in American History: The Atlantic World 1500–1800.) Enrollment restricted to graduate students. Enrollment limited to 15. M. Westerkamp

221. Empires and New Nations in the Americas. *

Compares the history of the colonial and 19th-century Americans through a world-history perspective. Focuses on the interrelated themes of indigenous histories, slavery and other forms of servitude, commodity production, and the meaning of equality and freedom in

new nations. Enrollment restricted to graduate students. Enrollment limited to 15. L. Haas

225. Spanish Colonialism. *

Reading-intensive graduate seminar with emphasis on theoretical and historiographical questions regarding the field of Spanish colonialism in the Americas. Students encouraged to engage in discussions of comparative colonialisms. Enrollment restricted to graduate students. Enrollment limited to 10. M. Diaz

227. Gender and Colonialism. *

Explores the relationship between colonialism and gender. Examines the construction of gender categories (in conjunction with race) in the context of colonial conquest and rule; contested definitions of motherhood, domesticity, and citizenship; and regulation of sexuality. Enrollment restricted to graduate students. E. Honig

230A. Readings in Late Imperial China. *

Survey of the major works on and historiographical controversies about Qing Dynasty (1644–1911) China. Enrollment restricted to graduate students. Enrollment limited to 20. M. Hu

230B. Engendering China. S

Reading seminar on the history of Chinese gender, focusing on the Qing dynasty (1644–1911) to the present. Topics include marriage and family, sexuality, work, the gendered language of politics, and major reform movements. Enrollment restricted to graduate students. Enrollment limited to 20. E. Honig

230C. Readings in 20th-Century China. F

A survey of major Western-language works and historiographical controversies in Chinese history from 1900 to the present. Weekly readings emphasize particular social and political movements as well as long-term changes in urban and rural society. Enrollment restricted to graduate students. Enrollment limited to 20. G. Hershat

238A. Research Methods: China. *

An introduction for graduate students to the use of major research tools and sources in Chinese history since 1600, with a focus on 20th-century materials. Students complete a series of bibliographical exercises and prepare a research prospectus. (Formerly course 228A.) Enrollment restricted to graduate students. Enrollment limited to 20. G. Hershat

238B. Research Methods: China. *

Building on the research and bibliographic skills developed in course 228A, students develop a research topic and write a paper of 20–30 pages using primary sources as appropriate in English, Chinese, and/or Japanese. (Formerly course 228B.) Enrollment restricted to graduate students. Enrollment limited to 20. G. Hershat

242. Readings in Modern Japan. *

A graduate course intended to give students a fundamental understanding of the major themes in the study of modern Japanese history. Central themes include modernity and modernization, colonialism, postwar recovery, gender, race, and nationalism. (Formerly course 210.) Enrollment restricted to graduate students. Enrollment limited to 15. N. Aso

243. Transnational Japan. W

Examines how "Japanese" history has been forged across, outside, and beyond the boundaries of the modern nation-state of Japan. Considers how Japan has transformed the world. Students debate how the world made Japan and how Japan re-made the world. Enrollment restricted to graduate students. Enrollment limited to 10. A. Christy

244. Gender and Japanese History. *

Examines—through primary and secondary sources—constructions of gender (masculine, feminine, and transgender) in Japanese society over the past several centuries, focusing on the modern era. Enrollment restricted to graduate students. Enrollment limited to 15. N. Aso

250A. Readings in European Social and Cultural History. *

A readings seminar that introduces beginning graduate students to some of the major conceptual and methodological approaches to early modern European social and cultural history, 1400–1789. (Formerly course 205A.) Enrollment restricted to graduate students. Enrollment limited to 20. B. Sharp

250B. Readings in European Social and Cultural History. *

A readings seminar that introduces beginning graduate students to some of the major problems in modern European social and cultural history, 1789 to the present. (Formerly course 205B.) Enrollment restricted to graduate students. Enrollment limited to 20. P. Kenez

256. Nationalism, Anti-Semitism, and Jewish Resistance in World War II. *

Jewish resistance to Nazism during World War II, in Eastern Europe, and its historical context. Includes the pre-war rise in nationalism and anti-Semitism in Poland and Lithuania, Jewish integration in the Soviet Union, and the consequences for wartime resistance. (Also offered as History of Consciousness 243A. Students cannot receive credit for both courses.) Enrollment restricted to seniors and graduate students. Enrollment limited to 15. B. Epstein

257. Shtetl: Eastern European Jewish Life. *

For several centuries, the shtetl functioned as the center of Jewish life in Eastern Europe. Alternately mythologized and pathologized, the shtetl continues to exist as an imaginary space that defines and distorts the historical image of Eastern European Jewish life. Students cannot receive credit for this course and course 196M. Enrollment restricted to graduate students. Enrollment limited to 20. N. Deutsch

280A. History Graduate Proseminar: Teaching Pedagogy (2 credits). F

Devoted to professionalism and socialization of history graduate students. Includes formal and informal meetings with faculty and other graduate students. Topics include TAs, designing course syllabi, pedagogy, teaching technologies, and teaching in different venues. This course is required for first-year students; however, it is open to all other graduate students as needed. Enrollment restricted to graduate students. May be repeated for credit. N. Aso

280B. History Graduate Proseminar: Research Presentations and Grant Writing (2 credits). W

Devoted to professionalism and socialization of history graduate students. Topics include discussion of researching grants; effective CV writing; successful grant applications and publication proposals; and conference paper and panel proposals. Required for first-year graduate students; however, open to all history graduate students as needed. This course is required for first-year students; however, it is open to all other graduate students as needed. Enrollment restricted to graduate students. May be repeated for credit. N. Aso

280C. History Graduate Proseminar: Job Market (2 credits). *

Devoted to professionalism and socialization of history graduate students. Includes formal and informal meetings with faculty and other graduate students. Topics include researching position; preparing a CV and the job-application letter; preparing for an interview; practice interview; preparing a job talk and/or teaching presentation; and practice job talk. This course is required for first-year students; however, it is open to all other graduate students as needed. Enrollment restricted to graduate students. May be repeated for credit. C. Jones

283. Foreign Language Preparation (2 credits). F,W,S

Independent study course in which history graduate student reads selected texts to fulfill foreign language requirement. Student meets with instructor to discuss readings, deepening his knowledge of the foreign language. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

284. Qualifying Examination Preparation (2 credits). F,W,S

Independent study course designed to help students prepare for qualifying exams. Students meet on regular basis with one or more members of qualifying examination committee to monitor preparation for exam. Students submit petition to sponsoring

agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

285. Readings in Research Field (2 credits). F,W,S

Independent study focusing on selected texts or authors in history or historical theory. Students meet on regular basis with instructor to discuss readings and deepen their knowledge of a particular author or historical theory. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

286. Research Colloquium on Colonialism, Nationalism, and Race (2 credits). F,W,S

Acquaints students with the department's thematic research clusters in their field to coordinate training in historical research. Students meet on a regular basis with a faculty member of a particular cluster to discuss most important readings in the field. Enrollment restricted to graduate students. Enrollment restricted to graduate students. May be repeated for credit. The Staff

287. Research Colloquium on Gender (2 credits). F,W,S

Acquaints students with the department's thematic research clusters in their field to coordinate training in historical research. Students meet on a regular basis with a faculty member of this cluster to discuss most important readings in their field. Enrollment restricted to graduate students. Enrollment restricted to graduate students. May be repeated for credit. The Staff

288. Teaching Assistant Preparation (2 credits). F,W,S

Independent study designed to help history graduate students prepare to teach in an area of history outside their specialization. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

289. History Colloquium (2 credits). F,W,S

Independent study designed to foster departmental and cross-disciplinary participation in campus talks, colloquia, conferences, and events. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

294M. Literati, Samurai, and Yangban: A Comparative History of State. *

Critically examines the formation of political elites in East Asia. Compares literati in Ming and Qing China; samurai in Tokugawa, Japan; and yangban in Joeson, Korea. Each group occupied specific roles and functions in their state and society but differed in scale and character. Students cannot receive credit for this course and course 194M. Enrollment restricted to graduate students. Enrollment limited to 20. M. Hu

297. Independent Study.

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research.

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012-13

History of Art and Visual Culture

[2012–13 General Catalog](#)[D–201 Porter College](#)[\(831\) 459–4564](#)havc@ucsc.edu<http://havc.ucsc.edu>[Faculty](#) | [Course Descriptions](#)

Program Description

The study of visual culture encompasses the production, use, form, and reception of images past and present. It incorporates the painting, sculpture, and architecture traditionally defined by art history, and extends throughout the fields of visual imagery beyond the conventional boundaries formerly drawn by the academy. The History of Art and Visual Culture (HAVC) Department offers courses covering a wide variety of representations from the cultures of Africa, the Americas, Asia, Europe, and the Pacific Islands, including areas as diverse as ritual, performative expression, bodily adornment, oil painting, installation art, textiles, architecture, and photography.

Students of visual culture at UC Santa Cruz (UCSC) investigate complex questions concerning the social, political, economic, religious, and psychological impact of images from the perspective of their producers, users, and viewers. Images play a central role in the formation of values and beliefs, including the perception of gender, sexuality, ethnicity, race, and class. Through attentive historical study and close analysis, students are taught to recognize and assess these systems of value, and are introduced to theoretical and methodological frameworks for future research. Students also have the opportunity to take independent study courses and write senior theses.

The history of art and visual culture curriculum guides students in acquiring skill in critical thinking about visual culture, leading to a bachelor of arts (B.A.) degree. Each student who chooses to major or minor in visual culture devises an individual study plan with a faculty adviser. The lower–division courses, numbered 1–99, intended for general education students and prospective majors, provide an introduction to the field of visual culture according to geographic areas and visual traditions within those areas. Upper–division courses numbered 100–189 cover a broad range of issues in various aspects of world culture from earliest times to the present. Advanced upper–division courses focus on selected fields, topics, and methods. The most advanced courses, numbered 190 and 191, are taught in seminar format.

Declaration of the Major

To declare the major, students must complete two of the required four lower–division history of art and visual culture courses chosen from two different geographical regions:

- Cowell College
- Crown College
- Digital Arts and New Media
- Earth and Planetary Sciences
- East Asian Studies
- Economics
- Education
- Electrical Engineering
- School of Engineering
- Environmental Studies
- Ethnic Studies

10s Africa and its Diaspora;

20s Asia and its Diaspora;

30s–40s Europe and the Americas;

50s Mediterranean;

60s Native Americas;

70s Oceania and its Diaspora

Students considering this major are encouraged to complete these courses early in their studies and consult with the history of art and visual culture undergraduate adviser to develop a plan of study. Transfer students should consult the Transfer Student/Transfer Credit section.

Requirements of the Major

The history of art and visual culture major requires four lower-division and nine upper-division courses including the satisfactory completion of the senior comprehensive requirement. Students must take courses in each of the different cultural settings to ensure methodological and disciplinary breadth.

Lower-Division Requirements

Four courses, each from a different geographical region listed above.

HAVC 80 may be used to fulfill the lower-division regional breadth requirement for regions 10 (Africa), 60 (Native Americas), or 70 (Oceania).

Upper-Division Requirements

Nine courses, as follows:

- 100A recommended during sophomore year. Because 100A is a prerequisite for other courses, if it is not completed by the end of the junior year, students may have difficulty enrolling in required courses and graduation may be delayed.
- 101–191: eight courses required, including a seminar (190s and 191s) to satisfy the senior comprehensive (see Comprehensive Requirement below).

In completing upper-division course work, students must complete three upper-division courses (courses 101–191) from three different regions. Two of those regions must be a geographical area not studied at the lower-division level.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. Students in history of art and visual culture meet the DC requirement by completing course 100A.

Senior Comprehensive Requirement

All seniors must complete one seminar, 190–191, as their “senior exit” course to satisfy the senior comprehensive requirement. Seminars can be taken for senior exit credit only by permission of the instructor. Within the context of this advanced seminar, students will work under the close supervision of their professor to produce a written project that demonstrates a high level of achievement in research, writing, and critical thinking. Students whose performance is outstanding are eligible for honors in the senior comprehensive.

Concentration in Religion and Visual Culture

This program is for students who wish to pursue the study of religion in conjunction with studies of visual culture. A student enters the concentration by proposing, in consultation with their faculty adviser, a sequence of upper-division courses to fulfill the religion and visual culture requirements. The declaration of major requirements for the religion and visual culture concentration are the same as those listed in the Declaration of Major

section. The faculty adviser for the religion and visual culture concentration is Raoul Birnbaum.

Requirements for the Religion and Visual Culture Concentration

Fifteen courses, as follows:

- Four lower-division courses (each from a different geographical area)
- 100A recommended during sophomore year. Because 100A is a prerequisite for other courses, if it is not completed by the end of the junior year, students may have difficulty enrolling in required courses and graduation may be delayed.
- 101–191: five courses that focus on the study of religion
- 190–191: one seminar (190s and 191s) to satisfy the senior comprehensive (see Comprehensive Requirement above).
- Four relevant upper-division courses in the study of religion from programs on campus such as anthropology, history, literature, and philosophy. (For a complete list of approved courses, please see the departmental web site: <http://havic.ucsc.edu/program/religion>.)

Minor Requirements

Nine courses, as follows:

- lower-division: three courses from three different geographical regions;
- upper-division: six courses planned in consultation with a faculty adviser.

Department Advising

Undergraduate Adviser

The undergraduate adviser offers specific information about navigating through the program and the curriculum and assists students with requirements, prerequisites, policies and procedures, learning support, scholarships, and special opportunities for undergraduate research.

Faculty Advisers

Faculty are the best resource for learning about the philosophies and foundations of history of art and visual culture. Faculty advisers work individually with students to develop a specific course of study, recommend additional courses of interest, and discuss long-term career goals including education beyond the baccalaureate. A faculty adviser is assigned to each student by the undergraduate adviser during the declaration of major meeting.

Languages

All majors are encouraged to study at least one foreign language. Graduate programs in visual culture, art history, and other related disciplines generally require competence in one or more languages beyond English. Students are encouraged to consult with their faculty adviser to discuss an appropriate course of language study.

Transfer Students and Transfer Credit

As preparation, transfer students are encouraged to fulfill at least two (and a maximum of three) lower-division history of art and visual culture requirements prior to transfer. Refer to the ASSIST articulation agreements at www.assist.org for approved lower-division courses. A student may transfer up to six art history courses toward the major, only three of which may be upper division. Upper-division transfer credit is evaluated on a case-by-case basis and must be approved by the student's faculty adviser. Transfer students are strongly encouraged to contact the History of Art and Visual Culture Department for advisement before enrolling at UCSC.

Study Abroad

The University of California's International Office of Education offers numerous programs abroad in countries throughout the world. Students may receive transfer credit for a maximum of three upper-division art history courses taken through Programs Abroad (see Transfer Student/Transfer Credit above). Many Programs Abroad require competency in a language besides English (see Languages above). Students should make every effort to consult with a faculty member about their course of study before going abroad.

Careers

The preparation students receive from the baccalaureate of arts degree in history of art and visual culture provides skills that can lead to successful careers in education, law, business, and social services, in addition to a more specific focus on museum curating, art restoration, studies in architecture, and studies in art history leading to a graduate degree.

Graduate Study

There are many graduate programs that lead to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in fields such as art history, visual studies, cultural studies, history of religions, theory and criticism of art, etc.. Most graduate programs require a reading knowledge of one or two languages other than English (see Languages above). Students who are contemplating graduate study should consult with their undergraduate and faculty advisers as early as possible in their undergraduate careers.

Graduate Program

The History of Art and Visual Culture Department offers a course of study leading to the Ph.D. in visual studies. The Ph.D. is designed to steep our graduates in the most theoretically relevant methodologies for understanding the significance of visual artifacts and the social and cultural qualities of human vision (termed *visuality*); provide students with exposure to a range of cultural perspectives and visual artifacts drawn from around the world; and cultivate in our graduates the necessary skills and knowledge to secure and excel in academic and curatorial positions. The program is both interdisciplinary and flexible. Students work closely with their advisers and the director of graduate studies to craft personalized courses of study that advance their intellectual and professional goals.

The program employs a wide range of visual evidence for examination, without being constrained by traditional hierarchies of art. Fine arts, architecture, photography, film, performances, utilitarian objects, and popular entertainments all are primary source material for scholars in the field. The program at UCSC is particularly adept at illustrating significant differences in how disparate cultural groups interpret their visual worlds, given the breadth of cultural perspectives taught by our faculty. With scholars focusing on cultures in Africa, the Americas, Asia, Europe, and the Pacific Islands, visual studies at UCSC offers students an unparalleled opportunity to consider the role of social and cultural forces in guiding how and what their members see.

Graduate Program Requirements

Students entering with a B.A. take a total of twelve, 5-credit graduate courses during their first two years of study, comprised of four core courses and eight electives.

The four core courses must be taken within the first two years: HAVC 201, Introduction to Visual Studies (fall); HAVC 202, Critical Theory (winter); and HAVC 203, Theories and Histories of Seeing (spring, taken twice). Students entering with an M.A. in visual studies will meet their core courses requirements after taking Theories and Histories of Seeing once.

Those entering with an M.A. are eligible to petition to exempt courses. In general, a student entering with a non-visual studies M.A. may petition to waive up to four electives, and a student entering an M.A. in visual studies may also petition to waive the fourth core course (the second Theories and Histories of Seeing). The petition to exempt courses may be submitted any time after a student is accepted into the program, but first should be discussed with the assigned faculty adviser and the director of graduate studies. To receive exemption, the petition must be approved by the visual studies graduate committee.

Of the eight elective courses, at least four must have a visual-studies designation, and at least three courses must be drawn from departments outside of visual studies. For

students entering with an M.A. who have successfully petitioned to have four elective courses waived, the distribution between visual studies courses and courses outside the department will be decided in consultation with the academic adviser and the director of graduate studies.

Field Clusters/Field Specialties

Appreciating that most of our graduates will be required to fit themselves back into traditional disciplinary structures once they enter the academic job market, the program is designed to provide students with both new means of interpreting visual evidence and suitable depth of understanding in older disciplinary traditions. While all graduates will acquire a shared foundation in theories of visibility (attained through our core course requirements), individual student programs vary considerably depending on the type of department in which the student hopes to secure employment after graduation. In addition to completion of the core courses required of all students, each student will develop a cluster of individualized field courses in consultation with their adviser based on her/his particular professional goals.

To provide our students with the disciplinary background to facilitate employment within curatorial departments in museums and non-visual studies departments at colleges and universities, each student is required to take a minimum of four, 5-credit courses in a disciplinary cluster (beyond the core course requirements). This requirement pertains both to students entering with a B.A. and an M.A. Acceptable field cluster courses might center around a medium (i.e., painting or architecture), a temporal/stylistic category (i.e., Early Modern or Postmodernism), a cultural, national, or social group (i.e., Pacific Islanders or China), or a disciplinary approach (i.e., cultural anthropology or gender studies). Field clusters are developed in consultation with the student's adviser based on the student's intellectual and professional goals. To count toward the degree, field clusters must receive prior approval from the visual studies graduate committee.

Language Requirement

Students must demonstrate reading knowledge of one foreign language prior to the start of their second year (either through attainment of a score of 550 or higher on the Educational Testing Service Graduate Student Foreign Language Test or through passage of a reading examination administered by the department).

Students are encouraged to master a second foreign language. Based on a student's area of interest, and the joint assessment of the student's adviser and the director of graduate studies, proof of proficiency in an additional language or languages may be required prior to the student being admitted to candidacy for the Ph.D. Should proficiency in additional languages be required, it must be demonstrated prior to the close of the student's third year of study.

Qualifying Examinations

After completing all course work and passing one language examination, students are required to pass a qualifying examination prior to the close of the fall quarter of their third year, unless a petition for an extension, demonstrating reasonable cause, is approved by the visual studies graduate program committee. The qualifying examination is divided into three topic areas, with each one including a written and an oral component. Each topic area should display historical breadth and variety of media. Two of the topic areas should ideally relate to the future dissertation topic, while one of the remaining must constitute an outside area, examining a topic that is chronologically, geographically, and/or methodologically distinct from the other two.

Prior to the end of his/her second year, a student who entered the program with a B.A. should consult with his/her adviser to assemble a group of four faculty members who will serve as examiners and aid the student in assembling the necessary topic areas, compiling the needed reading lists, and preparing for the written and oral components of the examination in each area. The examination will have two parts. In part one, each student will respond in writing to three general questions, posed by three of their examiners in the pre-arranged topic areas. In part two, each student will gather together with his/her examiners to field questions probing and clarifying the previously submitted written component of the qualifying examination. In order to pass the qualifying examinations, the student must receive the unanimous endorsement of the committee members.

Advancing to Candidacy

Advancement to candidacy follows and is contingent upon passing the qualifying examinations, all needed language examinations, and the subsequent appointment of a dissertation reading committee of at least three members.

Dissertation

After advancing to candidacy, a student must complete an approved dissertation prospectus, a colloquium, and dissertation, and pass an oral defense of the thesis. A written dissertation prospectus is due no later than the end of the second quarter following the student's completion of the qualifying examinations. The prospectus is a brief, concise essay (with bibliography) that defines the scope, methodology, and rationale for the proposed dissertation. It is prepared in consultation with the student's dissertation director, who must approve of the document prior to scheduling the colloquium.

The dissertation director, in consultation with the student and director of graduate studies, will invite four to five faculty members, in appropriate fields, to attend the colloquium and provide input on the prospectus and assess the student's preparedness to begin researching and writing the dissertation. Faculty participating in the colloquium need not be members of the dissertation committee, but should represent faculty whose expertise has bearing on the student's project. A student will pass the colloquium after having demonstrated to the satisfaction of all colloquium committee members adequate preparation to begin researching and writing the dissertation. The dissertation itself must make a significant and original contribution to the field of visual studies, as judged by each dissertation committee member.

Final Examination

An oral defense of the dissertation is the only final examination requirement, unless a petition to waive the oral defense, demonstrating reasonable cause, is approved by the student's primary adviser and the visual studies graduate program committee. The student's dissertation committee, under the supervision of the director of graduate studies, will conduct the examination. In the event that the director of graduate studies serves on the dissertation committee, the chair of History of Art and Visual Culture will oversee the defense. Interested faculty and students in the visual studies program will have the opportunity to observe the defense.

Designated Emphasis

Graduate students enrolled in doctoral programs at Santa Cruz may obtain a Designated Emphasis in visual studies on their Ph.D. degree by meeting the following requirements:

- Secure approval from a core member of the visual studies faculty to serve as an adviser for their Designated Emphasis.
- Have at least one core member of visual studies serve on either their qualifying exam or dissertation committee.
- Submit a significant piece of writing that demonstrates competency in the field. The writing could take the form of a seminar paper or dissertation chapter. The essay must meet the approval of the student's visual studies adviser.
- Successfully complete four graduate courses taught by either core or affiliated members of the visual studies program. The courses must form a coherent cluster in visual studies and be pre-approved by the student's Designated Emphasis adviser.

Normative Time from Matriculation to Degree

The visual studies Ph.D. program at UCSC is designed to require six years for students matriculating with a B.A. and five to six years (depending on advanced standing granted) for those entering with an M.A. The pre-candidacy period is two years for students entering with a B.A. and a minimum of one year for those arriving with an M.A. in visual studies. During this period students will devote themselves to coursework, completion of the language examination, some teaching, and, ideally, our teaching-related independent study course. Students will show competency in one foreign language prior to the start of their second year, and show competency in additional foreign language(s), as required, by the close of their third year, pass their qualifying examinations during the fall quarter of their third year, complete an approved version of their prospectus and schedule their

colloquium for a date prior to the close of the spring quarter of their third year, and finish their dissertation and successfully defend it before the end of their sixth year.

Faculty and Professional Interests

Lower-Division Courses

7. Issues in the Arts. *

Interdisciplinary examination of various topics and issues in the arts featuring invited guest speakers. (Also offered as Art 7. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): IM.) E. Cameron

10. Introduction to African Visual Culture. *

An interdisciplinary approach to the study of the basic structures (gender, art within political sphere, and spiritual aspects of visual culture) and cultural institutions (initiations, closed associations, kingship, title association, etc.) around which the study of African visual culture revolves. (General Education Code(s): CC.) E. Cameron

20. Visual Cultures of Asia. W

An introduction to the art and architecture of East Asia, including China, India, Southeast Asia, and Japan. In order to achieve a fuller understanding of the arts of these countries a historical, cultural, and religious context is provided. (Formerly course 10D, Presence and Power in the Visual Cultures of Asia.) (General Education Code(s): CC, IH, A.) The Staff

22. Religion and Visual Culture in China. *

Introduction to the study of religious currents and practices in China and their visual expression. In addition to "religious art," topics include such pivotal matters as body concepts and practices, representations of the natural world, and logics of the built environment. (Formerly course 80G.) (General Education Code(s): CC, A, E.) R. Birnbaum

24. Southeast Asia Visual Culture. S

Introduces the visual cultures of Southeast Asia. Topics include indigenous megalithic art, textiles, and jewelry, as well as Hindu and Buddhist art and architecture. Also considers shadow play and dance performance as alternative lenses to looking at ritual and visual narratives rendered on stone temples. (Formerly course 10C.) (General Education Code(s): CC, IH, A, E.) B. Ly

27. Image and Ideology in Indian Art. *

- Computer Engineering
- Computer Science
- Cowell College

- Microbiology and Environmental Toxicology
- Music
- Oakes College
- Ocean Sciences
- Philosophy
- Physical Education
- Physics

Examination of the ways social, religious, and political patronage have affected the production and reception of art in the Indian subcontinent. The course is designed as a series of case studies from different periods of Indian history. (Formerly course 80N, Indian Art: Image and Ideology.) (General Education Code(s): IM, A, E.) K. Thangavelu

30. Introduction to European Visual Culture. *

An introduction to the European tradition in visual culture, from antiquity to the present, but not in chronological order. All media, including the fine arts, architecture, film, video, and installation and performance work are incorporated. Presents the major visual regimes of representation while it probes the meanings and limits of Europe and the European tradition in the context of the visual. (Formerly course 10G, Europe.) (General Education Code(s): IM, IH, A.) The Staff

31. The Nude in the Western Tradition. S

The human body without clothing in European and European–American art and visual culture from ancient Greece to the present day. Among the themes to be addressed: gender, youth and age, sexuality and sexual preference, fecundity and potency, erotic art and pornography, primitivism and the naked body of the non–European. (Formerly course 10F.) (General Education Code(s): IM, IH, A.) D. Hunter

40. Museum Cultures: The Politics of Display. F

Explores the history of collecting and displaying art (museums, galleries, fairs) since the mid–19th century and the effect of institutional changes on aesthetic conventions. Follows the history from the origins of museums and collections to contemporary critiques of institutional exclusion and misrepresentation. (Formerly course 80D.) (General Education Code(s): IM, A.) The Staff

41. Modern Art in Context. *

Examines the social, economic, and political significance of European and U.S. modernist art and architecture, moving from French realism to American minimalism. Provides the historical background and theoretical frameworks needed to make sense of modernist art and culture. (Formerly course 80V.) (General Education Code(s): IM, A.) M. Berger

43. History of Modern Architecture. F

Examines the origins and development of modern architecture, from the Enlightenment and the Industrial Revolution to the 20th Century and beyond. Buildings, urban plans, and works of art and design are discussed in relation to political, social, and cultural currents. (Formerly course 46.) (General Education Code(s): IM, IH, A.) The Staff

45. Photography Now. W

Explores recent methods and approaches in photography. Surveys significant aesthetic, conceptual, and theoretical shifts occurring in the photographic medium and related discourses. Special attention given to the "current" landscape of contemporary photography (1980–present). (General Education Code(s): IM.) D. Murray

46. Introduction to U.S. Art and Visual Culture. *

Overview of U.S. art and visual culture form the late 18th Century to the present. Examines art as evidence for understanding evolving beliefs and values of Americans. Explores the social and political meanings of art, and pays particular attention to how artists, patrons, and audiences have constructed nationalism, race, class, sexuality, and gender. (General Education Code(s): IM.) M. Berger

50. Ancient Mediterranean Visual Cultures. *

The role that ancient art and visual culture play in constructing social identities, sustaining political agendas, and representing various cultural, ritual, and mythological practices in Mesopotamia, Egypt, Greece, and Rome, including the sociology of ancient cultures, mythology, religious studies, gender studies and history. (Formerly course 80E.) (General Education Code(s): IM, A.) The Staff

51. Greek Eyes: Visual Culture and Power in the Ancient Greek World. *

The central role of visual communication in ancient Greek civilization: examines the construction of cultural, social, political, religious, and gender identities through material

objects and rituals. Includes discussions of images of the public and private sphere, athletic and theatrical performances, mythology, pilgrimage, and magic. (Formerly course 80X, Greek Eyes: Visual Culture and Power in the Ancient Greek.) (General Education Code(s): IM, A.) M. Evangelatou

58. Gardens of Delight: Fifteen Centuries of Islamic Visual Culture. F
Examines some of the most representative creations of Islamic visual culture from the 7th Century to the present in order to appreciate the richness of this tradition and its extensive influence on other cultures. Focuses on the social, political, and religious role of a variety of materials, from mosques, palaces, and gardens to visual narratives, ceremonies, dance, and contemporary films. (Formerly course 180.) (General Education Code(s): CC, A, E.) M. Evangelatou

60. Indigenous American Visual Culture. *
Selected aspects of art and architecture of the first peoples of the Americas, north, central, and south, from ca. 2000 B.C.E. to present. Societies to be considered may include Anasazi, Aztec, Inca, Northwest Coast, Maya, Navajo, Plains, and others. (Formerly course 80M.) (General Education Code(s): ER, A, E.) C. Dean

70. Visual Cultures of the Pacific Islands. S
Interdisciplinary course examines visual cultures of Australia, Melanesia, Micronesia, and Polynesia from the archaeological past through contemporary periods. (Formerly course 105P.) (General Education Code(s): CC, A, E.) S. Kamehiro

80. Colonial Histories and Legacies: Africa, Oceania, and the Indigenous Americas. W
A comparative study of the arts of selected cultures which developed outside the spheres of influence of the major European and Asian civilizations. Emphasis is on the function of the arts in these disparate geographic regions. Students cannot receive credit for this course and course 100E. (Formerly course 10E, Africa, Oceania, and the Americas.) (General Education Code(s): CC, IH, A, E.) S. Kamehiro

99. Tutorial. F,W,S
Supervised study for undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper-Division Courses

100A. Approaches to Visual Studies. W
Introduction to major issues of method and critique in study of art and visual culture. Focuses on understanding disciplinary and critical modes of scholarly inquiry in the visual arts, including role of historical research. Emphasizes intensive reading, discussion, and writing. Course 100A is a prerequisite for all History of Art and Visual Culture seminars. (Formerly Methods in History of Art and Visual Culture) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior History of Art and Visual Culture majors and minors. (General Education Code(s): W,A.) D. Hunter

110. Visual Cultures of West Africa. *
Explores visual cultures of West Africa through time (Nok to present). Attention paid to relationships between peoples and impact of European/Arab presence on visual cultures. Prerequisite(s): course 10 or 80 recommended. (Formerly course 107B, West Africa.) (General Education Code(s): CC, A, E.) E. Cameron

111. Visual Cultures of Central Africa. *
Examination of visual cultures of Central Africa within a historical sequence from the Sanga archaeological excavations to contemporary easel painting. (Formerly course 107A, Central Africa) Prerequisite(s): course 80 suggested. Enrollment restricted to sophomores, juniors and seniors (recommended). (General Education Code(s): CC, A, E.) E. Cameron

115. Gender in African Visual Culture. *
In Africa, relationships exist between gender and visual culture. Course examines where categories come from, differences in men's and women's visual cultures, and how visual cultures teach, reinforce, and negotiate gender definitions. When are male/female

boundaries crossed, and why? (Formerly course 185B, Gender.) (General Education Code(s): A, E.) E. Cameron

116. African Architecture. *

Study of the built environment in Africa. Focusing in depth on 10 major architectural forms or sites, this course explores the diversity of architectural types and how gender, politics, religion, and culture shape and are shaped by architectural spaces. (Formerly course 185C.) (General Education Code(s): A, E.) E. Cameron

117. Contemporary Art of Africa. *

Examines contemporary arts in post-colonial Africa, 1960-present, including new popular cultural forms; arts resulting from new class and national structures; commodification of culture; Pan-Africanism; exhibitionism; and questions of destiny. (Formerly course 185D.) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): IM, A, E.) E. Cameron

118. Art of the Contemporary African Diaspora. *

Considers contemporary art by African artists operating in metropolitan centers, as well as Afro-British, Afro-Caribbean, and African-American production. Topics are organized thematically and address constructing and deconstructing the idea of Africa; cultural authenticity; diaspora; Creolité and creolization; hybridity; cosmopolitanism; post-black; and globalism in the arts. (Formerly course 189Y.) Recommended: background in art history. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): A.) The Staff

122. Visual Cultures of China.

122A. Sacred Geography of China. *

An examination of the close relationship of religious traditions and the natural world in China, and its expression in visual representation. Particular emphasis on the ways in which competing groups sought to define or re-envision an understanding of the terrain. (Formerly course 154A.) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC, A.) R. Birnbaum

122B. Constructing Lives in China: Biographies and Portraits. *

Consideration of biographies and portraits in China as representations of human types and individuals, and the use of these representations as models for constructing lives. Attention to historical and social contexts, early times to present. Special focus on Chinese Buddhist traditions. A previous course that focuses on traditional China or Buddhist studies strongly recommended. (Formerly course 155.) (General Education Code(s): CC, A, E.) R. Birnbaum

122C. Writing in China. *

Examines material and conceptual phenomena of writing in Chinese visual culture. Focuses on the intersections of places and practices of writing through various inscribed sites, ranging from oracle bones, seals, and mountain facades to hand scrolls, architecture, and contemporary art. (Formerly course 159D.) (General Education Code(s): A.) The Staff

122D. Chinese Landscape Painting. *

Examines the history and significance of the subjects most prominent in Chinese painting during the past one thousand years, focusing on the cultural factors that made landscape a fundamental value in the Chinese tradition and the methods whereby painters created pictorial equivalents. (Formerly course 159B.) (General Education Code(s): IM, A.) The Staff

123. Visual Cultures of South Asia.

123A. Modernity and Nationalism in the Arts in India. *

Deals with artistic responses to the forces of modernity, colonialism, industrialization and globalization in India during the 19th and 20th centuries. Addresses the complex and often painful climb toward re-establishing a truly Indian artistic identity. (Formerly course 189D.) (General Education Code(s): A, E.) K. Thangavelu

123B. Religions and Visual Culture of South Asia. *

South Asia is the home of many religions (Hinduism, Buddhism, Jainism, Islam, and Sikhism). Introduces the role images (painting, sculpture, architecture, photography, film) play in shaping these diverse religious traditions. (Formerly course 106A.) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC, A, E.) B. Ly

124. Visual Cultures of Southeast Asia.

124A. Arts of Ancient Southeast Asia. W

Focuses on Hindu and Buddhist arts of ancient Southeast Asia (Indonesia, Cambodia, Vietnam, and Thailand). Materials covered include indigenous megalithic arts, stone sculptures, and monumental temple architecture such as Angkor Wat, Borobudur, Prambanan, and the Bayon. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. Ly

124B. History of Photography in Southeast Asia. *

Examines how photography was used in Southeast Asia to document the racial difference and the exotic "Others" under the regime of colonialism. Considers the role photography played in "documenting" the Vietnam–American War and how contemporary Southeast Asian–American artists challenge this photographic history in their art. Enrollment restricted to sophomores, juniors and seniors. (General Education Code(s): CC.) B. Ly

124C. Arts and Politics in Theravada Traditions. *

Consideration of the arts and architecture in Theravada Buddhist traditions in Sri Lanka and Southeast Asia. Topics and themes include ritual, relics, visual narrative, mural painting, contemporary art, mass–meditation movement, and political protest. (Formerly course 163B.) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC, A.) B. Ly

124D. Contemporary Art of Southeast Asia and its Diaspora. *

Examines the respective national notions of modernity in the region through a comparative lens. How global capital flow and transnational cultural exchanges impact the production of arts of Southeast Asia and its diaspora. Themes and issues include: colonialism and art education; nationalism; identity politics; memory; trauma; gender; race; sexuality; and the body. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. Ly

127. Topics in Cross–Regional Studies in Visual Cultures of Asia.

127A. Buddhist Visual Worlds. F

Introduction to the study of Buddhist visual traditions, from their beginnings to the present day. Case studies examined with careful attention to historical, social and cultural contexts; particular emphasis on the relation of visual traditions to Buddhist practices. (Formerly course 114.) Enrollment restricted to sophomore, junior, and senior students. (General Education Code(s): IM, A.) R. Birnbaum

127B. Buddhist Pure Lands. *

Conceptions of "pure lands" have engaged the imaginations of Mahayana Buddhists for more than two millennia. Course considers literary and visual representations of pure lands and their inhabitants, as well as related practice traditions. Special emphasis on Chinese traditions. Previous courses in Asian visual cultures and/or Buddhist studies recommended. (Formerly course 154D.) (General Education Code(s): CC, A.) R. Birnbaum

127C. Ritual in Asian Religious Art. *

Examination of interaction between image and ritual in Asian religious art. Case studies from different historical periods and geographical locations (e.g., China, Tibet, Japan, Indonesia, India). Examples include mandalas, ritual bronzes, tankas, sacred caves, temples, tea ceremonies, and calligraphy. (Formerly course 105E.) (General Education Code(s): IM, A, E.) The Staff

127D. Storytelling in Asian Art. *

Combination of theoretical perspectives on narrative from literary criticism, rhetoric,

folklore, and film theory with art historical focus on images (cave temples, stone reliefs on stupas, scrolls, dance-drama, etc.) from India, Pakistan, China, Japan, Cambodia, and Indonesia. (Formerly course 160.) (General Education Code(s): A, E.) The Staff

133A. Themes in the Study of Medieval Visual Culture. *

Many issues associated with contemporary artistic production and visual culture originated in the Middle Ages. Themes to be considered: role of secular art; women as artists and patrons; aesthetic attitudes; relationship between cultures in holy war, crusade, and pilgrimage. (Formerly course 129.) (General Education Code(s): IM, A.) V. Jansen

135. History of Art and Visual Culture in Europe.

135B. German Art, 1905–1945. *

Expressionism, agitprop, the Bauhaus, New Objectivity, attacks on modernism, National Socialist realism. Painting, sculpture, graphic art, and some architecture and film, studied in the context of political events from the eve of World War I to the end of World War II. (Formerly course 136.) (General Education Code(s): IM, A.) D. Hunter

135D. French Painting, 1780–1855. W

The art of David, Gros, Ingres, Gericault, Delacroix, the Barbizon School, and Courbet studied in relation to the changing status of the art and the political events from 1789 to 1848. (General Education Code(s): IM, A.) D. Hunter

135E. Jewish Identity and Visual Representation. *

An exploration of the theoretical and practical or experiential applications of Jewish identity in European visual representation. Brief background on pre-emancipation textual and cultural issues followed by study of the Jewish subject and Jewish subjectivities in modernity. (Formerly course 172.) Enrollment restricted to juniors and seniors. (General Education Code(s): IM, A, E.) The Staff

135F. History of the Book. *

History of book production and use in the West from antiquity to modern times. Development from roll to codex and from script to print. Emphasis on the relationship between text and image. Class conducted in Special Collections, McHenry. Exhibition as class project. (Formerly course 153.) (General Education Code(s): A.) E. Remak-Honnef

137. Renaissance.

137A. Northern Renaissance Art. <*

Considers the painting and prints produced in Northern Europe in the 15th and 16th centuries. Major issues include the status of realism and classicism, the role of religion and religious reform, and the rise of popular imagery. (Formerly course 105R.) (General Education Code(s): A.) The Staff

137B. Italian Renaissance: Art and Architecture. W

Lives of Italian Renaissance people from birth to death, examining the nature and roles of the institutions which defined human existence in this period. Uses visual arts both illustratively and to study how institutions fashioned their images through art and architecture. (Formerly "Italian Renaissance: Representation and Institutions.") (General Education Code(s): IM, A.) A. Langdale, The Staff

137C. High Renaissance. *

An investigation of the High Renaissance as a period and stylistic concept, using the major artists and monuments of the period 1480–1525 to discuss issues of theory, history, and art. Artists considered include Leonardo da Vinci, Michelangelo, and Raphael. (Formerly course 168.) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): IM, A.) The Staff

137D. Art of the Venetian Renaissance. *

Considers Venetian art in the 15th and 16th centuries. Topics include major artists (the Bellini, Carpaccio, Titian, Tintoretto, Veronese, Palladio) and the relationship of the city to outside forces (Byzantine Empire, Turkish Empires) and other Italian cities. (Formerly

course 189V.) (General Education Code(s): IM, A.) The Staff

137E. Renaissance Prints. *

Examines the issues surrounding the technology and uses of printed images from the early Renaissance through the end of the early modern period. Topics may include the political, religious, and satirical uses of prints and the representation of women in prints. (General Education Code(s): IM, A.) The Staff

140. History of Art and Visual Culture in the U.S..

140A. America in Art. *

Introduction to American visual arts: architecture, painting, photography, sculpture, and performance art, from the nineteenth through the twenty-first century. Explore social and political meanings of art and what art reveals about our nation's values and beliefs, in particular, gender and race. (Formerly course 126.) (General Education Code(s): IM, A.) M. Berger

140B. Victorian America. W

Examines how American writers and artists negotiated complexities of U.S. society during the 19th century. Emphasis on issues ranging from women's rights to laissez-faire capitalism, and from Reconstruction to manifest destiny. Considers how the era's cultural products provided artists, patrons, and audiences with metaphorical coping strategies to counteract what Victorians perceived to be the period's overwhelming social and political changes. (Formerly course 178A.) (General Education Code(s): IM, A.) M. Berger

140C. Race and American Visual Arts. *

Investigation of the role played by visual arts in fashioning racial identities of European-Americans, African Americans, Native Americans, and Latinos in the United States. (Formerly course 156.) (General Education Code(s): ER, A, E.) M. Berger

140D. Chicano/Chicana Art: 1970–Present. *

Taking the terms "Chicano" and "Chicana" as a critical framework, addresses cultural and conceptual themes in visual art production since 1970. Questions concerning aesthetics, identity, gender, and activism in painting, photography, murals, and installation art explored. (Formerly course 182.) (General Education Code(s): ER, A, E.) J. Gonzalez

141. Modern Art and Visual Culture in Europe and the Americas.

141A. Modern Art: Realism to Cubism. F

Modern art in Europe and America, 1848–1914. Consideration of painting, graphic arts, and sculpture in Realism, Impressionism, Post-Impressionism (Symbolism) Art Nouveau, Fauvism, and Cubism as well as exploration of photography's changing status and influence. Lower-division work in modern art, literature, or history is recommended as a prerequisite. (General Education Code(s): IM, A.) D. Hunter

141B. Modern Art: Cubism to Pop. W

From Paris to New York, cubism to conceptual art, an introduction to visual arts and theories of representation produced in the U.S. and Western Europe between 1910 and the 1960s, with attention to the social and political role of the art market, criticism, and censorship. (Formerly Surrealism to Postmodernism) (General Education Code(s): IM, A.) J. Gonzalez

141C. Modern Art: Pop to Present. S

Surveys major art forms and critical ideas that have shaped artistic practice from the 1950s to the present, including an overview of the socio-political, economic, and cultural forces that inspire artists to articulate human experience in visual form. (General Education Code(s): IM.) D. Murray

141E. Histories of Photography. S

Introduction to the histories of photography and the critical debates around different photographic genres such as medical photography, art photography, and political photography. Students will develop a critical language in order to analyze photographs

while considering the importance of social and institutional contexts. (Formerly course 149A.) (General Education Code(s): IM, A.) J. Gonzalez

141F. The Camera and the Body. *

Through the study of historical and contemporary visual texts (from ethnography and portraiture to advertising and erotica), this course explores how photographic images of the body, while masquerading as "natural," "self-evident," or "scientific," participate in highly coded sign systems that influence who looks at whom, how, when, and why. (Formerly course 180.) (General Education Code(s): IM, A.) J. Gonzalez

141H. Media History and Theory. F

An introductory examination of the writing about the issue of "medium" and media theory in visual culture. Technologies, discourses, and practices from all periods that use the comparison of media as a major approach to understanding the problems of the visual are highlighted. New media, film, television, video, traditional arts are also treated. (Formerly course 131.) (General Education Code(s): IM, A.) The Staff

141I. Environments, Installations, and Sites. *

A study of conceptual and formal issues that have informed the production of temporary, site-specific art works since 1960. Works that seek to transform the role of the audience, to escape or remake museum and gallery spaces, to introduce environmental concerns, or to situate art in "the land" or in "the street" serve as a focus. (Formerly course 181.) Enrollment limited to 35. (General Education Code(s): IM, A.) J. Gonzalez

141J. Critical Issues in Contemporary Art and Visual Culture. F

Considers the relationship between art, cinema, and postmodernism. Specific, thematically oriented topics are considered including: the impact of cinema aesthetics on contemporary art; film and digital technology; cinematic structure as cultural critique; and filmic strategies as an ideological tool. (General Education Code(s): IM.) D. Murray

141K. Activist Art Since 1960: Art, Technology, Activism. *

Students explore art and technology produced for social change since 1960 within the context of major historical ruptures, such as the Vietnam War, the women's movement, environmental protection, AIDS activism, anti-capitalist, and international human rights movements. (Formerly course 141C.) (General Education Code(s): IM, A, E.) The Staff

141M. Museum Practices. W

How are museums organized, categorized, visited? How are objects physically handled, documented, and displayed? Going beyond the practical, course interrogates the concepts that practice is based on and the impact these concepts have on society and cultures in the United States. Prerequisite(s): course 40 and permission of the instructor. Enrollment limited to 40. E. Cameron

143. Architecture.

143A. Contemporary Architecture and Critical Debates. S

Examination of practitioners, projects, issues, and theories in contemporary architecture circa 1968 to the present. Topics include the architecture of aftermath, the ethics of memory and memorialization, the corporatization of museums, the role of criticism and exhibitions, and the cult of the brand-name architect. (Formerly course 124.) (General Education Code(s): IM, A.) The Staff

143B. History of Urban Design. *

Examines urban design from the Renaissance to the present, including Latin American colonial cities, Utopian plans, and sites such as Brasilia and Chandigarh. The course focuses on social justice, diversity, and the role of art and architecture. Enrollment restricted to juniors and seniors. (General Education Code(s): IM.) The Staff

143C. Latin American Modern Architecture. *

Presents Latin America's modern architecture with relation to colonization; the influence of immigrants from Europe, Africa, and Asia; the presence of indigenous cultures; and the search for autonomy. Case studies include Argentina, Brazil, Chile, Mexico, Venezuela, and

Uruguay. (General Education Code(s): CC, A, E.) The Staff

143D. Architecture and the City in Modern and Contemporary Visual Culture. W
Examines the modern and contemporary depictions of cities in visual and material culture, from paintings and photographs to logotypes and souvenirs. Also examines the roles of narrative in spatial representations, including literature, film, and television productions. Enrollment restricted to juniors and seniors. (General Education Code(s): IM.) The Staff

151. Greek Myths Antiquity to the Present. *

Myths dominated the culture and visual production of the ancient Greek world, and their presence is still strong today. How did they codify social, political, and religious realities and needs? How were they perceived in different time periods? In addition to ancient Greek and Roman and later European sculptures and paintings, this course considers less conventional sources, such as modern films, comics, and advertisements. Course 51 recommended as preparation.. (Formerly course 106I, Myth in Greek and Roman Art.) (General Education Code(s): IM, A.) M. Evangelatou

154. Byzantine Visual Culture: Politics and Religion in the Empire of Constantinople, 330–1453 A. C.. F

Centered on the capital city of Constantinople (modern Istanbul), the Hellenized and Christianized Roman Empire of the Eastern Mediterranean today known as Byzantium played a major, yet often overlooked, role in European history for more than a millennium. This course examines its visual production and relation to politics and religion in court and church ceremonial, expressions of Christian faith, and cultural interactions with Western Europe, Islam, and the Slavic world. (Formerly course 104A, Byzantine Visual Culture: Politics and Religion in New Rome, 300–1453 A. D.) (General Education Code(s): IM, A.) The Staff

155. Constructing Cleopatra: Power, Sexuality, and Femininity Across the Ages. S

The construction of female identity and the "production" of history through the myth of Cleopatra. Critical analysis of archeological data and ancient sources, later sculptures and paintings, and contemporary films, movies posters, Internet sites, advertisements, comics, games, dolls, and household objects. (General Education Code(s): IM.) M. Evangelatou

160. Topics in Pre-Hispanic Visual Culture.

160A. Pre-Hispanic Visual Culture: Mexico. S

Art and architecture of selected pre-Hispanic cultures from the gulf coast, central, western, and southern Mexico including the Olmec, Zapotec, Toltec, Mixtec, Mexica (Aztec), and others. (Formerly Pre-Hispanic Mexico.) Offered in alternate academic years. (General Education Code(s): IM, A.) C. Dean, The Staff

160B. Pre-Hispanic Visual Culture: The Andes. *

The art of selected pre-hispanic cultures of Colombia, Ecuador, Peru, and Bolivia including the Nazca, Moche, Chimú, and Inca. (Formerly Pre-Hispanic Andes.) (General Education Code(s): IM, A.) C. Dean

162. Advanced Studies in Pre-Hispanic Visual Culture.

162A. The Maya. F

The art and architecture of the Maya of southern Mesoamerica from the first century C.E. to ca. 1500. Courses 80, 60, or 160A recommended as preparation. (Formerly course 150A) (General Education Code(s): CC, A.) C. Dean

162B. The Inka. *

The visual culture of the Inka of the Andean region of western South America including textiles, metalwork, and the built environment. Courses 80 (formerly 10E) or 60 (formerly 80M) recommended as preparation. (General Education Code(s): CC.) C. Dean

163. The Native in Colonial Spanish America. *

Indigenous contributions to colonial Spanish American visual culture including architecture, manuscripts, sculpture, painting, textiles, feather-work, and metallurgy.

Focus on colonial Mexico, the Andes, and California. (Formerly course 151A.) (General Education Code(s): A, E.) C. Dean

170. Art of the Body in Oceania. F

Explores "art of the body," defined broadly, from various perspectives. Examines colonial representations of Oceanic bodies, self-representation through bodily adornment and display (including tattoo, scarification, body painting, ornament, and dress), and bodily metaphors in Oceanic visual cultures. (General Education Code(s): ER, A, E.) S. Kamehiro

172. Textile Traditions of Oceania. *

Investigates how textiles contribute to cultural fabric of Oceania. Explores women's roles in socioeconomic exchanges and cultural production; gender issues regarding production and function of Oceanic textiles; and history of processes, functions, and aesthetics. Prerequisite: Prior coursework related to Oceania recommended. (Formerly course 187A.) (General Education Code(s): CC, A, E.) S. Kamehiro

190. Seminars in the History of Art and Visual Culture.

190A. African Art and Visual Culture. *

Advanced seminar requiring intensive research and writing on changing topics related to a specific area of African art and/or visual culture chosen to demonstrate critical mastery of this subject. (Formerly course 191O.) Prerequisite(s): courses 100A, and 80 or 10. Enrollment restricted to history of art and visual culture majors or minors or by permission of instructor. May be repeated for credit. (General Education Code(s): A, E.) E. Cameron

190B. Play and Ritual in Visual Cultures. *

Compares how play and ritual construct worlds and regulate visual cultures—from dolls to "ritual" objects and performances. Attention given to areas where play and ritual overlap and the visual cultures that result. (Formerly course 191F.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A, E.) E. Cameron

190C. The Mediterranean from the Rise of Christianity to the Rise of Islam. S

Examines the visual culture of the Mediterranean from the 3rd to the 7th centuries A.D., focusing on the historical and cultural developments which led to the survival of the Eastern Roman Empire and its transformation to what we call Byzantium. (Formerly course 153.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors. (General Education Code(s): IM, A.) M. Evangelatou

190D. The World of the Lotus Sutra. W

Close study of the principal text of East Asian Buddhism as a self-enclosed vision of reality, with careful consideration of the forms and functions of the world of visual and aural representation that it has inspired. Prerequisite(s): course 100A and 127A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) R. Birnbaum

190E. Huayan Visions. *

Explores the distinctive conceptual world of the Buddhist Huayanjing (Avatamsaka-sutra) and its expression in visual forms. This long text, composed in Sanskrit and later translated into Chinese, is a principal scripture of the international Mahayana Buddhist traditions of Asia. (Formerly course 190I.) Prerequisite(s): course 100A; course 127A. An upper-division course in Buddhist studies is recommended. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) R. Birnbaum

190F. Chan Texts and Images. *

Examines selected issues in history of Chan (Zen) Buddhist traditions in China from medieval times to the present day. Concepts, methods, and visual expression of Chan practice situated through study of texts and visual materials. (Formerly course 191H.) Prerequisite(s): course 100A, and course 127A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) R. Birnbaum

190G. Buddhist Wisdom Traditions. *

Careful study of Mahayana Buddhist perfection--of-wisdom traditions--texts and related material culture, including visual imagery and illustrated books--with focus on the particular vision of reality that they aim to produce or reveal. (Formerly course 191Z.) Prerequisite(s): courses 100A and 127A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) R. Birnbaum

190J. Visual Cultures of the Vietnam-American War. *

Examines the visual culture of the Vietnam-American war and its legacy in contemporary art of Southeast Asia. Considers representations in different media: painting, drawing, photography, film, novels, and material cultures. Issues addressed include memory, trauma, identity politics, body, race, gender, pornography, and prostitution. (Formerly course 191A.) Prerequisite(s): course 100A or permission of the instructor. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): ER, A, E.) B. Ly

190K. Thematic Approach to Visual Cultures of Southeast Asia. *

Undergraduate seminar that takes topical and thematic approach to looking at ancient or modern and contemporary arts of Southeast Asia (e.g., textile, water in arts and architecture, comparative modernity, race, gender, and sexuality). The specific topic and theme varies from year to year. Prerequisite(s): course 100A, or by permission of instructor. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. Enrollment limited to 18. B. Ly

190M. Representations of Women in Indian Art. *

Deals with representations of the female divinity in Indian religious imagery, and of women in secular and courtly paintings. Also examines roles women play in the production of art in the Indian subcontinent. (Formerly course 190U.) Prerequisite(s): course 100A. Enrollment restricted to junior and senior history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A, E.) K. Thangavelu

190O. Berlin: History and the Built Environment. *

Explores Berlin's urban and architectural history through themes: the meaning of memory in architecture; the political and cultural implications of preservation, globalization, and tourism. Because these questions are relevant beyond Berlin, course draws comparisons with other cities. Prerequisite(s): course 100A. Enrollment restricted to junior and senior history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) The Staff

190P. Death and Patriotism: The Case of the French Revolution. *

What are the relations between the mortal body and politics in times of crisis? What purposes can death, or the threat of death, serve? Examines representations of executions, assassinations, and funerals during the French Revolution, with an emphasis on the Terror. Prerequisite(s): course 100A. Enrollment restricted to junior and senior history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) D. Hunter

190Q. Portraiture: Europe and America, 1400-1990. *

Western portraiture and self-portraiture at certain key moments (early modern Italy, 16th-century Germany, 17th-century Holland, France from the reign of Louis XIV to the Revolution, contemporary U.S.) are explored by reading 20th-century interpretations and some primary sources. This course can be taken for senior exit credit only by permission of the instructor. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) D. Hunter

190S. Critical Issues in Contemporary Art and Visual Culture. *

Explores how critical theory illuminates forms of cultural production, from art and cinema to popular culture. Considers how scholars, artists, and filmmakers use critical theory both creatively and in the study of aesthetic objects and experiences. Prerequisite(s): course

100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. D. Murray

190T. Topics in Pre- and Post-Columbian Visual Culture. S

Seminar on changing topics related to the current scholarship on pre-Hispanic and colonial Spanish American visual culture. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors or by permission of instructor. The Staff

190U. Word and Image in Illuminated Byzantine Manuscripts. *

Religious, scientific, and secular manuscripts of Byzantium: examines how words and images interacted to express and promote central concepts of Byzantine culture; serve liturgical needs of private devotion; reflect imperial ideals; diffuse moral values and knowledge; and proclaim social status and cultural affiliations. (Formerly course 190R.) Prerequisite(s): course 100A, and course 154 or permission of instructor. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) M. Evangelatou

190V. Cult of Mary in Byzantium. *

Why did the cult of the Virgin Mary become so important in Byzantine culture? Examines historical, cultural, theological, political, and social reasons for this development, seen through the interaction of Byzantine visual culture and literature. (Formerly course 191X.) Prerequisite(s): courses 100A and 154. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) M. Evangelatou

190W. Art and Culture Contact in Oceania. *

Examines impact of culture contact on Oceanic and Euro-American visual cultures in context of "discovery," colonialism, and "postcolonialism." Topics include 18th-century visual culture, colonial identities, primitivism, syncretism, impact of Christianity, contemporary art/market, media, tourism, transnationalism, and globalization. (Formerly course 190O.) Prerequisite(s): course 100A; prior course work related to Oceania recommended. Enrollment restricted to history of art and visual culture majors and minors, or by permission of instructor. (General Education Code(s): A, E.) S. Kamehiro

190X. Art and Identity in Oceania. F

Theoretical discussions and Pacific Basin case studies on 1) definitions of cultural, ethnic, and national identities; 2) relationship between art, museums, and construction of historical and cultural narratives; 3) ways "tradition" defined in art practices and used by groups to assert an identity in their present. Participants first develop a theoretical framework and vocabulary for analyzing artistic production in a variety of cultures. Through specific case studies, will explore how art, architecture, and museums actively contribute to define and challenge ethnic and national identities. (Formerly course 191P, Art and Identity in the Pacific: Creating and Challenging Ethnic and National Identities.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors, or by permission of instructor. (General Education Code(s): ER, A, E.) S. Kamehiro

191. Seminars in the History of Art and Visual Culture.

191A. Iconoclasm. *

What happens when, to control an object, it is destroyed? Examines destruction of art as a way of ending the object's life cycle, as a device of social tension/change, and as a colonial and post-colonial mechanism of religious/political control. (Formerly course 191C.) Prerequisite(s): course 100A; and course 80 or permission of instructor. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A, E.) E. Cameron

191B. The Virgin of Guadalupe: Images and Symbolism in Spain, Mexico, and the U.S. *

Focus on the histories of miraculous images of La Virgen de Guadalupe de Extremadura (Spain) and La Virgen de Guadalupe de Tepeyac (Mexico). The foundations and growth of the cult of the Mexican Guadalupe during the colonial period is examined along with the

multivalent symbolism of her image. Considers contemporary "appearances" of the Virgin of Guadalupe, from the miraculous images on a tree in central California and the compositions of Chicano artists, to mass-produced kitsch. (Formerly course 190B.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A, E.) C. Dean

191C. Subalternatives: Representing Others. *

Explores how visual representation (in fine art, popular art, film, and television) encodes difference in selected cultural and historical contexts. Considers (post)colonial image-making both as a strategy of domination as well as resistance. (Formerly course 190C.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): ER, A, E.) C. Dean

191D. Semiotics and Visual Culture. *

How can visual culture be understood as the production, circulation, and recirculation of signs? This course offers a history of semiotics and its methodological application in the analysis of images in popular culture and within the discipline of art history. (Formerly course 190S.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) J. Gonzalez

191E. Feminist Theory and Art Production. *

A close reading of works of art and theoretical texts by feminists working from 1970 to the present. The course encourages debate around the past, present, and future relevance of feminist theories to visual cultural studies, paying particular attention to issues of cultural and ethnic difference. (Formerly course 190T.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. Enrollment limited to 18. (General Education Code(s): A.) J. Gonzalez

191F. Image and Gender. *

Examines what visual representations (feminine and masculine) reveal of gender in 19th- and 20th-century European and American culture; how images reflect norms of gender; and how we are conditioned to read images in gendered terms. Explores how femininity and masculinity were conceived during historical periods and how gender ideals changed in response to social, political, and economic pressures. Students encouraged to consider the fluid nature of 21st-century notions of ideal femininity and and masculinity and possible alternatives. (Formerly course 190Y.) Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): A.) M. Berger

191G. Art, Cinema, and the Postmodern. *

Explores how theory can illuminate various forms of cultural production from art and cinema to popular and material cultures. Considers how scholars and visual producers utilize theory creatively and in the study of aesthetic objects and experiences. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. D. Murray

191H. History and Theories of Architectural Preservation. *

Examines the meanings of architectural preservation with relation to memory, identity, tourism, gentrification, and urban disasters. Combines the study of theories and concepts of preservation with examples of buildings and urban sites from the whole world. Prerequisite(s): course 100A; and one of the following or permission of instructor: course 43, 143B, 143C, or 143D. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. The Staff

191I. Topics in Architecture and Urban History. *

Focuses on selected topics in the history of art and visual culture. Topics vary depending on instructor. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. May be repeated for

credit. The Staff

191M. Museum Exhibitions. S

Students create and install an exhibition. Students take the roles of museum departments, moving the project from concept to installation. The impact exhibitions make in culture and society is examined throughout each step of the process. Prerequisite(s): courses 100A and 141M. Enrollment restricted to History of Art and Visual Culture majors and minors. Enrollment by instructor permission. E. Cameron

191N. Topics in Renaissance Art and Visual Culture. W

Seminar on changing topics related to the current scholarship on the art and visual culture of the Renaissance. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. May be repeated for credit. A. Langdale

191P. Topics in Contemporary Art. F,W

Addresses changing topics in contemporary art. The specific topic varies with each offering to keep up with new directions in scholarship. Prerequisite(s): course 100A. Enrollment restricted to history of art and visual culture majors and minors or by permission of instructor. (General Education Code(s): IM.) The Staff

195. Senior Thesis. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S

Independent field study away from the campus. Students submit petition to sponsoring agency. The Staff

198F. Independent Field Study (2 credits). F,W,S

Independent field study away from the campus. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201. Introduction to Visual Studies. F

Introduces the visual studies discipline and the History of Art and Visual Culture Department, providing students with an overview of the field's development, its issues of central concern, and its dominant research methods. Features intensive readings, student-led discussions, and exposure to some of the primary texts instrumental in the development of the field. Required seminar for all first-year visual studies graduate students. Enrollment restricted to graduate students. D. Sandler

202. Theories of the Visual. W

Offers detailed theoretical readings to familiarize students with the methodological frameworks and debates that laid the groundwork for the field as well as those that have proven productive for practitioners of visual studies. (Formerly Critical Theory.) Enrollment restricted to graduate students. D. Murray

203. Theories and Histories of Seeing. S

Provides an in-depth case study of the visual practices and culture of a specific society. Builds on the foundation established by courses 201 and 202, offering sustained application of the general methods and theories to which students were previously introduced. The society under consideration rotates each year depending on the research interest of the faculty member teaching the course in any given spring. Prerequisite(s): courses 201 and 202. Enrollment restricted to graduate students. May be repeated for

credit. R. Birnbaum, The Staff

212. Yoruba Visualities and Aesthetics. *

Yoruba conceptions of visibility are explored and compared to seeing through Western eyes. Critical reading focuses on Western and Yoruba scholars' work on visualities and complementary theoretical writings on Yoruba aesthetics and philosophy. Enrollment restricted to graduate students. E. Cameron

213. Theories and Visual Cultures of Iconoclasm. *

Examines theories that attempt to explain iconoclasm, the willful destruction of religious or political objects, by applying the theory to various case studies. The universal aspect of iconoclasm and the differences in understanding and practice are explored. Enrollment restricted to graduate students. E. Cameron

220. Topics in Asian Visual Studies. S

Examines selected and changing topics in the visual studies of Asia. The specific topic varies with each offering to keep up with recent directions in scholarship. Enrollment restricted to graduate students. May be repeated for credit. B. Ly

222. The Image of Arhat in China. *

Indian Buddhist sage-monks (arhats) are portrayed in China in ways that represent a remarkable variety of visual/historical/practice traditions. This seminar examines these depictions and explores the ranges of means and functions attached to this theme. Enrollment restricted to graduate students. R. Birnbaum

224. Engaged Buddhism and Visual Culture. *

Begins with an analysis of photography and films capturing the Gandhian and Dalit movement in India. Students then read key Buddhist texts on engaged Buddhism, and look at the rise of engaged Buddhism in Southeast Asia in the 1960s and how it impacted modern and contemporary art in Southeast Asia and its diaspora. Enrollment restricted to graduate students. B. Ly

232. The Monument Since 1750 in Relation to Nationhood and the Experience of War. *

Investigates modern monuments (1750 to present) and the creation or maintenance of a nation, especially in terms of war and its immediate aftermath. Destruction or alteration of monuments and production of anti- or counter-monuments are also examined. Enrollment restricted to graduate students. D. Hunter

233. Topics in Contemporary Art and Visual Culture. W

Examines selected and changing topics in the contemporary art and visual culture. The specific topic varies with each offering to keep up with recent directions in scholarship. Enrollment restricted to graduate students. May be repeated for credit. The Staff

240. Seeing Race. *

Investigates how discursive systems racialized the sight of various racial and ethnic groups in 19th- and 20th-century U.S. society. Focuses on the construction and maintenance of racial values systems and on the historically specific ways in which an eclectic assortment of visual artifacts have been read by groups over time. Considers the visual and material implications of race-based sight. Enrollment restricted to graduate students. M. Berger

243. Alternative Architecture. *

Focuses on what is commonly left out of architectural history: the ephemeral, informal, illegal, and uncertain. Topics include: anonymous and collective architecture; temporary interventions; everyday urbanism; and vestigial urban spaces. These topics are understood through theories of space as socially produced (Henri Lefebvre, Michel de Certeau, among others), and through cultural movements and manifestoes (Situationist International, Aesthetics of Hunger, etc.) Enrollment restricted to graduate students. The Staff

245. Race and Representation. *

Explores how human subjects come to be visually defined and marked by "race" discourse. Covers diverse theoretical literatures on the topic, primarily in visual studies, but also in cultural studies, post-colonial studies, and psychoanalysis. Enrollment restricted to

graduate students. J. Gonzalez

250. The Cult of Mary in Byzantium. *

Why did the cult of the Virgin Mary become so important in Byzantine culture? Students examine historical, cultural, theological, political, and social reasons for this development seen through the interaction of Byzantine visual culture and literature. Enrollment restricted to graduate students. M. Evangelatou

260. Visual Literacy in Spanish America, 1500–1800. *

Visual literacy is considered as a particular predicament of colonial societies. Students consider the legibility of artifacts in colonial Spanish American contexts given its culturally diverse audiences and examine specific instances of (mis)interpreted images and transcultured representations. Enrollment restricted to graduate students. C. Dean

270. Colonial Cultures of Collecting and Display. *

Examines collections and exhibitions of colonized people, places, and objects through primary sources, theoretical texts, and analytical case studies (with some emphasis on Oceania). Focuses on visual discourses of race, science, religious conversion, colonial settlement, nation-building, education, and entertainment. Enrollment restricted to graduate students. S. Kamehiro

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Independent study or research for graduate students. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297F. Independent Study (2 credits). F,W,S

Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research.

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

* Not offered in 2012–13

Program Description

History of consciousness is an interdisciplinary graduate program centered in the humanities, with links to the social sciences, physical and biological sciences, and arts. It is concerned with forms of human expression and social action as they are manifested in specific historical, cultural, and political contexts. The program stresses flexibility and originality. Interest is focused on problems rather than disciplines. Although students are prepared to teach in particular fields, the emphasis is on questions that span a number of different approaches.

Over more than 30 years of existence, the history of consciousness program has become widely recognized as a leader of interdisciplinary scholarship. Program graduates are influential scholars at prominent universities, and dissertations have been published by major publishing houses and academic presses. Graduates currently find academic employment in a wide range of disciplines, including literature, feminist studies, science studies, anthropology, sociology, American studies, cultural studies, ethnic studies, communications, the study of religion, and philosophy. In addition, history of consciousness graduates work as filmmakers, museum researchers, free-lance writers, postdoctoral researchers, and academic administrators.

Since the curriculum concentrates on theoretical and methodological issues and is concerned with the integration of disciplines, candidates for admission are expected to have a relatively clear idea of the project they wish to pursue. Experience of advanced work in one or more fields is preferred, but not required.

History of consciousness emphasizes a variety of topics in its seminars and research pursuits. These areas of research include studies at the intersection of race, sexuality, and gender; global capitalism and cultural processes; psychoanalytic and semiotic theories of the image; science and technology studies; theories and histories of religion; social movements; and literary studies and poetics. Seminars are regularly offered in these and other areas of ongoing faculty research.

History of consciousness has strong cooperative relations with associated faculty from other campus programs, scholars who offer seminars and participate in advising, qualifying exams, and thesis committees. Within the limits of seminar size and faculty time, cross-disciplinary work in graduate courses offered by other departments is

encouraged. The formal list of associated faculty is a non-exhaustive indication of advising possibilities beyond the program's core faculty. Campus research organizations, such as the UCSC Center for Cultural Studies, the Institute for Humanities Research, the Institute of Advanced Feminist Research, and the Chicano/Latino Research Center, also provide venues for collaborative work.

Requirements

Students are required to enroll in a minimum of two courses per quarter until advancement to candidacy. Students are expected to take the Qualifying Examination by the end of the third year, but no later than the fourth year.

Incoming students are required to take a minimum of five history of consciousness graduate seminars during the first two years. In the first year, students are required to take the introductory seminar, course 203A, Approaches to History of Consciousness. In the course of the first year, students must also take a writing intensive "B" seminar, either 203B, Approaches, or a "B" seminar following another seminar the student has taken. By the end of the first year, students are expected to complete a full seminar paper. Unless an exception is approved by the Director of Graduate Studies, "B" courses do not count toward the five seminars selected to fulfill the basic department requirement. The remainder of the courses taken to fulfill university enrollment requirements may include not only history of consciousness seminars but also independent study with specific faculty or graduate seminars offered in other departments.

Additional requirements for the doctor of philosophy (Ph.D.) vary with individual disciplinary and interdisciplinary needs and are determined in consultation with relevant faculty and the chair of the program.

Advancement to candidacy depends on the general quality of a student's work; demonstration of proficiency in a foreign language relevant to the student's area of work, either by passing a written examination administered by the department or successfully completing a language course approved by the department; success in the qualifying examination; and proposal of an acceptable thesis topic. The qualifying examination is centered on a qualifying essay that demonstrates the candidate's ability to do extended, dissertation-level research and analysis relevant to the proposed thesis topic and dissertation plan. The examination focuses on the student's research project and on the fields of scholarship it presupposes.

After advancement to candidacy, required by the end of the fourth year, students concentrate on the writing of the dissertation. The current normative time to degree limit of seven years means that a student usually has at least three years after advancement to candidacy for completion of the dissertation.

Students also have the option of doing advanced work in a traditional discipline and receiving a parenthetical degree notation of this specialization. In such cases, students must satisfy the appropriate department's criteria. Currently such degree notations may be negotiated with American studies, anthropology, literature, philosophy, sociology, and feminist studies. Students are expected to complete at least one year of supervised teaching as part of the degree requirements.

Applications

The deadline for applications to the History of Consciousness program is December 10 of each year. Admissions information and application materials are available online at graddiv.ucsc.edu.

Applications are invited from students with backgrounds and interests in the humanities and social sciences and are especially encouraged from individuals with a clear idea of the project they wish to undertake. Strong preference is given to applicants working in areas for which the faculty resources in history of consciousness are appropriate and available. Graduate Record Examination (GRE) scores are required as is a writing sample of no more than 10 pages.

Admission is for the fall quarter only.

It is important to note that in light of California's elimination of affirmative action as an admissions criterion, the history of consciousness department reaffirms its commitment to the principles of affirmative action. These principles mean a commitment to diversity,

equal opportunity, and outreach to underrepresented communities. Further, this commitment underlines our understanding that the very fabric and quality of our scholarship depends on the representation and interplay of diverse experience and perspectives. So defined, affirmative action is reflected in every aspect of the history of consciousness program, including scholarship, teaching, admissions, hiring, and the process of departmental governance.

Designated Emphasis

To receive a designated emphasis in history of consciousness, graduate students from other departments must complete the following requirements in addition to degree requirements for the doctorate in their home department.

Guidelines and application forms are available in the History of Consciousness Department office.

The following are required for the emphasis:

1. The student must have a faculty graduate adviser from core or affiliate faculty in history of consciousness, who serves both on the qualifying exam committee and the dissertation reading committee.
2. The student must take four graduate courses in history of consciousness. With the approval of the history of consciousness adviser, one of the four required graduate courses may be an independent study.

To obtain the designated emphasis in History of Consciousness:

1. The request for a designated emphasis must originate in the degree-granting department.
2. Student should complete an application, obtain the history of consciousness adviser's signature and submit with supporting documentation (copies of the QE and Dissertation Committee Nomination forms) to the History of Consciousness Department office.
3. The History of Consciousness Department will notify the student and the home department of approval for the designated emphasis.

Faculty and Professional Interests

Gopal Balakrishnan, Associate Professor of History of Consciousness
Classics of political thought from Plato to Rousseau, early modern and modern European intellectual history, historical sociology, the history and future of capitalism, nationalism

Barbara L. Epstein, Professor of History of Consciousness
Social movements and theories of social movements, 20th-century U.S. politics and culture, Marxism and related theories of social change; modern Jewish history

Carla Freccero, Professor of Literature, History of Consciousness, and Feminist Studies
Renaissance studies; French and Italian language and literature; early modern studies, postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

David S. Marriott, Professor of History of Consciousness
Literary theory, psychoanalysis, black cultural theory and philosophies of race, literary and visual cultures of modernism

Robert L. Meister, Professor of Politics and History of Consciousness
Critical human rights theory; moral philosophy; political jurisprudence; political theology; political economy; psychoanalysis; Marxian theory; financialization; 21st-century capitalism; institutional analysis; historical justice; and antidiscrimination law

Eric Porter, Professor of History, and History of Consciousness
Black cultural and intellectual history; U.S. cultural history and cultural studies; critical race and ethnic studies; popular music and jazz studies

Victor Burgin, Professor Emeritus of History of Consciousness

James T. Clifford, Professor Emeritus of History of Consciousness

Angela Y. Davis, Professor Emerita of History of Consciousness and Feminist Studies

Teresa de Lauretis, Professor Emerita of History of Consciousness, Literature, and Film and Digital Media

Donna J. Haraway, Professor Emerita of History of Consciousness and Feminist Studies

Hayden White, Professor Emeritus of History of Consciousness

Affiliated Faculty

Martin Berger, Professor of History of Art and Visual Culture
Gender, race, and representation in U.S. culture

Christopher Connery, Professor of Literature
World literature and cultural studies, globalism and geographical thought, the 1960s, Marxism, pre–modern and modern Chinese cultural studies, cultural revolution

Nathaniel Deutsch, Professor of Literature and History
Hebrew Bible; rabbinic literature; Jewish mysticism; Hasidism; Eastern European Jewish life; ethnography

Jennifer A. Gonzalez, Associate Professor of History of Art and Visual Culture
Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

Deborah Gould, Associate Professor of Sociology
Political emotion; social movements and contentious politics; classic and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Megan Thomas, Associate Professor of Politics
Political theory, especially of the 19th century; nationalist thought; Orientalism; comparative colonialism; Southeast Asia

Tyrus Miller, Professor of Literature
Modernist, avant–garde, and postmodernist literature; the interrelations of the arts in the 20th century; aesthetics theory; communist and post–communist society, intellectual history, and culture, especially in East–Central and Southern Europe; cinema and film theory; the Frankfurt School; György Lukács; contemporary poetry and language arts

Jennifer Reardon, Associate Professor of Sociology
Issues of social identity as influenced by the new sciences of genetics and genomics; intersection of the sociology of science and knowledge and the sociology of race, gender, and class

Vanita Seth, Associate Professor of Politics
Early modern and modern political theory, feminist theory, cultural history, race politics, postcolonial theory

Associated Faculty

Anjali Arondekar, Associate Professor of Feminist Studies
South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th–century interdisciplinary studies

Karen Barad, Professor of Feminist Studies
Science studies, poststructuralist theory, feminist theory, queer theory, 20th–Century continental philosophy, philosophy of science, and physics

A. Hunter Bivens, Assistant Professor of Literature
Twentieth– and 21st–century German literature and film, Marxism and critical theory, psychoanalysis, lyric poetry, literary realism, the novel

Vilashini Cooppan, Associate Professor of Literature
Postcolonial studies, comparative and world literature, literatures of slavery and diaspora, globalization studies, cultural theory of race and ethnicity

Gina Dent, Associate Professor of Feminist Studies, History of Consciousness, and Legal Studies
Africana literary and cultural studies, legal theory, popular culture

Rosa–Linda Fregoso, Professor of Latin American and Latino Studies
Human–rights studies; intercultural and transborder feminism; cultural studies; Latina/o–Latin American film and media arts

Susan Gillman, Professor of Literature
Nineteenth–century American literature and culture; theories of culture, race, and gender;

world literature and cultural studies

Wlad Godzich, Professor of Literature

Theory of literature; philosophy and literature; emergent literature; translation theory; globalization and culture; European integration; knowledge society; literatures of Africa, the Caribbean, Europe (Central, Eastern, and Western), Brazil, Canada; detective and crime fiction; science fiction; medicine and literature

Herman S. Gray, Professor of Sociology

Cultural studies, media and television studies, black cultural politics, social theory

Jody Greene, Associate Professor of Literature and Feminist Studies

Seventeenth- and 18th-century British and French literature and culture; pre- and early modern studies; critical theory; gay and lesbian cultural studies; gender studies; history of authorship; history of the book; human property

Susan Harding, Professor of Anthropology

Culture, politics, narrative, gender, local/global studies, ethnographic writing, fundamentalism, Christianity, state-making, aging, America, and Spain

Gail Hershatter, Professor of History

Modern Chinese social and cultural history; labor history; gender history; history of sexuality; feminist theory; history, memory, and nostalgia

David C. Hoy, Professor of Philosophy

Kant, Hegel, Nietzsche, Heidegger, Derrida, Foucault, phenomenology, poststructuralism, and contemporary European philosophy

Kimberly Jannarone, Associate Professor of Theater Arts

Directing, dramaturgy, dramatic theory and criticism, theater history, acting

Sharon Kinoshita, Professor of Literature

Mediterranean studies; medieval francophone and Mediterranean literature; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Kimberly Lau, Professor of Literature; Provost, Oakes College

Feminism, discourse, and power; feminist theory; discourse, analysis, and ethnographic methods; folklore and narrative; globalization

Helene Moglen, Professor Emerita of Literature and Feminist Studies

Triloki Nath Pandey, Professor of Anthropology

Native peoples of North America, cultures of India, political anthropology, anthropological theories and comparisons; native North America; tribal India; Nepal

Ravi Rajan, Associate Professor of Environmental Studies

Environmental history and political ecology, risk and disaster studies, science and technology studies, North-South environmental conflicts, environmental social theory, environmental ethics

B. Ruby Rich, Professor of Community Studies

Documentary film and video, post-9/11 culture, new queer cinema, feminist film history, Latin American and Latin/a cinema, U.S. independent film and video, the essay film, the politics of film festival proliferation and the marketing of foreign films in the U.S.

Warren Sack, Professor of Film and Digital Media

Software design and media theory

Daniel Selden, Professor of Literature

Afroasiatic languages and literatures, Greek and Latin, Hellenistic culture, the classical tradition, history of criticism, literary theory

Richard Terdiman, Professor Emeritus

Anna Tsing, Professor of Anthropology

Culture and politics, feminist theory and gender in the U.S., social landscapes and tropical forest ethnecologies, ethnicity, local power and relations to the state in Indonesia,

Southeast Asia, and the U.S.

[Program Description](#) | [Faculty](#)

Lower–Division Courses

80C. Social Movements of the 1930s and 1960s in the U.S.. *

Examines the rise of a mass movement of the left in the U.S. during the 1930s, in the context of economic depression and the growing international threat of fascism. (Formerly "The 1930s Depression and Radicalism in the U.S.") (General Education Code(s): T5–Humanities and Arts or Social Sciences.) B. Epstein

80H. Marxism. *

Advanced introduction to the main currents of Marxism from the 19th century to the present. Lectures and discussion address Marx's conceptions of capitalism, later attempts to theorize the political, and philosophical and aesthetic consequences of this critique. (General Education Code(s): T4–Humanities and Arts.) G. Balakrishnan

80J. Social Movements in the U.S.. *

Traces the history of social movements in the late 19th– and 20th–century U.S., including populism, labor, socialism, Communism, the New Left, civil rights, feminism. Looks at the relationship between cultures of protest and mainstream popular and political cultures. (General Education Code(s): T5–Humanities and Arts or Social Sciences.) B. Epstein

80Q. Science as Culture and Practice. *

Using tools from the analysis of social history, visual and material culture, narrative, and laboratory and field practices, introduces students to modern science, technology, and medicine studies. Examples come especially from 20th– and 21st–century life and human and information sciences. May be repeated for credit. (General Education Code(s): T5–Humanities and Arts or Social Sciences.) D. Haraway

80U. Modernity and Its Discontents. F

Offers an introduction to the idea of modernity from Kant to Freud, Nietzsche to Fanon. (General Education Code(s): T4–Humanities and Arts.) D. Marriott

Upper–Division Courses

102. Philosophy and Poetics. *

Introduction to the relationship between philosophy and poetics in some major 19th– and 20th–century poets and thinkers. Enrollment restricted to juniors and seniors. Enrollment limited to 30. D. Marriott

111. States, War, Capitalism. *

Survey of seminal work on ancient origins of the state, diverse geo–political systems of war and diplomacy, and consequences of the formation of the world market on the evolution of geo–political systems up to and beyond the wars of today. Enrollment restricted to juniors and seniors. Enrollment limited to 35. G. Balakrishnan

112. Foundations in Critical Theory. F,S

Concentrates on the Marxist tradition of critical theory, centering on classical texts by Marx and by writers in the Marxist tradition up to the present. Enrollment limited to 150. (General Education Code(s): TA.) G. Balakrishnan

114. Theology and Politics. F

Considers both the religious sources of political ideas and the political sources of religious ideas, addressing topics, such as sovereignty, justice, love, reason, revelation, sacrifice, victimhood, evil, racism, rebellion, reconciliation, and human rights. R. Meister

118. Jewish Social Movements. S

Jewish social movements of the late 19th and 20th centuries, in Europe (Eastern and Western) and the U.S.: the confrontation between Hasidism and Haskahah, tensions between socialism and Zionism, between religiosity and secularism, the mutual influences among these tendencies. (Also offered as History 185D. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 20. (General Education Code(s): E.) B. Epstein

119. Politics of Recognition. S

Course touches on the philosophical roots of Hegel's text, starting from the pre–World War II rereading of Hegel's master/slave dialectic that became the kernel of postwar thought arising from struggles over capitalism, communism, fascism, racism, colonialism, and feminism. R. Meister

139A. Market Crises and the Future of Capitalism. *

Examines the development and role of late 20th– and early 21st–century financial technologies in modern market crises. Enrollment limited to 40. B. Lozano

139B. Materialism and Financial Markets. *

Continuation of course 139A. Examines the development and role of late 20th– and early 21st–century financial technologies in modern market crises. Enrollment limited to 40. B. Lozano

146. Philosophy of Law. S

Exploration of selected problems in jurisprudence: "legal reasoning" and social policy, rules and individual cases, the mental element in the law, punishment and responsibility, causation and fault, liberty and paternalism, etc. (Formerly Philosophy 146.) (Also offered as Legal Studies 146. Students cannot receive credit for both courses.) J. Neu

163. Freud. *

The development of Freud's concept of mind. Extensive reading tracing the origins and development of Freud's theories and concepts (e.g., abreaction, psychic energy, defense, wish–fulfillment, unconscious fantasy, dreams, symptoms, transference, cure, sexuality) and emphasizing the underlying model of the mind and mental functioning. (Formerly Psychology 163 and Philosophy 139.) Offered in alternate academic years. J. Neu

180. The Emotions. *

Analysis of particular emotions (e.g., jealousy, boredom, regret) and exploration of general theoretical issues (e.g., expression, control) with emphasis on moral psychology. Admission by interview with instructor. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 23. J. Neu

190A. Jewish Socialism in Eastern Europe, 1880–1953. *

Looks at the ongoing debate in Jewish resistance during the Second World War and ends by addressing the status of Jews and Jewish movements in the Soviet Union and Poland

after the war. (Also offered as Jewish Studies 190A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. B. Epstein

199. Tutorial. F,W,S

A program of individual study arranged between an undergraduate student and a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

203A. Approaches to History of Consciousness. F

An introduction to history of consciousness required of all incoming students. The seminar concentrates on theory, methods, and research techniques. Major interpretive approaches drawn from cultural and political analysis are discussed in their application to specific problems in the history of consciousness. Prerequisite(s): first-year standing in the program. See the department office for more information. (Formerly course 203.) The Staff

203B. Approaches to History of Consciousness. *

Writing-intensive course based on readings in course 203A. Prerequisite(s): course 203A. Enrollment restricted to graduate students. Enrollment limited to 9. The Staff

210A. Cultural and Historical Studies of Race and Ethnicity. *

Explores the historical construction of racial and ethnic categories in the Americas, especially the U.S., in interaction with gender, sexuality, class, and nationality. Intended to introduce current work by UCSC faculty and Bay Area scholars and to stimulate graduate student research projects, the course is organized by intensive reading around key questions, followed by presentations by invited scholars. Emphasizes research resources and methodologies. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

210B. Cultural and Historical Studies of Race and Ethnicity. *

Writing intensive course based on readings in course 210A. Prerequisite(s): course 210A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

211A. French Hegel. *

Introduces the "return to Hegel" in the work of some major 20th-century French thinkers. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

212. Feminist Theory and the Law. *

Interrogation of the relationship between law and its instantiating gendered categories, supported by feminist, queer, Marxist, critical race, and postcolonial theories. Topics include hypostasization of legal categories, the contest between domestic and international human rights frameworks, overlapping civil and communal codes, cultural explanations in the law, the law as text and archive, testimony and legal subjectivity. (Also offered as Feminist Studies 212. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. Dent

216. Critical Race/Ethnic Studies. *

Explores foundational and emergent theoretical and methodological approaches to the study of race. Issues examined include the production of race within and across various spheres of human activity and how race has shaped notions of difference and commonality in the past and present. Enrollment restricted to graduate students. Enrollment limited to 15. E. Porter

217A. Seminar: Topics in Feminist Theory. *

Studies in the theory and history of feminist consciousness; analysis of the main areas of a specifically feminist interest; determination of the theoretical bases for a distinctively feminist perspective on the principal problems of the life and human sciences; examination of relations of class, race, and gender in feminist theory and practice. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. The Staff

217B. Seminar: Topics in Feminist Theory. *

Writing intensive course based on readings in course 217A. Prerequisite(s): course 217A. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. The Staff

218A. Postcolonial Theory. *

Study of selected topics in postcolonial theory, including decolonizing critiques of Western knowledges and epistemologies, nationalism, gender and sexuality, cultural representations of neo-colonialism and imperialism, subalternity, history and historical transformation, and global relations of dominations. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

219A. Psychoanalysis and Cultural Criticism. *

Readings in Freudian psychoanalytic theory from Freud and his contemporaries to the present, with emphasis on concepts (such as the unconscious, sexuality, fantasy, narcissism) that have informed recent cultural criticism around questions of social identity, subjectivity, marginality, and power. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

219B. Psychoanalysis and Cultural Criticism. *

Writing intensive course based on readings in course 219A. Prerequisite(s): course 219A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

222A. Theories of Late Capitalism. *

Looks at the theoretical literature on what is variously called late capitalism/postindustrialism/postfordism, and in that context considers the rise of nationalism and identity politics in the latter part of the 20th century. The primary focus is on the U.S. and Western Europe, but questions of the globalization of capital and the transformation of relations between "the West" and "the Third World" are also considered. Written work for the course consists of weekly short papers. (Formerly Theories of Late Capitalism, Nationalism, and the Politics of Identity.) Enrollment restricted to graduate students. Enrollment limited to 15. B. Epstein

222B. Theories of Late Capitalism. *

Writing intensive course based on readings in course 222A. (Formerly Theories of Late Capitalism, Nationalism, and the Politics of Identity.) Prerequisite(s): course 222A. Enrollment restricted to graduate students. Enrollment limited to 15. B. Epstein

225. The Politics of Affect. *

Point of departure is the question of the political, posed with respect to psychoanalysis. The underlying question is what the political does to psychoanalysis, but also what the unconscious does to the political. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

226. Marxist Humanism and the Anti-Humanist Turn. *

Seminar in which texts are read in the tradition of Marxist humanism and in the turn toward an anti-humanist stance originating among French and other European intellectuals in the 1950s and 1960s, then taking hold widely among left intellectuals in the U.S. and elsewhere. Enrollment restricted to graduate students. Enrollment limited to 15. B. Epstein

228. Fundamental Problems of Metapolitics. *

Focuses on seminal works of political thought: the first half devoted to ancient and modern classics; the second considering several major contemporary reflections. Aims to reconstruct and assess the claims regarding epistemic conditions and criteria of metapolitical judgment. Enrollment restricted to graduate students. Enrollment limited to 15. G. Balakrishnan

230A. Poetry, Language, Thought. *

Introduces the relation between philosophy and poetics in some major 20th-century poets and thinkers. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

230B. Poetry, Language, Thought. *

Writing-intensive course based on readings in course 230A. Prerequisite(s): course 230A, or permission of instructor. Enrollment limited to 15. D. Marriott

233A. Theories of Modernity and Postmodernity. *

Study of social and cultural theories of modernity and postmodernity; analysis of various conceptualizations of the modern and the postmodern and their relation to production, history, aesthetics, cultural identity, social struggle; texts from a variety of disciplines (literature, sociology, philosophy). Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

233B. Theories of Modernity and Postmodernity. *

Writing intensive course based on readings in course 233A. Prerequisite(s): course 233A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

234A. Social Movements in the 20th-Century U.S.. W

The history of major social movements in the 20th-century U.S., including populism, labor, socialism and communism, civil rights, the women's movement, the anti-nuclear movement. Various theoretical perspectives on the rise and fall of social movements. Enrollment restricted to graduate students. Enrollment limited to 15. Offered in alternate academic years. May be repeated for credit. B. Epstein

234B. Social Movements in the 20th-Century U.S.. S

Writing intensive course based on readings in course 234A. Prerequisite(s): course 234A. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. B. Epstein

235A. Theory of Religion. *

The difficulty of defining religion (universal essence vs. local/individual experience), of specifying its categorical boundaries, and of generating a theory based on more traditional disciplines (anthropomorphism, societal, psychic, transcendent, cognitive/ritual, historical/cultural/political). Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

235B. Theory of Religion. *

Writing intensive course based on readings in course 235A. Prerequisite(s): course 235A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

236. On Insults. F

What is the role of insult in social and legal life (from play to jokes to ritual to war and from blasphemy to defamation to hate speech)? Emphasizes philosophical, anthropological, psychoanalytic, and legal approaches to the issues. Enrollment restricted to graduate students and by permission of instructor. (Formerly Philosophy 290Y.) (Also offered as Anthropology 236. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. J. Neu

237A. Historical Materialism. F

Students read landmark works of classical and contemporary Marxism. Writings from Marx, Lenin, Trotsky, Lukacs, Gramsci, Adorno, Benjamin, Sartre, Althusser, Anderson, Jameson, and Zizek are addressed. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. G. Balakrishnan

237B. Historical Materialism. *

Writing-intensive seminar based on course 237A. Students read landmark works of classical and contemporary Marxism. Writings from Marx, Lenin, Trotsky, Lukacs, Gramsci, Adorno, Benjamin, Sartre, Althusser, Anderson, Jameson, and Zizek are discussed. Enrollment restricted to graduate students. Enrollment limited to 10. May be repeated for credit. G. Balakrishnan

239A. The Dialectical Legacy. *

From Adorno to Zizek rediscoveries of Hegel have provided the impetus for some of the

most innovative currents of 20th-century Marxism. Examines the philosophical and historical problems that Marx inherited from Hegel through close readings of their major works. Enrollment restricted to graduate students. Enrollment limited to 15. G. Balakrishnan

239B. The Dialectical Legacy. *

From Adorno to Zizek rediscoveries of Hegel have provided the impetus for some of the most innovative currents of 20th-century Marxism. Examines the philosophical and historical problems that Marx inherited from Hegel through close readings of their major works. Enrollment restricted to graduate students. Enrollment limited to 15. G. Balakrishnan

240. Basic Principles of University-Level Pedagogy (1 credit). *

Provides training for graduate students in university-level pedagogy in general. Under the supervision of the department chair, coordinated by a graduate student with substantial experience as a teaching assistant. Enrollment restricted to graduate students. May be repeated for credit. The Staff

242A. Violence and Phenomenology: Fanon/Hegel/Sartre. W

Study of the work and influence of Frantz Fanon from a range of viewpoints: existential, phenomenological, psychoanalytic, and political; a variety of genres: film, literature, case history, and critique; and a set of institutional histories: clinical, cultural, and intellectual. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

242B. Violence and Phenomenology: Fanon/Hegel/Sartre. *

Writing intensive course based on readings in course 242A. Prerequisite: course 242A. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

243A. Nationalism, Anti-Semitism, and Jewish Resistance in World War II. *

Jewish resistance to Nazism during World War II, in Eastern Europe, and its historical context. Includes the pre-war rise in nationalism and anti-Semitism in Poland and Lithuania, Jewish integration in the Soviet Union, and the consequences for wartime resistance. (Also offered as History 256. Students cannot receive credit for both courses.) Enrollment restricted to seniors and graduate students. Enrollment limited to 15. B. Epstein

250A. Foundations in Science Studies. *

Critical inquiry into topics in the history, sociology, anthropology, and philosophy of science and technology. Organized around the position that science is its practice, the seminar explores practices of representation, science studies and cultural studies, local/global tensions and networks, and the science question in feminism and antiracism. Enrollment restricted to graduate students. Enrollment limited to 15. K. Barad

250B. Foundations in Science Studies. *

Writing intensive course based on readings in course 250A. Prerequisite(s): course 250A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

251A. Readings in Science Studies. *

Focus is on recent literature in social, cultural, and historical studies of science, medicine, and technology. This seminar familiarizes students with current scholarly debates, research networks, national traditions, international exchanges, conference proceedings, interdisciplinary projects, and publication sites. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. The Staff

251B. Readings in Science Studies. *

Second quarter of two-quarter course. Writing-intensive course based on the readings studied in course 251A. Prerequisite: course 251A. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

252. Poststructuralism. *

French poststructuralism, with particular attention to the main philosophical texts of Jacques Derrida and Michel Foucault. Other representative theorists as well as critics of poststructuralism are studied as time permits. (Also offered as Philosophy 252. Students

cannot receive credit for both courses.) Enrollment restricted to graduate students. May be repeated for credit. The Staff

253A. Topics in Cultural Analysis. *

Advanced graduate seminar in which students do research on focused topics. Each quarter centered on single thematic area. Students read works of culture–theory and exemplary studies illustrating methodologies, problems, and current controversies. Prerequisite(s): minimum of second–year status in the history of consciousness program; instructor evaluates student's ability to participate. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

255. Carl Schmitt: Political and Legal Order in Modern Thought. *

Students study the main translated texts of Carl Schmitt's work, as well as certain secondary commentary on his body of thought. (Formerly course 255A.) Enrollment restricted to graduate students. Enrollment limited to 15. G. Balakrishnan

256A. Theories of the Visual. *

Study of psychoanalytic theories of the visual including the emergence of psychoanalysis and cinema as parallel discourses and the mobilization of key psychoanalytic concepts—scopophilia, voyeurism, fetishism—in Freudian and Lacanian understandings of the gaze so central to film and photographic theory. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

256B. Theories of the Visual. *

Writing intensive course based on readings in course 256A. Prerequisite: course 256A. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

259A. Kant, Lacan, and the Ethics of Psychoanalysis. *

Offers an introduction to Jacques Lacan's "Return to Kant" and the response it provokes as a reading of sadism, politics, and ethics. Specific point of entry adopted for course is Lacan's seminar on "The Ethics of Psychoanalysis." Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

259B. Kant, Lacan, and the Ethics of Psychoanalysis. *

Writing-intensive course based on readings in course 259A. Prerequisite(s): course 259A. Enrollment restricted to graduate students. Enrollment limited to 15. D. Marriott

261. Modern Intellectual History. F

Survey of 19th- and 20th-century intellectual history that focuses on a cross-section of major works from Hegel to Levi-Strauss. Enrollment restricted to graduate students. Enrollment limited to 15. G. Balakrishnan

264. The Idea of Africa. *

Examines the position of Africa in cultural studies and the simultaneous processes of over- and under-representation of the continent that mark enunciations of the global and the local. Themes include defining diaspora, the West as philosophy, and Africa in the global economy. (Also offered as Feminist Studies 264. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. Dent

268A. Rethinking Capitalism. W

Readings include works by speakers at UCSC's "Rethinking Capitalism Initiative." Topics are: (1) financialization versus commodification (how options-theory has changed capitalism); (2) material markets (how this theory performs); and (3) valuation and contingency (how economies make worlds). (Also offered as Anthropology 268A. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. R. Meister

268B. Rethinking Capitalism. S

Course 268A addressed changes in the theory and practice of capitalism as derivatives markets have become increasingly central to it. This course, which can be regarded as either background or sequel, concerns questions that surround recent debates about

derivatives from the standpoint of broader developments in law, culture, politics, ethics, ontology, and theology. What would it mean to see questions of contingency and value as a challenge to late-modern understandings of these modes of thought? (Also offered as Anthropology 268B. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. R. Meister

291. Advising (2 credits). F,W,S

Independent study formalizing the advisee-adviser relationship. Regular meetings to plan, assess and monitor academic progress, and to evaluate course work as necessary. May be used to develop general bibliography of background reading and trajectory of study in preparation for the qualifying examination. May be repeated for credit. The Staff

292. Practicum in Composition. *

A practicum in the genres of scholarly writing, for graduate students working on the composition of their qualifying essay or doctoral dissertation. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

293. Field Study. F,W,S

Research carried out in field settings, based on a project approved by the responsible faculty. The student must file a prospectus with the department office before undertaking the research and a final report of activities upon return. May be repeated for credit. The Staff

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. The Staff

295. Directed Reading. F,W,S

Systematic working through a prearranged bibliography which is filed as a final report at the end of the quarter with the signature of the instructor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

A seminar study group for graduate students focusing each quarter on various problems in the history of consciousness. A statement and evaluation of the work done in the course will be provided each quarter by the students who have participated in the course for that quarter, and reviewed by the responsible faculty. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Independent study and research under faculty supervision. Students submit petition to sponsoring agency. The Staff

298. Doctoral Colloquium. S

Under the supervision of a History of Consciousness faculty member, students finishing their dissertation meet weekly or bi-weekly to read and discuss selected draft chapters, design difficulties and composition problems. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Prerequisite(s): advancement to candidacy. May be repeated for credit. The Staff

* Not offered in 2012-13

Program Description

The humanities division at UCSC includes the traditional humanistic disciplines of history, literature, and philosophy as well as an interdisciplinary program in feminist studies.. The humanities division is also the home for linguistics, languages, and writing. The humanities division offers a range of courses in support of the campus' general education requirements.

At the undergraduate level, the following majors are offered: classical studies, feminist studies, German studies, history, Italian studies, Jewish studies, language studies, linguistics, literature, and philosophy. Several undergraduate minors are offered including the following: classical studies, East Asian studies, history, Italian studies, Jewish studies, language studies, linguistics, literature, and philosophy. Undergraduate students may also pursue individual majors. At the graduate level, the Pd.D. and M.A. are offered by programs in Feminist Studies, History, History of Consciousness, Linguistics, Literature, and Philosophy. Instruction and assessment to satisfy the campus' writing requirements is offered through the writing program.

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Students interested in acquiring proficiency in Italian can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major or minor in Italian studies, a major or minor in language studies, a major in literature with an emphasis in Italian literature, a major in global economics

The sequence of lower–division courses 1–6 is aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Courses 1A and 1B offer lower–division intensive Italian language instruction equivalent to levels 1, 2, 3. The 1, 2, 3 sequence starts once a year in the fall quarter, while the 1A–1B sequence starts once a year in the winter quarter. Classes are taught in Italian from the beginning level.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Study Abroad

The Office of International Education (OIE) sponsors programs of study in Italy. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>.

Italian Studies

[2012–13 General Catalog](#)

Department of Literature
303 Humanities 1
(831) 459–4778

[Faculty](#)

Program Description

Students interested in an interdisciplinary approach to Italian culture through the combined study of language, literature, history, art history, and other subjects may pursue a major or minor in Italian studies. The guidelines for the completion of the major may be obtained from Professor Deanna Shemek of the Literature Department. There are several options for study in Italy through the UC Education Abroad Program (EAP), either for a year (Bologna, Milan, Padova), for an intensive semester (Bologna, Florence, Milan, Padova, Rome), or for the summer (Florence). The Italian studies program is administered by the Literature Department.

Requirements of the Major

Each student must complete the lower-division language sequence (Italian 1–6, or equivalent). In addition, students are required to take 10, five-credit courses (one of which may be lower division), including a core unit of five courses which must be taken at UCSC: two Italian literature courses, Italian 106 (Italian Culture Through Film), one course in Italian history, and one course in Italian art history. A course featuring the work of Dante is recommended. A minimum of five courses must be taught substantially in Italian. Five may be approved elective courses, which may feature Italy in a European or global context. Up to five elective courses may be approved from UC EAP's yearlong study abroad in Italy. All students in the major must satisfy the Italian Studies senior exit requirement by writing a senior essay focused on Italian literature, history, or art history. This essay may be produced within an approved seminar, or (with faculty permission) by enrolling in a one-credit Italian Literature 191 course in conjunction with another upper-division course in Italian literature, history, or history of art and visual culture. This combination must be approved by a faculty advisor in Italian Studies.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. Italian Studies majors satisfy the DC Requirement through satisfactory completion of the senior essay, as described above. Please refer to updated information at <http://registrar.ucsc.edu/catalog/html/disciplinarycommunicationchart.html>.

Minor Requirements

Each student must complete the lower-division language sequence (Italian 1-6, or equivalent). Students must also complete five upper-division courses in Italian studies: two Italian literature courses, Italian 106 (Italian Culture Through Film), one course in Italian history, and one course in Italian art history. A course featuring the work of Dante is recommended. Three of the five upper-division courses must be completed at UCSC; three must be taught substantially in Italian. A maximum of two courses may be transferred from EAP.

Honors

Honors in the Italian studies major are awarded to graduating seniors who have earned a 3.70 to 3.89 grade point average in their upper-division Italian studies courses. Highest honors in the Italian studies major are awarded to graduating seniors who have earned a 3.90 or higher grade point average in their upper-division Italian Studies courses. Honors are not awarded in the minor.

2012-13 Italian Studies Curriculum

Fall 2012

Lower-Division Courses

1. First-Year Italian. F

During the first quarter of this first-year sequence, students learn to introduce themselves, to talk about their daily activities and hobbies, to describe themselves and their friends/families, and to recount past events. The first-year sequence (1–2–3) begins in fall quarter. (Formerly Instruction in the Italian Language.) The Staff

1A. Accelerated Italian. W

The first quarter of accelerated instruction in elementary Italian language. The accelerated pace allows a rapid mastery of grammar and vocabulary, giving students a basic knowledge of Italian in only two quarters. Completion of the sequence is equivalent to the completion of the 1–2–3 sequence. This sequence starts once a year in the winter quarter. (Formerly Intensive Elementary Italian.) The Staff

1B. Accelerated Italian. S

The second quarter of accelerated instruction in elementary Italian language. The accelerated pace allows a rapid mastery of grammar and vocabulary, giving students a basic knowledge of Italian in only two quarters. Completion of the sequence is equivalent to the completion of the 1–2–3 sequence. (Formerly Intensive Elementary Italian.) Prerequisite(s): course 1A or 2 or placement by examination. For students completing course 2, course 3 is preferable. The Staff

2. First-Year Italian. W

During the second quarter of this first-year sequence, students learn to tell a story in the past, to make plans about their future, and to express commands and requests. The sequence starts once a year in the fall quarter. (Formerly Instruction in the Italian Language.) Prerequisite(s): course 1 or placement by examination. The Staff

3. First-Year Italian. S

During the third quarter of this first-year sequence, students learn to talk about historical events, to formulate hypothetical scenarios, to express wishes, desires, doubts, and opinions, and to discuss more abstract topics (e.g., immigration, work, politics). (Formerly Instruction in the Italian Language.) Prerequisite(s): course 2 or placement by examination. The Staff

4. Second–Year Italian. F

Short stories, articles, films, and newsclips are used as the basis for studying intermediate–level conversation and composition. Laboratory assignments involve use of the World Wide Web, conversations with native speakers, films and video clips. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor, preferably prior to the first class meeting, and take the placement examination. (Formerly Intermediate Italian.) Prerequisite(s): course 1B or 3 or placement by examination. (General Education Code(s): CC, IH.) The Staff

5. Second–Year Italian. W

Reading of Italian short stories and a play are used as basis for further study and refinement of oral and written skills at the intermediate level. Particular emphasis is placed on oral/written discussion of abstract ideas and topics, and on the study of different language registers/contexts. Laboratory work is regularly assigned. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor, preferably prior to the first class meeting and take the placement examination. (Formerly Intermediate Italian.) Prerequisite(s): course 4 or placement by examination. (General Education Code(s): CC, IH.) The Staff

6. Second–Year Italian. S

Reading of first novel in the language and weekly viewing of Italian films serve as basis for oral reports and discussions on various aspects of Italian culture and civilization. Weekly assignments, three essays, and a paper on topics derived from or related to the text. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor, preferably prior to the first class meeting, and take the placement examination. (Formerly Intermediate–Advanced Italian.) Prerequisite(s): course 5 or placement by examination. (General Education Code(s): CC, IH.) The Staff

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

106. Italian Culture Through Film. S

Film is used as a medium through which images of Italians and their culture are disseminated, perpetuated, and crystallized. Students focus on pivotal issues in Italian culture, society, history, and politics, and develop an informed opinion on relevant issues in Italian studies. The course is taught in English with a mandatory enhancement section in Italian. The enhancement section meets once a week and is designed to give students who are already familiar with the language the opportunity to discuss the films in Italian and to read/view additional material in the language. Students cannot receive credit for this course and Languages 80D. Prerequisite(s): course 6. May be repeated for credit. (General Education Code(s): CC.) G. Centineo

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Program Description

Students interested in acquiring proficiency in Japanese can enroll in language courses from beginning to advanced levels. Instruction takes place mostly in Japanese from the second half of the first quarter. The curriculum aims to build a solid foundation in all four aspects of linguistic skills (speaking, listening, reading, and writing) as well as sociolinguistic competence and cultural knowledge.

Students may use Japanese courses for the following majors and minors: a major in language studies; a major in linguistics; an East Asian minor or (individual major); a major in global economics; or a major in literature.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under Language Program.

Study Abroad

The Office of International Education (OIE) has information on study in Japan. There are study abroad centers in Yokohama, Tsuru, Kyoto, Tokyo, Sendai, Tsukuba, and Tohoku. Courses taken abroad can, with approval of an adviser, be applied to major requirements. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

Lower-Division Courses

1. First-Year Japanese. F

Students carry out beginning-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write Japanese scripts (hiragana, katakana, and about 40 kanji). (Formerly Instruction in the Japanese Language.) *The Staff*

2. First-Year Japanese. W

Students carry out beginning-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Instruction in the Japanese Language.) Prerequisite(s): course 1 or by consent of instructor. *The Staff*

3. First-Year Japanese. S

Students carry out beginning-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Instruction in the Japanese Language.) Prerequisite(s): course 2 or by consent of instructor. *The Staff*

4. Second-Year Japanese. F

Students carry out intermediate-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Intermediate Japanese.) Prerequisite(s): course 3 or by consent of instructor. (General Education Code(s): IH.) *The Staff*

5. Second-Year Japanese. W

Students carry out intermediate-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Intermediate Japanese.) Prerequisite(s): course 4 or by consent of instructor. (General Education Code(s): IH.) *The Staff*

6. Second-Year Japanese. S

Students carry out intermediate-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis is placed on developing the student's cultural knowledge relevant to inter-cultural communication. (Formerly Intermediate Japanese.) Prerequisite(s): course 5 or by consent of instructor. (General Education Code(s): CC, IH.) *The Staff*

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

Upper–Division Courses

103. Advanced Japanese. F
Students carry out advanced–level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis placed on developing the student's cultural knowledge about Japan as well as knowledge relevant to inter–cultural communication. Prerequisite(s): course 6 or by consent of instructor. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. *The Staff*

104. Advanced Japanese. W
Students carry out advanced–level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis placed on developing the student's cultural knowledge about Japan as well as knowledge relevant to inter–cultural communication. Prerequisite(s): course 103 or by consent of instructor. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. *The Staff*

105. Advanced Japanese. S
Students carry out advanced–level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Further development of cultural knowledge and understanding through critical examination of authentic Japanese materials in a variety of genres, including literary work, expository writing, and films. May be repeated for credit with consent of instructor. Prerequisite(s): course 104; or by consent of instructor. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (General Education Code(s): TA.) *The Staff*

109. Japanese Language, Culture, and Society. *
Examines the social and cultural aspects of the Japanese language. Topics include language planning; writing–system reform; standard Japanese; regional variation; honorifics; gender norms and practices; age variation; communication styles; loanwords and English; and minority languages and their speakers. (Formerly Languages 109.) Prerequisite(s): Japanese 6 or by consent of instructor. Enrollment limited to 25. *S. Okamoto*

194. Group Tutorial. F,W,S
Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

199. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

199F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

Jewish Studies

2012–13 General Catalog

Department of History

201 Humanities

(831) 459–2982

<http://jewishstudies.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

The interdisciplinary program in Jewish studies introduces students to the study of classical, medieval, and modern Jewish cultures and to the range of disciplines that bear upon the field.

The Jewish studies major and minor offer students the chance to gain knowledge and skills in a variety of contexts in various aspects of Jewish culture, with special reference (though not limited) to modern issues. The major and minor will help them prepare to move successfully into graduate programs in a variety of disciplines, especially in humanities, social sciences, and pre–professional programs, and will provide students with a grounding in materials fundamental to western culture and liberal education. This program connects with a range of disciplines and programs on the UCSC campus that explore the meanings of modernity; at the same time, this program will help students develop analytical tools, strategic versatility, and critical literacy.

Note that modernity here is not defined as Europe or North America; the Jewish studies program intends to speak to modernity as a global phenomenon, dealing with sites where Jews lived. In the 19th and 20th centuries Jews were widely spread across the globe and often played active and influential roles in their communities. These include such places as Shanghai, Tianjin, Harbin, India, Latin America, Egypt, Iran, and of course throughout Europe, Great Britain, and North America.

Students, especially those who plan to continue their studies in graduate school, may wish to gain proficiency in Yiddish, German, or Spanish, depending on their area of interest. The upper–division course Hebrew Bible (Pre– and Early–Modern Literature (LTPR) 144B) is strongly recommended, as is developing language proficiency in Yiddish and/or Hebrew.

Jewish studies is administered by the Department of History. For additional information on curriculum and advising, go to <http://jewishstudies.ucsc.edu>.

Study Abroad

Jewish studies encourages students to take advantage of the Education Abroad Program (EAP). The University of California has developed educational opportunities abroad in conjunction with the Jerusalem Study Center at The Hebrew University of Jerusalem. Students who participate in the UC Education Abroad Program may petition to apply up to three courses from EAP toward their Jewish studies major or minor requirements.

Requirements for the Major

A prerequisite for the Jewish studies major is three quarters of lower-division instruction in a Jewish language in any combination of the student's choosing: elementary Hebrew (Hebrew 1, Hebrew 2, Hebrew 3); Hebrew 80, Introduction to Biblical Hebrew; elementary Yiddish (Yiddish 1, Yiddish 2); or equivalent. Transfer students who must take three quarters of instruction in a Jewish language are permitted to declare the major upon the successful completion of one quarter of elementary language instruction. Students are also encouraged to take Hebrew 4 and Hebrew 5. The major requires a minimum of 11 courses, including the comprehensive requirement. A minimum of 40 upper-division units must be completed within the Jewish studies major course requirements. In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

- History 74, An Introduction to Jewish History and Culture, or Literature 61J, An Introduction to Jewish Literature and Culture
- History 80W/Literature 80L, The Holocaust: The Destruction of European Jewry, or History 75, Film and the Holocaust
- two upper-division history core courses
- two upper-division literature core courses
- four elective courses, three of which must be upper-division
- one comprehensive exit requirement (see below)
- among the 11 courses required for the major, one course must satisfy the Disciplinary Communications (DC) Requirement (see below)

Comprehensive Exit Requirement

Students may satisfy the Jewish studies comprehensive exit requirement by completing an approved exit seminar (one quarter: HIS 196G, 196M, 196N, 196P, 196R, HISCON 190A/JWST 190A, LTMO 190Y or LTPR 190Y) or a senior thesis (Jewish Studies 195A and 195B). Please consult the Jewish studies web site for a more detailed description of these courses.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in Jewish Studies is satisfied by completing an exit seminar (one quarter: History 196G, 196M, 196N, 196P, 196R, History of Consciousness 190A/Jewish Studies 190A, Modern Literary Studies 190Y, or Pre- and Early Modern Literature 190Y) or a thesis (two quarters: Jewish Studies 195A and 195B.)

Chronological Distribution Requirements

Among the 11 courses required for the major, at least three must meet the following chronological distribution requirements:

- one course must satisfy the classical chronological distribution requirement
- one course must satisfy the modern chronological distribution requirement
- one course must satisfy the Holocaust chronological distribution requirement, which is accomplished by completing History 80W/Literature 80L, The Holocaust: The Destruction of European Jewry or History 75, Film and the Holocaust

Please consult the Jewish studies web site for a more detailed description of these courses.

Transfer Credits and Substitutions

Jewish studies majors must take a minimum of five regularly scheduled Jewish studies courses plus the comprehensive/DC requirement from members of the UCSC Jewish studies faculty. Subject to the limits indicated, courses from the following categories may

- [Social Documentation](#)
- [Social Sciences](#)
- [Sociology](#)
- [Spanish and Spanish for Heritage Speakers](#)
- [Stevenson College](#)
- [Technology and Information Management](#)
- [Theater Arts](#)
- [Writing Program](#)
- [Yiddish](#)

Faculty

Course Descriptions

Teaching and Administrative Staff

Appendixes

Archive of General Catalogs

Nondiscrimination Statement

be applied to the Jewish studies major:

- Courses taken at another institution (limit of 3)
- Education Abroad Program (limit of 3)
- Related courses not currently on the pre-approved Jewish studies course list (limit of 2)
- Independent and field studies (limit of 1)

Honors in the Jewish Studies Major

All students who announce candidacy during the academic year are reviewed for honors or highest honors in the major. The Jewish studies faculty advisers determine honors based upon courses applied toward the Jewish studies major. Performance in courses taken elsewhere and being transferred toward the major will be considered when applicable. The minimum standard applied is excellence in most courses for honors, and excellence in all courses for highest honors.

Summer graduates are reviewed for honors in fall quarter.

Minor in Jewish Studies

Students whose major area of interest is not Jewish studies may nonetheless find that a minor in Jewish studies makes an invaluable contribution to their studies. This introduction to Jewish studies is helpful for students who plan to do graduate work in Jewish studies, whether through regular disciplines or in Jewish studies programs, and also for students who plan to attend rabbinical schools or to find work with Jewish communities. For others with an interest in Jewish topics, but without such plans, a minor in Jewish studies offers intellectual enrichment and a focus within the student's chosen field.

Requirements for the Minor

A minimum of 25 upper-division units must be completed within the Jewish studies minor course requirements. In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

- one of the following courses:

History 74, An Introduction to Jewish History and Culture; Literature 61J, An Introduction to Jewish Literature and Culture; History 80W/Literature 80L, The Holocaust: The Destruction of European Jewry; or History 75, Film and the Holocaust;
- three upper-division core courses from the Jewish studies curriculum;
- four additional core or elective courses from the Jewish studies curriculum, two of which must be upper-division.

<http://kresge.ucsc.edu/>

Lower-Division Courses

12A. Service Learning (3 credits). F

Students find a volunteer position with the instructor's assistance and perform community service in non-profit organizations, schools, unions, or local government agencies.

Students meet weekly, keep a journal, and write a "social action witnessing" report of their experience. Enrollment restricted to college members. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): PR–S.) F. Williams

12B. Service Learning (2 credits). W,S

Students find a volunteer position with the instructor's assistance and perform community service in non-profit organizations, schools, unions, or local government agencies.

Students meet weekly, keep a journal, and write a "social action witnessing" report of their experience. Enrollment restricted to college members. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): PR–S.) F. Williams

15A. The Writer as Witness (3 credits). *

Students are involved in a community service project to produce a portfolio of social-action writing that situates the writer as witness in the community. Enrollment restricted to college members. Enrollment limited to 20. W. Cooper

15B. The Writer as Witness (2 credits). *

Students are involved in a community-service project to produce a portfolio of social-action writing that situates the writer as witness in the community. Enrollment restricted to college members. Enrollment limited to 20. W. Cooper

24. Imagining Utopia (3 credits). W

Explores possible futures by studying several utopian visions, projects, and manifestos.

Students imagine a future by writing a manifesto and other creative non-fiction pieces that embrace a utopian imagination. Enrollment restricted to college members. Enrollment limited to 20. W. Cooper

42. Student-Directed Seminar (no credit). F,W,S

Seminar taught by upper-division Kresge students under Kresge faculty supervision. (See course 192.) Students submit petition to sponsoring agency. The Staff

60C. Prison Narratives (3 credits). S

Seeks to ask hard questions about the role of the prison, its increasing use in our nation,

and the use of torture by the U.S. government in Guantanamo, Abu Ghraib, and other prisons. Readings include J. James's *Imprisoned Intellectuals*, Alexander Berkman's *Prison Memoirs of an Anarchist*, and other writings by American prisoners. Eve Ensler's *What I Want My Words to Do to You* is shown. Course is primarily reading and discussion; students are asked to keep a reading journal and to write a critical/creative essay at the end of the quarter. (Formerly *Language of the Prison House*.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. Enrollment limited to 20. W. Cooper

60F. *Writer's Read* (2 credits). *

Students attend weekly creative writing readings by fiction writers and poets, read excerpts from the writers' works, participate in question and answer sessions, and write short, creative and/or analytical responses to the readings and writings. Enrollment restricted to Kresge and Porter college members. Enrollment limited to 35. May be repeated for credit. M. Perks

60K. *The Art of Comedy: Literature and Performance* (3 credits). W

Students analyze comedic writing and practice writing comedy. Students develop pieces to be delivered in a performance at the end of the quarter. Enrollment restricted to college members. Enrollment limited to 22. E. McKenzie

62. *Transformative Action*. W

Introduces the most effective methods for social change. Examines social entrepreneurs, innovators, and visionaries. Reviews traditional methods of activism and new theories of nonviolent social change. Presents case studies of success in addressing problems of social injustice. Enrollment limited to 75. C. King

62A. *Transformative Action* (2 credits). S

Addresses the most effective methods of social change. Examines principles and strategies of transformative action and case studies of leaders solving world problems. Empowers students to be innovators in real-life community projects. Integrates nonviolence, psychology, sustainability, and social justice. The Staff

62B. *Transformative Action* (2 credits). S

For students who enrolled in the winter quarter *Transformative Action* course, to further investigate, research, and refine their Big Idea. Opportunity given to deepen and integrate *Transformative Action* principles into projects. Enrollment by instructor permission only. C. King

63. *Kresge Garden Cooperative* (2 credits). S

Offers hands-on gardening skills within a student-run space. Focuses on developing a strong cooperative garden on campus, with special attention to the documentation of this process. Enrollment limited to college members. Enrollment limited to 24. D. Shaw

64. *Tools for World Changers* (2 credits). W

Develops life skills that support you and help you support others. Implement effective methods for personal productivity (managing your to-dos, calendar, and inbox), interpersonal communication, meeting facilitation, event hosting, collaboration, and regenerative community design. D. Shaw

65. *Power and Representation Lab*.

Enrollment limited to 20. The Staff

65A. *Power and Representation: Food and Community* (2 credits). F

Explores core themes of power and representation through the mediums of food, nature awareness, community, personal empowerment and sustainable living. Students will develop meaningful final projects in collaboration with Kresge Food Co-op, Kresge Garden Co-op, Kresge World Cafe, and projects of their own design. (Formerly *Power and Representations: Food Systems*.) Concurrent enrollment in course 80A or 80B is required. Enrollment limited to 20. D. Shaw

65B. *Power and Representation: Photography* (2 credits). F

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>Focuses on creating a final project individually, or in collaboration with others, that engages issues of power and represnetation through the medium of photography. Concurrent enrollment in course 80A or 80B is required. Enrollment limited to 20. S. Graham</p>
	<p>65C. Power and Representation: Creative Writing (2 credits). *</p> <p>For students who wish to supplement their core experience with creative writing. Students do in–class and out–of–class writing assignments; read and discuss texts; and work to develop their final project. Concurrent enrollment in course 80A or 80B is required. Enrollment limited to 20. F. Fatemi</p>
	<p>65D. Power and Representation: Art and Visual Performance (2 credits). F</p> <p>Students investigate the themes presented in the core course to arrive at a final creative project in pairs, groups, or individually. Concurrent enrollment in course 80A or 80B is required. Enrollment limited to 20. N. Sanders–Self</p>
	<p>67. Transformative Justice Seminar (3 credits). S</p> <p>Examines the principles and processes of restorative justice juxtaposed to current practices in the judicial and educational systems of contemporary society. Students study leading restorative justice practices and their implication for individual and community transformation. Enrollment limited to 25. C. King</p>
Teaching and Administrative Staff

Nondiscrimination Statement	
	<p>75. Sustainable Food Systems. *</p> <p>Introduces students to fundamental food–system issues and opportunities. Topics include: hunger, environmental sustainability, race and gender, food and agricultural policy, local food systems, gardening and farming models, social movements, and approaches for analysis and change. Enrollment limited to 55. S. Gillon</p>
	<p>76. Social Documentary Photography. *</p> <p>History of social documentary photography with its practice. Includes analysis of historical and contemporary images from social documentary work; camera, darkroom, and digital skill development; an individual student documentary project; and collective project discussion. Enrollment restricted to Kresge College members. Enrollment limited to 20. The Staff</p>
	<p>77. Food Memoir (2 credits). *</p> <p>Workshop in writing memoir that connects to issues of multiculturalism, gender, and environment. Designed to hone skills in creative writing through stories that students will unify into a larger memoir. Enrollment restricted to Kresge and College Eight members or by permission of instructor. R. Somers</p>
	<p>80A. Introduction to University Discourse: Power and Representation. F</p> <p>Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading,and speaking. Explores relationships between individuals and their communities—communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres—critical theory, film, art, fiction, non–fiction, and theater. Students cannot receive credit for this course and course 80B. Enrollment restricted to first–year college members who have not satisfied the C1 requirement. (General Education Code(s): T5–Humanities and Arts or Social Sciences, C1.) The Staff</p>
	<p>80B. Rhetoric and Inquiry: Power and Representation. F</p> <p>Explores the intersections of investigations, interpretation, and persuasion, and hones strategies for writing and research. Explores relationships between individuals and their communities—communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres—critical theory, film, art, fiction, non–fiction, and theater. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment</p>

restricted to first-year college members. (General Education Code(s): T5–Humanities and Arts or Social Sciences, C2.) The Staff

80H. Reading Chinese Paintings. *

Introduces significant currents in Chinese cultural history and their visual expression through close examination of selected paintings. Readings focus on a rich variety of primary sources in translation. Course intended for honors students by permission of instructor. Enrollment limited to 20. (General Education Code(s): T5–Humanities and Arts or Social Sciences, A.) R. Birnbaum

80T. Power and Representation (Kresge Core Course for Transfer Students). F

Explores the intersections of investigations, interpretation, and persuasion, and hones strategies for writing and research. Explores relationships between individuals and their communities—communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres—critical theory, film, art, fiction, non-fiction, and theater. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior college members. (General Education Code(s): T5–Humanities and Arts or Social Sciences, W.) The Staff

99. Tutorial. F,W,S

A program of directed study arranged between a freshperson or sophomore student and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Independent Study (2 credits). F,W,S

A program of directed study arranged between a student and a Kresge faculty member. Class time is less proportional to credit given. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99G. Independent Study (3 credits). S

A program of directed study arranged between a student and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper-Division Courses

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under Kresge faculty supervision. (See course 42.) Prerequisite(s): upper-division standing in Kresge, a proposal supported by a Kresge faculty member willing to supervise, and college approval. The Staff

193. Field Study. F,W,S

Supervised off-campus study conducted under the immediate and direct guidance of a Kresge faculty supervisor. To be used primarily by upper-division students doing part-time, off-campus study. Prerequisite(s): approval of student's adviser and the college. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

195. Senior Thesis. F,W,S

Senior thesis or project for student doing individual major program. May be repeated twice for credit. Prerequisite(s): permission of sponsoring committee and college approval. The Staff

198. Independent Field Study. F,W,S

Provides for college-sponsored individual study programs off campus, for which Kresge faculty supervision is not in person (e.g., supervision is by correspondence.) Prerequisite(s): approval of the student's faculty sponsor and college approval. The Staff

199. Tutorial. F,W,S

A program of individual study arranged between an upper-division student and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Language Program

2012–13 General Catalog

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Understanding how language works is a crucial part of comprehending human interaction. Language is an intellectual tool basic to all disciplines. In today's communities, multicultural and global, learning a second language is not a refinement but a necessity—the key to understanding and communicating with others near and far. The goal of the Language Program at UCSC is to allow students to achieve a substantial level of proficiency in languages other than English. Since such proficiency always includes cultural as well as linguistic comprehension, the program includes investigating the complex relationship between language and culture.

The Language Program offers rigorous language training by professional language instructors. Most courses are taught in the target language from the very beginning. Currently, the languages offered are Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Russian, Spanish, Spanish for Heritage speakers, and Yiddish.

Students with previous language preparation who wish to continue in that language take a placement examination to determine the course level appropriate for them. Each language's placement examination format is described in the quarterly *Schedule of Classes*, along with the time, date, and location of the examination.

Language learning at UCSC is supported by a variety of technologies. There is a campus language laboratory in the Media and Electronic Resource Center (MERC) at McHenry Library; the library also houses an abundance of print and audiovisual material in the languages taught at UCSC, including music recordings and videos. Television programs are received from countries around the world. Faculty in the Language Program are incorporating new technologies into their teaching on an ongoing basis, including web-based resources.

In addition to language courses, the program offers upper-division courses exploring history, sociology, literature, art, film, and other manifestations of culture. These courses are taught in the target language. The Literature Department also offers courses in French, German, Greek, Italian, Latin, Russian, and Spanish/Latin American/Latino literature, as well as Hebrew poetry.

Students of language interested in theater have the opportunity to participate in the annual International Playhouse, which every spring presents highly successful programs.

To date, pieces have been performed in Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, and Spanish.

Students are also encouraged to participate in foreign film series (e.g., Chinese, French, Italian, Japanese, Portuguese, Russian, Spanish), international music and dance festivals, and conferences on intercultural or international topics.

Students who wish to study a specific language in depth can major in language studies, which combines courses in language proficiency and culture with general and applied linguistics. Students may also use language courses for the following majors that have a language requirement: classical studies, East Asian studies, German studies, global economics, health sciences, human biology, Italian studies, Jewish studies, Latin American and Latino studies, linguistics, and literature. The History Department encourages students of Asian, Latin American, European, and classical history to study a second language and provides a variety of opportunities to make use of language skills in their studies.

Study abroad is an important component of language study at UCSC. Language students have various opportunities to study abroad, for a summer, quarter, semester, or year. Students may choose to study abroad through the Office of International Education (OIE), through the UCSC Summer Abroad Program, or through affiliate programs around the globe. OIE offers programs in Argentina, Australia, Barbados, Botswana, Brazil, Canada, Chile, China, Costa Rica, Denmark, Egypt, France, Germany, Ghana, Hong Kong, India, Ireland, Israel, Italy, Japan, Korea, Mexico, Netherlands, New Zealand, Russia, Singapore, South Africa, Spain, Sweden, Taiwan, Tanzania, Thailand, Turkey, United Kingdom, and Vietnam. There are programs available for students of all levels of language ability, including Language and Culture programs for beginner or intermediate speakers, to full immersion programs for students with advanced language skills. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>.

Language Studies

2012–13 General Catalog

Linguistics Department
241 and 243 Stevenson College
(831) 459-4988
<http://linguistics.ucsc.edu>

Program Description

Language studies is an interdisciplinary major offered by the Linguistics Department. It is designed to equip students with competence in one or more foreign languages and, at the same time, provide them with an understanding of the general nature of human language—its structure and use. It requires (1) acquisition of demonstrable competence in a language other than English, (2) grounding in linguistics, and (3) completion of a series of cultural context courses related to the language. Currently, majors may choose a concentration in Chinese, French, German, Modern Hebrew, Italian, Japanese, Russian, or Spanish. Interested students should contact the Linguistics Department office early in their college career to obtain essential information about requirements.

Students interested in spending a portion of a year or a full year in study abroad should review the UCSC Programs Abroad web site at <http://oie.ucsc.edu/index.html>. A senior year abroad is approved only when all of the language proficiency requirements have been satisfied and when it is clear that any remaining courses can be satisfactorily completed abroad. Courses taken abroad may be used to satisfy major requirements only if approved by the undergraduate program director or a designated advisor.

Requirements of the Language Studies Major

Early Declaration

It is important that prospective students declare the major as early as possible so that they can complete the advanced language, linguistics, and context requirements within the allowed period of enrollment.

Students who wish to include a study abroad experience in their course of study will have to coordinate their choice of time abroad with the scheduling of UCSC courses. Transfer students who have not made significant progress with the language requirements before entering UCSC may find it difficult to include a time abroad before completion of graduation requirements.

Course Requirements

Language studies majors must satisfy course requirements in languages, linguistics, and cultural context.

- Religious Studies
- Russian
- Science Communication

Language component: Language studies majors (in French, German, Modern Hebrew, Italian, Russian, and Spanish) must achieve a level equivalent to six quarters in the language of concentration. One advanced language course after level 6 is also required. Majors in Chinese and Japanese must achieve a level equivalent to eight quarters of language study.

Six foundation courses in linguistics:

- 50, Introduction to Linguistics
- 53, Semantics I
- 101, Phonology I
- 112, Syntax I; or 111, Syntactic Structures
- Two upper-division linguistics courses

Five upper-division elective courses in linguistics or cultural context.

- Linguistics courses: any upper-division course offered by the Linguistics Department. Cultural context courses in areas relevant to the major language: to be selected from disciplines such as literature, history, and politics, subject to departmental approval.

Senior exit requirement: In their senior year, language studies majors must satisfy the senior exit requirement in one of two ways:

Option 1. Successful completion of a capstone course. Students may designate an appropriate upper-division course as their capstone course.

- Language studies majors must have senior standing, achieved level-5 language competence, and must have completed Linguistics 101, Phonology I and 112/111, Syntax I or Syntactic Structures.

Option 2. Senior thesis supervised by a faculty member.

- The proposal for a senior thesis must be submitted for departmental approval at least three quarters prior to the quarter of graduation.
- Students enroll in Linguistics 195, Senior Thesis with the approval of the faculty adviser. The senior thesis is an original investigation of the major language in some relevant way, such as the linguistic structure or history of the language or its historical, literary, cultural, sociological, ethnographic, or political context.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in language studies is satisfied by completing courses 101 and either 111 or 112.

Requirements of the Minor

The minor requires completion of two years (six quarters) of language study (or demonstration of an equivalent level of ability) and eight additional linguistics and cultural context courses as follows:

- 50, Introduction to Linguistics
- 101, Phonology I
- 112, Syntax I; or 111, Syntactic Structures
- Two upper-division linguistics courses
- Three electives in a cultural context; cultural context courses in areas relevant to the major language to be selected from disciplines such as literature, history, and politics, subject to departmental approval.

There is no senior exit requirement for the minor.

[Nondiscrimination Statement](#)

Honors

Students who wish to be considered for honors should meet the deadline posted by the Office of the Registrar for declaring the intent to graduate. Determination of honors is based on (1) the student's grades for all courses relevant to the major; (2) the results of the senior exit requirement; (3) other factors relevant to an assessment of academic excellence, such as research papers of professional quality. Generally, honors in the major are awarded to the top 10 percent of those graduating in the major. Only those students whose performance in coursework and on the senior exit requirement is excellent will qualify. Highest honors are rarely awarded, and then only to students whose performance in coursework is outstanding and who have completed an outstanding senior thesis.

Program Description

The History Department offers instruction in elementary Latin. It consists of a two–course sequence, Latin 1 and Latin 2, that begins in the fall quarter only. Students interested in Latin literature should see the course listings under Literature. Those interested in classical studies should see the program description for classical studies under history.

Campus Language Laboratories and Placement Exams

No placement exam is required for entry into Latin 1. Contact the History Department for more information about these topics.

[Faculty](#) | [Course Descriptions](#)

Program Description

The Latin American and Latino Studies (LALS) Department prepares students for bilingual and multicultural participation in a rapidly changing and globalized world. LALS integrates the study of Chicano/a and Latino/a communities in the U.S. with analysis of the histories, politics, cultures, and societies of Latin America and the Caribbean. The field is inherently interdisciplinary, drawing on sociology, history, anthropology, political science, media studies, communications, cultural studies, economics, environmental studies, and literature.

LALS courses deal with changing political, social, economic, and cultural realities among Latin American and U.S. Latino and Latina communities in ways that recognize cross-cultural and transnational processes. Key concepts and processes studied include: immigration and transnational migration; gender, racial, sexual, and ethnic identities; social movements; diverse forms of cultural expression and cultural politics; ongoing political and economic restructuring in Latin America; and the challenges of political and economic empowerment for Latino/a communities in the U.S. Students learn to formulate thoughtful, critical and clear arguments and to communicate effectively in more than one language.

In addition to academic knowledge, LALS also provides opportunities for students to acquire practical, real-world skills. Through program-related internship and field-study experiences, students can acquire useful, pre-professional skills in any of the following key areas: community development/advocacy, public policy, education, journalism, media, legal services, performance, and research/writing, among others.

Latin American and Latino studies courses span a number of disciplines and are augmented by courses taught by participating faculty in other departments. The Latin American and Latino Studies Department compiles a quarterly list of the courses offered by other departments that are pre-approved and count toward the major; this list appears on the department's web site under "courses" and is frequently updated.

Graduates of the LALS major have made careers in a wide variety of fields, including teaching, community organizing, community and government service, journalism and the media, environmental science, global economics, health care, legal services, library science, music, publishing, and research. Many have gone on to pursue advanced degrees in the U.S. or abroad in fields such as anthropology, bilingual education, media,

Declaration of the Major

Students need to complete LALS 1, Introduction to Latin American and Latino Studies, and one Latin American and Latino Studies 80 level course prior to declaring the major. See the LALS department for more information.

Requirements of the Major

Two lower-division courses are required for the major: LALS 1, Introduction to Latin American and Latino Studies, and one Latin American and Latino Studies 80 course. (See the LALS web site for a listing of lower-division courses).

Other departments' courses numbered 1-80 on Latin American and/or Latino/a subjects may be substituted with approval in advance from the Latin American and Latino Studies Department.

Courses with similar content taken at other institutions may be substituted with approval from the Latin American and Latino Studies Department.

In addition, all majors must complete 10 upper-division courses, including three required core courses, (no substitutions):

Latin American and Latino Studies core courses

100 Concepts and Theories in Latin American and Latina/o Studies

100A Social Science Analytics

100B Cultural Theory in the Americas

The remaining seven electives must meet the following criteria:

- A student-defined cluster of three LALS-related courses must be taken in a variety of areas of concentration.
- These may be LALS courses or courses from affiliated/participating departments.
- At least one course must concentrate on pre-WWII topics
- At least one course must center on Chicano/a-Latino/a issues
- At least two LALS upper-division courses must be taken in Spanish or Portuguese***

***Upper-division courses in Portuguese are currently not taught at UCSC and must be taken elsewhere.

See the LALS department website (<http://lals.ucsc.edu>) for an updated list of additional lower-division and upper-division courses that meet LALS requirements

Language Requirements

All Latin American and Latino studies majors are expected to learn to speak, read, and write Spanish or Portuguese and to make use of these skills on a regular basis in their upper-division academic work.

Majors must take at least two upper-division courses taught in Spanish or Portuguese. Before taking upper-division course work taught in the language, students must demonstrate proficiency in Spanish equivalent to the completion of Spanish 6 or 56, or Spanish for Spanish Speakers 63. Students who wish to pursue Portuguese may take the Portuguese 1A/1B or 60A/60B series.

Students who have achieved fluency in Spanish or Portuguese through life experience may be exempt from this recommended preparatory course work after demonstration of their proficiency. In addition to Latin American and Latino studies and affiliated department course offerings, the required two upper-division courses taught in Spanish or Portuguese*** may be fulfilled through study abroad with prior approval by the LALS

Department. Students may also pursue internship or field study opportunities to satisfy one of the two required upper-division courses taught in Spanish or Portuguese; however, at least one of the two courses must be fulfilled in a classroom setting.

Field–Study and Internship Opportunities

All majors are encouraged to undertake either a field study in Latin America, the Caribbean, a Latino/a community in the U.S., or formal academic study abroad through the Education Abroad Program (EAP). These paths are the best ways to improve language skills, to explore the nature and direction of specific academic and career interests in relation to Latin American and Latino studies, and to deepen cross-cultural understanding and relationships.

Field studies are independent, community-based study projects for academic credit, done under faculty sponsorship and arranged on an individual basis. Local opportunities for internships and field study in Latino/a communities on California’s Central Coast are numerous. Credit for up to three upper-division courses may be applied toward the major from field study; however, course credit from field study and study abroad combined may not exceed three upper-division courses. Students should check the Latin American and Latino Studies Department web site for further information regarding the field–study process and course credit. A listing of local field–study programs and petition forms are available at the Latin American and Latino Studies Department office, 32 Merrill.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in Latin American and Latino studies and the combined majors with global economics, literature, politics, and sociology are met by completing courses 100A and 100B.

Study Abroad

Students may study abroad through the Education Abroad Program (EAP), through UC Summer & Quarter Abroad Programs, or through independent programs. EAP offers opportunities for students to study in Buenos Aires, Argentina; Mexico City, Mexico; Santiago, Chile; Rio de Janeiro, Brazil; and Madrid, Córdoba, Granada, and Barcelona in Spain. In addition to language and culture and university immersion programs, EAP also offers a Field Research Program in Mexico, which is an experiential program geared toward juniors and seniors who want to explore the “real” Mexico outside the classroom and at the same time receive undergraduate research training. The program has research sites in states such as Jalisco, Yucatán, Oaxaca, and Michoacán (final site choice depends on the research topic). Application deadlines are generally about one year in advance of the program, so students should visit the UCSC International Education Office early to plan for study abroad and to begin the application process. The department will consider by petition the approval of courses taken abroad, whether through EAP or through independent programs, that cover topics appropriate to the LALS curriculum for upper-division credit toward the major. All credit for EAP classes is fully incorporated into students' UCSC transcripts; students receive transfer credit for independent study abroad programs. Financial aid applies to all EAP programs and takes into account airfare and living costs in addition to tuition and fees; financial aid is not available for students who study abroad independently. Before departure, student should present an academic plan for courses abroad to the department advisor for review. Credit for up to three EAP courses can be applied toward the major. (A maximum of three courses of field study and EAP combined can be applied toward the major requirements.)

Senior Comprehensive Requirement

Every major must complete a senior exit requirement in order to graduate. The preparation and completion of this requirement is structured into the senior year. There are five options to choose from:

1. Passing a Latin American and Latino Studies senior seminar (194 series). Students must write at least 30 pages cumulatively during the course of the quarter, and must submit a final paper that is based on independent scholarly research, demonstrates

advanced skills in critical analysis, and which has undergone revisions. Senior standing and completion of LALS 100A and 100B are required before taking a LALS 194 course for fulfillment of the senior exit requirement.

2. An expanded research paper, a minimum of 20 pages in length. This paper often builds on related course work and requires approval from the relevant faculty adviser before the end of the winter quarter of the senior year. Students must be enrolled in an independent-study tutorial to complete this paper.
3. A senior thesis, generally between 40–60 pages, based on two or more quarters of sustained independent research under the supervision of the faculty adviser while enrolled in an independent study (done by petition to LALS, and with the approval of the faculty adviser). If the thesis option is selected by a combined major, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member is affiliated with both departments.
4. A senior project, which can be either a creative project or a community-action project. Creative projects include web site design, video, performance, slide show, photo exhibit, or other media work. A short written analysis of the student's experience in conducting the project is required. Community-action projects often involve sustained research and/or activity conducted in a community organization or public interest group, usually stemming from an internship. The required short written analysis has to be 10 pages minimum.
5. The student-directed seminar option is available to unusually qualified students only. It requires three quarters of preparation directed by a faculty adviser and approval by the Academic Senate Committee on Educational Policy prior to teaching the course. The class is limited to 15 students. This option can be taken only by petition to LALS and with the approval of the faculty adviser. This process should be initiated a year prior to offering the course.

Note: some combined majors have fewer options for exit requirements (see below)

Latin American and Latino Studies Major Planners

The following are two recommended academic plans for undertaking basic preparation for the Latin American and Latino studies major. Plan One is a guideline for students who commit to the major early in their academic career. Plan Two is for transfer students.

Plan One—Frosh

Year	Fall	Winter	Spring
1st (frsh)	SPAN 1	SPAN 2	SPAN 3
	LALS 1	LALS 80	LALS 80
2nd (soph)	SPAN 4 or SPSS 61	SPAN 5 or SPSS 62	SPAN 6 or 56 or SPSS 63
	LALS 100	LALS 100A	LALS 100B
3rd (jr)	LALS upper-division course	LALS upper-division course	LALS upper-division course
4th (sr)	LALS upper-division course	LALS upper-division course	LALS 194 (Senior-Exit Requirement)
	LALS upper-division course	LALS upper-division course	LALS upper-division course

Plan Two—Junior Transfers

Year	Fall	Winter	Spring
3rd (jr)	SPAN 4 or SPSS 61	SPAN 5 or SPSS 62	SPAN 6 or 56 or SPSS 63
	LALS 100	LALS 100A	LALS 100B
	LALS 80	LALS 80	LALS upper-division course
4th (sr)	LALS upper-division course	LALS upper-division course	LALS upper-division course
	LALS upper-division course	LALS upper-division course	LALS 194 (Senior-Exit Requirement)

Combined Majors

The combined major options, requiring fewer courses than a double major, are established with the global economics, literature, politics, and sociology programs.

Latin American and Latino Studies/Global Economics

Students are required to take a total of 18 courses and to satisfy the senior comprehensive requirement. For the combined major in Latin American and Latino studies/global economics, students complete a total of seven lower-division course requirements for both the Latin American and Latino studies and global economics majors. Students work with a faculty adviser from each department. Lower-division requirements include Economics 1, 2, 11A, 11B, Applied Mathematics and Statistics 5, two LALS lower division courses. Upper-division course requirements include Economics 100A/ (100M), 100B/ (100N), and 113; LALS 100, 100A, and 100B; and five additional elective courses, two from economics (104, 114, 120, 125, 126, 128, 130, 137, 140, 141, 142, 148, 149, 150, 156, 160A, 160B, 165, 169, 170, 171, 175, 183, 184, 189, 195 or 199) and three from Latin American and Latino studies. Two of the upper-division courses must be taught in Spanish or Portuguese*** and two to four (at least one quarter) must be courses of academic study abroad, internship, or field study in a Spanish- or Portuguese-speaking country. The comprehensive requirement is met by the completion of a senior thesis on a topic suitable to both global economics and Latin American and Latino studies, supervised by a faculty member from either department and read and approved by the student's advisers from both departments.

Latin American and Latino Studies/Literature

Students are required to take a total of 13 courses and to satisfy a senior comprehensive requirement. Students complete a total of two lower-division course requirements. One of the lower-division LALS classes must be LALS 1 or LALS 80 and one of the lower-division classes must be Spanish Literature 60 or a Literature 80 series course in a relevant area of study. For transfer students, a petition can be made to replace the LALS 1 or 80 course with an appropriate course from another institution.

Upper-division requirements include five core courses, LALS 100, 100A, 100B, Spanish Literature 102A, and Spanish Literature 102B; and six additional elective courses, three from Spanish Literature and three from LALS. At least four of the upper-division courses must be taught in Spanish or Portuguese*** (with at least one taught by LALS core or participating faculty), and at least one of the Literature courses must address theoretical concerns. Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the major when the content is deemed appropriate by both departments. To complete the comprehensive requirement, students can write a senior thesis (by petition), enroll in an appropriate LALS Seminar (194 series), or enroll in an appropriate Literature Senior Seminar in the area of concentration. If the thesis option is selected, it should be planned in consultation with an adviser from

each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member belongs to both departments. Both departments must approve a study plan before the major can be declared.

Latin American and Latino Studies/Politics

Students are required to take a total of 13 courses and to satisfy a senior comprehensive requirement. For the combined major in Latin American and Latino studies/politics, students complete two lower-division course requirements. One of the lower-division courses must be LALS 1 or 80, the other one course from Politics 1–79. Transfer students may petition to substitute Latin American and Latino studies 1 or 80, or one course from Politics 1–79 with appropriate course work from another institution. The 11 upper-division courses include three core course from LALS (LALS 100, 100A and 100B), one from Politics (140C) and seven upper-division electives, five from politics (three politics core courses from the 105, 120, 140, and 160 series) and two from LALS (one must be taught in Spanish or Portuguese*** and the other must be on Chicano/a–Latino/a issues).

To complete the senior comprehensive requirement, students may take either a Politics (190) or LALS (194) senior seminar.

Latin American and Latino Studies/Sociology

Students are required to take a total of 14 courses and to satisfy a senior comprehensive requirement. There are three lower-division course requirements, two from the Sociology Department and one from Latin American and Latino Studies Department. The lower-division LALS courses must be LALS 1 or an 80-level course; transfer students may petition to replace the LALS 1 or 80 with an appropriate course from another institution. Upper-division requirements include seven core courses: LALS 100, 100A, 100B; Sociology 103A, 103B, 105A, and 105B; and four additional elective courses, two from sociology and two from Latin American and Latino studies. At least one of the Latin American and Latino studies upper-division courses must be taught in Spanish or Portuguese***, and at least one course in the sociology/Latin American and Latino studies combined major must be on Chicano/a–Latino/a issues. Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the major, when the content is deemed appropriate by the faculty advisers of both Sociology and Latin American and Latino studies. Students can satisfy the comprehensive requirement in one of three ways: (1) writing a senior thesis, (2) passing an appropriate LALS Senior Seminar (194 series), or (3) completing two additional sociology upper-division courses in the area of Inequality and Social Change (refer to the sociology undergraduate adviser for the specific list of courses). If the thesis option is selected, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member belongs to both departments. See Sociology program statement on admission to the LALS/Sociology major.

***Upper-division courses in Portuguese are currently not taught at UCSC and must be taken elsewhere.

Honors in the Major

The LALS faculty considers awarding honors in the major based on overall student academic performance in courses that count towards the major. To receive the strongest consideration for honors in the major the following grade point average (GPA) criteria must be met: highest honors, 4.0; honors, 3.7. Students with a 3.5–3.7 GPA in the major will also be considered, and a decision is made based on their grades in core courses and improvement over time. For combined majors, student work must be considered to be honors-level in both departments; the LALS faculty cannot award honors in the major unless the other department also confers honors.

LALS also awards honors for the thesis, creative or community action projects, or student taught seminars, by the recommendation of the faculty adviser. Note that a thesis, a creative/community project, or a student-taught seminar are the only senior exit requirement options that qualify for this distinct honors designation. Expanded papers and senior seminars do not qualify for a separate honors designation, but students who

choose these options may still qualify for honors in the major.

Minor Requirements

The minor in Latin American and Latino studies consists of seven courses, including two lower-division courses (LALS or pre-approved courses from other departments) and five upper-division courses (including LALS 100 or LALS 100A or 100B and any other four upper-division courses that count towards the major). Knowledge of Spanish and/or Portuguese is highly recommended, but not required for the minor.

Graduate Studies

The Ph.D. program in Latin American and Latino Studies at UCSC offers an innovative transnational and interdisciplinary approach to the study of the peoples, cultures, societies and institutions of the Americas. The program is designed to educate students in this new field of study and train them to develop the conceptual and analytical skills necessary for understanding the dynamics of hemispheric change. This is the first doctoral program in Latin American and Latino Studies.

In preparing students for research and teaching at the university level, the department offers four thematic clusters in the emerging field of Latin American and Latino Studies: 1) transnational migrations within the Americas; 2) social inequalities; 3) cultural politics and cultural flows; and 4) collective action and social movements. Doctoral students specialize in one of these four substantive themes, as well as a focus area of their own design.

1. **Transnational Migrations.** While transnational migrations are the subject of research in multiple disciplines, this program analyzes these transformative processes through an interdisciplinary lens. A transnational approach examines links between regions in the Americas, analyzing the social and historical foundations of economic dynamics such as remittances from the United States or the dollarization of Latin American countries. A transnational approach to the study of migratory processes explores the dynamics of bi-national communities, bilingualism and multilingualism, immigrant integration into host societies, and North-South exchanges of ideas and cultures.
2. **Social Inequalities.** This program's research in the Americas foregrounds the study of transnational social inequalities formed by power relations based on race, ethnicity, nationality, citizenship, class, territory, gender and/or sexuality. These social hierarchies are analyzed as institutions, historical processes, discourses, or symbols with multiple meanings, and are examined in terms of how they have been mobilized to build, transform, or challenge identities, communities, and social movements in local, national, and global contexts over time.
3. **Cultural Politics and Cultural Flows.** Another distinctive area of inquiry in the Americas is the study of cultural politics and cultural flows that shape everyday life, institutions, social identities, discourses, meanings, and cultural forms and practices, in global, regional, and local contexts in an increasingly interconnected and integrated world. The transnational analysis of culture focuses on the ways in which cultural forces and cross-cultural communication and media are contributing to the formation of new transnational imaginaries, as well as how these cultural processes are transforming and redefining national and local cultures.
4. **Collective Action and Social Movements.** This area of research addresses collective action and social movements at local, national and international levels viewed through transnational lenses. As migrants engage in public life, both in their communities of residence and in their communities of origin, they construct diverse practices of political participation, including "civic binationality." These processes are crucial for understanding the largest wave of immigration in a century, including how migrants relate to US society.

The doctoral program provides rigorous training in both disciplinary and interdisciplinary approaches to the study of transnational processes that link the Americas. The program educates doctoral students in the theories and research methods based in disciplines of the social sciences and the humanities.

The deadline for applications to the doctoral program is December 15 in the preceding

year. The program only accepts students for admission in fall quarter.

The doctoral program will begin accepting applications for fall 2014 in October 2013, and the deadline will be December 15, 2013.

Coursework requirements

The program requires a total of 13 courses with LALS Graduate Program Affiliated Faculty, including the definition of two areas of concentration. Of the required courses, up to three may be independent studies with LALS faculty. Of the 13 required courses, students may take up to four regular graduate courses offered in other departments and the Graduate Advisor will determine whether these courses count for the LALS program requirements. Before advancement to candidacy, a full-time course load is two or three courses at the graduate seminar level. The following are the course requirements:

LALS 200 Bridging Latin American and Latino Studies

LALS 200A Politics and Society (pending approval)

LALS 200B Culture and Society (pending approval)

Two methodology courses (taught in LALS or in a disciplinary department)

Seven additional 5-unit courses leading to the definition of two areas of concentration, taken in consultation with the advisor

LALS 201 two-unit pedagogy course with the Graduate Director (pending approval)

In addition, students may enroll in LALS 291 (a two-unit advising course; pending approval) each quarter until advanced to candidacy as per their advisor's instructions. Students are encouraged to enroll in a grant-writing course, which may be taken outside the department. If students take the Graduate Summer Language course(s), they will not count as part of the seven additional courses. If a student enters with a Master's Degree from another university, s/he may petition to the Graduate Director to request that some of the graduate courses fulfill LALS course requirements.

Language Requirement

The program requires significant reading, writing and speaking abilities in both English and Spanish, unless the student plans to work in Brazil or with Brazilian migrants, in which case they must demonstrate proficiency in English and Portuguese. Students are required to demonstrate their proficiency in a language other than English before the completion of the Qualifying Examination. Some students' research projects may require command of a third language, such as an indigenous language. These students will have to demonstrate proficiency in a third language by completing language instruction at another institution or by an examination with an LALS principal faculty member.

The Qualifying Examination Process

Doctoral students will be required to submit two Qualifying Essays, and a Qualifying Examination, as described below. A Qualifying Exam Committee, composed of four faculty members, will approve both the scope of the field statements constituting the Qualifying Essays and the final written products, and conduct the oral examination. This committee must include at least two principal faculty members—one LALS Core faculty member and one LALS Graduate Program Affiliate faculty member, one of whom chairs the committee—and one tenured faculty from outside the LALS department. The Qualifying Exam Committee must be approved in advance by the Graduate Division. Students should take their exams by spring of the third year.

1. Qualifying Essays. Students are required to complete two Qualifying Essays. The Qualifying Essay topics should address broad non-overlapping fields and review the literatures related to the proposed dissertation questions. Students should consult with their qualifying exam committee early in the process, regarding the appropriate scope and content of their essays.

One of the Qualifying Essays must focus on one of the department's four themes: transnational migrations, social inequalities, cultural flows and cultural politics, or

collective action and social movements. The qualifying essay should demonstrate command of the methodology relevant to the student's specialized research interests (e.g. ethnographic field methods, textual analysis, archival research methods, statistics, media analysis, and/or comparative methods) and include relevant texts in the second language.

In addition, the essays must be accompanied by two proposed course syllabi for potential undergraduate courses.

2. Qualifying Examination. An oral examination will follow the approval of the Qualifying Essays.

After successfully completing the Qualifying Examination, students are expected to assemble a Dissertation Committee chaired by a LALS principal faculty member and include two additional members as well as a faculty from outside the LALS department.

Course-work and the Qualifying process should be completed by the end of the third year. Students may petition for a non-terminal Master's Degree after advancing to candidacy.

Dissertation

Students will be expected to complete the dissertation prospectus and secure approval from the Dissertation Committee by the last day of the quarter after the Qualifying Examination. In the prospectus, students should clearly articulate the logic of an interdisciplinary, transnational approach, as well as the methodologies to be used for addressing the research questions.

The dissertation must demonstrate in-depth research, make a significant and original scholarly contribution, and include material worthy of publication.

Designated Emphasis in Latin American and Latino studies

Graduate students may work toward a doctor of philosophy (Ph.D.) degree that notes a designated emphasis in Latin American and Latino studies on the graduation documents. Students wishing to pursue this option should consult with the chairs of their respective Ph.D. programs and are encouraged to apply in the first or second year of graduate study. The application and an annually updated list of regularly offered, approved graduate courses are available at : <http://lals.ucsc.edu>.

The following are required for the designated emphasis:

Committee Composition. The student must have a designated graduate adviser from among the Latin American and Latino studies core, participating, or affiliated faculty. This adviser will be in addition to the graduate adviser from the student's home department. The Latin American and Latino studies adviser must serve on the student's qualifying examination committee and/or on the student's dissertation committee.

Course requirements. The student must take five graduate courses in Latin American and Latino studies, including the required LALS 200 and LALS 297. The remainder can be selected from appropriate graduate offerings of any UCSC department, as long as they are taught by core, participating, or affiliated Latin American and Latino studies faculty.

Teaching. The student must serve as a teaching assistant in at least one Latin American and Latino studies course or teach a Latin American and Latino studies course independently in the regular curriculum or in Summer Session.

Courses. Graduate course work in Latin American and Latino studies is available both in the Latin American and Latino Studies Department and in other UCSC departments.

Latina/o studies; Chicana/o history; U.S. immigration histories; U.S. social and cultural history; critical race and ethnicity theories; Chicana and Mexicana feminisms; “borderlands” studies; history of modern Mexico

John G. Borrego, Professor Emeritus of Latin American and Latino Studies

Sylvanna Falcón, Assistant Professor of Latin American and Latino Studies
Human rights, racism/antiracism, globalization, gender, transnational feminism, Latin America (Mexico, Peru), United States

Jonathan Fox, Professor of Latin American and Latino Studies
Latin American and Latino politics, including issues of democratization, accountability, social movements, transnational civil society, social and environmental policy, and immigration

Rosa–Linda Fregoso, Professor of Latin American and Latino Studies
Human–rights, feminicide, and violence studies; critical and cultural theories; decolonial and intercultural feminist studies; media and visual studies

Shannon Gleeson, Assistant Professor of Latin American and Latino Studies
Migrant populations, the effects of documentation status, labor rights, civic engagement, inequality and stratification, political sociology, law and society, mixed methods and comparative approaches

Walter L. Goldfrank, Professor Emeritus of Latin American and Latino Studies and Sociology

Flora Lu, Associate Professor of Latin American and Latino Studies
Ecological anthropology, human behavioral ecology, Amazon rainforest, indigenous peoples, conservation, Ecuador, culture change, market integration, indigenous resource management, political ecology, environmental justice

Hector Perla, Jr., Assistant Professor of Latin American and Latino Studies
International relations; Latin American studies; Latino politics; political psychology; Central America; U.S. foreign policy; social and revolutionary movements; asymmetric conflicts

Catherine Ramirez, Associate Professor of Latin American and Latino Studies

United States cultural history, with a focus on immigration; theories of assimilation and citizenship; 20th–century Mexican–American history; Latino literature; comparative ethnic studies; feminist and gender studies; cultural studies

Cecilia M. Rivas, Assistant Professor of Latin American and Latino Studies
Salvadoran transnationalism; media (Internet, newspapers); migration; globalization; race, ethnicity, and gender; bilingualism; consumption; El Salvador; Central America

Patricia Zavella, Professor of Latin American and Latino Studies
Transnational migration by Mexicans, poverty, family, sexuality, labor, social networks, feminist studies, Chicana/o–Latina/o studies, ethnographic research methods

Participating Faculty

Mark D. Anderson, Associate Professor of Anthropology
Racial formation, diaspora, nationalism, transnationalism, indigeneity, consumption, Central America, Honduras, Latin America, African diaspora

Jeffrey T. Bury, Associate Professor of Environmental Studies
Political ecology; sustainable development; Latin American studies; international relations; institutional dimensions of natural resource conservation in the global south

Pedro G. Castillo, Associate Professor Emeritus of History
Chicano/a history and culture; American social and urban history; race, class, and gender in California history, immigration history, Latina/os in the U.S.

Cynthia Cruz, Assistant Professor of Education
Street ethnography; community–based learning and pedagogies; decolonial feminist pedagogies; Chicana studies and epistemologies; U.S.–Third World Feminisms; cultural studies and education

Kent H. Eaton, Professor of Politics
Comparative politics, international relations, political economy, public policy, territorial conflict, federalism, decentralization, party and electoral systems, Latin America, the Philippines

Lisbeth Haas, Professor of History
U.S.–Mexico borderlands, Chicano and Native American history; visual culture in the colonial Americas; the U.S. West and California; historical memory, theory, and historical methodology

Norma Klahn, Professor of Literature
Latin American literary and cultural studies (specialization: Mexico), Chicano/Latino literature and culture from a cross–border perspective, modernity/postmodernity, poetics and politics, genre theory (novel, poetry, autobiography), contemporary critical theories (i.e., border, ethnic, feminist, transnational/global)

Lourdes Martínez–Echazábal, Professor of Latin American Literature
Latin American and Caribbean literatures; Afro–Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora; critical race theory

Eduardo Mosqueda, Assistant Professor of Education
Mathematics education of English learners; large–scale dataset quantitative analysis; urban education issues

Olga Nájera–Ramírez, Professor of Anthropology
Folklore theory, ritual, festival, dance, greater Mexican culture, history and folklore, transnationalism, identity; expressive culture, ethnomusicology, bilingual communication, gender, history, and culture of Latin America, the U.S., and Mexico

Marcia Ochoa, Associate Professor of Community Studies
Gender and sexuality, race and ethnicity, Latina/o studies, media and cultural studies, ethnography of media, feminism, queer theory, multimedia production, Latin American studies—Colombia and Venezuela, political philosophy, geography

Juan Poblete, Professor of Literature
Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o)

American cultural studies; 19th-century studies; the history of reading practices

Renya K. Ramirez, Associate Professor of Anthropology

Native American studies, Indian identity, Native Americans and anthropology, urban Indians, Native American women, cultural citizenship, expressive culture, and anti-racist education

B. Ruby Rich, Professor of Community Studies

Documentary film and video, post-9/11 culture, new queer cinema, feminist film history, Latin American and Latin/a cinema, U.S. independent film and video, the essay film, the politics of film festival proliferation and the marketing of foreign films in the U.S.

Barbara Rogoff, Professor of Psychology

Human development in sociocultural activity; informal and formal arrangements for learning; adult/child and peer communication in families and schools in diverse cultural communities (especially in Guatemala, Mexico, and the U.S.); learning through observation and collaboration

Felicity Schaeffer-Grabel, Associate Professor of Feminist Studies

Transnational feminism, migration, Latin American/Latino studies, Chicana/o studies, Internet, technology and the body, sexuality, gender and globalization

Helen Shapiro, Associate Professor of Sociology

Political economy, Latin American economic history and development (with an emphasis on Brazil), industrial policy, the auto industry, the state and transnational corporations

Affiliated Faculty

Jorge Aladro Font, Professor of Spanish Literature

Spanish mysticism, theory and historical developments of imagery in the Middle Ages to the baroque period, Renaissance and baroque Hispanic literature, Italian ideas in the Spanish Renaissance, Cervantes

Chelsea Blackmore, Assistant Professor of Anthropology

Pre-Columbian archaeology (Mesoamerican focus), identity formation, complex societies, class and state formation, gender, feminist/queer theory

Carolyn Dean, Professor of History of Art and Visual Culture

Cultural histories of the native Americas and colonial Latin America

Maria Elena Diaz, Associate Professor of History

Atlantic world, Colonial Latin America and the Caribbean, Cuba; social and cultural, global and local histories; colonialism, slavery and freedom, race/ethnicity, gender and class; legal, political, popular, and religious culture

Robert W. Fairlie, Associate Professor of Economics

Labor economics, public policy, entrepreneurship, applied econometrics

Dana Frank, Professor of History

U.S. social and economic history; women, labor, and working-class history; contemporary political economy; modern Central America

Gregory S. Gilbert, Professor of Environmental Studies

Tropical ecology and conservation, disease ecology

María Victoria González-Pagani, Lecturer in Spanish Language

Language teaching methodology; Spanish syntax; computer-assisted foreign language learning; Latin American cultural studies, especially women's contributions

Shelly Grabe, Assistant Professor of Psychology

Sexual objectification of women and women's bodies as a pervasive global phenomenon played out in different ways across different cultures; how "embodied oppression" affects women's psychological well-being and empowerment

Miriam Greenberg, Associate Professor of Sociology

Media studies, cultural studies, globalization, political and cultural economies of global cities, video production, and ethnography

Kirsten Silva Gruesz, Professor of Literature
Chicano/Latino literatures and cultures, Comparative Americas studies, language ideologies and bilingualism in literature

Daniel Guevara, Associate Professor of Philosophy
Kant, moral philosophy, moral psychology, environmental ethics, history of modern philosophy

Craig Haney, Professor of Psychology
Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual origins of violence, development of alternative legal and institutional forms

Karen D. Holl, Pepper–Giberson Professor, Environmental Studies
Restoration ecology, conservation biology, landscape ecology

Regina D. Langhout, Associate Professor of Psychology
School–community–university collaboration; how schooling and neighborhood experiences are informed by social class, race, and gender; participatory action research

John Leaños, Assistant Professor of Social Documentation
Social documentation, social art practice, community arts, documentary animation, Chicana/o art practice and cultural studies, media and cultural studies, subaltern studies, photography, installation art, public art and intervention

Deborah Letourneau, Professor of Environmental Studies
Agroecology, tropical biology, insect–plant interactions, biological control as an alternative to chemical pesticides

Daniel T. Linger, Professor Emeritus of Anthropology
Self and identity, politics, cultural theory, cities, violence, transnational experience, Brazil, Japan

Paul M. Lubeck, Professor of Sociology
Political sociology; political economy of development, globalization, labor and work; logics of methodology; religion and social movements; Islamic society and identities; information and networks

Andrew Salvador Mathews, Assistant Professor of Anthropology
Environmental anthropology, science and technology studies, conservation and development

Judit Moschkovich, Professor of Mathematics Education
Mathematics cognition and learning; student conceptions of linear functions; discourse in mathematics and science classrooms; everyday mathematical practices; and bilingual mathematics learners

Matthew D. O'Hara, Assistant Professor of History
Modern Latin America and Mexico; late colonial Latin America; religion, spirituality, and ritual; urban history; race, ethnicity, and identity; political culture

Lucinda Pease–Alvarez, Professor of Education
Language and literacy development, language–minority education, bilingualism, informal learning

Jennifer Poole, Assistant Professor of Economics
International trade, Latin American economics, applied microeconomics

Daniela Sandler, Assistant Professor of History of Art and Visual Culture
Modern and contemporary architecture and urbanism; visual and cultural studies; social inequality in space; architectural preservation; history and memory in the built environment; architecture and visual culture in Latin America and Europe, with foci on Brazil and Germany

Ana Maria. Seara, Lecturer, Portuguese Language
Portuguese language; literature, film, and music of Brazil and the Portuguese–speaking world; acquisition and teaching of foreign, second, and heritage languages

Dana Y. Takagi, Professor of Sociology

Social inequality and identity, research methods, race relations, nationalism and social movements

Kip Telléz, Associate Professor of Education

Preparation of teachers for linguistic and cultural diversity, second language learning, studies of the school curriculum, educational assessment

Gustavo Vazquez, Associate Professor of Film and Digital Media

Film and video production, directing drama, documentary and experimental cross-cultural experiences in film, film curator

Rasmus Winther, Assistant Professor of Philosophy

Philosophy of science, epistemology, metaphysics, philosophy of biology, American pragmatism, Latin American philosophy, evolutionary theory

Thomas Wu, Assistant Professor of Economics

International finance, macroeconomics, Brazilian macroeconomic policy

Karen Tei Yamashita, Associate Professor of Literature (Creative Writing)

History and anthropology of Japanese immigration to Brazil, Asian American literature, modern fiction, playwriting

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. Introduction to Latin American and Latino Studies. F,W

Interdisciplinary introduction presenting the elements for studying Latin American culture, society, economics, and politics, as well as the dynamics of Latino communities in the U.S. Special attention paid to issues of race, gender, and class, to emerging political and economic shifts in the Americas, and to new local and transnational efforts for social change on the part of Latin America's peoples and Latinos in the U.S. (General Education Code(s): ER, IS, E.) *H. Perla*

42. Student-Directed Seminar.

Seminar taught by upper-division student under faculty supervision. Requires prior approval by Latin American and Latino Studies Department and two quarters (fall, winter) of supervised preparation prior to teaching in spring quarter. (See course 192). *The Staff*

80B. Social Movements in Latin America. *

Examines contemporary social movements in Latin America, especially those that arose from popular response to different forms of social exclusion and to authoritarian political systems. Explores a variety of popular movements, their successes and setbacks, including rural and urban uprisings, native nations and their descendants, women, African descendants, labor, environmental and grassroots movements. Enrollment limited to 60. (General Education Code(s): CC, T3–Social Sciences, E.) *H. Perla*

80D. Political Change in Mexico. W

Reviews broad trends in contemporary Mexican politics against the backdrop of long-term historical, social, and economic change throughout the 20th century, analyzing how power is both wielded from above and created from below. The course covers national politics, grassroots movements for social change and democratization, environmental challenges, indigenous movements, the media, and the politics of immigration and North American integration. (General Education Code(s): CC, T3–Social Sciences, E.) *J. Fox, The Staff*

80E. Latin American Philosophy. F

Is there a general school of philosophy endemic to Latin America? Would it have to appeal to quintessential Western philosophical questions regarding knowledge, values, and reality? If not, why not, and would it then still count as philosophy? What difference do ethnic and national diversity, as well as strong political and social inequality, make to the

development of philosophical questions and frameworks? Course explores a variety of historically situated Latin American thinkers who investigate ethnic identity, gender, and socio–political inequality and liberation, and historical memory, and who have also made important contributions to mainstream analytical and continental philosophy. (Also offered as Philosophy 80E. Students cannot receive credit for both courses.) (General Education Code(s): T4–Humanities and Arts, E.) *R. Winther*

80F. Latinos in the U.S.: A Comparative Perspective. F
Analyzes the Latino experience in the U.S. with a special focus on strategies for economic and social empowerment. Stresses the multiplicity of the U.S. Latino community, drawing comparative lessons from Cuban–American, Puerto Rican, Chicano/Mexicano, and Central American patterns of economic participation and political mobilization. (General Education Code(s): ER, T3–Social Sciences, E.) *The Staff*

80G. Race, Class, and Gender. S
Examines the economic, social, political, and cultural experience of communities of color (Latinas/os, African Americans, Asian Americans, and Native Americans) and women in the U.S., through a sociological perspective. Using quantitative and qualitative methods, the relationship among individual actions, social institutions, societal forces, and social change are analyzed. Enrollment limited to 80. (General Education Code(s): ER, T3–Social Sciences, E.) *S. Gleeson*

80H. Comparative Latina/o Histories. *
Designed to survey recent works in the field of Latina and Latino histories, with particular emphasis on historiographical approaches and topics in the field. Readings are chosen to expose a selection of the varied histories and cultures of Latina/os in the U.S., and focus primarily on Mexicans, Puerto Ricans, and Cubans. (General Education Code(s): CC, T3–Social Sciences, E.) *G. Arredondo*

80I. Gender and Global Cinema. *
Applies critical and historical approaches to the study of gender in global cinema. Introduces students to different aesthetic and cross–cultural approaches to representing gender in contemporary film. Focuses on films, documentaries, and video works from the Americas as well as from other regions of the global South. Enrollment limited to 80. (General Education Code(s): CC, T3–Social Sciences, E.) *R. Fregoso*

80J. Race, Nation, and War. *
Evaluates the relationship between processes of racial formation, war, and nationalism in Latin America. Case studies range from the wars of independence to more recent forms of transnational violence. Students engage historical and anthropological perspectives and critiques of modernity. Enrollment limited to 80. (General Education Code(s): ER, T3–Social Sciences, E.) *C. Rivas*

80K. Latinos, Work, and Organizing. F
Students learn about the role of Latinos in different forms of U.S. organized labor (including, but not limited to, traditional unions). Focus is on organizing in several 20th–century, low–wage industries, as well as organizations representing Latino professionals. (Formerly Latinos and Organized Labor in the U.S.) Enrollment limited to 80. (General Education Code(s): ER, T3–Social Sciences, E.) *S. Gleeson*

80P. Energy, Society, and Environment in Latin America. *
From petroleum extraction to hydroelectric power to ethanol production, Latin America is an important provider of the world's energy. Course examines the implications of this process for economic growth, climate change, environmental degradation, social inequality, and poverty. (Formerly Energy, Society, and Ecology in Latin America.) Enrollment limited to 80. (General Education Code(s): PE–E, T3–Social Sciences, E.) *F. Lu*

80Q. Musica Latina: Music of Latin America and the Caribbean. S
Surveys various musical forms and styles that have developed in Latin America and Latino communities in the U.S. Discusses concept of hybridity and grapples with this as a central issue in the evolution of Latin American/Latino music. Addresses migration of music, which not only contributes to its distribution but also to the evolvment of musical

practices of forms, styles and genres across borders. (Formerly Musica Latina.) (General Education Code(s): CC, T3–Social Sciences, E.) *The Staff*

80R. Organizing Across the Americas. *
 Analyzes the range of theory and practice that emerged from and shaped significant social movements during the rise and fall of United States hegemony. Focuses on social struggles and revolutions in five distinct locations across the Americas: the United States (United Farm Workers--UFW), Cuba (Movimiento 26 de Julio--M26J), Nicaragua (Frente Sandinista de Liberacion Nacional--F.S.L.N.), Mexico (Zapatistas), and Brazil (Movimento dos Trabalhadores Rurais Sem Terra--MST). Enrollment limited to 80. (General Education Code(s): T3–Social Sciences, E.) *J. Borrego, The Staff*

80S. Sexualities and Genders in Latin American and Latina/o Studies. *
 Introduction to issues and themes surrounding sexualities and genders within Latin American and Latina/o studies. Provides background in the basic theoretical and historical frameworks of gender and its relationship to sexuality. In addition to cross–border perspectives, course also examines how gender and sexuality are structured and experienced through other social categories. Enrollment limited to 80. (General Education Code(s): CC, T3–Social Sciences, E.) *The Staff*

80T. Topics in LALS Cinema. *
 Lower–division offering on a topic of particular cultural, historical or contemporary interest in the field of Latin American and Latino/a cinema. Enrollment limited to 80. (General Education Code(s): T3–Social Sciences, E.) *The Staff*

80W. Transnational Feminist Organizing in the Americas. W
 Explores key aspects of transnational feminist organizing in the Americas, including the genealogy of transnational feminist theory and feminist perspectives on development in Latin America and the Caribbean. Analyzes how women from Latin America organize in response to their living conditions across gender, race, ethnicity, and national borders. (General Education Code(s): CC.) *S. Falcon*

80X. Central American Peoples and Cultures. W
 Examines contemporary societies and peoples of Central America considering how, in recent decades, media, history, war, cultural production, and migration have shaped Guatemala, Honduras, El Salvador, Nicaragua, and Costa Rica both as individual nations and as a region. Enrollment limited to 80. (General Education Code(s): CC, T5–Humanities and Arts or Social Sciences, E.) *C. Rivas*

81A. Mexican Folklórico Dance (2 credits). F
 Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklórico dance. Students taught choreographed dances from various regions of Mexico and also learn dance techniques (técnica) and stage make–up application. Additional workshops and lectures offered to supplement class. Open to all students; no previous experience required. (Also offered as Anthropology 81A. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): PR–C, A.) *O. Najera Ramirez*

81B. Mexican Folklórico Dance (2 credits). W
 Second course in series. Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklórico dance. (Also offered as Anthropology 81B. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): PR–C, A.) *O. Najera Ramirez*

81C. Mexican Folklórico Dance (2 credits). S
 Third course in series. Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklórico dance. (Also offered as Anthropology 81C. Students cannot receive credit for both courses.) Prerequisite(s): course 81A or 81B. May be repeated for credit. (General Education Code(s): PR–C, A.) *O. Najera Ramirez*

Upper–Division Courses

100. Concepts and Theories Latin American and Latina/o Studies. F

Interdisciplinary exploration of transnational migrations; social inequalities; collective action and social movements; and cultural productions, products, or imaginaries. Examines how transnational migration and hemispheric integration are transforming Latin American studies and Chicana/o–Latina/o studies. Explores the influence of neoliberalism and globalization, especially the intersection of critical analysis and social–justice praxis. Completion of course 1 highly recommended. (Formerly course 10, Bridging Latin American and Latina/o Studies) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER, E.) *G. Arredondo*

100A. Social Science Analytics. W

Compares diverse analytical strategies and builds practical research skills in the field of Latin American and Latino studies. (Formerly Politics and Society: Concepts and Methods.) Two–credit course 100L writing lab highly recommended. Prerequisite(s): course 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior Latin American and Latino studies majors, minors, and combined majors or by permission. (General Education Code(s): E.) *F. Lu*

100B. Cultural Theory in the Americas. S

Focuses on transnational, regional, and local features of Latina/o and Latin American cultural production and artistic expression: how culture is shaped by historical, social, and political forces; how cultural and artistic practices shape the social world; and how culture is produced in an interconnected, postindustrial, and globalized economy. (Formerly Culture and Society: Culture in a Global Context.) Prerequisite(s): courses 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior Latin American and Latino studies majors, minors, and combined majors. (General Education Code(s): E.) *R. Fregoso*

100L. Writing Lab (2 credits). W

This course accompanies course 100A. Participants receive feedback and guidance on their written exercises required for course 100A. Students submit drafts in advance and receive feedback from course 100A writing tutors as well as engage in peer–to–peer learning. Consistent attendance is required. Prerequisite(s): concurrent enrollment in course 100A required. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 60. *F. Lu*

101. Using Media. *

Hands–on survey of print, broadcast, audiovisual, and electronic media. Students complete and present a dozen different media production assignments as part of permanent portfolio. Assignments have Latino/Latin American focus. Peer critique of media projects. Prerequisite(s): concurrent enrollment in course 101L. (General Education Code(s): E.) *The Staff*

101L. Using Media: Video Laboratory (2 credits). *

Trains students in the fundamentals of video preparation, production and post–production through Social Sciences Media Laboratory. Prerequisite(s): concurrent enrollment in course 101. *The Staff*

102. Writing for Latin America and Latino Studies Majors and Minors. F,S

For Latin American and Latino studies students who wish to gain greater awareness of rhetorical modes and the academic essay. Students write several academic essays, each with a different purpose, and master the conventions of revising and editing. (Formerly Advanced Expository Writing Workshop.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. *The Staff*

111. The U.S.–Mexican Border Region. *

Global and national forces have transformed the 2,000–mile United States/Mexico border region into a site for world market factories. Analyzes how this transformation has affected workers and communities and systematically reviews subjective responses. (General Education Code(s): E.) *J. Borrego, The Staff*

121. Antropología de las juventudes. *

Taught in Spanish. Overview of the social construction of youth identities represented by intertwined liminal processes linked to the history of migration and ethnicity. Explores theoretical approaches on border youth and methodological strategies. Enrollment restricted to Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) *The Staff*

122. Media and Nationalism. F

Evaluates the links between media and the production of national identities in Latin America. Focuses on theories of nationalism, media, and globalization to examine the production of national histories and representations. Enrollment restricted to juniors and seniors. Enrollment limited to 40. (General Education Code(s): E.) *C. Rivas*

126A. Global Capitalism and Community Restructuring. *

Examines how Watsonville (U.S.) and Irapuato (Mexico) are being restructured by national development, North American economic integration (NAFTA), and global capitalism. Explores the relentless penetration of market imperatives, their impact on the communities, and community response; costs/benefits of being abandoned by or being attractive to global capital; and how people are surviving—scrambling to find jobs, keeping families together, and engaging in binational strategies for survival. Prerequisite(s): permission of instructor; concurrent enrollment in laboratory course 126B. Enrollment limited to 25. (General Education Code(s): IS, E.) *J. Borrego*

126B. Voices from the Watsonville Community. *

Weekly Wednesday evening seminar in Watsonville allows students to interact with local workers, organizers, immigration and citizenship NGO's, affordable housing non-profits, entrepreneurs, large commercial developers, county planners, city managers, PVUSD educators, health activists, politicians, commercial and organic farmers, food processing owners/plant managers, and environmentalists, in order to develop a deeper understanding of the past, present, and future of the community and the region. Class will present findings and interact with panel of community members on a Saturday morning during first weekend of spring quarter. Prerequisite(s): concurrent enrollment in course 126A. Enrollment limited to 25. (General Education Code(s): IS, E.) *J. Borrego*

127. Genero, Nacion Y Modernidad En El Cine. W

Taught in Spanish. Examines the relationship between cinema, gender, the nation, and modernity. Focuses on films by key Latino and Latin American women filmmakers to examine their engagement with identity, cultural imaginaries, coloniality, sexuality, and gender. (Formerly course 194T.) Enrollment restricted to Latin American and Latino studies majors, minors and combined majors. Enrollment limited to 40. *R. Fregoso*

128. Latino Media in the U.S. *

Explores the history and practice of Latino media in the U.S. with an emphasis on work created by, for, with, and about Latino constituencies. Course highlights the role that media plays in struggles for social change, political enfranchisement, creative self-expression, and cultural development. Course content varies with instructor. Enrollment limited to 39. (General Education Code(s): IM, E.) *The Staff*

129. Women Filmmakers: Latin American and Latina. *

Focuses on the work of a dozen major Latin American and Latina filmmakers from Argentina, Brazil, Venezuela, Mexico, and the U.S., including Maria Luisa Bemberg, Maria Navaro, Matilde Landeta, Lourdes Portillo. Examines contemporary films, from 1960 to present. (General Education Code(s): IM, E.) *R. Fregoso*

131. Latino Literatures: Assimilation and Assimilability. *

Explores cultural assimilation and assimilability in the United States, especially as related to the education and languages of Latinas/os, via literary forms, such as the memoir, novel, essay, short fiction, film, and/or poetry. Enrollment limited to 40. (General Education Code(s): TA.) *C. Ramirez*

132. Citizens, Denizens, and Aliens. *

Explores the theories and practices of citizenship and the roles citizens and non-citizens play in the state, civil society, and market, with a focus on the ways historical legacies and

social forces produce inclusion, exclusion, sameness, and difference. (Formerly American Studies 113C) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 40. (General Education Code(s): ER.) *C. Ramirez*

139. Latinos in Higher Education. *

Education has historically been a key site of contestation and struggles for Latinos in the United States. Course examines conceptual and empirical approaches to the study of Latinos and higher education with attention to the historical, cultural, and social conditions that continue to shape the current educational context. Focuses on the voices and experiences of Latinos, examining how everyday lives intersect with institutional practices and structural processes to shape their experiences in educational settings. Enrollment limited to 40. (General Education Code(s): ER.) *L. Banuelos*

140. Rural Mexico in Crisis. *

Focuses on political, social, economic, and environmental changes in rural Mexico from the 1910 revolution through the Zapatista rebellion. Emphasizes the interaction between the state, markets, and rural civil society, covering agrarian reform, agricultural policy, grassroots development initiatives, democratization, indigenous movements, natural resource management, and migration. Prerequisite(s): Previous completion of course 80D recommended. Enrollment restricted to juniors and seniors. Sophomores may enroll with permission from instructor. (General Education Code(s): CC, E.) *J. Fox*

143. Race and Ethnicity. W

Race and ethnicity have been—and continue to be—powerful forces shaping the U.S. experience. This course examines a range of conceptual approaches and monographic studies grounded in the history of the U.S. The readings provide various criteria for studying and understanding these phenomena. The course problematizes "race" by asking what the readings tell us about "race-making" and the reproduction of racial ideologies in specific historical contexts. Similarly, "ethnicity" is treated as a historically specific social construct. (General Education Code(s): ER, E.) *G. Arredondo*

143J. Global Political Economy. *

Analyzes the global, social, economic, and political forces that shape transnational, national, and regional societal formations and consequently the entire environment for social change. Examines the evolution of revolutionary struggle and its origins within and impact upon the evolving capitalist system. *J. Borrego, The Staff*

144. Mexicana/Chicana Histories. *

Explores current historical and theoretical writings on the lived experiences of Chicanas and Mexicana women in U.S. history. Themes include domination/resistance politics, (re)presentations, contestation, social reproduction, identity and difference. (Formerly Chicanas/Mexicanas in the U.S.) (General Education Code(s): TA, E.) *G. Arredondo*

145. Grassroots Social Change in Latin America. *

Focuses on the analysis of collective action by underrepresented groups in Latin America. Concepts and issues include political participation and impact, gender, ethnicity and race, class, the environment, religion, non-governmental organizations, and social capital. Prerequisite(s): any two Latin American and Latino studies courses or permission of instructor; open to graduate students. Enrollment limited to 40. (General Education Code(s): CC, E.) *H. Perla*

148. Action Research in the Americas. S

Analyzes applied social science research strategies, focusing on diverse "evidence-based," public-interest advocacy initiatives. Issues include: voter participation, environmental justice, human rights, fair trade, the World Bank, the North American Free Trade Agreement (NAFTA), and immigrant rights. Prerequisite(s): course 100A or equivalent, or by permission of instructor. Enrollment limited to 40. *J. Fox*

149. U.S. Foreign Policy Toward Latin America. F

Examines how domestic political considerations and transnational forces influence the formation of U.S. foreign policy, specifically in the context of relations with Latin America. Explores the impact of institutional, electoral, and psychological pressures, public opinion,

interest groups, non-state actors, and the media on decision-making regarding U.S. foreign policy toward Latin America. (Formerly Theories and Actors: U.S.-Latin American Policy Formation.) Enrollment limited to 40. (General Education Code(s): PE-H.) *H. Perla*

150. Afro-Latinos/as: Social, Cultural, and Political Dimensions. S

Explores multiple aspects of African-descendant lives in the Americas and the Caribbean. Students obtain an in-depth introduction to the socio-political struggles of Afro-Latinos/as and develop the analytical skills to better understand the plight of Afro-Latinos/as today. Enrollment limited to 40. (General Education Code(s): ER.) *S. Falcon*

152. Consumer Cultures Between the Americas. W

Examines the circuits of media, commodities, and migration connecting the Americas in an age of globalization. Issues of states, transnational markets, social relations, and cultural representations addressed. Relationship between consumption, nationalism, and globalization is considered critically. (Formerly Media and Commodities Between the Americas.) Enrollment limited to 40. (General Education Code(s): CC, E.) *C. Rivas*

160. North American Integration: Post-NAFTA. *

Analyzes the multi-dimensional process of integration in North America via NAFTA. Covers issues of trade and investment flows between Canada, the U.S., and Mexico, including important legislative, scientific, technological, cultural, and political components, as well as social dislocations and political challenges associated with NAFTA. (General Education Code(s): E.) *J. Fox, J. Borrego*

161P. Theater in the "Chicano Power" Movement. *

Covers the rise of Teatro Chicano as a cultural-political force within the 1960's "Chicano Power" Movement starting with founding playwright Luis Valdez and El Teatro Campesino and covering Chicana/o playwrights inspired by the movement, e.g. Cherrie Moraga, Luis Alfaro, and Josefina Lopez. (Also offered as Theater Arts 161P. Students cannot receive credit for both courses.) (General Education Code(s): A, E.) *The Staff*

163. Latinos and Population Change. F

Examines key theories of demographics change in important policy issues, such as the aging of America, racial categorization, and immigration. Explores political and economic factors that have led to the changing face of the U.S. over the last century and key legislative changes that have changed the experience of immigrants. Students use primary demographic data from the U.S. Census Bureau and learn basic tools for demographic data access and presentation. (Formerly America in Flux: Population Dynamics in the U.S.) Prerequisite(s): course 100A or by permission of instructor. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 40. (General Education Code(s): PE-H, E.) *S. Gleeson*

164. Environmental Justice. S

Introduces students to participatory-action research, which both creates positive social-environmental change and contributes to scientific knowledge. Through collaboration with environmental justice organizations, students develop research skills, hone critical reflection abilities, and understand the connections between race, ethnicity, power, poverty, and environmental problems. (Formerly *Action-Research for Social Change, Environmental Quality: Lessons Learned from Latin America, U.S.*) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 35. (General Education Code(s): PE-E, E.) *F. Lu*

165. Contemporary Peru. *

Explores contemporary issues facing Peru, with a basic overview including its complex history with political and state violence. Students learn about Peru's multicultural/racial population and about ongoing indigenous land struggles in the Northern Amazon region. Enrollment limited to 40. (General Education Code(s): CC.) *S. Falcon*

166. Latino Families in Transition. W

Explores the complex nature of Latino families in the U.S., which like other American families are undergoing profound changes. Placing families within a historical context of post-1960s social transformations, such as feminism, migration, "reconstructed" or

multiple-earner households, examines how family members adapt, resist, and/or construct alternative visions and practices of family life. Prerequisite(s): course 1. Enrollment limited to 40. (General Education Code(s): ER, E.) *P. Zavella*

167. Amazonian Societies and the Environment. F

Overview of Amazonian societies and the environment from both a historical and contemporary perspective. Topics include indigenous resource management, hunting and conservation, and the ecological impacts of culture and economic change. Enrollment limited to 40. (General Education Code(s): PE-E, E.) *F. Lu*

168. Economic History of Latin America. *

Sheds light on Latin America's contemporary social and economic developments by providing an appreciation of their historical roots. Focusing on the period from independence until WWII, evaluates contesting explanations for Latin America's relatively poor economic performance and divergent policy implications. Prerequisite(s): course 1. (General Education Code(s): E.) *H. Shapiro*

169. Latin American Industrialization in a Global Perspective: Past, Present, and Future. *

Analyzes the economic, political, and social aspects of the industrialization process in Latin America. Evaluates import substitution policies, the changing roles of the state and foreign and domestic capital, and the impact of recent trade liberalization. Compares Latin America's development with that of the East Asian newly-industrialized countries (NICs) and looks at the implications of globalization. (General Education Code(s): CC, E.) *H. Shapiro*

170. Indigenous Struggles in the Americas. *

Focuses on the way Natives of First Peoples have interacted voluntarily and involuntarily with nonindigenous cultures. Examines their perspectives, thoughts, frustrations, and successes. Touches on land issues and examines the way current indigenous cultures of Latin America face and adapt to social change. Focuses mainly on the Andes, lowland Amazon, Mesoamerica, and other areas. (General Education Code(s): CC, E.) *F. Lu*

171. Talleres de Poesía. *

Taught in Spanish. Develops creative writing skills through reading, discussion, and a progression of hands-on group poetry-writing sessions. Enrollment restricted to juniors and seniors. Enrollment limited to 25. (General Education Code(s): A.) *D. Zamora-Evans*

172. Visualizing Human Rights. *

Explores how visual artists take up the subject of human rights in response to urgent challenges facing Latina/o and Latin American communities across the Americas. Examines the imprint of film and media arts reshaping human-rights discourse. Considers persistent themes in Latina/o representation, including colonialism and state terrorism; self-representation and the rights of collectives (racial, ethnic, and sexual groups); social and economic rights. *R. Fregoso*

172L. Human Rights Media Laboratory (2 credits). *

Media laboratory (4 hours per week) for students enrolled in course 172. Students are trained in the use of electronic and photographic equipment in order to collaborate to create a media project that includes an oral presentation and research paper. Prerequisite(s): concurrent enrollment in course 172. Enrollment limited to 40. *R. Fregoso*

174. Immigration and Citizenship: A Global Perspective. W

Examines U.S. migration patterns in comparison to other major destinations. Class discusses relevant socio-economic and political factors and the various citizenship paradigms present. Readings draw on disciplinary foci, including quantitative and qualitative analysis. (Formerly Comparative Migration and Citizenship Paradigms.) (General Education Code(s): PE-H.) *S. Gleeson*

175. Migration, Gender, and Health. F

Through an interdisciplinary, cross-border approach, examines complex nature of Latino health in relation to migration and how women and men experience health problems differently. Examines how health problems are created by economic and social conditions,

how migrants experience access to care, and how agencies can design culturally sensitive programs. (General Education Code(s): ER, E.) *P. Zavella*

176. Gender, the Nation, and Latina Cinema. *

Applies critical and cultural theories of interculturality, coloniality of power and transnational feminism to the study of Latina cinematic imaginaries in the Americas. Explores images and self-representations of race, sexuality, and the nation; citizenship, diaspora, and belonging; gender violence and state violence; militarization, human rights, and gender justice. (General Education Code(s): IM, E.) *R. Fregoso, The Staff*

178. Gender, Transnationalism, and Globalization. *

Focuses on the impact of globalization and transnationalism on gender relations in the Americas. Examines gender and power in the context of neoliberalism, modernity, the nation, social movements, and activism. Explores local and transnational constructions of gender, and the intersection of gender with race, ethnicity, class, and sexuality. Enrollment limited to 40. (General Education Code(s): ER, E.) *R. Fregoso, The Staff*

180. Borders: Real and Imagined. *

Situates "The Border" historically and within the context of U.S. imperialism. Examines the formalization of political "borders," methods of enforcement, and intra-group conflicts. Examines the varied experiences of colonialism and immigration between Mexicans, Puerto Ricans, Native Americans, and Cubans. Explores how the tools of "The Border" and "Borderlands" are being used to untangle the roles of race prejudice and sexual and gender discrimination. (General Education Code(s): TA, E.) *G. Arredondo*

190. Internship. F,W,S

Internships with campus or community organizations sponsored and evaluated by a Latin American and Latino studies faculty member. Students write an analytical paper or produce another major work agreed upon by student, faculty supervisor, and internship sponsor; sponsor must also provide review of experience. Students submit petition to sponsoring agency. *The Staff*

190F. Internship (2 credits). F,W,S

Internships with campus or community organizations sponsored and evaluated by a faculty member from Latin American and Latino studies. Students write a short (8-page) descriptive paper or produce another work agreed upon by student and faculty supervisor. Students submit petition to sponsoring agency. *The Staff*

191. Latin American Studies Teaching Apprenticeship. F,W,S

Advanced students serve as facilitators for small discussion groups or aid in reading of papers related to Latin American Studies courses. Students are expected to read all course assignments and meet with instructors to discuss the teaching process. May not be counted toward major requirements. *The Staff*

192. Directed Student Teaching. F,W,S

Teaching under faculty supervision of a lower-division course in Latin American and Latino studies, normally done by majors in the final quarter of study as the senior project. (See course 42.) Students submit petition to sponsoring agency. *The Staff*

193. Field Study. F,W,S

Supervised off-campus (domestic or international) study that entails working closely with faculty. Typically undertaken as part of fulfilling the senior exit requirement. Students need to be in good to excellent standing and show preparation to undertake field study (e.g., relevant coursework, appropriate language skills, etc.). May be repeated for credit. *The Staff*

194C. Criminalizing the Poor. S

Examines neoliberal discourses related to poverty that have become more critical of the poor over time, including reforms to social welfare, criminal justice, and immigration, and the ways in which the poor struggle to survive and contest neoliberalism. Enrollment restricted to junior and senior Latin American and Latino studies majors and minors; and combined majors with global economics, sociology, literature, and politics. Enrollment

limited to 25. (General Education Code(s): ER.) *P. Zavella*

194F. Latinos and Socio–Political Change. W

Explores the role of Latinos in civic and political life in the U.S., focusing on specific avenues for participation such as religion, work, and transnational experiences. Examines barriers to participation experienced by Latinos in the U.S. as well as relationships between civic engagement and political incorporation and the ramifications for inequality for Latinos and other ethnic/racial groups in cities across America. (Formerly Latino Civic Engagement in Comparative Perspective.) Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): PE–H, E.) *S. Gleeson*

194G. Chile: Social and Political Change. F

Analysis of Chilean politics and society from the election of Salvador Allende in 1970 to the present. Particular emphasis is given to understanding the different forces, internal as well as external, that broke the Chilean tradition of democratic rule in 1973, and to the current configuration. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC, E.) *W. Goldfrank*

194H. Central American Political Relations with the U.S. W

Writing-intensive senior seminar on U.S.–Central American relations. Students gain understanding of Central American political history; the region's relations with the United States; and the problems arising from this relationship. Completion of course 145 or 149 is highly recommended. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): W, E.) *H. Perla*

194I. Contemporary Ecuador. *

The Andean nation of Ecuador exemplifies cultural and biological diversity, rapid economic and social change, and increasing geopolitical influence as one of the current South American left-leaning countries. Course looks at Ecuador's recent history and future challenges. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) *F. Lu*

194M. Twentieth-Century Revolutions. *

Treatment of 20th-century Latin American revolutions from Zapata to the Zapatistas. Focuses on the causes and consequences of revolutions rather than on their narrative histories. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC, E.) *G. Arredondo, W. Goldfrank*

194P. Tale of Two Cities. *

A comparative study of the social, economic, cultural, political, and geographical development of Los Angeles and Mexico City in the 20th century. Emphasis on the diverse peoples, changing physical environment and various images/interpretations of these two world cities. (Also offered as History 190D. Students cannot receive credit for both courses.) Prerequisite(s): two upper-division history courses and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior Latin American and Latino studies and history majors. Enrollment limited to 20. (General Education Code(s): W, E.) *P. Castillo, L. Haas*

194Q. Globalization in the Américas. W

Introduces multiple dimension of globalization, including key theories, and globalization's wide-ranging impact on the Américas. Topics such as, development, inequalities, culture, postcolonialism, trade agreements, multilateral institutions, and the future of globalization are covered. Enrollment restricted to junior, and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) *S. Falcon*

194R. Violencia Cotidiana en las Américas. F

Senior seminar taught in Spanish. Engages a critical study of violence, social relations, and everyday life in contemporary Latin America. Focuses on the relationship between narratives and acts of violence, and the constitution and social effects of these representations. Requires proficiency in Spanish (written and spoken), and advanced reading knowledge of Spanish. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): E.) *C. Rivas*

194S. La Crisis del Campo Mexicano. *

Taught in Spanish. Analyzes both the causes and possible solutions to the challenges of rural poverty and democratization. Focuses on agrarian reform; agricultural development; protest movements; electoral change; local government; grassroots development initiatives; natural resources; the social construction of ethnicity, gender, and class; and the dynamics of migration. Mexico's regional diversity is highlighted as well, and students are encouraged to study a particular region in depth to accompany the course's national overview. (Formerly El Campo Mexicano en Crisis.) Enrollment restricted to junior, and senior Latin American and Latino studies majors, minors, and combined majors with global economics, sociology, literature, and politics. Enrollment limited to 25. *J. Fox*

195B. Senior Project. F,W,S

Senior thesis writing under direction of major adviser. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

195C. Senior Project. F,W,S

Senior thesis writing under direction of major adviser. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

196. Field Study Seminar. *

Emphasizes ethnographic strategies of fieldwork. Primarily oriented to students interested in understanding the daily life of societies and cultures. Prepares students both to conduct fieldwork, and to process their fieldwork experience. Covers complexities related to the experience of "stepping out of" one's own culture. Prerequisite(s): concurrent enrollment in course 196L. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. *J. Borrego*

196L. Field Study Seminar Lab (2 credits). *

Media lab trains students in the use of electronic and photographic media for the acquisition of field data. Through lectures, demonstrations, hands-on field exercises and review of students' media exercises, students will learn the fundamentals of photography, video production, and audio recording in the field. Prerequisite(s): concurrent enrollment in course 196. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. *J. Borrego*

198. Field Study. F,W,S

Off-campus study in Latin America, the Caribbean, or nonlocal Spanish-speaking community in the U.S. Nature of proposed study/project to be discussed with sponsoring instructor(s) before undertaking field study; credit toward major (maximum of three courses per quarter) conferred upon completion of all stipulated requirements. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

198F. Independent Field Study (2 credits). F,W,S

Individual studies undertaken off-campus. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

199. Tutorial. F,W,S

Supervised directed reading; weekly or biweekly meetings with instructor. Final paper or examination required. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

199F. Tutorial (2 credits). F,W,S

Supervised research and writing of an expanded paper, completed in conjunction with

requisite writing for an upper-division course taken for credit in the major. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

Graduate Courses

200. Bridging Latin American and Latina/o Studies. *

Explores social, cultural, economic, and political changes that connect Latin America and U.S. Latina/o communities. The objective of this interdisciplinary team-taught course is to bridge previously distinct research approaches of Latin American and Latina/o studies to better understand processes that link peoples and ideas across borders as well as help students to conceptually and methodologically identify and design new objects of study and revisit traditional approaches. Core requirement for students pursuing the Parenthetical Notation in Latin American and Latino studies. Enrollment restricted to graduate students. *R. Fregoso*

210. Latina Feminisms: Theory and Practice. *

Through an interdisciplinary approach, explores Latina feminist social theory and scholarly practice—especially in representation and interpretation of Latina experiences. Examining key texts at different historical junctures, charts how Latinas of varied ethnic, class, sexual, or racialized social locations have constructed oppositional and/or relational theories and alternative epistemologies or political scholarly interventions and, in the process, have problematized borders, identities, cultural expressions, and coalitions. Enrollment restricted to graduate students. *P. Zavella*

212. Latina/o Ethnographic Practice. *

Interrogates the social construction of Latino cultures in their varied regional, national-ethnic, and gendered contexts. Assumes that culture is a dynamic process constructed within a context of hierarchical relations of group power, in which Latino groups have been structurally subordinated and socially oppressed. Focuses more on how power relations create a context for the creation of specific Latino cultural expressions and processes than on unraveling the structures of oppression. Enrollment restricted to graduate students. *P. Zavella*

215. Latina Cultural Studies: Culture, Power, and Coloniality. *

Examines the theories and practices informing the field of Latina cultural studies in the Americas. For students pursuing the Designated Emphasis in Latin American and Latino studies and students with interest in theories of coloniality of power, decolonialism, intercultural and transnational feminist methodologies. (Formerly Latina Cultural Studies: Transborder Feminist Imaginaries.) Enrollment restricted to graduate students. *R. Fregoso*

220. Transnational Civil Society: Limits and Possibilities. *

Analyzes social, civic, and political actors that come together across borders to constitute transnational civil society, drawing from political sociology, political economy, comparative politics, and anthropology to address collective identity formation, collective action, institutional impacts, and political cultures. Enrollment restricted to graduate students. *J. Fox*

225. Race in the Americas. *

Considers historical moments in the development of "race" in the Americas to understand how "race" is given meaning and actualized through practices, beliefs, and behaviors. Interrogates theories and racial dynamics in the 19th through 21st centuries to reveal interconnections with constructions of gender and nation. Enrollment restricted to graduate students. Enrollment limited to 15. *G. Arredondo*

230. Political Ecology in Latin America. *

Examines the foundations and current literature on political ecology, with emphasis on issues in Latin America. Topics include the appropriation of "Nature;" degradation and deforestation; conservation policies and politics; land distribution and property; and indigenous resistance. Enrollment restricted to graduate students. *F. Lu*

240. Culture and Politics of Human Rights. W

Examines cultural, philosophical, and political foundations for human rights and provides students with critical grounding in the major theoretical debates over conceptualizations of

human rights in the Americas. Addresses the role of feminist activism and jurisprudence in the expansion of human rights since the Universal Declaration of Human Rights. Addresses challenges of accommodating gender rights, collective rights, and social and economic rights within international human rights framework. (Also offered as Feminist Studies 240. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. *R. Fregoso*

242. Globalization, Transnationalism, and Gender in the Américas. *

Explores how globalization, transnationalism, and the social construction of gender are interrelated, contingent, and subject to human agency and resistance. Examines particular configurations of globalization, transnationalism, and gender through the Américas and their implications for race, space, work, social movements, migration, and construction of collective memory. Enrollment restricted to graduate students. *P. Zavella, R. Fregoso*

244. U.S. Political Relations with Latin America. *

Examines relations between the U.S. and Latin America. Emphasizes the domestic and global contexts within which U.S. leaders defined national economic, strategic, and ideological interests, and their regional policy objectives. Explores the impact of Latin Americans' nationalistic, anti-imperialist, class, racial, and gender struggles that often shaped policy outcomes in ways unanticipated by the U.S. Enrollment restricted to graduate students. *H. Perla*

297. Independent Study. F,W,S

Students submit a reading course proposal to a department faculty member who supervises independent study in the field. Faculty and student jointly agree upon reading list. Students expected to meet regularly with faculty to discuss readings. This independent study must focus on a subject not covered by current UCSC graduate curriculum. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. *The Staff*

299. Thesis Research. F,W,S

Enrollment restricted to graduate students and permission of instructor. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

legalstudies@ucsc.edu

[Faculty](#) | [Course Descriptions](#)

Program Description

Legal studies is an interdisciplinary major offered under the auspices of the Politics Department. It is designed for students who wish to use the methods and perspectives of various academic disciplines to study legal issues and to use the conceptual framework of the law to illuminate empirical and theoretical concerns in the various disciplines. For example, a student might use approaches from psychology and philosophy to study the legal problem of punishment; or draw on doctrinal categories from public and private law to study the changing historical role of market and nonmarket relations within ongoing institutions; or use approaches from critical race theory and feminist studies to better understand matters of civil rights and privacy.

To complete the major, students are required to take courses in legal institutions, constitutional law, and international law, as well as take courses in each of three broad themes: legal theory and philosophy, the role of law in society, and legal institutions. Each of these themes is intentionally broadly defined. Within legal theory, students may take courses in legal jurisprudence, logic, and theories of crime and punishment; within law and society, courses range from feminism and race to psychology and economics; within public law and institutions, courses range from environmental law to human rights law to an introduction to litigation. Students are also expected to take an introductory course in philosophy. To fulfill the senior exit requirement, students have the option to write a senior thesis or take a senior capstone seminar. The seminar topic changes quarterly.

Legal studies is intended to appeal to students who wish to take a concentration of courses on the law from a variety of disciplinary and methodological perspectives. The major is not intended as a substitute or preparation for any part of a law school curriculum but rather as a full field of study within the liberal arts curriculum. As such, it is a good preparation for a variety of future activities. Students graduating in legal studies are particularly well qualified to pursue graduate work on legal topics in humanities and social science disciplines or to attend professional school in fields such as public policy, business administration, social work, and law. Students are also encouraged to participate in field work and law–related internships in the community, and to develop their own extensive independent research projects.

Declaring the major in legal studies is a two–step process: 1) complete and pass course 10 with a grade of C or better; 2) attend a declaration orientation workshop.

The legal studies program offers a minor degree as well as the major degree.

Requirements of the Major

Lower–Division Course Requirements—2 courses

Legal Studies 10, *Introduction to Legal Process*. All students are required to complete and pass legal studies 10 as a prerequisite to upper–division courses in legal studies and prior to declaring the major.

A student who has not been able to satisfy the pre–declaration requirement (a passing grade in Legal Studies 10) may petition the department for an exception. The letter of petition must explain and document the circumstances that might justify an exception. The department will consider the request and notify the student of its decision within two weeks of receiving the petition or within 10 days of the start of the following quarter, whichever is later.

Philosophy 9, 22, or 24. All legal studies majors are required to take one of the three listed

Philosophy courses. (See the Philosophy section in this catalog for course descriptions.)

Upper–Division Course Requirements—2 courses

111A Constitutional Law or

111B Civil Liberties

160B International Law

Core Course Requirements—6 courses

Students are required to take six core courses, two in each of three concentrations: theory, public law and institutions, and law and society.

Theory

103 Feminist Interventions (Politics course)

105A Ancient Political Thought

105B Early Modern Political Thought

105C Modern Political Thought

106 Marxism as a Method

107 Political Morality of Survivorship and Recovery

109 Legal Theory

109 Orientalism (Politics course)

115 Law and the Holocaust

128J The World Jury on Trial

144 Social and Political Philosophy

146 Philosophy of Law

155 Topics in American Legal History

157 Political Jurisprudence

Public Law and Institutions

111A Constitutional Law

111C Issues in Constitutional Law

115 Law and the Holocaust

183 Women in the Economy

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in legal studies is satisfied by completing Legal Studies 196.

Comprehensive Requirement—1 course

Students can satisfy the comprehensive requirement in the legal studies major by successfully completing one of the following:

195ABC, *Senior Thesis*. Completion of a senior thesis project of a minimum of 50 pages with a substantial research content, supervised by a legal studies faculty member.

196, *Senior Capstone*. The capstone course is designed to provide an interdisciplinary integration of themes related to the study of law and includes a substantial writing requirement.

Honors

Honors in the legal studies major are awarded to graduating seniors, based primarily on a review of grades and to a lesser extent narrative evaluations, whose academic performance is judged to be consistently excellent by a faculty committee. Highest honors in the major are reserved for students with consistently outstanding academic performance.

Transfer Students

A student transferring to UCSC must meet with the legal studies undergraduate adviser as early as possible to discuss declaring the major and course enrollment. This ensures a smooth transition. Students should bring a copy of their UCSC Transfer Credit Summary, which may be printed from the student portal.

Requirements for the Minor

To complete a minor in legal studies, a student must take Legal Studies 10 and any five upper-division legal studies core courses numbered 101–190.

[Program Description](#) | [Faculty](#)

Lower-Division Courses

10. Introduction to Legal Process. F

Introduction to U.S. and comparative legal institutions and practices. Examines diverse areas of law from torts to civil rights to international human rights. Why is America portrayed as having an activist legal culture; why is law used to decide so many questions from presidential elections to auto accidents; can law resolve disputes that, historically, have led to war and violence; is the legal system fair and/or effective, and, if so, for whom and under what conditions? (General Education Code(s): IS.) The Staff

Upper-Division Courses

105A. Ancient Political Thought. F

Ancient political ideas in context of tension between democracy and empire, emergence of the psyche, and shift from oral to written culture. Emphasis on Athens, with Hebrew, Roman, and Christian departures and interventions. Includes Sophocles, Thucydides, Socrates, Plato, Aristotle, Stoics, the Bible, and Augustine. (Also offered as Politics 105A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. D. Mathiowetz

105B. Early Modern Political Thought. S

Studies republican and liberal traditions of political thought and politics. Authors studied include Hobbes, Locke, and Rousseau. Examination of issues such as authorship, individuality, gender, state, and cultural difference. (Also offered as Politics 105B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. V. Seth

105C. Modern Political Thought. W

Studies in 19th- and early 20th-century theory, centering on the themes of capitalism, labor, alienation, culture, freedom, and morality. Authors studied include J. S. Mill, Marx, Nietzsche, Foucault, Hegel, Fanon, and Weber. (Also offered as Politics 105C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. Thomas

106. Marxism as a Method. F

Examines Marx's use of his sources in political philosophy and political economy to develop a method for analyzing the variable ways in which social change is experienced as a basis for social action. Provides a similar analysis of contemporary materials. Contrasts and compares Marxian critiques of these materials and readings based on Nietzsche,

psychoanalysis, cultural studies, and rational choice materialism. (Also offered as Politics 106. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. The Staff

109. Legal Theory. *

Offers systematic exploration of alternative conceptions of the nature of law, including positivism, natural law, formalism, realism, pragmatism, and theories of justice. Additional focus on the nature of law; relation of law and morality, rights and other legal concepts; and philosophical debates such as critical legal studies and critical race theory. Enrollment restricted to legal studies majors during priority enrollment only. The Staff

110. Law and Social Issues. *

Examines current problems in law as it intersects with politics and society. Readings are drawn from legal and political philosophy, social science, and judicial opinions. (Also offered as Politics 110. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

111A. Constitutional Law. W

An introduction to constitutional law, emphasizing equal protection and fundamental rights as defined by common law decisions interpreting the 14th Amendment, and also exploring issues of federalism and separation of powers. Readings are primarily court decisions; special attention given to teaching how to interpret, understand, and write about common law. (Also offered as Politics 111A. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. The Staff

111B. Civil Liberties. *

Explores the status of American civil liberties as provided by the Bill of Rights. Particular attention will be given to issues of concern relating to the aftermath of 9/11, including issues relating to detainees, freedom of information requests, wiretapping authority, watch lists, profiling, and creation of a domestic intelligence agency. Enrollment restricted to legal studies majors during priority enrollment only. The Staff

111C. Issues in Constitutional Law. W

Examines variety of topics in constitutional law that are not covered in courses 111A and 111B. Focuses primarily on Supreme Court decisions and common-law debates. Enrollment restricted to legal studies majors during priority enrollment. R. Coonerty

113. Gay Rights and the Law. *

Examines relevant court cases as well as local, state, and federal laws that define boundaries for legal recognition of sexual orientation and personal sexuality. Explores legal assumptions behind current and historical cases defining personal sexuality and sexual orientation and considers the social and political impetus in each era that drove the courts and legislatures to make such decisions. The Staff

114. Jews, Anti-Semitism, and the American Legal System. *

Explores how Jews have influenced and been impacted by the American legal system. Students explore significant cases, debates, and trends in the law as it relates to Jewish identity, religious freedom, and conceptions of justice. Enrollment restricted to legal studies majors during priority enrollment only. The Staff

115. Law and the Holocaust. *

Examines the Nazi philosophy of law, and how it was used to pervert Germany's legal system in order to discriminate against, ostracize, dehumanize, and ultimately eliminate certain classes of human beings, and the role of international law in rectifying the damage. Enrollment restricted to legal studies majors during priority enrollment only. Enrollment restricted to legal studies majors during priority enrollment only. The Staff

116. Comparative Law. *

Explores legal systems and legal rules around the world, for a better understanding of the

factors that have shaped both legal growth and legal change. Particular attention given to differences between common and civil law systems, changes brought about by the European Union, and expansion of legal norms around the globe. (Also offered as Politics 116. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. The Staff

118. Law and Literature. *

Explores variety of texts including novels, short stories, and essays as a source for reflection about the nature of law and legal practice. Readings include such writers as Herman Melville, Harper Lee, Richard Wright, Arthur Miller, Nadine Gordimer, and James Alan McPherson, among others. (Formerly course 138.) Enrollment restricted to legal studies majors during priority period. The Staff

120A. Congress, President, and the Court in American Politics. F

Study of political development, behavior, performance, and significance of central governmental institutions of the U.S. Emphasizes the historical development of each branch and their relationship to each other, including changes in relative power and constitutional responsibilities. (Also offered as Politics 120A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. D. Wirls

120B. Society and Democracy in American Political Development. S

Examines role of social forces (e.g., race, class, and gender) in development of the American democratic processes and in the changing relationship between citizen and state. Course materials address ideas, social tensions, and economic pressures bearing on social movements, interest groups, and political parties. (Also offered as Politics 120B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. The Staff

120C. State and Capitalism in American Political Development. W

Examines the relationship between state and economy in the U.S. from the 1880s to the present, and provides a theoretical and historical introduction to the study of politics and markets. Focus is on moments of crisis and choice in U.S. political economy, with an emphasis on the rise of regulation, the development of the welfare state, and changes in employment policies. (Also offered as Politics 120C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. E. Bertram

121. Black Politics and Federal Social Policy. *

Examination of changes in the political and economic status of African Americans in the 20th century; particular focus on the role of national policies since 1933 and the significance of racism in 20th-century U.S. political development. (Also offered as Politics 121. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment. (General Education Code(s): E.) M. Brown

122. The Sociology of Law. *

Explores the social forces that shape legal outcomes and the ways law, in turn, influences social life. Traces the history and political economy of American law; the relation between law and social change; how this relation is shaped by capitalism and democracy; and how class, race, and gender are expressed in welfare and regulatory law. (Also offered as Sociology 122. Students cannot receive credit for both courses.) C. Reinerman

123. Law, Crime, and Social Justice. *

Blends the latest research in criminology with that from social stratification, inequality, and social welfare policy with the objective of exploring the relationship between levels of general social justice and specific patterns of crime and punishment. The focus is primarily on the U.S. although many other industrialized democracies are compared. An introductory course in sociology is recommended as preparation. (Also offered as Sociology 123. Students cannot receive credit for both courses.) The Staff

125. History of the U.S. Penal Culture. *

Explores the history and theory of U.S. state punishment from its 17th-century beginnings to the present and notes evolving models of criminal deviance, focusing on how punishment systems legitimate particular models of criminal deviance, crime, and its "correction." Enrollment restricted to legal studies majors during priority enrollment only. The Staff

126. Law and Politics in Contemporary Japan and East Asian Societies. *

Introduction to contemporary analysis of Japan's race relations, ethnic conflicts, and a government's failure to restore remedial justice for war victims in Japan, Asia, and the U.S. Specific issues include comfort women, national or state narratives on Hiroshima, forced labor during World War II, and Haydon legislation that allows war victims to sue Japanese government and corporations in California. (Also offered as Sociology 128. Students cannot receive credit for both courses.) Enrollment limited to 30. H. Fukurai

127. Drugs in Society. W

Explores the history of the use and abuse of consciousness-altering substances like alcohol and other drugs. Social-psychological theories of addiction are reviewed in tandem with political-economic analyses to identify the social conditions under which the cultural practices involved in drug use come to be defined as public problems. An introductory sociology course is recommended prior to taking this course. (Also offered as Sociology 127. Students cannot receive credit for both courses.) C. Reinerman

128. Poverty and Public Policy. F

Studies the causes, consequences, and governmental response to urban poverty in the U.S. Topics include how public policy, the macroeconomy, race, gender, discrimination, marriage, fertility, child support, and crime affect and are affected by urban poverty. Emphasizes class discussion and research. (Also offered as Economics 128. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; ECON 100A & 113 or consent of instructor. Enrollment restricted to economics, business management economics, global economics, legal studies, or economics combined major Enrollment limited to 35. (General Education Code(s): W, E.) L. Kletzer, R. Fairlie

128I. Race and Law. F

An introduction to comparative and historical analyses of the relation between race and law in the U.S. Emphasis on examinations of continuous colonial policies and structural mechanisms that help maintain and perpetuate racial inequality in law, criminal justice, and jury trials. (Formerly Race and Justice) (Also offered as Sociology 128I. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors, and seniors. H. Fukurai

128J. The World Jury on Trial. *

Adoption of the jury and its varied forms in different nations provides ideal opportunities to examine differences between systems of popular legal participation. Course considers reasons why the right to jury trial is currently established in Japan or Asian societies, but abandoned or severely curtailed in others. American jury contrasted with other forms of lay participation in the legal process. (Also offered as Sociology 128J. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 30. The Staff

128M. International Law and Global Justice. *

Examines war crimes, crimes against humanity, and the evolution and role of the International Criminal Court (ICC). Examines the evolution of the concept of international law, the rationale for its birth and existence, roots of international conflicts and genocides, possible remedies available to victims, mechanisms for the creation and enforcement of international legal order, as well as the role of colonialism, migration, poverty, race/ethnic conflicts, gender, and international corporations in creating and maintaining conflicts and wars. (Also offered as Sociology 128M. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 30. H. Fukurai

130. Race and the Law. *

Explores the complex relationship between race and the law in American society. Included subjects are critical race theory, civil rights and voting rights law, issues of the criminal justice system, intersections with issues of class and gender, and the social construction of race through law and legal decisions. Enrollment restricted to legal studies majors during priority enrollment. The Staff

131. Wildlife, Wilderness, and the Law. *

Introduction to wildlife, wilderness, and natural resources law, policy, and management. Examines rules governing resource allocation and use including discussion of fundamental legal concepts. Explores laws and management policies affecting wildlife and wilderness, including their origins and impacts. Examines how conflicts over natural resources are being negotiated today. Enrollment restricted to sophomore, junior, and senior legal studies majors during the priority period. R. Langridge

132. California Water Law and Policy. F

Explores the rich history and fundamental legal concepts surrounding water in California. Students identify, evaluate, and debate some critical water policy questions faced by Californians today and in the future. (Also offered as Politics 132. Students cannot receive credit for both courses.) R. Langridge

133. Law of Democracy. S

Explores the role of law in both enabling and constraining the actions of elected politicians in the U.S. Among issues examined are voting rights, redistricting, and campaign finance. Course asks how the law shapes and limits our ability to choose our elected leaders, and in turn, how the law is shaped by political forces. (Also offered as Politics 133. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment. R. Coonerty

134. Congress: Representation and Legislation in Comparative Perspective. W

Examines the United States Congress and the nature of the representative and legislative processes. Topics include: districting and elections; bicameralism; party organization; institutional and behavioral influences on legislative action; and the efficacy of Congress as a legislative body. Focuses on the contemporary Congress with comparisons to other legislative and representative institutions. (Also offered as Politics 134. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. D. Wirls

135. Native Peoples Law. *

Explores the legal relationship between native peoples and the state. Examines the development of that relationship and several of the key legal issues currently confronting native peoples as they attempt to redress the injustices of the past. Enrollment restricted to legal studies majors during priority enrollment only. (General Education Code(s): E.) The Staff

136. Federal Indian Law and International Comparative Indigenous Peoples' Law. *

Indian law refers to the body of law dealing with the status of Indian tribes, their inherent powers of self-government, their special relationship to the federal government, and the actual or potential conflicts of governmental power. Primary objective will be to address tribal reassertion of aboriginal sovereignty over culture and land in the context of increasing world recognition of indigenous rights. Enrollment restricted to legal studies majors during priority period. (General Education Code(s): E.) The Staff

137. International Environmental Law and Policy. *

International environmental law (IEL) endeavors to control pollution and depletion of natural resources within a framework of sustainable development and is formally a branch of public international law—a body of law created by nation states for nation states, to govern problems between nation states. Examines landmark developments of IEL since 1972 within a historical continuum to better understand their strengths and weaknesses. Enrollment restricted to legal studies majors during priority period. The Staff

138. Political Anthropology. S

The ideas, in selected non-Western societies, about the nature of power, order, social

cohesion, and the political organization of these societies. (Also offered as Anthropology 138. Students cannot receive credit for both courses.) Offered in alternate academic years. T. Pandey

139. War Crimes. *

Explores complex international human rights/humanitarian law issues surrounding genocide and other mass violence, beginning with the Nuremberg trials following World War II up to recent atrocities in Rwanda, Bosnia, and elsewhere. Covers basic legal framework of human rights law, examines specific situations on a case by case basis, and discusses what options the international community, the nations themselves, and individuals have in the wake of such catastrophes. Enrollment restricted to legal studies majors during priority period. The Staff

142. Anthropology of Law. *

An ethnographically informed consideration of law, dispute management, and social control in a range of societies including the contemporary U.S. Topics include conflict management processes, theories of justice, legal discourse, and relations among local, national, and transnational legal systems. (Also offered as Anthropology 142. Students cannot receive credit for both courses.) Enrollment restricted to anthropology and legal studies majors. D. Brenneis

144. Social and Political Philosophy. *

A study of selected classical and contemporary writings dealing with topics such as the nature and legitimacy of the liberal state, the limits of political obligation, and theories of distributive justice and rights. (Also offered as Philosophy 144. Students cannot receive credit for both courses.) Prerequisite(s): one course in philosophy. Offered in alternate academic years. D. Guevara

146. Philosophy of Law. S

Exploration of selected problems in jurisprudence: "legal reasoning" and social policy, rules and individual cases, the mental element in the law, punishment and responsibility, causation and fault, liberty and paternalism, etc. (Formerly Philosophy 146.) (Also offered as History of Consciousness 146. Students cannot receive credit for both courses.) J. Neu

147A. Psychology and Law. F

Current and future relationships between law and psychology, paying special attention to gaps between legal fictions and psychological realities in the legal system. Topics include an introduction to social science and law, the nature of legal and criminal responsibility, the relationship between the social and legal concepts of discrimination, and the nature of legal punishment. (Also offered as Psychology 147A. Students cannot receive credit for both courses.) Psychology 3 or 100 and 40 are recommended prior to taking this course. Enrollment restricted to psychology, pre-psychology, and legal studies majors. The Staff

147B. Psychology and Law. *

Continuing discussion of current and future relationships between law and psychology and to contrasting psychological realities with legal fictions. Special attention is given to the criminal justice system including crime causation, the psychology of policing and interrogation, plea bargaining, jury selection and decision making, eyewitness identification, and the psychology of imprisonment. (Also offered as Psychology 147B. Students cannot receive credit for both courses.) Prerequisite(s): course 147A. C. Haney

149. Environmental Law and Policy. S

Surveys a wide range of topics in environmental law, including population control, state and federal jurisdiction, land and resources control, public land management, pollution control, and private rights and remedies. Students read a large number of judicial cases and other legal documents. (Also offered as Environmental Studies 149. Students cannot receive credit for both courses.) Enrollment restricted to junior and senior legal studies majors. T. Duane

150. Children and the Law. *

Explores the legal rights of children. Topics may include juvenile justice, gang offenses, free speech and Internet censorship, religious rights, child custody and support, adoption,

foster care, abuse and sexual harassment, special needs, public benefits, and medical care. Enrollment restricted to legal studies majors during priority period. The Staff

151. Politics of Law. *

Uncovers the important debates in politics and law around the functions of courts, litigation, and rights--and the political nature of law itself. Course is interdisciplinary, and draws from literature in political science, law, and sociology. (Also offered as Politics 151. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during priority period. The Staff

152. Courts and Litigation. *

A study of the role of courts in society and the uses of litigation to address and deflect social problems. Focus is on recent developments in American litigation, but comparative materials may be considered. Enrollment restricted to legal studies majors during priority period. The Staff

154. The Legal Profession. *

Lawyers stand between the legal system and those who are affected by it. Examines this relationship descriptively and normatively, and from the point of view of sociological theory. Concentrates on the U.S. profession, with some comparative material. Enrollment restricted to legal studies majors during priority period. The Staff

155. Topics in American Legal History: Making of American Constitutionalism.

Explores some aspects of early American constitutional thought, particularly immediately preceding the American Revolution situating early colonial constitutional thought within some of the larger themes and controversies of the 17th-century English constitutionalism, then considering some aspects of American constitutional thought in the founding period against the background of the colonial experience. Prerequisite(s): permission of instructor: selection based on the ability to do very advanced work. Enrollment restricted to legal studies majors during priority period. Enrollment limited to 20. The Staff

156. Administrative Jurisprudence. *

The rise of the regulatory state brings with it a host of questions regarding the exercise of state power and separation of powers. Takes up some of these questions; in particular, questions about administrative agencies and their relationship to the judiciary, the legislature and private individuals and groups. Enrollment restricted to legal studies majors during priority period. The Staff

157. Political Jurisprudence. *

Explores some themes in legal and political theory, especially on the relationship of theories of justice, law, and ethics. Enrollment restricted to legal studies majors during priority period. The Staff

159. Property and the Law. W

Beginning with an examination of the concept of property, the class covers how different cultures characterize property and determine "ownership" and the laws and policies that define property in modern society. Topics include theories of property law, common property, property and natural resources, zoning, regulatory takings, and property on the Internet. Enrollment restricted to legal studies majors during priority period. R. Langridge

160A. Industrial Organization. *

The structure and conduct of American industry with strong emphasis on the role of government, regulation, anti-trust, etc. The evolution of present-day industrial structure. The problems of overall concentration of industry and of monopoly power of firms. Pricing, output decisions, profits, and waste. Approaches include case study, theory, and statistics. (Also offered as Economics 160A. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M. The Staff

160B. International Law. F

Origins and development of international law: international law is examined both as a

reflection of the present world order and as a basis for transformation. Topics include state and non-state actors and sovereignty, treaties, the use of force, and human rights. (Formerly course 173.) (Also offered as Politics 160B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. The Staff

162. Legal Environment of Business. *

A study of law and the legal process, emphasizing the nature and function of law within the U.S. federal system. Attention is given to the legal problems pertaining to contracts and related topics, business association, and the impact of law on business enterprise. (Also offered as Economics 162. Students cannot receive credit for both courses.)

Prerequisite(s): Economics 100A. R. Bosso

167. Politics of International Trade. *

Examines key issues in international trade, including the distribution of gains, fair trading practices, and preferential trade agreements. Focuses on the political dimensions of trade, the rules of the international trade system, and conflicts within countries that international trade generates. (Also offered as Politics 167. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. The Staff

169. Economic Analysis of the Law. S

The application of the theories and methods of neoclassical economics to the central institutions of the legal system, including the common law doctrines of negligence, contract, and property; bankruptcy and corporate law; and civil, criminal, and administrative procedure. (Also offered as Economics 169. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M or permission of instructor. D. Wittman

171. Law of War. *

Examines legal regulation of international violent conflict. Students examine development of normative standards within international law and creation of institutions to both adjudicate violations and regulate conduct. (Also offered as Politics 171. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during priority enrollment only. The Staff

175. Human Rights. W

Embraces an interdisciplinary approach to the study of human rights. Captures the malleable nature of human rights and the contours of its dual role as both law and discourse. (Also offered as Politics 175. Students cannot receive credit for both courses.) Prerequisite(s): course 160B. Enrollment restricted to legal studies majors during priority enrollment. M. Massoud

183. Women in the Economy. *

Study of gender roles in economic life, past and present. Topics include occupational structure, human capital acquisition, income distribution, poverty, and wage differentials. The role of government in addressing economic gender differentials is examined. (Also offered as Economics 183. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; Economics 1, 2, and 100A; Economics 113 strongly recommended. (General Education Code(s): W.) L. Kletzer

193. Field Study. F,W,S

Field research performed off-campus, under the supervision of a member of the legal studies faculty. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter.

When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

196. Senior Capstone. S

Examines related legal topics from an interdisciplinary perspective. Each focuses broadly on the relationship between law as a distinct system and law as an attempt to achieve justice, which requires that law remain open to claims of political morality generally. To what extent are legal norms internal to a separate system called "law" and to what extent are claims of political right in general relevant to question of what law is? Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior legal studies majors. (General Education Code(s): W.) The Staff

198. Independent Field Study. F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

A student normally approaches a faculty member and proposes a course 199 on a subject he or she has chosen. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

A student normally approaches a faculty member and proposes a course 199 on a subject he or she has chosen. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012-13

Program Description

Linguistics is an exact and structured discipline. As the study of human language, it has connections to many other fields in the humanities (philosophy, literature), the social sciences (anthropology, psychology, sociology), the natural sciences (biology, neuroscience, acoustics), computer science, computer engineering, and artificial intelligence.

The central areas of linguistics investigate the knowledge that speakers of a language acquire about its structure. Syntax is concerned with the rules that combine words into larger units of phrases and sentences. Semantics studies the meanings of linguistic units and how they are combined to form the meanings of sentences. Phonetics deals with the physical properties of language sounds. Phonology investigates the ways in which these speech sounds pattern in the sound systems of particular languages. Morphology studies the way in which words are put together out of prefixes, roots, and suffixes. Pragmatics is the study of language use. Psycholinguistics studies the cognitive mechanisms by which language is put to use in producing and perceiving speech.

All faculty in the Linguistics Department have primary research and teaching interests in one or more of these areas. Other perspectives on language study represented include sociolinguistics, the study of poetic language, and the study of language change.

The programs offered by the Linguistics Department are designed to acquaint students with the central aspects of linguistic structure and the methodologies and perspectives of the field. The department offers two undergraduate majors, linguistics and language studies, and a graduate program in theoretical linguistics. The linguistics major leads to a bachelor of arts (B.A.) degree in linguistics; the language studies major leads to a B.A. degree in language studies (see Language Studies). The graduate program leads to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in linguistics.

The department also offers a combined B.A./M.A. program which makes it possible for certain students to complete the requirements for both degrees in five years rather than the usual six.

Requirements of the Linguistics Major

- Cowell College
- Crown College
- Digital Arts and New Media
- Earth and Planetary Sciences
- East Asian Studies
- Economics
- Education
- Electrical Engineering
- School of Engineering
- Environmental Studies
- Ethnic Studies
- Film and Digital Media
- Feminist Studies
- French
- German
- German Studies
- Greek
- Hebrew
- History
- History of Art and Visual Culture
- History of Consciousness
- Humanities
- Italian
- Italian Studies
- Japanese
- Jewish Studies
- Kresge College
- Language Program
- Language Studies
- Latin
- Latin American and Latino Studies
- Legal Studies
- Linguistics ➤
- Literature
- Mathematics
- Merrill College
- Microbiology and Environmental Toxicology
- Music
- Oakes College
- Ocean Sciences
- Philosophy
- Physical and Biological Sciences Division
- Physical Education
- Physics
- Politics
- Portuguese
- Porter College
- Psychology
- Queer and Sexuality Studies
- Religious Studies
- Russian
- Science Communication

All students are required to complete the following 12 courses in linguistics and related disciplines.

- Seven foundation courses in linguistics:

50, Introduction to Linguistics
53, Semantics I
101, Phonology I
102, Phonology II
112, Syntax I
113, Syntax II
116, Semantics II

- Five upper-division elective courses in linguistics

Students may petition the department to have elective courses offered through other institutions or other UC programs applied toward the major requirements. At most three such courses can be applied toward the major. These courses must be upper-division and clearly fit into a coherent program of study in linguistics.

Foreign language/mathematics competency requirement: Linguistics majors are required to demonstrate either foreign-language or mathematics competency as follows:

- Foreign-language competency: students must successfully complete five quarters of language study at UCSC or demonstrate an equivalent level of competence through a recognized language test or evidence of credit from another institution. In cases where five quarters of instruction for a language are not being offered at UCSC, students may opt to complete (or demonstrate equivalent level of competence for) three quarters of one language and three quarters of a second language. For Latin and Greek, two quarters will be considered equivalent to three quarters.
- Mathematics competency: alternatively, students with a strong formal background can choose to satisfy the mathematics competency requirement by demonstrating sufficient preparation in mathematics for advanced formal work in linguistics. This requirement is satisfied by passing two courses chosen from the following list: Applied Mathematics and Statistics 7 or 131; Computer Engineering 16; Computer Science 5C, 5J, 5P, 10, 11, 12A, 12B, 140, or 148; Mathematics 30, 100, 115, 160, or 161; Philosophy 9; or any course which has one of these courses as a prerequisite.

Senior exit requirement: In their senior year, linguistics majors must satisfy the senior exit requirement in one of two ways:

- Option 1: Successful completion of a capstone course. Students may designate an appropriate upper-division linguistics course as their capstone course. Students must have senior standing and must have completed Linguistics 101, Phonology I, and 112, Syntax I.
- Option 2: Successful completion of a senior thesis supervised by a linguistics faculty member.

The proposal for a senior thesis must be submitted for departmental approval at least three quarters prior to the quarter of graduation. Students enroll in Linguistics 195, Senior Thesis.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in linguistics is satisfied by completing courses 101 and 112.

Requirements of the Minor

To graduate with a minor in linguistics, students must complete eight linguistics courses:

50, Introduction to Linguistics

- Social Documentation
- Social Sciences
- Sociology
- Spanish and Spanish for Heritage Speakers
- Stevenson College
- Technology and Information Management
- Theater Arts
- Writing Program
- Yiddish

Teaching and Administrative Staff

Appendixes

Archive of General Catalogs

Nondiscrimination Statement

53, Semantics I

101, Phonology I

112, Syntax I

Four upper-division elective courses in linguistics

There is no senior exit requirement and no foreign language/mathematics competency requirement for the minor.

Courses

The 80-level courses have no prerequisites. They are intended to introduce the concepts of linguistics through their relation to other areas of general interest.

Courses 50, Introduction to Linguistics; 112, Syntax I; and 53, Semantics I, are “disciplinary introductions.” These courses have no linguistics prerequisites and serve as entry courses to the specialized upper-division sequences. Upper-division courses generally have at least one of these courses as a prerequisite.

Courses 101, Phonology I; 102, Phonology II; 113, Syntax II; and 116, Semantics II are the core upper-level courses in linguistic structure and are offered each year. The two phonology courses (101 and 102) provide an introduction to the study of the sound systems of languages. These courses use a problem-solving approach to developing understanding of phonological theory and phonological regularities in various languages. The intermediate syntax course (113), which has course 112, Syntax I, and course 53, Semantics I, as prerequisites, continues the development of syntactic theory begun in course 112, extending the range to more complex constructions and rules and introducing alternative theoretical approaches. The semantics course (116), which has as prerequisites course 53, Semantics I, and course 112, Syntax I, addresses advanced problems in the analysis of meaning.

Several upper-division elective courses are offered each quarter. For a list of these courses, visit the department’s web site at linguistics.ucsc.edu.

To enroll in the graduate (200-level) courses, undergraduates need special permission from the instructor. Permission is usually granted only to especially motivated undergraduates who have completed all the core course requirements for the major with excellent performance.

Honors

Students who wish to be considered for honors should meet the deadline posted by the Office of the Registrar for declaring the intent to graduate. Determination of honors is based on (1) the student’s grades for all courses relevant to the major; (2) the results of the senior exit requirement; (3) other factors relevant to an assessment of academic excellence, such as research papers of professional quality. Generally, honors in the major are awarded to the top 10 percent of those graduating in the major. Only those students whose performance in coursework and on the senior exit requirement is excellent will qualify. Highest honors are rarely awarded, and then only to students whose performance in coursework is outstanding and who have completed an outstanding senior thesis.

Preparation for the UCSC Master’s Degree

Each year a number of UCSC students who have B.A. degrees in linguistics or language studies are admitted into the graduate program to pursue the M.A. in theoretical linguistics. Interested students should discuss the possibility with one or more faculty members and formally apply online to the graduate program during the fall quarter of the senior year. For up-to-date information about the application process, consult our web site (<http://linguistics.ucsc.edu>); and see the Linguistics Department manager. The combined B.A./M.A. program (see below) provides another pathway to the M.A. program.

The B.A./M.A. Program

The B.A./M.A. program in linguistics is a demanding and selective option, which allows students who are well prepared and well motivated to complete the requirements for both degrees in five years rather than the usual six.

Admission to the program has two stages. In the first stage, interested students apply to be admitted to the program in consultation with the undergraduate advisor no later than the first quarter of their junior year. Transfer students must apply for admission during their second quarter at UCSC. In order to be accepted at this first stage, students must have demonstrated excellence in the undergraduate major in at least three courses that are named requirements for the linguistics major.

Students accepted at this initial stage are assigned a faculty mentor who monitors their progress closely.

At the second stage of the admission procedure, students apply in their senior year to be admitted through UCSC's normal graduate admissions process. If accepted, ideally they complete the course requirements for the M.A. and write and defend the M.A. paper by the end of the fifth year.

Students in the B.A./M.A. program take a number of graduate courses in their senior year, which are selected in close consultation with the faculty mentor. Performance in these courses forms a central part of the ongoing evaluation process. If a student's performance does not meet the standards set for the program, he or she completes the B.A. at the end of the senior year in the normal way and does not proceed to the M.A.

Graduate courses required for the M.A. are taken partly in the senior year and partly in the fifth year. The M.A. paper is written in the fifth year. Thus, by the end of their fifth year, the students in the program will have fulfilled the requirements for both the B.A. and the M.A. degrees. However, students who need additional time may still stay in the program until the M.A. paper is completed.

Graduate Program

The graduate program in linguistics at UCSC is a small, focused program in linguistic theory leading to doctor of philosophy (Ph.D.) or master of arts (M.A.) degrees. The research interests of faculty and students draw mostly on the framework of generative grammar, with a primary focus on theoretical and experimental approaches to syntax, semantics, psycholinguistics, phonetics, and phonology. Research strengths also include the structure of various languages, theoretical and computational morphology, mathematical foundations, and the philosophy of linguistics.

Each year the department admits approximately five new students to the doctoral program and a smaller number of new students to the M.A. program. The master's degree can be completed in one or two years, depending on the student's previous background in linguistics.

While committed to training in theoretical depth, the program makes possible an unusual breadth of theoretical and experimental understanding. Research in syntax focuses on ways in which generative theory and language-particular analysis inform one another. Faculty expertise covers principles and parameters theory, minimalism, optimality theoretic syntax, and experimental approaches. Research in phonetics and phonology is pursued in various current frameworks, including optimality theory and dispersion theory. It ranges from issues in phonetics and the phonetics-phonology relationship to prosodic theory, prosodic morphology and the syntax-phonology relationship. Research in semantics applies formal, model-theoretic techniques to illuminate the interface between syntactic structure and interpretation and the role of semantic competence in the pragmatics of utterance interpretation. Experimental research in these areas reaches out to a broad range of issues in psycholinguistics and cognitive science.

The faculty have expertise in a variety of languages, including Chamorro, German, Hungarian, Irish, Japanese, Latin, Nez Perce, Romanian, Russian, Spanish, Turkish, and Tzotzil.

From the beginning of their studies, students are engaged in original research and critical evaluation since the aim of the program is to provide sophisticated training as a foundation for a career in academic research and teaching. The program begins with a sequence of foundation and core courses in phonetics, phonology, syntax, semantics, and psycholinguistics. Subsequent coursework emphasizes theoretical depth; it is increasingly centered around the doctoral student's own research, culminating in the presentation of a

dissertation.

Undergraduate Preparation

Applications are invited from students who have completed an undergraduate linguistics major or who have demonstrated excellence in some related discipline (psychology, mathematics, computer science, anthropology) and have the equivalent of a minor in linguistics. A student applying for admission to this program should, at a minimum, have a good foundation in at least one of the following: phonetics, phonology, morphology, syntax, semantics, or psycholinguistics. Students entering the program with a deficiency in one or more areas may need to make up the deficiency by taking appropriate undergraduate courses at UCSC during the first year of graduate study.

Requirements for the M.A.

Courses. A minimum of 45 credits of graduate-level work. This must include the core courses in phonetics, phonology, syntax, semantics, and psycholinguistics. Electives are chosen from upper-division or graduate courses offered by linguistics and related disciplines, in addition to independent study with linguistics faculty.

Languages. Reading competence in one foreign language, to be demonstrated by examination.

Master's thesis. Submission of a master's thesis in a core area of theoretical linguistics and approval of a committee of two faculty.

Requirements for the Ph.D.

Courses. A minimum of 65 credits of graduate-level work. This includes foundation sequences in phonetics, phonology, syntax, semantics, and psycholinguistics.

Languages. Reading competence in one foreign language, to be demonstrated by examination.

Qualifying papers and examination. By the end of the third year, two research papers, each in a distinct discipline, are to be presented as part of the requirements for admission to candidacy. At this time, the prospective candidate is examined by the faculty on topics related to the student's major area of research, as part of the qualifying examination. The student is expected to defend a dissertation prospectus in the fourth year.

Dissertation. The final requirement for the Ph.D. degree is the presentation of a dissertation representing a significant contribution in some central area of linguistic research.

Application and Admission

To apply, please consult the Department of Linguistics web site (<http://linguistics.ucsc.edu>).

Lower-Division Courses

[50. Introduction to Linguistics. F](#)

An introduction to the major areas, problems, and techniques of modern linguistics. (Formerly Introduction to Linguistics: Sounds and Words.) (General Education Code(s): SI, IH.) R. Mester

[53. Semantics I. F,W](#)

Introduction to the logical foundations of natural language semantics. Logical and semantic relations, simple set theory, logical representations (propositional and predicate calculi, modal and tense logics) and their interpretations. A basic literacy course in the language of logical representation. (General Education Code(s): IH.) A. Brasoveanu, D. Farkas

[80B. Modern English Grammar. *](#)

Elementary introduction to modern standard English grammar, both formal and informal, both written and spoken. Stresses the importance of linguistic evidence in understanding grammatical correctness; offers a demystification and critique of older traditional grammar in the light of recent research. (General Education Code(s): T4–Humanities and Arts.) The Staff

[80C. Language, Society, and Culture. W](#)

The study of language from a sociological perspective. Multilingualism, language change and variation, pidgins and creoles, the origin and diversification of dialects. (General Education Code(s): CC, T5–Humanities and Arts or Social Sciences.) J. McCloskey

[80D. Language and Mind: Chomsky's Program. *](#)

A critical overview of the research program initiated by Noam Chomsky and its implications for theories of the human mind and brain. (General Education Code(s): T5–Humanities and Arts or Social Sciences.) The Staff

[80V. Structure of the English Vocabulary. *](#)

A systematic study of the elements of English words: besides the practical goal of vocabulary consolidation and expansion, explores the historical origin and development of word elements, as well as their sound, meaning, and function in the contemporary

language. Offered in alternate academic years. (General Education Code(s): T4–Humanities and Arts.) The Staff

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. The Staff

Upper–Division Courses

101. Phonology I. Winter
Introduction to how sounds pattern in grammars—why they vary, how they combine, etc. Emphasis is on developing theories to explain the patterns. Topics include distinctive feature theory, phonemic analysis, autosegmental phonology, and principles of syllabification and stress. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 50. (General Education Code(s): W.) J. Ito, J. Padgett

102. Phonology II. F
Advanced phonological theory. Topics include markedness; underspecification theories; advanced topics in feature geometry, syllable theory, and stress theory; and optimality theory. Readings include published articles. Emphasis on theory construction and argumentation based on data. Prerequisite(s): course 101. J. Ito

105. Morphology. F
Study of the principles of word formation: derivation, inflection, and compounding; cross–linguistic study of morphological processes, morphological investigation and analysis. Prerequisite(s): course 111 or 112, and course 101. Offered in alternate academic years. The Staff

108. Poetry and Language. *
An introduction to the linguistic aspects of poetry, e.g., rhyme, meter, and larger–scale organization of poetic form. The emphasis is on English poetry, complemented by brief sketches of other poetic traditions. Prerequisite(s): course 50. Offered in alternate academic years. (General Education Code(s): TA.) The Staff

111. Syntactic Structures. S
Provides a basic introduction to the methods and results of generative grammar. It simultaneously provides an overview of the major syntactic constructions of English. (Formerly course 55.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): IH.) J. McCloskey

112. Syntax I. F,W
An introduction to syntactic investigation, developed through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. (Formerly course 52.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): IH.) S. Chung, A. Deal, J. Hankamer

113. Syntax II. S
Further aspects of English syntax; universal and language–particular constraints on syntactic structures and rules. Further developments and extensions of generative theory. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 53 and 112. (General Education Code(s): W.) J. McCloskey

114. Syntax III. F
Advanced topics in syntax and semantics. Prerequisite(s): course 113 and satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): W.) S. Chung

116. Semantics II. W
Major issues in natural language semantics: nature of lexical entries, thematic relations, propositional representation or "logical form"; relation between semantic interpretation and syntactic representations, quantification and scope relations, reference and presupposition, coreference and anaphoric relations. Prerequisite(s): course 53, and either course 111 or 112. A. Brasoveanu

[Appendixes](#)

[Archive of General Catalogs](#)

[Nondiscrimination Statement](#)

117. Pragmatics. W
Covers topics central in the study of pragmatics, the interpretation of language use. Topics include conversational implicature, speech acts and discourse understanding, and social deixis. Prerequisite(s): course 53. Offered in alternate academic years. P. Anand

118. Semantics III. F
Uses the tools learned in courses 53 and 116 (Semantics I and Semantics II), giving students the opportunity to explore important topics with heavy emphasis placed on reading primary-source literature. Readings form the basis for weekly lectures and the discussion section. Prerequisite(s): course 116. Enrollment limited to 25. D. Farkas

120. Structure of English. F
Survey of grammatical structure of English and terminology of grammatical description. Covers phonological, morphological, and syntactic structure of English and contrasts it with other languages. Prerequisite(s): course 111 or 112, and 101. The Staff

124. Language Typology. *
Introduces the branch of linguistics whose goal is to describe and explain the structural diversity of the world's languages. Focuses on what is known about variation in particular domains (e.g., syllable structure, word order, evidentiality), and how it might be explained. Prerequisite(s): course 111 or 112, and course 101. Enrollment limited to 40. The Staff

125. Foundations of Linguistic Theory. *
Survey of some of the history and foundational assumptions of generative grammar; also looks at some of the influence of generative linguistic theorizing on disciplines outside linguistics, notably psychology and philosophy. Prerequisite(s): course 113 or 116. Enrollment limited to 25. The Staff

140. Language Change. *
Methods and problems in the study of change in linguistic systems. Reconstruction of proto-languages; the comparative method. Theories of change and implications for the theory of grammar. Prerequisite(s): course 102. Enrollment limited to 25. R. Mester

144. Computational Methods for Linguists. S
Practical introduction to computational methods for linguists. Topics covered include: database development; indexation and search; morphological and syntactic parsing; modern annotation methodologies. Students concurrently learn Python and Javascript. No background in programming required. Prerequisite(s): courses 50, 53, and either 111 or 112. Enrollment restricted to linguistics and language studies majors. The Staff

145. Native Languages of North America. *
Survey of the indigenous languages of North America, including a formal/structural component and an historical/social component. Topics include: typological properties of these languages, current status, and revitalization efforts. Prerequisite(s): course 101, and either course 111 or 112. Enrollment limited to 30. J. Kirchner

151. Phonetic Analysis. S
Introduction to instrumental phonetic analysis—analysis using experimental methods. Emphasis is on the acoustics and perception of speech. Prerequisite(s): course 101. G. McGuire

152. Applied Phonetics. *
Examines areas in which phonetic analysis and experimentation are used in practice. Emphasizes problem-solving, experiments, and analytical tasks. Prerequisite(s): course 151. Enrollment limited to 25. The Staff

154. Language and Social Identity. W
Introduction to sociolinguistics exploring the relationship between language and such social parameters as social status, ethnicity, race, gender, etc., including the role of language differences in the creation of social stereotypes. Emphasis on gathering, examining, and reporting data. Prerequisite(s): course 101, and either course 111 or 112.

Enrollment restricted to senior language studies majors. Enrollment limited to 25. The Staff

155. Language and Cognition. *

Introduces and examines some of the foundational assumptions, practices, and methods of generative grammar in comparison to those of other areas of cognitive science, notably psychology and philosophy. Prerequisite(s): course 111 or 112, 53, and 101. J. McCloskey

157. Psycholinguistics and Linguistic Theory. W

Theory and methods in psycholinguistics, covering perception, production, and acquisition of language and linguistic structure. A hands-on, laboratory-style introduction to the topic, focusing on the relation between experimental findings and linguistic theory. Students cannot receive credit for this course and course 257. Prerequisite(s): course 102 or 105 or 113 or 116. Enrollment restricted to linguistics and language studies majors. Enrollment limited to 20. (General Education Code(s): SR.) M. Wagers

158. Advanced Psycholinguistics. S

Advanced topics in psycholinguistics and experimental linguistics, contemporary memory models, computational models of comprehension and production, and neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students learn to apply advanced analytical techniques. Prerequisite(s): course 157. Enrollment restricted to linguistics and language studies majors. Enrollment limited to 12. M. Wagers

160. Language Engineering. *

Addresses a particular problem in language engineering, chosen for its practical and theoretical interest and its tractability. The entire course focuses on a team project to design a solution to the problem. Permission of instructor required. P. Anand

181. Structure of Romance Languages. S

Examines the phonological and syntactic structures of Romance languages. Some knowledge of Italian, French, or Spanish is required. Prerequisite(s): course 111 or 112, and course 101. D. Farkas

182. Structure of Spanish. *

The phonology and syntax of Spanish, studied from a modern linguistic perspective. Some knowledge of Spanish is required. Prerequisite(s): course 111 or 112, and course 101. The Staff

183. Structure of French. *

The phonology, morphology, and syntax aspects of French. Some knowledge of French is helpful. Prerequisite(s): course 111 or 112, and 101. The Staff

184. Structure of Irish. *

Integrated Irish-language course for beginners, combining both instruction in the language itself (linguistic) and seminars about the current social, political, and cultural state of the language (sociolinguistic). Enrollment by permission of instructor. Enrollment limited to 25. The Staff

185. Structure of Russian. *

The phonology, morphology, and syntax of Russian. Some knowledge of Russian is helpful. Prerequisite(s): course 111 or 112, and course 101. Enrollment limited to 30. Offered in alternate academic years. The Staff

186. Structure of German. *

Phonological, morphological, and syntactic aspects of the structure of the German language. Some knowledge of German is required. Prerequisite(s): course 111 or 112, and course 101. The Staff

187. Structure of Japanese. *

The phonology, morphology, and syntax of Japanese. Some knowledge of Japanese is required. Prerequisite(s): course 111 or 112, and course 101. Offered in alternate academic years. J. Ito

188. Structure of Turkish. *

The phonology, morphology, and syntax of Turkish. Prerequisite(s): course 111 or 112, and course 101. The Staff

189. Structure of Arabic. *

The phonology, morphology, and syntax of Arabic. (Mainly modern standard, but also some regional dialects.) No knowledge of Arabic is required. Pre-requisite(s): course 101, and course 111 or 112. The Staff

190. Senior Research (2 credits). *

Students produce a research paper or other significant project to satisfy the capstone requirement. Prerequisite(s): course 101, and either course 111 or 112. Concurrent enrollment in a specified upper-division course is required. Enrollment restricted to senior linguistics and language studies majors. The Staff

193. Field Study. *

Students submit petition to sponsoring agency. The Staff

195. Senior Thesis. F,W,S

Deadline for submission of thesis proposal is one year in advance of proposed completion. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision by correspondence). Preparation and approval must be completed by the fifth day of instruction of any given quarter. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

211. Phonology A. F

First part of a three quarter introduction to phonology. Topics of the sequence include fundamentals of acoustic phonetics; introduction to optimality theory; theories of syllabification, stress, and prosodic organization; prosodic morphology; advanced issues in faithfulness and correspondence; segmental and suprasegmental processes. Enrollment restricted to graduate standing or consent of instructor. J. Padgett

212. Phonology B. S

Second part of a three quarter introduction to phonology. Topics of the sequence include fundamentals of acoustic phonetics; introduction to optimality theory; theories of syllabification, stress, and prosodic organization; prosodic morphology; advanced issues in faithfulness and correspondence; segmental and suprasegmental processes.

Prerequisite(s): course 211. Enrollment restricted to graduate standing or consent of instructor. R. Mester

214. Phonetics. S

Introduction to phonetic theory concentrating on acoustic phonetics and speech perception along with common experimental methods, the role of phonetic principles in explaining phonological patterns and markedness. Enrollment restricted to graduate students, or by permission of instructor. Enrollment limited to 12. G. McGuire

216. Phonology Proseminar. F

One or more topics in phonological theory. Topics vary from year to year, covering literature and current research in phonology. Prerequisite(s): course 212. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. J. Ito

219. Phonology Seminar. W

Advanced topics in phonology drawn from the current research interests of the instructor. Prerequisite(s): course 212. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. J. Padgett

219G. Phonology Seminar (3 credits). W

Advanced topics in phonology drawn from the current research interests of the instructor. Three-credit version of course 219. Does not require a final paper. Prerequisite(s): course 212. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. J. Padgett

221. Syntax A. F

Introduction to syntactic theory. Phrase structure; subcategorization; lexical entries; passive; infinitival constructions. Enrollment restricted to graduate standing or consent of instructor. J. Hankamer

222. Syntax B. W

Continuation of Syntax A. The syntax of unbounded dependencies, including constituent questions, relative clauses, clefts, topicalization. Constraints on extraction; unbounded versus successive cyclic movement; the licensing of gaps. Prerequisite(s): course 221. Enrollment restricted to graduate standing or consent of instructor. A. Deal

226. Proseminar in Syntax. F

In-depth investigation of some topic in syntactic theory. Topics vary from year to year, covering literature and current research in grammatical structure from varying theoretical perspectives. Prerequisite(s): course 222. A. Deal

226G. Proseminar in Syntax (3 credits).

In-depth investigation of some topic in syntactic theory. Topics vary from year to year, covering literature and current research in grammatical structure from varying theoretical perspectives. Three-credit version of course 226. Does not require a final paper. Prerequisite(s): course 222. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. A. Deal

229. Syntax Seminar. S

Advanced topics in syntax drawn from the current research interests of the instructor. Prerequisite(s): course 222. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. J. Hankamer

229G. Syntax Seminar (3 credits). S

Advanced topics in syntax drawn from the current research interests of the instructor. Three-credit version of course 229. Does not require a final paper. Prerequisite(s): course 222. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. J. Hankamer

231. Semantics A. F

Introduction to linguistic semantics: nature of lexical entries, thematic relations, representation of logical form; relation between semantic interpretation and syntactic representation, quantification and scope relations, reference and presupposition. Enrollment restricted to graduate standing or consent of instructor. D. Farkas

232. Semantics B. W

Model-theoretic semantics for natural language. Truth-conditional, compositional semantics. Various logical ontologies and their application to natural language categories. Dynamic interpretation of discourse and anaphoric relations. Treatment of illocutionary force. Prerequisite(s): course 231. Enrollment restricted to graduate standing or consent of instructor. P. Anand

236. Proseminar in Semantics. *

In-depth investigation of some topic in semantics and pragmatics. Topics vary from year to year, covering literature and current research in linguistic semantics and pragmatics. Prerequisite(s): course 231. Enrollment restricted to graduate standing or consent of

instructor. The Staff

236G. Semantics Proseminar (3 credits). *

In-depth investigation of some topic in semantics and pragmatics. Topics vary from year to year, covering literature and current research in linguistic semantics and pragmatics. Three-credit version of course 236. Does not require a final paper. Prerequisite(s): course 231. Enrollment restricted to graduate students, or by consent of instructor. Enrollment limited to 12. May be repeated for credit. The Staff

239. Semantics Seminar. S

Advanced topics in semantics drawn from the current research interests of the instructor. Prerequisite(s): course 232. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. P. Anand

239G. Semantics Seminar (3 credits). S

Advanced topics in semantics drawn from the current research interests of the instructor. Three-credit version of course 239. Does not require a final paper. Prerequisite(s): course 232. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. P. Anand

240. The Pedagogy of Linguistics (1 credit). F,W

Provides training for graduate students in university-level pedagogy in general and in the pedagogy of linguistics specifically. Under the supervision of a faculty member, coordinated by a graduate student with substantial experience as a teaching assistant. May be repeated for credit. The Staff

244. Computational Methods for Linguists. S

Practical introduction to computational methods for linguists. Topics covered: database development; indexation and search; morphological and syntactic parsing; and modern annotation methodologies. Students concurrently learn Python and JavaScript. No background in programming is required. Enrollment restricted to graduate students, or by consent of the instructor. Enrollment limited to 12. P. Anand

245. Computational Models of Discourse and Dialogue. *

Focuses on classic and current theories and research topics in the computational modeling of discourse and dialogue, with applications to human-computer dialogue interactions; dialogue interaction in computer games and interactive story systems; and processing of human-to-human conversational and dialogue-like language such as e-mails. Topics vary depending on the current research of the instructor(s) and the interests of the students. Students read theoretical and technical papers from journals and conference proceedings and present class lectures. A research project is required. (Also offered as Psychology 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. May be repeated for credit. The Staff

249. Morphology Seminar. *

Presents theoretical and descriptive issues, particularly those raised by the framework of distributed morphology and its current competitors. Course work consists of readings, squibs, and a term paper. Enrollment restricted to graduate students. The Staff

249G. Morphology Seminar (3 credits). *

Presents theoretical and descriptive issues, particularly those raised by the framework of distributed morphology and its current competitors. Coursework consists of readings and squibs. Three-credit version of course 249. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. The Staff

257. Psycholinguistics and Linguistic Theory. S

Theory and methods in psycholinguistics, covering perception, production, and acquisition of language and linguistic structure. A hands-on, laboratory-style introduction to the topic, focusing on the relation between experimental findings and linguistic theory. Students cannot receive credit for this course and course 157 or 257G. Enrollment

restricted to graduate students. M. Wagers

257G. Psycholinguistics and Linguistic Theory (3 credits). S

Theory and methods in psycholinguistics, covering perception, production, and acquisition of language and linguistic structure. A hands-on, laboratory-style introduction to the topic, focusing on the relation between experimental findings and linguistic theory. Graduate students have separate evaluation criteria. Students cannot receive credit for this course and course 157 or 257. Three-credit version of course 257. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. M. Wagers

258. Advanced Psycholinguistics. *

Advanced topics in psycholinguistics and experimental linguistics. Contemporary memory models. Computational models of comprehension and production. Neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students learn to apply advanced analytical techniques. Graduate students have separate evaluation criteria. Students cannot receive credit for this course and course 258G. Prerequisite(s): course 257. Enrollment restricted to graduate students. The Staff

258G. Advanced Psycholinguistics (3 credits). *

Advanced topics in psycholinguistics and experimental linguistics. Contemporary memory models. Computational models of comprehension and production. Neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students apply advanced analytical techniques. Graduate students have separate evaluation criteria. Three-credit version of course 258. Does not require a final paper. Students cannot receive credit for this course and course 258. Prerequisite(s): course 257. Enrollment restricted to graduate students. Enrollment limited to 12. The Staff

259. Phonetics Seminar. *

Advanced topics in acoustic and articulatory phonetics. Prerequisite(s): course 213. Enrollment restricted to graduate students. The Staff

259G. Phonetics Seminar (3 credits). *

Advanced topics in acoustic and articulatory phonetics. Three-credit version of course 259. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. The Staff

265. Mathematical Foundations of Linguistics. *

A survey of the basic mathematical notions fundamental to the understanding of work in theoretical syntax, semantics, and phonology. Topics covered include basic set theory, formal logic, boolean algebra, graph theory, and formal language theory. Enrollment restricted to graduate standing or consent of instructor. The Staff

279. Research Seminar in Psycholinguistics. *

Contemporary research in psycholinguistic theory models, and methods. Topics vary with research interests of faculty and graduate students. Enrollment restricted to graduate students, or by consent of instructor. Enrollment limited to 12. May be repeated for credit. The Staff

280. Proseminar in Experimental Linguistics. W

Examines experimental design and analysis for gathering linguistic data; the advantages and disadvantages of major response measures, including reaction times; interaction with extra-grammatical factors; and statistics on categorical and continuous measures. Students present results in research papers. Students cannot receive credit for this course and course 280G. Enrollment restricted to graduate students. M. Wagers

280G. Proseminar in Experimental Linguistics (3 credits). W

Examines experimental design and analysis for gathering linguistic data: the advantages and disadvantages of major response measures, including reaction times; interaction with extra-grammatical factors; and statistics on categorical and continuous measures. Three-credit version of course 280. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. M. Wagers

290. Research Seminar. W

A research seminar for undergraduate and graduate students to develop the skills of the profession. Critical reading, reviewing, teaching, presentation, and writing. Students submit petition to sponsoring agency. Enrollment restricted to graduate standing or consent of instructor. Enrollment limited to 10. A. Brasoveanu

295. Directed Reading. F,W,S

Directed reading which does not involve a term paper. Enrollment restricted to graduate standing or consent of instructor. The Staff

296. Linguistics Colloquium (2 credits). F,W,S

Independent graduate-level activities and assignments relating to development of familiarity with professional activities in academic linguistics: organizing and attending colloquia and conferences, both on- and off-campus; participation in discussions at such events; and preparation of commentaries on academic papers and other papers. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Enrollment restricted to graduate standing or consent of instructor. The Staff

299. Thesis Research. F,W,S

The Staff

* Not offered in 2012-13

[Faculty](#) | [Course Descriptions](#)

Program Description

The study of literature at UCSC is organized as an interdisciplinary field coordinated through a single Department of Literature, rather than through separate departments of English, modern languages, and classics. This structure fosters innovative and comparative approaches to literature among both faculty and students. Courses in the major encompass traditional literary history and interpretation as well as cross-cultural inquiry and current theoretical debates.

The literature major permits focused work in national literary traditions. Students may concentrate in English-language literatures; in French, German, or Italian; in Latin and/or Greek; or in Spanish/Latin American/Latino literatures. Alternatively, students may organize their studies by historical period. Students who choose pre- and early modern studies focus on early literary traditions from antiquity through the Middle Ages, the Renaissance, and the neo-classical period, while those engaged in modern literary studies concentrate on literature of the 18th, 19th, 20th, and 21st centuries. In addition, the world literature and cultural studies concentration emphasizes non-Western literatures, literature in a global context, as well as non-literary forms of cultural production. Finally, the Literature Department also offers a concentration in creative writing in which, in addition to studying literature, students work with faculty in upper-division workshops to improve their own creative writing skills.

Literature majors at UCSC are trained in critical reading, writing, and thinking, as well as in literary interpretation. These skills have wide applicability: they may lead to careers in other media such as film, theater, video, the visual arts, and electronic media; and they offer avenues into related disciplines such as history, philosophy, psychology, sociology, anthropology, politics, and history of art and visual culture. Literature majors traditionally enter a wide variety of careers ranging from law and journalism to management, government, international studies, publishing, technical writing, and teaching at all levels.

The Literature Department faculty requires that all literature majors have proficiency in a second language. Proficiency in more than one language enhances understanding of any literature and culture. Graduate programs in literature and other humanities disciplines generally require competence in a language other than English.

- Queer and Sexuality Studies
- Religious Studies
- Russian
- Science Communication

Letter grades are required for 75 percent of courses applied toward the literature major, including the senior seminar or thesis, which must be taken for a letter grade.

Declaration of the Major or Minor

Students must complete Literature 1 or its equivalent prior to declaring the major or minor. Students declare a major or minor in literature by completing and submitting a Proposed Study Plan and Declaration of Major/Minor petition. All students considering a literature major or minor should consult with staff and/or faculty advisers as early as possible and declare the major or minor before the end of their sophomore year. Transfer students are urged to declare the major or minor in the first quarter at UCSC.

Requirements of the Major

Literature Major Options

Students wishing to major in literature may choose either the standard literature major or the intensive literature major. The intensive literature major is recommended particularly for students who plan to continue their studies in graduate school. The requirements for the intensive major include the study of literature in two languages; proficiency in a second language is therefore required.

The Standard Literature Major

The literature major requires: (1) proficiency in a second language; and (2) 12 courses in literature.

- Language proficiency: One year (three quarters or equivalent) of college level study of a non-English language or demonstrated reading ability at this level.
- The 12 required courses must include two lower-division and 10 upper-division courses.

Lower-Division Courses

Lower-division courses are introductions to critical reading and writing. Students should complete their lower-division coursework before beginning upper-division work.

Two lower-division courses are required:

- Literature 1, Literary Interpretation: close reading and analysis of literary texts
- One Literature 61-series course: categories, methodologies, and problems of literary study, or one Literature 80-series course: topical, thematic, and comparative studies of literary texts

Language proficiency: One year (three quarters or equivalent) of college level study of a non-English language or demonstrated reading ability at this level

Upper-Division Courses

Upper-division courses provide more detailed treatment of literary and theoretical problems, themes, and periods. Students are strongly encouraged to take courses across chronological periods and national boundaries. Students must successfully complete the language proficiency requirement before enrolling in Literature 102.

Ten upper-division courses are required:

- Literature 101, Theory and Interpretation: approaches to literary and cultural theories
- Literature 102, Translation Theory: approaches to literary and cultural translation, or one upper-division non-English literature course studied in the original language. Students must successfully complete the language proficiency requirement before enrolling in Literature 102
- Six upper-division courses in an area of concentration (described below)
- Two upper-division electives in literature

Distribution requirements. Among the 10 upper-division courses, at least two must focus on literature written prior to the year 1750; one course must focus on non-Western

- [Social Documentation](#)
- [Social Sciences](#)
- [Sociology](#)

[Nondiscrimination Statement](#)

literature or literature in a global perspective; and one course must focus on poetry. One of the upper-division courses may be a senior seminar, which can be used to satisfy the campus comprehensive (exit) requirement. Some courses fulfill more than one distribution requirement. A list of annual course offerings indicating distribution codes for each course is available in the department office and on the Literature Department web page at <http://literature.ucsc.edu/>.

With prior permission from the literature undergraduate program director, one upper-division literature elective may be replaced by an upper-division course related to the student's area of concentration and chosen from another program in the humanities, arts, or social sciences.

The Intensive Literature Major

The Intensive Literature major requires (1) proficiency in a second language, and (2) 14 courses in literature.

- Language proficiency: in addition to the Standard Literature major requirement of one-year (three quarters or equivalent) of college-level study of a non-English language, or demonstrated reading ability at this level, students must complete at least two upper-division courses in a second-language literature studied in the original language. In many languages, two years of college-level study (or comparable ability) are needed before a student is prepared to enter an upper-division course. In a few languages (Greek, Latin, Middle Egyptian Hieroglyphs), less time is needed for this purpose.
- The 14 required courses must include two lower-division and 12 upper-division courses.

Lower-Division Courses

The same requirements apply as for the standard literature major. Students who choose the intensive literature major are required to achieve competence in a second-language literature. Upper-division literature coursework requires completion of a lower-division language sequence or the equivalent.

Upper-Division Courses

The intensive major requires 12 upper-division courses. Distribution requirements for the intensive major are the same as those for the standard literature major. In addition, students must complete at least two courses in a second-language literature studied in the original language. As in the standard major, with prior permission from the literature undergraduate program director, one upper-division literature elective may be replaced by an upper-division course related to the student's area of concentration and chosen from another program in the humanities, arts, or social sciences.

The Concentrations

The purpose of the upper-division area of concentration is to help students shape a coherent program of study. The department provides several defined concentrations, described below. For all concentrations except national/transnational literatures, texts may be read in the original or in translation.

National/Transnational Literatures

These concentrations examine literature within the frameworks of particular languages or national and regional traditions. National/transnational concentrations require that texts be read in the original language.

- English-language literatures
The study of American and British literature, as well as literatures of other English-speaking peoples around the world.
- French literature
The study of French and Francophone literatures, languages, and cultural practices of France, Africa, and the Caribbean.
- German literature
The study of the literature, language, and cultural practices of the German-speaking

areas of central Europe including Germany, Austria, and Switzerland.

- Greek and Latin literature

The study of the literature, languages, and cultural practices of ancient Greece and Rome. Students may choose to concentrate in Greek or Latin or both.

- Italian literature

The study of Italian literature, language, and cultural practices from the Middle Ages to the present.

- Spanish/Latin American/Latino literatures

The study of literatures, language, and cultural practices of Spain, Latin America, and Latino populations in the United States.

Creative Writing

The Department of Literature offers a sequence of workshops from introductory through advanced levels in both poetry and fiction. Other activities available to interested students include participation in the production of literary journals on campus, attendance at readings by visiting writers, and use of a creative writing reading room.

Admission to this concentration is selective. Interested students are required to take one lower-division creative writing workshop at UCSC before applying to the creative writing concentration; however, students are strongly encouraged to complete two lower-division workshops (at least one at UCSC) before applying.

Students accepted into the concentration must complete three advanced writing workshops and a senior project (e.g., a group of stories, a significant portion of a novel, a collection of poems). To apply for admission to the creative writing concentration, students should submit a completed application form (available at the Literature Department office and at <http://creativewriting.ucsc.edu/for-students/apply.html>) and a thoughtful selection from their work (8–10 pages of poetry or fiction). Once accepted into the concentration, students are required to declare (or redeclare) the major in literature. At that time, students should meet with their adviser to discuss plans for a senior project.

Pre- and Early Modern Studies

The interdisciplinary study of literatures and cultures from antiquity through the early eighteenth century, especially in Europe. This concentration includes the study of popular culture and everyday life as well as readings in masterpieces of classical, medieval, early modern (Renaissance), and neo-classical literature.

Modern Literary Studies

The study of literature of the eighteenth, nineteenth, twentieth, and twenty-first centuries. This concentration examines ways in which modernity in general and literary modernism and postmodernism in particular emerge and develop in different countries and cultures.

World Literature and Cultural Studies

The study of literature and cultural production both within a global context and within specific histories and economies. Courses move beyond the literary text to include nonverbal forms of representation such as social movements and everyday life practices.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. Literature majors must satisfy the Disciplinary Communication requirement by passing Literature 101.

Comprehensive Requirement

Students must successfully complete Literature 101 before taking any comprehensive requirement.

Seniors must select one of the following options to satisfy the campus exit requirement:

- Senior seminar. The senior seminar may be counted as one of the required upper-

division courses. The senior seminar need not be in the student's area of concentration. Several senior seminars are offered each quarter; extensive writing is required in all seminars.

- Senior thesis. A student who wishes to propose a senior thesis (30–40 pages) must apply to a Literature Department faculty sponsor at least two quarters before the projected date of graduation. The application must include a proposed subject, a brief outline, a bibliography, and a sample of previous written work. Only those students who have received written permission from a faculty supervisor may complete a thesis to satisfy the senior exit requirement. A student whose application has been approved may receive course credit toward the major for one independent study (course 195) in a literature concentration.

For students in the creative writing concentration, a creative writing project under the supervision of a faculty member (Literature/Creative Writing 194 or 195) is required.

The Literature Minor

The minor in literature requires seven courses.

Two lower-division courses are required:

- Literature 1, Literary Interpretation: close reading and analysis of literary texts
- One Literature 61-series course: categories, methodologies, and problems of literary study, or one Literature 80-series course: topical, thematic, and comparative studies of literary texts

Five upper-division courses are required:

- Literature 101, Theory and Interpretation
- Four other upper-division literature courses (except Creative Writing)

The Literature minor does not require second-language proficiency or a senior seminar.

General Information

Transfer Credit

A student may petition to receive credit toward the lower-division requirements of the major or minor for up to two courses taken at other institutions. An introduction to literature course may be used to satisfy the Literature 1 course requirement. Any other literature course may be applied toward the Literature 61 or the Literature 80 course requirement.

Transfer students planning to major in literature are urged to complete the equivalent of one year of college-level study of a language other than English before entering UCSC.

Creative Writing Courses

Any qualified student may take creative writing courses for credit toward graduation. Only students accepted into the creative writing concentration, however, may use Literature/Creative Writing 180, 183, 194, and 195 to satisfy major requirements.

Credit For Repeated Courses

Courses that vary significantly in material or methodology from one presentation to the next may be repeated for credit and are so designated in the course description in the UCSC General Catalog.

Advising

Faculty advisers are available in the Literature Department office throughout each academic term; students may make appointments in advance to meet with them. Staff advisers are available by appointment and on a drop-in basis. Students are encouraged to consult with a faculty adviser once a quarter.

Senior Checklist

Three quarters before anticipated graduation, all literature majors must complete a checklist in collaboration with a department adviser. The purpose of the checklist is to

confirm progress toward graduation and the satisfaction of all major requirements. Completion and approval of a senior checklist are required for graduation.

Honors

Honors in the literature major are awarded to graduating seniors who have earned a 3.70 to 3.89 grade–point average in their upper–division literature courses. Highest honors in the literature major are awarded to graduating seniors who have earned a 3.90 or higher grade–point average in their upper–division literature courses. Honors are not awarded in the minor.

Opportunities for Study Abroad

The University of California's Education Abroad Program (EAP) operates study centers in countries throughout the world, all associated with host institutions of high academic standing. EAP serves over 1500 upper–division students from the nine UC campuses every year. Students who participate in a UC Education Abroad Program study year may petition to apply up to three upper–division courses from EAP toward the literature major, or two upper–division courses toward the literature minor.

Latin American and Latino Studies and Literature Combined Major

The departments of Latin American and Latino Studies and Literature offer a combined major. See Latin American and Latino Studies for additional information.

The Graduate Programs

The Doctoral Program

The UCSC doctoral program in Literature offers an innovative multilingual and multidisciplinary approach to literary studies. The program is relatively small and students work closely with faculty throughout their graduate careers. They are encouraged to take advantage of the rich array of intellectual and cultural events, research clusters, and lectures offered on campus.

The doctoral program combines critical and independent thought with multilingual and global perspectives. Students work within and across five areas, each of which cuts across linguistic, national, and period boundaries: technologies of narrative; trans/post/emergent nationalisms; poetics, poetry, and experimental writing; materialism and material culture; and critical theory. In combination they allow students to blend critical approaches, literary traditions, and/or cultural archives in comparative, multilingual, and interdisciplinary projects. Students may elect to participate in cooperative programs between literature and feminist studies, Latin American and Latino studies, or American studies and receive a designated emphasis on their doctoral degree. Applications and requirements are available at the respective department offices.

The program requires significant literary work in two languages. All students are required to complete a minimum of two courses in a second–language literature in which 50 percent or more of the reading is done in the original language. The second literature must serve as a component of the qualifying examination.

The common requirements are:

- Literature 200, Proseminar, to be taken in fall quarter of the first year;
- Literature 201, Pedagogy of Teaching/Teaching Assistant Training, to be taken prior to or in conjunction with the first teaching assistant appointment;
- Twelve courses leading to the definition of an area of concentration. At least two of these must be in a second–language literature; at least one must focus on pre–1750 literature and culture. Up to four courses may be taken in other departments; up to three may be independent studies;
- Literature 291F, a two–credit advising course, each quarter;
- Three quarters of supervised teaching experience;
- The Literature Department's intensive three–week Graduate Summer Language Program or equivalent;

- A qualifying examination (with written, oral, and translation components);
- A prospectus outlining and defining the dissertation project;
- A dissertation (written in conjunction with Literature 299, Thesis Research).

A master of arts (M.A.) degree is conferred upon request to doctor of philosophy (Ph.D.) candidates who have successfully completed the literature Ph.D. qualifying examination or who have completed the coursework required for the doctorate (teaching assistant training and supervised teaching experience exempted) and elect to write a master's thesis under the supervision of a faculty adviser.

More detailed information for prospective graduate students, including procedures for application and admission to graduate studies, examinations, and requirements for the doctor of philosophy degree, is available from the Division of Graduate Studies (<http://graddiv.ucsc.edu>) and on the department web site: <http://literature.ucsc.edu/>.

The Master's Program

A separate master of arts degree program is intended for students whose aim is to deepen and expand their literary/critical training and to prepare for entry into a Ph.D. program at another institution. Priority for admission is given to students interested in underrepresented areas of study within the Literature Department's offerings, such as the non-English language literatures and, more broadly, critical theory.

The M.A. program requirements may not be completed in less than one year; the maximum time to obtain a degree is two years.

The common requirements are as follows:

- Literature 200, Proseminar, to be taken in fall quarter of the first year;
- Seven courses leading to the definition of an area of concentration. Up to two of these may be taken in other departments. One may be an independent study course;
- Literature 291F, a two-credit advising course, each quarter;
- A thesis (written in conjunction with Literature 299, Thesis Research). Typically, a thesis will range in length from 35-50 pages, plus a bibliography.

Though the Literature Department does not normally provide financial support to students pursuing the M.A. degree, teaching assistantships are sometimes available. Admission to the M.A. program does not constitute admission to the Ph.D. program. Students may not automatically transfer from the M.A. program into the Ph.D. program, but must reapply. Further information and application materials are available from the Division of Graduate Studies (<http://graddiv.ucsc.edu>) and on the department web site (<http://literature.ucsc.edu/>).

myth; reception of Greek and Roman texts and artifacts; film; feminist approaches to literature and performance

Susan Gillman
Nineteenth-century American literature and culture; theories of culture, race, and gender; world literature and cultural studies

Wlad Godzich
Theory of literature; philosophy and literature; emergent literature; translation theory; globalization and culture; European integration; knowledge society; literatures of Africa, the Caribbean, Europe (Central, Eastern, and Western), Brazil, Canada; detective and crime fiction; science fiction; medicine and literature

Jody Greene
Seventeenth- and 18th-century British and French literature and culture; pre- and early modern studies; critical theory; gay and lesbian cultural studies; gender studies; history of authorship; history of the book; human property

Kirsten Silva Gruesz
Transnational Americas studies; Chicano/Latino literatures and cultures; 19th-century U.S. and Latin American literature; poetry; history of the book; reading and literacy; bilingualism

Margo Hendricks, Emerita

John O. Jordan
Dickens; Victorian literature and culture; the English novel; literature of South Africa; narrative theory

Sharon Kinoshita
Mediterranean studies; medieval Francophone and Mediterranean literature; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Norma Klahn
Latin American literary and cultural studies (specialization: Mexico); Chicano/Latino literature and culture from a cross-border perspective; modernity/postmodernity; poetics and politics; genre theory (novel, poetry, autobiography); contemporary critical theories (i.e., border, ethnic, feminist, transnational/global)

Kimberly J. Lau
Feminist theory; fairy tale studies; virtual worlds; social fictions; discourse analysis and ethnographic methods

H. Marshall Leicester, Jr.
Psychoanalysis; poststructuralism; gender theories; theory of cultural change; cultural studies and popular culture: opera, film, American country music

John P. Lynch, Emeritus

Nathaniel E. Mackey, Emeritus

Tyrus Miller
Modernist, avant-garde, and postmodernist literature; the interrelations of the arts in the 20th century; aesthetics theory; communist and post-communist society, intellectual history, and culture, especially in East-Central and Southern Europe; cinema and film theory; the Frankfurt School; György Lukács; contemporary poetry and language arts

Lourdes Martinez-Echazabal
Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora; critical race theory

Helene Moglen, Emerita

Madeline Moore, Emerita

Micah Perks

Reading and writing contemporary fiction; memoir and historical fiction; alternative communities

Juan Poblete

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th-century studies; the history of reading practices

Daniel Selden

Afroasiatic languages and literatures; Greek and Latin; Hellenistic culture; the classical tradition; history of criticism; literary theory

Priscilla W. Shaw, Emerita

Deanna Shemek

Early modern Italian literature and culture; Renaissance feminism; humanism and gender production; letter-writing and epistolary culture; early modern literacy; historical "ideas of the Renaissance," Renaissance drama; the northern court circles

Paul N. Skenazy, Emeritus

S. Page Stegner, Emeritus

Richard Terdiman, Emeritus

Georges Van Den Abbeele

Early modern French philosophy, literature, and culture; Francophone literature; travel narrative and tourism studies; relations between philosophy and literature; poststructuralist and postmodernist critical theory; film and film theory; East-West literary relations; West Coast regional history and literature

Thomas A. Vogler, Emeritus

Michael J. Warren, Emeritus

Rob Wilson

Transnational and postcolonial literatures; especially as located in Asia/Pacific emergences as posited against American empire of globalization; cultural poetics of America; the sublime; Longinus to Hiroshima; mongrel poetics of experimental writing, especially poetry

Karen Tei Yamashita

History and anthropology of Japanese immigration to Brazil; Asian American literature; modern fiction; playwriting

Associate Professor

Vilashini Cooppan

Postcolonial studies; comparative and world literature; literatures of slavery and diaspora; globalization studies; cultural theory of race and ethnicity

Sean Keilen

Shakespeare; Ovid; the classical tradition; early British literature; Renaissance humanism; poetry and poetics, imitation; theory of literature; interpretation and its history; the division of the arts and sciences; creative criticism; literature and the fine arts; literature and ethics; psychoanalysis; the passions; the senses; beauty

Loisa Nygaard

Eighteenth- and early 19th-century German literature; Goethe; Romantic fiction; landscape and landscape aesthetics; xenophobia in Germany

Assistant Professor

Dorian Bell

Nineteenth- and 20th-century French literature and intellectual history; histories of empire and anti-Semitism; literature and science; film studies; digital humanities

A. Hunter Bivens

Twentieth- and 21st-century German literature and film; Marxism and critical theory; psychoanalysis; lyric poetry; literary realism; the novel

Christopher Chen

Twentieth- and 21st-century African American literature; Asian American literature; 20th- and 21st-century poetry in the U.S.; comparative ethnic literary studies and theory; literary formalisms and comparative racialization; contemporary poetics and politics

Christine Hong

Asian American literature and cultural criticism; African American literature and black freedom studies; Korean diasporic cultural production; Pacific Rim studies; postcolonial theory; critical race theory; human rights discourse; law and literature; narrative theory; film and visual studies

G.S. Sahota

Postcolonial studies, world literature; Indian literary and intellectual history (especially in Urdu, Sanskrit, Punjabi, Hindi, and English); religion and modernity (Islam, Hinduism, Sikhism); romanticism; Marxism; translation

Professor

Charles W. Hedrick Jr. (History)

Greek and Roman history; epigraphy; historiography; political theory

Forrest G. Robinson (Humanities)

Nineteenth- and 20th-century American literature; including Mark Twain; the American West; and popular culture; biography and American culture theory Associate Professor

Anjali Arondekar (Feminist Studies)

South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th-century interdisciplinary studies

Senior SOE Lecturer

Gildas Hamel (History)

History of Israel; Hebrew and Greek bible; Hellenistic and Roman Palestine and Christianity; social history of the ancient world; history of technology; classical languages; Celtic cultures

Lower–Division Courses

1. Literary Interpretation. F,S

Close reading and analysis of literary texts, including representative examples of several different genres and periods. An introduction to practical criticism required of all literature majors; should be completed prior to upper–division work in literature. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to first–year students and sophomores, or literature and proposed literature majors and literature minors. (General Education Code(s): TA, IH, W.) V. Cooppan, W. Godzich

42. Student–Directed Seminar. F,W,S

Seminars taught by upper–division students under faculty supervision. (See course 192.) The Staff

61. Introduction to Literary Genres.

61J. Introduction to Jewish Literature and Culture. *

Surveys 3,000 years of Jewish literature and culture. Themes include origins of the Jews in the ancient world; formation and persistence of the Jewish diaspora; coherence and diversity of Jewish experience; Jewish narrative and textual traditions; interaction between Jews and other cultures; tensions between tradition and modernity. (General Education Code(s): ER, IH, E.) M. Baumgarten

61M. Approaches to Classical Myth. S

Introduction to Greek myths, including selected ancient texts and visual artifacts, historical and cultural context of their creation and reception, modern theoretical approaches such as structuralism and psychoanalysis, and interpretations in various media. (General Education Code(s): TA, IH.) M. Gamel

61P. Introduction to Reading Poetry. F

An introduction to selected modes and forms of poetry with an emphasis on close textual analysis. Examples will be taken from different historical periods and poetic traditions. Course topics changes; please see the Schedule of Classes for the current topic. (General

80. Topics in Literature.

80I. Topics in American Culture. *

A history of one or more cultural genres in written, visual, and/or musical forms. Course topic changes; please see the Schedule of Classes for the current topic. (General Education Code(s): T4–Humanities and Arts.) F. Robinson

80L. The Holocaust: The Destruction of European Jewry. W

Focus is on the destruction of the Jews of Europe by Nazi Germany. Issues are historically grounded, and include works of literature, social sciences, philosophy, and film. (Also offered as History 80W. Students cannot receive credit for both courses.) (General Education Code(s): ER, T4–Humanities and Arts, E.) M. Baumgarten, P. Kenez

80N. Latino Expressions in the U.S. F

An introduction to Latino literature and culture in the U.S. A study of the creative expressions of Chicanos/as, Nuyoricans, Cuban Americans, and other Latin Americans in the U.S. (General Education Code(s): ER, T4–Humanities and Arts, E.) K. Gruesz

80V. Literature and History. *

Examines literature's relationship to the past and to the experience of history. Course topic changes; please see the Schedule of Classes for current topic. (General Education Code(s): T4–Humanities and Arts.) The Staff

80Z. Introduction to Shakespeare. *

Study of representative plays. No previous experience with Shakespeare is assumed. (General Education Code(s): TA, T4–Humanities and Arts.) The Staff

99. Tutorial. F,W,S

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. The Staff

Upper–Division Courses

101. Theory and Interpretation. W,S

Contemporary approaches to literary and cultural theory, with emphasis on how theoretical perspectives advance and broaden the reading of literary texts. Introduction to important new theoretical developments and their antecedents. Literature majors should complete this course as early as possible. Course topic changes; see the Schedule of Classes for current topic. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to literature and proposed literature majors and literature minors. May be repeated for credit. (General Education Code(s): W.) D. Bell, J. Greene

102. Translation Theory. W

Promotes the understanding of translation and its role in redefining meanings across epochs and cultures, in establishing common norms, and in advancing mutual intelligibility; but also providing encounters with absolute alterity. Actual translations are used as case studies. One year of college–level, non–English language study or the equivalent reading ability in a non–English language required. (General Education Code(s): TA.) S. Gillman

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. The Staff

Graduate Courses

200. Proseminar. F

The proseminar provides a common experience for entering students, facilitates exchange of ideas and approaches to literary and extra–literary texts, critical issues, and theoretical problems. It focuses on broad aspects of the history of theory and criticism, on the students' critical writing, and on aspects of professional development. Enrollment

restricted to graduate students. C. Freccero

201. The Pedagogy of Literature (1 credit). F
Provides training for graduate students in university–level pedagogy in general and in the pedagogy of literature specifically. Coordinated by a graduate student who has had substantial experience as a teaching assistant, under the supervision of a faculty member. Enrollment restricted to graduate students. May be repeated for credit. S. Gillman

202. Colloquium (2 credits). F,W,S
Student receives credit for attending a designated number of freestanding lectures, colloquia, symposia, or conferences during the term and reports orally, or in writing, to instructor. Enrollment restricted to graduate students. May be repeated for credit. The Staff

204. Readings in Literature (2 credits). *
Focuses on selected texts or authors in literature and/or theory. Students meet with instructor to discuss readings and deepen their knowledge on a particular author, critic, theorist, or text. Enrollment restricted to graduate students. May be repeated for credit. The Staff

205. Dissertation Writing Practicum (2 credits). *
Introduces the methods and practice of dissertation writing in literature. Workshop format. Meets one hour per week. Enrollment restricted to graduate students. May be repeated for credit. The Staff

291F. Advising (2 credits). F,W,S
Independent study formalizing the advisee–advisor relationship. Regular meetings to plan, assess, and monitor academic progress and to evaluate course work as necessary. May be used to develop general bibliography of background reading and trajectory of study. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study.
Independent Study. The Staff

297F. Independent Study (2 credits). F,W,S
Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

Creative Writing

Lower–Division Courses

10. Introduction to Creative Writing. F,W,S
Introduction to the crafts and techniques of poetry, fiction, and creative non–fiction, identifying and exploring traditional and non–traditional literary forms and genres while working on individual creative writing projects. An author reading and two workshop sections per week. Prerequisite: satisfaction of the Entry Level Writing requirement. Enrollment restricted to first–year students, sophomores, and juniors. May be repeated for credit. (General Education Code(s): PR–C, A.) The Staff

52. Intermediate Fiction Writing. F,W,S
An intermediate–level course in fiction designed for prospective creative writing majors. Prerequisite(s): submission of writing at first class meeting. May be repeated for credit. (General Education Code(s): PR–C, A.) (F) R. V. Wilson, (WS) M. Perks

53. Intermediate Poetry Writing. F,W,S
An intermediate–level course in poetry designed for prospective creative writing majors. Prerequisite(s): submission of writing at first class meeting. May be repeated for credit. (General Education Code(s): PR–C, A.) (S) R. J. Wilson, (FW) G. Young

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. The Staff

Upper-Division Courses

170. Methods and Materials. F,W,S

Focuses on a particular process or subject used in the production of a literary text. Course is intended to work as a bridge between invention and scholarship. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the Creative Writing Literature concentration. Enrollment restricted to creative writing literature majors. May be repeated for credit. (General Education Code(s): A.) (F) R. V. Wilson, (WS) R. J. Wilson, (S) M. Sanders-Self

180. Advanced Writing: Fiction. F,W,S

Intensive work in writing fiction. Satisfies the Creative Writing Literature concentration. Enrollment restricted to creative writing literature majors. May be repeated for credit. (General Education Code(s): A.) (W) M. Perks, (FS) The Staff

183. Advanced Writing: Poetry. F,W,S

Intensive work in writing poetry. Satisfies the Creative Writing Literature concentration. Enrollment restricted to creative writing literature majors. May be repeated for credit. (General Education Code(s): A.) (W) G. Young, (FS) R. V. Wilson

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) The Staff

194. Creative Project Seminar. S

Seminar offered to senior literature majors in the creative writing concentration as a way to satisfy the senior exit requirement. All students are required to complete a creative writing project of significant length as part of the seminar course work. Attention is given to focusing of creative topics, review of work in progress, work rhythms, and revision. Prerequisite(s): literature 101. The Staff

194A. Poetry Senior Seminar. S

Satisfies the Creative Writing Literature concentration; also satisfies the senior seminar distribution requirement. (Formerly Poetry.) Prerequisite(s): Literature 101. Enrollment restricted to senior creative writing literature majors. G. Young

194B. Fiction Senior Seminar. S

Satisfies the Creative Writing Literature concentration; also satisfies the senior seminar distribution requirement. (Formerly Fiction.) Prerequisite(s): Literature 101. Enrollment restricted to senior creative writing literature majors. M. Perks

195. Senior Essay. F,W,S

Satisfies the Creative Writing Literature concentration; also satisfies the Creative Writing senior exit distribution requirement. Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. Enrollment restricted to senior creative writing literature majors. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

103A. British Literature and Culture to 1740. *
Literature and society to 1740. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern Studies distribution requirement. May be repeated for credit. (General Education Code(s): TA.) The Staff

103E. Studies in Romanticism. *
A survey of major romantic themes and authors between 1780 and 1820. Explores relationships to preromantic and postromantic authors. The main goal is to achieve familiarity with a wide range of individual poems in the general context of romanticism. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. (General Education Code(s): TA.) H. Leicester

103J. Contemporary American Literature. W
A selective examination of major writings since WWII, with attention to both literary issues and historical context. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. The Staff

110. Prose.

110A. Studies in the English Novel. *

From the 18th to the 20th century. Texts include work by Fielding, Austen, Bronte, Dickens, Conrad, and Woolf. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): TA.) M. Baumgarten

110C. The 19th-Century English Novel. F
The 19th-century novel: Austen to Bronte. Satisfies the English and Modern Literary Studies concentrations. J. Jordan

120. Poetry.

120A. Poetry of the 17th Century. *
Readings in the works of Donne, Jonson, Herbert, Herrick, Marvell, and others. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre- and Early Modern distribution requirements. The Staff

120B. Victorian Poetry. W
A reading of the major Victorian poets from Tennyson to early Yeats. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. (General Education Code(s): TA.) J. Jordan

120C. Nineteenth-Century American Poetry. W
The major figures and important movements from Poe to Emerson through Whitman and Dickinson. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. K. Gruesz

120F. American Poetry Since World War II. *
Major poets since World War II, with attention to leading movements and critical issues. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. C. Chen

130B. English Drama: 1576-1642. *

Study of representative plays. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. The Staff

140. Visual Media/Popular Culture.

140C. The Films of John Carpenter. W

Study of development and central themes of preeminent genre director of the "post-Hollywood" era, concentrating on central core of major works in horror/science fiction genres from Halloween to In the Mouth of Madness, with attention to the comedies and action films. Satisfies the English and Modern Literature concentrations. H. Leicester

150. Ethnic Writing.

150A. Afro-American Literature. S

Examination of Afro-American writing and cultural representations, with attention to the historical, cultural, and general literary contexts out of which they emerged and upon which they commented. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. (General Education Code(s): ER, E.) C. Chen

150C. Asian American Literature. *

Examination of Asian American literary works (fiction, poetry, dramatic essays) in the context of the historical presence of Asian Americans in the United States from the 1850s. Emphasis on comparison of select works from ethnic Asian writings. Satisfies the English and Modern Literature concentrations. (General Education Code(s): ER, E.) K. Yamashita

155. Regional Writing.

155B. Regions in American Literature. F

Examines development of regional writing in the U.S. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. R. J. Wilson

160. Transnational Writing.

160B. Empire and After in the Anglophone Novel. S

Examines fiction written in English, 1883 to 1948, in order to consider the complex relations--complicit, resistant, both--between literary and imperialist discourses. Likely novelists for study are Schreiner, Haggard, Conrad, Kipling, Forster, Hilton, Paton. Satisfies the English and Modern Literary Studies concentrations. (Formerly Empire and After in the British Novel.) May be repeated for credit. V. Cooppan

170. Individual Authors.

170A. Geoffrey Chaucer. S

Close study of Chaucer's poetry, with some attention to relevant cultural, philosophical, and historical issues in the context of the late medieval period. Particular emphasis on The Canterbury Tales. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre- and Early Modern distribution requirements. (General Education Code(s): TA.) H. Leicester

170C. William Shakespeare. F

Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. May be repeated for credit. (General Education Code(s): TA.) S. Keilen

170D. John Milton. *

Selected poetry and prose. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre- and Early Modern distribution

requirements. H. Leicester

170F. Charles Dickens. *

Study of representative work by Charles Dickens. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. (General Education Code(s): TA.) J. Jordan

170G. Herman Melville. W

Study of representative work by Herman Melville, including novels and short stories. Satisfies the English and Modern Literary Studies concentrations. F. Robinson

170H. Emily Dickinson. *

Focuses on Emily Dickinson's letters and poems with emphasis on genre, audience, art and the erotic, and on current textual editing issues. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. (Formerly Dickinson and American Women Poets.) (General Education Code(s): TA.) The Staff

180. Topics.

180B. The Gothic Imagination in Fiction, Film, and Theory. W

Readings include theoretical essays by Freud and Lacan and such fictions as "The Monk," "Frankenstein," "Dracula," "Maus," "The Yellow Wallpaper," and "Beloved." Films change each year, but may include "Alien" and "Blue Velvet." Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): TA.) H. Moglen

190. Senior Seminars. F

190A. Individual Authors. W

Intensive examination of works by individual authors. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English Literature concentration; also satisfies the Senior Seminar distribution requirement. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. S. Keilen, H. Leicester

190K. Studies in Poetry. W

Studies in English-language poetry. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English concentration; also satisfies the Poetry and senior seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. R. J. Wilson

190L. Studies in English Language Literature. F,S

Studies of selected authors or issues in English language literature. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English Literature concentration; also satisfies the senior seminar distribution requirement. Prerequisite(s): Literature 101. Enrollment restricted to senior Literature majors. C. Chen, V. Cooppan

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Students submit petition to sponsoring agency. Prerequisite(s): Literature 101. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Modern Literary Studies

Upper-Division Courses

125. Modern Cinema.

125J. Cinema and Subjectivity. S

An examination of the ways in which the technological and institutional practices of cinema construct modes of modern and contemporary subjectivity. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. D. Selden

125N. The Horror Film. *

Shifting definitions of horror in the movies from the late silent period to the present through close analysis of representative films and critical texts. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration. (General Education Code(s): IM.) H. Leicester

144. Modern Jewish Cultures.

Modernity transformed Jewish culture: we will explore the ways in which changed social, political, and economic conditions produced new gender roles; professional, personal, communal, and cultural experiences; and generated powerful fictions, autobiographies, films and poems. Among the writers we will read are Isaac Bashevis Singer, Rebecca Goldstein, Saul Bellow, Martin Buber, Hannah Arendt, and S.Y. Agnon. The Staff

144A. Jewish Diaspora, Ethnicity, and Urban Life. *

Focuses on modern Jewish diaspora, ethnicity, and urban life. Satisfies the Modern Literary Studies concentration. (General Education Code(s): ER, E.) B. Thompson

144D. Jewish Writers and the American City. S

An examination of some major Jewish writers and their responses to the American city. Major writers: Henry Roth, Saul Bellow, Bernard Malamud, J. Kaplan, Philip Roth. A look at Yiddish and other minority writers, and including sociological and historical materials on the American city. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): ER, E.) B. Thompson

144H. Jewish Writers and the European City. F

Interrogates the master narrative of a specific European city and discusses the ways in which Jewish life and Jewish actions helped to shape that story and were shaped by it. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. (General Education Code(s): ER.) M. Baumgarten

144J. Jewish Travel Narratives. W

Exploration of the idea of the Diaspora as a "moving" condition, and of the multi-dimensional character of global Jewish culture, covering authors who traveled across the Jewish world from medieval times to the present. Satisfies the Modern Literary Studies and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. M. Baumgarten

145. Special Topics in Modern Literature.

145A. Modern Poetry. F

Survey of modern poetry; includes a variety of poetic forms. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration; also satisfies the Poetry distribution requirement. May be repeated for credit. (General Education Code(s): TA.) L. Peacock

145B. Modern Literature. S

Study of 19th- and/or 20th-century literature, with attention to its literary and historical context. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. (General Education Code(s): TA.) L. Martinez-Echazabal

145C. Modern Fiction and Poetry. F

Survey of modern fiction and poetry. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration; also satisfies the Poetry distribution requirement. May be repeated for credit. The Staff

145H. Detective Fiction. *

Representative works of 19th- and 20th-century detective fiction, including works by Poe, Conan Doyle, Christie, Sayers, Hammett, Chandler, P.D. James, Paretsky, and others. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): TA.) J. Jordan

167. German Authors in Translation.

167G. Goethe's "Faust". F

An intensive study of Goethe's "Faust," Parts I and II. All works are read in English. Satisfies the Modern Literary Studies concentration; also satisfies the Poetry distribution requirement. L. Nygaard

168. German Literature in Translation.

168D. Germany in War and Peace. *

Study of selected texts reflecting German society at war or in that ambiguous state called "peace." Attention is given to the place of literature in German cultural life and its special role in the formation of national identity. Satisfies the Modern Literature concentration. L.

Nygaard

180. Latin American Literature in Translation.

180A. Contemporary Mexican Narrative. W

Examines 20th and 21st century Mexican literature, with attention to literary critical issues as they relate to cultural, historical, and political contexts. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. (Formerly The Mexican Narrative.) Offered in alternate academic years. (General Education Code(s): E.) N. Klahn

190. Senior Seminar.

Seminar offered to literature majors as a way to satisfy the senior exit requirement. Offered at different times by different instructors, focus is on topics of interest in modern literary studies. All students are required to complete an essay of significant length as part of the seminar course work. Prerequisite: Literature 101. May be repeated for credit. The Staff

Read substantial portion of Proust's "In Search of Lost Time" in English translation and examines important body of contemporary criticism on Proust that both illuminates the novel and raises significant critical and theoretical issues. Satisfies the Modern Literary Studies concentration; also satisfies the Senior Seminar distribution requirement. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. R. Terdiman

190N. Topics in Modern Literary Studies. F,W,S

Selected authors or issues in modern literary and cultural studies. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration; also satisfies the Senior Seminar distribution requirement. Prerequisite(s): literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. M. Baumgarten, D. Bell, J. Jordan

190Y. Topics in Modern Jewish Literature and Culture. F

Study of selected authors or issues related to modern Jewish literature and culture. Topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration; also satisfies the senior seminar distribution requirement. Jewish Studies majors may use this course to satisfy the Jewish Studies senior exit requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and Literature 101 (for senior literature majors) or Jewish Studies 101 (for senior Jewish studies majors). May be repeated for credit. B. Thompson

190Z. Topics in German Literature and Culture. S

Study of selected authors or issues related to German literature and culture. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration; also satisfies the senior seminar distribution requirement. German studies majors may use this course to satisfy the German studies senior exit requirement. Prerequisite(s): Literature 101 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior German studies and literature majors. May be repeated for credit. L. Nygaard

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Satisfies the Modern Literary Studies concentration; also satisfies the Modern Literary Studies senior exit distribution requirement. Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. Enrollment restricted to senior literature majors. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. The Staff

Graduate Courses

231. Studies in Literary and Cultural History. F,W

Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. (F) A. Bivens, (F) N. Deutsch, (W) W. Godzich

280. Topics in Theory. W

Explores issues arising in both the modern practice of criticism and in writings on the theory of criticism. Course topic changes; please see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. D. Selden

287. Modern Literary Studies (2 credits). *

Course topic changes; please see the Schedule of Classes for the current topic. Enrollment restricted to graduate students. May be repeated for credit. The Staff

288. Modern Literary Studies (3 credits). *

Course topic changes; please see the Schedule of Classes for the current topic. Three-credit seminar which is companion to the two-credit course 287, Modern Literary Studies. Prerequisite(s): concurrent enrollment in course 287. Enrollment restricted to literature graduate students. Enrollment limited to 12. May be repeated for credit. The Staff

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. The Staff

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

Pre- and Early Modern Literature

Upper-Division Courses

102. Ancient Literature in Cross-Cultural Perspective. W,S

Comparative approaches to the study of ancient literature and culture. Topic changes; see the Schedule of Classes for current topic. Satisfies the Pre- and Early Modern and World Literature concentrations; also satisfies the Global and Pre- and Early Modern distribution requirements. May be repeated for credit. (General Education Code(s): CC.) S. Keilen, G. Hamel

107A. Reading Egyptian Hieroglyphs, Part 1. F

Introduction to Egyptian hieroglyphs as a graphic, conceptual, and communicative system.

Covers the basic elements of classical Egyptian grammar, drawing primarily on inscriptions from extant Egyptian monuments. Students read one prose and one poetical text from the Middle Kingdom. Satisfies the Pre- and Early Modern Studies and World Literature concentrations; also satisfies the Global and Pre- and Early Modern distribution requirements. Strongly recommended: two years previous study of a foreign language at the college level or the equivalent. (General Education Code(s): CC.) D. Selden

107B. Reading Egyptian Hieroglyphs, Part 2. W

Advanced Middle Egyptian grammar (2 weeks). Close reading of the Tale of Sinuhe in Egyptian, selected hymns and love poetry from the New Kingdom. Satisfies the Pre- and Early Modern Studies and World Literature concentrations; also satisfies the Global, Pre- and Early Modern, and Poetry distribution requirements. Together, Egyptian Hieroglyphs 1 and 2 fulfill the language requirements for the intensive major. Prerequisite(s): course 107A or permission of instructor. (General Education Code(s): CC.) D. Selden

107C. Reading Egyptian Hieroglyphs, Part 3. S

Close reading of the *Tale of Sinuhe* in Middle Egyptian. Satisfies the Pre- and Early Modern Studies and World Literature concentrations; also satisfies the Global, Poetry, and Pre- and Early Modern distribution requirements. Prerequisite(s): course 107A and 107B. D. Selden

123. The Comedy of Sex on Stage and Screen. *

Surveys the theory and practice of comedy in several contexts and media including stage, film, and television, with special attention to questions of gender and sexuality. Texts include Aristophanes, Plautus, Shakespeare, Moliere, Orton, Chaplin, Seinfeld, Freud, Bakhtin. Satisfies the Pre- and Early Modern Studies and Modern Literary Studies concentrations; also satisfies the Pre- and Early Modern distribution requirement. (General Education Code(s): IM.) M. Gamel

128. Medieval Epic. *

Medieval reworkings of stories and motifs drawn from the "barbarian" or Germanic tradition including Beowulf, The Song of Roland, Nibelungenlied, Snorri Sturlason: King Harald's Saga from Heimskringla, and Njal's Saga. Satisfies the Pre- and Early Modern Studies Literature concentration; also satisfies the Poetry and Pre- and Early Modern distribution requirements. H. Leicester

134. The Idea of Poetry. *

Focus is on the theories of rhetoric and poetry written between 1580 and 1620. Texts include English, Italian, French, and Spanish works. Satisfies the Pre- and Early Modern Studies concentration; also satisfies the Poetry and Pre- and Early Modern Studies distribution requirements. (General Education Code(s): TA.) The Staff

144. Pre- and Early Modern Jewish Cultures.

144B. Hebrew Bible. *

Introduction to textual, source, redaction, historical, and literary criticism of individual books of the Hebrew Bible and to exegesis as science and ideology. Covers texts and iconography of neighboring mythological traditions (Mesopotamian, Ugaritic, Egyptian, Greek) when appropriate. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Pre- and Early Modern Studies Literature concentration; also satisfies the Pre- and Early Modern distribution requirement. May be repeated for credit. (General Education Code(s): TA.) N. Deutsch

146. The Phenomenon of Tragedy. F

Examines the theory of tragedy from Aristotle to Nietzsche, while inviting students to read and discuss classic dramatic pieces to which the label "tragedy" was applied. Relies on student presentations and contributions, and teaches skills both in handling theory and in practical literary criticism. Satisfies the English and Pre- and Early Modern Studies literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. A. Heald

150. Pre- and Early Modern Literature in Translation.

150B. Early Modern Italian Women Writers. W

In early modern Italy several factors converged to foster a boom in women's writing and publication. Course addresses the context and content of these writings, dealing with key theoretical and historical issues surrounding women's entry into authorship in Europe. Knowledge of Italian not required. Satisfies the Pre- and Early Modern Studies concentrations; also satisfies Pre- and Early Modern distribution requirements. D. Shemek

150C. Italian Renaissance. *

Study of Renaissance in Italy as concept and educational/artistic revolution, with special attention to literary works and to dialogue among the arts and sciences. Authors vary but may include Boccaccio, Petrarch, Machiavelli, and Michelangelo. Satisfies the Pre- and Early Modern Studies concentration; also satisfies Pre- and Early Modern distribution requirement. D. Shemek

152. Continental Renaissance. F

Introductory survey of great prose writings of the continental Renaissance in their cultural and historical contexts. Authors include: Machiavelli, Castiglione, Erasmus, Rabelais, Montaigne, and Cervantes. Satisfies the Pre- and Early Modern Studies concentration; also satisfies the Pre- and Early Modern Studies distribution requirement. A. Heald

154. The Seventeenth Century. *

Discussion of selected major works of 17th-century European literature in their historical and philosophical context. Satisfies the Pre- and Early Modern Studies concentration; also satisfies the Pre- and Early Modern Studies distribution requirement. W. Godzich

160. Studies in Early Modern Theater. *

Examines early modern theories of theatricality, cultural, and social values. Satisfies the Pre- and Early Modern Studies Literature concentration; also satisfies the Pre- and Early Modern distribution requirement. May be repeated for credit. The Staff

162. Early Modern Representations of Gender. S

Explores representation of gender in early modern literature, with attention to contemporary aesthetic, cultural, and theoretical contexts. Texts include drama, poetry, and prose. Satisfies the Pre- and Early Modern Studies concentration; also satisfies the Pre- and Early Modern distribution requirement. (Formerly Renaissance Versions of Gender.) May be repeated for credit. The Staff

165. Classical Poetics in Elizabethan Verse. S

An introduction to Elizabethan poetry and poetics, with emphasis on shorter lyrics (sonnets, ballads, etc.), pastoral, erotic epyllia, devotional poetry, etc. Examines various Classical and Continental strains of influence at play in the production of English verse in the later 16th century, including Classical rhetoric, Ovidian mythology, and Petrarchanism. S. Keilen

190. Senior Seminar.

Seminar offered to literature majors as a way to satisfy the senior exit requirement. Offered at different times by different instructors, focus is on topics of interest in pre- and early modern studies. All students are required to complete an essay of significant length as part of the seminar course work. Prerequisite: Literature 101. May be repeated for credit. The Staff

190C. Frame Tale Fictions. *

Introduces several major works of world literature through their shared employment of the frame tale. Topics: permutations of stories as they pass from collection to collection, frame's narrative structure, meaning of storytelling within such collections. Readings: *The Arabian Nights*, *The Decameron* and selected modern texts. Satisfies the Pre- and Early Modern Literature concentration; also satisfied the Pre- and Early Modern and Senior Seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. D. Shemek

190P. Topics in Pre- and Early Modern Studies. *

Examination of individual authors or critical problems in ancient, medieval, or early

modern/Renaissance literature. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Pre- and Early Modern Literature concentration; also satisfies the Pre- and Early Modern and Senior Seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. The Staff

190Y. Topics in Pre- and Early Modern Jewish Literature and Culture. *

Study of selected authors or issues related to pre- and early modern Jewish literature and culture. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Pre- and Early Modern Studies Literature concentration; also satisfies the Pre- and Early Modern Studies and senior seminar distribution requirements. Jewish studies majors may use this course to satisfy the Jewish studies senior exit requirement. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition requirements; and Literature 101 for literature majors, or Jewish Studies 101 for Jewish studies majors. Enrollment restricted to senior Jewish studies and literature majors. The Staff

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

223. Italian Epic. *

Examines Italy's epic tradition against backdrop of its political and cultural history. Readings may include (subject to availability) Pulci's Morgante, Boiardo's Orlando Innamorato, Ariosto's Orlando Furioso, and Tasso's Gerusalemme Liberata. Reading knowledge of Italian highly recommended. Enrollment restricted to graduate students. The Staff

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. The Staff

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

Russian Literature

Upper-Division Courses

199. Tutorial. F,W,S

Speaking, reading, and writing proficiency in Russian required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Speaking, reading, and writing proficiency in Russian required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Spanish Literature

Lower-Division Courses

60. Introduction to Literary Genres. F

Speaking, reading, and writing proficiency in Spanish required. The study of poetry, drama, and prose in Spain and Latin America. (General Education Code(s): TA, IH, E.) J. Aladro Font

Upper-Division Courses

102. Introduction to Hispanic American Literature.

102A. From the Conquest to Sor Juana. *

Speaking, reading, and writing proficiency in Spanish required. A study of Hispanic American literature from the chronicles of the conquest through the 17th century. Readings deal with transformations in both the idea of empire and the rights of the conquered. Includes the works of Colon, Cortes, El Inca Garcilaso de la Vega, Sor Juana Ines de la Cruz, and others. Satisfies the Global, Pre- and Early Modern Studies, Spanish and World Literature concentrations; also satisfies the Global and Pre- and Early Modern distribution requirements. (General Education Code(s): CC.) The Staff

102B. Romanticism to Modernism. *

Speaking, reading, and writing proficiency in Spanish required. Follows the literary manifestations of the growing consciousness of the Latin American writer: discovery of native themes, imitation of European models, search for a "new language" literally and figuratively. Relates historical events with literary movements. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) The Staff

103. Sor Juana Ines de la Cruz. W

Speaking, reading, and writing proficiency in Spanish required. An in-depth examination of the life and work of Sor Juana Ines de la Cruz, a 17th-century nun, poet, playwright, and woman of genius and intellectual prowess whose ideas and accomplishments were ahead of her time. Satisfies the Pre- and Early Modern Studies and Spanish Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. J. Aladro Font

130. Studies in Latin American Literary Genres.

130F. U.S. Latino/a Writing in Spanish/English and Spanglish. *

Speaking, reading, and writing proficiency in Spanish required. Spanish-based, English/bilingual inclusive overview of Latino/a writing in the U.S. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): ER, E.) J. Poblete

131. National Literatures of Latin America.

Speaking, reading, and writing proficiency in Spanish required. A study of the literary expression of a particular Latin American country or region, with texts representing a variety of authors, periods, and genres. The Staff

131A. Mexico. *

Speaking, reading, and writing proficiency in Spanish required. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global

distribution requirement. (General Education Code(s): CC, E.) N. Klahn

131H. Cuba. S

Speaking, reading, and writing proficiency in Spanish required. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) L. Martinez-Echazabal

134. Special Topics in Latin American Literature.

134G. Popular Culture in Latin American Narrative. *

Speaking, reading, and writing proficiency in Spanish required. Explores short stories and novels that have been greatly influenced by popular culture, not only in theme, but also by appropriation of popular forms of language and modes of representation. Includes works by authors from Mexico, Argentina, Cuba, and Colombia. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) J. Poblete

134L. Historia de la lectura y los lectores: Recepción y consumo cultural en el mundo L. Americano. S

Speaking, reading, and writing proficiency in Spanish required. Explores historical readers and reading practices in at least three different formations: colonial, national-popular, and transnational. Proposes a historical-theoretical reconstruction of the place of reading and readers at key moments in the history of culture in Latin America. Satisfies the Modern, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) J. Poblete

134M. Modernidad y literatura: El Boom de la novela latinoamericana. F

Speaking, reading, and writing proficiency in Spanish required. Explores the relationships between literature and mass culture, modernization, and globalization through the study of the so-called Boom of Latin American narrative. Course satisfies the Modern, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) N. Klahn

135. Latin American Cinema.

135C. La Globalización en/del Cine Latin/o Americano. W

Speaking, reading, and writing proficiency in Spanish required. Examines globalization of Latin/o American cinema as a cultural industry. Classical issues of cultural politics and political economy are revisited from the viewpoint of current global processes. Also provides access to the representation of different aspects of globalization in Latin/o American cinema. Course satisfies the Modern, Spanish/Latin American/Latino, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) J. Poblete

135F. Cine y Literatura. *

Speaking, reading, and writing proficiency in Spanish required. Analysis and interpretation of Spanish-language films derived from literary works by Latin American and Spanish authors. Topic changes; see the Schedule of Classes for the current topic. Satisfies the Spanish and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): IM.) L. Martinez-Echazabal

152. Spanish Golden Age Theater. *

Speaking, reading, and writing proficiency in Spanish required. Studies in Spanish Golden Age theater. Satisfies the Pre- and Early Modern Studies and Spanish Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. J. Aladro Font

154. Short Stories of the Spanish Golden Age. F

Speaking, reading, and writing proficiency in Spanish required. Focuses on the prose in the Renaissance period and the different genres that flourished before the creation of Cervantes' Don Quixote. Chosen texts constitute an amalgam of Renaissance ideology, and

provide examples of 16th-century literature, including the picaresque novel, pastoral novel, the Byzantine novel, and the chivalresque novel. J. Aladro Font

195. Senior Essay. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Prerequisite(s): Literature

101. Students submit petition to sponsoring agency. The Staff

198. Group Tutorial. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. The Staff

Graduate Courses

210. Spain in the Eyes/Camera of Pedro Almodovar. S

Contemporary Spain through the camera of Pedro Almodovar from transgressive enthusiasm, experimentation, and cultural disobedience of the 1980s to more universal themes of human nature and borderline experiences in the pursuit of love, relationships, beauty, and art. Enrollment restricted to graduate students. J. Aladro Font

222. Reconstructing Spain. *

Construction of new discourses of "Spanishness" after 1975, their negotiation in the context of European integration/globalization and against historical memories. Enrollment restricted to graduate students. May be repeated for credit. J. Aladro Font

225. Surrealism in the Americas: An Aesthetic in Motion. *

Emerging from a Europe in crisis, this 20th-century avant-garde movement opened a space in Latin/o American literature for the emergence of a post-western aesthetic exploring a cultural identity in difference. A deconstruction of vanguardismo, lo real maravilloso, lo fantastico, lo mitico-antropologico, and realismo magico. Enrollment restricted to graduate students. N. Klahn

226. Teoria Critica en America Latina. *

Overview of contemporary theoretical issues in Latin American cultural critique. Course topic changes; please see the Schedule of Classes for the current topic. Enrollment restricted to graduate students. May be repeated for credit. J. Poblete

230. Citiscapes. F

Theories of space/place poetics and politics, and the literary and visual re-presentations of urban spaces in Latin/o America. Questions of identity and location in modernist poetics, and the ways difference (gender, ethnicity, and sexuality) inhabit and imagine the post-modern lettered city. Enrollment restricted to graduate students. N. Klahn

231. National Literatures of Latin America.

The Staff

231A. Cuba. W

Course topic changes; please see the Schedule of Classes for the current topic. Enrollment restricted to graduate students. May be repeated for credit. L. Martinez-Echazabal

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

World Literature

Upper-Division Courses

109. Topics in Cultural Studies. F,W,S

Studies in the theory of cultural studies. Course topic changes; see the Schedule of Classes for current topic. Satisfies the World Literature concentration; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): E.) (W) E. Smeltzer, (S) K. Lau, (S) A. Bivens, (FW) G. Sahota

115. Modern Literature in a Global Context.

115A. Fiction in a Global Context. *

Comparative examination of fiction in the modern world and of fictional responses to social change and crisis. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): TA.) The Staff

123. The 1960s. S

An interdisciplinary study of the cultural and social movements of the 1960s. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) C. Connery

124. Cultural Theory in Historical Perspective. *

Examination of representations of medieval and early modern Mediterranean history. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Pre- and Early Modern Studies and World Literature concentrations; also satisfies the Global and Pre- and Early Modern distribution requirements. May be repeated for credit. (General Education Code(s): E.) S. Kinoshita

126. Metamorphoses: Pre/Post Modern Transformations. *

Examines transformations between god, human, and animal from ancient literature to medieval, renaissance, modern, and postmodern (especially science) fiction and poetry. Satisfies the Pre- and Early Modern Studies and World Literature concentrations; also satisfies the Poetry, Pre- and Early Modern, and Global distribution requirements. C. Freccero

129. Theorizing Race and Comics. S

Examines comics' origins in the United States' legacies of racial caricature and political cartoons about slavery, Asian exclusion, yellow journalism, and imperial expansion. Analyses of graphic novel's 20th-century evolution around human-rights violations and post-atrocity representational strategies around race, nationalism and minority status. Satisfies the English, Modern Literary Studies, and World Literature concentrations; also satisfies the Global distribution requirement. Enrollment by interview only; course requires an essay application. Enrollment restricted to literature and history of art and visual culture majors. (General Education Code(s): ER.) C. Hong

132. Global Cities. S

Examines cities as social spaces and as local spaces in the global economy and global imaginary. Focus is interdisciplinary, including literature, film, cultural studies, history, and sociology. Topic changes; please see the Schedule of Classes for the current topic.

Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): CC.) C. Connery

133. Culture and Nation. *

Course explores the role of literature and culture in the production of national communities. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. G. Sahota

140. The Historical Imaginary. F

A survey of historical literature in the Americas that examines fictional attempts to re-imagine New World histories. Readings focus on secret or mangled histories, the legacies of slavery and colonialism, gendered critiques of national histories, and US imperialism. Satisfies the Modern and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) S. Gillman

150. World Literature and Cultural Studies Core Sequence.

150A. Worldings. W

How to think about the world as a whole: representations, networks, systems, taxonomies, versions of globalization. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. V. Cooppan

190. Senior Seminar.

Seminar offered to literature majors as a way to satisfy the senior exit requirement. Offered at different times by different instructors; focus is on topics of interest in world literature and cultural studies. All students are required to complete an essay of significant length as part of the seminar course work. Prerequisite(s): Literature 101. The Staff

190A. Topics in World Literature and Cultural Studies. W

Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global and Senior Seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. (General Education Code(s): E.) C. Hong

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201. Theory and Methods. F,W,S

Global theories of history and cultural production. Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. (F) S. Gillman, (W) C. Hong, (S) G. Sahota, (S) J. Greene

209. Topics in Cultural Studies. W,S

Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. C. Connery, S. Kinoshita

295. Directed Reading. F,W,S

Directed reading which does not require a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

[Program Description](#) | [Faculty](#)

Lower-Division Courses

60. Introduction to Literary Genres. F

Speaking, reading, and writing proficiency in Spanish required. The study of poetry, drama, and prose in Spain and Latin America. (General Education Code(s): TA, IH, E.) J. Aladro Font

Upper-Division Courses

102. Introduction to Hispanic American Literature.

102A. From the Conquest to Sor Juana. *

Speaking, reading, and writing proficiency in Spanish required. A study of Hispanic American literature from the chronicles of the conquest through the 17th century. Readings deal with transformations in both the idea of empire and the rights of the conquered. Includes the works of Colon, Cortes, El Inca Garcilaso de la Vega, Sor Juana Ines de la Cruz, and others. Satisfies the Global, Pre– and Early Modern Studies, Spanish and World Literature concentrations; also satisfies the Global and Pre– and Early Modern distribution requirements. (General Education Code(s): CC.) The Staff

102B. Romanticism to Modernism. *

Speaking, reading, and writing proficiency in Spanish required. Follows the literary manifestations of the growing consciousness of the Latin American writer: discovery of native themes, imitation of European models, search for a "new language" literally and figuratively. Relates historical events with literary movements. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) The Staff

103. Sor Juana Ines de la Cruz. W

Speaking, reading, and writing proficiency in Spanish required. An in–depth examination of the life and work of Sor Juana Ines de la Cruz, a 17th–century nun, poet, playwright, and woman of genius and intellectual prowess whose ideas and accomplishments were ahead of her time. Satisfies the Pre– and Early Modern Studies and Spanish Literature concentrations; also satisfies the Pre– and Early Modern distribution requirement. J. Aladro Font

130. Studies in Latin American Literary Genres.

130F. U.S. Latino/a Writing in Spanish/English and Spanglish. *

Speaking, reading, and writing proficiency in Spanish required. Spanish–based, English/bilingual inclusive overview of Latino/a writing in the U.S. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): ER, E.) J. Poblete

131. National Literatures of Latin America.

Speaking, reading, and writing proficiency in Spanish required. A study of the literary expression of a particular Latin American country or region, with texts representing a variety of authors, periods, and genres. The Staff

131A. Mexico. *

Speaking, reading, and writing proficiency in Spanish required. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) N. Klahn

131H. Cuba. S

Speaking, reading, and writing proficiency in Spanish required. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) L. Martinez–Echazabal

134. Special Topics in Latin American Literature.

134G. Popular Culture in Latin American Narrative. *

Speaking, reading, and writing proficiency in Spanish required. Explores short stories and novels that have been greatly influenced by popular culture, not only in theme, but also by appropriation of popular forms of language and modes of representation. Includes works by authors from Mexico, Argentina, Cuba, and Colombia. Satisfies the Modern Literary Studies, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): CC, E.) J. Poblete

134L. Historia de la lectura y los lectores: Recepción y consumo cultural en el mundo L. Americano. S

Speaking, reading, and writing proficiency in Spanish required. Explores historical readers and reading practices in at least three different formations: colonial, national–popular, and transnational. Proposes a historical–theoretical reconstruction of the place of reading and readers at key moments in the history of culture in Latin America. Satisfies the Modern, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) J. Poblete

134M. Modernidad y literatura: El Boom de la novela latinoamericana. F

Speaking, reading, and writing proficiency in Spanish required. Explores the relationships between literature and mass culture, modernization, and globalization through the study of the so–called Boom of Latin American narrative. Course satisfies the Modern, Spanish, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) N. Klahn

135. Latin American Cinema.

135C. La Globalizacion en/del Cine Latin/o Americano. W

Speaking, reading, and writing proficiency in Spanish required. Examines globalization of Latin/o American cinema as a cultural industry. Classical issues of cultural politics and political economy are revisited from the viewpoint of current global processes. Also provides access to the representation of different aspects of globalization in Latin/o American cinema. Course satisfies the Modern, Spanish/Latin American/Latino, and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) J. Poblete

135F. Cine y Literatura. *

Speaking, reading, and writing proficiency in Spanish required. Analysis and interpretation of Spanish–language films derived from literary works by Latin American and Spanish authors. Topic changes; see the Schedule of Classes for the current topic. Satisfies the Spanish and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): IM.) L. Martinez–Echazabal

152. Spanish Golden Age Theater. *

Speaking, reading, and writing proficiency in Spanish required. Studies in Spanish Golden Age theater. Satisfies the Pre– and Early Modern Studies and Spanish Literature concentrations; also satisfies the Pre– and Early Modern distribution requirement. J. Aladro Font

154. Short Stories of the Spanish Golden Age. F

Speaking, reading, and writing proficiency in Spanish required. Focuses on the prose in the Renaissance period and the different genres that flourished before the creation of Cervantes' Don Quixote. Chosen texts constitute an amalgam of Renaissance ideology, and provide examples of 16th–century literature, including the picaresque novel, pastoral novel, the Byzantine novel, and the chivalresque novel. J. Aladro Font

195. Senior Essay. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. The Staff

198. Group Tutorial. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Speaking, reading, and writing proficiency in Spanish required. Students submit petition to sponsoring agency. The Staff

Graduate Courses

210. Spain in the Eyes/Camera of Pedro Almodovar. S

Contemporary Spain through the camera of Pedro Almodovar from transgressive enthusiasm, experimentation, and cultural disobedience of the 1980s to more universal themes of human nature and borderline experiences in the pursuit of love, relationships, beauty, and art. Enrollment restricted to graduate students. J. Aladro Font

222. Reconstructing Spain. *

Construction of new discourses of "Spanishness" after 1975, their negotiation in the context of European integration/globalization and against historical memories. Enrollment restricted to graduate students. May be repeated for credit. J. Aladro Font

225. Surrealism in the Americas: An Aesthetic in Motion. *

Emerging from a Europe in crisis, this 20th-century avant-garde movement opened a space in Latin/o American literature for the emergence of a post-western aesthetic exploring a cultural identity in difference. A deconstruction of vanguardismo, lo real maravilloso, lo fantastico, lo mitico-antropologico, and realismo magico. Enrollment restricted to graduate students. N. Klahn

226. Teoria Critica en America Latina. *

Overview of contemporary theoretical issues in Latin American cultural critique. Course topic changes; please see the Schedule of Classes for the current topic. Enrollment restricted to graduate students. May be repeated for credit. J. Poblete

230. Citiscapes. F

Theories of space/place poetics and politics, and the literary and visual re-presentations of urban spaces in Latin/o America. Questions of identity and location in modernist poetics, and the ways difference (gender, ethnicity, and sexuality) inhabit and imagine the post-modern lettered city. Enrollment restricted to graduate students. N. Klahn

231. National Literatures of Latin America.

The Staff

231A. Cuba. W

Course topic changes; please see the Schedule of Classes for the current topic. Enrollment restricted to graduate students. May be repeated for credit. L. Martinez-Echazabal

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

[Program Description](#) | [Faculty](#)

Upper–Division Courses

102. Ancient Literature in Cross–Cultural Perspective. W,S
Comparative approaches to the study of ancient literature and culture. Topic changes; see the Schedule of Classes for current topic. Satisfies the Pre– and Early Modern and World Literature concentrations; also satisfies the Global and Pre– and Early Modern distribution requirements. May be repeated for credit. (General Education Code(s): CC.) S. Keilen, G. Hamel

107A. Reading Egyptian Hieroglyphs, Part 1. F
Introduction to Egyptian hieroglyphs as a graphic, conceptual, and communicative system. Covers the basic elements of classical Egyptian grammar, drawing primarily on inscriptions from extant Egyptian monuments. Students read one prose and one poetical text from the Middle Kingdom. Satisfies the Pre– and Early Modern Studies and World Literature concentrations; also satisfies the Global and Pre– and Early Modern distribution requirements. Strongly recommended: two years previous study of a foreign language at the college level or the equivalent. (General Education Code(s): CC.) D. Selden

107B. Reading Egyptian Hieroglyphs, Part 2. W
Advanced Middle Egyptian grammar (2 weeks). Close reading of the Tale of Sinuhe in Egyptian, selected hymns and love poetry from the New Kingdom. Satisfies the Pre– and Early Modern Studies and World Literature concentrations; also satisfies the Global, Pre– and Early Modern, and Poetry distribution requirements. Together, Egyptian Hieroglyphs 1 and 2 fulfill the language requirements for the intensive major. Prerequisite(s): course 107A or permission of instructor. (General Education Code(s): CC.) D. Selden

107C. Reading Egyptian Hieroglyphs, Part 3. S
Close reading of the *Tale of Sinuhe* in Middle Egyptian. Satisfies the Pre– and Early Modern Studies and World Literature concentrations; also satisfies the Global, Poetry, and Pre– and Early Modern distribution requirements. Prerequisite(s): course 107A and 107B. D. Selden

123. The Comedy of Sex on Stage and Screen. *
Surveys the theory and practice of comedy in several contexts and media including stage, film, and television, with special attention to questions of gender and sexuality. Texts include Aristophanes, Plautus, Shakespeare, Moliere, Orton, Chaplin, Seinfeld, Freud, Bakhtin. Satisfies the Pre– and Early Modern Studies and Modern Literary Studies

concentrations; also satisfies the Pre– and Early Modern distribution requirement. (General Education Code(s): IM.) M. Gamel

128. Medieval Epic. *

Medieval reworkings of stories and motifs drawn from the "barbarian" or Germanic tradition including Beowulf, The Song of Roland, Nibelungenlied, Snorri Sturlason: King Harald's Saga from Heimskringla, and Njal's Saga. Satisfies the Pre– and Early Modern Studies Literature concentration; also satisfies the Poetry and Pre– and Early Modern distribution requirements. H. Leicester

134. The Idea of Poetry. *

Focus is on the theories of rhetoric and poetry written between 1580 and 1620. Texts include English, Italian, French, and Spanish works. Satisfies the Pre– and Early Modern Studies concentration; also satisfies the Poetry and Pre– and Early Modern Studies distribution requirements. (General Education Code(s): TA.) The Staff

144. Pre– and Early Modern Jewish Cultures.

144B. Hebrew Bible. *

Introduction to textual, source, redaction, historical, and literary criticism of individual books of the Hebrew Bible and to exegesis as science and ideology. Covers texts and iconography of neighboring mythological traditions (Mesopotamian, Ugaritic, Egyptian, Greek) when appropriate. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Pre–and Early Modern Studies Literature concentration; also satisfies the Pre– and Early Modern distribution requirement. May be repeated for credit. (General Education Code(s): TA.) N. Deutsch

146. The Phenomenon of Tragedy. F

Examines the theory of tragedy from Aristotle to Nietzsche, while inviting students to read and discuss classic dramatic pieces to which the label "tragedy" was applied. Relies on student presentations and contributions, and teaches skills both in handling theory and in practical literary criticism. Satisfies the English and Pre– and Early Modern Studies literature concentrations; also satisfies the Pre– and Early Modern distribution requirement. A. Heald

150. Pre– and Early Modern Literature in Translation.

150B. Early Modern Italian Women Writers. W

In early modern Italy several factors converged to foster a boom in women's writing and publication. Course addresses the context and content of these writings, dealing with key theoretical and historical issues surrounding women's entry into authorship in Europe. Knowledge of Italian not required. Satisfies the Pre– and Early Modern Studies concentrations; also satisfies Pre– and Early Modern distribution requirements. D. Shemek

150C. Italian Renaissance. *

Study of Renaissance in Italy as concept and educational/artistic revolution, with special attention to literary works and to dialogue among the arts and sciences. Authors vary but may include Boccaccio, Petrarch, Machiavelli, and Michelangelo. Satisfies the Pre– and Early Modern Studies concentration; also satisfies Pre– and Early Modern distribution requirement. D. Shemek

152. Continental Renaissance. F

Introductory survey of great prose writings of the continental Renaissance in their cultural and historical contexts. Authors include: Machiavelli, Castiglione, Erasmus, Rabelais, Montaigne, and Cervantes. Satisfies the Pre– and Early Modern Studies concentration; also satisfies the Pre– and Early Modern Studies distribution requirement. A. Heald

154. The Seventeenth Century. *

Discussion of selected major works of 17th–century European literature in their historical and philosophical context. Satisfies the Pre– and Early Modern Studies concentration; also satisfies the Pre– and Early Modern Studies distribution requirement. W. Godzich

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>160. Studies in Early Modern Theater. *</p> <p>Examines early modern theories of theatricality, cultural, and social values. <http://literature.ucsc.edu/>[Program Description](#) | [Faculty](#)

Upper–Division Courses

125. Modern Cinema.

125J. Cinema and Subjectivity. S

An examination of the ways in which the technological and institutional practices of cinema construct modes of modern and contemporary subjectivity. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. D. Selden

125N. The Horror Film. *

Shifting definitions of horror in the movies from the late silent period to the present through close analysis of representative films and critical texts. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration. (General Education Code(s): IM.) H. Leicester

144. Modern Jewish Cultures.

Modernity transformed Jewish culture: we will explore the ways in which changed social, political, and economic conditions produced new gender roles; professional, personal, communal, and cultural experiences; and generated powerful fictions, autobiographies, films and poems. Among the writers we will read are Isaac Bashevis Singer, Rebecca Goldstein, Saul Bellow, Martin Buber, Hannah Arendt, and S.Y. Agnon. The Staff

144A. Jewish Diaspora, Ethnicity, and Urban Life. *

Focuses on modern Jewish diaspora, ethnicity, and urban life. Satisfies the Modern Literary Studies concentration. (General Education Code(s): ER, E.) B. Thompson

144D. Jewish Writers and the American City. S

An examination of some major Jewish writers and their responses to the American city. Major writers: Henry Roth, Saul Bellow, Bernard Malamud, J. Kaplan, Philip Roth. A look at Yiddish and other minority writers, and including sociological and historical materials on the American city. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): ER, E.) B. Thompson

144H. Jewish Writers and the European City. F

Interrogates the master narrative of a specific European city and discusses the ways in which Jewish life and Jewish actions helped to shape that story and were shaped by it. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. (General Education Code(s): ER.) M. Baumgarten

144J. Jewish Travel Narratives. W

Exploration of the idea of the Diaspora as a "moving" condition, and of the multi-dimensional character of global Jewish culture, covering authors who traveled across the Jewish world from medieval times to the present. Satisfies the Modern Literary Studies and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. M. Baumgarten

145. Special Topics in Modern Literature.

145A. Modern Poetry. F

Survey of modern poetry; includes a variety of poetic forms. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration; also satisfies the Poetry distribution requirement. May be repeated for credit. (General Education Code(s): TA.) L. Peacock

145B. Modern Literature. S

Study of 19th- and/or 20th-century literature, with attention to its literary and historical context. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies concentration. May be repeated for credit. (General Education Code(s): TA.) L. Martinez-Echazabal

145C. Modern Fiction and Poetry. F

Survey of modern fiction and poetry. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies concentration; also satisfies the Poetry distribution requirement. May be repeated for credit. The Staff

145H. Detective Fiction. *

Representative works of 19th- and 20th-century detective fiction, including works by Poe, Conan Doyle, Christie, Sayers, Hammett, Chandler, P.D. James, Paretsky, and others. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): TA.) J. Jordan

Upper–Division Courses

102. Canons.

102A. The Traditional British Canon, Part I. S

The constitution of the "canon" of English literature from Chaucer to Cowper. Satisfies the English and Pre– and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre– and Early Modern distribution requirements. (General Education Code(s): TA.) J. Greene

102D. The Traditional U.S. Canon, 1900 to the Present. F

Major works from 1900 to the present, with attention to their social and cultural context. Satisfies the English and Modern Literature concentrations. C. Chen

103. Periods and Movements.

103A. British Literature and Culture to 1740. *

Literature and society to 1740. Satisfies the English and Pre– and Early Modern Studies Literature concentrations; also satisfies the Pre– and Early Modern Studies distribution requirement. May be repeated for credit. (General Education Code(s): TA.) The Staff

103E. Studies in Romanticism. *

A survey of major romantic themes and authors between 1780 and 1820. Explores relationships to preromantic and postromantic authors. The main goal is to achieve familiarity with a wide range of individual poems in the general context of romanticism. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. (General Education Code(s): TA.) H. Leicester

103J. Contemporary American Literature. W

A selective examination of major writings since WWII, with attention to both literary issues and historical context. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. The Staff

110. Prose.

110A. Studies in the English Novel. *

- Physics

From the 18th to the 20th century. Texts include work by Fielding, Austen, Bronte, Dickens, Conrad, and Woolf. Satisfies the English and Modern Literary Studies concentrations. (General Education Code(s): TA.) M. Baumgarten

110C. The 19th–Century English Novel. F

The 19th–century novel: Austen to Bronte. Satisfies the English and Modern Literary Studies concentrations. J. Jordan

120. Poetry.

120A. Poetry of the 17th Century. *

Readings in the works of Donne, Jonson, Herbert, Herrick, Marvell, and others. Satisfies the English and Pre– and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre– and Early Modern distribution requirements. The Staff

120B. Victorian Poetry. W

A reading of the major Victorian poets from Tennyson to early Yeats. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. (General Education Code(s): TA.) J. Jordan

120C. Nineteenth–Century American Poetry. W

The major figures and important movements from Poe to Emerson through Whitman and Dickinson. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. K. Gruesz

120F. American Poetry Since World War II. *

Major poets since World War II, with attention to leading movements and critical issues. Satisfies the English and Modern Literary Studies concentrations; also satisfies the Poetry distribution requirement. C. Chen

130B. English Drama: 1576–1642. *

Study of representative plays. Course topic changes; please see the Schedule of Classes for current topic. Satisfies the English and Pre– and Early Modern Studies Literature concentrations; also satisfies the Pre– and Early Modern distribution requirement. The Staff

140. Visual Media/Popular Culture.

140C. The Films of John Carpenter. W

Study of development and central themes of preeminent genre director of the "post–Hollywood" era, concentrating on central core of major works in horror/science fiction genres from Halloween to In the Mouth of Madness, with attention to the comedies and action films. Satisfies the English and Modern Literature concentrations. H. Leicester

150. Ethnic Writing.

150A. Afro–American Literature. S

Examination of Afro–American writing and cultural representations, with attention to the historical, cultural, and general literary contexts out of which they emerged and upon which they commented. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. (General Education Code(s): ER, E.) C. Chen

150C. Asian American Literature. *

Examination of Asian American literary works (fiction, poetry, dramatic essays) in the context of the historical presence of Asian Americans in the United States from the 1850s. Emphasis on comparison of select works from ethnic Asian writings. Satisfies the English and Modern Literature concentrations. (General Education Code(s): ER, E.) K. Yamashita

155. Regional Writing.

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>155B. Regions in American Literature. F Examines development of regional writing in the U.S. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English and Modern Literary Studies concentrations. May be repeated for credit. R. J. Wilson</p>
	<p>160. Transnational Writing.</p>
	<p>160B. Empire and After in the Anglophone Novel. S Examines fiction written in English, 1883 to 1948, in order to consider the complex relations--complicit, resistant, both--between literary and imperialist discourses. Likely novelists for study are Schreiner, Haggard, Conrad, Kipling, Forster, Hilton, Paton. Satisfies the English and Modern Literary Studies concentrations. (Formerly Empire and After in the British Novel.) May be repeated for credit. V. Cooppan</p>
	<p>170. Individual Authors.</p>
	<p>170A. Geoffrey Chaucer. S Close study of Chaucer's poetry, with some attention to relevant cultural, philosophical, and historical issues in the context of the late medieval period. Particular emphasis on The Canterbury Tales. Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Poetry and Pre- and Early Modern distribution requirements. (General Education Code(s): TA.) H. Leicester</p>
	<p>170C. William Shakespeare. F Satisfies the English and Pre- and Early Modern Studies Literature concentrations; also satisfies the Pre- and Early Modern distribution requirement. May be repeated for credit. (General Education Code(s): TA.) S. Keilen</p>

satisfies the Senior Seminar distribution requirement. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. S. Keilen, H. Leicester

190K. Studies in Poetry. W

Studies in English-language poetry. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English concentration; also satisfies the Poetry and senior seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. R. J. Wilson

190L. Studies in English Language Literature. F,S

Studies of selected authors or issues in English language literature. Course topic changes; see the Schedule of Classes for current topic. Satisfies the English Literature concentration; also satisfies the senior seminar distribution requirement. Prerequisite(s): Literature 101. Enrollment restricted to senior Literature majors. C. Chen, V. Cooppan

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Students submit petition to sponsoring agency. Prerequisite(s): Literature 101. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. The Staff

Graduate Courses

203. Periods and Movements. W

Examines a particular historical period or literary movement. Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. T. Miller

280. Topics in English Language Literature. S

Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. K. Gruesz

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with teaching of undergraduates. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students.

May be repeated for credit. The Staff

World Literature and Cultural Studies

2012–13 General Catalog

303 Humanities I

(831) 459–4778

<http://literature.ucsc.edu/>[Program Description](#) | [Faculty](#)

Upper–Division Courses

109. Topics in Cultural Studies. F,W,S

Studies in the theory of cultural studies. Course topic changes; see the Schedule of Classes for current topic. Satisfies the World Literature concentration; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): E.) (W) E. Smeltzer, (S) K. Lau, (S) A. Bivens, (FW) G. Sahota

115. Modern Literature in a Global Context.

115A. Fiction in a Global Context. *

Comparative examination of fiction in the modern world and of fictional responses to social change and crisis. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): TA.) The Staff

123. The 1960s. S

An interdisciplinary study of the cultural and social movements of the 1960s. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) C. Connery

124. Cultural Theory in Historical Perspective. *

Examination of representations of medieval and early modern Mediterranean history. Course topic changes: see the Schedule of Classes for current topic. Satisfies the Pre– and Early Modern Studies and World Literature concentrations; also satisfies the Global and Pre– and Early Modern distribution requirements. May be repeated for credit. (General Education Code(s): E.) S. Kinoshita

126. Metamorphoses: Pre/Post Modern Transformations. *

Examines transformations between god, human, and animal from ancient literature to medieval, renaissance, modern, and postmodern (especially science) fiction and poetry. Satisfies the Pre– and Early Modern Studies and World Literature concentrations; also satisfies the Poetry, Pre– and Early Modern, and Global distribution requirements. C. Freccero

129. Theorizing Race and Comics. S

Examines comics' origins in the United States' legacies of racial caricature and political cartoons about slavery, Asian exclusion, yellow journalism, and imperial expansion. Analyses of graphic novel's 20th-century evolution around human-rights violations and post-atrocity representational strategies around race, nationalism and minority status. Satisfies the English, Modern Literary Studies, and World Literature concentrations; also satisfies the Global distribution requirement. Enrollment by interview only; course requires an essay application. Enrollment restricted to literature and history of art and visual culture majors. (General

Education Code(s): ER.) C. Hong

132. Global Cities. S

Examines cities as social spaces and as local spaces in the global economy and global imaginary. Focus is interdisciplinary, including literature, film, cultural studies, history, and sociology. Topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. (General Education Code(s): CC.) C. Connery

133. Culture and Nation. *

Course explores the role of literature and culture in the production of national communities. Course topic changes; please see the Schedule of Classes for the current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. G. Sahota

140. The Historical Imaginary. F

A survey of historical literature in the Americas that examines fictional attempts to re-imagine New World histories. Readings focus on secret or mangled histories, the legacies of slavery and colonialism, gendered critiques of national histories, and US imperialism. Satisfies the Modern and World Literature concentrations; also satisfies the Global distribution requirement. (General Education Code(s): E.) S. Gillman

150. World Literature and Cultural Studies Core Sequence.

150A. Worldings. W

How to think about the world as a whole: representations, networks, systems, taxonomies, versions of globalization. Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global distribution requirement. May be repeated for credit. V. Cooppan

190. Senior Seminar.

Seminar offered to literature majors as a way to satisfy the senior exit requirement. Offered at different times by different instructors; focus is on topics of interest in world literature and cultural studies. All students are required to complete an essay of significant length as part of the seminar course work. Prerequisite(s): Literature 101. The Staff

190A. Topics in World Literature and Cultural Studies. W

Course topic changes; see the Schedule of Classes for current topic. Satisfies the Modern Literary Studies and World Literature concentrations; also satisfies the Global and Senior Seminar distribution requirements. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. (General Education Code(s): E.) C. Hong

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. Students submit petition to sponsoring agency. The Staff

195. Senior Essay. F,W,S

Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Group Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201. Theory and Methods. F,W,S

Global theories of history and cultural production. Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. (F) S. Gillman, (W) C. Hong, (S) G. Sahota, (S) J. Greene

209. Topics in Cultural Studies. W,S

Course topic changes; see the Schedule of Classes for current topic. Enrollment restricted to graduate students. May be repeated for credit. C. Connery, S. Kinoshita

295. Directed Reading. F,W,S

Directed reading which does not require a term paper. Students submit petition to sponsoring agency. Enrollment restricted to

graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

Mathematics

2012–13 General Catalog

4111 McHenry

(831) 459–2969

<http://www.math.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Mathematics is both a fundamental discipline and an essential tool for students of biology, chemistry, computer engineering, computer science, Earth sciences, economics, electrical engineering, information systems management, physics, and psychology. Researchers in all these areas are constantly developing new and cutting-edge ways of applying mathematics to their fields. A strong mathematics background is vital to the advanced study of the physical and biological sciences and plays an integral role in studying the social sciences.

The UCSC mathematics program offers a wide variety of undergraduate mathematics courses:

- Courses 2 and 3 do not require thorough preparation in mathematics at the high school level. However, students interested in studying mathematics are strongly encouraged to take algebra, geometry, and trigonometry before entering the university. Students requiring mathematics courses are encouraged to take the mathematics placement examination (MPE) as early as possible. Students concerned about their ability to place into courses above Mathematics 2 or Mathematics 3 should consider taking these courses before they enter UCSC. Failure to begin the calculus series in the fall could delay progress in some majors.
- Lower-division courses with numbers in the range 11A–B through 30 (calculus, linear algebra, multivariable calculus, differential equations, and problem solving) prepare students for further study in mathematics, the physical and biological sciences, or quantitative areas of the social sciences. Science majors take a combination of these courses as part of their undergraduate studies.
- Upper-division courses, with numbers in the range 100–199, are intended for majors in mathematics and closely related disciplines. Some of these courses provide students with a solid foundation in key areas of mathematics such as algebra, analysis, geometry, and number theory, whereas others introduce students to more specialized areas of mathematics. Calculus, linear algebra, multivariable calculus, and proof and problem solving are prerequisite to most of these advanced courses.

Within the major, there are three concentrations leading to the bachelor of arts (B.A.) degree: pure mathematics, computational mathematics, and mathematics education. These programs are designed to give students a strong background for graduate study, for work in industry or government, or for teaching. Each concentration requires nine courses, one of which must be a senior thesis or senior seminar. Please read the pure mathematics,

computational mathematics, and mathematics education program descriptions below for specific information about course requirements. A minor in mathematics is also offered.

The mathematics program also provides an excellent liberal arts background from which to pursue a variety of career opportunities. UCSC graduates with degrees in mathematics hold teaching posts at all levels, as well as positions in law, government, civil service, insurance, software development, business, banking, actuarial science, forensics, and other professions where skills in logic, numerical analysis, and computing are required. In particular, students of mathematics are trained in the art of problem–solving, a skill absolutely essential to all professions.

Academic Advising

Academic advising is available at the Undergraduate Affairs Office (<http://undergrad.pbsci.ucsc.edu/advising/index.html>). The undergraduate adviser provides information about requirements, prerequisites, policies and procedures, learning support, scholarships, and special opportunities for undergraduate research. In addition, the adviser assists with the drafting of study plans, as well as certifying degrees and minors. Students are urged to stay informed and involved with their major, as well as to seek advice should problems arise.

The Undergraduate Affairs web site (<http://undergrad.pbsci.ucsc.edu/programs/math/advising.html>) is a critical resource for students. Here you will find a link to the undergraduate program; the materials at that link constitute the undergraduate handbook. Students should visit this first to seek answers to their questions, because it hosts a wealth of information. Each student in the major is encouraged to regularly review the materials posted to stay current about requirements, course curriculum, and departmental policy.

Requirements

Students who plan to take a mathematics course at UCSC must demonstrate sufficient preparation by their score on either the mathematics placement examination (MPE), the College Entrance Examination Board Advanced Placement (AP) calculus examination, the International Baccalaureate Higher Level Mathematics Examination, or by passing the appropriate prerequisite course.

UCSC Mathematics Placement Examination

The Mathematics Placement Examination (MPE) is a mathematics test designed to assess student readiness for UCSC mathematics classes. The MPE is available during several, short windows each year. Each student may take the exam twice during their academic career. Only the highest MPE score is used for placement. MPE scores are valid for one year after the window closes.

Additionally, if a student receives a D, F, or NP in a course, the placement examination may not be used to place them out of that course. Students whose areas of study require precalculus or calculus courses are strongly advised to take the placement examination and the required courses early in their academic careers. Information on registering and taking the MPE can be found at this web site: <http://undergrad.pbsci.ucsc.edu/advising/exams/mpe.html>.

If your MPE score is	You may enroll in this course (or lower-numbered course)
100 = Not precalculus ready	MATH 2
200 = Precalculus ready	MATH3
300 = Applied Calculus ready	MATH11A*
400 = Calculus ready	MATH19A

500 = Honors Calculus ready MATH 20A

* Some majors in science and engineering require Math 19A–B. Students planning to concentrate in those majors who receive 300, an Applied Calculus ready score on the MPE, should take courses 3 and 19A–B rather than courses 11A–B. All students are advised to consult with the Department sponsoring their major before deciding which mathematics pathway to take.

College Board Advanced Placement Calculus Examinations

Students who have received 4 credits for the College Entrance Examination Board Advanced Placement (AP) calculus examination should normally enroll in course 19B, and those with 8 credits should normally enroll in course 23A. However, students who received a score of 3 on the calculus AB or BC AP examination, should enroll in course 19A or 19B, respectively, to improve their knowledge of calculus before continuing their studies. Students who wish to challenge themselves, and who received a score of 4 or 5 on the AB or a score of 3, 4, or 5 on the BC examination may choose course 20A, Honors Calculus. Non–mathematics majors should consult their major departments before enrolling in a mathematics course.

If your AP AB score is [May enroll in this course](#)

3	Mathematics 11A or 19A
4 or 5	Mathematics 20A or 11B or 19B

If your AP BC score is [May enroll in this course](#)

3	Mathematics 11B or 19B or 20A
4 or 5	Mathematics 20A or 22 or 23A

International Baccalaureate Higher Level Examination in Mathematics

Students who have received a score of 5, 6, or 7 on the International Baccalaureate (IB) Higher Level Examination in Mathematics may enroll in course 20A, Honors Calculus; 22, Calculus of Several Variables; or 23A, Multivariable Calculus. Non–mathematics majors should consult their major departments before enrolling in a mathematics course.

Prerequisite Courses

Students who have passed course 2 may enroll in course 3. Students who have passed course 3 may enroll in course 11A or 19A. Students who have passed a precalculus course at a college or university may enroll in course 11A or 19A, but they must first verify eligibility of the course and course completion with the mathematics adviser (mathadvising@ucsc.edu).

Declaration of the Mathematics Major and Minor

Admission to the mathematics major (all concentrations) and minor is contingent on students successfully passing the following introductory courses or their equivalents:

- Mathematics 19A, Calculus for Science, Engineering, and Mathematics
- Mathematics 19B, Calculus for Science, Engineering, and Mathematics
- Mathematics 21, Linear Algebra
-

Mathematics 23A, Multivariable Calculus

- Mathematics 23B, Multivariable Calculus
- Mathematics 100, Introduction to Proof and Problem Solving

Students may only declare once they have passed all introductory courses or their equivalent courses with a grade of C or better. Students who receive two grades of NP, D, or F in the introductory courses are not eligible to declare in the major or minor. Students who are not eligible to declare may appeal. The advising office will subsequently notify the student, and the college of the decision, no later than 15 business days after the submission of the appeal.

Introductory Requirements

Introductory requirements for all concentrations in the major are courses 20A–B, Honors Calculus; or 19A–B, Calculus for Science, Engineering, and Mathematics; 21, Linear Algebra; and 23A–B, Multivariable Calculus. The mathematics education concentration has one additional introductory requirement, Applied Mathematics and Statistics (AMS) 5, Statistics. For some non–mathematics majors, courses 11A–B can be substituted for 19A–B, but they are not recommended for students planning to major in computer engineering, computer science, electrical engineering, information systems management, or physics. Although not considered an introductory requirement, course 100 is a prerequisite for most upper–division mathematics courses.

It should be emphasized that the nature of mathematics changes dramatically between lower–division and upper–division courses. Students often find that the material becomes far more abstract and theoretical. In addition, the role of computation in assignments diminishes and a greater weight is placed on deductive reasoning and the integral role of mathematical proofs. Therefore, it is strongly recommended that only students who earn grades of B– or better in Mathematics 100 consider applying to the major in mathematics.

Major Requirements

Pure Mathematics

This concentration is intended for students who desire a comprehensive understanding of mathematics, including those considering graduate studies in the natural sciences. Students are required to complete at least nine courses (with laboratories, if appropriate).

Seven of these courses must be:

- Mathematics 100, Introduction to Proof and Problem Solving;
- Mathematics 103A, Complex Analysis;
- Mathematics 105A, Real Analysis;
- Mathematics 111A, Algebra;
- Mathematics 117, Advanced Linear Algebra;
- one of Mathematics 121A, Differential Geometry, Mathematics 124, Introduction to Topology, or Mathematics 128A, Classical Geometry: Euclidean and Non–Euclidean, or Mathematics 129, Algebraic Geometry;
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

The remaining two courses are selected by the student from among Mathematics 24 and any mathematics course numbered above 100 (excluding Mathematics 188 and Mathematics 189).

A typical program for a pure mathematics major might include the following:

1st year Mathematics 20A–B or 19A–B, 21, 23A

2nd year Mathematics 23B, 24, 100, 103A, 110 or 128A

3rd year Mathematics 105A–B, 111A–B, 106

4th year Mathematics 107, 117, 121A, 194

The first two years of a typical program for a pure mathematics major who begins mathematics studies with precalculus might include the following:

1st year Mathematics 3, 19A–B

2nd year Mathematics 21, 23A–B, 24, 100

Computational Mathematics

This concentration is intended to prepare students for technical careers in industry or government while providing a solid mathematical background. Students are required to complete a minimum of seven mathematics courses (with laboratories, if appropriate) as follows:

- Mathematics 24, Ordinary Differential Equations;
- Mathematics 100, Introduction to Proof and Problem Solving;
- Mathematics 103A, Complex Analysis, or Mathematics 105A, Real Analysis;
- Mathematics 110, Introduction to Number Theory;
- Mathematics 111A, Algebra;
- Mathematics 145, Introductory Chaos Theory, or Applied Mathematics and Statistics 114, Introduction to Dynamical Systems, or Applied Mathematics and Statistics 147, Computational Methods and Applications;
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

In addition, students must complete two courses selected from the following:

- Applied Mathematics and Statistics, 131, 147
- Biomolecular Engineering 110
- Computer Engineering 107, 108, 153, 177
- Computer Science 101, 102, 104A, 109, 112, 122, 130, 132, 142
- Economics 113
- Electrical Engineering 103, 130, 135, 151, 154

Some of these courses have prerequisites within their departments. Students are encouraged to plan their computational electives early, so that all prerequisites can be satisfied in a timely manner. Other upper-division courses with heavy emphasis on computational mathematics may occasionally be accepted with permission of the Mathematics Department.

Mathematics majors who wish to enroll in Computer Science 101 or Computer Science 122 should contact the instructor to request a permission code.

A typical program for a computational mathematics major might include the following:

1st year 19A–B, 23A, CMPS 12A/L and 12B/M

2nd year 21, 23B, 24, 100, 110, CMPE 16

3rd year 103A; 105A; 145 or AMS 147; CMPS 101

4th year 106, 111A, CMPS 109, 194

Mathematics Education

This concentration is intended to prepare students for teaching kindergarten through high school (K–12) mathematics. In addition to the pre-major requirements (which for this track include Applied Mathematics and Statistics 5, Statistics), students are required to complete the following nine courses:

- Mathematics 100, Introduction to Proof and Problem Solving;
- either Mathematics 103A, Complex Analysis, or 105A, Real Analysis;
- Mathematics 110, Introduction to Number Theory;
- Mathematics 111A, Algebra;
- Mathematics 128A, Classical Geometry: Euclidean and Non-Euclidean;
- Applied Mathematics and Statistics 131, Introduction to Probability Theory;
- Mathematics 181, History of Math;
- Mathematics 188, Supervised Teaching Experience;
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

UCSC students can pursue a degree in mathematics while preparing to teach at the secondary level. In California, students seeking a single-subject credential (for secondary teaching) in mathematics are required to take the CSET, a series of examinations that must be passed in order to enter a teaching-credential program (formerly The National Teachers Examination). Students who complete the mathematics education track, plus three additional specified courses, qualify for the California Single Subject Program, exempting themselves from the CSET. Both the Mathematics Department undergraduate adviser and the Education Department advising office have more information about the additional required courses.

A typical program for a mathematics education major might include the following:

1st year Mathematics 19A–B, 23A

2nd year Mathematics 21, 23B, 100; Applied Mathematics and Statistics 5

3rd year Mathematics 30, 103, 110, 181; Applied Mathematics and Statistics 131

4th year Mathematics 111A, 128A, 188, 194

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in mathematics is satisfied by Mathematics 100, Introduction to Proof and Problem Solving, and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

Honors

Honors in the Mathematics Department are awarded to graduating students whose academic performance in the major demonstrates excellence at a GPA of 3.5 or above. Highest Honors are determined by review of departmental narrative evaluations for all students considered for honors. Highest Honors will be awarded to those students whose performance demonstrates the highest level of excellence in the major as reflected in their narrative evaluations.

Minor Requirements

The minor is intended for students who are interested in mathematics and want a strong mathematical foundation for studying in areas that rely heavily on analytical skills. Students are required to complete at least eight courses as follows:

- Mathematics 21, Linear Algebra;
- Mathematics 23A and 23 B, Multivariable Calculus;
- and any five courses numbered 100 and above.

No senior seminar or thesis is required.

A typical mathematics minor program for a physics major might be:

1st year	Mathematics 19A–B, 23A
2nd year	Mathematics 21, 23B, 24, 100
3rd year	Mathematics 103A, 105A, 106A, 121A or 124
4th year	Mathematics 107, 145 or Applied Mathematics and Statistics 114

Combined Majors

Economics and Mathematics

The combined major in economics and mathematics is designed to meet the needs of undergraduate students who plan to pursue doctoral study in economics or business, or who wish to pursue a career as an actuary or other professional requiring a sophisticated understanding of economics and mathematics. The major combines the main undergraduate content of both economics and mathematics within a programmatic structure that joins the two disciplines. It provides a coursework combination required to prepare for a modern economics Ph.D. program, or for technically demanding professional careers. A full description can be found in the economics section of this catalog. The combined major, requiring fewer courses than a double major, is administered through the Economics Department.

Graduate Program

The Mathematics Department offers programs leading to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees. Contact the Division of Graduate Studies for further information on the M.A. and Ph.D. programs, as well as on university application procedures.

M.A. Degree Requirements

Students are required to complete two of Mathematics 200, 201, 202, 203; two of Mathematics 204, 205, 206; one of Mathematics 208, 209, 210; and complete five additional courses in mathematics or a related subject by approval. In addition, students must do one of the following:

- pass an M.A.–level preliminary examination;
- write a master’s thesis.

Ph.D. Degree Requirements

All of the following are required:

- obtain a Ph.D.–level pass on two of the three written preliminary examinations, or a Ph.D.–level pass on one and a master’s–level pass on the remaining two. Students who opt for the Ph.D.–level pass on two of the three preliminary examinations must complete the full sequence in the track associated with the preliminary examination they did not pass;
- satisfy the foreign–language requirement;
- pass the oral qualifying examination;
- complete three quarters as a teaching assistant;

- complete six graduate courses in mathematics other than Mathematics 200, 201, 202, 203, 204, 205, and 206. No more than three courses may be independent study or thesis research courses;
- write a Ph.D. thesis and present the thesis defense.

Students admitted to the Ph.D. program may receive an M.A. degree en route to the Ph.D.; students admitted to the M.A. program may transfer to the Ph.D. program upon passing the required preliminary examinations at the Ph.D. level.

Course Information

Mathematics 2, College Algebra for Calculus, is designed for students who do not meet the requirements for admission to Mathematics 3, Precalculus, and who need comprehensive and careful preparation for calculus. Mathematics 2 emphasizes algebra, graphs, and functions. The prerequisite for course 2 is a minimum placement examination score of 12.

Mathematics 3, Precalculus, is recommended for students who need some preparation in algebra and trigonometry prior to taking calculus. This course covers functions and their inverse, exponentials, logarithms, and trigonometry.

Mathematics 11A and 11B, Calculus with Applications, are intended for biology and Earth sciences majors. However, students in these majors who score 40 or more points on the mathematics placement examination are strongly encouraged to take the 19A–B sequence, which is required for most upper-division mathematics courses. Laboratory sections are strongly advised.

Mathematics 19A and 19B, Calculus for Science, Engineering, and Mathematics, are intended for chemistry, computer engineering, computer science, electrical engineering, information systems management, mathematics, and physics majors. Laboratory sections are strongly advised.

Mathematics 20A and 20B, Honors Calculus, are intended for students who would enjoy delving particularly deeply into the foundational and theoretical issues of calculus. Laboratory sections are strongly advised.

Mathematics 21, Linear Algebra, covers vector spaces, matrices, determinants, systems of linear equations, and eigenvalues. It is intended for students in the physical and biological and social sciences and is prerequisite to Mathematics 111A.

Mathematics 22, Introduction to Calculus of Several Variables, is intended for science students whose schedules do not permit a full and comprehensive two quarters of multivariable calculus. Students who intend to pursue further studies in mathematics must take Mathematics 23A–B and not 22. Laboratory sections are strongly advised.

Mathematics 23A and 23B, Multivariable Calculus, are intended for mathematics majors and minors and students in computer engineering, computer science, electrical engineering, information systems management, and physics majors which require more rigorous mathematical training. Laboratory sections are strongly advised.

Mathematics 100, Introduction to Proof and Problem Solving, is an introduction to the methodology of advanced mathematics, emphasizing proof techniques. Basic areas such as set theory and logic are introduced, together with extensive applications within mathematics. This course serves as a prerequisite for nearly all upper-division courses.

Mathematics 200+, Graduate-level courses. All graduate courses are open to undergraduates who have taken the recommended prerequisites; students should consult with the course instructor. Advanced undergraduates are strongly advised to take or audit graduate courses that interest them.

Faculty and Professional Interests

Professor

Robert Boltje
Group theory, representation theory, algebraic number theory

Bruce N. Cooperstein
Groups of Lie type, incidence geometry

Chongying Dong
Infinite–dimensional Lie algebras and their representations, conformal field theory

Torsten Ehrhardt
Functional analysis, Operator theory, Random matrix theory, Banach algebras, Wiener–Hopf factorization, Toeplitz and Hankel operators

Alexander Gamburd
Spectral problems in number theory, probability, and combinatorics

Viktor Ginzburg
Global analysis, symplectic topology; Hamiltonian dynamical systems, Poisson geometry, symmetries, and group actions

Debra Lewis
Geometric Hamiltonian mechanics, geometric integration, bifurcation theory, applications of variational methods, control theory

Geoffrey Mason
Vertex operator algebras and applications to conformal field theory and string theory; modular forms; group theory; quasi–Hopf algebras

Richard Montgomery
Celestial mechanics, differential geometry, gauge theory, mechanics (quantum and classical), and singularity theory

Jie Qing
Nonlinear analysis, harmonic analysis, partial differential equations with applications to differential geometry, mathematical physics

Nondiscrimination Statement

Nonlinear partial differential equations, with emphasis on fluid equations

Hiroataka Tamanoi
Algebraic topology, string topology, topological quantum field theory, mathematical aspects of string theory

Anthony J. Tromba
Global nonlinear analysis, calculus of variations, minimal surfaces and Plateau’s problem, Riemann surfaces

Associate Professor

Samit Dasgupta
Algebraic number theory, arithmetic geometry, special values of L–functions

Martin H. Weissman
Representation theory, automorphic forms, number theory

Emeriti

Ralph H. Abraham

Nicholas Burgoyne

Arthur E. Fischer

[Program Description](#) | [Faculty](#)

Lower-Division Courses

2. College Algebra for Calculus. F,W

Operations on real numbers, complex numbers, polynomials, and rational expressions; exponents and radicals; solving linear and quadratic equations and inequalities; functions, algebra of functions, graphs; conic sections; mathematical models; sequences and series. Prerequisite(s): mathematics placement examination (MPE) score of 100 or higher. The Staff

2S. College Algebra for Calculus (2 credits). F,W

This two-credit, stretch course offers students two quarters to master material covered in course 2: operations on real numbers, complex numbers, polynomials, and rational expressions; exponents and radicals; solving linear and quadratic equations and inequalities; functions, algebra of functions, graphs; conic sections; mathematical models; sequences and series. After successful completion of this course in the first quarter, students enroll in course 2 the following quarter to complete the sequence and earn an additional 5 credits. Prerequisite(s): mathematics placement examination (MPE) score of 100 or higher. N. Bhattacharya

3. Precalculus. F,W,S

Inverse functions and graphs; exponential and logarithmic functions, their graphs, and use in mathematical models of the real world; rates of change; trigonometry, trigonometric functions, and their graphs; and geometric series. Students cannot receive credit for both course 3 and Applied Mathematics and Statistics 3. Applied Mathematics and Statistics 3 can substitute for course 3. Prerequisite(s): course 2 or mathematics placement examination (MPE) score of 200 or higher. (General Education Code(s): MF, Q.) The Staff

4. Mathematics of Choice and Argument. W

Techniques of analyzing and creating quantitative arguments. Application of probability theory to questions in justice, medicine, and economics. Analysis and avoidance of statistical bias. Understanding the application and limitations of quantitative techniques. Prerequisite(s): course 2, or mathematics placement examination (MPE) score of 200 or higher, or AP Calculus AB examination score of 3 or higher. (General Education Code(s): SR, Q.) The Staff

11A. Calculus with Applications. F,W,S

A modern course stressing conceptual understanding, relevance, and problem solving. The derivative of polynomial, exponential, and trigonometric functions of a single variable is developed and applied to a wide range of problems involving graphing, approximation, and optimization. Students cannot receive credit for both this course and course 19A or Applied Mathematics and Statistics 11A and 15A, or Economics 11A. Prerequisite(s): course 3 or Applied Mathematics and Statistics 3; or mathematics placement examination (MPE) score of 300 or higher; or AP Calculus AB exam score of 3 or higher. (General Education Code(s): MF, IN, Q.) The Staff

11B. Calculus with Applications. F,W,S

Starting with the fundamental theorem of calculus and related techniques, the integral of functions of a single variable is developed and applied to problems in geometry, probability, physics, and differential equations. Polynomial approximations, Taylor series, and their applications conclude the course. Students cannot receive credit for this course and course 19B, or Applied Mathematics and Statistics 11B and 15B, or Economics 11B. Prerequisite(s): course 11A or 19A or Applied Mathematics and Statistics 15A or AP Calculus AB exam score of 4 or 5, or BC exam score of 3 or higher, or IB Mathematics Higher Level exam score of 5 or higher. (General Education Code(s): MF, IN, Q.) The Staff

19A. Calculus for Science, Engineering, and Mathematics. F,W,S

The limit of a function, calculating limits, continuity, tangents, velocities, and other instantaneous rates of change. Derivatives, the chain rule, implicit differentiation, higher derivatives. Exponential functions, inverse functions, and their derivatives. The mean value theorem, monotonic functions, concavity, and points of inflection. Applied maximum and minimum problems. Students cannot receive credit for both this course and course 11A or Applied Mathematics and Statistics 11A and 15A, or Economics 11A. Prerequisite(s): course 3 or Applied Mathematics and Statistics 3; or mathematics placement examination (MPE) score of 400 or higher; or AP Calculus AB exam score of 3 or higher. (General Education Code(s): MF, IN, Q.) The Staff

19B. Calculus for Science, Engineering, and Mathematics. F,W,S

The definite integral and the fundamental theorem of calculus. Areas, volumes. Integration by parts, trigonometric substitution, and partial fractions methods. Improper integrals. Sequences, series, absolute convergence and convergence tests. Power series, Taylor and Maclaurin series. Students cannot receive credit for both this course and course 11B, Applied Math and Statistics 11B and 15B, or Economics 11B. Prerequisite(s): course 19A or AP Calculus AB exam score of 4 or 5, or BC exam score of 3 or higher, or IB Mathematics Higher Level exam score of 5 or higher. (General Education Code(s): MF, IN, Q.) The Staff

20A. Honors Calculus. F

Challenging course designed to approach single-variable calculus from the perspective of modern mathematics. Emphasis is on the evolution and historical development of core concepts underlying calculus and analysis. Prerequisite(s): mathematics placement examination (MPE) score of 500 higher; or AP Calculus AB examination score of 4 or 5; or BC examination of 3 or higher; or IB Mathematics Higher Level examination score of 5 or higher. Enrollment limited to 60. (General Education Code(s): MF, IN, Q.) The Staff

20B. Honors Calculus. W

Challenging course designed to approach single-variable calculus from the perspective of modern mathematics. Emphasis is on the evolution and historical development of core concepts underlying calculus and analysis. Prerequisite(s): course 20A. Enrollment limited to 60. (General Education Code(s): MF, IN, Q.) The Staff

21. Linear Algebra. F,W,S

Systems of linear equations, matrices, determinants. Introduction to abstract vector spaces, linear transformation, inner products, geometry of Euclidean space, and eigenvalues. One quarter of college mathematics is recommended as preparation. Prerequisite(s): Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 15A. (General Education Code(s): MF, Q.) The Staff

22. Introduction to Calculus of Several Variables. W,S

Functions of several variables. Continuity and partial derivatives. The chain rule, gradient and directional derivative. Maxima and minima, including Lagrange multipliers. The double and triple integral and change of variables. Surface area and volumes. Applications from biology, chemistry, earth sciences, engineering, and physics. Students cannot receive credit for this course and course 23A. Prerequisite(s): course 11B or 19B or 20B or Applied Mathematics and Statistics 15B or AP calculus BC exam score of 4 or 5. (General Education Code(s): MF.) The Staff

23A. Multivariable Calculus. F,W,S

Vectors in n-dimensional Euclidean space. The inner and cross products. The derivative of functions from n-dimensional to m-dimensional Euclidean space is studied as a linear transformation having matrix representation. Paths in 3-dimensions, arc length, vector differential calculus. Taylor's theorem in several variables, extrema of real-valued functions, constrained extrema and Lagrange multipliers, the implicit function theorem, some applications. Students cannot receive credit for this course and course 22. Prerequisite(s): course 19B or 20B or AP calculus BC exam score of 4 or 5. (General Education Code(s): MF.) The Staff

23B. Multivariable Calculus. F,W,S

Double integral, changing the order of integration. Triple integrals, maps of the plane, change of variables theorem, improper double integrals. Path integrals, line integrals, parametrized surfaces, area of a surface, surface integrals. Green's theorem, Stokes theorem, conservative fields, Gauss' theorem. Applications to physics and differential equations, differential forms. Prerequisite(s): course 23A. (General Education Code(s): MF.) The Staff

24. Ordinary Differential Equations. S

First and second order ordinary differential equations, with emphasis on the linear case. Methods of integrating factors, undetermined coefficients, variation of parameters, power series, numerical computation. Students cannot receive credit for this course and Applied Mathematics and Statistics 20. Prerequisite(s): course 22 or 23A; course 21 is recommended as preparation. The Staff

30. Mathematical Problem Solving. F

Students learn techniques of problem solving such as induction, contradiction, exhaustion, dissection, analogy, generalization, specialization, and others in the context of solving problems drawn from number theory, probability, combinatorics, graph theory, geometry, and logic. Prerequisite(s): course 11A or 19A or 20A or or mathematics placement examination (MPE) score of 300 or higher. (General Education Code(s): PR–E.) The Staff

99. Tutorial. F,W,S

99F. Tutorial (2 credits). F,W,S

May be repeated for credit. The Staff

Upper-Division Courses

100. Introduction to Proof and Problem Solving. F,W,S

Students learn the basic concepts and ideas necessary for upper-division mathematics and techniques of mathematical proof. Introduction to sets, relations, elementary mathematical logic, proof by contradiction, mathematical induction, and counting arguments. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; courses 11A and 11B or 19A and 19B or 20A and 20B. Enrollment limited to 80. (General Education Code(s): MF.) The Staff

103A. Complex Analysis. F,S

Complex numbers, analytic and harmonic functions, complex integration, the Cauchy integral formula, Laurent series, singularities and residues, conformal mappings. (Formerly course 103.) Prerequisite(s): course 23B; and either course 100 or Computer Science 101. The Staff

103B. Complex Analysis II (2 credits). *

Conformal mappings, the Riemann mapping theorem, Mobius transformations, Fourier series, Fourier and Laplace transforms, applications, and other topics as time permits. Prerequisite(s): course 103A. The Staff

105A. Real Analysis. F,W

The basic concepts of one-variable calculus are treated rigorously. Set theory, the real number system, numerical sequences and series, continuity, differentiation. Prerequisite(s): course 23B and either course 100 or Computer Science 101. The Staff

105B. Real Analysis. S

Metric spaces, differentiation and integration of functions. The Riemann–Stieltjes integral. Sequences and series of functions. Prerequisite(s): course 105A. The Staff

105C. Real Analysis. *

The Stone–Weierstrass theorem, Fourier series, differentiation and integration of functions of several variables. Prerequisite(s): course 105B. The Staff

106. Systems of Ordinary Differential Equations. W

Linear systems, exponentials of operators, existence and uniqueness, stability of equilibria, periodic attractors, and applications. (Formerly course 106A.) Prerequisite(s): courses 21 and 24 (preferred) or Applied Mathematics and Statistics 10 and 20; and either course 100 or Computer Science 101. The Staff

107. Partial Differential Equations. *

Topics covered include first and second order linear partial differential equations, the heat equation, the wave equation, Laplace's equation, separation of variables, eigenvalue problems, Green's functions, Fourier series. (Formerly course 106B.) Prerequisite(s): courses 21 and 24 (preferred) or Applied Mathematics and Statistics 10 and 20; and either course 100 or Computer Science 101; course 106 is recommended as preparation. The Staff

110. Introduction to Number Theory. F,W

Prime numbers, unique factorization, congruences with applications (e.g., to magic squares). Rational and irrational numbers. Continued fractions. Introduction to Diophantine equations. An introduction to some of the ideas and outstanding problems of modern mathematics. Prerequisite(s): course 100 or Computer Science 101. (General Education Code(s): Q.) The Staff

111A. Algebra. F,W

Group theory including the Sylow theorem, the structure of abelian groups, and permutation groups. Prerequisite(s): course 21

or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. The Staff

111B. Algebra. S

Introduction to rings and fields including polynomial rings, factorization, the classical geometric constructions, and Galois theory. Prerequisite(s): course 111A. The Staff

114. Introduction to Financial Mathematics. *

Financial derivatives: contracts and options. Hedging and risk management. Arbitrage, interest rate, and discounted value. Geometric random walk and Brownian motion as models of risky assets. Ito's formula. Initial boundary value problems for the heat and related partial differential equations. Self-financing replicating portfolio; Black-Scholes pricing of European options. Dividends. Implied volatility. American options as free boundary problems. Corequisite(s): Applied Mathematics and Statistics 131 or Computer Engineering 107. The Staff

115. Graph Theory. *

Graph theory, trees, vertex and edge colorings, Hamilton cycles, Eulerian circuits, decompositions into isomorphic subgraphs, extremal problems, cages, Ramsey theory, Cayley's spanning tree formula, planar graphs, Euler's formula, crossing numbers, thickness, splitting numbers, magic graphs, graceful trees, rotations, and genus of graphs. Prerequisite(s): course 21 or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. The Staff

117. Advanced Linear Algebra. S

Review of abstract vector spaces. Dual spaces, bilinear forms, and the associated geometry. Normal forms of linear mappings. Introduction to tensor products and exterior algebras. Prerequisite(s): course 21 or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. The Staff

118. Advanced Number Theory. S

Topics include divisibility and congruences, arithmetical functions, quadratic residues and quadratic reciprocity, quadratic forms and representations of numbers as sums of squares, Diophantine approximation and transcendence theory, quadratic fields. Additional topics as time permits. Prerequisite(s): course 110 or 111A. The Staff

120. Coding Theory. *

An introduction to mathematical theory of coding. Construction and properties of various codes, such as cyclic, quadratic residue, linear, Hamming, and Golay codes; weight enumerators; connections with modern algebra and combinatorics. Prerequisite(s): course 21. The Staff

121A. Differential Geometry. S

Topics include Euclidean space, tangent vectors, directional derivatives, curves and differential forms in space, mappings. Curves, the Frenet formulas, covariant derivatives, frame fields, the structural equations. The classification of space curves up to rigid motions. Vector fields and differentiable forms on surfaces; the shape operator. Gaussian and mean curvature. The theorem Egregium; global classification of surfaces in three space by curvature. Prerequisite(s): courses 21 and 23B and either course 100 or Computer Science 101. Course 105A strongly recommended. The Staff

121B. Differential Geometry and Topology. *

Examples of surfaces of constant curvature, surfaces of revolutions, minimal surfaces. Abstract manifolds; integration theory; Riemannian manifolds. Total curvature and geodesics; the Euler characteristic, the Gauss-Bonnet theorem. Length-minimizing properties of geodesics, complete surfaces, curvature and conjugate points covering surfaces. Surfaces of constant curvature; the theorems of Bonnet and Hadamard. Prerequisite(s): course 121A. The Staff

124. Introduction to Topology. F

Topics include introduction to point set topology (topological spaces, continuous maps, connectedness, compactness), homotopy relation, definition and calculation of fundamental groups and homology groups, Euler characteristic, classification of orientable and nonorientable surfaces, degree of maps, and Lefschetz fixed-point theorem. Prerequisite(s): course 100; course 111A recommended. The Staff

128A. Classical Geometry: Euclidean and Non-Euclidean. F

Rigorous foundations for Euclidean and non-Euclidean geometries. History of attempts to prove the parallel postulate and of the simultaneous discovery by Gauss, J. Bolyai, and Lobachevsky of hyperbolic geometry. Consistency proved by Euclidean models. Classification of rigid motions in both geometries. Prerequisite(s): either course 100 or Computer Science 101. The Staff

128B. Classical Geometry: Projective. *

Theorems of Desargue, Pascal, and Pappus; projectivities; homogeneous and affine coordinates; conics; relation to perspective drawing and some history. Prerequisite(s): course 21. The Staff

129. Algebraic Geometry. *

Algebraic geometry of affine and projective curves, including conics and elliptic curves; Bezout's theorem; coordinate rings and Hilbert's Nullstellensatz; affine and projective varieties; and regular and singular varieties. Other topics, such as blow-ups and algebraic surfaces as time permits. Prerequisite(s): courses 21 and 100. Enrollment limited to 40. The Staff

130. Celestial Mechanics. *

Solves the two-body (or Kepler) problem, then moves onto the N-body problem where there are many open problems. Includes central force laws; orbital elements; conservation of linear momentum, energy, and angular momentum; the Lagrange-Jacobi formula; Sundman's theorem for total collision; virial theorem; the three-body problem; Jacobi coordinates; solutions of Euler and of Lagrange; and restricted three-body problem. Prerequisite(s): courses 19A-B and course 23A or Physics 5A or 6A; courses 21 and 24 strongly recommended. Enrollment limited to 35. The Staff

134. Cryptography. *

Introduces different methods in cryptography (shift cipher, affine cipher, Vigenere cipher, Hill cipher, RSA cipher, ElGamal cipher, knapsack cipher). The necessary material from number theory and probability theory is developed in the course. Common methods to attack ciphers discussed. Prerequisite(s): course 100; course 110 recommended as preparation. The Staff

140. Industrial Mathematics. *

Introduction to mathematical modeling of industrial problems. Problems in air quality remediation, image capture and reproduction, and crystallization are modeled as ordinary and partial differential equations then analyzed using a combination of qualitative and quantitative methods. Prerequisite(s): course 24 and either course 100 or Computer Science 101, and course 105A. The Staff

145. Introductory Chaos Theory. W

The Lorenz and Rossler attractors, measures of chaos, attractor reconstruction, applications from the sciences. Students cannot receive credit for this course and Applied Mathematics and Statistics 146. Prerequisite(s): course 22 or 23A; course 21; course 100 or Computer Science 101. Concurrent enrollment in course 145L is required. The Staff

145L. Introductory Chaos Laboratory (1 credit). W

Laboratory sequence illustrating topics covered in course 145. One three-hour session per week in microcomputer laboratory. Concurrent enrollment in course 145 is required. The Staff

148. Numerical Analysis. *

The theory of constructive methods in mathematical analysis and its application with scientific computation. Some typical topics are difference equations, linear algebra, iteration, Bernoulli's method, quotient difference algorithm, the interpolating polynomial, numerical differentiation and integration, numerical solution of differential equations, finite Fourier series. Prerequisite(s): course 22 or 23A; course 21 and 24 or Applied Mathematics and Statistics 10 and 20; course 100 or Computer Science 101. Concurrent enrollment in course 148L is required. The Staff

148L. Numerical Analysis Laboratory (1 credit). *

Laboratory sequence illustrating topics covered in course 148. One three-hour session per week in microcomputer laboratory. Concurrent enrollment in course 148 is required. The Staff

160. Mathematical Logic I. S

Propositional and predicate calculus. Resolution, completeness, compactness, and Lowenheim-Skolem theorem. Recursive functions, Godel incompleteness theorem. Undecidable theories. Hilbert's 10th problem. Prerequisite(s): course 100 or Computer Science 101. The Staff

161. Mathematical Logic II. *

Naive set theory and its limitations (Russell's paradox); construction of numbers as sets; cardinal and ordinal numbers; cardinal and ordinal arithmetic; transfinite induction; axiom systems for set theory, with particular emphasis on the axiom of choice and the regularity axiom and their consequences (such as, the Banach-Tarski paradox); continuum hypothesis. Prerequisite(s): course 100 or equivalent, or by permission of instructor. Enrollment limited to 45. The Staff

181. History of Mathematics. W

A survey from a historical point of view of various developments in mathematics. Specific topics and periods to vary yearly. (General Education Code(s): TA.) The Staff

188. Supervised Teaching. F,W,S

Supervised tutoring in self-paced courses. May not be repeated for credit. Students submit petition to sponsoring agency. (General Education Code(s): PR-S.) The Staff

189. ACE Program Service Learning (2 credits). F

Students participate in training and development to co-facilitate collaborative learning in ACE chemistry discussion sections and midterm/exam review sessions. Students are role models for students pursuing science- and math-intensive majors.

Prerequisite(s): Prior participation in ACE; good academic standing; no non-passing grades in prior quarter. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 10. (General Education Code(s): PR-S.) The Staff

194. Senior Seminar. W,S

Designed to expose the student to topics not normally covered in the standard courses. The format varies from year to year. In recent years each student has written a paper and presented a lecture on it to the class. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 103 or 105A or 111A. Enrollment priority given to seniors. The Staff

195. Senior Thesis. F,W,S

Students research a mathematical topic under the guidance of a faculty sponsor and write a senior thesis demonstrating knowledge of the material. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200. Algebra I. F

Group theory: subgroups, cosets, normal subgroups, homomorphisms, isomorphisms, quotient groups, free groups, generators and relations, group actions on a set. Sylow theorems, semidirect products, simple groups, nilpotent groups, and solvable groups. Ring theory: Chinese remainder theorem, prime ideals, localization. Euclidean domains, PIDs, UFDs, polynomial rings.

Prerequisite(s): courses 111A and 117 are recommended as preparation. Enrollment restricted to graduate students. May be repeated for credit. The Staff

201. Algebra II. W

Vector spaces, linear transformations, eigenvalues and eigenvectors, the Jordan canonical form, bilinear forms, quadratic forms, real symmetric forms and real symmetric matrices, orthogonal transformations and orthogonal matrices, Euclidean space, Hermitian forms and Hermitian matrices, Hermitian spaces, unitary transformations and unitary matrices, skewsymmetric forms, tensor products of vector spaces, tensor algebras, symmetric algebras, exterior algebras, Clifford algebras and spin groups. Prerequisite(s): Course 200 is recommended as preparation. Enrollment restricted to graduate students. The Staff

202. Algebra III. S

Module theory: Submodules, quotient modules, module homomorphisms, generators of modules, direct sums, free modules, torsion modules, modules over PIDs, and applications to rational and Jordan canonical forms. Field theory: field extensions, algebraic and transcendental extensions, splitting fields, algebraic closures, separable and normal extensions, the Galois theory, finite fields, Galois theory of polynomials. Prerequisite(s): Course 201 is recommended as preparation. Enrollment restricted to graduate students. The Staff

203. Algebra IV. F

Topics include tensor product of modules over rings, projective modules and injective modules, Jacobson radical, Wedderburns' theorem, category theory, Noetherian rings, Artinian rings, affine varieties, projective varieties, Hilbert's Nullstellensatz, prime spectrum, Zariski topology, discrete valuation rings, and Dedekind domains. Prerequisite(s): courses 200, 201, and 202.

Enrollment restricted to graduate students. The Staff

204. Analysis I. F

Completeness and compactness for real line; sequences and infinite series of functions; Fourier series; calculus on Euclidean space and the implicit function theorem; metric spaces and the contracting mapping theorem; the Arzela-Ascoli theorem; basics of general topological spaces; the Baire category theorem; Urysohn's lemma; and Tychonoff's theorem. Prerequisite(s): courses 105A and 105B are recommended as preparation. Enrollment restricted to graduate students. The Staff

205. Analysis II. W

Lebesgue measure theory, abstract measure theory, measurable functions, integration, space of absolutely integrable functions, dominated convergence theorem, convergence in measure, Riesz representation theorem, product measure and Fubini's theorem. L_p spaces, derivative of a measure, the Radon-Nikodym theorem, and the fundamental theorem of calculus.

Prerequisite(s): course 204. Enrollment restricted to graduate students. The Staff

206. Analysis III. S

Banach spaces, Hahn-Banach theorem, uniform boundedness theorem, the open mapping and closed graph theorems, weak

and weak* topology, the Banach–Alaoglu theorem, Hilbert spaces, self-adjoint operators, compact operators, spectral theory, Fredholm operators, spaces of distributions and the Fourier transform, and Sobolev spaces. Prerequisite(s): Courses 204 and 205 recommended as preparation. Enrollment restricted to graduate students. The Staff

207. Complex Analysis. W

Holomorphic and harmonic functions, Cauchy's integral theorem, the maximum principle and its consequences, conformal mapping, analytic continuation, the Riemann mapping theorem. Prerequisite(s): Course 103 is recommended as preparation. Enrollment restricted to graduate students. The Staff

208. Manifolds I. F

Definition of manifolds; the tangent bundle; the inverse function theorem and the implicit function theorem; transversality; Sard's theorem and the Whitney embedding theorem; vector fields, flows, and the Lie bracket; Frobenius's theorem. Course 204 recommended for preparation. Enrollment restricted to graduate students. The Staff

209. Manifolds II. W

Tensor algebra. Differential forms and associated formalism of pullback, wedge product, exterior derivative, Stokes theorem, integration. Cartan's formula for Lie derivative. Cohomology via differential forms. The Poincaré lemma and the Mayer–Vietoris sequence. Theorems of deRham and Hodge. Prerequisite(s): course 208. Course 201 is recommended as preparation. Enrollment restricted to graduate students. The Staff

210. Manifolds III. S

The fundamental group, covering space theory and van Kampen's theorem (with a discussion of free and amalgamated products of groups), CW complexes, higher homotopy groups, cellular and singular cohomology, the Eilenberg–Steenrod axioms, computational tools including Mayer–Vietoris, cup products, Poincaré duality, the Lefschetz fixed point theorem, the exact homotopy sequence of a fibration and the Hurewicz isomorphism theorem, and remarks on characteristic classes. Prerequisite(s): Courses 208 and 209 recommended as preparation. Enrollment restricted to graduate students. The Staff

211. Algebraic Topology. *

Continuation of course 210. Topics include theory of characteristic classes of vector bundles, cobordism theory, and homotopy theory. Prerequisite(s): Courses 200, 201, and 202 recommended as preparation. Enrollment restricted to graduate students. The Staff

212. Differential Geometry. S

Principal bundles, associated bundles and vector bundles, connections and curvature on principal and vector bundles. More advanced topics include: introduction to cohomology, the Chern–Weil construction and characteristic classes, the Gauss–Bonnet theorem or Hodge theory, eigenvalue estimates for Beltrami Laplacian, and comparison theorems in Riemannian geometry. Prerequisite(s): course 208. Enrollment restricted to graduate students. The Staff

213A. Partial Differential Equations I. F

First of the two PDE courses covering basically Part I in Evans' book; Partial Differential Equations; which includes transport equations; Laplace equations; heat equations; wave equations; characteristics of nonlinear first-order PDE; Hamilton–Jacobi equations; conservation laws; some methods for solving equations in closed form; and the Cauchy–Kovalevskaya theorem. Courses 106 and 107 are recommended as preparation. Enrollment restricted to graduate students. The Staff

213B. Partial Differential Equations II. *

Second course of the PDE series covering basically most of Part II in Evans' book and some topics in nonlinear PDE including Sobolev spaces, Sobolev inequalities, existence, regularity and a priori estimates of solutions to second order elliptic PDE, parabolic equations, hyperbolic equations and systems of conservation laws, and calculus of variations and its applications to PDE. Prerequisite(s): Courses 106, 107, and 213A are recommended as preparation. Enrollment restricted to graduate students. The Staff

214. Theory of Finite Groups. *

Nilpotent groups, solvable groups, Hall subgroups, the Frattini subgroup, the Fitting subgroup, the Schur–Zassenhaus theorem, fusion in p -subgroups, the transfer map, Frobenius theorem on normal p -complements. Prerequisite(s): Courses 200 and 201 recommended as preparation. Enrollment restricted to graduate students. The Staff

215. Operator Theory. *

Operators on Banach spaces and Hilbert spaces. The spectral theorem. Compact and Fredholm operators. Other special classes of operators. Prerequisite(s): Courses 204, 205, 206, and 207 are recommended as preparation. Enrollment restricted to graduate students. The Staff

216. Advanced Analysis. *

Topics include: the Lebesgue set, the Marcinkiewicz interpolation theorem, singular integrals, the Calderon–Zygmund theorem, Hardy Littlewood–Sobolev theorem, pseudodifferential operators, compensated compactness, concentration compactness, and applications to PDE. Prerequisite(s): Courses 204, 205, and 206 recommended as preparation. Enrollment restricted to graduate students. The Staff

217. Advanced Elliptic Partial Differential Equations. *

Topics include elliptic equations, existence of weak solutions, the Lax–Milgram theorem, interior and boundary regularity, maximum principles, the Harnack inequality, eigenvalues for symmetric and non-symmetric elliptic operators, calculus of variations (first variation: Euler–Lagrange equations, second variation: existence of minimizers). Other topics covered as time permits. Prerequisite(s): Courses 204, 205, and 206 recommended as preparation. Enrollment restricted to graduate students. The Staff

218. Advanced Parabolic and Hyperbolic Partial Differential Equations. *

Topics include: linear evolution equations, second order parabolic equations, maximum principles, second order hyperbolic equations, propagation of singularities, hyperbolic systems of first order, semigroup theory, systems of conservation laws, Riemann problem, simple waves, rarefaction waves, shock waves, Riemann invariants, and entropy criteria. Other topics covered as time permits. Prerequisite(s): courses 205 and 206. Enrollment restricted to graduate students. The Staff

219. Nonlinear Functional Analysis. *

Topological methods in nonlinear partial differential equations, including degree theory, bifurcation theory, and monotonicity. Topics also include variational methods in the solution of nonlinear partial differential equations. Enrollment restricted to graduate students. The Staff

220A. Representation Theory I. *

Lie groups and Lie algebras, and their finite dimensional representations. Prerequisite(s): courses 200, 201, and 202. Courses 225A and 227 recommended as preparation. Enrollment restricted to graduate students. The Staff

220B. Representation Theory II. *

Lie groups and Lie algebras, and their finite dimensional representations. Prerequisite(s): course 220A. Enrollment restricted to graduate students. The Staff

222A. Algebraic Number Theory. *

Topics include algebraic integers, completions, different and discriminant, cyclotomic fields, parallelotopes, the ideal function, ideles and adeles, elementary properties of zeta functions and L-series, local class field theory, global class field theory. Courses 200, 201, and 202 are recommended as preparation. Enrollment restricted to graduate students. The Staff

222B. Algebraic Number Theory. *

Topics include geometric methods in number theory, finiteness theorems, analogues of Riemann–Roch for algebraic fields (after A. Weil), inverse Galois problem (Belyi theorem) and consequences. Enrollment restricted to graduate students. The Staff

223A. Algebraic Geometry I. W

Topics include examples of algebraic varieties, elements of commutative algebra, local properties of algebraic varieties, line bundles and sheaf cohomology, theory of algebraic curves. Weekly problem solving. Courses 200, 201, 202, and 208 are recommended as preparation. Enrollment restricted to graduate students. The Staff

223B. Algebraic Geometry II. S

A continuation of course 223A. Topics include theory of schemes and sheaf cohomology, formulation of the Riemann–Roch theorem, birational maps, theory of surfaces. Weekly problem solving. Course 223A is recommended as preparation. Enrollment restricted to graduate students. The Staff

225A. Lie Algebras. F

Basic concepts of Lie algebras. Engel's theorem, Lie's theorem, Weyl's theorem are proved. Root space decomposition for semi-simple algebras, root systems and the classification theorem for semi-simple algebras over the complex numbers. Isomorphism and conjugacy theorems. Prerequisite(s): Courses 201 and 202 recommended as preparation. Enrollment restricted to graduate students. The Staff

225B. Infinite Dimensional Lie Algebras. *

Finite dimensional semi-simple Lie algebras: PBW theorem, generators and relations, highest weight representations, Weyl character formula. Infinite dimensional Lie algebras: Heisenberg algebras, Virasoro algebras, loop algebras, affine Kac–Moody algebras, vertex operator representations. Prerequisite(s): course 225A. Enrollment restricted to graduate students. The Staff

226A. Infinite Dimensional Lie Algebras and Quantum Field Theory I. *

Introduction to the infinite-dimensional Lie algebras that arise in modern mathematics and mathematical physics: Heisenberg and Virasoro algebras, representations of the Heisenberg algebra, Verma modules over the Virasoro algebra, the Kac determinant formula, and unitary and discrete series representations. Enrollment restricted to graduate students. The Staff

226B. Infinite Dimensional Lie Algebras and Quantum Field Theory II.*

Continuation of course 226A: Kac–Moody and affine Lie algebras and their representations, integrable modules, representations via vertex operators, modular invariance of characters, and introduction to vertex operator algebras. Enrollment restricted to graduate students. The Staff

227. Lie Groups. *

Lie groups and algebras, the exponential map, the adjoint action, Lie's three theorems, Lie subgroups, the maximal torus theorem, the Weyl group, some topology of Lie groups, some representation theory: Schur's Lemma, the Peter–Weyl theorem, roots, weights, classification of Lie groups, the classical groups. Prerequisite(s): courses 200, 201, 204, and 208. Enrollment restricted to graduate students. The Staff

228. Lie Incidence Geometries. *

Linear incidence geometry is introduced. Linear and classical groups are reviewed, and geometries associated with projective and polar spaces are introduced. Characterizations are obtained. Enrollment restricted to graduate students. The Staff

229. Kac–Moody Algebras. S

Theory of Kac–Moody algebras and their representations. The Weil–Kac character formula. Emphasis on representations of affine superalgebras by vertex operators. Connections to combinatorics, PDE, the monster group. The Virasoro algebra. Enrollment restricted to graduate students. The Staff

232. Morse Theory. *

Classical Morse Theory. The fundamental theorems relating critical points to the topology of a manifold are treated in detail. The Bolt Periodicity Theorem. A specialized course offered once every few years. Prerequisite(s): Courses 208, 209, 210, 211, and 212 recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. The Staff

233. Random Matrix Theory. *

Classical matrix ensembles; Wigner semi-circle law; method of moments. Gaussian ensembles. Method of orthogonal polynomials; Gaudin lemma. Distribution functions for spacings and largest eigenvalue. Asymptotics and Riemann–Hilbert problem. Painleve theory and the Tracy–Widom distribution. Selberg's Integral. Matrix ensembles related to classical groups; symmetric functions theory. Averages of characteristic polynomials. Fundamentals of free probability theory. Overview of connections with physics, combinatorics, and number theory. Prerequisite(s): courses 103, 204, and 205; course 117 recommended as preparation. Enrollment restricted to graduate students. The Staff

234. Riemann Surfaces. W

Riemann surfaces, conformal maps, harmonic forms, holomorphic forms, the Reimann–Roch theorem, the theory of moduli. Enrollment restricted to graduate students. The Staff

235. Dynamical Systems Theory. F

An introduction to the qualitative theory of systems of ordinary differential equations. Structural stability, critical elements, stable manifolds, generic properties, bifurcations of generic arcs. Prerequisite(s): courses 106A, 203, and 208. Enrollment restricted to graduate students. The Staff

238. Elliptic Functions and Modular Forms. F

The course, aimed at second-year graduate students, will cover the basic facts about elliptic functions and modular forms. The goal is to provide the student with foundations suitable for further work in advanced number theory, in conformal field theory, and in the theory of Riemann surfaces. Successful completion of graduate algebra sequence (courses 200–202) and either 207 or 103 are recommended as preparation. Enrollment restricted to graduate students. The Staff

239. Homological Algebra. *

Homology and cohomology theories have proven to be powerful tools in many fields (topology, geometry, number theory, algebra). Independent of the field, these theories use the common language of homological algebra. The aim of this course is to acquaint the participants with basic concepts of category theory and homological algebra, as follows: chain complexes, homology, homotopy, several (co)homology theories (topological spaces, manifolds, groups, algebras, Lie groups), projective and injective resolutions, derived functors (Ext and Tor). Depending on time, spectral sequences or derived categories may also be treated. Courses 200 and 202 strongly recommended. Enrollment restricted to graduate students. The Staff

240A. Representations of Finite Groups I. W

Introduces ordinary representation theory of finite groups (over the complex numbers). Main topics are characters, orthogonality relations, character tables, induction and restriction, Frobenius reciprocity, Mackey's formula, Clifford theory, Schur indicator, Schur index, Artin's and Brauer's induction theorems. Recommended: successful completion of courses 200–202. Enrollment restricted to graduate students. The Staff

240B. Representations of Finite Groups II. *

Introduces modular representation theory of finite groups (over a field of positive characteristic). Main topics are Grothendieck groups, Brauer characters, Brauer character table, projective covers, Brauer–Cartan triangle, relative projectivity, vertices, sources, Green correspondence, Green's indecomposability theorem. Recommended completion of courses 200–203 and 240A. Prerequisite(s): Courses 200, 201, 202, 203, and 240A recommended. Enrollment restricted to graduate students. The Staff

246. Representations of Algebras. *

Material includes associative algebras and their modules; projective and injective modules; projective covers; injective hulls; Krull–Schmidt Theorem; Cartan matrix; semisimple algebras and modules; radical, simple algebras; symmetric algebras; quivers and their representations; Morita Theory; and basic algebras. Prerequisite(s): courses 200, 201, and 202. Enrollment restricted to graduate students. The Staff

248. Symplectic Geometry. W

Basic definitions. Darboux theorem. Basic examples: cotangent bundles, Kähler manifolds and co–adjoint orbits. Normal form theorems. Hamiltonian group actions, moment maps. Reduction by symmetry groups. Atiyah–Guillemin–Sternberg convexity. Introduction to Floer homological methods. Relations with other geometries including contact, Poisson, and Kähler geometry. Prerequisite(s): course 204; courses 208 and 209 are recommended as preparation. Enrollment restricted to graduate students. The Staff

249A. Mechanics I. *

Covers symplectic geometry and classical Hamiltonian dynamics. Some of the key subjects are the Darboux theorem, Poisson brackets, Hamiltonian and Lagrangian systems, Legendre transformations, variational principles, Hamilton–Jacobi theory, geodesic equations, and an introduction to Poisson geometry. Courses 208 and 209 are recommended as preparation. Courses 208 and 209 recommended as preparation. Enrollment restricted to graduate students. The Staff

249B. Mechanics II. *

Hamiltonian dynamics with symmetry. Key topics center around the momentum map and the theory of reduction in both the symplectic and Poisson context. Applications are taken from geometry, rigid body dynamics, and continuum mechanics. Course 249A is recommended as preparation. Enrollment restricted to graduate students. The Staff

249C. Mechanics III. *

Introduces students to active research topics tailored according to the interests of the students. Possible subjects are complete integrability and Kac–Moody Lie algebras; Smale's topological program and bifurcation theory; KAM theory, stability and chaos; relativity; quantization. Course 249B is recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. The Staff

252. Fluid Mechanics. *

First covers a basic introduction to fluid dynamics equations and then focuses on different aspects of the solutions to the Navier–Stokes equations. Prerequisite(s): courses 106 and 107 are recommended as preparation. Enrollment restricted to graduate students. The Staff

254. Geometric Analysis. *

Introduction to some basics in geometric analysis through the discussions of two fundamental problems in geometry: the resolution of the Yamabe problem and the study of harmonic maps. The analytic aspects of these problems include Sobolev spaces, best constants in Sobolev inequalities, and regularity and a priori estimates of systems of elliptic PDE. Courses 204, 205, 209, 212, and 213 recommended as preparation. Enrollment restricted to graduate students. The Staff

256. Algebraic Curves. *

Introduction to compact Riemann surfaces and algebraic geometry via an in–depth study of complex algebraic curves. Courses 200, 201, 202, 203, 204, and 207 are recommended as preparation. Enrollment restricted to graduate mathematics and physics students. The Staff

260. Combinatorics. *

Combinatorial mathematics, including summation methods, binomial coefficients, combinatorial sequences (Fibonacci, Stirling, Eulerian, harmonic, Bernoulli numbers), generating functions and their uses, Bernoulli processes and other topics in discrete probability. Oriented toward problem solving applications. Applications to statistical physics and computer science. Enrollment restricted to graduate students. The Staff

280. Topics in Analysis. *

Enrollment restricted to graduate students. The Staff

281. Topics in Algebra. S

Enrollment restricted to graduate students. The Staff

282. Topics in Geometry. *

Enrollment restricted to graduate students. The Staff

283. Topics in Combinatorial Theory. *

Enrollment restricted to graduate students. The Staff

284. Topics in Dynamics. *

Enrollment restricted to graduate students. The Staff

285. Topics in Partial Differential Equations. *

Topics such as derivation of the Navier–Stokes equations. Examples of flows including water waves, vortex motion, and boundary layers. Introductory functional analysis of the Navier–Stokes equation. Enrollment restricted to graduate students. The Staff

286. Topics in Number Theory. *

Topics in number theory, selected by instructor. Possibilities include modular and automorphic forms, elliptic curves, algebraic number theory, local fields, the trace formula. May also cover related areas of arithmetic algebraic geometry, harmonic analysis, and representation theory. Courses 200, 201, 202, and 205 are recommended as preparation. Enrollment restricted to graduate students. The Staff

287. Topics in Topology. *

Topics in topology, selected by the instructor. Possibilities include generalized (co)homology theory including K-theory, group actions on manifolds, equivariant and orbifold cohomology theory. Enrollment restricted to graduate students. May be repeated for credit. The Staff

292. Seminar (no credit). F,W,S

A weekly seminar attended by faculty, graduate students, and upper-division undergraduate students. All graduate students are expected to attend. Enrollment restricted to graduate students. The Staff

296. Special Student Seminar. F,W,S

Students and staff studying in an area where there is no specific course offering at that time. Enrollment restricted to graduate students. The Staff

297. Independent Study. F,W,S

Either study related to a course being taken or a totally independent study. Enrollment restricted to graduate students. The Staff

298. Master's Thesis Research. F,W,S

Enrollment restricted to graduate students. The Staff

299. Thesis Research. F,W,S

Enrollment restricted to graduate students. The Staff

* Not offered in 2012–13

Lower-Division Courses

10. Becoming a Successful Student (2 credits). *

An interactive course providing the opportunity to assess and revise methods of and purposes in studying. Critical, effective approaches to reading, writing, participating in lectures and sections, taking exams, balancing competing responsibilities, and utilizing campus resources are explored. Contact college office for interview-only criteria. Enrollment limited to 30. The Staff

20N. Re-Evaluation Counseling. *

Class introduces the fundamentals of re-evaluation counseling (co-counseling) and focuses on those aspects of the theory and practice which facilitate living in a diverse world. Interview with instructor before first class meeting. Enrollment limited to 20. Offered in alternate academic years. P. Roby

28. Peer Leadership in Co-Curricular Settings (2 credits). S

Introductory course for student leaders combining theoretical background and practical applications. Topics include: student-development theory; communication strategies; leadership-skills assessment; and intergroup relations. Includes readings, discussions, self-reflection, and lectures. Resident assistant (RA) pre-employment training course. Enrollment by interview only: approval of instructor required. Enrollment restricted to selection as resident assistant (RA), program assistant, or alternate for Merrill College. Enrollment limited to 30. May be repeated for credit. The Staff

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division students under faculty supervision. (See course 192.) The Staff

80A. Introduction to University Discourse: Cultural Identities and Global Consciousness. F
Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Examines world poverty, imperialism, and nationalism; peoples' need to assert their cultural identities; and the benefits of individuals' absorption in worthy causes. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. (General Education Code(s): T3–Social Sciences, C1, E.) The Staff

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Examines world poverty, imperialism, and nationalism; peoples' need to assert their cultural identities; and the benefits of individuals' absorption in worthy causes. Incorporates outside research. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first–year college members. (General Education Code(s): T3–Social Sciences, C2, E.) The Staff

80C. Merrill Seminar. S

Research–based seminar on a topic of particular cultural, historical, or contemporary interest, open to all undergraduate students, taught by either a Merrill College Fellow or other member of the UCSC faculty. (General Education Code(s): T5–Humanities and Arts or Social Sciences.) The Staff

80L. Merrill Core Visual Laboratory (2 credits). *

Visual laboratory designed to work in tandem with the Merrill Core Course to enhance learning for students with diverse skills and learning styles. Open to first–year Merrill students currently enrolled in course 80A, 80B, or 80X. Required of students in the Merrill Frosh Scholars Program. Concurrent enrollment in course 80A, 80B, or 80X is required. The Staff

80X. Introduction to University Discourse: Cultural Identities and Global Consciousness(Frosh Scholar). *

Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Examines world poverty, imperialism, and nationalism; people's need to assert their cultural identities; and the benefits of individuals' absorption in worthy causes. Permission of instructor required; selection for this year–long scholars program based on application submitted prior to fall quarter. Enrollment restricted to first–year college members. Enrollment limited to 22. (General Education Code(s): T3–Social Sciences, C1, E.) The Staff

80Z. Merrill Scholars Seminar. *

Research–based, writing–intensive seminar focusing on the construction of persuasive arguments. Explores topics of cultural, historical, and/or political interest, taught by a Merrill College Fellow. Topic will change yearly. Enrollment restricted to Merrill Frosh Scholars program participants. Enrollment limited to 22. (General Education Code(s): T5–Humanities and Arts or Social Sciences, C2.) The Staff

85B. Merrill Classroom Connection Field Study (3 credits). F,W,S

Supervised hands–on experience assisting in local elementary classrooms. Students attend UCSC class meetings, complete relevant readings in educational theory, and present a final assignment. Priority enrollment restricted to Merrill College members. May be repeated for credit. (General Education Code(s): PR–S.) The Staff

85C. Merrill Classroom Connection Field Study (2 credits). F,W,S

Supervised hands–on experience assisting in local elementary school classrooms. Students also attend UCSC course meetings, complete relevant readings in educational theory, and present a final assignment. Priority enrollment restricted to Merrill College members. May be repeated for credit. (General Education Code(s): PR–S.) The Staff

93. Field Study. F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in any one quarter. Approval of student's adviser and provost required. The Staff

93F. Field Study (2 credits). F,W,S

Provides for individual program of study sponsored by the college and performed off campus. Approval of instructor required. May be repeated for credit. The Staff

93G. Field Study (3 credits). F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Approval of instructor required. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. The Staff

Upper-Division Courses

120. Personal Empowerment. W
Intensive course on individual goal-oriented behavior, commonly called problem solving. Focus on purpose, goals, meaning, emotions, languages, model-building, reality, thinking, logic, creativity, the steps of problem solving, common blocks, and techniques of unblocking. Meet with instructor prior to advance enrollment; priority given to upper-level students. Enrollment limited to 20. F. Andrews

180. Research Skills for College and Beyond (2 credits). W
Focuses on exploration/development of skills for planning, study habits, research, networking, and communication skills for college, graduate and professional school, and beyond. Primary focus is on writing, public speaking, and academic and professional research. Enrollment restricted to junior and senior college members. Enrollment limited to 15. S. Amador

192. Directed Student Teaching. F,W,S
Teaching of a lower-division seminar by an upper-division student under faculty supervision. (See course 42.) Students submit petition to sponsoring agency, supported by faculty member willing to supervise. The Staff

193. Field Study. F,W,S
Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. The Staff

193F. Field Study (2 credits). F,W,S
Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. May be repeated for credit. The Staff

193G. Field Study (3 credits). F,W,S
Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S
A program of independent study arranged between a group of students and a faculty member. The Staff

195. Senior Research Project. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S
Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. This may be a multiple-term course extending over two or three quarters; in this case the grade and evaluation submitted for the final quarter apply to all previous quarters. Petitions may be obtained at the Merrill College Office. Approval of student's adviser, certification of adequate preparation, and approval by the Merrill Provost required. May be repeated for credit. The Staff

199. Tutorial. F,W,S
Various topics to be arranged between student and instructor. Students submit petition to

sponsoring agency. May be repeated for credit. The Staff

Program Description

The Microbiology and Environmental Toxicology Department (formerly the Environmental Toxicology Department) sponsors undergraduate and graduate courses in microbiology and environmental toxicology, both within the department and through affiliated departments. The curriculum offers a strong foundation in fundamental and applied toxicology and microbiology to provide the breadth and depth of perspective required for this interdisciplinary science. Research interests of students and faculty in microbiology and environmental toxicology span the fields of biology, microbiology, chemistry, Earth sciences, ocean sciences, environmental studies, and human health.

Undergraduate Programs

While the Microbiology and Environmental Toxicology Department only awards graduate degrees, it does offer a select number of undergraduate courses to prepare and attract promising undergraduates for advanced studies in microbiology and environmental toxicology or related disciplines. Students interested in microbiology and environmental toxicology should major in a field such as biology; marine biology; molecular, cell, and developmental biology; biochemistry; chemistry; Earth sciences; engineering; or environmental studies while taking microbiology and environmental toxicology electives.

In addition, the program provides unique opportunities for exceptional undergraduates to conduct research in microbiology and environmental toxicology. These opportunities are limited to students who have demonstrated their potential in undergraduate courses in the basic sciences and environmental toxicology. With department approval, these undergraduates may also take graduate courses in microbiology and environmental toxicology. That coursework will be applied toward a graduate degree in microbiology and environmental toxicology if they are accepted into the program.

Graduate Programs

Graduate training in the Department of Microbiology and Environmental Toxicology (METX) prepares students to solve important problems in the field of environmental health by providing stimulating coursework, extensive scientific presentation training, and in-depth research that culminates in a thesis. There is no other program in the world that educates

students to appreciate the interplay between microbes, chemical toxins, and health and provides the training students require to work effectively in a complex world. Graduate training in the METX department prepares students to become leaders in the field, following career paths in academia, teaching, industry, and government. Master of science (M.S.) students typically finish in two years and doctor of philosophy (Ph.D.) students in four to six years.

Key components of our graduate training include:

- Core course utilizing a case study format: METX 200, Interdisciplinary Approaches to Problems at the Interface of Microbiology and Environmental Toxicology.
- Core course devoted to grant–writing skills: METX 205, Scientific Skills, Ethics, and Writing.
- Personalized class plan for the remaining three courses to fit the student’s background and research goals. Possible courses include METX 201, Sources and Fates of Pollutants, METX 202, Cell and Molecular Toxicology, METX 206A, Advanced Microbiology, METX 210, Molecular and Cellular Basis of Bacterial Pathogenesis, METX 238, Pathogenesis: Molecular Mechanisms of Disease, and METX 250, Environmental Microbiology, as well as courses in other departments such as Ocean Sciences 220, Chemical Oceanography, and Molecular Cell and Developmental Biology 200B, Advanced Molecular Genetics.
- Speaking presentation skills training through coursework and yearly departmental presentations. Scientific writing and literature mastery through the writing of a literature review in the first year. Weekly seminars expose students to the breadth of our fields and provide students with opportunities to interact closely with speakers to form connections and collaborations.
- Qualifying examinations designed to perfect the student’s ability to craft research plans.
- Extensive laboratory research training that starts immediately upon entering the program and culminates in the student’s master’s thesis or Ph.D. dissertation.

Sample Pathways

Pathways within the microbiology and environmental toxicology graduate program focus on interdisciplinary approaches to addressing problems in environmental and public health. We offer several defined training pathways, and also encourage students to create their own.

Metals in the Environment

Research includes how organisms are exposed to metals, how these metals cause toxicity, and investigating the concentration, speciation, and isotopic composition of contaminant metals and metalloids.

Microbiology

Microbiology provides research training on molecular genetic analysis of both non–pathogenic and pathogenic microbes. Students study host–pathogen interactions, ecology and evolution of pathogenic microorganisms, adaptation of pathogenic and non–pathogenic microorganisms to environmental stresses, and mechanisms of microbial biotransformation of pollutants and toxic metals.

Cellular and Organismal Toxicology

This pathway provides training in the biochemical, molecular, cellular, and physiological processes that are impacted by exposures to such contaminants as toxic metals. Research includes exposure pathways and toxicity of contaminants and pathogens within humans, with emphasis on the molecular and cellular mechanisms underlying toxicity.

Program Requirements

The microbiology and environmental toxicology student's curriculum (courses METX) is tailored to the individual, creating a graduate experience that combines essential background material with coursework at the frontiers of science. The student, in conjunction with a faculty committee, chooses classes to complement the Ph.D. or master's thesis work that each student is performing. Students are encouraged to explore

new areas and bring this expertise back to their thesis research.

Requirements for both Master's and Ph.D. Students in Microbiology and Environmental Toxicology

1. Core coursework. METX 200, Interdisciplinary Approaches to Problems at the Interface of Microbiology and Environmental Toxicology, and METX 205, Scientific Skills, Ethics, and Writing, must be taken and passed with at least a B.
2. Additional coursework. Two courses from the following: METX 201, 202, 206A, 210, 238, 250, and at least one additional approved graduate-level course within Microbiology and Environmental Toxicology or another department. Students must enroll in METX 281, 292, and 297 or 299 each quarter. Additional courses as recommended by your first-year advising committee. Must be passed with at least a B.
3. Literature review. Under direction of the student's adviser, write a literature review of the current state of the field of the proposed dissertation research. The written review will be handed in to the student's adviser at the end of the summer of the first year.
4. Department seminar. Give a 20-minute departmental seminar each academic year, and one 50-minute departmental seminar during the fall quarter of the third year if a doctoral student, or in spring of the second year if a master's student.

Requirements specific to the Ph.D. degree

1. Teaching assistant. Doctoral students are required to work as teaching assistants (TA) for at least one quarter. Priority for TA positions is given to first-year doctoral students, then to current doctoral students who have not yet worked as a teaching assistant.
2. Ph.D. qualifying examination (QE1—microbiology and environmental toxicology internal). Part I of the qualifying examination consists of two portions: preparation and defense of an independent research proposal, and knowledge of material presented in the microbiology and environmental toxicology core courses taken by the student. The student must complete QE1 no later than spring quarter of the second year.
3. Third-year seminar and thesis proposal. The student will present a 50-minute seminar on his/her dissertation research proposal no later than the end of fall quarter in the third year.
4. Ph.D. qualifying examination (QE2). Present and defend a dissertation research proposal to the student's Ph.D. qualifying examination (QE) committee. The student must complete QE2 no later than fall quarter of the third year.
5. Advancement to candidacy. The student advances to candidacy after completing all coursework, completing the literature review, giving a second-year seminar and passing the Ph. D. qualifying examination parts I and II.
6. Dissertation defense. The student must submit their doctoral dissertation to the dissertation committee for tentative approval at least one month before presenting a formal, public doctoral research seminar.

Requirements specific to the Master's degree

1. Master's comprehensive examination. The master's comprehensive exam is a presentation and defense of the student's master's research proposal, including relevant background knowledge. The examination will not be specifically course-based, but will draw on knowledge from courses. This examination is taken in the fall quarter of the second year.
2. Second-year seminar. The student will present a 50-minute seminar on his/her thesis work in spring quarter of the second year.
3. Thesis. Students are required to submit a thesis for fulfillment of the degree requirements. The thesis should be submitted to the student's master's reading committee one month before the due date.

Environmental Toxicology

Kenneth W. Bruland (Ocean Sciences)
Biogeochemistry of trace metals

Don Croll (Ecology and Evolutionary Biology)
Foraging ecology of marine sea birds and mammals, island conservation/ecology

Andrew Fisher (Earth and Planetary Sciences)
Hydrology, crustal studies, heat flow modeling

Raphael Kudela (Ocean Sciences)
Ecological modeling and remote sensing, satellite oceanography, phytoplankton ecology and harmful algal blooms

Marc Mangel (Applied Mathematics and Statistics)
Mathematical modeling of biological phenomena, especially the evolutionary ecology of growth, aging, and longevity; quantitative issues in fishery management; mathematical and computational aspects of disease

Matthew McCarthy (Ocean Sciences)
Organic geochemistry, marine organic geochemistry, global biogeochemical cycles

Peter T. Raimondi (Ecology and Evolutionary Biology)
Applied marine ecology

Cellular Toxicology

Lindsay Hinck (Molecular, Cell, and Developmental Biology)
Breast development and cancer, cell biology, and development

Ted Holman (Chemistry and Biochemistry)
Bioinorganics and biological chemistry

Pradip K. Mascharak (Chemistry and Biochemistry)
Bioinorganic chemistry, design of antitumor drugs, modeling of active sites of metalloenzymes, design of catalysts for hydrocarbon oxidation, studies on intermediates in non-heme oxygenase chemistry, design of NO-donors for photodynamic therapy

Glenn Millhauser (Chemistry and Biochemistry)
Electron spin resonance; nuclear magnetic resonance, melanocortin receptor signaling, agouti proteins, prions, peptide synthesis

Martha Zuniga (Molecular, Cell, and Developmental Biology Biology)
Molecular, cellular, and developmental biology of the immune system

Microbiology

Grant Hartzog (Molecular, Cell, and Developmental Biology)
Biochemistry, genetics, chromatin and transcriptional regulation

Douglas R. Kellogg (Molecular, Cell, and Developmental Biology)
Coordination of cell growth and cell division

Roger Linington (Chemistry and Biochemistry)
Marine Natural Products, Drugs for Neglected Diseases, Chemical Biology, Chemical Probes

Todd Lowe (Biomolecular Engineering)
Experimental and computational genomics, ncRNA gene finders, and high-throughput RNA sequencing to study the biology of extremophile archaea and bacteria

Nader Pourmand (Biomolecular Engineering)
Development of new tools and technologies that integrate biology, electronics, and nanofabrication for the detection and study of genes and proteins

Joshua Stuart (Biomolecular Engineering)
Computational genomics

Lower-Division Courses

80E. Aquatic Toxicology. *

An introduction to the sources, cycling, and impacts of toxicants in aquatic systems, including acid rain, ground water, fresh water rivers and lakes, estuaries, and the ocean. Emphasis is on the properties of toxic chemicals that influence their biogeochemical cycles and factors that influence their toxicity to aquatic organisms and humans. (General Education Code(s): SI, T–2 Natural Sciences.) A. Flegal

Upper-Division Courses

101. Sources and Fates of Pollutants. F

Presents in–depth important principles of environmental toxicology related to the introduction, transport, and fate of toxicants in aquatic and terrestrial environments, including environmental chemistry and biogeochemical cycles as well as exposure to pathways and uptake by organisms. Additional emphasis placed on susceptibility and effects of toxicants across organ systems, toxicokinetic and biomarkers of exposure, and effects at the ecosystem level. Students cannot receive credit for this course and course 201. A. Flegal

102. Cell and Molecular Toxicology. F

Emphases of biochemical, cellular, and organ system basis of intoxication, including dose–response relationships, biotransformation of toxicants, biochemical mechanisms underlying toxicity, factors influencing toxic action, and biomarkers of exposure. Emphasizes effects of various classes of toxins, including heavy metals and persistent synthetic organics, with a focus on susceptible biochemical/cellular processes of the central nervous, immune, hepatic, and renal target organ systems. Designed for advanced undergraduates. Students cannot receive credit for this course and course 202. (Formerly Cellular and Organismal Toxicology.) Prerequisite(s): Biology 20A and 20B or equivalent; Biology 100, Biochemistry, and 110, Cell Biology, are recommended. Enrollment restricted to juniors and seniors. D. Smith

119. Microbiology. F,W

Cell and molecular biology of bacteria and their viruses, including applications in medicine, public health, agriculture, and biotechnology. Prerequisite(s): BIOL 100 or BIOC 100A. V.

Stone, F. Yildiz

119L. Microbiology Laboratory. F,W,S

An introduction to the principles and practices of laboratory microbiology, with a substantial presentation of optical microscopy. Students are billed a materials fee. Prerequisite(s): previous or concurrent enrollment in course 119 is required;satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to biological sciences and affiliated majors; biology minors; other majors by permission. (General Education Code(s): W.) C. Saltikov, K. Ottemann

125. Practicing Safe Science (2 credits). W

Introduces research safety principles and practices. Instructors and guest experts discuss research hazards and control measures. Students explore the safe use of research methods and materials via hands–on and outside exercises. Issues include compliance with hazardous waste and other environmental safety regulations. J. Schoonover

138. Pathogenesis: Molecular Mechanisms of Disease. *

Overview of the pathogenic mechanisms underlying human disease at the physiological and molecular levels, with their implications for epidemiology, diagnosis, and treatment. Includes discussion of clinical cases and of emerging areas of research. Geared toward students interested in future research or clinical careers in the area of human or animal health. Students cannot receive credit for this course and Microbiology and Environmental Toxicology 238. (Also offered as Biology: Molecular Cell & Dev 118. Students cannot receive credit for both courses.) Prerequisite(s): Biology 130. Enrollment restricted to students majoring in biology; health sciences; molecular, cell, and developmental biology; biochemistry and molecular biology; or neuroscience and behavior. Offered in alternate academic years. M. Camps

140. Molecular Biology of Prokaryotes. *

Focuses on several aspects of prokaryotic molecular biology. Covers transcriptional regulation, translational regulation, DNA replication and segregation, protein secretion, transport of small molecules, control of metabolism, stress response, bacterial differentiation, signal transduction, biofilm formation, and motility. Strong focus on experimental techniques and approaches used in prokaryotic molecular biology. Focus on model bacteria such as Escherichia coli and Bacillus subtilis.Students cannot receive credit for this course and course 240. Prerequisite(s): Biology 119. K. Ottemann

144. Groundwater Contamination. S

Analyses of contemporary problems in groundwater contamination, based on current scientific understanding of contaminant transport in aquifers. Topics include both theoretical concepts and case studies. To be offered in alternate academic years. Prerequisite(s): Earth Science 110B. Offered in alternate academic years. A. Flegal

145. Medical Geology. *

An interdisciplinary analysis of natural geochemical processes that impact human health and of anthropogenic processes that exacerbate those impacts. Prerequisite(s): Chemistry 1A, 1B, 1C, 1M, and 1N. A. Flegal

150. Introduction to Research and Experimental Design. *

Lecture–based course for advanced undergraduates actively engaged in undergraduate research (e.g., independent study or senior thesis). Emphasizes basic lab skills, including laboratory safety and handling of laboratory equipment; experimental design; scientific record keeping; and literature searching, review, and management. K. Ottemann, (FWS) The Staff

151. Scientific Writing and Presentation. *

For advanced undergraduates who are actively engaged in undergraduate research (e.g., independent study or senior thesis). Emphasizes the collection, reduction, analysis, management, and interpretation of scientific data; the presentation of scientific data in written and oral formats; and further development of critical thinking. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): W.) The Staff

<div> <div>Physics</div> <ul style="list-style-type: none"> Politics Portuguese Porter College Psychology Russian Science Communication Social Documentation Social Sciences Sociology Spanish Spanish for Heritage Speakers Stevenson College Technology and Information Management Theater Arts Writing Program Yiddish </div>
Teaching and Administrative Staff

160. Coastal Environmental Toxicology and Policy (3 credits). *

Interdisciplinary analysis of the scientific basis and policy development to regulate and manage environmental pollutants in coastal waters. Focuses on case studies involving aspects of environmental toxicology and policy including environmental monitoring and regulatory programs; ecosystem restoration; and regulating the environmental impacts of coastal development. Enrollment restricted to sophomores, juniors, seniors, and graduate students. M. Connor, G. Griggs, A. Flegal

170. Frontiers in Drug Action and Discovery. *

Lectures and case studies explore principles and approaches in drug discovery and development, emphasizing concepts in pharmacology; medicinal chemistry; and genomics– and bioinformatics–based approaches to drug discovery to illustrate pathways from discovery through development for clinical use. Cannot receive credit for this course and course 270. (Also offered as Biomolecular Engineering 170. Students cannot receive credit for both courses.) Prerequisite(s): Biology 100 or Chemistry 103 or Biochemistry 100A. Biology 110 and 130/L or 131/L are recommended. Enrollment restricted to juniors and seniors. D. Smith, T. Holman, M. Camps, R. Linington, P. Berman

195. Senior Thesis. F,W,S

An individually supervised course, with emphasis on independent research culminating in a senior thesis. May be repeated for credit. The Staff

195F. Senior Thesis (2 credits). F,W,S

An individually supervised course with emphasis on independent research culminating in a senior thesis. May be repeated for credit. The Staff

198. Independent Study. F,W,S

Provides for individual programs of study (a) by means other than the usual supervision in person or (b) when the student is doing all or most of the course work off campus. With permission of the department, two or three courses may be taken concurrently, or the course repeated for credit. May be repeated for credit. The Staff

198F. Independent Study (2 credits). F,W,S

Provides for individual programs of study (a) by means other than the usual supervision in person or (b) when the student is doing all or most of the coursework off campus. With permission of the department, two or three courses may be taken concurrently, or the course repeated for credit. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Reading, discussion, written reports, and laboratory research on selected topics. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Reading, discussion, written reports, and laboratory research on selected topics. Enrollment limited to 4. May be repeated for credit. The Staff

Graduate Courses

200. Interdisciplinary Approaches in Environmental Toxicology. F

Introduction to interdisciplinary, case–based approaches to problem–solving. Course demonstrates how important, current problems in environmental and human health have been addressed and solved. Assigned problems that integrate the different organization levels (environmental, molecular/cellular, organismal/public health) inherent to environmental and human health are presented. Students work in collaborative teams to analyze each problem and create a proposal for a research plan/solution. Enrollment restricted to graduate students. D. Smith, M. Camps, K. Ottemann

201. Sources and Fates of Pollutants. *

Presents in–depth important principles of environmental toxicology related to the introduction, transport, and fate of toxicants in aquatic and terrestrial environments including environmental chemistry and biogeochemical cycles as well as exposure pathways and uptake by organisms. Additional emphasis will be placed on the

susceptibility and effects of toxicants across organ systems, toxicokinetics and biomarkers of exposure, and effects at the ecosystem level. Students cannot receive credit for this course and course 101. Enrollment restricted to graduate students; qualified undergraduate science majors may enroll with permission of instructor. A. Flegal

202. Cell and Molecular Toxicology. F

Emphasizes biochemical, cellular, and organ system basis of intoxication, including dose-response relationships, biotransformation of toxicants, biochemical mechanisms underlying toxicity, factors influencing toxic action, and biomarkers of exposure. Emphasizes effects of various classes of toxins, including heavy metals and persistent synthetic organics, with a focus on susceptible biochemical/cellular processes of the central nervous, immune, hepatic, and renal target organ systems. Students cannot receive credit for this course and Microbiology and Environmental Toxicology 102 or BIOL 122.. (Formerly "Cellular and Organismal Toxicology.") Enrollment restricted to graduate students. D. Smith

203. Cellular and Molecular Toxicology. *

Presents in-depth cellular and molecular principles of environmental toxicology. These include modes of action and cellular and molecular targets of toxicants, as well as mechanisms of cellular and molecular responses to toxicants and their detoxification. State-of-the-art biological methodologies and approaches to identify and study cellular targets of toxicants. Designed to provide students with a broad and deep understanding of the biological aspects of toxicology at both cellular and molecular levels, and the skills to approach emerging challenges in the field. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. (FWS) The Staff

205. Scientific Skills, Ethics, and Writing. *

Course provides fundamental training of graduate students in the scientific method, experimental design, ethics in science, grant proposal and scientific writing, data presentation, and scientific speaking. Students are evaluated on class participation, performance, and a written NIH/NSF style research proposal. Enrollment restricted to graduate students. The Staff

206A. Advanced Microbiology. W

Focuses on aspects of bacterial molecular biology. Covers four main areas: (1) metabolism-catabolism, anabolism, building-block precursors; (2) transcription/signal transduction; (3) replication/plasmid biology/division; (4) translation/protein processing/secretion/cell structure. Strong focus on experimental techniques and approaches used in molecular biology, and on model bacteria, such as *Escherichia coli* and *Bacillus subtilis*. Enrollment restricted to graduate students. Advanced undergraduates may enroll with permission of instructor. K. Ottemann, V. Stone, C. Saltikov

210. Molecular and Cellular Basis of Bacterial Pathogenesis. *

Focuses on the molecular basis of bacterial pathogenesis with specific emphasis on gene expression, regulation, and ecology and evolution. Advanced undergraduates with extensive background in microbiology and biology may enroll with permission of instructor. Enrollment restricted to graduate students. Advanced undergraduates with extensive background in microbiology and biology may enroll with permission of instructor. F. Yildiz

215. Seminar in Advanced Prokaryotic Molecular Biology (2 credits). *

Seminar focuses on aspects of prokaryotic molecular biology. Specific topics include transcriptional regulation, translational regulations, DNA replication, secretion of proteins, transport of small molecules, bacterial differentiation, signal transduction, biofilm formation, and motility. Discussions focus on model bacteria such as *Escherichia coli* and *Bacillus subtilis*. Enrollment restricted to graduate students. F. Yildiz, C. Saltikov, K. Ottemann

238. Pathogenesis: Molecular Mechanisms of Disease. *

Overview of the pathogenic mechanisms underlying human disease at the physiological and molecular levels, with their implications for epidemiology, diagnosis, and treatment. Includes discussion of clinical cases and of emerging areas of research. Geared toward

students interested in research or clinical careers in the area of human or animal health. Students cannot receive credit for this course and course 138. Enrollment restricted to graduate students. M. Camps

240. Molecular Biology of Prokaryotes. *

Focuses on several aspects of prokaryotic molecular biology. Covers transcriptional regulation, translational regulation, DNA replication and segregation, protein secretion, transport of small molecules, control of metabolism, stress response, bacterial differentiation, signal transduction, biofilm formation, and motility. Strong focus on experimental techniques and approaches used in prokaryotic molecular biology. Focus on model bacteria such as *Escherichia coli* and *Bacillus subtilis*. Students cannot receive credit for this course and course 140. K. Ottemann

250. Environmental Microbiology.

How microbes interact with their environments. Topics include anaerobic metabolism; biotransformation of toxic metals and organic pollutants; geomicrobiology; life in extreme environments; water quality. Advanced undergraduates with extensive background in microbiology and biology may enroll with permission of instructor. Enrollment restricted to graduate students. Offered in alternate academic years. C. Saltikov

270. Frontiers in Drug Action and Discovery. *

Lectures and case studies explore principles and approaches in drug discovery and development, emphasizing concepts in pharmacology; medicinal chemistry; and genomics- and bioinformatics-based approaches to drug discovery to illustrate pathways from discovery through development for clinical use. Cannot receive credit for this course and course 170. (Also offered as Biomolecular Engineering 270. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. D. Smith, T. Holman, M. Camps, R. Linington, P. Berman

281A. Topics in Environmental Toxicology. *

Selected topics in environmental toxicology. Topics vary from year to year. Enrollment restricted to graduate students; qualified upper-division science majors may enroll with instructor's permission. May be repeated for credit. The Staff

281C. Topics in Environmental Microbiology (2 credits). F,W,S

Seminar and discussion focusing on mechanism of microbial transformation of metals. Participants present results from their research projects in a seminar format. Relevant journal articles presented and discussed. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. C. Saltikov

281F. Topics in Aquatic Toxicology (2 credits). F,W,S

Analyses of the sources and fates of aquatic pollutants. Discussions on processes at the air-water interface, within the water column, and in aquatic sediments. Topics vary from year to year. Enrollment restricted to graduate students; qualified upper-division science majors may enroll with instructor's permission. May be repeated for credit. A. Flegal

281M. Topics in Molecular Toxicology (2 credits). F,W,S

Seminar and discussion on the mechanisms of toxicity in DNA alkylating agents. Participants present results from their research, and relevant journal articles are discussed. Enrollment restricted to graduate students. Undergraduates may enroll with instructor's permission. Enrollment limited to 5. May be repeated for credit. M. Camps

281O. Topics in Bacterial Pathogenesis (2 credits). F,W,S

Intensive seminar focusing on mechanisms of bacterial pathogenesis of the ulcer-causing bacterium *Helicobacter pylori*. Participants are required to present results from their own research and relevant journal articles. (Also offered as Biology: Molecular Cell & Dev 280O. Students cannot receive credit for both courses.) Enrollment restricted to graduate students; qualified undergraduates may enroll with permission of instructor. Enrollment limited to 20. May be repeated for credit. K. Ottemann

281S. Cellular and Organismal Responses to Toxicants (2 credits). F,W,S

Intensive research seminar on the concepts, theory, and techniques in deriving

physiologically based pharmacokinetic models of toxin exposure, metabolism, and efficacy of therapeutic treatment in mammalian models of human metal toxicity. Enrollment restricted to graduate students; qualified undergraduates may enroll with permission of instructor. May be repeated for credit. D. Smith

281V. Topics in Bacterial Pathogenesis and Innate Immunity (2 credits). F,W,S
Focuses on the interplay between the human gut bacterial pathogen *Yersinia pseudotuberculosis* and the innate immune system of the host. Participants are required to present the goals, results, and conclusions from their own research. Participation in the general discussion during others' presentations is also required. Enrollment restricted to graduate students. Qualified undergraduates performing research under the supervision of the instructor may enroll with instructor's permission. May be repeated for credit. V. Stone

281Y. Biofilms: Processes and Regulation (2 credits). F,W,S
Intensive seminar series focusing on the most current work on genes and the processes that regulate biofilm development dynamics as well as on the recent developments on visualization of biofilms. Presentation and discussion based. Enrollment restricted to graduate students. Qualified undergraduate students may enroll with instructor's permission. May be repeated for credit. F. Yildiz

282. Current Approaches to Molecular Pathogenesis (2 credits). *
Graduate level seminar focusing on the mechanisms by which bacterial pathogens cause disease. Specific topics include basic concepts of virulence and virulence factors, virulence factor regulation, toxins, and interactions of pathogens with mammalian cells and organs. Discussions focus on several key pathogens, including *Helicobacter pylori*, *Vibrio cholerae*, *Salmonella typhimurium*, and *Listeria monocytogenes*. May be repeated for credit. K. Ottemann

290. Proseminar. *
Special topics offered from time to time by faculty, visiting professors, or staff members. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. May be repeated for credit. The Staff

290A. Epidemiology and Risk Assessment. *
Approaches different techniques of biological monitoring and the exposure and effect of biomarkers related to occupational and environmental exposure to chemicals. Available methods for risk assessment and identification of protective exposure limits also considered. (Formerly Biological Impact of Chemical Exposures.) The Staff

292. Introductory Graduate Seminar (no credit). F,W,S
Weekly seminars by academic and research faculty on their areas of special interest. Students write weekly abstracts on articles covered by the seminars. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. The Staff

297. Independent Study. F,W,S
Independent study for graduate students who have not yet settled on a research area for the thesis. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012-13

Music

2012–13 General Catalog

244 Music Center
(831) 459–2292
music@ucsc.edu
<http://music.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

The UCSC music curriculum is distinctive in developing musicians who integrate scholarship with performance. Although this rigorous program primarily addresses Western art music, it also incorporates the study of world music cultures in both their art and vernacular traditions. A major in music establishes a substantial foundation for further academic or performance studies. Two undergraduate majors are offered: the bachelor of music (B.M.), which especially develops the student's attainment in performance, and the bachelor of arts (B.A.), which cultivates greater breadth in the student's academic achievement. Two minors in music are also offered: one in electronic music, and one in jazz. The electronic music and jazz minors are open to music majors, as well as to students pursuing other majors.

The music program provides courses for both general education and the music major/minor curriculum. Students from all disciplines are encouraged to enroll in music courses, including performance groups and private instruction.

The Music Center includes a 400-seat recital hall that has recording facilities, specially equipped classrooms, individual practice and teaching studios, a student computer laboratory, rehearsal space for ensembles, a gamelan studio, and studios for electronic and computer music. McHenry Library has a separate music section and listening rooms that have individual audio and video facilities. Recording and media equipment is available from the Learning Technologies center.

Letter Grade Requirement

All upper-division courses applied toward the music majors must be taken for a letter grade, except Music 120 and ensembles, which may be taken Pass/No Pass.

Requirements for the Bachelor of Arts

The course requirements for the bachelor of arts (B.A.) in music include the following:

- Music 30A, 30B, and 30C (lower-division core theory); Music 101A, 101B, and 101C (core history); Music 130 (upper-division core theory);
- One each of the Music 105 series (topics in history and culture), the Music 150 series

(topics in advanced theory), and Music 180 series (topics in world music);

- Choice of one of the following: Music 121 (orchestration), Music 124 (sound synthesis), or an additional 150 or 180 course;
- Choice of one capstone course, either Music 120 (composition) or an additional Music 105 course by permission of instructor.

Basic keyboard skills are required as a component of the music theory curriculum. Music majors are required to enroll in a minimum of six quarters of evaluated instrumental or choral ensembles, as well as a minimum of six quarters of evaluated individual instrumental or vocal lessons. Students who demonstrate insufficient potential when auditioning for individual instruction may have limited access to lessons, and they may be denied entry into the major. It is strongly recommended that these ensembles and lessons be taken every quarter from the beginning of the core curriculum (course 30 sequence). Music majors in the B.A. program must successfully complete the proficiency audition (see below).

Although a foreign language is not required for completion of the B.A. in music, students planning graduate work are strongly advised to study a language pertinent to their research area at least equivalent to level 3 at UCSC or be able to pass the level-4 entrance examination.

To be considered for highest honors in the major, B.A. students must complete a senior project which may take one of three forms: a full senior recital, a full senior thesis, or a partial recital with a related shorter thesis.

Music B.A. Sample Planners

Sample academic plans are found in the [Music Student Handbook](#), available online at the Music Department web site: <http://music.ucsc.edu>.

General Examinations

All students majoring in the B.A. program are required to take the following examinations, which are discussed in greater detail in the [Music Student Handbook](#).

Core Curriculum Placement Examination (a sample of the examination can be viewed at <http://music.ucsc.edu/undergrad/>). Students are tested in the areas of theory, music literature, and ear training. The examination is given before the fall quarter on the same day as the music orientation meeting. Transfer students who demonstrate acceptable competency on the placement examination may be recommended for advanced placement based on a further examination (including testing in keyboard and sight-singing skills).

Advisory audition. Students are required to take an advisory audition on their major instrument or in voice at the conclusion of course 30A.

Proficiency audition. Students are required to demonstrate at least an upper-intermediate level of proficiency on their major instrument or in voice around the time they complete 130.

Capstone course. Students in the B.A. program are required to enroll in a capstone course consisting of either Music 120 (composition) or any additional Music 105Z course by permission of the instructor.

Requirements for the Bachelor of Music

The bachelor of music degree (B.M.) is designed for those who intend to pursue a career in performance. Acceptance to the program is by audition during fall quarter. These auditions are open to registered UCSC students only, although prospective students may submit a tape to the Music Department and ask to receive an informal opinion about their chances for acceptance into the major.

B.M. students major in an instrument or in voice. For the audition, students should prepare three pieces or movements of a contrasting nature from at least two different stylistic periods. (Two contrasting movements from the same sonata or concerto may count as two

of the three required pieces.) Prospective students' optional tapes should also meet these specifications to receive an unofficial evaluation from the Music Department.

The requirements for the B.M. include courses 30A–B–C, 101A–B–C, any 105, any 150, any 180, and 196B. In addition, students are required to enroll in a minimum of 12 quarters of evaluated instrumental or vocal ensembles, as well as a minimum of 11 quarters of evaluated instrumental or vocal lessons. Transfer students must enroll in lessons and ensembles every quarter in residence. A senior recital (course 196B) is required in the final quarter. Students are required to take the music core curriculum placement examination. Basic keyboard skills are required as a component of the music theory curriculum. B.M. students take a jury examination in their major instrument or in voice at least twice a year and perform one piece in public at least once a year. In addition to these requirements, voice majors are required to take French 1, German 1, and Italian 1. For students who wish to concentrate in jazz, the following changes for the B.M. requirements apply: students will take Music 111B instead of a 180 course; Music 174 (Jazz Improvisation) is required and may replace one quarter of ensembles; Music 175 (Jazz Theory) is required.

The B.M. program differs from the B.A. program in requiring more credits in performance and slightly fewer in theoretical disciplines. The senior exit requirement for B.M. students is a senior recital. To be considered for highest honors, B.M. students must also complete, on an excellent level, a capstone course Music 120 (composition) or an additional Music 105 course by permission of the instructor.

B.M. Four–Year Sample Study Planner for Students Concentrating in an Instrument

Sample academic plans are found in the [Music Student Handbook](#), available online at the Music Department web site: <http://music.ucsc.edu>.

Note: It is typical of B.M. programs at all institutions to spread general education requirements throughout a student's four years to allow for early specialization.

Students should check with the department office for the most up–to–date course schedules and program planning advice, since courses are not necessarily taught in the same quarters each academic year. Voice majors need to work closely with an adviser to schedule general education courses because of the added language requirements; a Summer Session may be necessary. It is recommended that voice majors take a language course each fall quarter during the first three years and that vocal repertory in that language be stressed throughout the academic year. For example, instead of enrolling in a general education course during the fall quarter of the first, sophomore, and junior years, a student concentrating in voice might enroll in Italian 1, German 1, and French 1, respectively.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper–division Disciplinary Communication (DC) requirement. The DC requirement in music is satisfied by completing courses 101A and 101C.

Minors

Electronic Music

The electronic music minor focuses on the study of creating music using the tools of modern technology. It is designed to complement the music major or programs in other media by providing instruction in advanced skills of audio production, sound synthesis, and computer–assisted composition. A student may obtain a minor in electronic music by completing the following:

- any course in the 11 series;
- Music 15;
- courses 80C, 123, 124, 125, and two quarters of 167;
-

one of the following: course 80L, 80M or 80R (or a similar music course that has a technical focus as approved by the department), or Film 171A or Theater Arts 114;

- one of the following: Physics 80A or 160; or Computer Science 5C, 5J, 5P, or 12A; or Electrical Engineering 70, 153, or 171

Jazz

The jazz minor focuses on the study of the history, theory, and performance of jazz. In addition, students may be introduced to musical styles that have had profound influences on this uniquely American art form: folk and popular musics of Africa, Europe, and the United States and Western classical music. The jazz minor is limited to students who have sufficient performance proficiency to pass auditions for entry into the jazz ensembles. The required courses for the minor in jazz are the following:

- course 11A;
- course 15;
- course 75 and 175;
- course 111B (students not qualified to take course 111B must also take course 11B) 11B can be taken concurrently with 111B;
- course 11C, 11D, 80J, or 80Q;
- six quarters of ensembles, including at least three quarters of the jazz ensembles (courses 3 and/or 164). At least two quarters must be upper-division. Students who repeat course 174 for credit can use the second and subsequent quarters of course 174 to fulfill a portion of the ensemble requirement; used in this way, course 174 counts as a jazz ensemble;
- course 174 (may be repeated for credit).

Detailed information about the music majors and minors may be obtained from the Music Department office.

Honors

Honors in the major are conferred by vote of the music faculty. B.A. or B.M. students can be awarded honors for excellent work in individual areas, including course work, senior project (thesis or recital), or a capstone course 105Z or 120. Excellent work in any two of these areas normally results in honors in the major.

To be considered for highest honors in the major, B.A. students must complete a (non-required) senior project and B.M. students must complete the (non-required) capstone course. Honors in all three areas—coursework, senior project, and capstone course normally results in highest honors in the major.

Transfer Students

The Music Department requires transfer students to take the core curriculum placement examination and seek academic counseling before transfer (a sample of the exam can be viewed at <http://music.ucsc.edu/undergrad/>). Transfer students who have some background in music theory normally test into 30A (which is only offered in the fall quarter). Students who require course 15 for music theory preparation should take this course in their first year to prepare for 30A the following fall. Transfer students who have completed all of their general education requirements and who test into course 30A upon transfer may be able to complete the music major in two years.

B.A. transfer students should note that upon completion of course 130, they need to perform on a musical instrument or voice at an upper-intermediate level. Prospective students wishing to have their performance skill level assessed by faculty in preparation for entry to the program are encouraged to send a tape for faculty review.

B.M. transfer students should prepare to audition in the fall quarter after enrollment. (For audition requirements, see the Requirements for the Bachelor of Music section above.) In certain cases, some or all of the applied music requirement may be waived based on prior

coursework.

B.M. Sample Study Planner for Transfer Students Concentrating in an Instrument

Sample academic plans are found in the [Music Undergraduate Student Handbook](#), available online at the Music Department web site.

This plan assumes that all general education requirements have been met. The music core curriculum placement examination generally places junior transfer students in Music 30A (which is only offered during fall quarter).

Students should check with the department office for the most up-to-date course schedules and program planning advice, since courses are not necessarily taught in the same quarters each academic year.

A transfer student concentrating in voice could enroll in Italian 1 and German 1 in the fall and winter quarters, respectively, of the junior year, and in French 1 in the spring quarter of the senior year. Such a transfer student would complete any desired electives prior to arrival at UCSC and/or in Summer Session. However, transfer students should try to satisfy as many of the language requirements as possible before entering the program.

Individual Instruction

Lessons in the instruments listed below are available on a fee basis and by audition with the instructor. Depending on whether a student is pursuing a particular music undergraduate degree program (B.A. or B.M.), or a music minor, concurrent enrollment in an appropriate ensemble is required for a stipulated number of quarters. Consult the [Music Student Handbook](#) for details.

Authorization from the performance instructor is a requirement for entry into the music majors. Students who demonstrate insufficient potential when auditioning for individual instruction may have limited access to lessons, and they may be denied entry into the major.

Courses 61, 62, and 161 carry partial course credit. Each quarter of enrollment in course 61 is equivalent to 2 credits; each quarter of enrollment in course 62 or 161 is equivalent to 3 credits. Course 162, open to advanced students only, carries 5 credits.

Class instruction for partial credit (courses 60 and 63) is available on some instruments but may not be used to fulfill the individual lesson requirements for the major.

Bass
Bassoon
Cello
Clarinet
Flute
Guitar, classical
Harpsichord
Horn
Oboe
Percussion
Piano, classical
Saxophone
Trombone and tuba
Trumpet
Violin and viola
Voice

Performance Groups

The participants in some groups are selected by auditions open to the entire university community. Students receive two course credits for each quarter of enrollment in any of the ensembles.

University Orchestra

University Concert Choir

Small Jazz Ensembles
Latin American Ensembles
Contemporary Music Ensemble
West Javanese Gamelan
Balinese Gamelan
Wind Ensemble
Classical Guitar Ensemble
North Indian Music Workshop
Eurasian Ensemble

Graduate Programs

Foreign Language Requirement (for all graduate programs)

For M.A. and D.M.A. students, current skill in reading and comprehension of a relevant foreign language must be demonstrated by:

1. Satisfactory completion of level 3 of a foreign language at UCSC, preferably in the first year of the program; or
2. Submission of an official transcript documenting successful completion of one year of university-level foreign language at another institution (equivalent to level 3 at UCSC); or
3. Passing a foreign language proficiency examination administered by the Music Department in French, Spanish, German, Italian, or Russian. (This test requires translation of a passage of at least 600 words with no resources other than a dictionary to be completed in 1.5 hours.)
4. For languages other than French, Spanish, German, Italian, or Russian, the department may accept completion of an online course as fulfilling the requirement if the student can prove equivalency to a level 3 course at UCSC. The Graduate Committee will determine whether or not to accept any such course.

With approval of the primary adviser, students whose emphasis is algorithmic composition may complete three quarters or one year of university-level instruction in computer programming in lieu of the foreign language requirement.

Ph.D. students are required to demonstrate proficiency in a foreign language according to the same procedures as the M.A. or D.M.A. In addition, Ph.D. students are required to demonstrate proficiency in a second foreign language relevant to their area of interest during the first year of enrollment.

Knowledge of languages not offered at UCSC must be demonstrated as determined by the Music Graduate Committee. Graduate Division policy states that the language requirement must be completed prior to taking the Qualifying Examination.

Master of Arts

The master of arts (M.A.) degree program in music has emphases in composition, musicology/ethnomusicology, or performance practice, and integrates studies in performance, composition/analysis, and research. In consultation with a faculty adviser, the student pursues a two-year course of studies culminating in a final project that combines an original composition, written thesis, or essay with a related public performance or lecture recital.

Requirements

A minimum of 60 course credits completed at UCSC is required for the degree. All M.A. students are required to complete Music 200, 201, and 202, as well as 252 during each quarter in residence (for students entering the program fall 2007 and thereafter).

Students with an emphasis in composition also complete Music 219, 220, and one 203 course.

Students with an emphasis in musicology/ethnomusicology or performance practice also select three courses from Music 203A–H (course 206D meets the requirement for one 203 course). It is possible in some cases to substitute a course from the Music 253 or 254 series for one 203 course.

The final project for the degree includes both performing and scholarly components, which vary according to the degree emphasis.

Students with a composition emphasis submit a thesis composition together with an essay that addresses historical, technical, and/or interpretive issues of the music (course 299); and they complete a full-length recital (course 298) of their compositional work.

Students with a musicology/ethnomusicology emphasis complete a thesis (course 299) and a short performance or lecture–recital related to the thesis (course 298).

Students with a performance practice emphasis complete a full-length recital (course 298) and an accompanying short essay that addresses historical, technical, and/or interpretive aspects of the music performed in the recital. Students in this emphasis whose main area is conducting complete a full-length recital (course 298) and one of the following: a shorter lecture–recital, a short analytical or contextual essay on a different topic, or collaboration with a graduate student composer or faculty composer on a premiere public performance. Students are encouraged to create a program involving corollary studies such as computer studies, area cultural studies, linguistics, anthropology, theater arts, and visual arts.

Graduate students must take all core courses for a letter grade. These courses include the following: Music 200, 201, 202, 203A–H, 206A–D, 219, 220, 253A–D, and 254A–M. Independent study courses (Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252) may still be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes each fall quarter, each incoming M.A. student is required to complete a three-hour diagnostic examination which is intended to identify areas in which supplementary coursework may be needed, in addition to the courses listed above.

Doctor of Musical Arts

The doctor of musical arts (D.M.A.) degree program in music composition has tracks in computer-assisted composition and world music composition. The track in computer-assisted composition includes algorithmic techniques for the generation of musical materials and structures to be realized in the creation of instrumental, vocal, and digitally synthesized music. The track in world music composition addresses a variety of compositional approaches influenced by indigenous world musics, with a focus upon those musics taught by faculty composers, ethnomusicologists, and applied instructors. The D.M.A. program seeks to develop accomplished, active, and articulate composers who have a broad awareness of the diverse styles, cultural influences, media, venues, and technical means available to them in the 21st century.

Requirements

For students entering with the bachelor's degree, a minimum of 102 credits in coursework at UCSC will be required. All students must be in residence for a minimum of nine quarters. Students must enroll in a minimum of 12 credits each quarter until they advance to candidacy. After advancing to candidacy, students remaining in residence must take a minimum of one five-credit course each quarter.

For students entering with a master's degree from another institution, a minimum of 72 credits in coursework at UCSC will be required. All students must be in residence for a

minimum of six quarters. Students must enroll in a minimum of 12 credits each quarter until they advance to candidacy. After advancing to candidacy, students remaining in residence must take a minimum of one five-credit course each quarter. D.M.A. students are expected to complete the degree within a maximum of six calendar years (leaves of absence are not excluded from this count) from entrance to the program.

Required courses include Music 200, 201, and 202 (students entering with a master's degree from another institution may petition to waive one or more of these courses by submitting documentation for equivalent courses completed elsewhere). Students in the computer-assisted composition track complete Music 206B, one 203 course, and two quarters of 267 or another 206 course. Students in the world music composition track complete Music 206A, 203H, and 203G or another 206 course. All students are required to complete Music 219, 220, 252 each quarter in residence, and five quarters of enrollment in independent study, including Music 297, 298, and 299.

Graduate students must take all core courses for a letter grade. These courses include the following: Music 200, 201, 202, 203A–H, 206A–D, 219, 220, 253A–D, and 254A–M. Independent study courses (Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252) may still be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes in fall quarter, each incoming D.M.A. student is required to complete a three-hour diagnostic examination which is intended to identify areas in which supplementary coursework may be needed, in addition to the courses listed above.

A D.M.A. student who entered the D.M.A. program with a bachelor's degree may apply for a M.A. degree, whether he/she is leaving the D.M.A. program or continuing toward completion of the D.M.A. degree, by fulfilling the following requirements:

- Completion of a minimum of five quarters at UCSC.
- Completion of a minimum of 35 graduate or upper-division course credits (including all courses required for the M.A. degree with an emphasis in composition).
- Successful completion of the qualifying recital (course 298).

Pre-qualifying Reviews

Before the end of the first year of study, all D.M.A. students must present a half recital of their compositions from that year, and submit the scores and recital recording as a portfolio, which faculty will use to assess the student's progress in the program. Faculty may also consider the student's performance in courses 200, 201, and/or 202. In unusual cases, when progress has been minimal, faculty reserve the right to terminate a student's enrollment in the program. Typically, the half recital is satisfied by a combination of 1) participation in a concert of graduate-student compositions sponsored each April by Porter College and the Music Department, and 2) participation in a public reading of graduate-student final projects from courses 219 and 220.

The Qualifying Recital

At the end of their second year of study, all students admitted to the D.M.A. program must present a half-recital (perhaps 35–40 minutes of music) representing their best work since entering the program. The D.M.A. qualifying recital will be evaluated by the student's primary adviser and by a second faculty member (generally a second composer) selected by the student in consultation with the primary adviser.

Dissertation Prospectus

The dissertation prospectus must be submitted 12 months before the scheduled qualifying examination. The prospectus must include a proposal describing the scope and nature of the dissertation composition and the accompanying essay. In addition to defining the parameters of the dissertation itself, the dissertation prospectus will suggest to the student's qualifying examination committee those areas of study that should be emphasized in the student's qualifying examination.

Qualifying Examination

Advancement to candidacy is contingent upon the passing of a written examination and an oral examination normally administered at the end of year three for students entering with a bachelor's degree, and the end of year two or the beginning of year three for students entering with a master's degree from another institution. For the written portion of the examination, the qualifying examination committee provides questions on the three topics assigned as areas of emphasis. The oral examination is administered by the student's qualifying examination committee and may concern any aspect of the assigned topics with an emphasis on those issues addressed in the written portion of the examination. Advancement to candidacy will be granted after successful completion of the written and oral examinations, acceptance of the dissertation reading committee form, satisfactory completion of course work and the foreign language requirement, and the payment of the necessary fees.

Dissertation

D.M.A. students must complete a dissertation consisting of a substantial musical composition accompanied by an essay. One to two years of work beyond the qualifying examinations should be sufficient for the completion of the dissertation, except in cases where extended fieldwork is required.

Final Examination

The final examination will be a public oral defense of the dissertation. After an oral presentation by the candidate, the candidate will be questioned by the Dissertation Committee.

Doctor of Philosophy in Music

The doctor of philosophy (Ph.D.) degree in music has an emphasis in cross-cultural studies, and aims to provide doctoral students with an integrative framework for music scholarship, emphasizing the ways in which musicology and ethnomusicology interact and complement one another.

In addition to cultural approaches to musical style, the program also encourages the integration of scholarly research with musical performance, emphasizing the manner in which performance serves both rhetorical and symbolic ends within various cultural settings. To this end the concept of "performance practice" plays a significant role in this program, given that the concept of historically or culturally informed performance is applicable to music from the earliest times to the present day in all geographical and cultural regions, and can encompass research activities as diverse as fieldwork, historical editing, and recording, as well as publishing of books and articles on the traditions of composition and performance.

Requirements

Students entering the Ph.D. program with a bachelor's degree are required to complete the following courses: Music 200, 201, 202, three courses from Music 203 (Music 206D or a 254 course may each substitute for one 203 course), Music 252 during each quarter of residence, three courses from Music 253, three courses from Music 254, and Music 299.

Students entering the Ph.D. program with a master's degree are required to complete following courses: three courses from Music 253 series, three courses from the Music 254 series, Music 252 during each quarter of residence, and Music 299.

All students in the Ph.D. program, whether or not they are entering the program with a master's degree, should plan to take at least two, and preferably three of the following courses in addition to the regular requirements: Music 201, Music 202, Music 203H, or Anthropology 208A. The decision about which of these courses to take should be made in consultation with the student's adviser and the chair of the Graduate Committee.

Graduate students must take all core courses for a letter grade. These courses include the following: Music 200, 201, 202, 203A–H, 206A–D, 219, 220, 253A–D, and 254A–M. Independent study courses (Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252) may still be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes in fall quarter, each incoming Ph.D. student is required to complete a three-hour diagnostic examination that is intended to identify areas in which supplementary course work may be needed.

Ph.D. students entering the program with a bachelor's degree are required to submit a research paper by the beginning of the fourth quarter in residence, which will be revised that quarter under the supervision of the student's faculty adviser, and will be evaluated at the end of the quarter by the adviser and an additional faculty member. Students whose paper is assessed as unsatisfactory will not be allowed to continue in the Ph.D. program.

Students may devise a program of study that includes additional music courses, and courses from other disciplines suited to their special areas of concentration, in addition to the required courses.

Students who entered the Ph.D. program with a bachelor's degree may apply for the M.A. degree after completion of a minimum of five quarters in residence, evidence of the completion of the equivalent of one year of a foreign language at UCSC, the fourth-quarter research paper, and the following courses: 200, 201, 202, one course from 203A–H, course 252 each quarter in residence, and one course each from the 253 and 254 seminar series, and course 297.

Pre-qualifying reviews

At the end of the first year of study, all students accepted into the Ph.D. program will submit a brief report on work completed during that year. This report will inform a consideration by the music faculty of the student's status in the graduate program. Faculty will offer comments and suggestions to be communicated to the student either directly or through the student's adviser. However, if progress is minimal, faculty reserve the right to terminate a student's enrollment in the program.

Qualifying Examinations

Advancement to candidacy is contingent upon passing both written and oral examinations. The written qualifying examination will test knowledge absorbed through the two years of coursework as well as material in the student's field of concentration. The oral examination will focus on the previously completed written exams as well as the student's developed expertise in her/his chosen specialization. Students must be registered in the quarter in which they take their qualifying examination.

The examinations will normally be administered at the end of year 3 for students entering with a bachelor's degree, and at the end of year 2 for students entering with a master's degree.

Advancement to candidacy will be granted after successful completion of the written and oral examinations, acceptance of the dissertation reading committee form, satisfactory completion of coursework and the foreign-language requirement, and the payment of the necessary fees.

Dissertation

To satisfy requirements for the degree, a student must complete a dissertation and present a related formal lecture or lecture-recital. The student will develop a dissertation prospectus, which will be due six months after advancement to candidacy. Guidelines for the format and content of the prospectus can be found in the [Ph.D. in Music Handbook](#). The dissertation must embody substantial and original scholarly work based on a clearly distinguishable contemporary or historical music-cultural tradition, in any music-culture(s) of the world in which the UCSC program offers expertise. The public lecture or performance must demonstrate the student's grasp of the pertinent music-cultural performance tradition or music-cultural and/or music-historical concepts.

Final Examination

The final examination will be an oral defense of the dissertation open to the university faculty.

Successful completion of this examination will be determined by a majority vote of the

dissertation reading committee.

Additional information about the program, including application and admission, is available from the Division of Graduate Studies and on the department web site: <http://music.ucsc.edu/>.

[\[Return to top.\]](#)

Revised: 8/31/12

Foreign Language Requirement (for all graduate programs)

For M.A. and D.M.A. students, current skill in reading and comprehension of a relevant foreign language must be demonstrated by:

1. Satisfactory completion of level 3 of a foreign language at UCSC, preferably in the first year of the program; or
2. Submission of an official transcript documenting successful completion of one year of university-level foreign language at another institution (equivalent to level 3 at UCSC); or
3. Passing a foreign language proficiency examination administered by the Music Department in French, Spanish, German, Italian, or Russian. (This test requires translation of a passage of at least 600 words with no resources other than a dictionary to be completed in 1.5 hours.)
4. For languages other than French, Spanish, German, Italian, or Russian, the department may accept completion of an online course as fulfilling the requirement if the student can prove equivalency to a level 3 course at UCSC. The Graduate Committee will determine whether or not to accept any such course.

With approval of the primary adviser, students whose emphasis is algorithmic composition may complete three quarters or one year of university-level instruction in computer programming in lieu of the foreign language requirement.

Ph.D. students are required to demonstrate proficiency in a foreign language according to the same procedures as the M.A. or D.M.A. In addition, Ph.D. students are required to demonstrate proficiency in a second foreign language relevant to their area of interest during the first year of enrollment.

Knowledge of languages not offered at UCSC must be demonstrated as determined by the Music Graduate Committee. Graduate Division policy states that the language requirement must be completed prior to taking the Qualifying Examination.

Lower-Division Courses

1A. Women's Chorale (2 credits). *

Study of vocal and choral techniques in the context of ensemble rehearsals, often culminating in public performance. Repertoire to include varied works for treble choir, both a cappella and with instrumental accompaniment. Familiarity with basic music notation recommended. Some additional rehearsal time, both individually and with the group is required. Students are billed a materials fee. Admission by audition with conductor prior to first class meeting. See enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. (General Education Code(s): A.) N. Paiement

1C. University Concert Choir (2 credits). F,W,S

A study of selected works for mixed chorus, with emphasis on masterworks for chorus and orchestra, culminating in one or more public concerts. Familiarity with basic music notation recommended. Admission by audition with conductor prior to first class meeting. See enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-E, A.) The Staff

2. University Orchestra (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Admission by audition with conductor prior to first class meeting. See enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-E, A.) N. Paiement

3. Large Jazz Ensemble (2 credits). F,W,S

Instruction in performance in large jazz ensembles with written arrangements. Prepares a specific repertory for public performance. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) R. Klevan

4A. Latin American Ensemble: "Voces" (2 credits). *

Instruction in diverse musical traditions, and their culturally-grounded performance contexts, of Native American, Ibero-American, and African American music cultures of Latin America, including texted music in Spanish and Quechua or other regional languages. The class forms an ensemble that prepares varying cultural and national

repertoires for public performance. Some Spanish language ability is recommended. Attend first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) The Staff

4B. Latin American Ensemble: "Taki Ñan" (2 credits). *
Development of Latin American, Native American, Ibero–American, African American, and/or Nueva Canción (New Song) repertoire in a small ensemble setting. Three quarters of course 4A or previous enrollment in course 4B required prior to enrolling in this course. Admission by audition with instructor at first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment limited to 10. May be repeated for credit. (General Education Code(s): A.) The Staff

5A. West Javanese Gamelan Ensemble: Beginning (2 credits). F,W,S
Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. (General Education Code(s): A.) U. Sumarna

5B. West Javanese Gamelan Ensemble: Intermediate (2 credits). F,W,S
Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. (General Education Code(s): A.) U. Sumarna

5C. West Javanese Gamelan Ensemble: Advanced (2 credits). F,W,S
Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. (General Education Code(s): A.) U. Sumarna

6. Classical Guitar Ensemble (2 credits). *
Study of selected repertoire and instruction in performance for classical guitar ensemble. Ensembles for guitar and other instruments will prepare works for public performances both on and off campus. All students enrolled in individual guitar lessons are expected to enroll. Students of other instruments or voice may also audition. Some additional rehearsal time, individually and with the group, is required. Admission by audition with instructor prior to first class meeting. May be repeated for credit. (General Education Code(s): A.) M. Ozgen

8. Balinese Gamelan Ensemble (2 credits). W,S
Instruction in practice and performance of gamelan music from Bali and Indonesia, including ritual and new music. Preparation of several works for public presentation. Attend first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Prerequisite(s): course 5A or 5B or 5C , or by permission of instructor at first class meeting. May be repeated for credit. (General Education Code(s): A.) L. Burman–Hall

9. Wind Ensemble (2 credits). F,W,S
A study of selected advanced–level works for wind ensemble, culminating in one or more public concerts. Admission by audition with conductor prior to first class meeting. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR–C, A.) R. Klevan

10. Eurasian Ensemble (2 credits). W,S
Performing ensemble focusing on the vernacular and art musics of the Eurasian continent, with emphasis on Central Asia. Admission by instructor determination at first class meeting. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR–C, A.) T. Merchant

11A. Classical Music from the Middle Ages to the Present. F
A study of selected masterworks in relation to the historical periods which they represent. Emphasis upon the listening experience and awareness of musical style and structure.

	<p>30A. Theory, Literature, and Musicianship. F</p> <p>Integrated musicianship, theory, and analysis. Species counterpoint and fundamentals of tonal harmony. Analysis of literature from the Middle Ages and Renaissance. Ear–training, taught in smaller sections, emphasizes recognition of triad and dominant–seventh inversions, dictation of diatonic melodies, and aural analysis of simple diatonic interval and chord progressions. Most of the ear–training materials consist of homophonic and polyphonic examples from music literature performed live in class. Prerequisite: admission by core curriculum placement examination. (Formerly Theory, Literature, and Musicianship I.) Enrollment limited to 60. The Staff</p>
	<p>30B. Theory, Literature, and Musicianship. W</p> <p>Integrated musicianship, theory, and analysis. Diatonic harmony and fundamentals of chromatic harmony and musical form, with an emphasis on early 18th–century styles. Ear–training, taught in smaller sections, emphasizes recognition of triad and seventh–chord qualities and inversions, dictation of moderately complex melodies and multi–voice chorales, and aural analysis of chord progressions including secondary functions. Most of the ear–training materials consist of homophonic and polyphonic examples from music literature performed live in class. Prerequisite(s): course 30A; instructor determination at first class meeting. (Formerly Theory, Literature, and Musicianship I.) Enrollment limited to 60. The Staff</p>
	<p>30C. Theory, Literature, and Musicianship. S</p> <p>Integrated musicianship, theory, and analysis. Chromatic harmony and large forms, with emphasis on late 18th– and early 19th–century styles. Ear–training, taught in smaller sections, emphasizes melodic and multi–voice dictation, as well as aural analysis of chord progressions, with materials including digressions, modulations, and advanced chromatic idioms. Most of the ear–training materials consist of homophonic and polyphonic examples from music literature performed live in class. Prerequisite(s): course 30B; instructor determination at first class meeting. (Formerly Theory, Literature, and Musicianship I.) Enrollment limited to 60. The Staff</p>
	<p>42. Student–Directed Seminar. *</p>

Seminars taught by upper-division students under faculty supervision. (See course 192.)
Students submit petition to sponsoring agency. The Staff

51. Vocal Repertoire Class (2 credits). F,W,S

The study and performance of vocal repertoire from 1400 to the present, including solo song, oratorio, opera, ensemble music. Emphasis is given to the development of effective performance skills, culminating in public performance. Attend first class meeting; concurrent enrollment in individual voice lessons with instructor of this course is required. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): A.) P. Maginnis, B. Staufenbiel

54. North Indian Music Workshop (2 credits). S

A course covering the music of North India taught using the oral traditions of Indian music. For beginners as well as more experienced students, this course is well suited for instrumentalists and vocalists. Interview; instructor determination at first class meeting. May be repeated for credit. (General Education Code(s): A.) A. Khan

61. Individual Lessons: Half Hour (2 credits). F,W,S

One-half hour of individual instrumental or vocal instruction. Repertory, technique, and performance practice. A minimum of six hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment priority given to music majors and minors. May be repeated for credit. The Staff

62. Individual Lessons: One Hour (3 credits). F,W,S

One hour of individual instrumental or vocal instruction. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment priority given to music majors and minors. May be repeated for credit. The Staff

63. Group Instrumental and Vocal Lessons (2 credits). *

Elementary group instruction in instrumental (excluding piano) or vocal techniques, including group and individual performance experience. A minimum of six hours per week of individual practice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment limited to 6. May be repeated for credit. The Staff

75. Beginning Improvisational Theory. *

Studies in the modes, scales, chord alternations and extensions, chord voicings, chord progressions, and forms that underlie jazz improvisation, composition, and arranging in a variety of styles. (Formerly Jazz Theory I.) Enrollment limited to 30. May be repeated for credit. (General Education Code(s): A.) The Staff

80A. Music of the Silk Road. *

Exploration of the commonalities between music cultures found along ancient trade routes through Asia. (General Education Code(s): CC, T4-Humanities and Arts, A, E.) T. Merchant

80C. History, Literature, and Technology of Electronic Music. F

This survey of electronic music from previous centuries to the present studies the works and aesthetics of important composers, acoustics, musical perception, the effects of technological innovation on cultural evolution, and the development of synthesizers and computer music. (General Education Code(s): PE-T, T6-Natural Sciences or Humanities and Art, A.) The Staff

80E. Race and American Music. *

Survey of American music and its dynamic formation through cultural constructions of racial difference. Students hear music as contentious signals of identity, power, and transgressions, contextualized by wide-ranging testimony on racial difference, ethnicity, gender, sexuality, and musical practice. (General Education Code(s): ER.) B. Carson

80F. Music in Latin American Culture: Regional Traditions. *

In-depth study of select music cultures of Mexico, Central America, and Caribbean, Brazil, Chile, Argentina, Colombia, and Peru. Characteristic regional genres, ensembles, instruments, and music rituals. Case studies by ethnomusicologists with expertise in specific regional musics. Also Latin American Nueva Canción, women's musics, and overarching themes in Latin American music, as a whole. Offered on a rotational basis with other non-Western courses in the 80 series. (General Education Code(s): T4-Humanities and Arts, A, E.) The Staff

80G. American Musical Theater. F

Surveys American musicals from operetta through rock musicals with a historical approach focusing on selected examples from the literature. Music reading or musical experience helpful but not required. Offered in alternate academic years. (General Education Code(s): IM, T4-Humanities and Arts, A.) F. Lieberman

80H. The Hollywood Musical. *

Introductory study of the Hollywood music film, exploring the theory of film sound, the musical genre, and representative works from the 1920s to the present. Students expected to view about two films each week, read assigned section of texts, and contribute to class discussions. (General Education Code(s): T4-Humanities and Arts, A.) F. Lieberman

80I. Music of Modern Israel. F

Historical, musicological, and anthropological study of the many (and often conflicting) worlds brought together by Israeli popular and art music: Jewish and Arabic traditions, Western ideals, and modern beats. Enrollment limited to 40. (General Education Code(s): CC, T4-Humanities and Arts, A, E.) A. Tchamni

80J. American Folk Music. *

Surveys American folk music, both instrumental and vocal, by region and period. Approach is primarily through listening. Previous musical experience helpful, but not required. Offered in alternate academic years. (General Education Code(s): T4-Humanities and Arts, A.) F. Lieberman

80L. Artificial Intelligence and Music. *

An introduction to basic concepts in music and artificial intelligence, and to algorithmic composition (composition by a set of explicit instructions, often using the computer). Other topics include basic introductions to related concepts in linguistics, mathematics, neural nets, pattern matching, genetic algorithms, fuzzy logic, and interactive systems. Previous experience in one or more of these topics is helpful but not required. Students produce a project based on one of the models presented in class. Offered in alternate academic years. (General Education Code(s): T6-Natural Sciences or Humanities and Arts, A.) The Staff

80M. Film Music. *

A survey of film music including a discussion of current trends and film composers. Techniques and styles of film music are explored through lectures, required listenings, readings, and viewing of relevant films. A musical background, including the ability to read music, is helpful but not necessary. Offered in alternate academic years. (General Education Code(s): IM, T4-Humanities and Arts, A.) N. Treadwell, D. Cope

80N. Music of the Grateful Dead. S

In-depth exploration of the music of the Grateful Dead. Contextual study of the sociology and history of the late 1960s psychedelic movement supplies background for study of the music as the band evolved through time. Offered in alternate academic years. (General Education Code(s): IM, T4-Humanities and Arts, A.) F. Lieberman

80O. Music, Politics, and Protest. S

Examination of relationship between music, politics, and protest in the U.S. in the 20th century, with focus on how music commented upon and reflected different eras in American cultural and political life. (General Education Code(s): IM, T4–Humanities and Arts, A.) D. Neuman

80P. History of Jewish Music. *

Survey of the diverse and rich musical traditions of Jewish music in the diaspora from biblical times to the present. Examines the historical, social, and anthropological aspects of the different communities from sacred music through art and popular songs.

Enrollment limited to 40. (General Education Code(s): CC, T4–Humanities and Arts, A, E.) A. Tchamni

80Q. A Survey of African Music. S

Traces the various stylistic musical areas throughout the African continent and explores the development of traditional African music from antiquity into the 20th century. Offered in alternate academic years. (General Education Code(s): CC, T4–Humanities and Arts, A, E.) K. Hester

80R. Music and the World Wide Web. *

A survey of musical applications of the World Wide Web and the technologies they employ: tools for musical research, playback, composition, performance, and publishing. Historical perspectives and artistic ethics also discussed. Students prepare a creative project using software tools, techniques, sound sources available on the web, and learn how to publish the results on the web. Enrollment limited to 44. Offered in alternate academic years.

(General Education Code(s): T6–Natural Sciences or Humanities and Arts, A.) The Staff

80S. Women in Music. F

An exploration of the sociological position of women as composers and performers in Western and non–Western musics, with a focus on both ethnographic and historical sources. (Also offered as Feminist Studies 80S. Students cannot receive credit for both courses.) Offered in alternate academic years. (General Education Code(s): CC, T4–Humanities and Arts, A.) T. Merchant

80T. Mizrach: Jewish Music in the Lands of Islam. F

A survey of the musical traditions of the Jews of North Africa and the Middle East. Based on the "Maqamat," the Arabic musical modes, Jewish music flourished under Islamic rule, encompassing the fields of sacred, popular, and art music. (General Education Code(s): CC, T4–Humanities and Arts.) A. Tchamni

80V. The Music of the Beatles. S

The most significant group in the history of popular music, the Beatles spanned the gamut of styles from hard–edged R & B to sophisticated art–rock. This course explores their work in detail, in its own terms, and in the historical/cultural/technological contexts. Students cannot receive credit for both this course and course 180V in the same quarter. Course 11C is recommended but not required as preparation. (General Education Code(s): IM, T4–Humanities and Arts, A.) F. Lieberman

80W. Music Business. *

Explores the many facets of the music industry: history, technology, economics, sociology, and legislation. Provides both a broad understanding of the industry and a pragmatic survey of available career paths. Students cannot receive credit for both this course and course 180W in the same quarter. Offered in alternate academic years. (General Education Code(s): T4–Humanities and Arts, A.) F. Lieberman

80X. Music of India. F

A survey course in Hindustani (North Indian) and Karnatak (South Indian) music covering the Raga (modal system) and Tala (metric system) as they have developed in the two traditions. Consideration is given to the historical development of the music, from Vedic chanting to the modern Raga system; social functions of the music throughout history; and instrumental and vocal forms with an emphasis on listening. (General Education Code(s): CC, T4–Humanities and Arts, A, E.) D. Neuman

80Y. Music, Anti-Semitism, and the Holocaust. *

The musical legacy of the Holocaust: music and anti-Semitism in the 19th century; morality, collaboration, and composing in the Third Reich; music in the ghettos and concentration camps; impact on post-war music; second-generation composers' trauma; music in Holocaust films. Enrollment limited to 85. (General Education Code(s): IM.) A. Tchamni

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Admission requires approval of department. The Staff

99. Tutorial. F,W,S

A program of directed study arranged with a department faculty member. Students submit petition to sponsoring agency. The Staff

99F. Tutorial (2 credits). F,W,S

A program of directed study arranged with a department faculty member. Class time is proportionally less than a five-credit course. Students submit petition to sponsoring agency. The Staff

Upper-Division Courses

101A. History of Western Art Music. W

First quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Medieval, Renaissance, Baroque. Prerequisite(s): course 30A and satisfaction of the Entry Level Writing and Composition requirements. L. Miller

101B. History of Western Art Music. S

Second quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Baroque, Classical, Romantic. Prerequisite(s): course 30B. N. Treadwell, A. Leikin

101C. History of Western Art Music. F

Third quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Romantic, 20th Century. Prerequisite(s): course 30C and satisfaction of the Entry Level Writing and Composition requirements. A. Beal

102. University Orchestra (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Admission by audition with conductor prior to first class meeting; see the enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. Enrollment restricted to juniors and seniors. May be repeated for credit. (General Education Code(s): A.) Y. Samet, N. Paiement

103. University Concert Choir (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Prerequisite(s): admission by audition with conductor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): A.) N. Berman

105. Special Topics in History.

105A. Music of the United States. S

Traces major developments in the history of American music since the Revolutionary Era, focusing on what makes music in the United States unique. Material drawn from classical, popular, religious, jazz, and avant-garde traditions. Prerequisite(s): course 101A, 101B, or 101C, or by permission of the instructor. Enrollment restricted to juniors and seniors. Enrollment limited to 35. A. Beal, L. Miller

105I. Improvisation and Collaborative Practices in the 20th Century. *

Study of music repertoires and performance practices based on improvisation and

collaborative approaches to real-time composition in the areas of jazz and other new music. Prerequisite(s): courses 30A, 30B, and 30C, and at least one course from the 101 series. Enrollment restricted to music majors. Enrollment limited to 40. A. Beal, K. Hester

105Q. The String Quartet from Haydn to Shostakovich. *

Traces the development of the string quartet from its origins in the mid-18th Century through the works of the mid-late 20th Century. Emphasis is on listening and analysis with significant research and writing component. Prerequisite(s): course 30C and course 101B, or by permission of instructor. Enrollment limited to 35. L. Miller

111B. Seminar in Jazz Analysis. F

Analytic exploration of the evolution of "jazz" in America. The process involves independent listening, analysis, transcription, weekly seminar discussions, and oral presentation to students in course 11B. Prerequisite(s): course 30B and course 11B. Enrollment limited to 20. K. Hester

120. Seminar in Music Composition. W

Instruction in individual composition offered in the context of a group; composition in traditional large and small forms. Counts as one of two choices for a capstone course. Prerequisite(s): course 30C. Enrollment limited to 20. H. Kim

121. Orchestration. F

A study of the nature of each instrument of the orchestra. Scoring for various small instrumental combinations, culminating in a transcription for full orchestra. (Formerly course 130.) Prerequisite(s): course 30C. Enrollment limited to 20. H. Kim

123. Electronic Sound Synthesis. W

Introduction to electronic music studio techniques, relevant electroacoustical studies, and procedures of electronic music composition. Practical experience in the UCSC electronic music studio with an analog synthesizer; mixing, equalization, multitrack recording equipment, and other sound processing. Application form available at department office during last two weeks of the previous quarter. Preference given to music majors, students in the film/video major, and those with substantial musical experience. Prerequisite(s): instructor determination via application; course 80C or course 30A placement. Enrollment limited to 25. P. Elsea, D. Jones

124. Intermediate Electronic Sound Synthesis. S

Composition with the use of small computers in the electronic music studio. Techniques covered include hybrid synthesis, digital synthesis, and MIDI-controlled systems. No programming is involved, but basic computer literacy is helpful. Prerequisite(s): course 123. Enrollment limited to 25. P. Elsea, P. Nauert

125. Advanced Electronic Sound Synthesis. F

Continuing study in the electronic music studio, with concentration on compositional development. Includes advanced applications of skills developed in courses 123 and 124, expansion of background knowledge and relevant electroacoustical studies. Prerequisite(s): course 124. Enrollment limited to 25. P. Elsea

130. Harmony and Form in 19th-Century and Early 20th-Century Music. F

Analysis, theory, musicianship, and aural skills associated with advanced tonal music. Study of chromaticism, larger forms, and other features of 19th-Century and early 20th-Century music. (Formerly course 100A; formerly Theory, Literature, and Musicianship II.) Prerequisite(s): course 30C and Piano Proficiency Exam. Enrollment limited to 20. (General Education Code(s): MF.) J. Sackett, B. Carson

150. Special Topics in Theory.

150P. Special Topics in Music Theory: 20th-Century Popular Song. *

Analysis and composition in two 20th-century popular song genres. Part one (of two) is drawn from 1930s swing or Tin-Pan-Alley standards. Part two varies according to instructor and may include genres outside the United States. Prerequisite(s): course 30C or permission of instructor. Enrollment restricted to music majors. (General Education

Code(s): IM.) B. Carson

150X. Theoretical Practices of American Music. *

Examines theoretical practices and compositional methods of 20th-Century American composers including Charles Ives, Henry Cowell, Ruth Crawford, Johanna Beyer, Harry Patch, Conlon Nancarrow, John Cage, James Tenney, Kenneth Gaburo, George Russell, and Ornette Coleman. Prerequisite(s): courses 30A, 30B, and 30C. Enrollment restricted to music majors. Enrollment limited to 25. (General Education Code(s): IM.) A. Beal, D. Jones

159A. Opera Workshop (2 credits). F,W

A workshop for singers, accompanists, and directors, the course develops a wide variety of skills related to opera through scenework. Attention will be given to movement, acting, coaching, and operatic stage-directing technique. Instruction culminates in studio productions of scenes from operas and musicals. Admission by permission of vocal instructor, or by audition with instructor prior to first class meeting. Students are billed a materials fee. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): A.) B. Staufenbiel

160. University Opera Theater. S

A production workshop, culminating in one or more staged performances of an entire opera or selected scenes from the operatic repertory. Admission by audition with instructor prior to first class meeting; auditions usually take place in fall quarter. See the enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): A.) B. Staufenbiel

161. Individual Lessons: One Hour (3 credits). F,W,S

One hour of individual instrumental or vocal instruction. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Enrollment priority given to music majors and minors. May be repeated for credit. The Staff

162. Advanced Individual Lessons: One Hour. F,W,S

One hour of individual instruction for advanced students. Study of repertory, technique, and performance practice. A minimum of 18 hours per week of individual practice and at least one 30-minute recital are required. May be taken three times for credit. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by juried audition. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. The Staff

163. Early Music Consort (2 credits). *

A study of selected works for varied early music instrumental and vocal resources, culminating in one or more public concerts. Individual lessons are recommended in conjunction with consort work. Recommended for students who have instrumental or vocal competence and music literacy. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. (General Education Code(s): PR-C.) N. Treadwell, L. Burman-Hall

164. Jazz Ensembles (2 credits). F,W,S

Instruction in combo performance and techniques of the jazz idiom. The class forms several ensembles that prepare a specific repertory for public performance. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. S. Poplin

165. Chamber Music Workshop (2 credits). F,W,S

A study of selected works for various small combinations of instruments, culminating in one or more public concerts. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. The Staff

166. Chamber Singers (2 credits). F,S

The study of selected works for small vocal ensemble from the 15th through 20th centuries, with performances on and off campus throughout the academic year. Students must have demonstrated vocal and music reading skills. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-C, A.) N. Paiement

167. Workshop in Electronic Music (2 credits). F,W,S

Continuing studio work in electronic music. Students carry out individual projects, meeting in weekly seminar to share problems and discoveries. Relevant advanced topics are covered, including new developments in the art. Prerequisite(s): course 124. Enrollment limited to 20. May be repeated for credit. P. Elsea

168. Contemporary Music Ensemble (2 credits). *

A study of selected works for various small combinations of instruments and voice, culminating in one or more public concerts. Admission by audition with instructor prior to first class meeting. See the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. A. Beal, L. Miller

174. Intermediate Jazz Improvisation. *

Develops basic skills through a range of advanced bop, quasi-modal and post-bebop styles—including selected free jazz and "avant-garde" repertoire. Prerequisite(s): course 75; audition with instructor at first class meeting. Enrollment limited to 20. May be repeated for credit. K. Hester

175. Jazz Theory II. W

Through transcription, analysis, and performance of "jazz" standards, composition, arranging, improvisation, and spontaneous creation explored. Students write a series of improvisations, short compositions, and arrangements throughout the course. Prerequisite(s): course 75. Enrollment limited to 30. M. Low, K. Hester

180A. Studies in World Musics: Asia and the Pacific. S

In-depth ethnomusicological studies of selected music cultures of East Asia, Southeast Asia, and the Pacific. Emphasizes comparison of historical, theoretical, contextual, and cultural features. Includes basic ethnomusicological points of reference, as regards organology, music ritual, notation and transcription, and aspects of field research. Prerequisite(s): course 30B. Concurrent enrollment in a non-Western performing ensemble is strongly recommended. Enrollment restricted to music majors and graduate students. Anthropology majors may enroll with permission of instructor. Enrollment limited to 30. (General Education Code(s): A, E.) T. Merchant, D. Neuman

180B. Studies in World Musics: Africa and the Americas. *

In-depth ethnomusicological studies of selected music cultures of sub-Saharan Africa and South and North America, including Native America. Emphasizes comparison of historical, theoretical, contextual, and cultural features. Includes basic ethnomusicological points of reference, as regards organology, music ritual, notation and transcription, and aspects of field research. Prerequisite(s): course 30B; concurrent enrollment in a non-Western performing ensemble is strongly recommended. Enrollment restricted to music majors and graduate students. Anthropology majors may enroll with permission of instructor. Enrollment limited to 30. (General Education Code(s): A, E.) The Staff

180C. Studies in World Musics: Central Asia. *

In-depth, ethnomusicologically oriented course on select music cultures in Central Asia. Compares theoretical, historical, and cultural aspects of music and culture from Uzbekistan, Tajikistan, Afghanistan, Kyrgyzstan, Kazakhstan, the Xinjiang region of China, Mongolia, and Tuva. Prerequisite(s): course 30A. Enrollment restricted to music majors. Enrollment limited to 36. T. Merchant

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Upper-division standing and a proposal supported by a music faculty member willing to supervise

required. The Staff

195A. Senior Thesis. F,W,S

Preparation of senior thesis over one or two quarters. If taken as a multiple-term course, the grade and evaluation submitted for the final quarter applies to the previous quarter. Students submit petition to sponsoring agency. The Staff

195B. Senior Thesis. F,W,S

Preparation of senior thesis over one or two quarters. If taken as a multiple-term course, the grade and evaluation submitted for the final quarter applies to the previous quarter. Students submit petition to sponsoring agency. The Staff

196A. Senior Recital Preparation (without individual lessons). F,W,S

Prerequisite(s): juried audition or approved composition portfolio. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

196B. Senior Recital Preparation (with individual lessons). F,W,S

Students are billed a course fee. Prerequisite(s): juried audition. May be repeated for credit. The Staff

199. Tutorial. F,W,S

A program of directed study arranged with a department faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

A program of directed study arranged with a department faculty member. Class time is proportionally less than a five-credit course. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200. Introduction to Research Methods. F

Practical introduction to graduate study in music focusing on research methods, music sources and bibliography, techniques of scholarly writing, and critical readings in the discipline. Culminates in a public oral presentation on the model of a professional conference paper. N. Treadwell, L. Miller

201. History of Music Theory from the Greeks Through Rameau. *

Study and analysis of pre-tonal and tonal music from the Greeks through the 18th century. Course combines a history of theory with analyses that utilize contemporaneous theoretical concepts. (Formerly Pretonal and Tonal Analysis.) Enrollment restricted to graduate students. Offered in alternate academic years. L. Miller

202. Tonal and Posttonal Analysis. *

Encompasses various forms of linear analysis, set theory, and selected topics in current analytical practice. Offered in alternate academic years. P. Nauert, H. Kim, D. Jones

203. Special Topics in Performance Practice. *

Investigation of primary and secondary sources of information about the culturally and historically accurate performance of music in various times and places. Undergraduates who have completed the appropriate course 101 courses may enroll in 203 courses by interview with the instructor. The Staff

203A. Performance Practice in the Middle Ages. *

A study of performance practices in medieval music from Gregorian chant to the 14th century. History of instruments and notation. Rhythmic interpretations of chant and a study of improvised practices in organum. Editing and performance of representative works. Offered on a rotational basis with other courses in the 203 series. L. Miller

203B. Performance Practice in the Renaissance. *

A study of performance practices in Renaissance music, including concepts of mode, musica ficta, ornamentation, text underlay, tempo, and articulation. Basic principles of white notation and a brief history of instruments. Transcription, editing, and performance

of a Renaissance work. Offered on a rotational basis with other courses in the 203 series.
N. Treadwell, L. Miller

203C. Performance Practice in the Baroque. *

An examination of historically informed performance practice techniques in Baroque music, with attention to aspects of ornamentation, articulation, figured bass realization, dance choreography, rhythm and tempo, and organology. In-class performances and editing of source materials are included. Offered on a rotational basis with other courses in the 203 series. L. Burman-Hall

203D. Performance Practice in the Classic Period. *

Issues in performance practice focusing on selected topics and styles from the time of C.P.E. Bach through Haydn. Development of selected genres and ensembles, sources and editing, and interpretation and improvisation. Offered on a rotational basis with other courses in the 203 series. L. Burman-Hall

203E. Performance Practice in the Romantic Period. W

Interpretation of music from Beethoven to Scriabin through examinations of both the musical texts (form, genre, harmony, texture, orchestration, etc.) and the period performance practices. Topics range from interpretative analyses of selected compositions to critical assessments of modern as well as documented 19th- and early 20th-century performances. Offered on a rotational basis with other courses in the 203 series. A. Leikin

203F. Performance Practice in the 20th Century. *

Projects in analysis, notational studies, extended instrumental techniques, and the aesthetics and performance practices associated with composers from Debussy to the present. Reading and listening focuses on the writings and performances of the composers themselves and upon interpretive writings by informed performers of 20th-century music. Offered on a rotational basis with other courses in the 203 series. May be repeated for credit. B. Carson, A. Beal, D. Jones

203G. Concepts, Issues, and the Practice of Ethnomusicology. *

Ethnomusicological field methodology; vocal and instrumental performance practices as related to the ethnomusicological endeavor. Specific topics: philosophical paradigms, historical overview, and definitional issues of ethnomusicology; field research concepts and procedures; studies in instrumental and vocal performance practices of diverse cultures; selected writings of Charles Seeger; transcription and analysis issues; studies in micromusics. Offered on a rotational basis with other courses in the 203 series. The Staff

203H. Area Studies in Performance Practice. F

Intensive examination of the vocal and instrumental performance practices of living musical traditions of Indonesia, Latin America, or other regions. Topics may incorporate soloistic and ensemble traditions, secular and sacred traditions. Research rubrics include tuning, tone quality, performance posture and rhetoric, and improvisational and fixed patterns, as dictated by regional norms. May be repeated for credit in a different area. Offered on a rotational basis with other courses in the 203 series. May be repeated for credit. L. Burman-Hall, D. Neuman, H. Kim

206A. World Music Composition. W

Studies in the history, structure, and cultural function of music from cultures as diverse as Global African, central European, Korean, Latin American, Indonesian, and Indian traditions. Examines ways in which composers such as Bartok, Anthony Braxton, Chou Wen-Chung, Lou Harrison, and Takemitsu sought and integrated such influences. Students choose to write critical and analytic essays on musics exhibiting diverse cultural influences, or to compose music that takes a vernacular or non-European music as a model for a compositional/improvisational approach. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. K. Hester

206B. Computer-Assisted Composition. *

Study of techniques of algorithmic and computer-assisted composition in a variety of contemporary idioms. Topics may include stochastic methods, generative grammars, search strategies, and the construction of abstract compositional designs and spaces. Final

project for course involves students formulating and algorithmically implementing their own theoretical assumptions and compositional strategies. D. Cope

206D. Music Perception and Cognition. *

Investigations in the psychology of musical listening and awareness. Topics include time and rhythm perception, auditory scene analysis, pattern recognition, and theories of linguistics applied to harmony, melody, and form in the music of diverse cultures. Explores applications of the cognitive sciences to music transcription, analysis, composition, interpretation, and performance practice. Students apply existing knowledge in the cognitive sciences to a developing creative or analytical project, or develop and conduct new experiments. Enrollment restricted to graduate students. Enrollment limited to 16. May be repeated for credit. B. Carson

219. Techniques in Composition. F

Short compositional exercises incorporating diverse contemporary techniques with emphasis on problem solving and development of compositional skills. Exercises focus on particular strategies for organizing and coordinating aspects of pitch, rhythm, timbre, and other musical dimensions, depending on interests of instructor and students. (Formerly course 219A.) Enrollment restricted to graduate students. May be repeated for credit. D. Jones

220. Graduate Seminar in Music Composition. S

Instruction in individual composition offered in the context of a group; composition in large forms of the 20th century with emphasis on techniques since 1950. May be taken by upper-division undergraduates for credit. Interview with instructor at first class meeting. Prerequisite(s): course 219. Enrollment limited to 16. May be repeated for credit. H. Kim

228. Techniques of Modernity and Aesthetic Formations. *

Explores the transformations and aesthetic possibilities of the digital age through a study of perceptual shifts of the past, from orality to literacy, gift to commodity, pre-colonial to colonial, "pre-modern" to "modern," and the technological revolutions that accompanied these shifts. (Also offered as Digital Arts and New Media 228. Students cannot receive credit for both courses.) Enrollment restricted to graduate students; upper-division undergraduates may enroll with permission of instructor. Enrollment limited to 18. D. Neuman

252. Current Issues Colloquium (no credit). F,W,S

An interactive colloquium featuring presentations by faculty, graduate students, and visiting scholars on research projects in composition, musicology / ethnomusicology, and performance practice, followed by focused discussion. Enrollment restricted to graduate students. Undergraduate students may enroll with permission of instructor. L. Burman-Hall, A. Beal

253A. Pitch, Melody, and Tuning Systems. *

Focuses on pitch systems from Western and non-Western cultures, and on scholarly perspectives about them throughout the 20th and 21st centuries. Enrollment restricted to graduate students. Enrollment limited to 20. T. Merchant

253B. Rhythm, Time, and Form. W,S

Traditional and experimental rhythmic and temporal systems representing diverse cultures, with emphasis on unmeasured, divisive, additive, and multilayer practices in cultural context. Students examine rhythmic composition, improvisation, and rubato performance in selected cultures, including rhythmic notation and transcription systems. Prerequisite(s): course 200 or the equivalent, or consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 10. L. Burman-Hall

253C. Music and Discourse. *

Addresses both song and musical performance as modes of discourse. For song: musical and textual phrase and verse structures and their interrelationships. For musical performances: musical performance as rhetoric and emblem. Enrollment restricted to graduate students. Enrollment limited to 5. F. Lieberman

253D. Issues in the Ethnography of Music. F

Explores ethnography—the description of culture—as it relates to musicology and ethnomusicology, particularly where "culture" and cultural production are historically dynamic and geographically porous. Examines music with sensitivity to such complexities of context, and the disciplinary points of reference from which cultural difference is calculated. Considers the ideological imprint of methodology on cultural analysis: how to study an unfamiliar music in a way that transcends the measure of "difference from the familiar," and, conversely, how to conduct an "objective" study of a familiar music. Enrollment restricted to graduate students. Enrollment limited to 10. D. Neuman

254C. Performance Theory and Practice. *

"Performance" can describe activities in the arts, humanities, and social sciences. Recognizing the mappings of this concept, this course examines selected performances and performative behavior through theoretical and critical lenses. Emphasis is on investigating the act and practice of musical performance in multicultural context, and on analyzing scholarly writing as performative discourse. Enrollment restricted to graduate students. Enrollment limited to 10. N. Treadwell

254D. Organology and Acoustics. W

Comprehensive study of musical instruments including, but not limited to, physical and engineering concepts; theory and methods of description, analysis, systematic, and cultural classifications; physiology and performance techniques; cultural significance; anthropomorphic and zoomorphic symbolism; ritual usage; and more. Previous enrollment in introductory ethnomusicology course (e.g., course 11D) helpful, but not required. Enrollment by interview only, except music M.A. and Ph.D. students. Enrollment restricted to junior and senior music majors, electronic music minors, anthropology majors, or physics majors, and graduate students. Enrollment limited to 15. F. Lieberman

254E. Asian Resonances in 20th-Century American and European Music. *

Explores the influence of Asian musics on Western composers from Debussy to Britten to American experimentalists such as Harrison, Cage, Riley, and Rudyard. Questions of cultural appropriation and originality are addressed through specific examples and critical readings. Enrollment restricted to graduate students. Enrollment limited to 10. L. Miller

254I. Empirical Approaches to Art Information. *

Reading and practice in empirical methods, as applied to the study of music, visual art, multimedia production, and performance arts. Topics include semiotics, critiques of empiricism, cultural determinants and contingents of perception, the psychophysics of information, sensory perception (visual and auditory), memory, pattern recognition, and awareness. Students apply existing knowledge in the cognitive sciences to a developing creative project, or develop and conduct new experiments. (Also offered as Digital Arts and New Media 254I. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 17. May be repeated for credit. B. Carson

254J. Jazz Historiography. *

Introduces the ways jazz history has been conceptualized, evaluated, and transmitted. Examines the social, intellectual, and cultural formations that have influenced this historiography. Considers the interdisciplinary project of "new jazz studies" in relation to established and alternative historical narratives. Enrollment restricted to graduate students. Enrollment limited to 10. The Staff

254K. Music, Gender, and Sexuality. S

Seminar focuses on musicological and ethnomusicological work incorporating feminist and queer theories published since the late 1980s. Cross-cultural approach to the examination of music, gender, and sexuality, drawing examples from both Western and non-Western traditions. Enrollment restricted to graduate students. Enrollment limited to 10. T. Merchant

254L. John Cage: Innovation, Collaboration, and Performance Technologies. S

In-depth examination of John Cage's interdisciplinary work, his pioneering activity in live electronic technology, and his influence in current multimedia creativity. Approximately

one-half of the seminary is devoted to student research and creative projects and reflect Cage's legacy. (Also offered as Digital Arts and New Media 254L. Students cannot receive credit for both courses.) Enrollment restricted to juniors, seniors, and graduate students. Upper-division undergraduates may enroll with permission of instructor. Enrollment limited to 12. A. Beal

254M. Music in San Francisco, 1850–1950. S

Explores San Francisco's musical life during the city's first century, including opera, symphony, Chinese music, musical theater, and other genres. Considerable emphasis on music and society, including issues of race. Enrollment restricted to graduate students. Enrollment limited to 15. L. Miller

254Q. Dialogues and Questions in Digital Arts and Culture. S

Students engage in dialogues at the intersection of theory and practice with the goal of producing a pre-thesis proposal and essay. Readings and seminar discussions inform the development of project proposals and essays, which theoretically contextualize students' work. (Formerly Digital Arts and New Media 203.) (Also offered as Digital Arts and New Media 202. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. B. Carson

261. Graduate Applied Instruction (3 credits). F,W,S

One hour of individual instrumental or vocal instruction for graduate students. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting; see the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. The Staff

265. Graduate Ensemble Participation (2 credits). F,W,S

Participation by graduate students in ensembles. Enrollment limit appropriate to the size of each ensemble. Admission by audition with the instructor prior to first class meeting; see the enrollment conditions section of the quarterly Schedule of Classes. May be repeated for credit. The Staff

267. Workshop in Computer Music and Visualization (2 credits). F,W,S

Graduate-level techniques and procedures of computer music composition and visualization. Practical experience in the UCSC electronic music studio with computer composition systems and software, including visualization and interactive performance systems. Extensive exploration of music and interactive graphic programs such as Max/MSP/Jitter. Enrollment by permission of instructor; appropriate graduate experience required. Enrollment restricted to graduate students. (Also offered as Digital Arts and New Media 267. Students cannot receive credit for both courses.) Enrollment limited to 12. May be repeated for credit. P. Elsea

295. Directed Reading. F,W,S

Directed reading, which does not involve a term paper. May be repeated once for credit. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Independent study, creative work, or research for graduate students who have not yet begun work on their thesis. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

298. Graduate Recital. F,W,S

A public performance in the student's primary area of interest, related to the thesis or dissertation project, under the supervision of a faculty member. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. The Staff

299. Thesis Research. F,W,S

A thesis consisting of a substantive and original creative or scholarly work, related to the graduate recital, under the supervision of a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Lower-Division Courses

10. Academic Success (2 credits). W

Provides opportunity to assess and revise methods of and purposes in studying. Critical, effective approaches to reading, writing, participating in lectures and sections, taking exams, balancing competing responsibilities, and utilizing campus resources explored. Enrollment by permission of college adviser. The Staff

30. Thesis Writing and Editing (2 credits). S

Substantial writing and revision for a piece of writing relevant to a student's field. Focuses on academic research, documentation, editing, and revision. Enrollment restricted to junior and senior college members. Enrollment by permission of instructor. Enrollment limited to 20. May be repeated for credit. The Staff

42. Student-Directed Seminar.

Seminars taught by upper-division Oakes students under faculty supervision. (See course 192.) The Staff

60. Oakes Literary Journal: Further Reflections on a Diverse Society (2 credits). W

For publication in an Oakes College literary journal, students significantly refine an essay from the fall quarter Oakes College core course. Course work includes consideration of a substantive text that engages core course themes and promotes the focus of the essay. Prerequisite(s): course 80A or 80B. Enrollment restricted to first-year students. Enrollment limited to 20. May be repeated for credit. The Staff

67. The Politics of Food: Labor and Social Justice (2 credits). S

Engages the themes of Oakes College (respect for diversity and social justice) and the interests of UCSC's Center for Agroecology and Sustainable Food Systems. Topics include the racial politics of food, farm labor, organic farming, and activism. Prerequisite(s): successful completion of college core course 80A, 80B, 80C, 80D, or 80H. Enrollment restricted to college members. Enrollment limited to 25. May be repeated for credit. R. King, M. Baker

73A. Oakes College Mentoring: Training Workshop (2 credits). S

Students discuss texts, write responses, and share ideas as they prepare to become academic peer counselors for Oakes Core students in fall. Prerequisite(s): Oakes College Core course. Enrollment restricted to Oakes College members. Enrollment by permission of instructor. L. Knisely

73B. Oakes College Mentoring: Service Learning Practicum (2 credits). F
Mentors introduce first–years to campus resources, provide them with academic support, share academic successes and difficulties, and offer guidance on college adjustment. Prerequisite(s): course 73A. Enrollment restricted to Oakes College members. (General Education Code(s): PR–S.) L. Knisely

75. Oakes Student Development and Leadership Theory (2 credits). S
Overview of theories, methods, applications, skills, and special topics focusing on college student development and leadership. Uses a variety of learning modes including lecture, discussion, case studies, small group interaction, and presentations. Interview only: see Oakes coordinator for residential education during spring enrollment period. Enrollment restricted to Oakes College members. Enrollment limited to 30. May be repeated for credit. The Staff

80A. Introduction to University Discourse: Communicating Diversity for a Just Society. F
Explores rhetorical principles and conventions of university discourse providing intensive practice in analytical writing, critical reading, and speaking. Examines historical and contemporary aspects of multiculturalism in the U.S. Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. Students cannot receive credit for this course and course 80B. (Formerly Introduction to University Discourse: Values and Change in a Diverse Society.) Enrollment restricted to first–year college members who have not satisfied the C1 requirement. Enrollment limited to 22. (General Education Code(s): T5–Humanities and Arts or Social Sciences, C1, E.) K. Lau

80B. Rhetoric and Inquiry: Communicating Diversity for a Just Society. F
Explores intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Examines historical and contemporary aspects of multiculturalism in the U.S. Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. Students cannot receive credit for this course and course 80A. (Formerly Rhetoric and Inquiry: Values and Change in a Diverse Society.) Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first–year college members. Enrollment limited to 22. (General Education Code(s): T5–Humanities and Arts or Social Sciences, C2, E.) K. Lau

80C. Introduction to University Discourse: Communicating Diversity for a Just Society Writing Intensive 1. F
Explores rhetorical principles and conventions of university discourse and provides intensive practice in analytical writing, critical reading, and speaking. Examines historical and contemporary aspects of multiculturalism in the U.S. Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. More writing–intensive than course 80A; prerequisite to course 80D. Enrollment restricted to first–year college members who have not satisfied the C1 requirement. Enrollment limited to 22. The Staff

80D. Introduction to University Discourse: Communicating Diversity for a Just Society Writing Intensive 2. W
Continues to provide practice in analytical writing, critical reading, and speaking, and to examine issues relating to multiculturalism, diversity, and power. Prerequisite(s): course 80C. Enrollment restricted to first–year college members who have not satisfied the C1 requirement. Enrollment limited to 22. (General Education Code(s): C1.) The Staff

80H. Rainbow Theater Cultural Studies. S
Introduction to multicultural theater and multicultural plays that aims to bring cultural awareness to all students interested in theater discipline. Students are required to read and critically analyze contemporary plays of color with emphasis on race and culture in contemporary American society. Enrollment limited to 40. May be repeated for credit. (General Education Code(s): T4–Humanities and Arts, E.) D. Williams

93. Field Study. F,W,S
Supervised off–campus study conducted under the immediate and direct guidance of a faculty supervisor. To be used primarily by lower–division students doing part–time off–

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>campus study. Prerequisite(s): approval of student's adviser, certification of adequate preparation, approval of provost. May be repeated for credit. The Staff</p>
	<p>94F. Group Tutorial (2 credits). F,W,S</p> <p>A program of independent study arranged between a group of students and a faculty instructor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff</p>
	<p>95. Directed Reading. F,W,S</p> <p>Directed reading on selected topics in literature. Students submit petition to sponsoring agency. The Staff</p>
	<p>99. Tutorial. F,W,S</p> <p>Individual study for lower-division students directed by a fellow of Oakes. Students submit petition to sponsoring agency. May be repeated for credit. The Staff</p>
	<p>99F. Independent Study (2 credits). F,W,S</p> <p>Independent study on various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff</p>
	<h3>Upper-Division Courses</h3>
	<p>150. Gays and Lesbians in the United States. W</p> <p>Examines the diverse social and cultural contexts in which gay and lesbian identities are constructed and expressed. Provides an overview of current themes in gay and lesbian history: the sex-gender system, sexuality and sexual identity, the coming-out experience, gay and lesbian subcultures, sexual roles, politics, legal recognition of relationships, religion, mental and physical health in the gay/lesbian community, and gay activism. Enrollment restricted to junior and senior Oakes College members. Enrollment limited to 30. P. Longo</p>
	<p>192. Directed Student Teaching. F,W,S</p> <p>Teaching a lower-division seminar under faculty supervision. (See course 42.)</p> <p>Prerequisite(s): upper-division standing in Oakes; a proposal supported by a faculty member willing to supervise. The Staff</p>
	<p>193. Field Study. F,W,S</p> <p>Supervised off-campus study conducted under the immediate and direct guidance of a faculty supervisor. To be used primarily by upper-division students doing part-time off-campus study. Prerequisite(s): approval of student's adviser, certification of adequate preparation, approval of provost. If taking two or more such courses in any one quarter, must obtain approval of academic adviser. The Staff</p>
	<p>195. Senior Thesis. F,W,S</p> <p>Senior thesis related to college-sponsored individual majors. Students submit petition to sponsoring agency. Sponsoring faculty must be member of individual major committee. May be repeated for credit. The Staff</p>
	<p>198. Independent Field Study. F,W,S</p> <p>College-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Prerequisite(s): approval of the student's adviser, certification of adequate preparation, and approval by provost. May be repeated for credit. The Staff</p>
	<p>199. Tutorial. F,W,S</p> <p>Individual study for junior and senior members of Oakes College directed by a fellow of Oakes. Students submit petition to sponsoring agency. May be repeated for credit. The Staff</p>
	<p>199F. Independent Study (2 credits). F,W,S</p> <p>Independent study on various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff</p>

[Faculty](#) | [Course Descriptions](#)

Program Description

The Ocean Sciences Department includes faculty and students involved in oceanography and other marine sciences and sponsors undergraduate and graduate courses in these disciplines. Through faculty sponsors, students have access to a wide variety of research facilities and equipment, including on-campus analytical chemistry, geology, and molecular biology laboratories for marine research; computing and imaging facilities; an onshore marine laboratory two miles from campus (Long Marine Laboratory), with aquariums and holding tanks that are supplied with running sea water; and a unique field station on Año Nuevo Island (19 miles north of Santa Cruz), especially suited for studies on pinnipeds and marine birds. The department supports collaborative studies utilizing the innovative technologies of the nearby Monterey Bay Aquarium Research Institute, the Naval Postgraduate School, Stanford University's Hopkins Marine Station, California State University (CSU) Moss Landing Laboratory, and others. Students may also work at other University of California facilities, including the Bodega Marine Laboratories and Scripps Institute of Oceanography.

In addition to research and instructional activities along the California coast, interests of the core faculty and their students include biological, chemical, and physical oceanography; plus sediment, marine, organic, and trace metal biogeochemistry; marine plankton, phytoplankton ecology, paleoceanography, aquatic microbial ecology, ecological modeling, and remote sensing (satellite oceanography); numeric modeling of coastal and basin-scale dynamics; and midwater ecology, climatology, and many more.

Ocean sciences affiliated faculty in other departments represent a deep resource of research interests and methodologies including those pertaining to coral reef and kelp forest ecology, plate tectonics and continental margins, marine mammal behavior and physiology, and natural products from marine organisms. Student research projects have included participation in major scientific expeditions to various marine environments ranging from polar regions to the tropics.

Undergraduate Programs

Although offering a range of undergraduate courses, the Ocean Sciences Department presently offers only graduate degrees. The undergraduate major in marine biology, sponsored by the Biological Sciences Departments, includes required and elective courses in ocean sciences; and there is an ocean sciences concentration in Earth sciences for

undergraduates. Students interested in ocean sciences should major in a discipline such as biology, marine biology, chemistry, Earth sciences, physics, or mathematics and take ocean sciences–related electives. Students with a bachelor’s degree in one of these disciplines or equivalent coursework may apply directly for admission to the graduate program through the Division of Graduate Studies.

Graduate Programs

The graduate programs in ocean sciences are designed to prepare students for careers in research, teaching, and other environmentally related endeavors. The fundamental requirement for admission to the program is substantial evidence of superior scholarship and aptitude for original research. Preparation for admission to the graduate program in Ocean Sciences (master of science (M.S.) or doctor of philosophy (Ph.D.)) should comprise an undergraduate degree in the discipline of one of the program specialty areas (e.g., biology or marine biology, geology or earth sciences, chemistry, or physical science), or an equivalent background. If a student does not have a degree in one of these areas, the student must show their sponsor that they have taken the classes necessary to do their research. This preparation includes certain courses or prerequisites).

The prerequisites for entering the Ph.D. program are a minimum of two quarters or two semesters in each of the following: a calculus series; chemistry, and physics with labs. In addition, one course in each of the following is required: earth sciences or geological principles; biology; and statistics or biostatistics.

Ocean Sciences Ph.D. Degree Program

The program leading to a doctorate in ocean sciences is designed with a core training in oceanography for all students, supplemented and focused by advanced training in oceanography and in the traditional disciplines (biology, chemistry, Earth sciences, and physics) as chosen by the student and her or his advisers. The core training is provided through core courses in ocean sciences; a subset of which is taken by all students in the first two years and reinforced by the student’s seminars throughout the program. In addition to core courses in ocean sciences, preparation includes upper–division/graduate courses in ocean sciences and in the specialty discipline, graduate seminars, independent research credits, participation in departmental student seminar series, and a minimum requirement of two quarters as a teaching assistant. There is no formal language requirement.

The results of a scheduling meeting in the first quarter of enrollment are used to map out the course program in the first year. The course program is determined by a faculty advisory committee in consultation with the student; and courses are drawn from ocean sciences and other science departments (e.g., biology, chemistry, Earth sciences, physics). No later than fall quarter of their second year, students must take a departmental oral examination that tests knowledge of ocean sciences and general expertise in their parent discipline. An oral and a written qualifying examination are required, generally in the second or third year of graduate study. A dissertation based on original research is required, and the final examination is a public oral defense of the dissertation. Students are encouraged to prepare their dissertation, or certain chapters of it, in a form suitable for publication.

Sample Pathways

The pathways within the ocean sciences Ph.D. program are differentiated from related degrees in the traditional disciplines by their focus on global–scale problems and interactions, a focus on the ocean, and their inherently interdisciplinary approach. Interdisciplinary projects across and between pathways are encouraged, as are interactions with faculty in related departments.

- Biological oceanography

This area involves the interactions of organisms with their chemical and physical environments. It includes research on the physiology and ecology of organisms, but differs from marine biology in the focus on the oceanographic setting of the organism in relationship to, for example, biogeochemical cycling and the effects of ocean currents on

distributions of organisms. The focus is mainly on small oceanic life-forms (plankton and bacteria, molecular ecology) and their roles in the biogeochemical cycles of marine systems.

- [Chemical oceanography](#)

Chemical interactions of trace metals and radionuclides in the sea are the focus of this group. Research includes development of analytical techniques and measurement of trace species in seawater and investigation of the effects and interactions of trace elements on biological processes using analytical and isotopic approaches.

- [Geological oceanography](#)

Paleoceanography, paleoclimatology, and sediment geochemistry are the focus in this pathway. Research areas include the history of global geochemical cycles and composition of the ocean on various timescales, the fate and diagenesis of materials in sediments and their contribution to the paleoceanographic record, understanding ocean and climate history by the use of records of stable isotopes and trace elements, and paleoclimate modeling.

- [Physical oceanography](#)

The physics and dynamics of the ocean and atmosphere are the main aspects of this program. Research includes observational, computational, theoretical, and experimental physical oceanography, geophysical fluid dynamics, ocean acoustics, dynamical meteorology, climate, and global change.

Requirements for Ph.D. Students in the Ocean Sciences Department

To introduce students to the breadth and depth of the field of ocean sciences, students will be required to complete the following.

1. Four core courses. These courses are expected to be completed in the first year of the program (and prior to taking the departmental examination) in the sequence listed below:

2.

fall	OCEA 200, Physical Oceanography OCEA 280, Marine Geology
------	---

winter	OCEA 220, Chemical Oceanography
--------	---------------------------------

spring	OCEA 230, Biological Oceanography
--------	-----------------------------------

A minimum of three graduate-level or upper-division elective courses to provide depth in the chosen area of emphasis or supporting disciplines. These courses are chosen in consultation with the student's adviser and department graduate advising committee (a maximum of one course can be a graduate-level seminar (OCEA 290); at least two courses must be graduate or upper-division undergraduate lecture courses).

3. OCEA 296, Teaching in Ocean Sciences, to be taken prior to or concurrent with being a teaching assistant.
4. Teaching experience satisfied by two quarters of teaching assistant experience in Ocean Sciences or supporting departments.
5. OCEA 293, a 2-credit Graduate Research Seminar, required to be taken yearly by all Ph.D. students.
6. OCEA 292, attendance at the Ocean Sciences Seminar series each quarter of enrollment.
7. A minimum of three courses in Thesis Research (course 299) under direction of a sponsor. Each quarter in residence a student should take 15 credits of classes; students beyond their first year will usually take 10 or 15 credits of Thesis Research each quarter.
8. Comprehensive departmental examination. This oral examination, covering

material from the core courses, is usually taken at the beginning of a student's second year in the program. This examination must be completed successfully within two years of entering the program.

9. Pass the qualifying examination to advance to candidacy. This examination requires a written research proposal to be defended orally in front of the student's dissertation committee and is normally taken at the beginning of the third year of the program. This examination is expected to be completed successfully within three years of entering the program.
10. Ph.D. dissertation. The Ph.D. dissertation, demonstrating original thought and research, must be written, presented in an open seminar, and defended to the student's thesis committee. Chapters of the dissertation may be written in publication format, but must conform to university publication guidelines for submission.

Ocean Sciences Master's Degree Program

The Ocean Sciences Department offers a master of science (M.S.) degree in ocean sciences. The degree combines core courses and electives to provide depth and breadth in ocean sciences, with a focused thesis to provide experience in original research. Graduates from the program are excellently prepared to take research or management positions in organizations concerned with the marine environment, become educators, or enter doctoral programs in ocean sciences or related fields.

Whereas the doctoral program has an oceanographic orientation, the marine sciences master's program is even broader and has traditionally attracted many students in marine biology and ecology. As with the doctoral program, students are encouraged to select a course of study and a research program that draws on the expertise of the core ocean sciences faculty and any of the affiliated faculty in other departments. Customized programs of study that combine related disciplines are supported in the master's program.

Course Requirements for the Ocean Sciences Master's Degree

To introduce students to the breadth and depth of the field of ocean sciences, students will be required to complete the following:

1. Complete three of the four core courses (one of which must be course 200, Physical Oceanography). Students are expected to complete all three of these courses in the first year of the program, and they should be taken in the order listed below. All four core courses are recommended. If taken, the fourth course counts as an elective.
2.

fall	OCEA 200, Physical Oceanography OCEA 280, Marine Geology
<hr/>	
winter	OCEA 220, Chemical Oceanography
<hr/>	
spring	OCEA 230, Biological Oceanography
<hr/>	
3. A minimum of three graduate-level or upper-division elective courses to provide depth in the chosen area of emphasis. These courses are chosen in consultation with an adviser and department graduate advising committee (only one of these can be a graduate seminar (OCEA 290); at least two must be lecture courses).
4. A minimum of three courses in Thesis Research (OCEA 299) under direction of a sponsor. Each quarter a student should take 15 credits of classes. Students beyond their first year will usually take 10 or 15 credits of Thesis Research each quarter.
5. OCEA 296, Teaching in Ocean Sciences, to be taken prior to or concurrent with being a teaching assistant
6. Teaching experience satisfied by one quarter of teaching assistant experience
7. Attendance at the Ocean Sciences Seminar series (OCEA 292) each quarter of

enrollment

8. Complete a master's thesis, and present it at an open seminar.

Details regarding admission to graduate standing, financial aid, examinations, and the requirements for the master of science and doctor of philosophy degrees are available from the Division of Graduate Studies (http://graddiv.ucsc.edu/student_affairs/).

Faculty and Professional Interests

Professor

Kenneth W. Bruland

Chemical oceanography, biogeochemistry of trace metals and radionuclides, aquatic chemistry, geochemistry

Margaret L. (Peggy) Delaney

Paleoceanography, marine geochemistry

Christopher A. Edwards

Physical oceanography, numerical modeling of coastal– and basin–scale dynamics

Robert E. Garrison (Emeritus)

Raphael M. Kudela

Ecological modeling and remote sensing, satellite oceanography, phytoplankton ecology and harmful algal blooms

Andrew M. Moore

Physical oceanography; numerical ocean modeling; air–interaction; ocean prediction

A. Christina Ravelo

Stable isotope geochemistry and chemical oceanography, paleoclimatology

Mary W. Silver (Emeritus)

Jonathan P. Zehr

Aquatic microbial ecology, biological oceanography

Associate Professor

Matthew D. McCarthy

Organic geochemistry, marine organic geochemistry, global biogeochemical cycles

Adjunct Professor

Jeffrey D. Paduan

Coastal ocean dynamics: surface currents, wave heights, wind and tidal forcing from high–frequency radar data

Kenneth L. Smith

Nondiscrimination Statement

Pelagic–benthic coupling in the abyssal Eastern North Pacific

Randall S. Wells
Behavioral ecology and conservation biology of small cetaceans

Associate Adjunct Professor

John Carlos Garza
Population and ecological genetics of marine organisms

Steven H. Haddock
Ecology of bioluminescence and gelatinous zooplankton from blue–water and deep–sea environments

Alexandra Worden
Mechanisms and controls of microbial population dynamics with an emphasis on carbon cycling in marine ecosystems

Assistant Adjunct Professor

Michael Beck
Marine conservation, regional biodiversity planning, habitat restoration, marine proprietary rights

Sean A. Hayes
Behavior, ecology, genetics, and population dynamics with a particular interest in salmon and pinnipeds

Roger Linington
Marine natural products; drugs for neglected diseases; chemical biology; chemical probes

Sharon E. Stammerjohn
Polar oceanography and climate; interdisciplinary approaches to understanding environmental and ecosystem response to climate variability

Lecturer

Baldo Marinovic
Plankton biology, Euphausiid (krill) population biology, zooplankton ecology, pelagic food web dynamics, climate change potential impacts on zooplankton and fisheries

Adina Paytan
Biogeochemistry, paleoceanography, environmental and aquatic chemistry

Colleen Reichmuth
Pinniped cognition and perception, including cross–modal (auditory–visual) emergent learning in sea lions and behavioral and electrophysical assessment of hearing in several marine mammal species

Scott Shaffer
Links between ecology, morphology, and physiological adaptations of marine vertebrates, particularly how animals use and allocate energy

Professor

Giacomo Bernardi (Ecology and Evolutionary Biology)
Fish biology, phylogenetics, evolution

Mark Carr (Ecology and Evolutionary Biology)
Marine ecology, applied marine ecology

Daniel P. Costa (Ecology and Evolutionary Biology)
Physiological ecology of marine mammals and birds

Phillip Crews (Chemistry and Biochemistry)
Marine natural products chemistry, bioorganic chemistry, organic structural analysis by

NMR, natural products of marine macro- and microorganisms

Donald Croll (Ecology and Evolutionary Biology)

Foraging ecology of marine birds and mammals, island conservation/ecology

Andrew T. Fisher (Earth and Planetary Sciences)

Hydrogeology, crustal studies, coupled flows, modeling

Stanley M. Flatté (Emeritus, Physics)

A. Russell Flegal (Microbiology and Environmental Toxicology)

Anthropogenic perturbations of biogeochemical cycles, applications of isotopic tracers in anthropology and archaeology

Laurel R. Fox (Ecology and Evolutionary Biology)

Terrestrial population and community ecology, plant-animal interactions

James B. Gill (Earth and Planetary Sciences)

Igneous petrology, geochemistry of island arcs

Gary B. Griggs (Earth and Planetary Sciences)

Coastal processes, hazards and engineering

Marc S. Mangel (Applied Mathematics and Statistics)

Mathematical modeling of biological phenomena, especially the evolutionary ecology of growth, aging, and longevity; quantitative issues in fishery management; mathematical and computational aspects of disease

Donald C. Potts (Ecology and Evolutionary Biology)

Coral reef ecology, genetics, evolution, and geological history; marine biodiversity; tropical biology, global change, and remote sensing

Grant H. Pogson (Ecology and Evolutionary Biology)

Molecular population genetics, ecological genetics, marine invertebrates and fishes

Peter Raimondi (Ecology and Evolutionary Biology)

Marine ecology, evolutionary ecology, experimental design, applied ecology

Eli A. Silver (Earth and Planetary Sciences)

Marine geology and geophysics, active tectonics, remote sensing

Lisa Sloan (Earth and Planetary Sciences)

Paleoclimatology, climate change, Earth system science, surficial processes

Donald R. Smith (Microbiology and Environmental Toxicology)

Neurotoxicity, cellular and organismal responses to environmental toxins

Terrie M. Williams (Ecology and Evolutionary Biology)

Vertebrate locomotor and thermoregulatory physiology; marine biodiversity; comparative vertebrate energetics, exercise physiology

James C. Zachos (Earth and Planetary Sciences)

Paleoceanography, marine stratigraphy, geochemistry

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. The Oceans. F,W,S

An interdisciplinary introduction to oceanography focusing on biological, chemical, geological, and physical processes. Covers topics such as origins and structure of planet Earth and its oceans, co–evolution of Earth and life, plate tectonics, liquid water and the hydrologic and hydrothermal cycles, salinity and elemental cycles, ocean circulation, primary production and nutrient cycles, plankton and nekton, life on the sea floor, near shore and estuarine communities, future environmental problems our oceans face. Students may also enroll in and receive credit for Earth Sciences 1. (General Education Code(s): SI, IN, Q.) K. Bruland, R. Kudela, M. McCarthy, C. Edwards

80A. Life in the Sea. S

The ecology of plants and animals in oceans and coastal areas. Consideration of life in various marine habitats, including the open ocean, rocky shores, estuaries, and the sea. Includes field trips. High school biology and chemistry courses are recommended prior to taking this course. (General Education Code(s): SI, T–2 Natural Sciences.) The Staff

80B. Our Changing Planet. W,S

Interdisciplinary scientific perspective on Earth system, focusing on human impacts on global environment. Introduces concepts of Earth system science and explores topics such as global warming, ozone depletion, pollution, deforestation, and future climate change. Prerequisite(s): high school chemistry course recommended. (General Education Code(s): PE–E, T2–Natural Sciences.) The Staff, A. Moore, M. McCarthy, A. Ravelo

Upper-Division Courses

101. The Marine Environment. W

An introduction to the marine environment stressing the interaction of physical, chemical, and geological factors in the ocean. Provides the oceanographic background needed for studies in marine biology. Students taking the prerequisite math courses concurrently may enroll in the course with permission from instructor. Prerequisite(s): Chemistry 1C and Mathematics 11B or 19B. Students taking the prerequisite math courses concurrently may enroll in the course with permission from instructor. A. Moore, J. Zehr

102. Oceans and Climate: Past, Present, and Future. S

An introduction to Earth's environment, particularly its oceanic and climatic components. Emphasizes interactions between chemical, physical, biological, and geological processes, and fundamentals of past, present, and future global environmental change. Provides

backgrounds for specialized courses in oceanic or climatic change. Prerequisite(s): Chemistry 1C. A. Ravelo

118. Marine Microbial Ecology. S
The study of marine bacteria and their role in the marine ecosystem. Emphasis on biochemistry and physiology in relation to metabolic activity and elemental cycles, trophic interactions, and flows of material and energy in marine food webs. Exams and term paper required. Students cannot receive credit for this course and Ocean Sciences 218. Prerequisite(s): Biology 20C or 21C, and Chemistry 1C. J. Zehr

120. Aquatic Chemistry: Principles and Applications. *
An integrated study of the chemical behavior of natural waters with an emphasis on both principles and applications. Topics include chemical equilibrium, kinetics, acids/bases, oxidation/reduction, complexation, solid dissolution and precipitation, and reactions on solid surfaces. Prerequisite(s): Chemistry 108B or 112C. K. Bruland

124. Aquatic Organic Geochemistry. *
Introduction to organic geochemistry with emphasis on aquatic environments. Explores how non–living organic matter shapes biogeochemical cycles by carrying and sequestering reduced carbon and major nutrients and examines influence of chemical structure and environmental factors on transport and fate of organic molecules. Provides an introduction to organic biomarkers. Students cannot receive credit for this course and course 224. Prerequisite(s): basic college chemistry (Chemistry 1B, 1C); at least one quarter of college level organic chemistry required (e.g., Chemistry 7). M. McCarthy

130. Biological Oceanography. S
Biological description of sea, with emphasis on processes and patterns. Topics include microbial dynamics, phytoplankton and zooplankton production, and ecology of marine food webs. Emphasis placed on understanding how physical, chemical, and geological environment shapes biology and ecology of oceans, including such topics as harmful algal blooms, global estimates of productivity, and effects of humans on environment. Students may not receive credit for this course and Ocean Sciences 230. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to juniors (with instructor approval), seniors, graduate students. R. Kudela

172. Geophysical Fluid Dynamics. S
Introduces fluid motion influenced by rotation. Topics include the Coriolis force, geostrophic flow, potential vorticity, the shallow water model, quasigeostrophic approximation, planetary waves, Ekman theory, thermal wind, models of the large–scale oceanic and atmospheric circulation, and equatorial dynamics. Taught in conjunction with course 272. Students cannot receive credit for this course and course 272. (Also offered as Earth Sciences 172. Students cannot receive credit for both courses.) Prerequisite(s): Physics 107; Mathematics 22 or 23B recommended. Offered in alternate academic years. C. Edwards

199. Independent Study. F,W,S
Students submit petition to sponsoring agency. The Staff

Graduate Courses

200. Physical Oceanography. W
Introduction to the physics of the ocean–atmosphere system. Structure of the ocean and atmosphere. Energy balance and radiative transfer. Atmospheric circulation; weather and climate. Physical properties of seawater, air–sea interaction, mixing, water masses, ocean circulation, waves; CO2 and global change. Designed for beginning graduate students in ocean sciences and upper–division science majors. Calculus and physics recommended as preparation. A. Moore, C. Edwards

211. Climate Dynamics. F
Introduction to the dynamics of the Earth climate system. Topics: climate system components; the global energy balance; radiative transfer; the hydrological cycle; general circulations of the atmosphere and ocean; El Niño; the North Atlantic Oscillation; the

Enrollment restricted to graduate students. Undergraduates may enroll by permission of instructor. Previous courses in calculus and ocean sciences or earth sciences are recommended. A. Moore</p>
	<p>213. Biogeochemical Cycles. *</p> <p>Overview of biogeochemical cycles, present and past, and geochemical models. Topics include: marine, terrestrial, and global views of the carbon, nitrogen, phosphorus, silicon, sulfur, and oxygen cycles, and the evolution of these cycles and Earth's redox balance through geologic time. (Also offered as Earth Sciences 213. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Upper-division undergraduates may enroll with instructor approval. College-level chemistry and an upper-division course in at least one relevant discipline are recommended. M. McCarthy, M. Delaney</p>
	<p>215. Predicting the Atmosphere, Ocean, and Climate. *</p> <p>Introduction to the theory and practice of operational prediction in meteorology, oceanography, and climate. Topics: observations and estimation theory; dynamic adjustment and initialization; estimation theory; data assimilation; forecast verification; predictability; ocean state estimation; seasonal forecasting. Enrollment restricted to graduate students. Undergraduates may enroll with instructor approval. Courses 200, 264, Earth Sciences 272, or equivalents are recommended. A. Moore</p>

Emphasis placed on understanding how physical, chemical, and geological environment shapes biology and ecology of oceans, including such topics as harmful algal blooms, global estimates of productivity, and effects of humans on environment. Students may not receive credit for this course and course 130. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to graduate students. R. Kudela</p>
	<p>260. Introductory Data Analysis in the Ocean and Earth Sciences. W</p> <p>Introduces data analysis methods regularly encountered within the ocean and earth sciences. Topics include: error propagation; least squares analysis; data interpolation methods; empirical orthogonal functions; and Monte Carlo methods applied to problems drawn from oceanographic and earth sciences datasets. Introduces and uses a high-level computing and visualization package, MATLAB. Student project consists of analysis of the student's own dataset. (Also offered as Earth Sciences 260. Students cannot receive credit for both courses.) Prerequisite(s): previous course in ocean or earth sciences is recommended. Enrollment restricted to graduate students; undergraduates with permission of instructor. C. Edwards</p>

272. Geophysical Fluid Dynamics. S

Introduces fluid motion influenced by rotation. Topics include the Coriolis force, geostrophic flow, potential vorticity, the shallow water model, quasigeostrophic approximation, planetary waves, Ekman theory, thermal wind, models of the large-scale oceanic and atmospheric circulation, and equatorial dynamics. Students cannot receive credit for this course and course 172. (Also offered as Earth Sciences 272. Students cannot receive credit for both courses.) Physics 227 is recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. C. Edwards

280. Marine Geology. F

Geology of the marine environment. Topics include controls on the types, origin, and distribution of marine sediments; geology of oceanic crust; evolution of continental margins and plate boundaries; introduction to paleoceanography. Students cannot receive credit for this course and Earth Sciences 102. Enrollment restricted to graduate students. M. Delaney, A. Ravelo

285. Past Climate Change. *

Reviews the fundamentals of climate dynamics and explores how Earth's environment is a product of the interaction of its components. Uses examples of climate change from historical and geologic records, and from predictions of the future. Recommended for junior, senior, and graduate students in the sciences. A. Ravelo

286. Introduction to Ocean Modeling. W

Fundamental concepts and ideas that underpin numerical modeling of the ocean. Topics include numerical methods and solutions of partial differential equations (PDEs), ocean circulation, wave dynamics, ocean ecosystem model, and MATLAB programming. Enrollment restricted to graduate students, or to seniors by permission of instructor. A. Moore

290. Proseminar.

Special topics in marine sciences to be offered from time to time by professors and staff members. The Staff

290A. Topics in Chemical Oceanography. F

A weekly seminar series covering recent developments in chemical oceanography. Different topics and approaches will be stressed from year to year. May be repeated for credit. K. Bruland

290B. Topics in Biological Oceanography. *

Explores different problems of special interest in biological oceanography. Different topics and approaches will be stressed from year to year. May be repeated for credit. M. Silver

290C. Topics in Marine Geochemistry. *

Selected topics in geochemistry. Discussion of theoretical models, different approaches, and recent research. Topics vary from year to year. May be repeated for credit. M. Delaney

290D. Topics in Marine Microbiology. *

A weekly seminar series covering topics in environmental microbiology. Topics vary from year to year, and will include research in ecology, methodology, biochemistry and physiology of bacteria. Emphasis on the role of bacteria in biogeochemical cycling from microzone to global scales, with particular focus in marine systems. May be repeated for credit. J. Zehr

290E. Topics in Climatic and Oceanic Change. S

Weekly seminar series covering recent developments in climatic and oceanic change. Different topics and approaches stressed from year to year. Prerequisite(s): interview with instructor prior to first class meeting. May be repeated for credit. A. Moore, A. Ravelo

290G. Topics in Physical Oceanography. *

Weekly seminar series covering topics in physical oceanography as well as biological-physical interactions in the oceans. Different topics and approaches stressed from year to

year. Enrollment restricted to graduate students; undergraduates may enroll with permission of instructor. May be repeated for credit. The Staff

290H. Topics in Ocean Optics. W

Examines recent developments and application of bio-optics to the marine environment, including theory, instrumentation, and remote sensing. Different topics and approaches emphasized from year to year. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to graduate students; senior undergraduates with permission of instructor. May be repeated for credit. R. Kudela

290J. Topics in Marine Organic Geochemistry. W

Examines recent developments in uses of organic geochemistry to trace oceanographic and biogeochemical processes. Focuses on introduction to organic biomarkers, current literature, and evolving applications. Different topics and approaches emphasized from year to year. Prerequisite(s): previous course in ocean sciences and organic chemistry are recommended. Enrollment restricted to graduate students; seniors with instructor's permission. May be repeated for credit. M. McCarthy

292. Seminar (no credit). F,W,S

Weekly seminar on various topics attended by faculty, graduate, and upper-division undergraduate students. A. Ravelo, A. Moore, M. McCarthy

293. Graduate Research Seminar (2 credits). S

Weekly seminar series covering a spectrum of topics in oceanography. Designed for Ph.D. program graduate students in ocean sciences and those in biology, Earth sciences, chemistry, and physics with research interests in oceanography. Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Teaching in Ocean Sciences (2 credits). F

For new and/or relatively inexperienced graduate students in pedagogy of ocean sciences. Role and responsibilities of teaching in ocean sciences described and developed. Includes discussions about effective teaching methods; hands-on issues for work in the laboratory; university expectations; and regulations regarding teaching, organizational strategies, time management, and working with instructors and staff. Prerequisite(s): graduate standing or permission of instructor. Enrollment restricted to graduate students. C. Edwards

297. Independent Study.

Independent reading, research, and written reports not related to thesis research. Students submit petition to sponsoring agency. The Staff

299. Thesis Research.

Students submit petition to sponsoring agency. The Staff

Program Description

Philosophy inquires into assumptions about and theories of the most basic facets of rational thought, e.g., what to believe (epistemology), what is (metaphysics), what to value (morality). Such questions can be studied by looking at answers that contemporary philosophers propose, by investigating the principles that other disciplines use to legitimate claims, or by learning how, historically, philosophers approached these issues. In this respect, “philosophy” names not only a historically defined subject matter, but also inquiry into any of the fundamental determinants of all forms of rational thought. Thus, students of philosophy can pursue a broad range of topics of the greatest historical, intellectual, and personal interest.

The department offers courses that relate these traditional philosophical questions to contemporary work in literature and the social and natural sciences. In addition, the department offers several courses that make a careful study of the classic texts in philosophy, ancient and modern. Moreover, the curriculum covers all the dominant contemporary schools of philosophy in the Anglo–American and European traditions.

The study of philosophy enables students to expand their abilities in critical thinking and reasoning as well as to improve their skills in verbal and written communication. Students may major or minor in philosophy.

Philosophy prepares students for many careers as well as for most professional schools, including law. Students who wish to go to graduate school in philosophy are encouraged to study logic at both the introductory and intermediate levels and any languages that are necessary for advanced scholarship in the different historical eras of philosophy.

Major Requirements

Courses

Eleven courses are required: two at the introductory level, two in the history of philosophy sequence (100A, 100B, 100C), and seven additional upper–division courses (including one advanced seminar). For some of the lower–division required courses, students may petition to substitute courses taken at other institutions. These 11 courses must meet the following distribution requirements:

Introductory. Course 9 and at least one of courses 11, 22, 24, or 28.

History of philosophy. Two of 100A, 100B, or 100C (all three strongly recommended for students who anticipate graduate work in philosophy). Taking any two from the sequence Philosophy 100A, 100B, and 100C will satisfy the Disciplinary Communication (DC) requirement.

At least seven additional courses numbered 100A and above, one of which must be an advanced seminar numbered 190. Note that the two courses counted toward fulfilling the history of philosophy requirement cannot be counted among these seven additional courses. Courses 195A, 195B, and 199 also cannot be counted among these seven additional courses. All upper-division courses must be completed at UCSC unless a petition for an exception is approved by the undergraduate program director.

Courses must be satisfied in the following sequence. Before being eligible to enroll in any course in the history sequence (Philosophy 100A–100C), a student must have completed all required introductory courses, i.e., Philosophy 9 and at least one from Philosophy 11, 22, 24, 28. Before being eligible to enroll in any philosophy course above Philosophy 100C, prospective majors must have taken at least one of the required history of philosophy courses (i.e., either Philosophy 100A, 100B, or 100C). Transfer students wishing to major in philosophy should consult with the Philosophy Department undergraduate adviser as soon as possible.

Declaring the Major or Minor

Students must have taken or currently be enrolled in at least one philosophy course in order to declare the major or minor. Students declare by visiting the undergraduate adviser, who will develop an individual academic plan and complete a Petition for Major/Minor Declaration form.

Disciplinary Communication Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement in philosophy is met by completing any two from the sequence Philosophy 100A, 100B, and 100C.

Comprehensive Requirement

In the fourth year, students satisfy the comprehensive (exit) requirement by taking one course numbered 190. This advanced seminar meets the standards of the senior-year level of achievement in philosophy. Students who do superior work in an advanced seminar can be awarded a notation of Honors in the evaluation for that course. In addition to Honors in an advanced seminar, graduating seniors with a distinguished record of achievement in their philosophy courses may be awarded Honors or Highest Honors in the philosophy major.

Graduation with Honors in Philosophy requires at least a 3.7 average in all philosophy courses taken at UCSC. Graduation with Highest Honors in Philosophy requires at least a 3.9 average in all philosophy courses taken at UCSC. Students with an average between 3.8 and 3.9 may be awarded Highest Honors by vote of the Philosophy Department.

Minor Requirements

A minor in philosophy consists of any nine of the 11 courses required for the major. At least five of these must be upper-division. There is no senior exit requirement for the minor.

Program Planning Notes

When a faculty member thinks that a student has done exceptional work that could be carried to a more advanced level, the student may be given the option of writing a senior essay (course 195A). Normally, the senior essay is completed in one quarter; in unusual circumstances, it can be continued for a second quarter (course 195B), but only if the writing requirements for course 195A are completed successfully and on time. The senior essay, like individual studies more generally, does not count toward the 11 courses required for the major.

Nondiscrimination Statement

After undergraduates have taken the requisite introductory courses, they have a wide range of upper-division courses from which to choose. Those who are considering advanced study are encouraged to consult regularly with any member of the philosophy faculty about the courses that would best prepare them for graduate work. Preparation for graduate work ought to begin before senior year. The Philosophy Department sponsors workshops in the fall quarter for students contemplating graduate school in philosophy.

Graduate Program

The department's graduate program profile emerges from its distinctive approach to the study of philosophy, including an interest in the history of philosophy as an indispensable background to the main areas of contemporary concern in the discipline. More specifically, the department's characteristic and compelling strength lies in its attitude towards the two current traditions in philosophy—the so-called analytic and continental traditions. While analytically trained, the majority of the faculty has research or teaching interests in some major 19th and 20th century European figures, including, among others, Hegel, Nietzsche, Husserl, Heidegger, and Foucault.

Among the faculty's main contemporary interests are those topics commonly pursued in any high-ranking research and teaching program, including for example research and teaching interests in philosophy of science, philosophy of biology, metaphysics, philosophy of mind, logic, epistemology, philosophy of language, philosophy of religion, moral psychology, and ethics, including environmental ethics. The faculty's research and teaching in these areas is informed by leading historical figures, including especially Kant, Aristotle, Hume, Wittgenstein and—again, uniquely for such a small department—leading figures from the Middle Ages and late antiquity (including medieval Islamic figures).

Graduate students are therefore able to take advantage of a wide range of courses in the history of philosophy, including ancient, early modern, Kant, 19th-century, and the history of 20th-century philosophy (analytic, continental, and combined).

Both the master of arts (M.A.) and the doctor of philosophy (Ph.D.) programs encourage interaction with other fields.

Graduate Program Requirements

Breadth Requirements in the First Year

During their first year, all graduate students are expected to fulfill a set of breadth requirements. These requirements are designed to provide both a common experience on which students can build their individual projects and a shared framework within which they can exchange ideas. Six courses, to be completed in the first year, are required of every graduate student in philosophy. These six core courses will constitute the bare minimum required for the M.A. or Ph.D.

This minimal core set of courses will consist of (i) three graduate seminars, designated by the department each year as mandatory for every first year student, and (ii) three electives (any three graduate seminars in philosophy). Of the three required seminars, one will be in metaphysics/epistemology, one in the history of philosophy, and one in moral philosophy.

No courses labeled Philosophy 294 or higher will satisfy any of these minimum core requirements. This restriction is redundant for 299 (since that course is open only to students who have advanced to candidacy). The point of this restriction is to curb significantly the use of independent studies, reading groups or student seminars for graduate seminar credit.

For further details, see the graduate program statement on the department's web page or consult with the department's graduate adviser.

Ph.D. Program

The Ph.D. program provides students with closely monitored training in philosophy. The program is designed to be completed in six years or less. Graduate work in philosophy can lead to careers both inside and outside academia. Because most doctoral students will be preparing for a career that involves teaching philosophy, they are encouraged to be teaching assistants for at least three quarters.

Courses. A minimum of 12 graduate courses. Up to two courses may be taken from the offerings of other departments, and up to two courses may be independent studies.

Language requirement. The foreign language will be individually determined based on the relevance of such linguistic skills to the research interests of the student. Proficiency can be demonstrated either by passing a written examination administered by the department or by successfully completing a language course approved by the graduate committee.

Qualifying examination. Near the end of the required coursework, doctoral students will develop a research project. The qualifying examination, normally taken during the third year of enrollment, is centered on a qualifying essay that demonstrates the candidate's ability to do extended, dissertation-level research and analysis relevant to the proposed thesis topic and dissertation plan. The examination focuses on the student's research project and on the fields of scholarship it presupposes.

Dissertation. The final requirement for the Ph.D. degree is a dissertation representing a contribution to philosophical research.

M.A. Program

Applications to the M.A. program are welcomed from talented students with diverse academic backgrounds. The program is open not only to applicants who majored in philosophy as undergraduates, but also to applicants from other disciplines, who have a significant background in philosophy and who now want to study philosophy more intensively. The program is designed to be completed in one or two years.

Courses. A minimum of nine graduate courses. Up to two courses may be taken from the offerings of other departments, and up to two courses may be independent studies.

Languages. There is no foreign language requirement for M.A. students.

Master's paper. By the end of the second year of study and the completion of 45 credits, M.A. students will submit a master's paper, which will normally be defended orally before a committee of two faculty members.

Relationship of the M.A. and Ph.D. Programs

Students in the M.A. and Ph.D. programs will be in the same classes and work on the same course distribution requirements. Enrollment in the M.A. program confers no advantage for admission to the Ph.D. program.

Applications and Admissions

Application materials are available online at <http://graddiv.ucsc.edu>. Further information regarding the program may be requested from the Department of Philosophy at (831) 459-4578, fax: (831) 459-2650. Visit the web site at <http://philosophy.ucsc.edu>.

Lower-Division Courses

8. Logic, Numbers, and Emotion: Thinking Clearly in Everyday Life. S

Students cultivate their ability to distill and critically assess the barrage of argument and rhetoric with which they are confronted every day--on the Internet, in the media, on campus--and learn to subject their own thoughts to more rigorous, logical standards.

(General Education Code(s): MF, Q.) J. Ellis

9. Introduction to Logic. F,W

A first course in symbolic deductive logic. Major topics include (but are not limited to) the study of systems of sentential logic and predicate logic, including formal deduction, semantics, and translation from natural to symbolic languages. (General Education Code(s): MF, IH, Q.) (F) The Staff, (W) J. Bowin

11. Introduction to Philosophy. F,W,S

An introduction to the main areas of philosophy through critical reflection on and analysis of both classical and contemporary texts. Focuses on central and enduring problems in philosophy such as skepticism about the external world, the mind-body problem, and the nature of morality. (General Education Code(s): TA, IH.) (F) D. Guevara, (WS) The Staff

22. Introduction to Ethical Theory. S

A consideration of ethical issues and theories focusing on the foundation of moral value and the principles governing character and behavior. Designed to extend and develop the student's abilities in philosophical reasoning about ethics. (General Education Code(s): CC, IH.) The Staff

24. Introduction to Ethics: Contemporary Moral Issues. *

An examination of the conceptual and moral issues that arise in connection with a variety of specific ethical issues. Topics vary according to the interests of the instructor, but among those commonly discussed are: abortion, war and violence, euthanasia, world hunger, human rights, and animal rights. The readings are typically drawn from recent philosophical articles on these topics, but earlier sources (important in the history of philosophy) can be considered as well. (General Education Code(s): PE–H, IH.) The Staff

26. Existentialism and After. *

A survey of recent movements in European thought, such as phenomenology,

existentialism, hermeneutics, critical theory, continental feminism, and poststructuralism, with some attention to their 19th–century precursors. Selections from major philosophical treatises are supplemented with literary works. (General Education Code(s): IH.) The Staff

28. Environmental Ethics. *

This course is an introduction to the moral issues raised by our interactions with nonhuman animals and with the rest of the natural environment. The course will relate traditional moral theories to contemporary literature on the ethics of nature conservation and environmental protection. The course is intended as a first course in philosophy as well as a first course in ethics; therefore, questions concerning the nature of philosophical inquiry and the ways in which philosophical inquiry is different from inquiries conducted within other disciplines will also be addressed. (General Education Code(s): PE–E, IH.) (FWS) The Staff

80E. Latin American Philosophy. F

Is there a general school of philosophy endemic to Latin America? Would it have to appeal to quintessential Western philosophical questions regarding knowledge, values, and reality? If not, why not, and would it then still count as philosophy? What difference do ethnic and national diversity, as well as strong political and social inequality, make to the development of philosophical questions and frameworks? Course explores a variety of historically situated Latin American thinkers who investigate ethnic identity, gender, and socio–political inequality and liberation, and historical memory, and who have also made important contributions to mainstream analytical and continental philosophy. (Also offered as Latin American&Latino Studies 80E. Students cannot receive credit for both courses.) (General Education Code(s): T4–Humanities and Arts, E.) R. Winther

80G. Bioethics in the 21st Century: Science, Business, and Society. F

Serves science and non–science majors interested in bioethics. Guest speakers and instructors lead discussions of major ethical questions having arisen from research in genetics, medicine, and industries supported by this knowledge. (Also offered as Biomolecular Engineering 80G. Students cannot receive credit for both courses.) (General Education Code(s): PE–T, T6–Natural Sciences or Humanities and Arts.) The Staff

80M. Philosophical Foundations of Science Studies. W

Provides a philosophical perspective concerning the revolution in the understanding of science that generated the so–called "science wars." Introduces the changed philosophical understanding of science shared and presupposed in the fields of science, technology, and society. (Formerly Science and Society.) (General Education Code(s): T5–Humanities and Arts or Social Sciences.) P. Roth

80S. The Nature of Science. *

A survey of what philosophers have said about the nature of science and scientific change. Emphasis is placed on whether science is best characterized as the gradual accumulation of truth or whether truth is irrelevant to scientific change. (General Education Code(s): T6–Natural Sciences or Humanities and Arts.) The Staff

99. Tutorial. F,W,S
The Staff

Upper–Division Courses

100A. Ancient Greek Philosophy. F

Survey of ancient Greek philosophy of the Classical and Hellenistic periods. Begins with Socrates and the pre–Socratics, then undertakes an intensive study of Plato and Aristotle. Course then surveys the main developments that follow: Epicureanism, Stoicism, and Scepticism. (General Education Code(s): W satisfied by taking this course and either course 100B or 100C.) Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the Entry Level Writing and Composition requirements. J. Bowin

100B. The Rationalists. S

A study of the historical background and the present relevance of Descartes, Spinoza, and Leibniz. (General Education Code(s): W satisfied by taking this course and either course 100A or 100C.) Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the

Entry Level Writing and Composition requirements. A. Stone

100C. The Empiricists. W

A critical study (based on original texts) of Locke, Berkeley, and especially Hume on the nature of knowledge, perception, causation, morality, religion, and political society. (General Education Code(s): W satisfied by taking this course and either course 100A or 100B.) Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the Entry Level Writing and Composition requirements. D. Guevara

106. Kant. *

Intensive study of Kant's philosophy, particularly his epistemology and metaphysics developed in his Critique of Pure Reason. Prerequisite(s): course 100A or 100B or 100C. Enrollment limited to 70. The Staff

107. Nineteenth-Century Philosophy. W

A study of some European philosophers of the 19th century, with particular attention to Hegel, Schopenhauer, and Nietzsche. (Formerly course 108.) Prerequisite(s): course 100A or 100B or 100C. J. Hoy

108. Phenomenology. *

French phenomenology includes primarily the work of Jean-Paul Sartre, Simone de Beauvoir, and Maurice Merleau-Ponty. Additional topics include the nature of consciousness and agency. Course includes discussion of French feminists' reactions to Simone de Beauvoir and Emmanuel Levinas. Prerequisite(s): course 100A or 100B or 100C. J. Hoy

109. Poststructuralism and After. *

The three major poststructuralist philosophers are Michel Foucault, Jacques Derrida, and Gilles Deleuze. After studying their rejection of phenomenological accounts of consciousness and agency—as well as their program for studying power, bio-power, multiplicity, difference, and repetition,—current critics , such as Slavoj Zizek and Judith Butler ,are also read for contrast between the methods of phenomenology, genealogy, and critical theory. Prerequisite(s): course 100A or 100B or 100C. The Staff

110. Heidegger. *

A close study of early and late texts by Martin Heidegger, especially Being and Time. Prerequisite(s): course 106 or 107 or 108 or 109 or 111. Enrollment limited to 45. The Staff

111. Continental Philosophy. *

Study of recent work in continental philosophy. Topics vary. Prerequisite(s): course 100A or 100B or 100C. Enrollment restricted to junior and senior philosophy majors. R. Winther, W. Godzich

112. American Philosophy. *

Study of classical American philosophers, specifically Emerson, Peirce, James, and Dewey, with emphasis on their views of metaphysics, epistemology, ethics, and philosophy of religion. Some attention is also paid to recent pragmatic tendencies in American philosophy. Prerequisite(s): course 100A or 100B or 100C. R. Winther

113. The History of Analytic Philosophy. *

Examination of the beginnings and development of analytic philosophy, with primary interest in the reformulation of traditional philosophical problems beginning with Frege. Other figures studied include, but are not limited to, Russell, Carnap, Wittgenstein, Quine, and Sellars. (Formerly The Origins of Analytic Philosophy.) Prerequisite(s): course 100A or 100B or 100C. Enrollment limited to 39. P. Roth

114. Probability and Confirmation. *

Studies the philosophical foundations of probability, induction, and confirmation. Different interpretations of probability studied, and solutions to various problems and paradoxes investigated. Students cannot receive credit for this course and course 214. Prerequisite(s): course 9, and course 100A or 100B or 100C. R. Otte

115. Formal Methods in Philosophy. *

Study of formal methods commonly used in analytic philosophy. Emphasis is on developing the technical tools to enable one to read and do modern analytic philosophy. Applications of various formal tools to philosophical problems will also be discussed. Prerequisite(s): course 9, and course 100A or 100B or 100C. R. Otte

116. Logic, Sets, and Functions. *

Introduction to basic set theory, recursive definitions, and mathematical induction. Provides a bridge between course 9 and courses 117 and 119. Strong emphasis on proving theorems and constructing proofs, both formal proofs and proofs in the customary, informal style used by mathematicians. Prerequisite(s): course 9; and two from courses 100A, 100B, and 100C. J. Bowin

117. Non-Classical Logic. F

Investigations of non-classical logic. Several non-classical logics, such as various modal logics, multi-valued logics, and relevance logics studied. Meta-theoretic results investigated for each logic studied. Prerequisite(s): course 9, and course 100A or 100B or 100C. Enrollment limited to 40. R. Otte

119. Intermediate Logic. *

Detailed treatment of the semantics of first order logic and formal computability. Completeness, undecidability of first order logic and Lowenheim-Skolem results also proven. Nature and formal limits of computability and introduction to incompleteness also investigated. Students cannot receive credit for this course and course 219. Prerequisite(s): course 9, and course 100A or 100B or 100C. R. Otte

121. Knowledge and Rationality. F

An investigation of theories of knowledge, justification, and rationality. Prerequisite(s): course 100A or 100B or 100C. The Staff

122. Contemporary Analytic Metaphysics. W

Survey of contemporary analytic metaphysics. Topics may include nominalism and metaphysical realism and the ontological analysis of concrete particulars, including problems and persistence through time. (Formerly Topics in Metaphysics.) Prerequisite(s): course 100A or 100B or 100C. J. Bowin

123. Philosophy of Language. S

Current theories of the nature and preconditions of language, the nature of meaning, and the nature of truth. Prerequisite(s): course 100A or 100B or 100C; or consent of instructor. Enrollment limited to 82. The Staff

125. Philosophy of Science. *

An examination of various topics that arise in thinking about science. Different philosophical problems, such as realism, instrumentalism, confirmation, explanation, space and time, and rational decision making are extensively discussed and criticized. Prerequisite(s): course 100A or 100B or 100C. R. Winther

126. Philosophy of Social Sciences. F

Examines philosophical concerns regarding the methods and assumptions of the social sciences. For example, must the methods of the social sciences differ in some important ways from those used by the natural sciences? Another issue concerns problems arising from studying groups where the very notion of rationality appears to vary from culture to culture or over historical periods. Prerequisite(s): at least one of course 100A or 100B or 100C. P. Roth

127. Philosophy of Biology. *

Can developmental processes be reduced to gene expression? Does the history of life exhibit trends (e.g. increasing complexity)? How are we to understand key concepts such as "fitness," "species," "adaptation," and "gene?" Is there such a thing as human nature? Course surveys these and other core philosophical topics in the biological sciences. Prerequisite(s): course 100A or 100B or 100C; satisfaction of Entry Level Writing and

Composition requirements. Enrollment limited to 39. (General Education Code(s): W.) R. Winther

133. Philosophy of Mind. W

Focuses on philosophical questions concerning the nature of mind. Central topics include the relation between mind and matter, and the nature of consciousness. Other topics typically explored include: artificial intelligence; animal consciousness and intelligence; and the relation between thought and language. Prerequisite(s): course 100A or 100B or 100C. The Staff

135. Philosophy of Psychology. *

Looks at philosophical issues raised by current research on the nature of perception, cognition, and consciousness in psychology and cognitive science. Can there be a science of the mind? Could machines be conscious? Do animals have minds? How did the mind evolve? These and a host of related questions form the subject matter of this course. Prerequisite(s): course 100A or 100B or 100C, or by consent of instructor. Enrollment restricted to sophomores, juniors, and seniors. R. Winther

137. Practical Rationality. *

Examines challenges to what has been a dominant understanding of practical rationality: the claim that reason can never guide action in itself; that acting against one's better judgment is necessarily irrational; that emotions disrupt rather than facilitate practical reasoning. Prerequisite(s): course 100A or 100B or 100C. The Staff

140. History of Ethics. *

A careful study of any one or a number of select primary texts in the history of moral philosophy, with some emphasis on the relation to contemporary issues. Prerequisite(s): course 100A or 100B or 100C. D. Guevara

142. Advanced Ethics. S

An examination of central issues in ethical theory including the nature of and justification for the moral point of view, the place of reason in ethics, the status of moral principles, and the nature of moral experience. Prerequisite(s): course 22, 24, or 28, and course 100A or 100B or 100C. D. Guevara

143. Applied Ethics: Ethics Bowl. F,W

Intensive application of ethics through debate as preparation to participate in the California Regional Ethics Bowl. Covers major modern ethical theories and areas of applied ethical theory relevant to the 15 cases created annually by the Association for Practical and Professional Ethics. Students develop oral advocacy skills and have the opportunity to compete for a position on the UCSC Ethics Bowl team. Two teams of five are sponsored by the Philosophy Department and Stevenson College. Enrollment by permission of instructor. Enrollment limited to 15. May be repeated for credit. The Staff

144. Social and Political Philosophy. *

A study of selected classical and contemporary writings dealing with topics such as the nature and legitimacy of the liberal state, the limits of political obligation, and theories of distributive justice and rights. (Also offered as Legal Studies 144. Students cannot receive credit for both courses.) Prerequisite(s): course 100A or 100B or 100C. Offered in alternate academic years. The Staff

147. Topics in Feminist Philosophy. *

Topics in feminist philosophy, which may include: the nature of feminist philosophy, feminist approaches to philosophical issues, social and political philosophy, theories of knowledge, ethics, aesthetics, and science, technology, and medicine studies. Presupposes some familiarity with philosophy or feminist scholarship. (Also offered as Feminist Studies 168. Students cannot receive credit for both courses.) Prerequisite(s): course 100A or 100B or 100C. J. Hoy

148. The Holocaust and Philosophy. *

By using the historiography of the Holocaust as a case study, examines the epistemology and ontology of historical knowledge, i.e., how the past is known, and what about it there

is to know. Prerequisite(s): course 100A or 100B or 100C. Enrollment restricted to juniors and seniors. P. Roth

152. Aesthetics. *

Problems about form, meaning, and interpretation in art, as found in major aesthetic theories from the philosophical tradition, and also in a variety of encounters between recent philosophy and the arts. One course in philosophy is strongly recommended prior to taking this course. Prerequisite(s): course 100A or 100B or 100C. (General Education Code(s): A.) The Staff

153. Philosophy of Race. S

Topics include conceptual–analytical and political–social issues. Selected topics may include: the ontology of race; race as real or constructed; scientific understandings of race; race and identity; and color–blind versus color–sensitive theories of justice and political policy. Prerequisite(s): course 100A or 100B or 100C; or consent of instructor. R. Winther

170. The Interpretation of Religion. *

A study of different philosophical responses to religious belief and practice, from the classical "proofs" of religion, to skeptical critiques of religious experience, to conceptual issues in the interpretation of religious texts. Prerequisite(s): course 100A or 100B or 100C. The Staff

171. Faith and Reason. F

Recent work in analytic philosophy of religion, concentrating on traditional theism. Topics include arguments for and against the existence of God, religious experience, miracles, the relation of faith and reason, and problems such as freedom and divine foreknowledge. Prerequisite(s): course 9, and course 100A or 100B or 100C. R. Otte

180R. Readings in Philosophy (2 credits). F,W

Discussion–based course centered on readings in philosophy. Readings change each term and are a mixture of books, chapters from books, and articles. Prerequisite(s): One philosophy course. Enrollment by permission of instructor. Enrollment limited to 20. May be repeated for credit. (W) R. Winther, (FW) R. Otte

190. Advanced Seminar.

The Staff

190A. Topics in Ancient Greek Philosophy. *

Topics will vary each quarter and will focus on a major ancient Greek philosophical figure or work. Prerequisite(s): two from courses 100A, 100B, and 100C; or consent of instructor. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. J. Bowin

190C. Advanced Topics in Contemporary Ethics. *

Topics vary, but course focuses on major questions in contemporary ethical theory or figures influential on contemporary moral philosophy. Examines different foundational, ethical principles and arguments for those principles, contrasting accounts of moral action and moral motivations, as well as the epistemological and motivational role of emotions in ethical theory. Prerequisite(s): course 140 or equivalent; and two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. D. Guevara

190D. Kant's Moral Theory. *

A careful study of Kant's moral theory, with an emphasis on the Groundwork for the Metaphysics of Morals, the Critique of Practical Reason, and the Metaphysics of Morals. Recent secondary sources are considered as well. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. D. Guevara

190E. Major Figures in 19th–Century Philosophy. *

Focuses on philosophical writings and the significance of a single figure in 19th–century philosophy. May include, but not be limited to, Emerson, Hegel, Kierkegaard, Marx,

Schopenhauer, Nietzsche, and Thoreau. Prerequisite(s): Two courses from 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. A. Stone

190F. Topics in Philosophy of Biology. W

Philosophy of biology is one of the fastest-growing areas of philosophy of science. Course gives advanced seniors an overview of many diverse topics currently under discussion in modern philosophy and biology and provides a foundation for further research, regardless of previous experience with the biological sciences. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to junior and senior philosophy majors. Enrollment limited to 22. R. Winther

190G. Wittgenstein. S

Focuses on the writings of the Austrian philosopher Ludwig Wittgenstein. Wittgenstein's work is typically divided into three periods: early, middle, and late. Topics covered include writings from one or more periods. Students cannot receive credit for this course and course 290G. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. The Staff

190J. Advanced Topics in the History of Ethics. *

A careful study of any one of the main moral theories in the history of philosophy, with some emphasis on the relation to contemporary moral philosophy. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. D. Guevara

190N. Philosophy of Religion. *

An examination of recent work in philosophy of religion. The approach may vary between an analytic and continental approach in different years. Topics might include the rationality of belief in God, religious epistemology, hermeneutics, and religious experience. Prerequisite(s): course 171 and two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. R. Otte

190O. Topics in Epistemology. *

An examination of recent work in epistemology. May focus on topics such as perception, naturalized epistemology, probabilistic epistemology, theories of justification, a priori knowledge, and memory. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment limited to senior philosophy majors. Enrollment limited to 22. J. Ellis, P. Roth, R. Otte

190P. Major Figures in Contemporary Philosophy. F

Focuses on philosophical writings and significance of a single figure in contemporary (20th- and 21st-century) philosophy. May include, but not be limited to, Russell, Whitehead, Wittgenstein, Husserl, Carnap, Murdoch, Quine, Irigaray, Derrida, and Davidson. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. P. Roth

190Q. Philosophy of Mathematics. *

Introduction to problems of contemporary analytic philosophy of mathematics. Do mathematical objects exist? Are mathematical statements true? How can we know? Examines the historical background to contemporary debates and the positions which have been taken within them. Students cannot receive credit for this course and course 290Q. Prerequisite(s): two from courses 100A, 100B, and 100C; and Mathematics 19A or 20A, or AP score of 4 on the BC exam, or mathematics placement examination (MPE) score of 400 or higher. Enrollment limited to senior philosophy majors. Enrollment limited to 22. J. Ellis, R. Winther, A. Stone

190S. Philosophy of Science. *

An examination of a topic in current philosophy of science. The material for the course is chosen from topics such as realism and instrumentalism, scientific explanation, space and time, the confirmation of theories, laws of nature, and scientific abstraction. Prerequisite(s): course 100A or 100B or 100C; satisfaction of Entry Level Writing and Composition requirements; enrollment restricted to senior philosophy majors. Enrollment limited to 22. (General Education Code(s): W.) J. Ellis, R. Winther, R. Otte

190V. Hermeneutics. *

Intensive study of the tradition of philosophical hermeneutics, which is concerned with the theory of understanding and interpretation. Readings drawn from Martin Heidegger, Hans-Georg Gadamer, and possibly Paul Ricoeur. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. The Staff

190W. History of Consciousness. *

Historical study of philosophical theories of consciousness and self-consciousness. Problems include the relation of self and other, consciousness and body, and self-consciousness and ethical agency. Readings will be selected from some of the following: Kant, Hegel, Nietzsche, and Heidegger, followed by phenomenologists, poststructuralists, and analytic philosophy. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. R. Winther

190X. The Good Life. W

How should I live my life? How does or should one go about trying to answer this question? What are the elements of a meaning, or happy, or fulfilling, or "good" life? What is happiness? What makes a life a good one? These perennial questions constitute the central topics of this seminar. Readings are drawn from a variety of time periods and traditions, including analytic, continental, and Eastern philosophy, as well as recent work in the social sciences. Prerequisite(s): two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors. Enrollment limited to 22. J. Ellis

195A. Senior Essay. F,W,S

Preparation of senior essay (approximately 25 pages) during one quarter. Students submit petition to sponsoring agency. The Staff

195B. Senior Essay. F,W,S

Under exceptional circumstances, a second senior essay continuing the work of the first essay is permitted but only when the first senior essay has been completed. Students submit petition to sponsoring agency. The Staff

199. Tutorial. F,W,S

May be repeated for credit. The Staff

199F. Independent Study (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

202. Topics in Ancient Greek Philosophy. F,S

Topics will vary each quarter and will focus on some major ancient Greek philosophical figure or work. Enrollment restricted to philosophy graduate students. Enrollment limited to 20. (F) J. Bowin, (S) A. Stone

214. Probability and Confirmation. *

Studies the philosophical foundations of probability, induction, and confirmation. Different interpretations of probability studied, and solutions to various problems and paradoxes investigated. Enrollment restricted to graduate students. R. Otte

219. Intermediate Logic. *

Natural deduction and semantics of first order predicate logic. Metatheory, including completeness theorems for propositional and predicate logic. Prerequisite(s): course 9. Enrollment restricted to graduate students. (S) The Staff

222. Metaphysics. *

Advanced introduction to topics in 20th century and contemporary analytic metaphysics. Divided into five main parts dealing, respectively, with issues about the nature of existence, properties, time, change and persistence, and material constitution. Enrollment restricted to philosophy graduate students. J. Ellis, R. Winther, A. Stone

224. Philosophy of Language. *

Advanced introduction to issues in the philosophy of language—primarily concerning the nature of reference, meaning, and truth. Works from such 20th-century figures as Russell, Wittgenstein, Kripke, Lewis, and Putnam discussed. Topics include what it is for a sign or a bit of language to be meaningful, or for it to identify or represent something; what it is for a statement to be truthful; what it is to be a language; and how reference works when attributed to beliefs. Enrollment restricted to philosophy graduate students. R. Winther

231. Metaphysics and Epistemology. W

Focuses on topic or topics in metaphysics and/or epistemology. May focus on topics such as perception, naturalized epistemology, probabilistic epistemology, theories of justification, a priori knowledge, and memory. Topics might include one or more of causation, possible worlds, identity, necessity, time, realism, universals, and existence. Enrollment restricted to philosophy graduate students. P. Roth, J. Ellis

232. Advanced Topics in Value Theory. *

Considers topics central to philosophical questions about value: ethics, normativity, practical reason, relativism, skepticism, responsibility, motivation, emotion, and so forth. In some instances, the investigation will proceed through influential historical figures, ancient to modern. Enrollment restricted to philosophy graduate students. Enrollment limited to 22. D. Guevara

233. Seminar in Philosophy of Mind. *

A study of one or more topics in contemporary philosophy of mind. Enrollment restricted to graduate students. J. Ellis

235. Philosophy of Psychology. F

Looks at philosophical issues raised by current research on the nature of perception, cognition, and consciousness in psychology and cognitive science. Can there be a science of the mind? Could machines be conscious? Do animals have minds? How did the mind evolve? These and a host of related questions form the subject matter of this course. Prerequisite(s): One course in philosophy, psychology, or linguistics. Enrollment restricted to graduate students. R. Winther

237. Making Up the Mind. *

How does the mind come to be a thing which science can study? Readings focus on how diagnostic categories, for example, multiple personality disorder, attain scientific cachet and what issues surround the "medicalization" of the mind. Enrollment restricted to graduate students. P. Roth

239. Philosophy of Religion. *

Investigation of various topics in philosophy of religion. Enrollment restricted to philosophy graduate students or by permission of instructor. Enrollment limited to 20. May be repeated for credit. R. Otte

252. Poststructuralism. *

French poststructuralism, with particular attention to the main philosophical texts of Jacques Derrida and Michel Foucault. Other representative theorists as well as critics of poststructuralism are studied as time permits. (Also offered as History of Consciousness 252. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. May be repeated for credit. R. Winther

280. Graduate Colloquia Course (2 credits). F,W,S

This colloquia series sponsors speakers each quarter. Students must attend all colloquia and are encouraged to form discussion groups after each lecture. Enrollment restricted to philosophy graduate students. The Staff

290C. Advanced Topics in Ethics. *

Topics vary but the course focuses on major questions in contemporary ethical theory, or figures influential on contemporary moral philosophy. Examines different foundational ethical principles and arguments for those principles, contrasting accounts of moral action and moral motivation, as well as the epistemological and motivational role of emotions in

ethical theory. (Formerly Advanced Topics in Contemporary Ethics.) Enrollment restricted to philosophy graduate students. D. Guevara

290F. Topics in Philosophy of Biology. W

Philosophy of biology is one of the fastest-growing areas of philosophy of science. Course is designed to give seniors and graduate students an overview of many of the diverse topics currently under discussion in modern philosophy of biology and provide a foundation for further research, regardless of previous experience with the biological sciences. Enrollment restricted to graduate students. May be repeated for credit. R. Otte

290H. Environmental Ethics. *

What is our proper moral stance toward the natural environment? This question encompasses our ethical relations to individual non-human animals, to other species of living beings, and toward the biotic community as a whole. It leads us to consider the broader question: What makes anything at all worthy of our moral respect or even our moral consideration? How are we to understand the very idea of the environment, the distinction between the human world, and the natural world, and the relationships between them. Enrollment restricted to graduate students. The Staff

290J. Advanced Topics in the History of Ethics. *

Careful study of any one of the main moral theories in the history of philosophy, with some emphasis on the relation to contemporary moral philosophy. Enrollment restricted to graduate students. D. Guevara

290K. Philosophical Matters of Scientific Practice. *

Considers the relevance of philosophical matters to the practice of science. Using quantum physics as a case study, explores historical and contemporary perspectives on issues such as those raised by the Schrodinger cat paradox, Bell's inequalities, and quantum erasers. Enrollment restricted to graduate students. K. Barad, R. Winther

290P. Major Figures in Contemporary Philosophy.*

Focuses on philosophical writings and significance of a single figure in contemporary (20th- and 21st-century) philosophy. May include, but not be limited to, Russell, Whitehead, Wittgenstein, Husserl, Carnap, Murdoch, Quine, Irigaray, Derrida, and Davidson. Enrollment restricted to philosophy graduate students. May be repeated for credit. A. Stone, P. Roth

290Q. Philosophy of Mathematics. *

Introduction to the problems of contemporary analytic philosophy of mathematics. Do mathematical objects exist? Are mathematical statements true? How can we know? We will examine the historical background to contemporary debates and the positions which have been taken within them. Enrollment restricted to graduate students. R. Winther, A. Stone

290S. Topics in the Philosophy of Science. *

An examination of a topic in current philosophy of science. The material for the course is chosen from topics such as realism and instrumentalism, scientific explanation, space and time, the confirmation of theories, laws of nature, and scientific abstraction. Enrollment restricted to graduate students. R. Winther

290W. History of Consciousness. *

Historical study of philosophical theories of consciousness and self-consciousness. Problems include the relation of self and other, consciousness and body, and self-consciousness and ethical agency. Readings are from Kant, Hegel, Nietzsche, and Heidegger, followed by phenomenologists, poststructuralists, and analytic philosophy. Enrollment restricted to graduate students. R. Winther

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. May be repeated for credit. The Staff

295. Directed Reading. F,W,S

Directed reading which does not involve a term paper. May be repeated for credit. The

Staff

295F. Readings in Philosophy (2 credits). F,W,S

Focuses on selected philosophical areas and/or specific philosophers. Students meet with the instructor to discuss readings and deepen their knowledge on a particular subject.

Enrollment restricted to graduate students. May be repeated for credit. The Staff

296. Special Student Seminar. F,W,S

A seminar for graduate students arranged between students and a faculty member.

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

297F. Independent Study (2 credits). F,W,S

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Enrollment restricted to students who have advanced to candidacy. May be repeated for credit. The Staff

* Not offered in 2012–13

Program Description

A broad range of majors is offered through the physical and biological sciences. The intellectual rigor of these majors ensures that our graduates are well prepared for further studies in graduate and professional schools, as well as careers in scientific research, environmental research, medicine, law, engineering, technology, and business.

The Division of Physical and Biological Sciences' interdisciplinary framework provides students with the opportunity to attend classes and pursue research that ranges from the study of atoms to the examination of distant galaxies. From abstract number theory to the development of new chemical compounds, from evolution to plate tectonics, we provide students not only with the skills to explore and discover the world but also to define and improve it.

Departments and programs affiliated with the Division of Physical and Biological Sciences include the Departments of Astronomy and Astrophysics; Chemistry and Biochemistry; Earth and Planetary Sciences; Ecology and Evolutionary Biology; Microbiology and Environmental Toxicology; Mathematics; Molecular, Cell, and Developmental Biology; Ocean Sciences; Physics; and the Science Communication Program. Our undergraduate affairs office helps students understand and manage the breadth and diversity of academic programs and resources that are available to students in the physical and biological sciences. More information can be found at <http://undergrad.pbsci.ucsc.edu/>.

Program Description

Physical education offers students an opportunity to learn and improve skills in a variety of areas while gaining knowledge about the relationship between fitness and wellness. With this information, participants will be better prepared to make important choices leading to healthy lifestyles.

Physical education courses at UCSC, which are elective and without academic credit, are offered in a wide variety of activities. The courses consist of instruction, practice, and full participation consistent with each student's ability. While many of the courses are for students at the beginning level, some are designed for the more advanced student. Most courses involve class meetings of one hour's length, twice a week; but some consist of one and one-half hours twice a week or a single two-hour meeting per week. Students may enroll in as many courses as they desire and are permitted to repeat any course.

[Program Description](#) | [Faculty](#)

Lower–Division Courses

5A. Aquatics: Swimming Level I (no credit). F,W,S

Coeducational. Water exploration and primary skills development. Course is designed to teach only "non-swimmers" how to swim. The following is taught: Red Cross swimming instruction in overcoming fears, water adjustment, floating, breath holding, and rhythmic breathing. Skills to be learned are: water entries, sculling, treading, elementary backstroke, freestyle, methods of water safety, and survival techniques. Students pay a course fee.

Prerequisite(s): instructor determines skill level at first class meeting. Enrollment limited to 15. J. Kimball

5B. Aquatics: Swimming Level II (no credit). F,W,S

Coeducational. Stroke readiness and development. Course is for those who have completed Swimming Level I or who can swim freestyle and demonstrate elementary backstroke. Skills to be learned are underwater swimming, turns, improvement of freestyle and elementary backstroke, beginning side stroke, backstroke, breaststroke, diving, personal safety skills, and basic rescue techniques. Prerequisite(s): instructor determines skill level at first class meeting: pass Swimming Level I course or demonstrate equivalent skills. Students pay a course fee. Enrollment limited to 20. J. McCallum, J. Kimball

5C. Aquatics: Swimming Level III (no credit). F

Coeducational. Stroke refinement and skill proficiency. Course teaches refinement of basic strokes and introduces butterfly, plus backstroke, surface diving, turns, endurance swimming, and survival techniques. Students pay a course fee. Prerequisite(s): instructor determines skill level at first class meeting: pass in Swimming Level II course or possess equivalent skills in freestyle, sidestroke, elementary backstroke, and breaststroke.

Enrollment limited to 30. J. McCallum

5D. Aquatics: Swimming Level IV (no credit). W,S

Coeducational. Advanced skills. Designed to perfect the techniques and skills of all basic strokes plus butterfly, surface dives, survival swimming, basic diving, endurance swimming, and personal and rescue skills. Students pay a course fee. Prerequisite(s): pass in Swimming Level III course or possess equivalent swimming skill requirements in freestyle, backstroke, sidestroke, or competitive swimming; instructor determines skill level. Enrollment limited to 30. J. McCallum

5E. Aquatics: Lifeguard Training (LT) (no credit). F,S

Red Cross certified lifeguard training. Provides the necessary minimum skills training to

qualify as a non–surf lifeguard. Certification includes CPR Pro, AED, PDT, D2, ADMIN, and Title 22 First Aid. Candidates must successfully pass final skill tests and written final exam with 80 percent score. Students are billed for a course fee. Prerequisite(s): must have ability to swim 500 yards in ten minutes, tread water for one minute, strong swimming skills in free, back, breast, side, and elementary backstroke; must purchase Red Cross LT text book. Enrollment limited to 10. K. Musch, J. McCallum

5F. Water Safety Instructor (WSI) (no credit). S
Coeducational. A Red Cross course designed to certify students who complete all required work as swimming instructors. Instruction in teaching techniques, stroke analysis, skilled swimming, class organization, pool safety, and pool maintenance. Practice teaching assignments outside of class with practical and written final exams. Screening test given at first class meeting. Prerequisite(s): must be 17 years old, possess valid ARC Instructor Candidate Training card (ICT), and ARC swimmers–level skills. (Emergency Water Safety (EWS), or Lifeguard Training (LT) certificate is highly recommended). Students pay a course fee. Enrollment limited to 10. K. Musch, J. McCallum

5G. Aquatics: Swimming/Conditioning (no credit). F,W,S
Open to all students who wish to explore swimming as a conditioning and fitness exercise. Students should know three competitive strokes, and should be able to swim fifteen minutes without stopping. Short health and fitness lectures precede some classes. Students pay a course fee. Prerequisite(s): instructor determination at first class meeting. Enrollment limited to 40. The Staff, K. Musch, J. McCallum

5H. Aquatics: Competitive Swimming (no credit). W
Emphasis on competitive swimming and conditioning techniques. For students who want instruction at the competitive level of swimming. Three hours per week. Students pay a course fee. Prerequisite(s): instructor determination at first class meeting. Enrollment limited to 50. K. Musch

5R. Aquatics: Basic Scuba Diving (no credit). F,W,S
Coeducational. Sections geared toward the successful completion of NAUI Scuba Diver Certification. The course is divided into three parts: lecture, pool lab, and open water experience. Four open water training dives are offered. Emphasis is on training for open water scuba diving, using the beach as a base of operation. Students pay a course fee. Prerequisite(s): pass swimming skills tests and medical clearance. It is strongly recommended that students enroll in course 5S. Enrollment limited to 24. C. Shin

5S. Aquatics: Advanced Scuba Diving (no credit). F,S
Coeducational. Sections are offered to facilitate the development of the basic scuba diver's open water techniques. A minimum of six open water experiences is offered. Course is geared toward successful completion of NAUI Advanced Scuba Diver Certification. Students pay a course fee. Prerequisite(s): course 5R or pass swimming skills test and medical clearance. (Formerly course 5T.) Enrollment limited to 25. C. Shin

5T. Scuba Rescue Diving (no credit). F,W,S
Coeducational. Course geared toward the successful completion of NAUI Rescue Diver Certification. Course consists of lecture, pool laboratory, and open–water experience. Emphasis is on training divers to manage risks and effectively handle limited in–water problems. Prerequisite(s): Scuba certification and medical clearance. Enrollment limited to 10. C. Shin

5U. Aquatics: Scuba Divemaster (no credit). F,W,S
Coeducational. A diving–leadership certification course for the experienced scuba student who wishes to assist with the scuba–instruction program at UCSC. Topics include teaching techniques, skin and scuba techniques, rescue techniques, and safety procedures. Specialty laboratories also offered with this course which cover a variety of diving skills. Students pay a course fee. Prerequisite(s): Basic Scuba Certification and special prerequisite checking by instructor. (Formerly Aquatics: Scuba Instruction.) Enrollment limited to 20. C. Shin

9B. Boating: Beginning Dinghy Sailing (no credit). F,W,S

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts ■ Writing Program ■ Yiddish 	<p>Coeducational. Introductory course in practical boating safety using 15–foot sailboats. Includes introduction to rigging, nomenclature, seamanship, proper boat–handling techniques, and general boating and aquatic safety. Satisfactory completion meets prerequisites for intermediate–level dinghy course. Students pay a course fee. Prerequisite(s): swimming ability. (Formerly Boating: Basic Sailing) Enrollment limited to 18. R. Kingon, The Staff</p>
Teaching and Administrative Staff

Nondiscrimination Statement	
	<p>9C. Boating: Intermediate Dinghy Sailing (no credit). F,W,S Coeducational. Course includes a review of basic sailing with an emphasis on the further development and refinement of small–boat sailing techniques. Fifteen–foot sailboats are used with two students per boat. Students pay a course fee. Prerequisite(s): course 9B or equivalent skills. Enrollment limited to 16. R. Kingon, The Staff</p> <p>9D. Boating: Advanced Dinghy Sailing (no credit). F,W,S Coeducational. For students interested in high–performance sailing using Flying Juniors and Coronado 15s. Includes special techniques used in racing conditions. Students pay a course fee. Prerequisite(s): course 9C or equivalent skills. Enrollment limited to 12. R. Kingon, The Staff</p> <p>9H. Boating: Basic Rowing (no credit). F,W,S Coeducational. Course designed to cover types of rowing boats, nomenclature, fundamental skills, and specific safety and rescue aspects related to the activity. Students will row singly as well as in groups using 15–foot to 22–foot rowing dories. (Formerly course 9J.) Students pay a course fee. Prerequisite(s): swimming ability. Enrollment limited to 12. R. Kingon</p> <p>9J. Boating: Intermediate Rowing (no credit). F,W,S Coeducational intermediate course designed to cover more advanced rowing techniques and the skills needed for safe open water rowing. Students pay a course fee. Students pay a course fee. Prerequisite(s): basic rowing or permission of instructor. (Formerly course 9H.) Enrollment limited to 11. R. Kingon, The Staff</p> <p>9K. Boating: Ocean Kayaking (no credit). F,S Co–educational course that teaches novice kayakers the skills to safely use UCSC kayaks in the Monterey Bay. Topics include: basic paddling strokes and maneuvers; self and assisted deep–water rescues; beach launching; landing through surf; and marine hazards and navigation. Students pay a course fee. Enrollment limited to 12. R. Kingon, D. Johnston</p> <p>9S. Boating: Beginning Keelboat Sailing (no credit). F,W,S Coeducational. Combines hands–on rigging and docking practice in the harbor and sailing practice on Monterey Bay with instruction in sail–trimming, de–powering, powering–up, person–overboard recovery techniques, boating safety, weather, ocean conditions, sailing theory, rigging, navigation, and the maritime rules of the road. Twenty–seven foot, ultralight, displacement keelboats are used. Students pay a course fee. (Formerly Boating: Intermediate Keelboat Sailing.) Prerequisite(s): course 9C or equivalent skills. Enrollment limited to 16. R. Kingon</p> <p>9T. Boating: Intermediate Keelboat Sailing (no credit). F,S Coeducational. Further development and refinement of boat–handling techniques, including advanced maneuvering, anchoring, and racing with an introduction to the use of spinnakers. Students pay a course fee. (Formerly Boating: Advanced Keelboat Sailing.) Prerequisite(s): course 9S. Enrollment limited to 12. R. Kingon</p> <p>9X. Boating: Advanced Keelboat Sailing (no credit). F,W,S Coeducational. Designed for the experienced sailor who desires to bareboat larger vessels in the future. Topics include: ocean navigation; anchoring techniques; boat systems, such as diesel engines; boat plumbing and electronics; and docking. Prerequisite(s): course 9T and 40 or more hours of club keelboat usage. Enrollment by permission of instructor. Students pay a course fee. Enrollment limited to 4. R. Kingon</p> <p>15B. Court Sports: Basketball (no credit). F,W,S Coeducational. Instruction in fundamentals, offensive and defensive strategies, rules, and</p>

conditioning designed primarily for beginning and intermediate level players. Students pay a course fee. Enrollment limited to 20. The Staff

15H. Court Sports: Racquetball (no credit). F,W,S

Coeducational. The beginning section provides an introduction to the basic knowledge and skills involved in this indoor racquet sport. The advanced beginning section continues the development of the basic skills emphasizing increased shot variety and advanced strategy. The intermediate section offers the opportunity for further skill development and introduces more advanced offensive skills. Students pay a course fee. Enrollment limited to 18. C. George, J. Bardos

15N. Court Sports: Tennis (no credit). F,W,S

Coeducational. The beginning section introduces the basics of forehand, backhand, and serve. Advanced beginning section reviews these basics and introduces the volley, overhead, and lob. The intermediate section reviews all stroke mechanics and covers basic singles and doubles strategy. The advanced section includes use of spins, practice principles, detailed stroke analysis, and advanced play situations. Competitive Tennis is a year-long program for members of the intercollegiate tennis teams. Students pay a course fee. Enrollment limited to 24. The Staff

15T. Court Sports: Volleyball (no credit). F,W,S

Coeducational. Beginning/intermediate, intermediate, and advanced sections are offered for students who desire to learn and improve the basic skills, as well as to understand the rules. Competitive section is open to students interested in participation in the UCSC NCAA Women's Volleyball team. It covers information and practice in all aspects of the competitive volleyball season. Students pay a course fee. Enrollment limited to 25. T. Hollenbeck

20A. Dance: Ballet (no credit). F,W,S

Coeducational. Sections offered at various technical levels graded from I to III. Emphasis on principles of movement, style, and execution of ballet technique. Section in ballet repertory where advanced students have the opportunity to perform is offered in the spring quarter. Students pay a course fee. L. Norris, The Staff

20B. International Folk Dance (no credit). F,W,S

Coeducational. International folk dance with an emphasis on Balkan and Israeli dances. Sections are also offered periodically in Mexican dance. Students pay a course fee. R. Cochlin

20C. Dance: Jazz (no credit). F,W,S

Coeducational. Sections offered at various technical levels graded from I to III. Exploration of jazz dance emphasizing basic technique, styling, rhythm, and isolations. Jazz and contemporary music is used as accompaniment. Some background in ballet strongly recommended before continuing to Jazz II or III. Section in jazz dance repertory where advanced students have the opportunity to perform is offered in spring quarter. Students pay a course fee. Enrollment limited to 40. L. Norris, The Staff

20D. Dance: Modern (no credit). F,W,S

Coeducational. Sections offered at various technical levels graded from I to III. Emphasis on basic techniques and building phrases of movement. Section in choreography and improvisation offered in spring quarter. Section in dance repertory offered periodically. Students pay a course fee. R. Cochlin, The Staff

20F. Dance: Individual Studies in Dance (no credit). F,W,S

Coeducational. Designed to give students the opportunity of pursuing their particular interests in the field of dance with the support and direction of a faculty member. Prerequisite(s): instructor determination at first class meeting. L. Norris, R. Cochlin

25A. Fencing: Épée (no credit). F,W,S

Coeducational. Basic instruction in the techniques, strategy, and general methodology of modern épée fencing. Emphasis on épée fencing as a development from the traditional French and Italian dueling sword styles as they have evolved to form the modern electrical

épée game. Students pay a course fee. C. Blackburn

25B. Fencing: Foil (no credit). F,W,S

Coeducational. Instruction in modern competitive French-Italian foil techniques for beginning, intermediate, and advanced levels. Emphasis on physical and mental conditioning leading to improved skill in recreational and competitive areas of involvement. Students pay a course fee. C. Blackburn

25C. Fencing: Sabre (no credit). F,W,S

Coeducational. Instruction and practice in basic offensive and defensive skills of modern Hungarian sabre technique. Emphasis on physical and mental conditioning as a foundation for more advanced levels of instruction. Preparation for recreational and competitive involvement. Students pay a course fee. C. Blackburn

28K. Field Sports: Soccer (no credit). F,W,S

Coeducational/Women's. Sections are offered in field soccer and indoor soccer. Instruction in the basic techniques, tactics, laws of the game, and injury prevention for beginners and advanced players. Students pay a course fee. Prerequisite(s): determination at first class meeting. M. Runeare, The Staff

30G. Fitness Activities: Physical Conditioning (no credit). F,W,S

Coeducational. An exercise course designed to increase the participants' strength, flexibility, coordination, and cardiovascular endurance. Special attention is given to understanding and utilizing sound and safe principles of body alignment and movement. Courses include, but not limited to: Pilates, cardio boxing, stretch and strengthen, and aerobics. Students pay a course fee. The Staff, R. Andrews, D. Lewis, R. Cochlin, C. Mori

30H. Fitness Activities: T'ai Chi Ch'uan (no credit). F,W,S

Through balanced movement and breath control, T'ai Chi Ch'uan attempts to forestall many processes of aging by cultivating greater strength of body, mind, and spirit. Students pay a course fee. C. Blackburn

30J. Fitness Activities: Strength Training (no credit). F,W,S

Coeducational. An introduction to safe and effective methods of weight training and other personal conditioning activities. Topics covered include proper weight-training techniques, care of body and equipment, and elementary exercise physiology. Students pay a course fee. (Formerly Fitness Activities: Weight Training.) The Staff, R. Andrews, T. Hammonds, D. Lewis, C. Mori

30L. Fitness Activities: Yoga Exercises (no credit). F,W,S

Coeducational. Sections offered at beginning, continuing beginning, and advanced beginning levels of Hatha Yoga. Students pay a course fee. J. Kimball, R. Cochlin, C. Mori

43A. Martial Arts: Aikido (no credit). F,W,S

Coeducational. A nonviolent, noncompetitive Japanese martial art emphasizing mind-body harmony, balance, relaxation, and the understanding of vital energy. Aikido self-defense techniques aim toward the creative resolution of conflict and the growth of the individual. Sections offered at beginning and experienced levels. Students pay a course fee. Y. Shibata

43G. Martial Arts: Tae Kwon Do (no credit). F

Coeducational. Sections offered at the beginning and intermediate/advanced levels. Covering basic skills, knowledge, and philosophy of Tae Kwon Do and providing instruction in the following aspects of martial arts study: fundamental techniques of self-defense, physical conditioning, emotional control, self-discipline, and self-confidence. Students pay a course fee. (Formerly Martial Arts: Tae Kwon Do (Karate).) Enrollment limited to 35. The Staff

[Faculty](#) | [Course Descriptions](#)

Program Description

Physics seeks to discover the fundamental regularities or “laws” that govern our universe and to apply these laws to explain the behavior of fundamental and complex systems. The same underlying principles describe the behavior of atoms, lasers, living cells, and galaxies. Physics is, therefore, at the base of all modern science and technology, and, even at an elementary level, this fundamental nature can be appreciated.

The Physics Department offers majors in physics, physics (astrophysics), applied physics, and physics education. These programs prepare students for graduate work in physics, astrophysics, and astronomy, for engineering and other technical positions in industry, and for careers in education. With appropriate courses in other disciplines, these majors provide excellent preparation for advanced study in technical subjects such as biology, chemistry, engineering, geophysics, and the philosophy of science. The applied physics major is excellent preparation for positions in industry directly upon graduation.

Physics students and faculty often interact closely in both formal and informal settings. All undergraduate physics majors have the opportunity to work individually with a faculty member in completing the senior thesis requirement.

The main areas of physics research at UCSC are the study of fundamental particles and interactions (high–energy physics), the study of condensed matter physics, and astrophysics/cosmology.

Efforts in high–energy physics are aided by the presence of an organized research unit, the Santa Cruz Institute for Particle Physics (SCIPP). The SCIPP experimentalists play significant roles in experiments at some of the major accelerator laboratories in the world, including the Stanford Linear Accelerator Center (SLAC) at Stanford University and the European centers at CERN (European Organization for Nuclear Research) and DESY (Deutsches Elektronen Synchrotron). The SCIPP theorists are active in the phenomenology of high–energy particle interactions, the theory of strong and electroweak interactions, electroweak symmetry breaking and Higgs bosons, and theories of supersymmetry, superstrings, and gravity. SCIPP also maintains a vigorous program in particle astrophysics. SCIPP theorists are involved in research in high–energy astrophysics, dark matter, formation of galaxies and large–scale structure in the universe, and theories of cosmology and the very early universe. SCIPP experimentalists have played an important role in creating the major satellite for gamma–ray astronomy, the Fermi Gamma–ray Space

Telescope. In addition, SCIPP experimentalists conduct a thriving particle astrophysics program detecting TeV gamma rays as part of the UC VERITAS collaboration.

The presence of the strong astrophysics group from the Astronomy and Astrophysics Department in the same building provides a healthy symbiosis in this area. Note that the Astronomy and Astrophysics Department does not offer an undergraduate major. UCSC is the headquarters for the University of California Observatories, which include Lick Observatory near San Jose and the Keck Observatory in Hawaii; these provide additional opportunities for collaboration between researchers in physics and astronomy.

Condensed matter physics research at UCSC covers a range of topics including the behavior of exotic many-electron systems (for example, superconductors); the study of magnetic phase transitions; the organization of complex systems (proteins, DNA, and polymers); and the development of new electronic devices using novel materials and research in biophysics.

The experimental program uses X-ray and synchrotron radiation techniques at facilities such as the Stanford Synchrotron Radiation Laboratory (SSRL); neutron scattering techniques at various national laboratories; and optical, X-ray, and specific heat techniques at UCSC. Undergraduate students are actively involved in several condensed matter physics laboratories.

Courses

An undergraduate physics education is broad and basic. Undergraduate students, even in introductory classes, are exposed to new ideas associated with explorations at the boundaries of human knowledge.

The lower-division introductory courses in the major programs (Physics 5A, 5B, 5C, and 5D sequence) are well suited to students in the physical sciences and engineering. The 6A, 6B, 6C sequence, which also provides a calculus-based introduction to the basic concepts in physics, is better suited to students in the life sciences. Students who take Physics 6A instead of Physics 5A, and do very well in it, may contact the department chair for permission to enter the major. The laboratory courses, 5L-5M-5N and 6L must be taken concurrently with the corresponding lecture courses.

Major Program

The physics, astrophysics, and applied physics major programs provide a comprehensive coverage of the field and the background necessary for graduate school or industrial careers. The physics education major provides the necessary background to enter a rigorous credential program and, ultimately, a career in high-school science education. Students earn a bachelor of science (B.S.) degree. The UCSC physics, astrophysics, applied physics, and physics education programs begin with a four-quarter presentation of the introductory concepts of the subject, Introduction to Physics. (Note: the applied physics program also requires completion of a general chemistry course.) In order for a student to finish the UCSC physics program in four years, it is essential to start Introduction to Physics at the beginning of the first year.

This is followed by courses which provide an introduction to relativity and quantum physics. The programs continue with a three-quarter sequence in mathematical methods of physics designed to provide the mathematics preparation necessary for most of the upper-division physics courses required for the majors. Included in the upper-division programs are two intensive laboratory courses designed to illustrate both historical experiments in the development of physics, astrophysics, and applied physics, and modern experimental methods. Advanced and especially motivated students may enroll in some graduate courses with the approval of the instructor and department chair

The senior thesis, required of all physics, astrophysics, applied physics, and physics education majors at UCSC, provides the opportunity for students to apply their skills to problems of interest to them, either theoretical or experimental, usually with technical advice from a faculty member. The senior thesis may be based on research with a faculty member. Topics have included particle physics, condensed matter physics, astrophysics, biophysics, and various applied technologies. The senior thesis is a distinctive part of the UCSC physics major program and entails a substantial investment of both student and

faculty time. The learning experience involved in the thesis, as well as the thesis itself, has proven extremely valuable to students in enhancing employment opportunities upon graduation or in gaining admission to graduate school.

The physics education major is designed to provide future K–12 physics and mathematics teachers with the necessary coursework aligned with the K–12 physics and mathematics standards necessary to pass the California Subject Matter Examinations for Teachers (CSET) in Physics and Mathematics. It also includes a thorough introduction to educational theory and practice including a sequence of three classroom–based internships. Students will be well prepared to enter a rigorous teaching credential program and ultimately a career in high school education. The senior comprehensive requirement involves a curriculum development project overseen by the Physics/Astronomy faculty, with co–supervision from CalTeach/Education faculty as needed.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy the upper–division Disciplinary Communication (DC) requirement. Students in physics, applied physics, physics (astrophysics), and physics education satisfy the DC requirement by completing Physics 182, and the senior thesis.

Declaration of the Major

In order to be admitted to the physics, astrophysics, applied physics, or physics education majors students must pass Physics 5A, 5B and 5C with an average grade point average (GPA) in these three courses of 2.7 or higher. At least two of these three courses must be passed in the first attempt. If the third course is repeated, the grade from the second attempt will be considered. Students failing to meet these criteria must meet with a faculty adviser. The faculty adviser will make a recommendation to the department chair, who will then either finalize the denial of admission or specify further conditions for admission.

Letter Grade Policy

For all students entering UCSC in fall 2009 and later, all courses used to satisfy any of the physics major requirements must be taken for a letter grade.

Requirements of the Majors

Physics

The requirements for the major include Physics 5A/L, 5B/M, 5C/N, and 5D; Mathematics 19A or 20A, 19B or 20B, 23A, and either 23B or Physics 14; plus the following upper–division courses: 101A–B, 105, 110A–B, 112, 116A–B–C, 133, 134, 139A, and 182 and the senior thesis.

In addition, students must pass at least two upper–division electives chosen from physics or the following astronomy and astrophysics courses: 111 through 118. In some cases, one of the elective requirements may be satisfied by an approved upper–division science or engineering course.

Students have to satisfy a computer programming requirement by taking one of the courses, Computer Science 5C, 5J, or 5P, Earth Sciences 119, or Physics 115. Computer Science 5C teaches programming in C/C++, 5J in Java, and 5P in Python for students with no prior experience. Earth Sciences 119 teaches programming in IDL (commonly used by astronomers) and simple applications. Physics 115 does not teach programming; it assumes basic programming ability in C, C++ or Fortran and discusses numerical techniques relevant to physics. Students may also satisfy the computer programming requirement by demonstrating their knowledge of programming to a faculty member designated by the Physics Department.

Physics (Astrophysics)

The requirements for the major include Physics 5A/L, 5B/M, 5C/N, and 5D; Mathematics 19A or 20A, 19B or 20B, 23A, and either 23B or Physics 14; plus the following upper–division courses: 101A–B, 105, 110A–B, 112, 116A–B–C, 133, 135 or 136 139A and 182 and the senior thesis.

In addition, students must pass at least three upper-division electives selected from the following upper-division courses: Astronomy and Astrophysics 111 through 118, or 171 (cross-listed with Physics 171), or Astronomy and Astrophysics 257.

Students have to satisfy a computer programming requirement by taking one of the courses Computer Science 5C, 5J, or 5P, Earth Sciences 119, or Physics 115. Computer Science 5C teaches programming in C/C++, 5J in Java, 5P in Python for students with no prior experience. Earth Sciences 119 teaches programming in IDL (commonly used by astronomers) and simple applications. Physics 115 does not teach programming; it assumes basic programming ability in C, C++ or Fortran and discusses numerical techniques relevant to physics. Students may also satisfy the computer programming requirement by demonstrating their knowledge of programming to a faculty member designated by the Physics Department.

Applied Physics

The requirements for the major include Physics 5A/L, 5B/M, 5C/N, and 5D; Mathematics 19A or 20A, 19B or 20B, 23A, and either 23B or Physics 14; Chemistry 1A or 1B; plus the following upper-division physics courses: 101A–B, 105, 110A–B, 112, 116A–B–C, 133, 134, and 182 and the senior thesis.

In addition, students must pass at least three upper-division applied physics electives selected from the following approved list of courses: Physics 107, 115, 120, 129, 139A, 139B, 152, 155, 156, and 160, 171, 180, Electrical Engineering 101, 103, 115, 130, 145, 154, 171, 172, 178; or other courses with approval from a faculty adviser.

Students have to satisfy a computer programming requirement by taking one of the courses Computer Science 5C, 5J, or 5P, Earth Sciences 119, or Physics 115. Computer Science 5C teaches programming in C/C++, 5J in Java, 5P in Python for students with no prior experience. Earth Sciences 119 teaches programming in IDL (commonly used by astronomers) and simple applications. Physics 115 does not teach programming; it assumes basic programming ability in C, C++ or Fortran and discusses numerical techniques relevant to physics. Students may also satisfy the computer programming requirement by demonstrating their knowledge of programming to a faculty member designated by the Physics Department.

Physics Education

The requirements for the major include Physics 5A/L, 5B/M, 5C/N, 5D, 101A and 101B, 133, 134 or 135 and 182 and the senior thesis; Mathematics 19A or 20A, 19B or 20B, 23A, 23B or Physics 14; Mathematics 100, 128A, 181; Education 50B or 50C, 100B or 100C, 185L, 185B or 185C and one upper-division course dealing with issues of diversity in education; Applied Mathematics and Statistics 5 or 7; and Astronomy 12 or 13. One elective course must be taken from physics, astronomy, mathematics or education courses, or other courses with approval of the department.

Sample Physics Major Planner

The following is a recommended academic plan for students to complete during their four years to fulfill requirements for the physics major.

Year	Fall	Winter	Spring
1st (frsh)	MATH 19A or 20A	MATH 19B or 20B	MATH 23A
	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
			CMPS 5C, 5J, or 5P
2nd (soph)	PHYS 101A	PHYS 101B	PHYS 116B
	PHYS 5D (2 credits)	PHYS 116A	
	MATH 23B	PHYS 133*	
3rd	PHYS 105	PHYS 110A	PHYS 110B

(jr)	PHYS 116C	PHYS 112	PHYS 139A
	PHYS 134*		
4th (sr)	PHYS 182***	PHYS elective**	
	PHYS elective**		
	Senior Thesis	Senior Thesis	Senior Thesis

* Physics 133 is offered fall and winter quarters. Physics 134 is offered winter and spring quarters and may be taken in the junior or senior year after completing Physics 133.

**Students should look into taking electives earlier where possible, as some courses are only offered every alternate year.

***Physics 182 will be offered twice yearly, fall and winter quarters.

Sample Physics (Astrophysics) Major Planner

The following is a recommended academic plan for students to complete during their four years to fulfill requirements for the physics (astrophysics) major.

Year	Fall	Winter	Spring
1st (frsh)	MATH 19A or 20A	MATH 19B or 20B	MATH 23A
	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
	CMPS 5C, 5J, or 5P		
2nd (soph)	PHYS 101A	PHYS 101B	PHYS 116B
	PHYS 5D (2 credits)	EART 119	
	MATH 23B	PHYS 116A	
3rd (jr)	PHYS 105	PHYS 110A	PHYS 110B
	PHYS 116C	PHYS 112	PHYS 139A
	PHYS 133*		
	PHYS 135*		ASTR elective
4th (sr)	PHYS 182***		
	PHYS 135		
	ASTR elective**	ASTR elective**	
	Senior Thesis	Senior Thesis	Senior Thesis

* Physics 133 is offered fall and winter quarters. Physics 135 is offered fall quarter and may be taken in the junior or senior year after completing Physics 133.

**Students should look into taking electives earlier where possible, as some courses are only offered every alternate year.

***Physics 182 will be offered twice yearly, fall and winter quarters.

Sample Applied Physics Major Planner

The following is a recommended academic plan for students to complete during their four years to fulfill requirements for the applied physics major.

Year	Fall	Winter	Spring
1st (frsh)	MATH 19A or 20A	MATH 19B or 20B	MATH 23A
	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
			CMPS 5C, 5J, or 5P
2nd (soph)	PHYS 101A	PHYS 101B	PHYS 116B
	PHYS 5D (2 credits)	PHYS 116A	
	MATH 23B	CHEM 1A	
3rd (jr)	PHYS 105	PHYS 110A	PHYS 110B
	PHYS 116C	PHYS 112	Apph elective
	PHYS 133*	PHYS 134*	PHYS 11 (recommended)
4th (sr)	PHYS 182***		Apph elective
	Apph elective		
	Senior Thesis	Senior Thesis	Senior Thesis

* Physics 133 is offered winter and spring quarters. Physics 134 is offered winter and spring quarters and may be in the taken junior or senior year after completing Physics 133.

** Students should look into taking electives earlier where possible, as some courses are only offered every alternate year.

***Physics 182 will be offered twice yearly, fall and winter quarters.

Sample Physics Education Major Planner

The following is a recommended academic plan for students to complete during their four years to fulfill requirements for the physics (astrophysics) major.

Year	Fall	Winter	Spring
1st (frsh)	MATH 19A or 20A	MATH 19B or 20B	MATH 23A
	PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
2nd (soph)	PHYS 101A	PHYS 101B	
	PHYS 5D (2 credits)	MATH 100	EDUC 100B or 100C (2 credits)
	EDUC 50B or 50C (2 credits)	PHYS 133*	
3rd (jr)		MATH 128A	MATH 181
		PHYS 134 or 135*	
	AMS 5 or 7	EDUC 185B/C	
		EDUC 185/L (2 credits)	
4th (sr)	EDUC diversity course	elective	

*Physics 133 is offered fall and winter quarters. Physics 134 is offered in winter and spring quarters and may be taken in the junior or senior year after completing Physics 133.

Physics 135 is offered some academic years as a multiple-term course: 135A in fall and 135B in winter or spring, depending on astronomical conditions.

**Physics 182 will be offered twice yearly, fall and winter quarters.

Students who take Physics 6A instead of Physics 5A, and do very well in it, may contact the department chair for permission to enter the major.

Depending on the student's interests, further preparation for graduate school in physics, astrophysics, applied physics, or for other careers is obtained by electing more specialized or applied courses (see the descriptions of courses below). In addition, again depending on the student's academic focus, elective courses may be selected in mathematics, astronomy and astrophysics, and/or other areas of physical science.

For further information about the physics program, please request the undergraduate handbook, *A Physics Major's Guide*, from the Physics Department office, or look for it online at <http://physics.ucsc.edu>.

Comprehensive Requirement

The comprehensive exit requirement is normally satisfied by the submission and approval of a thesis. To satisfy the comprehensive requirement via a thesis Physics 182 is required. Note that successful completion of Physics 182 and the senior thesis satisfies the Disciplinary Communication requirement.

In special cases, minor modifications of these requirements may be granted to suit the specific program of a particular student. Before embarking on a program needing such waivers, students should discuss their plans with a physics adviser and seek approval by petition from the Physics Department office.

Honors

The department awards "honors" (3.5 grade point average or better) and "highest honors" (3.8 GPA or better) to top graduating students each year. Recommendations for these awards are made by the department chair and are based upon excellence of academic performance, particularly in upper-division physics courses, as reflected in grades and the narrative evaluations. The department also awards "honors" for outstanding work on the senior thesis, made upon the recommendation of the senior thesis supervisor and the thesis technical adviser.

Minor Requirements

Requirements for the minor in physics include Physics 5A/L, 5B/M, 5C/N, 5D (or Physics 6A/L, 6B/M, 6C/N with minimum GPA of 3.5); Mathematics 19A or 20A, 19B or 20B, 23A, 23B or Physics 14; Physics 101A, 101B, 133, and one upper division elective (and any prerequisites) from physics or from a list of courses from other departments approved by the Physics Undergraduate Committee. See the Physics Department for the listing.

Advising and Preparation for the Major

Because the courses for the physics major are sequential, it is strongly advised that students declare their major in physics, astrophysics, or applied physics as early as possible (either at initial registration or by the end of the first year, if possible). Students who do not begin the lower-division requirements during their first year will have difficulty completing the program within four years. Transfer students may also have problems completing the program within the usual time, depending upon whether they took equivalent courses at their previous institutions. The department adviser works closely with students interested in pursuing the major to ensure that they begin the program immediately and follow the appropriate steps toward its completion.

High school students coming directly to UCSC should emphasize their mathematics preparation with the expectation that they will take calculus in their first quarter at UCSC in order to concurrently take the Physics 5 series, calculus-based physics for physics majors.

Students transferring to UCSC as junior physics, astrophysics, or applied physics majors should have completed three quarters of introductory calculus-based physics with laboratory and three quarters of calculus. It is also desirable to have an introductory course in modern physics as well as mathematics courses in linear algebra, vector calculus, and differential equations. The Physics Department advises each junior transfer student individually upon their arrival.

Graduate Programs

The Physics Department offers graduate programs leading to the master of science (M.S.) and/or the doctor of philosophy (Ph.D.) degrees. In the first year of study, Ph.D. students are expected to take two core graduate-level courses per quarter, including the courses required for the Ph.D. degree (210, 212, 214, 215, 216, 219) and other courses specific to the student's field of interest. All first-year students also take 205, Introduction to Research. All graduate students also attend a weekly colloquium, 292. Each student has a faculty adviser who helps to determine which courses are most appropriate, taking into account the student's background and interests. The student-faculty ratio is low so that M.S. and Ph.D. students can work closely with faculty and pursue programs that fit their individual needs. Research is currently conducted in theoretical and experimental particle physics, theoretical and experimental condensed matter physics (including materials physics and biophysics), and in theoretical and experimental high-energy astrophysics (including cosmology). After passing a written qualifying examination, Ph.D. students pursue independent research leading to an oral examination and completion of a doctoral dissertation.

Students may obtain a master's degree through course work (eight physics graduate courses) and submission of an approved thesis. The thesis may be waived by passing four sections of the written Ph.D. qualifying examination. Master's candidates are encouraged to write a research thesis and may do so in any of the research fields in the program, thereby developing laboratory and computational skills in areas such as electronics design, computer simulation and visualization, cryogenics, X-ray scattering, complex novel materials and devices, or materials science. Each M.S. student is assigned a faculty adviser who helps to design a course work plan suited to the interests of the student.

Physics students and faculty use a number of UCSC research facilities (described at the beginning of this section and elsewhere in this catalog): the Santa Cruz Institute for Particle Physics (SCIPP) and Lick Observatory (headquartered at UCSC). There is strong interaction with other disciplines, especially astronomy and astrophysics, biology, chemistry, Earth sciences, electrical engineering, and mathematics. Proximity to the Stanford Linear Accelerator Center and the Stanford Synchrotron Radiation Laboratory provides additional local research opportunities. UCSC faculty and graduate students also participate in research programs at CERN in Geneva, Los Alamos, Oak Ridge National Laboratory, NASA Ames, NREL, Lucent, Xerox, IBM, Bell Labs, and other national and international laboratories.

Application materials and brochures describing the physics M.S. and Ph.D. graduate programs in more detail may be obtained by visiting our web site at <http://physics.ucsc.edu/> or by contacting the Division of Graduate Studies at <http://graddiv.ucsc.edu>.

Five-year B.S./M.S. program

The new five year combined B.S./M.S. in physics program provides highly motivated undergraduate majors the opportunity to earn a M.S. degree in five years. The program provides the additional level of preparation and experience that students need to pursue careers in industry and government. Students in the B.S./M.S. physics program can pursue concentrations in materials and device physics, energy and the environment, computational physics, finance and economics, and medical biophysics. Students apply to be admitted to the B.S./M.S. program, in consultation with their faculty or undergraduate

advisor, no later than the end of the second quarter of the junior year. To be accepted to the program, students will need to have demonstrated solid performance in general and in the major, as demonstrated by: 1) a G.P.A. in physics courses of at least 3.0; 2) an overall G.P.A. of at least 3.0; and 3) a recommendation from a faculty member attesting to the student's promise for the M.S. degree in physics.

Applied Physics majors are strongly advised to take Physics 139A. The Five-year B.S./M.S. program is not suitable for Physics Education Majors.

Course Requirements

All students in the 5-year BS/MS program will be expected to take a core set of four physics courses, including:

PHYS 212. Electromagnetism I;

PHYS 215. Introduction to Non-Relativistic Quantum Mechanics;

PHYS 216. Advanced Topics in Non-Relativistic Quantum Mechanics

PHYS 219. Statistical Physics;

plus four electives in the concentration areas described below. Typically, at least one of these electives will be another physics graduate course. One of the elective courses can be an upper-division undergraduate course upon approval of the faculty coordinator and Graduate Committee.

Two of these elective courses can also serve to fulfill the elective requirement for the B.S. degree.

Materials and Device Physics

This concentration prepares students who are interested in pursuing industrial jobs in the areas of materials science, semiconductors, and optoelectronic devices.

Elective courses include AMS 205A, CHEM 261, CHEM 269, CE 218, CE 218L, EE 211, EE 223, EE 224 EE 225, EE 231, PHYS 231, PHYS 232, PHYS 233, PHYS 242.

Energy and the Environment

This concentration prepares students who are interested in pursuing industrial or government jobs in the areas of sustainable-energy technologies, environmental and climate change and scientific policy related to these areas.

Elective courses include CHEM 268, CHEM 269, EPS 220, EPS 254, EPS 272, EPS 280D, ECON 250, ECON 259B, ENVS 271, PHYS 233, PHYS 242.

Finance and Economics

This concentration prepares students who are interested in pursuing industrial or government jobs in the areas of finance, monetary policy, and economics.

Elective courses include AMS 205A, ECON 200 ECON 202, ECON 209A, ECON 209B, ECON 210A, ECON 210B, ECON 216, ECON 217, ECON 212, ECON 221A, ECON 221B, ECON 223, ECON 234, ECON 235, ECON 236, ISM 205, ISM 230, ISM 245, PHYS 242.

Computational Physics

This concentration prepares students who are interested in pursuing industrial or government jobs in the areas related to using computational methods to solve applied problems as well as computer-based visualization methods for data presentation. Students interested in computational methods in biology could also consider the concentration in medical biophysics.

Elective courses include AMS 215, BMSE 205, BMSE 211, BMSE 230, BMSE 203L, CHEM 265, CE 215, CS 203, CS 210, CS 211, CS 240, CS 261, PHYS 242.

Medical BioPhysics

This concentration prepares students who are interested in pursuing industrial and hospital jobs in the areas of medical technology, biomolecular engineering, and

biophysics.

Elective courses include AMS 215, BMSE/CHEM 255, BMSE 205, BMSE 215, BMSE 220, BMSE 220L, BMSE 222, BMSE 230, BMSE 203L, BMSE 250, BMSE 250L, CHEM 200A, EE 212, MCDB 200B, PHYS 180.

Course Schedule

Year	Fall	Winter	Spring
4th (sr)	Elective*	Elective*	PHYS 219
			Elective*
5th	PHYS 212	PHYS 215	PHYS 216
	Elective*	Elective*	Elective*
	Thesis	Thesis	Thesis

Students may find it helpful to start their master's thesis during the summer at the end of their fourth year.

*Alternate quarters for completing the four electives

Faculty and Professional Interests

Professor

Thomas Banks

String and particle theory, quantum gravity, and cosmology

David P. Belanger

Experimental condensed matter physics, phase transitions

Frank G. Bridges, Emeritus

George Brown, Emeritus

Sue A. Carter

Experimental condensed matter physics, polymer physics, molecular electronics, phase transitions, electronic and optical properties of materials

Joshua M. Deutsch

Condensed matter theory

Michael Dine

Theory of elementary particles

David E. Dorfan, Emeritus

George D. Gaspari, Emeritus

Howard E. Haber

Theory and phenomenology of fundamental particles and their interactions

Clemens A. Heusch, Emeritus

Robert P. Johnson

Experimental high-energy physics, astrophysics

Onuttom Narayan

Theoretical condensed matter physics

Michael Nauenberg, Emeritus

Joel R. Primack

Cosmology, galaxy, formation and evolution, particle astrophysics, nature of dark matter,

gamma ray astronomy

Steven Ritz
Particle physics and astrophysics

Bruce Rosenblum, Emeritus

Matthew Sands, Emeritus

Zack Schlesinger
Experimental condensed matter physics, infrared and optical spectroscopy, strongly correlated electron systems, novel materials, negative thermal expansion, underconstraint and geometrical frustration

Bruce Schumm
Experimental particle physics

Peter L. Scott , Emeritus

Abraham Seiden
Experimental high–energy physics

Sriram Shastry
Condensed matter physics, strongly correlated matter, Mott–Hubbard physics, high Tc superconductivity, quantum magnetism, exactly integrable systems, exactly solvable models of many–body systems and in statistical mechanics, quantum chaos, geometric frustration

David M. Smith
High–energy astrophysics; X–ray and gamma–ray detectors and instrumentation; solar, terrestrial, and planetary sources of gamma radiation

A. Peter Young
Condensed matter theory, statistical mechanics

Associate Professor

Anthony Aguirre
Cosmology of the early and late universe: inflation and the global structure of cosmological models; the intergalactic medium and its enrichment with heavy elements; galaxy formation, evolution, and feedback processes; dark matter; theories of modified gravity

Jason Nielsen
Experimental high–energy physics

Stefano Profumo
Theory of particle physics and particle astrophysics

Assistant Professor

Gey–Hong Gweon
Experimental condensed matter physics

Tesla Jeltema
High–energy astrophysics and cosmology

Alexander Sher
Development of experimental techniques for recording and stimulation of activity at hundreds of neurons and use of these techniques to study neural function, structure, and development

Lecturer

Rachel Dewey
Astrophysics, radio astronomy, neutron stars, science education

Fred Kuttner
Foundations of quantum mechanics; physics education

Adriane Steinacker
Planet formation, MHD simulations

Professor

George R. Blumenthal (Astronomy and Astrophysics)
Cosmology, galaxy formation, high-energy astrophysics

Pascale Garaud (Applied Mathematics and Statistics)
Astrophysics, geophysics, fluid dynamics, numerical resolutions of differential equations, and mathematical modeling of natural flows

Wentai Liu (Electrical Engineering)
Retinal prosthesis, biomimetic systems, integrated neuro-electronics, molecular electronics, CMOS and SOI transceiver design, current mode band limited signaling, microelectronic sensor, timing/clock recovery and optimization, noise characterization and modeling, and computer vision/image processing

William G. Mathews, Emeritus

Richard Montgomery (Mathematics)
Celestial mechanics, differential geometry, gauge theory, mechanics (quantum and classical), and control theory

Arthur Ramirez (Dean, Baskin Engineering; Electrical Engineering)
Experimental materials physics encompassing a broad range of systems including semiconductors, superconductors, magnets, thermoelectrics, and dielectrics. Research that connects materials and devices, with a focus on oxides and organics. Many-body physics that arises from geometrical frustration of low energy degrees of freedom. Techniques include ultra-low temperatures and high magnetic fields, thermodynamic and transport measurements, defect spectroscopy, and device characterization.

Ali Shakouri (Electrical Engineering)
Quantum electronics, nano- and microscale heat and current transport in semiconductor devices; thermoelectric/thermionic energy conversion; renewable energy sources; thermal imaging; micro-refrigerators on a chip; and optoelectronic integrated circuits

Associate Professor

Joel A. Kubby (Electrical Engineering)
Micro-Electro-Mechanical-Systems (MEMS), adaptive optics, integrated optics, bio-MEMS

Assistant Professor

Holger Schmidt (Electrical Engineering)
Integrated optics for biomedicine and quantum optics, nano-magenta-optics, semiconductor physics, optoelectronic and photonic devices, ultrafast optics, quantum interference

Johannes Walcher (Mathematics)
String theory, mirror symmetry, mathematical and particle physics

Adjunct Professor

William Atwood

Donald Coyne, Emeritus

Alan Litke

Michael Riordan

Hartmut F.-W. Sadrozinski

Terry L. Schalk

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. Conceptual Physics. W

Topics in classical and quantum physics and their relation to physical phenomena in the world around us, including modern electronics. Concepts are stressed, but some practical calculational techniques are developed. Working knowledge of high school algebra and geometry is essential. (General Education Code(s): SI, IN, Q.) D. Belanger

2. Elementary Physics of Energy. S

The physics of energy developed in a course accessible to non-science majors as well as science majors. Fundamental principles and elementary calculations, at the level of basic algebra, developed and applied to the understanding of the physics of energy. Topics include fossil fuels, renewable energy, solar cells and waste energy, waste-energy recovery, nuclear power, and global greenhouse effects. (General Education Code(s): PE–E.) D. Smith

5A. Introduction to Physics I. F

Elementary mechanics. Vectors, Newton's laws, inverse square force laws, work and energy, conservation of momentum and energy, and oscillations. Corequisite(s): concurrent enrollment in course 5L and Mathematics 19A or 20A is required. (General Education Code(s): MF, IN, Q.) S. Shastry

5B. Introduction to Physics II. W

A continuation of 5A. Wave motion in matter, including sound waves. Geometrical optics, interference and polarization, statics and dynamics of fluids. Prerequisite(s): courses 5A/L and Mathematics 19A or 20A; concurrent enrollment in course 5M is required. Corequisite: Mathematics 19B or 20B. (General Education Code(s): SI, IN.) O. Narayan

5C. Introduction to Physics III. S

Introduction to electricity and magnetism. Electromagnetic radiation, Maxwell's equations. Prerequisite(s): courses 5A/L and Mathematics 19B or 20B. Concurrent enrollment in 5N is required. Corequisite: Mathematics 22 or 23A. Courses 5B/M recommended. (General Education Code(s): SI, IN.) D. Smith

5D. Heat, Thermodynamics, and Kinetics (2 credits). F

Introduction to temperature, heat, and thermal conductivity, ideal gases, the first and second laws of thermodynamics, and an introduction to kinetic theory. Prerequisite(s): courses 5A/L and Mathematics 19B or 20B. A. Steinacker

5I. Introduction to Physics Honors I (2 credits). *

Weekly 90–minute section covering advanced and modern topics. Topics may include the theory of relativity; complicated dynamics (air resistance, planetary dynamics, etc.); fallacies in perpetual–motion machines; the Euler disk and unusual tops; elasticity of materials applied to structures. Concurrent enrollment in course 5A is required. J. Primack

5J. Introduction to Physics Honors II (2 credits). *

Weekly 90–minute section covering advanced and modern topics. Topics may include nonlinear oscillators and chaos; waves in deep water and inside the earth; redshift in astronomy; negative refractive index materials; photons and matter waves; holography; viscosity; and turbulence. Concurrent enrollment in course 5B is required. F. Kuttner

5K. Introduction to Physics Honors III (2 credits). *

Weekly 90–minute section covering advanced and modern topics. Topics may include atmospheric electricity; shielding; tensor polarization; alternative energy sources; semiconductor devices; particle accelerators and relativistic electrodynamics; Thomson scattering; digital and analog communication. Concurrent enrollment in course 5C is required. J. Primack

5L. Introduction to Physics Laboratory (1 credit). F

Laboratory sequence illustrating topics covered in course 5A. One three–hour laboratory session per week. Prerequisite(s): concurrent enrollment in course 5A is required. The Staff

5M. Introduction to Physics Laboratory (1 credit). W

Laboratory sequence illustrating topics covered in course 5B. One three–hour laboratory session per week. Prerequisite(s): courses 5A/L; concurrent enrollment in course 5B is required. The Staff

5N. Introduction to Physics Laboratory (1 credit). S

Laboratory sequence illustrating topics covered in course 5C. One three–hour laboratory session per week. Prerequisite(s): courses 5A/L. Concurrent enrollment in 5C is required. Courses 5B/M recommended. The Staff

6A. Introductory Physics I. F,W,S

Elementary mechanics. Vectors, Newton's laws, inverse square force laws, work and energy, conservation of momentum and energy, and oscillations. Prerequisite(s): Concurrent enrollment in course 6L required. Corequisite(s): Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 15A. (General Education Code(s): MF, IN, Q.) (F) S. Ritz, (W) Z. Schlesinger, (FS) A. Steinacker

6B. Introductory Physics II. W,S

A continuation of 6A. Geometric optics; statics and dynamics of fluids; introduction to thermodynamics, including temperature, heat, thermal conductivity, and molecular motion; wave motion in matter, including sound waves; introduction to electricity and magnetism. Prerequisite(s): course 5A/L or 6A/L; and Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 15A. Corequisite(s): Mathematics 11B or 19B or 20B. (General Education Code(s): SI, IN.) (W) S. Carter, (W) S. Ritz, (S) F. Kuttner

6C. Introductory Physics III. F,S

Introduction to electricity and magnetism. Elementary circuits; Maxwell's equations; electromagnetic radiation; interference and polarization of light. Prerequisite(s): courses 5A/L or 6A/L, and Mathematics 11B or 19B or 20B or Applied Mathematics and Statistics 15B. (General Education Code(s): SI, IN.) (F) A. Sher, (S) Z. Schlesinger

6L. Introductory Physics Laboratory (1 credit). F,W

Laboratory sequence illustrating topics covered in course 6A. One three–hour laboratory session per week. Prerequisite(s): Previous or concurrent enrollment in course 6A required. The Staff

6M. Introductory Physics Laboratory (1 credit). W,S

Laboratory sequence illustrating topics covered in course 6B. One three–hour laboratory

session per week. Prerequisite(s): courses 6A and 6L or courses 7A and 7L and previous or concurrent enrollment in course 6B. The Staff

6N. Introductory Physics Laboratory (1 credit). F,S
Laboratory sequence illustrating topics covered in course 6C. One three-hour laboratory session per week. Prerequisite(s): courses 6A and 6L; previous or concurrent enrollment in course 6C; courses 6B and 6M are recommended. The Staff

8. The Quantum Enigma. *
Addressed to non-science majors; may interest science majors. After a brief overview of classical physics concepts, some philosophical interpretations of quantum mechanics, which revolutionized our description of nature, are discussed. Concepts are stressed, but some calculation techniques are developed. Enrollment limited to 210. (General Education Code(s): SI.) B. Rosenblum

10. Overview of Physics (2 credits). *
One lecture per week providing a descriptive overview of major areas in the discipline. These include fundamental particles, solid state, fluids, nonlinear dynamics, biophysics, and cosmology. Lectures by various faculty with research interests in these fields. The course is suggested for prospective physics majors, or others, before they enroll in the Physics 5 sequence. F. Kuttner

11. The Physicist in Industry (2 credits). *
One two-hour meeting per week. Subjects include roles of the physicist in industry, the business environment in a technical company, economic considerations, job hunting, and discussions with physicists with industrial experience. Enrollment by permission of instructor. Priority given to applied physics upper-division students; other majors if space available. Enrollment limited to 15. B. Rosenblum, F. Kuttner

14. Introduction to Vector Calculus with Applications (2 credits). *
Partial differentiation, the chain rule, multiple integrals, Jacobians, surface integrals and the divergence, line integrals and the curl, Stokes theorem, gradients and directional derivatives. Prerequisite(s): Mathematics 22 or 23A. The Staff

42. Student-Directed Seminar.
Seminars taught by upper-division students under faculty supervision. (See course 192.) The Staff

75. The Observer in Quantum Mechanics (2 credits). *
Non-mathematical seminar discussing the mysteries arising with the role of the observer in quantum mechanics. Addressed to majors in the physical or biological sciences. Covers material largely untreated in the usual science curriculum. Enrollment restricted to sophomores, juniors, seniors, and graduate students. Enrollment limited to 14. B. Rosenblum

80D. The Quantum Century. *
Survey of 20th-century physics, emphasizing quantum theory and its impact upon science and culture. Includes relativity, atomic and nuclear structure, and applications in transistors, lasers, and nuclear weapons. Ends with discussions of elementary particle physics and quantum cosmology. Aimed at non-science majors as it stresses historical and philosophical perspectives rather than calculations (only non-calculus math will be used), but will also be of interest to science majors. (General Education Code(s): T6-Natural Sciences or Humanities and Arts, Q.) E. Riordan

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. The Staff

Upper-Division Courses

101A. Introduction to Modern Physics I. F
Special theory of relativity. Early experiments and models in quantum physics. Introduction to concepts and calculations in quantum mechanics. Single-electron atoms. Prerequisite(s): courses 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. T. Jeltema

101B. Introduction to Modern Physics II. W

Topics in quantum physics, including angular momentum and spin, the Pauli exclusion principle, and quantum statistics. Applications in multi-electron atoms, molecules, solid state physics, and nuclear and particle physics. Prerequisite(s): course 14 or Mathematics 23B; course 101A; 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. Z. Schlesinger

102. Modern Physics. W

Topics in quantum physics including angular momentum and spin, the Pauli exclusion principle, and quantum statistics, as well as their applications in multi-electron atoms, molecules, solid-state physics, nuclear and particle physics, and cosmology. Intended for transfer students. Prerequisite(s): courses 5A/L, 5B/M, and 5C/N; or 6A/L, 6B/M, and 6C/N; or equivalent. Enrollment restricted to juniors. Enrollment limited to 12. H. Lee

105. Mechanics. F

Particle dynamics in one, two, and three dimensions. Conservation laws. Small oscillations, Fourier series and Fourier integral solutions. Phase diagrams and nonlinear motions, Lagrange's equations, and Hamiltonian dynamics. Prerequisite(s): courses 5A/L, 5B/M, 5C/N, and 116A-B. S. Profumo

107. Introduction to Fluid Dynamics. W

Covers fundamental topics in fluid dynamics: Euler and Lagrange descriptions of continuum dynamics; conservation laws for inviscid and viscous flows; potential flows; exact solutions of the Navier-Stokes equation; boundary layer theory; gravity waves. Students cannot receive credit for this course and Applied Mathematics and Statistics 217. (Also offered as Applied Math and Statistics 107. Students cannot receive credit for both courses.) Prerequisite(s): Mathematics 107 or Physics 116C or Earth and Planetary Sciences 111. The Staff

110A. Electricity, Magnetism, and Optics. W

Maxwell's equations, electrostatics, magnetostatics, induction, electromagnetic waves, physical optics, and circuit theory. Prerequisite(s): 116A-B-C. A. Seiden

110B. Electricity, Magnetism, and Optics. S

Maxwell's equations, electrostatics, magnetostatics, induction, electromagnetic waves, physical optics, and circuit theory. Prerequisite(s): course 110A, and 116A-B-C. J. Nielsen

112. Thermodynamics and Statistical Mechanics. W

Consequences of the first and second laws of thermodynamics, elementary statistical mechanics, thermodynamics of irreversible processes. Prerequisite(s): courses 5B/M, 5C/N, 5D, 101A, 101B, 105, and 116A-B. G. Gweon

115. Computational Physics. S

This course will apply efficient numerical methods to the solutions of problems in the physical sciences which are otherwise intractable. Examples will be drawn from classical mechanics, quantum mechanics, statistical mechanics, and electrodynamics. Students will apply a high-level programming language, such as Mathematica, to the solution of physical problems and develop appropriate error and stability estimates. Prerequisite(s): courses 101B, 105, 116A-B-C, or equivalent. Basic programming experience in C or Fortran. No previous experience with Mathematica is required. A. Young

116A. Mathematical Methods in Physics. W

Infinite series, power series and asymptotic series, complex numbers and complex functions, topics in linear algebra including vector spaces, matrices and determinants, systems of linear equations, eigenvalue problems and matrix diagonalization, tensor algebra, asymptotic expansions, and special functions defined by integrals.. Prerequisite(s): courses 5A/L, 5B/M, 5C/N; Mathematics 23A, 23B. A. Young

116B. Mathematical Methods in Physics. S

Fourier series and transforms, ordinary differential equations, calculus of variations, and functions of a complex variable. Prerequisite(s): courses 5A/L, 5B/M, 5C/N, 116A; and Mathematics 23A and 23B. A. Seiden

116C. Mathematical Methods in Physics. F

Series solutions of ordinary equations, Legendre polynomials, Bessel functions, sets of orthogonal functions, partial differential equations, probability and statistics.

Prerequisite(s): courses 5A/L, 5B/M, 5C/N, 116A–B, Mathematics 23A and 23B. H. Haber

120. Polymer Physics. *

Statistical properties polymers; scaling behavior, fractal dimensions; random walks, self avoidance; single chains and concentrated solutions; dynamics and topological effects in melts; polymer networks; sol–gel transitions; polymer blends; application to biological systems; computer simulations will demonstrate much of the above. Students cannot receive credit for this course and course 240. Prerequisite(s): courses 112, 116A–B–C.

Offered in alternate academic years. J. Deutsch

129. Nuclear and Particle Physics. W

Properties and classification of the elementary particles, their weak and strong interactions, nuclear physics, high energy phenomena analyzed by quantum mechanical methods, experimental methodology. Prerequisite(s): courses 101B or 102, and MATH 23B; students with equivalent course work may contact instructor for permission to enroll.

Offered in alternate academic years. A. Seiden

133. Intermediate Laboratory. F,W

Demonstration of phenomena of classical and modern physics. Development of a familiarity with experimental methods. Special experimental projects may be undertaken by students in this laboratory. Prerequisite(s): course 101A. (W) A. Sher, (S) D. Belanger

134. Physics Advanced Laboratory. W,S

Individual experimental investigations of basic phenomena in atomic, nuclear, and solid state physics. Prerequisite(s): courses 133 and 101B. May be repeated for credit. (W) J. Nielsen, (S) D. Belanger

135. Astrophysics Advanced Laboratory. F

Introduction to the techniques of modern observational astrophysics at optical and radio wavelengths through hands–on experiments. Offered in some academic years as a multiple–term course: 135A in fall and 135B in winter, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135. Students cannot receive credit for both courses.) Prerequisite(s): course 133 and at least one astronomy course. Intended primarily for juniors and seniors majoring or minoring in astrophysics. G. Brown

135A. Astrophysics Advanced Laboratory (3 credits). *

Introduction to techniques of modern observational astrophysics at optical and radio wavelengths through hands–on experiments. Intended primarily for juniors and seniors majoring or minoring in astrophysics. Offered in some academic years as single–term course 135 in fall, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135A. Students cannot receive credit for both courses.) Prerequisite(s): course 133 and at least one astronomy course. R. Dewey

135B. Astrophysics Advanced Laboratory (2 credits). *

Introduction to techniques of modern observational astrophysics at optical and radio wavelengths through hands–on experiments. Intended primarily for juniors and seniors majoring or minoring in astrophysics. Offered in some academic years as single–term course 135 in fall, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135B. Students cannot receive credit for both courses.) Prerequisite(s): course 133 and at least one astronomy course. R. Dewey

136. Advanced Astronomy Laboratory. S

Introduces the techniques of modern observational astrophysics at optical wavelengths through hands–on experiments and use of remote observatories. Students develop the skills and experience to pursue original research. Course is time–intensive and research–oriented. Prerequisite(s): Earth Sciences 119 and Physics 133. Enrollment restricted to junior and senior astrophysics majors. Enrollment limited to 12. J. Prochaska

139A. Quantum Mechanics. S

The principles and mathematical techniques of nonrelativistic quantum mechanics: the Schrödinger equation, Dirac notation, angular momentum, approximation methods, and scattering theory. Offered in spring. Prerequisite(s): courses 101A, 101B, 116A–B–C. T. Banks

139B. Quantum Mechanics. F

The principles and mathematical techniques of nonrelativistic quantum mechanics: the Schrödinger equation, Dirac notation, angular momentum, approximation methods, and scattering theory. Offered in fall. Prerequisite(s): courses 101A, 101B, 116A–B–C and 139A. G. Gweon

143. Supervised Teaching (2 credits). *

Supervised tutoring in selected introductory courses. Students should have completed course 101A and 101B as preparation. Students submit petition to sponsoring agency. The Staff

152. Optoelectronics. *

The first half of the course covers the theory of optoelectronics including wave, electromagnetic, and photon optics, modulation of light by matter, and photons in semiconductors. The second half covers applications including displays, lasers, photodetectors, optical switches, fiber optics, and communication systems. Prerequisite(s): courses 101A, 101B, and 110A. The Staff

155. Solid State Physics. W

Interatomic forces and crystal structure, diffraction, lattice vibrations, free electron model, energy bands, semiconductor theory and devices, optical properties, magnetism, magnetic resonance, superconductivity. Prerequisite(s): courses 112 and 139A; students with equivalent course work may contact instructor for permission to enroll. J. Deutsch

156. Applications of Solid State Physics. *

Emphasizes the application of condensed matter physics to a variety of situations. Examples chosen from subfields such as semiconductor physics, lasers, superconductivity, low temperature physics, magnetism, and defects in crystals. Prerequisite(s): courses 101A and 101B. G. Gweon

160. Practical Electronics. *

Provides a practical knowledge of electronics that experimentalists generally need in research. The course assumes no previous knowledge of electronics and progresses according to the interest and ability of the class. Based on weekly lectures. However, with the aid of the instructor, the students are expected to learn mainly through the design, construction, and debugging of electronics projects. Students are billed a materials fee. Prerequisite(s): courses 5C and 5N or 6C and 6N. Offered in alternate academic years. R. Johnson

171. General Relativity, Black Holes, and Cosmology. F

Special relativity is reviewed. Curved space–time, including the metric and geodesics, are illustrated with simple examples. The Einstein equations are solved for cases of high symmetry. Black–hole physics and cosmology are discussed, including recent developments. (Also offered as Astronomy and Astrophysics 171. Students cannot receive credit for both courses.) Prerequisite(s): courses 105, 110A, 110B, and 116A/B. A. Aguirre

180. Biophysics. F

Physical principles and techniques used in biology: X–ray diffraction; nuclear magnetic resonance; statistics, kinetics, and thermodynamics of macromolecules; viscosity and diffusion; DNA/RNA pairing; electrophoresis; physics of enzymes; biological energy conversion; optical tweezers. (Also offered as Biology: Molecular Cell & Dev 140. Students cannot receive credit for both courses.) Prerequisite(s): course 112; students who have a biochemistry background may contact instructor for permission. Enrollment restricted to juniors and seniors. (General Education Code(s): PR–E.) N. Pourmand

182. Scientific Communication for Physicists. F,W

Explores the communication of physics to a wide range of audiences, including writing articles from the popular to the peer-reviewed level; critically analyzing the communication of scientific discoveries in the media; structuring the physics senior thesis; writing grant applications; assembling a personal statement for job and graduate school application; and assembling and critiquing oral presentations. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior majors in physics, astrophysics, applied physics, or physics education. Enrollment limited to 35. (General Education Code(s): W.) A. Steinacker, D. Belanger

191. Teaching Practicum. F,W,S

Designed to provide upper-division undergraduates with an opportunity to work with students in lower division courses, leading discussions, reading and marking submissions, and assisting in the planning and teaching of a course. Prerequisite(s): excellent performance in major courses; instructor approval required; enrollment restricted to senior physics majors. The Staff

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.)

Prerequisite(s): upper-division standing; submission of a proposal supported by a faculty member willing to supervise. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits).

Tutorial. May be repeated for credit. The Staff

Graduate Courses

205. Introduction to Research in Physics (2 credits). W

Introduction to current research opportunities at UCSC for graduate students. Topics include: elementary particle physics, condensed matter and solid state physics, high energy astrophysics, biophysics, and cosmology. Selected topics related to career development may also be included. Enrollment restricted to graduate students or by permission of instructor. J. Primack

210. Classical Mechanics. F

Generalized coordinates, calculus of variations, Lagrange's equations with constraints, Hamilton's equations, applications to particle dynamics including charged particles in an electromagnetic field, applications to continuum mechanics including fluids and electromagnetic fields, introduction to nonlinear dynamics. Enrollment restricted to graduate students only, except by permission of instructor. S. Profumo

212. Electromagnetism I. F

Electrostatics and magnetostatics, boundary value problems with spherical and cylindrical symmetry, multipole expansion, dielectric media, magnetic materials, electromagnetic properties of materials, time-varying electromagnetic fields, Maxwell's equations, conservation laws, plane electromagnetic waves and propagation, waveguides and resonant cavities. Enrollment restricted to graduate students only, except by permission of instructor. O. Narayan

214. Electromagnetism II. W

Lorentz covariant formulation of Maxwell's equations, dynamics of relativistic charged particles and electromagnetic fields, scattering and diffraction. Topics in classical radiation theory: simple radiating systems radiation by moving charges, multipole radiation, synchrotron radiation, Cerenkov radiation, bremsstrahlung and radiation damping. Prerequisite(s): course 212. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. H. Haber

215. Introduction to Non-Relativistic Quantum Mechanics. W

Mathematic introduction; fundamental postulates; time evolution operator, including the Heisenberg and Schrodinger pictures; simple harmonic oscillator and coherent states; one-dimensional scattering theory, including S-matrix resonant phenomena; two-state

systems, including magnetic resonance; symmetries, including rotation group, spin, and the Wigner–Eckart theorem; rotationally invariant problems, including the hydrogen atom; gauge invariance, including Landau levels; introduction to path integral. Enrollment restricted to graduate students only, except by permission of instructor. B. Schumm

216. Advanced Topics in Non-Relativistic Quantum Mechanics. *

Approximate methods: time-independent perturbation theory, variational principle, time-dependent perturbation theory; three-dimensional scattering theory; identical particles; permutation symmetry and exchange degeneracy, anti-symmetric and symmetric states; many-body systems and self-consistent fields: variational calculations; second quantized formalism, including Fock spaces/number representation, field operators and Green functions; applications: electron gas; quantization of the electromagnetic field and interaction of radiation with matter: absorption, emission, scattering, photoelectric effect, and lifetimes. Prerequisite(s): course 215. Enrollment restricted to graduate students only, except by permission of instructor. H. Haber

217. Quantum Field Theory I. F

Lorentz invariance in quantum theory, Dirac and Klein–Gordon equations, the relativistic hydrogen atom, Green functions and canonical approach to field theory, quantum electrodynamics, Feynman diagrams for scattering processes, symmetries and Ward identities. Students learn to perform calculations of scattering and decay of particles in field theory. Prerequisite(s): course 216. Enrollment restricted to graduate students only, except by permission of instructor. M. Dine

218. Quantum Field Theory II. W

Path integral approach to quantum field theory. Theory of renormalization and the renormalization group, introduction to gauge theories and spontaneously broken field theories. Applications to the standard model of strong, weak, and electromagnetic interactions. Prerequisite(s): course 217. Enrollment restricted to graduate students only, except by permission of instructor. T. Banks

219. Statistical Physics. S

The basic laws of thermodynamics, entropy, thermodynamic potentials, kinetic theory of gases, quantum and classical statistical mechanics, virial expansion, linear response theory. Applications in condensed matter physics. Enrollment restricted to graduate students only, except by permission of instructor. O. Narayan

220. Theory of Many-Body Physics. *

Finite temperature Green functions, Feynman diagrams, Dyson equation, linked cluster theorem, Kubo formula for electrical conductivity, electron gas, random phase approximation, Fermi surfaces, Landau fermi liquid theory, electron phonon coupling, Migdal's theorem, superconductivity. Prerequisite(s): courses 216 and 219. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. S. Shastri

221A. Introduction to Particle Physics I. F

First quarter of a two-quarter graduate level introduction to particle physics, including the following topics: discrete symmetries, quark model, particle classification, masses and magnetic moments, passage of radiation through matter, detector technology, accelerator physics, Feynman calculus, and electron–positron annihilation. Prerequisite(s): course 217 or concurrent enrollment. Enrollment restricted to graduate students only, except by permission of instructor. B. Schumm

221B. Introduction to Particle Physics II. *

Second quarter of a two-quarter graduate level introduction to particle physics, including the following topics: nucleon structure, weak interactions and the Standard Model, neutrino oscillation, quantum chromodynamics, CP violation, and a tour of the Stanford Linear Accelerator Center. Prerequisite(s): course 221A; course 217 or concurrent enrollment. Enrollment restricted to graduate students only, except by permission of instructor. J. Nielsen

222. Quantum Field Theory III. *

Focuses on the theoretical underpinnings of the standard model, including the spontaneous symmetry breaking, the renormalization group, the operator product expansion, and precision tests of the Standard Model. Prerequisite(s): courses 218 and 221B. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. T. Banks

224. Origin and Evolution of the Universe. *

Introduction to the particle physics and cosmology of the very early universe: relativistic cosmology, initial conditions, inflation and grand unified theories, baryosynthesis, nucleosynthesis, gravitational collapse, hypotheses regarding the dark matter and consequences for formation of galaxies and large scale structure. (Also offered as Astronomy and Astrophysics 224. Students cannot receive credit for both courses.) Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. J. Primack

226. General Relativity. *

Develops the formalism of Einstein's general relativity, including solar system tests, gravitational waves, cosmology, and black holes. (Also offered as Astronomy and Astrophysics 226. Students cannot receive credit for both courses.) Enrollment restricted to graduate students only, except by permission of instructor. A. Aguirre

227. Advanced Fluid Dynamics. *

Fundamentals of heat transfer and fluid flow: thermal convection, gravity waves, vortex dynamics, viscous flows, instabilities, turbulence, and compressible flows. Students develop computer program for simulating thermal convection and gravity waves. Vector calculus and computer programming experience required. (Formerly Fluid Dynamics.) An introductory course in fluid dynamics recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. The Staff

231. Introduction to Condensed Matter Physics. F

Crystal structures, reciprocal lattice, crystal bonding, phonons (including specific heat), band theory of electrons, free electron model, electron-electron and electron-phonon interactions, transport theory. Prerequisite(s): course 216. Enrollment restricted to graduate students only, except by permission of instructor. J. Deutsch

232. Condensed Matter Physics. W

Magnetism (para, ferro, anti-ferro, ferri), spin waves, superconductivity, introduction to semiconductors. Prerequisite(s): course 231. Enrollment restricted to graduate students only, except by permission of instructor. S. Shastry

233. Advanced Condensed Matter Physics. *

A special topics course which includes areas of current interest in condensed matter physics. Possible topics include superconductivity, phase transitions, renormalization group, disordered systems, surface phenomena, magnetic resonance, and spectroscopy. Prerequisite(s): course 231. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. S. Carter

234. Soft Condensed Matter Physics. *

A selection of topics from: liquid crystals, biological systems, renormalization group and critical phenomena, stochastic processes, Langevin and Fokker Planck equations, hydrodynamic theories, granular materials, glasses, quasicrystals. Prerequisite(s): courses 219 and 232. Enrollment restricted to graduate students. A. Young, O. Narayan

240. Polymer Physics. *

Statistical properties polymers. Scaling behavior, fractal dimensions. Random walks, self avoidance. Single chains and concentrated solutions. Dynamics and topological effects in melts. Polymer networks. Sol-gel transitions. Polymer blends. Application to biological systems. Computer simulations demonstrating much of the above. Students cannot receive credit for this course and course 120. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. J. Deutsch

242. Computational Physics. S

This course will apply efficient numerical methods to the solution of problems in the physical sciences which are otherwise intractable. Examples will be drawn from classical mechanics, quantum mechanics, statistical mechanics, and electrodynamics. Students will apply a high-level programming language such as Mathematica to the solution of physical problems and will develop appropriate error and stability estimates. Prerequisite(s): basic programming experience in C or Fortran. No previous experience with Mathematica is required. Enrollment restricted to graduate students only, except by permission of instructor. A. Young

250. Mathematical Methods. S

Probability theory with applications to data analysis, complex variables, Cauchy's residue theorem, dispersion relations, saddle-point type asymptotic methods for integrals, integral transforms, ordinary differential equations and orthogonal polynomials, partial differential equations and boundary value problems, and Greens functions. Integral equations also included if time permits. Enrollment restricted to graduate students. A. Young

251. Group Theory and Modern Physics. *

Finite and continuous groups, group representation theory, the symmetric group and Young tableaux, Lie groups and Lie algebras, irreducible representations of Lie algebras by tensor methods, unitary groups in particle physics, Dynkin diagrams, Lorentz and Poincaré groups. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. H. Haber

290. Special Topics.*

A series of lectures on various topics of current interest in physics at UC Santa Cruz. Enrollment restricted to graduate students only, except by permission of instructor. May be repeated for credit. T. Banks

291A. Cosmology (2 credits). F,W,S

Intensive research seminar on cosmology and related topics in astrophysics: nature of dark matter; origin of cosmological inhomogeneties and other initial conditions of the big bang; origin and evolution of galaxies and large scale structure in the universe. Enrollment restricted to graduate students only, except by permission of instructor. J. Primack

291C. Developments in Theoretical Particle Physics (2 credits). F,W,S

Seminar on the current literature of elementary particle physics, ranging from strong and weak interaction phenomenology to Higgs physics, supersymmetry, and superstring theory. Students may present their own research results. Prerequisite(s): course 218; enrollment restricted to graduate students. May be repeated for credit. M. Dine, H. Haber

291D. Experimental High-Energy Collider Physics (2 credits). F,W,S

Seminar on current results in experimental high-energy particle physics. Topics follow recently published results, including design of experiments, development of particle detector technology, and experimental results from new particle searches, quantum chromodynamics, and properties of heavy flavor quarks. Enrollment restricted to graduate students. May be repeated for credit. J. Nielsen

291E. Applied Physics (2 credits). F,W,S

Intensive research seminar on applied physics and related topics in materials science, including semiconductor devices, optoelectronics, molecular electronics, magnetic materials, nanotechnology, biosensors, and medical physics. Students may present their own research results. Enrollment restricted to graduate students. May be repeated for credit. G. Alers, S. Carter

291F. Experimental High-Energy and Particle Astrophysics Seminar (2 credits). F,W,S

Survey of current research in experimental high-energy and particle astrophysics. Recent observations and development in instrumentation for x-rays, gamma rays, and neutrinos, and evidence for dark matter and other new particles. Students lead discussion of recent papers. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. D. Smith

291G. Condensed Matter Physics Research Seminar (2 credits). F,W,S

Weekly seminar series covering topics of current interest in condensed matter physics. Local and external speakers discuss their work. Enrollment restricted to graduate students. May be repeated for credit. A. Young

292. Seminar (no credit). F,W,S

Weekly seminar attended by faculty and graduate students. Directed at all physics graduate students who have not taken and passed the qualifying examination for the Ph.D. program. Enrollment restricted to graduate students only, except by permission of instructor. D. Belanger

297. Independent Study. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. The Staff

298. Theoretical and Experimental Research Project. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. The Staff

299. Thesis Research. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. The Staff

* Not offered in 2012–13

Program Description

In describing the department and major at UCSC, the term politics (rather than political science or government) is used because the study of political life requires a far more inclusive approach than that which is associated with conventional political science methods, and because politics happens in places other than governments. More specifically, the study of politics is the study of the way human communities shape and share a common life through their institutional practices, ideas, interests, and expectations. It looks at the way collective decisions are made and at the obstacles citizens meet as they try to forge a shared and just life. Courses address issues central to public life, such as democracy, power, freedom, political economy, social movements, international law and conflict, institutional reforms, and how public life, as distinct from private life, is constituted.

A major in politics is appropriate for students interested in careers in law, journalism, or teaching; in political and governmental work from local to international settings; and in corporations dealing with global issues. Many UCSC politics graduates have also gone on to do advanced work in distinguished graduate and professional schools. Others have found active and challenging careers in business and community organizing. Still others have turned to scholarship and writing. But regardless of career direction, the most significant purpose of the politics major is to help educate a reflective and activist citizenry capable of sharing power and responsibility in a contemporary democracy.

The study of politics is a critical part of a liberal arts education. Since political issues and practices are embedded in and reflective of the whole experience of a community, the study of politics can constitute the center of a broad-based course of study drawing on history, sociology, anthropology, philosophy, economics, literature, and law.

The programs offered by the UCSC Politics Department are designed to acquaint students with a broad range of issues studied by those in the field. The department offers an undergraduate major, a minor, a combined Latin American and Latino studies/politics major, and a doctoral degree. The Politics Department also houses a program in legal studies; see the Legal Studies Department, for details.

UCSC politics students have many opportunities for field work and for internship placements. Students are encouraged to develop their own extensive independent research

projects.

Politics faculty members give students individual attention to help them in their studies. Faculty members are firmly committed to the value of a liberal arts education, but they are also actively engaged in programs of research and writing. The research interests of the faculty range from the theory of justice to the problem of war, from campaign strategy to relations between the rich and the poor countries of the world.

No specific courses at the high school level are required for admission to the major in politics at UCSC. Courses in history, literature, philosophy, and the social sciences, whether taken at the high school or college level, are appropriate background and preparation for the politics major.

Requirements of the Major

Two lower-division politics courses. All students are required to complete and pass two courses from those numbered 1 through 79, as a prerequisite to upper-division courses in politics and prior to declaring the major. These courses are normally taken during the first year.

A student who has not been able to satisfy the pre-declaration requirement (a passing grade in two politics lower-division classes) may petition the department for an exception. The letter of petition must explain and document the circumstances that might justify an exception. The department will consider the request and notify the student of its decision within two weeks of receiving the petition or within 10 days of the start of the following quarter, whichever is later.

Four upper-division politics core courses. The following four groups of courses constitute the core of the politics major. Four courses are required: two courses from one group, one course from a second group, and one course from a third group. In general, upper-division courses are not recommended for freshmen.

Theory

105A Ancient Political Thought

105B Early Modern Political Thought

105C Modern Political Thought

U.S. Politics

120A Congress, President, and the Court in American Politics

120B Society and Democracy in American Political Development

120C State and Capitalism in American Political Development

Comparative

140A Politics of Advanced Industrialized Societies

140B Comparative Post-Communist Politics

140C Latin American Politics

140D Politics of East Asia

International

160A International Politics

160B International Law

160C Security, Conflict, Violence, War

160D International Political Economy

Five upper-division politics electives. Five additional politics courses are to be selected from those numbered 101-190 in the politics curriculum.

[Appendixes](#)

[Archive of General Catalogs](#)

[Nondiscrimination Statement](#)

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement for politics majors is satisfied by completing any three of the four required core courses. The politics core course list is detailed above in the major requirements.

Comprehensive Requirements

The comprehensive requirement in the Politics Department can be satisfied in any of the following methods:

- Successful completion of a politics senior seminar (190-series) that includes the writing of an extensive paper (no less than 15 pages) with a substantial research content. To enroll in a specific 190 seminar, students must have successfully completed the prerequisite courses listed in the seminar's catalog course description;
- Successful completion of a politics graduate core seminar (enrollment in which is contingent on the written recommendation of two politics faculty) that includes the writing of an extensive paper (no less than 15 pages) with a substantial research content;
- Successful completion of a senior thesis (Politics 195A–B–C) of a minimum of 50 pages. This option is for students interested in working on original research and writing under the supervision of a politics faculty member;
- Successful completion of one additional politics upper-division course. In addition to the existing requirements of this course the student must receive faculty approval for and enroll in a two-credit independent study, Politics 199F, which requires completion of a substantial writing component.

Independent and Field Studies

Students may petition the department to substitute only one upper-division independent study or field study toward the elective requirement in the Politics major. UCDC and UCSAC internships are exempt from this limit.

Honors

Honors in the politics major are awarded to graduating seniors, based primarily on a review of grades and narrative evaluations, whose academic performance is judged to be consistently excellent by a committee of politics faculty. Highest honors in the major are reserved for students with consistently outstanding academic performance.

Requirements of the Minor

All students are required to complete and pass one lower-division politics course from those numbered 1 through 79, as a prerequisite to upper-division courses in politics and prior to declaring the minor. Additionally, five upper-division politics courses are required. Of these, four are to be selected from the core courses: two from one subfield and two from another subfield; these courses are listed above. The fifth course is to be selected from courses numbered 101–199.

General Undergraduate Information

Combined major. The Politics Department offers a combined major with the Latin American and Latino Studies Department. Requirements may be reviewed in the Latin American and Latino Studies section of the catalog.

Double majors. The department accepts proposals for double majors. A student pursuing a double major meets the full requirements of the politics major as well as the full requirements of the other major subject.

Advising. Declaring the major in politics is a four-step process: 1) complete and pass two lower-division politics courses (numbered 1–79) with a grade of C or better; 2) attend a declaration orientation workshop, 3) meet with your faculty adviser, and 4) meet with the politics undergraduate adviser. Each student meets with an assigned faculty adviser to discuss an intended program of study, including its breadth and purpose. The faculty

adviser may suggest additional courses so that the student can achieve greater breadth or concentration. Students are encouraged to select related courses from other departments which complement their interests in politics.

Course credit from other institutions. Courses from another institution may be considered only if they appear on the student's Transfer Credit Summary. Students who wish to substitute courses taken elsewhere for the Politics Department's requirements should discuss the procedure with the department adviser.

Transfer students. A student transferring to UCSC must meet with the politics undergraduate adviser as early as possible to discuss declaring the major and course enrollment. This will ensure a smoother transition. Students should bring a copy of their UCSC Transfer Credit Summary which may be printed from the student portal.

A junior transfer student may satisfy the requirement for one of the two lower-division courses by completing an equivalent course in a political science or equivalent department with a grade of C or better. Courses from another institution may be considered only if they appear on the UCSC Transfer Credit Summary.

Graduate Program

The Faculty

The UCSC Politics Department's faculty provides a distinctive mix of senior scholars whose work has led the field toward interdisciplinary and engaged research, and junior scholars whose work represents the diverse cutting edge of U.S. and international political research. The small size of the program encourages close interaction among faculty and students.

The department enjoys several areas of special strength, including American political development and a focus on the social foundations of democratic politics and democratization. Clusters of faculty also specialize in the study of varieties of capitalism and post-communist politics and economy; the politics of Southeast Asia and Latin America; the study of race and politics; the politics of language; post-colonial theory and nationalist discourse; early modern political thought; and informal and translocal political organization.

The Curriculum

The Politics Department is impressed by the fact that many of the best studies of politics today disregard the conventional boundaries of the political science's disciplinary subfields. Therefore, the core graduate curriculum and qualifying examination process are structured around four interrelated themes central to political inquiry. Each of these areas of emphasis focuses, in a different way, on the relations among material life, institutional authority, collective mobilization, and political vision at all levels of politics.

Political and Social Thought. Brings together the history of political thought; contemporary social and critical theory;' and the contributions of legal and institutional analysis of various kinds. This area of inquiry emphasizes the critical study of political practices that are experienced or understood as in some way limiting, oppressive, or wrong. The work of political and social theory as we see it is to transform our understanding of these practices; to see their contingent conditions; and to articulate the possibilities of governing ourselves differently.

States and Political Institutions. Emphasizes the comparative and international study of political institutions as instruments of collective decision-making and action. This area of inquiry focuses on the state and on transnational, subnational, and regional political institutions. In this area, we emphasize historical patterns of institutional development in relation to domestic political conflict and the changing contours of international political economy and patterns of conflict and cooperation among states.

Political Economy. Focuses on the relationship between states, markets, and societies. This area of inquiry explores the various understandings of political economy that have emerged within a number of different theoretical perspectives, including Marxism, realism, and liberalism. At subnational, national, and supranational levels, this area seeks to understand political economy outcomes as the result of the mutual interactions between political institutions, societal interests, and ideas and norms.

Political and Social Forces. Concerns the interaction of social forces and political forces, drawing upon the work of scholars focused on social mobilizations and histories. Accordingly, this area of inquiry focuses on the articulation and organization of political interest and identities. This area studies the mutual interaction of these interests and identities with structure (states, discourses, public policy, and the law) uniting substantive and theoretical concerns across regional, national, and global politics.

The politics graduate curriculum works critically upon and within conventional social science research and also ranges beyond its methods, drawing upon cultural studies, historical sociology, and history as they inform the study of politics. Students in the politics graduate program also work with faculty in other distinguished departments at UCSC, including literature, history of consciousness, history, Latin American and Latino studies, environmental studies, philosophy, international economics, and feminist studies.

Scholars and students in the program emphasize the articulation of important questions prior to the development of methods for grappling with them, while recognizing the importance of appropriate methodological tools for doing meaningful political research.

Graduate students may also obtain a parenthetical notation on the politics doctor of philosophy (Ph.D.) diploma indicating that they have specialized in Latin American and Latino studies or feminist studies. This notation recognizes the scholarly expertise obtained after the completion of additional curriculum that is required by these departments.

Teaching

Throughout its history, the department has been strongly committed to undergraduate teaching. The graduate program offers graduate students the opportunity to work closely with faculty and undergraduates as teaching assistants. The Politics Department's faculty is committed to "the teaching of teaching": its training of college educators emphasizes the importance of civic education in undergraduate instruction.

See our web site, <http://politics.ucsc.edu>, for details about the policies for admission to graduate standing as well as the application, and information about financial-support opportunities. For more information, refer to the Graduate Division web site.

Ph.D. Program Requirements

The graduate curriculum in politics includes seven stages: 1) three core seminars plus Politics 201, *Logics of Inquiry*; 2) five other graduate-level Politics Department courses; 3) three additional graduate-level courses that may be from politics or other departments, along with further training as appropriate in language and methodology; 4) teaching assistant seminar and graduate colloquia; 5) a qualifying examination consisting of written and oral parts; 6) the research and writing of the dissertation; and 7) its oral defense.

Note: Please check with the department office for updated listings of course offerings and the appropriate year in which to undertake specific electives.

M.A. Degree

Our program is intended to lead to a Ph.D. in politics; there is no separate master of arts (M.A.) program. All curricular requirements are aimed at preparing students for timely and successful completion of a doctoral dissertation. However, all students will be eligible to receive an M.A. upon successfully passing the coursework requirements and completing an acceptable 30-page, journal-quality paper, either within the context of a course or independently, although not the written qualifying exam. Students will be advanced to candidacy only upon successful completion of the coursework requirements and the qualifying examination.

Lower-Division Courses

1. Politics: Power, Principle, Process, and Policy. *

Systematic introduction to the nature of politics and government, organized around the dynamic relationship between power, principle, and process in democratic politics. Provides historic and contemporary overview; explores the interactions among government, laws, and societies at the national and international levels. (Formerly Democratic Politics.) (General Education Code(s): PE–H, IS.) D. Wirls

3. Keywords: Concepts in Politics. S

Introduces key concepts in political discourse and key debates generated by contested terms such as "powers," "ideology," and "multiculturalism." Students read from canonical texts, feminist scholarship, historical materials, and contemporary cultural and postmodernist writings. (General Education Code(s): IS.) The Staff

4. Citizenship and Action. W

What does a citizen do? Uses political theory to answer this question as it relates to a number of issues, such as voting rights, diversity, gay marriage, and revolution. Draws on texts ranging from Aristotle to contemporary legal and cultural debates, to bear on the relationship of citizen action and identity. Other readings include Thoreau, Ellison, Rousseau, Marx, Arendt, and Socrates. (General Education Code(s): TA, IS.) The Staff

10. Nationalism. F

Surveys contemporary academic approaches to the study of nationalism and writings of nationalist theorists from the 18th through 20th centuries. A few historical cases are considered. (General Education Code(s): TA.) M. Thomas

15. Digital Democracy. *

Links the study of democratic theories with an interdisciplinary approach to issues at the intersection of democracy and technology, such as participation, freedom of speech, access with regard to diversity, and income inequality. (General Education Code(s): PE–T, IS.) E. Pasotti

17. U.S. and the World Economy. *

Explores intellectual and empirical trends shaping the U.S. relationship with the global

economy. Traces debates about liberalism and interventionism, surveys post-war American foreign economic policy and discusses varieties of capitalism emerging around the world. (General Education Code(s): IS.) R. Schoenman

20. American Politics. S

Analysis of the development and operation of American political institutions, focusing on the constitutional powers of the Congress, presidency, and Supreme Court; and the development of the American political parties. Topics include the ideological underpinnings of American democracy; the changing balance of power between the executive, legislative, and judicial branches; the expansion of national government power; the expansion of the right to vote and political representation; and the rising power of "non-governmental" forces. (Formerly Democracy and Liberalism in American Politics.) Satisfies American History and Institutions Requirement. (General Education Code(s): TA, IS.) The Staff

25. American Social Policy. *

Examines role of ideas, interests, and institutions in shaping contemporary social policy in the U.S. Focuses on political struggles and policy debates in the areas of crime and drug control, health care, and income security. (General Education Code(s): TA, IS.) E. Bertram

60. Comparative Politics. W

Introduces the study of politics through the analysis of national political systems within or across regions from the developing world to post-industrial nations. Typical topics include: authoritarian and democratic regimes; state institutions and capacity; parties and electoral systems; public policies; social movements; ethnic conflict; and globalization. (General Education Code(s): CC, IS.) B. Read

65. Introduction to International Relations. *

Surveys major theories of international relations including realism, liberal institutionalism, constructivism, and newer approaches focused on problems of asymmetric warfare. Examines problems of nuclear proliferation, international terrorism, global trade conflict, climate change, and humanitarian intervention. (General Education Code(s): CC.) The Staff

70. Global Politics. S

Can common global interest prevail against particular sovereign desires? Surveys selected contemporary issues in global politics such as wars of intervention, ethnic conflict, globalization, global environmental protection, and some of the different ways in which they are understood and explained. (General Education Code(s): PE-H, IS.) The Staff

75. The Nation–State in Global Perspective. F

Examines role of the state and the nation in global politics by studying processes of state formation in four regions: Europe, Africa, Asia, and Latin America. Evaluates recent challenges to the state that have begun to emerge from above and below. (Formerly The Nation: State and Global Politics.) (General Education Code(s): TA, IS.) K. Eaton

Upper–Division Courses

103. Feminist Interventions. S

Situates ongoing debates around feminist theory and practice within the context of political theory, the role of the state, and the position of women in contemporary (predominantly Western) society. Engages with classical political theory, second wave feminism, and the role of the state on matters pertaining to pornography and prostitution. Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during priority enrollment only. V. Seth

105A. Ancient Political Thought. F

Ancient political ideas in context of tension between democracy and empire, emergence of the psyche, and shift from oral to written culture. Emphasis on Athens, with Hebrew, Roman, and Christian departures and interventions. Includes Sophocles, Thucydides, Socrates, Plato, Aristotle, Stoics, the Bible, and Augustine. (Also offered as Legal Studies 105A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. D. Mathiowetz

Teaching and Administrative Staff	
Appendixes	
Archive of General Catalogs	
Nondiscrimination Statement	

105B. Early Modern Political Thought. S
Studies republican and liberal traditions of political thought and politics. Authors studied include Hobbes, Locke, and Rousseau. Examination of issues such as authorship, individuality, gender, state, and cultural difference. (Also offered as Legal Studies 105B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. V. Seth

105C. Modern Political Thought. W
Studies in 19th– and early 20th–century theory, centering on the themes of capitalism, labor, alienation, culture, freedom, and morality. Authors studied include J. S. Mill, Marx, Nietzsche, Foucault, Hegel, Fanon, and Weber. (Also offered as Legal Studies 105C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. Thomas

106. Marxism as a Method. F
Examines Marx's use of his sources in political philosophy and political economy to develop a method for analyzing the variable ways in which social change is experienced as a basis for social action. Provides a similar analysis of contemporary materials. Contrasts and compares Marxian critiques of these materials and readings based on Nietzsche, psychoanalysis, cultural studies, and rational choice materialism. (Also offered as Legal Studies 106. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

109. Orientalism. *
Studies "Orientalism" as a concept of political theory and as a historical practice. Considers how "Western" views of the peoples, cultures, and governments of 'the East' influenced political, intellectual, and aesthetic projects of the 18th and 19th centuries, with attention to the themes of colonialism, nationalism, language, and gender. Also considers Orientalism as a subject of post–colonial thought. Prerequisite(s): course 105A, or 105B, or 105C, or 105D; or by permission of instructor. Enrollment restricted to politics majors. M. Thomas

110. Law and Social Issues. *
Examines current problems in law as it intersects with politics and society. Readings are drawn from legal and political philosophy, social science, and judicial opinions. (Also offered as Legal Studies 110. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

111A. Constitutional Law. W
An introduction to constitutional law, emphasizing equal protection and fundamental rights as defined by common law decisions interpreting the 14th Amendment, and also exploring issues of federalism and separation of powers. Readings are primarily court decisions; special attention given to teaching how to interpret, understand, and write about common law. (Also offered as Legal Studies 111A. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

112. Women and the Law. S
Interdisciplinary approach to study of law in its relation to category "women" and production of gender. Considers various materials including critical race theory, domestic case law and international instruments, representations of law, and writings by and on behalf of women living under different forms of legal control. Examines how law structures rights, offers protections, produces hierarchies, and sexualizes power relations in both public and intimate life. (Also offered as Feminist Studies 112. Students cannot receive credit for both courses.) Enrollment restricted to politics, feminist studies, legal studies, and Latin American and Latino studies/politics combined majors during priority enrollment only. G. Dent

113. Feminism and the Body.
Introduces the literature on the history of the body. Explores the multiple ways in which

the body, in the West, has been the site of cultural and political inscription from the Middle Ages to the 19th century. Topics may include: pornography, criminality, sexuality, art, race, and medicine. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. V. Seth

114. Thinking Green: Politics, Philosophies, and Practices of Sustainability. *

A course on the political and philosophical sources of ecological and social sustainability and how they affect and inflect the design, implementation, and practices of sustainability. Asks whether they offer a "realistic" alternative to liberalism and other political and economic ideologies and practices. (Formerly Thinking Green: Politics, Ethics, Political Economy.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. R. Lipschutz

115. Foundations of Political Economy. F

Examines how ideas about labor, rights, exchange, capital, consumption, the state, production, poverty, luxury, morality, procreation, and markets were woven in political-economic discourse from 1690–1936. Readings include Locke, Mandeville, Smith, Malthus, Mill, Hegel, Marx, Lenin, and Veblen. Particular focus given to theoretical origins of and justifications for poverty and implications of economic interdependence for politics. Prerequisite(s): course 105B, 105C, or 120C. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. D. Mathiowetz

116. Comparative Law. *

Explores legal systems and legal rules around the world, for a better understanding of the factors that have shaped both legal growth and legal change. Particular attention given to differences between common and civil law systems, changes brought about by the European Union, and expansion of legal norms around the globe. (Also offered as Legal Studies 116. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

117. U.S. Telecommunications Law and Policy. *

Surveys the U.S. telecommunications and broadcasting law and policy from the mid-19th century through the present. Offers a range of perspectives from the vantage point of the telecommunications industry, government, and the media-reform movement. Enrollment restricted to politics majors during priority enrollment only. The Staff

120A. Congress, President, and the Court in American Politics. F

Study of political development, behavior, performance, and significance of central governmental institutions of the U.S. Emphasizes the historical development of each branch and their relationship to each other, including changes in relative power and constitutional responsibilities. (Also offered as Legal Studies 120A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. D. Wirls

120B. Society and Democracy in American Political Development. S

Examines role of social forces (e.g., race, class, and gender) in development of the American democratic processes and in the changing relationship between citizen and state. Course materials address ideas, social tensions, and economic pressures bearing on social movements, interest groups, and political parties. (Also offered as Legal Studies 120B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. The Staff

120C. State and Capitalism in American Political Development. W

Examines the relationship between state and economy in the U.S. from the 1880s to the present, and provides a theoretical and historical introduction to the study of politics and markets. Focus is on moments of crisis and choice in U.S. political economy, with an emphasis on the rise of regulation, the development of the welfare state, and changes in employment policies. (Also offered as Legal Studies 120C. Students cannot receive credit

for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. E. Bertram

121. Black Politics and Federal Social Policy. *

Examination of changes in the political and economic status of African Americans in the 20th century; particular focus on the role of national policies since 1933 and the significance of racism in 20th-century U.S. political development. (Also offered as Legal Studies 121. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. (General Education Code(s): E.) M. Brown

122. Politics, Labor, and Markets. S

Examines political and social dimensions of recent transformations in the U.S. labor market. Includes classical and contemporary theoretical debates over the nature and functions of work under capitalism. Focuses on shifts in the organization and character of work in a globalizing economy. Addresses recent trends in wage inequality, low-wage and contingent work, job mobility and security, and work/family relations. Includes attention to the roles and responses of business, labor, and government. (Formerly Politics, Labor, and Markets in the U.S..) Enrollment restricted to politics and Latin American and Latino studies/politics combined major during priority enrollment. E. Bertram

124. Economic Inequality in America. F

Examines the sources and implications of economic inequality in the United States. Explores theories of social class and its intersections with race and gender inequalities. Focuses on the role of politics and public policies in diminishing and/or exacerbating income and wealth inequalities. (Formerly Politics, Poverty, and Inequality in America.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. E. Bertram

125. Political Organizations in American Politics. F

Introduces the literature on interest groups and attempts to answer the question: Do such groups promote or hinder American democracy? Class readings and lectures review and assess the participation of interest groups in the electoral process and in Congress, the executive branch, and the courts. Pays particular attention to the role business and environmental groups play in American politics and policy. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

129. Policies and Politics of American Defense. F

Examines the evolution of the policy and politics of American national security, from the Cold War to the present. Content of military policy explored with analytic focus on formation of policy and interactions between military policies and domestic policies. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. D. Wirls

132. California Water Law and Policy. F

Explores the rich history and fundamental legal concepts surrounding water in California. Students identify, evaluate, and debate some critical water policy questions faced by Californians today and in the future. (Also offered as Legal Studies 132. Students cannot receive credit for both courses.) R. Langridge

133. Law of Democracy. S

Explores the role of law in both enabling and constraining the actions of elected politicians in the U.S. Among issues examined are voting rights, redistricting, and campaign finance. Course asks how the law shapes and limits our ability to choose our elected leaders, and in turn, how the law is shaped by political forces. (Also offered as Legal Studies 133. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

134. Congress: Representation and Legislation in Comparative Perspective. W

Examines the United States Congress and the nature of the representative and legislative

processes. Topics include: districting and elections; bicameralism; party organization; institutional and behavioral influences on legislative action; and the efficacy of Congress as a legislative body. Focuses on the contemporary Congress with comparisons to other legislative and representative institutions. (Also offered as Legal Studies 134. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. D. Wirls

135. Immigration Policy and Debate in the U.S.. F

Course charts the history of immigration policy and debate in the U.S., highlighting the ways economic, social, and geopolitical factors influenced the processes and outcomes of immigration debate and policy making. Focuses on interaction between society and state in formulation and implementation of immigration policy, and the ways policy outcomes may differ from expectations. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

139. Market Crisis and the Future of Capitalism. W

Examines the development and role of late 20th- and early 21st-Century financial technologies in modern market crises. Overview of financial markets, modern finance theory, related regulatory institutions, financial crises, financial technologies, and the relation of human behavior. What is the future of market capitalism? Enrollment restricted to politics and politics/Latin American and Latino studies combined majors. The Staff

140A. Politics of Advanced Industrialized Societies. W

Explores the political and economic systems of advanced industrialized societies. In addition to specific comparisons between the countries of western Europe and the United States, covers important themes and challenges, including immigration, globalization, and the crisis of the welfare state. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. E. Pasotti

140B. Comparative Post-Communist Politics. F

Comparative study of revolutionary transformations of East European, Soviet, and former Soviet nations to post-Communist political orders. Focus on reemergence of political society, social and economic problems of transition, and maintenance of many cultural norms and authority patterns associated with previous regime. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. R. Schoenman

140C. Latin American Politics. S

Overview of major approaches to the study of Latin American politics. Introductory survey of historical and contemporary democratic populist, authoritarian, and revolutionary regimes. Special attention is given to region's recent transitions toward democratic rule, market-based economic models, and decentralized governance. Evaluates institutional arrangements (including presidentialism, electoral rules and party systems), as well as a variety of social movements and strategies of resistance among subaltern social groups and classes. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): E.) K. Eaton

140D. Politics of East Asia. *

Explores dynamics of political and economic development in Northeast and Southeast Asia following WWII. Students apply theories of comparative politics to empirical case studies, integrating statist, social, and cultural factors into their understanding of development. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. (General Education Code(s): E.) The Staff

141. Politics of China. S

Introduces themes of Chinese politics from 1949 to present, including: the establishment and substantial dismantling of socialism; movements and upheavals, such as the Cultural Revolution and 1989; and issues, such as Tibet and Taiwan. Surveys current institutions, leaders, and policies. (Formerly China.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. (General Education Code(s): E.) B. Read

142. Russian Politics. W

Historical-political survey of Russia within the U.S.S.R. is followed by examination of the 1991 revolution, the attempt to recover a national identity and establish a unified Russian state. Highlighted in this course are cultural and political factors central to the Russian experience: personalistic modes of political organization, a remote and corrupt state apparatus, collectivist forms of thought and self-defense. M. Urban

144. Andean Politics. *

Examines similar political trends in four Andean countries: Bolivia, Colombia, Ecuador, and Peru. Trends include mobilization of indigenous populations, breakdown of traditional party systems, and reconstruction efforts in post-conflict environments. Students who have taken prior courses in Latin American politics, including course 140C, will be best prepared for this course. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. K. Eaton

145. Democratization, Citizenship, and Human Rights in Latin America. W

Examines military regimes, transitions to civilian rule, and politics of democratization in contemporary Latin America. Focuses on the contradictions and legacies of transition politics, the challenges of democratizing political institutions, and the political and social consequences of neoliberalism. Emphasis on human rights, citizens' movements, changing dynamics of civil society, and contemporary efforts to deepen democracy. (Formerly course 150, Democratization, Citizenship, and Human Rights in South America) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors. The Staff

146. The Politics of Africa. W

Comparative study of contemporary sub-Saharan African states. Selected issues and countries. Internal and external political institutions and processes are studied in order to learn about politics in contemporary Black Africa and to learn more about the nature of politics through the focus on the particular issues and questions raised by the African context. Enrollment restricted to politics majors during priority enrollment only. (General Education Code(s): E.) I. Gruhn

148. Social Movements. S

Overview of social movements by analysis of specific theories and examples. Course connects the study of theories and movements to larger political processes. Topics may include: New Social Movement theory; gender and social movement; democratic, historical, transnational, global and/or local social movements. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

149. Democratic Transitions. W

Explores democratization processes from a variety of historical and geographical perspectives. Examines the role of foreign influences, economic development, civil society, elites, and institutions in the transition and consolidation of democratic systems. Enrollment restricted to politics and Latin American and Latino studies/politics majors during priority enrollment only. E. Pasotti

151. Politics of Law. *

Uncovers the important debates in politics and law around the functions of courts, litigation, and rights--and the political nature of law itself. Course is interdisciplinary, and draws from literature in political science, law, and sociology. (Also offered as Legal Studies 151. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during priority period. M. Massoud

160A. Theories of International and World Politics. *

Examination of analytical perspectives on international and world politics, international and global political economy, war and conflict, corporations and civil society. Explores theoretical tools and applications, recurring patterns of global conflict and cooperation, the nexus between domestic politics, foreign policy and international and world politics. This is not a current events course. (Formerly International Politics.) Prerequisite(s):

satisfaction of the Entry Level Writing and Composition requirements. R. Lipschutz

160B. International Law. F

Origins and development of international law: international law is examined both as a reflection of the present world order and as a basis for transformation. Topics include state and non-state actors and sovereignty, treaties, the use of force, and human rights. (Formerly course 173.) (Also offered as Legal Studies 160B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. Massoud

160C. Security, Conflict, Violence, War. S

Genesis and theories of conflict and war and their avoidance (past, present, future). Relationship between foreign policy and intra- and interstate conflict and violence. National security and the security dilemma. Non-violent conflict as a normal part of politics; violent conflict as anti-political; transformation of conflict into social and interstate violence. Interrelationships among conduct of war, attainment of political objectives, and the end of hostilities. Civil and ethnic wars. Political economy of violence and war. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. The Staff

160D. International Political Economy. W

Introduction to the politics of international economic relations. Examines the history of the international political economy, the theories that seek to explain it, and contemporary issues such as trade policy, globalization, and the financial crisis. (Formerly course 176.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. R. Schoenman

161. Foreign Relations of China. *

Surveys China's foreign policy from 1949 to today, including the Korean War; Sino-Soviet ties; relations with the United States; tension with Taiwan; and China's rise to geopolitical prominence. Introduces the major theoretical approaches to international relations. (Formerly course 143) Enrollment restricted to politics and politics/Latin America and Latino studies combined majors during priority enrollment. B. Read

163. U.S. Foreign Policy. *

Provides overview of U.S. foreign policy formulation: considers how U.S. political culture shapes foreign policy; examines governmental actors involved: the president, executive branch agencies, and Congress; then considers non-governmental actors: the media, interest groups, and public opinion. (Formerly How U.S. Foreign Policy Gets Made.) Enrollment restricted to politics and politics/Latin American and Latino studies combined majors. The Staff

165. Global Organization. *

Addresses whether and how global organizations are changing the international system. Examines multilateral institutions, regional organizations, and nonstate actors. Overriding aim is to discern whether these global organizations are affecting the purported primacy of the state. (Formerly course 160B.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

166. Politics of Migration. *

Examines the magnitude and the political, economic, cultural, environmental, and social impact of today's movement of millions of people within and amongst states. Enrollment restricted to politics majors and Latin American and Latino studies/politics combined majors during priority enrollment. (General Education Code(s): CC.) I. Gruhn

167. Politics of International Trade. *

Examines key issues in international trade, including the distribution of gains, fair trading practices, and preferential trade agreements. Focuses on the political dimensions of trade, the rules of the international trade system, and conflicts within countries that international trade generates. (Also offered as Legal Studies 167. Students cannot receive credit for both courses.) Enrollment restricted to politics, and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

171. Law of War. *

Examines legal regulation of international violent conflict. Students examine development of normative standards within international law and creation of institutions to both adjudicate violations and regulate conduct. (Also offered as Legal Studies 171. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. The Staff

172. Liberalism, the State, and the War on Terror. F

Examines the relation between the liberal State and perceived challenges to State sovereignty posed by transnational terrorism. How does terrorism as both a symbol and empirical phenomenon fit within the horizon of liberal ideology? What claim to sovereignty does the State make in the face of acts of terror? What political logic is required in/for a War on Terror? Students may not take both course 72 and this course for credit in the major. Enrollment restricted to politics and politics/Latin America and Latino studies majors during priority enrollment. The Staff

174. Global Environment Politics. W

Focus on global environmental "problematique" and how it is being played out in a variety of political arenas. Includes technical overview of global environmental movement; perspectives on alternative political approaches to environmental problems. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. R. Lipschutz

175. Human Rights. W

Embraces an interdisciplinary approach to the study of human rights. Captures the malleable nature of human rights and the contours of its dual role as both law and discourse. (Also offered as Legal Studies 175. Students cannot receive credit for both courses.) Prerequisite(s): Politics or Legal Studies 160B. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment. M. Massoud

177. The United States and the World. *

Examines political, economic, and cultural relationship between the U.S. and the rest of the world, including historical background and foreign policy. Special focus on U.S. involvement in the Middle East and Persian Gulf and the politics of economics of that region. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. R. Lipschutz

178. U.S. Foreign Economic Policy. *

Theoretical and historical survey of U.S. foreign economic policy. First part explores theoretical frameworks and covers historical events in the U.S.'s relationship with world economy. The second part focuses on postwar foreign economic policy; surveys different theoretical approaches to U.S. foreign policy; and examines fundamental developments and issues in trade, monetary, development, and investment policies. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. R. Schoenman

190. Senior Comprehensive Seminar.

These courses, offered at different times by different instructors, focus on current problems of interest across the discipline. Courses offer a flexible framework within which those mutually interested in specific issues can read, present papers, and develop their ideas. Students who do not meet the restrictions and prerequisites may contact the instructor for permission to enroll. The Staff

190A. State and Revolution. *

Investigates the process of rapid and fundamental political change from the standpoint of both the structures of states in which revolutions have occurred and the structures of states issuing from revolutions. A number of cases are examined, but particular emphasis is given to the "classic" revolutions in France (1789) and Russia (1917). Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors; major restrictions lifted during open enrollment. Enrollment limited to 20. M.

Urban

190B. Humanity, Sovereignty, and War. *

Examines how enmity, the state, and war serve as limits for political conceptions of who "we" are, tensions between commitments to diversity and to peace, and liberal and humanitarian efforts to address these tensions. Students examine works written prior to the liberal period (Hobbes), in response to it (Hegel and Schmitt) and finally a 20th-century liberal revival (Rawls), and discuss rights, conscience, political obligation, war, and the state. Prerequisite(s): two of the following: course 103, 105A, 105B, 105C, 105D, 107, 109, or 115. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Enrollment limited to 20. D. Mathiowetz

190D. Early Anarchist and Socialist Thought. F

Studies in 19th- and early 20th-century anarchist and socialist thought. Themes covered include property, labor, marriage, and the state. Readings drawn from Bakunin, Goldman, Fourier, Kropotkin, Perkins-Gilman, Proudhon, and Stirner. Prerequisite(s): two of the following: courses 103, 105A, 105B, 105C, 105D, 109, or 115; or by permission of instructor. Enrollment restricted to senior politics majors. Enrollment limited to 20. M. Thomas

190E. Transitions in the Information Age. F

Explores the role of new media in political protest; whether and how new media technologies such as social networking, text messaging, Twitter, and YouTube have changed the way opposition movements develop. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. R. Schoenman

190G. Issues in International Law. *

Explores theory and reality of international law; how it determines or governs or modifies policies of government. Emphasis on contemporary political and economic forces and international law in nuclear age, competing areas for new law, law of seas, human rights, new international economic issues, the environment. Enrollment restricted to senior legal studies, politics, and Latin American and Latino studies/politics combined majors during priority enrollment only; major restrictions will be lifted during open enrollment. Enrollment limited to 20. The Staff

190H. The Substance of Democracy. F

What is democracy? How can we identify it? How do we understand and identify political participation? What are the factors behind it? What role does protest have in democratic politics? These and similar questions are addressed in this course that focuses on topics of democratic politics in the United States and abroad. Enrollment restricted to senior politics and combined politics/Latin American and Latino studies majors. Enrollment limited to 20. E. Pasotti

190I. Political Ecology and Ecological Politics. S

Examines a range of ecological philosophies and their implications for politics, economics, social action, and the Earth. Themes addressed in relation to political ecology include: liberalism, historical materialism, the nature/culture divide, justice, feminism, and critical theory. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. R. Lipschutz

190J. Politics and Inequality. *

Considers causes and consequences of inequality in modern societies. Emphasizes empirical analysis of contemporary forms of class, racial, and gender inequality and examination of normative theories of distributive justice. Major restrictions lifted during open enrollment. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Enrollment limited to 20. D. Wirls

190K. China in the World Trade Organization. *

Examines the impact that the World Trade Organization (WTO) has had on China's

economic reform, lawmaking, and political and social development. Also examines how China has used the WTO to safeguard its interests through the dispute-settlement mechanism and the Doha trade talks. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Enrollment limited to 20. The Staff

190L. Poverty Politics. W

Examines theoretical, historical, and contemporary sources of poverty policies in the United States. Explores competing theories of the causes of poverty and the consequences of social provision. Focuses on successive historical reform efforts and contemporary dilemmas of race and urban poverty, gender and family poverty, work, and the politics of welfare reform. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Enrollment limited to 20. E. Bertram

190P. Race: History of a Concept. W

Examines how we came, by the late 19th century, to classify humanity into racial categories. In an effort to trace emergence of this very modern phenomenon, explores historical shifts that informed Europe's representation of cultural difference from the writings of ancient Greeks to the social Darwinism of 19th-century Britain. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment. Enrollment limited to 20. V. Seth

190Q. Theorizing Modernity. *

Introduces central categories and material implications that underwrite discourses on modernity since the late 18th century. Students read across the disciplines in fields such as political theory, postcolonialism, history, science studies, anthropology, and feminist criticism. Prerequisite(s): any two of the following courses: 105A, 105B, 105C, 105D. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment. Enrollment limited to 20. V. Seth

190S. Empire and After. S

Examines the literature on American empire, beginning with the founding parents (e.g., Jefferson), continuing through the revisionist literatures (e.g., Williams) and more recent work (e.g., Hardt and Negri), and ending with contemporary critiques and predictions. Enrollment restricted to senior politics majors. Enrollment limited to 20. The Staff

190T. Governance and Conflict in East Asia. *

Students read recent books on East Asian countries (emphasis on China) that engage the long-standing themes of state power and societal resistance. Prerequisite(s): course 141 or 161 or 109, or by permission of instructor. Enrollment restricted to senior politics majors. Enrollment limited to 20. B. Read

190V. Problems in Latin American Politics. S

Research seminar allows advanced students to engage in current scholarly debates in the sub-field of Latin American politics. Students are encouraged to pick a research topic of their own choosing. Recent course themes have included obstacles to democratic consolidation; crime and insecurity; economic reform; lesbian, gay, bisexual, and transgender (LGBT) politics; and public-policy innovations. Prerequisite(s): course 140C or 144. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Students with equivalent course work may enroll with permission of instructor. Enrollment limited to 20. The Staff

190X. Global Capitalism and War. *

Examines the history and organization of, and relationships among, global capitalism and war, through political economy, with a focus on major historical works and recent writings, especially in relation to the crisis of globalization and the rise of the global economy. (Formerly Global Capital and Capitalism.) Prerequisite(s): One of course 115, 120C, 160A, 160D, or 178. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during priority enrollment only. Enrollment limited to 20. The Staff

190Y. Political Theories of Luxury. *

Examines conceptions of luxury as they have appeared in classical, Christian, early modern, and contemporary discourses and debates. How have people sought to define luxury; for what political purposes; and what promise and peril do such definitions have? What is the shape and power of luxury in political communities today? (Formerly Political Theory of Luxury.) Enrollment restricted to senior politics and politics/Latin American studies majors. Enrollment limited to 20. D. Mathiowetz

190Z. International Security. *

Examination of selected issues, controversies, and theories relevant to "security" between and among nations. Topics vary, but may include: war, peace, nuclear proliferation, arms control, military and foreign policies, alternative conceptions of security. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. The Staff

193. Field Study in Politics. F,W,S

Individual studies undertaken off campus with direct faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Various topics to be announced before each quarter. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194F. Group Tutorial (2 credits). F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Various topics to be announced before each quarter. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. The Staff

198. Independent Field Study. F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person (e.g. supervision is by correspondence). Students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

A student normally approaches a member of the staff and proposes to take a course 199 on a subject he or she has chosen which is not offered in other politics courses. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

200A. Political and Social Thought Core Seminar. *

Draws on history of political thought, contemporary social and critical theory, and the contributions of legal and institutional analysis of various kinds to engage in critical study of political practices that are experienced or understood as in some way limiting, oppressive, or wrong; to transform our understanding of these practices; to see their contingent conditions; and to articulate possibilities of governing ourselves differently. (Formerly Interpretive Problems in Political Theory: Language and Power.) Enrollment restricted to graduate students. Enrollment limited to 15. M. Thomas

200B. Social Forces and Political Change Core Seminar. S

Concerns transformation of social forces into political ones. Focuses on formation, articulation, mobilization, and organization of political interests and identities, their mutual interaction, and their effects on state structures and practices and vice versa. Major themes are 1) social bases of political action: class, gender, race, and other determinants of social division and political identity and 2) relevant forms of political agency and action, including development of political consciousness and representation of interests and identities in the public sphere. Enrollment restricted to graduate students. Enrollment limited to 15. B. Read

200C. States and Political Institutions Core Seminar. *

Introduces study of political institutions as instruments of collective decision making and action. Explores alternative theoretical approaches to development of political institutions, state and political economy, and security dilemmas. Enrollment restricted to graduate students. Enrollment limited to 15. E. Pasotti

200D. Political Economy Core Seminar. W

Introduction to the theories and methodologies of political economy. Focuses on the relationship between states and markets and considers the politics of economic choices and institutions germane to both national and global political institutions. Addresses origins and development of markets and capitalism; historical evolution of states and their economies; relationship between labor, capital, production, and consumption; regulation of production; macroeconomics and management of economies; and issues of national and global social welfare. Enrollment restricted to graduate students. Enrollment limited to 15. R. Schoenman

201. Logics of Inquiry. F

Investigates approaches to study of politics and to enterprise of social science in general. Works from positivist, interpretive, historical, and critical approaches provide examples held up to critical and epistemological reflection. Enrollment restricted to graduate students. Enrollment limited to 15. R. Lipschutz

202. Fundamentals of Political Research. W

Gives students practical tools to transform research questions into viable and well-crafted research designs. Introduces conceptual development, various forms of data, and rules for case selection. The goal is to train students in a range of specific methods, including interviewing, ethnography, and archival work. Enrollment restricted to graduate students. Enrollment limited to 15. M. Massoud

203. Making of the Modern. *

Introduces, at the graduate level, some of the central conceptual categories and material implications that underwrite the world of the modern. Explores concepts including the individual, historicism, contract, and objectivity. Enrollment restricted to graduate students. Enrollment limited to 15. V. Seth

204. Bodies in History. *

The human body has been productive of a wide range of varied and competing discourses. Among the themes covered are sexuality, hygiene, the grotesque, and criminality. Enrollment restricted to graduate students. Enrollment limited to 15. V. Seth

206. Topics in Political Theology. *

Readings focus on the early 20th-century rediscovery of political theology; its use in theorizations of the Holocaust; and its return in 21st-century debates on empires, war, terror, enmity, reconciliation, fanaticism, human rights, political economy, and global catastrophe. Enrollment restricted to graduate students. Enrollment limited to 15. B. Meister

207. Political Economies of Affect. W

Explores the potential in philosophical precursors to recent affect theory, alongside classical political economy and its critics, to develop an alternative epistemology for political economy. Readings include: Aristotle, Spinoza, Deleuze, Hume, Negri, Hardt, Smith, Bergson, and Marx. Enrollment restricted to graduate students. Enrollment limited to 15. D. Mathiowetz

208. Race. *

Considers the subject of race and racism from a political and historical perspective appealing to literatures from history, anthropology, science, and literary studies. Enrollment restricted to graduate students. Enrollment limited to 15. V. Seth

222. Conflict and Change in American Politics and Policy. *

Explores the dynamic and contested interaction between politics and policy in the U.S. context, through examining the historical development of key contemporary policy debates and political conflicts. Introduces recent scholarship, drawing on history, sociology, and political economy that has challenged traditional behavioralist approaches to understanding American politics and policy development. Enrollment restricted to graduate students. Enrollment limited to 15. E. Bertram

232. United States Political History. *

Covers several important themes and sets of readings from the literature on American political development. Topics include the origins and development of American political institutions, the evolution of democratic mechanisms, the rise and fall of social movements, and debates about the sources of policy regimes and political change, including the role of war. Enrollment restricted to graduate students. Enrollment limited to 15. D. Wirls

233. Interrogating Race. *

Critically examines alternative theoretical and methodological approaches to study of race and racism. Considers alternative explanations for origins and persistence of racism and racial inequality and suggests the relevance of a socio-political understanding. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

245. Latin American Politics. *

Surveys the Latin American political literature by studying: 1) critical moments in political development (e.g., state formation, democratization); 2) important political institutions (e.g., presidentialism, party, and electoral systems); and 3) influential political actors (e.g., unions, business associations, social movements). Enrollment restricted to graduate students. Enrollment limited to 15. K. Eaton

247. Comparative Urban Politics. *

Focuses on local government structures and the relationships with other levels of government. Examines institutions and administration; urban political economy (fiscal strain, poverty, inequality, and the efforts to attract economic investment); political machines; race and ethnicity. Enrollment restricted to graduate students. Enrollment limited to 15. E. Pasotti

249. Politics of Protest. F

Explores topics related to protest and political participation from theoretical and empirical perspectives. Enrollment restricted to graduate students. Enrollment limited to 15. E. Pasotti

255. Comparative Anti-Colonialisms. *

Political thought of anti-colonial movements in comparative, historical perspective,

including 18th- to 20th-Century European colonies of America and Asia. Focuses both on the contemporary political thought of these movements as well as on historiographical approaches of secondary literature. Enrollment restricted to graduate students. Enrollment limited to 15. M. Thomas

265. Nationalism. *

Survey of theories of nationalism, with selected nationalist thinkers and case studies. Emphasis on historical analyses and cases. Topics include: origins and typologies of nationalisms, racism, gender, revolution, and the state. Enrollment restricted to graduate students. Enrollment limited to 15. M. Thomas

272. Critical Interventions in IR Theory and Global Political Economy. *

Seminar examines selections from the canonical literature in international relations theory and global political economy through a number of critical lenses, including constructivist, feminist, historical materialist, and subaltern approaches. Enrollment restricted to graduate students. Enrollment limited to 15. R. Lipschutz

275. Contemporary Capitalism. *

Examines genesis of new institutions within the force of social ties and networks. Studies how social and organizational relationships achieve individual or group goals in political and economic life, and influence institutional design. Considers when and what ties contribute to governance and economic performance, and when informal and formal organizations constitute an obstacle. (Formerly New Approaches to the Study of Capitalism.) Enrollment restricted to graduate students. Enrollment limited to 15. R. Schoenman

291. Teaching Assistant Seminar (2 credits). F

Two-hour weekly seminar required of teaching assistants in which pedagogic and substantive issues will be considered. The experience of performing teaching assistant duties constitutes subject matter for discussion. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

292. Professional Development (2 credits). W

Primarily for first- and second-year graduate students. Students learn the norms and expectations of graduate school and a variety of professional roles. Students develop a plan for their graduate career and for establishing a professional network of mentors and peer audiences for their work. Enrollment restricted to graduate students. Enrollment limited to 20. D. Mathiowetz

293. Field Study. F,W,S

Individual study undertaken off campus with direct faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

295A. Research Colloquium (2 credits). *

Weekly venue for Ph.D. students to present current research, exchange information on sources and resources, discuss and critique epistemologies and methods, and to formulate topics for QE field statements and the dissertation. There are no assigned readings. May be repeated for credit twice. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. The Staff

295B. Advanced Research Seminar. *

Weekly seminar for Ph.D. students in which to develop and write extended research papers on selected topics, to present current work, to discuss methods, data sources, and fieldwork, and to receive critiques and assessments from fellow students. May be repeated for credit twice. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. The Staff

297. Independent Study. F,W,S

A student approaches a member of the staff and proposes to take a course 297 on a subject he or she has chosen that is not covered in other politics graduate courses or plans a graduate independent study that includes an undergraduate course. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Enrollment restricted to graduate students and permission of instructor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012–13

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Students interested in acquiring proficiency in Portuguese may choose to enroll in either of two accelerated introductory tracks: courses 1A–B are designed as a two–quarter sequence for students who have no previous experience with the Romance languages; courses 60A–B are a two–quarter sequence designed for students who have a strong background in the Romance languages (typically Spanish) or some previous rudimentary knowledge of Portuguese. Both sequences are accelerated. A second–year Portuguese sequence, also accelerated, courses 65A–B, follows the first–year sequence, and is offered over two quarters. The completion of this sequence fulfills the two–year language requirement for study abroad programs.

The program is aimed at enabling students to gain proficiency in listening comprehension, speaking, reading, and writing. Instruction takes place in Portuguese from the beginning and draws heavily on Brazilian culture through popular music and cinema.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Study Abroad

Students may apply to spend time either in Rio de Janeiro, Brazil or in Salvador (Bahia) through the Office of International Education (OIE). Courses taken abroad can, with approval of an adviser, be applied to major requirements. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

Lower-Division Courses

1A. Accelerated Portuguese. F

This course is the first quarter of an accelerated two-quarter series (1A–B), which, taken together, are equivalent to first-year instruction. This intensive class requires no background in the Romance languages, and emphasizes all language skills, including cultural competence. (Formerly Intensive Elementary Portuguese.) The Staff

1B. Accelerated Portuguese. W

This course is sequential to course 1A, and completes first-year accelerated instruction. This intensive class is designed for students with no background in the Romance languages, and emphasizes all language skills, including cultural competence. (Formerly Intensive Elementary Portuguese.) Prerequisite(s): course 1A, or by consent of instructor. The Staff

60A. Accelerated Portuguese for Speakers of Romance Languages. F

The first quarter of accelerated first-year instruction (60A–B). Designed for students with four quarters of college-level Spanish, French, Italian, or Catalan, and native speakers of these Romance languages (including heritage speakers of Portuguese). Emphasizes all language skills, including cultural competence. (Formerly Advanced Beginning and Intermediate Portuguese.) Prerequisite(s): Spanish 4 or Spanish for Heritage Speakers 4 or or Spanish for Spanish Speakers 61 or French 4 or Italian 4 or Spanish Placement Examination score of 50 or by consent of instructor. The Staff

60B. Accelerated Portuguese for Speakers of Romance Languages. W

The second quarter of the 60A–B series completes first-year accelerated instruction of Portuguese for speakers of Spanish, French, Italian, or Catalan, and native speakers of these Romance languages (including heritage speakers of Portuguese). Emphasizes all language skills, including cultural competence. (Formerly Advanced Beginning and Intermediate Portuguese.) Prerequisite(s): course 60A, or by consent of instructor. (General Education Code(s): IH.) The Staff

65A. Accelerated Intermediate Portuguese. S

A systematic grammar review is combined with literacy and cultural readings, while communicative exercises focus on improving students' ability to understand and hold sustained conversations. Students expand their vocabulary and knowledge of Brazil and other Portuguese-speaking cultures through films, popular music, and other culturally

Lower-Division Courses

12. The ArtsBridge Experience (2 credits). *

Weekly meetings on pedagogy in the arts, lesson planning for arts teaching in schools, and submission of teaching portfolio core of this class. Prerequisite(s): permission of instructor; student must be an ArtsBridge scholar. May be repeated for credit. M. Foley

14. Jazz Vocal Ensemble (2 credits). *

Study of vocal techniques in the context of ensemble rehearsals, often culminating in public performance. Familiarity with musical notation recommended. Admission by audition. May be repeated for credit. (General Education Code(s): A.) The Staff

19. Chicana/Latina Identity (2 credits). *

An exploration of Chicana/Latina identity within the context of developmental theories and heterogenous cultural influences on identity formation, including the acculturation process. Students explore their own identities within the previously stated context. Enrollment limited to 20. The Staff

20. Dance/Theater Practicum.

The practice of dance/theater in a particular world area (i.e., Philippines, Mexico, U.S.). Students learn the dance or theater art of one world area and study the associated cultural background. The Staff

20A. Filipino Dance Practicum (2 credits). *

Students are introduced to the different folk dances of the Philippine Islands. Folk dances of the tribal mountain region, of the Spanish Era in the Philippines (Maria Clara Era), and dances of the regional and rural countryside are emphasized. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) W. Manuntag

20C. Korean Dance Practicum (2 credits). *

Students are introduced to the different dances of Korea related to folk tradition. Movement concepts of music and the relation to culture are explored through demonstration, practice, and performance. Enrollment limited to 15. Offered in alternate academic years. (General Education Code(s): A.) The Staff

20D. Dance Improvisation (2 credits). *

Dance practicum emphasizing spontaneous movement in response to diverse media including visual art and music. Special emphasis given to the conceptual approaches taken

by American artists such as Merce Cunningham, John Cage, and Robert Rauschenberg. Enrollment limited to 25. (General Education Code(s): A.) The Staff

21. Music Practicum.

21A. Korean Music and Culture (2 credits). *
Introduction to the farmers band tradition. Theory and practice of drumming are emphasized, resulting in a group performance. Enrollment limited to 20. Offered in alternate academic years. (General Education Code(s): A.) The Staff

21C. Gospel Choir (2 credits). W,S
Instruction in vocal performance in the tradition of gospel choirs. Music is transmitted aurally rather than by notation. The ensemble prepares a range of traditional and contemporary gospel music for performance. Ensemble performs publicly at least once each quarter. Enrollment limited to 60. May be repeated for credit. (General Education Code(s): PR–C, A.) V. Fiddmont

22. Art Practicum (2 credits). *
The practice of art in a particular world area (i.e., Japan, Pacific Islands, U.S.). Explores the art and craft of one world area and studies the associated cultural background. Enrollment restricted to college members. Enrollment limited to 15. (General Education Code(s): A.) The Staff

22A. Day of the Dead (2 credits). F
Day of the Dead: Creating an Exhibition—an exploration of art created to celebrate death in Mexican, Chicano, and American culture. Culminates in the creation of a Day of the Dead ceremony and community altar including students' individual art pieces. Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): A.) E. Sanchez

22F. Vietnamese Festivals (2 credits). *
Vietnamese festivals and the arts they generate, from carving to water puppetry, will be explored for cultural, aesthetic, and iconographic principles, through viewing, discussion and a creative project. Enrollment limited to 20. (General Education Code(s): A.) The Staff

22G. Literary Magazine Publishing (3 credits). *
Learn about and practice basics in publishing a national literary magazine with focus on poetry and the arts. Three–part focus: soliciting/editing, design/publishing, and publicizing/distributing. Students decide which poems published and awarded prizes in the "Viz. 25 and Under Awards" section. Audition for admission at first class with demonstrated experience in related field: creative writing, desk top publishing, art, graphic design, business, etc. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): A.) R. Hamilton

23. Film/Theater Practicum.
The practice of film/theater from the perspective of a particular culture, genre, or technical approach. The Staff

23A. Film Practicum: Talking in Pictures (2 credits). *
Introductory survey of the language of film and television. Considers the roles these media play in the shaping of cultural identity. Creative projects in the conceptual preparation for the making of films and videos. Enrollment limited to 25. (General Education Code(s): A.) The Staff

23B. Personal Narratives in Theater and Film (2 credits). W
Considers filmmakers and monologue performers as they come to terms with their identity in autobiographical works. Students write responses to texts and create their own brief personal narratives. Priority given to college members. Others by permission of instructor. Enrollment limited to 25. (General Education Code(s): PR–C, A.) R. Giges

23C. Documentary/Mockumentary Films (2 credits). *
The mockumentary grows out of the documentary tradition, but instead of pretending to

truthfully capture reality, it blatantly distorts, revealing the subjectivity inherent in cinematic representation. Includes ethnographic, music, political and Hollywood mockumentaries, and critical readings on documentary film. Priority given to Porter College members. Others by permission of instructor. Enrollment limited to 25. (General Education Code(s): A.) R. Giges

28. Sound Art (2 credits). W,S
Several composers and performers of contemporary "art music" discuss the processes by which works are conceived in imagination, transcribed in notation, and realized in sound. After a brief introduction to contemporary music aesthetics, students attend a series of related presentations, seminars, and concerts. Enrollment restricted to college members. Enrollment limited to 18. (General Education Code(s): A.) The Staff

32A. Queering the Arts (2 credits). S
Exploration of the arts as a way to understand and experience how queerness has been expressed, repressed, denigrated, and celebrated in visual arts, music, film, poetry, and dance. Enrollment restricted to college members. Enrollment limited to 30. (General Education Code(s): A.) The Staff

33. Seminar in Arts (2 credits). F,W
Theoretical and historical aspects of the arts from one culture or world area are explored through seminar discussion, library research, and film/video presentations. Priority given to college members. Others by permission of instructor. Enrollment limited to 20. (General Education Code(s): A.) The Staff

33A. African Global Art and Music (2 credits). *
The theme of "Changing the Global Community Through the Arts" explored in African global art and music through readings, listening sessions, and interactions with academics and performers. Culmination will be the African Global Festival and Symposium in April. Enrollment limited to 25. (General Education Code(s): A.) E. Cameron

34B. Fractals, Chaos Theory, and the Arts (2 credits). W
A consideration of chaos theory and fractal geometry as applied by 20th-century artists in all media. All necessary math and computer skills are covered. Students complete essays or art projects. Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): PR-C, A.) R. Abraham

35. Experiencing Live Performance (2 credits). *
Students' attendance at live regional theater performances informed by artists' talks, class lectures, and readings. Students participate in informal performance workshops and write short critical essays. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): A.) The Staff

38. Working in . . . Series.
Writers, directors, technical workers, visual artists, and professionals in a diverse range of media discuss current work, paths that led to their creative endeavors, and constraints to working in the industry. The Staff

38B. Working in TV and Film (2 credits). *
Writers, directors, and technical workers in areas of TV and film discuss current work, paths that led to their creative endeavors, and constraints of working in the industry. Students research aspects of film and TV professional work. Cannot be repeated for credit. Priority given to college members. Others by permission of instructor. (General Education Code(s): A.) L. Steck

39. Jewish Personal Narratives on Film (2 credits). W
Considers Jewish-American filmmakers as they come to terms with their identity in autobiographical works. Students write responses to texts and create their own brief personal narratives. Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): PR-C, A.) R. Giges

80A. Introduction to University Discourse: Writing Across the Arts. F

Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Study, discuss, and write about social, political, and aesthetic issues raised by selected works of literature and art in a variety of media. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. (General Education Code(s): T4–Humanities and Arts, C1.) The Staff

80B. Rhetoric and Inquiry: Writing Across the Arts. F

Explores the intersections between rhetoric (persuasion) and inquiry (investigation) and hones strategies for effective reading, writing, speaking, and research. Read, discuss, research, and write about social, political, and aesthetic issues raised by selected works of literature and art in a variety of media. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. (General Education Code(s): T4–Humanities and Arts, C2.) The Staff

80E. Arts Education in the Community. W

Organized in small teams, participants engage with students from public elementary classrooms to develop fully-staged group performance projects by end of term. Students are guided by instructor's models of teaching techniques, designed to stimulate the imagination, and by diverse readings. Priority given to college members. Others by permission of instructor. Enrollment limited to 30. (General Education Code(s): T4–Humanities and Arts, A.) T. Beal

80G. Making Poetry: Readings/Writing (2 credits). *

Guest poets read work and discuss their approaches to writing. Students develop their own poems and the class culminates in a poetry reading of student work. Priority given to Porter College members. Others by permission of instructor. Enrollment limited to 25. (General Education Code(s): A.) The Staff

80K. Ways of Knowing. *

Creativity in different disciplines is developed via different ways of knowing. Musical, visual, scientific, and spatial literacy demand understanding which is not primarily logocentric. Explores how practitioners of arts and science develop their work and conceptualize its execution. Enrollment restricted to college members. (General Education Code(s): T6–Natural Sciences or Humanities and Arts.) J. Todd

80L. Documenting Oral History. *

Students learn basic techniques of interview and camera work to document on film oral histories collected from community elders. Students develop their skills in writing, theater, visual art, music, or film to reinterpret oral histories as artwork. Priority given to college members. Others by permission of instructor. Enrollment limited to 30. (General Education Code(s): T5–Humanities and Arts or Social Sciences, A.) T. Beal

80W. Writing Across the Arts. *

Explores the intersections between rhetoric (persuasion) and inquiry (investigation) and hones strategies for effective reading, writing, speaking, and research. Students read, discuss, research, and write about social, political, and aesthetic issues raised by selected works of literature and art in a variety of media. Prerequisite(s): satisfaction of the Entry Level Writing Requirement, and C1 and C2 requirements. Enrollment restricted to college members. Enrollment limited to 22. (General Education Code(s): T4–Humanities and Arts, W.) The Staff

83. Pacific Rim Film Festival: Viewing Across Cultures (2 credits). *

Involves viewing Asian and Pacific films at the annual Pacific Rim Film Festival, participating in post-screening discussions with area experts, and writing on the issues of cross-cultural viewing/reading of film. Enrollment restricted to college members. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): A.) M. Foley

99. Tutorial.

Various topics to be arranged. Students submit petition to sponsoring agency. The Staff

99F. Tutorial (2 credits).

Various topics to be arranged. Students submit petition to sponsoring agency. The Staff

Upper-Division Courses

120. Advanced Dance/Theater Practicum (2 credits). *

The practice of dance/theater in a particular world area or culture. Students learn the art of one world area or era and the associated cultural background. Prerequisite(s): audition; prior training in the discipline is required. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): A.) The Staff

121. Advanced Music Practicum (2 credits). S

The practice of music in a particular area of the world at an advanced level. Students learn the music of one world area or culture over the quarter and study the associated cultural background. Enrollment limited. May be repeated for credit. (General Education Code(s): A.) The Staff

121C. Opera Workshop/Music Practicum (2 credits). F

Rehearsal of the principal vocal parts of an opera in preparation for a full production. Consideration of the dramatic aspects of each role and the interrelationships of the characters. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) N. Paiement

126. South Asia Seminar (2 credits). *

South Asian issues in arts, technology, culture, and history will be presented in weekly seminar. Students will attend lectures, read supplementary articles, and write a short paper on a South Asian topic. Enrollment limited to 15. M. Foley

141. New Works Research Laboratory. *

Artists from different disciplines (i.e., art and music, design and creative writing, performance art and dance, etc.) collaborate with students to research and create new pieces. Students are involved in phases of the development from the conception to presentation of the work. Enrollment limited to 20. May be repeated for credit. The Staff

180. Writing Across the Arts: Pedagogical Practicum. F

Advanced undergraduates selected for this course lead small group sections that explore social, political, and aesthetic issues raised by selected works of art in a variety of media. Participants also tutor first-year students in writing about these arts texts. Apply and interview for this course in the spring. Enrollment limited to 25. (General Education Code(s): IM.) R. Giges

194. Group Tutorial.

A program of independent study arranged between a group of students and a faculty instructor. The Staff

199F. Tutorial (2 credits).

Individual projects carried out under the supervision of a Porter faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012-13

(831) 459–2002

<http://psychology.ucsc.edu>

[Faculty](#) | [Course Descriptions](#)

Program Description

Psychology majors at UCSC are introduced to theory and scientific research in the field. Students begin with lower-division courses that include introductory psychology, pre-statistics, statistics, and introduction to developmental psychology. Majors take a total of nine upper-division courses. These include Psychology 100, Research Methods in Psychology; seven courses in the four areas of psychology—developmental, cognitive, social, and personality psychology; and one upper-division course outside the major from an approved list.

Cognitive psychology focuses on topics such as perception; brain and behavior; motor control; learning and memory; thinking, feeling, and emotions; psycholinguistics; and computational modeling. Our cognitive psychologists extend traditional boundaries in the study of cognition to encompass bodies, physical environments, sociocultural contexts, and information technologies. Social psychology addresses topics such as persuasion and influence, motivation, group processes, intergroup relations, psychology and law, and social justice. Developmental psychology is concerned with processes of cognitive, language, social, emotional, and personality development across the life span. Additionally, both developmental and social psychology are concerned with issues of diversity including ethnicity, culture, gender, income, and family structure. Personality psychology focuses on person-centered processes including attachment, life stories, and adjustment.

In addition to the general psychology major, an intensive major and a minor (described below) are also available. The department also administers a major in cognitive science (see separate listing in this catalog under cognitive science). Students primarily interested in clinical and counseling psychology should realize that training in these areas does not occur at the undergraduate level but requires professional training through an advanced degree. UCSC does not offer advanced degrees in clinical psychology or counseling.

Students are encouraged to carry out research projects. Interested psychology majors will find research opportunities in courses, as research assistants in faculty members' research programs, or through faculty-sponsored independent study. This research may be carried out in specialized research laboratories or in the field. Students usually join an ongoing project in which a faculty member is engaged. Students who are especially interested in a career involving empirical research should become involved in a professor's ongoing

research by their junior year. Some recent research topics include “Learning in Infancy and Beyond,” “Parent–Child Conversations,” “Reading Aloud,” “Learning About Psychology Through Conversation,” “Complexities of Privilege,” and “Program Evaluation of Biophysics Course.”

Preparation for the Major

Students interested in pursuing the psychology major should complete Psychology 1, 2, and the pre–statistics mathematics requirement. Psychology 1 and 2 should be taken for a letter grade. After completing these three lower–division required courses, students may then petition to declare the psychology major subject to the grade–point average requirement described in the Major Admission Requirements section below.

High school students considering psychology as their university major find that the best preparation is a solid general education in English writing, mathematics at least through precalculus, biological and physical sciences, and social sciences.

Transfer Students

Junior transfer students should express an interest in psychology on their UCSC application for admission.

It is expected that prospective transfer students will have completed most, if not all, of the lower–division requirements. The psychology faculty recommends that all lower–division requirements be completed by the end of the sophomore year. In order to declare the major, transfer students must meet the grade–point–average requirement described in the Major Admission Requirements section below.

Students who want to fulfill requirements with courses taken at other colleges must petition for the substitution of their transfer courses at an orientation session or at an appointment with the department adviser. Psychology 100, Research Methods in Psychology, must be taken at UCSC. Students planning to transfer to UCSC should check with the advising office of their present college, or refer to www.assist.org.

Transfer students are strongly encouraged to speak with an academic adviser at the Psychology Department office prior to enrolling in classes in order to determine their status and begin the actual declaration of major process.

General Psychology Major

Thirteen courses are required for the general major: four lower–division courses in preparation for the major and nine upper–division courses. The lower–division courses are prerequisites for virtually all of the upper–division courses and should be completed as early as possible, or by the end of the sophomore year. Some upper–division courses have additional prerequisites.

Lower–Division Requirements

Psychology

- 1 Introduction to Psychology (or equivalent)
- 2 Introduction to Psychological Statistics (or equivalent, including Applied Mathematics and Statistics 5 or 7/L)
- 10 Introduction to Developmental Psychology

Applied Mathematics and Statistics 2, Pre–Statistics (or equivalent, including Applied Mathematics and Statistics 2 or 3 or Mathematics 3 or 4 or 11A)

Psychology 20, 40, and 60 are strongly recommended.

Upper–Division Requirements

Students must complete at least nine upper–division courses (a minimum of 47 credits), including appropriate substitutions noted below. The courses include Psychology 100, Research Methods in Psychology; two courses from each of any three of the following subfields, one course from the remaining subfield; and one course from outside the major.

■ Social Documentation
■ Social Sciences
■ Sociology
■ Spanish and Spanish for Heritage Speakers
■ Stevenson College
■ Technology and Information Management

Nondiscrimination Statement

Psychology 100, Research Methods in Psychology

Developmental (courses numbered 102–119)

Cognitive (courses numbered 120–139)

Social (courses numbered 140–159)

Personality (courses numbered 160–179)

Upper–division courses and their catalog descriptions are grouped within each of the subfields. At least one upper–division seminar course must be completed; these courses are identified within their catalog description by the phrase “satisfies seminar requirement.” No more than two psychology courses numbered 193, 194, and 195 may be used toward the upper–division requirements; however, these 190 series courses cannot be substituted for 102–179 courses in the same subfield as each other, or in a subfield in which the student has not taken a course in the 102–179 series. The ninth upper–division requirement must be a five–unit UCSC course outside of psychology chosen from a list of courses approved by the subfield in which students may have taken only one upper–division course. If students have taken two upper–division psychology courses in each of the four subfields, their required outside course can be chosen from a list approved by any of the four subfields. These lists of approved non–psychology courses are posted on the Psychology Department web site. At least seven of the nine courses must be taken through the psychology program at UCSC, not transferred from elsewhere; this requirement occasionally affects the plans of transfer students arriving at UCSC with many psychology courses on their transcript. An exception will be made so that students can receive credit for up to three preapproved EAP courses toward their upper–division major requirements. Students requesting this exception would be required to take at least six of their nine upper–division courses through the psychology program at UCSC. After all substitutions have been made, students must satisfy the fundamental requirement that they take at least one upper–division UCSC psychology course from each of the four subfields.

The Psychology Department recommends that students take substantive courses in related disciplines such as anthropology, biology, community studies, computer science, education, linguistics, philosophy, and sociology.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper–division Disciplinary Communication (DC) requirement. The DC requirement in psychology is satisfied by completing Psychology 100, Research Methods in Psychology, and a seminar. Seminar courses are designated in the campus catalog with the text “satisfies seminar requirement.”

Program Planning Notes

Because some upper–division courses have additional prerequisites, students should read the descriptions of the upper–division courses carefully, noting the prerequisites for courses of interest to them.

Psychology Major Planners

Following are two recommended academic plans for students to complete during their first two years as preparation for the psychology major. Plan One is a suggested guideline for students who are committed to the major early in their academic career. Plan Two is for students who are considering the major or who need more preparation. Students should note that Applied Mathematics and Statistics 2 is a requirement for the major and a prerequisite for Psychology 2 and Psychology 100. Courses 20, 40, and 60 are recommended electives and are prerequisites for some upper–division psychology courses.

Plan One

Year	Fall	Winter	Spring
1st	AMS 2	PSYC 2	PSYC 10

(frsh)	PSYC 1	PSYC 40 (recommended)	PSYC 60 (recommended)
2nd (soph)	PSYC 100	(Begin upper-division coursework)	
	PSYC 20 (recommended)		

Plan Two

Year	Fall	Winter	Spring
1st (frsh)	MATH 2		PSYC 1
2nd (soph)	PSYC 40	PSYC 2	PSYC 10
	AMS 2		PSYC 60
3rd (jr)	PSYC 100	(Begin upper-division coursework)	

The Intensive Psychology Major

The intensive major is an option that any psychology major may choose to undertake. The intensive major would be advantageous for a student intending to go on to a graduate program in any area of psychology. Students intending to take the intensive major should declare this on their proposed study plan during the junior year, outlining their plan for completing the requirements. The intensive major requires 18 courses.

Requirements for the Intensive Major

Lower-Division Requirements

Psychology 1 Introduction to Psychology (or equivalent)

Psychology 2 Introduction to Psychological Statistics (or equivalent, including Applied Mathematics and Statistics 5 or 7/L)

Psychology 10 Introduction to Developmental Psychology

Applied Mathematics and Statistics 2 Pre-Statistics (or equivalent, including Applied Mathematics and Statistics 3, or Mathematics 3 or 4 or 11/A)

Upper-Division Requirements

Fourteen upper-division courses are required for the intensive major. These courses must include Psychology 100 and two courses from each of the following four subfields, one of which must be a seminar:

Developmental (courses numbered 102–119)

Cognitive (courses numbered 120–139)

Social (courses numbered 140–159)

Personality (courses numbered 160–179)

Psychology 181, Psychological Data Analysis, Psychology 182, Advanced Research Methods, or an equivalent course approved by the department

Two quarters of Psychology 194, Advanced Research or 195, Senior Thesis

Two upper-division courses from one or more related areas outside of psychology from lists of courses pre-approved by the Psychology Department and posted on the department's web site, <http://psychology.ucsc.edu>. These two courses will not count toward the nine upper-division requirements listed above. (These courses may not include psychology courses cross-listed with other programs or taught by psychology faculty.) These courses also cannot be counted twice in cases of double majors or minors.

Cognitive Science Major

The Psychology Department is the administrative home for the cognitive science major. Requirements for the cognitive science major may be reviewed under its separate entry in this catalog.

Minor in Psychology

To obtain a minor in psychology, a student must complete the following courses:

- Psychology 1 (or equivalent), 2 (or equivalent), and 10
- Applied Mathematics and Statistics 2 (or equivalent)
- six (32 units) upper-division courses in psychology. These courses must include Psychology 100 and at least two of the four subfields: developmental, cognitive, social, and personality.

Once Psychology 1, 2, and mathematics required lower-division courses have been completed, a student may petition to declare the minor in psychology.

No more than one psychology course numbered 191-199 may be used toward the upper-division requirements. At least three of the upper-division psychology courses (102-199 range) must be taken through the psychology program at UCSC, not transferred from elsewhere; this requirement occasionally affects the plans of transfer students arriving at UCSC with many psychology courses on their transcript.

Major and Minor Admission Requirements

Students may petition to declare the psychology major or the psychology minor once they have completed three lower-division courses: the pre-statistics mathematics requirement, Psychology 1, and Psychology 2 (or Applied Mathematics and Statistics 7/L). To be admitted to the major or minor, students must demonstrate the attainment of foundational skills by receiving a grade of at least B- (2.7) in (a) Psychology 1 and (b) Psychology 2 or Applied Mathematics and Statistics 5 or 7/L. Students who pass these courses but do not achieve the required level of proficiency (i.e., who receive a grade of C, C+, or P) have alternative means of demonstrating foundational skills by: (a) completing Psychology 10 with a grade of B- or higher (if the student did not receive a B- or higher in Psychology 2); (b) completing Applied Mathematics and Statistics 5 or 7/L with a grade of B- or higher (if the student did not receive a B- or higher in Psychology 2); or (c) completing Psychology 2 with a grade of B- or higher if the student did not receive a grade of B- or higher in Applied Mathematics and Statistics 5 or 7/L.

Every student who satisfies the major admission requirements and who petitions to declare the major by the major declaration deadline will be admitted to the major. Students who satisfy the major admission requirements but who petition to declare the major after the major declaration deadline will be considered on a case-by-case basis for admission to the major; admission is not guaranteed. Students who did not satisfy the major admission requirements but believe that there are extenuating circumstances concerning their performance in the foundational courses may file a written appeal describing these circumstances; however, such appeals are rarely granted.

Comprehensive Requirement

UCSC requires that every student satisfy a senior exit/comprehensive requirement prior to graduation. Psychology students will satisfy this requirement by receiving a passing grade in one of our seminars. Passing a seminar course is also required for the major. Courses that meet this requirement are designated as seminars in the campus catalog as "satisfies seminar requirement."

Academic Advising

Students are encouraged to approach faculty in their area of interest for further advising no later than the first quarter of their junior year to discuss an upper-division program of study and to plan for graduate training in psychology. As a supplement to academic advising offered by faculty members, the Psychology Department has an advising office located at 273 Social Sciences 2 Building, (831) 459-2002. The adviser assists students in obtaining information regarding major requirements and petitions, course planning, substitution of transfer courses for advance enrollment, careers, and graduate schools. Students can also get advice about the Graduate Record Examination and assistance in initiating a senior thesis and independent studies. Students are encouraged to take advantage of the advising office throughout their college career.

Senior Thesis

Students with adequate substantive and methodological preparation and a consistent record of strong academic performance may be eligible to apply to write a senior thesis. Students should initiate plans for a thesis no later than the first quarter of their senior year. Most faculty prefer to sponsor senior theses that are integrated with faculty research, so students are encouraged to talk with faculty before choosing a senior thesis topic. Information and applications are available in the department office, 273 Social Sciences 2.

Honors

Honors in the psychology major are awarded to graduating seniors whose academic performance is judged to be consistently excellent by a committee of psychology faculty. Highest honors in the major are reserved for students with consistently excellent academic performance and an honors-level senior thesis.

Psychology Field-Study Program

The Psychology Field-Study Program provides qualified students an opportunity to apply classroom learning to direct experience in a community agency. Each year about 200 students develop new skills and clarify personal and professional goals by working as interns in schools, corporations, law enforcement agencies, research organizations, mental health services, and other social service agencies where they are supervised by professionals. Psychology faculty members sponsor the students' field study helping them to integrate their field experience with course work and guiding them in related academic projects.

The two-quarter program is open to junior and senior psychology majors who must apply at least one quarter in advance. There are information meetings and individual meetings to help students develop a learning plan, select a placement, and choose an academic project. Application information is included in the information meetings.

Graduate Program

The psychology program offers three areas of specialization leading to the doctoral degree: cognitive, developmental, and social psychology. The program does not offer courses, training, or supervision in clinical psychology. The program prepares students for research, teaching, and administrative positions in colleges and universities as well as for positions in schools, government, and other public and private institutions. Each student is primarily associated with one of the three research areas and participates in the courses and research forums sponsored by the faculty in that area. The program requires full-time enrollment as a graduate student. Although applicants for a master's degree are not accepted, students in the doctor of philosophy (Ph.D.) program may obtain a master of science (M.S.) degree by fulfilling specific requirements.

Graduate training in cognitive psychology emphasizes experimental methods and approaches from cognitive science. Faculty have specific expertise in psycholinguistics, memory, and perception. Research interests of the cognitive psychologists in our program extend traditional boundaries in the study of cognition to encompass bodies, physical environment, sociocultural contexts, and information technologies.

Graduate work in developmental psychology addresses the integration of individual, interpersonal, and cultural processes of development. Our faculty study these developmental processes in diverse communities and institutions, including families, peer groups, schools, museums, and close relationships. We use a mixture of quantitative and qualitative methods. This integrative training has enjoyed the support of the National Institutes of Health (NIH) training grant that provides funding for graduate students and post-doctoral trainees. Some research interests of the faculty include: learning by observing, overhearing, and participating; infants' and children's cognitive and language development; conversation, narrative, and memory sharing; academic achievement and career aspirations; family/peer/school links; gender development and discrimination; development of personal and social identities; intergroup relations; ethnicity, culture, and development; social policy and educational practice.

The social psychology graduate program at UCSC has a unique mission and focus. We use Kurt Lewin's model of "full-cycle" social psychology (theory-application-action) to study a broad range of topics related to social justice. In this way, knowledge gained in action-oriented research leads, in turn, to the development of new theory. Accordingly, our students learn to apply psychological theories and data to the analysis and solution of a wide range of social problems. We use a variety of research methods to examine justice-related issues in different cultural, political, and policy contexts. Our students are trained in laboratory, field, and survey methods; they are encouraged to attend to issues of race, class, sexuality, ethnicity, gender, and physical ableness; and, in addition to traditional social psychological approaches, are steeped in critical theoretical perspectives such as feminist theory. Our graduates go on to successful careers in academia as well as in community, government, and non-profit settings. Our approach to research and training, combined with the quality and competencies of our faculty, make our program among the nation's best for the psychological study of social justice issues. Current faculty research interests include educational access, sexuality, poverty and economic justice, psychology and law, aggression and trauma, peace psychology, intergroup relations, social identity, social policy analysis, structural inequality, intersectionality, political psychology, institutional analysis, and feminisms.

Graduate students in psychology may obtain a designated emphasis on the psychology Ph.D. diploma indicating that they have specialized in feminist studies and/or Latino American and Latino Studies (LALS) if they meet requirements spelled out by a committee composed of psychology and feminist studies faculty, or psychology and LALS faculty.

Details on the policies for admission to graduate standing and requirements for the Ph.D. degree, as well as the online application can be found on the Division of Graduate Studies web site. The department's graduate program brochure, and faculty research are available on the department web site.

Students enrolled in the psychology graduate program will complete a first-year and second-year research project. All graduate students must enroll and participate in the colloquium series each quarter (Psychology 230 for cognitive, Psychology 242 for developmental, and Psychology 231 for social.) First-year students must take two courses in statistics (Psychology 204 and Psychology 214A) and a two-quarter proseminar sequence during fall and winter quarters. (Psychology 224A and 224B for cognitive, Psychology 244A and 244B for developmental, and Psychology 211A and 211B for social.) Students are also required to serve as a teaching assistant for at least two courses during their graduate career (one of which must be Psychology 10 for developmental and Psychology 40 for social).

Additional requirements for the cognitive area include: three advanced cognitive graduate courses, a graduate course in developmental psychology, a graduate course in social psychology, and a substantive advanced course in a discipline other than psychology.

Additional requirements for the developmental area include: Psychology 225A, Psychology 225B, Psychology 246, one other advanced developmental graduate seminar course, a graduate course in cognitive psychology, a graduate course in social psychology, and a substantive advanced course in a discipline other than psychology. Developmental graduate students are also required to complete a professional practicum between the end of their second year and end of their third year.

Additional requirements for the social area include: Psychology 210, Psychology 248,

Psychology 249 or Psychology 261, one other advanced social graduate seminar, a graduate course in cognitive psychology, a graduate course in developmental psychology, and a substantive advanced course in a discipline other than psychology.

Students are required to take their graduate courses as Satisfactory/Unsatisfactory.

After satisfying the formal course and research requirements, psychology graduate students must take an oral examination to qualify as a candidate for the Ph.D., ideally by the end of their third year. The qualifying examination is intended to assess a student's knowledge of psychology and competence to conduct the dissertation research. For the qualifying examination, students write a major paper that reflects a conceptual analysis of their main research area, prepare a list of readings representative of their expertise in three areas of psychology, and satisfactorily complete an oral qualifying examination.

Within a year of advancing to candidacy, students will prepare a written dissertation proposal that should demonstrate the student's in-depth knowledge of some research topic, along with a detailed outline of the empirical research to be conducted for the dissertation. The student's dissertation committee reviews the proposal, and the student will orally defend the proposal for approval by the committee. After the final draft of the dissertation has been completed and submitted to the faculty committee members, students must defend their thesis in an oral exam.

The Ph.D. degree is awarded upon successful completion and submission of the dissertation.

Faculty and Professional Interests

Professor

Nameera Akhtar

Cognitive and social cognitive processes in early language development, social–cognitive development in infants, bilingual development

Margarita Azmitia

How culture, peers, family, and schools provide a context for children's and adolescents' development. Special emphasis on how close relationships influence the educational pathways and identity development of ethnically and socioeconomically diverse populations

Douglas Bonett

Psychometrics and statistics

Heather E. Bullock

Poverty and economic inequality, welfare policy, feminist psychology, intersections of classism, racism, and sexism

Maureen A. Callanan

Cognitive and language development in the social context of family activities, development of word meanings and concepts, the construction of causal explanations in parent–child conversations

Faye J. Crosby

Gender, social identity, and social justice, especially affirmative action

Jean Fox Tree

Psycholinguistics: production and comprehension of spontaneous speech and writing, including discourse markers, prosody, gestures, the effects of communicative technologies on how people communicate, and other topics

Raymond W. Gibbs Jr.

Language, thought, and embodiment; special emphasis on metaphor, pragmatics, and cognitive science

Craig W. Haney

Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual

Nondiscrimination Statement

origins of violence, development of alternative legal and institutional forms

Aida Hurtado

Social identity, feminist theory, social psychology of education, survey methodology

Campbell Leaper

Social construction and socialization of gender in childhood, adolescence, and adulthood; self–concept and social identity; language and social interaction; social relationships, academic achievement; images of gender in the media; perceptions and consequences of sexism

Anthony R. Pratkanis

Social influence; attitude structure, function, and change

Barbara Rogoff

Human development in sociocultural activity; informal and formal arrangements for learning; adult/child and peer communication in families and schools in diverse cultural communities (especially in Guatemala Mexico and the U.S.); learning through observation and collaboration

Avril Thorne

Identity and personality development in adolescence and young adulthood, especially in the context of conversations with family and friends; autobiographical memories; intergenerational storytelling and the development of a sense of self

Stephen J. Whittaker

Human Computer Interaction: The design, development and evaluation of computational tools to support memory and conversation

Eileen L. Zurbriggen

Connections between power and sex; sexual aggression and abuse; trauma; sexual decision–making; sexuality and media, the sexualization of girls and women; authoritarianism; feminist political psychology; motivation, especially power and affiliation–intimacy motives

Associate Professor

Alan H. Kawamoto

Empirical and computer simulation approaches to the study of perceptual and cognitive processes, reading, speech production

Regina D. Langhout

School–community–university collaboration; how schooling and neighborhood experiences are informed by social class, race, and gender; young people and empowerment; participatory action research

Travis L. Seymour

Role of immediate memory, consciousness, and executive control on the human performance of laboratory and applied tasks; cognitive processes amenable to strategic control and how they influence the way in which we maintain situational awareness; high levels of performance in complex and cognitive tasks

Su–hua Wang

Cognitive development, infant cognition, mental representations, theory of mind, how experience shapes early learning, parental child–rearing beliefs, cross–cultural perspectives on children’s learning

Margaret L. Wilson

Embodied cognition, broadly defined. Specific interests include person perception, imitation, visual cognition, working memory, sign language, and the evolution of cognition

Assistant Professor

Nicolas Davidenko

Cognitive psychology, cognitive neuroscience, high–level learning, face recognition, mathematical modeling

Shelly A. Grabe

Sexual objectification of women and women's bodies as a pervasive global phenomenon played out in different ways across different cultures; how "embodied oppression" affects women's psychological well-being and empowerment

Phillip L. Hammack

Cultural psychology, culture and identity, conflict and intergroup relations, political violence, political psychology, narrative, sexual identity, social policy, discourse and rhetoric, interpretive methods, history and philosophy of psychology

Benjamin Storm

Human memory and cognition

Lecturer

David A. "Tony" Hoffman

Child and adolescent development, developmental psychopathology, child and adolescent assessment, school psychology, pediatric psychology, children and war, children in high risk situations

Ralph H. Quinn

Clinical psychology, moral development, psychology and religion, existential-humanistic psychology

Donald T. Saposnek

Childhood psychopathology, parenting and family interactions, children and divorce, family mediation, conflict resolution

Veronica K. Tonay

Clinical psychology, psychotherapy outcome, community mental health, dreams, personal narratives, creativity

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. Introduction to Psychology. F,W,S

Introduces prospective majors to the scientific study of behavior and mental processes and also provides an overview for non-majors. Emphasizes social, cognitive, developmental, and personality psychology and their interrelations. (General Education Code(s): PE–H, IS.) (F) M. Callanan, (W) A. Kawamoto, (S) A. White

2. Introduction to Psychological Statistics. W,S

An introduction to elementary statistical principles and techniques relevant to psychological research. Topics covered include basic parametric and nonparametric statistics, analysis of variance, and simple factorial designs. This course is prerequisite to course 181. Prerequisite(s): course 1 or 20, and Applied Mathematics and Statistics 2 or 3 or Mathematics 3 or 4 or 11A or satisfactory placement score on math placement exam or CEEB Advanced Placement Calculus AB exam. Enrollment limited to 165. (General Education Code(s): SR, Q.) (W) K. Cardilla, (S) S. Whittaker

10. Introduction to Developmental Psychology. F,W,S

Addresses psychological development from conception to adolescence. Provides an overview of developmental psychology. Prerequisite(s): course 1. Enrollment restricted to psychology and pre-psychology majors. (F) M. Azmitia, (W) D. Hoffman, (S) N. Akhtar

20. Introduction to Cognitive Psychology. F,S

Introduces basic concepts in cognitive psychology. Topics include thinking, consciousness, perceiving, language, remembering, reasoning, problem solving, and decision-making. M. Wilson

40. Introduction to Social Psychology. F

An analysis of contemporary research in social psychology and of what that research can teach us about the world we live in. Problems of conformity, propaganda, prejudice, attraction, and aggression. Focuses on a person's relationship with other people, how he or she influences them and is influenced by them. A. Pratkanis

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division or graduate students under faculty supervision. (See course 192.) The Staff

60. Introduction to Personality Psychology. W,S

- Computer Engineering
- Computer Science
- Cowell College
- Crown College
- Digital Arts and New Media
- Earth Sciences

- Spanish/Latin American/Latino Literatures
- World Literature and Cultural Studies
- Mathematics
- Merrill College
- Microbiology and Environmental Toxicology
- Music
- Oakes College
- Ocean Sciences
- Philosophy
- Physical Education
- Physics

An overview of major personality theories from Freud to the modern day, and an introduction to contemporary personality research and assessment. Prerequisite(s): course 1. (W) P. Gjerde, (S) A. Thorne

65. Introduction to Humanistic Psychology. S
Humanistic psychology is seen here as those contemporary aspects of the field which are explicitly directed toward life–enrichment for members of the culture. The course does not attempt a complete survey of these aspects, but rather explores some of them in depth and attempts to begin working toward an overall theory of the humanistic movement. (General Education Code(s): IS.) R. Quinn

80A. Psychology and Religion. F
Topics covered include myth and the unconscious, the varieties of religious experience, dualism, women and religion, the role of authority, transpersonal experience, conversion, disaffiliation, self and community. (General Education Code(s): T3–Social Sciences.) R. Quinn

Upper–Division Courses

100. Research Methods in Psychology (7 credits). F,W,S
An introduction to research methods used to investigate human psychology. Course emphasizes critical thinking, designing and conducting research, analyzing and interpreting data, and writing a professional research report. (Formerly course 3.) Prerequisite(s): Entry Level Writing and Composition requirements; Applied Mathematics and Statistics 2 or 3, or Mathematics 3 or higher level Mathematics course; and course 2 or Applied Mathematics and Statistics 5 or 7/7L. (W) The Staff, (FS) F. Crosby

101. Topics in Developmental Psychology.
These topics, offered at different times by different instructors, examine selected topics in developmental psychology. (Formerly course 100.) The Staff

102. Adolescent Development: Adolescence into Young Adulthood. S
Focuses on individual and relational development from early adolescence into young adulthood. Emphasis on the mutual influences of family relationships and adolescent development, and on the interface of family, peer group, and school experience in cultural contexts. Prerequisite(s): courses 3 or 100 and course 10. M. Azmitia

103. Adult Development and Aging. *
Introduces the cultural, biological, interpersonal, and cognitive processes of adult development and aging. Class discusses how each of these processes promotes stability and change as adults experience adulthood, reflect on their lives, and prepare for death. Prerequisite(s): courses 3 or 100 and course 10. M. Azmitia

104. Development in Infancy. *
Focuses on psychological development in infancy. Presents research on perceptual, cognitive, and social–emotional development during the first two years of life. (Formerly course 101.) Prerequisite(s): courses 3 or 100 and 10. Enrollment restricted to psychology and cognitive science majors. N. Akhtar

105. Children's Thinking. S
Cognition in children from infancy through adolescence. Basic and current research on children's understanding of the social and physical world. Focus on major theoretical perspectives: Piaget's constructivist approach, information processing approach, and sociocultural approach. (Formerly course 117.) Prerequisite(s): courses 3 or 100 and 10. The Staff

106. Social and Emotional Development. F
An examination of contemporary theory and research on social and emotional development from infancy through childhood. Prerequisite(s): courses 3 or 100 and 10. C. Leaper

107. Gender and Development.

[Teaching and Administrative Staff](#)

[Appendixes](#)

[Archive of General Catalogs](#)

[Nondiscrimination Statement](#)

Examines the developmental psychology of gender in childhood and adolescence. Prerequisite(s): course 3 or 100, and course 10. Enrollment restricted to psychology majors. C. Leaper

110. Culture and Human Development (6 credits). W
Examines theory, research, and methods of studying the inherent cultural basis of human development and variations and similarities in human lives and activities in different communities worldwide. The approach draws on ideas and observations from psychology, anthropology, linguistics, sociology, and history. Course includes lab exercises using interview and observation methodologies and presentations of library research. (Formerly course 113.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and one of the following: course 3 or 100; Anthropology 1 or 2; Education 92A, 92B, or 92C; Latin American Studies 1; or Sociology 1. (General Education Code(s): W, E.) B. Rogoff, The Staff

115. Lifespan Developmental Psychopathology. F
Examines theory and research on developmental psychopathology. Emphasizes the origin and longitudinal course of disordered behavior. Explores the processes underlying continuity and change in patterns of adaptation and age-related changes in manifestations of disorders. Prerequisite(s): courses courses 3 or 100, 10, and 170. K. Cardilla

118. Special Topics in Developmental Psychology.

118A. Children and War. *
Examine development and behavioral ecology of children affected by war. Discuss development of displaced children, abandoned children, orphaned children, children living in protracted conflict, and child soldiers. Review child protection strategies and psychosocial intervention. (Formerly course 118.) Prerequisite(s): courses 3 or 100 and 10. D. Hoffman

118B. Children in Extreme Circumstances. S
Reviews child survival in life-threatening contexts. Examines the lives of street children, institutionalized children, orphans, children in extreme poverty, enslaved children, war-affected children, abandoned children, and children whose parents have HIV/AIDS and other life-threatening illnesses. Prerequisite(s): courses 3 or 100 and 10. Enrollment limited to 60. D. Hoffman

118C. Children's Understanding of the Human Mind. F
Reviews recent research on how children come to understand aspects of the human mind, such as desire, belief, goals, and intention. Also discusses the implications of this research on typically and atypically developing children. Prerequisite(s): courses 3 or 100, and 10. Enrollment restricted to psychology majors. Enrollment limited to 60. S. Wang

119. Senior Seminars in Developmental Psychology.

119A. Development as a Sociocultural Process. F
Examines theory and research in sociocultural approaches to how people (especially children) learn and develop through participating in activities of their communities with other people. Emphasizes the organization of social interactions and learning opportunities, especially in communities where schooling has not historically been prevalent. Satisfies seminar requirement. Satisfies senior comprehensive requirement. (Formerly course 100L.) Prerequisite(s): satisfaction of Entry Level Writing, Composition requirements; course 3 or 100, Anthropology 1 or 2, Education 92A, 92B, or 92C, Latin American and Latino Studies 1, or Sociology 1. Enrollment restricted to seniors or by permission. Enrollment limited to 30. (General Education Code(s): W.) B. Rogoff

119B. Cultural Psychology. *
Critically analyzes relations among culture, ethnicity, identity, and the nation-state in a world characterized by globalization, migration, and social change. Examines the relevance of these features for the development of children and youth through examples from both Western and non-Western "cultures." Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): courses 10, and 3 or 100; and satisfaction of

Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. (General Education Code(s): E.) P. Gjerde

119D. Cultural Perspectives on Adolescent Development. *

Examines cultural influences on adolescence from diverse cultural, ethnic, and socioeconomic communities from the perspective of current interdisciplinary theories and research. Topics include: identity development; changes from early adolescence to adulthood; links among family, school, peer, and community experiences; programs for youth; and implications of bridging research, social policy, and community practice. Includes research practicum. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): courses 3 or 100 and 10 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors or permission of instructor. Enrollment limited to 30. C. Cooper

119E. The World of Babies. S

Focuses on how infants learn about intuitive physics, naive psychology, and shared culture. Also discusses possible ways to facilitate this learning. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. S. Wang

119F. Language Development. *

An introduction to language development in children. Explores current theory and research in language development; focuses on the preschool years. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. N. Akhtar

119H. Children, Research, and Policy. W

Explores ways that research in developmental psychology can be used to address "real-world" problems facing children. With an analytical focus on evidence and generalizability, we will investigate research-policy connections in topics of popular interest (e.g., child custody, poverty). Satisfies seminar requirement. Satisfies senior comprehensive requirement. (Formerly Developmental Psychology Research and "Real World" Problems) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. (General Education Code(s): W.) M. Callanan

119I. Special Topics in Narrative Development. W

Examines a special topic of current interest in developmental psychology centering on features of development that unfold during free-flowing interviews, conversations, and reminiscences. Topics may include the development of self-narratives, personal memories, family stories, identity, or values and goals. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 3 or 100; enrollment restricted to senior psychology majors. Course 60 recommended. Enrollment limited to 30. A. Thorne

119M. Identity Development in Social and Cultural Contexts. F

Senior seminar that focuses on identity development in adolescence and young adulthood. Discusses theory and research on the development of personal and social identities and the sociocultural contexts in which these personal and social identities are negotiated. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 3 or 100; course 102 strongly recommended. Enrollment restricted to senior psychology majors or by permission of instructor. Enrollment limited to 30. (General Education Code(s): W.) M. Azmitia

119P. Children and Technology. F

Covers current research and theory related to children and technology. Topics include: how children learn to use new technologies; how technology use impacts children's thinking; computer gaming and aggression; and how children's social relationships are influenced by technology. Satisfies the seminar requirement. Prerequisite(s): courses 1 and

10; and 3 or 100; and satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. M. Callanan

120. Visual and Spatial Cognition. *

Focuses on visual and spatial representation as elements of human cognition. Topics include imagery, visual attention, mental models, spatial language, the body schema, near-body space, and brain organization for representing space. Prerequisite(s): course 3 or 100; course 20 or any upper-division cognitive course is highly recommended. M. Wilson

120D. Deafness and Sign Language. *

Explores what we can learn about human cognition by studying sensory loss and language in a different sensory modality. Topics include brain organization, sensory compensation, working memory, visual cognition, and psycholinguistics. Course 20 strongly recommended. (Formerly course 139A.) Prerequisite(s): course 3 or 10; course 20 strongly recommended. Enrollment restricted to senior psychology and cognitive science majors and minors. Enrollment limited to 30. M. Wilson

121. Perception. W,S

Basic perceptual psychology, emphasizing the relationships between perception and cognition. Topics include shape, color, and depth; hearing, taste, smell, and touch; and perceiving faces, voices, and language. Prerequisite(s): course 3 or 100 or Biology 70. N. Davidenko

123. Behavioral Neuroscience. W

An examination of the physiological mechanisms of psychological processes, including sensory systems, motor systems, control systems, and memory and learning. Principles of nervous system organization are discussed at each level. Prerequisite(s): course 3 or 100 or Biology 70 and one course in statistics (course 2 or Applied Mathematics and Statistics 5 or 7). B. Bridgeman

124. Psychology of Reading. S

Focuses on the cognitive processes that underlie reading in adults. Additional topics include different writing systems, learning to read, and reading deficits. Recommended for upper-division students. Prerequisite(s): course 3 or 100. A. Kawamoto

125. The Psychology of Language. F

A study of human communication as a function of psychological, linguistic, and social factors. Topics covered include language comprehension and production, language and reasoning, and language as a social activity. Prerequisite(s): course 3 or 100. J. Fox Tree

126. Aging and the Human Brain. *

How does the brain change as we age? Course covers new developments in research on cognitive neuroscience and aging, with a focus on the consequences for memory, emotion, and decision-making. Prerequisite(s): course 3 or 100, and 20, 121, 123, 129 or Biology 70. The Staff

127. Computer Mediated Communication. W

Provides an introduction to perception and cognition as it relates to how people communicate with each other using computers and the Internet. Focuses on cognitive/perceptual aspects of communication. Prerequisite(s): course 3 or 100 or 20 or consent of instructor. Course 20 highly recommended. Enrollment limited to 40. S. Whittaker

128. Human Factors. S

Human factors psychology studies human-machine interaction and computer usability, and involves diverse topics including displays and controls; human error; decision-making; psycholinguistics; and the role of fatigue, environmental stressors, and social/team factors that directly impact human performance. Prerequisite(s): course 3 or 100. S. Whittaker

129. Human Learning and Memory. F,S

Examines basic theories, models, methods, and research findings in human memory. Both traditional and nontraditional topics are covered. Prerequisite(s): course 3 or 100. B. Storm

130. Deception, Brain, and Behavior. *

Focuses on behavioral and brain manifestations of deception. Topics include developmental changes that allow us to understand and to use deception, physical implications of lying expressed in the face, voice, posture, and brain activity. Also covers mechanical or behavioral techniques used in deceptive behavior, whether in the form of overt behavior or brain activity. Prerequisite(s): course 3 or 100; course 20 or any upper-division cognitive course strongly recommended. T. Seymour

132. Neural Modeling. W

Introduces students to the use of computer simulations in experimental psychology. Students use existing software to explore topics in cognition such as learning, memory, and psycholinguistics. One upper-division course in cognitive psychology (courses 120–139) is recommended. Prerequisite(s): course 3 or 100. Enrollment limited to 15. A. Kawamoto

135. Feelings and Emotions. F

Focuses on contemporary research in the psychology of human emotions. Special attention given to work in cognitive science, including psychology, linguistics, philosophy, and anthropology, on how emotions are central to understanding human action and mental life. Prerequisite(s): course 3 or 100, or major standing in linguistics, philosophy or anthropology. R. Gibbs

137. Mind, Body, and World. *

Psychologists primarily view the mind as being separate from the body, and the body as being separate from the external world. This course questions this widely held position and explores the way that minds arise from individuals' bodily interactions with others and the world around them. Particular attention is paid to the role of human embodiment in language use and everyday cognition. Prerequisite(s): course 3 or 100, or major standing in linguistics, philosophy or anthropology. R. Gibbs

139. Senior Seminars in Cognitive Psychology.

139B. Consciousness. S

Provides a psychological study of human consciousness. Aim is to explore the following questions: What is consciousness? Where does consciousness come from? What functions does consciousness have in everyday cognition? How do we best scientifically study consciousness? These issues are examined from the perspective of contemporary research in cognitive science. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology, philosophy, anthropology, linguistics, and cognitive science majors. Enrollment limited to 30. R. Gibbs

139C. The Psychology of Lying and Deception. *

Discusses why and how people lie. Using scientific articles, movies, and our everyday lives as source material, explores the nature of lying; then focuses on various approaches to behavioral and mechanical "lie detection." Satisfies seminar requirement. Satisfies senior comprehensive requirement. Enrollment restricted to psychology and cognitive science majors. Enrollment limited to 30. T. Seymour

139D. Modeling Human Performance. *

Hands-on experience using computational modeling to understand human cognitive-task performance by comparing simulated and human data. Satisfies senior seminar requirement. Satisfies senior comprehensive requirement. Enrollment restricted to junior and senior psychology, cognitive science, computer science, and computer engineering majors, or by permission of instructor. Prerequisite(s): Entry Level Writing and Composition requirements; course 3 or 100, and at least one of the following: course 121 or 123 or 128 or 129; or Computer Science 5C or 5J or 11 or 12A or 13H or 130 or 140. Enrollment limited to 30. T. Seymour

139F. Psychology and Evolutionary Theory. F

Human psychology is examined from the viewpoint of evolutionary theory, including perspectives from ethnology, anthropology, and neuropsychology. Upper-division students from diverse backgrounds are encouraged to enroll. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology, anthropology, biology, philosophy, sociology, cognitive science, and feminist studies majors. Enrollment limited to 30. B. Bridgeman

139G. Conversations. *

Explores how conversations work and how speakers accomplish their goals in an interaction. Topics include conversational structure, turn-taking, variation in language use, and the functions of discourse markers (words like "um," "uh," and "you know"). Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. J. Fox Tree

139H. Weird Science. *

Explores the relationship between science and pseudoscience from a cognitive psychological perspective, including discussion of collection and selection of data, statistical assessment of data, cognitive illusions, memory distortions, reasoning, and decision-making. Also highlights the dissemination of scientific knowledge. Satisfies seminar requirement. Satisfies comprehensive requirement. (Formerly course 134.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. J. Fox Tree

140. Topics in Social Psychology.

140B. African American Psychology. *

Incorporates historical and conceptual foundations; issues of social psychology; individual and developmental processes; and adjustment and clinical issues. Readings expose students to attributes of African American culture that have an impact on the psychology of African Americans as well as methodological issues relevant to key psychological topics. Prerequisite(s): course 3 or 100 or declaration of major in one of the following programs: feminist studies, sociology, community studies, or politics. Enrollment limited to 60. (General Education Code(s): E.) A. White

140C. Health Psychology. *

Course examines the psychological aspects of health, illness and healing. Focuses primarily on etiology, treatment and prevention; specific topics include stress and the immune response, social support, compliance, health beliefs, and the healing relationship. Prerequisite(s): courses 3 or 100. J. Kaupp

140G. Women's Lives in Context. F

Examines gender as a psychological and social factor that influences women's experiences in different contexts. Cuts across other areas of psychology by taking a women-centered approach. Emphasis also placed on understanding how intersections between gender, race and ethnicity, sexual orientation, socioeconomic status, etc., impact women's psychological well-being. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100, or sociology 103B, or feminist studies 100, or community studies 100. Enrollment restricted to junior and senior psychology, feminist studies, sociology, and community studies majors. (General Education Code(s): W.) S. Grabe

140H. Sexual Identity and Society. S

Presents an integrative approach to the study of sexual identity. Focuses on the regulation of sexual desire through medical, psychological, and legal discussions. Examines social movements, social policy, and ongoing debates on the meaning and social organization of desire. Prerequisite(s): course 3 or 100. P. Hammack

140L. Women's Bodies and Psychological Well-Being. W

Examines how women's bodily experiences (e.g., sexual objectification, violence, menarche, sexual health) are uniquely tied to their subordinate status and impacts their psychological well-being. Theories of gender inequality will address how social control directed at women's bodies through power relations imbedded in societal institutions contributes to women's marginalized status. Prerequisite(s): courses 3 or 100. Enrollment limited to 60. S. Grabe

140Q. Social Psychology of Gender. W

Considers individual, interpersonal, and cultural influences on gender similarities and differences in thinking, motivation, and behavior. Emphasizes factors related to power and status inequalities between women and men. (Formerly Social Psychology of Sex and Gender.) Prerequisite(s): courses 3 or 100 and course 40. C. Leaper

140T. Psychology of Trauma. W

Overview of psychological theory and research on trauma and traumatic stress, including responses to childhood trauma (especially sexual abuse), combat, and natural disasters. Variety of theoretical frameworks presented, including developmental, cognitive, neuropsychological, clinical, and social/contextual. Prerequisite(s): course 3 or 100 or permission of instructor. E. Zurbriggen

142. Psychology of Oppression and Liberation. *

Provides theoretical frameworks for understanding interlocking systems of oppression from the perspective of "the oppressed" as well as "the oppressor" nationally and internationally. Goes beyond mainstream (traditional) psychology and emphasizes critical psychological perspectives that include micro- and macro-level theories of oppression; importance of ideology in oppressive systems; and theories of social change and liberation across contexts. Prerequisite(s): course 3 or 100 or declaration of major in one of the following programs: feminist studies, sociology, community studies, or politics. (General Education Code(s): E.) A. White

143. Intergroup Relations. *

Introduces the study of conflict and intergroup relations. Examines historical and cultural foundations of group psychology and social psychological theory and research on conflict between groups, cultures, and nations. Surveys work on multiculturalism, race relations, and global political conflict. Applies social psychological theories to cases of intergroup conflict. Prerequisite(s): course 3 or 100, or major standing in politics, community studies or anthropology, or by permission of instructor. Enrollment limited to 120. (General Education Code(s): E.) P. Hammack

145. Social Influence. W

An advanced course for upper-division undergraduates interested in the study of the persuasion process. The course investigates common influence tactics and how those tactics are used in various settings. Prerequisite(s): course 3 or 100. A. Pratkanis

145D. Social Psychology of Autocracy and Democracy. S

Humans are the only animal capable of living in both authoritarian and democratic regimes. Course explores the nature of these forms of social relationships with a goal of promoting democracy. Topics include: obedience to authority, conformity, self-justification, propaganda, power, and conflict resolution. (Formerly course 159G.) Prerequisite(s): course 3 or 100. Enrollment restricted to junior and senior psychology majors. A. Pratkanis

146. The Social Context. *

A systematic analysis of the social and contextual determinants of human behavior, with special attention given to concepts of situational control, social comparison, role and attribution theories, as well as the macrodeterminants of behavior: cultural, historical, and sociopolitical context. Prerequisite(s): courses 3 or 100 and course 40; or Sociology 136. The Staff

147A. Psychology and Law. F

Current and future relationships between law and psychology, paying special attention to

gaps between legal fictions and psychological realities in the legal system. Topics include an introduction to social science and law, the nature of legal and criminal responsibility, the relationship between the social and legal concepts of discrimination, and the nature of legal punishment. (Also offered as Legal Studies 147A. Students cannot receive credit for both courses.) Prerequisite(s): courses 3 or 100; and course 40 is highly recommended prior to taking this course. Enrollment restricted to psychology, pre-psychology, and legal studies majors. E. DeGarmo

147B. Psychology and Law. *

Continuing discussion of current and future relationships between law and psychology and to contrasting psychological realities with legal fictions. Special attention is given to the criminal justice system including crime causation, the psychology of policing and interrogation, plea bargaining, jury selection and decision making, eyewitness identification, and the psychology of imprisonment. (Also offered as Legal Studies 147B. Students cannot receive credit for both courses.) Prerequisite(s): course 147A. C. Haney

149. Community Psychology: Transforming Communities. *

Introduction to community psychology, a discipline that blends social psychology, sociology, and anthropology. Class topics include levels of analysis, ecologies, prevention, intervention, feminism, empowerment, sense of community, coalition building, and social justice and action. Prerequisite(s): course 3 or 100. Enrollment restricted to juniors and seniors. R. Langhout

150. Social Psychology of Flimflam. F

Why do we believe strange things? This course investigates such flimflams as beliefs in the Loch Ness Monster, quack health care, and racial superiority to illustrate the underlying social psychological principles that lead us to adopt weird attitudes. (Formerly course 159I.) Prerequisite(s): course 3 or 100. (General Education Code(s): SL.) A. Pratkanis

153. The Psychology of Poverty and Social Class. W

Examines how social class shapes attitudes, beliefs, and behaviors. Emphasis is placed on structural barriers and their impact on the well-being of low-income groups. Strategies for reducing classist discrimination, improving interclass relations, and strengthening social policy are discussed. Prerequisite: course 3 or 100, or major standing in anthropology, community studies, economics, legal studies, politics, sociology, or feminist studies. H. Bullock

155. Social-Community Psychology in Practice. *

This service-learning course requires time in the classroom and the field. Students gain a deep understanding of social justice paradigms, community-based collaborative research, ethics, field-based research, reflexivity, and socio-cultural development modes. Prerequisite(s): Courses 3 or 100; courses 149 and 182 are recommended prior to taking this course. Admission by application and interview only. (Formerly course 159P.) Enrollment limited to 15. (General Education Code(s): PR-S.) R. Langhout

157. Chicana Feminism. *

Students are introduced to the writings of Chicana feminists to identify the gender issues that produce conflict and cooperation in their communities. The course also makes linkages to gender issues in other U.S. communities of color and Latin America. (Also offered as Feminist Studies 151A. Students cannot receive credit for both courses.) Prerequisite(s): course 3 or 100 or Feminist Studies 1. (General Education Code(s): E.) A. Hurtado

158. Latinos in the Media. *

Introduces portrayals of Latinos in the U.S. media including magazines, film, and television. Covers the most recent social psychological research on media representations and implications for identity. Prerequisite(s): course 3 or 100 or Latin American and Latino Studies 1. (General Education Code(s): E.) A. Hurtado

159. Senior Seminars in Social Psychology.

159D. Psychology of Sexual Aggression. S

An overview of psychological theory and research related to sexual aggression, focusing on both perpetration and victimization. Includes a discussion of the social construction of masculinity and femininity, media representations of sexual violence, and alternative (non-aggressive) visions of sexuality. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology or feminist studies majors or permission of instructor. Enrollment limited to 30. E. Zurbruggen

159E. Peace Psychology. F

Is war inevitable? What is peace? Is it more than the absence of violence? Explore how psychology—the study of human behavior—can help to decrease violence and enhance cooperation at multiple levels including the personal, interpersonal, community, and international arenas. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. D. Hoffman

159H. Community-Based Interventions. *

Topics include: what makes a successful intervention; what happens before the formal intervention begins; the ethics involved with interventions; different methods for assessing interventions; and different praxis models. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. R. Langhout

165. Systems of Psychotherapy. W

A review of methods of psychotherapy, with attention to the underlying assumptions about personality, health, and disease. Prerequisite(s): course 3 or 100; course 60 or 170 recommended. V. Tonay

166. Personality Assessment. S

How do we really know a person? Course provides hands-on experience with assessing such individual differences as intimacy motivation, dominance, paranoia, and well-being. Students construct their own personality test and learn to critique the kinds of self-report, observational, and interview techniques that are used in organizational and counseling contexts. Prerequisite(s): course 3 or 100; course 60 highly recommended as preparation. V. Tonay

167. Clinical Psychology. W

Serves as an in-depth introduction to the field of clinical psychology. Covers issues of clinical assessment, interviewing, testing, and a range of therapeutic modalities. Prerequisite(s): courses 3 or 100, and 60 or 65; course 170 is recommended as preparation. R. Quinn

168. The Study of Dreams. *

An overview of dream studies by several major theorists and researchers of the 20th century, including Freud, Jung, and Hall. An emphasis on studies that reveal cognitive conceptions and personal concerns through quantitative and qualitative analyses of sets of dreams from individuals and groups. Other topics covered more briefly include dream recall, children and dreams, and the role of dreams within cultures. Prerequisite(s): course 3. G. Domhoff

169. Community Mental Health. F

Examines theory and research on outreach and prevention for application with various populations in community settings (e.g., victims of violence, immigrants, severely mentally ill); presents characteristics of successful agencies and agency development. Surveys interventions currently used in community mental health. Prerequisite(s): course 3 or 100. Courses 60 and 170 recommended. V. Tonay

170. Abnormal Psychology. F,S

Survey of theory and research on the nature of behavioral disorders. Covers psychological, biological, developmental, and socio-cultural approaches. Prerequisite(s): course 3 or 100;

course 60 highly recommended as preparation. D. Hoffman

171. Childhood Psychopathology. F

A critical and intensive exploration of a wide variety of specific disorders within their biological, developmental, and social contexts. Concepts of psychopathology in childhood, major and minor diagnostic systems, and a variety of theories of etiology are explored. General intervention strategies and a wide range of specific psychotherapy systems for treatment are closely examined and demonstrated. Prerequisite(s): courses 3 or 100; and courses 10, and 170. D. Saposnek

175. Personality, Relationships, and Emotions. F,S

Explores the nature, origins, and development of human personality as it relates to emotions in the context of close relationships. Prerequisite(s): course 3 or 100. Courses 10 and 60 recommended as preparation. (F) A. Thorne, (S) K. Cardilla

179. Senior Seminars in Personality Psychology.

179A. Theories of Moral Psychology. W

A seminar course with focus on theories of moral development from the psychoanalytic, social learning, cognitive–developmental, and humanistic perspectives. Students confront and discuss moral dilemmas from the four perspectives, working toward their own individual theories of pro–social behavior. Course satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): essay required on a moral issue or dilemma relevant to the student's life. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. R. Quinn

179B. Children and Divorce. S

Explores history and psychology of divorce and the short– and long–term effects of divorce on children. Examines wide range of findings that have drawn diametrically opposed conclusions; delves into social attitudes and legal structures that have impeded and enhanced divorce transitions for children and parents; investigates future models for divorcing that are child–friendly and consistent with findings from newly emerging longitudinal research on children and divorce. Satisfies seminar and senior comprehensive requirements. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. D. Saposnek

179D. Psychological Interpretation. F

Seminar explores ego, Jungian, and object relations interpretive systems in–depth, applying them to film, music, literature, dreams, art, as well as traditional psychological measures, such as the TAT and interview protocols. Interprets psyche of author, audience, and engendering culture. Prerequisite(s): courses 3 or 100, and course 60; satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. V. Tonay

181. Psychological Data Analysis. S

Intermediate statistical methods widely used in psychology (e.g., n–way, ANOVA, ANCOVA, multiple–comparison, repeated–measures, nested–designs, correlational analysis, bivariate regression), corresponding SAS programs, and elements of measurement theory. Prerequisite(s): course 3 or 100. (General Education Code(s): Q.) D. Bonett

182. Advanced Research Methods. *

Designed to equip students with the ability to evaluate, conceive, and carry out psychological research. A variety of techniques (observational, ethnographic, and field) examined and experienced. Students carry out research projects. Prerequisite: course 3 or 100. Enrollment limited to 30. (General Education Code(s): PR–E.) R. Langhout

183. History and Systems of Psychology. *

An overview of the history of psychology. Examines issues of paradigm and philosophy of science. Reviews central paradigms in the history of the discipline. Assumes a critical–historical approach, linking scientific knowledge produced to prevailing societal beliefs

about mind and behavior. (Formerly course 180) Prerequisite(s): course 3 or 100. P. Hammack

190. Senior Seminars.

Special topics with a format varying each quarter. The Staff

191. Teaching College Psychology.

A series designed to provide undergraduates at the upper-division level with an opportunity to participate in planning and teaching college-level psychology. May not be repeated for credit. The Staff

191A. Introduction to Teaching Psychology. F,W,S

Students lead discussion groups and provide one-to-one tutoring for courses 1 or 3 or 100. Admission requires essay describing interest in becoming a course assistant, copies of psychology evaluations, and a letter of recommendation from a psychology faculty member; completion of some upper-division psychology courses prior to enrollment in this course. Prerequisite(s): course 3 or 100. Enrollment restricted to psychology majors. (Formerly "Introduction to Psychology.") Enrollment limited to 20. (F) M. Callanan, (W) A. Kawamoto, (S) A. White

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar (course 42) under faculty supervision. Available only to upper-division or graduate students. Students submit petition to sponsoring agency. The Staff

193. Field Study. F,W,S

Series designed to provide advanced psychology undergraduates opportunity to apply what they have learned in the classroom to direct experience in a community agency. Students earn academic credit by working as interns at a variety of psychological settings where they are trained and supervised by a professional within the agency. Faculty also supervise the students' academic work by providing guidance and helping them integrate psychological theories with their hands-on intern experience. A two-quarter commitment. Students submit petition to sponsoring agency. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) The Staff

193A. Developmental Field Study. F,W,S

Work in a community-based setting while completing self-directed academic work focused in the developmental area under the guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. Enrollment limited to 100. May be repeated for credit. (General Education Code(s): PR-S.) The Staff

193B. Cognitive Field Study. F,W,S

Work in a community-based setting while completing self-directed academic work focused in the cognitive area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) The Staff

193C. Social Field Study. F,W,S

Work in community-based setting while completing self-directed academic work focused in the social area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) The Staff

193D. Clinical/Personality Field Study. F,W,S

Work in community-based setting while completing self-directed academic work focused

in clinical or personality area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.)
The Staff

194. Advanced Research in Special Topics.

Provides a means for a small group of students to do research on a particular topic in consultation with a faculty sponsor. The Staff

194A. Advanced Developmental Research. F,W,S

Provides students with intensive experience conducting current research in developmental psychology. Students submit petition to sponsoring agency. May be repeated for credit.
The Staff

194B. Advanced Cognitive Research. F,W,S

Provides students with intensive experience conducting current research in cognitive psychology. Students submit petition to sponsoring agency. May be repeated for credit.
The Staff

194C. Advanced Social Research. F,W,S

Provides students with intensive experience conducting current research in social psychology. Students submit petition to sponsoring agency. May be repeated for credit.
The Staff

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous course work or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions.
The Staff

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous course work or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions.
The Staff

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous course work or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions.
The Staff

198. Independent Field Study. F,W,S

Provides psychology majors with the opportunity to apply what has been learned in the classroom to direct experience in a community agency outside the local community. Students earn academic credit by working as interns at a variety of psychological settings,

where they are trained and supervised by a professional on site. Faculty also supervise the students' field study, providing guidance and help integrating psychological theories with their hands-on experience. Two-quarter commitment required. Admission requires completion of lower-division psychology major requirements; students submit petition to sponsoring agency. Applications are due one quarter in advance to the Psychology Field Study Office. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students must file a petition with the Psychology Office the quarter in which they would like to take the tutorial. Petitions may be obtained in the Psychology Department Office. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Specialized study with individual faculty as psychology peer advisors. May not be applied toward major requirements. Students submit petition to sponsoring agency. Application and interview required during the previous quarter. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. The Staff

199G. Tutorial (3 credits). F,W,S

Specialized study with individual faculty. May not be applied toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

204. Quantitative Data Analysis. F

Intermediate statistical methods widely used in psychology (e.g., n-way, ANOVA, ANCOVA, multiple-comparisons, repeated-measures, correlational analyses, bivariate regression), and corresponding SPSS programs. Enrollment restricted to graduate students. Enrollment limited to 20. E. Cunningham

210. The Experimental Method in Social Psychology. *

Explores the philosophy and practice of the experimental method in social psychology. Enrollment restricted to graduate students. E. Zurbruggen

211A. Proseminar: Social Justice and the Individual. F

Provides an introduction to social psychology, focusing on various individual-level social justice topics, including the self, social comparison, individual and collective identity, social historical and social structural determinants of behavior and various policy and social change-related issues. Enrollment restricted to psychology graduate students; undergraduates planning graduate work in social psychology may enroll with permission of instructor. Enrollment limited to 20. E. Zurbruggen

211B. Social Justice, Society, and Policy. W

Provides an introduction to social psychology, focusing on empirical and theoretical developments related to social justice and group and intergroup dynamics. Topics include: prejudice and discrimination, power, collective action, and psychology's relationship to social policy. (Formerly Proseminar: Groups in Society.) Enrollment restricted to psychology graduate students. Undergraduates planning graduate work in social psychology may enroll with permission of instructor. Enrollment limited to 20. C. Haney

213. Special Topics in Social Psychology. W

Focuses on particular issues of theoretical and practical importance in social psychology. Topics vary from year to year and often concentrate on issues of social justice, social identity, intergroup relations, and social policy. Enrollment restricted to graduate students. May be repeated for credit. The Staff

214A. Multivariate Techniques for Psychology. W

Provides introduction to multiple regression (MR) and multivariate analysis of variance (MANOVA) as data analytic methods. Both methodological and statistical aspects of multivariate data analysis discussed. Practical problems in estimating and testing regression and ANOVA models addressed. Gain experience in carrying out and interpreting analyses using SPSS. Prerequisite(s): course 204. Enrollment limited to graduate students.

Enrollment limited to 20. D. Bonett

214B. Advanced Multivariate Techniques for Psychology. *

Provides introduction to factor analysis and structural equation modeling (SEM). Develop skills in defining, estimating, testing, and critiquing models. Topics include rationale of SEM, model identification, goodness of fit, and estimation. Learn how to use relevant software packages (SPSS, LISREL, EQS, and/or AMOS) to conduct exploratory and confirmatory factor analyses, path analyses, and full ("hybrid") analyses with latent variables. Prerequisite(s): course 214A. E. Zurbruggen

215. Production and Comprehension of Spontaneous Speech. W

Seminar on the use of collateral signals as backchannels, discourse markers, and enquoting devices, including discussion of historical origins, cross-linguistic borrowing and second-language learning, children's acquisition, and the use of signals as markers of culture and identity. Enrollment restricted to psychology graduate students. J. Fox Tree

220. Special Topics in Human Memory. *

Topics announced when offered. Seminars involve discussion and critical evaluation of current, historical, and interdisciplinary readings relevant to topic. Emphasis on development of research ideas. Enrollment restricted to graduate students. Enrollment limited to 12. The Staff

221. Visual Perception. *

Seminar to study human perception, its methodology, and driving issues as illustrated by selected research topics (e.g., adaptation to unusual sensory environments). Where possible, parallels with other areas of psychology are drawn. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

222. Topics in Lexical Organization. *

The recognition of words is a critical step in natural language processing. Discusses a range of contemporary issues related to the representation of a word and the access of this information from the perspective of psychology, linguistics, and artificial intelligence. Enrollment restricted to psychology graduate students; undergraduates who have completed course 124 may enroll with permission of instructor. Enrollment limited to 10. A. Kawamoto

224A. Proseminar: Cognitive I. F

A proseminar reviewing current topics in cognitive psychology, designed to introduce new graduate students to the field. Enrollment restricted to psychology graduate students. Enrollment limited to 10. S. Whittaker, A. Kawamoto

224B. Proseminar: Cognitive II. W

A proseminar reviewing current topics in cognitive psychology, designed to introduce new graduate students to the field. Enrollment restricted to psychology graduate students. Enrollment limited to 10. R. Gibbs, M. Wilson

225A. Introduction to Developmental Research I (3 credits). F

Surveys the rationale and techniques of research in developmental psychology. Students build skills in evaluating published research, in translating theoretical ideas into researchable hypotheses, and in selecting appropriate research designs, measurement, and statistical approaches for research problems. Multiple-term course; students receive 6 credits in the second quarter of attendance; the grade and evaluation submitted for the final quarter applies to both quarters. Enrollment restricted to psychology graduate students or with instructor's permission. May be repeated for credit. C. Cooper

225B. Introduction to Developmental Research II. S

Focuses on drawing reasonable conclusions from research findings by focusing on students' first-year research projects and critiques of existing research. Enrollment restricted to psychology graduate students. S. Wang

227. Contemporary Issues in Psychology of Language. F

Special topics in thought and language are examined from the perspectives of cognitive

science. Particular attention given to embodied experience and higher-order cognition. Enrollment restricted to graduate students. May be repeated for credit. R. Gibbs

229. Computer Simulation Models. *

Course analyzes various computer simulation techniques and how they can be used to model perception and cognition. Parallel processing in networks is emphasized. Enrollment restricted to graduate students; undergraduates who have completed course 132 may enroll with permission of instructor. Offered in alternate academic years. A. Kawamoto

230. Research in Cognitive Psychology Seminar. F,W,S

Seminar to study, critique, and develop research in perception and cognition, including topics in psychobiology, psycholinguistics, and memory. Enrollment restricted to psychology graduate students. May be repeated for credit. (F) S. Whittaker, (W) M. Wilson, (S) A. Kawamoto

231. Research in Social Psychology Seminar. F,W,S

Seminar to study, critique, and develop research in social psychology. Enrollment restricted to psychology graduate students. May be repeated for credit. The Staff

232. Evolution of Cognition. *

Explores current research on evolution of human cognition, drawing on findings from other species and from the archaeological record. Topics include language, working memory, episodic memory, numerical abilities, and social cognition. Enrollment restricted to graduate students. The Staff

235. Infant Development in Contexts. *

Seminar on how contextual factors influence the development in infancy, especially on cognitive domains. Discusses at least four types of contextual factors: cultural, experiential, event, and interpersonal contexts. Enrollment restricted to psychology graduate students. S. Wang

236. Paradigms of Culture. *

Integrative seminar on the relationship between individual psychological experience and its social, cultural, and institutional context. Explores various paradigms of "culture" in social science literature, including psychoanalytic theory, culture and personality, cultural psychology, Marxism, symbolic interactionism, poststructuralism, postcolonial theory, narrative, and Vygotsky's sociocultural theory. (Formerly Person, Culture, Society.) Enrollment restricted to graduate students. Enrollment limited to 10. P. Hammack

242. Research in Developmental Psychology Seminar. F,W,S

Seminar to study, critique, and develop research in developmental psychology. Enrollment restricted to psychology graduate students. May be repeated for credit. (F) B. Rogoff, (W) The Staff, (S) S. Wang

244A. Proseminar I: Cognitive and Language Development. F

Explores major theories and research in the fields of cognitive development and language development. Begins with classic theories, such as Piaget's theory of cognitive development, and proceeds to theories and research on topics of current interest, such as the relation between culture and cognitive and language development. Enrollment restricted to graduate students. N. Akhtar

244B. Proseminar II: Social and Personality Development. W

An examination of contemporary theory and research on social and personality development across the lifespan. Enrollment restricted to graduate students. C. Leaper

245. Computational Models of Discourse and Dialogue. *

Focuses on classic and current theories and research topics in the computational modeling of discourse and dialogue, with applications to human-computer dialogue interactions; dialogue interaction in computer games and interactive story systems; and processing of human-to-human conversational and dialogue-like language such as e-mails. Topics vary depending on the current research of the instructor(s) and the interests of the students. Students read theoretical and technical papers from journals and conference proceedings

and present class lectures. A research project is required. (Also offered as Linguistics 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. May be repeated for credit. M. Walker

246. Cultural Diversity in Human Development. S

Examines cultural influences in development from the perspective of current theories and empirical research in developmental psychology and related fields, especially social psychology, sociology, anthropology, education, and social policy. Focuses on understanding development in diverse cultural, ethnic, and socioeconomic communities by examining the interplay of social, cultural, institutional, and psychological processes. Particular attention paid to issues of languages, culture, and socialization as they relate to social institutions, such as education, that affect children and families. Enrollment restricted to graduate students. Enrollment limited to 20. M. Azmitia

247. Special Topics in Developmental Psychology. W

Focuses on particular issues of theoretical importance in developmental psychology. Topics vary from year to year. Particular issues in language, culture, cognitive, social, and personality development may be covered. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. A. Thorne

248. Survey Methods.

Practicum to give students hands-on experience with survey methods by conducting their own survey on the topic of their choice. Course requires the survey to be conducted off campus at a local agency or program chosen by student with approval of instructor. Enrollment restricted to graduate students. Enrollment limited to 10. S. Grabe

249. Field Methodologies and Social Ethnography. F

Designed to train graduate students in applied field methods. Emphasis is on gaining knowledge and experience with actual field methods, by conducting social ethnography in the community. Field research in community placements required. Enrollment restricted to graduate students. Enrollment limited to 10. Offered in alternate academic years. C. Haney

250. Prejudice and Social Relations. *

Examines the ways in which the various branches of psychology have approached the issue of prejudice. Attention paid to the assumptions underlying each approach and their relation to core psychological ideas such as the self and emotion. Enrollment restricted to graduate students. The Staff

251. Feminist Theory and Social Psychology. *

Course bridges feminist theory and social psychological research to explore connections between theory covered and empirical studies on various topics in social psychology. Seminar format allows students opportunity for extensive discussion. (Also offered as Feminist Studies 251. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. A. Hurtado

252. Special Topics in Cognitive Psychology. S

Focuses on particular issues in cognitive psychology. Topics vary from year to year. Particular issues in language, memory, perception, attention, judgment and decision making, problem solving, reasoning, emotion, cognitive modeling, cognitive neuroscience, and cognition and aging covered. Enrollment restricted to graduate students. May be repeated for credit. T. Seymour

253. Theory and Research in Intergroup Relations. *

Examines, compares, and contrasts a variety of theories in intergroup relations while examining relevant empirical research. The relevance of both theory and research findings to contemporary social issues is explored. Enrollment restricted to psychology graduate students; undergraduates considering graduate work in social psychology are encouraged to enroll with permission of instructor. Enrollment limited to 12. Offered in alternate academic years. The Staff

254. Psychology of Gender. *

Course reviews recent theory, research, and applications in the psychology of gender. Developmental, social-psychological, cultural, and feminist approaches are emphasized. Enrollment restricted to graduate students. C. Leaper

256. Psychology of Social Class and Economic Justice. *

Course examines the social psychological antecedents, correlates, and consequences of economic inequality in contemporary U.S. society. The impact of social class on attitudes, beliefs, and behaviors is assessed. Strategies for reducing classist discrimination, improving interclass relations, and strengthening social policy are discussed. Enrollment restricted to graduate students. Enrollment limited to 10. H. Bullock

261. Participatory Action Research. *

Participatory Action Research (PAR) is a theoretical standpoint and collaborative methodology that is designed to ensure that those affected by the research project have a voice in that project. Topics include philosophies of science; defining and evaluating PAR; ethics; and reflexivity. Enrollment restricted to graduate students. Enrollment limited to 10. R. Langhout

264. Transnational Feminism, Development, and Psychology. *

A transnational feminist lens examines international development as linked to broader ideologies that transform gender relations and enhance women's empowerment. A social-psychology framework brings theoretical and practical import to the issues and examines how research can contribute to social justice and women's human rights. Enrollment restricted to graduate psychology students, or by permission of instructor. S. Grabe

290. Proseminar.

Various topics to be offered throughout the year. The Staff

290B. Advanced Developmental Research and Writing (2 credits). F,W,S

Tailored to graduate students' interests among topics involving research and scholarship in sociocultural approaches to development, methods for research design, data collection, coding, and analysis, and preparing and reviewing grant proposals and journal manuscripts. Multiple-term course; students receive 6 credits in the third quarter of attendance; the performance evaluation and grade submitted for the final quarter applies to all three quarters. Enrollment restricted to graduate students. May be repeated for credit. B. Rogoff

290C. Professional Development (3 credits). *

Designed to aid advanced psychology graduate students with development of competence in professional activities (e.g., preparing a vita, making job and conference presentations, submitting and reviewing manuscripts and grant proposals, professional communication, career decisions). Multiple-term course; students receive 6 credits in the second quarter of attendance; the grade and evaluation submitted for the final quarter applies to the previous quarter. Enrollment restricted to advanced psychology graduate students. May be repeated for credit. B. Rogoff

290E. Grant Writing for Psychologists. *

Discusses how to write and put together a grant proposal for psychological research, culminating in a completed proposal. Enrollment restricted to psychology graduate students. J. Fox Tree

293. Field Study. F,W,S

Student-designed and student-conducted research carried out in field settings. The Staff

297. Independent Study. F,W,S

Independent study and research under faculty supervision. The Staff

299. Thesis Research. F,W,S

The Staff

Queer and Sexuality Studies

2012–13 General Catalog

416 Humanities 1
(831) 459–2461
fmst@ucsc.edu
<http://feministstudies.ucsc.edu/>

Program Description

Scholarship pertaining to the critical study of gender and sexuality can be found across a broad range of departments at UCSC. This presence is manifested in a diverse faculty, in course offerings, and in research programs. Courses with queer content can be found in American studies, anthropology, feminist studies, film and digital media, history, history of consciousness, legal studies, literature, sociology and theater arts.

For more specialization, departments such as Feminist Studies and Literature have sufficient flexibility to allow students to design a course of study within those majors to explore these interests. For students who prefer to take a more self-directed approach, there is the option of designing an individual major.

Research activities are sponsored by the Queer Theory research cluster (a part of the Center for Cultural Studies), the Queer and Sexuality Studies Working Group, and many campus departments and student organizations.

The Lionel Cantú GLBTI Resource Center serves as a clearinghouse for queer activities on the UCSC campus. Each quarter, the center prepares a list of all course offerings with queer content. Information is available at <http://queer.ucsc.edu> or via e-mail at queer@ucsc.edu.

More information may be obtained from members of the faculty working group: Anjali Arondekar (Feminist Studies), Carla Freccero (Literature, Feminist Studies, History of Consciousness), Irene Gustafson (Film and Digital Media), Marcia Ochoa (Feminist Studies), B. Ruby Rich (Film and Digital Media), Gabriela Sandoval (Sociology). Additional faculty contacts: Julie Bettie (Sociology), Benjamin Carson (Music), Sheila Crane (History of Art and Visual Culture), Jody Greene (Literature, Feminist Studies), Herbert Lee (Applied Mathematics and Statistics), Peter Limbrick (Film and Digital Media), Catherine S. Ramírez (Latin American and Latino Studies), Jenny Reardon (Sociology), Lisa Rofel (Anthropology), Danny Scheie (Theater Arts), Daniel Selden (Literature), Elizabeth Stephens (Art).

Please contact Anjali Arondekar in the department of Feminist Studies in the Humanities Division (aarondek@ucsc.edu) for information about course offerings and resources.

Religious Studies

Program Statement

Religious studies is not a separate program at UCSC, but students interested in the study of religion can select a degree plan from several majors and complement the requirements from a broad array of courses that focus on religion. Majors particularly appropriate for the study of religion at UCSC include the following: anthropology, history, history of art and visual culture, literature, and philosophy. The Department of History of Art and Visual Culture offers a [concentration in religion and visual culture](#).

Students interested in the study of religion may build an independent program of study by fulfilling the requirements of one of the majors listed above and, under the guidance of a member of the faculty, use elective courses to develop a concentration of study appropriate to their interests and needs. One of the following faculty should be contacted to discuss a course of study in religion at UCSC: [Murray Baumgarten](#) (literature), [Raoul Birnbaum](#) (history of art and visual culture), [Susan Harding](#) (anthropology), [Ralph Quinn](#) (psychology), [Ric Otte](#) (philosophy), [Triloki N. Pandey](#) (anthropology), [Cynthia Polecritti](#) (history), and [Marilyn Westerkamp](#) (history).

Students seeking information on an individual major in religious studies should contact their college academic preceptor.

Science Communication

2012–13 General Catalog

Kresge Annex A
(831) 459–4475
<http://scicom.ucsc.edu>
[Faculty](#) | [Course Descriptions](#)

Program Description

The Science Communication Program is a graduate certificate program composed of one track: science writing. Students combine a background in science with a desire to communicate science to the general public. The program focuses on the practice of conceiving, reporting, writing, and editing articles on scientific, medical, environmental, and technological subjects for newspapers, magazines, and special publications directed at general readers. The program in science writing offers intensive training in news, features, multimedia storytelling, essays, and investigative reporting. Graduates receive a certificate in science writing.

Graduate Certificate in Science Writing

The program accepts 10 students per year. Enrollment in science writing classes is strictly limited to students enrolled in the program. The program consists of one academic year of full-time study, beginning in fall quarter, followed by a full-time internship lasting a minimum of 10 weeks. *Science Notes*, the UCSC online science magazine, is produced annually by the graduate students. Please see the current issue and an archive of past issues on our web site, <http://scicom.ucsc.edu/>.

All students are required to complete at least two part-time internships in parallel with the six required graduate courses taken during the academic year. Internships are supervised by mentors on site, as well as by the program director. The interns earn academic credit for these field-study courses. The curriculum includes writing seminar courses in five distinct areas (news, features, multimedia, essays, and investigative reporting), as well as writing and editing workshops. Six courses from this curriculum, plus two course-equivalent internships, constitute the eight courses required for the graduate certificate. In addition to the academic year coursework, a full-time 10-week (minimum) internship, or an equivalent approved by the program director, is required.

Admission to the Science Writing Graduate Program

Students who have an intimate acquaintance with the theory and practice of science, an aptitude for writing, and a strong desire to communicate science to the general public are ideal candidates for the program. At least a bachelor's degree in science is required for admission. Other admission requirements are: full-time research experience of at least six months duration; official Graduate Record Exam (GRE) General Test scores; and official GRE Subject Test score in one of the following fields: biochemistry, cell and molecular biology, biology, chemistry, computer science, mathematics, or physics. Applicants with a

Upper-Division Courses

160. Introduction to Science Writing. S

A rigorous examination and practice of the skills involved in writing articles about science, health, technology, and the environment for the general public. Covers the essential elements of news writing and explanatory journalism, including developing a story idea, interviewing scientists, fact checking, composition, and editing of multiple drafts about scientific research. (Also offered as Biology:Ecology & Evolutionary 188. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and C1, C2 requirements. Enrollment restricted to junior and senior physical and biological sciences majors. Enrollment limited to 18. (General Education Code(s): W.) R. Irion

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. The Staff

Graduate Courses

201A. Reporting and Writing Science News. F

A survey of the conventions of newspaper journalism and the special application of those conventions to scientific and technological subjects. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. K. McLaughlin, M. Desjardins

201B. The Science Feature. W

A survey of selected feature articles in the current national science magazines, with attention to strategy, level of complexity, explanation technique, and style. Writing assignments include a publishable feature article. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. R. Irion

201C. Profile and Essay Writing. W

A survey of science and nature profiles and essays. Purpose, content, form, and style are

considered. Writing assignments include original profiles and essays on current issues in science, technology, and society. (Formerly The Science Essay.) Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. E. Strauss

201D. Policy and Investigative Reporting. S

Rigorous examination of techniques for reporting topics where science and technology meet public policy and society. Covers essential skills of investigative reporting, including obtaining documents through Public Records Act requests, using online reporting resources, and writing about ethical and legal issues. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. P. Aldhous, M. Mendoza

201E. Multimedia Science News. S

Introduces web–media tools for reporting science stories and enhancing coverage for broad audiences, including video packages, narrated slideshows, podcasts, blogs, and still photography. Laboratory sections address skills for handling equipment and online editing. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. M. Miller, R. Irion

202. Writing and Editing Workshop. *

Theory and practice of writing and editing articles on scientific, medical, environmental, and technological subjects for newspapers, magazines, and special publications directed at non–technical readers. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. May be repeated for credit. R. Irion, E. Hayden

297. Independent Study. F,W,S

A media internship is completed with faculty tutorial assistance, to satisfy a need for the student when a regular course is not available. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. May be repeated for credit. The Staff

Program Description

This is a crucial time for the documentary, as traditional sources of journalistic investigation and reporting are dwindling, untested opinions dominate the Internet, veracity is under constant attack, and audiences increasingly must search hard to find reliable perspectives on the world. It is at this moment that the Social Documentation (SocDoc) program has come into being to train the next generation of documentarians in creative and scholarly approaches to experience, representation, and argument. Founded in 2005, the SocDoc program at UCSC taps faculty across the campus to provide students with access to expertise and crosses traditional disciplinary lines in an effort to ground master of arts (M.A.) students in the deepest understanding of subject as well as medium. SocDoc has emerged as an exciting new center of gravity for an innovative new discipline. Our students have earned grants and awards for their thesis documentaries, produced around the globe, in film/video, photography, other digital media, and a range of documentary styles. We don't just tell a story; our students go beyond the story to place individuals in context and struggles in history, deepening the public's understanding of the societies in which we live and with which we connect.

The UCSC Social Documentation (housed in the Film and Digital Media Department) program is a two-year, full-time, graduate-level program leading to an M.A. degree. The program offers students a chance to develop expertise in the understanding and production of social documentaries in film/video, multimedia, photography, new digital media. Students may also work in other documentary mediums related to faculty expertise. Students learn how to translate various scholarly interpretations of social life into effective, accessible, and professional quality media projects.

Upon completion of the program, master of arts degree holders will be qualified to enter documentary-related professions such as documentary directing, producing, or editing. Degree holders may work within industries such as public broadcasting, or in the documentary field, as independent producers and artists, or for archival centers or museums or within organizations committed to issues for which documentaries can advance understanding and change. Degree holders may also choose to pursue a doctor of philosophy (Ph.D.) degree in related fields in the arts, humanities, or social sciences.

The program is designed to provide opportunities for the graduate student who is actively committed to social justice to work on a full-time basis beyond the boundaries of the

university. Master of arts candidates build a curriculum around a required set of core courses that offer a foundation in the theory and practice of social documentary, elective courses in their substantive area of interest, and the creation of a two-year documentary project that is the final requirement for the degree. Courses and faculty expertise are related to social justice in terms of broad structural and social changes and community-based organizing. Documentaries in the program have called attention to a range of under-recognized communities, problems, and structural inadequacies.

Objectives

The Social Documentation program aims to train its graduates in critical thinking and the use of visual, audio, electronic, and print media, as well as historic presentations and ethnographies, dedicated to the documentation of underrepresented areas of community life. The curriculum concentrates on the analysis of social problems, the creation of a critical approach to the collection and presentation of documentary material, and on the role of effective documentary in social change. For the master’s degree, students produce projects of their own: documentaries in film or video; photographic essays (in book, gallery, or cross-platform presentations); multimedia and audio productions; and Internet or other web-platform projects.

Special features of the program include its focus on the study of “ordinary life” and its emphasis on training students to produce original social analysis in broadly representational forms. The course of study includes training in the techniques of appropriate media and systems of representation. The unique emphasis of the Social Documentation program, however, is the acquisition of a level of academic rigor in the chosen subject of focus, an insistence on humanities and social scientific methodologies, a reliance on an ethical process of production that takes its subjects into full account, and a commitment to research in the development of material for extra-academic uses and audiences. Broadcast and theatrical media have increasingly recognized the importance of ancillary distribution through partnerships with pertinent communities of interest, just as the Internet is increasingly utilized for added depth and community interaction on issues. The Social Documentation program aims to prepare documentarians for newly evolving social media landscapes. At the same time, students receive training in the basic theories of social documentation with the aim of applying these theories to the analysis, prioritization, and solution of social problems.

Graduates are expected to generate work that will have an impact on the world outside the academy and to develop an understanding of documentary practices as well as social codes that can form a foundation for future work in their targeted subject area and arena of practice. The master’s project, which constitutes the culmination of the two years of study, is to be given a public exhibition or reading, and becomes the springboard for continuing work after graduation.

Requirements

The Social Documentation program has a required core curriculum around which students develop a plan of study. Each student has two advisers, one for creative guidance and the other for topical expertise, who will be involved in designing each student’s study and project plans. Full-time enrollment is required.

A total of 72 credits is required to complete the master’s degree in social documentation, comprising a combination of seminars on social documentary and social science research designed specifically for the SocDoc students, other courses on campus selected by students individually on the basis of relevance to the proposed project, and cohort courses focused on conceptualizing, executing, and completing the students’ social documentary master’s projects. There are eight required core courses.

Required courses for the first year are as follows:

- 200 Approaches to Social Documentary
- 202 Practice of Social Documentary
- 208 Social Science Research and Social Representation
- 270 Project Planning

Nondiscrimination Statement

Required courses for the second year:

- 204 Ways of Seeing and Hearing
- 294A Production, Analysis, Editing
- 294B Production, Analysis, Editing
- 294C Production, Analysis, Editing

In addition to these mandatory courses, an additional 32 credits must be secured through electives as identified on an individual basis, offered by other departments, or through independent study classes with or approved by faculty advisers.

To satisfy requirements for the master of arts degree, a student must complete the first year of required courses and electives. By the end of the first year, before summer quarter begins, students will have completed a proposal for their documentary project, which will be the basis for a required oral qualifying examination conducted by the graduate director and faculty advisers. This proposal will include a description of the subject to be documented, a treatment or narrative outline, a work plan including budget and timeline, and a preliminary annotated bibliography and filmography/videography of related works. Approval of the written proposal and satisfactory completion of the qualifying examination is a prerequisite for advancement to further coursework or fieldwork on the master’s project. The successful qualifying examination proposal should address the following questions:

- What is the story to be told?
- What is the stylistic approach?
- What is the social analysis that will guide, inform, and underwrite the story?
- How will that analysis be represented in the documentary?
- What kinds of evidence will be generated to persuade the audience that the analysis is accurate?
- How will the documentary use social analysis to make the personal political: how will it move from analysis to critique?

The second year is focused on the final documentary project required for completion of the master’s degree. This project must reflect original research and creative activity while demonstrating a command of related previous work by others. With an understanding of budgetary, equipment, and time limitations, students’ electronic, digital, and photographic or other projects should reflect a level of quality appropriate for publication, exhibition, or broadcast (including digital/web–cast).

Typically, the expectation in each medium is as follows:

Documentary Film/Video. One 20– to 30–minute documentary suitable for professional distribution and public exhibition.

Documentary Photography. One major exhibition on or off campus with a minimum of 10–20 images with text, and/or a 10–minute multimedia presentation and/or a publication–ready book of photographs and essay(s).

Online/Digital Platform Projects. To be clarified with program chair and advisers, given the evolving nature of this field.

Audio Documentary/Sound Recording. One 20–30–minute documentary suitable for radio broadcast or museum/public installation.

The final examination consists of the public presentation of the project.

In addition, every project must be accompanied by a written essay describing its relationship to its field and must document its research via field notes, bibliographies, archival searches, filmographies, videographies, and photography searches.

All materials will be filed in digital form and archived for future reference and access. All final projects, in every medium, must be submitted in the formats specified by the program chair.

Goals for Social Documentation Graduates

The Social Documentation program prepares graduates with critical skills and professional tools well suited to careers in the evolving fields of documentary media in the private and public sectors, for collaboration on community-based projects, for a range of activities geared to the analysis and documentation of sociopolitical issues, and for work with private and public organizations in need of media expertise and analysis. It is expected that students will make careers in the nonprofit fields evolving to link social justice organizations with media outlets, as well as in a range of public campaigns and initiatives. They will also be well equipped to function as independent documentarians working on behalf of social change within the expanding sectors of media production and representational intervention.

Also, given the emphasis on the histories of the social documentary and on developing methods suitable for contemporary challenges, many graduates are likely to enter the field of education on a part- or full-time basis. The Social Documentation program's teaching assistant (TA) training program, in conjunction with the Film and Digital Media Department, provides graduates with the preparation necessary to exercise pedagogical options.

Graduate Courses

200. Approaches to Social Documentation. F

Comprehensive review and analysis of documentary strategies aimed at societal critique and social change, evaluating changes in argument, evidence, and process over development of the discipline. (Also offered as Digital Arts and New Media 205. Students cannot receive credit for both courses.) A concurrent media lab is required. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *B. Rich*

202. Practice of Social Documentary. F

Introduction to social documentary genres including video, photography, new media and other mediums, which addresses social–scientific research and methodology in the context of these processes. (Also offered as Digital Arts and New Media 206. Students cannot receive credit for both courses.) A concurrent media lab is required. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *J. Taylor*

204. Ways of Seeing and Hearing. F

Graduate–level advanced seminar explores ways that seeing, hearing, and knowing are influenced by culture, power, race, and other factors. Readings emphasize how documentary subjects are constituted and known, addressing questions of epistemology, social constructivism, objectivity, and method. (Also offered as Digital Arts and New Media 204. Students cannot receive credit for both courses.) Enrollment restricted to social documentation and digital arts new media graduate students. *M. Ochoa*

208. Social Science Research and Social Representation. W

Designed to acquaint students with how social science research represents social reality and how social documentarians represent social reality. Designed to encourage comparison among different modes of social science research and between social science and different modes of social documentation representations of social life. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *The Staff*

220. Oral History. *

Introduction to the theory and practice of oral history. Seminar participants read foundational texts in oral history, historical memory, public history, and social documentary. Students conduct two oral–history interviews; write synthesis essays; and complete a seminar paper. Concurrent enrollment in course 291 required. Enrollment restricted to graduate students. Enrollment limited to 15. *The Staff*

270. Project Planning for the Social Documentary. S

Workshop seminar in project planning focusing on the form and content of the documentary project; research and preproduction; technical, financial, and logistical plans; and coordination with subjects and resources. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *S. Chiang*

280. Video Production of the Social Documentary. W

Intensive directing and producing course that covers conceptualization, research, treatment and proposal writing, interview technique, camera, editing, production, and distribution. (Also offered as Digital Arts and New Media 207. Students cannot receive credit for both courses.) A concurrent media lab is required. Enrollment restricted to social documentation graduate students. Open to qualified undergraduates with permission of instructor. Enrollment limited to 15. *J. Taylor*

290. Special Topics in Social Documentation. F

Designed to provide supplemental instruction on specific topical and/or technical matters related to social documentation. Topics include technical standards and innovations within the field of social documentation, documentary subjects, location production, and/or the work of individual professional documentarians. (Also offered as Digital Arts and New Media 208. Students cannot receive credit for both courses.) Enrollment restricted to social documentation graduate students. Enrollment limited to 15. May be repeated for credit. *S. Nakasako*

291. Media Laboratory for Social Documentation (2 credits). *

Individual training in a social documentation medium under the guidance of a faculty supervisor. Course is intended to be taken concurrently with social documentation courses requiring a laboratory course. Enrollment restricted to social documentation and digital arts and new media graduate students. Enrollment limited to 10. May be repeated for credit. *The Staff*

292. Special Topics (2 credits). F,W,S

Provides supplemental instruction on specific topical and/or technical matters related to social documentation. Topics include technical standards, artistic strategies, and innovations within the field of social documentation, documentary subjects, and/or work of individual professional documentarians. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. *The Staff*

294A. Production/Analysis/Editing. F

Workshop seminar oriented toward actual fieldwork, production, and preparation for editing of the thesis project in the student's chosen genre. Techniques of collection and recording, analysis, preparation, and editing taught. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *The Staff*

294B. Production/Analysis/Editing. W

Workshop seminar oriented toward the editing and creative assemblage of the thesis project in the student's chosen genre. Techniques of preparation, exhibition, and editing taught. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. *B. Rich*

294C. Production/Analysis/Editing. S

Social documentation students in the final phase of completing their master's thesis receive guidance in shaping their projects, receive feedback, and are taught key elements of structure and narrative at a time when the demand for clarity and social documentation exposition is crucial. Prerequisite(s): courses 294A and 294B. Enrollment restricted to social documentation graduate students. *J. Taylor*

295. Project Completion. F,W,S

Individualized study for second–year graduate students working on and completing their final projects. Limited to students enrolled in the social documentation program during their final quarter of study. May be repeated for credit. *(FWS) The Staff*

Program Description

The Division of Social Sciences focuses on the study of human relationships and society. As global economic and political changes transform the world around us, social scientists help us meet the challenges and opportunities of the 21st century.

Our eight departments offer more than 40 undergraduate and graduate degree programs, including many that are interdisciplinary collaborations. Our faculty members conduct leading-edge research in their fields, frequently working with students in research clusters linking departments to our research centers. We also offer extensive opportunities for experiential learning through field studies.

Our research, teaching, and state-of-the-art facilities provide students with a comprehensive and rigorous education that prepares them for productive careers and further academic pursuits. For more information on the division, see our web site at: <http://socialsciences.ucsc.edu/>.

Lower-Division Courses

194A. UCDC Internship Research Seminar. F,W,S

Weekly seminar that focuses on the production of a major research paper or equivalent scholarly undertaking connected to an internship in Washington, D.C., government, non-profit, or private institution. Seminar stresses institutional analysis, the development of bibliographic expertise in the use of Washington-based resources, and participant-observer skills. Required for participants in the UCDC program. Required for and enrollment restricted to students participating in the UCDC Program. Enrollment limited to 22. The Staff

Upper-Division Courses

194B. UCDC Internship Seminar (7 credits). F,W,S

A 30- to 36-hour-per-week internship in a Washington, D.C., government, non-profit, or private institution. Required for and enrollment restricted to UCDC program participants. (Formerly UCDC Internship and Internship Seminar.) Enrollment limited to 22. May be repeated for credit. The Staff

199. Tutorial. F,W,S

A program of directed study arranged with a Social Sciences Division faculty member. Enrollment restricted to participants in the UCDC program. The Staff

199F. Tutorial (2 credits). F,W,S

A program of directed study arranged with participating faculty. Class time is proportionally less than a 5-credit course. Enrollment restricted to participants in the UCDC program. The Staff

Sociology

[2012–13 General Catalog](#)[226 College Eight](#)[\(831\) 459–4306](#)<http://sociology.ucsc.edu>[Faculty](#) | [Course Descriptions](#)

Program Description

Sociology is the study of social interactions among individuals and social groups. More specifically, sociologists examine the cultural, ideological, economic and political contexts of human action including the processes whereby social institutions are created, maintained, and transformed.

Sociology was born as an intellectual response to the democratic and industrial revolutions that ushered in the modern era. As such, it considers how society is organized in relationship to a vision of a just, free, and equal society—a vision that may require fundamental social change. Developing an understanding of both social change and social justice as part of the sociological tradition is one of the teaching goals of sociologists at UCSC. In the process, we expect to develop in students an appreciation for the craft of social science: disciplined inquiry, observation, and research as part of informed global citizenship.

Sociology faculty members are engaged in research on a wide range of topics, such as medicine and technology; labor studies; the intersection of class, race, gender and sexualities; environmental sociology; sociology of emotion and affect; queer studies; the cultural politics of sex work; globalization and international development; black cultural politics; Latino and Chicano studies; the politicization of religion; drugs in society; global inequality, crime, and deviance; international law; legal institutions; sustainability; popular culture and cultural studies; media studies; urban studies; political economy; critical ethnography; discourse and conversational analysis; identities and identity changes; and social movements. Sociology faculty use a number of approaches and methods, including ethnography, comparative and historical analysis, conversational and discourse analysis, qualitative interviews, and survey research.

Because of the interdisciplinary emphasis among sociology faculty, undergraduates find the department amenable for double majors and minors, and non–majors find many sociology courses of interest. In recent years, students have conducted independent studies and written senior theses on a variety of subjects including the social construction of gender, emerging professions in health care, utopian communities, human development in Costa Rica, mass communication, the social effects of war, family violence, sustainable development in Bolivia, sanitation in Kenya and Haiti, street children in India, African soccer players in Europe, gay and lesbian families, Latino educational success, and cross–

cultural family welfare policies.

The sociology major at UCSC is a rigorous program of study that retains enough flexibility to accommodate students with diverse career goals and plans. It ensures that all students are trained in the main theoretical and methodological traditions of sociology, yet permits considerable variation in students' own areas of specialization. The major provides the necessary intellectual foundation for students who are considering graduate studies in sociology and related social sciences. It also can be used as preparation for careers in fields as diverse as law, social work, management, environmental planning, public service, education, health services, journalism, and counseling. Finally, the sociology major can provide a general liberal education for undergraduates interested in the study of contemporary society and social problems.

Global Information and Social Enterprise Studies (GISES) is an innovative service learning program developed in collaboration with the Global Information Internship Program (GIIP). It aspires to create a new generation of well-trained advocates for social justice and sustainable development who use the tools of information technology and social enterprise to solve global problems. Practically, student projects engage with local and global organizations to democratize globalization, deepen social justice, reduce poverty, support digital education, and advance the transition to a sustainable world. By combining the spirit of social entrepreneurship with innovative information technologies, GISES students reduce the digital divide by strengthening the informational, communication and organizational capacity of schools, community organizations, and non-governmental organizations (NGOs). The GISES program provides an excellent foundation for students pursuing careers in non-profit management, social advocacy, and education. Depending on a student's major, there are two ways to enter the GISES program. If a student is a sociology major and wishes to participate in GISES, she or he should declare the intensive sociology major. A student who majors in any field other than sociology should declare GISES as a minor.

Declaration of the General Sociology Major, Intensive Sociology Major, Combined LALS Major, Sociology Minor, or GISES Minor

The Sociology Department offers three undergraduate majors: 1) a general sociology major; 2) an intensive sociology major; and 3) a combined major with Latin American and Latino studies. Additionally, there are two minors, one in sociology and one in GISES.

Students must take three courses prior to petitioning for entry to the general sociology major: Sociology 1, Introduction to Sociology, Sociology 10, Issues and Problems in American Society, and Sociology 15, World Society. Students with a grade point average (GPA) of 3.0 or above for these three courses will be allowed to declare the sociology major.

Students must take six courses prior to petitioning for entry to the intensive sociology major: Sociology 1 Introduction to Sociology, Sociology 10, Issues and Problems in American Society; Sociology 15, World Society; Sociology 30A, Introduction to Global Information and Social Enterprise Studies; Sociology 30B, Designing ICT Projects for Social Enterprises; and Sociology 30C, Project Implementation and Grant Writing for Social Entrepreneurs. To be considered for admission to the intensive major, students are required to obtain a GPA of 3.0 or above in these courses and submit a list of seven upper-division courses they propose to complete the upper-division elective requirement, including a brief statement of justification for how each elective contributes to the specific project they will complete for Sociology 196G, Project Practicum.

Students must take two of the following three courses, Sociology 1, 10 or 15, prior to petitioning for entry to the sociology/Latin American and Latino studies major. Students with a GPA of 3.0 or above for these two courses, and who have completed LALS 1 or an 80-level course, Concepts and Theories in Latin American and Latina/o Studies, will be allowed to declare the combined major. (If a student takes all three sociology courses, calculation of the GPA will be based on the two highest grades.)

Students must take one of the following three courses, Sociology 1, 10, or 15 prior to petitioning for entry to the sociology minor. Students who receive a grade of B or higher in

[Archive of General Catalogs](#)

[Nondiscrimination Statement](#)

this course will be allowed to declare the sociology minor. (If a student takes more than one of these three courses, admission to the minor will be based on the highest grade in the courses taken.)

Students must take four courses prior to petitioning for entry to the GISES minor: Sociology 15, World Society; Sociology 30A, Introduction to Global Information and Social Enterprise Studies; Sociology 30B, Designing ICT Projects for Social Enterprises; and Sociology 30C, Project Implementation and Grant Writing for Social Entrepreneurs. To be considered for admission to the GISES minor, students are required to obtain a GPA of 3.0 or above in these courses and submit a list of four upper-division courses they propose to complete the upper-division elective requirement, including a brief statement of justification for how each elective contributes to the specific project they will complete for Sociology 196G, Project Practicum.

Equivalent courses may be taken at other universities or at community colleges.

Students who intend to declare on of the department's majors or minors listed above must take Sociology 1, 10, and 15 for letter grades. In addition, students who intend to declare the intensive sociology major or the GISES minor must take 30A, 30B, and 30C for letter grades.

Courses for which the grade of W is given are not counted in the computation of the GPA. The department will evaluate grades for repeated courses following the university's grading policy for repeated courses.

Students may petition for admission to the major by filling out the campus's Declaration of Major form, and by supplying evidence of their performance in the required lower-division courses. For specific details, refer to the Sociology Department web site, sociology.ucsc.edu, or the department's undergraduate adviser.

Transfer students who cannot complete Sociology 1, 10, and 15 before university policy requires them to declare a major will be allowed to declare if they have taken at least two of the three courses (or their equivalent) listed above (at UCSC, at another university, or at a community college) with an overall GPA of 3.0.

Appeal of Negative Decisions

Students must submit appeals of negative decisions to the Sociology Department in writing within 30 days of notification of denial of entrance into the major. Letters of appeal should describe any extenuating circumstances that might have affected the student's record.

Requirements of the General Sociology Major

For more details, students may consult the sociology handbook, available online at <http://sociology.ucsc.edu>, or at the department office, 226 College Eight.

Sociology majors are required to take a total of 13 courses (three prescribed lower-division courses in preparation for the major, four prescribed upper-division core courses, and six upper-division electives). In addition, they must successfully complete the comprehensive requirement prior to graduation.

Lower-division preparation. All sociology majors are required to take the following three courses or their equivalents.

1, Introduction to Sociology

10, Issues and Problems in American Society

15, World Society

Upper-division core courses. The following four sociology courses are required as the foundation of theoretical and methodological training in the discipline. Students are encouraged to take these courses early in their academic career.

103A, Statistical Methods

103B, The Logic and Methods of Social Inquiry

105A, Classical Sociological Theory

105B, Contemporary Sociological Theory

Upper-division advanced coursework. Six additional upper-division sociology courses are required. The Sociology Department offers upper-division electives that reflect a wide range of ideas within the discipline and the diversified research interests of the faculty. Refer to the *Sociology Department Undergraduate Handbook* or the Sociology Undergraduate Adviser for a list of recommended courses within a specific specialization.

- Comprehensive requirement. Prior to graduation, all sociology majors are required to complete one of the following comprehensive requirements.
- Senior thesis. The prerequisite for the senior thesis is course 103B. Students who would like to write a senior thesis must submit to their preferred faculty thesis sponsor a proposal that includes a one- to three-page abstract and draft research plan or design, a brief bibliography, and evaluations from relevant courses. The proposal must be submitted by the second week of the quarter, four quarters before graduation. Students unsuccessful in obtaining a thesis sponsor through these means may submit their proposals to the department's undergraduate education committee (UEC) by the fourth week of spring quarter. UEC members will review the merits of these proposals and assign the ones they approve to faculty members who have not yet agreed to serve as thesis advisers for the following year. Students will be notified of the outcome of the UEC's deliberations by the end of spring quarter.
- Capstone course. Sociology 196A, Capstone: The Sociologist as Public Intellectual. Upper-division lecture course that explores public sociology and integrates current research with theoretical strands in sociology.

In exceptional cases, students unable to take the senior capstone course may be allowed to substitute a portfolio of work. This substitution must be approved in advance, by the department chair. The portfolio option consists of: 1) portfolio of materials from (at least) three upper-division sociology courses; 2) a synthetic essay; 3) a paper consisting of new research by the student on some contemporary social or political issue, analyzed using the theoretical and empirical materials from those three courses. See the department for additional information.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The goals of the Sociology Department's disciplinary communication are to teach students to think critically by designing, evaluating, and analyzing existing or proposed research studies to create knowledge through synthesizing and integrating information from a variety of sources pertaining to a complex social problem, and to develop and apply evidence-based writing skills. Course 103B, The Logic and Methods of Social Inquiry, satisfies the Disciplinary Communication Requirement for students in programs administered by the Sociology Department. Combined majors with Latin American and Latino Studies should refer to the Latin American and Latino Studies Department for their Disciplinary Communication requirement.

Sociology Major Planner One

The following is a recommended academic plan for students to begin the sociology major.

Plan One

Year	Fall	Winter	Spring
1st (frsh)	SOCY 1	SOCY 15	SOCY 10
2nd (soph)		SOCY 103A	SOCY 103B
3rd (jr)	SOCY 105A	SOCY 105B	

Sociology Major Planner Two

The following is a recommended academic plan for transfer students entering the sociology major as juniors. It is assumed that course 1 and course 10 equivalencies were completed at the previous college.

Students Beginning in Fall Quarter

Plan Two

Year	Fall	Winter	Spring
3rd (jr)	SOCY 15	SOCY 103A	SOCY 103B
	SOCY 105A	SOCY 105B	

Students Beginning in Winter Quarter

Plan Two

Year	Fall	Winter	Spring
3rd (jr)		SOCY 15	SOCY 103B
		SOCY 103A	
4th (sr)	SOCY 105A	SOCY 105B	

All majors must complete the remaining six upper-division courses in their junior and senior years.

Requirements of the Intensive Sociology Major

The intensive major is an option for students wishing to major in sociology and focus in the area of Global Information and Social Enterprise Studies (GISES). The global information and enterprise studies intensive sociology major is sponsored and administered by the Department of Sociology. This major is designed for highly motivated, self-directed and enterprising students who have demonstrated the capacity to design and complete an honors-quality project for a civil society group. Students are required to take a total of 18 courses (six prescribed lower-division courses in preparation for the major, four prescribed upper-division core courses, seven upper-division electives, and a project practicum course). In addition, they must successfully complete the comprehensive requirement prior to graduation.

Lower-division preparation. Students must take the following six courses or their equivalents.

1, Introduction to Sociology

10, Issues and Problems in American Society

15, World Society

30A, Introduction to Global Information and Social Enterprise Studies

30B, Designing ICT Projects for Social Enterprises

30C, Project Implementation and Grant Writing for Social Entrepreneurs

Upper-division core courses. The following four sociology courses are required as the foundation of theoretical and methodological training in the discipline. Students are

encouraged to take these courses early in their academic career.

103A, Statistical Methods

103B, The Logic and Methods of Social Inquiry

105A, Classical Sociological Theory

105B, Contemporary Sociological Theory

Upper-division advanced coursework. Seven additional upper-division courses are required. The student's choice of electives must be approved either by the student's project adviser or by the director of GISES at the time of submitting the major declaration.

Project practicum. Students must enroll in Sociology 196G Project Practicum and complete their GISES capstone project. Contact the Sociology Department undergraduate adviser for more detailed guidelines regarding the GISES capstone project. At least one quarter before expected graduation, students are required to submit electronically a polished, focused, and concise GISES project proposal (five-page maximum), to the director of GISES and the sociology undergraduate adviser. The project proposal constitutes a prerequisite for enrolling in SOC 196G.

The final GISES capstone project must make an unambiguous contribution to advancing a solution to a problem associated with global social justice and/or sustainable development. The project must be associated with a real, viable civil society organization, community organization, school or non-governmental organization (NGO). To complete the final requirements for GISES major or minor, the integrated project—narrative and digital deliverable—must be mounted on the appropriate web-enabled database managed by the Global Information Internship Program (GIIP).

Disciplinary Communication (DC) Requirement. All students are required to satisfy the Disciplinary Communications Requirement in their major. The goals of the Sociology Department's disciplinary communication are to teach students to think critically by designing, evaluating, and analyzing existing or proposed research studies; to create knowledge through synthesizing and integrating information from a variety of sources pertaining to a complex social problem; and to develop and apply evidence-based writing skills. Course 103B, The Logic and Methods of Social Inquiry, satisfies the Disciplinary Communication Requirement for students in sociology programs.

Comprehensive requirement. Prior to graduation, students are required to complete one of the following comprehensive requirements.

- Senior thesis. The prerequisite for the senior thesis is course 103B. Students who would like to write a senior thesis must submit to their preferred faculty thesis sponsor a proposal that includes a one- to three-page abstract and draft research plan or design, a brief bibliography, and evaluations from relevant courses. The proposal must be submitted by the second week of the quarter, four quarters before graduation. Students unsuccessful in obtaining a thesis sponsor through these means may submit their proposals to the department's undergraduate education committee (UEC) by the fourth week of spring quarter. UEC members will review the merits of these proposals and assign the ones they approve to faculty members who have not yet agreed to serve as thesis advisers for the following year. Students will be notified of the outcome of the UEC's deliberations by the end of spring quarter.
- Capstone course. Sociology 196A, *Capstone: The Sociologist as Public Intellectual*. Upper-division lecture course that explores public sociology and integrates current research with theoretical strands in sociology.

In exceptional cases, students unable to take the senior capstone course may be allowed to substitute a portfolio of work. This substitution must be approved in advance by the department chair. The portfolio option consists of: 1) portfolio of materials from (at least) three upper-division sociology courses; 2) a synthetic essay; 3) a paper consisting of new research by the student on some contemporary social or political issue, analyzed using the theoretical and empirical materials from those three courses. See the department for additional information.

Requirements of the Combined Major in Sociology and

Latin American and Latino Studies

Students may choose to declare a combined major in sociology and Latin American and Latino studies. The requirements (listed below) should be examined carefully before choosing the combined major option. Students must complete the lower-division sociology courses with a 3.0 GPA and LALS 1 or an 80-level course, and both departments must approve a study plan before the major can be declared. Each department determines major and thesis honors separately.

Language Study

Students must demonstrate proficiency in Spanish or Portuguese equivalent to the completion of Spanish 6 or 56 or Spanish for Spanish Speakers 63 or Portuguese 65A-B.

Sociology/Latin American and Latino Studies

Students are required to take a total of 14 courses and to satisfy a senior comprehensive requirement. There are three lower-division course requirements, two from the Sociology Department and one from the Latin American and Latino Studies Department. The lower-division LALS courses must be LALS 1 or 80; transfer students may petition to replace LALS 1 or 80 with an appropriate course from another institution. Upper-division requirements include seven core courses: LALS 100, 100A, 100B; Sociology 103A, 103B, 105A, and 105B; and four additional elective courses, two from sociology and two from Latin American and Latino studies. At least one of the Latin American and Latino studies upper-division courses must be taught in Spanish or Portuguese***, and at least one course in the sociology/Latin American and Latino studies combined major must be on Chicano/a-Latino/a issues. Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the major when the content is deemed appropriate by the faculty advisers of both sociology and Latin American and Latino studies. Students can satisfy the comprehensive requirement in one of three ways: 1) writing a senior thesis; 2) passing an appropriate LALS Senior Seminar (194 series); or 3) completing two additional sociology upper-division courses in the area of Inequality and Social Change (refer to the sociology undergraduate adviser for the specific list of courses). If the thesis option is selected, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member belongs to both departments.

***Upper-division courses in Portuguese are currently not taught at UCSC and must be taken elsewhere.

Honors in the Major

The Sociology Department awards honors in the major based on the student's cumulative GPA for all courses taken to satisfy the program's major requirements. Students with a GPA of 3.75 or above will be considered for honors in the major. Students with a GPA of 3.9 or above will be considered for highest honors in the major. No more than approximately 15 percent of the graduating class will be considered for honors or highest honors in the major.

Requirements of the Sociology Minor

Students minoring in sociology are required to take seven courses: one of courses 1, 10, or 15; at least two of courses 103B, 105A, and 105B; and at least four other upper-division sociology courses. Students must provide evidence of completion of the lower-division requirement, courses 1, 10, or 15 with a grade of B or better, prior to declaring the sociology minor.

Requirements of the GISES Minor

Students minoring in GISES are required to take nine courses (four prescribed lower-division courses in preparation for the minor, four upper-division electives, and a project practicum course). The four lower-division requirements are courses 15, 30A, 30B and 30C. The student's choice of four upper-division electives must be approved either by the

student's project adviser or by the director of GISES at the time the minor is declared. Students must take Sociology 196G, Project Practicum, and complete their GISES capstone project. See description for the project practicum under Requirements for the Intensive Major.

UC Education Abroad Program Students

Academic year programs. Students must declare the major and pass the three lower-division preparatory course requirements (1, 10, and 15) and three of the upper-division core courses (103B, 105A, 105B) prior to study abroad. It is recommended that the students have the courses intended to be taken abroad reviewed and approved by the Sociology Department prior to departure. Up to three approved courses may be used toward the sociology major.

Semester programs. Fall semester: students must declare the major and pass the three lower-division preparatory course requirements (courses 1, 10, and 15) and one upper-division core course (105A) prior to fall semester study abroad. Spring semester: students must declare the major and pass the three lower-division course requirements (courses 1, 10, and 15) and two upper-division core courses (103B and 105B) prior to spring semester study abroad.

Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be used toward satisfaction of the major requirements when the content is deemed appropriate and approved by the Sociology Department.

Transfer Students

Junior transfer students expressing an interest in sociology on their UCSC application for admission are admitted as proposed sociology majors. This status is considered undeclared. Transfer students must meet with the sociology undergraduate adviser when they arrive on campus to determine their status and begin the actual declaration of major process, which must be completed by the end of the second quarter of the junior year for transfer students.

Declaring sociology early in the academic career will give a student priority for sociology course enrollment in subsequent quarters.

Graduate Program

The graduate program in sociology at UCSC distinguishes itself by its interdisciplinary nature. The program is designed to educate students in sociological theory and methods and in the disciplines major substantive areas while simultaneously exposing students to other arenas of intellectual inquiry that will aid them as they pursue their research questions and interests. After completing a group of required courses, students work closely with individual faculty members in designing their own course of study. The program leads to a doctor of philosophy (Ph.D.) degree in sociology. A master of arts (M.A.) degree may be taken en route to the doctorate, but a master's program per se is not available.

The core curriculum is divided into two parts, 1) basic grounding in sociological theory and methods, and 2) exposure to research in three areas of concentration: a) globalization, political economy, and environment; b) inequality and identity; and c) culture, knowledge, and power. To prepare students to conduct their own research projects, the department trains student in multiple methods—comparative and historical analysis, quantitative techniques, field research, and interpretive methods.

The sociology graduate program is intended to lead to both academic and nonacademic careers, and the interests of the faculty reflect this twofold objective. Faculty specialties include comparative and historical sociology; construction of deviance; criminal justice; cultural sociology; development; economy and society; education; emotions/affect; environmental sociology; globalization; language and social linguistics; law and society; Marxist sociology; mass communication; medical sociology; policy analysis; political economy; qualitative methodology; race, class, gender, sexuality; science and technology studies; social inequality; social movements; sociology of drugs; sociology of knowledge; and visual sociology.

Graduate students are supported through teaching assistantships, teaching fellowships, research fellowships and other grant/fellowship opportunities. A number of faculty receive research grants that support graduate student research assistantships, most recently, for example, the National Science Foundation Science and Justice Fellowships.

When asked what they most appreciate about the sociology graduate program, most students cite the students' and faculty's activism and commitment to social change in combination with their dedication to teaching, scholarly research, and understanding of the social forces of our society. The Sociology Department's colloquium series enhances scholarship, practice, and collegial networks. The diversity in age, ethnicity, and work experience of the student body creates a vibrant atmosphere for learning

Many of the faculty in the Sociology Department have affiliations with other departments and programs on campus, and the graduate program consequently encourages interdisciplinary work. Seminars in the anthropology, environmental studies, history, history of consciousness, politics, psychology, and feminist studies programs are open to sociology students. Graduate students in sociology may obtain a designated emphasis on the sociology Ph.D. diploma indicating that they have specialized in a specific field in addition to sociology, such as feminist studies, Latin American and Latino studies, environmental studies, philosophy, or education. Students must meet requirements for the designated emphasis as spelled out by the relevant department. For a complete list of programs that offer a designated emphasis, refer to the fields of study in the General Catalog. Students also participate in research projects under the auspices of seven interdisciplinary social science research centers: the Science and Justice Working Group; the Center for Agroecology and Sustainable Food Systems; the Center for Global, International, and Regional Studies; the Chicano/Latino Research Center; the Center for Research on Educational Diversity and Excellence; and the Santa Cruz Center for International Economics. Research opportunities also are available in the areas of environmental studies, feminist studies, and lesbian/gay/queer studies.

Many of our graduate students present papers at professional conferences and publish articles during the course of their graduate studies. The sociology master's paper is designed to prepare students to write for professional journals. Ongoing faculty seminars focusing on concrete research topics and problems are available for advanced graduate students working on papers and dissertations in related areas.

The sociology program provides graduate students with many teaching opportunities so they can practice the skills required for good teaching—the ability to articulate ideas, to organize and present materials in logical sequence, and to listen attentively and discern someone else's comprehension. Graduate students serve as teaching assistants for at least three quarters in the department's core classes of the undergraduate curriculum.

The Sociology Department at UCSC is intellectually innovative, both in its interdisciplinary approach and in its commitment to inquiry that is engaged with the world beyond the university.

Required Courses

Students are required to take at least 12 courses as follows.

A THREE-COURSE CORE GROUP:

201 The Making of Classical Theory

202 Contemporary Sociological Theory

203 Sociological Methods

TWO METHODS COURSES:

204 Methods of Quantitative Analysis

and one of the following seven courses:

205 Field Research Methods

206 Comparative Historical Methods

209 Analysis of Cultural Forms

241 Cross-National and Cross-Cultural Research

242 Feminist Research Seminar

Psychology 248 Survey Methods; or Sociology 282 Social Policy Research

THREE AREA FOUNDATION COURSES:

220 Global Transformation: Macrosociological Perspectives

240 Inequality and Identity

260 Culture, Knowledge, Power

At least one writing course (208 or 250)

A minimum of three elective graduate seminars, at least one from Sociology (excluding Sociology 250 and Sociology 293).

Students with no background in statistics are strongly advised to take an undergraduate course in statistical methods before enrolling in Methods of Quantitative Analysis, but can be admitted with permission of the instructor.

Progress Toward the Ph.D.

- Beginning at least by the end of the first year, students initiate work on their master's paper.
- Completion of the master's paper is expected by the end of the second year.
- Students are expected to take an oral qualifying examination by the end of the third year, but no later than the end of the fourth year.
- Graduate students prepare field statements in two distinct areas of sociology and, in addition, prepare a detailed course outline and a grant proposal in one or the other of these areas.
- The qualifying examination is an oral examination and based on the student's field statements.
- After passing the qualifying examination, a student is advanced to candidacy and begins work on the dissertation with the aid of a three-person dissertation committee.

Details of the policies for admission to the graduate program, the requirements for the Ph.D. degree, and information on financial support opportunities are available from the Department of Sociology. For more information, refer to the Graduate Studies section of the catalog.

Designated Emphasis in Sociology

To receive the Designated Emphasis (DE) in Sociology, a graduate student from another department must complete the following requirements in addition to the degree requirements for the doctorate in their degree-granting department. Students must initiate the request for the DE through their home departments. Then the student must meet with the Sociology graduate director who will: a) decide whether to approve the application; b) help find a Sociology faculty adviser; and c) oversee progress in the Designated Emphasis.

Adviser: In addition to the student's adviser(s) in their home department, the student must have a faculty adviser from among the core faculty of the Sociology Department who commits to serve on the qualifying examination (QE) committee. Outside members of a QE committee must be tenured.

Courses: The student must take five (5) Sociology graduate seminar courses:

Two (2) core courses:

SOCY 201 The Making of Classical Theory

SOCY 202 Contemporary Sociological Theory

One (1) methods course from the following:

SOCY 203 Sociological Methods
SOCY 204 Methods of Quantitative Analysis
SOCY 205 Field Research Methods
SOCY 206 Comparative Historical Methods
SOCY 209 The Analysis of Cultural Forms
SOCY 241 Cross-National and Cross Cultural Research
SOCY 242 Feminist Research Seminar
SOCY 282 Social Policy Research

Two (2) other graduate seminar electives* offered by the Sociology Department

*SOCY 208, SOCY 250, SOCY 293, SOCY 297, SOCY 299 cannot be counted toward the requirements for the Designated Emphasis.

All courses must be offered by the Sociology Department. Courses offered by other departments do not count towards the requirements for the Designated Emphasis in Sociology.

Writing: The student must prepare a significant piece of scholarly writing in the area of sociology. This may take the form of a substantial seminar paper, a master's essay, a paper submitted for publication, or a chapter of the doctoral dissertation. The student's Sociology faculty adviser will determine whether a particular piece of writing meets the requirement.

Graduate students interested in pursuing the Designated Emphasis in Sociology should contact the Sociology graduate program coordinator.

Faculty and Professional Interests

Professor

Dane Archer, Emeritus

John Brown Childs, Emeritus

Ben Crow

International development, sociology of water and markets, global inequality, South Asia and East Africa, political economy, sustainable development

E. Melanie DuPuis

Economic sociology, sociology of consumption, sociology of development, political sociology, sociology of the environment, technological change, historical sociology, social theory, food and social change

William H. Friedland, Emeritus

Hiroshi Fukurai

Race and law, citizen participation in law, indigenous approach to international law, decolonialism, Japan and East Asia, advanced quantitative methods, survey research

Walter L. Goldfrank, Emeritus

Herman S. Gray

Cultural studies, media and television studies, black cultural politics, social theory

Paul M. Lubeck

Political sociology; political economy of development, globalization, labor and work; logics of methodology; religion and social movements; Islamic society and identities; information and networks

Dennis C. McElrath , Emeritus

Marcia Millman

Social psychology, the family, sociology of emotions, field research methods, sociology of medicine

James R. O'Connor , Emeritus

Craig Reinerman

Nondiscrimination Statement

Political sociology; law, crime, and social justice; drugs and society

Pamela Ann Roby, Emerita

Dana Y. Takagi

Social inequality, affect, religion, race, quantitative analysis

Candace West

Language and social interaction, sex and gender, conversation analysis

Associate Professor

Julie Bettie

Cultural studies and popular culture; gender, sexuality, and cultural politics; race/ethnicity, class, and cultural politics; critical ethnography

Deborah Gould

Political emotion; social movements and contentious politics; classic and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Miriam Greenberg

Urban sociology, media studies, cultural studies, political economy, and globalization

Steven McKay

Work; technology and labor markets; globalization and social change; race, ethnicity and migration; political sociology; ethnography/qualitative methods

Jennifer E. Reardon

Science studies; sociology of science, technology, and medicine; feminist theory; race/ethnicity/gender/sexuality/class; biology and society

Helen Shapiro

Political economy, Latin American economic history and development (with an emphasis on Brazil), industrial policy, the auto industry, the state and transnational corporations

Lecturer

Francesca Guerra

Social justice, race and ethnicity, poverty, deviance, history of eugenics, disability rights, media, statistics and research methods

Wendy Martyna

Social psychology, death and dying, gender, social change, family and youth, language and society

Professor

Barbara L. Epstein (History of Consciousness)

Social movements and theories of social movements, 20th-century U.S. politics and culture, Marxism and related theories of social change

Nancy Stoller, Emerita (Community Studies)

Andrew Szasz (Environmental Studies)

Environmental sociology (environmental movements, policy, environmental justice); theory

Mark Traugott (History)

Social and economic history, 19th-century France, French revolutions, European working class, historical methods, workers' autobiographies

David Wellman, Emeritus (Community Studies)

Working-class culture, American ethnic and racial diversity, social documentary studies, critical race theory, interrogations of whiteness, and qualitative research methods

Associate Professor

Julie Guthman (Social Sciences)

Sustainable agriculture and alternative food movements, international political economy of

food and agriculture, politics of obesity, political ecology, race and food, critical human geography

Assistant Professor

Sylvanna Falcón (Latin American and Latino Studies)

Human rights, racism/antiracism, globalization, gender, transnational feminism, Latin America (Mexico, Peru), United States

Shannon Gleeson (Latin American and Latino Studies)

Migrant populations, the effects of documentation status, labor rights, civic engagement, inequality & stratification, political sociology, law & society, mixed methods & comparative approaches

[Program Description](#) | [Faculty](#)

Lower-Division Courses

1. Introduction to Sociology. F,S

A systematic study of social groups ranging in size from small to social institutions to entire societies. Organized around the themes of social interaction, social inequality, and social change. Fulfills lower-division major requirement. (General Education Code(s): IS.) C. Reinerman, F. Guerra

10. Issues and Problems in American Society. W,S

Exploration of nature, structure, and functionings of American society. Explores the following: social institutions and economic structure; the successes, failures, and intractabilities of institutions; general and distinctive features of American society; specific problems such as race, sex, and other inequalities; urban–rural differences. Fulfills lower-division major requirement. (General Education Code(s): IS.) D. Gould, M. Greenberg

15. World Society. F,W

Introduction to comparative and historical sociology. Focuses on the global integration of human society. Examines social changes such as industrialization, globalization, colonial rule, and the rise of Islamic fundamentalism. Uses social theory (including ideas from Marx, Weber, and Adam Smith) to explore the making of institutions like the nation–state, the World Trade Organization, the World Bank, and the International Monetary Fund. Fulfills lower-division major requirement. (General Education Code(s): CC, IS, E.) S. Mc Kay, B. Crow

30A. Introduction to Global Information and Social Enterprise Studies (3 credits). F

Teaches how to use social–enterprise methodologies to transfer information–communication technologies (ICT) to community and non–governmental organizations. Concepts include: globalization, info–exclusion, social justice, information revolution, global civil–society networks, social entrepreneurship, "open source" resources, web design, databases, networking. Requires organizational assessment. Enrollment limited to 50. P. Lubeck

30B. Designing ICT Projects for Social Enterprise (3 credits). W

Covers designing "doable" ICT–based projects to support the goals of community and NGOs. Topics include: social entrepreneurship/enterprise case studies; step–by–step project design; integrating social and technical solutions; project management. Technical

topics include: Internet resources; advanced web/database design; computer networks/maintenance. Enrollment limited to 50. P. Lubeck

30C. Project Implementation and Grant Writing for Social Entrepreneurs (3 credits). S
Covers conversion of ICT project into a fundable grant proposal for social justice, integration of social activism, entrepreneurship and justice, and implementation of project. Topics include: funders, proposal design, field methods, project assessment, innovative ICT applications, action research methods. Enrollment limited to 50. P. Lubeck

33. Designing Community Information Technology Centers. *
Examines theory and practice of designing and constructing community information technology centers for the U.S.A. and developing world through hands–on projects. Covers topics in social design, networking, open–source software, computer management, computing policy, VoIP, Wi–Fi, power sources, and project management. Courses 30A or 30B or 30C recommended as preparation. Enrollment limited to 25. P. Lubeck

42. Student–Directed Seminar. F,W,S
Seminars on selected topics taught at various times by upper–division students under faculty supervision. (See course 192.) Consult the Schedule of Classes for specific offerings. The Staff

80V. Understanding Agile Web Development for Social Justice. *
Focuses on development of web applications using agile methodologies and fundamentals of web programming and/or web UI design. Topics include: free/open–source software movement, social computing, and practices of digital justice. Focus is on ruby language, design principles, storyboarding, source control, testing, and documentation. May be repeated for credit. (General Education Code(s): T7–Natural Sciences or Social Sciences.) P. Lubeck

93. Field Study. F,W,S
Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. The Staff

99. Tutorial. F,W,S
Directed reading and research. Petitions may be obtained from the Sociology Department Office. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Directed reading and research. Petitions may be obtained from the Sociology Department Office. Students submit petition to sponsoring agency. Ordinarily call numbers for this course are not issued after the first week of instruction. May be repeated for credit. The Staff

Upper–Division Courses

103A. Statistical Methods (7 credits). W
Fundamental concepts in statistics. Introduction to measuring causation. Learn to use computer to analyze data efficiently. Emphasis on practical applications. Enrollment restricted to sociology, proposed sociology, and combined sociology majors. (General Education Code(s): SR, Q.) H. Fukurai

103B. The Logic and Methods of Social Inquiry (7 credits). S
The first part of the course focuses on basic ethical, political, and logical issues in social scientific inquiry. The second part develops a wide range of skills and methods appropriate to actual research. Course 103A, Statistical Methods, is strongly recommended. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; enrollment restricted to sociology and sociology combined majors, minors and proposed majors. (General Education Code(s): W, Q.) F. Guerra

105A. Classical Sociological Theory. F
This intensive survey course examines the intellectual origins of the sociological tradition,

Teaching and Administrative Staff

Appendixes

Archive of General Catalogs

Nondiscrimination Statement

focusing on changing conceptions of social order, social change, and the trends observed in the development of Western civilization in the modern era. Readings are all taken from original texts and include many of the classical works in social theory with special emphasis on the ideas of Marx, Weber, and Durkheim which constitute the core of the discipline. Required for sociology majors planning on studying abroad (EAP). Enrollment restricted to juniors and seniors in sociology, proposed sociology, the combined Latin American and Latino studies/sociology, and the proposed combined Latin American and Latino studies/sociology majors and sociology minors. M. Greenberg

105B. Contemporary Sociological Theory. W

Surveys major theoretical perspectives currently available in the discipline including functionalism, symbolic interactionism, ethnomethodology, conflict theory, critical theory, neo-Marxism, feminist theory. Enrollment restricted to juniors and seniors in sociology, proposed sociology, the combined Latin American and Latino studies/sociology, and the proposed combined Latin American and Latino studies/sociology majors and sociology minors. A. Szasz

111. Family and Society. F

Focuses on the interaction between family and society by considering the historical and social influences on family life and by examining how the family unit affects the social world. Readings draw on theory, history, and ethnographic materials. W. Martyna

114. Sports and Society. *

Explores the interconnections between sports and society using sociological theories and methods. Topics include class, race, and gender; mass media and popular culture; political economy; education and socialization; leisure patterns (participants and spectators); globalization and cross-national comparisons. The Staff

115. Sustainable Design as Social Change. S

Using current sociological understandings of knowledge-making and technological innovation, students learn sustainable project design as collaborative "open" processes. Includes computer-assisted, active-learning team workshop exercises and laboratories in both face-to-face and virtual e-learning environments. Interdisciplinary web-based laboratories also introduce basic skills necessary to understanding the technical aspects of sustainability. Enrollment by permission of instructor. (Formerly Sustainability and Social Change.) Enrollment limited to 60. (General Education Code(s): PE-T.) The Staff

116. Communication, Media, and Culture. F

Examines media institutions, communication technologies, and their related cultural expressions. Focuses on specific ways the media—including media studies and criticism—operates as social and cultural factor. Contemporary theory or equivalent in related fields recommended. (Formerly "Communication and Mass Media.") Enrollment restricted to upper-division students. F. Guerra

118. Popular Music, Social Practices, and Cultural Politics. *

Considers the role of popular music as a site of contemporary social practices and cultural politics. Examines the institutional organization and production of popular music, its cultural meanings, and its social uses by different communities and social formations. Also examines popular music as a vehicle through which major cultural and political debates about identity, sexuality, community, and politics are staged and performed. Prerequisite(s): course 105A or 105B. Enrollment restricted to juniors and seniors. The Staff

119. Sociology of Knowledge. *

Focus includes the following three areas: historical examination of sociological theories of knowledge with reference to Durkheim, Weber, Mannheim, and others; examination of black and feminist perspectives within sociology; examination of whether and how "outside" observers can analytically grasp the inner workings of other cultures. Prerequisite(s): course 103B or 105A or 105B. The Staff

120. Gender, Sexuality, and Cultural Politics. S

Focuses on the role feminist discourses play in cultural politics emphasizing sex, sexuality,

and sex work as related to gender, race, and class. Examines the relationship between academic and popular feminisms. Interrogates post-feminism, third-wave feminism, and generational differences in feminisms. (Formerly Feminisms and Cultural Politics.)
Prerequisite(s): course 129 recommended. Enrollment restricted to juniors and seniors. J. Bettie

121. Sociology of Health and Medicine. F
Analysis of the current health care "crises" and exploration of the social relationships and formal organizations which constitute the medical institution. Study of the political, economic, and cultural factors which affect the recognition, distribution, and response to illness. The Staff

122. The Sociology of Law. *
Explores the social forces that shape legal outcomes and the ways law, in turn, influences social life. Traces the history and political economy of American law; the relation between law and social change; how this relation is shaped by capitalism and democracy; and how class, race, and gender are expressed in welfare and regulatory law. (Also offered as Legal Studies 122. Students cannot receive credit for both courses.) Enrollment restricted to sociology majors and minors. The Staff

123. Law, Crime, and Social Justice. *
Blends the latest research in criminology with that from social stratification, inequality, and social welfare policy with the objective of exploring the relationship between levels of general social justice and specific patterns of crime and punishment. The focus is primarily on the U.S. although many other industrialized democracies are compared. An introductory course in sociology is recommended as preparation. (Also offered as Legal Studies 123. Students cannot receive credit for both courses.) The Staff

124. Visual Sociology. *
Learn to critically consume documentary, ethnographic film, photojournalism, and the genre of realism as these methods are increasingly used to describe the social world. Addresses theoretical, methodological, practical, and ethical issues of creating visual media. Optional media lab teaches students how to create visual products as well. (Formerly Visual Ethnography) Prerequisite(s): Enrollment restricted to juniors and seniors. J. Bettie

124L. Visual Sociology Media Lab (2 credits). *
Teaches the basics of digital narrative/storytelling, basic use of digital video cameras, digital video editing in iMovie and/or Final Cut Pro, and use of microphones and sound. Students use these skills to aid in creation of their final course project. (Formerly Visual Ethnography Media Lab.) Concurrent enrollment in course 124 is required. Enrollment restricted to juniors and seniors. J. Bettie

125. Society and Nature. F
A healthy society requires a stable and sustainable relationship between society and nature. Covering past, present, and future, the course covers environmental history of the U.S., the variety and extent of environmental problems today, and explores their likely development in our lifetimes. (General Education Code(s): PE-E.) The Staff

126. Sociology of Sex. F
Explores social and cultural aspects of human sexuality and reproduction, including how and why meanings and behaviors are contested. Analyzes sexuality and reproduction as forms of social and political control as well as cultural expression and self-determination. Enrollment restricted to upper-division students. Enrollment limited to 90. J. Bettie

127. Drugs in Society. W
Explores the history of the use and abuse of consciousness-altering substances like alcohol and other drugs. Social-psychological theories of addiction are reviewed in tandem with political-economic analyses to identify the social conditions under which the cultural practices involved in drug use come to be defined as public problems. An introductory sociology course is recommended prior to taking this course. (Also offered as Legal Studies 127. Students cannot receive credit for both courses.) Enrollment restricted to

sociology majors and minors. C. Reinerman

128. Law and Politics in Contemporary Japan and East Asian Societies. *

Introduction to contemporary analysis of Japan's race relations, ethnic conflicts, and a government's failure to restore remedial justice for war victims in Japan, Asia, and the U.S. Specific issues include comfort women, national or state narratives on Hiroshima, forced labor during World War II, and Haydon legislation that allows war victims to sue Japanese government and corporations in California. (Also offered as Legal Studies 126. Students cannot receive credit for both courses.) Enrollment limited to 30. H. Fukurai

128I. Race and Law. F

An introduction to comparative and historical analyses of the relation between race and law in the U.S. Emphasis on examinations of continuous colonial policies and structural mechanisms that help maintain and perpetuate racial inequality in law, criminal justice, and jury trials. (Formerly Race and Justice) (Also offered as Legal Studies 128I. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors, and seniors. H. Fukurai

128J. The World Jury on Trial. *

Adoption of the jury and its varied forms in different nations provides ideal opportunities to examine differences between systems of popular legal participation. Course considers reasons why the right to jury trial is currently established in Japan or Asian societies, but abandoned or severely curtailed in others. American jury contrasted with other forms of lay participation in the legal process. (Also offered as Legal Studies 128J. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 30. H. Fukurai

128M. International Law and Global Justice. *

Examines war crimes, crimes against humanity, and the evolution and role of the International Criminal Court (ICC). Examines the evolution of the concept of international law, the rationale for its birth and existence, roots of international conflicts and genocides, possible remedies available to victims, mechanisms for the creation and enforcement of international legal order, as well as the role of colonialism, migration, poverty, race/ethnic conflicts, gender, and international corporations in creating and maintaining conflicts and wars. (Also offered as Legal Studies 128M. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 30. H. Fukurai

129. Popular Culture and Cultural Studies. *

Examines the hidden politics of popular pleasure, studying the workings of domination and transgression in popular culture and everyday life. Explores not only media representations but cultural practices as well. Examines both cultural production and consumption. Considers how hegemonic discourses render the politics of resistance invisible. (Formerly Popular Culture.) Enrollment restricted to juniors and seniors. J. Bettie

130. Sociology of Food. S

Following food from mouth to dirt, explores the politics, economy, and culture of eating, feeding, buying, selling, and growing food. Topics cover both the political economy of the food system as well as how body and nature are contested categories at either "end" of this system. The Staff

131. Media, Marketing, and Culture. W

Explores relationship between modern forms of cultural production and the economy and society in which they emerge. Course reads, screens, and discusses variety of the cultural texts: from the historical and theoretical to the commercial, popular, and counter-cultural. (Formerly Culture, Economy, and Power.) Enrollment restricted to juniors and seniors. M. Greenberg

132. Sociology of Science and Technology. *

Reviews social and cultural perspectives on science and technology, including functionalist, Marxist, Kuhnian, social constructionist, ethnographic, interactionist, anthropological, historical, feminist, and cultural studies perspectives. Topics include sociology of knowledge, science as a social problem, lab studies, representations, practice,

controversies, and biomedical knowledge and work. Prerequisite(s): course 103B, 105A, or 105B. Enrollment limited to 20. The Staff

133. Currents in African American Cultural Politics. S

Takes as its subject, the dialogues, debates, conceptions, and strategies of self representation produced by blacks in the U.S. and Atlantic world in the twentieth and twenty-first centuries. These issues are examined through the insights of feminist theory, cultural studies, media studies, sociology, and African American studies. Enrollment restricted to juniors and seniors. (General Education Code(s): E.) H. Gray

134. Television and the Nation. W

The role of American network television in the production of the post-war American national imagination is our focus. Our approach will explore issues of media power, especially television's industrial apparatus, its network structure, its strategies of representation in relationship to the construction of the image of the nation, and the meaning of citizens, consumers, and audiences. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to juniors and seniors. (General Education Code(s): W.) H. Gray

136. Social Psychology. W

Major theories and concepts in sociological study of social psychology. Topics include identity and social interaction, deviance, sociology of emotions, social narratives, and the social construction of reality. (General Education Code(s): PE-H.) M. Millman

137. Deviance and Conformity. W

Why certain social acts are considered threatening and how individuals or groups become stigmatized. Sociological analysis of the institutions and processes of social control and the experience of becoming deviant and living with a stigmatized identity. Introductory course in sociology recommended. (General Education Code(s): PE-H.) F. Guerra

139. Field Research Methods. W

Research practicum which examines methods and problems of qualitative field research both through examining literature published in this tradition and by carrying out directed field exercises. Students also design and carry out their own research project. Prerequisite(s): course 103B. Enrollment limited to 20. M. Millman

140. Social Psychology of Power. *

This course uses historical, sociological, and social psychological materials to introduce students to issues concerning class and power, religion and power, minorities and power, women and power, the rise of the New Right, and the successes and failures of the Left. Prerequisite(s): course 1, 10, or 15 or Psychology 40. Enrollment restricted to juniors and seniors. G. Domhoff

141. Group Process. *

The study of group development and interpersonal behavior based primarily on observation of the class discussion group. Readings are drawn from psychology and fiction as well as from sociology. Offered in alternate academic years. Enrollment restricted to senior sociology majors. Enrollment limited to 18. M. Millman

142. Language and Social Interaction. W

Concerns the routine and taken-for-granted activities that make up our interactions with one another, consisting in large part—but not exclusively—of verbal exchanges. Emphasis on the socially situated character of communication, whether intimacy between two people or dominance of a group. An introductory sociology course is recommended prior to taking this course. Enrollment restricted to sophomores, juniors, and seniors. W. Martyna

143. Conversation Analysis. *

A working seminar, involving the analysis of actual conversations. Covers fundamental ethical, conceptual, and methodological issues that arise in the collection of conversational data, as well as the skills and techniques of conversation analysis. Given our operating assumption, that talk is a primary means of constructing social identities, there is a heavy thematic emphasis on gender, status, and power in conversation. Prerequisite(s): course

142 or Psychology 80E. Enrollment restricted to juniors and seniors. Enrollment limited to 20. C. West

144. Sociology of Women. W

Analysis of the social significance and social production of gender. Some consideration of how sex differences have developed. Major emphasis on the impact of gender as a categorical imperative in the present social context. In this context, the course is also about sexual segregation, sexual inequality, and the dynamics of interpersonal power. Enrollment restricted to juniors and seniors. An introductory sociology course is recommended. C. West

145. Sociology of Men. S

Examines conflicting views on the development and state of modern masculinity as adaptation, transitional phase, or pathology. Did men lose the "gender war"? Do boys need rescuing? What are common and divergent social experiences of men within race, class, gender, culture, era? An introductory sociology course recommended. W. Martyna

146. Sociology of Violence, War, and Peace. *

Explores key issues, theories, and topics in the study of violence, war, and peace. Addresses aspects of aggression, personal violence, political violence, and war. In addition, various strategies for the prevention of violence and war are examined. The Staff

149. Sex and Gender. *

Modern analyses of sexuality and gender show personal life closely linked to large-scale social structures: power relations, economic processes, structures of emotion. Explores these links, examining questions of bodily difference, femininity and masculinity, structures of inequality, the state in sexual politics, and the global re-making of gender in modern history. Recommended as background: any lower-division sociology course. The Staff

150. Sociology of Death and Dying. S

Explores contemporary, historical, cross-cultural and interdisciplinary perspectives on the social psychology of death and dying. Cultural norms and institutional contexts are studied, along with the individual experience, and the ways in which our perspectives on death and dying influence our experiences of life and living. Enrollment restricted to juniors and seniors. W. Martyna

152. Body and Society. F

Critically examines the place of the human body in contemporary society. Focuses on the social and cultural construction of bodies, including how they are gendered, racialized, sexualized, politicized, represented, colonized, contained, controlled, and inscribed. Discusses relationship between embodiment, lived experiences, and social action. Focuses on body politics in Western society and culture, especially the United States. An introductory sociology course is recommended prior to taking this course. Enrollment restricted to juniors and seniors. Enrollment limited to 50. F. Guerra

153. Sociology of Emotions. S

Examines sociological approaches to the understanding of emotions and the application of these approaches to work, learning, interpersonal relationships, health and illness, sports, and other aspects of everyday life. Enrollment restricted to juniors and seniors. M. Millman

154. Cross-National and Cross-Cultural Research. *

Examines a variety of theoretical, methodological, and substantive approaches to cross-national and cross-cultural research. Focuses on the importance and variety of cross-national and cross-cultural studies. Prerequisite(s): course 103B. Enrollment limited to 20. The Staff

155. Political Consciousness. *

Explores the relationship between consciousness, ideology, and political behaviors from voting to rebellion. Special attention is given to the lived experience and the identity interests that complicate the nexus of class position and political ideology. An introductory sociology course is recommended as preparation. G. Domhoff

156. U.S. Latina/o Identities: Centers and Margins. F

Explores historical and contemporary constructions of Latina/o identities and experiences in U.S. Particular emphasis placed on transcultural social contexts, racial formations, and intersections with other identities including sexuality and gender. Enrollment restricted to juniors and seniors. Enrollment limited to 50. (General Education Code(s): ER, E.) The Staff

157. Sexualities and Society. *

Explores controversies in the sociology of sexuality. Focuses on tensions and disagreements that characterize debates over sex and society, and attempts to identify political and theoretical issues at stake in these debates. Enrollment limited to 30. D. Gould

158. Politics of Sex Work and Erotic Labor. W

Examines sex work in an historical and cultural context, considering how it has changed over time. Considers the relationship of pornography, exotic dance, and selling sex on the Internet to racialization, queer politics, globalization, and tourism. Employs theories and methods of cultural studies in rethinking historical debates on sex work. Enrollment restricted to juniors and seniors. J. Bettie

160. Project Homeless Connect: The Integration of Theory and Practice. W

Discusses concepts of social research, development, and culture as they relate to homelessness at both the local and global level. Themes include: the existence of power and resistance in society and the mechanism for social reproduction and change. Enrollment by interview only. Enrollment restricted to juniors and seniors. Enrollment limited to 20. The Staff

163. Global Corporations and National States. *

Examines the nature and development of the capitalist world system since 1945. Emphasis is on the power of multinational corporations as managers of the world system and the response of states: role of multilateral agencies such as the World Bank, International Monetary Fund, United Nations. H. Shapiro

164T. Marx and Marxist Theory. W,S

Along with studying Marx's anatomy of capitalist society, this course also explores the work of Marxist theorists from the early 20th century through the contemporary moment. (Formerly Social Theory and the Marxian Tradition.) Prerequisite(s): course 105A or consent of instructor. D. Gould, B. Crow

165. World Systems Perspective. *

Seminar on the intellectual origins and contemporary exponents of the world-systems perspective in the social sciences: Marx, Braudel, Polanyi, Arrighi, Wallerstein. Prerequisite(s): courses 105A and 105B or permission of instructor. The Staff

166. Economics for Non-Economists. *

Fosters economic literacy among students who are not economics majors but are interested in the political and social ramifications of economic change. Emphasizes economic institutions and policy and is taught by case-study method, which requires active student participation. Enrollment restricted to juniors and seniors. Enrollment limited to 40. H. Shapiro

167. Development and Underdevelopment. F

Examines contemporary debates about development in the Third World: alternative meanings of development, recent work on the impact of colonial rule, how some economies have industrialized, ideas about agrarian change, and recent research on paths out of poverty. Students work in pairs to examine a development in one country since World War II. The Staff

168. Social Justice. F

What is social justice? People answer this question differently, depending upon their sociological perspective. Using a combination of political philosophy and sociological studies, explore five perspectives on social justice within the Western sociological

tradition: utilitarianism, Marxism, liberal egalitarianism, communitarianism, and pluralism. Students pick a topic and learn to articulate different visions of socially just change based on these perspectives. Prerequisite(s): course 105A. Enrollment limited to 60. The Staff

169. Social Inequality. W

A survey of theories and systems of social stratification focusing on such phenomena as race, class, power, and prestige. Enrollment restricted to juniors and seniors. (General Education Code(s): E.) D. Takagi

170. Ethnic and Status Groups. *

Examines the enduring and changing status of ethnic and other visible minority groups in the United States, e.g., Latinos, Asian Americans, African Americans, and immigrants, with comparative materials drawn from other societies. An introductory course in ethnicity and race is recommended as preparation. Satisfies American History and Institutions Requirement. (General Education Code(s): E.) J. Childs

171. Exploring Global Inequality. *

Seminar focusing on readings of key texts and recent research papers on several dimensions of global inequality (material, health, gender, cultural, migration) to find innovative ways of understanding the connections among different dimensions of inequality and of visualizing inequality in digital media. Students prepare visual presentations on contemporary social inequalities suitable for an online (for example, <http://ucatlas.ucsc.edu/>) or print atlas. Enrollment restricted to seniors. Enrollment limited to 30. B. Crow

172. Sociology of Social Movements. F

Through readings on social movements that span the 20th century, course examines the causes of popular mobilizations, their potential for rapid social change, and the theories developed to understand and explain their role in modern social life. Enrollment restricted to juniors and seniors. Enrollment limited to 40. (General Education Code(s): PE-H.) D. Gould

173. Water. *

Analyzes access to clean water, both in the American West and global South. Reviews water quality, pivotal role of water in settlement and society, history and contemporary inequalities, water supplies, international conflict over water, climate change, and human use of water. Enrollment restricted to juniors and seniors. Enrollment limited to 60. (General Education Code(s): PE-E.) B. Crow

174. Twenty-First-Century African American Social Structure. *

A sociological overview of African American society in the 21st century. The changing patterns of social/cultural organization, class structure, and modes of political action are analyzed. This analysis is located within the framework of migration, urbanization, and social struggle among black Americans. Prerequisite(s): course 10 or 20. (General Education Code(s): E.) The Staff

176. Women and Work. *

Examines the history of women and work; women's current conditions of work and political, economic, and social factors affecting these conditions; means by which women may shape working conditions including contributing leadership, developing policies, building unity, and creating alliances. Enrollment restricted to juniors and seniors. The Staff

176A. Work and Society. S

Addresses how work is organized and shapes life changes. Covers: the history of paid work; the impact of technology; race/class/gender at work; professional and service work; work and family; collective responses to work; and challenges of work in a globalizing economy. Enrollment restricted to juniors and seniors. The Staff

177. Urban Sociology. F

Historical and contemporary examination of urban life including community, race, geography, urban and suburban cultures and lifestyles, stratification, housing, crime,

economic and environmental issues, demographic changes, and global urbanization. Enrollment restricted to junior and senior sociology majors. Enrollment limited to 60. The Staff

177A. Latinos/as and the American Global City. *

Examines roles of emerging Latino/a majorities in urban centers across the U.S. Explores the "Latinization" of U.S. cities and various factors affecting the life chances of Latinos/as including, but not limited to, immigration, segregation, social movements, and other forms of political participation. Enrollment restricted to juniors and seniors. Enrollment limited to 40. The Staff

177G. Global Cities. *

Explores how "global cities" have facilitated increasing integration of the diverse cultures and economies of the world. Using historical, sociological, and comparative methods, analyzes how these spaces both enable and constrain transnational flows of capital, labor, information, and culture. Enrollment restricted to juniors and seniors. M. Greenberg

178. Sociology of Social Problems. S

Views "problems" in society not as given but as social constructs. Examines the ways in which conditions in society become identified and defined as problems and consequences that follow from such a process. D. Takagi

179. Nature, Poverty, and Progress: Dilemmas of Development and Environment. S

Concerns about environmental change, including global warming, threats to the ozone layer, and industrial pollution, raise questions about Third World development. Simple views of the relation between society and nature, such as blaming population growth, industrialization, or poor people, seem to preclude higher living standards. Uses debates and case studies to explore more subtle and optimistic views of social-natural relations. B. Crow

179L. Nature, Poverty, and Progress Laboratory. *

For enrollees in course 179, this optional lab provides opportunity to research ideas and produce a rough business plan for green enterprise of choice. Examples include compostable packaging, gray water systems, sustainable manufacturing, solar-powered submarines, green consulting, and other enterprises. Concurrent enrollment in course 179 required. Enrollment limited to 20. B. Crow

180. Social Movements of the 1960s. *

Examines the roots, development, and political outcomes of black civil rights organizations during the Sixties. Explores social and structural forces, mobilization of black communities, strategies and tactics used, nature of the relationships between various civil rights organizations, unity and disunity among organizations, leadership gains, and impact on race relations in the U.S. Enrollment restricted to junior and senior sociology and combined sociology/Latin American and Latino studies majors. Enrollment limited to 45. D. Gould

184. Hunger and Famine. *

Why do famines happen? Why are some hungry and some over-fed? Recent advances in the understanding of food crises and chronic undernutrition are the focus of this course. B. Crow

187. Feminist Theory. *

Examination of shifts in 20th- and 21st-century feminist theory and epistemology. Considers various deconstructive challenges to second wave feminism based on the politics of race, ethnicity, nation, sexuality, and class. Focus changes regularly. Prerequisite(s): course 105B, and either course 144 or 149 or Feminist Studies 1 or 100. Enrollment limited to 35. D. Gould

188. Religion and Social Change. *

Uses historical-comparative method to explore role of religion in global and local social movements. Case studies include historical analysis of the civil rights movement, Islamic movements, liberation theology, and millenarian movements. Topics vary annually.

Recommended for social science and history majors. (General Education Code(s): E.) P. Lubeck

188A. Social Change in the Global Economy. S

Explores local dimensions of globalization, focusing on experiencing more global divisions of labor in both industrialized and developing countries. Themes include: economic integration and dislocation; new forms of governance; globalizing consumption and culture; gender; and popular resistance. Enrollment restricted to juniors and seniors. (General Education Code(s): CC.) S. Mc Kay

188G. Global Islam: Politics, Movements, Discourses. W

Historical sociology of Muslim political and cultural movements as a global phenomena. Topics include: survey of Muslim globalization processes, Muslim political theory, Shari'a, Sufi networks, economic institutions, Islamic nationalism contemporary social movements, Muslim response to imperialism, Islamic revival, Muslim civil society, and the role of women in contemporary Muslim politics. P. Lubeck

190. Proseminar.

The Staff

191. Sociology Teaching Practicum. F,W,S

Under the supervision of the instructor, the student works with a group of students in a lower-division course, leading discussions, explaining material, reading and marking submissions, consulting individually and/or in other ways assisting in the teaching of a course. Interview and selection by professor required. Prerequisite(s): Senior standing and excellent performance in core courses in the major. Enrollment restricted to senior sociology majors. The Staff

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. The Staff

193. Field Study. F,W,S

Provides for (department-sponsored) individual field study in the vicinity of the campus under the direct supervision of a faculty sponsor (as opposed to course 198 where faculty supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

193F. Field Study (2 credits). F,W,S

Provides for department-sponsored individual field study in the vicinity of campus under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194F. Group Tutorial (2 credits). F,W,S

Small group study of a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Prerequisite(s): course 103B. Students submit petition to sponsoring agency. The Staff

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Prerequisite(s): course 103B. Students submit petition to sponsoring agency. The Staff

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Completion of course 195C (completion of the thesis) satisfies the W general education requirement. Prerequisite(s): course 103B and satisfaction of the Entry Level Writing and Composition requirements. Students submit petition to sponsoring agency. May be repeated for credit. (General Education Code(s): W.) The Staff

196A. Capstone: The Sociologist as Public Intellectual (3 credits). S

Students hear a selected group of faculty discuss their current research and how that research furthers public understanding and discussion of some vital contemporary social issue. Enrollment restricted to junior and senior sociology majors. H. Fukurai

196G. Project Practicum: Global Information and Social Enterprise. F,W,S

Project summary and evaluation are required for completion of minor in global information and social enterprise studies (GISES). Projects require approval in advance by director of GISES. Completed projects must be uploaded electronically on the web site or archive of the global information internship program. Prerequisite(s): courses 30A, 30B, and 30C. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S

Provides for (department-sponsored) individual study program off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Advanced directed reading and research. Petitions may be obtained from the Sociology Department Office. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Advanced directed readings and research. Petitions may be obtained from the Sociology Department Office. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

201. The Making of Classical Theory. F

Examines the establishment of "theory" in the discipline of sociology. Introduces students to close readings and analysis of a core selection of social theory. Problematises the construction, maintenance, and reproduction of a theoretical canon in sociology. Enrollment restricted to graduate students in sociology and by permission number. Enrollment limited to 20. M. Greenberg

202. Contemporary Sociological Theory. W

Intensive survey of major tendencies in modern social thought, including functionalism, symbolic interactionism, ethnomethodology, critical theory, structuralism, phenomenology, neo-Marxism, and feminist theory. Enrollment restricted to graduate students in sociology and by permission number. C. Reinerman

203. Sociological Methods. F

Approaches methods as a series of conscious and strategic choices for doing various kinds of research. Introduces students to the epistemological questions of method in social sciences; to key issues in "technique," particularly control, reliability, and validity; and to good examples of social research. Enrollment restricted to graduate students in sociology

and by permission number. C. West

204. Methods of Quantitative Analysis. F

Students are provided with intuitive explanation of fundamental concepts in statistics and learn how to use statistics to answer sociological questions. Experience and guidance in using computers to efficiently analyze data are provided. Enrollment restricted to graduate students in sociology and by permission number. Enrollment limited to 20. H. Fukurai

205. Field Research Methods. S

Gives students first-hand experience doing fieldwork with an emphasis on participant observation and some interviewing. Students submit weekly field notes and a final project analysis. At seminar meetings, field experiences and relevant literature are examined. Enrollment restricted to graduate students in sociology and by permission number. Enrollment limited to 10. Offered in alternate academic years. J. Bettie

206. Comparative Historical Methods. *

Overview of research strategies and methods used in historical and social sciences. Students read works exemplifying a variety of analytical approaches. Written assignments cultivate critical skills, weighing of tradeoffs inherent in all methodological choices, and elaboration of hypothetical research designs. Enrollment restricted to graduate students. Enrollment limited to 20. The Staff

208. Writing Practicum.*

Writing intensive course designed to facilitate the completion of the master's thesis, orals field statement, or the dissertation in sociology. The seminar is convened by a faculty member in conjunction with students and their adviser or appropriate committee chair. Students are expected to produce and present drafts of work completed in the seminar. Enrollment restricted to sociology graduate students and by permission number. Enrollment limited to 12. M. Millman

209. The Analysis of Cultural Forms. W

Examines material and symbolic forms such as media products, cultural artifacts, language, nonverbal communication and social practices using discourse, textual, content, interpretive, and conversation analyses as well as ethnography and different channels of communication. Theoretically, relies on cultural studies, communication studies, cultural sociology, film studies, and ethnomethodology. Enrollment restricted to sociology graduate students. H. Gray

220. Global Transformation: Macrosociological Perspectives. W

Classical concepts and contemporary approaches in macrosociology, the study of large-scale, long term social change. Readings drawn primarily from the Marxian and Weberian traditions (new institutionalism, varieties of neo-Marxism, environmental history, state centrism) as they focus on agrarian and industrial structures and commodity chains; household, village, and neighborhood organization; social movements and revolutions; culture, ideology, and consciousness; policy analysis; comparative urban, national, and civilizational development. Enrollment restricted to graduate students in sociology. Enrollment limited to 15. S. Mc Kay

222. Political Sociology. *

A survey of major works and themes in the relationship of politics and society, with primary emphasis on the compatibilities and contradictions of pluralist, elite, and class perspectives on the state. Enrollment restricted to graduate students. E. Du Puis

223. Sociology of the Environment. *

Advanced treatment of the dominant ideas of nature and the environment in the West and their relationship to the development of Western capitalism. Leading Western theories of environmental crisis and their relation with ideologies of environmentalism and environmental movements. Enrollment restricted to graduate students. Enrollment limited to 20. May be repeated for credit. E. Du Puis

224. Globalization: Theories and Social Movements. S

Examines the structures, processes, and movements associated with globalization

processes. Reviews political economy theories, cultural theories systems, state industrial policies, and popular responses to globalization. Also assesses contribution of resistance movements informed by class, ethno-nationalism, religion, or gender. Enrollment restricted to graduate students. Enrollment limited to 25. Offered in alternate academic years. May be repeated for credit. P. Lubeck

225. Political Economy for Sociologists. *

Examines rudiments of historical materialism in light of advances in cultural and ecological Marxism. Basic categories of Marxist political economy. Thematic focus on the "first" and "second" contradictions of capitalism in world economy today. Enrollment restricted to graduate students. Enrollment limited to 15. B. Crow

227. Learning from Environmental Historians. *

Looks at several major themes in the sociology of the environment and asks how the works of environmental history address those themes. Includes reflections on how history as a method interrogates social questions. Possible themes include: sustainability; social justice; universalism vs. particularity; city and country; and social movements. Enrollment restricted to graduate students. Enrollment limited to 8. E. Du Puis

229. Work and Labor Markets in the New Economy. *

Focuses on the interaction of work restructuring and existing race/class/gender inequalities. Themes include: the labor process and theories of consent; labor market segmentation; job and occupational segregation; information technologies, flexible work, and post-industrialism; flexible employment relations; and low-wage service and labor markets. Enrollment restricted to graduate students. S. Mc Kay

230. Theory and Method in the Sociology of Marx. *

Examines theoretical and methodological implications of Marxist theory for empirical social research. Analyzes how historians and social scientists apply Marxist method in explaining society, social change, globalization, culture, and late capitalism. Goal is to assist students to employ Marxist theory and method creatively in their research projects. Enrollment restricted to graduate students. Enrollment limited to 12. P. Lubeck

240. Inequality and Identity. S

Explores recent theoretical and empirical studies of race, class, gender, and sexuality with an emphasis on the production of identities and their relationship to processes and structures of power in a postcolonial context. Enrollment restricted to graduate students in sociology. D. Takagi

241. Cross-National and Cross-Cultural Research. *

Seminar examining theoretical and methodological issues in doing cross-national and cross-cultural research. In addition to a consideration of different research paradigms and approaches, representative works from each comparative tradition are examined. Enrollment restricted to graduate students. Enrollment limited to 15. The Staff

242. Feminist Research Seminar. *

Provides scholarly support to students doing feminist research. Examines issues concerning conceptualization of feminism and feminist research. Explores relation of feminist research to intersections of gender, class, and race; to the self; to power; and to transformative social praxis. Students present and are given assistance with their work, as well as listen to, read, and assist with the work of others. Enrollment restricted to graduate students. Enrollment limited to 10. The Staff

244. Race and Ethnicity. *

A critical survey of the theoretical issues of persistence and change, public policy, and recent empirical studies in the field of race and ethnic relations. Readings introduce comparative race relations and a historical background of major theoretical paradigms in the field which purport to explain race and ethnic relations in general and race relations in America specifically. Enrollment restricted to graduate students. Enrollment limited to 15. Offered in alternate academic years. The Staff

245. Feminist Theory. *

Examination of shifts in 20th- and 21st-century feminist theory and epistemology. Explores the decentering of universalist feminist theories and asks what constitutes feminist theory after gender has been decentered. Considers various deconstructive challenges to second-wave feminist theory based on the politics of race, ethnicity, nation, sexuality, and class. Focus changes regularly. Enrollment restricted to sociology graduate students. Enrollment limited to 12. J. Bettie

246. Class, Culture, and Movement. *

Analyzes impact of ethnicity, gender, and religion on the class situation of laboring people in a globalized economy by intensive reading and critique of classic studies, explaining how social movements reflect combinations of social relations and cultural practices. Enrollment restricted to graduate students. Enrollment limited to 15. C. Reinerman

247. Race and Class. *

Introduces the student to the recent literature on race and class. Covers several different theoretical perspectives including internal colonialism, labor market segmentation theories, racial formation, and neo-gramscian cultural analyses. In addition to study of theory, also compares theoretical perspectives to the historical experience of minority groups, in particular, blacks, Hispanics, and Asians. Enrollment restricted to sociology graduate students. The Staff

249. Feminisms and Cultural Politics. *

Focuses on the role feminist discourses play in contemporary cultural politics with the main focus on the politics of sex, sexuality, and sex work. Begins with considerations of (mis)representations of feminisms in popular cultures; considers the relationship between academic and popular feminisms; and interrogates the meaning of terms post-feminism and third-wave feminism. Enrollment restricted to graduate students. J. Bettie

250. Course Design and Grant-Writing Seminar. S

A professional training seminar devoted to the philosophical, conceptual, and practical issues of course design, pedagogy, and grant writing. Topics covered: institutional contexts; curriculum (including syllabi, course content, assignments, evaluation); pedagogy; teaching as work/labor process; grant writing; budgets. Enrollment restricted to sociology graduate students. Enrollment limited to 15. M. Millman

252. Symbolic Interactionism and Sociology of Emotions. *

Examines classic and contemporary theories and concepts that play a major role in sociological studies of identity, symbolic and social interaction, and the sociology of emotions. Examines how cultural forms, rules, and rituals define, structure, and mediate emotions and how identities are situated within social institutions. Enrollment restricted to graduate students. Enrollment limited to 10. M. Millman

253. Race, Crime, and Justice. *

An introduction to comparative and historical analyses of relations between race and the criminal justice system. Specific topics include defining race/ethnicity, sentencing disparities, jury nullification, jury selection and decisions, prosecutorial misconduct, government's charging and investigative discretions, and other racially biased law enforcement practices and criminal court processes. Also covers a number of highly publicized trials that involved unmistakable elements of race and racism such as Chin, King, Simpson, and Unabomber cases. Students are also exposed to World Wide Web (Internet) to learn how to do research in the field of criminal justice. Enrollment restricted to graduate students. Enrollment limited to 15. H. Fukurai

255. Engaging Cultural Studies. *

Examines feminist and ethnic studies production, appropriation, and transformation of cultural studies theories and methodologies. Considers the utility of various theoretical apparatuses and methodological strategies employed in the interdisciplinary site that combines feminist, ethnic, and cultural studies. Enrollment restricted to graduate students. Enrollment limited to 15. J. Bettie

256. Urban Sociology. *

Introduction to core writings and key theoretical paradigms in urban sociology. Examines

the history and contemporary conditions of cities in the U.S. and the urban experience. Urbanization, suburbanization, community, social inequality, urban politics, relationship between the built environment and human behavior. Enrollment restricted to graduate students. The Staff

257. Colonialism, International Law, and Global Justice. *

Examines colonialism, war crimes, crimes against humanity, and legal remedies, and the role of the International Criminal Court (ICC); traces the history of colonial expansionism, starting from the Roman Empire to the present American imperial dominance in global politics. Enrollment restricted to graduate students. Enrollment limited to 15. H. Fukurai

258. Global Lay Justice Systems and Direct Democracy. *

Introduces historical analysis of lay justice participation. Examines global exploration of the use of lay judge institutions in citizen's movements and the assumption that juries are a derivative institution of democratic ideals. Focuses on corporate media creation of anti-jury sentiment. Enrollment restricted to graduate students. Enrollment limited to 10. H. Fukurai

260. Culture, Knowledge, Power. F

An introduction to theoretical approaches and exemplary studies of culture, knowledge, and power which critically interrogate the relationship between cultural formations and the production, circulation, and meaning of knowledges, materials, artifacts, and symbolic forms. Explores the concrete ways that power is organized and operates through different forms and sites, how it interpolates with other forms of power, and examines knowledges and culture as specific forms of power and sites of political struggle. Enrollment restricted to sociology graduate students. Enrollment limited to 15. J. Reardon

261. Sociology of Knowledge. *

Explores three main issues: the social determination of knowledge, including natural science; the character of intellectual labor and intellectuals as a social group; the role of organized knowledge and "knowledge industries" in contemporary social change. Texts examined include class-based theories (Lukacs, Mannheim, Gramsci), feminist standpoint analysis (Smith, Harding, etc.), and theories of postmodern culture (Lyotard, Harvey, etc.). Enrollment restricted to graduate students. Enrollment limited to 20. The Staff

262. Cultural Practice and Everyday Life. *

Examines contemporary debates about the role of mass produced expressive symbols in modern industrial societies, and the circumstances of cultural production for its impact on the creation, organization, and use of cultural artifacts. Concern with the use and experience of popular symbols for the ways that their use involves the creation of meanings and the role of such meanings in the social organization of society. Enrollment restricted to graduate students. Enrollment limited to 10. H. Gray

263. Cultural Politics of Difference. *

Considers the cultural turn and the turn to difference in understanding relations of power and struggles over representation in studies of race, media, and culture. Examines national identity, difference, subjectivity, and authenticity, especially as they bear on quests to create new identifications, alignments, and efforts to protect existing identities. Enrollment restricted to graduate students. Enrollment limited to 10. H. Gray

264. Science, Technology, and Medicine. *

Explores social and cultural perspectives on science, technology, and medicine. Analyzes theoretical approaches that open up "black boxes" of scientific and biomedical knowledge, including the politics of bodies, objects, and health/illness. Links are made to medical sociology. Enrollment restricted to graduate students. J. Reardon

268A. Science and Justice: Experiments in Collaboration. *

Considers the practical and epistemological necessity of collaborative research in the development of new sciences and technologies that are attentive to questions of ethics and justice. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Feminist Studies 268A and Biomolecular Engineering 268A. Students cannot receive credit for all three courses.) Enrollment limited to 15. The Staff

268B. Science and Justice Research Seminar. *

Provides in-depth instruction in conducting collaborative interdisciplinary research. Students produce a final research project that explores how this training might generate research that is more responsive to the links between questions of knowledge and questions of justice. Prerequisite(s): course 268A. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Biomolecular Engineering 268B and Feminist Studies 268B. Students cannot receive credit for all three courses.) Enrollment limited to 15. J. Reardon, K. Barad

282. Social Policy Research. *

Policy research. Covers a variety of theoretical perspectives found in policy studies. Surveys various methodological approaches used in policy research. Theories and methods linked to research agendas on the various phases of the policy life cycle. Students are required to design a research proposal. Enrollment restricted to graduate students. Enrollment limited to 10. Offered in alternate academic years. E. Du Puis

290. Advanced Topics in Sociological Analysis. *

The topics to be analyzed each year vary with the instructor but focus upon a specific research area. Enrollment restricted to graduate students by consent of the instructor. M. Millman

293. Going on the Job Market. *

A seminar devoted to the practical problems of securing a job as a professional sociologist. Topics covered: researching colleges, universities, and public and private organizations that employ sociologists; designing a curriculum vitae; writing an application letter; preparing a "job talk;" handling questions during the interview process; the etiquette of visiting (and its aftermath); finding out about them; and the terms of employment: what is negotiable and what is not. Enrollment restricted to graduate students. C. West

294. Writing for Social Scientists. *

Seminar on the genres of social science writing, and the problems of starting and finishing a publishable thesis, book, or article. For advanced graduate students working on the composition of their dissertations and journal articles. Enrollment restricted to graduate students. Enrollment limited to 10. M. Millman

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012-13

Spanish and Spanish for Heritage Speakers

2012–13 General Catalog

Language Program
218 Cowell College
(831) 459–2054
<http://language.ucsc.edu>

Faculty | [Spanish Course Descriptions](#) | [Spanish for Heritage Speakers](#)

Program Description

Students interested in acquiring proficiency in Spanish can enroll in a wide range of Spanish language or Spanish for Heritage speakers (SPHS) courses, from beginning to advanced levels. The language and culture sequences of lower-division courses, Spanish 1–6 as well as Spanish for Heritage Speakers 4–6, and upper-division series Spanish 156 courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing as well as cultural competence. Students are strongly encouraged to finish year-long sequences without interruption and, if possible, to study in Spanish-speaking countries. Students who want to do a major that would allow them to take several courses in Spanish may select from among several programs: a major or minor in language studies, a major in literature with an emphasis in Spanish/Latin American/Latino literatures, a major in Latin American and Latino studies, or a major in global economics.

Spanish

Students interested in taking Spanish classes are required to take the placement examination (<http://ic.ucsc.edu/test/>) to enroll in the appropriate level. Students finishing a first year of instruction in Spanish (1–2–3) are encouraged to continue on to second-year (intermediate-level) by taking Spanish 4, 5, and 6. First-year students also have the option of enrolling in the 1T, 2T, 3T series, which requires continuous enrollment from fall through spring quarters.

Health science and human biology majors have priority enrollment in Spanish 5M, Medical Spanish, but others may enroll if there is space availability. Students are also encouraged to continue with the third-year Spanish 114 and the Spanish 156 series in which a wide variety of topics are covered. For more information on the courses offered in Spanish, please see the course descriptions.

Spanish for Heritage Speakers

Spanish for Heritage Speakers (SPHS) has been developed for heritage speakers who, although raised in Spanish-speaking communities or households, are not yet fully

proficient in Spanish. SPHS courses take into account the experiences and influences of bilingual and bicultural upbringing.

SPSS students are required to attend laboratory instruction once a week in addition to the regular class meetings. Some lower-division and all upper-division courses can fulfill requirements for several majors or departments, such as American studies, education, global economics, language studies, and Latin American and Latino studies.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Study Abroad

The Office of International Education (OIE) offers programs ranging from four weeks (Summer Session) in Cuernavaca, Mexico to one quarter or one academic year in Buenos Aires; Argentina, Santiago, Chile; San Jose and Monteverde, Costa Rica; Morelia and Monterrey, Mexico, and Cordoba, Madrid, Alcala, Barcelona, and Granada, Spain. Generally, students must have completed Spanish 6 or SPHS 6 by the end of the sophomore year to qualify for a junior year abroad. Courses taken abroad can, with approval of an adviser, be applied to major requirements. For more information, see the OIE web site, (<http://oie.ucsc.edu>). For information on credit applied to a particular major, contact the appropriate department.

Faculty and Professional Interests

Professor

Jorge Aladro Font (Literature)

Spanish mysticism, theory and historical developments of imagery in the Middle Ages to the baroque period, Renaissance and baroque Hispanic literature, Italian ideas in the Spanish Renaissance, Cervantes

Julianne Burton–Carvajal, Emerita (Literature)

Norma Klahn (Literature)

Latin American literary and cultural studies (specialization: Mexico), Chicano/Latino literature and culture from a cross–border perspective, modernity/postmodernity, poetics and politics, genre theory (novel, poetry, autobiography), contemporary critical theories (i.e., border, ethnic, feminist, transnational/global)

Lourdes Martínez–Echazábal (Literature)

Latin American and Caribbean literatures; Afro–Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora; critical race theory

Associate Professor

Juan Poblete (Literature)

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th–century studies; the history of reading practices

Assistant Professor

Eve Zyzik

Spanish linguistics, second language acquisition, cognitive linguistics, language pedagogy and curriculum design

Senior Lecturer

Maria Victoria González–Pagani

Education Code(s): CC, IH.) The Staff

5M. Medical Spanish. F,W,S
Students learn medical vocabulary, useful expressions, suitable grammatical structures, and cultural background to be able to interact with Spanish–speaking patients and doctors. Medical Spanish fulfills language requirement for the health sciences and human biology majors. Prerequisite(s): Spanish 4; or Spanish for Spanish Speakers 61 or 62 or 63 or 125; or Spanish for Heritage Speakers 4, or 5, or 6; or Spanish Placement Examination score of 50 or higher. Enrollment restricted to health sciences and human biology majors. (General Education Code(s): CC, IH.) The Staff

6. Second–Year Spanish. F,W,S
Increases oral and written proficiency using authentic reading materials which focus on such topics as social class, ethnicity, education, religion, economic, and political developments in the Spanish–speaking world. (Formerly Intermediate Spanish.) Prerequisite(s): course 5 or 5M or Spanish Placement Examination score of 60. (General Education Code(s): CC, IH.) The Staff

94. Group Tutorial. F,W,S
Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper–Division Courses

114. Advanced Conversation and Composition. F
Advanced conversation and composition based on extensive readings in the humanities and social sciences. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. Prerequisite(s): Spanish 6, or Spanish 56, or Spanish for Spanish Speakers 63, or Spanish for Heritage Speakers 6, or Spanish Placement Examination score of 70. (General Education Code(s): TA.) The Staff

150. Topics in Hispanic Linguistics: Introduction to Hispanic Linguistics. S
Taught in Spanish. Students learn the major properties of the Spanish language from a linguistics perspective. Topics covered include: phonetics/phonology, morphology, and syntax. (Formerly Languages 150.) Prerequisite(s): Linguistics 111 or Linguistics 112 or Spanish 6 or Spanish for Heritage Speakers 6, or a score of 70 on the Spanish Placement Exam. E. Zyzik, M. Gonzalez Pagani

151. Topics in Hispanic Linguistics: Varieties of Spanish. F
Taught in Spanish. Explores the linguistic variety of the Spanish language in the Iberian Peninsula, the former Spanish colonies, and the Americas from a descriptive, synchronic perspective. Issues of languages in contact, variation in speech communities, and bilingualism are also introduced. (Formerly Languages 151.) Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Heritage Speakers 6 or Spanish for Spanish Speakers 63 or a score of 70 on the Spanish Placement Exam. M. Gonzalez Pagani

156. Topics in Hispanic Language and Culture.
An analytic study of 20th–century Hispanic language and culture as revealed in print and audio visual media. The Staff

156A. The Language of Latin America Cinema. W
Explores Latin American culture through its cinematic art. Students are exposed to and participate in discussion, analysis, and commentary on important social, historical, and political issues presented in the films. Provides a greater understanding of Latin America, and works toward advanced communicative proficiency and comprehension of linguistic variations in countries such as Cuba, Argentina, México, Bolivia, Chile, and others.

Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Spanish Speakers 63 or Spanish for Heritage Speakers 6 or Spanish Placement Examination score of 70. (General Education Code(s): CC, E.) C. Calierno

156E. Spanish Culture. *

A broad survey of Spanish cultural topics, including history, politics, religions, art forms, music, and films. It is based on extensive conversations, discussion, and composition. Particular emphasis is placed on key changes that have occurred during the 20th century in Spain. Classes conducted through commentary on texts read (or viewed), oral presentations, and debate. Recommended for students preparing to go to Spain with EAP. Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Spanish Speakers 63 or Spanish for Heritage Speakers 6 or Spanish Placement Examination score of 70. The Staff

156F. El Humor en Espanol. *

Topic-oriented language course on sociopolitical and historical issues as seen through humor in different genres and media. Topics include Mafalda and Condorito (comic strips), Rius (collage of comic strips, photographs and original documents), Continflas and Almodovar (cinema), El Teatro Campesino (theater), Ana L., Vega (literature), Les Luthiers (song and music). Course deals with written and oral discourse pertaining to the following Spanish language varieties: Rio de la Plata, Mexican, Caribbean, U.S., and Peninsular. Intensive writing and speaking in Spanish. Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Spanish Speakers 63 or Spanish for Heritage Speakers 6 or Spanish Placement Examination score of 70. (General Education Code(s): TA.) M. Gonzalez Pagani

156G. Spanish for the Professions. S

Taught in Spanish. Students learn vocabulary and expressions as well as pertinent cultural background to understand, speak, read, and write about business and professional situations in connection with the Latino experience. Legal, educational, medical, and business topics are covered. Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Spanish Speakers 63 or Spanish for Heritage Speakers 6 or Spanish Placement Examination score of 70. (General Education Code(s): ER.) B. Barcelo

156M. Mexico and the Southwest. F

An interdisciplinary survey of the cultural history of the Mexican people in both Mexico and the U.S. Southwest. Topics include literature, art, folklore, oral tradition, music, politics, as well as "everyday" cultural manifestations. Conducted in Spanish. May be counted toward fulfillment of upper-division major requirements for Latin American and Latino studies and language studies. (Formerly Spanish for Spanish Speakers 125.) Prerequisite(s): Spanish 6 or Spanish 56 or Spanish for Spanish Speakers 63 or Spanish for Heritage Speakers 6 or Spanish Placement Examination score of 70. (General Education Code(s): CC.) The Staff

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Lower-Division Courses

4. Spanish for Heritage Speakers. F

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on the United States, Mexico, and Spain. Students need to use the self-placement questionnaire posted on the Language Program web page. (Formerly course 61, Spanish for Spanish Speakers.) (General Education Code(s): CC, IH.) The Staff

5. Spanish for Heritage Speakers. W

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on Central America and the Caribbean. (Formerly course 62, Spanish for Spanish Speakers.) Prerequisite(s): SPSS 61 or SPHS 4 or by consent of instructor. (General Education Code(s): CC, IH.) The Staff

6. Spanish for Heritage Speakers. S

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on South America. (Formerly course 63, Spanish for Spanish Speakers.) Prerequisite(s): SPSS 62 or SPHS 5 or by consent of instructor. (General Education Code(s): CC, IH.) The Staff

Lower-Division Courses

10. Skills for College and Beyond (2 credits). S

Applications of practical skills for effective, meaningful study in the context of a full, busy life. Topics include learning styles, time management, test preparation, and life balance. Specific techniques for efficient reading comprehension, note-taking, memorization, and self-assessment are introduced. Enrollment restricted to college members and by permission of instructor. Enrollment limited to 15. C. Camblin

16. Stevenson Community Garden (2 credits). *

Hands-on course in ecological horticulture at the Stevenson garden. Students grow the Stevenson community through gardening and projects focused on building a healthy and regenerative local-foods culture. Enrollment by interview only. Enrollment restricted to Stevenson College members. Enrollment limited to 16. D. Shaw

18. Eighteenth Century Kabalistic Thought and Literature (2 credits). S

Emphasis on analyzing (translations of) original text to explore critical areas of kabalistic thought, including tzimtzum, the sefirot, theodicy, and hermeneutics. S. Chein

20. The Harder They Come—The Postcolonial Self in Jamaica (2 credits). *

Examines Jamaica's transition to independence: the history of colonialism, its legacy of violence, and how the subaltern incorporate and rework hegemonic tropes of the gunslinger, gangster, preacher, politician, and policeman in literature, music, and film. Enrollment restricted to Stevenson College members. Enrollment limited to 20. The Staff

21. Citizens and Nations: Self and Society in the 19th Century (2 credits). S

A reading seminar focusing on a set of key texts. Examines how the political and industrial revolutions of the 19th century fundamentally transformed the relationships between individuals and their respective societies. Enrollment restricted to Stevenson College members. Enrollment limited to 20. K. Silver

22. Self and Society in Classical Social Theory (2 credits). *

Reading seminar focusing on a set of key texts from classical social theory. Explores the transition from traditional to modern societies. Authors addressed may include Locke, Rousseau, de Tocqueville, Marx, Weber, and Durkheim. Enrollment restricted to Stevenson College members. Enrollment limited to 20. K. Silver

23. Monsters and the Monstrous in the Early British Novel (2 credits). S

Extends the Stevenson core course themes by exploring how monsters and the monstrous contribute to constructions of self and society. S. Sweat

24. Cultural Intelligence: Developing a Higher CQ (Cultural Intelligence) (2 credits). F
We begin by examining the three basic facets involved in developing one's cultural intelligence (CQ): cognitive, motivational, and behavioral. Topics include: complexities of intercultural communication; importance of cultural self–identity and filters; power and privilege; and their impact on one's perceptions. (Formerly Cultural Intelligence: Diversity Facilitator Team.) Enrollment limited to 18. D. Smith

24B. Developing Facilitation Skills for Cultural Intelligence (2 credits). W
Presents six dimensions of facilitation: goal development, cognitive aspects, confronting resistance, managing emotions, methods of learning, and creating a supportive and respectful climate. Students practice different styles of facilitation to learn which one(s) fit their personal styles and goal(s) for any given workshop. The importance of developing "cultural intelligence" is presented as well. Students must be available to facilitate diversity trainings. Enrollment by instructor consent. Enrollment restricted to sophomores, juniors, seniors, and graduate students. Enrollment limited to 20. The Staff

26. Navigating the Research University (2 credits). W
Explores critical engagement in education in the context of a research university. Introduces first–year issues and success strategies and ways to participate in the institution's academic life. Investigates strategies for clarifying education goals and devising a plan for success. Enrollment restricted to first–year students. A. Yang–Murray

28. Residential Life Leadership (2 credits). S
Examines the role and facilitates the development of Stevenson College Residential Advisers. Class themes include an exploration of leadership, resource management, and the process of community building within the college. Course evaluation based on paper writing, participation, engagement with course materials, and a small group final project that requires students to create a year–long program model designed to address an issue facing the Stevenson community. Prerequisite(s): Must have been hired as a Stevenson residential adviser or alternate for the following academic year. Enrollment limited to 30. May be repeated for credit. B. Redding, S. Prather

30. Thesis Writing and Editing (2 credits). W
Identifies and examines the assumptions, expectations, and formats of writing in students' fields, with the goal of beginning—or continuing—academic research. Prerequisite(s): satisfaction of the Composition requirement. Enrollment restricted to junior and senior college members and by permission of instructor. Enrollment limited to 25. A. Weaver

33. Self and Society Examined Through Ethical Dilemmas (2 credits). *
Examines ethical dilemmas in contemporary topics, such as the status of moral principles during warfare; animal rights and the ethics of eating meat; privacy in the age of the Internet; imprisonment and rehabilitation; legal and illegal immigration; same–sex marriage; and health care. The Staff

35. Everyday Ethics for College Life (2 credits). *
Exploration of and reflection on everyday values and virtues such as integrity, open–mindedness, honesty, and community. Objectives include learning how to think about moral dilemmas and how to begin drafting one's own code of ethics. Enrollment restricted to college members. Enrollment limited to 20. C. Camblin

36. Women in the Bible (2 credits). W
Explores and analyzes many of the biblical narratives pertaining to female characters in the Hebrew Bible. Students are required to read the original texts, pose questions, suggest answers, and explore possible meanings of the narrative. Enrollment limited to 10. The Staff

38. The Prophetic Tradition: The Work and Thought of Norman O. Brown (2 credits). S
Continued study of themes of Stevenson Core through the writings of Norman O. Brown. A former UCSC professor, Brown was a classicist and a reader of Marx, Freud, and Nietzsche.

[Nondiscrimination Statement](#)

Through Brown students deepen their understanding of Core ideas. Enrollment restricted to first-year and sophomore college members. Other students may enroll by permission of the instructor. S. Carter

40. The Self Under Moral Siege: Challenges for the Individual in 20th-Century Totalitarian Europe (2 credits). *

Examines how individuals and communities confronted dilemmas when laws, state ideology, and war challenged traditional morality. Themes include: ethics, responsibility, victimhood, moral compromise, retribution, and reconciliation. Enrollment priority given to Stevenson College students. Enrollment limited to 22. The Staff

41. Spirituality in a Modern World (2 credits). *

Investigates scientific and pragmatic perspectives on spirituality from William James to Fritjof Capra. Explores spirituality in Western and Eastern traditions from Martin Buber to Pema Chodron. Students analyze, support, and articulate their spiritual positions in a culminating paper. Enrollment restricted to Stevenson College members. Enrollment limited to 20. C. Camblin

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division students under faculty supervision (see course 192). The Staff

80A. Introduction to University Discourse: Self and Society. F

Explores rhetorical principles and conventions of university discourse providing intensive practice in analytical writing, critical reading, and speaking. Stevenson's core course considers the roots of modern society using foundational religious texts and major classical and modern philosophical works. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 25. (General Education Code(s): T5-Humanities and Arts or Social Sciences, C1.) The Staff

80B. Rhetoric and Inquiry: Self and Society. F

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Stevenson's core course investigates the roots of modern society, using foundational religious texts and classical and modern philosophical works. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. Enrollment limited to 25. (General Education Code(s): T5-Humanities and Arts or Social Sciences, C2.) The Staff

80F. Self and Society Through Film (2 credits). *

Seminar designed to expand upon the discussions begun in the Stevenson Core Course. Course uses documentary and feature films to investigate and discuss all sides of modern conflicts that bring class back to the Core Course theme. Prerequisite(s): completion of two-quarter core course sequence. Enrollment limited to 25. The Staff

80H. Rainbow Theater: An Introduction to Multicultural Theater. F

Introduction to Asian American, Chicano/Latino, and African American plays through reading of major authors, discussion of social and historical context of their work, and development of a production of a one-act play from each cultural group. In-depth examination of key historical context of these three cultural groups. Video presentations followed by class discussion. May be repeated for credit. (General Education Code(s): T4-Humanities and Arts, E.) D. Williams

80T. Self and Society for Transfer Students. *

Condensed version of Stevenson's core course for transfer students. Develops analytical writing, critical reading, and effective speaking by considering influential philosophical works while exploring cultural conflicts in modern society. Themes include imperialism, racism, and class conflict. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): T5-Humanities and Arts or Social Sciences, W, E.) The Staff

81A. Self and Society 2. W

Winter quarter of Stevenson's core course continues development of analytical writing, critical reading, and effective speaking in exploring conflicts inherent in modern society. Investigates themes of colonization, race, gender, class, and cultural conflict. Enrollment restricted to first-year and sophomore college members. Students cannot receive credit for this course and course 81B. Enrollment limited to 25. (General Education Code(s): TA, E.) The Staff

81B. Rhetoric and Inquiry: Self and Society 2. W

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Winter quarter of Stevenson's core course investigates themes of colonization, race, gender, class, and cultural conflict. Permission of instructor required; selection for this course based on application submitted. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year and sophomore college members. Students cannot receive credit for this course and course 81A. Enrollment limited to 25. (General Education Code(s): TA, C2, E.) The Staff

Upper-Division Courses

120. Self and Society: Teaching Practicum. W

Each student facilitates one of the discussion sections of Stevenson 81A or attends lectures, and meets with staff for practicum on the teaching process. Prerequisite(s): qualifications as determined by instructor at first class meeting. Enrollment limited to 5. The Staff

121. Advanced Research and Strategic Planning for Graduate School. W

Guided by a faculty mentor, students engage in an advanced research experience including developing a research proposal, conducting research, and writing and presenting a research paper. Students also prepare for graduate school by practicing the graduate school application process. Enrollment is restricted to students accepted into the Educational Opportunity Programs faculty mentor program. Enrollment also restricted to junior and senior majors in the Divisions of Arts, Humanities, and Social Sciences. Enrollment limited to 20. The Staff

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision (see course 42). Prerequisite(s): upper-division standing and a proposal supported by a faculty member willing to supervise. The Staff

193. Field Study. F,W,S

Provides for individual programs of study, sponsored by the college and performed off-campus. This course may be counted for up to three courses of credit in any quarter. Prerequisite(s): approval of student's adviser and the academic preceptor, and, in the case of full-time study, the board of studies supervising the major. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty instructor. Enrollment restricted to members of Stevenson College. Enrollment limited to 12. The Staff

194F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty instructor. Course designed for members of Stevenson College. Students submit petition to sponsoring agency. Enrollment limited to 10. May be repeated for credit. The Staff

198. Independent Field Study. F,W,S

Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Prerequisite(s): approval of the student's adviser, certification of adequate preparation, approval by the academic preceptor. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be take for credit in any one quarter. Students submit petition to sponsoring agency. Requires approval of the student's adviser and academic preceptor. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual projects carried out under the supervision of a Stevenson faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual projects carried out under the supervision of a Stevenson faculty member. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

* Not offered in 2012–13

Technology and Information Management

2012–13 General Catalog

Baskin School of Engineering

(831) 459–2158

<http://www.soe.ucsc.edu>[Faculty](#) | [Course Descriptions](#)

Program Description

Technology and Information Management (TIM) is a multi-disciplinary program that focuses on the integration of engineering, computer science, information technology, and business management for two purposes: the technology of management, which includes the design of information technology to solve business problems, and the management of technology, which includes the management of new-product development and entrepreneurship. The program offers a bachelor of science (B.S.) degree in technology and information management (TIM) as well as a minor in technology and information management (TIM). See description below concerning advanced degree programs that became available starting fall 2009.

TIM is a rigorous, challenging major for those students wanting to pursue careers in the management of information and technology. TIM students will receive a thorough grounding in the fundamental principles and practices of technology (in particular, computer science and computer engineering) and management, and the scientific, mathematics, and economics principles upon which they are built. In particular, they will become proficient in the following areas: strategy, planning, innovation, entrepreneurship, information technology, software design, product development, and supply-chain management.

The essence of the technology and information management major at UCSC is the integration of fundamental intellectual content from the disciplines of computer science, computer engineering, business management economics, and finance. TIM students learn how to apply the fundamentals of these diverse disciplines to solving problems that require the integration of management and technology, e.g., developing information technology systems to manage all activities and operations in a firm, e-commerce, managing and commercializing a new technology, and starting a new high-technology company.

To graduate with a B.S. in technology and information management, students normally complete 23 required courses (with four laboratories, totaling 120 quarter credits) plus four elective courses (20 quarter credits) for the technology and information management major program. To plan for completion of these course requirements within the normative time, students should consult with an adviser as early as possible. Honors students are likely to find the rigorous management and leadership elements of the new program of

significant interest. Industrial interactions and projects are key features of this major.

Technology and Information Management Policies

Admissions Policy

Lower-division students will be accepted into the technology and information management (TIM)major on completion of the School of Engineering (SOE) major declaration process during any of their first three quarters at UCSC. See <http://ua.soe.ucsc.edu/declare-your-major> for the complete process.

After the first three quarters, petitions to declare the major are reviewed individually. Students must have completed the foundation courses required for the major, and are expected to have a grade point average (GPA) among School of Engineering and Division of Physical and Biological Science courses (the SOE GPA) of 2.5. Progress in the major and ability to complete the major within campus limits will also be considered.

Foundation Courses: Computer Science 12A, or 5J and 11; Computer Engineering 16; and Mathematics 19A–B, or Mathematics 20A–B; Technology and Information Management 50 (or Economics 1 and 2).

Letter Grade Policy

Technology and Information Management requires letter grading for all courses applied toward the B.S. in technology and information management, with the exception of two lower-division courses which students may elect to take Pass/No Pass (not to include course 50 or 58). This policy includes courses required for the technology and information management major but sponsored by other departments.

Transfer Students

Articulation agreements with other California institutions are in place for some courses required for the technology and information management major; it is important for students to inquire whether specific courses meet the requirements of this major. Articulation information is available on ASSIST at www.assist.org. Courses taken at other institutions which emphasize applications of programming languages often do not count toward the technology and information management major at UCSC. Please refer to the School of Engineering section of the catalog for the policy regarding transfer students.

School of Engineering Policies

Please refer to the School of Engineering section of the catalog for additional policies that apply to all School of Engineering programs. These policies include admission to the major, limits on the number of times courses can be attempted, and the need for UCSC students to obtain pre-approval before taking courses elsewhere.

Preparation for the Major

The technology and information management major is intended for students with an interest in both technology and business. It is recommended that students intending to declare this major have completed four years of mathematics (through advanced algebra and trigonometry) and three years of science in high school. Completion of business-oriented computer literacy and basic programming courses is of benefit to students entering this major. Completion of any economics and/or business-related courses in high school is also beneficial, but the faculty realizes that these courses may not be available at many high schools. Completion of comparable college courses at other institutions serves to strengthen the preparation of a student for the technology and information management major.

Requirements of the Technology and Information Management Major

In addition to completing UCSC general education requirements, students must complete 23 required courses (with four laboratories, totaling 120 quarter credits) plus four elective

[Nondiscrimination Statement](#)

courses (20 quarter credits) for the technology and information management major program. To plan for completion of these course requirements within the normative time, students should consult with a School of Engineering adviser as early as possible. These 27 courses include the following:

Required Courses (23 courses plus four laboratories)

Applied Mathematics and Statistics (one 5–credit course)

Applied Mathematics and Statistics 5, Statistics

Mathematics (five 5–credit courses)

19A–B, Calculus for Science, Engineering, and Mathematics; and

22, Introduction to Calculus of Several Variables; and

Applied Mathematics and Statistics 10A and 20A, Basic Mathematical Methods for Engineers I and II

(3 credits each); or Applied Mathematics and Statistics 10 and 20, Mathematical Methods for Engineers I and II; or Mathematics 21, Linear Algebra and Mathematics 24, Ordinary Differential Equations

Economics (five 5–credit courses)

1 Introductory Microeconomics: Resource Allocation and Market Structure

2 Introductory Macroeconomics: Aggregate Economic Activity

10A, Economics of Accounting

100A, Intermediate Microeconomics; or

100M, Intermediate Microeconomics Math Intensive

113, Introduction to Econometrics

Computer Engineering (three 5–credit courses and two 2–credit laboratories)

12/L, Computer Systems and Assembly Language/Laboratory

16, Applied Discrete Mathematics

150/L, Introduction to Computer Networks/Laboratory

Computer Science (three 5–credit courses and two 2–credit laboratories)

12A/L, Introduction to Programming(Accelerated)/Laboratory; or 5J, Introduction to Programming in Java and 11, Intermediate Programming

12B/M, Introduction to Data Structures/Laboratory

182, Introduction to Database Management Systems

Technology and Information Management (five 5–credit courses and one 2–credit seminar)

50, Business Information Systems

58, Systems Analysis and Design

101, Management of Technology Seminar

105, Management of Technology I

125, Management of Technology II

158, Business Strategy and Information Systems

Elective Courses (four courses)

Two 5–credit School of Engineering courses

- Students select two upper-division School of Engineering electives on the basis of their particular interests. These electives may be any 5-credit upper-division or graduate School of Engineering courses, with the following limitations:
 1. either Computer Engineering 153 or Electrical Engineering 153, but not both;
 2. either Applied Mathematics and Statistics 131 or Computer Engineering 107, but not both;
 3. at most one independent or field-study course (193, 195, 198, 199) with prior approval from the department to be used as an elective.
- One 5-credit upper-division economics course
- One 5-credit, upper-division School of Engineering or economics course (the limitations on School of Engineering electives given above apply)

Technology and Information Management Major Planners

The following are three sample academic plans for students to complete during their first two years as preparation for the technology and information management major. Plan One A is recommended for students who are more proficient in mathematics and programming and Plan One B is recommended for students who need more time to develop proficiency in mathematics and programming. Plan Two is for students who are considering the major.

Plan One A

Year	Fall	Winter	Spring
1st (frsh)	ECON 10A	ECON 1	ECON 2
	MATH 19A	MATH 19B	CMPE 16
	college core		
2nd (soph)	CMPS 10	CMPS 12A/L	CMPS 12B/M
	TIM 50	TIM 58	AMS 10A
	ECON 100A		

Plan One B

Year	Fall	Winter	Spring
1st (frsh)	ECON 1	ECON 2	TIM 50
	MATH 3	MATH 19A	MATH 19B
	college core		
2nd (soph)	CMPS 10	CMPS 5J	CMPS 11
	(recommended)		
	ECON 10A	TIM 58	AMS 10A
	CMPE 16		

Plan Two

Year	Fall	Winter	Spring
------	------	--------	--------

1st (frsh)	ECON 1	ECON 2	TIM 50
2nd (soph)	CMPS 10	CMPS 5J	CMPS 11
	MATH 3	MATH 19A	MATH 19B
	ECON 10A		

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in technology and information management is satisfied by completing course 158.

Comprehensive Requirement

Students complete two project-intensive courses, Technology and Information Management 158 and Technology and Information Management 105, which constitute the comprehensive requirement for the technology and information management major, based on the dual aspects (technology of management and management of technology) of the program. Course 158 deals with the technology of management, and course 105 deals with the management of technology. Both courses involve a substantial amount of critical thinking and writing within the context of comprehensive projects.

Technology and Information Management 158, Business Strategy and Information Systems, requires that students understand and use a structured methodology to evaluate the competitive use of information systems within an enterprise. This is accomplished by a team project as well as by an individual project that involves researching and writing a comprehensive analytical term paper using a methodology taught as part of this course.

Technology and Information Management 105, Management of Technology I, requires that students understand and apply structured methodologies for the development, management, and commercialization of technologies and products. Students will work in teams on a comprehensive term project in the development, commercialization, and management of technologies such as computers, networks, semiconductors, mechatronics, and biotechnology.

Honors

The TIM program awards honors to students whose academic performance is excellent. Students with a GPA between 3.5 and 3.75 will be awarded honors, and students with GPAs greater than 3.75 will be awarded high honors.

Minor in Technology and Information Management (TIM)

Purpose

There is a growing need in today's increasingly complex socio-technological world for the fusion of information systems, technology, and business management for two important purposes: the use of information systems to solve business problems, and the management of technology, which includes new product development and enterprise management. The technology and information management (TIM) program therefore offers a minor in technology and information management (TIM) to provide undergraduates in the School of Engineering as well in other programs and divisions in the university, such as economics and business management economics, the physical and biological sciences, and arts, the opportunity to expand the breadth of their knowledge and training to include the management of information systems and the management of technology.

Rationale for the Courses

Courses for the technology and information management minor will include a combination of courses from the TIM program, computer engineering, computer science, and economics as well as the chains of prerequisites behind these courses. The TIM program courses for the technology and information management minor will include a mix of information systems and management of technology courses, providing students with a strong foundation in both the management of information systems and the management of technology.

Course Requirements

Requirements for the minor in technology and information management are the following:

Lower-Division Requirements

MATHEMATICS (2 COURSES)

Mathematics 19A, Calculus (or Applied Mathematics and Statistics 11A/Economics 11A, Mathematical Methods for Economists, or Mathematics 11A, Calculus, or Mathematics 20A, Honors Calculus)

Mathematics 19B, Calculus (or Applied Mathematics and Statistics 11B/Economics 11B, Mathematical Methods for Economists, or Mathematics 11B, Calculus, or Mathematics 20B, Honors Calculus)

COMPUTER SCIENCE (1 COURSE)

12A/L, Introduction to Programming (Accelerated)/Laboratory; or Computer Science 5J, Introduction to Programming in Java; or Computer Science 5C, Introduction to Programming in C/C++

TECHNOLOGY AND INFORMATION MANAGEMENT (2 COURSES)

Technology and Information Management 50, Business Information Systems; and

One of the following courses:

Technology and Information Management 58, Systems Analysis and Design;
or

Technology and Information Management 80C, Starting a New Technology Company

Upper-Division Requirements

MATHEMATICS (1 COURSE)

One of the following courses:

Economics 113, Introduction to Econometrics; or

Computer Engineering 107, Mathematical Methods of Systems Analysis:
Stochastic; or

Applied Mathematics and Statistics 131, Introduction to Probability Theory

Upper-Division Electives (4 courses)

Four upper -division courses selected from the following:

Technology and Information Management 105, Management of Technology I

Technology and Information Management 125, Management of Technology II

Technology and Information Management 158, Business Strategy and Information Systems

Computer Engineering 150/L, Introduction to Computer

Networks/Laboratory

Computer Science 180, Database Systems I (or Computer Science 182, Introduction to Database Management Systems)

Economics 100A, Intermediate Microeconomics (or 100M, Intermediate Microeconomics, mathematics intensive)

Economics 100B, Intermediate Macroeconomics (or 100N, Intermediate Macroeconomics, mathematics intensive)

With pre-approval from the technology and information management undergraduate director, up to two graduate technology and information management courses may be used to satisfy upper-division elective requirements.

Graduate Programs

Technology and Information Management Ph.D. and Master's Degrees

Technology and information management (TIM) is a new and distinct discipline within engineering, combining technology management, systems engineering, and information technology. TIM's research and academic programs, combining information technology with both knowledge management and systems management, address problems facing firms today as they deal with more complex decisions in a global environment, facing new business models (e.g., "services") and business practices. TIM places special emphasis on research arising from challenges faced in creation and management of knowledge-based services and enterprises. TIM themes include:

Management and optimization of enterprise systems, which is the integration of business, technology, and management perspectives to enable an entity to achieve enhanced growth and profitability through use of analytical methods including stochastic models, optimization, game theory and knowledge management.

New product, technology, and services management, which is the design and development of products and services, the design and risk management of product portfolios, and pricing.

Financial engineering, which addresses the management of rise, reward, and allocation of resources in technology development and deployment.

Information retrieval and knowledge management, which includes semantic mining and machine learning, linking business to knowledge management.

TIM offers a master of science (M.S.) degree as a terminal degree for engineers who wish to prepare for careers in management in high-tech enterprises, providing the appropriate breadth and depth of courses for preparation of theses engineering managers.

The TIM doctor of philosophy (Ph.D.) degree focuses on research, with emphasis on analytic methods for managing high-tech enterprises, including product, services, and business-process innovation and development; financial engineering for technology and enterprise management; entrepreneurship; operations and supply-chain management; costing and strategy; marketing engineering; data mining; and the applications of information technology to knowledge-management, high-tech enterprises.

Base Requirement

Most entering students are expected to come from undergraduate engineering programs. Students with quantitative undergraduate preparation in the sciences, economics, or mathematics would also be prepared if they had significant industry experience in a technology field or if they are prepared to take extra courses and/or an internship in

industry to obtain this background. The TIM M.S. attracts students now employed in industry and also recent B.S. graduates who have not yet entered the workforce. For this latter group, industrial experience will be encouraged through internships with local companies. TIM M.S. students may take up to two upper-division, undergraduate, prerequisite courses and, with adviser approval, may count these as credit toward the M.S. degree. (These courses will not count as credit toward the Ph.D. degree.)

Mathematics

Probability and statistics (AMS 131)—Focus on probability models, random variables, maximum likelihood and Bayesian estimation

Linear algebra (AMS 10 or MATH 21)

Differential equations (AMS 10 or MATH 24)

Computer Science

Abstract Data Types (CMPS 101)—Focus on abstract data types and common algorithms

Programming project (e.g., CMPS 104A, CMPS 115, CMPS 111)—Any upper-division, computer science course that involves a large programming project

Database systems (CMPS 180, 181)

Computer Engineering

Probability and Statistics for Engineers (CMPE 107)

Computer networks (CMPE 150, 151)

Computer Architecture (CMPE 110)

Applied Graph Theory and Algorithms (CMPE 177)

Economics

Microeconomics (ECON 100A)

Macroeconomics (ECON 100 B)

Managerial Economics (ECON 101)—Includes pricing schemes, non-price competition, and game theory

Field examinations and/or other pre-qualifying examinations

The graduate record examination (GRE) General Test is required for admission and a GRE subject advanced test—preferably in computer science, engineering, physics, or mathematics—is highly recommended. Chemistry and biology students with adequate training in mathematics and physics may also be considered. Student GPA of 3.5 or higher is recommended for admission into the program.

Relationship of Master's and Doctor's programs

The M.S. and Ph.D. programs have the same admission requirements. As in other SOE graduate programs, students admitted to the M.S. program may be subsequently admitted to the Ph.D. program by departmental approval. Ph.D. students may receive the M.S. degree upon fulfillment of the M.S. degree requirements.

Course requirements

Masters students must complete a minimum of 49 credits, comprising the following:

Four TIM core courses (20 credits minimum);

Two TIM seminars (4 credits minimum);

Four elective graduate courses offered by TIM, or relevant graduate courses

from other UCSC departments as approved by the graduate adviser and the TIM graduate director. Up to two appropriate upper-division undergraduate courses may be used as electives, to strengthen a student's preparation for graduate studies, with approval of the adviser. (20 credits minimum); Thesis research or independent study (5 credits minimum).

Up to 15 credits of appropriate UCSC Extension XSC or concurrent credit may be used to satisfy the degree credit requirements (core and elective), as approved by the graduate adviser and TIM graduate director.

Ph.D. students must complete a minimum of 62 credits:

Four TIM core courses (20 credits);

Two TIM seminars (4 credits minimum);

Two elective graduate courses (10 credits) offered by TIM;

Three additional graduate electives (15 credits) chosen with approval of the adviser and TIM graduate director. Students may substitute other appropriate courses for the TIM core courses or electives with the approval of their adviser and TIM graduate director;

A minimum of 10 credits of thesis research or independent study;

Applied Mathematics and Statistics 200, Research and Teaching in AMS (3 credits), or Computer Science 200, Research and Teaching in Computer Science and Engineering (3 credits).

Master's Requirements

Core Courses (4 required)

- TIM 205, Management of Technology I (5 credits)
- TIM 206, Optimization Theory and Applications (5 credits) (Possible substitutes include: ISM 207, CMPE 230, ECON 216, 217, AMS 205)
- TIM 225, Management of Technology II (5 credits), or ISM 270, Service Engineering and Management (5 credits) or Applied Mathematics and Statistics 215, Stochastic Modeling in Biology
- TIM 240, Information Technology for Decision Support: An Introduction (5 credits)

Seminars (2 required)

- Two ISM graduate seminars

Other Courses (electives)

- Ten (10) or more credits of graduate courses in related disciplines outside the Baskin School of Engineering (requires adviser and graduate director approval). A maximum of two SOE upper-division undergraduate courses may be counted as electives when necessary to strengthen a student's preparation for graduate studies (requires adviser approval).
- All remaining credits must be graduate elective courses approved by the adviser and the TIM graduate director. The program offers a wide variety of electives (see Table 8, Section 5).
- With appropriate preparation and/or student interests, proposals will be accepted to allow substitution of another graduate course for one of the core courses. This proposal will require approval of the faculty adviser and the TIM graduate director.

- On-campus students serving as teaching assistants or who plan to pursue a Ph.D. must take Applied Mathematics and Statistics 200, Research and Teaching in AMS (3 credits), or Computer Science 200, Research and Teaching in Computer Science and Engineering (3 credits) before or during their first teaching-assistant (TA) assignment.

Optional Elective Concentrations: The range of elective options allows for the diversity of M.S. student interests. It also allows TIM M.S. students to specialize. For example, a student specializing in the following areas of management of technology and technology of management could take the corresponding elective classes:

Management of technology track—TIM 208, TIM 220, TIM 225, and TIM 230;

Technology of management track—TIM 209, TIM 245, TIM 260, CMPE 276, and CMPS 277.

Ph.D. Requirements

A minimum of 45 credits of approved graduate courses, of which 30 credits must be from courses offered by TIM (unless exceptions are approved by the faculty adviser and TIM graduate director);

Two TIM seminars (4 credits minimum);

Applied Mathematics and Statistics 200, Research and Teaching in AMS (3 credits), or Computer Science 200, Research and Teaching in Computer Science and Engineering (3 credits);

A minimum of 10 credits of dissertation research or independent study credits; and

Ph.D. dissertation.

The research areas in TIM are varied, and each will require a different sequence of classes to develop appropriate depth in analytical methods and technology. The selection of graduate courses will be in consultation with the dissertation supervisor.

Although there is no teaching requirement, students will be encouraged to gain teaching experience by becoming teaching assistants (TAs).

Where appropriate, research internships with companies, government laboratories, or elsewhere are recognized (and may be required) as an integral part of the research leading to the dissertation.

Faculty and Professional Interests

Professor

Ramakrishna Akella

Data analytics: machine learning; informational retrieval (search); data; text; image and video mining; social networks and recommender systems; business analytics: business and management of technology; intelligent services and knowledge management, IT; product design; delivery and portfolios; financial engineering and management; process learning; supply chain management; automation

Brent Haddad

Fresh-water economics, policy, and communications; economic institutions and the environment; climate-change mitigation and adaptation; institutional and ecological economics

Associate Professor

John Musacchio

Control, analysis, and pricing of communications networks; applications of game theory in networking; wireless ad-hoc networks; and management of technology

Yi Zhang

Large-scale information retrieval, recommendation systems, internet advertising, data mining, natural language processing, applied machine learning

Kevin Ross

Service engineering and management; resource allocation; operations research; pricing; scheduling; queueing theory; networks

Lecturer

Subhas Desa

Product development, supply chain management, management of technology, system dynamics and control

Archive of General Catalogs

Nondiscrimination Statement

Econometrics, applied econometrics, exchange rate dynamics, financial price behavior, aggregate output dynamics

Luca De Alfaro (Computer Science)
Reputation systems, crowdsourcing, game theory; formal methods

William B. Dunbar (Computer Engineering)
Theory and application of feedback control, single-molecule biophysics, nanopore sensors, dynamics and control of biomolecules

Daniel Friedman (Economics)
Microeconomic theory, experimental economics, evolution and learning, behavioral economics, financial markets

Michael Isaacson (Electrical Engineering)
Nano- and microfabrication technology and applications to biomedical and diagnostic devices, nanocharacterization of materials with emphasis on the development of microscopy tools, novel modes of imaging, electron and light optics, renewable energy systems, STEM education

Robert A. Levinson (Computer Science)
Artificial intelligence, machine learning, heuristic search, associative pattern retrieval, hierarchical reinforcement learning, semantic networks

Darrell Long (Computer Science)
Storage systems, distributed computing systems, operating systems, mobile computing, performance evaluation, fault tolerance, computer security, multimedia, and video-on-demand systems

Patrick Mantey
Associate Dean, Industry Programs
Jack Baskin Endowed Professor of Computer Engineering
CITRIS Campus Director
Director of ITI
Multimedia systems, digital signal processing, sensor systems and networks, real-time monitoring and control, image systems, image processing, visualization, geographic information systems, decision support systems

Charles E. McDowell (Computer Science)
Programming languages, parallel computing, and computer science education

Alex Pang (Computer Science)
Uncertainty visualization, tensor visualization, scientific visualization, comparative visualization, collaboration software, virtual reality interfaces

Ira Pohl (Computer Science)
Artificial intelligence, programming languages, heuristic methods, educational and social issues, combinatorial algorithms

Nirvikar Singh (Economics)
Industrial organization, political economy, economic development, technology and innovation, South Asian immigrants in the U.S.

Linda Werner
Software engineering, computer science education testing, social issues

James Whitehead, Jr. (Computer Science)
Software engineering, software evolution, software bug prediction, level design in computer games, procedural content generation

Lower-Division Courses

50. Business Information Systems. F,W,S

Addresses the use of information systems (IS) within a business enterprise. Subjects include computer hardware and software concepts, system design and implementation, telecommunications, data management, transaction-based systems, management information systems, and the use of IS to compete. Intended for technology and information management and business management economics majors. (Formerly Information Systems Management 50.) The Staff, J. Musacchio, K. Ross, R. Akella

58. Systems Analysis and Design. S

Students learn how information technology is used to deal with business requirements and/or solve business problems. Provides an understanding of structured computer systems analysis and design methodologies and techniques and their application to business information systems. Intended for technology and information management and business management economics majors. (Formerly Information Systems Management 58.) Prerequisite(s): course 50. Enrollment limited to 40. Y. Zhang

80C. Starting a New Technology Company. S

Focuses on the creation and management of technology start-ups and small companies, using case studies and team projects as the basis for learning and applying the course materials. (Formerly Information Systems Management 80C.) (General Education Code(s): T7–Natural Sciences or Social Sciences.) S. Desa, R. Akella

94. Group Tutorial. F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. (Formerly Information Systems Management 94.) May be repeated for credit. The Staff

94F. Group Tutorial (2 credits). F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. (Formerly Information Systems Management 94F.) May be repeated for credit. The Staff

99F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. (Formerly Information Systems Management 99F.) May be repeated for credit. The Staff

Upper–Division Courses

101. Management of Technology Seminar (2 credits). F,W,S
Uses weekly talks by leading industry practitioners and university researchers to provide in–depth exposure to the management of technology. Topics covered include product development, operations, strategy, finance, and marketing for technologies such as software and information systems. (Formerly Information Systems Management 101.) May be repeated for credit. S. Desa

105. Management of Technology I. F
An in–depth examination of technological, strategic, marketing, and financial methods and analytical tools for the management of technology to enable cost–effective and rapid development of profitable and high quality technologies. Includes case studies and a comprehensive project. Students who receive credit for course 205 cannot also receive credit for this course. (Formerly Information Systems Management 105.) Prerequisite(s): Mathematics 19B or 11B or Applied Mathematics and Statistics 11B or Economics 11B. S. Desa

125. Management of Technology II. W
High–technology enterprises must understand and operate effectively within their technology–business value chains in order to maximize profitability. This course develops and applies methods and tools for the design, optimization, selection, and management of these value chain networks. Students who receive credit for course 225 cannot also receive credit for this course. (Formerly Information Systems Management 125.) Prerequisite(s): course 105. S. Desa, R. Akella

130. Financial Engineering and Management in High Technology Firms.
Addresses methods and tools for financing technology development and projects. Includes approaches for coordinating finance and accounting with strategy and operations of firms; discounted cash–flow analysis; activity–based costing; financial planning; and elements of financial account and investment science. Taught in conjunction with course 230. (Formerly Information Systems Management 130.) Prerequisite(s): Economics 113 or Applied Mathematics and Statistics 131 or Computer Engineering 107 or by instructor permission. Enrollment limited to 20. R. Akella

158. Business Strategy and Information Systems. S
Analysis of effective use of information systems within a business enterprise, with emphasis on gaining a competitive advantage. Integration of information systems with business strategy, financial justification, personnel, and organizational considerations are highlighted. Intended for technology and information management majors or senior engineering majors who have a business interest. (Formerly Information Systems Management 158.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50 or permission of instructor. (General Education Code(s): W.) K. Ross

193. Field Study. F,W,S
Provides individual programs of study with specific academic objectives carried out under direction of faculty member of Information Systems Management and a willing sponsor at field site. Uses resources not normally available on campus. Credit based on presentation of evidence of achieving objectives by submitting written and oral presentation. Students submit petition to sponsoring agency. (Formerly Information Systems Management 193.) May be repeated for credit. The Staff

193F. Field Study (2 credits). F,W,S
Provides individual programs of study with specific academic objectives carried out under direction of faculty member of Information Systems Management and a willing sponsor at

field site. Uses resources not normally available on campus. Credit based on presentation of evidence of achieving objectives by submitting written and oral presentation. Cannot normally be repeated for credit. Students submit petition to sponsoring agency. (Formerly Information Systems Management 193F.) May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty member. Students submit petition to sponsoring agency. (Formerly Information Systems Management 194.) May be repeated for credit. The Staff

194F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty member. Students submit petition to sponsoring agency. (Formerly Information Systems Management 194F.) May be repeated for credit. The Staff

195. Senior Thesis Research. F,W,S

Intended for majors. Students submit petition to sponsoring agency. (Formerly Information Systems Management 195.) The Staff

195F. Senior Thesis Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. (Formerly Information Systems Management 195F.) The Staff

198. Individual Study or Research. F,W,S

Intended for majors. Students submit petition to sponsoring agency. (Formerly Information Systems Management 198.) May be repeated for credit. The Staff

198F. Individual Study or Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. (Formerly Information Systems Management 198F.) May be repeated for credit. The Staff

199. Individual Study or Research. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. Enrollment restricted to senior information systems management majors. (Formerly Information Systems Management 199.) May be repeated for credit. The Staff

Graduate Courses

204. Introduction to Optimization in Business. W

Covers optimization with emphasis on problems arising in management. Students become proficient at mathematical modeling of business decisions and familiar with a range of techniques and tools used to solve optimization problems. (Formerly Information Systems Management 204.) Enrollment restricted to graduate students. K. Ross

205. Management of Technology I. F

Addresses technological, strategic, marketing, financial methods, and analytical tools for management of technology in an integrated manner that enables the cost-effective and rapid development of profitable and high quality technologies. Includes case studies and a comprehensive project. Students cannot receive credit for this course and course 105. (Formerly Information Systems Management 205.) Enrollment restricted to juniors, seniors, and graduate students. S. Desa, R. Akella

206. Optimization Theory and Applications. S

A first graduate course in optimization with an emphasis on problems arising in management and engineering applications. Objectives are to become experts in problem formulation, comfortable with software for solving these problems, and familiar with analytical methods behind these solver technologies. (Formerly Information Systems Management 206.) Prerequisite(s): calculus and linear algebra. Enrollment restricted to graduate students. K. Ross, S. Desa

207. Random Process Models in Engineering. S

A first graduate course in stochastic process modeling and analysis with an emphasis on

applications in technology management, information systems design, and engineering. (Formerly Information Systems Management 207.) Enrollment restricted to graduate students. Prerequisite: Computer Engineering 107 or other undergraduate probability course recommended. J. Musacchio

209. Data Mining and Business Analytics in Knowledge Services. W
Provides students with systematic methodology and analytical tools in data and text mining and business analytics. Also provides an integrated perspective and examines use of these methods in the field of knowledge services, such as online marketing, sponsored search, health care, financial services, recommender systems, etc. Includes training in the basic elements of stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming, statistics, constrained optimization, and machine learning with exposure to software tools. These methods enable firms to achieve rapid, effective, and profitable optimization of knowledge-services management. (Formerly Knowledge Services and Data Analytics.) (Formerly Information Systems Management 209.) Enrollment restricted to graduate students. Students are expected to have undergraduate preparation in probability and statistics. Undergraduates may enroll with instructor approval. R. Akella

210. Marketing Analytics and Engineering.
Provides students with a systematic methodology and the corresponding set of methods and analytical tools to address the analytic approaches to marketing in a real-world context. Trains students in the basic elements of statistics decision trees, stochastic optimization, and other algorithmic approaches. Students should have a solid background in the following: probability equivalent to statistics, stochastic methods, calculus, linear algebra, stochastic processes and optimization, and/or mathematical maturity. Recommended courses: course 207, course 250, Applied Mathematics and Statistics 203, Applied Mathematics and Statistics 205, Computer Engineering 230. Enrollment restricted to graduate students. Enrollment by permission of instructor. (Formerly Information Systems Management 210.) R. Akella

211. E-Business Technology and Strategy.
Surveys structure of modern information technology, the relation of that structure to structure of the industry that creates it, and the economic forces that drive the players in the industry. Building on these technological and economic concepts, studies how firms can craft a technology and business strategy to create and capture value in the information technology product and/or services sectors. (Formerly Information Systems Management 211.) Enrollment restricted to graduate students. J. Musacchio

215. Organizations and Leadership.
Addresses organizational and managerial aspects of high-tech enterprises, providing an understanding of various corporate functions. Considers issues of human resources: motivation and rewards, group dynamics, communication, ethics, and leadership. Includes perspectives from behavioral theories and corporate practice/culture. Enrollment restricted to graduate students. P. Mantey

225. Management of Technology II. W
High technology enterprises must understand and operate effectively within their technology-business value chains in order to maximize profitability. Course develops and applies methods and tools for the design, optimization, selection, and management of these value chain networks. Students cannot receive credit for this course and course 125. (Formerly Information Systems Management 225.) Prerequisite(s): course 205 or consent of instructor. Enrollment restricted to juniors, seniors, and graduate students. S. Desa, R. Akella

230. Financial Engineering and Management in High Technology Firms. S
Course provides students with a systematic methodology, and the corresponding set of methods and analytical tools, to address the field of financial engineering and its use in high-tech enterprises in an integrated manner. Covers basic concepts of stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming; decision models and analysis; and binomial trees; and their application in financial engineering in the context of high-tech enterprises. (Formerly Information Systems

Management 230.) Prerequisite(s): Computer Engineering 107 or Economics 113 or Applied Mathematics and Statistics 131, or instructor approval. Enrollment restricted to graduate students. R. Akella

240. Information Technology for Decision Support: An Introduction.

Introduction to the information technologies useful to IT management. Reviews/surveys four major topics: 1) information systems: from computer technology—systems architecture (hardware and software), multiprocessors and cluster—to client-server, networking and distributed computing, data storage and data servers, file management, database systems, input/output technology, graphics and multimedia; 2) IT as a "service": commercial and open-course tools for information-system development and knowledge management; 3) managing, searching, and mining of structured and unstructured data; 4) decision-support systems that integrate knowledge with data mining and text mining tools to support decision-making in product development, supply-chain management, marketing, sales and logistics. (Formerly Information Systems Management 240.) Enrollment restricted to graduate students. The Staff, Y. Zhang, P. Mantey

245. Data Mining. S

Covers the principles, algorithms, and applications of data mining, including mining sequential data, structured data, stream data, text data, spatiotemporal data, biomedical data, and other forms of complex data. (Formerly Information Systems Management 245.) Enrollment restricted to graduate students. R. Akella, Y. Zhang

250. Stochastic Optimization in Business Intelligence: Digital Advertising and Online Marketing. W

Trains students in stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming, to achieve business intelligence (BI) optimization. Special emphasis on digital advertising, and online and computational marketing. Students should have solid background in: probability equivalent to statistics, stochastic methods, calculus, linear algebra, mathematical maturity, stochastic processes, and optimization. First of a sequence of courses in information systems and technology management (ISTM). Provides students with systematic methodology and corresponding set of methods and analytical tools to address the field of ISTM in an integrated manner. (Formerly Stochastic Optimization in Information Systems and Technology.) (Formerly Information Systems Management 250.) Enrollment restricted to graduate students; undergraduates who have completed Computer Engineering (CMPE) 107 or Applied Mathematics & Statistics (AMS) 131 may enroll by permission of instructor. AMS 205A, CMPE 230 recommended. R. Akella

251. Large-Scale Web Analytics and Machine Learning. W

Provides a systematic methodology and corresponding set of methods and analytical tools in stochastic models; reinforcement learning; stochastic (neuro-)dynamic programming; Bayesian graphical models; inference; and social networks used for web analytics and machine learning to achieve business intelligence (BI) and support research and applications in computer science, computer engineering, and electrical engineering, applied mathematics and statistics, business, management, and economics. Includes exposure to Hadoop for large-scale computation. Students should have solid background in probability equivalent to statistics, stochastic, methods, calculus, (and preferably) stochastic processes and optimization, or mathematical maturity and exposure to business intelligence and algorithms. (Formerly Information Systems and Technology Management 2.) (Formerly Information Systems Management 251.) Prerequisite(s): Computer Engineering 107 or Applied Mathematics and Statistics 131 or permission of instructor. Enrollment restricted to graduate students. Course 230, 250, and Applied Mathematics and Statistics 205A or 205B recommended. R. Akella

260. Information Retrieval.

Course covers major topics of information retrieval, including statistical characteristics of text, several important retrieval models, text clustering, text classification, text filtering, web analysis, information extraction, peer to peer research, distributed search, personalized search, and other related topics. (Formerly Information Systems Management 260.) Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. Y. Zhang

270. Service Engineering and Management.

Introduction to service engineering and management, from the role of services in the global economy to analytical models in service operations management. This field is developing rapidly; the material covers the fundamental principles of services as well as recent research. Topics include designing efficient service networks, forecasting, resource allocation, and globalization. (Formerly Information Systems Management 270.) Enrollment restricted to graduate students. K. Ross, The Staff

280A. Graduate Research Seminar (2 credits).

Weekly seminar series in topics of current research in information systems and technology management. Enrollment by permission of instructor. (Formerly Information Systems Management 280A.) Enrollment limited to 30. May be repeated for credit. The Staff

280I. Seminar on Information Retrieval and Knowledge Management (2 credits).

Seminar series discussing advanced topics in information retrieval and knowledge management. Current research and literature are presented during each meeting. (Formerly Information Systems Management 280I.) Enrollment restricted to graduate students. Enrollment limited to 20. May be repeated for credit. Y. Zhang

280M. Sales and Marketing for Technologists and Engineers (2 credits). S

Perspective on the theory, plus examples, and tools useful to technologists and engineers for successfully guiding and supporting sales and marketing endeavors and, thereby, ensuring funding, staffing, product appeal, positive customer relationships, and marketplace success. (Formerly Information Systems Management 280M.) P. Mantey, The Staff

280S. Seminar Topics (2 credits).

Weekly seminar series of current research on a special topic in information systems and technology management. The theme of research presented throughout the course selected by the instructor. Topics may include, but are not limited to, knowledge planning, new product development and management of technology. Enrollment with permission of instructor. (Formerly Information Systems Management 280S.) Enrollment limited to 30. May be repeated for credit. P. Mantey

293. Advanced Topics in Technology and Information Management (TIM).

Advanced research topics in TIM (as determined by instructor). Topics include, but are not limited to, approaches and solutions to complex business problems, and development of information-based technology and services. (Formerly Information Systems Management 293.) Enrollment restricted to graduate students. Enrollment limited to 25. May be repeated for credit. P. Mantey, The Staff

297. Independent Study. F,W,S

Independent study under faculty supervision. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. (Formerly Information Systems Management 297.) May be repeated for credit. The Staff

299. Thesis Research. F,W,S

Thesis research under faculty supervision. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. (Formerly Information Systems Management 299.) May be repeated for credit. The Staff

[Faculty](#) | [Course Descriptions](#)

Program Description

The Theater Arts Department is a diverse group of scholars/artists united by a passionate belief in the value of the performing arts. Based on respect for the classical theater of all cultures, combined with a determination to challenge tradition and fashion with equal courage, we educate our students in the history, theory, and practice of theater to address fundamental issues by using the tools of body, voice, mind, and imagination. Seeking to attain the highest levels of intellectual and artistic integrity with a commitment to cultural diversity, we serve the research mission of UCSC, our audiences, and the students who will shape the theater of the future.

The Theater Arts Department combines drama, dance, critical studies, and theater design/technology to offer students an intensive program of theater as a unified field. The program stresses the inter-relation of all concentrations as essential to the successful practice of the theater arts in the 21st century. Graduates of the UCSC program typically pursue careers in professional theater and dance companies, in film and television, and in teaching at all levels—from university to high school to grade school. Many students go on to higher degrees at prestigious national programs. Others engage in careers in arts, administration, dramatic writing, and related fields.

The lower-division curriculum requires a range of practical work in the various concentrations and an interdisciplinary exposure to critical and historical studies. At the upper-division level, students are given the opportunity to focus on one or more areas of interest in limited-enrollment studios. At the same time, they are asked to expand their theoretical perspectives through confrontation with performance theory and focused coursework in critical studies. The impact of digital and new media on theater is integrated into the curriculum, especially with respect to dance and design.

A wealth of production opportunities is available to students. This includes major productions directed by faculty or distinguished visiting artists each quarter, productions directed or choreographed by students, and faculty-directed workshops. Undergraduate students are also given the opportunity to see their own writing, choreography, or developing concepts put into production in annual festivals of student work. Although majors are given preference in studio courses, most courses and productions welcome nonmajors as well. Opportunities to study and perform non-Western as well as Euro-American traditions are also a significant part of the program.

The stage and studio spaces available to students of theater arts allow for this breadth of training and performance opportunities. The Theater Arts Center contains a 500-seat thrust stage; a state-of-the-art experimental theater; a 200-seat proscenium theater; acting, directing, and dance studios; costume, scene, and properties shops; a sound recording room; a computer lab; and a metal shop.

Elsewhere on campus are the open-air Quarry Theater seating 3,000, the Shakespeare Santa Cruz Festival Glen, and the 150-seat Barn Theater. Library holdings in theater literature and history are extensive, including a large slide collection and dance video holdings; journals in current theater, design/technology, and dance; and recordings, films, videotapes, and CD-ROMs.

A unique resource for UCSC students is Shakespeare Santa Cruz (SSC). Acknowledged to be one of the leading Shakespeare festivals in the country, SSC was founded in 1982 to foster links between modern scholarship and contemporary professional theater practice. SSC's annual summer festival presents the works of Shakespeare in thematic context with other great plays of the world stage, performed, designed, and directed by professionals from all over the country. SSC offers undergraduates various opportunities to work in conjunction with theater professionals through its summer intern program, its winter holiday production (in fall quarter), and Shakespeare-to-Go, a 45-minute Shakespeare outreach production in which students perform and tour (rehearsed during winter quarter and performed during spring quarter) for audiences throughout Santa Cruz County and beyond.

Majors who wish to concentrate their study of one particular theater arts area before seeking admission to graduate school or work with professional companies are encouraged to apply to the department's Fifth-Year Certificate Program.

Requirements to Declare the Major

Prior to petitioning for the major, students must have successfully completed three lower division courses: one course from THEA 61A, B, or C, and two courses chosen from THEA 10, 20, or 30. Students are encouraged to complete these courses as early in their studies as possible so that the petition to major status can be accomplished no later than the end of sophomore year.

Transfer Students

Transfer students who have not satisfied the requirements to declare the major are advised to take as many of the six lower-division requirements listed above as possible in their first two quarters. Transfer students may petition to have equivalent lower-division courses taken at other schools count toward the lower-division major requirements. Petition forms and information on courses and major requirements can be obtained at the department office, J106 Theater Arts Center.

Major Requirements

The Theater Arts major requires seven lower-division courses, six credits of course 50, and eight upper-division courses (inclusive of a senior seminar project). Majors may organize their studies around a concentration in an area of interest in accordance with the requirements outlined below. The following six lower-division courses must be taken by all majors:

10, Introduction to Theater Design and Technology

20, Introductory Studies in Acting

30, Introduction to Dance Theory and Technique

61A, Ancient and Medieval Drama

61B, Drama from the Renaissance to the Modern Age

61C, Birth of the Modern: After the Renaissance

One additional lower-division 5-credit elective.

Nondiscrimination Statement

Plus: 50, Fundamentals of Theater Production (two-credit course; must take a total of six credits)

The following upper-division courses must be taken to complete the major:

Eight, 5-credit upper-division theater arts courses:

- 160, Dramatic Theories
- Two studio courses
- One elective
- One faculty-directed theater arts production course
- Two 161, 163, 164, or 165 series of critical studies courses in dance or drama, or 113, 116A (design) courses
- One senior seminar requirement, (course 185)

Exceptions to the major requirements, through the UC Education Abroad Program (EAP) or transfer credits, are considered on a case-by-case basis by the department chair.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major’s upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in theater arts is met by completion of the required courses 160 and 185.

Theater Arts Major Planners

The following are two recommended academic plans for students to complete during their first two years as preparation for the theater arts major. Plan One is a guideline for students who are committed to the major early in their academic career; Plan Two is for students who are considering the major.

Plan One

Year	Fall	Winter	Spring
1st (frsh)	THEA 61A	THEA 20	THEA 10
	gen ed	THEA 61B	gen ed
	college core	gen ed	gen ed
2nd (soph)	THEA 30	elective	THEA 61C
	gen ed	THEA 50	gen ed
	college core	gen ed	gen ed
(declare major)			

Plan Two

Year	Fall	Winter	Spring
1st (frsh)	gen ed	THEA 20	THEA 10
	gen ed	low-div studio	THEA 61C
	college core	gen ed	gen ed
2nd	THEA 30	THEA 50	THEA 50

(soph)	THEA 61A	THEA 61B	gen ed
	gen ed	gen ed	gen ed
	(declare major)		

Comprehensive Requirement

Theater arts majors are responsible for successfully completing course 185, Senior Seminar.

Minor Requirements

Students earn a minor in theater arts by completing eight courses (seven, 5–credit courses and one, 2–credit course) comprising a background in the theory and practice of the theater arts as well as a focus on either drama, theater design/technology, or dance. The course requirements are listed below. There is no comprehensive requirement for the minor.

- THEA 61A or B or C
- One quarter of the 2–credit course 50
- One course in the student's area of focus chosen from: 10, 20, 30, or 40
- Three upper–division courses chosen from the following: 113, 116A, 161, 163, 164, 165
- Two upper–division studio courses, one of which may be a faculty–directed production (151)

Independent Studies (199) and Field Studies (198) will not satisfy minor requirements unless approved in advance by an adviser and the chairperson.

Transfer students are advised to check with the department office to determine which courses can be articulated from a community college.

The Dance Minor

Students earn a minor in dance by completing eight courses (three lower division, five upper division) comprising a background in the theory and practice of dance. The course requirements are listed below. There is no comprehensive requirement for the minor.

Lower division courses:

- one 5–credit course in dance foundations (30 or 36); one course (varying units) in cultural forms (including but not restricted to 22, 37, 80Z)
- one quarter of the 2–credit course 50

Upper division courses:

- one 5–credit course in dance foundations (128, 130); one course in critical studies (164, 165)
- three 5–credit elective courses planned in consultation with a faculty adviser (including but not restricted to 122, 131, 135, 137, 138, 139)
- Independent Studies (199) and Field Studies (198) will not satisfy minor requirements unless approved in advance by an adviser and the chairperson.
- Transfer students are advised to check with the department office to determine which courses can be articulated from a community college.

Fifth–Year Certificate Program

The Theater Arts Department offers a graduate certificate program that allows a limited number of students to refocus or intensify their skills, concentrating on performance

reinforced by scholarship and research. The program provides the opportunity to experience the benefits of apprenticeship in an academic setting. Students follow an individual program suited to their background, needs, and interests while concentrating in drama, design/technology, dance, playwriting, Western or non-Western theater, or dramatic literature.

Students in the graduate certificate program are expected to complete one academic year (fall-spring) as a full-time resident student, passing eight 5-credit theater arts courses. Of those eight courses, one is a required graduate seminar (course 290); and one must be chosen from the upper-division critical studies electives on offer. An incomplete in course 290 and/or 297 must be completed by the end of the following quarter of the residency year. The remainder of the program is designed by the student according to individual interests and needs in consultation with the faculty adviser. Many students elect to take faculty-supervised individual studies courses in their area of emphasis.

For additional information, contact the Theater Arts Department.

The Theater Arts Master of Arts Program

The Theater Arts Department offers a master's of arts (MA) degree that follows a one-summer/one academic year structure and combines intellectually rigorous coursework with challenging artistic practicum. Like our undergraduate curriculum, our graduate program integrates the study of ancient and modern theater texts and practices, and it examines hemispheric and global approaches to performance. This Plan I MA program culminates in a capstone thesis project (creative and scholarly) following coursework in both academic and professional theater.

Students are required to complete 40 credits for the Theater Arts MA. This includes three graduate seminars, 290A, 290B, and 290C, for a total of 15 credits. These courses are required of all MA candidates, whatever their area of emphasis. Students must also complete THEA 293, a 10-credit performance research project that includes a professional internship project. Students may take this course in any quarter in the academic year. This work will have a significant academic component, supervised and assessed by a theater arts faculty member.

Students must also complete the 5-credit Theater Arts 295, Group Critique; 5 units of an Independent Study (Theater Arts 297); and the 5-credit Theater Arts 299, Capstone Thesis.

MA students may also take an undergraduate or graduate course in another department as an elective. These courses must be approved by the graduate committee and graduate director each academic year.

There are no teaching requirements for graduate students in the theater arts MA program; however, students are encouraged to act as teaching assistants while they are at UC Santa Cruz.

For additional information, contact the Theater Arts Department.

[Program Description](#) | [Faculty](#)

Lower-Division Courses

10. Introduction to Theater Design and Technology. F,S

Addresses imagination and creativity. Using the framework of theater production, students explore the process of translating a script into a performance. Topics include visual literacy, creative problem solving, establishing effective working teams, tear sheets, storyboarding, drawing, sound and color theory. This course is a prerequisite for all upper-division design courses. (General Education Code(s): IM, IH, A.) The Staff, B. Baron, K. Edmunds

12. Stage Management. F

Designed to acquaint students with the complexities of staging productions from the audition process to final performance. Directing, lighting, scenic production, sound, cueing, and personnel management are aspects that will be touched upon in class. Students are billed a materials fee. (Formerly Production Management.) (General Education Code(s): A.) The Staff

14. Drawing. W

A fundamental course in drawing from still life, the figure, and in the landscape. The approach is from the tonal and volumetric aspects of the object. Color is introduced as the course progresses. Instruction fashioned to the individual needs of the student. The inexperienced are welcomed as well as the experienced. Students are billed a materials fee. (General Education Code(s): PR–C, A.) K. Edmunds

15. Special Topics in Textiles. *

Introduces varied techniques in textile manipulation to create scenic and costume-design properties including drapery, upholstery, masks, bags, and millinery. Students learn basic sewing and surface-design methods, such as knitting, screen-printing, painting/dyeing, and distressing. Enrollment limited to 20. (General Education Code(s): PR–C, A.) B. Baron, The Staff

17. Costume Construction. W

The process of interpreting a costume designer's sketch into a finished theatrical costume. Some techniques included are dyeing, fabric selection, draping, flat pattern drafting, pattern manipulation, adaptation, fitting, and alteration. Using various techniques,

- Physics

students make basic pattern pieces and learn to modify them to create costumes. Students are billed a materials fee. Enrollment limited to 20. (General Education Code(s): PR–C, A.) The Staff

18. Drafting for Theatrical Production. *

An examination of the fundamentals of drafting scale drawings for production, including floor plans, elevations, sections, working drawings, dimensions, layout, and lettering. Students learn isometric drawing, perspective, and rendering techniques. Students are billed a materials fee. Enrollment limited to 20. (General Education Code(s): A.) The Staff

18C. Drafting–Computer Aided. *

In–depth exploration of computer–aided drafting, specifically the programs Vectorworks, Spotlight, and Renderworks. Topics include: the user interface, ground plan, section and detail views, paper space vs. working space, tool palettes, USITT drafting standards, layers, line weights, objects, classes, library annotations, importing rasters, and 3D modeling. Students required to do weekly projects such as ground plans, lighting plots, perspectives, and detail drawings, as well as turn in a major final project, and complete a mid–term, final, and quizzes. Students are billed for a materials fee. Enrollment restricted to theater arts majors. Enrollment limited to 10. (General Education Code(s): A.) D. Cuthbert, The Staff

19. Design Studio: Lighting Studio A. S

An introduction to the theory and practice of lighting design with attention to the practical skills and creative approaches to lighting performance pieces; the technical side of lighting design via demonstrations, lectures, and labs. Students complete projects evolving and executing concepts for lighting chosen pieces. Students are billed a materials fee. Prerequisite(s): course 10. (General Education Code(s): PR–C, IH, A.) D. Cuthbert

20. Introductory Studies in Acting. F,S

Introduction to basic acting skills and the problems of performance. Concentrates on expanding the students' range of expression and ability to respond to and analyze dramatic text. Students with little or no experience are encouraged to attend. (General Education Code(s): IM, IH, A.) The Staff

21A. Acting Studio 1A: Psychological Realism. W

Explores the fundamentals of the work of Konstantin Stanislavski as developed at the Moscow Art Theater to the works of his and our contemporary playwrights. Specifically, students apply those techniques of action, physical score, given circumstances, subtext, interior monologue, goals, and objectives, throughline, superobjective, and emotional recall to works of Henrik Ibsen, Anton Chekov, and appropriate American realists, such as Sam Shepard, August Wilson, etc. Enrollment by interview only: audition at first class meeting. Enrollment limited to 31. (General Education Code(s): A.) D. Scheie, P. Gallagher, P. Whitworth

21B. Acting Studio 1B, Actors' Physicality. F,S

Uses a rigorous physical approach to acting (rather than the text–based approach of course 21A). Provides an "outside–in" starting point for theatrical creation and study, balancing and countering the "inside–out" approach of Stanislavski–based actor training. Emphasis on physical characterization, ensemble theater, mask work, and object performance. May involve practices, theories, and readings of Jerzy Grotowski, Eugenio Barba, Jacques Lecoq, and/or Tadashi Suzuki. Enrollment by interview only. Enrollment limited to 30. (General Education Code(s): A.) P. Gallagher, D. Scheie

22. Indonesian Dance and Drama. S

Students learn the basic movement repertoire of the specific characters of the Indonesian dance–drama/puppetry tradition over the quarter with explication of how these types operate in their own cultural context. The course culminates in an open showing of scenework. May be repeated for credit. (General Education Code(s): CC, A, E.) P. Gallagher, M. Foley

23. Voice for the Actor. *

Students work on developing resonance, range and expressivity for stage performance via

<ul style="list-style-type: none"> ■ Politics ■ Portuguese ■ Porter College ■ Psychology ■ Russian ■ Science Communication ■ Social Documentation ■ Social Sciences ■ Sociology ■ Spanish ■ Spanish for Heritage Speakers ■ Stevenson College ■ Technology and Information Management ■ Theater Arts > ■ Writing Program ■ Yiddish 	<p>physical exercises and text explorations undertaken in small groups. Prerequisite(s): course 20. Audition required for acceptance into class. Enrollment limited to 20. (General Education Code(s): A.) The Staff</p>
	<p>30. Introduction to Dance Theory and Technique. F,W Intensive instruction in developing the dancer's mind/body, with introduction to movement theory and practice. Students are billed a materials fee. (Formerly Introduction to Modern Dance Theory and Technique.) May be repeated for credit. (General Education Code(s): PR–C, IH, A.) E. Warburton, The Staff</p>
	<p>31P. Postmodern Dance I. * Introduction to postmodern dance theory and technique. Focus on performance practices of historically significant postmodern dance choreographers in the U.S. and worldwide. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): IM, A.) E. Warburton</p>
	<p>36. Introduction to Dance Composition. S Composing solo dances using a variety of approaches for developing movement combinations. Observation and recognition of personal movement patterns and discovering new sources for creative material. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR–C, IH, A.) E. Warburton</p>
	<p>37. African Dance. S A griot (musician–entertainer from western Africa) from Burkina Faso teaches "The African Journey," which emphasizes dance as combined in Africa, including singing, history, oral tradition, and storytelling. Students are billed a materials fee. Enrollment limited to 30. (General Education Code(s): PR–C, A.) The Staff</p>
	<p>40. Introduction to Directing. F An overview of the analytical and creative processes that inform the director's work. Close examination of texts, concepts, and directorial choices in staged performances, opera, films, and video. (General Education Code(s): IM, IH, A.) K. Jannarone, The Staff</p>
	<p>45. Student–Directed Production. F,S Participation in a student–directed play or student–choreographed dance concert under faculty supervision. (See course 192). Rehearsals culminate in public performances. Prerequisite(s): admission by audition; see department office for more information. The Staff</p>
	<p>45D. Student–Directed Production: Almost Maine. S Participation in a student–directed play or student–choreographed dance concert under faculty supervision. Rehearsals culminate in public performances. Prerequisite(s): admission by audition; see department office for more information. K. Jannarone</p>
	<p>50. Fundamentals of Theater Production (2 credits). F,W,S Work is on various aspects of theatrical production, including scenery, lighting, costumes, sound, stage management, and video documentation. Satisfies the department's technical experience requirement. May be repeated for credit. (General Education Code(s): PR–E, A.) D. Cuthbert</p>
	<p>52. Basic Stagecraft. S Provides introduction to technical theater and basic stagecraft. Course examines two–dimensional and three–dimensional scenery, scenic engineering, the physical theater, stage and scene shop equipment, project organization and process, technical theater graphics, materials, and theatrical construction techniques. Prerequisite(s): course 10. Enrollment limited to 30. (General Education Code(s): A.) The Staff</p>
	<p>55A. Workshop in Performance: Barnstorm. F,W Process–oriented investigation of practical theater production by working in and on productions in the Barnstorm season. Requires a total of 150 hours working backstage or onstage. Admission by audition at first class meeting; see department office for more information. May be repeated for credit. D. Cuthbert</p>

55B. Workshop in Performance: Barnstorm Lab (2 credits). F,W

Process-oriented investigation of practical theater production by working in and on productions in the Barnstorm season. Requires a total of 50 hours working backstage or onstage. Admission by audition at first class meeting; see department office for more information. May be repeated for credit. D. Cuthbert

61A. Ancient and Medieval Drama. F

Ancient enmities; horrific acts of parricide; monumental errors; suffering and contrition. This course examines the enormous appeal of the ancient Greek tragic and comic visions from their inception through their enthusiastic adaptation by the Romans and on into the Middle Ages. For comparison purposes, Greek and Roman dramas are studied back-to-back with the contemporary non-Western dramatic forms of Noh and ancient Sanskrit drama. (Formerly Issues and Methods in Theater Arts.) (General Education Code(s): TA, IH, A.) J. Bierman

61B. Drama from the Renaissance to the Modern Age. W

Examines major trends in European drama from the rediscovery of ancient Greek and Roman drama in the early 17th century to the late 19th century. Examines major trends in European drama from the discovery of ancient Greek and Roman drama in the early 17th century to the late 19th century. These trends include neo-classical drama, the rise of middle-class drama, social realism, romanticism, early naturalism, and the well-made play. These trends are compared with the parallel developments of the non-Western forms of Japanese Kabuki and Javanese Wayang. (Formerly Tragedy.) Enrollment limited to 40. (General Education Code(s): TA, IH, A.) J. Bierman

61C. The Birth of the Modern: Drama and Performance After the Renaissance. S

Examines dramatic and theatrical works that sprang into being in the wake of the European Renaissance. Follows the ways modern artists have dramatized their questions, struggles, beliefs, and despair in the face of world wars, cultural fragmentation, unprecedented prosperity, and new technologies that changed the concrete experience of life itself. Enrollment limited to 60. (General Education Code(s): TA, IH, A.) K. Jannarone

80A. Introduction to African American Theater. W

Surveys African American theater from late 19th century to contemporary 21st-century playwrights and examines dramatic narratives to trace creation, evolution, and development of African American cultural identity formation in American theater. Enrollment limited to 50. (General Education Code(s): ER, T4 (TH), A, E.) The Staff

80B. Rock 'n' Roll Design. *

Examination of the genesis, history, and development of technical theater practices used in large arena rock shows. Topics will include the development of rigging practices used in arenas, touring logistics, lighting instrumentation and aesthetics of rock shows, and the nature, practice, and approach of sound in these venues. (General Education Code(s): T4-Humanities and Arts, A.) The Staff

80D. Commercial Design 1900 to Present. S

History of 20th-century commercial design for the theater through the eyes of the Western consumer. (Formerly course 161W, Critical Survey of Commercial Design, 1900 to Present.) (General Education Code(s): IM, T4-Humanities and Arts, A.) B. Baron

80H. Hamlet Conundrums. *

Offered online, the course explores major issues of interpretation of Shakespeare's classic play, which has occupied the minds of audiences, directors, designers, performers, and critics during its 400-year history. In doing this, it offers a sense of history of people's preoccupations with and thoughts about the play. Students taking this class are expected to complete the course during the quarter for which they are enrolled. All students enrolled in this course should visit elsinore.ucsc.edu and write to elsinore@ucsc.edu. (General Education Code(s): T4-Humanities and Arts, A.) J. Bierman

80K. Shakespeare 4every1. *

Introduces all students, regardless of experience, to the plays and theater of Shakespeare,

and directly addresses linked relevance to contemporary 21st century American culture. (General Education Code(s): TA, T4–Humanities and Arts, A.) P. Whitworth, D. Scheie

80L. Muppet Magic: Jim Henson's Art. *

The artistic and social impact of the Muppets on American puppetry, children's television, and Hollywood film is explored through viewings, guest lectures, and analysis. Henson's legacy in artistic innovation, mainstreaming of puppet theater for adult audiences, and establishment of puppetry in media and marketing are also explored. (General Education Code(s): IM, T4–Humanities and Arts, A.) M. Foley

80M. Chicano/a Teatro. W

Introduction to Teatro Chicano/a with examination of how cultural diversity plays a role in theater. Through lectures, films, and workshop exercises, reflect upon the process of Teatro Chicano. Students write their own acts, improvise, and perform in class. (General Education Code(s): ER, T4 (TH), A, E.) The Staff

80N. Walt Disney. W

An examination of Walt Disney's creation of the American vision of "family entertainment." Particular attention will be paid to the classic animated feature films of Walt Disney and to the way this Disney invention has been preserved and developed since his death. We will also look at the live action films, theme parks, and other Disney creations. (General Education Code(s): IM, T4–Humanities and Arts, A.) The Staff

80O. Comedy in American Theater and Media since 1950. *

The interrelationship of comedy in contemporary American media and innovations at Second City, the Chicago-based comedy club, will be explored, as well as the theory and practice of improvisation as a technique for generating comic material and the varied relationships of performers, writers, and audiences in live theater, television, and film. (General Education Code(s): IM, T4–Humanities and Arts, A.) M. Foley

80P. The Pixar Feature. *

Combines examination of the canon of Western dramatic literature and theater history through viewings of Pixar Animation Studios' full-length animated features, representing the most popular form of digital art and new media in the world today, and lectures focusing on digital art and new media viewed through established rules and traditions of dramatic art in literature, plays, and the theater. (General Education Code(s): IM, T4–Humanities and Arts, A.) D. Scheie

80Q. Introduction to Queer Theater. *

Examines the history of the queer perspective in dramatic literature, from the Greeks to Marlowe and Shakespeare through the calcification of homosexuality in the era of Freud, then traces theater stewardship by gay and lesbian artists from within the closet and without. (General Education Code(s): IM, T4–Humanities and Arts, A.) The Staff

80S. Theater Arts Education and the Community. *

This course is designed to develop ways in which we can direct our interest in the arts into concrete and successful community projects. Although the emphasis will be on developing skills to work within K–12 classrooms, other community projects will be discussed and designed. (General Education Code(s): T4–Humanities and Arts, A.) The Staff

80U. Socks, Drugs, and Rock and Roll: American Costume Since 1950. *

This course is an introduction to American fashion and fashion designers from the 1950's to the present with special attention given to the influence of popular media on American costume since 1950, the beginning of rock and roll. Students cannot receive credit for this course and course 116B. (General Education Code(s): IM, T4–Humanities and Arts, A.) The Staff

80V. The Circus in American Culture. *

Circus arts from their shamanic roots to contemporary practice will be analyzed in a historical, aesthetic, and creative dimension. Lecture, discussion, and demonstrations will explore the theory and practice of American circus arts. In section, students will explore basic circus skills from clowning to tumbling to exhibition of freaks. (General Education

Code(s): T4–Humanities and Arts, A.) The Staff

80X. The Performance of Story in Theater and Film. F

An examination of the theory and practice of theater and film, comparing and contrasting works that have been adapted from one genre to another. Lecture, film and video viewing and discussion of materialist, psychoanalytic, and feminist approaches will be shared.

(General Education Code(s): TA, T4–Humanities and Arts, A.) The Staff

80Y. American Musical Theater. S

The history of American musical theater, from its roots to today, is studied through scripts, scores, and film. Major composers and lyricists' work is shown, discussed, and analyzed. (General Education Code(s): T4–Humanities and Arts, A.) K. Edmunds

80Z. Indian Dance. F

Classical Indian dance will be studied as a performance practice. Understanding of drum syllables and associated steps, religious and sociological context, and mimesis (abhinaya) as well as introduction to epic stories (Ramayana, Mahabharata, Bhagavata Purana) and classical song. (General Education Code(s): CC, T4–Humanities and Arts, A.) The Staff

99. Tutorial. F,W,S

Students must file their petitions for this course with the department office by the end of the fifth day of instruction in the quarter in which they would like to take the tutorial. Prerequisite(s): petition required, approved by instructor and department. May be repeated for credit. The Staff

Upper–Division Courses

100A. Asian Theater/Dance and Global Impacts. *

Overview of selected theater/dance performance genres of India, Indonesia, China, Korea, and Japan with attention to how cultural, political, and social flows have impacted contemporary performance in Asia and beyond. Lectures supplemented by workshops.

(General Education Code(s): A, E.) M. Foley

100B. Black Theater USA. *

Spanning slavery, emancipation, reconstruction, the great depression, civil rights, and the black power/black arts movements, course explores African American drama from literary, historical, and biographical perspectives in lecture/discussions, film excerpts, dramatizations, and visits from award-winning guests. (General Education Code(s): A, E.) The Staff

100C. Courts, Courtesans, Shamans, and Clowns: Asian Drama. *

Asian court and popular performance are traced. Sanskrit drama is contrasted with Indian epic recitation, medium, and courtesan dance. Gender specialization is noted in Indonesian courts using Indian and local legends in dance, mask/puppetry, and clowning. Buddhist and Confucian impulses in Chinese theater and early Korean and Japanese mask and puppetry are introduced. Students are evaluated on participation, tests, writing, and a performance project. (General Education Code(s): A.) P. Gallagher, M. Foley

100G. Ancient and Classical Drama. *

Examines Western dramatic literature, theater history, and design from ancient Greece to the Renaissance, the Spanish golden age, and Elizabethan England. Looks at dramatic texts in their historical moments, bringing theater design and the function of performance into critical contexts. Major theoretical treatises, scripts, scenarios, background readings, and other texts are discussed in relation to the actual performance and staging practices of the period. (General Education Code(s): A.) The Staff

100H. Ballet: A History. *

Chronological critical and historical overview of ballet from its origins in the 15th century to the present, fleshing out the sociological, aesthetic, and design (costume and set) aspects of ballet production from the courts to the bourgeois opera house and the independent impresario. Enrollment limited to 40. (General Education Code(s): A.) M. Franko

100I. Hemispheric and Trans-Atlantic Theater: Indigenous America. *

Considers theater of the Americas with attention to indigenous pre-Colombian roots as well as trans-Atlantic connections forged in Spanish use of performance in conquest and development of African-influenced arts in black communities. Includes use of art in national independence movements, civil-rights struggles, and continuing movement across borders of the Americas with links to Africa. (General Education Code(s): A, E.) The Staff

100M. Modern Drama. *

Examines modern theatrical experimentation from English Restoration through contemporary era. Major theoretical texts, scripts, and background readings establish critical contexts for analyzing modern performance and dramatic literature. (General Education Code(s): A.) K. Jannarone

100W. Black/African Diasporic World Theater. *

Examines major black African diasporic playwrights and theater. Focuses on the historical, cultural, and literary contexts that gave rise to the works of dramatists such as Ama Ata Aidoo, Derek Walcott, Wole Soyinke, Aime Cesaire, Debbie Green Tucker, and Paul Boakye. Prerequisite(s): course 61 or 60A or 60B or 60C. (General Education Code(s): A, E.) The Staff

104. Multimedia Authoring. *

Introduces students to basic tools for the creation of multimedia digital projects. Special attention is given to the integration of video, sound, graphics, text and virtual reality and to the creation and execution of strategies for interaction between users and the projects themselves. With this in mind, students design and create computer puzzles and games. Enrollment limited to 25. (General Education Code(s): A.) J. Bierman

106. Digital Illustration. W

Introduces digital rendering techniques using the Adobe Creative Suite. Using Photoshop, Illustrator, Acrobat Writer and InDesign, students solve design problems relevant to scenic, costume, and property design. Material is applicable to anyone with an interest in the Adobe platform. Enrollment by permission of instructor. Application form available at department office. Enrollment limited to 15. (General Education Code(s): A.) B. Baron

113. The History of Design for Theater. *

The development of scenic design from the Greek period to the present. Concentration is on the changing styles of set design in relation to the changing attitudes toward dramatic literature, art, and theater architecture. (General Education Code(s): IM, A.) B. Baron

114. Design Studio: Sound. S

The intangible and transitory nature of the acoustic reality. Electronically regenerated sounds for use in the performing arts. Broad scope of the course consideration begins with found sound and includes sound propagation. Emphasis on tape-recording, editing, sound control functions, and equipment utility. Students are billed a materials fee. Prerequisite(s): course 10. (General Education Code(s): PR-C, A.) The Staff

115A. Design Studio: Scenic Design. W

Advanced work in principles and theory of scenic design. Students are billed fa materials fee. Prerequisite(s): course 10. (General Education Code(s): PR-C, A.) K. Edmunds

115B. Design Studio: Scenic Design B. *

Advanced theory and practice of theatrical set design. Prerequisite(s): course 115. (General Education Code(s): PR-C, A.) K. Edmunds

116A. History of Clothing and Costume. *

Survey of clothing and theatrical costumes; emphasis on dress of the audience and actor in historical periods of theatrical activity. Students are billed a materials fee. (General Education Code(s): IM, A.) B. Baron

117. Design Studio: Costume. W

Advanced principles and theory of costume design for theatrical productions. Students are billed for a materials fee. May be repeated for credit. (General Education Code(s): IM, A.) B.

Baron

117A. Advanced Costume Construction. *

Advanced principles in costume construction, including tailoring, advanced pattern drafting, and draping techniques. Focuses on translating modern techniques into historical garment construction. Teaches how to study artifacts and do primary research to unlock the past. Prerequisite(s): course 17. Enrollment limited to 25. (General Education Code(s): A.) The Staff

118. Design Studio: Scene Painting. *

Emphasis on techniques used in painting scenery for the theater. Students are billed a materials fee. Prerequisite(s): course 10. (General Education Code(s): A.) The Staff

119. Design Studio: Lighting Studio B. *

The theory and practice of lighting design with emphasis on practical application. Light plots, electricity, optics, design, and manipulation of lighting for the theater and related performance events are investigated. The student explores mechanics and aesthetics with hands-on experience. Students are billed a materials fee. Prerequisite(s): course 19. (General Education Code(s): PR-C, A.) The Staff

121. Acting Studio II. F

Continuing concentrated work on basic acting skills and textual analysis through scene study. May be repeated for credit with consent of instructor. Prerequisite(s): admission by audition at first class meeting. See department office for more information. Course 21 recommended as preparation. May be repeated for credit. (General Education Code(s): A.) D. Scheie, P. Gallagher, P. Whitworth, M. Foley

122. Indian Performance: Rama, Siva, Krishna. *

Study of the classical theater and dance of India, with attention to performance practice, aesthetic theory, relationship to religious practice devoted to Rama, Siva, and Krishna, political implications and intercultural experimentation. (General Education Code(s): CC, IH, A.) The Staff

126. Acting Studio III. F,W

Individual work on acting skills and problems, with emphasis on individual interpretation and scene work with other students. Prerequisite(s): course 121; permission of instructor; audition at first class meeting—contact department office for more information. Enrollment limited to 18. May be repeated for credit. (General Education Code(s): A.) The Staff, P. Gallagher, P. Whitworth

128. Choreographic Workshop. F

Intensive upper-division choreographic workshop that begins from the key motifs of historical dance to develop original work. Dancers made available to the student choreographers. Course is a prerequisite for the student-choreographed production Random With a Purpose. Prerequisite(s): course 36 or permission of instructor. Enrollment limited to 30. (General Education Code(s): A.) M. Franko

130. Intermediate Dance Theory and Technique. W

A progression from the simple phrasing and articulation of beginning technique class to more complex material requiring more acute perceptive skills and richer dynamic range. Emphasis is on both alignment and maintaining the kinetic integrity of the body while moving through space. Students are billed a materials fee. (Formerly Intermediate Modern Dance Theory and Technique.) Prerequisite(s): course 30 or 31 or permission of instructor. May be repeated for credit. (General Education Code(s): IM, A.) E. Warburton

131. Advanced Dance Theory and Technique. *

Advanced instruction in developing the dancer's mind/body, combined with contemporary movement theory and practice. Students are billed a materials fee. (Formerly Advanced Modern Dance Theory and Technique.) Prerequisite(s): course 30 or 31 or permission of instructor. May be repeated for credit. (General Education Code(s): A.) E. Warburton

131C. Dance Studio II. *

Continued study of contemporary dance theory and practice. Focus on intermediate dance technique, individual and group movement invention, choreographic voice, and theatrical applications. Students are billed a materials fee. Enrollment limited to 30. (General Education Code(s): A.) The Staff

131P. Postmodern Dance II. *

Continued study of postmodern dance theory and technique. Focus on advanced compositional practice, theatrical applications, and critical analysis of contemporary postmodern dance choreographers in the U.S. and worldwide. Audition at first class meeting. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): IM, A.) E. Warburton

132. Modern Dance Studio (2 credits). *

Instruction in developing the dancer's physical instrument, combined with movement theory. Students are billed a materials fee. Prerequisite(s): course 30 or 31 or permission of instructor. May be repeated for credit. (General Education Code(s): A.) E. Warburton

135. Dance Improvisation and Theory. S

Exploring sources for movement; gaining facility in a wide range of movement elements; working in ensemble and solos. Students are billed a materials fee. (General Education Code(s): A.) E. Warburton

136C. Dance Studio III. *

Advanced study of contemporary dance theory and practice. Focus on dance performance, creative process, and choreographic form in a contemporary style. Students are billed a materials fee. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): A.) The Staff

137. Studies in Performance (Dance). S

Studies in dance, taken in connection with performance in a major dance concert. Students are required to work on all aspects of the production. Students work with guest and faculty choreographers. May be repeated for credit with consent of instructor. Students are billed a materials fee. Admission by audition held late winter quarter; see department office for more information. May be repeated for credit. (General Education Code(s): A.) M. Franko

138. Movement Research in New Arts Praxis. *

Work at the intersection of creative and research practices, focusing on experimental forms of movement theater, applications in digital arts and new media, and critical analysis of the arts in society. Collaborative, interdisciplinary performance projects required. Audition/interview at first class meeting. Students are billed a materials fee. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) E. Warburton

139. Random: With a Purpose. W

Participation in a student-choreographed and directed dance concert under faculty supervision. Rehearsals culminate in public performances. Students are billed a materials fee. Auditions to be held on the first day of class. May be repeated for credit. (General Education Code(s): A.) E. Warburton

141. Play Direction Studio I. W

Basic studio exploration through scene problems and exercises of the development of directing principles. Intensive work on the director's pre-rehearsal work from text selection, analysis, and casting. Audition at first class. Enrollment limited to 20. K. Jannarone

142. Play Direction Studio II. *

Intensive studio exploration of the art and craft of directing. Primary focus on text analysis, collaboration with designers, developing a point of view and visual/auditory language for the play, staging techniques, and communication techniques with actors. Prerequisite(s): course 40, 141, or permission of instructor. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): A.) The Staff

151. Studies in Performance (Drama). F,W,S

Studies in theater, taken in connection with participation in a Theater Arts Department sponsored production. Enrollment is limited to those persons chosen to take part in a particular production. Admission by audition; audition schedule to be announced at first class meeting. May be repeated for credit. (General Education Code(s): A.) The Staff, M. Foley, D. Scheie

151A. Studies in Performance: African American Theater Arts Troupe. W

Studies in drama; emphasis on African American theater taken in connection with participation in a theater arts sponsored production. Enrollment by audition only, and limited to those persons chosen to take part in a particular production. May be repeated for credit. (General Education Code(s): ER.) D. Williams

152. Advanced Stagecraft. *

Exploration of stage technology from the scene shop's perspective. Conversion of scenic designs to construction drawings. Pursuit of scenic-engineering and construction techniques using steel, wood, and other materials. Training on use of stage machinery: rigging, flying, wagons, tracking, and propulsion. Prerequisite(s): course 52. Enrollment limited to 25. (General Education Code(s): A.) The Staff

155. Workshop Experiments in Performance. W

A process-oriented investigation of specific playwrights or theatrical styles consisting of work which may culminate in a final production. Admission by audition at first class meeting; see department office for more information. May be repeated for credit. (General Education Code(s): A.) P. Gallagher

157. Playwriting. F

Students are given the opportunity to write their own scripts and refine them as the result of class discussion and scenework with actors. Work is on specific problems involving such elements as the structuring of a plot or the development of character. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. (General Education Code(s): W,A.) J. Bierman

158. Chautauqua Workshop. S

Advanced course that provides directors, writers, and performers with an opportunity to develop new works in performance. Students enrolling in this course as playwrights are selected on basis of submissions turned in the previous quarter. Students are billed a materials fee. Students taking the course as directors are required to obtain consent of the instructor. Other students may enroll as usual. May be repeated for credit. The Staff

159. Advanced Playwriting. W

A study, through practice, of the constituent elements in the construction of a drama. Students concentrate, in particular, on the organization of complex plots, the expression of character through conflict, and maximizing the emotional impact of dramatic situations. Prerequisite(s): course 157 or equivalent, satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): W,A.) J. Bierman

160. Dramatic Theories. S

An examination of the theories of acting and directing from the 19th century to our own time, starting with the classic theater and concentrating on the 20th-century debate centered in Stanislavski and Brecht, Grotowski, and Robert Wilson. This course must be taken prior to student's senior year; required for course 185. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): A.) The Staff

161. Theater, Literature, and History. *

The Staff

161A. Irish Theater. S

Examines the idea of a "National Theater" in Ireland from its beginnings in the founding of

the National Literary Society in 1892 to the current vitality of the contemporary Irish Theater. Enrollment limited to 45. (General Education Code(s): A.) P. Whitworth

161C. The Theater and Drama of Renaissance Europe. *

An examination of selected plays from Renaissance Europe (1580–1680, Italy, Spain, and France) from an explicitly theatrical viewpoint which will include practical scene study. Covers Renaissance theater buildings and some related critical materials. Offered in alternate academic years. (General Education Code(s): A.) P. Whitworth, K. Jannarone

161D. Asian Theater: An Anthropological Approach. F

Art serves simultaneously to educate its audience to the group's traditional values and to test new ideas. Indian, Indonesian, and Japanese forms are studied in relation to their cultural context. Through videotapes, lecture demonstrations, performances, and scenework, students explore the forms. Offered in alternate academic years. (General Education Code(s): CC, A, E.) M. Foley

161M. Sexuality, Gender, Drama, and Performance. *

Exploration and analysis of the interrelationships between gender, sexuality, and performance on stage and on the page. Topics include gender and homosexuality in the history of performance and dramatic literature, drag, queer Shakespeare, closet drama, same-sex performance conditions (e.g., Greece) vs. dual-gendered (e.g., Restoration England). Combines study of theoretical texts and script with analysis and practice. (Formerly Gender and Performance.) (General Education Code(s): A.) D. Scheie

161P. Theater in the "Chicano Power" Movement. *

Covers the rise of Teatro Chicano as a cultural-political force within the 1960's "Chicano Power" Movement starting with founding playwright Luis Valdez and El Teatro Campesino and covering Chicana/o playwrights inspired by the movement, e.g. Cherrie Moraga, Luis Alfaro, and Josefina Lopez. (Also offered as Latin American&Latino Studies 161P. Students cannot receive credit for both courses.) (General Education Code(s): A, E.) The Staff

161Q. Queer Theatrics: Representations and Sensibilities. *

An examination of the idea, form, and significance of queer/gay sensibility and representation in the English-speaking theater from the Renaissance to the present. (General Education Code(s): A.) The Staff

161R. Theater of American Cultures. W

Interrelationship of ethnicity and the rise of significant American theater groups including the black theater movement, Chicano Teatro, and Asian American theater will be shared via lecture, viewing, and discussion. (General Education Code(s): A, E.) The Staff

161S. American Drama: Politics and Theater. *

The dream of group theater, a long-term partnership of actors, directors, and playwrights, has fueled extraordinary and exciting change in the 20th-century American theater theory and practice. We examine ten exemplary manifestations of this dream. (General Education Code(s): A.) The Staff

161T. Women in Theater. S

Explores 20th-century American female playwrights from textual, historical, and multicultural perspectives. The course progresses from *Trifles* (1916) through the Harlem Renaissance, Broadway's Lillian Hellman, and today's post-Feminist theatrical explosion in lectures, films, dramatizations, and award-winning playwrights' visits. (General Education Code(s): A.) The Staff

161U. Performance of Story in Theater and Film. *

Examination of theory and practice of theater and film comparing and contrasting works having been adapted from one genre to another. Lecture, film, and video viewing. Discussions of materialist, psychoanalytic, and feminist approaches shared. Students cannot receive credit for this course and course 80X. (General Education Code(s): A.) The Staff

161Y. Modern Ancient Drama. *

Studies 20th- and 21st-century productions and adaptations of ancient Greek drama in theater, dance, music, and film, including Stravinsky, O'Neill, Graham, Pasolini, and Breuer, discussing artists' goals, the sociopolitical context, ideas of authenticity, and audience response. Enrollment limited to 30. (General Education Code(s): A.) The Staff

162. Public Space/Public Sphere: The Performance of Public Art in 20th Century America. *
Examines phenomenon of public art as a performative phenomenon in the 20th century. Begins with the theory of the public sphere in the work of Jurgen Habermas and social space in the work of Henri Lefebvre. Concludes with the popular phenomenon of public art in the 1980s and the demise of the NEA by the late 80s with the scandals of the NEA Four. (General Education Code(s): A.) M. Franko

163. Special Studies in Individual Playwrights.
The Staff

163A. Shakespeare. S
Focuses on selected plays of Shakespeare. Explores the range and variety of interpretations of the plays, both in critical writings and in performance. Also studies other writings and graphic art created on the subjects and themes of the plays. Offered in alternate academic years. (General Education Code(s): A.) J. Bierman

163E. Chekhov and His Impact. *
Delves into the work of Chekhov and the Moscow art theater. Through scene work Stanislavski's acting techniques are related to the scripts. The impact on later Russian innovators, especially Meyerhold, and on the American theater is considered. (General Education Code(s): A.) The Staff

163G. Special Studies in Playwrights: Artaud. *
Antonin Artaud through three critical lenses: influence on modern and contemporary theater, subject and site of psychoanalytic and social criticism, and theater practitioner. Exercises cultural, historical, and analytic approaches to his work. Prerequisite: course 160 recommended. Enrollment limited to 40. (General Education Code(s): A.) K. Jannarone

163H. Henrik Ibsen and His Impact: Ghosts of the Future. W
Examines representative texts of Ibsen's work: early plays, realistic middle plays, and late plays. The cultural/historical context of Ibsen's oeuvre is considered as well as its impact, through contemporary translations and productions, on subsequent theater theory and practice. (General Education Code(s): TA.) P. Whitworth

164. Issues in Dance History and Theory. *
A research seminar. Topics range from problems in dance aesthetics, criticism, or theory to particular movements, periods, or the work of a choreographer. (Formerly course 133.) Enrollment limited to 20. May be repeated for credit. (General Education Code(s): A.) E. Warburton, M. Franko

165. Introduction to Dance Modernism. W
Rare historical footage and the writings of famous choreographers provide an overview of 20th-century dance within the perspective of modernism. Topics include romanticism, "natural" dance, Orientalism, Ausdruckstanz, "industrial" dance, American modern dance and neo-classicism, chance procedure, postmodernism, and the avant-garde commodity marketplace. (Formerly course 134.) (General Education Code(s): A.) M. Franko

170. Design Seminar (2 credits). *
Seminar to help advanced designers segue from student to professional. Topics to include portfolio construction, interview styles, guest speakers, and more. Enrollment restricted to senior and graduate students in Theater Arts. May be repeated for credit. D. Cuthbert, B. Baron, K. Edmunds

185. Senior Seminar. F
A required seminar for majors involving readings and discussions of important texts in dance, design, and drama. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 160. D. Scheie

190. Group Projects. F,W,S

Prerequisite(s): petition required, approved by instructor and department. May be repeated for credit. The Staff

192. Directed Student Teaching. F,W,S

Teaching a lower-division seminar under faculty supervision. (See courses 42 and 45).
Petition required, approved by instructor and department. The Staff

193. Proseminar. *

Exposes students to an aspect of the theory or practice of theater arts. Visiting scholars share their area of expertise in lectures to a small group of students. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) The Staff

193F. Proseminar (2 credits). *

Exposes students to an aspect of the theory or practice of theater arts. Visiting lecturers share their area of expertise in lectures to a small group of students. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): A.) The Staff

198. Independent Field Study. F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Petition required, approved by instructor and department. The Staff

198F. Independent Field Study (2 credits). F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Petition required, approved by instructor and department. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

290. Special Topics and Area Concentration. F

Study group meetings on a regular basis which involve either the study of shared texts or presentations by the group members and invited guests. Enrollment restricted to graduate students in theater arts. May be repeated for credit. K. Jannarone

290A. Text Analysis. F

Presents a range of performance blueprints (texts, scores, libretti, etc.), and introduces key methodologies for translating text into performance. A final paper required. Enrollment restricted to graduate students in theater arts. May be repeated for credit. K. Jannarone

290B. Performance Histories. W

Contextualizes major movement in performance. Students are exposed to a wide range of historical and visual material pertinent to the creation of theater and dance. A final paper is required. Enrollment restricted to graduate students in theater arts. May be repeated for credit. The Staff

290C. Performance Analysis. W,S

Examines the production approaches of a range of performance practitioners, production companies, and performance traditions. Includes exercises in analysis and reconstruction of performance. A final reconstruction project is required. Enrollment restricted to

graduate students in theater arts. May be repeated for credit. The Staff

291. Field Study. F,W,S

Student-designed and conducted research carried out in field settings. A brief prospectus must be filed with the department office before undertaking the research, and a brief final report of activities must be filed upon return. Course intended for students with graduate standing in theater arts. Petition required, approved by instructor and department. The Staff

292. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Course intended for graduate students in theater arts. Petition required, approved by instructor and department. The Staff

293. Performance Research Project (10 credits). F,W,S

Internship with a professional theater company in the student's area of emphasis. This work will have a significant academic component supervised and assessed by a theater arts faculty member during the quarter it is taken. Enrollment restricted to graduate students. The Staff

295. Group Critique. W

Peer review and constructive assessment of works in progress. Students are required to give individual presentations to the group at least once a quarter. Educational objectives are to develop the ability to articulate themes and ideas in student's body of work; to strengthen critical skills in making, evaluating, and discussing theater art; to explore the role of the audience in context and criticism; and to investigate the ways artists construct, use, and maintain support communities. Enrollment restricted to graduate students. The Staff

297. Independent Study. F,W,S

Independent study or research for graduate students in theater arts. Petition required, approved by instructor and department. May be repeated for credit. The Staff

297F. Independent Study/Graduate (2 credits). F,W,S

Independent study or research for graduate students in theater arts. Petition required, approved by instructor and department. Enrollment restricted to graduate students in theater arts. May be repeated for credit. The Staff

299. Capstone Thesis. S

Involves participation in a major collaborative performance project (either faculty-directed or graduate student-directed with faculty supervision) or a research project group. Includes a written thesis, though the length will vary depending upon the student's particular emphasis. Enrollment restricted to graduate students. The Staff

* Not offered in 2012-13

Program Description

The campuswide Writing Program offers courses designed to help students become more competent and confident writers of prose. The courses offered through this program teach skills of grammar and organization and strategies of invention, composition, revision, and editing. These courses approach writing as one of the most important ways we have of making discoveries about ourselves and the world around us and of communicating these insights to others.

Together with the colleges, the Writing Program administers the writing components (C1, C2) of the campus general education requirements; administers the Entry Level Writing Requirement (ELWR), formerly known as Subject A; and advises students about ways to fulfill these requirements.

Writing Program instructors in each college participate in the college's core course and counsel its students about their writing. The Writing Program offers Writing 2 (a lower-division course that satisfies the C2 requirement); the Writing 20, 21, 22, 23 series to help meet the needs of students who have not passed ELWR, including students with complex linguistics backgrounds; and instruction in the theory and practice of teaching writing for peer tutors and graduate students.

Each year, the Writing Program also offers several specialized lower- and upper-division courses, as well as writing-intensive courses during the summer session.

Courses in creative writing are offered through the Literature Department.

Faculty and Professional Interests

James Wilson, Senior Lecturer with Security of Employment, Chair
Modern European literary, artistic, intellectual, and political movements (especially of France, Italy, and Spain); poetry of Ezra Pound; Chinese poetry and philosophy; translation; argument in popular culture; the rhetoric of sports

Senior Lecturer with Security of Employment

Elizabeth Abrams
Composition and rhetoric; writing pedagogy, writing across the curriculum; 19th-century and 20th-century American history and literature, especially concerning the Civil War

Carol M. Freeman, Emerita

Donald L. Rothman, Emeritus

Heather Shearer

Roswell Spafford, Emerita

Lecturer

Margaret Amis
Writing; pre- and early modern English literature; prose style

Sondra Archimedes, College Nine Writing Coordinator
Victorian literature and culture; gender studies; cultural studies

Jeffrey M. Arnett
Creativity and well-being

Derede Arthur
Cultural studies, 18th–20th-century British literature, theory of the novel, theories of education, cognitive ethology

Mark Baker, Oakes College Writing Coordinator
Media and democracy, postmodernism, 20th-century literature and culture of the Americas, community participation, writing and social responsibility

American literature and culture, science/speculative fiction; American drama; human biological sciences (e.g. evolutionary history, physiology, neurology).

Dina El Dessouky

Farnaz Fatemi
Comics and graphic novels, poetry, Middle East issues and cross-cultural perspectives, writing pedagogy

BK Faunce
Late 18th-century and early 19th-century British literary culture, film, literary theory

James Fazzino

Veronica Flanagan, Kresge College Writing Coordinator
19th- and 20th-century American literature; translation; French literature

Maureen Foster
The novels and short stories of American visionary Philip K. Dick, and the films based upon his work; independent films and women filmmakers

Joy Hagen, College Eight Writing Coordinator
Ecological risks of genetically engineered organisms; population dynamics; agroecology and food systems; science and uncertainty

Erica Halk, College Ten Writing Coordinator
Post-secondary reading and writing pedagogy; American literature; cultural criticism; gender studies

Roxanne Power Hamilton
Writing, poetry, magazine editing, inter-arts performance, gender and queer studies

Noria Jablonski
Creative writing; contemporary American literature; disability studies

Robin King, Oakes College Writing Coordinator
Visual arts, media criticism, sociology of learning and emotions, multi-cultural studies, politics of food

Lindsay Knisely
Digital identity production in youth; establishing ethos in writing; writing of witness; African-American literature and literary theory; writing as social activism; writing as identity development; poetry analysis and interpretation; development of critical consciousness

Toby Loeffler
Writing pedagogy; early 20th-century British and Spanish literature; history and theory of the British and European novel; British and European modernism; literature and nationalism; ideology; cultural studies

Philip Longo
Composition; 20th-century American literature; African American literature; sexuality and gender; critical theory; the 1960s

Brij Lunine, Cowell College Writing Coordinator
Writing pedagogy; writing across the curriculum, teaching research; writing pedagogy, reception studies, cultural studies, popular culture and youth subcultures

Patrick McKercher
Virtual reality educational environments, outreach projects, collaborative research with James Burke, environmental education

Ingrid Moody Lariviere, Porter College Writing Coordinator

Emily Murai
First-year composition and writing; International and global affairs; Science and technology studies; Human geography

Ellen Newberry, Merrill College Writing Coordinator

Educational partnerships with K-12 schools, transfer/re-entry student writing, women's studies, and queer studies

Sarah-Hope Parmeter, Coordinator, Entry Level Writing Requirement (ELWR)

Writing and democracy; multilingual, multicultural rhetorics; cross-age writing partnerships and public school collaboratives; lesbian/gay/bisexual/transgender young adult literature; rhetoric of the sciences

Annalisa Rava, Crown College Writing Coordinator

Animals and human society, science fiction studies, literature and postmodernism

Jessica Samuels

Denise Silva

Cultural studies, urban studies, gender studies, 19th and 20th century British literature, composition & rhetoric

Kiva Silver

Modern European History; Nation-state Development & Nationalism; Immigration & Integration in Europe; Immigration & Integration in the Building Trades; Rhetoric and Composition; Comparative Religion

Robin Somers

Sustainable agriculture and cooking organically; online journalism (blogging), Native American literature, culture and politics

Stephen Sweat

The foundations of the novel; literacy and the lower-classes in England in the eighteenth-century; figurations of the monstrous; satire; anarchism in education

Terry Terhaar

Writing in the sciences; inquiry-based (research) writing; environmental writing and thought; biodiversity conservation; environmental science and policy; environmental ethics; religion, spirituality, and nature.

David Thorn

Amy Weaver, Stevenson College Writing Coordinator

Creative nonfiction, writing pedagogy

Lothlorien Watkins

Lene Whitley-Putz

Lower-Division Courses

2. Rhetoric and Inquiry. F,W,S

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Students develop specific, practical ways of improving their writing through sustained critical thinking about diverse issues from multiple points of view. Students cannot receive credit for this course and course 1. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment limited to 25. (General Education Code(s): C2.) The Staff

11A. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). F

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. The Staff

11B. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). W

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. The Staff

11C. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). S

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. The Staff

20. The Nature of Written Discourse. W

Explores the dynamics of written language: its relationships to speech, thought, and

culture; its uses in different personal, academic, professional, and public contexts; its abuses in jargon and propaganda. Course work includes extensive practice in different kinds of writing. Enrollment restricted to students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment limited to 22. The Staff

21. Meaning and Style: The Sentence in Context. S

Explores, via cross–cultural readings, the nature, uses, and abuses of language. Course work includes extensive writing, both take–home and in–class. Emphasis on revising for power of expression and for variety and accuracy at the sentence level. Enrollment restricted to students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment limited to 22. The Staff

22A. Grammar and Editing Workshop (3 credits). F

Offers instruction on selected topics in grammar and conventions of written English as needed to strengthen the writing skills of students whose primary language is not standard English. Provides students practice in applying these concepts to editing their own writing. Designed for entering first–year students. Enrollment restricted to first–year students. Enrollment limited to 22. The Staff

22B. Grammar and Editing Workshop (3 credits). W

Offers instruction on selected topics in grammar and conventions of written English as needed to strengthen the writing skills of students whose primary language is not standard English. Provides students practice in applying these concepts to editing their own writing. Designed for continuing students who have already taken course 20 and/or 21. Enrollment limited to 22. The Staff

23. Grammar and Rhetoric: Language for Writing. F

Builds on writing skills gained in previous writing courses; focuses on effective language use in academic writing. Students reinforce their written English proficiency by reading, studying, practicing, and writing structures and patterns of written English. Enrollment restricted to students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment restricted to first–year students and sophomores. Enrollment limited to 22. The Staff

42. Student–Directed Seminar.

Seminars taught by upper–division students under faculty supervision. (See course 192.) The Staff

64. Newswriting Workshop. *

Introduction to the basic techniques of newswriting, including practice in leads, formats, and different kinds of news reporting. Emphasis on developing skills in research, interviewing, and shaping stories. Includes an examination of the contemporary media. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, instructor determination at first class meeting. Enrollment limited to 22. (General Education Code(s): W.) The Staff

70. Communication and Rhetoric: An Introduction. *

This course introduces the field of contemporary communication studies, locating its roots in rhetoric and showing how key concepts play out in mass media and other settings as well as in everyday life. Prerequisite(s): satisfaction of the Entry Level Writing requirement. The Staff

93. Field Study. F,W,S

For lower–division students: supervised study within commuting distance of campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Prerequisite(s): satisfaction of the Entry Level Writing requirement; certification of adequate preparation; approval of Writing Program. May be repeated for credit. The Staff

93F. Field Study (2 credits). F,W,S

99F. Tutorial (2 credits). F,W,S

Individual, directed study for lower-division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Upper-Division Courses

101. Introduction to the History, Theory, and Practice of Rhetoric. W

A survey of classical and contemporary ideas about rhetoric which explores, practically and theoretically, "the best means of persuasion in any situation whatsoever" and will consider the nature of human discourse in diverse areas of knowledge. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. (General Education Code(s): W.) C. Freeman

102. The Rhetoric of the Social Sciences. *

Develops rhetorical facility in disciplinary writing for upper-division social science majors. Requires critical and disciplinary reading, writing in modes appropriate to social science disciplines, and a substantial research or critical paper within the student's own discipline. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): W.) The Staff

103. Rhetoric of the Natural Sciences. *

This course explores writing genres within the natural sciences. Emphasis is on the relationships between good science and good writing, clear thinking and clear writing. Frequent papers and substantive revisions required. Prerequisite(s): completion of 10 units coursework in the natural sciences, satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to juniors and seniors during priority enrollment. Enrollment limited to 30. (General Education Code(s): W.) The Staff

104. Writing in the Arts. *

A writing course focusing on the purposes and composition of various genres of writing about and in the performing arts, visual arts, and music such as reviews, program and exhibit notes, journal and magazine articles, grant proposals, and press releases. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 30. (General Education Code(s): W.) The Staff

106. Public Speaking. *

Students learn strategies to write, analyze, and deliver effective speeches of various kinds as well as professional presentations using PowerPoint and other visuals. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. The Staff

107. Technical and Business Writing: An Overview. *

An exploration of the conventions and formats of business and technical writing. Course work involves writing effective resumes, proposals, letters, end-user manuals, and the fundamentals of Web site design. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 30. The Staff

108. Electronic Communication. *

An introduction to the evolving conventions of effective Web site design as well as collaborative writing. Course work includes evaluation of Web site content and structure and creation of hypertext. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 24. The Staff

109. Argument and Practical Reasoning. *

An investigation of contemporary persuasive discourse with special attention to the elements and forms of argument, the nature of evidence, questions of validity and probability, and the workings of rhetorical reasoning. Emphasizes the analysis of arguments rather than their construction. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. The Staff

110A. Writing in the Professions. *

Study of writing required in the selected professions, including law, politics, and government. Considers the rhetoric of each discipline and relevant texts. Includes lectures from visiting professionals and a series of writing assignments based on reading and research. Topic may vary from year to year, focusing on the rhetoric of other professional divisions: medicine, engineering, economics, and so forth. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. (General Education Code(s): W.) The Staff

120. Editing English Prose. *

This course offers extended, detailed instruction in editing one's own and other people's prose for accuracy, clarity, appropriateness, and effectiveness. It provides some history of theories of style and stylistic analysis, and instruction in prose variation according to social context. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. The Staff

159. Grammar for Tutors and Teachers (3 credits). W

English grammar from a pedagogical perspective, emphasizing structures, patterns, and conventions of written English that commonly challenge basic writers. Students learn strategies for helping multilingual and other writers improve their writing skills by increasing their awareness of grammar. Prerequisite(s): course 169, or by instructor permission. Enrollment limited to 45. The Staff

161. Academic Writing and Research Methods. *

Introduces library and field research methods and also provides instruction and practice in writing from research, addressing issues such as voice, argument, and documentation. Students write four lengthy essays and do considerable informal writing. Course 161 includes sections for re-entry women, transfer students, and students in the EOP Faculty Mentor Program. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Students should contact the instructor for enrollment information. Enrollment limited to 20. (General Education Code(s): W.) The Staff

163. Advanced Workshop in Expository Writing. *

A composition course for students who, having mastered basic writing skills, wish to concentrate on increasing their effectiveness as rhetoricians, prose stylists, and editors. Assignments include writing and revising essays, responding to other students' work, and reading published essays. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 22. May be repeated for credit. (General Education Code(s): W.) The Staff

165. Practicum in Reporting. *

In-depth, community-based reporting, with an emphasis on skills ranging from interviewing techniques to profiles, integrating research with writing. Students choose a specific area or "desk" of concentration, and all the stories reflect that beat. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; a writing sample, completed in class, is required at first class meeting. Enrollment restricted to journalism minors during priority enrollment. Enrollment limited to 22. (General Education Code(s): W.) The Staff

166. Topics in Journalism. *

Courses under this heading explore fields of newspaper and magazine journalism: feature writing, investigative reporting, reviewing, commentary, etc. Students study published writing and hone their own skills as writers under the supervision of a practicing journalist. See the Schedule of Classes for specific offerings. The Staff

166A. Magazine Writing. *

Introduces students to the various forms of magazine writing, as well as to pertinent reporting techniques. Students work intensively on process, style, and editing, producing numerous formal and informal pieces. Enrollment priority will be given to journalism minors. Students produce a writing sample on the first day of class. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 64 or permission of instructor. Enrollment limited to 22. (General Education Code(s): W.) The Staff

166B. Investigative Reporting. *

Students acquire basic investigative and research skills, with particular emphasis on how to develop investigative subjects, obtain data, check accuracy, and convert information into well written, publishable articles. Priority given to students concentrating in journalism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; interview with instructor to review journalism portfolio. Enrollment limited to 22. (General Education Code(s): W.) The Staff

166D. Minorities in Journalism. *

Focuses on the minority press and how it has shaped journalism in the U.S. as well as viewing how the media has dealt with this segment of our society. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and consent of instructor. Enrollment limited to 22. (General Education Code(s): W.) The Staff

166J. Online Journalism. *

A course in using electronic sources to report articles for publication and in publishing journalistic pieces online. Prerequisite(s): course 64 or journalism experience; instructor determination at first class meeting. Enrollment limited to 25. The Staff

166N. The Rhetoric of Radio. *

Examines the theory and practice of radio. Students explore how the formats of radio create its meaning, and investigate radio's place in the landscape of the media, particularly in the U.S. and Mexico. Prerequisite(s): satisfaction of the Entry level Writing and Composition requirements and consent of instructor. Enrollment limited to 25. The Staff

167. Making the News. *

A writing course examining news and feature articles in popular print media. Students write their own articles and analyze how a particular content is mandated by conventional forms, by the structure of the industries, and by ideas of "newsworthiness." Designed for journalism minors and students for whom a course in media criticism is central to their program. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; qualifications determined by instructor at first class meeting. Enrollment limited to 43. (General Education Code(s): W.) The Staff

169. Theory and Practice of Tutoring Writing (3 credits). F

An introduction to theory and research on the composing process and practical strategies for teaching writing, especially in tutorial situations. Recommended for writing assistants. Prerequisite(s): instructor determination at first class meeting; course intended for writing tutors only. Enrollment limited to 30. (General Education Code(s): PR-S.) R. King

180. Seminar in Editing and Publishing. *

Newswriting seminar for City on a Hill editors and writers. Weekly sessions evaluate newspaper in depth, including writing, reporting, and issues in journalism ranging from ethics to legal questions. Prerequisite(s): instructor determination at first class meeting; open only to editors, interns, and writers at City on a Hill Press. Enrollment limited to 40. May be repeated for credit. The Staff

189. Methods of Teaching Writing. *

Supervised by a writing instructor, each student attends a weekly seminar on teaching writing and either assists in a class or serves as a facilitator of a small writing group in a course at UCSC or a public school. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

191. Internships.

Individual work in journalism, publishing, or broadcasting. Internships require a contracted amount of writing or other work, and generally involve group tutorials with faculty in the Writing Program as well as individual conferences. The Staff

191A. Internship in Writing. F,W,S

Regular writing for newspaper or magazine. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

191B. Internship in Editing. F,W,S

Work in an editorial position involving critique and guidance of reporters. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

191C. Internship in Publishing. F,W,S

All phases of work for a publishing house, from manuscript reading to editorial. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

191D. Internship in Broadcasting. F,W,S

Writing, editing, scheduling, and/or broadcast work for television or radio. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. May be repeated for credit. The Staff

193. Field Study. F,W,S

For upper-division students: supervised study within commuting distance of the campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Prerequisite(s): satisfaction of Entry Level Writing requirement; students submit petition to sponsoring agency. The Staff

193F. Field Study (2 credits). F,W,S

For upper-division students: supervised study within commuting distance of the campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

194. Group Tutorial. F,W,S

A writing, editing, or publishing project undertaken by a small group of students under the direct supervision of a writing instructor. Students submit petition to sponsoring agency. Enrollment limited to 15. May be repeated for credit. The Staff

195. Senior Thesis. F,W,S

Individual work on a thesis for any campus major or individual major. Faculty in the Writing Program help students on all phases of work, from selection and focus to development of bibliographies, research techniques, revision, and editing. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

196. Developing and Editing Field Documentation (2 credits). *

Helps students transform field documentation into fully developed, professional projects. Employs a weekly production schedule and teaches principles of rhetoric as a means of effectively selecting and arranging documentary materials. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; interview with instructor to review documentary materials. Enrollment limited to 20. The Staff

198. Independent Field Study. F,W,S

Individual study for which faculty supervision is possible only by correspondence. May include internships at newspapers, magazines, publishing houses, or the newsletters of corporations, and civic or service organizations. Prerequisite(s): satisfaction of Entry Level Writing requirement; students submit petition to sponsoring agency. May be repeated for credit. The Staff

198F. Independent Field Study (2 credits). F,W,S

Individual study for which faculty supervision is possible only by correspondence. May include internships at newspapers, magazines, publishing houses, or the newsletters of corporations, and civic or service organizations. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199. Tutorial. F,W,S

Individual, directed study for upper-division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

199F. Tutorial (2 credits). F,W,S

Individual, directed study for upper-division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. The Staff

Graduate Courses

202. Writing and Learning Seminar (3 credits). *

Strategies for teaching assistants to help undergraduates become better learners and writers in disciplinary courses. Topics include using writing to improve reading and thinking, analysis of assignments, avoiding plagiarism, responding to and evaluating papers, ESL writers, peer response, and technological aids. Enrollment restricted to graduate students. Enrollment limited to 30. The Staff

203. Teaching Writing. S

Prepares graduate students to teach first-year composition at UCSC and elsewhere. Development of a syllabus, teaching strategy, and class plans based on study of composition and rhetorical theories, research on students' writing development, and effective writing pedagogies. Enrollment restricted to graduate students. Enrollment limited to 18. J. Wilson, A. Weaver

* Not offered in 2012-13

[Course Descriptions](#)

Program Description

Students interested in acquiring proficiency in Yiddish can enroll in beginning language courses. In addition, some credit from these courses may be counted toward the major or minor in Jewish studies; consult with the Jewish studies program. Lower–division courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Attention is also given to developing an understanding of the culture that has been expressed through the Yiddish language. Some instruction takes place in Yiddish from the beginning level.

Campus Language Laboratories and Placement Exams

Information about these topics can be found under [Language Program](#).

Teaching and Administrative Staff

2012–13 General Catalog

Teaching Staff

Faculty titles for 2012–13 were verified as of Aug. 31, 2012, and subsequent changes may not be reflected in the following list. Please note that inclusion in this list is not a guarantee that the faculty member will be teaching throughout the 2012–13 academic years. In addition, some faculty listed here as emeriti may be recalled to teach courses.

The listing for most faculty members includes college membership, year of arrival at UC Santa Cruz, academic title, degrees, and former affiliations.

Martin Abadi, Stevenson College (2001)

Professor, Computer Science

B.S., M.S., Ph.D., Stanford University. Former affiliations: Systems Research Center, Compaq; Bell Labs Research; Lucent Technologies.

Ralph H. Abraham, Kresge College (1968)

Professor Emeritus, Mathematics

B.S.E., M.S., Ph.D., University of Michigan. Former affiliations: Princeton University; Columbia University; University of California, Berkeley.

W E. Abraham, Cowell College (1973)

Professor Emeritus, Philosophy

B.A., University of London; M.A., B.Phil., Oxford University. Former affiliations: Macalester College; University of Ghana; University of California, Berkeley; Stanford University.

Elizabeth S. Abrams, Porter College (2000)

Lecturer, Writing

A.B., University of California, Berkeley; M.A., M.Phil., Yale University. Former affiliation: Harvard Expository Writing Program.

Zsuzsanna Abrams (2010)

Associate Professor, German Language

B.A., University of Wisconsin, Eau Claire; M.A., Ph.D., University of Tucson. Former affiliations: University of Texas at Austin.

Demetrios Achlioptas (2005)

Professor, Computer Sciences

B.Eng., University of Patras; M.Sc., Ph.D., University of Toronto. Former affiliations: Microsoft research, Redmond, WA..

Robert Adams, Crown College (1967)

Professor Emeritus, Economics

B.A., Oberlin College; M.A., Ph.D., University of Michigan. Former affiliations: University of Pittsburgh; University of Maryland.

Anthony N. Aguirre (2003)

Associate Professor, Physics

B.A., Brown University; M.A., Ph.D., Harvard University. Former affiliation: Institute for Advanced Study (Princeton).

Julia M. Aguirre (2001)

Assistant Professor, Education

B.A., University of California, Berkeley; M.A., University of Chicago; Ph.D., University of California, Berkeley.

Patrick P. Aherne, Porter College (1966)

Professor Emeritus, Art

B.F.A., University of Kansas; M.A., Northwestern University. Former affiliation: Artist-in-Residence, Kings Canyon and Sequoia National Parks.

Judith L. Aissen, Stevenson College (1983)

Research Professor Emerita, Linguistics

B.A., Fordham University; M.A., Yale University; Ph.D., Harvard University. Former affiliations: University of California, Los Angeles; Yale University; University of California, Santa Barbara.

Joshua Aizenman, College Nine (2001)

Professor, Economics

B.A., M.A., Hebrew University of Jerusalem; Ph.D., University of Chicago. Former affiliations: University of Pennsylvania; University of Chicago; Hebrew University of Jerusalem; Dartmouth College.

Ramakrishna Akella (2003)

Professor, Technology and Information Management

B.S., Indian Institute of Technology; Ph.D., Indian Institute of Science. Former affiliations: State University of New York at Buffalo; Carnegie Mellon University.

Mark A. Akeson (1996)

Professor, Biomolecular Engineering

B.A., University of California, San Diego; Ph.D., University of California, Davis.. Concurrent Affiliation: Former affiliations: University of California, Santa Cruz; National Institutes of Health; University of California, Davis..

Nameera N. Akhtar, Crown College (1995)

Professor, Psychology

B.S., M.S., Ph.D., Dalhousie University (Canada).

Jorge Aladro Font, Merrill College (1992)

Professor, Spanish Literature

M.A., University of Barcelona; Ph.D., State University of New York at Albany. Former affiliations: Skidmore College; State University of New York at Albany.

Peter Aldhous

Lecturer in Science Writing

B.S., University of Bristol, England; Ph.D., University of Nottingham, England.

Eric Aldrich (2012)

Assistant Professor, Economics

B.S., Duke University; M.S., University of Washington; M.A., Ph.D., Duke University

George T. Amis, Cowell College (1965)

Professor Emeritus, English Literature

B.A., Amherst College; M.A., Ph.D., Yale University. Former affiliations: Yale University; Williams College.

Margaret Amis
Lecturer, Writing

Pranav Anand, Stevenson College (2006)
Assistant Professor
A.B., Harvard University; Ph.D., MIT.

Elliot W. Anderson, Porter College (1997)
Associate Professor, Art
B.A., M.A., San Francisco State University. Former affiliation: San Francisco Art Institute.

Eric C. Anderson (2008)
Assistant Adjunct Professor, Applied Mathematics and Statistics
B.A., Stanford University; M.S., Ph.D., University of Washington.. Former affiliation:
Southwest Fisheries Science Center..

Mark D. Anderson, Merrill College (2003)
Associate Professor, Anthropology
B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., University of Texas at Austin.
Former affiliation: University of Chicago.

Roger W. Anderson, Porter College (1968)
Professor Emeritus, Chemistry and Biochemistry
B.A., Carleton College; M.A., Ph.D., Harvard University.

Frank C. Andrews, Merrill College (1967)
Emeritus
B.S., Kansas State University; M.A., Ph.D., Harvard University. Former affiliation: University
of Wisconsin.

Lawrence Andrews, Porter College (1991)
Associate Professor, Film and Digital Media
B.F.A., San Francisco Art Institute.

Karen L. Andrie (1993)
Lecturer, Music (Cello)
B.M., Performer's Certificate, Eastman School of Music. Concurrent affiliations: Cabrillo
College; Popper-Keizer Summer Music Conservatory; Santa Cruz Chamber Players; Santa
Cruz New Music Works; Monterey Symphony.

David H. Anthony, Oakes College (1988)
Associate Professor, History
A.B., New York University; A.M., Ph.D., University of Wisconsin-Madison. Former affiliation:
University of Oregon.

Bettina F. Aptheker, Kresge College (1979)
Professor, Feminist Studies and History
B.A., University of California, Berkeley; M.A., San Jose State University; Ph.D., University of
California, Santa Cruz. Former affiliation: San Jose State University.

Dane Archer, Stevenson College (1972)
Professor Emeritus, Sociology
B.A., Yale University; M.A., Ph.D., Harvard University.

Sondra M. Archimedes (2004)
Lecturer, Writing
B.A., M.A., San Francisco State University; Ph.D., University of California, Santa Cruz.

Manuel Ares, Porter College (1987)
Professor, Molecular, Cell, and Developmental Biology
B.S., Cornell University; Ph.D., University of California, San Diego. Former affiliation: Yale
University.

Jeffrey M. Arnett (1987)
Lecturer, Writing
B.A., University of California, Santa Cruz; M.A., University of Colorado, Boulder. Former affiliation: Santa Clara University.

Anjali R. Arondekar, Kresge College (2000)
Associate Professor, Feminist Studies
I.B., Armand Hammer United World College; B.A., Cornell University; Graduate Certificate, Ph.D., University of Pennsylvania.

Elliot Aronson, Stevenson College (1974)
Professor Emeritus, Psychology
B.A., Brandeis University; M.A., Wesleyan University; Ph.D., Stanford University. Former affiliations: Harvard University; University of Minnesota; University of Texas at Austin.

Gabriela F. Arredondo, Merrill College (1998)
Associate Professor, Latin American and Latino Studies
B.A., Reed College; M.A., San Francisco State University; Ph.D., University of Chicago.

Derede L. Arthur (2001)
Lecturer, Writing
M.A., Stanford University. Former affiliations: Santa Clara University; De Anza College; Cogswell College, Sunnyvale.

Doris B. Ash, Porter College (2000)
Associate Professor, Education
B.S., M.S., Cornell University; Ph.D., University of California, Berkeley. Former affiliation: San Francisco Exploratorium.

Noriko Aso, Merrill College (1998)
Assistant Professor, History
B.A., Yale University; M.A., Ph.D., University of Chicago. Former affiliation: Portland State University.

Erik Asphaug, College Eight (1998)
Professor, Earth and Planetary Sciences
B.A., Rice University; Ph.D., University of Arizona, Tucson. Former affiliations: SETI Institute; NASA Ames Research Center.

Neda Atanasoski (2008)
Assistant Professor, Feminist Studies
B.A., University of Minnesota Twin Cities; M.A., Ph.D., University of California, San Diego. Concurrent Affiliation: Former affiliations: SUNY Stony Brook University.

Charles O. Atkinson, Porter College (1978)
Lecturer, Creative Writing
B.A., Amherst College; M.A., Ph.D., University of California, Santa Cruz. Former affiliation: Hampshire College.

William B. Atwood (2001)
Adjunct Professor, Physics
B.S., California Institute of Technology; Ph.D., Stanford University. Former affiliation: Stanford Linear Accelerator Center.

Margarita Azmitia, Cowell College (1989)
Professor, Psychology
B.A., M.A., University of North Carolina at Greensboro; Ph.D., University of Minnesota. Former affiliation: Florida International University.

Delbert D. Bailey (2004)
Research Associate, Computer Science

B.S., Portland State University; M.S., Ph.D. University of California, Santa Cruz. University of Oregon, Medical School.

Mark Baker (2000)

Lecturer, Writing

B.A., University of California, Irvine; M.A., San Francisco State University. Former affiliation: San Francisco State University.

John C. Balachandra (2009)

Adjunct Professor, Electrical Engineering

B.S., University of Sri Lanka; M.S., Ph.D., Texas A&M University. Former affiliations: Distributed Power & Electronics Center; California State University, Sacramento..

Gopal Balakrishnan, Oakes College (2006)

Associate Professor, History of Consciousness

B.A., Cornell University; M.A., University of California, Los Angeles; Ph.D., University of California, Los Angeles. University of Chicago.

Thomas I. Banks (1986)

Professor, Physics

B.A., Reed College; Ph.D., Massachusetts Institute of Technology.. Former affiliations: Stanford Linear Accelerator Center; Tel Aviv University; Institute for Advanced Study (Princeton); Rutgers University..

Karen M. Barad, Kresge College (2005)

Professor, Feminist Studies

B.A., Brandeis University; Ph.D., State University of New York at Stony Brook. Concurrent Affiliation: Former affiliations: Mount Holyoke College, Rutgers University, Pomona College, Barnard College.

Brenda Barcelo, Merrill College (1995)

Lecturer, Spanish Language

B.A., M.A., University of California, Santa Barbara. Former affiliations: Cuesta College; Alianza Cultural Uruguay–U.S.A. (Montevideo).

Brandin S. Baron, Porter College (2006)

Associate Professor, Theater Arts

B.A., Indiana University School of Music; M.F.A., University of California, San Diego. Former affiliation: The Academy of Art University, San Francisco.

Lora Bartlett (2004)

Assistant Professor, Education

B.A., M.Ed., University of Massachusetts, Amhurst; Ph.D., University of California, Berkeley. Former affiliation: University of London.

Karen L. Bassi, Cowell College (1988)

Professor, Classics (Literature)

B.A., University of California, Santa Cruz; Ph.D., Brown University. Former affiliations: Syracuse University; University of Rhode Island; Brown University.

Dilip K. Basu, Merrill College (1971)

Associate Professor Emeritus, History

B.A., M.A., Calcutta University; M.A., Harvard University; Ph.D., University of California, Berkeley. Former affiliations: University of Michigan; University of California, Berkeley.

Frank Bauerle (1994)

Lecturer, Mathematics

B.A., Technische Hochschule Karlsruhe; M.A., Ph.D., University of California, San Diego. Former affiliations: Monash University; Cornell University.

Murray Baumgarten, Kresge College (1966)

Professor, English and Comparative Literature; Neufeld Levin Professor, Holocaust Studies

B.A., Columbia University; M.A., Ph.D., University of California, Berkeley. Former affiliations: Hebrew University of Jerusalem; Williams College; University of California Education Abroad Program (Jerusalem).

Amy C. Beal, Porter College (2001)

Professor, Music

B.M., M.M., University of Kansas; M.A., Ph.D., University of Michigan. Former affiliation: Bates College.

Michael W. Beck (2007)

Assistant Adjunct Professor

Ph.D., Florida State University.

Jonathan F. Beecher, Stevenson College (1970)

Professor Emeritus, History

B.A., Ph.D., Harvard University. Former affiliations: Harvard University; Ecole Normale d'Instituteurs (France).

David P. Belanger, College Eight (1984)

Professor, Physics

B.S., M.S., Georgia Institute of Technology; Ph.D., University of California, Santa Barbara.

Dorian Bell (2010)

Assistant Professor, Literature

B.A., Cornell University; M.A., Ph.D., University of Pennsylvania. Former affiliations: University of California, Irvine; Stanford University.

Ilan Benjamin, Stevenson College (1989)

Professor, Chemistry and Biochemistry

B.Sc., Ph.D., Hebrew University of Jerusalem. Former affiliation: University of California, San Diego.

Caetlin Benson–Allott (2008)

Assistant Professor, Film and Digital Media

B.A., University of California, Berkeley; M.A., Ph.D., Cornell University. Wells College, New York; Ithaca College, New York.

Harry Berger, Cowell College (1965)

Professor Emeritus, English Literature and History of Art and Visual Culture

B.A., Ph.D., Yale University. Former affiliation: Yale University.

Martin A. Berger, Porter College (2004)

Professor, History of Art and Visual Culture

B.A., Wesleyan University; M.A., M.Phil., Ph.D., Yale University. Former affiliations: Colby College; University of North Carolina at Chapel Hill; Northwestern University; State University of New York at Buffalo; Yale University.

Ralph J. Berger, Cowell College (1967)

Professor Emeritus, Ecology and Evolutionary Biology

B.A., M.A., Cambridge University; Ph.D., University of Edinburgh. Former affiliations: University of Edinburgh; National Institute of Neurological Diseases and Blindness; University of Puerto Rico; University of California, Los Angeles.

Robert F. Berkhofer, Merrill College (1991)

Professor Emeritus, History

B.A., State University of New York at Albany; M.A., Ph.D., Cornell University. Former affiliations: University of Michigan, Ann Arbor; University of Wisconsin–Madison; University of Minnesota.

Nathaniel A. Berman (2007)

Lecturer, Music (Concert Choir)

B.A., M.A., University of California, Santa Cruz. Former affiliation: Robert Louis Stevenson

High School, Pebble Beach.

Phillip W. Berman (2006)

Professor, Biomolecular Engineering

A.B., University of California, Berkeley; P.h.D., Dartmouth Medical School.. Concurrent

Affiliation: Global Solutions for Infectious Diseases. Genentech; VaxGen.

Giacomo Bernardi (1994)

Associate Professor, Ecology and Evolutionary Biology

B.S. (Maitrise), M.Sc. (D.E.A.), Ph.D. (These d'Universite), University of Paris. Former

affiliations: Institut Jacques Monod (Paris); Hopkins Marine Station, Stanford University.

Claude F. Bernasconi, Merrill College (1967)

Professor, Chemistry and Biochemistry

Diploma, Ph.D., Swiss Federal Institute of Technology (ETH) (Zurich). Former affiliation:

Max Planck Institute for Biophysical Chemistry (Gottingen).

Rebecca A. Bernstein (2007)

Associate Professor

B.A., Princeton; Ph.D., California Institute of Technology. Carnegie Observatories;

University of Michigan.

Eva C. Bertram, Merrill College (2003)

Assistant Professor, Politics

B.A., Swarthmore College; M.A., M.Phil., Ph.D. cand., Yale University.

Julie Bettie, College Eight (1997)

Associate Professor, Sociology

B.S., Boise State University; M.A., Ph.D., University of California, Davis.

Needhi Bhalla (2008)

Assistant Professor

B.A., Columbia College, New York; Ph.D., University of California. University of California, Berkeley.

Nandini Bhattacharya (2010)

Lecturer, Mathematics

B.A., Bryn Mawr College; M.A., University of California, Santa Cruz. Former affiliations:

Academic Excellence (ACE) Program, University of California, Santa Cruz; Cabrillo College.

Zhixi Bian (2008)

Assistant Adjunct Professor

B.S., Nankai University; M.S., Beijing University; Ph.D., University of California, Santa Cruz.

Former affiliations: Vishay Siliconix; Beijing University..

James H. Bierman, Cowell College (1973)

Professor, Theater Arts (Drama)

B.A., Princeton University; Diplome, University of Paris, Sorbonne; Ph.D., Stanford

University. Former affiliations: Smith College; Amherst College.

Raoul Birnbaum, Kresge College (1991)

Patricia and Rowland Rebele Professor, History of Art and Visual Culture

B.A., College of the City of New York; M.A., M.Phil., Ph.D., Columbia University. Former

affiliations: University of Iowa; Princeton University; Harvard University; Metropolitan Museum of Art.

Andrew H. Bivens (2008)

Assistant Professor, Literature

B.A., Bard College; Ph.D., University of Chicago. Former affiliation: Moravian College.

Courtney A. Blackburn (1980)

Physical Education Instructor

Certified master of Yung Style Tai Chi Chuan under Grand Master Liu, Yao Ting.

Chelsea Blackmore (2010)

Assistant Professor, Anthropology

B.A., Georgia Southern University, Statesboro; M.A., Florida State University, Tallahassee;

Ph.D., University of California, Riverside.

George R. Blumenthal, Oakes College (1972)

Chancellor; Professor, Astronomy and Astrophysics

B.S., University of Wisconsin–Milwaukee; Ph.D., University of California, San Diego.

Peter H. Bodenheimer, Stevenson College (1967)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory

B.A., Harvard University; Ph.D., University of California, Berkeley.

Hinrich. Boeger (2006)

Assistant Professor, Molecular, Cell, and Developmental Biology

B.S., M.S., Christian–Albrechtz University; Ph.D., Max Planck Institute for Biophysical

Chemistry; post–doctorate, Stanford University. Former affiliation: Stanford University

Medical School.

Roberto A. Bogomolni, Porter College (1988)

Professor, Chemistry and Biochemistry

Diploma, University of Buenos Aires; Ph.D., University of California, Berkeley. Former

affiliations: University of California, San Francisco; University of California, Berkeley.

Michael Bolte (1993)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory

B.S., University of Central Florida; M.S., Florida State University; Ph.D., University of

Washington. Former affiliations: NASA/Space Telescope Science Institute; Dominion

Astrophysical Observatory.

Robert Boltje (1999)

Professor, Mathematics

Dipl. Math., University of Munich; Dr. habil., Dr. rer. nat., University of Augsburg.

Douglas Bonett (2013)

Professor, Psychology

B.A., California State University, Fresno; M.A., Statistics, California State University Long

Beach; M.A., Ph.D., Psychology, University of California, Los Angeles. Former affiliation:

Iowa State University.

John G. Borrego, Merrill College (1974)

Professor Emeritus, Latin American and Latino Studies

B.A., University of California, Berkeley; M.A., Washington University; M.C.P., Massachusetts

Institute of Technology; Ph.D., University of California, Berkeley. Former affiliation:

University of New Mexico.

John F. Bowin, Cowell College (2005)

Associate Professor, Philosophy

B.A., M.B.A., M.A., University of Chicago; M.A., Ph.D., University of Texas at Austin.

Barry J. Bowman, Oakes College (1979)

Professor, Molecular, Cell, and Developmental Biology

B.A., University of Wisconsin; Ph.D., University of Michigan. Former affiliation: Yale

University.

Mark Brandenburg (1989)

Lecturer, Music (Clarinet)

B.M., M.S., Juilliard School of Music.

Scott A. Brandt, Crown College (1999)

Professor, Computer Science
B.S., M.S., University of Minnesota, Minneapolis; Ph.D., University of Colorado, Boulder.

Alexandre Brandwajn (1985)
Professor, Computer Engineering
B.A., Docteur-Ingenieur, Docteur d'Etat, University of Paris. Former affiliations: Amdahl Corporation; Ecole Nationale Supérieure des Telecommunications (ENST) (Paris); Duke University.

Rebecca Braslau, Stevenson College (1991)
Professor, Chemistry and Biochemistry
B.A., Reed College; Ph.D., University of Wisconsin-Madison. Former affiliation: Institut für Organische Chemie (Basel, Switzerland).

Adrian Brasoveanu (2008)
Associate Professor, Linguistics
B.A., M.A., University of Bucharest; Ph.D., Rutgers University.

Donald L. Brenneis, Cowell College (1996)
Professor, Anthropology
B.A., Stanford University; Ph.D., Harvard University. Former affiliation: Pitzer College.

Bruce Bridgeman, College Eight (1973)
Professor Emeritus, Psychology and Psychobiology
B.A., Cornell University; Ph.D., Stanford University. Former affiliations: Free University of Berlin; University of California, Berkeley.

Frank G. Bridges, Stevenson College (1970)
Professor Emeritus, Physics
B.Sc., M.Sc., University of British Columbia; Ph.D., University of California, San Diego.
Former affiliation: University of California, San Diego.

Jean P. Brodie, Cowell College (1987)
Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., University of London; Ph.D., Cambridge University. Former affiliation: University of California, Berkeley.

Emily E. Brodsky (2006)
Associate Professor, Earth and Planetary Sciences
A.B., Harvard University; Ph.D., California Institute of Technology. Former affiliation: University of California, Los Angeles.

Joyce E. Brodsky, Porter College (1992)
Professor Emerita, Art
B.A., Brooklyn College; M.A., New York University; Ph.D. cand., Yale University; Ecole du Louvre. Former affiliation: University of Connecticut.

Jamie L. Bronstein (2006)
Visiting Associate Professor, History
Ph.D., Stanford University. Former affiliation: New Mexico State University.

Eileen L. Brooks, College Nine (2001)
Assistant Professor, Economics
B.S., Massachusetts Institute of Technology; M.Litt., Oxford University; A.M., Ph.D., Harvard University.

Margaret R. Brose, Cowell College (1978)
Professor Emerita, Italian and Comparative Literature
B.A., Wayne State University; M.A., Ph.D., Harvard University. Former affiliations: Yale University; University of Colorado.

George S. Brown, Porter College (1990)

Professor Emeritus, Physics; Vice Provost, Academic Affairs
B.S., California Institute of Technology; M.S., Ph.D., Cornell University. Former affiliations: Cornell University; Bell Laboratories; Stanford University; Stanford Synchrotron Radiation Laboratory.

Michael K. Brown, Merrill College (1982)
Emeritus, Politics
B.A., University of Oregon; M.P.A., Ph.D., University of California, Los Angeles. Former affiliation: Virginia Polytechnic Institute and State University.

Kenneth W. Bruland, Crown College (1974)
Professor, Ocean Sciences
B.A., Western Washington State College; Ph.D., Scripps Institution of Oceanography, University of California, San Diego.

Nicholas H. Brummell (2006)
Professor, Applied Mathematics and Statistics
B.Sc., Imperial College, London, UK; D.I.C., Imperial College, London, UK; Ph.D., Imperial College, London, UK. JILA and the Department of Astrophysical and Planetary Sciences, University of Colorado, Boulder..

David T. Brundage, College Eight (1985)
Professor, History
B.A., Reed College; M.A., University of Warwick (England); Ph.D., University of California, Los Angeles. Former affiliation: Research Foundation, Graduate Center of the City University of New York.

Heather E. Bullock, College Ten (1999)
Professor, Psychology
B.A., Allegheny College; M.A., Ph.D., University of Rhode Island. Former affiliation: Nebraska Wesleyan University.

George Bunch, College Ten (2004)
Associate Professor, Education
B.A., Georgetown University; M.A., University of Maryland, Baltimore County; Ph.D., Stanford University. Former affiliation: Stanford University.

Joseph F. Bunnett, Crown College (1966)
Professor Emeritus, Chemistry and Biochemistry
B.A., Reed College; Ph.D., University of Rochester. Former affiliations: Reed College; University of North Carolina; Brown University.

Victor Burgin, Oakes College (1988)
Professor Emeritus, History of Consciousness
A.R.C.A., Royal College of Art (London); M.F.A., Yale University. Former affiliation: Polytechnic of Central London.

Peter N. Burgoyne (1967)
Professor Emeritus, Mathematics
B.Sc., M.Sc., McGill University; Ph.D., Princeton University. Former affiliations: Princeton University; University of California, Berkeley; University of Illinois, Chicago.

Edmund Burke, Merrill College (1968)
Professor, History; UC Presidential Chair
B.A., University of Notre Dame; M.A., Ph.D., Princeton University.

Linda C. Burman-Hall, Porter College (1975)
Professor, Music
B.A., University of California, Los Angeles; M.F.A., Ph.D., Princeton University.

Julianne Burton-Carvajal, Merrill College (1974)
Professor Emerita, Literature

B.A., Denison University; M.Phil., Ph.D., Yale University. Former affiliation: University of Texas.

Jeffrey T. Bury, College Eight (2006)

Associate Professor, Environmental Studies

B.A., University of Utah; M.A., The American University; Ph.D., University of Colorado. Former affiliation: Department of Geography and Human Sciences, San Francisco State University.

Catherine C. Byrne (2004)

Assistant Professor, Psychology

B.A., Southern Oregon State College, Ashland; M.A., University of Notre Dame; Ph.D., University of Nevada, Reno. Former affiliation: University of Pennsylvania, Solomon Asch Center for Study of Ethnopolitical Conflict.

Melissa L. Caldwell, College Eight (2004)

Professor, Anthropology

B.A., University of Tennessee; M.A., Indiana University; A.M., Ph.D., Harvard University. Former affiliations: Northeastern University; Harvard University.

Carlos Calierno, Merrill College (1990)

Lecturer, Spanish Language

M.A., San Francisco State University; law degree, Facultad De Ciencias Juridicas (Santa Fe, Argentina).

Maureen Callanan, Crown College (1989)

Professor, Psychology

A.B., Mount Holyoke College; Ph.D., Stanford University. Former affiliations: University of Texas at Austin; Lehigh University.

Elisabeth L. Cameron, Porter College (2001)

Associate Professor, History of Art and Visual Culture

B.A., Agnes Scott College; M.A., Ph.D., University of California, Los Angeles. Former affiliation: Nelson-Atkins Museum of Art (Kansas City, Missouri).

Kenneth L. Cameron, Crown College (1973)

Professor Emeritus, Earth and Planetary Sciences

B.S., M.S., University of Houston; Ph.D., Virginia Polytechnic Institute and State University. Former affiliation: State University of New York at Stony Brook.

Walter I. Campbell (1989)

Lecturer, German Language

B.A., Whitman College; B.A., M.A., University of Washington.

Manel Camps, Crown College (2007)

Assistant Professor, Microbiology and Environmental Toxicology

D.V.M., Autonomous University of Barcelona; M.A., Autonomous University of Barcelona; Ph.D., Stanford University. University of Washington.

Mark H. Carr (1997)

Associate Professor, Ecology and Evolutionary Biology

B.A., University of California, Santa Cruz; M.S., San Francisco State University (Moss Landing Marine Laboratories); Ph.D., University of California, Santa Barbara. Former affiliations: Oregon State University; California Institute of Technology.

Benjamin L. Carson, College Eight (2003)

Associate Professor, Music

B.A., Willamette University; M.M., University of Washington, Seattle; Ph.D., University of California, San Diego. Former affiliations: University of California, Riverside; University of California, San Diego.

Sue A. Carter, Crown College (1995)

Professor, Physics

B.A., Kalamazoo College; Ph.D., University of Chicago. Former affiliations: AT&T Bell Laboratories; IBM–Almaden Research Center.

Pedro G. Castillo, Merrill College (1975)

Associate Professor Emeritus, History; Provost, Oakes College

B.A., Arizona State University; M.A., Northern Arizona University; Ph.D., University of California, Santa Barbara. Former affiliations: University of California, Santa Barbara; Yale University.

Giulia Centineo, Cowell College (1987)

Lecturer, Italian Language

Laurea, Università degli Studi di Palermo (Italy); M.A., Ph.D. cand., University of California, Berkeley.

Donald Chamberlin (2008)

Adjunct Professor, Computer Science

B.S., Harvey Mudd College, M.S., Ph.D., Stanford University. Concurrent Affiliation: Concurrent affiliations: IBM Almaden Research Center, San Jose. Former affiliations: IBM Research Division, New York.

Pak K. Chan, Crown College (1987)

Associate Professor, Computer Engineering

B.Sc., Chinese University of Hong Kong; M.Sc., Ph.D., University of California, Los Angeles. Former affiliation: University of California, Los Angeles.

Martin M. Chemers, Porter College (1995)

Professor Emeritus, Psychology

B.S., M.S., Ph.D., University of Illinois, Urbana–Champaign. Former affiliations: Claremont McKenna College; Claremont Graduate School; University of Utah; University of Delaware.

Michael Chemers (2012)

Associate Professor, Theater Arts

M.F.A., Indiana University; Ph.D., University of Washington

Bin Chen (2006)

Assistant Professor, Molecular, Cell, and Developmental Biology

Postdoctorate, Stanford University; Ph.D., SUNY Stony Brook; M.S. Beijing University; B.S., Beijing University. Former affiliation: Stanford University..

Bin Chen (2008)

Adjunct Professor, Electrical Engineering

B.S., Nanjing University; M.S., University of Illinois, Urbana–Champaign; Ph.D., Pennsylvania State University. Former affiliations: NASA Ames Research Center; Modus Nanotechnology, Inc.; Hal Technology; Physical Optics Corp.; Eloret Corp.; Pharmaceutical University of China..

Nancy N. Chen, Crown College (1994)

Professor, Anthropology

B.A., Stanford University; M.A., Ph.D., University of California, Berkeley. Former affiliation: Tufts University.

Shaowei Chen (2004)

Professor, Chemistry and Biochemistry

B.S., University of Science and Technology of China; M.S., Ph.D., Cornell University. Former affiliation: Southern Illinois University at Carbondale.

Ai–Ru Cheng (2004)

Assistant Professor, Economics

B.A., National Tsing–hua University; M.S., Ph.D., University of North Carolina at Chapel Hill.

Weixin Cheng, College Nine (1999)
Professor, Environmental Studies
B.S., Northeast Agricultural College (Harbin, China); Ph.D., University of Georgia.

Yin-Wong Cheung, Crown College (1990)
Professor, Economics
B.S., University of Hong Kong; M.A., University of Essex (England); Ph.D., University of Pennsylvania.

John B. Childs, College Ten (1987)
Professor Emeritus, Sociology
B.A., University of Massachusetts–Amherst; M.A., Ph.D., State University of New York at Buffalo. Former affiliations: National Academy of Sciences; Amherst College; Harvard University; Yale University.

Andrew Chisholm (1996)
Professor, Molecular, Cell, and Developmental Biology
B.A., Cambridge University; Ph.D., Medical Research Council Laboratory of Molecular Biology (Cambridge, England).

Alan S. Christy, Merrill College (1995)
Associate Professor, History
B.A., Carleton College; M.A., Ph.D., University of Chicago.

Patrick Y. Chuang (2001)
Assistant Professor, Earth and Planetary Sciences
B.Sc., University of Alberta; M.S., Ph.D., California Institute of Technology. Former affiliation: National Center for Atmospheric Research.

Louis O. Chude-Sokei, Oakes College (1998)
Associate Professor, Literature
B.A., Ph.D., University of California, Los Angeles. Former affiliations: Bowdoin College; Occidental College.

Sandra Chung, Cowell College (1986)
Professor, Linguistics
A.B., Radcliffe College; Ph.D., Harvard University. Former affiliations: University of California, Los Angeles; University of California, San Diego.

Mark Cioc, Stevenson College (1989)
Professor, History
B.S., M.A., University of Wyoming; Ph.D., University of California, Berkeley. Former affiliation: University of Massachusetts–Amherst.

Matthew E. Clapham (2007)
Assistant Professor, Earth and Planetary Science
B.Sc., University of British Columbia, Canada; M.Sc., Queen's University, Canada; Ph.D., University of Southern California. Queen's University, Ontario, Canada.

Annette M. Clear, College Nine (2001)
Assistant Professor, Politics
B.A., Yale University; M.A., M.A., Ph.D., Columbia University. Former affiliations: Asia Foundation; Carter Center for Human Rights; Indonesian Election Watch.

James T. Clifford, Oakes College (1978)
Professor Emeritus, History of Consciousness
B.A., Haverford College; M.A., Stanford University; Ph.D., Harvard University; (Hon.) D. Litt. h.c., Haverford College. Former affiliation: Harvard University.

Rena V. Cochlin, Merrill College (1973)
Faculty, Physical Education
B.A., Barnard College; M.A., Columbia University. Former affiliations: Central Connecticut

State College; East Los Angeles College; World Campus Afloat.

Robert S. Coe, Porter College (1968)

Professor, Earth and Planetary Sciences

B.A., Harvard University; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; U.S. Geological Survey.

Robert Coffman

Adjunct Professor, Biomolecular Engineering

Christopher L. Connery, Oakes College (1990)

Professor, Chinese Literature

B.A., University of California, Santa Cruz; M.A., Ph.D., Princeton University.

Michael J. Connor (2006)

Adjunct Professor

B.S., Stanford University; Ph.D., Woods Hole Oceanographic Institution/Massachusetts Institute of Technology. Executive Director, San Francisco Estuary Institute.

Charles Conroy (2012)

Assistant Professor, Astronomy and Astrophysics

Ph.D., Princeton University.. Former affiliation: Harvard-Smithsonian Center for Astrophysics.

Paul D. Contos (1997)

Lecturer, Music (Saxophone)

. Concurrent Affiliation: Concurrent affiliations: California State University, Monterey Bay; Monterey Jazz Festival.. Former affiliations: Santa Cruz County Symphony; San Jose Civic Light Opera.

Ryan Coonerty (2012)

Lecturer, Legal Studies

B.A., University of Oregon; M.S., London School of Economics and Political Science; Juris Doctor, University of Virginia

Catherine R. Cooper, Stevenson College (1987)

Professor, Psychology and Education

B.A., Pomona College; Ph.D., University of Minnesota at Minneapolis-St. Paul. Former affiliation: University of Texas at Austin.

Bruce N. Cooperstein, College Eight (1975)

Professor, Mathematics

B.A., Queens College, City University of New York; M.A., Ph.D., University of Michigan. Former affiliation: University of Michigan.

Vilashini Cooppan, Oakes College (2003)

Associate Professor, Literature

B.A., Yale University; Ph.D., Stanford University. Former affiliation: Yale University.

David H. Cope, Porter College (1977)

Professor, Music

B.M., Arizona State University; M.M., University of Southern California. Former affiliations: Miami University (Ohio); Kansas State College.

Mary J. Cope (1977)

Lecturer, Music (Piano)

B.A., Ohio Dominican College; M.M., Indiana University. Former affiliations: Cottey College; Kansas State College; Cleveland Institute of Music; Miami University (Ohio).

Jorge Cortes (2004)

Assistant Professor, Applied Mathematics and Statistics

B.S., University of Basque Country (Spain); M.S., University of Zaragoza (Spain); Ph.D., University Carlos III de Madrid (Spain).

Dan Costa, College Eight (1982)

Professor, Ecology and Evolutionary Biology

B.A., University of California, Los Angeles; Ph.D., University of California, Santa Cruz; Ida Benson Lynn Professor, Ocean Health. Former affiliation: Scripps Institution of Oceanography.

William D. Coulter, Porter College (1995)

Lecturer, Music (Classical Guitar)

B.A., M.A., University of California, Santa Cruz; M.A., San Francisco Conservatory of Music.

Michael H. Cowan, Oakes College (1969)

Professor, American Studies

B.A., Ph.D., Yale University. Former affiliation: Yale University.

Donald Coyne, Porter College (1985)

Adjunct Professor, Physics

B.S., University of Kansas; Ph.D., California Institute of Technology.

David W. Crane, Porter College (1999)

Assistant Professor, Film and Digital Media

B.A., University of Wisconsin–Madison; M.A., Ph.D., University of Wisconsin–Milwaukee.

Sheila R. Crane (2000)

Assistant Professor, History of Art and Visual Culture

B.A., Smith College; M.A., Ph.D., Northwestern University.

Philip O. Crews, Cowell College (1970)

Professor, Chemistry

B.S., University of California, Los Angeles; Ph.D., Princeton University. Former affiliation: University of California, Santa Barbara.

Edith G. Crichton, Porter College (1994)

Associate Professor, Art

B.F.A., San Francisco State University; M.F.A., California College of Arts and Crafts. Former affiliation: California State University, Hayward.

Donald A. Croll (2000)

Professor, Ecology and Evolutionary Biology

B.Sc., University of California, Davis; M.Sc., California State University, Hayward (Moss Landing Marine Laboratories); Ph.D., Scripps Institution of Oceanography, University of California, San Diego.

Faye J. Crosby, Porter College (1997)

Professor, Psychology

A.B., Wheaton College; Ph.D., Boston University; LL.D. (Hon.), Ball State University. Former affiliations: Boston University; London School of Economics and Political Science; Yale University; Smith College.

Ben D. Crow, College Eight (1996)

Professor, Sociology

B.Sc., University of Westminster (Polytechnic of Central London); Ph.D., University of Edinburgh. Former affiliations: Stanford University; University of California, Berkeley.

Cynthia Cruz (2008)

Assistant Professor

B.A., Scripps College; Ph.D., University of California, Los Angeles. Former affiliations: Cornell University (2006–2008); Pacific Oakes College (2001–2006); UCLA Teaching Fellow (2004).

Renwick E. Curry (2008)
Adjunct Professor, Computer Engineering
A.B., Middlebury College; S.B., S.M., E.A.A., and Ph.D, Massachusetts Institute of Technology.

Robert R. Curry, College Eight (1979)
Professor Emeritus, Environmental Geology (Environmental Studies)
B.A., M.Sc., University of Colorado; Ph.D., University of California, Berkeley. Former affiliations: University of California, Santa Barbara; University of Montana.

David L. Cuthbert, Porter College (2003)
Professor, Theater Arts
B.A., California State University, Fresno; M.F.A., University of California, San Diego. Former affiliations: Old Globe Theater (San Diego); PCPA Theaterfest; Vortex Lighting (Los Angeles); Sledgehammer Theatre.

Michael S. Dalbey (1977)
Lecturer, Biology
B.A., San Fernando Valley State College; Ph.D., University of California, Santa Cruz.

Charles W. Daniel, Cowell College (1965)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., University of New Mexico; M.S., University of Hawaii; Ph.D., University of California, Berkeley.

Sharon A. Daniel, Porter College (1996)
Professor, Film and Digital Media
B.M., Baylor University; M.M., University of Texas; M.F.A., University of Tennessee. Former affiliations: Massachusetts Institute of Technology; Maryland Institute College of Art; Rhode Island School of Design.

Peter B. Danzig (2010)
Adjunct Professor, Computer Engineering
B.S., University of California, Davis; Ph.D., University of California, Berkeley.

Samit Dasgupta (2008)
Associate Professor
Degrees: A.B., Harvard University; Ph.D., University of California, Berkeley.. Former affiliation: Harvard University..

Nicolas Davidenko (2012)
Assistant Professor, Psychology
A.B., Harvard University; M.S., Ph.D., Stanford University. Former affiliations: Stanford University; Harvard University.

Angela Y. Davis, Oakes College (1991)
Professor, History of Consciousness
B.A., Brandeis University; M.A., University of California, San Diego; Certificat de la Litterature Francaise Contemporaine, Sorbonne. Former affiliation: San Francisco State University.

James E. Davis (2004)
Associate Professor, Computer Science
B.S., University of California, Davis; Ph.D., Stanford University. Former affiliation: Honda Research Institute.

Amy Rose Deal (2011)
Assistant Professor, Linguistics
B.A., Brandeis University; Ph.D., University of Massachusetts Amherst. Former affiliation: Harvard University.

Luca De Alfaro (2001)

Professor, Computer Engineering
B.S., Ph.D., Politecnico di Torino (Italy); M.S., Ph.D., Stanford University. Former affiliation:
University of California, Berkeley.

David W. Deamer (1994)
Professor Emeritus (recalled), Chemistry and Biochemistry
B.S., Duke University; Ph.D., Ohio State University School of Medicine. Former affiliation:
University of California, Davis.

Carolyn Dean, Porter College (1991)
Professor, History of Art and Visual Culture
B.A., University of Puget Sound; M.A., C.Phil., Ph.D., University of California, Los Angeles.
Former affiliation: Texas Tech University.

Margaret L. Delaney, Crown College (1983)
Professor, Ocean Sciences
B.S., Yale University; Ph.D., Massachusetts Institute of Technology.

Teresa De Lauretis, Oakes College (1985)
Professor, History of Consciousness
Maturita Classica, Liceo–Ginnasio Dante Alighieri (Ravenna); Laurea, Università Luigi
Bocconi (Milan). Former affiliations: University of Wisconsin–Milwaukee; University of
California, San Diego.

Guillermo Delgado–P, Merrill College (1989)
Lecturer, Latin American and Latino Studies
B.A., Licenciatura, Catholic University of Chile (Santiago); Ph.D., University of Texas at
Austin. Former affiliation: Gustavus Adolphus College.

Gina Dent, Kresge College (2002)
Associate Professor, Feminist Studies, History of Consciousness, and Legal Studies
B.A., University of California, Berkeley; M.A., M.Phil., Ph.D., Columbia University. Former
affiliations: Columbia University; Princeton University.

Jennifer Derr (2012)
Assistant Professor, History
B.S., Stanford University; M.A., Georgetown University; Ph.D., Stanford

Marc A. Desjardins
Lecturer in Science Writing
B.A., University of Vermont.

Joshua Deutsch, Merrill College (1986)
Professor, Physics
B.S., M.Sc., University of California, San Diego; Ph.D., Cambridge University. Former
affiliation: University of California, Santa Barbara.

Nathaniel P. Deutsch (2008)
Professor, History
B.A., M.A., Ph.D., University of Chicago.. Former affiliations: Swarthmore College; City
University of New York–Hunter College..

Rachel J. Dewey (1999)
Senior Lecturer, Astronomy and Astrophysics
A.B., Harvard University; Ph.D., Princeton University. Former affiliation: Princeton
University.

Maria E. Diaz (1991)
Associate Professor, History
B.A., Syracuse University; M.A., University of Chicago; Ph.D., University of Texas at Austin..
Former affiliation: University of Texas at Austin..

May N. Diaz, Merrill College (1974)
 Professor Emerita, Anthropology
 B.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Andrea Di Blas (2009)
 Assistant Adjunct Professor
 Ph.D. and M.S., Politecnico di Torino, Italy.

Michael Dine, Stevenson College (1990)
 Professor, Physics
 B.S., Johns Hopkins University; Ph.D., Yale University. Former affiliations: City College of the City University of New York; Stanford Linear Accelerator Center.

John Dizikes, Cowell College (1965)
 Professor Emeritus, American Studies
 B.A., University of California, Los Angeles; Ph.D., Harvard University. Former affiliation: University of Connecticut.

Daniel F. Doak, College Eight (1992)
 Professor, Ecology and Evolutionary Biology
 B.A., Swarthmore College; Ph.D., University of Washington. Former affiliations: San Francisco State University; University of Washington.

Carlos E. Dobkin (2003)
 Associate Professor, Economics
 B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Berkeley.

Andrew E. Doe, Porter College (1973)
 Professor Emeritus, Theater Arts (Drama)
 B.S., University of Vermont; M.A., University of Washington. Former affiliations: Lower Columbia College; University of Iowa; University of Michigan; University of Southern California; Pomona College.

George W. Domhoff, Stevenson College (1965)
 Professor Emeritus, Psychology
 B.A., Duke University; M.A., Kent State University; Ph.D., University of Miami. Former affiliation: California State College, Los Angeles.

Chongying Dong, Crown College (1990)
 Professor, Mathematics
 B.S., Xian Telecommunication and Engineering University; Ph.D., Institute of System Science, Academia Sinica. Former affiliation: Rutgers University.

Michael P. Dooley (1992)
 Professor, Economics
 B.S., Duquesne University; M.A., University of Delaware; Ph.D., Pennsylvania State University.. Former affiliations: International Monetary Fund; Federal Reserve Bank..

David E. Dorfan, Oakes College (1968)
 Professor Emeritus, Physics
 B.Sc., University of Cape Town; Ph.D., Columbia University. Former affiliations: Columbia University; Stanford Linear Accelerator Center.

Farid U. Dowla (2008)
 Adjunct Professor, Electrical Engineering
 B.S., MS., Ph.D., Massachusetts Institute of Technology. Former affiliations: Lawrence Livermore National Laboratory; University of California, Berkeley; University of California, Davis; Massachusetts Institute of Technology..

Margaret M. Downes-Baskin (1998)
 Research Associate, Feminist Studies

B.A., Vassar College; M.A., California State University, Northridge; Ph.D., Claremont Graduate School of Government.

William T. Doyle, Crown College (1965)
Professor Emeritus, Ecology and Evolutionary Biology
B.A., Ph.D., University of California, Berkeley. Former affiliation: Northwestern University.

Frank D. Drake (1984)
Professor Emeritus, Astronomy and Astrophysics
B. Eng. Physics, Cornell University; M.A., Ph.D., Harvard University. Concurrent affiliation: SETI Institute. Former affiliations: Harvard University; National Radio Astronomy Observatory; Jet Propulsion Laboratory; Cornell University.

David Draper (2001)
Professor, Applied Mathematics and Statistics
B.Sc., University of North Carolina at Chapel Hill; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of Chicago; RAND Corporation; University of California, Los Angeles; University of Bath (England).

Timothy Duane (2009) Professor, Environmental Studies
J.D., Boalt Hall School of Law, University of California, Berkeley; Ph.D.; M.S., civil engineering, Stanford University; A.B.; Human Biology: Planning and Policy, Stanford University. University of California, Berkeley; Vermont Law School.

Walter S. Dudley, Porter College (1968)
Professor Emeritus, Music
B.M., B.A., North Texas State University; M.A., Ph.D., University of California, Berkeley. Former affiliation: University of California Education Abroad Program (Grenoble, Montpellier, Marseilles).

William B. Dunbar (2004)
Associate Professor, Computer Engineering
B.S., Virginia Polytechnic Institute and State University; M.S., University of California, San Diego; Ph.D., California Institute of Technology.

E M. Du Puis, Crown College (1997)
Professor, Sociology
B.A., Radcliffe College, Harvard University; M.S., Ph.D., Cornell University. Former affiliations: State University of New York at Albany; New York State Department of Economic Development; Skidmore College; Rensselaer Polytechnic Institute; Siena College; Hudson Valley Community College.

Robert M. Durling, Cowell College (1966)
Professor Emeritus, Italian and English Literature
B.A., M.A., Ph.D., Harvard University. Former affiliations: Haverford College; Cornell University.

Mark R. Eastman (1990)
Lecturer, Mathematics
B.A., Colorado College; M.A., University of Montana, Missoula; Ph.D., University of California, Santa Cruz.

Kent H. Eaton, Merrill College (2006)
Professor, Politics
B.A., Stanford University; Ph.D., Yale University. Princeton University; Naval Postgraduate School.

Robert S. Edgar, Crown College (1970)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.Sc., McGill University; Ph.D., University of Rochester. Former affiliation: California Institute of Technology.

Kate Edmunds, Porter College (2004)
Associate Professor, Theater Arts
B.F.A., Wayne State University; M.F.A., Yale School of Drama. Former affiliation: University of California, Berkeley.

Christopher A. Edwards (2002)
Professor, Ocean Sciences
B.A. (Hons.), Haverford College; Ph.D., Massachusetts Institute of Technology and Woods Hole Oceanographic Institution. Former affiliation: University of Connecticut.

Michael D. Edwards
Adjunct Professor, Theater Arts
B.A., Monash University, Australia; M.F.A., University of California, Los Angeles. Concurrent Affiliation: Asolo Theater, Sarasota, Florida.. Former affiliation: Sate College of Victoria, Australia..

Torsten Ehrhardt (2004)
Professor, Mathematics
Dipl. Math., Dr. rer. nat., Dr. habil., Chemnitz University of Technology (Germany). Former affiliation: Chemnitz University of Technology.

Olof Einarsdottir, Crown College (1989)
Professor, Chemistry and Biochemistry
B.A., University of Iceland, Reykjavik; Ph.D., Colorado State University, Fort Collins. Former affiliation: Los Alamos National Laboratory.

Magdalini Eirinaki (2006)
Lecturer
B.S., University of Piraeus, Greece; M.S., University of London, UK; Ph.D., Athens University of Economics and Business, Greece.. Athens University of Economics and Business.

Bernard L. Elbaum, Merrill College (1986)
Associate Professor, Economics
B.A., University of Michigan; Ph.D., Harvard University.

Gabriel H. Elkaim, Crown College (2003)
Associate Professor, Computer Engineering
B.S., Princeton University; M.S., Ph.D., Stanford University. Concurrent Affiliation: Concurrent affiliation: Delta Technology Associates.

John M. Ellis, Crown College (1966)
Professor Emeritus, German Literature
B.A., Ph.D., University of London. Former affiliations: University of Wales; University of Leicester; University of Alberta.

Jonathan E. Ellis, Cowell College (2002)
Associate Professor, Philosophy
B.A., Dartmouth College; Ph.D., University of California, Berkeley.

Peter Q. Elsea, Porter College (1980)
Lecturer, Music
B.M., M.A., University of Iowa. Former affiliation: University of Iowa.

Angela A. Elsey, Cowell College (1988)
Lecturer, French Language
B.A., Kalamazoo College; M.A.T., University of Michigan. Former affiliations: San Francisco State University; Oregon State University; Hope College.

Harland W. Epps, Porter College (1989)
Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.A., Pomona College; M.S., Ph.D., University of Wisconsin. Former affiliation: University of California, Los Angeles.

Barbara L. Epstein, Oakes College (1973)
Professor, History of Consciousness
B.A., Radcliffe College; M.A., Ph.D., University of California, Berkeley.

Shelly E. Errington, Kresge College (1972)
Professor, Anthropology
B.A., Newcomb College, Tulane University; M.A., Ph.D., Cornell University. Former affiliation: Institute for Advanced Study (Princeton).

Heinz Erzberger (2006)
Adjunct Professor, Electrical Engineering
B.S., California Polytechnic State University; M.E.E., Ph.D., Cornell University.. Former affiliations: NASA Ames Research Center..

James A. Estes (1978)
Adjunct Professor, Ecology and Evolutionary Biology and Ocean Sciences
B.A., University of Minnesota; M.S., Washington State University; Ph.D., University of Arizona.

J P. Euben, Kresge College (1967)
Professor Emeritus, Politics
B.A., Swarthmore College; M.A., Ph.D., University of California, Berkeley; Certificate, Oxford University.

Maria Evangelatou (2007)
Assistant Professor, History of Art and Visual Culture
B.A., University of Ioannina, Greece; M.A., Ph.D., Courtauld Institute of Art, London. Former affiliations: Radcliffe Institute for Advance Studies, Harvard University: postdoctoral research fellowship.

Maria V. Ezerova, Porter College (1994)
Lecturer, Music (Piano)
B.M., Musical College, Moscow State University; M.A., University of California, Santa Cruz; M.M., D.M.A. equivalents, Moscow State Conservatory. Former affiliations: Russian Academy of Musical Arts (Moscow); Moscow State Conservatory; Turkmenian State Institute of Musical Arts (Ashkhabad).

S M. Faber, Crown College
Professor, Astronomy and Astrophysics
B.A., Swarthmore College; Ph.D., Harvard University.

Robert W. Fairlie, College Ten (1994)
Professor, Economics
B.A., Stanford University; M.A., Ph.D., Northwestern University.

Sylvanna M. Falcon (2010)
Assistant Professor of Latin American and Latino Studies
B.A., Santa Clara University; M.A., University of New Mexico, Albuquerque; Ph.D., University of California, Santa Barbara.. Former affiliation: University of California, Riverside, University of California, Office of the President; Connecticut College; University of California, Santa Barbara..

Donka F. Farkas, Stevenson College (1991)
Professor, Linguistics
B.A., University of Bucharest (Romania); Ph.D., University of Chicago. Former affiliation: Yale University.

Bryan H. Farrell, College Eight (1974)
Professor Emeritus, Geography (Environmental Studies)
B.A., University of Canterbury (New Zealand); M.A., University of Washington; Ph.D., University of Auckland. Former affiliations: Southern Methodist University; University of

Auckland; University of Alberta; University of Victoria (Canada).

Farnaz Fatemi

Lecturer

B.A., University of California, Santa Cruz; M.F.A., Mills College. University of California, Los Angeles.

John Faulkner, Crown College (1969)

Professor Emeritus, Astronomy and Astrophysics

B.A., M.A., Ph.D., St. John's College, Cambridge University. Former affiliations: Cambridge University; California Institute of Technology; Institute of Theoretical Astronomy (Cambridge).

B K. Faunce (2002)

Lecturer, Writing

B.A., M.A., University of Pacific, Stockton; Ph.D., University of California, Riverside.

David A. Feldheim (2002)

Assistant Professor, Molecular, Cell, and Developmental Biology

B.A., University of California, San Diego; Ph.D., University of California, Berkeley.

Jerry F. Feldman, Crown College

Professor Emeritus, Molecular, Cell, and Developmental Biology

B.A., Swarthmore College; M.A., Ph.D., Princeton University. Former affiliations: California Institute of Technology; State University of New York at Albany.

Veronica E. Feliu, Merrill College (1999)

Lecturer, Spanish Language

Licenciate, Universidad de Chile; Ph.D., Duke University. Former affiliation: Duke University.

F.J. Ferguson, College Eight (1987)

Professor, Computer Engineering; Provost, Crown College

B.S.E., University of North Carolina at Charlotte; M.S.E.E./C.E., Ph.D., Carnegie Mellon University.

Mayanthi L. Fernando (2008)

Assistant Professor of Anthropology

M.A., Harvard University; Ph.D., University of Chicago.. Former affiliation: Washington University, St. Louis..

Anthony L. Fink, Crown College (1969)

Professor, Chemistry and Biochemistry

B.Sc., Ph.D., Queen's University (Canada). Former affiliation: Queen's University.

Noah J. Finnegan (2009)

Assistant Professor, Earth and Planetary Sciences

B.A., Carleton College; Ph.D., University of Washington. Former affiliations: Cornell University, University of California, Berkeley National Center for Earth-Surface Dynamics.

Arthur E. Fischer, Crown College (1972)

Professor Emeritus, Mathematics

B.A., Columbia University; Ph.D., Princeton University; M.D., Albert Einstein College of Medicine. Former affiliation: University of California, Berkeley.

Andrew T. Fisher, College Eight (1995)

Professor, Earth and Planetary Sciences

B.S., Stanford University; Ph.D., University of Miami. Former affiliations: Indiana Geological Survey; Indiana University; Texas A&M University; Ocean Drilling Program.

Doireann Fitzgerald (2003)

Assistant Professor, Economics

B.A., M.A., Ph.D., University College Dublin. Former affiliation: Harvard University.

Tim R. Fitzmaurice, Crown College (1982)

Lecturer Emeritus, Writing

B.A., San Jose State University; M.A., University of California, Santa Cruz.

Margaret I. Fitzsimmons, College Eight (1994)

Professor, Environmental Studies

B.A., Stanford University; M.A., California State University, Northridge; Ph.D., University of California, Los Angeles. Former affiliation: Graduate School of Architecture and Urban Planning, University of California, Los Angeles.

Cormac A. Flanagan (2003)

Professor, Computer Science

B.S., University College Dublin; M.S., Ph.D., Rice University. Former affiliations: Systems Research Center; DEC; Compaq; Hewlett-Packard.

Stanley M. Flatte, Crown College (1971)

Professor Emeritus, Physics

B.S., California Institute of Technology; Ph.D., University of California, Berkeley. Former affiliation: Lawrence Radiation Laboratory, Berkeley.

A R. Flegal, Crown College (1985)

Professor, Microbiology and Environmental Toxicology

B.A., University of California, Santa Barbara; M.A., Moss Landing Marine Laboratories; Ph.D., Oregon State University. Former affiliation: California Institute of Technology.

Mary K. Foley, Porter College (1980)

Professor, Theater Arts (Drama)

B.A., Rosemont College; M.A., University of Massachusetts; Ph.D., University of Hawaii at Manoa. Former affiliation: University of Massachusetts.

Samantha E. Forde (2009)

Adjunct Professor, Ecology and Evolutionary Biology; Gordon and Betty Moore Foundation

B.A., University of California, Santa Barbara; Ph.D., University of California, Santa Cruz.

Researcher, Ecology and Evolutionary Biology, University of California, Santa Cruz.

Doyle Foreman, Porter College (1968)

Professor Emeritus, Art

B.F.A., California College of Arts and Crafts.

Camilla E. Forsberg (2007)

Assistant Professor, Biomolecular Engineering

Ph.D., University of Wisconsin, Madison. Former affiliation: Stanford University.

Jonathan J. Fortney (2007)

Assistant Professor, Astronomy and Astrophysics

B.S., Iowa State University; Ph.D., University of Arizona. NASA Ames Research Center.

Jonathan A. Fox, Merrill College (1995)

Professor, Latin American and Latino Studies

B.A., Princeton University; Ph.D., Massachusetts Institute of Technology. Former affiliation: Massachusetts Institute of Technology.

Laurel R. Fox, Crown College (1977)

Professor, Ecology and Evolutionary Biology

B.S., Cornell University; M.A., Ph.D., University of California, Santa Barbara. Former affiliation: Australian National University.

Jean E. Fox Tree, Porter College (1994)

Professor, Psycholinguistics (Psychology)

A.B., Harvard University; M.Sc., University of Edinburgh; Ph.D., Stanford University. Former

affiliations: Stanford University; Max Planck Institute for Psycholinguistics (Nijmegen, Netherlands).

Dana L. Frank, Merrill College (1991)

Professor, History

B.A., University of California, Santa Cruz; M.A., Ph.D., Yale University. Former affiliation: University of Missouri at St. Louis.

Mark Franko, Porter College (1991)

Professor, Theater Arts (Dance)

B.A., City College of New York; Ph.D., Columbia University. Former affiliations: Columbia University; Université Paul Valéry; Princeton University; Purdue University.

Carla A. Freccero, Kresge College (1991)

Professor, Literature, History of Consciousness, and Feminist Studies

B.A., Harvard University; M.Phil., Ph.D., Yale University. Former affiliation: Dartmouth College.

Carol M. Freeman, Cowell College (1974)

Senior Lecturer, Writing

B.A., Carleton College; Ph.D., Yale University. Former affiliation: Yale University.

Maria C. Freeman, Crown College (1990)

Lecturer, Writing

B.A., University of Maryland; M.S., Georgetown University. Former affiliation: University of California, Berkeley.

Rosa-Linda Fregoso, Merrill College (2001)

Professor, Latin American and Latino Studies

B.J., University of Texas at Austin; Ph.D., University of California, San Diego. Former affiliations: University of California, Davis; University of California, Los Angeles; University of California, Santa Barbara.

William H. Friedland (1969)

Professor Emeritus, Community Studies and Sociology

B.A., M.A., Wayne State University; Ph.D., University of California, Berkeley. Former affiliation: Cornell University.

Benjamin Friedlander (1999)

Professor, Electrical Engineering

B.S., M.S., Technion University (Israel); M.S., Ph.D., Stanford University. Former affiliation: University of California, Davis.

Daniel Friedman, Crown College (1985)

Professor, Economics

B.A., Reed College; M.A., Ph.D., University of California, Santa Cruz. Former affiliations: University of California, Los Angeles; University of California, Berkeley.

Susan Friedman, Porter College (1981)

Lecturer, Art

B.A., University of Buffalo; M.F.A., San Francisco Art Institute. Former affiliation: Cabrillo College.

Gregory J. Fritsch, Porter College (1987)

Lecturer, Theater Arts

B.Ed., M.A., University of Miami.

Donald C. Fritz (1988)

Lecturer, Art

B.A., University of California, Santa Cruz; M.F.A., University of California, Davis.

Marta M. Frosch, Merrill College (1983)

Professor Emerita, Spanish Literature
M.A., Ph.D., Ohio State University. Former affiliations: Ohio State University; University of California, San Diego; University of Waterloo, Canada.

Paul Frymer, College Ten (2004)
Associate Professor, Politics
B.A., University of California, Berkeley; M.A., Ph.D., Yale University; J.D., University of California, Berkeley. Former affiliation: University of California, San Diego.

Sakae Fujita (1991)
Lecturer, Japanese Language
B.A., Osaka University of Education; M.A., Monterey Institute of International Studies; Ph.D. cand., University of California, Berkeley. Former affiliation: Monterey Institute of International Studies.

Hiroshi Fukurai, Stevenson College (1990)
Professor, Sociology
B.A., California State University, Fullerton; M.A., Ph.D., University of California, Riverside. Former affiliations: University of California, Riverside; Texas A&M University.

Kwok-Chiu Fung, Crown College (1989)
Professor, Economics
B.A., Swarthmore College; M.S., Ph.D., University of Wisconsin-Madison. Former affiliations: Mount Holyoke College; Stanford University.

John D. Funge (2007)
Associate Adjunct Professor
Ph.D., University of Toronto; M.Sc., University of Oxford; B.Sc., King's College, London. Former affiliations: AiLive Inc.; Sony Computer Entertainment America; Intel Corporation.

Pascale Gaitet, Kresge College (1986)
Professor Emerita, Literature and Language Studies
B.A., M.A., Oxford University; Ph.D., Princeton University.

Patricia M. Gallagher, Porter College (2004)
Professor, Theater Arts
B.A., University of Arizona; M.A., Ph.D., University of Wisconsin-Madison.

Alison Galloway, Crown College (1990)
Professor, Anthropology; Chair, Academic Senate
B.A., University of California, Berkeley; M.A., Ph.D., University of Arizona. Former affiliation: University of Tennessee.

Frank R. Galuszka, Porter College (1995)
Professor, Art
B.F.A., M.F.A., Temple University, Tyler School of Art. Former affiliation: University of the Arts, College of Art and Design (Philadelphia).

Alexander Gamburd (2004)
Professor, Mathematics
B.S., Massachusetts Institute of Technology; M.A., Ph.D., Princeton University. Former affiliations: Stanford University; Mathematical Sciences Research Institute; Dartmouth College.

Mary-Kay Gamel, Cowell College (1973)
Professor, Classics and Comparative Literature
B.A., Smith College; M.A., Harvard University; Ph.D., University of California, Berkeley. Former affiliation: Boston University.

Pascale Garaud (2004)
Professor, Applied Mathematics and Statistics
B.S., Université Louis Pasteur; M.S., Ph.D., Cambridge University. Former affiliation:

Cambridge University.

Jose J. Garcia-Luna-Aceves, Crown College (1993)

Prof., Computer Eng.; Baskin Endowed Prof. of Computer Engineering; Dir., Networking Sciences Inst.

Jack Baskin Endowed Professor of Computer Engineering

B.S., Universidad Iberoamericana (Mexico City); M.S., Ph.D., University of Hawaii. Former affiliation: Stanford Research Institute International.

Ian Garrick-Bethell (2010)

Assistant Professor, Earth and Planetary Sciences

B.A., Wesleyan University; M.S., Ph.D., Massachusetts Institute of Technology. Massachusetts Institute of Technology.

Robert E. Garrison, Stevenson College (1968)

Professor Emeritus, Earth and Planetary Sciences

B.S., M.S., Stanford University; Ph.D., Princeton University. Former affiliations: University of California, Santa Barbara; University of British Columbia.

John C. Garza (2003)

Assistant Adjunct Professor, Ocean Sciences

Ph.D., University of California, Berkeley.

George D. Gaspari, Porter College (1967)

Professor Emeritus, Physics

B.S., DePaul University; Ph.D., University of California, Riverside. Former affiliation: University of Rochester.

Christiane Gautier (2007)

Lecturer, French Language

M.B., Université de Lettres et Langues, Poitiers (France); M.A., Iowa State University; Ed.D., University of San Francisco. Former affiliations: Sonoma State University; San Francisco State University; University of Iowa.

Carole C. George (1989)

Physical Education Instructor

B.A., University of California, Santa Cruz.

Ingeborg L. Gerdes, Porter College (1981)

Lecturer, Art

University of Heidelberg, Germany; M.F.A., San Francisco Art Institute.

Dietlind L. Gerloff (2006)

Assistant Professor, Biomolecular Engineering

Ph.D., Swiss Federal Institute of Technology, Zurich. Former affiliations: University of Edinburgh, Swiss National Science Foundation, Leukemia Society of America.

Raymond W. Gibbs, Cowell College (1982)

Professor, Psychology

B.A., Hampshire College; M.A., Ph.D., University of California, San Diego. Former affiliations: Yale University; Stanford University.

Margaret A. Gibson, Merrill College (1990)

Professor Emerita, Education

B.A., Wheaton College; M.Ed., Ph.D., University of Pittsburgh. Former affiliation: California State University, Sacramento.

Diane Gifford-Gonzalez, Merrill College (1976)

Professor, Anthropology

B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of Nevada.

Ricard Gil, College Ten (2004)

Assistant Professor, Economics
B.A., Universitat Pompeu Fabra, Spain; M.A., Ph.D. cand., University of Chicago. Former affiliations: University of Chicago; Universitat Pompeu Fabra, Spain.

Gregory S. Gilbert, College Eight (2000)
Professor, Environmental Studies
B.S., State University of New York, College of Environmental Science and Forestry; M.S., Ph.D., University of Wisconsin–Madison.

James B. Gill, Oakes College (1972)
Professor Emeritus, Earth and Planetary Sciences
B.S., Wheaton College; M.S., Franklin and Marshall College; Ph.D., Australian National University.

Susan Gillman, Oakes College (1986)
Professor, American Literature
A.B., Bryn Mawr College; Ph.D., University of California, Berkeley. Former affiliation: Rice University.

Viktor Ginzburg, College Eight (1996)
Professor, Mathematics
M.S., Moscow Institute of Steel and Alloys; Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Princeton University; Stanford University.

Per F. Gjerde, College Nine (1989)
Professor Emeritus, Psychology
Cand. Psychol., University of Bergen (Norway); Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Ronald Glass, College Ten (2005)
Associate Professor
A.B., Ed.M., Harvard University; C. Phil., UC Berkeley; M.A., Ph.D., Stanford University. Former affiliations: Arizona State University; UC Berkeley; Stanford University.

Gary A. Glatzmaier (1998)
Professor, Earth and Planetary Sciences
B.S., Marquette University; Ph.D., University of Colorado. Former affiliation: Los Alamos National Laboratory.

Shannon M. Gleeson (2008)
Assistant Professor, Latin American and Latino Studies
B.S., Santa Clara University; M.A., Ph.D., University of California, Berkeley.

Stephen R. Gliessman, College Eight (1980)
Professor Emeritus, Agroecology (Environmental Studies)
B.A., M.A., Ph.D., University of California, Santa Barbara. Former affiliation: Colegio Superior de Agricultura Tropical (Mexico).

Wlad B. Godzich, Cowell College (2000)
Professor, Literature
M.A., Ph.D., Columbia University. Former affiliations: Université de Genève; University of Toronto; University of Montreal; University of Minnesota; Yale University; Columbia University.

Lynda J. Goff, Crown College (1975)
Professor Emeritus, Ecology and Evolutionary Biology; Vice Provost and Dean, Undergraduate Education
B.Sc., Western Oregon State College; Ph.D., University of British Columbia. Former affiliations: University of Washington, Friday Harbor Marine Station; University of British Columbia; U.S. Forest Service.

Robert A. Goff, Cowell College (1968)

Associate Professor Emeritus, Philosophy
B.A., Colgate University; Ph.D., Drew University. Former affiliations: Moravian College; Hamilton College.

Walter L. Goldfrank, College Eight (1968)
Professor Emeritus, Latin American and Latino Studies and Sociology
B.A., Harvard College; Certificate in Sociology, University of Madrid; Ph.D., Columbia University. Former affiliation: Columbia University.

Qi Gong (2008)
Assistant Professor, Applied Mathematics and Statistics
B.E., University of Science and Technology, China; M.E., Southeast University, China; Ph.D., Case Western Reserve University. Former affiliations: University of Texas at San Antonio; Naval Postgraduate School.

Jennifer A. Gonzalez, Porter College (1997)
Associate Professor, History of Art and Visual Culture
B.A., Yale University; Ph.D., University of California, Santa Cruz. Former affiliation: Rhode Island School of Design.

Julie H. Gonzalez (2004)
Lecturer, Economics
B.S., California Polytechnic State University; Ph.D., University of Southern California.

Maria Gonzalez Pagani (1992)
Senior Lecturer, Spanish Language
B.A., M.A., Universidad Nacional de Tucuman (Argentina). Former affiliations: Northwestern University; University of Michigan; University of Illinois, Chicago.

David Goodman, College Eight (1990)
Professor Emeritus, Environmental Studies
B.Sc., London School of Economics and Political Science; Ph.D., University of California, Berkeley. Former affiliations: University College London; University of Manchester.

June A. Gordon, College Nine (1996)
Professor, Education
B.A., Stanford University; M.A., Western Washington University; Ph.D., University of Washington. Former affiliation: University of Washington.

Christopher A. Gorry (2009)
Assistant Professor, Economics
B.S., Arizona State University; M.A., Ph.D., University of Chicago.

Susan Gorsky (2003)
Lecturer, Writing
A.B., Smith College, Massachusetts; M.A., Ph.D., Case Western Reserve University.

Deborah B. Gould (2009)
Associate Professor, Sociology
Ph.D., University of Chicago. University of Pittsburg.

Shelly A. Grabe (2010)
Assistant Professor, Psychology
B.A., Michigan State University; Ph.D., University of Missouri–Columbia. University of Washington, University of Wisconsin–Madison.

Herman S. Gray, Stevenson College (1991)
Professor, Sociology
B.A., Florida A&M University; M.A., Washington State University; Ph.D., University of California, Santa Cruz. Former affiliation: Northeastern University.

Barry L. Green (1996)

Lecturer, Music (String Bass)

B.M., Indiana University; M.M., University of Cincinnati, Conservatory of Music. Former affiliations: University of Cincinnati; Indiana University.

Richard Edward E. Green (2010)

Assistant Professor, Biomolecular Engineering

B.S., University of Georgia, Athens; Ph.D, University of California, Berkeley. Max Planck Institute for Evolutionary Anthropology, Leipzig, Germany; University of California, Berkeley.

Marvin J. Greenberg, Stevenson College (1967)

Professor Emeritus, Mathematics

B.A., Columbia University; Ph.D., Princeton University. Former affiliations: Rutgers University; University of California, Berkeley; Northeastern University.

Miriam B. Greenberg, College Ten (2006)

Associate Professor, Sociology

B.A., Eugene Lang College, The New School for Social Research; Ph.D., City University of New York. Department of Social Science and Cultural Studies, Pratt Institute, Brooklyn, New York.

Jody Greene, Kresge College (1998)

Professor, Literature and Feminist Studies

B.A., Yale University; M.A., Ph.D., Cornell University. Former affiliations: Cornell University; Hobart and William Smith Colleges.

Josephine Greene, Kresge College (1998)

Associate Professor, Literature and Feminist Studies

B.A., Yale University; M.A., Ph.D., Cornell University. Former affiliations: Cornell University; Hobart and William Smith Colleges.

Ronald E. Grieson, Crown College (1980)

Professor Emeritus, Economics

B.A., Queen's College; M.A., Ph.D., University of Rochester. Former affiliations: Massachusetts Institute of Technology; Columbia University; Princeton University.

Gary B. Griggs, College Eight (1968)

Professor, Earth and Planetary Sciences; Director, Institute of Marine Sciences

B.A., University of California, Santa Barbara; Ph.D., Oregon State University. Former affiliation: Oregon State University.

Martin L. Griss (2002)

Research Associate, Computer Science

B.S., Technion, Haifa, Israel; M.S., Ph.D., University of Illinois. Concurrent Affiliation: Concurrent affiliations: Carnegie Mellon University, Silicon Valley Campus.

Kirsten S. Gruesz, Oakes College (1996)

Professor, Literature

B.A., Swarthmore College; Ph.D., Yale University. Former affiliation: College of William and Mary.

Isebill V. Gruhn, Stevenson College (1969)

Professor Emerita, Politics

B.A., Dickinson College; M.A., Johns Hopkins University; Ph.D., University of California, Berkeley. Former affiliation: Oberlin College.

Claire X. Gu (1997)

Professor, Electrical Engineering

B.S., Fudan University (China); Ph.D., California Institute of Technology. Former affiliations: Pennsylvania State University; Rockwell International Science Center.

Daniel E. Guevara, Cowell College (1991)

Associate Professor, Philosophy

B.A., California State University, Los Angeles; C.Phil., Ph.D., University of California, Los Angeles.

Puragra Guha Thakurta (1994)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., St. Xavier's College (Calcutta, India); M.A., Ph.D., Princeton University.

Irene Gustafson, Porter College (2003)

Assistant Professor, Film and Digital Media

B.A., Evergreen State College; M.F.A., Northwestern University. Former affiliation: School of the Art Institute of Chicago.

Matthew R. Guthaus, Crown College

Associate Professor, Computer Engineering

B.S.E., M.S.E., Ph.D., University of Michigan.

Julie H. Guthman, College Nine (2003)

Associate Professor, Community Studies

B.A., University of California, Santa Cruz; M.B.A., Ph.D., University of California, Berkeley.
Former affiliation: University of California, Berkeley.

Gey-Hong Gweon (2006)

Assistant Professor

Ph.D., University of Michigan, 1999.. University of California, Berkeley Lawrence Berkeley National Laboratory.

Melissa Gwyn, Porter College (2002)

Associate Professor, Art

B.A., Ohio State University; M.F.A., Yale University School of Art. Former affiliation: San Francisco Art Institute.

Melissa Gwyn, Porter College (2002)

Associate Professor, Art

B.A., Ohio State University; M.F.A., Yale University School of Art. Former affiliation: San Francisco Art Institute.

Lisbeth Haas, Merrill College (1986)

Professor, History

B.A., University of California, San Diego; Ph.D., University of California, Irvine.

Howard E. Haber, Stevenson College (1982)

Professor, Physics

S.B., S.M., Massachusetts Institute of Technology; Ph.D., University of Michigan.

Judith A. Habicht Mauche, Crown College (1990)

Professor, Anthropology

B.A., College of William and Mary; M.A., Ph.D., Harvard University. Former affiliation: School of American Research (Santa Fe).

Brent M. Haddad, College Eight (1997)

Professor, Environmental Studies

B.A., Stanford University; M.A., Georgetown University; M.B.A., Ph.D., University of California, Berkeley. Former affiliation: Monterey Institute of International Studies.

Steven H. Haddock (2005)

Associate Adjunct Professor, Ocean Sciences

Ph.D., University of California, Santa Barbara.

Gildas Hamel, Cowell College (1984)

Senior Lecturer with Security of Employment, French Language and Classical Studies

B.A., Universite de Haute-Bretagne; Ph.D., University of California, Santa Cruz.

Roxanne P. Hamilton
Lecturer, Writing
B.A., University of Colorado; M.F.A., Cornell University.

Phillip L. Hammack, College Ten (2007)
Associate Professor, Psychology
B.A., Georgetown University; M.A., Loyola University; Ph.D. cand., University of Chicago..

Craig W. Haney, Stevenson College (1977)
Professor, Psychology
B.A., University of Pennsylvania; M.A., Ph.D., J.D., Stanford University. Former affiliation: Stanford University.

Jorge Hankamer, Stevenson College (1980)
Professor, Linguistics
B.A., M.A., Rice University; Ph.D., Yale University. Former affiliation: Harvard University.

Robert W. Hansen (1977)
Physical Education Instructor
B.S., M.A., San Jose State University.

Donna J. Haraway, Oakes College (1980)
Professor, History of Consciousness and Feminist Studies
B.A., Colorado College; M.Phil., Ph.D., Yale University. Former affiliations: University of Hawaii; Johns Hopkins University.

Daniel K. Harder (2004)
Associate Adjunct Professor, Ecology and Evolutionary Biology; Executive Director, UCSC Arboretum
B.S., University of Wisconsin–Madison; Ph.D., University of California, Berkeley.

Susan F. Harding, Porter College (1989)
Professor, Anthropology
B.A., M.A., Ph.D., University of Michigan. Former affiliation: University of Michigan.

David M. Harrington, Stevenson College (1975)
Professor Emeritus, Psychology
B.A., Macalester College; Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Macalester College.

Judith Harris–Frisk, Merrill College (1986)
Lecturer, German Language
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliations: Vassar College; University of Illinois, Urbana–Champaign; University of California, Berkeley.

Ellen L. Hart (1984)
Lecturer, Writing
B.A., Mount Holyoke College; M.A., Mills College. Former affiliation: Laney College.

Grant A. Hartzog (1998)
Professor, Molecular, Cell, and Developmental Biology
B.A., University of California, Berkeley; Ph.D., University of California, San Francisco.

Homayoun Hashemi (2004)
Adjunct Professor, Electrical Engineering
B.S., University of Texas, Austin; M.S., M.A., Ph.D., University of California, Berkeley.
Former affiliations: Stanford University, Sharif University of Technology, Bell Laboratories, Stanford Research Institute.

David Haussler, Crown College (1986)
Professor, Biomolecular Engineering; Director, Institute for Quantitative Biomedical Research

B.A., Connecticut College; M.S., California Polytechnic State University, San Luis Obispo; Ph.D., University of Colorado. Former affiliation: University of Denver.

John Hay, Porter College (1988)
Professor Emeritus, History of Art and Visual Culture
B.A., Oxford University; Ph.D., Princeton University. Former affiliations: Institute of Fine Arts, New York University; Harvard University.

Erika Check Hayden, (2012)
Lecturer in Science Writing, Science Communication
B.S., Stanford University

Sean A. Hayes (2007)
Assistant Adjunct Professor
Ph.D., University of California, Santa Cruz.

Charles W. Hedrick, Cowell College (1990)
Professor, History
B.A., Pitzer College; M.A., Ph.D., University of Pennsylvania. Former affiliation: State University of New York at Buffalo.

Alexander Heger (2005)
Associate Adjunct Professor
Ph.D., Max Planck Institute für Astrophysik. Concurrent Affiliation: Current affiliation: Los Alamos National Laboratory.

David P. Helmbold, College Eight (1986)
Professor, Computer Science
B.A., University of California, Berkeley; Ph.D., Stanford University.

Margo J. Hendricks, Cowell College (1990)
Associate Professor Emerita, Literature; Provost, Stevenson College
B.A., California State University, San Bernardino; M.A., Ph.D., University of California, Riverside. Former affiliation: San Jose State University.

Gail B. Hershatter, Merrill College (1991)
Professor, History
B.A., Hampshire College; M.A., Ph.D., Stanford University. Former affiliation: Williams College.

Karlton E. Hester, Merrill College (2000)
Professor, Music (Composition, Flute, and Saxophone)
B.M., University of Texas at El Paso; M.M., San Francisco State University; Ph.D., City University of New York Graduate Center. Former affiliation: Cornell University.

Clemens A. Heusch, Porter College (1969)
Professor, Physics
Diploma, Technical University, Aachen; Ph.D., University of Munich. Former affiliations: California Institute of Technology; DESY, University of Hamburg.

Wendy D. Hibbert-Jones, Porter College (2002)
Assistant Professor, Art
B.A., London University, London; M.A., Durham University, Durham, England; M.A., York University, York, England; M.F.A., Mills College. Former affiliations: California College of Arts; Mills College.

Henry R. Hilgard, Kresge College (1967)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., Harvard University; M.D., Stanford University; Ph.D., University of Minnesota. Former affiliations: University of Minnesota; American Heart Association.

Lindsay Hinck (1998)
Professor, Molecular, Cell, and Developmental Biology
B.S., Western Washington University; M.S., University of California, Davis; Ph.D., Stanford University.

Ralph T. Hinegardner, Crown College (1967)
Professor Emeritus, Ecology and Evolutionary Biology
B.A., Denison University; M.S., University of Southern California; Ph.D., University of Hawaii. Former affiliations: University of Kentucky; Columbia University.

Miriam C. Hitchcock (1993)
Lecturer, Art
B.A., University of California, Santa Cruz; M.F.A., Yale University.

David A. Hoffman (1990)
Lecturer, Psychology
B.A., Reed College; M.S., Ph.D., University of Oregon.

Karen D. Holl, College Eight (1995)
Pepper-Giberson Professor, Environmental Studies
B.S., Stanford University; Ph.D., Virginia Polytechnic Institute and State University.

Eli E. Hollander, Porter College (1974)
Professor, Film and Digital Media
B.S., Juilliard School of Music; M.F.A., University of California, Los Angeles. Former affiliations: Encyclopaedia Britannica Films; Public Broadcasting Television Network (Los Angeles); Churchill Films; New York Philharmonic Orchestra.

Theodore R. Holman, Cowell College (1996)
Professor, Chemistry and Biochemistry
B.A., University of California, San Diego; Ph.D., University of Minnesota at Minneapolis. Former affiliations: Harvard Medical School; Syntex Pharmaceuticals; University of California, Riverside.

Christine Hong (2009)
Assistant Professor
B.A., University of California, Los Angeles; Ph.D., University of California, Berkeley.

Emily Honig, Kresge College (1992)
Professor, Feminist Studies and History
B.A., Brown University; M.A., Ph.D., Stanford University. Former affiliations: Yale University; Lafayette College.

Jennifer Horne (2011)
Assistant Professor, Film and Digital Media
B.A., Syracuse University; M.A., Ph.D., University of Minnesota. Former affiliation: The Catholic University of America.

Edward F. Houghton, Porter College (1970)
Professor Emeritus, Music
B.A., Rutgers University; M.A., University of Nevada; Ph.D., University of California, Berkeley. Former affiliations: University of California Education Abroad Program (Padua, Venice, Bologna); Rutgers University.

Jeremy K. Hourigan (2006)
Assistant Professor, Earth and Planetary Sciences
B.S., University of Vermont; Ph.D. Stanford University. Former affiliations: Yale University; UC Santa Barbara.

David C. Hoy, Cowell College (1981)
Professor, Philosophy
B.A., Ph.D., Yale University. Former affiliations: Barnard College; Columbia University;

University of California, Los Angeles; Princeton University; Yale University.

Jocelyn B. Hoy, Cowell College (1984)

Lecturer, Philosophy

M.Phil., Ph.D., Yale University. Former affiliation: Rider College.

Minghui Hu, College Eight (2005)

Associate Professor, History

Ph.D., University of California, Los Angeles. Former affiliation: University of Chicago.

Richard P. Hughey, Crown College (1991)

Professor, Biomolecular Engineering and Computer Engineering; Vice Provost, Dean, Undergraduate Ed.

B.A., B.S., Swarthmore College; Sc.M., Ph.D., Brown University.

A Y. Huginnie, Oakes College (1995)

Assistant Professor, American Studies

B.A., Radcliffe College, Harvard University; M.A., M.Phil., Ph.D., Yale University. Former affiliation: University of Colorado, Boulder.

Akasha Hull, Kresge College (1988)

Professor Emerita, Feminist Studies and Literature

B.A., Southern University; M.A., Ph.D., Purdue University. Former affiliation: University of Delaware.

Fred A. Hunnicutt, Porter College (1969)

Professor Emeritus, Art

B.F.A., University of Texas; M.F.A., San Francisco Art Institute. Former affiliations: University of Texas at Arlington; Hornsey College of Art (London); Royal College of Art (London).

Donna M. Hunter, Porter College (1985)

Associate Professor, History of Art and Visual Culture

B.A., Vassar College; M.A., Ph.D., Harvard University. Former affiliation: Harvard University.

Aida Hurtado, Stevenson College (1983)

Professor, Psychology

B.A., Pan American University; M.A., Ph.D., University of Michigan, Ann Arbor. Former affiliation: Pan American University.

Greta K. Hutchison (1986)

Lecturer, French

B.A., M.A., University of Oregon, Eugene. Former affiliation: Cabrillo College.

Michael M. Hutchison, Cowell College (1985)

Professor, Economics; Interim Dean, Division of Social Sciences

B.A., University of California, Santa Cruz; Ph.D., University of Oregon. Former affiliations: Federal Reserve Bank of San Francisco; University of Oregon; Institute for International Economic Studies, University of Stockholm.

Garth D. Illingworth, Crown College (1988)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory

B.Sc., University of Western Australia; Ph.D., Australian National University. Former affiliations: Space Telescope Science Institute; University of California, Berkeley; Kitt Peak National Observatory; Johns Hopkins University.

Robert W. Irion (1988)

Senior Lecturer in Science Writing, Program Director

B.S., Massachusetts Institute of Technology; Graduate Certificate, University of California, Santa Cruz.

Michael S. Isaacson (2003)

Professor, Electrical Engineering; Narinder Singh Kapany Professor, Optoelectronics
B.S., University of Illinois, Urbana–Champaign; S.M., Ph.D., University of Chicago. Former
affiliations: Brookhaven National Laboratory; University of Chicago; Cornell University.

John W. Isbister, Merrill College (1968)
Emeritus, Economics
B.A., Queen's University (Canada); Ph.D., Princeton University.

Junko Ito, Stevenson College (1986)
Professor, Linguistics
B.A., M.A., International Christian University (Tokyo); Ph.D., University of Massachusetts–
Amherst.

Earl Jackson, Kresge College (1989)
Associate Professor, Literature
B.A., State University of New York at Buffalo; M.A., Cornell University; M.A., Harvard
University; M.A., Ph.D., Princeton University. Former affiliation: University of Minnesota.

Kimberly M. Jannarone, Porter College (2001)
Professor, Theater Arts
B.A., Emory University; M.F.A., D.F.A., Yale School of Drama. Former affiliations: University
of Washington; Smith College; Quinnipiac College.

Virginia Jansen, Cowell College (1975)
Professor Emerita, History of Art and Visual Culture
B.A., Smith College; M.A., Ph.D., University of California, Berkeley. Former affiliations:
University of Santa Clara; Foothill College; Montreal Museum of Fine Arts.

Tesla E. Jeltema (2011)
Assistant Professor, Physics
Ph.D, Massachusetts Institute of Technology.

Arnav Jhala (2009)
Assistant Professor, Computer Science
B.E., Gujarat University, India; M.S., North Carolina State University, Raleigh; Ph.D., North
Carolina State University, Raleigh. Research Assistant, Department of Computer Science,
North Carolina State University, Raleigh..

Yishi Jin (1996)
Associate Professor, Molecular, Cell, and Developmental Biology
B.S., Beijing University; Ph.D., University of California, Berkeley.

Robert P. Johnson, Merrill College (1991)
Professor, Physics
B.S., University of Kansas; Ph.D., Stanford University. Former affiliations: PPE Division,
CERN; University of Wisconsin–Madison.

Susanne L. Jonas, Merrill College (1986)
Lecturer, Latin American and Latino Studies
B.A., Radcliffe College; A.M.T., Harvard Graduate School of Education; M.S., Massachusetts
Institute of Technology; Ph.D., University of California, Berkeley.

Burton F. Jones, Crown College (1975)
Professor Emeritus, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick
Observatory
B.S., M.S., Ph.D., University of Chicago.

Catherine A. Jones, Stevenson College (2007)
Assistant Professor, History
B.A., Haverford College; Ph.D., Johns Hopkins University. Johns Hopkins University.

David E. Jones, Porter College (1988)

Professor, Music; Provost, Porter College
B.A., M.A., Ph.D., University of California, San Diego. Former affiliations: Dartmouth College; University of York (England); University of California, San Diego.

John O. Jordan, Kresge College (1968)
Professor, English Literature
B.A., Princeton University; Ph.D., Stanford University.

Melissa S. Jurica (2003)
Assistant Professor, Molecular, Cell, and Developmental Biology
B.S., Montana State University; Ph.D., University of Washington, Fred Hutchinson Cancer Research Center. Former affiliation: Brandeis University.

Jonathan Kahana (2012)
Associate Professor, Film and Digital Media
B.F.A., B.A., York University; M.A., University of Minnesota; Ph.D., Rutgers University. Former affiliations: New York University; Bryn Mawr College.

Gretchen L. Kalonji (2005)
Professor, Electrical Engineering
B.S., Ph.D, Massachusetts Institute of Technology. University of California, Office of the President; University of Washington; Max Planck Institut, Stuttgart, Germany; Massachusetts Institute of Technology; National Bureau of Standards.

Rohinton T. Kamakaka (2006)
Associate Professor
B.S., M.S., Poona University; Ph.D., Cambridge University; post-doctoral research, University of California, San Diego and University of California, Berkeley. Former affiliation: National Institutes of Health.

Stacy L. Kamehiro, Porter College (2002)
Assistant Professor, History of Art and Visual Culture
B.A., University of California, San Diego; M.A., Ph.D., University of California, Los Angeles. Former affiliation: University of Redlands.

Sheldon Kamieniecki, College Eight (2006)
Professor and Dean of Social Sciences
B.A., State University of New York; M.A., State University of New York; Ph.D., State University of New York. Former affiliation: University of Southern California.

Sung M. Kang (2001)
Professor, Electrical Engineering; Dean, Jack Baskin School of Engineering
B.S., Fairleigh Dickinson University; M.S., State University of New York at Buffalo; Ph.D., University of California, Berkeley. Former affiliations: University of Illinois, Urbana-Champaign; Swiss Federal Institute of Technology; University of Karlsruhe; Technical University of Munich.

Kevin Karplus, Cowell College (1986)
Professor, Biomolecular Engineering
B.S., Michigan State University; M.S., Ph.D., Stanford University. Former affiliation: Cornell University.

S P. Kashap, Cowell College (1969)
Professor Emeritus, Philosophy
B.A., M.A., University of Bombay; M.A., Edinburgh University; B.Litt., Oxford University. Former affiliations: Brown University; Wheaton College.

Jonathan R. Katznelson
Lecturer, Applied Mathematics and Statistics
B.Sc., Hebrew University; Ph.D., M.Sc., Stanford University. Former affiliations: Institut des Hautes Etudes Scientifiques (France); University of Maryland.

David E. Kaun, Crown College (1966)
 Professor, Economics
 B.S., Arizona State University; M.A., Claremont Graduate School; Ph.D., Stanford University.
 Former affiliations: University of Pittsburgh; Brookings Institution.

Alan H. Kawamoto, Crown College (1986)
 Associate Professor, Psychology
 B.S., Stanford University; Ph.D., Brown University. Former affiliation: Carnegie Mellon University.

Kathleen M. Kay (2008)
 Assistant Professor, Ecology and Evolutionary Biology
 B.S., University of California, Davis; Ph.D., Michigan State University. University of California, Santa Barbara; University of California, Berkeley.

David L. Keenan (2000)
 Lecturer, Chinese Language
 B.A., Dartmouth College; M.A., Ph.D., Harvard University. Former affiliations: Indiana University; Grinnell College; Colby College.

Sean Keilen (2012)
 Associate Professor, Literature
 B.A., Williams College; B.A., M.A., Cambridge University; M.A., Ph.D., Stanford University

Al Kelley, Stevenson College (1966)
 Professor Emeritus, Mathematics
 B.S., University of Montana; M.A., Ph.D., University of California, Berkeley. Former affiliations: Institute for Advanced Study (Princeton); National Academy of Sciences Exchange Fellowship to the USSR.

Douglas Kellogg (1995)
 Professor, Molecular, Cell, and Developmental Biology
 B.A., University of Wisconsin–Madison; Ph.D., University of California, San Francisco.

Dennis D. Kelso (1999)
 Pepper–Giberson Assistant Professor, Environmental Studies
 B.S., Iowa State University; J.D., Harvard University; Ph.D., University of California, Berkeley.
 Former affiliations: Department of Environmental Conservation, State of Alaska; Department of Fish and Game, State of Alaska.

Peter Kenez, Stevenson College (1966)
 Professor, History; Neufeld Levin Professor, Holocaust Studies
 B.A., Princeton University; M.A., Ph.D., Harvard University. Former affiliations: Oxford University; Massachusetts Institute of Technology.

Hi K. Kim, Porter College (1992)
 Associate Professor, Music
 B.A., Seoul National University (Korea); M.A., Ph.D., University of California, Berkeley; D.E.A., IRCAM and Ecole Normale Supérieure (Paris). Concurrent Affiliation: Founder and Artistic Director, Pacific Rim Music Festival. Former affiliation: San Francisco State University.

Jungmi Kim (2007)
 Lecturer, Writing
 B.A., Sookmyung Women's University; M.A., Ph.D., Temple University.

Lahn S. Kim, Porter College (2002)
 Associate Professor, Film and Digital Media
 B.A., Smith College; M.A., Ph.D., University of California, Los Angeles. Former affiliation: Northwestern University.

Julie H. Kimball (1983)
Physical Education Instructor
B.A., University of California, Santa Cruz. Former affiliation: Ramani Iyengar Yoga Institute (India).

James C. King (2008)
Research Associate, Computer Science
B.A., Washington State University; M.A., Washington State University; Ph.D., Carnegie Mellon University.

Noel Q. King, Merrill College (1968)
Professor Emeritus, History and Comparative Religion
M.A., Oxford University; Ph.D., University of Nottingham. Former affiliations: University of Nottingham; University of Ghana; University of East Africa (Makerere).

Robin Y. King (1997)
Lecturer, Writing
B.A., M.F.A., University of California, San Diego.

Russell L. Kingon (2000)
Physical Education Instructor
B.S., Clemson University.

Sharon A. Kinoshita, Oakes College (1987)
Professor, Literature
A.B., M.A., Ph.D., University of California, Berkeley. Former affiliation: Stanford University.

Norma Klahn, Merrill College (1989)
Professor, Literature
B.A., M.A., Queens College, City University of New York; Ph.D., State University of New York at Stony Brook. Former affiliation: Columbia University.

Kenneth M. Kletzer, Stevenson College (1992)
Professor, Economics
B.S., Stanford University; M.S., University of Washington; Ph.D., University of California, Berkeley. Former affiliations: University of California, Davis; Yale University.

Robert Klevan (1998)
Lecturer, Music (Wind Ensemble)
B.M., M.M., University of the Pacific; Ph.D., University of Texas at Austin. Concurrent affiliation: Monterey Peninsula College.

David S. Kliger, Oakes College (1971)
Professor Emeritus, Chemistry and Biochemistry; Interim Campus Provost and Executive Vice Chancellor
B.S., Rutgers University; Ph.D., Cornell University. Former affiliation: Harvard University.

Elise Knittle, Kresge College (1988)
Professor, Earth and Planetary Sciences
A.B., Smith College; Ph.D., University of California, Berkeley.

Nobuhiko P. Kobayashi (2007)
Associate Professor, Electrical Engineering
B.S., Aoyama Gakuin University, Japan; M.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles. Concurrent Affiliation: NASA Ames Research Center. Hewlett-Packard Labs; Electronics Research Lab, University of California, Berkeley..

Paul L. Koch, Crown College (1996)
Professor, Earth and Planetary Sciences
B.A., University of Rochester; M.S., Ph.D., University of Michigan. Former affiliations: Smithsonian Institution; Carnegie Institution of Washington; Princeton University.

Phokion Kolaitis, College Eight (1988)
Professor, Distinguished Professor of Computer Science
Diploma, University of Athens; M.A., Ph.D., University of California, Los Angeles. Former affiliations: Stanford University; Occidental College; University of Chicago.

Joseph P. Konopelski, Stevenson College (1984)
Professor, Chemistry and Biochemistry
B.A., M.A., Johns Hopkins University; Ph.D., Stanford University. Former affiliations: Universite Louis Pasteur (Strasbourg); University of Pennsylvania.

David C. Koo, College Eight (1988)
Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
A.B., Cornell University; M.A., Ph.D., University of California, Berkeley. Former affiliation: Space Telescope Science Institute.

Athanasios Kottas (2002)
Professor, Applied Mathematics and Statistics
B.Sc., M.Sc., University of Ioannina (Greece); Ph.D., University of Connecticut. Former affiliation: Duke University.

Reiner Kraft (2010)
Assistant Adjunct Professor, Computer Science
M.S., Stanford University; University of California, Santa Cruz; Ph.D., University of California, Santa Cruz. Concurrent Affiliation: Concurrent affiliation: Yahoo Inc.. Former affiliation: IBM Almaden Research Center..

Robert P. Kraft, Stevenson College (1967)
Professor Emeritus, Astronomy and Astrophysics; Astronomer Emeritus, UC Observatories/Lick Observatory
B.S., M.S., University of Washington; Ph.D., University of California, Berkeley.

Thomas M. Kroeger (2011)
Assistant Adjunct Professor, Computer Science
B.S.E., University of Michigan, Ann Arbor; M.S., Ph.D., University of California, Santa Cruz. Sandia National Laboratories, Livermore, CA.; UC Santa Cruz; Validus Medical Information Systems, Santa Cruz.

Mark Krumholz (2007)
Associate Professor, Astronomy and Astrophysics
B.A., Princeton University; M.A., Ph.D., University of California, Berkeley

Nancy Krusoe
Lecturer and Crown College Writing Coordinator Emerita, Writing
B.A., Georgia State University, Atlanta; M.A., California State University Northridge. California State University Northridge.

Jacqueline W. Ku, Cowell College (1984)
Lecturer, Chinese Language
B.A., Shih-chien College (Taiwan). Former affiliations: Defense Language Institute; Inter-University Program for Chinese Language Studies (Taipei); Stanford University of Asian Languages Summer Languages Institute; Middlebury College Summer Language Institute.

Joel A. Kubby (2005)
Associate Professor, Electrical Engineering
B.A., University of California, Berkeley; M.S., Ph.D., Cornell University. Former affiliation: Xerox Corporation.

Raphael M. Kudela (1999)
Professor, Ocean Sciences
B.S., Drake University; Ph.D., University of Southern California. Concurrent affiliation: Monterey Bay Aquarium Research Institute.

Sri H. Kurniawan (2007)

Associate Professor, Computer Engineering

B.S., Satya Wacana University; M.S., Hong Kong University of Science and Technology; Ph.D., Wayne State University. Former affiliation: University of Manchester.

Frederick H. Kuttner (1996)

Lecturer, Physics

B.S., Massachusetts Institute of Technology; M.B.A., Santa Clara University; M.S., Ph.D., University of California, Santa Cruz. Former affiliations: Litton Industries; Northwestern Polytechnic University.

William A. Ladusaw, Cowell College (1984)

Professor, Linguistics; Interim Vice Provost and Dean, Undergraduate Education

B.A., University of Kentucky; M.A., Ph.D., University of Texas at Austin. Former affiliations: University of Connecticut; University of California, Los Angeles; University of Iowa.

Edward M. Landesman, Crown College (1966)

Professor Emeritus, Mathematics

B.A., M.A., Ph.D., University of California, Los Angeles. Former affiliation: University of California, Los Angeles.

Ann M. Lane, Oakes College (1980)

Emerita, American Studies

B.A., Ph.D., University of California, Santa Cruz.

Glen G. Langdon (1987)

Professor Emeritus, Computer Engineering

B.S., Washington State University; M.S., University of Pittsburgh; Ph.D., Syracuse University. Former affiliations: IBM Research; University of São Paulo.

Jean H. Langenheim (1966)

Professor Emerita, Ecology and Evolutionary Biology

B.S., University of Tulsa; M.S., Ph.D., University of Minnesota. Former affiliations: Harvard University; University of California, Berkeley; University of Illinois, Urbana-Champaign; San Francisco College for Women; Mills College.

Regina D. Langhout (2006)

Associate Professor, Psychology

B.A., University of California, Santa Cruz; A.M., Ph.D., University of Illinois. Former affiliations: Wesleyan University; Children's Advocacy Institute and Center for Public Interest Law, University of San Diego.

Ruth Langridge (2012)

Lecturer, Legal Studies

B.S., Antioch College; M.A., Harvard University; M.S., Oregon State University; Ph.D., University of California, Berkeley

Leo F. Laporte, Crown College (1971)

Professor Emeritus, Earth and Planetary Sciences

B.A., Ph.D., Columbia University. Former affiliation: Brown University.

Bruce D. Larkin, Cowell College (1965)

Professor Emeritus, Politics

B.A., University of Chicago; M.A., Ph.D., Harvard University.

Tracy Larrabee, College Eight (1990)

Professor, Computer Engineering

B.S., California Institute of Technology; M.S., Ph.D., Stanford University. Former affiliations: Hewlett-Packard Laboratories; Xerox PARC; Digital Equipment Corporation.

Matthew Lasar (2003)

Lecturer, History

Ph.D., Claremont Graduate University. Former affiliation: University of California, Riverside.

Kimberly J. Lau (2006)

Professor, Literature; Provost, Oakes College; American Studies Program Director
B.A., University of California, Berkeley; M.L.I.S., University of California, Berkeley; Ph.D.,
University of Pennsylvania. Former Affiliation: University of Utah.

Gregory P. Laughlin (2001)

Associate Professor, Astronomy and Astrophysics
B.S., University of Illinois, Urbana-Champaign; M.S., Ph.D., University of California, Santa
Cruz. Former affiliation: NASA Ames Research Center.

Kenneth E. Laws

Assistant Adjunct Professor, Electrical Engineering
B.S., San Francisco State University; M.S., Ph.D., University of California, Santa Cruz..
Former affiliation: University of Michigan..

Thorne Lay, Porter College (1989)

Professor, Earth and Planetary Sciences
B.S., University of Rochester; M.S., Ph.D., California Institute of Technology. Former
affiliations: University of Michigan, Ann Arbor; California Institute of Technology.

John Jota Leanos (2009)

Assistant Professor, Film and Digital Media
M.F.A., San Francisco State University. California College of the Arts; Arizona State
University.

Campbell Leaper, Cowell College (1988)

Professor, Psychology; Provost, Colleges Nine and Ten
B.A., Boston University; M.A., Ph.D., University of California, Los Angeles. Former
affiliations: Harvard Medical School; California State University, Northridge; California State
University, Long Beach.

Burney J. Leboeuf, Crown College (1967)

Professor Emeritus, Ecology and Evolutionary Biology
B.A., University of California, Berkeley; M.A., San Francisco State College; Ph.D., University
of California, Berkeley. Former affiliations: University of California, Davis; Harvard
University.

Herbert K. Lee, College Nine (2002)

Professor, Applied Mathematics and Statistics
B.S., Yale University; M.S., Ph.D., Carnegie Mellon University. Former affiliation: Duke
University.

Jimin Lee, Porter College (2003)

Associate Professor, Art
B.F.A., M.F.A., Seoul National University (Korea); M.F.A., San Francisco Art Institute. Former
affiliation: California State University, Hayward.

H M. Leicester, Cowell College (1967)

Professor, English Literature
B.A., M.A., Ph.D., Yale University. Former affiliation: Yale University.

Anatole Leikin, Porter College (1989)

Professor, Music
B.A., Gnesin State Conservatory (Moscow); M.A., Gnesin State Musical and Pedagogical
Institute (Moscow); Ph.D., University of California, Los Angeles. Former affiliations: Gnesin
State Conservatory; University of California, Los Angeles.

Herve Lemansec, Cowell College (1978)

Lecturer, French Language
Diplôme d'Etudes Supérieures, Nantes University (France); Diplôme de Conseiller

Pédagogique, University of Aix-en-Provence (France).

Deborah K. Letourneau, College Eight (1984)
Professor, Ecology (Environmental Studies)
B.S., M.S., University of Michigan; Ph.D., University of California, Berkeley.

Bruce C. Levine (1997)
Professor Emeritus, History
B.A., University of Michigan, Ann Arbor; M.A., Ph.D., University of Rochester. Former affiliation: University of Cincinnati.

Robert A. Levinson, Stevenson College (1985)
Professor, Computer Science
B.S., University of Minnesota at Minneapolis-St. Paul; Ph.D., University of Texas at Austin. Former affiliations: University of Texas at Austin; University of Minnesota.

Debra K. Lewis, Crown College (1991)
Professor, Mathematics
B.A., Ph.D., University of California, Berkeley. Former affiliation: Institute for Math and Its Applications, University of Minnesota.

Yat Li, Crown College (2007)
Assistant Professor
B.Sc., University of Hong Kong; Ph.D., University of Hong Kong.

Fredric Lieberman, Porter College (1983)
Professor, Music
B.M., Eastman School of Music; M.A., University of Hawaii; Ph.D., University of California, Los Angeles. Former affiliations: Brown University; University of Washington.

Peter E. Limbrick, Porter College (2001)
Assistant Professor, Film and Digital Media
B.A., M.A., University of Otago (New Zealand); Ph.D., La Trobe University (Australia). Former affiliations: Duke University; Stanford University; University of California, Berkeley.

Douglas N. Lin, Crown College (1979)
Professor, Astronomy and Astrophysics
B.S., McGill University; Ph.D., Cambridge University. Former affiliation: Harvard University.

Daniel T. Linger, Stevenson College (1983)
Professor Emeritus, Anthropology
B.A., University of Michigan; M.A., Ph.D., University of California, San Diego. Former affiliation: University of California, San Diego.

Roger G. Linington, Crown College (2007)
Assistant Professor, Chemistry and Biochemistry
B.Sc., University of Leeds, United Kingdom; Ph.D., University of British Columbia, Canada.

Ronnie D. Lipschutz, Stevenson College (1990)
Professor, Politics
B.A., B.S., University of Texas at Austin; M.S., Massachusetts Institute of Technology; Ph.D., University of California, Berkeley.

George Lipsitz, Oakes College (2003)
Professor, American Studies
A.B., Washington University; M.A., University of Missouri, St. Louis; Ph.D., University of Wisconsin. Former affiliations: University of California, San Diego; University of Minnesota; University of Houston at Clear Lake City.

Alan M. Litke (1984)
Adjunct Professor, Physics
B.A., Johns Hopkins University; M.A., Ph.D., Harvard University.

Norman Locks, Porter College (1977)
Professor, Art
B.F.A., San Francisco Art Institute; M.A., San Francisco State University.

Suresh K. Lodha, Porter College (1992)
Professor, Computer Science
M.Sc., Indian Institute of Technology (Kanpur); M.A., University of California, Berkeley;
Ph.D., Rice University. Former affiliations: IBM Thomas J. Watson Research Center; IBM
Almaden Research Center.

Michael E. Loik (1998)
Associate Professor, Environmental Studies
B.Sc., M.Sc., University of Toronto; Ph.D. University of California, Los Angeles. Former
affiliations: University of California, Berkeley; California State University, San Bernardino.

Robert S. Lokey (2002)
Professor, Chemistry and Biochemistry
B.S., Trinity University (San Antonio); Ph.D., University of Texas at Austin.

Amy J. Lonetree, Oakes College
Assistant Professor, American Studies, American Studies Program Director
B.A., University of Minnesota; M.A., University of Chicago; M.A., Indiana University; Ph.D.,
University of California, Berkeley.

Darrell D. Long, Crown College (1988)
Professor, Computer Science
B.S., San Diego State University; M.S., Ph.D., University of California, San Diego.

Charles L. Lord, Porter College (1987)
Professor, Film and Digital Media
B.A., Tulane University. Former affiliation: University of California, San Diego.

Murray K. Low (2008)
Lecturer, Music, (Jazz Theory)
BSEE, University of California, Berkeley. Former affiliations: Stanford University, University
of California, Berkeley.

Todd M. Lowe (2001)
Associate Professor, Biomolecular Engineering
B.A., Williams College; Ph.D., Washington University.

Flora E. Lu (2008)
Associate Professor, Latin American and Latino Studies
A.B., Stanford University; Ph.D., University of North Carolina at Chapel Hill. Former
affiliations: University of North Carolina at Chapel Hill; Stanford University.

Paul M. Lubeck, College Eight (1973)
Professor, Sociology
B.A., St. Michael's College; M.A., Ph.D., Certificate in African Studies, Northwestern
University.

Robert A. Ludwig, Crown College (1979)
Professor, Molecular, Cell, and Developmental Biology
B.S., University of Michigan; Ph.D., Yale University. Former affiliation: Massachusetts
Institute of Technology.

Brij D. Lunine (2000)
Lecturer, Writing
Ph.D., University of New Mexico. Former affiliation: Georgiana Bruce Kirby Preparatory
School.

Irene E. Lusztig (2008)
Assistant Professor, Film and Digital Media
B.A., Harvard University; M.F.A., Bard College. Harvard University; State University of New York, Purchase; Temple University.

Boreth J. Ly (2008)
Assistant Professor, History of Art and Visual Culture
B.A., Bates College, Lewiston, Maine; Ph.D., University of California, Berkeley..

John P. Lynch, Cowell College (1970)
Professor Emeritus, Classics (Literature)
B.A., Harvard College; M.A., M.Phil., Ph.D., Yale University.

Jennifer K. Lynn (2010)
Lecturer, Greek, Language Program
A.B., Ph.D., Columbia University. Former affiliations: The Hotchkiss School, The Berkeley Carroll School, Oberlin College, Princeton University, Columbia University.

Bruce E. Lyon (1997)
Professor, Ecology and Evolutionary Biology
B.Sc., McGill University; M.Sc., Queen's University; Ph.D., Princeton University.

Pavel Machotka, Porter College (1970)
Professor Emeritus, Psychology
B.A., University of Chicago; M.A., Ph.D., Harvard University; (Hon.) Dr. h. c., Charles University (Prague). Former affiliations: Harvard University; University of Colorado.

Nathaniel E. Mackey, Kresge College (1979)
Professor Emeritus, Literature
B.A., Princeton University; Ph.D., Stanford University. Former affiliations: University of Southern California; University of Wisconsin–Madison.

Pascale Mackey, Kresge College (1986)
Professor Emerita, Literature and Language Studies
B.A., M.A., Oxford University; Ph.D., Princeton University.

Wesley F. Mackey (1993)
Lecturer, Computer Science
B.S., M.S., Ph.D., University of Manitoba.

Piero Madau (2000)
Professor, Astronomy and Astrophysics
B.S., University of Florence; Ph.D., International School for Advanced Studies (Trieste).
Former affiliation: Cambridge University.

Patrice Maginnis, Cowell College (1986)
Lecturer, Music (Voice)
B.A., M.A., San Jose State University. Former affiliations: San Jose State University; De Anza College; Opera San Jose.

Roy T. Malan (1980)
Lecturer, Music (Violin and Viola)
Diplomas, Royal Academy of Music, Juilliard School of Music, and Curtis Institute of Music.
Concurrent Affiliation: Concurrent affiliations: San Francisco Ballet Orchestra; San Francisco Contemporary Music Players; Telluride Chamber Music Festival; Rocky Ridge Music Center.
Former affiliations: Ithaca College; San Francisco Conservatory of Music; San Francisco State University; University of Nevada at Reno; Stanford University.

Carl G. Maltzahn (2006)
Associate Adjunct Professor
Ph.D., Computer Science, University of Colorado at Boulder; Diplom–Informatiker, University of Passau, Germany. Former Affiliations: NetApp; Digital Equipment Corporation.

Roberto Manduchi (2001)
Professor, Computer Engineering
Laurea, Dottorato di ricerca, University of Padova (Italy). Former affiliation: University of Southern California.

Marc S. Mangel, Stevenson College (1996)
Professor, Applied Mathematics and Statistics; Program Director, Technology and Information Management
B.S., M.S., University of Illinois; Ph.D., University of British Columbia. Former affiliations: University of California, Davis; Simon Fraser University; University of Oxford; Hebrew University of Jerusalem; Weizmann Institute of Science.

Patrick E. Mantey, Merrill College (1984)
Associate Dean, Jack Baskin Endowed Professor, CITRIS and ITI Director
B.S., University of Notre Dame; M.S., University of Wisconsin; Ph.D., Stanford University. Former affiliations: Stanford University; IBM Research.

Bruce H. Margon, Crown College (2006)
Professor of Astronomy and Astrophysics/Vice Chancellor, Research
A.B., Columbia University; M.S., Ph.D., University of California, Berkeley.. Space Telescope Science Institute.

Baldo B. Marinovic (1996)
Lecturer
Ph.D., University of Western Australia.

Justin Marion (2005)
Associate Professor, Economics
B.B.A., B.S., Southern Methodist University; Ph.D., University of Chicago. Former affiliation: Graduate School of Business, University of Chicago.

David S. Marriott, Oakes College (2003)
Associate Professor, History of Consciousness
B.A. (Hons., 1st class), M.A., Ph.D., University of Sussex. Former affiliation: University of London.

George E. Marsh (1982)
Lecturer, Music (Percussion)
University of Illinois, Champaign/Urbana. Concurrent affiliation: Sonoma State University. Former affiliation: San Francisco Conservatory of Music.

Alma R. Martinez, Kresge College (2001)
Professor Emerita, Theater Arts (Acting)
B.A., Whittier College; M.F.A., University of Southern California; Ph.D. cand., Stanford University. Former affiliations: Aquarius Theater; El Teatro Campesino; Universal Studios.

Lourde Martinez-Echazabal, Merrill College (1990)
Professor, Latin American Literature
B.A., M.A., Ph.D., University of California, San Diego. Former affiliation: Rutgers University.

Pradip Mascharak, Oakes College (1984)
Professor, Chemistry and Biochemistry
B.S., M.S., University of Burdwan (India); Ph.D., Indian Institute of Technology (Kanpur). Former affiliations: Stanford University; Massachusetts Institute of Technology.

Geoffrey Mason, Kresge College (1973)
Professor, Mathematics
B.Sc., University of London; M.S., Ph.D., University of Illinois, Chicago.

Dominic W. Massaro, Porter College (1979)
Emeritus, Psychology

B.A., University of California, Los Angeles; M.A., Ph.D., University of Massachusetts. Former affiliation: University of Wisconsin.

Mark F. Massoud (2009)

Assistant Professor , Politics

B.A., M.A., University of Notre Dame; Law degree, Ph.D., University of California, Berkeley. Stanford University Center on Democracy, Development, and the Rule of Law..

Michael J. Mateas (2006)

Professor, Computer Science

B.S., University of the Pacific, 1989; M.S., Portland State University, 1993; Ph.D., Carnegie Mellon University, 2002. The Georgia Institute of Technology.

Marc Matera (2012)

Assistant Professor, History

B.A., University of North Carolina, Chapel Hill; M.A., University of Colorado, Boulder; Ph.D., Rutgers University

Mara Mather (2001)

Associate Professor, Psychology

A.B., Stanford University; Ph.D., Princeton University.

Richard S. Mather, Cowell College (1965)

Professor Emeritus, History

B.A., M.A., Ph.D., University of California, Berkeley.

Andrew S. Mathews (2007)

Associate Professor, Anthropology

B.Sc.; M.Sc., M.Phil., Ph.D.. Florida International University.

William G. Mathews, Porter College (1970)

Research Professor, Astronomy and Astrophysics

B.S., University of Washington; M.S., University of Chicago; Ph.D., University of California, Berkeley. Former affiliation: University of California, San Diego.

Dean P. Mathiowetz, Merrill College (2003)

Associate Professor, Politics

B.A., University of Minnesota; M.A., Ph.D., University of California, Berkeley.

Claire E. Max (1999)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory

A.B., Harvard University; Ph.D., Princeton University.

Melanie J. Mayer, Cowell College (1972)

Professor Emerita, Psychology

A.B., Cornell University; M.A., University of Wisconsin–Madison; Ph.D., University of California, San Diego.

Phillip McCalman, Crown College (1999)

Associate Professor, Economics

B.Comm., M.Comm., University of Melbourne; Ph.D., University of Wisconsin–Madison. Former affiliation: Australian National University.

Matthew D. McCarthy (2001)

Assistant Professor, Ocean Sciences

B.S., University of California, San Diego; Ph.D., University of Washington. Former affiliation: Carnegie Institution of Washington; University of Hawaii.

James McCloskey, Stevenson College (1988)

Professor, Linguistics

B.A., University College Dublin; Ph.D., University of Texas at Austin. Former affiliations: University College Dublin; Dublin Institute for Advanced Studies; University of Texas at

Austin.

Jennie L. McDade, Porter College (1987)
Professor Emerita, Art
B.F.A., University of Southern Mississippi; M.F.A., University of Georgia.

Charles E. McDowell, Porter College (1985)
Professor, Computer Science
B.S., California Polytechnic State University, San Luis Obispo; M.S., Ph.D., University of California, San Diego. Former affiliations: University of California, San Diego; Lawrence Livermore National Laboratory; Digital Equipment Corporation.

Dennis C. McElrath, Stevenson College (1965)
Professor Emeritus, Sociology
B.A., University of California, Santa Barbara; M.A., University of California, Los Angeles; Ph.D., Yale University. Former affiliations: University of Southern California; Northwestern University; University of California Education Abroad Program (Padua).

Grant L. McGuire (2009)
Assistant Professor, Linguistics
B.A., University of Illinois, Urbana-Champaign; M.A., Ph.D., Ohio State University.
University of California, Berkeley.

Steven Mc Kay, College Nine (2007)
Associate Professor, Sociology
Ph.D., University of Wisconsin-Madison; M.A., University of Wisconsin-Madison; B.A., University of California, Berkeley.

Patrick M. McKercher, College Eight (1995)
Lecturer, Writing
B.A., M.A., San Diego State University; Ph.D., University of British Columbia.

Barry S. McLaughlin, Merrill College (1966)
Professor Emeritus, Psychology
B.A., M.S., St. Louis University; Ph.D., Harvard University. Former affiliation: University of California Education Abroad Program (Gottingen).

Ken J. McLaughlin (2008)
Lecturer in Science Writing, Science Communication
B.A., State Univ. of New York at Albany; M.A., Stanford University.

Karen C. Mc Nally, Kresge College (1981)
Professor Emerita, Earth and Planetary Sciences
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: California Institute of Technology.

Marcia K. McNutt (1998)
Professor Emerita, Earth and Planetary Sciences
B.A., Colorado College; Ph.D., Scripps Institution of Oceanography, University of California, San Diego; (Hon.) D.Sc., Colorado College. Concurrent affiliation: Monterey Bay Aquarium Research Institute. Former affiliation: Massachusetts Institute of Technology.

Rita Mehta (2010)
Assistant Professor, Ecology and Evolutionary Biology
B.S., B.A., University of California, Berkeley; M.S., University of Texas, Tyler; Ph.D., University of Tennessee, Knoxville. Former affiliation: University of California, Davis.

Robert L. Meister, Kresge College (1973)
Professor of Political and Social Thought and History of Consciousness
B.A., Princeton University; Ph.D., Harvard University. Former affiliation: Harvard University.

Martha Mendoza

Lecturer in Science Writing
B.A., Universal Technical Institute, Phoenix.

Tanya H. Merchant, Porter College (2007)
Assistant Professor
B.M., The Peabody Conservatory, Institute of Johns Hopkins University; M.Mus., Goldsmiths College, University of London; Ph.D., University of California Los Angeles.

R A. Mester, Stevenson College (1989)
Professor, Linguistics
Staatsexamen, University of Göttingen (Germany); Ph.D., University of Massachusetts–Amherst.

Kathryn E. Metz, Porter College (1971)
Professor Emerita, Art
B.F.A., Bowling Green State University; M.A., University of California, Los Angeles. Former affiliations: New York University; College of St. Benedict; St. John's University.

Jacob B. Michaelsen, Crown College (1965)
Professor Emeritus, Economics
B.A., M.B.A., Ph.D., University of Chicago. Former affiliation: University of California, Berkeley.

Edward T. Migliore (1986)
Lecturer, Mathematics
B.A., Rutgers University; M.A., Ph.D., University of California, Santa Cruz. Former affiliation: Monterey Peninsula College.

Peyman Milanfar (1999)
Professor, Electrical Engineering
B.S., University of California, Berkeley; Ph.D., Massachusetts Institute of Technology. Former affiliation: Stanford Research Institute International.

Gary B. Miles, Cowell College (1971)
Professor Emeritus, History
B.A., Colby College; M.A., Harvard University; Ph.D., Yale University. Former affiliations: Phillips Academy; Wesleyan University; University of Texas.

Adam Millard–Ball (2012)
Assistant Professor, Environmental Studies, (hired 7/1/12)
M.A., University of Edinburgh; Ph.D., Stanford University

Ethan L. Miller, Crown College (2000)
Professor, Computer Science
Sc.B., Brown University; M.S., Ph.D., University of California, Berkeley. Former affiliation: University of Maryland, Baltimore County.

Joseph S. Miller, Crown College (1967)
Professor, Astronomy and Astrophysics; Henry Bachmann Professor, Astronomical Instrumentation; Direc
B.A., University of California, Los Angeles; M.S., Ph.D., University of Wisconsin.

Leta E. Miller, Porter College (1978)
Professor, Music (Music History and Flute)
B.A., Stanford University; M.Mus., Hartt College of Music, University of Hartford; Ph.D., Stanford University. Former affiliations: Foothill College; Hartt College of Music.

Mary K. Miller
Lecturer in Science Writing
B.A., University of California, Santa Cruz.

Tyrus H. Miller, Cowell College (1999)

Professor, Literature; Provost, Cowell College
B.A., M.A., M.A., Johns Hopkins University; Ph.D., Stanford University.

Glenn L. Millhauser, Cowell College (1988)
Professor, Chemistry and Biochemistry
B.S., California State University, Los Angeles; M.S., Ph.D., Cornell University.

Marcia Millman, Stevenson College (1971)
Professor, Sociology
B.A., Ph.D., Brandeis University.

Dejan Milutinovic (2009)
Assistant Professor, Applied Mathematics and Statistics
Diplom-Ingenieur and M.S., University of Belgrade, Yugoslavia; Ph.D., Technical University of Lisbon, Portugal. Army Research Office (ARO), North Carolina, National Research Council Research Associate; Duke University, Durham, North Carolina, Postdoctoral Researcher; Utrecht University, The Netherlands, Postdoctoral Researcher.

Natalio B. Mingo (2007)
Associate Adjunct Professor, Electrical Engineering
M.S., Ph.D., Universidad Autonoma de Madrid. Former affiliations: CEA-Grenoble; Himeji Institute of Technology..

Patricia L. Mitchell (2002)
Lecturer, Music (Oboe)
B.M., San Jose State University.

Richard R. Mitchell (1983)
Lecturer, Mathematics
B.A., M.A., Ph.D., University of California, Santa Cruz.

Owen Miyoshi (2002)
Lecturer, Music (Trumpet)
B.M., San Francisco Conservatory of Music.

Helene Moglen, Kresge College (1978)
Emerita
B.A., Bryn Mawr College; M.A., Ph.D., Yale University. Former affiliations: State University of New York at Purchase; New York University.

Ellen L. Moir (1980)
Director, New Teacher Center
B.A., California State University, Northridge; Bilingual Cross-Cultural Specialist Credential, University of San Diego (Mexico); M.A., San Jose State University.

Kivie Moldave (1984)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., University of California, Berkeley; M.S., Ph.D., University of Southern California.
Former affiliations: Tufts University; University of Pittsburgh; University of California, Irvine.

Radhika V. Mongia (2000)
Assistant Professor, Feminist Studies
B.A., Miranda House College, University of Delhi; M.S., M.A., Northern Illinois University; Ph.D., University of Illinois, Urbana-Champaign.

James C. Monroe (2006)
Assistant Professor, Anthropology
Ph.D., University of California, Los Angeles. Former affiliation: Departments of African and African-American Studies, Anthropology, and History, Washington University in St. Louis.

Richard Montgomery, Crown College (1990)

Professor, Mathematics
B.A., Sonoma State University; Ph.D., University of California, Berkeley. Former affiliation: Massachusetts Institute of Technology.

Megan C. Moodie (2009)
Assistant Professor, Anthropology
B.A., Skidmore College; Ph.D., University of California, Santa Cruz.

Andrew M. Moore (2006)
Professor, Ocean Sciences
D.Phil., University of Oxford, England. Former affiliation: Program in Atmospheric and Oceanic sciences (PAOS) and Cooperative Institute for Research in Environmental Sciences (CIRES), University of Colorado.

James C. Moore, Crown College (1970)
Professor Emeritus, Earth and Planetary Sciences
B.A., University of California, Santa Barbara; Ph.D., Princeton University.

Jonathan W. Moore (2008)
Assistant Professor, Ecology and Evolutionary Biology
B.A., Carleton College; Ph.D., University of Washington. National Marine Fisheries Service, Seattle, Washington.

Madeline R. Moore, Kresge College (1972)
Professor Emerita, English Literature
B.S., Ph.D., University of Texas at Austin. Former affiliation: University of Texas at Austin.

Cynthia A. Mori (1983)
Physical Education Instructor
B.A., M.A., California State University, Long Beach. Former affiliation: Saddleback College.

Robin D. Morris (2008)
Associate Adjunct Professor, Applied Mathematics and Statistics
M.A., Cambridge University; Ph.D., Cambridge University. Universities Space Research Association.

Margaret E. Morse, Porter College (1991)
Professor, Film and Digital Media
B.A., Humboldt State University; M.A., Ph.D., University of California, Berkeley. Former affiliations: San Francisco State University; University of San Francisco; University of Southern California.

Judit N. Moschkovich, Crown College (1999)
Professor, Education
B.S., University of Minnesota; M.A., Ph.D., University of California, Berkeley. Former affiliations: Research scientist and project director, TORC, Cambridge, Massachusetts; research scientist and project director, Institute for Research on Learning, Menlo Park, California.

Eduardo Mosqueda, College Ten (2007)
Assistant Professor, Education
B.A., University of California Irvine; Ed., M., Harvard Graduate School of Education; Ed.D., Harvard Graduate School of Education.

Peter H. Mostkoff, Porter College (1999)
Assistant Professor, Theater Arts
B.A., Sarah Lawrence College; M.A., Ph.D. cand., University of California, Berkeley.

Gordon Mumma, Porter College (1973)
Professor Emeritus, Music
Composer of electronic and instrumental music. Former affiliations: Cursos Latinoamericanos de Musica Contemporanea; Mills College; University of California, San

Diego; Merce Cunningham Dance Company; Sonic Arts Union; University of Illinois.

Derek C. Murray (2007)

Assistant Professor, History of Art and Visual Culture

B.F.A., Art Center College of Design; M.A., California State University Los Angeles; M.A., Cornell University; Ph.D., Cornell University. University of South Florida, University of California Berkeley.

Stephen D. Murray (2003)

Associate Adjunct Professor, Astronomy and Astrophysics

B.S., Washington State University; M.S., Ph.D., University of California, Santa Cruz.

Concurrent Affiliation: Concurrent affiliation: Lawrence Livermore National Laboratory.

John T. Musacchio (2004)

Assistant Professor, Technology and Information Management

B.S., Ohio State University; M.S., Ph.D., University of California, Berkeley. Former affiliation: TerraBlaze, Inc.

Kim I. Musch (1998)

Physical Education Instructor

A.B., University of California, Berkeley; M.A., San Jose State University. Former affiliations: University of California, Berkeley; Chabot College; Ohlone College.

Peggy B. Musgrave, Crown College (1980)

Professor Emerita, Economics

B.A., M.A., American University; Ph.D., Johns Hopkins University. Former affiliations: Northeastern University; University of California, Berkeley; Vassar College.

Olga Nàjera Ramirez, Merrill College (1989)

Professor, Anthropology

B.A., University of California, Santa Cruz; M.A., Ph.D., University of Texas at Austin.

Renya Ramirez (2000)

Associate Professor, Anthropology

B.A., University of California, Berkeley; M.A., Ph.D., Stanford University

Ravi K. Narasimhan (2004)

Assistant Professor, Electrical Engineering

B.S., University of California, Berkeley; M.S., Ph.D., Stanford University. Former affiliations: Stanford University; Marvell Semiconductor.

Onuttom Narayan, College Eight (1995)

Professor, Physics

M.Sc., Indian Institute of Technology; M.A., Ph.D., Princeton University. Former affiliation: Harvard University.

Michael Nauenberg, Crown College (1966)

Professor Emeritus, Physics

B.S., Massachusetts Institute of Technology; Ph.D., Cornell University. Former affiliations: Columbia University; Stanford Linear Accelerator Center.

Paul Nauert, Porter College (1996)

Professor, Music

B.M., Eastman School of Music; M.A., Ph.D., Columbia University.

Marta A. Navarro (1990)

Lecturer, Spanish Language

B.A., M.A., University of California, Berkeley.

Jerry E. Nelson (1994)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory

B.S., California Institute of Technology; Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Jerome Neu, Cowell College (1972)
Professor, Humanities
B.A., Princeton University; D.Phil., Oxford University.

Dard A. Neuman, Porter College (2004)
Assistant Professor, Music; Kamil and Talat Hasan Endowed Chair in Classical Indian Music
B.A., University of Washington, Amherst; M.Phil., Ph.D., Columbia University. Former affiliation: Columbia University.

Andrew T. Newberry, Cowell College (1965)
Professor Emeritus, Ecology and Evolutionary Biology
B.A., Princeton University; Ph.D., Stanford University.

Ellen S. Newberry (1997)
Lecturer, Writing
B.A., Brown University; M.A., San Francisco State University. Former affiliations: De Anza College; Evergreen Valley College.

Jason A. Nielsen (2006)
Associate Professor
Ph.D., University of Wisconsin, 2001. Lawrence Berkeley National Laboratory.

Diana I. Nieves-Miranda (2002)
Lecturer, Music
B.A., M.A., University of California, Santa Cruz.

Walter H. Nimmo (2005)
Professor, Earth and Planetary Sciences
Ph.D., Cambridge University. Former affiliations: University College, London; University of California, Los Angeles.

Harry F. Noller, Crown College (1968)
Robert L. Sinsheimer Professor, Molecular, Cell, and Developmental Biology
B.A., University of California, Berkeley; Ph.D., University of Oregon. Former affiliations: Institut de Biologie Moléculaire (Geneva); MRC Laboratory of Molecular Biology (Cambridge, England).

Carlos G. Norena, Stevenson College (1967)
Professor Emeritus, Philosophy
Master in Classics, College S. Estanislao (Madrid); Master in Philosophy, College Chamartin (Madrid); Master in Theology, College S. Georgen (Frankfurt); LL.M., University of Wurzburg; Ph.D., University of California, San Diego. Former affiliations: Sophia University (Tokyo); University of San Diego; University of California, San Diego.

Loisa C. Nygaard, Crown College (1975)
Associate Professor, German Literature
B.A., Ph.D., Cornell University.

Kysa Nygreen (2007)
Assistant Professor, Education
B.A., Barnard College; M.A., University of California Berkeley; Ph.D., University of California Berkeley. Former affiliations: University of California Berkeley.

Katia Obraczka (2001)
Professor, Computer Engineering
B.S., M.S., Federal University of Rio de Janeiro; M.S., Ph.D., University of Southern California. Former affiliation: University of Southern California.

Marcia Ochoa, Kresge College (2005)

Associate Professor, Feminist Studies

B.A., University of Michigan (Anthropology, Women's Studies); A.M., Stanford University (Cultural and Social Anthropology); Ph.D., Stanford University (Cultural and Social Anthropology). Former affiliation: Doctoral Candidate, Cultural and Social Anthropology, Stanford University.

James R. Oconnor, College Eight (1976)

Professor Emeritus, Sociology

B.S., Ph.D., Columbia University. Former affiliations: Barnard College; Washington University; San Jose State University.

Rodney T. Ogawa, College Ten (2002)

Professor, Education

B.A., University of California, Los Angeles; M.A., Occidental College; Ph.D., Ohio State University. Former affiliation: University of California, Riverside.

Matthew D. O'Hara, Cowell College (2006)

Assistant Professor, History

Ph.D., University of California, San Diego. Former affiliation: New Mexico State University.

Shigeko Okamoto (2008)

Professor, Japanese Language

B.A., Kyoto Prefectural University; M.A., California State University, Fresno; Ph.D., University of California, Berkeley. Concurrent Affiliation: California State University, Fresno.

Scott R. Oliver (2004)

Professor, Chemistry and Biochemistry

B.Sc., Ph.D., University of Toronto. Former affiliation: State University of New York at Binghamton.

Brad Olsen (2004)

Assistant Professor, Education

B.A., Bowdoin College; M.Ed., Harvard Graduate School of Education; Ph.D., University of California, Berkeley. Former affiliation: University of California, Los Angeles.

Gregory O'Malley (2008)

Assistant Professor, History

B.A., Boston University; M.A., Ph.D., Johns Hopkins University.. California Institute of Technology..

Ryan D. Oprea (2006)

Assistant Professor, Economics

B.A., Hillsdale College; M.A., Ph.D., George Mason University.

Kate O'Riordan

Associate Professor, Art

B.A., University of Wales, U.K.; M.A., University of Sussex, U.K.; Ph.D., University of Brighton, U.K.

Charles L. Ortiz, Cowell College (1973)

Professor Emeritus, Ecology and Evolutionary Biology

B.A., California State University, Northridge; Ph.D., University of California, Los Angeles.

Paul A. Ortiz, College Ten (2001)

Associate Professor, Community Studies

B.A., Evergreen State College; Ph.D., Duke University. Former affiliation: Duke University.

Jane A. Orzel (1990)

Lecturer, Music (Bassoon)

B.S., Indiana University; M.A., San Jose State University. Concurrent affiliations: Santa Cruz County Symphony; Monterey County Symphony; Ensemble Monterey; Santa Cruz Chamber Players; Laurel Wind Quintet. Former affiliations: Hartnell College; University of Tulsa; Oral

Roberts University.

Edward P. Osborn (2004)

Assistant Professor, Art

B.A., Wesleyan University; M.F.A., Mills College. Former affiliation: San Francisco Art Institute.

Donald E. Osterbrock, Crown College (1972)

Professor Emeritus, Astronomy; Astronomer Emeritus, UC Observatories/Lick Observatory

Ph.B., B.S., M.S., Ph.D., University of Chicago; (Hon.) D.Sc.: University of Cincinnati; University of Chicago; Ohio State University; University of Wisconsin–Madison.

Richard E. Otte, Cowell College (1982)

Professor, Philosophy

B.A., Colorado State University; M.A., Ph.D., University of Arizona. Former affiliation: University of Pittsburgh.

Karen M. Ottemann, Crown College (1998)

Professor, Microbiology and Environmental Toxicology

B.S., University of California, Davis; Ph.D., Harvard University. Former affiliation: University of California, Berkeley.

Michael M. Oye (2011)

Assistant Adjunct Professor, Electrical Engineering

B.S., University of California, Santa Barbara; M.S., Ph.D., University of Texas at Austin. Former affiliations: San Jose State University, University of California, Los Angeles.

Mesut Ozgen (1998)

Lecturer, Music (Classical Guitar)

M.M., Artist Diploma, Yale University, School of Music; D.M.A. cand., Arizona State University; M.D., Hacettepe University (Ankara, Turkey). Former affiliation: School of Music Education, Gazi University (Turkey).

Jaye Padgett, Stevenson College (1992)

Professor, Linguistics

B.A., University of Maryland; Ph.D., University of Massachusetts–Amherst.

Jeffrey D. Paduan (1997)

Adjunct Professor, Ocean Sciences

B.S.E., University of Michigan, Ann Arbor; Ph.D., Oregon State University. Concurrent Affiliation: Concurrent affiliation: Naval Postgraduate School.. Former affiliation: Scripps Institution of Oceanography, University of California, San Diego.

Nicole A. Paiement, Porter College (1988)

Professor, Music (Conducting)

B.M., University of Ottawa; M.M., McGill University; D.M.A., Eastman School of Music. Former affiliations: McGill University; Eastman School of Music.

Eric P. Palkovacs (2012)

Assistant Professor, Ecology and Evolutionary Biology

B.S., University of Michigan, Ann Arbor; M.S., Ph.D., Yale University. Former affiliation: Duke University.

Daniel Palleros, Cowell College (1986)

Lecturer, Chemistry and Biochemistry

M.S., Ph.D., University of Buenos Aires.

Annapurna D. Pandey (1990)

Lecturer, Anthropology

B.A., Utkal University (Orissa, India); M.A., Ph.D., Jawaharlal Nehru University (New Delhi, India).

Triloki N. Pandey, Crown College (1973)
Professor, Anthropology
B.A., M.A., Lucknow University (India); M.A., Cambridge University; Ph.D., University of Chicago. Former affiliations: Cambridge University; University of Pittsburgh; New York University.

Alex Pang, Merrill College (1990)
Professor, Computer Science
B.S., University of the Philippines; M.S., Ph.D., University of California, Los Angeles.

Ingrid M. Parker, College Nine (1998)
Associate Professor, Ecology and Evolutionary Biology
A.B., University of Chicago; Ph.D., University of Washington.

Ingrid M. Parker, College Nine (1998)
Associate Professor, Ecology and Evolutionary Biology
A.B., University of Chicago; Ph.D., University of Washington.

Jennifer A. Parker, Porter College (1999)
Assistant Professor, Art
B.A., University of California, Santa Barbara; M.F.A., Rutgers University.

Sarah-Hope Parmeter, Merrill College (1985)
Lecturer, Writing
B.A., Mills College; M.A., University of California, Davis.

Carrie L. Partch (2011)
Assistant Professor, Chemistry and Biochemistry
B.S., University of Washington, Ph.D., University of North Carolina, Chapel Hill. Former affiliations: University of Washington; University of North Carolina, Chapel Hill; University of Texas Southwestern Medical Center.

Eleonora Pasotti, Merrill College (2003)
Assistant Professor, Politics
M.Sc., London School of Economics; M.Phil., Ph.D., Columbia University.

Adina Paytan (2008)
Lecturer, IMS Research Scientist, Institute of Marine Sciences
B.S., Hebrew University, Jerusalem; M.S., Weizmann Institute of Science, Rehovot; Ph.D., Scripps Institution of Oceanography. Former affiliations: University of California, San Diego.

Arthur Pearl, College Eight (1972)
Professor Emeritus, Education
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliations: Howard University; University of Oregon.

Devon E. Pearse (2009)
Adjunct Professor, Ecology and Evolutionary Biology; NOAA Fisheries Service SW Fisheries Science Ctr
B.A., University of California, Santa Cruz; Ph.D., University of Georgia. NOAA Southwest Fisheries Science Center.

John S. Pearse, College Eight (1971)
Professor Emeritus, Ecology and Evolutionary Biology
B.S., University of Chicago; Ph.D., Stanford University. Former affiliations: American University in Cairo; California Institute of Technology.

David A. Pease (2009)
Assistant Adjunct Professor, Computer Engineering
M.S. and Ph.D., University of California, Santa Cruz.

Lucinda Pease-Alvarez (1990)

Associate Professor, Education
B.A., Willamette University; M.A., Ph.D., Stanford University. Former affiliations: Stanford University; University of Alabama.

Kenneth Pedrotti, Porter College (2000)
Professor, Electrical Engineering
B.S., M.S., University of California, Berkeley; Ph.D., Stanford University. Former affiliation: Rockwell Science Center.

James E. Pepper, College Eight (1972)
Professor Emeritus, Environmental Planning (Environmental Studies)
B.S., B.Arch., Montana State University; M.L.A., M.C.P., University of California, Berkeley. Former affiliation: California State Polytechnic College, Pomona.

Ariel A. Perez (2001)
Lecturer, Spanish
B.A., Universidad de Moron, Buenos Aires, Argentina; M.A., Monterey Institute of International Studies. Former affiliations: Defense Language Institute, Salinas Adult School.

Micah E. Perks, Kresge College (1997)
Professor, Literature
B.A., M.F.A., Cornell University. Former affiliations: Hobart and William Smith Colleges; Cornell University.

Hector Perla (2008)
Assistant Professor, Latin American and Latino Studies
B.A., San Francisco State University; M.A., Stanford University; Ph.D., University of California, Los Angeles.. University of California, Irvine; Ohio University.

Maya Peterson (2012)
Assistant Professor, History
B.A., Swarthmore College; M.A., Ph.D., Harvard University

Thomas F. Pettigrew, Stevenson College (1979)
Professor Emeritus, Social Psychology
B.A., University of Virginia; M.A., Ph.D., Harvard University. Former affiliations: University of North Carolina; Harvard University.

Stacy Philpott, (2012)
Associate Professor and Alfred E. Heller Chair in Agroecology, Environmental Studies
B.S., University of Washington; Ph.D., University of Michigan. Former affiliations: University of Toledo; Smithsonian Institution, Migratory Bird Center.

Jarmila Pittermann (2008)
Assistant Professor, Ecology and Evolutionary Biology
B.S., McMaster University, Canada; M.S., University of Toronto, Canada; Ph.D., University of Utah. University of California, Berkeley.

Juan E. Poblete, Merrill College (1997)
Professor, Spanish Literature
Licenciante, Universidad de Chile; Ph.D., Duke University. Former affiliation: Duke University.

Grant Pogson, Crown College (1994)
Professor, Ecology and Evolutionary Biology
B.Sc., Carleton University; Ph.D., University of British Columbia. Former affiliations: Dalhousie University (Canada); University of Cambridge (England).

Ira Pohl, Stevenson College (1970)
Professor, Computer Science
B.A., Cornell University; M.S., Ph.D., Stanford University. Former affiliation: Thomas J. Watson Laboratory.

Cynthia L. Polecristi, Stevenson College (1988)
Associate Professor, History
B.A., University of Pittsburgh; M.A., Ph.D., University of California, Berkeley.

Neoklis Polyzotis (2003)
Associate Professor, Computer Science
Diploma, University of Athens; M.Sc., Ph.D., University of Wisconsin.

Caroline M. Pomeroy (1998)
Lecturer, Ocean Sciences
Ph.D., Texas A&M University.

Clifton A. Poodry, Merrill College (1972)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., M.A., State University of New York at Buffalo; Ph.D., Case Western Reserve University.

Jennifer Poole, College Nine (2007)
Assistant Professor, Economics
Ph.D., (expected) University of California, San Diego; B.A., Smith College.

Eric C. Porter, Oakes College (2001)
Professor, American Studies, History, and History of Consciousness
B.A., University of California, Berkeley; M.A., Ph.D., University of Michigan. Former affiliation: University of New Mexico.

Donald C. Potts, Crown College (1977)
Professor, Ecology and Evolutionary Biology
B.Sc., University of Queensland; Ph.D., University of California, Santa Barbara. Former affiliations: Australian National University; Flinders University (Australia).

Raquel Prado (2001)
Professor, Applied Mathematics and Statistics
B.S., Universidad Simon Bolivar (Caracas, Venezuela); M.S., Ph.D., Duke University. Former affiliation: Universidad Simon Bolivar.

Anthony R. Pratkanis, Stevenson College (1987)
Professor, Psychology
B.S., Eastern Mennonite College; M.A., Ph.D., Ohio State University. Former affiliation: Carnegie Mellon University.

Maria A. Prencipe, Cowell College (1991)
Lecturer, Italian Language
Laurea (M.A.), University of Bari (Italy).

Daniel M. Press, College Eight (1992)
Professor, Environmental Studies
B.S., University of California, Davis; M.A., Ph.D., Claremont Graduate School. Former affiliations: EPICS International; California Institute of Public Affairs.

Joel R. Primack, Crown College (1973)
Professor, Physics
B.A., Princeton University; Ph.D., Stanford University. Former affiliations: Stanford Linear Accelerator Center; Harvard University.

Jason X. Prochaska (2002)
Associate Professor, Astronomy and Astrophysics; Assistant Astronomer, UC Observatories/Lick Observa
B.S., Princeton University; M.S., Ph.D., University of California, San Diego.

Stefano Profumo (2007)
Associate Professor, Physics

B.S., Università di Pisa; M.S., Scuola Normale Superiore, Pisa; Ph.D., International School for Advanced Studies (SISSA-ISAS), Trieste (Italy)..

Mary B. Pudup, College Eight (1989)

Associate Professor, Community Studies

B.A., Pennsylvania State University; M.A., Ph.D., University of California, Berkeley. Former affiliation: West Virginia University.

Geoffrey K. Pullum, Cowell College (1981)

Professor Emeritus, Linguistics

B.A., University of York; Ph.D., University of London. Former affiliations: University of York; University College London.

Jie Qing, Crown College (1997)

Professor, Mathematics

B.S., M.S., Peking University; Ph.D., University of California, Los Angeles. Former affiliation: Columbia University.

Ralph H. Quinn, Stevenson College (1984)

Lecturer, Psychology

A.B., Bowdoin College; M.A., Goddard College; Ph.D., Saybrook Institute (San Francisco).

Sarah Rabkin (1985)

Lecturer, Environmental Studies

B.A., Harvard University; Graduate Certificate, University of California, Santa Cruz.

Hugh D. Raffles, College Nine (1998)

Associate Professor, Anthropology

B.A., University of Warwick; M.A., University of London; D.F.E.S., Yale University.

Peter T. Raimondi, College Eight (1996)

Professor, Ecology and Evolutionary Biology

B.A., Northern Arizona University; Ph.D., University of California, Santa Barbara. Former affiliation: University of Melbourne.

S R. Rajan, Cowell College (1997)

Associate Professor, Environmental Studies

B.A., Osmania University; B.A., M.A., M.Phil., University of Delhi; D.Phil., University of Oxford. Former affiliations: Max Planck Institute (Berlin); Cornell University; University of California, Berkeley; University of Oxford.

Amy Ralston (2009)

Assistant Professor

B.A., Oberlin College; Ph.D., University of Wisconsin, Madison. Hospital for Sick Children Research Institute, Toronto, Ontario.

Arthur P. Ramirez (2009)

Professor, Electrical Engineering

B.S., Ph.D., Yale University. Former affiliations: LGS; Bell Labs..

Catherine S. Ramirez, Oakes College (2002)

Assistant Professor, Latin American and Latino Studies

B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of New Mexico.

Frank A. Ramirez, Cowell College (1973)

Lecturer, Spanish Language

B.A., Hunter College, City University of New York; M.A., Pennsylvania State University; Ph.D., University of California, Berkeley.

Renya K. Ramirez, Oakes College (2000)

Associate Professor, American Studies

B.A., University of California, Berkeley; M.A., Ph.D., Stanford University.

Enrico J. Ramirez-Ruiz (2008)

Associate Professor, Astronomy and Astrophysics

B.SC, Universidad Nacional Autonoma de Mexico; Ph.D., University of Cambridge.

R R. Randolph, Cowell College (1965)

Professor Emeritus, Anthropology

B.A., Ph.D., University of California, Berkeley. Former affiliation: Rice University.

Paul Rangell, Porter College (1983)

Lecturer, Art

B.A., University of California, Santa Cruz; Tamarind Master Printer, Tamarind Institute, University of New Mexico.

David M. Rank, College Eight (1971)

Professor Emeritus, Astronomy and Astrophysics

B.S., Pennsylvania State University; M.S., Ph.D., University of Michigan.

Tudor Ratiu, Crown College (1987)

Professor Emeritus, Mathematics

B.A., M.A., University of Timisoara (Romania); Ph.D., University of California, Berkeley.

Former affiliation: University of Arizona.

Annalisa Rava (2003)

Lecturer, Writing

B.A., Wesleyan University; M.A., San Jose State University.

Ana C. Ravelo, Oakes College (1991)

Professor, Ocean Sciences

B.A., B.S., Stanford University; M.A., M.Phil., Ph.D., Columbia University.

Federico Ravenna (2001)

Associate Professor, Economics

B.A., Luiss University of Rome; M.Phil., University of Derby (England); M.A., Ph.D., New York University.

Benjamin Read (2007)

Associate Professor

B.A., Cornell University; M.A., University of California Berkeley; Ph.D., Harvard University. University of Iowa.

Jennifer E. Reardon, College Eight (2005)

Associate Professor, Sociology

B.S./B.A., University of Kansas (Biology/Political Science); M.A./Ph.D., Cornell University (Science and Technology Studies). Former affiliation: Harvard University; Brown University; Duke University.

Craig Reinerman, College Ten (1989)

Professor, Sociology

B.A., Babson College; M.A., San Francisco State University; Ph.D., University of California, Santa Barbara. Former affiliation: Northeastern University.

Jose Renau Ardevol (2004)

Associate Professor, Computer Engineering

B.S., M.S. Ramon Llull University; Ph.D., University of Illinois at Urbana Champaign.

Michael Rexach (2005)

Professor, Molecular, Cell, and Developmental Biology

B.S., Syracuse University; Ph.D., UC Berkeley; post-doctorate, Rockefeller University. Former affiliation: Stanford University.

B. R. Rich (2004)
Professor, Social Documentation and Film and Digital Media
B.A., Yale College. Former affiliation: University of California, Berkeley.

Alan R. Richards, Merrill College (1976)
Professor, Emeritus, Environmental Studies
A.B., A.M., Harvard University; M.A., Ph.D., University of Wisconsin–Madison. Former affiliations: Brooklyn College, City University of New York; University of Wisconsin.

Gerhard Ringel, Crown College (1967)
Professor Emeritus, Mathematics
Dr. rer. nat., University of Bonn; (Hon.) Dr. rer. pol. h. c., University of Karlsruhe. Former affiliations: University of Bonn; Johann Wolfgang von Goethe University (Frankfurt); Free University (Berlin).

Edward M. Riordan (1999)
Adjunct Professor, Physics
S.B., Ph.D., Massachusetts Institute of Technology. Concurrent Affiliation: Concurrent affiliations: Stanford University; Stanford Linear Accelerator Center.

Steven Ritz (2009)
Professor
B.A., Wesleyan University, Middletown, CT; M.S., University of Wisconsin, Madison; Ph.D., University of Wisconsin, Madison. NASA Goddard Space Flight Center (GSFC).

Cecilia M. Rivas (2007)
Assistant Professor, Latin American and Latino Studies
Ph.D., Ethnic Studies, University of California, San Diego. Former affiliation: University of California, San Diego.

Forrest G. Robinson, Oakes College (1970)
Professor, American Studies
B.A., Northwestern University; M.A., Ph.D., Harvard University. Former affiliation: Harvard University.

Jonathan M. Robinson (2007)
Assistant Professor, Economics
S.B., Massachusetts Institute of Technology; M.A., Princeton University; Ph.D., Princeton University.

Pamela A. Roby, Merrill College (1973)
Emerita professor, Sociology
B.A., University of Denver; M.A., Syracuse University; Ph.D., New York University. Former affiliations: George Washington University; Brandeis University.

Constance M. Rockosi (2004)
Associate Professor, Astronomy and Astrophysics
B.S.E., Princeton University; Ph.D., University of Chicago. Former affiliation: University of Washington, Seattle.

Abel Rodriguez (2007)
Associate Professor, Applied Mathematics and Statistics
B.A., M.S., Universidad Catolica Andres Bello, Venezuela; B.S., Universidad Simon Bolivar, Venezuela; M.A., Ph.D., Duke University.

Lisa B. Rofel, Kresge College (1991)
Professor, Anthropology
B.A., Brown University; M.A., Ph.D., Stanford University. Former affiliation: Massachusetts Institute of Technology.

Barbara Rogoff, Porter College (1991)
UC Santa Cruz Foundation Professor, Psychology

B.A., Pomona College; Ph.D., Harvard University. Former affiliations: University of Utah; Center for Advanced Study in the Behavioral Sciences, Stanford University.

Carol A. Rohl (2003)

Assistant Adjunct Professor, Biomolecular Engineering

B.A. Rice University, Houston; Ph.D., Stanford University. Former affiliations: University of Washington; University of California, Berkeley.

Alvaro Romero (2000)

Lecturer, Spanish Language

Licenciatura, Universidad de Zaragoza (España); Ph.D., Universidad Complutense de Madrid. Former affiliation: University of Madrid.

Elaine Y. Roos, Porter College (1973)

Professor Emerita, Theater Arts (Costume Design)

B.A., Pomona College; M.F.A., New York University School of the Arts. Former affiliation: State University of New York at Albany.

Norvid J. Roos, Porter College (1974)

Professor Emeritus, Theater Arts (Design)

B.F.A., University of Illinois; M.F.A., New York University. Former affiliations: The Electric Company, Children's Television Workshop; Metropolitan Opera; Illinois Wesleyan University.

Jasper A. Rose, Porter College (1965)

Professor Emeritus, Art, History, and History of Art and Visual Culture

B.A., M.A., Cambridge University. Former affiliations: Cambridge University; University of Keele (England); Rice University.

Patricia L. Rose, Oakes College (2002)

Professor, American Studies

B.A., Yale University; M.A., Ph.D., Brown University. Former affiliation: New York University.

Jacob Rosen (2008)

Professor

B.S., M.S., Ph.D., Tel Aviv University.. University of Washington..

Bruce Rosenblum, Porter College (1966)

Professor Emeritus, Physics

B.S., New York University; Ph.D., Columbia University. Former affiliations: University of California, Berkeley; Radio Corporation of America.

Kevin G. Ross (2004)

Assistant Professor, Technology and Information Management

B.S., University of Canterbury; M.S., Ph.D., Stanford University.

Tammi H. Rossman-Benjamin (1997)

Lecturer, Hebrew Language

B.A., McGill University; M.A., University of Pennsylvania.

Paul A. Roth, Cowell College (2004)

Professor, Philosophy

B.A., Wesleyan University; M.A., Ph.D., University of Chicago. Former affiliation: University of Missouri, St. Louis.

Donald L. Rothman, Oakes College (1973)

Senior Lecturer, Writing

B.A., University of Michigan; M.A., Ph.D. cand., University of California, Berkeley. Former affiliations: Merritt College; North Oakland Development Center; East Oakland Development Center; University of California, Berkeley; Social Action Research Center.

Wendy F. Rothwell (1998)

Lecturer

B.A., San Jose State University; B.S., San Jose State University; Ph.D., University of California, Santa Cruz.. University of Santa Cruz MCD Biology Department..

Seth M. Rubin (2006)

AssociateProfessor

B.A., Columbia University; Ph.D. University of California, Berkeley..

Carollyn S. Rudesill (1984)

B.A., Principia College; M.A., Middlebury College. Former affiliations: Harvard University; University of California Extension, Berkeley.

Danilyn Rutherford (2009)

Professor, Anthropology

Ph.D, Cornell University. University of Chicago.

Patrick M. Ryan (2003)

Lecturer, Theater Arts

B.F.A., Southern Methodist University; M.F.A., University of California, San Diego. Former affiliation: University of California, San Diego.

Warren Sack, Porter College (2002)

Professor, Film and Digital Media

B.A., Yale University; S.M., Ph.D., Massachusetts Institute of Technology. Former affiliations: University of California, Berkeley; Massachusetts Institute of Technology; University of Paris VIII.

John Sackett (1994)

Lecturer, Music

B.M., San Francisco Conservatory of Music; M.A., Mills College; M.A., Ph.D., University of California, Berkeley.

Hamid R. Sadjadpour (2001)

Professor, Electrical Engineering

B.S., M.S., Sharif University of Technology (Tehran); Ph.D., University of Southern California. Former affiliation: AT&T Research Laboratories (New Jersey).

Hartmut F. Sadrozinski, Crown College (1980)

Adjunct Professor, Physics

Dipl. Phys., University of Hamburg; Ph.D., Massachusetts Institute of Technology. Former affiliation: Princeton University.

Guriqbal S. Sahota (2010)

Assistant Professor, Literature

B.A., University of California, Santa Cruz; M.A., Ph.D., University of Chicago. Former affiliation: University of Minnesota, Twin Cities.

Chad W. Saltikov (2004)

Assistant Professor, Environmental Toxicology

B.S., University of California, Santa Barbara; Ph.D., University of California, Irvine. Former affiliation: California Institute of Technology.

Jeremy R. Sanford (2008)

Assistant Professor

B.A., biology and biochemistry, Case Western Reserve University; Ph.D., molecular biology and microbiology, Case Western Reserve University. Indiana University School of Medicine.

Bruno Sanso (2002)

Professor, Applied Mathematics and Statistics

B.Sc., M.Sc., Universidad Simón Bolívar; Ph.D., Universidad Central de Venezuela. Former affiliations: Duke University; Universidad Simón Bolívar.

Donald T. Saposnek, Stevenson College (1978)

Lecturer, Psychology

B.A., University of California, Los Angeles; M.A., San Jose State University; Ph.D., Ohio State University. Former affiliations: Institute of Juvenile Research (Chicago); University of San Francisco.

Bruce K. Sawhill (2012)

Adjunct Assistant Professor, Computer Engineering
Ph.D., Stanford University.

William M. Saxton (2007)

Professor, Molecular, Cell, and Developmental Biology
Ph.D., University of Colorado; M.S., California State University, Northridge; B.S., University of Minnesota. Indiana University, Bloomington.

John H. Schaar, Kresge College (1970)

Professor Emeritus, Politics
B.A., M.A., Ph.D., University of California, Los Angeles. Former affiliations: University of California, Los Angeles; Mount Holyoke College; University of California, Berkeley.

Felici Schaeffer-Grabiell (2005)

Associate Professor, Feminist Studies
B.A., San Diego State University; M.A., University of Arizona; Ph.D., University of Minnesota, Minneapolis. Former affiliations: UC President's postdoctoral fellow; Latin American/Latino Studies, UCSC.

Terry L. Schalk (1975)

Adjunct Professor, Physics
B.S., Ph.D., Iowa State University. Former affiliations: University of California, Riverside; Stanford Linear Accelerator Center.

John M. Schechter, Merrill College (1985)

Professor, Music; Provost, Merrill College
A.B., Hamilton College; M.M., Indiana University; Ph.D., University of Texas at Austin. Former affiliations: New England Conservatory of Music; Syracuse University.

Daniel Scheie, Kresge College (1987)

Professor, Theater Arts (Drama)
B.A., Indiana University at Bloomington; M.A., Ph.D., University of California, Berkeley.

Martine Schlag, College Eight (1988)

Professor, Computer Engineering
B.A., M.S., Ph.D., University of California, Los Angeles. Former affiliation: University of Washington.

Stuart A. Schlegel, Merrill College (1968)

Professor Emeritus, Anthropology
B.A., University of California, Los Angeles; M.A., Ph.D., University of Chicago. Former affiliation: University of Chicago.

Thomas W. Schleich, Crown College (1969)

Professor, Chemistry and Biochemistry
B.S., Cornell University; Ph.D., Rockefeller University. Former affiliations: Dartmouth College; University of Oregon.

Zack Schlesinger, Cowell College (1995)

Professor, Physics
B.A., University of California, Santa Barbara; Ph.D., Cornell University. Former affiliation: IBM Research-Yorktown Heights, New York.

Holger Schmidt (2001)

Professor, Electrical Engineering
B.S., University of Stuttgart; M.S., Ph.D., University of California, Santa Barbara.

Roger Schoenman, College Ten (2003)
Assistant Professor, Politics
B.A., Johns Hopkins University; M.Sc., London School of Economics; Ph.D., Columbia University.

Maria Schonbek, Crown College (1986)
Professor, Mathematics
Licenciatura, University of Buenos Aires; Ph.D., University of Michigan, Ann Arbor.

Bruce A. Schumm (1995)
Professor, Physics
B.A., Haverford College; Ph.D., University of Chicago. Former affiliation: Lawrence Berkeley National Laboratory.

Ronald J. Schusterman (1985)
Adjunct Professor, Ocean Sciences
B.A., Brooklyn College; M.A., Ph.D., Florida State University. Former affiliations: California State University, Hayward; Southern Oregon State University; Columbia University; New York Aquarium for Wildlife Conservation.

Hilde L. Schwartz (1998)
Senior Lecturer, Earth and Planetary Sciences
B.A., University of California, Santa Barbara; Ph.D., University of California, Santa Cruz.
Former affiliation: Museum of Northern Arizona.

Susan Y. Schwartz, Cowell College (1989)
Professor, Earth and Planetary Sciences
B.S., Brown University; M.S., Ph.D., University of Michigan.

Thomas J. Schwarz (2005)
Associate Adjunct Professor
Ph.D., Computer Science and Engineering, University of California, San Diego. Former affiliation: Santa Clara University.

Judith A. Scott, Crown College (2000)
Associate Professor, Education
B.A., University of California, Davis; M.A., Ph.D., University of Illinois, Urbana-Champaign.
Former affiliation: Simon Fraser University.

Peter L. Scott, Stevenson College (1966)
Professor Emeritus, Physics
B.A., University of California, Berkeley; M.A., University of Michigan; Ph.D., University of California, Berkeley. Former affiliation: Stanford University.

William G. Scott, Crown College (1998)
Professor, Chemistry and Biochemistry
B.S., B.S., Bates College; Ph.D., University of California, Berkeley. Former affiliation: Indiana University.

Daniel D. Scripture, College Eight (1986)
Lecturer Emeritus, Writing
B.A., Goddard College; M.A., San Jose State University; Ph.D. cand., University of California, Santa Cruz. Former affiliation: San Jose State University.

Ana M. Seara, Merrill College (1998)
Lecturer, Portuguese Language
B.A., Universidade Federal do Rio de Janeiro; M.A., Ph.D., University of North Carolina.
Former affiliations: University of California, Berkeley; Stanford University.

Abraham Seiden, Crown College (1976)
Professor, Physics; Director, Santa Cruz Institute for Particle Physics

B.S., Columbia University; M.S., California Institute of Technology; Ph.D., University of California, Santa Cruz.

Daniel Selden, Oakes College (1988)

Professor, Classics (Literature)

B.A., M.Phil., Ph.D., Yale University. Former affiliations: Barnard College; Columbia University; Yale University.

Vanita Seth, Merrill College (2001)

Associate Professor, Politics

B.A. (Hons., 1st class), University of Sydney; Ph.D., University of Melbourne.

Travis L. Seymour, College Ten (2001)

Associate Professor, Psychology

B.A., Northwestern University; M.S., Ph.D., University of Michigan.

Scott A. Shaffer

Lecturer, Ocean Sciences

B.S., San Diego State University; M.S., Ph.D., University of California, Santa Cruz.

Ali Shakouri, College Eight (1998)

Professor, Electrical Engineering

B.S., Ecole Nationale Supérieure des Telecommunications (Paris); M.S., Ph.D., California Institute of Technology. Former affiliation: University of California, Santa Barbara.

Beth A. Shapiro (2012)

Associate Professor, Ecology and Environmental Biology

B.S., M.S., University of Georgia; Ph.D., Oxford University. Former affiliation: Pennsylvania State University.

Helen Shapiro, College Nine (1997)

Associate Professor, Sociology

B.A., Hampshire College; M.A., M.Phil., Ph.D., Yale University. Former affiliation: Harvard Business School.

Buchanan Sharp, Stevenson College (1970)

Professor, History

B.A., University of California, Berkeley; M.A., University of Illinois; Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Sriram Shastry (2003)

Professor, Physics

B.Sc., Nagpur University (India); M.Sc., Indian Institute of Technology (Madras, India); Ph.D., Tata Institute of Fundamental Research (India). Former affiliation: Indian Institute of Science (Bangalore).

Carolyn M. Shaw, Kresge College (1972)

Professor Emerita, Anthropology

B.S., Ph.D., Michigan State University. Former affiliations: College of San Mateo; University of Nairobi.

Jerome M. Shaw, College Nine (2003)

Assistant Professor, Education

B.A., M.A., Ph.D., Stanford University. Former affiliation: Science for Linguistic Inclusion Project, WestEd.

Priscilla W. Shaw, Stevenson College (1967)

Professor Emerita, English and Comparative Literature

B.A., Swarthmore College; Ph.D., Yale University. Former affiliations: Haverford College; Rutgers University; Yale University.

Heather Shearer (2012)

Lecturer with Security of employment in the Writing Program (2012)
Ph.D., Syracuse University

Deanna Shemek, Cowell College (1990)
Professor, Italian and Comparative Literature; Provost, Cowell College
B.A., University of Nebraska; M.A., Ph.D., Johns Hopkins University. Former affiliations:
Yale University; University of Pennsylvania.

Carol Shennan (1997)
Professor, Environmental Studies
B.A., Ph.D., University of Cambridge. Former affiliation: University of California, Davis.

Robert J. Shepherd (1981)
Senior Lecturer, Economics
B.S., M.A., University of Southern California; California Certified Public Accountant. Former
affiliation: Price Waterhouse & Co.

Alexander Sher (2008)
Assistant Professor, Physics
Diploma of Higher Education: Novosibirsk State University, Russia; Ph.D., University of
Pittsburgh. SCIPP; Budker Institute of Nuclear Physics, Russia.

Cecilia J. Shin (2002)
Physical Education Instructor, Scuba
B.A., M.A., University of California, Santa Cruz.

William F. Shipley, Stevenson College (1966)
Professor Emeritus, Linguistics
B.A., Ph.D., University of California, Berkeley. Former affiliations: University of California,
Berkeley; University of Novi Sad (Yugoslavia).

Nuria Silleras-Fernandez (2005)
Lecturer, History
Ph.D., University of Barcelona, Spain.

Eli A. Silver, Crown College (1973)
Professor, Earth and Planetary Sciences
B.A., University of California, Berkeley; Ph.D., Scripps Institution of Oceanography,
University of California, San Diego. Former affiliations: U.S. Geological Survey; Scripps
Institution of Oceanography.

Mary E. Silver, Oakes College (1972)
Professor Emerita, Ocean Sciences
B.A., University of California, Berkeley; Ph.D., Scripps Institution of Oceanography,
University of California, San Diego. Former affiliation: San Francisco State College (Moss
Landing Marine Laboratories).

Barry R. Sinervo (1997)
Professor, Ecology and Evolutionary Biology
B.S., Dalhousie University; Ph.D., University of Washington. Former affiliation: Indiana
University.

Bakthan Singaram, Merrill College (1989)
Professor, Chemistry and Biochemistry
B.Sc., M.Sc., Ph.D., University of Madras (Tamil Nadu, India). Former affiliation: Purdue
University.

Nirvikar Singh, Crown College (1982)
Professor, Economics
B.Sc., M.Sc., London School of Economics; Ph.D., University of California, Berkeley. Former
affiliation: University of Delhi.

Paul N. Skenazy, Kresge College (1971)
Emeritus
B.A., University of Chicago; M.A., Ph.D., Stanford University. Former affiliation: Stanford University.

Lisa Sloan, Crown College (1992)
Professor, Earth and Planetary Sciences
B.S., Allegheny College; M.S., Kent State University; Ph.D., Pennsylvania State University.
Former affiliation: University of Michigan.

Greta N. Slobin, Stevenson College (1988)
Russian Literature, Emerita
B.A., Wayne State University; M.A., University of Michigan; M.Phil., Ph.D., Yale University.
Former affiliations: Amherst College; State University of New York at Albany; Wesleyan University; University of Michigan; Yale University.

David M. Smith (2003)
Professor, Physics
S.B., Massachusetts Institute of Technology; M.A., Ph.D., University of California, Berkeley.
Former affiliation: University of California, Berkeley.

Bradley Smith (2006)
Lecturer, Computer Engineering
B.A., M.S., Ph.D., University of California, Santa Cruz

Donald R. Smith, Crown College (1996)
Professor, Microbiology and Environmental Toxicology
B.A., University of California, Santa Cruz; M.A., San Francisco State University (Moss Landing Marine Laboratories); Ph.D., University of California, Santa Cruz.

Graeme H. Smith, Merrill College (1989)
Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., Ph.D., Australian National University. Former affiliations: Space Telescope Science Institute; Harvard-Smithsonian Center for Astrophysics; Dominion Astrophysical Observatory.

Martha Snyder
Lecturer in Science Writing
B.A., Universal Technical Institute, Phoenix.

Ruth L. Solomon, Porter College (1970)
Professor Emerita, Theater Arts (Dance)
B.A., Bard College. Former affiliations: University of Hawaii; Punahou Academy; Indiana University; New York University School of the Arts; Chautauqua Institution.

Wayne J. Solomon (2000)
Lecturer, Music (Trombone)
B.M., University of Minnesota, Duluth; M.M., San Francisco Conservatory of Music.
Concurrent affiliations: California State University, Fresno; Monterey County Symphony; Santa Cruz County Symphony; Napa Valley Symphony; Carmel Bach Festival. Former affiliation: America's Band in Blue (U.S. Air Force).

Soonho Song (1995)
Physical Education Instructor
B.A., Yonsei University (Seoul); M.A., San Jose State University.

Michael Soule, College Eight (1989)
Professor Emeritus, Environmental Studies
B.A., California State University, San Diego; M.A., Ph.D., Stanford University. Former affiliations: University of Michigan; University of California, San Diego.

Catherine M. Soussloff, Cowell College (1987)
Professor Emerita, History of Art and Visual Culture (UC Presidential Chair)

A.B., Ph.D., Bryn Mawr College. Former affiliations: University of North Carolina at Chapel Hill; University of Connecticut.

Roswell L. Spafford, Kresge College (1978)
Emerita

B.A., University of California, Santa Cruz; M.A., San Francisco State University. Former affiliation: San Francisco State University.

Alan C. Spearot (2007)
Assistant Professor, Economics
B.S., University of Michigan; M.S., University of Wisconsin; Ph.D., University of Wisconsin.

Shelley Stamp, Porter College (1994)
Professor, Film and Digital Media
B.A., University of Toronto; M.A., Ph.D., New York University. Former affiliation: Queen's University (Canada).

Audrey E. Stanley (1969)
Professor Emerita, Theater Arts (Drama)
B.A., University of Bristol; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of Victoria (British Columbia); Dalhousie University; City of Birmingham College of Education; Nottinghamshire County College of Education; School of Art (Guildford, England).

Brian J. Staufenbiel, Porter College (1996)
Lecturer, Music (Voice)
B.A., University of California, Santa Cruz; M.M., San Jose State University; D.M.A., Eastman School of Music. Former affiliations: Eastman School of Music; Santa Clara University.

Stuart P. Stegner, Porter College (1968)
Professor Emeritus, American Literature
B.A., M.A., Ph.D., Stanford University. Former affiliation: Ohio State University.

Adriane Steinacker (2003)
Lecturer, Astronomy and Astrophysics
Ph.D., Universitat Bonn, Germany. NASA Ames Research Center.

Andrea Steiner (1998)
Lecturer, Community Studies
Ph.D., Rand Graduate School of Policy Studies; M.S., University of Southern California; A.B., Brown University. Concurrent Affiliation: Senior Lecturer in Gerontology & Health Policy, University of Southampton, UK (on leave since January 2001).

Elizabeth Stephens, Porter College (1994)
Professor, Art
B.F.A., Tufts University; M.F.A., Rutgers University; Diploma, School of the Museum of Fine Arts, Boston.

Patricia L. Stoddart (1993)
Professor, Education
B.A., University of Leeds (England); M.A., University of Birmingham (England); Ph.D., University of California, Berkeley. Former affiliations: Michigan State University; University of Utah.

Nancy E. Stoller, College Eight (1973)
Emerita, Community Studies
B.A., Wellesley College; M.A., Ph.D., Brandeis University. Former affiliation: Emmanuel College.

Abraham D. Stone, Cowell College (2005)
Associate Professor, Philosophy
A.B., Harvard University; M.A., Princeton University; Ph.D., Harvard University.. University of

Chicago..

Michael D. Stone (2007)

Assistant Professor, Chemistry and Biochemistry

B.A., University of Pennsylvania; Ph.D., University of California, Berkeley.

Victoria A. Stone (2008)

Assistant Professor, Microbiology and Environmental Toxicology

B.A., Cornell University; Ph.D., University of California, Berkeley.. Tufts University School of Medicine..

Benjamin Storm (2012)

Assistant Professor, Psychology

B.A., University of California, Santa Barbara; M.A., Ph.D., University of California, Los Angeles. Former affiliation: University of Illinois at Chicago.

Evelyn J. Strauss

Lecturer in Science Writing

B.S., University of California, Berkeley; Ph.D., University of California, San Francisco.

Susan Strome (2007)

Professor, Molecular, Cell, and Developmental Biology

Postdoctorate, University of Colorado; Ph.D., University of Washington; B.A., University of New Mexico. Indiana University, Bloomington.

Joshua M. Stuart, Cowell College (2003)

Associate Professor, Biomolecular Engineering

B.S., B.A., University of Colorado; Ph.D., Stanford University.

Ellen G. Suckiel, Cowell College (1973)

Emerita, Philosophy

B.A., Douglass College; M.A., Ph.D., University of Wisconsin–Madison. Former affiliations: Florida State University; University of Wisconsin.

Ephraim Suhir (2006)

Adjunct Professor, Electrical Engineering

M.S., Polytechnic Institute, Ukraine; Ph.D., Moscow University. Former affiliations: ERS Co.; IOLON Inc.; Bell Laboratories; Lucent Technologies; Exxon Corp.; Research Institute of Engine–Building; Institute of Ocean Engineering; University of Illinois at Chicago..

Toufic Suidan (2004)

Assistant Professor

B.S., California Institute of Technology; Ph.D., Princeton University. Former affiliations: Courant Institute of Mathematical Sciences, New York University; Institute for Advance Study.

William Sullivan, Crown College (1990)

Professor, Molecular, Cell, and Developmental Biology

B.A., University of California, San Diego; Ph.D., University of Washington. Former affiliation: University of California, San Francisco.

Undang Sumarna, Porter College (1976)

Lecturer, Music (Gamelan)

x. Former affiliations: Akademi Seni Tari Indonesia and Konservatori Karawitan (Bandung, West Java); University of California, Berkeley; University of California, Los Angeles.

David Swanger, Crown College (1971)

Professor Emeritus, Education and Creative Writing

B.A., Swarthmore College; M.A.T., Ed.D., Harvard University. Former affiliation: Harvard University.

David G. Sweet, Merrill College (1971)

Professor Emeritus, History
B.A., Oberlin College; M.A., Ph.D., University of Wisconsin–Madison.

Eugene Switkes, Crown College (1971)
Professor, Chemistry and Biochemistry
B.A., Oberlin College; Ph.D., Harvard University. Former affiliations: Oberlin College;
General Electric.

Marshall Sylvan, Stevenson College (1965)
Lecturer Emeritus, Mathematics and Statistics
B.S., Roosevelt University; M.S., University of Chicago; Ph.D., Stanford University.

Andrew Szasz, College Eight (1986)
Professor, Environmental Studies; Provost, College Eight
B.A., Harvard University; M.A., University of Chicago; Ph.D., University of Wisconsin–
Madison. Former affiliation: Rutgers University.

Neferti Tadiar, Oakes College (1996)
Associate Professor, History of Consciousness
B.A., University of the Philippines; M.A., University of Minnesota; Ph.D., Duke University.
Former affiliation: University of the Philippines.

Lincoln Taiz (1973)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.S., University of Utah; Ph.D., University of California, Berkeley. Former affiliation:
University of California, Berkeley.

Renee Tajima (2003)
Professor, Social Documentation
B.A., Radcliffe College, Harvard University. Concurrent Affiliation: Independent filmmaker.

Dana Takagi, Stevenson College (1987)
Professor, Sociology
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of
California, Irvine.

Frank J. Talamantes, Oakes College (1974)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., University of St. Thomas; M.A., Sam Houston State University; Ph.D., University of
California, Berkeley.

Hiroataka Tamanoi, Stevenson College (1996)
Professor, Mathematics
B.S., M.S., University of Tokyo; Ph.D., Johns Hopkins University. Former affiliations: Institut
des Hautes Etudes; University of Kentucky; Max Planck Institut fur Mathematik; Rutgers
University; Institute for Advanced Study (Princeton).

John W. Tamkun, Porter College (1989)
Professor, Molecular, Cell, and Developmental Biology
B.A., University of South Florida; Ph.D., Massachusetts Institute of Technology. Former
affiliation: University of Colorado.

Wang–Chiew Tan (2002)
Associate Professor, Computer Science
B.S., National University of Singapore; M.S., Ph.D., University of Pennsylvania.

Julie A. Tannenbaum (2001)
Assistant Professor, Philosophy
B.A., Ph.D., University of California, Los Angeles.

Robert M. Tanner (1971)
Professor Emeritus, Computer Science

B.S., M.S., Ph.D., Stanford University. Former affiliation: Tennessee State University.

Patrick Tantalo (1998)

Lecturer, Computer Science

B.S., University of California, Berkeley; Ph.D., University of California, Santa Cruz. Former affiliation: University of Arkansas, Fayetteville.

Susan Tappero (2003)

Lecturer, Mathematics

B.A., California State University, Humboldt; M.A., Ph.D., University of California, Santa Cruz. Former affiliations: University of Northern Colorado; Middlebury College.

Kip T. Tellez, Stevenson College (2000)

Associate Professor, Education

B.A., California State University, Fullerton; M.A., Ph.D., Claremont Graduate School. Former affiliation: University of Houston; Claremont Graduate School.

Mircea S. Teodorescu (2011)

Associate Adjunct Professor, Computer Engineering

BSc, MSc, Politehnica University, Bucharest, Romania; Ph.D., Wayne State University, Detroit. Former affiliations: Cranfield University, United Kingdom; City University, London; Loughborough University, United Kingdom.

Richard Terdiman, Kresge College (1987)

Professor Emeritus, Literature

B.A., Amherst College; Ph.D., Yale University. Former affiliations: Swarthmore College; University of California, Berkeley; University of California, San Diego.

Susana Terrell (1993)

Lecturer, Art

B.A., Principia College; Graduate Certificate, University of California, Santa Cruz; M.A., San Francisco State University.

Bernie R. Tershy (2005)

Adjunct Professor, Ecology and Evolutionary Biology

B.S., University of California, Santa Cruz; M.S., Moss Landing Marine Laboratory; Ph.D., Cornell University. Former affiliation: Institute of Marine Sciences.

Roland G. Tharp, Crown College (1990)

Professor Emeritus, Education and Psychology

B.A., University of Houston; M.A., Ph.D., University of Michigan, Ann Arbor. Former affiliations: United States International University; University of Hawaii.

David J. Thomas, Stevenson College (1966)

Professor Emeritus, Politics

B.A., Oberlin College; Ph.D., Harvard University.

Megan C. Thomas, Merrill College (2003)

Assistant Professor, Politics

B.A., Oberlin College; M.S., London School of Economics; Ph.D., Cornell University. Former affiliation: Weatherhead East Asian Institute, Columbia University.

Ravi Thomas (2007)

Adjunct Professor, Economics

M.S., London School of Economics; Ph.D., University of California, Berkeley. Temple University, Swarthmore College, International Monetary Fund.

Bruce A. Thompson, Stevenson College (1990)

Lecturer, History

A.B., Princeton University; M.A., Ph.D., Stanford University. Former affiliations: Stanford University; Santa Clara University.

John N. Thompson, Stevenson College (2000)
Professor, Ecology and Evolutionary Biology
B.A., Washington and Jefferson College; Ph.D., University of Illinois, Urbana-Champaign.
Former affiliation: Washington State University.

Avril Thorne, Stevenson College (1991)
Professor, Psychology
B.A., University of Utah; M.A., Arizona State University; Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Emory University; Wellesley College.

Stephen E. Thorsett, Crown College (1999)
Professor, Astronomy and Astrophysics; Interim Dean, Division of Physical and Biological Sciences
B.A., Carleton College; M.A., Ph.D., Princeton University. Former affiliation: Princeton University.

Martin T. Tinker (2009)
Adjunct Professor, Ecology and Evolutionary Biology; Western Ecological Research Center, USGS
B.S., University of Guelph, Ontario, Canada; M.S., University of Waterloo, Ontario, Canada; Ph.D., University of California, Santa Cruz. United States Geological Survey, Western Ecological Research Center.

Othmar T. Tobisch, Porter College (1968)
Professor Emeritus, Earth and Planetary Sciences
B.A., M.A., University of California, Berkeley; Ph.D., University of London (Imperial College).
Former affiliation: U.S. Geological Survey.

Judith A. Todd, Porter College (1984)
Lecturer, Writing
B.A., Indiana University; M.L.S., University of California, Berkeley; M.A., San Francisco State University; Ph.D., University of California, Santa Cruz.

Andrey N. Todorov, Porter College (1991)
Professor, Mathematics
B.A., Ph.D., Moscow State University. Former affiliation: Bulgarian Academy of Sciences.

Veronica K. Tonay (1989)
Lecturer, Psychology
B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Berkeley.

Mark Traugott, Stevenson College (1974)
Professor, History
B.A., Harvard University; M.A., Ph.D., University of California, Berkeley.

Nina K. Treadwell, Cowell College (2004)
Assistant Professor, Music
B.A., B.M., University of Melbourne (Australia); M.A., Ph.D., University of Southern California. Former affiliation: Grinnell College.

Jonathan Trent (2004)
Adjunct Professor, Biomolecular Engineering
Ph.D., Scripps Institution of Oceanography. Concurrent Affiliation: Concurrent affiliation: NASA Ames Research Center.

Anthony J. Tromba, Cowell College (1970)
Professor, Mathematics
B.S., Cornell University; M.A., Ph.D., Princeton University. Former affiliation: Stanford University.

Anna L. Tsing, Kresge College (1987)

Professor, Anthropology
B.A., Yale University; M.A., Ph.D., Stanford University. Former affiliations: University of Colorado; University of Massachusetts.

Slawomir M. Tulaczyk (2000)
Professor, Earth and Planetary Sciences
Magister, University of Wroclaw (Poland); Graduate Certificate, University des Saarlandes (Germany); M.Sc., Northern Illinois University; M.Sc., Ph.D., California Institute of Technology. Former affiliation: University of Kentucky.

Zdravka Tzankova (2007)
Assistant Professor, Environmental Studies
A.B.D., University of California, Berkeley; M.A., Brown University; Ph.D., Mount Holyoke College.

Michael E. Urban, Stevenson College (1991)
Professor Emeritus, Politics
B.A., Seattle University; M.A., University of Alberta; Ph.D., University of Kansas. Former affiliations: Auburn University; State University of New York, College at Oswego; University of Montana.

Georges Y. Van Den Abbeele (2006)
Professor, Literature; Humanities Dean
B.A., Reed College; Ph.D., Cornell University.. Former affiliations: University of California, Santa Cruz; Miami University; University of California, Davis.

Allen Van Gelder, Porter College (1987)
Professor, Computer Science
B.S., Massachusetts Institute of Technology; Ph.D., Stanford University.

Anujan M. Varma, College Eight (1991)
Professor, Computer Engineering
B.Sc., University of Calicut; M.E., Indian Institute of Science; Ph.D., University of Southern California. Former affiliation: IBM Thomas J. Watson Research Center.

Gustavo O. Vazquez, Porter College (1995)
Associate Professor, Film and Digital Media
B.F.A., San Francisco Art Institute; M.A., San Francisco State University. Former affiliations: Exploratorium; Telesistema Michoacano de Radio y Television; Guadalupe Cultural Arts Center.

John F. Vesecky, Crown College (1999)
Professor, Electrical Engineering
B.A., B.S., Rice University; M.S., Ph.D., Stanford University. Former affiliations: University of Michigan; Stanford University; University of Leicester (England); SRI International; Sylvania Electronic Defense Laboratories.

Thomas A. Vogler, Cowell College (1965)
Professor Emeritus, English and Comparative Literature
B.A., University of Chicago; M.A., Ph.D., Yale University. Former affiliation: Yale University.

Steven S. Vogt, Crown College (1978)
Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.S., University of California, Berkeley; M.A., Ph.D., University of Texas at Austin. Former affiliation: University of Texas at Austin.

Susan C. Vollmer (2002)
Lecturer, Music (Horn)
B.M., M.M., San Francisco Conservatory of Music.

George E. Vondermuhll, Merrill College (1969)
Professor Emeritus, Politics

B.A., Oberlin College; M.Sc., London School of Economics; Ph.D., Harvard University.
Former affiliations: Swarthmore College; University of Chicago; Makerere University College (Uganda).

Matthew W. Wagers (2008)
Assistant Professor, Linguistics
A.B., Princeton University; Ph.D., University of Maryland.

Marilyn A. Walker (2009)
Professor, Computer Science
B.A., University of California, Santa Cruz; M.S., Stanford University; M.A., Ph.D., University of Pennsylvania. Former affiliations: University of Sheffield, England; AT&T Labs, New Jersey; Mitsubishi Electric Research Laboratories, Cambridge, Massachusetts; Hewlett-Packard Laboratories, Bristol, England.

Carl E. Walsh, Crown College (1987)
Professor, Economics
B.A., Ph.D., University of California, Berkeley. Former affiliation: Princeton University.

Hongyun Wang (1999)
Professor, Applied Mathematics and Statistics
B.S., M.S., Beijing University; Ph.D., University of California, Berkeley. Former affiliation: Lawrence Berkeley National Laboratory.

Howard H. Wang, Stevenson College (1970)
Professor Emeritus, Molecular, Cell, and Developmental Biology
B.S., California Institute of Technology; Ph.D., University of California, Los Angeles. Former affiliations: University of California, Berkeley; Massachusetts Institute of Technology.

Su-Hua Wang (2003)
Associate Professor, Psychology
B.S., M.S., National Taiwan University; Ph.D., University of Illinois, Urbana-Champaign.

Yiman Wang, Porter College (2006)
Assistant Professor, Film and Digital Media
B.A., Nanjing University, China; M.A., Beijing University, China; Ph.D., Duke University. University of California, Los Angeles.

Edward C. Warburton, Porter College (2004)
Associate Professor, Theater Arts
B.A., Boston College; Ed.M., Ed.D., Harvard University. Former affiliations: New York University, Southern Methodist University, Boston Conservatory; Boston Ballet; Houston Ballet; American Ballet Theatre II.

Steven N. Ward (1984)
Institute of Geophysics and Planetary Physics (IGPP); Research Geophysicist
B.S., Bucknell University; M.A., Ph.D., Princeton University. Former affiliation: Harvard University.

Noah Wardrip-Fruin (2008)
Associate Professor, Computer Science
B.A., University of Redlands; M.A., New York University; M.F.A., Ph.D., Brown University.. University of California, San Diego; University of Baltimore; New York University..

Manfred Warmuth, Stevenson College (1982)
Professor, Computer Science
Vordiplom in Informatik, Frederick Alexander Universität (Germany); M.Sc., Ph.D., University of Colorado.

Michael J. Warren, Cowell College (1968)
Professor Emeritus, English Literature
B.A., M.A., Oxford University (Balliol College); M.A., Dalhousie University (Canada); Ph.D.,

University of California, Berkeley. Former affiliation: University of Victoria (British Columbia).

Richard A. Wasserstrom, Stevenson College (1979)

Professor Emeritus, Philosophy

B.A., Amherst College; M.A., Ph.D., University of Michigan; LL.B., Stanford University.

Former affiliations: University of California, Los Angeles; Tuskegee Institute; U.S.

Department of Justice; Stanford University.

Kerstin Wasson (2003)

Assistant Adjunct Professor, Ecology and Evolutionary Biology

B.A., Oberlin College; Ph.D., University of California, Santa Cruz. Concurrent Affiliation:

Concurrent affiliation: Elkhorn Slough Foundation.

Lewis G. Watts, Porter College (2001)

Associate Professor, Art

B.A., M.A., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Amy L. Weaver (1998)

Lecturer, Writing

B.A., University of California, Santa Cruz; M.A., Cornell University. Former affiliation:

Cornell University.

Gerald E. Weber, Crown College (1983)

Lecturer Emeritus, Earth and Planetary Sciences

B.A., University of California, Riverside; M.A., University of Texas at Austin; Ph.D.,

University of California, Santa Cruz. Former affiliations: De Anza College; U.S. Geological Survey; Union Oil.

Martin Weissman (2006)

Associate Professor, Mathematics

Ph.D., Harvard University.

Jonathan Weitsman (1994)

Professor, Mathematics

S.B., S.B., Massachusetts Institute of Technology; Ph.D., Harvard University. Former affiliation: Columbia University.

David T. Wellman (1983)

Professor Emeritus, Community Studies

B.A., Wayne State University; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; University of Oregon.

C. G. Wells, Porter College (2000)

Professor Emeritus, Education

B.A., University of Cambridge; Dipl. Appl. Ling., University of Edinburgh; Ph.D., University

of Bristol. Former affiliations: Ontario Institute for Studies in Education, University of Toronto; University of Bristol.

Randall S. Wells (1983)

Associate Adjunct Professor, Ocean Sciences

B.A., University of South Florida; M.S., University of Florida; Ph.D., University of California, Santa Cruz.

Linda L. Werner, Porter College (1985)

Adjunct Professor, Computer Science

B.A., Clark University; M.S., Ph.D., University of California, San Diego. Former affiliations:

Wang Laboratories; Data General Corporation.

Candace West, College Eight (1979)

Professor, Sociology

B.A., M.A., Ph.D., University of California, Santa Barbara. Former affiliations: University of California, Santa Barbara; Florida State University.

Marilyn J. Westerkamp, Merrill College (1989)
Professor, History

B.A., Brandeis University; M.A., Ph.D., University of Pennsylvania. Former affiliations: University of Wyoming; Clarion University of Pennsylvania.

Cedric J. Westphal (2009)
Assistant Adjunct Professor, Computer Engineering
M.S., Ecole Centrale, Paris, France; M.S., Ph.D., University of California, Los Angeles.

Donald L. Weygandt, Porter College (1967)
Professor Emeritus, Art
B.F.A., Washington University; M.F.A., University of Illinois. Former affiliations: University of Colorado; San Francisco Art Institute; University of California, Los Angeles.

Aaronette M. White (2008)
Associate Professor
A.B., University of Missouri–Columbia; M.A., Washington University; Ph.D., Washington University. Pennsylvania State University; Harvard University; Northwood University; Wilberforce University; University of Georgia; Missouri Institute of Mental Health; The University of the Western Cape (South Africa); St. Louis University; Washing University; Univ.

Hayden V. White, Oakes College (1978)
University Professor Emeritus, History of Consciousness
B.A., Wayne State University; M.A., Ph.D., University of Michigan. Former affiliations: Wesleyan University; University of California, Los Angeles; University of Rochester; Wayne State University.

Emmet J. Whitehead, Porter College (2000)
Professor, Computer Science
B.S., Rensselaer Polytechnic Institute; M.S., Ph.D., University of California, Irvine.

Stephen J. Whittaker (2011)
Professor, Psychology
B.A., University of Cambridge; Ph.D., St. Andrews University. University of Sheffield, United Kingdom; University of Edinburgh, United Kingdom; Stanford University; IBM; AT&T; Hewlett–Packard.

Paul Whitworth, Cowell College (1990)
Professor, Theater Arts
M.A. (Hons., 1st class), University of St. Andrews; graduate studies, Oxford University. Former affiliation: Royal Shakespeare Company.

Donald M. Wiberg (2002)
Professor Emeritus, Electrical Engineering
B.S., M.S., Ph.D., California Institute of Technology. Former affiliations: Institute of Electrical and Electronics Engineers; University of California, Los Angeles.

Harold Widom, Stevenson College (1968)
Professor Emeritus, Mathematics
M.S., Ph.D., University of Chicago. Former affiliations: Cornell University; University of Chicago; University of California, Berkeley; Stanford University.

David A. Williams (1987)
Adjunct Professor, Physics
A.B., Washington University; A.M., Ph.D., Harvard University.

Quentin Williams, Porter College (1988)
Professor, Earth and Planetary Sciences

A.B., Princeton University; Ph.D., University of California, Berkeley.

Terrie M. Williams, College Eight (1994)

Professor, Ecology and Evolutionary Biology; Ida Benson Lynn Professor, Ocean Health
B.S., Douglass College; M.S., Ph.D., Rutgers University. Former affiliations: Scripps
Institution of Oceanography; San Diego Zoo; Sea World Research Institute; Naval Oceans
Systems Center Hawaii Laboratories; U.S. Office of Naval Research.

Stanley M. Williamson, Cowell College (1965)

Professor Emeritus, Chemistry and Biochemistry
B.S., University of North Carolina; Ph.D., University of Washington. Former affiliations:
University of California, Berkeley; Cambridge University.

Christopher C. Wilmers (2006)

Associate Professor, Environmental Studies
B.A., Wesleyan University; Ph.D., University of California, Berkeley.

George C. Wilson, College Nine (1972)

Professor Emeritus, Community Studies
B.A., Harvard University; M.A., Syracuse University. Former affiliations: Stanford University;
Harvard University; Tufts University.

James A. Wilson, Cowell College (1985)

Chair, Lecturer with Security of Employment, Writing
B.A., California State University, Fresno; M.A., Ph.D., University of California, Berkeley.
Former affiliation: University of California, Berkeley.

Margaret L. Wilson, Crown College (2001)

Associate Professor, Psychology
B.A., Reed College; Ph.D., University of California, Berkeley.

Robert J. Wilson, Oakes College (2001)

Professor, Literature
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of Hawaii
at Manoa.

William K. Winant (1983)

Lecturer, Music (Percussion)
B.F.A., York University; M.F.A., Mills College. Concurrent affiliations: University of
California, Berkeley; Mills College; San Francisco Contemporary Music Players. Former
affiliation: Mount Allison University.

Rasmus G. Winther (2007)

Assistant Professor
B.A., Stanford University; M.A., Stanford University; Ph.D., Indiana University. Universidad
Nacional Autónoma de Mexico (UNAM).

Will T. Wipke, Crown College (1975)

Professor Emeritus, Chemistry and Biochemistry
B.S., University of Missouri; Ph.D., University of California, Berkeley. Former affiliations:
University of Missouri; University of California, Berkeley; Harvard University; Princeton
University.

Daniel J. Wirls, Merrill College (1988)

Professor, Politics
B.A., Haverford College; M.A., Ph.D., Cornell University.

Donald A. Wittman, Merrill College (1969)

Professor, Economics
B.A., University of Michigan; M.A., Ph.D., University of California, Berkeley. Former
affiliations: University of Chicago; University of California, Berkeley.

Richard A. Wohlfeiler (1994)
Lecturer, Art
B.A., University of California, Los Angeles; Graduate Certificate, University of California, Santa Cruz.

Matthew J. Wolf-Meyer (2008)
Assistant Professor
B.A., Oakland University; M.A., University of Liverpool; M.A., Bowling Green State University; Ph.D., University of Minnesota.. Wayne State University..

Greer E. Wolfson (2002)
Lecturer, Music (Flute)
B.M., Oberlin Conservatory of Music; M.M., University of Michigan, Ann Arbor.

Deborah Woo, College Eight (1984)
Professor Emerita, Community Studies
B.A., Tufts University; M.A., Ph.D., University of California, Berkeley.

Stanford E. Woosley, Crown College (1975)
Professor, Astronomy and Astrophysics
B.A., M.S., Ph.D., Rice University. Former affiliations: California Institute of Technology; Rice University; Lawrence Livermore National Laboratory.

Alexandra Z. Worden
Adjunct Professor, Ocean Sciences
B.A., Wellesley College; Ph.D., University of Georgia. Concurrent Affiliation: Monterey Bay Aquarium Research Institute. Massachusetts Institute of Technology.

Ru-Shan Wu (1986)
Institute of Geophysics and Planetary Physics (IGPP); Research Geophysicist
B.S., Northwestern University, China Ph.D., Massachusetts Institute of Technology.

Thomas Y. Wu (2006)
Assistant Professor, Economics
Ph.D., Princeton University; M.A., B.A., Pontifical Catholic University of Rio de Janeiro. Former affiliations: Princeton University, Pontifical Catholic University of Rio de Janeiro.

Yuefeng Wu (2012)
Adjunct Professor, Visiting Assistant Professor, Applied Mathematics and Statistics

David Yager (2009)
Dean, Division of the Arts; Professor, Art Department (Design, Photography and Printmedia)
H.D.D., DeMontfort University, U.K.; M.F.A., Florida State University; B.A., University of Connecticut.

Toshishige Yamada (2008)
Associate Adjunct Professor, Electrical Engineering
B.S., M.S., University of Tokyo; Ph.D., Arizona State University. Former affiliations: NASA Ames Research Center; Stanford University; Arizona State University..

Karen T. Yamashita, Kresge College (1997)
Professor, Literature (Creative Writing)
B.A., Carleton College. Former affiliation: University of California, Los Angeles.

Huibin Yan (2001)
Assistant Professor, Economics
B.A., Wuhan University (People's Republic of China); Ph.D., Washington University.

Alice S. Yang-Murray, Merrill College (1993)
Associate Professor, History
B.A., Brown University; M.A., Ph.D., Stanford University.

Assaf M. Yasur-Landau (2007)
Assistant Professor, History
B.A., Tel Aviv University; M.A., Tel Aviv University; Ph.D., Tel Aviv University. Tel Aviv University.

Joel Yellin (1984)
Professor, (Physical and Biological Sciences, Environmental Science)
B.S., California Institute of Technology; M.S., Ph.D., University of Chicago. Former affiliations: Massachusetts Institute of Technology; Lawrence Radiation Laboratory, University of California, Berkeley; Institute for Advanced Study (Princeton).

Fitnat Yildiz, Crown College (2002)
Associate Professor, Environmental Toxicology
B.S., Hacettepe University (Ankara, Turkey); Ph.D., Indiana University. Former affiliation: Carnegie Institution of Washington.

Hawa F. Yildiz, Crown College (2002)
Associate Professor, Environmental Toxicology
B.S., Hacettepe University (Ankara, Turkey); Ph.D., Indiana University. Former affiliation: Carnegie Institution of Washington.

Allan P. Young, Crown College (1984)
Professor, Physics
M.A., D.Phil., Oxford University. Former affiliations: Oxford University; Institut Laue-Langevin (Grenoble, France); Cornell University; Imperial College (London).

Judith Yung, Oakes College (1990)
Professor Emerita, American Studies
B.A., San Francisco State College; M.L.S., Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Stanford University; San Francisco State University.

James C. Zachos, Crown College (1992)
Professor, Earth and Planetary Sciences
B.S., State University of New York, College at Oneonta; M.S., University of South Carolina; Ph.D., University of Rhode Island. Former affiliation: University of Michigan.

Alan M. Zahler (1994)
Professor, Molecular, Cell, and Developmental Biology
B.S., Carnegie Mellon University; Ph.D., University of Colorado, Boulder.

Jack Zajac, Porter College (1969)
Professor Emeritus, Art
F.A.A.R., American Academy in Rome. Former affiliations: University of Colorado; Artist-in-Residence, American Academy in Rome.

Erika S. Zavaleta, College Eight (2003)
Associate Professor, Environmental Studies
B.A., M.A., Ph.D., Stanford University. Former affiliation: University of California, Berkeley.

Patricia J. Zavella, College Eight (1984)
Professor, Latin American and Latino Studies
B.A., Pitzer College; M.A., Ph.D., University of California, Berkeley.

Jin Z. Zhang, Crown College (1992)
Professor, Chemistry and Biochemistry
B.S., Fudan University (Shanghai); Ph.D., University of Washington. Former affiliation: University of California, Berkeley.

Yi Zhang, College Eight (2005)
Associate Professor, Technology and Information Management

B.S., Tsinghua University, China; MS., Ph.D., Carnegie Mellon University. Former affiliation: Carnegie Mellon University.

Xixi Zhao (1991)

Lecturer, Earth and Planetary Sciences; Research Geophysicist, IGPP

B.S., M.A., University of Science and Technology of China; Ph.D., University of California, Santa Cruz. Former affiliation: Institute of Geology, Academia Sinica (Beijing).

Adrienne L. Zihlman, Oakes College (1967)

Professor, Anthropology

B.A., University of Colorado; Ph.D., University of California, Berkeley.

Martha C. Zuniga, Merrill College (1989)

Professor, Molecular, Cell, and Developmental Biology

B.A., University of Texas at Austin; M.Phil., Ph.D., Yale University. Former affiliation: University of Texas at Austin.

Yi Zuo (2007)

Associate Professor, Molecular, Cell, and Developmental Biology

Postdoctorate, NYU School of Medicine; Postdoctorate, University of Texas; Ph.D., Northwestern University; B.S., Tsinghua University. University of Texas, Austin.

Eve C. Zyzik (2008)

Associate Professor, Language Program

B.A., Indiana University, Bloomington; Ph.D. University of California, Davis. Former affiliation: Michigan State University.

University Administration

The governance of the university is entrusted, under the state constitution, to the Regents of the University of California. The Board of Regents is presently composed of 18 members who are appointed by the governor of California, subject to California State Senate confirmation; seven members who participate because of the offices they hold; and a student member appointed by the board.

The president of the university is the chief executive of the 10-campus system. He or she is appointed by the Regents and is directly responsible to them.

Each of the 10 campuses of the university has a chancellor, its chief administrative officer, who is responsible for the organization and operation of the campus, including academic, student, and business affairs.

The Academic Senate, consisting of the faculty and certain administrative officers, determines the conditions for admission and degrees, subject to the approval of the Regents; authorizes and supervises courses and curricula; and advises the university administration on important matters such as appointments and promotions, budgets, student discipline, and administration of the library.

University Professors

The title of University Professor is the highest honor UC bestows on a professor in recognition of outstanding scholarship and teaching. The title is reserved for scholars of international distinction who are recognized and respected as teachers of exceptional ability. University Professors—appointed by the Regents—visit other campuses for seminars and meetings with faculty and students and for presentations to more general audiences.

Appendixes

2012–13 General Catalog

Appendix A: California Residency and Nonresident Supplemental Tuition Fee

The Residence Policy and Guidelines is the main source of residency information and is utilized by the campus residence deputy to make determinations regarding residency. Read the full text of the Residence Policy and Guidelines [here](#).

If you do not meet the University of California requirements for residence for tuition purposes on the residence determination date for each term in which you propose to attend the university, you must pay a Nonresident Supplemental Tuition Fee in addition to all other fees. The residence determination date is the day instruction begins at the last of the University of California campuses to open for the quarter, and for schools on the semester system, the day instruction begins for the semester.

Regulations Governing Residence

The rules regarding residence for tuition purposes at the University of California are governed by the California Education Code and implemented by Standing Orders 110.2 of the Regents of the University of California. Under these rules, adult citizens and certain classes of aliens can establish residence for tuition purposes. There are particular rules that apply to the residence classification of minors (see below).

Note: Registered domestic partners are included in rules that apply to spouses.

Who Is a Resident?

If you are an adult student (at least 18 years of age), you may establish residence in California if

- (1) You are a U.S. citizen.
- (2) You are a permanent resident or other immigrant.
- (3) You are a nonimmigrant who is not precluded from establishing a domicile in the U.S. This includes nonimmigrants who hold valid visas of the following types: A, E, G, H–1B, H–4, I, K, L, N, O–1, O–3, R, T, or U.

To establish residence you must be physically present in California for more than one year, and you must come here with the intent to make California your home as opposed to coming to this state to go to school. Physical presence within the state solely for educational purposes does not constitute the establishment of California residency, regardless of the length of stay. You must demonstrate your intention to make California your home by severing your residential ties with your former state of residence and establishing those ties with California. If your parents are not California residents, you are required to be financially independent in order to be a resident for tuition purposes. Your residence cannot be derived from your spouse, a registered domestic partner or a parent.

Requirements for Financial Independence

You are considered “financially independent” if one or more of the following applies:

- (1) You are at least 24 years of age by December 31 of the calendar year of the term for which you are requesting resident classification.
- (2) You are a veteran of the U.S. Armed Forces.
- (3) You are a ward of the court or both parents are deceased.
- (4) You have legal dependents other than a spouse or a registered domestic partner.
- (5) You are married, a registered domestic partner, or a graduate student, and you were not/will not be claimed as an income tax deduction by any individual other than your spouse or domestic partner for the tax year immediately preceding the term for which you request resident classification.
- (6) You are a single undergraduate student and you were not claimed as an income tax deduction by your parents or any other individual for the two tax years immediately preceding the term for which you request resident classification, and you can demonstrate self-sufficiency for those years and the current year.

Note: Financial independence is not a factor in determining residence status for graduate student instructors, graduate student teaching assistants, research assistants, junior specialists, postgraduate researchers, graduate student researchers, and teaching associates who are employed 49 percent or more of full time or awarded the equivalent in university-administered funds (e.g., grants, stipends, fellowships) for the term for which resident classification is sought.

Establishing Intent for California Residency

You must demonstrate your intent to make California your home by severing your residential ties with your former state of residence and establishing those ties with California shortly after arrival. Indications of your intent to make California your permanent residence include the following: registering to vote and voting in California elections; designating California as your permanent address on all school and employment records, including military records if you are in the military service; obtaining a California driver's license or, if you do not drive, a California identification card; obtaining California vehicle registration; paying California income taxes as a resident, including taxes on income earned outside California from the date you establish residence; establishing a home in California where you keep your personal belongings; and licensing for professional practice in California. The absence of these indicia in other states during any period for which you claim California residence can also serve as an indication of your intent. Documentary evidence is required and all relevant indications will be considered in determining your classification. Your intent will be questioned if you return to your prior state of residence when the university is not in session.

General Rules Applying to Minors

If you are an unmarried minor (under age 18), the residence of the parent with whom you live is considered to be your residence. If you live with neither parent, your residence is that of the parent with whom you last lived. Unless you are a minor alien present in the U.S. under the terms of a nonimmigrant visa, which precludes you from establishing domicile in the U.S., you may establish your own residence when both parents are deceased and a legal guardian has not been appointed. If you have a parent living, you cannot change your residence by your own act, by appointment of a legal guardian, or by relinquishment of your parent's right of control. If you derive California residence from a parent, that parent must satisfy the one-year durational residence requirement.

Specific Rules Applying to Minors

(1) Divorced or separated parents. To derive California resident status from a California-resident parent, you must move to California to live with that parent before your 18th birthday, remain in the state, and establish California indicia of intent from the time you reach 18. Otherwise, you will be considered out-of-state student and will have to meet all applicable UC residence requirements.

(2) Parent of minor moves from California. You may be entitled to resident classification if you are an eligible minor whose parent(s) was a resident of California who left the state within one year of the residence determination date if

(a) you remained in California after your parent(s) departed;

(b) you enrolled in a California public postsecondary institution within one year of your parent(s)' departure; and

(c) once enrolled, you maintain continuous attendance in that institution. Financial independence is not required in this case.

(3) Self-support. You may be entitled to resident classification if you are a minor and a U.S. citizen or eligible alien and can prove the following:

(a) you lived in California for the entire year immediately preceding the residence determination date;

(b) you have been self-supporting for that year; and

(c) you intend to make California your permanent home.

(4) Two-year care and control. You may be entitled to resident status if you are a minor and a U.S. citizen or eligible alien and you have lived continuously with an adult who is not your parent for at least two years prior to the residence determination date. The adult with whom you are living must have been responsible for your care and control for the entire two-year period and must be a California resident for at least one year immediately preceding the residence determination date.

Exemptions from Nonresident Supplemental Tuition

You may be entitled to exemption from nonresident supplemental tuition if one of the following applies to you.

Some of the exceptions conferring residence status and exemptions are for a limited period of time. Check with the Campus Residence Deputy for more information:

(1) Member of the military; spouse, registered domestic partner, or other dependents of military personnel. An undergraduate student who is a member of the U.S. military stationed in California on active duty (unless assigned for educational purposes to a state-supported institution of higher education) is eligible for resident status. A graduate student will be eligible for resident status for two years during which the student must take steps to fulfill the UC resident requirements.

Students who may qualify for an exemption from nonresident supplemental tuition based on federal law: The Higher Education Opportunity Act of 2008. An undergraduate or graduate student who is a member of the Armed Forces of the United States on active duty for a period of more than 30 days and whose domicile or permanent duty station is in California, or the spouse, registered domestic partner, or dependent child of such a member of the Armed Forces, is entitled to an exemption from nonresident supplemental tuition.

(2) Child, spouse, or registered domestic partner of a faculty member. To the extent that university funds are available, a student who is the unmarried, dependent child under the age of 21 or the spouse or registered domestic partner of a University of California faculty member who is a member of the Academic Senate may be eligible for an exemption.

(3) Child, spouse, or registered domestic partner of a university employee. A full-time UC employee assigned to work outside the State of California in an institution or state agency and the unmarried, dependent child under the age of 21 or the spouse or registered domestic partner of such an employee may be eligible for resident classification. This provision most often applies to employees of Los Alamos National Laboratory.

(4) Child, spouse, or registered domestic partner of a deceased public law enforcement or fire suppression employee. A student who is a child, spouse or registered domestic partner of a deceased public law enforcement or fire suppression employee, who was a California resident and was killed in the course of law enforcement or fire suppression duties may be eligible for an exemption.

(5) Dependent child of a California resident. A student who has not been an adult resident for more than one year and is the natural or adopted dependent child of a California resident who has been a resident for more than one year immediately prior to residence determination date may be entitled to an exemption from nonresident tuition until the student has lived in California the minimum time necessary to become a resident. Please be aware that when this exemption expires, the student must have fulfilled all applicable UC residence requirements to maintain resident status and continued dependence upon a California–resident parent. The student must also maintain continuous attendance in a California public postsecondary institution.

(6) Graduate of a California school operated by the Federal Bureau of Indian Affairs (B.I.A.). A student who is a graduate of a California school operated by the B.I.A. (e.g., Sherman Indian High School) may be eligible for a resident classification.

(7) Employee of California public school district. A student holding a valid credential authorizing service in California public schools and employed by a school district in a full–time certificate position may be exempt from nonresident tuition.

(8) Student athlete in training at U.S. Olympic Training Center, Chula Vista. An amateur student athlete in training at the U.S. Olympic Training Center in Chula Vista may be eligible for resident status until he or she has resided in California the minimum time necessary to become a resident.

(9) Graduate of California high school. A student who attended high school in California for three or more years (9th grade included) and graduated from a California high school (or attained the equivalent) may be exempt from nonresident tuition. You are not eligible for this exemption if you are a nonimmigrant alien.

(10) Congressional Medal of Honor recipient. An undergraduate student under age 27 who is the recipient of the Congressional Medal of Honor or a child of a recipient who at the time of his or her death was a California resident may be eligible for an exemption.

(11) Surviving dependent of California resident killed in 9/11 terrorist attacks. An undergraduate student who is the surviving dependent of a California resident who was killed in the 9/11/01 terrorist attacks on the World Trade Center, the Pentagon Building, or the crash of United Airlines Flight 93 may be eligible for an exemption.

(12) Dependent or wards of the state through California's child welfare system. A student who resides in California and is 19 years of age or under at the time of enrollment, and who is currently a dependent or ward of the state through California's child welfare system, or was served by California's child welfare system and is no longer being served either due to emancipation or aging out of the system shall be entitled to a resident classification as long as he or she remains continuously enrolled.

Temporary Absences

If you are a nonresident student who is in the process of establishing a residence for tuition purposes and you return to your former home during noninstructional periods, your presence in the state will be presumed to be solely for educational purposes and only convincing evidence to the contrary will rebut this presumption. Students who are in the state solely for educational purposes will not be classified as residents for tuition purposes regardless of the length of their stay.

If you are a student who has been classified as a resident for tuition purposes and you leave the state temporarily, your absence could result in the loss of your California residence. The burden will be on you (or on your parents if you are a minor) to verify that you did nothing inconsistent with your claim of a continuing California residence during your absence. Steps that you (or your parents) should take to retain a California residence include:

(1) Continue to use a California permanent address on all records—educational, employment, military, etc.

(2) Continue to satisfy California tax obligations. If you are claiming California residence, you are liable for payment of income taxes on your total income from the date that you establish your residence in the state, including income earned in another state or country.

(3) Retain your California voter's registration and vote by absentee ballot.

(4) Maintain a California driver's license and vehicle registration. If it is necessary to change your driver's license or vehicle registration, you must change them back within the time prescribed by law.

Petitioning for Change of Classification

You must petition in person at the Office of the Registrar for a change of classification from nonresident to resident status. Petitions must be initiated during the filing period for the term for which you intend to be classified as a resident. Late petitions will not be accepted.

Time Limitation on Providing Documentation

If additional documentation is required for residence classification but is not readily accessible, you will have until the third week of instruction of the applicable term to provide it. Failure to meet this deadline will result in your file being closed and your status remaining as a nonresident.

Incorrect Classification

If you are incorrectly classified as a resident, your classification will be corrected and you will be required to pay all nonresident tuition not paid. If you concealed information or furnished false information and were classified incorrectly as a result, you are also subject to university discipline. Resident students who become nonresidents must immediately notify the campus residence deputy.

Inquiries and Appeals

All inquiries regarding residence requirements, determination, and/or recognized exceptions should be directed to the Residence Deputy, Office of the Registrar, 190 Hahn Student Services Building, University of California, Santa Cruz, 1156 High Street, Santa Cruz, CA 95064-1077, reg_fees@ucsc.edu, or to the Residence Specialist, University of California Office of the General Counsel, 1111 Franklin Street, 8th Floor, Oakland, CA 94607-5200.

Please be advised: This is only a summary of the UC Residence Regulations and is not a complete explanation of the law regarding residence classification. Changes may be made to the residence requirements between the publication date of this statement and the relevant residence determination date. Any student, following a final decision on residence classification by the residence deputy, may appeal in writing to the residence specialist within 30 days of notification of the residence deputy's final decision.

No other University of California personnel are authorized to provide information regarding residence requirements.

Privacy Notice

All of the information requested on the Statement of Legal Residence form is required [by the authority of Standing Order 110.2 (a)-(d) of the Regents of the University of California] for determining whether or not you are a legal resident for tuition purposes. You have the right to inspect university records containing the residence information requested on this form. The records are maintained by the Office of the Registrar, 190 Hahn Student Services Building, University of California, Santa Cruz, 1156 High Street, Santa Cruz, CA 95064-1077.

Appendix B: University Police

The University Police have the same authority and responsibility, by law, as municipal police departments. In emergencies, call 9-1-1, 24 hours a day, from campus or private phones. If you need information, or if you need to report a theft, assault, or other crime, call (831) 459-2231, also 24 hours a day. Officers patrol the campus on foot, bicycle, motorcycle, or by car. They answer calls related to crimes, collisions, injuries, and complaints. The lost-and-found service is located in the Police Department. Office hours are Monday through Friday, 8 a.m. to 5 p.m. The Police Department is located near the main entrance to campus.

The Parking Enforcement Office (for paying parking citations and requesting special parking consideration) is in the same location. Citation payments may be made in person Monday through Friday, 8 a.m. to 5 p.m.

Crime Awareness and Campus Security Act

In compliance with the federal Crime Awareness and Campus Security Act, UCSC publishes information on campus security and crime statistics. The information is posted [on the web](#).

[\[return to top\]](#)

Appendix C: Drug-Free Schools and Communities Act

In compliance with the federal Drug-Free Schools and Communities Act, UCSC annually notifies students, faculty, and staff of policies, procedures, and potential consequences related to unlawful possession, use, or distribution of drugs and alcohol on campus. This notice is distributed to students through the colleges and the Graduate Studies Division, and to faculty and staff via e-mail. The university also conducts a biannual review of programs related to drugs and alcohol to determine effectiveness, implement changes, and ensure that disciplinary sanctions are consistently enforced. This review is conducted by the Office of the Vice Chancellor for Student Affairs, (831) 459-2474.

[\[return to top\]](#)

Appendix D: Smoking on Campus Policy

To protect the rights of the nonsmoking campus community to breathe smoke-free air, UCSC has adopted a policy that bans smoking in areas occupied by the nonsmoking population. The policy applies to residential and nonresidential university buildings and vehicles and to all individuals on the campus. Smoking is prohibited inside the residence halls (including student rooms) as well as residence hall lounges, inside individual apartments, community rooms, bathrooms, lounges, cafés and dining halls. Additionally, smoking is prohibited in all indoor public spaces at UC Santa Cruz—both academic and residential. The no-smoking policy includes exterior stairways, decks and balconies. Smoking outside is permitted only in designated areas, 25 feet away from all buildings and air intakes. For more detailed information about the smoking policy see the web (under [Environmental Health and Safety \[EH&S\] Administration, Policies](#)). Tobacco products will not be sold on campus either through vending machines or campus establishments. UCSC supports and assists efforts to stop smoking by providing literature and referrals to community cessation programs. Students may obtain information about the programs from the Cowell Student Health Center (831) 459-2211.

[\[return to top\]](#)

Appendix E: Policies and Regulations

The Student Policies and Regulations Handbook, the Code of Student Conduct, and related appendixes [may be accessed online](#). The Student Policies and Regulations Handbook is also available in alternate formats such as enlarged print, braille, audiocassette, or electronic disc from Student Judicial Affairs. Topics include:

- Policy on Nondiscrimination
- Policy on Speech and Advocacy
- Policy on Use of University Properties
- Policy on Campus Emergencies
- Registered Campus Organizations
- University Obligations and Student Rights
- Policy on Student Governments
- Policy on Campus-Based Student Fees
- Code of Student Conduct

- Policy on Student Grievance Procedures
- Policy on Student Participation in Governance
- Policies Applying to the Disclosure of Information from Student Records
- Guidelines Applying to Nondiscrimination on the Basis of Disability
- University of California Authorized Student Governments
- Use of the University's Name
- Nondiscrimination Policy Statement for University of California Publications Regarding Student-Related Matters
- UCSC Alcohol and Drug Policy
- University of California Policy on Hazing
- Policy on Sexual Harrassment for Undergraduates
- UCSC Academic Dishonesty Policy
- UCSC Policy on Sexual Orientation Harassment/Discrimination
- UCSC Guidelines for Speakers and Public Events for Students and Campus Organizations
- UCSC Computer Guidelines: Policies for Use of UCSC Computing Facilities
- UCSC Smoking Policy
- UCSC Public Nudity and Sexually Offensive Conduct Policy
- UCSC Hate/Bias Incident Policy
- UCSC Procedures for Ensuring Adequate Interim Protection from Retaliation or Intimidation for Complainant(s), Witness(es), and other Individuals
- UCSC Policy on Academic Integrity for Graduate Students

Appendix F: Graduate Student-Faculty Adviser Relationship Guidelines

The University of California, Santa Cruz, expects professional, fair, and frequent communication between graduate students and their advisers. Open communication and mutual respect should be the foundation of the relationship between a graduate student and faculty adviser. The graduate adviser and the graduate student should discuss their student-adviser relationship early, and clearly communicate mutual and agreeable expectations from the beginning. Regular interactions, especially face-to-face meetings, are essential in ensuring that expectations and goals are met.

In an optimal learning environment, the faculty adviser should provide timely and constructive feedback on performance and expectations; timely and sufficient warning of inadequate performance; appropriate recognition of a student's intellectual contributions; and academic and professional advice on all stages of the graduate career. The graduate student should be an active participant in seeking advice and getting feedback on progress, keeping the faculty adviser informed of plans, progress, and obstacles, and contributing during regular progress assessments. The faculty adviser and the student each have the duty and responsibility to initiate meetings as necessary to foster and protect the success of the relationship.

Professionalism and fairness should guide the graduate student-faculty adviser relationship. Graduate students and faculty should avoid relationships that conflict with their particular roles and responsibilities. Faculty advisers and graduate students are bound by policies that prohibit discrimination and harassment. (See pages 16-17,

Appendix E, and inside back cover.) Graduate students may be entitled to accommodations under the Americans with Disabilities Act. (See pages 16–17 , Appendix E, and inside back cover.) When concerns and conflicts arise, they should be raised and attended to professionally, honestly, and promptly. Retaliation and discrimination against students for raising concerns are prohibited.

If something happens that upsets the faculty adviser–graduate student relationship and cannot be resolved either by direct or indirect discussion, a graduate student can seek assistance from a trusted faculty member, the dean of graduate studies, the graduate director, the department chair, the ombudsman, and/or counseling and psychological services. Graduate students may request confidentiality. Many departments have developed processes to address a range of potential concerns. For information about grievance and appeal procedures, see pages 17–18 and Appendix E. For a description of additional informal and formal grievance and appeal processes available to UCSC graduate students, please refer to the [Graduate Student Handbook](#).

Appendix G: Student Judicial Affairs

Student Judicial Affairs is responsible for the adjudication of all nonacademic student and student organization misconduct for UCSC. In this capacity, Student Judicial Affairs administers the Code of Student Conduct in accordance with Section 100.00 of the Student Policies and Regulations Handbook. Allegations of misconduct may be brought by students, faculty, staff, police, visitors to the campus, and members of our local community. Allegations should be made in writing and delivered to Student Judicial Affairs.

Upon receipt of an allegation, Student Judicial Affairs will review the merits of the allegation and then conduct an investigation to determine if a violation has occurred. If no violation can be proven, the matter will be dropped. If a violation is proven, then an appropriate sanction will be recommended to the student or student organization for their review and acceptance. If the recommendation is unacceptable, the student or student organization may request a formal hearing or file a written appeal. If you have a question about a possible violation, university policy, or your rights in the discipline process, please feel free to contact the office for a phone consultation or to schedule an appointment.

Student Judicial Affairs serves as the Americans with Disabilities Act (ADA) compliance resolution office for grievances of alleged discrimination based on disability or handicap. In addition, Student Judicial Affairs is the resource office for grievances of alleged discrimination based on race, color, national origin, or sexual orientation, and for incidents of hate/bias.

The Office of Student Judicial Affairs is located in 245 Hahn Student Services Building and can be reached by phone at (831) 459–1738, by fax at 459–3188, or via e–mail at SJA@ucsc.edu; or [on the Web](#).
