Students hold tutoring hours, run a lab, or lead discussion section in conjunction with a regularly offered course and under close supervision by the course's instructor. Weekly meetings with a regular faculty member to discuss teaching techniques, pedagogy, sensitivity to students' needs, maintaining a comfortable learning environment, and strategies for handling difficult situations. Students submit a report on their teaching experience. Enrollment by permission of instructor and restricted to sophomores, juniors, and seniors. D. HELMBOLD

193. Field Study. F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a member of the Computer Science Department and using resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives, usually a term paper or project. Cannot normally be repeated for credit. Students submit petition to sponsoring agency. THE STAFF

193F. Field Study (2 credits). F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a faculty member of the Computer Science Department and a willing sponsor at the field site. Uses resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives by submitting a written and oral presentation. Cannot normally be

repeated for credit. Intended for students majoring in computer science. Students submit petition to sponsoring agency. THE STAFF

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty member. Intended for students majoring in computer science. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195. Senior Thesis Research. F,W,S

Students submit petition to sponsoring agency. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. THE STAFF

195F. Senior Thesis Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. THE STAFF

198. Individual Study or Research. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Individual Study or Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

For fourth-year students majoring in computer science. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

For fourth-year students majoring in computer science. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Research and Teaching in Computer Science and Engineering (3 credits). F

Basic teaching techniques for teaching assistants, including responsibilities and rights of teaching assistants, resource materials, computer security, leading discussion or lab sessions, presentation techniques, maintaining class records, electronic handling of homework, and grading. The course examines research and professional training, including use of the library and online databases, technical typesetting, writing journal and conference papers, publishing in computer science and computer engineering, giving talks in seminars and conferences, and ethical issues in science and engineering. Required for all teaching assistants. Enrollment restricted to graduate students. THE STAFF, A. PANG, K. OBRACZKA, W. TAN

201. Analysis of Algorithms. F,W

Rigorous analysis of the time and space requirements of important algorithms, including worst case, average case, and amortized analysis. Techniques include order-notation, recurrence relations, information-theoretic lower bounds, adversary arguments. Analysis of the key data structures: trees, hash tables, balanced tree schemes, priority queues, Fibonacci and binomial heaps. Algorithmic paradigms such as divide and conquer, dynamic programming, union-find with path compression, augmenting paths. Selected advanced algorithms. Introduction to NP-completeness. Enrollment restricted to graduate students; undergraduate students may enroll in this course if they have completed either course 102 or Computer Engineering 177 and have the consent of the instructor. P. TANTALO, A. VAN GELDER, S. VISHWANATHAN, D. ACHLIOPTAS, D. HELMBOLD

203. Programming Languages. W,S

Covers current issues in

programming languages. Language topics include object oriented, concurrent, functional, and logic programming, and other programmable applications such as symbolic manipulators and simulation. Enrollment restricted to graduate students; undergraduate students may enroll for this course if they have completed course 112 and have the consent of the instructor. THE STAFF, C. MCDOWELL, A. VAN GELDER, C. FLANAGAN

204. Compiler Design. *

Advanced study of compiler implementation. Topics include compiler structure back end, run-time environments, storage management, garbage collection, register allocation, code generation, basic blocks, control flow, data flow, local and global optimization, interpretation, machine code generation. Students may not receive credit for this course and course 104B. Taught in conjunction with 104B. Prerequisite(s): course 104A or equivalent. Enrollment restricted to graduate students. Offered in alternate academic years. W. MACKEY

210. Computational Models and Complexity. *

Finite automata and regular expressions, universal models of computation, computability and unsolvability, relations between complexity classes, hierarchy theorems, reductions, complete problems for the major complexity classes (L, NL, P, NP, PSPACE). Other topics may include complexity of counting and enumeration problems, complexity of approximation, randomized complexity classes. Prerequisite(s): course 201. M. WARMUTH, S. COMANDUR, D. HELMBOLD, P. KOLAITIS

211. Combinatorial Algorithms. *

Fundamental combinatorial algorithms, graph algorithms, flow problems, matching problems, linear programming, integer programming, NP-completeness, approximation algorithms for optimization problems.

Prerequisite(s): course 201. Offered in alternate academic years. A. VAN GELDER, D. ACHLIOPTAS, P. KOLAITIS

217. Logic in Computer Science. S

The applications and uses of formal systems to computer science. Covers the syntax and semantics of propositional logic and first-order logic, normal forms, soundness and completeness theorems, Herbrand's theorem, unification and resolution, foundations of logic programming, automated theorem proving. Other topics may include deductive databases, database query languages, nonmonotonic reasoning. Enrollment restricted to graduate students. Offered in alternate academic years. P. KOLAITIS, A. VAN GELDER

218. Foundations of Data Science. W

Examines the mathematical and algorithmic foundations of data science including high dimensional data, probabilistic inequalities, dimensionality reduction, correlation detection, streaming algorithms, and clustering. Prerequisite(s): course 201. Enrollment is restricted to graduate students. D. ACHLIOPTAS

221. Advanced Operating Systems. *

A detailed study of the issues involved in operating systems design and implementation. Readings cover current research topics and systems of historical significance. Topics include (but are not restricted to) process and memory management, protection, security, synchronization, performance evaluation, file systems, distributed systems. Enrollment restricted to graduate students; undergraduates by interview only. D. LONG, E. MILLER

223. Advanced Computer Security. F

Overview of research topics in computer and network security. Topics may include cryptographic operations, security properties and policies, authentication and access control, attacks on computer systems and defenses against them,

Computer Science

security in programming languages, and network protocols for security. Enrollment restricted to graduate students or consent of instructor. D. LONG, E. MILLER

229. Storage Systems. *

Topics include storage devices, storage architectures, local file systems, high-performance file systems, and next-generation storage devices and architectures; covers issues of performance, reliability, scalability, robustness, and security. Enrollment restricted to graduate students. E. MILLER, C. MALTZAHN, D. LONG

232. Distributed Systems. S

Overview of research topics in distributed computer systems. Topics may include communication paradigms, process management, naming, synchronization and coordination, consistency and replication, fault tolerance, and security. Examples include distributed operating systems, distributed file and object systems, distributed document systems, and peer-to-peer systems. Enrollment restricted to graduate students. E. MILLER, P. ALVARO, C. MALTZAHN, D. LONG

240. Artificial Intelligence. *

Prepares students for doing research in artificial intelligence. Major topics covered are search and heuristics, knowledge representation, planning, deduction and inference, reinforcement learning, associative pattern retrieval, and adaptive search. Discussion includes current research issues in AI problem-solving methods. Individualized projects. Enrollment limited to 30. M. WALKER, THE STAFF

241. Knowledge Engineering. *

Introduction to the acquisition, representation, and application of knowledge in expert systems. Topics include production systems, backward and forward chaining, dependency-directed backtracking, reasoning with uncertainty, certainty factors, fuzzy systems, knowledge representation (rules, frames, and semantic nets), inference engines, and metaknowledge. Discussion

includes current research issues in adaptive expert systems. Involves one major project. Undergraduates may enroll in this course if they have completed course 140. Offered in alternate academic years. THE STAFF

242. Machine Learning. F,S

Introduction to machine learning algorithms. Covers learning models from fields of statistical decision theory and pattern recognition, artificial intelligence, and theoretical computer science. Topics include classification learning and the Probably Approximately Correct (PAC) learning framework, density estimation and Bayesian learning, EM, regression, and online learning. Provides an introduction to standard learning methods such as neural networks, decision trees, boosting, nearest neighbor, and support vector machines. Requirements include one major experimental learning project or theoretical paper. Students may not receive credit for both this course and course 142. Enrollment restricted to graduate students. V. SWAMINATHAN, D. HELMBOLD, M. WARMUTH

245. Computational Models of Discourse and Dialogue. *

Focuses on classic and current theories and research topics in the computational modeling of discourse and dialogue, with applications to human-computer dialogue interactions; dialogue interaction in computer games and interactive story systems; and processing of human-to-human conversational and dialogue-like language such as e-mails. Topics vary depending on the current research of the instructor(s) and the interests of the students. Students read theoretical and technical papers from journals and conference proceedings and present class lectures. A research project is required. (Also offered as Computational Media 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Undergraduates may enroll with permission of

instructor. May be repeated for credit. M. WALKER

247. AI: Problem Solving and Intelligent Search. *

Surveys topics in contemporary deductive artificial intelligence (AI). Coursework involves weekly readings and a project. Prerequisite(s): courses 201 and 240. Enrollment restricted to graduate students. THE STAFF

250. Introduction to Information Theory. F

An introduction to information theory including topics such as entropy, relative entropy, mutual information, asymptotic equipartition property, channel capacity, differential entropy, rate distortion theory, and universal source coding. (Also offered as Electrical Engineering 253. Students cannot receive credit for both courses.) Prerequisite(s): Computer Engineering 107, or Applied Mathematics and Statistics 131 or equivalent course, or permission of instructor. H. SADJADPOUR, THE STAFF

253. Advanced Programming Languages. F

Covers issues in the design, implementation, analysis, and specification of programming languages. Topics include formal semantics (including operational, axiomatic, and denotational semantics), advanced type systems, program analysis (including abstract interpretation and model checking), specification, and verification. Prerequisite(s): course 203 or equivalent. C. FLANAGAN

260. Computer Graphics. *

Introduces current research and techniques of modeling, 2D/3D transformation, matrix composition, shading algorithms, and rendering to obtain computer-generated imagery. Programming assignments and major project required. Students cannot receive credit for both this course and course 160. Enrollment restricted to graduate students; undergraduates by interview only. Enrollment limited to 20. J. DAVIS, A. PANG

Computer Science

261. Advanced Visualization. S

Covers advanced topics in visualization, e.g., tensor-field visualization, uncertainty visualization, information visualization. Topics vary with differing offerings of the course. Course includes lectures, exam, research paper reading/presentation, and projects. Final project is expected to be at a sufficiently advanced level for submission to a conference. Students work individually or in pairs. Enrollment restricted to graduate students. Enrollment restricted to graduate students. A. PANG

262. Computer Animation. *

An in-depth treatment of computer animation, including its origins in conventional animation, 2-D animation, inbetweening, motion control, morphing, graphical motion editors, animation languages, motion blur, simulation of articulated body motion, real-time animation, and special-purpose animation hardware. Enrollment restricted to graduate students. Enrollment limited to 15. J. DAVIS, A. PANG

263. Data Driven Discovery and Visualization. W

Explores high-quality interdisciplinary research using socio-economic data and software available on the Internet, and data curation, computation, and visualization to strengthen scientific inquiry to bear on large-scale societal problems. Applications include inequality, poverty, water, energy, environment, health, education, and democracy. Enrollment restricted to graduate students. Enrollment by instructor consent. Enrollment limited to 25. S. LODHA

266A. Data Visualization and Statistical Programming in R (3 credits). F

Introduces students to data visualization and statistical programming techniques using the R language. Covers the basics of the language, descriptive statistics, visual analytics, and applied linear regression. Enrollment is by

permission of the instructor. (Also offered as Applied Math and Statistics 266A. Students cannot receive credit for both courses.) Enrollment limited to 30. A. RODRIGUEZ, S. LODHA

266B. Advanced Statistical Programming in R (3 credits). W,S

Teaches students already familiar with the R language advanced tools such as interactive graphics, interfacing with low-level languages, package construction, debugging, profiling, and parallel computation. (Also offered as Applied Math and Statistics 266B. Students cannot receive credit for both courses.) Prerequisite(s): Applied Mathematics and Statistics 266A or Computer Science 266A. Enrollment limited to 30. A. RODRIGUEZ, S. LODHA

266C. Introduction to Data Wrangling (3 credits). W,S

Introduces students to concepts and tools associated with data collection, curation, manipulation, and cleaning including an introduction to relational databases and SQL, regular expressions, API usage, and web scraping using Python. (Also offered as Applied Math and Statistics 266C. Students cannot receive credit for both courses.) Prerequisite(s): Applied Mathematics and Statistics 266A or Computer Science 266A. Enrollment limited to 30. A. RODRIGUEZ, S. LODHA

272. Evolutionary Game Theory. *

Reviews static equilibrium concepts, games of incomplete information, and the traditional theory of dynamic games in discrete time. Develops recent evolutionary game models, including replicator and best reply dynamics, and applications to economics, computer science, and biology. Prerequisite(s): upper-division math courses in probability theory are strongly recommended. Cannot receive credit for this course and Economics 166B or Computer Science 166B. (Also offered as Biology:Ecology & Evolutionary 274. Students cannot receive credit

for both courses.) THE STAFF, B. SINERVO, D. FRIEDMAN, M. WARMUTH

276. Software Engineering. *

Introduction to the general principles of software engineering. Covers current and classical topics from both practical and theoretical viewpoints. Topics include software evolution, project management, software inspections, design methods, requirements analysis and specification, software testing, maintenance, software implementation, human interfaces, and software engineering experimentation. (Formerly Computer Engineering 276.) Enrollment restricted to graduate students; undergraduates may enroll in this course if they have completed Computer Science 115. THE STAFF, L. DE ALFARO, E. WHITEHEAD

277. Principles of Database Systems. S

Advanced course on principles of database systems. Main topics include overview of the relational data model and relational query languages; recursive queries, datalog, and fixed-points; query processing and optimization; database design, dependencies, normal forms, and the chase procedure. Additional topics may include information integration, complex objects, semistructured data, and XML. (Formerly Database Systems I.) Prerequisite(s): course 201 or equivalent or consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 20. Offered in alternate academic years. THE STAFF, S. FINKELSTEIN, P. KOLAITIS

278. Design and Implementation of Database Systems. F

Advanced course in implementation techniques for database systems. For students who wish to do research in databases or to learn more about large-scale data processing. Topics include: indexing of complex data; techniques for high-volume concurrency control; query processing and optimization; database recovery; parallel

Computer Science

database system architectures; database systems for streaming data; approximate query answering. Additional topics may include: self-managing database systems; advanced query optimization techniques; and query processing techniques for semi-structured data. (Formerly Database Systems II.) Prerequisite(s): course 181 (or equivalent) or consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 20. THE STAFF, S. FINKELSTEIN, P. ALVARO, P. KOLAITIS

279. Software Reuse and Component-Based Software Engineering. *

Detailed study of interlocking business, organizational, and technical issues in large-scale software reuse and component-based software engineering. Topics include architecture, design for reuse, domain engineering, model-driven development, domain-specific kits, components, frameworks, software agents, generators, problem-oriented languages, library design, reuse tools, patterns, and aspects. Assumes prior exposure to software engineering topics. Prerequisite(s): computer engineering 276 or consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 20. C. MCDOWELL

280A. Seminar in Computer Science Research (2 credits). S

Weekly seminar covering topics of current research in computer science. Enrollment by permission of instructor. May be repeated for credit. M. WALKER, THE STAFF

280D. Seminar in Database Systems (2 credits). S

Covers advanced research topics from the recent literature in database systems and related fields. Involves presentations from UCSC students and faculty, and guest talks from researchers in industry and other academic institutions. Enrollment by permission of instructor. Enrollment limited to 30. May be repeated for credit. P. KOLAITIS

280G. Seminar on Software Engineering (2 credits). *

Weekly seminar covering topics of current research in software engineering. Prerequisite(s): permission of instructor. Enrollment restricted to graduate students. Enrollment limited to 30. May be repeated for credit. C. MCDOWELL, C. FLANAGAN

280H. Seminar in Human Computation Systems (2 credits). *

Covers advanced topics and current research in the general area of human computation. Material is drawn from several disciplines that involve or deal with human computation, including computer vision, human-computer interaction, databases, and machine learning. The course comprises presentations from faculty, enrolled students, and external visitors. Enrollment restricted to graduate students. May be repeated for credit. J. DAVIS

280J. Seminar on Computer Graphics (2 credits). *

Weekly seminar covering topics of current research in computer graphics. Enrollment restricted to graduate students and by permission of instructor. Enrollment limited to 30. May be repeated for credit. J. DAVIS

280L. Seminar on Logic in Computer Science (2 credits). S

Covers advanced research topics from the recent literature in the uses of logic in computer science with particular emphasis on the applications of logic to the representation and the management of data. Involves presentations from UCSC students and faculty, and guest talks from researchers in other academic institutions or industrial research labs. Enrollment is by permission of the instructor. Enrollment is restricted to graduate students. Enrollment limited to 15. May be repeated for credit. P. KOLAITIS

280M. Seminar on Machine Learning (2 credits). F,W,S

Weekly seminar covering topics of current interest in machine learning. Enrollment is by

permission of the instructor. Enrollment is restricted to graduate students. May be repeated for credit. M. WARMUTH, S. VISHWANATHAN, D. ACHLIOPTAS, D. HELMBOLD

280S. Seminar on Computer Systems (2 credits). F,W,S

Weekly seminar series covering topics of current research in computer systems. Enrollment by permission of instructor. Enrollment limited to 30. May be repeated for credit. E. MILLER, C. MALTZAHN, D. LONG

280Z. Seminar in Natural Language Processing and Dialogue (2 credits). *

Covers advanced topics and current research in natural language processing. Focuses on student presentations and seminar participation. (Also offered as Computational Media 280Z. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

290A. Topics in Algorithms and Complexity Theory: Probabilistic Algorithms and Average Case Analysis. W

Graduate seminar in algorithms and complexity theory on topics from recently published research journal articles and conference proceedings. Topics vary from year to year depending on the current research of the instructor(s) and interests of students. Students read technical papers from relevant journals and conference proceedings and present class lectures. Guest lectures may supplement the student presentations. A research project and/or paper may be required. Enrollment restricted to graduate students. Enrollment limited to 15. Offered in alternate academic years. May be repeated for credit. S. COMANDUR, D. ACHLIOPTAS

290B. Advanced Topics in Computer Graphics. *

A graduate seminar in computer graphics on topics from recently published research journal articles and conference proceedings. Topics vary from year to year depending

Computer Science

on interests of students. Primary areas of interest are likely to be scientific visualization, modeling, rendering, scattered data techniques, wavelets, and color and vision models. Students read technical papers and present class lectures. Guest lecturers supplement the student presentations. A research project is required. Enrollment limited to 15. May be repeated for credit. A. PANG, J. DAVIS, S. LODHA

290C. Advanced Topics in Machine Learning. W

In-depth study of current research topics in machine learning. Topics vary from year to year but include multi-class learning with boosting and SUM algorithms, belief nets, independent component analysis, MCMC sampling, and advanced clustering methods. Students read and present research papers; theoretical homework in addition to a research project. Prerequisite(s): course 242. May be repeated for credit. D. HELMBOLD, S. VISHWANATHAN, L. GETOOR

290D. Neural Computation. *

An introduction to the design and analysis of neural network algorithms. Concentrates on large artificial neural networks and their applications in pattern recognition, signal processing, and forecasting and control. Topics include Hopfield and Boltzmann machines, perceptions, multilayer feed forward nets, and multilayer recurrent networks. Enrollment restricted to graduate students. Offered in alternate academic years. May be repeated for credit. M. WARMUTH

290E. Object-Oriented Programming Methodology. *

Object-oriented programming methodology is the application of abstract-data types and polymorphism to coding solution. Topics geared to beginning thesis research in this field. Prerequisite(s): courses 201 and 203. Enrollment restricted to graduate students. Enrollment limited to 20. May be repeated for credit. C. MCDOWELL

290F. Applications of Combinatorics. *

Combinatorial mathematics, including summation methods, working with binomial coefficients, combinatorial sequences (Fibonacci, Stirling, Eulerian, Harmonic, Bernoulli numbers), generating functions and their uses, Bernoulli processes, and other topics in discrete probability. Oriented toward problem solving, applications mainly to computer science, but also physics. Prerequisite(s): Computer Engineering 16 and Applied Mathematics and Statistics 10. Enrollment restricted to graduate students and upper-division undergraduates. Offered in alternate academic years. May be repeated for credit. THE STAFF

290G. Topics in Software Engineering. *

Research seminar on current topics in software engineering. Topics vary from year to year depending on the current research of the instructor(s) and interests of students. Students read technical papers from relevant journals and conference proceedings. Synthesis and understanding of materials is demonstrated by a required research project. Prerequisite(s): Computer Engineering 276 recommended. Enrollment restricted to graduate students; undergraduates may enroll with permission of instructor. Enrollment limited to 35. May be repeated for credit. E. WHITEHEAD, C. MCDOWELL, L. DE ALFARO, C. FLANAGAN

290H. Topics in Database Systems. *

Focuses on current research topics in database systems. Different offerings cover different topics depending on current research of instructor(s) and the interests of students. Students read technical papers from journals and conference proceedings and present class lectures. A research project is required. Prerequisite(s): course 180 (or equivalent) or 277 or consent of instructor. Enrollment restricted to graduate students.

Enrollment limited to 20. May be repeated for credit. P. KOLAITIS

290L. Topics in Crowdsourcing and Collaboration. *

Explores the foundations of crowdsourcing and computer-mediated collaboration. Covers the algorithmic and statistical foundations of crowdsourcing, introducing and analyzing algorithms, and experimenting with concrete systems. Also, provides an introduction to computational systems for mediating user interaction and collaboration. Enrollment restricted to graduate students. L. DE ALFARO

290P. Data Privacy Via Machine Learning, and Back. S

Helps students achieve both expository knowledge and expertise in the field of data privacy. Focuses on fundamental techniques used in designing privacy-preserving, machine-learning systems in both academia and in the industry. Students are expected to read and understand recent research papers in the topic. Prerequisite(s): courses 201 and 242 or equivalent. Enrollment is restricted to graduate students. May be repeated for credit. A. GUHA THAKURTA

290Q. Topics in Programming Languages. *

Current research topics on computer programming languages. Topics vary year to year. Students read papers from current conferences and journals, and present class lectures. A research project is required. Prerequisite(s): course 203. Enrollment is restricted to graduate students. May be repeated for credit. C. FLANAGAN

290S. Advanced Topics in Computer Systems. *

Focuses on current research topics in computer systems. Topics vary from year to year depending on the current research of the instructor(s) and the interests of the students. Students read technical papers from current journals and conference proceedings, and present class lectures. A research project is required. Prerequisite(s): course 221 recommended. Enrollment

Computer Science

restricted to graduate students; qualified undergraduates may enroll with instructor's consent. May be repeated for credit. THE STAFF, E. MILLER, P. ALVARO, C. MALTZAHN, D. LONG

290T. Topics in Computing for Society. *

Current research topics on computer technology that is intentionally targeted to benefiting society. Topics vary year to year. Students read papers from current conferences and journals, and present class lectures. A research project is required. Enrollment restricted to graduate students. May be repeated for credit. J. DAVIS

290X. Cryptography and Computer Security. *

Research seminar on encryption and related technologies. Topics include theory of codes, random sequences and generators, public key cryptosystems, private key cyphers, key exchange protocols, quantum computing and

cryptography. Major project required. Prerequisite: interview with instructor. Enrollment limited to 12. May be repeated for credit. THE STAFF

296. Masters Project (2 credits). F,W,S

Independent completion of a masters project under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297. Independent Study or Research. F,W,S

Independent study or research under faculty supervision. Although this course may be repeated for credit, not every degree program will accept a repeated course towards degree requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297F. Independent Study or Research (2 credits). F,W,S

Independent study or research

under faculty supervision. Although this course may be repeated for credit, not every degree program will accept a repeated course toward degree requirements. Formerly offered as Directed Readings in Machine Learning. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Thesis research conducted under faculty supervision. Although the course may be repeated for credit, not every degree program will accept a repeated course toward degree requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised 09/01/2017

ELECTRICAL ENGINEERING

2017-18 General Catalog

Baskin School of Engineering
335 Baskin Engineering Building
(831) 459-2158
<http://www.soe.ucsc.edu>

PROGRAM DESCRIPTION

MISSION STATEMENT

The mission of the Electrical Engineering (EE) Department is to build and sustain a teaching and research program to provide undergraduate and graduate students with inspiring and quality education in the theory and practice of hardware- and information-processing-oriented electrical engineering; serving industry, science, and government; and bringing faculty and staff a rewarding career in teaching, research, and service. The electrical engineering program is accredited by [the Engineering Accreditation Commission of ABET](#).

SUMMARY OF OBJECTIVES

The educational objectives that the Electrical Engineering Department strives to provide for students are focused in five areas: advance learning; professional development; adaptation to technological change; leadership, teamwork and entrepreneurial skills; ethics and societal issues.

Engineering is a profession emphasizing analysis and design. Electrical engineers apply their knowledge to an expanding array of technical, scientific, and mathematical questions. A good engineering education has three parts: a sound foundation in mathematics and science, substantial design experience to develop skills and engineering aesthetics, and a focus in the humanities and social sciences to learn how and where to apply the skills developed. Electrical engineering is a very broad discipline. The program at UCSC complements existing campus programs, emphasizing three general areas: electronics/optics (including digital and analog circuits and devices); communications (including signal and image processing and control); and VLSI design, micro-technology, nanotechnology, and biomedical devices.

The undergraduate curriculum provides a balance of engineering science and design. For the first two years, all electrical engineering students are expected to take a basic set of lower-division mathematics, physical science, and engineering courses. After the first two years, electrical engineering students focus on topics within the discipline and specialize in one of two options: electronics/optics, including digital and analog circuits and devices, VLSI design, optoelectronics,

electromagnetics, power engineering, and biomedical device engineering; or communications, signals, systems, and control, including optical, wireless communication, signal and image processing, networks signal processing, instrumentation, and control. Students interested in admission to the electrical engineering major should contact the Baskin School of Engineering Undergraduate Advising office, (831) 459-5840 or advising@soe.ucsc.edu.

PROGRAM LEARNING OUTCOMES

1. Fundamentals: Acquire instruction in the prerequisites for a career based on electrical engineering, including theory, design and the basic science upon which future technology will be based.
2. Theory and practical knowledge: Learn the theory and practical knowledge in hardware and information oriented electrical engineering, including a variety of opportunities for specialized further study.
3. Professional development: Learn the basis for a high-quality, professional approach to engineering, including skills in clear communication, teamwork, responsibility, high ethical standards, a desire for lifelong learning, and participation in the professional engineering community.
4. Preparation for an engineering career: Develop both individual creative skills for personal achievement as well as interpersonal skills for a team project environment, including an ability to apply research to engineering and learn how knowledge is applied in an industry setting.

ELECTRICAL ENGINEERING POLICIES

ADMISSIONS POLICY

Admission to the electrical engineering major is selective. In order to be admitted into the electrical engineering major students must be listed as a proposed major within the School of Engineering. Students in the engineering and computing cluster must propose a major before they can declare. Please refer to the "Proposed Engineering Major Status" section of the School of Engineering Program Statement for more information.

Electrical Engineering

Students who are proposed School of Engineering majors will be permitted to apply to declare an electrical engineering major upon successful completion of all the following foundation courses with a GPA of 2.8 or better: Mathematics 19A-B, Applied Mathematics and Statistics 10 and 20, Physics 5A/L, 5B/M, and 5C/N. Additionally students must complete an "Introduction to Engineering" class, chosen from the following courses: Electrical Engineering 80T (Recommended), Computer Engineering 80H, or Technology and Information Management 80C.

Students who are informed that they are not eligible to declare for the major may appeal this decision.

COURSE SUBSTITUTION

Please refer to the School of Engineering section of the catalog for the policy regarding course substitution.

LETTER GRADE POLICY

The Electrical Engineering Department requires letter grading for all courses applied toward the bachelor of science (B.S.) degree.

HONORS IN THE MAJOR

Electrical engineering majors are considered for "Honors in the Major" and "Highest Honors in the Major" based on the GPA and on results of undergraduate research and other significant contributions to the School of Engineering. Students with a GPA of 3.7 receive highest honors. Students with a GPA of 3.3, receive honors. A student meeting the GPA requirement for highest honors or honors may not receive honors if a student has been found guilty of academic misconduct. Students with particularly significant accomplishments in undergraduate research or contributions to the School of Engineering may be considered with a lower GPA. Electrical engineering juniors and seniors may also be eligible for election to the UCSC chapter of Tau Beta Pi, the national engineering honor society founded in 1885.

TRANSFER STUDENTS

Acceptance into the major is based on the student's academic college record and preparation for the major. Transfer students should seek advisement as their plans will vary depending on their lower-division courses. Applicants are encouraged to take and excel in as many courses that are equivalent to the department's foundation courses as possible. For electrical engineering majors, the following courses, or their equivalents, should be completed prior to transfer: first year calculus (Mathematics 19A-B), linear algebra (Applied Mathematics and Statistics 10 or Mathematics 21), differential equations (Applied Mathematics and Statistics 20 or Mathematics 24), a year of calculus-based physics courses (accepted as equivalent to Physics 5A/L, 5B/M, 5C/N). To ensure timely graduation, it is strongly recommended (but not required) that two programming courses (accepted as

equivalent to Computer Engineering 12/L or Computer Engineering 13/L) and Multivariable Calculus (accepted as equivalent to Mathematics 23A and 23B) be taken prior to transfer. Only students who have completed the following minimum courses with a GPA of 2.8 or better will be considered for acceptance into the major: Math 19A, Math 19B, Physics 5A/L, Physics 5C/N, AMS 10 or Math 21 and AMS 20 or Math 24.

SCHOOL OF ENGINEERING POLICIES

Please refer to the School of Engineering section of the catalog for additional policies that apply to all School of Engineering programs.

REQUIREMENTS OF THE MAJOR

In addition to completing UCSC's general education requirements, students must complete 15 lower-division science and engineering courses, plus associated laboratories; nine upper-division engineering courses, plus associated laboratories; four engineering electives; and a two-quarter comprehensive senior design project course. To plan for completion of these requirements within the normative time, students should consult with an adviser at the Baskin School of Engineering Undergraduate Advising office as early as possible.

LOWER-DIVISION REQUIREMENTS

Students gain a solid foundation in calculus, engineering mathematics, physics, computer science, and computer engineering during their first two years. Majors must complete the following 15 lower-division courses (including corresponding laboratories). These courses form part of the prerequisite sequence and should be completed during the first two years at UCSC. The requirements are rigorous; students must be prepared to begin these courses early in their studies.

Electrical Engineering

80T, Modern Electronic Technology and How It Works

Computer Engineering/Computer Science

Computer Engineering 12/L, Computer Systems and Assembly Language/ Laboratory

Computer Engineering 13/L, Computer Systems and C Programming/Laboratory or Computer Science 12A/L, Introduction to Programming (Accelerated)/Laboratory, or CMPS 5J and 11

Computer Engineering 80E, Engineering Ethics

Mathematics

19A-B, Calculus for Science, Engineering, and Mathematics

23A-B, Multivariable Calculus

Applied Mathematics and Statistics

10, Mathematical Methods for Engineers I

Electrical Engineering

20, Mathematical Methods for Engineers II

Physics

5A/L, 5B/M, 5C/N, Introduction to Physics/Laboratories

5D, Heat, Thermodynamics, and Kinetics

Ethics

This requirement is satisfied by completion of EE 129A.

UPPER-DIVISION REQUIREMENTS

Fifteen upper-division courses along with associated 1- or 2-credit laboratories are required for the major. The course requirements include both depth and breadth, technical writing, and a comprehensive capstone design project.

All students are required to take the following nine upper-division courses, with associated laboratories:

Electrical Engineering

101/L, Introduction to Electronic Circuits/Laboratory

103/L, Signals and Systems/Laboratory

135/L, Electromagnetic Fields and Waves/Laboratory

145/L, Properties of Materials/Laboratory

151, Communications Systems

171/L, Analog Electronics/Laboratory

Computer Engineering

100/L, Logic Design/Laboratory

Applied Mathematics and Statistics

131, Introduction to Probability Theory

Required Electives. In addition to completing the above required courses, electrical engineering majors must complete four elective courses chosen from the list below. At least three must be from one of the depth-sequence concentrations listed. Certain graduate-level courses as well as those courses taught in conjunction with graduate courses may also be used to fulfill an elective requirement as listed below. No course may be counted twice. See [the electrical engineering website](#) for course descriptions.

ELECTRONICS/OPTICS CONCENTRATION

Electrical Engineering

104, Bio-electronics and Bio-instrumentation

115, Introduction to Micro-Electro-Mechanical-Systems Design

130/L/ 230, Introduction to Optoelectronics and Photonics and Laboratory/Optical Fiber Communication

136, Engineering Electromagnetics (strongly recommended)

154/241, Feedback Control Systems, and Introduction to Feedback Control Systems

157/L, RF Hardware Design/Laboratory

172/221, Advanced Analog Circuits/Advanced Analog Integrated Circuits

173/L, High-Speed Digital Design/Laboratory

175/L, Energy Generation and Control/Laboratory

176/L, Energy Conversion and Control/Laboratory

177/L, Power Electronics/Laboratory

178, Device Electronics

180J, Renewable Energy Sources in Practice

211, Introduction to Nanotechnology

213, Micro/Nano-characterization of Materials

231, Optical Electronics

Computer Engineering

118/L, Introduction to Mechatronics/Laboratory

121/L, Microprocessor System Design/Laboratory

167/L, Sensing and Sensor Technologies

COMMUNICATIONS, SIGNALS, SYSTEMS, AND CONTROLS CONCENTRATION

Electrical Engineering

130/L/230, Introduction to Optoelectronics, and Photonics and Laboratory/Optical Fiber Communication

136, Engineering Electromagnetics (strongly recommended)

152/252, Introduction to Wireless Communications and Wireless Communications

153/250, Digital Signal Processing/Digital Signal Processing

154/241, Feedback Control Systems and Introduction to Feedback Control Systems

251, Principles of Digital Communications

253, Introduction to Information Theory

261, Error Control Coding

262, Statistical Signal Processing I

264, Image Processing and Reconstruction

Computer Engineering

118/L, Introduction to Mechatronics/Laboratory

150/L, Introduction to Computer Networks/Laboratory

251, Error Control Coding (taught in conjunction with EE 261)

Electrical Engineering

The senior-year curriculum enables students to pursue independent study with a faculty member. Electrical engineering students are encouraged to take advantage of the opportunity to work within a faculty member's research group as part of their educational experience. Internship programs with local industry are also available.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students in all majors must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in electrical engineering is satisfied by completing the senior capstone course sequence EE 129A, EE129B, and EE129C, or EE 129A in addition to a senior thesis.

COMPREHENSIVE REQUIREMENT

The senior comprehensive requirement for electrical engineering majors is in two parts: a project course and assessment options.

PROJECT COURSE

Students must complete one capstone design course that spans three quarters, Electrical Engineering 129A/B/C, or complete a senior thesis. These senior-level courses encompass an in-depth project, including analysis, design, testing, and documentation, requiring students to call upon knowledge acquired throughout their undergraduate studies. Current course choices include the following:

ELECTRICAL ENGINEERING

EE 129A, EE129B, and EE129C, Engineering Design Project I, II, and III (15 credits total)
195, Senior Thesis Project (12 credits total)

OUTCOMES ASSESSMENT OPTIONS

The Electrical Engineering Department requires an outcomes assessment. All students are required to complete an exit survey and meet with a faculty member for an exit interview. The specifics of the outcomes assessment may change from year to year; for this catalog year, students must complete one of the following options:

1. maintenance of a 2.5 grade point average in all required and elective courses for the major; or
2. senior thesis submission; or
3. portfolio review.

Portfolios must include the following:

- project report(s);

- a one- or two-page overview of the student's contribution to the project(s);
- a two-page essay concerning the relationship of engineering to society (specific topics will be provided by the Electrical Engineering Department).

The portfolios must be submitted electronically at least seven days before the end of the instruction in the quarter of graduation. Portfolios will not be returned.

ELECTRICAL ENGINEERING MAJOR PLANNERS

The following are two sample academic plans for students to complete during their first two years as preparation for the electrical engineering major. These sample plans are intended for incoming first-year students. Transfer students should seek advisement as their plans will vary depending on their lower-division courses.

STARTING EE101/L WINTER SOPHOMORE YEAR

Plan One		
Fall	Winter	Spring
MATH 19A	MATH 19B	MATH 23A
	PHYS 5A/L	PHYS 5C/N
college core	college core	AMS 10
Fall	Winter	Spring
MATH 23B	EE 101/L	EE 103/L
CMPE 12/L	AMS 20	AMS 131
	EE 80T	PHYS 5B/M
Fall	Winter	Spring
EE 145/L	EE 135/L	EE 171/L
PHYS 5D	EE 151	CMPE 13/L*
UD elective	CMPE 100/L	
Fall	Winter	Spring
EE 129A	EE 129B	EE 129C
UD elective (design)	UD elective	UD elective
	gen ed	gen ed

* Or the equivalent of CMPS 12A/L or 5J and 11

STARTING EE 101/L FALL JUNIOR YEAR

Plan Two		
Fall	Winter	Spring
MATH 3	MATH 19A	MATH 19B
CMPS 5J*	EE 80T	CMPS 11*
college core	college core	CMPE 12/L
Fall	Winter	Spring
PHYS 5A/L	PHYS 5B/M	PHYS 5C/N
AMS 10	AMS 20	MATH 23A
	AMS 131	CMPE 100/L
Fall	Winter	Spring
EE 101/L	EE 135/L	EE 103/L
PHYS 5D		EE 171/L
MATH 23B	UD elective	
Fall	Winter	Spring
EE 129A	EE 129B	EE 129C
EE 145/L	EE 151	UD elective
CMPE 121/L	gen ed	UD elective

* Or the equivalent of CMPE 13/L or CMPS 12A/L

Additional information about this program can be found on [the department's website](#).

ELECTRICAL ENGINEERING MINOR

The electrical engineering minor provides a solid foundation in the core areas of electronic circuits and signals and systems, as well as the prerequisite material in mathematics and physics. Concentration of upper division electives in either of the major tracks constitutes substantial and focused work in the discipline of electrical engineering. This minor is particularly suitable for students with majors in Applied Physics or any School of Engineering major.

ELECTRICAL ENGINEERING MINOR REQUIREMENTS

Requirements for the minor in electrical engineering are the following:

MATHEMATICS

Mathematics 19A-B, Calculus for Science, Engineering, and Mathematics

Mathematics 23A, Multivariable Calculus

Applied Mathematics and Statistics 10, Mathematical Methods for Engineers I, and 20, Mathematical Methods for Engineers II; or Mathematics 21, Linear Algebra and Mathematics 24, Ordinary Differential Equations

SCIENCE

Physics 5A/L or 6A/L, Mechanics and 5C/N or 6C/N, Electricity and Magnetism

CORE REQUIREMENTS

ELECTRICAL ENGINEERING

Electrical Engineering 101/L, Introduction to Electronic Circuits/Laboratory; and

Electrical Engineering 103, Signals and Systems; and

Electrical Engineering 171/L, Analog Electronics/Laboratory

UPPER-DIVISION ELECTIVES

At least 15 credits of upper-division or graduate electrical engineering courses, all chosen from one of the existing electrical engineering major tracks. All of the upper-division electives must come from the same track.

GRADUATE PROGRAMS

The Department of Electrical Engineering (EE) at the University of California, Santa Cruz (UCSC) offers master of science (M.S.) and doctor of philosophy (Ph.D.) degree programs and conducts research in:

- Photonics and electronics focusing on VLSI, electronic and optoelectronic materials; devices, circuits and systems for information transmission; storage, processing, and display, especially for optical-fiber communications and lower-power, high-performance systems; biomedical device instrumentation and MEMS; and optofluidics;
- Signal processing and communications, including wireless communications, network information theory, digital signal processing, image and video processing;
- Remote sensing including wave propagation and scattering radar oceanography, and microwave remote sensing.
- Nanotechnology including applications to bio-medicine, integrated optics for biomedical imaging, opto-thermo-electric energy conversion, near-field scanning optical microscopy, nano-magneto-optics, micro-mechanics and micro-fluidics.

Electrical Engineering enjoys a close relationship with the Departments of Applied Mathematics and Statistics,

Electrical Engineering

Computer Science, Computer Engineering, Biomolecular Engineering, Chemistry, Physics, Astronomy, and Molecular, Cell and Developmental Biology faculty. The Electrical Engineering faculty are affiliated with: 1) several federally funded and nationally recognized centers such as the Center for Adaptive Optics, and the Center for Biomolecular Science and Engineering; 2) state-funded centers such as the Institute for Quantitative Biology (QB3), the Center for Information Technology Research in the Interest of Society (CITRIS), and the Institute for Regenerative Medicine (CIRM); 3) privately funded centers such as the W.M. Keck Center for Nanoscale Optofluidics (CfNO), the W.M. Keck Center for Adaptive Optical Microscopy (CfAOM), and the Center for Sustainable Energy and Power Systems (CenSEPS). Many EE faculty participate in the University Affiliated Research Center (UARC) at NASA-Ames Research Center, which is managed by UCSC and in the Advanced Studies Laboratory, a partnership between UCSC and NASA-Ames Research Center. The department also has ties to nearby industry, employing electrical engineering professionals as visiting and adjunct faculty and arranging for students to gain practical research experience through work in industrial labs. Indeed, the department strongly encourages students of all nationalities to seek practical training as part of their graduate education.

Students begin the program with the completion of courses in a core area of interest and then proceed to do research in their area of specialization. The M.S. degree can be completed in two years. M.S. students must complete a master's thesis or pass the comprehensive examination. A Ph.D. degree is usually completed in four to six years. Ph.D. students are required to take a preliminary exam within their first two years of study. After completing the course requirements, students must pass an oral qualifying exam and write a dissertation. Part-time study is possible for students working in industry while attending school.

REQUIREMENTS FOR THE MASTER'S DEGREE

COURSE REQUIREMENTS

THESIS TRACK

Each student is required to take 45 credits which must consist of:

1. at least 15 credits must be satisfied with courses from the areas of emphasis defined above;
2. at least 25 credits of the total 45 credits must be satisfied through EE graduate courses; and

3. at most 10 credits of independent study (EE 297, EE 299) are counted toward the EE course requirements.

Total credits required for the M.S. degree = 45.

Note that each graduate course satisfying the above requirements typically covers 5 credits.

THESIS

Completion of a master's thesis is required for the master's degree. To fulfill this requirement, the student submits a written proposal to a faculty member, usually by the third academic quarter. By accepting the proposal, the faculty member becomes the thesis adviser. In consultation with the adviser, the student forms a master's thesis reading committee with at least two additional faculty members, each of whom is provided a copy of the proposal. Upon completion of the thesis work, the student presents an expository talk on the thesis research, and the final thesis must be accepted by the review committee before the award of the master of science degree.

M.S. students admitted to continue to the Ph.D. program must pass a preliminary exam covering fundamental undergraduate coursework (see below).

COMPREHENSIVE EXAMINATION TRACK

Each student is required to take 40 credits which must consist of:

- (1) At least 15 credits must be satisfied with courses from the areas of emphasis defined above.
- (2) At least 25 credits of the total 40 credits must be satisfied through EE graduate courses.

Total credits required for the M.S. degree = 40.

Each student must pass the comprehensive examination. Note that each graduate course satisfying the above requirements typically covers 5 credits.

The examination is administered once a year at the end of the spring quarter. The three areas of concentration are: 1. photonics and electronics; 2. signal processing and communications; 3. nanotechnology. Students can choose only one area for the comprehensive examination. The comprehensive examination is in writing with individual problems that the students will solve. The faculty members in the different areas will prepare the examination questions based on the graduate courses in these areas. The examination will be administered in a single day in all three areas of concentration.

Note that Plan II (Comprehensive Examination Track) is the default option and students can select Plan I (Thesis Track) only if they can find a faculty sponsor.

REQUIREMENTS FOR THE PH.D. DEGREE

COURSE REQUIREMENTS*

Each student is required to take 50 credits which must consist of:

- At least 20 credits in one of the four core areas of emphasis defined above.
- At least 30 of the total 50 credits must be satisfied through EE graduate courses.
- At most 10 credits of independent study (EE297, EE299) will be counted toward EE course requirements.

Total credits required for the Ph.D. degree = 50

* For students already holding a master of science in electrical engineering (M.S.E.E.) or equivalent degree, at most 20 credits of transfer credit may be granted for equivalent coursework performed at the students' M.S. granting institution. Credit transfer is subject to approval by the adviser and the electrical engineering graduate director.

PRELIMINARY EXAMINATION

At the end of the first year, i.e., no later than the fall quarter in the following year after their entry, students admitted to the Ph.D. program must take a written examination covering basic knowledge in electrical engineering. This examination will cover material from the following technical areas:

- Circuits at the level of Electrical Engineering 101
- Electromagnetics at the level of Electrical Engineering 135
- Systems and signals at the level of Electrical Engineering 103
- Materials at the level of Electrical Engineering 145
- Applied Mathematics and Statistics at the level of Computer Engineering 107, and Applied Mathematics and Statistics 10 and 20.

The student will choose three areas from the above list in which to be examined. If the student does not pass the preliminary examination, the electrical engineering graduate committee may allow the student to repeat the preliminary examination once. If the student is to leave the Ph.D. program, and the student wishes to obtain a master's degree prior to departure, all requirements for the master's degree must still be satisfied.

After the student passes the preliminary examination, the student begins work on a thesis prospectus in

preparation for the qualifying examination. During this period the student finds an adviser willing to supervise the student's thesis research, works with the adviser to prepare for the qualifying examination, and assembles a dissertation reading committee, consisting of the student's research supervisor (chair of the committee) and three or four appropriate faculty members in electrical engineering and other relevant departments. The committee must consist of at least two ladder-rank, electrical-engineering, faculty members in addition to the student's supervisor.

QUALIFYING EXAMINATION

This oral examination is a defense of the student's thesis prospectus and a test of the student's knowledge in advanced technical areas of relevance to the dissertation topic. This oral examination consists of a seminar-style talk before the examining committee, where the student describes the thesis prospectus, followed by questions from the committee on the substance of the talk and the areas of presumed expertise of the student. The examination, taken typically in the third year of Ph.D. study, is administered by a Ph.D. qualifying examination committee, consisting of at least four examiners. The composition of the committee must be approved by the graduate director and the dean of graduate studies whereupon the student and the committee are notified.

If the student does not pass the qualifying examination, the student may be asked to complete additional coursework, or other research-related work, before retaking the examination. The student may be allowed to retake the qualifying examination once, and the composition of the examining committee will remain the same for the second try. Students who fail the qualifying examination twice may be dismissed from the Ph.D. program.

Ph.D. students who have not advanced to candidacy by the end of the fourth year may be recommended for academic probation.

DISSERTATION AND ADVANCEMENT TO PH.D. DEGREE CANDIDACY

Advancement to candidacy requires that the student:

- pass the preliminary examination;
- complete all course requirements prior to taking the qualifying examination;
- clear all Incompletes from the student's record;
- pass the qualifying examination; and
- have an appointed Ph.D. dissertation reading committee.

After advancement to candidacy, work on the thesis research progresses until the dissertation is completed. The Ph.D. dissertation must show the results of in-depth research, be an original contribution of

Electrical Engineering

significant knowledge to the student's field of study, and include material worthy of publication. The student is strongly advised to submit research work for publication in advance of completing the thesis so that the latter requirement is clearly satisfied. The Ph.D. thesis results are presented in both oral and written forms, the oral form being a dissertation defense (see below) and the written form being the Ph.D. dissertation. The student must submit his or her written Ph.D. dissertation to the dissertation reading committee at least one month before the defense.

DISSERTATION DEFENSE

Each Ph.D. candidate submits the completed dissertation to a Ph.D. thesis reading committee at least one month prior to the dissertation defense. The appointment of the dissertation reading committee is made immediately after the qualifying examination and is necessary for advancing to candidacy. The candidate presents his or her research results in a public seminar sponsored by the dissertation supervisor. The seminar is followed by a defense of the dissertation to the reading committee (only), who will then decide whether the dissertation is acceptable or requires revision. Successful completion of the dissertation fulfills the final academic requirement for the Ph.D. degree.

TRANSFER CREDIT

For students already holding an M.S.E.E. or equivalent degree, at most 20 credits of transfer credit may be granted for equivalent coursework performed at the student's M.S. granting institution. Credit transfer is subject to approval by the electrical engineering graduate director.

Students not already holding an M.S.E.E. degree, who are studying for the Ph.D. degree, may apply to be granted a M.S. degree when they have fulfilled all the M.S. degree requirements (including an M.S. thesis).

REVIEW OF PROGRESS

Each year, the faculty reviews the progress of every student. Students not making adequate progress toward completion of degree requirements (see the Graduate Student Handbook for the policy on satisfactory academic progress) are subject to dismissal from the program. Students with academic deficiencies may be required to take additional courses. Full-time students with no academic deficiencies are normally expected to complete the degree course requirements at the rate of at least two courses each quarter. Full-time students must complete all course requirements within two years for the M.S. and three years for the Ph.D.

Students receiving two or more grades of U (unsatisfactory) or below B in the School of Engineering courses are not making adequate progress and will be placed on academic probation for the following three quarters of registered enrollment. Withdrawing or taking a leave of absence does not count as enrollment. Part-time enrollment is counted as a half-quarter of enrollment.

If an electrical engineering graduate student fails a School of Engineering course while on probation, the Electrical Engineering Department may request the graduate dean to dismiss that student from the graduate program. If after being removed from probation, the student again fails a School of Engineering course, he or she will return immediately to academic probation.

Graduate students experiencing circumstances or difficulties that impact their academic performance should contact their adviser and the graduate director immediately. Students may appeal their dismissal to the graduate committee.

MATERIALS FEE

Please see the section on [fees under School of Engineering](#).

ELECTRICAL ENGINEERING FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Keith Corzine

Electric machinery, power conversion, and power systems

Benjamin Friedlander

Digital communications, wireless communication system, array processing, adaptive signal processing

Claire Gu, Emeritus

Michael Isaacson

Sung-Mo (Steve) Kang

Low-power, high-speed VLSI circuit design and synthesis, RF circuits, biological circuits, mixed technology, mixed signal CAD, memristors and neuromorphic computing, in-memory computing

Nobuhiko P. Kobayashi

Physics and chemistry of complex functional materials; group III-V compound semiconductors; mixed oxides; energy conversion devices; quantum electronics; metal-organic chemical vapor deposition, atomic layer deposition; multi-physics modeling of materials

Joel Kubby

Micro-Electro-Mechanical-Systems (MEMS), adaptive optics (AO), optical-MEMS, bio-MEMS, bio-imaging, AO microscopy, AO astronomy

Leila Parsa

Renewable energy systems, energy harvesting, digital control of power electronics converters, electromechanical energy converters, adjustable speed drives, electric and hybrid electric vehicles, fault tolerant electromechanical energy converters and power electronics systems

Kenneth Pedrotti

Integrated circuit design for communications, analog electronics, radio frequency integrated circuits, low-phase-noise oscillators, frequency synthesis, VLSI clock distribution, optical communications, high-speed electronics for lightwave systems, devices for all optical networking and imaging

Hamid Sadjadpour

Wireless communication systems, network information theory and scaling laws, performance analysis of wireless and social networks, routing and MAC protocol design for wireless networks, network security

Holger Schmidt

Narinder Singh Kapany Endowed Chair in Optoelectronics
Optofluidics, biosensors, hollow-core photonics for biomedicine and quantum optics, integrated nanopore devices, atom photonics, nanomagnetism, spintronics, single-particle spectroscopy, ultrafast optics

John F. Vesecky, Emeritus

Donald Wiberg, Emeritus (UCLA)

Control systems, phased lock loops, Kalman filtering, system parameter estimation, adaptive optics for large telescopes, and biomedical system modeling

ASSOCIATE PROFESSOR

Marco Rolandi

Bioelectronic and bioprotonic devices and translational applications; technological integration of biological and bioinspired materials; visual communication in science and engineering

ASSISTANT PROFESSOR

Ali A. Yanik

Nano-plasmonics and metamaterials. Lab-on-chip systems: optofluidic BioNEMS, nano-fluidics and label-free biosensors. Nano-spectroscopy: plasmonic nano-antennas and single molecule vibrational dynamics. Rare cell isolation and single cell analysis: circulating tumor cells, plasmonic nano-tweezers and phononic crystals for flow cytometry. Nano-fabrication, soft lithography and biopatterning. Nano-electronics, spintronics, and thermoelectricity

TEACHING PROFESSOR

Stephen C. Petersen

Embedded controller systems, RF wireless systems, modulation and spectrum reuse, digital signal processing, circuit theory

ADJUNCT PROFESSOR

Farid Dowla

RF communications, radar, and signal and image processing

Toshishige Yamada

Physics of advanced electronic materials and devices including nanowires and nanocarbons for electronic, optoelectronic, and energy applications; materials theory and device modeling based on energy bands, equivalent circuits, analytical methods, Monte Carlo, and tight-binding; comparison to experiments

ASSISTANT ADJUNCT PROFESSOR

Michael Oye

Nanotechnology-based materials and devices for solar, piezoelectric, energy storage, and chemical sensors

Sue Carter (Physics)

Experimental condensed matter physics, polymer physics, molecular electronics, phase transitions, electronic and optical properties of materials

David W. Deamer (Biomolecular Engineering, UC Davis Emeritus)

Membrane biophysics, nanopore analysis, DNA sequencing, biomolecular self-assembly

Gabriel Elkaim (Computer Engineering)

Embedded systems, robust software architectures for real-time reactive systems, sensor fusion, guidance, navigation, and control (GNC) system identification, robust and advanced control schemes, feedback and control systems, robotics, unmanned autonomous vehicles (UAVs), cooperative control

J.J. Garcia-Luna-Aceves (Computer Engineering; Technology Management)

Principles of computer communication, Internet, mobile and pervasive computing, wireless networks, information centric networks, network science

Matthew R. Guthaus (Computer Engineering)

Health sensor systems, digital health, mobile health applications, integrated circuits and chip design (VLSI), electronic computer-aided design (ECAD), low-power circuits, mobile and pervasive computing

Ronnie D. Lipschutz (Politics)

International relations; global political economy; globalization; foreign policy; resource/environmental politics; global political networks; global civil society and social movements; popular culture and politics; technology and society; risk society

Electrical Engineering

Darrell D. E. Long (Computer Engineering)

Data storage systems, distributed computing, operating systems, performance evaluation, reliability, cyber security, data science, multimedia

Roberto Manduchi (Computer Engineering)

Computer vision and sensor processing, with application to assistive technology for the visually impaired, mobile and pervasive computing

Patrick E. Mantey (Computer Engineering; Technology Management)

Multimedia systems, digital signal processing, sensor systems and networks, real-time monitoring and control, image systems, image processing, visualization, geographic information systems, decision support systems

Claire Max (Astronomy and Astrophysics and UCO/Lick Observatory)

Adaptive optics observations of nearby merging galaxies, new adaptive optics technologies

Jose Renau (Computer Engineering)

Health sensor systems, digital health, mobile health

applications, integrated circuits and chip design (VLSI), electronic computer-aided design (ECAD), low-power circuits, mobile and pervasive computing

B. Sriram Shastry (Physics)

Condensed matter physics, strongly correlated matter, Mott-Hubbard physics, high T_c superconductivity, quantum magnetism, exactly integrable systems, exactly solvable models of many-body systems and in statistical mechanics, quantum chaos, geometric frustration

William T. Sullivan (Biology)

Genetics, cell biology, development of the Drosophila embryo

Jin Z. Zhang (Chemistry)

Design, synthesis, characterization, and application of nanomaterials, including semiconductor and metal nanoparticles; femtosecond laser spectroscopy; ultrafast dynamics on surfaces and at interfaces; cancer biomarker detection; surface-enhanced Raman spectroscopy

ELECTRICAL ENGINEERING COURSES

LOWER-DIVISION COURSES

80J. Renewable Energy Sources. S

Introduction to energy storage and conversion with special emphasis on renewable sources. Fundamental energy conversion limits based on physics and existing material properties. Various sources, such as solar, wind, hydropower, geothermal, and fuel cells described. Cost-benefit analysis of different alternative sources performed, and key roadblocks for large-scale implementation examined. Latest research on solar cells and applications of nanotechnology on energy conversion and storage introduced. Students cannot receive credit for this course and course 81J. (General Education Code(s): PE-E.) THE STAFF

80S. Sustainability Engineering and Practice. F

Topical introduction to principles and practices of sustainability engineering and ecological design with emphasis on implementation in society. Provides an understanding of basic scientific,

engineering, and social principles in the design, deployment, and operation of resource-based human systems, and how they can be maintained for this and future generations. No specialized background in engineering, science, or social sciences is assumed. (General Education Code(s): SR.) K. MONSEN

80T. Modern Electronic Technology and How It Works. W

Basic knowledge of electricity and "how things work," how technology evolves, its impact on society and history, and basic technical literacy for the non-specialist. Broad overview of professional aspects of engineering and introduction and overview of basic systems and components. Topics include electrical power, radio, television, radar, computers, robots, telecommunications, and the Internet. (General Education Code(s): SI.) K. PEDROTTI

81C. Designing a Sustainable Future. *

Introduces key technological solutions to environmental problems; discusses their underlying principles; and

examines their societal dimensions. Topics include: conventional and renewable energy; emerging technologies for transportation, energy efficiency clean water; planetary engineering; and lean manufacturing. (Also offered as Carson College 81C. Students cannot receive credit for both courses.) (General Education Code(s): SI.) L. PARSA, THE STAFF

94. Group Tutorial. F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

94F. Group Tutorial (2 credits). F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to

sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION
COURSES

101. Introduction to Electronic Circuits. F,W

Introduction to the physical basis and mathematical models of electrical components and circuits. Topics include circuit theorems (Thevenin and Norton Equivalents, Superposition), constant and sinusoidal inputs, natural and forced response of linear circuits. Introduction to circuit/network design, maximum power transfer, analog filters, and circuit analysis using Matlab. Topics in elementary electronics including amplifiers and feedback. Prerequisite(s): Physics 5C/N or 6C/N, and Mathematics 24 or previous or concurrent enrollment in Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 101L is required. S. PETERSEN, M. ROLANDI, S. SHIN, J. KUBBY

101L. Introduction to Electronic Circuits Laboratory (2 credits). F,W

Illustrates topics covered in course 101. One two-hour laboratory session per week. Students are billed for a materials fee. Prerequisite(s): Physics 5C/N or 6C/N; and Mathematics 24 or previous or concurrent enrollment in Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 101 is required. S. PETERSEN, M. ROLANDI, S. SHIN, J. KUBBY

103. Signals and Systems. F,S

The course covers the following topics: characterization and analysis of continuous-time signals and linear systems, time domain analysis using convolution, frequency domain analysis using the Fourier series and the Fourier transform, the Laplace transform, transfer functions and block diagrams, continuous-time filters, sampling of continuous time signals, examples of applications to communications and control systems. Prerequisite(s): courses

101/L and Applied Mathematics and Statistics 20 or 20A. S. KANG, B. FRIEDLANDER

103L. Signals and Systems Laboratory (2 credits). F,S

Use and operation of spectrum analyzers; advanced signal analysis using oscilloscopes; measuring impulse response, step response, frequency response, and computer analysis of real signals. MATLAB programming is taught and used as a tool for signal analysis. Students are billed a materials fee. Prerequisite(s): course 101 and 101L, and Applied Mathematics and Statistics 20 or 20A. Concurrent enrollment in course 103 required. S. KANG, B. FRIEDLANDER

104. Bio-electronics and Bio-instrumentations. S

Focuses on the analysis, design, and measurement of components and systems of biomedical devices which interface biological systems with electronics, mechanics, and optics. Topics include: abiotic/biotic interface; low-power analog/digital circuits and systems; signal integrity; energy harvesting; wireless techniques; regulatory/ethic compliance tailored for both invasive and non-invasive biomedical applications. Students cannot receive credit for this course and course 204. Prerequisite(s): course 103. Enrollment restricted to juniors, seniors, and graduate students. M. ROLANDI

115. Introduction to Micro-Electro-Mechanical-Systems (MEMS) Design. *

Begins with overview of MEMS devices and processes that are used to fabricate them. The basic governing equations for MEMS devices in different energy domains (mechanical, electrical, optical, thermal, and fluidic) reviewed, and both analytical and finite element coupled-domain modeling is used to design MEMS devices. Students work in teams to design, lay out, and fabricate MEMS devices and test structures using a standard multi-user process available through a foundry service. A

presentation and term paper describing the design and layout will be required. Prerequisite(s): courses 101/L, 135/L, 145/L, Mathematics 19A and 19B, Mathematics 23A and 23B, and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A, Physics 5A, 5B, 5C, and 5D. Enrollment limited to 15. J. KUBBY

122A. Collaborative Sustainability Project Design. *

This course is the first quarter of a three quarter series of courses that together comprise the IDEASS Program (Impact Designs: Engineering and Sustainability through Student Service), which provides students with opportunities to plan, implement, and evaluate interdisciplinary sustainable design projects in the built environment for the Monterey Bay Region. In fall quarter students are introduced to project topics and background information. In collaboration with an outside mentor project teams design, revise, and complete a project plan including project goals and deliverables, timeline of key activities and major milestones, stakeholder map, evaluation plan, and budget (as applicable). Students apply online; selected applicants complete in-person interviews. (Formerly course 122.) Enrollment limited to 65. May be repeated for credit. THE STAFF

122B. Collaborative Sustainability Project Implementation. *

The second of a three-quarter sequence that together comprise the IDEASS Program (Impact Designs: Engineering and Sustainability through Student Service) which provides opportunities for students to plan, implement, and evaluate interdisciplinary sustainable-design projects in the built environment for the Monterey Bay Region. In winter quarter, project teams work collaboratively to implement the project plans approved during the fall quarter. Students participate in a weekly seminary series that includes guest lectures and field

Electrical Engineering

trips as well as workshops in project management, public speaking, writing skills, and other professional development. Prerequisite(s): course 122A. Students apply online; selected applicants complete in-person interviews. Enrollment is restricted to juniors and seniors. THE STAFF

122C. Collaborative Sustainability Project Implementation. *

The third of a three-quarter sequence that together comprise the IDEASS Program (Impact Designs: Engineering and Sustainability through Student Service) which provides opportunities for students to plan, implement, and evaluate interdisciplinary sustainable-design projects in the built environment for the Monterey Bay Region. In spring quarter, project teams work collaboratively to continue implementation of project plans approved during the fall quarter, then evaluate projects impacts. Students participate in a weekly seminary series that includes guest lectures and field trips as well as workshops in project management, public speaking, writing skills, and other professional development. Students also work in the community on educational public outreach regarding project impacts. Prerequisite(s): course 122A. Students apply online; selected applicants complete in-person interviews. Enrollment is restricted to juniors and seniors. THE STAFF

123A. Engineering Design Project I. *

First of a two-course sequence that is the culmination of the engineering program. Students apply knowledge and skills gained in elective track to complete a major design project. Students complete research, specification, planning, and procurement for a substantial project. Includes technical discussions, design reviews, and formal presentations; engineering design cycle, engineering teams, and professional practices. Formal technical specification of the approved

project is presented to faculty. Prerequisite(s): Electrical Engineering 171 and Computer Engineering 100; previous or concurrent enrollment in Computer Engineering 185 and in at least one of the following: Electrical Engineering 157, Computer Engineering 121 or Computer Engineering 118; permission of department and instructor. Students are billed a materials fee. (General Education Code(s): PR-E.) THE STAFF

123B. Engineering Design Project II (7 credits). *

Second of two-course sequence in engineering system design. Students fully implement and test system designed and specified in course 123A. Formal written report, oral presentation, and demonstration of successful project to review panel of engineering faculty required. Students are billed a materials fee. Prerequisite(s): course 123A. THE STAFF

129A. Capstone Project I. F

First of a three-course sequence in which students apply knowledge and skills gained in elective track to complete a major design project. In this first course, students complete the specification and planning for a substantial project. Topics covered: engineering design cycle, engineering teams, and professional practices. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and course 171 and CMPE 100; and previous or concurrent enrollment in course 157 or CMPE 118 or CMPE 121. Enrollment is restricted to seniors. S. PETERSEN, (F) THE STAFF

129B. Capstone Project II. W

Second of a three-course sequence in which students apply knowledge and skills gained in elective track to complete a major design project. In this second course, students complete the training, research, and procurement for a substantial project and a preliminary implementation. Students are billed a materials fee. Prerequisite(s): satisfaction of the Entry Level

Writing and Composition requirements and course 129A. Enrollment is restricted to seniors. (General Education Code(s): PR-E.) THE STAFF, S. PETERSEN, J. VESECKY

129C. Capstone Project III. S

Third of a three-course sequence in which students apply knowledge and skills gained in this elective track to complete a major design project. In this third course, students work in teams to complete the project specified and advance on the results of the work in the first two courses. A formal written report, oral presentation, and demonstration of the successful project to a review panel of engineering faculty is required. Students are billed a materials fee. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 129B. Enrollment is restricted to seniors. THE STAFF, S. PETERSEN, D. MUNDAY

130. Introduction to Optoelectronics and Photonics. F

Introduction to optics, photonics and optoelectronics, fiber optic devices and communication systems: Topics include: ray optics, electromagnetic optics, resonator optics, interaction between photons and atoms, dielectric waveguides and fibers, semiconductor light sources and detectors, modulators, amplifiers, switches, and optical fiber communication systems. Taught in conjunction with course 230. Students cannot receive credit for this course and course 230. Prerequisite(s): Physics 5B and 5C, or Physics 6B and 6C; concurrent enrollment in course 130L. A. YANIK

130L. Introduction to Optoelectronics Laboratory (1 credit). F

Includes a series of projects to provide hands-on experience needed for basic concepts and laboratory techniques of optical fiber technology. Students are billed a materials fee. Prerequisite(s): Physics 5L, 5M, and 5N, or Physics

Electrical Engineering

6L, 6M, and 6N; concurrent enrollment in course 130. Enrollment limited to 30. A. YANIK

135. Electromagnetic Fields and Waves. W

Vector analysis. Electrostatic fields. Magnetostatic fields. Time-varying fields and Maxwell's equations. Plane waves. Prerequisite(s): course 101/L; Mathematics 23B; and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A. Students must concurrently enroll in course 135L. A. YANIK

135L. Electromagnetic Fields and Waves Laboratory (2 credits). W

Laboratory sequence illustrating topics in course 135. One two-hour laboratory session per week. Students are billed a materials fee. Prerequisite(s): course 101/L; Mathematics 23B; and Mathematics 24 or Applied Mathematics and Statistics 20 or 20A. Students must concurrently enroll in course 135. A. YANIK

136. Engineering Electromagnetics. S

Course will cover electromagnetic wave propagation, transmission lines, waveguides, and antennas. Prerequisite(s): course 135/L. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. N. KOBAYASHI

145. Properties of Materials. F

The fundamental electrical, optical, and magnetic properties of materials, with emphasis on metals and semiconductors: chemical bonds, crystal structures, elementary quantum mechanics, energy bands. Electrical and thermal conduction. Optical and magnetic properties. Prerequisite(s): Physics 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. Concurrent enrollment in course 145L is required. N. KOBAYASHI, H. SCHMIDT

145L. Properties of Materials Laboratory (2 credits). F

Laboratory sequence illustrating topics covered in course 145. One

two-hour laboratory per week. Students are billed a materials fee. Prerequisite(s): Physics 5A/L, 5B/M, and 5C/N or 6A/L, 6B/M, and 6C/N. Concurrent enrollment in course 145 is required. N. KOBAYASHI

151. Communications Systems. W

An introduction to communication systems. Analysis and design of communication systems based on radio, transmission lines, and fiber optics. Topics include fundamentals of analog and digital signal transmission in the context of baseband communications, including concepts such as modulation and demodulation techniques, multiplexing and multiple access, channel loss, distortion, bandwidth, signal-to-noise ratios and error control. Digital communication concepts include an introduction to sampling and quantization, transmission coding and error control. Prerequisite(s): courses 103, 101/L, and Computer Engineering 107 or probability theory and random variables background. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. B. FRIEDLANDER, H. SADJADPOUR

152. Introduction to Wireless Communications. *

Introduction to the principles of wireless communications systems. Wireless propagation channels and their impact on digital communications. Modulation techniques for wireless systems and their performance. Multi-antenna systems and diversity. Multicarrier and spread spectrum. Multi-access methods: FDMA, TDMA, CDMA. The structure of cellular systems. Students cannot receive credit for this course and course 252. Prerequisite(s): Computer Engineering 107 and course 151, or by consent of instructor. Enrollment restricted to juniors and seniors. B. FRIEDLANDER

153. Digital Signal Processing. S Introduction to the principles of

signal processing, including discrete-time signals and systems, the z-transform, sampling of continuous-time signals, transform analysis of linear time-invariant systems, structures for discrete-time systems, the discrete Fourier transform, computation of the discrete Fourier transform, and filter design techniques. Taught in conjunction with Electrical Engineering 250. Students cannot receive credit for this course and Electrical Engineering 250. (Also offered as Computer Engineering 153. Students cannot receive credit for both courses.) Prerequisite(s): course 103. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. F. DOWLA, P. MANTHEY

154. Feedback Control Systems. F

Analysis and design of continuous linear feedback control systems. Essential principles and advantages of feedback. Design by root locus, frequency response, and state space methods and comparisons of these techniques. Applications. (Also offered as Computer Engineering 141. Students cannot receive credit for both courses.) Prerequisite(s): course 103. Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors, or by permission of instructor. Enrollment limited to 30. D. MILUTINOVIC

157. RF Hardware Design. W

Engineering design cycle for wireless and RF systems: design, practical hardware implementation, and prototype. Prerequisite(s): courses 101/L, 103, and 171, and Computer Engineering 174; or consent of instructor. Concurrent enrollment in course 157L is required. Enrollment limited to 30. S. PETERSEN

157L. RF Hardware Design Laboratory (2 credits). W

Laboratory to accompany course 157, emphasizing hardware-design practice and principles applies to RF apparatus. Students design and implement a substantial final

Electrical Engineering

project during the last half of the course. Students are billed a materials fee. Prerequisite(s): courses 101/L, 103, 171, and Computer Engineering 174; or consent of instructor. Concurrent enrollment in course 157 is required. Enrollment limited to 30. S. PETERSEN

171. Analog Electronics. S

Introduction to (semiconductor) electronic devices. Conduction of electric currents in semiconductors, the semiconductor p-n junction, the transistor. Analysis and synthesis of linear and nonlinear electronic circuits containing diodes and transistors. Biasing, small signal models, frequency response, and feedback. Operational amplifiers and integrated circuits. Prerequisite(s): course 101/L; previous or concurrent enrollment in course 171L required. M. ROLANDI

171L. Analog Electronics Laboratory (2 credits). S

Laboratory sequence illustrating topics covered in course 171. One two-hour laboratory session per week. Students are billed a materials fee. Prerequisite(s): courses 101/L; previous or concurrent enrollment in course 171 required. M. ROLANDI

172. Advanced Analog Circuits. F

Analog circuit design covering the basic amplifier configurations, current mirrors, differential amplifiers, frequency response, feedback amplifiers, noise, bandgap references, one- and two-stage operational amplifier design, feedback amplifier stability, switched capacitor circuits and optionally the fundamentals of digital-to-analog and analog-to-digital converters. Emphasis throughout will be on the development of approximate and intuitive methods for understanding and designing circuits. Cannot receive credit for this course and course 221. Prerequisite(s): course 171. K. PEDROTTI

173. High-Speed Digital Design. S

Studies of analog circuit principles relevant to high-speed digital design: signal propagation, crosstalk, and electromagnetic interference. Topics include electrical characteristics of digital circuits, interfacing different logic families, measurement techniques, transmission lines, ground planes and grounding, terminations, power systems, connectors/ribbon cables, clock distribution, shielding, electromagnetic compatibility and noise suppression, and bus architectures. (Formerly Computer Engineering 173.) Prerequisite(s): courses 101/L and 174. Previous or concurrent enrollment in course 173L required. Course 171 and Computer Engineering 121 recommended. Enrollment limited to 30. S. PETERSEN

173L. High-Speed Digital Design Laboratory (2 credits). S

Laboratory sequence illustrating topics covered in course 173. One two-hour laboratory session per week. Students are billed a materials fee. (Formerly Computer Engineering 173L.) Prerequisite(s): courses 101/L and 174. Previous or concurrent enrollment in course 173 required. Course 171 and Computer Engineering 121 recommended. Enrollment limited to 30. S. PETERSEN

174. Introduction to EDA Tools for PCB Design (3 credits). F

Focus on EDA tools for design of printed-circuit boards. Elements of design flow covered: schematic capture and simulation to final PCB layout. Final project is required. Students are billed a materials fee. (Formerly Computer Engineering 174.) Prerequisite(s): course 101/L or consent of instructor. S. PETERSEN

175. Energy Generation and Control. F

Introduces electrical energy generation, sensing, and control, emphasizing the emerging smart grid. Topics include 3-phase AC power systems, voltage and transient stability, fault analysis,

grid protection, power-flow analysis, economic dispatch, and high voltage DC distribution (HVDC). Prerequisite(s): course 101. Concurrent enrollment in course 175L required. J. VESECKY, THE STAFF

175L. Energy Generation and Control Laboratory (2 credits). F

Computer analysis and simulation of energy generation, components, power-flow analysis, systems, and control covering topics from course 195. Weekly computer simulations reinforce the concepts introduced in course 175. Students are billed a materials fee. Prerequisite(s): course 101. Concurrent enrollment in course 175 required. J. VESECKY, THE STAFF

176. Energy Conservation and Control. W

AC/DC electric-machine drives for speed/position control. Integrated discussion of electric machines, power electronics, and control systems. Computer simulations. Applications in electric transportation, hybrid-car technology, robotics, process control, and energy conservation. Prerequisite(s): courses 103 and 171. Concurrent enrollment in course 176L is required. S. PETERSEN, THE STAFF

176L. Energy Conversion and Control Laboratory (2 credits). W

Simulink-based simulations of electric machines/drives in applications such as energy conservation and motion control in robotics and electric vehicles. Students are billed a materials fee. Prerequisite(s): courses 103 and 171. Concurrent enrollment in course 176 is required. S. PETERSEN, THE STAFF

177. Power Electronics. W

Switch-mode power converter design and analysis. Non-switching power supplies. Electronic power-factor correction. Soft switching. Power-semiconductor devices. Use in energy conservation, renewable energy, lighting, and power transmission. Prerequisite(s):

Electrical Engineering

course 103. Concurrent enrollment in course 177L is required. THE STAFF

177L. Power Electronics Laboratory (2 credits). W

Buck, boost, buck-boost, flyback, and forward converter design and control. Students are billed a materials fee. Prerequisite(s): course 103. Concurrent enrollment in course 177 is required. THE STAFF

178. Device Electronics. S

This course reviews the fundamental principles, device's materials, and design and introduces the operation of several semiconductor devices. Topics include the motion of charge carriers in solids, equilibrium statistics, the electronic structure of solids, doping, the pn junction, the junction transistor, the Schottky diode, the field-effect transistor, the light-emitting diode, and the photodiode. Prerequisite(s): courses 145/L and 171/L.

Enrollment restricted to School of Engineering and Division of Physical and Biological Sciences majors or permission of instructor. N. KOBAYASHI

180J. Advanced Renewable Energy Sources. S

Provides a comprehensive overview of renewable energy sources. Fundamental energy-conversion limits based on physics and existing material properties discussed. Various sources and devices, such as solar, wind, hydropower, geothermal, and fuel cells described. Solar- and wind-site assessment, as well as biofuel energy balance, also discussed. Key scientific and economic roadblocks for large-scale implementation examined. Finally, the latest research on application of nanotechnology to energy conversion and storage introduced. Taught in conjunction with course 80J. Prerequisite(s): Mathematics 3 or Applied Mathematics and Statistics 3, 5 or 7. Enrollment limited to 30. (General Education Code(s): PE-E.) THE STAFF

183. Special Topics in Electrical Engineering. *

Topics vary with instructor. Sample topics include smart grids, bioelectronics, antennas, etc. Enrollment by instructor permission. Approval of undergraduate adviser required for credit as an upper-division elective. May be repeated for credit. THE STAFF

193. Field Study. F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a faculty member of the electrical engineering program and a willing sponsor at the field site and using resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives by submitting a written and oral presentation. May not normally be repeated for credit. THE STAFF

193F. Field Study (2 credits). F,W,S

Provides for individual programs of study with specific academic objectives carried out under the direction of a faculty member of the electrical engineering program and a willing sponsor at the field site and using resources not normally available on campus. Credit is based on the presentation of evidence of achieving the objectives by submitting a written and oral presentation. May not normally be repeated for credit. THE STAFF

195. Senior Thesis Research. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. If using this course to replace the capstone design requirement (courses 129A,B,C), students must take course 129A, and take course 115 or 157 or Computer Engineering 118 to fulfill the ABET team design experience. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. S. PETERSEN

195F. Senior Thesis Research (2 credits). F,W,S

Prerequisite(s): petition on file with sponsoring agency. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198. Individual Study or Research. F,W,S

Provides for department-sponsored individual study program off campus, for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Provides for department-sponsored individual study program off campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Research and Teaching in Electrical Engineering (3 credits). *

Basic teaching techniques for TAs: responsibilities and rights, resource materials, computer security, leading discussion or lab sessions, presentations techniques, maintaining class records, electronic handling of homework, and grading. Examines research and professional training: use of library and online databases, technical typesetting, writing journal and conference papers, publishing, giving talks, and ethical issues. Enrollment restricted to graduate students. THE STAFF

204. Bio-electronics and Bio-instrumentations. S

Focuses on the analysis, design, and

Electrical Engineering

measurement of components and systems of biomedical devices which interface biological systems with electronics, mechanics, and optics. Topics include: abiotic/biotic interface; low-power analog/digital circuits and systems; signal integrity; energy harvesting; wireless techniques; regulatory/ethic compliance tailored for both invasive and non-invasive biomedical applications. Students cannot receive credit for this course and course 104. Enrollment restricted to graduate students. Enrollment limited to 20. M. ROLANDI

211. Introduction to Nanotechnology. *

Introduction to underlying principles of nanoscience and nanotechnology. Intended for multidisciplinary audience with a variety of backgrounds. Introduces scientific principles and laws relevant on the nanoscale. Discusses applications in engineering, physics, chemistry, and biology. Prerequisite(s): course 145 or consent of instructor. Enrollment limited to 35. H. SCHMIDT

212. Introduction to BioMEMS. *

Oriented to general engineering and science students. Topics included are: 1) microfabrication of silicon, glass, and polymer materials; 2) microfluidics and electrokinetics; 3) sensors, actuators, and drug-delivery systems; 4) micro total-analysis systems and lab-on-a-chip devices; 5) detection and measuring systems; 6) genomics, proteomics, DNA, and protein microarrays; 7) emerging applications in medicine, research, and homeland security; 8) packaging, power systems, data communication, and RF safety; and 9) biocompatibility and standards. Recommended for advanced undergraduates and graduate students in bioengineering, electrical engineering, chemistry, and health-related fields including biochemistry, molecular and cellular biology, physiology, and genetics. Enrollment restricted to graduate students, or by permission of the instructor. J. KUBBY

213. Nanocharacterization of Materials. *

Covers the many characterization techniques used to characterize materials from volumes less than one cubic micrometer, including the basic physics of each method, the methodology used to get quantitative results, and the advantages and limitations of each technique. Enrollment restricted to graduate students, or to undergraduates majoring in engineering or science by permission of instructor. THE STAFF

215. Micro-Electro-Mechanical Systems (MEMS) Design. *

Introduction to MEMS technology: covers basic microfabrication technologies, the governing physics for MEMS devices in different energy domains (mechanical, electrical, optical, thermal, and fluidic). Fabrication and design of MEMS devices illustrated using examples of existing research prototypes and commercial products. Students design, lay out, and fabricate an optical MEMS deformable mirror device for applications in adaptive optics. Students are billed a materials fee. Prerequisite(s): courses 135, 145, and 211; and Physics 5A, 5B, and 5C. Enrollment restricted to seniors and graduate students. May be repeated for credit. J. KUBBY

216. Nanomaterials and Nanometer-Scale Devices. F

Materials controlled at nanometer-scale will revolutionize existing technologies. Course offers opportunities of learning materials that exhibit peculiar physical characteristics at the nanometer scales. Course also includes discussions of unique device architecture based on materials crafted at the nanometer scale. N. KOBAYASHI

217. Engineering of Thin Film Deposition. S

Covers key processes to build a coherent picture of the deposition of thin films. Offers an opportunity to implement general computing resources in describing the

formation of thin films. The deposition of thin films plays a key role in technology due to their unprecedented physical properties. Their deposition depends on such factors as thermodynamics in the deposition environment and kinetics on the solid surfaces where atoms are assembled; therefore, understanding the fundamental processes involved is important. Students should have a background in solid-state materials that is equivalent to Electrical Engineering 145. Enrollment is restricted to graduate students. N. KOBAYASHI

218. Fundamentals of Nanoelectronics. *

Covers microscopic theory of electron transport in nanoelectronic devices and transistors. Topics include: ballistic transport; quantum conductance, NEGF-Landauer formalisms; molecular conductors; graphene and carbon nanotubes, quantum resonant tunneling devices; nanotransistors; and spintronics. Prerequisite(s): course 211 or 216. Enrollment restricted to graduate students. Students with background in basic matrix algebra and MATLAB programming may enroll with permission of instructor. A. YANIK

221. Advanced Analog Integrated Circuits. F

Analog integrated circuit design with emphasis on fundamentals of designing linear circuits using CMOS. Covers MOS devices and device modeling, current mirrors, op-amp design, op-amp compensation, comparators, multipliers, voltage references, sample-and-holds, noise, and an introduction to more complicated systems using these building blocks, such as phase locked loops and analog-to-digital converters. If time permits, integrated circuit layout issues and device/circuit fabrication. Students cannot receive credit for this course and course 172. Prerequisite(s): course 171 or equivalent; course 178 or equivalent recommended. Enrollment limited to 20. K. PEDROTTI

222. High-Speed Low-Power Integrated Circuit Design. S

Digital integrated circuit design covered with an emphasis on high-speed and low-power applications. Covers signaling techniques and circuits including transmitters and receivers, with emphasis on on-chip interconnect, timing fundamentals and timing circuits. Theoretical fundamentals of phase locked loops and design issues of implementation addressed. Course has a project design component. Interview to assess technical skills of student. Enrollment restricted to electrical engineering and computer engineering graduate students. Enrollment limited to 20. May be repeated for credit. S. KANG

223. Advanced Solid-State Devices. W

Solid-state devices advance rapidly by employing new materials, new architecture, and new functional principles. Class offers opportunities to learn the latest advancements in solid-state devices (e.g., electronic, optoelectronic, photonic devices, and smart sensors) viewed from various scientific, technological, and engineering aspects, such as energy conversion and computation. THE STAFF

224. Physical Design of Micro- and Opto-Electronic Packages. *

Micro- and opto-electronic packaging and materials; mechanical properties and behavior, thermal stress in dissimilar materials, and predictive modeling. Design for reliability, dynamic response to shocks and vibrations; reliability evaluations and testing; plastic packages of IC devices; photonic packages, fiber optics structures, and new frontiers. Enrollment restricted to graduate students. THE STAFF

225. Basics of Electronics Reliability. *

Basic concepts of reliability engineering taught in application to microelectronic and photonic materials, assemblies, and packages and systems. Emphasis on the physics and mechanics of failure

physical design for reliability predictive modeling and accelerated testing, with numerous practical examples and illustrations. Prerequisite(s): basic calculus; electronic and photonic devices and systems. Enrollment restricted to graduate students. THE STAFF

226. CMOS Radio Frequency Integrated Circuit Design. *

Covers narrowband and high-frequency techniques, noise, distortion, nonlinearities, low-noise amplifiers, power amplifiers, mixers, receivers, and transmitters for wireless communications. Topics are presented in the context of integrated designs in CMOS, but topics are fundamental and widely applicable. Prerequisite(s): course 172 or 221 or permission of instructor. K. PEDROTTI

227. Fundamentals of Semiconductor Physics. *

Semiconductor physics is examined for advanced new materials and devices. Discusses how familiar concepts are extended to new electronics. Intended for students interested in electrical engineering, physics, and materials science applications. Good familiarity with basic electromagnetism and quantum physics is assumed. Enrollment restricted to graduate students. THE STAFF

230. Optical Fiber Communication. F

Components and system design of optical fiber communication. Topics include step-index fibers, graded-index fibers, fiber modes, single-mode fibers, multimode fibers, dispersion, loss mechanics, fiber fabrication, light-emission processes in semiconductors, light-emitting diodes, laser diodes, modulation response, source-fiber coupling, photodetectors, receivers, receiver noise and sensitivity, system design, power budget and rise-time budget, fiber-optic networks (FDDI, SONET, etc.), wavelength division multiplexing (WDM). Students cannot receive credit for this course and course 130. Enrollment restricted to

graduate students. May be repeated for credit. A. YANIK

231. Optical Electronics. S

Introduction to phenomena, devices, and applications of optoelectronics. Main emphasis is on optical properties of semiconductors and semiconductor lasers. Prerequisite(s): course 145/L. May be repeated for credit. H. SCHMIDT

232. Quantum Electronics. W

Covers basic theory of interaction of electromagnetic radiation with resonant atomic transitions and density matrix treatment; and applications including Rabi oscillations, slow light; nonlinear optics; coherent radiation, and noise in photodetectors and lasers. Prerequisite(s): course 231 or equivalent. T. YAMADA, THE STAFF

233. Fiber Optics and Integrated Optics. *

Concepts and analysis of optical wave propagation in optical fibers and waveguides. Topics include geometrical optics description and electromagnetic theory of slab waveguides; modes, dispersion, and birefringence in optical fibers; mode coupling and gratings in fibers; wavelength-division multiplexing; nonlinear optics in fibers and solitons; semiconductor optical amplifiers and Er doped fiber amplifiers. Prerequisite(s): courses 135 and 145. THE STAFF

234. Liquid Crystal Displays. *

Introduction to principle of operation, components and systems of liquid crystal displays (LCDs). Topics include basic LCD components, properties of liquid crystals, polarization of optical waves, optical wave propagation in anisotropic media, Jones matrix method, various display systems, active matrix addressing, and color LCDs. Prerequisite(s): course 135 and 136. Enrollment restricted to seniors and graduate students. THE STAFF

235. Optical Information Storage and Processing. *

Introduction to applications of

Electrical Engineering

optical technologies in data storage and information processing. Topics include basic principles of Fourier optics; electro-optic, acousto-optic, and magneto-optic effects and devices; planar and volume holography; optical data storage systems; and optical information processing, interconnecting, and switching systems. Enrollment restricted to graduate students, or undergraduates having completed Physics 5B and 5C and course 103. THE STAFF

236. Integrated Biophotonics. *

Covers use of integrated optics for study of biological material; fluorescence spectroscopy, single molecule detection, optical tweezers, layered dielectric media, hollow-core waveguides, photonic crystals, optofluidics, biophotonic systems, and applications. Prerequisite(s): course 233 or equivalent. Enrollment restricted to graduate students. Enrollment limited to 20. H. SCHMIDT

241. Introduction to Feedback Control Systems. F

Graduate-level introduction to control of continuous linear systems using classical feedback techniques. Design of feedback controllers for command-following error, disturbance rejection, stability, and dynamic response specifications. Root locus and frequency response design techniques. Extensive use of Matlab for computer-aided controller design. Course has concurrent lectures with Electrical Engineering 154. (Also offered as Computer Engineering 241. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. D. MILUTINOVIC

250. Digital Signal Processing. S

In-depth study of signal processing techniques, including discrete-time signals and systems, the z-transform, sampling of continuous-time signals, transform analysis of linear time-invariant systems, structures for discrete-time systems, the discrete Fourier transform, computation of the discrete Fourier transform, filter

design techniques. Students cannot receive credit for this course and course 153. F. DOWLA

251. Principles of Digital Communications. W

A core course on digital communications theory. Provides an introduction to digital communication, including source coding, characterization of communication signals and systems, modulation and demodulation for the additive Gaussian channel, digital signaling, and over bandwidth constrained linear filter channels and over fading multipath channels. Prerequisite(s): course 151 and 153 (or Computer Engineering 153) and Computer Engineering 107. B. FRIEDLANDER

252. Wireless Communications. *

In-depth study of the physical layer of wireless communications. Wireless propagation channels and their impact on digital communications. Modulation techniques for wireless systems and their performance. Multi-antenna systems and diversity. Multicarrier and spread spectrum. Multi-access methods: FDMA, TDMA, CDMA. The structure of cellular systems. Students cannot receive credit for this course and course 152. Prerequisite(s): course 251. B. FRIEDLANDER

253. Introduction to Information Theory. F

An introduction to information theory including topics such as entropy, relative entropy, mutual information, asymptotic equipartition property, channel capacity, differential entropy, rate distortion theory, and universal source coding. (Also offered as Computer Science 250. Students cannot receive credit for both courses.) Prerequisite(s): Computer Engineering 107, or Applied Mathematics and Statistics 131 or equivalent course, or permission of instructor. H. SADJADPOUR

254. Multi-User Information Theory. *

Topics include basic information

theory, multiple-access channel, broadcast channel, interference channel, relay channel, capacity with feedback, capacity of networks, and channels with state and current research.

Prerequisite(s): course 253.

Enrollment restricted to graduate students. THE STAFF

255. Multiple-Antenna Wireless Communications. *

Basic theory of multiple-antenna wireless systems. Introduction to space-time propagation models, capacity of multiple-input multiple-output (MIMO) channels, space-time coding, transmitter CSI, and multiuser space-time systems. Includes discussion of multiple antennas in emerging systems and standards. Prerequisite(s): course 252 and Computer Engineering 107, or Applied Mathematics and Statistics 131, or equivalent. THE STAFF

256. Introduction to Radar Systems and SAR. *

Fundamentals of radar systems and radar-signaling processing, including SAR. Emphasizes real-world applications. MATLAB emphasizes algorithm development and performance analysis. Basic EM theory and a first course in signal processing are recommended. Enrollment limited to 20. THE STAFF

261. Error Control Coding. *

Covers the following topics: introduction to algebra; linear block code; cyclic codes; BCH code; RS codes; spectral domain study of codes; CRC; and product codes. H. SADJADPOUR

262. Statistical Signal Processing. F

Covers fundamental approaches to designing optimal estimators and detectors of deterministic and random parameters and processes in noise, and includes analysis of their performance. Binary hypothesis testing: the Neyman-Pearson Theorem. Receiver operating characteristics. Deterministic versus random signals. Detection with unknown parameters. Optimal estimation of

Electrical Engineering

the unknown parameters: least square, maximum likelihood, Bayesian estimation. Will review the fundamental mathematical and statistical techniques employed. Many applications of the techniques are presented throughout the course. Note: While a review of probability and statistics is provided, this is not a basic course on this material. (Formerly Statistical Signal Processing I.) Prerequisite(s): course 103 and Computer Engineering 107, or permission of instructor. B. FRIEDLANDER

263. Advanced Topics in Coding Theory. *

Covers convolutional codes and its principles, maximum likelihood decoding and Viterbi decoding, performance evaluation of convolutional codes, trellis coded modulation (TCM), rotationally invariant convolutional codes, turbo codes, turbo decoding principles, performance evaluation of turbo codes, interleaver design for turbo codes, topics on turbo codes, space-time codes, and LDPC. Prerequisite(s): course 261. Enrollment restricted to electrical engineering, computer engineering, and computer science graduate students. Enrollment limited to 10. H. SADJADPOUR

264. Image Processing and Reconstruction. *

Fundamental concepts in digital image processing and reconstruction. Continuous and discrete images; image acquisition, sampling. Linear transformations of images, convolution and superposition. Image enhancement and restoration, spatial and spectral filtering. Temporal image processing: change detection, image registration, motion estimation. Image reconstruction from incomplete data. Applications. Students that have completed Computer Engineering 261 may not take this course for credit. Prerequisite(s): course 153 or permission of instructor. THE STAFF

265. Introduction to Inverse Problems (3 credits). W

Fundamental approaches and techniques in solving inverse problems in engineering and applied sciences, particularly in imaging. Initial emphasis on fundamental mathematical, numerical, and statistical formulations and known solution methods. Sampling of applications presented from diverse set of areas (astronomical, medical and optical imaging, and geophysical exploration). Enrollment restricted to graduate students. P. GILL, THE STAFF

270. Neural Implant Engineering. W

Advanced studies of the basic neuroscience-engineering design requirements and technological issues associated with implantable neural prostheses, with particular emphasis on retinal and cortical function. Course is team-taught via remote web cast. A basic understanding of physics, circuit theory, and electronics is required. Enrollment restricted to graduate students; juniors and seniors may enroll by permission of instructor. THE STAFF

280B. Seminar on Integrated Bioelectronics (2 credits). *

Weekly seminar covering current research in integrated bioelectronics. May be repeated for credit. THE STAFF

280I. Seminar on Microscopy and Nanotechnology (1 credit). *

Weekly seminar series covering research topics and experimental research in microscopy and nanotechnology. Current research and literature are discussed. Students lead discussion and participate in all meetings. Enrollment restricted to graduate students. Enrollment by permission of instructor. Enrollment limited to 10. May be repeated for credit. THE STAFF

280M. Seminar on Micro-Electro-Mechanical Systems (MEMS) (2 credits). *

Weekly seminar series covering

topics of current research interest in Micro-Electro-Mechanical Systems (MEMS) design, fabrication and applications. Current research work and literature in these areas are discussed. Enrollment restricted to graduate students.

Undergraduates may enroll with permission of instructor. May be repeated for credit. J. KUBBY

280N. Seminar on Nanophotonics and Lab-on-Chip Systems (2 credits). F,W,S

Weekly series covering current research in nanophotonics and lab-on-chip systems including nanoplasmonic biosensors; nanospectroscopy (Raman and vibrational mid-infrared spectroscopy); nanofabrication; nanophotonics devices for energy conversion and thermoplasmonics; acoustic fluids; and microfluidic integration. Current research work and recent literature are discussed. Enrollment is by permission of the instructor and restricted to graduate students. Sophomores, juniors, and seniors may enroll by permission of instructor. May be repeated for credit. A. YANIK

280O. Seminar on Applied Optics (2 credits). F,W,S

Weekly seminar series covering topics of current research in applied optics, including integrated, quantum, nonlinear, and nano-optics. Current research work and literature in these areas are discussed. Enrollment by permission of instructor. May be repeated for credit. H. SCHMIDT

280Q. Seminar on Quantum Electronics and Nanoelectronics (2 credits). *

Weekly series covers current research in quantum electronics including electron and photon transport in nanostructures; nanoscale heat transport; optoelectronic integrated circuits; nanoscale devices for energy conversion; micro-refrigeration; thermal and acoustic imaging of nanostructures. Current research work and recent literature are discussed. Enrollment restricted to graduate students; undergraduates

Electrical Engineering

may enroll by permission of instructor. May be repeated for credit. THE STAFF

281. Guest Seminar Series (1 credit). *

Distinguished speakers from industry, universities, and government discuss current developments in electrical engineering and related fields. Emphasis on research questions that may lead to collaborative work with faculty and graduate students. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

283. Special Topics in Electrical Engineering (3 credits). *

Graduate seminar on a research topic in electrical engineering that varies with the particular instructor. Topics may include, but are not limited to, electromagnetics, antennas, electronics biotechnology, nanotechnology, signal processing, communications, VLSI, MEMS, and radio frequency. Enrollment restricted to graduate students and consent of instructor. Enrollment limited to 25. May be repeated for credit. F. DOWLA

288. Radar, Synthetic Aperture Radar, and ISAR. F

Introduces radar signal processing, synthetic aperture radar (SAR), and inverse SAR (ISAR). Focuses on the fundamentals and design principles of modern radar systems. Students use hands-on computer simulations to build a strong background in radar sensor systems that can be applied to a variety of problems,

such as medical imaging, ground-penetrating radar imaging for geophysical exploration, and the use of radar sensor systems for satellite-based SAR. Prerequisite(s): course 153. Enrollment is restricted to juniors, seniors, and graduate students. F. DOWLA

289. Adaptive Optics for Biological Imaging. W

Covers principles, methods and applications of adaptive optics in biological imaging. Focuses on the emerging application of adaptive optics in biological microscopy (wide-field, confocal, and multi-photon) for correction of wavefront aberrations caused by light propagation through biological samples. J. KUBBY

290. EE Graduate Seminar (1 credit). F,W,S

Research seminar at the graduate level regarding technical areas of electrical engineering activity that are of interest to the research and/or commercial communities. Enrollment restricted to computer engineering, electrical engineering, or physics graduate students, or by permission of instructor. Enrollment limited to 30. May be repeated for credit. THE STAFF

291. Tomorrow's Professor: Preparing for an Academic Career in Science and Engineering (3 credits). *

The aim of this course is two-fold: (1) inform, motivate, and prepare graduate students for a possible career in academia; (2) expose both undergraduate and graduate

students to the academic enterprise, possible career options for those who pursue advanced degrees in engineering and science. THE STAFF

293. Advanced Topics in Electrical Engineering. F,W,S

Graduate seminar course on a research topic in electrical engineering that varies with the particular instructor. Typical topics include, but are not limited to, electromagnetics, antennas, electronics biotechnology, nanotechnology, signal processing, communications, VLSI, and MEMS. Prerequisite(s): Consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 25. May be repeated for credit. THE STAFF, M. OYE, M. PARSA

296. Master Project. F,W,S

Master project conducted under faculty supervision. Petition on file with sponsor faculty. THE STAFF

297. Independent Study or Research. F,W,S

Independent study or research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Thesis research conducted under faculty supervision. Students submit petition to sponsoring agency. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

TECHNOLOGY MANAGEMENT

2017-18 General Catalog

Baskin School of Engineering
(831) 459-2158
<http://www.soe.ucsc.edu>

PROGRAM DESCRIPTION

Technology and Information Management (TIM) is a multi-disciplinary program that focuses on the integration of engineering, computer science, information technology, and business management for two purposes: the technology of management, which includes the design of information technology to solve business problems, and the management of technology, which includes the management of new-product development and entrepreneurship.

The program offers a bachelor of science (B.S.) degree as well as a minor. At the graduate level, it offers a professional masters of science in TIM and a Ph.D. in TIM.

TIM is a rigorous, challenging major for those students wanting to pursue careers in the management of information and technology. TIM students will receive a thorough grounding in the fundamental principles and practices of technology (in particular, computer science and computer engineering) and management, and the scientific, mathematics, and economics principles upon which they are built. In particular, they will become proficient in the following areas: strategy, planning, innovation, entrepreneurship, information technology, software design, product development, and supply-chain management.

The essence of the technology and information management major at UCSC is the integration of fundamental intellectual content from the disciplines of computer science, computer engineering, business management economics, and finance. TIM students learn how to apply the fundamentals of these diverse disciplines to solving problems that require the integration of management and technology, e.g., developing information technology systems to manage all activities and operations in a firm, e-commerce, managing and commercializing a new technology, and starting a new high-technology company.

To graduate with a B.S. in technology and information management, students normally complete 23 or 24 required courses (with four laboratories, totaling 120-125 quarter credits) plus three elective courses (15 quarter credits) for the technology and information management major program. To plan for completion of these course requirements within the normative time, students should consult with an adviser as early as possible. Honors students are likely to find the rigorous management and leadership elements of the new

program of significant interest. Industrial interactions and projects are key features of this major.

PROGRAM LEARNING OUTCOMES

Students graduating from the TIM program will acquire the following:

- 1) Students will learn how to apply knowledge of engineering, economics, and mathematics to analyze complex problems in the management of technology and information science.
- 2) Students will develop a broad, interdisciplinary knowledge of problems in the management of technology and information science, and skills to address them.
- 3) Students will develop depth of expertise in the management of technology and information science.
- 4) Students will be able to collaborate and communicate effectively with individuals who have diverse ideas, expertise, and skill levels within the fields of management of technology and information science.

TECHNOLOGY AND INFORMATION MANAGEMENT POLICIES

ADMISSIONS POLICY

To be admitted to the TIM major after a student has entered UCSC, students need to complete a total of six courses chosen from the following:

To be admitted to the major after a student has entered UCSC, students need to complete a total of six courses chosen from the following:

At least one course chosen from the following list of mathematics courses:

- MATH 19A or MATH 20A
- MATH 19B or MATH 20B
- MATH 22 or 23A
- CMPE 16

At least one course chosen from the following list of engineering courses:

- CMPS 12A/L, or CMPS 5J and CMPS 11, or CMPE 13/L

Technology Management

- CMPS 12B/M
- CMPE 12/L

At least one course chosen from the following list of economics and technology and information management courses:

- ECON 1
- ECON 2
- ECON 10A
- TIM 50

At least three additional courses must be chosen from the following:

- CMPS 12A/L (or CMPS 5J and CMPS 11) or CMPE 13/L
- CMPS 12B/M
- CMPE 12/L
- CMPE 16
- ECON 1
- ECON 2
- ECON 10A
- MATH 19A or 20A
- MATH 19B or 20B
- MATH 22 or 23A
- TIM 50

In addition, students who have passed six qualifying courses and who have received more than one grade of NP, C-, D+, D, D-, or F in the qualifying courses are not eligible to declare the major.

Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the department chair within 15 days from the date the notification was mailed. Within 15 days of receipt of the appeal, the department will notify the student, college, and Office of the Registrar of the decision.

LETTER GRADE POLICY

Please refer to the letter grade policy in the School of Engineering section.

TRANSFER STUDENTS

It is recommended that transfer students have six transferable courses completed from the list used above for on-campus students.

Admission of transfer students will be based on performance in all courses transferable to the Technology and Information Management major.

Students should consult assist.org to determine which courses at other institutions in California are transferable to UCSC.

SCHOOL OF ENGINEERING POLICIES

Please refer to the School of Engineering section of the catalog for additional policies that apply to all School of Engineering programs. These policies include admission to the major and the need for UCSC students to obtain pre-approval before taking courses elsewhere.

PREPARATION FOR THE MAJOR

The technology and information management major is intended for students with an interest in both technology and business. It is recommended that students intending to declare this major have completed four years of mathematics (through advanced algebra and trigonometry) and three years of science in high school. Completion of business-oriented computer literacy and basic programming courses is of benefit to students entering this major. Completion of any economics and/or business-related courses in high school is also beneficial, but the faculty realizes that these courses may not be available at many high schools. Completion of comparable college courses at other institutions serves to strengthen the preparation of a student for the technology and information management major.

REQUIREMENTS OF THE TECHNOLOGY AND INFORMATION MANAGEMENT MAJOR

In addition to completing UCSC general education requirements, students must complete 23 or 24 required courses and four laboratories (totaling 120-125 quarter credits) plus three elective courses (15 quarter credits) for the technology and information management major program. To plan for completion of these course requirements within the normative time, students should consult with a School of Engineering adviser as early as possible. These courses include the following:

Required Courses (23-24 courses plus four laboratories)

Applied Mathematics and Statistics (one 5-credit course)

Applied Mathematics and Statistics 5, Statistics

Mathematics (five 5-credit courses)

19A-B, Calculus for Science, Engineering, and Mathematics; or Mathematics 20A-20B, Honors Calculus

22, Introduction to Calculus of Several Variables; or 23A, Vector Calculus

Applied Mathematics and Statistics 10 and 20, Mathematical Methods for Engineers I and II;

or Mathematics 21, Linear Algebra and Mathematics 24, Ordinary Differential Equations

Technology Management

Economics (five 5-credit courses)

1 Introductory Microeconomics: Resource Allocation and Market Structure

2 Introductory Macroeconomics: Aggregate Economic Activity

10A, Economics of Accounting

100A, Intermediate Microeconomics; or

100M, Intermediate Microeconomics, Math Intensive

113, Introduction to Econometrics

Computer Engineering (three 5-credit courses and two 2-credit laboratories)

12/L, Computer Systems and Assembly Language/Laboratory

16, Applied Discrete Mathematics

150/L, Introduction to Computer Networks/Laboratory

Computer Science (three or four 5-credit courses and one or two 2-credit laboratories)

12A/L, Introduction to Programming (Accelerated)/Laboratory; or 5J, Introduction to Programming in Java and 11, Intermediate Programming; or CMPE 13/L, Computer Systems and C Programming/Laboratory

12B/M, Introduction to Data Structures/Laboratory

182, Introduction to Database Management Systems

Technology and Information Management (five 5-credit courses and one 2-credit seminar)

50, Business Information Systems

58, Systems Analysis and Design

101, Management of Technology Seminar

105, Management of Technology I

125, Management of Technology II

158, Business Strategy and Information Systems

Elective Courses (three courses)

- Two 5-credit School of Engineering courses

Students select two upper-division School of Engineering electives on the basis of their particular interests. These electives may be any 5-credit upper-division or graduate School of Engineering courses, with the following limitations:

- either Applied Mathematics and Statistics 131 or CMPE 107, but not both;
 - at most one independent or field-study course (193, 195, 198, 199) with prior approval from the department to be used as an elective.
- One 5-credit, upper-division economics course

- One 5-credit, upper-division School of Engineering or economics course (the limitations on School of Engineering electives given above apply)

TECHNOLOGY AND INFORMATION MANAGEMENT MAJOR PLANNERS

The following are two sample academic plans for students pursuing the Technology and Information Management major. Plan One is for first year students, and Plan Two is designed for transfer students.

Plan One

Year	Fall	Winter	Spring
	MATH 19A	MATH 19B	ECON 2
1st (frsh)	ECON 1	CMPS 5J	CMPS 11 AMS 5
2nd (soph)	TIM 50 CMPS 12B/M	ECON 10A MATH 22 or 23A	ECON 100A TIM 101
3rd (jr)	CMPE 12/L AMS 10	CMPE 150/L TIM 58	CMPS 182 AMS 20
	TIM 105	TIM 125	TIM 158
4th (sr)	ECON 113	SOE elective ECON elective	SOE elective

Plan Two: Transfer Students

Year	Fall	Winter	Spring
	TIM 50	TIM 58	TIM 101
3rd (jr)	ECON 100A	CMPE 150/L	CMPS 182 ECON 113
4th (sr)	TIM 105 SOE elective	TIM 125 ECON elective	TIM 158 SOE elective

*This plan assumes that transfer students have completed all of their lower-division courses for the Technology and Information Management major prior to attending UCSC.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in technology and information management is satisfied by completing course 158.

COMPREHENSIVE REQUIREMENT

Technology Management

Students complete two project-intensive courses, Technology and Information Management 158 and Technology and Information Management 105, which constitute the comprehensive requirement for the technology and information management major, based on the dual aspects (technology of management and management of technology) of the program. Course 158 deals with the technology of management, and course 105 deals with the management of technology. Both courses involve a substantial amount of critical thinking and writing within the context of comprehensive projects.

Technology and Information Management 158, Business Strategy and Information Systems, requires that students understand and use a structured methodology to evaluate the competitive use of information systems within an enterprise. This is accomplished by a team project as well as by an individual project that involves researching and writing a comprehensive analytical term paper using a methodology taught as part of this course.

Technology and Information Management 105, Management of Technology I, requires that students understand and apply structured methodologies for the development, management, and commercialization of technologies and products. Students will work in teams on a comprehensive term project in the development, commercialization, and management of technologies such as computers, networks, semiconductors, mechatronics, and biotechnology.

HONORS

The TIM program awards honors to students whose academic performance is excellent. Students with a GPA between 3.5 and 3.7 will be awarded honors. Students with a GPA of 3.7 receive highest honors. Students who have been found guilty of academic misconduct are not eligible for either honors or highest honors.

MINOR IN TECHNOLOGY AND INFORMATION MANAGEMENT (TIM)

PURPOSE

There is a growing need in today's increasingly complex socio-technological world for the fusion of information systems, technology, and business management for two important purposes: the use of information systems to solve business problems, and the management of technology, which includes new product development and enterprise management. The technology and information management (TIM) program therefore offers a minor in technology and information management (TIM) to provide undergraduates in the School of Engineering as well in other programs and divisions in the university, such as economics and business management economics, the physical and biological sciences, and arts, the opportunity to expand the breadth of their knowledge and training to include

the management of information systems and the management of technology.

RATIONALE FOR THE COURSES

Courses for the technology and information management minor will include a combination of courses from the TIM program, computer engineering, computer science, and economics as well as the chains of prerequisites behind these courses. The TIM program courses for the technology and information management minor will include a mix of information systems and management of technology courses, providing students with a strong foundation in both the management of information systems and the management of technology.

COURSE REQUIREMENTS

Requirements for the minor in technology and information management are the following:

Lower-Division Requirements

Mathematics (2 courses)

Mathematics 19A, Calculus (or Applied Mathematics and Statistics 11A/Economics 11A, Mathematical Methods for Economists, or Mathematics 11A, Calculus, or Mathematics 20A, Honors Calculus)

Mathematics 19B, Calculus (or Applied Mathematics and Statistics 11B/Economics 11B, Mathematical Methods for Economists, or Mathematics 11B, Calculus, or Mathematics 20B, Honors Calculus)

Computer Science (1 course)

Computer Science 5J, Introduction to Programming in Java; or Computer Science 5C, Introduction to Programming in C/C++

Technology and Information Management (2 courses)

Technology and Information Management 50, Business Information Systems; and one of the following courses:

- Technology and Information Management 58, Systems Analysis and Design; or
- Technology and Information Management 80C, Starting a New Technology Company

Upper-Division Requirements

Mathematics (1 course)

One of the following courses:

- Economics 113, Introduction to Econometrics; or
- Computer Engineering 107, Probability and Statistics for Engineers; or
- Applied Mathematics and Statistics 131, Introduction to Probability Theory

Technology Management

Upper-Division Electives (4 courses)

Four upper -division courses selected from the following:

- Technology and Information Management 105, Management of Technology I
- Technology and Information Management 125, Management of Technology II
- Technology and Information Management 158, Business Strategy and Information Systems
- Computer Engineering 150/L, Introduction to Computer Networks/Laboratory
- Computer Science 180, Database Systems I or Computer Science 182, Introduction to Database Management Systems
- Economics 100A, Intermediate Microeconomics or 100M, Intermediate Microeconomics, Mathematics Intensive
- Economics 100B, Intermediate Macroeconomics or 100N, Intermediate Macroeconomics, Mathematics Intensive

With pre-approval from the technology and information management undergraduate director, up to two graduate technology and information management courses may be used to satisfy upper-division elective requirements.

GRADUATE PROGRAMS

TECHNOLOGY AND INFORMATION MANAGEMENT PH.D. AND MASTER'S DEGREES

Technology and Information Management (TIM) is a new and distinct discipline within engineering, combining technology management, systems engineering, and information technology. TIM's research and academic programs, combining information technology with both knowledge management and systems management, address problems facing firms today as they deal with more complex decisions in a global environment, facing new business models (e.g., "services") and business practices. TIM places special emphasis on research arising from challenges faced in creation and management of knowledge-based services and enterprises. TIM themes include:

Management and optimization of enterprise systems, which is the integration of business, technology, and management perspectives to enable an entity to achieve enhanced growth and profitability through use of analytical methods including stochastic models, optimization, game theory and knowledge management.

New product, technology, and services management, which is the design and development of

products and services, the design and risk management of product portfolios, and pricing.

Financial engineering, which addresses the management of risk, reward, and allocation of resources in technology development and deployment.

Information retrieval and knowledge management, which includes semantic mining and machine learning, linking business to knowledge management.

TIM offers a master of science (M.S.) degree as a terminal degree for engineers who wish to prepare for careers in management in high-tech enterprises, providing the appropriate breadth and depth of courses for preparation of these engineering managers.

The TIM doctor of philosophy (Ph.D.) degree focuses on research, with emphasis on analytic methods for managing high-tech enterprises, including product, services, and business-process innovation and development; financial engineering for technology and enterprise management; entrepreneurship; operations and supply-chain management; costing and strategy; marketing engineering; data mining; and the applications of information technology to knowledge-management.

BASE REQUIREMENT

Most entering students are expected to come from undergraduate engineering programs. Students with quantitative undergraduate preparation in the sciences, economics, or mathematics would also be prepared if they had significant industry experience in a technology field or if they are prepared to take extra courses and/or an internship in industry to obtain this background. The TIM M.S. attracts students now employed in industry and also recent B.S. graduates who have not yet entered the workforce. For this latter group, industrial experience will be encouraged through internships with local companies. TIM M.S. students may take up to two upper-division, undergraduate, prerequisite courses and, with adviser approval, may count these as credit toward the M.S. degree. (These courses will not count as credit toward the Ph.D. degree.)

Mathematics

Probability and statistics (AMS 131)—Focus on probability models, random variables, maximum likelihood and Bayesian estimation

Linear algebra (AMS 10 or MATH 21)

Differential equations (AMS 10 or MATH 24)

Computer Science

Abstract Data Types (CMPS 101)—Focus on abstract data types and common algorithms
Programming project (e.g., CMPS 104A, CMPS 115, CMPS 111)—Any upper-division, computer science course that involves a large programming project

Database systems (CMPS 180, 181)

Technology Management

Computer Engineering

Probability and Statistics for Engineers (CMPE 107)

Computer networks (CMPE 150, 151)

Computer Architecture (CMPE 110)

Applied Graph Theory and Algorithms (CMPE 177)

Economics

Microeconomics (ECON 100A)

Macroeconomics (ECON 100 B)

Managerial Economics (ECON 101)—Includes pricing schemes, non-price competition, and game theory

Field Examinations and/or Other Pre-qualifying Examinations

The graduate record examination (GRE) General Test is required for admission and a GRE subject advanced test—preferably in computer science, engineering, physics, or mathematics—is highly recommended. Chemistry and biology students with adequate training in mathematics and physics may also be considered. Student GPA of 3.5 or higher is recommended for admission into the program.

RELATIONSHIP OF MASTER'S AND DOCTOR'S PROGRAMS

The M.S. and Ph.D. programs have the same admission requirements. As in other SOE graduate programs, students admitted to the M.S. program may be subsequently admitted to the Ph.D. program by departmental approval. Ph.D. students may receive the M.S. degree upon fulfillment of the M.S. degree requirements.

MASTER'S REQUIREMENTS

Masters students must complete a minimum of 45 credits, comprised of the following:

Core Courses (4 required)

- TIM 204, Introduction to Optimization in Business (5 credits)
- TIM 205, Management of Technology I (5 credits)
- TIM 215, Organizations and Leadership (5 credits)
- TIM 245, Data Mining (5 credits)

With appropriate preparation and/or student interest, proposals will be accepted to allow substitution of another graduate course for one of the core courses. This proposal will require approval of the faculty adviser and the TIM graduate director.

Seminars (2 required)

- Two TIM graduate seminars (5 credits total)

Other Courses (15 credits minimum)

- A minimum of fifteen credits (three courses) must be from graduate elective courses approved by the adviser and the TIM graduate director. The program offers a wide variety of electives.
- One upper-division undergraduate course can be substituted for one of the three required graduate courses with the approval of the adviser and TIM graduate director.
- When necessary to strengthen students' preparation for graduate study, up to two additional upper-division undergraduate courses may be required by agreement of the adviser and TIM graduate director.
- Students serving as teaching assistants or who plan to pursue a Ph.D. must take Applied Mathematics and Statistics 200, Research and Teaching in AMS (3 credits), or Computer Science 200, Research and Teaching in Computer Science and Engineering (3 credits) before or during their first teaching-assistant (TA) assignment.

TIM MASTER'S PROJECT

TIM 297. This is a substantial applied research project carried out independently by the student under the guidance of a faculty member. The topic and completed project must be approved by the faculty adviser (5 credits).

PH.D. REQUIREMENTS

The research areas in TIM are varied, and each will require a different sequence of classes to develop appropriate depth in analytical methods and technology. The selection of graduate courses will be in consultation with the dissertation supervisor.

Although there is no teaching requirement, students will be encouraged to gain teaching experience by becoming teaching assistants (TAs).

Where appropriate, research internships with companies, government laboratories, or elsewhere are recognized (and may be required) as an integral part of the research leading to the dissertation.

Ph.D. students must complete a minimum of 62 credits, comprised of the following:

Four TIM core courses (same as TIM-MS Core, except TIM 206 substitutes for TIM 204). Up to two of these courses may be substituted with other 5-credit courses with approval of the faculty advisor and reported to the graduate director (20 credits);

Two TIM seminars (4 credits minimum);

Two elective graduate courses (10 credits) offered by TIM;

Three additional graduate electives (15 credits) chosen with approval of the adviser and TIM graduate director.

Technology Management

Students may substitute other appropriate courses for the TIM core courses or electives with the approval of their adviser and TIM graduate director;

A minimum of 10 credits of dissertation research or independent study;

Applied Mathematics and Statistics 200, Research and Teaching in AMS (3 credits); or Computer Science 200, Research and Teaching in Computer Science and Engineering (3 credits)

PH.D. QUALIFYING EXAMINATION AND DISSERTATION

Each student writes a Ph.D. dissertation. The dissertation must show the results of in-depth research, be an original contribution of significant knowledge, and include material worthy of publication. As the first step, a student submits a written dissertation proposal to a TIM faculty member. By accepting the proposal, the faculty member becomes the dissertation supervisor. The dissertation proposal is formally presented in an oral qualifying examination given by a qualifying examination committee approved by the graduate committee and the graduate division. The student must submit his or her written dissertation proposal to all

members of the committee and the graduate assistant one month in advance of the examination.

Students are advanced to candidacy after they have completed the course requirements, passed the qualifying examination, cleared all incompletes from their records, have an appointed dissertation reading committee and have paid the advancement fee. Students who have not advanced to candidacy by the end of their fourth year will be placed on academic probation.

The appointment of the dissertation reading committee is made immediately after the qualifying examination and is necessary for advancing to candidacy. Each Ph.D. candidate submits the completed dissertation to a reading committee at least one month prior to the dissertation defense. The candidate presents his or her research results in a public seminar sponsored by the dissertation supervisor. The seminar is followed by a defense of the dissertation to the reading committee and attending faculty, who will then decide whether the dissertation is acceptable or requires revision. Successful completion of the dissertation fulfills the final academic requirement for the Ph.D. degree.

TECHNOLOGY MANAGEMENT FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Ramakrishna Akella

Data analytics: machine learning; informational retrieval (search); data; text; image and video mining; social networks and recommender systems; business analytics: business and management of technology; intelligent services and knowledge management, IT; product design; delivery and portfolios; financial engineering and management; process learning; supply chain management; automation

J.J. Garcia-Luna Aceves (joint with Computer Engineering)

Principles of computer communication, Internet, mobile and pervasive computing, wireless networks, information centric networks, network science

Daniel Friedman (joint with Economics)

Microeconomic theory, experimental/behavioral economics, evolution and learning, financial markets

Patrick Mantey (joint with Computer Engineering)

Multimedia systems, digital signal processing, sensor systems and networks, real-time monitoring and control, image systems, image processing, visualization, geographic information systems, decision support systems

John Musacchio

Control, analysis, and pricing of communications networks; applications of game theory in networking;

wireless ad-hoc networks; and management of technology

Yi Zhang

Large-scale search and recommendation systems, natural language processing and dialog systems, data mining and applied machine learning, artificial intelligence, computational economics

ASSOCIATE PROFESSOR

Yihsu Chen

Economics and policy in energy, water resources and transportation sectors

ASSISTANT PROFESSOR

David Lee

Crowdsourcing, collective intelligence, social networks, computational social choice, participatory democracy Lecturer

TEACHING PROFESSOR

Subhas Desa

Management of technology, new product development, supply-chain management, knowledge engineering, system dynamics and control

Technology Management

Luca De Alfaro (Computer Science)

Reputation systems, crowdsourcing, game theory; formal methods

Michael Isaacson, Emeritus (Electrical Engineering)

Robert A. Levinson, Emeritus (Computer Science)

Darrell Long (Computer Engineering)

Data storage systems, distributed computing, operating systems, performance evaluation, reliability, cyber security, data science, multimedia

Charles E. McDowell (Computer Science)

Programming languages, parallel computing, and computer science education

Alex Pang (Computer Science)

Uncertainty visualization, tensor visualization, scientific visualization, comparative visualization, collaboration software, virtual reality interfaces

Ira Pohl, Emeritus (Computer Science)

Nirvikar Singh (Economics)

Industrial organization, political economy, economic development, technology and innovation, South Asian immigrants in the U.S.

Linda Werner (Computer Science)

Software engineering, computer science education, children and computer game creation, testing, increasing diversity in computer science

Jim Whitehead (Computational Media)

Software engineering, software evolution, software bug prediction, level design in computer games, procedural content generation

TECHNOLOGY MANAGEMENT COURSES

LOWER-DIVISION COURSES

20. Innovations and Entrepreneurship Seminar (2 credits). F,W,S

Helps students convert their ideas into a viable business. Students must provide their own idea for a new product or company. Local entrepreneurs provide advice and mentoring to each student team. (General Education Code(s): PR-E.) J. SKARDON

21. Innovations and Entrepreneurship in Practice. *

The second of a two-part series in basic entrepreneurship, This course helps student entrepreneurs test and validate a marketing and customer business model for a new idea, and refine a working prototype or service.

Prerequisite(s): course 20 or course 105 or by consent of the instructor. (General Education Code(s): PR-E.) J. SKARDON

50. Business Information Systems. F,W,S

Addresses the use of information systems (IS) within a business enterprise. Subjects include computer hardware and software concepts, system design and implementation, telecommunications, data management, transaction-based

systems, management information systems, and the use of IS to compete. Intended for technology and information management and business management economics majors. R. AKELLA, Y. CHEN, J. MUSACCHIO

58. Systems Analysis and Design. W

Students learn how information technology is used to deal with business requirements and/or solve business problems. Provides an understanding of structured computer systems analysis and design methodologies and techniques and their application to business information systems. Intended for technology and information management and business management economics majors. Prerequisite(s): course 50. Enrollment limited to 40. Y. ZHANG

80C. Starting a New Technology Company. S

Focuses on the creation and management of technology start-ups and small companies, using case studies and team projects as the basis for learning and applying the course materials. D. LEE, S. DESA

94. Group Tutorial. F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition

to sponsoring agency. May be repeated for credit. THE STAFF

94F. Group Tutorial (2 credits). F,W,S

A means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

101. Management of Technology Seminar (2 credits). F,W,S

Uses weekly talks by leading industry practitioners and university researchers to provide in-depth exposure to the management of technology. Topics covered include product development, operations, strategy, finance, and marketing for technologies such as software and information systems. May be repeated for credit. S. DESA

105. Introduction to Management of Technology I. F

Technology Management

An in-depth examination of technological, strategic, marketing, and financial methods and analytical tools for the management of technology to enable cost-effective and rapid development of profitable and high quality technologies. Includes case studies and a comprehensive project. (Formerly Management of Technology I.) Prerequisite(s): Mathematics 19B or 11B or Applied Mathematics and Statistics 11B or Economics 11B. S. DESA

115. Entrepreneurial Organization and Leadership. *

Provides a framework for analysis and practical insights into the issues associated with managing people, including motivation, team creation, and management and managing performance. Entrepreneurial leadership roles are emphasized. Enrollment restricted to juniors, seniors, and graduate students. Enrollment limited to 50. (General Education Code(s): PE-H.) D. LEE

125. Introduction to Management of Technology II. W

High-technology enterprises must understand and operate effectively within their technology-business value chains in order to maximize profitability. This course develops and applies methods and tools for the design, optimization, selection, and management of these value chain networks. (Formerly Management of Technology II.) Prerequisite(s): course 105. S. DESA

130. Financial Engineering and Management in High Technology Firms. S

Addresses methods and tools for financing technology development and projects. Includes approaches for coordinating finance and accounting with strategy and operations of firms; discounted cash-flow analysis; activity-based costing; financial planning; and elements of financial account and investment science. Prerequisite(s): Economics 113 or Applied Mathematics and Statistics 131 or Computer Engineering 107 or by instructor permission. Enrollment limited to 20. R. AKELLA

155. Water and Energy Management. *

Introduces water and energy management challenges, data sources, and analytical techniques. Topics include energy and water production and consumption; energy-water nexus; utilizing renewable resources; system sustainability; cost and cost allocation; risk; and system reliability. (Formerly Data Analytics for Water and Energy Management.) Prerequisite(s): a college-level calculus course. Enrollment restricted to juniors and seniors. (General Education Code(s): PE-E.) B. HADDAD

158. Business Strategy and Information Systems. S

Analysis of effective use of information systems within a business enterprise, with emphasis on gaining a competitive advantage. Integration of information systems with business strategy, financial justification, personnel, and organizational considerations are highlighted. Intended for technology and information management majors or senior engineering majors who have a business interest. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 50 or permission of instructor. THE STAFF

165. Decision Analysis in Management. F

Presents decision tools/theory with a focus on investment, finance, management, technology, and policy. Often, irreversible decisions are made without enough information to analyze the possible consequences. Course uses systematic approaches to analyze these types of situations to enable rational decisions. Prerequisite(s): Mathematics 22, Economics 113, and Economics 100A or 100M. Enrollment restricted to juniors and seniors. Y. CHEN

166A. Game Theory and Applications I. F

Introduces modern game theory, including applications in social science, biology, and engineering.

Topics include extensive form, strategic form, mixed strategies, incomplete information, repeated games, evolutionary games, and simulation techniques. (Also offered as Computer Science 166A. Students cannot receive credit for both courses.) Prerequisite(s): Applied Math and Statistics 5 or 7 or Economics 113; and Economics 11B, Applied Math and Statistics 11B, or Mathematics 11B or 19B. Enrollment restricted to juniors and seniors. Enrollment limited to 100. J. MUSACCHIO

193. Field Study. F,W,S

Provides individual programs of study with specific academic objectives carried out under direction of faculty member of Information Systems Management and a willing sponsor at field site. Uses resources not normally available on campus. Credit based on presentation of evidence of achieving objectives by submitting written and oral presentation. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

193F. Field Study (2 credits). F,W,S

Provides individual programs of study with specific academic objectives carried out under direction of faculty member of Information Systems Management and a willing sponsor at field site. Uses resources not normally available on campus. Credit based on presentation of evidence of achieving objectives by submitting written and oral presentation. Cannot normally be repeated for credit. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty member.

Technology Management

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195. Senior Thesis Research. F,W,S

Intended for majors. Students submit petition to sponsoring agency. THE STAFF

195F. Senior Thesis Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. THE STAFF

198. Individual Study or Research. F,W,S

Intended for majors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Individual Study or Research (2 credits). F,W,S

Intended for majors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. Enrollment restricted to senior information systems management majors. May be repeated for credit. THE STAFF

GRADUATE COURSES

204. Introduction to Optimization in Business. *

Covers optimization with emphasis on problems arising in management. Students become proficient at mathematical modeling of business decisions and familiar with a range of techniques and tools used to solve optimization problems. Enrollment restricted to graduate students. THE STAFF

205. Management of Technology I. F

Addresses technological, strategic, marketing, financial methods, and analytical tools for management of technology in an integrated manner that enables the cost-effective and rapid development of profitable and high quality technologies. Includes case studies and a comprehensive project. Enrollment restricted to

juniors, seniors, and graduate students. S. DESA

206. Optimization Theory and Applications. W

A first graduate course in optimization with an emphasis on problems arising in management and engineering applications. Objectives are to become experts in problem formulation, comfortable with software for solving these problems, and familiar with analytical methods behind these solver technologies. Prerequisite(s): calculus and linear algebra. Enrollment restricted to graduate students. Y. CHEN, J. MUSACCHIO

207. Random Process Models in Engineering. *

A first graduate course in stochastic process modeling and analysis with an emphasis on applications in technology management, information systems design, and engineering. Enrollment restricted to graduate students. Prerequisite: Computer Engineering 107 or other undergraduate probability course recommended. J. MUSACCHIO

209. Data Mining and Business Analytics in Knowledge Services. *

Provides students with systematic methodology and analytical tools in data and text mining and business analytics. Also provides an integrated perspective and examines use of these methods in the field of knowledge services, such as online marketing, sponsored search, health care, financial services, recommender systems, etc. Includes training in the basic elements of stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming, statistics, constrained optimization, and machine learning with exposure to software tools. These methods enable firms to achieve rapid, effective, and profitable optimization of knowledge-services management. Enrollment restricted to graduate students. Students are expected to have undergraduate preparation in probability and statistics. Undergraduates may

enroll with instructor approval. R. AKELLA

210. Marketing Analytics and Engineering. *

Provides students with a systematic methodology and the corresponding set of methods and analytical tools to address the analytic approaches to marketing in a real-world context. Trains students in the basic elements of statistics decision trees, stochastic optimization, and other algorithmic approaches. Students should have a solid background in the following: probability equivalent to statistics, stochastic methods, calculus, linear algebra, stochastic processes and optimization, and/or mathematical maturity. Recommended courses: course 207, course 250, Applied Mathematics and Statistics 203, Applied Mathematics and Statistics 205, Computer Engineering 230. Enrollment restricted to graduate students. Enrollment by permission of instructor. THE STAFF

211. E-Business Technology and Strategy. *

Surveys structure of modern information technology, the relation of that structure to structure of the industry that creates it, and the economic forces that drive the players in the industry. Building on these technological and economic concepts, studies how firms can craft a technology and business strategy to create and capture value in the information technology product and/or services sectors. Enrollment restricted to graduate students. J. MUSACCHIO

215. Organizations and Leadership. *

Addresses organizational and managerial aspects of high-tech enterprises, providing an understanding of various corporate functions. Considers issues of human resources: motivation and rewards, group dynamics, communication, ethics, and leadership. Includes perspectives from behavioral theories and corporate practice/culture. Enrollment restricted to graduate students. THE STAFF

Technology Management

225. Management of Technology II. W

High technology enterprises must understand and operate effectively within their technology-business value chains in order to maximize profitability. Course develops and applies methods and tools for the design, optimization, selection, and management of these value chain networks. Prerequisite(s): course 205 or consent of instructor. Enrollment restricted to juniors, seniors, and graduate students. S. DESA

230. Financial Engineering and Management in High Technology Firms. *

Course provides students with a systematic methodology, and the corresponding set of methods and analytical tools, to address the field of financial engineering and its use in high-tech enterprises in an integrated manner. Covers basic concepts of stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming; decision models and analysis; and binomial trees; and their application in financial engineering in the context of high-tech enterprises. Prerequisite(s): Computer Engineering 107 or Economics 113 or Applied Mathematics and Statistics 131, or instructor approval. Enrollment restricted to graduate students. R. AKELLA

240. Information Technology for Decision Support: An Introduction. *

Introduction to the information technologies useful to IT management. Reviews/surveys four major topics: 1) information systems: from computer technology—systems architecture (hardware and software), multiprocessors and cluster—to client-server, networking and distributed computing, data storage and data servers, file management, database systems, input/output technology, graphics and multimedia; 2) IT as a "service": commercial and open-source tools for information-system development and knowledge management; 3) managing,

searching, and mining of structured and unstructured data; 4) decision-support systems that integrate knowledge with data mining and text mining tools to support decision-making in product development, supply-chain management, marketing, sales and logistics. Enrollment restricted to graduate students. THE STAFF

245. Data Mining. F

Covers the principles, algorithms, and applications of data mining, including mining sequential data, structured data, stream data, text data, spatiotemporal data, biomedical data, and other forms of complex data. Enrollment restricted to graduate students. Y. ZHANG, (F) THE STAFF

250. Stochastic Optimization in Business Intelligence: Digital Advertising and Online Marketing. *

Trains students in stochastic optimization and other algorithmic approaches, such as stochastic dynamic programming, to achieve business intelligence (BI) optimization. Special emphasis on digital advertising, and online and computational marketing. Students should have solid background in: probability equivalent to statistics, stochastic methods, calculus, linear algebra, mathematical maturity, stochastic processes, and optimization. First of a sequence of courses in information systems and technology management (ISTM). Provides students with systematic methodology and corresponding set of methods and analytical tools to address the field of ISTM in an integrated manner. Enrollment restricted to graduate students; undergraduates who have completed Computer Engineering (CMPE) 107 or Applied Mathematics & Statistics (AMS) 131 may enroll by permission of instructor. AMS 205A, CMPE 230 recommended. THE STAFF

251. Large-Scale Web Analytics and Machine Learning. *

Provides a systematic methodology and corresponding set of methods and analytical tools in stochastic models; reinforcement learning;

stochastic (neuro-)dynamic programming; Bayesian graphical models; inference; and social networks used for web analytics and machine learning to achieve business intelligence (BI) and support research and applications in computer science, computer engineering, and electrical engineering, applied mathematics and statistics, business, management, and economics. Includes exposure to Hadoop for large-scale computation. Students should have solid background in probability equivalent to statistics, stochastic methods, calculus, (and preferably) stochastic processes and optimization, or mathematical maturity and exposure to business intelligence and algorithms. Prerequisite(s): Computer Engineering 107 or Applied Mathematics and Statistics 131 or permission of instructor. Enrollment restricted to graduate students. Course 230, 250, and Applied Mathematics and Statistics 205A or 205B recommended. THE STAFF

260. Information Retrieval. *

Course covers major topics of information retrieval, including statistical characteristics of text, several important retrieval models, text clustering, text classification, text filtering, web analysis, information extraction, peer to peer research, distributed search, personalized search, and other related topics. Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. Y. ZHANG

270. Service Engineering and Management. *

Introduction to service engineering and management, from the role of services in the global economy to analytical models in service operations management. This field is developing rapidly; the material covers the fundamental principles of services as well as recent research. Topics include designing efficient service networks, forecasting, resource allocation, and globalization. Enrollment restricted to graduate students. THE STAFF

Technology Management

275. Technology Management in Network Industries. S

Introduces analytical tools (optimization and simulation) for modeling firms' technology choices and market behavior for an industry with a network structure. Examples of industries with a network include electric power, airline, natural gas, water supply systems, and transportation sectors. These models are useful for planning investments in infrastructure, such as network expansion (transmission lines), supply capacity (power plants, storage), and demand-side management, and for analysis of public policies. Students are encouraged to apply those tools to analyze other sectors in a class project. Enrollment is restricted to graduate students. Enrollment limited to 20. Y. CHEN

280A. Graduate Research Seminar (2 credits). W

Weekly seminar series in topics of current research in information systems and technology management. Enrollment by permission of instructor. Enrollment limited to 30. May be repeated for credit. Y. CHEN, B. HADDAD

280I. Seminar on Information Retrieval and Knowledge Management (2 credits). F,S

Seminar series discussing advanced topics in information retrieval and knowledge management. Current research and literature are presented during each meeting. Enrollment restricted to graduate

students. Enrollment limited to 20. May be repeated for credit. THE STAFF

280M. Sales and Marketing for Technologists and Engineers (2 credits). *

Perspective on the theory, plus examples, and tools useful to technologists and engineers for successfully guiding and supporting sales and marketing endeavors and, thereby, ensuring funding, staffing, product appeal, positive customer relationships, and marketplace success. THE STAFF

280S. Seminar Topics (2 credits). F

Weekly seminar series of current research on a special topic in information systems and technology management. The theme of research presented throughout the course selected by the instructor. Topics may include, but are not limited to, knowledge planning, new product development and management of technology. Enrollment with permission of instructor. Enrollment limited to 30. May be repeated for credit. THE STAFF, Y. CHEN, R. AKELLA

283. Special Topics in Technology and Information Management (3 credits). *

Graduate seminar on topics in technology and information management that varies with the particular instructor. Topics may include, but are not limited to: data analytics, information retrieval, recommender systems, technology management, and the economics of

information and technology. Enrollment restricted to graduate students. B. HADDAD

293. Advanced Topics in Technology and Information Management (TIM). *

Advanced research topics in TIM (as determined by instructor). Topics include, but are not limited to, approaches and solutions to complex business problems, and development of information-based technology and services. Enrollment restricted to graduate students. Enrollment limited to 25. May be repeated for credit. THE STAFF

296. Master Project. F,W,S

Master project conducted under faculty supervision. Petition on file with sponsor faculty. Enrollment is restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent study under faculty supervision. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Thesis research under faculty supervision. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

ENVIRONMENTAL STUDIES

2017-18 General Catalog

405 Interdisciplinary Sciences Building

(831) 459-2634

<http://envs.ucsc.edu>

PROGRAM DESCRIPTION

The environmental studies major prepares students for meaningful lifetime engagement with the environmental challenges that are facing society. UCSC environmental studies graduates hold leadership positions as legislative and policy analysts, environmental lawyers, environmental managers, city and state planners, educators, restoration ecologists, organic farmers and agroecological specialists, conservation biologists, environmental engineers, museum curators, business consultants, and political advocates. In addition, many graduates go on to obtain professional, master's, or doctoral degrees at the nation's finest institutions.

Students pursue an interdisciplinary curriculum that combines coursework in the natural and social sciences. Introductory courses cover the ecological, political, and economic aspects of historic, current and future environmental issues. The core course, Environmental Studies 100/L, Ecology and Society builds on the skills acquired in the lower-division classes, and encourages students to apply ecological, economical and political skills toward environmental and ecosystem management. The remaining upper-division elective courses further emphasize the integration of ecological knowledge with an understanding of social institutions and policies. The program emphasizes active, interdisciplinary learning with the overall objective of instilling the necessary skills to conserve biodiversity and integrate the principles of sustainability with respect to management of complex environmental systems. Faculty work on these issues at local, regional, and global levels, providing a unique, proactive, and progressive academic environment for students wishing to pursue a degree program within the Environmental Studies Department.

In addition to the single environmental studies major, students may choose to pursue one of three combined majors with biology, Earth sciences, or economics. The combined major curricula offer the unique integration of the underlying concepts of environmental studies with a focus on the application of these concepts in a closely related field (or vice versa).

As a complement to classroom instruction and research, many courses have field components. The Environmental Studies Internship Program helps qualified students find placements with government and educational agencies, community organizations,

and private firms. Furthermore, faculty-directed, independent, or field-oriented research courses allow environmental studies students the opportunity to learn more about their specific academic career or personal interests, often while earning academic credit.

PROGRAM LEARNING OUTCOMES

Students graduating with a B.A. degree in environmental studies will:

- Identify the societal (social, political, economic and ethical) agents and structures that contribute to environmental change. (social science competency)
- Describe the structure and functioning of major physical and ecological components of the earth's systems. (natural science competency)
- Access and analyze a complex literature addressing specific topics in environmental studies, and evaluate the usefulness and limitations of individual sources of information. (analytic thinking)
- Demonstrate effective oral and written communication skills. (communication skills).

DECLARATION OF THE MAJOR

Students wishing to declare within the Environmental Studies Department should visit the [environmental studies website](#) and follow the steps listed there. Study plans may be downloaded from the [environmental studies website](#).

MAJOR QUALIFICATION POLICY

A. ENVIRONMENTAL STUDIES MAJOR

Students may petition to declare the Environmental Studies major once they have completed the following required courses: Environmental Studies 23 (or Chemistry and Biochemistry 1A); Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Applied Mathematics and Statistics 7/L (or Ocean Sciences 90). Students receiving an NP, C-, D+, D, D-, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent

Environmental Studies

course with a grade of C or better. Students who receive two grades of NP, C-, D+, D, D-, or F in the required courses are not eligible to declare the major.

B. ENVIRONMENTAL STUDIES/BIOLOGY COMBINED MAJOR

Students may petition to declare the Environmental Studies/Biology combined major once they have completed the following courses: Environmental Studies 25; Ecology and Evolutionary Biology 20C; Molecular, Cell, and Developmental Biology 20A Chemistry and Biochemistry 1A; Applied Mathematics and Statistics 7/L. Students receiving an NP, C-, D+, D, D-, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, C-, D+, D, D-, or F in the required courses are not eligible to declare the major.

C. ENVIRONMENTAL STUDIES/EARTH SCIENCES COMBINED MAJOR

Students may petition to declare the Environmental Studies/Earth Sciences combined major once they have completed the following courses: Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Chemistry and Biochemistry 1A; Applied Mathematics and Statistics 7/L, or Ocean Sciences 90. Students receiving an NP, C-, D+, D, D-, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, C-, D+, D, D-, or F in the required courses are not eligible to declare the major.

D. ENVIRONMENTAL STUDIES/ECONOMICS COMBINED MAJOR

Students may petition to declare the environmental studies/economics combined major once they have completed the following courses: Environmental Studies 23(or Chemistry and Biochemistry 1A); Environmental Studies 24 (or Biology: Ecology and Evolutionary Biology 20C); Environmental Studies 25; Economics 1; Economics 11A; and either Applied Mathematics and Statistics 5 or 7/L. Students receiving an NP, C-, D+, D, D-, or F in one of the courses required for admission to the major may only declare once they have passed the same or equivalent course with a grade of C or better. Students who receive two grades of NP, C-, D+, D, D-, or F in the required courses are not eligible to declare the major.

APPEAL PROCEDURE

Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the department's curriculum chair along with an unofficial transcript of all college courses within 15 days from the date the notification was mailed. Within 15 business days of receipt of the appeal, the department will notify the student, college of the decision.

REQUIREMENTS FOR THE ENVIRONMENTAL STUDIES MAJOR

PREREQUISITES FOR THE SINGLE MAJOR

Continuing UCSC students are required to complete all six prerequisite courses before taking Environmental Studies 100/L. Five of the prerequisite courses are preset and are listed below. See the course descriptions for more specific information.

Environmental Studies 23, The Physical and Chemical Environment (offered in spring and summer quarters)

Environmental Studies 24, General Ecology (offered in fall and summer quarters). *

Environmental Studies 25, Environmental Policy and Economics. Offered in winter and summer quarters.

Applied Mathematics and Statistics 2, Prestatistics, or Applied Mathematics and Statistics 6, Precalculus for Statistics; or Applied Mathematics and Statistics 3, Precalculus for Science and Engineering; or Mathematics 3, Precalculus (or math placement (MP) of 300 or higher, or AP Calculus AB exam score of 3 or higher). Check the catalog for the quarters offered.

Applied Mathematics and Statistics 7/L, Statistical Methods for the Biological and Environmental Studies; or Ocean Sciences 90, Fundamentals of Climate. A score of 4 or higher on the College Board AP Statistics examination waives this requirement. Check the catalog for the quarters offered. *

*Prerequisite for Environmental Studies 24 and Applied Mathematics and Statistics 7/L is Applied Mathematics and Statistics 2 or 3 or 6, or Mathematics 3.

In addition, students choose one introductory course in sociology, cultural anthropology, or ethics. The acceptable courses are as follows:

Anthropology 2, Introduction to Cultural Anthropology

Sociology 1, Introduction to Sociology

Sociology 10, Issues and Problems in American Society

Sociology 15, World Society

Environmental Studies

Philosophy 22, Introduction to Ethical Theory

Philosophy 24, Introduction to Ethics: Contemporary Moral Issues

Philosophy 28, Environmental Ethics

Philosophy 80G, Bioethics in the 21st Century: Science, Business, and Society

The following are two recommend academic plans for pursuing the environmental studies single major. Plan One is for students who place into Mathematics 3, Precalculus, and Plan Two is for students who place out of Mathematics3, Precalculus.

Plan One for students placing into Mathematics 3

Year	Fall	Winter	Spring
1st (frsh)	MATH 3 or AMS 2 or 6 or 3	AMS 7/L or SOC/ANTH/Ethics ENVS 25	ENVS 23
2nd (soph)*	ENVS 24 AMS 7/L or SOC/ANTH/Ethics	ENVS 100/L or spring	ENVS 100/L
3rd (jr)			

Plan Two for students placing out of Mathematics 3

Year	Fall	Winter	Spring
1st (frsh)		ENVS 25 AMS 7/L or SOC/ANTH/Ethics	ENVS 23 AMS 7/L or SOC/ANTH/Ethics
2nd (soph)	ENVS 24	ENVS 100/L or spring	ENVS 100/L

TRANSFER STUDENTS

Transfer students pursuing environmental studies majors are encouraged to transfer in the fall quarter.

To be considered for admission to UCSC as one of the environmental studies majors, transfer students must pass equivalents of the following courses with a C (2.0) or better in these qualification courses:

Environmental studies:

- Environmental Studies 23 **or** introductory chemistry course
- Environmental Studies 24 **or** Biology: Ecology and Evolutionary Biology 20C
- Environmental Studies 25 **or** Economics 1 or 2 and a course in national or international politics
- Mathematics 3 (or AMS 3)

Environmental studies/biology combined:

- Biology: Molecular, Cell, and Developmental Biology 20A
- Biology: Ecology and Environmental Biology 20C
- Chemistry and Biochemistry 1A +1B/M + 1C/N
- Mathematics 3 (or AMS 3)
- Environmental Studies 25 **or** Economics 1 or 2 and a course in national or international politics

Environmental studies/Earth sciences combined:

- Environmental Studies 24 **or** Biology: Ecology and Environmental Biology 20C
- Chemistry and Biochemistry 1A +1B/M + 1C/N
- Mathematics 3 (or AMS 3)
- Environmental Studies 25 **or** Economics 1 or 2 and a course in national or international politics

Environmental studies/economics combined:

- Environmental Studies 24 **or** Biology: Ecology and Environmental Biology 20C
- Environmental Studies 23 **or** introductory chemistry course
- Economics 1
- a course in national or international politics
- Economics 11A **or** Mathematics 11A **or** Mathematics 19A
- Mathematics 3 (or AMS 3)
- Applied Mathematics and Statistics 5

It is recommended that transfer students plan to enroll in Applied Mathematics and Statistics 7/L or Economics 113 during the summer or fall quarter in order to take Environmental Studies 100/L in winter or spring quarter. Transfers can formally declare their major once qualification courses are successfully completed (see [Major Qualification Policy](#)).

Environmental Studies 23, 24, and 25 are offered during Summer Session at UCSC, and transfer students are encouraged to take them. If you are transferring, compare catalog descriptions, consult your current institution's adviser, and refer to the [ASSIST website](#) to determine equivalency.

Prospective transfer students should review [the transfer information](#).

UPPER-DIVISION REQUIREMENTS

In addition to lower-division coursework, students are required to complete nine upper-division courses:

Environmental Studies

Environmental Studies 100/L, Ecology and Society (environmental studies core course, offered twice yearly during the winter and spring quarters).

Seven upper-division electives (environmental studies courses numbered 101-179). One must be based in the social sciences and one course must be based in the natural sciences. List of these courses is available from the Environmental Studies Department.

See the [senior comprehensive requirement](#) below.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. A primary goal of the environmental studies major is to train students who are able to critically analyze interdisciplinary environmental problems, justify their position on an issue, and communicate that position to a range of audiences verbally and in writing. The DC Requirement in environmental studies is satisfied by completing Environmental Studies 100/L and one of the following courses: 109B, 183B, 190, 195B, or 196. **Note:** 183B and 195B are usually taken after successfully completing 183A and 195A respectively.

COMPREHENSIVE REQUIREMENT

The senior comprehensive may be satisfied by completing one of the options listed below. All courses used to satisfy the senior comprehensive requirement must be taken for a letter grade.

Before enrolling in the senior thesis or senior internship option, students must formally apply to work with a particular faculty mentor very early in their thesis or project preparation. These courses require careful planning, additional independent research, and at least a two-quarter commitment.

Environmental Studies 109B, Ecology and Conservation in Practice Supercourse: Ecological Field Methods Laboratory

Environmental Studies 183A and 183B, Senior Internship

Environmental Studies 190, Capstone Course: Environmental Problem Solving (offered spring quarter only)

Environmental Studies 195A and 195B, Senior Thesis

Environmental Studies 196 (one course from the series), Senior Seminar

Students with advanced skills in one of the graduate focal areas may also take a graduate seminar by invitation from the instructor.

REQUIREMENTS FOR THE COMBINED MAJORS

ENVIRONMENTAL STUDIES/BIOLOGY

This course of study provides students with the basic tools of biological science and sufficient understanding of resource conservation, conservation biology, and concerns about environmental sustainability to apply these tools to environmental problems.

LOWER-DIVISION REQUIREMENTS

All courses must be taken for a letter grade.

Biology and mathematics courses may require placement examinations. See course descriptions for prerequisite information.

Ecology and Evolutionary Biology 20A, 20B, and 20C

Environmental Studies 25

Anthropology 2; or Philosophy 21, 22, 24, 28, or 80G; or Sociology 1, 10 or 15

Applied Mathematics and Statistics 3, Precalculus; or Applied Mathematics and Statistics 2, Prestatistics; or Applied Mathematics and Statistics 6, Precalculus for Statistics; or Mathematics 3 (or a score on the math placement (MP) of 300 or higher; or the AP Calculus AB examination score of 3 or higher

Applied Mathematics and Statistics 7 and 7L (or a score of 4 or higher on the AP Statistics examination)

Chemistry and Biochemistry 1A, 1B, and 1C/N

One course in physics, Physics 1, or Physics 6A/L, or Physics 7A/L

UPPER-DIVISION REQUIREMENTS

Students are required to complete nine upper-division courses and the senior [comprehensive requirement](#) listed below.

Environmental Studies 100/L (prerequisites are: Chemistry 1A; Ecology and Evolutionary Biology 20C; Environmental Studies 25; Applied Mathematics and Statistics 2 or 3 or 6, or Mathematics 3; Applied Mathematics and Statistics 7/L; and the cultural anthropology/sociology/philosophy option)

Biology 105, Genetics

Biology 109, Evolution

Six upper-division courses, three in biology and three in environmental studies. One of the six must be a laboratory course, and one of the three environmental studies courses must be based in the social sciences. Students wishing to pursue an advanced degree in the pure or applied sciences are strongly encouraged to complete the organic chemistry series as well.

Environmental Studies

These upper-division elective courses should be selected in pursuit of a coherent plan of study, chosen in consultation with faculty sponsors from both the Biological Sciences and Environmental Studies Departments. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study, or substitution course.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC requirement for the environmental studies/biology combined major is satisfied by completing Environmental Studies 100/L and one of the following courses: 109B, 183B, 190, 195B, or 196; or Biology: Ecology and Evolutionary Biology 109.

COMPREHENSIVE REQUIREMENT

Students satisfy the senior comprehensive requirement by completing either:

one of the options for environmental studies majors (see [Comprehensive Requirement](#) above); or

one of the approved internships, independent research or field course in biology or a thesis with biology

ENVIRONMENTAL STUDIES/EARTH SCIENCES

This course of study provides students with the basic tools of Earth sciences and environmental studies needed to address environmental problems.

LOWER-DIVISION REQUIREMENTS

Applied Mathematics and Statistics 7 and 7L or Ocean Sciences 90. A score of 4 or higher on the College Board AP Statistics examination waives this requirement.

Mathematics 11A-B (or 19A-B)

Chemistry 1A, 1B/M, and 1C/N

Physics 6A/L and 6B/M (or 5A/L and 5B/M)

Earth Sciences 20/L (or 5/L or 10/L)

Environmental Studies 24 and 25

Anthropology 2 or Philosophy 21, 22, 24, 28, or 80G or Sociology 1, 10, or 15

UPPER-DIVISION REQUIREMENTS

Earth Sciences 110A/L, 110B/M, or 110C/N

Environmental Studies 100/L (Prerequisites are: Chemistry 1A, Ecology and Evolutionary Biology 20C, Environmental Studies 25, Applied Mathematics and Statistics 2 or 3 or 6, or Mathematics 3, Applied Mathematics and Statistics 7/L, and one of the cultural anthropology/sociology/philosophy options)

Three additional upper-division environmental studies courses, including at least one course based in the social sciences

Three additional upper-division Earth sciences courses

The upper-division courses should be selected in pursuit of a coherent plan of study, such as water policy-hydrology, restoration ecology-geochemistry, agroecology-soil physical processes, or environmental policy-climate change, among others, in consultation with faculty from both the Environmental Studies and Earth Sciences Departments. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study or substitution course.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement for the environmental studies/Earth sciences combined major is satisfied by completing Environmental Studies 100/L and one of the following courses: 109B, 183B, 190, 195B, or 196, or Earth Sciences 195 or 188A-B.

COMPREHENSIVE REQUIREMENT

Students satisfy their senior comprehensive requirement in environmental studies or Earth sciences by completing either:

- One of the senior comprehensive options for single environmental studies majors (see [Comprehensive Requirement](#) above) or
- one of the senior comprehensive options for Earth sciences majors (see [Comprehensive Requirement](#) under Earth Sciences).

ENVIRONMENTAL STUDIES/ECONOMICS

This major provides students with the basic tools of economic analysis and an understanding of the mechanics of resource production, conservation, and use, in both ecological and economic terms.

LOWER-DIVISION REQUIREMENTS

Economics 1, 2, 11A, 11B, AMS 5 or AMS 7/L

Environmental Studies 23, 24, 25

Anthropology 2; or Philosophy 21, 22, 24, 28, or 80G; or Sociology 1, 10 or 15

UPPER-DIVISION REQUIREMENTS

Economics 100A(100M), Intermediate Microeconomics

Economics 113, Econometrics

Environmental Studies 100/L

Environmental Studies

Six upper-division elective courses, three in economics and three in environmental studies. Economics electives must be chosen from the following list: 100B(100N), 101, 114, 115, 120, 128, 130, 131, 133, 135, 136, 138, 139A, 139B, 140, 141, 142, 150, 156, 160A, 160B, 161A, 165, 169, 180, 183.

Environmental Studies electives must be chosen from those numbered 101-179, with at least one course based in the natural sciences. None of the three environmental studies upper-division courses can be an environmental studies internship, individual study or substitution course.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement in environmental studies/economics combined major is satisfied by completing Environmental Studies 100/L and one of the following courses: 109B, 183B, 190, 195B, or 196.

COMPREHENSIVE REQUIREMENT

Students satisfy the senior comprehensive requirement by completing the following: one of the options for environmental studies majors (see [Comprehensive Requirement](#) above); and pass those portions of the economics comprehensive examination administered in Economics 100A(100M) and 113.

AGROECOLOGY AND SUSTAINABLE FOOD SYSTEMS CONCENTRATION

The major academic objective of the agroecology and sustainable food systems concentration is to provide students with a depth of expertise within the environmental studies major. Specifically, completing the concentration will allow students to develop expertise and interdisciplinary knowledge of agroecology and sustainable agriculture. Students in the agroecology and sustainable food systems concentration will learn about ecological concepts that can be applied to the development of sustainable agricultural systems and will also develop their understanding of social, political, and economic aspects of agriculture. Students will also have access to hands-on experiences, and obtain skills in research, fieldwork, production, and communication in order to achieve multiple sustainability goals in complex, social-ecological food systems.

REQUIREMENTS FOR AGROECOLOGY AND SUSTAINABLE FOOD SYSTEMS CONCENTRATION

Students pursuing the agroecology and sustainable food systems concentration abide by all rules and requirements of the environmental studies single or environmental studies combined majors. The

agroecology and sustainable food systems concentration includes three required courses (one in social sciences, one in natural sciences, one field-based course) and one elective course from the list below (no substitutions will be accepted). In addition, students will complete their environmental studies senior exit (ENVS 109B, ENVS 190, ENVS 196, ENVS 195A/B, or ENVS 183A/B) in a topic related to agroecology and sustainable food systems.

Required upper-division courses: ENVS 130A/L, ENVS 130B, and ENVS 130C or ENVS 133

List of elective courses (choose one): ENVS 108, 129, 131, 143, 146, 161A/L, 162/L, 163/L, 165, 166, 168, 169, 170, or CMMU 149 or CMMU 186

In addition to coursework, it is strongly recommended that students complete at least one internship related to agroecology, sustainable agriculture, or sustainable food systems (either upper- or lower-division internship).

Note for students pursuing environmental studies single majors.

Students pursuing the environmental studies single major and the agroecology and sustainable food systems concentration will take the following upper-division courses: ENVS 100, 130A/L, 130B, 130C (or 133); one course from the list of elective courses above; three additional environmental studies electives; and an environmental studies senior exit (ENVS 109B, ENVS 190, ENVS 196, ENVS 195A/B, or ENVS 183A/B) in a topic related to agroecology and sustainable food systems.

Note for students pursuing ENVS-combined

majors. Students pursuing the environmental studies combined majors in economics, Earth sciences, or biology and the agroecology and sustainable food systems concentration will take the following upper-division courses (in the environmental studies portion of their major): ENVS 100, 130A/L, 130B, 130C (or 133); one course from the list of elective courses above; and an environmental studies senior exit (ENVS 109B, ENVS 190, ENVS 196, ENVS 195A/B, or ENVS 183A/B) in a topic related to agroecology and sustainable food systems.

HONORS

Senior Comprehensive Honors. Only applicable is senior thesis, internship, or individual work in a senior seminar. Honors must be awarded by the student's faculty sponsor, and a second faculty member (chosen by the student's advisor) must confer.

Departmental Honors. To be considered for departmental honors, students must have a grade point average (GPA) of 3.5 in upper-division environmental studies courses.

Highest Departmental Honors. To be considered for highest departmental honors, students must have a GPA of 3.75 in the major in upper-division environmental studies courses, and received honors on the senior comprehensive.

For combined majors, students must fulfill all requirements for honors from both departments.

GRADUATE PROGRAM

The doctor of philosophy (Ph.D.) program in Environmental Studies at UCSC is an interdisciplinary program that draws equally from natural and social sciences. Our interests in natural sciences engage most strongly with conservation biology, agroecology, and global change. Our interests in the social sciences and humanities bridge political ecology, geography, sociology, history, environmental policy, and politics, law, and environmental economics. We aim to train doctoral students to work effectively in disciplinary and interdisciplinary environments within the academy, in government agencies, and in public interest organizations and businesses.

Graduates of the program are expected to engage as scholars across natural and social sciences, and to have deep intellectual strength in their area of specialty. We expect our doctoral students to be as skilled and intellectually rigorous within their research emphases as are students emerging from more traditional disciplinary programs. We also expect them to possess the knowledge needed to understand, analyze, and communicate in different but relevant fields of study. This expectation of intellectual breadth as well as disciplinary depth is a central goal of our doctoral program.

Given the strong interdisciplinary focus of the environmental studies Ph.D. program, study in other fields is encouraged. Most of the environmental studies faculty have secondary affiliations with other departments on campus. Students have the option of pursuing a “designated emphasis,” the equivalent of a graduate minor in another graduate program on campus. These provide a framework for in-depth study in specialized disciplinary fields and recognition of particular scholarly expertise. Designated Emphasis programs are available in numerous fields including ecology and evolutionary biology, anthropology, education, sociology, visual studies, statistics, politics, and Latin American and Latino studies.

GENERAL REQUIREMENTS FOR THE DOCTORATE

The typical duration of the doctoral program is five to six years.

A dissertation in environmental studies is expected to present an original contribution to the understanding of a significant environmental problem or issue. It should

demonstrate a clear understanding of the relevant literature, careful and rigorous research design and data analysis, and effective communication of the results within the context of the student’s area of emphasis. The dissertation is guided by a committee that includes both natural and social scientists.

In addition to the dissertation, students are expected to complete required coursework and to serve as teaching assistants in undergraduate courses for two quarters.

The Environmental Studies Department does not offer a terminal master’s degree, except for students who have been advanced to candidacy but who do not complete the Ph.D. dissertation.

PROGRAM PREREQUISITES

The interdisciplinary nature of the core curriculum requires rigorous preparation at the undergraduate level. All entering students are expected to have completed at least one upper-division course in the following areas: economics, ecology/genetics, statistics, and either anthropology, sociology, politics or political economy. First-year students may also take courses to fulfill these requirements.

COMMITTEES AND EXAMINATIONS

A three-person interdisciplinary guidance committee works to ensure that each student’s preparation is individually designed to meet particular needs and interests, to help ensure their success as scholars, and to help students fully engage interdisciplinary dimensions of their training and research. One committee member is the major professor and at least one member needs to be from a complementary meta-discipline from the student’s general research area. For instance, a student whose interests are in conservation biology may have two committee members who are ecologists and one who is a political scientist.

The committee helps guide the student in preparation for prequalifying examinations in three general areas of scholarly interest, and depending on the student’s background, interests, and intentions, may require additional coursework, including courses from other departments. The prequalifying examination must be taken no later than winter quarter of the third year.

The qualifying examination committee includes an additional member from outside the environmental studies department, and helps guide the student to define and plan their dissertation research. This committee is responsible for certifying that the student is qualified to advance to candidacy for the Ph.D. degree. The qualifying examination must be completed by the end of the third year.

If the venue of a student’s research is in a non-English-speaking country, certification of competence in the language of that country may be required before advancement to candidacy.

REQUIRED COURSES

Environmental Studies 201A, Foundations of Environmental Studies

Environmental Studies 201B, Environmental Studies in Practice

An approved graduate course in quantitative methods that provides a basis in research design and analysis

An approved graduate course in qualitative methods that provides a basis in research design and analysis

Two of the following, one each from the social and natural sciences:

Social Sciences:

- Environmental Studies 210, Political Ecological Thought and the Environment or
- Environmental Studies 240, Public Policy and Conservation

Natural Sciences:

- Environmental Studies 220, Conservation Biology, or
- Environmental Studies 230, Agroecology and Sustainable Agriculture

An approved graduate elective course that provides focused expertise

These courses are designed to ensure that students acquire disciplinary depth in their chosen research fields; gain experience of their research communities; and refine the research skills necessary to perform successfully in their professional arena.

In addition, all students are required to participate in three quarters of:

Environmental Studies 290L, Graduate Research Seminar (2 credits)

Every quarter before advancement to candidacy, all students are required to participate in:

Environmental Studies 290, Interdisciplinary Research Seminar (2 credits)

Environmental Studies 292, Topics in Research in Environmental Studies (2 credits)

Graduate students are encouraged to participate in course Environmental Studies 291, Advanced Readings in Environmental Studies, in areas of interest.

REQUIREMENTS FOR THE DESIGNATED EMPHASIS IN ENVIRONMENTAL STUDIES

Doctoral students from other departments at UCSC may complete a designated emphasis in environmental studies by completing ENVS 201A, ENVS 201B, two advanced graduate courses in ENVS (from an approved list), and two quarters of ENVS 292. In addition, students must have an environmental studies faculty member on their qualifying examination and thesis reading committees, complete a significant scholarly written component on an environmental topic, and complete the requirements for Ph.D. in their own department.

APPLICATION AND ADMISSION

For admission to the doctoral program, students must have completed a bachelor's degree or the equivalent in an area related to environmental studies. Most students entering the program either hold a master's degree or have several years work experience beyond the bachelor's.

Superior scholarship, capacity to carry out independent research, and commitment to scholarly work in an interdisciplinary context must be demonstrated in the statement of purpose, coursework, Graduate Record Examination (GRE) General Test, and letters of recommendation. Prospective students must contact faculty directly to inquire about sponsorship for admission to the program. Students are rarely accepted into the program without significant, early communications with potential faculty sponsors. See the [faculty list](#) for contact information.

Other considerations for admission include grades, evaluations, publications, professional or extramural experience, and more than one degree (second bachelor's or master's). Students are required to have completed coursework, or equivalent practical experience, in ecology, statistics, sociology/political science, and economics. Limited deficiencies in these areas can be remedied during the first year of graduate study. In addition to the application materials, students are strongly encouraged to submit a substantial written project (undergraduate or master's research project).

Admissions information and the online graduate application are at the [UCSC Division of Graduate Studies](#).

Admission is only considered for the fall quarter. Completed applications are due by December 15th of the previous academic year.

ENVIRONMENTAL STUDIES FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Christopher Benner

Social aspects of information technology, social equity in urban and regional development, social movements and innovative community/labor organizing, political ecology of urban systems

Jeffrey T. Bury

Political ecology; sustainable development; Latin America; extractive industries; climate change; new models of conservation

Weixin Cheng

Soil ecology, agroecology, biogeochemistry, global change ecology

Tim Duane

Environmental law and policy, renewable energy development, ecosystem-based management, land use planning and regulation, water law and policy, conservation easements, climate law and policy

Gregory S. Gilbert

Disease ecology, forest ecology, tropical ecology, biological invasions, conservation biology, applied evolutionary ecology

Brent Haddad

Fresh-water economics, policy, and communications; renewable energy policy and management; economic institutions and the environment; climate-change mitigation and adaptation; institutional and ecological economics

Karen D. Holl

Restoration ecology, conservation biology, landscape ecology, tropical ecology

Deborah K. Letourneau

Agroecology, tropical biology, insect-plant interactions, biological conservation for ecosystem services, biological processes as an alternative to pesticides, environmental risks of genetically engineered organisms, redwood forest community ecology

Michael E. Loik

Plant physiological ecology, climate change ecology, biometeorology, ecohydrology

Flora Lu

Ecological anthropology, indigenous resource management and household economics, conservation, oil extraction, environmental justice, inclusive sustainability, Amazon rainforest, Ecuador

Stacy M. Philpott

Agroecology, biodiversity, climate change, community ecology, conservation biology, ecosystem services, food sovereignty, landscape ecology, insects, tropical biology, urban ecology

Daniel M. Press

U.S. environmental politics and policy, water quality, industrial ecology, resources management, policy analysis

S. Ravi Rajan

Environmental history and political ecology, risk and disaster studies, science and technology studies, North-South environmental conflicts, environmental social theory, environmental ethics

Carol Shennan

Agroecology, ecosystem processes, organic agriculture, alternatives to soil fumigation, participatory research, agricultural development with a focus on Africa

Andrew Szasz

Environmental sociology (environmental movements, policy, environmental justice), theory

Christopher C. Wilmers

Wildlife ecology, conservation biology, global change ecology, ecological modeling

ASSOCIATE PROFESSOR

J. Elliott Campbell

Food-water-energy nexus, carbon cycle science, regional and global atmosphere-biosphere modeling, life-cycle assessment, geospatial modeling

ASSISTANT PROFESSOR

Madeleine Fairbairn

Environmental sociology, sociology of agriculture, property ownership and land tenure, food politics and social movements, political ecology

Adam Millard-Ball

Transportation planning and policy, environmental economics, urban sustainability, climate change policy

Katherine Seto

Marine and coastal law and policy, marine resource governance, sustainable seafood systems, political ecology, sustainability science, maritime security and globalization

Kai Zhu

Ecology, environmental sciences, global change, statistics

ADJUNCT PROFESSOR

Jeffrey Kiehl

Human dimensions of climate change, intersection of climate change and psychology, changes in Earth's water cycle, climate communication

Environmental Studies

Martin Quigley

Landscape ecology, restoration ecology, botany, horticulture, landscape architecture

ADJUNCT ASSOCIATE PROFESSOR

Renée Kidson

Hydrology, water resource management, urban water supply training, climate change and Antarctic science, military history

ENVIRONMENTAL STUDIES EMERITUS FACULTY

Robert R. Curry

Bryan H. Farrell

Margaret FitzSimmons

Stephen R. Gliessman

David Goodman

Sheldon Kamieniecki

Paul L. Niebanck

James E. Pepper

Alan Richards

Michael E. Soulé

ENVIRONMENTAL STUDIES LECTURERS

Chris Lay

Natural history museum collections management, field-based natural history education, California natural history

Katie Monsen

Sustainable agroecosystems, nutrient dynamics, and freshwater ecology, sustainability engineering

Sarah Rabkin

Environmental and science journalism, the literary and visual arts in natural history practice

Andrew Schiffrin

Environmental assessment, transportation, land use planning, water supply planning

Hillary Angelo (Sociology)

Urban sociology, nature and society, infrastructure, social theory, urban political ecology, historical methods

Doris Ash (Education)

Informal science learning, teacher professional development, science discourse in and out of the classroom

Giacomo Bernardi (Ecology and Evolutionary Biology)

Fish biology, phylogenetics, evolution

Kenneth W. Bruland, Emeritus (Ocean Sciences)

Edmund Burke III, Emeritus (History)

Melissa L. Caldwell (Anthropology)

Poverty and public health; welfare, charity, and assistance; food and consumption; gardens, nature, and landscapes; religion; socialism and postsocialism; Russia, the former Soviet Union, and Eastern Europe

Yihsu, Chen (Technology Management)

Economics and policy in energy, water resources and transportation sectors

Patrick Y. Chuang (Earth and Planetary Science)

Clouds, aerosols and climate

Mark Cioc (History)

German history, modern European history, environmental history

Daniel P. Costa (Ecology and Evolutionary Biology)

Physiological ecology of marine mammals and birds

Donald Croll (Ecology and Evolutionary Biology)

Ecology and conservation of islands and seabirds

Ben Crow (Sociology)

International development, sociology of water and markets, global inequality, South Asia and East Africa, political economy, and green enterprise

T.J. Demos (History of Art and Visual Culture)

Contemporary art and visual culture, investigating in particular the diverse ways that artists and activists have negotiated crises associated with globalization, including the emerging conjunction of post-9/11 political sovereignty and statelessness, the hauntings of the colonial past, and the growing biopolitical conflicts around ecology and climate change

Jennifer Derr (History)

Colonial and Post-colonial Middle Eastern history; Egypt; agricultural and environmental history; Ottoman history; spatial politics; African history; Islamic history; history of science; history of medicine

Lindsey Dillon (Sociology)

Urban geography, critical race theory, political ecology, environmental justice, feminist approaches to science and technology studies

Kent Eaton (Politics)

Comparative politics, Latin America, international relations, political economy, public policy, political institutions

James Estes (Ecology and Evolutionary Biology, and Ocean Sciences)

Marine sciences, community ecology, species interactions

Environmental Studies

Andrew Fisher (Earth and Planetary Sciences)

Hydrogeology, crustal studies, heat flow, modeling

Laurel R. Fox (Ecology and Evolutionary Biology)

Terrestrial population and community ecology, plant-animal interactions

Diane Gifford-Gonzalez (Anthropology)

Neolithic Africa and Eurasia, colonial New Mexico, origins of food production, pastoralists, zooarchaeology, history of archaeology, interpretive theory, visual anthropology

James B. Gill, Emeritus (Earth and Planetary Sciences)

Gary B. Griggs (Earth and Planetary Sciences)

Coastal processes, hazards and engineering

Daniel Guevara (Philosophy)

Kant, moral philosophy, moral psychology, environmental ethics, history of modern philosophy

Julie H. Guthman (Social Sciences)

California agriculture, sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of food and health, political ecology, race and food, epigenetics and environmental health, critical human geography

Donna J. Haraway, Emerita (History of Consciousness and Feminist Studies)

Susan Harding, Emerita (Anthropology)

Sikina Jinnah (Politics)

International relations, global governance, environmental politics, trade/environment politics, climate change, biodiversity, international cooperation, climate engineering governance

A. Marm Kilpatrick (Ecology and Evolutionary Biology)

Disease ecology, population biology, conservation

Paul L. Koch (Earth and Planetary Sciences)

Isotope biogeochemistry, vertebrate paleontology

Kristy Kroeker (Ecology and Evolutionary Biology)

Global change biology, community ecology, applied marine ecology, climate change, ocean acidification, multiple stressors

Ronnie D. Lipschutz (Politics)

International relations; global political economy; foreign policy; resource/environmental politics; global political networks; global civil society and social movements; popular culture and politics; technology and society; risk society, state transformation and global governmentality

Kristina Lyons (Feminist Studies)

Feminist and decolonial science studies, environmental humanities of the global South, politics of "nature" and "matter," ethnographic theory, literary ethnography

and poetics, politics and the political in Latin America, socioenvironmental justice and ethics

Andrew Salvador Mathews (Anthropology)

Environmental anthropology, science and technology studies, conservation and development, climate change, environmental history, Mexico, Latin America, Italy

Ingrid M. Parker (Ecology and Evolutionary Biology)

Plant ecology, plant-pathogen interactions, biological invasions

Adina Paytan, IMS Research Scientist (Earth and Planetary Sciences)

Biogeochemistry, paleoceanography, environmental and aquatic chemistry

Maya Peterson (History)

Russian and Soviet history; environmental history; comparative empire; colonialism; global exchanges of scientific knowledge and expertise; technology transfer; historical geography, spatial history and mapping, Central Asia; Silk Roads

Jarmila Pittermann (Ecology and Evolutionary Biology)

Plant physiology

Grant H. Pogson (Ecology and Evolutionary Biology)

Molecular population genetics, ecological genetics, marine invertebrates and fishes

Donald C. Potts (Ecology and Evolutionary Biology)

Coral reef ecology, genetics, evolution, and geological history; marine biodiversity; tropical biology, global change, and remote sensing

Peter T. Raimondi (Ecology and Evolutionary Biology)

Marine ecology, evolutionary ecology, experimental design, applied ecology

Jennifer E. Reardon (Sociology)

Science studies; sociology of science, technology, and medicine; feminist theory; race/ethnicity/gender/sexuality/class; biology and society

Barry Sinervo (Ecology and Evolutionary Biology)

Animal behavior, evolution, physiological ecology

Lisa C. Sloan, Emerita (Earth and Planetary Sciences)

Donald R. Smith (Microbiology and Environmental Toxicology)

Neurotoxicity, cellular and organismal responses to environmental toxins

Dana Y. Takagi, Emerita (Sociology)

Anna Tsing (Anthropology)

Culture and politics; feminist theory; globalization;

Environmental Studies

multi-species anthropology; social landscapes and forest ethnographies; multi-sited ethnography; Indonesia, Southeast Asia, and the U.S.

Slawek M. Tulaczyk (Earth and Planetary Science)

Glaciology and glacial geology, soil mechanics

Jeremy West (Economics)

Applied microeconomics, public economics, energy/environmental economics

Terrie M. Williams (Ecology and Evolutionary Biology)

Large mammal physiology, bioenergetics, exercise and environmental physiology

Erika Zavaleta (Ecology and Evolutionary Biology)

Biodiversity and global change, biological invasions, terrestrial plant and ecosystem ecology, human ecology, conservation science

ENVIRONMENTAL STUDIES COURSES

LOWER-DIVISION COURSES

15. Natural History of the UCSC Campus (2 credits). F

Introduces students to the range of natural species and communities occurring on the UCSC campus. All class time is spent outside, and each week a different area of campus is visited. Course 24 is recommended. THE STAFF

17. Curation of Natural History Collections (2 credits). W

Introduction and training in the skills needed to create, manage, and exhibit natural history collections, including plants, insects, fungi, birds, mammals, reptiles, and amphibians. Enrollment limited to 12. THE STAFF

18. Natural History Illustration. F

Students gain proficiency in illustration media, and acquire training in the essential skills needed to create natural-history inspired illustrations. Students create illustrations and paintings by studying organisms in the Norris Center for Natural History collections, as well as those living on and around campus. (General Education Code(s): PR-C.) THE STAFF

23. The Physical and Chemical Environment. S

Provides an overview of the physical and chemical environment of planet Earth. Fundamental chemistry and physics is introduced in the process of learning about Earth in a holistic way. The influence of human societies on the global environment is one focus of

discussion. Earth's many "spheres" are explored first: the lithosphere; the atmosphere; the hydrosphere, and the ecosphere. Then global cycles of carbon, nitrogen, and several other elements are studied in the context of basic sciences and societal issues. W. CHENG

24. General Ecology. F

Covers principles of ecology including limits to species abundances, evolutionary ecology, population dynamics, community interactions and patterns, and ecosystem patterns and dynamics. Prerequisite(s): Applied Mathematics and Statistics 2 or 3 or 6, or MATH 3 or higher; or mathematics placement examination (MPE) score of 300 or higher; or AP Calculus AB exam score of 3 or higher; course 23 recommended as prerequisite to this course. (General Education Code(s): SI.) THE STAFF

25. Environmental Policy and Economics. W

Introduces the policy and economic dimensions of some pressing environmental challenges. Uses examples from population, water, climate change, and other topics to examine the economic underpinnings of environmental problems, the process of environmental policy-making, and the trade-offs in different policy solutions. (General Education Code(s): PE-E.) A. MILLARD-BALL

42. Student-Directed Seminar. *

Seminars taught by upper-division students under faculty supervision. (See course 192.) THE STAFF

65. Introduction to Fresh Water: Processes and Policy. *

Introduction to freshwater resources from multiple scientific and policy perspectives. After a review of basic concepts, water issues affecting cities, farms, open space, and multiple-use landscapes are studied. Students cannot receive credit for this course if they have previously received credit for course 165. (General Education Code(s): PE-E.) B. HADDAD

80B. The Ecological Forecast for Global Warming. F

A broad overview of the impacts of human activities on the global climate system. Topics include how climate affects the distribution of ecosystems, the influence of global climate change on biodiversity, ecosystem function, and consequences for the human enterprise. (General Education Code(s): PE-E.) M. LOIK

83. Environmental Studies Internship. F,W,S

A supervised off-campus learning experience related to environmental problem solving. Focuses on initial experiences in applied work and specific skill development. Students may be placed individually or with a team in government agencies, private organizations, citizen action groups. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

99. Tutorial. F,W,S

Directed reading, supervised research, and organized projects relating to environmental problems. May be repeated for credit with consent of the chairperson of Environmental Studies Department. Students submit petition to

Environmental Studies

sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S
Provides for department-sponsored directed reading, supervised research, or organized project for lower-division students under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

100. Ecology and Society (3 credits). W,S
Introduction to environmental issues in an interdisciplinary matrix. Focuses on three issues at the intersection of ecological questions and social institutions: agroecology and sustainable agriculture; population growth, economic growth, and environmental degradation; and biodiversity conservation and land management. Reviews the important roles of disciplinary abstraction and of the application of that knowledge to context-dependent explanations of environmental problems. Prerequisite(s): course 23 or CHEM 1A; course 24 or BIOE 20C; course 25; and AMS 7/L or ECON 113 or OCEA 90; and one from: ANTH 2, SOCY 1,10,15, PHIL 21,22,24,28, or 80G. Concurrent enrollment in 100L required. A. SZASZ

100L. Ecology and Society Writing Laboratory. W,S
Required writing lab accompanying course 100. Students are introduced to writing in different styles and for different audiences typical of the ecosystem-society interface. Course 100 writing assignments are developed, written, and revised in conjunction with the lab. W credit is granted only upon successful completion of course 100. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition requirements. Concurrent enrollment in 100 is

required. (General Education Code(s): PR-E.) A. SZASZ

104A. Introduction to Environmental Field Methods. *
A course in the process of field research and monitoring, with emphasis on use of the scientific method; experimental design, data handling, statistical analysis and presentation; and basic field methodologies. Application of basic field skills, including habitat description; methods for sampling plants, animals, soils, water, and microclimate; and observational and manipulative techniques to address ecological, conservation, and management questions. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; concurrent enrollment in course 104L and previous or concurrent enrollment in courses 100/L required, or by permission of instructor. THE STAFF

104L. Field Methods Laboratory (2 credits). *
Students directly observe elements of natural history and ecological process; design and implement field studies based on lectures; deploy the methods discussed in lectures; and collect data to analyze, interpret, and report in written and oral forms. Concurrent enrollment in course 104A is required. THE STAFF

106A. Natural History of Birds. *
The evolution, taxonomy, physiology, behavior, ecology, and management of birds. Lecture, discussion, field format. Birds observed in habitats including bay, marsh, meadow, and forest. Evaluations based on a field journal and examinations. Students are billed a materials fee. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. Course 105 or Biology 138 are recommended. Enrollment limited to 25. THE STAFF

107A. Natural History Field Quarter. S
A 15-unit field course that uses California wild lands to develop

skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107B and 107C required. Students are billed a materials fee. THE STAFF

107B. Natural History Field Quarter. S
A 15-unit field course that uses California wild lands to develop skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107A and 107C required. THE STAFF

107C. Natural History Field Quarter. S
A 15-unit field course that uses California wild lands to develop skills of natural history observation and interpretation. Students gain the ability to identify plants, animals, vegetation types, and landscapes, as well as address the complex issues of preservation and management of these resources. Enrollment by interview. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L; concurrent enrollment in courses 107A and 107B required. THE STAFF

108. General Entomology. S
Introduction to entomology including anatomy, physiology, systematics, evolution, behavior, and reproduction of the world's most diverse group of organisms. These topics are illustrated in several contexts, from the importance of insects as disease vectors to the historical and

Environmental Studies

contemporary uses of insects by humans. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. Offered in alternate academic years. D. LETOURNEAU

108L. General Entomology Laboratory (3 credits). S

Laboratory sections are devoted to the identification of insects. Individual collections representing 15 orders, sight identification of 60 families, and use of taxonomic keys for positive designations required. Concurrent enrollment in course 108 is required. Offered in alternate academic years. D. LETOURNEAU

109A. Ecology and Conservation in Practice Supercourse: Ecological Field Methods. *

An intensive, on-site learning experience in terrestrial field ecology and conservation, using the University of California Natural Reserves and other natural areas. Students study advance concepts in ecology, conservation, and field methods for four weeks, then experience total immersion in field research at the UC Natural Reserves and other natural areas. Lectures, field experiments, writing assignments, and computer exercises familiarize students with research methods, study design, statistical approaches, and analytical tools for ecological research. Students complete and communicate the results of short field projects in ecology, learn the natural history of the flora and fauna of California, and plan and execute a significant, independent field-research study at the end of the quarter. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151B-C-D or ENVS 109B-C-D is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered

as Biology:Ecology & Evolutionary 151A. Students cannot receive credit for both courses.) G. DAYTON, D. CROLL

109B. Ecology and Conservation in Practice Supercourse: Ecological Field Methods Laboratory. *

Field-oriented course in ecological research. Combines overview of methodologies and approaches to field research with practical field studies. Students complete field projects in ecology and also learn the natural history of the flora and fauna of California. Students are billed a materials fee. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L; satisfaction of the Entry Level Writing and Composition requirements. Concurrent enrollment in BIOE 151A-C-D or ENVS 109A-C-D is required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151B. Students cannot receive credit for both courses.) G. DAYTON, D. CROLL

109C. Ecology and Conservation in Practice Supercourse: Functions and Processes of Terrestrial Ecosystems. *

From lectures and discussion of terrestrial community and ecosystem ecology, students work individually or in small groups to present an idea for a project, review relevant literature, develop a research question/hypothesis, design and perform an experiment, collect and analyze data, and write a report. The instructor evaluates the feasibility of each student's project before it begins. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151A-B-D or ENVS 109A-B-D is required. Satisfies the senior exit

requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151C. Students cannot receive credit for both courses.) G. DAYTON, D. CROLL

109D. Ecology and Conservation in Practice Supercourse: Conservation in Practice (4 credits). *

Focuses on current issues in environmental and conservation biology and the emerging field methods used to address them. From field-oriented lectures about current issues in environmental and conservation biology, students pursue research project as individuals and small groups to develop hands-on experience with field skills in conservation research and resource management. Enrollment by application. Prerequisite(s): BIOL 20A, BIOE 20B, BIOE 20C or ENVS 23, 24, 100; and AMS 7 and 7L. Concurrent enrollment in BIOE 151A-B-C or ENVS 109A-B-C required. Satisfies the senior exit requirement for biological sciences majors and satisfies the senior exit requirement for environmental studies majors by prior approval. Students cannot receive credit for this course and BIOE 150, 150L, ENVS 104A or 196A. (Also offered as Biology:Ecology & Evolutionary 151D. Students cannot receive credit for both courses.) G. DAYTON, D. CROLL

110. Institutions, the Environment, and Economic Systems. S

Debate about environmental policy is often couched in economic terms. Environmental issues have become questions of political economy, as they influence international and domestic policy and reflect on the functioning of the market system. Examines the assumptions and implications of alternative approaches to political economy, as these pertain to questions of

Environmental Studies

environmental policy and political institutions. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

115A. Geographic Information Systems and Environmental Applications. F

Introduction to geographic information systems (GIS) as the technology of processing spatial data, including input, storage and retrieval; manipulation and analysis; reporting and interpretation. Emphasizes GIS as a decision support system for environmental and social problem solving, using basic model building, experimental design, and database management. Students cannot receive credit for this course and course 215A. Prerequisite(s): Previous or concurrent enrollment in course 115L and 100 and 100L, or permission of instructor. Course in computer science, Earth science, math, or geography recommended. THE STAFF

115B. Intermediate Geographic Information Systems (GIS). W

Evaluates advanced technologies of processing spatial data, spatial theory, and application to unique geographic problems, data manipulation and analysis, and reporting and interpretation. Emphasizes GIS as a decision-support system for environmental and social problem solving, using basic model building, experimental design, and database management. Prerequisite(s): courses 115A, 100, and 100L. A previous course in computer science, Earth science, mathematics, or geography is recommended. Enrollment is restricted to environmental studies majors. Enrollment limited to 35. THE STAFF

115L. Exercises in Geographic Information Systems (2 credits). F

Exercises in Geographic Information Systems and Remote Sensing that demonstrate the development of digital geographic data. Students gain hands-on

experience with developing datasets, using imagery to create GIS layers, performing spatial analysis, and utilizing GPS technology. Emphasis placed on environmental applications. Students cannot receive credit for this course and course 215L. Students are billed a materials fee. Concurrent enrollment in course 115A required. THE STAFF

120. Conservation Biology. F

Introduces biological and anthropogenic influences on the diversity and scarcity of organisms. Explores the mathematical models and research tools that provide the foundation for many conservation and management decisions regarding endangered and/or declining species. Topics explored in the context of various examples of conservation decision-making in the real world. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. C. WILMERS

122. Tropical Ecology and Conservation. S

An introduction to the ecological processes, principles, and players of tropical ecosystems, and to conservation issues facing tropical American forests. We will look at how tropical ecosystems work, roles of humans in shaping them, and current conservation opportunities and dilemmas. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

123. Animal Ecology and Conservation. S

Advanced course in animal ecology and conservation focusing on the ecology, behavior, biogeography, and evolution of vertebrates. Prerequisite(s): course 120. Previous or concurrent enrollment in courses 100 and 100L; or by permission of instructor. C. WILMERS

125. Ecosystems of California. W,S

A survey of the diversity, structure, and functioning of California's

ecosystems through time and the ways they have influenced and responded to human activities and stewardship. Topics include: ecosystem drivers such as climate, soils, and land-use history; human and ecological prehistory; comparative marine, freshwater, and terrestrial ecosystem dynamics; and managed ecosystems such as range, fisheries, and agriculture. (Also offered as Biology:Ecology & Evolutionary 125. Students cannot receive credit for both courses.) Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L. (General Education Code(s): PE-E.) THE STAFF

129. Integrated Pest Management. F

Provides an extensive coverage of applied ecology, pest control technology, and the social, political, and economic factors regulating the ideologies and practice of pest management. Topics include agroecosystem design and population regulation of insects, weeds, vertebrates, and pathogens; field monitoring, chemical and biological control; economic thresholds, decision-making processes, and the role of agribusiness. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. D. LETOURNEAU

129L. Integrated Pest Management Laboratory (2 credits). F

Field trips and field exercises that demonstrate the practice of integrated pest management techniques. Individual and group projects provide hands-on experience with field sampling techniques, pest identification, recognition of biological control agents, experimental design, interview techniques, data interpretation and field report writing. Prerequisite(s): concurrent enrollment in course 129. D. LETOURNEAU

130A. Agroecology and Sustainable Agriculture. F

Ecological concepts and principles

Environmental Studies

are applied to the design and management of sustainable agroecosystems. Alternatives for agriculture are discussed in terms of ecosystem structure and function. A weekly three-hour lab is required. Prerequisite(s): Concurrent enrollment in course 130L and previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. C. SHENNAN

130B. Principles of Sustainable Agriculture. W

Agricultural sustainability is examined as a complex set of interactions between ecological, social, and economic components of an agroecosystem. Case studies are drawn from issues facing current U.S. agriculture and a basis for formulating policy for change that ensures sustainability is developed. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. M. FAIRBAIRN

130C. Field Experiences in Agroecology and Sustainable Food. S

Research and practice in agroecology and sustainable food systems. Students gain multidimensional understanding of agroecology through study at the UCSC farm, guest speakers, field trips, and interdisciplinary readings. Students participate in research projects and learn about methods, and study design and statistical analysis. Students are billed a materials fee. Prerequisite(s): previous or concurrent enrollment in course 100 and 100L. Enrollment limited to 35. S. PHILPOTT

130L. Agroecology and Sustainable Agriculture Laboratory (2 credits). F

Laboratory and field exercises to train in the analysis of ecological processes in agricultural systems, with a focus on the quantification of ecological sustainability. Experimental design, analysis, and data interpretation are emphasized. Students are billed a materials fee.

Concurrent enrollment in course 130A is required. C. SHENNAN

131. Insect Ecology. *

Advanced course in ecology featuring insect-plant interactions such as herbivory, pollination, and the effects of plants on insect population dynamics. Lectures emphasize current controversies in ecological theory and relate theory to application. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. Offered in alternate academic years. S. PHILPOTT

133. Agroecology Practicum. W,S

Lectures and demonstrations are combined with field applications to give students direct experience and knowledge of sustainable agriculture and horticulture practices and principles. UCSC Farm and Garden are the living laboratories for testing agroecological principles. Emphasis is placed on small-farm systems. May be applied to major only once. Students are billed a materials fee. Prerequisite(s): courses 130A and 130L and previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. May be repeated for credit. THE STAFF

138. Field Ethnobotany. *

Lectures, laboratory, and fieldwork examine field botany from a human ecology perspective. Students have the opportunity to learn the skills of field botany and plant identification through the study of plants that are of major significance for human cultures. The emphasis of field skills is on applications to sustainable management of natural resources. Prerequisite(s): courses 130A and 130L, or by permission of instructor. Concurrent enrollment in course 138L required. THE STAFF

140. National Environmental Policy. W

An overview of all major federal environmental policy domains. Analyzes political, social, economic, and other forces influencing federal

(and some state) public policy responses to land use, natural resources, pollution, and conservation dilemmas. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. D. PRESS

140L. National Environmental Policy Field Studies Laboratory (2 credits). *

Students travel to waste-management facilities and environmental agencies around the San Francisco and Monterey Bay regions. Laboratory assignments include: facility profiles and policy-options memos related to each facility. Enrollment restricted to environmental studies majors, and environmental studies/economics, environmental studies/biology, or environmental studies/Earth sciences combined majors. Concurrent enrollment in course 140 is required. Enrollment limited to 24. THE STAFF

141. Ecological Economics. F

Application of economic analysis to natural resource policy and management. Topics include welfare economics, property rights and externalities, natural resource valuation, exhaustible and renewable resources, and sustainable development. Prerequisite(s): Economics 1 is strongly recommended as preparation. Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. A. MILLARD-BALL

142. Energy Politics and Policy. S

Explores the social and environmental dimensions of energy production and consumption. Provides an overview of the tools to evaluate a new clean-energy economy and its wider political and economic implications. Students study assessment tools, such as risk assessment, material energy balances, and life-cycle assessment. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by

Environmental Studies

permission of instructor. THE STAFF

143. Sustainable Development: Economy, Policy, and Environment. W

Considers whether and how global poverty can be alleviated without irreparably damaging the environment. Examines interactions among population, economic growth, poverty, global consumption ethos, property rights systems, global economy, state capacity, and environmental damage. Scrutinizes impact of various developmental strategies adopted during the past 50 years on poverty, governance, and the environment. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. J. BURY

145. Green Cities. *

Are cities an environmental savior or an engine of pollution? This course considers what makes a truly green city and analyzes innovative urban policies in areas such as energy, transportation, buildings, and waste management. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of the instructor. A. MILLARD-BALL

146. Water Quality: Policy, Regulation, and Management. *

Building on prior preparation, the course provides an in-depth examination of American water-quality policy, regulation and management. In addition to a detailed understanding of pollutant-discharge permitting, students learn about nonpoint source water pollution and its regulatory remedies. Prerequisite(s): course 100 and 100L, and 140 or 149 or 150 or 165. (General Education Code(s): PE-E.) D. PRESS

147. Environmental Inequality/Environmental Justice. F

Reviews research on race, class, and differential exposure to environmental hazards. Shows how environmental inequality has, from the start, been an essential feature of modernity. Situates the

environmental-justice movement in the history of American environmentalism. Students cannot receive credit for this course and Sociology 185. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. (General Education Code(s): ER.) A. SZASZ

149. Environmental Law and Policy. S

Surveys a wide range of topics in environmental law, including state and federal jurisdiction, administrative law, separation of powers, state and local land use regulation, public land and resource management, pollution control, and private rights and remedies. Students read a large number of judicial cases and other legal documents. (Also offered as Legal Studies 149. Students cannot receive credit for both courses.) Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. T. DUANE

150. Coastal and Marine Policy. W

Introduces and analyzes the history, design, implementation, and effectiveness of key legal and institutional frameworks that govern the use and stewardship of coastal and marine areas and resources. Primary focus is on the U.S., although attention is also devoted to international laws and institutions targeting major transboundary issues like marine pollution and management of migratory fish stocks. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

151. Environmental Assessment. S

Introduction to California land use planning law and practice, and the theory, practice, and public policy aspects of environmental assessment, using the California Environmental Quality Act (CEQA) as a model. The National Environmental Policy Act (NEPA) and other environmental and

planning legislation also considered. Covers elements of State law and regulations, environmental impact assessment requirements, and practical procedures for preparing and evaluating CEQA documents, with case studies that exemplify legal, regulatory and public policy and practice aspects of the assessment process. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

154. Amazonian Cultures and Conservation. W

Overview of human societies in the Amazon from both a historical and contemporary perspective. Topics include indigenous resource management, deforestation, conservation politics, culture, and economic change. Prerequisite(s): previous or concurrent enrollment in course 100 and 100L, or permission of instructor. (General Education Code(s): CC.) THE STAFF

156. Environmental Action Through Writing. W

Guided practice in writing skills useful to environmental activists. Assignments emphasize thinking quickly, revising adeptly, researching resourcefully, and tempering powerful passions with careful arguments. Toward the development of effective individual voices, students read each other's drafts as well as the published work of established writers. Enrollment priority will be given to students who have not taken course 157. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

157. Writing in the Natural Sciences. *

Guided practice in writing effectively about science and natural history for a variety of audiences. Assignments emphasize reporting first-hand observations, explaining processes and phenomena, understanding

Environmental Studies

scientific papers, and writing about scientific and technical subjects for a general audience. Enrollment priority will be given to students who have not taken course 156. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

158. Political Ecology and Social Change. F

The object is to provide a rigorous grounding in the method of political ecology and to demonstrate how this approach has been used in environmental analysis and problem solving by environmental social movements. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. M. FAIRBAIRN

159. Nature Literature. *

Introduction to 19th- and 20th-century American writers who have influenced our understanding of humans' place in the natural world. Readings include original works as well as biographical and critical texts. Discussions, field trips, and writing assignments emphasize active learning. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

160. Restoration Ecology. W

A multidisciplinary overview of restoring degraded ecosystems. Among the topics addressed are linkages between ecological principles and restoration, planning and implementing restoration projects, evaluating restoration success, and case studies of restoration of specific ecosystem types. Participation in one work day is required. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. K. HOLL

161A. Soils and Plant Nutrition. W

Provides fundamentals of soils and plant nutrition. The physical,

biological, and chemical components of soils are investigated in relation to their ecological functions, fertility to plants, and sustainable management. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. W. CHENG

161L. Soils and Plant Nutrition Laboratory (2 credits). W

Practice analytical techniques for evaluation of physical, chemical, and biological properties of soils. Grow plants to observe some typical symptoms of plant nutrient deficiencies. Students are billed a materials fee. Prerequisite(s): Concurrent enrollment in course 161A. W. CHENG

162. Plant Physiological Ecology. *

Describes how the environment affects plants through the linkages between water, energy, nutrients, photosynthesis, and plant growth. Demonstrates how plant recruitment, survival, and reproduction affect conservation and agriculture. Prior coursework in ecology and/or plant physiology is recommended. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. M. LOIK

162L. Plant Physiological Ecology Laboratory (2 credits). *

Introduces techniques for the study of plant interactions with the physical environment. Examines the role of stress on energy budgets, water relations, photosynthesis, and reproductive allocation. Emphasizes experimental design, field techniques, and instrumentation during field trips to local chaparral and grassland ecosystems. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. M. LOIK

163. Plant Disease Ecology. S

Introduction to ecological roles of plant diseases, including their importance in regulating plant population dynamics, community diversity, and system function in

natural ecosystems; considerations of plant diseases in conservation ecology; and ecological approaches to managing diseases in agroecosystems. Students cannot receive credit for this course and course 263. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. G. GILBERT

163L. Plant Disease Ecology Lab (2 credits). S

Introduction to techniques for studying plant diseases, including detection, isolation, cultivation, and identification of important groups of plant pathogens, completing Koch's postulates; diseases assessment techniques; experimental manipulation of plant-pathogen systems; and basic epidemiological tools. One field trip required. Prerequisite(s): concurrent enrollment in course 163 required. G. GILBERT

165. Freshwater Issues and Policy. W

Concepts, vocabulary, and skills necessary to the analysis of freshwater issues are introduced from hydrology, ecology, law, economics, engineering, and other disciplines. The skills are then applied to case studies involving local, state, and international freshwater conflicts and crises. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. B. HADDAD

166. Agroecosystem Analysis and Watershed Management. S

Explores a range of approaches to examine agroecosystem function, watershed management, and concepts of sustainability. Uses a combination of lecture, demonstration, field work, and field trips to illustrate approaches to analysis of managed ecosystems behavior and the integration of biophysical and socio-political knowledge to aid in watershed management. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor; and

Environmental Studies

course 130A or 130B or 129 or 133 or 160 or 167. C. SHENNAN

167. Freshwater and Wetland Ecology. F

Field and lecture course teaches the physical and biological patterns and processes in freshwater and wetland systems, primarily focusing on Central Coast systems from headwaters to coastal marshes. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. THE STAFF

167L. Freshwater and Wetland Ecology Lab (2 credits). F

Provides basic skills to assess chemical, biological, and physical characteristics of freshwater creeks, rivers, and wetlands. These skills are needed in environmental consulting, municipal agencies engaging in water management or impacts on water, and regulatory agencies. Relies on methods in geomorphology, biogeochemistry, hydrology, and field biology. Students are billed a materials fee. Concurrent enrollment in course 167 required. THE STAFF

168. Biogeochemistry and the Global Environment. W

Studies biogeochemical cycles and related environmental issues such as global environmental change, eutrophication, ecosystem degradation, and agricultural sustainability. Discusses transformation and movement of major nutrient elements in context of watershed ecology and societal implications. Students cannot receive credit for this course and course 268. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L required, or by permission of instructor. W. CHENG

169. Climate Change Ecology. S

Advanced topics in atmospheric science and ecological theory. Topics include impacts on biodiversity, carbon sequestration, sustainable agriculture, and innovative solutions. Prerequisite(s): Previous or concurrent enrollment in courses

100 and 100L required, or by permission of instructor. Enrollment limited to 40. M. LOIK

170. Agriculture and Climate Change. W

Agriculture contributes to and is affected by climate change. Through lectures and field trips, this course covers the impacts on crops and livestock; climate adaptation strategies in the United States and internationally; and agricultural policy responses to climate change. Prerequisite(s): previous or concurrent enrollment in course 100 and 100L. Enrollment limited to 35. THE STAFF

171. Topics in Environmental Studies. *

Readings and discussions of primary literature on a current environmental topic. Emphasizes experiential learning and research. The topics vary; consult current course listings. Prerequisite(s): courses 100 and 100L, or by permission of the instructor. Enrollment limited to 20. THE STAFF

172. Environmental Risks and Public Policy. W

Introduces students to the dilemmas in public policy relating to the management of environmental risks, and discusses their underlying philosophical underpinnings. Explores emergent alternatives, such as the precautionary principle and alternatives assessment, and examines the relationship between experts and the lay public in public controversies. (Formerly Science, Policy, and the Environment.) Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. S. RAJAN

173. An Introduction to World Environmental History. S

Introduces students to some of the central issues in world environmental history such as: human attitudes toward the natural environment; the role of human societies, their institutions and technologies in changing the face of the earth; and the historical impact

of environmental and developmental policies on race, class, and gender differences in a variety of human communities across the world. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. S. RAJAN

176. Vulnerability, Complex Systems, and Disasters. W

Introduces students to the research on the relationship between vulnerability and disasters, and on complex systems including hazardous technologies. Explores perspectives on disasters in the literature on political ecology. Also examines relevant work of organizational sociology, and related fields including normal accident and high reliability organizational theories. Prerequisite(s): Previous or concurrent enrollment in courses 100 and 100L, or by permission of the instructor. (General Education Code(s): PE-T.) S. RAJAN

177. Teaching Environmental Education. F

Designed for environmental studies majors interested in teaching environmental education in the K-12 school system. Students investigate incorporation of environmental education in the classroom; design an environmental education school project; and are placed in a school where they observe environmental education in practice. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, or by permission of instructor. THE STAFF

179. Environmental Interpretation. S

A field course in theory and practice of environmental interpretation in parks, museums, and school programs with special attention to local natural history and children. Students will work to define their own interpretive philosophy, skills, and style. A background in natural history and/or experience working with children is recommended. Prerequisite(s): Concurrent enrollment in course 184 required. Previous or concurrent enrollment

Environmental Studies

in courses 100 and 100L, or by permission of instructor. May be repeated for credit. THE STAFF

183. Environmental Studies Internship. F,W,S

A supervised off-campus learning experience related to environmental problem solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. A significant, independently researched project is required. Internship intended for environmental studies majors. Prerequisite(s): previous or concurrent enrollment in courses 100 and 100L, and by permission of instructor. Students submit petition to course sponsoring agency. May be repeated for credit. THE STAFF

183A. Senior Internship. F,W,S

First quarter of two-quarter senior internship exit requirement. Supervised off-campus learning experience related to environmental problem-solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. Students submit petition to course-sponsoring agency. Enrollment restricted to environmental studies majors and the combined majors with Earth science, biology, and economics. Enrollment by permission of instructor. THE STAFF

183B. Senior Internship. F,W,S

This course combines fieldwork at an off-campus agency and a comprehensive analytical paper produced for the agency. Equivalent to a thesis in terms of the depth and quality of the work expected. Prerequisite(s): course 183A. Students submit petition to course-sponsoring agency. Enrollment restricted to environmental studies majors and the combined majors with Earth sciences, biology, and economics. THE STAFF

184. Environmental Studies Internship (2 credits). F,W,S

Supervised learning experience related to environmental problem solving. Students may work with government agencies, private organizations, citizen action groups, or in specialized apprenticeships on an individual or team basis. This 2-credit internship puts students in the field and offers them the experience of practicing environmental problem solving. This internship experience focuses on specific skill development. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

189. Environmental Studies Research Seminar (1 credit). F,W,S

Research seminars presented weekly throughout the year by environmental studies faculty, visiting scholars, and graduate students. Students discuss content and methodology of research presented following each seminar. Students write critiques of some seminars. C. WILMERS

190. Capstone Course: Environmental Problem Solving. S

A synthetic course that draws on the knowledge and skills students bring from other courses in the major. Focuses on written and oral individual and group projects in which students must take the initiative. Emphasizes developing skills critical for students in their future careers. Prerequisite(s): course 100; Entry Level Writing and Composition requirements. Enrollment restricted to senior environmental studies majors and the combined majors with Earth sciences, biology, and economics. THE STAFF

191F. Community and Agroecology Seminar (2 credits). *

Interdisciplinary two-credit seminar designed for upper-division students who want to become involved in PICA (Program in Community and Agroecology) and to explore concepts of community and agroecology as they relate to sustainability. Also

emphasizes development of leadership skills. Specific topics and readings change each quarter. Prerequisite(s): course 91F, 130A, 130B, 133, or equivalent experience. Enrollment limited to 25. May be repeated for credit. THE STAFF

192. Directed Student Teaching. F,W,S

Teaching a lower-division seminar. (See course 42.) Prerequisite(s): upper-division standing; permission of environmental studies faculty member and chairperson of department. THE STAFF

194. Teaching Environmental Studies. F,W,S

This provides an opportunity to participate in the preparation and teaching of introductory environmental studies courses. Students will have significant responsibility in leading discussion sections. Students submit petition to sponsoring agency. THE STAFF

194F. Teaching Environmental Studies (2 credits). F,W,S

Students facilitate discussions of course material in an introductory environmental studies course in conjunction with faculty and teaching assistants. May not count toward upper-division major requirements. Approval of the sponsoring agency and selection by the primary instructor of specific courses is required. A. SZASZ, A. MILLARD-BALL, K. HOLL

195A. Senior Research. F,W,S

First of a two-quarter senior thesis that results in drafting key thesis elements. Completion of this course does not satisfy the senior exit requirement. Continuation into 195B is contingent upon instructor approval after satisfactory completion of this course. Prerequisite(s): Completion of courses 100 and 100L, and Entry Level Writing and Composition requirements. THE STAFF

195B. Senior Thesis Group. F,W,S

Individually supervised senior research that results in a senior

Environmental Studies

thesis. Must meet regularly with faculty sponsor to discuss progress of the project, and to receive academic and technical guidance. Students must submit electronic copies of the completed research and write-up. Satisfies the senior comprehensive requirement. Prerequisite(s): Completion of courses 100 and 100L and 195A. THE STAFF

196. Senior Seminar. F,W,S

Readings and discussions of primary literature on a current environmental studies topic. Field or literature-based research projects (individual or group) writing multiple drafts resulting in a final paper. Topics vary yearly; consult current course listings. Enrollment by application with selection based on appropriate background and academic performance and by consent of instructor. Satisfies senior comprehensive requirement. Enrollment restricted to senior environmental studies majors; senior environmental studies/biology combined majors; senior environmental studies / Earth sciences combined majors; and senior environmental studies /economics combined majors. Prerequisite(s): Entry Level Writing and Composition requirements. THE STAFF

199. Tutorial. F,W,S

Advanced directed reading, supervised research, and organized projects relating to environmental problems. May be repeated for credit with consent of the chair of environmental studies. Students submit petition to sponsoring agency. Prerequisite(s): prior or concurrent enrollment in courses 100 and 100L. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Provides for department-sponsored directed reading, supervised research, or organized project under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to

sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

201A. Research Approaches in Environmental Studies. F

The first course of a two-quarter sequence that explores the range of scholarly traditions that inform the kinds of research common to the Environmental Studies Department at UCSC. (Formerly Keywords and Concepts: Geography and Ecology.) Enrollment restricted to graduate students. Enrollment limited to 11. K. HOLL

201B. Environmental Studies In Practice. S

The second course in a two-quarter sequence that is designed for beginning graduate students in environmental studies and in any other related field. Introduces interdisciplinary approaches of environmental studies and is an experiential, hands-on class focused on a specific environmental problem. (Formerly Keywords and Concepts: Biogeochemistry and Environmental Policy.) Enrollment restricted to graduate students. C. SHENNAN, B. HADDAD

201M. Developing Research Proposals (2 credits). *

Offers graduate students the opportunity to become familiar with the research expertise of the faculty in the Environmental Studies department. Enrollment restricted to graduate students. M. LOIK

201N. Interdisciplinary Research Design in Environmental Studies. *

Provides students with opportunities to learn research protocols, practices, and methods used in environmental studies. Combination of lectures, reading, practical exercises, and short projects used to explore how these methods can best be incorporated into interdisciplinary research designs. Enrollment restricted to graduate students. J. BURY

210. Political Ecological Thought and Environment. S

Provides an introduction to social scientific analyses of the relationships between capitalistic development and the environment in the late 20th century. It has a dual purpose: First, to develop a contemporary historical understanding and sensibility of how economic change, new institutional configurations, and world scale processes are shaping interactions with the environment. Second, to examine some recent political social theoretical perspectives on nature-society relations and radical environmental and social movements. Enrollment restricted to graduate students in environmental studies. J. BURY

215A. Geographic Information Systems and Environmental Applications. F

Introduction to geographic information systems (GIS) as the technology of processing spatial data, including input, storage and retrieval; manipulation and analysis; reporting and interpretation. Emphasizes GIS as a decision support system for environmental and social problem solving, using basic model building, experimental design, and database management. Students cannot receive credit for this course and course 115A. Concurrent enrollment in course 215L is required. Enrollment restricted to environmental studies graduates students. THE STAFF

215L. Exercises in Geographic Information Systems (2 credits). F

Exercises in Geographic Information Systems and Remote Sensing that demonstrate the development of digital geographic data. Students gain hands-on experience with developing datasets, using imagery to create GIS layers, performing spatial analysis, and utilizing GPS technology. Emphasis placed on environmental applications. Students cannot receive credit for this course and course 115L. Students are billed a materials fee. Concurrent enrollment in course 215A is required. Enrollment

Environmental Studies

restricted to environmental studies graduate students. THE STAFF

220. Conservation Biology. *

The principles of conservation biology, including a review of the core disciplines of demography, population genetics, island biogeography, and community ecology and discussion of area and edge effects, population viability, and ecosystem issues related to the maintenance of biological diversity, especially in fragmented landscapes. Enrollment restricted to environmental studies graduate students. C. WILMERS

230. Agroecology and Sustainable Agriculture. W

The application of ecological concepts and principles to the design and management of agricultural systems. The long-term goal of sustainable agroecosystems is examined in economic, social, and ecological contexts. Enrollment restricted to environmental studies graduate students. D. LETOURNEAU

235. Social Theories of Nature. *

Intensive reading and discussion seminar on the treatment of nature in social theory. Focuses on major recent works which examine nature in social theory, in themselves, and in the context of the intellectual history of development of disciplinary discourses about nature. Students write critical reviews of assigned books and a research paper situating a particular book within its intellectual tradition. Prerequisite(s): interview with instructor to determine preparedness. May be repeated for credit. THE STAFF

240. Public Policy and Conservation. *

Introduction to political and economic approaches to policy analysis, with particular reference to natural resource scarcity, property rights, and environmental conservation. Case studies apply economic and policy process concepts to the management of public lands, biodiversity, and renewable resources. Enrollment

restricted to environmental studies graduate students. T. DUANE

247. Regional Approaches to Environmental Policy. *

A research seminar combining theoretical issues in democratic theory, political economy, and planning with emerging concepts of bioregionalism. The focus is on institutional, scientific, and political innovations in managing the environment. Students evaluate current and historical proposals to regionalize environmental policy in the U.S. Enrollment restricted to environmental studies graduate students. THE STAFF

263. Plant Disease Ecology. *

Introduction to ecological roles of plant diseases, including their importance in regulating plant populations dynamics, community diversity and system function in natural ecosystems, considerations of plant diseases in conservation ecology, and ecological approaches to managing diseases in agroecosystems. Students cannot receive credit for this course and course 163. Prerequisite(s): one ecology course. Enrollment restricted to graduate students. G. GILBERT

268. Biogeochemistry and the Global Environment. *

Studies biogeochemical cycles and related environmental issues such as global environmental change, eutrophication, ecosystem degradation, and agricultural sustainability. Discusses transformation and movement of major nutrient elements in context of watershed ecology and societal implications. Students cannot receive credit for this course and course 168. Enrollment restricted to environmental studies graduate students. W. CHENG

271. Valuing the Environment. *

Intensive seminar examining the normative underpinnings of environmental values. Draws on tools from analytical, ethical, and political philosophy to develop normative arguments concerning environmental inequality and justice, environmental preservation,

and risk evaluation. Involves team projects in which students develop cases on controversial contemporary issues such as biotechnology. Prerequisite(s): interview only. Enrollment restricted to graduate students. May be repeated for credit. S. RAJAN

272. Qualitative Field Methods. *

Introduces qualitative research approaches in environmental studies. Focuses on philosophies of science, epistemological debates, and specific approaches to qualitative methods. Course components include: field safety, research ethics, human subjects, training, research design and sampling, field observation and ethnographies, key informants, field notes, focus groups, oral histories, narrative research, archival research, questionnaires, discourse analysis, participatory research, and qualitative data analysis techniques. Enrollment is restricted to graduate students. J. BURY

280. Advanced Topics in Environmental Studies. S

Intensive research seminar, including reading and critique of primary research literature and research in progress. Topics vary and are announced in advance; students should consult with faculty prior to enrolling. Enrollment by permission of instructor. Enrollment restricted to graduate students. May be repeated for credit. C. WILMERS, S. RAJAN

283. Environmental Studies Internship. F,W,S

Graduate level internship focuses on integrating interdisciplinary academic theory with practical, specialized experience in a professional setting. Course intended for environmental studies graduate students; students must complete paperwork and meet with coordinator prior to first day of instruction. THE STAFF

290. Interdisciplinary Research Seminar (2 credits). F,W,S

Research seminars presented weekly throughout the year by environmental studies and affiliated

Environmental Studies

faculty, by visiting scholars, and by graduate students. Students discuss the content and methodology of research presented following each seminar. Enrollment restricted to graduate students. May be repeated for credit. M. FAIRBAIRN

290L. Graduate Research Seminar (2 credits). F,S

Graduate student presentations of doctoral research proposals, dissertation work-in-progress, grant applications, and conference papers. This weekly laboratory meeting seeks to develop professional skills, teach constructive criticism, and foster effective discussion among peers. Enrollment restricted to graduate students. W. CHENG, A. MILLARD-BALL, G. GILBERT

291. Advanced Readings in Environmental Studies (3 credits). *

Focusing on a recently published volume or on a topic of current interest, this seminar requires a rigorous analysis of the principles and methods employed in the four core areas of the program: sustainable agriculture and agroecology; conservation biology; environmental policy analysis; and political economy. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

291C. Advanced Readings in Risk and Public Policy (3 credits). *

Advanced readings and research on environmental risk and public policy. Explores environmental decision making given the question of the burden of proof and scientific

uncertainty and grapples, in an advanced manner, with emergent policy alternatives, such as the precautionary principle. Also offered as course 281C for 5 credits. Prerequisite(s): course 172 or equivalent work demonstrated by an interview. Enrollment restricted to graduate students. May be repeated for credit. S. RAJAN

291D. Advanced Readings in Tropical Ecology, Agriculture, and Development (3 credits). W

Analyzes recent publications in ecology, conservation, agroecology, and development in tropical and subtropical regions, particularly Latin America. Discussions place special emphasis on integration across natural and social science disciplines to address issues of sustainability in tropical regions. Enrollment restricted to graduate students. K. HOLL

291M. Advanced Readings in Biogeochemistry (3 credits). *

Course consists of three parts: fundamental biogeochemistry of the Earth, global cycles of nutrient elements, and societal and scientific issues of global change. Class activities include (1) presentation of summary statements based on reading assignments; (2) discussion of theories, concepts, methodologies, and applications; (3) computer simulation and modeling of elemental cycles using STELLA; and (4) integration of scientific information on global change with social issues by writing. Enrollment restricted to graduate students. W. CHENG

291P. Advanced Readings in Environmental History and Anthropology (3 credits). *

Course of readings systematically surveying the theoretical contributions of the disciplines of environmental history, historical ecology, environmental anthropology, and geography. After an overview of the evolution of 20th-century thought on the relationship between environment and culture as seen through the lenses of these disciplines, explores emerging research hybrids and new research frontiers. Enrollment restricted to graduate students. S. RAJAN

292. Topics in Research in Environmental Studies (2 credits). F,W,S

Seminar in which students give critically evaluated presentations regarding current research in environmental studies and issues in research design. Students should consult with faculty prior to enrolling. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent study and research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

FEMINIST STUDIES

2017-18 General Catalog

416 Humanities 1

(831) 459-2461 or 459-2757

fmst@ucsc.edu

<http://feministstudies.ucsc.edu/>

PROGRAM DESCRIPTION

Feminist studies is an interdisciplinary field of analysis that investigates how relations of gender are embedded in social, political, and cultural formations. The undergraduate program in feminist studies provides students with a unique interdisciplinary and transnational perspective. The department emphasizes theories and practices derived from multiracial and multicultural contexts.

Feminist studies prepares undergraduates for a variety of careers. The bachelor of arts (B.A.) degree in feminist studies provides excellent grounding for undergraduates who have career aspirations in, for example, law, health, public administration, community organizations, and social services. Students wishing to pursue doctoral work will also find that interdisciplinary training in feminist studies equips them with theoretical and methodological strengths in most disciplines and applied research fields. Specialists in feminist studies are employed as consultants in industry, higher education, and human resources. State and federal government agencies employ people who have special training in understanding gender relations. Educational institutions need specialists to develop and administer feminist studies programs, women's centers, and other institutional structures designed specifically to study and assist women.

- Develop an ability to formulate and defend arguments
- Develop a critical understanding of inequities, ethics, racial and gender formations, and social justice issues

OUTCOME 3: SCOPE AND THEMATICS

Develop a concentration in one of the areas listed below:

- Culture, power and representation
- Law, politics, and social change
- Science and technology
- Sexuality studies

OUTCOME 4: FEMINIST METHODS

The lower-division classes focus on “understanding” and the upper-division courses, especially the senior seminars, focus on “application.”

- Develop an understanding of feminist interdisciplinary methodology
 - Apply interdisciplinary methodology to Research and Writing.
-

REQUIREMENTS OF THE MAJOR

Feminist studies majors must complete 11 courses including a senior comprehensive exit requirement in the feminist studies program. Students must choose one of the following concentrations within the major: Culture, Power, and Representation; Law, Politics, and Social Change; Science, Technology, and Medicine; or Sexuality Studies. Courses appropriate for each concentration are listed at <http://feministstudies.ucsc.edu/courses/index.php>.

A proposal for an independent concentration will be approved only when a student presents a clear, coherent, and rigorous plan of study that does not fit the existing concentrations. Both the student's adviser and the Feminist Studies Department chair must approve a proposal for an independent concentration.

Required courses include Feminist Studies 1, Feminist Studies: An Introduction; one Feminist Studies 10-, 20-, 30-, or 40-level course; Feminist Studies 100, Feminist Theories (these three core courses must be taken at

PROGRAM LEARNING OUTCOMES

Students who complete the Feminist Studies major should emerge with the following skills, competencies, and knowledge:

OUTCOME 1: FEMINIST EPISTEMOLOGY

- Develop a substantive understanding of feminist theories
- Develop the ability to form epistemological questions in a variety of contexts
- Be able to place divergent epistemological frameworks in dialogue

OUTCOME 2: WRITING, READING, AND CRITICAL THOUGHT

- Develop writing skills and proficiency
- Perform close reading of texts

Feminist Studies

UCSC); five upper-division, 5-credit courses in the concentration; two upper-division, 5-credit electives; and an upper-division exit (comprehensive) requirement course. One independent study (course 199) may count toward the concentration or toward the elective requirements. Course 193 or 198 (internship) may be used to count toward the elective requirements.

Feminist studies is an interdisciplinary major that includes courses taught by affiliated faculty in other departments. However, feminist studies majors must take a minimum of five courses at UCSC taught directly in the Feminist Studies Department, i.e., courses designated FMST, not including course 193, 198, or 199. Two Education Abroad Program (EAP) courses may count towards the major; three transfer courses may count towards the major; and the total combined number of EAP and transfer courses that may count towards the major is a maximum of three.

Exit requirement options include a senior seminar (course 194) taught by core faculty, a senior thesis, or a senior project (course 195). Course 1, a lower-division 10-49 course, 100, and the composition (general education code C) requirement are prerequisites to course 194 and 195.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in feminist studies is satisfied by completing one course: 194A, 194D, 194E, 194F, 194G, 194H, 194I, 194J, 194K, 194M, 194N, 194O, 194P, 194Q, 194T, or 195.

HONORS

Feminist studies awards honors and highest honors in the major. At the end of each quarter, a faculty committee meets to review graduating students' files. Students are considered for honors and highest honors based on their cumulative GPA, calculated from grades earned in coursework and the senior exit requirement undertaken for completion of the major. For honors, students must earn a minimum GPA of 3.70 in the relevant courses, while for highest honors, the GPA must be 3.90 or higher. Writing a thesis is not a requirement for receiving honors or highest honors.

LETTER GRADE REQUIREMENT

Letter grades are required for 10 of the 11 courses applied toward the feminist studies major. However, course 100 and the senior comprehensive course(s) (194 or 195) must be taken for a letter grade.

TRANSFER STUDENTS

Transfer students are encouraged to declare the major as soon as possible to be assured entrance into the

required core courses. The Feminist Studies Department will consider, upon petition, which UC-transferrable courses from other institutions are acceptable. Course 1, one 10-49 lower-division course, and 100 must be completed in the junior year so that the exit requirement may be completed in the senior year.

GRADUATE STUDIES

FEMINIST STUDIES PH.D.

The Department of Feminist Studies at the University of California, Santa Cruz welcomed its inaugural class of students who began studies toward a doctor of philosophy degree (Ph.D.) in feminist studies in fall 2013. The Ph.D. in feminist studies at UC Santa Cruz is an interdisciplinary program that investigates how relations of gender are embedded in social, political, racial, and cultural formations. The program emphasizes feminist modes of inquiry and provides students with advanced training in feminist methods. It fosters a rethinking of the relationships between knowledge, power, and expertise. Conceived as a collaborative, cross-divisional enterprise, this graduate program draws upon the strengths of a range of feminist scholars and their departments and programs across the University.

Ph.D. students will complete most of their coursework during their first two years, including the three required courses on Feminist Theories, Feminist Methodologies, and Disciplining Knowledge (FMST 200, 201, 202). Students focus on preparing their problem-based areas of research and their dissertation prospectus during their third year. Students normally take the Ph.D. qualifying examination in their third year or early in their fourth year, when they also must demonstrate proficiency in a second language. Students write a dissertation that is approved by the dissertation committee to finish the program. Six years is the normative time toward completion of the Ph.D. degree.

REQUIREMENTS FOR PH. D. STUDENTS BY THE END OF THE FOURTH YEAR, OR SOONER

Ph.D. students must complete a total of 12 courses including at least 9 elective courses. In addition, students must enroll in three, 2-credit courses. They will satisfy their language requirement by the end of the third year, and take their qualifying examination no later than their fourth year.

- Feminist Studies requires courses 200, 201, and 202 to be taken consecutively the fall, winter, and spring quarters of the first year;
- Feminist Studies 290, Teaching Assistant Training, to be taken prior to or in conjunction with the first teaching assistant appointment;
- Twelve courses (of 5 credits each) and three 2-credit courses.

Feminist Studies

- Graduate Summer Language program or equivalent to pass the language examination.
- Qualifying examination passed and dissertation prospectus approved.
- After completion of the qualifying examination, students take courses in the 290 sequence until the dissertation is submitted.
- Students must teach three courses in feminist studies, or equivalent, as instructor or research assistant. This requirement may be waived.
- After completion of the qualifying examination (with written and oral components), students take courses in the 290 sequence until the dissertation is submitted.
- A prospectus outlining and defining the dissertation project.
- A dissertation project.

LANGUAGE REQUIREMENT

Fulfillment of the language requirement in feminist studies can be documented in several ways. The documentation should demonstrate current ability to use the language in an appropriate way in scholarship. The language appropriate to research could be oral, gestural, or written, or a combination of these. Depending on the specific language and on the research needs of the student, functional language competence could include the ability to read the scholarly literature or other written material needed in research, the ability to conduct fieldwork in the language, or the ability to produce written work in the language. According to Graduate Division policy, proficiency should be demonstrated **before** the qualifying examination committee can be appointed and at least one month prior to taking the qualifying examination.

QUALIFYING EXAMINATION REQUIREMENTS

Advancement to candidacy depends on the general quality of a student's work; demonstration of proficiency in a foreign language relevant to the student's area of work, either by passing a written examination administered by the department or successfully completing a language course approved by the department; success in the qualifying examination; and proposal of an acceptable dissertation topic. The qualifying examination consists of two field statements in consultation with committee members; one 25-30 page paper (either a dissertation chapter or a publishable paper); as well as a dissertation prospectus (10-15 pages). A revised prospectus will be due to the committee no later than three months after the qualifying examination. The examination focuses on the

student's research project and on the fields of scholarship it presupposes. After advancement to candidacy, required by the end of the third year, students concentrate on dissertation writing. The current normative time to degree limit of seven years means that a student usually has at least three to four years after advancement to candidacy for completion of the dissertation. Students also have the option of doing advanced work in a traditional discipline and receiving a designated emphasis of this specialization. In such cases, students must satisfy the appropriate department's criteria (see the departmental web site for information). Students are expected to complete at least one year of supervised teaching as part of the degree requirements.

ELECTIVE COURSES

Students may take elective courses in feminist studies as well as in other departments. Some elective courses in the department include: Feminist Pedagogy; Black Feminisms; Feminist Science Studies; De-colonial Feminisms; Comparative Empires; Transgender and Queer Studies; and Sexuality, Race, and Migration in the Americas.

[See the [Feminist Studies web site](#) to learn more about the graduate program.]

FEMINIST STUDIES DESIGNATED EMPHASIS

Graduate students may work toward a doctor of philosophy (Ph.D.) degree that notes a designated emphasis in feminist studies on the graduation documents. Students wishing to pursue this option should consult with the chair of their respective Ph.D. program and are encouraged to apply in the first or second year of graduate study. The application and an annually updated list of regularly offered, approved graduate courses are available at <http://feministstudies.ucsc.edu>.

The following are required for the designated emphasis:

Committee composition. The student must have a designated graduate adviser from the feminist studies core or associate faculty who serves on the qualifying examination committee or in some other appropriate capacity.

Writing. The student must prepare a significant piece of writing in the area of feminist studies. This writing must be a master's essay or a chapter of the doctoral dissertation.

Course requirements. The student must take four graduate courses in feminist studies, two of which must be taught directly in the department. Two courses can be selected from among the graduate offerings of any UCSC department, as long as they are taught by core or affiliated feminist studies faculty.

FEMINIST STUDIES FACULTY AND PROFESSIONAL INTERESTS

Neel Ahuja, Associate Professor of Feminist Studies

Postcolonial feminist science studies, critical race theory, Asian American transnationalism, disability, species, environment

Felicity Amaya Schaeffer, Associate Professor of Feminist Studies

Transnational feminisms; sexuality and migration, technology, and race; intimacy and globalization; Latin American/Latino studies; border studies; Chicana/o studies; biometrics and security studies

Bettina Aptheker, Professor of Feminist Studies and History

Feminist oral history and memoir; feminist pedagogy; African American feminist history; queer studies; feminist Jewish studies; feminist critical race studies

Anjali Arondekar, Associate Professor of Feminist Studies

South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th-century interdisciplinary studies

Neda Atanasoski, Associate Professor of Feminist Studies

New media and film; critical race and ethnic studies; feminist theory; human rights and humanitarianism; war and nationalism; religion and secularism; post-socialist politics and culture in Central and Eastern Europe

Karen Barad, Professor of Feminist Studies, History of Consciousness, and Philosophy

Feminist science studies, materialism, deconstruction, poststructuralism, posthumanism, multi-species studies, science and justice, physics, 20th-century continental philosophy, epistemology, ontology, ethics, philosophy of physics, feminist, queer, and trans theories

Gina Dent, Associate Professor of Feminist Studies, History of Consciousness, and Legal Studies

Africana literary and cultural studies, legal theory, popular culture

Margaret M. Downes-Baskin, Research Associate in Feminist Studies

Presidential leadership styles, elections and the media, women's political and corporate leadership style, intergenerational relations

Kristina Lyons, Assistant Professor of Feminist Studies

Feminist and decolonial science studies, environmental humanities of the global South, politics of "nature" and "matter," ethnographic theory, literary ethnography and poetics, politics and the political in Latin America, socioenvironmental justice and ethics

Nick Mitchell, Assistant Professor of Feminist Studies

Black feminist thought and praxis; critical theory; critical university studies; epistemology and discipline formation; feminist theory; intellectual history

Madhavi Murty, Assistant Professor of Feminist Studies

Post-reform India and political economy, neoliberalism and nationalism, popular culture in South Asia, media studies, cultural studies, Black cultural studies and transnational race

Marcia Ochoa, Associate Professor of Feminist Studies

Gender and sexuality, race and ethnicity, Latina/o studies, media and cultural studies, ethnography of media, feminism, queer theory, geography, multimedia production, graphic design, colonialism and modernity, Latin American studies—Colombia and Venezuela, social documentation

Angela Y. Davis, Emerita, Professor of History of Consciousness and Feminist Studies

Feminism, African American studies, critical theory, popular music culture and social consciousness, philosophy of punishment (women's jails and prisons)

Rosa Linda Fregoso, Professor Emerita of Latin American and Latino Studies

Jody Greene, Professor of Literature

Seventeenth- and 18th-century British literature and culture; pre- and early modern studies; critical theory, especially Derrida; poststructuralism and ethics; gender studies; history of authorship; history of the book; human property

Donna J. Haraway, Emerita, Professor of History of Consciousness and Feminist Studies

Feminist theory, cultural and historical studies of science and technology, relation of life and human sciences, human-animal relations, and animal studies

Helene Moglen, Emerita, Professor of Literature

The English novel; feminist, critical, cultural, and psychoanalytic theory; gender and genre in social and psychological contexts

AFFILIATED FACULTY

Gabriela Arredondo, Associate Professor of Latin American and Latino Studies

U.S. social and cultural history; Chicana/o history; critical race and ethnicity theories; im/migration history; Latina/os in the U.S.; Chicana feminisms; "borderlands" studies, modern Mexico history

Lora Bartlett, Associate Professor of Education

Educational policy and school reform, schools as

Feminist Studies

workplaces for teachers, the conditions of teachers' commitment

Karen Bassi, Professor of Classics (Literature)

Greek and Latin literatures; gender; literary and cultural theory; pre- and early modern studies; tragedy; historiography; visual and performance studies; death studies

Julie Bettie, Associate Professor of Sociology

Cultural theory and popular culture; race, gender, class, and cultural politics; sexuality and sex work; critical qualitative methodologies

Heather Bullock, Professor of Psychology

Social class, poverty and economic inequality, welfare policy, feminist psychology, discrimination

Julianne Burton-Carvajal, Emerita, Professor of Literature

American visual media, particularly film; melodrama as a transnational form; gender and authorship; history, cultures, and representations of California, particularly the Central Coast

Nancy N. Chen, Professor of Anthropology

Medical anthropology, visual anthropology, urban anthropology, Asian American identity, mental health, food, China

Vilashini Cooppan, Associate Professor of Literature

Postcolonial studies, comparative and world literature, literatures of slavery and diaspora, globalization studies, cultural theory of race and ethnicity

Faye J. Crosby, Professor of Psychology

Gender; social identity; and social justice, especially affirmative action

Cynthia Cruz, Assistant Professor of Education

Street ethnography; community-based learning and pedagogies; decolonial feminist pedagogies; Chicana studies and epistemologies; U.S.-Third World Feminisms; cultural studies and education

Teresa de Lauretis, Emerita, Professor of History of Consciousness

Semiotics, psychoanalysis, feminism, film theory, literary theory, queer studies

Sylvanna Falcón, Assistant Professor of Latin American and Latino Studies

Human rights, racism/antiracism, globalization, gender, transnational feminism, Latin America (Mexico, Peru), United States

Mayanthi Fernando, Associate Professor of Anthropology

Religion and secularism; anthropology of Islam; gender and sexuality; multiculturalism/pluralism; modernity and its "Others"; ethnography and ethics; colonial and post-colonial France/Europe; theory and methods in the study of religion

Dana Frank, Professor of History

Late 19th- and 20th-century U.S. social history, including women's, labor, and working-class history, race and ethnicity; modern Honduras; U.S. history in transnational perspective

Carla Freccero, Professor and Chair of Literature, History of Consciousness; Professor of Feminist Studies

Renaissance studies; French and Italian language and literature; early modern studies; postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

Pascale Gaitet, Emerita, Professor of Literature and Language Studies

Nineteenth- and 20th-century French literature, sociolinguistics, political history, Celine, Genet

Mary-Kay Gamel, Emerita, Professor of Classics and Comparative Literature

Performance studies, ancient Mediterranean performance, Greek and Latin literatures, myth, reception of Greek and Roman texts and artifacts, film, feminist approaches to literature and performance

Diane Gifford-Gonzalez, Professor of Anthropology

Paleolithic and Neolithic Africa and Eurasia, colonial New Mexico, origins of food production, pastoralists, zooarchaeology, history of archaeology, interpretive theory, visual anthropology

Susan Gillman, Professor of American Literature

Transnational American studies; literatures of the 19th-century Americas; critical race studies; translation theory; comparative history of slavery and emancipation; world literature and cultural studies

Jennifer A. González, Professor of History of Art and Visual Culture

Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

June Gordon, Professor of Education

Urban education; international comparative education; the impact of economics, culture and politics on educational attitudes and expectations of immigrants; marginalized youth; schooling and society in Japan, China, India, the U.K., and the U.S.A.; sociology of education

Deborah Gould, Associate Professor of Sociology

Political emotion; social movements and contentious politics; classic and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Shelly A. Grabe, Associate Professor of Psychology

Cultural objectification of women and women's bodies as a pervasive global phenomenon played out in different ways across different cultures; how

Feminist Studies

“embodied oppression” affects women’s psychological well-being and empowerment

Herman Gray, Professor of Sociology

Cultural studies, media and television studies, black cultural politics, social theory

Irene Gustafson, Associate Professor of Film and Digital Media

Documentary theory and practice, experimental film/video, production design, gender and queer studies

Julie Guthman, Professor of Community Studies

Sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of obesity, political ecology, race and food, critical human geography

Lisbeth Haas, Professor of Feminist Studies, and Professor of History

U.S.-Mexico borderlands and border studies; Chicano and Native American history; visual culture in the colonial Americas; California; historical memory, theory, and historical methodology

Margo Hendricks, Emerita, Professor of Literature

Early modern English literature and culture; theories and discourses of race, gender, drama, and theory; women playwrights; pre- and early modern studies

Gail B. Hershatter, Professor of History

Modern Chinese social and cultural history; labor history; gender history; history of sexuality; feminist theory; history, memory, and nostalgia

Emily Honig, Professor of History

Gender, sexuality, and ethnicity in modern Chinese history; comparative labor history; Chicana history, nationalism, and sexuality in the Third World; oral history

Akasha Hull, Emerita, Professor of Feminist Studies and Literature

Donna Hunter, Associate Professor Emerita of History of Art and Visual Culture

European painting (especially French) from 1600 to the 1960s; German art and visual culture between the two world wars; art as social practice, portraiture

Aida Hurtado, Professor of Psychology

Social identity, feminist theory, social psychology of education, survey methodology

Stacy Kamehiro, Associate Professor of History of Art and Visual Culture

Visual cultures of the Pacific, 19th-century Hawai’i, (inter)nationalism, culture contact; (post)colonialism

L. S. Kim, Associate Professor of Film and Digital Media

Television history and theory, racial discourse, feminist criticism, Asian-American media production, industrial

practices and social change in both mainstream Hollywood and alternative media

Norma Klahn, Emerita, Professor of Literature

Latin American literary and cultural studies (specialization: Mexico); Chicano/Latino literature and culture from a cross-border perspective; modernity/postmodernity; poetics and politics; genre theory (novel, poetry, autobiography); critical theory (i.e., border, ethnic, feminist, transnational/global)

Campbell Leaper, Professor of Psychology

The developmental and social psychology of gender in childhood, adolescence, and adulthood; self-concept and social identity; language and social interaction; social relationships, academic achievement; media; perceptions and consequences of sexism

Peter Limbrick, Associate Professor of Film and Digital Media

International cinemas, especially Arab and Middle Eastern cinemas and Australasian cinemas; postcolonial theories and settler colonialism; theories of globalization and transnationalism; intersections of race, gender, and sexuality; queer theory; film and video history and historiography

Jennie Lind McDade, Professor of Art

Drawing, painting

Carolyn Martin Shaw, Emerita, Professor of Anthropology

African societies, colonial discourse, social theory, anthropology of women, sexuality

Lourdes Martínez-Echazábal, Professor of Latin American and Latino Studies

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora; critical race theory

Tanya Merchant, Associate Professor of Music

Ethnomusicology, musics of Central Asia and the former Soviet Union, music and gender, identity, nationalism, globalization, and the institutionalization of music

Leta E. Miller, Professor of Music

Renaissance and baroque music history and performance practices, 20th-century American music, modern and baroque flute, 16th-century chanson and madrigal, music and science, 18th- and 20th-century flute literature and performance styles, music of C.P.E. Bach and Lou Harrison

Megan Moodie, Assistant Professor of Anthropology

South Asian studies, feminist theory, reproductive and population politics, kinship, development, legal identities, tribal communities

Margaret Morse, Emerita, Professor of Film and Digital Media

Digital and electronic media theory and criticism, media

Feminist Studies

art, media history, technology and culture, film history and theory, German cinema, documentary and science fiction

Catherine Ramirez, Associate Professor of Latin American and Latino Studies

United States cultural history, with a focus on immigration and assimilation; theories of citizenship; Latino literature; comparative ethnic studies; feminist and gender studies; cultural studies

Jennifer E. Reardon, Professor of Sociology

Issues of social identity as influenced by the new sciences of genetics and genomics; intersection of the sociology of science and knowledge and the sociology of race, gender, and class

B. Ruby Rich, Professor of Social Documentation and Film and Digital Media

Documentary film and video, post-9/11 culture, new queer cinema, feminist film history, Latin American and Latin/a cinema, U.S. independent film and video, the essay film, the politics of film festival proliferation and the marketing of foreign films in the U.S.

Cecilia Rivas, Associate Professor of Latin American and Latino Studies

Transnationalism; media and communication (Internet, newspapers); migration; globalization; race, ethnicity, and gender; bilingualism; consumption; El Salvador, Central America, Southern Mexico

Pamela Ann Roby, Emerita, Professor of Sociology

Sociology of learning, women and work, leadership and social change, sociology of emotions, feminist research, inequality and social policy

Lisa Roloff, Professor of Anthropology

Critical theory, anthropology of modernity, popular/public culture, gender and sexuality, cultures of capitalism, postcolonial feminist anthropology, China

Vanita Seth, Associate Professor of Politics

Early modern and modern political theory, feminist theory, cultural history, race politics, postcolonial theory

Deanna Shemek, Professor of Literature

Renaissance Italian literature and culture; early modern feminism; humanism; letter-writing and epistolary culture; early modern literacy and media; Renaissance theater; the northern court circles; digital humanities

Mary W. Silver, Emerita, Professor of Ocean Sciences

Shelley Stamp, Professor of Film and Digital Media

Film history, theory, and criticism; silent cinema; early Hollywood; women's filmmaking; film censorship; histories of moviegoing; feminist approaches to cinema

Elizabeth Stephens, Professor of Art

Performance art, film, environmental art, writing

Nancy Stoller, Emerita, Professor of Community Studies

Race and gender aspects of health, the AIDS epidemic, community organizing, sexualities, and medicine in prisons

Avril Thorne, Professor of Psychology

Identity development through personal memory telling, development of meaning in adolescents' self-defining memory narratives, family storytelling and the development of a sense of self, narrative co-construction of identity and intimacy

Nina K. Treadwell, Associate Professor of Music

Renaissance through early baroque music history and performance practices, early plucked-string instruments (theorbo, renaissance, and baroque guitar; renaissance lute), 16th- and 17th-century Italian theatrical music, gender studies, women and music, literary and critical theory

Anna Tsing, Professor of Anthropology

Culture and politics; feminist theory; globalization; multi-species anthropology; social landscapes and tropical forest ethnologies; multi-sited ethnography; Indonesia, Southeast Asia, and the U.S.

Candace West, Professor of Sociology

Language and social interaction, sociology of gender, conversation analysis, microanalysis and medicine

Marilyn J. Westerkamp, Professor of History

Colonial and revolutionary America; the Atlantic World; early modern cultural and religious history; U.S. religious history; gender studies; history of the body

Rob Wilson, Professor of Literature

Transnational and postcolonial literatures, especially as located and transformed in Asia/Pacific; cultural-political emergences as posited against empires of globalization; cultural poetics of America in the Pacific and Oceania; the sublime, Longinus to Hiroshima; poetics of experimental writing, especially poetry; the poetry and cultural poetics of Bob Dylan; Beat beatitude, social and literary, from Jesus to Juliana Spahr et al; San Francisco as Global City, with its literature read as archive of vision and critique; Pacific Rim cities from Hong Kong and Seoul to Taipei, Kaohsiung, Shanghai, Honolulu, San Francisco, and Los Angeles

Alice Yang, Associate Professor of History

Historical memory, Asian American history, gender history, race and ethnicity, 20th-century U.S., oral history

Eileen Zurbriggen, Professor of Psychology

Connections between power and sex; trauma, sexual aggression and sexual abuse; gender roles and violence; sexuality and media; the sexualization of girls and women; power in romantic relationships; adolescent sexual development; objectification and dehumanization; authoritarianism; privacy and surveillance; feminist political psychology

FEMINIST STUDIES COURSES

LOWER-DIVISION COURSES

1. Feminist Studies: An Introduction. F

Introduces the core concepts underlying the interdisciplinary field-formation of feminist studies within multiple geopolitical contexts. Explores how feminist inquiry rethinks disciplinary assumptions and categories, and animates our engagement with culture, history, and society. Topics include: the social construction of gender; the gendered division of labor, production, and reproduction; intersections of gender, race, class, and ethnicity; and histories of sexuality. (Formerly Introduction to Feminisms.) (General Education Code(s): CC.) M. OCHOA

10. Feminisms of/and the Global South. *

Explores feminist theories from domestic U.S. and global contexts in order to ask how interventions of women of color in the U.S. and of radical feminist movements in non-U.S. locations radically re-imagine feminist politics. Rather than focusing on feminist movements that represent different regions of the world, course examines feminist theory through multiple histories of colonialism, post-colonialism, and globalization. (Formerly course 80F.) (General Education Code(s): CC.) THE STAFF

14. Popular Culture in South Asia. F

Popular culture enables people to make sense of their modern selves and their place in the world. Focusing on South Asia, this course explores the region's rich and variegated popular culture forms, including film, music, television, the painted and printed image, and sport. It also investigates how the popular articulates with nation and global conjunctures and how it constructs hierarchies of class,

gender, caste, and sexuality. (General Education Code(s): IM.) M. MURTY

16. Media Histories--News and New Media. W

The news is a set of narratives that produce, maintain, repair, and transform reality. Using three events that brought together "old" and "new" media, this course traces how the interaction of new media with news has changed how we make sense of the world around us and our place in it. (General Education Code(s): IM.) M. MURTY

20. Feminism and Social Justice. F,W

Examines, and critically analyzes, select post-World War II movements for social justice in the United States from feminist perspectives. Considers how those movements and their participants responded to issues of race, class, gender, and sexuality. A feminist, transnational, analytic framework is also developed to consider how those movements may have embraced, enhanced, or debilitated feminist formations in other parts of the world. (Formerly course 80A.) (General Education Code(s): ER.) B. APTHEKER

21. Religion in American Politics and Culture. *

Introduces dominant discourses about Christianity and Islam in the American public sphere, with particular attention paid to race, gender, sexuality, and class in thinking about religion. Visual and textual media, political commentary, and popular ethnographies are analyzed. (Formerly course 80T.) (General Education Code(s): IM.) M. FERNANDO, N. ATANASOSKI

30. Feminism and Science. W

Explores questions of science and justice. Examines the nature of scientific practice, the culture of science, and the possibilities for the responsible practice of science. Rather than focusing on feminist

critiques of science, the course examines how science and technology are changing our world and the workings of power. (Formerly course 80K.) Enrollment limited to 80. (General Education Code(s): PE-T.) K. BARAD

40. Sexuality and Globalization. W

Examines the relationship between sexuality and the contemporary term "globalization" as a dense entanglement of processes that emerges from a history of U.S. empire. Sexuality cannot be separated from power struggles over the classification of bodies, territories, and questions of temporality. Examines how sexualized contact zones produce new knowledge, commerce, inequalities, possibilities, and identities. (Formerly course 80B.) (General Education Code(s): CC.) F. SCHAEFFER-GRABIEL

41. Trans Gender Bodies. F

Draws from representations of transgender/transsexual people in popular, biomedical, and political contexts. Examines the impact of transgender lives on concepts of gender, identity, and technology. Engages with biological and sexological frameworks of sex/gender, trans experience, and social movements and theories. (Formerly course 80M.) M. OCHOA

80S. Women in Music. *

An exploration of the sociological position of women as composers and performers in Western and non-Western musics, with a focus on both ethnographic and historical sources. (Also offered as Music 80S. Students cannot receive credit for both courses.) Offered in alternate academic years. (General Education Code(s): CC.) T. MERCHANT

UPPER-DIVISION COURSES

100. Feminist Theories. W

Core course for feminist studies.

Feminist Studies

Serves as an introduction to thinking theoretically about issues of feminism within multiple contexts and intellectual traditions. Sustained discussion of gender and its critical connections to productions of race, class, and sexuality. Focus will change each year. Enrollment restricted to sophomores, juniors, and seniors. N. MITCHELL

102. Feminist Critical Race Studies. *

Working from the perspective that race is a cultural invention and racism is a political, economic, and social relation, investigates how "race" is produced as a meaningful and powerful social category, examines the effects of racism as a social relation, and argues for the necessity of combining feminist and critical race studies. By considering different historical periods and places, aims to equip students with the tools necessary to critically examine the production and reproduction of race and racism in the U.S. Prerequisite(s): one course from feminist studies. Enrollment restricted to juniors and seniors. Enrollment limited to 20. THE STAFF

112. Women and the Law. W

Interdisciplinary approach to study of law in its relation to category "women" and production of gender. Considers various materials including critical race theory, domestic case law and international instruments, representations of law, and writings by and on behalf of women living under different forms of legal control. Examines how law structures rights, offers protections, produces hierarchies, and sexualizes power relations in both public and intimate life. (Also offered as Politics 112. Students cannot receive credit for both courses.) Enrollment restricted to feminist studies, politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. G. DENT

115. Gender, Sexuality, and Transnational Migration Across the Americas. F

Examines migration as a mode of inquiry into transnational practices across geographic locales and temporal zones. Analyzes migration in relation to the transnational formation of gender, race, and sexuality as well as processes of neocolonialism, the state, and globalization. Prerequisite(s): course 1, 100, or 145. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER.) F. SCHAEFFER-GRABIEL

120. Transnational Feminisms. *

Explores the emergence of transnational feminism through U.S. women of color and postcolonial feminism. Underscores the role of globalization, nationalism, and state formation in relation to feminist theorizing, activism, and labor across the Global South. In an attempt to understand the salience of inequalities, the course interrogates the continuation of feminist critique that is attentive to the war on terror, neocolonialism, and empire. Prerequisite(s): course 1. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 40. (General Education Code(s): CC.) F. SCHAEFFER-GRABIEL

123. Feminism and Cultural Production. *

Explores relationship between feminism and culture. Topics will vary and include different forms of cultural production such as film and literature. Regional/national focus will also vary. Prerequisite(s): course 1. Enrollment restricted to sophomores, juniors, and seniors. May be repeated for credit. V. COOPAN, J. GONZALEZ

124. Technology, Science, and Race Across the Americas. F

Examines new ways of understanding the body and race through the intersection of technology and science. Addresses how broader structures of power and the rise of new technological and scientific discoveries mediate power relations and alter how race, national boundaries, the body, and citizenship are normalized and

contested from colonialism to the present. Course content may vary; themes may include: U.S. eugenics, I.Q. tests, patenting debates, sterilization, assisted reproduction, biometrics, and genetics across the Americas. Enrollment restricted to sophomore, junior, and senior feminist studies majors during priority enrollment only. Enrollment limited to 25. (General Education Code(s): PE-T.) F. SCHAEFFER-GRABIEL

125. Race, Sex, and Technology. *

Explores theories and case studies tied to race, gender, and technology. Covers the history of feminist and critical race analyses of technology as well as contemporary debates. N. ATANASOSKI, F. SCHAEFFER-GRABIEL

126. Images, Power, and Politics: Methods in Visual and Textual Analysis. W

Introduces the analysis of visual images and text with particular emphasis on feminist critical methodologies. Using case studies from photography, film, TV, advertising, and new media, students learn how to read and analyze culture. Enrollment restricted to sophomore, junior, and senior feminist studies majors during priority enrollment only. Enrollment limited to 25. (General Education Code(s): IM.) N. ATANASOSKI

131. The Politics of Matter and the Matter of Politics. W

Considers how "things"--what we may think of as objects, matter, nature, technology, bodies--are constitutive elements of social and political life. What happens to the political as a category if we take this matter seriously? Prerequisite(s): course 1. K. LYONS

132. Gender and Postcoloniality. *

Postcolonial feminist studies. Explores how discourses of gender and sexuality shaped the policies and ideologies of the historical processes of colonialism, the civilizing mission, and anticolonial nationalism. Considers orientalism as a gendered discourse as well as

Feminist Studies

colonial understandings of gender and sexuality in decolonialization. Explores Western media representations, literature, the law, and the place of gender in the current debate between cultural relativism and universalism. Provides an understanding of some key terms in postcolonial studies and an in-depth examination of the place of gender in these processes. Enrollment restricted to juniors and seniors. Enrollment limited to 20. M. MURTY

133. Science and the Body. S

Contemporary technoscientific practices, such as nano-, info-, and biotechnologies, are rapidly reworking what it means to be human. Course examines how both our understanding of the human and the very nature of the human are constituted through technoscientific practices. Prerequisite(s): courses 1 and 100. Enrollment restricted to juniors and seniors. (General Education Code(s): PE-T.) K. BARAD

135. Topics in Science and Sexuality. *

Introduces the multiple debates animating the linkages between science, race, and sexuality. Interrogates the interrelated, epistemological frameworks of science and sexuality/queer studies across a range of interdisciplinary and geopolitical locations. Prerequisite(s): course 100 or 145. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. May be repeated for credit. A. ARONDEKAR

139. African American Women's History. *

Considers African American women as central to understanding of U.S. history, focusing on everyday survival, resistance, and movements for social change. Discussion of critical theories for historical research, gender, and race. Emphasis on biography, cultural history, and documentary and archival research. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER.) B. APTHEKER

145. Racial and Gender Formations in the U.S. S

Introduces the defining issues surrounding racial and gender formations in the U.S. through an understanding of the term "women of color" as an emergent, dynamic, and socio-political phenomenon. Interrogates organizing practices around women of color across multiple sites: film and media, globalization, representation, sexuality, historiography, and war, to name a select few. (General Education Code(s): ER.) THE STAFF

148. Gender and Global Development. *

Uses the critical tools of feminist theory and cultural anthropology to look at how global development discourses and institutions mobilize, reinforce, and challenge systems of gender-based inequality. Topics include non-governmental organizations (NGOs), development practice, microcredit, and technocrat cultures. (Formerly Gender and Development.) (Also offered as Anthropology 148. Students cannot receive credit for both courses.) M. MOODIE

150. Mediating Desire. *

From a foundation in semiotics, considers the ways race and gender are constructed, understood, performed, embraced, commodified, and exploited through representations. Uses representations of, by, and for the margins to engage theories of communication, identity, and representation. Creative final projects encouraged. (Formerly Community Studies 152) Enrollment restricted to sophomore, junior, and senior feminist studies majors or by permission of instructor. (General Education Code(s): ER.) M. OCHOA

168. Topics in Feminist Philosophy. *

Topics in feminist philosophy, which may include: the nature of feminist philosophy, feminist approaches to philosophical issues, social and political philosophy, theories of knowledge, ethics, aesthetics, and science, technology, and medicine studies. Presupposes

some familiarity with philosophy or feminist scholarship. (Also offered as Philosophy 147. Students cannot receive credit for both courses.) Prerequisite(s): Philosophy 100A or 100B or 100C. J. HOY

175. Gender and Sexualities in Latina/o America. *

Advanced topics in gender and sexuality in Latin America and Latina/o studies. Analyzes role of power, race, coloniality, national and transnational processes in the production and analysis of genders and sexualities. Materials include memoir, fiction, ethnography, social documentary and history. (Formerly, Gender and Sexuality in Latin America.) Enrollment restricted to sophomore, junior, and senior feminist studies majors or by permission of instructor. (General Education Code(s): CC.) M. OCHOA

188. Topics in Feminist Studies. S

Focuses on a particular topic in feminist theory. Topics vary each offering but might include theorizing the gendered subject, racializing gender, politics and feminism, the relationship between queer theory and feminism, transgender studies, women of color feminisms, postcolonial and decolonial feminisms, feminist science studies. Enrollment is restricted to sophomores, juniors, and seniors. May be repeated for credit. THE STAFF

189. Advanced Topics in Feminist Theory. *

Focus on a particular problem in feminist theory. Problems vary each year but might include theorizing the gendered subject, racializing gender, the meeting points of psychoanalysis and social-political analysis in theorizing gender, the relationship between queer theory and feminist theory, postcolonial feminist theory. Prerequisite(s): course 100. Enrollment restricted to juniors, seniors, and graduate students. Enrollment limited to 20. May be repeated for credit. THE STAFF

193. Field Study. F,W,S

Individual field study in the vicinity of the campus under the direct

Feminist Studies

supervision of a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

193F. Field Study (2 credits). F,W,S

Individual field study in the vicinity of the campus under the direct supervision of a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Senior Seminar.

Discussion classes providing a broad overview of some general "area of concentration." Discussion of assigned readings, focus on oral presentations, and a final 20- to 25-page paper. Satisfies the senior comprehensive requirement in feminist studies. Enrollment limited to 20. THE STAFF

194A. Feminist Jurisprudence. *

Approaches legal reasoning from a feminist and intersectional perspective with attention to structures and jurisdiction, case materials, and emerging international frameworks for gender justice. Designed to facilitate completion of a substantial research essay based in feminist legal philosophy. Instructor permission required to enroll. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 112 or Politics 112. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. G. DENT

194B. Queer/Feminist Historiography. *

Providing for a critical examination of canonical formations in history and archives, this course proposes new ways of thinking about history from the point of view of those who have been marginalized or excluded by race, class, gender, or sexuality. Prerequisite(s): course 100; and at least two upper-division feminist study courses; and satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 18. B. APTHEKER

194C. Gender and Iconicity. F

Examines icons and the processes

through which an iconicity is constructed and circulated in its complexity. Icons and iconicities often link or articulate various ideologies, affects, and systems of thought into a potent symbol or a mythology. Icons constitute norms, but also disrupt them; icons could articulate new technologies, aesthetics and their representations of the self with purportedly older modes of being in the world, such as a transcendent belief in a god, a faith, etc. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to senior feminist study majors. Enrollment limited to 18. M. MURTY

194D. Feminist Science Studies. *

Examines different feminist approaches to understanding the nature of scientific practices. Particular attention paid to notions of evidence, methods, cultural and material constraints, and the heterogeneous nature of laboratory practices. Considers the ways in which gender, race, and sexuality are constructed by science and how they influence both scientific practices and conceptions of science. Also examines the feminist commitment to taking social factors into account without forfeiting the notion of objectivity. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; and courses 1 and 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. K. BARAD

194F. Chicana/Latina Cultural Production. *

Traces the intersection between Chicana studies and Latin American studies through transnational forms of cultural production, imaginaries, and empowerment. Analysis of theories of cultural production and discussion of the political salience of culture as a site for resistance, critique, and creativity. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100. Enrollment restricted to senior

feminist study majors. Enrollment limited to 20. F. SCHAEFFER-GRABIEL

194G. Images of Africa. *

Explores questions of colonialism, empire, race, gender, and geopolitics in the proliferating images—filmic, televisual, and media—of Africa in the United States. Facilitates the completion of a substantial research essay based on the study of popular culture. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100; enrollment restricted to seniors. Enrollment by permission of instructor. Enrollment limited to 20. G. DENT

194H. Michel Foucault: An Introduction. *

French philosopher Michel Foucault's writings on modern forms of knowledge, power, and subjectivity provide a serious challenge to how we negotiate social oppression. Engages some of Foucault's most cited works, and grapples specifically with his primary claim that modern societies are marked less by freedom and autonomy than by discipline and docility. Prerequisite(s): courses 1 and 100; and satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to juniors, seniors, and graduate feminist studies majors. Enrollment limited to 20. A. ARONDEKAR

194I. Feminist Oral History and Memoir. *

Designed to train students in oral history and memoir writing. Emphasizes the specialness of transgressive voices; race, class, and sexuality, women's silence, erasure, censorship, and marginalization are addressed. The politics of memory, narratives, storytelling, and editorial judgment are considered. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. B. APTHEKER

194K. Black Diaspora. *

Seminar focuses on the historical and subjective processes that

Feminist Studies

produce the concept of an African or Black Diaspora. In narrative, film, and cultural studies, themes of slavery, exile, home, identity, alienation, colonialism, politics, and reinvention are explored.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 15. G. DENT

194L. Decoloniality, Feminism, and Science Studies. F

Introduces decolonial perspectives and considers how science studies might be radically transformed through an engagement with decolonial, indigenous, and black feminist perspectives, and scholars from the global South.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; courses 1 and 100. Enrollment is restricted to juniors and seniors. Enrollment limited to 20. K. LYONS

194M. Empire and Sexuality. S

Explores the production of sexualities, sexual identification, and gender differentiation within multiple contexts of colonialism, decolonization, and emerging neo-colonial global formations. (Formerly course 118.)

Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 100 or 145. Enrollment restricted to senior feminist studies majors. Enrollment limited to 18. A. ARONDEKAR

194N. Gender, Class, and Sex in Shanghai. *

Focusing on Shanghai, course examines issues of gender, class, and sex in modern urban Chinese history. Given Shanghai's history as a treaty port, particular attention paid to ways in which its semi-colonial status inflected the articulation of gender identities, class formations and issues of sexuality (particularly sexual labor). Also looks at Shanghai during the Maoist period and in the context of more contemporary economic reforms. (Also offered as History 194A. Students cannot receive

credit for both courses.)

Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; and History 40B, 140C, 140D, or 140E, or permission of instructor. Restricted to junior and senior feminist studies majors. Enrollment limited to 20. E. HONIG

194O. The Politics of Gender and Human Rights. S

Examines human rights projects and discourses with a focus on the politics of gender, sexuality, race, and rights in the international sphere. Reading important human rights documents and theoretical writings, and addressing particular case studies, emphasizes the tensions between the ideals of the universal and the particular inherent in human rights law, activism, and humanitarianism.

Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; courses 1 and 100. Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. N. ATANASOSKI

194Q. Queer Diasporas. *

Queer diaspora emerged from Third World/queer-of-color critique of queer theory and provides a framework for analyzing racializations, genders, and sexualities in colonial, developmental, and modernizing contexts. Readings from anthropology, history, literature, and feminist and cultural studies.

Prerequisite(s): course 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 20. M. OCHOA

194T. Transgender Studies. *

Explores literature from the natural sciences, anthropology, history, cultural studies, and sociology. Provides theoretical approaches to complex questions in queer studies and geopolitics, and a framework for understanding embodiment, medical regulation, gender formation, the human/animal divide, etc. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements.

Enrollment restricted to senior feminist studies majors. Enrollment limited to 20. M. OCHOA

194V. Marxism and Feminism. F

Explores critically the intersections and crisis points between feminism and Marxism as bodies of thought, theoretical formations, and forms of historical inquiry. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 100, and at least two upper-division Feminist Studies courses. Enrollment limited to 18. N. MITCHELL

195. Senior Thesis or Project. F,W,S

The senior thesis/project which satisfies the major requirement. Course is for independent research and writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for individual study program off campus for which faculty supervision is not in person. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Provides for individual study program off campus for which faculty supervision is not in person. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual directed study for upper-division undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Feminist Theories. F

Introductory required course for feminist studies graduate students. Covers major theorists, debates, and current questions as well as foundational texts through which feminist critiques have been grounded. Content changes with instructor. Enrollment restricted to graduate students. Enrollment limited to 15. F. SCHAEFFER-GRABIEL

201. Topics in Feminist Methodologies. W

Explores feminist theorizing across disciplinary and cultural contexts for both methodology (theories about the research process) and epistemology (theories of knowledge). Goal is to orient students toward changes in organization of knowledge and provide them with different feminist methodologies in their pursuit of both an "object" of study and an epistemology. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. A. ARONDEKAR

202. Disciplining Knowledge/Graduate Research. S

Prepares students to develop research skills and initiate their research projects. Students consider what is meant by feminist research and undertake designing and performing feminist research. Prerequisite(s): course 200 and course 201. Enrollment restricted to graduate students. Enrollment limited to 15. K. BARAD

203. Feminist Pedagogies. W

Examines feminist pedagogies as projects in transgressing traditional disciplinary boundaries. Examines historical examples of alternative pedagogies and contemporary models for creating communities dedicated to social justice. Designed to assist graduate students develop teaching strategies in multiple fields. Enrollment restricted to graduate students. Enrollment limited to 15. B. APTHEKER

204. Ethnographic Writing and Social Documentation. *

Graduate-level advanced seminar explores ways that seeing, hearing, and knowing are influenced by culture, power, race, and other factors. Readings emphasize how documentary subjects are constituted and known, addressing questions of epistemology, social constructivism, objectivity, and method. (Formerly Ways of Seeing and Hearing.) (Also offered as Social Documentation 204. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. M. OCHOA

207. Topics in Queer/Race Studies. *

Explores the interrelated epistemological frameworks of critical race studies and queer studies. Through the study of a range of philosophical, scientific, literary, and cinematic texts, course historicizes and theorizes discourses of race and sexuality. Enrollment restricted to graduate students. Enrollment limited to 15. A. ARONDEKAR

211. Sexuality, Race, and Migration in the Americas. *

Analyzes the ways transnational processes intersect with changing notions of gender, sexuality, and race. Examines processes such as tourism, the Internet, capitalism, and labor spanning Brazil, the Dominican Republic, and the United States. Enrollment restricted to graduate students. Enrollment limited to 15. F. SCHAEFFER-GRABIEL

212. Feminist Theory and the Law. *

Interrogation of the relationship between law and its instantiating gendered categories, supported by feminist, queer, Marxist, critical race, and postcolonial theories. Topics include hypostasization of legal categories, the contest between domestic and international human rights frameworks, overlapping civil and communal codes, cultural explanations in the law, the law as text and archive, testimony and legal subjectivity. (Also offered as History of

Consciousness 212. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. DENT

214. Topics in Feminist Science Studies. W,S

Graduate seminar on feminist science studies. Topics will vary and may include: the joint consideration of science studies and poststructuralist theory; the relationship between discursive practices and material phenomena; and the relationship between ontology, epistemology, and ethics. Enrollment restricted to graduate students. Enrollment limited to 15. K. BARAD

215. Postcolonial and Postsocialist Transactional Analytics. *

Addresses the intersection of the postcolonial and the postsocialist as theoretical ground. Considers how (neo)liberal ideologies about race, class, gender, secularism, and democracy are shaped by the intersection between postsocialist geopolitics and imperial legacies. (Formerly Postsocialism, Postcolonialism, Neoliberalism.) Enrollment restricted to graduate students. Enrollment limited to 15. N. ATANASOSKI

216. Archives/Genders/Histories: An Introduction. *

Explores the entanglements of archives, genders, and histories across a number of intellectual and imperial contexts. Approaches the concept of the archive to reflect on who counts as a historical and/or gendered subject and what are the ethics of representation that guide such archival formations. Draws on literature from philosophy, gender/sexuality studies, anthropology, history, and literary criticism. Enrollment restricted to graduate students. Enrollment limited to 15. A. ARONDEKAR

222. Religion, Feminism, and Sexual Politics. *

Focuses on the increasing importance of religion as a category of analysis in feminist theory. Addresses the relationship of

Feminist Studies

religion, feminist politics, and activism in connection with nationalism, the family, sexuality, and geopolitics. Enrollment restricted to graduate students. Enrollment limited to 15. N. ATANASOSKI

232. Topics in Postcolonial Studies.*

Variable topics that could include postcolonial approaches to questions of epistemology and knowledge production, theories of nationalism and nation-state formation, subaltern historiography, analyses of modernization and developmental theory, postcolonial approaches to globalization, and transnationalism. Significant component of feminist contributions to these literatures. Enrollment restricted to graduate students. Enrollment limited to 15. A. ARONDEKAR

240. Culture and Politics of Human Rights.*

Examines cultural, philosophical, and political foundations for human rights and provides students with critical grounding in the major theoretical debates over conceptualizations of human rights in the Americas. Addresses the role of feminist activism and jurisprudence in the expansion of human rights since the Universal Declaration of Human Rights. Addresses challenges of accommodating gender rights, collective rights, and social and economic rights within international human rights framework. (Also offered as Latin American&Latino Studies 240. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. R. FREGOSO

243. Feminism, Race, and the Politics of Knowledge. W

Course takes as its central topic the institutional politics of feminist and critical race knowledges in the post-1960s United States university. Considers these fields' complex and contradictory relation to disciplinarity, the university's primary or default mode of arranging and legitimizing

knowledge formations. Enrollment is restricted to graduate students. N. MITCHELL

245. Race and Representation.*

Explores how human subjects come to be visually defined and marked by "race" discourse. Covers diverse theoretical literatures on the topic, primarily in visual studies, but also in cultural studies, post-colonial studies, and psychoanalysis. (Also offered as History of Consciousness 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. J. GONZALEZ

251. Feminist Theory and Social Psychology.*

Course bridges feminist theory and social psychological research to explore connections between theory covered and empirical studies on various topics in social psychology. Seminar format allows students opportunity for extensive discussion. (Also offered as Psychology 251. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. THE STAFF

260. Black Feminist Reconstruction.*

Re-visions and extends Reconstruction from 1865-1920 from a black feminist standpoint. Topics include: redefining democracy; labor; literacy and education; suffrage; re-visioning sexuality; childbirth; parenting, etc. Analyzes traditional historiography and the methodological implications of the boundaries between history and fiction, and archival and oral traditions. Enrollment restricted to graduate students Enrollment limited to 15. B. APTHEKER

264. The Idea of Africa. S

Examines the position of Africa in cultural studies and the simultaneous processes of over- and under-representation of the continent that mark enunciations of the global and the local. Themes include defining diaspora, the West as philosophy, and Africa in the global economy. (Also offered as History of Consciousness 264. Students cannot receive credit for

both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. DENT

268A. Science and Justice: Experiments in Collaboration. S

Considers the practical and epistemological necessity of collaborative research in the development of new sciences and technologies that are attentive to questions of ethics and justice. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Anthropology 267A. Students cannot receive credit for both courses.) Enrollment limited to 15. J. REARDON, K. BARAD

268B. Science and Justice Research Seminar.*

Provides in-depth instruction in conducting collaborative interdisciplinary research. Students produce a final research project that explores how this training might generate research that is more responsive to the links between questions of knowledge and questions of justice. Prerequisite(s): Sociology 268A, Biomolecular Engineering 268A, Feminist Studies 268A, or Anthropology 267A. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Anthropology 267B. Students cannot receive credit for both courses.) Enrollment limited to 15. J. REARDON, K. BARAD

270. Anthropology at Its Interfaces with Feminist, Postcolonial, and Decolonial STS.*

Focuses on generative interfaces within and at the edge of the anthropological discipline, in particular, the way ethnographies and "fields" are being reconfigured by feminist, postcolonial, and decolonial perspectives and methodologies in science and technology studies (STS). Enrollment is restricted to graduate students. Enrollment limited to 18. K. LYONS

290. First-Year Advising (2 credits). F,W,S

First-year graduate students meet with graduate director for bi-

Feminist Studies

quarterly meetings covering basic expectations. Also includes department colloquia and workshops for graduate students. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

291. Advising (2 credits). F,W,S
Independent study formalizing the advisee-adviser relationship. Regular meetings to plan, assess, and monitor academic progress, and to evaluate coursework as necessary. May be used to develop general bibliography of background

reading trajectory of study in preparation for the qualifying examination. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S
Independent study and research under faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297F. Independent Study (2 credits). F,W,S
Independent study and research under faculty supervision. Students

submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S
Enrollment restricted to students who have advanced to candidacy. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

FILM AND DIGITAL MEDIA

2017-18 General Catalog

101 Communications Building

(831) 459-3204

film@ucsc.edu

<http://film.ucsc.edu>

PROGRAM DESCRIPTION

The film and digital media major at UCSC offers an integrated curriculum involving theory, criticism, and cultural analysis, as well as a production program in the aesthetics and techniques of film and digital media. This bachelor of arts degree program provides students with the critical skills, theoretical concepts, and historical knowledge necessary to conduct informed analysis of cinema, television, video art, and new media, along with the up-to-date technical knowledge, practical skills, and artistic contexts needed for the production of film, video, and digital media. The major provides a course of study that develops an understanding of moving image and digital media as essential tools of communication and artistic practice.

Students in the general film and digital media major develop an understanding of major movements in world cinema and different aesthetic approaches to the medium, while studying the cultural impact of television and the rise of video and digital art in recent decades. The critical studies concentration is designed for film and digital media majors who have a special aptitude for and interest in the history and theory of film, television, video, and digital media. This rigorous program can help prepare undergraduates for graduate work in critical studies. Students in the production concentration are encouraged to demonstrate technical proficiency and creative vision in film and digital media production while also studying the histories and theories of these media. The integrated critical practice concentration is designed for film and digital media majors who have a special aptitude for and interest in combining work in critical studies and production. The concentration provides them with a more rigorous pathway through the major and, in their senior year, allows them to work on a senior project that integrates creative and intellectual work.

Students in all facets of the major acquire skills in media analysis while maintaining a broadly based, liberal arts perspective. The UCSC program is interdisciplinary, combining theory and practice in film, video, and digital media with study in other areas of the arts, humanities, and social sciences that help students understand the role these media play in society.

As the technologies of film and video have merged with digital computer-based moving images and interactive media, and as digital media continues to expand into

everyday experience, students in the major are uniquely positioned to excel in these fields. Graduates of the UCSC film and digital media program have enjoyed considerable success both in the professional world and in gaining admission into top graduate schools in the field.

Students enrolled in film and digital media production classes have access to audio, video, and digital production and postproduction equipment. Facilities include a digital media lab; stop-motion animation lab audio recording studio; sound stage with green screen; digital nonlinear editing rooms; video format conversion rooms; a computerized sound effects library; and student equipment checkout. Additionally, computer laboratories equipped for digital image manipulation, web authoring, and interactive interface design and viewing rooms are available. The critical studies facilities include classrooms equipped for high-end film, video, and data projection. The library holdings in film and video history, theory, and literature are complemented by a large collection of films, videos, laser disks, and DVDs, including a diverse range of international feature films, experimental film and video work, animation, silent films, and documentaries.

Some courses offered by the Film and Digital Media Department are restricted in enrollment; admission is based on completion of prerequisites and other specific written application requirements. Admission to advanced production courses is generally restricted to third- and fourth-year students and is based on the submission of a portfolio of work produced in the introductory production class (FILM 170B for film production pathway, FILM 170A for digital media pathway) and other production workshops.

Upper-division digital media and production studio courses require coursework to be completed on computers. Instruction in and software for production courses utilizes the Apple OS platform and primarily consists of Apple and Adobe video production software packages. Many UCSC students purchase laptop computers. Film and digital media students who are considering purchasing a laptop computer for production work are encouraged to consult with the department's operations staff. A list of recommended computer configurations and information regarding

Film and Digital Media

education pricing on software packages is available [here](#).

DECLARATION OF THE FILM AND DIGITAL MEDIA PRE-MAJOR

Students who have completed one lower-division course (20A, 20B or 20C) with a grade of C or better are eligible to declare the film and digital media pre-major. Pre-majors are expected to complete the requirements to declare the major by the end of their second year. Transfer students must declare the pre-major no later than their second quarter in residence.

DECLARATION OF THE FILM AND DIGITAL MEDIA MAJOR

Prior to declaring the film and digital media major, students must pass FILM 20A and 20B or 20C with a grade of C or better. Students may choose to take FILM 20P to fulfill the third lower-division requirement but this course does not count toward declaring the major.

Students need to complete the lower-division courses early in their studies so that the petition to major status is accomplished before the first quarter of the junior year. Acceptance into the film and digital media major does not constitute acceptance into any of the concentrations (production, critical studies, or integrated critical practice). Transfer students should consult the Transfer Student section for instructions about declaring the major.

UNDERGRADUATE PROGRAM LEARNING OUTCOMES

Students who earn a B.A. in film and digital media will gain the skills, knowledge, and understanding that will enable them to:

1. Demonstrate their ability to employ research skills, including the use of appropriate print and technology sources in the discipline, to construct effective arguments.
2. Demonstrate that they understand the pre-production, production, and postproduction digital media and filmmaking process.
3. Demonstrate the relationship between different types of form and meaning through the creation of film and digital media projects or the critical analysis of them.
4. Demonstrate their ability to work collaboratively to produce a film or digital media project.
5. Demonstrate broad knowledge of film and media history internationally.
6. Demonstrate scholarly writing skills appropriate to the discipline of film and digital media.

7. Demonstrate an ability to analyze, interpret, and critique films and media from a variety of theoretical perspectives using the critical vocabulary and methodologies of the discipline.

8. Demonstrate their ability to articulate and defend their research and practice in a critical environment.

REQUIREMENTS OF THE MAJOR

The general film and digital media major requires three lower-division and nine upper-division courses in residence and satisfaction of the senior comprehensive requirement. Students must include among these 13 courses at least one upper-division, 5-credit course that focuses on diversity (i.e., non-Western; underrepresented ethnicity, gender, or sexual orientation). A list of courses satisfying the department's diversity requirement is available at the department office. Students in the general film and digital media major may apply for admission to the critical studies concentration (see Critical Studies Concentration below), the production concentration (see Production Concentration below), or the more rigorous integrated critical practice concentration (see Integrated Critical Practice Concentration below) within the major.

LOWER-DIVISION REQUIREMENTS

20A Introduction to Film Studies

Two additional 20-level courses:

20B Introduction to Television Studies

20C Introduction to Digital Media

20P Introduction to Production Technique (cannot be used toward declaring the major)

GENERAL FILM AND DIGITAL MEDIA MAJOR

Students in the general major complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following four groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

194A Film Theory Seminar

194B Electronic Media Theory Seminar

194C New Media Theory Seminar

194D Film History Seminar

194E International Cinemas

Film and Digital Media

194F Film and the Other Arts: Music and Dance

194G New(s) Media

194S Senior Seminar: Special Topics

And five upper-division elective courses are to be chosen from the following:

- up to five additional upper-division history/critical studies courses in film and digital media
- up to two upper-division courses in film and digital media production (see "[Requirements for the Production Concentration](#)" for a list of upper-division production courses)
- up to two upper-division courses offered by other departments or another institution; course substitutions must be pre-approved by the Film and Digital Media Department

FILM AND DIGITAL MEDIA MAJOR PLANNERS

The following are two recommended academic plans for students to complete during their first two years as preparation for the film and digital media major. Plan One is a guideline for students who are committed to the major early in their academic career; Plan Two is for students who are considering the major.

Students who are interested in the production concentration, the critical studies concentration, or the integrated critical practice concentration should consider Plan One to be better prepared for application to production studio classes or either the critical studies concentration or the integrated critical practice concentration in their junior year. However, four-year students following Plan Two should be able to pursue a concentration and still meet their expected graduation term. FILM 20A is not guaranteed to any incoming frosh and most four-year students will use Plan Two as a guideline.

Plan One			
Year	Fall	Winter	Spring
1st (frsh)	FILM 20A	low-div FILM req	low-div FILM req
	college core	gen ed	gen ed
	gen ed	(declare pre-major)	(declare major)
2nd (soph)	FILM critical studies core	FILM 120	FILM critical studies core
	FILM elective	FILM elective	FILM elective
	gen ed	gen ed	gen ed

Plan Two			
Year	Fall	Winter	Spring
1st (frsh)	FILM 80A or 80M	low-div FILM req	low-div FILM req
	college core	gen ed	gen ed
	gen ed		(declare pre-major)
2nd (soph)	FILM 20A	FILM 120	FILM critical studies core
	gen ed	FILM elective	FILM elective
	(declare major)	gen ed	gen ed

CRITICAL STUDIES CONCENTRATION

The critical studies concentration provides a more rigorous pathway through the film and digital media major and offers classes specifically reserved for seniors who have exceptional abilities. Students are eligible to apply for the critical studies concentration in spring quarter of their junior year, provided they have completed FILM 120 and at least three other upper-division critical studies classes. Applicants must already be declared film and digital media majors in good academic standing.

Students will be asked to submit the following application materials:

- a completed application form
- a one-page statement of purpose
- a sample essay
- a FDM faculty statement of support (submitted directly to the department)

Application materials and instructions are available at the Film and Digital Media Department office. Applications are reviewed by a committee of film and digital media critical studies faculty. Admission to the critical studies concentration will be granted to students who have excellent grades in film and digital media courses, an outstanding writing sample, a clear statement of purpose, and a strong FDM faculty endorsement. Students may reapply a second time if not accepted, but not later than the first quarter of their senior year.

REQUIREMENTS FOR THE CRITICAL STUDIES CONCENTRATION

The critical studies concentration curriculum adds the following requirements to those already established for the film and digital media major. Students are required to take two upper-division electives, rather than the five electives currently required for the film and digital media major. Students complete their senior

Film and Digital Media

comprehensive requirement by taking a FILM 194, Film Senior Seminar (one from the 194 series); FILM 199, Tutorial; and either FILM 192, Student-Directed Seminar or FILM 195, Senior Thesis.

Students in the critical studies concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following five groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

165A Film, Video and Gender

165B Race on Screen

165C Lesbian, Gay and Queer Film and Video

165D Asian Americans in Media

165G Gender and Global Cinema

187 Advanced Topics in Television Studies

189 Advanced Topics in Electronic and Digital Media Studies

And three courses to satisfy the senior comprehensive requirement. One course from the following:

194A Film Theory Seminar

194B Electronic Media Theory Seminar

194C New Media Seminar

194D Film History Seminar

194E International Cinemas

194F Film and the Other Arts: Music and Dance

194G New(s) Media

194S Senior Seminar: Special Topics

And

199 Tutorial (supervised independent study for thesis or student-directed seminar preparation)

And

192 Student-Directed Seminar or

195 Senior Thesis

And two upper-division elective courses are to be chosen from the following:

- up to two additional upper-division history/critical studies courses in film and digital media
- one upper-division course in film and digital media production (see “[Requirements for the Production Concentration](#)” for a list of upper-division production courses)

- one upper-division course offered by other departments; course substitutions must be pre-approved by the Film and Digital Media Department

PRODUCTION CONCENTRATION

Admission to the production concentration is selective, based on promise and accomplishment shown in the student’s work. After completing FILM 170B (prerequisite for most film/video production courses) students may apply to the production concentration. Students who complete FILM 170A (prerequisite for most digital media production courses) with a B or better are also eligible to pursue the production concentration though they will aim to fulfill the requirements with digital media production courses and other production courses that do not require the FILM 170B prerequisite.

FILM 170B students apply by submitting works created in 170B to a portfolio review conducted at the end of each quarter. These student works are reviewed by a committee of film and digital media production faculty. Instructions for the portfolio review are available at the Film and Digital Media Department office. Students should note that production courses are in high demand and that faculty/student ratios and equipment resources limit the number of applicants accepted into the production concentration. Students may reapply a second time if not accepted.

FILM 170A students who complete the course with a B or better apply by submitting a statement of intent to pursue the digital media pathway in production. Students are required to meet with the undergraduate adviser to discuss their digital media plan prior to submitting their statement of intent.

If a student accepted into the production concentration is unable to meet all the requirements for the concentration, they will be advised to complete the graduation requirements for the general major. Application materials and instructions for all production courses are available each quarter [online](#).

REQUIREMENTS FOR THE PRODUCTION CONCENTRATION

Students in the production concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

170A Fundamentals of Digital Media Production (prerequisite for most digital media production courses) or

170B Fundamentals of Film and Video Production (prerequisite for most film/video production courses)

Two upper-division film and digital media production courses from the following:

Film and Digital Media

150 Screenwriting
151 Film Directing
170A Fundamentals of Digital Media Production
170B Fundamentals of Film and Video Production
171A Special Topics Workshop: Sound
171C Special Topics Workshop: Found Footage
171D Special Topics Workshop: Social Information Spaces
171F Special Topics Workshop: Autobiographical Film
171S Special Topics in Film and Digital Media Production
172 Narrative Video Workshop
173 Narrative Digital Media Workshop
175 Documentary Video Workshop
176 Experimental Video Workshop
177 Digital Media Workshop: Computer as Medium
178A Personal Computers in Film and Video
178B Advanced Personal Computers in Film and Video
179A Special Topics in Animation
179B Special Topics Workshop: Documentary Animation Workshop

Two critical studies courses taken from two of the three following groups:

130 Silent Cinema
132A International Cinema to 1960
132B International Cinema, 1960 to Present

134A American Film, 1930–60
134B American Film, 1960–Present

136A Experimental Film and Video
136B History of Television
136C Visual Culture and Technology: History of New Media
136D Documentary Film and Video

One course from the following:

194A Film Theory Seminar
194B Electronic Media Theory Seminar
194C New Media Seminar
194D Film History Seminar
194E International Cinemas
194F Film and the Other Arts: Music and Dance
194G New(s) Media
194S Senior Seminar: Special Topics
196A Senior Project in Film and Video Production
196B Senior Project in Screenwriting
196C Senior Documentary Workshop
197 Senior Digital Media Workshop

and four upper-division elective courses are to be chosen from the following:

- up to two upper-division film and digital media production courses (150 through 179B, see complete list above)
- at least two upper-division film and digital media history/critical studies courses

- up to two upper-division critical studies or production elective courses from another department or another institution; course substitutions must be pre-approved by the Film and Digital Media Department.

INTEGRATED CRITICAL PRACTICE CONCENTRATION

The integrated critical practice concentration (ICPC) provides a more rigorous pathway through the film and digital media major and offers classes specifically reserved for seniors with exceptional abilities in both critical studies and production who seek to combine creative and scholarly work. Students are eligible to apply for the integrated critical practice concentration in the last quarter of their junior year, provided they have completed FILM 120 and at least three other upper-division critical studies classes. Students not already admitted to the production concentration should apply simultaneously to the production and ICPC concentration. Acceptance into the production concentration is a required pre-condition for acceptance into the integrated critical practice concentration. Applicants must already be declared film and digital media majors in good academic standing.

Students will be asked to submit the following application materials:

- a completed application form
- a one-page statement of purpose
- a sample essay
- a FDM faculty statement of support (submitted directly to the department)

Application materials and instructions are available at the Film and Digital Media Department Office. Student application materials are reviewed by a committee of film and digital media faculty. Admission to the integrated critical practice concentration will be granted to students who have excellent grades in film and digital media courses, an outstanding writing sample, a clear statement of purpose outlining a senior project that integrates critical studies and production work, and a strong FDM faculty endorsement. Students may reapply a second time if not accepted, but not later than the first quarter of their senior year.

REQUIREMENTS FOR THE INTEGRATED CRITICAL PRACTICE CONCENTRATION

The integrated critical practice concentration curriculum adds the following requirements to those already established for the film and digital media major. Students are required to take 170B as part of their core curriculum, and to complete six elective classes, rather than five. For the senior exit requirement students are required to complete one course (195, 196A, 196B,

Film and Digital Media

196C, or 197) which, combined with an independent study (FILM 199, Tutorial) taken either consecutively or simultaneously, will integrate critical studies and production work.

Students in the integrated critical practice concentration complete the following required upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following five groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

170A Fundamentals of Digital Media Production

170B Fundamentals of Film/Video Production

194A Film Theory Seminar

194B Electronic Media Theory Seminar

194C New Media Theory Seminar

194D Film History Seminar

194E International Cinemas

194F Film and the Other Arts: Music and Dance

194G New(s) Media

194S Senior Seminar: Special Topics

Two courses to satisfy the senior comprehensive requirement:

199 Tutorial, and one of the following:

195 Senior Thesis

196A Senior Project in Film and Video Production

196B Senior Project in Screenwriting

196C Senior Documentary Workshop

197 Senior Project in Digital Media

And five upper-division elective courses are to be chosen from the following:

Two upper-division history/critical studies course in film and digital media

Three upper-division courses in film and digital media production (see "[Requirements for the Production Concentration](#)" for a list of upper-division production courses)

- courses from the above upper-division core curriculum in excess of requirements may NOT count as electives.
- graduate seminars, taken with permission of the faculty adviser, may substitute for one of the electives

- a maximum of two electives may be taken in another department or another institution if pre-approved by the Film and Digital Media Department.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. Film and digital media majors receive detailed information and guidance about the major's DC requirement from the department's undergraduate adviser.

The DC requirement is met by passing one course from each of the two following categories:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

134A American Film, 1930-1960

134B American Film, 1960-Present

194A Film Theory Seminar

194B Electronic Media Theory Seminar

194C New Media Seminar

194D Film History Seminar

194E International Cinemas

194F Film and the Other Arts: Music and Dance

194G New(s) Media

194S Senior Seminar: Special Topics

196A Senior Project in Film and Video Production

196B Senior Project in Screenwriting

196C Senior Documentary Workshop

197 Senior Digital Media Workshop

COMPREHENSIVE REQUIREMENT

All seniors in the general film and digital media major select a senior seminar.

- Senior seminar: The senior seminars (courses in the 194 series) are restricted to majors in their senior year and are writing intensive. Students in the general major are required to complete one senior seminar. Students in the production concentration may complete the senior seminar to satisfy the senior exit requirement or as an elective.

All seniors in the production concentration may satisfy the comprehensive requirement with either a senior seminar or a senior project course.

- Senior seminar: The senior seminars (courses in the 194 series) are restricted to majors in their senior year and are writing intensive. Students in the general major are required to complete

Film and Digital Media

one senior seminar. Students in the production concentration may complete a senior seminar to satisfy the senior exit requirement or as an elective.

- Senior project: A limited number of students in the production concentration may satisfy the senior exit requirement with FILM 196A, 196B, 196C, or 197. Admission is by application, with review of previous works and evaluation of the proposed final project by film and digital media production faculty.

Seniors in the critical studies concentration must complete the following to satisfy the campus exit requirement: A FILM 194, FILM 199, and either FILM 192 or 195.

Seniors in the integrated critical practice concentration must complete FILM 195, 196A, 196B, 196C, or 197 combined with FILM 199, Tutorial.

TRANSFER STUDENTS

All transfer students must enroll in at least one lower-division course (20A, 20B, or 20C) during their first quarter in residence. Transfer students are strongly encouraged to enroll in 20A during the Summer Session preceding their first quarter in residence. After completing one lower-division course (20A, 20B, or 20C) with a grade of C or better, transfer students may declare the film and digital media pre-major.

All transfer students must earn a C or higher in two 20-level courses, FILM 20A and 20B or 20C (at least one must be taken at UCSC) to declare the major. Three lower-division courses, nine upper-division courses, and satisfaction of the senior exit requirement are required for completion of the general major. Transfer students should be able to complete the general major within two years. As preparation, prospective transfer students are encouraged to complete FILM 20A through UCSC Summer Session prior to their transfer. Transfer students must petition the department to have equivalent lower-division courses taken at their current institution count toward their UCSC major requirements provided they have earned a C or higher in each course.

Students who have not fulfilled their general education requirements prior to transferring pursue one of the film and digital media concentrations, pursue a double major or minor, or study abroad may need additional time to complete their requirements.

Transfer students are strongly advised to attend a UCSC Summer Orientation session for transfer students. Transfer students must consult with a film and digital media academic adviser prior to enrolling in classes to determine their status and to begin the declaration of major process as soon as possible.

HONORS

Honors in film and digital media are awarded to graduating seniors whose academic performance in their major coursework is judged by a faculty committee to be consistently excellent to outstanding. Students must have at least a cumulative GPA of 3.5 in the major to be considered for Honors.

MINOR

The minor in film and digital media offers a foundation in visual culture and contributes important scholarly techniques of value to other disciplines. Students earn a minor in film and digital media by completing eight courses: FILM 20A and 20B or 20C, and six upper-division courses including four from the core curriculum of the general major and two electives. There is no production component in the minor, nor is there a comprehensive requirement.

DECLARING THE FILM AND DIGITAL MEDIA MINOR

Students who pass FILM 20A, 20B or 20C are eligible to declare the film and digital media minor.

LOWER-DIVISION REQUIREMENTS

20A Introduction to Film Studies

and one of the following two courses:

20B Introduction to Television Studies

20C Introduction to Digital Media

UPPER-DIVISION REQUIREMENTS

Students in the minor must complete the following upper-division core curriculum:

120 Introduction to Film Theory and Criticism

One course from each of the following three groups:

130 Silent Cinema

132A International Cinema to 1960

132B International Cinema, 1960 to Present

134A American Film, 1930–60

134B American Film, 1960–Present

136A Experimental Film and Video

136B History of Television

136C Visual Culture and Technology: History of New Media

136D Documentary Film and Video

And two upper-division elective courses to be chosen from the following: any two additional upper-division film and digital media history/critical studies courses other than production studio courses (150, 151, 170A through 179B) that have not been used to satisfy the above upper-division core curriculum. One of the electives may be substituted from another department or institution. Course substitutions must be approved by the Film and Digital Media Department.

FILM AND DIGITAL MEDIA PH.D.

The Doctor of Philosophy (Ph.D.) program in film and digital media challenges the traditionally conceived borders between creative and critical practice. The program enables dialogue between creative practice and theoretical knowledge as related forms of intellectual work and provides the conditions for students to realize a wide range of possible projects, including those that exist across the traditional divides of critical studies and production. Focusing on a diverse range of cultural production that includes cinema, television, video art, and Internet-based media, Ph.D. interrogate the historical, aesthetic, political, ideological, and technological aspects of these media forms across a range of international contexts, investigating their points of connection and convergence as well as their relationship to broader cultural and historical change. The program thus prepares students for intellectually informed creative practice as well as theoretical and critical production in a range of environments, not limited to traditional academic contexts.

REQUIREMENTS

COURSEWORK

- A minimum of 108 units of study in coursework at UCSC. Residence for a minimum of six quarters.
 - Applicants who already hold an M.A. or M.F.A. degree may petition to waive up to 30 credits of coursework; such a waiver is subject to the approval of the director of Graduate Studies.
- Residence for a minimum of six quarters.
- When in residence, students will take a minimum of 36 credits per year until advancement to candidacy.
- First year students will be required to take the three foundational courses (200A-B-C), plus at least two film and digital media graduate elective courses.*
- Second year students must then take at least four film and digital media graduate elective courses.*
- Students are not permitted to enroll in 295 (Directed Reading) classes during their first year and are limited to one during their second year, unless they enter the program with an M.A. or M.F.A.
- Third year students arrange three Directed Readings (FILM 295) to prepare for the three topic areas of their qualifying examination.

- Prior to advancing to candidacy, students will continue to meet the minimum number of credits with other 2-5 credit elective courses as appropriate.
- A student will thus take at least nine film and digital media graduate courses over the degree, not including 295, 297 and 299 classes.
 - The remaining course units may be selected from film and digital media graduate courses or graduate courses other departments, subject to approval from the student's faculty adviser.
- Students must obtain permission from the Director of Graduate Studies, their faculty adviser to take advanced undergraduate courses.
- Students are expected to complete at least one year of supervised teaching as part of the degree requirements.

*Non-film and digital media graduate courses that are taught by film and digital media faculty can count as film and digital media graduate electives. Graduate electives in this category are listed in the annual and quarterly courses posted on the department's web site <http://film.ucsc.edu/> > Programs > Courses.

FOREIGN LANGUAGE REQUIREMENT

Students must demonstrate proficiency in a language other than English. This may include a computer programming language instead of a natural language when such a language is integral to the student's field of study. The language requirement may be satisfied in one of two ways:

- by passing an upper-division course in a language related to the student's research
- by passing a reading proficiency test administered by a qualified person approved by the director of Graduate Studies.

A student must pass the language requirement before taking Ph.D. qualifying examinations. There are three exceptions. (Documentation for the exception must be received and approved by the director of Graduate Studies at least two months before the qualifying examination.)

- The "foreign" language requirement may be waived for a non-English native speaker who has passed the proficiency test in English required for admission.
- The requirement may be waived for a student who is a native speaker of another language in addition to English. The student must submit a

statement to the director of Graduate Studies attesting to their proficiency in the additional native language.

- The requirement may be waived if a student has proof of proficiency in a language other than English in the form of a language major or minor from recent undergraduate or master's level education or equivalent. This must have been completed within the past five years at an accredited institution.

TIMELINE: COURSE SEQUENCE, EXAMINATIONS, AND DISSERTATION

During the first year of study in FILM 200A-B-C classes, students will be introduced to the methodologies of developing a critical practice approach. This will occur while students simultaneously strengthen, with the appropriate elective classes, areas of theory or practice that pertain to their focus.

During the second year, the student will focus on selecting classes from the film and digital media elective series numbered 210–289. Students will also be encouraged to take electives from other graduate programs on campus.

At the end of the second year, undergo a second year review which functions as the master's examination. Students will submit four to five coursework projects for the exam. One of these must be the final project from 200C. Students will also submit a statement about that work and its contexts, which will form the basis for oral examination questions by faculty members.

Students may nominate faculty members to the committee. The student's faculty adviser and the Director of Graduate Studies will assemble the committee, taking into account the student's nominations. The committee will have a minimum of three faculty members, at least two of whom must be from the film and digital media faculty. One of those two must be the faculty adviser, who will chair the meeting. The committee must also include the Director of Graduate Studies. (The Director of Graduate Studies will not necessarily sit on the student's committee for future exams/reviews.) The exam is closed; only the student and the faculty committee will be present.

For students entering without a master's degree, the committee will recommend one of three grades for the M.A. examination: fail, pass, or pass with permission to proceed. Students who fail may retake the oral component of the examination one time. A student with a pass only may leave the program with the degree of master of arts. Students who pass with permission to proceed may enter the third year of coursework toward the Ph.D. For students entering with a master's degree, the committee will discuss the result of the review and its recommendations for further progress in the

program, including the timeline to the Ph.D. qualifying exam (QE).

The third year will be spent developing three qualifying exam topics that will lead to the dissertation in close consultation with the student's faculty adviser. (This may occur earlier for students who enter with a master's degree.) Students work with three faculty members to develop three distinct topic areas with a corresponding bibliography/mediagraphy in 295 (Directed Reading). Topic areas must be pre-approved by the director of Graduate Studies who will ensure that the breadth requirement is met.

Students will also begin assembling a qualifying exam committee. The QE committee will be comprised of four faculty members, at least one of whom must be from another discipline at UCSC or from another campus. Students will also nominate a faculty member to chair the examination committee. The chair should be a tenured faculty member from the Film and Digital Media Department, holding a Ph.D., but should not be the student's primary faculty adviser or the person who will chair the dissertation. The composition of the QE committee must be approved by the Graduate Division and must be submitted to the director of Graduate Studies at least five weeks prior to the written examination.

The qualifying exam will typically be scheduled for the fall of the fourth year and no later than the end of the fourth year. (Students who enter with a master's degree may be eligible to take the qualifying exam before their fourth year.) The QE will consist of a written examination and an oral examination. A student who fails the Ph.D. Qualifying Exam will be permitted to re-take it one time. During the qualifying exam quarter, students may enroll in up to two 299 (Thesis Research) classes with members of their committee.

No later than two academic quarters after successfully passing the qualifying examination, students submit a Dissertation Prospectus. The candidate's qualifying exam committee must approve this prospectus. After the dissertation prospectus has been approved, the student will schedule a dissertation colloquium open to all film and digital media faculty and graduate students. The colloquium can be scheduled before or shortly after the official advancement to candidacy.

Students will advance to candidacy once they have successfully:

- Completed all required coursework with satisfactory grade
- Satisfied the language requirement
- Passed the Ph.D. qualifying exam
- Submitted a dissertation prospectus approved by their dissertation committee
- Organize an approved dissertation committee, through the dissertation nomination form.

COMPLETION OF THE DEGREE

Upon successful advancement to candidacy, students must then complete the following requirements for the Ph.D.

Dissertation: The dissertation, or Ph.D. thesis, is to be an original contribution of high quality to the field of film and digital media. If a student's thesis contains a substantial creative component, the thesis project must also include a written component of no less than 75 pages. The dissertation must be approved by a committee consisting of a minimum of three faculty members, at least two must be from the film and digital media faculty. If the dissertation director does not hold a Ph.D. degree, then the majority of the remaining committee members must hold Ph.D.s.

The Ph.D. candidate shall submit the dissertation providing a minimum of 45 days for the committee members to review it. Once the committee has deemed it ready to defend, the candidate will work with the department and committee to schedule the oral dissertation defense.

Oral Defense: The oral defense will be comprised of a brief introduction of the dissertation's form and content, and an articulation of the scholarly and artistic intervention it forges; the student will then answer questions posed by their dissertation committee. Invited members of the academic community may attend the defense, but the discussion will remain among the candidate and the committee.

Once the student has passed the oral dissertation defense, responds to any questions or suggestions for revisions, and has the dissertation approved by the committee, they will be eligible to "Announce Candidacy for Ph.D." by submitting the dissertation and required documents to the Division of Graduate Studies.

SAMPLE STUDENT PROGRAM FOR EACH YEAR (YEARS 1-4)

Year 1: three core film and digital media courses; three electives, at least two of which are film and digital media courses or courses taught by film and digital media faculty

Fall

FILM 200A, Introduction to Graduate Study
Elective
Foreign language/other elective (at least 2 credits)

Winter

FILM 200B, Theory and Praxis of Film and Digital Media, Part 1
Elective
Foreign language/other elective (at least 2 credits)

Spring

FILM 200C, Theory and Praxis of Film and Digital Media, Part 2
Elective
Foreign language/other elective (at least 2 credits)

Year 2: six electives; at least four of which are film and digital media courses or courses taught by film and digital media faculty

Fall

Elective
Elective
Foreign language/other elective (at least 2 credits)

Winter

Elective
Elective
Foreign language/other elective (at least 2 credits)
Student suggests M.A. examination committee; prepares for examination.

Spring

Elective
Elective
Foreign language/other elective (at least 2 credits)
Student takes M.A. examination. If successful, advances to third year.

Year 3: three required film and digital media courses, three electives from Film and Digital Media or another department

Fall

FILM 295, Directed Reading
Elective
Foreign language/other elective (at least 2 credits)

Winter

FILM 295, Directed Reading
Elective
Foreign language/colloquium study/other elective (at least 2 credits)
Student develops three topic areas for Ph.D. qualifying exam

Spring

FILM 295, Directed Reading
Elective
Foreign language/other elective (at least 2 credits)
Student assembles Ph.D. dissertation committee, nominates Ph.D. qualifying examination committee.

Year 4: Student takes Ph.D. qualifying examination, registering for FILM 299, Thesis Research. If successful, advances to candidacy and continues research and writing of dissertation.

DESIGNATED EMPHASIS

Film and Digital Media

UC Santa Cruz graduate students enrolled in doctoral programs may obtain a designated emphasis in film and digital media as part of their Ph.D. degree. Students must meet the following requirements in order to obtain the designated emphasis:

- Secure approval from a member of the film and digital media core faculty to serve as the adviser for the designated emphasis.
- Submit a significant piece of writing, or a project that includes both writing and creative practice, that demonstrates competence in the field of film and digital media. A writing submission could take the form of a seminar paper or dissertation chapter. A

writing/creative project may be constituted from a range of possible media such as film, video, web-based or other digital media. The submitted project must meet the approval of the student's film and digital media adviser.

- Successfully complete four graduate courses (not independent studies) taught by either core or affiliated faculty of the film and digital media Ph.D. program. The courses must be pre-approved by the student's designated emphasis adviser.

SOCIAL DOCUMENTATION M.A.

(See [Social Documentation](#))

FILM AND DIGITAL MEDIA FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

SLawrence Andrews

Documentary, sound, animation, installation

Sharon Daniel

New media and interactive documentary; social, economic, environmental and criminal justice; socially engaged art; community-based public art in information and communications environments; social and political aspects of information design; documentary forms and ethics

Eli E. Hollander, Professor Emeritus

Jonathan Kahana

Documentary film and media; film and politics; American film history; essay film; cultural and social theory; media publics; arts of historical re-enactment; war and cultural memory; audio culture; disciplines of listening

Charles L. Lord, Professor Emeritus

Margaret Morse, Professor Emerita

Rick Prelinger

Critical archival studies; personal and institutional recordkeeping; access to the cultural record; media and social change; ephemeral cinema; amateur and home movies; participatory documentary; digital scholarship; cinema and public history

B. Ruby Rich

Documentary film and video; new queer cinema; feminist film history; Latin American and Latina/o cinema and other global/regional cinemas; U.S. independent film and video; the essay film; film festival studies; the making/marketing of foreign films in the U.S.; writing, editing, and journal submission

Warren Sack

Software design and media theory

Shelley Stamp

Film history, theory, and criticism; silent cinema; early Hollywood; women's filmmaking; film censorship; histories of moviegoing; feminist approaches to cinema

Gustavo Vazquez

Film and video production, documentary and experimental cross-cultural experiences in film

ASSOCIATE PROFESSOR

Irene Gustafson

Documentary theory and practice, experimental film/video, production design, gender and queer studies

L. S. Kim

Television history and theory, racial discourse, feminist criticism, Asian-American cultural theory and production, industrial practices and social change in both mainstream Hollywood and alternative media

John Jota Leños

Documentary animation, social documentation, critical ethnic studies, social art practice, community arts, Chicana/o art and culture, new media, critical media studies, cultural studies, documentary photography, installation art, public art and interventionist art practice

Peter Limbrick

International cinemas, especially Arab and Middle Eastern cinemas and Australasian cinemas; postcolonial theories and settler colonialism; theories of globalization and transnationalism; intersections of race, gender, and sexuality; queer theory; film and video history and historiography

Irene Lusztig

Film and video production, experimental ethnography and essayistic nonfiction;

Film and Digital Media

representations of historical memory; archives, propaganda and training films; feminist film practices; medical film; autobiographical filmmaking; interactive documentary; editing

Yiman Wang

Theory of difference; film history and theory; colonial/semi-colonial/postcolonial/postsocialist modes of media production and exchange; border-crossing film remakes; silent cinema; translation theory and cinema; acting theory/practice and ethnic star studies with focus on Anna May Wong; transnational connections and ramifications of Chinese cinema and documentary; fan culture; East Asian cinemas; critical animal studies and moving images

ASSISTANT PROFESSOR

Anna Friz

Sound studies, media history, sound production, radio and transmission art, media art installation and performance, methodologies for research creation, feminist theories of technology, community and pirate media

Jennifer Horne

Media citizenship; non-theatrical film and film exhibition; archives and technologies of information; film preservation; mass media and humanitarianism; cinema and media history and historiography; institutions, disciplinarity, and the politics of knowledge; feminist theory

Soraya Murray

Contemporary visual culture including: new media art, projected arts, photography, film, electronic games, theories of art and globalization, representations of otherness, cultural studies

Susana Ruiz

Game and transmedia design; games as expressions of activism and art; animation; participatory culture; social art practice; non-fiction storytelling; theory/practice hybridity; animation; Theatre of the Oppressed; critical and liberatory pedagogy;

expanded documentary; interaction design; worldbuilding; transmedia production, scholarship and activism

Jennifer Maytorena Taylor

Social documentation, Latino and Latin American communities, public education, popular culture, religion, incarceration and justice, urban and community development, collaborative practices in journalism and production, transmedia

PROFESSOR

Julianne Burton-Carvajal, Professor Emerita, Literature

Teresa de Lauretis, Professor Emerita, History of Consciousness

Rosa Linda Fregoso, Professor Emerita, Latin American and Latino Studies

Herman S. Gray, Sociology

Cultural studies, media and television studies, black cultural politics, social theory

Donna J. Haraway, Professor Emerita, History of Consciousness and Feminist Studies

David S. Marriott, History of Consciousness

Poetics, black cultural studies, literary and psychoanalytic theory, visual culture studies, black cultural theory and philosophies of race, caribbean modernism, Fanon studies

ASSOCIATE PROFESSOR

Neda Atanasoski, Feminist Studies

New media and film; critical race and ethnic studies; feminist theory; human rights and humanitarianism; war and nationalism; religion and secularism; post-socialist politics and culture in Central and Eastern Europe

FILM AND DIGITAL MEDIA COURSES

LOWER-DIVISION COURSES

10. Professional Topics in Film, Television, and Digital Media (2 credits). *

Taught by a working professional, lectures and workshop provide students with career-related information and insight into a specific profession in film, television, and digital media. Students research various aspects

of a film, television, or digital media profession. Enrollment restricted to film and digital media majors and minors, pre-majors and proposed majors. THE STAFF

20A. Introduction to Film Studies. F

An introduction to the basic elements, range, and diversity of cinematic representation and expression. Aesthetic, theoretical, and critical issues are explored in the context of class screenings and

critical readings. Students are billed a course materials fee. If space allows, restrictions may be lifted after priority enrollment. Enrollment restricted to first-year, sophomore, and junior proposed and pre-film and digital media majors and film and digital media minors. THE STAFF

20B. Introduction to Television Studies. S

Introduction to the basic forms of televisual presentation, including

Film and Digital Media

differing narrative structure from movies and situation comedies to soap opera, plus modes of direct discourse in news, advertising, sports, music, television, and other genres. Alternative forms and modes in electronic media, such as independent video art and documentary, public television, cable, and electronic networks are explored, with their potential for expressing cultural diversity set in relation to social, cultural, and political conditions. Students are billed a course materials fee. If space allows, restrictions may be lifted after priority enrollment. Enrollment restricted to first-year, sophomore, and junior declared, proposed, and pre-film and digital media majors and film and digital media minors. THE STAFF

20C. Introduction to Digital Media. W

Introduces fundamental features of digital media and examines the immense visual, social, and psychological impact of the "digital revolution" on our culture. Topics include the concepts and forms of the digital hypertext interface, Internet, and web, and the impact of digital media on conceptions of the self, body, identity, and community. Students are billed a course materials fee. If space allows, restrictions may be lifted after priority enrollment. Enrollment restricted to first-year, sophomore, and junior declared, proposed, and pre-film and digital media majors and film and digital media minors. W. SACK

20P. Introduction to Production Technique. S

Introduction to the production processes of visual/aural, time-based, creative work. Students work on a range of creative projects: performed, written, photographed, and created digitally. Assignments emphasize imaginative problem-solving, collaboration, visualization, and critical media literacy. Students are billed a course materials fee. Prerequisite(s): Course 20A or 20B or 20C or 80A or 80M. Enrollment restricted to pre-majors, proposed majors, majors, frosh, sophomores,

juniors, and students not currently declared in the production concentration. (General Education Code(s): PR-C.) I. GUSTAFSON

42. Student-Directed Seminar. * Seminars on selected topics taught by upper-division students under faculty supervision (see course 192). Students submit petition to sponsoring agency. THE STAFF

80A. The Film Experience. F

Students learn to understand how films reach the public through a collaborative, industrial, and artistic practice; how films "work" in a narrative sense; how they construct meanings for viewers; and how their formal techniques construct different possibilities for meaning and interpretation. (General Education Code(s): IM.) I. GUSTAFSON

80M. Understanding Media. *

Introduces students to contemporary concerns, issues, and topics of media and media criticism. With an emphasis on visual analysis, students develop conceptual tools to think critically about photography, cinema, television, video, and print journalism. (General Education Code(s): IM.) THE STAFF

80S. Special Topics in Film and Digital Media. F,W,S

Study of selected aspects of film, television, and/or digital media. Includes weekly screenings and historical/theoretical readings. May be repeated for credit. (General Education Code(s): IM.) THE STAFF, A. FRIZ, S. RUIZ, R. PRELINGER

80T. Technothrillers. S

Examination of recent films classified as "thrillers" that approach technology (computers, robotics, biotech, the Internet, etc.) through suspense, anxiety, and paranoia. It will also address how technologically produced popular culture negotiates attitudes toward technological change. Students are billed a course materials fee. (Formerly course 80A.) (General Education Code(s): PE-T.) S. MURRAY

80V. Video Games as Visual Culture. W

Through the aesthetics and theory of electronic games, course introduces the histories, ideas, and debates that inform game studies. Topics include: games and cinema; race, class, and representation; narratology/ludology debates; interactivity; serious games; and alternative games. (General Education Code(s): PE-T.) S. MURRAY

80X. Sex in the Cinema. *

Examines the historical representation of sexual difference, orientation, and politics in film and video using cultural studies, political and economic historiography, and feminist and queer theory and paying special attention to intersections of U.S. political movements with filmmaking and reception. (General Education Code(s): IM.) THE STAFF

UPPER-DIVISION COURSES

120. Introduction to Film Theory and Criticism. W

An introduction to classical and contemporary film theory and those theoretical paradigms and methods that have illuminated the media: formalism, realism, structuralism, semiotics, psychoanalysis, Marxism, feminism, and issues of identity and difference. Students are billed a course materials fee.

Prerequisite(s): course 20A. Enrollment is restricted to film and digital media majors, pre-majors, proposed majors, and minors during priority enrollment; may be opened if space allows. Y. WANG

130. Silent Cinema. W

Presents the development of silent film as a cultural form from the early period to the beginning of sound, addressing its historical evolution, technological development, aesthetic transformations, and varied cultural contexts. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A, satisfaction of the Entry Level

Film and Digital Media

Writing and Composition requirements. (General Education Code(s): IM.) J. HORNE

132A. International Cinema to 1960. F

A survey of significant developments in narrative film outside Hollywood from the advent of sound technology to the late '50s. Differing inter/national contexts, theoretical movements, technological innovations, and major directors are studied. Students are billed a course materials fee. Usually offered alternate academic years. Prerequisite(s): course 20A, satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): CC.) P. LIMBRICK

132B. International Cinema, 1960 to Present. *

A survey of significant developments in narrative film outside Hollywood from 1960 to the present. Major film movements and directors from around the world are studied. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A, satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): CC.) THE STAFF

134A. American Film, 1930-1960. S

A survey of American narrative cinema from 1930 to 1960. Examines developments in film style, film technology, and the film industry in relation to American cultural history. Students are billed a course materials fee. Prerequisite(s): course 20A or 20B, satisfaction of the Entry Level Writing and Composition requirements. Offered in alternate academic years. (General Education Code(s): IM.) S. STAMP

134B. American Film, 1960-Present. *

A survey of American narrative cinema from 1960 to the present. Examines developments in film style, film technology, and the film industry in relation to American

cultural history. Students are billed a course materials fee.

Prerequisite(s): course 20A or 20B; and satisfaction of the Entry Level Writing and Composition requirements. Offered in alternate academic years. (General Education Code(s): IM.) THE STAFF

136A. Experimental Film and Video. S

A survey of various experimental styles and practices in film and video, addressing the historical developments of these media formats. The course situates experimental film and video work within the larger contexts of artistic traditions as well as networks of production and reception. Students are billed a course materials fee. Prerequisite(s): course 20A. (General Education Code(s): IM.) R. PRELINGER

136B. History of Television. *

Survey of the historical development of broadcast television from its origins to the present day phenomena of cable, satellite, and electronic networks. Examination of major genres, forms, and modes of production and consumption within cultural, social, and economic contexts. Offered every other year, alternating with course 136A. Students are billed a course materials fee. Prerequisite(s): course 20B. (General Education Code(s): IM.) THE STAFF

136C. Visual Culture and Technology: History of New Media. *

Explores the relationship between technology and change and surveys the history of various technologies of visual culture from print to computer based imagery and the Internet. Students are billed a course materials fee. Prerequisite(s): course 20C. (General Education Code(s): PE-T.) THE STAFF

136D. Documentary Film and Video. F

Explores the category of nonfiction through a historical and theoretical study of documentary in film and video. Addresses ethnographic film,

Soviet and Griersonian documentary, cinema verite and/or other selected documentary texts and the issues of representation they raise. Students are billed a course materials fee. (Formerly course 161.) Prerequisite(s): course 20A or 20B. Offered in alternate academic years. (General Education Code(s): IM.) J. KAHANA

142. Beyond Cybernetics: Advanced Topics in New Media Technologies. *

Analysis of the effects of communication and information technologies on culture and cultural production through the study of systems and networks. Assignments may include papers, Internet presentations, development/participation in virtual communities, interactive multimedia. Emphasis on advanced critical and experimental approaches. Students are billed a course materials fee. Prerequisite(s): course 20C. Enrollment restricted to film and digital media majors. Enrollment limited to 40. THE STAFF

150. Screenwriting. F,S

Problems in writing for film and television are explored through the writing of original material and analysis of existing works. Various film genres, conventions, and styles, both fictional and nonfictional, are examined. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed the Entry Level Writing and Composition prerequisites may apply and will be considered if space is available. May be repeated for credit. (General Education Code(s): PR-C.) N. V.

151. Film Directing. S

Workshop that explores the director's involvement in film and video production. Topics will

Film and Digital Media

include the manipulation of time and space, continuity, script planning and blocking, and working with actors and crew. Students will participate in group and individual exercises in pre-production and scene direction. Prerequisite(s): courses 20A, 20P, and/or 170B are recommended; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 20A; 20P and/or 170B may apply and will be considered if space is available. Enrollment limited to 25. (General Education Code(s): PR-E.) G. VAZQUEZ

152. Script Analysis. *

Students analyze diverse narrative techniques, dramatic structures, and genre forms to understand the craft of screenwriting and prepare for their own creative writing and filmmaking. Students read finished scripts and view films. Prerequisite(s): course 120. Enrollment restricted to film and digital media majors and film and digital media pre-majors. Enrollment limited to 25. THE STAFF

160. Film Genres. F

Concentrated study of films from one cinematic grouping with similar themes and narrative structures such as westerns, musicals, or science fiction, or a comparative study of different genres. History, theory, and criticism of the genre are covered. Students are billed a course materials fee. Prerequisite(s): course 130, 132A, 132B, 132C, 134A or 134B. May be repeated for credit. (General Education Code(s): IM.) J. HORNE

161. Topics in Documentary.

Study of topics in documentary film and video. THE STAFF

161B. Documentary Animation. *

Examines the history, practice, and emergence of documentary animation in contemporary film, on the Web and as activist media with

emphasis on the discourse central to social documentary, decolonial theory, and the politics of representation. Prerequisite(s): course 20A. Enrollment restricted to juniors and seniors. J. LEANOS

162. Film Authors. F,S

Intensive critical study of the work of one film auteur (director, screenwriter, actor, cinematographer). Themes, style, and structure are explored using various critical modes of analysis. Students are billed a course materials fee. Prerequisite(s): course 130, 132A, 132B, 132C, 134A, or 134B.. May be repeated for credit. (General Education Code(s): IM.) THE STAFF

165A. Film, Video, and Gender. *

A study of texts, theories, and issues of gender in film and/or video. Changing focus on one or more topics, including production and authorship, representation, reception, theories of identification, sexual preference, and related issues. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A or 20B. THE STAFF

165B. Race on Screen. F

Review of historical and critical tools to interpret representations of race on cinematic, television, and computer screens. Class will consider the place of race in theoretical and historical scholarship and examine the debates about race produced within and across film and digital media. Students are billed a course materials fee. Usually offered in alternate academic years. Prerequisite(s): course 20A or 20B. (General Education Code(s): ER.) Y. WANG

165C. Lesbian, Gay, and Queer Film and Video. *

An overview of homosexuality and LGBT representations in American film. Explores the format and historical significance of New Queer Cinema. Recent independent queer film and video discussed. Topics include: authorship; spectatorship; genre and genre reappropriation;

historical gender constructs; the "art" film; mainstream versus independent production; and the relationship of film to popular music. Students are billed a materials fee. Enrollment restricted to juniors, sophomores, and seniors. (General Education Code(s): IM.) THE STAFF

165D. Asian Americans and Media. *

Examines media representations about, as well as by, Asian Americans. Using critical essays on film theory, racial studies, feminist criticism, and independent cinema, students develop the skills necessary to conduct critical analysis of Asian Americans in film and television. Students are billed a course materials fee. Prerequisite(s): course 20A. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 60. (General Education Code(s): ER.) L. KIM

165E. Chicana/o Cinema, Video. S

Examines emergence of Chicana/o cinema and video from a place of social displacement, resistance, and affirmation. Looks at Chicana/o representation and spectatorship as it pertains to ethnicity, class, gender, and the beginning of a new Chicana/o film aesthetic. Students are billed a course materials fee. Prerequisite(s): course 20A. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 60. (General Education Code(s): CC.) J. LEANOS

165G. Gender and Global Cinema. *

Offers students historical and critical tools to investigate global film through the framework of gender. Focused in particular on contemporary film (from 1960 to present), the class is structured both chronologically and via national industries. Students are billed a course materials fee. (Formerly course 132C.) Prerequisite(s): course 20A. (General Education Code(s): CC.) THE STAFF

168. National Cinema and Culture. W

Study of a specific cinematic or other media tradition of a region, nation, language, diasporic collectivity or other unifying cultural entity. Not a survey, this course selects one focus or offers a comparative of cross-cultural framework. Students are billed a course materials fee.

Prerequisite(s): course 130, 132A, 132B, or 132C. May be repeated for credit. (General Education Code(s): CC.) THE STAFF

170A. Fundamentals of Digital Media Production. F

Introduction to the conceptual and technical fundamentals of making digital media. Covers principles of digital image manipulation, basic web authoring, and interface design through projects that introduce production techniques and methods. Students are billed a course materials fee.

Prerequisite(s): course 20C or Computer Science 101 or Computer Science 109. Enrollment limited to 20. (General Education Code(s): PR-C.) S. DANIEL

170B. Fundamentals of Film and Video Production. F,W,S

An introduction to the art and craft of making films and videos. Covers principles of cinematography, videography, editing, production planning, and lighting involving both production techniques and methods. Students are billed a course materials fee.

Prerequisite(s): course 20A or 20B and at least one upper-division film and digital media critical studies course. Admission by application; application materials available during the last three weeks of preceding quarter. Enrollment limited to 24. (General Education Code(s): PR-C.) THE STAFF, C. ARCHER, J. TAYLOR, L. ANDREWS, G. VAZQUEZ

171. Special Topics Workshops.

Study of selected aspects of film, video, and/or digital media production. THE STAFF

171A. Sound. S

The cinematic equation equals

images plus sound. What are sound-specific properties? What is the relationship between sound and image? Examines these and other questions through the creation of audio and audiovisual pieces.

Students are billed a course materials fee. Prerequisite(s): course 170A or 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter.

Students not in the production concentration but have completed 170A or 170B may apply and will be considered if space is available. Enrollment limited to 20. A. FRIZ

171C. Special Topics Workshop: Found Footage. F

Students will consider the practice of "recycling" images perhaps not intended by the original "owner" or "creator." In addition to assigned readings and technical workshops, students produce three video projects and give a presentation on a specific issue or artist/group. Prerequisite(s): course 170A or 170B; priority given to students in the production concentration.

Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170A or 170B may apply and will be considered if space is available. Enrollment limited to 20. (General Education Code(s): PR-C.) R. PRELINGER

171D. Social Information Spaces. *

Investigates how information spaces can be designed to be inhabited, socially navigable spaces. Emphasizes the social navigation of information spaces, a set of techniques and ideas from computer-supported cooperative works, human-computer interaction, and architecture. Prerequisite(s): course 170A. Enrollment limited to 20. THE STAFF

171F. Special Topics Workshop: Autobiographical Film. F

Students explore autobiography as a filmmaking genre and practice, using experimental, fictionalized, documentary, and hybrid forms.

Readings and screenings provide a theoretical context for production work. Topics include: strategies of (self) representation, reenactment, performance, portraiture, memoir, confession, and diaristic film.

Students are billed a course materials fee. Prerequisite(s): course 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter.

Students not in the production concentration but have completed 170B may apply and will be considered if space is available. Enrollment limited to 20. I. LUSZTIG

171S. Special Topics in Film and Digital Media Production. *

An intermediate workshop-style production course which addresses diverse themes and approaches.

Content changes quarterly according to faculty research interests and changing technologies/discourses in digital audiovisual production.

Prerequisite(s): course 170B.

Admission is by application; application materials are available during the last three weeks of the preceding quarter. Priority is given to students in the production concentration. Students not in the production concentration may apply and are considered on a space-available basis. Enrollment limited to 20. May be repeated for credit. THE STAFF

172. Narrative Video Workshop. F,W,S

Intermediate workshop in film and video production concentrating on narrative production, development of critical standards, and technical methods. Topics include cinematography, sound, and non-linear digital editing techniques.

Each student is responsible for the completion of short narratives from assignments. Students are billed a course materials fee.

Film and Digital Media

Prerequisite(s): course 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170B may apply and will be considered if space is available. Enrollment limited to 20. C. ARCHER

173. Narrative Digital Media Workshop. *

Analysis of cinematic codes and narrative structure through digital video, Internet and interactive multimedia projects. Required readings address contemporary research in narratology and hyper-media, exploring the potential of digital technology to reconfigure the role of both author and audience. Students billed a course materials fee. Prerequisite(s): course 170A. Enrollment limited to 20. THE STAFF

175. Documentary Video Workshop. W

Workshop in documentary video production, development of critical standards, ethical issues, and technical methods. Each student is responsible for the completion of short documentaries from assignments. Students are billed a course materials fee.

Prerequisite(s): course 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170B may apply and will be considered if space is available. Enrollment limited to 20. I. LUSZTIG

176. Experimental Video Workshop. *

Introductory workshop in video production (non-narrative, experimental). Topics include a survey of non-narrative experimental video from a historical/theoretical perspective and an introduction to videography,

fundamentals of video editing, and sound. Students are billed a course materials fee. Prerequisite(s): course 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170B may apply and will be considered if space is available. Enrollment limited to 20. G. VAZQUEZ

177. Digital Media Workshop: Computer as Medium. *

Introduction to the computer as a medium as well as a tool. Students explore art practice within digital imaging and information and communications environments through projects, readings, and "screenings." Assignments may include designing virtual communities and /or interactive, multimedia web works. Students are billed a course materials fee. Prerequisite(s): course 170A. Enrollment limited to 20. S. DANIEL

178A. Personal Computers in Film and Video. *

Introduction to the specific applications of computers for film and video. By using computer-generated, enhanced and imported graphics, animation, text, sound, and moving video, students create still and time-based works in a computer environment. Students are billed a course materials fee. Prerequisite(s): course 170A or 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170A or 170B may apply and will be considered if space is available. Enrollment limited to 20. THE STAFF

178B. Advanced Personal Computers in Film and Video. *

Study of advanced computer tools in digital media, including exploration, creation, and

manipulation of sound with the same level of complexity as required in composing the moving image. Students produce a final project that demonstrates skills learned. Prerequisite(s): course 170A or 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students not in the production concentration but have completed 170A or 170B may apply and will be considered if space is available. Enrollment limited to 20. THE STAFF

179A. Special Topics in Animation. S

Provides opportunities to learn technical skills in animation while engaging in critical analysis of animation and design. Students are encouraged to pursue their personal artistic vision as well as to develop a collaborative and problem-solving mindset. Prerequisite(s): course 170A or 170B; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of the preceding quarter. Students not in the production concentration but have completed 170A or 170B may apply and will be considered if space is available. Enrollment limited to 20. S. RUIZ

179B. Documentary Animation Workshop. W

A project-based production seminar in documentary animation: students learn diverse animation styles and techniques, and apply them to a documentary-animation class project. Courses 161B and 170A are strongly recommended as preparation (or equivalent background); priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of the preceding quarter. Students not in the production concentration may apply and will

Film and Digital Media

be considered if space is available. Enrollment limited to 20. J. LEANOS

180. Writing About Film, Television, and Digital Media. *

Improves students' ability to write and edit, and invites students to explore different kinds of writing related to film, television, and digital media including historical, theoretical, cultural criticism, popular reviews, grant proposals, online forums, and publishing. Prerequisite(s): course 20A, 20B, or 20C. Enrollment restricted to sophomore and junior film and digital media majors. Enrollment limited to 20. THE STAFF

185. Special Topics in Film and Video.

Study of selected aspects of film and/or video history, theory, or criticism. Students are billed a course materials fee. THE STAFF

185D. Sound and Image in Theory and Criticism. S

Explores theories and critiques of sound in culture and analyzes sound in relation to media images in film, video, and other media. Voice, noise, and music are addressed. Students are billed a course materials fee. Prerequisite(s): course 120. A. FRIZ

185R. The Film Remake. *

History and theory of the remake through case studies across cultural, gender, and genre boundaries. Examines changing cultural, social, stylistic, and technical values and explores notions of originality, repetition, homage, allusion, quotation, and intertextuality from Feuillade and Hitchcock to Raimi and Johnny To. Students are billed a course materials fee. Prerequisite(s): course 120, 130, 132A, 132B, 132C, 134A or 134B. THE STAFF

185S. Advanced Topics in Film Studies. W

Study of a selected aspect of film history, theory, or criticism. Includes weekly screenings and historical/theoretical readings. Usually offered in alternate academic years with rotating topics. Students are billed a course

materials fee. Prerequisite(s): courses 120, 130, 132A, 132B, 132C, 134A, or 134B. May be repeated for credit. THE STAFF

185X. EyeCandy Seminar. W

Seminar and workshop on writing, producing, and publishing a journal. Students engage in assignments and exercises directly and indirectly related to the production of a web launch as well as a print copy of EyeCandy. Permission of instructor required based upon student's participation in EyeCandy in winter and spring quarters. Preference given to film and digital media majors and minors; others may apply based on qualifications and as space allows. Students are billed a course materials fee. May be repeated for credit. (General Education Code(s): PR-E.) THE STAFF

187. Advanced Topics in Television Studies. *

Study of a selected aspect of television history, television criticism, or national television. Includes weekly screenings and historical/theoretical readings. Usually offered in alternate academic years, with rotating topics. Students are billed a course materials fee. Prerequisite(s): course 20B. Enrollment restricted to junior and senior film and digital media majors and minors. May be repeated for credit. L. KIM

189. Advanced Topics in Digital and Electronic Media Studies. F

Study of a selected aspect of digital and/or electronic media history and criticism. Topics can include virtual environments, electronic networks, video installations, computer games, and hyper-media. Usually offered in alternate academic years. Students are billed a course materials fee. Prerequisite(s): course 20C. Enrollment restricted to junior and senior film and digital media majors and minors during priority enrollment; may be opened if space allows. May be repeated for credit. (General Education Code(s): PE-T.) R. PRELINGER

192. Directed Student Teaching. F,W,S

Teaching a lower-division course under faculty supervision (see course 42). Proposal supported by a faculty sponsor and department. THE STAFF

194A. Film Theory Seminar. *

Advanced senior seminar examining classical and contemporary film theory and those theoretical paradigms and methods that have illuminated the medium: formalism, realism, structuralism, semiology, psychoanalysis, Marxism, feminism, and phenomenology. Primary texts are read. Students are billed a course materials fee. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. J. HORNE

194B. Electronic Media Theory Seminar. *

Study of the major theoretical approaches to electronic media and their critical application to texts from television, independent video art and documentary, and electronic networks. Readings include a range of theoretical approaches selected from semiotic, ideological, feminist, cultural studies, reception theory, postmodernist, and other critical traditions. Students are billed a course materials fee. Prerequisite(s): courses 20B and 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. THE STAFF

194C. New Media Theory Seminar. F,W

Study of theories of emerging genres of electronic culture, with emphasis on the discourse about computer-assisted and computer-generated forms of art and mass culture such as digital imagery, virtual environments, telematics, hyper- and multimedia, and electronic networks. Students are billed a course materials fee. Prerequisite(s): courses 20C and 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. S. MURRAY, THE STAFF

Film and Digital Media

194D. Film History Seminar. S

In-depth study of film history investigating developments in cinematic style, technological innovation, and industrial practice against the broad canvas of cultural history. Students will acquire the basic tools necessary to conduct informed film historical research. Students are billed a course materials fee. Prerequisite(s): course 120 and either 130 or 134A or 134B. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. J. HORNE

194E. International Cinemas. S

In-depth study of the history and theory of international cinemas with changing topics such as globalism and resistance, postcolonial theory, international productions and querying race, the "national," and cinema. Students are billed a course materials fee. Prerequisite(s): course 120 and either 132A, 132B, or 132C. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. Y. WANG

194F. Film and the Other Arts. *

Examines the use of artistic media within films and of films that thematically are about other media. What do other art forms allow for in terms of the story, the film's meaning, the gaze, and the spectator? Students are billed a course materials fee. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. THE STAFF

194G. New(s) Media. *

Addresses the role of new media technologies in the production, distribution, and reception of the news, especially international news. Examines software and network technologies as amplifying, filtering, extending, and countering the forces of media. Students are billed a course materials fee. Prerequisite(s): courses 20C and 120. Enrollment restricted to senior film and digital media majors.

Enrollment limited to 20. THE STAFF

194S. Special Topics Seminar. S

Intensive research and writing on a changing topic chosen to demonstrate critical mastery in a specific area of film and digital media studies, for example, film adaptations and their literary sources, documentary/reality shows, or networked new media texts. Students are billed a course materials fee. Prerequisite(s): course 120. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. May be repeated for credit. S. STAMP

195. Senior Thesis/Project. F,W,S

An individually supervised course, with emphasis on independent research, to culminate in a senior thesis/project/production. Proposals should be submitted to adviser one quarter in advance. Petition required, approved by instructor and department; thesis petitions available in the department office. THE STAFF

196A. Senior Project in Narrative Production. W,S

Students accomplish a range of production work focused on narrative production including script development, casting, and rehearsing to shooting and post-production work. Students are billed a course materials fee. Priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of preceding quarter. Students may apply a maximum of two times. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. L. ANDREWS, G. VAZQUEZ

196B. Senior Project in Screenwriting. W

Students write a full-length (75-100 page) screenplay in this seminar while studying structural concepts and character development in selected films. Scheduling, outlining, pitching ideas, and critique are all

part of the workshop format of the class. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 150 or another screenwriting course; priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of the preceding quarter. Enrollment restricted to senior film and digital media majors. Enrollment limited to 16. THE STAFF

196C. Senior Documentary Workshop. S

Students are responsible for producing short documentaries (up to 12 minutes). In class, students discuss each other's work as well as view and discuss other documentary films. Students are billed a course materials fee. Priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of the preceding quarter. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. I. LUSZTIG

197. Senior Digital Media Workshop. *

Independent projects using the computer as a medium as well as a tool. Students will design and implement projects in digital imaging, information, and communications environments. Students' projects may include designing virtual communities, building collaborative networks, and/or interactive, multimedia web works. Students are billed a course materials fee. Priority given to students in the production concentration. Admission by application; application materials available during the last three weeks of the preceding quarter. Enrollment restricted to senior film and digital media majors. Enrollment limited to 20. THE STAFF

198. Independent Field Study. F,W,S

Provides for department-sponsored

Film and Digital Media

individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Field study may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Field study may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Tutorial may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Tutorial may not be used to satisfy major requirements. Petition required, approved by instructor and department; petitions available in the department office. May be repeated for credit. THE STAFF

GRADUATE COURSES

200A. Introduction to Graduate Study. S

Introduces graduate study in the critical practice of film and digital media. Conducted as a pro-seminar, with faculty presentations and discussion. Enrollment restricted to

graduate students. Enrollment limited to 15. Y. WANG

200B. Theory and Praxis of Film and Digital Media 1. W

Investigates methods for rhetorical production of written and visual/aural texts. Emphasizes questions about delineation between theory and practice, and provides groundwork in theories relevant to key areas in film, television, and digital media studies. Enrollment restricted to graduate students. Enrollment limited to 15. J. KAHANA

200C. Theory and Praxis of Film and Digital Media 2. F

Investigates methods for rhetorical production of written and visual/aural texts. Emphasizes interwoven practices of the artist/researcher/teacher, formal and expressive possibilities of "hybridized" research, and cultural issues raised by integrated methods of inquiry. Students are billed a course materials fee. Enrollment restricted to graduate students. Enrollment limited to 15. A. FRIZ

204. Grant Writing (2 credits). *

Devoted entirely to writing grant proposals. Students work on grants for educational support, their doctoral dissertation grants, or both. (Also offered as History of Art&Visual Culture 204. Students cannot receive credit for both courses.) Enrollment restricted to visual studies and film and digital media graduate students. Enrollment limited to 15. May be repeated for credit. THE STAFF

222. Critical Methodologies in Film and Television. *

Introduces graduate students to critical methodologies in media studies and offers sustained examination of theoretical approaches to media studies. Methodologies may include (but are not limited to) contemporary theory (semiotic, psychoanalytic, ideological), cultural studies, intertextuality, feminist film, and television theory. Enrollment restricted to graduate students. Enrollment limited to 14. THE STAFF

223. The Film/Video Essay. * Focuses on "essayistic" approaches to scholarship and production, emphasizing relationships between theory and praxis that this mode of production requires. Enrollment restricted to graduate students. Enrollment limited to 15. I. GUSTAFSON

224. Mediating Difference. * Considers theoretical and strategic, situated "difference" in the era of (semi-)colonialism, post-colonialism, and globalism, examining theoretical writing alongside media works on the topic. Enrollment restricted to graduate students. Enrollment limited to 15. Y. WANG

225. Software Studies. * Today, our lives are woven into vast software systems that facilitate our family communications, personal relations, jobs, and cultural, economic, political, and social institutions. Course examines these conditions of life and thought using insights from the arts and humanities. Enrollment restricted to graduate students. W. SACK

226. Queer Theory and Global Film and Media. S

Examines queer subjectivities, practices, and theories in relation to globalization, transnationalism, and postcoloniality, focusing on film/media produced outside the United States. The course addresses representation and also uses queer theoretical work to engage wider contexts of film/media production, distribution, and exhibition. Enrollment restricted to graduate students. P. LIMBRICK

227. Representing Memory. * Studio-based hybrid practice/theory to explore problems of historical representation in film, video, and new media and engage with the production of new cinematic/visual forms that take on issues of personal, collective, and national memories. Enrollment restricted to graduate students Enrollment limited to 15. I. LUSZTIG

228. Moving Image Archives and the Frontiers of Information. W

Explores moving image archives in relation to social movements, technological change, and moving image use and reuse. Theories of memory, information, and technology provide a framework for discussions, site visits, and individual projects. Enrollment restricted to graduate students. Enrollment limited to 15. J. HORNE

229. Topics in Documentary Studies. *

Examines the forms, discourses, and practices of documentary film, television, video, and other media in relation to cultural, social, and political history and theory. While the thematic focus varies from term to term, each edition of the course places critical thought and documentary work in conversation around issues central to forms of social knowledge and action. Enrollment restricted to graduate students. Enrollment limited to 15. J. KAHANA

230. Expanded Documentary. W

Students explore the aesthetic, political, and ethical dimension of new and expanded forms of documentary practice including: new media; database-driven, interactive documentary; participatory media; social media; and documentation-based art practices. Enrollment restricted to graduate students. Enrollment limited to 15. S. DANIEL

231. Topics in Postcolonial Theories, Film, and Media. *

Explores topics in postcolonial theories and film and media around themes such as colonialism, modernity, and institutions of cinema; colonial histories and national or transnational film and media; race, gender, sexuality and colonialism; the uneven implications, pitfalls, and possibilities of the term "postcolonial" in relation to film and media. Enrollment restricted to graduate students. Enrollment limited to 15. P. LIMBRICK

232. Audiovisual Ethnography. *

Students learn the technical and critical skills required for fieldwork-based ethnographic video and audio media production. The course is structured around cumulatively building filmmaking skills with an emphasis on critically informed nonfiction ethnographic observation. Enrollment restricted to film and digital media, anthropology, or social documentation graduate students. Enrollment limited to 10. I. LUSZTIG

233. Studies and Practice for Social Documentation, Filmmaking, and New Media. *

This thematic, graduate-level, hybrid, production/critical studies course provides opportunities to learn specific technical skills while engaging in the analysis and critical interpretations of cinema, social documentary, animation, art, television, and new media. Technical topics may include animation; motion graphics; interactive web media; and installation, editing, cinematography, and sound. (Also offered as Social Documentation 293. Students cannot receive credit for both courses.) Enrollment restricted to film and digital media graduate students. Graduate students from other programs may enroll by permission of the instructor. Enrollment limited to 15. J. LEANOS, L. ANDREWS

234. Toward an Ethics of New Media. *

Investigates an ethics of new media. Using an intersectional approach, students read thematic units that consider issues of race, class, and gender as they crosscut questions of advanced technological tools and their implementation in modern society. Enrollment restricted to graduate students. Enrollment limited to 15. S. MURRAY

235. Feminist Media Histories. F

Investigates feminist histories of film, radio, television, video, technology, playable media, and digital culture from the 19th century through the present day.

Students learn varied historiographic methodologies and also engage in primary historical research. Enrollment restricted to graduate students. Enrollment limited to 15. S. STAMP

236. Making...in the Anthropocene. *

Through readings and assignments, students explore the notions of "making" and the temporal context of the Anthropocene. "Making" is broadly defined as any creative production. The Anthropocene and climate change are studied as urgent and compelling context. Enrollment is restricted to graduate students. Enrollment limited to 10. C. LORD

237. Graduate Critique. S

Develops fluency in the languages of critical practice as expressed across media. Integrates critical and analytical writing about objects and experiences created by and through electronic and digital media with ongoing, student-driven critiques of audiovisual scholarship. Enrollment is restricted to film and digital media graduate students. Graduate students from other programs may enroll by permission of the instructor. Enrollment limited to 15. I. GUSTAFSON

238. The Politics of Information. *

Explores the production and perception of information (news, stories, figures, identities, controversies, and complacencies). Students research, analyze, theorize, and define the scope of "the politics of information," study the consequences of media(ted) knowledge, and propose possibilities for critical intervention and change. Enrollment is restricted to graduate students. Enrollment limited to 15. L. KIM

283. New Media Art and Digital Culture. *

A study of new media art in the context of digital culture. Electronic, digital and online technology art are set in critical relation to discourse on history, aesthetics, hypermedia, the interface, hacks, embodiment, robotics, artificial life and other

Film and Digital Media

topics. Students are billed a course materials fee. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

284. Film, Culture, and Modernity. *

Traces the rise of motion picture culture from the late 19th century through the end of the 1920s, looking at film's emerging visual and narrative grammar, its changing cultural status, and its engagement with shifting registers of class, ethnicity, gender, and sexuality. Enrollment restricted to

graduate students. Enrollment limited to 15. S. STAMP

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Either study related to a course being taken or a totally independent study. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May

be repeated for credit. May be repeated for credit. THE STAFF

297F. Independent Study (2 credits). F,W,S

Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

* Not offered in 2017-18

FRENCH

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in French can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major in language studies, a major in literature with an emphasis in French literature, or a major in global economics.

Lower-division courses 1-6 are taught entirely in French and prepare students for advanced study either on campus or abroad. They are designed to help students develop proficiency in aural comprehension, speaking, reading, and writing skills, and to introduce student to French and Francophone cultures.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

The Office of International Education (OIE) offers both semester and one-year programs in many regions of France, including Bordeaux, Lyon, Grenoble, Toulouse, and Paris. With the approval of an adviser, some French courses taken abroad may be applied to major requirements. For a list of current programs and requirements, visit their website, <http://oie.ucsc.edu>.

FRENCH FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Carla Freccero (Literature, History of Consciousness, Feminist Studies)
 Renaissance studies; French and Italian language and literature; early modern studies; postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

Pascale Gaitet, Emerita (Literature)

Sharon Kinoshita (Literature)
 Mediterranean studies; medieval francophone and Mediterranean literature; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Richard Terdiman, Emeritus

ASSISTANT PROFESSOR

Bryan Donaldson
 Word order variation in second-language French, medieval French and medieval Occitan through the lens of information structure, discourse analysis, and sociolinguistics

LECTURER

Renée Cailloux
 French culture and society, French literature (19th and 20th centuries), French fantastic literature (19th and 20th centuries), French fantastic literature (19th century), business French, Francophonie, stylistics

Greta Hutchison
 Foreign language pedagogy, second language acquisition, 20th-century French history and civilization, medieval French literature, 19th-century literature and art

FRENCH COURSES

LOWER-DIVISION COURSES

1. First-Year French.
 Introduction to French language and culture with practice in all four language skills: listening, speaking, reading, and writing. Intended for

students with no previous study of French. (Formerly Instruction in the French Language.) THE STAFF

2. First-Year French.
 Further development of cultural competence and basic French language skills, both written and spoken. Students learn past tenses

in this course. (Formerly Instruction in the French Language.) Prerequisite(s): course 1 or placement by interview. THE STAFF

3. First-Year French.
 Final quarter of first-year sequence. Students complete study of French

French

language basics, including the future tense and the conditional and the subjunctive moods, while continuing to learn about French and Francophone cultures.

(Formerly Instruction in the French Language.) Prerequisite(s): course 2 or placement by interview. THE STAFF

4. Second-Year French.

First course in intermediate sequence. Students review and expand upon their previous study of the language through short literary readings, vocabulary building, grammar study, composition, and discussions. (Formerly Intermediate French.)

Prerequisite(s): course 3 or placement by interview. (General Education Code(s): CC.) THE STAFF

5. Second-Year French.

Further development of intermediate-level oral and written skills through study of vocabulary and structures. Students also read and discuss a French or Francophone play. Prerequisite(s): course 4 or placement by interview. (General Education Code(s): CC.) THE STAFF

6. Second-Year French.

Final course of intermediate sequence includes grammar study, vocabulary building, extensive writing, and discussion. Reading of a French or Francophone novel is an integral part of course. Prerequisite(s): course 5 or placement by interview. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

108. French Cinema. *

Investigation of a variety of topics (historical, cultural, and linguistic) in France and the French-speaking world. Topics are explored through film. Conducted in English. (Formerly course 80.) Enrollment limited to 40. May be repeated for credit. (General Education Code(s): IM.) THE STAFF

111. Stylistics. *

Intensive work in French composition with the aim of attaining fluency and accuracy of expression while developing literary appreciation. May be repeated for credit with consent of instructor. Prerequisite(s): course 6. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. May be repeated for credit. THE STAFF

114. French Phonetics. *

Introduction to the French sound system and basic phonetics. Extensive practice of French pronunciation and phonetic transcriptions of both written and spoken language samples. Prerequisite(s): course 6. Enrollment limited to 20. THE STAFF

120. French Linguistics. W

Major topics in contemporary French linguistics, covering both formal and social properties of French. Descriptive and theoretical study of phonetics and phonology, lexicon, morphology, syntax, sociolinguistic variation, status of regional and minority languages, and language planning. Taught in French. Prerequisite(s): course 6 or equivalent proficiency in French or by consent of the instructor. B. DONALDSON, THE STAFF

121. History of the French Language. *

Overview of the history and development of the French language from Latin to early modern French. Sound changes, grammatical and lexical changes,

language policy (e.g., l'Academie francaise), external influences on the language. Taught in French. Prerequisite(s): course 6 or equivalent proficiency in French, or by permission of the instructor. B. DONALDSON, THE STAFF

125A. French Civilization: 19th Century. *

Survey of the important historical events, social changes, and artistic movements contributing to the development of French culture during the 19th century. Prerequisite(s): course 6. THE STAFF

125B. French Civilization: 20th Century. F

A survey of the important historical events, social changes, and artistic movements contributing to the development of French culture during the 20th century. Prerequisite(s): course 6. THE STAFF

130. French for Professions. S

Students better understand administrative organization in France through preparation of their own professional dossier in French, and preparation to look for professional opportunities in France. Taught in French. Prerequisite(s): course 6, or equivalent proficiency in French, or by permission of the instructor. R. CAILLOUX, THE STAFF

136. La Francophonie. *

In-depth multidisciplinary study of one or more French-speaking regions of the world. Topics may include history, language, society, literature, and the arts. All coursework will be done in French. Prerequisite(s): course 6. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GERMAN

2017-18 General Catalog

Department of Languages and Applied Linguistics
218 Cowell College
(831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in German can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major or minor in language studies, a major in German studies, a major in literature with an emphasis in German literature, or a major in global economics.

The sequence of lower-division courses 1–6 is aimed at helping students to develop listening and reading comprehension, as well as speaking, reading, and writing skills. Another sequence of lower-division courses, equivalent to levels 1, 2, and 3, consists of courses 1A and 1B, which offer accelerated German language instruction. Courses 1A and 1B are taught sequentially, winter and spring quarters. The German language sequence also includes a course on German Media (German 119); successful completion of German 5 is a prerequisite for this course. Instruction takes place almost exclusively in German.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

The Office of International (OIE) offers study abroad opportunities in Berlin and Göttingen. Students may spend a summer semester or a full academic year in Berlin (Berlin European Studies [BEST] or regular course of study) or a summer in Munich. There are two summer programs in Berlin. The summer program at the Freie Universität is self-designed. Students may choose their own curriculum from a variety of available

courses (in English or German). The summer program at the Technische Universität is designed for science and engineering majors. Students concentrate on a single engineering course (in English), with visits to relevant companies and research facilities in Berlin. The summer program in Munich (in English) is designed for science, engineering, and environmental studies majors and concentrates on sustainability and green technology, with visits to relevant companies and research facilities. Language requirements for admission to these programs range from little or no German required (summer programs in Berlin and Munich and the BEST program in Berlin to two years of college-level German required (regular course of study in Berlin). Academic and professional internship opportunities are also available to all students on study abroad in programs Germany.

Students may apply to any of these programs at any point in their student career. For the year-long programs, students generally apply in their sophomore year for a junior year abroad. As an exception, some students apply in their junior year for a senior year abroad; such students must sometimes spend an additional quarter at UCSC in order to satisfy all requirements for their major. Courses taken abroad can, with approval of an adviser, be applied to major requirements.

For a list of current programs and requirements, visit the Education Abroad web site at <http://eap.ucop.edu/OurPrograms/germany/Pages/default.aspx>. The UCSC Office of International Education web site is <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

GERMAN FACULTY AND PROFESSIONAL INTERESTS

ASSOCIATE PROFESSOR

Zsuzsanna Abrams

Applied linguistics, language pedagogy, second language acquisition, intercultural communication, discourse analysis, computer-mediate communication

A. Hunter Bivens (Literature)

Twentieth- and 21st-century German literature and film, Marxism and critical theory, psychoanalysis, lyric poetry, literary realism, the novel

Loisa Nygaard, Emerita (Literature)

GERMAN COURSES

LOWER-DIVISION COURSES

1. First-Year German. F

German 1, a beginning-level course, introduces the German language and culture for students with no previous knowledge of German. The course focuses on speaking, reading, writing, and listening. The first-year sequence (1-2-3) starts in fall quarter only. (An accelerated sequence, courses 1A-1B, begins in winter quarter.) (Formerly Instruction in the German Language.) THE STAFF

1A. Accelerated German. W

Accelerated course covers German 1 and part of German 2. It is designed for motivated beginning students. Students develop skills in speaking, reading, writing, and listening to real-life German. (Formerly Intensive Elementary German.) THE STAFF

1B. Accelerated German. S

Accelerated course part 2 covers part of German 2 and all of German 3. In this course, students who have successfully completed German 1A (or its equivalent) continue to develop competence in speaking, reading, writing, and understanding real-life German. (Formerly Intensive Elementary German.) Prerequisite(s): course 1A or 2 or placement by examination. For students completing course 2, course 3 is preferable. THE STAFF

2. First-Year German. W

German 2, a second-quarter course, is designed for students who have successfully completed German 1 (or its equivalent). Students continue to develop competence in speaking, reading, writing, and understanding in the context of real-life language use. (Formerly Instruction in the German Language.) Prerequisite(s): course 1 or 1A or placement by examination. THE STAFF

3. First-Year German. S

German 3 is designed for students who have successfully completed German 2 (or its equivalent; e.g., 2-3 years of high school German). Students continue to develop competence in speaking, reading, writing, and understanding real-life German. (Formerly Instruction in the German Language.) Prerequisite(s): course 2 or placement by examination. THE STAFF

4. Second-Year German. F

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. Prerequisite(s): course 1B or 3 or placement by examination. (General Education Code(s): CC.) THE STAFF

5. Second-Year German. W

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. Prerequisite(s): course 4 or placement by examination. (General Education Code(s): CC.) THE STAFF

6. Second-Year German. S

Intermediate composition and conversation based on the reading of selected prose and related cultural material. Speaking, reading, writing, and listening comprehension skills are developed by extensive use of media materials. Conducted entirely in German. Prerequisite(s): course 5 or placement by examination. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular

topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

119. German Media. S

This third-year language and culture course is designed for students who are comfortable speaking and writing German at the German 5 level or above. Using a variety of German media sources, students give oral presentations and write reports on contemporary issues. Taught in German. Prerequisite(s): course 5 or placement by examination. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): CC.) Z. ABRAMS, THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GERMAN STUDIES

2017-18 General Catalog

Department of History
201 Humanities
(831) 459-2982
<http://germanstudies.ucsc.edu/>

PROGRAM DESCRIPTION

German studies is a transnational and transdisciplinary major that deals with the various German-speaking regions of central Europe. Whether one thinks of philosophy, music, art, education, religion, or political and social history, German culture has exercised a profound and often decisive influence on Europe. Some of the most important ideological debates in Western culture have arisen in the German-speaking area, and changes in German culture and society have had significant, sometimes devastating, effects on world history. Events and political developments of recent decades, such as the rise of the European Union, the unification of East and West Germany and the emergence of the German-speaking region of Europe as a major player in world affairs, have had important impacts.

A German studies major provides students with an intellectually diverse program covering history, history of art and visual culture, literature, and philosophy, in which students and faculty come together in exciting and demanding pursuits.

The German studies major is administered by the Department of History. For additional information on curriculum and advising, visit <http://germanstudies.ucsc.edu>.

PROGRAM LEARNING OUTCOMES

Students who complete the German studies major should graduate with the following knowledge and skills:

LANGUAGE

Students will demonstrate advanced written communication skills in German and English.

Students will demonstrate advanced oral communication skills in German.

HISTORY AND LITERATURE

Students will demonstrate knowledge of the history, literature, and culture of the German-speaking countries.

TRANSDISCIPLINARITY AND CROSS-CULTURAL ANALYSIS

Students will be able to interpret and analyze critically issues and problems pertaining to the history, literature, and cultures of the German-speaking countries within the broader contexts of Europe and the world.

CRITICAL READING AND RESEARCH

Students will demonstrate research skills, including the ability to read primary and secondary sources critically pertaining to the history, literature, and cultures of the German-speaking countries.

REQUIREMENTS FOR THE MAJOR

German language level 5 or the equivalent is a prerequisite for the German studies major and all upper-division courses taught in German. Students are encouraged to take German 1 through German 5 as early as possible in their academic program. The major requires a total of 11 courses, including the comprehensive requirement. No more than two of the 11 required courses may be lower-division. A minimum of 45 upper-division units must be completed within the German studies course requirements. In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

I. Five courses in German literature and history:

- two core courses in German literature
- one core course in German history
- one core course in either German literature or German history depending upon the student's chosen area of emphasis
- one comprehensive exit requirement (see below).

II. Three additional core courses, including EAP courses.

III. Three additional core courses or courses from the Germany in a European or World Context list.

Distribution requirements. A minimum of five of the 11 required courses must be taught in German or

German Studies

principally through German-language texts. No more than three courses may come from the Germany in a European or World Context list.

Comprehensive requirement. All German studies majors must satisfy the comprehensive exit requirement by completing an approved exit seminar in either German literature or German history: History 196G, History 196P, History 196X, or Literature 190Z. The senior seminar is one of the 11 courses required for the major. Please consult the German studies web site for a more detailed description of these courses at <http://germanstudies.ucsc.edu>.

Disciplinary Communication (DC) requirement. Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in German studies is fulfilled by completing History 196G, History 196P, History 196X, or Literature 190Z. Please refer to updated information at [Disciplinary Communication Chart](#).

UC Education Abroad Program. It is strongly recommended that students spend time in residence

in Germany through the University of California Education Abroad Program (EAP) or one of its affiliate programs to further enrich their program of study and ensure a command of the language. Students are allowed to transfer up to five courses taken at German universities toward the requirements for the major. However, the four required core courses in German literature and history and the comprehensive requirement must be taken at UCSC.

Honors in the German Studies major. All students who announce candidacy during the academic year are reviewed for honors or highest honors in the major. The German studies faculty advisers determine honors based upon courses applied towards the German studies major. Performance in courses taken elsewhere and being transferred toward the major will be considered when applicable. The minimum standard applied is excellence in most courses for honors, and excellence in all courses for highest honors. Summer, fall, and winter graduates will be reviewed at the end of each of their respective quarters. Spring graduates will be reviewed as of the spring announcement of candidacy deadline.

HEBREW

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in modern Hebrew can enroll in language courses from beginning to intermediate levels. In addition, credits from these courses may be counted toward the major or minor in Jewish studies. Lower-division courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Attention is also given to developing an understanding of the culture, history, and religion that have been expressed through the Hebrew language from antiquity until today. Students interested in learning the basic lexicon and grammatical structures of biblical Hebrew

can enroll in Hebrew 80. Hebrew 1, Hebrew 2, and Hebrew 3 (or equivalency) are required for the major in Jewish studies, and other Hebrew courses are encouraged. In addition, credits from modern or biblical Hebrew courses may be counted toward the minor in Jewish studies.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

HEBREW COURSES

LOWER-DIVISION COURSES

1. First-Year Hebrew. F

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. The first-year sequence (1-2-3) begins in fall quarter only. (Formerly Instruction in the Hebrew Language.) *The Staff*

2. First-Year Hebrew. W

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. (Formerly Instruction in the Hebrew Language.) Prerequisite(s): course 1 or by consent of instructor. *The Staff*

3. First-Year Hebrew. S

Speaking, listening comprehension, reading, and writing fundamentals. The use of Modern Hebrew is encouraged through classroom practice supplemented by work with computer tutorials. (Formerly Instruction in the Hebrew

Language.) Prerequisite(s): course 2 or by consent of instructor. *The Staff*

4. Second-Year Hebrew. *

Development of the students' familiarity with the spoken and written language through grammar review, discussions, and vocabulary building. Varied readings on literary and cultural topics related to modern Israel. Prerequisite(s): course 1B or 3 or by consent of instructor. *The Staff*

80. Introduction to Biblical Hebrew. *

Introduces students to the basic lexicon and grammatical structures of biblical Hebrew, with an emphasis on the development of a set of useful translation strategies. Throughout the course, students will be applying their emergent skills to translating a variety of biblical texts. *The Staff*

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

HISTORY

2017-18 General Catalog

201 Humanities

(831) 459-2982

<http://history.ucsc.edu/>

PROGRAM DESCRIPTION

History is the stories humans tell about the past. For professional historians, those stories are based on evidence that is carefully collected and rigorously interpreted. Both the evidence and interpretation are passionately debated in the classroom, in articles and books, and in the public sphere. This makes history a dynamic enterprise. Students of history ask new questions, find new evidence, incorporate more voices, and reconsider old assumptions. Studying history enriches our understanding of the world by deepening our knowledge of the past and by pushing us to ask new questions that provide insight into our own time. Our History Department is committed to helping students learn to think historically, which entails asking not just what happened, but why it happened the way it did.

Thinking historically cultivates the empathy and imagination necessary to understand multiple perspectives on events both past and present.

It is impossible to understand the world we inhabit, including its complex global conflicts, climatic transformations, and fundamental shifts in understandings of individual identity, without history. Yet, as much as history can illuminate the present, its study also requires recognizing that often, “the past is a foreign country,” where words, ideas, and even bodies themselves operate on radically unfamiliar terms. Our department’s strengths in transnational, gender, environmental, cultural, and social history, including critical race and ethnic studies, enable students to engage in a variety of approaches to studying history.

This training prepares students for a wide range of careers and equips them to be engaged citizens. History majors develop skills in critical reading, effective research, analytical thinking, and clear, persuasive communication. Such skills are the essential foundation for jobs directly connected with the field, like teaching, becoming a researcher, and working in public history venues such as museums, archives, and libraries. These skills are also invaluable to careers in law, business, government, foreign service, management, publishing, journalism, social media, and many other areas. The ability to identify and access salient information, evaluate it critically, and use it to engage in constructive debate

is essential for navigating a complex, dynamic, and global world.

PROGRAM LEARNING OUTCOMES

Students who complete the history major graduate with the following:

HISTORY

Understanding of a basic narrative of historical events in a specific region of the world.

CRITICAL READING

The ability to distinguish primary and secondary sources.

The ability to evaluate historical ideas, arguments, and points of view.

The ability to evaluate competing interpretations and multiple narratives of the past.

RESEARCH AND EVIDENCE

The ability to gather and assess primary historical evidence.

The ability to compile a bibliography.

COMMUNICATION

The ability to present clear and compelling arguments, based on critical analysis of diverse historical sources, and effectively communicate your interpretations in written essays and/or other media.

The ability to develop a research question and complete a well-supported piece of historical writing about it.

SCOPE AND THEMATICS

Through completion of a combination of courses, become familiar with the history of:

- The pre-modern world
- The modern world
- Transnational or transcultural circulations of ideas, people, and material goods
- One or more national histories
- Regional comparisons

REQUIREMENTS FOR THE MAJOR

A minimum of 12 courses is required for the major. No more than four of the minimum 12 courses may be lower division. A minimum of 40 upper-division credits must be completed within the history major course requirements. The history major does not have any admissions requirements, examinations, or prerequisites, and does not limit the number of students it will accept into the program. It is strongly advised that students complete at least one introductory history course before declaring the major but it is not required. Students may declare the history major as early in their academic career as they would like.

At UCSC, the history curriculum offers three broad, geographically defined regions of concentration:

- The Americas and Africa
- Asia and the Islamic World
- Europe

Each history major selects one of the three regions of concentration listed above as their area of emphasis. In consultation with the history undergraduate program coordinator, the student plans a program of study that will also fulfill the following distribution of courses:

COURSE REQUIREMENTS

Region of Concentration (5 courses, plus 1 comprehensive requirement)

I. At least one lower-division survey course within their chosen region of concentration.

- Americas/Africa: History 10A, 10B, 11A, 11B, or 30
- Asia/Islamic World: History 40A, 40B, 41, or 44
- Europe: History 65A, 70A, or 70B

Transfer coursework may or may not apply toward the survey course requirement; consult the history undergraduate program coordinator.

II. Four additional courses in the region of concentration, three of which must be upper division.

III. One comprehensive (exit) requirement: All students must complete either a research/readings seminar (HIS 190 series, 194 series, or 196 series), or a senior thesis (HIS 195A and 195B) in their area of concentration. Detailed information on the comprehensive exit requirement can be found below.

BREADTH REQUIREMENTS (4 COURSES)

IV. Two courses from each of the remaining two regions of concentration.

HISTORICAL SKILLS AND METHODS (1 COURSE)

V. HIS 100, Historical Skills and Methods

ELECTIVE REQUIREMENT (1 COURSE)

VI. One upper-division history elective from any of the three regions of concentration.

Students often choose to satisfy the history major course requirements listed above according to some general theme of special interest to them: religion, social movements, science and environment, and gender, to name a few. Faculty and staff advisers will assist the students who choose this option with their course selection.

Distribution requirements. Among the 12 courses required for the major, at least three must meet chronological distribution requirements. One must be set before 600 A.D., and two must be set in periods prior to the year 1800 A.D.

Interdisciplinary coursework. The History Department encourages its majors to take upper-division courses in disciplines related to history, including sociology, literature, community studies, politics, Latin American and Latino studies, and others. Students who wish to substitute one such appropriate upper-division course for a history elective must obtain approval from the History Department. These courses are subject to the limitations described below under the "Transfer credits and substitutions" section.

Comprehensive requirement. A comprehensive exit requirement in the student's chosen region of concentration can be fulfilled by completing an exit seminar (one quarter: 190 series, 194 series, or 196 series) or a thesis (two quarters: courses 195A and 195B). Please consult the department website for a more detailed description of these courses.

Disciplinary Communication (DC) requirement. Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. History students fulfill the upper-division Disciplinary Communication (DC) requirement by completing a comprehensive exit requirement in their chosen region of concentration. Students may complete an exit seminar (one quarter: 190 series, 194 series, or 196 series) or a thesis (two quarters: courses 195A and 195B). Please consult the department website for a more detailed description of these courses and refer to the updated DC information in the [Disciplinary Communication Chart](#).

In addition to all coursework, history majors must complete a senior check and exit survey in the first quarter of their senior year. Students who do not submit their senior check for review may have their graduation date delayed. Please consult the department website for a more detailed description.

History

Honors in the history major. Honors are awarded to the top 10-15 percent of graduating students per quarter; highest honors may be granted to approximately the top five percent. Honors are determined by the Undergraduate Education Committee in consultation with the History Department faculty. The department considers each student's GPA in the history major, supplemented when appropriate by an assessment of work in the senior capstone course or honors thesis preparation. The history major GPA is calculated based upon all history courses attempted at UCSC; grades from courses taken outside of the department will not be calculated into a student's history major GPA, even in cases when the student is allowed to use said courses toward their history major degree requirements. Summer, fall, and winter graduates will be reviewed at the end of each of their respective quarters. Spring graduates will be reviewed using their earned history major GPAs as of the spring announcement of candidacy deadline.

UC Education Abroad Program. All history students are encouraged to consider studying abroad. UCEAP offers students an opportunity to study abroad in 43 countries with more than 300 program options. A variety of academic programs are available: language and culture programs facilitate language acquisition; "focus" programs allow students to concentrate on a plan of study applicable to their major. More than half of all EAP programs are in English, and there are traditional semester and year-long program options. Subject to the limitations described below under "Transfer credits and substitutions," up to three courses in history completed through EAP may be applied toward major requirements. Consult the History Department website and speak with the undergraduate program coordinator for further details.

Transfer credits and substitutions. History majors must complete a minimum of five regularly scheduled history courses plus the comprehensive requirement taught by members of the UCSC history faculty. Intensive history majors must complete a minimum of eight. Subject to the limits indicated in parentheses, courses from the following categories may also be applied to the history major:

- Transfer courses taken at another institution (limit of 3)
- Education Abroad Program (limit of 3)
- UCDC (limit of 2)
- UC in Sacramento (limit of 2)
- Related upper-division courses taken in another UCSC department (limit of 1)
- Independent and field studies (limit of 1)

REQUIREMENTS FOR THE MINOR

Students whose major area of study is not history may nonetheless find that a minor in history makes an invaluable contribution to their studies. For the minor in history, eight history courses, five of which must be upper division, are required. There is no senior comprehensive requirement for the minor.

GRADUATE PROGRAM

The Ph.D. program in history at UCSC emphasizes an interdisciplinary and cross-cultural approach to historical studies. The History Department offers a rigorous program of instruction and independent work that trains students in the techniques of original historical research and equips them to teach university-level courses in history. The department only admits those highly motivated students who are most qualified to pursue advanced studies in history. The department also only admits those applicants who can best benefit from the specific strengths of our faculty. Just as the work of most professional historians centers around research and teaching, training in these areas constitutes the two essential poles of the graduate program in history.

RESEARCH AND TEACHING

In preparing graduate students for research and teaching at the university level, the department offers training in three geographically and chronologically defined fields: U.S. history, European history since 1500, and East Asian history since 1600. U.S., European, and East Asian history are defined as primary teaching fields; each graduate student is required to choose one. Students of U.S. history may incorporate Latin American history in their coursework. Every year the faculty in each field offer introductory readings seminars and classes on more specific topics (see below for information about course offerings). Each graduate student also prepares a second teaching field different from the primary field and can choose from among U.S., European, East Asian, or world history. Ph.D. students may also petition the graduate committee to prepare a secondary teaching field in African or Latin American history.

COURSES

Until they pass the qualifying examination and are formally advanced to candidacy for the Ph.D. degree, students must be in residence at UCSC and are expected to complete a minimum of 10 credits each quarter to maintain normal academic progress. Completion of a minimum of 10 courses of 5 credits each (in addition to History 280A, 280B, and 280C) is required for advancement to candidacy. Courses taken are graduate seminars, independent study courses, and most upper-division undergraduate courses.

History

Students are required to take the following before advancing to candidacy:

- History 200 (year 1, fall quarter); History 201 (year 2, winter quarter); History 202 (year 1); History 280A (year 1, fall quarter) 280B (year 2), 280C (year 1 or 2);
- one research seminar during the first four quarters: History 204A, or 204C, or 204E;
- second teaching field: two courses in American, European, East Asian, or world history;
- outside courses: two quarters of graduate coursework outside the History Department;
- readings courses in the appropriate field: East Asia—History 230A, 230B, 230C (China) or History 242, 243, 244 (Japan); Europe—History 251A, 251B; U.S.—History 210A, 210B.

Graduate students in East Asian history specialize in either modern Chinese or modern Japanese history, but all students in the East Asian program will be prepared to teach both. The core curriculum for East Asian history consists of three China reading seminars (courses 230A, 230B, 230C) and three Japan reading seminars (courses 242, 243, 244) taught in sequence over three years, covering such topics as foundational historiographies, gender, social movements, and transnational circulation of people, commodities, and ideas. Over the course of the three years to the qualifying examination, China students will be expected to take all three China seminars and at least two of the three Japan seminars. Japan students will be expected to take all three Japan seminars and at least two of the three China seminars. Additional coursework in research methods as well as occasional independent studies will also be available, and students are encouraged to take classes that have a wide range of faculty in other departments across the campus.

FOREIGN LANGUAGE REQUIREMENT

No prior foreign language preparation is required for admission with a primary teaching field in U.S. history. Two to three years of college work, or its equivalent, in at least one foreign language is required for admission to the European program. Students who choose East Asian history as their primary teaching field will be required to have completed at least three years of college-level Chinese or Japanese prior to admission; more years are recommended. Depending upon the student's intended field of research, Japanese language study may also be required of China specialists as part of the graduate program of study.

Students with a primary teaching field in U.S. history are expected to demonstrate a reading competency in at least one foreign language prior to taking the Ph.D.

qualifying examination. Students in all other teaching fields must demonstrate a reading competency in at least two foreign languages prior to taking the Ph.D. qualifying examination; competency in one of the languages must be demonstrated by the end of the sixth quarter of enrollment. Usually, competency will be demonstrated by passing a reading examination administered by a member of the history faculty. Students who believe that they have already demonstrated competency through previous coursework or through their performance on a standardized test should petition the graduate director to waive this language requirement.

M.A. DEGREE

The master of arts (M.A.) degree is awarded to all Ph.D. students after two years in residence, successful completion of 12 courses of 5 credits each and two courses of 2 credits each, demonstrated competency in one foreign language (for those in primary teaching fields other than U.S. history), removal of all Incomplete notations (I) on record, and approval of a M.A. essay of 25-30 pages.

The M.A. Essay

Students are required to produce a substantial research essay grounded in original research in primary historical documents. A successful essay will reflect a general understanding of the field of inquiry along with a critical grasp of the scholarship that currently defines the field; deep knowledge of the specific subject under investigation; the application of appropriate analytical models; and a well-supported interpretation of the materials explored. This essay could (but need not) be a segment of a larger project; but it must be a complete, self-contained essay in and of itself.

Students enroll in course 201, Directed Research Colloquium, the winter quarter of their second year. While taking course 201, students work intensively with a faculty reader in the preparation, crafting, and revising of the essay. The final draft, approved by the reader, must be submitted to the graduate committee by the spring quarter deadline (usually mid-April). The deadline will be noted in the department's call for M.A. essays.

Qualifying Examination

The qualifying examination (QE) emphasizes field mastery, integration of material from different fields, and focused preparation for dissertation research. The QE is a three-hour meeting during which a student presents and discusses a dossier that has been submitted to the student's committee at least three weeks in advance. The examination is taken by the spring quarter of the third year. Prior to taking the QE, all incomplete notations (I) must be cleared from the student's record. Additionally, the student

History

must be registered the quarter the examination is taken.

The four examination fields are designed in consultation with the student's QE committee members. Students prepare for the examination through regularly offered courses and independent readings courses sponsored by the examiners. Students are required to take at least two courses in each of the four fields. The fields are as follows:

- **Primary Field of Concentration.** One of three fields: U.S. history; European history 1500 to the present; East Asian history 1600 to the present.
- **Area of Concentration.** This is a subfield of the primary field of concentration with a focus on the student's specific area of research interests.
- **Second Teaching Field.** Chosen from the above list of primary fields, with the addition of world history, or, where appropriate, a comparative, thematic field such as gender, colonialism, Latin American, or African history.
- **Outside Field.** One field outside history, such as anthropology, feminist studies, history of art and visual culture, Latin American and Latino studies, literature, philosophy, politics, sociology, or history of consciousness. Students select a field of topical, thematic, or methodological relevance to their dissertation. The student's faculty adviser must approve the outside field.

The four examination fields must be defined and preliminary reading lists (see below) filed with the department no later than the student's eighth quarter of residency.

A pass or fail will be given after the examination based on the student's knowledge and research preparation as demonstrated by his or her dossier. In order to pass the QE, all areas must receive passing marks from each member of the committee. Immediately following the exam, the QE committee chair will complete and submit to the History Department the Report on Qualifying Examination form. If a student does not pass the QE the first time, they may retake only those sections not passed. No one will be permitted to take the QE more than twice.

Qualifying Examination Dossier Requirements

The QE dossier includes four parts, each of which should be prepared in consultation with the student's primary academic adviser and with the advice of the examiners. The examination will focus on the dossier. All examiners, including the examiner from outside

the department, will participate in all segments of the examination.

The dossier includes:

1. An essay reviewing the state of the scholarship in the student's primary field of concentration. This essay should reflect the student's general, broad competence in his or her field as well as a mastery of the theoretical issues and historiographic debates in four to five areas that represent their primary area of expertise. The essay may reflect the thematic focus of a research field as well as work completed in an outside field (literature, anthropology, etc.).
2. One syllabus, possibly two syllabi (the number to be decided in discussion with the student's primary adviser), that demonstrates the student's preparation to teach across the breadth of their primary field at the introductory level. The syllabus should be annotated to show how each class session would be prepared: principal sources for lectures, principal questions for discussion, reasons for assigning particular readings, etc.
3. A syllabus (annotated in the same fashion as described in section number 2 above) in the student's second teaching field, accompanied by a brief (three- to five-page) statement of principal issues. The exact content of these items will be decided in consultation with the examiner in the secondary teaching field.
4. A prospectus that includes an evaluative survey of the literature relevant to the student's proposed research topic, a detailed discussion of the archival resources, and a consideration of the theoretical issues to be engaged.

Note:

- Although no specific segment of the dossier focuses upon the coursework completed outside the History Department, it is expected that this work will be incorporated into different sections of the portfolio, particularly the research prospectus.
- Complete bibliographies must be appended to each piece of the QE dossier.

Dissertation

The dissertation represents an extensive, book-length project grounded in research in original historical documents. A successful dissertation will reflect a broad and deep understanding of the field of inquiry, a mastery of the scholarship that currently defines the field, detailed knowledge of the subject of study growing out of dedicated research, and the incorporation (and explicit rejection of) appropriate interpretive models.

M.A. in History (Terminal)

The Department of History offers an M.A. degree in history for those individuals who are interested in

History

postgraduate work, but who are not planning to complete a Ph.D. It is a degree program that can fulfill in-service education requirements for current teachers as well as for future teachers earning a single-subject credential in social studies. Part-time enrollment is allowed.

Each student will be required to choose one of three areas of specialization (U.S., Europe, East Asia). To complete the degree, each student must pass a total of 12 courses of 5 credits each and two courses of 2 credits each including courses 280A, 280B, or 280C. Students must also write an M.A. paper of 25-30 pages. For students specializing in Europe, U.S., and East Asia, the curriculum is nearly identical to that taken by Ph.D. students in their first two years, except that there is no language requirement.

Course Requirements

- History 200 (year 1, fall quarter); History 201 (year 2, winter quarter); History 202 (year 1, spring quarter)
- one research seminar during the first four quarters: History 204A, 204C, or 204E.

- two courses of 2 credits each including History 280 (year 1), 280B (year 2), 280C (year 1 or 2)
- seven electives of 5 credits each, two of which must be taken outside the History Department. Courses taken are graduate seminars, most upper-division undergraduate courses, and independent study courses.
- two reading seminars in the area of specialization:
- - U.S.: History 210A, 210B
 - Europe: History 251A, 251B
 - East Asia: History 230A, 230B; 230C, 242, 243, 244.

Further details about the graduate program are available from the Department of History website: <http://history.ucsc.edu>.

HISTORY FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Jonathan F. Beecher, Emeritus

David Brundage

American immigration history, with particular focus on the Irish in America and on transnational immigrant politics; U.S. labor and social history; modern Irish history

Edmund Burke III, Emeritus

Pedro G. Castillo, Emeritus

Mark Cioc

German history, modern European history, environmental history

Nathaniel Deutsch

Modern Jewish history; Eastern European Jewish culture; ethnography, Hasidism; history of religions

Dana Frank

Late 19th- and 20th-century U.S. social history, including women's, labor, and working-class history, race and ethnicity; modern Honduras; U.S. history in transnational perspective

Lisbeth Haas

U.S.-Mexico borderlands and border studies, Chicano and Native American history; visual culture in the

colonial Americas; California; historical memory, theory, and historical methodology

Charles W. Hedrick Jr.

Greek and Roman history

Gail B. Hershatter

Modern Chinese social and cultural history; labor history; gender history; history of sexuality; feminist theory; history, memory, and nostalgia

Emily Honig

Gender, sexuality and ethnicity in modern China; comparative labor and urban history

Peter Kenez, Emeritus

Bruce Levine, Emeritus

Gary B. Miles, Emeritus

Eric Porter

Black cultural and intellectual history; US cultural history and cultural studies; critical race and ethnic studies; popular music and jazz studies; black radicalism; urban studies

Buchanan Sharp, Emeritus

Tyler Stovall

Modern France, modern Europe, labor history, urban

History

history, transnational history, colonial and post-colonial history, history of the African diaspora

David G. Sweet, Emeritus

Mark Traugott, Emeritus

Marilyn J. Westerkamp

Colonial and revolutionary America; the Atlantic World; early modern cultural and religious history; U.S. religious history; gender studies; history of the body

ASSOCIATE PROFESSOR

David Henry Anthony III

African and African American history, art, music, literature, and cinema; eastern and southern Africa; African vernacular expression; Black Atlantic; Indian Ocean world; African and African American linkages; Islamic civilization; African diaspora studies; African Sufism; African religion; missiology, liberation theology; world history

Noriko Aso

Japanese social, intellectual, and cultural history, material culture, colonialism, nationalism, gender, race and ethnicity

Alan S. Christy

Early modern and modern Japan; history of social sciences, colonialism, nationalism; Okinawa

Grace Peña Delgado

The history of trafficking, white slavery, immigration, Mexico-US-Canadian borderlands, Asian diaspora, modern Mexico, Chicana and Latina history, gender and sexuality

Maria Elena Diaz

Atlantic world, Colonial Latin America and the Caribbean, Cuba; social and cultural, global and local histories; colonialism, slavery and freedom, race/ethnicity, gender and class; legal, political, popular, and religious culture

Minghui Hu

Early Modern China; Chinese intellectual history; history of science, technology, and environment in China

Catherine A. Jones

U.S. civil war and Reconstruction; slavery and emancipation; women and gender; children and childhood

Amy Lonetree

Indigenous history; museum studies; public history; and Ho-Chunk tribal history

Marc Matera

Britain and the British Empire; Modern Europe; world history; Atlantic World; western Africa; African diaspora studies; colonialism; race/ethnicity, gender, and sexuality

Matthew D. O'Hara

Colonial and modern Latin America; Mexico; religion; race, ethnicity, and identity; political culture; history of time

Gregory O'Malley

Slavery and the slave trade; the colonial Americas; the Atlantic World; race, ethnicity, and encounters; Native American history; revolutionary America

Cynthia Polecristi

Medieval, Renaissance, and Modern Italy, urban and cultural history, ritual and popular devotion

Alice Yang

Historical memory, Asian American history, gender history, race and ethnicity, 20th-century U.S., oral history

ASSISTANT PROFESSOR

Benjamin Breen

Atlantic history, early modern Iberia, Portuguese imperial history, British imperial history, history of science and medicine, history of globalization, early modern world history, digital history

Muriam Davis

Middle East/North Africa, France, colonial and post-colonial history, critical race studies, environmental history, development studies

Jennifer Derr

Colonial and Post-colonial Middle Eastern history; Egypt; agricultural and environmental history; Ottoman history; spatial politics; African history; Islamic history; history of science; history of medicine

Alma Heckman

Jewish History in North Africa and the Middle East; minorities in empire and colonialism; nationalism and radicalism; transnational Jewish political activism; syncretism; labor history

Maya Peterson

Russian and Soviet history; environmental history; comparative empire; colonialism; global exchanges of scientific knowledge and expertise; technology

History

transfer; historical geography, spatial history and mapping, Central Asia; Silk Roads

Juned Shaikh

Modern South Asian social and cultural history, urban history, labor history, history of caste, Dalit studies, intellectual history, development studies, social theory, and agrarian studies

Elaine Sullivan

Pharaonic Period Egypt; Greek and Roman Egypt; women and gender; material culture; ritual landscape; 3D modeling and 3D GIS; Digital Humanities and the use of emerging technologies in studying the ancient world

LECTURER

Gildas Hamel, Emeritus

Matthew Lasar

U.S. and international political, social, and economic history; broadcasting and telecommunications

Jennifer K. Lynn

Later Roman Republic and Principate; Homeric epic; Hellenistic and Augustan poetry; women in the ancient world

Bruce Thompson

European intellectual and cultural history, Jewish intellectual and cultural history, French history, British and Irish history, history of cinema, history of espionage and intelligence, urban history, and environmental history

PROFESSOR

Bettina Aptheker (Feminist Studies)

Feminist oral history and memoir; feminist pedagogy; African-American feminist history; queer studies; feminist Jewish studies; feminist critical race studies

Christopher Connery (Literature)

World literature and cultural studies, globalism and geographical thought, the 1960s, Marxism, pre-modern and modern Chinese cultural studies, cultural revolution

John Dizikes, Emeritus (American Studies)

Barbara L. Epstein, Emerita (History of Consciousness)

Sharon Kinoshita (Literature)

Mediterranean studies; medieval francophone and Mediterranean literature; the global Middle Ages; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Paul M. Lubeck, Emeritus (Sociology)

Daniel Selden (Literature)

Afroasiatic languages and literatures, Greek and Latin, Hellenistic culture, the classical tradition, history of criticism, literary theory

ASSOCIATE PROFESSOR

Gabriela Arredondo (Latin American and Latino Studies)

Migration histories, Latina/o studies, and Chicana/o history; U.S. social history; critical race and ethnicity theory; feminist Chicana and Mexicana histories; "borderlands" studies; history of modern Mexico

HISTORY COURSES

LOWER-DIVISION COURSES

2A. The World to 1500. S

Surveys the rise of complex societies: the formation of classical civilizations in Afroeurasia and the Americas, post-classical empires and cross-cultural exchange, technology and environmental change, the Mongol Empire, and oceanic voyages and the origins of the modern world. (General Education Code(s): CC.) B. BREEN

2B. The World Since 1500. F

Examines major world issues over the past 500 years. Topics include European expansion and colonialism, the Muslim empires, East Asia from Ming to Qing, the Americas, Africa, the scientific-technological revolution, decolonization, and modern environmental problems. Designed primarily for first- and second-year students, it provides a time frame for understanding events within a

global framework. (General Education Code(s): CC.) M. MATERA

7. Archives and Public History. *

Through readings on local history topics and bi-weekly field expeditions, students discover different types of archives and historical repositories, the diversity of sources that they contain, and the varied uses to which they can be put. Course also explores the range of career opportunities open to history majors (sometimes loosely grouped together under the rubric

History

"public history"). Students are billed a materials fee. Enrollment limited to 35. THE STAFF

9. Introduction to Native American History. S

Introduction to the interdisciplinary field of Native American Studies and the Indigenous experience. Topics include: history of United States-Indian relations; colonialism; sovereignty; identity; representation of Native Americans in popular culture; and contemporary efforts toward decolonization in indigenous communities. (Formerly Introduction to Native American Studies.) (General Education Code(s): ER.) A. LONETREE

10A. United States History to 1877. F

Focuses on the building of British American colonies and the establishment, disintegration, and reconstruction of the nation with an emphasis on how class, race, ethnicity, and gender impacted colonial development and structured the nation's agenda and the definition of citizenship. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) C. JONES

10B. United States History, 1877 to 1977. W

Surveys the political, social, and cultural history of the United States from 1877 to 1977. Focuses on national politics with emphasis on how class, race, ethnicity, and gender changed the nation's agenda. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) M. LASAR

11A. Latin America: Colonial Period. W

Introduces the social, cultural, economic, and political history of the New World through a close examination of the process of European "conquest" in the 16th century and its consequences for both native and settler peoples. Medieval and Renaissance European and African backgrounds; Inca, Maya, Aztec, plains, woodland, and tropical rainforest native American societies; processes of

military and cultural conquest; epidemics and ecological changes; native resistance and the establishment of the fundamental institutions of colonial society. (General Education Code(s): CC.) M. DIAZ

11B. Latin America: National Period. S

An introduction to the study of Latin American history from the Independence Wars in the early 19th century to the present. Topics include changing economic models of development, U.S. role, rural and urban life, women, nationalisms, populism, revolution, the military in politics, and the problem of democracy. (General Education Code(s): CC.) M. O'HARA

12. Introduction to Latino American History. F

Introduces students to the history of U.S. Latinos drawing on the experience of Central Americans, people of Mexican descent, Puerto Ricans, Dominican Americans, and Cuban Americans. Emphasizes international processes that fundamentally shape U.S. Latino communities. (General Education Code(s): ER.) G. DELGADO

13. Introduction to American Religious Culture. *

Introduction to the many communities found within the American religious landscape, balancing extraordinary diversity characterizing American pluralism against the dominant religious culture. Proceeds historically, engaging major problems and developments including utopianism, the rise of evangelicalism, religion and reform, manifest destiny, secularization and modernity, and the intersection of politics and religion. (General Education Code(s): TA.) M. WESTERKAMP

14. Race and Ethnicity in the U.S. *

An introductory course on the racial/ethnic history of the U.S. Of central concern are issues of race, ethnicity, oppression, resistance, mass migrations, city life in urban America, and power and protest in modern America. Priority

enrollment to freshmen and sophomores. (General Education Code(s): ER.) THE STAFF

15. The United States of America from its Founding through Our Time. F

Takes students through five critical "moments" in United States history: the American Revolution, the Civil War, the New Deal, the Civil Rights era, and the years following the attack on the United States on Sept. 11, 2001. Designed for non-majors. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) M. LASAR

20. U.S. Popular Music Movements. *

Focuses on the development of popular music genres in the United States and the social contexts that have produced them, from the 19th Century to the present. Promotes an understanding of how music influences and reflects our political lives. (General Education Code(s): IM.) E. PORTER

30. The Making of Modern Africa. W

Examines the loss and reassumption of local and state autonomy in Africa during the 19th and 20th centuries. Delineates the modalities of the colonial state and society, modes of resistance to alien occupation, and the deformation of social, class, and gender relations. (General Education Code(s): CC.) D. ANTHONY

40A. Early Modern East Asia. F

Surveys the history of East Asia from 1500 to 1894. Covers political, social, economic, and cultural histories of China, Japan, and Korea with the goal of perceiving a regional history that encompassed each society. (General Education Code(s): CC.) M. HU

40B. The Making of Modern East Asia. S

A broad introductory survey of the political, social, economic, philosophical, and religious heritage of modern China, Japan, and Korea. Emphasis on the historical foundations of modern nationalism, the colonial experience, and

History

revolutionary movements. (General Education Code(s): CC.) A. CHRISTY

41. The Making of the Modern Middle East. W

History of the modern Middle East from 1800 to the present, with special reference to the 20th century and forces which have shaped the area. The impact of imperialism, nationalism, and revolution in the area, with particular attention to the history of four countries: Turkey, Iran, Egypt, Israel. (General Education Code(s): CC.) J. DERR

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division students under faculty supervision. (See course 192.) THE STAFF

44. Modern South Asia, 1500 to Present. F

Provides an introductory survey of South Asian history and society from the beginning of the 16th Century until the dawn of the 21st Century. Students gain an understanding of major events and long transformations in society, economy, culture, and politics. (General Education Code(s): ER.) J. SHAIKH

50. Pyramids and Papyrus: the History of Ancient Egypt. *

Introduces the political and social history of ancient Egyptian civilization from the Predynastic through the end of the Pharaonic period. (Formerly Introduction to the History of Ancient Egypt.) (General Education Code(s): CC.) E. SULLIVAN

60. Scientific Vocabulary and the Roots of the European Scientific Tradition. W,S

Trains students in the principals that will help them make sense of Greco-Latin scientific and technical vocabulary. Introduces Greco-Roman natural philosophy and its general cultural context, and explains the historical relationship of that tradition to the emergence of modern European experimental science and technology. (General Education Code(s): PE-T.) C. HEDRICK, J. LYNN

61. Classical Mythology. *

Introduces the philosophy of myth, and surveys classical Greek mythology. Students explore the mythic mode of thinking and its distinguishing characteristics as well as the repertoire of Greek myths and their cultural contexts. C. HEDRICK

62A. Classical World: Greece. *

An overview of Greek history from the beginnings through the Hellenistic period, with emphasis on the Archaic and Classical periods (ca. 800 B.C. through 323 B.C.). (General Education Code(s): CC.) C. HEDRICK

62B. Classical World: Rome. *

A lecture course offering an overview of Roman history and civilization from the legendary founding of Rome in 753 B.C. to the collapse of the Roman Empire's central administration in the West in 476 A.D. (General Education Code(s): CC.) C. HEDRICK

63. Women in the Ancient World. *

Examines the lives of women in the ancient Greco-Roman world. Most readings are from primary texts (i.e., ancient sources), literary, historical, and documentary; material and artistic evidence also is considered. (General Education Code(s): CC.) J. LYNN

65A. Medieval Europe: 200-1000. S

A survey of Europe from the third through 10th centuries. Emphasizes cultural conflict and assimilation (Roman and Germanic, pagan and Christian, East and West). Topics include the rise of Christianity, Germanic migrations, Byzantium and Islam, the cult of saints and relics, Vikings, and gender roles. (General Education Code(s): CC.) C. POLECRITTI

70A. Modern European History, 1500-1815. W

Surveys the economic, social, cultural, and political history of Europe since the late 15th century: 1500-1815. Course 70A is not a prerequisite to course 70B. (General Education Code(s): CC.) B. BREEN

70B. Modern European History, 1815-present. F

Surveys the political, social, and cultural history of Europe from the era of the Industrial Revolution to the beginning of the second millennium. Course 70A is not prerequisite to 70B. (General Education Code(s): CC.) B. THOMPSON

74. Introduction to Jewish History and Cultures. *

Surveys 3,000 years of Jewish history. Themes include origins of the Jews in the ancient world, formation and persistence of the Jewish diaspora, coherence and diversity of Jewish experience, Jewish narrative and textual traditions, interaction between Jews and other cultures, productive tensions between tradition and modernity in Jewish history and literature. (General Education Code(s): ER.) N. DEUTSCH

74A. Introduction to Middle Eastern and North African Jewish History: Ancient to Early Modern. *

Popular media present Muslims and Jews as age-old enemies; this is far from the truth. Through primary sources, secondary texts, and films, students examine this fraught and politicized history, challenging conventional narratives of the region and its Jewish population. (General Education Code(s): CC.) A. HECKMAN

74B. Introduction to Middle Eastern and North African Jewish History, 1500-2000. F

Surveys modern Jewish history from Morocco to Iran, 1500-2000. Studying these populations through original documents, scholarly works, and literature imparts a unique perspective on both modern Jewish history and that of the region, challenging and complementing standard narratives of each. (Formerly course 74A, Jewish Life in North Africa and the Middle East.) (General Education Code(s): CC.) A. HECKMAN

75. Film and the Holocaust. S

Examines a series of distinguished documentary and feature films about the destruction of European

History

Jewry. Each film is placed in its historical context, and wherever possible, the readings include the original documents on which films were based. Emphasis is placed on the strategies the filmmakers used to address the problem of representing genocide without succumbing to mere melodrama. (General Education Code(s): IM.) B. THOMPSON

76. Hitler and the Holocaust. * Investigates the Jewish genocide of 1933-45, with a focus on perpetrators, victims, and bystanders. The Holocaust will be compared with other genocides and placed within the context of the Great Depression, Nazi-Soviet relations, and World War II. (General Education Code(s): PE-H.) THE STAFF

80N. Gender, Labor, and Feminist Productions. * Examines how constructions of gender and intersecting constructions of race, class, and sexuality define the power of women differentially in the world of work. Beginning with the history of emancipation, traces the broader constructions of paid and unpaid labor in the 20th-century U.S. Traces the specific histories of transgender women workers, specific regional and industrial histories, and those marked by the meaning given to African, Asian, Euro-, indigenous, and Mexican descent in the construction of gender and work. Uses feminist methodology and contemporaneous visual and written work by women artists and filmmakers. (General Education Code(s): CC.) L. HAAS

80X. Civil Rights Movement: Grassroots Change and American Society. S The civil rights movement of the 1950s-60s was one of the most important grassroots social movements in American history. Course examines this movement and its effects on American society, focusing especially on the experiences of rank-and-file participants. (Formerly Community Studies 80B) (General Education Code(s): ER.) D. BRUNDAGE

80Y. World War II Memories in the U.S. and Japan. W Examines how the meaning of such issues as war origins, war responsibility, the atomic bomb, reparations, and racism have been subjects of contention in postwar U.S. and Japan. Students explore the relations between history, memory, and contemporary politics. (General Education Code(s): PR-E.) A. CHRISTY, A. YANG

99. Tutorial. F,W,S Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

100. Historical Skills and Methods. F,W,S Designed to introduce history majors to historical methods and provide preparation for exit seminars. Students develop critical reading, historical analysis, research, and disciplinary writing skills. Enrollment restricted to history majors and proposed majors or by permission of the instructor. (General Education Code(s): TA.) D. BRUNDAGE, M. DAVIS, M. PETERSON

100A. @history: Doing History in a Digital Age. W Investigates questions relating to how new technologies are changing the way historians do research and interact with the public. This course has both a critical classroom component and a hands-on computer laboratory component. (Formerly Digital History.) Enrollment restricted to junior and senior history, Jewish studies, German studies, and classical studies majors. Enrollment limited to 20. (General Education Code(s): PR-E.) E. SULLIVAN

101A. The Making of the Modern World, 1400-1750. * Focuses on the transformation of many different societies of Asia, Africa, and the Americas from 1400 to 1750 through case histories and the comparative study of European colonial hegemony, labor systems, global economic exchange,

missions, and warfare. (General Education Code(s): CC.) THE STAFF

101B. The Making of the Modern World, 1750-1950. * The history of the world from 1750. Focuses on the liberal project (the industrial and democratic revolutions) and its impact on the world—slavery and abolition, self-strengthening movements, race and class, imperialism, colonialism, and nationalism. (General Education Code(s): CC.) THE STAFF

101C. Oceans in World History. * Oceans, human communities, and the variety of relations between societies have been linked closely in world history. This course focuses on the three most well-researched and, historically, most important oceanic worlds--those that developed to link the regions bordering the Mediterranean Sea, Indian Ocean, and Atlantic Ocean. (General Education Code(s): CC.) M. MATERA

101D. Topics in the World History of Science. * Detailed consideration of some specific topic or period in the history of science and technology with significant global implication. Topic varies from year to year. Examples include: Copernicanism, Darwinism, climate change, and military technology. May be repeated for credit. (General Education Code(s): SI.) N. ASO

104C. Celluloid Natives: American Indian History on Film. * Examines how American Indian history and culture has been portrayed in Hollywood films, with an emphasis on films that represent Native Americans over the broad spectrum of Native American/white relations. (General Education Code(s): IM.) A. LONETREE

104D. Museums and the Representation of Native American History, Memory, and Culture. S Provides an historical overview of the relationship between American Indians and museums. Current issues and practices in museums are explored, primarily those

History

associated with ethics, collecting practices, exhibitions, education/interpretation, and administration/governance. (General Education Code(s): ER.) A. LONETREE

105. Nations and Nationalism. * Provides an historical, comparative, and theoretical exploration of the development of nations and nationalism. Emphases include the historical formation of nation-states, modernization, colonialism, decolonization, nations and globalization, and the intersections between ethnicity, race, religions, and nationalism. (General Education Code(s): CC.) THE STAFF

106A. Vietnam War Memories. * Compares memories and interpretations of war in Southeast Asia by diverse groups in France, America, and Vietnam. Topics include war origins, military strategies, propaganda, combat, civilians, media, activism, MIAs, refugees, mixed race children, memorials, textbooks, films, music, literature, and art. (General Education Code(s): CC.) A. YANG

106B. Asian and Asian American History, 1941-Present. * Analyzes immigration, race relations, war, gender ideology, family life, acculturation, political activism, interracial marriage, multiracial identity, and cultural representations between 1941 and the present. Emphasis on discussion, writing, research, and group presentations. (General Education Code(s): ER.) A. YANG

106C. Food Empires of Asia and the Pacific. * Examines the processes that have informed the food on our plates. Looks at food as a medium to understand the processes of migration, invention, colonialism, imperialism, and capitalism that have shaped much of the Asia-Pacific world. THE STAFF

107. Religion and Modernity. * Explores the impact of modernity on a variety of religious traditions. Examines the rise of secularism and the phenomenon of disenchantment; the "invention" of

religion; and the emergence of fundamentalism in the modern period. (General Education Code(s): CC.) N. DEUTSCH

108. Social Movements in Historical Perspective. * Readings examine 18th- through 20th-century social movements and related phenomena in Europe/America: examples include Tulipomania; revolutionary action in France; U.S. Civil Rights movement; and the environmental and feminist movements. Lectures focus on social science frameworks used to explore the social base, tactics, success or failure, and inter-relationships of social movements as a distinctive mode of social change. THE STAFF

109A. Race, Gender, and Power in the Antebellum South. * Examines how ideologies of race and gender shaped the development of slavery and empire in the American South from European colonization to the eve of the American Civil War. (General Education Code(s): ER.) C. JONES

110A. Colonial America, 1500-1750. * Explores the social, economic, cultural, and political development of British North America from the first European/Amerindian contacts in the late 16th century through the establishment of a provincial British colonial society. Course 110A is not a prerequisite to course 110B. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) M. WESTERKAMP

110B. Revolutionary America, 1740-1815. S Explores the political, social, economic, and cultural development of British North America from the first stirrings of resistance to the establishment of the U.S. Course 110A is not a prerequisite to course 110B. Satisfies American History and Institutions Requirement. G. O'MALLEY

110D. The Civil War Era. W Social, political, and economic history of the American Civil War

and Reconstruction, focusing on the war's changing nature and significance, emancipation, and the postwar struggle over the future of the South and the nation. C. JONES

110E. Rise of the Machines: Technology, Inequality, and the United States, 1877 to 1914. * History of the U.S. during what was perhaps its most socially turbulent era, the period following Reconstruction through the First World War. What did it mean to be a nation in the post-Reconstruction era? How did a country that had only recently unified itself under one system of labor now resolve the question of national identity? Was America truly a nation by 1914? Satisfies American History and Institutions Requirement. (General Education Code(s): PE-T.) M. LASAR

110F. World War USA: The United States from 1914 through 1945. * Between the First and Second World Wars, American society accepted the need for a regulatory state to save capitalism from itself. Takes an in-depth look at many aspects of U.S. politics and culture during these years. (Formerly Crossroads for American Capitalism: The U.S., 1914 to 1945.) M. LASAR

110G. Age of Extremes: The United States During the Cold War, 1945 to 1991. F From the Good War to the Cold War, the Sixties to the rise of the New Right, the post-1945 American experience has been one of extremes. This survey course looks for evidence of commonality during those times. (Formerly The U.S. After the Second World War.) M. LASAR

110H. Greater Reconstruction: Race, Empire, and Citizenship in the Post-Civil War United States. * Examines how the consolidation of United States sovereignty in North America and the establishment of an overseas empire during the period between the conclusion of the Civil War and the Phillippine-American War reshaped conceptions of race and citizenship. Satisfies American History and

History

Institutions Requirement. (General Education Code(s): ER.) C. JONES

111. Popular Conceptions of Race in U.S. History, 1600-Present. *

Explores how race has been constructed and perceived, examining Americans' use of race to describe themselves and to label others. Particularly concerned with ordinary people and how and why their ideas of race have changed over time. (General Education Code(s): ER.) G. O'MALLEY

112. American Feminist Thought, 1750-1950. *

Traces history of feminist thought in the United States from the 18th century Enlightenment to the mid-20th century. Focusing on questions of social identity, gender difference, and legal/political status, examines writings of philosophers, activists, novelists, and ordinary women that challenged religious, political, and scientific beliefs underlying gender inequality. M. WESTERKAMP

113C. Women and American Religious Culture. F

Historical introduction to religious culture of U.S. as experienced and created by women. Explores religious ideas about women, the treatment of women by mainstream institutions and religio-social communities, and female religious leaders and followers. Takes an explicitly feminist analytical approach and uses a variety of "texts," including historical and literary scholarship, sacred texts, fiction, autobiography, material artifacts, visual art, and music. M. WESTERKAMP

114. Market Revolution in Antebellum U.S.. *

Examines the cultural, political, and environmental upheaval associated with antebellum market revolution. Topics include: markets and U.S. territorial expansion; reform movements that coalesced around disputes over what should, and should not be sold (e.g., antislavery activism; anti-prostitution reform movements). C. JONES

115A. U.S. Labor History to 1919. F

Explores the history of work,

working-class people, and the labor movement in the U.S., with attention to race and gender dynamics as well as to the development of workers' organizations. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) D. FRANK

115B. U.S. Labor History, 1919 to the Present. W

Explores the history of work, working-class people, and the labor movement in the U.S. in global perspective with attention to race and gender dynamics and political-economic changes. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) D. FRANK

115C. Learning from the U.S. Great Depression. *

Examines U.S. society, politics, and culture during the 1930s, with emphasis on the relationship between social movements and public policy, and dynamics of race, ethnicity, immigration, and gender, and dynamics between labor, business, and the state. D. FRANK

116. Slavery Across the Americas. *

Examines the exploitation of African people as slaves throughout European colonies in the Americas. How did slavery affect slaves, enslavers, and their societies? Emphasizes the diversity of slave regimes and their importance for shaping American life for all. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) G. O'MALLEY

117. Wired Nation: Broadcasting & Telecommunications in the US from the Telegraph to the Internet. *

Explores the history of telecommunications systems in the US starting with the telegraph, the telephone, wireless telegraph, radio, television and the Internet. Students learn about the development of these systems and the cultures that they foster. M. LASAR

117A. From the Player Piano to Pandora. *

Explores the history, culture, and politics of the distribution of recorded and live sound from the 1870s through the present. M. LASAR

118. The Global Cold War, 1945-1991. W

Explores the history of the Cold War from a global, multinational perspective. Begins with the opening salvos between the United States and the Soviet Union in 1945, and concludes with the collapse of the latter empire in 1991. M. LASAR

118A. Conspiracy Planet: How Conspiracies, Conspiracy Theories, and Conspiracy Scandals Shape History. S

Explores the history of a principal obsession of our age: the conspiracy. Focuses on the people who love them most: conspiracy theorists. Millions of people around the world believe in conspiracy theories. Why? (General Education Code(s): PE-H.) M. LASAR

120. W.E.B. Du Bois. *

Examines the thought and activities of W.E.B. Du Bois across changing historical circumstances. Considers the ways Du Bois's work has been used in the present to address issues such as racism and imperialism. (General Education Code(s): ER.) E. PORTER

121A. African American History to 1877. F

A survey of pre-contact Africa, indigenous social structures, class relations, the encounter with Europe, forced migration, seasoning, resistance, Africa's gift to America, slavery and its opponents, industrialization, emigration vs. assimilation, stratification, Convention Movement, Black feminism, Civil War, and Reconstruction. (General Education Code(s): ER.) D. ANTHONY

121B. African American History: 1877 to the Present. W

A survey of the period from 1877 to present, highlighting Jim Crow, Militarism, Black feminism, WWI, New Negro, Garveyism, Harlem Renaissance, Black Radicalism, Pan Africanism, Depression, WWII, Desegregation Movement, Black

History

Power, 1960s, Reaganism. Cultural and economic emphases. (General Education Code(s): ER.) D. ANTHONY

122A. Jazz and United States Cultural History, 1900-1945. *

Explores the meaning of jazz in United States society and as a U.S.-based art form in other societies. Examines the social and cultural forces that have produced different jazz styles and the various ways that social conflicts and ideals have been displaced onto the music. (General Education Code(s): IM.) E. PORTER

122B. Jazz and United States Cultural History, 1945 to the Present. F

Explores the meaning of jazz in United States society and as a U.S.-based art form in other societies since 1945. Examines the social and cultural forces producing jazz movements and the social transformations, conflicts, and ideals read into the music. (General Education Code(s): IM.) E. PORTER

123. Immigrants and Immigration in U.S. History. W

Introduces U.S. immigration history from the colonial era to the present, with emphasis on the recent past. Particular attention given to changing immigration patterns; the character of the immigrant experience; and the range of responses to immigration, including nativism. (General Education Code(s): ER.) D. BRUNDAGE

124. American Empire. *

Examines U.S. expansion and subsequent ascent to global power. In tracing the presence of the U.S. in different areas of the world during the 20th century, course considers the ideas, politics, gender, and social relations that have influenced imperial aspirations. L. HAAS

125. California History. S

California had a multi-ethnic indigenous society for centuries. Course traces the persistent multi-ethnic quality of the region as it became part of the Spanish empire, Mexico, and the United States. Considers the many diasporas that have shaped California's steady

connection to the world, especially to Mexico and other nations that border the Pacific. (General Education Code(s): ER.) L. HAAS

125A. Indigenous Histories of California. *

Examines the tribal histories and epistemologies of California's recognized and unrecognized tribes. Beginning with ancient pasts of linguistically distinct indigenous peoples, the class focuses on the 19th and 20th centuries, and considers the role of colonialism, genocide, and historical recovery. L. HAAS

126. From Indigenous Colonial Borderlands to the U.S.-Mexico Border. *

Examines the interactions and integration of indigenous people and settlers in the Southwest U.S. and Northern Mexico from a region defined by its indigenous colonial borderlands to national borders. Explores the connections between the U.S. and Mexico. Within the deeply cross-cultural region studied, also examines the particular histories of states, indigenous peoples, and Mexican-origin groups and regions. (General Education Code(s): ER.) L. HAAS

128. Chicana/Chicano History. *

A survey course on the social history of the Mexican (Chicana/o) community and people in the U.S. through the 20th century. Themes include resistance, migration, labor, urbanization, culture and politics. Satisfies American History and Institutions Requirement. (General Education Code(s): ER.) G. DELGADO

130. History of Modern Cuba. F

Covers from the Cuban sugar revolution (late 18th century) to the socialist revolution and its aftermath (1959–present). It is intended to be not only a modern history of Cuba but also a broader history of Latin America through the case of Cuba. M. DIAZ

131. Women in Colonial Latin America. S

Introduction to the social history of Latin America through a focus on the inflections of class and ethnicity

on gender in this region. First six weeks focuses on the colonial period. The last three weeks covers the 19th and 20th centuries. M. DIAZ

134A. Colonial Mexico. *

Covers the social, cultural, economic, and political history of colonial Mexico (New Spain). Special attention paid to colonial identity formation, religion, and labor systems. Begins by examining indigenous societies prior to the arrival of Europeans and concludes with Mexico's independence movement in the early 19th century. (General Education Code(s): ER.) M. O'HARA

134B. History of Mexico, 1850 to Present. *

Social, cultural, economic, and political history from the triumph of Liberalism to the present day, focusing on four key periods: the dictatorship of Porfirio Diaz (1900–1910), the armed phase of the Revolution (1910–1920), the consolidation of revolutionary programs and a "single-party democracy" (1920–1940), and the developmentalist counter-revolution since 1940. Provides background for understanding the Mexican diaspora to the U.S. (General Education Code(s): CC.) M. O'HARA

137A. Africa to 1800. *

Introduction to history of Africa. Topics include states and "stateless" societies, culture, society and economy in the pre-modern era, stratification, oral traditions, long distance trade, the coming of Islam, and the evolution of the South Atlantic system and its social, political, and other consequences. Some background knowledge of Africa helpful. (General Education Code(s): CC.) D. ANTHONY

137B. Africa from 1800 to the Present. *

How Africa lost its continental, regional, and local autonomy in the era of European imperialism. The components of European hegemony, Christian proselytization, comparative colonial strategies and structures, nationalism, decolonization and

History

independence and the disengagement from neo-colonial patterns and the colonial legacy. Case studies from northern and sub-Saharan Africa. Some background knowledge of Africa helpful. (General Education Code(s): CC.) D. ANTHONY

137C. African Cinema. *

Historical study of modern African cinematography from the emergence of film as a tool of social control in the imperial and colonial periods to its theoretical and practical transformation by African cineastes in the post-independence era. Films and videos from northern, eastern, western, central/equatorial, and southern Africa viewed. Prerequisite(s): course 30 or 137A or 137B, or by permission of instructor. (General Education Code(s): CC.) D. ANTHONY

140B. History of Qing China, 1644-1911. W

Introduces students to how Qing China arose, expanded, and struggled to enter the modern world. Focuses on what the Qing empire had in common with other agrarian empires across Eurasia, commercialization and communication networks, elite mobility and peasant revolts, political legitimacy of the alien rule, maintaining social order (such as merchants' control and gender segregation), massive population growth and internal migration, as well as its conflicts with the industrial West. (General Education Code(s): CC.) M. HU

140C. Revolutionary China 1895-1960. S

Explores history of China from the late 19th century to the early years of the People's Republic, focusing on the end of imperial rule, the sources and development of revolution, and early attempts at socialist transformation. (General Education Code(s): CC.) E. HONIG

140D. Recent Chinese History. F

Explores history of China from establishment of the People's Republic of China to the present, focusing on competing strategies of socialist transformation,

urban/rural relations, and the effects of the post-Mao economic reforms. (General Education Code(s): CC.) G. HERSHATTER

140E. Women in China's Long 20th Century. W

Introduces changes in Chinese women's lives--and changes in shared social ideas about what women should do and be--from the mid-19th century to the present. When we foreground gender as a category of analysis, how does history look different? (General Education Code(s): CC.) G. HERSHATTER

141A. Classical Chinese Culture and Literature, 10th Century B.C.E. through Sixth Century C.E. *

Survey of writing and culture from the 10th century B.C.E. through the sixth century C.E., focusing on poetry, philosophical and historical writing, supernatural fiction, Buddhist/Taoist texts in contexts of fragmentation, empire building, dynastic collapse, rebellion, eremitism, and courtly society. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Poetry, Pre-1750. (Also offered as Literature 141B. Students cannot receive credit for both courses.) C. CONNERY

141B. Classical Chinese Culture and Literature, Sixth Century through 16th Century. *

Survey of writing and culture from the Tang through early Ming dynasties (sixth century C.E. through 16th century C.E.). Themes include literary, religious, and philosophical innovation; courtly life; cultural contacts with non-Chinese people; and transformations of state and society. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Poetry, Pre-1750. (Also offered as Literature 141C. Students cannot receive credit for both courses.) C. CONNERY

145. Gender, Colonialism, and Third-World Feminisms. *

Introduces the history of feminism in the third world, focusing on the

ways in which colonialism (and post-colonialism) has shaped gender relations and on the feminist movements that have emerged in response to the impact of colonialism. E. HONIG

146A. Colonial South Asia 1750-1947. *

Introduces key transformations--political, economic, social, and cultural--in colonial Indian history. The focus is on the processes, institutions, and ideas that shaped colonial power and resisted it. J. SHAIKH

147A. History of Premodern India. *

A study of religions (Vaisnavism, Tantrism, Islam, Sikhism), art, literature, and social movements in their historical contexts from 1000 A.D. to 1800. (General Education Code(s): CC.) J. SHAIKH

147B. Political and Social History of Modern South Asia. *

Social, political, and religious movements in the colonial and postcolonial contexts of the 19th and 20th centuries in modern and contemporary South Asia. (General Education Code(s): CC.) J. SHAIKH

147C. South Asia in the 20th Century. S

Introduces historical change in 20th-century South Asia. Topics include: modernity, gender, state formation, nationalism, democracy, and development. Course material includes interdisciplinary secondary works, primary reading by important political actors, and films. Prior knowledge of South Asia is useful, but not necessary. (General Education Code(s): CC.) J. SHAIKH

147D. Intellectual History of South Asia. *

Highlights the power of ideas in making South Asia modern. Focuses on the 19th and 20th Centuries. Ideas assessed include liberalism, Marxism, Hindu revivalism, Islamic jihad, democracy, nationalism, secularism, and development. (General Education Code(s): TA.) J. SHAIKH

History

150A. Ancient Japan. *

Surveys the history of the peoples of the Japanese islands from prehistorical migrations through the 15th century. Emphases include examination of social structures, political formations, cultural production, and religion. (General Education Code(s): CC.) N. ASO

150B. Tokugawa Japan. *

Surveys the history of the peoples of the Japanese islands from the middle of the 15th century to the middle of the 19th century. Focus is on the era of civil war, the formation of the early modern federated state, social structure, and cultural production. A. CHRISTY

150C. Modern Japan. *

Surveys the history of the peoples of the modern Japanese nation from the Meiji Restoration to the present. Focuses on the formation of the modern state, empire, social movements, and cultural production. (General Education Code(s): CC.) THE STAFF

150D. The Japanese Empire, 1868-1945. *

Examines the history of the Japanese colonial empire from 1868 to 1945, including the colonies of Taiwan, Korea, Micronesia, and Manchuria. Considers how the colonies were ruled and what the legacies of the empire have been. A. CHRISTY, N. ASO

150E. History and Memory in the Okinawan Islands. *

Known historically as the Ryukyu Islands, Okinawa has long been an important transmitter of people, ideas, and goods in East Asia. Course explores this history by focusing not only on the royalty of these islands, but also on the lives of everyday people. THE STAFF

150F. Engendering Empires: Women in Modern Japan and Korea. F

Explores how women's experiences in Japan and Korea were intertwined and differentiated before and during World War II under Japanese empire, and from the postwar to the present under American hegemony. (General Education Code(s): CC.) N. ASO

151. History of Science, Medicine, and Technology from Antiquity to the Enlightenment. W

Questions explored include the debate over when/where "modern science" began; the role of craft-based and artisanal skills in the production of knowledge; and the technological and social impacts of intellectual change, from the Bronze Age to the birth of computing. (General Education Code(s): SI.) B. BREEN

152. Trade and Travel on the Silk Roads. *

Introduction to two millennia of history along the ancient trade routes popularly known as the "Silk Road." These routes carried precious goods between Asia and Europe, while also serving as important conduits for the flow of people and ideas. (General Education Code(s): CC.) M. PETERSON

154. Post-Colonial North Africa. F

Introduces the history of modern North Africa from WWI to the so-called "Arab Spring." Topics include the dynamics of colonial rule and reform, anti-colonial nationalism, decolonization, the rise of Islamism, and popular protest. (General Education Code(s): TA.) M. DAVIS

155. History of Modern Israel. W

The conflict between Israelis and Palestinians is one of the most intractable disputes in our troubled world. Course begins with a glimpse of Palestine in the late 19th and early 20th centuries, surveys the rise and fall of utopian Zionism, pays especially close attention to the events of 1948 and 1967, and concludes by analyzing the collapse of hopes for peace after Oslo and Camp David meetings. (General Education Code(s): CC.) B. THOMPSON

156. Interrogating Politics in the Post-Colonial Middle East. W

Explores the political trajectory of the post-colonial Middle East. Topics include: the Cold War and rise of Third Worldism; women's movements; political Islam; Arab-Israeli conflict; Lebanese Civil War; impact of oil production; Iranian Revolution; rise of the Arabian Gulf.

(General Education Code(s): CC.) J. DERR

156A. Art, Culture, and Mass Media in the Arab Middle East. *

Chronicles the cultural history of the Arabic-speaking regions of the Middle East through art, literature, cinema, and mass media during the 20th and 21st Centuries. J. DERR

157. The Ottoman Empire. *

Explores the history of the Ottoman Empire with emphasis on its Arabic-speaking provinces. In addition to critically considering the political trajectory of the empire, we interrogate a wide range of topics relating to community organization, economic networks, international affairs, and the significance of religion within the Ottoman realm. (General Education Code(s): CC.) J. DERR

158C. Slavery in the Atlantic World: Historical and Archaeological Perspectives. *

Explores the African diaspora resulting from the transatlantic slave trade, drawing on methodologies from two academic disciplines--history and archaeology. Examines key questions about the slave system, using an array of source materials, both written documents and artifacts. (Also offered as Anthropology 179. Students cannot receive credit for both courses.) Enrollment restricted to history, anthropology, and critical race and ethnic studies majors and minors during first-pass enrollment; open to all students at the start of second-pass enrollment. (General Education Code(s): PR-E.) G. O'MALLEY

159A. Cleopatra to Constantine: Greek and Roman Egypt. W

Examines the political, social, religious, and material culture of ancient Egypt during these periods of intense interaction with the ancient Near East and Mediterranean, from the period of Alexander (332 BCE) through the beginning of Coptic Christianity (3rd century CE). (Formerly Greco-Roman Egypt.) (General Education Code(s): CC.) E. SULLIVAN

History

159B. Women and Gender in Ancient Egypt. *

Explores sex and gender in ancient Egypt with a specific focus on women. Artistic representations, texts, objects of daily life, and burials are used to examine the practices that encoded gender in this ancient culture. (General Education Code(s): IM.) E. SULLIVAN

159C. Temple and City: The Egyptian New Kingdom and the City of Thebes. S

Introduces the political and religious history of the Egyptian New Kingdom (1546-1086 BCE), using the city of Thebes as a focal point. The political, religious, and architectural history of the city is covered. E. SULLIVAN

159D. When Cities Were New: the Rise of Urbanism in the Ancient Near East and Mediterranean. *

Investigates the rise and development of urbanism in the ancient Near East and Mediterranean world, including Mesopotamia, Syria, Egypt, Greece, and the Roman Empire. Close studies of individual ancient cities, as well as broader issues in ancient urbanism are covered. (General Education Code(s): CC.) E. SULLIVAN

160A. Athenian Democracy. *

Athenian democracy from foundation to the fourth century B.C., with emphasis on its practices and ideologies. Readings from ancient sources and modern theory. Topics to include foundations and development; Athenian concepts of freedom, equality, law, citizenship. Lectures and discussion. (General Education Code(s): CC.) C. HEDRICK

160C. Topics in Greek History. *

Detailed consideration of some specific topic or period in Greek history, varying from year to year. Examples include Greek religion, Alexander, the Hellenistic world, the ancient Greek economy, and Greece and India; Thucydides and the Peloponnesian War; Greek art and archaeology. May be repeated for credit. (General Education Code(s): CC.) C. HEDRICK

161B. Topics in Roman History. F

Detailed consideration of some specific topic or period in Roman history, varying from year to year. Examples include Roman religion, Augustus and the Roman Empire, Julio-Claudian emperors and the principate, Roman slavery, and Christianity and Rome. May be repeated for credit. C. HEDRICK

161C. Age of Augustus. *

Surveys Rome's transition from Republic to Empire, and the politics, people, and literary and material culture of the principate. J. LYNN

163B. Genesis: A History. S

Introduction to historical, textual, source, and redaction criticism of the book of Genesis and to exegesis as science and ideology. Texts, history, and iconography of neighboring traditions (Mesopotamian, Ugaritic, Egyptian, Greek) are also studied when appropriate. Course 44, Literature 80A, or some basis in Hebrew or Greek is strongly suggested. (General Education Code(s): CC.) THE STAFF

164A. Late-Medieval Italy, c.

1200-1400. *

Italy from the birth of the commune to the early Renaissance in Florence. Topics include urban life and social conflict, gender roles, St. Francis, the Black Death, female mystics, Dante, Boccaccio, humanism, artistic developments from Giotto through Donatello. Requires viewing several films outside of class. C. POLECRITTI

164B. Renaissance Italy, c. 1400-1600. *

Italy from the Florentine Renaissance through the Reformation. Topics include social change and political consolidation, the rise of the papacy, court life, witch hunting, Machiavelli, artistic developments from Donatello through late Venetian Renaissance. Requires viewing several films outside of class. Course 164A recommended as preparation. C. POLECRITTI

166. Northern Ireland: Communities in Conflict. *

Introduction to the so-called

"troubles" in Northern Ireland, from the 1960s to the present.

Examination of the historical background to the conflict, the patterns of conflict in the 1970s and 1980s, and the emergence of a peace process in the 1990s. (General Education Code(s): CC.) D. BRUNDAGE

167A. The First World War. *

An intensive analysis of the First World War from multiple perspectives: military, diplomatic, political, economic, technological, global, and cultural. The emphasis is on the transformative impact of the war on European societies, international relations, and modern culture. (General Education Code(s): TA.) B. THOMPSON

167B. The Second World War in Europe. *

Making use of multiple perspectives, this course explores the origins of the Second World War, its course and outcome, and its transformative effects on European society, culture, politics, and demographics. Closely examines the war's impact on diverse civilian populations. (General Education Code(s): CC.) THE STAFF

169. Dutch and Belgian History, 1500 to Present. W

The political, social, economic, and cultural history of the modern Netherlands and Belgium from 1500 to the present day. THE STAFF

170A. French History: Old Regime and Revolution. *

French history from the Middle Ages through the Revolution. Focus on the rise and fall of "absolute" monarchy, the nature of Old Regime society, the causes and significance of the French Revolution. Attention to those who endured as well as to those who made events. THE STAFF

170B. French History: The 19th Century. *

Social, political, and cultural history of France from the Revolution to WWI. Focus on the Revolutionary tradition, the Napoleonic myth, the transformation of Paris, and the integration of the peasantry into the national community. Readings may

History

include novels by Stendhal and Balzac. M. DAVIS

170C. From the Trenches to the Casbah: France and its Empire in the 20th Century. S

Surveys major events in 20th-century French history, such as the two World Wars, the Thirty Glorious Years, European integration, decolonization, the Cold War, and the events of May 1968. (General Education Code(s): TA.) M. DAVIS

171. Revolutions in France. *

Examines the political/social upheaval in 1789, 1830, and 1848 in light of the sweeping changes brought to 19th-century France by those other great "revolutions" of the age, the democratic and the industrial. Students' written work focuses on the comparative analysis of revolution. Offered in alternate academic years. THE STAFF

172A. German History. *

The development of German civilization, including philosophy and literature as well as politics and diplomacy in the nineteenth and twentieth centuries. THE STAFF

172B. German Film, 1919-1945. F

Introduction to German films from 1919 to 1945. Through combination of movies and documentaries, gain insight into political, economic, social, and cultural conditions of Weimar and Nazi Germany. (General Education Code(s): IM.) E. KEHLER

172C. History of German Film, 1945 to Present. *

Uses films and documentaries to provide insight into the political, social, economic, and cultural conditions of postwar East and West Germany, with a strong focus on remembrance of the country's Nazi past. (General Education Code(s): IM.) E. KEHLER

172D. Hitler and the Third Reich. *

Focuses on Hitler's political career and analyzes how he harnessed Germany and much of Europe to his vision of a "New Order" organized along a social-Darwinist notion of the "racial community." THE STAFF

173A. Medieval Russia. *

Topics include Russia's relations with Scandinavia, Byzantium, and the Mongols; Orthodoxy; and the roles of women. Materials include chronicles, letters, law codes, household manuals, travelogues, epics, art, architecture, and maps. Also explores the continuing relevance of Russia's medieval past through operas and film. (General Education Code(s): CC.) M. PETERSON

173B. Imperial Russia, 1696-1917. *

Russian history from Peter the Great through the collapse of the Russian Empire. Explores the relationship between state and subjects (both Russian and non-Russian), alongside the role that geography played in an expanding empire in an increasingly globalizing world. (General Education Code(s): CC.) M. PETERSON

173C. History of the Soviet Union. W

Covers Soviet history from the late imperial period through the Soviet collapse. Explores the nature of the Soviet state, relationships between state and society, the role of the Soviet Union in the Cold War, and experiences of everyday life. (General Education Code(s): CC.) M. PETERSON

174. Spies: History and Culture of Espionage. S

Analyzes the roles of espionage and intelligence in modern European history with emphasis on major conflicts from the Franco-Prussian War through the Cold War and beyond. Also examines images of spies in popular culture from the early 20th century to the present. (General Education Code(s): CC.) THE STAFF

175D. History of Soviet Film. *

Does not stress questions of aesthetics or technical aspects of film making, but the changing ideology inherent in Soviet films. The goal of examining cinema is to enrich our understanding of Soviet history. Readings include works of famous directors and theorists—Eisenstein, Vertov, Pudovkin, and

Kuleshov—in addition to secondary works by Denise Youngblood, Richard Taylor, Josephine Woll, and Anna Lawton. THE STAFF

176. Eastern Europe, 1848-2000. S

Examines the political and social history of modern Eastern Europe, excluding the Balkans and Baltic States, from 1848 to the present. Focuses on the development of nationalism, war, occupation, ethnic strife, communism, and democratic reform in this region. (General Education Code(s): CC.) THE STAFF

177. Smoke, Smallpox, and the Sublime: Thinking about the Environment in the 19th Century. F

Examines ways in which Europeans and others thought about the environment and nature in the 19th century and how their concerns about issues such as climate change, pollution, and conservation were both similar to and different from environmentalist thinking today. (General Education Code(s): PE-E.) M. PETERSON

177A. Tropics of Empire. S

Surveys the role of the tropics and tropical peoples in history, covering the post-Columbian encounters between indigenous Americans, Europeans, and Africans, colonialism, and the origins of fields, such as anthropology and tropical medicine. B. BREEN

178A. European Intellectual History: The Enlightenment. *

Study of European thought and literature from Hobbes and Swift to Rousseau and Goethe. Focuses on relation of ideas to their social and cultural context. Special attention to traditions of religious conflict and criticism rising from the Protestant Reformation; to the discovery of the world beyond Europe; and to the intellectual and cultural roots of the French Revolution. N. DEUTSCH

178B. European Intellectual History: The 19th Century. *

Study of European thought and literature from Blake to Nietzsche. Focuses on relation of ideas to their social and cultural context. Special attention to the rise and fall of the

History

Romantic movement, to changing conceptions of history, and to the development of socialist and aesthetic critiques of industrial civilization. B. THOMPSON

178C. European Intellectual History, 1870-1970. *

Drawing on experiments in autobiography, the arts, and social theory, this course focuses on ideas and images of modernity in European culture. It also highlights the role of the intellectual as politically engaged or disillusioned witness in a violent century. Offered in alternate academic years. (General Education Code(s): CC.) THE STAFF

178E. Modern Jewish Intellectual History. *

Surveys European Jewish intellectual history from the Enlightenment to the present. Major themes include emancipation and assimilation, the flowering of Yiddish literature, the rise of Zionism, new variations on the messianic idea, and Jewish contributions to the culture of urban modernism. Offered in alternate academic years. (General Education Code(s): ER.) B. THOMPSON

180A. English History. *

Emphasis on the interaction between social, economic, religious, and political developments. An attempt to place these phenomena in the context of the wider European and world scene. The period from 1485 to 1689. THE STAFF

181. Modern Britain and the British Empire. F

Examines the history of the British Isles and the British Empire from the late 17th century to the present. Traces the expansion, transformation, and dissolution of the British Empire as well as the changing meanings of "Englishness" and "Britishness" over this period. (General Education Code(s): CC.) M. MATERA

181A. Postcolonial Britain and France. *

Transdisciplinary examination of the politics and culture of

postcolonial Britain and France. Topics include: immigration from South Asia, Africa, and the Caribbean; racism and antiracism; minority difference and citizenship practices; and the emergence of Islam as a major category of identity and difference. (Also offered as Anthropology 1100. Students cannot receive credit for both courses.) (General Education Code(s): CC.) M. MATERA

181B. Africa and Britain in an Imperial World. S

Covers the long history of interaction between Britain and Africa, from the Atlantic slave trade and British colonialism in Africa up to the post-colonial present, from British settlers in Africa to the African presence in the British Isles. (General Education Code(s): ER.) M. MATERA

183A. Nineteenth-Century Italy. F

Italian politics, culture, and society from the Napoleonic era through early leftist movements. Central emphasis on the Risorgimento and Unification. Other topics include: north-south conflict; banditry; urban change; growth of tourism; popular religion; family structures and gender; visual arts and opera. C. POLECRITTI

183B. Fascism and Resistance in Italy. W

Examines Italian politics, society, and culture (c. 1900-1950), emphasizing the Fascist regime; interdisciplinary focus emphasizing history, literature, and film. Course 183A recommended as preparation. C. POLECRITTI

184B. Racism and Antiracism in Europe: From 1870 to the Present. *

Explores the histories of racism and anti-Semitism alongside efforts to combat racism in Europe from 1870 to the present. Offers a conceptual basis for thinking about the definition of race and its historical evolution. (General Education Code(s): TA.) M. DAVIS

185D. Jewish Social Movements. * Jewish social movements of the late 19th and 20th centuries, in Europe (Eastern and Western) and the U.S.:

the confrontation between Hasidism and Haskahah, tensions between socialism and Zionism, between religiosity and secularism, the mutual influences among these tendencies. (Also offered as History of Consciousness 118. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 20. B. EPSTEIN

185I. Latin American Jewish History in the Modern Period. W

Explores Jewish immigration settlement and identity negotiation in Latin America from the mid-19th Century to the present. A. HECKMAN

185J. The Modern Jewish Experience. *

Historical comparative overview of the political, socio-cultural, and intellectual transformation of Jewish societies in Europe and the Middle East from the late 18th Century to the present. THE STAFF

185K. Jewish Life in Eastern Mediterranean Port Cities. *

Overview of the Jewish experience in important cities in the age of empire. Istanbul, Beirut, Alexandria, and Salonica were home to thriving, culturally diverse Jewish populations. Course explores these urban Jewish cultures, the institutions, and intellectual production. THE STAFF

185L. Where Civilizations Met-- Jews, Judaism, and the Iberian Peninsula. *

Surveys Jewish life in the Iberian Peninsula from Roman times to the present, and explores offshoot Hispanic Jewish societies in the aftermath of the 1492 expulsion. N. DEUTSCH

185M. Zionism: An Intellectual History. S

Zionism is one of the most complex--and contested--political and ideological movements of the modern period. This course explores the intellectual history of Zionism and its critics, from the late 19th century to the establishment of the State of Israel. (General Education Code(s): ER.) N. DEUTSCH

History

185N. The Holocaust in a Digital World. W

Explores how digital tools change the way we know about the Holocaust by (1) critically understanding and analyzing digital representations of the Holocaust and (2) using and developing digital skills to engage with stories about the Holocaust. (Also offered as Jewish Studies 185N. Students cannot receive credit for both courses.) Enrollment is restricted to Jewish studies and history majors and minors during first-pass enrollment; open to all students at the start of second-pass enrollment. Enrollment limited to 20. (General Education Code(s): PR-E.) THE STAFF

185O. The Holocaust and the Arab World. *

Examines World War II in North Africa and the Middle East. Through primary and secondary sources, films, and novels, students consider WWII and the Holocaust as they intersect with colonial and Jewish histories in the Arab world. A. HECKMAN

190. Advanced Research and Reading Seminars.

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25 pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count toward the major.

190A. Slavery and Race in Latin America. F

Covers comparative history of slavery in Latin America with questions of race in the colonial and national periods and key moments and debates in the historiography of slavery and its relation to ideologies of the past and the nations. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. DIAZ

190B. Race and the Nation in Latin America. *

Focuses on the ways in which nation and race have been thought about in Latin America throughout the 19th and 20th centuries. These concepts were closely intertwined, albeit in differing and changing ways, since the wars of independence from Spain and Portugal (1810-1825). Compares the ways in which "black," "Indian," and "racially mixed" ("mulatto" or "mestizo") have been socially constructed, ideologized, and contended in different countries, including Brazil, the Spanish-speaking Caribbean, Mexico, Peru, and Argentina. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. DIAZ

190C. 9/11 in Historical Perspective. *

Explores how scholars and other observers have tried to make sense of the events of and following September 11, 2001, through analysis and other invocations of historical precedent. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. E. PORTER

190D. Asian and Latino Immigration Since 1875. *

Examines Asian and Latino immigration into the United States since 1875. Students explore the relationship between U.S. foreign policies and immigration policies, transnational ties and homeland connections, and the cultural and political influences they have on American society. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and

senior history majors. Enrollment limited to 20. G. DELGADO

190E. Topics in Chicana/o History. *

A seminar on the history of Chicanos/Mexicans in the United States, 1848 to the present. Topics include Chicana/o labor, family, social, urban, cultural, and political history. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

190F. Research Seminar in the Americas. F

Students learn how to conduct research and write history. Primary and secondary sources are extensively read. Research sources include a rich array of government documents, newspapers, memories and diaries, visual material and film. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. L. HAAS

190G. History and Theory. *

Each year students study one or more theorists or schools of philosophy and history. Themes vary by year and include: Walter Benjamin, Hayden White, Agnes Heller, the Frankfurt School, and the Subaltern School. Prerequisite(s): two upper-division history courses and satisfaction of the Entry Level Writing and Composition requirements, or permission of instructor. Enrollment limited to junior and senior history majors. Enrollment limited to 20. L. HAAS

190H. History of Time. *

Writing-intensive seminar on the experience, manipulation, and representation of time in history. Students pursue advanced research using primary and secondary sources. Prerequisite(s): two upper-division history courses and satisfaction of the Entry Level Writing and Composition

History

requirements, or permission of instructor. Enrollment limited to junior and senior history majors. Enrollment limited to 20. M. O'HARA

190I. California and the Borderlands. *

Complete original research in California and borderlands history in this senior research seminar. Focus on selected problems and themes. Assignments and discussions help students frame their research and edit their writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. L. HAAS

190J. Diaspora and Migration in World History. *

Diaspora studies recently have included a range of movements and people in colonial, post-colonial, and national dilemmas. Diaspora studies share historical themes with migration studies, and include the study of forced exile and situations of genocide and femicide experienced by indigenous and national minorities. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. L. HAAS

190K. Wired Planet: Readings on the Global History of Broadcasting and Telecommunications. *

Locates common themes in the history of broadcasting and telecommunications throughout the world. Why do certain strategies for developing broadcasting and telecommunications systems succeed or fail? Why do some nations outstrip other nations of comparable development in the growth of their communications systems? Why do national or regional communication systems suddenly become more or less

open—or more or less centralized? Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. LASAR

190L. Personal Politics in the New South. *

Examines the tensions between movements for political reform and reaction in the southern United States between Reconstruction and the second world war. Students develop a research paper grounded in primary research that addresses these questions. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. C. JONES

190M. History of Children and Culture of Childhood in the 19th Century. *

Explores the lives of children and the functions of the literary figure of the child in the cultural politics of the 19th century in the United States. Examines the historically contingent nature of childhood through historical, literary, and visual sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. C. JONES

190N. Topics in African History. *

Examines contemporary crises in Africa: the new South Africa, refugees, HIV/AIDS, children of war, blood or conflict diamonds, civil war, and genocide in Rwanda. Seminar format where students will be prepared to undertake studies on specific subjects and two rounds of 15–20 page papers. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or

permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. D. ANTHONY

190O. African American Historiography. S

Major themes in contemporary African American historiography on a topical basis. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. D. ANTHONY

190P. Early American Society and Culture. *

Explores subjects and themes in the political, social, and cultural history of early U.S. history from the colonial period through 1850. Includes critical reading of current scholarship and research in primary texts. The focus of this course is the production of a 25-page research paper. Recommended for senior history majors. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. WESTERKAMP

190Q. The Novel and History. *

Explores novels and novelists in relation to the writing of historical scholarship. Breaking down the simplistic genre division between fiction and nonfiction, provides opportunities for students to read novels as historical evidence, novels as editorial commentary, and novels as analytical narrative. Students produce a series of papers that culminate in a 25-page research project. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. WESTERKAMP

190R. Research in the History of American Religions. W

History

Readings and research in the history of religions in the United States. Readings focus on topics including the rise of evangelicalism; gender and religion; class, race, and religious diversity; and modernity. Students produce papers that culminate in a 25-page research project. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition requirements and two upper division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. WESTERKAMP

190S. Women and Social Movements in the U.S. S

Examines history of women and social movements in the U.S., such as abolitionism, anti-lynching, Chinese and Jewish garment workers, Chicana farm labor activism, the American Indian Movement, the Ku Klux Klan, and the Civil Rights movement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. D. FRANK

190T. Latin America in the Cold War. *

Writing-intensive seminar on Latin America during the Cold War. Particular attention given to U.S.-Latin American relations, including moments of covert or direct interventions. Students pursue advanced research using primary and secondary sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. O'HARA

190U. Power, Culture, and the Federal Bureau of Investigation. S

In this research seminar, students explore F.B.I. files obtained under the Freedom of Information Act on a prominent citizen of the United States of America. Prerequisite(s):

satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. LASAR

190W. Topics in U.S. Civil War and Reconstruction. *

Students read historiographically significant works in the history of the U.S. Civil War and Reconstruction. Students develop research projects grounded in primary source material on a related topic of their choosing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. C. JONES

190X. History of the Atlantic World, 1492-1824. *

Explores the transatlantic societies created by Europeans' colonization of the Americas, and their exploitation of African slaves. Questions whether the cultural, economic, and political links across the ocean integrated the adjacent lands into a fundamentally "Atlantic World." Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. G. O'MALLEY

190Y. The Atlantic Slave Trade. *

Before 1800, far more Africans than Europeans colonized the Americas, arriving unwillingly in the slave trade. Course examines the captives' experiences; the trade's organization and significance in the Atlantic economy; and the eventual movement to abolish the traffic. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. G. O'MALLEY

190Z. The Long Civil Rights Movement. *

Explores the concept of the "long civil rights movement" as a framework for understanding a wide range of social, economic, and political developments in the African American freedom struggle, in both North and South, from the 1930s through the 1980s. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. D. BRUNDAGE

192. Directed Student Teaching.

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. THE STAFF

193. Field Study.

To allow promising, well-qualified undergraduates to pursue directed programs of archival or archaeological study in the field under supervision of the UCSC history faculty, concentrating their work within a single given quarter. Students may take two or three courses concurrently. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Advanced Research and Reading Seminars.

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25 pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count toward the major. THE STAFF

194A. Gender, Class, and Sex in Shanghai. *

Focusing on Shanghai, course examines issues of gender, class, and sex in modern urban Chinese history. Given Shanghai's history as a treaty port, particular attention paid to ways in which its semi-colonial status inflected the articulation of gender identities,

History

class formations and issues of sexuality (particularly sexual labor). Also looks at Shanghai during the Maoist period and in the context of more contemporary economic reforms. (Also offered as Feminist Studies 194N. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and course 140C, or 140D, or 140E, or permission of instructor. Restricted to junior and senior history majors. Enrollment limited to 20. E. HONIG

194B. Okinawan History. *

Examines the history of Okinawa with particular attention paid to the modern era. The goal is to give students a solid foundation in the historiography of major themes in the study of Okinawan society. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements two upper-division history courses, or permission of instructor. Enrollment limited to 20. A. CHRISTY

194E. Women in Japanese History. *

Examines through both primary and secondary sources such issues as work, sexuality, education, class, and ethnicity in relation to constructions of female gender in Japanese society over the past several centuries, particularly focusing on the modern era. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. N. ASO

194F. Jewish Shanghai. *

Explores the migration of the more than 10,000 Jewish refugees who fled Europe during World War II and settled in Shanghai. Examines the different Jewish populations that fled to Shanghai, the "Shanghai ghetto," and the recovery of this piece of history from the 1980s through the present. Prerequisite(s): Satisfaction of the Entry Level Writing and

Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. E. HONIG

194G. China Since the Cultural Revolution: Histories of the Present. *

Explores the rapid and often destabilizing shifts that have taken place in China since the late 1970s (the "reform era"), tracing the effects of China's earlier experiment with revolutionary socialism on the market-driven present. Examines how various meanings of reform are negotiated; changes in rural and urban environments; and class, gender, and ethnic differences. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. G. HERSHATTER

194H. Gender, Family, and State in China: 1600-Present. *

Explores gender, family, and state power in China from 1600 to present, examining gendered norms, education, political movements, revolutionary practice, sexuality and sex work, and state interventions in contemporary families. Responses to reading and a research paper required. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. G. HERSHATTER

194I. U.S. Bases and Social Movements in Asia. *

Focuses on the complicated and often tumultuous relationships between the United States military and Pacific communities. Investigates the histories of the people who protested against military bases in Japan, Okinawa, the Philippines, South Korea, Guam, etc. Prerequisite(s): satisfaction of the Entry Level Writing and

Composition requirements; and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. J. WRIGHT

194J. The Poor and the Everyday in Modern China. *

Focuses on non-elite people in modern Chinese history. Drawing on historical studies and contemporary accounts, this course looks at how colonialism, war, and revolutionary movements shaped everyday lives. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment is restricted to junior and senior history majors and minors and East Asian studies minors. Enrollment limited to 20. E. HONIG

194K. Jewish Radical Movements. *

Examines Jewish radical politics across Europe, North Africa, the Middle East, and the Americas in the late 19th and 20th centuries. Radical politics afforded Jews greater agency in contexts that otherwise excluded them; religious, nationalist, and internationalist obligations presented tensions. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior Jewish studies and history majors. Enrollment limited to 20. A. HECKMAN

194L. Exile, Diaspora, and Displacement: Jewish Lives from North Africa to the Middle East. *

From Medieval Spain, Ottoman Salonica, 20th-century Baghdad, present day Casablanca, and beyond, this course examines Jewish experiences of exile, diaspora, and displacement, as well as how to read memoir and biography as sources in their broader historical context. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two

History

upper-division history courses. Enrollment is restricted to junior and senior history majors and Jewish studies majors and minors. Enrollment limited to 20. A. HECKMAN

194M. Literati, Samurai, and Yangban: Comparative History of State and Elite in East Asia, 1600-1900. F

Critically examines the formation of political elites in East Asia. Compares literati in Ming and Qing, China; samurai in Tokugawa, Japan; and yangban in Joseon, Korea. Each group occupied specific roles and functions in their state and society but differed in scale and character. Students cannot receive credit for this course and course 294M. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, or two upper-division history courses, or permission of the instructor. Enrollment is restricted to junior and senior history majors and East Asian studies minors. Enrollment limited to 20. M. HU

194N. Urbanites in the Global South, 18th Century to the Present. F

Urbanization is an important aspect of the making of the Global South. This course introduces the histories of urbanization from the 18th Century to the present. Students read the works of historians, anthropologists, geographers, and sociologists. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. J. SHAIKH

194O. South Asia in the Twentieth Century. *

Introduces students to key ideas and ideologues of the Indian nation and the practices of the late-colonial and post-colonial Indian State. In the process, students become familiar with themes like modernity, gender, state formation, space, nationalism, democracy, and development. Prerequisite(s): satisfaction of the Entry Level

Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. J. SHAIKH

194P. Urban South Asia. *

Introduces important themes in urban studies in South Asia in the pre-modern and modern periods. These include political economic change; competing imaginations of city life; urban politics; land use; urban planning; and cultural life among others. This course begins with a brief survey of urbanism in pre-modern South Asia but focuses mostly on urbanities in the early modern and modern periods. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment is restricted to junior and senior history majors. Enrollment limited to 20. J. SHAIKH

194Q. Making Space in the Colonial and Post-Colonial World. *

Explores the production and experience of new forms of space in the colonial and post-colonial world through historical, political, and anthropological case studies with an emphasis on the Middle East and Africa. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. J. DERR

194R. Cairo: The City Victorious, 1750-2000. *

The modernization of a world city from 1750 to the present. Cairo's social and cultural history (literature, film, music) against the background of its changing political and economic contexts. Topics include: orientalism, nationalism, imperialism, minorities, women, migration, urbanism, popular culture, tourism. Prerequisite(s): Two upper-division history courses; and course 41 or 101A or 101B; and satisfaction of the Entry Level

Writing and Composition requirements. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

194S. Special Topics in Ancient Egyptian History. *

Focuses on different topics in ancient Egyptian history. In addition to assigned readings, each student does additional research that culminates in a 20-page paper on a topic of the student's choice. General topics for the course vary from year to year. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior classical studies and history majors. Enrollment limited to 20. May be repeated for credit. E. SULLIVAN

194T. Worlds of Labor in Asia. *

Introduces students to important debates in labor studies in Asia. Studies the relationship between labor, capitalism, and imperialism. Also interrogates the relevance or irrelevance of Asia as a concept from the standpoint of labor. Students cannot receive credit for this course and course 229. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of the instructor. Enrollment is restricted to junior and senior history majors. Enrollment limited to 20. J. SHAIKH

194U. The Cold War and East Asia. *

Considers through primary and secondary sources the events and aftermath of the Cold War in East Asia in terms of state formation, domestic and foreign policy, and protest movements in China, Taiwan, Korea, and Japan with reference to Vietnam. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and

History

senior history majors. Enrollment limited to 20. N. ASO

194W. Social Movements in the Modern Middle East. S

This writing-intensive seminar explores the social movements sweeping the contemporary Middle East. Students pursue advanced research using primary and secondary sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. J. DERR

194Y. Memories of WWII in the U.S. and Japan. W

Research seminar comparing U.S. and Japanese memories of World War II. Topics include war origins, total war, the atomic bomb, war responsibility, reparations, memorials, museums, and monuments. Primary work devoted to research in original texts and documents. Prerequisite(s): two upper-division history courses or permission of instructor; satisfaction of the Entry Level Writing and Composition requirements; course 80Y recommended. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. A. YANG

195A. Thesis Research.

Prerequisite(s): petition on file with sponsoring agency (students should have completed two upper-division courses, preferably in their area of concentration). THE STAFF

195B. Thesis Writing.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; petition on file with sponsoring agency (students should have completed two upper-division courses, preferably in their area of concentration). THE STAFF

196. Advanced Research and Reading Seminars.

An opportunity for advanced students to focus on specific research problems resulting in a substantial research paper of 25

pages, or discussion of assigned readings resulting in a series of short papers totaling 25 pages. Courses must be taken in area of concentration in order to count towards the major. THE STAFF

196A. Global 1930s. *

Explores the turbulent 1930s from a global perspective. Students consider the great events of the decade--the Great Depression, the consolidation of communism, and the rise of fascism--within the context of global connections and forces, including those fostered by imperialism and various forms of internationalism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. MATERA

196C. Modern Italian Culture. *

Developments in Italian culture and society from the postwar to the present. Topics include north-south divisions, family and gender, cinema and modernity, urbanization, mafia, and terrorism. Prerequisite(s): course 164A or 164B or 183A or 183B, or permission of instructor and one upper-division history course; and satisfaction of the Entry Level Writing Requirement. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. C. POLECRITTI

196D. City of Rome. *

Explores the long-term urban history of Rome from its founding through the modern tourist city. Emphasizes the cityscape and geographical centers of political power, culture, and religion, as well as the everyday life of neighborhoods. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, classical studies, and Italian studies majors. Enrollment limited to 20. C. POLECRITTI

196E. Modern Irish History. *

Aims to illuminate major themes and turning points of modern Irish history: the causes and consequences of the famine; the development of Irish nationalism; revolution, civil war, and partition; and the recent economic boom. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. B. THOMPSON

196F. European Environmental History. *

Examines interactions between human societies and the natural world in Europe. Topics include: impact of European imperialism; changing attitudes toward the natural world; the Industrial Revolution in ecological perspective; the beginnings of preservationist and conservationist movements; the evolution of 20th-century environmentalism; and the historical context of contemporary environmental problems. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

196G. Topics in Modern Germany and Europe. S

A senior reading and research seminar that explores the selected historiographic debates in German history during the 19th and 20th centuries. (Formerly Modern Germany and Europe.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. THE STAFF

196H. Sex and the City--The History of Sexuality in Urban Areas Around the Globe. *

History

Focuses on the history of sexuality in major urban areas globally. Topics include: sexual identities and race, class, and gender; sex work, policing, and urban spaces; gay, lesbian, and transgender communities; race, gender, and sexuality within the context of colonialism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or by permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. MATERA

196I. The French Revolution. * Students conduct original research on the French Revolution of 1789 based on mix of primary and secondary courses. Classroom discussions focus on interpreting contemporary documents and addressing historiographical issues. Seminar format with significant written requirements. Presumes familiarity with the period. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 70B and one upper-division history course; or course 170A or 171; or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

196J. History of Drugs in the Early Modern World. * What were drugs in the early modern world? Who grew and consumed them? How were they used? Students study how the emergence of the global drug trade shaped the Scientific Revolution, Atlantic slavery, colonialism, and modernity itself. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of the instructor. Enrollment is restricted to junior and senior history majors. Enrollment limited to 20. B. BREEN

196K. Studies in European Intellectual History. * Topics in European intellectual history from the French Revolution

to World War I. Readings exemplifying approaches from history of ideas and intellectual biography to recent studies of rhetoric and political culture. Preparation and presentation of research paper. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

196L. French Intellectuals and Politics from Voltaire to Sartre. * Studies the emergence of the secular intellectual as a force in French cultural life. Topics considered include Voltaire and the Republic of Letters, Robespierre and the self-fashioning of the revolutionary intellectual, the Dreyfus Affair, the enigma of French fascism, and existentialism and the Cold War. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of the instructor. Enrollment is restricted to junior and senior history majors. Enrollment limited to 20. J. BEECHER

196M. Shtetl: Eastern European Jewish Life. * For several centuries, the shtetl functioned as the center of Jewish life in Eastern Europe. Alternately mythologized and pathologized, the shtetl continues to exist as an imaginary space that defines and distorts the historical image of Eastern European Jewish life. Students cannot receive credit for this course and course 257. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and two upper-division history courses. Enrollment restricted to junior and senior history and Jewish studies majors. Enrollment limited to 20. N. DEUTSCH

196N. Eastern European Jewish Social History. * Study of 19th- and 20th-century Eastern European and Russian

Jewish social history. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. THE STAFF

196O. Russian Revolution, 1917-1932. * Study of the major political, social, and intellectual conflicts and transformations of the period. Topics include February and October revolutions, Civil War, NEP, rise of Stalinism, and collectivization. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. THE STAFF

196P. Hitler and Stalin. * A discussion of 20th-century totalitarianism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history, German studies, and Jewish studies majors. Enrollment limited to 20. P. KENEZ

196Q. Europe and the World During the Cold War. * Explores European history from the end of World War II through the fall of the Soviet Union. Examines how Europe evolved from a fragmented, polarized array of colonial rivals to a more economically and culturally integrated place. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. LASAR

196R. Social World of Roman Palestine. * Inquiry into the structures of Roman Palestine on the basis of parables from the synoptic Gospels,

History

the Dead Sea Scrolls, Josephus, inscriptions, and archaeological discoveries. Physical, social, economic, and ideological conditions are researched in an ethnographic fashion.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor.

Enrollment restricted to junior and senior history, classical studies, and Jewish studies majors. Enrollment limited to 20. THE STAFF

196S. Special Topics in Ancient History. W

Seminar focuses on different topics in ancient history. In addition to assigned readings, the student is expected to do additional research that culminates in a 20-page paper on a topic of the student's choice. General topics for the course will vary from year to year.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor.

Enrollment restricted to junior and senior history majors and classical studies majors. Enrollment limited to 20. C. HEDRICK

196T. Paris Peace Conference. *

The Paris Peace Conference remade Europe and the globe after World War I. By establishing the League of Nations and signing the Versailles Treaty, the Paris diplomats shaped the postwar era and created the conditions for World War II.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Two upper-division history courses or permission of instructor required.

Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. CIOC

196U. Topics in Medieval History. *

Addresses contemporary and modern interpretations of the events relation to medieval history. Through critical discussion and debate, assesses the value and limitations of various historical sources, as well as developing skills

in research, presentation-making, and writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 102A or 103, and one upper-division history course, or by permission.

Enrollment restricted to junior and senior history majors. Enrollment limited to 20. May be repeated for credit. THE STAFF

196V. The Soviet Experience. *

Uses memoirs, diaries, novels, films, oral interviews and histories, and scholarly works to explore everyday life in the Soviet Union, and the extent to which the Soviet Union represented a totalitarian society. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor.

Enrollment is restricted to junior and senior history majors. Enrollment limited to 20. M. PETERSON

196W. Brave New World? Scientific & Technological Visions of Utopia and Dystopia in Russia/Soviet Union. *

Focuses on the role of scientific and technological developments in creating the kinds of social, economic, and ecological change that inspired utopian thinking--as well as utopia's counterpart, dystopia--in Russia in the late 19th and 20th centuries. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. PETERSON

196X. National Socialism and the Third Reich. *

A senior reading and research seminar that explores the major historiographic debates in German history during the Nazi period. Students conduct original research on the Third Reich using primary and secondary sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and two

upper-division history courses, or by instructor permission. Enrollment restricted to junior and senior history, Jewish studies, and German studies majors. Enrollment limited to 20. THE STAFF

196Y. Saints and Holiness in Medieval Europe. S

Examines popular religious belief and practice, including conversion, the cult of the saints, relics, pilgrimage, miracles and visions. Emphasis on Medieval Europe, but some attention also paid to modern patterns of devotion.

Prerequisite(s): two upper-division history courses; satisfaction of the Entry Level Writing and Composition requirements, or permission of instructor.

Enrollment restricted to junior and senior history majors. Enrollment limited to 20. C. POLECRITTI

196Z. Europe from the Margins: Outside Influences on Modern European Thought and Culture. *

Europe's engagement with the outside world, which ranged from cultural and intellectual borrowings to relations of domination and colonialism, shaped its modern history and culture. This course examines the cultural and intellectual history of modern Europe by focusing on the ways in which European thinkers and cultural producers drew upon or were influenced by non-European sources. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; two upper-division history courses, or permission of instructor. Enrollment restricted to junior and senior history majors. Enrollment limited to 20. M. MATERA

198. Independent Field Study.

Student's supervision is conducted by a regularly appointed officer of instruction by means other than the usual supervision in person (e.g., by correspondence) or student is doing all or most of the course work off campus. May be repeated for credit. THE STAFF

199. Tutorial.

Students submit petition to

History

sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits).

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Methods and Theories of History. F

An overview of theories, methods, and philosophies concerning the nature and production of history. Topics vary with instructor. Enrollment restricted to graduate history students and others by permission of instructor. Enrollment limited to 20. A. HECKMAN

201. Directed Research Colloquium. W

Having already prepared a bibliography and research prospectus in a graduate research seminar, students will undertake further research on their projects, write a 25–30 page research paper, and present their work to their fellow students. Prerequisite(s): history graduate research seminar. Enrollment restricted to graduate history students. Enrollment limited to 15. D. BRUNDAGE

202. Practicing World History. S

Because world history surfaces in curriculums at all educational levels, this seminar interrogates its value. Why do historians advocate world (and transnational) history? How do historians actually practice it? What are the pitfalls? Can global perspectives apply to localized subjects? Enrollment restricted to graduate students. Enrollment limited to 15. M. PETERSON

203. Global Decolonization. *

Focuses on the histories and theories of decolonization in the mid-to-late 20th century, particularly, interactions among anticolonial movements, how Cold War era antagonisms inflected the process of decolonization, and efforts to forge Afro-Asian unity and/or a nonalignment movement. Enrollment is restricted to graduate students. Enrollment limited to 15. M. MATERA

204A. History of Gender Research Seminar. *

Introduction to theories and methods employed in gendered historical research. Readings are drawn from a range of chronological, national, and thematic fields and explore the intersection of gender analysis with such historical problems as the body and sexuality, modernity, national identity, and production/consumption. Enrollment restricted to graduate students. Enrollment limited to 15. M. WESTERKAMP

204B. Approaches to Social and Cultural History. *

Graduate reading course focusing on both classic and contemporary approaches to social and cultural history. Readings include: Bakhtin, Benjamin, Foucault, Auerbach, and Berlin, and a variety of more recent studies in social, cultural, and intellectual history. Course not limited to graduate students in History. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

204C. Colonialism, Nationalism and Race Research Seminar. S

Research seminar introducing theories and methods of the comparative histories of race, ethnicity, colonialism, and nationalism. Enrollment restricted to graduate students. Enrollment limited to 15. E. PORTER

204E. Transnationalism, Borderlands, and History. *

Graduate seminar exploring the history of Canada-United States-Mexico borderlands. Approaches and arguments compare nation-state centered histories with narratives that construct the North American borderlands as places wrought from a multiplicity of overlapping indigenous, imperial, national, transnational, and global forces. Prerequisite(s): Enrollment restricted to graduate students. Enrollment limited to 15. D. BRUNDAGE

205. Diaspora and World History. *

Examines the histories and historiography concerning

diaspora. This area of study includes populations from Asia, Africa, Europe, and the Americas. Students study the histories of diasporic populations, and the questions, theory, and methods that scholars use to approach the subject. Enrollment restricted to graduate students. Enrollment limited to 10. L. HAAS

206. Empire in World History. *

Introduces the study of empire (as opposed to nations, regions, or continents) as an approach to world history and to recent historiographical trends in the history of empires. Enrollment restricted to graduate students. Enrollment limited to 15. M. MATERA

210A. Readings in U.S. History. F

Introduction to major themes and controversies in the interpretation of U.S. history. Readings cover both chronological eras and topical subjects, often in a comparative context: colonial and early national periods. Enrollment restricted to graduate students. Enrollment limited to 15. M. WESTERKAMP

210B. Readings in U.S. History. W

Introduction to major themes and controversies in the interpretation of U.S. history. Readings cover both chronological eras and topical subjects, often in a comparative context: 19th century. Enrollment restricted to graduate students. Enrollment limited to 15. D. FRANK

211A. Research Seminar in Early American History. *

First quarter of a two-quarter introduction to research in early American history (1550-1820). Readings include both historiographically definitive texts as well as recent scholarship reflecting the field's developments. Students complete analyses of historical sources, brief critical essays, and a significant research project. Course A is not a prerequisite to course B. Enrollment restricted to graduate students. Enrollment limited to 20. G. O'MALLEY, M. WESTERKAMP

211B. Research Seminar in Early American History. *

History

Second quarter of a two-quarter introduction to research in early American history (1550-1820). Readings include both historiographically definitive texts as well as recent scholarship reflecting the field's developments. Students complete analyses of historical sources, brief critical essays, and a significant research project. Course A is not a prerequisite to course B. Enrollment restricted to graduate students. Enrollment limited to 20. G. O'MALLEY, M. WESTERKAMP

212A. Citizenship in U.S. History. S

A reading-intensive graduate seminar in United States history that examines citizenship and its exclusions, grounded in race, gender, sexuality, age, and disability. This seminar also explores how forms of belonging intersected with evolving understandings of nationalism and sovereignty. Enrollment restricted to graduate students. Enrollment limited to 15. C. JONES

212B. Citizenship in United States History. *

A reading-intensive graduate seminar in United States history examining citizenship and its exclusions, grounded in race, gender, sexuality, age, and disability. The course also explores how forms of belonging intersected with evolving understandings of nationalism and sovereignty. Enrollment restricted to history graduate students. Enrollment limited to 15. C. JONES

214. California History. *

Concerns the history and historiography of California from indigenous dominion to the present. Considers the distinctive ways in which California has led the nation and globe in economic, political, and social change, while remaining a multiethnic borderland. Enrollment is restricted to graduate students. Enrollment limited to 15. L. HAAS

215A. Topics in American History: U.S. Labor and Working Class History. *

Addresses topics in history of working people, the labor

movement broadly defined, and political-economic change in the U.S. Topics include race, ethnic and gender dynamics, and U.S. labor and working-class history in global context. Enrollment limited to graduate students. Enrollment limited to 15. D. FRANK

215B. Visions of Progress. *

Explores the emergence of the welfare/regulatory state in the United States from the 1870s to World War I, examining different schools of historical thought about this period. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

215C. U.S. Immigration and Ethnic History. *

Introduces key issues and debates in United States immigration and ethnic history. Topics include causes of immigration; constructions of race, gender and ethnicity; assimilation; transnationalism; and forces shaping immigration policy. Enrollment restricted to graduate students. Enrollment limited to 10. D. BRUNDAGE

216. Readings in the History of American Religions. *

Research in the history of religions in the United States. Addresses topics, such as the rise of evangelicalism; class, race, and religious diversity; gender and power; modernity; and civil religion through analyses of visual and literary texts, iconography, ritual, theology, and praxis. Enrollment restricted to graduate students. Enrollment limited to 15. M. WESTERKAMP

217. Critical Conversations in Native American History. *

Overview of key historical texts focusing on the Native American experience, with particular focus on scholarship that seeks to decolonize Western methodologies and research practices. Readings explore such topics as decolonization, indigenous identity, sovereignty, repatriation efforts, gender and sexuality, and historical memory. The format consists of discussions of readings. Students give oral presentations on the

readings, and write book reviews and a final historiographical paper. Enrollment restricted to graduate students. Enrollment limited to 10. A. LONETREE

220. The Atlantic World, 1500-1800. *

Explores the economic, social, and cultural history of early America in terms of its Atlantic connections and intersection with the cultures of early modern Europe, Africa, and Latin America. Builds upon previous work in early America and early modern Europe, challenging students both to work comparatively and to break out of traditional geographic models. Enrollment restricted to graduate students. Enrollment limited to 15. M. WESTERKAMP

221. Empires and New Nations in the Americas. *

Compares the history of the colonial and 19th-century Americans through a world-history perspective. Focuses on the interrelated themes of indigenous histories, slavery and other forms of servitude, commodity production, and the meaning of equality and freedom in new nations. Enrollment restricted to graduate students. Enrollment limited to 15. L. HAAS

222. Global Sexualities--A Seminar in the Queering of Historiographies. *

Explores the history of sexuality covering diverse time periods, peoples, and regions. Examines methods and theories used in the study of sexuality. Readings draw from the Americas, Middle East, Africa, Europe, and Austro-Asia, as well as topics in queer and LGBTQ2 studies. Enrollment is restricted to graduate students. Enrollment limited to 15. G. DELGADO

225. Spanish Colonialism. *

Reading-intensive graduate seminar with emphasis on theoretical and historiographical questions regarding the field of Spanish colonialism in the Americas. Students encouraged to engage in discussions of comparative colonialisms. Enrollment restricted to graduate students. Enrollment limited to 10. M. DIAZ

History

227. Gender and Colonialism. *

Explores the relationship between colonialism and gender. Examines the construction of gender categories (in conjunction with race) in the context of colonial conquest and rule; contested definitions of motherhood, domesticity, and citizenship; and regulation of sexuality. Enrollment restricted to graduate students. E. HONIG

229. Worlds of Labor in Asia. S

Introduces students to important debates in labor studies in Asia. Studies the relationship between labor, capitalism, and imperialism. Also interrogates the relevance or irrelevance of Asia as a concept from the standpoint of labor. Students cannot receive credit for this course and course 194T. Enrollment restricted to graduate students. Enrollment limited to 15. J. SHAIKH

230A. Readings in Late Imperial China. *

Survey of the major works on and historiographical controversies about Qing Dynasty (1644–1911) China. Enrollment restricted to graduate students. Enrollment limited to 20. M. HU

230B. Engendering China. S

Reading seminar on the history of Chinese gender, focusing on the Qing dynasty (1644 to 1911) to the present. Topics include marriage and family, sexuality, work, the gendered language of politics, and major reform movements. Enrollment restricted to graduate students. Enrollment limited to 20. E. HONIG

230C. Readings in 20th-Century China. F

A survey of major Western-language works and historiographical controversies in Chinese history from 1900 to the present. Weekly readings emphasize particular social and political movements as well as long-term changes in urban and rural society. Enrollment restricted to graduate students. Enrollment limited to 20. G. HERSHATTER

231. Historicizing the People's Republic of China. *

An overview of the scholarly literature on the People's Republic of China. Readings include works by historians as well as by social scientists. Students consider what kinds of questions historians have and can ask. Enrollment is restricted to graduate students. Enrollment limited to 15. E. HONIG

238A. Research Methods: China. *

An introduction for graduate students to the use of major research tools and sources in Chinese history since 1600, with a focus on 20th-century materials. Students complete a series of bibliographical exercises and prepare a research prospectus. Enrollment restricted to graduate students. Enrollment limited to 20. G. HERSHATTER

238B. Research Methods: China. *

Building on the research and bibliographic skills developed in course 228A, students develop a research topic and write a paper of 20-30 pages using primary sources as appropriate in English, Chinese, and/or Japanese. Enrollment restricted to graduate students. Enrollment limited to 20. G. HERSHATTER

242. Readings in Modern Japan. *

A graduate course intended to give students a fundamental understanding of the major themes in the study of modern Japanese history. Central themes include modernity and modernization, colonialism, postwar recovery, gender, race, and nationalism. Enrollment restricted to graduate students. Enrollment limited to 15. N. ASO

243. Transnational Japan. *

Examines how "Japanese" history has been forged across, outside, and beyond the boundaries of the modern nation-state of Japan. Considers how Japan has transformed the world. Students debate how the world made Japan and how Japan re-made the world. Enrollment restricted to graduate students. Enrollment limited to 10. A. CHRISTY

244. Gender and Japanese History. W

Examines—through primary and secondary sources—constructions of gender (masculine, feminine, and transgender) in Japanese society over the past several centuries, focusing on the modern era. Enrollment restricted to graduate students. Enrollment limited to 15. N. ASO

251A. Readings in Modern European History: Environment and Technology.

Introduces major themes and problems in recent historiographical trends in environmental history and the history of technology. Examines the role of environment and technology in the making of "Europe" and European societies' engagement with the world. Enrollment is restricted to graduate students. Enrollment limited to 15. M. PETERSON

251B. Readings in Modern European History: Empire. S

The history of empire has emerged as one of the most influential and fastest growing areas of inquiry within the field of modern European history. This course introduces students to recent debates and trends in imperial, colonial, and postcolonial history. Enrollment is restricted to graduate students. Enrollment limited to 15. M. MATERA

252. Republicanism and Its Discontents: Universal Projects and Particular Discriminations. F

Focuses on the histories and theories of republicanism and liberalism by investigating the tension between universal ideologies and discriminatory practices. Focuses on France and the United States, but Algeria, Syria, and Turkey will also be covered. Enrollment restricted to graduate students. Enrollment limited to 15. M. DAVIS

255. Religion and Modernity. W

Examines the significance of religion and secularism in the modern period. How did modernity and the concept of the secular transform various religions and

History

how, in turn, did these religions help to create modernity. Enrollment is restricted to graduate students. Enrollment limited to 15. N. DEUTSCH

256. Nationalism, Anti-Semitism, and Jewish Resistance in World War II. *

Jewish resistance to Nazism during World War II, in Eastern Europe, and its historical context. Includes the pre-war rise in nationalism and anti-Semitism in Poland and Lithuania, Jewish integration in the Soviet Union, and the consequences for wartime resistance. (Also offered as History of Consciousness 243A. Students cannot receive credit for both courses.) Enrollment restricted to seniors and graduate students. Enrollment limited to 15. B. EPSTEIN

257. Shtetl: Eastern European Jewish Life. *

For several centuries, the shtetl functioned as the center of Jewish life in Eastern Europe. Alternately mythologized and pathologized, the shtetl continues to exist as an imaginary space that defines and distorts the historical image of Eastern European Jewish life. Students cannot receive credit for this course and course 196M. Enrollment restricted to graduate students. Enrollment limited to 20. N. DEUTSCH

260. History and the Spatial Turn: Making Space, Place, and Geography in History. *

Explores the making of space, place, and geography in a body of recent historical work. Explores key theoretical work interrogating the significance of space as a critical element of social theory and historical consideration. Proceeds through three thematic units: questions of colonial economy in South Asia; spaces of empires and its end in the Eastern Mediterranean; and histories of infrastructure. Enrollment restricted to graduate students. Enrollment limited to 20. J. DERR

261. The Contours of the New Middle East History. *

Explores the history and historiography of the modern

Middle East through recent historical scholarship. Examines the new theoretical approaches that frame inquiries into the region's history and how contemporary historians are reinterpreting familiar questions and themes. Enrollment is restricted to graduate students. Enrollment limited to 15. J. DERR

265. History of the Body. *

A multidisciplinary history of the body from late antiquity to the present. Topics include: medical and religious constructions; the raced, gendered, and sexualized body; adornment and performance markers; power and control through the body; body parts; and the body's permeability. Enrollment is restricted to graduate students. Enrollment limited to 15. M. WESTERKAMP

280A. History Graduate Proseminar: Teaching Pedagogy (2 credits). F

Devoted to professionalism and socialization of history graduate students. Includes formal and informal meetings with faculty and other graduate students. Topics include TAs, designing course syllabi, pedagogy, teaching technologies, and teaching in different venues. This course is required for first-year students; however, it is open to all other graduate students as needed. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

280B. History Graduate Proseminar: Research Presentations and Grant Writing (2 credits). F

Devoted to professionalism and socialization of history graduate students. Topics include discussion of researching grants; effective CV writing; successful grant applications and publication proposals; and conference paper and panel proposals. Required for first-year graduate students; however, open to all history graduate students as needed. This course is required for first-year students; however, it is open to all other graduate students as needed.

Enrollment restricted to graduate students. May be repeated for credit. G. DELGADO

280C. History Graduate Proseminar: Job Market (2 credits). F

Devoted to professionalism and socialization of history graduate students. Includes formal and informal meetings with faculty and other graduate students. Topics include researching position; preparing a CV and the job-application letter; preparing for an interview; practice interview; preparing a job talk and/or teaching presentation; and practice job talk. This course is required for first-year students; however, it is open to all other graduate students as needed. Enrollment restricted to graduate students. May be repeated for credit. G. DELGADO

283. Foreign Language Preparation (2 credits). F,W,S

Independent study course in which history graduate student reads selected texts to fulfill foreign language requirement. Student meets with instructor to discuss readings, deepening his knowledge of the foreign language. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

284. Qualifying Examination Preparation (2 credits). F,W,S

Independent study course designed to help students prepare for qualifying exams. Students meet on regular basis with one or more members of qualifying examination committee to monitor preparation for exam. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

285. Readings in Research Field (2 credits). F,W,S

Independent study focusing on selected texts or authors in history or historical theory. Students meet on regular basis with instructor to discuss readings and deepen their knowledge of a particular author or historical theory. Students submit petition to sponsoring agency. Enrollment restricted to graduate

History

students. May be repeated for credit. THE STAFF

286. Research Colloquium on Colonialism, Nationalism, and Race (2 credits). F,W,S

Acquaints students with the department's thematic research clusters in their field to coordinate training in historical research. Students meet on a regular basis with a faculty member of a particular cluster to discuss most important readings in the field. Enrollment restricted to graduate students. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

287. Research Colloquium on Gender (2 credits). F,W,S

Acquaints students with the department's thematic research clusters in their field to coordinate training in historical research. Students meet on a regular basis with a faculty member of this cluster to discuss most important readings in their field. Enrollment

restricted to graduate students. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

288. Teaching Assistant Preparation (2 credits). F,W,S

Independent study designed to help history graduate students prepare to teach in an area of history outside their specialization. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

289. History Colloquium (2 credits). F,W,S

Independent study designed to foster departmental and cross-disciplinary participation in campus talks, colloquia, conferences, and events. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

294M. Literati, Samurai, and Yangban: A Comparative History

of State. *

Critically examines the formation of political elites in East Asia. Compares literati in Ming and Qing China; samurai in Tokugawa, Japan; and yangban in Joeson, Korea. Each group occupied specific roles and functions in their state and society but differed in scale and character. Students cannot receive credit for this course and course 194M. Enrollment restricted to graduate students. Enrollment limited to 20. M. HU

297. Independent Study.

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research.

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

Not offered in 2017-18

HISTORY OF ART AND VISUAL CULTURE

2017-18 General Catalog

D-201 Porter College

(831) 459-4564

havc@ucsc.edu

<http://havc.ucsc.edu>

PROGRAM DESCRIPTION

In the History of Art and Visual Culture (HAVC) Department, students study the production, use, form, and reception of visual products and cultural manifestations past and present. Objects of study include paintings, sculptures, and architecture, which are within the traditional purview of art history, as well as art and non-art objects and visual expressions that sit beyond disciplinary boundaries. The HAVC Department offers courses covering a wide variety of material from the cultures of Africa, the Americas, Asia, Europe, the Mediterranean, and the Pacific Islands, including media as diverse as ritual, performative expression, bodily adornment, landscape, the built environment, installation art, textiles, manuscripts, books, photography, film, video games, apps, websites, and data visualizations.

HAVC students at UC Santa Cruz (UCSC) investigate complex questions concerning the social, political, economic, religious, and psychological impact of images from the perspective of their producers, users, and viewers. Visual objects play a central role in the formation of values and beliefs, including the perception of gender, sexuality, ethnicity, race, and class. Through attentive historical study and close analysis, students are taught to recognize and assess these systems of value, and are introduced to theoretical and methodological frameworks for future research.

The HAVC curriculum guides students in acquiring skill in critical thinking about art and visual culture, leading to a bachelor of arts (B.A.) degree. Each student who chooses to major or minor in HAVC devises an individual study plan with a faculty adviser. The lower-division courses, numbered 1–99, intended for general education students and prospective majors, provide an introduction to the field of visual culture according to geographic areas and visual traditions within those areas. Upper-division courses numbered 100-189 cover a broad range of issues in various aspects of world cultures from earliest times to the present. Advanced upper-division courses focus on selected fields, topics, and methods. The most advanced courses, numbered 190 and 191, are taught in seminar format. Students also have the opportunity to take independent study courses and write senior theses.

PROGRAM LEARNING OUTCOMES

Graduates from the history of art and visual culture B.A program will have demonstrated the following:

PROGRAM LEARNING OUTCOME (PLO) 1: BREADTH OF CULTURAL KNOWLEDGE

Students will be able to demonstrate an appreciation for, and foundation in, visual studies grounded in a range of historical, social, cultural, and ideological perspectives.

PLO 2: CRITICAL THINKING

Students will be able to apply critical thinking skills that will enable them to analyze and solve problems through observation, experience, reflection, interpretation, analysis, evaluation, and/or explanation of visual, material, and historical cultural forms and values. Students will demonstrate critical thinking skills through oral and/or written communication.

PLO 3: RESEARCH PROFICIENCY

Students will be able to formulate research questions that expand their knowledge of art and visual culture. Students will be able to apply research methods to answer these questions by consulting the current literature and developing independent results through archival, library, or field research.

PLO 4: WRITTEN COMMUNICATION

Students will be able to present clear visual and historical analysis and interpretation in writing. Students will be able to demonstrate standard writing conventions in visual studies appropriate to purpose and context.

DECLARATION OF THE MAJOR

To declare the major, students must complete two HAVC courses chosen from two different geographical regions:

10s Africa and its Diaspora;

20s Asia and its Diaspora;

30s-40s Europe and the Americas;

50s Mediterranean;

History of Art and Visual Culture

60s Native Americas;

70s Oceania and its Diaspora

Students considering this major are encouraged to complete these courses early in their studies and consult with both the HAVC undergraduate adviser and a faculty adviser to develop a plan of study. Transfer students should also consult the Transfer Student/Transfer Credit section.

REQUIREMENTS OF THE MAJOR

The HAVC major requires four lower-division and nine upper-division courses including the satisfactory completion of the senior comprehensive requirement. Students must take courses in each of the six different geographical regions listed above to ensure cultural, methodological, and disciplinary breadth.

LOWER-DIVISION REQUIREMENTS

Four courses from four different geographical regions listed above.

HAVC 80 may be used to fulfill the lower-division regional breadth requirement for regions 10 (Africa), 60 (Native Americas), or 70 (Oceania).

UPPER-DIVISION REQUIREMENTS

Nine courses, as follows:

100A: recommended during sophomore year. 100A is a prerequisite for the senior comprehensive requirement. If it is not completed by the end of the junior year, students may have difficulty enrolling in a seminar to fulfill their senior comprehensive, which may delay graduation.

101-191: eight courses, one of which must be a seminar (190 and 191) to satisfy the senior comprehensive (see [Comprehensive Requirement](#) below).

In completing upper-division coursework, students must successfully complete two upper-division courses (courses 101-191) from two geographical regions not studied as part of the lower-division regional requirement.

Disciplinary Communication (DC) Requirement

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. Students in HAVC meet the DC requirement by completing course 100A.

SENIOR COMPREHENSIVE REQUIREMENT

All seniors must complete one seminar, 190–191, as their “senior exit” course to satisfy the senior comprehensive requirement. Seminars can be taken for senior exit credit only by permission of the instructor. Within the context of this advanced seminar, students will work under the close supervision of their professor to produce a written project that demonstrates a high

level of achievement in research, writing, and critical thinking. Students whose performance is outstanding are eligible for honors in the senior comprehensive requirement.

CONCENTRATION IN RELIGION AND VISUAL CULTURE

This program is for students who wish to pursue the study of religion in conjunction with studies of visual culture. A student enters the concentration by proposing, in consultation with their faculty adviser, a sequence of upper-division courses to fulfill the religion and visual culture requirements. The declaration of major requirements for the religion and visual culture concentration are the same as those listed in the Declaration of Major section. The faculty adviser for the religion and visual culture concentration is Raoul Birnbaum.

REQUIREMENTS FOR THE RELIGION AND VISUAL CULTURE CONCENTRATION

Fifteen courses, as follows:

Four lower-division courses (each from a different geographical region)

100A recommended during sophomore year. Because 100A is a prerequisite for other courses, if it is not completed by the end of the junior year, students may have difficulty enrolling in required courses and graduation may be delayed.

101-191: five courses that focus on the study of religion

190-191: one seminar (190s and 191s) to satisfy the senior comprehensive (see [Comprehensive Requirement](#) above).

Four relevant upper-division courses in the study of religion from programs on campus such as anthropology, history, literature, and philosophy. (For a complete list of approved courses, please see the [departmental website](#).)

MINOR REQUIREMENTS

Nine courses, as follows:

lower-division: three courses from three different geographical regions;

upper-division: six courses planned in consultation with a faculty adviser.

DEPARTMENT ADVISING

UNDERGRADUATE ADVISER

The undergraduate adviser offers specific information about navigating through the program and the curriculum and assists students with requirements, prerequisites, policies and procedures, learning support, scholarships, and special opportunities for undergraduate research.

History of Art and Visual Culture

FACULTY ADVISERS

Faculty are the best resource for learning about the philosophies and foundations of history of art and visual culture. Faculty advisers work individually with students to develop a specific course of study, recommend additional courses of interest, and discuss long-term career goals including education beyond the baccalaureate. A faculty adviser is assigned to each student by the undergraduate adviser during the declaration of major meeting. Students may change to an adviser who specializes in their field of interest within HAVC.

LANGUAGES

All majors are encouraged to study at least one foreign language. Graduate programs in visual culture, art history, and other related disciplines generally require competence in one or more languages beyond English. Students are encouraged to consult with their faculty adviser to discuss an appropriate course of language study.

TRANSFER PREPARATION AND TRANSFER CREDIT

Transfer students are encouraged to fulfill history of art and visual culture requirements prior to transfer. Refer to the ASSIST articulation agreements at www.assist.org for approved lower-division courses offered at community colleges. Transfer credit for lower- or upper-division courses from four-year institutions or community colleges not included in the ASSIST system is evaluated on a case-by-case basis; students must submit a Course Transfer/Substitution Petition and course syllabus to the HAVC Department for review. A student may transfer **up to five** art history courses toward the major, only two of which may be upper-division. For the minor, a student may transfer **up to three** lower-division courses. HAVC majors must take a minimum of eight regularly scheduled HAVC courses from members of the HAVC faculty and HAVC minors must take a minimum of six regularly scheduled HAVC courses from members of the HAVC faculty. Transfer students are strongly encouraged to contact the HAVC Department for advisement before enrolling at UCSC.

EDUCATION ABROAD PROGRAM (EAP) COURSES

The University of California's Education Abroad Program provides an excellent opportunity to take courses related to the history of art and visual culture in a range of locations. The department strongly encourages HAVC majors and minors to take advantage of this educational opportunity. Successfully completed EAP courses count as in-residence UC credit.

Upon return, you must submit a Course Substitution Petition to seek the approval of your adviser and

department chair to substitute EAP courses for HAVC major and minor requirements (EAP courses do not automatically satisfy major and minor requirements). Petitions are evaluated on a case-by-case basis. We look for evidence that the course(s) provided critical analysis of the class material in its social and cultural context, as well as significant reading and writing requirements. We recommend you retain all relevant documentation (syllabi, reading lists, papers written, etc.) to support your case. We also suggest you consult with your HAVC adviser to plan your EAP courses in advance.

For additional information, visit the [UC Education Abroad Program website](#).

CAREERS

The preparation students receive from the bachelor of arts (B.A.) degree in HAVC can lead to successful careers in education, law, business, and social services, in addition to more disciplinary-specific careers in museum curating, art restoration, library and information science, heritage studies, design, criticism, arts education and administration, and advanced studies in architecture, visual culture, and art history.

GRADUATE STUDY

There are many graduate programs that lead to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in fields such as art history, visual studies, cultural studies, history of religions, theory and criticism of art, etc. Most graduate programs require a reading knowledge of one or two languages other than English (see [Languages](#) above). Students who contemplate graduate study should consult with their faculty advisers as early as possible in their undergraduate careers.

GRADUATE PROGRAM

The History of Art and Visual Culture Department offers a course of study leading to the Ph.D. in visual studies. The Ph.D. is designed to steep our graduates in the most theoretically relevant methodologies for understanding the significance of visual artifacts and the social and cultural qualities of human vision (termed *visuality*); provide students with exposure to a range of cultural perspectives and visual artifacts drawn from around the world; and cultivate in our graduates the necessary skills and knowledge to secure and excel in academic and curatorial positions. The program is both interdisciplinary and flexible. Students work closely with their advisers and the director of graduate studies to craft personalized courses of study that advance their intellectual and professional goals.

The program employs a wide range of visual evidence for examination, without being constrained by traditional hierarchies of art. Fine arts, architecture, photography, film, performances, rituals, utilitarian objects, and popular entertainments are among the

History of Art and Visual Culture

types of primary material used in our curriculum for the investigation of visual culture. Our program at UCSC is particularly adept at illustrating significant differences in how disparate cultural groups interpret their visual worlds, given the breadth of cultural perspectives taught by our faculty. With scholars focusing on cultures in Africa, the Americas, Asia, Europe, the Mediterranean, and the Pacific Islands, visual studies at UCSC offers students an unparalleled opportunity to consider the role of social and cultural forces in guiding how and what humans see.

GRADUATE PROGRAM REQUIREMENTS

Students take a minimum of 60 credits during their first two years of study, comprised of five core courses and eight electives.

The five core courses are: HAVC 201A and 201B, Introduction to Visual Studies and Critical Theory (fall and winter of the first year, 5 credits each); HAVC 202, Introduction to Visual Studies Methods (spring of the first year, 5 credits each); and HAVC 204 and 205, Grant Writing (second year, 2 and 3 credits respectively).

Of the eight elective courses, at least four must have a visual studies designation (i.e., taught by core or affiliated faculty), and at least three must be drawn from departments outside of visual studies. Among the four visual studies electives, at least two must be from the HAVC courses numbered 212-280 and taught by core faculty, and at least one of the two must be a seminar course on a subject outside the student's disciplinary focus. Only two of the four visual studies electives may be independent study courses. Please review [the visual studies website](#) for a list of current electives.

FIELD CLUSTERS/FIELD SPECIALTIES

Appreciating that most of our graduates will be required to fit themselves back into traditional disciplinary structures once they enter the academic job market, the program is designed to provide students with both new means of interpreting visual evidence and suitable depth of understanding in older disciplinary traditions. While all graduates will acquire a shared foundation in different approaches to visuality (attained through our core course requirements), individual student programs vary considerably depending on the type of department or other intellectual and professional context in which the student hopes to secure employment after graduation. In addition to completion of the core courses required of all students, students will develop a cluster of individualized field courses in consultation with their adviser based on their particular professional goals.

To provide our students with the disciplinary background to facilitate employment within curatorial departments in museums and non-visual studies departments at colleges and universities, each student is required to take a minimum of four 5-credit courses in a disciplinary cluster (beyond the core course

requirements). This requirement pertains both to students entering with a B.A. and an M.A. Acceptable field cluster courses might center on a medium (i.e., painting or architecture), a temporal/stylistic category (i.e., Early Modern or Postmodernism), a cultural, national, or social group (i.e., Pacific Islanders or China), or a disciplinary approach (i.e., cultural anthropology or gender studies). Field clusters are developed in consultation with the student's adviser based on the student's intellectual and professional goals. To count toward the degree, field clusters must receive prior approval from the director of graduate studies.

LANGUAGE REQUIREMENT

Students must demonstrate reading knowledge of one foreign language prior to the start of their second year (either by attaining a score of 550 or higher on the Educational Testing Service Graduate Student Foreign Language Test or by passing a reading/translation examination administered by the department).

Students are encouraged to master a second foreign language. Based on a student's area of interest, and the joint assessment of the student's adviser and the director of graduate studies, proof of proficiency in an additional language or languages may be required prior to the student being admitted to candidacy for the Ph.D. Should proficiency in additional languages be required, it must be demonstrated prior to the close of the student's third year of study.

QUALIFYING EXAMINATION

After completing all coursework and passing one language examination, students are required to pass a qualifying examination prior to the close of the winter quarter of their third year, unless a petition for an extension, demonstrating reasonable cause, is approved by the visual studies director of graduate studies. The qualifying examination is divided into three topic areas, with each one including a written and an oral component. Each topic area should display historical breadth and variety of media. Two of the topic areas should ideally relate to the future dissertation topic, while one of the remaining must constitute an outside area, examining a topic that is chronologically, geographically, and/or methodologically distinct from the other two.

Prior to the end of their second year, a student should consult with their adviser to assemble a group of four faculty members who will serve as examiners and aid the student in assembling the necessary topic areas, compiling the needed reading lists, and preparing for the written and oral components of the examination in each area. The examination will have two parts. In part one, students will respond in writing to three general questions, posed by three of their examiners in the pre-arranged topic areas. In part two, students will gather together with their examiners to field questions probing and clarifying the previously submitted written

History of Art and Visual Culture

component of the qualifying examination. In order to pass the qualifying examinations, students must receive the unanimous endorsement of the committee members.

DISSERTATION PROSPECTUS AND COLLOQUIUM

After passing the qualifying examination, a student must complete an approved dissertation prospectus and a colloquium. The written dissertation prospectus is due no later than the end of the second quarter following the student's completion of the qualifying examination. The prospectus is a brief, concise essay of approximately 25 pages (with bibliography) that defines the scope, methodology, and rationale for the proposed dissertation. It is prepared in consultation with the student's dissertation adviser, who must approve of the document prior to sending it to the colloquium committee. The prospectus must be sent to the colloquium committee at least one month before the colloquium.

The dissertation adviser, in consultation with the student and director of graduate studies, will invite four to five faculty members, in appropriate fields, to be on the colloquium committee, attend the colloquium, provide input on the prospectus, and assess the student's preparedness to begin researching and writing the dissertation. Faculty participating in the colloquium may or may not have been members of the QE committee, and should represent faculty whose expertise has bearing on the student's project. A student will pass the colloquium after having demonstrated to the satisfaction of all colloquium committee members adequate preparation to begin researching and writing the dissertation.

ADVANCING TO CANDIDACY

Advancement to candidacy follows and is contingent upon passing the qualifying examination, all needed language examinations, completing an approved dissertation prospectus, passing the colloquium, and the subsequent appointment of a dissertation reading committee of at least three members. The requirements for advancement to candidacy must be completed no later than the end of the winter quarter of the fourth year.

DISSERTATION AND FINAL EXAMINATION

The dissertation must make a significant and original contribution to the field of visual studies, as judged by each dissertation committee member.

An oral defense of the dissertation is the only final examination requirement, unless a petition to waive the oral defense, demonstrating reasonable cause, is approved by the student's primary adviser and the visual studies director of graduate studies. The student's dissertation committee, under the supervision of the director of graduate studies, will conduct the examination. In the event that the director of graduate studies serves on the dissertation committee, the chair of History of Art and Visual Culture will oversee the defense.

NORMATIVE TIME FROM MATRICULATION TO DEGREE

The visual studies Ph.D. program at UCSC is designed to require six years of study. During the pre-candidacy period students will devote themselves to coursework, completion of the language examination, some teaching, preparation for and completion of qualifying examinations, completion of an approved version of their prospectus, passing their colloquium and selecting their dissertation committee. Requirements for advancing to candidacy must be completed by the end of winter quarter of the fourth year. Students will finish their dissertation and successfully defend it before the end of their sixth year.

DESIGNATED EMPHASIS

Graduate students enrolled in doctoral programs at Santa Cruz may obtain a Designated Emphasis in visual studies on their Ph.D. degree by meeting the following requirements:

Secure approval from a core member of the visual studies faculty to serve as an adviser for their Designated Emphasis.

Have at least one core member of the visual studies faculty serve on either their qualifying examination or dissertation committee.

Submit a significant piece of writing that demonstrates competency in the field. The writing could take the form of a seminar paper or dissertation chapter. The essay must meet the approval of the student's visual studies adviser.

Successfully complete four graduate courses taught by either core or affiliated members of the visual studies program. The courses must form a coherent cluster in visual studies and be pre-approved by the student's Designated Emphasis adviser.

Cultural histories of the native Americas and colonial Latin America

T.J. Demos

Contemporary art and visual culture, investigating in particular the diverse ways that artists and activists have negotiated crises associated with globalization, including the emerging conjunction of post-9/11 political sovereignty and statelessness, the hauntings of the colonial past, and the growing biopolitical conflicts around ecology and climate change

Jennifer A. González

Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

John Hay, Emeritus

Virginia Jansen, Emerita

Jasper A. Rose, Emeritus

Catherine M. Soussloff, Emerita

ASSOCIATE PROFESSOR

Maria Evangelatou

Medieval visual culture with emphasis on Byzantium and its periphery; manuscript illumination, Marian cult and iconography; ancient Greek and Roman visual culture; Islamic visual culture; gender studies

Donna M. Hunter, Emerita

Stacy L. Kamehiro, Patricia and Rowland Rebele Chair in History of Art and Visual Culture

Visual cultures of Oceania; colonial cultures; visual culture and identity; gender studies; museums and collecting; material culture

Boreth Ly

Visual cultures of Southeast Asia and its diaspora: religions and materiality, theory of visual narrative, the politics of cultural translation; (post) colonial and cultural studies; issues of gender, sexuality, race, and trauma

Derek Conrad Murray

Theory and criticism of contemporary art, cultural theory, identity and representation, art of the African

diaspora, popular visual culture, contemporary photography, and the ethics of art history and visual studies

ASSISTANT PROFESSOR

Albert Narath

Modern and Contemporary architecture and design; environmental history, theories of technology, historiography of modernism, anthropology and architecture

Kyle Parry

Digital media and visual culture; art, documentary, and disaster; memory and politics; archival theory and practice; data, technology, and environment; history and theory of photography; critical media practice

PROFESSOR

Karen Bassi (Literature)

Greek and Latin literatures; gender; literary and cultural theory; pre- and early modern studies; tragedy; historiography; visual and performance studies; death studies

James Clifford (History of Consciousness, Distinguished Professor Emeritus)

Anthropology, indigeneity, museum studies, exoticism

Shelly Errington (Anthropology)

Globalization of folk art, visual and social semiotics, photography, film, the Internet and digital media, Southeast Asia, and Latin America

Kathy Foley (Theater Arts)

Southeast Asian drama and dance; puppetry

Dianne Gifford-Gonzalez (Anthropology)

Zooarchaeology, African archaeology, pastoralism, colonial New Mexico, interpretive theory, visual anthropology, emergence of pastoralism in East Africa; foodways as cultural practices in colonial encounters

David Marriott (History of Consciousness)

Literary theory, psychoanalysis, black cultural theory and philosophies of race, literary and visual cultures of modernism

Warren Sack (Film and Digital Media)

Theory and practice of digital media, software design and media theory

Shelly Stamp (Film and Digital Media)

Silent cinema, female filmmakers, film censorship, histories of moviegoing, early Hollywood

ASSOCIATE PROFESSOR

Noriko Aso (History)

Japanese history, cultural studies, gender and history, race and ethnicity, colonialism, nationalism, Korean history, and popular culture

A. Hunter Bivens (Literature)

Twentieth- and 21st-century German literature and film; Marxism and critical theory; psychoanalysis; lyric poetry; literary realism; the novel

Irene Gustafson (Film and Digital Media)

Documentary theory and practice, experimental film/video, production design, gender and queer studies

Peter Limbrick (Film and Digital Media)

Postcolonial and transnational cinemas, race, gender, sexuality, queer theory

ASSISTANT PROFESSOR

Christine Hong (Literature)

Asian American literature and cultural criticism; African American literature and black freedom studies; Korean diasporic cultural production; Pacific Rim studies; postcolonial theory; critical race theory; human rights discourse; law and literature; narrative theory; film and visual studies

Soraya Murray (Film and Digital Media)

Contemporary visual culture including: new media art, projected arts, photography, film, and electronic games; theories of art and globalization; representations of otherness; cultural studies

HISTORY OF ART AND VISUAL CULTURE COURSES

LOWER-DIVISION COURSES

10. Introduction to African Visual Culture. *

An interdisciplinary approach to the study of the basic structures (gender, art within political sphere, and spiritual aspects of visual culture) and cultural institutions (initiations, closed associations, kingship, title association, etc.) around which the study of African visual culture revolves. (General Education Code(s): CC.) E. CAMERON, THE STAFF

20. Visual Cultures of Asia. *

An introduction to the art and architecture of East Asia, including China, India, Southeast Asia, and Japan. In order to achieve a fuller understanding of the arts of these countries a historical, cultural, and religious context is provided. (General Education Code(s): CC.) B. LY

22. Religion and Visual Culture in China. S

Introduction to the study of religious currents and practices in China and their visual expression. In addition to "religious art," topics include such pivotal matters as body concepts and practices, representations of the natural world, and logics of the built environment. (Formerly course 80G.) (General Education Code(s): CC.) R. BIRNBAUM

24. Southeast Asia Visual Culture. F

Introduces the visual cultures of Southeast Asia. Topics include indigenous megalithic art, textiles, and jewelry, as well as Hindu and Buddhist art and architecture. Also considers shadow play and dance performance as alternative lenses to looking at ritual and visual narratives rendered on stone temples. (General Education Code(s): CC.) B. LY

27. Image and Ideology in Indian Art. S

Examination of the ways social, religious, and political patronage have affected the production and reception of art in the Indian subcontinent. The course is designed as a series of case studies from different periods of Indian history. (General Education Code(s): IM.) K. THANGAVELU

30. Introduction to European Visual Culture. *

An introduction to the European tradition in visual culture, from antiquity to the present, but not in chronological order. All media, including the fine arts, architecture, film, video, and installation and performance work are incorporated. Presents the major visual regimes of representation while it probes the meanings and limits of Europe and the European tradition in the context of the visual. (General Education Code(s): IM.) A. LANGDALE

31. The Nude in the Western Tradition. F

The human body without clothing

in European and European-American art and visual culture from ancient Greece to the present day. Among the themes to be addressed: gender, youth and age, sexuality and sexual preference, fecundity and potency, erotic art and pornography, primitivism and the naked body of the non-European. (General Education Code(s): IM.) M. EVANGELATOU

40. Museum Cultures: The Politics of Display. F

Explores the history of collecting and displaying art (museums, galleries, fairs) since the mid-19th century and the effect of institutional changes on aesthetic conventions. Follows the history from the origins of museums and collections to contemporary critiques of institutional exclusion and misrepresentation. (General Education Code(s): IM.) J. GONZALEZ, THE STAFF

41. Modern Art in Context. *

Examines the social, economic, and political significance of European and U.S. modernist art and architecture, moving from French realism to American minimalism. Provides the historical background and theoretical frameworks needed to make sense of modernist art and culture. (General Education Code(s): IM.) M. BERGER

43. History of Modern Architecture. *

Examines the origins and development of modern architecture, from the

History of Art and Visual Culture

Enlightenment and the Industrial Revolution to the 20th Century and beyond. Buildings, urban plans, and works of art and design are discussed in relation to political, social, and cultural currents. (General Education Code(s): IM.) A. NARATH, THE STAFF

44. Designing California: Architecture, Design, and Environment. W

Introduces the complex interplay between design--including architecture, art, engineering, and city planning--and conceptions of environment during the 20th Century in the American West. (Formerly Design and Environment in the American West.) (General Education Code(s): PE-E.) A. NARATH

45. Photography Now. W

Explores recent methods and approaches in photography. Surveys significant aesthetic, conceptual, and theoretical shifts occurring in the photographic medium and related discourses. Special attention given to the "current" landscape of contemporary photography (1980-present). (General Education Code(s): IM.) D. MURRAY

46. Introduction to U.S. Art and Visual Culture. S

Overview of U.S. art and visual culture from the late 18th Century to the present. Examines art as evidence for understanding evolving beliefs and values of Americans. Explores the social and political meanings of art, and pays particular attention to how artists, patrons, and audiences have constructed nationalism, race, class, sexuality, and gender. (General Education Code(s): ER.) M. BERGER

48. Climate Justice Now! Art, Activism, Environment Today. S

As climate change grows more severe, artists and activists are creating strategies of consciousness-raising, mass mobilization, and sustainable living. This course investigates the convergence of climate justice and cultural politics, exploring imperatives for a just transition to a

post-carbon future. (General Education Code(s): PE-E.) T. DEMOS

49. From Memes to Metadata: an Introduction to Digital Visual Culture. F

Introduction to digital visual culture including critical and historical approaches to memes; social media and politics; and the many intersections of data, images, and society. Sample topics include: digital art, digital activism, and surveillance. (Formerly A Short History of the Digital.) (General Education Code(s): PE-T.) K. PARRY

50. Ancient Mediterranean Visual Cultures. *

The role that ancient art and visual culture play in constructing social identities, sustaining political agendas, and representing various cultural, ritual, and mythological practices in Mesopotamia, Egypt, Greece, and Rome, including the sociology of ancient cultures, mythology, religious studies, gender studies and history. (General Education Code(s): IM.) THE STAFF

51. Greek Eyes: Visual Culture and Power in the Ancient Greek World. W

The central role of visual communication in ancient Greek civilization: examines the construction of cultural, social, political, religious, and gender identities through material objects and rituals. Includes discussions of images of the public and private sphere, athletic and theatrical performances, mythology, pilgrimage, and magic. (General Education Code(s): IM.) M. EVANGELATOU

58. Gardens of Delight: Fifteen Centuries of Islamic Visual Culture. *

Examines some of the most representative creations of Islamic visual culture from the 7th Century to the present in order to appreciate the richness of this tradition and its extensive influence on other cultures. Focuses on the social, political, and religious role of a variety of materials, from mosques, palaces, and gardens to visual narratives, ceremonies, dance, and contemporary films. (General

Education Code(s): CC.) M. EVANGELATOU

60. Indigenous American Visual Culture. W

Selected aspects of art and architecture of the first peoples of the Americas, north, central, and south, from ca. 2000 B.C.E. to present. Societies to be considered may include Anasazi, Aztec, Inca, Northwest Coast, Maya, Navajo, Plains, and others. (General Education Code(s): ER.) C. DEAN

70. Visual Cultures of the Pacific Islands. *

Interdisciplinary course examines visual cultures of Australia, Melanesia, Micronesia, and Polynesia from the archaeological past through contemporary periods. (General Education Code(s): CC.) S. KAMEHIRO, THE STAFF

80. Colonial Histories and Legacies: Africa, Oceania, and the Indigenous Americas. S

The arts and visual cultures of selected cultures that developed outside the spheres of influence of major European and Asian civilizations, with an emphasis on the history and influence of colonialism in creating current ethnic and racial categories. (General Education Code(s): ER.) E. CAMERON, THE STAFF

85. Introduction to Global Architecture. F

Introduces the study of architecture and the built environment from a global perspective, focusing on architecture's relation to themes, such as ritual, power, the city, technology, and climate. (Formerly course 47.) (General Education Code(s): CC.) A. NARATH, THE STAFF

99. Tutorial. F,W,S

Supervised study for undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

100A. Approaches to Visual Studies. W

Introduction to major issues of

History of Art and Visual Culture

method and critique in study of art and visual culture. Focuses on understanding disciplinary and critical modes of scholarly inquiry in the visual arts, including role of historical research. Emphasizes intensive reading, discussion, and writing. Course 100A is a prerequisite for all History of Art and Visual Culture seminars. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior History of Art and Visual Culture majors and minors. E. CAMERON, THE STAFF

110. Visual Cultures of West Africa. *

Explores visual cultures of West Africa through time (Nok to present). Attention paid to relationships between peoples and impact of European/Arab presence on visual cultures. Prerequisite(s): course 10 or 80 recommended. (General Education Code(s): CC.) E. CAMERON

111. Visual Cultures of Central Africa. *

Examination of visual cultures of Central Africa within a historical sequence from the Sanga archaeological excavations to contemporary easel painting. Prerequisite(s): course 80 suggested. Enrollment restricted to sophomores, juniors and seniors (recommended). (General Education Code(s): CC.) E. CAMERON

115. Gender in African Visual Culture. F

In Africa, relationships exist between gender and visual culture. Course examines where categories come from, differences in men's and women's visual cultures, and how visual cultures teach, reinforce, and negotiate gender definitions. When are male/female boundaries crossed, and why? (General Education Code(s): CC.) E. CAMERON

116. African Architecture. *

Study of the built environment in Africa. Focusing in depth on 10 major architectural forms or sites,

this course explores the diversity of architectural types and how gender, politics, religion, and culture shape and are shaped by architectural spaces. (General Education Code(s): PE-E.) E. CAMERON

117. Contemporary Art of Africa. *

Examines contemporary arts in post-colonial Africa, 1960-present, including new popular cultural forms; arts resulting from new class and national structures; commodification of culture; Pan-Africanism; exhibitionism; and questions of destiny. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): IM.) THE STAFF

118. Art of the Contemporary African Diaspora. *

Considers contemporary art by African artists operating in metropolitan centers, as well as Afro-British, Afro-Caribbean, and African-American production. Topics are organized thematically and address constructing and deconstructing the idea of Africa; cultural authenticity; diaspora; Creolité and creolization; hybridity; cosmopolitanism; post-black; and globalism in the arts. Background in history of art and visual culture recommended. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER.) D. MURRAY, THE STAFF

122. Visual Cultures of China.

122A. Sacred Geography of China. F

An examination of the close relationship of religious traditions and the natural world in China, and its expression in visual representation. Particular emphasis on the ways in which competing groups sought to define or re-envision an understanding of the terrain. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) R. BIRNBAUM

122B. Constructing Lives in China: Biographies and Portraits. S

Consideration of biographies and

portraits in China as representations of human types and individuals, and the use of these representations as models for constructing lives. Attention to historical and social contexts, early times to present. Special focus on Chinese Buddhist traditions. A previous course that focuses on traditional China or Buddhist studies strongly recommended. (General Education Code(s): CC.) R. BIRNBAUM

122C. Writing in China. *

Examines material and conceptual phenomena of writing in Chinese visual culture. Focuses on the intersections of places and practices of writing through various inscribed sites, ranging from oracle bones, seals, and mountain facades to hand scrolls, architecture, and contemporary art. THE STAFF

122D. Chinese Landscape Painting. *

Examines the history and significance of the subjects most prominent in Chinese painting during the past one thousand years, focusing on the cultural factors that made landscape a fundamental value in the Chinese tradition and the methods whereby painters created pictorial equivalents. (General Education Code(s): IM.) THE STAFF

122F. Bodies in Chinese Culture. *

Introduces images, thoughts, and practices of bodies in Chinese culture. In China and Taiwan, the body is to be cherished, adorned, nourished, cultivated, and gazed upon, but also disciplined, altered, and controlled. Examines texts and images of the Chinese body in relation to religion, gender, ethnic politics, martial arts, sports, nationalism, food, medicine, and death. No knowledge of the Chinese language is required. (General Education Code(s): CC.) R. BIRNBAUM

123. Visual Cultures of South Asia.

123A. Modernity and Nationalism in the Arts in India. S

Deals with artistic responses to the forces of modernity, colonialism,

History of Art and Visual Culture

industrialization and globalization in India during the 19th and 20th centuries. Addresses the complex and often painful climb toward re-establishing a truly Indian artistic identity. (General Education Code(s): CC.) K. THANGAVELU

123B. Religions and Visual Culture of South Asia. *

South Asia is the home of many religions (Hinduism, Buddhism, Jainism, Islam, and Sikhism). Introduces the role images (painting, sculpture, architecture, photography, film) play in shaping these diverse religious traditions. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. LY

124. Visual Cultures of Southeast Asia.

124A. Arts of Ancient Southeast Asia. *

Focuses on Hindu and Buddhist arts of ancient Southeast Asia (Indonesia, Cambodia, Vietnam, and Thailand). Materials covered include indigenous megalithic arts, stone sculptures, and monumental temple architecture such as Angkor Wat, Borobudur, Prambanan, and the Bayon. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. LY

124B. History of Photography in Southeast Asia. *

Examines how photography was used in Southeast Asia to document the racial difference and the exotic "Others" under the regime of colonialism. Considers the role photography played in "documenting" the Vietnam-American War and how contemporary Southeast Asian-American artists challenge this photographic history in their art. Enrollment restricted to sophomores, juniors and seniors. (General Education Code(s): CC.) B. LY

124C. Arts and Politics in Theravada Traditions. *

Consideration of the arts and architecture in Theravada Buddhist traditions in Sri Lanka and

Southeast Asia. Topics and themes include ritual, relics, visual narrative, mural painting, contemporary art, mass-meditation movement, and political protest. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. LY

124D. Contemporary Art of Southeast Asia and its Diaspora. *

Examines the respective national notions of modernity in the region through a comparative lens. How global capital flow and transnational cultural exchanges impact the production of arts of Southeast Asia and its diaspora. Themes and issues include: colonialism and art education; nationalism; identity politics; memory; trauma; gender; race; sexuality; and the body. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) B. LY

124E. Southeast Asian-American and Diasporic Visual Culture. *

Focuses on Southeast Asian refugee visual culture in the United States. Themes and issues include: trauma; memory; the politics of race and ethnicity; gender and sexuality; and the politics of inclusion and exclusion from the nation-state. (General Education Code(s): ER.) B. LY

127. Topics in Cross-Regional Studies in Visual Cultures of Asia.

127A. Buddhist Visual Worlds. W

Introduction to the study of Buddhist visual traditions, from their beginnings to the present day. Case studies examined with careful attention to historical, social and cultural contexts; particular emphasis on the relation of visual traditions to Buddhist practices. Enrollment restricted to sophomore, junior, and senior students. (General Education Code(s): CC.) R. BIRNBAUM

127B. Buddhist Pure Lands. *

Conceptions of "pure lands" have engaged the imaginations of Mahayana Buddhists for more than two millennia. Course considers literary and visual representations

of pure lands and their inhabitants, as well as related practice traditions. Special emphasis on Chinese traditions. Previous courses in Asian visual cultures and/or Buddhist studies recommended. (General Education Code(s): CC.) R. BIRNBAUM

127C. Ritual in Asian Religious Art. *

Examination of interaction between image and ritual in Asian religious art. Case studies from different historical periods and geographical locations (e.g., China, Tibet, Japan, Indonesia, India). Examples include mandalas, ritual bronzes, tankas, sacred caves, temples, tea ceremonies, and calligraphy. (General Education Code(s): IM.) THE STAFF

127D. Storytelling in Asian Art. *

Combination of theoretical perspectives on narrative from literary criticism, rhetoric, folklore, and film theory with art historical focus on images (cave temples, stone reliefs on stupas, scrolls, dance-drama, etc.) from India, Pakistan, China, Japan, Cambodia, and Indonesia. THE STAFF

127E. Modern/Contemporary Architecture of the Asia Pacific. *

Examines 20th- and 21st-century architecture in the Asia Pacific. Examines how aesthetic, socio-political, economic, and technological networks have contributed to Asia Pacific's dynamic and experimental approaches to contemporary architecture. (General Education Code(s): IM.) THE STAFF

133A. Themes in the Study of Medieval Visual Culture. *

Many issues associated with contemporary artistic production and visual culture originated in the Middle Ages. Themes to be considered: role of secular art; women as artists and patrons; aesthetic attitudes; relationship between cultures in holy war, crusade, and pilgrimage. (General Education Code(s): IM.) THE STAFF

135. History of Art and Visual Culture in Europe.

History of Art and Visual Culture

135B. German Art, 1905–1945. *

Expressionism, agitprop, the Bauhaus, New Objectivity, attacks on modernism, National Socialist realism. Painting, sculpture, graphic art, and some architecture and film, studied in the context of political events from the eve of World War I to the end of World War II. (General Education Code(s): IM.) THE STAFF

135D. French Painting, 1780–1855. *

The art of David, Gros, Ingres, Gericault, Delacroix, the Barbizon School, and Courbet studied in relation to the changing status of the art and the political events from 1789 to 1848. (General Education Code(s): IM.) THE STAFF

135E. Jewish Identity and Visual Representation. *

An exploration of the theoretical and practical or experiential applications of Jewish identity in European visual representation. Brief background on pre-emancipation textual and cultural issues followed by study of the Jewish subject and Jewish subjectivities in modernity. Enrollment restricted to juniors and seniors. (General Education Code(s): IM.) THE STAFF

135H. Topics in European and Euro-American Visual Culture. *

Consideration of how and why Europeans in Europe and Europeans and European-Americans in North America blended nature and human response between 1600 and the present in a variety of media and practices (painting, maps, photography, tourism, film, scouting, artist colonies). May be repeated for credit. (General Education Code(s): IM.) THE STAFF

135P. Paris, "Capital of the 19th Century". *

Examines the places, spaces, practices, and representations of Paris in the 19th century. Tracing the changing face(s) of Paris by way of its literary and visual representations, students consider the experiences and constructions of the modern city. (General Education Code(s): IM.) THE STAFF

137. Renaissance.

137A. Northern Renaissance Art. *

Considers the painting and prints produced in Northern Europe in the 15th and 16th centuries. Major issues include the status of realism and classicism, the role of religion and religious reform, and the rise of popular imagery. (General Education Code(s): CC.) THE STAFF

137E. Renaissance Prints. W

Examines the issues surrounding the technology and uses of printed images from the early Renaissance through the end of the early modern period. Topics may include the political, religious, and satirical uses of prints and the representation of women in prints. (General Education Code(s): IM.) A. LANGDALE

140. History of Art and Visual Culture in the U.S..

140A. America in Art. *

Introduction to American visual arts: architecture, painting, photography, sculpture, and performance art, from the nineteenth through the twenty-first century. Explore social and political meanings of art and what art reveals about our nation's values and beliefs, in particular, gender and race. (General Education Code(s): IM.) M. BERGER

140B. Victorian America. *

Examines how American writers and artists negotiated complexities of U.S. society during the 19th century. Emphasis on issues ranging from women's rights to laissez-faire capitalism, and from Reconstruction to manifest destiny. Considers how the era's cultural products provided artists, patrons, and audiences with metaphorical coping strategies to counteract what Victorians perceived to be the period's overwhelming social and political changes. (General Education Code(s): ER.) M. BERGER

140C. Race and American Visual Arts. *

Investigation of the role played by visual arts in fashioning the racial identities of European-Americans,

African Americans, Asian Americans, Native Americans, and Latinos in the United States. (General Education Code(s): ER.) M. BERGER, THE STAFF

140D. Chicano/Chicana Art: 1970-Present. *

Taking the terms "Chicano" and "Chicana" as a critical framework, addresses cultural and conceptual themes in visual art production since 1970. Questions concerning aesthetics, identity, gender, and activism in painting, photography, murals, and installation art explored. (General Education Code(s): ER.) J. GONZALEZ, THE STAFF

140E. Art and Science in America: "Contact" to circa 1900. *

Examines the relationship between art and scientific inquiry in American visual culture from earliest European exploration through the 19th century, when new scientific theories and technological advancements challenged earlier modes of understanding vision, spirituality, and the physical world. (General Education Code(s): PE-T.) THE STAFF

140P. Pop Culture as High Art. *

Examines how Pop Art and popular culture in the United States were (re)formulated into public icons that challenged the visual and ideological associations between "high" and "low" art. (Formerly Pop and Popular Culture.) (General Education Code(s): IM.) D. MURRAY

141. Modern Art and Visual Culture in Europe and the Americas.

141A. Modern Art: Realism to Cubism. *

Modern art in Europe and America, 1848-1914. Consideration of painting, graphic arts, and sculpture in Realism, Impressionism, Post-Impressionism (Symbolism) Art Nouveau, Fauvism, and Cubism as well as exploration of photography's changing status and influence. (General Education Code(s): IM.) THE STAFF

History of Art and Visual Culture

141B. Death, Desire, and Modernity. S

Explores war, consumption and desire in the art of the 20th century. From Paris to New York, Cubism to Feminism, explores the relationship between the visual arts and intellectual movements such as psychoanalysis, existentialism, and phenomenology with particular attention to racial and sexual politics. (Formerly Modern Art: Cubism to Pop,) (General Education Code(s): IM.) J. GONZALEZ, THE STAFF

141C. Modern Art: Pop to Present. F

Surveys major art forms and critical ideas that have shaped artistic practice from the 1950s to the present, including an overview of the socio-political, economic, and cultural forces that inspire artists to articulate human experience in visual form. (General Education Code(s): IM.) D. MURRAY, THE STAFF

141E. Histories of Photography. *

Introduction to the histories of photography and the critical debates around different photographic genres such as medical photography, art photography, and political photography. Students will develop a critical language in order to analyze photographs while considering the importance of social and institutional contexts. (General Education Code(s): IM.) J. GONZALEZ, THE STAFF

141F. The Camera and the Body. *

Through the study of historical and contemporary visual texts (from ethnography and portraiture to advertising and erotica), this course explores how photographic images of the body, while masquerading as "natural," "self-evident," or "scientific," participate in highly coded sign systems that influence who looks at whom, how, when, and why. (General Education Code(s): IM.) J. GONZALEZ

141H. Media History and Theory. *

An introductory examination of the writing about the issue of "medium" and media theory in visual culture.

Technologies, discourses, and practices from all periods that use the comparison of media as a major approach to understanding the problems of the visual are highlighted. New media, film, television, video, traditional arts are also treated. (General Education Code(s): IM.) K. PARRY

141I. Environments, Installations, and Sites. *

A study of conceptual and formal issues that have informed the production of temporary, site-specific art works since 1960. Works that seek to transform the role of the audience, to escape or remake museum and gallery spaces, to introduce environmental concerns, or to situate art in "the land" or in "the street" serve as a focus. Enrollment limited to 35. (General Education Code(s): IM.) J. GONZALEZ

141J. Critical Issues in Contemporary Art and Visual Culture. S

Considers the relationship between art, cinema, and postmodernism. Specific, thematically oriented topics are considered including: the impact of cinema aesthetics on contemporary art; film and digital technology; cinematic structure as cultural critique; and filmic strategies as an ideological tool. (General Education Code(s): IM.) D. MURRAY

141K. Activist Art Since 1960: Art, Technology, Activism. F

Students explore art and technology produced for social change since 1960 within the context of major historical ruptures, such as the Vietnam War, the women's movement, environmental protection, AIDS activism, anti-capitalist, and international human rights movements. (General Education Code(s): IM.) T. DEMOS, THE STAFF

141N. Data Cultures: Art, Technology, and the Politics of Visual Representation. *

Through critical readings, interactive assignments, and primary sources, this course explores cultural and political issues around "data", emphasizing

the impacts of relevant technologies and practices on art and visual culture. Sample topics: digital art, critical mapping, social media, and surveillance. (General Education Code(s): PE-T.) K. PARRY

141O. Contemporary Documentary Arts. S

Focuses on contemporary experiments in artistic documentary practice, including photography and digital imagery, moving-image media, and artistic installations. Considers artistic case studies and leading theoretical and critical elaboration in relation to international cultures of documentary practice. (Formerly course 184.) (General Education Code(s): PE-T.) T. DEMOS

141P. Networks and Natures: Art, Technology, and the Nonhuman. F

Through critical readings and primary sources, this course explores the historical and theoretical developments in the interactions of art, culture, nature, and technology. Sample topics include environmental art; media infrastructures; concepts of nature and the nonhuman; and climate change and visual culture. (General Education Code(s): PE-E.) K. PARRY

142. Contemporary Art and Ecology. W

Investigates contemporary art and the politics of ecology. Examines the intersection of art criticism, politico-ecological theory, environmental activism, and postcolonial globalization, considering geopolitical areas diverse as the Arctic, Nigeria, Bangladesh, India, Europe, and the Americas. (General Education Code(s): PE-E.) T. DEMOS

143. Architecture.

143A. Contemporary Architecture and Critical Debates. *

Examination of practitioners, projects, issues, and theories in contemporary architecture circa 1968 to the present. Topics include the architecture of aftermath, the ethics of memory and memorialization, the

History of Art and Visual Culture

corporatization of museums, the role of criticism and exhibitions, and the cult of the brand-name architect. (General Education Code(s): IM.) THE STAFF

143B. History of Urban Design. *

Examines urban design from the Renaissance to the present, including Latin American colonial cities, Utopian plans, and sites such as Brasilia and Chandigarh. The course focuses on social justice, diversity, and the role of art and architecture. (General Education Code(s): IM.) THE STAFF

143C. Latin American Modern Architecture. *

Presents Latin America's modern architecture with relation to colonization; the influence of immigrants from Europe, Africa, and Asia; the presence of indigenous cultures; and the search for autonomy. Case studies include Argentina, Brazil, Chile, Mexico, Venezuela, and Uruguay. (General Education Code(s): CC.) THE STAFF

143D. Architecture and the City in Modern and Contemporary Visual Culture. *

Examines the modern and contemporary depictions of cities in visual and material culture, from paintings and photographs to logotypes and souvenirs. Also examines the roles of narrative in spatial representations, including literature, film, and television productions. Enrollment restricted to juniors and seniors. (General Education Code(s): IM.) THE STAFF

143E. History of Design: The Objects of Technology, 1850-The Present. *

Traces the connections between key movements in modern design and the evolution of technology in society. Also provides a framework for engaging critically with the proliferation of technology in society today. (General Education Code(s): PE-T.) A. NARATH

143F. Memory, Place, and Architecture. *

How have architects engaged memory and place in architectural projects and built landscapes since World War II? Examines

memorializing, memory, and erasure of place in reconstruction of cities, creation of memorials, and design of buildings. (Formerly Constructing Memory and Place in Postwar Architecture.) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 35. (General Education Code(s): IM.) THE STAFF

143G. After Utopia: Architecture and the City, 1968-Present. W

Explores critical issues in the history of architecture and urbanism from 1968 to the present. Major themes in the development of contemporary architecture are introduced, including the uneven legacy of modernism, the growth of cities, changing technologies, environmental issues, and the social and political context of design. (General Education Code(s): PE-E.) A. NARATH

151. Greek Myths Antiquity to the Present. S

Myths dominated the culture and visual production of the ancient Greek world, and their presence is still strong today. How did they codify social, political, and religious realities and needs? How were they perceived in different time periods? In addition to ancient Greek and Roman and later European sculptures and paintings, this course considers less conventional sources, such as modern films, comics, and advertisements. Course 51 recommended as preparation. (General Education Code(s): IM.) M. EVANGELATOU

152. Roman Eyes: Visual Culture and Power in the Ancient Roman World. *

Visual culture in the ancient Roman world, from temples and public monuments to houses and tombs, performances, and rituals. Examines the construction of social and cultural identities, including class, gender, and sexuality, through architecture, sculpture, painting, household objects, jewelry, etc. (General Education Code(s): IM.) THE STAFF

154. Byzantine Visual Culture: Politics and Religion in the Empire of Constantinople, 330-

1453 A. C. *

Centered on the capital city of Constantinople (modern Istanbul), the Hellenized and Christianized Roman Empire of the Eastern Mediterranean today known as Byzantium played a major, yet often overlooked, role in European history for more than a millennium. This course examines its visual production and relation to politics and religion in court and church ceremonial, expressions of Christian faith, and cultural interactions with Western Europe, Islam, and the Slavic world. (General Education Code(s): IM.) M. EVANGELATOU, THE STAFF

155. Constructing Cleopatra: Power, Sexuality, and Femininity Across the Ages. *

The construction of female identity and the "production" of history through the myth of Cleopatra. Critical analysis of archeological data and ancient sources, later sculptures and paintings, and contemporary films, movies posters, Internet sites, advertisements, comics, games, dolls, and household objects. (General Education Code(s): IM.) M. EVANGELATOU

157B. Italian Renaissance: Art and Architecture. W

Lives of Italian Renaissance people from birth to death, examining the nature and roles of the institutions which defined human existence in this period. Uses visual arts both illustratively and to study how institutions fashioned their images through art and architecture. (General Education Code(s): IM.) A. LANGDALE

157C. High Renaissance. *

An investigation of the High Renaissance as a period and stylistic concept, using the major artists and monuments of the period 1480-1525 to discuss issues of theory, history, and art. Artists considered include Leonardo da Vinci, Michelangelo, and Raphael. (General Education Code(s): IM.) THE STAFF

157D. Art of the Venetian Renaissance. *

Considers Venetian art in the 15th

History of Art and Visual Culture

and 16th centuries. Topics include major artists (the Bellini, Carpaccio, Titian, Tintoretto, Veronese, Palladio) and the relationship of the city to outside forces (Byzantine Empire, Turkish Empires) and other Italian cities. (General Education Code(s): IM.) A. LANGDALE

160. Topics in Pre-Hispanic Visual Culture.

160A. Pre-Hispanic Visual Culture: Mexico. *

Art and architecture of selected pre-Hispanic cultures from the gulf coast, central, western, and southern Mexico including the Olmec, Zapotec, Toltec, Mixtec, Mexica (Aztec), and others. (General Education Code(s): CC.) C. DEAN, THE STAFF

160B. Pre-Hispanic Visual Culture: The Andes. *

The art of selected pre-hispanic cultures of Colombia, Ecuador, Peru, and Bolivia including the Nazca, Moche, Chimu, and Inca. (General Education Code(s): IM.) C. DEAN, THE STAFF

162A. Advanced Studies in Pre-Hispanic Visual Culture: The Maya. S

The art and architecture of the Maya of southern Mesoamerica from the first century C.E. to ca. 1500. Courses 80, 60, or 160A recommended as preparation. (General Education Code(s): CC.) C. DEAN, THE STAFF

162B. Advanced Studies in Pre-Hispanic Visual Culture: The Inka. *

The visual culture of the Inka of the Andean region of western South America including textiles, metalwork, and the built environment. Courses 60 or 80 recommended as preparation. (General Education Code(s): CC.) C. DEAN

163. The Native in Colonial Spanish America. F

Indigenous contributions to colonial Spanish American visual culture including architecture, manuscripts, sculpture, painting, textiles, featherwork, and metallurgy. Focus on colonial Mexico, the Andes, and

California. (General Education Code(s): ER.) C. DEAN, THE STAFF

170. Art of the Body in Oceania. W

Explores "art of the body," defined broadly, from various perspectives. Examines colonial representations of Oceanic bodies, self-representation through bodily adornment and display (including tattoo, scarification, body painting, ornament, and dress), and bodily metaphors in Oceanic visual cultures. (General Education Code(s): ER.) S. KAMEHIRO

172. Textile Traditions of Oceania. F

Investigates how textiles contribute to cultural fabric of Oceania. Explores women's roles in socioeconomic exchanges and cultural production; gender issues regarding production and function of Oceanic textiles; and history of processes, functions, and aesthetics. Prerequisite: Prior coursework related to Oceania recommended. (General Education Code(s): CC.) S. KAMEHIRO, THE STAFF

179. Topics in Oceanic Visual Culture. *

Examines selected and changing topics in the study of oceanic visual culture. The specific topic varies with each offering in order to keep up with recent directions in scholarship. Possible topics include: archaeological material and visual cultures; colonial-era images, objects, and spaces; architecture and environments; performance; gender; race and ethnicity; modern/contemporary art and visual culture; and/or a regional focus. May be repeated for credit. (General Education Code(s): CC.) S. KAMEHIRO, THE STAFF

180A. Global Contemporary Art. *

Examines selected and changing topics in the study of contemporary art in a globalized world but outside of Europe and Euro-America where contemporary arts forms move across discrete geographical areas along newly developing networks. The specific topic varies with each offering to keep up with recent directions in scholarship. May be

repeated for credit. (General Education Code(s): CC.) THE STAFF

185. Art and Community: Arts Professions and Community Engagement. S

Introduces the practices and production of art historical/visual cultural knowledge. Topics include: interdisciplinarity, pedagogy, museums, art criticism, digital humanities, cultural property, preservation, conservation, art/cultural organizations, art markets, archives, and the role of the humanities in contemporary life. (Formerly Critical Issues and Professional Practices in Visual Studies.) Enrollment is restricted to history of art and visual cultural majors. S. KAMEHIRO

186. Horror and Gender in Art and Visual Culture. *

Explores the theme of horror in 20th/21st-Century visual culture. Unpacks how horror is often reflective of entrenched cultural anxieties around the interplay between gender, morality, and female sexuality. (General Education Code(s): IM.) D. MURRAY

190. Seminars in the History of Art and Visual Culture.

190A. African Art and Visual Culture. *

Advanced seminar requiring intensive research and writing on changing topics related to a specific area of African art and/or visual culture chosen to demonstrate critical mastery of this subject. Prerequisite(s): course 10 or 80. May be repeated for credit. E. CAMERON

190B. Play and Ritual in Visual Cultures. S

Compares how play and ritual construct worlds and regulate visual cultures—from dolls to "ritual" objects and performances. Attention given to areas where play and ritual overlap and the visual cultures that result. E. CAMERON

190C. The Mediterranean from the Rise of Christianity to the Rise of Islam. *

Examines the visual culture of the Mediterranean from the 3rd to the

History of Art and Visual Culture

7th centuries A.D., focusing on the historical and cultural developments which led to the survival of the Eastern Roman Empire and its transformation to what we call Byzantium. (General Education Code(s): IM.) M. EVANGELATOU

190D. The World of the Lotus Sutra. *

Close study of the principal text of East Asian Buddhism as a self-enclosed vision of reality, with careful consideration of the forms and functions of the world of visual and aural representation that it has inspired. Prerequisite(s): course 127A or by permission of instructor. R. BIRNBAUM

190E. Huayan Visions. *

Explores the distinctive conceptual world of the Buddhist Huayanjing (Avatamsaka-sutra) and its expression in visual forms. This long text, composed in Sanskrit and later translated into Chinese, is a principal scripture of the international Mahayana Buddhist traditions of Asia. Prerequisite(s): course 127A or by permission of instructor. R. BIRNBAUM

190F. Chan Texts and Images. *

Examines selected issues in history of Chan (Zen) Buddhist traditions in China from medieval times to the present day. Concepts, methods, and visual expression of Chan practice situated through study of texts and visual materials. Prerequisite(s): course 127A or by permission of instructor. R. BIRNBAUM

190G. Buddhist Wisdom Traditions. *

Careful study of Mahayana Buddhist perfection-of-wisdom traditions--texts and related material culture, including visual imagery and illustrated books--with focus on the particular vision of reality that they aim to produce or reveal. Prerequisite(s): course 127A or by permission of instructor. R. BIRNBAUM

190J. Visual Cultures of the Vietnam-American War. *

Examines the visual culture of the Vietnam-American war and its

legacy in contemporary art of Southeast Asia. Considers representations in different media: painting, drawing, photography, film, novels, and material cultures. Issues addressed include memory, trauma, identity politics, body, race, gender, pornography, and prostitution. (General Education Code(s): ER.) B. LY

190K. Thematic Approach to Visual Cultures of Southeast Asia and Its Diaspora. F

Undergraduate seminar that takes topical and thematic approaches to looking at the visual cultures of Southeast Asia and its diaspora. Media and themes include textile, film and literature, comparative modernity, race, gender, and sexuality. The specific topic and them varies from year to year. (Formerly Thematic Approach to Visual Cultures of Southeast Asia.) B. LY

190M. Representations of Women in Indian Art. *

Deals with representations of the female divinity in Indian religious imagery, and of women in secular and courtly paintings. Also examines roles women play in the production of art in the Indian subcontinent. K. THANGAVELU

190N. Topics in Mediterranean Visual Culture. *

Examines selected and changing topics in the study of Mediterranean visual culture. Topics vary with each offering to keep up with recent directions in scholarship. Possible topics: Bronze Age Aegean cultures; myth, ritual, and religion in the Near East; Greek and Roman gender and sexuality; seafarers and cross-cultural interactions in the ancient Mediterranean; Islamic cultures of North African and Spain. May be repeated for credit. (General Education Code(s): CC.) M. EVANGELATOU, THE STAFF

190O. Berlin: History and the Built Environment. *

Explores Berlin's urban and architectural history through themes: the meaning of memory in architecture; the political and cultural implications of preservation, globalization, and

tourism. Because these questions are relevant beyond Berlin, course draws comparisons with other cities. THE STAFF

190P. Death and Patriotism: The Case of the French Revolution. *

What are the relations between the mortal body and politics in times of crisis? What purposes can death, or the threat of death, serve? Examines representations of executions, assassinations, and funerals during the French Revolution, with an emphasis on the Terror. THE STAFF

190Q. Portraiture: Europe and America, 1400-1990. *

Western portraiture and self-portraiture at certain key moments (early modern Italy, 16th-century Germany, 17th-century Holland, France from the reign of Louis XIV to the Revolution, contemporary U.S.) are explored by reading 20th-century interpretations and some primary sources. This course can be taken for senior exit credit only by permission of the instructor. THE STAFF

190S. New Directions in Contemporary Art. F

Explores how critical theory illuminates forms of cultural production, from art and cinema to popular culture. Considers how scholars, artists, and filmmakers use critical theory both creatively and in the study of aesthetic objects and experiences. (Formerly Critical Issues in Contemporary Art and Visual Culture.) D. MURRAY

190T. Topics in Pre- and Post-Columbian Visual Culture. *

Seminar on changing topics related to the current scholarship on pre-Hispanic and colonial Spanish American visual culture. May be repeated for credit. THE STAFF

190U. Word and Image in Illuminated Byzantine Manuscripts. *

Religious, scientific, and secular manuscripts of Byzantium: examines how words and images interacted to express and promote central concepts of Byzantine culture; serve liturgical needs of private devotion; reflect imperial ideals; diffuse moral values and

History of Art and Visual Culture

knowledge; and proclaim social status and cultural affiliations. M. EVANGELATOU

190V. Cult of Mary in Byzantium. *

Why did the cult of the Virgin Mary become so important in Byzantine culture? Examines historical, cultural, theological, political, and social reasons for this development, seen through the interaction of Byzantine visual culture and literature. M. EVANGELATOU

190W. Art and Culture Contact in Oceania. *

Examines impact of culture contact on Oceanic and Euro-American visual cultures in context of "discovery," colonialism, and "postcolonialism." Topics include 18th-century visual culture, colonial identities, primitivism, syncretism, impact of Christianity, contemporary art/market, media, tourism, transnationalism, and globalization. Prior coursework related to Oceania recommended but not required. S. KAMEHIRO

190X. Art and Identity in Oceania. *

Theoretical discussions and Pacific Basin case studies on 1) definitions of cultural, ethnic, and national identities; 2) relationship between art, museums, and construction of historical and cultural narratives; 3) ways "tradition" defined in art practices and used by groups to assert an identity in their present. Participants first develop a theoretical framework and vocabulary for analyzing artistic production in a variety of cultures. Through specific case studies, will explore how art, architecture, and museums actively contribute to define and challenge ethnic and national identities. Prior course work related to Oceania recommended but not required. (General Education Code(s): ER.) S. KAMEHIRO, THE STAFF

191. Seminars in the History of Art and Visual Culture.

191A. Iconoclasm. *

What happens when, to control an object, it is destroyed? Examines destruction of art as a way of ending

the object's life cycle, as a device of social tension/change, and as a colonial and post-colonial mechanism of religious/political control. E. CAMERON

191B. The Virgin of Guadalupe: Images and Symbolism in Spain, Mexico, and the U.S. *

Focus on the histories of miraculous images of La Virgen de Guadalupe de Extremadura (Spain) and La Virgen de Guadalupe de Tepeyac (Mexico). The foundations and growth of the cult of the Mexican Guadalupe during the colonial period is examined along with the multivalent symbolism of her image. Considers contemporary "appearances" of the Virgin of Guadalupe, from the miraculous images on a tree in central California and the compositions of Chicano artists, to mass-produced kitsch. C. DEAN, THE STAFF

191C. Subalternatives: Representing Others. *

Explores how visual representation (in fine art, popular art, film, and television) encodes difference in selected cultural and historical contexts. Considers (post)colonial image-making both as a strategy of domination as well as resistance. (General Education Code(s): ER.) C. DEAN

191D. Semiotics and Visual Culture. W

How can visual culture be understood as the production, circulation, and recirculation of signs? This course offers a history of semiotics and its methodological application in the analysis of images in popular culture and within the discipline of art history. J. GONZALEZ

191E. Feminist Theory and Art Production. *

A close reading of works of art and theoretical texts by feminists working from 1970 to the present. The course encourages debate around the past, present, and future relevance of feminist theories to visual cultural studies, paying particular attention to issues of cultural and ethnic difference. Enrollment limited to 18. J. GONZALEZ

191F. Image and Gender. *

Examines what visual representations (feminine and masculine) reveal of gender in 19th- and 20th-century European and American culture; how images reflect norms of gender; and how we are conditioned to read images in gendered terms. Explores how femininity and masculinity were conceived during historical periods and how gender ideals changed in response to social, political, and economic pressures. Students encouraged to consider the fluid nature of 21st-century notions of ideal femininity and masculinity and possible alternatives. M. BERGER, THE STAFF

191G. Art, Cinema, and the Postmodern. *

Explores how theory can illuminate various forms of cultural production from art and cinema to popular and material cultures. Considers how scholars and visual producers utilize theory creatively and in the study of aesthetic objects and experiences. D. MURRAY

191I. Topics in Architecture and Urban History. *

Focuses on selected topics in the history of art and visual culture. Topics vary depending on instructor. May be repeated for credit. THE STAFF

191K. Decolonial Visual Culture. *

Examines contemporary visual culture and processes of decolonialization in relation to topics including: petroculturalism, indigeneity, ecology, race, gender and sexuality, and multispecies ontology. Case studies include cultural practices in North America and Mexico, with diverse theoretical approaches. (General Education Code(s): CC.) T. DEMOS

191M. Museum Exhibitions. *

Students create and install and exhibition. Students take the roles of museum departments, moving the project from concept to installation. The impact exhibitions make in culture and society is examined throughout each step of the process. Prerequisite(s): courses 100A and 141M.

History of Art and Visual Culture

Enrollment restricted to History of Art and Visual Culture majors and minors. Enrollment by instructor permission. Prerequisite(s): course 141M or by permission of the instructor. E. CAMERON

191N. Topics in Renaissance Art and Visual Culture. *

Seminar on changing topics related to the current scholarship on the art and visual culture of the Renaissance. May be repeated for credit. THE STAFF

191O. Topics in Oceanic Visual Culture. *

Seminar on current scholarship on Oceanic visual culture. Topics include pre-colonial, colonial, and post-colonial visualities; place and the built environment; performance; race; gender; travel and tourism; cultural institutions. Prior coursework related to Oceania recommended but not required. May be repeated for credit. (General Education Code(s): CC.) S. KAMEHIRO

191P. Topics in Contemporary Art. *

Addresses changing topics in contemporary art. The specific topic varies with each offering to keep up with new directions in scholarship. May be repeated for credit. (General Education Code(s): IM.) K. PARRY

191R. Art of the Book in Western Europe 500-1600. W

The history of European books circa 500-1600, primarily medieval, illuminated manuscripts and the first years of printing. Focuses on the relationship between text and image. Topics include techniques of book production, the "archeology of the book," and the life and travels of individual books. E. REMAK-HONNEF

191S. Topics in American Art and Visual Culture. *

Advanced seminar requiring intensive research and writing on changing topics related to a specific area of American art and/or visual culture chosen to demonstrate critical mastery of this subject. May be repeated for credit. (General Education Code(s): IM.) THE STAFF

193F. History of Art and Visual Culture Service Learning (2 credits). F,W,S

Integrates academic study with meaningful community service to enrich the learning experience, teach civic responsibility, and strengthen communities. Projects may serve non-profit agencies, schools, or art/culture institutions. Enrollment is restricted to junior and senior history of art and visual culture majors and minors. Enrollment is by instructor permission. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

195. Senior Thesis. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Independent field study away from the campus. Students submit petition to sponsoring agency. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Independent field study away from the campus. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

201A. Introduction to Visual Studies and Critical Theory. F

Introduces the visual studies discipline, providing students with an overview of the field's development, its primary texts, and its issues of central concern. Features intensive readings and student-led discussions. (Formerly course 201, Introduction to Visual

Studies.) Enrollment restricted to graduate students. A. NARATH

201B. Introduction to Visual Studies and Critical Theory. W

Introduces the visual studies discipline and primary texts that have made significant contributions to it. Explores theoretical discourses that have proven influential and productive for practitioners of visual studies, in a range of thematic foci and cultural contexts. Features intensive readings and student-led discussions. Students continue to work on the research topic they selected in course 201A. (Formerly course 202, Theories of the Visual.) Enrollment restricted to graduate students. K. PARRY

202. Introduction to Visual Studies Methods. S

Examines research methods and approaches in a variety of materials, cultures, periods, and subjects that are relevant in the discipline of visual studies. Discussions focus on research and readings by history of art and visual culture faculty who share practices, experiences, and advice. Enrollment is restricted to graduate students. M. EVANGELATOU

204. Grant Writing (2 credits). *

Devoted entirely to writing grant proposals. Students work on grants for educational support, their doctoral dissertation grants, or both. (Also offered as Film and Digital Media 204. Students cannot receive credit for both courses.) Enrollment restricted to visual studies and film and digital media graduate students. Enrollment limited to 15. May be repeated for credit. S. MOORE

205. Grant Writing in Visual Studies (3 credits). W

Devoted to grant-writing. Students work on composing and peer-reviewing research proposals, personal statements, bibliographies, CVs, and writing samples. Readings include literature on grant-writing and scholarly writing in the humanities. Enrollment is restricted to visual studies students or by permission of the instructor. M. EVANGELATOU

History of Art and Visual Culture

212. Yoruba Visualities and Aesthetics. *

Yoruba conceptions of visibility are explored and compared to seeing through Western eyes. Critical reading focuses on Western and Yoruba scholars' work on visualities and complementary theoretical writings on Yoruba aesthetics and philosophy. Enrollment restricted to graduate students. E. CAMERON

213. Theories and Visual Cultures of Iconoclasm. *

Examines theories that attempt to explain iconoclasm, the willful destruction of religious or political objects, by applying the theory to various case studies. The universal aspect of iconoclasm and the differences in understanding and practice are explored. Enrollment restricted to graduate students. E. CAMERON

220. Topics in Asian Visual Studies. *

Examines selected and changing topics in the visual studies of Asia. The specific topic varies with each offering to keep up with recent directions in scholarship. Enrollment restricted to graduate students. May be repeated for credit. B. LY

222. The Image of Arhat in China. *

Indian Buddhist sage-monks (arhats) are portrayed in China in ways that represent a remarkable variety of visual/historical/practice traditions. This seminar examines these depictions and explores the ranges of means and functions attached to this theme. Enrollment restricted to graduate students. R. BIRNBAUM

224. Engaged Buddhism and Visual Culture. *

Begins with an analysis of photography and films capturing the Gandhian and Dalit movement in India. Students then read key Buddhist texts on engaged Buddhism, and look at the rise of engaged Buddhism in Southeast Asia in the 1960s and how it impacted modern and contemporary art in Southeast Asia and its diaspora. Enrollment

restricted to graduate students. B. LY

232. The Monument Since 1750 in Relation to Nationhood and the Experience of War. *

Investigates modern monuments (1750 to present) and the creation or maintenance of a nation, especially in terms of war and its immediate aftermath. Destruction or alteration of monuments and production of anti- or counter-monuments are also examined. Enrollment restricted to graduate students. THE STAFF

233. Topics in Contemporary Art and Visual Culture. *

Examines selected and changing topics in the contemporary art and visual culture. The specific topic varies with each offering to keep up with recent directions in scholarship. Enrollment restricted to graduate students. May be repeated for credit. D. MURRAY

235. Photography and History. S

Investigates the complex relationship between photography and history. Considers the evolving perceptions of photography's capacity to capture reality, the discursive means by which photographic "truths" are produced, and the utility of photographs as primary evidence. Enrollment restricted to graduate students. M. BERGER

236. Contemporary Art and Theories of Democracy. *

Interdisciplinary approach to the study of democratic political theory of the last two decades and its relation to contemporary art practice with an emphasis on activist art, public art, and theories of speech and performance. Enrollment is restricted to graduate students. J. GONZALEZ

240. Seeing Race. *

Investigates how discursive systems racialized the sight of various racial and ethnic groups in 19th- and 20th-century U.S. society. Focuses on the construction and maintenance of racial values systems and on the historically specific ways in which an eclectic assortment of visual artifacts have

been read by groups over time. Considers the visual and material implications of race-based sight. Enrollment restricted to graduate students. M. BERGER

241. Decolonizing Nature: Contemporary Art and Ecology. *

Considers how visual culture intersects with environment. Considers how, in the age of neoliberal globalization, documentary and neo-conceptual practices confront the biopolitics of climate change; the financialization and rights of nature; climate refugees; and indigenous ecologies. Enrollment is restricted to graduate students. T. DEMOS

243. Alternative Architecture. *

Focuses on what is commonly left out of architectural history: the ephemeral, informal, illegal, and uncertain. Topics include: anonymous and collective architecture; temporary interventions; everyday urbanism; and vestigial urban spaces. These topics are understood through theories of space as socially produced (Henri Lefebvre, Michel de Certeau, among others), and through cultural movements and manifestoes (Situationist International, Aesthetics of Hunger, etc.) Enrollment restricted to graduate students. THE STAFF

245. Race and Representation. *

Explores how human subjects come to be visually defined and marked by "race" discourse. Covers diverse theoretical literatures on the topic, primarily in visual studies, but also in cultural studies, post-colonial studies, and psychoanalysis. (Also offered as Feminist Studies 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. J. GONZALEZ

250. The Cult of Mary in Byzantium: Visualities of Political, Religions, and Gender Constructs. *

Through the study of the Byzantine cult of Mary, we examine diverse modalities in the construction and interaction of political, religious, and gender values, and we investigate the interrelated role of

History of Art and Visual Culture

images, rituals, and text in human experience, expression, and communication. (Formerly The Cult of Mary in Byzantium.) Enrollment restricted to graduate students. M. EVANGELATOU

260. Visual Literacy in Spanish America, 1500-1800. *

Visual literacy is considered as a particular predicament of colonial societies. Students consider the legibility of artifacts in colonial Spanish American contexts given its culturally diverse audiences and examine specific instances of (mis)interpreted images and transcultured representations. Enrollment restricted to graduate students. C. DEAN

270. Colonial Cultures of Collecting and Display. *

Examines collections and exhibitions of colonized people, places, and objects through primary sources, theoretical texts, and analytical case studies (with some emphasis on Oceania). Focuses on visual discourses of race, science, religious conversion, colonial settlement, nation-building, education, and entertainment. Enrollment restricted to graduate students. S. KAMEHIRO

273. Imaging Colonial Peripheries and Borderlands. *

Considers 18th-century to 21st-century colonialisms, especially in Oceania. Concentrates on representations conditioned by particular cross-cultural engagements in colonial "peripheries" rather than focusing on metropolitan representations. Explores the construction and transgression of rigidly defined colonial identity categories, as expressed in visual/material form. Enrollment restricted to graduate students. S. KAMEHIRO

275. The Visual Cultures of Travel and Tourism. *

Explores the visual cultures of travel and tourism with some focus on Oceania. Travel and tourism are implicated in the histories of colonialism, ethnography, and globalization, and offer rich sites for critical engagement with theories of transnationalism, imperialism, diaspora, and identity. Enrollment is restricted to graduate students. S. KAMEHIRO

280. Visual Studies Issues. W

Examines selected and changing issues in visual studies. The specific issue varies with each offering to keep pace with recent directions in scholarship. Enrollment restricted to graduate students. May be repeated for credit. C. DEAN

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

295. Directed Reading. F,W,S

Directed reading that does not involve a term paper. Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent study or research for graduate students. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297F. Independent Study (2 credits). F,W,S

Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. THE STAFF

* Not offered in 2017-18

HISTORY OF CONSCIOUSNESS

2017-18 General Catalog

415 Humanities 1

(831) 459-2757

<http://histcon.ucsc.edu/>

PROGRAM DESCRIPTION

History of consciousness is an interdisciplinary graduate and undergraduate minor program centered in the humanities, with links to the social sciences and the arts. It is concerned with forms of expression and social action as they are manifested in specific historical, cultural, and political contexts. The program stresses flexibility and originality. Interest is focused on problems rather than disciplines. Although students are prepared to teach in particular fields, the emphasis is on questions that span a number of different approaches.

The history of consciousness minor is available for students who wish to gain an understanding of major ideas, trends and figures in the history of knowledge using an interdisciplinary approach. Topics include: modernity; the history of philosophy; capitalism; the foundations of critical theory; the emotions; categories and concepts of difference; critical race theory; queer theory; gender and sexuality studies; visual culture; and the foundations of modern intellectual thought. Courses provide students with critical theoretical tools for understanding philosophy, history, race, sexuality, affect, politics, economics and other fields of inquiry. They offer foundational knowledge that serves undergraduates in many other majors in the social sciences, arts, and humanities.

Over more than 30 years of existence, the history of consciousness graduate program has become widely recognized as a leader of interdisciplinary scholarship. Program graduates are influential scholars at prominent universities, and their dissertations have been published by important trade and academic presses. Graduates currently find academic employment in a wide range of disciplines, including literature, feminist studies, science studies, anthropology, sociology, American studies, cultural studies, ethnic studies, communications, the study of religion, and philosophy. In addition, history of consciousness graduates work as filmmakers, museum researchers, free-lance writers, postdoctoral researchers, and academic administrators.

Since the curriculum concentrates on theoretical and methodological issues and is concerned with the integration of disciplines, candidates for admission are expected to have a relatively clear idea of the project they wish to pursue. Experience of advanced work in one or more fields is preferred, but not required.

History of consciousness emphasizes a variety of topics in its seminars and research pursuits. These areas of research include studies at the intersection of race, sexuality, and gender; global capitalism and cultural processes; psychoanalytic and semiotic theories of the image; science and technology studies; theories and histories of religion; social movements; and literary studies and poetics. Seminars are regularly offered in these and other areas of ongoing faculty research.

History of consciousness has strong cooperative relations with associated faculty from other campus programs who offer seminars and participate in advising, qualifying examinations, and dissertation committees. The formal list of associated faculty is a non-exhaustive indication of advising possibilities beyond the program's core faculty. Campus research organizations, such as the UCSC Center for Cultural Studies, the Institute for Humanities Research, Critical Race and Ethnic Studies, the Science and Justice Working Group, and the Chicano/Latino Research Center, also provide venues for collaborative work.

History of consciousness has developed a new vision for its graduate program involving the creation of projects (called concentrations) as part of a two-year admissions cycle.

The department admits outstanding students regardless, and students may change the foci of their study as their intellectual interests develop. Students already enrolled in other UCSC departments and all students in history of consciousness are eligible to take the graduate courses offered within a specific concentration. A given concentration topic will be in effect for two admissions cycles; after that, the focus of the concentration changes. Students may choose to participate in the concentration at any time during their first two years of coursework; colloquia and other research projects may continue to be offered in a given concentration for up to two years beyond the concentration admissions cycle.

This approach seeks to foster the problem-driven research vital to new forms of knowledge and intelligibility and to meet the challenges of imagining new modes of scholarship for the arts, social sciences, and humanities. The project concentration approach to graduate education formalizes that goal through an expanded inclusion of faculty and students from other UCSC departments engaged as a consortium in related

History of Consciousness

endeavors. Each sequential concentration invites the participation of faculty from other departments.

Current concentration requirements do not differ from the regular program requirements, except in course content. Concentration descriptions and guidelines may be obtained at the department office or on the website.

MINOR REQUIREMENTS

Students are required to take one lower-division history of consciousness course, preferably HISC 1, *Introduction to the History of Consciousness* (topics will vary depending on the instructor); plus five, 5-credit upper-division courses, at least one of which will normally be HISC 185, *Topics in the History of Consciousness*.

Students may, with permission of the instructor, petition the department to substitute a 5-credit graduate seminar for one of the required upper-division courses. In addition, students may petition to substitute an upper-division course offered by affiliated faculty in other departments.

REQUIREMENTS FOR THE DOCTORAL PROGRAM

The common requirements are:

- HISC 203A, Approaches, to be taken in fall quarter of the first year;
- HISC 240, Pedagogy of Teaching/Teaching Assistant Training, to be taken in the fall of the first year;
- A minimum of five history of consciousness graduate seminars during the first two years;
- A writing-intensive “B” seminar, either 203B, Approaches, or a “B” seminar following another seminar the student has taken (to be taken in the first year). “B” courses normally do not count toward the five seminars selected to fulfill the basic department requirement (exceptions may be granted);
- HISC 291, a two-credit advising course, each quarter;
- Three quarters of supervised teaching experience;
- Proficiency in a language other than English (as demonstrated by an undergraduate degree in the language, taking a translation examination, completing coursework, or petitioning for exemption);
- A qualifying examination (with written and oral components);
- A dissertation (written in conjunction with HISC 299, Thesis Research).

Students register for a minimum of two courses (5 credits each) plus HISC 291 (2 credits) per quarter until after Advancement to Candidacy, at which time they may register for one course per quarter (normally HISC 299) plus the 2-credit HISC 291 in order to qualify for full-time enrollment. With the exception of the five required history of consciousness seminars, courses taken to fulfill the university enrollment requirements may include not only history of consciousness seminars but also independent study courses with specific faculty and graduate seminars offered in other departments.

Students are encouraged to advance to candidacy in their third year. In order to remain within normative time they must advance by the end of their fourth year in the program. In order to advance to candidacy, students must complete their coursework; demonstrate proficiency in a second language (by taking a translation examination, completing coursework, or petitioning for exemption), be in good academic standing, and complete and pass the written and oral portion of the qualifying examination.

The qualifying examination includes a written and oral component. The written component consists of a qualifying essay (normally one to two chapters of the proposed dissertation) that demonstrates the candidate’s ability to do extended, dissertation-level research, analysis, and writing on an original topic. The written component also includes a dissertation prospectus. The oral examination focuses on the student’s qualifying essay, dissertation prospectus, and relevant fields of scholarship.

After advancement to candidacy, students concentrate on dissertation writing. The current normative time to degree limit of seven years means that a student usually has a minimum of three years after advancement to candidacy for completion of the dissertation.

Students also have the option of doing advanced work in a traditional discipline and receiving a designated emphasis in that specialization. In such cases, students must satisfy the appropriate department’s criteria (see departmental websites for information).

More detailed information for prospective graduate students, including procedures for application and admission to graduate studies, examinations, and requirements for the doctor of philosophy degree, is available from the Division of Graduate Studies (<http://graddiv.ucsc.edu>) and on the department website <http://histcon.ucsc.edu>.

APPLICATIONS

The deadline for applications to the History of Consciousness program is December 10 of each year. Admissions information and application materials are available online at graddiv.ucsc.edu. Applications are invited from students with backgrounds and interests in the humanities, arts, and social sciences and are especially encouraged from individuals with a clear idea of the project they wish to undertake. Strong

History of Consciousness

preference is given to applicants working in areas for which the faculty resources in history of consciousness are appropriate and available. Graduate Record Examination (GRE) scores are required as is a writing sample of no more than 10 pages. Admission is for the fall quarter only.

It is important to note that in light of California's elimination of affirmative action as an admissions criterion, the History of Consciousness Department reaffirms its commitment to the principles of affirmative action. These principles mean a commitment to diversity, equal opportunity, and outreach to underrepresented communities. Further, this commitment underlines our understanding that the very fabric and quality of our scholarship depends on the representation and interplay of diverse experience and perspectives. So defined, affirmative action is reflected in every aspect of the history of consciousness program, including scholarship, teaching, admissions, hiring, and the process of departmental governance.

DESIGNATED EMPHASIS

To receive a designated emphasis in history of consciousness, graduate students from other departments must complete the following requirements in addition to degree requirements for the doctorate in their home department.

Guidelines and application forms are available in the History of Consciousness Department office.

The following are required for the emphasis:

1. The student must have a faculty graduate adviser from core or affiliate faculty in history of consciousness, who serves both on the qualifying examination committee and the dissertation reading committee.
2. The student must take four graduate courses in history of consciousness. With the approval of the history of consciousness adviser, one of the four required graduate courses may be an independent study.

To obtain the designated emphasis in History of Consciousness:

1. The request for a designated emphasis must originate in the degree-granting department.
2. Student should complete an application, obtain the history of consciousness adviser's signature and submit with supporting documentation (copies of the QE and Dissertation Committee Nomination forms) to the History of Consciousness Department office.
3. The History of Consciousness Department will notify the student and the home department of approval for the designated emphasis.

HISTORY OF CONSCIOUSNESS FACULTY AND PROFESSIONAL INTERESTS

Gopal Balakrishnan, Professor of History of Consciousness

Classics of political thought from Plato to Rousseau, early modern and modern European intellectual history, historical sociology, the history and future of capitalism, nationalism

Banu Bargu, Professor of History of Consciousness

Political theory, especially modern and contemporary thought; critical theory; theories of sovereignty and subjectivity; biopolitics and the body; resistance movements and practices; prisons and political prisoners; Middle East politics

Carla Freccero, Professor of Literature

Renaissance studies; French and Italian language and literature; early modern studies, postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

David S. Marriott, Professor of History of Consciousness

Poetics, black cultural studies, literary and psychoanalytic theory, visual culture studies, black cultural theory and philosophies of race, Caribbean modernism, Fanon studies

Robert L. Meister, Professor of Politics and History of Consciousness

Critical human rights theory; moral philosophy; political jurisprudence; political theology; political economy; psychoanalysis; Marxian theory; financialization; 21st-century capitalism; institutional analysis; historical justice; antidiscrimination law

Eric Porter, Professor of History, and History of Consciousness

Black cultural and intellectual history; U.S. cultural history and cultural studies; critical race and ethnic studies; jazz and popular music studies; urban studies

Massimiliano Tomba, Professor of History of Consciousness

Intellectual and modern history, political and critical theory, theories of the state, continental philosophy, particularly modern and contemporary philosophy

Victor Burgin, Professor Emeritus of History of Consciousness

James T. Clifford, Professor Emeritus of History of Consciousness

Angela Y. Davis, Professor Emerita of History of Consciousness and Feminist Studies

History of Consciousness

Barbara L. Epstein, Professor Emerita of History of Consciousness

Teresa de Lauretis, Professor Emerita of History of Consciousness, Literature, and Film and Digital Media

Donna J. Haraway, Professor Emerita of History of Consciousness and Feminist Studies

Hayden White, Professor Emeritus of History of Consciousness

AFFILIATED FACULTY

Martin Berger, Professor of History of Art and Visual Culture

Gender, race, and representation in U.S. culture

Christopher Connery, Professor of Literature

World literature and cultural studies, globalism and geographical thought, the 1960s, Marxism, pre-modern and modern Chinese cultural studies, cultural revolution

Nathaniel Deutsch, Professor of Literature and History

Modern Jewish history; Eastern European Jewish culture; ethnography, Hasidism; history of religions

Jennifer A. González, Professor of History of Art and Visual Culture

Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

Deborah Gould, Associate Professor of Sociology,

Political emotion; social movements and contentious politics; classic and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Megan Thomas, Associate Professor of Politics

Political theory, especially of the 19th century; nationalist thought; Orientalism; comparative colonialism; Southeast Asia

Tyrus Miller, Professor of Literature

Modernist, avant-garde, and postmodernist literature; the interrelations of the arts in the 20th century; aesthetics theory; communist and post-communist society, intellectual history, and culture, especially in East-Central and Southern Europe; cinema and film theory; the Frankfurt School; György Lukács; contemporary poetry and language arts

Jennifer Reardon, Professor of Sociology

Issues of social identity as influenced by the new sciences of genetics and genomics; intersection of the sociology of science and knowledge and the sociology of race, gender, and class

Vanita Seth, Associate Professor of Politics

Early modern and modern political theory, feminist theory, cultural history, race politics, postcolonial theory

ASSOCIATED FACULTY

Anjali Arondekar, Associate Professor of Feminist Studies

South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th-century interdisciplinary studies

Karen Barad, Professor of Feminist Studies

Feminist science studies, materialism, deconstruction, poststructuralism, posthumanism, multi-species studies, science and justice, physics, 20th-century continental philosophy, epistemology, ontology, ethics, philosophy of physics, feminist, queer, and trans theories

A. Hunter Bivens, Associate Professor of Literature

Twentieth- and 21st-century German literature and film; Marxism and critical theory; psychoanalysis; lyric poetry; literary realism; the novel

Vilashini Cooppan, Associate Professor of Literature

Postcolonial studies, comparative and world literature, literatures of slavery and diaspora, globalization studies, cultural theory of race and ethnicity

Gina Dent, Associate Professor of Feminist Studies, History of Consciousness, and Legal Studies

Africana literary and cultural studies, legal theory, popular culture

Mayanthi Fernando, Associate Professor of Anthropology

Anthropology of religion, secularism, Islam, multiculturalism/pluralism; colonial and post-colonial France, Europe

Rosa-Linda Fregoso, Professor Emerita of Latin American and Latino Studies

Susan Gillman, Professor of Literature

Transnational American studies; literatures of the 19th-century Americas; critical race studies; translation theory; comparative history of slavery and emancipation; world literature and cultural studies

Wlad Godzich, Professor of Literature

Theory of literature; philosophy and literature; emergent literature; translation theory; globalization and culture; European integration; knowledge society; literatures of Africa, the Caribbean, Europe (Central, Eastern, and Western), Brazil, Canada; detective and crime fiction; science fiction; medicine and literature

Herman S. Gray, Professor of Sociology

Cultural studies, media and television studies, black cultural politics, social theory

Jody Greene, Professor of Literature and Feminist Studies

Seventeenth- and 18th-century British literature and culture; pre- and early modern studies; critical theory, especially Derrida; poststructuralism and ethics; gender studies; history of authorship; history of the book; human property

History of Consciousness

Susan Harding, Professor Emerita of Anthropology

Gail Hershatter, Professor of History

Modern Chinese social and cultural history; labor history; gender history; history of sexuality; feminist theory; history, memory, and nostalgia

David C. Hoy, Emeritus Professor of Philosophy

Kimberly Jannarone, Professor of Theater Arts

Directing, performance history, dramatic criticism, modernism

Sharon Kinoshita, Professor of Literature

Mediterranean studies; medieval francophone and Mediterranean literature; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Kimberly Lau, Professor of Literature; Provost, Oakes College

Feminism, discourse, and power; feminist theory; discourse, analysis, and ethnographic methods; folklore and narrative; globalization

Dean Mathiowetz, Associate Professor of Politics

Political theory, contemporary and historical; theories of affect, agency, citizenship, democracy, language, and subjectivity; classical and critical political economy

Helene Moglen, Professor Emerita of Literature and Feminist Studies

Triloki Nath Pandey, Professor Emeritus of Anthropology

Ravi Rajan, Professor of Environmental Studies

Environmental history and political ecology, risk and disaster studies, science and technology studies, North-South environmental conflicts, environmental social theory, environmental ethics

B. Ruby Rich, Professor of Community Studies

Documentary film and video, post-9/11 culture, new queer cinema, feminist film history, Latin American and Latin/a cinema, U.S. independent film and video, the essay film, the politics of film festival proliferation and the marketing of foreign films in the U.S.

Warren Sack, Professor of Film and Digital Media

Software design and media theory

Daniel Selden, Professor of Literature

Afroasiatic languages and literatures, Greek and Latin, Hellenistic culture, the classical tradition, history of criticism, literary theory

Richard Terdiman, Professor Emeritus of Literature

Anna Tsing, Professor of Anthropology

Culture and politics; feminist theory; globalization; multi-species anthropology; social landscapes and tropical forest ethnologies; multi-sited ethnography; Indonesia, Southeast Asia, and the U.S.

HISTORY OF CONSCIOUSNESS COURSES

LOWER-DIVISION COURSES

1. Introduction to History of Consciousness. W

Investigates the politics of identity and recognition as the basis for claims about institutional legitimacy and social struggle. Examines such diverse figures as Sartre, Fanon, Bataille, Foucault, Lacan, Levinas, Derrida, Deleuze, Zizek, and Badiou. THE STAFF

12. Historical Introduction to Philosophy. *

Focuses on moral, metaphysical, and epistemological issues using classical texts along with some contemporary readings on related philosophical problems. Plato, Kant, and Sartre provide the central readings on ethics, while Descartes, Hume, Kant (again), and Wittgenstein provide the central metaphysical and epistemological discussions. Issues of philosophy of language and method are

highlighted throughout. (General Education Code(s): TA.) THE STAFF

80N. Prophecy Against Empire. *

In the core of a London slum, with wars raging all around him, the printer William Blake sounded the trumpet of prophecy. This course channels Blake's war-time revelations, laying bare the antinomies of imperial violence and the prophetic tradition. (General Education Code(s): IM.) THE STAFF

80U. Modernity and Its Discontents. F

Offers an introduction to the idea of modernity from Kant to Freud, Nietzsche to Fanon. D. MARRIOTT

85. Politics and Religion. *

Considers both the religious sources of political ideas and the political sources of religious ideas, addressing topics, such as sovereignty, justice, love, reason, revelation, sacrifice, victimhood, evil, racism, rebellion, reconciliation, and human rights. (General Education Code(s): TA.) R. MEISTER

UPPER-DIVISION COURSES

102. Philosophy and Poetics. *

Introduction to the relationship between philosophy and poetics in some major 19th- and 20th-century poets and thinkers. Enrollment restricted to juniors and seniors. Enrollment limited to 30. D. MARRIOTT

111. States, War, Capitalism. *

Survey of seminal work on ancient origins of the state, diverse geo-political systems of war and diplomacy, and consequences of the formation of the world market on the evolution of geo-political systems up to and beyond the wars of today. Enrollment restricted to juniors and seniors. Enrollment limited to 35. G. BALAKRISHNAN

112. Foundations in Critical Theory. F

Concentrates on the Marxist tradition of critical theory, centering on classical texts by Marx and by writers in the Marxist

History of Consciousness

tradition up to the present.

Enrollment limited to 150. (General Education Code(s): TA.) THE STAFF

115. Comedy and the Question of the Comic. *

Introduces the concept of the comic; how the concept of the comic has been theorized at times, from antiquity to the 20th century; forms the comic has taken and how it structures our experiences; and theories of the comic. (General Education Code(s): TA.) THE STAFF

118. Jewish Social Movements. *

Jewish social movements of the late 19th and 20th centuries, in Europe (Eastern and Western) and the U.S.: the confrontation between Hasidism and Haskahah, tensions between socialism and Zionism, between religiosity and secularism, the mutual influences among these tendencies. (Also offered as History 185D. Students cannot receive credit for both courses.) Enrollment restricted to juniors and seniors. Enrollment limited to 20. THE STAFF

119. Politics of Recognition. *

Course touches on the philosophical roots of Hegel's text, starting from the pre-World War II rereading of Hegel's master/slave dialectic that became the kernel of postwar thought arising from struggles over capitalism, communism, fascism, racism, colonialism, and feminism. R. MEISTER

125. Queerness and Race. *

Gives students a grasp of different definitions and uses of the concept queerness in its relationship to race and how it's tied to the politics of lesbian, gay, bisexual, and transgender (LGBT) identity. Enrollment limited to 25. THE STAFF

136. On Insults. *

What is the role of insult in social and legal life (from play to jokes to ritual to war and from blasphemy to defamation to hate speech)? Emphasizes philosophical, anthropological, psychoanalytic, and legal approaches to the issues. THE STAFF

139A. Market Crises and the Future of Capitalism. *

Examines the development and role of late 20th- and early 21st-century financial technologies in modern market crises. Enrollment limited to 40. THE STAFF

139B. Materialism and Financial Markets. *

Continuation of course 139A. Examines the development and role of late 20th- and early 21st-century financial technologies in modern market crises. Enrollment limited to 40. THE STAFF

146. Philosophy of Law. *

Exploration of selected problems in jurisprudence: "legal reasoning" and social policy, rules and individual cases, the mental element in the law, punishment and responsibility, causation and fault, liberty and paternalism, etc. (Formerly Philosophy 146.) (Also offered as Legal Studies 146. Students cannot receive credit for both courses.) THE STAFF

150. Radical Political Theory. *

Provides an introduction to classical and contemporary texts of radical political theory, a body of work that critically examines fundamental premises of politics. Addresses the question "What is the 'political?'" G. BALAKRISHNAN

160. Advanced Topics in History of Consciousness. *

Provides students an opportunity for in-depth analysis of advanced topics within the history of consciousness arena. Course topic changes; see the Class Search for current topic. May be repeated for credit. THE STAFF

163. Freud. *

The development of Freud's concept of mind. Extensive reading tracing the origins and development of Freud's theories and concepts (e.g., abreaction, psychic energy, defense, wish-fulfillment, unconscious fantasy, dreams, symptoms, transference, cure, sexuality) and emphasizing the underlying model of the mind and mental functioning. (Formerly Psychology 163 and Philosophy

139.) Offered in alternate academic years. THE STAFF

180. The Emotions. *

Analysis of particular emotions (e.g., jealousy, boredom, regret) and exploration of general theoretical issues (e.g., expression, control) with emphasis on moral psychology. Admission by interview with instructor. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 23. THE STAFF

185C. Comparative Religion: A Critical Introduction. *

Introduces the comparative study of world religions and provides critical entry points toward the understanding of its history as a discipline. Special emphasis on the troubled history of imperialism, orientalism, and facile generalizations that have always accompanied the attempt to understand foreign or dead cultures. Enrollment is restricted to sophomores, juniors, and seniors. (General Education Code(s): CC.) THE STAFF

185T. Marxism and Feminism. *

Critically engages with feminist-Marxist perspectives on social-reproduction. Introduces the foundation of Marxism and feminist-Marxist critique while examining the international feminist struggle historically from the origins of capitalism to the present moment. THE STAFF

187. The Emergence of the Avant-garde from Disenchantment to Dada. *

Examines the socio-political and cultural origins of early 20th-century avant-garde movements focusing on the vanguard movement of futurism, the roles played by the disenchantment of the world, and technological rationalization as it relates to warfare and aesthetic production. (General Education Code(s): TA.) THE STAFF

190A. Jewish Socialism in Eastern Europe, 1880-1953. *

Looks at the ongoing debate in Jewish resistance during the Second World War and ends by addressing

History of Consciousness

the status of Jews and Jewish movements in the Soviet Union and Poland after the war. (Also offered as Jewish Studies 190A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. THE STAFF

199. Tutorial. F,W,S

A program of individual study arranged between an undergraduate student and a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

203A. Approaches to History of Consciousness. F

An introduction to history of consciousness required of all incoming students. The seminar concentrates on theory, methods, and research techniques. Major interpretive approaches drawn from cultural and political analysis are discussed in their application to specific problems in the history of consciousness. Prerequisite(s): first-year standing in the program. See the department office for more information. (Formerly course 203.) E. PORTER

203B. Approaches to History of Consciousness. S

Writing-intensive course based on readings in course 203A. Prerequisite(s): course 203A. Enrollment restricted to graduate students. Enrollment limited to 9. C. FRECCERO

210A. Cultural and Historical Studies of Race and Ethnicity. *

Explores the historical construction of racial and ethnic categories in the Americas, especially the U.S., in interaction with gender, sexuality, class, and nationality. Intended to introduce current work by UCSC faculty and Bay Area scholars and to stimulate graduate student research projects, the course is organized by intensive reading around key questions, followed by presentations by invited scholars. Emphasizes research resources and

methodologies. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

210B. Cultural and Historical Studies of Race and Ethnicity. *

Writing intensive course based on readings in course 210A. Prerequisite(s): course 210A. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

211A. French Hegel. *

Introduces the "return to Hegel" in the work of some major 20th-century French thinkers. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

212. Feminist Theory and the Law. *

Interrogation of the relationship between law and its instantiating gendered categories, supported by feminist, queer, Marxist, critical race, and postcolonial theories. Topics include hypostasization of legal categories, the contest between domestic and international human rights frameworks, overlapping civil and communal codes, cultural explanations in the law, the law as text and archive, testimony and legal subjectivity. (Also offered as Feminist Studies 212. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. DENT

216. Critical Race/Ethnic Studies. *

Explores foundational and emergent theoretical and methodological approaches to the study of race. Issues examined include the production of race within and across various spheres of human activity and how race has shaped notions of difference and commonality in the past and present. Enrollment restricted to graduate students. Enrollment limited to 15. E. PORTER

217. Critical Human Rights Theory. W

Addresses about 10 of the significant critiques of human rights discourse published in the past

decade by authors, such as Moyn, Douzinas, Fassin, Ticktin, J. Slaughter, D. Chandler, Mamdani, Weitzman, Badiou, and Meister. Enrollment is restricted to graduate students. Enrollment limited to 15. May be repeated for credit. R. MEISTER

222B. Theories of Late Capitalism. *

Writing intensive course based on readings in course 222A. (Formerly Theories of Late Capitalism, Nationalism, and the Politics of Identity.) Prerequisite(s): course 222A. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

230A. Poetry, Language, Thought. *

Introduces the relation between philosophy and poetics in some major 20th-century poets and thinkers. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

230B. Poetry, Language, Thought. *

Writing-intensive course based on readings in course 230A. Prerequisite(s): course 230A, or permission of instructor. Enrollment limited to 15. D. MARRIOTT

236. On Insults. *

What is the role of insult in social and legal life (from play to jokes to ritual to war and from blasphemy to defamation to hate speech)? Emphasizes philosophical, anthropological, psychoanalytic, and legal approaches to the issues. Enrollment restricted to graduate students and by permission of instructor. (Formerly Philosophy 290Y.) (Also offered as Anthropology 236. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. THE STAFF

237A. Historical Materialism. *

Students read landmark works of classical and contemporary Marxism. Writings from Marx, Lenin, Trotsky, Lukacs, Gramsci, Adorno, Benjamin, Sartre, Althusser, Anderson, Jameson, and Zizek are addressed. Enrollment

History of Consciousness

restricted to graduate students. Enrollment limited to 15. May be repeated for credit. G. BALAKRISHNAN

237B. Historical Materialism. * Writing-intensive seminar based on course 237A. Students read landmark works of classical and contemporary Marxism. Writings from Marx, Lenin, Trotsky, Lukacs, Gramsci, Adorno, Benjamin, Sartre, Althusser, Anderson, Jameson, and Zizek are discussed. Enrollment restricted to graduate students. Enrollment limited to 10. May be repeated for credit. G. BALAKRISHNAN

240. Basic Principles of University-Level Pedagogy (1 credit). *

Provides training for graduate students in university-level pedagogy in general. Under the supervision of the department chair, coordinated by a graduate student with substantial experience as a teaching assistant. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

242A. Violence and Phenomenology:

Fanon/Hegel/Sartre. F
Study of the work and influence of Frantz Fanon from a range of viewpoints: existential, phenomenological, psychoanalytic, and political; a variety of genres: film, literature, case history, and critique; and a set of institutional histories: clinical, cultural, and intellectual. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

242B. Violence and Phenomenology:

Fanon/Hegel/Sartre. *
Writing intensive course based on readings in course 242A. Prerequisite: course 242A. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

243A. Nationalism, Anti-Semitism, and Jewish Resistance in World War II. *

Jewish resistance to Nazism during World War II, in Eastern Europe, and its historical context. Includes

the pre-war rise in nationalism and anti-Semitism in Poland and Lithuania, Jewish integration in the Soviet Union, and the consequences for wartime resistance. (Also offered as History 256. Students cannot receive credit for both courses.) Enrollment restricted to seniors and graduate students. Enrollment limited to 15. THE STAFF

245. Race and Representation. *
Explores how human subjects come to be visually defined and marked by "race" discourse. Covers diverse theoretical literatures on the topic, primarily in visual studies, but also in cultural studies, post-colonial studies, and psychoanalysis. (Also offered as Feminist Studies 245. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. J. GONZALEZ

246. Black Radicalism. *
Examines the history of black radical intellectual, cultural, political, and/or social movements. May take the form of a survey of different aspects of black radicalism or may focus on a particular individual, groups, period, etc. Enrollment is restricted to graduate students. E. PORTER

252. Poststructuralism. *
French poststructuralism, with particular attention to the main philosophical texts of Jacques Derrida and Michel Foucault. Other representative theorists as well as critics of poststructuralism are studied as time permits. (Also offered as Philosophy 252. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

256A. Theories of the Visual. *
Study of psychoanalytic theories of the visual including the emergence of psychoanalysis and cinema as parallel discourses and the mobilization of key psychoanalytic concepts—scopophilia, voyeurism, fetishism—in Freudian and Lacanian understandings of the gaze so central to film and photographic theory. Enrollment restricted to graduate students.

Enrollment limited to 15. D. MARRIOTT

256B. Theories of the Visual. *
Writing intensive course based on readings in course 256A. Prerequisite: course 256A. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

259A. Kant, Lacan, and the Ethics of Psychoanalysis. W

Offers an introduction to Jacques Lacan's "Return to Kant" and the response it provokes as a reading of sadism, politics, and ethics. Specific point of entry adopted for course is Lacan's seminar on "The Ethics of Psychoanalysis." Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

259B. Kant, Lacan, and the Ethics of Psychoanalysis. *

Writing-intensive course based on readings in course 259A. Prerequisite(s): course 259A. Enrollment restricted to graduate students. Enrollment limited to 15. D. MARRIOTT

261. Modern Intellectual History. W

Survey of 19th- and 20th-century intellectual history that focuses on a cross-section of major works from Hegel to Levi-Strauss. Enrollment restricted to graduate students. Enrollment limited to 15. G. BALAKRISHNAN

262. Critical Theory After Habermas. *

Examines key works of Frankfurt School theorist Jurgen Habermas, his followers, and critics, on topics such as the public sphere, the theory of communicative action, power and domination, and religion and secularism. Prerequisite(s): Enrollment restricted to graduate students. T. MILLER

263. European Philosophies of Difference. *

Survey of European philosophies of difference, tracing the evolution of philosophical concepts and frameworks from Nietzsche, Kierkegaard, Bergson, and Heidegger through later 20th-century French post-structuralist, feminist, and Frankfurt School

History of Consciousness

theory. Enrollment is restricted to graduate students. T. MILLER

264. The Idea of Africa. S

Examines the position of Africa in cultural studies and the simultaneous processes of over- and under-representation of the continent that mark enunciations of the global and the local. Themes include defining diaspora, the West as philosophy, and Africa in the global economy. (Also offered as Feminist Studies 264. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. G. DENT

268A. Rethinking Capitalism. S

Readings include works by speakers at UCSC's "Rethinking Capitalism Initiative." Topics are: (1) financialization versus commodification (how options-theory has changed capitalism); (2) material markets (how this theory performs); and (3) valuation and contingency (how economies make worlds). (Also offered as Anthropology 268A. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. R. MEISTER

268B. Rethinking Capitalism. *

Course 268A addressed changes in the theory and practice of capitalism as derivatives markets have become increasingly central to it. This course, which can be regarded as either background or sequel, concerns questions that surround recent debates about derivatives from the standpoint of broader developments in law, culture, politics, ethics, ontology, and theology. What would it mean to see questions of contingency and value as a challenge to late-modern understandings of these modes of thought? (Also offered as Anthropology 268B. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. R. MEISTER

275. Sovereignities. F

The guiding thought of this seminar is the question of what is, and is not,

"sovereign." Exploring a wide range of authors (such as Bodin, Hobbes, Spinoza, Rousseau, Kant, Schmitt, Bataille, and Fanon), this seminar addresses the most salient problems in recent discussions of sovereignty. Enrollment is restricted to graduate students. D. MARRIOTT

280. The Emotions. *

Analysis of particular emotions (e.g., jealousy, boredom, regret) and exploration of general theoretical issues (e.g., expression, control) emphasizing philosophical and psychoanalytical approaches to understanding moral psychology. Enrollment is restricted to graduate students. THE STAFF

285. Topics in Political Theology. *

Readings focus on the early 20th-century rediscovery of political theology; its use in theorizations of the Holocaust; and its return in 21st-century debates on empires, war, terror, enmity, reconciliation, fanaticism, human rights, political economy, and global catastrophe. Students cannot receive credit for this course and course 85. Enrollment is restricted to graduate students. Enrollment limited to 15. May be repeated for credit. R. MEISTER

291. Advising (2 credits). F,W,S

Independent study formalizing the advisee-adviser relationship. Regular meetings to plan, assess and monitor academic progress, and to evaluate coursework as necessary. May be used to develop general bibliography of background reading and trajectory of study in preparation for the qualifying examination. May be repeated for credit. THE STAFF

292. Practicum in Composition. *

A practicum in the genres of scholarly writing, for graduate students working on the COMPOSITION of their qualifying essay or doctoral dissertation. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

293. Field Study. F,W,S

Research carried out in field

settings, based on a project approved by the responsible faculty. The student must file a prospectus with the department office before undertaking the research and a final report of activities upon return. May be repeated for credit. THE STAFF

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Students submit petition to sponsoring agency. THE STAFF

295. Directed Reading. F,W,S

Systematic working through a prearranged bibliography which is filed as a final report at the end of the quarter with the signature of the instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

296. Special Student Seminar. F,W,S

A seminar study group for graduate students focusing each quarter on various problems in the history of consciousness. A statement and evaluation of the work done in the course will be provided each quarter by the students who have participated in the course for that quarter, and reviewed by the responsible faculty. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent study and research under faculty supervision. Students submit petition to sponsoring agency. THE STAFF

298. Doctoral Colloquium. S

Under the supervision of a History of Consciousness faculty member, students finishing their dissertation meet weekly or bi-weekly to read and discuss selected draft chapters, design difficulties and composition problems. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Prerequisite(s): advancement to candidacy. May be repeated for credit. THE STAFF

* Not offered in 2017-18

HUMANITIES

2017-18 General Catalog

503 Humanities I

(831) 459-2696

<http://humanities.ucsc.edu/>

PROGRAM DESCRIPTION

The Humanities Division offers a broad range of courses and programs that investigate and interpret the human experience. For current information, see <http://humanities.ucsc.edu>.

The following undergraduate majors (and in most cases minors) are offered: applied linguistics and multilingualism, classical studies, critical race and ethnic studies, feminist studies, German studies, history, Italian studies, Jewish studies, language studies, linguistics, literature, philosophy, and Spanish studies. In addition, there are minors in East Asian studies and History of Consciousness..

At the graduate level, the Ph.D. (and in most cases, the M.A.) are offered by programs in feminist studies, history, history of consciousness, linguistics, literature, and philosophy.

The Writing Program offers courses and assessments related to university and campus writing requirements and collaborates with the undergraduate colleges in delivering the college core courses.

The Institute for Humanities Research is a laboratory for theorizing and implementing new visions of the humanities via faculty research projects, graduate and undergraduate education, and public programs. For more information, see <http://ihr.ucsc.edu>.

ITALIAN

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Italian can enroll in language courses from beginning to advanced levels. In addition, students may select from among the following programs: a major or minor in Italian studies, a major or minor in language studies, a major in literature with an emphasis in Italian literature, a major in global economics

The sequence of lower-division courses 1-6 is aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Courses 1A and 1B offer lower-division intensive Italian language instruction equivalent to levels 1, 2, 3. The 1, 2, 3 sequence starts once a year in the fall quarter, while the 1A-1B sequence starts once a year

in the winter quarter. Classes are taught in Italian from the beginning level.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

The Office of International Education (OIE) sponsors programs of study in Italy. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>.

ITALIAN FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Margaret Brose, Emerita (Literature)

Deanna Shemek (Literature)

Renaissance Italian literature and culture; early modern feminism; humanism; letter-writing and epistolary culture; early modern literacy and media; Renaissance theater; the northern court circles; digital humanities

LECTURER

Giulia Centineo

Italian culture and civilization; history of Italian language; Italian linguistics, syntax, and semantics; language pedagogy, Italian cinema, dubbing, Italian migrations

Maria (Tonia) Prencipe

Technology and foreign language pedagogy; modern Italian culture, history, literature, and cinema; creative writing; promotion of Italian language and culture of K-12

ITALIAN COURSES

LOWER-DIVISION COURSES

1. First-Year Italian. F

During the first quarter of this first-year sequence, students learn to introduce themselves, to talk about their daily activities and hobbies, to describe themselves and their friends/families, and to recount past events. The first-year sequence (1-2-3) begins in fall quarter. THE STAFF

1A. Accelerated Italian. W

The first quarter of accelerated instruction in elementary Italian language. The accelerated pace allows a rapid mastery of grammar and vocabulary, giving students a basic knowledge of Italian in only two quarters. Completion of the sequence is equivalent to the completion of the 1-2-3 sequence. This sequence starts once a year in the winter quarter. THE STAFF

1B. Accelerated Italian. S

The second quarter of accelerated instruction in elementary Italian language. The accelerated pace allows a rapid mastery of grammar and vocabulary, giving students a basic knowledge of Italian in only two quarters. Completion of the sequence is equivalent to the completion of the 1-2-3 sequence. (Formerly Intensive Elementary Italian.) Prerequisite(s): course 1A or 2 or placement by examination.

Italian

For students completing course 2, course 3 is preferable. THE STAFF

2. First-Year Italian. W

During the second quarter of this first-year sequence, students learn to tell a story in the past, to make plans about their future, and to express commands and requests. The sequence starts once a year in the fall quarter. (Formerly Instruction in the Italian Language.) Prerequisite(s): course 1 or placement by examination. THE STAFF

3. First-Year Italian. S

During the third quarter of this first-year sequence, students learn to talk about historical events, to formulate hypothetical scenarios, to express wishes, desires, doubts, and opinions, and to discuss more abstract topics (e.g., immigration, work, politics). (Formerly Instruction in the Italian Language.) Prerequisite(s): course 2 or placement by examination. THE STAFF

4. Second-Year Italian. F

Short stories, articles, films, and newsclips are used as the basis for studying intermediate-level conversation and composition. Laboratory assignments involve use of the World Wide Web, conversations with native speakers, films and video clips. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor, preferably prior to the first class meeting, and take the placement examination. Prerequisite(s): course 1B or 3 or placement by examination. (General Education Code(s): CC.) THE STAFF

5. Second-Year Italian. W

Reading of Italian short stories and a play are used as basis for further study and refinement of oral and written skills at the intermediate level. Particular emphasis is placed on oral/written discussion of abstract ideas and topics, and on the study of different language registers/contexts. Laboratory work is regularly assigned. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor,

preferably prior to the first class meeting and take the placement examination. Prerequisite(s): course 4 or placement by examination. (General Education Code(s): CC.) THE STAFF

6. Second-Year Italian. S

Reading of first novel in the language and weekly viewing of Italian films serve as basis for oral reports and discussions on various aspects of Italian culture and civilization. Weekly assignments, three essays, and a paper on topics derived from or related to the text. Students interested in this course who have not taken the prerequisite at UCSC should meet with the instructor, preferably prior to the first class meeting, and take the placement examination. Prerequisite(s): course 5 or placement by examination. (General Education Code(s): CC.) THE STAFF

80. Italian Culture Through Cinema. S

Film is used as a medium through which images of Italians and their culture are disseminated, perpetuated, and crystallized. Whether these representations offer historical perspectives or stereotypes, they are important documents for the study of Italian culture, society, history, and politics. Students cannot receive credit for this course and Italian 106. (Formerly Languages 80D.) May be repeated for credit. (General Education Code(s): CC.) G. CENTINEO, THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

100. Advanced Italian Composition and Conversation. F

Provides intensive practice in oral and written Italian. Focuses on vocabulary building and increased oral and written expression. Active student participation is essential and constitutes a significant portion of the course including class discussions, oral presentations, written reports, responses and essays, using different genres of writing, including, but not limited to diaries, epistles (formal and informal), blogs, text messaging, dialogues, short stories, memoirs, interviews, podcasts, and media language. Prerequisite(s): course 6 or by permission of the instructor. M. PRENCIPE, THE STAFF

106. Italian Culture Through Film. S

Film is used as a medium through which images of Italians and their culture are disseminated, perpetuated, and crystallized. Students focus on pivotal issues in Italian culture, society, history, and politics, and develop an informed opinion on relevant issues in Italian studies. The course is taught in English with a mandatory enhancement section in Italian. The enhancement section meets once a week and is designed to give students who are already familiar with the language the opportunity to discuss the films in Italian and to read/view additional material in the language. Students cannot receive credit for this course and Italian 80 (formerly Languages 80D). Prerequisite(s): course 6. May be repeated for credit. (General Education Code(s): CC.) G. CENTINEO, THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to

Italian

sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

ITALIAN STUDIES

2017-18 General Catalog

Department of Literature
303 Humanities 1
(831) 459-4778

PROGRAM DESCRIPTION

Students interested in an interdisciplinary approach to Italian culture through the combined study of language, literature, history, art history, and other subjects may pursue a major or minor in Italian studies. The guidelines for the completion of the major may be obtained from Professor Deanna Shemek of the Literature Department or Professor Cynthia Polecchiti of the History Department. There are several options for study in Italy through the UC Education Abroad Program (EAP), either for a year (Bologna, Milan), for an intensive semester or quarter (Bologna, Florence, Milan, Rome), or for the summer (Florence, Rome). Students may also divide their time between Italy and Spain for one semester or one quarter. The Italian studies program is administered by the Literature Department.

REQUIREMENTS OF THE MAJOR

Each student must complete the lower-division language sequence (Italian 1–6, or equivalent). In addition, students are required to take 10 five-credit courses (one of which may be lower division), including a core unit of five courses which must be taken at UCSC: two Italian literature courses, Italian 106 (Italian Culture Through Film), one course in Italian history, and one course in Italian art history. A course featuring the work of Dante is recommended. A minimum of five courses must be taught substantially in Italian. Five may be approved elective courses, two of which may feature Italy in a European or global context. Up to five elective courses may be approved from UC EAP's yearlong study abroad in Italy. All students in the major must satisfy the Italian Studies senior exit requirement by writing a senior essay focused on Italian literature, history, or visual culture. This essay may be produced within an approved seminar, or (with faculty permission) by enrolling in a one-credit Literature 185Z course taken in conjunction with another upper-division course in Italian literature, history, or history of art and visual culture. This combination must be approved by a faculty adviser in Italian Studies.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. Italian studies majors satisfy the DC Requirement through satisfactory completion of the

senior essay, as described above. Please refer to [the updated information](#).

MINOR REQUIREMENTS

Each student must complete the lower-division language sequence (Italian 1–6, or equivalent). Students must also complete five upper-division courses in Italian studies: two Italian literature courses, Italian 106 (Italian Culture Through Film), one course in Italian history, and one course in Italian art history. A course featuring the work of Dante is recommended. Three of the five upper-division courses must be completed at UCSC; three must be taught substantially in Italian. A maximum of two courses may be transferred from EAP.

HONORS

Honors in the Italian studies major are awarded to graduating seniors who have earned a 3.70 to 3.89 grade point average in their upper-division Italian studies courses. Highest honors in the Italian studies major are awarded to graduating seniors who have earned a 3.90 or higher grade point average in their upper-division Italian Studies courses. Honors are not awarded in the minor.

PROGRAM LEARNING OUTCOMES

Following is a summary of the program learning outcomes for the Italian studies B.A.:

Students who complete the major should be able to demonstrate:

A. Oral and written communication: listening, speaking, and writing competency in Italian sufficient to engage in meaningful conversation at the Intermediate-high to Advanced-mid level, according to the [American Council on the Teaching of Foreign Languages \(ACTFL\)](#).

B. Textual comprehension and analysis: ability to understand and appreciate Italian texts in a variety of registers and different areas of knowledge at the Advanced level as described by [ACTFL](#).

C. Critical analysis: ability to comment with critical insight on a range of topics in Italian history and contemporary culture.

Italian Studies

D. Cultural competency: ability to demonstrate knowledge of historical and contemporary aspects of Italian culture with reference to study in several disciplines.

E. Global engagement: ability to recognize and reflect in an informed way on cultural differences as well as shared values between Italian culture and their own native cultures.

F. Knowledge building: ability to conduct research in both Italian and English on topics pertinent to Italian history and culture.

2017-18 TENTATIVE ITALIAN STUDIES CURRICULUM

FALL 2017

ITAL 1, First-Year Italian (Centineo, Prencipe)

JAPANESE

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Japanese can enroll in language courses from beginning to advanced levels. Instruction takes place mostly in Japanese from the second half of the first quarter. The curriculum aims to build a solid foundation in all four aspects of linguistic skills (speaking, listening, reading, and writing) as well as sociolinguistic competence and cultural knowledge.

Students may use Japanese courses for the following majors and minors: a major in language studies; a major in linguistics; an East Asian minor or (individual major); a major in global economics; or a major in literature.

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

The Office of International Education (OIE) has information on study in Japan. There are study abroad—programs at many universities, including Doshisha, Hitotsubashi, ICU, Keio, Meiji Gakuin, Osaka, Tsuru, and Waseda. Courses taken abroad can, with approval of an adviser, be applied to major requirements. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

PLACEMENT EXAMS

JAPANESE FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Shigeko Okamoto

Sociolinguistics, discourse analysis, pragmatics, language and gender, foreign language pedagogy, Japanese linguistics

Noriko Aso (History)

Japanese social, intellectual, and cultural history, material culture, colonialism, nationalism, gender, race and ethnicity

Alan S. Christy (History)

Early modern and modern Japan; history of social sciences, colonialism, nationalism; Okinawa

LECTURER

Mariko Bohn

Sociolinguistics, language and gender, bilingualism, modern Japanese literature, language pedagogy

Sakae Fujita

Foreign language education, drama in education

JAPANESE COURSES

LOWER-DIVISION COURSES

1. First-Year Japanese. F

Students carry out beginning-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write Japanese scripts (hiragana, katakana, and about 40 kanji). (Formerly Instruction in the Japanese Language.) THE STAFF

2. First-Year Japanese. W

Students carry out beginning-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Instruction in the Japanese Language.) Prerequisite(s): course 1 or by consent of instructor. THE STAFF

3. First-Year Japanese. S

Students carry out beginning-level tasks that involve listening,

speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. (Formerly Instruction in the Japanese Language.) Prerequisite(s): course 2 or by consent of instructor. THE STAFF

4. Second-Year Japanese. F

Students carry out intermediate-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 70 additional kanji. Prerequisite(s):

Japanese

course 3 or by consent of instructor.
THE STAFF

5. Second-Year Japanese. W

Students develop intermediate-level competence in listening, speaking, reading, and writing in diverse social contexts; acquire a deeper and broader understanding of Japanese society and culture; and learn how to read and write 70 additional kanji characters.

Prerequisite(s): course 4 or by consent of instructor. (General Education Code(s): CC.) THE STAFF

6. Second-Year Japanese. S

Students carry out intermediate-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis is placed on developing the student's cultural knowledge relevant to inter-cultural communication.

Prerequisite(s): course 5 or by consent of instructor. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to

sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

103. Advanced Japanese. F

Students carry out advanced-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis placed on developing the student's cultural knowledge about Japan as well as knowledge relevant to inter-cultural communication.

Prerequisite(s): course 6 or by consent of instructor. THE STAFF

104. Advanced Japanese. W

Students carry out advanced-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Emphasis placed on developing the student's cultural knowledge about Japan as well as knowledge relevant to inter-cultural communication.

Prerequisite(s): course 103 or by consent of instructor. THE STAFF

105. Advanced Japanese. *

Students carry out advanced-level tasks that involve listening, speaking, reading, and/or writing, and learn how to read and write 100 additional kanji. Further development of cultural knowledge and understanding through critical examination of authentic Japanese materials in a variety of genres,

including literary work, expository writing, and films. May be repeated for credit with consent of instructor. Prerequisite(s): course 104 or by consent of instructor. (General Education Code(s): TA.) THE STAFF

109. Japanese Language, Culture, and Society. S

Critical reading of Japanese texts, such as essays, film scripts, and novels in regard to linguistic diversity related to cultural and social diversity. Topics include standard Japanese and regional variation, politeness and honorifics, age-related stylistic variation, and gendered language. Prerequisite(s): Japanese 104 or by consent of instructor. Enrollment limited to 25. (General Education Code(s): TA.) THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

JEWISH STUDIES

2017-18 General Catalog

Department of History
201 Humanities
(831) 459-2982
<http://jewishstudies.ucsc.edu>

PROGRAM DESCRIPTION

The interdisciplinary program in Jewish studies introduces students to the study of classical, medieval, and modern Jewish cultures and to the range of disciplines that bear upon the field.

The Jewish studies major and minor offer students the chance to gain knowledge and skills in a variety of contexts in various aspects of Jewish culture, with special reference (though not limited) to modern issues. The major and minor will help them prepare to move successfully into graduate programs in a variety of disciplines, especially in humanities, social sciences, and pre-professional programs, and will provide students with a grounding in materials fundamental to a liberal arts education. This program connects with a range of disciplines and programs on the UCSC campus that explore the meanings of modernity; at the same time, this program will help students develop analytical tools, methodological versatility, and critical literacy.

Note that modernity here is not defined as Europe or North America; the Jewish studies program intends to speak to modernity as a global phenomenon, dealing with sites where Jews lived. In the 19th and 20th centuries Jews were widely spread across the globe and often played active and influential roles in their communities. These include such places as China, India, Latin America, North Africa, the Middle East, as well as Europe, and North America.

Jewish studies is administered by the Department of History. For additional information on curriculum and advising, go to <http://jewishstudies.ucsc.edu>.

PROGRAM LEARNING OUTCOMES

JEWISH HISTORY AND CULTURE

Identify and interpret major events, figures, and topics in Jewish history and culture.

HOLOCAUST

Demonstrate thorough knowledge of the Holocaust as a historical phenomenon.

Develop a nuanced understanding of the cultural dimensions of the Holocaust through an analysis of literature, films, art, and/or music.

JEWISH LANGUAGES

Develop basic competency in Hebrew (modern or Biblical) or Yiddish.

CRITICAL ANALYSIS

Distinguish between primary and secondary sources.

Evaluate competing interpretations and multiple narratives of the past.

Analyze Jewish cultural sources, including literary texts, films, and music within a broader, cross-cultural context.

EFFECTIVE COMMUNICATION

Present clear and compelling arguments, based on critical analysis of diverse literary, historical, film, and/or musical sources, and effectively communicate interpretations in written essays and/or other media.

SCOPE

Classical Period.

Modern Period.

REQUIREMENTS FOR THE MAJOR

In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

LANGUAGE

- Three quarters of lower-division instruction in a Jewish language in any combination of the student's choosing: elementary Hebrew (Hebrew 1, Hebrew 2, Hebrew 3); Hebrew 80, Introduction to Biblical Hebrew; elementary Yiddish (Yiddish 1, Yiddish 2); or equivalent. Students with prior knowledge of Hebrew or Yiddish are advised to complete a language placement exam to determine if they have satisfied any of the elementary language course requirements. Instructions for the placement exam can be found on the Languages and Applied Linguistics web site: <http://language.ucsc.edu>.

COURSE REQUIREMENTS

Jewish Studies

The major requires a minimum of 11 courses, including the comprehensive requirement. A minimum of 40 upper-division credits must be completed within the Jewish studies major course requirements.

Lower-Division Core Courses (2 courses)

- History 74, An Introduction to Jewish History and Culture; History 74A, Introduction to Middle Eastern and North African Jewish History: Ancient to Early Modern; History 74B, Introduction to Middle Eastern and North African Jewish History, 1500–2000; or Literature 61J, An Introduction to Jewish Literature and Culture
- History 75, Film and the Holocaust, or History 76, Hitler and the Holocaust

Upper-Division Core Courses (4 courses)

- four upper-division core courses

Core or Elective Courses (4 courses)

- four additional core or elective courses, three of which must be upper-division

COMPREHENSIVE EXIT AND DISCIPLINARY COMMUNICATIONS REQUIREMENT (1-2 COURSES)

Comprehensive Requirement. Students may satisfy the Jewish studies comprehensive exit requirement by completing an approved exit seminar (one quarter: History 194K, 194L, 196G, 196M, 196N, 196P, 196R, History of Consciousness 190A/Jewish Studies 190A, or Literature 190Y) or a senior thesis (two quarters: Jewish Studies 195A and 195B). Please consult the Jewish studies web site for a more detailed description of these courses.

Disciplinary Communication (DC) Requirement. Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in Jewish studies is satisfied by completing an exit seminar (one quarter: History 194K, 194L, 196G, 196M, 196N, 196P, 196R, History of Consciousness 190A/Jewish Studies 190A, or Literature 190Y), or a thesis (two quarters: Jewish Studies 195A and 195B).

DISTRIBUTION REQUIREMENTS

Among the 11 courses required for the major, at least three must meet the following chronological distribution requirements:

- one course must satisfy the classical chronological distribution requirement
- one course must satisfy the modern chronological distribution requirement

- one course must satisfy the Holocaust chronological distribution requirement, which is accomplished by completing History 75, Film and the Holocaust, or History 76, Hitler and the Holocaust.

Please consult the Jewish studies web site for a more detailed description of these courses.

Honors in the Jewish Studies Major. All students who announce candidacy during the academic year are reviewed for honors or highest honors in the major. The Jewish studies faculty advisers determine honors based upon courses applied toward the Jewish studies major. Performance in courses taken elsewhere and being transferred toward the major will be considered when applicable. The minimum standard applied is excellence in most courses for honors, and excellence in all courses for highest honors. Summer, fall, and winter graduates will be reviewed at the end of each of their respective quarters. Spring graduates will be reviewed as of the spring announcement of candidacy deadline.

UC Education Abroad Program. The program in Jewish studies encourages students to take advantage of the UC Education Abroad Program (EAP). The University of California has developed educational opportunities abroad in conjunction with the Jerusalem Study Center at The Hebrew University of Jerusalem. Subject to the limitations described below under "Transfer Credits and Substitutions," up to three courses from EAP may be applied toward the Jewish studies major requirements.

Transfer Credits and Substitutions. Jewish studies majors must take a minimum of five regularly scheduled Jewish studies courses plus the comprehensive/DC requirement from members of the UCSC Jewish studies faculty. Subject to the limits indicated, courses from the following categories may be applied to the Jewish studies major:

- Courses taken at another institution (limit of 3)
- Education Abroad Program (limit of 3)
- Related courses not currently on the pre-approved Jewish studies course list (limit of 2)
- Independent and field studies (limit of 1)

REQUIREMENTS FOR THE MINOR

Students whose major area of interest is not Jewish studies may nonetheless find that a minor in Jewish studies makes an invaluable contribution to their studies. This introduction to Jewish studies is helpful for students who plan to do graduate work in Jewish studies, whether through traditional academic disciplines or in Jewish studies programs, and also for students who plan to attend rabbinical schools or to find work with Jewish communities. For others

Jewish Studies

with an interest in Jewish topics, but without such plans, a minor in Jewish studies offers intellectual enrichment and a focus within the student's chosen field.

The minor requires a minimum of eight courses. A minimum of 25 upper-division credits must be completed within the Jewish studies minor course requirements. In consultation with a faculty adviser, students will plan a program of study to fulfill the following distribution of courses:

- one of the following courses:
 - History 74, Introduction to Jewish History and Cultures; History 74A, Introduction to Middle Eastern and

North African Jewish History: Ancient to Early Modern; History 74B, Introduction to Middle Eastern and North African Jewish History, 1500–2000; History 75, Film and the Holocaust; or History 76, Hitler and Holocaust; or Literature 61J, An Introduction to Jewish Literature and Culture

- three upper-division core courses from the Jewish studies curriculum;
- four additional core or elective courses from the Jewish studies curriculum, two of which must be upper-division.

JEWISH STUDIES PRINCIPAL FACULTY

Bettina Aptheker, Professor of Feminist Studies
Feminist oral history and memoir; feminist pedagogy; African-American feminist history; queer studies; feminist Jewish studies; feminist critical race studies

Murray Baumgarten, Emeritus of English and Comparative Literature

Dorian Bell, Associate Professor of Literature
Nineteenth- and 20th-century French literature and intellectual history; histories of empire and anti-Semitism; literature and science; film studies; digital humanities

Margaret Brose, Emerita Professor of Literature

Mark Cioc, Professor of History
German history, modern European history; environmental history

Nathaniel Deutsch, Professor of History, Neufeld-Levin Chair

Modern Jewish history; Eastern European Jewish culture; ethnography, Hasidism; history of religions

Barbara Epstein, Professor Emerita of History of Consciousness

Gildas Hamel, Lecturer Emeritus in History and Classical Languages

Alma Heckman, Assistant Professor of History
Jewish History in North Africa and the Middle East; minorities in empire and colonialism; nationalism and radicalism; transnational Jewish political activism; syncretism; labor history

Peter Kenez, Professor Emeritus of History

Tammi Rossman-Benjamin, Lecturer Emerita in Hebrew

Dan Selden, Professor of Literature
Research on Classical and Hellenistic Judaism and medieval Jewish mysticism

Bruce Thompson, Continuing Lecturer in History
European intellectual and cultural history, French history, Jewish intellectual and cultural history, British and Irish history, history of cinema, history of espionage, environmental history

FACULTY ADVISERS

Nathaniel Deutsch, Professor of History

Alma Heckman, Assistant Professor of History

Bruce Thompson, Continuing Lecturer in History

Raoul Birnbaum, Professor of History of Art and Visual Culture

Buddhist studies, especially Chinese practices from medieval times to the present; religion and visual culture in China

A. Hunter Bivens, Associate Professor of Literature

Twentieth- and 21st-century German literature and film; Marxism and critical theory; psychoanalysis; lyric poetry; literary realism; the novel

Ryan Coonerty, Lecturer in Politics

American political history, law and international relations

Robert Goff, Associate Professor Emeritus of Philosophy

Margo Hendricks, Professor Emerita of Literature

Loisa Nygaard, Associate Professor of Literature
Eighteenth- and early 19th-century German literature; Goethe; Romantic fiction; landscape and landscape aesthetics; xenophobia in Germany

Paul Roth, Professor of Philosophy

Philosophy of social science, Quine, philosophy of history, philosophy and sociology of science, epistemology, history of analytic philosophy

Avi Tchamni, Lecturer in Music

Composition, Jewish music, computer and electronic music, Middle Eastern music, theory, algorithmic

music and generative musical syntax, orchestration, ethnomusicology

JEWISH STUDIES COURSES

LOWER-DIVISION COURSES

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

185N. The Holocaust in a Digital World. W

Explores how digital tools change the way we know about the Holocaust by (1) critically understanding and analyzing digital representations of the Holocaust and (2) using and developing digital skills to engage with stories about the Holocaust. (Also offered as History 185N. Students cannot receive credit for both courses.) Enrollment is restricted to Jewish studies and history majors and minors during first-pass enrollment; open to all students at the start of second-pass enrollment. Enrollment limited to 20. (General

Education Code(s): PR-E.) THE STAFF

190A. Jewish Socialism in Eastern Europe, 1880-1953. *

Looks at the ongoing debate in Jewish resistance during the Second World War and ends by addressing the status of Jews and Jewish movements in the Soviet Union and Poland after the war. (Also offered as History of Consciousness 190A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. THE STAFF

195A. Thesis Research. S

Devoted to independent research under the guidance of a primary thesis adviser. Students are expected to meet with their thesis adviser every two weeks to report on research progress and receive advice and criticism. Enrollment restricted to junior and senior Jewish studies majors. Students submit petition to sponsoring agency. THE STAFF

195B. Thesis Writing. S

Devoted to independent writing under the guidance of the primary and secondary thesis faculty advisers. Completed theses must be a minimum of 40 pages in length. Student are required to meet regular with their faculty advisers and to submit at least two drafts for detailed criticism. Prerequisite(s): Satisfaction of the Entry Level Writing and Composition requirement. Enrollment restricted to junior and senior Jewish studies majors. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

PROGRAM DESCRIPTION

For college description and list of faculty, see [colleges](#)

KRESGE COLLEGE COURSES

LOWER-DIVISION COURSES

12A. Service Learning (3 credits). F

Students find a volunteer position with the instructor's assistance and perform community service in non-profit organizations, schools, unions, or local government agencies. Students meet weekly, keep a journal, and write a "social action witnessing" report of their experience. Enrollment restricted to college members. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-S.) F. WILLIAMS

12B. Service Learning (2 credits). *

Students find a volunteer position with the instructor's assistance and perform community service in non-profit organizations, schools, unions, or local government agencies. Students meet weekly, keep a journal, and write a "social action witnessing" report of their experience. Enrollment restricted to college members. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-S.) F. WILLIAMS

12C. Service Learning: Introduction to National Service/Introduction to Grant Writing (3 credits). W

A fast-paced and academically rigorous exercise in four main sections. First and foremost, participants must locate and support a community-service site for three hours each week. Each

student's service commitment requires the student to attend class regularly and share community-service experience with classmates. Students are introduced to the basic requirements of a variety of national service agencies including AmeriCorp, the Peace Corp, City Year, Teach for America, and City Service. Students are required to do community-service work with a member of one of these agencies locally for four hours during the quarter. The last major section of this course teaches students the basics of grant writing and research. Enrollment restricted to college members. (General Education Code(s): PR-S.) F. WILLIAMS

15A. The Writer as Witness (3 credits). *

Students are involved in a community service project to produce a portfolio of social-action writing that situates the writer as witness in the community. Enrollment restricted to college members. Enrollment limited to 20. W. COOPER

15B. The Writer as Witness (2 credits). *

Students are involved in a community-service project to produce a portfolio of social-action writing that situates the writer as witness in the community. Enrollment restricted to college members. Enrollment limited to 20. W. COOPER

16. The Rise of Capitalism and Its Consequences. *

Explores the rise and consequences

of capitalism. How has capitalism affected how humans understand and act in the world? How do oppressions along lines of race, gender, sexuality, and nation intersect with capitalism? Is resistance desirable and/or possible? Enrollment restricted to Kresge, Cowell, or Crown honors students. (General Education Code(s): TA.) D. GOULD

18. Campus Natural History Practicum (2 credits). W

Develop practical skills and knowledge in naturalist observation. Acquire an overview of the field of natural history, particularly applied to the UCSC campus. Document an evolving and multidimensional personal experience of natural spaces, including, but not limited to, wilderness. May be repeated for credit. THE STAFF

24. Imagining Utopias (3 credits). *

Explores possible futures by studying several utopian visions, projects, and manifestos. Students imagine a future by writing a manifesto and other creative non-fiction pieces that embrace a utopian imagination. Enrollment restricted to college members. Enrollment limited to 20. W. COOPER

25. Successful Transfer to the Research University (2 credits). F

Provides first-quarter, community college transfers with an understanding of the workings of a research university with emphasis on advanced academic expectations.

Kresge College

Encourages development of educational plans reflecting effective academic strategies, short- and long-term goals, research and/or internship experiences, and graduate programs. Enrollment restricted to first-quarter transfer students. Enrollment limited to 25. THE STAFF

26. Navigating the Research University (2 credits).

Explores critical engagement in education in the context of a research university. Introduces first-year issues and success strategies and ways to participate in the institution's academic life. Investigates strategies for clarifying education goals and devising a plan for success. Students cannot receive credit for this course and Porter 26 or Stevenson 26. Enrollment is restricted to first-year Kresge and Porter College members. THE STAFF

42. Student-Directed Seminar (no credit). *

Seminar taught by upper-division Kresge students under Kresge faculty supervision. (See course 192.) Students submit petition to sponsoring agency. THE STAFF

60C. Prison Narratives (3 credits). S

Seeks to ask hard questions about the role of the prison, its increasing use in our nation, and the use of torture by the U.S. government in Guantanamo, Abu Ghraib, and other prisons. Readings may include J. James's IMPRISONED INTELLECTUALS, Alexander Berkman's PRISON MEMOIRS OF AN ANARCHIST, and other writings by American prisoners. Eve Ensler's WHAT I WANT MY WORDS TO DO TO YOU is shown. Course is primarily reading and discussion; students are asked to keep a reading journal and to write a critical/creative essay at the end of the quarter. (Formerly LANGUAGE OF THE PRISON HOUSE.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. Enrollment limited to 20. W. COOPER

60F. Writer's Read (2 credits). *

Students attend weekly creative writing readings by fiction writers and poets, read excerpts from the writers' works, participate in question and answer sessions, and write short, creative and/or analytical responses to the readings and writings. Enrollment restricted to Kresge and Porter college members. Enrollment limited to 35. May be repeated for credit. M. PERKS

62. Transformative Action. *

Introduces key skills for effective transformation agents including: creativity and innovation; transformative communication; servant leadership; optimism and resilience, risk taking, initiative; luck; failure; and relationship building. Students create their own portfolio and commit to weekly civic engagement projects. Enrollment limited to 75. (General Education Code(s): PR-S.) C. KING

62A. Transformative Action (2 credits). *

Addresses the most effective methods of social change. Examines principles and strategies of transformative action and case studies of leaders solving world problems. Empowers students to be innovators in real-life community projects. Integrates nonviolence, psychology, sustainability, and social justice. THE STAFF

62B. Transformative Action Seminar (2 credits). *

For students who enrolled in the winter quarter Transformative Action course, to further investigate, research, and refine their Big Idea. Opportunity given to deepen and integrate Transformative Action principles into projects. Enrollment by instructor permission only. C. KING

63. Kresge Garden Cooperative (2 credits). *

Hands-on practice with basic ecological horticulture skills through work at the Kresge Garden, including soil cultivation. Enrollment by instructor approval through application (available in the Kresge College office). Enrollment limited to college

members. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): PR-S.) D. SHAW

64. Tools for World Changers (2 credits). S

Develops life skills that support you and help you support others. Implement effective methods for personal productivity (managing your to-dos, calendar, and inbox), interpersonal communication, meeting facilitation, event hosting, collaboration, and regenerative community design. (General Education Code(s): PR-S.) D. SHAW

65. Power and Representation Lab. *

Enrollment limited to 20. THE STAFF

65A. Power and Representation: Food and Community (2 credits). *

Explores core themes of power and representation through the mediums of food, nature awareness, community, personal empowerment and sustainable living. Students will develop meaningful final projects in collaboration with Kresge Food Co-op, Kresge Garden Co-op, Kresge World Cafe, and projects of their own design. (Formerly Power and Representations: Food Systems.) Concurrent enrollment in course 80A, 80B, or 80C is required. Enrollment limited to 20. D. SHAW

65F. Kresge Lab: Photography (2 credits). *

A course of practical guidance in developing skills and creative approaches in photography; also a group setting for critique and feedback. Students do in-class and out-of-class assignments in photography and development, discuss examples of photographic art in various communities and subgenera, and apply principles to their own work in a final portfolio. (Formerly course 65B, Power and Representation: Photography). Enrollment limited to 20. May be repeated for credit. (General Education Code(s): PR-C.) S. GRAHAM

65M. Kresge Lab: Text, Music, and Performance (2 credits). F

Kresge College

Students pursue collaborative or individual projects in the relationship between text, music, and performance, in pairs or groups. Areas explored include practical introductions to prosody and poetics, musical forms, text-setting, and theories of performance and reception. (Formerly course 65D: Power and Representation: Poetry and Musical Performance). Enrollment limited to 20. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

65W. Kresge Lab: Creative Writing (2 credits). W

A course of guidance and exercises to assist in developing independent writing projects, and a group setting for critique and feedback. Students do in-class and out-of-class writing assignments; read and discuss texts; and work to develop a final project. (Formerly course 65C, Power and Representation: Creative Writing). Enrollment limited to 20. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

67. Transformative Justice Seminar (3 credits). W

Examines the principles and processes of restorative justice juxtaposed to current practices in the judicial and educational systems of contemporary society. Students study leading restorative justice practices and their implication for individual and community transformation. Students learn to facilitate the restorative justice process "restorative circles," and have the opportunity to practice them in real time. Enrollment is by instructor consent and is restricted to frosh, sophomores, and juniors. Enrollment limited to 25. C. KING

68. Transformative Communication (2 credits). F

Based on Nonviolent Communication (NVC), this experiential course offers skills in intra- and inter-personal conflict transformation by aligning with core values; understanding what motivates self and others; cultivating compassion, even under difficult circumstances; and

bringing greater peace into our world. Enrollment limited to 25. C. KING

69. Practical Application of Restorative Practices (2 credits). *

This second seminar supports students in deepening and fine-tuning their Restorative Circle facilitation along with exploring the question "What are the components of a restorative life?" Students participate in the Kresge College Restorative Justice Initiative, and, during the fall quarter, offer Restorative Circles to student groups in conflict. Prerequisite(s): course 67. Enrollment restricted to sophomores, juniors, and seniors. May be repeated for credit. C. KING

71. The World Cafe: The Art of Hosting Conversations That Matter (2 credits). F

Examines the principles, practices, and art of hosting conversations derived from the work of Juanita Brown, David Isaacs, and the World Cafe community. Students gain experience with group facilitation, meeting design, strategic questioning, harvesting collective intelligence, graphic recording, intergenerational collaboration, and participatory action-research. Enrollment limited to 24. (General Education Code(s): PR-E.) D. SHAW

72. Collaborative Learning: The Great Turning (2 credits). *

Collaborative learning in service of transitioning from industrial growth society to a life-sustaining society. Students deepen their connection with nature, themselves, and community through guest lectures, intergenerational dialogue to discover collective and wise action, and engagement with long-term projects. (General Education Code(s): PR-E.) D. SHAW

73. Collaborative Learning: Sustainable Communities (2 credits). *

Collaborative learning in service of building thriving, just, and sustainable communities locally and globally. Learn about Ecovillages and reclaiming the commons while also discovering collective and wise action through guest lectures,

intergenerational dialogue, and engagement with long-term projects. (General Education Code(s): PR-E.) D. SHAW

74. Collaborative Learning: Permaculture Skills (2 credits). *

Collaborative learning in service of fostering community resilience in response to peak oil. Practice hands-on skills with permaculture and transition towns while also discovering collective and wise action through guest lectures, intergenerational dialogue, and engagement with long-term projects. (General Education Code(s): PR-E.) D. SHAW

75. Sustainable Food Systems. *

Introduces students to fundamental food-system issues and opportunities. Topics include: hunger, environmental sustainability, race and gender, food and agricultural policy, local food systems, gardening and farming models, social movements, and approaches for analysis and change. Enrollment limited to 55. THE STAFF

76. Social Documentary Photography. *

History of social documentary photography with its practice. Includes analysis of historical and contemporary images from social documentary work; camera, darkroom, and digital skill development; an individual student documentary project; and collective project discussion. Enrollment restricted to Kresge College members. Enrollment limited to 20. THE STAFF

77. Food Memoir (2 credits). *

Workshop in writing memoir that connects to issues of multiculturalism, gender, and environment. Designed to hone skills in creative writing through stories that students will unify into a larger memoir. Enrollment restricted to Kresge and College Eight members or by permission of instructor. THE STAFF

80A. Introduction to University Discourse: Power and Representation. F

Explores rhetorical principles and

Kresge College

conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Explores relationships between individuals and their communities-- communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres-- critical theory, film, art, fiction, non-fiction, and theater. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. (General Education Code(s): C1.) THE STAFF

80B. Rhetoric and Inquiry: Power and Representation. F

Explores the intersections of investigations, interpretation, and persuasion, and hones strategies for writing and research. Explores relationships between individuals and their communities-- communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres-- critical theory, film, art, fiction, non-fiction, and theater. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. (General Education Code(s): C2.) THE STAFF

80C. Introduction to University Discourse: Power and Representation--Writing Intensive 1. F

Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Explores relationships between individuals and their communities--

communities as small as families and friends, colleges, and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres-- critical theory, film, art, fiction, non-fiction, and theater. More writing intensive than course 80A; prerequisite to course 80D. Enrollment restricted to first-year college members who have not satisfied the Entry Level Writing and C1 requirement and who scored a 5 or lower on the AWPE (Analytical Writing and Placement Exam). Enrollment limited to 22. THE STAFF

80D. Introduction to University Discourse: Power and Representation--Writing Intensive 2. W

Continues to provide practice in analytical writing, critical reading, and speaking, and to examine power and representation issues. Pre-requisite(s): Course 80C. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 22. (General Education Code(s): C1.) THE STAFF

80F. Power and Representation: Collaborative Understandings (2 credits). F

Examines issues of representation and power in a cultural perspective through readings, lecture/events, discussion, and collaborative learning responses in class, culminating in a group project resulting in a performance/film/exhibit or other creative expression. Enrollment is restricted to first-year Kresge students who have been placed in the Multilingual Curriculum. Enrollment limited to 25. THE STAFF

80H. Reading Chinese Paintings. *

Introduces significant currents in Chinese cultural history and their visual expression through close examination of selected paintings. Readings focus on a rich variety of primary sources in translation.

Course intended for honors students by permission of instructor. Enrollment limited to 20. THE STAFF

80T. Power and Representation (Kresge Core Course for Transfer Students). *

Explores the intersections of investigations, interpretation, and persuasion, and hones strategies for writing and research. Explores relationships between individuals and their communities-- communities as small as families and friends, colleges and cities; communities as large as nations and the world. Examines ways we constitute ourselves as individuals in relation to communities, focusing on representations of class, ethnicity, sexual orientation, gender, and race in several genres--critical theory, film, art, fiction, non-fiction, and theater. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior college members. THE STAFF

90A. First Fifty: UCSC Playful Revolutions. *

Archival research, oral histories, and personal narratives form devised performance for the 50th year of UCSC. Research, visual theater, and performance studies approaches create a processional performance of campus histories from ethnic struggle, to feminism, AIDS activism, and eco-consciousness. Enrollment is restricted to first-year, Challenge Program participants from Stevenson College, Merrill College, Porter College, and Kresge College. (General Education Code(s): PR-C.) M. FOLEY

90C. Collaborative Approaches to Research. *

Critical engagement of current research methodology in the humanities and arts. Coursework consists primarily of a collaborative research project that requires each student to synthesize information and sources in topics both familiar and unfamiliar. The specific methodologies presented vary by

Kresge College

instructor across two to three disciplines, possibly including literature, history, the arts, and cultural studies. Enrollment is restricted to first-year Challenge Program participants from Stevenson College, Merrill College, Porter College, and Kresge College. Enrollment limited to 25. (General Education Code(s): PR-E.) THE STAFF

91F. Challenge Speakers Colloquium (2 credits). *

Eight lectures, six by faculty about research problems in their disciplines. Students attend two dinners with the speakers; respond to research papers in each speaker's field; conduct a research interview with a professor; and investigate a research question. (Also offered as Porter College 91F. Students cannot receive credit for both courses.) Prerequisite(s): course 90C, or Merrill 90, or Porter 90B, or Stevenson 90. Enrollment restricted to college members. THE STAFF

99. Tutorial. F,W,S

A program of directed study arranged between a first-year or sophomore student and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Independent Study (2 credits). F,W,S

A program of directed study arranged between a student and a Kresge faculty member. Class time is less proportional to credit given. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99G. Independent Study (3 credits). F,W,S

A program of directed study arranged between a student and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

161. Permaculture and Whole Systems Design. *

Focuses on concepts, principles, and

practices of permaculture and whole systems design. Permaculture education is transdisciplinary and provides practical experience with design, ecological horticulture, regional planning, natural building, architecture, appropriate technology, aquaponics, animal husbandry, ecopsychology, and community resilience. Enrollment by application. Enrollment limited to 23. May be repeated for credit. (General Education Code(s): PE-E.) D. SHAW

171. Kresge Challenge Seminar. *

For first-year students, by invitation only. This class is part of the Challenge Program which provides high-achieving students with the opportunity to participate in a rigorous program emphasizing individual attention and dynamic interaction with UCSC faculty and academically motivated peers in classes, social settings, and collaborative research projects. Enrollment restricted to Kresge, Merrill, and Stevenson students enrolled in the College Challenge Programs. Enrollment limited to 25. (General Education Code(s): TA.) THE STAFF

172. Collaborative Learning: The Great Turning. *

Collaborative learning in service of transitioning from industrial growth society to a life-sustaining society. Students deepen their connection with nature, themselves, and community through guest lectures, intergenerational dialogue to discover collective and wise action, and engagement with long-term projects. Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): PR-E.) D. SHAW

173. Collaborative Learning: Sustainable Communities. *

Collaborative learning in service of building thriving, just, and sustainable communities locally and globally. Learn about Ecovillages and reclaiming the commons while also discovering collective and wise action through guest lectures, intergenerational dialogue, and engagement with long-term

projects. Enrollment is restricted to sophomores, juniors, and seniors. (General Education Code(s): PR-E.) D. SHAW

174. Collaborative Learning: Permaculture Skills. *

Collaborative learning in service of fostering community resilience in response to peak oil. Practice hands-on skills with permaculture and transition towns while also discovering collective and wise action through guest lectures, intergenerational dialogue, and engagement with long-term projects. Enrollment is restricted to sophomores, juniors, and seniors. (General Education Code(s): PR-E.) D. SHAW

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under Kresge faculty supervision. (See course 42.) Prerequisite(s): upper-division standing in Kresge, a proposal supported by a Kresge faculty member willing to supervise, and college approval. THE STAFF

193. Field Study. F,W,S

Supervised off-campus study conducted under the immediate and direct guidance of a Kresge faculty supervisor. To be used primarily by upper-division students doing part-time, off-campus study. Prerequisite(s): approval of student's adviser and the college. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a Kresge faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195. Senior Thesis. F,W,S

Senior thesis or project for student doing individual major program. May be repeated twice for credit. Prerequisite(s): permission of sponsoring committee and college approval. THE STAFF

198. Independent Field Study. F,W,S

Provides for college-sponsored

Kresge College

individual study programs off campus, for which Kresge faculty supervision is not in person (e.g., supervision is by correspondence.)
Prerequisite(s): approval of the student's faculty sponsor and

college approval. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

A program of individual study arranged between an upper-division student and a Kresge

faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

LANGUAGES AND APPLIED LINGUISTICS

2017-18 General Catalog

Department of Languages and Applied Linguistics
218 Cowell College
(831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

The Department of Languages and Applied Linguistics offers rigorous training by professional instructors. Most courses are taught in the target language from the very beginning. Currently, we offer courses in Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Punjabi, Russian, Spanish, Spanish for Heritage speakers, and Yiddish.

Students with previous language preparation who wish to continue in that language take a placement examination to determine the course level appropriate for them. Each language's placement examination format is described in the quarterly Schedule of Classes, along with the time, date, and location of the examination.

Our upper-division courses further expand students' understanding of language in its social contexts, focusing on linguistic, historical, literary, sociological and cultural issues, among others.

In addition, the department also offers courses in applied linguistics that are taught in English and geared toward students interested in topics such as language and gender, second-language teaching, bilingualism, discourse analysis, and intercultural communication. These courses fulfill requirements toward the bachelor of arts degree in applied linguistics and multilingualism, a major designed for students who wish to pursue the study of a particular language, and at the same time, gain an in-depth understanding of language use in bilingual and multilingual settings.

The Department of Languages and Applied Linguistics also houses the Spanish studies, an interdisciplinary major that promotes advanced linguistic proficiency in Spanish as well as a broad understanding of the historical and cultural developments of the Spanish-speaking world.

Students may also use language courses for the following majors and minors that have a language requirement: classical studies, East Asian studies, German studies, global economics, human biology, Italian studies, Jewish studies, Latin American and Latino studies, linguistics, language studies, and literature.

Students of language interested in theater have the opportunity to participate in the annual International Playhouse, which presents highly successful programs every spring. To date, pieces have been performed in Chinese, French, German, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, and Spanish.

Study abroad is an important component of language study at UCSC. Language students have various opportunities to study abroad, for a summer, quarter, semester, or year. Students may choose to study abroad through the Office of International Education (OIE), through the UCSC Summer Abroad Program, or through affiliate programs around the globe. OIE offers programs in Argentina, Australia, Barbados, Botswana, Brazil, Canada, Chile, China, Costa Rica, Denmark, Egypt, France, Germany, Ghana, Hong Kong, India, Ireland, Israel, Italy, Japan, Korea, Mexico, Netherlands, New Zealand, Russia, Singapore, South Africa, Spain, Sweden, Taiwan, Tanzania, Thailand, Turkey, United Kingdom, and Vietnam. There are programs available for students of all levels of language ability, including Language and Culture programs for beginner or intermediate speakers, to full immersion programs for students with advanced language skills. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>.

LANGUAGE AND APPLIED LINGUISTICS FACULTY AND PROFESSIONAL INTERESTS

APPLIED LINGUISTICS

Zsuzsanna Abrams

Applied linguistics, language pedagogy, second

language acquisition, intercultural communication, discourse analysis, computer-mediated communication

Mark Amengual

Bilingualism and language contact, acoustic phonetics,

Language and Applied Linguistics

sociophonetics, second-language acquisition, language variation and change, Spanish and Romance linguistics

Bryan Donaldson

Word order variation in second-language French, medieval French and medieval Occitan through the lens of information structure, discourse analysis, and sociolinguistics

Olga Martinez-Guerrero

Donald P. Miller

Corpus linguistics, L2 academic literacy—particularly academic vocabulary—development, corpus-informed EAP materials and curriculum development and pedagogy

Shigeko Okamoto

Sociolinguistics, discourse analysis, pragmatics, language and gender, foreign language pedagogy, Japanese linguistics

Eve Zyzik

Second language acquisition, heritage languages, Spanish linguistics, cognitive and usage-based theory, language pedagogy, content-based instruction

ACADEMIC ENGLISH

Donald P. Miller

Corpus linguistics, L2 academic literacy—particularly academic vocabulary—development, corpus-informed EAP materials and curriculum development and pedagogy

CHINESE

David Keenan

Chinese language, fiction, and history

Ting Ting Wu

Sociolinguistics, Chinese novels, learning styles and teaching methodology for non-heritage speakers

FRENCH

Renée Cailloux

French culture and society, French literature (19th and 20th centuries), French fantastic literature (19th and 20th centuries), French fantastic literature (19th century), business French, Francophonie, stylistics

Bryan Donaldson

Word order variation in second-language French, medieval French and medieval Occitan through the lens of information structure, discourse analysis, and sociolinguistics

Greta Hutchison

Foreign language pedagogy, second language acquisition, 20th-century French history and civilization, medieval French literature, 19th-century literature and art

GERMAN

Zsuzsanna Abrams

Applied linguistics, language pedagogy, second language acquisition, intercultural communication, discourse analysis, computer-mediated communication

ITALIAN

Giulia Centineo

Italian culture and civilization; history of Italian language; Italian linguistics, syntax, and semantics; language pedagogy; Italian cinema; dubbing; Italian migrations

Tonia Prencipe

Technology and foreign language pedagogy; modern Italian culture, history, literature, and cinema; creative writing; promotion of Italian language and culture of K-12

JAPANESE

Mariko Bohn

Sociolinguistics, language and gender, bilingualism, modern Japanese literature, language pedagogy

Sakae Fujita

Foreign language education, drama in education

Shigeko Okamoto

Sociolinguistics, discourse analysis, pragmatics, language and gender, foreign language pedagogy, Japanese linguistics

PORTUGUESE

Ana Maria Seara

Portuguese language; literature, film, and music of Brazil and the Portuguese-speaking world; acquisition and teaching of foreign, second, and heritage languages

SPANISH AND SPANISH FOR SPANISH SPEAKERS

Mark Amengual

Bilingualism and language contact; acoustic phonetics; sociophonetics; L2 acquisition; language variation and change; Spanish and Romance linguistics

Byron Barahona

Language acquisition and teaching methodology, Latin American literature and culture

María Victoria González-Pagani

Language teaching methodology; Spanish syntax; computer-assisted foreign language learning; Latin American cultural studies, especially women's contributions

Olga Martinez-Guerrero

Marta Navarro

Spanish language pedagogy for heritage speakers and non-native speakers; theatre; Mexican popular culture

Ariel A. Pérez

Language acquisition and teaching methodology,

Language and Applied Linguistics

computer-assisted language learning, teaching language for proficiency, oral proficiency assessment; Latin American current affairs

Alvaro Romero-Marco

Spanish literature of the 19th- and 20th-centuries; film, cultural studies

Eve Zyzik

Second language acquisition, heritage languages, Spanish linguistics, cognitive and usage-based theory, language pedagogy, content-based instruction

LANGUAGES COURSE DESCRIPTIONS

LOWER-DIVISION COURSES

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

210. Oral Communication in the U.S. Classroom: Strategies for International T.A.s (2 credits). F

Seminar for international graduate students who speak English as a second or foreign language. Focuses on oral competency and serves to qualify students as graduate teaching assistants in UCSC classrooms or laboratories. Enrollment restricted to international graduate students; language assessment administered by the Graduate Division. THE STAFF

LANGUAGES AND APPLIED LINGUISTICS COURSE DESCRIPTIONS

LOWER-DIVISION COURSES

80. Introduction to Applied Linguistics. F

Introduces the field of applied linguistics, learning about language acquisition, use, and teaching in multilingual contexts from multiple disciplinary perspectives. Also, introduces research models that examine psycholinguistic, sociolinguistic, and/or educational aspects of multilingualism..

Enrollment limited to 40. (General Education Code(s): PE-H.) THE STAFF, S. OKAMOTO, M. AMENGUAL, Z. ABRAMS, B. DONALDSON, E. ZYZIK

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

101. Second-Language Acquisition. W

Introduces the field of second-language acquisition. Topics include contexts of acquisition, the impact of individual differences, and basic methods of data collection and analysis. Prerequisite(s): course 80 or linguistics 50. Enrollment limited to 40. THE STAFF, E. ZYZIK, D. MILLER, B. DONALDSON, M. AMENGUAL, Z. ABRAMS

102. Bilingualism. F

An overview of bilingualism. Focuses on bilingualism as an individual phenomenon (i.e., how two languages develop and are represented in the minds of individual speakers), and as a social one (i.e., how do bilinguals interact in a community and how does this context of language contact shape their linguistic identity). Prerequisite(s): course 80 or linguistics 50. Enrollment limited to 40. THE STAFF, M. AMENGUAL, E. ZYZIK

112. Language and Gender. W

Examines the relationship between language and gender. Topics include: gender differences in speech; linguistic gender norms and

stereotypes; gender and the construction of identity in discourse; sexuality and language; sexism in language; social, educational, and political implications. (Formerly Languages 112.) S. OKAMOTO, THE STAFF

113. Inter-Cultural Communication. F

Examines intercultural communication and miscommunication between individuals and speech communities, both within North American and global contexts. Through discourse and analytic approaches, students explore cultural stereotypes and interactional expectations, among other issues, that influence the outcome of intercultural communication. (Formerly Languages 113, Cross-Cultural Communication and Miscommunication.) Enrollment restricted to juniors and seniors. Enrollment limited to 25. (General Education Code(s): CC.) Z. ABRAMS, THE STAFF

115. Language and Power. *

Examines the relationship between language and power. Explores the

Language and Applied Linguistics

ways in which national languages, regional and social dialects, and specific phonological morpho-syntactic, or lexical features come to be associated with particular social meanings and contribute to creating social inequality. Prerequisite(s): course 80. Enrollment is restricted to sophomores, juniors, and seniors. Enrollment limited to 25. THE STAFF, Z. ABRAMS, S. OKAMOTO

116. Discourse Analysis:

Language Use and Context. *

Familiarizes students with the methods and theoretical assumptions behind discourse analytic approaches to the study of language. Examines language used in specific contexts. Topics include: genres, registers; discourse organization; discourse grammar; interaction; conversation; pragmatics; and social practice. Prerequisite(s): Linguistics 50 or by consent of the instructor. Enrollment restricted to juniors and seniors. B. DONALDSON, THE STAFF

135. Second Language Teaching. S

Introduces the theories of second-

language acquisition and their connection to second-language teaching. Students develop cutting-edge teaching and testing materials, and engage with current scholarship on language instruction. Prerequisite(s): at least one year of college-level study of a foreign language, or its equivalent. Enrollment restricted to juniors and seniors, and by permission of instructor. Students cannot receive credit for this course and course 235. Enrollment limited to 20. E. ZYLIK, D. MILLER, Z. ABRAMS

190. Research Seminar in Applied Linguistics. S

Prepares students to conduct research in applied linguistics. Students evaluate published studies that represent both quantitative and qualitative methods. Prerequisite(s): courses 80 and 101; satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to seniors. S. OKAMOTO, E. ZYLIK, M. AMENGUAL, B. DONALDSON, Z. ABRAMS

199. Tutorial. F,W,S

Students submit petition to

sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

235. Second Language Teaching. S

Helps novice instructors learn about the theory and practice of language teaching and learning. Focuses on current methods used in communicatively oriented classrooms. Topics include: listening comprehension, grammar, vocabulary, reading, writing, and testing/assessment. Students cannot receive credit for this course and course 135. (Formerly Language Studies 201.) Enrollment restricted to graduate students. Enrollment limited to 20. THE STAFF, Z. ABRAMS, E. ZYLIK

* Not offered in 2017-18

LANGUAGE STUDIES

2017-18 General Catalog

Linguistics Department
241 and 243 Stevenson College
(831) 459-4988
<http://linguistics.ucsc.edu>

PROGRAM DESCRIPTION

Language studies is an interdisciplinary major offered by the Linguistics Department. It is designed to equip students with competence in a foreign language and, at the same time, provide them with an understanding of the general nature of human language—its structure and use. Currently, majors may choose a concentration in Chinese, French, German, Italian, Japanese, or Spanish. Interested students should contact the Linguistics Department office early in their college career to obtain essential information about requirements.

PROGRAM LEARNING OUTCOMES

The program learning outcomes for this major are the following: (1) ability to write clearly and articulately; (2) understanding of the general properties of language; (3) exposure to linguistic theory and linguistic investigation; and (4) proficiency in a language other than English.

REQUIREMENTS OF THE LANGUAGE STUDIES MAJOR

EARLY DECLARATION

Prospective students should declare the major as early as possible so that they can complete the language, linguistics, and context requirements within the allowed period of enrollment.

Students who wish to include a study abroad experience in their course of study will have to coordinate their choice of time abroad with the scheduling of UCSC courses. Transfer students who have not made significant progress with the language requirements before entering UCSC may find it difficult to include a time abroad before completion of graduation requirements.

QUALIFICATION POLICY FOR THE LANGUAGE STUDIES MAJOR

The Linguistics Department has adopted a major qualification policy for linguistics and language studies majors that is intended to encourage students to take their performance in the gateway courses seriously and to help them lay a solid foundation for further coursework in the major.

In order to declare the linguistics or language studies major, a student must pass each of the two gateway courses—Linguistics 50, Introduction to Linguistics; **and** Linguistics 53, Semantics I—with a grade of C+ or better.

Students who are informed that they are not eligible to declare the major may appeal the decision within 15 days from the date the notification was mailed. They should do this by submitting a formal letter, addressed to the department's undergraduate program director, to the Linguistics Department office (Stevenson 241 and 243). This letter should explain any extenuating circumstances that influenced performance in the gateway courses. Within 15 days of receipt of the appeal, the department will notify the student, the student's college, and the Office of the Registrar of the decision.

REQUIREMENTS

Language studies majors must satisfy course requirements in languages, linguistics, and cultural context.

Language component: Language studies majors must achieve a level equivalent to six quarters in the language of concentration. Additionally, one advanced language course after level 6 is required for students concentrating in French, German, Italian, or Spanish. Majors in Chinese and Japanese take two advanced language courses after level 6.

Linguistics component. The major requires four named courses in linguistics:

50, Introduction to Linguistics

53, Semantics 1

101, Phonology 1

111, Syntactic Structures; or 112, Syntax 1

and two upper-division linguistics courses.

Cultural context or linguistics component. The major also requires five upper-division elective courses in linguistics or the cultural context of the language of concentration. Linguistics courses include any upper-division course offered by the Linguistics Department. Cultural context courses are to be selected from disciplines such as literature, history, and politics,

Language Studies

subject to departmental approval. These courses are related to the language of concentration.

Senior exit requirement. In their senior year, language studies majors must satisfy the senior exit requirement in one of two ways:

Option 1. Successful completion of a capstone course—an appropriate upper-division linguistics course. Students must have senior standing and must have completed Linguistics 53, Semantics I; 101, Phonology I; **and** 111, Syntactic Structures or 112, Syntax I. This course can be one of the two linguistics electives required for the major.

Option 2. Senior thesis supervised by a faculty member. The proposal for a senior thesis must be submitted for approval by the department faculty at least three quarters prior to the quarter of graduation. Students enroll in Linguistics 195, Senior Thesis, with the approval of the faculty adviser. The senior thesis is an original investigation of the major language in some relevant way, such as the linguistic structure or history of the language or its historical, literary, cultural, sociological, ethnographic, or political context.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in language studies is satisfied by completing courses 101 and either 111 or 112.

REQUIREMENTS OF THE MINOR

The minor requires completion of six quarters of language study, or demonstration of an equivalent level

of ability, and eight additional linguistics and cultural context courses as follows:

- 50, Introduction to Linguistics
- 101, Phonology I
- 111, Syntactic Structures; or 112, Syntax I
- Two upper-division linguistics courses
- Three electives in linguistics or in the cultural context of the language of concentration, to be selected from disciplines such as literature, history, and politics, subject to departmental approval. One of the courses taken must have a prerequisite of Level 6 in the student's designated language.

There is no senior exit requirement for the minor.

HONORS

Students who wish to be considered for honors should meet the deadline posted by the Office of the Registrar for declaring the intent to graduate. Determination of honors is based on the student's grades and narrative evaluations for all courses relevant to the major and other factors relevant to an assessment of academic excellence, such as research papers of professional quality. Generally, honors in the major are awarded only to the top 10 percent of those graduating in the major. Only those students whose performance in coursework is excellent will qualify. Highest honors are rarely awarded, and then only to students whose performance in coursework is outstanding and who have completed an outstanding senior thesis.

Revised: 09/01/17

LATIN

2017-18 General Catalog

History Department
 201 Humanities
 (831) 459-2982
<http://history.ucsc.edu/>

PROGRAM DESCRIPTION

The History Department offers instruction in elementary Latin. It consists of a two-course sequence, Latin 1 and Latin 2, that begins in the fall quarter only. Students interested in Latin literature should see the course listings under Literature. Those interested in classical studies should see the program description for classical studies.

CAMPUS LANGUAGE LABORATORIES AND PLACEMENT EXAMS

No placement exam is required for entry into Latin 1. Contact the History Department for more information about these topics.

LATIN FACULTY AND PROFESSIONAL INTERESTS

Karen Bassi (Literature)

Greek and Latin literatures; gender; literary and cultural theory; pre- and early modern studies; tragedy; historiography; visual and performance studies; death studies

Mary-Kay Gamel (Literature), Emerita

Gildas Hamel (History), Emeritus

Charles W. Hedrick Jr. (History)

Greek and Roman history

John P. Lynch (Literature), Emeritus

Jennifer Lynn (History)

Later Roman Republic and Principate; Homeric epic; Hellenistic and Augustan poetry; women in the ancient world

Daniel Selden (Literature)

Afroasiatic languages and literatures, Greek and Latin, Hellenistic culture, the classical tradition, history of criticism, literary theory

LATIN COURSES

LOWER-DIVISION COURSES

1. Elementary Latin. F

Instruction in Latin grammar, using a modern Latin method, designed to prepare for the study of classical literature. The sequence begins in

the fall quarter only. THE STAFF

2. Elementary Latin. W

Instruction in Latin grammar, using a modern Latin method, designed to prepare for the study of classical literature. Prerequisite(s): course 1. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. THE STAFF

LATIN AMERICAN AND LATINO STUDIES

2017-18 General Catalog

32 Merrill College
(831) 459-4284
<http://lals.ucsc.edu>

PROGRAM DESCRIPTION

The Latin American and Latino Studies (LALS) Department prepares students for bilingual and multicultural participation in a rapidly changing and globalized world. As currently established at UCSC, this inherently interdisciplinary field draws from sociology, history, anthropology, political science, media studies, communications, cultural studies, ethnic studies, economics, environmental studies, and literature. LALS investigates the historical, economic, social, and cultural processes that are shaping and transforming the Americas region. By viewing societies as interrelated—specifically U.S. Latino/a communities and Latin American/Caribbean communities—LALS analyzes how local, regional, global, and transnational dimensions affect histories, politics, and cultures.

LALS courses support four department areas of emphasis: (1) transnationalisms, migrations, and displacement; (2) intersectionality, identities, and inequalities; (3) collective action, social movements, and social change; and (4) culture, power, and knowledge.

1. **Transnationalisms, Migrations, and Displacement.** This area of emphasis focuses on the analytical concepts of transnationalisms, migrations, and displacement. Transnationalisms is a concept that refers to the myriad cross-border cultural, social, economic, and political flows that link Latin American and Latina/o communities across the Américas. Migrations capture the south-north, south-south, international and intranational mobility of peoples, communities, cultures, and ideas. Displacement reminds us that population movements are often forced, and linked to processes of social, economic, cultural, legal, and/or political coercion. Informed by a set of human rights standards that have been constitutive in the formation of Latin American and Latina/o communities—freedom of movement on the one hand, and the right to not migrate on the other—courses in this area of emphasis will help students understand the dynamic social cartographies of the Américas and beyond.
2. **Intersectionality, Identities, and Inequalities.** As an analytic and theory informed by feminist and ethnic studies scholarship, intersectionality is the primary conceptual and theoretical framework in this area of emphasis. Research foregrounding the

Américas region underscores how structural inequalities at multiple levels (local, national, regional, transnational, and global) shape the identities and experiences of groups and individuals. Of particular interest in this area are the ways in which various regimes, from colonial to post-neoliberal, have informed identities and inequalities, and how their subjects—namely, slaves, workers, migrants, women, youth, and racialized groups (to list just a handful)—have negotiated and contested these interlocking systems. Courses in this area seek to illuminate the inter-connected dimensions of identity categories (e.g., race, ethnicity, nationality, socio-economic status, gender, sexuality, ability, age) as well as the mutually related structures of inequalities that rely upon and reproduce these intersecting categories.

3. **Collective Action, Social Movements, and Social Change.** This area of emphasis explores how communities come together to influence political, cultural, economic, and social structures and institutions. It draws attention to the significance of grassroots activism, political/civic engagement, and social change projects at local, national, regional, and international levels, as well as the transnational dynamics that link diverse social movements across the Américas. The development and deployment of politicized collective identities, the structural conditions that enable and constrain social movement mobilization, the cultural and political influences on social movements' strategic choices, and the ways that governments and other institutional actors respond to movements and their demands are illuminated by transnational and comparative approaches. Further, by covering a wide variety of contemporary and historical struggles—feminist, labor, indigenous, youth, immigrant rights, land reform, ecological, decolonial, human rights, revolutionary movements, and many others—courses in this area of emphasis highlight the impetus for social change in the region.
4. **Culture, Power, and Knowledge.** This area of emphasis focuses on the analysis of contested symbols, meanings, aesthetics, and representations. It interrogates the relationship between asymmetries of power, definitions of culture, markers of difference, and the construction of

Latin American and Latino Studies

knowledge claims. “Culture, Power, and Knowledge” places emphasis on how these key words and ideas are historically located, produced, mediated, contested, and made accessible through various technologies and to multiple publics. It examines the role of power in shaping the construction, circulation, and commercialization of various cultural expressions, media images, and forms of knowledge; and how these constitute viable political subjectivities and social imaginaries. Courses in this area focus on the politics of representation and the tensions and re-articulations of cultural work and claims to authenticity, while connecting theoretical approaches to broader social, political, historical, and contemporary transformations in the Américas.

In addition to academic knowledge, LALS supports and encourages students to pursue opportunities to acquire practical, real-world skills. Through prospective internships and field-study experiences, students can acquire useful, pre-professional skills in key areas, such as community development/advocacy, public policy, education, legal services, and research/writing.

Graduates of the LALS major have forged careers in a wide variety of fields, including teaching, community organizing, community and government service, journalism and the media, environmental science, global economics, health care, legal services, library science, music, publishing, and research. Many have gone on to pursue advanced degrees in the U.S. or abroad in fields such as anthropology, bilingual education, media, communications, cultural studies, ecology, economics, geography, history, law, literature, educational counseling, public health, and sociology.

PROGRAM LEARNING OBJECTIVES

We expect that all graduating LALS seniors will have gained proficiency or competency in the following five areas: critical thinking, research methods, communication, language, and lifelong learning skills.

1. **Critical Thinking.** Ability to analyze from a transnational/transborder/translocal perspective—to see the interconnections between Latin American and Latino issues, people, ideas, problems and solutions. This includes key skills, such as understanding sources, comparing arguments, analysis, and historical perspective.
2. **Research Methods.** Working knowledge of social scientific and/or humanistic approaches to LALS relevant topics. This includes key skills, such as acquiring quantitative skills, gathering or obtaining research data, finding/using primary sources, qualitative research, other research methods.
3. **Communication.** Key communication skills, including written, oral presentation, and digital, including an understanding of media sources and

ability to apply media literacy to cross-cultural analysis.

4. **Language.** Fluency in English, Spanish, and/or Portuguese.
5. **Lifelong Learning Skills.** Acquisition of practical hands-on skills in community engagement, cross-cultural fluency, familiarity with Latin America, and familiarity with Latino experience acquired through experiential learning working with community and civic organizations.

DECLARATION OF THE MAJOR

Students need to complete LALS 1, Introduction to Latin American and Latino Studies, and/or one additional lower-division Latin American and Latino Studies course prior to declaring the major. A junior transfer student may petition the department to satisfy the lower-division requirements with equivalent courses from a qualified institution. These courses must appear on the UCSC Transfer Credit Summary. See the LALS department for more information.

REQUIREMENTS OF THE MAJOR

A minimum of 11 courses is required for the major.

TWO LOWER-DIVISION LALS COURSES

All students are required to take LALS 1, Introduction to Latin American and Latino Studies, and one additional lower-division Latin American and Latino studies course. These courses are normally taken during the student’s first year. In addition, all majors must complete 9 upper-division courses, including three required core courses, (no substitutions).

THREE UPPER-DIVISION CORE COURSES

100 Concepts and Theories in Latin American and Latina/o Studies

100A Social Science Analytics

100B Cultural Theory in the Americas

Six Upper-Division Courses

These courses must fulfill the following requirements:

- Three LALS courses from one area of emphasis (described below)
- Two additional LALS upper-division courses
- One LALS course satisfying the senior comprehensive requirement (described below)
- Two of these upper-division courses must be taken in Spanish or Portuguese*

The four areas of emphasis for upper-division courses are:

- Transnationalisms, Migrations, and Displacement
- Intersectionality, Identities, and Inequalities

Latin American and Latino Studies

- Collective Action, Social Movements, and Social Change
- Culture, Power, and Knowledge

*In addition to courses offered at UCSC, students may fulfill the language requirement through an appropriate course taken while participating in a study abroad program.

SENIOR COMPREHENSIVE REQUIREMENT

Every major must complete a senior exit requirement in order to graduate. The preparation and completion of this requirement is structured into the senior year.

One upper-division course chosen from the following four options.

1. Passing a Latin American and Latino Studies senior seminar (194 series). In these courses, students must write at least 30 pages cumulatively during the quarter. The final paper is based on independent scholarly research, demonstrates advanced skills in critical analysis, and has undergone revisions. Senior standing and completion of LALS 100A and 100B are required before taking a LALS 194 course for fulfillment of the senior exit requirement.
2. An expanded research paper, a minimum of 20 pages in length. This paper often builds on related course work and requires approval from the relevant faculty adviser before the end of the winter quarter of the senior year. Students must be enrolled in an independent study tutorial to complete this paper.
3. A senior thesis, generally between 40–60 pages, based on two or more quarters of sustained independent research under the supervision of the faculty adviser while enrolled in an independent study (done by petition to LALS, and with the approval of the faculty adviser). If the thesis option is selected by a combined major, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member is affiliated with both departments. This option is recommended for those students seeking to enter graduate school.
4. A senior project, which can be either a creative project or a community-action project. Creative projects include website design, video, performance, slide show, photo exhibit, or other media work. A short written analysis of the student's experience in conducting the project is required. Community-action projects often involve sustained research and/or activity conducted in a community organization or public interest group, usually stemming from an internship. The required, short, written analysis has to be 10 pages minimum.

Note: Some combined majors have fewer options for exit requirements (see below).

LANGUAGE REQUIREMENTS

All Latin American and Latino studies majors are expected to learn to speak, read, and write Spanish or Portuguese and to make use of these skills on a regular basis in their upper-division academic work.

Majors must take at least two upper-division courses taught in Spanish or Portuguese.* Before taking upper-division coursework taught in the language, students must demonstrate proficiency in Spanish equivalent to the completion of Spanish 6 or Spanish for Heritage Speakers 6. Students who wish to pursue Portuguese may take the Portuguese 1A/1B or 60A/60B series.

Students who have achieved fluency in Spanish or Portuguese through life experience may be exempt from this recommended preparatory coursework after demonstration of their proficiency. In addition to Latin American and Latino studies and affiliated department course offerings, the required two upper-division courses taught in Spanish or Portuguese* may be fulfilled through study abroad with approval by the LALS Department. Students may also pursue internship or field study opportunities to satisfy one of the two required upper-division courses taught in Spanish or Portuguese; however, at least one of the two courses must be fulfilled in a classroom setting.

*In addition to courses offered at UCSC, students may fulfill the language requirement through an appropriate course taken while participating in a study abroad program.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in Latin American and Latino studies and the combined majors with politics, and sociology are met by completing courses 100A and 100B.

COURSE SUBSTITUTIONS AND TRANSFER CREDITS

A maximum of two courses are allowed for substitution of LALS major requirements. However, there are no substitutions allowed for LALS 01, 100, 100A and 100B. Courses from other institutions must appear in the student record on the UCSC Transfer Credit Summary. Students must consult with the student adviser regarding requests for course substitutions.

FIELD-STUDY AND INTERNSHIP OPPORTUNITIES

All majors are encouraged to undertake either a field study in Latin America, the Caribbean, a Latino/a

Latin American and Latino Studies

community in the U.S., or formal academic study abroad through the Education Abroad Program (EAP). These paths are the best ways to improve language skills, to explore the nature and direction of specific academic and career interests in relation to Latin American and Latino studies, and to deepen cross-cultural understanding and relationships.

Field studies are independent, community-based study projects for academic credit, done under faculty sponsorship and arranged on an individual basis. Local opportunities for internships and field study in Latino/a communities on California's Central Coast are numerous. Credit for up to three upper-division courses may be applied toward the major from field study; however, course credit from field study and study abroad combined may not exceed three upper-division courses. Students should check the Latin American and Latino Studies Department website for further information regarding the field-study process and course credit. A listing of local field-study programs and petition forms are available at the Latin American and Latino Studies Department office, 32 Merrill.

STUDY ABROAD

Students may study abroad through the University of California Education Abroad Program (UCEAP), through UC Summer and Quarter Abroad Programs, or through independent programs. UCEAP offers opportunities for students to study in Buenos Aires, Argentina; Mexico City, Mexico; Santiago, Chile; Salvador, Rio de Janeiro, Brazil; and Madrid, Córdoba, Granada, and Barcelona in Spain. In addition to language and culture and university immersion programs, UCEAP also offers a Field Research Program in Mexico, which is an experiential program geared toward juniors and seniors who want to explore the "real" Mexico outside the classroom and at the same time receive undergraduate research training. The program has research sites in states such as Chiapas, Yucatán, Oaxaca, and Michoacán (final site choice depends on the research topic). There is also a Leadership in Social Justice and Public Policy, Mexico City and Sacramento program. On this amazing program students study abroad in the capital of Mexico and then add a related internship in Sacramento to build the skills and confidence to take on any future professional challenge. Application deadlines are generally about one year in advance of the program, so students should visit Global Engagement early to plan for study abroad and to begin the application process. The department will consider by petition the approval of courses taken abroad, whether through UCEAP or through independent programs, that cover topics appropriate to the LALS curriculum for upper-division credit toward the major. All credit for UCEAP classes is fully incorporated into students' UCSC transcripts; students receive transfer credit for independent study abroad programs. Financial aid applies to all UCEAP programs and UC Summer and Quarter Abroad Programs and Independence Programs, which take into account

airfare and living costs in addition to tuition and fees. Before departure, students should present an academic plan for courses abroad to the department adviser for review. Credit for up to three UCEAP courses can be applied toward the major. (A maximum of three courses of field study and UCEAP combined can be applied toward the major requirements.)

LATIN AMERICAN AND LATINO STUDIES MAJOR PLANNERS

The following are two recommended academic plans for undertaking basic preparation for the Latin American and Latino studies major. Plan One is a guideline for students who commit to the major early in their academic career. Plan Two is for transfer students.

Plan One—Frosh			
Year	Fall	Winter	Spring
1st (frsh)	SPAN 1	SPAN 2	SPAN 3
	LALS 1	LALS lower-division	LALS lower-division
2nd (soph)	SPAN 4 or SPHS 4	SPAN 5 or SPHS 5	SPAN 6 or SPHS 6
	LALS 100	LALS 100A	LALS 100B
3rd (jr)	LALS upper-division course	LALS upper-division course	LALS upper-division course
4th (sr)	LALS upper-division course	LALS upper-division course	LALS 194 (Senior-Exit Requirement)

Plan Two—Junior Transfers			
Year	Fall	Winter	Spring
3rd (jr)	SPAN 4 or SPHS 4	SPAN 5 or SPHS 5	SPAN 6 or SPHS 6
	LALS 100	LALS 100A	LALS 100B
	LALS 1	LALS lower-division	LALS upper-division course
4th (sr)	LALS upper-division course	LALS upper-division course	LALS upper-division course
	LALS upper-division course	LALS upper-division course	LALS 194 (Senior-Exit Requirement)

COMBINED MAJORS

The combined major options, requiring fewer courses than a double major, are established with the politics and sociology departments.

LATIN AMERICAN AND LATINO STUDIES/POLITICS

Students are required to take a total of 12 courses and to satisfy a senior comprehensive requirement. For the combined major in Latin American and Latino studies/politics, students complete two lower-division course requirements, LALS 1 and one course from Politics 1-79. Transfer students may petition to substitute LALS 1 or one course from Politics 1-79 with appropriate coursework from another institution. The 10 upper-division courses include three core course from LALS (LALS 100, 100A and 100B), one from Politics (140C) and six upper-division electives, four from politics (three of which must be politics core courses from the 105, 120, 140, and 160 series) and two from LALS (one must be taught in Spanish or Portuguese*).

LATIN AMERICAN AND LATINO STUDIES/SOCIOLOGY

Students are required to take a total of 12 courses and to satisfy a senior comprehensive requirement. There are three lower-division course requirements, two from the Sociology Department chosen from Sociology 1, *Introduction to Sociology*; Sociology 10, *Issues and Problems in American Society*; or Sociology 15, *World Society*, or their equivalents, and one from Latin American and Latino Studies Department. The lower-division LALS course must be LALS 1; transfer students may petition to replace the LALS 1 with an appropriate course from another institution. Upper-division requirements include five core courses: LALS 100, 100A, 100B; Sociology 105A, and 105B; and four additional elective courses, two from sociology and two from Latin American and Latino studies. At least one of the Latin American and Latino studies upper-division courses must be taught in Spanish or Portuguese.* Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the major, when the content is deemed appropriate by the faculty advisers of both Sociology and Latin American and Latino studies. Students can satisfy the comprehensive requirement in one of two ways: (1) writing a senior thesis, (2) passing an appropriate LALS Senior Seminar (194 series). If the thesis option is selected, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers. See Sociology program statement on admission to the LALS/Sociology major.

** In addition to courses offered at UCSC, students may fulfill the language requirement through an appropriate

course taken while participating in a study abroad program.

HONORS IN THE MAJOR

The LALS faculty considers awarding honors in the major based on overall student academic performance in courses that count towards the major. To receive the strongest consideration for honors in the major the following grade point average (GPA) criteria must be met: highest honors, 4.0; honors, 3.7. Students with a 3.5–3.7 GPA in the major will also be considered, and a decision is made based on their grades in core courses and improvement over time. For combined majors, student work must be considered to be honors-level in both departments; the LALS faculty cannot award honors in the major unless the other department also confers honors.

LALS also awards honors for the thesis, creative or community action projects, or student taught seminars, by the recommendation of the faculty adviser. Note that a thesis and a creative/community project are the only senior exit requirement options that qualify for this distinct honors designation. Expanded papers and senior seminars do not qualify for a separate honors designation, but students who choose these options may still qualify for honors in the major.

MINOR REQUIREMENTS

The minor in Latin American and Latino studies consists of seven courses, including two LALS lower-division courses and five upper-division courses (including LALS 100 or LALS 100A or 100B and any other four upper-division courses that count towards the major). Knowledge of Spanish and/or Portuguese is highly recommended, but not required for the minor.

GRADUATE STUDIES

The Ph.D. program in Latin American and Latino Studies at UCSC offers an innovative transnational and interdisciplinary approach to the study of the peoples, cultures, societies and institutions of the Americas. The program is designed to educate students in this new field of study and train them to develop the conceptual and analytical skills necessary for understanding the dynamics of hemispheric change. This is the first doctoral program in Latin American and Latino Studies.

In preparing students for research and teaching at the university level, the department offers four thematic clusters in the emerging field of Latin American and Latino Studies: 1) transnational migrations within the Americas; 2) social inequalities; 3) cultural politics and cultural flows; and 4) collective action and social movements. Doctoral students specialize in one of these four substantive themes, as well as a focus area of their own design.

1. **Transnationalisms, Migrations, and Displacement.** While transnational migrations are

Latin American and Latino Studies

the subject of research in multiple disciplines, this program analyzes these transformative processes through an interdisciplinary lens. A transnational approach examines links between regions in the Americas, analyzing the social and historical foundations of economic dynamics such as remittances from the United States or the dollarization of Latin American countries. A transnational approach to the study of migratory processes explores the dynamics of bi-national communities, bilingualism and multilingualism, immigrant integration into host societies, and North-South exchanges of ideas and cultures.

2. **Intersectionality, Identities, and Inequalities.** This program's research in the Americas foregrounds the study of transnational social inequalities formed by power relations based on race, ethnicity, nationality, citizenship, class, territory, gender and/or sexuality. These social hierarchies are analyzed as institutions, historical processes, discourses, or symbols with multiple meanings, and are examined in terms of how they have been mobilized to build, transform, or challenge identities, communities, and social movements in local, national, and global contexts over time.
3. **Cultural, Power, and Knowledge.** Another distinctive area of inquiry in the Americas is the study of cultural politics and cultural flows that shape everyday life, institutions, social identities, discourses, meanings, and cultural forms and practices, in global, regional, and local contexts in an increasingly interconnected and integrated world. The transnational analysis of culture focuses on the ways in which cultural forces and cross-cultural communication and media are contributing to the formation of new transnational imaginaries, as well as how these cultural processes are transforming and redefining national and local cultures.
4. **Collective Action, Social Movements, and Social Change.** This area of research addresses collective action and social movements at local, national and international levels viewed through transnational lenses. As migrants engage in public life, both in their communities of residence and in their communities of origin, they construct diverse practices of political participation, including "civic binationality." These processes are crucial for understanding the largest wave of immigration in a century, including how migrants relate to US society.

The doctoral program provides rigorous training in both disciplinary and interdisciplinary approaches to the study of transnational processes that link the Americas. The program educates doctoral students in the theories and research methods based in disciplines of the social sciences and the humanities.

The deadline for applications to the doctoral program is December 15 in the preceding year. The program only accepts students for admission in fall quarter.

COURSEWORK REQUIREMENTS

The program requires a total of 12 courses with LALS Graduate Program Affiliated Faculty, including the definition of two areas of concentration. Of the required courses, up to three may be independent studies with LALS faculty. Of the 12 required courses, students may take up to five graduate courses offered in other departments and with approval from the graduate director.

Before advancement to candidacy, a full-time course load is two or three courses at the graduate level. The following are the course requirements:

LALS 200 Bridging Latin American and Latino Studies

LALS 200A Politics and Society

LALS 200B Culture and Society

LALS 201 Research in Praxis

Two methodology courses (taught in LALS or in a disciplinary department)

Six additional 5-credit courses leading to the definition of two areas of concentration, taken in consultation with the faculty adviser.

If students enroll in a graduate summer language course, the course will not count as part of the six additional required courses.

If a student enters with a master's degree from another university, they may petition to the graduate director to apply some of their graduate coursework toward the LALS graduate program requirements.

LANGUAGE REQUIREMENT

The program requires significant reading, writing and speaking abilities in both English and Spanish.

As per Graduate Division requirements, the secondary language requirement must be satisfied by the end of the third year, prior to Advancing to Candidacy. The secondary language requirement may be fulfilled by:

1. Departmental sit-down, Spanish-to-English translation examination

2. UCSC graduate courses in Spanish/Portuguese

a. Passing a 5-credit graduate seminar in LALS or other UCSC department, offered in secondary language during the academic year

b. Passing a UCSC Literature Department summer research language course

3. Summer immersion program, e.g. Berkeley, Cornell, or abroad. The program must have a scholarly and rigorous focus, the student must receive advance approval

Latin American and Latino Studies

from faculty adviser, and the student must submit to the graduate adviser a letter from the program attesting to their completion of the program and their satisfactory performance in the secondary language. We urge students who choose this option to organize their language training early in their graduate career.

4. Graduating from a university with primary instruction in Spanish/Portuguese.

Students will be required to include information regarding their plans for satisfying the secondary language requirement in their End-of-Year statements in the first and second years.

Students are required to demonstrate, by one of the methods listed above, their proficiency in a language other than English before the completion of the qualifying examination.

THE QUALIFYING EXAMINATION PROCESS

Doctoral students will be required to submit two qualifying essays, and a qualifying examination, as described below. A qualifying examination committee, composed of four faculty members, will approve both the scope of the field statements constituting the qualifying essays and the final written products, and conduct the oral examination. This committee must include at least two LALS faculty members (i.e. LALS core faculty and LALS Graduate Program Affiliates), and follow graduate division guidelines. The qualifying examination committee must be approved in advance by the Graduate Division. Students should take their examinations by spring of the third year.

The qualifying-examination process is discussed in detail in a meeting with the graduate program coordinator and graduate director as each graduate student cohort finishes the fall quarter of their second year.

1. **Qualifying Essays.** Students are required to complete two qualifying essays. The qualifying essay topics should address broad non-overlapping fields and review the literatures related to the proposed dissertation questions. Students should consult with their qualifying examination committee early in the process, regarding the appropriate scope and content of their essays.

One of the qualifying essays must focus on one of the department's four themes: transnational migrations and social displacement; intersectionality, identities and inequalities; collective action, social movements and social change; and culture, power, and knowledge. The qualifying essay should demonstrate command of the methodology relevant to the student's specialized research interests (e.g., ethnographic field methods, textual analysis, archival research methods, statistics, media analysis, and/or comparative methods) and include relevant texts in the second language. The committee chair must

approve these essays at least one month prior to the oral examination.

In addition, the essays must be accompanied by two proposed course syllabi for potential undergraduate courses.

2. **Qualifying Examination.** An oral examination will follow the approval of the qualifying essays.

After successfully completing the qualifying examination, students are expected to assemble a dissertation committee chaired by a LALS principal faculty member chosen from the LALS core or LALS graduate program affiliate faculty lists.

Coursework and the qualifying process should be completed by the end of the third year. Students may petition for a non-terminal Master's degree after advancing to candidacy.

DISSERTATION

Students will be expected to complete the dissertation prospectus and secure approval from the dissertation committee by the last day of the quarter after the qualifying examination. In the prospectus, students should clearly articulate the logic of an interdisciplinary, transnational approach, as well as the methodologies to be used for addressing the research questions.

The dissertation must demonstrate in-depth research, make a significant and original scholarly contribution, and include material worthy of publication.

DESIGNATED EMPHASIS IN LATIN AMERICAN AND LATINO STUDIES

Graduate students may work toward a doctor of philosophy (Ph.D.) degree that notes a designated emphasis in Latin American and Latino studies on the graduation documents. Students wishing to pursue this option should consult with the adviser of their respective Ph.D. programs and are encouraged to apply in the first or second year of graduate study. The application and an annually updated list of regularly offered, approved graduate courses [are available here](#).

The following are required for the designated emphasis:

Committee Composition. The student must have a designated graduate adviser from among the Latin American and Latino studies core, participating, or affiliated faculty. This adviser will be in addition to the graduate adviser from the student's home department. The Latin American and Latino studies adviser must serve on the student's qualifying examination committee and/or on the student's dissertation committee.

Course requirements. The student must take five graduate courses in Latin American and Latino studies, including the required LALS 200 and LALS 297. The remainder can be selected from appropriate graduate

offerings of any UCSC department, as long as they are taught by core, participating, or affiliated Latin American and Latino studies faculty.

LATIN AMERICAN AND LATINO STUDIES FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Lourdes Martínez-Echazábal, Professor of Latin American and Latino Studies

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; Latin American critical race theory; literatures of Cuba and the Cuban diaspora, cinema and social change in Cuba; gender and dissident sexualities in Latin American literature and cinema; queer theory in/and Latin America

ASSOCIATE PROFESSOR

Gabriela Arredondo

Migration histories, Latina/o studies, Chicana/o history; U.S. social history; critical race and ethnicity theory; Feminist Chicana and Mexicana Histories; "borderlands" studies; history of modern Mexico

Sylvanna Falcón

Human rights, transitional justice, racism/antiracism, globalization, transnational feminism, Latin America (Peru)

Fernando Leiva

Latin American political economy; critical cultural political economy; social movements; state-society articulations under neoliberalism and post-neoliberalism; epistemologies of the South

Patricia Pinho

Brazil, race and ethnicity, blackness, whiteness, black diaspora and transnational black relations in the Americas, tourism, Latin American cultural studies, social and cultural theory

Catherine Ramirez

United States cultural history, with a focus on immigration and assimilation; theories of citizenship; Latino literature; comparative ethnic studies; feminist and gender studies; cultural studies and the study of visual culture

Cecilia M. Rivas

Transnationalism; media and communication (Internet, newspapers); migration; globalization; race, ethnicity, and gender; bilingualism; consumption; El Salvador, Central America, Southern Mexico

Jessica K. Taft

Youth activism; childhood and youth studies; social movements; participatory democracy; girls studies; Latin American radicalisms; feminist theory; qualitative and participatory research methods

ASSISTANT PROFESSOR

Adrián Félix

International migration; Mexico-U.S. migration; migrant transnationalism; racial/ethnic politics and identity; politics of citizenship; Latino politics

RESEARCH FACULTY

Peggy Estrada

Education; Latino and English learner students; linguistic, instructional, and curricular policies and practices and their consequences for core curricular access, achievement, and integration; pedagogy, instructional quality, and achievement; mixed methods

EMERITUS FACULTY

John G. Borrego

Jonathan Fox

Rosa-Linda Fregoso

Walter L. Goldfrank (Latin American and Latino Studies and Sociology)

Patricia Zavella

PARTICIPATING FACULTY

Mark D. Anderson, Anthropology

Racial formation, diaspora, nationalism, transnationalism, indigeneity, consumption, Central America, Honduras, Latin America, African diaspora

Jeffrey T. Bury, Environmental Studies

Political ecology; sustainable development; Latin American studies; international relations; institutional dimensions of natural resource conservation in the global south

Cynthia Cruz, Education

Feminist ethnography; community-based learning; decolonial pedagogies; LGBTQ street youth; women of color thought; cultural studies and education

Grace Peña Delgado, History

Chicano/a history; Mexico-US-Canadian borderlands; Latino/a studies; Asian and Asian American studies; immigration; gender and sexuality; modern Mexico and Latin America

Kent H. Eaton, Politics

Comparative politics, Latin America international relations, political economy, public policy, political institutions

Latin American and Latino Studies

Miriam Greenberg, Sociology

Urban sociology, media studies, cultural studies, political economy, globalization, and urban political ecology

Lisbeth Haas, History, Feminist Studies

U.S.-Mexico borderlands, Chicano and Native American history; visual culture in the colonial Americas; the U.S. West and California; historical memory, theory, and historical methodology

Eduardo Mosqueda, Education

Mathematics education of English learners; large-scale dataset quantitative analysis; urban education issues

Marcia Ochoa, Feminist Studies

Gender and sexuality, race and ethnicity, Latina/o studies, media and cultural studies, ethnography of media, feminism, queer theory, multimedia production, Latin American studies—Colombia and Venezuela, political philosophy, geography

Juan Poblete, Literature

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th-century studies; the history of reading practices

Renya K. Ramirez, Anthropology

Native American studies, Indian identity, Native Americans and anthropology, urban Indians, Native American women, cultural citizenship, expressive culture, and anti-racist education

B. Ruby Rich, Social Documentation, Film and Digital Media

Specializes in documentary film and video, new queer cinema, feminist film history, Latin American and Latina/o cinema and other global/regional cinemas, U.S. independent film and video, the essay film, film festival studies, and the making/marketing of foreign films in the U.S.; editor of "Film Quarterly" advising on writing, editing, and journal submission

Barbara Rogoff, Psychology

Human development in sociocultural activity; informal and formal arrangements for learning; adult/child and peer communication in families and schools in diverse cultural communities (especially in Guatemala, Mexico, and the U.S.); learning through observation and collaboration

Felicity Amaya Schaeffer, Feminist Studies

Transnational feminism, migration, Latin American/Latino studies, Chicana/o studies, Internet, technology and the body, sexuality, gender and globalization

Helen Shapiro, Sociology

Political economy, Latin American economic history and development (with an emphasis on Brazil), industrial policy, the auto industry, the state and transnational corporations

Veronica Terriquez, Sociology

Immigrant incorporation, civic engagement, social inequality, Latinos in the U.S., youth transitions to adulthood, quantitative methods, mixed-method

AFFILIATED FACULTY

Chelsea Blackmore, Anthropology

Pre-Columbian archaeology (Mesoamerican focus), identity formation, complex societies, class and state formation, gender, feminist/queer theory

Rebecca Covarrubias, Psychology

Culture, self, and identity; social representations of race, gender, and social class in educational/health contexts; student performance, belonging, and well-being; community and school interventions

Carolyn Dean, History of Art and Visual Culture

Cultural histories of the native Americas and colonial Latin America

Maria Elena Diaz, History

Atlantic world, Colonial Latin America and the Caribbean, Cuba; social and cultural, global and local histories; colonialism, slavery and freedom, race/ethnicity, gender and class; legal, political, popular, and religious culture

Robert W. Fairlie, Economics

Labor economics, entrepreneurship, education, applied econometrics

Dana Frank, History

Late 19th- and 20th-century U.S. social history, including women's, labor, and working-class history, race and ethnicity; modern Honduras; U.S. history in transnational perspective

Gregory S. Gilbert, Environmental Studies

Disease ecology, forest ecology, tropical ecology, biological invasions, conservation biology, applied evolutionary ecology

María Victoria González-Pagani, Spanish Language

Language teaching methodology; Spanish syntax; computer-assisted foreign language learning; Latin American cultural studies, especially women's contributions

Shelly Grabe, Psychology

Social movements, activism, and justice: women's resistance/activism/empowerment; human rights; globalization/neoliberalism; transnational intersectionality/decolonial feminism; structural inequities; partnerships with grassroots organizations

Kirsten Silva Gruesz, Literature

Chicano/Latino literatures and cultures, Comparative Americas studies, language ideologies and bilingualism in literature

Daniel Guevara, Philosophy

Kant, moral philosophy, moral psychology, environmental ethics, history of modern philosophy

Latin American and Latino Studies

Craig Haney, Psychology

Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual origins of violence, development of alternative legal and institutional forms

Karen D. Holl, Pepper-Giberson, Environmental Studies

Restoration ecology, conservation biology, landscape ecology

Regina D. Langhout, Psychology

School-community-university collaboration; how schooling and neighborhood experiences are informed by social class, race, and gender; young people and empowerment; participatory action research

John Leños, Social Documentation

Documentary animation, social documentation, social art practice, community arts, Chicana/o art and culture, new media, critical media studies, cultural studies, documentary photography, installation art, public art and interventionist art practice

Deborah Letourneau, Environmental Studies

Agroecology, tropical biology, insect-plant interactions, biological conservation for ecosystem services, biological processes as an alternative to pesticides, environmental risks of genetically engineered organisms, redwood forest community ecology

Kristina Lyons, Feminist Studies

Feminist and decolonial science studies, environmental humanities of the global South, politics of "nature" and "matter," ethnographic theory, literary ethnography and poetics, politics and the political in Latin America, socioenvironmental justice and ethics

Steven McKay, Sociology

Work and labor markets; globalization and social change; political sociology; race; masculinity; migration; ethnography/qualitative methods

Andrew Salvador Mathews, Anthropology

Environmental anthropology, science and technology studies, conservation and development, climate change, environmental history, Mexico, Latin America, Italy

Judit Moschkovich, Education and Mathematics

Mathematical thinking and learning; student conceptions of functions; mathematical discourse; everyday mathematical practices; bilingual mathematics learners

Matthew D. O'Hara, History

Modern Latin America and Mexico; late colonial Latin America; religion, spirituality, and ritual; urban history; race, ethnicity, and identity; political culture

Lucinda Pease-Alvarez, Education

Language and literacy development, language-minority education, bilingualism, informal learning, teachers as policy makers

Ana Maria Seara, Portuguese Language

Portuguese language; literature, film, and music of Brazil and the Portuguese-speaking world; acquisition and teaching of foreign, second, and heritage languages

Helen Shapiro, Sociology

Political economy, Latin American economic history and development (with an emphasis on Brazil), industrial policy, the auto industry, the state and transnational corporations

Amanda Smith, Literature

Contemporary Latin American literatures, indigeneity and shamanism, ecocritical theory, geocriticism, space and mapping

Kip Telléz, Education

Preparation of teachers for linguistic and cultural diversity, second language learning, studies of the school curriculum, educational assessment

Gustavo Vazquez, Film and Digital Media

Film and video production, documentary and experimental cross-cultural experiences in film

Rasmus Winther, Philosophy

Philosophy of science, philosophy of biology, philosophy of mind, pragmatism, Latin American philosophy, continental philosophy, philosophy of multiculturalism, post-colonial theory, feminism, ontology, evolutionary theory, cognitive science

Karen Tei Yamashita, Literature (Creative Writing)

History and anthropology of Japanese immigration to Brazil, Asian American literature, modern fiction, playwriting

Zac Zimmer, Literature

Contemporary and comparative colonial-contemporary Latin American literatures and cultural studies; science and technology in society; politics, aesthetics and technology; new media; science fiction

LATIN AMERICAN AND LATINO STUDIES COURSE DESCRIPTIONS

LOWER-DIVISION COURSES

1. Introduction to Latin American and Latino Studies. F,W,S

Interdisciplinary introduction presenting the elements for studying Latin American politics and economics, culture, and society as well as the dynamics of Latino communities in the U.S. Special

attention paid to issues of colonialism, human rights, U.S. foreign policy toward Latin America, racism, capitalist globalization, migration, to emerging political and economic

Latin American and Latino Studies

shifts in the Americas, and to new local and transnational efforts for social change on the part of Latin America's peoples and Latinos in the U.S. (General Education Code(s): ER.) F. LEIVA, THE STAFF

20. Latino Politics. *

Offers a domestic (U.S.) and transnational approach to Latino politics, focusing on the five largest Latino groups: Mexicans, Puerto Ricans, Cubans, Salvadorans, and Guatemalans. Issues addressed include Latino electoral participation, Latino public opinion, migrant political incorporation, and transnationalism among others. (General Education Code(s): ER.) A. FÉLIX

30. Social Movements in Latin America. W

Examines contemporary social movements in Latin America, especially those that arose from popular response to different forms of social exclusion and to authoritarian political systems. Explores a variety of popular movements, their successes and setbacks, including rural and urban uprisings, native nations and their descendants, women, labor, human rights, and transnational movements. Enrollment limited to 60. (General Education Code(s): CC.) J. TAFT

40. Latinos and Labor. *

Explores the historical, social, economic, and political dynamics of inequality, stratification, and segmentation that shape the occupational pathways and workplace conditions of Latinos in the United States. Students learn about the structures, policies, and ideologies that influence Latinos' working lives as well as how individuals experience their work in a variety of sectors. (Formerly Latinos, Work, and Organizing.) (General Education Code(s): ER.) THE STAFF

45. Intersections of Race, Class, and Gender. *

Introduces theories of race, class, and gender which shape understandings about racial/ethnic issues in the United States. With particular attention to the

experiences of U.S. racial/ethnic groups, including Latinas/os, African Americans, Asian Americans, and Native Americans, this course draws from interdisciplinary research to address how race, class, and gender are also crosscutting dynamics. (Formerly Race, Class, Gender.) (General Education Code(s): ER.) THE STAFF

50. Transnational Feminist Organizing in the Americas. *

Explores key aspects of transnational feminist organizing in the Americas, including transnational feminist theories and feminist activism in Latin America and the Caribbean. Discusses how women from throughout the Americas region organize politically and socially across gender, race, ethnicity, sexuality, and nationality. (General Education Code(s): CC.) S. FALCÓN

60. Latin American Childhoods. *

Introduces research on childhood in contemporary Latin America. Explores discourses about Latin American children, the regional institutions shaping children's lives, and how children experience and negotiate these larger social forces. (General Education Code(s): CC.) J. TAFT

70. Cinema and Social Change in Cuba. *

Examines selected feature-length films and documentaries produced after the Revolution of 1959 as a venue to study social change in Cuba. Cinema is used as artifact to document and critique social change. Topics include: the role of art and artist in Revolution, literacy campaign, changing gender relations, dissident sexualities, racial politics, and others. (General Education Code(s): IM.) L. MARTINEZ-ECHAZÁBAL

80D. Political Change in Mexico. *

Reviews broad trends in contemporary Mexican politics against the backdrop of long-term historical, social, and economic change throughout the 20th century, analyzing how power is both wielded from above and created from below. The course

covers national politics, grassroots movements for social change and democratization, environmental challenges, indigenous movements, the media, and the politics of immigration and North American integration. (General Education Code(s): CC.) A. FÉLIX

80E. Latin American Philosophy. *

Is there a general school of philosophy endemic to Latin America? Would it have to appeal to quintessential Western philosophical questions regarding knowledge, values, and reality? If not, why not, and would it then still count as philosophy? What difference do ethnic and national diversity, as well as strong political and social inequality, make to the development of philosophical questions and frameworks? Course explores a variety of historically situated Latin American thinkers who investigate ethnic identity, gender, and socio-political inequality and liberation, and historical memory, and who have also made important contributions to mainstream analytical and continental philosophy. (Also offered as Philosophy 80E. Students cannot receive credit for both courses.) R. WINTHER

80F. Latinos in the U.S.: A Comparative Perspective. F

Analyzes the Latino experience in the U.S. with a special focus on strategies for economic and social empowerment. Stresses the multiplicity of the U.S. Latino community, drawing comparative lessons from Cuban-American, Puerto Rican, Chicano/Mexicano, and Central American patterns of economic participation and political mobilization. (General Education Code(s): ER.) A. FÉLIX

80H. Comparative Latina/o Histories. *

Designed to survey recent works in the field of Latina and Latino histories, with particular emphasis on historiographical approaches and topics in the field. Readings are chosen to expose a selection of the varied histories and cultures of Latina/os in the U.S., and focus

Latin American and Latino Studies

primarily on Mexicans, Puerto Ricans, and Cubans. (General Education Code(s): CC.) G. ARREDONDO

80I. Gender and Global Cinema. *

Applies critical and historical approaches to the study of gender in global cinema. Introduces students to different aesthetic and cross-cultural approaches to representing gender in contemporary film. Focuses on films, documentaries, and video works from the Americas as well as from other regions of the global South. Enrollment limited to 80. (General Education Code(s): CC.) THE STAFF

80J. Race, Nation, and War. *

Evaluates the relationship between processes of racial formation, war, and nationalism in Latin America. Case studies range from the wars of independence to more recent forms of transnational violence. Students engage historical and anthropological perspectives and critiques of modernity. Enrollment limited to 80. (General Education Code(s): ER.) C. RIVAS

80P. Environment and Society in Latin America. *

Examines the implications of environmental degradation and resource extraction for economic growth and social inequality in Latin America. Course focuses on the connections between race, ethnicity, power, poverty, and environmental problems. (Formerly Energy, Society, and Ecology in Latin America.) Enrollment limited to 80. (General Education Code(s): PE-E.) THE STAFF

80R. Organizing Across the Americas. *

Analyzes the range of theory and practice that emerged from and shaped significant social movements during the rise and fall of United States hegemony. Focuses on social struggles and revolutions in five distinct locations across the Americas: the United States (United Farm Workers--UFW), Cuba (Movimiento 26 de Julio--M26J), Nicaragua (Frente Sandinista de Liberacion Nacional--F.S.L.N.), Mexico (Zapatistas), and Brazil

(Movimento dos Trabalhadores Rurais Sem Terra--MST). Enrollment limited to 80. J. BORREGO, THE STAFF

80S. Sexualities and Genders in Latin American and Latina/o Studies. *

Introduction to issues and themes surrounding sexualities and genders within Latin American and Latina/o studies. Provides background in the basic theoretical and historical frameworks of gender and its relationship to sexuality. In addition to cross-border perspectives, course also examines how gender and sexuality are structured and experienced through other social categories. Enrollment limited to 80. (General Education Code(s): CC.) THE STAFF

80X. Central American Peoples and Cultures. *

Examines contemporary societies and peoples of Central America considering how, in recent decades, media, history, war, cultural production, and migration have shaped Guatemala, Honduras, El Salvador, Nicaragua, and Costa Rica both as individual nations and as a region. Enrollment limited to 80. (General Education Code(s): CC.) C. RIVAS

81A. Mexican Folklorico Dance (2 credits). F

Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklorico dance. Students taught choreographed dances from various regions of Mexico and also learn dance techniques (tecnic) and stage make-up application. Additional workshops and lectures offered to supplement class. Open to all students; no previous experience required. (Also offered as Anthropology 81A. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): PR-C.) O. NAJERA RAMIREZ

81B. Mexican Folklorico Dance (2 credits). W

Second course in series. Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklorico dance. (Also

offered as Anthropology 81B. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): PR-C.) O. NAJERA RAMIREZ

81C. Mexican Folklorico Dance (2 credits). S

Third course in series. Provides instruction in the aesthetic, cultural, and historical dimensions of Mexican folklorico dance. (Also offered as Anthropology 81C. Students cannot receive credit for both courses.) Prerequisite(s): course 81A or 81B. May be repeated for credit. (General Education Code(s): PR-C.) O. NAJERA RAMIREZ

90. Contemporary Brazil. F

Introduces issues affecting contemporary Brazilian society and culture, such as the legacy of slavery and persisting social, racial, and gender inequities. Analyses of how different representations of Brazil sustain distinctive national projects, which, in turn, attribute specific meanings to blackness, whiteness, masculinity, femininity, and upper- and lower-class identities. (General Education Code(s): ER.) P. PINHO

UPPER-DIVISION COURSES

100. Concepts and Theories in Latin American and Latina/o Studies. F

Interdisciplinary exploration of transnational migrations; social inequalities; collective action and social movements; and cultural productions, products, or imaginaries. Examines how transnational migration and hemispheric integration are transforming Latin American studies and Chicana/o-Latina/o studies. Explores the influence of neoliberalism and globalization, especially the intersection of critical analysis and social-justice praxis. Completion of course 1 highly recommended. (Formerly course 10, Bridging Latin American and Latina/o Studies) Enrollment restricted to sophomores, juniors, and seniors. (General Education Code(s): ER.) G. ARREDONDO

Latin American and Latino Studies

100A. Social Science Analytics. W

Compares diverse analytical strategies and builds practical research skills in the field of Latin American and Latino studies. (Formerly Politics and Society: Concepts and Methods.) Two-credit course 100L writing lab highly recommended. Prerequisite(s): course 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior Latin American and Latino studies majors, minors, and combined majors or by permission. J. TAFT

100B. Cultural Theory in the Americas. S

Focuses on transnational, regional, and local features of Latina/o and Latin American cultural production and artistic expression: how culture is shaped by historical, social, and political forces; how cultural and artistic practices shape the social world; and how culture is produced in an interconnected, postindustrial, and globalized economy. (Formerly Culture and Society: Culture in a Global Context.) Prerequisite(s): courses 100 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to sophomore, junior, and senior Latin American and Latino studies majors, minors, and combined majors. P. PINHO

100L. Writing Lab (2 credits). *

This course accompanies course 100A. Participants receive feedback and guidance on their written exercises required for course 100A. Students submit drafts in advance and receive feedback from course 100A writing tutors as well as engage in peer-to-peer learning. Consistent attendance is required. Prerequisite(s): concurrent enrollment in course 100A required. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 60. THE STAFF

101. Media Skills and Literacy. *

Applied course where students learn about broadcast, audiovisual,

and digital media. Students compile a media production portfolio of various assignments that have a Latino/Latin American focus. (Formerly Using Media.) Prerequisite(s): concurrent enrollment in course 101L. THE STAFF

101L. Media Laboratory (2 credits). *

Trains students in the fundamentals of media literacy skills, including preparation, production, and post-production. (Formerly Using Media: Video Laboratory.) Prerequisite(s): concurrent enrollment in course 101. THE STAFF

102. Writing for Latin America and Latino Studies Majors and Minors. *

For Latin American and Latino studies students who wish to gain greater awareness of rhetorical modes and the academic essay. Students write several academic essays, each with a different purpose, and master the conventions of revising and editing. (Formerly Advanced Expository Writing Workshop.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. THE STAFF

111. U.S. - Mexico Borderlands. *

Global and national forces have transformed the 2,000-mile United States-Mexico border region into a site of increased militarization, surveillance, and detention. This course analyzes how increased policing and criminalization has affected borderland communities, identities, and subjectivities. (Formerly The U.S.-Mexican Border Region.) THE STAFF

112. Immigration and Assimilation. *

Examines immigration to U.S. from colonial era to present with special emphasis on issues of citizenship, social identities, and social membership. (Formerly American Studies 112.) (General Education Code(s): ER.) C. RAMIREZ

115. Mexico-United States Migration. S

Overview of Mexico-United States migration in historical and contemporary context. Focuses on Mexican experiences of racialization, deportability, second-class citizenship, and transnationalism--the cross-border networks, institutions, activities, loyalties, and identities by which Mexican migrants orchestrate their lives across international borders. Enrollment restricted to sophomores, juniors and seniors. A. FÉLIX

122. Media and Nationalism. F

Evaluates the links between media and the production of national identities in Latin America. Focuses on theories of nationalism, media, and globalization to examine the production of national histories and representations. Enrollment restricted to juniors and seniors. Enrollment limited to 48. C. RIVAS

124. Brazilian Cinema. *

Surveys films by and/or about women from Brazil, drawing a picture of contemporary Brazilian cinema through the angle of gender in its articulation with sexuality, race, class, ethnicity, national identity, and other key concepts, while offering a visual and critical introduction to Brazilian culture. Enrollment limited to 80. (General Education Code(s): IM.) THE STAFF

127. Genero, Nacion Y Modernidad En El Cine. *

Taught in Spanish. Examines the relationship between cinema, gender, the nation, and modernity. Focusing on films by key women filmmakers in Latino and Latin America, the seminar examines their engagement with identity, cultural imaginaries, coloniality, sexuality, and gender. Enrollment restricted to Latin American and Latino studies majors, minors and combined majors. THE STAFF

128. Latino Media in the U.S. *

Explores the history and practice of Latino media in the U.S. with an emphasis on work created by, for, with, and about Latino constituencies. Course highlights the role that media plays in

Latin American and Latino Studies

struggles for social change, political enfranchisement, creative self-expression, and cultural development. Course content varies with instructor. (Also offered as Oakes College 128. Students cannot receive credit for both courses.) Enrollment limited to 39. (General Education Code(s): IM.) THE STAFF

130. Expresiones cuirs de Género y Sexualidad en el cine Latinoamericano. *

Examines cinematic manifestations of dissident sexualities, as well as dissident expressions of gender and family in Latin American culture. Taught in Spanish. Enrollment is restricted to juniors and seniors. L. MARTÍNEZ-ECHAZÁBAL

131. Latino Literatures: Assimilation and Assimilability. *

Explores assimilation and assimilability in the United States, especially as related to the education and languages of Latinos, via literary forms, such as the memoir, novel, essay, short fiction, film, and/or poetry. (Meets the methods requirement in Latin America and Latino studies.) (General Education Code(s): TA.) C. RAMÍREZ

132. Citizens, Denizens, and Aliens. *

Explores the theories and practices of citizenship and the roles citizens and non-citizens play in the state, civil society, and market, with a focus on the ways historical legacies and social forces produce inclusion, exclusion, sameness, and difference. (Formerly American Studies 113C) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 40. (General Education Code(s): ER.) C. RAMIREZ

136. Tourism, Culture, and Identity. *

Interdisciplinary study of tourism in Latin America and its interconnections with culture, power, and identity. Examines contemporary trends of tourism (ethnic tourism, diaspora tourism, sex tourism, and "favela tours") and explores how regional, national, and transnational identities shape and are shaped by tourism. Enrollment

is restricted to juniors and seniors. P. PINHO

143. Race and Ethnicity. F

Race and ethnicity have been--and continue to be--powerful forces shaping the U.S. experience. This course examines a range of conceptual approaches and monographic studies grounded in the history of the U.S. The readings provide various criteria for studying and understanding these phenomena. The course problematizes "race" by asking what the readings tell us about "race-making" and the reproduction of racial ideologies in specific historical contexts. Similarly, "ethnicity" is treated as a historically specific social construct. (Meets the methods requirement in Latin America and Latino studies.) (General Education Code(s): ER.) THE STAFF

143J. Global Political Economy. *

Analyzes the global, social, economic, and political forces that shape transnational, national, and regional societal formations and consequently the entire environment for social change. Examines the evolution of revolutionary struggle and its origins within and impact upon the evolving capitalist system. THE STAFF

144. Mexicana/Chicana Histories. *

Explores current historical and theoretical writings on the lived experiences of Chicanas and Mexicana women in U.S. history. Themes include domination/resistance politics, (re)presentations, contestation, social reproduction, identity and difference. Meets the methods requirement in Latin America and Latino studies. (General Education Code(s): TA.) G. ARREDONDO

145. Grassroots Social Change in Latin America. *

Focuses on the analysis of collective action by underrepresented groups in Latin America. Concepts and issues include political participation and impact, gender, ethnicity and race, class, the environment, religion, non-governmental

organizations, and social capital. Prerequisite(s): any two Latin American and Latino studies courses or permission of instructor; open to graduate students. Enrollment limited to 40. (General Education Code(s): CC.) THE STAFF

149. U.S. Foreign Policies in the Americas. S

Examines the breadth of United States foreign policies throughout the region and its varying impact on a broad range of communities. From regional trade agreements to military interventions to the politics of United States foreign aid, this course explores how United States foreign policies have destabilized certain countries throughout the region, contributing to civil unrest and forced migration. (Formerly U.S. Foreign Policy Toward Latin America.) (General Education Code(s): PE-H.) THE STAFF

150. Afro-Latinos/as: Social, Cultural, and Political Dimensions. *

Explores the lives of African descendants in the Americas, including the Caribbean. Students learn about the settlement patterns of Afro-Latinos/as and Afro-Latin Americans in the region and the ways in which African descendants negotiate their multiple identities and broaden racial frameworks in the United States and Latin America. (General Education Code(s): ER.) S. FALCÓN

152. Consumer Cultures Between the Americas. W

Examines the circuits of media, commodities, and migration connecting the Americas in an age of globalization. Issues of states, transnational markets, social relations, and cultural representations addressed. Relationship between consumption, nationalism, and globalization is considered critically. (Meets the methods requirement in Latin America and Latino studies.) (General Education Code(s): CC.) C. RIVAS

155. Latin American and Latino Youth Movements. F

Examines the histories, structures, and practices of Latin American and

Latin American and Latino Studies

Latino youth movements. Analyzes the patterns, themes, and differences of social movements using primary documents. Addresses the dynamics of age, generation, race, ethnicity, and nation. Uses youth activism to explore questions relevant to the study of contemporary social movements in the Americas. J. TAFT

156. Human Rights and Transnational Justice in the Americas. *

Provides students with an introduction to the emerging scholarly field of transnational justice. Examines transitional justice in a broad sense and through elected case studies.

Prerequisite(s): course 1.

Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 15. (General Education Code(s): CC.) S. FALCÓN

158. Latin American Political Economy. *

Explores and applies basic tools of Latin American political economy to map the evolution of the region's main patterns of economic growth and accompanying social structures across past centuries. Reviews the effects of neoliberal capitalist globalization on contemporary Latin America, resistance to destructive consequences, and the nature of emerging alternatives. F. LEIVA

161P. Theater in the "Chicano Power" Movement. *

Covers the rise of Teatro Chicano as a cultural-political force within the 1960's "Chicano Power" Movement starting with founding playwright Luis Valdez and El Teatro Campesino and covering Chicana/o playwrights inspired by the movement, e.g. Cherrie Moraga, Luis Alfaro, and Josefina Lopez. (Also offered as Theater Arts 161P. Students cannot receive credit for both courses.) (General Education Code(s): ER.) THE STAFF

165. Contemporary Peru. *

Explores contemporary issues facing Peru by addressing the formation of the state and the

country's troubled history with political and state violence. Students learn about Peru's multicultural/racial population and about ongoing conflicts and hopes for the country today. (General Education Code(s): CC.) S. FALCÓN

166. Latino Families in Transition. *

Explores the complex nature of Latino families in the U.S., which like other American families are undergoing profound changes. Placing families within a historical context of post-1960s social transformations, such as feminism, immigration, and multiple-earner households, course examines how family members adapt, resist, and/or construct alternative visions and practices of family life. (Meets the methods requirement in Latin America and Latino studies.)

Prerequisite(s): course 1. (General Education Code(s): ER.) THE STAFF

170. Indigenous Struggles in the Americas. *

Focuses on the way Natives of First Peoples have interacted voluntarily and involuntarily with nonindigenous cultures. Examines their perspectives, thoughts, frustrations, and successes. Touches on land issues and examines the way current indigenous cultures of Latin America face and adapt to social change. Focuses mainly on the Andes, lowland Amazon, Mesoamerica, and other areas. (General Education Code(s): CC.) THE STAFF

171. Brazil in Black and White. F

Taught in Portuguese. Examines blackness and whiteness in Brazil through the lens of the intersectionality of race, gender, and class identities. Topics include: national narratives of racial democracy, racism, black activism, and the emerging studies of whiteness in Brazil. (General Education Code(s): ER.) P. PINHO

172. Visualizing Human Rights. W

Explores how visual artists take up the subject of human rights in response to urgent challenges facing Latina/o and Latin American communities across the Americas. Examines the imprint of film and

media arts reshaping human-rights discourse. Considers persistent themes in Latina/o representation, including colonialism and state terrorism; self-representation and the rights of collectives (racial, ethnic, and sexual groups); social and economic rights. (Meets the methods requirement in Latin America and Latino studies.) S. FALCÓN

174. Immigration, Asylum, and Citizenship in the U.S.. *

Examines the policies and politics of asylum in the United States, as they relate to Latin American/Latino/a refugee and migrant flows. Focuses on the forced migration and asylum claims of multiple social groupings (e.g. gender asylum seekers, unaccompanied minors) and how these communities confront the U.S. immigration, asylum, and citizenship regimes. (Formerly Immigration and Citizenship: A Global Perspective.) (General Education Code(s): PE-H.) THE STAFF

175. Migration, Gender, and Health. *

Through an interdisciplinary, cross-border approach, examines complex nature of Latino health in relation to migration and how women and men experience health problems differently. Examines how health problems are created by economic and social conditions, how migrants experience access to care, and how agencies can design culturally sensitive programs. (General Education Code(s): ER.) THE STAFF

176. Gender, the Nation, and Latina Cinema. *

Applies critical and cultural theories of interculturality, coloniality of power and transnational feminism to the study of Latina cinematic imaginaries in the Americas. Explores images and self-representations of race, sexuality, and the nation; citizenship, diaspora, and belonging; gender violence and state violence; militarization, human rights, and gender justice. (General Education Code(s): IM.) THE STAFF

178. Gender, Transnationalism, and Globalization. *

Latin American and Latino Studies

Focuses on the impact of globalization and transnationalism on gender relations in the Americas. Examines gender and power in the context of neoliberalism, modernity, the nation, social movements, and activism. Explores local and transnational constructions of gender, and the intersection of gender with race, ethnicity, class, and sexuality. Enrollment limited to 40. (General Education Code(s): ER.) THE STAFF

180. Borders: Real and Imagined. *

Situates "The Border" historically and within the context of U.S. imperialism. Examines the formalization of political "borders," methods of enforcement, and intra-group conflicts. Examines the varied experiences of colonialism and immigration between Mexicans, Puerto Ricans, Native Americans, and Cubans. Explores how the tools of "The Border" and "Borderlands" are being used to untangle the roles of race prejudice and sexual and gender discrimination. (Meets the methods requirement in Latin America and Latino studies.) (General Education Code(s): TA.) G. ARREDONDO

186. Field Research Methods. *

Introduction to field research methods that consider theory, methodological challenges, and epistemology in conducting research. Explains the research process, including designing research questions, interview instruments, concepts maps, and methods of data collection, and data analysis. (Meets the methods requirement in Latin America and Latino studies.) (Also offered as Sociology 186. Students cannot receive credit for both courses.) Prerequisite(s): course 100, and 100A or 100W. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors and Sociology majors. S. FALCÓN

190. Internship. F,W,S

Internships with campus or community organizations sponsored and evaluated by a Latin

American and Latino studies faculty member. Students write an analytical paper or produce another major work agreed upon by student, faculty supervisor, and internship sponsor; sponsor must also provide review of experience. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

190F. Internship (2 credits).

F,W,S

Internships with campus or community organizations sponsored and evaluated by a faculty member from Latin American and Latino studies. Students write a short (8-page) descriptive paper or produce another work agreed upon by student and faculty supervisor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

191. Latin American Studies Teaching Apprenticeship. F,W,S

Advanced students serve as facilitators for small discussion groups or aid in reading of papers related to Latin American Studies courses. Students are expected to read all course assignments and meet with instructors to discuss the teaching process. May not be counted toward major requirements. THE STAFF

192. Directed Student Teaching. F,W,S

Teaching under faculty supervision of a lower-division course in Latin American and Latino studies, normally done by majors in the final quarter of study as the senior project. (See course 42.) Students submit petition to sponsoring agency. THE STAFF

193. Field Study. F,W,S

Supervised off-campus (domestic or international) study that entails working closely with faculty. Typically undertaken as part of fulfilling the senior exit requirement. Students need to be in good to excellent standing and show preparation to undertake field study (e.g., relevant coursework, appropriate language skills, etc.). May be repeated for credit. THE STAFF

194C. Criminalizing the Poor. *

Examines neoliberal discourses related to poverty that have become more critical of the poor over time, including reforms to social welfare, criminal justice, and immigration, and the ways in which the poor struggle to survive and contest neoliberalism. Enrollment restricted to junior and senior Latin American and Latino studies majors and minors; and combined majors with global economics, sociology, literature, and politics. Enrollment limited to 25. (General Education Code(s): ER.) THE STAFF

194G. Chile: Social and Political Change. *

Taught in Spanish. Analysis of Chilean politics and society from the election of Salvador Allende in 1970 to the present. Particular emphasis is given to understanding the different forces, internal as well as external, that broke the Chilean tradition of democratic rule in 1973, and to the current configuration. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) F. LEIVA

194H. Central America and the United States. *

This senior seminar focuses on the connections between Central America and the United States. Covers Central American history, the political and economic relations between the isthmus and the United States, and Central American media and literature. (Formerly Central American Political Relations with the U.S.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. C. RIVAS

194M. Twentieth-Century Revolutions. *

Treatment of 20th-century Latin American revolutions from Zapata to the Zapatistas. Focuses on the causes and consequences of revolutions rather than on their

Latin American and Latino Studies

narrative histories. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) G. ARREDONDO

194Q. Globalization in the Américas. *

Introduces multiple dimensions of globalization by reviewing key theories and frameworks in order to understand development, social inequalities, trade agreements, multilateral institutions, and the future of globalization studies. Enrollment restricted to junior, and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. (General Education Code(s): CC.) S. FALCÓN

194R. Violencia Cotidiana en las Americas. F

Senior seminar taught in Spanish. Engages a critical study of violence, social relations, and everyday life in contemporary Latin America. Focuses on the relationship between narratives and acts of violence, and the constitution and social effects of these representations. Requires proficiency in Spanish (written and spoken), and advanced reading knowledge of Spanish. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors. Enrollment limited to 25. C. RIVAS

194T. Youth and Citizenship. S

Explores multiple and contested meanings of "youth" and "citizenship"; how youth, civic, and political identities are imagined, produced and negotiated in social and cultural locations; and how different versions of Latina/o youth citizenship are promoted and articulated by social and political institutions. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors during priority enrollment only. J. TAFT

194U. Political Violence in Mexico. S

Focuses on rural and urban case

studies of state repression in post-revolutionary Mexico. Examines how political violence was a preferred method of governance by Mexico's autocratic rulers throughout the 20th century. Enrollment is restricted to juniors and seniors. Enrollment limited to 25. A. FÉLIX

194V. Comparative Migration Histories in the Americas. *

Traces major historical patterns of migration and related processes in the Americas over the past two centuries. Covers the social, cultural, political, and economic factors that drive and shape the movements of people and considers the ways migration has impacted the sending, transit, and receiving societies. Over the quarter, students come to understand major historical forces of migration that inform our contemporary world, including citizenship, urbanization, identity formations, globalization, and neoliberalism. Enrollment is restricted to seniors. Enrollment limited to 25. G. ARREDONDO

195B. Senior Project. F,W,S

Senior thesis writing under direction of major adviser. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195C. Senior Project. F,W,S

Senior thesis writing under direction of major adviser. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

196. Field Study Seminar. *

Emphasizes ethnographic strategies of fieldwork. Primarily oriented to students interested in understanding the daily life of societies and cultures. Prepares students both to conduct fieldwork, and to process their fieldwork experience. Covers complexities related to the experience of "stepping out of" one's own culture. Prerequisite(s): concurrent enrollment in course 196L. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. THE STAFF

196L. Field Study Seminar Lab (2 credits). *

Media lab trains students in the use of electronic and photographic media for the acquisition of field data. Through lectures, demonstrations, hands-on field exercises and review of students' media exercises, students will learn the fundamentals of photography, video production, and audio recording in the field. Prerequisite(s): concurrent enrollment in course 196. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. THE STAFF

198. Field Study. F,W,S

Off-campus study in Latin America, the Caribbean, or nonlocal Spanish-speaking community in the U.S. Nature of proposed study/project to be discussed with sponsoring instructor(s) before undertaking field study; credit toward major (maximum of three courses per quarter) conferred upon completion of all stipulated requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Individual studies undertaken off-campus. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Supervised directed reading; weekly or biweekly meetings with instructor. Final paper or examination required. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Supervised research and writing of an expanded paper, completed in conjunction with requisite writing for an upper-division course taken for credit in the major. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Bridging Latin American and Latina/o Studies. F

Explores social, cultural, economic, and political changes that connect Latin America and U.S. Latina/o communities. The objective of this interdisciplinary team-taught course is to bridge previously distinct research approaches of Latin American and Latina/o studies to better understand processes that link peoples and ideas across borders as well as help students to conceptually and methodologically identify and design new objects of study and revisit traditional approaches. Core requirement for students pursuing the Parenthetical Notation in Latin American and Latino studies. Enrollment restricted to graduate students. S. FALCÉN

200A. Power and Society. W

Assesses key concepts organized around questions of power in contemporary Latina/o and Latin American interdisciplinary intellectual thought in the social sciences. Emphasis is on understanding power in relation to transnationalism and the department's substantive themes. Enrollment is restricted to graduate students. Enrollment limited to 15. F. LEIVA

200B. Theories of Culture in the Americas. S

Introduces foundational theories and problems organized around questions of culture and epistemology; emphasizes developing interdisciplinary, humanities-based interpretive and analytic skills for understanding how culture is conceptualized; draws from critical social and cultural theories. Enrollment is restricted to graduate students. Enrollment limited to 15. P. PINHO

201. Research in Praxis: Epistemology, Ontology, and Ethics. W

Problematizes the construction of research approaches in the interdisciplinary field of Latin American and Latino studies, and provides training in particular approaches in the social sciences and humanities so students may

engage in innovative, transnational research. Enrollment is restricted to graduate students. Enrollment limited to 15. C. RAMÍREZ

202. Latin/o American Spaces and Modernity. *

Students engage and discuss texts that examine the relationship between space, narratives, and ideas of the modern nation, along with critical studies that highlight the social effects of imaginaries and representations. Enrollment is restricted to graduate students. Enrollment limited to 15. C. RIVAS

203. Latin American Social Movements. *

Grounds students in the social science literature on Latin American social movements, integrating anthropological, sociological, and political science approaches to the field. Enrollment is restricted to graduate students. Enrollment limited to 15. J. TAFT

204. Migration, Borders, and Borderlands. *

Explores concepts and approaches related to migration; the multiple types of borders that migrants transcend--geopolitical, social, cultural, or interpersonal; and borderland formations constructed in relation to bodies in motion. Enrollment is restricted to graduate students. Enrollment limited to 15. THE STAFF

205. Comparative Mobilities. *

Brings together comparative studies of physical and social mobility with a focus on race, migration, and citizenship. Both an articulation and study of comparison, course is organized around three components: comparative borders; comparative migration; and comparative ethnic studies. The questions animating it include: What happens when different histories, places, and peoples are compared? How and why do scholars in the humanities and humanistic social sciences compare? What are the strengths and challenges of a comparative approach? Enrollment restricted to graduate students. Enrollment limited to 15. C. RAMÍREZ

206. Queer Cuba. *

Seminar that engages social, political, and cultural histories of homosexuality in Cuba, focusing on LGBT ostracism and activism after 1959, with particular attention to the social and economic impact of the developments of the USSR on Cuba's LGBT population. Enrollment restricted to graduate students. Enrollment limited to 15. L. MARTÍNEZ-ECHAZÁBAL

207. Youth Cultures, Global Capitalism, and Social Change. *

Introduces intellectual histories of youth studies scholarship in the context of Latin American and Latino studies; explores young people's lived experiences of racialized capitalism and globalization; and addresses various forms of youth "resistance" and the relationship between youth cultures, politics, and social change. Enrollment is restricted graduate students. Enrollment limited to 15. J. TAFT

210. Latina Feminisms: Theory and Practice. *

Through an interdisciplinary approach, explores Latina feminist social theory and scholarly practice—especially in representation and interpretation of Latina experiences. Examining key texts at different historical junctures, charts how Latinas of varied ethnic, class, sexual, or racialized social locations have constructed oppositional and/or relational theories and alternative epistemologies or political scholarly interventions and, in the process, have problematized borders, identities, cultural expressions, and coalitions. Enrollment restricted to graduate students. THE STAFF

211. Paradigms of Race/Color, Sexuality, and Culture in Latin America. *

Explores foundational texts by Latin American intellectuals that have served to construct and sustain continental, regional, national, and transnational cartographies of identities and the search for lo americano. Examines race/color, sexuality, and culture by tracing their narrative and conceptual

Latin American and Latino Studies

(trans)formations in the region and its diaspora. Most texts are read in the original language of publication. Enrollment is restricted to graduate students. Enrollment limited to 15. L. MARTÍNEZ-ECHAZÁBAL

212. Latina/o Ethnographic Practice. *

Explores the social construction of Latino cultures in their varied regional, national-ethnic, and gendered contexts. Examines how culture, as a dynamic process constructed with a historical context of hierarchical relations of group power, is interrelated to the structural subordination of Latinos. Focuses on how power relations create a context for the creation of specific Latino cultural expressions and processes. Enrollment restricted to graduate students. THE STAFF

215. Latina Cultural Studies: Culture, Power, and Coloniality. *

Examines the theories and practices informing the field of Latina cultural studies in the Americas. For students pursuing the Designated Emphasis in Latin American and Latino studies and students with interest in theories of coloniality of power, decolonialism, intercultural and transnational feminist methodologies. (Formerly Latina Cultural Studies: Transborder Feminist Imaginaries.) Enrollment restricted to graduate students. THE STAFF

220. Transnational Civil Society: Limits and Possibilities. F

Analyzes social, civic, and political actors that come together across borders to constitute transnational civil society, drawing from political sociology, political economy, comparative politics, and anthropology to address collective identity formation, collective action, institutional impacts, and political cultures. Enrollment restricted to graduate students. A. FÉLIX

225. Race in the Americas. *

Considers historical moments in the development of "race" in the

Americas to understand how "race" is given meaning and actualized through practices, beliefs, and behaviors. Interrogates theories and racial dynamics in the 19th through 21st centuries to reveal interconnections with constructions of gender and nation. Enrollment restricted to graduate students. Enrollment limited to 15. G. ARREDONDO

240. Culture and Politics of Human Rights. *

Examines cultural, philosophical, and political foundations for human rights and provides students with critical grounding in the major theoretical debates over conceptualizations of human rights in the Americas. Addresses the role of feminist activism and jurisprudence in the expansion of human rights since the Universal Declaration of Human Rights. Addresses challenges of accommodating gender rights, collective rights, and social and economic rights within international human rights framework. (Also offered as Feminist Studies 240. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. S. FALCÓN

242. Globalization, Transnationalism, and Gender in the Américas. *

Explores how globalization, transnationalism, and the social construction of gender are interrelated, contingent, and subject to human agency and resistance. Examines particular configurations of globalization, transnationalism, and gender through the Américas and their implications for race, space, work, social movements, migration, and construction of collective memory. Enrollment restricted to graduate students. THE STAFF

243. Comparative Methods. S

Introduces the comparative method in social science. Trains students in the use of this method by examining

how scholars have used it to compare across national governments, subnational units, public policies, organizations, social movements, and transnational collective action. (Also offered as Politics 243. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. K. EATON, J. FOX

245. Epistemologies of the South. *

Examines efforts by intellectuals from the Global South, mainly Latin America, to cast off the political, cultural, and epistemological notions imposed by European colonialism and preserved today through the practices of Western/Eurocentric knowledge, to forge their own "epistemologies of the South." Enrollment is restricted to graduate students. Enrollment limited to 15. F. LEIVA

297. Independent Study. F,W,S

Students submit a reading course proposal to a department faculty member who supervises independent study in the field. Faculty and student jointly agree upon reading list. Students expected to meet regularly with faculty to discuss readings. This independent study must focus on a subject not covered by current UCSC graduate curriculum. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Enrollment restricted to graduate students and permission of instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

LEGAL STUDIES

2017-18 General Catalog

27 Merrill College
(831) 459-2056
legalstudies@ucsc.edu
[Department website](#)

PROGRAM DESCRIPTION

Legal studies is an interdisciplinary major offered under the auspices of the Politics Department. It is designed for students who wish to use the methods and perspectives of various academic disciplines to study legal issues and to use the conceptual framework of the law to illuminate empirical and theoretical concerns in the various disciplines. For example, a student might use approaches from psychology and philosophy to study the legal problem of punishment; or draw on doctrinal categories from public and private law to study the changing historical role of market and nonmarket relations within ongoing institutions; or use approaches from critical race theory and feminist studies to better understand matters of civil rights and privacy.

To complete the major, students are required to take courses in legal institutions, constitutional law, and international law, as well as take courses in each of three broad themes: legal theory and philosophy, the role of law in society, and legal institutions. Each of these themes is intentionally broadly defined. Within legal theory, students may take courses in legal jurisprudence, logic, and theories of crime and punishment; within law and society, courses range from feminism and race to psychology and economics; within public law and institutions, courses range from environmental law to human rights law to an introduction to litigation. Students are also expected to take an introductory course in philosophy. To fulfill the senior exit requirement, students have the option to write a senior thesis or take a senior capstone seminar. The seminar topic changes quarterly.

Legal studies is intended to appeal to students who wish to take a concentration of courses on the law from a variety of disciplinary and methodological perspectives. The major is not intended as a substitute or preparation for any part of a law school curriculum but rather as a full field of study within the liberal arts curriculum. As such, it is a good preparation for a variety of future activities. Students graduating in legal studies are particularly well qualified to pursue graduate work on legal topics in humanities and social science disciplines or to attend professional school in fields such as public policy, business administration, social work, and law. Students are also encouraged to participate in fieldwork and law-related internships in

the community, and to develop their own extensive independent research projects.

Legal studies also encourages students to pursue additional academic opportunities while at UCSC. Possible programs include: the UCDC program, a one-quarter program at the UC campus in Washington, D.C. that includes coursework and an internship, the UCSC/UC Hastings Law School 3+3 Program in which students earn B.A. and J.D. degrees in six years, and the Education Abroad Program (EAP).

Declaring the major in legal studies is a three-step process: 1) complete and pass Legal Studies 10 with a grade of C or better; 2) attend a declaration orientation workshop; and 3) bring a completed declaration of major worksheet and legal studies major worksheet to the Legal Studies Advising Office to officially declare.

Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the department chair within 15 days from the date the notification was mailed. Within 15 days of receipt of the appeal, the department will notify the student, college, and Office of the Registrar of the decision.

PROGRAM LEARNING OUTCOMES

Upon completion of the major, students will have met the following objectives.

- an understanding of the nature and function of law, including legal theory, institutions, and analysis;
- an understanding the role of law and legal institutions in the broader society, including the social, political, and economic context in which it operates;
- an understanding the unique nature of legal institutions and practices from a variety of interdisciplinary perspectives;
- the ability to analyze and critically evaluate arguments about legal theories, practices, and institutions based on logic and evidence, and from a variety of interdisciplinary perspectives; and

Legal Studies

- the ability to develop, sustain, and communicate coherent written and oral arguments and analyses regarding legal issues based on appropriate empirical and/or theoretical evidence and logic.

REQUIREMENTS OF THE MAJOR

Students develop a program of study during the major declaration process. The major requirements consist of 11 courses:

LOWER-DIVISION COURSE REQUIREMENTS—2 COURSES

Legal Studies 10, Introduction to Legal Process. All students are required to complete and pass Legal Studies 10 prior to declaring the major. This course is normally taken the first year.

Philosophy 9, 22, or 24 (Logic or Ethics). All legal studies majors are required to take one of the three listed.

Philosophy courses. (See the Philosophy section in this catalog for course descriptions.)

UPPER-DIVISION COURSE REQUIREMENTS—2 COURSES

111A, Constitutional Law or 111B, Civil Liberties and 160B International Law

CORE COURSE REQUIREMENTS—6 COURSES

Students are required to take six core courses, two in each of three concentrations: theory, public law and institutions, and law and society.

Theory

- 103 Feminist Interventions (Politics course)
- 105A Ancient Political Thought
- 105B Early Modern Political Thought
- 105C Modern Political Thought
- 106 Marxism as a Method
- 109 Legal Theory
- 109 Orientalism (Politics course)
- 128C Genealogy of Political Thoughts on Democracy, Socialism, and Anarchism
- 128J The World Jury on Trial
- 144 Social and Political Philosophy
- 146 Philosophy of Law
- 155 Topics in American Legal History
- 157 Political Jurisprudence

Public Law and Institutions

- 111A Constitutional Law

- 111C Issues in Constitutional Law
 - 115 Law and the Holocaust
 - 116 Comparative Law
 - 120A Congress, President, and the Court in American Politics
 - 120C State and Capitalism in American Political Development
 - 125 History of U.S. Penal Law
 - 128 Poverty and Public Policy
 - 128J The World Jury on Trial
 - 128M International Law and Global Justice
 - 131 Wildlife, Wilderness, and the Law
 - 132 California Water Law and Policy
 - 133 Law of Democracy
 - 134 Congress: Representation and Legislation in Comparative Perspective
 - 135 Native Peoples Law
 - 136 Federal Indian Law and Tribal Sovereignty
 - 137 International Environmental Law and Policy
 - 139 War Crimes
 - 149 Environmental Law and Policy
 - 152 Courts and Litigation
 - 155 Topics in American Legal History
 - 156 Administrative Jurisprudence
 - 159 Property and the Law
 - 167 Politics of International Trade
 - 171 Law of War
 - 175 Human Rights
-
- #### Law and Society
-
- 107 Political Morality of Survivorship and Recovery
 - 108 Gender, Sexuality, and the Law
 - 110 Law and Social Issues
 - 111B Civil Liberties
 - 112 Women and the Law (Politics)
 - 113 Gay Rights and the Law
 - 114 Jews, Anti-Semitism, and the American Legal System
 - 120B Society and Democracy in American Political Development
 - 120C State and Capitalism in American Political Development
 - 121 Black Politics and Federal Social Policy

Legal Studies

- 122 The Sociology of Law
- 123 Law, Crime, and Social Justice
- 126 Law and Politics in Contemporary Japan and East Asian Societies
- 127 Drugs and Society
- 128I Race and Criminal Justice
- 135 Native Peoples Law
- 138 Political Anthropology
- 142 Anthropology of Law
- 147A Psychology and Law
- 147B Psychology and Law
- 150 Children and the Law
- 151 Politics of Law
- 154 The Legal Profession
- 155 Topics in American Legal History
- 160A Industrial Organization
- 162 Legal Environment of Business
- 169 Economic Analysis of the Law
- 183 Women in the Economy

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in legal studies is satisfied by completing one of the following three paths:

1. Completion of Legal Studies 111A and Legal Studies 160B or

2. Completion of Legal Studies 196 or
3. Completion of a senior thesis, Legal Studies 195A, B, C (2-3 quarters).

COMPREHENSIVE REQUIREMENT—1 COURSE

Students can satisfy the comprehensive requirement in the legal studies major by successfully completing one of the following:

Senior Thesis (2-3 quarters). Completion of a senior thesis (Legal Studies 195A-B-C) of a minimum of 50 pages with a substantial research content, supervised by a legal studies faculty member.

Senior Capstone. The capstone (Legal Studies 196) is designed to provide an interdisciplinary integration of themes related to the study of law and includes a substantial writing requirement.

HONORS

Honors in the legal studies major are awarded to graduating seniors, based primarily on a review of grades, whose academic performance is judged to be consistently excellent by a faculty committee. Highest honors in the major are reserved for students with consistently outstanding academic performance.

TRANSFER STUDENTS

A student transferring to UCSC must meet with the legal studies undergraduate adviser as early as possible to discuss declaring the major and course enrollment. This ensures a smooth transition. Students should bring a copy of their UCSC Transfer Credit Summary, which may be printed from the student portal.

REQUIREMENTS FOR THE MINOR

To complete a minor in legal studies, a student must take Legal Studies 10 and any five upper-division legal studies core courses numbered 101-190.

LEGAL STUDIES FACULTY AND PROFESSIONAL INTERESTS

Elizabeth Beaumont, Associate Professor, Politics
Constitutionalism, democracy, and American political development; civic engagement and education; citizenship, rights, and problems of inequality; social movements and popular constitutionalism

Donald Brenneis, Professor of Anthropology
Linguistic anthropology, folklore, legal anthropology, ethnomusicology, overseas Indians, South Asia, disputing and dispute management, legal language, bureaucratic institutions, knowledge production, improvisation

Ryan Coonerty, Lecturer, Legal Studies
American political history, democratic systems, local governance, constitutional and international laws

Gina Dent, Associate Professor, Feminist Studies, History of Consciousness, and Legal Studies

Africana literary and cultural studies, legal theory, popular culture

Hiroshi Fukurai, Professor of Sociology
Citizen participation in the justice system, international law, race and inequality, East Asian law and politics, military and justice, and advanced quantitative methods

Craig W. Haney, Professor of Psychology
Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual origins of violence, development of alternative legal and institutional forms

Ruth Langridge, Lecturer, Legal Studies
Water resource issues, including control over, access to, and management of water; climate change; drought;

Legal Studies

groundwater management; theoretical and political issues related to property

Mark Fathi Massoud, Associate Professor of Politics

Law and society; human rights; international law and development, with a special interest in Sudan; field research, with an emphasis on qualitative and ethnographic methods

Triloki Nath Pandey, Professor Emeritus of Anthropology

Daniel M. Press, Professor of Environmental Studies

U.S. environmental politics and policy, social capital and democratic theory, industrial ecology, land and species conservation, regionalism

Craig Reinerman, Professor of Sociology

Political sociology; law, crime, and social justice; drugs and society

Daniel J. Wirls, Professor of Politics

American politics, including national political institutions (Congress) and the President; public policy (military and foreign policy) and political history

Donald A. Wittman, Professor of Economics

Economic theory, politics, law

Dane Archer, Emeritus

John Dizikes, Emeritus

Walter L. Goldfrank, Emeritus

Michael E. Urban, Emeritus

LEGAL STUDIES COURSES

LOWER-DIVISION COURSES

10. Introduction to Legal Process. F,W

Introduction to U.S. and comparative legal institutions and practices. Examines diverse areas of law from torts to civil rights to international human rights. Why is America portrayed as having an activist legal culture; why is law used to decide so many questions from presidential elections to auto accidents; can law resolve disputes that, historically, have led to war and violence; is the legal system fair and/or effective, and, if so, for whom and under what conditions? J. GEHRING, THE STAFF

UPPER-DIVISION COURSES

105A. Ancient Political Thought. W

Explores tensions between reason and revelation, justice and democracy, and freedom and empire through close readings of ancient texts. Emphasis on Athens, with Hebrew, Roman, and Christian departures and interventions. Includes Sophocles, Thucydides, Socrates, Plato, Aristotle, Stoics, the Bible, and Augustine. (Also offered as Politics 105A. Students cannot receive credit for both courses.)

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. D. MATHIOWETZ

105B. Early Modern Political Thought. F

Studies republican and liberal traditions of political thought and politics. Authors studied include Hobbes, Locke, and Rousseau. Examination of issues such as authorship, individuality, gender, state, and cultural difference. (Also offered as Politics 105B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. V. SETH

105C. Modern Political Thought. S

Studies in 19th- and early 20th-century theory, centering on the themes of capitalism, labor, alienation, culture, freedom, and morality. Authors studied include J. S. Mill, Marx, Nietzsche, Foucault, Hegel, Fanon, and Weber. (Also offered as Politics 105C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. THOMAS, THE STAFF

106. Marxism as a Method. W

Examines Marx's use of his sources

in political philosophy and political economy to develop a method for analyzing the variable ways in which social change is experienced as a basis for social action. Provides a similar analysis of contemporary materials. Contrasts and compares Marxian critiques of these materials and readings based on Nietzsche, psychoanalysis, cultural studies, and rational choice materialism. (Also offered as Politics 106. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment only. THE STAFF

108. Gender, Sexuality, and Law. W

Analysis of legal issues related to gender, sexuality, and sexual orientation. Introduction to the key areas of gender and sexuality regulated by law and critical analysis of how law and policy should and do treat these issues. Enrollment restricted to sophomore, junior, and senior legal studies majors during first and second pass enrollment only. THE STAFF

109. Legal Theory. F

Offers systematic exploration of alternative conceptions of the nature of law, including positivism, natural law, formalism, realism, pragmatism, and theories of justice.

Legal Studies

Additional focus on the nature of law; relation of law and morality, rights and other legal concepts; and philosophical debates such as critical legal studies and critical race theory. Enrollment restricted to legal studies majors during first and second pass enrollment only. THE STAFF

110. Law and Social Issues. F

Examines current problems in law as it intersects with politics and society. Readings are drawn from legal and political philosophy, social science, and judicial opinions. (Also offered as Politics 110. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment only. THE STAFF

111A. Constitutional Law. F

An introduction to constitutional law, emphasizing equal protection and fundamental rights as defined by common law decisions interpreting the 14th Amendment, and also exploring issues of federalism and separation of powers. Readings are primarily court decisions; special attention given to teaching how to interpret, understand, and write about common law. (Also offered as Politics 111A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to legal studies majors during priority enrollment only. THE STAFF

111B. Civil Liberties. S

Explores the status of American civil liberties as provided by the Bill of Rights. Particular attention will be given to issues of concern relating to the aftermath of 9/11, including issues relating to detainees, freedom of information requests, wiretapping authority, watch lists, profiling, and creation of a domestic intelligence agency. Enrollment restricted to legal studies majors during first and second pass enrollment only. K. BEAUMONT, THE STAFF

111C. Issues in Constitutional Law. W

Examines variety of topics in constitutional law that are not covered in courses 111A and 111B. Focuses primarily on Supreme Court decisions and common-law debates. Enrollment restricted to legal studies majors during first and second pass enrollment. R. COONERTY

113. Gay Rights and the Law. S

Examines relevant court cases as well as local, state, and federal laws that define boundaries for legal recognition of sexual orientation and personal sexuality. Explores legal assumptions behind current and historical cases defining personal sexuality and sexual orientation and considers the social and political impetus in each era that drove the courts and legislatures to make such decisions. THE STAFF

114. Jews, Anti-Semitism, and the American Legal System. F

Explores how Jews have influenced and been impacted by the American legal system. Students explore significant cases, debates, and trends in the law as it relates to Jewish identity, religious freedom, and conceptions of justice. Enrollment restricted to legal studies and Jewish studies majors during first and second pass enrollment. THE STAFF

115. Law and the Holocaust. *

Examines the Nazi philosophy of law, and how it was used to pervert Germany's legal system in order to discriminate against, ostracize, dehumanize, and ultimately eliminate certain classes of human beings, and the role of international law in rectifying the damage. Enrollment restricted to legal studies majors during priority enrollment only. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

116. Comparative Law. S

Explores legal systems and legal rules around the world, for a better understanding of the factors that have shaped both legal growth and legal change. Particular attention

given to differences between common and civil law systems, changes brought about by the European Union, and expansion of legal norms around the globe. (Also offered as Politics 116. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. J. GEHRING

118. Law and Literature. *

Explores variety of texts including novels, short stories, and essays as a source for reflection about the nature of law and legal practice. Readings include such writers as Herman Melville, Harper Lee, Richard Wright, Arthur Miller, Nadine Gordimer, and James Alan McPherson, among others. (Formerly course 138.) Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

120A. Congress, President, and the Court in American Politics. *

Study of political development, behavior, performance, and significance of central governmental institutions of the U.S. Emphasizes the historical development of each branch and their relationship to each other, including changes in relative power and constitutional responsibilities. (Also offered as Politics 120A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. D. WIRLS

120B. Society and Democracy in American Political Development. W

Examines the role of social forces in the development of the American democratic processes and in the changing relationship between citizen and state. Course materials address the ideas, the social tensions, and the economic pressures bearing on social movements, interest groups, and political parties. (Also offered as Politics 120B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the

Legal Studies

Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. M. SPRINGER

120C. State and Capitalism in American Political Development. S

Examines the relationship between state and economy in the U.S. from the 1880s to the present, and provides a theoretical and historical introduction to the study of politics and markets. Focus is on moments of crisis and choice in U.S. political economy, with an emphasis on the rise of regulation, the development of the welfare state, and changes in employment policies. (Also offered as Politics 120C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. E. BERTRAM

121. Black Politics and Federal Social Policy. *

Examination of changes in the political and economic status of African Americans in the 20th century; particular focus on the role of national policies since 1933 and the significance of racism in 20th-century U.S. political development. (Also offered as Politics 121. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. M. BROWN

122. The Sociology of Law. *

Explores the social forces that shape legal outcomes and the ways law, in turn, influences social life. Traces the history and political economy of American law; the relation between law and social change; how this relation is shaped by capitalism and democracy; and how class, race, and gender are expressed in welfare and regulatory law. (Also offered as Sociology 122. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors and minors. C. REINARMAN

123. Law, Crime, and Social Justice. *

Blends the latest research in

criminology with that from social stratification, inequality, and social welfare policy with the objective of exploring the relationship between levels of general social justice and specific patterns of crime and punishment. The focus is primarily on the U.S. although many other industrialized democracies are compared. An introductory course in sociology is recommended as preparation. (Also offered as Sociology 123. Students cannot receive credit for both courses.) F. GUERRA, THE STAFF

125. History of the U.S. Penal Culture. *

Explores the history and theory of U.S. state punishment from its 17th-century beginnings to the present and notes evolving models of criminal deviance, focusing on how punishment systems legitimate particular models of criminal deviance, crime, and its "correction." Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

126. Law and Politics in Contemporary Japan and East Asian Societies. *

Introduction to contemporary analysis of Japan's race relations, ethnic conflicts, and a government's failure to restore remedial justice for war victims in Japan, Asia, and the U.S. Specific issues include comfort women, national or state narratives on Hiroshima, forced labor during World War II, and Haydon legislation that allows war victims to sue the Japanese government and corporations in California. (Also offered as Sociology 128. Students cannot receive credit for both courses.) Enrollment limited to 30. H. FUKURAI

127. Drugs in Society. *

Explores the history of the use and abuse of consciousness-altering substances like alcohol and other drugs. Social-psychological theories of addiction are reviewed in tandem with political-economic analyses to identify the social conditions under which the cultural practices involved in drug use come to be

defined as public problems. An introductory sociology course is recommended prior to taking this course. (Also offered as Sociology 127. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors and minors. C. REINARMAN

128. Poverty and Public Policy. W

Studies the causes, consequences, and governmental response to urban poverty in the U.S. Topics include how public policy, the macroeconomy, race, gender, discrimination, marriage, fertility, child support, and crime affect and are affected by urban poverty. Emphasizes class discussion and research. (Also offered as Economics 128. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M, and Economics 113. Enrollment restricted to economics, business management economics, global economics, legal studies, or economics combined majors. THE STAFF, L. KLETZER, R. FAIRLIE

128C. Social History of Democracy, Anarchism, and Indigenism. *

Provided an overview of socio-political theories and thoughts from Athenian Direct Democracy in 500 BC, to Classical Liberalism, Social Contract, Libertarian Socialism, Anarcho-Syndicalism, Neo-Liberalism, Anarcho-Primitism, and lastly Indigenism in relation to the revival of indigenous knowledge, the "Mother Earth" law, and the restoration of the nature's rights as espoused by many governments in the Third World today. (Also offered as Sociology 128C. Students cannot receive credit for both courses.) Prerequisite(s): SOCY 1, 10, or 15. Enrollment restricted to sophomore, junior, and senior sociology, critical race and ethnic studies, community studies, legal studies, Latin American/sociology combined, and GISES majors, proposed majors, and minors. (General Education Code(s): CC.) THE STAFF

128I. Race and Law. W

An introduction to comparative and historical analyses of the relation

Legal Studies

between race and law in the U.S. Emphasis on examinations of continuous colonial policies and structural mechanisms that help maintain and perpetuate racial inequality in law, criminal justice, and jury trials. (Formerly Race and Justice) (Also offered as Sociology 128I. Students cannot receive credit for both courses.) Enrollment is restricted to sophomores, juniors, and seniors. H. FUKURAI

128J. The World Jury on Trial. * Adoption of the jury and its varied forms in different nations provides ideal opportunities to examine differences between systems of popular legal participation. Course considers reasons why the right to jury trial is currently established in Japan or Asian societies, but abandoned or severely curtailed in others. American jury contrasted with other forms of lay participation in the legal process. (Also offered as Sociology 128J. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 30. H. FUKURAI

128M. International Law and Global Justice. F Examines war crimes, crimes against humanity, and the evolution and role of the International Criminal Court (ICC). Examines the evolution of the concept of international law, the rationale for its birth and existence, roots of international conflicts and genocides, possible remedies available to victims, mechanisms for the creation and enforcement of international legal order, as well as the role of colonialism, migration, poverty, race/ethnic conflicts, gender, and international corporations in creating and maintaining conflicts and wars. (Also offered as Sociology 128M. Students cannot receive credit for both courses.) Enrollment restricted to sophomores, juniors and seniors. Enrollment limited to 30. H. FUKURAI

130. Race and the Law. * Explores the complex relationship between race and the law in

American society. Included subjects are critical race theory, civil rights and voting rights law, issues of the criminal justice system, intersections with issues of class and gender, and the social construction of race through law and legal decisions. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

131. Wildlife, Wilderness, and the Law. * Introduction to wildlife, wilderness, and natural resources law, policy, and management. Examines rules governing resource allocation and use including discussion of fundamental legal concepts. Explores laws and management policies affecting wildlife and wilderness, including their origins and impacts. Examines how conflicts over natural resources are being negotiated today. Enrollment restricted to sophomore, junior, and senior legal studies majors during first and second pass enrollment. R. LANGRIDGE

132. California Water Law and Policy. W Explores the rich history and fundamental legal concepts surrounding water in California. Students identify, evaluate, and debate some critical water policy questions faced by Californians today and in the future. (Also offered as Politics 132. Students cannot receive credit for both courses.) R. LANGRIDGE

133. Law of Democracy. S Explores the role of law in both enabling and constraining the actions of elected politicians in the U.S. Among issues examined are voting rights, redistricting, and campaign finance. Course asks how the law shapes and limits our ability to choose our elected leaders, and in turn, how the law is shaped by political forces. (Also offered as Politics 133. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. R. COONERTY

134. Congress: Representation and Legislation. * Examines the United States Congress and the nature of the representative and legislative processes. Topics include: districting and elections; bicameralism; party organization; institutional and behavioral influences on legislative action; and the efficacy of Congress as a legislative body. Focuses on the contemporary Congress with comparisons to other legislative and representative institutions. (Formerly Congress: Representation and Legislation in Comparative Perspective.) (Also offered as Politics 134. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. D. WIRLS

135. Native Peoples Law. S Explores the legal relationship between native peoples and the state. Examines the development of that relationship and several of the key legal issues currently confronting native peoples as they attempt to redress the injustices of the past. Enrollment restricted to legal studies majors during first and second pass enrollment. P. CROOK, THE STAFF

136. Federal Indian Law and International Comparative Indigenous Peoples' Law. * Indian law refers to the body of law dealing with the status of Indian tribes, their inherent powers of self-government, their special relationship to the federal government, and the actual or potential conflicts of governmental power. Primary objective will be to address tribal reassertion of aboriginal sovereignty over culture and land in the context of increasing world recognition of indigenous rights. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

137. International Environmental Law and Policy. * International environmental law (IEL) endeavors to control pollution and depletion of natural resources within a framework of sustainable

Legal Studies

development and is formally a branch of public international law—a body of law created by nation states for nation states, to govern problems between nation states. Examines landmark developments of IEL since 1972 within a historical continuum to better understand their strengths and weaknesses. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

138. Political Anthropology. *

The ideas, in selected non-Western societies, about the nature of power, order, social cohesion, and the political organization of these societies. (Also offered as Anthropology 138. Students cannot receive credit for both courses.) Offered in alternate academic years. T. PANDEY

139. War Crimes. *

Explores complex international human rights/humanitarian law issues surrounding genocide and other mass violence, beginning with the Nuremberg trials following World War II up to recent atrocities in Rwanda, Bosnia, and elsewhere. Covers basic legal framework of human rights law, examines specific situations on a case by case basis, and discusses what options the international community, the nations themselves, and individuals have in the wake of such catastrophes. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

142. Anthropology of Law. *

An ethnographically informed consideration of law, dispute management, and social control in a range of societies including the contemporary U.S. Topics include conflict management processes, theories of justice, legal discourse, and relations among local, national, and transnational legal systems. (Also offered as Anthropology 142. Students cannot receive credit for both courses.) Enrollment restricted to anthropology and legal studies majors. D. BRENNEIS

144. Topics in Social and Political Philosophy. *

A study of selected classical and

contemporary writings dealing with topics such as the nature and legitimacy of the liberal state, the limits of political obligation, and theories of distributive justice and rights. (Formerly Social and Political Philosophy.) (Also offered as Philosophy 144. Students cannot receive credit for both courses.) Prerequisite(s): one course in philosophy. Offered in alternate academic years. May be repeated for credit. D. GUEVARA

146. Philosophy of Law. *

Exploration of selected problems in jurisprudence: "legal reasoning" and social policy, rules and individual cases, the mental element in the law, punishment and responsibility, causation and fault, liberty and paternalism, etc. (Formerly Philosophy 146.) (Also offered as History of Consciousness 146. Students cannot receive credit for both courses.) J. NEU

147A. Psychology and Law. W

Current and future relationships between law and psychology, paying special attention to gaps between legal fictions and psychological realities in the legal system. Topics include an introduction to social science and law, the nature of legal and criminal responsibility, the relationship between the social and legal concepts of discrimination, and the nature of legal punishment. (Also offered as Psychology 147A. Students cannot receive credit for both courses.) Psychology 3 or 100 and 40 are recommended prior to taking this course. Enrollment restricted to psychology, pre-psychology, and legal studies majors. C. HANEY

147B. Psychology and Law. S

Continuing discussion of current and future relationships between law and psychology and to contrasting psychological realities with legal fictions. Special attention is given to the criminal justice system including crime causation, the psychology of policing and interrogation, plea bargaining, jury selection and decision making, eyewitness identification, and the psychology of imprisonment. (Also

offered as Psychology 147B. Students cannot receive credit for both courses.) Prerequisite(s): course 147A. C. HANEY

149. Environmental Law and Policy. S

Surveys a wide range of topics in environmental law, including state and federal jurisdiction, administrative law, separation of powers, state and local land use regulation, public land and resource management, pollution control, and private rights and remedies. Students read a large number of judicial cases and other legal documents. (Also offered as Environmental Studies 149. Students cannot receive credit for both courses.) Enrollment restricted to junior and senior legal studies majors. T. DUANE

150. Children and the Law. *

Explores the legal rights of children. Topics may include juvenile justice, gang offenses, free speech and Internet censorship, religious rights, child custody and support, adoption, foster care, abuse and sexual harassment, special needs, public benefits, and medical care. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

151. Politics of Law. F

Uncovers the important debates in politics and law around the functions of courts, litigation, and rights--and the political nature of law itself. Course is interdisciplinary, and draws from literature in political science, law, and sociology. (Also offered as Politics 151. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

152. Courts and Litigation. *

A study of the role of courts in society and the uses of litigation to address and deflect social problems. Focus is on recent developments in American litigation, but comparative materials may be considered. Enrollment restricted to

Legal Studies

legal studies majors during first and second pass enrollment. THE STAFF

154. The Legal Profession. *

Lawyers stand between the legal system and those who are affected by it. Examines this relationship descriptively and normatively, and from the point of view of sociological theory. Concentrates on the U.S. profession, with some comparative material. Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

155. Topics in American Legal History: Making of American Constitutionalism. *

Explores some aspects of early American constitutional thought, particularly immediately preceding the American Revolution situating early colonial constitutional thought within some of the larger themes and controversies of the 17th-century English constitutionalism, then considering some aspects of American constitutional thought in the founding period against the background of the colonial experience. Prerequisite(s): permission of instructor: selection based on the ability to do very advanced work. Enrollment restricted to legal studies majors during first and second pass enrollment. Enrollment limited to 20. THE STAFF

156. Administrative Law and Challenges of Regulation. *

The rise of the regulatory state brings with it a host of questions regarding the exercise of state power and separation of powers. Takes up some of these questions; in particular, questions about administrative agencies and their relationship to the judiciary, the legislature and private individuals and groups. (Formerly Administrative Jurisprudence.) Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

157. Political Jurisprudence. *

Explores some themes in legal and political theory, especially on the relationship of theories of justice, law, and ethics. Enrollment restricted to legal studies majors

during first and second pass enrollment. THE STAFF

159. Property and the Law. F

Begins with an examination of the concept of property, then covers how different cultures characterize property and determine "ownership" and the laws and policies that define property in modern society. Topics include theories of property law, common property, property and natural resources, zoning, regulatory takings, and intellectual and cultural property. Enrollment restricted to legal studies majors during first and second pass enrollment. R. LANGRIDGE

160A. Industrial Organization. W

The structure and conduct of American industry with strong emphasis on the role of government, regulation, anti-trust, etc. The evolution of present-day industrial structure. The problems of overall concentration of industry and of monopoly power of firms. Pricing, output decisions, profits, and waste. Approaches include case study, theory, and statistics. (Also offered as Economics 160A. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M. N. LAZZATI, THE STAFF

160B. International Law. W

Origins and development of international law: international law is examined both as a reflection of the present world order and as a basis for transformation. Topics include state and non-state actors and sovereignty, treaties, the use of force, and human rights. (Formerly course 173.) (Also offered as Politics 160B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. MASSOUD, THE STAFF

162. Legal Environment of Business. *

A study of law and the legal process, emphasizing the nature and function of law within the U.S. federal system. Attention is given to the legal problems pertaining to contracts and related topics,

business association, and the impact of law on business enterprise. (Also offered as Economics 162. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A. R. BOSSO

167. Politics of International Trade. *

Examines key issues in international trade, including the distribution of gains, fair trading practices, and preferential trade agreements. Focuses on the political dimensions of trade, the rules of the international trade system, and conflicts within countries that international trade generates. (Also offered as Politics 167. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

169. Economic Analysis of the Law. F

The application of the theories and methods of neoclassical economics to the central institutions of the legal system, including the common law doctrines of negligence, contract, and property; bankruptcy and corporate law; and civil, criminal, and administrative procedure. (Also offered as Economics 169. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M or permission of instructor. D. WITTMAN

171. Law of War. *

Examines legal regulation of international violent conflict. Students examine development of normative standards within international law and creation of institutions to both adjudicate violations and regulate conduct. (Also offered as Politics 171. Students cannot receive credit for both courses.) Enrollment restricted to legal studies majors during first and second pass enrollment. THE STAFF

175. Human Rights. *

Embraces an interdisciplinary approach to the study of human rights. Captures the malleable nature of human rights and the contours of its dual role as both law

Legal Studies

and discourse. (Also offered as Politics 175. Students cannot receive credit for both courses.) Prerequisite(s): course 160B. Enrollment restricted to legal studies majors during first and second pass enrollment. M. MASSOUD, J. GEHRING

183. Women in the Economy. * Study of gender roles in economic life, past and present. Topics include occupational structure, human capital acquisition, income distribution, poverty, and wage differentials. The role of government in addressing economic gender differentials is examined. (Also offered as Economics 183. Students cannot receive credit for both courses.) Prerequisite(s): Economics 100A or 100M. Economics 113 is strongly recommended. J. POOLE

190R. Comparative Law and Society. * Interdisciplinary investigation into functions of law across political, historical, and cultural contexts. Examines the international and comparative turn in public law scholarship and the role of law-based strategies in state building. Reviews literature in law, political science and legal anthropology. (Also offered as Politics 190R. Students cannot receive credit for both courses.) Prerequisite(s): course 160B. Enrollment restricted to senior legal studies majors. Enrollment limited to 20. M. MASSOUD

193. Field Study. F,W,S Field research performed off-campus, under the supervision of a member of the legal studies faculty. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195A. Senior Thesis. F,W,S Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. THE STAFF

195B. Senior Thesis. F,W,S Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. THE STAFF

195C. Senior Thesis. F,W,S Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. THE STAFF

196. Senior Capstone. F,W,S Examines related legal topics from an interdisciplinary perspective. Each focuses broadly on the relationship between law as a distinct system and law as an attempt to achieve justice, which

requires that law remain open to claims of political morality generally. To what extent are legal norms internal to a separate system called "law" and to what extent are claims of political right in general relevant to question of what law is? Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior legal studies majors. J. GEHRING

198. Independent Field Study. F,W,S Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S A student normally approaches a faculty member and proposes a course 199 on a subject he or she has chosen. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S A student normally approaches a faculty member and proposes a course 199 on a subject he or she has chosen. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

LINGUISTICS

2017-18 General Catalog

241 and 243 Stevenson College

(831) 459-2905

(831) 459-4988

<http://linguistics.ucsc.edu>

PROGRAM DESCRIPTION

Linguistics is an exact and structured discipline that examines human language. It has connections to many other fields in the humanities (philosophy, literature), the social sciences (anthropology, psychology, sociology), the natural sciences (biology, neuroscience, acoustics), computer science, computer engineering, and artificial intelligence.

The central areas of linguistics investigate the knowledge that speakers of a language have about its structure. Syntax is concerned with the rules that combine words into larger units of phrases and sentences. Semantics is the study of the meanings of linguistic units and how they are combined to form the meanings of sentences. Phonetics deals with the physical properties of language sounds. Phonology investigates the sound systems of particular languages. Morphology investigates the ways in which words are formed from prefixes, roots, and suffixes. Pragmatics is the study of language use. Psycholinguistics is concerned with the cognitive mechanisms by which language is put to use in producing and perceiving speech.

The faculty in the Linguistics Department have primary research and teaching interests in one or more of these areas. Other perspectives on language study represented include computational and corpus linguistics, sociolinguistics, the study of poetic language, and the study of language change.

The programs offered by the Linguistics Department are designed to acquaint students with the central aspects of linguistic structure and the methodologies and perspectives of the field. The department offers two undergraduate majors, linguistics and language studies, and a graduate program in theoretical linguistics. The linguistics major leads to a bachelor of arts (B.A.) degree in linguistics; the language studies major leads to a B.A. degree in language studies (see Language Studies). The graduate program leads to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in linguistics.

The department also offers a combined B.A./M.A. pathway which makes it possible for certain well-qualified, highly motivated students to complete the requirements for both degrees in five years rather than the usual six.

PROGRAM LEARNING OUTCOMES

The program learning outcomes for the linguistics major are the following: (1) capacity for rigorous analytical thinking (e.g., in forming and testing hypotheses), (2) ability to write clearly and articulately, (3) understanding of the general properties of language, and (4) active command of linguistic theory and linguistic investigation. For the program learning outcomes of the M.A. and Ph.D. programs, see [this information](#).

QUALIFICATION POLICY FOR THE LINGUISTICS MAJOR

The Linguistics Department has adopted a major qualification policy for linguistics and language studies majors that is intended to encourage students to take their performance in the gateway courses seriously and to help them lay a solid foundation for further course work in the major.

In order to declare the linguistics or language studies major, a student must pass each of the two gateway courses, Linguistics 50, Introduction to Linguistics, **and** Linguistics 53, Semantics I, with a grade of C+ or better.

Students who are informed that they are not eligible to declare the major may appeal the decision within 15 days from the date the notification was mailed. They should do this by submitting a formal letter, addressed to the department's undergraduate program director, to the Linguistics Department office (Stevenson 241 and 243). This letter should explain any extenuating circumstances that influenced performance in the gateway courses. Within 15 days of receipt of the appeal, the department will notify the student, the student's college, and the Office of the Registrar of the decision.

REQUIREMENTS OF THE LINGUISTICS MAJOR

Students in the linguistics major are required to complete 12 courses in linguistics and related disciplines.

Seven named courses in linguistics:

- 50, Introduction to Linguistics

Linguistics

- 53, Semantics I
- 101, Phonology I
- 102, Phonology II
- 112, Syntax I
- 113, Syntax II
- 116, Semantics II

Five upper-division elective courses in linguistics.

Students may petition the department to have elective courses offered through other institutions or other UC programs applied toward the major requirements. At most three such courses can be applied toward the major. These courses must be upper-division and clearly fit into a coherent program of study in linguistics.

Foreign language/mathematics competency

requirement: Linguistics majors are required to demonstrate either foreign-language or mathematics competency as follows:

- **Foreign-language competency:** Students must successfully complete five quarters of language study at UCSC or demonstrate an equivalent level of competence through a recognized language test or evidence of credit from another institution. In cases where five quarters of instruction for a language are not offered at UCSC, students may opt to complete (or demonstrate equivalent level of competence for) three quarters of one language and three quarters of a second language. For Latin and Greek, three of the designated courses will be equivalent to all five levels.
- **Mathematics competency:** Alternatively, students with a strong formal background can choose to satisfy the mathematics competency requirement by demonstrating sufficient preparation in mathematics for advanced formal work in linguistics. This requirement is satisfied by passing two courses chosen from the following list: Applied Mathematics and Statistics 7 or 131; Computer Engineering 16; Computer Science 5C, 5J, 5P, 10, 11, 12A, 12B, 140, or 148; Mathematics 30, 100, 115, 160, or 161; Philosophy 9; or any course which has one of these courses as a prerequisite.

Senior exit requirement: In their senior year, linguistics majors must satisfy the senior exit requirement in one of two ways:

Option 1. Successful completion of a capstone course—an appropriate upper-division linguistics elective. Students must have senior standing and must have completed Linguistics 53, Semantics I; 101, Phonology I; **and** 112, Syntax I.

Option 2. Senior thesis supervised by a faculty member. The proposal for a senior thesis must be submitted for

approval by the department faculty at least three quarters prior to the quarter of graduation.

Students enroll in Linguistics 195, Senior Thesis.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in linguistics is satisfied by completing courses 101 **and** 112.

REQUIREMENTS OF THE MINOR

To graduate with a minor in linguistics, students must complete eight linguistics courses:

- 50, Introduction to Linguistics
- 53, Semantics I
- 101, Phonology I
- 112, Syntax I
- Four upper-division elective courses in linguistics

There is no senior exit requirement and no foreign language/mathematics competency requirement for the minor.

COURSES

The 80-level courses have no prerequisites, although most will fulfill a general education requirement. They are intended to introduce the concepts of linguistics through their relation to other areas of general interest.

Course 50, Introduction to Linguistics, introduces the subfields of the discipline. Courses 53, Semantics I; 101, Phonology I; **and** 112, Syntax I, serve as entry courses to the specialized upper-division sequences. Upper-division courses generally have at least two of these courses as a prerequisite.

Several upper-division elective courses are offered each quarter. For a list of these courses, visit [the department's website](#).

To enroll in the graduate (200-level) courses, undergraduates need special permission from the instructor. Permission is usually granted only to especially motivated undergraduates who have completed all the named requirements for the major with excellent performance.

HONORS

Students who wish to be considered for honors should meet the deadline posted by the Office of the Registrar for declaring the intent to graduate. Determination of honors is based on the student's grades and narrative evaluations for all courses relevant to the major and other factors relevant to an assessment of academic excellence, such as research papers of professional

Linguistics

quality. Generally, honors in the major are awarded only to the top 10 percent of those graduating in the major. Only those students whose performance in coursework is excellent will qualify. Highest honors are rarely awarded, and then only to students whose performance in coursework is outstanding and who have completed an outstanding senior thesis.

PREPARATION FOR THE UCSC MASTER'S DEGREE

Every year, UCSC students who have the B.A. in linguistics or language studies can apply to be admitted into the graduate program to pursue the M.A. in theoretical linguistics. Interested students should discuss the possibility with one or more faculty members and formally apply online to the graduate program during the fall quarter of the senior year. For up-to-date information about the application process, consult [the department's website](#); and see the department manager. The combined B.A./M.A. program (see below) provides another pathway to the M.A. program.

FIVE-YEAR CONTIGUOUS BACHELOR'S/MASTER'S PATHWAY

The B.A./M.A. pathway in linguistics is a demanding, selective option that allows students who are well prepared and well motivated to complete the requirements for both degrees in five years rather than the usual six.

Admission to the pathway has two stages. In the first stage, interested students first consult with the undergraduate program director and one or more faculty members, and then apply to be admitted to the pathway by the sixth week of the first quarter of their junior year. Transfer students should consult with the undergraduate program director if they are contemplating this pathway. In order to be accepted at this first stage, students must have demonstrated excellence in at least three courses that are named requirements for the linguistics major.

Students accepted at this initial stage are assigned a faculty mentor who monitors their progress closely.

At the second stage of the admission procedure, students apply in their senior year to be admitted to the M.A. program through UCSC's normal graduate admissions process. If accepted, ideally they complete all course requirements and complete and defend the M.A. thesis by the end of the fifth year.

Students in the B.A./M.A. pathway take a number of graduate courses in their senior year, which are selected in close consultation with the faculty mentor. Performance in these courses forms a central part of the ongoing evaluation process. If a student's performance does not meet the standards set for the

pathway, the student completes the B.A. at the end of the senior year and does not proceed to the M.A.

Graduate courses required for the M.A. are taken partly in the senior year and partly in the fifth year. The M.A. thesis is written in the fifth year. Thus, by the end of the fifth year, students in the pathway will have fulfilled the requirements for both the B.A. and the M.A. degrees. Students who need additional time may remain in the pathway until the M.A. thesis is completed and defended. Students admitted into the B.A./M.A. pathway must complete a minimum of 35 credits as an M.A. student, regardless of the number of graduate courses completed as an undergraduate.

GRADUATE PROGRAM

The graduate program in linguistics at UCSC is a small, focused program in linguistic theory leading to doctor of philosophy (Ph.D.) or master of arts (M.A.) degrees. The research interests of faculty and students draw mostly on the framework of generative grammar, with a primary focus on theoretical and experimental approaches to morphology, phonetics, phonology, pragmatics, psycholinguistics, semantics, and syntax. Research strengths also include the study of various languages, computational methods, and field methods.

Each year the department admits approximately five new students to the doctoral program and a smaller number of new students to the M.A. program. The master's degree can be completed in one or two years, depending on the student's previous background in linguistics.

While committed to training in theoretical depth, the program makes possible an unusual breadth of theoretical and experimental understanding. Research in syntax focuses on ways in which generative theory and language-particular analysis inform one another. Faculty expertise covers principles and parameters theory, minimalism, and experimental syntax. Research in phonetics and phonology is pursued in various current frameworks, including optimality theory and dispersion theory. The issues covered range from phonetics and the phonetics-phonology interface to prosodic theory, prosodic morphology, and the syntax-phonology interface. Research in semantics applies formal, model-theoretic techniques to illuminate the interface between syntactic structure and interpretation and the role of semantic competence in the pragmatics of utterance interpretation. Experimental research in these areas reaches out to a broad range of issues in psycholinguistics and cognitive science.

The faculty have expertise in a diverse range of languages, including Chamorro, German, Hebrew, Hindi, Hungarian, Irish, Japanese, Latin, Northern Paiute, Persian, Romanian, Russian, Spanish, and Turkish.

From the beginning of their studies, students are engaged in original research and critical evaluation,

Linguistics

since the program aims to provide sophisticated training as a foundation for a career in academic research and teaching. The program begins with a sequence of foundation courses in phonetics, phonology, syntax, semantics, and psycholinguistics, addressing both formal and experimental approaches. Subsequent coursework emphasizes depth; it is increasingly centered around the doctoral student's independent research, culminating in the completion of a dissertation.

UNDERGRADUATE PREPARATION

Applications are invited from students who have completed an undergraduate linguistics major or who have demonstrated excellence in some related discipline (psychology, mathematics, computer science, anthropology) and have the equivalent of a minor in linguistics. A student applying for admission to this program should, at a minimum, have a good foundation in at least one of the following: phonetics, phonology, psycholinguistics, morphology, semantics, or syntax. Students entering the program with a deficiency in one or more areas may need to take appropriate undergraduate courses at UCSC during the first year of graduate study.

REQUIREMENTS FOR THE M.A.

Courses. All students are required to take **five core courses** drawn from the following list. The three starred courses must be taken by all students.

- *211, Phonology A
- 212, Phonology B
- *221, Syntax A
- 222, Syntax B
- *232, Semantics A
- 232, Semantics B

Students must take **one additional course** from the following list:

- 214, Phonetics
- 257, Psycholinguistics and Linguistic Theory
- 280, Experimental Methods
- 282, Field Methods
- Any of 212, 222, or 232, which were not already taken as one of the five designated core courses.

Additionally students must take **three electives** that form a coherent plan of study, as determined by the student's adviser in consultation with the student. These electives are typically drawn from graduate courses offered by Linguistics and other related disciplines and independent study courses with Linguistics faculty.

The nine required courses must be taken as 5-credit courses. For any of the courses above, satisfactory

completion (grade of P or A- or higher) prior to entry to the M.A. program will count toward course requirements for the M.A. degree. Pursuant to UC Santa Cruz Graduate Division Policy, students must complete a minimum of 35 credits within the Linguistics Department graduate curriculum as an M.A. student.

Languages. Reading competence in one foreign language, to be demonstrated by examination.

Master's thesis. Submission of a master's thesis in a core area of theoretical linguistics approved by a committee of three faculty members.

REQUIREMENTS FOR THE PH.D.

Courses. A minimum of 65 credits of graduate-level work. All students are required to take the following **nine core courses**:

- 211, Phonology A
- 212, Phonology B
- 214, Phonetics
- 221, Syntax A
- 222, Syntax B
- 231, Semantics A
- 232, Semantics B
- 257, Psycholinguistics and Linguistic Theory
- 280 or 282, Experimental Methods, or Field Methods

Each student must also take **four seminars**. One of these must be 290 (Research Seminar) and the remaining three seminars or proseminars must form a coherent program of study, as determined by the student's adviser in consultation with the student.

The 13 required courses must be taken as 5-credit courses.

Languages. Reading competence in one foreign language, to be demonstrated by examination.

Qualifying papers and examination. Two research papers, each in a distinct area, must be separately and orally defended by the end of the third year as part of the requirements for advancement to candidacy. Once the student has successfully defended these two papers, the prospective candidate is then examined by the faculty on topics related to the student's major area of research, as part of the qualifying examination. The student is expected to file a dissertation prospectus with the department in the fourth year.

Dissertation Prospectus. The student is expected to file a dissertation prospectus with the department in the fourth year.

Dissertation. The final requirement for the Ph.D. degree is the completion of a dissertation representing a significant contribution in some central area of linguistic research.

LINGUISTICS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR**Judith Aissen, Emerita**

Syntax, morphology, Mayan languages

Adrian Brasoveanu

Semantics, pragmatics, psychosemantics/psycholinguistics, philosophical logic, phonology

Sandra Chung, Emerita

Syntax, semantics, Austronesian languages

Donka Farkas

Semantics, pragmatics, discourse structure, Romance languages, Hungarian

Jorge Hankamer

Syntax, morphology, computational linguistics, Turkish

Junko Ito

Phonology, morphology, Germanic languages, Japanese

William A. Ladusaw, Emeritus

Semantics, syntax, pragmatics

James McCloskey

Syntax, semantics, sociolinguistics, Irish

Armin Mester, Emeritus

Phonology, prosodic morphology, Japanese, Latin

Jaye Padgett

Phonology, phonetics, Russian, Slavic, Irish

Geoffrey K. Pullum, Emeritus**Associate Professor****Pranav Anand**

Semantics, pragmatics, syntax, computational linguistics

Grant McGuire

Phonetics, phonology, psycholinguistics

Ivy Sichel

Syntax, semantics, sociolinguistics, Hebrew

Matthew Wagers

Psycholinguistics, language comprehension, memory

ASSISTANT PROFESSOR**Ryan Bennett**

Phonology, phonetics, morpho-syntax, Mayan languages, Irish

Amanda Rysling

Phonetics, phonology, psycholinguistics, Polish

Maziar Toosarvandani

Syntax, semantics, pragmatics, Numic (Uto-Aztecan) and Iranian languages

LINGUISTICS COURSES

LOWER-DIVISION COURSES**50. Introduction to Linguistics. F,W**

An introduction to the major areas, problems, and techniques of modern linguistics. (General Education Code(s): SI.) G. MCGUIRE, R. BENNETT

53. Semantics I. F,W

Introduction to the logical foundations of natural language semantics. Logical and semantic relations, simple set theory, logical representations (propositional and predicate calculi, modal and tense logics) and their interpretations. A basic literacy course in the language of logical representation. (General Education Code(s): MF.) A. BRASOVEANU, D. FARKAS

80C. Language, Society, and Culture. S

The study of language from a sociological perspective. Multilingualism, language change and variation, pidgins and creoles, the origin and diversification of dialects. (General Education Code(s): CC.) J. MCCLOSKEY

80D. Language and Mind. W

A critical overview of the research program initiated by Noam Chomsky and its implications for theories of the human mind and brain. (General Education Code(s): PE-H.) M. WAGERS

80K. Invented Languages, from Elvish to Esperanto. F

Considers invented languages, including Elvish and Klingon, as well as lesser-known ones that tackle ethical, social, or cognitive

concerns. Students learn tools from contemporary linguistics to analyze language structures and understand how they relate to creator intentions. Enrollment limited to 70. (General Education Code(s): TA.) P. ANAND

80V. Structure of the English Vocabulary. *

A systematic study of the elements of English words: besides the practical goal of vocabulary consolidation and expansion, explores the historical origin and development of word elements, as well as their sound, meaning, and function in the contemporary language. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. THE STAFF

**UPPER-DIVISION
COURSES**

101. Phonology I. W,S

Introduction to how sounds pattern in grammars-why they vary, how they combine, etc. Emphasis is on developing theories to explain the patterns. Topics include distinctive feature theory, phonemic analysis, autosegmental phonology, and principles of syllabification and stress. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 50. (General Education Code(s): MF.) G. MCGUIRE, THE STAFF

102. Phonology II. F

Advanced phonological theory. Topics include markedness; underspecification theories; advanced topics in feature geometry, syllable theory, and stress theory; and optimality theory. Readings include published articles. Emphasis on theory construction and argumentation based on data. Prerequisite(s): course 101, and course 111 or 112. N. KALIVODA

103. Phonology III. *

Advanced topics in phonology, with an emphasis on reading both classic and contemporary research articles and book chapters. Prerequisite(s): course 102 and enrollment by interview. Enrollment limited to 15. THE STAFF

105. Morphology. S

Study of the principles of word formation: derivation, inflection, and compounding; cross-linguistic study of morphological processes, morphological investigation and analysis. Prerequisite(s): course 111 or 112, and course 101. Offered in alternate academic years. THE STAFF

108. Poetry and Language. *

An introduction to the linguistic aspects of poetry, e.g., rhyme, meter, and larger-scale organization of poetic form. The emphasis is on English poetry, complemented by brief sketches of other poetic traditions. Prerequisite(s): course 101, and course 111 or 112. Offered in alternate academic years.

(General Education Code(s): TA.)
THE STAFF

111. Syntactic Structures. S

Provides a basic introduction to the methods and results of generative grammar. It simultaneously provides an overview of the major syntactic constructions of English. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): MF.) I. SICHEL

112. Syntax I. F,W

An introduction to syntactic investigation, developed through the study of central aspects of English syntax. A major purpose is to introduce students to the study of language as an empirical science. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. (General Education Code(s): MF.) J. HANKAMER, J. MCCLOSKEY

113. Syntax II. S

Further aspects of English syntax; universal and language-particular constraints on syntactic structures and rules. Further developments and extensions of generative theory. Prerequisite(s): course 53 and 112. J. HANKAMER

114A. Syntax III. *

Advanced topics in syntax and semantics. Prerequisite(s): course 113, satisfaction of the Entry Level Writing and Composition requirements and permission of instructor. THE STAFF

114B. Readings in Syntax. *

Introduces reading the primary literature in syntax. Readings will vary. Emphasis is on how to read technically difficult works, evaluate arguments, and appreciate competing views. Coursework includes readings, presentations, and short response papers. Enrollment by permission of instructor. Prerequisite: course 113. THE STAFF

114C. Topics in Syntax. *

Advanced undergraduate course devoted to a topic in syntax. Topics vary and may include ellipsis, binding, agreement phenomena,

alternative frameworks.

Coursework includes problem sets, readings, presentations, and a term paper. Enrollment by permission of instructor. Prerequisite: course 113. THE STAFF

116. Semantics II. W

Major issues in natural language semantics: nature of lexical entries, thematic relations, propositional representation or "logical form"; relation between semantic interpretation and syntactic representations, quantification and scope relations, reference and presupposition, coreference and anaphoric relations. Prerequisite(s): course 53, and either course 111 or 112. M. TOOSARVANDANI

117. Pragmatics. F

Covers topics central in the study of pragmatics, the interpretation of language use. Topics include conversational implicature, speech acts and discourse understanding, and social deixis. Prerequisite(s): courses 53 and 101; and 111 or 112. A. BRASOVEANU

118. Semantics III. *

Uses the tools learned in courses 53 and 116 (Semantics I and Semantics II), giving students the opportunity to explore important topics with heavy emphasis placed on reading primary-source literature. Readings form the basis for weekly lectures and the discussion section. Prerequisite(s): course 116 and permission of instructor. Enrollment limited to 25. THE STAFF

120. Structure of English. *

Survey of grammatical structure of English and terminology of grammatical description. Covers phonological, morphological, and syntactic structure of English and contrasts it with other languages. Prerequisite(s): course 111 or 112, and 101. THE STAFF

124. Language Typology. *

Introduces the branch of linguistics whose goal is to describe and explain the structural diversity of the world's languages. Focuses on what is known about variation in particular domains (e.g., syllable structure, word order,

Linguistics

evidentiality), and how it might be explained. Prerequisite(s): course 111 or 112, and course 101.

Enrollment limited to 40. THE STAFF

125. Foundations of Linguistic Theory. *

Survey of some of the history and foundational assumptions of generative grammar; also looks at some of the influence of generative linguistic theorizing on disciplines outside linguistics, notably psychology and philosophy.

Prerequisite(s): course 113 or 116. Enrollment limited to 25. THE STAFF

127. History of Linguistics. *

Topics in the history of linguistics, with a special focus on the 20th century. Prerequisite(s): course 101, and course 111 or course 112. THE STAFF

140. Language Change. *

Methods and problems in the study of change in linguistic systems. Reconstruction of proto-languages; the comparative method. Theories of change and implications for the theory of grammar. Prerequisite(s): course 102. Enrollment limited to 25. THE STAFF

141. Ellipsis. *

Introduction to and survey of the ellipsis in natural language, including the typology of ellipsis processes, cross-linguistic uniformity and variation in ellipsis, and theoretical approaches and issues. Prerequisite(s): courses 53 and 101; and 111 or 112 THE STAFF

144. Computational Methods for Linguists. *

Introduction to computational methods for linguists with little background in computer programming. Possible topics include: regular expressions, annotation, databases, and search. Students learn contemporary techniques in team-based programming and annotation. Prerequisite(s): courses 50, 53, and either 111 or 112. Enrollment is restricted to linguistics and language studies majors. (General

Education Code(s): PR-E.) THE STAFF

145. Native Languages of North America. W

Selective survey of the indigenous languages of North America, including a formal/structural component and an historical/social component. Topics include typological properties of these languages, current status, and revitalization efforts.

Prerequisite(s): course 101, and either course 111 or 112. M. TOOSARVANDANI

147. Quantitative Methods in Linguistics. *

Introduces quantitative methods for linguistics. Focuses on categorical data and continuous data, and using R. Students learn the basics of probability, statistics, and experimental design, and use R to apply them to linguistic data sets. Prerequisite(s): courses 53 and 101, and either course 111 or 112. (General Education Code(s): SR.) THE STAFF

151. Phonetic Analysis. F

Introduction to instrumental phonetic analysis—analysis using experimental methods. Emphasis is on the acoustics and perception of speech. Prerequisite(s): course 101. A. RYSLING

152. Applied Phonetics. *

Examines areas in which phonetic analysis and experimentation are used in practice. Emphasizes problem-solving, experiments, and analytical tasks. Prerequisite(s): course 151. Enrollment limited to 25. THE STAFF

154. Language and Social Identity. S

Introduction to sociolinguistics exploring the relationship between language and such social parameters as social status, ethnicity, race, gender, etc., including the role of language differences in the creation of social stereotypes. Emphasis on gathering, examining, and reporting data. Prerequisite(s): course 101, and either course 111 or 112. I. SICHEL

155. Language and Cognition. S

Introduces and examines some of the foundational assumptions, practices, and methods of generative grammar in comparison to those of other areas of cognitive science, notably psychology and philosophy. Prerequisite(s): course 111 or 112, 53, and 101. M. WAGERS

157. Psycholinguistics and Linguistic Theory. F

Theory and methods in psycholinguistics, covering perception, production, and acquisition of language and linguistic structure. A hands-on, laboratory-style introduction to the topic, focusing on the relation between experimental findings and linguistic theory. Students cannot receive credit for this course and course 257. Prerequisite(s): course 102 or 105 or 113 or 116. Enrollment restricted to linguistics and language studies majors. (General Education Code(s): SR.) M. WAGERS

158. Advanced Psycholinguistics. *

Advanced topics in psycholinguistics and experimental linguistics, contemporary memory models, computational models of comprehension and production, and neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students learn to apply advanced analytical techniques. Prerequisite(s): course 157. Enrollment restricted to linguistics and language studies majors. Enrollment limited to 12. THE STAFF

160. Language Engineering. *

Addresses a particular problem in language engineering, chosen for its practical and theoretical interest and its tractability. The entire course focuses on a team project to design a solution to the problem. Permission of instructor required. THE STAFF

181. Structure of Romance Languages. *

Discusses topics in the phonology, syntax, and semantics of Romance languages, with emphasis left to the

Linguistics

discretion of the instructor.

Students read original research articles and pursue empirical investigation of Romance languages by collecting data from scholarly publications, fieldwork, and/or corpus analysis. Some knowledge of Italian, French, or Spanish is required. Prerequisite(s): course 111 or 112, and course 101. THE STAFF

182. Structure of Spanish. W

The phonology and syntax of Spanish, studied from a modern linguistic perspective. Some knowledge of Spanish is required. Prerequisite(s): course 111 or 112, and course 101. THE STAFF

183. Structure of French. *

The phonology, morphology, and syntax aspects of French. Some knowledge of French is helpful. Prerequisite(s): course 111 or 112, and 101. THE STAFF

185. Structure of Russian. *

The phonology, morphology, and syntax of Russian. Some knowledge of Russian is helpful. Prerequisite(s): course 111 or 112, and course 101. Enrollment limited to 30. THE STAFF

186. Structure of German. *

Phonological, morphological, and syntactic aspects of the structure of the German language. Some knowledge of German is required. Prerequisite(s): course 111 or 112, and course 101. THE STAFF

187. Structure of Japanese. *

The phonology, morphology, and syntax of Japanese. Prerequisite(s): course 111 or 112, and course 101. THE STAFF

188. Structure of Turkish. *

The phonology, morphology, and syntax of Turkish. Prerequisite(s): course 111 or 112, and course 101. THE STAFF

189. Structure of Arabic. *

The phonology, morphology, and syntax of Arabic. (Mainly modern standard, but also some regional dialects.) No knowledge of Arabic is required. Pre-requisite(s): course 101, and course 111 or 112. THE STAFF

193. Field Study. *

Students submit petition to sponsoring agency. THE STAFF

195. Senior Thesis. F,W,S

Deadline for submission of thesis proposal is one year in advance of proposed completion. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision by correspondence). Preparation and approval must be completed by the fifth day of instruction of any given quarter. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

211. Phonology A. F

First part of a three quarter introduction to phonology. Topics of the sequence include fundamentals of acoustic phonetics; introduction to optimality theory; theories of syllabification, stress, and prosodic organization; prosodic morphology; advanced issues in faithfulness and correspondence; segmental and suprasegmental processes. Enrollment restricted to graduate standing or consent of instructor. R. BENNETT

212. Phonology B. W

Second part of a three quarter introduction to phonology. Topics of the sequence include fundamentals of acoustic phonetics; introduction to optimality theory; theories of syllabification, stress, and prosodic organization; prosodic morphology; advanced issues in faithfulness and correspondence;

segmental and suprasegmental processes. Prerequisite(s): course 211. Enrollment restricted to graduate standing or consent of instructor. J. ITO

214. Phonetics. S

Introduction to phonetic theory concentrating on acoustic phonetics and speech perception along with common experimental methods, the role of phonetic principles in explaining phonological patterns and markedness. Enrollment restricted to graduate students, or by permission of instructor. Enrollment limited to 12. G. MCGUIRE

216. Phonology Proseminar. F

One or more topics in phonological theory. Topics vary from year to year, covering literature and current research in phonology. Prerequisite(s): course 212. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. J. ITO

219. Phonology Seminar. S

Advanced topics in phonology drawn from the current research interests of the instructor. Prerequisite(s): course 212. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. R. BENNETT

219G. Phonology Seminar (3 credits). *

Advanced topics in phonology drawn from the current research interests of the instructor. Three-credit version of course 219. Does not require a final paper. Prerequisite(s): course 212. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

221. Syntax A. F

Introduction to syntactic theory. Phrase structure; subcategorization; lexical entries; passive; infinitival constructions. Enrollment restricted to graduate standing or consent of instructor. J. HANKAMER

222. Syntax B. W

Continuation of Syntax A. The

Linguistics

syntax of unbounded dependencies, including constituent questions, relative clauses, clefts, topicalization. Constraints on extraction; unbounded versus successive cyclic movement; the licensing of gaps. Prerequisite(s): course 221. Enrollment restricted to graduate standing or consent of instructor. I. SICHEL

226. Proseminar in Syntax. S

In-depth investigation of some topic in syntactic theory. Topics vary from year to year, covering literature and current research in grammatical structure from varying theoretical perspectives.

Prerequisite(s): course 222. J. MCCLOSKEY

226G. Proseminar in Syntax (3 credits). *

In-depth investigation of some topic in syntactic theory. Topics vary from year to year, covering literature and current research in grammatical structure from varying theoretical perspectives. Three-credit version of course 226. Does not require a final paper.

Prerequisite(s): course 222.

Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

229. Syntax Seminar. F

Advanced topics in syntax drawn from the current research interests of the instructor. Prerequisite(s): course 222. Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. J. MCCLOSKEY

229G. Syntax Seminar (3 credits). *

Advanced topics in syntax drawn from the current research interests of the instructor. Three-credit version of course 229. Does not require a final paper.

Prerequisite(s): course 222.

Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

231. Semantics A. F

Introduction to linguistic semantics: nature of lexical entries, thematic relations, representation of logical

form; relation between semantic interpretation and syntactic representation, quantification and scope relations, reference and presupposition. Enrollment restricted to graduate standing or consent of instructor. A. BRASOVEANU

232. Semantics B. W

Model-theoretic semantics for natural language. Truth-conditional, compositional semantics. Various logical ontologies and their application to natural language categories. Dynamic interpretation of discourse and anaphoric relations. Treatment of illocutionary force. Prerequisite(s): course 231. Enrollment restricted to graduate standing or consent of instructor. P. ANAND

236. Proseminar in Semantics. *

In-depth investigation of some topic in semantics and pragmatics. Topics vary from year to year, covering literature and current research in linguistic semantics and pragmatics. Prerequisite(s): course 231.

Enrollment restricted to graduate standing or consent of instructor. THE STAFF

236G. Semantics Proseminar (3 credits). *

In-depth investigation of some topic in semantics and pragmatics. Topics vary from year to year, covering literature and current research in linguistic semantics and pragmatics. Three-credit version of course 236. Does not require a final paper.

Prerequisite(s): course 231.

Enrollment restricted to graduate students, or by consent of instructor. Enrollment limited to 12. May be repeated for credit. THE STAFF

239. Semantics Seminar. S

Advanced topics in semantics drawn from the current research interests of the instructor.

Prerequisite(s): course 232.

Enrollment restricted to graduate standing or consent of instructor. May be repeated for credit. A. BRASOVEANU

239G. Semantics Seminar (3 credits). *

Advanced topics in semantics

drawn from the current research interests of the instructor. Three-credit version of course 239. Does not require a final paper.

Prerequisite(s): course 232.

Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

240. The Pedagogy of Linguistics (1 credit). F,W

Provides training for graduate students in university-level pedagogy in general and in the pedagogy of linguistics specifically. Under the supervision of a faculty member, coordinated by a graduate student with substantial experience as a teaching assistant. May be repeated for credit. M. WAGERS

244. Computational Methods for Linguists. *

Practical introduction to computational methods for linguists. Topics covered: database development; indexing and search; morphological and syntactic parsing; and modern annotation methodologies. Students concurrently learn Python and JavaScript. No background in programming is required. Enrollment restricted to graduate students, or by consent of the instructor. Enrollment limited to 12. THE STAFF

245. Computational Models of Discourse and Dialogue. *

Focuses on classic and current theories and research topics in the computational modeling of discourse and dialogue, with applications to human-computer dialogue interactions; dialogue interaction in computer games and interactive story systems; and processing of human-to-human conversational and dialogue-like language such as e-mails. Topics vary depending on the current research of the instructor(s) and the interests of the students. Students read theoretical and technical papers from journals and conference proceedings and present class lectures. A research project is required. (Also offered as Computational Media 245. Students cannot receive credit for both

Linguistics

courses.) Enrollment restricted to graduate students. Undergraduates may enroll with permission of instructor. May be repeated for credit. THE STAFF

248. Topics in Computational Methods and Models. *

Seminar in computational approaches in linguistics and the language sciences with topics drawn from the current interests of the instructor. Prerequisite(s): courses 221 and 231. Enrollment restricted to linguistics graduate students. Enrollment limited to 14. May be repeated for credit. THE STAFF

249. Morphology Seminar. W

Presents theoretical and descriptive issues, particularly those raised by the framework of distributed morphology and its current competitors. Course work consists of readings, squibs, and a term paper. Enrollment restricted to graduate students. J. HANKAMER

249G. Morphology Seminar (3 credits). *

Presents theoretical and descriptive issues, particularly those raised by the framework of distributed morphology and its current competitors. Coursework consists of readings and squibs. Three-credit version of course 249. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

257. Psycholinguistics and Linguistic Theory. *

Theory and methods in psycholinguistics, covering perception, production, and acquisition of language and linguistic structure. A hands-on, laboratory-style introduction to the topic, focusing on the relation between experimental findings and linguistic theory. Students cannot receive credit for this course and course 157 or 257G. Enrollment restricted to graduate students. THE STAFF

258. Advanced Psycholinguistics. *

Advanced topics in psycholinguistics and experimental

linguistics. Contemporary memory models. Computational models of comprehension and production. Neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students learn to apply advanced analytical techniques. Graduate students have separate evaluation criteria. Students cannot receive credit for this course and course 258G. Prerequisite(s): course 257. Enrollment restricted to graduate students. THE STAFF

258G. Advanced Psycholinguistics (3 credits). *

Advanced topics in psycholinguistics and experimental linguistics. Contemporary memory models. Computational models of comprehension and production. Neurolinguistic findings and methodologies. Student work revolves around an extended research project in which students apply advanced analytical techniques. Graduate students have separate evaluation criteria. Three-credit version of course 258. Does not require a final paper. Students cannot receive credit for this course and course 258. Prerequisite(s): course 257. Enrollment restricted to graduate students. Enrollment limited to 12. THE STAFF

259. Phonetics Seminar. W

Advanced topics in acoustic and articulatory phonetics. Prerequisite(s): course 214. Enrollment restricted to graduate students. G. MCGUIRE

259G. Phonetics Seminar (3 credits). *

Advanced topics in acoustic and articulatory phonetics. Three-credit version of course 259. Does not require a final paper. Prerequisite(s): course 214. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. THE STAFF

279. Research Seminar in Psycholinguistics. *

Contemporary research in psycholinguistic theory models, and methods. Topics vary with research interests of faculty and graduate

students. Enrollment restricted to graduate students, or by consent of instructor. Enrollment limited to 12. May be repeated for credit. THE STAFF

280. Proseminar in Experimental Linguistics. F

Examines experimental design and analysis for gathering linguistic data; the advantages and disadvantages of major response measures, including reaction times; interaction with extra-grammatical factors; and statistics on categorical and continuous measures. Students present results in research papers. Students cannot receive credit for this course and course 280G. Enrollment restricted to graduate students. M. WAGERS

280G. Proseminar in Experimental Linguistics (3 credits). *

Examines experimental design and analysis for gathering linguistic data: the advantages and disadvantages of major response measures, including reaction times; interaction with extra-grammatical factors; and statistics on categorical and continuous measures. Three-credit version of course 280. Does not require a final paper. Enrollment restricted to graduate students. Enrollment limited to 12. THE STAFF

282. Field Methods. S

Exploration of a language previously unfamiliar to students through elicitation from a native speaker. Discussion of elicitation techniques. Students investigate selected aspects of the language in depth. Enrollment restricted to graduate students. M. TOOSARVANDANI

290. Research Seminar. W

A research seminar for undergraduate and graduate students to develop the skills of the profession. Critical reading, reviewing, teaching, presentation, and writing. Students submit petition to sponsoring agency. Enrollment restricted to graduate standing or consent of instructor. Enrollment limited to 10. D. FARKAS

Linguistics

295. Directed Reading. F,W,S

Directed reading which does not involve a term paper. Enrollment restricted to graduate standing or consent of instructor. THE STAFF

296. Linguistics Colloquium (2 credits). F,W,S

Independent graduate-level activities and assignments relating to professionalism; organizing and attending colloquium and

conferences; participation in discussion at such events; and preparation of commentaries on academic papers. Students submit petition to sponsoring agency. Enrollment restricted to linguistics graduate students. May be repeated for credit. M. WAGERS

297. Independent Study. F,W,S

Enrollment restricted to graduate standing or consent of instructor.

May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S
THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

LITERATURE

2017-18 General Catalog

303 Humanities 1

(831) 459-4778

<http://literature.ucsc.edu/>

PROGRAM DESCRIPTION

The study of literature at UCSC is organized as an interdisciplinary field coordinated through a single Department of Literature, rather than through separate departments of English, modern languages, and classics. This structure fosters innovative and comparative approaches to literature among both faculty and students. Courses in the major encompass traditional literary history and interpretation, cross-cultural inquiry and current theoretical debates, and new media.

Literature majors at UCSC are trained in critical reading, writing, and thinking, as well as in literary interpretation. These skills have wide applicability, and offer avenues into related disciplines such as history, philosophy, psychology, sociology, anthropology, politics, and the history of art and visual culture. Literature majors enter a wide variety of careers ranging from law and journalism to management, government, international studies, publishing, technical writing, and teaching at all levels. The literature major may also lead to careers in fields such as digital storytelling and electronic media; film, television, and video; theater, performance, and the visual arts.

The Literature Department faculty requires that all literature majors have basic proficiency in a second language. Proficiency in more than one language enhances understanding of any literature and culture. Graduate programs in literature and other humanities disciplines generally require competence in at least one language other than English.

PROGRAM LEARNING OUTCOMES

Following is a summary of the program learning outcomes for the Literature B.A.:

Students who complete the literature major should emerge with the following knowledge and skills:

1. A capacity for critical analysis of texts that is attentive to:
 - the formal structures, genres, and rhetorical strategies of different kinds of writing, public discourse, and media;
 - the historical and social contexts of such texts;
 - the role cultural and linguistic difference play in the interpretation of texts read in translation and in a language not one's own.

2. Effective written communication that demonstrates the following abilities:

- to evaluate multiple interpretations of texts;
- to write effective argumentative prose;
- to situate texts in relation to a critical/theoretical tradition;
- to design and initiate a substantive independent project of research or creative activity.

3. Experience reading a variety of texts:

- from a breadth of world cultures and traditions;
 - from different historical periods, including the pre-modern;
 - originally written in languages other than English.
-

LETTER GRADE REQUIREMENT

Letter grades are required for 75 percent of courses applied toward the literature major, including the senior seminar or thesis, which must be taken for a letter grade.

DECLARATION OF THE MAJOR OR MINOR

Students must complete Literature 1 or its equivalent prior to declaring the major or minor. Students declare a major or minor in literature by completing and submitting a Proposed Study Plan and Declaration of Major/Minor petition. All students considering a literature major or minor should consult with staff and/or faculty advisers as early as possible and declare the major or minor before the end of their sophomore year. Transfer students are urged to declare their major or minor in their first quarter at UCSC.

LITERATURE MAJOR OPTIONS

The Literature Department offers three concentrations, each providing exposure to a variety of literary traditions and focusing on the mastery of six critical approaches that provide a set of tools for lifelong thinking:

- **General Literature:** broad exposure to a variety of world literary traditions;

Literature

- **Language Literature:** study of literature within the framework of particular languages or national and regional traditions, studied in the original language;
- **Creative Writing:** exposure to a variety of world literary traditions, along with upper-division creative writing workshops.
- **Intensive major only:** two additional upper-division courses in a second-language literature studied in the original language

Students also have the option to complete an intensive major in a Literature concentration. The intensive literature major is recommended particularly for students who plan to continue their studies in graduate school. The requirements for the intensive major include the study of literature in two languages; advanced proficiency in a second language is therefore required.

REQUIREMENTS OF THE MAJOR

The literature major requires: (1) basic proficiency in a second language; and (2) 12 courses in literature.

- **Basic language proficiency:** One year (three quarters or equivalent) of college level study of a non-English language or demonstrated reading ability at this level.
- The 12 required courses must include two lower-division and 10 upper-division courses.

Lower-Division Courses

Lower-division courses are introductions to critical reading and writing. Students should complete their lower-division coursework before beginning upper-division work.

Two lower-division courses are required:

- Literature 1, Literary Interpretation: close reading and analysis of literary texts. This is a writing-intensive course.
- One Literature 61-series course: categories, methodologies, and problems of literary study, or one Literature 80-series course: topical, thematic, and comparative studies of literary and filmic texts. Literature 61 and Literature 80 courses are recommended for both majors and non-majors.

Upper-Division Courses

Ten upper-division courses are required; 12 are required for the intensive major:

- Literature 101, Theory and Interpretation: approaches to literary and cultural theories
- Literature 102, Translation Theory: approaches to literary and cultural translation, or one upper-division non-English literature course studied in the original language.
- Eight upper-division courses as described for each concentration

Upper-division courses provide detailed treatment of literary and theoretical problems, themes, and periods. Students are strongly encouraged to take courses across chronological periods and national boundaries, and to balance small seminars with lecture courses. Students must successfully complete the language proficiency requirement before enrolling in Literature 102.

CRITICAL APPROACHES TO THE STUDY OF LITERATURE

Students must take at least one upper-division course in each of six Critical Approaches to the study of literature. Each upper-division course in literature (aside from the core courses Literature 101 and 102) has two Critical Approach designations; however, students may use each course to satisfy only one approach requirement.

Canons: The study of influential authors or works, and their critical afterlives: what books get read, which are forgotten, and how is that decided?

Genres: The study of fiction, poetry, drama, epic, *testimonio*, etc. across time and space: what happens when we classify together works of similar form?

Geographies: The study of local, regional, national, transnational, or global contexts: how do we use notions of place to group texts together?

Histories: The study of texts through socially or aesthetically defined periods or movements: how do historical pressures affect literature's possibilities?

Media: The study of the written word as one medium among others: what can we learn from the analysis of visual, performative, sonic, filmic, and other media?

Power and Subjectivities: The study of human and other subjects as individuals and in collective groups: who has the power to speak, write, and read under different social conditions?

LITERATURE MAJOR CONCENTRATIONS

General Literature Concentration

Two lower-division courses are required:

- Literature 1, Literary Interpretation
- a Literature 61 or Literature 80 course

Ten upper-division courses are required:

- Literature 101, Theory and Interpretation: approaches to literary and cultural theories
- Literature 102, Translation Theory: approaches to literary and cultural translation, or one upper-division non-English literature course studied in the original language. Students must

Literature

successfully complete the language proficiency requirement before enrolling in Literature 102

- Six upper-division courses, one in each of the critical approaches areas
- Two upper-division electives in literature

Distribution requirements. Among the 10 upper-division courses, at least two must focus on literature written prior to the year 1750; one course must focus on non-Western literature or literature in a global perspective; and one course must focus on poetry. One of the upper-division courses may be a senior seminar, which can be used to satisfy the campus comprehensive (exit) requirement. Some courses fulfill more than one distribution requirement. A list of annual course offerings indicating distribution codes for each course is available in the department office and on [the Literature Department web page](#).

LANGUAGE LITERATURE CONCENTRATION

The language literature concentration examines literature within the frameworks of particular languages or national and regional traditions, and requires that texts be read in the original language. Enrollment in upper-division language literature courses normally requires language proficiency at the third-year college level.

Language Literature

French literature

- The study of French and Francophone literatures, languages, and cultural practices of France, Africa, and the Caribbean.

German literature

- The study of the literature, language, and cultural practices of the German-speaking areas of central Europe including Germany, Austria, and Switzerland.

Greek and/or Latin literature

- The study of the literature, languages, and cultural practices of ancient Greece and Rome. Students may choose to concentrate in Greek or Latin or both.

Italian literature

- The study of Italian literature, language, and cultural practices from the Middle Ages to the present.

Spanish/Latin American/Latino literatures

- The study of literatures, language, and cultural practices of Spain, Latin America, and Latino populations in the United States.

Two lower-division courses are required for the language literature concentration:

- Literature 1, Literary Interpretation
- a Literature 61 or Literature 80 course

Ten upper-division courses are required for students in the language literature concentration:

- Literature 101, Theory and Interpretation: approaches to literary and cultural theories
- Literature 102, Translation Theory: approaches to literary and cultural translation, or one upper-division non-English literature course studied in the original language.
- Five upper-division language literature courses in a single language literature
- Three upper-division electives in literature

Within their upper-division coursework for the major, students in the language literature concentration must take one course in each of the six critical approaches.

Distribution requirements. Among the 10 upper-division courses, at least two must focus on literature written prior to the year 1750; one course must focus on non-Western literature or literature in a global perspective; and one course must focus on poetry. One of the upper-division courses may be a senior seminar, which can be used to satisfy the campus comprehensive (exit) requirement. Some courses fulfill more than one distribution requirement. A list of annual course offerings indicating distribution codes for each course is available in the department office and on [the Literature Department web page](#).

CREATIVE WRITING CONCENTRATION

The Department of Literature offers a sequence of creative writing workshops from introductory through advanced levels. Admission to the creative writing concentration is selective. Interested students are required to take one lower-division creative writing workshop at UCSC before applying to the concentration; however, students are strongly encouraged to complete two lower-division workshops (at least one at UCSC) before applying. To apply for admission to the Creative Writing concentration, students should submit a completed application form (available at the Literature Department office and [online](#)). Once accepted into the concentration, students are required to declare (or redeclare) the major in literature.

Two lower-division literature courses are required for students in the creative writing concentration:

- Literature 1, Literary Interpretation
- a Literature 61 or Literature 80 course

Ten upper-division courses are required for students in the Language Literature concentration:

- Literature 101, Theory and Interpretation: approaches to literary and cultural theories
- Literature 102, Translation Theory: approaches to literary and cultural translation, or one

Literature

upper-division non-English literature course studied in the original language

- Four upper-division literature courses
- Four upper-division Creative Writing courses, including a senior seminar

Within their upper-division coursework for the major, students in the creative writing concentration must take one course in each of the six Critical Approaches.

Distribution requirements. Among the 10 upper-division courses, at least two must focus on literature written prior to the year 1750; one course must focus on non-Western literature or literature in a global perspective; and one course must focus on poetry. One of the upper-division courses may be a senior seminar, which can be used to satisfy the campus comprehensive (exit) requirement. Some courses fulfill more than one distribution requirement. A list of annual course offerings indicating distribution codes for each course is available in the department office and on [the Literature Department web page](#).

THE INTENSIVE LITERATURE MAJOR

The intensive literature major requires (1) advanced proficiency in a second language, and (2) 14 courses in literature.

- **Advanced language proficiency:** in addition to the literature major requirement of one-year (three quarters or equivalent) of college-level study of a non-English language, or demonstrated reading ability at this level, students must complete at least two upper-division courses in a second-language literature studied in the original language. In many languages, two years of college-level study (or comparable ability) are needed before a student is prepared to enter an upper-division course. In select languages (Greek, Latin, Middle Egyptian Hieroglyphs, Sanskrit), less time is needed for this purpose.
- The 14 required courses must include two lower-division and 12 upper-division courses.

Lower-Division Courses

Students in the intensive literature major must satisfy the major's lower-division course requirements. Students who choose the intensive literature major are required to achieve advanced proficiency in a second-language literature. Upper-division coursework in a second-language literature requires completion of a lower-division language sequence or the equivalent.

Upper-Division Courses

The intensive major requires 12 upper-division courses. Critical Approaches requirements and distribution requirements for the intensive major are the same as those for all literature concentrations. In addition, students must complete at least two courses

in a second-language literature studied in the original language.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. Literature majors must satisfy the Disciplinary Communication requirement by passing Literature 101.

COMPREHENSIVE REQUIREMENT

Students must successfully complete Literature 101 before taking any comprehensive requirement.

Seniors must select one of the following options to satisfy the campus exit requirement:

- **Senior seminar.** The senior seminar may be counted as one of the required upper-division courses. Several senior seminars are offered each quarter; extensive writing is required in all seminars.
- **Senior thesis.** A student who wishes to propose a senior thesis (30–40 pages) must apply to a Literature Department faculty sponsor at least two quarters before the projected date of graduation. The application must include a proposed subject, a brief outline, a bibliography, and a sample of previous written work. Only those students who have received written permission from a faculty supervisor may complete a thesis to satisfy the senior exit requirement. A student whose application has been approved may receive course credit toward the major for one independent study (course 195).

For students in the creative writing concentration, a creative writing project under the supervision of a faculty member (Literature/Creative Writing 194 or 195) is required.

THE LITERATURE MINOR

The minor in literature requires seven courses.

Two lower-division courses are required:

- Literature 1, Literary Interpretation: close reading and analysis of literary texts. This is a writing-intensive course.
- One Literature 61-series course: categories, methodologies, and problems of literary study, or one Literature 80-series course: topical, thematic, and comparative studies of literary and filmic texts. Literature 61 and Literature 80 courses are recommended for both Literature minors and non-majors.

Five upper-division courses are required:

- Literature 101, Theory and Interpretation

Literature

- Four other upper-division literature courses (except Creative Writing)

The Literature minor does not require second-language proficiency or a senior seminar.

GENERAL INFORMATION

TRANSFER CREDIT

A student may petition to receive credit toward the lower-division requirements of the major or minor for up to two courses taken at other institutions. An introduction to literature course may be used to satisfy the Literature 1 course requirement. Any other literature course may be applied toward the Literature 61 or the Literature 80 course requirement.

Transfer students planning to major in literature are urged to complete the equivalent of one year of college-level study of a language other than English before entering UCSC.

CREATIVE WRITING COURSES

Any qualified student may take creative writing courses for credit toward graduation. Only students accepted into the creative writing concentration, however, may use Literature/Creative Writing 179A, 179B, 190V, 190W, and 195C to satisfy major requirements.

CREDIT FOR REPEATED COURSES

Courses that vary significantly in material or methodology from one presentation to the next may be repeated for credit and are so designated in the course description in the UCSC General Catalog.

ADVISING

Faculty advisers are available in the Literature Department office throughout each academic term; students may make appointments in advance to meet with them. Staff advisers are available by appointment and on a drop-in basis. Students are encouraged to consult with a faculty adviser once per quarter.

SENIOR CHECKLIST

Three quarters before anticipated graduation, all literature majors must complete a checklist in collaboration with a department adviser. The purpose of the checklist is to confirm progress toward graduation and the satisfaction of all major requirements. Completion and approval of a senior checklist are required for graduation.

HONORS

Honors in the literature major are awarded to graduating seniors who have earned a 3.70 to 3.89 grade-point average in their upper-division literature courses. Highest honors in the literature major are awarded to graduating seniors who have earned a 3.90 or higher grade-point average in their upper-division

literature courses. Honors are not awarded in the minor.

OPPORTUNITIES FOR STUDY ABROAD

The University of California's Education Abroad Program (EAP) operates study centers in countries throughout the world, all associated with host institutions of high academic standing. EAP serves over 1500 upper-division students from the nine UC campuses every year. Students who participate in a UC Education Abroad Program may petition to apply up to three upper-division courses from EAP toward the literature major, or two upper-division courses toward the literature minor.

THE GRADUATE PROGRAMS

THE DOCTORAL PROGRAM

The UCSC doctoral program in Literature offers an innovative multilingual and multidisciplinary approach to literary studies. The program is relatively small, and students work closely with faculty throughout their graduate careers. They are encouraged to take advantage of the rich array of intellectual and cultural events, research clusters, and lectures offered on campus.

The doctoral program combines critical and independent thought with multilingual and global perspectives. Working across linguistic, national, and period boundaries, students blend critical approaches, literary traditions, and/or cultural archives in comparative, multilingual, and interdisciplinary projects. A creative/critical writing concentration within the Ph.D. program is available for which students apply during the admissions process. Admitted students may apply for a designated emphasis on the literature doctoral diploma in programs and departments such as Critical Race and Ethnic Studies, Education, Feminist Studies, History of Consciousness, Latin American and Latino Studies, Philosophy, Politics, Sociology, and the History of Art and Visual Culture. Applications and requirements are available at the respective department offices.

The program requires significant literary work in two languages. All students are required to complete a minimum of two graduate courses in a second-language literature in which 50 percent or more of the reading is done in the original language. The second literature must serve as a component of the qualifying examination.

The common requirements are:

- Literature 200, Proseminar, to be taken in fall quarter of the first year;
- Literature 201, Pedagogy of Teaching/Teaching Assistant Training, to be taken prior to or in conjunction with the first teaching assistant appointment;

Literature

- Twelve additional courses leading to the definition of an area of concentration. At least two of these must be in a second-language literature; at least one must focus on pre-1750 literature and culture. Up to four courses may be taken in other departments; up to three may be independent studies;
- Literature 291F, a two-credit advising course, each quarter;
- Three quarters of supervised teaching experience;
- The Literature Department's intensive three-week Graduate Summer Language Program or equivalent;
- A qualifying examination consisting of three components: 1. a portfolio with a field statement and comprehensive bibliography, a topic statement, a paper of publishable quality, and a dissertation sketch; 2. translation examination; and 3. oral examination. The qualifying examination must be taken by the first quarter of the fourth year.
- A prospectus outlining and defining the dissertation project. The prospectus identifies the research problem, methodologies, and case studies, with chapter outlines, footnotes, and bibliography, and must be submitted within a quarter following the qualifying examination, but no later than the end of the fourth year.
- A dissertation (written in conjunction with Literature 299, Thesis Research).

For the creative/critical concentration, applicants submit additional creative writing samples of poetry, prose fiction, creative non-fiction or hybrid/cross genre. Entering students in the creative/critical concentration complete all the requirements for the literature Ph.D. with the addition of a creative/critical degree component in the form of coursework, original creative work with a critical introduction and, if desired, work in poetics, translation, form and/or critical writing focused on creative practices.

A master of arts (M.A.) degree is conferred upon request to doctor of philosophy (Ph.D.) candidates who have successfully completed the literature Ph.D. qualifying examination or who have completed the coursework required for the doctorate (teaching assistant training and supervised teaching experience exempted) and elect to write a master's thesis under the supervision of a faculty adviser.

More detailed information for prospective graduate students, including procedures for application and admission to graduate studies, examinations, and requirements for the doctor of philosophy degree, is available from [the Division of Graduate Studies](#) and on [the department website](#).

THE MASTER'S PROGRAM

A separate master of arts degree program is intended for students whose aim is to deepen and expand their literary/critical training and to prepare for entry into a Ph.D. program, usually at another institution. Priority for admission is given to students interested in underrepresented areas of study within the Literature Department's offerings, such as the non-English language literatures and, more broadly, critical theory.

The M.A. program requirements may not be completed in less than one year; the maximum time to obtain a degree is two years.

The common requirements are as follows:

- Literature 200, Proseminar, to be taken in fall quarter of the first year;
- Seven additional courses leading to the definition of an area of concentration. Up to two of these may be taken in other departments. One may be an independent study course;
- Literature 291F, a two-credit advising course, each quarter;
- A thesis (written in conjunction with Literature 299, Thesis Research). Typically, a thesis will range in length from 35–50 pages, plus a bibliography.

The Literature Department does not provide financial support to students pursuing the M.A. degree. Admission to the M.A. program does not constitute admission to the Ph.D. program. Students may not automatically transfer from the M.A. program into the Ph.D. program, but must reapply. Further information and application materials are available from [the Division of Graduate Studies](#) and on [the department website](#).

LITERATURE DESIGNATED EMPHASIS

Graduate students in other programs may obtain a designated emphasis in literature on the Ph.D. degree by completing the following requirements:

1. The student must have a faculty graduate adviser from Literature, who serves both on the qualifying examination committee and the dissertation reading committee.
2. The student must prepare a significant piece of writing in the area of literature, such as a substantial seminar paper or a chapter of the doctoral dissertation. The adviser from Literature, in consultation with the student, determines whether a particular piece of writing meets this requirement.
3. The student must take four graduate courses in literature. With the approval of the literature adviser, one of the four required graduate courses may be an independent study.

Literature

4. When the above requirements have been fulfilled, the formal steps to obtain the Designated Emphasis in Literature are:
 - The student should complete the [Designated Emphasis Application form](#), obtain the literature adviser's signature and submit the application with supporting documentation (copies of the Qualifying Examination and Dissertation Committee Nomination forms) to the Literature Department graduate program coordinator.
 - The Literature Department will notify the student and the home department of approval for the designated emphasis.

LITERATURE FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Jorge Aladro Font

Spanish mysticism; theory and historical developments of imagery in the Middle Ages to the baroque period; Renaissance and baroque Hispanic literature; Italian ideas in the Spanish Renaissance; Cervantes

Karen Bassi

Greek and Latin literatures; gender, literary, and cultural theory; pre- and early modern studies; tragedy; historiography; visual and performance studies; death studies

Christopher Connery

World literature and cultural studies; globalism and geographical thought; the 1960s; Marxism; pre-modern and modern Chinese cultural studies; cultural revolution

Carla Freccero

Renaissance studies; French and Italian language and literature; early modern studies; postcolonial theories and literature; contemporary feminist theories and politics; queer theory; U.S. popular culture; posthumanism; animal studies

Susan Gillman

Transnational American studies; literatures of the 19th-century Americas; critical race studies; translation theory; comparative history of slavery and emancipation; world literature and cultural studies

Wlad Godzich

Theory of literature; philosophy and literature; emergent literature; translation theory; globalization and culture; European integration; knowledge society; literatures of Africa, the Caribbean, Europe (Central, Eastern, and Western), Brazil, Canada; detective and crime fiction; science fiction; medicine and literature

Jody Greene

17th- and 18th-century British literature and culture; pre- and early modern studies; critical theory, especially Derrida; poststructuralism and ethics; gender studies; history of authorship; history of the book; human property

Kirsten Silva Gruesz

Transnational Americas studies; Chicano/Latino literatures and cultures; 19th-century U.S. and Latin

American literature; poetry; history of the book; reading and literacy; bilingualism

Sean Keilen

Shakespeare; Ovid; history and theory of criticism; literature and the fine arts; public education; psychoanalysis; beauty

Sharon Kinoshita

Mediterranean studies; medieval Francophone and Mediterranean literature; the global Middle Ages; literature, translation, and empire; postcolonial and globalization theory; Marco Polo; world literature and cultural studies

Kimberly J. Lau

Feminist theory; fairy tale studies; politics and genre formations; U.S. popular culture; virtual worlds and digital cultures

H. Marshall Leicester, Jr.

Psychoanalysis; poststructuralism; gender theories; theory of cultural change; cultural studies and popular culture: opera, film, American country music; history, theory, and interpretation of horror film; affect and affect theory

Tyrus Miller

Modernist, avant-garde, and postmodernist literature; the interrelations of the arts in the 20th century; aesthetics theory; communist and post-communist society, intellectual history, and culture, especially in East-Central and Southern Europe; cinema and film theory; the Frankfurt School; György Lukács; contemporary poetry and language arts

Micah Perks

Reading and writing; U.S. fiction; creative non-fiction and historical fiction; U.S. alternative communities; U.S. captivity narratives; feminism

Juan Poblete

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th-century studies; the history of reading practices

Daniel Selden

Afroasiatic languages and literatures; Greek and Latin; Hellenistic culture; the classical tradition; history of criticism; literary theory; film history, theory, and analysis

Literature

Deanna Shemek

Renaissance Italian literature and culture; early modern feminism; humanism; letter-writing and epistolary culture; early modern literacy and media; Renaissance theater; the northern court circles; digital humanities

Marlene Tromp

Social justice, particularly gender, racial, and economic justice; marginal culture; violence against women; racially-motivated violence; the law; economics; social ethics; 19th-century literature and culture

Rob Wilson

Transnational and postcolonial literatures, especially as located and transformed in Asia/Pacific; cultural-political emergences as posited against empires of globalization; cultural poetics of America in the Pacific and Oceania; the sublime, Longinus to Hiroshima; poetics of experimental writing, especially poetry; the poetry and cultural poetics of Bob Dylan; Beat beatitude, social and literary, from Jesus to Juliana Spahr et al.; San Francisco as Global City, with its literature read as archive of vision and critique; Pacific Rim cities from Hong Kong and Seoul to Taipei, Kaohsiung, Shanghai, Honolulu, San Francisco, and Los Angeles

Karen Tei Yamashita

History and anthropology of Japanese immigration to Brazil; Asian American literature; modern fiction; playwriting

ASSOCIATE PROFESSOR

Dorian Bell

19th- and 20th-century French literature and intellectual history; histories of empire and anti-Semitism; literature and science; film studies; digital humanities

A. Hunter Bivens

20th- and 21st-century German literature and film; Marxism and critical theory; psychoanalysis; lyric poetry; literary realism; the novel

Vilashini Cooppan

Postcolonial studies; comparative and world literature; literatures of slavery and diaspora; globalization studies; cultural theory of race and ethnicity

Christine Hong

Asian American literature and cultural criticism; African American literature and black freedom studies; Korean diasporic cultural production; Pacific Rim studies; postcolonial theory; critical race theory; human rights discourse; law and literature; narrative theory; film and visual studies

G.S. Sahota

Postcolonial studies; world literature and cultural studies; Indian literary and intellectual history (especially in Urdu, Sanskrit, Punjabi, Hindi, and English); historiography of South Asia; epic; religion

and modernity (Islam, Hinduism, Sikhism); romanticism; Marxism; translation

Ronaldo V. Wilson

20th-century and contemporary African American literature; poetry; contemporary American poetry and poetics; Black visual culture; recent experimental writers and artists

ASSISTANT PROFESSOR

Christopher Chen

20th- and 21st-century African American literature; Asian American literature; comparative ethnic literary studies; modern and contemporary U.S. poetry and poetics; contemporary U.S. experimental writing; racial capitalism and theories of comparative racialization

Martin Devecka

Greek and Latin languages and literatures; cultural history; Arabic language and literature; animal studies; history of technology; Renaissance studies

Renee Fox

Victorian literature and culture; 19th- through 21st-century Irish studies; the Gothic; poetry; Neo-Victorian fiction and adaptation; history of science; queer theory

Camilo Gomez-Rivas

Medieval and Mediterranean studies; western Mediterranean historical and cultural studies; refugees, law and society, and religious identity; Arabic literature and cultural history; medieval Iberian literature and culture

Amanda Smith

Contemporary Latin American literatures; indigeneity and shamanism; ecocritical theory; geocriticism; space and mapping

Zac Zimmer

Contemporary and comparative colonial-contemporary Latin American literatures and cultural studies; science and technology in society; politics, aesthetics and technology; new media; science fiction

Lourdes Martinez-Echazabal (Latin American and Latino Studies)

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; Latin American critical race theory; literatures of Cuba and the Cuban diaspora, cinema and social change in Cuba; gender and dissident sexualities in Latin American literature and cinema; queer theory in/and Latin America

ASSOCIATE PROFESSOR

Anjali Arondekar (Feminist Studies)

South Asian studies, colonial historiography; feminist theories; queer theory; critical race studies; 19th-century interdisciplinary studies

LITERATURE COURSES

LOWER-DIVISION COURSES

1. Literary Interpretation. F,S

Close reading and analysis of literary texts, including representative examples of several different genres and periods. An introduction to practical criticism required of all literature majors; should be completed prior to upper-division work in literature.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements.

Enrollment restricted to first-year students and sophomores, or literature and proposed literature majors and literature minors.

(General Education Code(s): TA.) (F) S. KEILEN, (S) V. COOPPAN

42. Student-Directed Seminar. *

Seminars taught by upper-division students under faculty supervision. (See course 192.) THE STAFF

61. Introduction to Literary Genres.

61C. The Frame Tale. *

A story within a story, the frame tale is a playful and enduring literary genre. Focuses on frame tales of the global middle ages, tracing their movement from the Indian subcontinent to the British Isles. Readings include selections from Fables of Bidpai, The Arabian Nights, Libro de Buen Amor, and

The Canterbury Tales. (General Education Code(s): CC.) C. GOMEZ-RIVAS

61F. Introduction to Reading Fiction. *

Close reading of short stories and some novels with the aim of developing critical methods for the analysis and interpretation of prose fiction. Topics include character, plot, narrative structure, and the poetics of prose. The course topic changes; please see the Class Search for the current topic. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

61H. Introduction to Film Analysis. *

Introduces techniques for the close reading of film, with particular attention to film form (shot-by-shot analysis), cinematic codes, narrative structure, and the ideological burdens of the basic cinematic apparatus. Case studies of select works by major directors from the Hollywood studio period. (General Education Code(s): IM.) THE STAFF

61J. Introduction to Jewish Literature and Culture. W

Surveys 3,000 years of Jewish literature and culture. Themes include origins of the Jews in the ancient world; formation and persistence of the Jewish diaspora; coherence and diversity of Jewish experience; Jewish narrative and

textual traditions; interaction between Jews and other cultures; tensions between tradition and modernity. (General Education Code(s): ER.) B. THOMPSON

61K. Introduction to the Fairy Tale. F

Introduces the fairy tale as a genre, including historical, cultural, and political contexts; relation to identity, performance, transnationalism; contemporary transformations of tales and their expression in other media (e.g., film, art, theater); and current scholarship. (General Education Code(s): TA.) K. LAU

61L. True Stories: Memoir. *

Historical overview of the genre from Augustine to contemporary experiments in memoir. Student write weekly creative-critical responses and a final creative-critical paper. (General Education Code(s): PR-C.) M. PERKS

61M. Approaches to Classical Myth. S

Introduction to Greek myths, including selected ancient texts and visual artifacts, historical and cultural context of their creation and reception, modern theoretical approaches such as structuralism and psychoanalysis, and interpretations in various media. (General Education Code(s): TA.) M. DEVECKA

Literature

61N. Introduction to Children's Literature.

Introduction to children's literature as a literary genre, including historical, cultural, and political considerations of the genre's relationship to gender, race, sexuality, nationalism, colonialism, and popular culture through primary texts, secondary criticism, and other media (e.g., film, illustration, comics). (General Education Code(s): TA.) K. LAU

61P. Introduction to Reading Poetry. F

An introduction to selected modes and forms of poetry with an emphasis on close textual analysis. Examples will be taken from different historical periods and poetic traditions. Course topic changes; please see the Class Search for the current topic. (General Education Code(s): TA.) A. KUMAR

61R. Race in Literature. S

An investigation into the various uses and abuses of "race" in literature. Course topic changes; see the Class Search for current topic. (General Education Code(s): ER.) C. HONG

61S. Sacred Texts. *

Studies religious texts held sacred by different cultures and communities around the world, concentrating primarily on their literary dimensions. Course topic changes; please see the Class Search for current topic. (General Education Code(s): CC.) D. SELDEN

61T. Travel Narratives. W

Travel narratives may be of many types: odysseys of self-discovery, adventures in nature, or journeys to exotic lands off the beaten track. This course examines travelers' accounts drawn from periods ranging from the Middle Ages to the contemporary. (General Education Code(s): CC.) S. KINOSHITA

61W. Writing and Research Methods. F

Intensive training in the practice of literary analysis and the writing of polished research papers. Topics include manuscript sources, variant editions, reading techniques, publication technologies, web

research. Workshop format. Strongly recommended for majors and/or transfer students who have completed course 1 or its equivalent. J. JACKSON

61Z. Introducción a géneros literarios de España y América Latina. F

Speaking, reading, and writing proficiency in Spanish required. The study of poetry, drama, and prose in Spain and Latin America. (Formerly Introduction to Spanish and Latin American Literary Genres.) (General Education Code(s): TA.) J. ALADRO FONT

80. Topics in Literature.

80B. Monsters and Literature. *

Every age has the monsters it needs. From medieval marvels to GMO chimeras, monsters serve as figures of a culture's deepest fears, anxieties, and hidden desires. This course takes a multidisciplinary, transhistorical approach to the problems and promises of monsters, and introduces "monster theory." (General Education Code(s): TA.) THE STAFF

80D. Literary Traditions of India. *

Introduces the fundamental questions of interpretation and cultural analysis through engagement with varying literary and cultural traditions of the Indian subcontinent since antiquity. Emphasis is on language, communicative media, literary form, memory, transmission, interpretive approaches, and translation. The course topics change; please see the Class Search for the current topic. May be repeated for credit. (General Education Code(s): CC.) G. SAHOTA

80E. Animals and Literature. *

Examines the copresence in literary works (fiction and non-fiction prose and poetry) of nonhuman and human animals from antiquity to the present across a variety of cultures. (General Education Code(s): TA.) C. FRECCERO

80I. Topics in American Culture. *

A history of one or more cultural genres in written, visual, and/or

musical forms. Course topic changes; please see the Class Search for the current topic. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

80K. Topics in Medical Humanities. S

Medical Humanities designate an interdisciplinary field of humanities (literature, philosophy, ethics, history, and religion) concerned with application to medical education and practice. The humanities provide insight into the human condition, suffering, personhood, and our responsibility to each other; and offer a historical perspective on medical practice. (General Education Code(s): PE-T.) W. GODZICH

80L. The Holocaust: The Destruction of European Jewry. *

Focus is on the destruction of the Jews of Europe by Nazi Germany. Issues are historically grounded, and include works of literature, social sciences, philosophy, and film. (General Education Code(s): ER.) THE STAFF

80N. Latino Expressions in the U.S. *

An introduction to Latino literature and culture in the U.S. A study of the creative expressions of Chicanos/as, Nuyoricans, Cuban Americans, and other Latin Americans in the U.S. (General Education Code(s): ER.) K. GRUESZ

80O. Love, Anarchy, Revolution. *

Considers love, anarchy, and revolution as three modes of liberation. Concentrating on the contemporary period, with explorations of philosophy, literature, film, popular culture, political movements and manifestos, and personal or collective experience, this course considers these variant, but overlapping, scenes of the dialectics of liberation. (General Education Code(s): PR-E.) C. CONNERY

80T. Literature and Magic. *

Explores the history of magic in relation to the written word. Concerns include the gendering of magic; interconnections among Judaic, Arabic, and Christian worlds;

Literature

magic in the age of rationalism; and the recent popular fascination with magic. (General Education Code(s): CC.) THE STAFF

80U. Introduction to Contemplative Reading. *

Combines contemplative practice, including meditative practice, with close reading of literary works to provide students with a more precise ability to interpret and respond to texts, both literary and non-literary. Works include poetry, imaginative prose, and essays. (General Education Code(s): PR-C.) J. GREENE

80V. Literature and History. *

Examines literature's relationship to the past and to the experience of history. Course topic changes; please see the Class Search for current topic. (General Education Code(s): TA.) THE STAFF

80W. Captive Minds: The Literature of Pre-modern Slavery. *

Examines the literary production of slave societies by looking at the literatures of several pre-modern slave societies; also develops a cultural-historical narrative that explains the origins of genocidal forms of plantation slavery in the Americas by tracing their origins back to Greece and Rome. (General Education Code(s): CC.) M. DEVECKA

80X. Global Narratives. *

A survey of global narratives, with a focus on the novel over several centuries, traditions, languages, and cultures. (General Education Code(s): TA.) V. COOPAN

80Y. Harry Potter. W

From The Sorcerer's Stone to The Deathly Hallows, this course approaches the Harry Potter books and films from a variety of critical angles, using the analytical tools of literary and cultural studies to shed new light on this dizzying phenomenon. (General Education Code(s): TA.) R. FOX

80Z. Introduction to Shakespeare. F

Study of representative plays. No previous experience with

Shakespeare is assumed. (General Education Code(s): TA.) A. HEALD

90. Introduction to Creative Writing. F,W,S

Introduction to the crafts and techniques of poetry, fiction, and creative non-fiction, identifying and exploring traditional and non-traditional literary forms and genres while working on individual creative writing projects. An author reading and two workshop sections per week. Prerequisite: satisfaction of the Entry Level Writing requirement. Enrollment restricted to first-year students, sophomores, and juniors. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

91A. Intermediate Fiction Writing. F,W,S

An intermediate-level course in fiction designed for prospective applicants to the creative writing concentration. Prerequisite(s): course 90, or Creative Writing 10. Enrollment restricted to first-year, sophomores, and juniors. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

91B. Intermediate Poetry Writing. F,W,S

An intermediate-level course in poetry designed for prospective applicants to the creative writing concentration. Prerequisite(s): course 10. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

99A. Tutorial. F,W,S

Study of literature in English or English translation. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99B. Tutorial. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish or other non-English language required. Students submit petition to sponsoring agency. THE STAFF

99C. Tutorial. F,W,S

Study of creative writing. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

Upper-Division Courses

101. Theory and Interpretation. W,S

Contemporary approaches to literary and cultural theory, with emphasis on how theoretical perspectives advance and broaden the reading of literary texts. Introduction to important new theoretical developments and their antecedents. Literature majors should complete this course as early as possible. Course topic changes; see the Class Search for the current topic. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to literature and proposed literature majors and literature minors. May be repeated for credit. (W) J. GREENE, (S) G. SAHOTA

102. Translation Theory. W

Promotes the understanding of translation and its role in redefining meanings across epochs and cultures, in establishing common norms, and in advancing mutual intelligibility; but also providing encounters with absolute alterity. Actual translations are used as case studies. Prerequisite(s): one year of college-level, non-English language study or the equivalent reading ability in a non-English language. (General Education Code(s): TA.) K. GRUESZ

110A. The Traditional British Canon, Part I. S

The constitution of the "canon" of English literature from Chaucer to Cowper. Critical approach designations: Canons. Histories. Distribution requirements: Poetry, Pre-1750. (General Education Code(s): TA.) A. HEALD

110B. The Traditional British Canon, Part II. *

Explores poetry and prose from 1800 to 1950 through extensive reading in the Romantics, Victorians, Moderns, articulating the connections among them, and connecting their work to key social,

Literature

political, scientific, and technological moments defining these eras. Critical approach designations: Canons, Histories. Distribution requirement: Poetry. THE STAFF

110D. The Traditional U.S. Canon, 1900 to the Present. *

Major works from 1900 to the present, with attention to their social and cultural context. Critical approach designation: Canons, Histories. C. CHEN

111B. Geoffrey Chaucer. *

Close study of Chaucer's poetry, with some attention to relevant cultural, philosophical, and historical issues in the context of the late medieval period. Particular emphasis on "The Canterbury Tales." Critical approach designations: Canons, Histories. Distribution requirements: Poetry, Pre-1750. (General Education Code(s): TA.) H. LEICESTER

111D. William Shakespeare. W

Study of representative works by William Shakespeare. Course topic changes; please see the Class Search for current topic. Critical approach designations: Canons, Histories. Distribution requirements: Poetry, Pre-1750. May be repeated for credit. (General Education Code(s): TA.) S. KEILEN

111E. Edmund Spenser. S

Studies in Spenser's major poetry: "Faerie Queene, Book I; Epithalamion; Mutabilitie Cantos." Critical approach designations: Canons, Histories. Distribution requirements: Poetry, Pre-1750. H. LEICESTER

112A. Jane Austen. F

Representative Austen novels within political, historical, and cultural context; considers form and genre, nationalism, feminist, postcolonial, and other critical readings. Examines poetry and other writings that illuminate cultural issues of the period, as well as film and other adaptations of Austen's novels. Critical approach designations: Canons, Histories. L. MARTIN

112C. Charles Dickens. *

Study of representative work by Charles Dickens. Critical approach designations: Canons, Histories. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

112G. William Faulkner. *

A survey of Faulkner's early fiction; focus on development of theme and technique. Also considers Faulkner as a Southern historian, stressing the relationship between personal and regional experience in time. Critical approach designations: Canons, Geographies. THE STAFF

112I. Kafka in Translation. *

An intensive study of the works of Franz Kafka, with reference to the literary, social, and historical context in which his work emerged. Course topic changes; please see the Class Search for current topic. Critical approach designations: Canons, Geographies. May be repeated for credit. (General Education Code(s): TA.) A. BIVENS

112K. Herman Melville. *

Study of representative work by Herman Melville, including novels and short stories. Critical approach designations: Canons, Histories. THE STAFF

112M. Twain. W

A chronological survey of Twain's major works, with an emphasis on the development of style and content. Among other works, THE INNOCENTS ABROAD, ROUGHING IT, LIFE ON THE MISSISSIPPI, and HUCKLEBERRY FINN are considered. Critical approach designations: Canons, Power and Subjectivities. S. GILLMAN

114A. "Orlando Furioso". *

Reading the 46-canto Italian Renaissance adventure poem of Ludovico Ariosto, the most popular book of its century and a classic of humanist literature, students consider literary tradition, Renaissance humanism, and how entertainment literature may articulate moral and political criticism. Critical approach designations: Canons, Genres. Distribution requirement: Poetry, Pre-1750. (General Education Code(s): CC.) D. SHEMEK

114C. Dante's Divine Comedy. *

Reading of the Inferno, the Purgatorio, and selected canti of the Paradiso, along with selections from Dante's lyrics and from medieval Italian and French poetry. Critical approach designations: Canons, Genres. Distribution requirements: Poetry, Pre-1750. (General Education Code(s): TA.) THE STAFF

114D. Goethe's "Faust". *

An intensive study of Goethe's "Faust," Parts I and II. All works are read in English. Critical approach designations: Canons, Histories. Distribution requirement: Poetry. THE STAFF

116C. Ancient Myth/Modern Poetics. *

Reading of Greek and Roman texts (in English translation) which utilize mythic material juxtaposed with later poems written in response to them. Readings from Homer, Sappho, Greek drama, Petrarch, modern poets; discussion of concepts of myth, strategies of response. Critical approach designations: Canons, Genres. Distribution requirement: Poetry, Pre-1750. THE STAFF

118A. Hebrew Bible. *

Introduction to textual, source, redaction, historical, and literary criticism of individual books of the Hebrew Bible and to exegesis as science and ideology. Covers texts and iconography of neighboring mythological traditions (Mesopotamian, Ugaritic, Egyptian, Greek) when appropriate. Course topic changes; see the Class Search for current topic. Critical approach designations: Canons, Histories. Distribution requirement: Pre-1750. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

120A. Topics in Poetry. W,S

Close reading--critical and creative--of poetry. Examines how poets teach, through their writing, to radically attend to reading. The course topics changes; please see the Class Search for current topic. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. May be repeated for credit. (General

Literature

Education Code(s): TA.) D. SELDEN, G. SAHOTA

120B. Poetry of the 17th Century. *

Readings in the works of Donne, Jonson, Herbert, Herrick, Marvell, and others. Critical approach designations: Genres, Histories. Distribution requirements: Poetry, Pre-1750. (General Education Code(s): TA.) J. GREENE

120C. Victorian Poetry. *

A reading of the major Victorian poets from Tennyson to early Yeats. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. (General Education Code(s): TA.) THE STAFF

120D. Nineteenth-Century American Poetry. *

The major figures and important movements from Poe to Emerson through Whitman and Dickinson. Critical approach designations: Canons, Genres. Distribution requirement: Poetry. K. GRUESZ

120F. Topics in Modern Poetry. S

Survey of modern poetry; includes a variety of poetic forms. Course topic changes; see the Class Search for current topic. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. May be repeated for credit. (General Education Code(s): TA.) C. CHEN

120H. American Poetry Since World War II. *

Major poets since World War II, with attention to leading movements and critical issues. The course topic changes; please see the Class Search for the current topic. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. May be repeated for credit. C. CHEN

121D. Medieval Epic. F

Medieval reworkings of stories and motifs drawn from the "barbarian" or Germanic tradition including "Beowulf," "The Song of Roland," "Nibelungenlied," Snorri Sturlason: "King Harald's Saga" from "Heimskringla," and "Njal's Saga." Critical approach designations: Canons, Genres. Distribution

requirement: Poetry, Pre-1750. H. LEICESTER

121G. The Idea of Poetry. *

Focus is on the theories of rhetoric and poetry written between 1580 and 1620. Texts include English, Italian, French, and Spanish works. Critical approach designations: Genres, Histories. Distribution requirements: Poetry, Pre-1750. (General Education Code(s): TA.) S. KEILEN

121H. Classical Poetics in Elizabethan Verse. *

An introduction to Elizabethan poetry and poetics, with emphasis on shorter lyrics (sonnets, ballads, etc.), pastoral, erotic epyllia, devotional poetry, etc. Examines various Classical and Continental strains of influence at play in the production of English verse in the later 16th century, including Classical rhetoric, Ovidian mythology, and Petrarchanism. Critical approach designations: Canons, Genres. Distribution requirements: Poetry, Pre-1750. THE STAFF

121J. Medieval Romance. *

A study of representative texts from the 12th through the 15th centuries. Questions of subjectivity, sexuality, and history in romance narratives are addressed. Critical approach designations: Genres, Power and Subjectivities. Distribution requirement: Pre-1750. THE STAFF

125A. Ancient Novel. *

Roman prose fiction--the ancient novel and texts from other genres--in relation to the history of the novel. Critical approach designations: Genres, Histories. Distribution requirements: Pre-1750. THE STAFF

125B. Studies in the English Novel. *

From the 18th to the 20th century. The course topic changes; please see the Class Search for the current topic. Critical approach designations: Genres, Geographies. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

125C. Great French Novels. *

Provides an introduction to

important French novels of the nineteenth and twentieth centuries. All works are read in English. Critical approach designations: Genres, Geographies. THE STAFF

125D. Modern German Fiction. S

Selected readings from the novel and novella in 20th-century German literature. All works are read in English. Critical approach designations: Genres, Histories. S. PARK

126A. International Cyberpunk. *

Cyberpunk, considered a subgenre within science fiction, has achieved international prominence and presents interesting interpretative challenges. Course examines some issues as manifested in representative texts. Critical approach designations: Genres, Histories. Distribution requirement: Global. (General Education Code(s): PE-T.) W. GODZICH

126F. Speculative Fiction As Cultural Theory and Practice. S

Readings of contemporary and historical speculative fiction, including examination of representational practices, technologies, and politics that emerge from and/or circumscribe their interrelations. Course topic changes; please see the Class Search for current topic. Critical approach designations: Genres, Histories. May be repeated for credit. S. GILLMAN

130A. Ancient Literature in Cross-Cultural Perspective. *

Comparative approaches to the study of ancient literature and culture. Topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global, Pre-1750. May be repeated for credit. (General Education Code(s): CC.) M. DEVECKA

130B. Travel Writing and Intercultural Relations in the Middle Ages. *

Provides a historically-based and theoretically-informed introduction to medieval and early modern European contacts with other cultures. Readings include fourth through 17th-century writings

Literature

about travel, discovery, and conquest in Asia, Africa, and America. Critical approach designations: Geographies, Histories. Distribution requirement: Global, Pre-1750. C. GOMEZ-RIVAS

130D. The Global Middle Ages. * Examination of texts from the global Middle Ages in a range of world cultures and traditions, with attention to their historical and social contexts. Course topic changes; please see the Class Search for the current topic. Satisfies the Global and Pre- and Early Modern distribution requirements. May be repeated for credit. (General Education Code(s): CC.) S. KINOSHITA

131A. Problems. * Considers a range of phenomena from a critical world perspective: subject formation; human activity on a global scale; questions that demand a worlded answer. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. May be repeated for credit. THE STAFF

131B. Space/Time. * The world as understood through spatial and temporal divisions: regions, nations, empires, periods in a worlded perspective. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. THE STAFF

131C. Worldings. * How to think about the world as a whole: representations, networks, systems, taxonomies, versions of globalization. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. V. COOPAN

131D. Literature in a Global Context. * Comparative examination of fiction in the modern world and of fictional responses to social change and

crisis. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirements: Global. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

132A. Germany in War and Peace. * Study of selected texts reflecting German society at war or in that ambiguous state called "peace." Attention is given to the place of literature in German cultural life and its special role in the formation of national identity. Critical approach designations: Geographies, Power and Subjectivities. THE STAFF

133D. Topics in the Literatures and Cultures of Southern Asia. * Provides in-depth analysis of literary and cultural phenomena of southern Asia. The course topic changes; see the Class Search for the current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): CC.) G. SAHOTA

133F. Pacific Rim Discourse. * Examines the rise of the idea of the Pacific Rim: its historical background, ideological assumptions, and various forms of its cultural manifestations. Critical approach designations: Geographies, Histories. Distribution requirements: Global. THE STAFF

135A. Topics in African Literature. * Thematic and stylistic linkages: classical texts, oral traditions, and modern developments in African literature. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. W. GODZICH

135E. The Historical Imaginary. * A survey of historical literature in the Americas that examines fictional attempts to re-imagine New World histories. Readings focus on secret or mangled histories, the legacies of slavery and colonialism, gendered critiques of

national histories, and U.S. imperialism. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. S. GILLMAN

135F. Empire and After in the Anglophone Novel. * Examines fiction written in English, 1883 to 1948, in order to consider the complex relations--complicit, resistant, both--between literary and imperialist discourses. Likely novelists for study are Schreiner, Haggard, Conrad, Kipling, Forster, Hilton, Paton. Critical approach designations: Genres, Geographies. May be repeated for credit. V. COOPAN

135G. Postcolonial Writing. * Introduces students to a selection of postcolonial theory and texts. Critical approach designations: Geographies, Power and Subjectivities. May be repeated for credit. THE STAFF

136B. Beat Literature and the World. * Explores the sources and context of Beat writing, emphasizing the Beats' intense interest in and engagement with the world at large. Includes works by major and minor Beat writers. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Poetry. (General Education Code(s): TA.) R. WILSON

137A. Global Cities. * Examines cities as social spaces and as local spaces in the global economy and global imaginary. Focus is interdisciplinary, including literature, film, cultural studies, history, and sociology. Topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): CC.) C. CONNERY

138A. Culture and Nation. F Course explores the role of literature and culture in the production of national communities. Course topic changes; please see the Schedule of Classes for the current topic. Critical

Literature

approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): ER.) V. COOPPAN

138B. Regions in American Literature. F

Examines development of regional writing in the U.S. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. May be repeated for credit. R. WILSON

138C. Modern Turkish Literature. S

Explores the formation of modern Turkish literature from the late-Ottoman tale to the postmodern novel. Introduces key critical concepts/debates (orientalism, canon formation, belatedness/modernization, national allegory) used in the study of non-Western literatures. Critical approach designations: Geographies, Histories. Distribution requirement: Global. (General Education Code(s): CC.) K. SHARPE

139A. Topics in American Literature and Culture. *

Studies in American literature and culture, with attention to historical context. Course topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Histories. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

141A. Early Mediterranean Cultures. F

Examination of representations of medieval and early modern Mediterranean history. Course topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Pre-1750. (Formerly Cultural Theory in Historical Perspective.) May be repeated for credit. (General Education Code(s): CC.) S. KINOSHITA

141B. Classical Chinese Culture and Literature, 10th Century

B.C.E. through Sixth Century C.E. *

Survey of writing and culture from the 10th century B.C.E. through the sixth century C.E., focusing on poetry, philosophical and historical writing, supernatural fiction, Buddhist/Taoist texts in contexts of fragmentation, empire building, dynastic collapse, rebellion, eremitism, and courtly society. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Poetry, Pre-1750. (Also offered as History 141A. Students cannot receive credit for both courses.) C. CONNERY

141C. Classical Chinese Culture and Literature, Sixth Century through 16th Century. *

Survey of writing and culture from the Tang through early Ming dynasties (sixth century C.E. through 16th century C.E.). Themes include literary, religious, and philosophical innovation; courtly life; cultural contacts with non-Chinese people; and transformations of state and society. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Poetry, Pre-1750. (Also offered as History 141B. Students cannot receive credit for both courses.) C. CONNERY

141D. Arab-Islamic Literatures I: 500-1200. *

Examines the development of classical Arabic literature in historical context, including the appearance and importance of major genres and their broad relationship to the social and cultural history of the Arab-Islamic world. Critical approach designations: Geographies, Histories. Distribution requirements: Global, Pre-1750. (General Education Code(s): CC.) C. GOMEZ-RIVAS

141E. Arab-Islamic Literatures II: 1200-1900. *

Examines the evolution of Arabic and Islamic literatures and cultures through the late-Medieval and early-modern periods. These periods produce much of the body of literature and texts that survive today, and is profoundly influential.

Critical approach designations: Geographies, Histories. Distribution requirements: Global, Pre-1750. (General Education Code(s): CC.) C. GOMEZ-RIVAS

144A. Continental Renaissance. *

Introductory survey of great prose writings of the continental Renaissance in their cultural and historical contexts. Authors include: Machiavelli, Castiglione, Erasmus, Rabelais, Montaigne, and Cervantes. Critical approach designations: Geographies, Histories. Distribution requirement: Pre-1750. THE STAFF

145A. Colonial American Literatures. F

Surveys representations of the Euro-Amerindian encounter in the pre-national period. Readings include collective stories of indigenous peoples; European captivity narratives; and reflections about spirituality and religion, as well as poems and a contemporary novel. Critical approach designations: Histories, Power and Subjectivities. Distribution requirement: Pre-1750. (Formerly Colonial American Literature.) (General Education Code(s): TA.) K. GRUESZ

146A. Studies in Romanticism. *

A survey of major Romantic themes and authors between 1780 and 1820. Explores relationships to pre-Romantic and post-Romantic authors. The main goal is to achieve familiarity with a wide range of individual poems in the general context of Romanticism. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. (General Education Code(s): TA.) H. LEICESTER

146B. Victorian Literature. *

British Victorian literature (1830-1901) featuring representative texts and authors. Course topic changes; please see the Class Search for the current topic. Critical approach designations: Geographies, Histories. May be repeated for credit. (General Education Code(s): TA.) R. FOX

146C. Victorian Prose. *

Victorian prophecy, Victorian criticism: an examination of some

Literature

major writings of 19th-century nonfiction prose by Carlyle, Mill, Ruskin, Newman, Arnold, Pater, and Wilde, with a glance at the social context and the minor fictional forms of the era. Critical approach designations: Genres, Histories. THE STAFF

146D. Nineteenth-Century American Fiction. *

Examination of selected fiction written between the end of the 18th century and the Civil War, with attention to historical and cultural as well as literary issues. Critical approach designations: Canons, Histories. (General Education Code(s): TA.) S. GILLMAN

147A. Twain, Slavery, and the Literary Imagination. *

Using Mark Twain's later writings and other literary/non-literary materials, explores responses to popular and legal discourse on "blood," race, sex, resurgence of racism, and imperialism. Critical approach designations: Histories, Power and Subjectivities. (General Education Code(s): ER.) S. GILLMAN

149A. Behind the Berlin Wall. *

Examines cultural life in the German Democratic Republic between 1946 and 1992 through films from the state-owned DEFA film studios. Topics include: socialist realism and international modernism in cinema; the representation of collective labor; the status of women; youth culture; and the texture of everyday life and consumer culture in socialism. Critical approach designations: Histories, Media. (General Education Code(s): IM.) A. BIVENS

149B. Contemporary American Literature. *

A selective examination of major writings since World War II, with attention to both literary issues and historical context. Critical approach designation: Geographies, Histories. May be repeated for credit. THE STAFF

149C. The 1960s. *

An interdisciplinary study of the cultural and social movements of the 1960s. Critical approach designations: Histories, Power and

Subjectivities. Distribution requirement: Global. C. CONNERY

149D. Topics in Modern Literature. F,W,S

Study of 19th- and/or 20th-century literature, with attention to its literary and historical context. Course topic changes; please see the Class Search for current topic. Critical approach designations: Genres, Histories. May be repeated for credit. (General Education Code(s): TA.) (F) S. PARK, (W) R. FOX, (S) A. KUMAR

149E. Modern Fiction and Poetry. S

Survey of modern fiction and poetry. Course topic changes; please see the Class Search for current topic. Critical approach designations: Genres, Histories. Distribution requirement: Poetry. May be repeated for credit. R. WILSON

149F. Contemporary Mexican Narrative. *

Examines 20th and 21st century Mexican literature, with attention to literary critical issues as they relate to cultural, historical, and political contexts. Critical approach designations: Geographies, Histories. Distribution requirement: Global. THE STAFF

149G. War in Contemporary American Culture. *

Considers the treatment of war in American literature since World War II. Close attention paid to both literary form and historical context. Also provides perspectives on, and critical tools for thinking about, contemporary armed conflict. Course topic changes; please see the Class Search for the current topic. Critical approach designations: Histories, Power and Subjectivities. (General Education Code(s): TA.) THE STAFF

149H. The Future. W

Examines modes of thinking and imagining the future throughout human history, and considers the fate of the future today. Topics include apocalyptic religion, utopia and dystopia, progress, revolution, finance, and everyday life. Critical approach designations: Histories,

Power and Subjectivities. Distribution requirement: Global. C. CONNERY

150D. The Power of Writing: Books and Libraries 600-1500. W

Surveys the history of the book in the West from ca. 600-1500. Concentrates on the medieval illuminated manuscript and the first years of printing, and focuses on the relationship between text and image. Critical approach designations: Histories, Media. Distribution requirements: Pre-1750. (General Education Code(s): IM.) E. REMAK-HONNEF

151B. The Phenomenon of Tragedy. *

Examines the theory of tragedy from Aristotle to Nietzsche, while inviting students to read and discuss classic dramatic pieces to which the label "tragedy" was applied. Relies on student presentations and contributions, and teaches skills both in handling theory and in practical literary criticism. Critical approach designations: Genres, Media. Distribution requirement: Pre-1750. THE STAFF

155A. Cinema and Subjectivity. *

An examination of the ways in which the technological and institutional practices of cinema construct modes of modern and contemporary subjectivity. Course topic changes; please see the Class Search for current topic. Critical approach designations: Media, Power and Subjectivities. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): IM.) THE STAFF

155C. New German Cinema. F

Surveys the work of Fassbinder, Kluge, Herzog, Schlöndorff, von Trotta, Reitz, Straub, Sanders-Brahms, and others. Major themes include post-fascism and the problems of history, the burden of memory, mass culture, gender, social class, and migration in postwar Germany. Critical approach designations: Geographies, Media. (General Education Code(s): IM.) A. BIVENS

Literature

155D. Italian Cinema and Literature. S

Explores the rich history of Italian cinema. Special attention is given to the links between literacy and visual narratives, Italian films and Italian novels, autobiographies, and short stories on which the films are based. Critical approach designations: Geographies, Media. (General Education Code(s): IM.) A. KUMAR

155E. Cinema and Social Change in Latin America. *

Surveys selected Latin American and Latino feature and documentary films. Course topic changes; please see the Class Search for current topic. Critical approach designations: Media, Power and Subjectivities. Distribution requirements: Global. May be repeated for credit. (General Education Code(s): CC.) J. POBLETE

155H. The Horror Film. W

Shifting definitions of horror in the movies from the late silent period to the present through close analysis of representative films and critical texts. Course topic changes; please see the Class Search for current topic. Critical approach designations: Genres, Media. May be repeated for credit. (General Education Code(s): IM.) H. LEICESTER

155J. The Films of John Carpenter. *

Study of development and central themes of preeminent genre director of the "post-Hollywood" era, concentrating on central core of major works in horror/science fiction genres from "Halloween" to "In the Mouth of Madness," with attention to the comedies and action films. Critical approach designations: Genres, Media. H. LEICESTER

156A. The Gothic Imagination in Fiction, Film, and Theory. *

Readings include theoretical essays by Freud and Lacan and such fictions as "The Monk," "Frankenstein," "Dracula," "Maus," "The Yellow Wallpaper," and "Beloved." Films change each year. Critical approach designations:

Histories, Media. (General Education Code(s): TA.) R. FOX

157A. Modern Ancient Drama. *

The study of 20th- and 21st-century productions and adaptations of ancient Greek drama in theater, dance, music, and film, including Stravinsky, Graham, Pasolini, Breuer, and von Trier, discussing artists' goals, the sociopolitical context, ideas of authenticity, and audience response. Critical approach designations: Histories, Media. Distribution requirement: Pre-1750. (General Education Code(s): IM.) THE STAFF

157C. Representations of Hamlet. *

Examination of Shakespeare's "Hamlet" from various perspectives, including as a literary and historical object, and as a mirror of sociopolitical concerns. Readings include both precursors to Shakespeare and modern adaptations and revisions of the "Hamlet" story. Critical approach designations: Canons, Media. Distribution requirements: Pre-1750. THE STAFF

157E. Greek Drama/Modern Film. *

A reading of ancient Greek plays along with contemporary films similar to them in theme, form, and effect. Students discuss different definitions of tragedy; genre as a critical tool; and similarities and difference between the media of literature, drama, and film. Critical approach designations: Genres, Media. Distribution requirement: Pre-1750. THE STAFF

160E. Theorizing Race and Comics. S

Examines comics' origins in the United States' legacies of racial caricature and political cartoons about slavery, Asian exclusion, yellow journalism, and imperial expansion. Analyses of graphic novel's 20th-century evolution around human-rights violations and post-atrocity representational strategies around race, nationalism and minority status. Critical approach designations: Media, Power and Subjectivities. Distribution requirements: Global. Enrollment by interview only;

course requires an essay application. Enrollment restricted to literature and history of art and visual culture majors. (General Education Code(s): ER.) C. HONG

160F. Topics in Cultural Studies. F

Investigates the ways in which cultural texts--literary, aesthetic, visual, performative, and a variety of "popular" forms--create and transform individual experiences, everyday life, social relations, and power. Course topic changes; see the Class Search for the current topic. Critical approach designations: Media, Power and Subjectivities. May be repeated for credit. (General Education Code(s): TA.) D. BELL

160G. Topics in Literary Theory. W,S

Examination of major issues in contemporary theory, with emphasis on key concepts. Course topic changes; please see the Class Search for current topic. Critical approach designations: Canons, Power and Subjectivities. May be repeated for credit. D. BELL, G. SAHOTA

160I. Race, Militarism, and Empire in Asia and the Pacific. *

Theoretical and historical inquiry into the relationship between race, militarism, and empire; a comparative examination of the Japanese and U.S. empires in the Asia-Pacific region; and a consideration of how liberal ideologies around race were wielded as a tool of imperial governance. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirements: Global. (General Education Code(s): ER.) C. HONG

160J. Exile, Diaspora, Migration. W

Analyzes how the figure of the refugee, migrant, and other travelling communities are produced, engaged and represented in literary texts, cultural texts, and theories. Course materials include fiction, memoir, essay, legal tracts, and film. Critical approach designations: Geographies, Power and Subjectivities. Distribution

Literature

requirements: Global. (General Education Code(s): CC.) T. WANGMO

161A. African American Literature.*

Examination of African American writing and cultural representations, with attention to the historical, cultural, and general literary contexts out of which they emerged and upon which they commented. Course topic changes; please see the Class Search for the current topic. Critical approach designations: Histories, Power and Subjectivities. May be repeated for credit. (General Education Code(s): ER.) C. CHEN

161B. African American Women Writers.*

Explores the cultural, aesthetic, political, and feminist issues in select works by African American women. Through close analysis of the works, students develop an understanding of the intersections that race, gender, and class play in the literary imaginations of these writers. Critical approach designations: Histories, Power and Subjectivities. (General Education Code(s): ER.) C. CHEN

162A. Asian American Literature.*

Examination of Asian American literary works (fiction, poetry, dramatic essays) in the context of the historical presence of Asian Americans in the United States since the 1850s. Emphasis on comparison of select works from ethnic Asian writings. Critical approach designations: Geographies, Power and Subjectivities. (General Education Code(s): ER.) THE STAFF

163A. American Indian Literature.*

Explores works of fiction, creative non-fiction, drama, and poetry written by American Indians. Focuses on historical and political issues within the text as well as on formal and thematic structures. Critical approach designations: Histories, Power and Subjectivities. THE STAFF

164A. Jewish Travel Narratives. W

Exploration of the idea of the Diaspora as a "moving" condition, and of the multi-dimensional character of global Jewish culture, covering authors who traveled across the Jewish world from medieval times to the present. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Pre-1750. M. BAUMGARTEN

164B. Hebrew Poetry.*

Hebrew poetry-Biblical, medieval, modern-explores cultural and literary issues central to our contemporary world. Texts and discussion focus on Jewish and Israeli literary traditions. Critical approach designations: Genres, Power and Subjectivities. Distribution requirement: Poetry. May be repeated for credit. (General Education Code(s): CC.) THE STAFF

164C. Global Jewish Writing.*

Comparative analysis of modern Jewish writers from Western and non-Western diasporas. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. THE STAFF

164D. Jewish Diaspora, Ethnicity, and Urban Life. F

Focuses on modern Jewish diaspora, ethnicity, and urban life. Critical approach designations: Geographies, Power and Subjectivities. (General Education Code(s): ER.) B. THOMPSON

164G. Literature and the Holocaust.*

Reading and analysis of fiction and poetry, focusing on Holocaust literature as a problem in critical theory, cultural studies, and literary history. Though most of the works are read in translation, some knowledge of European languages is helpful. Critical approach designations: Histories, Power and Subjectivities. May be repeated for credit. THE STAFF

164H. Jewish Writers and the European City.*

Interrogates the master narrative of

a specific European city and discusses the ways in which Jewish life and Jewish actions helped to shape that story and were shaped by it. Course topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Power and Subjectivities. May be repeated for credit. (General Education Code(s): ER.) THE STAFF

164J. Jewish Writers and the American City.*

An examination of some major Jewish writers and their responses to the American city. Major writers: Henry Roth, Saul Bellow, Bernard Malamud, J. Kaplan, Philip Roth. A look at Yiddish and other minority writers, and including sociological and historical materials on the American city. The course topic changes; please see the Class Search for the current topic. Critical approach designations: Histories, Power and Subjectivities. May be repeated for credit. (General Education Code(s): ER.) B. THOMPSON

165A. Chicano/Mexicano Geographies.*

Considers the historical, current, and future directions of Chicano/a literary culture within the context of the long-standing exchanges of culture and politics across the U.S.-Mexican border and the challenges of globalization. Includes novels, essays, and films. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. (General Education Code(s): ER.) K. GRUESZ

165B. Latin/o American Fiction.*

Writers in the U.S., Latin America, and the Caribbean have been drawn repeatedly to the theme of intercultural conflict as they recall the traumatic history of the hemisphere. Examining fiction, poetry, and film expands the horizons of "American" literature. Critical approach designations: Genres, Power and Subjectivities. Distribution requirement: Global. K. GRUESZ

166A. Representations of Gender in Medieval Literature.*

Examination of the portrayal of

Literature

gender roles and interactions. Particular stress on erotic experience and the courtly tradition: Ovid, Andreas Capellanus, Marie de France, Chretien de Troyes, "The Romance of the Rose," Dante, Chaucer, Christine de Pizan. Critical approach designations: Histories, Power and Subjectivities. Distribution requirement: Poetry, Pre-1750. H. LEICESTER

166B. Early Modern Representations of Gender. *

Explores representation of gender in early modern literature, with attention to contemporary aesthetic, cultural, and theoretical contexts. Texts include drama, poetry, and prose. Critical approach designations: Histories, Power and Subjectivities. Distribution requirement: Pre-1750. May be repeated for credit. THE STAFF

166C. Early Modern Italian Women Writers. *

In early modern Italy several factors converged to foster a boom in women's writing and publication. Course addresses the context and content of these writings, dealing with key theoretical and historical issues surrounding women's entry into authorship in Europe. Knowledge of Italian not required. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Pre-1750. D. SHEMEK

166E. Women's Literature. *

Works by women from the 18th century to the present, with special attention to the relationship of literature to history, psychology, and aesthetics. Course topic changes; please see the Class Search for current topic. Critical approach designations: Histories, Power and Subjectivities. May be repeated for credit. (General Education Code(s): TA.) THE STAFF

167E. The Vampire in Literature and Popular Culture. *

Traces the vampire's appearance in different historical moments, cultural contexts, genres, and media to interrogate its place in the shifting cultural politics of gender and sexuality, as well as in relation to race, ethnicity, class, and other

identity positions. Critical approach designations: Media, Power and Subjectivities. (General Education Code(s): TA.) R. FOX

167G. Reading the Weather: Literature and Global Climate Change. F

An overview of climate change and its representations in literary and filmic texts. Asks how climate fiction and non-fiction narratives of climate change can help us to confront issues of environmental justice, inequalities of race and class, vulnerability, land rights, and refugeehood. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirements: Global. (General Education Code(s): PE-E.) D. CRAWFORD

179. Creative Writing.

179A. Advanced Writing: Fiction. F,W,S

Intensive work in writing fiction. Critical approach designation: Genres. Enrollment restricted to creative writing literature majors. May be repeated for credit. (General Education Code(s): PR-C.) (F) K. YAMASHITA, (WS) M. SANDERS-SELF

179B. Advanced Writing: Poetry. F,W,S

Intensive work in writing poetry. Critical approach designation: Genres. Enrollment restricted to creative writing literature majors. May be repeated for credit. (W) R. WILSON, (FS) G. YOUNG

179C. Methods and Materials. W

Focuses on a particular process or subject used in the production of a literary text. Course is intended to work as a bridge between invention and scholarship. Course topic changes; please see the Class Search for current topic. Critical approach designation: Genres. Enrollment restricted to creative writing literature majors. May be repeated for credit. (General Education Code(s): PR-C.) G. YOUNG

181. Biblical Hebrew, Egyptian Hieroglyphs, Sanskrit.

181A. Biblical Hebrew, Part 1. W

Grammatical study interspersed

with narrative excerpts from the Hebrew Bible. Recommended: previous study of a second language up to the advanced level. Critical approach designations: Canons, Histories. Distribution requirements: Global, Pre-1750. D. SELDEN

181B. Biblical Hebrew, Part 2. S

Continuation of grammatical study interspersed with poetic texts from the Hebrew Bible. Critical approach designations: Genres, Geographies. Distribution requirements: Global, Poetry, Pre-1750. Together, Biblical Hebrew 1 and 2 fulfill the language prerequisites for Literature 102; together they also satisfy the intensive major second-language course requirements. Prerequisite(s): course 181A or the equivalent. D. SELDEN

181D. Reading Egyptian Hieroglyphs, Part 1. *

Introduction to Egyptian hieroglyphs as a graphic, conceptual, and communicative system. Covers the basic elements of classical Egyptian grammar, drawing primarily on inscriptions from extant Egyptian monuments. Students read one prose and one poetical text from the Middle Kingdom. Critical approach designations: Geographies, Media. Distribution requirement: Global, Pre-1750. Strongly recommended: two years previous study of a foreign language at the college level or the equivalent. (General Education Code(s): CC.) D. SELDEN

181E. Reading Egyptian Hieroglyphs, Part 2. *

Advanced Middle Egyptian grammar (two weeks). Close reading of the "Tale of Sinuhe" in Middle Egyptian, selected hymns and love poetry from the New Kingdom. Critical approach designations: Genres, Geographies. Distribution requirement: Global, Poetry, Pre-1750. Together, Egyptian Hieroglyphs 1 and 2 fulfill the language prerequisites for Literature 102; together they also satisfy the intensive major second-language course requirements. Prerequisite(s): course 181D

Literature

(General Education Code(s): CC.) D. SELDEN

181F. Reading Egyptian Hieroglyphs, Part 3. *

Close reading of the "Tale of Sinuhe" in Middle Egyptian. Critical approach designations: Genres, Geographies. Distribution requirement: Global, Poetry, Pre-1750. Prerequisite(s): course 181E. D. SELDEN

181G. Sanskrit, Part 1. *

Systematic introduction to the grammar, syntax, and usage of Classical Sanskrit, to the oral dimensions of the language, and to the Sanskrit literary tradition. Critical approach designations: Canons, Histories. Distribution requirement: Global, Poetry, Pre-1750. G. SAHOTA

181H. Sanskrit, Part 2. *

Continued study of the grammar, syntax, and usage of Classical Sanskrit, and the Sanskrit literary tradition. Students read the entire "Bhagavad-Gita," including key sections in the original Sanskrit. Critical approach designations: Canons, Geographies. Distribution requirements: Global, Poetry, Pre-1750. Together Sanskrit, Part 1 and Part 2 fulfill the language prerequisites for Literature 102; together they also satisfy the intensive major second-language course requirements. Prerequisite(s): course 181G. G. SAHOTA

182. French Literature.

182A. Le Moyen Age. *

Speaking, reading, and writing proficiency in French required. Study of 12th- and 13th-century texts, with attention to problems of history and social change. In modern translations with selected readings in Old French or Provençal. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Poetry, Pre-1750. (Formerly The Middle Ages.) May be repeated for credit. S. KINOSHITA

182E. Etudes de Poésie. *

Speaking, reading, and writing proficiency in French required. Emphasizes the close study of a limited number of poetic texts in terms of their linguistic, stylistic, and rhetorical devices. Course topic changes; please see Class Search for current topic. Critical approach designations: Genres, Geographies. Distribution requirement: Poetry. (Formerly Studies in Poetry.) May be repeated for credit. W. GODZICH

182F. Le théâtre. *

Speaking, reading, and writing proficiency in French required. Studies in French drama and theories of theatricality. Course topic changes; see the Class Search for current topic. Critical approach designations: Genres, Media. (Formerly Theater and Drama.) May be repeated for credit. THE STAFF

182H. Auteur et culture. *

Speaking, reading, and writing proficiency in French required. Designed to provide an in-depth study of a given author's literary oeuvre and its cultural context. Course topic changes; see the Class Search for the current topic. Critical approach designations: Geographies, Histories. (Formerly Author and Culture.) May be repeated for credit. W. GODZICH

182I. Littérature d'expression française hors de France. *

Speaking, reading, and writing proficiency in French required. A study of texts written in French-speaking cultures: Belgium, Canada, Africa, the Caribbean. Critical approach designations: Geographies, Histories. Distribution requirement: Global. (Formerly French Literature Outside France.) May be repeated for credit. THE STAFF

Speaking, reading, and writing proficiency in Italian required. Critical study of "The Decameron." Critical approach designation: Canons, Genres. Distribution requirements: Poetry, Pre-1750. (Formerly Boccaccio.) D. SHEMEK

185Q. Dante: "Divina Commedia". *

Speaking, reading, and writing proficiency in Italian required. Reading of the "Inferno," the "Purgatorio," and selected canti of the "Paradiso," along with selections from Dante's lyrics and from medieval Italian and French poetry. Critical approach designations: Canons, Histories. Distribution requirement: Poetry, Pre-1750. (Formerly Dante's "Divine Comedy".) THE STAFF

185S. Petrarca. *

Speaking, reading, and writing proficiency in Italian required. The transition from medieval to Renaissance modes of poetry in the works of Francesco Petrarca. Readings in the "Rime Sparse," the "Trionfi," and the prose works. Critical approach designations: Canons, Histories. Distribution requirements: Poetry, Pre-1750. D. SHEMEK

185Z. Italian Studies Writing in the Discipline (1 credit). F,W,S

Concurrent enrollment in an approved upper-division course in Italian literature, history of art and visual culture, or history satisfies the Disciplinary Communication requirement in Italian studies. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Students submit petition to sponsoring agency. Enrollment restricted to Italian studies majors and by permission of instructor. THE STAFF

186. Latin Literature.

186A. Introduction to Latin Literature. S

Reading proficiency in Latin required. Course topic changes; see Class Search for the current topic. Critical approach designations: Canons, Histories. Distribution requirement: Pre-1750. May be repeated for credit. (General Education Code(s): TA.) J. LYNN

186B. Roman Poetry. F,W

Reading proficiency in Latin required. Course topic changes; see the Class Search for current topic. Critical approach designations:

Canons, Genres. Distribution requirements: Poetry, Pre-1750. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. (F) C. HEDRICK, (W) J. LYNN

186C. Prose Authors. S

Reading proficiency in Latin required. Course topic changes; see the Class Search for current topic. Critical approach designations: Canons, Histories. Distribution requirement: Pre-1750. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. M. DEVECKA

186D. Special Topics in Latin Literature. *

Reading proficiency in Latin required. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Pre-1750. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. THE STAFF

188. Spanish/Latin American/Latino Literature.

188B. Literatura peninsular: de los orígenes al siglo XVIII. *

Speaking, reading, and writing proficiency in Spanish required. A critical study of several representative texts from the early period of Spanish literature in their sociohistorical context. Included among the readings are "El Poema del Cid," the "Romancero," "La Celestina," "Lazarillo de Tormes," and a Golden Age play. Critical approach designations: Geographies, Histories. Distribution requirements: Poetry, Pre-1750. (Formerly Origins to 18th Century.) THE STAFF

188E. Teatro del Siglo de Oro español. *

Speaking, reading, and writing proficiency in Spanish required. Studies in Spanish Golden Age theater. Critical approach designations: Histories, Media. Distribution requirement: Pre-

Literature

1750. (Formerly Spanish Golden Age Theater.) J. ALADRO FONT

188F. Cuentos del Siglo de Oro español. S

Speaking, reading, and writing proficiency in Spanish required. Focuses on the prose in the Renaissance period and the different genres that flourished before the creation of Cervantes' "Don Quixote." Chosen texts constitute an amalgam of Renaissance ideology, and provide examples of 16th-century literature, including the picaresque novel, pastoral novel, the Byzantine novel, and the chivalresque novel. Critical approach designations: Genres, Histories. Distribution requirement: Pre-1750. (Formerly Short Stories of the Spanish Golden Age.) J. ALADRO FONT

188G. Literatura y vida en "Don Quijote" y otros textos cervantinos. *

Speaking, reading, and writing proficiency in Spanish required. A close reading of the works of Cervantes, with particular attention to "Don Quijote," in an attempt to discover how these works reflect the conflictive period in which the author lived. Also looks closely at the Cervantine view of the relationship of literature to life, as manifested in the works under study. Critical approach designations: Canons, Histories. Distribution requirement: Pre-1750. (Formerly Literature and Life in "Don Quijote" and Other Cervantes Texts.) J. ALADRO FONT

188H. Erotismo y Mistica. *

Speaking, reading, and writing proficiency in Spanish required. Examines the connections between erotic literature and mystical literature through poetic representations of sublime where Eros and Thanatos meet. As symbolisms of mystical and erotic experiences fuse and confuse each other, we are able to establish connections between Sufi, Hindi, and Judeo-Christian mystical poetry. Critical approach designations: Genres, Histories. Distribution requirement: Pre-1750. J. ALADRO FONT

188I. La novela picaresca. *

Speaking, reading, and writing proficiency in Spanish required. The picaresque novel of 16th-century Spain considers the fictive environment as reality in order to introduce its protagonist as a rebel against social dominion. The picaresque novel is the only literary genre comparable to what is now called "literature of social protest." Critical approach designations: Genres, Histories. Distribution requirement: Pre-1750. (Formerly The Picaresque Novel.) (General Education Code(s): CC.) J. ALADRO FONT

188L. Literatura de la guerra civil española. *

Speaking, reading, and writing proficiency in Spanish required. Examines literature related to the period of the Spanish Civil War (1936-39) and the Franco years (1939-75). Includes works by Spanish writers in exile during this period; also examines literary texts written prior to the outbreak of the war. Critical approach designations: Histories, Power and Subjectivities. (Formerly The Literature of the Spanish Civil War.) THE STAFF

188M. Literatura peninsular: siglos XIX y XX. *

Speaking, reading, and writing proficiency in Spanish required. A critical study of several representative texts from this period of Spanish literature. Critical approach designations: Geographies, Histories. (Formerly Peninsular Literature: 19th and 20th Centuries.) THE STAFF

188Z. Literatura de España. *

Speaking, reading, and writing proficiency in Spanish required. Examines works by Spanish authors with attention to historical and cultural as well as literary issues. Course topic changes, see the Class Search for current topic. Critical approach designations: Geographies, Histories. (Formerly Literature of Spain.) May be repeated for credit. THE STAFF

189A. De la conquista a Sor Juana. W

Speaking, reading, and writing proficiency in Spanish required. A

study of Hispanic American and Peninsular literatures from the chronicles of the conquest through the 17th century. Readings deal with transformations in both the idea of empire and the rights of the conquered. Includes the works of Colon, Cortes, El Inca Garcilaso de la Vega, Sor Juana Ines de la Cruz, and others. Critical approach designations: Canons, Histories. Distribution requirement: Global, Pre-1750. (Formerly From the Conquest to Sor Juana.) (General Education Code(s): CC.) Z. ZIMMER

189B. Del romanticismo al modernism. F

Speaking, reading, and writing proficiency in Spanish required. Follows the literary manifestations of the growing consciousness of the Latin American writer: discovery of native themes, comparative analysis of Spanish American and Peninsular European models, search for a "new language" literally and figuratively. Relates historical events with literary movements. Critical approach designations: Geographies, Histories. Distribution requirement: Global. (Formerly Romanticism to Modernism.) (General Education Code(s): CC.) A. SMITH

189C. Introducción a Spanish Studies. W

Speaking, reading, and writing proficiency in Spanish is required. Explores the social, cultural, economic, and political changes that connect Latin America, Spain, and the United States Latina/o communities. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. (Formerly Introduction to Spanish Studies.) (Also offered as Spanish 105. Students cannot receive credit for both courses.) Prerequisite(s): Spanish 6 or Spanish for Heritage Speakers 6 or permission of instructor. (General Education Code(s): ER.) J. ALADRO FONT

189D. Sor Juana Ines de la Cruz. *

Speaking, reading, and writing proficiency in Spanish required. An in-depth examination of the life and work of Sor Juana Ines de la Cruz, a

Literature

17th-century nun, poet, playwright, and woman of genius and intellectual prowess whose ideas and accomplishments were ahead of her time. Critical approach designations: Canons, Histories. Distribution requirement: Pre-1750. J. ALADRO FONT

189E. Cuba. *

Speaking, reading, and writing proficiency in Spanish required. Examines Cuban literature and culture, with attention to historical context. Course topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): CC.) THE STAFF

189F. Literaturas Latinas en los Estados Unidos: en inglés, español y Spanglish. *

Speaking, reading, and writing proficiency in Spanish required. Spanish-based, English/bilingual inclusive overview of Latino/a writing in the U.S. Critical approach designations: Genres, Geographies. Distribution requirement: Global. (Formerly U.S. Latino/a Writing in Spanish/English and Spanglish.) (General Education Code(s): ER.) J. POBLETE

189G. Cine y Literatura. *

Speaking, reading, and writing proficiency in Spanish required. Analysis and interpretation of Spanish-language films derived from literary works by Latin American and Spanish authors. Topic changes; see the Class Search for current topic. Critical approach designations: Genres, Media. Distribution requirement: Global. May be repeated for credit. (General Education Code(s): IM.) THE STAFF

189H. La Globalizacion en/del Cine Latin/o Americano. *

Speaking, reading, and writing proficiency in Spanish required. Examines globalization of Latin/o American cinema as a cultural industry. Classical issues of cultural politics and political economy are revisited from the viewpoint of current global processes. Also provides access to the

representation of different aspects of globalization in Latin/o American cinema. Critical approach designations: Media, Power and Subjectivities. Distribution requirement: Global. J. POBLETE

189I. Cine y sexualidad en América Latina. *

Speaking, reading, and writing proficiency in Spanish required. Changing cinematic representations of masculinity, femininity, and sexuality and their articulation with expressions of the national in feature films made in various Latin American countries between 1940 and the present. Critical approach designations: Media, Power and Subjectivities. Distribution requirement: Global. THE STAFF

189K. El ensayo latinoamericano. *

Speaking, reading, and writing proficiency in Spanish required. A study of the essay in Spanish America from Sarmiento to the present, concentrating on problems of national or cultural identity. Critical approach designations: Geographies, Histories. Distribution requirement: Global. (Formerly The Latin American Essay.) THE STAFF

189L. Poesía latinoamericana. W

Speaking, reading, and writing proficiency in Spanish required. Poets from "modernismo" to the present in Spanish America. Studies how this poetry attempts to define Latin America, its past, its present history, and its vision for the future. Critical approach designations: Genres, Geographies. Distribution requirement: Global, Poetry. (Formerly Latin American Poetry.) (General Education Code(s): CC.) THE STAFF

189M. Prosa contemporánea hispanoamericana. *

Speaking, reading, and writing proficiency in Spanish required. Examines contemporary Spanish American prose. Course topic changes; please see the Class Search for current topic. Critical approach designations: Genres, Geographies. Distribution requirement: Global. (Formerly Contemporary Spanish American Prose.) (General Education Code(s): CC.) THE STAFF

189N. Latinoamericano testimonio. *

Speaking, reading, and writing proficiency in Spanish required. Contemporary non-fiction testimonial literature of Latin America. Critical approach designations: Genres, Power and Subjectivities. Distribution requirement: Global. (Formerly Latin American "testimonio".) J. POBLETE

189O. El Cuento Hispanoamericano: Variedades estéticas de la literatura breve en América Latina. *

Speaking, reading, and writing proficiency in Spanish required. Explores various aesthetics of the Latin American short story including fantastic, detective, metaliterary, social critique, historical, and philosophical writings. Critical approach designations: Canons, Genres. Distribution requirement: Global. THE STAFF

189P. Las mujeres en la literatura latinoamericana. *

Speaking, reading, and writing proficiency in Spanish required. Literary and sociological writings by and about women in Latin America-in Hispanic, indigenous, and African-Latino communities; in rural and urban settings; in historical and contemporary periods. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. (Formerly Women in Latin American Literature.) THE STAFF

189Q. Ficción y marginalidad. *

Speaking, reading, and writing proficiency in Spanish required. Marginalized perspectives take center stage in this course that studies ways Latin American/Latino authors textually contest dominant representations and realities, opening symbolic spaces for emergent historical subjects who gain agency and authority by re/presenting unmapped terrains. Texts include chronicles, "testimonios," writings of the self, and novels. Critical approach designations: Geographies, Power

Literature

and Subjectivities. Distribution requirement: Global. (Formerly Fiction and Marginality: The Marginal at the Center.) A. SMITH

189S. La cultura popular en la narrativa latinoamericana. *

Speaking, reading, and writing proficiency in Spanish required. Explores short stories and novels that have been greatly influenced by popular culture, not only in theme, but also by appropriation of popular forms of language and modes of representation. Includes works by authors from Mexico, Argentina, Cuba, and Colombia. Critical approach designations: Genres, Geographies. Distribution requirement: Global. (Formerly Popular Culture in Latin American Narrative.) (General Education Code(s): CC.) THE STAFF

189T. Historia de la lectura y los lectores: Recepcion y consumo cultural en el mundo Latino Americano. *

Speaking, reading, and writing proficiency in Spanish required. Explores historical readers and reading practices in at least three different formations: colonial, national-popular, and transnational. Proposes a historical-theoretical reconstruction of the place of reading and readers at key moments in the history of culture in Latin America. Critical approach designations: Histories, Power and Subjectivities. Distribution requirement: Global. J. POBLETE

189U. Modernidad y literatura: El Boom de la novela latinoamericana. *

Speaking, reading, and writing proficiency in Spanish required. Explores the relationships between literature and mass culture, modernization, and globalization through the study of the so-called Boom of Latin American narrative. Critical approach designations: Genres, Histories. Distribution requirement: Global. J. POBLETE

189V. Andean Indigenismo. F

An introduction to the indigenista movement in Peru, Bolivia, Ecuador, and Paraguay, and to the literary and ideological debates surrounding it. Authors include

Mariategui, Gonzalez Prada, Arguedas, Icaza, Alegria, and Vallejo. Critical approach designations: Geographies, Power and Subjectivities. Distribution requirement: Global. Z. ZIMMER

189X. Estudios mediaticos. F

Investigates film, radio, video games, new media, and other newly emergent forms of cultural production in the Spanish-speaking world. Topics may include the historical study of media, media-focused analysis of literary texts, and new media translation. The course topic changes; see the Class Search for the current topic. Critical approach designations: Genres, Media. May be repeated for credit. (General Education Code(s): CC.) Z. ZIMMER

190. Senior Seminar.

Seminar offered to literature majors as a way to satisfy the senior exit requirement. Offered at different times by different instructors and focused on topics in literary studies. All students are required to complete an essay of significant length as part of the seminar coursework. THE STAFF

190A. Topics in Pre- and Early Modern Studies. W,S

Examination of individual authors or critical problems in ancient, medieval, or early modern/Renaissance literature. Course topic changes; see the Class Search for current topic. Critical approach designations: Canons, Histories. Distribution requirements: Pre-1750, Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. W. GODZICH, S. KINOSHITA

190F. Studies in Poetry. F

Studies in English-language poetry. Course topic changes; see the Class Search for current topic. Critical approach designations: Genres, Histories. Distribution requirements: Poetry, Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. R. WILSON

190J. Studies in English Language Literature. *

Studies of selected authors or issues in English language literature. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Study of selected authors or issues in 19th-century British literature. Course topic changes; see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. R. FOX

190O. Studies in Slavery, Race, and Nation in the Americas. *

Compares literatures and histories of slavery, abolitionism, and nationalism in 19th-century Cuba and the U.S. Readings include slave narratives and antislavery novels. Critical approach designations: Histories, Power and Subjectivities.

Literature

Distribution requirement: Global, Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. S. GILLMAN

190T. Topics in Modern Literary Studies. S

Selected authors or issues in modern literary and cultural studies. Course topic changes; see the Class Search for current topic. Critical approach designation: Histories. Distribution requirement: Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior literature majors. May be repeated for credit. H. LEICESTER, G. SAHOTA

190V. Fiction Senior Seminar. S

Satisfies the Creative Writing Literature concentration; also satisfies the senior seminar distribution requirement. Critical approach designation: Media. Distribution requirement: Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior creative writing literature majors. K. YAMASHITA

190W. Poetry Senior Seminar. S

Satisfies the Creative Writing Literature concentration; also satisfies the senior seminar distribution requirement. Critical approach designation: Media. Distribution requirement: Senior Seminar. Prerequisite(s): Literature 101. Enrollment restricted to senior creative writing literature majors. R. WILSON

190X. Temas de la literatura y cultura españolas y latinoamericanas. S

Speaking, reading, and writing proficiency in Spanish is required. Examines authors or issues in Spanish and Latin American literature and cultures. Course topics changes; see the Class Search for the current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Senior Seminar. Spanish studies majors may use this course to satisfy the Spanish studies senior exit requirement. (Formerly Topics in Spanish and Latin American Literature and Culture.) (Also offered as Spanish 190A.

Students cannot receive credit for both courses.) Prerequisite(s): LIT 101. Enrollment is restricted to senior literature majors. May be repeated for credit. (General Education Code(s): CC.) A. SMITH

190Y. Topics in Jewish Literature and Culture. W

Study of selected authors or issues related to modern Jewish literature and culture. Topic changes; please see the Class Search for current topic. Critical approach designations: Histories, Power and Subjectivities. Distribution requirement: Senior Seminar. Jewish Studies majors may use this course to satisfy the Jewish Studies senior exit requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and Literature 101 (for literature majors). Enrollment restricted to senior literature and Jewish studies majors. May be repeated for credit. B. THOMPSON

190Z. Topics in German Literature and Culture. *

Study of selected authors or issues related to German literature and culture. Course topic changes; please see the Class Search for current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Senior Seminar. German studies majors may use this course to satisfy the German studies senior exit requirement. Prerequisite(s): Literature 101 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior German studies and literature majors. May be repeated for credit. A. BIVENS

191. Methodologies of Teaching (3 credits). *

This 3-credit course provides students with the theoretical and practical knowledge to help others become more careful, sensitive, and sophisticated readers of complex texts. Enrollment by permission of the instructor. (General Education Code(s): PR-S.) THE STAFF

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) THE STAFF

195A. Senior Essay. F,W,S

Study of literature in English or English translation. Satisfies the Literature major senior exit distribution requirement. Students submit petition to sponsoring agency. Prerequisite(s): Literature 101. Enrollment is restricted to seniors. THE STAFF

195B. Senior Essay. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish, or other non-English language required. Satisfies the Literature major senior exit distribution requirement. Students submit petition to sponsoring agency. Prerequisite(s): Literature 101. Enrollment is restricted to seniors. THE STAFF

195C. Senior Essay. F,W,S

Satisfies the Creative Writing senior exit distribution requirement. Prerequisite(s): Literature 101. Students submit petition to sponsoring agency. Enrollment restricted to senior creative writing literature majors. THE STAFF

198A. Group Tutorial. F,W,S

Study of literature in English or English translation. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198B. Group Tutorial. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish or other non-English language required. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198C. Group Tutorial. F,W,S

Study of creative writing. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199A. Tutorial. F,W,S

Study of literature in English or English translation. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

Literature

199B. Tutorial. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish or other non-English language required. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199C. Tutorial. F,W,S

Study of creative writing. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. THE STAFF

Graduate Courses

200. Proseminar. F

The proseminar provides a common experience for entering students, facilitates exchange of ideas and approaches to literary and extra-literary texts, critical issues, and theoretical problems. It focuses on broad aspects of the history of theory and criticism, on the students' critical writing, and on aspects of professional development. Enrollment restricted to graduate students. T. MILLER

201. The Pedagogy of Literature (1 credit). F

Provides training for graduate students in university-level pedagogy in general and in the pedagogy of literature specifically. Coordinated by a graduate student who has had substantial experience as a teaching assistant, under the supervision of a faculty member. Enrollment restricted to graduate students. May be repeated for credit. K. GRUESZ

202. Colloquium (2 credits). F,W,S

Student receives credit for attending a designated number of freestanding lectures, colloquia, symposia, or conferences during the term and reports orally, or in writing, to instructor. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

204. Readings in Literature (2 credits). *

Focuses on selected texts or authors in literature and/or theory.

Students meet with instructor to discuss readings and deepen their knowledge on a particular author, critic, theorist, or text. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

205. Writing and Publication Practicum (2 credits). *

Introduces the methods and practice of dissertation writing and publication in literature. Workshop format. Meets one hour per week. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

221. Canons. *

Considers literary canon formation through the lens of neglected or "lost" works by authors otherwise considered peripheral because of their language, cultural tradition, or regional affiliation. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

222. Topics in English Language Literature. S

Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. J. GREENE

223. Periods and Movements. F,W

Examines a particular historical period or literary movement. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. S. GILLMAN, D. SHEMEK

224. Transnational Literatures. *

Investigation of English language literature which transcends national boundaries. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

230A. Topics in Theory. F,S

Explores issues arising in both the modern practice of criticism and in writings on the theory of criticism. Course topic changes; please see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. (F) C. FRECCERO, (S) A. BIVENS

230B. Narrative Theory. *

A survey of 20th-century narratology, emphasizing structuralist and poststructuralist theories of narrative. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

230C. Feminist Theories/Historical Perspectives. *

A critical examination of feminist and related theories (queer, critical race, post-humanist) and criticism in historical and culturally specific contexts. Enrollment restricted to graduate students. C. FRECCERO

231A. Studies in Literary and Cultural History. W

Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. A. SMITH, M. DEVECKA

237A. Modernism. *

Focuses on modernism and the intellectual and social forces which help illuminate that period. Considers concepts by which the innovative tendencies in 20th-century modernist literature and arts have been theorized and periodized, including high and late modernism, avant-garde and experimental, and the concept of global modernisms. Enrollment restricted to graduate students. T. MILLER

240G. History and Tragedy. *

Examines history, tragedy, and early science as ways of representing human experience in the Western canon. Topics include truth claims and questions of evidence, the nature of historical events, and tragedy as a political medium. Enrollment restricted to graduate students. K. BASSI

243A. Studies in Early Modernity. *

In-depth examination of a topic in Early Modern Studies. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

246. Individual Authors. F

Focuses on work of a single author

Literature

in literary historical and/or historical context. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. J. ALADRO FONT

250. Theory and Methods. *

Global theories of history and cultural production. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

251. Topics in Cultural Studies. F,W,S

The course topic changes; see the Class Search for the current topic. Enrollment restricted to graduate students. May be repeated for credit. (F) C. HONG, (W) C. CONNERY, (S) V. COOPAN

279A. Methods and Materials. S

A combined seminar and creative-writing workshop with a concentrated focus on a particular problem, aspect, or genre of poetry or prose writing. Includes reading and analysis of selected texts with critical responses and creative writing. Explores the productive interaction between various practices of scholarship and creative invention. The course topic changes; please see the Class Search for the current topic. Enrollment is restricted to graduate students. May be repeated for credit. C. CHEN

279B. Writing Studio. F

In this graduate-level, multi-genre course, students develop their own creative projects of publishable quality under the guidance of the instructor. (Formerly Writing Workshop.) Enrollment is restricted to graduate students in the creative/critical concentration or by permission of the instructor. May be repeated for credit. K. YAMASHITA

282A. Studies in Literary Genres. *

An in-depth examination of one genre of French literature. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

282B. Studies in Literary and Cultural History. *

In-depth examination of one period of French literature. Course topic changes; see the Class Search for current topic. Enrollment restricted to graduate students. May be repeated for credit. W. GODZICH

282C. Texts and Contexts. W,S

The implications of social and political change examined in terms of literary theory and practice. Equal emphasis placed on literary and other kinds of cultural texts: historical, political, cinematic. Enrollment restricted to graduate students. May be repeated for credit. D. BELL, S. KINOSHITA

282D. Topics in Theory. F

Enrollment restricted to graduate students. May be repeated for credit. C. FRECCERO

282F. French Literature Outside France. *

A study of texts written in French-speaking cultures: Belgium, Canada, Africa, the Caribbean. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

283A. Deutsche Literatur und Kultur. *

Examination of topics within German literature. Course topic changes; see the Class Search for the current topic. Enrollment restricted to graduate students. May be repeated for credit. A. BIVENS

288C. "Don Quijote". F

Concentrates on the study and analysis of Miguel de Cervantes' major work "Don Quijote," with a three-part structure: life and literature in "Don Quijote;" Cervantes-the father of the modern novel; and madness and "ingenio" in "Don Quijote." Enrollment restricted to graduate students. J. ALADRO FONT

288F. Writing and Re-Writing of the Conquest and Colonial Period in Spanish America. *

Study of 1) the writings (chronicles, memoirs, diaries, letters) comprising European and indigenous accounts of the encounter and indigenous, criolla, and mestiza writings during the

colony; and 2) the re-writings of these events in contemporary post-colonial novels. Enrollment restricted to graduate students. THE STAFF

288M. Cuba. *

Course topic changes; please see the Class Search for the current topic. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

288O. The Conquest through the Eyes of Contemporary Writers. *

Analyzes contemporary writers who fictionalize the phenomenon of the conquest of the Americas. These authors, who combine chronicles, biographies, and accounts with fiction, offer an imaginative way to view history. Enrollment limited to 20. Z. ZIMMER

288P. The Avant Garde in Latin America. *

Emerging from a Europe in crisis, this 20th-century avante-garde movement opened a space in Latin/o American literature for the emergence of a post-western aesthetic exploring a cultural identity in difference. A deconstruction of vanguardismo, lo real maravilloso, lo fantástico, lo mítico-antropológico, and realismo mágico. Enrollment restricted to graduate students. THE STAFF

288S. Citiscapes. *

Theories of space/place poetics and politics, and the literary and visual re-presentations of urban spaces in Latin/o America. Questions of identity and location in modernist poetics, and the ways difference (gender, ethnicity, and sexuality) inhabit and imagine the post-modern lettered city. Enrollment restricted to graduate students. THE STAFF

288U. Spain in the Eyes/Camera of Pedro Almodovar. *

Contemporary Spain through the camera of Pedro Almodovar from transgressive enthusiasm, experimentation, and cultural disobedience of the 1980s to more universal themes of human nature and borderline experiences in the pursuit of love, relationships, beauty, and art. Enrollment

Literature

restricted to graduate students. J.
ALADRO FONT

288Y. Teoria Critica en America Latina.*

Overview of contemporary theoretical issues in Latin American cultural critique. Course topic changes; please see the Class Search for the current topic. Enrollment restricted to graduate students. May be repeated for credit. J. POBLETE

288Z. Literatura y sociedad. W

Analyzes the relationship between Latin American cultural products and their cultural, economic, and political contexts. The course topic changes; please see the Class Search for the current topic. Enrollment is restricted to graduate students. May be repeated for credit. A. SMITH

291F. Advising (2 credits). F,W,S

Independent study formalizing the advisee-adviser relationship. Regular meetings to plan, assess, and monitor academic progress and to evaluate coursework as necessary. May be used to develop general bibliography of background reading and trajectory of study. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

293. Independent Study: Creative Writing. F,W,S

Individual study with a professor in the creative/critical concentration. Written work is required. Students submit petition to sponsoring

agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with teaching of undergraduates. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

295A. Directed Reading. F,W,S

Study of literature in English or English translation. Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

295B. Directed Reading. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish, or other non-English language required. Directed reading which does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

295C. Directed Reading. F,W,S

Study of creative writing. Directed reading that does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

296A. Special Student Seminar. F,W,S

Study of literature in English or English translation. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

296B. Special Student Seminar. F,W,S

Speaking, reading, and writing proficiency in French, German, Greek, Italian, Latin, Spanish, or other non-English language required. Directed reading which does not involve a term paper. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

296C. Special Student Seminar. F,W,S

Study of creative writing. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent Study. THE STAFF

297F. Independent Study (2 credits). F,W,S

Students submit petition to sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

MATHEMATICS

2017-18 General Catalog

4111 McHenry

(831) 459-2969

<http://www.math.ucsc.edu>

PROGRAM DESCRIPTION

Mathematics is both a fundamental discipline and an essential tool for students of biology, chemistry, computer engineering, computer science, Earth sciences, economics, electrical engineering, information systems management, physics, and psychology. Researchers in all these areas are constantly developing new ways of applying mathematics to their fields. A strong mathematics background is vital to the advanced study of many disciplines including the physical and biological sciences, engineering and the social sciences.

The UCSC mathematics program offers a wide variety of undergraduate mathematics courses:

- Students interested in studying mathematics are strongly encouraged to take algebra, geometry, and trigonometry before entering the university. Students needing mathematics courses for their intended major are encouraged to take the mathematics assessment as early as possible. Failure to begin the calculus series upon arrival at UCSC could delay progress in some majors. Students concerned about their ability to place into courses above Mathematics 3 should consider taking Mathematics 2 or its equivalent prior to entering UCSC.
- Lower-division courses with numbers in the range 11A-B through 24 (calculus, linear algebra, vector calculus, and differential equations) prepare students for further study in mathematics, the physical and biological sciences, engineering, or quantitative areas of the social sciences. Science and engineering majors take a combination of these courses as part of their undergraduate studies.
- Upper-division courses, with numbers in the range 100-199, are intended for majors in mathematics and closely related disciplines. Some of these courses provide students with a solid foundation in key areas of mathematics such as algebra, analysis, geometry, and number theory, whereas others introduce students to more specialized areas of mathematics. Calculus, linear algebra, vector calculus, and proof and problem solving are prerequisite to most of these advanced courses.

Within the major, there are three concentrations leading to the bachelor of arts (B.A.) degree: pure mathematics, computational mathematics, and mathematics education. These programs are designed to give students a strong background for graduate study, for work in industry or government, or for teaching. Each concentration requires nine or ten courses, one of which must be a senior thesis or senior seminar. Please read the pure mathematics, computational mathematics, and mathematics education program descriptions below for specific information about course requirements. A minor in mathematics is also offered.

The mathematics program provides an excellent liberal arts background from which to pursue a variety of career opportunities. UCSC graduates with degrees in mathematics hold teaching posts at all levels, as well as positions in law, government, civil service, insurance, software development, business, banking, actuarial science, forensics, and other professions where skills in logic, numerical analysis, and computing are required. In particular, students of mathematics are trained in the art of problem-solving, an essential skill in all professions.

PROGRAM LEARNING OUTCOMES

Learning outcomes summarize the most important knowledge, skills, abilities and attitudes that students are expected to develop over the course of their studies. The program learning outcomes clearly communicate the faculty's expectations to students, provide a framework for faculty evaluation of the curriculum based on empirical data, and help improve and measure the impact of implemented changes.

MATHEMATICS UNDERGRADUATE STUDENT LEARNING OBJECTIVES

The mathematics program promotes mathematical skills and knowledge for their intrinsic beauty, effectiveness in developing proficiency in analytical reasoning, and utility in modeling and solving real world problems. To responsibly live within and participate in the transformation of a rapidly changing, complex, and interdependent society, students must develop and unceasingly exercise their analytical abilities. Students who have learned to logically question assertions, recognize patterns, and distinguish

Mathematics

the essential and irrelevant aspects of problems can think deeply and precisely, nurture the products of their imagination to fruition in reality, and share their ideas and insights while seeking and benefiting from the knowledge and insights of others.

Students majoring in mathematics attain proficiency in:

Critical thinking. The ability to identify, reflect upon, evaluate, integrate, and apply different types of information and knowledge to form independent judgments including analytical and logical thinking and the habit of drawing conclusions based on quantitative information.

Problem solving. The ability to assess and interpret complex situations, choose among several potentially appropriate mathematical methods of solution, persist in the face of difficulty, and present full and cogent solutions that include appropriate justification for their reasoning.

Effective communication. The ability to communicate and interact effectively with different audiences, collaborate intellectually and creatively in diverse contexts, and appreciate ambiguity and nuance, while emphasizing the importance of clarity and precision in communication and reasoning.

Students acquire and enhance these abilities in mathematical contexts, but the acquired habits of rigorous thought and creative problem solving are invaluable in all aspects of life. These skills are acquired through experience in the context of studying specific mathematical topics and exploring problems chosen to challenge students' abilities, spurring them on to acquire new techniques and abandon familiar but restrictive habits of thought. The overarching objectives can be realized in terms of more focused, appraisable objectives specific to mathematics as follows:

CRITICAL THINKING

Students will:

- understand the basic rules of logic, including the role of axioms or assumptions;
- appreciate the role of mathematical proof in formal deductive reasoning;
- be able to distinguish a coherent argument from a fallacious one, both in mathematical reasoning and in everyday life;
- understand and be able to articulate the differences between inductive and deductive reasoning;
- proficiently construct logical arguments and rigorous proofs; and
- formulate conjectures by abstracting general principles from examples.

Courses: 20AB, 100, 101, 105AB, 110, 111AB, 117, 118, 160, 161.

PROBLEM SOLVING

Students will be able to:

- formulate and solve abstract mathematical problems;
- recognize real-world problems that are amenable to mathematical analysis, and formulate mathematical models of such problems;
- apply mathematical methodologies to open-ended, real-world problems;
- recognize connections between different branches of mathematics; and
- recognize and appreciate the connections between theory and applications.

Courses: 19AB, 20AB, 21, 22, 23AB, 24, 100, 101, 103AB, 106, 107, 114, 115, 116, 134, 145, 148.

EFFECTIVE COMMUNICATION

Students will be able to:

- present mathematics clearly and precisely to an audience of peers and faculty;
- appreciate the role of mathematical proof as a means of conveying mathematical knowledge;
- understand the differences between proofs and other less formal arguments;
- make vague ideas precise by formulating them in mathematical language;
- describe mathematical ideas from multiple perspectives; and
- explain fundamental mathematical concepts or analyses of real-world problems to non-mathematicians.

Courses: 100, 101, 105AB, 111AB, 188, 189, 194, 195.

SUBJECT-SPECIFIC KNOWLEDGE

Students must demonstrate mastery in the three basic areas of mathematics: algebra, analysis, and topology/geometry on a basic level in lower-division courses and at an advanced level in upper-division courses.

ALGEBRA, NUMBER THEORY, AND COMBINATORICS

"We must endeavor to persuade those who are to be the principal men of our State to go and learn arithmetic, not as amateurs, but they must carry on the study until they see the nature of numbers with the mind only; not like merchants or retail-traders, with a view to buying or selling, but for the sake of their military applications and the benefit of the soul. . . I must add how charming the science is, and in how many ways it conduces to our

Mathematics

desired end, if pursued in the spirit of a philosopher, and not of a shopkeeper!"—Plato, *The Republic*

Abstract algebra involves the study of algebraic structures, such as groups, rings, fields, modules, vector spaces, and algebras. Linear algebra is a crucial subfield of algebra, both as an introduction to abstract algebraic structures and as a body of advanced results of immense importance in diverse areas of application. Number theorists study properties of the integers, as well as those of mathematical objects constructed from or generalizing the integers. Combinatorics involves finite or countable discrete structures, such as abstract graphs.

Courses: Math 21, 100, 110, 111AB, 114, 115, 116, 117, 118, 120, 134.

CALCULUS AND ANALYSIS

"Although the nature of is in no way altered when they appear. . . on the right-hand side of the differential equation, nonetheless their role and the character of the equation are thereby altered. . . They are brought into the world unilaterally, shadow figures lacking the body which cast them ...The initiative is thus shifted from the right-hand pole, the algebraic, to the left-hand one, the symbolic."—Karl Marx, *On the Differential*

Analysis extends and refines calculus; it encompasses differentiation, integration, measure, limits, infinite series, and analytic functions, primarily in the context of real and complex number systems. In much of analysis, the emphasis is not on finding explicit solutions to specific problems, but rather on determining which problems can be solved and what general properties solutions may share. Ordinary and partial differential equations play a central role in analysis, and are widely used in modeling real-world systems.

Courses: Math 19AB, 20AB, 23AB, 24, 100, 103AB, 105AB, 106, 107, 140, 145, 148.

GEOMETRY AND TOPOLOGY

"My noble friend, geometry will draw the soul towards truth, and create the spirit of philosophy. . . nothing should be more sternly laid down than that the inhabitants of your fair city should by all means learn geometry. Moreover, the science has significant indirect effects...in all departments of knowledge, as experience proves, anyone who has studied geometry enjoys infinitely quicker understanding than one who has not."—Plato, *The Republic*

Geometry explores the implementation and far-reaching consequences of systems of measurement; topology addresses questions pertaining to shape and global structure. Non-Euclidean geometry, differential geometry (the extension of calculus to mapping of curves, surfaces, and their generalizations), and algebraic geometry generalize key results and techniques from Euclidean geometry to both familiar and exotic settings. In algebraic and differential

topology, techniques from diverse areas of mathematics are used to infer information about the shapes and related properties of spaces.

Courses: Math 23AB, 121AB, 124, 128AB, 129, 130.

This subdivision of mathematics is not sharp: the areas of overlap between the three main areas of mathematics are of great interest and importance. For example, analytic number theory is the study of the integers by means of tools from real and complex analysis, while differential geometry focuses on the interplay between analysis and geometry. The importance of all three areas, the influence of each on the others, and the insight to be gained by considering one area from perspectives commonly associated to another one are all emphasized in the mathematics curriculum—as can be seen in the course matrix, many courses involve material from multiple areas.

THE MATHEMATICS DEPARTMENT OFFERS THREE TRACKS WITHIN THE MATHEMATICS MAJOR:

Pure Mathematics

Students in the Pure Mathematics track often go on to graduate study in mathematics; the pathway emphasizes the importance of a well-rounded, in-depth mathematical education, and includes advanced coursework in algebra, analysis, and geometry.

Computational Mathematics

Students in the Computational Mathematics track explore applications of mathematics in other fields and gain experience in mathematical modeling of real-world phenomena using ordinary and partial differential equations, approximation and optimization techniques, linear programming, or game theory.

Mathematics Education

Students in the Mathematics Education track prepare for a career in K–12 mathematics education; students acquire in-depth knowledge of subjects covered at an introductory level in the classroom, including number theory, classical geometry, and the history of mathematics, and gain experience in teaching mathematics in an accessible and intuitive, but precise, manner.

CURRICULUM MATRIX

All of the key objectives are addressed to some extent in all courses. For example, the ability to formulate precise mathematical statements and to reason logically are essential skills that are progressively developed throughout the curriculum. However, some skills are more heavily emphasized and utilized in some courses than in others. Some courses are specifically intended to help students move to a new level of proficiency with a particular portfolio of skills, while others are accessible only to students who have already reached a given level; the latter courses make heavy use of

Mathematics

particular skills, and thus enhance and reinforce the student's mastery of them, but the skills themselves are not the primary focus of such courses. Some connections between the key objectives, main subject-

specific areas, and courses are indicated in the following tables of lower- and upper-division mathematics courses.

	Lower-Division Courses	Critical Thinking	Problem Solving	Communication	Algebra	Analysis	Geometry
MATH 2	College Algebra for Calculus		√		√		
MATH 3	Precalculus		√		√	•	
MATH 4	Mathematics of Choice and Argument	•	√		√		
MATH 11AB	Calculus with Applications		√			√	
MATH 19AB*	Calculus for Science, Engineering, and Mathematics	•	√			√	
MATH 20AB*	Honors Calculus	•	√	•		√	
MATH 21	Linear Algebra		√		√		
MATH 22	Introduction to Calculus of Several Variables		√			√	
MATH 23AB	Vector Calculus	•	√			√	•
MATH 24	Differential Equations		√		•	√	

Boldface indicates that a course that is required for at least one of the major pathways.

Mathematics

Boldface* indicates a course that is one of two or three options for satisfying a requirement of one of the major pathways.

√ indicates a course in which the skill or subject is directly addressed, with substantial instruction and assessment emphasis.

• indicates a course in which the skill or subject plays an important role, but is not the primary focus

	Upper-Division Courses	Critical Thinking	Problem Solving	Communication	Algebra	Analysis	Geometry
MATH 100	Introduction to Proof and Problem Solving	√	•	√	•	•	
MATH 101	Mathematical Problem Solving	√	√	√	•	•	•
MATH 103A*B	Complex Analysis	√		√		√	
MATH 105AB	Real Analysis	√	•	√		√	
MATH 106*	Systems of Ordinary Differential Equations	•	√	•	•	√	•
MATH 107*	Partial Differential Equations		√			√	
MATH 110	Introduction to Number Theory	√	•	√	√		
MATH 111AB	Algebra	√	•	√	√		
MATH 114	Introduction to Financial Mathematics	•	√	•	√	•	

Mathematics

MATH 115	Graph Theory	•	√	•	√		
MATH 116	Combinatorics	•	√	•	√

Boldface indicates that a course that is required for at least one of the major pathways.

Boldface* indicates a course that is one of two or three options for satisfying a requirement of one of the major pathways.

√ indicates a course in which the skill or subject is directly addressed, with substantial instruction and assessment emphasis.

• indicates a course in which the skill or subject plays an important role, but is not the primary focus

ACADEMIC ADVISING

The undergraduate adviser provides information about requirements, prerequisites, policies and procedures, learning support, scholarships, and special opportunities for undergraduate research. In addition, the adviser assists with the drafting of study plans, as

well as certifying degrees and minors. Students are urged to stay informed and involved with their major, as well as to seek advice should problems arise.

[The Mathematics Department website](#) is a critical resource for students. Here you will find a link to the undergraduate program; the materials at that link constitute the undergraduate handbook. Students

Mathematics

should visit this first to seek answers to their questions, because it hosts a wealth of information. Each student in the major is encouraged to regularly review the materials posted to stay current with requirements, course curriculum, and departmental policy.

ENROLLMENT REQUIREMENTS

Students who plan to take a mathematics course at UCSC must first demonstrate sufficient preparation for that course by completing the mathematics placement process, the College Entrance Examination Board Advanced Placement (AP) calculus examination, the International Baccalaureate Higher Level Mathematics Examination, or by passing the appropriate prerequisite course.

Students who have passed course 2 may enroll in course 3. Students who have passed course 3 may enroll in course 11A or 19A. Students who have passed a precalculus course at a college or university may enroll in course 11A or 19A, but they must first verify eligibility of the course and course completion with the mathematics adviser.

Transfer students interested in a mathematics or science major should take courses equivalent to course 19A, 19B, and 21 **before** enrolling at UCSC. Courses equivalent to 23A, 23B, and 24 are also recommended before transferring to UCSC.

UCSC MATHEMATICS PLACEMENT

The mathematics placement process assesses student readiness for their first UCSC mathematics class. Students whose areas of study require precalculus or calculus courses are strongly advised to complete placement and any required courses early in their academic careers. Students intending to take one or more mathematics courses at UCSC should begin the placement process as early as possible to fully benefit from the process.

Students completing placement by assessing using [ALEKS PPL](#) should familiarize themselves with the [assessment instructions](#) and [guidelines, course eligibility cut-offs](#), and [score posting schedule](#).

All students should review the requirements for their major or intended major and possibly consult with the department sponsoring their major (or expected major) before deciding which mathematics to take.

COLLEGE BOARD ADVANCED PLACEMENT CALCULUS EXAMINATIONS

Students completing placement requirements by using their scores from the College Board Advanced Placement Calculus Exam should refer to the table below for assistance in deciding which course to enroll.

If your AP AB score is	May enroll in this course
------------------------	---------------------------

3	Mathematics 11A or 19A
4 or 5	Mathematics 20A or 11B or 19B
If your AP BC score is	May enroll in this course
3	Mathematics 11B or 19B or 20A
4 or 5	Mathematics 20A or 22 or 23A

INTERNATIONAL BACCALAUREATE HIGHER LEVEL EXAMINATION IN MATHEMATICS

Students who have received a score of 5, 6, or 7 on the International Baccalaureate (IB) Higher Level Examination in Mathematics may enroll in course 20A, Honors Calculus; 22, Calculus of Several Variables; or 23A, Vector Calculus.

DECLARATION OF THE MATHEMATICS MAJOR

Admission to the mathematics major (all concentrations) is contingent on students successfully passing the following introductory courses or their equivalents:

- Mathematics 19A, Calculus for Science, Engineering, and Mathematics
- Mathematics 19B, Calculus for Science, Engineering, and Mathematics
- Mathematics 21, Linear Algebra
- Mathematics 23A, Vector Calculus
- Mathematics 23B, Vector Calculus
- Mathematics 100, Introduction to Proof and Problem Solving

Students may only declare once they have passed all introductory courses or their equivalent courses with a grade of C or better. Students who receive two grades of NP, C-, D+, D, D-, or F in the introductory courses are not eligible to declare in the major. Students who are not eligible to declare may submit an appeal to the department's undergraduate vice chair. The [mathematics adviser](#) will subsequently notify the student, and their college, of the decision, no later than 15 business days after the submission of the appeal.

It should be emphasized that the nature of mathematics changes dramatically between lower-division and upper-division courses. Students often find that the material becomes far more abstract and theoretical. In addition, the role of computation in assignments diminishes and a greater weight is placed on deductive reasoning and the integral role of mathematical proofs. The Mathematics Department recommends that students interested in a mathematics major enroll in

Mathematics

Mathematics 100 as early as prerequisites allow in order to decide whether they are interested in upper-division mathematics courses. It is strongly recommended that only students who earn grades of B- or better in Mathematics 100 consider applying to the major in mathematics. Students with a grade less than B in Mathematics 100 are urged to take Mathematics 101.

MAJOR REQUIREMENTS

PURE MATHEMATICS

This concentration is intended for students who desire a comprehensive understanding of mathematics, including those considering graduate studies in the natural sciences. Students are required to complete at least 11 courses (with laboratories, if appropriate).

Eight of these courses must be:

- Mathematics 24, Ordinary Differential Equations;
- Mathematics 100, Introduction to Proof and Problem Solving;
- Mathematics 103A, Complex Analysis;
- Mathematics 105A, Real Analysis;
- Mathematics 111A, Algebra;
- Mathematics 117, Advanced Linear Algebra;
- one of Mathematics 121A, Differential Geometry, Mathematics 124, Introduction to Topology, or Mathematics 128A, Classical Geometry: Euclidean and Non-Euclidean, or Mathematics 129, Algebraic Geometry;
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

The remaining three courses are selected by the student from among any mathematics course numbered above 100 (excluding Mathematics 188 and Mathematics 189) and Applied Mathematics and Statistics (AMS) 100 or above. Only one of the three courses can be from the AMS series.

A typical program for a pure mathematics major might include the following:

1st year	Mathematics 20A-B or 19A-B, 21, 23A
2nd year	Mathematics 23B, 24, 100, 103A, 110 or 128A
3rd year	Mathematics 105A-B, 111A-B, 106
4th year	Mathematics 107, 117, 121A, 194 or 195

The first two years of a typical program for a pure mathematics major who begins mathematics studies with precalculus might include the following:

1st year Mathematics 3, 19A-B, 21

2nd year Mathematics 23A-B, 24, 100, 103A or 128A

COMPUTATIONAL MATHEMATICS

This concentration is intended to prepare students for technical careers in industry or government while providing a solid mathematical background. Students are required to complete a minimum of eight mathematics courses (with laboratories, if appropriate) as follows:

- Mathematics 24, Ordinary Differential Equations;
- Mathematics 100, Introduction to Proof and Problem Solving;
- Mathematics 103A, Complex Analysis, or Mathematics 105A, Real Analysis;
- Mathematics 106, Systems of Ordinary Differential Equations, or Mathematics 107, Partial Differential Equations;
- Mathematics 110, Introduction to Number Theory;
- Mathematics 111A, Algebra, or Mathematics 117, Advanced Linear Algebra;
- Mathematics 148/L, Numerical Analysis or Mathematics 145, Introductory Chaos Theory, or Applied Mathematics and Statistics 114, Introduction to Dynamical Systems, Applied Mathematics and Statistics 147, Computational Methods and Applications;
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

In addition, students must complete two courses selected from the following:

- Applied Mathematics and Statistics, 100 or above
- Biomolecular Engineering 110
- Computer Engineering 107, 108, 153, 177
- Computer Science 101, 102, 104A, 109, 112, 130, 132, 142
- Earth and Planetary Sciences 172
- Economics 113
- Electrical Engineering 103, 130, 135, 151, 154
- Physics 107, 115

Some of these courses have prerequisites within their departments. Students are encouraged to plan their computational electives early, so that all prerequisites can be satisfied in a timely manner. Other upper-division courses with heavy emphasis on computational mathematics may occasionally be accepted with permission of the Mathematics Department.

Mathematics

Mathematics majors who wish to enroll in Computer Science 101 should contact the instructor to request a permission code.

A typical program for a computational mathematics major might include the following:

1st year	19A-B, 23A, CMPS 12A/L and 12B/M
2nd year	21, 23B, 24, 100, 110, CMPE 16
3rd year	103A, 105A, 145/L or AMS 147, CMPS 101
4th year	106, 111A, CMPS 109, 194

MATHEMATICS EDUCATION

This concentration is intended to prepare students for teaching kindergarten through high school (K-12) mathematics. Students are required to complete the following 10 courses:

- Applied Mathematics and Statistics 5, Statistics
- Mathematics 100, Introduction to Proof and Problem Solving;
- either Mathematics 103A, Complex Analysis, or 105A, Real Analysis;
- Mathematics 110, Introduction to Number Theory;
- Mathematics 111A, Algebra;
- Mathematics 128A, Classical Geometry: Euclidean and Non-Euclidean;
- Applied Mathematics and Statistics 131, Introduction to Probability Theory;
- Mathematics 181, History of Math;
- Either Mathematics 188, Supervised Teaching Experience; or Education 50B, CalTeach 1: Mathematics, plus Education 100B, CalTeach 2: Mathematics
- and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

UCSC students can pursue a degree in mathematics while preparing to teach at the secondary level. In California, students seeking a single-subject credential (for secondary teaching) in mathematics are required to take the CSET, a series of examinations that must be passed in order to enter a teaching-credential program (formerly The National Teachers Examination). Students who complete the mathematics education track, plus three additional specified courses, qualify for the California Single Subject Program, exempting themselves from the CSET. Both the Mathematics Department undergraduate adviser and the Education Department advising office have more information about the additional required courses for the Subject Matter Program.

A typical program for a mathematics education major might include the following:

1st year	Mathematics 19A-B, 21, 23A
2nd year	Mathematics 23B, 100; 103A, Applied Mathematics and Statistics 5
3rd year	Mathematics 101, 110, 181; Applied Mathematics and Statistics 131
4th year	Mathematics 111A, 128A, 188, 194

The first two years of a typical program for a mathematics education major who begins mathematics studies with precalculus might include the following:

1st year	Mathematics 3, 19A-B, 21
2nd year	Mathematics 23A-B, 100; Applied Mathematics and Statistics 5

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in mathematics is satisfied by Mathematics 100, Introduction to Proof and Problem Solving, and either Mathematics 194, Senior Seminar, or Mathematics 195, Senior Thesis.

HONORS

Honors in the Mathematics Department are awarded to graduating students whose academic performance in the major demonstrates excellence at a GPA of 3.5 or above. Highest Honors are determined by a cumulative review of student performance in mathematics courses. They are awarded to students who excel in challenging courses and in their capstone projects.

MINOR REQUIREMENTS

The minor is intended for students who are interested in mathematics and want a strong mathematical foundation for studying in areas that rely heavily on analytical skills. Students are required to complete at least eight courses as follows:

- Mathematics 21, Linear Algebra;
- Mathematics 23A, Vector Calculus; and
- Mathematics 23B, Vector Calculus;
- Mathematics 100
- and any four mathematics courses numbered above 100.

No senior seminar or thesis is required.

A typical mathematics minor program for a physics major might be:

Mathematics

1st year	Mathematics 19A-B, 23A
2nd year	Mathematics 21, 23B, 100
3rd year	Mathematics 103A, 121A or 124
4th year	Mathematics 117, 145 or Applied Mathematics and Statistics 114

COMBINED MAJORS

ECONOMICS AND MATHEMATICS

The combined major in economics and mathematics is designed to meet the needs of undergraduate students who plan to pursue doctoral study in economics or business, or who wish to pursue a career as an actuary or other professional requiring a sophisticated understanding of economics and mathematics. The major combines the main undergraduate content of both economics and mathematics within a programmatic structure that joins the two disciplines. It provides a coursework combination required to prepare for a modern economics Ph.D. program, or for technically demanding professional careers. A full description can be found in the economics section of this catalog. The combined major, requiring fewer courses than a double major, is administered through the Economics Department.

GRADUATE PROGRAM

The Mathematics Department offers programs leading to the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees. Contact the Division of Graduate Studies for further information on the M.A. and Ph.D. programs, as well as on university application procedures.

M.A. DEGREE REQUIREMENTS

Students are required to complete two of Mathematics 200, 201, 202, 203; two of Mathematics 204, 205, 206; one of Mathematics 208, 209, 210; and complete five additional courses in mathematics or a related subject by approval. In addition, students must do one of the following:

- obtain a second-level pass on one of three written preliminary examinations;
- write a master's thesis.

PH.D. DEGREE REQUIREMENTS

All of the following are required:

- obtain a first-level pass on at least one of the three written preliminary examinations and a second-level pass on at least one other. Students must complete the full course sequence in the track associated with the preliminary

examination in which they did not achieve a first-level pass;

- satisfy the foreign-language requirement;
- pass the oral qualifying examination;
- complete three quarters as a teaching assistant;
- complete six graduate courses in mathematics other than Mathematics 200, 201, 202, 204, 205, 206, 208, 209, and 210. No more than three courses may be independent study or thesis research courses;
- write a Ph.D. thesis.

Students admitted to the Ph.D. program may receive an M.A. degree en route to the Ph.D.

COURSE INFORMATION

Mathematics 2, College Algebra for Calculus, is designed for students who do not meet the requirements for admission to Mathematics 3, Precalculus, and who need comprehensive and careful preparation for calculus. Mathematics 2 emphasizes algebra, graphs, and functions.

Mathematics 3, Precalculus, is recommended for students who need some preparation in algebra and trigonometry prior to taking calculus. This course covers functions and their inverse, exponentials, logarithms, and trigonometry.

Mathematics 11A and 11B, Calculus with Applications, are intended for biology and Earth sciences majors. However, students in these majors who place into the 400 mathematics tier are strongly encouraged to take the 19A-B sequence, which is required for most upper-division mathematics courses. Laboratory sections are mandatory. Mathematics 19A and 19B, Calculus for Science, Engineering, and Mathematics, are intended for chemistry, computer engineering, computer science, electrical engineering, information systems management, mathematics, and physics majors. Laboratory sections are mandatory.

Mathematics 19A and 19B, Calculus for Science, Engineering, and Mathematics, are intended for chemistry, computer engineering, computer science, electrical engineering, information systems management, mathematics, and physics majors. Laboratory sections are mandatory.

Mathematics 20A and 20B, Honors Calculus, are recommended for prospective math majors or any well prepared student interested in exploring a rigorous development of single variable calculus with conceptual understanding and problem solving. Laboratory sections are mandatory.

Mathematics 21, Linear Algebra, covers vector spaces, matrices, determinants, systems of linear equations, and eigenvalues. It is intended for students in the physical and biological and social sciences and is prerequisite to Mathematics 100 and 111A.

Mathematics

Mathematics 22, Introduction to Calculus of Several Variables, is intended for science students whose schedules do not permit a full and comprehensive two quarters of multivariable calculus. Students who intend to pursue further studies in mathematics must take Mathematics 23A-B and not 22. Laboratory sections are mandatory.

Mathematics 23A and 23B, Vector Calculus, are intended for mathematics majors and minors and students in computer engineering, computer science, electrical engineering, information systems management, and physics majors which require more rigorous mathematical training. Laboratory sections are mandatory.

Mathematics 100, Introduction to Proof and Problem Solving, is an introduction to the methodology of advanced mathematics, emphasizing proof techniques. Basic areas such as set theory and logic are introduced, together with extensive applications within mathematics. This course serves as a prerequisite for nearly all upper-division courses and partially fulfills the Disciplinary Communication (DC) requirement.

Mathematics 200+, Graduate-level courses. All graduate courses are open to undergraduates who have taken the recommended prerequisites; students should consult with the course instructor. Advanced undergraduates are strongly advised to take or audit graduate courses that interest them

MATHEMATICS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Robert Boltje

Group theory, representation theory, algebraic number theory

Bruce N. Cooperstein

Groups of Lie type, incidence geometry

Samit Dasgupta

Algebraic number theory, arithmetic geometry, special values of L-functions

Chongying Dong

Infinite-dimensional Lie algebras and their representations, conformal field theory

Torsten Ehrhardt

Functional analysis, Operator theory, Random matrix theory, Banach algebras, Wiener-Hopf factorization, Toeplitz and Hankel operators

Viktor Ginzburg

Global analysis, symplectic topology; Hamiltonian dynamical systems, Poisson geometry, symmetries, and group actions

Debra Lewis

Geometric Hamiltonian mechanics, geometric integration, bifurcation theory, applications of variational methods, control theory

Richard Montgomery

Celestial mechanics, differential geometry, gauge theory, mechanics (quantum and classical), and singularity theory

Jie Qing

Nonlinear analysis, harmonic analysis, partial differential equations with applications to differential geometry, mathematical physics

Hiroataka Tamanoi

Algebraic topology, string topology, topological quantum field theory, mathematical aspects of string theory

Anthony J. Tromba

Global nonlinear analysis, calculus of variations, minimal surfaces and Plateau's problem, Riemann surfaces

ASSOCIATE PROFESSOR

Martin H. Weissman

Representation theory, automorphic forms, number theory

Assistant Professor**Daniel Cristofaro-Gardiner**

Symplectic and contact geometry, pseudoholomorphic curve theory, gauge theory, combinatorics

Longzhi Lin

Geometric analysis and geometric partial differential equations

Francois Monard

Inverse problems in partial differential equations and integral geometry, with applications to imaging sciences; explicit inversions and their numerical implementation

Beren Sanders

Algebra and topology: triangulated categories, stable homotopy theory, algebraic geometry, and representation theory

Junecue Suh

Number theory and arithmetic algebraic geometry

EMERITI

Teaching Professor

Frank Bäuerle

Lecturer

Nandini Bhattacharya

Mark R. Eastman

Edward Migliore

Richard R. Mitchell

Daniele Venturi (Applied Math and Statistics)

Uncertainty Quantification (UQ) and computational probability, multi-fidelity stochastic modeling and data-driven stochastic multiscale mathematics, numerical analysis and high-performance scientific computing, probability density function methods for forward and inverse UQ problems, Mori-Zwanzig approach to dimension reduction and uncertainty quantification, functional differential equations

MATHEMATICS COURSES

LOWER-DIVISION COURSES

2. College Algebra for Calculus. F

Operations on real numbers, complex numbers, polynomials, and rational expressions; exponents and radicals; solving linear and quadratic equations and inequalities; functions, algebra of functions, graphs; conic sections; mathematical models; sequences and series. Prerequisite(s): mathematics placement (MP) score of 100 or higher. THE STAFF

2S. College Algebra for Calculus (2 credits). *

This two-credit, stretch course offers students two quarters to master material covered in course 2: operations on real numbers, complex numbers, polynomials, and rational expressions; exponents and radicals; solving linear and quadratic equations and inequalities; functions, algebra of functions, graphs; conic sections; mathematical models; sequences and series. After successful completion of this course in the first quarter, students enroll in course 2 the following quarter to complete the sequence and earn an additional 5 credits. Prerequisite(s): mathematics placement (MP) score of 100 or higher. THE STAFF

2T. Preparatory Math: Tutorial (2 credits). F,W

Independent study of algebra and modern mathematics using adaptive learning software. Instruction emphasizes clear

mathematical communication and reasoning when working with sets, equations, functions, and graphs. Drop in labs, online forums, and readings provide opportunities for further learning and exploration. Prerequisite(s): mathematics placement (MP) score of 100 or higher. May be repeated for credit. D. LEWIS

3. Precalculus. F,W,S

Inverse functions and graphs; exponential and logarithmic functions, their graphs, and use in mathematical models of the real world; rates of change; trigonometry, trigonometric functions, and their graphs; and geometric series. Students cannot receive credit for both course 3 and Applied Mathematics and Statistics 3. Applied Mathematics and Statistics 3 can substitute for course 3. Prerequisite(s): course 2 or mathematics placement (MP) score of 200 or higher. (General Education Code(s): MF.) THE STAFF

4. Mathematics of Choice and Argument. *

Techniques of analyzing and creating quantitative arguments. Application of probability theory to questions in justice, medicine, and economics. Analysis and avoidance of statistical bias. Understanding the application and limitations of quantitative techniques. Prerequisite(s): course 2, or mathematics placement (MP) score of 200 or higher, or AP Calculus AB examination score of 3 or higher. (General Education Code(s): SR.) THE STAFF

11A. Calculus with Applications. F,W,S

A modern course stressing conceptual understanding, relevance, and problem solving. The derivative of polynomial, exponential, and trigonometric functions of a single variable is developed and applied to a wide range of problems involving graphing, approximation, and optimization. Students cannot receive credit for both this course and course 19A or Applied Mathematics and Statistics 11A and 15A, or Economics 11A. Prerequisite(s): course 3 or Applied Mathematics and Statistics 3; or mathematics placement (MP) score of 300 or higher; or AP Calculus AB exam score of 3 or higher. (General Education Code(s): MF.) THE STAFF

11B. Calculus with Applications. F,W,S

Starting with the fundamental theorem of calculus and related techniques, the integral of functions of a single variable is developed and applied to problems in geometry, probability, physics, and differential equations. Polynomial approximations, Taylor series, and their applications conclude the course. Students cannot receive credit for this course and course 19B, or Applied Mathematics and Statistics 11B and 15B, or Economics 11B. Prerequisite(s): course 11A or 19A or Applied Mathematics and Statistics 15A or AP Calculus AB exam score of 4 or 5, or BC exam score of 3 or higher, or IB Mathematics Higher Level exam

Mathematics

score of 5 or higher. (General Education Code(s): MF.) THE STAFF

19A. Calculus for Science, Engineering, and Mathematics. F,W,S

The limit of a function, calculating limits, continuity, tangents, velocities, and other instantaneous rates of change. Derivatives, the chain rule, implicit differentiation, higher derivatives. Exponential functions, inverse functions, and their derivatives. The mean value theorem, monotonic functions, concavity, and points of inflection. Applied maximum and minimum problems. Students cannot receive credit for both this course and course 11A or Applied Mathematics and Statistics 11A and 15A, or Economics 11A. Prerequisite(s): course 3; or mathematics placement (MP) score of 400 or higher; or AP Calculus AB exam score of 3 or higher. (General Education Code(s): MF.) THE STAFF

19B. Calculus for Science, Engineering, and Mathematics. F,W,S

The definite integral and the fundamental theorem of calculus. Areas, volumes. Integration by parts, trigonometric substitution, and partial fractions methods. Improper integrals. Sequences, series, absolute convergence and convergence tests. Power series, Taylor and Maclaurin series. Students cannot receive credit for both this course and course 11B, Applied Math and Statistics 11B and 15B, or Economics 11B. Prerequisite(s): course 19A or 20A or AP Calculus AB exam score of 4 or 5, or BC exam score of 3 or higher, or IB Mathematics Higher Level exam score of 5 or higher. (General Education Code(s): MF.) THE STAFF

20A. Honors Calculus. F

Methods of proof, number systems, binomial and geometric sums. Sequences, limits, continuity, and the definite integral. The derivatives of the elementary functions, the fundamental theorem of calculus, and the main theorems of differential calculus. Prerequisite(s): mathematics

placement (MP) score of 500 higher; or AP Calculus AB examination score of 4 or 5; or BC examination of 3 or higher; or IB Mathematics Higher Level examination score of 5 or higher. Enrollment limited to 80. (General Education Code(s): MF.) THE STAFF

20B. Honors Calculus. W

Orbital mechanics, techniques of integration, and separable differential equations. Taylor expansions and error estimates, the Gaussian integral, Gamma function and Stirling's formula. Series and power series, numerous applications to physics. Prerequisite(s): course 20A. Enrollment limited to 80. (General Education Code(s): MF.) THE STAFF

21. Linear Algebra. F,W,S

Systems of linear equations matrices, determinants. Introduces abstract vector spaces, linear transformation, inner products, the geometry of Euclidean space, and eigenvalues. Students cannot receive credit for this course and Applied Mathematics and Statistics 10 or 10A. Prerequisite(s): Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 11A or 15A. (General Education Code(s): MF.) THE STAFF

22. Introduction to Calculus of Several Variables. W

Functions of several variables. Continuity and partial derivatives. The chain rule, gradient and directional derivative. Maxima and minima, including Lagrange multipliers. The double and triple integral and change of variables. Surface area and volumes. Applications from biology, chemistry, earth sciences, engineering, and physics. Students cannot receive credit for this course and course 23A. Prerequisite(s): course 11B or 19B or 20B or Applied Mathematics and Statistics 15B or AP calculus BC exam score of 4 or 5. (General Education Code(s): MF.) THE STAFF

23A. Vector Calculus. F,W,S

Vectors in n-dimensional Euclidean space. The inner and cross products. The derivative of functions from n-dimensional to m-

dimensional Euclidean space is studied as a linear transformation having matrix representation. Paths in 3-dimensions, arc length, vector differential calculus, Taylor's theorem in several variables, extrema of real-valued functions, constrained extrema and Lagrange multipliers, the implicit function theorem, some applications. Students cannot receive credit for this course and course 22. (Formerly Multivariable Calculus.) Prerequisite(s): course 19B or 20B or AP calculus BC exam score of 4 or 5. (General Education Code(s): MF.) THE STAFF

23B. Vector Calculus. F,W,S

Double integral, changing the order of integration. Triple integrals, maps of the plane, change of variables theorem, improper double integrals. Path integrals, line integrals, parametrized surfaces, area of a surface, surface integrals. Green's theorem, Stokes' theorem, conservative fields, Gauss' theorem. Applications to physics and differential equations, differential forms. (Formerly Multivariable Calculus.) Prerequisite(s): course 23A. (General Education Code(s): MF.) THE STAFF

24. Ordinary Differential Equations. F

First and second order ordinary differential equations, with emphasis on the linear case. Methods of integrating factors, undetermined coefficients, variation of parameters, power series, numerical computation. Students cannot receive credit for this course and Applied Mathematics and Statistics 20. Prerequisite(s): course 22 or 23A; course 21 is recommended as preparation. THE STAFF

99. Tutorial. F,W,S

99F. Tutorial (2 credits). F,W,S
May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

Mathematics

100. Introduction to Proof and Problem Solving. F,W,S

Students learn the basic concepts and ideas necessary for upper-division mathematics and techniques of mathematical proof. Introduction to sets, relations, elementary mathematical logic, proof by contradiction, mathematical induction, and counting arguments. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 11A or 19A or 20A; and course 21 or Applied Mathematics and Statistics 10 or Applied Mathematics and Statistics 10A. Enrollment limited to 80. (General Education Code(s): MF.) THE STAFF

101. Mathematical Problem Solving. F

Students learn the strategies, tactics, skills and tools that mathematicians use when faced with a novel (new) problem. These include generalization, specialization, the optimization, invariance, symmetry, Dirichlet's box principle among others in the context of solving problems from number theory, geometry, calculus, combinatorics, probability, algebra, analysis, and graph theory. (Formerly, course 30.) Prerequisite(s): courses 21 and 100. (General Education Code(s): PR-E.) THE STAFF

103A. Complex Analysis. W,S

Complex numbers, analytic and harmonic functions, complex integration, the Cauchy integral formula, Laurent series, singularities and residues, conformal mappings. (Formerly course 103.) Prerequisite(s): course 23B; and either course 100 or Computer Science 101. THE STAFF

103B. Complex Analysis II (2 credits). *

Conformal mappings, the Riemann mapping theorem, Mobius transformations, Fourier series, Fourier and Laplace transforms, applications, and other topics as time permits. Prerequisite(s): course 103A. THE STAFF

105A. Real Analysis. F,W

The basic concepts of one-variable

calculus are treated rigorously. Set theory, the real number system, numerical sequences and series, continuity, differentiation. Prerequisite(s): course 22 or 23B and either course 100 or Computer Science 101. THE STAFF

105B. Real Analysis. S

Metric spaces, differentiation and integration of functions. The Riemann-Stieltjes integral. Sequences and series of functions. Prerequisite(s): course 105A. THE STAFF

105C. Real Analysis. *

The Stone-Weierstrass theorem, Fourier series, differentiation and integration of functions of several variables. Prerequisite(s): course 105B. THE STAFF

106. Systems of Ordinary Differential Equations. W

Linear systems, exponentials of operators, existence and uniqueness, stability of equilibria, periodic attractors, and applications. (Formerly course 106A.) Prerequisite(s): courses 21 and 24 (preferred) or Applied Mathematics and Statistics 10 and 20; and either course 100 or Computer Science 101. THE STAFF

107. Partial Differential Equations. S

Topics covered include first and second order linear partial differential equations, the heat equation, the wave equation, Laplace's equation, separation of variables, eigenvalue problems, Green's functions, Fourier series, special functions including Bessel and Legendre functions, distributions and transforms. Prerequisite(s): courses 21 and 24 (preferred) or Applied Mathematics and Statistics 10 and 20; and either course 100 or Computer Science 101; course 106 is recommended as preparation. THE STAFF

110. Introduction to Number Theory. W,S

Prime numbers, unique factorization, congruences with applications (e.g., to magic squares). Rational and irrational numbers. Continued fractions. Introduction to Diophantine equations. An

introduction to some of the ideas and outstanding problems of modern mathematics.

Prerequisite(s): course 100 or Computer Science 101. THE STAFF

111A. Algebra. F,W

Group theory including the Sylow theorem, the structure of abelian groups, and permutation groups. Prerequisite(s): course 21 or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. THE STAFF

111B. Algebra. S

Introduction to rings and fields including polynomial rings, factorization, the classical geometric constructions, and Galois theory. Prerequisite(s): course 111A. THE STAFF

114. Introduction to Financial Mathematics. *

Financial derivatives: contracts and options. Hedging and risk management. Arbitrage, interest rate, and discounted value. Geometric random walk and Brownian motion as models of risky assets. Ito's formula. Initial boundary value problems for the heat and related partial differential equations. Self-financing replicating portfolio; Black-Scholes pricing of European options. Dividends. Implied volatility. American options as free boundary problems. Corequisite(s): Applied Mathematics and Statistics 131 or Computer Engineering 107. THE STAFF

115. Graph Theory. *

Graph theory, trees, vertex and edge colorings, Hamilton cycles, Eulerian circuits, decompositions into isomorphic subgraphs, extremal problems, cages, Ramsey theory, Cayley's spanning tree formula, planar graphs, Euler's formula, crossing numbers, thickness, splitting numbers, magic graphs, graceful trees, rotations, and genus of graphs. Prerequisite(s): course 21 or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. THE STAFF

116. Combinatorics. F

Based on induction and elementary

Mathematics

counting techniques: counting subsets, partitions, and permutations; recurrence relations and generating functions; the principle of inclusion and exclusion; Polya enumeration; Ramsey theory or enumerative geometry.

Prerequisite(s): course 100.

Enrollment restricted to sophomores juniors, and seniors. Familiarity with basic group theory recommended. THE STAFF

117. Advanced Linear Algebra. F,S

Review of abstract vector spaces. Dual spaces, bilinear forms, and the associated geometry. Normal forms of linear mappings. Introduction to tensor products and exterior algebras. Prerequisite(s): course 21 or Applied Mathematics and Statistics 10 and either course 100 or Computer Science 101. THE STAFF

118. Advanced Number Theory. *

Topics include divisibility and congruences, arithmetical functions, quadratic residues and quadratic reciprocity, quadratic forms and representations of numbers as sums of squares, Diophantine approximation and transcendence theory, quadratic fields. Additional topics as time permits.

Prerequisite(s): course 110 or 111A. THE STAFF

120. Coding Theory. *

An introduction to mathematical theory of coding. Construction and properties of various codes, such as cyclic, quadratic residue, linear, Hamming, and Golay codes; weight enumerators; connections with modern algebra and combinatorics. Prerequisite(s): course 21. THE STAFF

121A. Differential Geometry. S

Topics include Euclidean space, tangent vectors, directional derivatives, curves and differential forms in space, mappings. Curves, the Frenet formulas, covariant derivatives, frame fields, the structural equations. The classification of space curves up to rigid motions. Vector fields and differentiable forms on surfaces; the shape operator. Gaussian and mean curvature. The theorem Egregium;

global classification of surfaces in three space by curvature.

Prerequisite(s): courses 21 and 23B and either course 100 or Computer Science 101. Course 105A strongly recommended. THE STAFF

121B. Differential Geometry and Topology. *

Examples of surfaces of constant curvature, surfaces of revolutions, minimal surfaces. Abstract manifolds; integration theory; Riemannian manifolds. Total curvature and geodesics; the Euler characteristic, the Gauss-Bonnet theorem. Length-minimizing properties of geodesics, complete surfaces, curvature and conjugate points covering surfaces. Surfaces of constant curvature; the theorems of Bonnet and Hadamard.

Prerequisite(s): course 121A. THE STAFF

124. Introduction to Topology. F

Topics include introduction to point set topology (topological spaces, continuous maps, connectedness, compactness), homotopy relation, definition and calculation of fundamental groups and homology groups, Euler characteristic, classification of orientable and nonorientable surfaces, degree of maps, and Lefschetz fixed-point theorem. Prerequisite(s): course 100; course 111A recommended. THE STAFF

128A. Classical Geometry: Euclidean and Non-Euclidean. F

Euclidean, projective, spherical, and hyperbolic (non-Euclidean) geometries. Begins with the thirteen books of Euclid. Surveys the other geometries. Attention paid to constructions and visual intuition as well as logical foundations. Rigid motions and projective transformations covered. Prerequisite(s): either course 100 or Computer Science 101. THE STAFF

128B. Classical Geometry: Projective. *

Theorems of Desargue, Pascal, and Pappus; projectivities; homogeneous and affine coordinates; conics; relation to perspective drawing and some

history. Prerequisite(s): course 21. THE STAFF

129. Algebraic Geometry. *

Algebraic geometry of affine and projective curves, including conics and elliptic curves; Bezout's theorem; coordinate rings and Hilbert's Nullstellensatz; affine and projective varieties; and regular and singular varieties. Other topics, such as blow-ups and algebraic surfaces as time permits. Prerequisite(s): courses 21 and 100. Enrollment limited to 40. THE STAFF

130. Celestial Mechanics. *

Solves the two-body (or Kepler) problem, then moves onto the N-body problem where there are many open problems. Includes central force laws; orbital elements; conservation of linear momentum, energy, and angular momentum; the Lagrange-Jacobi formula; Sundman's theorem for total collision; virial theorem; the three-body problem; Jacobi coordinates; solutions of Euler and of Lagrange; and restricted three-body problem. Prerequisite(s): courses 19A-B and course 23A or Physics 5A or 6A; courses 21 and 24 strongly recommended. Enrollment limited to 35. THE STAFF

134. Cryptography. *

Introduces different methods in cryptography (shift cipher, affine cipher, Vigenere cipher, Hill cipher, RSA cipher, ElGamal cipher, knapsack cipher). The necessary material from number theory and probability theory is developed in the course. Common methods to attack ciphers discussed. Prerequisite(s): course 100 or Computer Science 101; course 110 is recommended as preparation. THE STAFF

140. Industrial Mathematics. *

Introduction to mathematical modeling of industrial problems. Problems in air quality remediation, image capture and reproduction, and crystallization are modeled as ordinary and partial differential equations then analyzed using a combination of qualitative and quantitative methods. Prerequisite(s): course 24 and either course 100 or Computer

Mathematics

Science 101, and course 105A. THE STAFF

145. Introductory Chaos Theory. *

The Lorenz and Rossler attractors, measures of chaos, attractor reconstruction, and applications from the sciences. Students cannot receive credit for this course and Applied Mathematics and Statistics 114. Prerequisite(s): course 22 or 23A; course 21; course 100 or Computer Science 101. Concurrent enrollment in course 145L is required. THE STAFF

145L. Introductory Chaos Laboratory (1 credit). *

Laboratory sequence illustrating topics covered in course 145. One three-hour session per week in microcomputer laboratory. Concurrent enrollment in course 145 is required. THE STAFF

148. Numerical Analysis. S

A survey of the basic numerical methods which are used to solve scientific problems, including mathematical analysis and computing assignments. Some prior experience with Matlab (or similar) is helpful but not required. Some typical topics are: computer arithmetic; Newton's method for non-linear equations; linear algebra; interpolation and approximation; numerical differentiation and integration; numerical solutions of systems of ordinary differential equations and some partial differential equations; convergence and error bounds. Prerequisite(s): course 22 or 23A; course 21 and 24 or Applied Mathematics and Statistics 10 and 20; course 100 or Computer Science 101. Concurrent enrollment in course 148L is required. THE STAFF

148L. Numerical Analysis Laboratory (1 credit). S

Laboratory sequence illustrating topics covered in course 148. One three-hour session per week in the computer laboratory. Concurrent enrollment in course 148 is required. THE STAFF

160. Mathematical Logic I. W

Propositional and predicate calculus. Resolution, completeness,

compactness, and Lowenheim-Skolem theorem. Recursive functions, Godel incompleteness theorem. Undecidable theories. Hilbert's 10th problem.

Prerequisite(s): course 100 or Computer Science 101. THE STAFF

161. Mathematical Logic II. *

Naive set theory and its limitations (Russell's paradox); construction of numbers as sets; cardinal and ordinal numbers; cardinal and ordinal arithmetic; transfinite induction; axiom systems for set theory, with particular emphasis on the axiom of choice and the regularity axiom and their consequences (such as, the Banach-Tarski paradox); continuum hypothesis. Prerequisite(s): course 100 or equivalent, or by permission of instructor. Enrollment limited to 45. THE STAFF

181. History of Mathematics. W

A survey from a historical point of view of various developments in mathematics. Specific topics and periods to vary yearly. Prerequisite(s): course 19B or 20B. Course 100 strongly recommended for preparation. (General Education Code(s): TA.) THE STAFF

188. Supervised Teaching. F,W,S

Supervised tutoring in self-paced courses. May not be repeated for credit. Students submit petition to sponsoring agency. (General Education Code(s): PR-S.) THE STAFF

189. ACE Program Service Learning (2 credits). F

Students participate in training and development to co-facilitate collaborative learning in ACE chemistry discussion sections and midterm/exam review sessions. Students are role models for students pursuing science- and math-intensive majors. Prerequisite(s): Prior participation in ACE; good academic standing; no non-passing grades in prior quarter. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 10. (General Education Code(s): PR-S.) THE STAFF

193A. Senior Seminar Education Track (3 credits). *

Designed for education-track mathematics majors. Students develop worksheets, present mathematical concepts, and write a final paper consisting of their reflections and learning outcome of both theory and practice in teaching of precalculus. Prerequisite(s): course 103A or 105A or 111A, and satisfaction of the Entry Level Writing and Composition requirements. Enrollment priority is given to seniors. Enrollment limited to 25. THE STAFF

193B. Senior Seminar Education Track (3 credits). *

For education-track, mathematics majors. Students develop worksheets, present mathematical concepts, and write a final paper consisting of their reflections and learning outcome of both theory and practice in the teaching of precalculus. Prerequisite(s): course 103 or 103A or 105A or 111A; and 193A; and satisfaction of the Entry Level Writing and Composition requirements. Enrollment priority is given to seniors. Enrollment limited to 25. THE STAFF

194. Senior Seminar. W,S

Designed to expose the student to topics not normally covered in the standard courses. The format varies from year to year. In recent years each student has written a paper and presented a lecture on it to the class. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 103 or 103A or 105A or 111A. Enrollment is priority given to seniors; juniors may request permission from the Undergraduate Vice Chair. THE STAFF

195. Senior Thesis. F,W,S

Students research a mathematical topic under the guidance of a faculty sponsor and write a senior thesis demonstrating knowledge of the material. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Algebra I. F

Group theory: subgroups, cosets, normal subgroups, homomorphisms, isomorphisms, quotient groups, free groups, generators and relations, group actions on a set. Sylow theorems, semidirect products, simple groups, nilpotent groups, and solvable groups. Ring theory: Chinese remainder theorem, prime ideals, localization. Euclidean domains, PIDs, UFDs, polynomial rings. Prerequisite(s): courses 111A and 117 are recommended as preparation. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

201. Algebra II. W

Vector spaces, linear transformations, eigenvalues and eigenvectors, the Jordan canonical form, bilinear forms, quadratic forms, real symmetric forms and real symmetric matrices, orthogonal transformations and orthogonal matrices, Euclidean space, Hermitian forms and Hermitian matrices, Hermitian spaces, unitary transformations and unitary matrices, skewsymmetric forms, tensor products of vector spaces, tensor algebras, symmetric algebras, exterior algebras, Clifford algebras and spin groups. Prerequisite(s): Course 200 is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

202. Algebra III. S

Module theory: Submodules, quotient modules, module homomorphisms, generators of modules, direct sums, free modules, torsion modules, modules over PIDs, and applications to rational and Jordan canonical forms. Field theory: field extensions, algebraic and transcendental extensions, splitting fields, algebraic closures, separable and normal extensions, the Galois theory, finite fields, Galois theory of polynomials.

Prerequisite(s): Course 201 is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

203. Algebra IV. F

Topics include tensor product of modules over rings, projective modules and injective modules, Jacobson radical, Wedderburns' theorem, category theory, Noetherian rings, Artinian rings, affine varieties, projective varieties, Hilbert's Nullstellensatz, prime spectrum, Zariski topology, discrete valuation rings, and Dedekind domains. Prerequisite(s): courses 200, 201, and 202. Enrollment restricted to graduate students. THE STAFF

204. Analysis I. F

Completeness and compactness for real line; sequences and infinite series of functions; Fourier series; calculus on Euclidean space and the implicit function theorem; metric spaces and the contracting mapping theorem; the Arzela-Ascoli theorem; basics of general topological spaces; the Baire category theorem; Urysohn's lemma; and Tychonoff's theorem. Prerequisite(s): courses 105A and 105B are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

205. Analysis II. W

Lebesgue measure theory, abstract measure theory, measurable functions, integration, space of absolutely integrable functions, dominated convergence theorem, convergence in measure, Riesz representation theorem, product measure and Fubini's theorem. L_p spaces, derivative of a measure, the Radon-Nikodym theorem, and the fundamental theorem of calculus. Prerequisite(s): course 204. Enrollment restricted to graduate students. THE STAFF

206. Analysis III. S

Banach spaces, Hahn-Banach theorem, uniform boundedness theorem, the open mapping and closed graph theorems, weak and weak* topology, the Banach-Alaoglu theorem, Hilbert spaces, self-adjoint operators, compact operators, spectral theory, Fredholm

operators, spaces of distributions and the Fourier transform, and Sobolev spaces. Prerequisite(s): Courses 204 and 205 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

207. Complex Analysis. F

Holomorphic and harmonic functions, Cauchy's integral theorem, the maximum principle and its consequences, conformal mapping, analytic continuation, the Riemann mapping theorem. Prerequisite(s): Course 103 is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

208. Manifolds I. F

Definition of manifolds; the tangent bundle; the inverse function theorem and the implicit function theorem; transversality; Sard's theorem and the Whitney embedding theorem; vector fields, flows, and the Lie bracket; Frobenius's theorem. Course 204 recommended for preparation. Enrollment restricted to graduate students. THE STAFF

209. Manifolds II. W

Tensor algebra. Differential forms and associated formalism of pullback, wedge product, exterior derivative, Stokes theorem, integration. Cartan's formula for Lie derivative. Cohomology via differential forms. The Poincaré lemma and the Mayer-Vietoris sequence. Theorems of deRham and Hodge. Prerequisite(s): course 208. Course 201 is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

210. Manifolds III. S

The fundamental group, covering space theory and van Kampen's theorem (with a discussion of free and amalgamated products of groups), CW complexes, higher homotopy groups, cellular and singular cohomology, the Eilenberg-Steenrod axioms, computational tools including Mayer-Vietoris, cup products, Poincaré duality, the Lefschetz fixed point theorem, the exact homotopy sequence of a fibration and the Hurewicz isomorphism theorem, and remarks

Mathematics

on characteristic classes.

Prerequisite(s): Courses 208 and 209 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

211. Algebraic Topology. *

Continuation of course 210. Topics include theory of characteristic classes of vector bundles, cobordism theory, and homotopy theory. Prerequisite(s): Courses 200, 201, and 202 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

212. Differential Geometry. S

Principal bundles, associated bundles and vector bundles, connections and curvature on principal and vector bundles. More advanced topics include: introduction to cohomology, the Chern-Weil construction and characteristic classes, the Gauss-Bonnet theorem or Hodge theory, eigenvalue estimates for Beltrami Laplacian, and comparison theorems in Riemannian geometry. Prerequisite(s): course 208. Enrollment restricted to graduate students. THE STAFF

213A. Partial Differential Equations I. W

First of the two PDE courses covering basically Part I in Evans' book; PARTIAL DIFFERENTIAL EQUATIONS; which includes transport equations; Laplace equations; heat equations; wave equations; characteristics of nonlinear first-order PDE; Hamilton-Jacobi equations; conservation laws; some methods for solving equations in closed form; and the Cauchy-Kovalevskaya theorem. Courses 106 and 107 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

213B. Partial Differential Equations II. *

Second course of the PDE series covering basically most of Part II in Evans' book and some topics in nonlinear PDE including Sobolev spaces, Sobolev inequalities, existence, regularity and a priori estimates of solutions to second order elliptic PDE, parabolic equations, hyperbolic equations and

systems of conservation laws, and calculus of variations and its applications to PDE.

Prerequisite(s): Courses 106, 107, and 213A are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

214. Theory of Finite Groups. S

Nilpotent groups, solvable groups, Hall subgroups, the Frattini subgroup, the Fitting subgroup, the Schur-Zassenhaus theorem, fusion in p-subgroups, the transfer map, Frobenius theorem on normal p-complements. Prerequisite(s): Courses 200 and 201 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

215. Operator Theory. *

Operators on Banach spaces and Hilbert spaces. The spectral theorem. Compact and Fredholm operators. Other special classes of operators. Prerequisite(s): Courses 204, 205, 206, and 207 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

216. Advanced Analysis. *

Topics include: the Lebesgue set, the Marcinkiewicz interpolation theorem, singular integrals, the Calderon-Zygmund theorem, Hardy Littlewood-Sobolev theorem, pseudodifferential operators, compensated compactness, concentration compactness, and applications to PDE. Prerequisite(s): Courses 204, 205, and 206 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

217. Advanced Elliptic Partial Differential Equations. *

Topics include elliptic equations, existence of weak solutions, the Lax-Milgram theorem, interior and boundary regularity, maximum principles, the Harnack inequality, eigenvalues for symmetric and non-symmetric elliptic operators, calculus of variations (first variation: Euler-Lagrange equations, second variation: existence of minimizers). Other topics covered as time permits. Prerequisite(s): Courses 204, 205, and 206 recommended as

preparation. Enrollment restricted to graduate students. THE STAFF

218. Advanced Parabolic and Hyperbolic Partial Differential Equations. *

Topics include: linear evolution equations, second order parabolic equations, maximum principles, second order hyperbolic equations, propagation of singularities, hyperbolic systems of first order, semigroup theory, systems of conservation laws, Riemann problem, simple waves, rarefaction waves, shock waves, Riemann invariants, and entropy criteria. Other topics covered as time permits. Prerequisite(s): courses 205 and 206. Enrollment restricted to graduate students. THE STAFF

219. Nonlinear Functional Analysis. *

Topological methods in nonlinear partial differential equations, including degree theory, bifurcation theory, and monotonicity. Topics also include variational methods in the solution of nonlinear partial differential equations. Enrollment restricted to graduate students. THE STAFF

220A. Representation Theory I. S

Lie groups and Lie algebras, and their finite dimensional representations. Prerequisite(s): courses 200, 201, and 202. Courses 225A and 227 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

220B. Representation Theory II. *

Lie groups and Lie algebras, and their finite dimensional representations. Prerequisite(s): course 220A. Enrollment restricted to graduate students. THE STAFF

222A. Algebraic Number Theory. *

Topics include algebraic integers, completions, different and discriminant, cyclotomic fields, parallelotopes, the ideal function, ideles and adèles, elementary properties of zeta functions and L-series, local class field theory, global class field theory. Courses 200, 201, and 202 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

Mathematics

222B. Algebraic Number Theory.

*

Topics include geometric methods in number theory, finiteness theorems, analogues of Riemann-Roch for algebraic fields (after A. Weil), inverse Galois problem (Belyi theorem) and consequences. Enrollment restricted to graduate students. THE STAFF

223A. Algebraic Geometry I. F

Topics include examples of algebraic varieties, elements of commutative algebra, local properties of algebraic varieties, line bundles and sheaf cohomology, theory of algebraic curves. Weekly problem solving. Courses 200, 201, 202, and 208 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

223B. Algebraic Geometry II. *

A continuation of course 223A. Topics include theory of schemes and sheaf cohomology, formulation of the Riemann-Roch theorem, birational maps, theory of surfaces. Weekly problem solving. Course 223A is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

225A. Lie Algebras. W

Basic concepts of Lie algebras. Engel's theorem, Lie's theorem, Weyl's theorem are proved. Root space decomposition for semi-simple algebras, root systems and the classification theorem for semi-simple algebras over the complex numbers. Isomorphism and conjugacy theorems. Prerequisite(s): Courses 201 and 202 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

225B. Infinite Dimensional Lie Algebras. *

Finite dimensional semi-simple Lie algebras: PBW theorem, generators and relations, highest weight representations, Weyl character formula. Infinite dimensional Lie algebras: Heisenberg algebras, Virasoro algebras, loop algebras, affine Kac-Moody algebras, vertex operator representations. Prerequisite(s): course 225A. Enrollment restricted to graduate students. THE STAFF

226A. Infinite Dimensional Lie Algebras and Quantum Field Theory I. *

Introduction to the infinite-dimensional Lie algebras that arise in modern mathematics and mathematical physics: Heisenberg and Virasoro algebras, representations of the Heisenberg algebra, Verma modules over the Virasoro algebra, the Kac determinant formula, and unitary and discrete series representations. Enrollment restricted to graduate students. THE STAFF

226B. Infinite Dimensional Lie Algebras and Quantum Field Theory II. *

Continuation of course 226A: Kac-Moody and affine Lie algebras and their representations, integrable modules, representations via vertex operators, modular invariance of characters, and introduction to vertex operator algebras. Enrollment restricted to graduate students. THE STAFF

227. Lie Groups. *

Lie groups and algebras, the exponential map, the adjoint action, Lie's three theorems, Lie subgroups, the maximal torus theorem, the Weyl group, some topology of Lie groups, some representation theory: Schur's Lemma, the Peter-Weyl theorem, roots, weights, classification of Lie groups, the classical groups. Prerequisite(s): courses 200, 201, 204, and 208. Enrollment restricted to graduate students. THE STAFF

228. Lie Incidence Geometries. *

Linear incidence geometry is introduced. Linear and classical groups are reviewed, and geometries associated with projective and polar spaces are introduced. Characterizations are obtained. Enrollment restricted to graduate students. THE STAFF

229. Kac-Moody Algebras. *

Theory of Kac-Moody algebras and their representations. The Weil-Kac character formula. Emphasis on representations of affine superalgebras by vertex operators. Connections to combinatorics, PDE, the monster group. The Virasoro

algebra. Enrollment restricted to graduate students. THE STAFF

232. Morse Theory. F

Classical Morse Theory. The fundamental theorems relating critical points to the topology of a manifold are treated in detail. The Bott Periodicity Theorem. A specialized course offered once every few years. Prerequisite(s): Courses 208, 209, 210, 211, and 212 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

233. Random Matrix Theory. *

Classical matrix ensembles; Wigner semi-circle law; method of moments. Gaussian ensembles. Method of orthogonal polynomials; Gaudin lemma. Distribution functions for spacings and largest eigenvalue. Asymptotics and Riemann-Hilbert problem. Painleve theory and the Tracy-Widom distribution. Selberg's Integral. Matrix ensembles related to classical groups; symmetric functions theory. Averages of characteristic polynomials. Fundamentals of free probability theory. Overview of connections with physics, combinatorics, and number theory. Prerequisite(s): courses 103, 204, and 205; course 117 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

234. Riemann Surfaces. W

Riemann surfaces, conformal maps, harmonic forms, holomorphic forms, the Riemann-Roch theorem, the theory of moduli. Enrollment restricted to graduate students. THE STAFF

235. Dynamical Systems Theory. W

An introduction to the qualitative theory of systems of ordinary differential equations. Structural stability, critical elements, stable manifolds, generic properties, bifurcations of generic arcs. Prerequisite(s): courses 203 and 208. Enrollment restricted to graduate students. THE STAFF

238. Elliptic Functions and Modular Forms. *

The course, aimed at second-year

Mathematics

graduate students, will cover the basic facts about elliptic functions and modular forms. The goal is to provide the student with foundations suitable for further work in advanced number theory, in conformal field theory, and in the theory of Riemann surfaces. Prerequisite(s): courses 200, 201, 202, and either 207 or 103A are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

239. Homological Algebra. * Homology and cohomology theories have proven to be powerful tools in many fields (topology, geometry, number theory, algebra). Independent of the field, these theories use the common language of homological algebra. The aim of this course is to acquaint the participants with basic concepts of category theory and homological algebra, as follows: chain complexes, homology, homotopy, several (co)homology theories (topological spaces, manifolds, groups, algebras, Lie groups), projective and injective resolutions, derived functors (Ext and Tor). Depending on time, spectral sequences or derived categories may also be treated. Courses 200 and 202 strongly recommended. Enrollment restricted to graduate students. THE STAFF

240A. Representations of Finite Groups I. * Introduces ordinary representation theory of finite groups (over the complex numbers). Main topics are characters, orthogonality relations, character tables, induction and restriction, Frobenius reciprocity, Mackey's formula, Clifford theory, Schur indicator, Schur index, Artin's and Brauer's induction theorems. Recommended: successful completion of courses 200-202. Enrollment restricted to graduate students. THE STAFF

240B. Representations of Finite Groups II. * Introduces modular representation theory of finite groups (over a field of positive characteristic). Main topics are Grothendieck groups, Brauer characters, Brauer character

table, projective covers, Brauer-Cartan triangle, relative projectivity, vertices, sources, Green correspondence, Green's indecomposability theorem. Recommended completion of courses 200-203 and 240A. Prerequisite(s): Courses 200, 201, 202, 203, and 240A recommended. Enrollment restricted to graduate students. THE STAFF

246. Representations of Algebras. * Material includes associative algebras and their modules; projective and injective modules; projective covers; injective hulls; Krull-Schmidt Theorem; Cartan matrix; semisimple algebras and modules; radical, simple algebras; symmetric algebras; quivers and their representations; Morita Theory; and basic algebras. Prerequisite(s): courses 200, 201, and 202. Enrollment restricted to graduate students. THE STAFF

248. Symplectic Geometry. F Basic definitions. Darboux theorem. Basic examples: cotangent bundles, Kähler manifolds and co-adjoint orbits. Normal form theorems. Hamiltonian group actions, moment maps. Reduction by symmetry groups. Atiyah-Guillemin-Sternberg convexity. Introduction to Floer homological methods. Relations with other geometries including contact, Poisson, and Kähler geometry. Prerequisite(s): course 204; courses 208 and 209 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

249A. Mechanics I. S Covers symplectic geometry and classical Hamiltonian dynamics. Some of the key subjects are the Darboux theorem, Poisson brackets, Hamiltonian and Lagrangian systems, Legendre transformations, variational principles, Hamilton-Jacobi theory, geodesic equations, and an introduction to Poisson geometry. Courses 208 and 209 are recommended as preparation. Courses 208 and 209 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

249B. Mechanics II. * Hamiltonian dynamics with symmetry. Key topics center around the momentum map and the theory of reduction in both the symplectic and Poisson context. Applications are taken from geometry, rigid body dynamics, and continuum mechanics. Course 249A is recommended as preparation. Enrollment restricted to graduate students. THE STAFF

249C. Mechanics III. * Introduces students to active research topics tailored according to the interests of the students. Possible subjects are complete integrability and Kac-Moody Lie algebras; Smale's topological program and bifurcation theory; KAM theory, stability and chaos; relativity; quantization. Course 249B is recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. THE STAFF

252. Fluid Mechanics. * First covers a basic introduction to fluid dynamics equations and then focuses on different aspects of the solutions to the Navier-Stokes equations. Prerequisite(s): courses 106 and 107 are recommended as preparation. Enrollment restricted to graduate students. THE STAFF

254. Geometric Analysis. * Introduction to some basics in geometric analysis through the discussions of two fundamental problems in geometry: the resolution of the Yamabe problem and the study of harmonic maps. The analytic aspects of these problems include Sobolev spaces, best constants in Sobolev inequalities, and regularity and a priori estimates of systems of elliptic PDE. Courses 204, 205, 209, 212, and 213 recommended as preparation. Enrollment restricted to graduate students. THE STAFF

256. Algebraic Curves. * Introduction to compact Riemann surfaces and algebraic geometry via an in-depth study of complex algebraic curves. Courses 200, 201, 202, 203, 204, and 207 are recommended as preparation.

Mathematics

Enrollment restricted to graduate mathematics and physics students. THE STAFF

260. Combinatorics. *

Combinatorial mathematics, including summation methods, binomial coefficients, combinatorial sequences (Fibonacci, Stirling, Eulerian, harmonic, Bernoulli numbers), generating functions and their uses, Bernoulli processes and other topics in discrete probability. Oriented toward problem solving applications. Applications to statistical physics and computer science. Enrollment restricted to graduate students. THE STAFF

280. Topics in Analysis. *

Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

281. Topics in Algebra. S

Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

282. Topics in Geometry. F

Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

283. Topics in Combinatorial Theory. *

Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

284. Topics in Dynamics. *

Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

285. Topics in Partial Differential Equations. *

Topics such as derivation of the Navier-Stokes equations. Examples of flows including water waves, vortex motion, and boundary layers. Introductory functional analysis of the Navier-Stokes equation. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

286. Topics in Number Theory. W

Topics in number theory, selected by instructor. Possibilities include modular and automorphic forms, elliptic curves, algebraic number theory, local fields, the trace formula. May also cover related areas of arithmetic algebraic geometry, harmonic analysis, and representation theory. Courses 200, 201, 202, and 205 are recommended as preparation. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

287. Topics in Topology. *

Topics in topology, selected by the instructor. Possibilities include generalized (co)homology theory including K-theory, group actions on manifolds, equivariant and

orbifold cohomology theory. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

292. Seminar (no credit). F,W,S

A weekly seminar attended by faculty, graduate students, and upper-division undergraduate students. All graduate students are expected to attend. Enrollment restricted to graduate students. THE STAFF

296. Special Student Seminar. F,W,S

Students and staff studying in an area where there is no specific course offering at that time. Enrollment restricted to graduate students. THE STAFF

297. Independent Study. F,W,S

Either study related to a course being taken or a totally independent study. Enrollment restricted to graduate students. THE STAFF

298. Master's Thesis Research. F,W,S

Enrollment restricted to graduate students. THE STAFF

299. Thesis Research. F,W,S

Enrollment restricted to graduate students. THE STAFF

* Not offered in 2017-18

MERRILL COLLEGE

2017-18 General Catalog

College Office
(831) 459-2144
merrill.ucsc.edu

PROGRAM DESCRIPTION

For college description and list of faculty, see [colleges](#)

MERRILL COLLEGE COURSES

LOWER-DIVISION COURSES

- 3L. Precalculus Academy Lab (2 credits). F,W**
Students use worksheets designed to help them solve problems by thinking critically, and participate in answering project-based questions relevant to the themes of their college core courses. Prerequisite(s): Mathematics 2 or placement (MP) score of 200 or higher. Concurrent enrollment in Mathematics 3 is required. Enrollment is restricted to Merrill and Crown college members. Enrollment is by permission of the instructor. (Also offered as Crown College 3L. Students cannot receive credit for both courses.) Enrollment limited to 40. May be repeated for credit. N. BHATTACHARYA
- 10. Becoming a Successful Student (2 credits). ***
An interactive course providing the opportunity to assess and revise methods of and purposes in studying. Critical, effective approaches to reading, writing, participating in lectures and sections, taking exams, balancing competing responsibilities, and utilizing campus resources are explored. Contact college office for interview-only criteria. Enrollment limited to 30. THE STAFF
- 20N. Re-Evaluation Counseling. ***
Class introduces the fundamentals of re-evaluation counseling (co-counseling) and focuses on those aspects of the theory and practice which facilitate living in a diverse world. Interview with instructor before first class meeting. Enrollment limited to 20. Offered in alternate academic years. P. ROBY
- 28. Peer Leadership in Co-Curricular Settings (2 credits). ***
Introductory course for student leaders combining theoretical background and practical applications. Topics include: student-development theory; communication strategies; leadership-skills assessment; and intergroup relations. Includes readings, discussions, self-reflection, and lectures. Resident assistant (RA) pre-employment training course. Enrollment by interview only: approval of instructor required. Enrollment restricted to selection as resident assistant (RA), program assistant, or alternate for Merrill College. Enrollment limited to 30. May be repeated for credit. THE STAFF
- 38. Leadership for Social Change (2 credits). S**
Students in this course explore and discuss the applicability of the Social Change Model of Leadership Development (Wagner, 1996) within the immediate UCSC, Crown College, and Merrill College communities. Students draw connections between concepts of leadership, community development, and community service. Enrollment is by permission of the instructor. Students must have a leadership role (e.g., R.A., student government) with Crown College or Merrill College. (Also offered as Crown College 38. Students cannot receive credit for both courses.) Enrollment limited to 25. (General Education Code(s): PR-E.) THE STAFF
- 42. Student-Directed Seminar. F,W,S**
Seminars taught by upper-division students under faculty supervision. (See course 192.) THE STAFF
- 50. Merrill Alumni Careers in Public Service (2 credits). S**
Course focuses on careers in public service--why choose one, how to prepare for one. Enrollment restricted to college members. Enrollment limited to 30. THE STAFF
- 80A. Introduction to University Discourse: Cultural Identities and Global Consciousness. F**
Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Examines world poverty, imperialism, and nationalism; peoples' need to assert their cultural identities; and the benefits of individuals' absorption in worthy causes. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. (General Education Code(s): C1.) THE STAFF
- 80B. Rhetoric and Inquiry: Cultural Identities and Global Consciousness. F**
Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Examines world poverty, imperialism, and

Merrill College

nationalism; peoples' need to assert their cultural identities; and the benefits of individuals' absorption in worthy causes. Incorporates outside research. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. (General Education Code(s): C2.) THE STAFF

80C. Merrill Seminar. W,S

Research-based seminar on a topic of particular cultural, historical, or contemporary interest, open to all undergraduate students, taught by either a Merrill College Fellow or other member of the UCSC faculty. THE STAFF

80F. Communicating Cultural Consciousness (2 credits). F

Examines cultural identity within the context of larger global forces. Uses one in-depth study as a model and the daily news. Students work together in groups to develop multimodal projects that communicate cultural consciousness. Enrollment is restricted to first-year Merrill students who have been placed in the Multilingual Curriculum. Enrollment limited to 22. (General Education Code(s): PR-E.) THE STAFF

83F. Topics in Foreign Policy (2 credits). *

Students read and evaluate mainstream and Internet media sources on foreign-policy topics of interest to them, and learn the craft of writing news columns--writing for a public audience--on their chosen foreign-policy topics. Prerequisite(s): Satisfaction of the college core course. Merrill students are offered first priority. Enrollment limited to 25. C. HALLINAN

85B. Merrill Classroom Connection Field Study (3 credits). F,W,S

Supervised hands-on experience assisting in local K-12 school classrooms. Students attend UCSC class meetings, complete relevant readings in educational theory, and present a final assignment. Priority enrollment restricted to Merrill

College members. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

85C. Merrill Classroom Connection Field Study (2 credits). F,W,S

Supervised hands-on experience assisting in local K-12 school classrooms. Students also attend UCSC course meetings, complete relevant readings in educational theory, and present a final assignment. Please see <http://merrill.ucsc.edu/academics/programs-and-courses/classroom-connection/index.html> for conditions that must be met prior to placement at local schools. Priority enrollment restricted to Merrill College members. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

90. Theory and Practice of Field Study. F

Course provides an opportunity for lower-division students to learn about Santa Cruz, Calif., its contemporary history, culture, and politics through classroom theoretical learning integrated with individual field studies. Course also examines social change, qualitative research, and community organizing. Enrollment is restricted to College Scholar Students. Enrollment limited to 25. (General Education Code(s): PR-S.) M. ROTKIN

90F. Merrill Field Study Practicum (2 credits). W,S

Offers Merrill students an opportunity for practical field study experience with preparation and support for practical skill development and critical reflection on service-learning experience. Enrollment restricted to sophomore, junior, and senior college members. Enrollment limited to 30. (General Education Code(s): PR-S.) M. ROTKIN

91F. Challenge Speakers Colloquium (2 credits). *

Eight lectures, six by faculty about research problems in their disciplines. Students attend two dinners with the speakers; respond to research papers in each speaker's field; conduct a research interview

with a professor; and investigate a research question. (Also offered as Porter College 91F. Students cannot receive credit for both courses.) Prerequisite(s): course 90, or Stevenson 90, or Kresge 90C, or Porter 90B. Enrollment restricted to college members. E. ABRAMS

93. Field Study. F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in any one quarter. Approval of student's adviser and provost required. THE STAFF

93F. Field Study (2 credits). F,W,S

Provides for individual program of study sponsored by the college and performed off campus. Approval of instructor required. May be repeated for credit. THE STAFF

93G. Field Study (3 credits). F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Approval of instructor required. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

120. Personal Empowerment. *

Intensive course on individual goal-oriented behavior, commonly called problem solving. Focus on purpose, goals, meaning, emotions, languages, model-building, reality, thinking, logic, creativity, the steps of problem solving, common blocks, and techniques of unblocking. Meet with instructor prior to advance enrollment; priority given to upper-level students. Enrollment limited to 20. F. ANDREWS

180. Research Skills for College and Beyond (2 credits). W

Focuses on exploration/development of skills for planning, study habits, research, networking, and communication skills for college, graduate and professional school, and beyond. Primary focus is on writing, public speaking, and academic and professional research. Enrollment restricted to junior and senior college members. Enrollment limited to 15. C. CARLISE

183F. Focus on Africa (2 credits). F,S

Equips students with the skills and background necessary to be informed observers and chroniclers of current affairs on the African continent. Enrollment limited to 20. May be repeated for credit. M. COX

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar by an upper-division student under faculty supervision. (See course 42.) Students submit petition to sponsoring agency, supported by faculty member willing to supervise. THE STAFF

193. Field Study. F,W,S

Provides for individual programs of study sponsored by the college and

performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. May be repeated for credit. THE STAFF

193F. Field Study (2 credits). F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. May be repeated for credit. THE STAFF

193G. Field Study (3 credits). F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Up to three such courses may be taken for credit in one quarter. Approval of student's adviser and provost required. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty member. THE STAFF

195. Senior Research Project. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. This may be a multiple-term course extending over two or three quarters; in this case the grade and evaluation submitted for the final quarter apply to all previous quarters. Petitions may be obtained at the Merrill College Office. Approval of student's adviser, certification of adequate preparation, and approval by the Merrill Provost required. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

MICROBIOLOGY AND ENVIRONMENTAL TOXICOLOGY

2017-18 General Catalog

430 Physical Sciences Building

Telephone (831) 459-4719

FAX (831) 459-3524

<http://www.metx.ucsc.edu>

PROGRAM DESCRIPTION

The Microbiology and Environmental Toxicology Department (METX) offers undergraduate and graduate courses in microbiology and environmental toxicology, both within the department and through affiliated departments. The curriculum provides a strong foundation in fundamental and applied toxicology and microbiology to achieve the breadth and depth of perspective required for this interdisciplinary science. Research interests of students and faculty in METX span the fields of biology, microbiology, chemistry, Earth sciences, ocean sciences, environmental studies, and human health.

UNDERGRADUATE PROGRAMS

The METX Department only awards graduate degrees, although it does offer a select number of undergraduate courses to prepare and attract promising undergraduates for advanced studies in microbiology and environmental toxicology or health-related disciplines. Students interested in microbiology and environmental health should major in a field such as biology; marine biology; molecular, cell, and developmental biology; biochemistry; chemistry; Earth sciences; engineering; or environmental studies while taking microbiology and environmental toxicology electives.

In addition, the program provides unique opportunities for exceptional undergraduates to conduct research in microbiology and environmental toxicology. These opportunities are limited to students who have demonstrated their potential in undergraduate courses in the basic sciences and environmental health. With department approval, these undergraduates may also take graduate courses in microbiology and environmental toxicology, that coursework may be applied toward a graduate degree in microbiology and environmental toxicology if the student is accepted into the program.

GRADUATE PROGRAMS

Graduate training in the METX Department prepares students to solve important problems in the field of environmental health by providing stimulating coursework, extensive scientific presentation training,

and for the research-oriented Ph.D. and M.S. degrees, in-depth research that culminates in a thesis. There is no other program in the world that educates students to appreciate the interplay between microbes, chemical toxins, and health and provides the training students require to work effectively in a complex world. Graduate training in the METX department prepares students to become leaders in the field, following career paths in academia, teaching, industry, and government. Doctor of Philosophy (P.D.) students typically finish in four to six years. The research-oriented Master of Science (M.S.) students typically finish in two years, while the coursework/capstone M.S. students can finish in one year.

METX PH.D. DEGREE PROGRAM

Key components of our graduate training include:

- Interdisciplinary core course that teaches critical thinking and how to approach complex problems in environmental health: METX 200, Interdisciplinary Approaches to Problems at the Interface of Microbiology and Environmental Toxicology.
- Core course devoted to grant-writing and scientific-writing skills: METX 205, Scientific Skills, Ethics, and Writing.
- Personalized class plan for the remaining three courses to fit the student's background and research goals. Possible courses include METX 201, Sources and Fates of Pollutants; METX 202, Cell and Molecular Toxicology; METX 206A, Advanced Microbiology; METX 210, Molecular and Cellular Basis of Bacterial Pathogenesis; METX 238, Pathogenesis: Molecular Mechanisms of Disease; METX 250, Environmental Microbiology; and METX 270, Frontiers in Drug Action and Discovery. Courses in other departments include Ocean Sciences 220, Chemical Oceanography; and Molecular Cell and Developmental Biology 200B, Advanced Molecular Genetics.
- Speaking presentation skills training through coursework and yearly departmental

Microbiology and Environmental Toxicology

presentations. Scientific writing and literature mastery through the writing of a literature review in the first year. Weekly seminars expose students to the breadth of our fields and provide students with opportunities to interact closely with speakers and form connections and collaborations.

- Qualifying examinations designed to perfect the student's ability to craft and defend research plans.
- For Ph.D. and Plan I (research thesis) M.S. students, extensive laboratory research training that starts immediately upon entering the program and culminates in the student's Ph.D. dissertation or Master's thesis.

SAMPLE PATHWAYS

Pathways within the microbiology and environmental toxicology graduate program focus on interdisciplinary approaches to addressing problems in environmental and public health. We offer several defined training pathways, and also support students who want to create their own.

Metals in the Environment

Research includes investigating the concentration, speciation, and isotopic composition of contaminant metals and metalloids in the environment, how organisms are exposed to metals as potential toxicants, and how these metals cause toxicity..

Microbiology

Microbiology provides research training on molecular genetic analysis of both non-pathogenic and pathogenic microbes. Students study host-pathogen interactions, ecology and evolution of pathogenic microorganisms, adaptation of pathogenic and non-pathogenic microorganisms to environmental stresses, and mechanisms of microbial biotransformation of pollutants and toxic metals.

Cellular and Organismal Toxicology

This pathway provides training in the biochemical, molecular, cellular, and physiological processes that are impacted by exposures to contaminants such as toxic metals. Research includes exposure pathways and toxicity of contaminants and pathogens within humans, with emphasis on the molecular and cellular mechanisms underlying toxicity.

Microbial Biology and Pathogenesis track within the Program in Biomedical Sciences and Engineering (PBSE)

The METX Department also admits students through the PBSE program Microbial Biology and Pathogenesis (MICRO) Ph.D. track. The PBSE track is a rotation-based graduate umbrella program. This training program emphasizes the application of diverse approaches,

including biochemistry, genetics, genomics, ecology, and imaging to address questions at the forefront of microbial biology. Interdisciplinary research is encouraged and supported by a diverse group of faculty from the METX Department as well as from the Departments of Biomolecular Engineering; Ocean Sciences; Molecular, Cell, and Developmental Biology; Evolutionary and Ecology Biology; and Chemistry and Biochemistry.

REQUIREMENTS SPECIFIC TO THE PH.D. DEGREE

1. Required core courses (2):

METX 200, Interdisciplinary Approaches to Environmental Toxicology

METX 205, Scientific Skills, Ethics, and Writing

Two courses from the following:

METX 201, Sources and Fates of Pollutants

METX 202, Cell and Molecular Toxicology

METX 206A, Advanced Microbiology

METX 210, Molecular and Cellular Basis of Bacterial Pathogenesis

METX 250, Environmental Microbiology

METX 270, Drug Action and Development

At least one additional approved graduate-level METX course or from another department.

Any additional courses as recommended by your first-year advising committee.

Each quarter, students must enroll in at least the following: METX 292, Introductory Graduate Seminar; METX 297, Independent Study; and a topical seminar (METX 281).

2. Literature review. Under direction of the student's adviser, write a literature review of the current state of the field of the proposed dissertation research. The written review will be handed in to the student's adviser at the end of the summer of the first year.

3. Department seminar. Give a 20-minute departmental seminar each academic year, and one 50-minute departmental seminar during the fall quarter of the third year.

4. Teaching assistant. Doctoral students are required to work as teaching assistants (TA) for at least one quarter. Priority for TA positions is given to first-year doctoral students, then to current doctoral students who have not yet worked as a teaching assistant.

5. Ph.D. qualifying examination (QE1—microbiology and environmental toxicology internal). Part I of the qualifying examination consists of two portions: preparation and defense of an independent research proposal prepared by the student, and knowledge of material presented in the microbiology and environmental toxicology core courses taken by the

Microbiology and Environmental Toxicology

student. The student must complete QE1 no later than spring quarter of the second year.

6. Third-year seminar and thesis proposal. The student will present a 50-minute seminar on his/her dissertation research proposal no later than the end of fall quarter in the third year.

7. Ph.D. qualifying examination (QE2). Present and defend a dissertation research proposal to the student's Ph.D. qualifying examination (QE) committee. The student must complete QE2 no later than fall quarter of the third year.

8. Advancement to candidacy. The student advances to candidacy after completing all coursework, completing the literature review, giving the third-year seminar and passing the Ph. D. qualifying examination parts I and II.

9. Dissertation defense. The student must submit their doctoral dissertation to the dissertation committee for tentative approval at least one month before presenting a formal, public doctoral research seminar.

METX MASTER'S DEGREE PROGRAM

The Microbiology and Environmental Toxicology Department offers a Master of Science (M.S.) degree in microbiology and environmental toxicology (METX). The METX M.S. degree can be attained through Plan I thesis (coursework and thesis, minimum 40 credits) or Plan II (coursework and capstone project, minimum 40 credits). In addition, METX offers a fifth-year Plan I (thesis) M.S. degree path when earned contiguous with an appropriate Bachelor of Science (B.S.) degree at UCSC. The METX M.S. degree combines core courses and electives to provide interdisciplinary training in microbiology, toxicology, and environmental health sciences. Graduates from the program are exceptionally prepared to take research or management positions in organizations concerned with microbial and environmental health-related sciences. Graduates may also pursue fields in education or enter doctoral programs in biological and environmental health sciences or related fields.

Requirements Specific to the Master's Degree

Plan I (coursework, research, and thesis) M.S. degree

Prospective students who are interested in research careers, or gaining research experience prior to entering a doctoral program, may consider the thesis M.S. degree (Plan I).

1. Required core courses (2):

METX 200, Interdisciplinary Approaches to Environmental Toxicology

METX 205, Scientific Skills, Ethics, and Writing

Two courses from the following:

METX 201, Sources and Fates of Pollutants

METX 202, Cell and Molecular Toxicology

METX 206A, Advanced Microbiology

METX 210, Molecular and Cellular Basis of Bacterial Pathogenesis

METX 250, Environmental Microbiology

METX 270, Drug Action and Development

At least one additional approved graduate-level METX course or from another department.

Any additional courses as recommended by your first year Advising Committee.

Each quarter, students must enroll in at least the following: Introductory Graduate Seminar (METX 292), Independent Study (METX 297), and a topical seminar (METX 281).

2. Literature review. Under direction of the student's adviser, write a literature review of the current state of the field of the proposed dissertation research. The written review will be handed in to the student's adviser at the end of the summer of the first year.
3. Department seminars. Give a 20-minute departmental seminar in the first academic year and one 50-minute departmental seminar on thesis work during the spring of the second year.
4. Master's comprehensive examination. The master's comprehensive exam is a presentation and defense of the student's master's research proposal, including relevant background knowledge. The examination will not be specifically course-based, but will draw on knowledge from courses. This examination is taken in the fall quarter of the second year.
5. Thesis. Students are required to submit a thesis for fulfillment of the degree requirements. The thesis should be submitted to the student's master's reading committee one month before the due date.

Plan II (Coursework and Capstone) M.S. Degree

The Plan II coursework M.S. degree may be of interest to students interested in interdisciplinary graduate training in microbiology and environmental health-related fields, but with career goals other than research, such as government service, non-profit NGOs, and private sector biotech and environmental health companies.

1. Required core course:

METX 200, Interdisciplinary Approaches to Environmental Toxicology

Two courses from the following:

METX 201, Sources and Fates of Pollutants

METX 202, Cell and Molecular Toxicology

METX 206A, Advanced Microbiology

Microbiology and Environmental Toxicology

METX 210, Molecular and Cellular Basis of Bacterial Pathogenesis

One course from the following:

METX 238, Pathogenesis: Molecular Mechanisms of Disease

BIOL 217, Influence of Environment and Experience on Brain Development

At least one additional approved graduate-level METX course or from another department.

At least one additional approved general elective METX course or from another department.

Each quarter, students must enroll in Introductory Graduate Seminar (METX 292)

- Plan II MS students will also complete a capstone writing project (METX 240A and METX 240B) to be completed under the guidance/mentorship of a faculty member in the department. As an example, capstone projects may include a scientific research proposal or a substantial review article.

METX FIFTH-YEAR M.S. PATHWAY

METX offers a fifth-year Plan I (thesis) M.S. degree path when earned contiguous with an appropriate Bachelor of Science (B.S.) degree at UCSC. The fifth-year M.S. path provides highly motivated undergraduate majors the opportunity to earn separate B.S. and M.S. degrees in five years. The path provides the additional level of preparation and experience that students need to pursue careers in industry, government, or to increase their competitiveness for top Ph.D. programs. Students apply to be accepted into the fifth-year M.S. path in consultation with their faculty or undergraduate adviser, no later than the end of the spring quarter of the junior year.

To be accepted to the path, students will need to prepare an application and plan for their fifth-year BS/MS, providing evidence of solid academic performance in general and in their undergraduate major. The application should be submitted no later than end spring quarter of the junior year, and should include:

- A one-page personal statement describing a) the student's motivation and academic preparation for entering the path; b) the student's goals for the fifth-year path, including the area of concentration; c) the name of a faculty member willing to serve as their thesis adviser (if appropriate); and d) future professional goals.
- Copy of unofficial transcripts establishing the GPA requirements in the undergraduate major and overall. Applicants should possess a GPA in courses of their undergraduate major (biology, chemistry, etc.) of 3.2 or above, and an overall GPA of 3.0 or above.
- A letter of recommendation from the METX faculty member attesting to the student's promise for a M.S. degree in METX.
- A coursework plan that will enable them to complete both the requirements for the B.S. in their undergraduate department and M.S. in METX in five years, including demonstrating sufficient coursework capacity to complete at least one to two METX graduate courses in their final undergraduate year.

If accepted into the fifth-year B.S./M.S. path, students will go through the regular METX M.S. application process early in their senior year. The criteria for admission to the METX M.S. program will be the same as for all METX M.S. program applicants.

MICROBIOLOGY AND ENVIRONMENTAL TOXICOLOGY FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Victoria Auerbuch Stone, Associate Professor

Interactions between bacterial pathogens and the innate immune system

Manel Camps, Associate Professor

Evolution of drug resistance with a focus on genetic adaptation and plasmid homeostasis

A. Russell Flegal, Professor Emeritus

Karen Ottemann, Professor

How bacterial pathogens are able to chronically colonize mammalian hosts and cause disease outcomes such as inflammation and cancer

Chad Saltikov, Professor

Microbial processes that influence the biotransformation of pollutants in the environment

Donald R. Smith, Professor

Neurotoxicity, cellular and organismal responses to environmental toxins

Fitnat Yildiz, Professor

Understanding processes controlling transmission of bacterial pathogens

ADJUNCT PROFESSOR

Paul Blum

Repurposing bacterial toxins for therapeutic uses and genetics of microbial extremophiles

Microbiology and Environmental Toxicology

Ron Oremland

Microbial metabolism of reduced gases and of toxic elements, especially in extreme environments (e.g., Mono Lake)

Lynn Rothschild

Protists, cyanobacteria, astrobiology and synthetic biology

Associate Adjunct Professor

Myra Finkelstein

Human impacts to wildlife with an emphasis on contaminant-induced effects

AFFILIATED FACULTY WHO SPONSOR METX STUDENTS

Adina Paytan, Research Scientist, Institute of Marine Sciences

Biogeochemistry, paleoceanography, environmental and aquatic chemistry

Jonathan Zehr (Ocean Sciences)

Aquatic microbial ecology, biological oceanography

ADDITIONAL AFFILIATED FACULTY

ENVIRONMENTAL TOXICOLOGY

Don Croll (Ecology and Evolutionary Biology)

Foraging ecology of marine sea birds and mammals, island conservation/ecology

Andrew Fisher (Earth and Planetary Sciences)

Hydrology, crustal studies, heat flow modeling

Raphael Kudela (Ocean Sciences)

Ecological modeling and remote sensing, satellite oceanography, phytoplankton ecology and harmful algal blooms

Matthew McCarthy (Ocean Sciences)

Marine organic geochemistry and chemical oceanography, global biogeochemical cycles, compound-specific isotopes and radio carbon

Peter T. Raimondi (Ecology and Evolutionary Biology)

Applied marine ecology

CELLULAR TOXICOLOGY

Lindsay Hinck (Molecular, Cell, and Developmental Biology)

Breast development and cancer, cell biology, and development

Theodore Holman (Chemistry and Biochemistry)

Bioinorganics and biological chemistry

Pradip K. Mascharak (Chemistry and Biochemistry)

Bioinorganic chemistry, design of antitumor drugs, modeling of active sites of metalloenzymes, design of catalysts for hydrocarbon oxidation, studies on intermediates in non-heme oxygenase chemistry, design of NO-donors for photodynamic therapy

Glenn Millhauser (Chemistry and Biochemistry)

Electron paramagnetic resonance; nuclear magnetic resonance, protein structure and function, peptide synthesis, prions, melanocortin signaling

Martha Zuniga (Molecular, Cell, and Developmental Biology)

Negative selection of autoreactive T cells in the thymus and in peripheral lymphoid organs, immunological tolerance to epithelial antigens, MHC transfer between keratinocytes and dendritic cells

MICROBIOLOGY

Grant Hartzog (Molecular, Cell, and Developmental Biology)

Biochemistry, genetics, chromatin and transcriptional regulation

Douglas R. Kellogg (Molecular, Cell, and Developmental Biology)

Control of cell growth and size

Todd Lowe (Biomolecular Engineering)

Experimental and computational genomics, ncRNA gene finders, and high-throughput RNA sequencing to study the biology of extremophile archaea and bacteria

Nader Pourmand (Biomolecular Engineering)

Director, UCSC Genomics Sequencing Center
Development of new tools and technologies that integrate biology, electronics, and nanofabrication for the detection and study of genes and proteins

Joshua Stuart (Biomolecular Engineering)

Computational genomics

MICROBIOLOGY AND ENVIRONMENTAL TOXICOLOGY COURSES

LOWER-DIVISION COURSES

80E. Aquatic Toxicology. *

An introduction to the sources,

cycling, and impacts of toxicants in aquatic systems, including acid rain, ground water, fresh water rivers and lakes, estuaries, and the ocean. Emphasis is on the properties of

toxic chemicals that influence their biogeochemical cycles and factors that influence their toxicity to aquatic organisms and humans.

Microbiology and Environmental Toxicology

(General Education Code(s): SI.)
THE STAFF

UPPER-DIVISION COURSES

101. Sources and Fates of Pollutants. *

Presents in-depth important principles of environmental toxicology related to the introduction, transport, and fate of toxicants in aquatic and terrestrial environments, including environmental chemistry and biogeochemical cycles as well as exposure pathways and uptake by organisms. Additional emphasis placed on susceptibility and effects of toxicants across organ systems, toxicokinetic and biomarkers of exposure, and effects at the ecosystem level. Students cannot receive credit for this course and course 201. C. SALTIKOV, THE STAFF

102. Cell and Molecular Toxicology. *

Emphasizes of biochemical, cellular, and organ system basis of intoxication, including dose-response relationships, biotransformation of toxicants, biochemical mechanisms underlying toxicity, factors influencing toxic action, and biomarkers of exposure. Emphasizes effects of various classes of toxins, including heavy metals and persistent synthetic organics, with a focus on susceptible biochemical/cellular processes of the central nervous, immune, hepatic, and renal target organ systems. Designed for advanced undergraduates. Students cannot receive credit for this course and course 202. (Formerly Cellular and Organismal Toxicology.) Prerequisite(s): Biology 20A and 20B or equivalent; Biology 100, Biochemistry, and 110, Cell Biology, are recommended. Enrollment restricted to juniors and seniors. D. SMITH

119. Microbiology. F,S

Cell and molecular biology of bacteria and their viruses, including applications in medicine, public health, agriculture, and

biotechnology. Prerequisite(s): BIOL 100 or BIOC 100A. K. OTTEMANN, F. YILDIZ

119L. Microbiology Laboratory. F,W,S

An introduction to the principles and practices of laboratory microbiology, with a substantial presentation of optical microscopy. Students are billed a materials fee. Prerequisite(s): previous or concurrent enrollment in course 119 required; satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to biological sciences and affiliated majors; biology minors; other majors by permission. THE STAFF, K. OTTEMANN, F. YILDIZ

125. Practicing Safe Science (2 credits). W

Introduces research safety principles and practices. Instructors and guest experts discuss research hazards and control measures. Students explore the safe use of research methods and materials via hands-on and outside exercises. Issues include compliance with hazardous waste and other environmental safety regulations. THE STAFF

135. Functional Anatomy. S

A rigorous systems-based course in anatomy. Lectures provide an overview of functional anatomy at all levels from the systems to the tissues. Provides a mechanistic understanding of the structures of the body as a foundation for human-health oriented studies. (Formerly BIOL 135.) Prerequisite(s): courses 20A and Biology: Ecology and Evolutionary 20B. Concurrent enrollment in course 135L is required. Enrollment restricted to biological sciences majors and affiliated majors and biology minors. THE STAFF

135C. Cadaver Dissection Laboratory (2 credits). *

Dissection of a human cadaver under the direction of an anatomy instructor. Prerequisite(s): course 135 and 135L, or Biology 135 and 135L, or Anthropology 102A. Enrollment limited to 16. May be repeated for credit. R. ABU-SHUMAYS

135L. Functional Anatomy Lab (2 credits). S

Complements lecture course 135. Emphasizes nomenclature and recognition; includes the embryology and histology of bones, muscles, and internal organs, and the interactions between the systems of the body. Students are billed a materials fee. (Formerly BIOL 135L.) Prerequisite(s): BIOL 20A and BIOE 20B. Enrollment restricted to biological sciences majors and affiliated majors and biology minors. Concurrent enrollment in METX 135 is required. Enrollment limited to 24. THE STAFF

138. Pathogenesis: Molecular Mechanisms of Disease. *

Overview of the pathogenic mechanisms underlying human disease at the physiological and molecular levels, with their implications for epidemiology, diagnosis, and treatment. Includes discussion of clinical cases and of emerging areas of research. Geared toward students interested in future research or clinical careers in the area of human or animal health. Students cannot receive credit for this course and Microbiology and Environmental Toxicology 238. (Also offered as Biology: Molecular Cell & Dev 118. Students cannot receive credit for both courses.) Prerequisite(s): Biology 130. Enrollment restricted to students majoring in biology; health sciences; molecular, cell, and developmental biology; biochemistry and molecular biology; or neuroscience and behavior. Offered in alternate academic years. M. CAMPS

140. Molecular Biology of Prokaryotes. *

Focuses on several aspects of prokaryotic molecular biology. Covers transcriptional regulation, translational regulation, DNA replication and segregation, protein secretion, transport of small molecules, control of metabolism, stress response, bacterial differentiation, signal transduction, biofilm formation, and motility. Strong focus on experimental techniques and approaches used in

Microbiology and Environmental Toxicology

prokaryotic molecular biology. Focus on model bacteria such as *escherichia coli* and *bacillus subtilis*. Students cannot receive credit for this course and course 240. Prerequisite(s): Biology 119. K. OTTEMANN

144. Groundwater Contamination. *

Analyses of contemporary problems in groundwater contamination, based on current scientific understanding of contaminant transport in aquifers. Topics include both theoretical concepts and case studies. Prerequisite(s): Earth Science 110B. Offered in alternate academic years. A. FLEGAL

145. Medical Geology. *

An interdisciplinary analysis of natural geochemical processes that impact human health and of anthropogenic processes that exacerbate those impacts. Prerequisite(s): Chemistry 1A, 1B, 1C, 1M, and 1N. A. FLEGAL

150. Introduction to Research and Experimental Design. *

Lecture-based course for advanced undergraduates actively engaged in undergraduate research (e.g., independent study or senior thesis). Emphasizes basic lab skills, including laboratory safety and handling of laboratory equipment; experimental design; scientific record keeping; and literature searching, review, and management. K. OTTEMANN, (FWS) THE STAFF

151. Scientific Writing and Presentation. *

For advanced undergraduates who are actively engaged in undergraduate research (e.g., independent study or senior thesis). Emphasizes the collection, reduction, analysis, management, and interpretation of scientific data; the presentation of scientific data in written and oral formats; and further development of critical thinking. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. THE STAFF

160. Coastal Environmental Toxicology and Policy (3 credits).

*
Interdisciplinary analysis of the scientific basis and policy development to regulate and manage environmental pollutants in coastal waters. Focuses on case studies involving aspects of environmental toxicology and policy including environmental monitoring and regulatory programs; ecosystem restoration; and regulating the environmental impacts of coastal development. Enrollment restricted to sophomores, juniors, seniors, and graduate students. M. CONNOR, G. GRIGGS, A. FLEGAL

170. Drug Action and Development. *

Lectures and case studies explore principles and approaches in drug discovery and development, emphasizing concepts in pharmacology; medicinal chemistry; and genomics- and bioinformatics-based approaches to drug discovery to illustrate pathways from discovery through development for clinical use. Cannot receive credit for this course and course 270. (Formerly Frontiers in Drug Action and Discovery.) (Also offered as Biomolecular Engineering 170. Students cannot receive credit for both courses.) Prerequisite(s): Biology 100 or Chemistry 103 or Biochemistry 100A. Biology 110 and 130/L or 131/L are recommended. Enrollment restricted to juniors and seniors. D. SMITH, T. HOLMAN, M. CAMPS, R. LININGTON, P. BERMAN

195. Senior Thesis. F,W,S

An individually supervised course, with emphasis on independent research culminating in a senior thesis. May be repeated for credit. THE STAFF

195F. Senior Thesis (2 credits). F,W,S

An individually supervised course with emphasis on independent research culminating in a senior thesis. May be repeated for credit. THE STAFF

198. Independent Study. F,W,S

Provides for individual programs of study (a) by means other than the usual supervision in person or (b)

when the student is doing all or most of the coursework off campus. With permission of the department, two or three courses may be taken concurrently, or the course repeated for credit. May be repeated for credit. THE STAFF

198F. Independent Study (2 credits). F,W,S

Provides for individual programs of study (a) by means other than the usual supervision in person or (b) when the student is doing all or most of the coursework off campus. With permission of the department, two or three courses may be taken concurrently, or the course repeated for credit. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Reading, discussion, written reports, and laboratory research on selected topics. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Reading, discussion, written reports, and laboratory research on selected topics. Enrollment limited to 4. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Interdisciplinary Approaches in Environmental Toxicology. F

Introduction to interdisciplinary, case-based approaches to problem-solving. Demonstrates how important, current problems in environmental and human health have been addressed and solved. Presents assigned problems that integrate the different organization levels (environmental, molecular/cellular, organismal/public health) inherent to environmental and human health. Students work in collaborative teams to analyze each problem and create a proposal for a research plan/solution. Enrollment restricted to graduate students. Advanced undergraduates may enroll by permission of the instructor. D. SMITH

201. Sources and Fates of Pollutants. F

Presents in-depth important

Microbiology and Environmental Toxicology

principles of environmental toxicology related to the introduction, transport, and fate of toxicants in aquatic and terrestrial environments including environmental chemistry and biogeochemical cycles as well as exposure pathways and uptake by organisms. Additional emphasis will be placed on the susceptibility and effects of toxicants across organ systems, toxicokinetics and biomarkers of exposure, and effects at the ecosystem level. Students cannot receive credit for this course and course 101. Enrollment restricted to graduate students; qualified undergraduate science majors may enroll with permission of instructor. C. SALTIKOV

202. Cell and Molecular Toxicology. W

Emphasizes biochemical, cellular, and organ system basis of intoxication, including dose-response relationships, biotransformation of toxicants, biochemical mechanisms underlying toxicity, factors influencing toxic action, and biomarkers of exposure. Emphasizes effects of various classes of toxins, including heavy metals and persistent synthetic organics, with a focus on susceptible biochemical/cellular processes of the central nervous, immune, hepatic, and renal target organ systems. Students cannot receive credit for this course and Microbiology and Environmental Toxicology 102 or BIOL 122.. (Formerly "Cellular and Organismal Toxicology.") Enrollment restricted to graduate students. D. SMITH

203. Cellular and Molecular Toxicology. *

Presents in-depth cellular and molecular principles of environmental toxicology. These include modes of action and cellular and molecular targets of toxicants, as well as mechanisms of cellular and molecular responses to toxicants and their detoxification. State-of-the-art biological methodologies and approaches to identify and study cellular targets of toxicants. Designed to provide students with a broad and deep

understanding of the biological aspects of toxicology at both cellular and molecular levels, and the skills to approach emerging challenges in the field. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. THE STAFF

205. Scientific Skills, Ethics, and Writing. S

Provides fundamental training of graduate students in the scientific method; experimental design; ethics in science; grant proposal and scientific writing; and data presentation and scientific speaking. Students are evaluated on class participation, performance, and a written NIH/NSF-style research proposal. Advanced undergraduates may enroll with permission of the instructor. Enrollment restricted to graduate students. D. SMITH, THE STAFF

206A. Advanced Microbiology. F

Focuses on aspects of bacterial molecular biology. Covers four main areas: (1) metabolism-catabolism, anabolism, building-block precursors; (2) transcription/signal transduction; (3) replication/plasmid biology/division; (4) translation/protein processing/secretion/cell structure. Strong focus on experimental techniques and approaches used in molecular biology, and on model bacteria, such as *escherichia coli* and *bacillus subtilis*. Enrollment restricted to graduate students. Advanced undergraduates may enroll with permission of instructor. F. YILDIZ, C. SALTIKOV, K. OTTEMANN

210. Molecular and Cellular Basis of Bacterial Pathogenesis. W

Focuses on the molecular basis of bacterial pathogenesis with specific emphasis on gene expression, regulation, and ecology and evolution. Enrollment restricted to graduate students. Advanced undergraduates with extensive background in microbiology and biology may enroll with permission of instructor. F. YILDIZ

215. Antibiotics: Actions and Resistance (3 credits). *

Critical review of scientific literature covering genetic and physiological mechanisms conferring resistance to antibiotics and their spread in the population. Format based on structured discussion of selected topics and original research proposal. (Formerly Seminar in Advanced Prokaryotic Molecular Biology.) Prerequisite(s): course 206A or course 119, or by permission of the instructor. Enrollment is restricted to graduate students. Enrollment limited to 12. M. CAMPS, F. YILDIZ

238. Pathogenesis: Molecular Mechanisms of Disease. S

Provides an overview of the mammalian innate immune response and the role of inflammation in disease. Also, presents how both environmental stressors and microbial pathogens impact inflammation. Enrollment restricted to graduate students. D. SMITH, V. STONE, M. CAMPS

240. Molecular Biology of Prokaryotes. *

Focuses on several aspects of prokaryotic molecular biology. Covers transcriptional regulation, translational regulation, DNA replication and segregation, protein secretion, transport of small molecules, control of metabolism, stress response, bacterial differentiation, signal transduction, biofilm formation, and motility. Strong focus on experimental techniques and approaches used in prokaryotic molecular biology. Focus on model bacteria such as *escherichia coli* and *bacillus subtilis*. Students cannot receive credit for this course and course 140. K. OTTEMANN

250. Environmental Microbiology. *

How microbes interact with their environments. Topics include anaerobic metabolism; biotransformation of toxic metals and organic pollutants; geomicrobiology; life in extreme environments; water quality. Advanced undergraduates with extensive background in

Microbiology and Environmental Toxicology

microbiology and biology may enroll with permission of instructor. Enrollment restricted to graduate students. Offered in alternate academic years. C. SALTIKOV

270. Drug Action and Development. *

Lectures and case studies explore principles and approaches in drug discovery and development, emphasizing concepts in pharmacology; medicinal chemistry; and genomics- and bioinformatics-based approaches to drug discovery to illustrate pathways from discovery through development for clinical use. Cannot receive credit for this course and course 170. (Formerly Frontiers in Drug Action and Discovery.) (Also offered as Biomolecular Engineering 270. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. D. SMITH, T. HOLMAN, M. CAMPS, R. LININGTON, P. BERMAN

281A. Topics in Environmental Toxicology. *

Selected topics in environmental toxicology. Topics vary from year to year. Enrollment restricted to graduate students; qualified upper-division science majors may enroll with instructor's permission. May be repeated for credit. THE STAFF

281C. Topics in Environmental Microbiology (2 credits). F,W,S

Seminar and discussion focusing on mechanism of microbial transformation of metals. Participants present results from their research projects in a seminar format. Relevant journal articles presented and discussed. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. C. SALTIKOV

281F. Topics in Aquatic Toxicology (2 credits). *

Analyses of the sources and fates of aquatic pollutants. Discussions on processes at the air-water interface, within the water column, and in aquatic sediments. Topics vary from year to year. Enrollment restricted to graduate students; qualified upper-division science majors may enroll with instructor's permission.

May be repeated for credit. A. FLEGAL

281M. Topics in Molecular Toxicology (2 credits). F,W,S

Seminar and discussion on the mechanisms of toxicity in DNA alkylating agents. Participants present results from their research, and relevant journal articles are discussed. Enrollment restricted to graduate students. Undergraduates may enroll with instructor's permission. Enrollment limited to 5. May be repeated for credit. M. CAMPS

281O. Topics in Bacterial Pathogenesis (2 credits). F,W,S

Intensive seminar focusing on mechanisms of bacterial pathogenesis of the ulcer-causing bacterium *helicobacter pylori*. Participants are required to present results from their own research and relevant journal articles. (Also offered as Biology: Molecular Cell & Dev 2800. Students cannot receive credit for both courses.) Enrollment restricted to graduate students; qualified undergraduates may enroll with permission of instructor. Enrollment limited to 20. May be repeated for credit. K. OTTEMANN

281S. Cellular and Organismal Responses to Toxicants (2 credits). F,W,S

Intensive research seminar on the concepts, theory, and techniques in deriving physiologically based pharmacokinetic models of toxin exposure, metabolism, and efficacy of therapeutic treatment in mammalian models of human metal toxicity. Enrollment restricted to graduate students; qualified undergraduates may enroll with permission of instructor. May be repeated for credit. D. SMITH

281V. Topics in Bacterial Pathogenesis and Innate Immunity (2 credits). F,W,S

Focuses on the interplay between the human gut bacterial pathogen *Yersinia pseudotuberculosis* and the innate immune system of the host. Participants are required to present the goals, results, and conclusions from their own research. Participation in the general discussion during others'

presentations is also required. Enrollment restricted to graduate students. Qualified undergraduates performing research under the supervision of the instructor may enroll with instructor's permission. May be repeated for credit. V. STONE

281Y. Biofilms: Processes and Regulation (2 credits). F,W,S

Intensive seminar series focusing on the most current work on genes and the processes that regulate biofilm development dynamics as well as on the recent developments on visualization of biofilms. Presentation and discussion based. Enrollment restricted to graduate students. Qualified undergraduate students may enroll with instructor's permission. May be repeated for credit. F. YILDIZ

282. Current Approaches to Molecular Pathogenesis (2 credits). *

Graduate level seminar focusing on the mechanisms by which bacterial pathogens cause disease. Specific topics include basic concepts of virulence and virulence factors, virulence factor regulation, toxins, and interactions of pathogens with mammalian cells and organs. Discussions focus on several key pathogens, including *helicobacter pylori*, *vibrio cholerae*, *salmonella typhimurium*, and *listeria monocytogenes*. May be repeated for credit. K. OTTEMANN

290. Proseminar. *

Special topics offered from time to time by faculty, visiting professors, or staff members. Enrollment restricted to graduate students; qualified undergraduates may enroll with instructor's permission. May be repeated for credit. THE STAFF

290A. Epidemiology and Risk Assessment. *

Approaches different techniques of biological monitoring and the exposure and effect of biomarkers related to occupational and environmental exposure to chemicals. Available methods for risk assessment and identification of protective exposure limits also considered. (Formerly Biological

Microbiology and Environmental Toxicology

Impact of Chemical Exposures.)
THE STAFF

292. Introductory Graduate Seminar (no credit). F,W,S

Weekly seminars by academic and research faculty on their areas of special interest. Students write weekly abstracts on articles covered by the seminars.

Enrollment restricted to graduate

students; qualified undergraduates may enroll with instructor's permission. THE STAFF

297. Independent Study. F,W,S

Independent study for graduate students who have not yet settled on a research area for the thesis.

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

MUSIC

2017-18 General Catalog

244 Music Center

(831) 459-2292

music@ucsc.edu

<http://music.ucsc.edu>

PROGRAM DESCRIPTION

The UCSC music curriculum is distinctive in developing musicians who integrate scholarship with performance. Although this rigorous program primarily addresses Western art music, it also incorporates the study of world music cultures in both their art and vernacular traditions. A major in music establishes a substantial foundation for further academic or performance studies. Two undergraduate majors are offered: the bachelor of music (B.M.), which especially develops the student's attainment in performance, and the bachelor of arts (B.A.), which cultivates greater breadth in the student's academic achievement. Two minors in music are also offered: one in electronic music, and one in jazz. The electronic music and jazz minors are open to music majors, as well as to students pursuing other majors.

There are three graduate programs in music: the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in music and the doctor of musical arts (D.M.A.) degree in music composition. The master of arts (M.A.) degree in music has emphases in composition, musicology/ethnomusicology, or performance practice, and integrates studies in performance, composition/analysis, and research. The doctor of philosophy (Ph.D.) degree in music has an emphasis in cross-cultural studies, and aims to provide doctoral students with an integrative framework for music scholarship, emphasizing the ways in which musicology and ethnomusicology interact and complement one another. The doctor of musical arts (D.M.A.) degree in music composition has tracks in computer-assisted composition and world music composition and seeks to develop accomplished, active, and articulate composers who have a broad awareness of the diverse styles, cultural influences, media, venues, and technical means available to them in the 21st century.

The Music Center includes a 400-seat recital hall that has recording facilities, specially equipped classrooms, individual practice and teaching studios, a student computer laboratory, rehearsal space for ensembles, a gamelan studio, and studios for electronic and computer music. McHenry Library has a separate music section and listening rooms that have individual audio and video facilities. Recording and media equipment is available from the Learning Technologies center.

The bachelor of arts (B.A.) degree integrates performance, theory, composition, history, and literature. The bachelor of music (B.M.) degree is designed for exceptionally talented students who intend to pursue a career in performance. Acceptance to the B.M. program is by audition during fall quarter; students must audition prior to their senior year.

The core degree requirements are the same for both bachelor of arts (B.A.) and bachelor of music (B.M.) students and are as follows:

- Music 30A, 30B, and 30C, Theory, Literature, and Musicianship
- Music 60, Group Instruction in Piano, taken concurrently with the Music 30 sequence (may be waived if the student is taking piano lessons from a UCSC instructor)
- Music 130, Harmony and Form in 19th-Century and Early 20th-Century Music
- Music 101A, 101B, and 101C, History of Western Art Music
- One course from the Music 105 series, Special Topics in History
- One course from the Music 150 series, Special Topics in Theory
- One course from the Music 180 series, Studies in World Musics

Additional Course Requirements for the Bachelor of Arts (B.A.)

- One of the following: Music 121, Orchestration; Music 124, Intermediate Electronic Sound Synthesis; or an additional Music 150 series or Music 180 series course
- Senior Capstone: Music 120, Seminar in Music Composition; or an additional Music 105 series course by permission of instructor
- A minimum of six quarters of Music Department instrumental or choral ensembles
- A minimum of six quarters of applied instruction (private individual instrumental or vocal lessons)

UNDERGRADUATE PROGRAMS

Music

Additional Course Requirements for the Bachelor of Music (B.M.)

- A minimum of 12 quarters of Music Department instrumental or choral ensembles
- A minimum of 11 quarters of applied instruction (private individual instrumental or vocal lessons)
- Demonstration of an advanced level at Continuing B.M. juries each fall and spring quarter
- Music 196B, Senior Recital

The B.M. degree is for students who aspire to academic excellence and an advanced performance level. Once accepted to the B.M. program, students must take two juries per academic year: at the end of both fall and spring quarter, for continuing review and criticism of proficiency at their primary instrument.

If a student fails to participate in continuing B.M. juries, or does not attain, or maintain, an advanced level, and fails to maintain academic excellence, the Bachelor of Music Committee will re-examine the student's continued participation in the B.M. degree in consultation with the applied instructor. In cases in which the B.M. Committee finds the student did not meet these requirements the students will be dismissed from the B.M. program with an option to switch to the B.A. degree.

Time to degree: The determination of a dismissal can be made by the committee as long as a student has three remaining quarters before their expected graduation date. This will ensure enough time to make course changes from a B.M. to B.A. degree. A change to the B.A. degree is 10 to 25 fewer credits to be completed than the B.M. degree.

Students may appeal a dismissal of the B.M. degree by petition to the chair of the Music Department. A letter to the department chair must be submitted within 15 days from the date the notification was mailed. Within 15 days of receipt of the appeal, the department will notify the student, college, and Office of the Registrar of the decision.

Note: B.M. students wishing to concentrate in jazz are required to take Music 111B, Seminar in Jazz Analysis, instead of one of the Music 180 courses and Music 174, Intermediate Jazz Improvisation; and Music 175, Jazz Theory II.

It is essential that students in either program begin the Music 30 sequence, ensembles, and applied instruction in fall of their freshman year or as early as possible to make satisfactory progress toward their degree objectives.

Sample academic plans for the B.A. and B.M. degree programs are found in the Music Student Handbook, available online at the Music Department web site:

<http://music.ucsc.edu>.

Undergraduate Program Learning Outcomes

The B.A. and B.M. programs in music are designed to accomplish the following learning outcomes:

1. Attainment of knowledge and understanding of music in an integrated way, through historical and cultural studies, musicianship, theory, composition, and performance. These studies prepare students to pursue a career in some aspect of music, to further develop their skills in graduate study, and/or to maintain music as a central part of their lives.

2. Acquisition of musical competency, including literacy (the use of music notation in reading, performing, composing, analyzing, and hearing music).

- 30ABC, Theory, Literature, and Musicianship
- 60, Fundamental Keyboard Skills
- 130, Harmony and Form in 19th- and Early 20th-century Music
- 150, Special Topics in Music Theory
- Foreign Language Requirement (for B.M. students concentrating in voice)

3. Developing skills of critical thinking and writing about music by taking courses on past and present musical cultures in European and other heritages.

- 101ABC, History of Western Art Music
- 105, Special Topics in Music History
- 180A or B or C or D, Studies in World Music
- Upper-division electives

4. Creating music by performing, composing, and improvising.

- 120, Seminar in Music Composition
- 121, Orchestration; or 124, Intermediate Electronic Sound Synthesis
- Performance ensembles (6 quarters for B.A. students, 12 quarters for B.M. students)
- Individual Lessons (6 quarters for B.A. students, 11 quarters for B.M. students)
- 196B, Senior Recital (required for B.M. students; an elective for B.A. students who qualify by petition)
- Upper-division electives in historical and cultural studies, music and technology, theory, conducting, and jazz improvisation

HOW MUSIC MAJORS ARE ASSESSED

1. Placement exams at the outset of studies assess students' musical competence, and determine their place in the required lower-division theory and harmony courses.

Music

2. Admission to most performance ensembles is by audition. Assessment is based on successful public performances.
3. A juried "advisory audition" is required for students enrolled in Music 30A to give students feedback so that they can work toward meeting the requirements for the proficiency audition at the end of the next fall quarter.
4. A juried "proficiency audition" is required for students enrolled in Music 130. All students must exhibit an upper-intermediate or higher level on their major instrument or voice.
5. Auditions for admission to the B.M. program are held at the end of each fall quarter. Students accepted to the program are required to audition twice a year for continuing review and critique. Students in the B.M. program present a Senior Recital which is evaluated by faculty.
6. In required and elective seminars, critical thinking and writing are assessed when students present a major independent project at the end of term.
7. Compositional skills are assessed through the rehearsal and public performance of student works.

QUALIFICATION POLICY

- Successful completion of Music 30A with a grade of "C" or above;
- Signature approval by the applied instrument instructor on the primary instrument authorization form.

FOREIGN LANGUAGE REQUIREMENT

French 1, German 1, and Italian 1 are required for B.M. students who wish to concentrate in voice. There are no foreign language requirements for other students in the B.A. or B.M. programs; however, students who are planning to apply for graduate school are strongly advised to study a language pertinent to their research area up to a comparable level 3 at UCSC or be able to pass the level 4 entrance examination.

LETTER GRADE REQUIREMENT

All upper-division courses applied toward the music majors must be taken for a letter grade, except ensemble courses, which may be taken Pass/No Pass.

REQUIRED EXAMINATIONS AND AUDITIONS

Core Curriculum Placement Examination. This examination is for the placement of students, including transfer students and re-entry students, into the appropriate music lower-division core course. It includes written sections in the areas of theory and musicianship that emphasize aural recognition and identification of musical structures and brief definitions of terms relating to music history. The date of the examination is normally the Tuesday before the first day of instruction for fall quarter. For more information

on the examination including a sample test, please visit our web site: <http://music.ucsc.edu>.

Advisory Audition. All students in Music 30A, including music minors, will be scheduled for a juried audition at the end of the first fall quarter (on their major instrument or voice). The purpose of this audition is to give students feedback so that they can work toward meeting the requirements for the proficiency audition at the end of the next fall quarter. The advisory audition is waived for students who have been admitted to the B.M. program.

Proficiency Audition. It is a requirement of the major that all students in Music 130 must audition at the end of the second fall quarter and exhibit an upper-intermediate or higher level (on their major instrument or voice). The audition committee may allow for an extension (up to two quarters maximum) for a student who fails the proficiency audition.

Bachelor of Music Auditions. Auditions for admissions to the B.M. program are held at the end of each fall quarter. Students must have approval from applied music instructor in order to audition. After students have been accepted, they are required to audition twice a year, at the end of fall and spring quarters, for continuing review and critique.

TRANSFER STUDENTS

The Music Department requires transfer students to take the core curriculum placement examination and seek academic counseling before transfer. Transfer students are strongly encouraged to audition in advance because auditions help determine eligibility for the major. Detailed information on auditions and a sample core curriculum placement examination is available at: <http://music.ucsc.edu/programs/transfer-students>.

Transfer students who have some background in music theory normally test into Music 30A (which is only offered in the fall quarter). Students who require Music 15 for music theory preparation should take Music 15 in their first year or during summer session prior to their incoming fall quarter to prepare for Music 30A. Transfer students who have completed all of their general education requirements and who test into Music 30A upon transfer may be able to complete the music major in two years.

B.A. transfer students should note that upon completion of Music 130, it is a requirement of the major to perform on a musical instrument or voice at an upper-intermediate level. Prospective students wishing to have their performance skill level assessed by faculty in preparation for entry to the program are encouraged to send a CD or tape for faculty review.

B.M. transfer students should prepare to audition in the fall quarter after enrollment. (For audition requirements, see the Requirements for the Bachelor of Music section above.) In certain cases, some or all of the

Music

applied music requirement may be waived based on prior coursework.

Because Italian 1, German 1, and French 1 are required for voice students, transfer students are encouraged to complete these language requirements before coming to UCSC.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in music is satisfied by completing Music 101A and 101C (already a part of the core curriculum and required for the B.A. and B.M.).

HONORS

Honors in the major are conferred by vote of the music faculty. B.A. or B.M. students can be awarded honors for excellent work in individual areas, including coursework, senior project (thesis or recital), or a capstone course. Excellent work in any two of these areas normally results in honors in the major.

To be considered for highest honors in the major, B.A. students must complete a senior project (not required for the B.A. degree) and B.M. students must complete a capstone course (not required for the B.M. degree). Honors in all three areas—coursework, senior project, and capstone course—normally results in highest honors in the major.

APPLIED MUSIC (INDIVIDUAL INSTRUCTION)

Private lessons in various instruments are required as a part of the B.A., B.M. or minor in music. These lessons carry an additional fee and require an audition with the instructor. Concurrent enrollment in an appropriate ensemble is required for a stipulated number of quarters. Consult the Music Student Handbook for more details.

MINORS

MINOR IN MUSIC

The undergraduate minor program in Western Art Music offers a course of study leading to the minor in music. The goal of this program is to provide a focus for music activities, as well as a background in music theory, history, and performance. A student may obtain a minor in music by completion of the following courses:

- Music 11A Classical Music from the Middle Ages to the Present. (Formerly Introduction to Western Art Music.), or Music 11D Introduction to World Musics
- Music 30A, 30B and 30C, Theory, Literature, and Musicianship

- Six quarters of upper-division ensembles.
- Six quarters of Instrumental/Voice Lessons. (six lower-division credits, plus nine upper-division credits):
 - Three quarters of Music 63, Group Lessons: Hour, 2 credits (Fee: \$100 per quarter)
 - Three quarters of Music 161, Individual Lessons: One Hour, 3 credits (Fee: \$650 per quarter)
- One course from the following list:

Music 101A, 101B, 101C, History of Western Art Music
Music 180A, Music 180B, Music 180C, Music 180D,
Studies in World Musics

ELECTRONIC MUSIC

The electronic music minor focuses on the study of creating music using the tools of modern technology. It is designed to complement the music major or programs in other media by providing instruction in advanced skills of audio production, sound synthesis, and computer-assisted composition. A student may obtain a minor in electronic music by application and acceptance to the minor program and completing the following:

- One course from the following: Music 11A, Classical Music from the Middle Ages to the Present; Music 11B, Introduction to Jazz; Music 11C, Introduction to American Popular Music; or Music 11D, Introduction to World Music
- Music 15, Preparatory Musicianship
- Music 80C, History, Literature, and Technology of Electronic Music
- Music 123, Electronic Sound Synthesis
- Music 124, Intermediate Electronic Sound Synthesis
- Music 125, Advanced Electronic Sound Synthesis
- Two quarters of Music 167, Workshop in Electronic Music
- One of the following: Music 80L, 80M, or 80R (or a similar music course that has a technical focus as approved by the department), or Film 171A or Theater Arts 114
- One of the following: Physics 160; or Computer Science 5C, 5J, 5P, or 12A; or Electrical Engineering 70, 153, or 171

JAZZ

The jazz minor focuses on the study of the history, theory, and performance of jazz. In addition, students may be introduced to musical styles that have had

Music

profound influences on this uniquely American art form: folk and popular musics of Africa, Europe, and the United States and Western classical music. The jazz minor is limited to students who have sufficient performance proficiency to pass auditions for entry into the jazz ensembles. The required courses for the minor in jazz are the following:

- Music 11A, Classical Music from the Middle Ages to the Present
- Music 15, Preparatory Musicianship
- Music 75, Beginning Improvisational Theory and 175, Jazz Theory II
- Music 111B, Seminar in Jazz Analysis
- One of the following: Music 11C, 11D, 80J, or 80Q;
- Six quarters of ensembles, including at least three quarters of the jazz ensembles (Music 3, Large Jazz Ensemble and/or 164, Jazz Ensemble)
- Music 174, Intermediate Jazz Improvisation

Detailed information about the music majors and minors may be obtained from the Music Department web site and undergraduate adviser.

GRADUATE PROGRAMS

MASTER OF ARTS

The master of arts (M.A.) degree program in music has emphases in composition, musicology/ethnomusicology, or performance practice, and integrates studies in performance, composition/analysis, and research. In consultation with a faculty adviser, the student pursues a two-year course of studies culminating in a final project that combines an original composition, written thesis, or essay with a related public performance or lecture recital.

Requirements

A minimum of 60 course credits completed at UCSC is required for the degree. All M.A. students are required to complete:

- Music 200, Introduction to Research Methods
- Music 201, History of Music Theory from the Greeks through Rameau
- Music 202, Tonal and Post-tonal Analysis
- Music 252, Current Issues Colloquium during each quarter in residence (for students entering the program fall 2007 and thereafter).

Students with an emphasis in composition also complete:

- Music 219, Techniques in Composition

- Music 220, Graduate Seminar in Music Composition
- One course in the Music 203 Performance Practice series.

Students with an emphasis in musicology/ethnomusicology or performance practice also complete:

- Three courses from the Music 203 Performance Practice series (Music 206D, Music Perception and Cognition meets the requirement for one 203 course). It is possible in some cases to substitute a course from the Music 253 or 254 series for one 203 course.

The final project for the degree includes both performing and scholarly components, which vary according to the degree emphasis.

Students with a composition emphasis submit a thesis composition together with an essay that addresses historical, technical, and/or interpretive issues of the music (Music 299); and they complete a full-length recital (Music 298) of their compositional work.

Students with a musicology/ethnomusicology emphasis complete a thesis (Music 299) and a short performance or lecture-recital related to the thesis (Music 298).

Students with a performance practice emphasis complete a full-length recital (Music 298) and an accompanying short essay that addresses historical, technical, and/or interpretive aspects of the music performed in the recital. Students in this emphasis whose main area is conducting complete a full-length recital (Music 298) and one of the following: a shorter lecture-recital, a short analytical or contextual essay on a different topic, or a collaboration with a graduate student composer or faculty composer on a premiere public performance. Students are encouraged to create a program involving corollary studies such as computer studies, area cultural studies, linguistics, anthropology, theater arts, and visual arts.

Graduate students must take all courses for a letter grade with the exception of independent study courses (Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252), which may be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes each fall quarter, each incoming M.A. student is required to complete a three-hour diagnostic examination which is intended to identify areas in which supplementary coursework may be needed, in addition to the courses listed above.

DOCTOR OF MUSICAL ARTS

The doctor of musical arts (D.M.A.) degree program in music composition has tracks in computer-assisted composition and world music composition. The track in computer-assisted composition includes algorithmic techniques for the generation of musical materials and structures to be realized in the creation of instrumental,

Music

vocal, and digitally synthesized music. The track in world music composition addresses a variety of compositional approaches influenced by indigenous world musics, with a focus upon those musics taught by faculty composers, ethnomusicologists, and applied instructors. The D.M.A. program seeks to develop accomplished, active, and articulate composers who have a broad awareness of the diverse styles, cultural influences, media, venues, and technical means available to them in the 21st century.

Requirements

For students entering with the bachelor's degree, a minimum of 102 credits in coursework at UCSC will be required. All students must be in residence for a minimum of nine quarters. Students must enroll in a minimum of 10 credits each quarter until they advance to candidacy. After advancing to candidacy, students remaining in residence must take a minimum of one 5-credit course each quarter.

For students entering with a master's degree from another institution, a minimum of 72 credits in coursework at UCSC will be required. All students must be in residence for a minimum of six quarters. Students must enroll in a minimum of 10 credits each quarter until they advance to candidacy. After advancing to candidacy, students remaining in residence must take a minimum of one 5-credit course each quarter. D.M.A. students are expected to complete the degree within a maximum of six calendar years from entrance to the program (leaves of absence are not excluded from this count).

Required courses include:

- Music 200, Introduction to Research Methods
- Music 201, History of Music Theory from the Greeks through Rameau
- Music 202, Tonal and Post-tonal Analysis
- Music 219, Techniques in Composition
- Music 220, Graduate Seminar in Music Composition
- Music 252, Current Issues Colloquium (each quarter in residence)
- Five quarters of independent study—Music 297, 298, and 299.

Note: Students entering with a master's degree from another institution may petition to waive one or more of these courses by submitting documentation for equivalent courses completed elsewhere.

Students in the computer-assisted composition track complete:

- Music 206B, Computer-Assisted Composition
- One course in the Music 203 Performance Practice series

- Two quarters of Music 267, Workshop in Computer Music and Visualization, or another Music 206 course.

Students in the world music composition track complete:

- Music 206A, World Music Composition
- Music 203H, Area Studies in Performance Practice
- Music 203G, Concepts, Issues, and the Practice of Ethnomusicology; or another Music 206 course.

Graduate students must take all courses for a letter grade with the exception of independent study courses (Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252), which may be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes in fall quarter, each incoming D.M.A. student is required to complete a three-hour diagnostic examination which is intended to identify areas in which supplementary coursework may be needed, in addition to the courses listed above.

A D.M.A. student who entered the D.M.A. program with a bachelor's degree may apply for an M.A. degree, whether he/she is leaving the D.M.A. program or continuing toward completion of the D.M.A. degree, by fulfilling the following requirements:

- Completion of a minimum of five quarters at UCSC.
- Completion of a minimum of 35 graduate or upper-division course credits (including all courses required for the M.A. degree with an emphasis in composition).
- Successful completion of the qualifying recital (Music 298).

Pre-qualifying Reviews

Before the end of the first year of study, all D.M.A. students must present a half recital of their compositions from that year, and submit the scores and recital recording as a portfolio, which faculty will use to assess the student's progress in the program. Faculty may also consider the student's performance in Music 200, 201, and/or 202. In unusual cases, when progress has been minimal, faculty reserves the right to terminate a student's enrollment in the program. Typically, the half recital is satisfied by a combination of 1) participation in a concert of graduate-student compositions sponsored each April by Porter College and the Music Department, and 2) participation in a public reading of graduate-student final projects from Music 219 and 220.

The Qualifying Recital

At the end of their second year of study, all students admitted to the D.M.A. program must present a half-

Music

recital (35-40 minutes of music) representing their best work since entering the program. The D.M.A. qualifying recital will be evaluated by the student's primary adviser and by a second faculty member (generally a second composer) selected by the student in consultation with the primary adviser.

Dissertation Prospectus

The dissertation prospectus must be submitted 12 months before the scheduled qualifying examination. The prospectus must include a proposal describing the scope and nature of the dissertation composition and the accompanying essay. In addition to defining the parameters of the dissertation itself, the dissertation prospectus will suggest to the student's qualifying examination committee three areas of study to be emphasized in the student's qualifying examination. The three topics must be designed to prepare the student for an informed and successful completion of the dissertation project.

Qualifying Examination

Advancement to candidacy is contingent upon the passing of a written examination and an oral examination normally administered at the end of year three for students entering with a bachelor's degree, and the end of year two or the beginning of year three for students entering with a master's degree from another institution. For the written portion of the examination, the qualifying examination committee provides questions on the three topics assigned as areas of emphasis. The oral examination is administered by the student's qualifying examination committee and may concern any aspect of the assigned topics with an emphasis on those issues addressed in the written portion of the examination. Advancement to candidacy will be granted after successful completion of the written and oral examinations, acceptance of the dissertation reading committee form, satisfactory completion of coursework and the foreign language requirement, and the payment of the necessary fees.

Dissertation

D.M.A. students must complete a dissertation consisting of a substantial musical composition accompanied by an essay. One to two years of work beyond the qualifying examinations should be sufficient for the completion of the dissertation, except in cases where extended fieldwork is required.

Final Examination

The final examination will be a public oral defense of the dissertation. After an oral presentation by the candidate, the candidate will be questioned by the dissertation committee.

DOCTOR OF PHILOSOPHY IN MUSIC

The doctor of philosophy (Ph.D.) degree in music has an emphasis in cross-cultural studies, and aims to provide doctoral students with an integrative framework for

music scholarship, emphasizing the ways in which musicology and ethnomusicology interact and complement one another.

In addition to cultural approaches to musical style, the program also encourages the integration of scholarly research with musical performance, emphasizing the manner in which performance serves both rhetorical and symbolic ends within various cultural settings. To this end the concept of "performance practice" plays a significant role in this program, given that the concept of historically or culturally informed performance is applicable to music from the earliest times to the present day in all geographical and cultural regions, and can encompass research activities as diverse as fieldwork, historical editing, and recording, as well as publishing of books and articles on the traditions of composition and performance.

Requirements

Students entering the Ph.D. program with a bachelor's degree are required to complete the following courses:

- Music 200, Introduction to Research Methods
- Music 201, History of Music Theory from the Greeks through Rameau
- Music 202, Tonal and Post-tonal Analysis
- Three courses from the Music 203 Performance Practice series (Music 206D, Music Perception and Cognition, or a Music 254 course may each substitute for one 203 course)
- Three courses from the Music 253 series
- Three courses from the Music 254 series
- Music 252, Current Issues Colloquium (during each quarter of residence)
- Music 299, Thesis Research

Students entering the Ph.D. program with a master's degree are required to complete following courses:

- Three courses from the Music 253 series
- Three courses from the Music 254 series
- Music 252, Current Issues Colloquium (during each quarter of residence)
- Music 299, Thesis Research

All students in the Ph.D. program, whether or not they are entering the program with a master's degree, should plan to take at least two, and preferably three of the following courses in addition to the regular requirements: Music 201, Music 202, Music 203H, or Anthropology 208A. The decision about which of these courses to take should be made in consultation with the student's adviser and the chair of the graduate committee.

Graduate students must take all courses for a letter grade with the exception of independent study courses

Music

(Music 261, 265, 295, 297, 298, and 299) and the colloquium course (Music 252), which may be taken with the Satisfactory/Unsatisfactory grade option.

Prior to the start of classes in fall quarter, each incoming Ph.D. student is required to complete a three-hour diagnostic examination that is intended to identify areas in which supplementary course work may be needed.

Ph.D. students entering the program with a bachelor's degree are required to submit a research paper by the beginning of the fourth quarter in residence, which will be revised that quarter under the supervision of the student's faculty adviser, and will be evaluated at the end of the quarter by the adviser and an additional faculty member. Students whose paper is assessed as unsatisfactory will not be allowed to continue in the Ph.D. program.

Students may devise a program of study that includes additional music courses, and courses from other disciplines suited to their special areas of concentration, in addition to the required courses.

Students who entered the Ph.D. program with a bachelor's degree may apply for the M.A. degree after completion of a minimum of five quarters in residence, evidence of the completion of the equivalent of one year of a foreign language at UCSC, the fourth-quarter research paper, and the following courses: Music 200, 201, 202, one course from the Music 203 series, Music 252 each quarter in residence, one course each from the Music 253 and 254 seminar series, and Music 297.

Pre-qualifying Reviews

At the end of the first year of study, all students accepted into the Ph.D. program will submit a brief report on work completed during that year. This report will inform a consideration by the music faculty of the student's status in the graduate program. Faculty will offer comments and suggestions to be communicated to the student either directly or through the student's adviser. If progress is minimal, faculty reserves the right to terminate a student's enrollment in the program.

Qualifying Examinations

Advancement to candidacy is contingent upon passing both written and oral examinations. The written qualifying examination will test knowledge absorbed through the two years of coursework as well as material in the student's field of concentration. The oral examination will focus on the previously completed written examinations well as the student's developed expertise in her/his chosen specialization. Students must be registered in the quarter in which they take their qualifying examination.

The examinations will normally be administered at the end of year 3 for students entering with a bachelor's degree, and at the end of year 2 for students entering with a master's degree.

Advancement to candidacy will be granted after successful completion of the written and oral examinations, acceptance of the dissertation reading committee form, satisfactory completion of coursework and the foreign-language requirement, and the payment of the necessary fees.

Dissertation

To satisfy requirements for the degree, a student must complete a dissertation and present a related formal lecture or lecture-recital. The student will develop a dissertation prospectus, which will be due six months after advancement to candidacy. Guidelines for the format and content of the prospectus can be found on the Music Department web site. The dissertation must embody substantial and original scholarly work based on a clearly distinguishable contemporary or historical music-cultural tradition, in any music-culture(s) of the world in which the UCSC program offers expertise. The public lecture or performance must demonstrate the student's grasp of the pertinent music-cultural performance tradition or music-cultural and/or music-historical concepts.

Final Examination

The final examination will be an oral defense of the dissertation open to the university faculty.

Successful completion of this examination will be determined by a majority vote of the dissertation reading committee.

Additional information about the program, including application and admission, is available from the Division of Graduate Studies and on the department web site: <http://music.ucsc.edu/>.

FOREIGN LANGUAGE REQUIREMENT (FOR ALL GRADUATE PROGRAMS)

For M.A. and D.M.A. students, current skill in reading and comprehension of a relevant foreign language must be demonstrated by:

1. Satisfactory completion of level 3 of a foreign language at UCSC, preferably in the first year of the program; or
2. Submission of an official transcript documenting successful completion of one year of university-level foreign language at another institution (equivalent to level 3 at UCSC); or
3. Passing a foreign language proficiency examination administered by the Music Department in French, Spanish, German, Italian, or Russian. (This test requires translation of a passage of at least 600 words with no resources other than a dictionary to be completed in 1.5 hours.)
4. For languages other than French, Spanish, German, Italian, or Russian, the department

Music

may accept completion of an online course as fulfilling the requirement if the student can prove equivalency to a level 3 course at UCSC. The graduate committee will determine whether or not to accept any such course.

With approval of the primary adviser, students whose emphasis is algorithmic composition may complete three quarters or one year of university-level instruction in computer programming in lieu of the foreign language requirement.

Ph.D. students are required to demonstrate proficiency in a foreign language according to the same procedures

as the M.A. or D.M.A. In addition, Ph.D. students are required during their first year of enrollment to demonstrate proficiency in a second foreign language relevant to their area of interest.

Knowledge of languages not offered at UCSC must be demonstrated as determined by the Music Department's graduate committee. Graduate Division policy states that the language requirement must be completed prior to taking the qualifying examination.

MUSIC FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Amy C. Beal

American music, 20th-century music, experimental and improvisatory performance practices, biography, women composers, piano performance, contemporary music ensembles (including percussion ensemble and gamelan), postwar and Cold War culture, German new music festivals and radio stations, trans-Atlantic cultural exchange

Linda C. Burman-Hall, Emerita, Research Professor

David H. Cope, Emeritus

Sherwood Dudley, Emeritus

Karlton E. Hester

Premeditated, electroacoustic, and spontaneous composition; flutes, saxophones, and interdisciplinary performance; improvisational and Afrocentric music theory, analysis and history. Artistic Director, Global African Music and Arts Festival/Symposium; UCSC/ISIM International Improvisation Festival/Conference.

Edward F. Houghton, Emeritus

David Evan Jones

Instrumental and electroacoustic composition, world music composition, chamber opera, language and music, timbre and orchestration

Hi Kyung Kim

Composition, theory, contemporary music, analysis, orchestration, Korean music, world music composition, Founder and Artistic Director, Pacific Rim Music Festival

Anatole Leikin

Classical and Romantic music history, theory, and performance practices; piano and fortepiano; Russian music

Leta E. Miller, Emerita

Gordon Mumma, Emeritus

Paul Nauert, Emeritus

Nicole A. Paiement, Emerita

Larry Polansky

Composition (instrumental and electronic), computer-aided composition and theoretical practices, American music, experimental intonation and tuning, contemporary performance practices in various musics, guitar music, editing and publishing, interdisciplinary collaboration, music and mathematics, cognition, evolution, and language

John M. Schechter, Emeritus

ASSOCIATE PROFESSOR

Benjamin L. Carson

Composition, music perception, empirical musicology, Arnold Schoenberg, popular culture, improvisation

Tanya H. Merchant

Ethnomusicology, musics of Central Asia, the former Soviet Union, and the Balkans, music and gender, identity, nationalism, globalization, and the institutionalization of music

Dard Neuman, Kamil and Talat Hasan Endowed Chair in Classical Indian Music

Ethnomusicology; Hindustani music; colonialism, nationalism, technology and performance; sitar

Nina Treadwell

Gender studies, women and music, queer theory, performativity, critical theory, musicology, renaissance and baroque performance practices, 16th- and 17th-century Italian theatrical music, early plucked-strings (theorbo, renaissance and baroque guitar, renaissance lute)

ASSISTANT PROFESSOR

David Dunn

Sound art and design, music and the environment, acoustic ecology, compositional linguistics, live electroacoustic performance, composition, bio-acoustic research, history of electronic music practice, art and science, audio engineering and location recording

Nicol C. Hammond

South African music, queer studies, popular music studies, ethnomusicology, voice, nationalism, postcolonialism, gender and sexuality, queer studies,

Music

world music, music of sub-Saharan Africa, music of the Global South, fan studies

Bruce Kiesling
Conducting

LECTURER

Nathaniel A. Berman
Director, Concert Choir and Wind Ensemble

Kyle Bruckmann
Oboe

Paul Contos
Saxophone

William D. Coulter
Classical guitar

Maria V. Ezerova
Piano

Giacomo Fiore
Musicology

Roman Fukshanskyy
Clarinet

Barry L. Green
String bass

Charles Hamilton
Large Jazz Ensemble

Thomas Horning
Trombone, euphonium and tuba

Erin Irvine
Bassoon

Roy T. Malan
Violin, viola

Christopher Mallett
Guitar

George E. Marsh
Drumset, improvisation, rhythm theory, Inner Drumming, game theory, polyrhythms, Deep Listening

Michael McGushin
Chamber Singers

Stan E. Poplin
String bass, jazz ensembles

Christopher Pratorius
Lecturer

Richard Roper
Trumpet

Vanessa Ruotolo
Cello

Emily Sinclair
Voice

Brian J. Staufienbiel
UCSC Opera Program Director

Undang Sumarna
West Javanese gamelan

Avi Tchamni
Theory, ethnomusicology

Susan C. Vollmer
Horn

Zachary Watkins
Electronic music studio

Sheila Willey Hannon
Voice

William K. Winant
Orchestral percussion, percussion ensemble

Chia-Lin Yang
Piano

VISITING PROFESSOR

Aashish Khan
North Indian classical music

MUSIC COURSES

LOWER-DIVISION COURSES

1A. Women's Chorale (2 credits).

*
Study of vocal and choral techniques in the context of ensemble rehearsals, often culminating in public performance. Repertoire to include varied works for treble choir, both a cappella and with instrumental accompaniment. Familiarity with basic music notation recommended. Some

additional rehearsal time, both individually and with the group is required. Students are billed a materials fee. Admission by audition with conductor prior to first class meeting. May be repeated for credit. THE STAFF

1C. University Concert Choir (2 credits). F,W,S

A study of selected works for mixed chorus, with emphasis on masterworks for chorus and orchestra, culminating in one or more public concerts. Familiarity

with basic music notation recommended. Admission by audition with conductor prior to first class meeting. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-E.) N. BERMAN

2. University Orchestra (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Admission by audition with conductor prior to

Music

first class meeting. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-E.) B. KIESLING

3. Large Jazz Ensemble (2 credits). F,W,S

Instruction in performance in large jazz ensembles with written arrangements. Prepares a specific repertory for public performance. Admission by audition with instructor prior to first class meeting. Students are billed a materials fee. Enrollment limited to 25. May be repeated for credit. C. HAMILTON

4A. Latin American Ensemble: "Voces" (2 credits). *

Instruction in diverse musical traditions, and their culturally-grounded performance contexts, of Native American, Ibero-American, and African American music cultures of Latin America, including textured music in Spanish and Quechua or other regional languages. The class forms an ensemble that prepares varying cultural and national repertoires for public performance. Some Spanish language ability is recommended. Attend first class meeting. Enrollment limited to 25. May be repeated for credit. THE STAFF

4B. Latin American Ensemble: "Taki Ñan" (2 credits). *

Development of Latin American, Native American, Ibero-American, African American, and/or NUEVA CANCIÓN (New Song) repertoire in a small ensemble setting. Three quarters of course 4A or previous enrollment in course 4B required prior to enrolling in this course. Admission by audition with instructor at first class meeting. Enrollment limited to 10. May be repeated for credit. THE STAFF

5A. West Javanese Gamelan Ensemble: Beginning (2 credits). F,W,S

Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. May be repeated for credit.

(General Education Code(s): PR-C.) U. SUMARNA

5B. West Javanese Gamelan Ensemble: Intermediate (2 credits). F,W,S

Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. May be repeated for credit. (General Education Code(s): PR-C.) U. SUMARNA

5C. West Javanese Gamelan Ensemble: Advanced (2 credits). F,W,S

Instruction in practice and performance of gamelan music from Java or Sunda. Preparation of several works for public presentation. Attend first class meeting. May be repeated for credit. (General Education Code(s): PR-C.) U. SUMARNA

6. Classical Guitar Ensemble (2 credits). *

Study of selected repertoire and instruction in performance for classical guitar ensemble. Ensembles for guitar and other instruments will prepare works for public performances both on and off campus. All students enrolled in individual guitar lessons are expected to enroll. Students of other instruments or voice may also audition. Some additional rehearsal time, individually and with the group, is required. Admission by audition with instructor prior to first class meeting. May be repeated for credit. W. COULTER

7. Music, Mind, Evolution, Language. *

An interdisciplinary examination of various topics and issues in music, featuring an array of guest speakers. Part of the spring quarter Arts Division Dean's Lecture Series. May be repeated for credit. (General Education Code(s): IM.) L. POLANSKY

8A. Beginning Balinese Gamelan (2 credits). F,W,S

Instruction in Balinese gamelan. Utilizes pitched percussion instruments to learn highly ornate and complex pieces through rote

learning; students are not required to read music. Focuses on traditional repertoire and basic gamelan techniques for public performance. Enrollment by permission of the instructor at the first class meeting. (Formerly Balinese Gamelan Ensemble.) Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-C.) B. BAUMBUSCH

8B. Advanced Balinese Gamelan (2 credits). F,W,S

Instruction in Balinese gamelan. Utilizes pitched percussion instruments to learn highly ornate and complex pieces through rote learning; students are not required to read music. Focuses on advanced traditional and contemporary repertoire for public performance. Prerequisite(s): course 8A. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-C.) B. BAUMBUSCH

9. Wind Ensemble (2 credits). F,W,S

A study of selected advanced-level works for wind ensemble, culminating in one or more public concerts. Admission by audition with conductor prior to first class meeting. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-C.) N. BERMAN

10. Eurasian Ensemble (2 credits). F,W

Performing ensemble focusing on the vernacular and art musics of the Eurasian continent, with emphasis on Central Asia. Admission by instructor determination at first class meeting. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-C.) T. MERCHANT

11A. Classical Music from the Middle Ages to the Present. F

A study of significant works of classical music from Gregorian chant to the present day in relation to the historical periods which they represent. Emphasis upon the listening experience and awareness of musical style and structure. Illustrated lectures and directed

Music

listening. (General Education Code(s): IM.) A. LEIKIN, N. TREADWELL, L. MILLER

11B. Introduction to Jazz. W

Designed to provide students with thorough and comprehensive background in history and roots of jazz as a musical style from its African roots to the present. Essential jazz styles and traditions are discussed through lectures, required listening, readings, lecture demonstrations, and film presentations. K. HESTER

11C. Popular Music in the United States. F

U.S.-based popular music from the 1850s through the 2010s. Emphasizes: narratives of race, class, and immigration in jazz, country, and blues genres; television and the cultivation of teen audiences; diverse late-20th Century cultural revolutions; and the contemporary role of social media. (Formerly Introduction to American Popular Music.) (General Education Code(s): ER.) B. CARSON

11D. Introduction to World Music. W

Covers topics reflecting distinctive features of selected world music cultures. Introduces content, scope, and method of ethnomusicology. Focuses on understanding the musical styles, performance practices, and cultural functions of these musical traditions. Incorporates live class performance of selected music. (General Education Code(s): CC.) T. MERCHANT

15. Preparatory Musicianship. W,S

Basic studies in musicianship related to Western European notation and literature. Students with prior training in music notation develop literacy in basic tonal melody and harmony. Skills include dictation and sight-reading. Simple composition and analysis exercises accompany the training. Enrollment by placement examination and permission of instructor. May be repeated for credit. N. HAMMOND, D. JONES

30A. Theory, Literature, and Musicianship. F

Integrated musicianship, theory, and analysis. Species counterpoint and fundamentals of tonal harmony. Analysis of literature from the Middle Ages and Renaissance. Ear-training, taught in smaller sections, emphasizes recognition of triad and dominant-seventh inversions, dictation of diatonic melodies, and aural analysis of simple diatonic interval and chord progressions. Most of the ear-training materials consist of homophonic and polyphonic examples from music literature performed live in class. Prerequisite: admission by core curriculum placement examination. Enrollment limited to 60. A. LEIKIN

30B. Theory, Literature, and Musicianship. W

Integrated musicianship, theory, and analysis. Diatonic harmony and fundamentals of chromatic harmony and musical form, with an emphasis on early 18th-century styles. Ear-training, taught in smaller sections, emphasizes recognition of triad and seventh-chord qualities and inversions, dictation of moderately complex melodies and multi-voice chorales, and aural analysis of chord progressions including secondary functions. Most of the ear-training materials consist of homophonic and polyphonic examples from music literature performed live in class. Prerequisite(s): course 30A; instructor determination at first class meeting. Enrollment limited to 60. A. LEIKIN

30C. Theory, Literature, and Musicianship. S

Integrated musicianship, theory, and analysis. Chromatic harmony and large forms, with emphasis on late 18th- and early 19th-century styles. Ear-training, taught in smaller sections, emphasizes melodic and multi-voice dictation, as well as aural analysis of chord progressions, with materials including digressions, modulations, and advanced chromatic idioms. Most of the ear-training materials consist of homophonic and polyphonic examples from music literature performed live in class.

Prerequisite(s): course 30B; instructor determination at first class meeting. Enrollment limited to 60. A. LEIKIN

42. Student-Directed Seminar. * Seminars taught by upper-division students under faculty supervision. (See course 192.) Students submit petition to sponsoring agency. THE STAFF

51. Vocal Repertoire Class (2 credits). F,W,S

The study and performance of vocal repertoire from 1400 to the present, including solo song, oratorio, opera, ensemble music. Emphasis is given to the development of effective performance skills, culminating in public performance. Attend first class meeting; concurrent enrollment in individual voice lessons with instructor of this course is required. Enrollment limited to 20. May be repeated for credit. E. SINCLAIR, S. WILLEY

54. North Indian Music Workshop (2 credits). S

A course covering the music of North India taught using the oral traditions of Indian music. For beginners as well as more experienced students, this course is well suited for instrumentalists and vocalists. Interview; instructor determination at first class meeting. May be repeated for credit. A. KHAN

60. Fundamental Keyboard Skills (2 credits). F,W,S

Elementary instruction in piano technique, including group and individual performance experience. A minimum of six hours per week of individual practice is required. Curriculum is coordinated with keyboard requirements of course 30A. Concurrent enrollment in course 30A is required. Students are billed a course fee. Prerequisite(s): Instructor determination at first class meeting. (Formerly Group Instruction in Piano.) Enrollment limited to 8. May be repeated for credit. F. LANAM

61. Individual Lessons: Half Hour (2 credits). F,W,S

One-half hour of individual instrumental or vocal instruction.

Music

Repertory, technique, and performance practice. A minimum of six hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. Enrollment priority given to music majors and minors. May be repeated for credit. THE STAFF

62. Individual Lessons: One Hour (3 credits). F,W,S

One hour of individual instrumental or vocal instruction. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. Enrollment priority given to music majors and minors. May be repeated for credit. THE STAFF

63. Group Instrumental and Vocal Lessons (2 credits). *

Elementary group instruction in instrumental (excluding piano) or vocal techniques, including group and individual performance experience. A minimum of six hours per week of individual practice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. Enrollment limited to 6. May be repeated for credit. THE STAFF

75. Beginning Improvisational Theory. *

Studies in the modes, scales, chord alternations and extensions, chord voicings, chord progressions, and forms that underlie jazz improvisation, composition, and arranging in a variety of styles. Enrollment limited to 30. May be repeated for credit. K. HESTER

80A. Music of the Silk Road. *

Exploration of the commonalities between music cultures found along ancient trade routes through Asia. (General Education Code(s): CC.) T. MERCHANT

80C. History, Literature, and Technology of Electronic Music. F

This survey of electronic music from previous centuries to the present studies the works and aesthetics of important composers, acoustics, musical perception, the effects of technological innovation on cultural evolution, and the development of synthesizers and computer music. (General Education Code(s): PE-T.) M. HEYING

80E. Race and American Music. *

Survey of American music and its dynamic formation through cultural constructions of racial difference. Students hear music as contentious signals of identity, power, and transgressions, contextualized by wide-ranging testimony on racial difference, ethnicity, gender, sexuality, and musical practice. (General Education Code(s): ER.) B. CARSON

80F. Music in Latin American Culture: Regional Traditions. *

In-depth study of select music cultures of Mexico, Central America, and Caribbean, Brazil, Chile, Argentina, Colombia, and Peru. Characteristic regional genres, ensembles, instruments, and music rituals. Case studies by ethnomusicologists with expertise in specific regional musics. Also Latin American Nueva Canción, women's musics, and overarching themes in Latin American music, as a whole. Offered on a rotational basis with other non-Western courses in the 80 series. R. RODRIGUEZ

80G. American Musical Theater. *

Surveys American musicals from operetta through rock musicals with a historical approach focusing on selected examples from the literature. Music reading or musical experience helpful but not required. Offered in alternate academic years. (General Education Code(s): IM.) THE STAFF

80H. The Hollywood Musical. *

Introductory study of the Hollywood music film, exploring the theory of film sound, the musical genre, and representative works from the 1920s to the present.

Students expected to view about two films each week, read assigned section of texts, and contribute to class discussions. THE STAFF

80I. Music of Modern Israel. *

Historical, musicological, and anthropological study of the many (and often conflicting) worlds brought together by Israeli popular and art music: Jewish and Arabic traditions, Western ideals, and modern beats. Enrollment limited to 40. (General Education Code(s): CC.) A. TCHAMNI

80J. American Folk Music. *

Surveys American folk music, both instrumental and vocal, by region and period. Approach is primarily through listening. Previous musical experience helpful, but not required. Offered in alternate academic years. THE STAFF

80K. Sound in Art, Science, and the Environment. *

Study the role of sound in artistic creation and scientific research related to the environment. Topics include: environmental sound monitoring, increasing environmental awareness, social activism, discovery of sound phenomena, knowledge of audio tools and techniques, sound and environmental problem-solving. (General Education Code(s): PE-E.) D. DUNN

80L. Artificial Intelligence and Music. S

An introduction to basic concepts in music and artificial intelligence, and to algorithmic composition (composition by a set of explicit instructions, often using the computer). Other topics include basic introductions to related concepts in linguistics, mathematics, neural nets, pattern matching, genetic algorithms, fuzzy logic, and interactive systems. Previous experience in one or more of these topics is helpful but not required. Students produce a project based on one of the models presented in class. Offered in alternate academic years. (General Education Code(s): MF.) THE STAFF

80M. Film Music. *

A survey of film music including a

Music

discussion of current trends and film composers. Techniques and styles of film music are explored through lectures, required listenings, readings, and viewing of relevant films. A musical background, including the ability to read music, is helpful but not necessary. Offered in alternate academic years. (General Education Code(s): IM.) N. TREADWELL

80N. Music of the Grateful Dead. W

In-depth exploration of the music of the Grateful Dead. Contextual study of the sociology and history of the late 1960s psychedelic movement supplies background for study of the music as the band evolved through time. Offered in alternate academic years. (General Education Code(s): IM.) THE STAFF

80O. Music, Politics, and Protest. W

Examination of relationship between music, politics, and protest in the U.S. in the 20th century, with focus on how music commented upon and reflected different eras in American cultural and political life. (General Education Code(s): IM.) D. NEUMAN

80P. History of Jewish Music. *

Survey of the diverse and rich musical traditions of Jewish music in the diaspora from biblical times to the present. Examines the historical, social, and anthropological aspects of the different communities from sacred music through art and popular songs. Enrollment limited to 40. (General Education Code(s): CC.) A. TCHAMNI

80Q. A Survey of African Music. S

Traces the various stylistic musical areas throughout the African continent and explores the development of traditional African music from antiquity into the 20th century. Offered in alternate academic years. (General Education Code(s): CC.) K. HESTER

80R. Music and the World Wide Web. *

A survey of musical applications of the World Wide Web and the technologies they employ: tools for

musical research, playback, composition, performance, and publishing. Historical perspectives and artistic ethics also discussed. Students prepare a creative project using software tools, techniques, sound sources available on the web, and learn how to publish the results on the web. Enrollment limited to 44. Offered in alternate academic years. THE STAFF

80S. Women in Music. *

An exploration of the sociological position of women as composers and performers in Western and non-Western musics, with a focus on both ethnographic and historical sources. (Also offered as Feminist Studies 80S. Students cannot receive credit for both courses.) Offered in alternate academic years. (General Education Code(s): CC.) T. MERCHANT

80T. Mizrach: Jewish Music in the Lands of Islam. *

A survey of the musical traditions of the Jews of North Africa and the Middle East. Based on the "Maqamat," the Arabic musical modes, Jewish music flourished under Islamic rule, encompassing the fields of sacred, popular, and art music. (General Education Code(s): CC.) A. TCHAMNI

80U. Physics and Psychophysics of Music. W

Fundamental theory of vibration, sound waves, sound propagation, diffraction, and interference. Free, coupled, and driven oscillations. Resonance phenomena and modes of oscillation. Fourier's theorem. Anatomy and psychophysics of the ear. Musical scales and intervals. Nature of plucked and bowed strings; guitar, violin, piano. Woodwind and brass instruments. Architectural acoustics. High school algebra and basic knowledge of musical notation recommended. (Also offered as Physics 80U. Students cannot receive credit for both courses.) (General Education Code(s): MF.) C. GASKELL

80V. The Music of the Beatles. S

The most significant group in the history of popular music, the Beatles spanned the gamut of styles from hard-edged R & B to

sophisticated art-rock. This course explores their work in detail, in its own terms, and in the historical/cultural/technological contexts. Students cannot receive credit for both this course and course 180V in the same quarter. Course 11C is recommended but not required as preparation. (General Education Code(s): IM.) G. FIORE

80W. Music Business. *

Explores the many facets of the music industry: history, technology, economics, sociology, and legislation. Provides both a broad understanding of the industry and a pragmatic survey of available career paths. Students cannot receive credit for both this course and course 180W in the same quarter. Offered in alternate academic years. THE STAFF

80X. Music of India. S

A survey course in Hindustani (North Indian) and Karnatak (South Indian) music covering the Raga (modal system) and Tala (metric system) as they have developed in the two traditions. Consideration is given to the historical development of the music, from Vedic chanting to the modern Raga system; social functions of the music throughout history; and instrumental and vocal forms with an emphasis on listening. (General Education Code(s): CC.) I. KAUR

80Y. Music, Anti-Semitism, and the Holocaust. *

The musical legacy of the Holocaust: music and anti-Semitism in the 19th century; morality, collaboration, and composing in the Third Reich; music in the ghettos and concentration camps; impact on post-war music; second-generation composers' trauma; music in Holocaust films. Enrollment limited to 85. (General Education Code(s): IM.) A. TCHAMNI

80Z. Laptop Music. S

Basic digital audio editing and mixing; related concepts in the physics of sound, psychoacoustics, and the digital representation and computer control of audio. Musical notation of musical pulse, meter, and rhythm, and sonic realization

Music

via MIDI (musical instruction digital interface). Using their own computers, students complete projects involving recording and spectral analysis, creative editing and mixing of existing recordings, composition of polyphonic drum rhythms, and constructing a collaborative sonic environment. Enrollment limited to 30. (General Education Code(s): PR-C.) D. JONES

81C. Global Popular Music. F

This cultural study of global popular musics explores musical sounds, practices, and discourse via an examination of the development of the category "world music." It explores how music and mass media engage broader issues around globalization, ethnic, national, and transnational identities; popular resistance; censorship; and cultural hegemony. Enrollment limited to 385. (General Education Code(s): ER.) N. HAMMOND, T. MERCHANT

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Admission requires approval of department. THE STAFF

99. Tutorial. F,W,S

A program of directed study arranged with a department faculty member. Students submit petition to sponsoring agency. THE STAFF

99F. Tutorial (2 credits). F,W,S

A program of directed study arranged with a department faculty member. Class time is proportionally less than a five-credit course. Students submit petition to sponsoring agency. THE STAFF

UPPER-DIVISION COURSES

101A. History of Western Art Music. W

First quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Medieval, Renaissance, Baroque. Prerequisite(s): course 30A and

satisfaction of the Entry Level Writing and Composition requirements. N. TREADWELL, L. MILLER

101B. History of Western Art Music. S

Second quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Baroque, Classical, Romantic. Prerequisite(s): course 30B. A. BEAL, A. LEIKIN

101C. History of Western Art Music. F

Third quarter of a three-quarter chronological study of Western art music. Coordinated lectures, readings, listening, and analysis of representative works: Romantic, 20th Century. Prerequisite(s): course 30C and satisfaction of the Entry Level Writing and Composition requirements. A. BEAL

102. University Orchestra (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Admission by audition with conductor prior to first class meeting. Students are billed a materials fee. Enrollment restricted to juniors and seniors. May be repeated for credit. B. KIESLING

103. University Concert Choir (2 credits). F,W,S

A study of selected works for orchestra, culminating in one or more public concerts. Prerequisite(s): admission by audition with conductor prior to first class meeting. Students are billed a materials fee. May be repeated for credit. N. BERMAN

105. Special Topics in History. THE STAFF

105A. Music of the United States. *

Traces major developments in the history of American music since the Revolutionary Era, focusing on what makes music in the United States unique. Material drawn from classical, popular, religious, jazz, and avant-garde traditions. Prerequisite(s): course 101A, 101B,

or 101C, or by permission of the instructor. Enrollment restricted to juniors and seniors. Enrollment limited to 35. A. BEAL, L. MILLER

105E. Early Keyboard Music. *

Survey of four centuries of early keyboard music, including representative genres, instruments, composers, and compositions from the late-Gothic to the Classical period. Harpsichord, virginal, organ and fortepiano works studied through scores, recordings, and live performance. Social context, instrument tuning and representative performance practices will coordinate each unit. Prerequisite(s): course 101A or 101B or 101C. Enrollment restricted to junior and senior music majors. THE STAFF

105I. Improvisation and Collaborative Practices in the 20th Century. *

Study of music repertoires and performance practices based on improvisation and collaborative approaches to real-time composition in the areas of jazz and other new music. Prerequisite(s): courses 30A, 30B, and 30C, and at least one course from the 101 series. Enrollment restricted to music majors. Enrollment limited to 40. A. BEAL, K. HESTER

105M. Solo Song: from Monophony to Monody. *

Traces the changing landscape of the secular solo song from the earliest notated examples of the troubadours through the explosion of monody in print at the beginning of the 17th century. Prerequisite(s): course 30A and 101A. Enrollment is restricted to music majors. Enrollment limited to 30. N. TREADWELL

105O. Opera from Peri to Pergolesi. *

Traces the development of opera from its origins in the late 16th century through the works of the early 18th century. Explores all aspects of this multimedia genre, with significant research and writing components. Prerequisite(s): courses 30C and 101A, or by permission of the instructor. N. TREADWELL

Music

105Q. The String Quartet from Haydn to Shostakovich. W

Traces the development of the string quartet from its origins in the mid-18th Century through the works of the mid-late 20th Century. Emphasis is on listening and analysis with significant research and writing component. Prerequisite(s): course 30C and course 101B, or by permission of instructor. Enrollment limited to 35. L. MILLER

111B. Seminar in Jazz Analysis. *

Analytic exploration of the evolution of "jazz" in America. The process involves independent listening, analysis, transcription, weekly seminar discussions, and oral presentation to students in course 11B. Prerequisite(s): course 30B and course 11B. Enrollment limited to 20. K. HESTER

120. Seminar in Music Composition. W,S

Instruction in individual composition offered in the context of a group; composition in traditional large and small forms. Counts as one of two choices for a capstone course. Prerequisite(s): course 30C. Enrollment limited to 20. D. JONES, D. DUNN, L. POLANSKY, H. KIM

121. Orchestration. F

A study of the nature of each instrument of the orchestra. Scoring for various small instrumental combinations, culminating in a transcription for full orchestra. (Formerly course 130.) Prerequisite(s): course 30C. Enrollment limited to 20. H. KIM

122. Conducting (2 credits). W

The development of basic conducting techniques, including understanding and demonstration of the conductor's posture, best practices of dynamics, left hand usage, mixed meter, and breath. Prerequisite(s): course 130. Enrollment is restricted to sophomores, juniors, and seniors. Enrollment limited to 25. B. KIESLING

123. Electronic Sound Synthesis. W

Introduction to electronic music

studio techniques, relevant electroacoustical studies, and procedures of electronic music composition. Practical experience in the UCSC electronic music studio with an analog synthesizer; mixing, equalization, multitrack recording equipment, and other sound processing. Application form available at department office during last two weeks of the previous quarter. Preference given to music majors, students in the film/video major, and those with substantial musical experience. Prerequisite(s): instructor determination via application; course 80C or course 30A placement. Enrollment limited to 25. D. KANT

124. Intermediate Electronic Sound Synthesis. S

Composition with the use of small computers in the electronic music studio. Techniques covered include hybrid synthesis, digital synthesis, and MIDI-controlled systems. No programming is involved, but basic computer literacy is helpful. Prerequisite(s): course 123. Enrollment limited to 25. D. KANT

125. Advanced Electronic Sound Synthesis. F

Continuing study in the electronic music studio, with concentration on compositional development. Includes advanced applications of skills developed in courses 123 and 124, expansion of background knowledge and relevant electroacoustical studies. Prerequisite(s): course 124. Enrollment limited to 25. D. KANT

130. Harmony and Form in 19th-Century and Early 20th-Century Music. F

Analysis, theory, musicianship, and aural skills associated with advanced tonal music. Study of chromaticism, larger forms, and other features of 19th-Century and early 20th-Century music. Prerequisite(s): course 30C and Piano Proficiency Exam. Enrollment limited to 20. (General Education Code(s): MF.) C. PRATORIOUS, D. JONES, B. CARSON

150. Special Topics in Theory. THE STAFF

150C. Special Topics in Music Theory: Tonal Counterpoint. *

Tonal counterpoint modeled on the music of J.S. Bach. Imitative and non-imitative forms including binary dance, invention, canon, and fugue. Discussion and analytical application of generalized intervallic and harmonic models. Development of related keyboard, singing, and aural skills, including dictation in two and three voices. Prerequisite(s): course 130. (General Education Code(s): IM.) D. JONES, B. CARSON

150I. Special Topics in Music Theory: Hindustani Music. *

In-depth introduction into the music, culture, and theory of Hindustani music. Prerequisite(s): course 130. Enrollment restricted to junior and senior music majors. (General Education Code(s): CC.) D. NEUMAN

150P. Special Topics in Music Theory: 20th-Century Popular Song. *

Analysis and composition in two 20th-century popular song genres. Part one (of two) is drawn from 1930s swing or Tin-Pan-Alley standards. Part two varies according to instructor and may include genres outside the United States. Prerequisite(s): course 30C or permission of instructor. Enrollment restricted to music majors. (General Education Code(s): IM.) B. CARSON

150S. Focus on Spontaneous Composition. *

Examines both music and musical composition, and the characteristics they share with science, mathematics, and the natural world. Written for upper-division and graduate courses, the course text shows that music is part of an interdisciplinary collection of artistic modes of expression, and that these modes can be better understood in the context of what students observe in the real world. Thinking about music, through a variety of angles, students aim to understand that creativity is a vehicle through which to explore the evolution and interconnectedness of music as well

Music

as other phenomena in our universe. Prerequisite(s): course 130. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 35. K. HESTER

150T. Post Tonal Analysis. *

Examines the analytic and compositional techniques associated with selected post tonal styles including the linear, harmonic, rhythmic, and textural elements of music by composers, such as Schoenberg, Stravinsky, Bartok, Debussy, Messiaen, Carter, Cage, and Reich. Students attend weekly keyboard/ear-training laboratories. (Formerly Post Tonal Composition and Analysis.) Prerequisite(s): course 130. Enrollment limited to 20. (General Education Code(s): IM.) D. JONES

150X. Theoretical Practices of American Music. *

Examines theoretical practices and compositional methods of 20th-Century American composers including Charles Ives, Henry Cowell, Ruth Crawford, Johanna Beyer, Harry Partch, Conlon Nancarrow, John Cage, James Tenney, Kenneth Gaburo, George Russell, and Ornette Coleman. Prerequisite(s): courses 30A, 30B, and 30C. Enrollment restricted to music majors. Enrollment limited to 25. (General Education Code(s): IM.) D. JONES, D. DUNN, L. POLANSKY

158. South African Music Ensemble (2 credits). S

Introduces music and performance practice from South Africa. Covers a selection of repertoire in many languages and many traditions, with strong emphasis on vocal music. Enrollment is by permission of the instructor. Students must audition for the class in order to provide information about their skill level. May be repeated for credit. N. HAMMOND

159A. Opera Workshop (2 credits). F,W

A workshop for singers, accompanists, and directors, the course develops a wide variety of skills related to opera through scenework. Attention will be given

to movement, acting, coaching, and operatic stage-directing technique. Instruction culminates in studio productions of scenes from operas and musicals. Admission by permission of vocal instructor, or by audition with instructor prior to first class meeting. Students are billed a materials fee. Enrollment limited to 30. May be repeated for credit. B. STAUFENBIEL

160. University Opera Theater. S

A production workshop, culminating in one or more staged performances of an entire opera or selected scenes from the operatic repertory. Admission by audition with instructor prior to first class meeting; auditions usually take place in fall quarter. Students are billed a materials fee. May be repeated for credit. B. STAUFENBIEL

161. Individual Lessons: One Hour (3 credits). F,W,S

One hour of individual instrumental or vocal instruction. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. Enrollment priority given to music majors and minors. May be repeated for credit. THE STAFF

162. Advanced Individual Lessons: One Hour. F,W,S

One hour of individual instruction for advanced students. Study of repertory, technique, and performance practice. A minimum of 18 hours per week of individual practice and at least one 30-minute recital are required. May be taken three times for credit. Concurrent enrollment in an ensemble in the lesson instrument or voice is required. Students are billed a course fee. Admission by juried audition. May be repeated for credit. THE STAFF

163. Early Music Consort (2 credits). F,S

A study of selected works for varied early music instrumental and vocal

resources, culminating in one or more public concerts. Individual lessons are recommended in conjunction with consort work. Recommended for students who have instrumental or vocal competence and music literacy. Admission by audition with instructor prior to first class meeting. May be repeated for credit. (General Education Code(s): PR-C.) N. TREADWELL

164. Jazz Ensembles (2 credits). F,W,S

Instruction in combo performance and techniques of the jazz idiom. The class forms several ensembles that prepare a specific repertory for public performance. Admission by audition with instructor prior to first class meeting. May be repeated for credit. S. POPLIN

165. Chamber Music Workshop (2 credits). F,W

A study of selected works for various small combinations of instruments, culminating in one or more public concerts. Admission by audition with instructor prior to first class meeting. May be repeated for credit. N. BERMAN

166. Chamber Singers (2 credits). F,W

The study of selected works for small vocal ensemble from the 15th through 20th centuries, with performances on and off campus throughout the academic year. Students must have demonstrated vocal and music reading skills. Admission by audition with instructor prior to first class meeting. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-C.) B. KIESLING, N. BERMAN

167. Workshop in Electronic Music (2 credits). F,W,S

Continuing studio work in electronic music. Students carry out individual projects, meeting in weekly seminar to share problems and discoveries. Relevant advanced topics are covered, including new developments in the art. Prerequisite(s): course 124. Enrollment limited to 20. May be repeated for credit. D. DUNN

Music

168. Experimental Music Ensemble (2 credits). W,S

A study of selected works for various small combinations of instruments and voice, culminating in one or more public concerts. Admission by audition with instructor prior to first class meeting. (Formerly Contemporary Music Ensemble.) May be repeated for credit. A. BEAL

174. Intermediate Jazz Improvisation. *

Develops basic skills through a range of advanced bop, quasi-modal and post-bebop styles—including selected free jazz and "avant-garde" repertoire. Prerequisite(s): course 75; audition with instructor at first class meeting. Enrollment limited to 20. May be repeated for credit. K. HESTER

175. Jazz Theory II. S

Through transcription, analysis, and performance of "jazz" standards, composition, arranging, improvisation, and spontaneous creation explored. Students write a series of improvisations, short compositions, and arrangements throughout the course. Prerequisite(s): course 75. Enrollment limited to 30. K. HESTER

180A. Studies in World Musics: Asia and the Pacific. *

In-depth ethnomusicological studies of selected music cultures of East Asia, Southeast Asia, and the Pacific. Emphasizes comparison of historical, theoretical, contextual, and cultural features. Includes basic ethnomusicological points of reference, as regards organology, music ritual, notation and transcription, and aspects of field research. Prerequisite(s): course 30B. Concurrent enrollment in a non-Western performing ensemble is strongly recommended. Enrollment restricted to music majors and graduate students. Anthropology majors may enroll with permission of instructor. Enrollment limited to 30. T. MERCHANT, D. NEUMAN

180B. Studies in World Musics: Africa and the Americas. *

In-depth ethnomusicological

studies of selected music cultures of sub-Saharan Africa and South and North America, including Native America. Emphasizes comparison of historical, theoretical, contextual, and cultural features. Includes basic ethnomusicological points of reference, as regards organology, music ritual, notation and transcription, and aspects of field research. Prerequisite(s): course 30B; concurrent enrollment in a non-Western performing ensemble is strongly recommended.

Enrollment restricted to music majors and graduate students. Anthropology majors may enroll with permission of instructor. Enrollment limited to 30. THE STAFF

180C. Studies in World Musics: Central Asia. *

In-depth, ethnomusicologically oriented course on select music cultures in Central Asia. Compares theoretical, historical, and cultural aspects of music and culture from Uzbekistan, Tajikistan, Afghanistan, Kyrgyzstan, Kazakhstan, the Xinjiang region of China, Mongolia, and Tuva. Prerequisite(s): course 30A. Enrollment restricted to music majors. Enrollment limited to 36. T. MERCHANT

180D. Music of Insular Southeast Asia. *

Comparative studies of selected music cultures focusing on the cosmology, music rituals, and organology of varied cultures in Malaysia, Indonesia, Papua New Guinea, and the Philippines. Introduction to ethnomusicology field research and transcription, and hands-on ensemble workshops. Prerequisite(s): course 30A; concurrent enrollment in course 5B, 5C, or 8. Enrollment restricted to music majors. Anthropology majors may enroll with permission of instructor. (General Education Code(s): CC.) THE STAFF

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Upper-division standing and a proposal supported

by a music faculty member willing to supervise required. THE STAFF

195A. Senior Thesis. F,W,S

Preparation of senior thesis over one or two quarters. If taken as a multiple-term course, the grade and evaluation submitted for the final quarter applies to the previous quarter. Students submit petition to sponsoring agency. THE STAFF

195B. Senior Thesis. F,W,S

Preparation of senior thesis over one or two quarters. If taken as a multiple-term course, the grade and evaluation submitted for the final quarter applies to the previous quarter. Students submit petition to sponsoring agency. THE STAFF

196A. Senior Recital Preparation (without individual lessons). F,W,S

Prerequisite(s): juried audition or approved composition portfolio. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

196B. Senior Recital Preparation (with individual lessons). F,W,S

Students are billed a course fee. Prerequisite(s): juried audition. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

A program of directed study arranged with a department faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

A program of directed study arranged with a department faculty member. Class time is proportionally less than a five-credit course. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Introduction to Research Methods. F

Practical introduction to graduate study in music focusing on research methods, music sources and bibliography, techniques of scholarly writing, and critical readings in the discipline. Culminates in a public oral

Music

presentation on the model of a professional conference paper. N. TREADWELL

201. History of Music Theory from the Greeks Through Rameau. W

Study and analysis of pre-tonal and tonal music from the Greeks through the 18th century. Course combines a history of theory with analyses that utilize contemporaneous theoretical concepts. Enrollment restricted to graduate students. Offered in alternate academic years. B. CARSON

202. Tonal and Posttonal Analysis. W

Encompasses various forms of linear analysis, set theory, and selected topics in current analytical practice. Offered in alternate academic years. B. CARSON, H. KIM, D. JONES, P. NAUERT

203. Special Topics in Performance Practice. W

Investigation of primary and secondary sources of information about the culturally and historically accurate performance of music in various times and places. Undergraduates who have completed the appropriate course 101 courses may enroll in 203 courses by interview with the instructor. THE STAFF

203A. Performance Practice in the Middle Ages. *

A study of performance practices in medieval music from Gregorian chant to the 14th century. History of instruments and notation. Rhythmic interpretations of chant and a study of improvised practices in organum. Editing and performance of representative works. Offered on a rotational basis with other courses in the 203 series. N. TREADWELL, L. MILLER

203B. Performance Practice in the Renaissance. *

A study of performance practices in Renaissance music, including concepts of mode, musica ficta, ornamentation, text underlay, tempo, and articulation. Basic principles of white notation and a brief history of instruments.

Transcription, editing, and performance of a Renaissance work. Offered on a rotational basis with other courses in the 203 series. N. TREADWELL, L. MILLER

203C. Performance Practice in the Baroque. *

An examination of historically informed performance practice techniques in Baroque music, with attention to aspects of ornamentation, articulation, figured bass realization, dance choreography, rhythm and tempo, and organology. In-class performances and editing of source materials are included. Offered on a rotational basis with other courses in the 203 series. THE STAFF

203D. Performance Practice in the Classic Period. *

Issues in performance practice focusing on selected topics and styles from the time of C.P.E. Bach through Haydn. Development of selected genres and ensembles, sources and editing, and interpretation and improvisation. Offered on a rotational basis with other courses in the 203 series. THE STAFF

203E. Performance Practice in the Romantic Period. W

Interpretation of music from Beethoven to Scriabin through examinations of both the musical texts (form, genre, harmony, texture, orchestration, etc.) and the period performance practices. Topics range from interpretative analyses of selected compositions to critical assessments of modern as well as documented 19th- and early 20th-century performances. Offered on a rotational basis with other courses in the 203 series. A. LEIKIN

203F. Performance Practice in the 20th Century. *

Projects in analysis, notational studies, extended instrumental techniques, and the aesthetics and performance practices associated with composers from Debussy to the present. Reading and listening focuses on the writings and performances of the composers themselves and upon interpretive writings by informed performers of 20th-century music. Offered on a

rotational basis with other courses in the 203 series. May be repeated for credit. B. CARSON, A. BEAL, D. JONES

203G. Concepts, Issues, and the Practice of Ethnomusicology.

Ethnomusicological field methodology; vocal and instrumental performance practices as related to the ethnomusicological endeavor. Specific topics: philosophical paradigms, historical overview, and definitional issues of ethnomusicology; field research concepts and procedures; studies in instrumental and vocal performance practices of diverse cultures; selected writings of Charles Seeger; transcription and analysis issues; studies in micromusics. Offered on a rotational basis with other courses in the 203 series. T. MERCHANT

203H. Area Studies in Performance Practice. *

Intensive examination of the vocal and instrumental performance practices of living musical traditions of Indonesia, Latin America, or other regions. Topics may incorporate soloistic and ensemble traditions, secular and sacred traditions. Research rubrics include tuning, tone quality, performance posture and rhetoric, and improvisational and fixed patterns, as dictated by regional norms. May be repeated for credit in a different area. Offered on a rotational basis with other courses in the 203 series. May be repeated for credit. D. NEUMAN, H. KIM

205. Conceptual Foundations in Music Repertoire and Analysis. *

A series of two-credit courses that build upon and advance the depth and breadth of analytical skills with the aim of preparing graduate students for advanced work in cultural musicology. THE STAFF

205A. Conceptual Foundations in Western Music Analysis (2 credits). *

Focused analysis of selected works from the Western classical music repertoire, Emphasis is on aural and analytical skills, the modal and tonal foundations of Western music, and the evolution of form and

Music

expression. Enrollment is restricted to graduate students. L. MILLER, A. LEIKIN

205B. Conceptual Foundations in World Music (2 credits). *

A broad survey of traditional and vernacular musical practices from around the world with an emphasis on aural analysis and critical listening skills. Enrollment is restricted to graduate students. Enrollment limited to 15. N. HAMMOND, T. MERCHANT

206A. World Music Composition. W

Studies in the history, structure, and cultural function of music from cultures as diverse as Global African, central European, Korean, Latin American, Indonesian, and Indian traditions. Examines ways in which composers such as Bartok, Anthony Braxton, Chou Wen-Chung, Lou Harrison, and Takemitsu sought and integrated such influences. Students choose to write critical and analytic essays on musics exhibiting diverse cultural influences, or to compose music that takes a vernacular or non-European music as a model for a compositional/improvisational approach. Enrollment restricted to graduate students. Enrollment limited to 12. May be repeated for credit. D. JONES, H. KIM, K. HESTER

206B. Computer-Assisted Composition. *

Study of techniques of algorithmic and computer-assisted composition in a variety of contemporary idioms. Topics may include stochastic methods, generative grammars, search strategies, and the construction of abstract compositional designs and spaces. Final project for course involves students formulating and algorithmically implementing their own theoretical assumptions and compositional strategies. (Also offered as Digital Arts and New Media 217. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. L. POLANSKY

206D. Music Perception and Cognition. *

Investigations in the psychology of

musical listening and awareness. Topics include time and rhythm perception, auditory scene analysis, pattern recognition, and theories of linguistics applied to harmony, melody, and form in the music of diverse cultures. Explores applications of the cognitive sciences to music transcription, analysis, composition, interpretation, and performance practice. Students apply existing knowledge in the cognitive sciences to a developing creative or analytical project, or develop and conduct new experiments. Enrollment restricted to graduate students. Enrollment limited to 16. May be repeated for credit. B. CARSON

219. Techniques in Composition. F

Short compositional exercises incorporating diverse contemporary techniques with emphasis on problem solving and development of compositional skills. Exercises focus on particular strategies for organizing and coordinating aspects of pitch, rhythm, timbre, and other musical dimensions, depending on interests of instructor and students. (Formerly course 219A.) Enrollment restricted to graduate students. May be repeated for credit. D. JONES

220. Graduate Seminar in Music Composition. S

Instruction in individual composition offered in the context of a group; composition in large forms of the 20th century with emphasis on techniques since 1950. May be taken by upper-division undergraduates for credit. Interview with instructor at first class meeting. Prerequisite(s): course 219. Enrollment limited to 16. May be repeated for credit. L. POLANSKY

228. Techniques of Modernity and Aesthetic Formations. *

Explores the transformations and aesthetic possibilities of the digital age through a study of perceptual shifts of the past, from orality to literacy, gift to commodity, pre-colonial to colonial, "pre-modern"

to "modern," and the technological revolutions that accompanied these shifts. Enrollment restricted to graduate students; upper-division undergraduates may enroll with permission of instructor. Enrollment limited to 18. D. NEUMAN

252. Current Issues Colloquium (no credit). F,W,S

An interactive colloquium featuring presentations by faculty, graduate students, and visiting scholars on research projects in composition, musicology / ethnomusicology, and performance practice, followed by focused discussion. Enrollment restricted to graduate students. Undergraduate students may enroll with permission of instructor. N. HAMMOND

253A. Historical Perspectives in Musicology and Ethnomusicology. *

Explores trends in musical scholarship in the 20th and 21st centuries, focusing on broad questions and modes of inquiry within historical musicology and ethnomusicology. (Formerly Pitch, Melody, and Tuning Systems) Enrollment restricted to graduate students. Enrollment limited to 20. T. MERCHANT

253B. Rhythm, Time, and Form. *

Traditional and experimental rhythmic and temporal systems representing diverse cultures, with emphasis on unmeasured, divisive, additive, and multilayer practices in cultural context. Students examine rhythmic composition, improvisation, and rubato performance in selected cultures, including rhythmic notation and transcription systems. Prerequisite(s): course 200 or the equivalent, or consent of instructor. Enrollment restricted to graduate students. Enrollment limited to 10. B. CARSON

253C. Music and Discourse. S

Addresses both song and musical performance as modes of discourse. For song: musical and textual phrase and verse structures and their interrelationships. For musical performances: musical performance as rhetoric and emblem. Enrollment

Music

restricted to graduate students.
Enrollment limited to 5. N.
HAMMOND

253D. Issues in the Ethnography of Music. F

Explores ethnography—the description of culture—as it relates to musicology and ethnomusicology, particularly where "culture" and cultural production are historically dynamic and geographically porous. Examines music with sensitivity to such complexities of context, and the disciplinary points of reference from which cultural difference is calculated. Considers the ideological imprint of methodology on cultural analysis: how to study an unfamiliar music in a way that transcends the measure of "difference from the familiar," and, conversely, how to conduct an "objective" study of a familiar music. Enrollment restricted to graduate students. Enrollment limited to 10. N. HAMMOND

254C. Performativity and Music. *

"Performance" can describe activities in the arts, humanities, and social sciences. Recognizing the mappings of this concept, this course examines selected performances and performative behavior through theoretical and critical lenses. Emphasis is on investigating the act and practice of musical performance in multicultural context, and on analyzing scholarly writing as performative discourse. (Formerly Performance Theory and Practice.) Enrollment restricted to graduate students. Enrollment limited to 10. N. TREADWELL

254D. Organology and Acoustics. *

Comprehensive study of musical instruments including, but not limited to, physical and engineering concepts; theory and methods of description, analysis, systematic, and cultural classifications; physiology and performance techniques; cultural significance; anthropomorphic and zoomorphic symbolism; ritual usage; and more. Previous enrollment in introductory ethnomusicology course (e.g.,

course 11D) helpful, but not required. Enrollment by interview only, except music M.A. and Ph.D. students. Enrollment restricted to junior and senior music majors, electronic music minors, anthropology majors, or physics majors, and graduate students. Enrollment limited to 15. THE STAFF

254E. Asian Resonances in 20th-Century American and European Music. W

Explores the influence of Asian music on Western composers from Debussy to Britten to American experimentalists such as Harrison, Cage, Riley, and Rudyard. Questions of cultural appropriation and originality are addressed through specific examples and critical readings. Enrollment restricted to graduate students. Enrollment limited to 10. D. NEUMAN

254I. Empirical Approaches to Art Information. *

Reading and practice in empirical methods, as applied to the study of music, visual art, multimedia production, and performance arts. Topics include semiotics, critiques of empiricism, cultural determinants and contingents of perception, the psychophysics of information, sensory perception (visual and auditory), memory, pattern recognition, and awareness. Students apply existing knowledge in the cognitive sciences to a developing creative project, or develop and conduct new experiments. (Also offered as Digital Arts and New Media 254I. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 17. May be repeated for credit. B. CARSON

254J. Jazz Historiography. *

Introduces the ways jazz history has been conceptualized, evaluated, and transmitted. Examines the social, intellectual, and cultural formations that have influenced this historiography. Considers the interdisciplinary project of "new jazz studies" in relation to established and alternative historical narratives. Enrollment

restricted to graduate students.
Enrollment limited to 10. THE STAFF

254K. Music, Gender, and Sexuality. *

Seminar focuses on musicological and ethnomusicological work incorporating feminist and queer theories published since the late 1980s. Cross-cultural approach to the examination of music, gender, and sexuality, drawing examples from both Western and non-Western traditions. Enrollment restricted to graduate students. Enrollment limited to 10. N. HAMMOND, T. MERCHANT

254L. John Cage: Innovation, Collaboration, and Performance Technologies. *

In-depth examination of John Cage's interdisciplinary work, his pioneering activity in live electronic technology, and his influence in current multimedia creativity. Approximately one-half of the seminary is devoted to student research and creative projects and reflect Cage's legacy. (Also offered as Digital Arts and New Media 254L. Students cannot receive credit for both courses.) Enrollment restricted to juniors, seniors, and graduate students. Upper-division undergraduates may enroll with permission of instructor. Enrollment limited to 12. A. BEAL

254M. Music in San Francisco, 1850-1950. *

Explores San Francisco's musical life during the city's first century, including opera, symphony, Chinese music, musical theater, and other genres. Considerable emphasis on music and society, including issues of race. Enrollment restricted to graduate students. Enrollment limited to 15. L. MILLER

254N. Cruising the Postcolony. *

Drawing on Jose Esteban Munoz's suggestion that queer politics is most radical when it is looking to the possibilities of the future rather than the pragmatics of the present, this course interrogates the radical vision of postcolonial and queer music-making. Enrollment restricted to graduate students.

Music

Enrollment limited to 18. N.
HAMMOND

254Q. Dialogues and Questions in Digital Arts and Culture. S

Students engage in dialogues at the intersection of theory and practice with the goal of producing a pre-thesis proposal and essay. Readings and seminar discussions inform the development of project proposals and essays, which theoretically contextualize students' work. (Formerly Digital Arts and New Media 203.) (Also offered as Digital Arts and New Media 202. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. THE STAFF

261. Graduate Applied Instruction (3 credits). F,W,S

One hour of individual instrumental or vocal instruction for graduate students. Repertory, technique, and performance practice. A minimum of nine hours per week of individual practice is required. Students are billed a course fee. Admission by audition with the instructor prior to first class meeting. May be repeated for credit. THE STAFF

265. Graduate Ensemble Participation (2 credits). F,W,S

Participation by graduate students in ensembles. Enrollment limit appropriate to the size of each ensemble. Admission by audition with the instructor prior to first class meeting. May be repeated for credit. THE STAFF

267. Workshop in Computer Music and Visualization (2 credits). F,W,S

Graduate-level techniques and procedures of computer music composition and visualization. Practical experience in the UCSC electronic music studio with computer composition systems and software, including visualization and interactive performance systems. Extensive exploration of music and interactive graphic programs such as Max/MSP/Jitter. Enrollment by permission of instructor; appropriate graduate experience required. Enrollment restricted to graduate students. (Also offered as Digital Arts and New Media 267. Students cannot receive credit for both courses.) Enrollment limited to 12. May be repeated for credit. D. DUNN, L. POLANSKY

295. Directed Reading. F,W,S

Directed reading, which does not

involve a term paper. May be repeated once for credit. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Independent study, creative work, or research for graduate students who have not yet begun work on their thesis. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

298. Graduate Recital. F,W,S

A public performance in the student's primary area of interest, related to the thesis or dissertation project, under the supervision of a faculty member. Students submit petition to sponsoring agency. Enrollment restricted to graduate students. THE STAFF

299. Thesis Research. F,W,S

A thesis consisting of a substantive and original creative or scholarly work, related to the graduate recital, under the supervision of a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

OAKS COLLEGE

2017-18 General Catalog

College Office
(831) 459-2558
<http://oakes.ucsc.edu>

PROGRAM DESCRIPTION

For college description and list of faculty, see [colleges](#)

OAKS COLLEGE COURSES

LOWER-DIVISION COURSES

- 3L. Precalculus Academy Lab (2 credits). F,W**
Students use worksheets designed to help them solve problems by thinking critically, and participate in answering project-based questions relevant to the themes of their college core courses. Prerequisite(s): Mathematics 2 or placement (MP) score of 200 or higher. Concurrent enrollment in Mathematics 3 is required. Enrollment is restricted to Oaks and Rachel Carson college members. Enrollment is by permission of the instructor. (Also offered as Carson College 3L. Students cannot receive credit for both courses.) Enrollment limited to 40. May be repeated for credit. N. BHATTACHARYA
- 10. Academic Success (2 credits). W**
Provides opportunity to assess and revise methods of and purposes in studying. Critical, effective approaches to reading, writing, participating in lectures and sections, taking exams, balancing competing responsibilities, and utilizing campus resources explored. Enrollment by permission of college adviser. THE STAFF
- 11. Foundation of Leadership (3 credits). F,W**
Teaches leadership skills to create effective teams, and motivates individuals to communicate effectively with teammates with different styles. Enrollment is restricted to first-year and sophomore college members and by permission of instructor. Enrollment limited to 25. (General Education Code(s): PR-E.) THE STAFF
- 30. Thesis Writing and Editing (2 credits). ***
Substantial writing and revision for a piece of writing relevant to a student's field. Focuses on academic research, documentation, editing, and revision. Enrollment restricted to junior and senior college members. Enrollment by permission of instructor. Enrollment limited to 20. May be repeated for credit. THE STAFF
- 42. Student-Directed Seminar.**
Seminars taught by upper-division Oaks students under faculty supervision. (See course 192.) THE STAFF
- 47. Building an Inner Sanctuary (2 credits). F**
Through experiential methodologies of self-leadership and mind-body practices, this course encourages students to discover and flex those internal resources which enhance resilience, foster psycho-emotional and community-building skills, and affirm their cultural dignity. Enrollment is by application and permission of the instructor. Enrollment limited to 25. THE STAFF
- 60. Oaks Literary Journal: Further Reflections on a Diverse Society (2 credits). ***
For publication in an Oaks College literary journal, students significantly refine an essay from the fall quarter Oaks College core course. Course work includes consideration of a substantive text that engages core course themes and promotes the focus of the essay. Prerequisite(s): course 80A or 80B. Enrollment restricted to first-year students. Enrollment limited to 20. May be repeated for credit. THE STAFF
- 67. The Politics of Food: Labor and Social Justice (2 credits). S**
Engages the themes of Oaks College (respect for diversity and social justice) and the interests of UCSC's Center for Agroecology and Sustainable Food Systems. Topics include the racial politics of food, farm labor, organic farming, and activism. Prerequisite(s): successful completion of college core course 80A, 80B, 80C, 80D, or 80H. Enrollment restricted to college members. Enrollment limited to 25. May be repeated for credit. R. KING, M. BAKER
- 72. Building the Strength to Love and Dream: Oaks Oral History Project. W**
Students study the founding and development of Oaks College's first 10 years through oral history. Students immerse themselves in thorough background research and build skills necessary to conduct oral histories with founding Oaks members, revising pieces suitable for publication. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to College members. L. LOPEZ

73B. Oakes College Mentoring: Service Learning Practicum (2 credits). F

Mentors introduce first-year students to campus resources, provide them with academic support, share academic successes and difficulties, and offer guidance on college adjustment. Enrollment is restricted to College members. Please apply to be a mentor or a mentee online on the Oakes College Mentoring website. May be repeated for credit. (General Education Code(s): PR-S.) L. KNISELY

75. Oakes Student Development and Leadership Theory (2 credits). S

Overview of theories, methods, applications, skills, and special topics focusing on college student development and leadership. Uses a variety of learning modes including lecture, discussion, case studies, small group interaction, and presentations. Interview only: see Oakes coordinator for residential education during spring enrollment period. Enrollment restricted to Oakes College members. Enrollment limited to 30. May be repeated for credit. THE STAFF

76. Social Geography and Justice in Santa Cruz. S

Explores how social identities, life practices, and power are reflected and shaped by the spaces and places we live in. Combines local history and contemporary research with placements in the community focusing on justice for children, youth, and families. Prerequisite(s): course 80A or 80B or 80D or equivalent. Enrollment is by permission of the instructor and restricted to College members. Prerequisite(s): course 80A or 80B or 80D or equivalent. Enrollment is by permission of the instructor and restricted to Oakes College members. Enrollment limited to 25. (General Education Code(s): PR-S.) L. LOPEZ

80A. Introduction to University Discourse: Communicating Diversity for a Just Society. F

Explores rhetorical principles and conventions of university discourse

providing intensive practice in analytical writing, critical reading, and speaking. Examines historical and contemporary aspects of multiculturalism in the U.S.

Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. Students cannot receive credit for this course and course 80B. (Formerly Introduction to University Discourse: Values and Change in a Diverse Society.) Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 22. (General Education Code(s): C1.) R. LANGHOUT

80B. Rhetoric and Inquiry: Communicating Diversity for a Just Society. F

Explores intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Examines historical and contemporary aspects of multiculturalism in the U.S. Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. Students cannot receive credit for this course and course 80A. (Formerly Rhetoric and Inquiry: Values and Change in a Diverse Society.) Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. Enrollment limited to 22. (General Education Code(s): C2.) R. LANGHOUT

80C. Introduction to University Discourse: Communicating Diversity for a Just Society Writing Intensive 1. F

Explores rhetorical principles and conventions of university discourse and provides intensive practice in analytical writing, critical reading, and speaking. Examines historical and contemporary aspects of multiculturalism in the U.S. Explores how social inequality based on ethnicity, race, class, and gender occurs among all levels of society. More writing-intensive than course 80A; prerequisite to course 80D. Enrollment restricted to first-year college members who have not

satisfied the C1 requirement. Enrollment limited to 22. THE STAFF

80D. Introduction to University Discourse: Communicating Diversity for a Just Society Writing Intensive 2. W

Continues to provide practice in analytical writing, critical reading, and speaking, and to examine issues relating to multiculturalism, diversity, and power. Prerequisite(s): course 80C. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 22. (General Education Code(s): C1.) THE STAFF

80F. Cultural Immersion: Exploring, Connecting, and Collaborating with Oakes and Beyond (2 credits). F

Focuses on two issues: isolation and building a U.S.-based cultural foundation, while introducing students to university-level discourse, collaborative discussion in small groups, and peer editing of writing. Enrollment is restricted to first-year Oakes students who have been placed in the Multilingual Curriculum. THE STAFF

80H. Rainbow Theater Cultural Studies. S

Introduction to multicultural theater and multicultural plays that aims to bring cultural awareness to all students interested in theater discipline. Students are required to read and critically analyze contemporary plays of color with emphasis on race and culture in contemporary American society. Enrollment limited to 40. May be repeated for credit. D. WILLIAMS

93. Field Study. F,W,S

Supervised off-campus study conducted under the immediate and direct guidance of a faculty supervisor. To be used primarily by lower-division students doing part-time off-campus study. Prerequisite(s): approval of student's adviser, certification of adequate preparation, approval of provost. May be repeated for credit. THE STAFF

94F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

95. Directed Reading. F,W,S

Directed reading on selected topics in literature. Students submit petition to sponsoring agency. THE STAFF

99. Tutorial. F,W,S

Individual study for lower-division students directed by a fellow of Oakes. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Independent Study (2 credits). F,W,S

Independent study on various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION
COURSES

128. Latino Media in the U.S. *

Explores the history and practice of Latino media in the U.S. with an emphasis on work created by, for, with, and about Latino constituencies. Course highlights the role that media plays in struggles for social change, political enfranchisement, creative self-expression, and cultural development. Course content varies with instructor. (Also offered as Latin American and Latino Studies 128. Students cannot receive credit for both courses.) Enrollment limited to 39. (General Education Code(s): IM.) THE STAFF

130. Writing Resistance: Creative Writing Workshop. S

Engages diasporic and people of color (POC) writers whose work inspires social justice. Through course materials and creative exercises, students examine and break down the roadblocks that create silence. Focuses on the craft of writing, and revision and

performance to create socially relevant and powerful words through community engagement. (General Education Code(s): PR-S.) THE STAFF

134. Diasporic Central Americans. S

Engages literature and culture from multiple generations of diasporic Central Americans in the U.S. whose work inspires conversations on politics and identity. Through course materials and oral history projects, examines the (in)visibility of this emergent Latinx group. Focus on oral history, aesthetics, poetics, and projects of representation. Enrollment limited to 25. M. CHINCHILLA

150. Queer History and Theory in the United States. W

Gives students a broad overview of the historical and social construction of queer identities in the United States. The recent emergence of relatively stable LGBTQIAP+ identities in the U.S. presents a compelling historical problem: how can we know about queer people in the past when they were often "hidden from history" or if they identified themselves in ways that may seem strange to us in the present? Students grapple with these questions as they chart the emergence and eclipsing of queer identities in U.S. history and contribute to the project of documenting queer history in the present. Students also examine how queer theory addresses the meanings that U.S. politics and culture have placed on sexual orientation over time. Enrollment restricted to junior and senior Oakes College members. Enrollment limited to 30. P. LONGO

151A. Corre la Voz: Community Literacies and Power (2 credits). F,W,S

Required seminar for first-quarter students in the Corre la Voz program. Examines theories and methods that emphasize social connection, leadership, verbal enrichment, multi-modal literacies, and community empowerment. Taken concurrently with field study. Enrollment is by interview only and

successful application to the Corre la Voz program or the submission of a teaching-placement agreement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Co-requisite(s): course 151B or 199. Enrollment restricted to sophomore, junior, and senior Oakes College members. May be repeated for credit. L. LOPEZ

151B. Community Literacies Field Study (3 credits). F,W,S

Field study for Corre la Voz interns. Intensive on-site training and participation in team teaching of dual-language (Spanish English) students (4th-5th grade). Literacies include social-emotional, expressive (artistic/dramatic), collaborative problem-solving, academic, and use of digital tools as well as traditional tools. Enrollment by interview only, and successful application to the Corre la Voz program or previous successful quarters in the program. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Concurrent enrollment in course 151A is required during the first quarter after which course 151B may be repeated by itself. Enrollment restricted to sophomore, junior, and senior Oakes College members. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

152. Transformative Literacies. W

Combines a seminar on critical inquiry into different theories and practices of transformative literacy work with community-service placement or a creative project to assist a local organization in its mission communicating internally and externally. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to Oakes College members and community studies majors. Enrollment limited to 20. (General Education Code(s): PR-S.) L. LOPEZ

153. Community Mapping. W

Students study the theories and

Oaks College

methods of community mapping, and work in research teams to design and conduct social-research projects. Emphasizes research questions that focus on assets and capacities, as well as on participatory-action research for justice. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to Oakes College members and community studies majors. Enrollment limited to 25. May be repeated for credit. (General Education Code(s): PR-S.) L. LOPEZ

192. Directed Student Teaching. F,W,S

Teaching a lower-division seminar under faculty supervision. (See course 42.) Prerequisite(s): upper-division standing in Oakes; a proposal supported by a faculty member willing to supervise. THE STAFF

193. Field Study. F,W,S

Supervised off-campus study

conducted under the immediate and direct guidance of a faculty supervisor. To be used primarily by upper-division students doing part-time off-campus study.

Prerequisite(s): approval of student's adviser, certification of adequate preparation, approval of provost. If taking two or more such courses in any one quarter, must obtain approval of academic adviser. THE STAFF

195. Senior Thesis. F,W,S

Senior thesis related to college-sponsored individual majors. Students submit petition to sponsoring agency. Sponsoring faculty must be member of individual major committee. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

College-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such

courses may be taken for credit in any one quarter. Prerequisite(s): approval of the student's adviser, certification of adequate preparation, and approval by provost. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual study for junior and senior members of Oakes College directed by a fellow of Oakes. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Independent study on various topics to be arranged between student and instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

OCEAN SCIENCES

2017-18 General Catalog

A312 Earth and Marine Sciences Building
 (831) 459-4730
<http://oceansci.ucsc.edu/>

PROGRAM DESCRIPTION

The Ocean Sciences Department includes faculty, students, and staff involved in oceanography and other marine sciences and offers undergraduate and graduate courses in these disciplines. Through faculty sponsors, students have access to a wide variety of research facilities and equipment, including on-campus analytical chemistry, geology, and molecular biology laboratories for marine research; computing and imaging facilities; an onshore marine laboratory two miles from campus ([Long Marine Laboratory](#)), with aquariums and holding tanks that are supplied with running sea water; and a unique field station on [Año Nuevo Island Reserve](#) (19 miles north of Santa Cruz), especially suited for studies on pinnipeds and marine birds. The department supports collaborative studies utilizing the innovative technologies of the nearby Monterey Bay Aquarium Research Institute (MBARI), the Naval Postgraduate School, Stanford University's Hopkins Marine Station, California State University (CSU) Moss Landing Laboratory, and other facilities. Students may also work at other University of California facilities, including the Bodega Marine Laboratories and Scripps Institute of Oceanography.

In addition to research and instructional activities along the California coast, interests of the [core faculty](#) and their students include biological, chemical, and physical oceanography; sediment, marine, organic, and trace metal biogeochemistry; marine plankton, phytoplankton ecology, paleoceanography, aquatic microbial ecology, ecological modeling, and remote sensing (satellite oceanography); numeric modeling of coastal and basin-scale dynamics; and midwater ecology, climatology, among others.

Ocean Sciences Department [affiliated faculty](#) in other departments represent a deep resource of research interests and methodologies including those pertaining to coral reef and kelp forest ecology, plate tectonics and continental margins, marine mammal behavior and physiology, and natural products from marine organisms. Student research projects have included participation in major scientific expeditions to various marine environments ranging from Polar Regions to the tropics.

UNDERGRADUATE PROGRAMS

While offering a range of undergraduate courses, the Ocean Sciences Department presently only confers

graduate degrees (Master of Science - M.S. or Doctor of Philosophy - Ph.D.) The undergraduate major in marine biology, sponsored by the Biological Sciences departments, includes required and elective courses in ocean sciences, and includes an ocean sciences concentration in Earth sciences for undergraduates. Students interested in ocean sciences should major in a discipline such as biology, marine biology, chemistry, Earth sciences, physics, or mathematics and take ocean sciences-related electives. Students with a bachelor's degree in one of these disciplines or equivalent coursework may apply directly for admission to the graduate program through the Division of Graduate Studies.

GRADUATE PROGRAMS

The graduate programs in ocean sciences are designed to prepare students for careers in research, teaching, and other environmentally related endeavors. The fundamental requirement for admission to the program is substantial evidence of superior scholarship and aptitude for original research. Preparation for admission to the graduate program in Ocean Sciences should comprise an undergraduate degree in the discipline of one of the program specialty areas (e.g., biology or marine biology, geology or earth sciences, chemistry, or physical science) or an equivalent background. If a student does not have a degree in one of these areas, the student must demonstrate to their sponsor that they have taken the classes necessary to do their research.

The prerequisites for entering either the Master's or the Ph.D. program are a minimum of two quarters or two semesters in each of the following: a calculus series; chemistry, biology, and physics. In addition, one course in each of the following is required: earth sciences or geological principles; and statistics or biostatistics.

OCEAN SCIENCES PH.D. DEGREE PROGRAM

The program leading to a doctorate in ocean sciences is designed around a core training in oceanography for all students, supplemented and focused by advanced training in oceanography and in the traditional disciplines—biology, chemistry, Earth sciences, and physics—as chosen by the student and his or her advisers. The core training is provided through courses in ocean sciences; a subset of which is taken by all students in the first two years and reinforced by the

Ocean Sciences

student's seminars throughout the program. Preparation also includes upper-division/graduate courses in ocean sciences and in the specialty discipline, graduate seminars, independent study research credits, participation in a departmental student seminar series, and a minimum requirement of two quarters as a teaching assistant. There is no formal language requirement.

A scheduling meeting in the first quarter of enrollment is used to map out the course program in the first year. The course program is determined by a faculty advisory committee in consultation with the student and courses are drawn from Ocean Sciences and other science departments (e.g., biology, chemistry, Earth sciences, physics). A departmental oral examination covering material from the core courses is usually taken at the beginning of a student's second year in the program and must be completed successfully within two years of entering the program. The purpose of this examination is to ensure that the doctoral student candidate has acquired sufficient fundamental knowledge of oceanography to proceed toward the doctoral degree.

A qualifying examination requiring a written research proposal to be defended orally in front of the student's Qualifying Examination Committee is normally taken during the third or fourth year of the program. A dissertation, demonstrating original thought and research, must be written, presented in an open seminar, and defended to the student's Dissertation Reading Committee. Students are strongly encouraged to prepare their dissertation in a form suitable for publication.

SAMPLE PATHWAYS

The pathways within the ocean sciences Ph.D. program are differentiated from related degrees in the traditional disciplines by their focus on global-scale problems and interactions, a focus on the ocean, and their inherently interdisciplinary approach. Interdisciplinary projects across and between pathways are encouraged, as are interactions with faculty in related departments.

BIOLOGICAL OCEANOGRAPHY

This area of study involves the interactions of organisms with their chemical and physical environments. It includes research on the physiology and ecology of organisms, but differs from marine biology in its focus on the oceanographic setting of the organism in relationship to, for example, biogeochemical cycling and the effects of ocean currents on distributions of organisms. The focus is mainly on small oceanic life-forms (plankton and bacteria, molecular ecology) and their roles in the biogeochemical cycles of marine systems.

CHEMICAL OCEANOGRAPHY

Chemical interactions of trace metals and radionuclides in the sea are the focus of this area of study. Research

includes development of analytical techniques, measurement of trace species in seawater, and investigation of the effects and interactions of trace elements on biological processes using analytical and isotopic approaches.

GEOLOGICAL OCEANOGRAPHY

Paleoceanography, paleoclimatology, and sediment geochemistry are the focus in this pathway. Research areas include the history of global geochemical cycles and composition of the ocean on various timescales, the fate and diagenesis of materials in sediments and their contribution to the paleoceanographic record, understanding ocean and climate history by the use of records of stable isotopes and trace elements, and paleoclimate modeling.

PHYSICAL OCEANOGRAPHY

The physics and dynamics of the ocean and atmosphere are the main aspects of this program. Research includes observational, computational, theoretical, and experimental physical oceanography, geophysical fluid dynamics, ocean acoustics, dynamical meteorology, climate, and global change.

Requirements for Ph.D. Students in the Ocean Sciences Department

To introduce students to the breadth and depth of the field of ocean sciences, students will be required to complete the following.

1. The four core ocean sciences courses are expected to be completed in the first year of the program prior to taking the departmental oral examination: OCEA 200, Physical Oceanography; OCEA 220, Chemical Oceanography; OCEA 230, Biological Oceanography; and OCEA 280, Marine Geology.
2. A minimum of three graduate-level or upper-division elective courses is required to provide depth in the chosen area of emphasis or supporting disciplines. These courses are selected in consultation with the student's adviser and the department's graduate advising committee. A maximum of one course may be a graduate-level seminar (OCEA 290), and at least two courses must be graduate or upper-division undergraduate lecture courses.
3. OCEA 292, Ocean Sciences Seminar series. Attendance is required **each quarter of enrollment**.
4. OCEA 296, Teaching in Ocean Sciences, taken prior to, or concurrent with, being a teaching assistant. Generally offered during the fall quarter each year.
5. Teaching experience is satisfied by two quarters of teaching assistant experience in Ocean Sciences or related departments.

Ocean Sciences

6. A minimum of three courses in Independent Studies (OCEA 297, before advancing to candidacy), or Thesis Research (OCEA 299, after advancing to candidacy) under the direction of an adviser. Students beyond their first year will usually take 10 or 15 credits of Independent Study or Thesis Research each quarter.
7. Pass a departmental oral examination. The purpose of this examination is to ensure that the doctoral student candidate has acquired sufficient fundamental knowledge of oceanography to proceed toward the doctoral degree.
8. Pass the qualifying examination to advance to candidacy. This examination requires a written research proposal to be defended orally in front of the student's Qualifying Examination Committee.
9. Ph.D. dissertation. The Ph.D. dissertation, demonstrating original thought and research, must be written, presented in an open seminar, and defended to the student's Dissertation Reading Committee. It is intended to help guide and evaluate the student's program, study, and progress.

OCEAN SCIENCES MASTER'S DEGREE PROGRAM

The Ocean Sciences Department offers a master of science (M.S.) degree in ocean sciences. The ocean sciences M.S. degree can be attained through Plan I thesis (coursework and thesis, minimum 44 credits) or Plan II examination (coursework and written examination, minimum 42 credits). The degree combines core courses and electives to provide depth and breadth in the ocean sciences. Graduates from the program are exceptionally prepared to take research or management positions in organizations concerned with the marine environment, to become educators, or to enter doctoral programs in ocean sciences or related fields. The thesis M. S. degree is preparation for research careers.

Whereas the doctoral program has an oceanographic orientation, the ocean sciences master's program is even broader and has traditionally attracted many students in marine biology and ecology. As with the doctoral program, students are encouraged to select a course of study and a research program that draws on the expertise of the core ocean sciences faculty and any of the affiliated faculty in other departments. Customized programs of study that combine related disciplines are supported in the master's program.

REQUIREMENTS FOR THE OCEAN SCIENCES MASTER'S DEGREE

To introduce students to the breadth and depth of the field of ocean sciences, students will be required to complete the following:

Plan I M.S. (thesis) requirements:

1. OCEA 200 (Physical Oceanography) and any two of the remaining three core courses. Students are expected to complete all three of these courses in the first year of the program, and they should be taken in the order listed below. Students are also encouraged to take the fourth core course, in which case it can count as an elective. The courses must be taken in the following sequence: fall-OCEA 200 Physical Oceanography, and OCEA 280 Marine Geology; winter-OCEA 220 Chemical Oceanography; and spring-OCEA 230 Biological Oceanography.
2. A minimum of two graduate-level or upper-division elective courses to provide depth in the chosen area of emphasis. They are chosen in consultation with the student's adviser and the department's Graduate Advising Committee. A maximum of one course may be a graduate-level seminar (OCEA 290); at least one course must be graduate or upper-division undergraduate lecture courses.
3. A minimum of three courses in Independent Studies (OCEA 297) under the direction of an adviser, is required. Each quarter a student should take 15 credits of classes. Students beyond their first year will usually take 10 or 15 credits of Independent Studies each quarter.
4. OCEA 296, Teaching in Ocean Sciences, to be taken prior to or concurrent with being a teaching assistant. It is generally offered during the fall quarter each year.
5. Teaching experience, satisfied by one quarter as a teaching assistant for an Ocean Sciences or related department..
6. OCEA 292, Ocean Sciences Seminar series,. Attendance is required each quarter of enrollment.
7. Successful completion of a master's thesis presented at an open seminar.

Plan II M.S. (examination) requirements:

1. Complete all four ocean sciences core courses, taken in the following order: fall-OCEA 200 Physical Oceanography, and OCEA 280 Marine Geology; winter-OCEA 220 Chemical Oceanography; and spring-OCEA 230 Biological Oceanography.
2. Complete one course in data analysis (5 credits), Introductory Data Analysis in Ocean and Earth Sciences, OCEA 260.
3. A minimum of three graduate-level or upper-division elective courses is required to provide depth in the chosen area of emphasis or supporting disciplines. These courses are selected in consultation with the student's

Ocean Sciences

adviser and the department's Graduate Advising Committee. A maximum of one course may be a graduate-level seminar (OCEA 290), and at least two courses must be graduate or upper-division undergraduate lecture courses.

4. OCEA 292. Ocean Sciences Seminar series. Attendance is required each quarter of enrollment.

5. Passing performance on the comprehensive examination.

Details regarding admission, graduate standing, financial aid, examinations, and the requirements for the master of science and doctor of philosophy degrees are available from the Division of Graduate Studies (http://graddiv.ucsc.edu/student_affairs/).

OCEAN SCIENCES FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Margaret L. (Peggy) Delaney

Paleoceanography, marine geochemistry

Christopher A. Edwards

Physical oceanography, numerical modeling of coastal physical and biological processes, data assimilation

Raphael M. Kudela

Biological oceanography, ecological modeling, ocean optics, phytoplankton ecology and harmful algal blooms

Matthew D. McCarthy

Marine organic geochemistry and chemical oceanography, global biogeochemical cycles, compound-specific stable isotopes and radiocarbon

Andrew M. Moore

Physical oceanography; numerical ocean modeling; air-interaction; ocean prediction

A. Christina Ravelo

Stable isotope geochemistry and chemical oceanography, paleoclimatology

Jonathan P. Zehr

Aquatic microbial ecology, biological oceanography

ASSISTANT PROFESSOR

Jerome Fiechter

Physical and biological oceanography; dynamics of coastal marine ecosystems; numerical modelling

Phoebe Lam

Particle geochemistry, biological carbon pump, cycling of trace elements and isotopes, chemical oceanography

Carl Lamborg

Trace metal (esp. mercury) biogeochemistry, historical reconstructions of environmental chemistry using natural archives, aquatic chemistry

Marilou Sison-Mangus

Microbial ecology, evolutionary biology, microbiome-host interactions, biological oceanography

EMERITUS FACULTY

Kenneth W. Bruland**Robert E. Garrison****Mary W. Silver**

ADJUNCT PROFESSOR

Michael Beck

Marine conservation, regional biodiversity planning, habitat restoration, marine proprietary rights

Steven Bograd

Physical oceanography, climate variability, physical-biological interactions, eastern boundary current systems, and fisheries oceanography

John Colosi

Acoustical and physical oceanography; Stochastic wave propagation; internal waves and tides; mid-latitude, continental shelf, and Arctic environments

John Carlos Garza

Population and ecological genetics of marine organisms

Thomas Guilderson

Applied isotope geochemistry, biogeochemistry, carbon cycle, climate studies

Alexandra Worden

Mechanisms and controls of microbial population dynamics with an emphasis on carbon cycling in marine ecosystems

AFFILIATED FACULTY

Giacomo Bernardi (Ecology and Evolutionary Biology)

Fish biology, phylogenetics, evolution

Mark Carr (Ecology and Evolutionary Biology)

Marine ecology, applied marine ecology

Daniel Costa (Ecology and Evolutionary Biology)

Physiological ecology of marine mammals and birds

Phillip Crews (Chemistry and Biochemistry)

Marine natural products chemistry, bioorganic chemistry, organic structural analysis by NMR, natural products of marine macro- and microorganisms

Donald Croll (Ecology and Evolutionary Biology)

Ecology and conservation of islands and seabirds

Andrew Fisher (Earth and Planetary Sciences)

Hydrogeology, crustal studies, coupled flows, modeling

Ocean Sciences

Laurel Fox (Ecology and Evolutionary Biology)

Terrestrial population and community ecology, plant-animal interactions

Gary Griggs (Earth and Planetary Sciences, Institute of Marine Sciences)

Coastal geology, oceanography

Steven Haddock (Ecology and Evolutionary Biology)

Ecology of bioluminescence and gelatinous zooplankton from blue-water and deep-sea environments

Marc Mangel (Applied Mathematics and Statistics)

Quantitative and behavioral ecology, marine fisheries, with particular application to salmonids, rockfish and krill

Baldo Marinovic (Institute of Marine Sciences)

Plankton biology, Euphausiid (krill) population biology, zooplankton ecology, pelagic food web dynamics, and the potential impacts of climate change on zooplankton and fisheries interactions

Jeffrey Paduan (NOAA/COTS Center for Integrated Marine Technology)

Coastal ocean dynamics, physical oceanographic modeling from high frequency radar data

Adina Paytan

Biogeochemistry, paleoceanography, environmental and aquatic chemistry

Grant Pogson (Ecology and Evolutionary Biology)

Molecular population genetics, ecological genetics, marine invertebrates and fishes

Donald Potts (Ecology and Evolutionary Biology)

Coral reef ecology, genetics, evolution, and geological

history; marine biodiversity; tropical biology, global change, and remote sensing

Peter Raimondi (Ecology & Evolutionary Biology)

Marine ecology, evolutionary ecology, experimental design, applied ecology

Colleen Reichmuth

Behavioral, sensory, and cognitive ecology of marine mammals

Scott Shaffer

Links between ecology, morphology, and physiological adaptations of marine vertebrates, particularly how animals use and allocate energy

Lisa Sloan (Earth and Planetary Sciences)

Earth history and global change, stratigraphy-sedimentation, methods in Paleoclimatology, topics in climate change

Donald Smith (Microbiology and Environmental Toxicology)

Neurotoxicity, cellular and organismal responses to environmental toxins

Randall Wells (Sarasota Dolphin Research Program)

Behavioral ecology and conservation biology of small cetaceans

Terrie Williams (Ecology and Evolutionary Biology)

Large mammal physiology, bioenergetics, exercise and environmental physiology/ecosystems

James Zachos (Earth and Planetary Sciences)

Oceanography, stable isotope geochemistry, sedimentology/stratigraphy, oceans and climate, deep time paleoclimates, paleoceanography

OCEAN SCIENCES COURSES

LOWER-DIVISION COURSES

1. The Oceans. F,W

An interdisciplinary introduction to oceanography focusing on biological, chemical, geological, and physical processes. Covers topics such as origins and structure of planet Earth and its oceans, co-evolution of Earth and life, plate tectonics, liquid water and the hydrologic and hydrothermal cycles, salinity and elemental cycles, ocean circulation, primary production and nutrient cycles, plankton and nekton, life on the sea floor, near shore and estuarine communities, future environmental problems our oceans face. Students may also enroll in and receive credit for Earth Sciences 1. (General

Education Code(s): SI.) C. LAMBORG, (F) THE STAFF

80A. Life in the Sea. W,S

The ecology of plants and animals in oceans and coastal areas. Consideration of life in various marine habitats, including the open ocean, rocky shores, estuaries, and the sea. Includes field trips. High school biology and chemistry courses are recommended prior to taking this course. (General Education Code(s): SI.) J. ZEHR, THE STAFF

80B. Our Changing Planet. F,S

Interdisciplinary scientific perspective on Earth system, focusing on human impacts on global environment. Introduces concepts of Earth system science and explores topics such as global warming, ozone depletion,

pollution, deforestation, and future climate change. Prerequisite(s): high school chemistry course recommended. (General Education Code(s): PE-E.) P. LAM, M. MCCARTHY

90. Fundamentals of Climate. F,W

Quantitative introduction to climate comprising five modules: atmosphere-ocean circulation, atmospheric teleconnections, El-Nino Southern Oscillation, the Pacific Decadal Oscillation, and global warming. Hands-on statistical methods are applied to real-world observations to develop a quantitative understanding of climate. May be repeated for credit. (General Education Code(s): SR.) A. MOORE, C. EDWARDS

**UPPER-DIVISION
COURSES**

101. The Marine Environment. W

An introduction to the marine environment stressing the interaction of physical, chemical, geological, and biological factors in the ocean. Provides the oceanographic background needed for studies in marine biology. Students taking the prerequisite math courses concurrently may enroll in the course with permission from instructor. Prerequisite(s): Chemistry 1C and Mathematics 11B or 19B. Students taking the prerequisite math courses concurrently may enroll in the course with permission from instructor. R. KUDELA

102. Oceans and Climate: Past, Present, and Future. *

An introduction to Earth's environment, particularly its oceanic and climatic components. Emphasizes interactions between chemical, physical, biological, and geological processes, and fundamentals of past, present, and future global environmental change. Provides backgrounds for specialized courses in oceanic or climatic change. Prerequisite(s): Chemistry 1C. THE STAFF

118. Marine Microbial Ecology. S

The study of marine bacteria and their role in the marine ecosystem. Emphasis on biochemistry and physiology in relation to metabolic activity and elemental cycles, trophic interactions, and flows of material and energy in marine food webs. Students cannot receive credit for this course and Ocean Sciences 218. Prerequisite(s): Biology 20C or 21C, and Chemistry 1C. J. ZEHR

120. Aquatic Chemistry: Principles and Applications. F

An integrated study of the chemical behavior of natural waters with an emphasis on both principles and applications. Topics include chemical equilibrium, kinetics, acids/bases, oxidation/reduction, complexation, solid dissolution and precipitation, and reactions on solid

surfaces. Prerequisite(s): Chemistry 108B or 112C. C. LAMBORG

124. Aquatic Organic Geochemistry. F

Introduction to organic geochemistry with emphasis on aquatic environments. Explores how non-living organic matter shapes biogeochemical cycles by carrying and sequestering reduced carbon and major nutrients and examines influence of chemical structure and environmental factors on transport and fate of organic molecules. Provides an introduction to organic biomarkers. Students cannot receive credit for this course and course 224. Prerequisite(s): basic college chemistry (Chemistry 1B, 1C); at least one quarter of college level organic chemistry required (e.g., Chemistry 7). M. MCCARTHY

130. Biological Oceanography. S

Biological description of the sea, with emphasis on processes and patterns. Topics include microbial dynamics, phytoplankton and zooplankton production, and ecology of marine food webs. Emphasis placed on understanding how physical, chemical, and geological environment shapes biology and ecology of oceans, including such topics as harmful algal blooms, global estimates of productivity, and effects of humans on environment. Students may not receive credit for this course and Ocean Sciences 230. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to juniors (with instructor approval), and seniors. M. SISON MANGUS

172. Geophysical Fluid Dynamics. S

Introduces fluid motion influenced by rotation. Topics include the Coriolis force, geostrophic flow, potential vorticity, the shallow water model, quasigeostrophic approximation, planetary waves, Ekman theory, thermal wind, models of the large-scale oceanic and atmospheric circulation, and equatorial dynamics. Taught in conjunction with course 272. Students cannot receive credit for

this course and course 272. (Also offered as Earth Sciences 172. Students cannot receive credit for both courses.) Prerequisite(s): Physics 107; Mathematics 22 or 23B recommended. Offered in alternate academic years. C. EDWARDS

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200. Physical Oceanography. F

Introduces the physics of the ocean. Topics include physical properties of seawater, atmospheric forcing, Ekman dynamics, Sverdrup dynamics, the wind-driven ocean circulation, ocean mixing, water masses, the meridional overturning circulation, surface gravity waves, Rossby waves, Kelvin waves, and ocean tides. Designed for beginning graduate students in ocean sciences and upper-division science majors. Calculus and physics recommended as preparation. A. MOORE

211. Climate Dynamics. *

Introduction to the dynamics of the Earth climate system. Topics: climate system components, the global energy balance, radiative transfer, the hydrological cycle, general circulations of the atmosphere and ocean, El Nino, the North Atlantic Oscillation, and the Pacific Decadal Oscillation. Enrollment restricted to graduate students. Undergraduates may enroll by permission of instructor. Previous courses in calculus and ocean sciences or earth sciences are recommended. THE STAFF

213. Biogeochemical Cycles. *

Overview of biogeochemical cycles, present and past, and geochemical models. Topics include: marine, terrestrial, and global views of the carbon, nitrogen, phosphorus, silicon, sulfur, and oxygen cycles, and the evolution of these cycles and Earth's redox balance through geologic time. (Also offered as Earth Sciences 213. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Upper-division

Ocean Sciences

undergraduates may enroll with instructor approval. College-level chemistry and an upper-division course in at least one relevant discipline are recommended. M. MCCARTHY

215. Predicting the Atmosphere, Ocean, and Climate. *

Introduction to the theory and practice of operational prediction in meteorology, oceanography, and climate. Topics: observations and estimation theory, dynamic adjustment and initialization, estimation theory, data assimilation, forecast verification, predictability, ocean state estimation, seasonal forecasting. Enrollment restricted to graduate students. Undergraduates may enroll with instructor approval. Courses 200, 264, Earth Sciences 272, or equivalents are recommended. A. MOORE

218. Marine Microbial Ecology. S

Recent developments in the study of marine bacteria and their role in the marine ecosystem. Emphasis on biochemistry and physiology in relation to metabolic activity and elemental cycles, trophic interactions and flows of material and energy in marine food webs. Exams and research paper required. Students cannot receive credit for this course and course 118 and Biology 171. Biology 20C and Chemistry 1C recommended. J. ZEHR

220. Chemical Oceanography. W

A chemical description of the sea; emphasis on the chemical interactions of the oceans with the biosphere, atmosphere, and lithosphere. Topics include biogeochemical cycles and the use of chemical tracers to study oceanic and coastal processes. Course designed for graduate students; available to upper-division science majors. M. MCCARTHY

224. Aquatic Organic Geochemistry. F

Introduction to organic geochemistry with emphasis on aquatic environments. Explores how non-living organic matter shapes biogeochemical cycles by carrying and sequestering reduced

carbon and major nutrients and examines influence of chemical structure and environmental factors on transport and fate of organic molecules. Provides an introduction to organic biomarkers. Students cannot receive credit for this course and course 124. M. MCCARTHY

230. Biological Oceanography. S

Biological description of the sea, with emphasis on processes and patterns. Topics include microbial dynamics, phytoplankton and zooplankton production, and ecology of marine food webs. Emphasis placed on understanding how physical, chemical, and geological environment shapes biology and ecology of oceans, including such topics as harmful algal blooms, global estimates of productivity, and effects of humans on environment. Students may not receive credit for this course and course 130. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to graduate students. R. KUDELA

260. Introductory Data Analysis in the Ocean and Earth Sciences. W

Introduces data analysis methods regularly encountered within the ocean and earth sciences. Topics include: error propagation, least squares analysis, data interpolation methods, empirical orthogonal functions, and Monte Carlo methods applied to problems drawn from oceanographic and earth sciences datasets. Introduces and uses a high-level computing and visualization package, MATLAB. Student project consists of analysis of the student's own dataset. (Also offered as Earth Sciences 260. Students cannot receive credit for both courses.) Prerequisite(s): previous course in ocean or earth sciences is recommended. Enrollment restricted to graduate students; undergraduates with permission of instructor. C. EDWARDS

272. Geophysical Fluid Dynamics. S

Introduces fluid motion influenced by rotation. Topics include the

Coriolis force, geostrophic flow, potential vorticity, the shallow water model, quasigeostrophic approximation, planetary waves, Ekman theory, thermal wind, models of the large-scale oceanic and atmospheric circulation, and equatorial dynamics. Students cannot receive credit for this course and course 172. (Also offered as Earth Sciences 272. Students cannot receive credit for both courses.) Physics 227 is recommended as preparation. Enrollment restricted to graduate students. Offered in alternate academic years. C. EDWARDS

280. Marine Geology. F

Geology of the marine environment. Topics include controls on the types, origin, and distribution of marine sediments; geology of oceanic crust; evolution of continental margins and plate boundaries; and introduction to paleoceanography. Students cannot receive credit for this course and Earth Sciences 102. Enrollment restricted to graduate students. A. RAVELO

285. Past Climate Change. W

Reviews the fundamentals of climate dynamics and explores how Earth's environment is a product of the interaction of its components. Uses examples of climate change from historical and geologic records, and from predictions of the future. Recommended for junior, senior, and graduate students in the sciences. A. RAVELO

286. Introduction to Ocean Modeling. *

Fundamental concepts and ideas that underpin numerical modeling of the ocean. Topics include numerical methods and solutions of partial differential equations (PDEs), ocean circulation, wave dynamics, ocean ecosystem model, and MATLAB programming. Enrollment restricted to graduate students, or to seniors by permission of instructor. A. MOORE

290. Proseminar.

Special topics in marine sciences to be offered from time to time by professors and staff members.

Ocean Sciences

290A. Topics in Chemical Oceanography. S

A weekly seminar series covering recent developments in chemical oceanography. Different topics and approaches will be stressed from year to year. May be repeated for credit. P. LAM

290B. Topics in Biological Oceanography. W

Explores different problems of special interest in biological oceanography. Different topics and approaches will be stressed from year to year. May be repeated for credit. M. SISON MANGUS

290C. Topics in Marine Geochemistry. F

Selected topics in geochemistry. Discussion of theoretical models, different approaches, and recent research. Topics vary from year to year. May be repeated for credit. C. LAMBORG

290D. Topics in Marine Microbiology. S

A weekly seminar series covering topics in environmental microbiology. Topics vary from year to year, and will include research in ecology, methodology, biochemistry and physiology of bacteria. Emphasis on the role of bacteria in biogeochemical cycling from microzone to global scales, with particular focus in marine systems. May be repeated for credit. J. ZEHR

290E. Topics in Climatic and Oceanic Change. *

Weekly seminar series covering recent developments in climatic and oceanic change. Different topics and

approaches stressed from year to year. Prerequisite(s): interview with instructor prior to first class meeting. May be repeated for credit. A. RAVELO

290G. Topics in Physical Oceanography. S

Weekly seminar series covering topics in physical oceanography as well as biological-physical interactions in the oceans. Different topics and approaches stressed from year to year. Enrollment restricted to graduate students; undergraduates may enroll with permission of instructor. May be repeated for credit. A. MOORE

290H. Topics in Ocean Optics. W

Examines recent developments and application of bio-optics to the marine environment, including theory, instrumentation, and remote sensing. Different topics and approaches emphasized from year to year. Prerequisite(s): previous course in ocean sciences recommended. Enrollment restricted to graduate students; senior undergraduates with permission of instructor. May be repeated for credit. R. KUDELA

290J. Topics in Marine Organic Geochemistry. *

Examines recent developments in uses of organic geochemistry to trace oceanographic and biogeochemical processes. Focuses on introduction to organic biomarkers, current literature, and evolving applications. Different topics and approaches emphasized from year to year. Prerequisite(s): previous course in ocean sciences

and organic chemistry are recommended. Enrollment restricted to graduate students; upper-division undergraduates with instructor's permission. May be repeated for credit. M. MCCARTHY

292. Seminar (no credit). F,W,S

Weekly seminar on various topics attended by faculty, graduate, and upper-division undergraduate students. THE STAFF

296. Teaching in Ocean Sciences (2 credits). F

For new and/or relatively inexperienced graduate students in pedagogy of ocean sciences. Role and responsibilities of teaching in ocean sciences described and developed. Includes discussions about effective teaching methods; hands-on issues for work in the laboratory; university expectations; and regulations regarding teaching, organizational strategies, time management, and working with instructors and staff. Prerequisite(s): graduate standing or permission of instructor. Enrollment restricted to graduate students. C. EDWARDS

297. Independent Study.

Independent reading, research, and written reports not related to thesis research. Students submit petition to sponsoring agency. THE STAFF

299. Thesis Research.

Students submit petition to sponsoring agency. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

PHILOSOPHY

2017-18 General Catalog

220 Cowell College

(831) 459-2070

<http://philosophy.ucsc.edu>

PROGRAM DESCRIPTION

Philosophy investigates fundamental questions about the most basic facets of human thought and life, e.g., concerning knowledge and belief (epistemology), the nature of reality (metaphysics), and morality and aesthetics (value theory). Such questions can be studied by looking at answers that contemporary philosophers propose, by investigating the principles that other disciplines use to legitimate claims, or by learning how, historically, philosophers approached these issues. In this respect, "philosophy" names not only a historically defined subject matter, but also inquiry into any of the fundamental determinants of rational thought. Thus, students of philosophy can pursue a broad range of topics of the greatest historical, intellectual, social, political, and personal interest.

The department offers courses that relate these traditional philosophical questions to contemporary work in literature and the social and natural sciences. In addition, the department offers several courses that make a careful study of the classic texts in philosophy, ancient and modern. Moreover, the curriculum covers all the dominant contemporary schools of philosophy in the Anglo-American and European traditions.

The study of philosophy enables students to expand their abilities in critical thinking and reasoning as well as to improve their skills in verbal and written communication. Students may major or minor in philosophy.

Philosophy prepares students for many careers as well as for most professional schools, including law. Students who wish to go to graduate school in philosophy are encouraged to study logic at both the introductory and intermediate levels and any languages that are necessary for advanced scholarship in the different historical eras of philosophy.

PROGRAM LEARNING OBJECTIVES

Students who complete the philosophy major should emerge with the following knowledge and skills:

- an ability to argue cogently for a philosophical point and to analyze and criticize the arguments of others;
- a familiarity with the central concepts and key debates in the core areas of contemporary philosophical thought, including ethics, metaphysics, and epistemology;

- a familiarity with the works of the major figures in the history of philosophy; and
- a familiarity with formal logic, including the ability to carry out proofs within symbolic formal systems.

PREPARATION FOR TRANSFER STUDENTS

The pathway from community college to studying philosophy at any University of California campus includes preparation in the following areas:

- Introduction to Symbolic Logic
- Ancient Philosophy
- Modern Philosophy
- Ethical Theory
- Philosophy of Mind or Epistemology

MAJOR REQUIREMENTS

COURSES

Eleven courses are required: two at the introductory level, two in the history of philosophy sequence (100A, 100B, 100C), and seven additional upper-division courses (including one advanced seminar). Students may petition to substitute courses taken at other institutions (please note that logic classes offered at community colleges will often not fulfill the department's logic requirement). These 11 courses must meet the following distribution requirements:

Introductory. Course 9 and at least one of courses 11, 22, or 24. Transfer students should check Assist.org for articulation agreements.

History of philosophy. Two of 100A, 100B, or 100C (all three strongly recommended for students who anticipate graduate work in philosophy). Taking any two from the sequence Philosophy 100A, 100B, and 100C will satisfy the Disciplinary Communication (DC) requirement.

Upper-Division. Six courses numbered 100A or above, at least one in value theory and two in metaphysics and/or epistemology. Note that the two courses counted toward fulfilling the history of philosophy

Philosophy

requirement cannot be counted among these six additional courses.

Courses satisfying the value theory requirement: 118, 137, 140, 142, 143, 144, 147, 148, 152, and 153.

Courses satisfying the metaphysics and epistemology requirement: 114, 115, 121, 122, 125, 126, 127, 133, 135, and 171.

Courses 195A, 195B, and 199 also cannot be counted among these six courses. All upper-division courses must be completed at UCSC unless a petition for an exception is approved by the undergraduate program director. A maximum of two course substitutions may be approved; any upper-division courses from other institutions must have earned a grade B or higher.

Senior Seminar. One advanced seminar numbered 190.

Courses must be satisfied in the following sequence. Before being eligible to enroll in any course in the history sequence (Philosophy 100A-100C), a student must have completed all required introductory courses, i.e., Philosophy 9 and at least one from Philosophy 11, 22, or 24. Before being eligible to enroll in any philosophy course above Philosophy 100C, prospective majors must have taken at least one of the required history of philosophy courses (i.e., either Philosophy 100A, 100B, or 100C). Transfer students wishing to major in philosophy should consult with the Philosophy Department undergraduate adviser as soon as possible.

DECLARING THE MAJOR OR MINOR

Students must have taken or currently be enrolled in at least one philosophy course in order to declare the major or minor. Students declare by visiting the undergraduate adviser, who will develop an individual academic plan and complete a Petition for Major/Minor Declaration form.

DISCIPLINARY COMMUNICATION REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC Requirement in philosophy is met by completing any two from the sequence Philosophy 100A, 100B, and 100C.

COMPREHENSIVE REQUIREMENT

In the fourth year, students satisfy the comprehensive (exit) requirement by taking one course numbered 190. This advanced seminar meets the standards of the senior-year level of achievement in philosophy. Students who do superior work in an advanced seminar can be awarded a notation of Honors in the evaluation for that course. In addition to Honors in an advanced seminar, graduating seniors with a distinguished record of achievement in their philosophy courses may be awarded Honors or Highest Honors in the philosophy major.

Graduation with Honors in Philosophy requires at least a 3.7 average in all philosophy courses taken at UCSC. Graduation with Highest Honors in Philosophy requires at least a 3.9 average in all philosophy courses taken at UCSC. Students with an average between 3.8 and 3.9 may be awarded Highest Honors by vote of the Philosophy Department.

MINOR REQUIREMENTS

A minor in philosophy consists of nine of the 11 courses required for the major, and will meet the following distribution requirements:

- Introductory. Course 9 and at least one of 11, 22 or 24.
- History of Philosophy. Two of 100A, 100B, or 100C.
- Upper-Division. Four courses numbered 100A or above, at least one in value theory and two in metaphysics and/or epistemology.
- Elective. The final course may be lower- or upper-division.

One upper-division course substitution may be considered. Lower-division courses completed elsewhere may also be considered. Substitution requests are to be made via petition to and are subject to approval by the undergraduate program director. There is no senior exit requirement for the minor.

PROGRAM PLANNING NOTES

When a faculty member thinks that a student has done exceptional work that could be carried to a more advanced level, the student may be given the option of writing a senior essay (course 195A). Normally, the senior essay is completed in one quarter; in unusual circumstances, it can be continued for a second quarter (course 195B), but only if the writing requirements for course 195A are completed successfully and on time. The senior essay, like individual studies more generally, does not count toward the 11 courses required for the major.

After undergraduates have taken the requisite introductory courses, they have a wide range of upper-division courses from which to choose. Those who are considering advanced study are encouraged to consult regularly with any member of the philosophy faculty about the courses that would best prepare them for graduate work. Preparation for graduate work ought to begin before senior year. The Philosophy Department sponsors workshops in the spring and fall quarter for students contemplating graduate school in philosophy.

PREPARATION FOR THE MASTER'S DEGREE

Students can apply to be admitted into the graduate program to pursue the M.A. in philosophy. Interested students should discuss the possibility with one or

Philosophy

more faculty members and formally apply online to the graduate program during the fall quarter of their senior year. For up-to-date information about the application process, consult [the department's website](#); and see the Philosophy Department manager.

FIVE-YEAR BA/MA PATHWAY

The B.A./M.A. pathway is an option that allows students to complete the requirements for both degrees in five years, rather than the usual six.

Interested students with a GPA of at least 3.5 will be asked to indicate their intention to participate in the program no later than the seventh week of the spring quarter of their junior year (spring quarter advising week). Intentions to participate should be directed to the undergraduate staff adviser. Subject to instructor consent, students may then enroll in two graduate philosophy seminars in their senior year.

Actual admission to this program requires that students apply to the M.A. program through the standard graduate admissions process as specified on the UCSC's Graduate Division's website. If a student is then admitted, up to two graduate philosophy seminars taken in their senior year will count as credit toward their graduate degree. Students matriculating through the B.A./M.A. pathway will be required to take the remaining seven courses required for the M.A., as well as to write and defend their M.A. paper, in the fifth year. Those needing additional time may continue in the pathway in accordance with normative time expectations for the stand-alone master's program.

GRADUATE PROGRAM

The department's graduate program profile emerges from its distinctive approach to the study of philosophy, including an interest in the history of philosophy as an indispensable background to the main areas of contemporary concern in the discipline. More specifically, the department's characteristic and compelling strength lies in its attitude towards the two current traditions in philosophy—the so-called analytic and continental traditions. While analytically trained, the majority of the faculty has research or teaching interests in some major 19th and 20th century European figures, including, among others, Hegel, Nietzsche, Husserl, Heidegger, and Foucault.

Among the faculty's main contemporary interests are those topics commonly pursued in any high-ranking research and teaching program, including for example research and teaching interests in philosophy of science, philosophy of biology, metaphysics, philosophy of mind, logic, epistemology, philosophy of language, philosophy of religion, moral philosophy, and aesthetics. The faculty's research and teaching in these areas is informed by leading historical figures, including especially Kant, Aristotle, Hume, Wittgenstein and—again, uniquely for such a small department—leading

figures from the Middle Ages and late antiquity (including medieval Islamic figures).

Graduate students are therefore able to take advantage of a wide range of courses in the history of philosophy, including ancient, early modern, Kant, 19th-century, and the history of 20th-century philosophy (analytic, continental, and combined).

Both the master of arts (M.A.) and the doctor of philosophy (Ph.D.) programs encourage interaction with other fields.

GRADUATE PROGRAM REQUIREMENTS

Requirements in the First Year

During their first year, all graduate students are expected to fulfill a set of breadth requirements. These requirements are designed to provide both a common experience on which students can build their individual projects and a shared framework within which they can exchange ideas. Six courses, to be completed in the first year, are required of every graduate student in philosophy. These six core courses will constitute the bare minimum required for the M.A. or Ph.D.

This minimal core set of courses will consist of (i) three graduate seminars, designated by the department each year as mandatory for every first year student, and (ii) three electives (any three graduate seminars in philosophy). Of the three required seminars, one will be in metaphysics/epistemology, one in the history of philosophy, and one in moral philosophy.

No courses labeled Philosophy 294 or higher will satisfy any of these minimum core requirements. This restriction is redundant for 299 (since that course is open only to students who have advanced to candidacy). The point of this restriction is to limit the use of independent studies, reading groups or student seminars for graduate seminar credit.

During their first year of study all students must pass a logic competency examination with a grade of B or better. This examination will cover material typically taught in a first course in formal logic.

To facilitate the professionalization of students in the exchange and development of academic knowledge and skills, all first- and second-year doctoral students will be required to enroll in Philosophy 280 and 281.

Philosophy 280, Graduate Colloquia Course, provides preparation for and requires attendance at all department-sponsored colloquia and works-in-progress presentations each quarter.

Philosophy 281, The Pedagogy of Philosophy, provides training in university-level teaching in general and in the pedagogy of philosophy specifically. It meets during the fall quarter only.

For further details, see the graduate program statement on the department's web page or consult with the department's graduate adviser.

Philosophy

PH.D. PROGRAM

The Ph.D. program provides students with closely monitored training in philosophy. The program is designed to be completed in six years or less. Graduate work in philosophy can lead to careers both inside and outside academia. Because most doctoral students will be preparing for a career that involves teaching philosophy, they are encouraged to be teaching assistants for at least three quarters.

Courses. A minimum of 12 graduate courses. Up to two courses may be taken from the offerings of other departments, and up to two courses may be independent studies.

Language requirement. The foreign language will be individually determined based on the relevance of such linguistic skills to the research interests of the student. Proficiency can be demonstrated either by passing a written examination administered by the department or by successfully completing a language course approved by the graduate committee.

Qualifying examination and Research Seminar. The qualifying examination, normally taken during the third year of enrollment, is centered on a qualifying essay that demonstrates the candidate's ability to do extended, dissertation-level research and analysis relevant to the proposed thesis topic and dissertation plan. The examination focuses on the student's research project and on the fields of scholarship it presupposes.

Near the end of the required coursework, doctoral students will develop a research project resulting in a substantial paper. The paper is required to enroll in the research seminar, Philosophy 270, which must be completed during or before winter quarter of the third year. The seminar will allow students to make substantial progress on a qualifying essay and cultivate their ability to assess and provide critical feedback on another author's philosophical work. Philosophy 270 is only offered in winter quarter, and will normally be taken in the third year, though with permission of the instructor, it may be taken earlier than the third year. It is optional for M.A. students.

Prospectus. Within one year of passing the qualifying examination, i.e. usually during the fourth year, doctoral students will submit and defend a dissertation prospectus, consisting of some written foundation and a plan for completion of the dissertation. The committee for the prospectus defense is normally the dissertation committee.

The prospectus will be submitted at least one month prior to the defense. It will normally consist of:

1. A detailed outline or table of contents of the entire dissertation
2. A bibliography indicating knowledge of the scope of the relevant literature
3. A paper that would be suitable as a chapter of the dissertation and that (a) clearly shows the

potential for developing the rest of the dissertation, or (b) lays out the central problem which the dissertation will address.

Dissertation. The final requirement for the Ph.D. degree is a dissertation representing a contribution to philosophical research.

M.A. PROGRAM

Applications to the M.A. program are welcomed from talented students with diverse academic backgrounds. The program is open not only to applicants who majored in philosophy as undergraduates, but also to applicants from other disciplines, who have a significant background in philosophy and who now want to study philosophy more intensively. The program is designed to be completed in one or two years.

Courses. A minimum of nine graduate courses. Up to two courses may be taken from the offerings of other departments, and up to two courses may be independent studies.

Languages. There is no foreign language requirement for M.A. students.

Master's paper. By the end of the second year of study and the completion of 45 credits, M.A. students will submit a master's paper, which will normally be defended orally before a committee of two faculty members.

RELATIONSHIP OF THE M.A. AND PH.D. PROGRAMS

Students in the M.A. and Ph.D. programs will be in the same classes and work on the same course distribution requirements. Enrollment in the M.A. program confers no advantage for admission to the Ph.D. program.

APPLICATIONS AND ADMISSIONS

Application materials are available [online](#). Further information regarding the program may be requested from the Department of Philosophy at (831) 459-4578, fax: (831) 459-2650 or visit [the department website](#).

DESIGNATED EMPHASIS

To receive a designated emphasis in philosophy, graduate students from other departments must complete the following requirements in addition to degree requirements for the doctorate in their home department.

1. **Department approval.** The primary faculty adviser is to be consulted about the intention to pursue a Philosophy Designated Emphasis.
2. **Philosophy adviser.** A core philosophy faculty member is required to act as an adviser and serve on both the qualifying examination committee and the dissertation reading committee.

Philosophy

- 3. Coursework.** Students must complete four graduate courses in philosophy selected in consultation with the philosophy faculty adviser. One of the four may be an independent study approved by the philosophy faculty adviser.
- 4. Writing.** Students must submit a significant piece of writing that demonstrates competency

in the field. The writing could take the form of a seminar paper or dissertation chapter. The essay must meet the approval of the philosophy adviser.

Guidelines and application forms are available in the Philosophy Department office.

PHILOSOPHY FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

W. Emmanuel Abraham, Emeritus

Robert A. Goff, Emeritus

Jorge Hankamer

Syntax, morphology, computational linguistics, Turkish

David C. Hoy, Distinguished Professor, Emeritus

Richard E. Otte

Philosophy of religion, formal epistemology, philosophy of science, philosophical logic

Paul A. Roth, Distinguished Professor

Philosophy of social science, Quine, philosophy of history, philosophy and sociology of science, epistemology, history of analytic philosophy

Ellen Kappy Suckiel, Emerita

Richard A. Wasserstrom, Emeritus

ASSOCIATE PROFESSOR

John F. Bowin

Ancient philosophy, especially ancient science and metaphysics, and contemporary analytic metaphysics

Jonathan Ellis

Philosophy of mind, epistemology, philosophy of psychology, philosophy of language, Wittgenstein

Daniel Guevara

Kant, moral philosophy, moral psychology, environmental ethics, history of modern philosophy

Nico Orlandi

Philosophy of mind, philosophical psychology, epistemology, philosophy of cognitive science

Abraham D. Stone

Nineteenth- and early 20th-century German philosophy

(continental and analytic), philosophy of science and mathematics, medieval philosophy, metaphysics, Kant

Rasmus G. Winther

Philosophy of science, philosophy of biology, philosophy of mind, pragmatism, Latin American philosophy, continental philosophy, philosophy of multiculturalism, feminism, ontology, evolutionary theory, cognitive science

ASSISTANT PROFESSOR

Janette Dinishak

Philosophy and history of psychiatry and psychology, Wittgenstein, philosophy of mind, philosophy of science, disability studies, ethical theory

Samantha Matherne

Kant, 20th-century European philosophy (especially phenomenology, neo-Kantians), aesthetics

Lecturer

Kyle Robertson

Ethics, applied ethics, philosophy of law, logic, ancient ethics

PROFESSOR

Karen M. Barad (Feminist Studies)

Feminist science studies, materialism, deconstruction, poststructuralism, posthumanism, multi-species studies, science and justice, physics, 20th-century continental philosophy, epistemology, ontology, ethics, philosophy of physics, feminist, queer, and trans theories

Jerome Neu, Emeritus (Humanities)

PHILOSOPHY COURSES

LOWER-DIVISION COURSES

8. Reason, Logic, and the Idols of Thought.*

Students cultivate their ability to distill and critically assess the

barrage of argument and rhetoric with which they are confronted every day--on the Internet, in the media, on campus--and learn to subject their own thoughts to more rigorous, logical standards. (Formerly Logic, Numbers, and

Emotion: Thinking Clearly in Everyday Life.) (General Education Code(s): SR.) J. ELLIS

9. Introduction to Logic. F,W

A first course in symbolic deductive logic. Major topics include (but are not limited to) the study of systems

Philosophy

of sentential logic and predicate logic, including formal deduction, semantics, and translation from natural to symbolic languages. (General Education Code(s): MF.) (F) N. ORLANDI, (W) J. BOWIN

11. Introduction to Philosophy. F,W,S

An introduction to the main areas of philosophy through critical reflection on and analysis of both classical and contemporary texts. Focuses on central and enduring problems in philosophy such as skepticism about the external world, the mind-body problem, and the nature of morality. (General Education Code(s): TA.) (F) S. MATHERNE, (W) N. ORLANDI, (S) R. WINTHER

22. Introduction to Ethical Theory. F,S

A consideration of ethical issues and theories focusing on the foundation of moral value and the principles governing character and behavior. Designed to extend and develop the student's abilities in philosophical reasoning about ethics. (General Education Code(s): CC.) (F) J. DINISHAK, (S) D. GUEVARA

23. Philosophy of Cognitive Science. *

Explores the philosophical issues that arise in cognitive science, particularly issues concerning the nature of minds. Students consider the idea that the mind is a digital computer, then analyze alternatives, such as connectionism and dynamics. (General Education Code(s): PE-H.) N. ORLANDI

24. Introduction to Ethics: Contemporary Moral Issues. *

An examination of the conceptual and moral issues that arise in connection with a variety of specific ethical issues. Topics vary according to the interests of the instructor, but among those commonly discussed are: abortion, war and violence, euthanasia, world hunger, human rights, and animal rights. The readings are typically drawn from recent philosophical articles on these topics, but earlier sources (important in the history of philosophy) can be considered as

well. (General Education Code(s): PE-H.) THE STAFF

80E. Latin American Philosophy. *

Is there a general school of philosophy endemic to Latin America? Would it have to appeal to quintessential Western philosophical questions regarding knowledge, values, and reality? If not, why not, and would it then still count as philosophy? What difference do ethnic and national diversity, as well as strong political and social inequality, make to the development of philosophical questions and frameworks? Course explores a variety of historically situated Latin American thinkers who investigate ethnic identity, gender, and socio-political inequality and liberation, and historical memory, and who have also made important contributions to mainstream analytical and continental philosophy. (Also offered as Latin American&Latino Studies 80E. Students cannot receive credit for both courses.) R. WINTHER

80G. Bioethics in the 21st Century: Science, Business, and Society. F

Serves science and non-science majors interested in bioethics. Guest speakers and instructors lead discussions of major ethical questions having arisen from research in genetics, medicine, and industries supported by this knowledge. (Also offered as Biomolecular Engineering 80G. Students cannot receive credit for both courses.) (General Education Code(s): PE-T.) S. DREISBACH

80M. Philosophical Foundations of Science Studies. W

Provides a philosophical perspective concerning the revolution in the understanding of science that generated the so-called "science wars." Introduces the changed philosophical understanding of science shared and presupposed in the fields of science, technology, and society. (Formerly SCIENCE AND SOCIETY.) P. ROTH

80S. The Nature of Science. *

A survey of what philosophers have said about the nature of science and scientific change. Emphasis is placed on whether science is best characterized as the gradual accumulation of truth or whether truth is irrelevant to scientific change. J. DINISHAK, R. OTTE

99. Tutorial. F,W,S THE STAFF

UPPER-DIVISION COURSES

100A. Ancient Greek Philosophy. F

Survey of ancient Greek philosophy of the Classical and Hellenistic periods. Begins with Socrates and the pre-Socratics, then undertakes an intensive study of Plato and Aristotle. Course then surveys the main developments that follow: Epicureanism, Stoicism, and Scepticism. Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the Entry Level Writing and Composition requirements. J. BOWIN

100B. The Rationalists. W

A study of the historical background and the present relevance of Descartes, Spinoza, and Leibniz. Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the Entry Level Writing and Composition requirements. A. STONE

100C. The Empiricists. S

A critical study (based on original texts) of Locke, Berkeley, and especially Hume on the nature of knowledge, perception, causation, morality, religion, and political society. Prerequisite(s): course 9; courses 11 or 22 or 24; and satisfaction of the Entry Level Writing and Composition requirements. A. STONE

106. Kant. S

Intensive study of Kant's philosophy, particularly his epistemology and metaphysics developed in his CRITIQUE OF PURE REASON. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C.

Philosophy

Enrollment limited to 70. S.
MATHERNE

107. Nineteenth-Century Philosophy. *

A study of some European philosophers of the 19th century, with particular attention to Hegel, Schopenhauer, and Nietzsche. (Formerly course 108.)

Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. THE STAFF

108. Phenomenology. *

French phenomenology includes primarily the work of Jean-Paul Sartre, Simone de Beauvoir, and Maurice Merleau-Ponty. Additional topics include the nature of consciousness and agency. Course includes discussions of French feminists' reactions to Simone de Beauvoir and Emmanuel Levinas. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. THE STAFF

111. Continental Philosophy. *

Study of recent work in continental philosophy. Topics vary. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. WINTHER

112. American Philosophy. F

Study of classical American philosophers, specifically Emerson, Peirce, James, and Dewey, with emphasis on their views of metaphysics, epistemology, ethics, and philosophy of religion. Some attention is also paid to recent pragmatic tendencies in American philosophy. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. WINTHER

113. The History of Analytic Philosophy. *

Examination of the beginnings and development of analytic philosophy, with primary interest in the reformulation of traditional philosophical problems beginning with Frege. Other figures studied include, but are not limited to, Russell, Carnap, Wittgenstein, Quine, and Sellars. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. P. ROTH

114. Probability and Confirmation. *

Studies the philosophical foundations of probability, induction, and confirmation. Different interpretations of probability studied, and solutions to various problems and paradoxes investigated. Students cannot receive credit for this course and course 214. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. OTTE

115. Formal Methods in Philosophy. *

Study of formal methods commonly used in analytic philosophy. Emphasis is on developing the technical tools to enable one to read and do modern analytic philosophy. Applications of various formal tools to philosophical problems will also be discussed. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. OTTE

116. Logic, Sets, and Functions. *

Introduction to basic set theory, recursive definitions, and mathematical induction. Provides a bridge between course 9 and courses 117 and 119. Strong emphasis on proving theorems and constructing proofs, both formal proofs and proofs in the customary, informal style used by mathematicians. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. J. BOWIN

117. Non-Classical Logic. *

Investigations of non-classical logic. Several non-classical logics, such as various modal logics, multi-valued logics, and relevance logics studied. Meta-theoretic results investigated for each logic studied. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. OTTE

118. Stoic Ethics. F

Surveys Stoic Ethics in the Hellenistic and Roman Periods, attending both to the theoretical writings of early Stoa (e.g., Zeno and Chrysippus) as well as to the therapeutic and protreptic writings of later figures (e.g., Seneca and Epictetus). Prerequisite(s): course

100A or 100B or 100C; or consent of instructor. J. BOWIN

119. Intermediate Logic. S

Detailed treatment of the semantics of first order logic and formal computability. Completeness, undecidability of first order logic and Lowenheim-Skolem results also proven. Nature and formal limits of computability and introduction to incompleteness also investigated. Students cannot receive credit for this course and course 219.

Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. R. OTTE

121. Epistemology. *

A sustained look at central problems in epistemology. Topics might include the problem of other minds, the nature of justification and knowledge, skepticism of the external world, the nature and limits of human rationality, the problem of induction. (Formerly Knowledge and Rationality.) Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. Enrollment limited to 98. J. ELLIS

122. Metaphysics. *

Survey of contemporary analytic metaphysics. Topics may include nominalism, metaphysical realism, and the ontological analysis of concrete particulars, including problems of modality and persistence through time. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. J. BOWIN

123. Philosophy of Language. *

Current theories of the nature and preconditions of language, the nature of meaning, and the nature of truth. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. THE STAFF

124. Other Minds. F,W,S

An examination of the traditional philosophical "problem of other minds" and related contemporary scientific issues concerning what it is to encounter a mind that is not one's own and is relevantly unlike one's own. Prerequisite(s): course 9; and course 11 or 22 or 24; and

Philosophy

course 100A or 100B or 100C J.
DINISHAK

125. Philosophy of Science. *

An examination of various topics that arise in thinking about science. Different philosophical problems, such as realism, instrumentalism, confirmation, explanation, space and time, and rational decision making are extensively discussed and criticized. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. A. STONE

126. Philosophy of Social Sciences. W

Examines philosophical concerns regarding the methods and assumptions of the social sciences. For example, must the methods of the social sciences differ in some important ways from those used by the natural sciences? Another issue concerns problems arising from studying groups where the very notion of rationality appears to vary from culture to culture or over historical periods. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. P. ROTH

127. Philosophy of Biology. *

Can developmental processes be reduced to gene expression? Does the history of life exhibit trends (e.g. increasing complexity)? How are we to understand key concepts such as "fitness," "species," "adaptation," and "gene?" Is there such a thing as human nature? Course surveys these and other core philosophical topics in the biological sciences. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. Enrollment limited to 39. R. WINTHER

133. Philosophy of Mind. W

Focuses on philosophical questions concerning the nature of mind. Central topics include the relation between mind and matter, and the nature of consciousness. Other topics typically explored include: artificial intelligence; animal consciousness and intelligence; and the relation between thought and language. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A

or 100B or 100C, or by consent of instructor. N. ORLANDI

135. Philosophy of Psychology. *

Looks at philosophical issues raised by current research on the nature of perception, cognition, and consciousness in psychology and cognitive science or neuroscience. Can there be a science of the mind? Could machines be conscious? Do animals have minds? How did the mind evolve? These and a host of related questions form the subject matter of this course.

Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C, or by consent of instructor. Enrollment restricted to sophomores, juniors, and seniors. J. DINISHAK

140. History of Ethics. W

A careful study of any one or a number of selected primary texts in the history of moral philosophy, with some emphasis on the relation to contemporary issues. Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. J. DINISHAK

142. Advanced Ethics. *

An examination of central issues in ethical theory including the nature of and justification for the moral point of view, the place of reason in ethics, the status of moral principles, and the nature of moral experience. Prerequisite(s): course 9; course 22, 24, or 28, and course 100A or 100B or 100C. D. GUEVARA

143. Applied Ethics: Ethics Bowl. F

Intensive application of ethics through Ethics Bowl-style debate. Cases change annually. Students develop oral advocacy skills and are given the opportunity to compete for a position on the extracurricular Ethics Bowl team. Enrollment limited to 15. May be repeated for credit. K. ROBERTSON

144. Topics in Social and Political Philosophy. *

A study of selected classical and contemporary writings dealing with topics such as the nature and legitimacy of the liberal state, the limits of political obligation, and

theories of distributive justice and rights. (Formerly Social and Political Philosophy.) (Also offered as Legal Studies 144. Students cannot receive credit for both courses.) Prerequisite(s): course 9; course 11 or 22 or 24; course 100A or 100B or 100C. Offered in alternate academic years. May be repeated for credit. THE STAFF

147. Topics in Feminist Philosophy. *

Topics in feminist philosophy, which may include: the nature of feminist philosophy, feminist approaches to philosophical issues, social and political philosophy, theories of knowledge, ethics, aesthetics, and science, technology, and medicine studies. Presupposes some familiarity with philosophy or feminist scholarship. (Also offered as Feminist Studies 168. Students cannot receive credit for both courses.) Prerequisite(s): course 9; and course 11 or 22 or 24; and course 100A or 100B or 100C. THE STAFF

148. The Holocaust and Philosophy. *

By using the historiography of the Holocaust as a case study, examines the epistemology and ontology of historical knowledge, i.e., how the past is known, and what about it there is to know. Prerequisite(s): course 9; and course 11 or 22 or 24; and course 100A or 100B or 100C. Enrollment restricted to juniors and seniors. P. ROTH

152. Aesthetics. S

Problems about form, meaning, and interpretation in art, as found in major aesthetic theories from the philosophical tradition, and also in a variety of encounters between recent philosophy and the arts. Prerequisite(s): course 100A or 100B or 100C. S. MATHERNE

153. Philosophy of Race. *

Topics include conceptual-analytical and political-social issues. Selected topics may include: the ontology of race; race as real or constructed; scientific understandings of race; race and identity; and color-blind versus color-sensitive theories of justice and political policy. Prerequisite(s):

Philosophy

course 9; course 11 or 22 or 24; course 100A or 100B or 100C; or consent of instructor. R. WINTHER

171. Faith and Reason. S

Recent work in analytic philosophy of religion, concentrating on traditional theism. Topics include arguments for and against the existence of God, religious experience, miracles, the relation of faith and reason, and problems such as freedom and divine foreknowledge. Prerequisite(s): course 9; and course 11 or 22 or 24; and course 100A or 100B or 100C. R. OTTE

180R. Readings in Philosophy (2 credits). *

Discussion-based course centered on readings in philosophy. Readings change each term and are a mixture of books, chapters from books, and articles. Prerequisite(s): One philosophy course. Enrollment by permission of instructor. Enrollment limited to 20. May be repeated for credit. THE STAFF

190. Senior Seminar. F,W,S

Special topics. Format varies each quarter. Prerequisite(s): course 9; course 11 or 22 or 24; and two from courses 100A, 100B, and 100C. Enrollment restricted to senior philosophy majors and by permission of instructor. May be repeated for credit. (F) J. DINISHAK, (F) N. ORLANDI, (W) J. BOWIN, (W) A. STONE, (S) P. ROTH, (S) R. WINTHER

195A. Senior Essay. F,W,S

Preparation of senior essay (approximately 25 pages) during one quarter. Students submit petition to sponsoring agency. THE STAFF

195B. Senior Essay. F,W,S

Under exceptional circumstances, a second senior essay continuing the work of the first essay is permitted but only when the first senior essay has been completed. Students submit petition to sponsoring agency. THE STAFF

199. Tutorial. F,W,S

May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

202. Topics in Ancient Greek Philosophy. *

Topics will vary each quarter and will focus on some major ancient Greek philosophical figure or work. Enrollment restricted to philosophy graduate students. May be repeated for credit. J. BOWIN

203. Autism. *

Explores autism and its implications for various fields of inquiry, especially philosophy. Previous familiarity with autism is not presupposed. Some background in philosophy of mind, cognitive science, and psychology recommended. Enrollment restricted to graduate students. J. DINISHAK

214. Probability and Confirmation. *

Studies the philosophical foundations of probability, induction, and confirmation. Different interpretations of probability studied, and solutions to various problems and paradoxes investigated. Enrollment restricted to graduate students. R. OTTE

222. Metaphysics. *

Advanced introduction to topics in 20th century and contemporary analytic metaphysics. Divided into five main parts dealing, respectively, with issues about the nature of existence, properties, time, change and persistence, and material constitution. Enrollment restricted to philosophy graduate students. J. ELLIS

224. Philosophy of Language. *

Advanced introduction to issues in the philosophy of language—primarily concerning the nature of reference, meaning, and truth. Works from such 20th-century figures as Russell, Wittgenstein, Kripke, Lewis, and Putnam discussed. Topics include what it is for a sign or a bit of language to be meaningful, or for it to identify or represent something; what it is for a

statement to be truthful; what it is to be a language; and how reference works when attributed to beliefs. Enrollment restricted to philosophy graduate students. THE STAFF

231. Epistemology. W

May focus on topics such as naturalized epistemology, probabilistic epistemology, theories of justification, a priori knowledge, memory, and virtue epistemology. (Formerly Metaphysics and Epistemology.) Enrollment restricted to philosophy graduate students. May be repeated for credit. J. ELLIS

232. Advanced Topics in Value Theory. *

Considers topics central to philosophical questions about value: ethics, normativity, practical reason, relativism, skepticism, responsibility, motivation, emotion, and so forth. In some instances, the investigation will proceed through influential historical figures, ancient to modern. Enrollment restricted to philosophy graduate students. Enrollment limited to 22. May be repeated for credit. D. GUEVARA

233. Seminar in Philosophy of Mind. *

A study of one or more topics in contemporary philosophy of mind. Enrollment restricted to graduate students. May be repeated for credit. N. ORLANDI

235. Philosophy of Psychology. *

Looks at philosophical issues raised by current research on the nature of perception, cognition, and consciousness in psychology and cognitive science or neuroscience. Can there be a science of the mind? Could machines be conscious? Do animals have minds? How did the mind evolve? These and a host of related questions form the subject matter of this course. Prerequisite(s): One course in philosophy, psychology, or linguistics. Enrollment restricted to graduate students. THE STAFF

237. Making Up the Mind. *

How does the mind come to be a thing which science can study? Readings focus on how diagnostic categories, for example, multiple

Philosophy

personality disorder, attain scientific cachet and what issues surround the "medicalization" of the mind. Enrollment restricted to graduate students. P. ROTH

239. Philosophy of Religion. *

Investigation of various topics in philosophy of religion. Enrollment restricted to philosophy graduate students or by permission of instructor. May be repeated for credit. R. OTTE

246. Ethics, Nature, and Natural Selection. W

Explores the role, if any, that Darwinian theory and evolutionary biology should have on ethical theory. Topics range from classic work, including Darwin and classic expositors, to influential contemporary work on natural selection, in light of the best philosophical literature. (Also offered as Biology:Ecology & Evolutionary 287. Students cannot receive credit for both courses.) Enrollment is restricted to graduate students. Enrollment limited to 20. May be repeated for credit. D. GUEVARA, C. CAMPAGNA

252. Poststructuralism. *

French poststructuralism, with particular attention to the main philosophical texts of Jacques Derrida and Michel Foucault. Other representative theorists as well as critics of poststructuralism are studied as time permits. (Also offered as History of Consciousness 252. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. May be repeated for credit. R. WINTHER

270. Research Seminar. W

A research seminar to develop the skills of the profession with special focus on critical reading, constructing feedback, and philosophical research and writing. Must be completed by the third year. A substantial draft of a paper is required to enroll. Enrollment restricted to philosophy graduate students. May be repeated for credit. J. DINISHAK

280. Graduate Colloquia Course (2 credits). F,W,S

This colloquia series sponsors

speakers each quarter. Students must attend all colloquia and are encouraged to form discussion groups after each lecture. Enrollment restricted to philosophy graduate students. R. WINTHER

281. The Pedagogy of Philosophy (2 credits). F

Provides training for graduate students in university-level pedagogy in general and in the pedagogy of philosophy specially, under the supervision of a faculty member. Enrollment is restricted to graduate students. May be repeated for credit. J. ELLIS

290A. Philosophy of History. S

Examines issues that arise with respect to constructing histories. Inter alia, these include: the traditional philosophy of history (e.g., Hegel and Marx); modes of explanation (including narrative); the reality of the past; and underdetermination in history. Prerequisite(s): Enrollment restricted to graduate students. Enrollment limited to 10. P. ROTH

290C. Advanced Topics in Ethics. *

Topics vary but the course focuses on major questions in contemporary ethical theory, or figures influential on contemporary moral philosophy. Examines different foundational ethical principles and arguments for those principles, contrasting accounts of moral action and moral motivation, as well as the epistemological and motivational role of emotions in ethical theory. Enrollment restricted to philosophy graduate students. May be repeated for credit. D. GUEVARA

290F. Topics in Philosophy of Biology. F

Philosophy of biology is one of the fastest-growing areas of philosophy of science. Course is designed to give seniors and graduate students an overview of many of the diverse topics currently under discussion in modern philosophy of biology and provide a foundation for further research, regardless of previous experience with the biological sciences. Enrollment restricted to

graduate students. May be repeated for credit. R. WINTHER

290H. Environmental Ethics. *

What is our proper moral stance toward the natural environment? This question encompasses our ethical relations to individual non-human animals, to other species of living beings, and toward the biotic community as a whole. It leads us to consider the broader question: What makes anything at all worthy of our moral respect or even our moral consideration? How are we to understand the very idea of the environment, the distinction between the human world, and the natural world, and the relationships between them. Enrollment restricted to graduate students. D. GUEVARA

290J. Advanced Topics in the History of Ethics. *

Careful study of any one of the main moral theories in the history of philosophy, with some emphasis on the relation to contemporary moral philosophy. Enrollment restricted to graduate students. May be repeated for credit. D. GUEVARA

290K. Philosophical Matters of Scientific Practice. *

Considers the relevance of philosophical matters to the practice of science. Using quantum physics as a case study, explores historical and contemporary perspectives on issues such as those raised by the Schrodinger cat paradox, Bell's inequalities, and quantum erasers. Enrollment restricted to graduate students. K. BARAD, R. WINTHER

290O. Majors Figures in the History of Philosophy. F

Focuses on philosophical writings and significance of a single major figure in the history of philosophy, ancient, medieval, or modern. Enrollment is restricted to philosophy graduate students. Enrollment limited to 10. May be repeated for credit. S. MATHERNE

290P. Major Figures in Contemporary Philosophy. S

Focuses on philosophical writings and significance of a single figure in contemporary (20th- and 21st-

Philosophy

century) philosophy. May include, but not be limited to, Russell, Whitehead, Wittgenstein, Husserl, Carnap, Murdoch, Quine, Irigaray, Derrida, and Davidson. Enrollment restricted to philosophy graduate students. May be repeated for credit. A. STONE

290Q. Philosophy of Mathematics. *

Introduction to the problems of contemporary analytic philosophy of mathematics. Do mathematical objects exist? Are mathematical statements true? How can we know? We will examine the historical background to contemporary debates and the positions which have been taken within them. Enrollment restricted to graduate students. R. WINTHER, A. STONE

290S. Topics in the Philosophy of Science. *

An examination of a topic in current philosophy of science. The material for the course is chosen from topics such as realism and instrumentalism, scientific explanation, space and time, the confirmation of theories, laws of nature, and scientific abstraction. Enrollment restricted to graduate

students. May be repeated for credit. THE STAFF

290W. History of Consciousness. *

Historical study of philosophical theories of consciousness and self-consciousness. Problems include the relation of self and other, consciousness and body, and self-consciousness and ethical agency. Readings are from Kant, Hegel, Nietzsche, and Heidegger, followed by phenomenologists, poststructuralists, and analytic philosophy. Enrollment restricted to graduate students. R. WINTHER

294. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. May be repeated for credit. THE STAFF

295. Directed Reading. F,W,S

Directed reading which does not involve a term paper. May be repeated for credit. THE STAFF

295F. Readings in Philosophy (2 credits). F,W,S

Focuses on selected philosophical areas and/or specific philosophers. Students meet with the instructor to

discuss readings and deepen their knowledge on a particular subject. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

296. Special Student Seminar. F,W,S

A seminar for graduate students arranged between students and a faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297F. Independent Study (2 credits). F,W,S

Students submit petition to course sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Enrollment restricted to students who have advanced to candidacy. May be repeated for credit. THE STAFF

* Not offered in 2017-18

PHYSICAL AND BIOLOGICAL SCIENCES DIVISION

2017-18 General Catalog

204 Natural Sciences 2 Annex

(831) 459-2931

<http://pbsci.ucsc.edu>

PROGRAM DESCRIPTION

A broad range of majors is offered through the physical and biological sciences. The intellectual rigor of these majors ensures that our graduates are well prepared for further studies in graduate and professional schools, as well as careers in scientific research, environmental research, medicine, law, engineering, technology, and business.

The Division of Physical and Biological Sciences' interdisciplinary framework provides students with the opportunity to attend classes and pursue research that ranges from the study of atoms to the examination of distant galaxies. From abstract number theory to the development of new chemical compounds, from evolution to plate tectonics, we provide students not

only with the skills to explore and discover the world but also to define and improve it.

Departments and programs affiliated with the Division of Physical and Biological Sciences include the Departments of Astronomy and Astrophysics; Chemistry and Biochemistry; Earth and Planetary Sciences; Ecology and Evolutionary Biology; Microbiology and Environmental Toxicology; Mathematics; Molecular, Cell, and Developmental Biology; Ocean Sciences; Physics; and the Science Communication Program. More information about our undergraduate and graduate programs can be found at <http://undergrad.pbsci.ucsc.edu/>.

PHYSICAL EDUCATION

2017-18 General Catalog

East Field House
(831) 459-5076
<http://opers.ucsc.edu/>

PROGRAM DESCRIPTION

Physical education (P.E.) offers students an opportunity to learn and improve skills in a variety of areas while gaining knowledge about the relationship between fitness and wellness. With this information, students will be better prepared to make important choices leading to healthy lifestyles.

Physical education courses at UCSC, which are elective and without academic credit, are offered in a wide variety of activities. The courses consist of instruction, practice, and full participation consistent with each

student's ability. While many of the courses are for students at a beginning level, some are designed with more advanced students in mind. Most courses involve class meetings one hour in length, twice a week; but some consist of two weekly one-and-a-half-hour meetings or a single two-hour meeting per week. Some courses are offered exclusively to graduate students.

Students may enroll in as many courses as they desire and are permitted to repeat any course.

PHYSICAL EDUCATION FACULTY AND PROFESSIONAL INTERESTS

PHYSICAL EDUCATION COURSES

LOWER-DIVISION COURSES

5A. Aquatics: Swimming Level I (no credit). F,W,S

Coeducational. Water exploration and primary skills development. Course is designed to teach only "non-swimmers" how to swim. The following is taught: Red Cross swimming instruction in overcoming fears, water adjustment, floating, breath holding, and rhythmic breathing. Skills to be learned are: water entries, sculling, treading, elementary backstroke, freestyle, methods of water safety, and survival techniques. Students

pay a course fee. Prerequisite(s): instructor determines skill level at first class meeting. THE STAFF

5B. Aquatics: Swimming Level II (no credit). F,W,S

Coeducational. Stroke readiness and development. Course is for those who have completed Swimming Level I or who can swim freestyle and demonstrate elementary backstroke. Skills to be learned are underwater swimming, turns, improvement of freestyle and elementary backstroke, beginning side stroke, backstroke, breaststroke, diving, personal safety skills, and basic rescue techniques. Prerequisite(s): instructor

determines skill level at first class meeting: pass Swimming Level I course or demonstrate equivalent skills. Students pay a course fee. Enrollment limited to 20. J. MCCALLUM, THE STAFF

5C. Aquatics: Swimming Level III (no credit). F,W,S

Coeducational. Stroke refinement and skill proficiency. Course teaches refinement of basic strokes and introduces butterfly, plus backstroke, surface diving, turns, endurance swimming, and survival techniques. Students pay a course fee. Prerequisite(s): instructor determines skill level at first class meeting: pass in Swimming Level II

Physical Education

course or possess equivalent skills in freestyle, sidestroke, elementary backstroke, and breaststroke.

Enrollment limited to 30. J. MCCALLUM, THE STAFF

5D. Aquatics: Swimming Level IV (no credit). F,W,S

Coeducational. Advanced skills. Designed to perfect the techniques and skills of all basic strokes plus butterfly, surface dives, survival swimming, basic diving, endurance swimming, and personal and rescue skills. Students pay a course fee. Prerequisite(s): pass in Swimming Level III course or possess equivalent swimming skill requirements in freestyle, backstroke, sidestroke, or competitive swimming; instructor determines skill level. Enrollment limited to 30. J. MCCALLUM, THE STAFF

5E. Aquatics: Lifeguard Training (LT) (no credit). F,S

Red Cross certified lifeguard training. Provides the necessary minimum skills training to qualify as a non-surf lifeguard. Certification includes CPR Pro, AED, PDT, D2, ADMIN, and Title 22 First Aid. Candidates must successfully pass final skill tests and written final exam with 80 percent score. Students pay a course fee. Prerequisite(s): must have ability to swim 500 yards in ten minutes, tread water for one minute, strong swimming skills in free, back, breast, side, and elementary backstroke; must purchase Red Cross LT text book. Enrollment limited to 10. J. MCCALLUM

5F. Water Safety Instructor (WSI) (no credit). S

Coeducational. A Red Cross course designed to certify students who complete all required work as swimming instructors. Instruction in teaching techniques, stroke analysis, skilled swimming, class organization, pool safety, and pool maintenance. Practice teaching assignments outside of class with practical and written final exams. Screening test given at first class meeting. Prerequisite(s): must be 17 years old, possess valid ARC Instructor Candidate Training card

(ICT), and ARC swimmers-level skills. (Emergency Water Safety (EWS), or Lifeguard Training (LT) certificate is highly recommended). Students pay a course fee. Enrollment limited to 10. J. MCCALLUM

5G. Aquatics: Swimming/Conditioning (no credit). F,W,S

Open to all students who wish to explore swimming as a conditioning and fitness exercise. Students should know three competitive strokes, and should be able to swim fifteen minutes without stopping. Short health and fitness lectures precede some classes. Students pay a course fee. Prerequisite(s): instructor determination at first class meeting. Enrollment limited to 40. J. MCCALLUM, THE STAFF

5H. Aquatics: Competitive Swimming (no credit). W

Emphasis on competitive swimming and conditioning techniques. For students who want instruction at the competitive level of swimming. Three hours per week. Students pay a course fee. Prerequisite(s): instructor determination at first class meeting. Enrollment limited to 50. THE STAFF

5R. Aquatics: Basic Scuba Diving (no credit). F,W,S

Coeducational. Sections geared toward the successful completion of NAUI Scuba Diver Certification. The course is divided into three parts: lecture, pool lab, and open water experience. Four open water training dives are offered. Emphasis is on training for open water scuba diving, using the beach as a base of operation. Students pay a course fee. Prerequisite(s): pass swimming skills tests and medical clearance. It is strongly recommended that students enroll in course 5S. Enrollment limited to 24. C. SHIN, THE STAFF

5S. Aquatics: Advanced Scuba Diving (no credit). F,W,S

Coeducational. Sections are offered to facilitate the development of the basic scuba diver's open water techniques. A minimum of six open water experiences is offered. Course is geared toward successful

completion of NAUI Advanced Scuba Diver Certification. Students pay a course fee. Prerequisite(s): course 5R or pass swimming skills test and medical clearance. (Formerly course 5T.) Enrollment limited to 25. C. SHIN

5T. Scuba Rescue Diving (no credit). F,W,S

Coeducational. Course geared toward the successful completion of NAUI Rescue Diver Certification. Course consists of lecture, pool laboratory, and open-water experience. Emphasis is on training divers to manage risks and effectively handle limited in-water problems. Students pay a course fee. Prerequisite(s): Scuba certification and medical clearance. Enrollment limited to 10. C. SHIN

5U. Aquatics: Scuba Divemaster (no credit). F,W,S

Coeducational. A diving-leadership certification course for the experienced scuba student who wishes to assist with the scuba-instruction program at UCSC. Topics include teaching techniques, skin and scuba techniques, rescue techniques, and safety procedures. Specialty laboratories also offered with this course which cover a variety of diving skills. Students pay a course fee. Prerequisite(s): Basic Scuba Certification and special prerequisite checking by instructor. (Formerly AQUATICS: SCUBA INSTRUCTION.) Enrollment limited to 20. C. SHIN

9B. Boating: Beginning Dinghy Sailing (no credit). F,W,S

Coeducational. Introductory course in practical boating safety using 15-foot sailboats. Includes introduction to rigging, nomenclature, seamanship, proper boat-handling techniques, and general boating and aquatic safety. Satisfactory completion meets prerequisites for intermediate-level dinghy course. Students pay a course fee. Prerequisite(s): swimming ability. Enrollment limited to 18. H. SCHEER, R. KINGON

9C. Boating: Intermediate Dinghy Sailing (no credit). F,W,S

Coeducational. Course includes a review of basic sailing with an

Physical Education

emphasis on the further development and refinement of small-boat sailing techniques. Fifteen-foot sailboats are used with two students per boat. Students pay a course fee. Prerequisite(s): course 9B or equivalent skills. Enrollment limited to 16. H. SCHEER, R. KINGON

9D. Boating: Advanced Dinghy Sailing (no credit). F,W,S
Coeducational. For students interested in high-performance sailing using Flying Juniors and Coronado 15s. Includes special techniques used in racing conditions. Students pay a course fee. Prerequisite(s): course 9C or equivalent skills. Enrollment limited to 12. H. SCHEER, R. KINGON

9H. Boating: Basic Rowing (no credit). F,W,S
Coeducational. Course designed to cover types of rowing boats, nomenclature, fundamental skills, and specific safety and rescue aspects related to the activity. Students will row singly as well as in groups using 15-foot to 22-foot rowing dories. (Formerly course 9J.) Students pay a course fee. Prerequisite(s): swimming ability. Enrollment limited to 12. R. KINGON

9J. Boating: Intermediate Rowing (no credit). F,W,S
Coeducational intermediate course designed to cover more advanced rowing techniques and the skills needed for safe open water rowing. Students pay a course fee. Prerequisite(s): basic rowing or permission of instructor. (Formerly course 9H.) Enrollment limited to 11. R. KINGON, THE STAFF

9K. Boating: Ocean Kayaking (no credit). F,S
Co-educational course that teaches novice kayakers the skills to safely use UCSC kayaks in the Monterey Bay. Topics include: basic paddling strokes and maneuvers; self and assisted deep-water rescues; beach launching; landing through surf; and marine hazards and navigation. Students pay a course fee. Enrollment limited to 12. R. KINGON, THE STAFF

9S. Boating: Beginning Keelboat Sailing (no credit). F,W,S
Coeducational. Combines hands-on rigging and docking practice in the harbor and sailing practice on Monterey Bay with instruction in sail-trimming, de-powering, powering-up, person-overboard recovery techniques, boating safety, weather, ocean conditions, sailing theory, rigging, navigation, and the maritime rules of the road. Twenty-seven foot, ultralight, displacement keelboats are used. Students pay a course fee. (Formerly Boating: Intermediate Keelboat Sailing.) Prerequisite(s): course 9C or equivalent skills. Enrollment limited to 16. H. SCHEER, R. KINGON

9T. Boating: Intermediate Keelboat Sailing (no credit). F,S
Coeducational. Further development and refinement of boat-handling techniques, including advanced maneuvering, anchoring, and racing with an introduction to the use of spinnakers. Students pay a course fee. (Formerly Boating: Advanced Keelboat Sailing.) Prerequisite(s): course 9S. Enrollment limited to 12. H. SCHEER, R. KINGON

9X. Boating: Advanced Keelboat Sailing (no credit). F,W,S
Coeducational. Designed for the experienced sailor who desires to bareboat larger vessels in the future. Topics include: ocean navigation; anchoring techniques; boat systems, such as diesel engines; boat plumbing and electronics; and docking. Prerequisite(s): course 9T and 40 or more hours of club keelboat useage. Enrollment by permission of instructor. Students pay a course fee. Enrollment limited to 4. H. SCHEER, R. KINGON

15B. Court Sports: Basketball (no credit). F,W,S
Coeducational. Instruction in fundamentals, offensive and defensive strategies, rules, and conditioning designed primarily for beginning and intermediate level players. Students pay a course fee. Enrollment limited to 20. THE STAFF

15H. Court Sports: Racquetball (no credit). F,W,S
Coeducational. The beginning section provides an introduction to the basic knowledge and skills involved in this indoor racquet sport. The advanced beginning section continues the development of the basic skills emphasizing increased shot variety and advanced strategy. The intermediate section offers the opportunity for further skill development and introduces more advanced offensive skills. Students pay a course fee. Enrollment limited to 18. THE STAFF

15N. Court Sports: Tennis (no credit). F,W,S
Coeducational. The beginning section introduces the basics of forehand, backhand, and serve. Advanced beginning section reviews these basics and introduces the volley, overhead, and lob. The intermediate section reviews all stroke mechanics and covers basic singles and doubles strategy. The advanced section includes use of spins, practice principles, detailed stroke analysis, and advanced play situations. Competitive Tennis is a year-long program for members of the intercollegiate tennis teams. Students pay a course fee. Enrollment limited to 24. THE STAFF

15T. Court Sports: Volleyball (no credit). F,W,S
Coeducational. Beginning/intermediate, intermediate, and advanced sections are offered for students who desire to learn and improve the basic skills, as well as to understand the rules. Competitive section is open to students interested in participation in the UCSC NCAA Women's Volleyball team. It covers information and practice in all aspects of the competitive volleyball season. Students pay a course fee. Enrollment limited to 25. THE STAFF

20A. Dance: Ballet (no credit). F,W,S
Coeducational. Sections offered at various technical levels graded from

Physical Education

I to III. Emphasis on principles of movement, style, and execution of ballet technique. Section in ballet repertory where advanced students have the opportunity to perform is offered in the spring quarter. Students pay a course fee. V. BERGLAND, THE STAFF

20B. International Folk Dance (no credit). F,W,S

Coeducational. International folk dance with an emphasis on Balkan and Israeli dances. Sections are also offered periodically in Mexican dance. Students pay a course fee. R. COCHLIN

20C. Dance: Jazz (no credit). F,W,S

Coeducational. Sections offered at various technical levels graded from I to III. Exploration of jazz dance emphasizing basic technique, styling, rhythm, and isolations. Jazz and contemporary music is used as accompaniment. Some background in ballet strongly recommended before continuing to Jazz II or III. Section in jazz dance repertory where advanced students have the opportunity to perform is offered in spring quarter. Students pay a course fee. Enrollment limited to 40. THE STAFF

20D. Dance: Modern (no credit). F,W,S

Coeducational. Sections offered at various technical levels graded from I to III. Emphasis on basic techniques and building phrases of movement. Section in choreography and improvisation offered in spring quarter. Section in dance repertory offered periodically. Students pay a course fee. R. COCHLIN, THE STAFF

20F. Dance: Individual Studies in Dance (no credit). F,W,S

Coeducational. Designed to give students the opportunity of pursuing their particular interests in the field of dance with the support and direction of a faculty member. Prerequisite(s): instructor determination at first class meeting. V. BERGLAND, R. COCHLIN

25A. Fencing: Epee (no credit). F,W,S

Coeducational. Basic instruction in the techniques, strategy, and

general methodology of modern fencing. Emphasis on épée fencing as a development from the traditional French and Italian dueling sword styles as they have evolved to form the modern electrical game. Students pay a course fee. THE STAFF

25B. Fencing: Foil (no credit). F,W,S

Coeducational. Instruction in modern competitive French-Italian foil techniques for beginning, intermediate, and advanced levels. Emphasis on physical and mental conditioning leading to improved skill in recreational and competitive areas of involvement. Students pay a course fee. THE STAFF

25C. Fencing: Sabre (no credit). F,W,S

Coeducational. Instruction and practice in basic offensive and defensive skills of modern Hungarian sabre technique. Emphasis on physical and mental conditioning as a foundation for more advanced levels of instruction. Preparation for recreational and competitive involvement. Students pay a course fee. THE STAFF

28K. Field Sports: Soccer (no credit). F,W,S

Coeducational/Women's. Sections are offered in field soccer and indoor soccer. Instruction in the basic techniques, tactics, laws of the game, and injury prevention for beginners and advanced players. Students pay a course fee. Prerequisite(s): determination at first class meeting. THE STAFF

30G. Fitness Activities: Physical Conditioning (no credit). F,W,S

Coeducational. An exercise course designed to increase the participants' strength, flexibility, coordination, and cardiovascular endurance. Special attention is given to understanding and utilizing sound and safe principles of body alignment and movement. Courses include, but not limited to: Pilates, cardio boxing, stretch and strengthen, and aerobics. Students pay a course fee. THE STAFF, R. COCHLIN, C. MORI

30H. Fitness Activities: T'ai Chi Ch'uan (no credit). F,W,S

Through balanced movement and breath control, T'ai Chi Ch'uan attempts to forestall many processes of aging by cultivating greater strength of body, mind, and spirit. Students pay a course fee. THE STAFF

30J. Fitness Activities: Strength Training (no credit). F,W,S

Coeducational. An introduction to safe and effective methods of weight training and other personal conditioning activities. Topics covered include proper weight-training techniques, care of body and equipment, and elementary exercise physiology. Students pay a course fee. C. MORI, THE STAFF

30L. Fitness Activities: Yoga Exercises (no credit). F,W,S

Coeducational. Sections offered at beginning, continuing beginning, and advanced beginning levels of Hatha Yoga. Students pay a course fee. THE STAFF, R. COCHLIN, C. MORI

30N. Self-Defense Basics (no credit). S

Self-defense is a simple, effective approach to maximize personal safety requiring no prior skill, knowledge, or physical fitness. Practice includes basic physical and verbal assertiveness skills appropriate for a wide range of situations including acquaintance and stranger assaults. Physical conditioning is an integral part of the course. Students are billed a materials fee. Y. SHIBATA, THE STAFF

43A. Martial Arts: Aikido (no credit). F,W,S

Coeducational. A nonviolent, noncompetitive Japanese martial art emphasizing mind-body harmony, balance, relaxation, and the understanding of vital energy. Aikido self-defense techniques aim toward the creative resolution of conflict and the growth of the individual. Sections offered at beginning and experienced levels. Students pay a course fee. Y. SHIBATA

Physical Education

43G. Martial Arts: Karate (no credit).*

Coeducational. Sections offered at the beginning and intermediate/advanced levels. Covering basic skills, knowledge, and philosophy of Karate and providing instruction in the following aspects of martial arts study: fundamental techniques of self-defense, physical conditioning, emotional control, self-discipline, and self-confidence. Students pay a course fee. (Formerly Martial Arts: Tae Kwon Do.) Enrollment limited to 35. THE STAFF

GRADUATE COURSES

209B. Boating: Graduate Beginning Dinghy Sailing (no credit). F

Coeducational. Introductory course in practical boating safety using 15-foot sailboats. Includes introduction to rigging, nomenclature,

seamanship, proper boat-handling techniques, and general boating and aquatic safety. Satisfactory completion meets prerequisites for intermediate-level dinghy course.

Students pay a course fee. Prerequisite(s): swimming ability. Enrollment is restricted to graduate students. Enrollment limited to 15. H. SCHEER, R. KINGON

209C. Boating: Graduate Intermediate Dinghy Sailing (no credit). W

Coeducational. Course includes a review of basic sailing with an emphasis on the further development and refinement of small-boat sailing techniques. Fifteen-foot sailboats are used with two students per boat. Students pay a course fee. Prerequisite(s): course 9B or 209B, or equivalent skills; and swimming ability. Enrollment is restricted to graduate students.

Enrollment limited to 15. H. SCHEER, R. KINGON

209S. Boating: Grad Student Beginning Keelboat Sailing (no credit). S

Coeducational. Combines hands-on rigging and docking practice in the harbor and sailing practice on Monterey Bay with instruction in sail-trimming, de-powering, powering-up, person-overboard recovery techniques, boating safety, weather, ocean conditions, sailing theory, rigging, navigation, and the maritime rules of the road. Twenty-seven foot, ultralight, displacement keelboats are used. Students pay a course fee. Prerequisite(s): course 9C or 209C. Enrollment is restricted to graduate students. Enrollment limited to 12. H. SCHEER, R. KINGON

* Not offered in 2017-18

Revised: 09/01/17

PROGRAM DESCRIPTION

Physics seeks to discover the fundamental regularities or “laws” that govern our universe and to apply these laws to explain the behavior of fundamental and complex systems. The same underlying principles describe the behavior of atoms, lasers, living cells, and galaxies. Physics is, therefore, at the base of all modern science and technology, and this fundamental nature can be appreciated even at an elementary level.

The Physics Department offers majors in physics, physics (astrophysics), and applied physics. These programs prepare students for graduate work in physics, astrophysics, and astronomy, and for engineering and other technical positions in industry. With appropriate courses in other disciplines, these majors provide excellent preparation for advanced study in technical subjects such as biology, chemistry, engineering, geophysics, and the philosophy of science. The applied physics major is excellent preparation for positions in industry directly upon graduation.

Faculty are approachable to work with students in both formal and informal settings. All undergraduate physics majors have the opportunity to work individually with a faculty member in completing the senior thesis requirement for the major.

The main areas of physics research at UCSC are the study of fundamental particles and interactions (high-energy physics), the study of condensed matter physics, astrophysics/cosmology, and biophysics.

Efforts in high-energy physics are aided by the presence of an organized research unit, the Santa Cruz Institute for Particle Physics (SCIPP). The SCIPP experimentalists play significant roles in experiments at some of the major accelerator laboratories in the world, including the Stanford Linear Accelerator Center (SLAC) at Stanford University and the European Council for Nuclear Research (CERN). SCIPP experimentalists have also played an important role in creating the major satellite for gamma-ray astronomy (the Fermi Gamma-ray Space Telescope), are involved in the Dark Energy Survey, and conduct a thriving particle astrophysics program detecting TeV gamma rays as part of the UC VERITAS collaboration. SCIPP theorists are active in the phenomenology of high-energy particle interactions, including dark matter models, the theory of strong and electroweak interactions, electroweak symmetry breaking and Higgs bosons, theories of supersymmetry, superstrings, and gravity. SCIPP also maintains a

vigorous program in particle astrophysics, including research in high-energy astrophysics, dark matter, formation of galaxies and large-scale structure in the universe, and theories of cosmology and the very early universe. SCIPP is also home to a research program in experimental biophysics, exploiting instrumentation technologies developed in other areas of physics for the study of functional organization and development of neural systems in a variety of living organisms. In addition, there is closely related research in biomedical applications such as retinal prosthesis.

The presence of the strong astrophysics group from the Astronomy and Astrophysics Department at UCSC provides a healthy symbiosis in this area. Note that the Astronomy and Astrophysics Department does not offer an undergraduate major. UCSC is the headquarters for the University of California Observatories, which includes the Lick Observatory near San Jose and the Keck Observatory in Hawaii. These provide additional opportunities for collaboration between researchers in physics and astronomy.

Condensed matter physics research at UCSC covers a range of topics including the behavior of exotic many-electron systems (for example, superconductors), the study of magnetic phase transitions, the organization of complex systems (proteins, DNA, and polymers), and the development of new electronic devices using novel materials and research in biophysics. The experimental program uses X-ray and synchrotron radiation techniques at facilities such as the Stanford Synchrotron Radiation Laboratory (SSRL); neutron scattering techniques at various national laboratories; and optical, X-ray, and specific heat techniques at UCSC. Undergraduate students are actively involved in several condensed matter physics laboratories.

Undergraduate Program

Undergraduate Majors

The physics, physics (astrophysics), and applied physics major programs provide a comprehensive coverage of the field and the background necessary for graduate school or industrial careers. Students earn a bachelor of science (B.S.) degree. The UCSC physics, physics (astrophysics), and applied physics programs begin with a four-quarter presentation of the introductory concepts of the subject, Introduction to Physics, PHYS 5A, 5B, 5C, and 5D. Note that the applied physics

Physics

program also requires completion of a general chemistry course. In order for a student to finish the UCSC physics program in four years, it is important to start Introduction to Physics at the beginning of the first year. Students who complete a major sponsored by the Physics Department cannot complete a second major sponsored by the Physics Department or a physics minor.

This is followed by a course that provides an introduction to quantum physics and its applications, Modern Physics, PHYS 102. The programs continue with a three-quarter sequence in mathematical methods of physics, PHYS 116A, 116B, and 116C, designed to provide the mathematics preparation necessary for most of the upper-division physics courses required for the majors. Included in the upper-division programs are two intensive laboratory courses designed to illustrate both historical experiments that were important in the development of physics, astrophysics, and applied physics, and modern experimental methods. Advanced and especially motivated students may enroll in some graduate courses with the approval of the instructor and department chair.

The senior thesis, required of all physics, physics (astrophysics), and applied physics majors at UCSC, provides the opportunity for students to apply their skills to problems of interest to them, either theoretical or experimental, usually with technical advice from a faculty member. The senior thesis may be based on the student's original research or participation in a faculty member's research project or a review of some particular area of physics, under the supervision of a faculty member. The senior thesis is a distinctive part of the UCSC physics major program and entails a substantial investment of both student and faculty time. The learning experience involved in the thesis, as well as the thesis itself, has proven extremely valuable to students in enhancing employment opportunities upon graduation or in gaining admission to graduate school.

PROGRAM LEARNING OUTCOMES

Learning outcomes summarize the most important knowledge, skills, abilities, and attitudes that students are expected to develop over the course of their studies. The program learning outcomes communicate the faculty's expectations to students, provide a framework for faculty evaluation of the curriculum based on empirical data, and help improve and measure the impact of implemented changes.

PHYSICS, ASTROPHYSICS, AND APPLIED PHYSICS MAJORS

Program Learning Outcomes:

- Students will demonstrate proficiency in mathematics and the mathematical concepts needed for a proper understanding of physics.

- Students will demonstrate knowledge of classical and quantum mechanics, statistical mechanics, and electromagnetism.
- Students will show that they have learned laboratory skills, enabling them to take measurements in a physics laboratory and analyze the measurements to draw valid conclusions.
- Students will communicate effectively, both orally and in writing, and will demonstrate that they can think critically and work independently while doing their senior thesis.
- Students will demonstrate a basic understanding of various aspects of astronomy. (physics [astrophysics] major only.)

ADVISING AND PREPARATION FOR THE MAJOR

Students begin the major with MATH 19A and PHYS 5A. To enroll in PHYS 5A, students must be in a proposed major that requires the Physics 5 series. (Students who take PHYS 6A instead of PHYS 5A, and do very well in it, may contact the department chair for permission to enter the major.) Students are strongly encouraged to begin their major coursework in their first quarter. Those who start later should consult the department undergraduate adviser and [the program alternatives page](#). Students who do not begin the lower-division requirements during their first year will have difficulty completing the program within four years.

The department undergraduate adviser works closely with students interested in pursuing the major to ensure that they begin the program immediately and follow the appropriate steps toward its completion.

High school students coming directly to UCSC should emphasize their mathematics preparation with the expectation that they will take calculus, MATH 19A, in their first quarter at UCSC in order to take the Physics 5 series concurrently.

LETTER GRADE POLICY

For all students entering UCSC in fall 2009 and later, all courses used to satisfy any of the physics major requirements must be taken for a letter grade, except the programming requirement and (for the applied physics major) chemistry.

MAJOR QUALIFICATION POLICY

The Department of Physics has a qualification policy that applies to the following majors:

- Applied physics B.S.
- Physics (astrophysics) B.S.
- Physics B.S.

To qualify to declare any of the above majors, students must achieve a cumulative grade point average (GPA) of

Physics

2.70 or greater in the following courses, or their equivalents:

PHYS 5A, Introductory Physics I

PHYS 5B, Introductory Physics II

PHYS 5C, Introductory Physics III

When determining qualification to declare the major:

- All courses must be taken for a letter grade.
- If PHYS 5A is satisfied with AP credit based on an AP examination score of 5, students may substitute a grade of A for PHYS 5A when calculating their cumulative GPA.
- Students with two or more grades of NP, C-, D+, D, D-, or F in the major qualification policy courses are not eligible to declare even if the courses are retaken and the grades replaced.

Students who achieve a GPA of 2.66 or higher (but less than 2.70) in the three courses may declare the major if they receive a B or better in Physics 5D.

TRANSFER STUDENTS

The Physics Department welcomes applications from community college students who have completed the necessary coursework to transfer to our program.

To be considered for admission to UCSC as a participant in any of the physics majors, transfer students must pass **equivalents** of the following courses with a cumulative GPA of 2.70 or higher:

PHYS 5A, Introductory Physics I

PHYS 5B, Introductory Physics II

PHYS 5C, Introductory Physics III

More information about qualifying for the major as a transfer applicant is [here](#).

Students planning to transfer to UCSC from a California community college should reference [the assist website](#) to determine which courses are equivalent to these required courses.

California community college students who are prepared for their major and achieve a certain GPA may be eligible for a transfer admissions guarantee (TAG); more information is [here](#).

DECLARATION OF THE MAJOR

Students may submit a petition to declare after completing the qualification policy courses. All students are required to review their academic plan with their assigned faculty mentor prior to declaring the major. For instructions on petitioning to declare, go to [Qualifying for the Major: Petition to Declare web page](#). Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the department chair by the later date of either 15 days from the date the notification was

sent, or one week after the start of instruction during the quarter after the final relevant grade was received (generally in PHYS 5C or 5D). They also must arrange to meet with their faculty mentor. Within 15 days of receipt of the appeal, after consulting with the faculty mentor, the department chair will either finalize the denial of admission or specify further conditions for admission, and will notify the student and their college of the decision. For more information about the appeal process, see [the Appeal Process web page](#).

TIMELY GRADUATION AND ALTERNATIVE PLANS

- In order to graduate in time, it is extremely important that students start their senior thesis as early as possible, by the summer of the junior year for 4-year students and by the beginning of the second year for transfer students. PHYS 182 is a course that teaches students effective writing in physics for the senior thesis, but it is not the point at which the thesis should be started. Further information about the senior thesis is [here](#).
- PHYS 182 is offered in the fall and winter academic terms, and may be taken in either term.
- Students who join a major program of the Physics Department with some of the required courses completed, or have room in their program for additional courses, should consider options described on [the Options web page](#) and consult with the Physics Department undergraduate adviser.
- Students who fall behind the planners should consult the Physics Department undergraduate adviser and the information on the [the Alternatives web page](#).
- **Lab courses:** PHYS 133 is offered in the fall and winter terms. PHYS 134 (for physics B.S. and applied physics B.S. majors) is offered in the winter and spring terms. PHYS 135 for physics (astrophysics) B.S. majors is offered in the fall or, in some academic years depending on astronomical conditions, as a multiple-term course. PHYS 136 is an alternative to PHYS 135 that is offered in the spring term. Capacity in the lab courses is limited, and they should be taken as early as possible.
- All the transfer major planners shown below assume that IGETC has been completed in community college, or has been partially completed and can be finished while at UCSC (including summers).
- PHYS 116A is waived for students who have obtained a grade of B or better in a course

Physics

articulated to MATH 21 and in a course articulated to MATH 24.

- PHYS 116C is waived for students who are pursuing a dual major in physics and computational mathematics and take MATH 107 in the year 2017 or later.

PHYSICS B.S.

REQUIREMENTS OF THE MAJOR

Lower-Division Requirements

Calculus: MATH 19A, or 20A, and MATH 19B or 20B

Vector Calculus: MATH 23A and 23B

Introductory Physics: PHYS 5A/L, 5B/M, 5C/N, and 5D

Programming: CMPS 5J, 5P, or higher level programming course; or ASTR/EART 119 or PHYS 115; or equivalent

Upper-Division Requirements

Modern Physics: PHYS 102

Mathematical Methods: PHYS 116A, 116B, and 116C

Mechanics: PHYS 105

Electricity, Magnetism, and Optics: PHYS 110A and 110B

Thermodynamics & Statistical Mechanics: PHYS 112

Intermediate and Advanced Lab: PHYS 133 and 134

Quantum Mechanics: PHYS 139A

Electives

Two courses, each 5 credits or more, chosen from upper-division elective courses offered by the Physics Department or Astronomy and Astrophysics courses 111 through 118. In some cases, one of the elective requirements may be satisfied by an approved upper-division science or engineering course.

Senior Thesis Requirement

PHYS 182 and senior thesis

Physics B.S.: Freshman Academic Plan

	Fall	Winter	Spring
1st Year	MATH 19A (or 20A) PHYS 5A/L	MATH 19B (or 20B) PHYS 5B/M	MATH 23A PHYS 5C/N

2nd Year	MATH 23B PHYS 5D	PHYS 102 PHYS 116A	PHYS 116B Programming Requirement
3rd Year	PHYS 105 PHYS 116C PHYS 133	PHYS 110A PHYS 112 PHYS 134	PHYS 110B PHYS 139A
4th Year	PHYS 182 Elective	Elective	

Physics B.S. Transfer Academic Plan One

For students who have completed the equivalent of Physics 5D:

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 102 AMS 5 or 131*	PHYS 112 PHYS 116A PHYS 133	Programming Requirement PHYS 116B PHYS 134
2nd Year	PHYS 105 PHYS 116C PHYS 182	PHYS 110A Elective	PHYS 110B PHYS 139A Elective

*Not required for the major, but needed in order to take PHYS 112 next term

Students who wish to do a more demanding senior thesis or seek greater flexibility in choosing electives may consider delaying graduation.

Physics B.S. Transfer Academic Plan Two

For students who have not completed the equivalent of Physics 5D:

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 5D	PHYS 102 PHYS	PHYS 116B

Physics

	Programming Requirement	116A PHYS 133	PHYS 134
2nd Year	PHYS 105 PHYS 116C PHYS 182	PHYS 110A PHYS 112	PHYS 110B PHYS 139A Elective
3rd Year	Elective		

ASTR/PHYS 171, General Relativity, Black Holes, and Cosmology

PHYS 129, Nuclear and Particle Astrophysics

EART 160, Planetary Science

EART 162, Planetary Interiors

EART 163, Planetary Surfaces

EART 164, Planetary Atmospheres

Senior Thesis Requirement

PHYS 182 and senior thesis

Physics (Astrophysics) B.S.: Freshman Academic Plan

PHYSICS (ASTROPHYSICS) B.S.

REQUIREMENTS OF THE MAJOR

Lower-Division Requirements

Calculus: MATH 19A or 20A and 19B or 20B

Vector Calculus: MATH 23A and 23B

Introductory Physics: PHYS 5A/L, 5B/M, 5C/N, and 5D

Programming: ASTR/EART 119 (recommended); or CMPS 5J, 5P, or higher level programming course; or PHYS 115; or equivalent

Upper-Division Requirements

Modern Physics: PHYS 102

Mathematical Methods: PHYS 116A, 116B, and 116C

Mechanics: PHYS 105

Electricity, Magnetism, and Optics: PHYS 110A and 110B

Thermodynamics & Statistical Mechanics: PHYS 112

Intermediate Lab: PHYS 133

Advanced Lab: PHYS 135 or (PHYS 135A and 135B) or PHYS 136

Quantum Mechanics: PHYS 139A

Electives

Complete three courses, each 5 credits or more, chosen from the following:

ASTR 111, Order of Magnitude Astrophysics

ASTR 112, Physics of Stars

ASTR 113, Introduction to Cosmology

ASTR 117, High Energy Astrophysics

ASTR 118, Physics of Planetary Systems

ASTR 257, Modern Astronomical Techniques

	Fall	Winter	Spring
1st Year	MATH 19A (or 20A) PHYS 5A/L	MATH 19B (or 20B) PHYS 5B/M	MATH 23A PHYS 5C/N
2nd Year	MATH 23B PHYS 5D ASTR 119	PHYS 102 PHYS 116A	PHYS 116B
3rd Year	PHYS 105 PHYS 116C PHYS 133	PHYS 110A PHYS 112 Elective	PHYS 110B PHYS 139A Elective/PHYS 136
4th Year	PHYS 182 PHYS 135/Elective	Elective	

Physics (Astrophysics) B.S.: Transfer Academic Plan One

For students who have completed the equivalent of Physics 5D

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 102 ASTR 119	PHYS 133 PHYS 116A Elective	PHYS 136/Elective PHYS 116B Elective

Physics

2nd Year	PHYS 105 PHYS 116C PHYS 135/Elective	PHYS 110A PHYS 112 PHYS 182	PHYS 110B PHYS 139A
-----------------	--	-----------------------------------	------------------------

Students who wish to do a more demanding senior thesis or seek greater flexibility in choosing electives may consider delaying graduation.

Physics (Astrophysics) B.S.: Transfer Academic Plan Two

For students who have not completed the equivalent of Physics 5D

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 5D ASTR 119	PHYS 102 PHYS 116A PHYS 133	PHYS 136/Elective PHYS 116B
2nd Year	PHYS 105 PHYS 116C PHYS 182/PHYS 135	PHYS 110A PHYS 112 Elective/PHYS 182	PHYS 110B Elective PHYS 139A
3rd Year	Elective		

APPLIED PHYSICS B.S.

Requirements of the Major

Lower-Division Requirements

Calculus: MATH 19A, or 20A and MATH 19B or 20B

Vector Calculus: MATH 23A and 23B

Introductory Physics: PHYS 5A/L, 5B/M, 5C/N, and 5D

General Chemistry: CHEM 1A or 1B

Programming: CMPS 5J, 5P, or higher level programming course; or ASTR/EART 119 or PHYS 115; or equivalent

Upper-Division Requirements

Modern Physics: PHYS 102

Mathematical Methods: PHYS 116A, 116B, and 116C

Mechanics: PHYS 105

Electricity, Magnetism, and Optics: PHYS 110A and 110B

Thermodynamics & Statistical Mechanics: PHYS 112

Intermediate and Advanced Lab: PHYS 133 and 134

Students may take EE 135/L instead of PHYS 110A and 110B, and PHYS 160 instead of PHYS 134. This is not recommended for students who wish to pursue graduate studies in physics.

Electives

Complete three courses, each 5 credits or more, chosen from the following

PHYS/AMS 107, Introduction to Fluid Dynamics

PHYS 115, Computational Physics

PHYS 120, Polymer Physics

PHYS 139A, Quantum Physics

PHYS 139B, Quantum Physics

PHYS 152, Optoelectronics

PHYS 155, Solid State Physics

PHYS 156, Applications of Solid State Physics

PHYS 160, Practical Electronics

PHYS 180, Biophysics

Courses from other departments listed on [the Approved Electives web page](#). (Other courses with approval of undergraduate faculty adviser)

Senior Thesis Requirement

PHYS 182 and senior thesis

Applied Physics B.S.: Freshman Academic Plan

Plan 1: For students who place into MATH 19A or MATH 20A.

	Fall	Winter	Spring
1st Year	MATH 19A or 20A PHYS 5A/L	MATH 19B or 20B PHYS 5B/M	MATH 23A PHYS 5C/N CHEM 1A/B
2nd Year	MATH 23B PHYS 5D	PHYS 102 PHYS 116A	Programming requirement PHYS 116B

Physics

3rd Year	PHYS 105 PHYS 116C PHYS 133	PHYS 110A PHYS 112 PHYS 134/Elective	PHYS 110B Elective/PHYS 160
4th Year	PHYS 182 Elective	Elective	

Applied Physics B.S.: Transfer Academic Plan One
For students who have completed the equivalent of Physics 5D:

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 102 Programming requirement	PHYS 133 PHYS 116A Elective	PHYS 134/PHYS 160 PHYS 116B CHEM 1A/B
2nd Year	PHYS 105 PHYS 116C PHYS 182	PHYS 110A PHYS 112	PHYS 110B Elective Elective

Students who wish to do a more demanding senior thesis or seek greater flexibility in choosing electives may consider delaying graduation.

Applied Physics B.S.: Transfer Academic Plan Two

For students who have not completed the equivalent of Physics 5D:

	Fall	Winter	Spring
1st Year	MATH 23B PHYS 5D Programming requirement	PHYS 102 PHYS 116A PHYS 133	CHEM 1A/B PHYS 116B PHYS 134/PHYS 160
2nd Year	PHYS 105 PHYS 116C PHYS 182	PHYS 110A	PHYS 110B Elective Elective

		PHYS 112	
3rd Year	Elective		

PROGRAMMING REQUIREMENT

Students in the Physics B.S., Physics (Astrophysics) B.S., and Applied Physics B.S. majors have to satisfy a computer programming requirement by taking one of the courses listed in the major requirements given above. Of these courses, ASTR/EART 119 teaches programming and simple applications. PHYS 115 does not teach programming; it assumes basic programming ability in C, C++ or a similar language and discusses numerical techniques relevant to physics. The other courses listed teach programming. Students may also satisfy the computer programming requirement by demonstrating their knowledge of programming to a faculty member designated by the Physics Department. Instructions about how to demonstrate your programming skills are [here](#).

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy the upper-division Disciplinary Communication (DC) requirement. Students in Physics, Applied Physics, and Physics (Astrophysics), satisfy the DC requirement by completing Physics 182 and the senior thesis.

COMPREHENSIVE REQUIREMENT

The comprehensive exit requirement is normally satisfied by the submission and approval of a thesis. To satisfy the comprehensive requirement via a thesis Physics 182 is required.

In special cases, minor modifications of these requirements may be granted to suit the specific program of a particular student. Before embarking on a program needing such waivers, students should discuss their plans with their faculty mentor and seek approval by petition from the Physics Department office.

HONORS

The department awards "honors" (3.5 grade point average or better) and "highest honors" (3.8 grade point average or better) to top graduating students each year. The department also awards "honors" for outstanding work on the senior thesis, made upon the recommendation of the senior thesis supervisor and the thesis technical adviser.

MINOR REQUIREMENTS

Physics

Requirements for the minor in physics are Physics 5A/L, 5B/M, 5C/N, (or Physics 6A/L, 6B/M, 6C/N with minimum GPA of 3.5), Physics 5D; Mathematics 19A or 20A, 19B or 20B, 23A and 23B; Physics 102, 133; and three courses chosen from physics upper-division elective (some of which have prerequisites), or from a list of courses from other departments approved by the physics undergraduate faculty adviser. The elective courses cannot be offered by the department that sponsors the student's major. Students who complete a major sponsored by the Physics Department cannot complete a second major sponsored by the Physics Department or a physics minor.

GRADUATE PROGRAMS

The Physics Department offers graduate programs leading to the master of science (M.S.) and/or the doctor of philosophy (Ph.D.) degrees. In the first year of study, Ph.D. students are expected to take two core graduate-level courses per quarter, including the courses required for the Ph.D. degree (PHYS 210, 212, 214, 215, 216, 219) and other courses specific to the student's field of interest. All first-year students also take 205, Introduction to Research. All graduate students also attend a weekly colloquium, 292. Each student has a faculty adviser who helps to determine which courses are most appropriate, taking into account the student's background and interests. The student-faculty ratio is low so that M.S. and Ph.D. students can work closely with faculty and pursue programs that fit their individual needs. Research is currently conducted in theoretical and experimental particle physics, theoretical and experimental condensed matter physics (including materials physics and biophysics), and in theoretical and experimental/observational high-energy astrophysics (including cosmology). After passing a written qualifying examination, Ph.D. students pursue independent research leading to an oral examination and completion of a doctoral dissertation.

Students may obtain a master's degree through coursework (eight physics graduate courses) and submission of an approved thesis. The thesis requirement may be waived by passing four sections of the written Ph.D. qualifying examination. Master's candidates are encouraged to write a research thesis and may do so in any of the research fields in the program, thereby developing laboratory and computational skills in areas such as electronics design, computer simulation and visualization, cryogenics, X-ray scattering, complex novel materials and devices, or materials science. Each M.S. student is assigned a faculty adviser who helps to design a coursework plan suited to the interests of the student.

Physics students and faculty use a number of UCSC research facilities (described at the beginning of this section and elsewhere in this catalog): the Santa Cruz Institute for Particle Physics (SCIPP) and Lick Observatory (headquartered at UCSC). There is strong

interaction with other disciplines, especially astronomy and astrophysics, biology, chemistry, Earth sciences, electrical engineering, and mathematics. Proximity to the Stanford Linear Accelerator Center and the Stanford Synchrotron Radiation Laboratory provides additional local research opportunities. UCSC faculty and graduate students also participate in research programs at CERN in Geneva, Los Alamos, Oak Ridge National Laboratory, NASA Ames, NREL, Lucent, Xerox, IBM, Bell Labs, and other national and international laboratories.

Application materials and brochures describing the physics M.S. and Ph.D. graduate programs in more detail may be obtained by visiting [the Physics Department website](#) or by contacting [the Division of Graduate Studies](#).

REQUIREMENTS FOR THE PHYSICS PH.D. PROGRAM

- Core set of first-year graduate level courses: PHYS 210, 212, 214, 215, 216, 219.
- First-year students are also required to take PHYS 205, Introduction to Research.
- Weekly Physics Colloquium (PHYS 292).
- Written Qualifying Exams: a set of five three-hour-long written tests on the following topics: Mathematical Methods for Physics, Statistical Mechanics, Classical Mechanics, Quantum Mechanics, Electricity and Magnetism. Students can attempt the tests at the beginning of their first year and at the beginning of their second year, if needed. A special winter session is available to students who have passed at least three written qualifying tests in the first two available sessions. Students who fail to pass all five exams by the end of the special winter session, or who fail to pass at least three written test by their second attempt, cannot continue in the Ph.D. program.
- Oral Qualifying Exam: an oral exam where students present their path to candidacy, including progress in their research program and plans for completion of their graduate thesis. The Oral Exam is assessed by a committee chaired by a tenured faculty member of the Physics Department, and must include at least one member from outside the Physics Department. The chair of the Graduate Committee approves the proposed Oral Exam Committee.
- Ph.D. thesis, in accordance with UCSC's Graduate Division regulations.
- Oral Ph.D. Thesis Defense: an oral presentation of the Ph.D. thesis and oral exam. The committee includes three faculty members and is usually, but not necessarily, appointed from members of the Oral Qualifying Exam

Physics

Committee. The chair of the committee must be a tenured faculty member of the Physics Department. The chair of the Graduate Committee approves the proposed Oral Ph.D. Thesis Defense Committee.

FIVE-YEAR B.S./M.S. PATHWAY

The five-year combined B.S./M.S. in physics pathway provides highly motivated undergraduate majors the opportunity to earn a M.S. in a fifth post-baccalaureate year. The B.S./M.S. pathway provides the additional level of preparation and experience that students need to pursue careers in industry and government. Students in the B.S./M.S. physics pathway can pursue concentrations in materials and device physics, energy and the environment, computational physics, and medical biophysics.

Students apply to be admitted to the B.S./M.S. pathway, in consultation with their faculty or undergraduate adviser, no later than the end of the second quarter of the junior year. They should contact the Physics Department office for instructions on how to apply: they will work with the B.S./M.S. faculty coordinator to prepare the application, which is then reviewed by the department. Students will also go through the regular campus M.S. application process in their senior year.

To be accepted to the pathway, students will need to have demonstrated solid performance in general as well as in the major, as demonstrated by: 1) a G.P.A. in physics courses of at least 3.0; 2) an overall G.P.A. of at least 3.0; and 3) a recommendation from a faculty member attesting to the student's promise for the M.S. degree in physics.

Requirements for the B.S./M.S. Program

- All requirements for a B.S. in physics, applied physics, or physics (astrophysics) apply, except the two upper-division elective courses, which are satisfied by the M.S. electives listed below and taken as an undergraduate.
- For the M.S. component of the B.S./M.S. a core set of four physics courses is required: PHYS 212, PHYS 215, PHYS 216 and PHYS 219.
- Four elective courses, chosen from one of the concentration areas described below. Typically, at least one of these electives will be another physics graduate course. One of the electives can be an upper division undergraduate course if approved by the B.S./M.S. faculty coordinator and the Physics Department Graduate Committee.
- An M.S. thesis, which may build on the student's B.S. senior thesis.
- Courses can also serve to fulfill the elective requirement for the B.S. degree.

Concentration Areas for the B.S./M.S. Pathway

Materials and Device Physics

This concentration prepares students who are interested in pursuing industrial jobs in the areas of materials science, semiconductors, and optoelectronic devices.

Elective courses include AMS 205A, CHEM 261, CHEM 269, CE 218, CE 218L, EE 211, EE 223, EE 224 EE 225, EE 231, PHYS 231, PHYS 232, PHYS 233, PHYS 242.

Energy and the Environment

This concentration prepares students who are interested in pursuing industrial or government jobs in the areas of sustainable-energy technologies, environmental and climate change and scientific policy related to these areas.

Elective courses include CHEM 268, CHEM 269, EPS 220, EPS 254, EPS 272, EPS 280D, ECON 250, ECON 259B, ENVS 271, PHYS 233, PHYS 242.

Computational Physics

This concentration prepares students who are interested in pursuing industrial or government jobs in the areas related to using computational methods to solve applied problems as well as computer-based visualization methods for data presentation. Students interested in computational methods in biology could also consider the concentration in medical biophysics.

Elective courses include AMS 215, BMSE 205, BMSE 211, BMSE 230, BMSE 203L, CHEM 265, CE 215, CS 203, CS 210, CS 211, CS 240, CS 261, PHYS 242.

Medical Bio-Physics

This concentration prepares students who are interested in pursuing industrial and hospital jobs in the areas of medical technology, biomolecular engineering, and biophysics.

Elective courses include AMS 215, BMSE/CHEM 255, BMSE 205, BMSE 215, BMSE 220, BMSE 220L, BMSE 222, BMSE 230, BMSE 203L, BMSE 250, BMSE 250L, CHEM 200A, EE 212, MCDB 200B, PHYS 180.

Course Schedule for the B.S/M/S. Pathway

Year	Fall	Winter	Spring
4th (senior)	Elective*	Elective*	PHYS 219
			Elective*
5th	PHYS 212	PHYS 215	PHYS 216
	Elective*	Elective*	Elective*
	Thesis	Thesis	Thesis

*Alternate quarters for completing the four electives

Students are recommended to start their M.S. thesis (which may build upon their already completed senior

Physics

thesis) during the summer at the end of their fourth year.

The above course schedule is designed to dovetail with the freshman academic plans shown earlier. Transfer

students who finish the requirements for the B.S. in two years have very little room in their schedule for the senior year, and therefore may take longer than one post baccalaureate year to complete the additional requirements for the B.S./M.S. degree.

PHYSICS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Anthony N. Aguirre

Cosmology of the early and late universe: inflation and the global structure of cosmological models; the intergalactic medium and its enrichment with heavy elements; galaxy formation, evolution, and feedback processes; dark matter; theories of modified gravity

Thomas Banks, Emeritus

David P. Belanger

Experimental condensed matter physics, phase transitions

Frank G. Bridges, Emeritus

George Brown, Emeritus

Sue A. Carter

Experimental condensed matter physics, polymer physics, molecular electronics, phase transitions, electronic and optical properties of materials

Joshua M. Deutsch

Condensed matter theory

Michael Dine

Theory of elementary particles

David E. Dorfan, Emeritus

George D. Gaspari, Emeritus

Howard E. Haber

Theory and phenomenology of fundamental particles and their interactions

Robert P. Johnson

Experimental high-energy physics, astrophysics

David Lederman

Condensed matter physics/materials science, experimental

Onuttom Narayan

Theoretical condensed matter physics

Michael Nauenberg, Emeritus

Jason Nielsen

Experimental high-energy physics

Joel R. Primack, Emeritus

Stefano Profumo

Theory of particle physics and particle astrophysics

Arthur Ramirez

Experimental materials physics

Steven Ritz

Particle physics and astrophysics

Zack Schlesinger

Experimental condensed matter physics, infrared and optical spectroscopy, strongly correlated electron systems, novel materials, negative thermal expansion, underconstraint and geometrical frustration

Bruce Schumm

Experimental particle physics

Peter L. Scott, Emeritus

Abraham Seiden, Emeritus

Sriram Shastry

Condensed matter physics, strongly correlated matter, Mott-Hubbard physics, high T_c superconductivity, quantum magnetism, exactly integrable systems, exactly solvable models of many-body systems and in statistical mechanics, quantum chaos, geometric frustration

David M. Smith

High-energy astrophysics; X-ray and gamma-ray detectors and instrumentation; solar, terrestrial, and planetary sources of gamma radiation

A. Peter Young, Emeritus

ASSOCIATE PROFESSOR

Tesla Jeltema

High-energy astrophysics and cosmology

Alexander Sher

Development of experimental techniques for recording and stimulation of activity at hundreds of neurons and use of these techniques to study neural function, structure, and development

ASSISTANT PROFESSOR

Michael Hance

Experimental high-energy physics

Jairo Velasco

Experimental materials science, low dimensional materials

LECTURER

Stephanie Bailey

Modeling and simulation of human rights violations and health outcomes, public policy, health policy, health outcomes, stochastic and deterministic modeling, cancer research

PROFESSOR

George R. Blumenthal (Astronomy and Astrophysics)

Cosmology, galaxy formation, high-energy astrophysics

Pascale Garaud (Applied Mathematics and Statistics)

Astrophysics, geophysics, fluid dynamics, numerical resolutions of differential equations, and mathematical modeling of natural flows

Joel A. Kubby (Electrical Engineering)

Micro-Electro-Mechanical-Systems (MEMS), adaptive optics (AO), optical-MEMS, bio-MEMS, bioimaging, AO microscopy, AO astronomy

Wentai Liu (Electrical Engineering)

Retinal prosthesis, biomimetic systems, integrated neuro-electronics, molecular electronics, CMOS and SOI transceiver design, current mode band limited signaling, microelectronic sensor, timing/clock recovery and optimization, noise characterization and modeling, and computer vision/image processing

William G. Mathews, Emeritus

Richard Montgomery (Mathematics)

Celestial mechanics, differential geometry, gauge theory, mechanics (quantum and classical), and control theory

Holger Schmidt (Electrical Engineering)

Integrated optics for biomedicine and quantum optics, nano-magenta-optics, semiconductor physics, optoelectronic and photonic devices, ultrafast optics, quantum interference

ADJUNCT PROFESSOR

William Atwood

Alan Litke

Michael Riordan

Hartmut F.-W. Sadrozinski, Emeritus

Terry L. Schalk

David A. Williams

RESEARCH PHYSICIST

Al Eisner, Emeritus

Vitaliy Fadeyev

Alexander Grillo

PHYSICS COURSES

LOWER-DIVISION COURSES

1. Conceptual Physics. W

Topics in classical and quantum physics and their relation to physical phenomena in the world around us, including modern electronics. Concepts are stressed, but some practical calculational techniques are developed. Working knowledge of high school algebra and geometry is essential. (General Education Code(s): SI.) *S. Martin*

2. Elementary Physics of Energy. *

The physics of energy developed in a course accessible to non-science majors as well as science majors. Fundamental principles and elementary calculations, at the level of basic algebra, developed and applied to the understanding of the physics of energy. Topics include fossil fuels, renewable energy, solar cells and waste energy, waste-energy recovery, nuclear power, and global greenhouse effects. (General Education Code(s): PE-E.) *The Staff*

5A. Introduction to Physics I. F,W

Elementary mechanics. Vectors, Newton's laws, inverse square force laws, work and energy, conservation of momentum and energy, and oscillations. Prerequisite(s): Mathematics 19A or 20A; concurrent enrollment in course 5L is required. (General Education Code(s): MF.) *J. Velasco Jr.*

5B. Introduction to Physics II. W,S

A continuation of 5A. Wave motion in matter, including sound waves. Geometrical optics, interference and polarization, statics and dynamics of fluids. Prerequisite(s): courses 5A/L and Mathematics 19A or 20A; concurrent enrollment in course 5M is required. Corequisite: Mathematics 19B or 20B. (General Education Code(s): SI.) *The Staff*

5C. Introduction to Physics III. F,S

Introduction to electricity and

magnetism. Electromagnetic radiation, Maxwell's equations. Prerequisite(s): courses 5A/L and Mathematics 19B or 20B. Concurrent enrollment in course 5N is required. (General Education Code(s): SI.) *A. Sher*

5D. Introduction to Physics IV. F

Introduces temperature, heat, thermal conductivity, diffusion, ideal gases, laws of thermodynamics, heat engines, and kinetic theory. Introduces the special theory of relativity and the equivalence principle. Includes the photoelectric effect, the Compton effect, matter waves, atomic spectra, and the Bohr model. Prerequisite(s): courses 5A and 5L, or 6A and 6L; and course 5B or 6B; and Mathematics 19B or 20B. *T. Jeltema*

5I. Introduction to Physics Honors I (2 credits). *

Weekly 90-minute section covering advanced and modern topics. Topics may include the theory of relativity; complicated dynamics (air resistance, planetary dynamics, etc.); fallacies in perpetual-motion machines; the Euler disk and unusual tops; elasticity of materials applied to structures. Concurrent enrollment in course 5A is required. *The Staff*

5J. Introduction to Physics Honors II (2 credits). *

Weekly 90-minute section covering advanced and modern topics. Topics may include nonlinear oscillators and chaos; waves in deep water and inside the earth; redshift in astronomy; negative refractive index materials; photons and matter waves; holography; viscosity; and turbulence. Concurrent enrollment in course 5B is required. *The Staff*

5K. Introduction to Physics Honors III (2 credits). *

Weekly 90-minute section covering advanced and modern topics. Topics may include atmospheric electricity; shielding; tensor

polarization; alternative energy sources; semiconductor devices; particle accelerators and relativistic electrodynamics; Thomson scattering; digital and analog communication. Concurrent enrollment in course 5C is required. *The Staff*

5L. Introduction to Physics Laboratory (1 credit). F,W

Laboratory sequence illustrating topics covered in course 5A. One three-hour laboratory session per week. Prerequisite(s): concurrent enrollment in course 5A is required. *The Staff*

5M. Introduction to Physics Laboratory (1 credit). W,S

Laboratory sequence illustrating topics covered in course 5B. One three-hour laboratory session per week. Prerequisite(s): courses 5A/L; concurrent enrollment in course 5B is required. *The Staff*

5N. Introduction to Physics Laboratory (1 credit). F,S

Laboratory sequence illustrating topics covered in course 5C. One three-hour laboratory session per week. Prerequisite(s): courses 5A/L. Concurrent enrollment in 5C is required. Courses 5B/M recommended. *The Staff*

6A. Introductory Physics I. F,W,S

Elementary mechanics. Vectors, Newton's laws, inverse square force laws, work and energy, conservation of momentum and energy, and oscillations. Prerequisite(s): Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 15A. Concurrent enrollment in course 6L required. (General Education Code(s): MF.) (F) *S. Bailey*, (W) *J. Deutsch*

6B. Introductory Physics II. W,S

A continuation of 6A. Geometric optics; statics and dynamics of fluids; introduction to thermodynamics, including temperature, heat, thermal conductivity, and molecular motion; wave motion in matter, including

Physics

sound waves. Prerequisite(s): course 5A/L or 6A/L; and Mathematics 11B or 19B or 20B or Applied Mathematics and Statistics 15B. (General Education Code(s): SI.) *S. Bailey*

6C. Introductory Physics III. F,S
Introduction to electricity and magnetism. Elementary circuits; Maxwell's equations; electromagnetic radiation; interference and polarization of light. Prerequisite(s): courses 5A/L or 6A/L, and Mathematics 11B or 19B or 20B or Applied Mathematics and Statistics 15B. (General Education Code(s): SI.) (*F*) *The Staff*, (*S*) *S. Bailey*

6L. Introductory Physics Laboratory (1 credit). F,W,S
Laboratory sequence illustrating topics covered in course 6A. One three-hour laboratory session per week. Prerequisite(s): Previous or concurrent enrollment in course 6A or 7A required. *The Staff*

6M. Introductory Physics Laboratory (1 credit). W,S
Laboratory sequence illustrating topics covered in course 6B. One three-hour laboratory session per week. Prerequisite(s): courses 5A, 6A, or 7A and 5L, 6L or 7L; and previous or concurrent enrollment in course 6B. *The Staff*

6N. Introductory Physics Laboratory (1 credit). F,S
Laboratory sequence illustrating topics covered in course 6C. One three-hour laboratory session per week. Prerequisite(s): courses 6A and 6L or courses 5A and 5L; previous or concurrent enrollment in course 6C; courses 6B and 6M are recommended. *The Staff*

7A. Elementary Physics I. F
Examines elementary mechanics, including vectors, kinematics, Newton's laws, work and energy, conservation of momentum and energy, fluid motion, and temperature and heat. Prerequisite(s): Mathematics 11A or 19A or 20A or Applied Mathematics and Statistics 15A. Concurrent enrollment in course 6L or 7L required. (General Education Code(s): MF.) *C. West*

7B. Elementary Physics II. W
Examines elementary wave motion, light polarization, reflection and refraction; elementary electricity, including electric charge, Coulomb's Law, and electric field and potential; electrostatic energy, currents, conductors, resistance, and Ohm's Law; and magnetic fields, inductors, and circuits. Prerequisite(s): course 7A, and Mathematics 11B, or 19B, or 20B, or Applied Mathematics and Statistics 15B. (General Education Code(s): SI.) *The Staff*

7L. Elementary Physics Laboratory (1 credit). *
Laboratory sequence illustrating topics covered in course 7A. One three-hour laboratory session per week. Prerequisite(s): Concurrent enrollment in course 7A is required. *G. Brown*

9A. Introduction to Research in Physics and Astrophysics (2 credits). W
Introduction to research for first-year students interested in physics and astrophysics. Students complete projects in small groups with scientists. Introduces techniques for collaboration; science writing; physics careers. Continuing course spanning two quarters. (Also offered as Astronomy and Astrophysics 9A. Students cannot receive credit for both courses.) Enrollment is restricted to first-year proposed astrophysics and physics majors. *R. Murray-Clay*

9B. Introduction to Research in Physics and Astrophysics (3 credits). S
Introduction to research for first-year students interested in physics and astrophysics. Students complete projects in small groups with scientists. Introduces techniques for collaboration; science writing; physics careers. Continuing course spanning two quarters. (Also offered as Astronomy and Astrophysics 9B. Students cannot receive credit for both courses.) Prerequisite(s): course 9A. Enrollment is restricted to first-year proposed applied physics, physics, and physics (astrophysics) majors. (General

Education Code(s): PR-E.) *R. Murray-Clay*

11. The Physicist in Industry (2 credits). S
One two-hour meeting per week. Subjects include roles of the physicist in industry, the business environment in a technical company, economic considerations, job hunting, and discussions with physicists with industrial experience. Enrollment by permission of instructor. Priority given to applied physics upper-division students; other majors if space available. Enrollment limited to 15. *The Staff*

42. Student-Directed Seminar.
Seminars taught by upper-division students under faculty supervision. (See course 192.) *The Staff*

80U. Physics and Psychophysics of Music. W
Fundamental theory of vibration, sound waves, sound propagation, diffraction, and interference. Free, coupled, and driven oscillations. Resonance phenomena and modes of oscillation. Fourier's theorem. Anatomy and psychophysics of the ear. Musical scales and intervals. Nature of plucked and bowed strings; guitar, violin, piano. Woodwind and brass instruments. Architectural acoustics. High school algebra and basic knowledge of musical notation recommended. (Also offered as Music 80U. Students cannot receive credit for both courses.) (General Education Code(s): MF.) *C. Gaskell*

99. Tutorial. F,W,S
Students submit petition to sponsoring agency. *The Staff*

UPPER-DIVISION COURSES

102. Modern Physics. F,W
Topics in quantum physics including the Schrodinger equation; angular momentum and spin; the Pauli exclusion principle; and quantum statistics. Applications in multi-electron atoms and molecules, and in solid-state, nuclear, and particle physics. Prerequisite(s): courses 5A/L, and

Physics

5B/M, and 5C/N and 5D; or 6A/L, and 6B/M, and 6C/N, and 5D; or equivalent. *D. Lederman, T. Jeltema*

105. Mechanics. F

Particle dynamics in one, two, and three dimensions. Conservation laws. Small oscillations, Fourier series and Fourier integral solutions. Phase diagrams and nonlinear motions, Lagrange's equations, and Hamiltonian dynamics. Prerequisite(s): courses 5A/L and 116A-B; concurrent enrollment in course 116C is required. *M. Hance*

107. Introduction to Fluid Dynamics. F

Covers fundamental topics in fluid dynamics: Euler and Lagrange descriptions of continuum dynamics; conservation laws for inviscid and viscous flows; potential flows; exact solutions of the Navier-Stokes equation; boundary layer theory; gravity waves. Students cannot receive credit for this course and Applied Mathematics and Statistics 217. (Also offered as Applied Math and Statistics 107. Students cannot receive credit for both courses.) Prerequisite(s): Mathematics 107 or Physics 116C or Earth and Planetary Sciences 111. *The Staff*

110A. Electricity, Magnetism, and Optics. W

Examines electrostatics, including the electric field, potential, solutions to Laplace's and Poisson's equations, and work and energy; electricity in matter (conductors, dielectrics); magnetostatics, including the magnetic field and vector potential, Ampere's and Faraday's laws; and magnetism in matter; Maxwell's equations; and conservation laws and gauge invariance. Prerequisite(s): course 5C and courses 116A-B-C. *J. Velasco Jr.*

110B. Electricity, Magnetism, and Optics. S

Examines electromagnetic waves, including absorption and dispersion, reflection and transmission, and wave guides; time-dependent vector and scalar potentials and application to radiation of charges and antennae;

and electrodynamics and relativity. Prerequisite(s): courses 110A and 116C. *D. Lederman*

112. Thermodynamics and Statistical Mechanics. W

Consequences of the first and second laws of thermodynamics, elementary statistical mechanics, thermodynamics of irreversible processes. Prerequisite(s): course 5D; and course 116B or Applied Mathematics and Statistics 5 or 131; and Mathematics 23A and 23B. Concurrent enrollment in course 101B or 102; and 116A is required. *D. Lederman*

115. Computational Physics. S

This course will apply efficient numerical methods to the solutions of problems in the physical sciences which are otherwise intractable. Examples will be drawn from classical mechanics, quantum mechanics, statistical mechanics, and electrodynamics. Students will apply a high-level programming language, such as Mathematica, to the solution of physical problems and develop appropriate error and stability estimates. Prerequisite(s): courses 101B or 102, and 105 and 116A-B-C, or equivalent. Basic programming experience in C or Fortran. No previous experience with Mathematica is required. *J. Nielsen*

116A. Mathematical Methods in Physics. W

Infinite series, topics in linear algebra including vector spaces, matrices and determinants, systems of linear equations, eigenvalue problems and matrix diagonalization, tensor algebra, and ordinary differential equations. Prerequisite(s): Mathematics 23A. *S. Shastry*

116B. Mathematical Methods in Physics. S

Complex functions, complex analysis, asymptotic series and expansions, special functions defined by integrals, calculus of variations, and probability, and statistics. Prerequisite(s): course 116A and Mathematics 23A and 23B. *M. Hance*

116C. Mathematical Methods in Physics. F

Fourier series and transforms, Dirac-delta function, Green's functions, series solutions of ordinary equations, Legendre polynomials, Bessel functions, sets of orthogonal functions, and partial differential equations. Prerequisite(s): courses 116A and 116B and Mathematics 23A and 23B. *S. Profumo*

120. Polymer Physics. *

Statistical properties polymers; scaling behavior, fractal dimensions; random walks, self avoidance; single chains and concentrated solutions; dynamics and topological effects in melts; polymer networks; sol-gel transitions; polymer blends; application to biological systems; computer simulations will demonstrate much of the above. Students cannot receive credit for this course and course 240. Prerequisite(s): courses 112 and 116B. Offered in alternate academic years. *J. Deutsch*

129. Nuclear and Particle Astrophysics. W

The standard model of particle physics; general relativistic cosmology; the early universe and Big Bang nucleosynthesis; dark matter and structure formation; formation of heavy elements in stars and supernovae; neutrino oscillations; high-energy astrophysics: cosmic rays and gamma-ray astronomy. (Formerly Nuclear and Particle Physics.) Prerequisite(s): courses 5D, and 101B or 102, and Mathematics 23B; students with equivalent coursework may contact instructor for permission to enroll. *A. Aguirre*

133. Intermediate Laboratory. F,W

Demonstration of phenomena of classical and modern physics. Development of a familiarity with experimental methods. Special experimental projects may be undertaken by students in this laboratory. Prerequisite(s): courses 5C and 5D. (General Education Code(s): SR.) (*F*) *D. Smith*, (*W*) *B. Schumm*

Physics

134. Physics Advanced Laboratory. W,S

Individual experimental investigations of basic phenomena in atomic, nuclear, and solid state physics. Prerequisite(s): courses 133, and 101B or 102. May be repeated for credit. *A. Ramirez*

135. Astrophysics Advanced Laboratory. *

Introduction to the techniques of modern observational astrophysics at optical and radio wavelengths through hands-on experiments. Offered in some academic years as a multiple-term course: 135A in fall and 135B in winter, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135. Students cannot receive credit for both courses.) Prerequisite(s): course 133 and at least one astronomy course. Intended primarily for juniors and seniors majoring or minoring in astrophysics. *The Staff*

135A. Astrophysics Advanced Laboratory (3 credits). F

Introduction to techniques of modern observational astrophysics at optical and radio wavelengths through hands-on experiments. Intended primarily for juniors and seniors majoring or minoring in astrophysics. Offered in some academic years as single-term course 135 in fall, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135A. Students cannot receive credit for both courses.) Prerequisite(s): course 133 and at least one astronomy course. *G. Brown*

135B. Astrophysics Advanced Laboratory (2 credits). W

Introduction to techniques of modern observational astrophysics at optical and radio wavelengths through hands-on experiments. Intended primarily for juniors and seniors majoring or minoring in astrophysics. Offered in some academic years as single-term course 135 in fall, depending on astronomical conditions. (Also offered as Astronomy and Astrophysics 135B. Students cannot receive credit for both courses.)

Prerequisite(s): courses 133 and 135A. *G. Brown*

136. Advanced Astronomy Laboratory. S

Introduces the techniques of modern observational astrophysics at optical wavelengths through hands-on experiments and use of remote observatories. Students develop the skills and experience to pursue original research. Course is time-intensive and research-oriented. Prerequisite(s): Earth Sciences 119 and Physics 133. Enrollment restricted to junior and senior astrophysics majors. Enrollment limited to 12. *The Staff*

139A. Quantum Mechanics I. S

Basic principles and mathematical techniques of nonrelativistic quantum mechanics: Schrodinger equation and Dirac notation; one-dimensional systems, including the free particle and harmonic oscillator; three-dimensional problems with spherical symmetry; angular momentum; hydrogen atom; spin; identical particles and degenerate gases. (Formerly Quantum Mechanics.)

Prerequisite(s): courses 101B or 102, and 116A-B-C. *S. Ritz*

139B. Quantum Mechanics II. F

Approximation methods in nonrelativistic quantum mechanics: time-independent perturbation theory (non-degenerate and degenerate) and addition of angular momenta; variational methods; the WKB approximation; time-dependent perturbation theory and radiation theory; scattering theory. (Formerly Quantum Mechanics.)

Prerequisite(s): courses 101B or 102, and 139A and 116ABC. *J. Nielsen*

143. Supervised Teaching (2 credits). *

Supervised tutoring in selected introductory courses. Students should have completed course 101A and 101B as preparation. Students submit petition to sponsoring agency. *The Staff*

152. Optoelectronics. *

The first half of the course covers the theory of optoelectronics including wave, electromagnetic,

and photon optics, modulation of light by matter, and photons in semiconductors. The second half covers applications including displays, lasers, photodetectors, optical switches, fiber optics, and communication systems.

Prerequisite(s): courses 101B or 102, and 110A. *The Staff*

155. Solid State Physics. W

Interatomic forces and crystal structure, diffraction, lattice vibrations, free electron model, energy bands, semiconductor theory and devices, optical properties, magnetism, magnetic resonance, superconductivity. Prerequisite(s): courses 112 and 139A; students with equivalent coursework may contact instructor for permission to enroll. *Z. Schlesinger*

156. Applications of Solid State Physics. S

Emphasizes the application of condensed matter physics to a variety of situations. Examples chosen from subfields such as semiconductor physics, lasers, superconductivity, low temperature physics, magnetism, and defects in crystals. Prerequisite(s): courses 101B or 102. *J. Velasco Jr.*

160. Practical Electronics. S

Provides a practical knowledge of electronics that experimentalists generally need in research. The course assumes no previous knowledge of electronics and progresses according to the interest and ability of the class. Based on weekly lectures. However, with the aid of the instructor, the students are expected to learn mainly through the design, construction, and debugging of electronics projects. Students are billed a materials fee. Prerequisite(s): courses 5C and 5N or 6C and 6N. *R. Johnson*

171. General Relativity, Black Holes, and Cosmology. F

Special relativity is reviewed. Curved space-time, including the metric and geodesics, are illustrated with simple examples. The Einstein equations are solved for cases of high symmetry. Black-hole physics and cosmology are discussed,

Physics

including recent developments. (Also offered as Astronomy and Astrophysics 171. Students cannot receive credit for both courses.) Prerequisite(s): courses 105, 110A, 110B, and 116A/B. *A. Aguirre*

180. Biophysics. *

Physical principles and techniques used in biology: X-ray diffraction; nuclear magnetic resonance; statistics, kinetics, and thermodynamics of macromolecules; viscosity and diffusion; DNA/RNA pairing; electrophoresis; physics of enzymes; biological energy conversion; optical tweezers. Prerequisite(s): course 112; students who have a biochemistry background may contact instructor for permission. Enrollment restricted to juniors and seniors. (General Education Code(s): PR-E.) *J. Deutsch*

182. Scientific Communication for Physicists. F,W

Explores the communication of physics to a wide range of audiences, including writing articles from the popular to the peer-reviewed level; critically analyzing the communication of scientific discoveries in the media; structuring the physics senior thesis; writing grant applications; assembling a personal statement for job and graduate school application; and assembling and critiquing oral presentations. Prerequisite(s): course 133 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to junior and senior majors in physics, astrophysics, applied physics, or physics education. Enrollment limited to 35. (F) *D. Smith*, (W) *A. Sher*

191. Teaching Practicum. F,W,S

Designed to provide upper-division undergraduates with an opportunity to work with students in lower division courses, leading discussions, reading and marking submissions, and assisting in the planning and teaching of a course. Prerequisite(s): excellent performance in major courses; instructor approval required;

enrollment restricted to senior physics majors. *The Staff*

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Prerequisite(s): upper-division standing; submission of a proposal supported by a faculty member willing to supervise. *The Staff*

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. *The Staff*

199F. Tutorial (2 credits).

Tutorial. May be repeated for credit. *The Staff*

GRADUATE COURSES

205. Introduction to Research in Physics (2 credits). W

Introduction to current research opportunities at UCSC for graduate students. Topics include: elementary particle physics, condensed matter and solid state physics, high energy astrophysics, biophysics, and cosmology. Selected topics related to career development may also be included. Enrollment restricted to graduate students or by permission of instructor. *R. Johnson*

210. Classical Mechanics. F

Generalized coordinates, calculus of variations, Lagrange's equations with constraints, Hamilton's equations, applications to particle dynamics including charged particles in an electromagnetic field, applications to continuum mechanics including fluids and electromagnetic fields, introduction to nonlinear dynamics. Enrollment restricted to graduate students only, except by permission of instructor. *R. Johnson*

212. Electromagnetism I. F

Electrostatics and magnetostatics, boundary value problems with spherical and cylindrical symmetry, multipole expansion, dielectric media, magnetic materials, electromagnetic properties of materials, time-varying electromagnetic fields, Maxwell's

equations, conservation laws, plane electromagnetic waves and propagation, waveguides and resonant cavities. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *O. Narayan*

214. Electromagnetism II. W

Lorentz covariant formulation of Maxwell's equations, dynamics of relativistic charged particles and electromagnetic fields, scattering and diffraction. Topics in classical radiation theory: simple radiating systems radiation by moving charges, multipole radiation, synchrotron radiation, Cerenkov radiation, bremsstrahlung and radiation damping. Prerequisite(s): course 212. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *O. Narayan*

215. Introduction to Non-Relativistic Quantum Mechanics. W

Mathematic introduction; fundamental postulates; time evolution operator, including the Heisenberg and Schrodinger pictures; simple harmonic oscillator and coherent states; one-dimensional scattering theory, including S-matrix resonant phenomena; two-state systems, including magnetic resonance; symmetries, including rotation group, spin, and the Wigner-Eckart theorem; rotationally invariant problems, including the hydrogen atom; gauge invariance, including Landau levels; introduction to path integral. Enrollment restricted to graduate students only, except by permission of instructor. *H. Haber*

216. Advanced Topics in Non-Relativistic Quantum Mechanics. S

Approximate methods: time-independent perturbation theory, variational principle, time-dependent perturbation theory; three-dimensional scattering theory; identical particles; permutation symmetry and exchange degeneracy, anti-symmetric and symmetric states;

Physics

many-body systems and self-consistent fields: variational calculations; second quantized formalism, including Fock spaces/number representation, field operators and Green functions; applications: electron gas; quantization of the electromagnetic field and interaction of radiation with matter: absorption, emission, scattering, photoelectric effect, and lifetimes. Prerequisite(s): course 215. Enrollment restricted to graduate students only, except by permission of instructor. *B. Schumm*

217. Quantum Field Theory I. F

Lorentz invariance in quantum theory, Dirac and Klein-Gordon equations, the relativistic hydrogen atom, Green functions and canonical approach to field theory, quantum electrodynamics, Feynman diagrams for scattering processes, symmetries and Ward identities. Students learn to perform calculations of scattering and decay of particles in field theory. Prerequisite(s): course 216 or exception by permission of the instructor. Enrollment restricted to graduate students or by permission of the instructor. *M. Dine*

218. Quantum Field Theory II. W

Path integral approach to quantum field theory. Theory of renormalization and the renormalization group, introduction to gauge theories and spontaneously broken field theories. Applications to the standard model of strong, weak, and electromagnetic interactions. Prerequisite(s): course 217. Enrollment restricted to graduate students only, except by permission of instructor. *S. Profumo*

219. Statistical Physics. S

The basic laws of thermodynamics, entropy, thermodynamic potentials, kinetic theory of gases, quantum and classical statistical mechanics, virial expansion, linear response theory. Applications in condensed matter physics. Enrollment restricted to graduate students only, except by permission of instructor. *S. Shastry*

220. Theory of Many-Body Physics. F

Finite temperature Green functions, Feynman diagrams, Dyson equation, linked cluster theorem, Kubo formula for electrical conductivity, electron gas, random phase approximation, Fermi surfaces, Landau fermi liquid theory, electron phonon coupling, Migdal's theorem, superconductivity. Prerequisite(s): courses 216 and 219. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *S. Shastry*

221A. Introduction to Particle Physics I. F

First quarter of a two-quarter graduate level introduction to particle physics, including the following topics: discrete symmetries, quark model, particle classification, masses and magnetic moments, passage of radiation through matter, detector technology, accelerator physics, Feynman calculus, and electron-positron annihilation. Prerequisite(s): course 217 or concurrent enrollment. Enrollment restricted to graduate students only, except by permission of instructor. *B. Schumm*

221B. Introduction to Particle Physics II. W

Second quarter of a two-quarter graduate level introduction to particle physics, including the following topics: nucleon structure, weak interactions and the Standard Model, neutrino oscillation, quantum chromodynamics, CP violation, and a tour of the Stanford Linear Accelerator Center. Prerequisite(s): course 221A; course 217 or concurrent enrollment. Enrollment restricted to graduate students only, except by permission of instructor. *J. Nielsen*

222. Quantum Field Theory III. S

Focuses on the theoretical underpinnings of the standard model, including the spontaneous symmetry breaking, the renormalization group, the operator product expansion, and precision tests of the Standard Model. Prerequisite(s): courses 218 and 221B. Enrollment restricted to graduate students only, except by

permission of instructor. Offered in alternate academic years. *M. Dine*

224. Particle Astrophysics and Cosmology. S

Particle physics and cosmology of the very early universe: thermodynamics and thermal history; out-of-equilibrium phenomena (e.g., WIMPs freeze-out, neutrino cosmology, Big Bang nucleosynthesis, recombination); baryogenesis; inflation; topological defects. High-energy astrophysical processes: overview of cosmic ray and gamma ray astrophysics; radiative and inelastic processes; astroparticle acceleration mechanisms; magnetic fields and cosmic ray transport; radiation-energy density of the universe; ultrahigh-energy cosmic rays; dark-matter models; and detection techniques. (Formerly Origin and Evolution of the Universe.) (Also offered as Astronomy and Astrophysics 224. Students cannot receive credit for both courses.) Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *A. Aguirre*

226. General Relativity. *

Develops the formalism of Einstein's general relativity, including solar system tests, gravitational waves, cosmology, and black holes. (Also offered as Astronomy and Astrophysics 226. Students cannot receive credit for both courses.) Enrollment restricted to graduate students only, except by permission of instructor. *S. Profumo, A. Aguirre*

227. Advanced Fluid Dynamics. *

Fundamentals of heat transfer and fluid flow: thermal convection, gravity waves, vortex dynamics, viscous flows, instabilities, turbulence, and compressible flows. Students develop computer program for simulating thermal convection and gravity waves. Vector calculus and computer programming experience required. (Formerly *Fluid Dynamics*.) An introductory course in fluid dynamics recommended as preparation. Enrollment restricted

Physics

to graduate students. Offered in alternate academic years. *The Staff*

231. Introduction to Condensed Matter Physics. F

Crystal structures, reciprocal lattice, crystal bonding, phonons (including specific heat), band theory of electrons, free electron model, electron-electron and electron-phonon interactions, transport theory. Prerequisite(s): course 216 or equivalent course or by permission of the instructor. Enrollment restricted to graduate students only, or by permission of instructor. *A. Ramirez*

232. Condensed Matter Physics. W

Magnetism (para, ferro, anti-ferro, ferri), spin waves, superconductivity, introduction to semiconductors. Prerequisite(s): course 231. Enrollment restricted to graduate students only, except by permission of instructor. *The Staff*

233. Advanced Condensed Matter Physics. *

A special topics course which includes areas of current interest in condensed matter physics. Possible topics include superconductivity, phase transitions, renormalization group, disordered systems, surface phenomena, magnetic resonance, and spectroscopy. Prerequisite(s): course 231. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *S. Carter*

234. Soft Condensed Matter Physics. *

A selection of topics from: liquid crystals, biological systems, renormalization group and critical phenomena, stochastic processes, Langevin and Fokker Planck equations, hydrodynamic theories, granular materials, glasses, quasicrystals. Prerequisite(s): courses 219 and 232. Enrollment restricted to graduate students. *A. Young, O. Narayan*

240. Polymer Physics. *

Statistical properties polymers. Scaling behavior, fractal dimensions. Random walks, self avoidance. Single chains and concentrated solutions. Dynamics

and topological effects in melts. Polymer networks. Sol-gel transitions. Polymer blends. Application to biological systems. Computer simulations demonstrating much of the above. Students cannot receive credit for this course and course 120. Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *J. Deutsch*

242. Computational Physics. *

This course will apply efficient numerical methods to the solution of problems in the physical sciences which are otherwise intractable. Examples will be drawn from classical mechanics, quantum mechanics, statistical mechanics, and electrodynamics. Students will apply a high-level programming language such as Mathematica to the solution of physical problems and will develop appropriate error and stability estimates. Prerequisite(s): basic programming experience in C or Fortran. No previous experience with Mathematica is required. Enrollment restricted to graduate students only, except by permission of instructor. *J. Nielsen*

Enrollment restricted to graduate students only, except by permission of instructor. *J. Nielsen*

250. Mathematical Methods. *

Probability theory with applications to data analysis, complex variables, Cauchy's residue theorem, dispersion relations, saddle-point type asymptotic methods for integrals, integral transforms, ordinary differential equations and orthogonal polynomials, partial differential equations and boundary value problems, and Greens functions. Integral equations also included if time permits. Enrollment restricted to graduate students. *The Staff*

251. Group Theory and Modern Physics. *

Finite and continuous groups, group representation theory, the symmetric group and Young tableaux, Lie groups and Lie algebras, irreducible representations of Lie algebras by tensor methods, unitary groups in particle physics, Dynkin diagrams, Lorentz and Poincaré groups.

Enrollment restricted to graduate students only, except by permission of instructor. Offered in alternate academic years. *H. Haber*

290. Special Topics. *

A series of lectures on various topics of current interest in physics at UC Santa Cruz. Enrollment restricted to graduate students only, except by permission of instructor. May be repeated for credit. *The Staff*

291A. Cosmology (2 credits). F,W,S

Intensive research seminar on cosmology and related topics in astrophysics: nature of dark matter; origin of cosmological inhomogeneties and other initial conditions of the big bang; origin and evolution of galaxies and large scale structure in the universe. Enrollment restricted to graduate students only, except by permission of instructor. *J. Primack*

291B. X-rays and Magnetism (2 credits). *

Research seminar on x-ray studies of the properties and behavior of magnetic materials. Topics include: the underlying physical interactions, experimental techniques, and selected examples from current research. This course includes a visit to the Advanced Light Source in Berkeley. Enrollment is restricted to graduate students. May be repeated for credit. *P. Fischer*

291C. Developments in Theoretical Particle Physics (2 credits). F,W,S

Seminar on the current literature of elementary particle physics, ranging from strong and weak interaction phenomenology to Higgs physics, supersymmetry, and superstring theory. Students may present their own research results. Prerequisite(s): course 218; enrollment restricted to graduate students. May be repeated for credit. *M. Dine, H. Haber*

291D. Experimental High-Energy Collider Physics (2 credits). F,W,S

Seminar on current results in experimental high-energy particle physics. Topics follow recently

Physics

published results, including design of experiments, development of particle detector technology, and experimental results from new particle searches, quantum chromodynamics, and properties of heavy flavor quarks. Enrollment restricted to graduate students. May be repeated for credit. *J. Nielsen*

291E. Applied Physics (2 credits). F,W,S

Intensive research seminar on applied physics and related topics in materials science, including semiconductor devices, optoelectronics, molecular electronics, magnetic materials, nanotechnology, biosensors, and medical physics. Students may present their own research results. Enrollment restricted to graduate students. May be repeated for credit. *S. Carter*

291F. Experimental High-Energy and Particle Astrophysics Seminar (2 credits). F,W,S

Survey of current research in experimental high-energy and particle astrophysics. Recent observations and development in instrumentation for x-rays, gamma rays, and neutrinos, and evidence for dark matter and other new particles. Students lead discussion of recent papers. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. *D. Smith*

291G. Condensed Matter Physics Research Seminar (2 credits). F,W,S

Weekly seminar series covering topics of current interest in condensed matter physics. Local and external speakers discuss their work. Enrollment restricted to graduate students. May be repeated for credit. *The Staff*

292. Seminar (no credit). F,W,S

Weekly seminar attended by faculty and graduate students. Directed at all physics graduate students who

have not taken and passed the qualifying examination for the Ph.D. program. Enrollment restricted to graduate students only, except by permission of instructor. *The Staff*

297. Independent Study. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. *The Staff*

298. Theoretical and Experimental Research Project. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. *The Staff*

299. Thesis Research. F,W,S

Enrollment restricted to graduate students only, except by permission of instructor. *The Staff*

* Not offered in 2017-18

Revised: 09/01/17

POLITICS

2017-18 General Catalog

25 Merrill College

(831) 459-2855

politics@ucsc.edu

<http://politics.ucsc.edu>

PROGRAM DESCRIPTION

In describing the department and major at UCSC, the term politics (rather than political science or government) is used because the study of political life requires a far more inclusive approach than that which is associated with conventional political science methods, and because politics happens in places other than governments. More specifically, the study of politics is the study of the way human communities shape and share a common life through their institutional practices, ideas, interests, and expectations. It looks at the way collective decisions are made and at the obstacles citizens meet as they try to forge a shared and just life. Courses address issues central to public life, such as democracy, power, freedom, political economy, social movements, international law and conflict, institutional reforms, and how public life, as distinct from private life, is constituted.

A major in politics is appropriate for students interested in careers in law, journalism, or teaching; in political and governmental work from local to international settings; in non-governmental organizations; and in corporations dealing with global issues. Many UCSC politics graduates have also gone on to do advanced work in distinguished graduate and professional schools. Others have found active and challenging careers in business and community organizing. Still others have turned to scholarship and writing. But regardless of career direction, the most significant purpose of the politics major is to help educate a reflective and activist citizenry capable of sharing power and responsibility in a contemporary democracy.

The study of politics is a critical part of a liberal arts education. Since political issues and practices are embedded in and reflective of the whole experience of a community, the study of politics can constitute the center of a broad-based course of study drawing on history, sociology, anthropology, philosophy, economics, literature, science, and law.

The programs offered by the UCSC Politics Department are designed to acquaint students with a broad range of issues studied by those in the field. The department offers an undergraduate major, a minor, a combined Latin American and Latino studies/politics major, and a doctoral degree. The Politics Department also houses

the legal studies (program (see the legal studies statement for details).

UCSC politics students have many opportunities for field work and for internship placements. Students are encouraged to develop their own extensive independent research projects.

Politics faculty members give students individual attention to help them in their studies. Faculty members are firmly committed to the value of a liberal arts education, but they are also actively engaged in programs of research and writing. The research interests of the faculty range from the theory of justice to the problem of war, from campaign strategy to relations between the rich and the poor countries of the world.

The Politics Department also encourages students to pursue additional academic opportunities while at UCSC. Possible programs include: the UCDC program, a one-quarter program at the UC campus in Washington, D.C. that includes coursework and an internship, UCSAC, a one-quarter program at UC Center in Sacramento, the UCSC/UC Hastings Law School 3 Plus 3 program in which students earn B.A. and J.D. degrees in six years, and the Education Abroad Program (EAP).

No specific courses at the high school level are required for admission to the major in politics at UCSC. Courses in history, literature, philosophy, and the social sciences, whether taken at the high school or college level, are appropriate background and preparation for the politics major.

PROGRAM LEARNING OUTCOMES

Upon completion of the major, students will have met the following objectives:

1. understand the origins, development, and nature of political institutions, practices, and ideas;
2. place particular political phenomena in broader context (national, historical, cross-cultural, and theoretical, etc);
3. demonstrate familiarity with various theoretical approaches to the study of politics, and their application in different geographic and substantive areas;

Politics

- critically evaluate arguments about political institutions, practices, and ideas based on logic and evidence;
- develop and sustain coherent written and oral arguments regarding political phenomena, theories, and values based on appropriate empirical and/or textual evidence and logic.

REQUIREMENTS OF THE MAJOR

Two lower-division politics courses. All students are required to complete and pass two courses from those numbered 1 through 79, as a prerequisite to upper-division courses in politics and prior to declaring the major. These courses are normally taken during the student's first year.

A student who has not been able to satisfy the pre-declaration requirement (a passing grade in two politics lower-division classes) may petition the department for an exception. The letter of petition must explain and document the circumstances that might justify an exception. The department will consider the request and notify the student of its decision within two weeks of receiving the petition or within 10 days of the start of the following quarter, whichever is later.

Four upper-division politics core courses. The following four groups of courses constitute the core of the politics major. Four courses are required: two courses from one group, one course from a second group, and one course from a third group. In general, upper-division courses are not recommended for freshmen.

Theory

105A Ancient Political Thought

105B Early Modern Political Thought

105C Modern Political Thought

U.S. Politics

120A Congress, President, and the Court in American Politics

120B Society and Democracy in American Political Development

120C State and Capitalism in American Political Development

Comparative

140A European Politics

140B Comparative Post-Communist Politics

140C Latin American Politics

140D Politics of East Asia

International

160A International Politics

160B International Law

160C Security, Conflict, Violence, War

160D International Political Economy

Four upper-division politics electives. Four additional upper-division politics courses (five, if you're planning to choose the 12th course option for the senior comprehensive requirement.), selected from 101-190, one of which may satisfy the comprehensive requirement described below (see the "Course Description" page for details about these courses).

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement for politics majors is satisfied by completing any three of the four required core courses. . The politics core course list is detailed above in the major requirements.

COMPREHENSIVE REQUIREMENTS

The comprehensive requirement in the Politics Department can be satisfied in any of the following methods:

- Senior Seminar:** Successful completion of a politics senior seminar (190-series) that includes the writing of an extensive paper (no less than 15 pages) with a substantial research content. To enroll in a specific 190 seminar, students must have successfully completed the prerequisite courses listed in the seminar's catalog course description.
- Additional Elective:** Successful completion of one additional politics upper-division elective that includes a substantial writing component comparable to a paper for a senior seminar, either as part of the existing course requirements or added with the approval of the instructor. The student must receive prior approval from the instructor and enroll in a two-credit independent study, Politics 199F as part of this option.
- Graduate Seminar:** Successful completion of a politics graduate seminar (enrollment is contingent on the written recommendation of two politics faculty) that includes the writing of an extensive paper (no less than 15 pages) with a substantial research content.
- Thesis (2-3 quarters):** Successful completion of a senior thesis (Politics 195A-B-C) of a minimum of 50 pages. This option is for students interested in working on original research and writing under the supervision of a politics faculty member.

INDEPENDENT AND FIELD STUDIES

Politics

Students may petition the department to substitute only one upper-division independent study or field study toward the elective requirement in the Politics major. UCDC and UCSAC internships are exempt from this limit.

HONORS

Honors in the politics major are awarded to graduating seniors, based primarily on a review of grades, whose academic performance is judged to be consistently excellent by a committee of politics faculty. Highest honors in the major are reserved for students with consistently outstanding academic performance.

REQUIREMENTS OF THE MINOR

All students are required to complete and pass one lower-division politics course from those numbered 1 through 79 prior to declaring the minor. Additionally, five upper-division politics courses are required. Of these, four are to be selected from the core courses: two from one subfield and two from another subfield; these courses are listed above. The fifth course is to be selected from courses numbered 101-199.

GENERAL UNDERGRADUATE INFORMATION

Combined major. The Politics Department offers a combined major with the Latin American and Latino Studies Department. Requirements may be reviewed in the Latin American and Latino Studies section of the catalog.

Double majors. The department accepts proposals for double majors. A student pursuing a double major meets the full requirements of the politics major as well as the full requirements of the other major subject.

Advising. Declaring the major in politics is a three-step process: 1) complete and pass two lower-division politics courses (numbered 1-79) with a grade of C or better; 2) attend a declaration orientation workshop, and 3) bring completed Declaration of Major worksheet and Politics Major worksheet to Politics Advising Office to officially declare. Each student meets with a faculty adviser to discuss an intended program of study, including its breadth and purpose. The faculty adviser may suggest additional courses so that the student can achieve greater breadth or concentration. Students are encouraged to select related courses from other departments, which complement their interests in politics.

Course credit from other institutions. Courses from another institution may be considered only if they appear on the student's Transfer Credit Summary. Students who wish to substitute courses taken elsewhere for the Politics Department's requirements should discuss the procedure with the department adviser.

Transfer students. A student transferring to UCSC must meet with the politics undergraduate adviser as early as possible to discuss declaring the major and course enrollment. This will ensure a smoother transition. Students should bring a copy of their UCSC Transfer Credit Summary which may be printed from the student portal.

A junior transfer student may satisfy the requirement for one of the two lower-division courses by completing an equivalent course in a political science or equivalent department with a grade of C or better. Courses from another institution may be considered only if they appear on the UCSC Transfer Credit Summary.

GRADUATE PROGRAM

THE FACULTY

The work of the UCSC Politics Department's faculty has led the field toward interdisciplinary and engaged research, and represents the diverse cutting edge of U.S. and international political research. A group of affiliated graduate faculty extends the program's intellectual breadth and the range of the course offerings.

The department enjoys several areas of special strength, including American political development, the social foundations of democratic politics and democratization; political economy; politics of the developing world; the politics of language; sub-national politics; post-colonial theory and nationalist discourse; early modern political thought; and informal and translocal political organization.

THE CURRICULUM

The Politics Department is impressed by the fact that many of the best studies of politics today disregard the conventional boundaries of the political science's disciplinary subfields. Therefore, the core graduate curriculum and qualifying examination process are structured around four interrelated themes central to political inquiry. Each of these areas of emphasis focuses, in a different way, on the relations among material life, institutional authority, collective mobilization, and political vision at all levels of politics.

Political and Social Thought. Brings together the history of political thought; contemporary social and critical theory; and the contributions of legal and institutional analysis of various kinds. This area of inquiry emphasizes the critical study of political practices that are experienced or understood as in some way limiting, oppressive, or wrong. The work of political and social theory as we see it is to transform our understanding of these practices; to see their contingent conditions; and to articulate the possibilities of governing ourselves differently.

Political and Social Forces. Concerns the interaction of social forces and political forces, drawing upon the work of scholars focused on social mobilizations and

Politics

histories. Accordingly, this area of inquiry focuses on the articulation and organization of political interest and identities. This area studies the mutual interaction of these interests and identities with structure (states, discourses, public policy, and the law) uniting substantive and theoretical concerns across regional, national, and global politics.

States and Political Institutions. Emphasizes the international study of political institutions as instruments of collective decision-making and action. This area of inquiry focuses on the state and on transnational, subnational, and regional political institutions. In this area, we emphasize historical patterns of institutional development in relation to domestic political conflict and the changing contours of international political economy and patterns of conflict and cooperation among states.

Political Economy. Focuses on the relationship between states, markets, and societies. This area of inquiry explores the various understandings of political economy that have emerged within a number of different theoretical perspectives, including Marxism, realism, and liberalism. At subnational, national, and supranational levels, this area seeks to understand political economy outcomes as the result of the mutual interactions between political institutions, societal interests, and ideas and norms.

The politics graduate curriculum works critically upon and within conventional social science research and also ranges beyond its methods, drawing upon cultural studies, historical sociology, and history as they inform the study of politics. Students in the politics graduate program also work with faculty in other distinguished departments at UCSC, including literature, history of consciousness, history, Latin American and Latino studies, environmental studies, philosophy, international economics, and feminist studies.

Scholars and students in the program emphasize the articulation of important questions prior to the development of methods for grappling with them, while recognizing the importance of appropriate methodological tools for doing meaningful political research.

To support the growth of students as scholars, the department also offers a series of professional development sessions to introduce and help develop the skills of successful academic work. All graduate students are also expected to attend department events with notable visitors brought to campus for public lectures, presentation, and/or graduate colloquia.

TEACHING

Throughout its history, the department has been strongly committed to undergraduate teaching. The graduate program offers graduate students the opportunity to work closely with faculty and undergraduates as teaching assistants. The Politics Department's faculty is committed to "the teaching of

teaching": its training of college educators emphasizes the importance of civic education in undergraduate instruction. All students who are teaching assistants will be required to attend a TA training program in which pedagogic and substantive issues will be considered.

See [our web site](#) for details about the policies for admission to graduate standing as well as the application, and information about financial-support opportunities. For more information, refer to the Graduate Division web site.

PH.D. PROGRAM REQUIREMENTS

All curricular requirements are aimed at preparing students for timely and successful completion of a doctoral dissertation. The graduate curriculum in politics includes seven stages: 1) three core seminars plus Politics 201, Logics of Inquiry seminar; 2) five other graduate-level Politics Department courses; 3) three additional graduate-level courses that may be from Politics or other departments, along with further training as appropriate in language and methodology; 4) teaching assistant seminar training; 5) a qualifying examination consisting of written and oral parts; 6) the research and writing of the dissertation; and 7) its oral defense.

CORE SEMINARS AND LOGICS OF INQUIRY SEMINAR

Required Core Seminars: During the first two years in residence, students are required to take three of the four core seminars that correspond to the areas of emphasis: Politics 200A, Political and Social Thought; Politics 200B, Social Forces and Political Change; Politics 200C, Political Institutions and States; and Politics, 200D Political Economy. The core seminars provide a broad foundation for research in politics and offer structured opportunities to foster a community of scholarship within the program.

Logics of Inquiry: The department also recognizes the importance of informed and critically engaged methodology. Logics of Inquiry, POLI 201, is a required course that investigates approaches to the study of politics and to the enterprise of social science in general.

ADDITIONAL COURSES

Prior to the qualifying examination, a minimum of five additional politics graduate courses taught by [Politics Department](#) faculty or [affiliated graduate faculty](#) must be completed. Three additional graduate-level courses are also required, which may be taken from any UCSC department (including Politics).

Each candidate shall develop with his or her adviser language and method requirements appropriate to the student's project, graduate education, and career goals.

POLITICS QUALIFYING EXAMINATION

Politics

The **Qualifying Examination (QE)** process is intended to demonstrate a student's mastery of and engagement with a range of literatures, including a) core literatures in two of the program's four areas of emphasis and b) specialized literatures relevant to her/his research trajectory. It is also intended to provide a forum for the student to specify and develop her/his research question and plan for the dissertation.

A student's preparation for the QE process begins with the first core seminar and continues throughout the required coursework. The QE process itself is completed during a student's third year. It has three components: 1) two written examinations (take-home examinations or field statements); 2) the dissertation prospectus; and 3) an oral examination. The specific deadlines for each component are available from the graduate adviser.

We encourage students to consult with their politics faculty advisers regarding the two written examination options. Students must complete the QE process to advance to Ph.D. candidacy by the end of their third year in the program. If the student fails any component of the QE process twice, she/he will not be permitted to continue in the program. On this schedule, students are expected to complete the degree in five to six years.

DESIGNATED EMPHASIS

Graduate students in politics may obtain a designated emphasis on the politics Ph.D. diploma indicating they have completed an additional specialized course of

study in another department that offers a designated emphasis. Please consult the department of interest for more information

To receive a designated emphasis in politics, graduate students from other departments must complete the following requirements **in addition to degree requirements for the doctorate in their home (or coordinating) department.**

- The student must have a designated faculty adviser from among the politics core faculty. This adviser will be in addition to the faculty adviser from the student's home department. The politics adviser must serve on the student's qualifying examination committee and on the student's dissertation committee.
- The student must take four (4) graduate courses offered by the Politics Department. Two of these courses must be core courses (Political and Social Thought, Political Institutions, Political Economy, or Social Forces) and two courses may be electives appropriate to the student's thesis research. No more than one of these two elective courses may be an independent study.
- The student must prepare a significant piece of writing in the area of politics. This writing may take the form of a doctoral dissertation chapter or a paper to be submitted for publication.

POLITICS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Michael K. Brown, Emeritus

J. Peter Euben, Emeritus

Kent Eaton

Comparative politics, Latin America, international relations, political economy, public policy, political institutions

Isebill V. Gruhn, Emerita

Bruce D. Larkin, Emeritus

Ronnie D. Lipschutz

International relations; global political economy; globalization; foreign policy; resource/environmental politics; global political networks; global civil society and social movements; popular culture and politics; technology and society; risk society, state transformation and global governmentality

Michael E. Urban, Emeritus

Daniel J. Wirls

American politics, including national political institutions (Congress) and the President; public policy (military and foreign policy) and political history

ASSOCIATE PROFESSOR

Elizabeth Beaumont

Constitutionalism, democracy, and American political development; civic engagement and education; citizenship, rights, and problems of inequality; social movements and popular constitutionalism

Eva C. Bertram

American politics, public policy, political economy, and political history, including social policy and the welfare state, and the changing character of work and labor markets in the United States

Sikina Jinnah

Global governance, environmental politics, trade/environment politics, climate change, biodiversity, climate engineering, international cooperation

Mark Fathi Massoud

Law and society; human rights; international law and development, with a special interest in Sudan and Somalia; Islamic law and society; qualitative, archival, and ethnographic methods

Politics

Dean Mathiowetz

Democratic theory; theories of agency, personality, and subjectivity; classical and critical political economy; ancient and early modern political thought; politics of affect and mindfulness; conceptual history; philosophy of language; hermeneutics and problems of interpretation

Eleonora Pasotti

Comparative urban politics, social movements, democratization, public policy, sub-national political economy and party politics

Benjamin Read

Comparative politics with special interest in the politics of China and Taiwan, urban politics, democracy and democratization, authoritarian regimes, civil society, associations and social networks, political participation and collective action

Roger Schoenman

Post-socialism, political economy, comparative capitalism, politics of pipelines, politics of memory, political networks, politics and money, far right politics, business influence and lobbying, Balkan and East European politics, Central Asian transition

Vanita Seth

Early modern and modern political theory, feminist theory, cultural history, race politics, postcolonial theory

Melanie Springer

American politics, including voting and elections; electoral reform; federalism; state politics and policymaking; political institutions; partisanship and political history

David J. Thomas, Emeritus

Megan Thomas

Political theory, especially of the 19th century; nationalist thought; Orientalism; comparative colonialism; Southeast Asia

David Gordon

International relations, global environmental/climate politics, climate policy, urban sustainability/climate governance, transnational networks, politics of city-networks, norms and social constructivism, power in global governance, social field theory, politics of decarbonization, comparative climate governance

Sara Niedzwiecki

Comparative politics, Latin America; comparative social policy and welfare states; sub-national politics; methodology

Anjali Verma

Punishment and inequality, mass incarceration, decarceration, deinstitutionalization, sociology of law, politics and social change, mixed-methods research, aging and health

PROFESSOR

Edmund Burke III, Emeritus (History)

Barbara Epstein, Emerita (History of Consciousness)

Adrian Felix (Assistant Professor, Latin American and Latino Studies)

Jonathan A. Fox, Emeritus (Latin American and Latino Studies)

Walter L. Goldfrank, Emeritus (Sociology)

David E. Goodman, Emeritus (Environmental Studies)

Paul M. Lubeck, Emeritus (Sociology)

Robert L. Meister (Professor, Professor of Political and Social Thought and History of Consciousness)

Daniel M. Press (Environmental Studies)

Craig Reinerman (Sociology)

Alan Richards, Emeritus (Environmental Studies)

Andrew Szasz (Environmental Studies)

David Wellman, Emeritus (Community Studies)

Donald A. Wittman (Economics)

ASSISTANT PROFESSOR

POLITICS COURSES

LOWER-DIVISION COURSES

1. Politics: Power, Principle, Process, and Policy. *

Systematic introduction to the nature of politics and government, organized around the dynamic relationship between power, principle, and process in democratic politics. Provides historic and contemporary overview; explores the interactions among government, laws, and societies at the national and international

levels. (General Education Code(s): PE-H.) D. WIRLS

3. Keywords: Concepts in Politics. F

Introduces key concepts in political discourse and key debates generated by contested terms such as "powers," "ideology," and "multiculturalism." Students read from canonical texts, feminist scholarship, historical materials, and contemporary cultural and postmodernist writings. V. SETH

4. Citizenship and Action. *

What does a citizen do? What kind of citizen activity is appropriate to democratic aspirations? Course uses political theory to answer these questions as they relate to current and historical events, primarily in the North American context. Draws on texts ranging from Aristotle, Locke, Thoreau, Ellison, and Ranciere, as well as present-day debates, to bear on the relationship of citizen action and identity. (General Education Code(s): TA.) D. MATHIOWETZ

Politics

10. Nationalism. *

Surveys contemporary academic approaches to the study of nationalism and writings of nationalist theorists from the 18th through 20th centuries. A few historical cases are considered. (General Education Code(s): TA.) M. THOMAS

17. U.S. and the World Economy. S

Explores intellectual and empirical trends shaping the U.S. relationship with the global economy. Traces debates about liberalism and interventionism, surveys post-war American foreign economic policy and discusses varieties of capitalism emerging around the world. M. SPARKE, R. SCHOENMAN

20. American Politics. *

Introduces the study of politics through an analysis of the United States political system and processes. Topics vary, but may include political institutions, public policies, parties and electoral politics, and social forces. Satisfies American History and Institutions Requirement. (General Education Code(s): TA.) E. BERTRAM

60. Comparative Politics. F

Introduces the study of politics through the analysis of national political systems within or across regions from the developing world to post-industrial nations. Typical topics include: authoritarian and democratic regimes; state institutions and capacity; parties and electoral systems; public policies; social movements; ethnic conflict; and globalization. (General Education Code(s): CC.) E. PASOTTI, B. READ, K. EATON

65. Introduction to International Relations. *

Surveys major theories of international relations including realism, liberal institutionalism, constructivism, and newer approaches focused on problems of asymmetric warfare. Examines problems such as nuclear proliferation, international terrorism, global trade conflict, climate change, and humanitarian intervention. (General Education Code(s): CC.) THE STAFF

70. Global Politics. W

Can common global interest prevail against particular sovereign desires? Surveys selected contemporary issues in global politics such as wars of intervention, ethnic conflict, globalization, global environmental protection, and some of the different ways in which they are understood and explained. (General Education Code(s): PE-H.) R. LIPSCHUTZ

UPPER-DIVISION COURSES

101. Introduction to Research Methods. W

Overview of research methods and data analytic techniques used in politics. Through hands-on learning, students critically evaluate social research reports, conduct investigations, describe data, assess statistical relationships, and test hypotheses. Prepares students to conduct the in-depth research required in upper-division courses. Enrollment is restricted to sophomore, junior, and senior politics majors during first and second pass enrollment. (General Education Code(s): SR.) J. FLETCHER

103. Feminist Interventions. *

Situates ongoing debates around feminist theory and practice within the context of political theory, the role of the state, and the position of women in contemporary (predominantly Western) society. Engages with classical political theory, second wave feminism, and the role of the state on matters pertaining to pornography and prostitution. Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. V. SETH

105A. Ancient Political Thought. W

Explores tensions between reason and revelation, justice and democracy, and freedom and empire through close readings of ancient texts. Emphasis on Athens,

with Hebrew, Roman, and Christian departures and interventions. Includes Sophocles, Thucydides, Socrates, Plato, Aristotle, Stoics, the Bible, and Augustine. (Also offered as Legal Studies 105A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. D. MATHIOWETZ

105B. Early Modern Political Thought. F

Studies republican and liberal traditions of political thought and politics. Authors studied include Hobbes, Locke, and Rousseau. Examination of issues such as authorship, individuality, gender, state, and cultural difference. (Also offered as Legal Studies 105B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. V. SETH

105C. Modern Political Thought. S

Studies in 19th- and early 20th-century theory, centering on the themes of capitalism, labor, alienation, culture, freedom, and morality. Authors studied include J. S. Mill, Marx, Nietzsche, Foucault, Hegel, Fanon, and Weber. (Also offered as Legal Studies 105C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. THOMAS

106. Marxism as a Method. W

Examines Marx's use of his sources in political philosophy and political economy to develop a method for analyzing the variable ways in which social change is experienced as a basis for social action. Provides a similar analysis of contemporary materials. Contrasts and compares Marxian critiques of these materials and readings based on Nietzsche, psychoanalysis, cultural studies, and rational choice materialism. (Also offered as Legal Studies 106. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino

Politics

studies/politics combined majors during first and second pass enrollment only. THE STAFF

107. Politics of Aesthetics. *

Introduces a variety of critical and aesthetic theories and various ways in which aesthetics are mobilized politically. Students are challenged to consider the politics of aesthetics as well as the aesthetics of politics both theoretically and historically. Enrollment restricted to sophomore, junior, and senior art, critical race and ethnic studies, feminist studies, history of art and visual culture, history, legal studies, philosophy, and politics majors. Prerequisite(s): course 105B or 105C. (General Education Code(s): IM.) THE STAFF

108. Revolt, Rebellion, Revolution. W

Examines revolt, rebellion, and revolution as ideas in political theory, and as prisms through which we can analyze historical events. Introduces works of political theory (historical and contemporary), and looks at historical events considered to be revolts and/or revolutions. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. M. THOMAS

109. Orientalism. *

Studies "Orientalism" as a concept of political theory and as a historical practice. Considers how "Western" views of the peoples, cultures, and governments of "the East" influenced political, intellectual, and aesthetic projects of the 18th and 19th centuries, with attention to the themes of colonialism, nationalism, language, and gender. Also considers Orientalism as a subject of post-colonial thought. Prerequisite(s): course 105A, or 105B, or 105C, or 105D; or by permission of instructor. Enrollment restricted to politics majors. M. THOMAS

110. Law and Social Issues. F

Examines current problems in law as it intersects with politics and

society. Readings are drawn from legal and political philosophy, social science, and judicial opinions. (Also offered as Legal Studies 110. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment only. J. GEHRING, THE STAFF

111A. Constitutional Law. F

An introduction to constitutional law, emphasizing equal protection and fundamental rights as defined by common law decisions interpreting the 14th Amendment, and also exploring issues of federalism and separation of powers. Readings are primarily court decisions; special attention given to teaching how to interpret, understand, and write about common law. (Also offered as Legal Studies 111A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during priority enrollment only. K. BEAUMONT, THE STAFF

112. Women and the Law. W

Interdisciplinary approach to study of law in its relation to category "women" and production of gender. Considers various materials including critical race theory, domestic case law and international instruments, representations of law, and writings by and on behalf of women living under different forms of legal control. Examines how law structures rights, offers protections, produces hierarchies, and sexualizes power relations in both public and intimate life. (Also offered as Feminist Studies 112. Students cannot receive credit for both courses.) Enrollment restricted to politics, feminist studies, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. G. DENT

113. Feminism and the Body. *

Introduces the literature on the history of the body. Explores the multiple ways in which the body, in the West, has been the site of cultural and political inscription from the Middle Ages to the 19th century. Topics may include: pornography, criminality, sexuality, art, race, and medicine. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. V. SETH

114. Thinking Green: Politics, Philosophies, and Practices of Sustainability. *

A course on the political and philosophical sources of ecological and social sustainability and how they affect and inflect the design, implementation, and practices of sustainability. Asks whether they offer a "realistic" alternative to liberalism and other political and economic ideologies and practices. (Formerly Thinking Green: Politics, Ethics, Political Economy.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. LIPSCHUTZ

115. Foundations of Political Economy. *

Examines how ideas about labor, rights, exchange, capital, consumption, the state, production, poverty, luxury, morality, procreation, and markets were woven in political-economic discourse from 1690-1936. Readings include Locke, Mandeville, Smith, Malthus, Mill, Hegel, Marx, Lenin, and Veblen. Particular focus given to theoretical origins of and justifications for poverty and implications of economic interdependence for politics. Prerequisite(s): course 105B, 105C, or 120C. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. D. MATHIOWETZ

Politics

116. Comparative Law. S

Explores legal systems and legal rules around the world, for a better understanding of the factors that have shaped both legal growth and legal change. Particular attention given to differences between common and civil law systems, changes brought about by the European Union, and expansion of legal norms around the globe. (Also offered as Legal Studies 116. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. J. GEHRING, THE STAFF

117. U.S. Telecommunications Law and Policy. *

Surveys the U.S. telecommunications and broadcasting law and policy from the mid-19th century through the present. Offers a range of perspectives from the vantage point of the telecommunications industry, government, and the media-reform movement. Enrollment restricted to politics majors during first and second pass enrollment. THE STAFF

118. Topics in Contemporary Political and Critical Theory. F

Course uses a multidisciplinary approach to the study of politics through significant contemporary authors and approaches in critical theory. Topics include: democracy action, violence, subjectivity, identity, power and resistance, the body, political economy, and post-colonialism. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

120A. Congress, President, and the Court in American Politics. *

Study of political development, behavior, performance, and significance of central governmental institutions of the U.S. Emphasizes the historical development of each branch and their relationship to each other, including changes in relative power and constitutional responsibilities.

(Also offered as Legal Studies 120A. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. D. WIRLS

120B. Society and Democracy in American Political Development. W

Examines the role of social forces in the development of the American democratic processes and in the changing relationship between citizen and state. Course materials address the ideas, the social tensions, and the economic pressures bearing on social movements, interest groups, and political parties. (Also offered as Legal Studies 120B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. M. SPRINGER

120C. State and Capitalism in American Political Development. S

Examines the relationship between state and economy in the U.S. from the 1880s to the present, and provides a theoretical and historical introduction to the study of politics and markets. Focus is on moments of crisis and choice in U.S. political economy, with an emphasis on the rise of regulation, the development of the welfare state, and changes in employment policies. (Also offered as Legal Studies 120C. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Satisfies American History and Institutions Requirement. E. BERTRAM

121. Black Politics and Federal Social Policy. *

Examination of changes in the political and economic status of African Americans in the 20th century; particular focus on the role of national policies since 1933 and the significance of racism in 20th-century U.S. political development.

(Also offered as Legal Studies 121. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. M. BROWN

122. Politics, Labor, and Markets. *

Examines political and social dimensions of recent transformations in the U.S. labor market. Includes classical and contemporary theoretical debates over the nature and functions of work under capitalism. Focuses on shifts in the organization and character of work in a globalizing economy. Addresses recent trends in low-wage and contingent work, job mobility and security, and work/family relations. Includes attention to the roles and responses of business, labor, and government. (Formerly Politics, Labor, and Markets in the U.S.) Enrollment restricted to politics and Latin American and Latino studies/politics combined major during first and second pass enrollment. E. BERTRAM

124. Economic Inequality in America. S

Examines the sources and implications of economic inequality in the United States. Explores theories of social class and its intersections with race and gender inequalities. Focuses on the role of politics and public policies in diminishing and/or exacerbating income and wealth inequalities. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. E. BERTRAM

125. Political Organizations in American Politics. S

Introduces the literature on interest groups and attempts to answer the question: Do such groups promote or hinder American democracy? Class readings and lectures review and assess the participation of interest groups in the electoral process and in Congress, the executive branch, and the courts.

Politics

Pays particular attention to the role business and environmental groups play in American politics and policy. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

128. American Elections and Voting Behavior. F

Introduces key concepts pertaining to voting, elections, and political behavior in the United States. Several topics are covered, such as campaigns, electoral institutions, reform, political participation (including but not limited to voting), presidential and congressional elections, partisan identification, and polling. Enrollment restricted to politics majors and Latin American and Latino studies/politics combined majors during first and second pass enrollment. M. SPRINGER, THE STAFF

129. Policies and Politics of American Defense. *

Examines the evolution of the policy and politics of American national security, from the Cold War to the present. Content of military policy explored with analytic focus on formation of policy and interactions between military policies and domestic policies. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. D. WIRLS

132. California Water Law and Policy. W

Explores the rich history and fundamental legal concepts surrounding water in California. Students identify, evaluate, and debate some critical water policy questions faced by Californians today and in the future. (Also offered as Legal Studies 132. Students cannot receive credit for both courses.) R. LANGRIDGE

133. Law of Democracy. S

Explores the role of law in both enabling and constraining the actions of elected politicians in the U.S. Among issues examined are voting rights, redistricting, and

campaign finance. Course asks how the law shapes and limits our ability to choose our elected leaders, and in turn, how the law is shaped by political forces. (Also offered as Legal Studies 133. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. COONERTY

134. Congress: Representation and Legislation. *

Examines the United States Congress and the nature of the representative and legislative processes. Topics include: districting and elections; bicameralism; party organization; institutional and behavioral influences on legislative action; and the efficacy of Congress as a legislative body. Focuses on the contemporary Congress with comparisons to other legislative and representative institutions. (Formerly Congress: Representation and Legislation in Comparative Perspective.) (Also offered as Legal Studies 134. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. D. WIRLS

135. Immigration Policy and Debate in the U.S.. S

Course charts the history of immigration policy and debate in the U.S., highlighting the ways economic, social, and geopolitical factors influenced the processes and outcomes of immigration debate and policy making. Focuses on interaction between society and state in formulation and implementation of immigration policy, and the ways policy outcomes may differ from expectations. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

136. Applied Public Policy. S

Focuses on the application of theory

to practice by creating an opportunity for students to explore and analyze the connections between federal, state, and local policies and their impacts on day-to-day programs in the Santa Cruz community and region. Enrollment restricted to junior and senior politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

136F. Applied Public Policy Internship (2 credits). *

This internship in governmental, public policy, and advocacy organizations and leaders in the Santa Cruz area requires a minimum of 50 hours with an assigned field study organization, a field journal, and limited classroom work. Prerequisite(s): course 136. Enrollment is restricted to politics and Latin American and Latino studies majors. Enrollment limited to 18. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

139. Market Crisis and the Future of Capitalism. *

Examines the development and role of late 20th- and early 21st-Century financial technologies in modern market crises. Overview of financial markets, modern finance theory, related regulatory institutions, financial crises, financial technologies, and the relation of human behavior. What is the future of market capitalism? Enrollment restricted to politics and politics/Latin American and Latino studies combined majors during first and second pass enrollment. THE STAFF

140A. European Politics. F

Explores the political and economic systems of advanced industrialized societies. In addition to specific comparisons between the countries of western Europe and the United States, covers important themes and challenges, including immigration, globalization, and the crisis of the welfare state. (Formerly Politics of Advanced Industrialized Societies.) Prerequisite(s): satisfaction of the Entry Level

Politics

Writing and Composition requirements. E. PASOTTI

140C. Latin American Politics. W
Overview of major approaches to the study of Latin American politics. Introductory survey of historical and contemporary democratic populist, authoritarian, and revolutionary regimes. Special attention is given to region's recent transitions toward democratic rule, market-based economic models, and decentralized governance. Evaluates institutional arrangements (including presidentialism, electoral rules and party systems), as well as a variety of social movements and strategies of resistance among subaltern social groups and classes. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. K. EATON

140D. Politics of East Asia. S
Explores the political development of East Asia's primary democracies: Japan, South Korea, and Taiwan. Examines the historical origins of these states, the process through which they emerged from authoritarian roots, and topics such as protest, corruption, and women's political roles. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. B. READ

141. Politics of China. F
Introduces themes of Chinese politics from 1949 to present, including: the establishment and substantial dismantling of socialism; movements and upheavals, such as the Cultural Revolution and 1989; and issues, such as Hong Kong and Tibet. Surveys current institutions, leaders, and policies. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. B. READ

142. Russian Politics. *
Historical-political survey of Russia within the U.S.S.R. is followed by examination of the 1991 revolution, the attempt to recover a national identity and establish a unified

Russian state. Highlighted in this course are cultural and political factors central to the Russian experience: personalistic modes of political organization, a remote and corrupt state apparatus, collectivist forms of thought and self-defense. M. URBAN

143. Comparative Post-Communist Politics. W
Comparative study of revolutionary transformations of East European, Soviet, and former Soviet nations to post-Communist political orders. Focus on reemergence of political society, social and economic problems of transition, and maintenance of many cultural norms and authority patterns associated with previous regime. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. SCHOENMAN

144. Andean Politics. *
Examines similar political trends in four Andean countries: Bolivia, Colombia, Ecuador, and Peru. Trends include mobilization of indigenous populations, breakdown of traditional party systems, and reconstruction efforts in post-conflict environments. Students who have taken prior courses in Latin American politics, including course 140C, will be best prepared for this course. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. K. EATON

145. Democratization, Citizenship, and Human Rights in Latin America. *
Examines military regimes, transitions to civilian rule, and politics of democratization in contemporary Latin America. Focuses on the contradictions and legacies of transition politics, the challenges of democratizing political institutions, and the political and social consequences of neoliberalism. Emphasis on human rights, citizens' movements, changing dynamics of civil society, and contemporary efforts to deepen

democracy. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

146. The Politics of Africa. *
Comparative study of contemporary sub-Saharan African states. Selected issues and countries. Internal and external political institutions and processes are studied in order to learn about politics in contemporary Black Africa and to learn more about the nature of politics through the focus on the particular issues and questions raised by the African context. Enrollment restricted to politics majors during first and second pass enrollment. I. GRUHN

148. Social Movements. *
Overview of social movements by analysis of specific theories and examples. Course connects the study of theories and movements to larger political processes. Topics may include: New Social Movement theory; gender and social movement; democratic, historical, transnational, global and/or local social movements. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

149. Democratic Transitions. *
Explores democratization processes from a variety of historical and geographical perspectives. Examines the role of foreign influences, economic development, civil society, elites, and institutions in the transition and consolidation of democratic systems. Enrollment restricted to politics and Latin American and Latino studies/politics majors during first and second pass enrollment. E. PASOTTI

151. Politics of Law. F
Uncovers the important debates in politics and law around the functions of courts, litigation, and rights--and the political nature of law itself. Course is interdisciplinary, and draws from literature in political science, law, and sociology. (Also offered as Legal

Politics

Studies 151. Students cannot receive credit for both courses.) Enrollment restricted to politics, legal studies, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

160A. Theories of International and World Politics. S

Examination of analytical perspectives on international and world politics, international and global political economy, war and conflict, corporations and civil society. Explores theoretical tools and applications, recurring patterns of global conflict and cooperation, the nexus between domestic politics, foreign policy and international and world politics. This is not a current events course. (Formerly International Politics.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. D. GORDON, (F) THE STAFF

160B. International Law. W

Origins and development of international law: international law is examined both as a reflection of the present world order and as a basis for transformation. Topics include state and non-state actors and sovereignty, treaties, the use of force, and human rights. (Formerly course 173.) (Also offered as Legal Studies 160B. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. MASSOUD, THE STAFF

160C. Security, Conflict, Violence, War. W

Genesis and theories of conflict and war and their avoidance (past, present, future). Relationship between foreign policy and intra- and interstate conflict and violence. National security and the security dilemma. Non-violent conflict as a normal part of politics; violent conflict as anti-political; transformation of conflict into social and interstate violence. Interrelationships among conduct of war, attainment of political objectives, and the end of hostilities. Civil and ethnic wars. Political

economy of violence and war. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. THE STAFF

160D. International Political Economy. F

Introduction to the politics of international economic relations. Examines the history of the international political economy, the theories that seek to explain it, and contemporary issues such as trade policy, globalization, and the financial crisis. (Formerly course 176.) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. R. SCHOENMAN

161. Foreign Relations of China. *

Explores China's rising international power and the implications thereof. Special emphasis on China's interactions with the United States and related issues (Korea, Taiwan, the South China Sea). Also addresses China's dealings with South Asia, Southeast Asia, Africa, Japan, international organizations, and more. Enrollment restricted to politics and politics/Latin American and Latino studies combined majors during first and second pass enrollment. B. READ

162. Trade-Environment Politics: The WTO and Beyond. *

Explores the relationship between international trade and environmental protection. Considers whether trade liberalization and environmental protection are antithetical or conducive? Uses the theoretical literature on regime overlap to consider this question. Enrollment is restricted to junior and senior politics and Latin American and Latino studies/politics majors during first and second pass enrollment. S. JINNAH

163. U.S. Foreign Policy. F

Provides overview of U.S. foreign policy formulation: considers how U.S. political culture shapes foreign policy; examines governmental actors involved: the president, executive branch agencies, and Congress; then considers non-

governmental actors: the media, interest groups, and public opinion. Enrollment restricted to politics and politics/Latin American and Latino studies combined majors during first and second pass enrollment. THE STAFF

164. International Politics of Forced Migration. *

Surveys global issues in forced migration, the movement of people displaced by persecution, conflict, disasters, or development. Topics include historical trends, legal regimes, and ethical concerns. Explores the causes and consequences of forced displacement, and responses by state and non-state actors. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

165. Global Organization. *

Addresses whether and how global organizations are changing the international system. Examines multilateral institutions, regional organizations, and nonstate actors. Overriding aim is to discern whether these global organizations are affecting the purported primacy of the state. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

166. Politics of Migration. *

Examines the magnitude and the political, economic, cultural, environmental, and social impact of today's movement of millions of people within and amongst states. Enrollment restricted to politics majors and Latin American and Latino studies/politics combined majors during first and second pass enrollment. (General Education Code(s): CC.) I. GRUHN

167. Politics of International Trade. *

Examines key issues in international trade, including the distribution of gains, fair trading practices, and preferential trade agreements. Focuses on the political dimensions of trade, the rules of the international trade system, and

Politics

conflicts within countries that international trade generates. (Also offered as Legal Studies 167. Students cannot receive credit for both courses.) Enrollment restricted to politics, and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

168. Topics in International Relations and Global Politics. S

Examines contemporary issues in international relations, global politics, and global political economy through theoretical and applied frameworks, program assessment, sectoral and structure analysis, and across levels of analysis. Prior enrollment in course 160A is recommended, but not required. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. LIPSCHUTZ

169. Politics of Development. S

Introduces the politics of development. Examines the theories, history, and economics of development. Analyzes several contemporary issues. Readings include contemporary writings in the field and classical works on theoretical approaches. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. SCHOENMAN, THE STAFF

170. International Relations and the Environment. *

Examines international relations through the lens of cooperation on transboundary environmental problems. Surveys environmental problems ranging from acid rain to toxic chemicals to biodiversity loss and climate change, which have become pressing political concerns in our increasingly globalized economy. Enrollment is restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment only. S. JINNAH

171. Law of War. *

Examines legal regulation of

international violent conflict. Students examine development of normative standards within international law and creation of institutions to both adjudicate violations and regulate conduct. (Also offered as Legal Studies 171. Students cannot receive credit for both courses.) Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

172. Liberalism, the State, and the War on Terror. W

Examines the relation between the liberal State and perceived challenges to State sovereignty posed by transnational terrorism. How does terrorism as both a symbol and empirical phenomenon fit within the horizon of liberal ideology? What claim to sovereignty does the State make in the face of acts of terror? What political logic is required in/for a War on Terror? Students may not take both course 72 and this course for credit in the major. Enrollment restricted to politics and politics/Latin America and Latino studies majors during first and second pass enrollment. THE STAFF

174. Global Political Ecology. W

Explores the global dimensions of complex environmental issues such as climate change, biodiversity, deforestation, and fisheries: how they are produced, how they manifest, and how they are governed in response. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. LIPSCHUTZ, THE STAFF

175. Human Rights. *

Embraces an interdisciplinary approach to the study of human rights. Captures the malleable nature of human rights and the contours of its dual role as both law and discourse. (Also offered as Legal Studies 175. Students cannot receive credit for both courses.) Prerequisite(s): Politics or Legal Studies 160B. Enrollment restricted

to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF, M. MASSOUD, J. GEHRING

177. The United States and the World. *

Examines political, economic, and cultural relationship between the U.S. and the rest of the world, including historical background and foreign policy. Special focus on U.S. involvement in the Middle East and Persian Gulf and the politics of economics of that region. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. R. LIPSCHUTZ

178. U.S. Foreign Economic Policy. *

Theoretical and historical survey of U.S. foreign economic policy. First part explores theoretical frameworks and covers historical events in the U.S.'s relationship with world economy. The second part focuses on postwar foreign economic policy; surveys different theoretical approaches to U.S. foreign policy; and examines fundamental developments and issues in trade, monetary, development, and investment policies. Enrollment restricted to politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. THE STAFF

180. Practical Writing for Political Action. S

Writing-intensive course focuses on developing rhetorical skills for political communication to multiple audiences, including social media and policy makers. Students research a political issue, develop a campaign strategy, and may create a portfolio of campaign materials. Enrollment is restricted to junior and senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 30. J. BENEDA

185. Political Psychology. F

Provides a broad introduction to the growing interdisciplinary field of political psychology. Focuses on

Politics

and critically analyzes classic and contemporary psychological perspectives, primarily through original sources. Draws upon theoretical ideas and experimental results to understand political actors, events, and processes.

Enrollment restricted to politics and combined politics and Latin America and Latino studies majors during first and second pass enrollment. THE STAFF

190. Senior Comprehensive Seminar.

These courses, offered at different times by different instructors, focus on current problems of interest across the discipline. Courses offer a flexible framework within which those mutually interested in specific issues can read, present papers, and develop their ideas. Students who do not meet the restrictions and prerequisites may contact the instructor for permission to enroll.

190A. State and Revolution. *

Investigates the process of rapid and fundamental political change from the standpoint of both the structures of states in which revolutions have occurred and the structures of states issuing from revolutions. A number of cases are examined, but particular emphasis is given to the "classic" revolutions in France (1789) and Russia (1917). Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. M. URBAN

190B. Humanity, Sovereignty, and War. *

Examines how enmity, the state, and war serve as limits for political conceptions of who "we" are, tensions between commitments to diversity and to peace, and liberal and humanitarian efforts to address these tensions. Students examine works written prior to the liberal period (Hobbes), in response to it (Hegel and Schmitt) and finally a 20th-century liberal revival (Rawls), and discuss rights, conscience, political obligation, war, and the state. Prerequisite(s): two of the following: course 103, 105A, 105B, 105C, 105D, 107, 109, or 115.

Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. D. MATHIOWETZ

190C. Humanitarian Action in World Politics. *

Examines the global politics of humanitarianism. Topics include the historical evolution of humanitarian principles, key actors in the humanitarian sector, and institutional arrangements. Explores the ethical and practical challenges associated with humanitarian relief, aid, and intervention. Enrollment restricted to senior politics and politics/Latin American and Latino studies combined majors. Enrollment limited to 20. THE STAFF

190D. Early Anarchist and Socialist Thought. *

Studies in 19th- and early 20th-century anarchist and socialist thought. Themes covered include property, labor, marriage, and the state. Readings drawn from Bakunin, Goldman, Fourier, Kropotkin, Perkins-Gilman, Proudhon, and Stirner. Prerequisite(s): two of the following: courses 103, 105A, 105B, 105C, 105D, 109, or 115; or by permission of instructor. Enrollment restricted to senior politics majors. Enrollment limited to 20. M. THOMAS

190E. Transitions. F

Explores the role of new media in political protest; whether and how new media technologies such as social networking, text messaging, Twitter, and YouTube have changed the way opposition movements develop. (Formerly Transitions in the Information Age.) Enrollment restricted to senior politics and Latin America and Latino studies/politics combined majors. Enrollment limited to 20. R. SCHOENMAN

190F. Topics in Urban Governance. S

Cities are at the frontlines of complex global issues including climate change, international terrorism, and transnational migration. Course situates cities in

the dynamics of world politics, and explores the possibilities and prospects of global urban/global governance in the 21st Century. Enrollment is restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. D. GORDON

190G. Issues in International Law. *

Explores theory and reality of international law; how it determines or governs or modifies policies of government. Emphasis on contemporary political and economic forces and international law in nuclear age, competing areas for new law, law of seas, human rights, new international economic issues, the environment. Enrollment restricted to senior legal studies, politics, and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. THE STAFF

190H. The Substance of Democracy. F

What is democracy? How can we identify it? How do we understand and identify political participation? What are the factors behind it? What role does protest have in democratic politics? These and similar questions are addressed in this course that focuses on topics of democratic politics in the United States and abroad. Enrollment restricted to senior politics and combined politics/Latin American and Latino studies majors. Enrollment limited to 20. E. PASOTTI

190I. Political Ecology and Ecological Politics. *

Examines a range of ecological philosophies and their implications for politics, economics, social action, and the Earth. Themes addressed in relation to political ecology include: liberalism, historical materialism, the nature/culture divide, justice, feminism, and critical theory. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. R. LIPSCHUTZ

190J. Politics and Inequality. *

Considers causes and consequences

Politics

of inequality in modern societies. Emphasizes empirical analysis of contemporary forms of class, racial, and gender inequality and examination of normative theories of distributive justice. Major restrictions lifted during open enrollment. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. THE STAFF

190K. China in the World Trade Organization. *

Examines the impact that the World Trade Organization (WTO) has had on China's economic reform, lawmaking, and political and social development. Also examines how China has used the WTO to safeguard its interests through the dispute-settlement mechanism and the Doha trade talks. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. THE STAFF

190L. Poverty Politics. *

Examines theoretical, historical, and contemporary sources of poverty policies in the United States. Explores competing theories of the causes of poverty and the consequences of social provision. Focuses on successive historical reform efforts and contemporary dilemmas of race and urban poverty, gender and family poverty, work, and the politics of welfare reform. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. E. BERTRAM

190M. Politics in American States. *

State governments affect the lives of Americans every day. This course examines an array of issues pertaining to state politics, such as the foundations of American federalism, institutional organization, elections, political parties, direct democracy, and policy-making. Enrollment restricted to senior politics and combined politics/Latin America

and Latino studies majors. Enrollment limited to 20. M. SPRINGER

190N. Problems and Solutions in U.S. Politics. *

Examines problems and potential solutions to issues in U.S. politics, such as presidential power, partisan polarization, money in elections, foreign and security policy, civil rights and liberties, and taxation and spending. Enrollment is restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. D. WIRLS

190P. Race: History of a Concept. S

Examines how we came, by the late 19th century, to classify humanity into racial categories. In an effort to trace emergence of this very modern phenomenon, explores historical shifts that informed Europe's representation of cultural difference from the writings of ancient Greeks to the social Darwinism of 19th-century Britain. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. V. SETH

190Q. Theorizing Modernity. *

Introduces central categories and material implications that underwrite discourses on modernity since the late 18th century. Students read across the disciplines in fields such as political theory, postcolonialism, history, science studies, anthropology, and feminist criticism. Prerequisite(s): any two of the following courses: 105A, 105B, 105C, 105D. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors during first and second pass enrollment. Enrollment limited to 20. V. SETH

190R. Comparative Law and Society. *

Interdisciplinary investigation into functions of law across political, historical, and cultural contexts. Examines the international and comparative turn in public law scholarship and the role of law-

based strategies in state building. Reviews literature in law, political science and legal anthropology. (Also offered as Legal Studies 190R. Students cannot receive credit for both courses.) Prerequisite(s): course 160B. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. M. MASSOUD

190S. Empire and After. *

Examines the literature on American empire, beginning with the founding parents (e.g., Jefferson), continuing through the revisionist literatures (e.g., Williams) and more recent work (e.g., Hardt and Negri), and ending with contemporary critiques and predictions. Enrollment restricted to senior politics majors. Enrollment limited to 20. THE STAFF

190T. Governance and Conflict in East Asia. W

Students read recent books on East Asian countries that engage the long-standing themes of state power and societal resistance. Prerequisite(s): course 141 or 161 or 109, or by permission of instructor. Enrollment restricted to senior politics majors. Enrollment limited to 20. B. READ

190U. Global Climate Change Politics. *

Explores the central political questions surrounding global governance of climate change. Focuses on the United Nations Framework Convention on Climate Change (UNFCCC) as the international hub of climate politics, and in particular, explores issues of equity and justice. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. S. JINNAH

190V. Problems in Latin American Politics. *

Research seminar allows advanced students to engage in current scholarly debates in the sub-field of Latin American politics. Students are encouraged to pick a research topic of their own choosing. Recent

Politics

course themes have included obstacles to democratic consolidation; crime and insecurity; economic reform; lesbian, gay, bisexual, and transgender (LGBT) politics; and public-policy innovations. Prerequisite(s): course 140C or 144. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Students with equivalent coursework may enroll with permission of instructor. Enrollment limited to 20. K. EATON

190X. Global Capitalism and War. *

Examines the history and organization of, and relationships among, global capitalism and war, through political economy, with a focus on major historical works and recent writings, especially in relation to the crisis of globalization and the rise of the global economy. Prerequisite(s): One of course 115, 120C, 160A, 160D, or 178. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. THE STAFF

190Y. Political Theories of Luxury. *

Examines conceptions of luxury as they have appeared in classical, Christian, early modern, and contemporary discourses and debates. How have people sought to define luxury; for what political purposes; and what promise and peril do such definitions have? What is the shape and power of luxury in political communities today? (Formerly Political Theory of Luxury.) Prerequisite(s): One of the following courses: 103, 105A, 105B, 150C, 106, 109, 113, 115, 118, 124. Enrollment restricted to senior politics and politics/Latin American studies majors. Enrollment limited to 20. D. MATHIOWETZ

190Z. International Security. *

Examination of selected issues, controversies, and theories relevant to "security" between and among nations. Topics vary, but may include: war, peace, nuclear proliferation, arms control, military

and foreign policies, alternative conceptions of security. Enrollment restricted to senior politics and Latin American and Latino studies/politics combined majors. Enrollment limited to 20. THE STAFF

193. Field Study in Politics. F,W,S

Individual studies undertaken off campus with direct faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Various topics to be announced before each quarter. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194F. Group Tutorial (2 credits). F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Various topics to be announced before each quarter. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. THE STAFF

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit petition to sponsoring agency. THE STAFF

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over two or three quarters, beginning in any quarter. The grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students submit

petition to sponsoring agency. THE STAFF

198. Independent Field Study. F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person (e.g. supervision is by correspondence). Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Individual studies undertaken off-campus for which faculty supervision is not in person, but by correspondence. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

A student normally approaches a member of the staff and proposes to take a course 199 on a subject he or she has chosen which is not offered in other politics courses. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

A student normally approaches a member of the faculty and proposes to take a course 199 on a subject he or she has chosen which is not offered in other politics courses. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

200A. Political and Social Thought Core Seminar. W

Draws on history of political thought, contemporary social and critical theory, and the contributions of legal and institutional analysis of various kinds to engage in critical study of political practices that are experienced or understood as in some way limiting, oppressive, or wrong; to transform our understanding of these practices; to see their contingent conditions; and to articulate possibilities of governing ourselves differently. (Formerly Interpretive Problems in Political Theory: Language and Power.) Enrollment restricted to

Politics

graduate students. Enrollment limited to 15. V. SETH

200B. Social Forces and Political Change Core Seminar. *

Concerns transformation of social forces into political ones. Focuses on formation, articulation, mobilization, and organization of political interests and identities, their mutual interaction, and their effects on state structures and practices and vice versa. Major themes are 1) social bases of political action: class, gender, race, and other determinants of social division and political identity and 2) relevant forms of political agency and action, including development of political consciousness and representation of interests and identities in the public sphere. Enrollment restricted to graduate students. Enrollment limited to 15. K. BEAUMONT, E. PASOTTI

200C. States and Political Institutions Core Seminar. W

Introduces study of political institutions as instruments of collective decision making and action. Explores alternative theoretical approaches to development of political institutions, state and political economy, and security dilemmas. Enrollment restricted to graduate students. Enrollment limited to 15. R. SCHOENMAN

200D. Political Economy Core Seminar. *

Introduction to the theories and methodologies of political economy. Focuses on the relationship between states and markets and considers the politics of economic choices and institutions germane to both national and global political institutions. Addresses origins and development of markets and capitalism; historical evolution of states and their economies; relationship between labor, capital, production, and consumption; regulation of production; macroeconomics and management of economies; and issues of national and global social welfare. Enrollment restricted to graduate students. Enrollment limited to 15. K. EATON

201. Logics of Inquiry. *

Investigates approaches to study of politics and to enterprise of social science in general. Works from positivist, interpretive, historical, and critical approaches provide examples held up to critical and epistemological reflection. Enrollment restricted to graduate students. Enrollment limited to 15. R. LIPSCHUTZ

202. Fundamentals of Political Research. *

Gives students practical tools to transform research questions into viable and well-crafted research designs. Introduces conceptual development, various forms of data, and rules for case selection. The goal is to train students in a range of specific methods, including interviewing, ethnography, and archival work. Enrollment restricted to graduate students. Enrollment limited to 15. M. MASSOUD

203. Making of the Modern. *

Introduces, at the graduate level, some of the central conceptual categories and material implications that underwrite the world of the modern. Explores concepts including the individual, historicism, contract, and objectivity. Enrollment restricted to graduate students. Enrollment limited to 15. V. SETH

204. Bodies in History. *

The human body has been productive of a wide range of varied and competing discourses. Among the themes covered are sexuality, hygiene, the grotesque, and criminality. Enrollment restricted to graduate students. Enrollment limited to 15. V. SETH

205. Critical Perspectives on Classical Political Economy. *

Explores seminal works in classical political economy, particularly its consolidation at the moment that industrial society emerged from commercial society, as demonstrated in the writings of Bernard Mandeville, Adam Smith, and Thomas Malthus. Enrollment restricted to graduate students. Enrollment limited to 15. D. MATHIOWETZ

206. Topics in Political Theology. *

Readings focus on the early 20th-century rediscovery of political theology; its use in theorizations of the Holocaust; and its return in 21st-century debates on empires, war, terror, enmity, reconciliation, fanaticism, human rights, political economy, and global catastrophe. Enrollment restricted to graduate students. Enrollment limited to 15. B. MEISTER

207. Political Economies of Affect. *

Explores the potential in philosophical precursors to recent affect theory, alongside classical political economy and its critics, to develop an alternative epistemology for political economy. Readings include: Aristotle, Spinoza, Deleuze, Hume, Negri, Hardt, Smith, Bergson, and Marx. Enrollment restricted to graduate students. Enrollment limited to 15. D. MATHIOWETZ

208. Race. *

Considers the subject of race and racism from a political and historical perspective appealing to literatures from history, anthropology, science, and literary studies. Enrollment restricted to graduate students. Enrollment limited to 15. V. SETH

209. Radical Political Thought. *

Focuses on early 19th- through early 20th-century socialist and anarchist thought, excluding Marx. Theorists studied include Saint-Simon, Fourier, Proudhon, Stirner, Bakunin, Kropotkin, Perkins Gilman, and Goldman. Some secondary literature and related contemporary theory is also treated. Enrollment restricted to graduate students. Enrollment limited to 15. M. THOMAS

210. Problems of Democracy in Comparative Perspective. *

Democracy is an essential political concept, and a fundamentally contested one. Since the 1980s, scholars of comparative politics have attempted to explain why and when countries transition from authoritarianism to democratic institutions. However, regime

Politics

change at the national level only sets the stage, leaving deeper questions about what democracy means in practice--how it plays out (or is undermined) throughout the state and at subnational levels; whom it includes and excludes; what options it opens; and what possibilities it forecloses. Such questions relate debates about the potential and the limitations of democracy in general. Enrollment is restricted to graduate students. Enrollment limited to 15. B. READ

211. Making and Unmaking Sovereignty. S

Focuses on questions of sovereignty. Of what does sovereignty consist? How is it secured, proclaimed, and perpetuated? How is it insecure, contingent, and subject to contestation? How is the idea of individual sovereignty related to the idea of the sovereignty of the state? Our aim is less to answer these questions definitively than to explore them and understand how theorists (historical and contemporary) have explored them, and how different historical episodes illuminate them. Enrollment is restricted to graduate students. Enrollment limited to 15. M. THOMAS

212. Democratic Agency: Embodiment, Language, Precarity. *

Explores agency in contexts marked by co-action and conflict, interrogating agency's historical dimensions (conceptual and intrinsic), attribution to collective or ecosystemic actors, affective aspects, and relation to democracy and economy. Explores classic texts in political thought, as well as Taylor, Foucault, Butler, and Ranciere. Enrollment is restricted to graduate students. Enrollment limited to 15. D. MATHIOWETZ

222. Conflict and Change in American Politics and Policy. *

Explores the dynamic and contested interaction between politics and policy in the U.S. context, through examining the historical development of key contemporary policy debates and political

conflicts. Introduces recent scholarship, drawing on history, sociology, and political economy that has challenged traditional behavioralist approaches to understanding American politics and policy development. Enrollment restricted to graduate students. Enrollment limited to 15. E. BERTRAM, D. WIRLS

232. United States Political History. F

Covers several important themes and sets of readings from the literature on American political development. Topics include the origins and development of American political institutions, the evolution of democratic mechanisms, the rise and fall of social movements, and debates about the sources of policy regimes and political change, including the role of war. Enrollment restricted to graduate students. Enrollment limited to 15. D. WIRLS

233. Interrogating Race. *

Critically examines alternative theoretical and methodological approaches to study of race and racism. Considers alternative explanations for origins and persistence of racism and racial inequality and suggests the relevance of a socio-political understanding. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

243. Comparative Methods. S

Introduces the comparative method in social science. Trains students in the use of this method by examining how scholars have used it to compare across national governments, subnational units, public policies, organizations, social movements, and transnational collective action. (Also offered as Latin American and Latino Studies 243. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. Enrollment limited to 15. K. EATON

245. Latin American Politics. *

Surveys the Latin American political literature by studying: 1) critical moments in political development (e.g., state formation,

democratization); 2) important political institutions (e.g., presidentialism, party, and electoral systems); and 3) influential political actors (e.g., unions, business associations, social movements). Enrollment restricted to graduate students. Enrollment limited to 15. K. EATON

247. Comparative Urban Politics. *

Focuses on local government structures and the relationships with other levels of government. Examines institutions and administration; urban political economy (fiscal strain, poverty, inequality, and the efforts to attract economic investment); political machines; race and ethnicity. Enrollment restricted to graduate students. Enrollment limited to 15. E. PASOTTI

249. Politics of Protest. *

Explores topics related to protest and political participation from theoretical and empirical perspectives. Enrollment restricted to graduate students. Enrollment limited to 15. E. PASOTTI

255. Comparative Anti-Colonialisms. *

Political thought of anti-colonial movements in comparative, historical perspective, including 18th- to 20th-Century European colonies of America and Asia. Focuses both on the contemporary political thought of these movements as well as on historiographical approaches of secondary literature. Enrollment restricted to graduate students. Enrollment limited to 15. M. THOMAS

261. Key Issues in Contemporary Chinese Politics. *

Addresses topics ranging from the core institutions of the party-state to local politics, economic governance, and state-society interactions in multiple realms. Considers China in its own terms while evaluating the relevance of theoretical concepts from various fields in the social sciences. Aims to identify opportunities for new research projects. Enrollment

Politics

restricted to graduate students.
Enrollment limited to 15. B. READ

265. Nationalism. *

Survey of theories of nationalism, with selected nationalist thinkers and case studies. Emphasis on historical analyses and cases. Topics include: origins and typologies of nationalisms, racism, gender, revolution, and the state.
Enrollment restricted to graduate students. Enrollment limited to 15.
M. THOMAS

270. Advanced Topics in Global Environmental Governance: Agency Beyond the State. F

Explores if, how, and under what conditions agency and power are diffusing away from the state to non-state actors such as, NGOs/civil society, corporations, and international organizations.
Enrollment is restricted to graduate students. Enrollment limited to 15.
S. JINNAH

272. Critical Interventions in IR Theory and Global Political Economy. *

Seminar examines selections from the canonical literature in international relations theory and global political economy through a number of critical lenses, including constructivist, feminist, historical materialist, and subaltern approaches. Enrollment restricted to graduate students. Enrollment limited to 15. R. LIPSCHUTZ

275. Contemporary Capitalism. *

Examines genesis of new institutions within the force of social ties and networks. Studies how social and organizational relationships achieve individual or group goals in political and economic life, and influence institutional design. Considers

when and what ties contribute to governance and economic performance, and when informal and formal organizations constitute an obstacle. (Formerly New Approaches to the Study of Capitalism.) Enrollment restricted to graduate students. Enrollment limited to 15. R. SCHOENMAN

291. Teaching Assistant Seminar (2 credits). *

Two-hour weekly seminar required of teaching assistants in which pedagogic and substantive issues will be considered. The experience of performing teaching assistant duties constitutes subject matter for discussion. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

292. Professional Development (2 credits). *

Primarily for first- and second-year graduate students. Students learn the norms and expectations of graduate school and a variety of professional roles. Students develop a plan for their graduate career and for establishing a professional network of mentors and peer audiences for their work.
Enrollment restricted to graduate students. Enrollment limited to 20.
D. MATHIOWETZ

293. Field Study. F,W,S

Individual study undertaken off campus with direct faculty supervision. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

295A. Research Colloquium (2 credits). *

Weekly venue for Ph.D. students to present current research, exchange information on sources and resources, discuss and critique epistemologies and methods, and to

formulate topics for QE field statements and the dissertation. There are no assigned readings. May be repeated for credit twice. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. THE STAFF

295B. Advanced Research Seminar. *

Weekly seminar for Ph.D. students in which to develop and write extended research papers on selected topics, to present current work, to discuss methods, data sources, and fieldwork, and to receive critiques and assessments from fellow students. May be repeated for credit twice.
Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

A student approaches a member of the staff and proposes to take a course 297 on a subject he or she has chosen that is not covered in other politics graduate courses or plans a graduate independent study that includes an undergraduate course. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Enrollment restricted to graduate students and permission of instructor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

PORTER COLLEGE COURSES

LOWER-DIVISION COURSES

20. Dance/Theater Practicum.

The practice of dance/theater in a particular world area (i.e., Philippines, Mexico, U.S.). Students learn the dance or theater art of one world area and study the associated cultural background. THE STAFF

26. Navigating the Research University (2 credits). *

Explores critical engagement in education in the context of a research university. Introduces first-year issues and success strategies and ways to participate in the institution's academic life. Investigates strategies for clarifying education goals and devising a plan for success. Students cannot receive credit for this course and Kresge 26 or Stevenson 26. Enrollment is restricted to first-year Porter and Kresge College members. THE STAFF

37L. Introduction to Laser Cutting, 3D Printing, and Vacuum Forming (2 credits). *

Design functional objects, sculpture, and other digitally inspired forms in a variety of 2D (Illustrator) and 3D applications (Cinema 4D, Ketch UP, or AutoCAD), then produce those models as physical objects with a variety of rapid-prototyping methods including laser cutting, 3D printing, and vacuum forming. (Formerly course 38C.) Enrollment restricted to college members. Enrollment limited to 25. THE STAFF

41I. Improvisation. W

Theory and practice of improvisation in the performing arts with an emphasis on acting improvisation techniques. Readings and films develop a theoretical and historical understanding of spontaneous invention on stage. Students attend area theater improvisational performances. (Formerly course 80I.) Enrollment limited to 25. (General Education Code(s): PR-C.) R. GIGES

41S. Solo Performance Works in the Theater (2 credits). S

Explores solo performance works made for the theater. While all course texts fall within the narrative tradition, some center on performers' lives, others on socio-political issues. Course participants screen video recordings of live performances in class., ultimately creating their own brief solo performances. (Formerly course 20F.) Enrollment restricted to college members. Enrollment limited to 24. (General Education Code(s): PR-C.) R. GIGES

41W. Playwriting Workshop (2 credits). W

Explores different aspects of written drama: scene and character development, plot, dialogue, monologues, soliloquies, stage direction, setting, and structure. Excerpts of late 20th-century plays serve as the basis for class discussion. (Formerly course 22H.) Enrollment is restricted to college members. (General Education Code(s): PR-C.) K. HAWLEY

47G. Gospel Choir (2 credits). *

Instruction in vocal performance in the tradition of gospel choirs. Music is transmitted aurally rather than by notation. The ensemble prepares a range of traditional and contemporary gospel music for performance. Ensemble performs publicly at least once each quarter. (Formerly course 21C.) Enrollment limited to 60. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

47K. Korean Music and Culture (2 credits). *

Introduction to the farmers band tradition. Theory and practice of drumming are emphasized, resulting in a group performance. (Formerly course 21A.) Enrollment limited to 20. Offered in alternate academic years. THE STAFF

47S. Sound Art (2 credits). W,S

Several composers and performers of contemporary "art music" discuss the processes by which works are conceived in imagination, transcribed in notation, and realized in sound. After a brief introduction to contemporary music aesthetics, students attend a series of related presentations, seminars, and concerts. (Formerly course 28.) Enrollment restricted to college members. Enrollment limited to 18. THE STAFF

51A. The Artist's Novel (2 credits). S

A cross-cultural survey of the kunstlerroman, or "artist's novel," from its origins in late 18th-century Germany to contemporary Latin America and the United States, this

course explores how this genre understands artistic development and the role of artists in society. (Formerly course 32B.) Enrollment restricted to college members or by permission of instructor. L. MARTIN

61. Seminar in Arts (2 credits). F,W,S

Theoretical and historical aspects of the arts from one culture or world area are explored through seminar discussion, library research, and film/video presentations. (Formerly course 33.) Priority given to college members. Others by permission of instructor. Enrollment limited to 20. May be repeated for credit. THE STAFF

61B. Handmade Books (2 credits). S

This workshop teaches the history and construction of handmade books as a mode of personal and/or political expression leading to an exhibition of student work. (Formerly course 22C.) Enrollment restricted to college members or by permission of the instructor. Enrollment limited to 15. (General Education Code(s): PR-C.) V. MAY

61J. Jewish Personal Narratives on Film (2 credits). *

Considers Jewish-American filmmakers as they come to terms with their identity in autobiographical works. Students write responses to texts and create their own brief personal narratives. (Formerly course 39.) Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): PR-C.) R. GIGES

61N. Personal Narratives in Theater and Film (2 credits). S

Considers filmmakers and monologue performers as they come to terms with their identity in autobiographical works. Students write responses to texts and create their own brief personal narratives. (Formerly course 23B.) Priority given to college members. Others by permission of instructor. Enrollment limited to 25. (General Education Code(s): PR-C.) R. GIGES

61O. Documenting Oral History. * Students learn basic techniques of interview and camera work to

document on film oral histories collected from community elders. Students develop their skills in writing, theater, visual art, music, or film to reinterpret oral histories as artwork. (Formerly course 80L.) Priority given to college members. Others by permission of instructor. Enrollment limited to 30. T. BEAL

61Q. Queering the Arts (2 credits). S

Exploration of the arts as a way to understand and experience how queerness has been expressed, repressed, denigrated, and celebrated in visual arts, music, film, poetry, and dance. (Formerly course 32A.) Enrollment restricted to college members. Enrollment limited to 30. R. HAMILTON

63F. Fractals, Chaos Theory, and the Arts (2 credits). *

A consideration of chaos theory and fractal geometry as applied by 20th-century artists in all media. All necessary math and computer skills are covered. Students complete essays or art projects. (Formerly course 34B.) Enrollment restricted to college members. Enrollment limited to 25. (General Education Code(s): PR-C.) R. ABRAHAM

63W. Ways of Knowing. S

Creativity in different disciplines is developed via different ways of knowing. Musical, visual, scientific, and spatial literacy demand understanding which is not primarily logocentric. Explores how practitioners of arts and science develop their work and conceptualize its execution. (Formerly course 80K.) Enrollment restricted to college members. (General Education Code(s): IM.) B. SANFILIPPO

71A. Awakening Compassion: Transforming Our Relationship to Self and the World (2 credits). S

Develops the qualities of compassion and kindness toward oneself and others. Combining contemporary scientific research, mindfulness training, and traditional contemplative practices, this course supports students in the cultivation of a more discerning, thoughtful, and compassionate life.

(Formerly course 60.) Enrollment limited to 30. C. KING

80A. Introduction to University Discourse: Composition, Creative Inquiry, and the Arts. F

Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Study, discuss, and write about social, political, and aesthetic issues raised by selected works of literature and art in a variety of media. Students cannot receive credit for this course and course 80B. (Formerly Introduction to University Discourse: Writing Across the Arts.) Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 25. (General Education Code(s): C1.) THE STAFF

80B. Rhetoric and Inquiry: Composition, Creative Inquiry, and the Arts. F

Explores the intersections between rhetoric (persuasion) and inquiry (investigation) and hones strategies for effective reading, writing, speaking, and research. Read, discuss, research, and write about social, political, and aesthetic issues raised by selected works of literature and art in a variety of media. Students cannot receive credit for this course and course 80A. (Formerly Rhetoric and Inquiry: Writing Across the Arts.) Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. (General Education Code(s): C2.) THE STAFF

80F. Composition, Creative Inquiry, and the Arts (2 credits). F

Focuses on reading comprehension, the creation of a vocabulary of shared texts and concerns, and activities that are intended to build community across the freshman cohort at Porter College. Enrollment is restricted to first-year Porter students who have been placed in the Multilingual Curriculum. (General Education Code(s): PR-C.) B. SANFILIPPO

90A. Aesthetics and Politics: Spanish Civil War. *

Addresses questions of aesthetics and politics through a critical and practical examination of some artistic, literary, and broadly cultural developments proper to the political left during the Spanish Revolution and Civil War (1934-1939). Enrollment is restricted to first-year, Challenge Program participants from Stevenson College, Merrill College, Porter College, and Kresge College. Enrollment limited to 25. (General Education Code(s): PR-C.) D. LAU

90B. Art and Politics After Google. S

Addresses questions of aesthetics and politics through a critical and practical examination of some artistic, literary, and broadly cultural developments proper to the history of the Internet (1990s to the present). Enrollment is restricted to first-year Challenge Program participants from Stevenson College, Merrill College, Porter College, and Kresge College. Enrollment limited to 25. (General Education Code(s): IM.) D. LAU

91F. Challenge Speakers Colloquium (2 credits). *

Eight lectures, six by faculty about research problems in their disciplines. Students attend two dinners with the speakers; respond to research papers in each speaker's field; conduct a research interview with a professor; and investigate a research question. (Also offered as Kresge College 91F. Students cannot receive credit for both courses.) Prerequisite(s): course 90B, or Merrill 90, or Kresge 90C, or Stevenson 90. Enrollment restricted to college members. THE STAFF

95A. Arts Education in the Community. W

Organized in small teams, participants engage with students from public elementary classrooms to develop fully-staged group performance projects by end of term. Students are guided by instructor's models of teaching techniques, designed to stimulate the imagination, and by diverse readings. (Formerly course 80E.)

Priority given to college members. Others by permission of instructor. Enrollment limited to 30. T. BEAL

99. Tutorial.

Various topics to be arranged. Students submit petition to sponsoring agency. THE STAFF

99F. Tutorial (2 credits).

Various topics to be arranged. Students submit petition to sponsoring agency. THE STAFF

UPPER-DIVISION
COURSES

130D. The Arabian Nights and Its Afterlives. W

Explores The Arabian Nights and some of its adaptations in literature, visual culture, and performance. Focuses on both the politics of the Nights and the politics of storytelling and adaptation more generally. Enrollment limited to 20. (General Education Code(s): TA.) K. LAU

130E. Shakespeare in Asia. W

Transnational and intercultural Shakespeares have proliferated in Asian theatres and medias from the 1870s to the present. Explore Shakespeare without his language as interpreted by Chinese, Japanese, and Southeast Asian artists in readings, film, comics, and projects. Enrollment limited to 25. (General Education Code(s): CC.) M. FOLEY

131C. Curatorial Practice (2 credits). W

Offers the opportunity to participate in programming interdisciplinary curatorial praxis, arts events, exhibitions, performances, lectures, and film screenings. Students are exposed to UCSC alumni and faculty members' research through visiting class lectures. Students learn basic protocol for arts programming and critical arts writing, and are required to create their own participatory curatorial project at Porter College. (Formerly course 100.) Enrollment is restricted to Porter College members. (General Education Code(s): PR-E.) S. GRAHAM

135W. Women and the Silent Screen: An Interactive history. *

Students learn about women's engagement with early movie culture, conduct their own historical research, and collaborate on building a web site that brings this knowledge to a public audience. (Formerly course 130A.) Enrollment is restricted to college members. Enrollment limited to 15. (General Education Code(s): IM.) S. STAMP

141C. Shakespeare's Clown Characters. *

This performance-based course explores Shakespeare's clowns, jesters, and fools (the characters as well as the performers who originated them). Examines the comic traditions from which Shakespeare drew his inspiration, and considers how Shakespeare's work continues to influence contemporary comedy practices. No experience with Shakespeare or performance is necessary. (Formerly course 130C.) Enrollment is restricted to college members. Enrollment limited to 30. (General Education Code(s): PR-C.) P. GALLAGHER

141L. Long Form Improvisation. W

Focuses on long-form (acting) improvisation, building participants' knowledge and skills through practical and theoretical readings, by viewing relevant performances, and by improvising in class and in small groups outside class. Participants perform in a final public showing. Course 41I, 80I, or equivalent college-level experience or coursework. Enrollment limited to 20. (General Education Code(s): PR-C.) R. GIGES

141W. Improvisation Workshop. W

For practitioners of acting improvisation, this course deepens participants' knowledge and skills through practical and theoretical readings, by viewing performances, and by improvising in class and in small groups outside class. Participants perform in a final public showing. (Formerly course 180I.) Prerequisite(s): course 41I or

Porter College

equivalent college-level experience or coursework. Enrollment limited to 20. (General Education Code(s): PR-C.) R. GIGES

1470. Opera Workshop/Music Practicum (2 credits). W

Rehearsal of the principal vocal parts of an opera in preparation for a full production. Consideration of the dramatic aspects of each role and the interrelationships of the characters. (Formerly course 121C.) Enrollment limited to 25. May be repeated for credit. THE STAFF

147P. Advanced Music Practicum (2 credits). *

The practice of music in a particular area of the world at an advanced level. Students learn the music of

one world area or culture over the quarter and study the associated cultural background. Enrollment limited. (Formerly course 121.) May be repeated for credit. THE STAFF

151P. Building the Poem: Process, Form, and the Embodied Text. *

Investigates form as it guides poetic utterance. Students complete texts to fit forms including broadsides, pamphlets, and books. Composition is guided by production methods, from holographic texts to letterpress and digital composition. (Formerly course 130B.) Enrollment is restricted to college members. Enrollment limited to 12.

(General Education Code(s): PR-C.)
G. YOUNG

194. Group Tutorial.

A program of independent study arranged between a group of students and a faculty instructor. THE STAFF

199F. Tutorial (2 credits).

Individual projects carried out under the supervision of a Porter faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

PORTUGUESE

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Portuguese may choose to enroll in either of two accelerated introductory tracks which comprise First-Year Portuguese: courses 1A–B are designed as a two-quarter sequence for students who have no previous experience with the Romance languages; courses 60A–B are designed as a two-quarter sequence for students who have a strong background in the Romance languages (typically Spanish) or some previous rudimentary knowledge of Portuguese. A Second-Year Portuguese sequence, also accelerated (courses 65A–B), follows the first-year sequence, and is offered over two quarters. The completion of this sequence fulfills the two-year language requirement for study abroad programs.

The program is aimed at enabling students to gain proficiency in listening comprehension, speaking, reading, and writing. Instruction takes place in

Portuguese from the beginning and draws heavily on Brazilian culture through popular music and cinema.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

Students may apply to spend time either in Rio de Janeiro, Brazil or in Salvador (Bahia) through the Office of International Education (OIE). Courses taken abroad can, with approval of an adviser, be applied to major requirements. For a list of current programs and requirements, visit their web site, <http://oie.ucsc.edu>. For information on credit applied to a major, contact the appropriate department.

PORTUGUESE FACULTY AND PROFESSIONAL INTERESTS

LECTURER

Ana Maria C. Seara

Portuguese language; literature, film, and music of

Brazil and the Portuguese-speaking world; acquisition and teaching of foreign, second, and heritage languages

PORTUGUESE COURSES

LOWER-DIVISION COURSES

1A. Accelerated Portuguese. F

This course is the first quarter of an accelerated two-quarter series (1A–B), which, taken together, are equivalent to first-year instruction.

This intensive class requires no background in the Romance languages, and emphasizes all language skills, including cultural competence. (Formerly Intensive Elementary Portuguese.) THE STAFF

1B. Accelerated Portuguese. W

This course is sequential to course 1A, and completes first-year accelerated instruction. This intensive class is designed for

students with no background in the Romance languages, and emphasizes all language skills, including cultural competence. (Formerly Intensive Elementary Portuguese.) Prerequisite(s): course 1A, or by consent of instructor. THE STAFF

60A. Accelerated Portuguese for Speakers of Romance Languages. F

The first quarter of accelerated first-year instruction (60A–B). Designed for students with four quarters of college-level Spanish, French, Italian, or Catalan, and native speakers of these Romance languages (including heritage speakers of Portuguese). Emphasizes all language skills,

including cultural competence. (Formerly Advanced Beginning and Intermediate Portuguese.) Prerequisite(s): Spanish 4 or Spanish for Heritage Speakers 4 or Spanish for Spanish Speakers 61 or French 4 or Italian 4 or Spanish Placement Examination score of 50 or by consent of instructor. THE STAFF

60B. Accelerated Portuguese for Speakers of Romance Languages. W

The second quarter of the 60A–B series completes first-year accelerated instruction of Portuguese for speakers of Spanish, French, Italian, or Catalan, and native speakers of these Romance languages (including heritage

Portuguese

speakers of Portuguese). Emphasizes all language skills, including cultural competence. (Formerly Advanced Beginning and Intermediate Portuguese.) Prerequisite(s): course 60A, or by consent of instructor. THE STAFF

65A. Accelerated Intermediate Portuguese. S

A systematic grammar review is combined with literacy and cultural readings, while communicative exercises focus on improving students' ability to understand and hold sustained conversations.

Students expand their vocabulary and knowledge of Brazil and other Portuguese-speaking cultures through films, popular music, and other culturally authentic materials. Prerequisite(s): course 1B or 60B, or by consent of instructor. (General Education Code(s): CC.) THE STAFF

65B. Accelerated Intermediate Portuguese. F

Sequential to course 65A, completes

second-year accelerated instruction. A systematic grammar review is combined with literacy and cultural readings, while communicative exercises focus on improving students' ability to understand and hold sustained conversations.

Students expand their vocabulary and knowledge of Brazil and other Portuguese-speaking cultures through films, popular music, and other culturally authentic materials. Prerequisite(s): course 65A, or by consent of instructor. (General Education Code(s): CC.) THE STAFF

80. Voices from the Portuguese-Speaking World: Portugal, Brazil and Africa. *

Examines key literary texts and films of the Portuguese-speaking world (Brazil, Portugal, and Africa), and the strategies they use to portray notions of national identity, which were transformed and enriched by transnational contact. Taught in English. (General

Education Code(s): CC.) A. SEARA, THE STAFF

PSYCHOLOGY

2017-18 General Catalog

273 Social Sciences 2 Building
(831) 459-2002
<http://psychology.ucsc.edu>

PROGRAM DESCRIPTION

Psychology majors at UCSC are introduced to theory and scientific research in the field. Students begin with lower-division courses that include introductory psychology, precalculus, statistics, and introduction to developmental psychology. Majors take a total of eight upper-division courses. These include Psychology 100, Research Methods in Psychology; six courses in the four areas of psychology—developmental, cognitive, social, and clinical-personality psychology; and one upper-division course outside the major from an approved list.

Cognitive psychology focuses on topics such as perception; brain and behavior; motor control; learning and memory; thinking, feeling, and emotions; psycholinguistics; and computational modeling. Our cognitive psychologists extend traditional boundaries in the study of cognition to encompass bodies, physical environments, sociocultural contexts, and information technologies. Social psychology involves the study of persons embedded within social contexts. Social psychology courses at UC Santa Cruz are organized around themes of social justice. Developmental psychology is concerned with processes of cognitive, language, social, emotional, and personality development across the life span. Additionally, both developmental and social psychology are concerned with issues of diversity including race, ethnicity, culture, gender, sexual identity, social class, and family structure. Clinical-personality psychology focuses on issues of individual traits, psychological distress, well-being, and adjustment.

In addition to the general psychology major, an intensive major (described below) is also available. The department also administers a major in cognitive science (see separate listing in this catalog under cognitive science). Students primarily interested in clinical and counseling psychology should realize that training in these areas does not occur at the undergraduate level but requires professional training through an advanced degree. UCSC does not offer advanced degrees in clinical or counseling psychology.

Students are encouraged to carry out research projects. Interested psychology majors will find research opportunities in courses, as research assistants in faculty members' research programs, or

through faculty-sponsored independent study. This research may be carried out in specialized research laboratories or in the field. Students usually join an ongoing project in which a faculty member is engaged. Students who are especially interested in a career involving empirical research should become involved in a professor's ongoing research by their junior year. Some recent research topics include "Learning in Infancy," "Parent-Child Conversations," "Reading Aloud," "Learning About Psychology Through Conversation," "Complexities of Privilege," and "Program Evaluation of a Biophysics Course."

PROGRAM LEARNING OUTCOMES

Students who complete the Psychology major should demonstrate competency in:

- **Application of knowledge with critical thinking skills.** Students should be able to use critical thinking to evaluate and interpret evidence, and to apply psychological concepts, theories, and research findings to individual, social, and cultural issues.
- **Application of research methods with values and integrity.** Students should be able to apply basic research methods in psychology, with sensitivity to ethical principles.
- **Communication skills.** Students should be able to demonstrate effective communication skills following professional conventions in psychology appropriate to purpose and context.
- **Awareness of sociocultural diversity and societal inequality.** Students should be able to understand the complexity of sociocultural diversity and societal inequality in the inquiry and analysis of psychological issues.

PREPARATION FOR THE MAJOR

Students interested in pursuing the psychology major should complete Psychology 1, 2, and the precalculus mathematics requirement. Psychology 1 and 2 should be taken for a letter grade. After completing these three lower-division required courses, students may petition to declare the psychology major subject to

Psychology

the grade requirement described in the Qualification to the Major section below.

High school students considering psychology as their university major find that the best preparation is a solid general education in English writing, mathematics at least through precalculus, biological and physical sciences, and social sciences.

TRANSFER STUDENTS

Junior transfer students should express an interest in psychology on their UCSC application for admission.

It is expected that prospective transfer students will have completed most, if not all, of the lower-division requirements. The lower-division requirements include Psychology 1, 2, 10, and AMS 3 (or equivalent). The psychology faculty recommends that all lower-division requirements be completed by the end of the sophomore year. In order to declare the major, transfer students must meet the grade requirement described in the Qualification to the Major section below.

Students who want to fulfill requirements with courses taken at other colleges must petition for the substitution of their transfer courses at an orientation session or at an appointment with the department adviser. Psychology 100, Research Methods in Psychology, must be taken at UCSC. Students planning to transfer to UCSC should check with the advising office of their present college, or refer to www.assist.org.

Transfer students are strongly encouraged to speak with an academic adviser at the Psychology Department office prior to enrolling in classes in order to determine their status and begin the actual declaration of major process.

GENERAL PSYCHOLOGY MAJOR

Twelve courses are required for the general major: four lower-division courses in preparation for the major and eight upper-division courses. The lower-division courses are prerequisites for virtually all of the upper-division courses and should be completed as early as possible, or by the end of the sophomore year. Some upper-division courses have additional prerequisites.

LOWER-DIVISION REQUIREMENTS

Psychology

- 1 Introduction to Psychology (or equivalent)
- 2 Introduction to Psychological Statistics (or equivalent, including Applied Mathematics and Statistics 5 or 7/L)
- 10 Introduction to Developmental Psychology
Applied Mathematics and Statistics 3, or Mathematics 3 or 11A (or equivalent)

Psychology 20, 40, and 60 are strongly recommended.

UPPER-DIVISION REQUIREMENTS

Students must complete at least eight upper-division courses (a minimum of 42 credits), including appropriate substitutions noted below. The courses include Psychology 100, Research Methods in Psychology; two courses from each of any two of the following subfields; one course from the remaining two subfields; and one course from outside the major.

- Psychology 100, Research Methods in Psychology
- Developmental (courses numbered 101-119)
- Cognitive (courses numbered 120-139)
- Social (courses numbered 140-159)
- Clinical-Personality (courses numbered 160-179)

Upper-division courses and their catalog descriptions are grouped within each of the subfields. At least one upper-division seminar course must be completed; these courses are identified within their catalog description by the phrase "satisfies seminar requirement." No more than two psychology courses numbered 183, 191A, 193, 194, and 195 may be used toward the upper-division requirements; however, these courses cannot be substituted for 101-179 courses in the same subfield as each other, or in a subfield in which the student has not taken a course in the 101-179 series. The eighth upper-division requirement must be a five-unit UCSC course outside of psychology chosen from a list of courses approved by the department. These lists of approved non-psychology courses are posted on the Psychology Department web site. At least six of the eight courses (including Psychology 100, Research Methods in Psychology), must be taken through the psychology program at UCSC, not transferred from elsewhere. After all substitutions have been made, students must satisfy the fundamental requirement that they take at least one upper-division UCSC psychology course from each of the four subfields.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) requirement. The DC requirement in psychology is satisfied by completing Psychology 100, Research Methods in Psychology, and a seminar. Seminar courses are designated in the campus catalog with the text "satisfies seminar requirement."

PROGRAM PLANNING NOTES

Because some upper-division courses have additional prerequisites, students should read the descriptions of the upper-division courses carefully, noting the prerequisites for courses of interest to them.

Psychology

PSYCHOLOGY MAJOR PLANNERS

Following are two recommended academic plans for students to complete during their first two years as preparation for the psychology major. Plan One is a suggested guideline for students who are committed to the major early in their academic career. Plan Two is for students who are considering the major or who need more preparation. Students should note that Applied Mathematics and Statistics 3 is a requirement for the major and is a prerequisite for Psychology 2 and Psychology 100. Courses 20, 40, and 60 are recommended electives and are prerequisites for some upper-division psychology courses.

Plan One			
Year	Fall	Winter	Spring
1st (frsh)	AMS 3	PSYC 2	PSYC 10
	PSYC 1	PSYC 40 (recommended)	PSYC 60 (recommended)
2nd (soph)	PSYC 100	(Begin upper-division coursework)	
	PSYC 20 (recommended)		

Plan Two			
Year	Fall	Winter	Spring
1st (frsh)	MATH 2		PSYC 1
2nd (soph)	PSYC 40	PSYC 2	PSYC 10
	AMS 3		PSYC 60
3rd (jr)	PSYC 100	(Begin upper-division coursework)	

THE INTENSIVE PSYCHOLOGY MAJOR

The intensive major is an option that any psychology major may choose to undertake. The intensive major would be advantageous for a student intending to go on to a graduate program in any area of psychology. Students intending to take the intensive major should declare this on their proposed study plan during the junior year, outlining their plan for completing the requirements. The intensive major requires 18 courses.

REQUIREMENTS FOR THE INTENSIVE MAJOR

Lower-Division Requirements

Psychology 1 Introduction to Psychology (or equivalent)

Psychology 2 Introduction to Psychological Statistics (or equivalent, including Applied Mathematics and Statistics 5 or 7/L)

Psychology 10 Introduction to Developmental Psychology

Applied Mathematics and Statistics 3, or Mathematics 3 or 11/A (or equivalent)

Upper-Division Requirements

Fourteen upper-division courses are required for the intensive major. These courses must include Psychology 100 and two courses from each of the following four subfields, one of which must be a seminar:

Developmental (courses numbered 102–119)

Cognitive (courses numbered 120–139)

Social (courses numbered 140–159)

Clinical-Personality (courses numbered 160–179)

No more than two psychology courses numbered 183, 191A or 193, may be used toward the upper-division requirements; however, these courses cannot be substituted for 101–179 courses in the same subfield as each other, or in a subfield in which the student has not taken a course in the 101–179 series.

Psychology 181, Psychological Data Analysis, Psychology 182, Advanced Research Methods, or an equivalent course approved by the department

Two quarters of Psychology 194, Advanced Research or 195, Senior Thesis

Two upper-division courses from one or more related areas outside of psychology from lists of courses pre-approved by the Psychology Department and posted on [the department's website](#). These two courses will not count toward the nine upper-division requirements listed above. (These courses may not include psychology courses cross-listed with other programs or taught by psychology faculty.) These courses also cannot be counted twice in cases of double majors or minors.

COGNITIVE SCIENCE MAJOR

The Psychology Department is the administrative home for the cognitive science major. Requirements for the cognitive science major may be reviewed under its separate entry in this catalog.

QUALIFICATION TO THE MAJOR

Students may petition to declare the psychology major once they have completed three lower-division

Psychology

courses: the mathematics requirement, Psychology 1, and Psychology 2 (or Applied Mathematics and Statistics 5 or 7/L). To be admitted to the major, students must demonstrate the attainment of foundational skills by receiving a grade of at least B- in (a) Psychology 1 and (b) Psychology 2 (or Applied Mathematics and Statistics 5 or 7/L). Students who pass these courses but do not achieve the required level of proficiency (i.e., who receive a grade of C, C+, or P) have alternative means of demonstrating foundational skills by: (a) completing Psychology 10 with a grade of B- or higher if the student did not receive a B- or higher in Psychology 1; (b) completing Applied Mathematics and Statistics 5 or 7/L with a grade of B- or higher if the student did not receive a B- or higher in Psychology 2; or (c) completing Psychology 2 with a grade of B- or higher if the student did not receive a grade of B- or higher in Applied Mathematics and Statistics 5 or 7/L.

Every student who satisfies qualification to the major and who petitions to declare the major by the declaration deadline will be admitted to the major. Students who satisfy the qualification to the major but who petition to declare the major after the deadline will be considered on a case-by-case basis for admission to the major; admission is not guaranteed. Students who did not satisfy the major admission requirements but believe that there are extenuating circumstances concerning their performance in the foundational courses may file a written appeal describing these circumstances; however, such appeals are rarely granted.

COMPREHENSIVE REQUIREMENT

UCSC requires that every student satisfy a senior exit/comprehensive requirement prior to graduation. Psychology students will satisfy this requirement by receiving a passing grade in one of our seminars. Passing a seminar course is also required for the major. Courses that meet this requirement are designated as seminars in the campus catalog as "satisfies seminar requirement."

ACADEMIC ADVISING

Students are encouraged to approach faculty in their area of interest for further advising no later than the first quarter of their junior year to discuss an upper-division program of study and to plan for graduate training in psychology. As a supplement to academic advising offered by faculty members, the Psychology Department has an advising office located at 273 Social Sciences 2 Building, (831) 459-2002. The advisers assist students in obtaining information regarding major requirements and petitions, course planning, substitution of transfer courses for advance enrollment, careers, and graduate schools. Students are encouraged to take advantage of the advising office throughout their college career.

SENIOR THESIS

Students with adequate substantive and methodological preparation and a consistent record of strong academic performance may be eligible to apply to write a senior thesis. Students should initiate plans for a thesis no later than the first quarter of their senior year. Most faculty prefer to sponsor senior theses that are integrated with faculty research, so students are encouraged to talk with faculty before choosing a senior thesis topic. Information and applications are available in the department office, 273 Social Sciences 2.

HONORS

Honors in the psychology major are awarded to graduating seniors whose UCSC grade point average is a 3.6 or higher in psychology courses (1-189).

Highest honors in the major are reserved for students who meet the honors criteria as well as successful completion of a senior thesis, or whose UCSC grade point average is a 3.9 or higher in psychology courses (1-189).

PSYCHOLOGY FIELD-STUDY PROGRAM

The Psychology Field-Study Program provides qualified students an opportunity to apply classroom learning to direct experience in a community agency. Each year about 200 students develop new skills and clarify personal and professional goals by working as interns in schools, corporations, law enforcement agencies, research organizations, mental health services, and other social service agencies where they are supervised by professionals. Psychology faculty members sponsor the students' field study helping them to integrate their field experience with coursework and guiding them in related academic projects.

The two-quarter program is open to junior and senior psychology majors who must apply at least one quarter in advance. There are information meetings and individual meetings to help students develop a learning plan, select a placement, and choose an academic project. Application information is included in the information meetings.

GRADUATE PROGRAM

The psychology program offers three areas of specialization leading to the doctoral degree: cognitive, developmental, and social psychology. The program prepares students for research, teaching, and administrative positions in colleges and universities as well as for positions in schools, government, and other public and private institutions. Each student is primarily associated with one of the three research areas and participates in

Psychology

the courses and research forums sponsored by the faculty in that area. The program requires full-time enrollment as a graduate student. Although applicants for a master's degree are not accepted, students in the doctor of philosophy (Ph.D.) program may obtain a master of science (M.S.) degree by fulfilling specific requirements. Note that the program does not offer courses, training, or supervision in clinical psychology.

The cognitive psychology graduate program focuses on research of "Minds, Brains, and Beyond," offering a blend of traditional topics and new directions in cognitive science. With core strengths in language, memory, and perception, we are exploring topics such as: faces, speech, body movements, and embodied cognition; how forgetting helps memory; metaphors and analogies; cognitive aesthetics; natural language use in conversation; cognition and technology; human performance and information processing. Our graduates find careers in academia, tech industries, and more.

The developmental psychology graduate program focuses on research that integrates cultural, interpersonal, and individual aspects of human development. The program focuses especially on issues of diversity in relation to culture, ethnicity, race, gender, sexuality, social economic opportunity, and neurodiversity, as people engage across contexts of family, peers, school, community, technology, and media. Among the topics studied are: children and technology; moral and emotional development; neurodiversity; language and cognitive development; learning through observation and social interaction; personal and social identities; coping with prejudice and discrimination; school climate and motivation; and diversity issues in university outreach programs. Our interdisciplinary collaborations with other programs (such as Computer Engineering, Computational Media, Education, Latin American/Latino Studies, Linguistics, and Philosophy) help nurture students' research and prepare them for a wide variety of careers. Graduates of our program have accepted positions in academia, research institutions, and community organizations.

The social psychology graduate program at UCSC has a unique mission and focus. We use Kurt Lewin's model of "full-cycle" social psychology (theory-application-action) to study a broad range of topics related to social justice. In this way, knowledge gained in action-oriented research leads, in turn, to the development of new theory. Accordingly, our students learn to apply psychological theories and data to the analysis and solution of a wide range of social problems. We use a variety of research methods to examine justice-related issues in different cultural, political, and policy contexts. Our students are trained in laboratory, field, and survey methods; they are encouraged to attend to issues of race, class,

sexuality, ethnicity, gender, and physical ableness; and, in addition to traditional social psychological approaches, are steeped in critical theoretical perspectives such as feminist theory. Our graduates go on to successful careers in academia as well as in community, government, and non-profit settings. Our approach to research and training, combined with the quality and competencies of our faculty, make our program among the nation's best for the psychological study of social justice issues. Current faculty research interests include aggression and trauma; culture and the self; educational access; achievement and disparities; feminisms; health and health disparities; institutional analysis; intersectionality; narrative and identity; political conflict, violence, and peace-building; political psychology; poverty and economic justice; power and oppression; psychology and law; sexual identity and society; sexuality; social identity; social policy analysis; and structural inequality.

Graduate students in psychology may obtain a designated emphasis on the psychology Ph.D. diploma indicating that they have obtained additional training in another discipline such as feminist studies, Latin American and Latino studies, or sociology. For the full list of programs that offer a designated emphasis, see the Fields of Study section of the catalog. For specific requirements for a designated emphasis in a program, please refer to the program statement for that department.

Details on the policies for admission to graduate standing and requirements for the Ph.D. degree, as well as the online application can be found on the Division of Graduate Studies web site. The department's graduate program brochure, and faculty research are available on the department web site.

Students enrolled in the psychology graduate program will complete a first-year and second-year research project. All students must enroll and participate in the colloquium series each quarter (Psychology 230 for cognitive, Psychology 242 for developmental, and Psychology 231 for social). First-year students must take two courses in statistics (Psychology 204 and Psychology 214A) and a two-quarter proseminar sequence during fall and winter quarters. (Psychology 224A and 224B for cognitive, Psychology 244A and 244B for developmental, and Psychology 211A and 211B for social.) Students are also required to serve as a teaching assistant for at least two courses during their graduate career (one of which must be Psychology 10 for developmental and Psychology 40 for social).

Additional requirements for the cognitive area include: three advanced cognitive graduate courses, a graduate course in developmental psychology, a graduate course in social psychology, and a substantive advanced course in a discipline other than psychology.

Psychology

Additional requirements for the developmental area include: Psychology 225A-B-C series, Psychology 246, one other advanced developmental graduate seminar course, a graduate course in cognitive psychology, a graduate course in social psychology, and a substantive advanced course in a discipline other than psychology. Developmental graduate students are also required to complete a professional practicum between the end of their second year and end of their third year.

Additional requirements for the social area include: Psychology 210, Psychology 248, Psychology 249 or Psychology 261, one other advanced social graduate seminar, a graduate course in cognitive psychology, a graduate course in developmental psychology, and a substantive advanced course in a discipline other than psychology.

Students are required to take their graduate courses as Satisfactory/Unsatisfactory.

After satisfying the formal course and research requirements, psychology graduate students must take an oral examination to qualify as a candidate for the Ph.D., ideally by the end of their third year. The

qualifying examination is intended to assess a student's knowledge of psychology and competence to conduct the dissertation research. For the qualifying examination, students write a major paper that reflects a conceptual analysis of their main research area, prepare a list of readings representative of their expertise in three areas of psychology, and satisfactorily complete an oral qualifying examination.

Within a year of advancing to candidacy, students will prepare a written dissertation proposal that should demonstrate the student's in-depth knowledge of some research topic, along with a detailed outline of the empirical research to be conducted for the dissertation. The student's dissertation committee reviews the proposal, and the student will orally defend the proposal for approval by the committee. After the final draft of the dissertation has been completed and submitted to the faculty committee members, students must defend their thesis in an oral exam.

The Ph.D. degree is awarded upon successful completion and submission of the dissertation.

PSYCHOLOGY FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Nameera Akhtar

Cognitive and social cognitive processes in early language development, social-cognitive development in young children, bilingual development

Margarita Azmitia

How culture, peers, family, and schools provide a context for adolescents and young adults' development; specific directions for research involve: how close relationships with friends and family influence the educational pathways and identity development of ethnically and socioeconomically diverse adolescents and young adults; how adolescents and young adults manage school transitions, such as the transition to middle school and the transition to college; first-generation college students' adjustment and transition to college; the intersections between gender, ethnicity/race, and gender in young adults' identities and development

Douglas Bonett

Psychometrics and statistics

Heather E. Bullock

Social class, poverty and economic inequality, welfare policy, feminist psychology, intersections of classism, racism, and sexism

Maureen A. Callanan

Cognitive and language development in the social context of family activities, development of word

meanings and concepts, the construction of causal explanations in parent-child conversations

Faye J. Crosby

Gender, social identity, and social justice, especially affirmative action

Jean E. Fox Tree

Psycholinguistics: production and comprehension of spontaneous speech and writing, including discourse markers, prosody, gestures, the effects of communicative technologies on how people communicate, and other topics

Raymond W. Gibbs Jr.

Language, thought, and embodiment; special emphasis on metaphor, pragmatics, and cognitive science

Craig W. Haney

Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual origins of violence, development of alternative legal and institutional forms

Regina D. Langhout

School-community-university collaboration; how schooling and neighborhood experiences are informed by social class, race, and gender; young people and empowerment; participatory action research

Campbell Leaper

The developmental and social psychology of gender

Psychology

in childhood, adolescence, and adulthood; specific interests include gender-related variations in the following: self-concept and social identity; intersectionality; language and social interaction; social relationships, academic achievement (including STEM); the media; perceptions and consequences of sexism

Anthony R. Pratkanis

Social influence; attitude structure, function, and change

Barbara Rogoff

Human development in sociocultural activity; informal and formal arrangements for learning; adult/child and peer communication in families and schools in diverse cultural communities (especially in Guatemala Mexico and the U.S.); learning through observation and collaboration

Steve Whittaker

Human Computer Interaction: Psychological models of computer use. The design, development and evaluation of computational tools to support memory, regulate emotion and change behavior

Eileen L. Zurbriggen

Connections between power and sex; trauma, sexual aggression and sexual abuse; gender roles and violence; sexuality and media; the sexualization of girls and women; power in romantic relationships; adolescent sexual development; objectification and dehumanization; authoritarianism; privacy and surveillance; feminist political psychology

ASSOCIATE PROFESSOR

Shelly A. Grabe

Social movements, activism, and justice: Women's resistance/activism/empowerment; Human rights; Globalization/neoliberalism; Transnational intersectionality/Decolonial feminism; Structural inequities; partnerships with grassroots organizations

Phillip L. Hammack

Identity, politics, and narrative; culture, power, and social identity; social and political context of sexual identity development; community climate, social policy, and sexual and gender identity diversity; social change and the life course of sexual minorities; queer intimacies and relationships

Alan H. Kawamoto

Empirical and computer simulation approaches to the study of perceptual and cognitive processes, reading, speech production

Travis L. Seymour

Role of short-term memory, consciousness, and executive control on the human performance of laboratory and applied tasks; cognitive processes amenable to strategic control and how they influence

the way in which we maintain situational awareness; high levels of performance in complex cognitive tasks

Benjamin Storm

Remembering and forgetting in human memory, creative cognition, autobiographical memory, memory and metamemory considerations in learning and education

Leila Takayama

Psychological aspects of interacting with non-human agents (e.g., autonomous and semi-autonomous robots). Re-embodied cognition of being mediated through computational systems (e.g., telepresence, ubiquitous computing)

Su-hua Wang

Cognitive development, theory of mind, learning through action, parent-child interaction, cross-cultural research, children and technology

Margaret L. Wilson

Visual, spatial, and embodied cognition, with a particular emphasis on how we analogize between domains of thought, using sensory or motor brain resources in the service of other tasks. Specific interests include synaesthesia, working memory, sign language, perception of body movement, dance cognition and the evolution of cognition.

ASSISTANT PROFESSOR

Christy Byrd

Adolescents' understanding of race and ethnicity in their school contexts, particularly perceptions of school racial climate, racial identity beliefs, and implications for development, motivation, and achievement

Rebecca Covarrubias

Culture, self, and identity; social representations of race, gender, and social class in educational/health contexts; student performance, belonging, and well-being; community and school interventions

Audun Dahl

Moral development; the early acquisition of moral norms through social interactions; helping behavior in young children; children's and adults' concerns with morality; emotional development

Nicolas Davidenko

Cognitive psychology, perception, face recognition, apparent motion, high-level perception, computational modeling, cognitive neuroscience, virtual reality

LECTURER

Kimberly Cardilla

Developmental psychopathology, personality development, psychological and neuropsychological testing

Psychology

David A. "Tony" Hoffman, Ph.D.

Child and adolescent development, developmental psychopathology, school psychology, pediatric psychology, children and war, children in high risk contexts

Ralph H. Quinn

Clinical psychology, moral development, psychology and religion, existential-humanistic psychology

Donald T. Saposnek

Childhood psychopathology, parenting and family interactions, children and divorce, family mediation, conflict resolution

Veronica K. Tonay

Clinical psychology, psychotherapy, community mental health, dream research, psychobiography, creativity

EMERITI

Elliot Aronson, Emeritus

Bruce Bridgeman, Emeritus

Martin M. Chemers, Emeritus

Catherine R. Cooper, Emerita

G. William Domhoff, Emeritus

Per F. Gjerde, Emeritus

David M. Harrington, Emeritus

Michael Kahn, Emeritus

Pavel Machotka, Emeritus

Dominic W. Massaro, Emeritus

Melanie J. Mayer, Emerita

Barry McLaughlin, Emeritus

Thomas F. Pettigrew, Emeritus

Avril Thorne, Emerita

Jerome Neu, Professor, Humanities

Philosophy of mind, emotions and culture, philosophy of law, psychoanalytic theory

Roland G. Tharp, Professor Emeritus, Education and Psychology

PSYCHOLOGY COURSES

LOWER-DIVISION COURSES

1. Introduction to Psychology. F,W,S

Introduces prospective majors to the scientific study of behavior and mental processes and also provides an overview for non-majors.

Emphasizes social, cognitive, developmental, and personality psychology and their interrelations. (General Education Code(s): PE-H.) (F) K. CARDILLA, (W) F. CROSBY, (S) A. KAWAMOTO

2. Introduction to Psychological Statistics. W,S

An introduction to elementary statistical principles and techniques relevant to psychological research.

Topics covered include basic parametric and nonparametric statistics, analysis of variance, and simple factorial designs. This course is prerequisite to course 181.

Prerequisite(s): course 1 or 20, and Applied Mathematics and Statistics 3 or 6 or Mathematics 3 or 4 or 11A or satisfactory placement score on math placement exam or CEEB Advanced Placement Calculus AB exam. Enrollment limited to 165. (General Education Code(s): SR.) (W) A. DAHL, (S) S. WHITTAKER

10. Introduction to Developmental Psychology. F,W,S

Addresses psychological development from conception to adolescence. Provides an overview of developmental psychology. Prerequisite(s): course 1; Applied Mathematics and Statistics 3 or 6, or Math 3 or higher Mathematics courses; and course 2 or Applied Mathematics and Statistics 5 or 7/7L. (F) N. AKHTAR, (W) S. WANG, (S) C. BYRD

20A. Cognition: Fundamental Theories. F,W

Introduces basic concepts in cognitive psychology with a focus on theoretical explanations of cognitive functioning. Topics include perception, attention, memory, concepts, language, visual cognition, executive functions, and reasoning processes. (Formerly course 20, Introduction to Cognitive Psychology.) (F) T. SEYMOUR, (W) M. WILSON

20B. Cognition: Applied Issues. *

Introduces basic concepts in cognitive psychology with a focus on applications to real-world issues. Topics include perception, attention, memory, concepts, language, visual cognition, executive functions, and reasoning processes. THE STAFF

40. Introduction to Social Psychology. *

An analysis of contemporary research in social psychology and of what that research can teach us about the world we live in.

Problems of conformity, propaganda, prejudice, attraction, and aggression. Focuses on a person's relationship with other people, how he or she influences them and is influenced by them. A. PRATKANIS

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division or graduate students under faculty supervision. (See course 192.) THE STAFF

60. Introduction to Personality Psychology. *

An overview of major personality theories from Freud to the modern day, and an introduction to contemporary research on personality development and assessment. Prerequisite(s): course 1. THE STAFF

80A. Psychology and Religion. F

Topics covered include myth and the unconscious, the varieties of religious experience, dualism, women and religion, the role of authority, transpersonal experience,

Psychology

conversion, disaffiliation, self and community. R. QUINN

UPPER-DIVISION COURSES

100. Research Methods in Psychology (7 credits). F,W,S

An introduction to research methods used to investigate human psychology. Course emphasizes critical thinking, designing and conducting research, analyzing and interpreting data, and writing a professional research report. (Formerly course 3.)

Prerequisite(s): Entry Level Writing and Composition requirements; Applied Mathematics and Statistics 2 or 3 or 6, or Mathematics 3 or higher level Mathematics course; and course 2 or Applied Mathematics and Statistics 5 or 7/7L. (F) B. STORM, (W) R. COVARRUBIAS, (S) L. TAKAYAMA

101. Topics in Developmental Psychology. *

These topics, offered at different times by different instructors, examine selected topics in developmental psychology. (Formerly course 100.) THE STAFF

102. Adolescent Development: Adolescence into Young Adulthood. F

Focuses on individual and relational development from early adolescence into emergent adulthood. Emphasis on the mutual influences of family relationships and adolescent development, and on the interface of family, peer group, and school experience in cultural contexts. Prerequisite(s): courses 3 or 100 and course 10. M. AZMITIA

103. Adult Development and Aging. S

Overview of the cultural, societal, biological, interpersonal, and cognitive processes of adult development and aging. Class discusses how each of these contexts and processes promotes stability and change as adults experience adulthood, reflect on their lives, and prepare for death. Prerequisite(s): courses 3 or 100 and course 10. M. AZMITIA

104. Development in Infancy. W

Focuses on psychological development in infancy. Presents research on perceptual, cognitive, and social-emotional development during the first two years of life. (Formerly course 101.)

Prerequisite(s): courses 3 or 100, and 10. Enrollment restricted to psychology and cognitive science majors. N. AKHTAR

105. Children's Thinking. *

Cognition in children from infancy through adolescence. Basic and current research on children's understanding of the social and physical world. Focus on major theoretical perspectives: especially Piaget's constructivist approach and sociocultural approach.

Prerequisite(s): courses 10 and 100. Enrollment restricted to psychology and cognitive science majors and minors. M. CALLANAN

106. Social and Emotional Development. *

An examination of contemporary theory and research on social and emotional development from infancy through childhood.

Prerequisite(s): courses 10 and 100. C. LEAPER

107. Gender and Development. W

Examines the developmental psychology of gender in childhood and adolescence. Prerequisite(s): course 3 or 100, and course 10. Enrollment restricted to psychology majors. C. LEAPER

108. Educational Psychology. F

An overview of psychological theories and principles applied to formal and informal educational settings. Topics include: learning, motivation, cultural diversity, individual differences, and assessment. Students complete a research project. Prerequisite(s): courses 10 and 100. C. BYRD

112. Moral Development. F

How and why do children develop into moral beings? This course covers key theories and empirical research about the cognitive, emotional, and behavioral aspects of moral development, including psychoanalytic, behaviorist, constructivist, nativist, and

evolutionary approaches.

Prerequisite(s): courses 10 and 100. A. DAHL

114. Human Development as a Cultural Process. W

Examines interdisciplinary theory, research, and methods of studying the cultural basis of human development, and variations and similarities in human lives and practices in the United States and worldwide cultural communities. Prerequisite(s): courses 10 and 100. (General Education Code(s): CC.) B. ROGOFF

115. Lifespan Developmental Psychopathology. *

Examines theory and research on developmental psychopathology. Emphasizes the origin and longitudinal course of disordered behavior. Explores the processes underlying continuity and change in patterns of adaptation and age-related changes in manifestations of disorders. Prerequisite(s): courses 3 or 100, 10, and 170. K. CARDILLA

116. Communication Technologies, Culture, and Human Development. F

What is the role of Information Communication Technologies (ICTs) in human development and sociocultural change? Offers insights into how human cultures are changing with the proliferation of ICTs by examining how ICTs are incorporated into cognitive, social, and identity development in late childhood through adulthood. Prerequisite(s): courses 10 and 100. A. MANAGO

118. Special Topics in Developmental Psychology.

118A. Children and War. S

Examines the development and behavioral ecology of children affected by war. Discusses refugee children, displaced children, abandoned children, orphaned children, children living in protracted conflict, and child soldiers. Reviews child protection strategies and psychosocial intervention for war-affected children. Prerequisite(s): courses 3 or 100 and 10. D. HOFFMAN

118B. Children in Extreme Circumstances. *

Reviews child survival in life-threatening contexts. Examines the lives of street children, institutionalized children, orphans, children in extreme poverty, enslaved children, war-affected children, abandoned children, and children whose parents have HIV/AIDS and other life-threatening illnesses. Prerequisite(s): courses 3 or 100 and 10. Enrollment limited to 60. D. HOFFMAN

118C. Theory of Mind. *

Reviews recent research on how children come to understand the human mind, such as desire, belief, goals, and intention. Also discusses the implications of this research on typically and atypically developing children. Prerequisite(s): courses 10 and 100. Enrollment restricted to psychology majors. Enrollment limited to 60. S. WANG

118D. Growing Up in Panem: Developmental Psychology of the Hunger Games. *

Uses "The Hunger Games" trilogy to explore contextual factors in child development and critically examine the parallels between Panem and the real world using psychology research. Topics include poverty, media, oppression, exposure to violence, resilience and resistance, Prerequisite(s): courses 10 and 100. C. BYRD

119. Senior Seminars in Developmental Psychology.

119A. Development as a Sociocultural Process. *

Examines theory and research in sociocultural approaches to how people (especially children) learn and develop through participating in activities of their communities with other people. Emphasizes the organization of social interactions and learning opportunities, especially in communities in the Americas where schooling has not historically been prevalent. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing, Composition requirements; course 3 or 100, Anthropology 1 or 2, Education

92A, 92B, or 92C, Latin American and Latino Studies 1, or Sociology 1. Enrollment restricted to seniors or by permission. Enrollment limited to 30. B. ROGOFF

119D. Cultural Perspectives on Adolescent Development. *

Examines cultural influences on adolescence from diverse cultural, ethnic, and socioeconomic communities from the perspective of current interdisciplinary theories and research. Topics include: identity development; changes from early adolescence to adulthood; links among family, school, peer, and community experiences; programs for youth; and implications of bridging research, social policy, and community practice. Includes research practicum. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): courses 3 or 100 and 10 and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors or permission of instructor. Enrollment limited to 30. C. COOPER

119E. The World of Babies. *

Focuses on how infants learn about intuitive physics, naive psychology, and shared culture. Also discusses how cultural communities shape infants' learning. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. S. WANG

119F. Language Development. *

An introduction to language development in young children. Explores current theory and research in language development; and focuses on the preschool years. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements, course 10 and course 100.

Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. N. AKHTAR

119H. Children, Research, and Policy. *

Explores ways that research in developmental psychology can be used to address "real-world" problems facing children. With an analytical focus on evidence and generalizability, we will investigate research-policy connections in topics of popular interest (e.g., child custody, poverty). Satisfies seminar requirement. Satisfies senior comprehensive requirement. (Formerly Developmental Psychology Research and "Real World" Problems) Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. M. CALLANAN

119I. Special Topics in Narrative Development. *

Examines a special topic of current interest in developmental psychology centering on the features of self-identity that develop in the context of telling stories of individual and/or shared experiences, such as self-defining memories or family stories. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 3 or 100; enrollment restricted to senior psychology majors. Course 60 recommended. Enrollment limited to 30. A. THORNE

119K. Emotional Development. S

Covers classic and contemporary work on the nature and development of human emotions. Both theoretical perspectives and empirical research are discussed. Major topics include: emotion-cognition interplay, the measurement of emotion, universality and cultural variability, and emotional communication. Prerequisite(s): courses 10 and 100 and satisfaction of the Entry Level

Psychology

Writing and Composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. A. DAHL

119M. Identity Development in Social and Cultural Contexts. F

Senior seminar that focuses on identity development in adolescence and young adulthood. Discusses theory and research on the development of personal and social identities and the sociocultural contexts in which these personal and social identities are negotiated. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 3 or 100; course 102 strongly recommended. Enrollment restricted to senior psychology majors or by permission of instructor. Enrollment limited to 30. M. AZMITIA

119N. Hunger Games Seminar: Growing Up in Panem. W

Uses The Hunger Games trilogy to explore contextual factors in child development and critically examines the parallels between Panem and the real world using psychology research. Prerequisite(s): course 100 and satisfaction of Entry Level Writing, Composition requirements. Enrollment is restricted to senior psychology majors. Enrollment limited to 30. C. BYRD

119P. Children and Technology. S

Covers current research and theory related to children and technology. Topics include: how children learn to use new technologies; how technology use impacts children's thinking; computer gaming and aggression; and how children's social relationships are influenced by technology. Satisfies the seminar and comprehensive requirements. Prerequisite(s): courses 1 and 10; and 100; and satisfaction of Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. M. CALLANAN

119S. The Developmental Psychology of Love. *

Drawing upon key theoretical and empirical findings from across psychology's subfields, this course explores how the experience and expression of love evolves across the life course and how the unique contributions of both partners to relationship dynamics contour relationship trajectories. Prerequisite(s): course 100; satisfaction of entry-level writing and composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. THE STAFF

119T. Media Contexts of Adolescent and Young Adult Development. *

Focuses on the role of media in adolescents' and young adults' identity development, friendships, and peer relationships. Topics include: globalization; physical/body image; friendships and peer acceptance; and educational and career goals. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, course 10, and course 3 or 100. Course 102 is recommended. Enrollment restricted to senior psychology majors. Enrollment limited to 30. K. CARDILLA

120. Visual and Spatial Cognition. *

Focuses on high-level perception and visual, spatial, and other sensorimotor representations as elements of human cognition. Topics include imagery, visual attention, mental models, spatial language, the body schema, near-body space, and brain organization for representing space. Prerequisite(s): course 1 or 20 or 20A, and course 100. Enrollment restricted to cognitive science and psychology majors and minors. Enrollment limited to 60. M. WILSON

120D. Deafness and Sign Language. *

Explores what we can learn about human cognition by studying sensory loss and language in a different sensory modality. Topics

include brain organization, sensory compensation, working memory, visual cognition, and psycholinguistics. Prerequisite(s): course 1 or 20 or 20A, and course 100. Enrollment restricted to psychology and cognitive science majors and minors. M. WILSON

121. Perception. W

Introduces the study of human perception. Topics include: the structure and function of the human eye and early visual cortex, perception of motion, color, and objects; recognition of faces; and audition, sensory integration, and synesthesia. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. N. DAVIDENKO

123. Cognitive Neuroscience. S

An examination of the physiological mechanisms of psychological processes, including sensory systems, motor systems, control systems, and memory and learning. Principles of nervous system organization are discussed at each level. (Formerly Behavioral Neuroscience) Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. Enrollment limited to 130. M. WILSON

124. Psychology of Reading. S

Focuses on the cognitive processes that underlie reading in adults. Additional topics include different writing systems, learning to read, and reading deficits. Recommended for upper-division students. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. A. KAWAMOTO

125. The Psychology of Language. F

An analysis of human communication as a function of psychological, linguistic, and social factors. Focuses on language comprehension and production, including the processing of sounds, words, syntax, semantics, pragmatics, and dialogue. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. J. FOX TREE

Psychology

127. Computer Mediated Communication. W

Provides an introduction to cognition as it relates to how people communicate using computers and the Internet. Focuses on the cognitive and social aspects of communication. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. S. WHITTAKER

128. Human Factors. F

Human factors psychology studies human-machine interaction and computer usability, and involves diverse topics including user requirements analysis, user interface design, implementation and evaluation. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. L. TAKAYAMA

129. Human Learning and Memory. S

Examines basic theories, models, methods, and research findings in human memory. Both traditional and nontraditional topics are covered. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. T. SEYMOUR

130. Deception, Brain, and Behavior. *

Focuses on behavioral and brain manifestations of deception. Topics include developmental changes that allow us to understand and to use deception, physical implications of lying expressed in the face, voice, posture, and brain activity. Also covers mechanical or behavioral techniques used in deceptive behavior, whether in the form of overt behavior or brain activity. Prerequisite(s): course 100; and course 20 or any upper-division cognitive course. Enrollment restricted to psychology and cognitive science majors and minors. T. SEYMOUR

132. Neural Modeling. *

Introduces students to the use of computer simulations in experimental psychology. Students use existing software to explore topics in cognition such as learning, memory, and psycholinguistics. One upper-division course in cognitive

psychology (courses 120-139) is recommended. Prerequisite(s): course 100. Enrollment restricted to psychology and cognitive science majors and minors. Enrollment limited to 15. A. KAWAMOTO

135. Feelings and Emotions. F

Focuses on contemporary research in the psychology of human emotions. Special attention given to work in cognitive science, including psychology, linguistics, philosophy, and anthropology, on how emotions are central to understanding human action and mental life.

Prerequisite(s): course 100 and psychology and cognitive science majors and minors; or linguistics, philosophy, or anthropology majors. R. GIBBS

137. Mind, Body, and World. *

Psychologists primarily view the mind as being separate from the body, and the body as being separate from the external world. This course questions this widely held position and explores the way that minds arise from individuals' bodily interactions with others and the world around them. Particular attention is paid to the role of human embodiment in language use and everyday cognition.

Prerequisite(s): course 100 and psychology and cognitive science majors; or linguistics, philosophy, or anthropology majors. R. GIBBS

138. Computer Programming for the Cognitive Sciences. *

Offers a practical introduction to computer programming for psychology and cognitive science students. Students learn simple and effective techniques for collecting, parsing, and analyzing behavioral data from behavioral experiments. Students create programs to present visual stimuli, collect keyboard responses, and then write response time and accuracy to datafiles on disk. Students then write new programs to extract information from the datafiles, perform statistical analysis, and present summaries of the findings. Students learn to use the Python programming language for cross-platform application development. No previous programming

experience is necessary.

Prerequisite(s): course 1 or 20A or 20B, and 100. Enrollment restricted to psychology and cognitive science majors. T. SEYMOUR

139. Senior Seminars in Cognitive Psychology.

139B. Consciousness. W

Provides a psychological study of human consciousness. Aim is to explore the following questions: What is consciousness? Where does consciousness come from? What functions does consciousness have in everyday cognition? How do we best scientifically study consciousness? These issues are examined from the perspective of contemporary research in cognitive science. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology, philosophy, anthropology, linguistics, and cognitive science majors. Enrollment limited to 30. R. GIBBS

139D. Modeling Human Performance. *

Hands-on experience using computational modeling to understand human cognitive-task performance by comparing simulated and human data. Satisfies senior seminar requirement. Satisfies senior comprehensive requirement. Enrollment restricted to senior psychology, cognitive science, computer science, and computer engineering majors, or by permission of instructor. Prerequisite(s): Entry Level Writing and Composition requirements; course 3 or 100, and at least one of the following: course 121 or 123 or 128 or 129 or 132 or 138; or Computer Science 5C or 5J or 11 or 12A or 13H or 130 or 140. Enrollment limited to 30. T. SEYMOUR

139F. Psychology and Evolutionary Theory. *

Human psychology is examined from the viewpoint of evolutionary theory, including perspectives from ethnology, anthropology, and

Psychology

neuropsychology. Upper-division students from diverse backgrounds are encouraged to enroll. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology, anthropology, biology, philosophy, sociology, cognitive science, and feminist studies majors. Enrollment limited to 30. THE STAFF

139G. Conversations. *

Explores how conversations work and how speakers accomplish their goals in an interaction. Topics include conversational structure, turn-taking, variation in language use, and the functions of discourse markers (words like "um," "uh," and "you know"). Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. J. FOX TREE

139H. Weird Science. W

Explores the relationship between science and pseudoscience from a cognitive psychological perspective, including discussion of collection and selection of data, statistical assessment of data, cognitive illusions, memory distortions, reasoning, and decision-making. Also highlights the dissemination of scientific knowledge. Satisfies seminar requirement. Satisfies comprehensive requirement. (Formerly course 134.) Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. J. FOX TREE

139J. Forgetting. *

Explores forgetting as an essential and adaptive process in human memory. Topics include: intentional and unintentional forms of

forgetting; the (re)constructive nature of memory; and cases of extreme remembering.

Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology and cognitive science majors. Enrollment limited to 30. B. STORM

139K. Face Recognition. W

To navigate our social world, we need to extract a wealth of information from faces, including identity, expression, gaze, age, and gender. This seminar reviews current topics in face-recognition research, from cognitive, neuroscience, developmental, social, and computational perspectives. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and course 1 or 20 or 20A; and course 3 or 100. Enrollment restricted to senior cognitive science, neuroscience, and psychology majors. Enrollment limited to 30. N. DAVIDENKO

139L. Illusions. S

Illusions arise when our perception differs from reality. In this course, students investigate the mechanisms of visual, auditory, and proprioceptive illusions as an approach to understand the capacities and limitations of our perceptual system. Satisfies the senior comprehensive requirement. Prerequisite(s): course 100, and satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to senior psychology and cognitive science majors. Enrollment limited to 30. N. DAVIDENKO

139M. Human-Robot Interaction. *

Explores the social and psychological processes underlying the design and evaluation of robotic systems that coexist with people. Topics include: current texts in the philosophy, psychology, and state-of-the-art. Students develop new psychological explorations in human-robot interaction. Prerequisite(s): course 100, and

satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to senior psychology and cognitive science majors. Enrollment limited to 30. L. TAKAYAMA

139N. Diversity in Cognitive Psychology. F

Lists of influential contributors to cognitive psychology insufficiently represent the influence of more diverse, non-traditional scientists. This course profiles the life and work of women and minority scientists who've made well-documented contributions to cognitive psychology, as well as those who've received less recognition. Satisfies the senior seminar requirement. Satisfies the senior comprehensive requirement. Prerequisite(s): courses 1 and 100, and course 20A or 20B or 105. Enrollment is restricted to senior cognitive science or psychology majors. Enrollment limited to 30. T. SEYMOUR

140. Topics in Social Psychology.

140B. African American Psychology. *

Incorporates historical and conceptual foundations; issues of social psychology; individual and developmental processes; and adjustment and clinical issues. Readings expose students to attributes of African American culture that have an impact on the psychology of African Americans as well as methodological issues relevant to key psychological topics. Prerequisite(s): course 100. Enrollment limited to 60. THE STAFF

140C. Health Psychology. *

Course examines the psychological aspects of health, illness and healing. Focuses primarily on etiology, treatment and prevention; specific topics include stress and the immune response, social support, compliance, health beliefs, and the healing relationship. Prerequisite(s): courses 3 or 100. THE STAFF

140F. Mind, Society, and Culture. *

Introduces how social, cultural, and

Psychology

historical contexts shape psychological experiences, including self-concept, perception, emotion, health, and behavior. Draws from theories and research in psychology, sociology, and anthropology to highlight cultural variations in national populations (e.g., North Americans, East Asians) and multicultural populations within the United States (e.g., working-class Americans, African Americans, Mexican Americans, Native Americans). Prerequisite(s): course 100. THE STAFF

140G. Women's Lives in Context. S

Examines gender as a psychological and social factor that influences women's experiences in different contexts. Cuts across other areas of psychology by taking a women-centered approach. Emphasis also placed on understanding how intersections between gender, race and ethnicity, sexual orientation, socioeconomic status, etc., impact women's psychological well-being. Prerequisite(s): course 100, or Sociology 103B. Enrollment restricted to junior and senior psychology and sociology majors. S. GRABE

140H. Sexual Identity and Society. *

Introduces the contemporary social and political significance of sexual and gender identity diversity, focusing on historic and contemporary stigmatization. Examines scientific paradigms for the study of sexuality and gender; social and scientific activism for sexual liberation; sexual fluidity; transgender identity; queer theory and politics; and contemporary issues in social justice and social policy for sexual and gender identity diversity. P. HAMMACK

140L. Women's Bodies and Psychological Well-Being. *

Examines how women's bodily experiences (e.g., sexual objectification, violence, menarche, sexual health) are uniquely tied to their subordinate status and impacts their psychological well-being. Theories of gender inequality will address how social control

directed at women's bodies through power relations imbedded in societal institutions contributes to women's marginalized status. Enrollment restricted to senior psychology, sociology, feminist studies, and community studies majors. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; and course 100, or Sociology 103B, or Feminist Studies 100, or Community Studies 100. Enrollment limited to 60. S. GRABE

140M. Legitimizing (In)Equality: Attitudes, Beliefs, and Social Policy. *

Drawing on research in social psychology, political psychology, and critical policy studies, course examines how beliefs legitimize inequality, influence intergroup relations, and inform policy attitudes. Both hierarchy-enhancing and hierarchy-attenuating beliefs are reviewed. Prerequisite(s): course 100. Enrollment restricted to psychology, community studies, legal studies, politics, and sociology students. H. BULLOCK

140Q. Social Psychology of Gender. *

Considers individual, interpersonal, and cultural influences on gender similarities and differences in thinking, motivation, and behavior. Emphasizes factors related to power and status inequalities between women and men. Prerequisite(s): courses 3 or 100. C. LEAPER

140T. Psychology of Trauma. *

Overview of psychological theory and research on trauma and traumatic stress, including responses to childhood trauma (especially sexual abuse), combat, and natural disasters. Variety of theoretical frameworks presented, including developmental, cognitive, neuropsychological, clinical, and social/contextual. Prerequisite(s): course 3 or 100 or permission of instructor. E. ZURBRIGGEN

141. Privacy and Surveillance. *

Survey of theory and research on privacy and surveillance. Topics include: the functions of privacy;

threats to privacy in multiple domains; the psychological impact of surveillance; historical and cultural differences in privacy and surveillance practices; and the relationship between privacy, surveillance, and social justice. Prerequisite(s): course 100, or by permission of the instructor. E. ZURBRIGGEN

142. Psychology of Oppression and Liberation. *

Provides theoretical frameworks for understanding interlocking systems of oppression from the perspective of "the oppressed" as well as "the oppressor" nationally and internationally. Goes beyond mainstream (traditional) psychology and emphasizes critical psychological perspectives that include micro- and macro-level theories of oppression; importance of ideology in oppressive systems; and theories of social change and liberation across contexts. Prerequisite(s): course 3 or 100 or feminist studies, sociology, community studies, or politics majors. THE STAFF

145. Social Influence. W

An advanced course for upper-division undergraduates interested in the study of the persuasion process. The course investigates common influence tactics and how those tactics are used in various settings. Prerequisite(s): course 3 or 100. A. PRATKANIS

145D. Social Psychology of Autocracy and Democracy. S

Humans are the only animal capable of living in both authoritarian and democratic regimes. Course explores the nature of these forms of social relationships with a goal of promoting democracy. Topics include: obedience to authority, conformity, self-justification, propaganda, power, and conflict resolution. Prerequisite(s): course 100. A. PRATKANIS

146. The Social Context. *

A systematic analysis of the social and contextual determinants of human behavior, with special attention given to concepts of situational control, social comparison, role and attribution

Psychology

theories, as well as the macrodeterminants of behavior: cultural, historical, and sociopolitical context.

Prerequisite(s): course 100. THE STAFF

147A. Psychology and Law. W

Current and future relationships between law and psychology, paying special attention to gaps between legal fictions and psychological realities in the legal system. Topics include an introduction to social science and law, the nature of legal and criminal responsibility, the relationship between the social and legal concepts of discrimination, and the nature of legal punishment. (Also offered as Legal Studies 147A. Students cannot receive credit for both courses.) Prerequisite(s): courses 3 or 100; and course 40 is highly recommended prior to taking this course. Enrollment restricted to psychology, pre-psychology, and legal studies majors. C. HANEY

147B. Psychology and Law. S

Continuing discussion of current and future relationships between law and psychology and to contrasting psychological realities with legal fictions. Special attention is given to the criminal justice system including crime causation, the psychology of policing and interrogation, plea bargaining, jury selection and decision making, eyewitness identification, and the psychology of imprisonment. (Also offered as Legal Studies 147B. Students cannot receive credit for both courses.) Prerequisite(s): course 147A. C. HANEY

149. Community Psychology: Transforming Communities. W

Introduces community psychology, a discipline that blends social psychology, sociology, and anthropology. Topics include levels of analysis, ecologies, prevention, intervention, feminisms, empowerment, sense of community, coalition building, and social justice and action. Prerequisite(s): course 3 or 100. Enrollment restricted to juniors and seniors. Enrollment limited to 120. R. LANGHOUT

150. Social Psychology of Flimflam. F,S

Why do we believe strange things? This course investigates such flimflams as beliefs in the Loch Ness Monster, quack health care, and racial superiority to illustrate the underlying social psychological principles that lead us to adopt weird attitudes. (Formerly course 159I.) Prerequisite(s): course 100. Enrollment restricted to psychology majors. A. PRATKANIS

153. The Psychology of Poverty and Social Class. *

Examines how social class shapes attitudes, beliefs, and behaviors. Emphasis is placed on structural barriers and their impact on the well-being of low-income groups. Strategies for reducing classist discrimination, improving interclass relations, and strengthening social policy are discussed. Prerequisite: course 3 or 100, or anthropology, community studies, economics, legal studies, politics, sociology, or feminist studies majors. H. BULLOCK

155. Social-Community Psychology in Practice. *

This service-learning course requires time in the classroom and the field. Students gain a deep understanding of social justice paradigms, community-based collaborative research, ethics, field-based research, reflexivity, and socio-cultural development modes. Prerequisite(s): Courses 3 or 100; courses 149 and 182 are recommended prior to taking this course. Admission by application and interview only. (Formerly course 159P.) Enrollment limited to 15. (General Education Code(s): PR-S.) R. LANGHOUT

159. Senior Seminars in Social Psychology.

159A. Sexual Identity. S

Considers the experience of lesbian, gay, bisexual, and transgender individuals from a psychological perspective. Reviews theory and research on compulsive heterosexuality, heterosexism and homophobia, culture and sexual-identity diversity, issues of history and community of LGBT individuals,

and perspectives on sex, gender, and sexuality from queer theory. Satisfies the seminar requirements. Satisfies the senior comprehensive requirement. Prerequisite(s): course 100, and satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to senior psychology majors. Enrollment limited to 30. P. HAMMACK

159D. Psychology of Sexual Aggression. *

An overview of psychological theory and research related to sexual aggression, focusing on both perpetration and victimization. Includes a discussion of the social construction of masculinity and femininity, media representations of sexual violence, and alternative (non-aggressive) visions of sexuality. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology or feminist studies majors or permission of instructor. Enrollment limited to 30. E. ZURBRIGGEN

159E. Peace Psychology. W

Is war inevitable? What is peace? Is it more than the absence of violence? Explore how psychology—the study of human behavior—can help to decrease violence and enhance cooperation at multiple levels including the personal, interpersonal, community, and international arenas. Satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. D. HOFFMAN

159H. Community-Based Interventions. *

Topics include: what makes a successful intervention; what happens before the formal intervention begins; the ethics involved with interventions; different methods for assessing

Psychology

interventions; and different praxis models. Satisfies the seminar requirement. Satisfies the senior comprehensive requirement. A service component is involved. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. THE STAFF

159N. Psychology of Mentoring. F

Looks at the psychological studies of mentoring. Examines empirical studies and connects those to lived experience. Critical inquiry is stressed. Satisfies the senior seminar requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and course 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. F. CROSBY

159R. Achievement Disparities: A Social Psychological Perspective. F

In this interactive seminar, we draw on research and theories in social and cultural psychology to examine persisting disparities in education and achievement for varying social groups (e.g., race/ethnicity, gender, social class) and to identify intervention strategies for reducing these disparities. Satisfies the senior comprehensive requirement. Prerequisite(s): course 100, and satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to senior psychology majors. Enrollment limited to 30. R. COVARRUBIAS

159S. Queer Intimacies. S

Examines the science of relationship diversity through the lens of social psychology. Reviews popular and psychological literature on same-sex relationships, polyamory/consensual non-monogamy, kink/fetish/BDSM relationships, chosen families, asexuality, and transgender intimacy. Concludes with discussion of the impact of queer intimacies on heterosexuality. Satisfies the seminar requirements. Satisfies the

senior comprehensive requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and course 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. P. HAMMACK

159X. Psychology of Social Activism. *

Covers social-psychological scholarship relevant to social justice activism that receives limited academic attention in conventional psychology. The seminar aims at understanding how knowledge gained in action-oriented research can be applied to social change. Satisfies the seminar requirement. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, and course 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. S. GRABE

165. Systems of Psychotherapy. W

A review of the major methods of psychotherapy most currently practiced, including ethical standards and dilemmas, and client-therapist-system variables affecting efficacy. Prerequisite(s): course 3 or 100; course 60 or 170 recommended. V. TONAY

166. Personality Assessment. W

How do we really know a person? Provides experience assessing such individual differences as intimacy motivation, dominance, creativity, and well-being. Students construct their own personality test and learn to evaluate the kinds of self-report, observational, projective, and interview techniques used in organizational and clinical contexts. Prerequisite(s): course 100; course 60 highly recommended as preparation. V. TONAY

167. Clinical Psychology. S

Serves as an in-depth introduction to the field of clinical psychology. Covers issues of clinical assessment, interviewing, testing, and a range of therapeutic modalities. Prerequisite(s): course 100; course 170 is recommended as preparation. Enrollment restricted

to psychology majors. Enrollment limited to 120. R. QUINN

168. The Study of Dreams. *

An overview of dream studies by several major theorists and researchers of the 20th century, including Freud, Jung, and Hall. An emphasis on studies that reveal cognitive conceptions and personal concerns through quantitative and qualitative analyses of sets of dreams from individuals and groups. Other topics covered more briefly include dream recall, children and dreams, and the role of dreams within cultures. Prerequisite(s): course 3. G. DOMHOFF

169. Community Mental Health (CMH). F

How can we improve mental health? Examines theory, method, and efficacy research of outreach, prevention, and intervention methods with various mental health populations in community settings (e.g., victims of sexual violence, new immigrants, those with severe mental illness, children in foster care). Presents characteristics of successful CMH agencies and programs and how to develop one's own agency or intervention model. Prerequisite(s): course 100. Courses 60 or 170 recommended. V. TONAY

170. Abnormal Psychology. W,S

Survey of theory, research, and intervention in human psychopathology. Covers psychological, biological, developmental, and socio-cultural approaches. Prerequisite(s): course 100; course 60 highly recommended as preparation. D. HOFFMAN

171. Childhood Psychopathology. F

A critical and intensive exploration of a wide variety of specific disorders within their biological, developmental, and social contexts. Concepts of psychopathology in childhood, major and minor diagnostic systems, and a variety of theories of etiology are explored. General intervention strategies and a wide range of specific psychotherapy systems for

Psychology

treatment are closely examined and demonstrated. Prerequisite(s): courses 3 or 100; and course 10. Course 170 strongly recommended. D. SAPOSNEK

175. Personality, Relationships, and Emotions. *

Explores the nature, origins, and development of human personality as it relates to emotions in the context of close relationships. Prerequisite(s): course 3 or 100. Courses 10 and 60 recommended as preparation. K. CARDILLA

179. Senior Seminars in Personality Psychology.

179A. Theories of Moral Psychology. W

A seminar course with focus on theories of moral development from the psychoanalytic, social learning, cognitive-developmental, and humanistic perspectives. Students confront and discuss moral dilemmas from the four perspectives, working toward their own individual theories of pro-social behavior. Course satisfies seminar requirement. Satisfies senior comprehensive requirement. Prerequisite(s): essay required on a moral issue or dilemma relevant to the student's life. Prerequisite(s): Entry Level Writing and Composition requirements; and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. R. QUINN

179B. Children and Divorce. S

Explores history and psychology of divorce and the short- and long-term effects of divorce on children. Examines wide range of findings that have drawn diametrically opposed conclusions; delves into social attitudes and legal structures that have impeded and enhanced divorce transitions for children and parents; investigates future models for divorcing that are child-friendly and consistent with findings from newly emerging longitudinal research on children and divorce. Satisfies seminar and senior comprehensive requirements. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course

3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. D. SAPOSNEK

179D. Psychological Interpretation. F

Seminar explores analytic, Jungian, and object-relations interpretive systems in-depth, using qualitative research methods on film, music, literature, and art, as well as psychological measures such as TAT, dream, and interview protocols. Interprets psyche of author, audience, and engendering culture. Prerequisite(s): course 100, and course 60 or course 165; satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to senior psychology majors. Enrollment limited to 30. V. TONAY

179G. Child, Youth, and Family Assistance in the Community. *

Allows students in psychology field study to conduct senior capstone projects on topics related to their service learning (field study). The seminar is devoted to creating projects related to community systems that address the needs of at-risk child, youth, and families. Students in the seminar should be pre-enrolled in course 193. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements and course 3 or 100. Enrollment restricted to senior psychology majors. Enrollment limited to 30. D. HOFFMAN

181. Psychological Data Analysis. S

Intermediate statistical methods widely used in psychology (e.g., ANOVA, ANCOVA, multiple-comparisons, bivariate correlation, multiple regression, repeated-measures), corresponding SPSS or R programs, and elements of measurement theory. Prerequisite(s): course 100. K. CARDILLA

182. Qualitative Research Methods. W

Designed to equip students with the ability to evaluate, conceive, and carry out psychological research. A

variety of techniques (observational, ethnographic, and field) examined and experienced. Students carry out research projects. (Formerly Advanced Research Methods.) Prerequisite: course 100. Enrollment limited to 30. (General Education Code(s): PR-E.) K. CARDILLA

183. History and Systems of Psychology. *

An overview of the history of psychology. Examines issues of paradigm and philosophy of science. Reviews central paradigms in the history of the discipline. Assumes a critical-historical approach, linking scientific knowledge produced to prevailing societal beliefs about mind and behavior. (Formerly course 180) Prerequisite(s): course 3 or 100. P. HAMMACK

190. Senior Seminars.

Special topics with a format varying each quarter. THE STAFF

191. Teaching College Psychology.

A series designed to provide undergraduates at the upper-division level with an opportunity to participate in planning and teaching college-level psychology. May not be repeated for credit.

191A. Introduction to Teaching Psychology. F,W,S

Students lead discussion groups and provide one-to-one tutoring for courses 1 or 3 or 100. Admission requires essay describing interest in becoming a course assistant, copies of psychology evaluations, and a letter of recommendation from a psychology faculty member; completion of some upper-division psychology courses prior to enrollment in this course. Prerequisite(s): course 3 or 100. Enrollment restricted to psychology majors. (Formerly "Introduction to Psychology.") Enrollment limited to 20. (F) K. CARDILLA, (W) F. CROSBY, (S) A. KAWAMOTO

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar (course 42) under faculty

Psychology

supervision. Available only to upper-division or graduate students. Students submit petition to sponsoring agency. THE STAFF

193. Field Study. F,W,S

Series designed to provide advanced psychology undergraduates opportunity to apply what they have learned in the classroom to direct experience in a community agency. Students earn academic credit by working as interns at a variety of psychological settings where they are trained and supervised by a professional within the agency. Faculty also supervise the students' academic work by providing guidance and helping them integrate psychological theories with their hands-on intern experience. A two-quarter commitment. Students submit petition to sponsoring agency. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

193A. Developmental Field Study. F,W,S

Work in a community-based setting while completing self-directed academic work focused in the developmental area under the guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. Enrollment limited to 100. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

193B. Cognitive Field Study. F,W,S

Work in a community-based setting while completing self-directed academic work focused in the cognitive area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior

psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

193C. Social Field Study. F,W,S

Work in community-based setting while completing self-directed academic work focused in the social area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

193D. Clinical/Personality Field Study. F,W,S

Work in community-based setting while completing self-directed academic work focused in clinical or personality area under guidance of a faculty member. Students submit petition to sponsoring agency; applications due one quarter in advance to the Psychology Field Study Office. Prerequisite(s): courses 3 or 100. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

194. Advanced Research in Special Topics.

Provides a means for a small group of students to do research on a particular topic in consultation with a faculty sponsor.

194A. Advanced Developmental Research. F,W,S

Provides students with intensive experience conducting current research in developmental psychology. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194B. Advanced Cognitive Research. F,W,S

Provides students with intensive experience conducting current research in cognitive psychology. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194C. Advanced Social Research. F,W,S

Provides students with intensive experience conducting current research in social psychology. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195A. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous coursework or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions. THE STAFF

195B. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous coursework or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions. THE STAFF

195C. Senior Thesis. F,W,S

Preparation of a senior thesis over one, two, or three quarters,

Psychology

beginning in any quarter. When taken as a multiple-term course extending over two or three quarters, the grade and evaluation submitted for the final quarter apply to each of the previous quarters. Students contemplating a senior thesis should have a superior academic record and be well prepared with a suitable background of previous coursework or independent study for performing their proposed research. Students must file a petition with the Psychology Office the quarter in which they would like to begin the thesis. Senior thesis petitions are available in the Psychology Department Office. Check with office for enrollment conditions. THE STAFF

198. Independent Field Study. F,W,S

Provides psychology majors with the opportunity to apply what has been learned in the classroom to direct experience in a community agency outside the local community. Students earn academic credit by working as interns at a variety of psychological settings, where they are trained and supervised by a professional on site. Faculty also supervise the students' field study, providing guidance and help integrating psychological theories with their hands-on experience. Two-quarter commitment required. Admission requires completion of lower-division psychology major requirements; students submit petition to sponsoring agency. Applications are due one quarter in advance to the Psychology Field Study Office. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual directed study for upper-division undergraduates. Students must file a petition with the Psychology Office the quarter in which they would like to take the tutorial. Petitions may be obtained in the Psychology Department Office. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S
Specialized study with individual faculty as psychology peer advisors. May not be applied toward major requirements. Students submit petition to sponsoring agency. Application and interview required during the previous quarter. Enrollment restricted to junior and senior psychology majors. May be repeated for credit. THE STAFF

199G. Tutorial (3 credits). F,W,S
Specialized study with individual faculty. May not be applied toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

201. Teaching in Psychology. S
Provides graduate students with practical teaching skills in the areas of developing and stating a general philosophy of teaching, course design, writing a course syllabus, assessment techniques, evaluation procedures, effective teaching strategies, and media use. Enrollment is restricted to psychology graduate students. Enrollment limited to 20. K. CARDILLA

202M. Introduction to Matlab. F
Introduces the programming language Matlab, focusing on its data analysis, visualization, stimulus presentation, and data-collection tools. Students develop Matlab skills by completing weekly assignments and a term project. No previous programming experience is required. Prerequisite(s): course 204 or by permission of the instructor. Enrollment is restricted to psychology graduate students. Enrollment limited to 10. N. DAVIDENKO

202R. Introduction to R. *
Teaches students how to use the statistical programming language and environment R to load, analyze, simulate, and visualize data. Assumes a basic understanding of descriptive and inferential statistics, but no prior experience with programming. Enrollment is restricted to psychology graduate

students, or by permission of the instructor. Enrollment limited to 20. A. DAHL

204. Quantitative Data Analysis. F
Intermediate statistical methods widely used in psychology (e.g., ANOVA, ANCOVA, multiple comparisons, repeated-measures) and corresponding SPSS or R programs. Enrollment restricted to graduate students. Enrollment limited to 20. D. BONETT

205. Categorical Data Analysis. W
Application of statistical methods for analyzing binomial and multinomial response variables in survey and experimental designs. Topics include hypothesis testing, confidence intervals, assessing effect size, sample size requirements, and an introduction to logistic regression models. Data analysis applications use SAS, SPSS, and R. Prerequisite(s): course 204 or by permission of the instructor. Enrollment is restricted to graduate students. Enrollment limited to 30. D. BONETT

210. The Experimental Method in Social Psychology. *
Explores the philosophy and practice of the experimental method in social psychology. Enrollment restricted to graduate students. E. ZURBRIGGEN

211A. Proseminar: Social Justice and the Individual. F

Provides an introduction to social psychology, focusing on various individual-level social justice topics, including the self, social comparison, individual and collective identity, social historical and social structural determinants of behavior and various policy and social change-related issues. Enrollment restricted to psychology graduate students; undergraduates planning graduate work in social psychology may enroll with permission of instructor. Enrollment limited to 15. C. HANEY

211B. Social Justice, Society, and Policy. W

Provides an introduction to social psychology, focusing on empirical and theoretical developments

Psychology

related to social justice and group and intergroup dynamics. Topics include: prejudice and discrimination, power, collective action, and psychology's relationship to social policy. (Formerly Proseminar: Groups In Society.) Enrollment restricted to psychology graduate students. Undergraduates planning graduate work in social psychology may enroll with permission of instructor. Enrollment limited to 20. H. BULLOCK

213. Special Topics in Social Psychology. F,W

Focuses on particular issues of theoretical and practical importance in social psychology. Topics vary from year to year and often concentrate on issues of social justice, social identity, intergroup relations, and social policy. Enrollment restricted to graduate students. May be repeated for credit. (F) R. COVARRUBIAS, (W) P. HAMMACK

214A. Multivariate Techniques for Psychology. W

Introduces multiple regression, analysis of covariance, and random coefficient models. Both methodological and statistical aspects of data analysis are discussed. Practical problems of estimating and testing in general linear models are addressed. Students gain experience in carrying out and interpreting analysis using SPSS and R. Prerequisite(s): course 204. Enrollment limited to graduate students. Enrollment limited to 20. D. BONETT

214B. Advanced Multivariate Techniques for Psychology. *

Introduces factor analysis and structural equation modeling (SEM). Develop skills in defining, estimating, testing, and critiquing models. Topics include the rationale of SEM, model identification, goodness of fit, and estimation. Learn how to use relevant software packages (R, SAS, LISREL, EQS, or AMOS) to conduct exploratory and confirmatory factor analyses and latent variable path analyses.

Prerequisite(s): course 214A. D. BONETT

215. Production and Comprehension of Spontaneous Communication. *

Seminar on spontaneous communication. Typical topics include discourse markers (including historical origins, cross-linguistic borrowing, second-language learning, children's acquisition), enquoting devices, backchannels, and spontaneous written communication. (Formerly Production and Comprehension of Spontaneous Speech.) Enrollment restricted to psychology graduate students. J. FOX TREE

220. Special Topics in Human Memory. *

Topics announced when offered. Seminars involve discussion and critical evaluation of current, historical, and interdisciplinary readings relevant to topic. Emphasis on development of research ideas. Enrollment restricted to graduate students. Enrollment limited to 12. THE STAFF

221. Visual Perception. *

Seminar to study human perception, its methodology, and driving issues as illustrated by selected research topics (e.g., adaptation to unusual sensory environments). Where possible, parallels with other areas of psychology are drawn. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

222. Topics in Lexical Organization. *

The recognition of words is a critical step in natural language processing. Discusses a range of contemporary issues related to the representation of a word and the access of this information from the perspective of psychology, linguistics, and artificial intelligence. Enrollment restricted to psychology graduate students; undergraduates who have completed course 124 may enroll with permission of instructor. Enrollment limited to 10. A. KAWAMOTO

224A. Proseminar: Cognitive I. F

A proseminar reviewing current topics in cognitive psychology, designed to introduce new graduate students to the field. Enrollment restricted to psychology graduate students. Enrollment limited to 10. R. GIBBS, A. KAWAMOTO

224B. Proseminar: Cognitive II. W

A proseminar reviewing current topics in cognitive psychology, designed to introduce new graduate students to the field. Enrollment restricted to psychology graduate students. Enrollment limited to 10. B. STORM, S. WHITTAKER

225A. Introduction to Developmental Research I (3 credits). F

Examines the rationale and techniques of research in developmental psychology. Topics include theories and paradigms in developmental psychology; translating theoretical ideas into researchable hypotheses; diversity issues in sampling; and conducting ethical research. Multiple-term course; students receive 6 credits in the second quarter of attendance; the grade and evaluation submitted for the final quarter applies to both quarters. Enrollment restricted to psychology graduate students or with instructor's permission. A. DAHL

225B. Introduction to Developmental Research II (3 credits). W

Examines the rationale and techniques of research in developmental psychology. Topics include selecting appropriate research designs; measurement and statistical approaches for research problems; issues of validity; and communicating research findings. Multiple-term course; students receive 6 credits in the second quarter of attendance; the grade and evaluation submitted for the final quarter applies to both quarters. Prerequisite(s): course 225A. Enrollment restricted to psychology graduate students or with instructor's permission. A. DAHL

225C. Introduction to Developmental Research III. S

Focuses on drawing reasonable

Psychology

conclusions from research findings by working on students' first-year research projects and critiques of existing research. (Formerly course 225B, Introduction to Developmental Research II.) Prerequisite(s): courses 225A and 225B. Enrollment restricted to developmental psychology graduate students or by permission of the instructor. C. BYRD

227. Contemporary Issues in Psychology of Language. * Special topics in thought and language are examined from the perspectives of cognitive science. Particular attention given to embodied experience and higher-order cognition. Enrollment restricted to graduate students. May be repeated for credit. R. GIBBS

230. Research in Cognitive Psychology Seminar. F,W,S Colloquium series to study and critique research in cognitive psychology and cognitive science. Enrollment restricted to psychology graduate students. May be repeated for credit. (F) R. GIBBS, (W) S. WHITTAKER, (S) L. TAKAYAMA

231. Research in Social Psychology Seminar. F,W,S Seminar to study, critique, and develop research in social psychology. Enrollment restricted to psychology graduate students. May be repeated for credit. S. GRABE

232. Evolution of Cognition. * Explores current research on evolution of human cognition, drawing on findings from other species and from the archaeological record. Topics include language, working memory, episodic memory, numerical abilities, and social cognition. Enrollment restricted to graduate students. THE STAFF

235. Infant Development in Contexts. * Seminar on how contextual factors influence the development in infancy, especially on cognitive domains. Discusses at least four types of contextual factors: cultural, experiential, event, and interpersonal contexts. Enrollment

restricted to psychology graduate students. S. WANG

242. Research in Developmental Psychology Seminar. F,W,S Seminar to study, critique, and develop research in developmental psychology. Enrollment restricted to psychology graduate students. May be repeated for credit. (S) C. BYRD, (FW) N. AKHTAR

244A. Proseminar I: Cognitive and Language Development. F Explores major theories and research in the fields of cognitive development and language development. Begins with classic theorists, such as Piaget and Vygotsky, and proceeds to theories and research on topics of current interest, such as the relation between culture and cognitive and language development. Enrollment restricted to graduate students. M. CALLANAN

244B. Proseminar II: Social and Personality Development. W An examination of contemporary theory and research on social and personality development across the lifespan. Enrollment restricted to graduate students. M. AZMITIA

246. Cultural Diversity in Human Development. * Examines cultural influences in development from the perspective of current theories and empirical research in developmental psychology and related fields (including social psychology, anthropology, sociology, history, education, and social policy). Focuses on understanding development in diverse cultural, ethnic, and socioeconomic communities by examining the interplay of social, cultural, institutional, and psychological processes. Enrollment restricted to graduate students. Enrollment limited to 20. M. AZMITIA

247. Special Topics in Developmental Psychology. F Focuses on particular issues of theoretical importance in developmental psychology. Topics vary from year to year. Particular issues in language, culture, cognitive, social, and personality

development may be covered. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. B. ROGOFF

248. Survey Methods. S Practicum to give students hands-on experience with survey methods by conducting their own survey on the topic of their choice. Course requires the survey to be conducted off campus at a local agency or program chosen by student with approval of instructor. Enrollment restricted to graduate students. Enrollment limited to 10. C. HANEY

249. Field Methodologies and Social Ethnography. * Designed to train graduate students in applied field methods. Emphasis is on gaining knowledge and experience with actual field methods, by conducting social ethnography in the community. Field research in community placements required. Enrollment restricted to graduate students. Enrollment limited to 10. Offered in alternate academic years. C. HANEY

250. Prejudice and Social Relations. * Examines the ways in which the various branches of psychology have approached the issue of prejudice. Attention paid to the assumptions underlying each approach and their relation to core psychological ideas such as the self and emotion. Enrollment restricted to graduate students. THE STAFF

251. Feminist Theory and Social Psychology. * Course bridges feminist theory and social psychological research to explore connections between theory covered and empirical studies on various topics in social psychology. Seminar format allows students opportunity for extensive discussion. (Also offered as Feminist Studies 251. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. THE STAFF

252. Special Topics in Cognitive Psychology. W,S Focuses on particular issues in cognitive psychology. Topics vary

Psychology

from year to year. Particular issues in language, memory, perception, cognitive modeling, cognitive neuroscience, and more are covered. Enrollment restricted to graduate students. May be repeated for credit. (W) L. TAKAYAMA, (S) B. STORM

253. Theory and Research in Intergroup Relations. *

Examines, compares, and contrasts a variety of theories in intergroup relations while examining relevant empirical research. The relevance of both theory and research findings to contemporary social issues is explored. Enrollment restricted to psychology graduate students; undergraduates considering graduate work in social psychology are encouraged to enroll with permission of instructor. Enrollment limited to 12. Offered in alternate academic years. THE STAFF

254. Psychology of Gender. *

Course reviews recent theory, research, and applications in the psychology of gender. Developmental, social-psychological, cultural, and feminist approaches are emphasized. Enrollment restricted to graduate students. C. LEAPER

256. Psychology of Social Class and Economic Justice. *

Course examines the social psychological antecedents, correlates, and consequences of economic inequality in contemporary U.S. society. The impact of social class on attitudes, beliefs, and behaviors is assessed. Strategies for reducing classist discrimination, improving interclass relations, and strengthening social policy are discussed. Enrollment restricted to graduate students. Enrollment limited to 10. H. BULLOCK

261. Participatory Action Research. *

Participatory Action Research (PAR) is a theoretical standpoint and collaborative methodology that is designed to ensure that those affected by the research project have a voice in that project. Topics include philosophies of science;

defining and evaluating PAR; ethics; and reflexivity. Enrollment restricted to graduate students. Enrollment limited to 10. R. LANGHOUT

264. Transnational Feminism, Development, and Psychology. *

A transnational feminist lens examines international development as linked to broader ideologies that transform gender relations and enhance women's empowerment. A social-psychology framework brings theoretical and practical import to the issues and examines how research can contribute to social justice and women's human rights. Enrollment restricted to graduate psychology students, or by permission of instructor. S. GRABE

290. Proseminar.

Various topics to be offered throughout the year.

290B. Advanced Developmental Research and Writing (2 credits). F,W,S

Tailored to graduate students' interests among topics involving research and scholarship in sociocultural approaches to development, methods for research design, data collection, coding, and analysis, and preparing and reviewing grant proposals and journal manuscripts. Multiple-term course; students receive 6 credits in the third quarter of attendance; the performance evaluation and grade submitted for the final quarter applies to all three quarters. Enrollment restricted to graduate students. May be repeated for credit. B. ROGOFF

290C. Professional Development (3 credits). W

Designed to aid advanced psychology graduate students with development of competence in professional activities (e.g., preparing a vita, making job and conference presentations, submitting and reviewing manuscripts and grant proposals, professional communication, career decisions). Multiple-term course; students receive 6 credits in the second quarter of attendance; the grade and evaluation submitted for

the final quarter applies to the previous quarter. Enrollment restricted to advanced psychology graduate students. May be repeated for credit. B. ROGOFF

290E. Grant Writing for Psychologists. *

Discusses how to write and put together a grant proposal for psychological research, culminating in a completed proposal. Enrollment restricted to psychology graduate students. Enrollment limited to 10. J. FOX TREE

293. Field Study. F,W,S

Student-designed and student-conducted research carried out in field settings. THE STAFF

297. Independent Study. F,W,S

Independent study and research under faculty supervision. THE STAFF

299. Thesis Research. F,W,S

THE STAFF

Not offered in 2017-18

Punjabi

2017-18 General Catalog

Department of the Languages and Applied Linguistics
218 Cowell College
(831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Punjabi can enroll in Punjabi 1A and 1B, courses for both heritage and non-heritage learners. Lower-division language courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Attention is also given to developing an understanding of the culture that has been expressed through the Punjabi language.

This program is part of Sikh and Punjabi studies at UCSC.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

PUNJABI COURSES

LOWER-DIVISION COURSES

1A. Accelerated First-Year Punjabi. W

Accelerated instruction in elementary Punjabi language. Students develop skills in speaking, reading, writing, and listening to real-life Punjabi. The accelerated

pace allows for a rapid mastery of grammar and vocabulary; the course is designed for motivated beginning students. THE STAFF

1B. Accelerated First-Year Punjabi. S

Second quarter of accelerated instruction in the Punjabi language. Students develop skills in speaking, reading, writing, and listening to

real-life Punjabi. The accelerated pace allows for a rapid mastery of grammar and vocabulary; the course is designed for motivated beginning students. Prerequisite(s): course 1A or permission of the instructor. THE STAFF

QUEER AND SEXUALITY STUDIES

2017-18 General Catalog

416 Humanities 1

(831) 459-2757

fmst@ucsc.edu

<http://qss.ucsc.edu/>

PROGRAM DESCRIPTION

Scholarship pertaining to the critical study of gender and sexuality can be found across a broad range of departments at UCSC. This presence is manifested in a diverse faculty, in course offerings, and in research programs. Courses with queer content can be found across a broad range of departments, programs, and colleges at UCSC.

For more specialization, departments such as Feminist Studies and Literature have sufficient flexibility to allow students to design a course of study within those majors to explore these interests. For students who prefer to take a more self-directed approach, there is the option of designing an individual major.

Research activities are sponsored by the Queer Theory research cluster (a part of the Center for Cultural Studies), the Queer and Sexuality Studies Working Group, and many campus departments and student organizations.

The Lionel Cantú GLBTI Resource Center serves as a clearinghouse for queer activities on the UCSC campus. Each quarter, the center prepares a list of all course

offerings with queer content. Information is available at <http://queer.ucsc.edu> or via e-mail at queer@ucsc.edu.

More information may be obtained from members of the faculty working group: Anjali Arondekar (Feminist Studies), Carla Freccero (Literature, Feminist Studies, History of Consciousness), Irene Gustafson (Film and Digital Media), Marcia Ochoa (Feminist Studies), B. Ruby Rich (Film and Digital Media). Additional faculty contacts: Julie Bettie (Sociology), Benjamin Carson (Music), Sheila Crane (History of Art and Visual Culture), Jody Greene (Literature, Feminist Studies), Herbert Lee (Applied Mathematics and Statistics), Peter Limbrick (Film and Digital Media), Catherine S. Ramírez (Latin American and Latino Studies), Jenny Reardon (Sociology), Lisa Rofel (Anthropology), Danny Scheie (Theater Arts), Daniel Selden (Literature), Elizabeth Stephens (Art).

Please contact Anjali Arondekar in the department of Feminist Studies in the Humanities Division (aarondek@ucsc.edu) for information about course offerings and resources.

RACHEL CARSON COLLEGE

2017-18 General Catalog

College Office

(831) 459-2361

<http://rachelcarson.ucsc.edu/>

PROGRAM DESCRIPTION

For college description and list of faculty, see [Colleges](#)

RACHEL CARSON COLLEGE COURSES

LOWER-DIVISION COURSES

3L. Precalculus Academy Lab (2 credits). F,W

Students use worksheets designed to help them solve problems by thinking critically, and participate in answering project-based questions relevant to the themes of their college core courses. Prerequisite(s): Mathematics 2 or placement (MP) score of 200 or higher. Concurrent enrollment in Mathematics 3 is required. Enrollment is restricted to Oaks and Rachel Carson college members. Enrollment is by permission of the instructor. (Also offered as Oakes College 3L. Students cannot receive credit for both courses.) Enrollment limited to 40. May be repeated for credit. N. BHATTACHARYA

10. Academic Success (2 credits). F,W,S

An interactive course providing students with the opportunity to assess and revise methods of and purposes in studying. Critical, effective approaches to reading, writing, participating in lectures and sections, taking exams, balancing competing responsibilities, and utilizing campus resources are all explored. Enrollment restricted to college members and by permission of college adviser. Enrollment limited to 30. THE STAFF

15. Strategies to Jump Start Your STEM Learning (2 credits). F,W,S

Introduces tips and techniques to supplement and expand a student's existing repertoire of science/mathematics problem-solving skills for science, technology, engineering, and mathematics (STEM) classes. The material covered is intended to aid development as a confident learner and future expert in the student's major. Enrollment is restricted to first-year and sophomore Rachel Carson College members. Other students by permission. Enrollment limited to 25. THE STAFF

20C. The Water Environment: Literature of the Sea (2 credits). *

Students consider the representation of the sea in selected texts, noting how it becomes the focal point for the fears, hopes, and prejudices of Western civilization. Students write critical papers and their own narratives. Enrollment restricted to first-year and sophomore college members. Enrollment limited to 25. C. CALSOYAS

20D. College Students' Lives (2 credits). *

Students understand their peers and themselves better through an exploration of issues that affect the daily life of college students. Topics include campus/student cultures, the academic system, and other

critical issues. Overview of campus resources also provided. Enrollment restricted to first-year and sophomore College members. THE STAFF

20F. Justice on Earth (3 credits). *

Examines issues of oppression, privilege, and social justice within a global and environmental context through self-reflective and group work. May include an optional service-learning component requiring travel during spring break. Enrollment limited to 20. THE STAFF

20G. Peregrine Falcons Return (2 credits). W

Required training laboratory for students who wish to pursue a hands-on, two-credit service project (laboratory or field) that is focused on peregrine falcon conservation. Enrollment limited to 26. G. STEWART

28. Peer Leadership in Higher Education (3 credits). *

Overview of theories of student development, critical student issues, and skills needed for appropriate peer leadership interventions. Utilizes a variety of learning modes including readings, discussions, case studies, lectures, and group projects. Interview only: approval of instructor; Resident Assistant (RA) pre-employment training course. Enrollment limited to 25. May be repeated for credit. THE STAFF

55. Rachel Carson College: Service Learning Practicum (2 credits). F

Introduces service-learning theory and practice for students engaging in service-learning work in the college, college-related projects, community service organizations, or public agencies. Enrollment restricted to college members until after priority enrollment. Enrollment limited to 40. May be repeated for credit. (General Education Code(s): PR-S.) S. WATROUS

56. Media Internships for Sustainability (2 credits). F,W,S

Students develop and work on media projects related to the college theme of "Environment and Society" in film, on television, in print, and on the Internet. Students work in groups with specific instructors and project leaders. Enrollment by application and instructor consent. May be repeated for credit. S. WATROUS

61. Education for Sustainable Living Program (2 credits). S

Analyzes sustainability and its application in daily life and on campus, involving collaboration between students, faculty, staff, administration, and the community. Guest lecturers, discussions, an optional UC-wide retreat, and essays allow engagement with aspects of ecological and social sustainability. THE STAFF

80A. Introduction to University Discourse: Environment and Society. F

Explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Introduces students to environmental history, ethics, and policy options, and teaches them to analyze and interpret key literary texts. Students cannot receive credit for this course and course 80B. Concurrent enrollment in course

81A is required. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. (General Education Code(s): TA, C1.) THE STAFF

80B. Rhetoric and Inquiry: Environment and Society. F

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Introduces students to environmental history, ethics, and policy options, and teaches them to analyze and interpret key literary texts. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the C1 requirement; concurrent enrollment in course 81A is required. Enrollment restricted to first-year college members. (General Education Code(s): TA, C2.) THE STAFF

80C. Introduction to University Discourse: Writing for Environment and Society (I). F

Two-quarter seminar explores rhetorical principles and conventions of university discourse, providing intensive practice in analytical writing, critical reading, and speaking. Introduces students to environmental history, ethics, and policy options, and teaches them to analyze and interpret key literary texts. Students cannot receive credit for this course and course 80A or 80B. Enrollment restricted to first-year college members who have not satisfied the entry level writing requirement. Concurrent enrollment in course 81A is required. Enrollment limited to 20. (General Education Code(s): TA.) THE STAFF

80D. Introduction to University Discourse: Writing for Environment and Society (II). W

Two-quarter seminar explores rhetorical principles and conventions of university

discourse, providing intensive practice in analytical writing, critical reading, and speaking. Introduces students to environmental history, ethics, and policy options, and teaches them to analyze and interpret key literary texts.

Prerequisite(s): course 80C. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 20. (General Education Code(s): C1.) THE STAFF

81A. The Environment and Us (3 credits). F

Takes students through a wide range of approaches to environmental citizenship and provides conceptual and practical tools to explore alternatives. Students also participate in a hands-on sustainability project designed to connect academic learning with practical applications. Concurrent enrollment in course 80A or 80B or 80C is required. Enrollment restricted to first-year college members. R. LIPSCHUTZ

81B. Fundamentals of Environmental Science. *

Addresses major issues in physical and biological environmental sciences and provides tools to critically evaluate, debate, and make informed choices regarding one's own impact on the environment. Topics include: climate change, water resources, air pollution, evolution, ecology (from populations to ecosystems), and conservation. Quantitative problem solving is an integral part of this course. (Also offered as Earth Sciences 81B. Students cannot receive credit for both courses.) Prerequisite(s): courses 80A or 80B. Enrollment restricted to first-year and sophomore college members. (General Education Code(s): MF.) L. FOX, P. CHUANG

81C. Designing a Sustainable Future. *

Introduces key technological solutions to environmental problems; discusses their underlying principles; and examines their societal dimensions. Topics include: conventional and renewable energy; emerging technologies for transportation, energy efficiency clean water; planetary engineering; and lean manufacturing. (Also offered as Electrical Engineering 81C. Students cannot receive credit for both courses.)

Prerequisite(s): courses 80A or 80B. Enrollment restricted to first-year and sophomore college members. (General Education Code(s): SI.) L. PARSA

82. Environment and Society in Film (2 credits). S

Students write about and discuss a variety of films and articles about environment and society. Topics may include water, food systems, wilderness, wildlife, pollution, global warming, nuclear energy, conservation, and environmental activism. Enrollment restricted to college members. Enrollment limited to 42. N. SCHAEFER

90. Rachel Carson College Garden Internship (1 credit). F,W,S

One-credit internship in the Rachel Carson College Garden. Offers students of the college an opportunity to become involved in an experimental learning project focusing on application of concepts of sustainable agriculture. Enrollment restricted to college members. Enrollment limited to 10. May be repeated for credit. THE STAFF

93. Field Study. F,W,S
THE STAFF

99. Tutorial. F,W,S

May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Individual study for lower-

division students directed by a faculty member affiliated with the college. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

Upper-Division Courses

128. Advanced Peer Leadership Practicum (3 credits). *

Advanced practicum for the application of skills and theoretical knowledge studied in course 28. Uses many learning modes including readings, discussions, case studies, lectures, and group projects. Prerequisite(s): course 28. Enrollment by permission of instructor. Enrollment limited to 25. May be repeated for credit. THE STAFF

150A. Sustainability Praxis in the Built Environment (2 credits). F

Introduces the concepts, methods, and practices of research on sustainable energy, water, and food production and consumption. Resources surveying and assessment; building energy auditing; renewable energy systems; water supply, demand, and distribution. Intensive agroecology is conducted at campus sites. Enrollment limited to 25. K. BELL, R. LIPSCHUTZ

150B. Tools of the Trade for Sustainability Analysis (2 credits). W

Problem-solving in sustainability through basic STEM concepts, statistical tools, and analytical methods for engaging in advanced sustainability studies drawn from physics, chemistry, biology, ecology, engineering, electronics, sociology, economics, and public policy. Prerequisite(s): course 150A. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 25. K. BELL, R. LIPSCHUTZ

150C. Green Enterprise and Social Entrepreneurship (2

credits). S

Teaches students how to become green entrepreneurs, develop green enterprises, and incubate green projects, especially in connection with students' research and interests. Students develop business plans; solicit participation from mentors; and prepare and submit funding proposals. Prerequisite(s): courses 150A and 150B. K. BELL, R. LIPSCHUTZ

151A. Sustainability Praxis in the Built Environment. W

Introduces the concepts, methods, practices, and "tools of the trade" for conceptualizing and conducting research in sustainability praxis in the built environment, and the quantitative and analytical tools required to conduct such analysis and research. Prerequisite(s): Electrical Engineering 80S, or by permission of the instructor. (General Education Code(s): PE-T.) R. LIPSCHUTZ, THE STAFF

151B. Innovation and Professionalization for Sustainability Designers, Engineers, and Entrepreneurs. S

Teaches how to become innovators and entrepreneurs, develop projects and enterprises, and adopt professional practices. Focuses on sustainability for students in Sustainability Studies, especially in connection with students' research and interests. Prerequisite(s): Electrical Engineering 80S, or by permission of the instructor. R. LIPSCHUTZ, (F) THE STAFF

151C. Sustainability Laboratory Tools, Techniques, and Applications. F

Introduces the concepts, skills, and strategies fundamental to the successful development of sustainability-related projects appropriate to the Sustainability Lab. Provides access to functional and living laboratory

space, equipment, professional development, and technical training. Enrollment limited to 25. K. BELL, T. FAVALORO

152. IDEASS Laboratory Practicum (2 credits). F,W,S
Laboratory designed to advance sustainability education with real-world impact. Enables students to develop as change agents and to make valued contributions to sustainable-design projects that advance new technologies or strategies and bring about societal and environmental change.

Prerequisite(s): course 151C, or by permission of the instructor. Enrollment limited to 20. T. BALL, T. RETTENWENDER, K. BELL, R. LIPSCHUTZ

155. Rachel Carson College Sustainability Internship (2 credits). W,S

For students undertaking sustainability-oriented service-learning work in the college (college-related projects, community service organizations, or public agencies). Students are supervised by the instructor and project supervisor, and determine the content of their internship with the instructor and supervisor. Enrollment restricted to college members or by permission of instructor. May be repeated for credit. (General Education Code(s): PR-S.) S. WATROUS

160. Developing Leadership to Facilitate Environmental Education. W

Prepares students to facilitate working groups for "Sustainable Living" (courses 61/161) during the spring quarter. The skills

acquired during this course include: facilitation skills; problem-solving; syllabus planning; curriculum building; experiential learning techniques; leadership skills; cultural competence; and non-violent communication training. Enrollment by interview only. Enrollment restricted to sophomores, juniors, and seniors. Enrollment limited to 20. R. LIPSCHUTZ

161. Education for Sustainable Living Program. S

Analyzes sustainability and its application in daily life and on campus, involving collaboration between students, faculty, staff, administration, and the community. Guest lecturers, discussions, an optional UC-wide retreat, and essays allow engagement with aspects of ecological and social sustainability. Enrollment limited to 25. THE STAFF

162. Sustainability Internship Practicum. W,S

Introduces students to sustainable practices and state, local, and UC-wide policies through projects. Matches students with UCSC staff partners to work collaboratively on projects that integrate sustainability into aspects of campus operations. Supports students to develop the competencies necessary to become effective environmental professionals through learning models including hands-on work experience; professional skills training; guest lectures; reading, and discussion; and peer-to-peer advising. In addition to project deliverables, students complete

and present a portfolio of their work upon completion of their project. Enrollment limited to Sustainability Office Interns and by instructor permission; an interview, resume, and cover letter are required. Enrollment limited to 20. May be repeated for credit. (General Education Code(s): PR-S.) THE STAFF

193. Field Study. F,W,S
THE STAFF

193F. Field Study (2 credits). F,W,S

Provides for individual programs of study sponsored by the college and performed off campus. Must be sponsored by college faculty. Approval of the student's adviser and the academic preceptor is needed to enroll. May be repeated three times for credit. Students submit petition to sponsoring agency. THE STAFF

195. Senior Thesis. F,W,S
May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S
THE STAFF

199. Tutorial. F,W,S
May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S
Individual study for upper-division students directed by a faculty member affiliated with the college. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

RELIGIOUS STUDIES

2017-18 General Catalog

PROGRAM DESCRIPTION

Religious studies is not a separate program at UCSC, but students interested in the study of religion can select a degree plan from several majors and complement the requirements from a broad array of courses that focus on religion. Majors particularly appropriate for the study of religion at UCSC include the following: anthropology, history, history of art and visual culture, literature, and philosophy. The Department of History of Art and Visual Culture offers a [concentration in religion and visual culture](#).

Students interested in the study of religion may build an independent program of study by fulfilling the requirements of one of the majors listed above and, under the guidance of a member of the faculty, use

elective courses to develop a concentration of study appropriate to their interests and needs. One of the following faculty should be contacted to discuss a course of study in religion at UCSC: [Murray Baumgarten](#) (literature), [Raoul Birnbaum](#) (history of art and visual culture), [Nathaniel Deutsch](#) (history), [Triloki N. Pandey](#) (anthropology), [Annapurna Pandey](#) (anthropology), [Cynthia Polecristi](#) (history), and [Marilyn Westerkamp](#) (history).

Students seeking information on an individual major in religious studies should contact their college academic preceptor.

RUSSIAN

2017-18 General Catalog

Department of Languages and Applied Linguistics
 218 Cowell College
 (831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

The Department of Languages and Applied Linguistics offers beginning and intermediate level courses in Russian that provide a comprehensive introduction to the language and develop basic communicative skills (speaking, listening, reading, and writing) within the framework of contemporary Russian culture. Russian 1

is offered fall quarter; Russian 2, winter quarter; and Russian 3, spring quarter.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

RUSSIAN COURSES

LOWER-DIVISION COURSES

1. First-Year Russian. F

Aural comprehension, speaking, reading, and writing. Recitation and laboratory. Elementary sequence (1-2-3) begins in the fall quarter only. (Formerly Instruction in the Russian Language.) THE STAFF

2. First-Year Russian. W

Aural comprehension, speaking, reading, and writing. Recitation and laboratory. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (Formerly Instruction in the Russian Language.)

Prerequisite(s): course 1 or by consent of instructor. THE STAFF

3. First-Year Russian. S

Aural comprehension, speaking, reading, and writing. Recitation and laboratory. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. (Formerly Instruction in the Russian Language.)

Prerequisite(s): course 2 or by consent of instructor. THE STAFF

4. Second-Year Russian. *

Second-year courses designed to improve functional competence in speaking, listening, reading, and

writing by activating basic grammar covered in introductory courses. Grammatical explanations and exercises supplemented with short readings and films. Prerequisite(s): course 3 or by consent of instructor. (General Education Code(s): CC.) THE STAFF

6. Second-Year Russian. *

Second-year courses designed to improve functional competence in speaking, listening, reading, and writing by activating basic grammar covered in introductory courses. Grammatical explanations and exercises supplemented with short readings and films. (Formerly Intermediate Russian.)

Prerequisite(s): course 5 or by consent of instructor. (General Education Code(s): CC.) THE STAFF

80. Russian Culture Through Film.

Explores topics in Russia and the Russian-speaking world. Students view the country, its people, history, and traditions through the lens of cinematography. Conducted in English. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. THE STAFF

UPPER-DIVISION COURSES

<http://scicom.ucsc.edu>

PROGRAM DESCRIPTION

The Science Communication (SCIC) Program is a graduate certificate program composed of one track: science writing. Students combine a background in scientific research with a desire to communicate science to the general public. The program focuses on the practice of conceiving, reporting, writing, and editing articles on scientific, medical, environmental, and technological subjects for newspapers and magazines, online news outlets, universities and federal agencies, and special publications directed at general readers. The program in science writing offers intensive training in news, features, multimedia storytelling, profiles and essays, and investigative reporting. Graduates receive a certificate in science writing. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit [our web site](#).

GRADUATE CERTIFICATE IN SCIENCE WRITING

The program accepts 10 students per year. Enrollment in science writing classes is strictly limited to students enrolled in the program. The program consists of one academic year of full-time study, beginning in fall quarter, followed by a full-time summer internship lasting a minimum of 10 weeks. *Science Notes*, the UCSC online science magazine, is produced annually by the graduate students. Please see the current issue and an archive of past issues on our web site, <http://scicom.ucsc.edu/>.

The program consists of a required sequence of six courses covering the main skills of professional journalism: SCIC 201A, Reporting and Writing Science News; SCIC 201B: The Science Feature; SCIC 201C: Profile and Essay Writing; SCIC 201D: Policy and Investigative Reporting; SCIC 201E: Multimedia Science News; and SCIC 202: Writing and Editing Workshop. Assignments in each course are overseen by practicing

journalists and editors, and many course projects are published regionally and nationally. In addition, students must complete at least two part-time writing and reporting internships during the academic year at media organizations and news offices, through formal arrangements overseen by the Science Communication Program. The six required courses, plus two course-equivalent internships, constitute the eight courses (40 units) required for the graduate certificate. The final requirement is a full-time professional internship in science journalism or public outreach at a venue approved by the program director, for a minimum of 10 weeks.

ADMISSION TO THE SCIENCE WRITING GRADUATE PROGRAM

Students who have an intimate acquaintance with the theory and practice of science, an aptitude for writing, and a strong desire to communicate science to the general public are ideal candidates for the program. All applicants must have a prior degree in science or engineering (B.S./B.A., M.S., or Ph.D.) to be eligible. Other admission requirements are: full-time research experience of at least six months duration; official Graduate Record Exam (GRE) General Test scores; and at least three references from faculty or supervisors familiar with the applicant's research and communications skills. Applications and instructions can be found online through the UCSC Graduate Division web site at <http://graddiv.ucsc.edu>.

FURTHER INFORMATION

Details about the science writing graduate certificate program may be obtained from the Science Communication Program office, the web site, or by sending e-mail to scicom@ucsc.edu

SCIENCE COMMUNICATION AFFILIATED FACULTY AND PROFESSIONAL INTERESTS

Peter Aldhous, Lecturer in Science Writing
Science journalism, feature writing, magazine editing, investigative and policy reporting

Erika Check Hayden, Lecturer in Science Writing, Program Director
Reporting science news, biomedical reporting, social media

Robert Irion, Lecturer in Science Writing, Director Emeritus

Reporting science news

Martha Mendoza, Lecturer in Science Writing

Newswriting, investigative and policy reporting

Evelyn J. Strauss, Lecturer in Science Writing

Science and health journalism, science advocacy, essay and profile writing

SCIENCE COMMUNICATION COURSES

UPPER-DIVISION COURSES

106A. Introduction to Natural Science Illustration. F

Introduction to graphite, pen and ink, coquille, and scratchboard, along with training in essential skills for creating accurate and dynamic scientific illustrations. Attention to the demands of the printing process along with basics of proportion, perspective, and composition. Appropriate for students with a demonstrated interest in science illustration through previous course work in science and art, or through extracurricular activity in the field, or a strong desire to learn the skills of the field. Enrollment limited to 18. May be repeated for credit. THE STAFF

160. Introduction to Science Writing.*

A rigorous examination and practice of the skills involved in writing articles about science, health, technology, and the environment for the general public. Covers the essential elements of news writing and explanatory journalism, including developing a story idea, interviewing scientists, fact checking, composition, and editing of multiple drafts about scientific research. (Also offered as Biology: Ecology and Evolutionary 188. Students cannot receive credit for both courses.) Prerequisite(s): satisfaction of the Entry Level Writing and C1, C2 requirements. Enrollment restricted to junior and senior physical and biological sciences majors. Enrollment limited to 18. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. THE STAFF

199F. Tutorial (2 credits). F,W,S
Students submit petition to sponsoring agency. THE STAFF

GRADUATE COURSES

201A. Reporting and Writing Science News. F

A survey of the conventions of newspaper journalism and the special application of those conventions to scientific and technological subjects. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. E. HAYDEN, R. IRION

201B. The Science Feature. W

A survey of selected feature articles in the current national science magazines, with attention to strategy, level of complexity, explanation technique, and style. Writing assignments include a publishable feature article. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. E. HAYDEN

201C. Profile and Essay Writing. S

A survey of science and nature profiles and essays. Purpose, content, form, and style are considered. Writing assignments include original profiles and essays on current issues in science, technology, and society. (Formerly The Science Essay.) Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. E. STRAUSS

201D. Policy and Investigative Reporting. S

Rigorous examination of techniques for reporting topics where science and technology meet public policy and society. Covers essential skills of investigative reporting, including obtaining documents through

Public Records Act requests, using online reporting resources, and writing about ethical and legal issues. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. P. ALDHOUS, M. MENDOZA

201E. Multimedia Science News. S

Introduces web-media tools for reporting science stories and enhancing coverage for broad audiences, including video packages, narrated slideshows, podcasts, blogs, and still photography. Laboratory sections address skills for handling equipment and online editing. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. P. ALDHOUS, THE STAFF

202. Writing and Editing Workshop. F

Theory and practice of writing and editing articles on scientific, medical, environmental, and technological subjects for newspapers, magazines, and special publications directed at non-technical readers. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

A media internship is completed with faculty tutorial assistance, to satisfy a need for the student when a regular course is not available. Enrollment restricted to graduate students formally accepted into the writing track of the Science Communication Program. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

SCIENCE EDUCATION

2017-18 General Catalog

211 Interdisciplinary Sciences Building
(831) 459-3744
<http://physics.ucsc.edu>

PROGRAM DESCRIPTION

Science seeks to explore and understand the structure and behavior of the natural world through observable physical evidence. The physical sciences, life sciences, and Earth and space sciences each focus on distinct aspects of the natural world. The physical sciences examine and explain matter, motion, energy, and waves. The life sciences examine and explain individual life forms, from molecules to organisms; the interaction of organisms and the physical work within ecosystems; heredity; and biological evolution. The Earth and space sciences help us understand how Earth fits into the universe, the integrated physical and biological systems that influence Earth, and how human activity influences Earth. Although the emphasis and core ideas in these three disciplines are distinct, they all draw on many of the same concepts, such as patterns, scale, cycles and conservation of energy and matter, and many of the same scientific practices, including observation, data analysis and interpretation, and evidence-based argumentation.

Twenty-first century science educators must be able to help their students develop and apply a scientific perspective to a wide range of information. The science education major is designed to prepare future secondary science teachers with a broad background across the sciences—the physical sciences, life sciences, Earth sciences, and space sciences—with advanced specialization in two fields of science (chosen from physics, chemistry, biology, and Earth sciences). The major also integrates education coursework and middle and high school classroom internships designed to develop skills and knowledge relevant to teaching K-12 students in the state of California. Thus the major provides specialized science content preparation, educational theory, and educational practice to produce strong candidates for teacher certification programs.

Cal Teach is one home base for all students in this major, no matter the choices for specialization. Cal Teach provides the required sequence of middle and high school-based internships and associated courses, informally known as CaT1, CaT2, and CaT3, in partnership with schools throughout Santa Cruz County. CaT interns visit an assigned middle or high school science class twice a week (2-3 hours total/week) to observe and support instruction. Each internship placement depends on school schedules and the intern's schedule, interests, and academic preparation. Over the sequence of three internships,

each science education major will be exposed to a variety of student ages (e.g., middle school, early high school, late high school), school characteristics (size, student demographics), courses (e.g., 7th grade science, 9th grade integrated science, college prep biology), and host teachers. The CaT seminar courses provide the framework for science education majors to develop classroom-management strategies, practice communicating scientific concepts for non-specialists (children), and design lessons to teach the science standards currently used in K-12 education. Cal Teach students get to know one another through the small CaT courses that support the internships, and they have use of a student lounge, access to advising for teaching careers, opportunities for professional development, and financial support for expenses specific to prospective science teachers.

Science education majors are also encouraged to gain experience in laboratory and/or field research, and to pursue upper-division coursework emphasizing their own particular areas of scientific interest. Faculty instructors of introductory coursework and Cal Teach staff can provide guidance in selecting upper-division courses and pursuing lab research opportunities. Departmental advising is provided by the Physics Department.

UNDERGRADUATE PROGRAM

UNDERGRADUATE MAJOR

The science education major provides a broad introduction to the major fields of science, specialized coursework in two selected fields, and educational theory and practical work designed for future science teachers. The program is designed to prepare outstanding candidates to enter teaching credential programs after completion. Students earn a bachelor of science (B.S.) degree. They do not earn a teaching credential; this must be completed later.

There are six combinations of specialization possible: physics/chemistry, physics/biology, physics/Earth and planetary sciences, chemistry/biology, chemistry/Earth and planetary sciences, and biology/Earth and planetary sciences. All six pathways include a set of core courses in science and mathematics, a sequence of three Cal Teach seminar courses with required school-based internships, and two upper-division education

Science Education

courses. In addition, the student has to take courses in each of the two specializations chosen.

PROGRAM LEARNING OUTCOMES

Learning outcomes summarize the most important knowledge, skills, abilities, and attitudes that students are expected to develop over the course of their studies. The program learning outcomes communicate the faculty's expectations to students, provide a framework for faculty evaluation of the curriculum based on empirical data, and help improve and measure the impact of implemented changes:

- Students will demonstrate knowledge and an understanding of scientific connections across the broad spectrum of the sciences.
- Students will demonstrate advanced knowledge in two areas of specialization.
- Students will show that they have learned laboratory skills in multiple scientific fields, enabling them to take measurements in a laboratory and in the field and analyze the measurements to draw valid conclusions.
- Students will communicate scientific concepts effectively and accurately, both orally and in writing, for both college-level and secondary audiences
- Students will apply strategies to address a diversity of K-12 learners' needs.

ADVISING AND PREPARATION FOR THE MAJOR

Because of the broad based nature of the major, with introductory courses in physics, chemistry and mathematics, there is considerable flexibility in what courses are taken in the first two years, as long as enough courses required for the major are completed. However, it is simplest to follow the appropriate major planner given below; students should consult with the physics undergraduate advisor if they want to do something different.

Students should complete at least two courses in the calculus sequence (Mathematics 11A and B or Mathematics 19A and B) in the first year; Mathematics 19A and B is required for students who choose physics as one of their specializations.

LETTER GRADE POLICY

All courses used to satisfy any of the major requirements must be taken for a letter grade.

TRANSFER STUDENTS

The Physics Department welcomes applications from community college students who have completed the necessary coursework to transfer to our program.

Community college students must have completed the articulated equivalents of a minimum of 10, ideally 12, of the courses required for the major (in the pathway they wish to pursue) before coming to UCSC in order to graduate in a timely manner.

DECLARATION OF THE MAJOR

Students may submit a petition to declare at any time before enrolling for their third year (or equivalent). Junior transfer students must declare no later than their second term of residency. Students should meet with the Physics Department undergraduate advisor and prepare an academic plan when they declare the major.

REQUIREMENTS OF THE MAJOR

LOWER-DIVISION REQUIREMENTS

- MATH 19A or 11A, 19B or 11B, 23A or 22. (If a student wants to take MATH 23A, or chooses physics as one of their fields, MATH 19A and B must be taken instead of MATH 11A and B.)
- PHYS 5A/L or 6A/L, 5B/M or 6B/M, 5C/N or 6C/N
- CHEM 1A, 1B/M, 1C/N
- EART 5/L or 10/L or 20/L
- BIOL 20A, BIOE 20B, BIOE 20C
- ASTR 2
- AMS 5 or 7/L
- EDUC 50C*

UPPER-DIVISION REQUIREMENTS

- EART 110A/L
- EDUC 100A* or 100C*, 185L*, 185C, 177 or 128 or 140 or 181

ELECTIVES

- All the courses from any two of the following fields must be completed:
 - PHYS 5D, 102, and one additional 5-credit, upper-division physics course
 - CHEM 8A/L, 8B/M, and one additional 5-credit, upper-division chemistry course (CHEM 163B is strongly recommended for students in Chemistry/Physics; Chemistry 103 for students in Chemistry/Biology; CHEM 163A for students in Chemistry/Earth Sciences)
 - BIOL 105, BIOE 107, and BIOE 109
 - EART 110B, OCEA 90 (or alternative, as listed with the student study plans

Science Education

below), and one additional 5-credit, upper-division EART course

- One additional 5-credit, upper-division elective course from either of the two fields chosen by the student

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

The disciplinary communication requirement can be fulfilled by one of these options:

- BIOE 107 and BIOE 109, or any of the courses identified in the program statement for Ecology and Evolutionary Biology as fulfilling their DC requirement
- EDUC 185L and one upper division EART elective from the Earth and planetary sciences DC list.

COMPREHENSIVE REQUIREMENT

The senior capstone requirement can be fulfilled in one of the following ways

- By doing an independent project through the Earth and Planetary Sciences Department, which applies knowledge of earth and planetary sciences to K-12 curriculum development (EART 194F).
- By writing an essay based on literature search (CHEM 194) or original experimental or theoretical research in chemistry (CHEM 195).
- By doing a senior thesis in physics or biology under the supervision of a faculty member from the relevant department (Physics, Ecology and Evolutionary Biology, or Molecular, Cell, and Developmental Biology) who is willing to supervise their work.
- By obtaining a score in the MCAT or the GRE biology subject test or GRE biochemistry, cell and molecular biology subject test that is above the 50th percentile.
- By passing any one of the courses listed under [Biology: Completing the Major](#).

HONORS

Honors in the major are awarded to graduating students whose academic performance demonstrates excellence at a grade point average (GPA) of 3.5 or above. Highest honors are awarded to those students whose performance demonstrates the highest level of excellence and results in a GPA of 3.8 or above. The program faculty reserve the right to withhold honors

and highest honors based on other criteria such as an incident of academic dishonesty.

ACADEMIC PLANNERS

Because of the six possible pathways for this major, there are six first-year major planners and six junior transfer planners given below. Because there are very few prerequisites connecting courses in different departments (except Mathematics and Physics), it may be possible to construct alternatives to the major planners given here.

PHYSICS/CHEMISTRY PLANNERS

Four-Year Planner

	Fall	Winter	Spring
1st Year	MATH 19A CHEM 1A	MATH 19B CHEM 1B/M	ASTR 2 CHEM 1C/N

SOCIAL DOCUMENTATION

2017-18 General Catalog

101 Communications Building
(831) 459-3445

socdoc@ucsc.edu

<http://film.ucsc.edu/socdoc>

PROGRAM DESCRIPTION

The Master's of Fine Arts (M.F.A.) in Social Documentation (SocDoc) is an innovative and unique interdisciplinary two-year program in the Film and Digital Media Department (FDM) that trains students to critically analyze, frame and reflect upon contemporary social issues through the art of documentary media. SocDoc M.F.A. students produce documentary video, photography and other media throughout the program culminating in well-researched, socially engaged and aesthetically crafted thesis project. In a rapidly expanding and changing field, the Social Documentation M.F.A. invites students to investigate critical social issues through an interdisciplinary approach that fuses arts based, social science and humanities research methods to the art of documentary media and storytelling. We don't just tell a story; our students go beyond the story to place individuals in context and struggles in history, deepening the public's understanding of the societies in which we live and with which we connect. Documentaries produced in the program have called attention to a range of under-recognized communities, problems, and structural inadequacies.

Upon completion of the program, Master's of Fine Arts graduates will be qualified to enter a range of documentary-related professions. Degree holders may work within industries such as public broadcasting, as independent producers and artists, at archives or museums, or within organizations committed to exploring the relationships between media and social change. As a terminal degree, M.F.A. degree holders are also qualified to teach arts, documentary and/or digital media at institutions of higher learning.

Objectives

The Social Documentation M.F.A. program aims to train graduate students in critical thinking, social science analysis, arts-based approaches, and ethical standards for engaging with and documenting underrepresented communities. Additionally, students receive training in video production, animation and new media. In supplement to this broad curriculum, the FDM Department offers one-to-two-day master classes in audio and visual production taught by professionals in the field. The program's adviser structure requires M.F.A. students

to work with faculty from FDM and across the UCSC campus, providing students with a broad range of research approaches and aesthetic models for documentary practice. For example, a student may take courses in anthropology, feminist studies, history, literature and sociology wherein they learn social science and humanities research methodologies related to their topic of study. And a student will take a variety of required and elective courses within the Film and Digital Media Department where they will engage with the history and theory of documentary representations and receive technical instruction and professionalization in a variety of production and post-production techniques.

The core curriculum concentrates on critical approaches to the production of documentary media and on the role of documentary in framing and effecting social change. M.F.A. candidates may work in film or video; in photography (a book, a photo essay, gallery exhibition and/or time-based media); animation and multimedia; audio productions; and/or transmedia and web-platform projects. Graduates are expected to generate work that will have an impact on the world outside the academy and in the public realm. The M.F.A. thesis project, which constitutes the culmination of the two years of study, is to be given a public exhibition and becomes the springboard for continuing work after graduation.

Requirements

The Social Documentation M.F.A. program offers a required and foundational core curriculum in the theory, history and practice of social documentary. Students work with three faculty advisers to design an individualized course of study that supplements the core curriculum with classes that support the student's specific project, both in terms of content and technical production. Toward that end, students take elective courses in their area of interest in the social sciences and/or humanities, write and develop a written thesis, and then create a final documentary media project.

A total of 72 credits is required to complete the SocDoc M.F.A. Required courses include seminars on social documentary history; practice, theory, and

Social Documentation

social science research; and technical instruction on production and post-production processes and techniques. Full-time enrollment is required.

Core Courses

First Year (30 credits):

SOCD 200, Approaches to Social Documentation (fall)

SOCD 201A, Introduction to Documentary Field Production and Editing (fall)

SOCD 201B, Advanced Documentary Field Production and Editing (spring)

SOCD 201C, Project Planning for the Social Documentary (spring)

SOCD 202, Multiple Platform Social Documentary Production (winter)

SOCD 203, Documentary Research Methods and Social Science Representation (winter)

Second Year (30 credits):

SOCD 204, Ethnographic Writing and Social Documentation (fall)

SOCD 293, Studies and Practice for Social Documentation, Filmmaking, and New Media (winter)

SOCD 294A, Production/ Analysis/ Editing (fall)

SOCD 294B, Production/ Analysis/ Editing (winter)

SOCD 294C, Production/ Analysis/ Editing (spring)

SOCD 295, Project Completion (spring)

Additional Requirements

Electives (12 credits)

In addition to the required courses above, 12 credits of electives (offered by departments) are identified individually in consultation with the director of Graduate Studies and faculty advisers. SocDoc students choose elective courses based on their research needs and interests and will be advised to take graduate elective courses offered by their thesis advisers. Students may also elect to take independent studies with their advisers as a form of concentrated study in a specialized area.

Advancing to Candidacy

To satisfy requirements for the M.F.A. degree, a student must complete and pass all of the required first-year courses and electives, assemble a committee of three advisers, develop a thesis proposal and successfully pass a qualifying examination (QE). The thesis proposal serves as the basis for the QE and includes: a description of the subject to be documented, a treatment or narrative outline, a work plan including budget and timeline, and a preliminary annotated bibliography and filmography/videography of related works.

Approval of the written proposal and satisfactory completion of the qualifying examination is a prerequisite for advancement to further coursework or fieldwork on the master's project. The successful pre-qualifying examination proposal should address the following questions:

- What is the story to be told?
- What is the stylistic approach?
- What is the social analysis that will guide, inform, and underwrite the story?
- How will that analysis be enacted in the documentary?
- What kinds of evidence will be generated to persuade the audience that the analysis is accurate?
- How will the documentary use social analysis to make the personal political, and how will it move from analysis to critique?

The second year is focused on completion of the final documentary project, required for the M.F.A. degree. This project must reflect original research and creative activity while demonstrating a command of the field or topic of study. With an understanding of budgetary, equipment, and time limitations, students' projects should reflect a level of quality appropriate for publication, exhibition, or broadcast (including digital/web-cast).

Typically, the expectation in each medium is as follows:

Documentary Film/Video. One 20-minute documentary suitable for professional distribution and public exhibition.

Documentary Photography. One major exhibition on or off campus with a minimum of 10-20 images with text, and/or a 10-minute multimedia presentation and/or a publication-ready book of photographs and essay(s).

Documentary Animation. One complete documentary animation suitable for professional distribution and public exhibition.

Transmedia Projects. One complete documentary transmedia project suitable for professional distribution and public exhibition.

Audio Documentary/Sound Recording. One 20-30-minute documentary suitable for radio broadcast or museum/public installation.

The final M.F.A. critique consists of a presentation and discussion of the student's thesis work with their three advisers. In addition, every project must be accompanied by a written M.F.A. thesis describing its relationship to its field and must document its research via field notes, bibliographies, archival searches, filmographies, videographies, and

Social Documentation

photography searches. Final deliverables also include a basic website for the thesis project along with production stills, a press kit, and a draft civic engagement campaign. A public presentation of the project will complete graduation requirements. All materials will be filed in digital form and archived for future reference and access. All final projects, in every medium, must be submitted in the formats specified by the director of Graduate Studies.

Designated Emphasis in Social Documentation

UCSC graduate students enrolled in doctoral programs may obtain a designated emphasis in social documentation as part of their Ph.D. or Master's degree. Students must meet the following requirements in order to obtain the designated emphasis:

- Secure approval from a member of the FDM faculty to serve as the adviser for the designated emphasis.
- Have one faculty member from the FDM faculty serve on the student's qualifying

examination committee or dissertation committee.

- Submit a significant piece of documentary work that demonstrates competence in the field of social documentation. This project could consist of a digital video or photography project, or possibly an audio or web-based piece, focused on the student's area of study and thus constituting a parallel investigation into the subject of the Ph.D. or Master's dissertation. In certain circumstances, a documentary project on a subject other than the dissertation could be approved, but generally that would not be the case. The submitted project must meet the approval of the student's FDM faculty adviser.
- Successfully complete four graduate courses within the Social Documentation Program curriculum. The courses must be pre-approved by the student's FDM faculty adviser. In most cases, these courses would include 200, 202, and two others, but may be adapted to fit the needs of particular students.

SOCIAL DOCUMENTATION FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Lawrence Andrews

Documentary, sound, animation, installation

Sharon Daniel

New media and interactive documentary; social, economic, environmental and criminal justice; socially engaged art, community-based public art in information and communications environments; social and political aspects of information design; documentary forms and ethics

Eli E. Hollander, Professor Emeritus

Jonathan Kahana

Documentary film and media, film and politics, American film history, essay film, cultural and social theory; media publics, arts of historical re-enactment, war and cultural memory, audio culture, disciplines of listening

Charles L. Lord, Professor Emeritus

Rick Prelinger

Critical archival studies; community archives; personal and institutional recordkeeping; access to the cultural record; media and social change; amateur and home movies; sponsored film and "useful cinema;" participatory documentary; digital scholarship; cinema and public history

B. Ruby Rich

Specializes in documentary film and video, new queer cinema, feminist film history, Latin American and Latina/o cinema and other global/regional cinemas,

U.S. independent film and video, the essay film, film festival studies, and the making/marketing of foreign films in the U.S.; editor of "Film Quarterly" advising on writing, editing, and journal submission

Warren Sack

Software design and media theory

Shelley Stamp

Film history, theory, and criticism; silent cinema; early Hollywood; women's filmmaking; film censorship; histories of moviegoing; feminist approaches to cinema

Gustavo Vazquez

Film and video production, documentary and experimental cross-cultural experiences in film

ASSOCIATE PROFESSOR

Irene Gustafson

Documentary theory and practice, experimental film/video, production design, gender and queer studies

L.S. Kim

Television history and theory, racial discourse, feminist criticism, Asian-American cultural theory and production, industrial practices and social change in both mainstream Hollywood and alternative media

John Jota Leños

Documentary animation, social documentation, critical ethnic studies, social art practice, community arts, Chicana/o art and culture, new media, critical

Social Documentation

media studies, cultural studies, documentary photography, installation art, public art and interventionist art practice

Peter Limbrick

International cinemas, especially Arab and Middle Eastern cinemas and Australasian cinemas; postcolonial theories and settler colonialism; theories of globalization and transnationalism; intersections of race, gender, and sexuality; queer theory; film and video history and historiography

Irene Lusztig

Film and video production, experimental ethnography and essayistic nonfiction; representations of historical memory; archives, propaganda and training films; feminist film practices; medical film; autobiographical filmmaking; interactive documentary; editing

Margaret Morse, Professor Emerita

Marcia Ochoa (Feminist Studies)

Gender and sexuality, race and ethnicity, Latina/o studies, media and cultural studies, ethnography of media, feminism, queer theory, geography, multimedia production, graphic design, colonialism and modernity, Latin American studies—Colombia and Venezuela, social documentation

Yiman Wang

Theory of difference, film history and theory, colonial/semi-colonial/postcolonial/postsocialist modes of media production and exchange, border-crossing film remakes, silent cinema, translation theory and cinema, acting theory/practice and ethnic star studies with focus on Anna May Wong, transnational connections and ramifications of Chinese cinema and documentary, fan culture, East Asian cinemas, critical animal studies and moving images

ASSISTANT PROFESSOR

Anna Friz

Sound studies and production, transmission art, media art installation and performance, alternative media (especially radio) history, methodologies for research-creation, feminist and critical theories of technology

Jennifer Horne

Media citizenship; non-theatrical film and film exhibition; archives and technologies of information; film preservation; mass media and humanitarianism; cinema and media history and historiography; institutions, disciplinarity, and the politics of knowledge; feminist theory

Jennifer Maytorena Taylor

Social documentation, Latino and Latin American communities, public education, popular culture, religion, incarceration and justice, urban and

community development, collaborative practices in journalism and production, transmedia

Soraya Murray

Contemporary visual culture including: new media art, projected arts, photography, film, and electronic games; theories of art and globalization; representations of otherness; cultural studies

Susana Ruiz

Game and transmedia design, games as expressions of activism and art, animation; participatory culture, social art practice, non-fiction storytelling, theory/practice hybridity, animation, Theatre of the Oppressed, critical and liberatory pedagogy, expanded documentary, interaction design, worldbuilding

PROFESSOR

David Brundage (History)

American immigration history, with particular focus on the Irish in America and on transnational immigrant politics; U.S. labor and social history; modern Irish history

Jennifer González (History of Art and Visual Culture)

Contemporary theories of visual culture, semiotics, critical museum studies, photography, public and activist art in the U.S.

Herman S. Gray (Sociology)

Cultural studies, media and television studies, black cultural politics, social theory

Miriam Greenberg (Sociology)

Urban sociology, media studies, cultural studies, political economy, globalization, and urban political ecology

Lisbeth Haas (History and Feminist Studies)

U.S.-Mexico borderlands and border studies, Chicano and Native American history, visual culture in the colonial Americas; California; historical memory, theory, and historical methodology

Craig W. Haney (Psychology)

Applications of social psychological principles to legal settings, assessment of the psychological effects of living and working in institutional environments, social contextual origins of violence, development of alternative legal and institutional forms

Gail B. Hershatter, Distinguished Professor (History)

Modern Chinese social and cultural history; labor history; gender history, history of sexuality; feminist theory, history, memory, and nostalgia

Lourdes Martinez-Echazabal (Latin American and Latino Studies)

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; Latin

Social Documentation

American critical race theory; literatures of Cuba and the Cuban diaspora, cinema and social change in Cuba; gender and dissident sexualities in Latin American literature and cinema; queer theory in/and Latin America

Olga Nájera-Ramírez, Professor Emerita

Eric C. Porter (History and History of Consciousness)

Black cultural and intellectual history; US cultural history and cultural studies; critical race and ethnic studies; popular music and jazz studies; black radicalism; urban studies

Jennifer Reardon (Sociology)

Science studies; sociology of science, technology, and medicine; feminist theory; race/ethnicity/gender/sexuality/class; biology and society

Lisa Rofel (Anthropology)

Critical theory, anthropology of modernity, popular/public culture, gender and sexuality, queer theory, transnational capitalism, postcolonial and transnational feminism, histories of empires, settler colonialisms, China

Nancy Stoller, Professor Emerita

Dana Y. Takagi (Sociology)

Social inequality, affect, religion, race, quantitative analysis

Karen Tei Yamashita (Literature)

History and anthropology of Japanese immigration to Brazil; Asian American literature; modern fiction; playwriting

Lewis Watts, Professor Emeritus

David T. Wellman, Professor Emeritus

ASSOCIATE PROFESSOR

David Henry Anthony III (History)

African and African American history, art, music, literature, and cinema; eastern and southern Africa; African vernacular expression; Black Atlantic; Indian Ocean world; African and African American linkages; Islamic civilization; African diaspora studies; African Sufism; African religion; missiology, liberation theology; world history

Felicity Amaya Schaeffer (Feminist Studies)

Transnational feminisms; sexuality and migration, technology and race; intimacy and globalization; Latin American/Latino studies; border studies; Chicana/o studies; biometrics and security studies

SOCIAL DOCUMENTATION COURSES

GRADUATE COURSES

200. Approaches to Social Documentation. F

Comprehensive review and analysis of documentary strategies aimed at societal critique and social change, evaluating changes in argument, evidence, and process over development of the discipline. Enrollment restricted to graduate students. Enrollment limited to 15. B. RICH

201A. Introduction to Documentary Field Production and Editing. F

Designed to provide supplemental instruction on specific topical and/or technical matters related to social documentation. Topics include technical standards and innovations within the field of social documentation, documentary subjects, location production, and/or the work of individual professional documentarians. (Formerly course 290, Special Topics in Social Documentation.) Enrollment restricted to social documentation graduate students.

Enrollment limited to 15. May be repeated for credit. J. TAYLOR

201B. Advanced Documentary Field Production and Editing. S

Intensive directing and producing course that covers conceptualization, research, treatment and proposal writing, interview technique, camera, editing, production, and distribution. (Formerly course 280, Video Production of the Social Documentary.) Enrollment restricted to social documentation graduate students. Open to qualified undergraduates with permission of instructor. Enrollment limited to 15. I. LUSZTIG

201C. Project Planning for the Social Documentary. S

Workshop seminar in project planning focusing on the form and content of the documentary project; research and preproduction; technical, financial, and logistical plans; and coordination with subjects and resources. (Formerly course 270.) Enrollment restricted to social documentation graduate

students. Enrollment limited to 15. W. HIBBERT-JONES

202. Multiple-Platform Social Documentary Production. W

Introduction to social documentary genres including video, photography, new media and other mediums, which addresses social-scientific research and methodology in the context of these processes. (Formerly Practice of Social Documentary.) Enrollment restricted to social documentation graduate students. Enrollment limited to 15. J. LEANOS

203. Documentary Research Methods and Social Science Representation. W

Designed to acquaint students with how social science research represents social reality and how social documentarians represent social reality. Designed to encourage comparison among different modes of social science research and between social science and different modes of social documentation representations of social life. (Formerly course 208, Social Science Research and Social

Social Documentation

Representation.) Enrollment restricted to graduate students. Enrollment limited to 15. M. MOODIE

204. Ethnographic Writing and Social Documentation. * _

Graduate-level advanced seminar explores ways that seeing, hearing, and knowing are influenced by culture, power, race, and other factors. Readings emphasize how documentary subjects are constituted and known, addressing questions of epistemology, social constructivism, objectivity, and method. (Formerly Ways of Seeing and Hearing.) (Also offered as Feminist Studies 204. Students cannot receive credit for both courses.) Enrollment restricted to graduate students. THE STAFF

292. Special Topics (2 credits). * _

Provides supplemental instruction on specific topical and/or technical matters related to social documentation. Topics include technical standards, artistic strategies, and innovations within the field of social documentation, documentary subjects, and/or work of individual professional documentarians. Enrollment restricted to graduate students. Enrollment limited to 15. May be repeated for credit. THE STAFF

293. Studies and Practice for Social Documentation, Filmmaking, and New Media. * _

This thematic, graduate-level, hybrid, production/critical studies course provides opportunities to learn specific technical skills while

engaging in the analysis and critical interpretations of cinema, social documentary, animation, art, television, and new media.

Technical topics may include animation; motion graphics; interactive web media; and installation, editing, cinematography, and sound. (Also offered as Film and Digital Media 233. Students cannot receive credit for both courses.) Enrollment restricted to graduate students in social documentation. Graduate students from other programs may enroll by permission of the instructor. Enrollment limited to 15. J. LEANOS

294A.

Production/Analysis/Editing. F
Workshop seminar oriented toward actual fieldwork, production, and preparation for editing of the thesis project in the student's chosen genre. Techniques of collection and recording, analysis, preparation, and editing taught. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. L. ANDREWS

294B.

Production/Analysis/Editing. W
Workshop seminar oriented toward the editing and creative assemblage of the thesis project in the student's chosen genre. Techniques of preparation, exhibition, and editing taught. Enrollment restricted to social documentation graduate students. Enrollment limited to 15. B. RICH

294C.

Production/Analysis/Editing. S

Social documentation students in the final phase of completing their master's thesis receive guidance in shaping their projects, receive feedback, and are taught key elements of structure and narrative at a time when the demand for clarity and social documentation exposition is crucial.

Prerequisite(s): courses 294A and 294B. Enrollment restricted to social documentation graduate students. J. TAYLOR

295. Project Completion. F,W,S

Individualized study for second-year graduate students working on and completing their final projects. Limited to students enrolled in the social documentation program during their final quarter of study. May be repeated for credit. THE STAFF

297. Independent Study. F,W,S

Study either related to a course being taken or a totally independent study. Enrollment restricted to graduate students. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

297F. Independent Study (2 credits). F,W,S

Students submit petition to course-sponsoring agency. Enrollment restricted to graduate students. May be repeated for credit. THE STAFF

Not offered in 2017-18

Revised: 09/01/17

SOCIAL SCIENCES

2017-18 General Catalog

460 Humanities and Social Sciences Building
(831) 459-3212
<http://socialsciences.ucsc.edu/>

PROGRAM DESCRIPTION

The Division of Social Sciences focuses on the study of human relationships and society. As global economic and political changes transform the world around us, social scientists help us meet the challenges and opportunities of the 21st century.

Our eight departments offer more than 30 undergraduate and graduate degree programs, including many that are interdisciplinary collaborations. Our faculty members conduct leading-edge research in their fields, frequently working with

students in research clusters linking departments to our research centers. We also offer extensive opportunities for experiential learning through field studies.

Our research, teaching, and state-of-the-art facilities provide students with a comprehensive and rigorous education that prepares them for productive careers and further academic pursuits. For more information on the division, see our web site at: <http://socialsciences.ucsc.edu/>

SOCIAL SCIENCES FACULTY AND PROFESSIONAL INTERESTS

Julie Guthman, Professor of Social Sciences

California agriculture, sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of food and health, political ecology, race and food, epigenetics and environmental health, critical human geography

Robert L. Meister, Professor of Political and Social Thought and History of Consciousness

Critical human rights theory, moral philosophy, political jurisprudence, political theology, political economy, psychoanalysis, Marxian theory, financialization, 21st

century capitalism, institutional analysis, historical justice, and antidiscrimination law

Mary Beth Pudup, Associate Professor of Social Sciences

Regional studies, economic justice, urban and regional political economy, historical geography of the U.S., public policy, community gardening and urban agriculture, non-profit sector

Revised: 09/01/17

SOCIOLOGY

2017-18 General Catalog

226 Rachel Carson College

(831) 459-4306

<http://sociology.ucsc.edu>

PROGRAM DESCRIPTION

Sociology is the study of social interactions among individuals and social groups. More specifically, sociologists examine the cultural, ideological, economic and political contexts of human action including the processes whereby social institutions are created, maintained, and transformed.

Sociology was born as an intellectual response to the democratic and industrial revolutions that ushered in the modern era. As such, it considers how society is organized in relationship to a vision of a just, free, and equal society—a vision that may require fundamental social change. Developing an understanding of both social change and social justice as part of the sociological tradition is one of the teaching goals of sociologists at UCSC. In the process, we expect to develop in students an appreciation for the craft of social science: disciplined inquiry, observation, and research as part of informed global citizenship.

- Community-engaged research
- Citizenship
- Children, youth, and families
- Cultural politics and the politicization of culture
- The cultural politics of sex work
- Critical ethnography
- Drugs in society
- Environmental sociology
- Globalization and international development
- Global inequality, crime, and deviance
- Health disparities
- Identities and identity changes
- International law
- The intersection of class, race, gender and sexualities
- Labor studies
- Latino/a communities
- Law and Society
- Medicine and technology

- Media studies
- Migration
- Political economy
- Popular culture and cultural studies
- Queer studies
- Race and racisms
- Social movements
- Sociology of emotion and affect
- Sustainability
- Urban studies

Sociology faculty use a number of approaches and methods, including ethnography, comparative and historical analysis, conversational and discourse analysis, qualitative interviews, and survey research.

UNDERGRADUATE PROGRAM

Because of the interdisciplinary emphasis among sociology faculty, undergraduates find the department amenable for double majors and minors, and non-majors find many sociology courses of interest. In recent years, students have conducted independent studies and written senior theses on a variety of subjects including the social construction of gender, emerging professions in health care, utopian communities, human development in Costa Rica, mass communication, the social effects of war, family violence, sustainable development in Bolivia, sanitation in Kenya and Haiti, street children in India, African soccer players in Europe, gay and lesbian families, Latino educational success, and cross-cultural family welfare policies.

The sociology major at UCSC is a rigorous program of study that retains enough flexibility to accommodate students with diverse career goals and plans. It ensures that all students are trained in the main theoretical and methodological traditions of sociology, yet permits considerable variation in students' own areas of specialization. The major provides the necessary intellectual foundation for students who are considering graduate studies in sociology and related social sciences. It also can be used as preparation for careers in fields as diverse as law, social work, management, environmental

Sociology

planning, public service, education, health services, journalism, and counseling. Finally, the sociology major can provide a general liberal education for undergraduates interested in the study of contemporary society and social problems.

Sponsored by Sociology at UCSC is Global Information and Social Enterprise Studies (GISES), a rigorous and innovative program developed in collaboration with the Everett Program. It aspires to create a new generation of well-trained advocates for social justice and sustainable development, who use the tools of information technology and social enterprise to solve global problems. Practically, student projects work in solidarity with local and global organizations to democratize globalization, deepen social justice, reduce poverty, support digital education, and advance the transition to a sustainable world. Everett combines social entrepreneurship with near-peer trainings in information technologies with the aim that students learn how to be innovative and creative problem solvers in order to increase the informational, communication and organizational capacity of community and non-governmental organizations (NGOs). The GISES program provides an excellent foundation for students pursuing careers in non-profit management, social advocacy, sustainable businesses and technology. Depending on a student's major, there are two ways to enter the GISES program. If a student is a sociology major and wishes to participate in GISES, she or he should declare the sociology with concentration in GISES intensive major. A student who majors in any field other than sociology should declare GISES as a minor.

PROGRAM LEARNING OUTCOMES

Students graduating with a B.A. degree in sociology will:

- Demonstrate critical thinking and critical citizenship skills intended to promote social justice through the ability to analyze and evaluate social, political, and/or cultural arguments.
- Demonstrate sociological understandings of phenomena, for example, how individual biographies are shaped by social structures, social institutions, cultural practices, and multiple axes of difference and/or inequality.
- Formulate effective and convincing written and/or oral arguments.
- Demonstrate an understanding of, and the ability to use, several of the major classical and/or contemporary perspectives in social theory.
- Demonstrate an understanding of several of the major social science research methodologies.

- Demonstrate knowledge of some of the key substantive areas within the field of sociology.

DECLARATION OF THE GENERAL SOCIOLOGY MAJOR, SOCIOLOGY WITH A CONCENTRATION IN GISES INTENSIVE MAJOR, COMBINED SOCIOLOGY/LALS MAJOR, OR A GISES MINOR

The Sociology Department offers three undergraduate majors: 1) a general sociology major; 2) a sociology with a concentration in GISES intensive major; and 3) a combined major with Latin American and Latino studies. Additionally, there is a minor in Global Information and Social Enterprise Studies (GISES).

Students must take two of the following courses prior to petitioning for entry to the general sociology major: Sociology 1, Introduction to Sociology; Sociology 10, Issues and Problems in American Society; or Sociology 15, World Society. Students who pass these two courses with grades of C+ or better will be allowed to declare the sociology major. Students who are transferring in should refer to the section below, "Transfer Students," on the major selection criteria used during the admissions screening process.

Students must take five courses prior to petitioning for entry to the sociology with a concentration in GISES intensive major: Sociology 1, Introduction to Sociology; Sociology 15, World Society; Sociology 30A, Introduction to Global Information and Social Enterprise Studies; Sociology 30B, Designing ICT Projects for Social Enterprises; and Sociology 30C, Project Implementation and Grant Writing for Social Entrepreneurs. To be considered for admission to the major, students are required to obtain a GPA of 2.8 or above in these courses.

Students must take two of the following courses prior to petitioning for entry to the combined sociology/Latin American and Latino studies major: Sociology 1, Introduction to Sociology; Sociology 10, Issues and Problems in American Society; or Sociology 15, World Society. Students who pass two of these courses with a grade of C+ or better and who have completed LALS 1 will be allowed to declare the combined major.

Students must take four courses prior to petitioning for entry to the GISES minor: Sociology 15, World Society; Sociology 30A, Introduction to Global Information and Social Enterprise Studies; Sociology 30B, Designing ICT Projects for Social Enterprises; and Sociology 30C, Project Implementation and Grant Writing for Social Entrepreneurs.

Sociology

Equivalent courses may be taken at other universities or at community colleges.

Students who intend to declare one of the department's majors listed above must take the courses for letter grades. In addition, students who intend to declare the sociology with a concentration in GISES major, must take 30A, 30B, and 30C for letter grades.

Students may petition for admission to the major by attending a major declaration workshop, filling out the campus's Declaration of Major/Minor Form and Academic Planning Form, and by supplying evidence of their performance in the required lower-division courses. For specific details, refer to the Sociology Department website, sociology.ucsc.edu, or the department's undergraduate adviser.

APPEAL OF NEGATIVE DECISIONS

Students who are informed that they are not eligible to declare the major may appeal this decision by submitting a letter to the Sociology Department within 15 days from the date of notification. Within 15 days of receipt of the appeal, the department will notify the student and college of the decision. Letters of appeal should describe any extenuating circumstances that might have affected the student's record.

REQUIREMENTS OF THE GENERAL SOCIOLOGY MAJOR

Sociology majors are required to take a total of 11 courses (two lower-division courses in preparation for the major, two prescribed lower-division core courses, two prescribed upper-division core courses, and five upper-division electives). In addition, they must successfully complete the comprehensive requirement prior to graduation.

Lower-division preparation: All sociology majors are required to take two lower-division preparation courses, or their equivalents.

Select two from the following three options:

SOCY 1, Introduction to Sociology

SOCY10, Issues and Problems in American Society

SOCY 15, World Society

Lower-division core courses: The following two sociology courses, or their equivalents, are required as the foundation of statistical and research methods in the discipline.

SOCY 3A, The Evaluation of Evidence

SOCY 3B, Statistical Methods

Upper-division core courses: The following two sociology courses are required as the foundation of theoretical training in the discipline.

SOCY 105A, Classical Social Theory

SOCY 105B, Contemporary Social Theory

Upper-division advanced coursework: Five additional upper-division sociology electives are required. The Sociology Department offers upper-division electives that reflect a wide range of ideas within the discipline and the diversified research interests of the faculty.

Comprehensive requirement: Prior to graduation, all sociology majors are required to complete one of the following comprehensive requirements.

- **Senior thesis.** Sociology 195A, 195B, and 195C. The prerequisite for the senior thesis is course 3A and completion of the major's Disciplinary Communications (DC) requirement. Students who would like to write a senior thesis must submit to their preferred faculty thesis sponsor a proposal that includes a working title, a description of the work to be undertaken, research question(s), methodology, a brief bibliography, a timeline to completion, at least three keywords describing the thesis topics, and materials from relevant courses that might help faculty determine their preparedness to complete the thesis. In addition, students must familiarize themselves with IRB protocols and include in their proposal whether their research includes human subjects, if the project is IRB exempt, or if an IRB application will be needed. The proposal must be submitted one quarter prior to the commencement of the thesis work. Students unsuccessful in obtaining a thesis sponsor through these means may submit their proposals to the department's undergraduate education committee (UEC) no later than the sixth week of the quarter, one quarter prior to the commencement of the thesis work. UEC members will review the merits of these proposals and assign the ones they approve to faculty members who have not yet agreed to serve as thesis advisers for the following year. Students will be notified of the outcome of the UEC's deliberations within three weeks.
- **Capstone course.** Sociology 196A, Capstone: The Sociologist as Public Intellectual. Upper-division lecture course that explores public sociology and integrates current research with theoretical strands in sociology.

In exceptional cases, students unable to take the senior capstone course may be allowed to substitute a portfolio of work. This substitution must be approved in advance, by the department chair. The portfolio option consists of: 1) portfolio of materials from (at least) three upper-division sociology

Sociology

courses; 2) a synthetic essay; 3) a paper consisting of new research by the student on some contemporary social or political issue, analyzed using the theoretical and empirical materials from those three courses. See the department for additional information.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The goals of the Sociology Department's disciplinary communication is to ensure that students acquire and develop the skills in writing and other forms of communication that will best serve them in their study of sociology, and as future learners. Courses 105A and 105B, Classical Social Theory and Contemporary Social Theory, satisfy the Disciplinary Communication Requirement for students in programs administered by the Sociology Department. Combined majors with Latin American and Latino Studies should refer to the Latin American and Latino Studies Department for their Disciplinary Communication requirement.

SOCIOLOGY MAJOR PLANNER ONE

The following is a recommended academic plan for students in the sociology major.

Option One

Year	Fall	Winter	Spring
1st (frsh)	SOCY 1* SOCY 15*	SOCY 10*	SOCY 1*
2nd (soph)	SOCY 1* SOCY 15* SOCY 3A	SOCY 10* SOCY 3B	Declaration Deadline
3rd (junior)	SOCY 105A* SOCY Elective	SOCY 105B SOCY Elective	SOCY Elective
4th (senior)	SOCY Elective	SOCY Elective	SOCY 196A (or Thesis Fall-Spring)

Option Two

Year	Fall	Winter	Spring
1st (frsh)	SOCY 1* SOCY 15*	SOCY 10*	SOCY 1*
2nd (soph)	SOCY 1* SOCY 15*	SOCY 10*	Declaration Deadline
3rd (junior)	SOCY 3A* SOCY Elective	SOCY 3B SOCY Elective	SOCY Elective

Option Two

Year	Fall	Winter	Spring
4th (senior)	SOCY 105A SOCY Elective	SOCY 105B SOCY Elective	SOCY 196A (or Thesis Fall-Spring)

*Two of courses 1, 10, or 15, passed with grades of C+ or better, are required to declare the sociology major

SOCIOLOGY MAJOR PLANNER TWO

The following is a recommended academic plan for transfer students entering the sociology major as juniors. It is assumed that course 1 and/or course 10 equivalencies were completed at the previous college.

Option One

Year	Fall	Winter	Spring
3rd (junior)	SOCY 3A* SOCY Elective	SOCY 3B* SOCY Elective	SOCY Elective
4th (senior)	SOCY 105A SOCY Elective	SOCY 105B SOCY Elective	SOCY 196A (or Thesis Fall-Spring)

*If not taken at previous college

Option Two

Year	Fall	Winter	Spring
3rd (junior)	SOCY 3A* SOCY 105A	SOCY 3B* SOCY 105B	SOCY Elective
4th (senior)	SOCY Elective SOCY Elective	SOCY Elective SOCY Elective	SOCY 196A (or Thesis Fall-Spring)

*If not taken at previous college

REQUIREMENTS OF THE SOCIOLOGY WITH A CONCENTRATION IN GISES INTENSIVE MAJOR

The GISES concentration intensive major is an option for students wishing to major in sociology and focus in the area of Global Information and Social Enterprise Studies (GISES). The major is sponsored and administered by the Department of Sociology. This major is designed for highly motivated, self-directed and enterprising students who have demonstrated the capacity to design and complete an honors-quality project for a civil society group. Students are required to take a total of 16 courses (five prescribed lower-division courses in preparation for the major, two lower-division core courses, two prescribed upper-division core courses,

Sociology

six upper-division electives, and a project practicum course). In addition, they must successfully complete the comprehensive requirement prior to graduation.

Lower-division preparation: Students must take the following five courses or their equivalents.

SOCY 1, Introduction to Sociology

SOCY 15, World Society

SOCY 30A, Introduction to Global Information and Social Enterprise Studies

SOCY 30B, Designing ICT Projects for Social Enterprises

SOCY 30C, Project Implementation and Grant Writing for Social Entrepreneurs

Lower-division core courses: The following two sociology courses, or their equivalents, are required as the foundation of statistical and research methods in the discipline.

3A, The Evaluation of Evidence

3B, Statistical Methods

Upper-division core courses. The following two sociology courses are required as the foundation of theoretical training in the discipline.

105A, Classical Social Theory

105B, Contemporary Social Theory

Upper-division advanced coursework: Six additional upper-division courses are required. The student's choice of electives must be approved by the director of GISES.

Project practicum: Students must enroll in Sociology 196G Project Practicum and complete their GISES capstone project. Contact the director of GISES or the Sociology Department undergraduate adviser for more detailed guidelines regarding the GISES capstone project. At least one quarter before expected graduation, students are required to submit electronically a polished, focused, and concise GISES project proposal (five-page maximum), to the director of GISES and the sociology undergraduate adviser. The project proposal constitutes a prerequisite for enrolling in SOCY 196G.

The final GISES capstone project must make an unambiguous contribution to advancing a solution to a problem associated with global social justice and/or sustainable development. The project must be associated with a real, viable civil society organization, community organization, school or non-governmental organization (NGO). To complete the final requirements for GISES major or minor, the integrated project—narrative and digital deliverable—must be mounted on the appropriate web-enabled database managed by the Everett Program.

Comprehensive requirement: Prior to graduation, students are required to complete one of the following comprehensive requirements.

- **Senior thesis.** Sociology 195A, 195B, and 195C. The prerequisite for the senior thesis is course 3A and completion of the major's Disciplinary Communications (DC) requirement. Students who would like to write a senior thesis must submit to their preferred faculty thesis sponsor a proposal that includes: a working title, a description of the work to be undertaken, research question(s), methodology, a brief bibliography, a timeline to completion, at least three keywords describing the thesis topics, and materials from relevant courses that might help faculty determine their preparedness to complete the thesis. In addition, students must familiarize themselves with IRB protocols and include in their proposal whether their research includes human subjects, if the project is IRB exempt, or if an IRB application will be needed. The proposal must be submitted and approved one quarter prior to the commencement of the thesis work. Students unsuccessful in obtaining a thesis sponsor through these means may submit their proposals to the department's undergraduate education committee (UEC) no later than the sixth week of the quarter, one quarter prior to the commencement of the thesis work. UEC members will review the merits of these proposals and assign the ones they approve to faculty members who have not yet agreed to serve as thesis advisers for the following year. Students will be notified of the outcome of the UEC's deliberations within three weeks.
- **Capstone course.** Sociology 196A, Capstone: The Sociologist as Public Intellectual. Upper-division lecture course that explores public sociology and integrates current research with theoretical strands in sociology.

In exceptional cases, students unable to take the senior capstone course may be allowed to substitute a portfolio of work. This substitution must be approved in advance by the department chair. The portfolio option consists of: 1) portfolio of materials from (at least) three upper-division sociology courses; 2) a synthetic essay; 3) a paper consisting of new research by the student on some contemporary social or political issue, analyzed using the theoretical and empirical materials from those three courses. See the department for additional information.

Disciplinary Communication (DC) requirement: Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The goal of the Sociology Department's disciplinary communication is to ensure that

Sociology

students acquire and develop the skills in writing and other forms of communication that will best serve them in their study of sociology, and as future learners. Courses 105A and 105B, Classical Social Theory and Contemporary Social Theory, satisfy the Disciplinary Communication Requirement for students in programs administered by the Sociology Department.

REQUIREMENTS OF THE COMBINED MAJOR IN SOCIOLOGY AND LATIN AMERICAN AND LATINO STUDIES

Students may choose to declare a combined major in sociology and Latin American and Latino studies. The requirements (listed below) should be examined carefully before choosing the combined major option. Students must complete the lower-division sociology courses with a grade of C or better and LALS 1, and both departments must approve a study plan before the major can be declared. Each department determines major and thesis honors separately.

Students are required to take a total of 12 courses and to satisfy a senior comprehensive requirement. There are three lower-division course requirements, two from the Sociology Department chosen from: Sociology 1, Introduction to Sociology; Sociology 10, Issues and Problems in American Society; or Sociology 15, World Society; or their equivalents; and one from the Latin American and Latino Studies Department, LALS 1. The lower-division LALS course must be LALS 1; transfer students may petition to replace LALS 1 with an appropriate course from another institution. Upper-division requirements include five core courses: LALS 100, 100A, 100B; Sociology 105A and 105B; and four additional elective courses, two from sociology and two from Latin American and Latino studies. At least one of the Latin American and Latino studies upper-division courses must be taught in Spanish or Portuguese***. Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the major when the content is deemed appropriate both the sociology and Latin American and Latino studies departments. Students can satisfy the comprehensive requirement in one of two ways: 1) writing a senior thesis, or 2) passing an appropriate LALS Senior Seminar (194 series). If the thesis option is selected, it should be planned in consultation with an adviser from each department, completed under the supervision of a faculty member from either department, and read and approved by both advisers; one adviser is sufficient if this faculty member belongs to both departments.

*In addition to courses offered at UCSC, students may fulfill the language requirement through an appropriate course taken while participating in a study abroad program.

Language Study. Students must demonstrate proficiency in Spanish or Portuguese equivalent to the completion of Spanish 6 or 56 or Spanish for Spanish Speakers 63 or Portuguese 65A-B.

HONORS IN THE MAJOR

The Sociology Department awards honors in the major based on the student's cumulative GPA for all courses taken to satisfy the program's major requirements, excluding the comprehensive requirement. Students with a GPA of 3.75 or above will be considered for honors in the major. Students with a GPA of 3.9 or above will be considered for highest honors in the major. No more than approximately 15 percent of the graduating class will be considered for honors or highest honors in the major. Comprehensive honors is awarded to students who complete the senior thesis option, and their faculty thesis sponsor and one additional reader evaluate the thesis to be of honors quality.

REQUIREMENTS OF THE GISES MINOR

Students minoring in GISES are required to take nine courses (four prescribed lower-division courses in preparation for the minor, four upper-division electives, and a project practicum course). The four lower-division requirements are courses 15, 30A, 30B and 30C. The student's choice of four upper-division electives must be approved by the director of GISES. Students must take Sociology 196G, Project Practicum, and complete their GISES capstone project. See the description for the project practicum under Requirements of the Sociology with a Concentration in GISES Intensive Major.

UC EDUCATION ABROAD PROGRAM STUDENTS

Students seeking to study abroad must be declared in their major prior to studying abroad.

It is recommended that the students have the courses intended to be taken abroad reviewed and approved by the Sociology Department prior to departure. Up to two relevant courses taken through study abroad programs from which credits are transferable to UCSC may be used toward satisfaction of the sociology major requirements when the content is deemed appropriate and approved by the Sociology Department. Up to three relevant courses taken through study abroad programs from which credits are transferable to UCSC may be credited toward the combined major when the content is deemed appropriate by both the sociology and Latin American and Latino studies departments.

TRANSFER STUDENTS

Sociology

Junior transfer students expressing an interest in sociology on their UCSC application for admission will be screened and held to the major qualification selection criteria outlined by the Admissions Office, in addition to the campus admissions requirements:

UCSC Admissions major qualification selection criteria for Sociology:

1. Minimum grade of C (2.0) in a course articulated to UCSC's SOCY 1, Introduction to Sociology.
2. Minimum grade of C (2.0) in a course articulated to UCSC's SOCY 10, Issues and Problems in American Society.
3. Minimum grade point average of 2.30 in the above major-preparatory courses.

By the end of the fall 2016 term, a student must have completed at least the one sociology course from the above (#1 or #2) with a minimum grade of C+ (2.30). All other course requirements must be listed as either in-progress or planned on the UC application, showing completion no later than the end of the spring 2017 term. For students attending institutions that do not compute plus/minus grades, an overall GPA of 2.30 in the above sociology courses will be required for the major.

Although it is not required for selection, junior-level transfer students are strongly encouraged to complete a transferable course in statistical methods and a transferable course in research methods prior to enrolling at UCSC.

Students who meet the selection criteria and are offered admission, are admitted as proposed sociology majors. This status is considered undeclared. Transfer students must work with the sociology undergraduate adviser when they arrive on campus to determine their status and begin the actual declaration of major workshop and process, which must be completed by the campus's declaration deadline of the second quarter of the junior year for transfer students.

GRADUATE PROGRAM

The Sociology Department at UCSC is intellectually innovative, both in its interdisciplinary nature and in its commitment to inquiry that is engaged with the world beyond the university. The Ph.D. program leads to both academic and non-academic careers. It distinguishes itself by its interdisciplinary nature. The program is designed to educate students in sociological theory and methods and in the discipline's major substantive areas while simultaneously exposing students to other arenas of intellectual inquiry that will aid them as they pursue their research questions and interests. After completing a group of required courses, students work closely with individual faculty members in

designing their own course of study. The program leads to a Ph.D. in sociology. While a terminal master of arts (M.A.) program is not available and students are not admitted directly into the M.A., students have the option of applying for a non-terminal master's degree en route to the Ph.D. The program leads to a doctor of philosophy (Ph.D.) degree in sociology. A master's degree may be taken en route to the doctorate, but a master's program per se is not available.

The core curriculum is divided into two parts, 1) basic grounding in sociological theory and methods, and 2) exposure to research in three areas of concentration: a) political economies and political ecologies; b) new studies of inequality; and c) culture, knowledge, and power. To prepare students to conduct their own research projects, the department trains student in multiple methods—comparative, cultural analysis, ethnography, field research, historical, interpretive, and quantitative techniques. For an overview of the faculty member's research interests, please refer to the program description.

FUNDING

Graduate students are supported through teaching assistantships, teaching fellowships, research fellowships and other grant/fellowship opportunities. A number of faculty receive research grants that support graduate student research assistantships, most recently, for example, the National Science Foundation Science and Justice Fellowships.

When asked what they most appreciate about the sociology graduate program, most students cite the students' and faculty's commitment to social change in combination with their dedication to teaching, scholarly research, and understanding of the social forces of our society. The Sociology Department's colloquium series enhances scholarship, practice, and collegial networks. The diversity in age, ethnicity, and work experience of the student body creates a vibrant atmosphere for learning.

Many of the faculty in the Sociology Department have affiliations with other departments and programs on campus, and the graduate program consequently encourages interdisciplinary work. Seminars in the anthropology, environmental studies, history, history of consciousness, politics, psychology, and feminist studies programs are open to sociology students. Graduate students in sociology may obtain a designated emphasis on the sociology Ph.D. diploma indicating that they have specialized in a specific field in addition to sociology, such as feminist studies, Latin American and Latino studies, environmental studies, philosophy, or education. Students must meet requirements for the designated emphasis as spelled out by the relevant department. For a complete list of programs that offer a designated emphasis, refer to the fields of study in the General

Sociology

Catalog. Students also participate in research projects under the auspices of a number of interdisciplinary social science research centers: the Science and Justice Research Center; the Center for Agroecology and Sustainable Food Systems; the Center for Global, International, and Regional Studies; the Center for Labor Studies; the Chicano/Latino Research Center; the Center for Collaborative Research for an Equitable California; the Affect Studies Working Group; the Urban Studies Research Cluster; the Santa Cruz Center for International Economics; and the Interdisciplinary Development Working Group. Research opportunities also are available in the areas of environmental studies, feminist studies, and lesbian/gay/queer studies.

Many of our graduate students present papers at professional conferences and publish articles during the course of their graduate studies. The sociology master's paper is designed to prepare students to write for professional journals. Ongoing faculty seminars focusing on concrete research topics are available for advanced graduate students working on papers and dissertations in related areas.

The sociology program provides graduate students with many teaching opportunities so they can practice the skills required for good teaching—the ability to articulate ideas, to organize and present materials in logical sequence, and to listen attentively and discern someone else's comprehension. Graduate students typically serve as teaching assistants for at least three quarters, of not more, in the department's core classes of the undergraduate curriculum.

The Sociology Department at UCSC is intellectually innovative, both in its interdisciplinary approach and in its commitment to inquiry that is engaged with the world beyond the university.

REQUIRED COURSES

Students are required to take at least 10 courses as follows.

A three-course core group:

- 201 The Making of Classical Theory
- 202 Contemporary Sociological Theory
- 203 Sociological Methods

Two methods courses:

- 204 Methods of Quantitative Analysis*
and one of the following eight courses:
- 205 Field Research Methods
- 206 Comparative Historical Methods
- 209 Analysis of Cultural Forms
- 241 Cross-National and Cross-Cultural Research
- 242 Feminist Research Seminar

268A Science and Justice: Experiments in Collaboration

Sociology 282 Social Policy Research

Psychology 248 Survey Methods

Two of three thematic area courses:

220 Global Transformation: Macrosociological Perspectives

240 Inequality and Identity

260 Culture, Knowledge, Power

A minimum of three elective graduate seminars, one of which may be from outside sociology (excluding Sociology 250 and Sociology 293).

*Students with no background in statistics are strongly advised to take an undergraduate course in statistical methods before enrolling in Methods of Quantitative Analysis, but can be admitted with permission of the instructor.

ELECTIVE COURSES

The elective course offerings change yearly. This selection of courses are offerings from the recent past.

208 Writing Practicum

209 Cultural Forms*

220 Global Transformation**

225 Political Economy for Sociologists

229 Work and Labor Markets in the New Economy

240 Inequality and Identity**

242 Feminist Research Seminar

246 Class, Culture, and Movement

252 Symbolic Interactionism and Sociology of Emotions

256 Urban Sociology

257 Colonialism, International Law, and Global Justice

260 Culture, Knowledge, Power**

263 Cultural Politics of Difference

268A Science and Justice: Experiments in Collaboration*

268B Science and Justice Research Seminar

290 Special Topics on Social Movements

290 Special Topics on Affect, Emotions, and the Social World

290 Special Topics on Political Emotions

*Can be taken as an elective if not fulfilling the methods requirement.

Sociology

**Students are required to take two of the three thematic area courses—220, 240, 260—and the third may count as an elective.

For more information about courses offered in the 2017-18 academic year, please visit the [course listings at the Sociology Department website](#).

PROGRESS TOWARD THE PH.D.

- Beginning at least by the end of the first year, students initiate work on their master's paper.
- Completion of the master's paper and required coursework is expected by the end of the second year.
- Graduate students prepare field statements in two distinct areas of sociology as a written pre-qualifying stage to the oral qualifying examination.
- The qualifying examination is an oral defense of the student's dissertation proposal and occurs one quarter after the pre-qualifying field statement stage has been passed.
- Students are expected to take their oral qualifying examination by the end of the third year, but no later than the end of the fourth year.
- After passing the qualifying examination, a student advances to candidacy and begins work on the dissertation with the aid of a three-person dissertation committee.
- After the complete dissertation has been submitted to and accepted by the dissertation committee, students must pass an oral dissertation defense.

Details of the policies for admission to the graduate program, the requirements for the Ph.D. degree, and information on financial support opportunities are available from the Department of Sociology. For more information, refer to the Graduate Studies section of the catalog.

DESIGNATED EMPHASIS IN SOCIOLOGY

To receive the Designated Emphasis (DE) in Sociology, a graduate student from another department must complete the following requirements in addition to the degree requirements for the doctorate in their degree-granting department. Students must initiate the request for

the DE through their home departments. Then the student must meet with the Sociology graduate director who will: a) decide whether to approve the application; b) help find a Sociology faculty adviser; and c) oversee progress in the Designated Emphasis.

Adviser: In addition to the student's adviser(s) in their home department, the student must have a faculty adviser from among the core faculty of the Sociology Department who commits to serve on the qualifying examination (QE) committee. Outside members of a QE committee must be tenured.

Courses: The student must take five (5) Sociology graduate seminar courses:

Two (2) core courses:

SOCY 201 The Making of Classical Theory
SOCY 202 Contemporary Sociological Theory

One (1) methods course from the following:

SOCY 203 Sociological Methods
SOCY 204 Methods of Quantitative Analysis
SOCY 205 Field Research Methods
SOCY 206 Comparative Historical Methods
SOCY 209 The Analysis of Cultural Forms
SOCY 241 Cross-National and Cross Cultural Research
SOCY 242 Feminist Research Seminar
SOCY 282 Social Policy Research

Two (2) other graduate seminar electives* offered by the Sociology Department

*SOCY 208, SOCY 250, SOCY 293, SOCY 297, SOCY 299 cannot be counted toward the requirements for the Designated Emphasis.

All courses must be offered by the Sociology Department. Courses offered by other departments do not count towards the requirements for the Designated Emphasis in Sociology.

Writing: The student must prepare a significant piece of scholarly writing in the area of sociology. This may take the form of a substantial seminar paper, a master's essay, a paper submitted for publication, or a chapter of the doctoral dissertation. The student's Sociology faculty adviser will determine whether a particular piece of writing meets the requirement.

Graduate students interested in pursuing the Designated Emphasis in Sociology should contact the Sociology graduate program coordinator

SOCIOLOGY FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

John Brown Childs, Emeritus

Ben Crow

International development, sociology of water and markets, global inequality, South Asia and East Africa, political economy, sustainable development

Sociology

E. Melanie DuPuis, Emerita

William H. Friedland, Emeritus

Hiroshi Fukurai

Citizen participation in the justice system, international law, race and inequality, East Asian law and politics, military and justice, and advanced quantitative methods

Herman S. Gray

Cultural studies, media and television studies, black cultural politics, social theory

Miriam Greenberg

Urban sociology, media studies, cultural studies, political economy, globalization, and urban political ecology

Paul M. Lubeck, Emeritus

Marcia Millman, Emerita

James R. O'Connor, Emeritus

Jennifer E. Reardon

Science studies; sociology of science, technology, and medicine; feminist theory; race/ethnicity/gender/sexuality/class; biology and society

Craig Reinerman, Emeritus

Pamela Ann Roby, Emerita

Dana Y. Takagi, Emerita

Candace West, Emerita

ASSOCIATE PROFESSOR

Julie Bettie

Cultural theory and popular culture; race, gender, class, and cultural politics; sexuality and erotic labor; critical qualitative methodologies

Deborah Gould

Political emotion; social movements and contentious politics; classical and contemporary social theory; sexualities; lesbian/gay/queer studies; feminist and queer theory

Steven McKay

Work and labor markets; globalization and social change; political sociology; race; masculinity; migration; ethnography/qualitative methods

Helen Shapiro

Political economy, Latin American economic history and development (with an emphasis on Brazil), industrial policy, the auto industry, the state and transnational corporations

Veronica Terriquez

Immigrant incorporation, civic engagement, social inequality, Latinos in the U.S., youth transitions to adulthood, quantitative methods, mixed-methods

ASSISTANT PROFESSOR

Hillary Angelo

Urban sociology, nature and society, infrastructure, social theory, urban political ecology, historical methods

James Battle

Anthropologies and technologies of science and medicine; biological, pharmaceutical, and technological citizenship; racial classification, bioethics, and health disparities; history of social medicine; risk, translation, and uncertainty

Lindsey Dillon

Urban geography, critical race theory, political ecology, environmental justice, feminist approaches to science and technology studies

Rebecca London

Education; children, youth and families; social policy; health and well-being; social inequality; cross-sector analyses; community-engaged research; quantitative methods; mixed methods

LECTURER

Wendy Martyna

Social psychology, death and dying, gender, social change, family and youth, language and society

PROFESSOR

Barbara L. Epstein, Emerita (History of Consciousness)

Julie Guthman (Social Sciences)

California agriculture, sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of food and health, political ecology, race and food, epigenetics and environmental health, critical human geography

Nancy Stoller, Emerita (Community Studies)

Andrew Szasz (Environmental Studies)

Environmental sociology (environmental movements, policy, environmental justice); theory

Mark Traugott, Emeritus (History)

David Wellman, Emeritus (Community Studies)

ASSOCIATE PROFESSOR

Sylvanna Falcón (Latin American and Latino Studies)

Human rights, racism/antiracism, globalization, gender, transnational feminism, Latin America (Mexico, Peru), United States

Jessica Taft (Latin American and Latino Studies)

Youth activism; childhood and youth studies; social movements; participatory democracy; girls studies;

SOCIOLOGY COURSES

LOWER-DIVISION COURSES

1. Introduction to Sociology. F,S

A systematic study of social groups ranging in size from small to social institutions to entire societies. Organized around the themes of social interaction, social inequality, and social change. Fulfills lower-division major requirement. M. MCNAMARA

3A. The Evaluation of Evidence. F

Introduces students to major types of data and data analysis used in sociology. Designed to give students a foundation in understanding social science research articles, reports, and media reports used in political and policy debates. Topics include: general principles of research design, measurement, inductive and deductive modes of reasoning, experimental design, field work and ethnographic design, and reading and understanding basic quantitative forms of data and analysis. (Formerly course 103B, The Logic and Methods of Social Inquiry.) Enrollment is restricted to majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. R. LONDON

3B. Statistical Methods. W

Introduces basic quantitative data analysis found in sociological research and policy reports. Topics include: inferential statistics, such as probability distributions, sampling, and testing; and descriptive statistics, such as measures of association, bivariate, and multivariate analysis. (Formerly course 103A.) Enrollment is restricted to majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. (General Education Code(s): SR.) V. TERRIQUEZ

10. Issues and Problems in American Society. W

Exploration of nature, structure, and functionings of American society. Explores the following: social institutions and economic structure; the successes, failures, and intractabilities of institutions; general and distinctive features of American society; specific problems such as race, sex, and other inequalities; urban-rural differences. Fulfills lower-division major requirement. J. REARDON

15. World Society. F

Introduction to comparative and historical sociology. Focuses on the global integration of human society. Examines social changes such as industrialization, globalization, colonial rule, and the rise of Islamic fundamentalism. Uses social theory (including ideas from Marx, Weber, and Adam Smith) to explore the making of institutions like the nation-state, the World Trade Organization, the World Bank, and the International Monetary Fund. Fulfills lower-division major requirement. (General Education Code(s): CC.) S. MC KAY

30A. Introduction to Global Information and Social Enterprise Studies. F

The first class in a three-quarter sequence that prepares students for designing social justice and sustainability projects using social-enterprise methodologies to transfer information and communications technologies (ICT) to community and non-governmental organizations. Tuesday's class topics include globalization, info-exclusion, social justice, information revolution, global civil-society networks, social entrepreneurship, and organizational assessment. Thursday's technical laboratory teaches students to develop practical ICT skills for working solidarity with community organizations in areas such as web design, graphic design, and digital

networking. Enrollment limited to 70. (General Education Code(s): PE-T.) C. BENNER

30B. Designing ICT Projects for Social Enterprise. W

Covers designing "doable" ICT-based projects to support the goals of community and NGOs. Topics include: social entrepreneurship/enterprise case studies; step-by-step project design; integrating social and technical solutions; project management. Technical topics include: Internet resources; advanced web/database design; computer networks/maintenance. Prerequisite(s): course 30A. Enrollment limited to 50. C. BENNER

30C. Project Implementation and Grant Writing for Social Entrepreneurs (3 credits). S

Covers conversion of ICT project into a fundable grant proposal for social justice, integration of social activism, entrepreneurship and justice, and implementation of project. Topics include: funders, proposal design, field methods, project assessment, innovative ICT applications, action research methods. Prerequisite(s): course 30B. Enrollment limited to 50. C. BENNER

42. Student-Directed Seminar. F,W,S

Seminars on selected topics taught at various times by upper-division students under faculty supervision. (See course 192.) Consult the SCHEDULE OF CLASSES for specific offerings. THE STAFF

99. Tutorial. F,W,S

Directed reading and research. Petitions may be obtained from the Sociology Department Office. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

**UPPER-DIVISION
COURSES**

105A. Classical Social Theory.**F,W**

This intensive survey course examines the intellectual origins of the sociological tradition, focusing on changing conceptions of social order, social change, and the trends observed in the development of Western civilization in the modern era. Readings are all taken from original texts and include many of the classical works in social theory with special emphasis on the ideas of Marx, Weber, and Durkheim, which constitute the core of the discipline. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. THE STAFF

105B. Contemporary Social Theory. W,S

Surveys major theoretical perspectives currently available in the discipline including functionalism, symbolic interactionism, ethnomethodology, conflict theory, critical theory, neo-Marxism, and feminist theory. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. L. DILLON

111. Family and Society. F

Focuses on the interaction between family and society by considering the historical and social influences on family life and by examining how the family unit affects the social world. Readings draw on theory, history, and ethnographic materials. Enrollment is restricted to juniors and seniors. W. MARTYNA

114. Sports and Society. *

Explores the interconnections between sports and society using sociological theories and methods. Topics include class, race, and gender; mass media and popular culture; political economy; education and socialization; leisure patterns (participants and spectators); globalization and cross-national comparisons. THE STAFF

115. Green Governance. *

Working collaboratively in group interactive laboratories, students assess the effectiveness of various forms of public and private decision-making in the creation of a sustainable future. Electrical Engineering 80S or the Rachel Carson College core course recommended as prerequisites. Enrollment limited to 60. (General Education Code(s): PE-T.) THE STAFF

116. Communication, Media, and Culture. *

Examines media institutions, communication technologies, and their related cultural expressions. Focuses on specific ways the media—including media studies and criticism—operates as social and cultural factor. Contemporary theory or equivalent in related fields recommended. (Formerly "Communication and Mass Media.") Prerequisite(s): courses 105A and 105B. Enrollment restricted to junior and senior majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. THE STAFF

118. Popular Music, Social Practices, and Cultural Politics. *

Considers the role of popular music as a site of contemporary social practices and cultural politics. Examines the institutional organization and production of popular music, its cultural meanings, and its social uses by different communities and social formations. Also examines popular music as a vehicle through which major cultural and political debates about identity, sexuality, community, and politics are staged

and performed. Prerequisite(s): course 105A or 105B. Enrollment restricted to juniors and seniors. THE STAFF

119. Sociology of Knowledge. *

"If people define things as real, they are real in their consequences," quipped W.I. Thomas. Surveys sociological theories about where and how knowledge comes from, and the politics of knowledge, with reference to contemporary debates surrounding issues, such as climate change, genetics, and inequality. Prerequisite(s): course 105A or 105B, or by permission of the instructor H. ANGELO

120. Gender, Race/Ethnicity, Sexuality and Cultural Politics. *

Focuses on the role feminist discourses play in cultural politics emphasizing sex, sexuality, and sex work as related to gender, race, and class. Examines the relationship between academic and popular feminisms. Interrogates post-feminism, third-wave feminism, and generational differences in feminisms. (Formerly Gender, Sexuality, and Cultural Politics.) Prerequisite(s): course 126 recommended. Enrollment restricted to junior and senior sociology, critical race and ethnic studies, feminist studies, global information and enterprise, and Latin America/sociology majors, proposed majors, and minors. J. BETTIE

121. Sociology of Health and Medicine. F

Analysis of the current health care "crises" and exploration of the social relationships and formal organizations which constitute the medical institution. Study of the political, economic, and cultural factors which affect the recognition, distribution, and response to illness. Enrollment is restricted to junior and senior majors and minors in biochemistry, biological sciences, critical race and ethnic studies, and sociology, and the Latin American studies/sociology combined majors. J. REARDON

122. The Sociology of Law. *

Explores the social forces that shape legal outcomes and the ways

Sociology

law, in turn, influences social life. Traces the history and political economy of American law; the relation between law and social change; how this relation is shaped by capitalism and democracy; and how class, race, and gender are expressed in welfare and regulatory law. (Also offered as Legal Studies 122. Students cannot receive credit for both courses.) Enrollment is restricted to majors and minors in legal studies, sociology, Latin American/sociology combined, and global information and social enterprise. C. REINARMAN

123. Law, Crime, and Social Justice. *

Blends the latest research in criminology with that from social stratification, inequality, and social welfare policy with the objective of exploring the relationship between levels of general social justice and specific patterns of crime and punishment. The focus is primarily on the U.S. although many other industrialized democracies are compared. An introductory course in sociology is recommended as preparation. (Also offered as Legal Studies 123. Students cannot receive credit for both courses.) THE STAFF

124. Visual Sociology. *

Learn to critically consume documentary, ethnographic film, photojournalism, and the genre of realism as these methods are increasingly used to describe the social world. Addresses theoretical, methodological, practical, and ethical issues of creating visual media. Optional media lab teaches students how to create visual products as well. (Formerly VISUAL ETHNOGRAPHY) Prerequisite(s): Enrollment restricted to juniors and seniors. THE STAFF

124L. Visual Sociology Media Lab (2 credits). *

Teaches the basics of digital narrative/storytelling, basic use of digital video cameras, digital video editing in iMovie and/or Final Cut Pro, and use of microphones and sound. Students use these skills to aid in creation of their final course project. (Formerly VISUAL

ETHNOGRAPHY MEDIA LAB.) Concurrent enrollment in course 124 is required. Enrollment restricted to juniors and seniors. THE STAFF

125. Society and Nature. *

A healthy society requires a stable and sustainable relationship between society and nature. Covering past, present, and future, the course covers environmental history of the U.S., the variety and extent of environmental problems today, and explores their likely development in our lifetimes. Enrollment is restricted to sophomore, junior, and senior majors, proposed majors, and minors in sociology, global information and enterprise, and Latin American studies/sociology combined. (General Education Code(s): PE-E.) THE STAFF

126. Sex and Sexuality as Social Practice and Representation. *

Explores social and cultural aspects of human sexuality and reproduction, including how and why meanings and behaviors are contested. Analyzes sexuality and reproduction as forms of social and political control as well as cultural expression and self-determination. (Formerly Sociology of Sex) Enrollment restricted to junior and senior sociology, critical race and ethnic studies, feminist studies, Latin American/sociology combined, and global information and social enterprise majors, proposed majors, and minors. Enrollment limited to 90. J. BETTIE

127. Drugs in Society. *

Explores the history of the use and abuse of consciousness-altering substances like alcohol and other drugs. Social-psychological theories of addiction are reviewed in tandem with political-economic analyses to identify the social conditions under which the cultural practices involved in drug use come to be defined as public problems. An introductory sociology course is recommended prior to taking this course. (Also offered as Legal Studies 127. Students cannot receive credit for both courses.) Enrollment is restricted to majors

and minors in legal studies, sociology, Latin American/sociology combined, and global information and social enterprise. J. BATTLE

127P. Sociology of Drugs, Botanicals and Pharmaceuticals. F

Engages the social, historical, and economic trajectories of the drugs, illicit and licit, botanical and pharmaceutical within U.S. society. Through an examination of case studies, and other texts of encounter, explores how international, state, and local actors mediate as interlocutors between globalized interests, local knowledges, and the molecules we have increasingly come to know, ingest, and incorporate. Enrollment restricted to junior and senior sociology, biology, biochemistry and molecular biology, community studies, Latin American/sociology combined, and global information and social enterprise majors, proposed majors, and minors. Prerequisite(s): course 1 or 10 or 15; or by permission of the instructor. J. BATTLE

128. Law and Politics in Contemporary Japan and East Asian Societies. *

Introduction to contemporary analysis of Japan's race relations, ethnic conflicts, and a government's failure to restore remedial justice for war victims in Japan, Asia, and the U.S. Specific issues include comfort women, national or state narratives on Hiroshima, forced labor during World War II, and Haydon legislation that allows war victims to sue the Japanese government and corporations in California. (Also offered as Legal Studies 126. Students cannot receive credit for both courses.) Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and minors in legal studies, sociology, community studies, Latin American/sociology combined, global information and social enterprise, and critical race and ethnic studies. Enrollment limited to 30. H. FUKURAI, THE STAFF

Sociology

128C. Social History of Democracy, Anarchism, and Indigenism. *

Provided an overview of socio-political theories and thoughts from Athenian Direct Democracy in 500 BC, to Classical Liberalism, Social Contract, Libertarian Socialism, Anarcho-Syndicalism, Neo-Liberalism, Anarcho-Primitism, and lastly Indigenism in relation to the revival of indigenous knowledge, the "Mother Earth" law, and the restoration of the nature's rights as espoused by many governments in the Third World today. (Also offered as Legal Studies 128C. Students cannot receive credit for both courses.) Prerequisite(s): course 1, 10, or 15. Enrollment restricted to sophomore, junior, and senior sociology, critical race and ethnic studies, community studies, legal studies, Latin American/sociology combined, and GISES majors, proposed majors, and minors. (General Education Code(s): CC.) H. FUKURAI

128I. Race and Law. W

An introduction to comparative and historical analyses of the relation between race and law in the U.S. Emphasis on examinations of continuous colonial policies and structural mechanisms that help maintain and perpetuate racial inequality in law, criminal justice, and jury trials. (Formerly Race and Justice) (Also offered as Legal Studies 128I. Students cannot receive credit for both courses.) Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and minors in legal studies, sociology, community studies, Latin American/sociology combined, global information and social enterprise, and critical race and ethnic studies. H. FUKURAI

128J. The World Jury on Trial. *

Adoption of the jury and its varied forms in different nations provides ideal opportunities to examine differences between systems of popular legal participation. Course considers reasons why the right to jury trial is currently established in Japan or Asian societies, but abandoned or severely curtailed in

others. American jury contrasted with other forms of lay participation in the legal process. (Also offered as Legal Studies 128J. Students cannot receive credit for both courses.) Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and minors in legal studies, sociology, community studies, Latin American/sociology combined, global information and social enterprise, and critical race and ethnic studies. Enrollment limited to 30. H. FUKURAI

128M. International Law and Global Justice. F

Examines war crimes, crimes against humanity, and the evolution and role of the International Criminal Court (ICC). Examines the evolution of the concept of international law, the rationale for its birth and existence, roots of international conflicts and genocides, possible remedies available to victims, mechanisms for the creation and enforcement of international legal order, as well as the role of colonialism, migration, poverty, race/ethnic conflicts, gender, and international corporations in creating and maintaining conflicts and wars. (Also offered as Legal Studies 128M. Students cannot receive credit for both courses.) Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and minors in legal studies, sociology, community studies, Latin American/sociology combined, global information and social enterprise, and critical race and ethnic studies. Enrollment limited to 30. H. FUKURAI

129. Popular Culture and Cultural Studies. *

Examines the hidden politics of popular pleasure, studying the workings of domination and transgression in popular culture and everyday life. Explores not only media representations but cultural practices as well. Examines both cultural production and consumption. Considers how hegemonic discourses render the politics of resistance invisible. (Formerly POPULAR CULTURE.)

Prerequisite(s): course 105A or 105B. Enrollment restricted to junior and senior majors and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. THE STAFF

130. Sociology of Food. *

Following food from mouth to dirt, explores the politics, economy, and culture of eating, feeding, buying, selling, and growing food. Topics cover both the political economy of the food system as well as how body and nature are contested categories at either "end" of this system. Enrollment restricted to juniors and seniors. Enrollment restricted to sociology majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors. Enrollment limited to 60. K. RUDESTAM

131. Media, Marketing, and Culture. *

Explores relationship between modern forms of cultural production and the economy and society in which they emerge. Course reads, screens, and discusses variety of the cultural texts: from the historical and theoretical to the commercial, popular, and counter-cultural. (Formerly Culture, Economy, and Power.) Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, community studies, and Latin American studies/sociology combined. M. GREENBERG

132. Sociology of Science and Technology. W

Reviews social and cultural perspectives on science and technology, including functionalist, Marxist, Kuhnian, social constructionist, ethnographic, interactionist, anthropological, historical, feminist, and cultural studies perspectives. Topics include sociology of knowledge, science as a social problem, lab studies, representations, practice, controversies, and biomedical

Sociology

knowledge and work. Enrollment is restricted to junior and senior majors and minors in sociology, biology, biochemistry, critical race and ethnic studies, global information and social enterprise, and Latin American studies/sociology combined.

Enrollment limited to 20. J. BATTLE

133. Currents in African American Cultural Politics. S

Takes as its subject, the dialogues, debates, conceptions, and strategies of self representation produced by blacks in the U.S. and Atlantic world in the twentieth and twenty-first centuries. These issues are examined through the insights of feminist theory, cultural studies, media studies, sociology, and African American studies.

Enrollment restricted to juniors and seniors. THE STAFF

134. Television and the Nation. W

The role of American network television in the production of the post-war American national imagination is our focus. Our approach will explore issues of media power, especially television's industrial apparatus, its network structure, its strategies of representation in relationship to the construction of the image of the nation, and the meaning of citizens, consumers, and audiences.

Enrollment is restricted to junior and senior majors and minors in sociology, Latin America and Latino studies/sociology combined, global information and social enterprise studies, history, literature, and film and digital media. H. GRAY

136. Social Psychology. W

Major theories and concepts in sociological study of social psychology. Topics include identity and social interaction, deviance, sociology of emotions, social narratives, and the social construction of reality. Enrollment restricted to junior and senior sociology majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined.

Enrollment limited to 218. (General

Education Code(s): PE-H.) W. MARTYNA

137. Deviance and Conformity. *

Why certain social acts are considered threatening and how individuals or groups become stigmatized. Sociological analysis of the institutions and processes of social control and the experience of becoming deviant and living with a stigmatized identity. Introductory course in sociology recommended.

Enrollment is restricted to junior and senior sociology majors, minors, and proposed majors, global information and social enterprise studies minors, and Latin American and Latino studies/sociology combined majors and proposed majors. Enrollment limited to 68. (General Education Code(s): PE-H.) THE STAFF

139. Field Research Methods. *

Research practicum which examines methods and problems of qualitative field research both through examining literature published in this tradition and by carrying out directed field exercises. Students also design and carry out their own research project. Prerequisite(s): course 103B. Enrollment limited to 20. THE STAFF

139D. Critical Digital Methods. *

Introduces critical digital methods to examine ethical and epistemological concerns with Big Data, archives and digital collections, organizational records, mobile ethnographies, social media, and crowd-sourced data. Students use open-source text mining and data-visualization programs. Prerequisite(s): courses 1, 10, or 15; and 3A. Enrollment is restricted to junior and senior sociology, Latin American and Latino studies/sociology, and global information and social enterprise majors, proposed majors, and minors. Enrollment limited to 35. THE STAFF

139T. Community-Engaged Research Practicum. S

Covers the theories and methods associated with community-based and participatory action research. Students review relevant

scholarship then engage in a collective field research project in collaboration with a community organization. Themes, collaborations, and research projects vary. Enrollment is restricted to junior and senior sociology, Latin American and Latino studies/sociology, and global information and social enterprise majors, proposed majors, and minors. May be repeated for credit. S. MC KAY

140. Social Psychology of Power. *

This course uses historical, sociological, and social psychological materials to introduce students to issues concerning class and power, religion and power, minorities and power, women and power, the rise of the New Right, and the successes and failures of the Left.

Prerequisite(s): course 1, 10, or 15 or Psychology 40. Enrollment restricted to juniors and seniors. G. DOMHOFF

141. Group Process. *

The study of group development and interpersonal behavior based primarily on observation of the class discussion group. Readings are drawn from psychology and fiction as well as from sociology. Offered in alternate academic years. Enrollment restricted to senior sociology majors. Enrollment limited to 18. THE STAFF

142. Language and Social Interaction. W

Concerns the routine and taken-for-granted activities that make up our interactions with one another, consisting in large part—but not exclusively—of verbal exchanges. Emphasis on the socially situated character of communication, whether intimacy between two people or dominance of a group. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, language studies, linguistics, global information and social enterprise, and Latin American studies/sociology combined. Enrollment limited to 57. W. MARTYNA

Sociology

143. Conversation Analysis. *

A working seminar, involving the analysis of actual conversations. Covers fundamental ethical, conceptual, and methodological issues that arise in the collection of conversational data, as well as the skills and techniques of conversation analysis. Given our operating assumption, that talk is a primary means of constructing social identities, there is a heavy thematic emphasis on gender, status, and power in conversation. Prerequisite(s): course 142 or by permission of instructor. Enrollment restricted to juniors and seniors. Enrollment limited to 20. C. WEST

144. Sociology of Women. *

Analysis of the social significance and social production of gender. Some consideration of how sex differences have developed. Major emphasis on the impact of gender as a categorical imperative in the present social context. In this context, the course is also about sexual segregation, sexual inequality, and the dynamics of interpersonal power. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, feminist studies, global information and enterprise, and Latin American studies/sociology combined, C. WEST

145. Sociology of Masculinities. *

Examines conflicting views on the development and state of modern masculinity as adaptation, transitional phase, or pathology. Did men lose the "gender war"? Do boys need rescuing? What are common and divergent social experiences of men within race, class, gender, culture, era? An introductory sociology course recommended. (Formerly Sociology of Men.) Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, psychology, global information and social enterprise, and Latin American studies/sociology combined majors. C. MCCULLEN

146. Sociology of Violence, War, and Peace. *

Explores key issues, theories, and topics in the study of violence, war, and peace. Addresses aspects of aggression, personal violence, political violence, and war. In addition, various strategies for the prevention of violence and war are examined. THE STAFF

149. Sex and Gender. *

Modern analyses of sexuality and gender show personal life closely linked to large-scale social structures: power relations, economic processes, structures of emotion. Explores these links, examining questions of bodily difference, femininity and masculinity, structures of inequality, the state in sexual politics, and the global re-making of gender in modern history. Recommended as background: any lower-division sociology course. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors. C. WEST

150. Sociology of Death and Dying. S

Explores contemporary, historical, cross-cultural and interdisciplinary perspectives on the social psychology of death and dying. Cultural norms and institutional contexts are studied, along with the individual experience, and the ways in which our perspectives on death and dying influence our experiences of life and living. Enrollment restricted to juniors and seniors. W. MARTYNA

152. Body and Society. F

Critically examines the place of the human body in contemporary society. Focuses on the social and cultural construction of bodies, including how they are gendered, racialized, sexualized, politicized, represented, colonized, contained, controlled, and inscribed. Discusses relationship between embodiment, lived experiences, and social action. Focuses on body politics in Western society and culture, especially the United States. Prerequisite(s): course 105A or course 105B.

Enrollment is restricted to junior and senior majors and minors in sociology, global information and enterprise, and Latin American studies/sociology combined. Enrollment limited to 50. C. MCCULLEN

153. Sociology of Emotions. F

Examines sociological approaches to the understanding of emotions and the application of these approaches to work, learning, interpersonal relationships, health and illness, sports, and other aspects of everyday life. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors. W. MARTYNA

154. Cross-National and Cross-Cultural Research. *

Examines a variety of theoretical, methodological, and substantive approaches to cross-national and cross-cultural research. Focuses on the importance and variety of cross-national and cross-cultural studies. Prerequisite(s): course 103B. Enrollment limited to 20. THE STAFF

155. Political Consciousness. *

Explores the relationship between consciousness, ideology, and political behaviors from voting to rebellion. Special attention is given to the lived experience and the identity interests that complicate the nexus of class position and political ideology. An introductory sociology course is recommended as preparation. G. DOMHOFF

156. U.S. Latina/o Identities: Centers and Margins. *

Explores historical and contemporary constructions of Latina/o identities and experiences in U.S. Particular emphasis placed on transnational social contexts, racial formations, and intersections with other identities including sexuality and gender. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and enterprise, Latin American studies, and Latin

Sociology

American studies/sociology combined. Enrollment limited to 50. (General Education Code(s): ER.) V. TERRIQUEZ

157. Sexualities and Society. *

Explores controversies in the sociology of sexuality. Focuses on tensions and disagreements that characterize debates over sex and society, and attempts to identify political and theoretical issues at stake in these debates. Enrollment restricted to sophomore, junior and senior majors, proposed majors, and minors in sociology, feminist studies, global information and social enterprise, and Latin American studies/sociology combined. Enrollment limited to 30. D. GOULD

158. Politics of Sex Work and Erotic Labor. *

Examines sex work in an historical and cultural context, considering how it has changed over time. Considers the relationship of pornography, exotic dance, and selling sex on the Internet to racialization, queer politics, globalization, and tourism. Employs theories and methods of cultural studies in rethinking historical debates on sex work. Prerequisite(s): courses 120 and 126. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, feminist studies, global information and social enterprise, and Latin American studies/sociology combined. J. BETTIE

160. Project Homeless Connect: The Integration of Theory and Practice. *

Discusses concepts of social research, development, and culture as they relate to homelessness at both the local and global level. Themes include: the existence of power and resistance in society and the mechanism for social reproduction and change. Enrollment by interview only. Enrollment restricted to juniors and seniors. Enrollment limited to 20. THE STAFF

161. Animals and Society. *

Non-human animals make up an important part of human society.

We look at them as food and clothing, as symbols in our language and schools, in entertainment and recreation, in science and medicine, and they have a huge impact on our economy. Some non-human animals we define as family members, and others, as things to be bought and sold. This course explores the complex role of non-human animals in human societies, examining how we, as humans, socially construct animals. Enrollment by permission of instructor. Enrollment limited to 20. C. WEST

162. Dutch Society. *

Reviews Dutch history from its religious wars, Golden Age colonial conquests, and state formation through the Nazi occupation, 1960s revolts, and the assassinations after 2000. Focuses on the rise of the Netherlands' famed culture of tolerance and its fall in the face of Islamic immigration. Enrollment limited to 30. (General Education Code(s): CC.) C. REINARMAN

163. Global Corporations and National States. *

Examines the nature and development of the capitalist world system since 1945. Emphasis is on the power of multinational corporations as managers of the world system and the response of states: role of multilateral agencies such as the World Bank, International Monetary Fund, United Nations. Prerequisite(s): course 15. Enrollment is restricted to sophomore, junior, and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. H. SHAPIRO

164. Capitalism and Its Critics. *

Through comparative analysis of texts by several social theorists, explores the rise and consequences of capitalism. How has capitalism affected how humans understand and act in the world? How do oppressions along the lines of race, gender, sexuality, and nations intersect with capitalism? Is resistance desirable and/or possible? Enrollment restricted to

junior and senior sociology, global information and enterprise, and combined Latin American and Latin Studies/sociology majors, proposed majors, and minors, or by instructor permission. (General Education Code(s): TA.) D. GOULD

164T. Marx and Marxist Theory. *

Along with studying Marx's anatomy of capitalist society, this course also explores the work of Marxist theorists from the early 20th century through the contemporary moment. (Formerly Social Theory and the Marxian Tradition.) Prerequisite(s): course 105A or consent of instructor. D. GOULD, B. CROW

165. World Systems Perspective. *

Seminar on the intellectual origins and contemporary exponents of the world-systems perspective in the social sciences: Marx, Braudel, Polanyi, Arrighi, Wallerstein. Prerequisite(s): courses 105A and 105B or permission of instructor. THE STAFF

166. Economics for Non-Economists. *

Fosters economic literacy among students who are not economics majors but are interested in the political and social ramifications of economic change. Emphasizes economic institutions and policy and is taught by case-study method, which requires active student participation. Enrollment restricted to juniors and seniors. Enrollment limited to 40. H. SHAPIRO

167. Development and Underdevelopment. W

Examines contemporary debates about development in the Third World: alternative meanings of development, recent work on the impact of colonial rule, how some economies have industrialized, ideas about agrarian change, and recent research on paths out of poverty. Students work in pairs to examine a development in one country since World War II. Prerequisite(s): course 15, or by permission of the instructor. Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and

Sociology

minors in sociology, anthropology, politics, global economics, global information and social enterprise, and Latin American studies/sociology combined majors. B. CROW

168. Social Justice. S

What is social justice? People answer this question differently, depending upon their sociological perspective. Using a combination of political philosophy and sociological studies, explores five perspectives on social justice within the Western sociological tradition:

utilitarianism, Marxism, liberal egalitarianism, communitarianism, and pluralism. Students pick a topic and learn to articulate different visions of socially just change based on these perspectives.

Prerequisite(s): course 105A.

Enrollment limited to 60. W. MARTYNA

169. Social Inequality. *

A survey of theories and systems of social stratification focusing on such phenomena as race, class, power, and prestige. Enrollment restricted to junior and senior sociology and Latin American studies/sociology combined majors. Enrollment limited to 48. D. TAKAGI

170. Ethnic and Status Groups. *

Examines the enduring and changing status of ethnic and other visible minority groups in the United States, e.g., Latinos, Asian Americans, African Americans, and immigrants, with comparative materials drawn from other societies. An introductory course in ethnicity and race is recommended as preparation. Enrollment restricted to sophomore, junior, and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined.

Enrollment limited to 50. Satisfies American History and Institutions Requirement. Y. SHERWOOD

171. Exploring Global Inequality. *

Seminar focusing on readings of key texts and recent research papers on several dimensions of global inequality (material, health, gender,

cultural, migration) to find innovative ways of understanding the connections among different dimensions of inequality and of visualizing inequality in digital media. Students prepare visual presentations on contemporary social inequalities suitable for an online (for example, <http://ucatlas.ucsc.edu/>) or print atlas. Enrollment restricted to seniors. Enrollment limited to 30. B. CROW

172. Sociology of Social Movements. *

Through readings on social movements that span the 20th century, course examines the causes of popular mobilizations, their potential for rapid social change, and the theories developed to understand and explain their role in modern social life. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors. Enrollment limited to 40. (General Education Code(s): PE-H.) D. GOULD

173. Water. *

Analyzes access to clean water, both in the American West and global South. Reviews water quality, pivotal role of water in settlement and society, history and contemporary inequalities, water supplies, international conflict over water, climate change, and human use of water. Enrollment is restricted to junior and senior sociology majors, and proposed majors, and minors in sociology, environmental studies, global information and social enterprise, and Latin American studies/sociology combined. Enrollment limited to 60. (General Education Code(s): PE-E.) B. CROW

173X. Water and Sanitation Justice. S

In the global North and South, inequalities in water and sanitation are issues of justice as much as income. One billion people worldwide lack safe water, 2.5 billion lack basic sanitation. Course

explores: North-South comparison, water governance, human rights, poverty, climate justice, irrigation, and more. (General Education Code(s): PE-E.) B. CROW

174. Twenty-First-Century African American Social Structure. *

A sociological overview of African American society in the 21st century. The changing patterns of social/cultural organization, class structure, and modes of political action are analyzed. This analysis is located within the framework of migration, urbanization, and social struggle among black Americans. Prerequisite(s): course 10 or 20. THE STAFF

176. Women and Work. *

Examines the history of women and work; women's current conditions of work and political, economic, and social factors affecting these conditions; means by which women may shape working conditions including contributing leadership, developing policies, building unity, and creating alliances. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, feminist studies, global information and social enterprise, and Latin American studies/sociology combined. THE STAFF

176A. Work and Inequality. *

Addresses how work is organized and shapes life changes. Covers: the history of paid work; the impact of technology; race/class/gender at work; professional and service work; work and family; collective responses to work; and challenges of work in a globalizing economy. (Formerly Work and Society.) Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, community studies, global information and social enterprise, and Latin American studies/sociology combined majors. S. MC KAY

177. Urban Sociology. *

Historical and contemporary examination of urban life including community, race, geography, urban and suburban cultures and lifestyles, stratification, housing,

Sociology

crime, economic and environmental issues, demographic changes, and global urbanization. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. Enrollment limited to 60. M. GREENBERG

177A. Latinos/as and the American Global City. *

Examines roles of emerging Latino/a majorities in urban centers across the U.S. Explores the "Latinization" of U.S. cities and various factors affecting the life chances of Latinos/as including, but not limited to, immigration, segregation, social movements, and other forms of political participation. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, Latin American and latino studies, global information and social enterprise, and Latin American studies/sociology combined. Enrollment limited to 40. THE STAFF

177E. Eco-Metropolis: Research Seminar in Urban and Environmental Studies. *

Explores the intersection of cities and the environment through the emerging field of urban environmental studies. Focuses on varied and often contested efforts at "urban sustainability" in recent history. Draws on literatures in environmental history, environmental and urban sociology, geography, political ecology, and cultural studies. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, community studies, global information and social enterprise, and Latin American studies/sociology combined. M. GREENBERG

177G. Global Cities. *

Explores how "global cities" have facilitated increasing integration of the diverse cultures and economies of the world. Using historical, sociological, and comparative

methods, analyzes how these spaces both enable and constrain transnational flows of capital, labor, information, and culture. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, community studies, global information and social enterprise, and Latin American studies/sociology combined. M. GREENBERG

178. Sociology of Social Problems. W

Views "problems" in society not as given but as social constructs. Examines the ways in which conditions in society become identified and defined as problems and consequences that follow from such a process. Prerequisite(s): courses 105A and 105B. Enrollment is restricted to junior and senior majors and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. THE STAFF

179. Nature, Poverty, and Progress: Dilemmas of Development and Environment. F

Concerns about environmental change, including global warming, threats to the ozone layer, and industrial pollution, raise questions about Third World development. Simple views of the relation between society and nature, such as blaming population growth, industrialization, or poor people, seem to preclude higher living standards. Uses debates and case studies to explore more subtle and optimistic views of social-natural relations. Restricted to sophomore, junior, and senior majors, proposed majors, and minors in environmental studies, sociology, global information and social enterprise, and Latin American studies/sociology combined majors. Course 15 recommended. B. CROW

179L. Nature, Poverty, and Progress Laboratory. *

For enrollees in course 179, this optional lab provides opportunity to research ideas and produce a rough business plan for green enterprise of choice. Examples

include compostable packaging, gray water systems, sustainable manufacturing, solar-powered submarines, green consulting, and other enterprises. Concurrent enrollment in course 179 required. Enrollment limited to 20. B. CROW

180. Social Movements of the 1960s. *

Examines the roots, development, and political outcomes of black civil rights organizations during the Sixties. Explores social and structural forces, mobilization of black communities, strategies and tactics used, nature of the relationships between various civil rights organizations, unity and disunity among organizations, leadership gains, and impact on race relations in the U.S. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors. Enrollment limited to 45. THE STAFF

184. Hunger and Famine. *

Why do famines happen? Why are some hungry and some over-fed? Recent advances in the understanding of food crises and chronic undernutrition are the focus of this course. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined. B. CROW

185. Environmental Inequality. *

Modern society not only assaults nature, it does so in ways that reproduce existing social inequalities. Reviews three types of contemporary environmental inequality (environmental racism, displacement, and privilege), and the processes that produced them focusing on industrialization, urbanization, and the rise of capitalism in Europe and the United States. Enrollment is restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social

Sociology

enterprise, environmental studies, and Latin American studies/sociology combined. (General Education Code(s): PE-E.) L. DILLON

186. Field Research Methods. * Introduction to field research methods that consider theory, methodological challenges, and epistemology in conducting research. Explains the research process, including designing research questions, interview instruments, concepts maps, and methods of data collection, and data analysis. (Meets the methods requirement in Latin America and Latino studies.) (Also offered as Latin American & Latino Studies 186. Students cannot receive credit for both courses.) Prerequisite(s): course 100, and 100A or 100W. Enrollment restricted to junior and senior Latin American and Latino studies majors, minors, and combined majors and Sociology majors. THE STAFF

187. Feminist Theory. * Examination of shifts in 20th- and 21st-century feminist theory and epistemology. Considers various deconstructive challenges to second wave feminism based on the politics of race, ethnicity, nation, sexuality, and class. Focus changes regularly. Prerequisite(s): course 105B, and either course 144 or 149 or Feminist Studies 1 or 100. Enrollment limited to 35. D. GOULD

188A. Social Change in the Global Economy. * Explores local dimensions of globalization, focusing on experiencing more global divisions of labor in both industrialized and developing countries. Themes include: economic integration and dislocation; new forms of governance; globalizing consumption and culture; gender; and popular resistance. Prerequisite(s): course 15. Enrollment restricted to junior and senior majors, proposed majors, and minors in sociology, global information and social enterprise, and Latin American studies/sociology combined majors.

(General Education Code(s): CC.) S. MC KAY

190. Proseminar.

193. Field Study. F,W,S Provides for (department-sponsored) individual field study in the vicinity of the campus under the direct supervision of a faculty sponsor (as opposed to course 198 where faculty supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

193F. Field Study (2 credits). F,W,S Provides for department-sponsored individual field study in the vicinity of campus under the direct supervision of a faculty sponsor. May not be counted toward major requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194F. Group Tutorial (2 credits). F,W,S Small group study of a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

195A. Senior Thesis. F,W,S Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Prerequisite(s): course 103B. Students submit petition to sponsoring agency. THE STAFF

195B. Senior Thesis. F,W,S Preparation of a senior thesis over

one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Prerequisite(s): course 103B. Students submit petition to sponsoring agency. THE STAFF

195C. Senior Thesis. F,W,S Preparation of a senior thesis over one, two, or three quarters, beginning in any quarter. The senior thesis satisfies the comprehensive requirement. Course is for independent thesis research and writing. Courses may be taken consecutively or concurrently. Completion of course 195C (completion of the thesis) satisfies the W general education requirement. Prerequisite(s): course 103B and satisfaction of the Entry Level Writing and Composition requirements. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

196A. Capstone: The Sociologist as Public Intellectual. S Students hear a selected group of faculty discuss their current research and how that research furthers public understanding and discussion of some vital contemporary social issue. Enrollment restricted to junior and senior sociology majors. M. GREENBERG

196B. Capstone: The Sociologist as Public Intellectual. S Students hear a selected group of faculty discuss their current research and how that research furthers public understanding and discussion of some vital contemporary social issue. This version of the capstone is only available to students who have consulted with the department and were determined to need the alternate Disciplinary Communications (DC) requirement. Students must consult with the department to determine if they cannot satisfy the DC requirement through the regular pathways,

Sociology

course 103B or courses 105A and 105B. Prerequisite(s): Consultation with department undergraduate adviser. Enrollment restricted to junior and senior sociology majors. D. GOULD

196G. Project Practicum: Global Information and Social Enterprise. F,W,S

Project summary and evaluation are required for completion of minor in global information and social enterprise studies (GISES). Projects require approval in advance by director of GISES. Completed projects must be uploaded electronically on the web site or archive of the global information internship program.

Prerequisite(s): courses 30A, 30B, and 30C. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for (department-sponsored) individual study program off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Ordinarily call numbers for this course will not be issued after the first week of instruction. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Advanced directed reading and research. Petitions may be obtained from the Sociology Department Office. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Advanced directed readings and research. Petitions may be obtained from the Sociology Department Office. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

201. The Making of Classical Theory. F

Examines the establishment of "theory" in the discipline of sociology. Introduces students to

close readings and analysis of a core selection of social theory.

Problematizes the construction, maintenance, and reproduction of a theoretical canon in sociology. Enrollment restricted to graduate students in sociology and by permission number. Enrollment limited to 20. M. GREENBERG

202. Contemporary Sociological Theory. W

Intensive survey of major tendencies in modern social thought, including functionalism, symbolic interactionism, ethnomethodology, critical theory, structuralism, phenomenology, neo-Marxism, and feminist theory. Enrollment restricted to graduate students in sociology and by permission number. L. DILLON

203. Sociological Methods. F

Approaches methods as a series of conscious and strategic choices for doing various kinds of research. Introduces students to the epistemological questions of method in social sciences; to key issues in "technique," particularly control, reliability, and validity; and to good examples of social research. Enrollment restricted to graduate students in sociology and by permission number. V. TERRIQUEZ

204. Methods of Quantitative Analysis. W

Students are provided with intuitive explanation of fundamental concepts in statistics and learn how to use statistics to answer sociological questions. Experience and guidance in using computers to efficiently analyze data are provided. Enrollment restricted to graduate students in sociology and by permission number. Enrollment limited to 20. H. FUKURAI

205. Field Research Methods. F

Gives students first-hand experience doing fieldwork with an emphasis on participant observation and some interviewing. Students submit weekly field notes and a final project analysis. At seminar meetings, field experiences and relevant literature are examined. Enrollment restricted to graduate students in sociology and by permission number. Enrollment

limited to 10. Offered in alternate academic years. J. BATTLE

206. Comparative Historical Methods. *

Overview of research strategies and methods used in historical and social sciences. Students read works exemplifying a variety of analytical approaches. Written assignments cultivate critical skills, weighing of tradeoffs inherent in all methodological choices, and elaboration of hypothetical research designs. Enrollment restricted to graduate students. Enrollment limited to 20. THE STAFF

208. Writing Practicum. W

Writing intensive course designed to facilitate the completion of the master's thesis, orals field statement, or the dissertation in sociology. The seminar is convened by a faculty member in conjunction with students and their adviser or appropriate committee chair. Students are expected to produce and present drafts of work completed in the seminar. Enrollment restricted to sociology graduate students and by permission number. Enrollment limited to 12. H. GRAY

209. The Analysis of Cultural Forms. S

Examines material and symbolic forms such as media products, cultural artifacts, language, nonverbal communication and social practices using discourse, textual, content, interpretive, and conversation analyses as well as ethnography and different channels of communication. Theoretically, relies on cultural studies, communication studies, cultural sociology, film studies, and ethnomethodology. Enrollment restricted to sociology graduate students. J. BETTIE

220. Global Transformation: Macrosociological Perspectives. F

Classical concepts and contemporary approaches in macrosociology, the study of large-scale, long term social change. Readings drawn primarily from the Marxian and Weberian traditions (new institutionalism, varieties of neo-Marxism, environmental

Sociology

history, state centrism) as they focus on agrarian and industrial structures and commodity chains; household, village, and neighborhood organization; social movements and revolutions; culture, ideology, and consciousness; policy analysis; comparative urban, national, and civilizational development. Enrollment restricted to graduate students in sociology. Enrollment limited to 15. B. CROW

222. Political Sociology. *

A survey of major works and themes in the relationship of politics and society, with primary emphasis on the compatibilities and contradictions of pluralist, elite, and class perspectives on the state. Enrollment restricted to graduate students. THE STAFF

223. Sociology of the Environment. *

Advanced treatment of the dominant ideas of nature and the environment in the West and their relationship to the development of Western capitalism. Leading Western theories of environmental crisis and their relation with ideologies of environmentalism and environmental movements. Enrollment restricted to graduate students. Enrollment limited to 20. May be repeated for credit. THE STAFF

224. Globalization: Theories and Social Movements. *

Examines the structures, processes, and movements associated with globalization processes. Reviews political economy theories, cultural theories systems, state industrial policies, and popular responses to globalization. Also assesses contribution of resistance movements informed by class, ethno-nationalism, religion, or gender. Enrollment restricted to graduate students. Enrollment limited to 25. Offered in alternate academic years. May be repeated for credit. THE STAFF

225. Political Economy for Sociologists. *

Examines rudiments of historical materialism in light of advances in cultural and ecological Marxism.

Basic categories of Marxist political economy. Thematic focus on the "first" and "second" contradictions of capitalism in world economy today. Enrollment restricted to graduate students. Enrollment limited to 15. B. CROW

227. Learning from Environmental Historians. *

Looks at several major themes in the sociology of the environment and asks how the works of environmental history address those themes. Includes reflections on how history as a method interrogates social questions. Possible themes include: sustainability; social justice; universalism vs. particularity; city and country; and social movements. Enrollment restricted to graduate students. Enrollment limited to 8. THE STAFF

229. Work and Labor Markets in the New Economy. W

Focuses on the interaction of work restructuring and existing race/class/gender inequalities. Themes include: the labor process and theories of consent; labor market segmentation; job and occupational segregation; information technologies, flexible work, and post-industrialism; flexible employment relations; and low-wage service and labor markets. Enrollment restricted to graduate students. S. MC KAY

230. Theory and Method in the Sociology of Marx. *

Examines theoretical and methodological implications of Marxist theory for empirical social research. Analyzes how historians and social scientists apply Marxist method in explaining society, social change, globalization, culture, and late capitalism. Goal is to assist students to employ Marxist theory and method creatively in their research projects. Enrollment restricted to graduate students. Enrollment limited to 12. THE STAFF

240. Inequality and Identity. S

Explores recent theoretical and empirical studies of race, class, gender, and sexuality with an emphasis on the production of

identities and their relationship to processes and structures of power in a postcolonial context.

Enrollment restricted to graduate students in sociology. H. FUKURAI

241. Cross-National and Cross-Cultural Research. *

Seminar examining theoretical and methodological issues in doing cross-national and cross-cultural research. In addition to a consideration of different research paradigms and approaches, representative works from each comparative tradition are examined. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

242. Feminist Research Seminar. *

Provides scholarly support to students doing feminist research. Examines issues concerning conceptualization of feminism and feminist research. Explores relation of feminist research to intersections of gender, class, and race; to the self; to power; and to transformative social praxis. Students present and are given assistance with their work, as well as listen to, read, and assist with the work of others. Enrollment restricted to graduate students. Enrollment limited to 10. THE STAFF

244. Race and Ethnicity. S

A critical survey of the theoretical issues of persistence and change, public policy, and recent empirical studies in the field of race and ethnic relations. Readings introduce comparative race relations and a historical background of major theoretical paradigms in the field which purport to explain race and ethnic relations in general and race relations in America specifically. Enrollment restricted to graduate students. Enrollment limited to 15. Offered in alternate academic years. V. TERRIQUEZ

245. Feminist Theory. *

Examination of shifts in 20th- and 21st-century feminist theory and epistemology. Explores the decentering of universalist feminist theories and asks what constitutes feminist theory after gender has

Sociology

been decentered. Considers various deconstructive challenges to second-wave feminist theory based on the politics of race, ethnicity, nation, sexuality, and class. Focus changes regularly. Enrollment restricted to sociology graduate students. Enrollment limited to 12. J. BETTIE

246. Class, Culture, and Movement. *

Analyzes impact of ethnicity, gender, and religion on the class situation of laboring people in a globalized economy by intensive reading and critique of classic studies, explaining how social movements reflect combinations of social relations and cultural practices. Enrollment restricted to graduate students. Enrollment limited to 15. THE STAFF

247. Race and Class. *

Introduces the student to the recent literature on race and class. Covers several different theoretical perspectives including internal colonialism, labor market segmentation theories, racial formation, and neo-gramscian cultural analyses. In addition to study of theory, also compares theoretical perspectives to the historical experience of minority groups, in particular, blacks, Hispanics, and Asians. Enrollment restricted to sociology graduate students. THE STAFF

249. Feminisms and Cultural Politics. *

Focuses on the role feminist discourses play in contemporary cultural politics with the main focus on the politics of sex, sexuality, and sex work. Begins with considerations of (mis)representations of feminisms in popular cultures; considers the relationship between academic and popular feminisms; and interrogates the meaning of terms POST-FEMINISM and THIRD-WAVE FEMINISM. Enrollment restricted to graduate students. J. BETTIE

250. Course Design and Grant-Writing Seminar. *

A professional training seminar devoted to the philosophical, conceptual, and practical issues of

course design, pedagogy, and grant writing. Topics covered: institutional contexts; curriculum (including syllabi, course content, assignments, evaluation); pedagogy; teaching as work/labor process; grant writing; budgets. Enrollment restricted to sociology graduate students. Enrollment limited to 15. R. LONDON

252. Symbolic Interactionism and Sociology of Emotions. *

Examines classic and contemporary theories and concepts that play a major role in sociological studies of identity, symbolic and social interaction, and the sociology of emotions. Examines how cultural forms, rules, and rituals define, structure, and mediate emotions and how identities are situated within social institutions. Enrollment restricted to graduate students. Enrollment limited to 10. THE STAFF

253. Race, Crime, and Justice. *

An introduction to comparative and historical analyses of relations between race and the criminal justice system. Specific topics include defining race/ethnicity, sentencing disparities, jury nullification, jury selection and decisions, prosecutorial misconduct, government's charging and investigative discretions, and other racially biased law enforcement practices and criminal court processes. Also covers a number of highly publicized trials that involved unmistakable elements of race and racism such as Chin, King, Simpson, and Unabomber cases. Students are also exposed to World Wide Web (Internet) to learn how to do research in the field of criminal justice. Enrollment restricted to graduate students. Enrollment limited to 15. H. FUKURAI

255. Engaging Cultural Studies. *

Examines feminist and ethnic studies production, appropriation, and transformation of cultural studies theories and methodologies. Considers the utility of various theoretical apparatuses and methodological strategies employed in the interdisciplinary site that

combines feminist, ethnic, and cultural studies. Enrollment restricted to graduate students. Enrollment limited to 15. J. BETTIE

256. Urban Sociology. *

Introduction to core writings and key theoretical paradigms in urban sociology. Examines the history and contemporary conditions of cities in the U.S. and the urban experience. Urbanization, suburbanization, community, social inequality, urban politics, relationship between the built environment and human behavior. Enrollment restricted to graduate students. M. GREENBERG

257. Colonialism, International Law, and Global Justice. *

Examines colonialism, war crimes, crimes against humanity, and legal remedies, and the role of the International Criminal Court (ICC); traces the history of colonial expansionism, starting from the Roman Empire to the present American imperial dominance in global politics. Enrollment restricted to graduate students. Enrollment limited to 15. H. FUKURAI

258. Global Lay Justice Systems and Direct Democracy. *

Introduces historical analysis of lay justice participation. Examines global exploration of the use of lay judge institutions in citizen's movements and the assumption that juries are a derivative institution of democratic ideals. Focuses on corporate media creation of anti-jury sentiment. Enrollment restricted to graduate students. Enrollment limited to 10. H. FUKURAI

259. Space and the Politics of Difference. *

Brings together the fields of sociology and geography to explore the complex and multiple ways of thinking together space and social difference. Course texts examine the co-constitution of space with bodies, subjectivities, and social formations. Enrollment restricted to graduate students. Enrollment limited to 12. L. DILLON

260. Culture, Knowledge, Power. *

Sociology

An introduction to theoretical approaches and exemplary studies of culture, knowledge, and power which critically interrogate the relationship between cultural formations and the production, circulation, and meaning of knowledges, materials, artifacts, and symbolic forms. Explores the concrete ways that power is organized and operates through different forms and sites, how it interpolates with other forms of power, and examines knowledges and culture as specific forms of power and sites of political struggle. Enrollment restricted to sociology graduate students. Enrollment limited to 15. J. REARDON

261. Sociology of Knowledge. *

Explores three main issues: the social determination of knowledge, including natural science; the character of intellectual labor and intellectuals as a social group; the role of organized knowledge and "knowledge industries" in contemporary social change. Texts examined include class-based theories (Lukacs, Mannheim, Gramsci), feminist standpoint analysis (Smith, Harding, etc.), and theories of postmodern culture (Lyotard, Harvey, etc.). Enrollment restricted to graduate students. Enrollment limited to 20. THE STAFF

262. Cultural Practice and Everyday Life. *

Examines contemporary debates about the role of mass produced expressive symbols in modern industrial societies, and the circumstances of cultural production for its impact on the creation, organization, and use of cultural artifacts. Concern with the use and experience of popular symbols for the ways that their use involves the creation of meanings and the role of such meanings in the social organization of society. Enrollment restricted to graduate students. Enrollment limited to 10. H. GRAY

263. Cultural Politics of Difference. *

Considers the cultural turn and the turn to difference in understanding

relations of power and struggles over representation in studies of race, media, and culture. Examines national identity, difference, subjectivity, and authenticity, especially as they bear on quests to create new identifications, alignments, and efforts to protect existing identities. Enrollment restricted to graduate students. Enrollment limited to 10. H. GRAY

264. Science, Technology, and Medicine. *

Explores social and cultural perspectives on science, technology, and medicine. Analyzes theoretical approaches that open up "black boxes" of scientific and biomedical knowledge, including the politics of bodies, objects, and health/illness. Links are made to medical sociology. Enrollment restricted to graduate students. J. REARDON

268A. Science and Justice: Experiments in Collaboration. S

Considers the practical and epistemological necessity of collaborative research in the development of new sciences and technologies that are attentive to questions of ethics and justice. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Anthropology 267A. Students cannot receive credit for both courses.) Enrollment limited to 15. K. LYONS

268B. Science and Justice Research Seminar. *

Provides in-depth instruction in conducting collaborative interdisciplinary research. Students produce a final research project that explores how this training might generate research that is more responsive to the links between questions of knowledge and questions of justice. Prerequisite(s): Sociology 268A, Biomolecular Engineering 268A, Feminist Studies 268A, or Anthropology 267A. Enrollment by permission of instructor. Enrollment restricted to graduate students. (Also offered as Anthropology 267B. Students cannot receive credit for both courses.) Enrollment limited to 15. THE STAFF

282. Social Policy Research. *

Policy research. Covers a variety of theoretical perspectives found in policy studies. Surveys various methodological approaches used in policy research. Theories and methods linked to research agendas on the various phases of the policy life cycle. Students are required to design a research proposal. Enrollment restricted to graduate students. Enrollment limited to 10. Offered in alternate academic years. THE STAFF

290. Advanced Topics in Sociological Analysis. *

The topics to be analyzed each year vary with the instructor but focus upon a specific research area. Enrollment restricted to graduate students by consent of the instructor. May be repeated for credit. THE STAFF

293. Going on the Job Market. *

A seminar devoted to the practical problems of securing a job as a professional sociologist. Topics covered: researching colleges, universities, and public and private organizations that employ sociologists; designing a curriculum vitae; writing an application letter; preparing a "job talk;" handling questions during the interview process; the etiquette of visiting (and its aftermath); finding out about them; and the terms of employment: what is negotiable and what is not. Enrollment restricted to graduate students. C. WEST

294. Writing for Social Scientists. *

Seminar on the genres of social science writing, and the problems of starting and finishing a publishable thesis, book, or article. For advanced graduate students working on the composition of their dissertations and journal articles. Enrollment restricted to graduate students. Enrollment limited to 10. THE STAFF

297. Independent Study. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

299. Thesis Research. F,W,S

Students submit petition to

Sociology

sponsoring agency. May be repeated for credit. THE STAFF*

Not offered in 2017-18

SPANISH AND SPANISH FOR HERITAGE SPEAKERS

2017-18 General Catalog

Department of Languages and Applied Linguistics
218 Cowell College
(831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Spanish can enroll in a wide range of Spanish language or Spanish for Heritage speakers (SPHS) courses, from beginning to advanced levels. The language and culture sequence of lower-division courses (Spanish 1-6 as well as Spanish for Heritage Speakers 4-6) and upper-division series (Spanish 114, Spanish for Heritage Speakers 115, Spanish 140, Spanish 156 and Spanish 150-154 courses) are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing as well as meta-linguistic and cultural competence. Students are strongly encouraged to finish year-long sequences without interruption and, if possible, to study in Spanish-speaking countries. Students can pursue a major in Spanish Studies or select from among several programs that require some coursework in Spanish, including: a major or minor in language studies, a major in literature with an emphasis in Spanish/Latin American/Latino literatures, a major in Latin American and Latino studies, or a major in global economics.

SPANISH

Students interested in taking Spanish classes are required to take the placement examination (<http://ic.ucsc.edu/test/>) to enroll in the appropriate level. Students finishing a first year of instruction in Spanish (1-2-3) are encouraged to continue on to second-year (intermediate-level) by taking Spanish 4, 5, and 6. First-year students also have the option of enrolling in the accelerated sequence (1A and 1B), which is equivalent to three quarters of language study.

Declared human biology majors have priority enrollment in Spanish 5M, Medical Spanish, but others may enroll if there is space availability. Students are also encouraged to continue with the third-year Spanish 114, Spanish for Heritage Speakers 115, Spanish 140, and the Spanish 156 and Spanish 150-154 series in which a wide variety of topics are covered. For more information on the

courses offered in Spanish, please see the course descriptions.

SPANISH FOR HERITAGE SPEAKERS

SPHS has been developed for heritage speakers who, although raised in Spanish-speaking communities or households, are not yet fully proficient in Spanish. SPHS courses take into account the experiences and influences of bilingual and bicultural upbringing.

SPHS students are encouraged to attend a group tutoring session once a week in addition to the regular class meetings. Some lower-division and all upper-division courses can fulfill requirements for several majors or departments, such as American studies, education, global economics, language studies, and Latin American and Latino studies.

Heritage speakers who are planning to continue with the Spanish Studies major are strongly encouraged to take the SPHS 4-5-6 sequence of courses. Keep in mind that this is a sequence which starts in the fall.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

STUDY ABROAD

The Office of International Education (OIE) offers programs ranging from four weeks (Summer Session) in Cuernavaca, Mexico to one quarter or one academic year in Buenos Aires; Argentina, Santiago, Chile; San Jose and Monteverde, Costa Rica; Morelia and Monterrey, Mexico, and Cordoba, Madrid, Alcala, Barcelona, and Granada, Spain. Generally, students must have completed Spanish 6 or SPHS 6 by the end of the sophomore year to qualify for a junior year abroad. Courses taken abroad can, with approval of an adviser, be applied to major requirements. For more information, see the OIE web site, (<http://oie.ucsc.edu>). For information on credit applied to a particular major, contact the appropriate department.

SPANISH AND SPANISH FOR HERITAGE SPEAKERS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Jorge Aladro Font (Literature)

Spanish mysticism, theory and historical developments of imagery in the Middle Ages to the baroque period, Renaissance and baroque Hispanic literature, Italian ideas in the Spanish Renaissance, Cervantes

Julianne Burton-Carvajal, Emerita (Literature)

Norma Klahn, Emerita (Literature)

Lourdes Martínez-Echazábal (Latin American and Latino Studies)

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora, cinema and social change in Cuba; critical race theory, queer literature and cinema in Latin America

Juan Poblete (Literature)

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th-century studies; the history of reading practices

ASSOCIATE PROFESSOR

Eve Zyzik

Second language acquisition, heritage languages, Spanish linguistics, cognitive and usage-based theory, language pedagogy, content-based instruction

ASSISTANT PROFESSOR

Mark Amengual

Bilingualism and language contact; acoustic phonetics; sociophonetics; L2 acquisition; language variation and change; Spanish and Romance linguistics

Amanda Smith (Literature)

Contemporary Latin American literatures; indigeneity and shamanism; ecocritical theory; geocriticism; space and mapping

Zac Zimmer (Literature)

Contemporary and comparative colonial-contemporary Latin American literatures and cultural studies; science and technology in society; politics, aesthetics and technology; new media; science fiction

TEACHING PROFESSOR

Maria Victoria González-Pagani

Language teaching methodology; Spanish syntax; computer-assisted foreign language learning; Latin American cultural studies, especially women's contributions

LECTURER

Ignacio Aznar, Emeritus

Byron Barahona

Language acquisition and teaching methodology, Latin American literature and culture

Olga Martínez-Guerrero

Language acquisition and teaching methodology; Spanish vocabulary; cultural and social aspects of the Spanish language; Spanish literature as a resource for language teaching; Spanish for specific purposes: medical Spanish

Marta Navarro

Spanish language pedagogy for heritage speakers and non-native speakers; theater; Mexican popular culture

Ariel Pérez

Language acquisition and teaching methodology, computer-assisted language learning, teaching language for proficiency, oral proficiency assessment; Latin American current affairs

Alvaro Romero-Marco

Spanish literature of the 19th- and 20th-centuries; film, cultural studies

SPANISH COURSES

LOWER-DIVISION COURSES

1. First-Year Spanish.

The first-year program is aimed at developing proficiency in Spanish. Listening, speaking, reading, and writing are addressed through classroom practice and supplemented by language laboratory work. Classes are taught entirely in Spanish and are held three days a week. (Formerly Instruction in the Spanish

Language.) Prerequisite(s): Placement into Spanish 1 via the online Spanish Placement Examination. THE STAFF

1A. Accelerated Beginning Spanish. W

The first part of a sequence (courses 1A and 1B) that covers first-year Spanish in two quarters. Taught entirely in Spanish at an accelerated pace. Aimed at developing students' proficiency in speaking, listening, reading, and writing. Prerequisite(s): Placement

into Spanish 1 via the online Spanish Placement Examination. THE STAFF

1B. Accelerated Beginning Spanish. S

The second part of a sequence (courses 1A and 1B) that covers first-year Spanish in two quarters. Taught entirely in Spanish at an accelerated pace. Aimed at developing students' proficiency in speaking, listening, reading, and writing. Prerequisite(s): course 1A. THE STAFF

Spanish and Spanish for Heritage Speakers

2. First-Year Spanish.

The first-year program is aimed at developing proficiency in Spanish. Listening, speaking, reading, and writing are addressed through classroom practice and supplemented by language laboratory work. Classes are taught entirely in Spanish and are held three days a week. (Formerly Instruction in the Spanish Language.) Prerequisite(s): course 1 or placement into Spanish 2 via the online Spanish Placement Examination. THE STAFF

3. First-Year Spanish.

The first-year program is aimed at developing proficiency in Spanish. Listening, speaking, reading, and writing are addressed through classroom practice and supplemented by language laboratory work. Classes are taught entirely in Spanish and are held three days a week. (Formerly Instruction in the Spanish Language.) Prerequisite(s): course 2 or placement into Spanish 3 via the online Spanish Placement Examination. THE STAFF

4. Second-Year Spanish.

Includes comprehensive grammar review, composition, readings, and discussion. Reading and audiovisual material deal with various sociopolitical and cultural issues in the Spanish-speaking world. Classes are conducted in Spanish. Prerequisite(s): course 1B or 3 or placement into Spanish 4 via the online Spanish Placement Examination. (General Education Code(s): CC.) THE STAFF

5. Second-Year Spanish.

Includes comprehensive grammar review, composition, readings, and discussion. Reading and audiovisual material deal with various socio-political and cultural issues in the Spanish-speaking world. Classes are conducted in Spanish. Prerequisite(s): course 4 or placement into Spanish 5 via the online Spanish Placement Examination. (General Education Code(s): CC.) THE STAFF

5M. Medical Spanish.

Students learn medical vocabulary, useful expressions, suitable

grammatical structures, and cultural background to be able to interact with Spanish-speaking patients and doctors. Medical Spanish fulfills language requirement for the health sciences and human biology majors. Prerequisite(s): Spanish 4; or Spanish for Heritage Speakers 4, or 5, or 6; or placement into Spanish 5 via the online Spanish Placement Examination. Enrollment restricted to health sciences and human biology majors. (General Education Code(s): CC.) THE STAFF

6. Second-Year Spanish.

Increases oral and written proficiency using authentic reading materials which focus on such topics as social class, ethnicity, education, religion, economic, and political developments in the Spanish-speaking world. Prerequisite(s): course 5 or 5M or placement into Spanish 6 via the online Spanish Placement Examination. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

105. Introducción a Spanish Studies. W

Speaking, reading, and writing proficiency in Spanish is required. Explores the social, cultural, economic, and political changes that connect Latin America, Spain, and the United States Latina/o communities. Critical approach designations: Geographies, Power and Subjectivities. Distribution

requirement: Global. (Formerly Introduction to Spanish Studies.) (Also offered as Literature 189C. Students cannot receive credit for both courses.) Prerequisite(s): course 6 or Spanish for Heritage Speakers 6 or permission of instructor. (General Education Code(s): ER.) THE STAFF

114. Advanced Conversation and Composition. S

Advanced conversation and composition based on extensive readings in the humanities and social sciences. Students interested in this course who have not taken the prerequisite should meet with the instructor prior to the first class meeting. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; SPAN 6, or SPAN 56, or SPSS 63, or SPHS 6, or placement into Spanish 114 via the online Spanish Placement Examination THE STAFF

140. Sounds of Spanish. W

Examines the sound system of Spanish, compares the English and Spanish systems of pronunciation, and teaches the phonetic/phonological variation across dialects of Spanish. Prerequisite(s): course 6 or Spanish for Heritage Speakers 6, and Linguistics 50. Enrollment limited to 25. M. AMENGUAL, THE STAFF

150. Topics in Hispanic Linguistics: Introduction to Hispanic Linguistics. F

Taught in Spanish. Students learn the major properties of the Spanish language from a linguistics perspective. Topics covered include: phonetics/phonology, morphology, and syntax. (Formerly Languages 150.) Prerequisite(s): Linguistics 50; and Spanish 6 or Spanish for Heritage Speakers 6 or equivalent Spanish proficiency. M. GONZALEZ PAGANI, E. ZYLIK, M. AMENGUAL, (F) THE STAFF

151. Topics in Hispanic Linguistics: Varieties of Spanish. S

Taught in Spanish. Explores the linguistic variety of the Spanish language in the Iberian Peninsula, the former Spanish colonies, and the Americas from a descriptive,

Spanish and Spanish for Heritage Speakers

synchronic perspective. Issues of languages in contact, variation in speech communities, and bilingualism are also introduced. Prerequisite(s): course 150. Enrollment restricted to senior Spanish studies majors. THE STAFF, M. AMENGUAL, E. ZYZIK, M. GONZALEZ PAGANI

152. Topics in Hispanic Linguistics: Spanish in the U.S. *

Taught in Spanish. Serves as a linguistic introduction to the varieties of Spanish that are currently spoken in the United States. Some central topics include: code-switching, language maintenance, and language contact phenomena. (Formerly Languages 152.) Prerequisite(s): course 150. Enrollment restricted to senior Spanish studies majors. Enrollment limited to 30. THE STAFF, M. AMENGUAL, E. ZYZIK, M. GONZALEZ PAGANI

153. Topics in Hispanic Linguistics: Spanish as a Second Language. S

Taught in Spanish. Examines the Spanish language as it is acquired and used by non-native speakers. Provides an overview of language-teaching methodologies and in-depth treatment of areas of Spanish grammar/lexicon that are generally problematic for English-speaking learners. Prerequisite(s): Spanish 150. Enrollment is restricted to senior Spanish studies majors. Enrollment limited to 30. THE STAFF, M. AMENGUAL, E. ZYZIK, M. GONZALEZ PAGANI

154. Topics in Hispanic Linguistics: Spanish Pragmatics. S

Explores how Spanish is used in context by speakers to achieve particular meanings and to realize various speech acts (e.g., requests, apologies, etc.) in socially appropriate ways. Pragmatic variation across the Spanish-speaking world is examined in depth. Prerequisite(s): course 6 or Spanish for Heritage Speakers 6; and course 150. Enrollment restricted to juniors and seniors majoring in Spanish studies, language studies or linguistics. E. ZYZIK, (F) THE STAFF

156. Topics in Hispanic Language and Culture.

An analytic study of 20th-century Hispanic language and culture as revealed in print and audio visual media.

156A. The Language of Latin America Cinema. *

Explores Latin American culture through its cinematic art. Students are exposed to and participate in discussion, analysis, and commentary on important social, historical, and political issues presented in the films. Provides a greater understanding of Latin America, and works toward advanced communicative proficiency and comprehension of linguistic variations in countries such as Cuba, Argentina, México, Bolivia, Chile, and others. Prerequisite(s): Spanish 6 or Spanish for Heritage Speakers 6 or placement into Spanish 156A via the online Spanish Placement Examination. (General Education Code(s): CC.) THE STAFF

156E. Spanish Culture. F

A broad survey of Spanish cultural topics, including history, politics, religions, art forms, music, and films. It is based on extensive conversations, discussion, and composition. Particular emphasis is placed on key changes that have occurred during the 20th century in Spain. Classes conducted through commentary on texts read (or viewed), oral presentations, and debate. Recommended for students preparing to go to Spain with EAP. Prerequisite(s): Spanish 6 or Spanish for Heritage Speakers 6 or placement into Spanish 156E via the online Spanish Placement Examination. A. ROMERO, THE STAFF

156F. El Humor en Español. W

Topic-oriented language course on sociopolitical and historical issues as seen through humor in different genres and media. Topics include Mafalda and Condorito (comic strips), Rius (collage of comic strips, photographs and original documents), Continflas and Almodovar (cinema), El Teatro Campesino (theater), Ana L., Vega

(literature), Les Luthiers (song and music). Course deals with written and oral discourse pertaining to the following Spanish language varieties: Rio de la Plata, Mexican, Caribbean, U.S., and Peninsular. Intensive writing and speaking in Spanish. Prerequisite(s): Spanish 6 or Spanish for Heritage Speakers 6 or placement into Spanish 156F via the online Spanish Placement Examination. (General Education Code(s): TA.) M. GONZALEZ PAGANI, THE STAFF

156J. Contemporary Central America. *

Introduces Central American cultures, including an overview of historical, political, and socioeconomic development, and cultural products, such as literature, film, and visual arts. Emphasis placed on the forces that shaped contemporary Central America, cultural and ethnic diversity, identity, revolutionary processes, diaspora, and building democracy in post-civil conflict societies. Draws attention to the linguistic features of Central American variations of Spanish. The class is conducted in Spanish with high expectations to enhance oral and written proficiency through writing assignments, research tasks, group presentations, analysis, discussion, and debate. Prerequisite(s): course 6 or Spanish for Heritage Speakers 6 or placement into Spanish 156J via the online Spanish Placement Examination. (General Education Code(s): CC.) B. BARAHONA, THE STAFF

156M. Mexico and the Southwest. *

An interdisciplinary survey of the cultural history of the Mexican people in both Mexico and the U.S. Southwest. Topics include literature, art, folklore, oral tradition, music, politics, as well as "everyday" cultural manifestations. Conducted in Spanish. May be counted toward fulfillment of upper-division major requirements for Latin American and Latino studies and language studies. (Formerly Spanish for Spanish Speakers 125.) Prerequisite(s): Spanish 6 or Spanish for Heritage

Spanish and Spanish for Heritage Speakers

Speakers 6 or equivalent Spanish proficiency. (General Education Code(s): CC.) M. NAVARRO, THE STAFF

190A. Temas de la literatura y cultura españolas y latinoamericanas. S

Speaking, reading, and writing proficiency in Spanish is required. Examines authors or issues in Spanish and Latin American literature and cultures. Course topics changes; see the Class Search for the current topic. Critical approach designations: Geographies, Histories. Distribution requirement: Senior Seminar.

Spanish studies majors may use this course to satisfy the Spanish studies senior exit requirement. (Formerly Topics in Spanish and Latin American Literature and Culture.) (Also offered as Literature 190X. Students cannot receive credit for both courses.) Prerequisite(s): Spanish 114 or Spanish for Heritage Speakers 115. Enrollment is restricted to senior Spanish studies majors. May be repeated for credit. (General Education Code(s): CC.) THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular

topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

SPANISH FOR HERITAGE SPEAKERS COURSES

LOWER-DIVISION COURSES

4. Spanish for Heritage Speakers. F

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on the United States, Mexico, and Spain. Students need to use the self-placement questionnaire posted on the Language Program web page. (General Education Code(s): CC.) THE STAFF

5. Spanish for Heritage Speakers. W

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on Central America and the Caribbean. Prerequisite(s): SPSS 61 or SPHS 4 or by consent of

program coordinator. (General Education Code(s): CC.) THE STAFF

6. Spanish for Heritage Speakers. S

Deals with orthography, lexicon development, morphology, syntax, and other linguistic topics as applied to the development of all language skills (listening, reading, speaking, and writing). Emphasizes reading and writing about well-known and pivotal authentic texts of varying genres and formats from the Spanish-speaking world. Emphasis is on South America. Prerequisite(s): SPSS 62 or SPHS 5. (General Education Code(s): CC.) THE STAFF

94. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Students submit petition to sponsoring agency. Enrollment limited to 10. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

115. El ensayo lectura, analisis y redaccion. F

Centers on three areas: essay reading, essay analysis and interpretation, and essay writing. Student read representative essays by Latin American writers, analyze their discourse structure, and apply the lessons learned to their own writing. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; Spanish 6 or Spanish for Heritage Speakers 6. Enrollment restricted to sophomore, junior, and senior Spanish studies majors. M. GONZALEZ PAGANI, THE STAFF

194. Group Tutorial. F,W,S

Provides a means for a small group of students to study a particular topic in consultation with a faculty sponsor. Enrollment limited to 10. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

SPANISH STUDIES

2017-18 General Catalog

Languages and Applied Linguistics

218 Cowell College

(831) 459-2054

<http://language.ucsc.edu>

PROGRAM DESCRIPTION

The interdisciplinary major in Spanish Studies is designed to offer students advanced linguistic proficiency in Spanish as well as a broad understanding of the historical and cultural developments of the Spanish-speaking world.

The Spanish Studies major at UCSC combines the strengths of language and applied linguistics with those of literary and cultural studies. The sequence of courses first exposes students to the academic registers of Spanish, a critical component for both heritage speakers and second language learners. Students then develop academic literacy in the language while gaining familiarity with the methods of analysis in different fields. The configuration of the major affords students flexibility in following their particular interests by choosing one of two tracks: (1) literature and culture or (2) language and linguistics.

These pathways within the major prepare students for a range of career possibilities that involve working with the Spanish-speaking public in a variety of professions (e.g., law, business, public service). Students may also pursue further training in teaching Spanish as a second language at the high school or university level.

- **Metalinguistic awareness.** Students will be able to describe the main features of the Spanish language (e.g., the sound system, the structure of sentences) and will be able to identify the main regional varieties of Spanish. Students will be able to articulate some of the main differences between English and Spanish using precise terminology.
- **Critical analysis.** Students will be able to comment with critical insight on a range of topics and cultural productions (e.g., literary texts, film, music) of the U.S., Latin America, and Spain. They will be able to read closely in order to evaluate historical ideas, arguments, and points of view.
- **Cultural and historical competency.** Students will be able to compare and contrast multiple interpretations of the same phenomena in different cultures. Students will be able to recognize and reflect on the social, cultural, economic, and political changes that connect Latin America, Spain, and U.S. and Latina/o communities.

PROGRAM LEARNING OUTCOMES

Graduates from the Spanish studies B.A. program should be able to demonstrate:

- **Advanced-level oral proficiency in Spanish.** Students will have the ability to use all the major timeframes (past, present, and future) in their speech and will be able to produce connected discourse of paragraph length. They will be able to satisfy the demands of work and/or school situations in Spanish with both accuracy and fluency.
- **Academic language and literacy skills in Spanish.** Students will be able to read and understand a wide range of authentic texts (e.g., academic articles, journalistic texts) in Spanish, including those with historical, sociological, and literary content. Students will be able to clearly explain their ideas in writing, demonstrating the ability to summarize, interpret, and substantiate an opinion or argument.

STUDY ABROAD

Spanish studies encourages students to take advantage of the UC Education Abroad Program (EAP). Some programs do not require prior language study while others have language prerequisites. Many of these programs provide students with the language skills needed to participate in regular university courses taught in the language of the host country. EAP opportunities in Spanish include Argentina, Chile, Mexico, Spain, and Costa Rica.

Students who participate in the EAP may petition to apply up to 5 courses (up to 25 upper-division credits) from EAP toward the major.

REQUIREMENTS FOR THE MAJOR

There are a total of 45 credits required for the Spanish studies major. See Program Major Requirements below for a breakdown of the credit requirements.

LOWER-DIVISION REQUIREMENTS

Spanish Studies

- Six courses in the regular track Spanish 1, 2, 3, 4, 5, 6; or three courses in the Spanish for Heritage Speakers (SPHS) track, SPHS 4, 5, 6; or equivalent proficiency;
- Linguistics 50, Introduction to Linguistics;
- History 11A, Latin America, Colonial Period; or History 11B, Latin American, National Period; or History 12, Introduction to Latino American History.
- Spanish 156A, The Language of Latin American Cinema
- Spanish 156B, The New Latin American Song
- Spanish 156C, Latin American Women's Voices
- Spanish 156E, Spanish Culture
- Spanish 156F, Humor in the Spanish Speaking World
- Spanish 156J, Contemporary Central America
- Spanish 156M, Mexico and the Southwest

UPPER-DIVISION REQUIREMENTS

Four required Spanish studies core courses (20 credits total):

- **Literature:** Literature 189A (formerly Spanish Literature 102A), From the Conquest to Sor Juana; or Literature 189B (formerly Spanish Literature 102B), Romanticism to Modernism (5 credits)
- **Spanish Studies:** Literature 189C (formerly Spanish Literature 105)/Spanish 105*, Introduction to Spanish Studies (cross-listed course) (5 credits)
- **Linguistics:** Spanish 150*, Topics in Hispanic Linguistics: Introduction to Hispanic Linguistics (5 credits)
- **Spanish Language:** Spanish 114, Advanced Conversation and Composition or Spanish for Heritage Speakers 115, El ensayo lectura, analisis y redacción (5 credits)

*Literature 189C (formerly Spanish Literature 105)/Spanish 105 and Spanish 150 must be taken prior to enrollment in or in conjunction with concentration courses.

CHOICE OF CONCENTRATIONS (CHOOSE ONE CONCENTRATION—3 COURSES, 15 CREDITS TOTAL)

Languages and Linguistics Track (three courses): Five-credit Spanish-language courses numbered 100-189, Spanish 199 and Languages 199 (except Spanish 150, Spanish 114, and Literature 189C (formerly Spanish Literature 105)/Spanish 105) are accepted with the permission of the Spanish studies director (or faculty adviser).

- Spanish 140, Topics in Hispanic Linguistics: The Sounds of Spanish
- Spanish 151, Topics in Hispanic Linguistics: Varieties of Spanish
- Spanish 152, Topics in Hispanic Linguistics: Spanish in the U.S.
- Spanish 153, Topics in Hispanic Linguistics: Spanish as a Second Language

Literature and Culture Track (three courses): Any five-credit literature course numbered 188-190, except Literature 189A (formerly Spanish Literature 102A), 189B (formerly Spanish Literature 102B), or 189C (formerly Spanish Literature 105); see below for examples:

- Literature 188B, Spanish Literature: Origins to 18th Century
- Literature 188E, Spanish Golden Age Theater
- Literature 188G, Literature and Life in Don Quijote and Other Cervantes Texts
- Literature 188I, Picaresque Novel
- Literature 188M, Spanish Literature: Nineteenth and Twentieth Centuries
- Literature 189E, Cuba
- Literature 189G, Cine y Literatura
- Literature 189H, La Globalizacion en/del Cine Latin/o Americano
- Literature 189L, Latin American Poetry
- Literature 189M, Spanish American Prose
- Literature 189N, Latin American testimonio
- Literature 189O, El cuento en Hispanoamérica: Variedades esteticas de la literatura breve in America Latina
- Literature 189Q, Fiction and Marginality: The Marginal at the Center
- Literature 189S, Popular Culture in Latin American Narrative
- Literature 189T, Historia de la lectura y los lectores: recepción y consumo cultural en el mundo Latino Americano
- Literature 189U, Modernidad y Literatura: El Boom de la novela latinoamericana

Electives (one upper-division course, 5 credits total): Choose from related 5-credit courses in Anthropology, Education, Feminist Studies, History, History of Art and Visual Culture, Latin American and Latino Studies, Linguistics, Sociology (see Elective Courses for Spanish Studies), or any upper-division Spanish Literature,

Spanish Studies

Spanish, or languages concentration courses not taken for concentration credit or capstone requirement.

CAPSTONE REQUIREMENT

In their senior year, Spanish studies majors must satisfy the senior exit requirement as described below:

Successful completion of a senior capstone course (a designated upper-division course taught in Spanish, 5 credits total). The senior capstone should be in the student's chosen concentration: language and linguistics, or literature and culture. Students must have senior standing and have completed at least three out of four core courses. The capstone course is in addition to the three upper-division concentration courses.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

The Disciplinary Communication general education requirement (DC requirement) is satisfied by successfully completing Spanish 114 or Spanish for Heritage Speakers 115.

DECLARING THE MAJOR IN SPANISH STUDIES

To qualify for the major in Spanish studies, students must have completed Spanish 4 or Spanish for Heritage Speakers 4 or equivalent with a grade of C or better, or receive a Spanish placement examination result of 50.

TRANSFER STUDENTS

In addition to the required courses to satisfy the campus general education requirements, transfer junior students are strongly advised to complete two years of Spanish language study in accredited two- and four-year institutions. Transfer students who arrive at UCSC with two years of Spanish language preparation should be able to complete the Spanish studies major in normative time. While it is not a condition of admission, students from California community colleges may complete the Intersegmental General Education Transfer Curriculum (IGETC) in preparation for transfer to UC Santa Cruz.

SPANISH STUDIES AFFILIATED FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

Jorge Aladro Font (Literature)

Spanish mysticism, theory and historical developments of imagery in the Middle Ages to the baroque period, Renaissance and baroque Hispanic literature, Italian ideas in the Spanish Renaissance, Cervantes

Norma Klahn, Emerita (Literature)

Lourdes Martínez-Echazábal (Latin American and Latino Studies)

Latin American and Caribbean literatures; Afro-Latin American literatures, cultures, and societies; found[n]ational narratives; Brazilian literature; literatures of Cuba and the Cuban diaspora, cinema and social change in Cuba; critical race theory, queer literature and cinema in Latin America

Juan Poblete (Literature)

Latin(o) American literatures; transnational/global cultures (literature, radio, film); Latin(o) American cultural studies; 19th-century studies; the history of reading practices

ASSOCIATE PROFESSOR

Eve Zyzik

Second language acquisition, heritage languages, Spanish linguistics, cognitive and usage-based theory, language pedagogy, content-based instruction

ASSISTANT PROFESSOR

Mark Amengual

Bilingualism and language contact; acoustic phonetics; sociophonetics; second-language acquisition; language variation and change; Spanish and Romance linguistics

Amanda Smith (Literature)

Contemporary Latin American literatures; indigeneity and shamanism; ecocritical theory; geocriticism; space and mapping

Zac Zimmer (Literature)

Contemporary and comparative colonial-contemporary Latin American literatures and cultural studies; science and technology in society; politics, aesthetics and technology; new media; science fiction

TEACHING PROFESSOR

Maria Victoria González-Pagani

Language teaching methodology; Spanish syntax; computer-assisted foreign language learning; Latin American cultural studies, especially women's contributions

<http://stevenson.ucsc.edu/>

PROGRAM DESCRIPTION

For college description and list of faculty, see [colleges](#)

STEVENSON COLLEGE COURSES

LOWER-DIVISION COURSES

10. Skills for College and Beyond (2 credits). S

Applications of practical skills for effective, meaningful study in the context of a full, busy life. Topics include learning styles, time management, test preparation, and life balance. Specific techniques for efficient reading comprehension, note-taking, memorization, and self-assessment are introduced. Enrollment restricted to college members and by permission of instructor. Enrollment limited to 15. C. CAMBLIN

11A. Experiential Leadership Program Core Course: Tools for Leadership and Conflict Resolution (2 credits). F

Experiential Leadership Program certificate course where students gain skills and confidence to lead groups; develop a leadership mindset; build tools for communication, conflict resolution, and receiving feedback; cultivate an inclusive and welcoming environment. Course includes one-day high ropes adventure team-building field activity. Students are billed for a materials fee. Enrollment limited to 22. (General Education Code(s): PR-E.) M. ALLEN-BROWER

11B. ELP Core Course: Leadership From the Inside Out, Networking and Professionalism (2 credits). F,W,S

Skilled leadership isn't just what you do, it is who you are! Explore

temperament, character, and tools for self-reflection. Includes tools for networking, professionalism, goal-setting, and taking action. This Experiential Leadership Program Certificate course includes the Skyline to Sea team-building adventure hike. Students are billed a materials fee. Enrollment limited to 22. (General Education Code(s): PR-E.) M. ALLEN-BROWER

11C. ELP Core Course: Tone-Setting and Leading with Cultural/Emotional Intelligence (2 credits). S

Gain tools to lead with awareness and the capacity to relate to and work across cultures, and to set structure, feelings, and purpose that support groups and teams. Experiential Leadership Program Certification course. Includes a one-day kayak field activity. No kayaking experience is necessary. Students are billed a materials fee. Enrollment limited to 22. (General Education Code(s): PR-E.) M. ALLEN-BROWER

12. ELP Elective Course: Risk Management and Social Justice Through the Lens of Outdoor Leadership (2 credits). F,W,S

Gain leadership skills, confidence, and competence. Focus is on leading and teaching in a wilderness setting, wilderness risk management, exploring social justice in outdoor education, and cultivating a safe, inclusive environment. This Experiential Leadership Program Certificate course includes a weekend backpack trip. Students are billed a materials fee. Enrollment limited to 22. (General

Education Code(s): PR-E.) M. ALLEN-BROWER

13. Leadership Spring Break Intensive: Backpacking the Canyons of Southern Utah (2 credits). S

This 10-day expedition through red rock canyons at Utah's Grand Staircase-Escalante National Monument focuses on working effectively in teams, cultivating an inclusive environment, leadership development, good expedition behavior, Leave-No-Trace practices, and best-practices in backpacking skills. Students are billed a materials fee. Enrollment is by instructor permission. Enrollment limited to 10. (General Education Code(s): PR-E.) M. ALLEN-BROWER

16. Stevenson Community Garden (2 credits). *

Hands-on course in ecological horticulture at the Stevenson garden. Students grow the Stevenson community through gardening and projects focused on building a healthy and regenerative local-foods culture. Enrollment by interview only. Enrollment restricted to Stevenson College members. Enrollment limited to 16. D. SHAW

18. Eighteenth Century Kabbalistic Thought and Literature (2 credits). *

Emphasis on analyzing (translations of) original text to explore critical areas of kabbalistic thought, including tzimtzum, the sefirot, theodicy, and hermeneutics. S. CHEIN

21. Citizens and Nations: Self and Society in the 19th Century (2 credits). *

A reading seminar focusing on a set of key texts. Examines how the political and industrial revolutions of the 19th century fundamentally transformed the relationships between individuals and their respective societies. Enrollment restricted to Stevenson College members. Enrollment limited to 20. K. SILVER

22. Self and Society in Classical Social Theory (2 credits). *

Reading seminar focusing on a set of key texts from classical social theory. Explores the transition from traditional to modern societies. Authors addressed may include Locke, Rousseau, de Tocqueville, Marx, Weber, and Durkheim. Enrollment restricted to Stevenson College members. Enrollment limited to 20. K. SILVER

23. Monsters and the Monstrous in the Early British Novel. *

Examines figurations of monsters and the monstrous in the 18th- and 19th-Century British novel to explore the function of monsters as cultural tools for affirming and subverting social boundaries. (General Education Code(s): TA.) S. SWEAT

24A. Cultural Intelligence: Developing a Higher CQ (Cultural Intelligence) (2 credits). F

We begin by examining the three basic facets involved in developing one's cultural intelligence (CQ): cognitive, motivational, and behavioral. Topics include: complexities of intercultural communication; importance of cultural self-identity and filters; power and privilege; and their impact on one's perceptions. (Formerly course 24.) Enrollment limited to 18. D. SMITH

24B. Developing Facilitation Skills for Cultural Intelligence (2 credits). W

Presents six dimensions of facilitation: goal development, cognitive aspects, confronting resistance, managing emotions, methods of learning, and creating a supportive and respectful climate.

Students practice different styles of facilitation to learn which one(s) fit their personal styles and goal(s) for any given workshop. The importance of developing "cultural intelligence" is presented as well.

Students must be available to facilitate diversity trainings. Enrollment by instructor consent. Enrollment restricted to sophomores, juniors, seniors, and graduate students. Enrollment limited to 20. D. SMITH

26. Navigating the Research University (2 credits). *

Explores critical engagement in education in the context of a research university. Introduces first-year issues and success strategies and ways to participate in the institution's academic life. Investigates strategies for clarifying education goals and devising a plan for success. Students cannot receive credit for this course and Porter 26 or Kresge 26. Enrollment restricted to first-year students. E. MURAI

30. Thesis Writing and Editing (2 credits). *

Identifies and examines the assumptions, expectations, and formats of writing in students' fields, with the goal of beginning—or continuing—academic research. Prerequisite(s): satisfaction of the Composition requirement. Enrollment restricted to junior and senior college members and by permission of instructor. Enrollment limited to 25. A. WEAVER

33. Self and Society Examined Through Ethical Dilemmas (2 credits). *

Examines ethical dilemmas in contemporary topics, such as the status of moral principles during warfare; animal rights and the ethics of eating meat; privacy in the age of the Internet; imprisonment and rehabilitation; legal and illegal immigration; same-sex marriage; and health care. THE STAFF

35. Everyday Ethics for College Life (2 credits). *

Exploration of and reflection on everyday values and virtues such as integrity, open-mindedness, honesty, and community. Objectives

include learning how to think about moral dilemmas and how to begin drafting one's own code of ethics. Enrollment restricted to college members. Enrollment limited to 20. C. CAMBLIN

36. Women in the Bible. *

A seminar-style course intended to sharpen analytical skills by critically analyzing biblical narratives about women: stories about heroism, betrayal, love, loyalty, infidelity, motherhood, and leadership. Students explore biblical personalities and perspectives, analyzing how these are conveyed in the biblical narrative. Enrollment limited to 15. (General Education Code(s): TA.) S. CHEIN

40. The Self Under Moral Siege: Challenges for the Individual in 20th-Century Totalitarian Europe (2 credits). *

Examines how individuals and communities confronted dilemmas when laws, state ideology, and war challenged traditional morality. Themes include: ethics, responsibility, victimhood, moral compromise, retribution, and reconciliation. Enrollment priority given to Stevenson College students. Enrollment limited to 22. THE STAFF

41. Spirituality in a Modern World (2 credits). *

Investigates scientific and pragmatic perspectives on spirituality from William James to Fritjof Capra. Explores spirituality in Western and Eastern traditions from Martin Buber to Pema Chodron. Students analyze, support, and articulate their spiritual positions in a culminating paper. Enrollment restricted to Stevenson College members. Enrollment limited to 20. C. CAMBLIN

42. Student-Directed Seminar. F,W,S

Seminars taught by upper-division students under faculty supervision (see course 192). THE STAFF

50A. Stevenson Alumni Careers in Law (2 credits). S

Connecting Stevenson students with alumni who provide practical advice for careers in law. Topics

Stevenson College

covered include the variety of career possibilities in law, preparing for law school, internships, networking, applying for jobs, and interviewing. Enrollment restricted to College members. G. CHILDERS

50B. Stevenson Alumni Careers in Science and Technology (2 credits). S

Connecting Stevenson students with alumni who provide practical advice for careers in science and technology. Topics covered include internships, graduate school, networking, applying for jobs, interviewing, and adapting to a rapidly changing job market. Enrollment restricted to College members. G. CHILDERS

80A. Introduction to University Discourse: Self and Society. F

Explores rhetorical principles and conventions of university discourse providing intensive practice in analytical writing, critical reading, and speaking. Stevenson's core course considers the roots of modern society using foundational religious texts and major classical and modern philosophical works. Students cannot receive credit for this course and course 80B. Enrollment restricted to first-year college members who have not satisfied the C1 requirement. Enrollment limited to 25. (General Education Code(s): C1.) THE STAFF

80B. Rhetoric and Inquiry: Self and Society. F

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Stevenson's core course investigates the roots of modern society, using foundational religious texts and classical and modern philosophical works. Students cannot receive credit for this course and course 80A. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year college members. Enrollment limited to 25. (General Education Code(s): C2.) THE STAFF

80F. Academic Success in the College Core Course (3 credits). *

Provides support for reading,

understanding, and engaging with difficult Core texts; models and facilitates college-level discussion; provides instruction in collaborative processes; encourages community-building with the college; and helps acclimate students to university culture. Enrollment is restricted to first-year Stevenson students who have been placed in the Multilingual Curriculum. Enrollment limited to 25. C. CAMBLIN

80G. Self and Society Through Film. *

Uses feature films and documentaries to address and discuss perspectives of "self and society." Films include Star Wars, The Hunger Games, and The Matrix. (General Education Code(s): IM.) K. MACCLAREN

80H. Rainbow Theater: An Introduction to Multicultural Theater. F

Introduction to Asian American, Chicano/Latino, and African American plays through reading of major authors, discussion of social and historical context of their work, and development of a production of a one-act play from each cultural group. In-depth examination of key historical context of these three cultural groups. Video presentations followed by class discussion. Enrollment by audition. Enrollment limited to 80. May be repeated for credit. (General Education Code(s): ER.) D. WILLIAMS

80T. Self and Society for Transfer Students. *

Condensed version of Stevenson's core course for transfer students. Develops analytical writing, critical reading, and effective speaking by considering influential philosophical works while exploring cultural conflicts in modern society. Themes include imperialism, racism, and class conflict. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. Enrollment limited to 25. THE STAFF

81A. Self and Society 2. W

Winter quarter of Stevenson's core course continues development of analytical writing, critical reading, and effective speaking in exploring conflicts inherent in modern society. Investigates themes of colonization, race, gender, class, and cultural conflict. Enrollment restricted to first-year and sophomore college members. Students cannot receive credit for this course and course 81B. Enrollment limited to 25. (General Education Code(s): TA.) THE STAFF

81B. Rhetoric and Inquiry: Self and Society 2. W

Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Winter quarter of Stevenson's core course investigates themes of colonization, race, gender, class, and cultural conflict. Permission of instructor required; selection for this course based on application submitted. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to first-year and sophomore college members. Students cannot receive credit for this course and course 81A. Enrollment limited to 25. (General Education Code(s): TA, C2.) THE STAFF

86. Leading Social Change (2 credits). S

Offers students the knowledge and skills required to lead diverse teams. Topics include the social-change model of leadership, principles of collaboration, and theories of identity development. Geared towards Cowell and Stevenson Residential Assistants, but students interested in the topics may take the course with permission from the instructor. (Formerly College Leadership Development.) (Also offered as Cowell College 86. Students cannot receive credit for both courses.) May be repeated for credit. (General Education Code(s): PR-E.) B. REDDING

90. The Nuclear Pacific. *

Examines the history of nuclear weapons and nuclear power in the

Stevenson College

Pacific region from 1945 to 2013. Students do research on nuclear science, medicine, energy, and weapons testing and their social, political, demographic, and environmental impacts. Enrollment is restricted to College Scholar Students. Enrollment limited to 25. Satisfies American History and Institutions Requirement. (General Education Code(s): PE-T.) A. CHRISTY

91F. Challenge Speakers Colloquium (2 credits). *

Eight lectures, six by faculty about research problems in their disciplines. Students attend two dinners with the speakers; respond to research papers in each speaker's field; conduct a research interview with a professor; and investigate a research question. (Also offered as Porter College 91F. Students cannot receive credit for both courses.) Prerequisite(s): course 90, or Merrill 90, or Kresge 90C, or Porter 90B. Enrollment restricted to college members. THE STAFF

96. Theory and Practice of Peer-Guided Learning for Tutors and Learning Assistants (2 credits). F,W,S

Provides first-time tutors and supplemental-instruction learning assistants with the theoretical background and practical interactive teaching and learning strategies essential for planning, implementing, and evaluating effective peer-guided learning. (Formerly Education 96.) N. BHATTACHARYA

UPPER-DIVISION COURSES

120. Self and Society: Teaching Practicum. W

Each student facilitates one of the discussion sections of Stevenson 81A or attends lectures, and meets with staff for practicum on the teaching process. Prerequisite(s): qualifications as determined by

instructor at first class meeting. Enrollment limited to 5. THE STAFF

121. Advanced Research and Strategic Planning for Graduate School. *

Guided by a faculty mentor, students engage in an advanced research experience including developing a research proposal, conducting research, and writing and presenting a research paper. Students also prepare for graduate school by practicing the graduate school application process. Enrollment is restricted to students accepted into the Educational Opportunity Programs faculty mentor program. Enrollment also restricted to junior and senior majors in the Divisions of Arts, Humanities, and Social Sciences. Enrollment limited to 20. THE STAFF

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision (see course 42). Prerequisite(s): upper-division standing and a proposal supported by a faculty member willing to supervise. THE STAFF

193. Field Study. F,W,S

Provides for individual programs of study, sponsored by the college and performed off-campus. This course may be counted for up to three courses of credit in any quarter. Prerequisite(s): approval of student's adviser and the academic preceptor, and, in the case of full-time study, the board of studies supervising the major. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

A program of independent study arranged between a group of students and a faculty instructor. Enrollment restricted to members of Stevenson College. Enrollment limited to 12. THE STAFF

194F. Group Tutorial (2 credits). F,W,S

A program of independent study arranged between a group of students and a faculty instructor. Course designed for members of Stevenson College. Students submit petition to sponsoring agency. Enrollment limited to 10. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Prerequisite(s): approval of the student's adviser, certification of adequate preparation, approval by the academic preceptor. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Provides for college-sponsored individual study programs off campus, for which faculty supervision is not in person (e.g., supervision is by correspondence). Up to three such courses may be taken for credit in any one quarter. Students submit petition to sponsoring agency. Requires approval of the student's adviser and academic preceptor. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual projects carried out under the supervision of a Stevenson faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual projects carried out under the supervision of a Stevenson faculty member. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

SUSTAINABILITY STUDIES

2017-18 General Catalog

College Office

(831) 459-2361

<http://eight.ucsc.edu/>

PROGRAM DESCRIPTION

Among the most critical societal challenges of the next 50 years are the rapidly-growing and linked ecological and social crises arising from stresses on supplies of energy, water, and food. These crises are not simply about the adequacy of supply relative to demand, however; they are also the result of the complex social relations within and among societies, in the past, present, and future. Dealing with such socio-ecological problems therefore requires robust interdisciplinary collaborations among engineers, social scientists, and natural scientists. Moreover, in today's rapidly-changing economy, college graduates will need to be flexible and adaptable, able to learn new knowledge and skills rapidly, and cognizant of the complex organization of society and technology. The minor in Sustainability studies is administered by Rachel Carson College and is designed to foster both analytical ability and provide necessary learning.

The pedagogical underpinnings of this minor are premised on relationships between classroom learning, service learning, and research and application. Broad interdisciplinarity and individual facility in both STEM and social sciences are critical elements at the center of the minor's core courses. The curriculum is therefore structured to 1) facilitate interdisciplinary academic and research collaborations among faculty and students across multiple UCSC divisions (drawing on but **outside** of the divisional structure); 2) teach and train students in the **ecology and sustainability** of design and application in the **built environment**, and the use of STEM skills and social science knowledge to these ends; and 3) meet undergraduate demand for a sustainability curriculum with focuses distinct from those offered in existing UCSC departments.

Program learning objectives are as follows:

Students will understand the causes, features, data, complexities, policies, and practices giving rise to and needed to address the contemporary global socioecological crisis; the role of production, consumption, politics, policies, markets and behavior in this crisis; and options and alternatives for moving toward and achieving sustainability.

Students will learn basic **applied** Science, Technology, Engineering, and Mathematics (STEM) skills needed for dealing with real-world applications including assessments, measurements, technologies, behavior, and other factors related to the first objective (above).

Students will become cognizant of appropriate social science knowledge and methods needed to design and implement social enterprise and service learning projects in sustainability and ecological design and practice.

Students will design and conduct interdisciplinary research projects in issues and topics that are related to sustainability, including energy, food, water, the built environment, life-cycle analysis, waste disposal, and recycling.

Students will design and participate in service-learning projects in collaboration with on- and off-campus units, agencies, and organizations; and apply the knowledge and skills acquired through the minor.

No specific prior preparation or prerequisites are required for entry to the minor.

REQUIREMENTS OF THE MINOR

Lower-division courses:

Electrical Engineering 80S (Fall), Sustainability Engineering and Design

CRSN 55, Service-learning sustainability internship (2 credits, 3 quarters required)

Upper-division courses (5 credits each)

CRSN 151A, Sustainability Praxis in the Built Environment

CRSN 151B, Innovation and professionalization for sustainability designers, engineers and entrepreneurs

CRSN 151C, Sustainability Laboratory tools, techniques and applications

CRSN 161, Education for Sustainable Living Program

Upper division electives, either

CRSN 152, IDEASS Laboratory Practicum (2 credits; 3 quarters required)

and

One breadth elective from the list below

or

Two breadth electives from the list below.

Anthropology 110K, Culture Through Food (F)

Sustainability Studies

- Anthropology 110W, Water and Landscape (W)
Anthropology 111, Human Ecology (S)
Anthropology 135A, Cities
Anthropology 137, Consuming Culture
Anthropology 146, Anthropology and the Environment (W)
Anthropology 147, Anthropocene
Anthropology 160, Reproductive and Population Politics
Anthropology 161, The Anthropology of Food
Art, 125, Environmental Art Studio (W)
College Ten 105, The Making and Influencing of Environmental Policy
Community Studies 133, Making California: Landscapes, People Politics, Economy
Community Studies 149, Political Economy of Food and Agriculture
Community Studies 156, Politics of Food and Health (W)

Latin American and Latino Studies 164, Environmental Justice
Legal Studies 131, Wildlife, Wilderness, and the Law
Legal Studies 132, California Water Law and Policy (W)
Legal Studies 137, International Environmental Law and Policy
Legal Studies 149, Environmental Law and Policy (S)
Legal Studies 159, Property and the Law (F)
Microbiology and Environmental Toxicology 101, Sources and Fates of Pollutants (S)
Microbiology and Environmental Toxicology 144, Groundwater Contamination (S)
Ocean Sciences 101, The Marine Environment(W)
Ocean Sciences 102, Oceans and Climate
Philosophy 125, Philosophy of Science (W)
Politics 170, International Relations of the Environment (W)
Politics 174, Global Political Ecology
Psychology 159E, Peace Psychology (F,W)
Sociology 115, Green Governance
Sociology 119, Sociology of Knowledge (W)

Sustainability Studies

Sociology 125, Society and Nature (F)

Sociology 130, Sociology of Food

Sociology 132, Sociology of Science and Technology (S)

Sociology 167, Development and Underdevelopment (W)

Sociology 173, Water

Sociology 177E, Eco-Metropolis

Sociology 177G, Global Cities

Sociology 179, Nature, Poverty, and Progress

Technology and Information Management 115,
Entrepreneurial Organization and Leadership

Substitutes for any of the required classes must be approved by the Program Director.

SUSTAINABILITY STUDIES

AFFILIATED FACULTY AND PROFESSIONAL INTERESTS

Tamara Ball, Project Scientist, Electrical Engineering

Kevin Bell, Lecturer, Rachel Carson College
Energy policy, electrical utilities and power systems, public policy, regulation

Sue A. Carter, Professor of Physics
Experimental condensed matter physics, polymer physics, molecular electronics, phase transitions, electronic and optical properties of materials

Patrick Y. Chuang, Associate Professor of Earth and Planetary Science
Clouds, aerosols and climate

Ben Crow, Professor of Sociology
International development, sociology of water and markets, global inequality, South Asia and East Africa, political economy, and green enterprise

Andrew Fisher, Professor of Earth & Planetary Science
Hydrogeology, crustal studies, coupled flows, modeling

Laurel Fox, Professor of Ecology and Evolutionary Biology
Terrestrial population and community ecology, plant-animal interactions

Julie Guthman, Professor of Social Sciences
Sustainable agriculture and alternative food movements, international political economy of food and agriculture, politics of obesity, political ecology, race and food, epigenetics and environmental health, critical human geography

Ronnie D. Lipschutz, Professor of Politics and Provost of Rachel Carson College
International relations; global political economy;

globalization; foreign policy; resource/environmental politics; global political networks; global civil society and social movements; popular culture and politics; technology and society; risk society, state transformation and global governmentality

Katie Monsen, Lecturer in Environmental Studies and Electrical Engineering
sustainable agroecosystems, nutrient dynamics, and freshwater ecology, sustainability engineering

Ingrid Parker, Professor of Ecology and Evolutionary Biology
Plant ecology, plant-pathogen interactions, biological invasions

Daniel Press, Professor of Environmental Studies
U.S. environmental politics and policy, water quality, industrial ecology, resources management, policy analysis

Thomas Rettenwender, Lecturer, Rachel Carson College
LEED AP, architect, sustainable design

Elizabeth Stephens, Professor of Art
Intermedia, electronic art, sculpture, and performance art

Andrew Szasz, Professor of Environmental Studies
environmental sociology, environmental movements, policy, environmental justice, sociological theory

Susan Watrous, Lecturer, Rachel Carson College/Kresge College
Print adviser, student media

THEATER ARTS

2017-18 General Catalog

J106 Theater Arts Center
(831) 459-2974

theater@ucsc.edu

<http://theater.ucsc.edu/>

PROGRAM DESCRIPTION

The Theater Arts Department is a diverse group of scholars/artists united by a passionate belief in the value of the performing arts. Based on respect for the classical theater of all cultures, combined with a determination to challenge tradition and fashion, we educate our students in the history, theory, and practice of theater to address fundamental issues by using the tools of body, voice, mind, and imagination. Seeking to attain the highest levels of intellectual and artistic integrity with a commitment to cultural diversity, we serve the research mission of UCSC, our audiences, and the students who will shape the theater of the future.

The Theater Arts Department combines drama, dance, critical studies, and theater design/technology to offer students an intensive program of theater as a unified field. The program stresses the inter-relation of all concentrations as essential to the successful practice of the theater arts in the 21st century. Graduates of the UCSC program typically pursue careers in professional theater and dance companies, in film and television, and in teaching at all levels—from university to high school to grade school. Many students go on to higher degrees at prestigious national programs. Others engage in careers in arts, administration, dramatic writing, and related fields.

The lower-division curriculum requires a range of practical work in the various concentrations and an interdisciplinary exposure to critical and historical studies. At the upper-division level, students are given the opportunity to focus on one or more areas of interest in limited-enrollment studios. At the same time, they are asked to expand their theoretical perspectives through confrontation with performance theory and focused coursework in critical studies. The impact of digital and new media on theater is integrated into the curriculum, especially with respect to dance and design.

A wealth of production opportunities is available to students. This includes major productions directed by faculty or distinguished visiting artists each quarter, productions directed or choreographed by students, and faculty-directed workshops. Undergraduate students are also given the opportunity to see their own writing, choreography, or developing concepts put into production in annual festivals of student work. Although majors are given preference in studio courses, most courses and productions welcome nonmajors as

well. Opportunities to study and perform non-Western as well as Euro-American traditions are also a significant part of the program.

The stage and studio spaces available to students of theater arts allow for this breadth of training and performance opportunities. The Theater Arts Center contains a 500-seat thrust stage; a state-of-the-art experimental theater; a 200-seat proscenium theater; acting, directing, and dance studios; costume, scene, and properties shops; a sound recording room; and a computer lab.

Elsewhere on campus are the open-air Quarry Theater seating 3,000, the Sinsheimer-Stanley Festival Glen, and the 150-seat Barn Theater. Library holdings in theater literature and history are extensive, including a large slide collection and dance video holdings; journals in current theater, design/technology, and dance; and recordings, films, videotapes, and CD-ROMs.

PROGRAM LEARNING OUTCOMES

Our program incorporates dance, design, and drama as essential disciplines in the successful practice of theater arts in the contemporary world.

Graduates from the Theater Arts B.A. program should demonstrate the following:

Foundations of Performance. Students should be able to identify and apply basic theatrical techniques in dance, design, and drama.

Theatrical histories and theories. Students should be able to recognize and analyze performance works within the general culture and historical period that produced them.

Performance experience. Students should be able to translate theater arts concepts into performance, participating in any theatrical endeavor with the rigor, discipline, and imagination necessary to make a meaningful contribution.

Research proficiency. Students should be able to formulate personal research questions that expand their knowledge of theater arts, conducting independent research into the history and theory of at least one area of concentration.

Theater Arts

Creative practice. Students should be able to use theatrical practices and performance experiences to conceive, design, realize, and reflect on new performance projects.

Appreciation of diversity. Students should be able to recognize and appreciate a wide variety of approaches, cultures, and styles in both past and contemporary performance practice.

Communication and critical thinking. Students should be able to use critical vocabularies to communicate clearly about theater arts in written and oral forms.

Collaborative skills. Students should be able to work confidently and effectively in groups on a common project.

REQUIREMENTS TO DECLARE THE MAJOR

Prior to petitioning for the major, students must have successfully completed three lower division courses: one course from Theater Arts 61A, B, or C, and two courses chosen from Theater Arts 10, 20, 21A, or 30. Students are encouraged to complete these courses as early in their studies as possible so that the petition to major status can be accomplished no later than the end of sophomore year.

TRANSFER STUDENTS

Transfer students may petition to have equivalent lower-division courses taken at other schools count toward lower-division major or minor requirements. Petition forms and information on courses and major requirements may be obtained at the department office, J106 Theater Arts Center. Transfer students are strongly advised to attend a UCSC Summer Orientation session for transfer students to plan the declaration of major process and/or to consult with a Theater Arts academic adviser, prior to enrolling in classes their first quarter if possible. Transfer students may declare the major during their first quarter after meeting with the Theater Arts academic adviser.

MAJOR REQUIREMENTS

The Theater Arts major requires seven lower-division courses, six credits of course 50, and eight upper-division courses (inclusive of a senior seminar project). Majors may organize their studies around a concentration in an area of interest in accordance with the requirements outlined below. The following six lower-division courses must be taken by all majors:

10, Introduction to Theater Design and Technology

20, Introductory Studies in Acting; or 21A, Acting Studio IA, Psychological Realism

30, Introduction to Dance Theory and Technique

61A, Ancient and Medieval Drama

61B, Drama from the Renaissance to the Modern Age

61C, Birth of the Modern: After the Renaissance

One lower-division 5-credit elective.

Plus: 50, Fundamentals of Theater Production (two-credit course; must be taken three times for a total of six credits)

The following upper-division courses must be taken to complete the major:

Eight, 5-credit upper-division theater arts courses:

160, Dramatic Theories

Two upper-division studio courses

One elective

One faculty-directed theater arts production course (consult with the Department Adviser for details)

Two courses total from the following:

161 and/or 163 series: History/Theory in Theater

164, 165, 166, 167: History/Theory in Dance

113, 116A: Design History

185, Senior Seminar

The following do NOT satisfy theater arts major requirements:

45 Student Production

55A and 55B Barnstorm

139 Random

158 Chautauqua

190 Group Project

198 Independent Studies

199 Independent Studies

Credits earned via a study abroad program, such as the UC Education Abroad Program (EAP), or other off-campus programs are considered on a case-by-case basis by the department chair. Students should consult with their department and college advisers before planning studies outside of UCSC.

DISCIPLINARY COMMUNICATION (DC) REQUIREMENT

Students of every major must satisfy that major's upper-division Disciplinary Communication (DC) Requirement. The DC Requirement in theater arts is met by completion of the required courses 160 and 185.

THEATER ARTS MAJOR PLANNERS

The following are two recommended academic plans for students to complete during their first two years as preparation for the theater arts major. Plan One is a guideline for students who are committed to the major early in their academic career; Plan Two is for students who are considering the major.

Theater Arts

Plan One			
Year	Fall	Winter	Spring
1st (frsh)	THEA 20 or 21A	gen ed	THEA 10
	THEA 61A	THEA 61B	gen ed
	college core	gen ed	gen ed
2nd (soph)	elective	THEA 30	THEA 61C
	gen ed	THEA 50	gen ed
	college core	gen ed	gen ed
	(declare major)		

Plan Two			
Year	Fall	Winter	Spring
1st (frsh)	gen ed	THEA 30	THEA 10
	gen ed	low-div studio	THEA 61C
	college core	gen ed	gen ed
2nd (soph)	THEA 20 or 21A	THEA 50	THEA 50
	THEA 61A	THEA 61B	gen ed
	gen ed	gen ed	gen ed
	(declare major)		

COMPREHENSIVE REQUIREMENT

Theater arts majors are responsible for successfully completing course 185, Senior Seminar.

MINOR REQUIREMENTS

Students earn a minor in theater arts by completing eight courses (seven, 5-credit courses and one, 2-credit course) comprising a background in the theory and practice of the theater arts as well as a focus on either drama, theater design/technology, or dance. The course requirements are listed below. There is no comprehensive requirement for the minor.

Theater Arts 61A or 61B or 61C

One quarter of the 2-credit course 50

One course in the student's area of focus chosen from: 10, 20, 21A, 30, or 40

Three upper-division History/Theory courses chosen from the following: 113, 116A, 161 Series, 163 Series, 164, 165, 166, 167

Two upper-division studio courses, one of which may be a faculty-directed production

The following do NOT satisfy theater arts minor requirements:

45 Student Production

55A and 55B Barnstorm

139 Random

158 Chautauqua

190 Group Project

198 Independent Studies

199 Independent Studies

Transfer students are advised to check with the department office to determine which courses can be articulated from a community college.

THE DANCE MINOR

Students earn a minor in dance by completing eight courses (three lower division, five upper division) comprising a background in the theory and practice of dance. The course requirements are listed below. There is no comprehensive requirement for the minor.

Lower-division courses:

one 5-credit course in dance foundations (30, 33C or 36); one course (varying units) in cultural forms (including but not restricted to 22, 31C, 37, 80Z)

one quarter of the 2-credit course 50

Upper-division courses:

one 5-credit course in dance foundations (130, 131C, 135, 136); one course in History/Theory (164, 165, 166, 167).

three 5-credit elective courses planned in consultation with a faculty or a department adviser.

The following do NOT satisfy theater arts minor requirements:

45 Student Production

55A and 55B Barnstorm

139 Random

158 Chautauqua

190 Group Project

198 Independent Studies

199 Independent Studies

Lower-division courses may be double counted for (used toward) both the theater arts major and dance minor, but separate upper-division courses must be taken to satisfy the major and minor requirements.

THE THEATER ARTS MASTER OF ARTS PROGRAM

Theater Arts

The Theater Arts Department offers a 12-month Master of Arts in Theater Arts (M.A.) degree, which serves as a bridge from undergraduate work to professional work in a range of performance-related fields. It can also place students in an excellent position to pursue further graduate academic work, such as an M.F.A. or Ph.D.

The master of arts degree combines intellectually rigorous coursework with challenging artistic practice. Like our undergraduate curriculum, our graduate program integrates the study of ancient and modern theater texts and practices, and it examines diverse approaches to performance. It encourages collaboration, initiative, and cross-disciplinary thinking.

Students are required to complete 40 credits for the M.A. in Theater Arts. This includes three graduate seminars (Theater Arts 290A, 290B, and 290C), for a total of 15 credits. These courses are required of all M.A. candidates, regardless of their area of emphasis. Students must also complete Theater Arts 293, a 10-credit performance research project that includes a professional internship project. Students may take this course in any quarter in the academic year, though it is

advised that the internship portion be completed during the summer before the regular M.A. program begins. This work will be supervised and assessed by a theater arts faculty member.

Students must also complete the 5-credit Theater Arts 295 course, Group Critique; 5 credits of an Independent Study (Theater Arts 297); and the 5-credit Theater Arts 299, Capstone Thesis. M.A. Students may also take an upper-division undergraduate or graduate course in another department as an elective. These courses must be approved by the graduate committee and graduate director.

There are no teaching requirements for graduate students in the Theater Arts M.A program; however, students are encouraged to act as teaching assistants as positions are available at UC Santa Cruz.

For additional information, please visit the [department website](#) or contact the Theater Arts Department and the [UCSC Graduate Division](#).

THEATER ARTS FACULTY AND PROFESSIONAL INTERESTS

PROFESSOR

James H. Bierman

Playwriting, theater history and literature, classical and Renaissance drama, Chicano theater, digital media

David Cuthbert

Lighting design, projection design and scenic design; theatrical, fringe, industrial and themed entertainment design; computer aided drafting, electronics and automated fixtures

Kate Edmunds

Set design for theater, dance, opera and film; drafting and drawing for the designer; model-making and color theory; Broadway musicals

M. Kathleen Foley

Asian theater, Southeast Asian studies, performance studies, maskwork, puppetry, multicultural theater

Patty Gallagher

Movement training for actors, circus and clown traditions, and Indonesian dance/performance

Kimberly Jannarone

Directing, performance history, dramatic criticism, modernism

Danny Scheie

Acting, directing, dramatic literature, theater history, Shakespeare, Wagner, gay studies

Edward C. Warburton

Dance theory and technique, cognitive dance studies

Marianne Weems

Directing, crossmedia performance, mediaturgy,

applying contemporary critical theories to conceptual practice

ASSOCIATE PROFESSOR

Brandin Baron

Costume design, design history, digital illustration and graphic design

Gerald Casel

Modern dance technique, somatics, choreography, improvisation, meditation and ideokinesis, neuromuscular re-patterning for the dancer

Michael Chemers

Dramaturgy, theater history, criticism and theory, monsters in drama, adaptation and translation, digital media, social robotics, disability and the arts

ASSISTANT PROFESSOR

Amy Mihyang Ginther

Voice, speech, acting, Shakespeare, archetypes, accents, dialects, text

Cynthia Ling Lee

South Asian and U.S. postmodern dance, choreography, critical dance studies

LECTURER

Tandy Beal

Choreography, improvisation, technique, performance skills, collaborations with classical and jazz composers, circus, theater and video, children's productions

Kirsten Brandt

Directing, playwriting, and acting

Theater Arts

Gregory Fritsch

Acting, directing

Don Williams

Directing, African American studies, and acting

EMERITI

Andrew E. Doe, Emeritus

AFFILIATED FACULTY

Mary-Kay Gamel, Emerita

Sean Keilen, Professor, Literature

Shakespeare; Ovid; the classical tradition; early British literature; Renaissance humanism; poetry and poetics; imitation; theory of literature; interpretation and its history; the division of the arts and sciences; creative criticism; literature and the fine arts; literature and ethics; psychoanalysis; the passions; the senses; beauty

THEATER ARTS COURSES

LOWER-DIVISION COURSES

10. Introduction to Theater Design and Technology. F,S

Addresses imagination and creativity. Using the framework of theater production, students explore the process of translating a script into a performance. Topics include visual literacy, creative problem solving, establishing effective working teams, tear sheets, storyboarding, drawing, sound and color theory. This course is a prerequisite for all upper-division design courses. (General Education Code(s): IM.) B. BARON, D. CUTHBERT

12. Stage Management. *

Designed to acquaint students with the complexities of staging productions from the audition process to final performance. Directing, lighting, scenic production, sound, cueing, and personnel management are aspects that will be touched upon in class. Students are billed a materials fee. (Formerly PRODUCTION MANAGEMENT.) THE STAFF

14. Drawing. *

A fundamental course in drawing from still life, the figure, and in the landscape. The approach is from the tonal and volumetric aspects of the object. Color is introduced as the course progresses. Instruction fashioned to the individual needs of

the student. The inexperienced are welcomed as well as the experienced. Students are billed a materials fee. (General Education Code(s): PR-C.) K. EDMUNDS

15. Special Topics in Textiles. *

Introduces varied techniques in textile manipulation to create scenic and costume-design properties including drapery, upholstery, masks, bags, and millinery. Students learn basic sewing and surface-design methods, such as knitting, screen-printing, painting/dyeing, and distressing. Enrollment limited to 20. (General Education Code(s): PR-C.) B. BARON, THE STAFF

17. Costume Construction. *

The process of interpreting a costume designer's sketch into a finished theatrical costume. Some techniques included are dyeing, fabric selection, draping, flat pattern drafting, pattern manipulation, adaptation, fitting, and alteration. Using various techniques, students make basic pattern pieces and learn to modify them to create costumes. Students are billed a materials fee. Enrollment limited to 20. (General Education Code(s): PR-C.) THE STAFF

18. Drafting for Theatrical Production. *

An examination of the fundamentals of drafting scale drawings for production, including floor plans, elevations, sections, working

drawings, dimensions, layout, and lettering. Students learn isometric drawing, perspective, and rendering techniques. Students are billed a materials fee. Enrollment limited to 20. K. EDMUNDS, THE STAFF

18C. Drafting-Computer Aided. *

In-depth exploration of computer-aided drafting, specifically the programs Vectorworks, Spotlight, and Renderworks. Topics include: the user interface, ground plan, section and detail views, paper space vs. working space, tool palettes, USITT drafting standards, layers, line weights, objects, classes, library annotations, importing rasters, and 3D modeling. Students required to do weekly projects such as ground plans, lighting plots, perspectives, and detail drawings, as well as turn in a major final project, and complete a mid-term, final, and quizzes. Students are billed for a materials fee. Enrollment restricted to theater arts majors. Enrollment limited to 10. D. CUTHBERT, THE STAFF

19. Design Studio: Lighting Studio A. S

An introduction to the theory and practice of lighting design with attention to the practical skills and creative approaches to lighting performance pieces; the technical side of lighting design via demonstrations, lectures, and labs. Students complete projects evolving and executing concepts for lighting chosen pieces. Students are billed a

Theater Arts

materials fee. Prerequisite(s): course 10. D. CUTHBERT

20. Introductory Studies in Acting. F,W,S

Introduction to basic acting skills and the problems of performance. Concentrates on expanding the students' range of expression and ability to respond to and analyze dramatic text. Students with little or no experience are encouraged to attend. (General Education Code(s): IM.) D. SCHEIE, A. GINTHER, P. GALLAGHER

21A. Acting Studio 1A: Psychological Realism. *

Explores the fundamentals of the work of Konstantin Stanislavski as developed at the Moscow Art Theater to the works of his and our contemporary playwrights. Specifically, students apply those techniques of action, physical score, given circumstances, subtext, interior monologue, goals, and objectives, throughline, superobjective, and emotional recall to works of Henrik Ibsen, Anton Chekov, and appropriate American realists, such as Sam Shepard, August Wilson, etc. Enrollment by interview only: audition at first class meeting. Enrollment limited to 31. D. SCHEIE

21B. Acting Studio 1B, Actors' Physicality. *

Uses a rigorous physical approach to acting (rather than the text-based approach of course 21A). Provides an "outside-in" starting point for theatrical creation and study, balancing and countering the "inside-out" approach of Stanislavski-based actor training. Emphasis on physical characterization, ensemble theater, mask work, and object performance. May involve practices, theories, and readings of Jerzy Grotowski, Eugenio Barba, Jacques Lecoq, and/or Tadashi Suzuki. Enrollment by interview only. Enrollment limited to 30. P. GALLAGHER

22. Indonesian Dance and Drama. S

Students learn the basic movement repertoire of the specific characters of the Indonesian dance-

drama/puppetry tradition over the quarter with explication of how these types operate in their own cultural context. Course culminates in an open showing of scene work. May be repeated for credit. (General Education Code(s): CC.) M. FOLEY

23. Voice for the Actor. F

Students work on developing resonance, range and expressivity for stage performance via physical exercises and text explorations undertaken in small groups. Prerequisite(s): course 20. Audition required for acceptance into class. Enrollment limited to 20. A. GINTHER

30. Introduction to Dance Theory and Technique. F,W

Intensive instruction in developing the dancer's mind/body, with introduction to movement theory and practice. Students are billed a materials fee. (Formerly Introduction to Modern Dance Theory and Technique.) May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

31P. Postmodern Dance I. *

Introduction to postmodern dance theory and technique. Focus on performance practices of historically significant postmodern dance choreographers in the U.S. and worldwide. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): IM.) E. WARBURTON

33C. Dance Studio I. *

Intensive instruction in developing the dancer's physical instrument. Intended for students who have a previous fundamental knowledge of the basics of classic dance, combined with movement theory. Students are billed a materials fee. Formerly Theater Arts 33, Advanced Introduction to Modern Dance. Prerequisite(s): course 30. Enrollment limited to 30. May be repeated for credit. THE STAFF

36. Introduction to Dance Composition. S

Composing solo dances using a variety of approaches for developing movement combinations. Observation and

recognition of personal movement patterns and discovering new sources for creative material. Students are billed a materials fee. May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

37. African Dance. *

A griot (musician-entertainer from western Africa) from Burkina Faso teaches "The African Journey," which emphasizes dance as combined in Africa, including singing, history, oral tradition, and storytelling. Students are billed a materials fee. Enrollment limited to 30. (General Education Code(s): PR-C.) THE STAFF

40. Introduction to Directing. F

An overview of the analytical and creative processes that inform the director's work. Close examination of texts, concepts, and selected directors and directorial choices. (General Education Code(s): IM.) THE STAFF

45. Student-Directed Production. F,W,S

Participation in a student-directed play or student-choreographed dance concert under faculty supervision. (See course 192). Rehearsals culminate in public performances. Prerequisite(s): admission by audition; see department office for more information. THE STAFF

50. Fundamentals of Theater Production (2 credits). F,W,S

Work is on various aspects of theatrical production, including scenery, lighting, costumes, sound, stage management, and video documentation. Satisfies the department's technical experience requirement. May be repeated for credit. THE STAFF

52. Basic Stagecraft. S

Provides introduction to technical theater and basic stagecraft. Course examines two-dimensional and three-dimensional scenery, scenic engineering, the physical theater, stage and scene shop equipment, project organization and process, technical theater graphics, materials, and theatrical construction techniques.

Theater Arts

Prerequisite(s): course 10.
Enrollment limited to 30. THE STAFF

55A. Workshop in Performance: Barnstorm. F,W,S

Process-oriented investigation of practical theater production by working in and on productions in the Barnstorm season. Requires a total of 150 hours working backstage or onstage. Admission by audition at first class meeting; see department office for more information. May be repeated for credit. K. EDMUNDS, D. CUTHBERT

55B. Workshop in Performance: Barnstorm Lab (2 credits). F,W

Process-oriented investigation of practical theater production by working in and on productions in the Barnstorm season. Requires a total of 50 hours working backstage or onstage. Admission by audition at first class meeting; see department office for more information. May be repeated for credit. K. EDMUNDS, D. CUTHBERT

61A. Ancient and Medieval Drama. F

Ancient enmities; horrific acts of parricide; monumental errors; suffering and contrition. This course examines the enormous appeal of the ancient Greek tragic and comic visions from their inception through their enthusiastic adaptation by the Romans and on into the Middle Ages. For comparison purposes, Greek and Roman dramas are studied back-to-back with the contemporary non-Western dramatic forms of Noh and ancient Sanskrit drama. (General Education Code(s): TA.) M. CHEMERS

61B. Drama from the Renaissance to the Modern Age. W

Examines major trends in European drama from the rediscovery of ancient Greek and Roman drama in the early 17th century to the late 19th century. Examines major trends in European drama from the discovery of ancient Greek and Roman drama in the early 17th century to the late 19th century. These trends include neo-classical drama, the rise of middle-class

drama, social realism, romanticism, early naturalism, and the well-made play. These trends are compared with the parallel developments of the non-Western forms of Japanese Kabuki and Javanese Wayang. (Formerly Tragedy.) (General Education Code(s): TA.) M. FOLEY

61C. The Birth of the Modern: Drama and Performance After the Renaissance. S

Examines dramatic and theatrical works that sprang into being in the wake of the European Renaissance. Follows the ways modern artists have dramatized their questions, struggles, beliefs, and despair in the face of world wars, cultural fragmentation, unprecedented prosperity, and new technologies. (General Education Code(s): TA.) K. JANNARONE

80A. Introduction to African American Theater. S

Surveys African American theater from late 19th century to contemporary 21st-century playwrights and examines dramatic narratives to trace creation, evolution, and development of African American cultural identity formation in American theater. Enrollment limited to 50. (General Education Code(s): ER.) THE STAFF

80B. Rock 'n' Roll Design. *

Examination of the genesis, history, and development of technical theater practices used in large arena rock shows. Topics will include the development of rigging practices used in arenas, touring logistics, lighting instrumentation and aesthetics of rock shows, and the nature, practice, and approach of sound in these venues. THE STAFF

80C. Monsters. W

Examines the operation of monsters in plays from Ancient Greece to today, inquiring as to why these powerful cultural tools for the expression of social tension show no sign of diminishing despite our ostensible advance into scientific rationalism. (General Education Code(s): PE-H.) M. CHEMERS

80D. Commercial Design 1900 to Present. *

History of 20th-century commercial design for the theater through the eyes of the Western consumer. (Formerly course 161W, CRITICAL SURVEY OF COMMERCIAL DESIGN, 1900 TO PRESENT.) (General Education Code(s): IM.) B. BARON

80H. Hamlet Conundrums. *

Offered online, the course explores major issues of interpretation of Shakespeare's classic play, which has occupied the minds of audiences, directors, designers, performers, and critics during its 400-year history. In doing this, it offers a sense of history of people's preoccupations with and thoughts about the play. Students taking this class are expected to complete the course during the quarter for which they are enrolled. All students enrolled in this course should visit elsinore.ucsc.edu and write to elsinore@ucsc.edu. J. BIERMAN

80K. Shakespeare 4every1. *

Introduces all students, regardless of experience, to the plays and theater of Shakespeare, and directly addresses linked relevance to contemporary 21st century American culture. (General Education Code(s): TA.) D. SCHEIE

80L. Muppet Magic: Jim Henson's Art. F

The artistic and social impact of the Muppets on American puppetry, children's television, and Hollywood film is explored through viewings, guest lectures, and analysis. Henson's legacy in artistic innovation, mainstreaming of puppet theater for adult audiences, and establishment of puppetry in media and marketing are also explored. (General Education Code(s): IM.) THE STAFF

80M. Chicano/a Teatro. *

Introduction to Teatro Chicano/a with examination of how cultural diversity plays a role in theater. Through lectures, films, and workshop exercises, reflect upon the process of Teatro Chicano. Students write their own acts, improvise, and perform in class. (General Education Code(s): ER.) THE STAFF

Theater Arts

80N. Walt Disney. S

An examination of Walt Disney's creation of the American vision of "family entertainment." Particular attention will be paid to the classic animated feature films of Walt Disney and to the way this Disney invention has been preserved and developed since his death. We will also look at the live action films, theme parks, and other Disney creations. (General Education Code(s): IM.) THE STAFF

80P. The Pixar Feature. *

Combines examination of the canon of Western dramatic literature and theater history through viewings of Pixar Animation Studios' full-length animated features, representing the most popular form of digital art and new media in the world today, and lectures focusing on digital art and new media viewed through established rules and traditions of dramatic art in literature, plays, and the theater. (General Education Code(s): IM.) D. SCHEIE

80Q. Introduction to Queer Theater. *

Examines the history of the queer perspective in dramatic literature, from the Greeks to Marlowe and Shakespeare through the calcification of homosexuality in the era of Freud, then traces theater stewardship by gay and lesbian artists from within the closet and without. (General Education Code(s): IM.) THE STAFF

80S. Theater Arts Education and the Community. *

This course is designed to develop ways in which we can direct our interest in the arts into concrete and successful community projects. Although the emphasis will be on developing skills to work within K-12 classrooms, other community projects will be discussed and designed. THE STAFF

80T. Flashmob! Mass Performance in the Information Age. *

Flashmobs represent a new social configuration using information technology. Course covers the history of experiments in art and technology and the role of mass performance in society. Students

consider the socio-cultural ramifications of flashmobs and participate in them. (General Education Code(s): PE-T.) E. WARBURTON

80U. Everybody Dance Now!. F

Examines dance as a primary mode of human communication and expression. Through readings and the viewing of recorded and live performances, students compare and contrast dance traditions of the world. May be repeated for credit. G. CASEL, C. PEARLMAN

80V. The Circus in American Culture. *

Circus arts from their shamanic roots to contemporary practice will be analyzed in a historical, aesthetic, and creative dimension. Lecture, discussion, and demonstrations will explore the theory and practice of American circus arts. In section, students will explore basic circus skills from clowning to tumbling to exhibition of freaks. THE STAFF

80X. The Performance of Story in Theater and Film. *

An examination of the theory and practice of theater and film, comparing and contrasting works that have been adapted from one genre to another. Lecture, film and video viewing and discussion of materialist, psychoanalytic, and feminist approaches will be shared. (General Education Code(s): TA.) THE STAFF

80Y. American Musical Theater. *

The history of American musical theater, from its roots to today, is studied through scripts, scores, and film. Major composers and lyricists' work is shown, discussed, and analyzed. K. EDMUNDS

80Z. Indian Dance. *

Classical Indian dance will be studied as a performance practice. Understanding of drum syllables and associated steps, religious and sociological context, and mimesis (abinaya) as well as introduction to epic stories (Ramayana, Mahabharata, Bhagavata Purana) and classical song. (General Education Code(s): CC.) THE STAFF

99. Tutorial. F,W,S

Students must file their petitions for this course with the department office by the end of the fifth day of instruction in the quarter in which they would like to take the tutorial. Prerequisite(s): petition required, approved by instructor and department. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

100A. Asian Theater/Dance and Global Impacts. *

Overview of selected theater/dance performance genres of India, Indonesia, China, Korea, and Japan with attention to how cultural, political, and social flows have impacted contemporary performance in Asia and beyond. Lectures supplemented by workshops. M. FOLEY

100B. Black Theater USA. *

Spanning slavery, emancipation, reconstruction, the great depression, civil rights, and the black power/black arts movements, course explores African American drama from literary, historical, and biographical perspectives in lecture/discussions, film excerpts, dramatizations, and visits from award-winning guests. THE STAFF

100C. Courts, Courtesans, Shamans, and Clowns: Asian Drama. *

Asian court and popular performance are traced. Sanskrit drama is contrasted with Indian epic recitation, medium, and courtesan dance. Gender specialization is noted in Indonesian courts using Indian and local legends in dance, mask/puppetry, and clowning. Buddhist and Confucian impulses in Chinese theater and early Korean and Japanese mask and puppetry are introduced. Students are evaluated on participation, tests, writing, and a performance project. P. GALLAGHER, M. FOLEY

100W. Black/African Diasporic World Theater. *

Examines major black African diasporic playwrights and theater.

Theater Arts

Focuses on the historical, cultural, and literary contexts that gave rise to the works of dramatists such as Ama Ata Aidoo, Derek Walcott, Wole Soyinke, Aime Cesaire, Debbie Green Tucker, and Paul Boakye. Prerequisite(s): course 61 or 60A or 60B or 60C. THE STAFF

103. Design Concept Development. *

Students develop an advanced design project related to theatrical production, apparel or housewares, marketing collateral, packaging or product development, or any related fields. Students address research and development, materials sourcing, budgeting, fabrication, and portfolio-quality presentation materials.

Prerequisite(s): Theater Arts 10; or two courses from ART 10D, 10E, and 10F. Enrollment is by permission of the instructor. Theater Arts 106 is recommended as preparation. (Also offered as Art 143T. Students cannot receive credit for both courses.) B. BARON

104. Multimedia Authoring. *

Introduces students to basic tools for the creation of multimedia digital projects. Special attention is given to the integration of video, sound, graphics, text and virtual reality and to the creation and execution of strategies for interaction between users and the projects themselves. With this in mind, students design and create computer puzzles and games. Enrollment limited to 25. J. BIERMAN

106. Digital Illustration. *

Introduces digital rendering techniques using the Adobe Creative Suite. Using Adobe Creative Suite, students solve design problems. Enrollment by permission of the instructor. Application form available from baron@ucsc.edu. (Also offered as Art 146T. Students cannot receive credit for both courses.) Enrollment limited to 30. B. BARON

108. Theater and Interaction Design. *

Investigates interactive media including computer games, virtual reality, and participatory theater to

inform design practice. Examines Aristotle's "Poetics" with some modernist excursions. Also examines the various values embedded in works--artistic, civic, spiritual, and political. Enrollment is restricted to juniors and seniors. Enrollment limited to 60. (General Education Code(s): IM.) THE STAFF

113. The History of Design for Theater. *

The development of scenic design from the Greek period to the present. Concentration is on the changing styles of set design in relation to the changing attitudes toward dramatic literature, art, and theater architecture. (General Education Code(s): IM.) K. EDMUNDS

114. Sound Design and Engineering for the Theater. *

Mixing theory with practice, this course covers everything from script analysis and sound-design paperwork to how to use the software and hardware needed to bring a sound design to reality. (Formerly Design Studio: Sound.) Prerequisite(s): course 10. (General Education Code(s): PR-C.) THE STAFF

115A. Design Studio: Scenic Design. W

Advanced work in principles and theory of scenic design. Students are billed a materials fee. Prerequisite(s): course 10. (General Education Code(s): PR-C.) K. EDMUNDS

115B. Design Studio: Scenic Design B. *

Advanced theory and practice of theatrical set design. Prerequisite(s): course 115. (General Education Code(s): PR-C.) K. EDMUNDS

116A. History of Clothing and Costume. *

Survey of clothing and theatrical costumes; emphasis on dress of the audience and actor in historical periods of theatrical activity. Students are billed a materials fee. (General Education Code(s): IM.) B. BARON

117. Design Studio: Costume. W Students learn advanced principles and theory of costume design, and apply these toward a large project for theatrical/film production or for character design for animation and gaming. Students are billed a materials fee. (Also offered as Art 147T. Students cannot receive credit for both courses.) Enrollment limited to 30. May be repeated for credit. (General Education Code(s): IM.) B. BARON

117A. Advanced Costume Construction. *

Advanced principles in costume construction, including tailoring, advanced pattern drafting, and draping techniques. Focuses on translating modern techniques into historical garment construction. Teaches how to study artifacts and do primary research to unlock the past. Prerequisite(s): course 17. Enrollment limited to 25. THE STAFF

118. Design Studio: Scene Painting. *

Emphasis on techniques used in painting scenery for the theater. Students are billed a materials fee. Prerequisite(s): course 10. THE STAFF

119. Design Studio: Lighting Studio B. *

The theory and practice of lighting design with emphasis on practical application. Light plots, electricity, optics, design, and manipulation of lighting for the theater and related performance events are investigated. The student explores mechanics and aesthetics with hands-on experience. Students are billed a materials fee. Prerequisite(s): course 19. (General Education Code(s): PR-C.) D. CUTHBERT

121. Acting Studio II. W

This acting studio centers around Shakespeare and specific techniques used in performing his plays. Continues concentrated work on basic acting skills and textual analysis through scene study. May be repeated for credit. A. GINTHER

122. Indian Performance: Rama, Siva, Krishna. *

Theater Arts

Study of the classical theater and dance of India, with attention to performance practice, aesthetic theory, relationship to religious practice devoted to Rama, Siva, and Krishna, political implications and intercultural experimentation. (General Education Code(s): CC.) THE STAFF

124. Movement for Performers. S
Awareness and extension of personal movement repertoire, through observation, movement experience, and exploration. P. GALLAGHER

126. Acting Studio III. F,S
Individual work on acting skills and problems, with emphasis on individual interpretation and scene work with other students. Prerequisite(s): course 121; permission of instructor; audition at first class meeting—contact department office for more information. Enrollment limited to 18. May be repeated for credit. THE STAFF, A. GINTHER, P. GALLAGHER

128. Choreographic Workshop (2 credits). W
Intensive upper-division choreographic workshop that begins from the key motifs of historical dance to develop original work. Dancers made available to the student choreographers. Concurrent enrollment in course 139 is required. Enrollment limited to 15. May be repeated for credit. (General Education Code(s): PR-C.) G. CASEL

130. Intermediate Dance Theory and Technique. *
A progression from the simple phrasing and articulation of beginning technique class to more complex material requiring more acute perceptive skills and richer dynamic range. Emphasis is on both alignment and maintaining the kinetic integrity of the body while moving through space. Students are billed a materials fee. (Formerly Intermediate Modern Dance Theory and Technique.) Prerequisite(s): course 30 or 31 or permission of instructor. May be repeated for credit. (General Education Code(s): IM.) G. CASEL

131. Advanced Dance Theory and Technique. *
Advanced instruction in developing the dancer's mind/body, combined with contemporary movement theory and practice. Students are billed a materials fee. (Formerly Advanced Modern Dance Theory and Technique.) Prerequisite(s): course 30 or 31 or permission of instructor. May be repeated for credit. E. WARBURTON

131C. Dance Studio II. F
Continued study of contemporary dance theory and practice. Focus on intermediate dance technique, individual and group movement invention, choreographic voice, and theatrical applications. Students are billed a materials fee. Enrollment limited to 30. G. CASEL

131P. Postmodern Dance II. *
Continued study of postmodern dance theory and technique. Focus on advanced compositional practice, theatrical applications, and critical analysis of contemporary postmodern dance choreographers in the U.S. and worldwide. Audition at first class meeting. Enrollment limited to 30. May be repeated for credit. (General Education Code(s): IM.) E. WARBURTON

135. Dance Improvisation and Theory. *
Students explore sources for movement; gain expressivity in a wide range of movement elements; work in ensemble and solos; explore the use of scores to develop collaborative skills; and explore contact improvisation. Students are billed a materials fee. G. CASEL

136. Choreography. *
Advanced study, exploration and analysis of choreographic form and content. Solo, duet, and group work are created with a focus on developing the creative process, interpreting styles and trends, and knowledge of compositional devices and generative movement practices. (Formerly course 136C, Dance Studio III.) Enrollment limited to 30. May be repeated for credit. (General Education Code(s): PR-C.) G. CASEL

137. Studies in Performance (Dance). S

Studies in dance, taken in connection with performance in a major dance concert. Students are required to work on all aspects of the production. Students work with guest and faculty choreographers. May be repeated for credit with consent of instructor. Students are billed a materials fee. Admission by audition held late winter quarter; see department office for more information. May be repeated for credit. C. LEE

139. Random: With a Purpose. W
Participation in a student-choreographed and directed dance concert under faculty supervision. Rehearsals culminate in public performances. Students are billed a materials fee. Auditions to be held on the first day of class. May be repeated for credit. (General Education Code(s): PR-E.) G. CASEL

141. Play Direction Studio I. W
Basic studio exploration through scene problems and exercises of the development of directing principles. Intensive work on the director's pre-rehearsal work from text selection, analysis, and casting. Audition at first class. Enrollment limited to 20. M. WEEMS

142. Play Direction Studio II. *
Intensive studio exploration of the art and craft of directing. Primary focus on text analysis, collaboration with designers, developing a point of view and visual/auditory language for the play, staging techniques, and communication techniques with actors. Prerequisite(s): course 40, 141, or permission of instructor. Enrollment limited to 15. May be repeated for credit. THE STAFF

151. Studies in Performance (Drama). F,W
Studies in theater, taken in connection with participation in a Theater Arts Department sponsored production. Enrollment is limited to those persons chosen to take part in a particular production. Admission by audition; audition schedule to be announced at first class meeting. May be repeated for credit. THE STAFF, M. FOLEY, K. JANNARONE, D. SCHEIE

Theater Arts

151A. Studies in Performance: African American Theater Arts Troupe. W

Studies in drama; emphasis on African American theater taken in connection with participation in a theater arts sponsored production. Enrollment by audition only, and limited to those persons chosen to take part in a particular production. May be repeated for credit. (General Education Code(s): ER.) D. WILLIAMS

151I. Studies in Performance: Indonesian Dance and Drama. *

Studies in drama; emphasis on Indonesian theater taken in connection with participation in a theater arts sponsored production. Enrollment by audition only, and limited to those persons chosen to take part in a particular production. May be repeated for credit. (General Education Code(s): CC.) P. GALLAGHER, M. FOLEY

152. Advanced Stagecraft. *

Exploration of stage technology from the scene shop's perspective. Conversion of scenic designs to construction drawings. Pursuit of scenic-engineering and construction techniques using steel, wood, and other materials. Training on use of stage machinery: rigging, flying, wagons, tracking, and propulsion. Prerequisite(s): course 52. Enrollment limited to 25. THE STAFF

153. Taking It to the Street: Performance and Politics/Politics of Performance. *

Covers the theory, history, and practice of performance and new media as sociopolitical intervention. Includes performance in an urban context; site-specific and street theater; puppetry; environmental theater; culture jamming, including radio, television, billboards, and records; and digital interventions. Students are billed a materials fee. (Formerly Art 175.) May be repeated for credit. (General Education Code(s): PR-C.) THE STAFF

155. Workshop Experiments in Performance. W

A process-oriented investigation of

specific playwrights or theatrical styles consisting of work which may culminate in a final production.

Admission by audition at first class meeting; see department office for more information. May be repeated for credit. P. GALLAGHER

157. Playwriting. F

Students are given the opportunity to write their own scripts and refine them as the result of class discussion and scenework with actors. Work is on specific problems involving such elements as the structuring of a plot or the development of character.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. May be repeated for credit. J. BIERMAN

158. Chautauqua Workshop. *

Advanced course that provides directors, writers, and performers with an opportunity to develop new works in performance. Students enrolling in this course as playwrights are selected on basis of submissions turned in the previous quarter. Students are billed a materials fee. Students taking the course as directors are required to obtain consent of the instructor. Other students may enroll as usual. May be repeated for credit. THE STAFF

159. Advanced Playwriting. W

A study, through practice, of the constituent elements in the construction of a drama. Students concentrate, in particular, on the organization of complex plots, the expression of character through conflict, and maximizing the emotional impact of dramatic situations. Prerequisite(s): course 157 or equivalent, satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. May be repeated for credit. J. BIERMAN

160. Dramatic Theories. S

An examination of the theories of acting and directing from the 19th century to our own time, starting with the classic theater and concentrating on the 20th-century debate centered in Stanislavski and Brecht, Grotowski, and Robert Wilson. This course must be taken

prior to student's senior year; required for course 185. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. M. WEEMS

161. Theater, Literature, and History.

161A. Irish Theater. *

Examines the idea of a "National Theater" in Ireland from its beginnings in the founding of the National Literary Society in 1892 to the current vitality of the contemporary Irish Theater. Enrollment limited to 45. P. WHITWORTH

161C. Theater and Drama of the Renaissance. *

Examines selected plays from the Renaissance (1580-1680, Italy, Spain, England, and France) from a theatrical viewpoint. Covers Renaissance theater buildings and related critical materials. (Formerly The Theater and Drama of Renaissance Europe.) K. JANNARONE

161D. Asian Theater: An Anthropological Approach. S

Art serves simultaneously to educate its audience to the group's traditional values and to test new ideas. Indian, Indonesian, and Japanese forms are studied in relation to their cultural context. Through videotapes, lecture demonstrations, performances, and scenework, students explore the forms. Offered in alternate academic years. (General Education Code(s): CC.) M. FOLEY

161M. Sexuality, Gender, Drama, and Performance. *

Exploration and analysis of the interrelationships between gender, sexuality, and performance on stage and on the page. Topics include gender and homosexuality in the history of performance and dramatic literature, drag, queer Shakespeare, closet drama, same-sex performance conditions (e.g., Greece) vs. dual-gendered (e.g., Restoration England). Combines study of theoretical texts and script with analysis and practice.

Theater Arts

(Formerly GENDER AND PERFORMANCE.) D. SCHEIE

161P. Theater in the "Chicano Power" Movement. *

Covers the rise of Teatro Chicano as a cultural-political force within the 1960's "Chicano Power" Movement starting with founding playwright Luis Valdez and El Teatro Campesino and covering Chicana/o playwrights inspired by the movement, e.g. Cherrie Moraga, Luis Alfaro, and Josefina Lopez. (Also offered as Latin American & Latino Studies 161P. Students cannot receive credit for both courses.) (General Education Code(s): ER.) THE STAFF

161Q. Queer Theatrics: Representations and Sensibilities. *

An examination of the idea, form, and significance of queer/gay sensibility and representation in the English-speaking theater from the Renaissance to the present. THE STAFF

161R. Theater of American Cultures. F

Interrelationship of ethnicity and the rise of significant American theater groups including the black theater movement, Chicano Teatro, and Asian American theater will be shared via lecture, viewing, and discussion. M. CHEMERS

161S. American Drama: Politics and Theater. *

The dream of group theater, a long-term partnership of actors, directors, and playwrights, has fueled extraordinary and exciting change in the 20th-century American theater theory and practice. We examine ten exemplary manifestations of this dream. J. BIERMAN

161T. Women in Theater. W

Explores female playwrights from textual, historical, and multicultural perspectives. Progresses from *Trifles* (1916) through the Harlem Renaissance, Broadway's Lillian Hellman, and today's post-feminist theatrical explosion in lectures, films, dramatizations, and award-winning playwrights' visits. M. WEEMS

161U. Performance of Story in Theater and Film. *

Examination of theory and practice of theater and film comparing and contrasting works having been adapted from one genre to another. Lecture, film, and video viewing. Discussions of materialist, psychoanalytic, and feminist approaches shared. Students cannot receive credit for this course and course 80X. THE STAFF

161Y. Modern Ancient Drama. *

Studies 20th- and 21st-century productions and adaptations of ancient Greek and Roman drama in theater, dance, music, and film, including Stravinsky, Graham, Pasolini, and Taymor. Discusses artists' goals, the sociopolitical context, ideas of authenticity and audience response. (Also offered as Cowell College 161Y. Students cannot receive credit for both courses.) Enrollment limited to 30. THE STAFF

163. Special Studies in Individual Playwrights.

163A. Shakespeare. *

Focuses on selected plays of Shakespeare. Explores the range and variety of interpretations of the plays, both in critical writings and in performance. Also studies other writings and graphic art created on the subjects and themes of the plays. Offered in alternate academic years. THE STAFF

163E. Chekhov and His Impact. *

Delves into the work of Chekhov and the Moscow Art Theater. Stanislavski's acting techniques are related to the scripts through scene work. The impact on later Russian innovators, especially Meyerhold, and on the American theater is considered. THE STAFF

163G. Special Studies in Playwrights: Artaud. *

Antonin Artaud through three critical lenses: influence on modern and contemporary theater, subject and site of psychoanalytic and social criticism, and theater practitioner. Exercises cultural, historical, and analytic approaches to his work. Prerequisite: course 160

recommended. Enrollment limited to 40. K. JANNARONE

163H. Henrik Ibsen and His Impact: Ghosts of the Future. *

Examines representative texts of Ibsen's work: early plays, realistic middle plays, and late plays. The cultural/historical context of Ibsen's oeuvre is considered as well as its impact, through contemporary translations and productions, on subsequent theater theory and practice. (General Education Code(s): TA.) THE STAFF

163K. Special Studies in Playwrights: Euripides. F

Examines the works of the classical Athenian tragedian Euripides. The class undertakes a thorough consideration of the playwright's plays in cultural, historical, theatrical, and literary context. Prerequisite(s): course 61A or permission of the instructor. Enrollment limited to 40. (General Education Code(s): TA.) J. BIERMAN

164. Issues in Dance History and Theory. F

A research seminar. Topics range from critical dance cultures, cognitive dance studies, problems in dance aesthetics, criticism, or theory to particular movements, periods, or the work of a choreographer. Enrollment limited to 20. May be repeated for credit. E. WARBURTON, C. LEE, G. CASEL

165. Dance Modernism. W

An overview of 20th-century dance within the perspective of modernism. Topics may include romanticism, "natural" dance, Orientalism, Ausdruckstanz, American modern dance and neo-classicism, chance procedure, postmodernism, the avant-garde commodity marketplace, and critical dance cultures. (General Education Code(s): IM.) E. WARBURTON, C. LEE, G. CASEL

166. Ballet: A History. *

Chronological critical and historical overview of ballet as a form of ethnic dance from its European origins to the present. Focus is on development of form in Americas and Asia as it crossed with other socio-culturally constructed

Theater Arts

categories such as race, gender, class, sexual orientation. (General Education Code(s): ER.) E. WARBURTON

167. Africanist Aesthetics: Live Dialogues in the Americas and Africa. *

Examines the transnational currents in expressive culture and the performing arts among the peoples of Africa and Latin America, and Latinos and African Americans in the United States. Enrollment limited to 30. (General Education Code(s): CC.) THE STAFF

185. Senior Seminar. F

A required seminar for majors involving readings and discussions of important texts in dance, design, and drama. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; course 160. K. EDMUNDS

190. Group Projects. F,W,S

Prerequisite(s): petition required, approved by instructor and department. May be repeated for credit. THE STAFF

192. Directed Student Teaching. F,W,S

Teaching a lower-division seminar under faculty supervision. (See courses 42 and 45). Petition required, approved by instructor and department. THE STAFF

193. Proseminar. *

Exposes students to an aspect of the theory or practice of theater arts. Visiting scholars share their area of expertise in lectures to a small group of students. Enrollment limited to 25. May be repeated for credit. THE STAFF

193F. Proseminar (2 credits). *

Exposes students to an aspect of the theory or practice of theater arts. Visiting lecturers share their area of expertise in lectures to a small group of students. Enrollment limited to 25. May be repeated for credit. THE STAFF

198. Independent Field Study. F,W,S

Provides for department-sponsored individual study programs off campus for which faculty

supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Petition required, approved by instructor and department. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Provides for department-sponsored individual study programs off campus for which faculty supervision is not in person (e.g., supervision is by correspondence). Students engaging in field study must complete application procedures for such study by the fifth week of the previous quarter. Petition required, approved by instructor and department. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual study in areas approved by sponsoring instructors. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

290A. Text Analysis. F

Presents a range of performance blueprints (texts, scores, libretti, etc.), and introduces key methodologies for translating text into performance. A final paper required. Enrollment restricted to graduate students in theater arts. May be repeated for credit. M. WEEMS

290B. Performance Histories. W

Contextualizes major movement in performance. Students are exposed to a wide range of historical and visual material pertinent to the creation of theater and dance. A final paper is required. Enrollment restricted to graduate students in theater arts. May be repeated for credit. J. BIERMAN

290C. Performance Analysis. S

Examines the production approaches of a range of performance practitioners, production companies, and performance traditions. Includes exercises in analysis and reconstruction of performance. A final reconstruction project is required. Enrollment restricted to graduate students in theater arts. May be repeated for credit. K. EDMUNDS

291. Field Study. F,W,S

Student-designed and conducted research carried out in field settings. A brief prospectus must be filed with the department office before undertaking the research, and a brief final report of activities must be filed upon return. Course intended for students with graduate standing in theater arts. Petition required, approved by instructor and department. THE STAFF

292. Teaching-Related Independent Study. F,W,S

Directed graduate research and writing coordinated with the teaching of undergraduates. Course intended for graduate students in theater arts. Petition required, approved by instructor and department. THE STAFF

293. Performance Research Project (10 credits). F,W,S

Internship with a professional theater company in the student's area of emphasis. This work will have a significant academic component supervised and assessed by a theater arts faculty member during the quarter it is taken. Enrollment restricted to graduate students. THE STAFF

295. Group Critique. W

Peer review and constructive assessment of works in progress. Students are required to give individual presentations to the group at least once a quarter. Educational objectives are to develop the ability to articulate themes and ideas in student's body of work; to strengthen critical skills in making, evaluating, and discussing theater art; to explore the role of the audience in context and criticism; and to investigate the

Theater Arts

ways artists construct, use, and maintain support communities. Enrollment restricted to graduate students. B. BARON

297. Independent Study. F,W,S
Independent study or research for graduate students in theater arts. Petition required, approved by instructor and department. May be repeated for credit. THE STAFF

297F. Independent Study/Graduate (2 credits). F,W,S

Independent study or research for graduate students in theater arts. Petition required, approved by instructor and department. Enrollment restricted to graduate students in theater arts. May be repeated for credit. THE STAFF

299. Capstone Thesis. S
Involves participation in a major collaborative performance project (either faculty-directed or graduate student-directed with faculty

supervision) or a research project group. Includes a written thesis, though the length will vary depending upon the student's particular emphasis. Enrollment restricted to graduate students. THE STAFF

* Not offered in 2017-18

UCDC PROGRAM

2017-18 General Catalog

25 Merrill College

(831) 459-2855

politics@ucsc.edu

<http://politics.ucsc.edu>

PROGRAM DESCRIPTION

UCDC PROGRAM AT THE UNIVERSITY OF CALIFORNIA WASHINGTON CENTER

The UCDC Program supervises and supports students who pursue a quarter of academic study and internship work in the nation's capital. Internship placements are geared toward student interests, including but not limited to government and public policy, science and the environment, education and the arts, advocacy and nonprofit organizations, law, and business and finance. Students live in the UC Washington Center with students from other UC campuses, which provides an intellectual and social community throughout the quarter.

The program is open through a competitive application process to students in all majors who are in good standing and will be juniors or seniors by the quarter in which they participate. Students enroll for fall, winter, or spring quarter, earn 12 to 17 course credits, and continue to be registered as full-time students. Applicant selection is based on academic record, a written statement, letters of recommendation, and in some cases a personal interview. Financial aid eligibility is maintained.

Interested students with strong academic records are encouraged to apply. For more information, e-mail ucdc@ucsc.edu, contact the UCDC coordinator in 10 Merrill College, or visit the program's [website](#).

UCDC COURSES

UPPER-DIVISION COURSES

194A. UCDC Internship Research Seminar. F,W,S

Weekly seminar that focuses on the production of a major research paper or equivalent scholarly undertaking connected to an internship in Washington, D.C., government, non-profit, or private institution. Seminar stresses institutional analysis, the development of bibliographic expertise in the use of Washington-based resources, and participant-observer skills. Required for and enrollment restricted to students participating in the UCDC Program. (Formerly Social Sciences 194A.) Enrollment limited to 22. THE STAFF

194B. UCDC Internship Seminar (7 credits). F,W,S

A 30- to 36-hour-per-week internship in a Washington, D.C., government, non-profit, or private institution. Required for and

enrollment restricted to UCDC program participants. (Formerly Social Sciences 194B, UCDC Internship and Internship Seminar.) Enrollment limited to 22. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

A program of directed study arranged with a Social Sciences Division faculty member. Enrollment restricted to participants in the UCDC program. (Formerly Social Sciences 199.) THE STAFF

199F. Tutorial (2 credits). F,W,S

A program of directed study arranged with participating faculty. Class time is proportionally less than a 5-credit course. Enrollment restricted to participants in the UCDC program. (Formerly Social Sciences 199F.) THE STAFF

WRITING PROGRAM

2017-18 General Catalog

209 Humanities 1
(831) 459-2431
<http://writing.ucsc.edu/>

PROGRAM DESCRIPTION

The Writing Program offers courses designed to help students become more competent and confident writers of prose. The courses offered through this program teach conceptual strategies about writing as well as applied strategies of invention, composition, revision, and editing. These courses approach writing as a way of making discoveries about ourselves and the world and of communicating these insights to others.

Together with the colleges, the Writing Program administers the writing components (C1, C2) of the campus general education requirements; administers the Entry Level Writing Requirement (ELWR), and provides information to students about ways to fulfill these requirements.

The Writing Program offers lower-division courses that satisfy the C1 and C2 general education (GE) requirements (Writing 1 and Writing 2, respectively); the Writing 20 series (Writing 20, 21, 23) to help meet the needs of domestic students who have not satisfied ELWR; the multilingual writing curriculum (Writing 25, 26, 27) to prepare international students for subsequent classes; instruction for undergraduates in

the theory and practice of peer tutoring (Writing 169 and Writing 159); instruction for graduate students from all disciplines in the theory and practice of teaching first-year composition courses (Writing 203).

The Writing Program also offers specialized lower-division courses for ELWR-required multilingual and international students to provide additional grammar support for essays written in winter and spring writing courses (WRIT 22A), as well as support for students who have recently satisfied ELWR and are enrolled in spring sections of WRIT 2 (WRIT 22B).

The Writing Program houses the Don Rothman Endowed Award in First-Year Writing. Now in its seventh year of honoring outstanding first-year writers and of recognizing the pedagogical inspirations of their teachers, the endowment celebrates students' academic achievements during a fall ceremony attended by friends, family, faculty, and administrators.

Courses in creative writing are offered through the Literature Department.

WRITING PROGRAM FACULTY AND PROFESSIONAL INTERESTS

LECTURER WITH SECURITY OF EMPLOYMENT

Heather Shearer, Chair

Writing program administration; curriculum design and assessment; rhetorical practices of intentional communities; technical communication; usability of complex information products

James Wilson, Emeritus

Kimberly Helmer

Spanish heritage language learning, English for academic purposes, assessing multimodality

Tonya Ritola

Writing program administration; curriculum design and assessment; organizational rhetoric; genre studies

Roswell Spafford, Emerita

SENIOR LECTURER WITH SECURITY OF EMPLOYMENT

Elizabeth Abrams

Composition and rhetoric; writing pedagogy, writing across the curriculum; 19th-century and 20th-century American history and literature, especially concerning the Civil War

Carol M. Freeman, Emerita

LECTURER

Margaret Amis

Writing; pre- and early modern English literature; prose style

Sondra Archimedes, College Nine Writing Coordinator

Writing pedagogy; 19th- and early 20th-century British literature; gender studies; cultural studies

Writing Program

Derede Arthur

Cultural studies, 18th–20th-century British literature, theory of the novel, theories of education, cognitive ethology

Mark Baker

Media and democracy, postmodernism, 20th-century literature and culture of the Americas, community participation, writing and social responsibility

Farnaz Fatemi

Writing, poetry, writing pedagogy, comics and graphic novels, Middle East issues and cross-cultural perspectives, contemporary American literature

Veronica Flanagan, Kresge College Writing Coordinator

Writing, writing pedagogy, translation and translation theory, 19th- and 20th-century American literature, French literature

Joy Hagen, Rachel Carson College Writing Coordinator

Science writing; writing for physical and biological sciences; ecological risks of genetically engineered organisms; population dynamics; agroecology and food systems; entomology; science and uncertainty (Science and Technology Studies); California Common Core standards

Erica Halk, College Ten Writing Coordinator

Post-secondary reading and writing pedagogy; American literature; cultural criticism; gender studies

Roxanne Power Hamilton

Writing, poetry, magazine editing, inter-arts performance, gender and queer studies

Robin King, Oakes College Writing Coordinator

Visual arts, media criticism, sociology of learning and emotions, multi-cultural studies, politics of food

Lindsay Knisely

Digital identity production in youth; establishing ethos in writing; writing of witness; African-American literature and literary theory; writing as social activism; writing as identity development; poetry analysis and interpretation; development of critical consciousness

Toby Loeffler

Writing pedagogy; early 20th-century British and Spanish literature; history and theory of the British and European novel; British and European modernism; literature and nationalism; ideology; cultural studies

Brij Lunine, Stevenson College Writing Coordinator

Writing pedagogy; writing across the curriculum, teaching research; reception studies, cultural studies, popular culture and youth subcultures

Patrick McKercher

Virtual reality educational environments, outreach projects, collaborative research with James Burke, environmental education

Ingrid Moody Lariviere, Porter College Writing Coordinator

Ellen Newberry, Merrill College Writing Coordinator

Educational partnerships with K–12 schools, transfer/re-entry student writing, women’s studies, and queer studies

Sarah-Hope Parmeter, Coordinator, Entry Level Writing Requirement (ELWR)

Writing and democracy; multilingual, multicultural rhetorics; cross-age writing partnerships and public school collaboratives; lesbian/gay/bisexual/transgender young adult literature; rhetoric of the sciences

Annalisa Rava, Crown College Writing Coordinator

Animals and human society, science fiction studies, literature and postmodernism

Denise Silva

Cultural studies; urban studies; gender studies; 19th- and 20th-century British literature; composition and rhetoric

David Thorn

Climate change, technology, and ethics; sustainable agriculture and food production; Africa and African life beyond the four "Ds"; sci-fi and weird fiction; surfing and poetry

WRITING PROGRAM COURSES

LOWER-DIVISION COURSES

1. Introduction to Composition. F,W,S

Provides declarative knowledge and procedural knowledge about writing, with a special focus on genre, genre conventions, and rhetorical situation. Provides opportunities for composing in a number of genres. Prerequisite(s):

course 27 or satisfaction of the Entry Level Writing Requirement by permission. Enrollment restricted to first-year students and sophomores. Enrollment limited to 22. (General Education Code(s): C1.) THE STAFF

2. Rhetoric and Inquiry. F,W,S
Explores the intersections of investigation, interpretation, and persuasion and hones strategies for writing and research. Students

develop specific, practical ways of improving their writing through sustained critical thinking about diverse issues from multiple points of view. Prerequisite(s): satisfaction of the Entry Level Writing and C1 requirements. Enrollment restricted to frosh, sophomore and junior students. Enrollment limited to 25. (General Education Code(s): C2.) THE STAFF

Writing Program

11A. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). F

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. THE STAFF

11B. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). W

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. THE STAFF

11C. Adjunct Tutorial in Writing (2 credits per quarter) (2 credits). S

A tutorial designed to provide follow-up assistance in writing for students who have passed the Entry Level Writing Requirement, but wish to continue to work on various aspects of their writing. Counts only for academic standing and financial aid purposes, but does not apply toward degree requirements (i.e., counts as workload credit only). Prerequisite(s): approval of the Writing Program; satisfaction of the Entry Level Writing Requirement. May be repeated for credit. THE STAFF

20. The Nature of Written Discourse. W

Explores the dynamics of written language: its relationships to speech, thought, and culture; its

uses in different personal, academic, professional, and public contexts; its abuses in jargon and propaganda. Course work includes extensive practice in different kinds of writing. Enrollment restricted to students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment limited to 22. THE STAFF

21. Meaning and Style: The Sentence in Context. S

Explores, via cross-cultural readings, the nature, uses, and abuses of language. Course work includes extensive writing, both take-home and in-class. Emphasis on revising for power of expression and for variety and accuracy at the sentence level. Enrollment restricted to students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment limited to 22. THE STAFF

22A. Grammar and Editing Workshop (3 credits). F,W

Offers instruction on selected topics in grammar and conventions of written English as needed to strengthen the writing skills of students whose primary language is not standard English. Provides students practice in applying these concepts to editing their own writing. Designed for entering first-year students. Enrollment restricted to first-year students. Enrollment limited to 22. THE STAFF

22B. Grammar and Editing Workshop (3 credits). W,S

Offers instruction on selected topics in grammar and conventions of written English as needed to strengthen the writing skills of students whose primary language is not standard English. Provides students practice in applying these concepts to editing their own writing. Designed for continuing students who have already taken course 20 and/or 21. Enrollment limited to 22. THE STAFF

23. Grammar and Rhetoric: Language for Writing. F

Builds on writing skills gained in previous writing courses; focuses

on effective language use in academic writing. Students reinforce their written English proficiency by reading, studying, practicing, and writing structures and patterns of written English. Enrollment restricted to fourth-quarter students who have not passed the Entry Level Writing Requirement. Open to others by permission of instructor. Enrollment limited to 22. THE STAFF

25. Writing About Place. F,W

Students explore the UCSC discourse community including classroom culture, then widen their lens to include the larger Santa Cruz community. Writing moves beyond the paragraph level to include oral communication and presentation skills. Enrollment through placement examination. THE STAFF

26. Writing About Language. F,W,S

Students explore language acquisition and how to best optimize their own language learning by engaging in a primary research project. Through the research project, students learn to use academic discourse conventions in their own writing. Prerequisite(s): course 25 or placement by examination and interview. THE STAFF

27. Writing About Genre. F,W,S

Using the theme of "Rhetoric and Genre," this course prepares students to transfer into the mainstream composition curriculum by training them to analyze, understand, assess, and successfully produce different genres of writing. Upon passing this course, students satisfy the Entry-level Writing Requirement (ELWR). Prerequisite(s): course 26 or placement by examination and interview. THE STAFF

42. Student-Directed Seminar.

Seminars taught by upper-division students under faculty supervision. (See course 192.) THE STAFF

64. Newsriting Workshop. * Introduction to the basic techniques of newsriting, including practice

Writing Program

in leads, formats, and different kinds of news reporting. Emphasis on developing skills in research, interviewing, and shaping stories. Includes an examination of the contemporary media.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements, instructor determination at first class meeting. Enrollment limited to 22. THE STAFF

70. Communication and Rhetoric: An Introduction. *

This course introduces the field of contemporary communication studies, locating its roots in rhetoric and showing how key concepts play out in mass media and other settings as well as in everyday life. Prerequisite(s): satisfaction of the Entry Level Writing requirement. THE STAFF

93. Field Study. F,W,S

For lower-division students: supervised study within commuting distance of campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Prerequisite(s): satisfaction of the Entry Level Writing requirement; certification of adequate preparation; approval of Writing Program. May be repeated for credit. THE STAFF

93F. Field Study (2 credits). F,W,S

For lower-division students: supervised study within commuting distance of campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99. Tutorial. F,W,S

Individual, directed study for lower-division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

99F. Tutorial (2 credits). F,W,S

Individual, directed study for lower-

division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

UPPER-DIVISION COURSES

101. Introduction to the History, Theory, and Practice of Rhetoric. W

A survey of classical and contemporary ideas about rhetoric which explores, practically and theoretically, "the best means of persuasion in any situation whatsoever" and will consider the nature of human discourse in diverse areas of knowledge. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to college members. THE STAFF

102. The Rhetoric of the Social Sciences. *

Develops rhetorical facility in disciplinary writing for upper-division social science majors. Requires critical and disciplinary reading, writing in modes appropriate to social science disciplines, and a substantial research or critical paper within the student's own discipline. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. THE STAFF

103. Rhetoric of the Natural Sciences. *

This course explores writing genres within the natural sciences. Emphasis is on the relationships between good science and good writing, clear thinking and clear writing. Frequent papers and substantive revisions required. Prerequisite(s): completion of 10 units coursework in the natural sciences, satisfaction of the Entry Level Writing and Composition requirements. Enrollment restricted to juniors and seniors during priority enrollment. Enrollment limited to 30. THE STAFF

104. Writing in the Arts. *

A writing course focusing on the

purposes and composition of various genres of writing about and in the performing arts, visual arts, and music such as reviews, program and exhibit notes, journal and magazine articles, grant proposals, and press releases. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 30. THE STAFF

106. Public Speaking. *

Students learn strategies to write, analyze, and deliver effective speeches of various kinds as well as professional presentations using PowerPoint and other visuals. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 25. THE STAFF

107. Technical and Business Writing: An Overview. *

An exploration of the conventions and formats of business and technical writing. Course work involves writing effective resumes, proposals, letters, end-user manuals, and the fundamentals of Web site design. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 30. THE STAFF

108. Electronic Communication. *

An introduction to the evolving conventions of effective Web site design as well as collaborative writing. Course work includes evaluation of Web site content and structure and creation of hypertext. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 24. THE STAFF

109. Argument and Practical Reasoning. *

An investigation of contemporary persuasive discourse with special attention to the elements and forms of argument, the nature of evidence, questions of validity and probability, and the workings of rhetorical reasoning. Emphasizes the analysis of arguments rather than their construction.

Writing Program

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. THE STAFF

110A. Writing in the Professions. *

Study of writing required in the selected professions, including law, politics, and government. Considers the rhetoric of each discipline and relevant texts. Includes lectures from visiting professionals and a series of writing assignments based on reading and research. Topic may vary from year to year, focusing on the rhetoric of other professional divisions: medicine, engineering, economics, and so forth.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. THE STAFF

120. Editing English Prose. *

This course offers extended, detailed instruction in editing one's own and other people's prose for accuracy, clarity, appropriateness, and effectiveness. It provides some history of theories of style and stylistic analysis, and instruction in prose variation according to social context. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 40. THE STAFF

159. Grammar for Tutors and Teachers (3 credits). W

English grammar from a pedagogical perspective, emphasizing structures, patterns, and conventions of written English that commonly challenge basic writers. Students learn strategies for helping multilingual and other writers improve their writing skills by increasing their awareness of grammar. Prerequisite(s): course 169, or by instructor permission. Enrollment limited to 45. THE STAFF

161. Academic Writing and Research Methods. *

Introduces library and field research methods and also provides instruction and practice in writing from research, addressing issues

such as voice, argument, and documentation. Students write four lengthy essays and do considerable informal writing. Course 161 includes sections for re-entry women, transfer students, and students in the EOP Faculty Mentor Program. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements. Students should contact the instructor for enrollment information. Enrollment limited to 20. THE STAFF

163. Advanced Workshop in Expository Writing. *

A composition course for students who, having mastered basic writing skills, wish to concentrate on increasing their effectiveness as rhetoricians, prose stylists, and editors. Assignments include writing and revising essays, responding to other students' work, and reading published essays. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements. Enrollment limited to 22. May be repeated for credit. THE STAFF

165. Practicum in Reporting. *

In-depth, community-based reporting, with an emphasis on skills ranging from interviewing techniques to profiles, integrating research with writing. Students choose a specific area or "desk" of concentration, and all the stories reflect that beat. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; a writing sample, completed in class, is required at first class meeting. Enrollment restricted to journalism minors during priority enrollment. Enrollment limited to 22. THE STAFF

166. Topics in Journalism.

Courses under this heading explore fields of newspaper and magazine journalism: feature writing, investigative reporting, reviewing, commentary, etc. Students study published writing and hone their own skills as writers under the supervision of a practicing journalist. See the SCHEDULE OF CLASSES for specific offerings.

166A. Magazine Writing. *

Introduces students to the various forms of magazine writing, as well as to pertinent reporting techniques. Students work intensively on process, style, and editing, producing numerous formal and informal pieces. Enrollment priority will be given to journalism minors. Students produce a writing sample on the first day of class. Prerequisite(s): satisfaction of Entry Level Writing and Composition requirements; course 64 or permission of instructor. Enrollment limited to 22. THE STAFF

166B. Investigative Reporting. *

Students acquire basic investigative and research skills, with particular emphasis on how to develop investigative subjects, obtain data, check accuracy, and convert information into well written, publishable articles. Priority given to students concentrating in journalism. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; interview with instructor to review journalism portfolio. Enrollment limited to 22. THE STAFF

166D. Minorities in Journalism. *

Focuses on the minority press and how it has shaped journalism in the U.S. as well as viewing how the media has dealt with this segment of our society. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and consent of instructor. Enrollment limited to 22. THE STAFF

166J. Online Journalism. *

A course in using electronic sources to report articles for publication and in publishing journalistic pieces online. Prerequisite(s): course 64 or journalism experience; instructor determination at first class meeting. Enrollment limited to 25. THE STAFF

166N. The Rhetoric of Radio. *

Examines the theory and practice of radio. Students explore how the formats of radio create its meaning, and investigate radio's place in the

Writing Program

landscape of the media, particularly in the U.S. and Mexico.

Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements and consent of instructor. Enrollment limited to 25. THE STAFF

167. Making the News. *

A writing course examining news and feature articles in popular print media. Students write their own articles and analyze how a particular content is mandated by conventional forms, by the structure of the industries, and by ideas of "newsworthiness."

Designed for journalism minors and students for whom a course in media criticism is central to their program. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; qualifications determined by instructor at first class meeting. Enrollment limited to 43. THE STAFF

169. Theory and Practice of Tutoring Writing (3 credits). F

An introduction to theory and research on the composing process and practical strategies for teaching writing, especially in tutorial situations. Recommended for writing assistants. Prerequisite(s): instructor determination at first class meeting; course intended for writing tutors only. Enrollment limited to 30. (General Education Code(s): PR-S.) THE STAFF

180. Seminar in Editing and Publishing. *

Newsriting seminar for CITY ON A HILL editors and writers. Weekly sessions evaluate newspaper in depth, including writing, reporting, and issues in journalism ranging from ethics to legal questions. Prerequisite(s): instructor determination at first class meeting; open only to editors, interns, and writers at City on a Hill Press. Enrollment limited to 40. May be repeated for credit. THE STAFF

189. Methods of Teaching Writing. *

Supervised by a writing instructor, each student attends a weekly seminar on teaching writing and either assists in a class or serves as

a facilitator of a small writing group in a course at UCSC or a public school. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

191. Internships.

Individual work in journalism, publishing, or broadcasting. Internships require a contracted amount of writing or other work, and generally involve group tutorials with faculty in the Writing Program as well as individual conferences.

191A. Internship in Writing. F,W,S

Regular writing for newspaper or magazine. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

191B. Internship in Editing. F,W,S

Work in an editorial position involving critique and guidance of reporters. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

191C. Internship in Publishing. F,W,S

All phases of work for a publishing house, from manuscript reading to editorial. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

191D. Internship in Broadcasting. F,W,S

Writing, editing, scheduling, and/or broadcast work for television or radio. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

192. Directed Student Teaching. F,W,S

Teaching of a lower-division seminar under faculty supervision. (See course 42.) Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

193. Field Study. F,W,S

For upper-division students: supervised study within commuting distance of the campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Prerequisite(s): satisfaction of

Entry Level Writing requirement; students submit petition to sponsoring agency. THE STAFF

193F. Field Study (2 credits). F,W,S

For upper-division students: supervised study within commuting distance of the campus. May include internships at magazines, newspapers, publishing houses, or newsletters of corporations, and civic or service organizations. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

194. Group Tutorial. F,W,S

A writing, editing, or publishing project undertaken by a small group of students under the direct supervision of a writing instructor. Students submit petition to sponsoring agency. Enrollment limited to 15. May be repeated for credit. THE STAFF

195. Senior Thesis. F,W,S

Individual work on a thesis for any campus major or individual major. Faculty in the Writing Program help students on all phases of work, from selection and focus to development of bibliographies, research techniques, revision, and editing. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

196. Developing and Editing Field Documentation (2 credits). *

Helps students transform field documentation into fully developed, professional projects. Employs a weekly production schedule and teaches principles of rhetoric as a means of effectively selecting and arranging documentary materials. Prerequisite(s): satisfaction of the Entry Level Writing and Composition requirements; interview with instructor to review documentary materials. Enrollment limited to 20. THE STAFF

198. Independent Field Study. F,W,S

Individual study for which faculty supervision is possible only by correspondence. May include internships at newspapers, magazines, publishing houses, or

Writing Program

the newsletters of corporations, and civic or service organizations.

Prerequisite(s): satisfaction of Entry Level Writing requirement; students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

198F. Independent Field Study (2 credits). F,W,S

Individual study for which faculty supervision is possible only by correspondence. May include internships at newspapers, magazines, publishing houses, or the newsletters of corporations, and civic or service organizations. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

199. Tutorial. F,W,S

Individual, directed study for upper-division students in expository writing, editing, or journalism. Students submit

petition to sponsoring agency. May be repeated for credit. THE STAFF

199F. Tutorial (2 credits). F,W,S

Individual, directed study for upper-division students in expository writing, editing, or journalism. Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

GRADUATE COURSES

202. Writing and Learning Seminar (3 credits). *

Strategies for teaching assistants to help undergraduates become better learners and writers in disciplinary courses. Topics include using writing to improve reading and thinking, analysis of assignments, avoiding plagiarism, responding to and evaluating papers, ESL writers, peer response, and technological aids. Enrollment restricted to

graduate students. Enrollment limited to 30. THE STAFF

203. Teaching Writing. W

Prepares graduate students to teach first-year composition at UCSC and elsewhere. Development of a syllabus, teaching strategy, and class plans based on study of composition and rhetorical theories, research on students' writing development, and effective writing pedagogies. Enrollment restricted to graduate students. Enrollment limited to 18. THE STAFF

* Not offered in 2017-18

Revised: 09/01/17

YIDDISH

2017-18 General Catalog

Department of Languages and Applied Linguistics
218 Cowell College
(831) 459-2054
<http://language.ucsc.edu>

PROGRAM DESCRIPTION

Students interested in acquiring proficiency in Yiddish can enroll in beginning language courses. In addition, some credit from these courses may be counted toward the major or minor in Jewish studies; consult with the Jewish studies program. Lower-division courses are aimed at enabling students to gain proficiency in aural comprehension, speaking, reading, and writing. Attention is also given to developing an understanding

of the culture that has been expressed through the Yiddish language.

PLACEMENT EXAMS

Information about this topic can be found under [Department of Languages and Applied Linguistics](#).

YIDDISH COURSES

LOWER-DIVISION COURSES

1. First-Year Yiddish. S

Introduces the Yiddish language. Students learn to speak and to ask others in Yiddish about themselves and about common situations (the classroom, work, family), and learn to read and write simple Yiddish texts. (Formerly Introduction to Yiddish.) THE STAFF

2. First-Year Yiddish. *

Follows course 1 (formerly Hebrew 10), expanding vocabulary to include the weather, physical health and sickness, holidays, clothing, etc., and increasing student ability for self-expression using different tenses and grammatical cases. (Formerly Introduction to Yiddish.) Prerequisite(s): course 1 or Hebrew 10 or by consent of instructor. THE STAFF

99F. Tutorial (2 credits). F,W,S

Students submit petition to sponsoring agency. May be repeated for credit. THE STAFF

TEACHING AND ADMINISTRATIVE STAFF

2016-17 General Catalog

TEACHING STAFF

Faculty titles for 2017–18 were verified as of July 31, 2017, and subsequent changes may not be reflected in the following list. Please note that inclusion in this list is not a guarantee that the faculty member will be teaching throughout the 2017–18 academic years. In addition, some faculty listed here as emeriti may be recalled to teach courses.

The listing for most faculty members includes college membership, year of arrival at UC Santa Cruz, academic title, degrees, and former affiliations.

Martin Abadi, Stevenson College (2001)

Professor Emeritus, Computer Science
B.S., M.S., Ph.D., Stanford University. Former affiliations: Systems Research Center, Compaq; Bell Labs Research; Lucent Technologies.

Ralph H. Abraham, Kresge College (1968)

Professor Emeritus, Mathematics
B.S.E., M.S., Ph.D., University of Michigan. Former affiliations: Princeton University; Columbia University; University of California, Berkeley.

W E. Abraham, Cowell College (1973)

Professor Emeritus, Philosophy
B.A., University of London; M.A., B.Phil., Oxford University. Former affiliations: Macalester College; University of Ghana; University of California, Berkeley; Stanford University.

Elizabeth S. Abrams, Porter College (2000)

Lecturer, Writing
A.B., University of California, Berkeley; M.A., M.Phil., Yale University. Former affiliation: Harvard Expository Writing Program.

Zsuzsanna Abrams (2010)

Associate Professor of Languages and Applied Linguistics
B.A., University of Wisconsin, Eau Claire; M.A., Ph.D., University of Tucson. Former affiliations: University of Texas at Austin.

Demetrios Achlioptas (2005)

Professor, Computer Sciences
B.Eng., University of Patras; M.Sc., Ph.D., University of Toronto. Former affiliations: Microsoft research, Redmond, WA..

Robert Adams, Crown College (1967)

Professor Emeritus, Economics
B.A., Oberlin College; M.A., Ph.D., University of Michigan. Former affiliations: University of Pittsburgh; University of Maryland.

Anthony N. Aguirre (2003)

Professor, Physics
B.A., Brown University; M.A., Ph.D., Harvard University. Former affiliation: Institute for Advanced Study (Princeton).

Patrick P. Aherne, Porter College (1966)

Professor Emeritus, Art
B.F.A., University of Kansas; M.A., Northwestern University. Former affiliation: Artist-in-Residence, Kings Canyon and Sequoia National Parks.

Judith L. Aissen, Stevenson College (1983)

Research Professor Emerita, Linguistics
B.A., Fordham University; M.A., Yale University; Ph.D., Harvard University. Former affiliations: University of California, Los Angeles; Yale University; University of California, Santa Barbara.

Joshua Aizenman, Colledge Nine (2001)

Professor Emeritus, Economics
B.A., M.A., Hebrew University of Jerusalem; Ph.D., University of Chicago. Former affiliations: University of Pennsylvania; University of Chicago; Hebrew University of Jerusalem; Dartmouth College.

Ramakrishna Akella (2003)

Professor, Technology Management
B.S., Indian Institute of Technology; Ph.D., Indian Institute of Science. Former affiliations: State University of New York at Buffalo; Carnegie Mellon University.

Mark A. Akeson (1996)

Professor, Biomolecular Engineering
B.A., University of California, San Diego; Ph.D., University of California, Davis.. Concurrent Affiliation: Former affiliations: University of California, Santa Cruz; National Institutes of Health; University of California, Davis..

Nameera N. Akhtar, Crown College (1995)

Professor, Psychology
B.S., M.S., Ph.D., Dalhousie University (Canada).

Teaching and Administrative Staff

Jorge Aladro Font, Merrill College (1992)

Professor, Spanish Literature
M.A., University of Barcelona; Ph.D., State University of New York at Albany. Former affiliations: Skidmore College; State University of New York at Albany.

Peter Aldhous

Lecturer in Science Writing
B.S., University of Bristol, England; Ph.D., University of Nottingham, England.

Eric Aldrich (2012)

Assistant professor, Economics
B.S., Duke University; M.S., University of Washington; M.A., Ph.D., Duke University. Former Affiliations: Federal Reserve Bank of Atlanta; Duke University.

Suzanne H. Alonzo (2014)

Professor, Ecology and Evolutionary Biology
B.A., University of California, Berkeley; Ph.D., University of California, Santa Barbara. Former affiliation: Yale University.

Peter A. Alvaro (2015)

Assistant Professor, Computer Science
M.S., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Mark Amengual (2014)

Assistant Professor, Languages and Applied Linguistics
Ph.D., University of Texas at Austin; M.A., Pennsylvania State University; B.A. (Llicenciatura), Universitat de les Illes Balears.

George T. Amis, Cowell College (1965)

Professor Emeritus, English Literature
B.A., Amherst College; M.A., Ph.D., Yale University. Former affiliations: Yale University; Williams College.

Pranav Anand, Stevenson College (2006)

Associate Professor, Linguistics
A.B., Harvard University; Ph.D., MIT.

Elliot W. Anderson, Porter College (1997)

Associate Professor, Art
B.A., M.A., San Francisco State University. Former affiliation: San Francisco Art Institute.

Mark D. Anderson, Merrill College (2003)

Associate Professor, Anthropology
B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., University of Texas at Austin. Former affiliation: University of Chicago.

Roger W. Anderson, Porter College (1968)

Professor Emeritus, Chemistry and Biochemistry
B.A., Carleton College; M.A., Ph.D., Harvard University.

Frank C. Andrews, Merrill College (1967)

Professor Emeritus, Chemistry and Biochemistry
B.S., Kansas State University; M.A., Ph.D., Harvard University. Former affiliation: University of Wisconsin.

Lawrence Andrews, Porter College (1991)

Professor, Film and Digital Media
B.F.A., San Francisco Art Institute.

Hillary Angelo (2015)

Assistant Professor, Sociology
B.A., Vassar College; M.A., Ph.D., New York University.

David H. Anthony, Oakes College (1988)

Associate Professor, History
A.B., New York University; A.M., Ph.D., University of Wisconsin-Madison. Former affiliation: University of Oregon.

Bettina F. Aptheker, Kresge College (1979)

Professor, Feminist Studies and History
B.A., University of California, Berkeley; M.A., San Jose State University; Ph.D., University of California, Santa Cruz. Former affiliation: San Jose State University.

Dane Archer, Stevenson College (1972)

Professor Emeritus, Sociology
B.A., Yale University; M.A., Ph.D., Harvard University.

Sondra M. Archimedes (2004)

Lecturer, Writing
B.A., M.A., San Francisco State University; Ph.D., University of California, Santa Cruz.

Owen Arden (2016)

Acting Assistant Professor, Computer Science
M.S., Cornell University. Former affiliations: Cornell University; Independent Security Evaluators, Baltimore.

Manuel Ares, Porter College (1987)

Professor, Molecular, Cell, and Developmental Biology
B.S., Cornell University; Ph.D., University of California, San Diego. Former affiliation: Yale University.

Anjali R. Arondekar, Kresge College (2000)

Associate Professor, Feminist Studies
I.B., Armand Hammer United World College; B.A., Cornell University; Graduate Certificate, Ph.D., University of Pennsylvania.

Elliot Aronson, Stevenson College (1974)

Professor Emeritus, Psychology
B.A., Brandeis University; M.A., Wesleyan University; Ph.D., Stanford University. Former affiliations:

Teaching and Administrative Staff

Harvard University; University of Minnesota;
University of Texas at Austin.

Gabriela F. Arredondo, Merrill College (1998)

Associate Professor, Latin American and Latino
Studies

B.A., Reed College; M.A., San Francisco State
University; Ph.D., University of Chicago.

Derede L. Arthur (2001)

Lecturer, Writing

M.A., Stanford University. Former affiliations: Santa
Clara University; De Anza College; Cogswell College,
Sunnyvale.

Doris B. Ash, Porter College (2000)

Professor, Education

B.S., M.S., Cornell University; Ph.D., University of
California, Berkeley. Former affiliation: San Francisco
Exploratorium.

Noriko Aso, Merrill College (1998)

Associate Professor, History

B.A., Yale University; M.A., Ph.D., University of
Chicago. Former affiliation: Portland State University.

Erik Asphaug, Rachel Carson College (1998)

Professor Emeritus, Earth and Planetary Sciences

B.A., Rice University; Ph.D., University of Arizona,
Tucson. Former affiliations: SETI Institute; NASA
Ames Research Center.

Neda Atanasoski (2008)

Associate Professor, Feminist Studies

B.A., University of Minnesota Twin Cities; M.A., Ph.D.,
University of California, San Diego. Concurrent
Affiliation: Former affiliations: SUNY Stony Brook
University.

William B. Atwood (2001)

Adjunct Professor, Physics

B.S., California Institute of Technology; Ph.D.,
Stanford University. Former affiliation: Stanford
Linear Accelerator Center.

Alex Ayzner (2014)

Assistant Professor, Chemistry and Biochemistry

B.S., University of San Francisco; Ph.D., University of
California, Los Angeles. Former affiliation: Stanford
University Linear Accelerator Center.

Margarita Azmitia, Cowell College (1989)

Professor, Psychology

B.A., M.A., University of North Carolina at
Greensboro; Ph.D., University of Minnesota. Former
affiliation: Florida International University.

Delbert D. Bailey (2004)

Lecturer, Computer Science

B.S., Portland State University; M.S., Ph.D. University
of California, Santa Cruz. University of Oregon,
Medical School.

Stephanie L. Bailey (2015)

Lecturer, Physics

B.S., College of William and Mary; Ph.D., Stanford
University. Former affiliations: College of William and
Mary, Stanford University.

Mark Baker (2000)

Lecturer, Writing

B.A., University of California, Irvine; M.A., San
Francisco State University. Former affiliation: San
Francisco State University.

Gopal Balakrishnan, Oakes College (2006)

Professor, History of Consciousness

B.A., Cornell University; M.A., University of California,
Los Angeles; Ph.D., University of California, Los
Angeles. University of Chicago.

Thomas I. Banks (1986)

Professor Emeritus, Physics

B.A., Reed College; Ph.D., Massachusetts Institute of
Technology.. Former affiliations: Stanford Linear
Accelerator Center; Tel Aviv University; Institute for
Advanced Study (Princeton); Rutgers University..

Karen M. Barad, Kresge College (2005)

Professor, Feminist Studies

B.A., Brandeis University; Ph.D., State University of
New York at Stony Brook. Concurrent Affiliation:
Former affiliations: Mount Holyoke College, Rutgers
University, Pomona College, Barnard College.

Byron A. Barahona (2014)

Lecturer, Languages and Applied Linguistics

Ph.D., University of California, Berkeley; B.A.,
University of Massachusetts.

Brandin S. Baron, Porter College (2006)

Associate Professor, Theater Arts

B.A., Indiana University School of Music; M.F.A.,
University of California, San Diego. Former affiliation:
The Academy of Art University, San Francisco.

Lora Bartlett (2004)

Associate Professor, Education

B.A., M.Ed., University of Massachusetts, Amhurst;
Ph.D., University of California, Berkeley. Former
affiliation: University of London.

Karen L. Bassi, Cowell College (1988)

Professor, Classics (Literature)

B.A., University of California, Santa Cruz; Ph.D.,

Teaching and Administrative Staff

Brown University. Former affiliations: Syracuse University; University of Rhode Island; Brown University.

James Battle (2016)

Assistant Professor, Sociology
B.A., M.A., San Jose State University; M.A., University of California, Berkeley; Ph.D., University of California, Berkeley/University of California, San Francisco.

Frank Bauerle (1994)

Teaching Professor, Mathematics
B.A., Technische Hochschule Karlsruhe; M.A., Ph.D., University of California, San Diego. Former affiliations: Monash University; Cornell University.

Murray Baumgarten, Kresge College (1966)

Professor Emeritus, Literature
B.A., Columbia University; M.A., Ph.D., University of California, Berkeley. Former affiliations: Hebrew University of Jerusalem; Williams College; University of California Education Abroad Program (Jerusalem).

Cyrus A. Bazeghi

Lecturer, Computer Engineering
B.S. M.S., Ph.D., University of California, Santa Cruz.

Amy C. Beal, Porter College (2001)

Professor, Music
B.M., M.M., University of Kansas; M.A., Ph.D., University of Michigan. Former affiliation: Bates College.

Katharine E. Beaumont (2015)

Associate Professor, Politics
B.A., Pomona College; M.A., Stanford University. Former affiliations: Carnegie Foundation for the Advancement of Teaching; University of Montana.

Michael W. Beck (2006)

Adjunct Professor, Ocean Sciences
Ph.D., Florida State University.

David P. Belanger, Rachel Carson College (1984)

Professor, Physics
B.S., M.S., Georgia Institute of Technology; Ph.D., University of California, Santa Barbara.

Dorian Bell (2010)

Associate Professor, Literature
B.A., Cornell University; M.A., Ph.D., University of Pennsylvania. Former affiliations: University of California, Irvine; Stanford University.

Victoria M. Bellotti (2012)

Adjunct Professor, Computer Engineering
Ph.D., Queen Mary and Westfield College, London University.

Ilan Benjamin, Stevenson College (1989)

Professor, Chemistry and Biochemistry
B.Sc., Ph.D., Hebrew University of Jerusalem. Former affiliation: University of California, San Diego.

Harry Berger, Cowell College (1965)

Professor Emeritus, English Literature and History of Art and Visual Culture
B.A., Ph.D., Yale University. Former affiliation: Yale University.

Martin A. Berger, Porter College (2004)

Professor, History of Art and Visual Culture
B.A., Wesleyan University; M.A., M.Phil., Ph.D., Yale University. Former affiliations: Colby College; University of North Carolina at Chapel Hill; Northwestern University; State University of New York at Buffalo; Yale University.

Abraham N. Berman (2007)

Lecturer, Mathematics
B.A., Humbolt State University; M.A., Ph.D., University of California, Santa Cruz. Former affiliation: Humbolt State University, Cabrillo College.

Nathaniel A. Berman (2007)

Lecturer, Music (Concert Choir)
B.A., M.A., University of California, Santa Cruz. Former affiliation: Robert Louis Stevenson High School, Pebble Beach.

Phillip W. Berman (2006)

Distinguished Professor of Biomolecular Engineering, Biomolecular Engineering
A.B., University of California, Berkeley; P.h.D., Dartmouth Medical School. Concurrent Affiliation: Global Solutions for Infectious Diseases. Genentech; VaxGen.

Giacomo Bernardi (1994)

Professor, Ecology and Evolutionary Biology
B.S. (Maitrise), M.Sc. (D.E.A.), Ph.D. (These d'Universite), University of Paris. Former affiliations: Institut Jacques Monod (Paris); Hopkins Marine Station, Stanford University.

Claude F. Bernasconi, Merrill College (1967)

Professor Emeritus, Chemistry and Biochemistry
Diploma, Ph.D., Swiss Federal Institute of Technology (ETH) (Zurich). Former affiliation: Max Planck Institute for Biophysical Chemistry (Gottingen).

Eva C. Bertram, Merrill College (2003)

Associate Professor, Politics
B.A., Swarthmore College; M.A., M.Phil., Ph.D. cand., Yale University.

Teaching and Administrative Staff

Julie Bettie, Rachel Carson College (1997)

Associate Professor, Sociology
B.S., Boise State University; M.A., Ph.D., University of California, Davis.

Needhi Bhalla (2008)

Associate Professor, Molecular, Cell, and Developmental Biology
B.A., Columbia College, New York; Ph.D., University of California. University of California, Berkeley.

Nandini Bhattacharya (2010)

Lecturer, Mathematics
B.A., Bryn Mawr College; M.A., University of California, Santa Cruz. Former affiliations: Academic Excellence (ACE) Program, University of California, Santa Cruz; Cabrillo College.

James H. Bierman, Cowell College (1973)

Professor, Theater Arts (Drama)
B.A., Princeton University; Diplome, University of Paris, Sorbonne; Ph.D., Stanford University. Former affiliations: Smith College; Amherst College.

Raoul Birnbaum, Kresge College (1991)

Professor, History of Art and Visual Culture
B.A., College of the City of New York; M.A., M.Phil., Ph.D., Columbia University. Former affiliations: University of Iowa; Princeton University; Harvard University; Metropolitan Museum of Art.

Andrew H. Bivens (2008)

Associate Professor, Literature
B.A., Bard College; Ph.D., University of Chicago.
Former affiliation: Moravian College.

Chelsea Blackmore (2010)

Assistant Professor, Anthropology
B.A., Georgia Southern University, Statesboro; M.A., Florida State University, Tallahassee; Ph.D., University of California, Riverside.

George R. Blumenthal, Oakes College (1972)

Chancellor; Professor, Astronomy and Astrophysics
B.S., University of Wisconsin-Milwaukee; Ph.D., University of California, San Diego.

Peter H. Bodenheimer, Stevenson College (1967)

Professor Emeritus, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.A., Harvard University; Ph.D., University of California, Berkeley.

Hanns H. Boeger (2006)

Professor, Molecular, Cell, and Developmental Biology
B.S., M.S., Christian-Albrechtz University; Ph.D., Max Planck Institute for Biophysical Chemistry; post-

doctorate, Stanford University. Former affiliation: Stanford University Medical School.

Roberto A. Bogomolni, Porter College (1988)

Professor, Chemistry and Biochemistry
Diploma, University of Buenos Aires; Ph.D., University of California, Berkeley. Former affiliations: University of California, San Francisco; University of California, Berkeley.

Steven J. Bograd (2015)

Adjunct Professor, Ocean Sciences
B.S., University of Arizona; M.S., University of Washington; Ph.D., University of British Columbia.

Mariko T. Bohn (2008)

Lecturer, Japanese Language
B.A., M.A., San Jose State University; M.A., Ph.D., Stanford University;

Michael Bolte (1993)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.S., University of Central Florida; M.S., Florida State University; Ph.D., University of Washington. Former affiliations: NASA/Space Telescope Science Institute; Dominion Astrophysical Observatory.

Robert Boltje (1999)

Professor, Mathematics
Dipl. Math., University of Munich; Dr. habil., Dr. rer. nat., University of Augsburg.

Douglas G. Bonett (2012)

Professor, Psychology
B.A., California State University, Fresno; M.A., California State University, Long Beach' M.A., Ph.D., University of California, Los Angeles. Former affiliation: Iowa State University.

John G. Borrego, Merrill College (1974)

Professor Emeritus, Latin American and Latino Studies
B.A., University of California, Berkeley; M.A., Washington University; M.C.P., Massachusetts Institute of Technology; Ph.D., University of California, Berkeley. Former affiliation: University of New Mexico.

John F. Bowin, Cowell College (2005)

Associate Professor, Philosophy
B.A., M.B.A., M.A., University of Chicago; M.A., Ph.D., University of Texas at Austin.

Barry J. Bowman, Oakes College (1979)

Professor Emeritus, Molecular, Cell, and Developmental Biology

Teaching and Administrative Staff

B.A., University of Wisconsin; Ph.D., University of Michigan. Former affiliation: Yale University.

Scott A. Brandt, Crown College (1999)

Professor, Computer Science; Vice Chancellor
B.S., M.S., University of Minnesota, Minneapolis; Ph.D., University of Colorado, Boulder.

Alexandre Brandwajn (1985)

Professor Emeritus, Computer Engineering
B.A., Docteur-Ingenieur, Docteur d'Etat, University of Paris. Former affiliations: Amdahl Corporation; Ecole Nationale Supérieure des Telecommunications (ENST) (Paris); Duke University.

Rebecca Braslau, Stevenson College (1991)

Professor, Chemistry and Biochemistry
B.A., Reed College; Ph.D., University of Wisconsin-Madison. Former affiliation: Institut für Organische Chemie (Basel, Switzerland).

Adrian Brasoveanu (2008)

Professor, Linguistics
B.A., M.A., University of Bucharest; Ph.D., Rutgers University.

Donald L. Brenneis, Cowell College (1996)

Professor, Anthropology
B.A., Stanford University; Ph.D., Harvard University. Former affiliation: Pitzer College.

Bruce Bridgeman, Rachel Carson College (1973)

Professor Emeritus, Psychology and Psychobiology
B.A., Cornell University; Ph.D., Stanford University. Former affiliations: Free University of Berlin; University of California, Berkeley.

Frank G. Bridges, Stevenson College (1970)

Professor Emeritus, Physics
B.Sc., M.Sc., University of British Columbia; Ph.D., University of California, San Diego. Former affiliation: University of California, San Diego.

Jean P. Brodie, Cowell College (1987)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., University of London; Ph.D., Cambridge University. Former affiliation: University of California, Berkeley.

Emily E. Brodsky (2006)

Professor, Earth and Planetary Sciences
A.B., Harvard University; Ph.D., California Institute of Technology. Former affiliation: University of California, Los Angeles.

Joyce E. Brodsky, Porter College (1992)

Professor Emerita, Art

B.A., Brooklyn College; M.A., New York University; Ph.D. cand., Yale University; Ecole du Louvre. Former affiliation: University of Connecticut.

Angela Brooks (2015)

Assistant Professor, Biomolecular Engineering
B.S., University of California, San Diego; Ph.D., University of California, Berkeley. Former affiliations: Dana-Farber Cancer Institute, Broad Institute.

Margaret R. Brose, Cowell College (1978)

Professor Emerita, Italian and Comparative Literature
B.A., Wayne State University; M.A., Ph.D., Harvard University. Former affiliations: Yale University; University of Colorado.

George S. Brown, Porter College (1990)

Professor Emeritus, Physics
B.S., California Institute of Technology; M.S., Ph.D., Cornell University. Former affiliations: Cornell University; Bell Laboratories; Stanford University; Stanford Synchrotron Radiation Laboratory.

Michael K. Brown, Merrill College (1982)

Professor Emeritus, Politics
B.A., University of Oregon; M.P.A., Ph.D., University of California, Los Angeles. Former affiliation: Virginia Polytechnic Institute and State University.

Kyle Bruckmann (2015)

Lecturer, Music (Oboe)
B.M., Rice University; M.M., University of Michigan, Ann Arbor..

Kenneth W. Bruland, Crown College (1974)

Professor Emeritus, Ocean Sciences
B.A., Western Washington State College; Ph.D., Scripps Institution of Oceanography, University of California, San Diego.

Nicholas H. Brummell (2006)

Professor, Applied Mathematics and Statistics
B.Sc., Imperial College, London, UK; D.I.C., Imperial College, London, UK; Ph.D., Imperial College, London, UK. JILA and the Department of Astrophysical and Planetary Sciences, University of Colorado, Boulder..

David T. Brundage, Rachel Carson College (1985)

Professor, History
B.A., Reed College; M.A., University of Warwick (England); Ph.D., University of California, Los Angeles. Former affiliation: Research Foundation, Graduate Center of the City University of New York.

Heather E. Bullock, College Ten (1999)

Professor, Psychology
B.A., Allegheny College; M.A., Ph.D., University of

Teaching and Administrative Staff

Rhode Island. Former affiliation: Nebraska Wesleyan University.

George Bulman (2013)

Assistant Professor, Economics
B.S., Haverford College; Ph.D., Stanford University.

George Bunch, Colledge Ten (2004)

Associate Professor, Education
B.A., Georgetown University; M.A., University of Maryland, Baltimore County; Ph.D., Stanford University. Former affiliation: Stanford University.

Joseph F. Bunnett, Crown College (1966)

Professor Emeritus, Chemistry and Biochemistry
B.A., Reed College; Ph.D., University of Rochester. Former affiliations: Reed College; University of North Carolina; Brown University.

Victor Burgin, Oakes College (1988)

Professor Emeritus, History of Consciousness
A.R.C.A., Royal College of Art (London); M.F.A., Yale University. Former affiliation: Polytechnic of Central London.

Peter N. Burgoyne (1967)

Professor Emeritus, Mathematics
B.Sc., M.Sc., McGill University; Ph.D., Princeton University. Former affiliations: Princeton University; University of California, Berkeley; University of Illinois, Chicago.

Edmund Burke, Merrill College (1968)

Professor, Emeritus, History
B.A., University of Notre Dame; M.A., Ph.D., Princeton University.

Linda C. Burman-Hall, Porter College (1975)

Professor Emerita, Research Professor, Music
B.A., University of California, Los Angeles; M.F.A., Ph.D., Princeton University.

Catherine E. Burns (2013)

Associate Adjunct Professor, Environmental Studies
B.S., Emory University; Ph.D., Yale.

Julianne Burton-Carvajal, Merrill College (1974)

Professor Emerita, Literature
B.A., Denison University; M.Phil., Ph.D., Yale University. Former affiliation: University of Texas.

Jeffrey T. Bury, Rachel Carson College (2006)

Associate Professor, Environmental Studies
B.A., University of Utah; M.A., The American University; Ph.D., University of Colorado. Former affiliation: Department of Geography and Human Sciences, San Francisco State University.

Christy M. Byrd (2014)

Assistant Professor, Psychology
B.A., Agnes Scott College; M.S., Ph.D., University of Michigan, Ann Arbor. Former affiliation: Michigan State University.

Melissa L. Caldwell, Rachel Carson College (2004)

Professor, Anthropology
B.A., University of Tennessee; M.A., Indiana University; A.M., Ph.D., Harvard University. Former affiliations: Northeastern University; Harvard University.

Maureen Callanan, Crown College (1989)

Professor, Psychology
A.B., Mount Holyoke College; Ph.D., Stanford University. Former affiliations: University of Texas at Austin; Lehigh University.

Elisabeth L. Cameron, Porter College (2001)

Professor, History of Art and Visual Culture
B.A., Agnes Scott College; M.A., Ph.D., University of California, Los Angeles. Former affiliation: Nelson-Atkins Museum of Art (Kansas City, Missouri).

Kenneth L. Cameron, Crown College (1973)

Professor Emeritus, Earth and Planetary Sciences
B.S., M.S., University of Houston; Ph.D., Virginia Polytechnic Institute and State University. Former affiliation: State University of New York at Stony Brook.

Walter I. Campbell (1989)

Lecturer, German Language
B.A., Whitman College; B.A., M.A., University of Washington.

Manel Camps, Crown College (2007)

Associate Professor, Microbiology and Environmental Toxicology
D.V.M., Autonomous University of Barcelona; M.A., Autonomous University of Barcelona; Ph.D., Stanford University. University of Washington.

Kimberly S. Cardilla (2015)

Lecturer, Psychology
Ph.D., University of California, Santa Cruz.

Susan Carpenter (2015)

Assistant Professor, Molecular, Cell and Developmental Biology
B. A., Ph.D., Trinity College, Dublin.

Mark H. Carr (1997)

Professor, Ecology and Evolutionary Biology
B.A., University of California, Santa Cruz; M.S., San Francisco State University (Moss Landing Marine Laboratories); Ph.D., University of California, Santa

Teaching and Administrative Staff

Barbara. Former affiliations: Oregon State University; California Institute of Technology.

Benjamin L. Carson, Rachel Carson College (2003)

Associate Professor, Music

B.A., Willamette University; M.M., University of Washington, Seattle; Ph.D., University of California, San Diego. Former affiliations: University of California, Riverside; University of California, San Diego.

Sue A. Carter, Crown College (1995)

Professor, Physics

B.A., Kalamazoo College; Ph.D., University of Chicago. Former affiliations: AT&T Bell Laboratories; IBM-Almaden Research Center.

Pedro G. Castillo, Merrill College (1975)

Professor Emeritus, History

B.A., Arizona State University; M.A., Northern Arizona University; Ph.D., University of California, Santa Barbara. Former affiliations: University of California, Santa Barbara; Yale University.

Giulia Centineo, Cowell College (1987)

Lecturer, Italian Language

Laurea, Università degli Studi di Palermo (Italy); M.A., Ph.D. cand., University of California, Berkeley.

Martin M. Chemers, Porter College (1995)

Professor Emeritus, Psychology

B.S., M.S., Ph.D., University of Illinois, Urbana-Champaign. Former affiliations: Claremont McKenna College; Claremont Graduate School; University of Utah; University of Delaware.

Michael M. Chemers (2012)

Associate Professor, Theater Arts

M.F.A., Indiana University; Ph.D., University of Washington.

Bin Chen

Professor, Molecular, Cell, and Developmental Biology

B.S., M.S., Beijing University; Ph.D., State University of New York, Stony Brook. Former affiliation: Stanford University.

Christopher S. Chen (2012)

Assistant Professor, Literature

B.A., University of California, Berkeley; M.F.A., University of Iowa Writers Workshop; Ph.D., University of California, Berkeley. Former affiliations: Stanford University; University of California, Berkeley.

Nancy N. Chen, Crown College (1994)

Professor, Anthropology

B.A., Stanford University; M.A., Ph.D., University of California, Berkeley. Former affiliation: Tufts University.

Shaowei Chen (2004)

Professor, Chemistry and Biochemistry

B.S., University of Science and Technology of China; M.S., Ph.D., Cornell University. Former affiliation: Southern Illinois University at Carbondale.

Yihsu Chen (2015)

Associate Professor, Technology Management

Ph.D., Johns Hopkins University. Former affiliation: University of California, Merced.

Weixin Cheng, College Nine (1999)

Professor, Environmental Studies

B.S., Northeast Agricultural College (Harbin, China); Ph.D., University of Georgia.

Yin-Wong Cheung, Crown College (1990)

Professor Emeritus, Economics

B.S., University of Hong Kong; M.A., University of Essex (England); Ph.D., University of Pennsylvania.

John B. Childs, College Ten (1987)

Professor Emeritus, Sociology

B.A., University of Massachusetts-Amherst; M.A., Ph.D., State University of New York at Buffalo. Former affiliations: National Academy of Sciences; Amherst College; Harvard University; Yale University.

Alan S. Christy, Merrill College (1995)

Associate Professor, History

B.A., Carleton College; M.A., Ph.D., University of Chicago.

Patrick Y. Chuang (2001)

Professor, Earth and Planetary Sciences

B.Sc., University of Alberta; M.S., Ph.D., California Institute of Technology. Former affiliation: National Center for Atmospheric Research.

Sandra Chung, Cowell College (1986)

Professor, Linguistics

A.B., Radcliffe College; Ph.D., Harvard University. Former affiliations: University of California, Los Angeles; University of California, San Diego.

Mark Cioc, Stevenson College (1989)

Professor, History

B.S., M.A., University of Wyoming; Ph.D., University of California, Berkeley. Former affiliation: University of Massachusetts-Amherst.

Matthew E. Clapham (2007)

Associate Professor, Earth and Planetary Science

B.Sc., University of British Columbia, Canada; M.Sc.,

Teaching and Administrative Staff

Queen's University, Canada; Ph.D., University of Southern California. Queen's University, Ontario, Canada.

James T. Clifford, Oakes College (1978)

Professor Emeritus, History of Consciousness
B.A., Haverford College; M.A., Stanford University;
Ph.D., Harvard University; (Hon.) D. Litt. h.c.,
Haverford College. Former affiliation: Harvard
University.

Rena V. Cochlin, Merrill College (1973)

Associate Supervisor, Physical Education
B.A., Barnard College; M.A., Columbia University.
Former affiliations: Central Connecticut State College;
East Los Angeles College; World Campus Afloat.

Robert S. Coe, Porter College (1968)

Professor Emeritus, Earth and Planetary Sciences
B.A., Harvard University; M.A., Ph.D., University of
California, Berkeley. Former affiliations: University of
California, Berkeley; U.S. Geological Survey.

Lindsey C. Collins (2014)

Lecturer, Rachel Carson College
B.A., University of Colorado, Boulder; Ph.D.,
University of California, Santa Cruz.

Seshadhri Comandur (2015)

Assistant Professor, Computer Science
Ph.D., Princeton. Former affiliation: Sandia National
Laboratories.

Christopher L. Connery, Oakes College (1990)

Professor (Chinese Literature)
B.A., University of California, Santa Cruz; M.A., Ph.D.,
Princeton University.

Michael J. Connor (2006)

Adjunct Professor
B.S., Stanford University; Ph.D., Woods Hole
Oceanographic Institution/Massachusetts Institute of
Technology. Executive Director, San Francisco
Estuary Institute.

Paul D. Contos (1997)

Lecturer, Music (Saxophone)
. Concurrent Affiliation: Concurrent affiliations:
California State University, Monterey Bay; Monterey
Jazz Festival.. Former affiliations: Santa Cruz County
Symphony; San Jose Civic Light Opera.

Catherine R. Cooper, Stevenson College (1987)

Professor Emerita, Psychology and Education
B.A., Pomona College; Ph.D., University of Minnesota
at Minneapolis-St. Paul. Former affiliation: University
of Texas at Austin.

Bruce N. Cooperstein, Rachel Carson College (1975)

Professor, Mathematics
B.A., Queens College, City University of New York;
M.A., Ph.D., University of Michigan. Former affiliation:
University of Michigan.

Vilashini Cooppan, Oakes College (2003)

Associate Professor, Literature
B.A., Yale University; Ph.D., Stanford University.
Former affiliation: Yale University.

David H. Cope, Porter College (1977)

Professor Emeritus, Music
B.M., Arizona State University; M.M., University of
Southern California. Former affiliations: Miami
University (Ohio); Kansas State College.

Russell Corbett-Detig (2016)

Assistant Professor, Biomolecular Engineering
B.S., University of California, Davis; Ph.D., Harvard
University. Former affiliation: University of
California, Berkeley.

Keith Corzine

Professor, Electrical Engineering
B.S., M.S., Ph.D., University of Missouri, Rolla.

Dan Costa, Rachel Carson College (1982)

Professor, Ecology and Evolutionary Biology
B.A., University of California, Los Angeles; Ph.D.,
University of California, Santa Cruz; Ida Benson Lynn
Professor, Ocean Health. Former affiliation: Scripps
Institution of Oceanography.

James S. Costain (1996)

Continuing Appointee Lecturer, Economics
B.A., Stanford University; M.A., Ph.D., University of
Chicago. Former affiliations: Universitat Pompeu
Fabra; Universidad Carlos III de Madrid; University of
California, Davis.

William D. Coulter, Porter College (1995)

Lecturer, Music (Classical Guitar)
B.A., M.A., University of California, Santa Cruz; M.A.,
San Francisco Conservatory of Music.

Rebecca G. Covarrubias (2015)

Assistant Professor, Psychology
B.S., M.A., Ph.D., University of Arizona. Former
affiliation: Center for Study of Diversity, University of
Delaware.

Michael H. Cowan, Oakes College (1969)

Professor Emeritus, American Studies
B.A., Ph.D., Yale University. Former affiliation: Yale
University.

Teaching and Administrative Staff

Philip O. Crews, Cowell College (1970)

Research Professor Emeritus, Chemistry
B.S., University of California, Los Angeles; Ph.D.,
Princeton University. Former affiliation: University of
California, Santa Barbara.

Daniel Anthony Cristofaro-Gardiner (2016)

Assistant Professor, Mathematics
A.B., Harvard University; Ph.D., University of
California, Berkeley. Concurrent Affiliation:
Concurrent affiliations: National Science Foundation;
Harvard University. Former affiliation: Institute for
Advanced Study.

Donald A. Croll (2000)

Professor, Ecology and Evolutionary Biology
B.Sc., University of California, Davis; M.Sc., California
State University, Hayward (Moss Landing Marine
Laboratories); Ph.D., Scripps Institution of
Oceanography, University of California, San Diego.

Faye J. Crosby, Porter College (1997)

Professor, Psychology
A.B., Wheaton College; Ph.D., Boston University; LL.D.
(Hon.), Ball State University. Former affiliations:
Boston University; London School of Economics and
Political Science; Yale University; Smith College.

Ben D. Crow, Rachel Carson College (1996)

Professor, Sociology
B.Sc., University of Westminster (Polytechnic of
Central London); Ph.D., University of Edinburgh.
Former affiliations: Stanford University; University of
California, Berkeley.

Cynthia Cruz (2008)

Associate Professor, Education
B.A., Scripps College; Ph.D., University of California,
Los Angeles. Former affiliations: Cornell University
(2006-2008); Pacific Oakes College (2001-2006);
UCLA Teaching Fellow (2004).

Renwick E. Curry (2008)

Adjunct Professor, Computer Engineering
A.B., Middlebury College; S.B., S.M., E.A.A., and Ph.D,
Massachusetts Institute of Technology.

Robert R. Curry, Rachel Carson College (1979)

Professor Emeritus, Environmental Studies
B.A., M.Sc., University of Colorado; Ph.D., University of
California, Berkeley. Former affiliations: University of
California, Santa Barbara; University of Montana.

David L. Cuthbert, Porter College (2003)

Professor, Theater Arts
B.A., California State University, Fresno; M.F.A.,
University of California, San Diego. Former

affiliations: Old Globe Theater (San Diego); PCPA
Theaterfest; Vortex Lighting (Los Angeles);
Sledgehammer Theatre.

John D. Daehnke (2013)

Assistant Professor, Anthropology
Ph.D, University of California, Berkeley; M.A.,
Portland State University; M.A., University of
Wisconsin, Madison; B.A., University of Nebraska.
University of California, Santa Cruz.

Audun Dahl (2014)

Assistant Professor, Psychology
B.Hum., Norwegian University of Science and
Technology; M.Phil., University of Oslo; Ph.D.,
University of California, Berkeley.

Charles W. Daniel, Cowell College (1965)

Professor Emeritus, Molecular, Cell, and
Developmental Biology
B.A., University of New Mexico; M.S., University of
Hawaii; Ph.D., University of California, Berkeley.

Sharon A. Daniel, Porter College (1996)

Professor, Film and Digital Media
B.M., Baylor University; M.M., University of Texas;
M.F.A., University of Tennessee. Former affiliations:
Massachusetts Institute of Technology; Maryland
Institute College of Art; Rhode Island School of
Design.

Peter B. Danzig (2010)

Adjunct Professor, Computer Engineering
B.S., University of California, Davis; Ph.D., University
of California, Berkeley.

Samit Dasgupta (2008)

Professor, Mathematics
Degrees: A.B., Harvard University; Ph.D., University of
California, Berkeley.. Former affiliation: Harvard
University..

Nicolas Davidenko (2012)

Assistant Professor, Psychology
A.B., Harvard University; M.S., Ph.D, Stanford
University. Former affiliations: Stanford University;
Harvard University.

Angela Y. Davis, Oakes College (1991)

Professor Emerita, History of Consciousness
B.A., Brandeis University; M.A., University of
California, San Diego; Certificat de la Litterature
Francaise Contemporaine, Sorbonne. Former
affiliation: San Francisco State University.

James E. Davis (2004)

Professor, Computer Science
B.S., University of California, Davis; Ph.D., Stanford

Teaching and Administrative Staff

University. Former affiliation: Honda Research Institute.

Muriam H. Davis (2015)

Assistant Professor, History
Ph.D., New York University.

Amy Rose Deal (2011)

Assistant Professor, Linguistics
B.A., Brandeis University; Ph.D., University of Massachusetts Amherst. Former affiliation: Harvard University.

Luca De Alfaro (2001)

Professor, Computer Science
B.S., Ph.D., Politecnico di Torino (Italy); M.S., Ph.D., Stanford University. Former affiliation: University of California, Berkeley.

Carolyn Dean, Porter College (1991)

Professor, History of Art and Visual Culture
B.A., University of Puget Sound; M.A., C.Phil., Ph.D., University of California, Los Angeles. Former affiliation: Texas Tech University.

Margaret L. Delaney, Crown College (1983)

Professor, Ocean Sciences
B.S., Yale University; Ph.D., Massachusetts Institute of Technology.

Teresa De Lauretis, Oakes College (1985)

Professor Emerita, History of Consciousness
Maturita Classica, Liceo-Ginnasio Dante Alighieri (Ravenna); Laurea, Università Luigi Bocconi (Milan).
Former affiliations: University of Wisconsin-Milwaukee; University of California, San Diego.

Grace P. Delgado (2013)

Associate Professor, History
University of California, Los Angeles. Former affiliation: Pennsylvania State University.

TJ Demos (2015)

Professor, History of Art and Visual Culture
B.A., DePaul University; M.A., Oberlin University; Ph.D., Columbia University. Former affiliations: University College, London; Maryland Institute College of Art.

T.J. Demos (2015)

Professor, History of Art and Visual Culture
B.A., DePaul University; M.A., Oberlin University; Ph.D., Columbia University. Former affiliations: University College, London; Maryland Institute College of Art.

Gina Dent, Kresge College (2002)

Associate Professor, Feminist Studies, History of

Consciousness, and Legal Studies

B.A., University of California, Berkeley; M.A., M.Phil., Ph.D., Columbia University. Former affiliations: Columbia University; Princeton University.

Marc A. Desjardins

Lecturer in Science Writing
B.A., University of Vermont.

Nathaniel P. Deutsch (2008)

Professor, History
B.A., M.A., Ph.D., University of Chicago.. Former affiliations: Swarthmore College; City University of New York-Hunter College..

Martin J. Devecka (2014)

Assistant Professor, Literature
B.A., University of Chicago; Ph.D., Yale University. Former affiliations: Brown University, Yale University.

Maria E. Diaz (1991)

Associate Professor, History
B.A., Syracuse University; M.A., University of Chicago; Ph.D., University of Texas at Austin.. Former affiliation: University of Texas at Austin..

May N. Diaz, Merrill College (1974)

Professor Emerita, Anthropology
B.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Andrea Di Blas (2009)

Associate Adjunct Professor
Ph.D. and M.S., Politecnico di Torino, Italy.

Lindsey L. Dillon (2016)

Assistant Professor, Sociology
B.A., Oberlin College; Ph.D., University of California, Berkeley. Former affiliation: University of California, Davis.

Michael Dine, Stevenson College (1990)

Professor, Physics
B.S., Johns Hopkins University; Ph.D., Yale University. Former affiliations: City College of the City University of New York; Stanford Linear Accelerator Center.

Janette Dinishak (2014)

Assistant Professor, Philosophy
B.A., University of California, Los Angeles; Ph.D., University of Toronto.

John Dizikes, Cowell College (1965)

Professor Emeritus, American Studies
B.A., University of California, Los Angeles; Ph.D., Harvard University. Former affiliation: University of Connecticut.

Teaching and Administrative Staff

Carlos E. Dobkin (2003)

Professor, Economics
B.A., University of California, Santa Cruz; M.A., Ph.D.,
University of California, Berkeley.

Andrew E. Doe, Porter College (1973)

Professor Emeritus, Theater Arts (Drama)
B.S., University of Vermont; M.A., University of
Washington. Former affiliations: Lower Columbia
College; University of Iowa; University of Michigan;
University of Southern California; Pomona College.

George W. Domhoff, Stevenson College (1965)

Professor Emeritus, Psychology
B.A., Duke University; M.A., Kent State University;
Ph.D., University of Miami. Former affiliation:
California State College, Los Angeles.

Hans-Peter Dommel

Lecturer, Computer Engineering
Dipl. Inform. Univ., Technical University of Munich;
M.S., Ph.D., University of California, Santa Cruz.

Bryan A. Donaldson (2013)

Assistant Professor, Language and Applied
Linguistics
B.A., University of Minnesota; M.A., Ph.D., Indiana
University. Former affiliation: University of Texas at
Austin.

Chongying Dong, Crown College (1990)

Professor, Mathematics
B.S., Xian Telecommunication and Engineering
University; Ph.D., Institute of System Science,
Academia Sinica. Former affiliation: Rutgers
University.

Michael P. Dooley (1992)

Professor Emeritus, Economics
B.S., Duquesne University; M.A., University of
Delaware; Ph.D., Pennsylvania State University..
Former affiliations: International Monetary Fund;
Federal Reserve Bank..

David E. Dorfan, Oakes College (1968)

Professor Emeritus, Physics
B.Sc., University of Cape Town; Ph.D., Columbia
University. Former affiliations: Columbia University;
Stanford Linear Accelerator Center.

Farid U. Dowla (2008)

Adjunct Professor, Electrical Engineering
B.S., MS., Ph.D., Massachusetts Institute of
Technology. Former affiliations: Lawrence Livermore
National Laboratory; University of California,
Berkeley; University of California, Davis;
Massachusetts Institute of Technology..

Margaret M. Downes-Baskin (1998)

Research Associate, Feminist Studies
B.A., Vassar College; M.A., California State University,
Northridge; Ph.D., Claremont Graduate School of
Government.

William T. Doyle, Crown College (1965)

Professor Emeritus, Ecology and Evolutionary
Biology
B.A., Ph.D., University of California, Berkeley. Former
affiliation: Northwestern University.

Frank D. Drake (1984)

Professor Emeritus, Astronomy and Astrophysics
B. Eng. Physics, Cornell University; M.A., Ph.D.,
Harvard University. Concurrent affiliation: SETI
Institute. Former affiliations: Harvard University;
National Radio Astronomy Observatory; Jet
Propulsion Laboratory; Cornell University.

David Draper (2001)

Professor, Applied Mathematics and Statistics
B.Sc., University of North Carolina at Chapel Hill; M.A.,
Ph.D., University of California, Berkeley. Former
affiliations: University of Chicago; RAND Corporation;
University of California, Los Angeles; University of
Bath (England).

Timothy Duane (2009)

Professor, Environmental Studies
J.D., Boalt Hall School of Law, University of California,
Berkeley; Ph.D.; M.S., civil engineering, Stanford
University; A.B.; Human Biology: Planning and Policy,
Stanford University. University of California,
Berkeley; Vermont Law School.

Rebecca M. Dubois (2013)

Assistant Professor, Biomolecular Engineering
B.A., University of Colorado, Boulder; M.S., Ph.D.,
University of California, San Diego. Former
affiliations: St. Jude Children's Research Hospital,
Pasteur Institute.

Walter S. Dudley, Porter College (1968)

Professor Emeritus, Music
B.M., B.A., North Texas State University; M.A., Ph.D.,
University of California, Berkeley. Former affiliation:
University of California Education Abroad Program
(Grenoble, Montpellier, Marseilles).

William B. Dunbar (2004)

Associate Professor, Computer Engineering
B.S., Virginia Polytechnic Institute and State
University; M.S., University of California, San Diego;
Ph.D., California Institute of Technology.

Teaching and Administrative Staff

David D. Dunn (2014)

Assistant Professor, Music
B.A., San Diego State University; M.F.A., Danube University, Austria.

E M. Du Puis, Crown College (1997)

Professor, Sociology
B.A., Radcliffe College, Harvard University; M.S., Ph.D., Cornell University. Former affiliations: State University of New York at Albany; New York State Department of Economic Development; Skidmore College; Rensselaer Polytechnic Institute; Siena College; Hudson Valley Community College.

Mark R. Eastman (1990)

Lecturer, Mathematics
B.A., Colorado College; M.A., University of Montana, Missoula; Ph.D., University of California, Santa Cruz.

Kent H. Eaton, Merrill College (2006)

Professor, Politics
B.A., Stanford University; Ph.D., Yale University. Princeton University; Naval Postgraduate School.

Robert S. Edgar, Crown College (1970)

Professor Emeritus, Molecular, Cell, and Developmental Biology
B.Sc., McGill University; Ph.D., University of Rochester. Former affiliation: California Institute of Technology.

Kate Edmunds, Porter College (2004)

Professor, Theater Arts
B.F.A., Wayne State University; M.F.A., Yale School of Drama. Former affiliation: University of California, Berkeley.

Christopher A. Edwards (2002)

Professor, Ocean Sciences
B.A. (Hons.), Haverford College; Ph.D., Massachusetts Institute of Technology and Woods Hole Oceanographic Institution. Former affiliation: University of Connecticut.

Torsten Ehrhardt (2004)

Professor, Mathematics
Dipl. Math., Dr. rer. nat., Dr. habil., Chemnitz University of Technology (Germany). Former affiliation: Chemnitz University of Technology.

Olof Einarsdottir, Crown College (1989)

Professor, Chemistry and Biochemistry
B.A., University of Iceland, Reykjavik; Ph.D., Colorado State University, Fort Collins. Former affiliation: Los Alamos National Laboratory.

Magdalini Eirinaki (2006)

Lecturer

B.S., University of Piraeus, Greece; M.S., University of London, UK; Ph.D., Athens University of Economics and Business, Greece.. Athens University of Economics and Business.

Bernard L. Elbaum, Merrill College (1986)

Professor Emeritus, Economics
B.A., University of Michigan; Ph.D., Harvard University.

Gabriel H. Elkaim, Crown College (2003)

Professor, Computer Engineering
B.S., Princeton University; M.S., Ph.D., Stanford University. Concurrent Affiliation: Concurrent affiliation: Delta Technology Associates.

John M. Ellis, Crown College (1966)

Professor Emeritus, German Literature
B.A., Ph.D., University of London. Former affiliations: University of Wales; University of Leicester; University of Alberta.

Jonathan E. Ellis, Cowell College (2002)

Associate Professor, Philosophy
B.A., Dartmouth College; Ph.D., University of California, Berkeley.

Harland W. Epps, Porter College (1989)

Professor Emeritus, Astronomy and Astrophysics; Astronomer, UC Observatories
B.A., Pomona College; M.S., Ph.D., University of Wisconsin. Former affiliation: University of California, Los Angeles.

Barbara L. Epstein, Oakes College (1973)

Professor Emerita, History of Consciousness
B.A., Radcliffe College; M.A., Ph.D., University of California, Berkeley.

Shelly E. Errington, Kresge College (1972)

Emerita, Anthropology
B.A., Newcomb College, Tulane University; M.A., Ph.D., Cornell University. Former affiliation: Institute for Advanced Study (Princeton).

James A. Estes (1978)

Adjunct Professor, Ecology and Evolutionary Biology
B.A., University of Minnesota; M.S., Washington State University; Ph.D., University of Arizona.

Peggy Estrada (2015)

Research Faculty, Latin American and Latino Studies
Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

J P. Euben, Kresge College (1967)

Professor Emeritus, Politics

Teaching and Administrative Staff

B.A., Swarthmore College; M.A., Ph.D., University of California, Berkeley; Certificate, Oxford University.

Maria Evangelatou (2007)

Associate Professor, History of Art and Visual Culture
B.A., University of Ioannina, Greece; M.A., Ph.D., Courtauld Institute of Art, London. Former affiliations: Radcliffe Institute for Advance Studies, Harvard University; postdoctoral research fellowship.

Maria V. Ezerova, Porter College (1994)

Lecturer, Music (Piano)
B.M., Musical College, Moscow State University; M.A., University of California, Santa Cruz; M.M., D.M.A. equivalents, Moscow State Conservatory. Former affiliations: Russian Academy of Musical Arts (Moscow); Moscow State Conservatory; Turkmenian State Institute of Musical Arts (Ashkhabad).

S M. Faber, Crown College

Professor Emeritus, Astronomy and Astrophysics
B.A., Swarthmore College; Ph.D., Harvard University.

Lucas S. Fain (2015)

Lecturer, Philosophy
B.A., Skidmore College; A.M., University of Chicago; Ph.D., Boston University. Former affiliations: Harvard University, Boston University.

Madeleine P. Fairbairn (2016)

Assistant Professor, Environmental Studies
B.S., Cornell University; M.S., Ph.D., University of Wisconsin, Madison. Former affiliation: Goucher College.

Robert W. Fairlie, College Ten (1994)

Professor, Economics
B.A., Stanford University; M.A., Ph.D., Northwestern University.

Sylvanna M. Falcon (2010)

Associate Professor of Latin American and Latino Studies
B.A., Santa Clara University; M.A., University of New Mexico, Albuquerque; Ph.D., University of California, Santa Barbara.. Former affiliation: University of California, Riverside, University of California, Office of the President; Connecticut College; University of California, Santa Barbara..

Donka F. Farkas, Stevenson College (1991)

Professor, Linguistics
B.A., University of Bucharest (Romania); Ph.D., University of Chicago. Former affiliation: Yale University.

Farnaz Fatemi

Lecturer, Writing
B.A., University of California, Santa Cruz; M.F.A., Mills College. University of California, Los Angeles.

John Faulkner, Crown College (1969)

Professor Emeritus, Astronomy and Astrophysics
B.A., M.A., Ph.D., St. John's College, Cambridge University. Former affiliations: Cambridge University; California Institute of Technology; Institute of Theoretical Astronomy (Cambridge).

Lars Fehren-Schmitz (2013)

Assistant Professor, Anthropology
Ph.D., M.A., B.A., University of Goettingen, and Humboldt University, Berlin. Former affiliation: University of Goettingen.

David A. Feldheim (2002)

Professor, Molecular, Cell, and Developmental Biology
B.A., University of California, San Diego; Ph.D., University of California, Berkeley.

Nicole A. Feldl (2016)

Assistant Professor, Earth and Planetary Sciences
B.S., University of North Carolina at Chapel Hill; M.S., University of Colorado; Ph.D., University of Washington.

Jerry F. Feldman, Crown College

Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., Swarthmore College; M.A., Ph.D., Princeton University. Former affiliations: California Institute of Technology; State University of New York at Albany.

F J. Ferguson, Rachel Carson College (1987)

Professor, Computer Engineering
B.S.E., University of North Carolina at Charlotte; M.S.E.E./C.E., Ph.D., Carnegie Mellon University.

Mayanthi L. Fernando (2008)

Associate Professor of Anthropology
M.A., Harvard University; Ph.D., University of Chicago.. Former affiliation: Washington University, St. Louis..

Noah J. Finnegan (2009)

Associate Professor, Earth and Planetary Sciences
B.A., Carleton College; Ph.D., University of Washington. Former affiliations: Cornell University, University of California, Berkeley National Center for Earth-Surface Dynamics.

Giacomo Fiore (2013)

Lecturer, Music
Ph.D., University of California, Santa Cruz. Former

Teaching and Administrative Staff

affiliations: San Francisco Conservatory; University of California, San Francisco; California State University, Monterey Bay.

Arthur E. Fischer, Crown College (1972)

Professor Emeritus, Mathematics
B.A., Columbia University; Ph.D., Princeton University; M.D., Albert Einstein College of Medicine.
Former affiliation: University of California, Berkeley.

Andrew T. Fisher, Rachel Carson College (1995)

Professor, Earth and Planetary Sciences
B.S., Stanford University; Ph.D., University of Miami.
Former affiliations: Indiana Geological Survey; Indiana University; Texas A&M University; Ocean Drilling Program.

William L. Fitch (2012)

Adjunct Professor, Chemistry and Biochemistry
Ph.D., Stanford University; M.S., University of Michigan. Former affiliations: Roche Pharmaceuticals; Sandoz Crop Protection; Affymax, Inc..

Margaret I. Fitzsimmons, Rachel Carson College (1994)

Professor Emerita, Environmental Studies
B.A., Stanford University; M.A., California State University, Northridge; Ph.D., University of California, Los Angeles. Former affiliation: Graduate School of Architecture and Urban Planning, University of California, Los Angeles.

Cormac A. Flanagan (2003)

Professor, Computer Science
B.S., University College Dublin; M.S., Ph.D., Rice University. Former affiliations: Systems Research Center; DEC; Compaq; Hewlett-Packard.

Veronica A. Flanagan (2001)

Lecturer, Writing; Kresge College Writing Coordinator
Ph.D., University of California, Santa Cruz.

A R. Flegal, Crown College (1985)

Professor Emeritus, Microbiology and Environmental Toxicology
B.A., University of California, Santa Barbara; M.A., Moss Landing Marine Laboratories; Ph.D., Oregon State University. Former affiliation: California Institute of Technology.

Mary K. Foley, Porter College (1980)

Professor, Theater Arts (Drama)
B.A., Rosemont College; M.A., University of Massachusetts; Ph.D., University of Hawaii at Manoa.
Former affiliation: University of Massachusetts.

Ryan J. Foley (2016)

Assistant Professor, Astronomy and Astrophysics
Ph.D, University of California, Berkeley.

Samantha E. Forde (2009)

Assistant Adjunct Professor, Ecology and Evolutionary Biology; Gordon and Betty Moore Foundation
B.A., University of California, Santa Barbara; Ph.D., University of California, Santa Cruz. Researcher, Ecology and Evolutionary Biology, University of California, Santa Cruz.

Doyle Foreman, Porter College (1968)

Professor Emeritus, Art
B.F.A., California College of Arts and Crafts.

Camilla E. Forsberg (2007)

Professor, Biomolecular Engineering
Ph.D., University of Wisconsin, Madison. Former affiliation: University of Wisconsin.

Jonathan J. Fortney (2007)

Professor, Astronomy and Astrophysics
B.S., Iowa State University; Ph.D., University of Arizona. NASA Ames Research Center.

Jonathan A. Fox, Merrill College (1995)

Professor Emeritus, Latin American and Latino Studies
B.A., Princeton University; Ph.D., Massachusetts Institute of Technology. Former affiliation: Massachusetts Institute of Technology.

Laurel R. Fox, Crown College (1977)

Professor, Ecology and Evolutionary Biology
B.S., Cornell University; M.A., Ph.D., University of California, Santa Barbara. Former affiliation: Australian National University.

Renee A. Fox (2015)

Assistant Professor, Literature
B.A., M.A., Stanford University; Ph.D., Princeton University. Former affiliation: University of Miami, Florida.

Jean E. Fox Tree, Porter College (1994)

Professor, Psycholinguistics (Psychology)
A.B., Harvard University; M.Sc., University of Edinburgh; Ph.D., Stanford University. Former affiliations: Stanford University; Max Planck Institute for Psycholinguistics (Nijmegen, Netherlands).

Dana L. Frank, Merrill College (1991)

Professor, History
B.A., University of California, Santa Cruz; M.A., Ph.D., Yale University. Former affiliation: University of Missouri at St. Louis.

Teaching and Administrative Staff

Mark Franko, Porter College (1991)

Professor Emeritus, Theater Arts (Dance)
B.A., City College of New York; Ph.D., Columbia University. Former affiliations: Columbia University; Université Paul Valéry; Princeton University; Purdue University.

Carla A. Freccero, Kresge College (1991)

Professor of Literature
B.A., Harvard University; M.Phil., Ph.D., Yale University. Former affiliation: Dartmouth College.

Carol M. Freeman, Cowell College (1974)

Lecturer Emerita, Writing
B.A., Carleton College; Ph.D., Yale University. Former affiliation: Yale University.

Rosa-Linda Fregoso, Merrill College (2001)

Professor Emerita, Latin American and Latino Studies
B.J., University of Texas at Austin; Ph.D., University of California, San Diego. Former affiliations: University of California, Davis; University of California, Los Angeles; University of California, Santa Barbara.

William H. Friedland (1969)

Professor Emeritus, Community Studies and Sociology
B.A., M.A., Wayne State University; Ph.D., University of California, Berkeley. Former affiliation: Cornell University.

Benjamin Friedlander (1999)

Professor, Electrical Engineering
B.S., M.S., Technion University (Israel); M.S., Ph.D., Stanford University. Former affiliation: University of California, Davis.

Daniel Friedman, Crown College (1985)

Professor, Economics
B.A., Reed College; M.A., Ph.D., University of California, Santa Cruz. Former affiliations: University of California, Los Angeles; University of California, Berkeley.

Gregory J. Fritsch, Porter College (1987)

Lecturer, Theater Arts
B.Ed., M.A., University of Miami.

Anna M. Friz (2015)

Assistant Professor, Film and Digital Media
B.A., University of British Columbia; M.A., Concordia University, Montreal; Ph.D., York University, Toronto.

Sakae Fujita (1991)

Lecturer, Japanese Language
B.A., Osaka University of Education; M.A., Monterey Institute of International Studies; Ph.D. cand.,

University of California, Berkeley. Former affiliation: Monterey Institute of International Studies.

Roman E. Fukshansky (2015)

Lecturer, Music (Clarinet)
B.M., San Francisco Conservatory of Music; M.M., University of Southern California; Professional Studies Diploma, Manhattan School of Music.

Hiroshi Fukurai, Stevenson College (1990)

Professor, Sociology
B.A., California State University, Fullerton; M.A., Ph.D., University of California, Riverside. Former affiliations: University of California, Riverside; Texas A&M University.

Kwok-Chiu Fung, Crown College (1989)

Professor, Economics
B.A., Swarthmore College; M.S., Ph.D., University of Wisconsin-Madison. Former affiliations: Mount Holyoke College; Stanford University.

Pascale Gaitet, Kresge College (1986)

Professor Emerita, Literature and Language Studies
B.A., M.A., Oxford University; Ph.D., Princeton University.

Patricia M. Gallagher, Porter College (2004)

Professor, Theater Arts
B.A., University of Arizona; M.A., Ph.D., University of Wisconsin-Madison.

Alison Galloway, Crown College (1990)

Professor, Anthropology; Campus Provost and Executive Vice Chancellor
B.A., University of California, Berkeley; M.A., Ph.D., University of Arizona. Former affiliation: University of Tennessee.

Frank R. Galuszka, Porter College (1995)

Professor Emeritus, Art
B.F.A., M.F.A., Temple University, Tyler School of Art. Former affiliation: University of the Arts, College of Art and Design (Philadelphia).

Mary-Kay Gamel, Cowell College (1973)

Professor Emerita, Literature
B.A., Smith College; M.A., Harvard University; Ph.D., University of California, Berkeley. Former affiliation: Boston University.

Pascale Garaud (2004)

Professor, Applied Mathematics and Statistics
B.S., Université Louis Pasteur; M.S., Ph.D., Cambridge University. Former affiliation: Cambridge University.

Jose J. Garcia-Luna-Aceves, Crown College (1993)
Distinguished Professor, Computer Engineering; Dir.,

Teaching and Administrative Staff

Networking Sciences Inst.

B.S., Universidad Iberoamericana (Mexico City); M.S., Ph.D., University of Hawaii. Former affiliation: Stanford Research Institute International.

Ian Garrick-Bethell (2010)

Assistant Professor, Earth and Planetary Sciences
B.A., Wesleyan University; M.S., Ph.D., Massachusetts Institute of Technology. Massachusetts Institute of Technology.

John C. Garza (2003)

Adjunct Professor, Ocean Sciences
Ph.D., University of California, Berkeley.

George D. Gaspari, Porter College (1967)

Professor Emeritus, Physics
B.S., DePaul University; Ph.D., University of California, Riverside. Former affiliation: University of Rochester.

Lise Getoor (2013)

Professor, Computer Science
B.S., University of California, Santa Barbara; M.S., University of California, Berkeley; Ph.D., Stanford University. Former affiliation: University of Maryland.

Raymond W. Gibbs, Cowell College (1982)

Professor, Psychology
B.A., Hampshire College; M.A., Ph.D., University of California, San Diego. Former affiliations: Yale University; Stanford University.

Margaret A. Gibson, Merrill College (1990)

Professor Emerita, Education
B.A., Wheaton College; M.Ed., Ph.D., University of Pittsburgh. Former affiliation: California State University, Sacramento.

Diane Gifford-Gonzalez, Merrill College (1976)

Professor Emerita, Anthropology
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of Nevada.

Gregory S. Gilbert, Rachel Carson College (2000)

Professor, Environmental Studies
B.S., State University of New York, College of Environmental Science and Forestry; M.S., Ph.D., University of Wisconsin-Madison.

James B. Gill, Oakes College (1972)

Professor Emeritus, Earth and Planetary Sciences
B.S., Wheaton College; M.S., Franklin and Marshall College; Ph.D., Australian National University.

Susan Gillman, Oakes College (1986)

Professor, American Literature
A.B., Bryn Mawr College; Ph.D., University of

California, Berkeley. Former affiliation: Rice University.

Amy Mihyang T. Ginther (2015)

Assistant Professor, Theater Arts
B.F.A., Hofstra University; TEFL (Teach English as a Foreign Language) Worldwide, Prague; M.A., Royal Central School of Speech and Drama, London. Former affiliation: Vocal Context.

Viktor Ginzburg, Rachel Carson College (1996)

Professor, Mathematics
M.S., Moscow Institute of Steel and Alloys; Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Princeton University; Stanford University.

Per F. Gjerde, College Nine (1989)

Professor Emeritus, Psychology
Cand. Psychol., University of Bergen (Norway); Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Ronald Glass, College Ten (2005)

Professor, Education
A.B., Ed.M., Harvard University; C. Phil., UC Berkeley; M.A., Ph.D., Stanford University. Former affiliations: Arizona State University; UC Berkeley; Stanford University.

Gary A. Glatzmaier (1998)

Professor Emeritus, Earth and Planetary Sciences
B.S., Marquette University; Ph.D., University of Colorado. Former affiliation: Los Alamos National Laboratory.

Stephen R. Gliessman, Rachel Carson College (1980)

Professor Emeritus, Agroecology (Environmental Studies)
B.A., M.A., Ph.D., University of California, Santa Barbara. Former affiliation: Colegio Superior de Agricultura Tropical (Mexico).

Wlad B. Godzich, Cowell College (2000)

Professor, Literature
M.A., Ph.D., Columbia University. Former affiliations: Universite de Genève; University of Toronto; University of Montreal; University of Minnesota; Yale University; Columbia University.

Lynda J. Goff, Crown College (1975)

Professor Emeritus, Ecology and Evolutionary Biology
B.Sc., Western Oregon State College; Ph.D., University of British Columbia. Former affiliations: University of Washington, Friday Harbor Marine Station; University of British Columbia; U.S. Forest Service.

Teaching and Administrative Staff

Robert A. Goff, Cowell College (1968)

Professor Emeritus, Philosophy
B.A., Colgate University; Ph.D., Drew University.
Former affiliations: Moravian College; Hamilton College.

Walter L. Goldfrank, Rachel Carson College (1968)

Professor Emeritus, Latin American and Latino Studies and Sociology
B.A., Harvard College; Certificate in Sociology, University of Madrid; Ph.D., Columbia University.
Former affiliation: Columbia University.

Camilo Gomez-Rivas (2014)

Assistant Professor, Literature
A.B., University of Georgia; M.A., M.Phil., Ph.D., Yale University. Former affiliation: American University, Cairo.

Qi Gong (2008)

Associate Professor, Applied Mathematics and Statistics
B.E., University of Science and Technology, China; M.E., Southeast University, China; Ph.D., Case Western Reserve University. Former affiliations: University of Texas at San Antonio; Naval Postgraduate School.

Jennifer A. Gonzalez, Porter College (1997)

Professor, History of Art and Visual Culture
B.A., Yale University; Ph.D., University of California, Santa Cruz. Former affiliation: Rhode Island School of Design.

Julie H. Gonzalez (2004)

Lecturer, Economics
B.S., California Polytechnic State University; Ph.D., University of Southern California.

Maria Gonzalez Pagani (1992)

Senior Lecturer with Security of Employment, Spanish Language
B.A., M.A., Universidad Nacional de Tucuman (Argentina). Former affiliations: Northwestern University; University of Michigan; University of Illinois, Chicago.

David Goodman, Rachel Carson College (1990)

Professor Emeritus, Environmental Studies
B.Sc., London School of Economics and Political Science; Ph.D., University of California, Berkeley.
Former affiliations: University College London; University of Manchester.

David Gordon (2016)

Assistant Professor, Politics
M.A., Ph.D., University of Toronto. Former affiliation: University of Toronto.

June A. Gordon, College Nine (1996)

Professor, Education
B.A., Stanford University; M.A., Western Washington University; Ph.D., University of Washington. Former affiliation: University of Washington.

Deborah B. Gould (2009)

Associate Professor, Sociology
Ph.D., University of Chicago. University of Pittsburg.

Shelly A. Grabe (2010)

Associate Professor, Psychology
B.A., Michigan State University; Ph.D., University of Missouri-Columbia. University of Washington, University of Wisconsin-Madison.

Herman S. Gray, Stevenson College (1991)

Professor, Sociology
B.A., Florida A&M University; M.A., Washington State University; Ph.D., University of California, Santa Cruz.
Former affiliation: Northeastern University.

Barry L. Green (1996)

Lecturer, Music (String Bass)
B.M., Indiana University; M.M., University of Cincinnati, Conservatory of Music. Former affiliations: University of Cincinnati; Indiana University.

Richard Edward E. Green (2010)

Associate Professor, Biomolecular Engineering
B.S., University of Georgia, Athens; Ph.D., University of California, Berkeley. Max Planck Institute for Evolutionary Anthropology, Leipzig, Germany; University of California, Berkeley.

Marvin J. Greenberg, Stevenson College (1967)

Professor Emeritus, Mathematics
B.A., Columbia University; Ph.D., Princeton University. Former affiliations: Rutgers University; University of California, Berkeley; Northeastern University.

Miriam B. Greenberg, College Ten (2006)

Professor, Sociology
B.A., Eugene Lang College, The New School for Social Research; Ph.D., City University of New York. Department of Social Science and Cultural Studies, Pratt Institute, Brooklyn, New York.

Jody Greene, Kresge College (1998)

Professor, Literature
B.A., Yale University; M.A., Ph.D., Cornell University. Former affiliations: Cornell University; Hobart and William Smith Colleges.

Josephine Greene, Kresge College (1998)

Professor, Literature

Teaching and Administrative Staff

B.A., Yale University; M.A., Ph.D., Cornell University.
Former affiliations: Cornell University; Hobart and William Smith Colleges.

Ronald E. Grieson, Crown College (1980)

Professor Emeritus, Economics
B.A., Queen's College; M.A., Ph.D., University of Rochester. Former affiliations: Massachusetts Institute of Technology; Columbia University; Princeton University.

Gary B. Griggs, Rachel Carson College (1968)

Professor, Earth and Planetary Sciences; Director, Institute of Marine Sciences
B.A., University of California, Santa Barbara; Ph.D., Oregon State University. Former affiliation: Oregon State University.

Kirsten S. Gruesz, Oakes College (1996)

Professor, Literature
B.A., Swarthmore College; Ph.D., Yale University.
Former affiliation: College of William and Mary.

Isebill V. Gruhn, Stevenson College (1969)

Professor Emerita, Politics
B.A., Dickinson College; M.A., Johns Hopkins University; Ph.D., University of California, Berkeley.
Former affiliation: Oberlin College.

Claire X. Gu (1997)

Professor Emerita, Electrical Engineering
B.S., Fudan University (China); Ph.D., California Institute of Technology. Former affiliations: Pennsylvania State University; Rockwell International Science Center.

Weishi Gu (2013)

Assistant Professor, Economics
Ph.D., Cornell University. Former affiliation: Cornell University.

Daniel E. Guevara, Cowell College (1991)

Associate Professor, Philosophy
B.A., California State University, Los Angeles; C.Phil., Ph.D., University of California, Los Angeles.

Rajarshi Guhaniyogi (2014)

Assistant Professor, Applied Mathematics and Statistics
B.Stat., M.Stat., Indian Statistical Institute; Ph.D., University of Minnesota. Former affiliation: Duke University.

Puragra Guha Thakurta (1994)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., St. Xavier's College (Calcutta, India); M.A., Ph.D., Princeton University.

Thomas P. Guilderson (2000)

Adjunct Professor, Ocean Sciences
Ph.D., Columbia University.

Irene Gustafson, Porter College (2003)

Associate Professor, Film and Digital Media
B.A., Evergreen State College; M.F.A., Northwestern University. Former affiliation: School of the Art Institute of Chicago.

Matthew R. Guthaus, Crown College

Associate Professor, Computer Engineering
B.S.E., M.S.E., Ph.D., University of Michigan.

Julie H. Guthman, College Nine (2003)

Professor, Social Sciences
B.A., University of California, Santa Cruz; M.B.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Lisbeth Haas, Merrill College (1986)

Professor, History, Feminist Studies
B.A., University of California, San Diego; Ph.D., University of California, Irvine.

Howard E. Haber, Stevenson College (1982)

Professor, Physics
S.B., S.M., Massachusetts Institute of Technology; Ph.D., University of Michigan.

Judith A. Habicht Mauche, Crown College (1990)

Professor, Anthropology
B.A., College of William and Mary; M.A., Ph.D., Harvard University. Former affiliation: School of American Research (Santa Fe).

Brent M. Haddad, Rachel Carson College (1997)

Professor, Technology and Information Management
B.A., Stanford University; M.A., Georgetown University; M.B.A., Ph.D., University of California, Berkeley. Former affiliation: Monterey Institute of International Studies.

Steven H. Haddock (2005)

Adjunct Professor, Ecology and Evolutionary Biology
Ph.D., University of California, Santa Barbara.

Gildas Hamel, Cowell College (1984)

Lecturer Emeritus, History
B.A., Université de Haute-Bretagne; Ph.D., University of California, Santa Cruz.

Roxanne P. Hamilton

Lecturer, Writing
B.A., University of Colorado; M.F.A., Cornell University.

Phillip L. Hammack, College Ten (2007)

Associate Professor, Psychology

Teaching and Administrative Staff

B.A., Georgetown University; M.A., Loyola University;
Ph.D. cand., University of Chicago..

Nicol Hammond (2013)

Assistant Professor, Music
B.M., University of Witwaterstrand, Johannesburg,
South Africa; M.A., Ph.D., New York University.
Former affiliation: Montclair State University.

Craig W. Haney, Stevenson College (1977)

Professor, Psychology
B.A., University of Pennsylvania; M.A., Ph.D., J.D.,
Stanford University. Former affiliation: Stanford
University.

Jorge Hankamer, Stevenson College (1980)

Professor, Linguistics
B.A., M.A., Rice University; Ph.D., Yale University.
Former affiliation: Harvard University.

Donna J. Haraway, Oakes College (1980)

Professor Emerita, History of Consciousness and
Feminist Studies
B.A., Colorado College; M.Phil., Ph.D., Yale University.
Former affiliations: University of Hawaii; Johns
Hopkins University.

Daniel K. Harder (2004)

Associate Adjunct Professor, Ecology and
Evolutionary Biology; Executive Director, UCSC
Arboretum
B.S., University of Wisconsin-Madison; Ph.D.,
University of California, Berkeley.

Susan F. Harding, Porter College (1989)

Professor Emerita, Anthropology
B.A., M.A., Ph.D., University of Michigan. Former
affiliation: University of Michigan.

David M. Harrington, Stevenson College (1975)

Professor Emeritus, Psychology
B.A., Macalester College; Ph.D., University of
California, Berkeley. Former affiliations: University of
California, Berkeley; Macalester College.

Grant A. Hartzog (1998)

Professor, Molecular, Cell, and Developmental
Biology
B.A., University of California, Berkeley; Ph.D.,
University of California, San Francisco.

David Haussler, Crown College (1986)

Professor, Biomolecular Engineering
B.A., Connecticut College; M.S., California Polytechnic
State University, San Luis Obispo; Ph.D., University of
Colorado. Former affiliation: University of Denver.

John Hay, Porter College (1988)

Professor Emeritus, History of Art and Visual Culture
B.A., Oxford University; Ph.D., Princeton University.
Former affiliations: Institute of Fine Arts, New York
University; Harvard University.

Sean A. Hayes (2007)

Associate Adjunct Professor, Ocean Sciences
Ph.D., University of California, Santa Cruz.

Alma Heckman (2015)

Assistant Professor, History
Ph.D., University of California, Los Angeles.

Charles W. Hedrick, Cowell College (1990)

Professor, History
B.A., Pitzer College; M.A., Ph.D., University of
Pennsylvania. Former affiliation: State University of
New York at Buffalo.

David P. Helmbold, Rachel Carson College (1986)

Professor, Computer Science
B.A., University of California, Berkeley; Ph.D.,
Stanford University.

Kimberly A. Helmer (2014)

Lecturer with Security of Employment, Writing
Program
B.A., University of California, Los Angeles; M.A.,
Monterey Institute of International Studies; Ph.D.,
University of Arizona. Former affiliation: John Jay
College, City University of New York.

Margo J. Hendricks, Cowell College (1990)

Professor Emerita, Literature
B.A., California State University, San Bernardino; M.A.,
Ph.D., University of California, Riverside. Former
affiliation: San Jose State University.

Gail B. Hershatter, Merrill College (1991)

Professor, History
B.A., Hampshire College; M.A., Ph.D., Stanford
University. Former affiliation: Williams College.

Karlton E. Hester, Merrill College (2000)

Professor, Music (Composition, Flute, and
Saxophone)
B.M., University of Texas at El Paso; M.M., San
Francisco State University; Ph.D., City University of
New York Graduate Center. Former affiliation:
Cornell University.

Clemens A. Heusch, Porter College (1969)

Professor Emeritus, Physics
Diploma, Technical University, Aachen; Ph.D.,
University of Munich. Former affiliations: California
Institute of Technology; DESY, University of
Hamburg.

Teaching and Administrative Staff

Wendy D. Hibbert-Jones, Porter College (2002)

Associate Professor, Art

B.A., London University, London; M.A., Durham University, Durham, England; M.A., York University, York, England; M.F.A., Mills College. Former affiliations: California College of Arts; Mills College.

Lindsay Hinck (1998)

Professor, Molecular, Cell, and Developmental Biology

B.S., Western Washington University; M.S., University of California, Davis; Ph.D., Stanford University.

Ralph T. Hinegardner, Crown College (1967)

Professor Emeritus, Ecology and Evolutionary Biology

B.A., Denison University; M.S., University of Southern California; Ph.D., University of Hawaii. Former affiliations: University of Kentucky; Columbia University.

David A. Hoffman (1990)

Lecturer, Psychology

B.A., Reed College; M.S., Ph.D., University of Oregon.

Karen D. Holl, Rachel Carson College (1995)

Professor, Environmental Studies

B.S., Stanford University; Ph.D., Virginia Polytechnic Institute and State University.

Eli E. Hollander, Porter College (1974)

Professor Emeritus, Film and Digital Media

B.S., Juilliard School of Music; M.F.A., University of California, Los Angeles. Former affiliations: Encyclopaedia Britannica Films; Public Broadcasting Television Network (Los Angeles); Churchill Films; New York Philharmonic Orchestra.

Theodore R. Holman, Cowell College (1996)

Professor, Chemistry and Biochemistry

B.A., University of California, San Diego; Ph.D., University of Minnesota at Minneapolis. Former affiliations: Harvard Medical School; Syntex Pharmaceuticals; University of California, Riverside.

Christine Hong (2009)

Assistant Professor, Literature

B.A., University of California, Los Angeles; Ph.D., University of California, Berkeley.

Emily Honig, Kresge College (1992)

Professor, Feminist Studies and History

B.A., Brown University; M.A., Ph.D., Stanford University. Former affiliations: Yale University; Lafayette College.

Jennifer Horne (2011)

Assistant Professor, Film and Digital Media

B.A., Syracuse University; M.A., Ph.D., University of Minnesota. Former affiliation: The Catholic University of America.

Edward F. Houghton, Porter College (1970)

Professor Emeritus, Music

B.A., Rutgers University; M.A., University of Nevada; Ph.D., University of California, Berkeley. Former affiliations: University of California Education Abroad Program (Padua, Venice, Bologna); Rutgers University.

Jeremy K. Hourigan (2006)

Associate Professor, Earth and Planetary Sciences

B.S., University of Vermont; Ph.D. Stanford University. Former affiliations: Yale University; UC Santa Barbara.

David C. Hoy, Cowell College (1981)

Professor Emeritus, Philosophy

B.A., Ph.D., Yale University. Former affiliations: Barnard College; Columbia University; University of California, Los Angeles; Princeton University; Yale University.

Chenyue Hu (2016)

Assistant Professor, Economics

B.A., Fudan University; Ph.D., University of Michigan.

Minghui Hu, Rachel Carson College (2005)

Associate Professor, History

Ph.D., University of California, Los Angeles. Former affiliation: University of Chicago.

Richard P. Hughey, Crown College (1991)

Professor, Biomolecular Engineering and Computer Engineering; Vice Provost, Dean, Undergraduate Ed. B.A., B.S., Swarthmore College; Sc.M., Ph.D., Brown University.

Robin Hunicke (2014)

Associate Professor, Art

B.A., University of Chicago; M.S., Ph.D., Northwestern University. Former affiliations: University of Southern California, Northwestern University, Columbia University, Massachusetts Institute of Technology (MIT).

Fred A. Hunnicutt, Porter College (1969)

Professor Emeritus, Art

B.F.A., University of Texas; M.F.A., San Francisco Art Institute. Former affiliations: University of Texas at Arlington; Hornsey College of Art (London); Royal College of Art (London).

Donna M. Hunter, Porter College (1985)

Associate Professor Emerita, History of Art and Visual Culture

Teaching and Administrative Staff

B.A., Vassar College; M.A., Ph.D., Harvard University.
Former affiliation: Harvard University.

Gregory L. Hura (2015)

Associate Adjunct Professor, Chemistry and
Biochemistry

B.A., Ph.D., University of California, Berkeley. Former
affiliation: Lawrence Berkeley National Laboratory.

Greta K. Hutchison (1986)

Lecturer, French

B.A., M.A., University of Oregon, Eugene. Former
affiliation: Cabrillo College.

Michael M. Hutchison, Cowell College (1985)

Professor, Economics

B.A., University of California, Santa Cruz; Ph.D.,
University of Oregon. Former affiliations: Federal
Reserve Bank of San Francisco; University of Oregon;
Institute for International Economic Studies,
University of Stockholm.

Garth D. Illingworth, Crown College (1988)

Professor, Astronomy and Astrophysics; Astronomer,
UC Observatories

B.Sc., University of Western Australia; Ph.D.,
Australian National University. Former affiliations:
Space Telescope Science Institute; University of
California, Berkeley; Kitt Peak National Observatory;
Johns Hopkins University.

Robert W. Irion (1988)

Senior Lecturer in Science Communication, Program
Director

B.S., Massachusetts Institute of Technology; Graduate
Certificate, University of California, Santa Cruz.

Michael S. Isaacson (2003)

Professor, Electrical Engineering

B.S., University of Illinois, Urbana-Champaign; S.M.,
Ph.D., University of Chicago. Former affiliations:
Brookhaven National Laboratory; University of
Chicago; Cornell University.

John W. Isbister, Merrill College (1968)

Professor Emeritus, Economics

B.A., Queen's University (Canada); Ph.D., Princeton
University.

Katherine C. Isbister (2015)

Professor, Computational Media

A.M., Ph.D., Stanford University. Former affiliation:
New York University.

Junko Ito, Stevenson College (1986)

Professor, Linguistics

B.A., M.A., International Christian University (Tokyo);
Ph.D., University of Massachusetts-Amherst.

Kimberly M. Jannarone, Porter College (2001)

Professor, Theater Arts

B.A., Emory University; M.F.A., D.F.A., Yale School of
Drama. Former affiliations: University of Washington;
Smith College; Quinnipiac College.

Virginia Jansen, Cowell College (1975)

Professor Emerita, History of Art and Visual Culture

B.A., Smith College; M.A., Ph.D., University of
California, Berkeley. Former affiliations: University of
Santa Clara; Foothill College; Montreal Museum of
Fine Arts.

Tesla E. Jeltema (2011)

Assistant Professor, Physics

Ph.D, Massachusetts Institute of Technology.

Arnav Jhala (2009)

Visiting Professor, Computational Media

B.E., Gujarat University, India; M.S., North Carolina
State University, Raleigh; Ph.D., North Carolina State
University, Raleigh. Research Assistant, Department
of Computer Science, North Carolina State University,
Raleigh..

Sikina Jinnah (2016)

Associate Professor, Politics

B.A., M.S., Ph.D., American University. Former
affiliation: American University.

Robert P. Johnson, Merrill College (1991)

Professor, Physics

B.S., University of Kansas; Ph.D., Stanford University.
Former affiliations: PPE Division, CERN; University of
Wisconsin-Madison.

Burton F. Jones, Crown College (1975)

Professor Emeritus, Astronomy and Astrophysics;

Astronomer, UC Observatories/Lick Observatory

B.S., M.S., Ph.D., University of Chicago.

Catherine A. Jones, Stevenson College (2007)

Associate Professor, History

B.A., Haverford College; Ph.D., Johns Hopkins
University. Johns Hopkins University.

David E. Jones, Porter College (1988)

Professor, Music

B.A., M.A., Ph.D., University of California, San Diego.
Former affiliations: Dartmouth College; University of
York (England); University of California, San Diego.

Kevin K. Jones (2016)

Lecturer, Economics

B.S., University of South Carolina, Columbia; M.B.A.,
University of Baltimore; D.B.A., Georgia State
University. Former affiliations: LeBow College of
Business at Drexel University, General Electric,

Teaching and Administrative Staff

Georgia Pacific Corporation, Yum! Brands, Inc., Philip Morris, South Carolina Office of State Auditor, Price Waterhouse.

John O. Jordan, Kresge College (1968)

Professor Emeritus, English Literature
B.A., Princeton University; Ph.D., Stanford University.

Melissa S. Jurica (2003)

Professor, Molecular, Cell, and Developmental Biology
B.S., Montana State University; Ph.D., University of Washington, Fred Hutchinson Cancer Research Center. Former affiliation: Brandeis University.

Jonathan Kahana (2012)

Associate Professor, Film and Digital Media
B.F.A., B.A., York University; M.A., University of Minnesota; Ph.D., Rutgers University. Former affiliations: New York University; Bryn Mawr College.

Rohinton T. Kamakaka (2006)

Professor, Molecular, Cell, and Developmental Biology
B.S., M.S., Poona University; Ph.D., Cambridge University; post-doctoral research, University of California, San Diego and University of California, Berkeley. Former affiliation: National Institutes of Health.

Stacy L. Kamehiro, Porter College (2002)

Associate Professor, Patricia and Rowland Rebele Chair in History of Art and Visual Culture
B.A., University of California, San Diego; M.A., Ph.D., University of California, Los Angeles. Former affiliation: University of Redlands.

Sheldon Kamieniecki, Rachel Carson College (2006)

Professor and Dean of Social Sciences
B.A., State University of New York; M.A., State University of New York; Ph.D., State University of New York. Former affiliation: University of Southern California.

Sung M. Kang (2001)

Professor, Electrical Engineering
B.S., Fairleigh Dickinson University; M.S., State University of New York at Buffalo; Ph.D., University of California, Berkeley. Former affiliations: University of Illinois, Urbana-Champaign; Swiss Federal Institute of Technology; University of Karlsruhe; Technical University of Munich.

Karolina Karlic (2016)

Assistant Professor, Art
B.F.A., Minneapolis College of Art and Design; M.F.A., California Institute of the Arts. Former affiliations:

University of California, San Diego; The Art Institute of California, Inland Empire.

Kevin Karplus, Cowell College (1986)

Professor, Biomolecular Engineering
B.S., Michigan State University; M.S., Ph.D., Stanford University. Former affiliation: Cornell University.

Jonathan R. Katznelson

Lecturer, Applied Mathematics and Statistics
B.Sc., Hebrew University; Ph.D., M.Sc., Stanford University. Former affiliations: Institut des Hautes Etudes Scientifiques (France); University of Maryland.

David E. Kaun, Crown College (1966)

Professor Emeritus, Economics
B.S., Arizona State University; M.A., Claremont Graduate School; Ph.D., Stanford University. Former affiliations: University of Pittsburgh; Brookings Institution.

Alan H. Kawamoto, Crown College (1986)

Associate Professor, Psychology
B.S., Stanford University; Ph.D., Brown University. Former affiliation: Carnegie Mellon University.

Kathleen M. Kay (2008)

Associate Professor, Ecology and Evolutionary Biology
B.S., University of California, Davis; Ph.D., Michigan State University. University of California, Santa Barbara; University of California, Berkeley.

David L. Keenan (2000)

Continuing Lecturer, Chinese Language
B.A., Dartmouth College; M.A., Ph.D., Harvard University. Former affiliations: Indiana University; Grinnell College; Colby College.

Sean Keilen (2012)

Associate Professor, Literature
B.A., Williams College; B.A., M.A., Cambridge University; M.A., Ph.D., Stanford University. Former affiliations: College of William and Mary; Princeton University; University of Pennsylvania.

Al Kelley, Stevenson College (1966)

Professor Emeritus, Mathematics
B.S., University of Montana; M.A., Ph.D., University of California, Berkeley. Former affiliations: Institute for Advanced Study (Princeton); National Academy of Sciences Exchange Fellowship to the USSR.

Douglas Kellogg (1995)

Professor, Molecular, Cell, and Developmental Biology

Teaching and Administrative Staff

B.A., University of Wisconsin-Madison; Ph.D., University of California, San Francisco.

Peter Kenez, Stevenson College (1966)

Professor Emeritus, History

B.A., Princeton University; M.A., Ph.D., Harvard University. Former affiliations: Oxford University; Massachusetts Institute of Technology.

Renee Kidson (2008)

Associate Adjunct Professor, Environmental Studies

B.S., University of Sydney; B.S., University of Tasmania; Ph.D., University of Cambridge; M.S., University of Sydney.

Jeffrey T. Kiehl (2015)

Adjunct Professor, Environmental Studies

B.S., Elizabethtown College; M.S., Indiana University, Bloomington; M.S., Purdue University; M.A., Regis University; Ph.D., State University of New York, Albany. Former affiliation: National Center for Atmospheric Research.

Daniel Kim (2016)

Assistant Professor, Biomolecular Engineering

B.S. California Institute of Technology; Ph.D., City of Hope Comprehensive Cancer Center. Former affiliations: California Institute of Technology, Harvard Medical School.

Hi K. Kim, Porter College (1992)

Professor, Music

B.A., Seoul National University (Korea); M.A., Ph.D., University of California, Berkeley; D.E.A., IRCAM and Ecole Normale Supérieure (Paris). Concurrent Affiliation: Founder and Artistic Director, Pacific Rim Music Festival. Former affiliation: San Francisco State University.

Lahn S. Kim, Porter College (2002)

Associate Professor, Film and Digital Media

B.A., Smith College; M.A., Ph.D., University of California, Los Angeles. Former affiliation: Northwestern University.

Julie H. Kimball (1983)

Physical Education Instructor

B.A., University of California, Santa Cruz. Former affiliation: Ramani Iyengar Yoga Institute (India).

Robin Y. King (1997)

Lecturer, Writing

B.A., M.F.A., University of California, San Diego.

Russell L. Kingon (2000)

Physical Education Instructor

B.S., Clemson University.

Sharon A. Kinoshita, Oakes College (1987)

Professor, Literature

A.B., M.A., Ph.D., University of California, Berkeley. Former affiliation: Stanford University.

Norma Klahn, Merrill College (1989)

Professor Emerita, Literature

B.A., M.A., Queens College, City University of New York; Ph.D., State University of New York at Stony Brook. Former affiliation: Columbia University.

Kenneth M. Kletzer, Stevenson College (1992)

Professor, Economics

B.S., Stanford University; M.S., University of Washington; Ph.D., University of California, Berkeley. Former affiliations: University of California, Davis; Yale University.

Lori G. Kletzer, Merrill College (1993)

Professor Emerita, Economics

B.A., Vassar College; Ph.D., University of California, Berkeley. Former affiliation: Williams College.

David S. Kliger, Oakes College (1971)

Research Professor, Chemistry and Biochemistry

B.S., Rutgers University; Ph.D., Cornell University. Former affiliation: Harvard University.

Elise Knittle, Kresge College (1988)

Professor, Earth and Planetary Sciences

A.B., Smith College; Ph.D., University of California, Berkeley.

Nobuhiko P. Kobayashi (2007)

Professor, Electrical Engineering

B.S., Aoyama Gakuin University, Japan; M.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles. Concurrent Affiliation: NASA Ames Research Center. Hewlett-Packard Labs; Electronics Research Lab, University of California, Berkeley..

Paul L. Koch, Crown College (1996)

Professor, Earth and Planetary Sciences

B.A., University of Rochester; M.S., Ph.D., University of Michigan. Former affiliations: Smithsonian Institution; Carnegie Institution of Washington; Princeton University.

Phokion Kolaitis, Rachel Carson College (1988)

Professor, Computer Science

Diploma, University of Athens; M.A., Ph.D., University of California, Los Angeles. Former affiliations: Stanford University; Occidental College; University of Chicago.

Joseph P. Konopelski, Stevenson College (1984)

Professor, Chemistry and Biochemistry

Teaching and Administrative Staff

B.A., M.A., Johns Hopkins University; Ph.D., Stanford University. Former affiliations: Universite Louis Pasteur (Strasbourg); University of Pennsylvania.

David C. Koo, Rachel Carson College (1988)
Professor Emeritus, Astronomy and Astrophysics;
Astronomer, UC Observatories
A.B., Cornell University; M.A., Ph.D., University of California, Berkeley. Former affiliation: Space Telescope Science Institute.

Athanasios Kottas (2002)
Professor, Applied Mathematics and Statistics
B.Sc., M.Sc., University of Ioannina (Greece); Ph.D., University of Connecticut. Former affiliation: Duke University.

Kristy J. Kroeker (2014)
Assistant Professor, Ecology and Evolutionary Biology
B.S., University of California, Santa Cruz; Ph.D., Stanford University.

Joel A. Kubby (2005)
Professor, Department Chair, Electrical Engineering
B.A., University of California, Berkeley; M.S., Ph.D., Cornell University. Former affiliation: Xerox Corporation.

Raphael M. Kudela (1999)
Professor, Ocean Sciences
B.S., Drake University; Ph.D., University of Southern California. Concurrent affiliation: Monterey Bay Aquarium Research Institute.

Sri H. Kurniawan (2007)
Professor, Computer Engineering and Computational Media
B.S., Satya Wacana University; M.S., Hong Kong University of Science and Technology; Ph.D., Wayne State University. Former affiliation: University of Manchester.

Susan C. Kuzminsky (2013)
Adjunct Assistant Professor, Anthropology
B.A., University of California, Los Angeles; M.A., Ph.D., University of California, Santa Barbara. Concurrent Affiliation: Concurrent affiliation: Universidad Católica del Norte, Chile.

William A. Ladusaw, Cowell College (1984)
Professor, Linguistics
B.A., University of Kentucky; M.A., Ph.D., University of Texas at Austin. Former affiliations: University of Connecticut; University of California, Los Angeles; University of Iowa.

Phoebe Lam (2014)
Assistant Professor, Ocean Sciences
S.B., Massachusetts Institute of Technology; M.A., Princeton University; Ph.D., University of California, Berkeley. Former affiliation: Woods Hole Oceanographic Institution, Woods Hole, Massachusetts.

Carl Lamborg (2015)
Assistant Professor, Ocean Sciences
B.A., Oberlin College; M.S., University of Michigan; Ph.D., University of Connecticut. Former affiliation: Woods Hole Oceanographic Institution, Woods Hole, Massachusetts.

Edward M. Landesman, Crown College (1966)
Professor Emeritus, Mathematics
B.A., M.A., Ph.D., University of California, Los Angeles. Former affiliation: University of California, Los Angeles.

Jean H. Langenheim (1966)
Professor Emerita, Ecology and Evolutionary Biology
B.S., University of Tulsa; M.S., Ph.D., University of Minnesota. Former affiliations: Harvard University; University of California, Berkeley; University of Illinois, Urbana-Champaign; San Francisco College for Women; Mills College.

Regina D. Langhout (2006)
Professor, Psychology
B.A., University of California, Santa Cruz; A.M., Ph.D., University of Illinois. Former affiliations: Wesleyan University; Children's Advocacy Institute and Center for Public Interest Law, University of San Diego.

Ruth Langridge (2012)
Lecturer, Legal Studies
B.S., Antioch College; M.A., Harvard University; M.S., Oregon State University; Ph.D., University of California, Berkeley.

Leo F. Laporte, Crown College (1971)
Professor Emeritus, Earth and Planetary Sciences
B.A., Ph.D., Columbia University. Former affiliation: Brown University.

Bruce D. Larkin, Cowell College (1965)
Professor Emeritus, Politics
B.A., University of Chicago; M.A., Ph.D., Harvard University.

Tracy Larrabee, Rachel Carson College (1990)
Professor, Computer Engineering
B.S., California Institute of Technology; M.S., Ph.D., Stanford University. Former affiliations: Hewlett-

Teaching and Administrative Staff

Packard Laboratories; Xerox PARC; Digital Equipment Corporation.

Matthew Lasar (2003)

Lecturer, History
Ph.D., Claremont Graduate University. Former affiliation: University of California, Riverside.

Kimberly J. Lau (2006)

Professor, Literature
B.A., University of California, Berkeley; M.L.I.S., University of California, Berkeley; Ph.D., University of Pennsylvania. Former Affiliation: University of Utah.

Christopher M. Lay (2016)

Lecturer, Environmental Studies
B.A., University of California, Santa Cruz; M.S., San Jose State University. Former affiliations: National Outdoor Leadership School; Wilderness Medicine Institute.

Thorne Lay, Porter College (1989)

Professor, Earth and Planetary Sciences
B.S., University of Rochester; M.S., Ph.D., California Institute of Technology. Former affiliations: University of Michigan, Ann Arbor; California Institute of Technology.

Natalia Lazzati (2015)

Assistant Professor, Economics
B.Sc., Universidad Nacional de Rosario, Argentina; M.A., Ph.D., University of Arizona. Former affiliation: University of Michigan, Ann Arbor.

John Jota Leanos (2009)

Associate Professor, Film and Digital Media
M.F.A, San Francisco State University. California College of the Arts; Arizona State University.

Campbell Leaper, Cowell College (1988)

Professor, Psychology
B.A., Boston University; M.A., Ph.D., University of California, Los Angeles. Former affiliations: Harvard Medical School; California State University, Northridge; California State University, Long Beach.

Alexie Leauthaud (2016)

Assistant Professor, Astronomy and Astrophysics
Ph.D, University of Marseille Provence.

Burney J. Leboeuf, Crown College (1967)

Professor Emeritus, Ecology and Evolutionary Biology
B.A., University of California, Berkeley; M.A., San Francisco State College; Ph.D., University of California, Berkeley. Former affiliations: University of California, Davis; Harvard University.

Cynthia Ling Lee (2016)

Assistant Professor, Theater Arts
B.A., Swarthmore College; MFA, University of California, Los Angeles. Former affiliation: University of North Carolina, at Greensboro.

David Lee (2016)

Assistant Professor, Technology Management
B.S., California Institute of Technology; Ph.D., Stanford University.

Dongwook Lee (2014)

Assistant Professor, Applied Mathematics and Statistics
M.S., Sogang University, Seoul, Korea; M.S., Ph.D., University of Maryland at College Park. Former affiliation: University of Chicago.

Herbert K. Lee, College Nine (2002)

Professor, Applied Mathematics and Statistics
B.S., Yale University; M.S., Ph.D., Carnegie Mellon University. Former affiliation: Duke University.

Jimin Lee, Porter College (2003)

Professor, Art
B.F.A., M.F.A., Seoul National University (Korea); M.F.A., San Francisco Art Institute. Former affiliation: California State University, Hayward.

Ju Hee Lee (2013)

Assistant Professor, Applied Mathematics and Statistics
B.S., Ewha Women's University, Seoul, Korea; M.S., Ph.D., Ohio State University. Former affiliations: Ohio State University; University of Texas, M.D. Anderson Cancer Center.

H M. Leicester, Cowell College (1967)

Professor, English Literature
B.A., M.A., Ph.D., Yale University. Former affiliation: Yale University.

Anatole Leikin, Porter College (1989)

Professor, Music
B.A., Gnesin State Conservatory (Moscow); M.A., Gnesin State Musical and Pedagogical Institute (Moscow); Ph.D., University of California, Los Angeles. Former affiliations: Gnesin State Conservatory; University of California, Los Angeles.

Fernando I. Leiva (2014)

Associate Professor of Latin American and Latino Studies
B.A., American University; M.A., Ph.D., University of Massachusetts'-Amherst. Former affiliations: American University, University at Albany (SUNY).

Teaching and Administrative Staff

Deborah K. Letourneau, Rachel Carson College (1984)
Professor, Ecology (Environmental Studies)
B.S., M.S., University of Michigan; Ph.D., University of California, Berkeley.

Bruce C. Levine (1997)
Professor Emeritus, History
B.A., University of Michigan, Ann Arbor; M.A., Ph.D., University of Rochester. Former affiliation: University of Cincinnati.

Robert A. Levinson, Stevenson College (1985)
Professor Emeritus, Computer Science
B.S., University of Minnesota at Minneapolis-St. Paul; Ph.D., University of Texas at Austin. Former affiliations: University of Texas at Austin; University of Minnesota.

Debra K. Lewis, Crown College (1991)
Professor, Mathematics
B.A., Ph.D., University of California, Berkeley. Former affiliation: Institute for Math and Its Applications, University of Minnesota.

Yat Li, Crown College (2007)
Associate Professor, Chemistry and Biochemistry
B.Sc., University of Hong Kong; Ph.D., University of Hong Kong.

Peter E. Limbrick, Porter College (2001)
Associate Professor, Film and Digital Media
B.A., M.A., University of Otago (New Zealand); Ph.D., La Trobe University (Australia). Former affiliations: Duke University; Stanford University; University of California, Berkeley.

Douglas N. Lin, Crown College (1979)
Professor, Astronomy and Astrophysics
B.S., McGill University; Ph.D., Cambridge University. Former affiliation: Harvard University.

Longzhi Lin (2014)
Assistant Professor, Mathematics
B.S., University of Science and Technology of China; M.A., Ph.D., Johns Hopkins University. Former affiliation: Rutgers University.

Daniel T. Linger, Stevenson College (1983)
Professor Emeritus, Anthropology
B.A., University of Michigan; M.A., Ph.D., University of California, San Diego. Former affiliation: University of California, San Diego.

Ronnie D. Lipschutz, Stevenson College (1990)
Professor, Politics
B.A., B.S., University of Texas at Austin; M.S.,

Massachusetts Institute of Technology; Ph.D., University of California, Berkeley.

Norman Locks, Porter College (1977)
Professor, Art
B.F.A., San Francisco Art Institute; M.A., San Francisco State University.

Suresh K. Lodha, Porter College (1992)
Professor, Computer Science
M.Sc., Indian Institute of Technology (Kanpur); M.A., University of California, Berkeley; Ph.D., Rice University. Former affiliations: IBM Thomas J. Watson Research Center; IBM Almaden Research Center.

Peter M. Loftus (1982)
Lecturer, Art
BFA, Maryland Institute College of Art; MFA, University of Pennsylvania, Philadelphia. Former affiliation: Cabrillo Community College.

Michael E. Loik (1998)
Professor, Environmental Studies
B.Sc., M.Sc., University of Toronto; Ph.D. University of California, Los Angeles. Former affiliations: University of California, Berkeley; California State University, San Bernardino.

Robert S. Lokey (2002)
Professor, Chemistry and Biochemistry
B.S., Trinity University (San Antonio); Ph.D., University of Texas at Austin.

Rebecca A. London (2001)
Assistant Professor, Sociology
B.A., University of Michigan; M.A. Ph.D., Northwestern University. Former affiliations: Public Policy Institute of California, Stanford University Graduate School of Education.

Amy J. Lonetree, Oakes College
Associate Professor, History
B.A., University of Minnesota; M.A., University of Chicago; M.A., Indiana University; Ph.D., University of California, Berkeley.

Darrell D. Long, Crown College (1988)
Professor, Computer Science
B.S., San Diego State University; M.S., Ph.D., University of California, San Diego.

Kristian M. Lopez Vargas (2015)
Assistant Professor, Economics
B.S., Pontificia Universidad Catolica del Peru; M.Sc., Texas A&M University; Ph.D., University of Maryland at College Park.

Teaching and Administrative Staff

Charles L. Lord, Porter College (1987)

Professor Emeritus, Film and Digital Media
B.A., Tulane University. Former affiliation: University of California, San Diego.

Todd M. Lowe (2001)

Professor, Biomolecular Engineering
B.A., Williams College; Ph.D., Washington University.
Former affiliation: Washington University.

Flora E. Lu (2008)

Associate Professor, Environmental Studies
A.B., Stanford University; Ph.D., University of North Carolina at Chapel Hill. Former affiliations: University of North Carolina at Chapel Hill; Stanford University.

Paul M. Lubeck, Rachel Carson College (1973)

Professor Emeritus, Sociology
B.A., St. Michael's College; M.A., Ph.D., Certificate in African Studies, Northwestern University.

Brij D. Lunine (2000)

Lecturer, Writing
Ph.D., University of New Mexico. Former affiliation: Georgiana Bruce Kirby Preparatory School.

Irene E. Lusztig (2008)

Associate Professor, Film and Digital Media
B.A., Harvard University; M.F.A., Bard College.
Harvard University; State University of New York, Purchase; Temple University.

Boreth J. Ly (2008)

Associate Professor, History of Art and Visual Culture
B.A., Bates College, Lewiston, Maine; Ph.D., University of California, Berkeley..

John P. Lynch, Cowell College (1970)

Professor Emeritus, Classics (Literature)
B.A., Harvard College; M.A., M.Phil., Ph.D., Yale University.

Jennifer K. Lynn (2010)

Lecturer, History
A.B., Ph.D., Columbia University. Former affiliations: The Hotchkiss School, The Berkeley Carroll School, Oberlin College, Princeton University, Columbia University.

Bruce E. Lyon (1997)

Professor, Ecology and Evolutionary Biology
B.Sc., McGill University; M.Sc., Queen's University; Ph.D., Princeton University.

Kristina Lyons (2013)

Assistant Professor, Feminist Studies
B.A., Middlebury College; M.A., University of Texas, Austin; Ph.D., University of California, Davis. Former

affiliation: University of California President's Postdoctoral Fellow Program.

Pavel Machotka, Porter College (1970)

Professor Emeritus, Psychology
B.A., University of Chicago; M.A., Ph.D., Harvard University; (Hon.) Dr. h. c., Charles University (Prague). Former affiliations: Harvard University; University of Colorado.

Nathaniel E. Mackey, Kresge College (1979)

Professor Emeritus, Literature
B.A., Princeton University; Ph.D., Stanford University. Former affiliations: University of Southern California; University of Wisconsin-Madison.

Pascale Mackey, Kresge College (1986)

Professor Emerita, Literature and Language Studies
B.A., M.A., Oxford University; Ph.D., Princeton University.

Wesley F. Mackey (1993)

Lecturer, Computer Science
B.S., M.S., Ph.D., University of Manitoba.

Piero Madau (2000)

Professor, Astronomy and Astrophysics
B.S., University of Florence; Ph.D., International School for Advanced Studies (Trieste). Former affiliation: Cambridge University.

Roy T. Malan (1980)

Lecturer, Music (Violin and Viola)
Diplomas, Royal Academy of Music, Juilliard School of Music, and Curtis Institute of Music. Concurrent Affiliation: Concurrent affiliations: San Francisco Ballet Orchestra; San Francisco Contemporary Music Players; Telluride Chamber Music Festival; Rocky Ridge Music Center. Former affiliations: Ithaca College; San Francisco Conservatory of Music; San Francisco State University; University of Nevada at Reno; Stanford University.

Carl G. Maltzahn (2006)

Adjunct Professor, Computer Science
Ph.D., Computer Science, University of Colorado at Boulder; Diplom-Informatiker, University of Passau, Germany. Former Affiliations: NetApp; Digital Equipment Corporation.

Roberto Manduchi (2001)

Professor, Computer Engineering
Laurea, Dottorato di ricerca, University of Padova (Italy). Former affiliation: University of Southern California.

Marc S. Mangel, Stevenson College (1996)

Distinguished Professor Emeritus and Research

Teaching and Administrative Staff

Professor, Applied Mathematics and Statistics
B.S., M.S., University of Illinois; Ph.D., University of
British Columbia. Former affiliations: University of
California, Davis; Center for Naval Analyses.

Patrick E. Mantey, Merrill College (1984)

Associate Dean, Jack Baskin Endowed Professor,
CITRIS and ITI Director
B.S., University of Notre Dame; M.S., University of
Wisconsin; Ph.D., Stanford University. Former
affiliations: Stanford University; IBM Research.

Bruce H. Margon, Crown College (2006)

Professor Emeritus, Astronomy and Astrophysics
A.B., Columbia University; M.S., Ph.D., University of
California, Berkeley.. Space Telescope Science
Institute.

Baldo B. Marinovic (1996)

Lecturer, Ecology and Evolutionary Biology
Ph.D., University of Western Australia.

Justin Marion (2005)

Associate Professor, Economics
B.B.A., B.S., Southern Methodist University; Ph.D.,
University of Chicago. Former affiliation: Graduate
School of Business, University of Chicago.

George E. Marsh (1982)

Lecturer, Music (Percussion)
University of Illinois, Champaign/Urbana. Concurrent
affiliation: Sonoma State University. Former
affiliation: San Francisco Conservatory of Music.

Snyder Martha

Lecturer in Science Communication

B.A., Universal Technical Institute, Phoenix.

Alma R. Martinez, Kresge College (2001)

Professor Emerita, Theater Arts (Acting)
B.A., Whittier College; M.F.A., University of Southern
California; Ph.D. cand., Stanford University. Former
affiliations: Aquarius Theater; El Teatro Campesino;
Universal Studios.

Lourde Martinez-Echazabal, Merrill College (1990)

Professor, Latin American and Latino Studies
B.A., M.A., Ph.D., University of California, San Diego.
Former affiliation: Rutgers University.

Enrique Martinez Leal (2014)

Assistant Professor, Art
B.F.A., Polytechnic University of Valencia; M.F.A.,
Ph.D., University of Castilla La Mancha, Spain. Former
affiliations: Spanish Royal Mint, School of
Printmaking and Graphic Design, Madrid; College of
Fine Arts, University of Castilla La Mancha,

Department of Art; Federal University of
Pernambuco, Recife, Brazil; European Institute of
Design, Madrid.

Pradip Mascharak, Oakes College (1984)

Professor, Chemistry and Biochemistry
B.S., M.S., University of Burdwan (India); Ph.D., Indian
Institute of Technology (Kanpur). Former affiliations:
Stanford University; Massachusetts Institute of
Technology.

Geoffrey Mason, Kresge College (1973)

Professor Emeritus, Mathematics
B.Sc., University of London; M.S., Ph.D., University of
Illinois, Chicago.

Dominic W. Massaro, Porter College (1979)

Emeritus, Psychology
B.A., University of California, Los Angeles; M.A., Ph.D.,
University of Massachusetts. Former affiliation:
University of Wisconsin.

Mark F. Massoud (2009)

Associate Professor, Politics
B.A., M.A., University of Notre Dame; Law degree,
Ph.D., University of California, Berkeley. Stanford
University Center on Democracy, Development, and
the Rule of Law..

Michael J. Mateas (2006)

Professor, Computational Media
B.S., University of the Pacific, 1989; M.S., Portland
State University, 1993; Ph.D., Carnegie Mellon
University, 2002. The Georgia Institute of
Technology.

Marc A. Matera

Associate Professor, History

**B.A., University of North Carolina, Chapel Hill;
M.A., University of Colorado, Boulder; Ph.D.,
Rutgers University.**

Samantha M. Matherne (2014)

Assistant Professor, Philosophy
B.A., M.A., University of Pennsylvania; M.A., Ph.D.,
University of California, Riverside. Former affiliation:
University of British Columbia.

Andrew S. Mathews (2007)

Associate Professor, Anthropology
B.Sc., Leeds University, England; M.Sc., Oxford
University, England, M.Phil., Ph.D., Yale University.
Florida International University.

William G. Mathews, Porter College (1970)

Professor Emeritus, Astronomy and Astrophysics
B.S., University of Washington; M.S., University of

Teaching and Administrative Staff

Chicago; Ph.D., University of California, Berkeley.
Former affiliation: University of California, San Diego.

Dean P. Mathiowetz, Merrill College (2003)

Associate Professor, Politics
B.A., University of Minnesota; M.A., Ph.D., University of California, Berkeley.

Claire E. Max (1999)

Professor, Astronomy and Astrophysics; Astronomer,
UC Observatories/Lick Observatory
A.B., Harvard University; Ph.D., Princeton University.

Melanie J. Mayer, Cowell College (1972)

Professor Emerita, Psychology
A.B., Cornell University; M.A., University of Wisconsin-Madison; Ph.D., University of California, San Diego.

Matthew D. McCarthy (2001)

Professor, Ocean Sciences
B.S., University of California, San Diego; Ph.D., University of Washington. Former affiliation: Carnegie Institution of Washington; University of Hawaii; Ecole Normale Supérieure Chimie, Paris.

James McCloskey, Stevenson College (1988)

Professor, Linguistics
B.A., University College Dublin; Ph.D., University of Texas at Austin. Former affiliations: University College Dublin; Dublin Institute for Advanced Studies; University of Texas at Austin.

Jennie L. McDade, Porter College (1987)

Professor Emerita, Art
B.F.A., University of Southern Mississippi; M.F.A., University of Georgia.

Charles E. McDowell, Porter College (1985)

Professor, Computer Science
B.S., California Polytechnic State University, San Luis Obispo; M.S., Ph.D., University of California, San Diego. Former affiliations: University of California, San Diego; Lawrence Livermore National Laboratory; Digital Equipment Corporation.

Dennis C. McElrath, Stevenson College (1965)

Professor Emeritus, Sociology
B.A., University of California, Santa Barbara; M.A., University of California, Los Angeles; Ph.D., Yale University. Former affiliations: University of Southern California; Northwestern University; University of California Education Abroad Program (Padua).

Grant L. McGuire (2009)

Associate Professor, Linguistics
B.A., University of Illinois, Urbana-Champaign; M.A.,

Ph.D., Ohio State University. University of California, Berkeley.

Steven Mc Kay, College Nine (2007)

Associate Professor, Sociology
Ph.D., University of Wisconsin-Madison; M.A., University of Wisconsin-Madison; B.A., University of California, Berkeley.

Patrick M. Mc Kercher, Rachel Carson College (1995)

Lecturer, Writing
B.A., M.A., San Diego State University; Ph.D., University of British Columbia.

Barry S. McLaughlin, Merrill College (1966)

Professor Emeritus, Psychology
B.A., M.S., St. Louis University; Ph.D., Harvard University. Former affiliation: University of California Education Abroad Program (Gottingen).

Ken J. McLaughlin (2008)

Lecturer in Science Communication
B.A., State Univ. of New York at Albany; M.A., Stanford University.

Mallory McWilliams (2009)

Continuing Appointee Lecturer, Economics
B.S., M.B.A., San Jose State University. Former affiliations: San Jose State University, College of Business, Accounting & Finance Department; U.C. Extension; Institute of Banking, San Francisco.

Rita Mehta (2010)

Associate Professor, Ecology and Evolutionary Biology
B.S., B.A., University of California, Berkeley; M.S., University of Texas, Tyler; Ph.D., University of Tennessee, Knoxville. Former affiliation: University of California, Davis.

Robert L. Meister, Kresge College (1973)

Professor of Political and Social Thought and History of Consciousness
B.A., Princeton University; Ph.D., Harvard University. Former affiliation: Harvard University.

Martha Mendoza

Lecturer in Science Communication
B.A., Universal Technical Institute, Phoenix.

Tanya H. Merchant, Porter College (2007)

Associate Professor, Music
B.M., The Peabody Conservatory, Institute of Johns Hopkins University; M.Mus., Goldsmiths College, University of London; Ph.D., University of California Los Angeles.

Teaching and Administrative Staff

R A. Mester, Stevenson College (1989)

Professor, Linguistics
Staatsexamen, University of Göttingen (Germany);
Ph.D., University of Massachusetts-Amherst.

Kathryn E. Metz, Porter College (1971)

Professor Emerita, Art
B.F.A., Bowling Green State University; M.A.,
University of California, Los Angeles. Former
affiliations: New York University; College of St.
Benedict; St. John's University.

Jacob B. Michaelsen, Crown College (1965)

Professor Emeritus, Economics
B.A., M.B.A., Ph.D., University of Chicago. Former
affiliation: University of California, Berkeley.

Edward T. Migliore (1986)

Lecturer, Mathematics
B.A., Rutgers University; M.A., Ph.D., University of
California, Santa Cruz. Former affiliation: Monterey
Peninsula College.

Gary B. Miles, Cowell College (1971)

Professor Emeritus, History
B.A., Colby College; M.A., Harvard University; Ph.D.,
Yale University. Former affiliations: Phillips
Academy; Wesleyan University; University of Texas.

Adam S. Millard-Ball (2012)

Assistant Professor, Environmental Studies
M.A., University of Edinburgh; Ph.D., Stanford
University. Former affiliation: McGill University..

Donald P. Miller (2016)

Assistant Professor, Languages and Applied
Linguistics
B.A., Marquette University; M.A., Ph.D., Northern
Arizona University, Flagstaff. Former affiliation:
California State University, Stanislaus.

Ethan L. Miller, Crown College (2000)

Professor, Computer Science
Sc.B., Brown University; M.S., Ph.D., University of
California, Berkeley. Former affiliation: University of
Maryland, Baltimore County.

Joseph S. Miller, Crown College (1967)

Professor Emeritus, Astronomy and Astrophysics
B.A., University of California, Los Angeles; M.S., Ph.D.,
University of Wisconsin.

Leta E. Miller, Porter College (1978)

Professor Emerita, Music (Music History and Flute)
B.A., Stanford University; M.Mus., Hartt College of
Music, University of Hartford; Ph.D., Stanford
University. Former affiliations: Foothill College; Hartt
College of Music.

Mary K. Miller

Lecturer in Science Writing
B.A., University of California, Santa Cruz.

Tyrus H. Miller, Cowell College (1999)

Professor, Literature; Vice Provost and Dean
Graduate Studies
B.A., M.A., M.A., Johns Hopkins University; Ph.D.,
Stanford University.

Glenn L. Millhauser, Cowell College (1988)

Professor, Chemistry and Biochemistry
B.S., California State University, Los Angeles; M.S.,
Ph.D., Cornell University.

Marcia Millman, Stevenson College (1971)

Professor Emerita, Sociology
B.A., Ph.D., Brandeis University.

Dejan Milutinovic (2009)

Associate Professor, Computer Engineering
Diplom-Ingenieur and M.S., University of Belgrade,
Yugoslavia; Ph.D., Technical University of Lisbon,
Portugal. Army Reserach Office (ARO), North
Carolina, National Research Council Research
Associate; Duke University, Durham, North Carolina,
Postdoctoral Researcher; Utrecht Univeristy, The
Netherlands, Postdoctoral Researcher.

Nicholas O. Mitchell (2015)

Assistant Professor, Feminist Studies
B.A., Columbia University; Ph.D., University of
California, Santa Cruz. Former affiliations: University
of California, Riverside; University of California,
Berkeley.

Richard R. Mitchell (1983)

Lecturer, Mathematics
B.A., M.A., Ph.D., University of California, Santa Cruz.

Helene Moglen, Kresge College (1978)

Professor Emerita, Literature
B.A., Bryn Mawr College; M.A., Ph.D., Yale University.
Former affiliations: State University of New York at
Purchase; New York University.

Kivie Moldave (1984)

Professor Emeritus, Molecular, Cell, and
Developmental Biology
B.A., University of California, Berkeley; M.S., Ph.D.,
University of Southern California. Former affiliations:
Tufts University; University of Pittsburgh; University
of California, Irvine.

James C. Monroe (2006)

Associate Professor, Anthropology
Ph.D., University of California, Los Angeles. Former
affiliation: Departments of African and African-

Teaching and Administrative Staff

American Studies, Anthropology, and History,
Washington University in St. Louis.

Richard Montgomery, Crown College (1990)

Professor, Mathematics
B.A., Sonoma State University; Ph.D., University of
California, Berkeley. Former affiliation:
Massachusetts Institute of Technology.

Megan C. Moodie (2009)

Associate Professor, Anthropology
B.A., Skidmore College; Ph.D., University of California,
Santa Cruz.

Andrew M. Moore (2006)

Professor, Ocean Sciences
D.Phil., University of Oxford, England. Former
affiliation: Program in Atmospheric and Oceanic
Sciences (PAOS) and Cooperative Institute for
Research in Environmental Sciences (CIRES),
University of Colorado.

James C. Moore, Crown College (1970)

Professor Emeritus, Earth and Planetary Sciences
B.A., University of California, Santa Barbara; Ph.D.,
Princeton University.

Cynthia A. Mori (1983)

Physical Education Instructor
B.A., M.A., California State University, Long Beach.
Former affiliation: Saddleback College.

Robin D. Morris (2008)

Associate Adjunct Professor, Applied Mathematics
and Statistics
M.A., Cambridge University; Ph.D., Cambridge
University. Universities Space Research Association.

Margaret E. Morse, Porter College (1991)

Professor Emerita, Film and Digital Media
B.A., Humboldt State University; M.A., Ph.D.,
University of California, Berkeley. Former affiliations:
San Francisco State University; University of San
Francisco; University of Southern California.

Thomas Moschetti (2016)

Lecturer, Economics
B.A., San Francisco State University; M.S., San Jose
State University. Former affiliations: San Jose State
University; Hartnell Community College; San
Francisco State University; Internal Revenue Service.

Judit N. Moschkovich, Crown College (1999)

Professor, Education
B.S., University of Minnesota; M.A., Ph.D., University
of California, Berkeley. Former affiliations: Research
scientist and project director, TORC, Cambridge,
Massachusetts; research scientist and project

director, Institute for Research on Learning, Menlo
Park, California.

Eduardo Mosqueda, College Ten (2007)

Associate Professor, Education
B.A., University of California Irvine; Ed.M., Harvard
Graduate School of Education; Ed.D., Harvard
Graduate School of Education.

David A. Muldawer (1996)

Physical Education Instructor
B.A., University of California, Santa Cruz.

Gordon Mumma, Porter College (1973)

Professor Emeritus, Music
Composer of electronic and instrumental music.
Former affiliations: Cursos Latinoamericanos de
Musica Contemporanea; Mills College; University of
California, San Diego; Merce Cunningham Dance
Company; Sonic Arts Union; University of Illinois.

Derek C. Murray (2007)

Associate Professor, History of Art and Visual Culture
B.F.A., Art Center College of Design; M.A., California
State University Los Angeles; M.A., Cornell University;
Ph.D., Cornell University. University of South Florida,
University of California Berkeley.

Ruth Murray-Clay (2016)

Associate Professor, Astronomy and Astrophysics
Ph.D, University of California, Berkeley.

Madhavi Murty (2015)

Assistant Professor, Feminist Studies
B.Sc., M.A., University of Mumbai, India; M.A.,
University of Minnesota, Minneapolis-St. Paul; Ph.D.,
University of Washington, Seattle.

John T. Musacchio (2004)

Professor, Technology Management
B.S., Ohio State University; M.S., Ph.D., University of
California, Berkeley. Former affiliation: TerraBlaze,
Inc.

Bassam Musaffar (2015)

Adjunct Professor, Computer Engineering
B.S., M.S., Ph.D, University of Missouri Columbia.

Kim I. Musch (1998)

Physical Education Instructor
A.B., University of California, Berkeley; M.A., San Jose
State University. Former affiliations: University of
California, Berkeley; Chabot College; Ohlone College.

Peggy B. Musgrave, Crown College (1980)

Professor Emerita, Economics
B.A., M.A., American University; Ph.D., Johns Hopkins
University. Former affiliations: Northeastern

Teaching and Administrative Staff

University; University of California, Berkeley; Vassar College.

Olga Najera Ramirez, Merrill College (1989)

Professor Emerita, Anthropology
B.A., University of California, Santa Cruz; M.A., Ph.D., University of Texas at Austin.

Onuttom Narayan, Rachel Carson College (1995)

Professor, Physics
M.Sc., Indian Institute of Technology; M.A., Ph.D., Princeton University. Former affiliation: Harvard University.

Michael Nauenberg, Crown College (1966)

Professor Emeritus, Physics
B.S., Massachusetts Institute of Technology; Ph.D., Cornell University. Former affiliations: Columbia University; Stanford Linear Accelerator Center.

Paul Nauert, Porter College (1996)

Professor, Music
B.M., Eastman School of Music; M.A., Ph.D., Columbia University.

Marta A. Navarro (1990)

Lecturer, Spanish Language
B.A., M.A., University of California, Berkeley.

Jerry E. Nelson (1994)

Professor Emeritus, Astronomy and Astrophysics;
Astronomer, UC Observatories/Lick Observatory
B.S., California Institute of Technology; Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Jerome Neu, Cowell College (1972)

Professor Emeritus, Humanities
B.A., Princeton University; D.Phil., Oxford University.

Dard A. Neuman, Porter College (2004)

Associate Professor, Music; Kamil and Talat Hasan
Endowed Chair in Classical Indian Music
B.A., University of Washington, Amherst; M.Phil., Ph.D., Columbia University. Former affiliation: Columbia University.

Andrew T. Newberry, Cowell College (1965)

Professor Emeritus, Ecology and Evolutionary
Biology
B.A., Princeton University; Ph.D., Stanford University.

Ellen S. Newberry (1997)

Lecturer, Writing
B.A., Brown University; M.A., San Francisco State University. Former affiliations: De Anza College; Evergreen Valley College.

Jason A. Nielsen (2006)

Professor, Physics
Ph.D., University of Wisconsin, 2001. Lawrence Berkeley National Laboratory.

Walter H. Nimmo (2005)

Professor, Earth and Planetary Sciences
Ph.D., Cambridge University. Former affiliations: University College, London; University of California, Los Angeles.

Harry F. Noller, Crown College (1968)

Research Professor, Molecular, Cell, and
Developmental Biology
B.A., University of California, Berkeley; Ph.D., University of Oregon. Former affiliations: Institut de Biologie Moleculaire (Geneva); MRC Laboratory of Molecular Biology (Cambridge, England).

Loisa C. Nygaard, Crown College (1975)

Associate Professor, German Literature
B.A., Ph.D., Cornell University.

Katia Obraczka (2001)

Professor, Computer Engineering
B.S., M.S., Federal University of Rio de Janeiro; M.S., Ph.D., University of Southern California. Former affiliation: University of Southern California.

Marcia Ochoa, Kresge College (2005)

Associate Professor, Feminist Studies
B.A., University of Michigan (Anthropology, Women's Studies); A.M., Stanford University (Cultural and Social Anthropology); Ph.D., Stanford University (Cultural and Social Anthropology). Former affiliation: Doctoral Candidate, Cultural and Social Anthropology, Stanford University.

James R. Oconnor, Rachel Carson College (1976)

Professor Emeritus, Sociology
B.S., Ph.D., Columbia University. Former affiliations: Barnard College; Washington University; San Jose State University.

Rodney T. Ogawa, College Ten (2002)

Professor Emeritus, Education
B.A., University of California, Los Angeles; M.A., Occidental College; Ph.D., Ohio State University. Former affiliation: University of California, Riverside.

Matthew D. O'Hara, Cowell College (2006)

Associate Professor, History
Ph.D., University of California, San Diego. Former affiliation: New Mexico State University.

Shigeko Okamoto (2008)

Professor, Japanese Language
B.A., Kyoto Prefectural University; M.A., California

Teaching and Administrative Staff

State University, Fresno; Ph.D., University of California, Berkeley. Concurrent Affiliation: California State University, Fresno.

Scott R. Oliver (2004)

Professor, Chemistry and Biochemistry
B.Sc., Ph.D., University of Toronto. Former affiliation: State University of New York at Binghamton.

Brad Olsen (2004)

Professor, Education
B.A., Bowdoin College; M.Ed., Harvard Graduate School of Education; Ph.D., University of California, Berkeley. Former affiliation: University of California, Los Angeles.

Gregory O'Malley (2008)

Associate Professor, History
B.A., Boston University; M.A., Ph.D., Johns Hopkins University.. California Institute of Technology..

Nicoletta Orlandi (2014)

Associate Professor, Philosophy
B.A., University of Florence, Italy, M.A., Ph.D., University of North Carolina at Chapel Hill.

Charles L. Ortiz, Cowell College (1973)

Professor Emeritus, Ecology and Evolutionary Biology
B.A., California State University, Northridge; Ph.D., University of California, Los Angeles.

Richard E. Otte, Cowell College (1982)

Professor, Philosophy
B.A., Colorado State University; M.A., Ph.D., University of Arizona. Former affiliation: University of Pittsburgh.

Karen M. Ottemann, Crown College (1998)

Professor, Microbiology and Environmental Toxicology
B.S., University of California, Davis; Ph.D., Harvard University. Former affiliation: University of California, Berkeley.

Michael M. Oye (2011)

Assistant Adjunct Professor, Electrical Engineering
B.S., University of California, Santa Barbara; M.S., Ph.D., University of Texas at Austin. Former affiliations: San Jose State University, University of California, Los Angeles.

Jaye Padgett, Stevenson College (1992)

Professor, Linguistics
B.A., University of Maryland; Ph.D., University of Massachusetts-Amherst.

Jeffrey D. Paduan (1997)

Associate Adjunct Professor, Ocean Sciences
B.S.E., University of Michigan, Ann Arbor; Ph.D., Oregon State University. Concurrent Affiliation: Concurrent affiliation: Naval Postgraduate School.. Former affiliation: Scripps Institution of Oceanography, University of California, San Diego.

Nicole A. Paiement, Porter College (1988)

Professor Emerita, Music
B.M., University of Ottawa; M.M., McGill University; D.M.A., Eastman School of Music. Former affiliations: McGill University; Eastman School of Music.

Eric P. Palkovacs (2012)

Associate Professor, Ecology and Evolutionary Biology
B.S., University of Michigan, Ann Arbor; M.S., Ph.D., Yale University. Former affiliation: Duke University.

Laurie Palmer (2015)

Professor, Art
B.A., Williams College; M.F.A., School of the Art Institute of Chicago. Former affiliation: School of the Art Institute of Chicago.

Annapurna D. Pandey (1990)

Lecturer, Anthropology
B.A., Utkal University (Orissa, India); M.A., Ph.D., Jawaharlal Nehru University (New Delhi, India).

Triloki N. Pandey, Crown College (1973)

Professor Emeritus, Anthropology
B.A., M.A., Lucknow University (India); M.A., Cambridge University; Ph.D., University of Chicago. Former affiliations: Cambridge University; University of Pittsburgh; New York University.

Alex Pang, Merrill College (1990)

Professor, Computer Science
B.S., University of the Philippines; M.S., Ph.D., University of California, Los Angeles.

Ingrid M. Parker, College Nine (1998)

Professor, Ecology and Evolutionary Biology
A.B., University of Chicago; Ph.D., University of Washington.

Ingrid M. Parker, College Nine (1998)

Professor, Ecology and Evolutionary Biology
A.B., University of Chicago; Ph.D., University of Washington.

Jennifer A. Parker, Porter College (1999)

Associate Professor, Art
B.A., University of California, Santa Barbara; M.F.A., Rutgers University.

Teaching and Administrative Staff

Sarah-Hope Parmeter, Merrill College (1985)

Lecturer, Writing
B.A., Mills College; M.A., University of California, Davis.

Kyle T. Parry (2016)

Assistant Professor, History of Art and Visual Culture
B.A., University of California, Berkeley; Ph.D., Harvard University. Former affiliations: University of Rochester, Harvard University.

Carrie L. Partch (2011)

Assistant Professor, Chemistry and Biochemistry
B.S., University of Washington, Ph.D., University of North Carolina, Chapel Hill. Former affiliations: University of Washington; University of North Carolina, Chapel Hill; University of Texas Southwestern Medical Center.

Eleonora Pasotti, Merrill College (2003)

Associate Professor, Politics
M.Sc., London School of Economics; M.Phil., Ph.D., Columbia University.

Benedict Paten

Assistant Professor, Biomolecular Engineering
Ph.D., University of Cambridge.

Adina Paytan (2008)

Lecturer, IMS Research Scientist, Institute of Marine Sciences
B.S., Hebrew University, Jerusalem; M.S., Weizmann Institute of Science, Rehovot; Ph.D., Scripps Institution of Oceanography. Former affiliations: University of California, San Diego.

Arthur Pearl, Rachel Carson College (1972)

Professor Emeritus, Education
B.A., M.A., Ph.D., University of California, Berkeley. Former affiliations: Howard University; University of Oregon.

Devon E. Pearse (2009)

Adjunct Assistant Professor, Ecology and Evolutionary Biology; NOAA Fish. Ser. SW Fish. Sci. Ctr
B.A., University of California, Santa Cruz; Ph.D., University of Georgia. NOAA Southwest Fisheries Science Center.

John S. Pearse, Rachel Carson College (1971)

Professor Emeritus, Ecology and Evolutionary Biology
B.S., University of Chicago; Ph.D., Stanford University. Former affiliations: American University in Cairo; California Institute of Technology.

David A. Pease (2009)

Assistant Adjunct Professor, Computer Engineering
M.S. and Ph.D., University of California, Santa Cruz.

Lucinda Pease-Alvarez (1990)

Professor Emerita, Education
B.A., Willamette University; M.A., Ph.D., Stanford University. Former affiliations: Stanford University; University of Alabama.

Kenneth Pedrotti, Porter College (2000)

Professor, Electrical Engineering
B.S., M.S., University of California, Berkeley; Ph.D., Stanford University. Former affiliation: Rockwell Science Center.

James E. Pepper, Rachel Carson College (1972)

Professor Emeritus, Environmental Planning (Environmental Studies)
B.S., B.Arch., Montana State University; M.L.A., M.C.P., University of California, Berkeley. Former affiliation: California State Polytechnic College, Pomona.

Ariel A. Perez (2001)

Lecturer, Spanish Language
B.A., Universidad de Moron, Buenos Aires, Argentina; M.A., Monterey Institute of International Studies. Former affiliations: Defense Language Institute, Salinas Adult School.

Micah E. Perks, Kresge College (1997)

Professor, Literature
B.A., M.F.A., Cornell University. Former affiliations: Hobart and William Smith Colleges; Cornell University.

Thomas F. Pettigrew, Stevenson College (1979)

Professor Emeritus, Social Psychology
B.A., University of Virginia; M.A., Ph.D., Harvard University. Former affiliations: University of North Carolina; Harvard University.

Stacy M. Philpott (2012)

Associate Professor and Alfred E. Heller Chair in Agroecology, Environmental Studies
B.S., University of Washington; Ph.D., University of Michigan. Former affiliations: University of Toledo; Smithsonian Institution, Migratory Bird Center.

Patricia Pinho (2016)

Associate Professor, Latin American and Latino Studies
B.A., M.A., Ph.D., Former affiliation: University of Albany.

Jarmila Pittermann (2008)

Associate Professor, Ecology and Evolutionary Biology

Teaching and Administrative Staff

B.S., McMaster University, Canada; M.S., University of Toronto, Canada; Ph.D., University of Utah. University of California, Berkeley.

Juan E. Poblete, Merrill College (1997)

Professor, Spanish Literature
Licenciante, Universidad de Chile; Ph.D., Duke University. Former affiliation: Duke University.

Grant Pogson, Crown College (1994)

Professor, Ecology and Evolutionary Biology
B.Sc., Carleton University; Ph.D., University of British Columbia. Former affiliations: Dalhousie University (Canada); University of Cambridge (England).

Ira Pohl, Stevenson College (1970)

Professor Emeritus, Computer Science
B.A., Cornell University; M.S., Ph.D., Stanford University. Former affiliation: Thomas J. Watson Laboratory.

Larry Polansky (2013)

Professor, Music
B.A., University of California, Santa Cruz; M.A., University of Illinois, Champaign-Urbana. Mills College; Dartmouth College.

Cynthia L. Polecristi, Stevenson College (1988)

Associate Professor, History
B.A., University of Pittsburgh; M.A., Ph.D., University of California, Berkeley.

Neoklis Polyzotis (2003)

Visiting Professor, Computer Science
Diploma, University of Athens; M.Sc., Ph.D., University of Wisconsin.

Kay Pommerenke (2014)

Lecturer, Economics
M.S., London School of Economics and Political Science; CEMS M.A., U. Catholique de Louvaine, Belgium; Ph.D., M.A., University of California, Santa Cruz.

Clifton A. Poodry, Merrill College (1972)

Professor Emeritus, Molecular, Cell, and Developmental Biology
B.A., M.A., State University of New York at Buffalo; Ph.D., Case Western Reserve University.

Eric C. Porter, Oakes College (2001)

Professor, History, and History of Consciousness
B.A., University of California, Berkeley; M.A., Ph.D., University of Michigan. Former affiliation: University of New Mexico.

Donald C. Potts, Crown College (1977)

Professor, Ecology and Evolutionary Biology

B.Sc., University of Queensland; Ph.D., University of California, Santa Barbara. Former affiliations: Australian National University; Flinders University (Australia).

Nader Pourmand (2008)

Professor, Biomolecular Engineering; Director, UCSC Genomics Sequencing Center
B.S., Stockholm University, Stockholm, Sweden; M.S., Ph.D., Karolinska Institute, Stockholm, Sweden.

Raquel Prado (2001)

Professor, Applied Mathematics and Statistics
B.S., Universidad Simon Bolivar (Caracas, Venezuela); M.S., Ph.D., Duke University. Former affiliation: Universidad Simon Bolivar.

Anthony R. Pratkanis, Stevenson College (1987)

Professor, Psychology
B.S., Eastern Mennonite College; M.A., Ph.D., Ohio State University. Former affiliation: Carnegie Mellon University.

Maria A. Prencipe, Cowell College (1991)

Lecturer, Italian Language
Laurea (M.A.), University of Bari (Italy).

Daniel M. Press, Rachel Carson College (1992)

Professor, Environmental Studies
B.S., University of California, Davis; M.A., Ph.D., Claremont Graduate School. Former affiliations: EPICS International; California Institute of Public Affairs.

Joel R. Primack, Crown College (1973)

Professor Emeritus, Physics
B.A., Princeton University; Ph.D., Stanford University. Former affiliations: Stanford Linear Accelerator Center; Harvard University.

Jason X. Prochaska (2002)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories
B.S., Princeton University; M.S., Ph.D., University of California, San Diego.

Stefano Profumo (2007)

Professor, Physics
B.S., Università di Pisa; M.S., Scuola Normale Superiore, Pisa; Ph.D., International School for Advanced Studies (SISSA-ISAS), Trieste (Italy)..

Mary B. Pudup, Rachel Carson College (1989)

Associate Professor, Social Sciences
B.A., Pennsylvania State University; M.A., Ph.D., University of California, Berkeley. Former affiliation: West Virginia University.

Teaching and Administrative Staff

Geoffrey K. Pullum, Cowell College (1981)

Professor Emeritus, Linguistics
B.A., University of York; Ph.D., University of London.
Former affiliations: University of York; University College London.

Chen Qian (2016)

Assistant Professor, Computer Engineering
Ph.D., University of Texas, Austin.

Jie Qing, Crown College (1997)

Professor, Mathematics
B.S., M.S., Peking University; Ph.D., University of California, Los Angeles. Former affiliation: Columbia University.

Ralph H. Quinn, Stevenson College (1984)

Lecturer, Psychology
A.B., Bowdoin College; M.A., Goddard College; Ph.D., Saybrook Institute (San Francisco).

Peter T. Raimondi, Rachel Carson College (1996)

Professor, Ecology and Evolutionary Biology
B.A., Northern Arizona University; Ph.D., University of California, Santa Barbara. Former affiliation: University of Melbourne.

S R. Rajan, Cowell College (1997)

Associate Professor, Environmental Studies
B.A., Osmania University; B.A., M.A., M.Phil., University of Delhi; D.Phil., University of Oxford.
Former affiliations: Max Planck Institute (Berlin); Cornell University; University of California, Berkeley; University of Oxford.

Arthur P. Ramirez (2009)

Professor, Physics
B.S., Ph.D., Yale University. Former affiliations: LGS; Bell Labs..

Catherine S. Ramirez, Oakes College (2002)

Associate Professor, Latin American and Latino Studies
B.A., M.A., Ph.D., University of California, Berkeley.
Former affiliation: University of New Mexico.

Renya K. Ramirez, Oakes College (2000)

Associate Professor, Anthropology
B.A., University of California, Berkeley; M.A., Ph.D., Stanford University.

Enrico J. Ramirez-Ruiz (2008)

Professor, Astronomy and Astrophysics
B.Sc, Universidad Nacional Autonoma de Mexico; Ph.D., University of Cambridge.

R R. Randolph, Cowell College (1965)

Professor Emeritus, Anthropology

B.A., Ph.D., University of California, Berkeley. Former affiliation: Rice University.

David M. Rank, Rachel Carson College (1971)

Professor Emeritus, Astronomy and Astrophysics
B.S., Pennsylvania State University; M.S., Ph.D., University of Michigan.

Jevgenij Raskatov (2014)

Assistant Professor, Chemistry and Biochemistry
Ph.D., University of Oxford. Former affiliations: California Institute of Technology, University of Heidelberg, Tokyo Institute of Technology.

Tudor Ratiu, Crown College (1987)

Professor Emeritus, Mathematics
B.A., M.A., University of Timisoara (Romania); Ph.D., University of California, Berkeley. Former affiliation: University of Arizona.

Annalisa Rava (2003)

Lecturer, Writing
B.A., Wesleyan University; M.A., San Jose State University.

Ana C. Ravelo, Oakes College (1991)

Professor, Ocean Sciences
B.A., B.S., Stanford University; M.A., M.Phil., Ph.D., Columbia University.

Benjamin Read (2007)

Associate Professor, Politics
B.A., Cornell University; M.A., University of California Berkeley; Ph.D., Harvard University. University of Iowa.

Jennifer E. Reardon, Rachel Carson College (2005)

Professor, Sociology
B.S./B.A., University of Kansas (Biology/Political Science); M.A./Ph.D., Cornell University (Science and Technology Studies). Former affiliation: Harvard University; Brown University; Duke University.

Craig Reinerman, College Ten (1989)

Professor Emeritus, Sociology
B.A., Babson College; M.A., San Francisco State University; Ph.D., University of California, Santa Barbara. Former affiliation: Northeastern University.

Jose Renau Ardevol (2004)

Professor, Computer Engineering
B.S., M.S. Ramon Llull University; Ph.D., University of Illinois at Urbana Champaign.

Michael Rexach (2005)

Professor, Molecular, Cell, and Developmental Biology
B.S., Syracuse University; Ph.D., UC Berkeley; post-

Teaching and Administrative Staff

doctorate, Rockefeller University. Former affiliation: Stanford University.

B. R. Rich (2004)

Professor, Social Documentation and Film and Digital Media

B.A., Yale College. Former affiliation: University of California, Berkeley.

Alan R. Richards, Merrill College (1976)

Professor, Emeritus, Environmental Studies
A.B., A.M., Harvard University; M.A., Ph.D., University of Wisconsin-Madison. Former affiliations: Brooklyn College, City University of New York; University of Wisconsin.

Gerhard Ringel, Crown College (1967)

Professor Emeritus, Mathematics
Dr. rer. nat., University of Bonn; (Hon.) Dr. rer. pol. h. c., University of Karlsruhe. Former affiliations: University of Bonn; Johann Wolfgang von Goethe University (Frankfurt); Free University (Berlin).

Tonya L. Ritola (2014)

Lecturer with Security of Employment, Writing Program
B.A., Winthrop University; M.A., Appalachian State University; Ph.D., University of North Carolina. Former affiliation: Georgia Gwinnett College.

Steven Ritz (2009)

Professor, Physics
B.A., Wesleyan University, Middletown, CT; M.S., University of Wisconsin, Madison; Ph.D., University of Wisconsin, Madison. NASA Goddard Space Flight Center (GSFC).

Cecilia M. Rivas (2007)

Associate Professor, Latin American and Latino Studies
Ph.D., Ethnic Studies, University of California, San Diego. Former affiliation: University of California, San Diego.

Brant E. Robertson (2015)

Associate Professor, Astronomy and Astrophysics
B.S., University of Washington; M.A., Ph.D., Harvard University.

Kyle Robertson (2015)

Lecturer, Philosophy
B.A., Grinnell College; J.D., University of California, Berkeley; M.A., Ph.D., University of California, Santa Cruz.

Forrest G. Robinson, Oakes College (1970)

Professor Emeritus, Humanities

B.A., Northwestern University; M.A., Ph.D., Harvard University. Former affiliation: Harvard University.

Jonathan M. Robinson (2007)

Associate Professor, Economics
S.B., Massachusetts Institute of Technology; M.A., Princeton University; Ph.D., Princeton University.

Pamela A. Roby, Merrill College (1973)

Emerita professor, Sociology
B.A., University of Denver; M.A., Syracuse University; Ph.D., New York University. Former affiliations: George Washington University; Brandeis University.

Constance M. Rockosi (2004)

Professor/Astronomer, Astronomy and Astrophysics
B.S.E., Princeton University; Ph.D., University of Chicago. Former affiliation: University of Washington, Seattle.

Abel Rodriguez (2007)

Professor, Applied Mathematics and Statistics
B.A., M.S., Universidad Catolica Andres Bello, Venezuela; B.S., Universidad Simon Bolivar, Venezuela; M.A., Ph.D., Duke University.

Lisa B. Rofel, Kresge College (1991)

Professor, Anthropology
B.A., Brown University; M.A., Ph.D., Stanford University. Former affiliation: Massachusetts Institute of Technology.

Barbara Rogoff, Porter College (1991)

UC Santa Cruz Foundation Professor, Psychology
B.A., Pomona College; Ph.D., Harvard University. Former affiliations: University of Utah; Center for Advanced Study in the Behavioral Sciences, Stanford University.

Marco A. Rolandi (2016)

Associate Professor, Electrical Engineering
M.S., University of London; Ph.D., Stanford University. Former affiliation: University of Washington.

Alvaro Romero (2000)

Lecturer, Spanish Language
Licenciatura, Universidad de Zaragoza (España); Ph.D., Universidad Complutense de Madrid. Former affiliation: University of Madrid.

Elaine Y. Roos, Porter College (1973)

Professor Emerita, Theater Arts (Costume Design)
B.A., Pomona College; M.F.A., New York University School of the Arts. Former affiliation: State University of New York at Albany.

Norvid J. Roos, Porter College (1974)

Professor Emeritus, Theater Arts (Design)

Teaching and Administrative Staff

B.F.A., University of Illinois; M.F.A., New York University. Former affiliations: The Electric Company, Children's Television Workshop; Metropolitan Opera; Illinois Wesleyan University.

Jasper A. Rose, Porter College (1965)

Professor Emeritus, Art, History, and History of Art and Visual Culture

B.A., M.A., Cambridge University. Former affiliations: Cambridge University; University of Keele (England); Rice University.

Itai Rosenbaum (2015)

Lecturer, Music

B.M., Berklee College of Music; M.M., Jerusalem Academy of Music and Dance; D.M.A., University of California, Santa Cruz.

Ittai Rosenbaum (2015)

Lecturer, Music

B.M., Berklee College of Music; M.M., Jerusalem Academy of Music and Dance; D.M.A., University of California, Santa Cruz.

Paul A. Roth, Cowell College (2004)

Distinguished Professor, Philosophy

B.A., Wesleyan University; M.A., Ph.D., University of Chicago. Former affiliation: University of Missouri, St. Louis.

Wendy F. Rothwell (1998)

Lecturer, Biomolecular Engineering

B.A., San Jose State University; B.S., San Jose State University; Ph.D., University of California, Santa Cruz.. University of Santa Cruz MCD Biology Department..

Giulia J. Ruben (2011)

Lecturer, Molecular, Cell, and Developmental Biology

B.A., University of California, Santa Cruz; M.S., Stanford University; Ph.D., University of California, Santa Cruz.

Seth M. Rubin (2006)

Associate Professor, Chemistry and Biochemistry

B.A., Columbia University; Ph.D. University of California, Berkeley..

Susana Ruiz (2014)

Assistant Professor, Film and Digital Media

M.F.A., Cooper Union for the Advancement of Science and Art; M.F.A., Ph.D., University of Southern California. Former affiliations: University of Southern California; Take Action Games.

Danilyn Rutherford (2009)

Professor, Anthropology

Ph.D, Cornell University. University of Chicago.

Warren Sack, Porter College (2002)

Professor, Film and Digital Media

B.A., Yale University; S.M., Ph.D., Massachusetts Institute of Technology. Former affiliations: University of California, Berkeley; Massachusetts Institute of Technology; University of Paris VIII.

Hamid R. Sadjadpour (2001)

Professor, Electrical Engineering

B.S., M.S., Sharif University of Technology (Tehran); Ph.D., University of Southern California. Former affiliation: AT&T Research Laboratories (New Jersey).

Guriqbal S. Sahota (2010)

Assistant Professor, Literature

B.A., University of California, Santa Cruz; M.A., Ph.D., University of Chicago. Former affiliation: University of Minnesota, Twin Cities.

Chad W. Saltikov (2004)

Professor, Environmental Toxicology

B.S., University of California, Santa Barbara; Ph.D., University of California, Irvine. Former affiliation: California Institute of Technology.

Ricardo G. Sanfelice (2014)

Associate Professor, Computer Engineering

M.S., Ph.D., University of California, Santa Barbara. Former affiliations: University of Arizona, Tucson.

Jeremy R. Sanford (2008)

Associate Professor, Molecular, Cell and Developmental Biology

B.A., biology and biochemistry, Case Western Reserve University; Ph.D., molecular biology and microbiology, Case Western Reserve University. Indiana University School of Medicine.

Bruno Sanso (2002)

Professor, Applied Mathematics and Statistics

B.Sc., M.Sc., Universidad Simón Bolívar; Ph.D., Universidad Central de Venezuela. Former affiliations: Duke University; Universidad Simón Bolívar.

Donald T. Saposnek, Stevenson College (1978)

Lecturer, Psychology

B.A., University of California, Los Angeles; M.A., San Jose State University; Ph.D., Ohio State University. Former affiliations: Institute of Juvenile Research (Chicago); University of San Francisco.

Bruce K. Sawhill (2012)

Adjunct Assistant Professor, Computer Engineering

Ph.D., Stanford University.

Teaching and Administrative Staff

William M. Saxton (2007)

Professor, Molecular, Cell, and Developmental Biology
Ph.D., University of Colorado; M.S., California State University, Northridge; B.S., University of Minnesota. Indiana University, Bloomington.

Felici Schaeffer-Grabiel (2005)

Associate Professor, Feminist Studies
B.A., San Diego State University; M.A., University of Arizona; Ph.D., University of Minnesota, Minneapolis. Former affiliations: UC President's postdoctoral fellow; Latin American/Latino Studies, UCSC.

John M. Schechter, Merrill College (1985)

Professor Emeritus, Music
A.B., Hamilton College; M.M., Indiana University; Ph.D., University of Texas at Austin. Former affiliations: New England Conservatory of Music; Syracuse University.

Daniel Scheie, Kresge College (1987)

Professor, Theater Arts (Drama)
B.A., Indiana University at Bloomington; M.A., Ph.D., University of California, Berkeley.

Martine Schlag, Rachel Carson College (1988)

Professor, Computer Engineering
B.A., M.S., Ph.D., University of California, Los Angeles. Former affiliation: University of Washington.

Stuart A. Schlegel, Merrill College (1968)

Professor Emeritus, Anthropology
B.A., University of California, Los Angeles; M.A., Ph.D., University of Chicago. Former affiliation: University of Chicago.

Thomas W. Schleich, Crown College (1969)

Professor Emeritus, Chemistry and Biochemistry
B.S., Cornell University; Ph.D., Rockefeller University.

Zack Schlesinger, Cowell College (1995)

Professor, Physics
B.A., University of California, Santa Barbara; Ph.D., Cornell University. Former affiliation: IBM Research-Yorktown Heights, New York.

Holger Schmidt (2001)

Professor, Electrical Engineering
B.S., University of Stuttgart; M.S., Ph.D., University of California, Santa Barbara.

Tsim D. Schneider (2015)

Assistant Professor, Anthropology
B.A., M.A., University of Texas, Austin; Ph.D., University of California, Berkeley. Concurrent Affiliation: Concurrent affiliation: University of

California President's Postdoctoral Fellow, University of California, Santa Barbara.

Roger Schoenman, College Ten (2003)

Associate Professor, Politics
B.A., Johns Hopkins University; M.Sc., London School of Economics; Ph.D., Columbia University.

Maria Schonbek, Crown College (1986)

Professor Emerita, Mathematics
Licenciatura, University of Buenos Aires; Ph.D., University of Michigan, Ann Arbor. Former affiliation: Duke University.

Bruce A. Schumm (1995)

Professor, Physics
B.A., Haverford College; Ph.D., University of Chicago. Former affiliation: Lawrence Berkeley National Laboratory.

Hilde L. Schwartz (1998)

Senior Lecturer, Earth and Planetary Sciences
B.A., University of California, Santa Barbara; Ph.D., University of California, Santa Cruz. Former affiliation: Museum of Northern Arizona.

Susan Y. Schwartz, Cowell College (1989)

Professor, Earth and Planetary Sciences
B.S., Brown University; M.S., Ph.D., University of Michigan.

Thomas J. Schwarz (2005)

Adjunct Professor, Computer Science
Ph.D., Computer Science and Engineering, University of California, San Diego. Former affiliation: Santa Clara University.

Judith A. Scott, Crown College (2000)

Associate Professor, Education
B.A., University of California, Davis; M.A., Ph.D., University of Illinois, Urbana-Champaign. Former affiliation: Simon Fraser University.

Peter L. Scott, Stevenson College (1966)

Professor Emeritus, Physics
B.A., University of California, Berkeley; M.A., University of Michigan; Ph.D., University of California, Berkeley. Former affiliation: Stanford University.

William G. Scott, Crown College (1998)

Professor, Chemistry and Biochemistry
B.S., B.S., Bates College; Ph.D., University of California, Berkeley. Former affiliation: Indiana University.

Ana M. Seara, Merrill College (1998)

Lecturer, Portuguese Language
B.A., Universidade Federal do Rio de Janeiro; M.A., Ph.D., University of North Carolina. Former

Teaching and Administrative Staff

affiliations: University of California, Berkeley; Stanford University.

Abraham Seiden, Crown College (1976)

Professor Emeritus, Physics
B.S., Columbia University; M.S., California Institute of Technology; Ph.D., University of California, Santa Cruz.

Daniel Selden, Oakes College (1988)

Professor, Classics (Literature)
B.A., M.Phil., Ph.D., Yale University. Former affiliations: Barnard College; Columbia University; Yale University.

Vanita Seth, Merrill College (2001)

Associate Professor, Politics
B.A. (Hons., 1st class), University of Sydney; Ph.D., University of Melbourne.

Travis L. Seymour, College Ten (2001)

Associate Professor, Psychology
B.A., Northwestern University; M.S., Ph.D., University of Michigan.

Nikolaos Sgourakis (2015)

Assistant Professor, Chemistry and Biochemistry
B.S., National University of Athens; M.Sc., National University of Athens; Ph.D., Rensselaer Polytechnic Institute.

Scott A. Shaffer

Lecturer, Ocean Sciences
B.S., San Diego State University; M.S., Ph.D., University of California, Santa Cruz.

Juned M. Shaikh (2013)

Assistant Professor, History
B.A., University of Pune; M.A., University of Chicago; Ph.D., University of Washington. Former affiliations: Xavier University, Cincinnati; South Asia Council, Yale University.

Edward A. Shanken (2016)

Associate Professor, Arts Division
B.A., Corporation of Haverford College; MBA, Yale University; M.A., Ph.D., Duke University.

Beth A. Shapiro (2012)

Associate Professor, Ecology and Environmental Biology
B.S., M.S., University of Georgia; Ph.D., Oxford University. Former affiliation: Pennsylvania State University.

Helen Shapiro, College Nine (1997)

Associate Professor, Sociology
B.A., Hampshire College; M.A., M.Phil., Ph.D., Yale

University. Former affiliation: Harvard Business School.

Buchanan Sharp, Stevenson College (1970)

Professor Emeritus, History
B.A., University of California, Berkeley; M.A., University of Illinois; Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Sriram Shastry (2003)

Professor, Physics
B.Sc., Nagpur University (India); M.Sc., Indian Institute of Technology (Madras, India); Ph.D., Tata Institute of Fundamental Research (India). Former affiliation: Indian Institute of Science (Bangalore).

Carolyn M. Shaw, Kresge College (1972)

Professor Emerita, Anthropology
B.S., Ph.D., Michigan State University. Former affiliations: College of San Mateo; University of Nairobi.

Jerome M. Shaw, College Nine (2003)

Emeritus, Education
B.A., M.A., Ph.D., Stanford University. Former affiliation: Science for Linguistic Inclusion Project, WestEd.

Heather M. Shearer (2012)

Associate Chair, Lecturer with Security of Employment, Writing
Ph.D., Syracuse University.

Deanna Shemek, Cowell College (1990)

Professor, Italian and Comparative Literature
B.A., University of Nebraska; M.A., Ph.D., Johns Hopkins University. Former affiliations: Yale University; University of Pennsylvania.

Carol Shennan (1997)

Professor, Environmental Studies
B.A., Ph.D., University of Cambridge. Former affiliation: University of California, Davis.

Ajay Z. Shenoy (2014)

Assistant Professor, Economics
Ph.D., Rackham Graduate School, University of Michigan.

Robert J. Shepherd (1981)

Senior Lecturer, Emeritus, Economics
B.S., M.A., University of Southern California; California Certified Public Accountant. Former affiliation: Price Waterhouse & Co.

Alexander Sher (2008)

Associate Professor, Physics

Teaching and Administrative Staff

Diploma of Higher Education: Novosibirsk State University, Russia; Ph.D., University of Pittsburgh. SCIPP; Budker Institute of Nuclear Physics, Russia.

Cecilia J. Shin (2002)

Physical Education Instructor, Scuba
B.A., M.A., University of California, Santa Cruz.

Ivy Sichel (2016)

Associate Professor, Linguistics
Ph.D., City University of New York. Former affiliation: The Hebrew University of Jerusalem.

Eli A. Silver, Crown College (1973)

Professor Emeritus, Earth and Planetary Sciences
B.A., University of California, Berkeley; Ph.D., Scripps Institution of Oceanography, University of California, San Diego. Former affiliations: U.S. Geological Survey; Scripps Institution of Oceanography.

Mary E. Silver, Oakes College (1972)

Professor Emerita, Ocean Sciences
B.A., University of California, Berkeley; Ph.D., Scripps Institution of Oceanography, University of California, San Diego. Former affiliation: San Francisco State College (Moss Landing Marine Laboratories).

Emily V. Sinclair (2014)

Lecturer, Music (Voice)
B.A., Yale University; M.M., Manhattan School of Music; Certificate, Northwestern University; D.M.A., University of Colorado.

Barry R. Sinervo (1997)

Professor, Ecology and Evolutionary Biology
B.S., Dalhousie University; Ph.D., University of Washington. Former affiliation: Indiana University.

Bakthan Singaram, Merrill College (1989)

Professor, Chemistry and Biochemistry
B.Sc., M.Sc., Ph.D., University of Madras (Tamil Nadu, India). Former affiliation: Purdue University.

Nirvikar Singh, Crown College (1982)

Professor, Economics
B.Sc., M.Sc., London School of Economics; Ph.D., University of California, Berkeley. Former affiliation: University of Delhi.

Marilou Sison Mangus (2013)

Assistant Professor, Ocean Sciences
M.S., University of the Philippines; Ph.D., University of California, Irvine. Former affiliation: University of Basel, Switzerland.

Andrew J. Skemer (2016)

Assistant Professor, Astronomy and Astrophysics

B.A., Swarthmore College; M.A., Ph.D., University of Arizona. Former affiliation: University of Arizona.

Paul N. Skenazy, Kresge College (1971)

Professor Emeritus, Literature
B.A., University of Chicago; M.A., Ph.D., Stanford University. Former affiliation: Stanford University.

Lisa Sloan, Crown College (1992)

Professor Emerita, Earth Sciences
B.S., Allegheny College; M.S., Kent State University; Ph.D., Pennsylvania State University. Former affiliation: University of Michigan.

Amanda M. Smith (2016)

Assistant Professor, Literature
B.A., M.A., Michigan State University; Ph.D., Johns Hopkins University.

Bradley R. Smith (2006)

Lecturer, Computer Engineering
B.A., M.S., Ph.D., University of California, Santa Cruz.

David M. Smith (2003)

Professor, Physics
S.B., Massachusetts Institute of Technology; M.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Donald R. Smith, Crown College (1996)

Professor, Microbiology and Environmental Toxicology
B.A., University of California, Santa Cruz; M.A., San Francisco State University (Moss Landing Marine Laboratories); Ph.D., University of California, Santa Cruz.

Graeme H. Smith, Merrill College (1989)

Professor, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.Sc., Ph.D., Australian National University. Former affiliations: Space Telescope Science Institute; Harvard-Smithsonian Center for Astrophysics; Dominion Astrophysical Observatory.

Ruth L. Solomon, Porter College (1970)

Professor Emerita, Theater Arts (Dance)
B.A., Bard College. Former affiliations: University of Hawaii; Punahou Academy; Indiana University; New York University School of the Arts; Chautauqua Institution.

Michael Soule, Rachel Carson College (1989)

Professor Emeritus, Environmental Studies
B.A., California State University, San Diego; M.A., Ph.D., Stanford University. Former affiliations: University of Michigan; University of California, San Diego.

Teaching and Administrative Staff

Catherine M. Sousloff, Cowell College (1987)

Professor Emerita, History of Art and Visual Culture
(UC Presidential Chair)

A.B., Ph.D., Bryn Mawr College. Former affiliations:
University of North Carolina at Chapel Hill; University
of Connecticut.

Roswell L. Spafford, Kresge College (1978)

Lecturer with Security of Employment, Emerita,
Writing

B.A., University of California, Santa Cruz; M.A., San
Francisco State University. Former affiliation: San
Francisco State University.

Alan C. Spearot (2007)

Associate Professor, Economics

B.S., University of Michigan; M.S., University of
Wisconsin; Ph.D., University of Wisconsin.

Melanie Springer (2013)

Associate Professor, Politics

B.A., University of California, San Diego; M.A.,
M.Philosophy, Ph.D., Columbia University. Former
affiliation: Washington University, St. Louis.

Shelley Stamp, Porter College (1994)

Professor, Film and Digital Media

B.A., University of Toronto; M.A., Ph.D., New York
University. Former affiliation: Queen's University
(Canada).

Audrey E. Stanley (1969)

Professor Emerita, Theater Arts (Drama)

B.A., University of Bristol; M.A., Ph.D., University of
California, Berkeley. Former affiliations: University of
Victoria (British Columbia); Dalhousie University;
City of Birmingham College of Education;
Nottinghamshire County College of Education; School
of Art (Guildford, England).

Brian J. Staufienbiel, Porter College (1996)

Lecturer, Music (Voice)

B.A., University of California, Santa Cruz; M.M., San
Jose State University; D.M.A., Eastman School of
Music. Former affiliations: Eastman School of Music;
Santa Clara University.

Adriane Steinacker (2003)

Lecturer, Astronomy and Astrophysics and Physics
Ph.D., Universitat Bonn, Germany. NASA Ames
Research Center.

Andrea Steiner (1998)

Lecturer, Community Studies

Ph.D., Rand Graduate School of Policy Studies; M.S.,
University of Southern California; A.B., Brown
University. Concurrent Affiliation: Senior Lecturer in

Gerontology & Health Policy, University of
Southampton, UK (on leave since January 2001).

Elizabeth Stephens, Porter College (1994)

Professor, Art

B.F.A., Tufts University; M.F.A., Rutgers University;
Diploma, School of the Museum of Fine Arts, Boston.

Patricia L. Stoddart (1993)

Professor, Education

B.A., University of Leeds (England); M.A., University
of Birmingham (England); Ph.D., University of
California, Berkeley. Former affiliations: Michigan
State University; University of Utah.

Nancy E. Stoller, Rachel Carson College (1973)

Emerita, Community Studies

B.A., Wellesley College; M.A., Ph.D., Brandeis
University. Former affiliation: Emmanuel College.

Abraham D. Stone, Cowell College (2005)

Associate Professor, Philosophy

A.B., Harvard University; M.A., Princeton University;
Ph.D., Harvard University.. University of Chicago..

Michael D. Stone (2007)

Associate Professor, Chemistry and Biochemistry

B.A., University of Pennsylvania; Ph.D., University of
California, Berkeley.

Victoria A. Stone (2008)

Associate Professor, Microbiology and Environmental
Toxicology

B.A., Cornell University; Ph.D., University of
California, Berkeley.. Tufts University School of
Medicine..

Benjamin C. Storm (2012)

Associate Professor, Psychology

B.A., University of California, Santa Barbara; M.A.,
Ph.D., University of California, Los Angeles. Former
affiliation: University of Illinois at Chicago.

Evelyn J. Strauss

Lecturer in Science Writing

B.S., University of California, Berkeley; Ph.D.,
University of California, San Francisco.

Susan Strome (2007)

Professor, Molecular, Cell, and Developmental
Biology

Postdoctorate, University of Colorado; Ph.D.,
University of Washington; B.A., University of New
Mexico. Indiana University, Bloomington.

Joshua M. Stuart, Cowell College (2003)

Professor, Biomolecular Engineering; Associate
Director, CBSE for Cancer and Stem Cell Genomics

Teaching and Administrative Staff

B.S., B.A., University of Colorado; Ph.D., Stanford University. Former affiliation: Stanford University.

Ellen G. Suckiel, Cowell College (1973)

Emerita, Philosophy

B.A., Douglass College; M.A., Ph.D., University of Wisconsin-Madison. Former affiliations: Florida State University; University of Wisconsin.

Junecue Suh (2014)

Assistant Professor, Mathematics

Ph.D., Princeton University. Former affiliation: Massachusetts Institute of Technology.

Elaine A. Sullivan (2013)

Assistant Professor, History

B.A., Duke University; M.A., Ph.D., Johns Hopkins University. Former affiliations: University of California, Los Angeles.

William Sullivan, Crown College (1990)

Professor, Molecular, Cell, and Developmental Biology

B.A., University of California, San Diego; Ph.D., University of Washington. Former affiliation: University of California, San Francisco.

Undang Sumarna, Porter College (1976)

Lecturer, Music (Gamelan)

x. Former affiliations: Akademi Seni Tari Indonesia and Konservatori Karawitan (Bandung, West Java); University of California, Berkeley; University of California, Los Angeles.

David Swanger, Crown College (1971)

Professor Emeritus, Education and Creative Writing

B.A., Swarthmore College; M.A.T., Ed.D., Harvard University. Former affiliation: Harvard University.

David G. Sweet, Merrill College (1971)

Professor Emeritus, History

B.A., Oberlin College; M.A., Ph.D., University of Wisconsin-Madison.

Elizabeth A. Swensen (2016)

Assistant Professor, Art and Design: Games and Playable Media

B.A., Willamette University; M.F.A., University of Southern California. Former affiliation: University of Southern California.

Eugene Switkes, Crown College (1971)

Professor Emeritus, Chemistry and Biochemistry

B.A., Oberlin College; Ph.D., Harvard University. Former affiliations: Oberlin College; General Electric.

Marshall Sylvan, Stevenson College (1965)

Lecturer Emeritus, Mathematics and Statistics

B.S., Roosevelt University; M.S., University of Chicago; Ph.D., Stanford University.

Andrew Szasz, Rachel Carson College (1986)

Professor, Environmental Studies

B.A., Harvard University; M.A., University of Chicago; Ph.D., University of Wisconsin-Madison. Former affiliation: Rutgers University.

Jessica Taft (2014)

Associate Professor, Latin American and Latino Studies

B.A., Macalester College; Ph.D., University of California, Santa Barbara. Former affiliation: Sonoma State University.

Lincoln Taiz (1973)

Professor Emeritus, Molecular, Cell, and Developmental Biology

B.S., University of Utah; Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Dana Takagi, Stevenson College (1987)

Professor, Sociology

B.A., M.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Irvine.

Leila Takayama (2016)

Acting Associate Professor, Psychology

B.A., University of California, Berkeley; M.A., Ph.D., Stanford University. Former affiliations: Google X, Willow Garage, World Economic Forum, Nokia Research Center, Xerox PARC, IBM Research Almaden.

Frank J. Talamantes, Oakes College (1974)

Professor Emeritus, Molecular, Cell, and Developmental Biology

B.A., University of St. Thomas; M.A., Sam Houston State University; Ph.D., University of California, Berkeley.

Hirotaaka Tamanoi, Stevenson College (1996)

Professor, Mathematics

B.S., M.S., University of Tokyo; Ph.D., Johns Hopkins University. Former affiliations: Institut des Hautes Etudes; University of Kentucky; Max Planck Institut fur Mathematik; Rutgers University; Institute for Advanced Study (Princeton).

John W. Tamkun, Porter College (1989)

Professor, Molecular, Cell, and Developmental Biology

B.A., University of South Florida; Ph.D., Massachusetts Institute of Technology. Former affiliation: University of Colorado.

Teaching and Administrative Staff

Wang-Chiew Tan (2002)

Professor, Computer Science
B.S., National University of Singapore; M.S., Ph.D.,
University of Pennsylvania.

Robert M. Tanner (1971)

Professor Emeritus, Computer Science
B.S., M.S., Ph.D., Stanford University. Former
affiliation: Tennessee State University.

Patrick Tantalo (1998)

Lecturer, Computer Science
B.S., University of California, Berkeley; Ph.D.,
University of California, Santa Cruz. Former
affiliation: University of Arkansas, Fayetteville.

Jennifer Taylor (2014)

Assistant Professor, Film and Digital Media
B.A., New College of California; M.A., University of
Southern California. Former affiliation: University of
California, Santa Cruz.

Kip T. Tellez, Stevenson College (2000)

Professor, Education
B.A., California State University, Fullerton; M.A., Ph.D.,
Claremont Graduate School. Former affiliation:
University of Houston; Claremont Graduate School.

Balder David Ten Cate (2011)

Associate Adjunct Professor, Computer Science
Ph.D., University of Amsterdam.

Mircea S. Teodorescu (2011)

Associate Adjunct Professor, Computer Engineering
BSc, MSc, Politehnica University, Bucharest, Romania;
Ph.D., Wayne State University, Detroit. Former
affiliations: Cranfield University, United Kingdom;
City University, London; Loughborough University,
United Kingdom.

Richard Terdiman, Kresge College (1987)

Professor Emeritus, Literature
B.A., Amherst College; Ph.D., Yale University. Former
affiliations: Swarthmore College; University of
California, Berkeley; University of California, San
Diego.

Veronica Terriquez (2015)

Associate Professor, Sociology
B.A., Harvard University; M.A., University of
California, Berkeley; Ph.D., University of California,
Los Angeles. University of Southern California.

Bernie R. Tershy (2005)

Adjunct Associate Professor, Ecology and
Evolutionary Biology
B.S., University of California, Santa Cruz; M.S., Moss

Landing Marine Laboratory; Ph.D., Cornell University.
Former affiliation: Institute of Marine Sciences.

David J. Thomas, Stevenson College (1966)

Professor Emeritus, Politics
B.A., Oberlin College; Ph.D., Harvard University.

Megan C. Thomas, Merrill College (2003)

Associate Professor, Politics
B.A., Oberlin College; M.S., London School of
Economics; Ph.D., Cornell University. Former
affiliation: Weatherhead East Asian Institute,
Columbia University.

Bruce A. Thompson, Stevenson College (1990)

Lecturer, History
A.B., Princeton University; M.A., Ph.D., Stanford
University. Former affiliations: Stanford University;
Santa Clara University.

John N. Thompson, Stevenson College (2000)

Professor, Ecology and Evolutionary Biology
B.A., Washington and Jefferson College; Ph.D.,
University of Illinois, Urbana-Champaign. Former
affiliation: Washington State University.

D D. Thorn (2002)

Lecturer, Writing
M.A., San Francisco State University.

Avril Thorne, Stevenson College (1991)

Emerita, Psychology
B.A., University of Utah; M.A., Arizona State
University; Ph.D., University of California, Berkeley.
Former affiliations: University of California, Berkeley;
Emory University; Wellesley College.

Martin T. Tinker (2009)

Adjunct Associate Professor, Ecology and
Evolutionary Biology; Western Eco.Res. Center, USGS
B.S., University of Guelph, Ontario, Canada; M.S.,
University of Waterloo, Ontario, Canada; Ph.D.,
University of California, Santa Cruz. United States
Geological Survey, Western Ecological Research
Center.

Othmar T. Tobisch, Porter College (1968)

Professor Emeritus, Earth and Planetary Sciences
B.A., M.A., University of California, Berkeley; Ph.D.,
University of London (Imperial College). Former
affiliation: U.S. Geological Survey.

Veronica K. Tonay (1989)

Lecturer, Psychology
B.A., University of California, Santa Cruz; M.A., Ph.D.,
University of California, Berkeley.

Teaching and Administrative Staff

Maziar Toosarvandani (2013)

Assistant Professor, Linguistics
Ph.D., M.A., University of California, Berkeley; B.S., University of Virginia. Former affiliations: American Council of Learned Societies, Massachusetts Institute of Technology; University of California, Los Angeles.

Mark Traugott, Stevenson College (1974)

Professor Emeritus, History
B.A., Harvard University; M.A., Ph.D., University of California, Berkeley.

Nina K. Treadwell, Cowell College (2004)

Associate Professor, Music
B.A., B.M., University of Melbourne (Australia); M.A., Ph.D., University of Southern California. Former affiliation: Grinnell College.

Jonathan Trent (2004)

Adjunct Professor, Biomolecular Engineering
Ph.D., Scripps Institution of Oceanography.
Concurrent Affiliation: Concurrent affiliation: NASA Ames Research Center.

Anthony J. Tromba, Cowell College (1970)

Professor, Mathematics
B.S., Cornell University; M.A., Ph.D., Princeton University. Former affiliation: Stanford University.

Anna L. Tsing, Kresge College (1987)

Professor, Anthropology
B.A., Yale University; M.A., Ph.D., Stanford University.
Former affiliations: University of Colorado; University of Massachusetts.

Slawomir M. Tulaczyk (2000)

Professor, Earth and Planetary Sciences
Magister, University of Wroclaw (Poland); Graduate Certificate, University des Saarlandes (Germany); M.Sc., Northern Illinois University; M.Sc., Ph.D., California Institute of Technology. Former affiliation: University of Kentucky.

Michael E. Urban, Stevenson College (1991)

Professor Emeritus, Politics
B.A., Seattle University; M.A., University of Alberta; Ph.D., University of Kansas. Former affiliations: Auburn University; State University of New York, College at Oswego; University of Montana.

Allen Van Gelder, Porter College (1987)

Professor, Computer Science
B.S., Massachusetts Institute of Technology; Ph.D., Stanford University.

Anujan M. Varma, Rachel Carson College (1991)

Professor, Computer Engineering
B.Sc., University of Calicut; M.E., Indian Institute of

Science; Ph.D., University of Southern California.
Former affiliation: IBM Thomas J. Watson Research Center.

Gustavo O. Vazquez, Porter College (1995)

Professor, Film and Digital Media
B.F.A., San Francisco Art Institute; M.A., San Francisco State University. Former affiliations: Exploratorium; Telesistema Michoacano de Radio y Television; Guadalupe Cultural Arts Center.

Jairo Velasco Jr. (2015)

Assistant Professor, Physics
B.S., Syracuse University; Ph.D., University of California, Riverside. Former affiliation: University of California President's Postdoctoral Fellow, U.C. Berkeley.

Yolanda Venegas (2014)

Lecturer, Writing Program
Ph.D., University of California, Berkeley.

Daniele Venturi (2015)

Assistant Professor, Applied Mathematics and Statistics
M.S., Ph.D., University of Bologna. Former affiliation: Brown University.

John F. Vesecky, Crown College (1999)

Professor Emeritus, Electrical Engineering
B.A., B.S., Rice University; M.S., Ph.D., Stanford University. Former affiliations: University of Michigan; Stanford University; University of Leicester (England); SRI International; Sylvania Electronic Defense Laboratories.

Swaminathan Vishwanathan (2014)

Professor, Computer Science
Ph.D., Indian Institute of Science, Bangalore, India.
Former affiliation: Purdue University.

Thomas A. Vogler, Cowell College (1965)

Professor Emeritus, English and Comparative Literature
B.A., University of Chicago; M.A., Ph.D., Yale University. Former affiliation: Yale University.

Steven S. Vogt, Crown College (1978)

Professor Emeritus, Astronomy and Astrophysics; Astronomer, UC Observatories/Lick Observatory
B.S., University of California, Berkeley; M.A., Ph.D., University of Texas at Austin. Former affiliation: University of Texas at Austin.

Susan C. Vollmer (2002)

Lecturer, Music (Horn)
B.M., M.M., San Francisco Conservatory of Music.

Teaching and Administrative Staff

Christopher Vollmers (2014)

Assistant Professor, Biomolecular Engineering
B.S., M.S., University of Wuerzburg, Germany; Ph.D.,
University of Heidelberg, Germany. Former
affiliation: Stanford University.

Matthew W. Wagers (2008)

Associate Professor, Linguistics
A.B., Princeton University; Ph.D., University of
Maryland.

Marilyn A. Walker (2009)

Professor, Computer Science (joint with
Computational Media)
B.A., University of California, Santa Cruz; M.S.,
Stanford University; M.A., Ph.D., University of
Pennsylvania. Former affiliations: University of
Sheffield, England; AT&T Labs, New Jersey;
Mitsubishi Electric Research Laboratories,
Cambridge, Massachusetts; Hewlett-Packard
Laboratories, Bristol, England.

Carl E. Walsh, Crown College (1987)

Professor, Economics
B.A., Ph.D., University of California, Berkeley. Former
affiliation: Princeton University.

Hongyun Wang (1999)

Professor, Applied Mathematics and Statistics
B.S., M.S., Beijing University; Ph.D., University of
California, Berkeley. Former affiliation: Lawrence
Berkeley National Laboratory.

Howard H. Wang, Stevenson College (1970)

Professor Emeritus, Molecular, Cell, and
Developmental Biology
B.S., California Institute of Technology; Ph.D.,
University of California, Los Angeles. Former
affiliations: University of California, Berkeley;
Massachusetts Institute of Technology.

Su-Hua Wang (2003)

Associate Professor, Psychology
B.S., M.S., National Taiwan University; Ph.D.,
University of Illinois, Urbana-Champaign.

Yiman Wang, Porter College (2006)

Associate Professor, Film and Digital Media
B.A., Nanjing University, China; M.A., Beijing
University, China; Ph.D., Duke University. University
of California, Los Angeles.

Zhu Wang

Assistant Professor of MCD Biology
B. S., Peking University; Ph.D., Columbia University;
Postdoctorate, Columbia University Medical Center.

Former affiliation: Columbia University Medical
Center.

Edward C. Warburton, Porter College (2004)

Professor, Theater Arts
B.A., Boston College; Ed.M., Ed.D., Harvard University.
Former affiliations: New York University, Southern
Methodist University, Boston Conservatory; Boston
Ballet; Houston Ballet; American Ballet Theatr II.

Jordan Ward (2016)

Assistant Professor, Molecular, Cell, and
Developmental Biology
Ph.D., University of London. Concurrent Affiliation:
Concurrent affiliation: University of California, San
Francisco.

Noah Wardrip-Fruin (2008)

Professor, Computational Media
B.A., University of Redlands; M.A., New York
University; M.F.A., Ph.D., Brown University..
University of California, San Diego; University of
Baltimore; New York University..

Manfred Warmuth, Stevenson College (1982)

Professor, Computer Science
Vordiplom in Informatik, Frederick Alexander
Universitat (Germany); M.Sc., Ph.D., University of
Colorado.

Michael J. Warren, Cowell College (1968)

Professor Emeritus, English Literature
B.A., M.A., Oxford University (Balliol College); M.A.,
Dalhousie University (Canada); Ph.D., University of
California, Berkeley. Former affiliation: University of
Victoria (British Columbia).

Richard A. Wasserstrom, Stevenson College (1979)

Professor Emeritus, Philosophy
B.A., Amherst College; M.A., Ph.D., University of
Michigan; LL.B., Stanford University. Former
affiliations: University of California, Los Angeles;
Tuskegee Institute; U.S. Department of Justice;
Stanford University.

Kerstin Wasson (2003)

Associate Adjunct Professor, Ecology and
Evolutionary Biology
B.A., Oberlin College; Ph.D., University of California,
Santa Cruz. Concurrent Affiliation: Concurrent
affiliation: Elkhorn Slough Foundation.

Zachary J. Watkins (2009)

Lecturer, Music
B.A., Cornish College of the Arts; M.F.A., Mills College.

Teaching and Administrative Staff

Lewis G. Watts, Porter College (2001)

Professor Emeritus, Art
B.A., M.A., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Marianne Weems (2017)

Professor, Theater Arts

Martin Weissman (2006)

Associate Professor, Mathematics
Ph.D., Harvard University.

David T. Wellman (1983)

Professor Emeritus, Community Studies
B.A., Wayne State University; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; University of Oregon.

C. G. Wells, Porter College (2000)

Professor Emeritus, Education
B.A., University of Cambridge; Dipl. Appl. Ling., University of Edinburgh; Ph.D., University of Bristol. Former affiliations: Ontario Institute for Studies in Education, University of Toronto; University of Bristol.

Randall S. Wells (1983)

Research Associate, Sarasota Dolphin Research Program
B.A., University of South Florida; M.S., University of Florida; Ph.D., University of California, Santa Cruz.

Linda L. Werner, Porter College (1985)

Adjunct Professor, Computer Science
B.A., Clark University; M.S., Ph.D., University of California, San Diego. Former affiliations: Wang Laboratories; Data General Corporation.

Candace West, Rachel Carson College (1979)

Professor Emerita, Sociology
B.A., M.A., Ph.D., University of California, Santa Barbara. Former affiliations: University of California, Santa Barbara; Florida State University.

Jeremy West (2016)

Assistant Professor, Economics
B.S., Ph.D., Texas A&M University. Former affiliation: Massachusetts Institute of Technology.

Marilyn J. Westerkamp, Merrill College (1989)

Professor, History
B.A., Brandeis University; M.A., Ph.D., University of Pennsylvania. Former affiliations: University of Wyoming; Clarion University of Pennsylvania.

Cedric J. Westphal (2009)

Assistant Adjunct Professor, Computer Engineering

M.S., Ecole Centrale, Paris, France; M.S., Ph.D., University of California, Los Angeles.

Donald L. Weygandt, Porter College (1967)

Professor Emeritus, Art
B.F.A., Washington University; M.F.A., University of Illinois. Former affiliations: University of Colorado; San Francisco Art Institute; University of California, Los Angeles.

Hayden V. White, Oakes College (1978)

University Professor Emeritus, History of Consciousness
B.A., Wayne State University; M.A., Ph.D., University of Michigan. Former affiliations: Wesleyan University; University of California, Los Angeles; University of Rochester; Wayne State University.

Emmet J. Whitehead, Porter College (2000)

Professor, Computational Media
B.S., Rensselaer Polytechnic Institute; M.S., Ph.D., University of California, Irvine.

Stephen J. Whittaker (2011)

Professor, Psychology
B.A., University of Cambridge; Ph.D., St. Andrews University. University of Sheffield, United Kingdom; University of Edinburgh, United Kingdom; Stanford University; IBM; AT&T; Hewlett-Packard.

Paul Whitworth, Cowell College (1990)

Professor Emeritus, Theater Arts
M.A. (Hons., 1st class), University of St. Andrews; graduate studies, Oxford University. Former affiliation: Royal Shakespeare Company.

Donald M. Wiberg (2002)

Professor Emeritus, Electrical Engineering
B.S., M.S., Ph.D., California Institute of Technology. Former affiliations: Institute of Electrical and Electronics Engineers; University of California, Los Angeles.

Harold Widom, Stevenson College (1968)

Professor Emeritus, Mathematics
M.S., Ph.D., University of Chicago. Former affiliations: Cornell University; University of Chicago; University of California, Berkeley; Stanford University.

Sheila K. Willey (2014)

Lecturer, Music (Voice)
B.M., Peabody Conservatory; M.A., University of California, Santa Cruz.

David A. Williams (1987)

Adjunct Professor, Physics
A.B., Washington University; A.M., Ph.D., Harvard University.

Teaching and Administrative Staff

Quentin Williams, Porter College (1988)

Professor, Earth and Planetary Sciences
A.B., Princeton University; Ph.D., University of California, Berkeley.

Terrie M. Williams, Rachel Carson College (1994)
Professor, Ecology and Evolutionary Biology
B.S., Douglass College; M.S., Ph.D., Rutgers University.
Former affiliations: Scripps Institution of Oceanography; San Diego Zoo; Sea World Research Institute; Naval Oceans Systems Center Hawaii Laboratories; U.S. Office of Naval Research.

Stanley M. Williamson, Cowell College (1965)
Professor Emeritus, Chemistry and Biochemistry
B.S., University of North Carolina; Ph.D., University of Washington. Former affiliations: University of California, Berkeley; Cambridge University.

Christopher C. Wilmers (2006)
Associate Professor, Environmental Studies
B.A., Wesleyan University; Ph.D., University of California, Berkeley.

George C. Wilson, College Nine (1972)
Professor Emeritus, Community Studies
B.A., Harvard University; M.A., Syracuse University.
Former affiliations: Stanford University; Harvard University; Tufts University.

James A. Wilson, Cowell College (1985)
Lecturer Emeritus, Writing
B.A., California State University, Fresno; M.A., Ph.D., University of California, Berkeley. Former affiliation: University of California, Berkeley.

Margaret L. Wilson, Crown College (2001)
Associate Professor, Psychology
B.A., Reed College; Ph.D., University of California, Berkeley.

Robert J. Wilson, Oakes College (2001)
Professor, Literature
B.A., M.A., Ph.D., University of California, Berkeley.
Former affiliation: University of Hawaii at Manoa.

Ronaldo V. Wilson (2013)
Associate Professor, Literature
B.A., University of California, Berkeley; M.A., New York University; Ph.D., The City University of New York. Former affiliation: Mount Holyoke College.

William K. Winant (1983)
Lecturer, Music (Percussion)
B.F.A., York University; M.F.A., Mills College.
Concurrent affiliations: University of California, Berkeley; Mills College; San Francisco Contemporary

Music Players. Former affiliation: Mount Allison University.

Rasmus G. Winther (2007)
Associate Professor, Philosophy
B.A., Stanford University; M.A., Stanford University; Ph.D., Indiana University. Universidad Nacional Autónoma de Mexico (UNAM).

Will T. Wipke, Crown College (1975)
Professor Emeritus, Chemistry and Biochemistry
B.S., University of Missouri; Ph.D., University of California, Berkeley. Former affiliations: University of Missouri; University of California, Berkeley; Harvard University; Princeton University.

Daniel J. Wirls, Merrill College (1988)
Professor, Politics
B.A., Haverford College; M.A., Ph.D., Cornell University.

Donald A. Wittman, Merrill College (1969)
Professor, Economics
B.A., University of Michigan; M.A., Ph.D., University of California, Berkeley. Former affiliations: University of Chicago; University of California, Berkeley.

Alexander Wolf (2016)
Professor, Computer Engineering
Ph.D., University of Massachusetts, Amherst. Former affiliation: Imperial College, London.

Deborah Woo, Rachel Carson College (1984)
Professor Emerita, Community Studies
B.A., Tufts University; M.A., Ph.D., University of California, Berkeley.

Stanford E. Woosley, Crown College (1975)
Professor Emeritus, Astronomy and Astrophysics
B.A., M.S., Ph.D., Rice University. Former affiliations: California Institute of Technology; Rice University; Lawrence Livermore National Laboratory.

Alexandra Z. Worden
Adjunct Professor, Ocean Sciences
B.A., Wellesley College; Ph.D., University of Georgia.
Concurrent Affiliation: Monterey Bay Aquarium Research Institute. Massachusetts Institute of Technology.

Ru-Shan Wu (1986)
Center for the Study of Imaging and Dynamics of the Earth (CSIDE) Research Geophysicist
B.S., Northwestern University, China Ph.D., Massachusetts Institute of Technology.

Ting-Ting Wu (2014)
Lecturer, Chinese Language

Teaching and Administrative Staff

B.S., B.A., University of California, Berkeley; M.A., Stanford University.

Tatiani Xifara (2013)

Visiting Assistant Professor, Applied Mathematics and Statistics
Ptychion, M.Sc., University of Athens, Greece; Ph.D., Lancaster University, United Kingdom.

David Yager (2009)

Professor Emeritus, Art Department (Design, Photography and Printmedia)
H.D.D., DeMontfort University, U.K.; M.F.A., Florida State University; B.A., University of Connecticut.

Toshishige Yamada (2008)

Adjunct Professor, Electrical Engineering
B.S., M.S., University of Tokyo; Ph.D., Arizona State University. Former affiliations: NASA Ames Research Center; Stanford University; Arizona State University..

Karen T. Yamashita, Kresge College (1997)

Professor, Literature (Creative Writing)
B.A., Carleton College. Former affiliation: University of California, Los Angeles.

Alice S. Yang, Merrill College (1993)

Associate Professor, History
B.A., Brown University; M.A., Ph.D., Stanford University.

Joel Yellin (1984)

Professor, Emeritus
B.S., California Institute of Technology; M.S., Ph.D., University of Chicago. Former affiliations: Massachusetts Institute of Technology; Lawrence Radiation Laboratory, University of California, Berkeley; Institute for Advanced Study (Princeton).

Fitnat Yildiz, Crown College (2002)

Professor, Microbiology and Environmental Toxicology
B.S., Hacettepe University (Ankara, Turkey); Ph.D., Indiana University. Former affiliation: Carnegie Institution of Washington.

Hawa F. Yildiz, Crown College (2002)

Professor, Microbiology and Environmental Toxicology
B.S., Hacettepe University (Ankara, Turkey); Ph.D., Indiana University. Former affiliation: Carnegie Institution of Washington.

Allan P. Young, Crown College (1984)

Professor, Emeritus
M.A., D.Phil., Oxford University. Former affiliations: Oxford University; Institut Laue-Langevin (Grenoble,

France); Cornell University; Imperial College (London).

Judith Yung, Oakes College (1990)

Professor Emerita, American Studies
B.A., San Francisco State College; M.L.S., Ph.D., University of California, Berkeley. Former affiliations: University of California, Berkeley; Stanford University; San Francisco State University.

James C. Zachos, Crown College (1992)

Professor, Earth and Planetary Sciences
B.S., State University of New York, College at Oneonta; M.S., University of South Carolina; Ph.D., University of Rhode Island. Former affiliation: University of Michigan.

Alan M. Zahler (1994)

Professor, Molecular, Cell, and Developmental Biology
B.S., Carnegie Mellon University; Ph.D., University of Colorado, Boulder.

Jack Zajac, Porter College (1969)

Professor Emeritus, Art
F.A.A.R., American Academy in Rome. Former affiliations: University of Colorado; Artist-in-Residence, American Academy in Rome.

Erika S. Zavaleta, Rachel Carson College (2003)

Professor, Environmental Studies
B.A., M.A., Ph.D., Stanford University. Former affiliation: University of California, Berkeley.

Patricia J. Zavella, Rachel Carson College (1984)

Professor, Latin American and Latino Studies
B.A., Pitzer College; M.A., Ph.D., University of California, Berkeley.

Jonathan P. Zehr (1999)

Professor, Ocean Sciences
B.S., Western Washington University; Ph.D., University of California, Davis. Former affiliation: Rensselaer Polytechnic Institute.

Jin Z. Zhang, Crown College (1992)

Professor, Chemistry and Biochemistry
B.S., Fudan University (Shanghai); Ph.D., University of Washington. Former affiliation: University of California, Berkeley.

Xi Zhang (2015)

Assistant Professor, Earth and Planetary Sciences
B.S., Peking University; M.S., Ph.D., California Institute of Technology. Former affiliations: University of Arizona, California Institute of Technology.

Teaching and Administrative Staff

Yi Zhang, Rachel Carson College (2005)
Professor, Technology Management
B.S., Tsinghua University, China; MS., Ph.D., Carnegie Mellon University. Former affiliation: Carnegie Mellon University.

Zemin J. Zhang
Adjunct Professor, Biomolecular Engineering
B.S., Nankai University; Ph.D., Penn State University.

Jishen Zhao
Assistant Professor, Computer Engineering
B.Eng., M.Eng., Zhejiang University; Ph.D., Pennsylvania State University. Former affiliations: Hewlett-Packard Labs.

Xixi Zhao (1991)
Research Professor, Earth and Planetary Sciences;
CSIDE Research Geophysicist
B.S., M.A., University of Science and Technology of China; Ph.D., University of California, Santa Cruz.
Former affiliation: Institute of Geology, Academia Sinica (Beijing).

Adrienne L. Zihlman, Oakes College (1967)
Professor, Emerita
B.A., University of Colorado; Ph.D., University of California, Berkeley.

Zachary A. Zimmer (2016)
Assistant Professor, Literature

B.A., Columbia University; M.A., Ph.D., Cornell University. Former affiliation: Virginia Polytechnic Institute and State University.

Martha C. Zuniga, Merrill College (1989)
Professor, Molecular, Cell, and Developmental Biology
B.A., University of Texas at Austin; M.Phil., Ph.D., Yale University. Former affiliation: University of Texas at Austin.

Yi Zuo (2007)
Professor, Molecular, Cell, and Developmental Biology
Postdoctorate, NYU School of Medicine; Postdoctorate, University of Texas; Ph.D., Northwestern University; B.S., Tsinghua University. Former affiliation: University of Texas, Austin.

Eileen L. Zurbriggen, College Ten (2000)
Professor, Psychology
B.S., M.S., Michigan State University; M.A., Ph.D., University of Michigan.

Eve C. Zyzik (2008)
Associate Professor, Language Program
B.A., Indiana University, Bloomington; Ph.D. University of California, Davis. Former affiliation: Michigan State University.

UNIVERSITY ADMINISTRATION

The governance of the university is entrusted, under the state constitution, to the Regents of the University of California. The Board of Regents is presently composed of 18 members who are appointed by the governor of California, subject to California State Senate confirmation; seven members who participate because of the offices they hold; and a student member appointed by the board.

The president of the university is the chief executive of the 10-campus system. He or she is appointed by the Regents and is directly responsible to them.

Each of the 10 campuses of the university has a chancellor, its chief administrative officer, who is

responsible for the organization and operation of the campus, including academic, student, and business affairs.

The Academic Senate, consisting of the faculty and certain administrative officers, determines the conditions for admission and degrees, subject to the approval of the Regents; authorizes and supervises courses and curricula; and advises the university administration on important matters such as appointments and promotions, budgets, student discipline, and administration of the library.

THE REGENTS

EX OFFICIO REGENTS

Jerry Brown
Governor of California

Gavin Newsom
Lieutenant Governor

Anthony Rendon
Speaker of the Assembly

Tom Torlakson
Superintendent of Public Instruction

Janet Napolitano
President of the University

Teaching and Administrative Staff

J. Alberto Lemus
Vice Chair, Alumni Associations of the University of California

Francesco Mancia
President, Alumni Associations of the University of California

APPOINTED REGENTS

(Term expires on March 1 of year indicated)

Maria Anguiano (2029)

Richard C. Blum (2026)

NONDISCRIMINATION AND AFFIRMATIVE ACTION POLICIES

2017-18 General Catalog

STUDENT-RELATED MATTERS

The University of California, in accordance with applicable federal and state law and university policy, does not discriminate on the basis of race, color, national origin, religion, sex, gender, gender identity, gender expression, pregnancy¹, physical or mental disability, medical condition (cancer related or genetic characteristics), genetic information, ancestry, marital status, age, sexual orientation, citizenship, or service in the uniformed services². The university also prohibits sexual harassment.

This nondiscrimination policy covers admission, access, and treatment in University programs and activities.

Inquiries regarding the University's student-related nondiscrimination policies may be directed to [Conduct and Community Standards](#), (831) 459-1738, or email sja@ucsc.edu.

Inquiries regarding the University's affirmative action, equal employment opportunity, and nondiscrimination policies as they relate to student employment may be directed to the Office for Diversity, Equity, and Inclusion, (831) 459-3676 or email cbene@ucsc.edu.

Inquiries regarding the UC Policy on Sexual Violence and Sexual Harassment and UC Santa Cruz Procedures for Reporting and Responding to

Reports of Sexual Violence and Sexual Harassment and/or any other violations of Title IX (sex/gender discrimination; harassment or discrimination based on sexual orientation, gender identity, gender expression, or pregnancy) may be directed to Interim Title IX Officer Cherie Scricca, (831) 459-2462, or email cscricca@ucsc.edu.

Student inquiries regarding disability or disability accommodations may be addressed to the Director, Disability Resource Center, (831) 459-2089; or email drc@ucsc.edu.

Students with disabilities who are unable to resolve accommodation or discrimination concerns may contact the campus ADA Compliance Officer by phone, (831) 459-4380, or email ashish@ucsc.edu.

NOTES:

1. **Pregnancy** includes pregnancy, childbirth, and medical conditions related to pregnancy or childbirth.
2. **Service in the uniformed services** includes membership, application for membership, performance of service, application for service, or obligation for service in the uniformed services.

EMPLOYMENT-RELATED MATTERS

The University of California prohibits discrimination against or harassment of any person employed by or seeking employment with the university on the basis of race, color, national origin, religion, sex, gender, gender expression, gender identity, sex stereotype, pregnancy, physical or mental disability, medical condition (cancer-related or genetic characteristics), genetic information (including family medical history), ancestry, marital status, age, sexual orientation, citizenship, status as a protected veteran, or service in the uniformed services. The UC

Nondiscrimination Policy applies to prohibited conduct by co-workers and third parties, as well as by supervisors, managers, and other university officials.

University policy prohibits retaliation against any employee or person seeking employment for bringing a complaint of discrimination or harassment. University policy also prohibits retaliation against a person who assists someone with a complaint of discrimination or harassment, or who participates in any manner in an investigation

Nondiscrimination and Affirmative Action Policies

or resolution of a complaint of discrimination or harassment. Retaliation includes threats, intimidation, reprisals, and/or adverse actions related to employment.

While absolute confidentiality cannot be promised, those hearing and investigating discrimination and harassment complaints apply a strict business need-to-know standard when sharing or disclosing information as needed to conduct an investigation, to work toward a resolution, and as university policy, campus policy, and state or federal law dictate. We ask that all involved parties maintain an appropriate level of confidentiality.

UC Santa Cruz maintains comprehensive complaint processes to address discrimination and harassment concerns to ensure that appropriate confidentiality is maintained; that reporters receive a timely response; that investigations are conducted in a timely fashion

by impartial, qualified personnel; systems are in place for documenting and tracking progress; and that appropriate remedial actions and resolutions are offered.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, age or protected veteran status. University policy is intended to be consistent with the provisions of applicable state and federal laws.

Inquiries regarding the university's affirmative action, equal employment opportunity, and nondiscrimination policies for academic, staff and student employment may be directed to the [Office for Diversity, Equity, and Inclusion](#), (831) 459-3676, or email cbene@ucsc.edu.

SEXUAL HARASSMENT AND SEXUAL VIOLENCE/TITLE IX

The University of California cherishes the free and open exchange of ideas and expansion of knowledge. Maintaining this freedom and openness requires objectivity, mutual trust, and confidence; it requires the absence of coercion, intimidation, or exploitation. The principal responsibility for maintaining these conditions must rest upon those members of the university community who exercise the greatest authority and leadership: faculty, managers, and supervisors.

The university has therefore instituted a number of measures designed to protect the campus community from sexual harassment and sexual violence. Students, faculty, and staff who would

like information or a consultation about a Title IX matter; would like to understand resources and reporting options; would like to file a formal complaint; would like to request a training session; and/or would like copies of the UC Policy on Sexual Violence and Sexual Harassment and/or the UC Santa Cruz Procedures for Reporting and Responding to Reports of Sexual Violence and Sexual Harassment should contact Cherie Scricca, Interim Title IX Officer, 105 Kerr Hall, (831) 459-2462 or via email at cscricca@ucsc.edu. For detailed information about the services of the Title IX Office and information about reporting and responding to sexual harassment and sexual violence, please visit their websites at titleix.ucsc.edu/ and safe.ucsc.edu.

Revised: 09/01/17

APPENDIXES

2017-18 General Catalog

APPENDIX A: CALIFORNIA RESIDENCE AND NONRESIDENT SUPPLEMENTAL TUITION

The University of California (UC) Residence Policy and Guidelines is the main source of residency information and is utilized by the Campus Residence Deputy to make determinations regarding residency. Read the full text of the [UC Residence Policy and Guidelines here](#).

If you do not meet the University of California requirements for residence for tuition purposes on the residence determination date for each term in which you propose to attend the university, you must pay a Nonresident Supplemental Tuition in addition to all other fees. The residence determination date is the day instruction begins at the last of the University of California campuses to open for the quarter, and for schools on the semester system, the day instruction begins for the semester.

REGULATIONS GOVERNING RESIDENCE

The determination of residence for tuition purposes at the University of California is governed by the [UC Residence Policy and Guidelines](#) established by the UC Regents, and implemented by the UC Office of the President in consultation with the Office of General Counsel.

Under the UC Residence Policy and Guidelines, adult citizens and certain immigrants and nonimmigrants can establish residence for tuition purposes. The presumption of residence deputies is that students and their parents have read and understand the UC residence requirements prior to submitting their residence information for determination of residence for tuition purposes. Decisions on residence status are made after a student accepts an offer of admission to the university by submitting a Statement of Intent to Register and completes a Statement of Legal Residence.

WHO IS A RESIDENT?

If you are an adult student (at least 18 years of age), you may establish residence in California if

- (1) You are a U.S. citizen.
- (2) You are a permanent resident or other immigrant.

(3) You are a nonimmigrant who is not precluded from establishing a domicile in the U.S. This includes nonimmigrants who hold valid visas of the following types: A, E, G, H-1B, H-4, I, K, L, N, O-1, O-3, R, T, U, or V.

You must be continuously physically present in California for more than one year (366 days) immediately prior to the residence determination date of the term for which you request resident status. Physical presence within the state solely for educational purposes does not constitute the establishment of California residency, regardless of the length of stay.

You must establish your intent to make California your home one year prior to the residence determination date of the term for which you request resident status. You must relinquish your residential ties with your former state of residence and establish those ties with California.

If you are an unmarried undergraduate under age 24 and your parent(s) are not California residents, you must be able to verify financial independence for the two full years immediately preceding the term you wish to enroll. Graduate students are presumed to be financially independent unless they were claimed as a dependent on their parents' federal tax return for the most recent tax year.

UC RESIDENCE AND POLICY GUIDELINES

Information on the following topics can be found at [UC Residence and Policy Guidelines](#):

- Establishing intent and physical presence for California residency, page 11
- Requirements for financial independence, page 13
- Temporary absences, page 16
- General rules applying to minors, page 17
- Exemptions from nonresident supplemental tuition, page 35

PETITIONING FOR CHANGE OF CLASSIFICATION

You must petition in person at the Office of the Registrar for a change of classification from nonresident to resident status. Petitions must be initiated during the filing period for the term for which you intend to be classified as a resident. Late petitions will not be accepted.

TIME LIMITATION ON PROVIDING DOCUMENTATION

If additional documentation is required for residence classification but is not readily accessible, you will have until the third week of instruction of the applicable term to provide it. Failure to meet this deadline will result in your file being closed and your status remaining as a nonresident.

INCORRECT CLASSIFICATION

If you are incorrectly classified as a resident, your classification will be corrected and you will be required to pay all nonresident tuition not paid. If you concealed information or furnished false information and were classified incorrectly as a result, you are also subject to university discipline. Resident students who become nonresidents must immediately notify the campus residence deputy.

INQUIRIES AND APPEALS

INQUIRIES

All inquiries regarding residence requirements, determination, and/or recognized exceptions should be directed to the Residence Deputy, Office of the Registrar, 190 Hahn Student Services Building, University of California, Santa Cruz, 1156 High Street, Santa Cruz, CA 95064-1077, reg-residency@ucsc.edu, or to the Residence Analyst, University of California Office of the General Counsel, 1111 Franklin Street, 8th Floor, Oakland, CA 94607-5200, or email residency.appeal@ucop.edu.

APPEALS

Students denied resident status might have the right to appeal. Appeals must be filed within 30 days of notification of the campus residence deputy's decision.

Instructions and Application to Appeal a Nonresident Classification

RESIDENCY DISCLAIMER

This is only a summary of the UC Residence Regulations and is not a complete explanation of the law regarding residence classification. Changes may be made to the residence requirements between the publication date of this statement and the relevant residence determination date. Any student, following a final decision on residence classification by the residence deputy, may appeal in writing to the residence specialist within 30 days of notification of the residence deputy's final decision.

No other University of California personnel are authorized to provide information regarding residence requirements.

PRIVACY NOTICE

All of the information requested on the Statement of Legal Residence form is required [by the authority of Standing Order 110.2 (a)–(d) of the Regents of the University of California] for determining whether or not you are a legal resident for tuition purposes. You have the right to inspect university records containing the residence information requested on this form. The records are maintained by the Office of the Registrar, 190 Hahn Student Services Building, University of California, Santa Cruz, 1156 High Street, Santa Cruz, CA 95064-1077.

[\[return to top\]](#)

APPENDIX B: UC SANTA CRUZ POLICE DEPARTMENT

UC Santa Cruz Police Department officers are duly sworn peace officers under section 830.2(b) of the California Penal Code. The officers are armed and possess the same authority and responsibility, by law, as those in municipal police departments. Officers patrol the campus 24 hours a day, 365 days a year, on foot, bicycle, motorcycle, or by car. They enforce the law, arrest violators, investigate and suppress crime, investigate traffic and bicycle accidents, and provide a full range of services to the community. For more information about the UC Santa Cruz Police Department, please visit police.ucsc.edu.

REPORTING PROCEDURES

It is important that all crimes, emergencies, and/or suspicious, disturbing, or threatening behaviors occurring on campus be immediately reported to the Police Department to ensure that appropriate action can be taken. Emergencies requiring police, fire, or medical aid can be reported in person or by dialing 911 from any campus phone, cell phone, or landline phone. Emergencies can also be reported by using one of the "Blue Light" emergency phones or elevator phones located throughout the campus. If there is a fire and no telephone is available, activate one of the fire alarm manual pull stations located throughout campus buildings.

Individuals may also report in person at the UC Santa Cruz Police Department located at the base of the campus near the main entrance. Activities or incidents occurring outside of the UC Santa Cruz jurisdiction should be reported immediately to the agency having jurisdiction where the property is located.

Phone Numbers To Call

- **9-1-1 for any emergency situation with serious threat to life or property.**

Appendixes

- **(831) 459-2345.** If unable to dial 9-1-1 from the phone being used for any emergency situation with serious threat to life or property.
- **(831) 459-4980:** Telecommunications Device for the Deaf, 24 hours.
- **(831) 459-2231:** Ext 1. Non-emergency calls for assistance.
- **(831) 459-2100:** Community Safety Program Dispatch Line, 7 p.m. to 3 a.m. nightly.
- **(831) 459-2100:** Campus Night Safety Escort Program Dispatch Line, 8:30 p.m. to 12:15 a.m., Monday through Thursday when classes are in session (except Summer Session).
- **(831) 459-3TIP or (831) 459-3847:** Anonymous Tip Line.

LOST AND FOUND

The UC Santa Cruz Police Department is also responsible for the campus Lost and Found service. To drop off a found item or to inquire about a lost item, please visit the Police Department or call (831) 459-2231.

PARKING ENFORCEMENT

The Parking Enforcement Office (for paying parking citations and requesting special parking consideration) is located at the Police Department. Citation payments may be made online at Paymycite.com 24 hours a day, or in person during business hours.

COMMUNITY SAFETY PROGRAM

Community Safety Officers (CSOs) work in conjunction with the UC Santa Cruz Police, Santa Cruz City Fire, and the administration of university residential communities (both on- and off-campus) to ensure a safe and secure living environment for all residents.

CSOs work in teams and are trained to assist police and fire departments with emergency response, first aid, CPR, and disaster response, across campus and in all residential communities. They carry radios linked to the UC Santa Cruz Police Dispatch Center and are visible in the communities at night from 7 p.m. to 3 a.m. CSOs may be contacted through the UC Santa Cruz Police Dispatch Center at (831) 459-2100.

JEANNE CLERY DISCLOSURE OF CAMPUS SECURITY AND CAMPUS CRIME STATISTICS ACT

Choosing a postsecondary institution is a major decision for students and their families. Along with academic, financial and geographic considerations, the issue of campus safety is a vital concern. In 1990, Congress enacted the Crime Awareness and Campus Security Act of 1990, which amended the Higher Education Act of 1965 (HEA). This act required all postsecondary institutions participating in HEA's Title IV student financial assistance programs to disclose campus crime statistics and security

information. The act was amended in 1992, 1998, and 2000. The 1998 amendments renamed the law the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act in memory of a student who was slain in her dorm room in 1986. It is generally referred to as the Clery Act. More information about the Clery Act can be found at: clerycenter.org.

Campus Security Authorities

Although UC Santa Cruz has a police department, victims of crime may be more inclined to report to someone other than the police. For this reason the Clery Act requires all institutions to collect crime reports from a variety of individuals and organizations that the Clery Act refers to as Campus Security Authorities (CSA). A CSA is an official of the university who has significant responsibility for student and campus activities. They are usually found in departments responsible for, but not limited to, student and campus activities, the police department, community safety programs, student conduct/judicial affairs, housing, athletics, or human resources. This designation also includes any other individual who has been specified by UC Santa Cruz to receive reports of offenses.

CSAs are responsible for immediately reporting crimes and incidents that occur on the UC Santa Cruz campus or affiliated property to the UC Santa Cruz Police Department. More information about CSA responsibility is located at UCSC's [Jeanne Clery Campus Security Act webpage](#).

Annual Campus Security and Fire Safety Report

On October 1 of each year, an email notification is sent to all enrolled students and to academic and staff personnel, providing the website to access the **Campus Security and Fire Safety Report**. This report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by UC Santa Cruz; and on public property within, or immediately adjacent to and accessible from, the campus.

The report also includes information on fire protection systems, fire prevention policies, as well as institutional policies concerning other safety and security matters. You can obtain a copy of this report by contacting the UC Santa Cruz Police Department, 1156 High Street, Santa Cruz, CA 95064, (831) 459-2231, or at the [Police Department website](#).

The UC Santa Cruz Police Department submits the annual crime and fire statistics published in this report to the Department of Education. The statistical information gathered by the Department of Education is available to the public through the [Department of Education website](#).

Consequences for Non-Compliance with the Clery Act

Possible consequences for an institution's non-compliance with the Clery Act include:

- A suspension or limiting of the institutions Title IV funding;
- The Department of Education may issue a civil fine up to \$35,000 per violation;
- The institution may suffer reputational loss due to negative media attention;
- Failure to comply with the Clery Act can be used in various litigation matters.

INCREASED SAFETY MEASURES AND SAFEGUARDS

Pursuant to California Education Code section 67380, each UC campus is required to provide information regarding special safeguards that have been established for particular facilities or activities in the preceding 18 months to increase safety, and any changes in safety precautions expected to be made during the future 24 months.

The following programs or safeguards have been or will be instituted:

- Increased Police Student Ambassador Patrols and Safe Rides App
- Fire system upgrades
- Environmental Health and Safety safeguards and improvements
- Implementation of new Emergency Notification System
- Implementation of new tools for navigating the campus

INCREASED POLICE STUDENT AMBASSADOR PATROLS

In July 2015, the UC Santa Cruz Police Student Ambassador program increased walking patrols at the Coastal Biology Campus (Long Marine Lab) and at McHenry Library. These patrols have assisted in enforcement of the campus smoking policy, non-research animal policy, and with other efforts to deter criminal activity in these locations.

SAFE RIDES APP

During the fall quarter of 2016, the UC Santa Cruz Police Department, in partnership with Transportation and Parking Services (TAPS), will pilot a phone application that will allow members of the campus community to request a "Safe Ride" (free transportation from one location on campus to another) using their smart phones. Police Student Ambassadors, who manage the Night Safety Escort Program, will provide the "Safe Ride." The hours of operation are still being determined. This app will

also be tested for use by those seeking transportation from the Disability Resource Center vans.

TOOLS FOR NAVIGATING THE UC SANTA CRUZ CAMPUS

The Wayfinding Workgroup seeks to improve the tools available for navigating the campus. Over the past 18 months, it has worked on improving temporary signage, recommended improvements to the campus entrance, and developed a pilot project in the Science Hill area. Over the next two years, the group's tasks include writing a campus policy on signage and developing outreach to inform campus constituents about the best ways to direct people to specific locations.

The campus is also in the process of developing a Master Pedestrian Plan to promote walking as the most sustainable way to traverse the campus. The final plan will include an assessment of existing conditions, including gaps in the pedestrian infrastructure, and a plan to create a more pedestrian-friendly campus.

In a parallel effort, Transportation and Parking Services (TAPS) is revising the information posted at each transit stop, including an overall map of the campus, and an enlarged map of the half-mile radius surrounding each stop. TAPS has also launched a bus tracking system app (developed in conjunction with the campus Computer Science Department) that allows riders to see each active campus shuttle in real time on a campus map.

APPENDIX C: DRUG-FREE SCHOOLS AND COMMUNITIES ACT

In compliance with the federal Drug-Free Schools and Communities Act, UC Santa Cruz annually notifies students, faculty, and staff of policies, procedures, and potential consequences related to unlawful possession, use, or distribution of drugs and alcohol on campus. This notice is distributed to students through the colleges and the Graduate Studies Division, and to faculty and staff via email. The university also conducts a biannual review of programs related to drugs and alcohol to determine effectiveness, implement changes, and ensure that disciplinary sanctions are consistently enforced. This review is coordinated by the Dean of Students Office. For information, email deanofstudents@ucsc.edu.

APPENDIX D: SMOKING ON CAMPUS POLICY

The University of California is smoke and tobacco-free at all campus locations. The use of marijuana is prohibited under federal regulations.

Appendixes

Use of all forms of tobacco, including smokeless tobacco products and unregulated nicotine products (e.g., “e-cigarettes”), is strictly prohibited in **all** indoor **and** outdoor spaces including parking lots. Tobacco users are supported in accessing a variety of free and low-cost tobacco-cessation services. For more detailed information about the policy, help quitting, and other resources see the UCSC [Smoke and Tobacco-Free website](#).

APPENDIX E: POLICIES AND REGULATIONS

The Student Policies and Regulations Handbook, the Code of Student Conduct, and related appendixes [may be accessed online](#). The Student Policies and Regulations Handbook is also available in alternate formats from the Conduct and Community Standards. Topics include:

- Policy on Nondiscrimination
- Policy on Speech and Advocacy
- Policy on Use of University Properties
- Policy on Campus Emergencies
- Registered Campus Organizations
- University Obligations and Student Rights
- Policy on Student Governments
- Policy on Campus-Based Student Fees
- Code of Student Conduct
- Policy on Student Grievance Procedures
- Policy on Student Participation in Governance
- Policies Applying to the Disclosure of Information from Student Records
- Guidelines Applying to Nondiscrimination on the Basis of Disability
- University of California Authorized Student Governments
- Use of the University’s Name
- Nondiscrimination Policy Statement for University of California Publications Regarding Student-Related Matters
- UCSC Alcohol and Drug Policy
- University of California Policy on Hazing
- UC Policy on Sexual Violence and Sexual Harassment
- UC Sexual Violence and Sexual Harassment Adjudication Framework
- UCSC Academic Dishonesty Policy
- UCSC Policy on Sexual Orientation Harassment/Discrimination
- UCSC Guidelines for Speakers and Public Events for Students and Campus Organizations
- Policy for Acceptable Use of UCSC Electronic Information Resources (Acceptable Use Policy)
- UCSC Public Nudity and Sexually Offensive Conduct Policy
- UCSC Hate/Bias Incident Policy

- UCSC Procedures for Ensuring Adequate Interim Protection from Retaliation or Intimidation for Complainant(s), Witness(es), and other Individuals
- Official University Policy on Academic Integrity for Graduate Students

For further information, please contact conduct@ucsc.edu.

APPENDIX F: GRADUATE STUDENT–FACULTY ADVISER RELATIONSHIP GUIDELINES

The University of California, Santa Cruz, expects professional, fair, and frequent communication between graduate students and their advisers. Open communication and mutual respect should be the foundation of the relationship between a graduate student and faculty adviser. The graduate adviser and the graduate student should discuss their student-adviser relationship early, and clearly communicate mutual and agreeable expectations from the beginning. Regular interactions, especially face-to-face meetings, are essential in ensuring that expectations and goals are met.

In an optimal learning environment, the faculty adviser should provide timely and constructive feedback on performance and expectations; timely and sufficient warning of inadequate performance; appropriate recognition of a student’s intellectual contributions; and academic and professional advice on all stages of the graduate career. The graduate student should be an active participant in seeking advice and getting feedback on progress, keeping the faculty adviser informed of plans, progress, and obstacles, and contributing during regular progress assessments. The faculty adviser and the student each have the duty and responsibility to initiate meetings as necessary to foster and protect the success of the relationship.

Professionalism and fairness should guide the graduate student–faculty adviser relationship. Graduate students and faculty should avoid relationships that conflict with their particular roles and responsibilities. Faculty advisers and graduate students are bound by policies that prohibit discrimination and harassment. Graduate students may be entitled to accommodations under the Americans with Disabilities Act. (See [Appendix E: Policies and Regulations](#) and [Nondiscrimination and Affirmative Action Policies](#).) When concerns and conflicts arise, they should be raised and attended to professionally, honestly, and promptly. Retaliation and discrimination against students for raising concerns are prohibited.

If something happens that upsets the faculty adviser–graduate student relationship and cannot be resolved

Appendixes

either by direct or indirect discussion, a graduate student can seek assistance from a trusted faculty member, the dean of graduate studies, the graduate director, the department chair, conflict resolution, counseling and psychological services, and/or the Title IX Office. Graduate students may request confidentiality. Many departments have developed processes to address a range of potential concerns. For information about grievance and appeal procedures, see [Appendix E: Policies and Regulations and Nondiscrimination and Affirmative Action Policies](#). For a description of additional informal and formal grievance and appeal processes available to UCSC graduate students, please refer to the [Graduate Student Handbook](#).

APPENDIX G: STUDENT CONDUCT AND COMMUNITY STANDARDS

The Student Conduct and Community Standards Office is responsible for the adjudication of all nonacademic student and student organization misconduct for UCSC. In this capacity, Student Conduct and Community Standards administers the Code of Student Conduct in accordance with Section 100.00 of the Student Policies and Regulations Handbook. Allegations of misconduct may be brought by students, faculty, staff, police, visitors to the campus, and members of the local community. Allegations may be made by submitting a report at the [Conduct and Community Standards webpage](#).

The Student Conduct and Community Standards Office is located in 245 Hahn Student Services and can be reached by phone at (831) 459-1738, by fax at 459-3188, or via email at conduct@ucsc.edu, or [on the Web](#).

Revised: 09/01/17
