Submitting this form through the [Online Curriculum Approval \(OCA\)](#) and advancing it to the next level confirms the following electronic approvals:

Chair/Provost/Dean of sponsoring agency

Chair/Provost/Dean of associate agency

Divisional Dean

Committee on Educational Policy or Graduate Council

## Major Course Revision Process

Check one or more boxes at the top of the form (all that apply). A major revision includes changing the prerequisites for a course, changes in enrollment restrictions, reactivation of a course with new course materials or a new instructor, changes in credits, and changes which affect the general education component of the course. For crosslisted courses, use the Request Approval of a Crosslisted Course form. Use the Request for Course Revision form for minor revisions, such as reactivation with the same instructor, title changes, or minor changes to content.

**Note: to be published, course forms must be submitted with complete information by the deadlines issued by the Office of the Registrar. Unapproved courses are not permitted and cannot be offered.**

### Overview of Course Approval Process

- (1) Instructor or department initiates course.
- (2) Instructor or department attaches a completed supplemental sheet for new courses, major revisions, courses changing from one to two quarters, courses changing from lower to upper division (or vice versa) or to the graduate level, changes in number of credits. Separate supplemental forms are required for undergraduate and graduate courses. Disciplinary Communications (DC) courses require a completed Disciplinary Communications Statement Form.
- (3) Department chair reviews and signs form (provost for colleges, dean for division courses). Department keeps copy of form and photocopy of supplemental sheet.
- (4) Department forwards form to the appropriate division before the deadline set by the Committee on Educational Policy (CEP) and the Graduate Council. Colleges send form to the Dean of Undergraduate Education's Office. For Summer Session-only courses, department forwards form to the Summer Session Office.
- (5) Division dean checks completeness of form and whether adequate resources are available.
- (6) Dean signs form and forwards to the publication editors, Office of the Registrar.
- (7) Publications editors submit form to CEP or Graduate Council for review and approval.
- (8) Publication editors enter approved courses in database and maintain original records.
- (9) Course description is printed in the *General Catalog* or in the subsequent publications update in the *Schedule of Classes*.
- (10) Student-directed seminars also require a student-directed seminar supplemental sheet, a letter from the faculty sponsor describing his or her involvement in the course, and copies of transcript of the apprentice teacher.

### Prerequisites

Only UCSC course prerequisites are checked by the enrollment system. Courses designated "Interview only" are those in which contact with the instructor is necessary for interviews, exams, auditions, portfolio reviews, etc. Interview only courses require permission numbers. Please use the space provided to explain the criteria—interview, audition, etc.; this information will print in the course description. Restrictions and prerequisites can be added to the text of interview only courses but cannot be enforced by the enrollment system.

### Enrollment Restrictions

If you fill in any of these spaces, the enrollment system will automatically restrict the course to people who match the category. If, instead, you only mean to indicate enrollment recommendations to students who might be interested in the class, you may add such recommendations to the course description; this is informational only and will not be enforced by the enrollment system.

### General Education Codes

CC Cross-Cultural Analysis  
ER Ethnicity and Race  
IM Interpreting Arts and Media  
MF Mathematical and Formal Reasoning  
SI Scientific Inquiry
